Legal disclaimer

This document is not a legal instrument. The FRT is an administrative document created by the RCMP's firearms experts who have, based on the definitions set out in the *Criminal Code* and the types of firearms prescribed in the *Regulations Prescribing Certain Firearms and Other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted* (SOR/98-462) *and the Firearms Act*, conducted technical assessments of firearms to assist law enforcement officers, customs officers, and officials responsible for the regulation of firearms with the identification and classification of firearms. The aforementioned Act and Regulations are the prevailing legal authority with respect to firearm classification.

Summary

Make:	1911 Builders
Model:	1911 Government Type
Manufacturer:	1911 Builders
Level:	Manufacturer Specifications and Commercial Customization
Type:	Receiver Blank
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

No Data

Notes

Make	- make is not marked on the receiver blank.
Model	- this record is for receiver/frame blanks sold under a percentage of completion (i.e.: 80%). - 1911 Government Type is not marked on the receiver/frame blank. - this 1911 Government Type receiver blank is made for the standard length 127mm (5.00") barrel and standard length slide. The 1911 Government Type receiver blank is consistent with the standard appearance of the Colt 1911 Government receiver/frame.
Manufacturer	- manufacturer is not marked on the receiver blank. - 1911 Builders is located in Chula Vista, California, U.S.A..
Type	- receiver/frame blanks are sold under a percentage of completion (i.e.: 80%). - receiver/frame blanks that are partially completed require some tooling and minimal skill to be completed.
Canadian Law Comments	- this receiver/frame blank is a nearly complete receiver that falls within the adaptability clause of the Criminal Code Section 2 definition of "firearm".

Notes

Make	- "The '66 Company" is marked on the floorplate.
Model	- "M40" is marked on the barrel. - this is a modern reproduction of the Vietnam War-era US M40 sniper rifle (originally adopted in 1966), as manufactured by the 66 Company, a subsidiary of the M40 Rifle Company. These rifles are custom-manufactured on bare Remington 700 receivers, and finished to replicate the original M40 rifles fielded in Vietnam. - features include: matte blued/parkerized metal finish; tapered heavy barrel; smooth walnut pistol-grip stock with a cheek piece; hinged metal floorplate; sliding safety to the rear of the bolt handle; and tuned for accuracy and trigger pull. - also available in a camouflaged synthetic stock as the "M40A1".
Manufacturer	- "The '66 Company" is marked on the floorplate. - The 66 Company is a division of the M40 Rifle Company that manufactures hand-built recreations of M40 sniper rifles
Action	- turn bolt design.
Serial Number	- serial-numbered on the receiver/frame.
Shots	- internal box magazine.

Manufacturer	- (A) S.T.A.R. is a manufacturer based in Amorebieta, Spain, that produces handguns, rifles, and shotguns.
Action	- side by side barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the water table and/or the tang. - serial number rationalization is unknown. - Spanish government instituted a new system for firearm's serial numbering in 1995. - Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer. - Spanish serial number example is as follows: "27 - 03 - 1#0#1 - 95". - serial number break down: the first two numbers (27) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.
Barrel	- other barrel lengths available on request.
Calibre	- other calibres available on request.
Remarks	- A STAR also offers the "Coach Star" in a rifle configuration.

Notes

Make

- A&K may not be marked on the firearm.
- A&K is a Chinese manufacturer of Automatic Electric Guns (AEG).

Model

- "MASADA" is marked on the left side of the receiver/frame.
- "Masada Airsoft" is a visual copy of the original "MASADA" rifle.
- "Masada Airsoft" is a semi and full automatic 6MM airsoft pellet firearm.
- "MASADA" is an ancient stone fortress in Israel, in reference to the "siege of Masada".
- "MASADA" originally designed and built by "Magpul", that is a firearm accessory manufacturer.
- "MAGPUL MILITARIES ERIE, CO USA" is marked on the left side of the receiver/frame.
- "MAGPUL" in 2008, entered into a licensing agreement with Remington Arms to be responsible for the selective fire version of the "Adaptive Combat Rifle" (ACR), while Bushmaster Firearms International is responsible for the semi-automatic only version, "Bushmaster Adaptive Combat Rifle" (BACR).
- features include: free floating barrel with muzzle flash hider/muzzle brake; receiver/frame is a monolithic, one piece polymer and metal upper assembly and handguard having a "quad-rail" system with a continuous top accessories rail or a polymer handguard; automatic electric guns (AEG) mechanical function; polymer buttstock that may be fixed collapsible (six position) or side folding; polymer lower assembly housing firing control and magazine well having an integral trigger guard and pistol grip; ambidextrous bolt stop/ release and safety lever; matte black or coyote brown finish.
- overall length with a 340 mm (13.375") barrel is 650 mm to 905 mm (25.6" to 35.63"), and average weight is 3 kg (6.6 lbs).

Manufacturer

- A&K may not be marked on the firearm.
- A&K is a Chinese manufacturer of Automatic Electric Guns (AEG).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- spring piston is powered by an electric motor, gear box and battery. - semi-automatic fire. - does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is marked on the right side of the receiver/frame.
Barrel	- inner barrel length is 631mm and the overall length of the outer barrel shroud is 645mm.
Calibre	- "MULTI CALIBER" is marked on the left side of the receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- AIRSOFT - General Guide Lines: Variant #1) CC 84 (1) "replica firearm": muzzle velocity is less than 111.6 mps (366 fps) and/or muzzle energy is less than 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB. Variant #2) CC 2 "firearm" / CC 84 (3) Exempted: muzzle velocity exceeds 111.6 mps (366 fps) and/or muzzle energy exceeds 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB. Variant #3) CC 2 "firearm": muzzle velocity exceeds 238.65 mps (783 fps) and/or muzzle energy exceeds 5.7 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB.

Notes

Make

- "A. A. ARMS, INC." over "MINT HILL, N.C." is marked on the left side of the firearm.

Model

- "MOD. AP9" is marked on left side of the firearm.
- manufactured from 1988 to 1994.
- "AP9" model was distributed by "Kimel Industries".
- features include: adjustable post front sight and a fixed open rear sight; round barrel with or without a ventilated shroud; tubular upper housing with right side ejection and a left side mounted cocking handle; receiver/frame has an integral magazine well and a moulded synthetic vertical pistol grip; detachable box magazine release is mounted on the rear of the magazine well; safety lever is mounted on the left side of the receiver/frame; matte blue/black or nickel plated finish.
- "AP" model was originally designed as a semi-automatic only, but was later available as a select fire (Full Automatic) version.
- overall length with a 178 mm (5") barrel is 302 mm (11.8"), and the average weight is 1.6 kg (3.5 lbs).
- "AP9" has a 127 mm (5") long barrel with a ventilated shrouded.
- "AP9 Mini" has a 76 mm (3") long barrel without a shroud.
- "AP9 Target" has a 305 mm (12") long barrel with a ventilated shroud and a synthetic ribbed forearm.

Manufacturer

- A. A. Arms, Inc. was located in Mint Hill, North Carolina, U.S.A. prior to 1992.
- A. A. Arms, Incorporated was located in Monroe, North Carolina, U.S.A. from 1992 to 1999.
- A. A. Arms, Incorporated manufactured the AP9, AR9, and P95 models.
- A.A. Arms, Incorporated firearm were distributed by Kimel Industries, Inc. of Matthews, North Carolina, U.S.A. from 1989 to 1994.

Action

- blowback operated.

Serial Number

- serial number is marked on the right side of the firearm.
- serial number observed consisted of six numbers without a letter prefix or suffix.

Barrel

- barrel extension is available to increase the length of the barrel to 279 mm.

Calibre

- calibre is marked on left side of the firearm.

Shots

- detachable box magazine.

Notes

Make

- "SYSTEM ABADIE BREVETTE" may be marked on the left side of the firearm.
- Abadie is the name of the gunsmith that reputedly invented the ejection system subsequently used on this and other models.

Model

- model designation is not marked on the firearm.
- adopted by the Portuguese military as the M1886 Troopers model.
- a smaller version was adopted in 1878 as the M1878 Officers model.
- Abadie is commonly associated with a loading gate safety used in numerous European firearms. When the loading gate is opened the hammer is raised to half cock and secured to prevent it from moving forward during loading.
- features include: fixed sights; octagonal barrel with an ejector rod assembly; solid top receiver/frame with a removable fluted cylinder and a right side loading gate (loading gate locks the hammer at half-cock upon opening, allowing the cylinder to rotate for loading/unloading); hinged side plate on left side of receiver/frame; exposed spur hammer; double/single action trigger mechanism; trigger guard swings forward for disassembly; grip strap has a lanyard ring mounted on butt cap; checkered wood grip plates; blued finish.
- overall length is 249mm (9 3/4"), and the average weight is 835gr (29.45oz).

Manufacturer

- "L. Soleil" over "Liege" is marked on the receiver/frame.
- L. Soleil was a Liege, Belgium manufacturer who was in business until 1897.

Serial Number

- serial number may be marked on the receiver/frame and/or on the barrel.
- example observed with five numbers without a letter prefix or suffix.

FRT Report

Firearm Reference Number (FRN): 18546
Make: Abnett, William
Model: Percussion Pistol

Summary

Make:	Abnett, William
Model:	Percussion Pistol
Manufacturer:	Abnett, William
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
18546 - 1	47 PERCUSSION	1	89	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	

Notes

Make	- "ABNETT" or "W. ABNETT", with a "WINDSOR" address, is usually marked on the firearm.
Model	- the model is not marked on the firearm; this is a descriptor of the firearm type. - this is a standard-pattern, percussion pistol manufactured by William Abnett in various formats ("muff pistol", "pocket pistol", and so on), produced by William Abnett prior to 1837. - features may include: blued or browned finish; round or octagonal barrel; under-barrel ramrod (may be hinged); solid or folding trigger; dog-catch or tang safety; checkered walnut pistol-grip.
Manufacturer	- "ABNETT" or "W. ABNETT", with a "WINDSOR" address, is usually marked on the firearm. - William Abnett was a Windsor, Berkshire-based gunmaker between 1790 and 1837, who did much of his work for royalty.
Action	- muzzle-loaded percussion single-shot.
Barrel	- barrel lengths may vary.
Calibre	- calibres may vary.

Notes

Make - "ACCURACY INTERNATIONAL ENGLAND" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 1992. - the model designation "AW" represents Arctic Warfare. - features include: optional adjustable cheekpiece; adjustable length of pull; chassis-system stock design; accessory rail on underside of forestock; cocking indicator and wing safety on the bolt; optional iron sights; detachable muzzle brake; adjustable trigger; removable bipod; optional folding stock; sling/carrying harness attachment system; integral scope rail on receiver/frame; synthetic stock panels. - Note: a suppressed barrel assembly is available and consists of a 406mm (16") barrel inside a 711mm (28") sound suppressor housing. - overall length with a 508mm barrel length is 1020mm (40"), average weight is 6.1kg (13.5lbs)
Manufacturer	- "ACCURACY INTERNATIONAL ENGLAND" is marked on the left side of the receiver/frame.
Action	- manually operated, turn bolt-action, magazine fed, repeating rifle.
Serial Number	- serial number rationalization for all models by Accuracy International is as follows: - two digits indicating year of manufacture, followed by the receiver/frame designation, followed by four digits. - receiver/frame designations loosely correspond with model names; - known letter designations include SM, AWV, AW, AT and AW50.
Calibre	- the calibre designation is marked on the left side of the barrel forward of the receiver/frame.
Shots	- detachable double-row box magazine.
Canadian Law Comments	- certain variations of this firearm left the factory with a sound suppressor/suppressed barrel assembly and is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) shroud is removed from the barrel, the firearm is correctly identified as a "Non Restricted Firearm".

Firearm Reference Number (FRN): 117758
Make: Accuracy International
Model: AWS

Summary

Make:	Accuracy International
Model:	AWS
Manufacturer:	Accuracy International
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
117758 - 1	308 WIN	10	356	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is marked on the left side of the receiver/frame.

Model

- "AWS" is also known as the "Arctic Warfare Suppressed" or "Artic Warfare Silenced".
- the model designation may be marked on the firearm.
- this is the suppressed version of the AW.
- other features include:
- interchangeable barrels
- optional adjustable cheekpiece;
- adjustable length of pull;
- chassis-system stock design;
- accessory rail on underside of forestock;
- cocking indicator and wing safety on the bolt;
- optional iron sights
- adjustable trigger.
- also produced in a "take-down" version, transportable by briefcase, as the "AW Covert".

Manufacturer

- marked on the left side of the receiver/frame.

Serial Number

- serial number rationalization for all models by Accuracy International is as follows:
- two digits indicating year of manufacture, followed by the receiver/frame designation, followed by four digits.
- receiver/frame designations loosely correspond with model names;
- known letter designations include SM, AWV, AW, AT, AWS and AW50.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- barrel length does not include suppressor, with suppressor barrel is 610mm.
Shots	- detachable box magazine.

Notes

Make

- "ACCURACY INTERNATIONAL ENGLAND" is marked on the left side of the receiver/frame.

Model

- discontinued in 2002.
- designed by Malcom Cooper and thus "Coopermatch Series" engraved in script may appear on the top left side of the receiver/frame.
- designed for use in CISM (an international military rifle shooting competition) matches;
- may be found with laminated or solid wooden UIT-style stock.
- features include:
- fluted stainless steel barrel;
- adjustable trigger;
- forend accessory rail;
- iron match-sight mounts for rearsight and foresight attachment;
- integral sight rail capable of accepting optical or iron sights.

Manufacturer

- "ACCURACY INTERNATIONAL ENGLAND" is marked on the left side of the receiver/frame.

Action

- manually operated, turn bolt-action, magazine fed, repeating rifle.

Serial Number

- first 2 digits represent the year, followed by a letter designation, followed by 4-digit sequential number.
- serial number rationalization for all models by Accuracy International is as follows:
- two digits indicating year of manufacture, followed by the receiver/frame designation, followed by four digits.
- receiver/frame designations loosely correspond with model names;
- known letter designations include SM, AWV, AW, AT and AW50.

Shots

- detachable, double row, box magazine.

Notes

Make

- make is usually marked on the firearm.

Model

- model designation may not be marked on the firearm.
- a NATO stock number is usually found marked on the firearm and follows NATO stanag format, ie) 1005-99-XXX-XXXX, the 1005 indicates small arms and the 99 is a country code for Great Britain.
- this firearm was introduced in 2008.
- adopted by Britain, Germany, Norway, Russia and other countries.
- "L115A3" is the British Army model designation as part of their "Sniper System Improvement Program" (SSIP) made by Accuracy International under their "AWM" (Arctic Warefare Magnum) series.
- features include: fluted barrel with suppressor; provision for scope and bipod mounting; fully adjustable, tan or green, folding, thumb hole stock with monopod and rubber butt plate
- overall length with an open stock and the 686mm/27" barrel is 1230mm/48 3/8".

Manufacturer

- usually marked on left side of the receiver/frame

Action

- turn-bolt design.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm left the factory equipped with a sound suppressor/silencer. The sound suppressor meets the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the prohibited device (sound suppressor/silencer) is removed, the firearm is correctly identified as a "Non Restricted Firearm".

23 - 1	7.62MM NATO	10	318	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this is the suppressed version of the standard sniping rifle of the British army.
- features include: two piece synthetic stock mounted to an aluminium chassis; removable sound suppressor; bi-pod and green finish on most components.
- this model is usually equipped with a telescopic sight.
- the fit and finish of the firearm is such that the sound suppressor/silencer looks as if it is integral to the barrel.
- the model designation is marked on the left side of the receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed specimen serial number consisted of a two letter prefix followed by five digits.
- this rifle is also marked on the left side with the NATO stock number 1005-99-967-3405, this should not be confused with the serial number.

Barrel

- this model is equipped with a sound suppressor/silencer that must be removed to measure the true barrel length.

Calibre

- marked on the left side of the receiver/frame.

Shots

- detachable box magazine.

Canadian Law Comments

- as it left the factory, this firearm is equipped with a removable sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make	- "ACCURACY INTERNATIONAL ENGLAND" is marked on the firearm.
Model	- "PM" may or may not be marked on the firearm; "PM" stands for "Precision Marksman". This rifle is the immediate precursor to Accuracy International's "L96A1" series of rifles, and is the version submitted for troop trials prior to the acceptance of the L96A1. Numbers of these rifles were purchased by the UK's SAS and SBS prior to the adoption of the L96A1, and they were also purchased in small numbers by police snipers and civilian target shooters. - features include: typical AI L96A1 layout and appearance; blued or matte parkerized finish; threaded-on slotted angled muzzle brake to resist bullet torque; "chassis"-style clamshell thumbhole buttstock; detachable bipod; sling swivels; rear monopod; no open sights (optics mounting rail provided); and a three-lug bolt with a square shroud covering the striker. - many of the versions of these rifles used by UIT Rapid-Fire rifle shooters are seen in carved, orthopaedic wooden pistol-grip stocks, with high cheek pieces, adjustable butts, and open micrometer sights.
Manufacturer	- "ACCURACY INTERNATIONAL ENGLAND" is marked on the firearm.
Action	- turn bolt design.
Serial Number	- serial-numbered on the receiver/frame.
Calibre	- calibre is usually marked on the barrel.
Shots	- detachable box magazine.

Notes

Make

- "ACCURACY INTERNATIONAL ENGLAND" is marked on the left side of the receiver/frame.

Model

- marked on left side of receiver/frame as "S/S' standing for single shot action.
- features include:
- three lug turn bolt.
- target style stock;
- chassis-based bedding system;
- adjustable trigger;
- metallic target sights fitted as standard;
- solid action floorplate serving as feeding ramp.
- available with stainless steel barrel.

Manufacturer

- "ACCURACY INTERNATIONAL ENGLAND" is marked on the left side of the receiver/frame.

Action

- turn-bolt action.

Serial Number

- serial numbers for Accuracy international products are marked on the right side of the receiver/frame forward of the ejection port in the following fashion: two digits denoting year of production, followed by model designator letters, followed by serial number of the firearm, rising by one for each sample produced of that model.
- a typical serial number would be: 99AW1234.
- in the case of early production target models, the year of manufacture may not be included in the serial number.

Notes

Make

- "ADAMS'S PATENT" is marked on the right side of the receiver/frame.
- "ADAMS" is used as a make on firearms that were built using design patents held by John and Robert Adams.
- John Adams was the brother or cousin of Robert Adams.
- John Adams became Managing Director of the Adams Patent Small Arms Company, Limited in 1864.
- John Adams died in 1881.
- Robert Adams was a inventor and manufacturer located in London, England.
- Robert Adams was the manager of George & John Deane's firearms business at 30 King William Street, London Bridge circa 1846.
- Robert Deane was in partnership with George and John Deane as "Deane, Adams & Deane" from 1851 to 1856.
- Robert Adams sold his interest in Deane, Adams & Deane in 1856.
- Robert Adams was the manager of the London Armoury Company located at Henry Street, Bermondsey from 1856 to 1858.
- Robert Adams established his own firearms business at 76 King William Street from 1858 to 1865.
- Robert Adams had facilities at Henry Street from 1863 to 1865.
- Robert Adams went bankrupt in 1865.
- Robert Adams established a new business at 40 Pall Mall in 1866.
- Robert Adams died in 1870.

Model

- manufactured from 1858 to 1860.
- "Adams 1851 Patent" may be marked on the left side of the receiver/frame.

Manufacturer

- the manufacture of ADAMS' patent handguns was undertaken by many other companies. It is believed that DEANE, ADAMS & DEANE is one of these companies.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- no model designation is marked on this firearm.
- manufactured from 1868 until 1871.
- this model series existed in two versions based on the type of ejector rod system employed; they were known as the M1867A and the M1867B.
- the M1867A utilized a "turnover" latch system whereas the M1867B utilized a press-button system.
- features; solid receiver/frame; single/double action trigger with trigger guard; octagonal barrel; plain unfluted cylinder with rear locking notches; spur hammer; ejector rod on right side of barrel; loading gate located on the right side of the standing breech; fixed rear and front sights; usually has a lanyard ring; blued finish; checkered wooden grips.
- British proofmarks are apparent on the barrel, cylinder and/or receiver/frame of this firearm.

Manufacturer

- usually marked on the top strap and/or barrel as, "ADAMS'S PATENT SMALL ARMS COMPANY, 391 STRAND, LONDON".
- receiver/frame will also be marked with the Adams trademark symbol and/or, "ADAMS'S PATENT".

Serial Number

- serial number is usually marked on the right side of the receiver/frame.
- serial number usually follows the wording, "ADAMS PATENT NO.".
- serial numbering reported is from 500 to 5337 and may have a letter prefix or suffix.

- Robert Adams died in 1870.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "MARK 1" is not marked on the firearm.
- "MARK 1": initial units were accepted into Naval Service in November 1868; and after the adoption of the MARK 2 in February 1872, the earlier converted cartridge pistol became known as the MARK 1. (Do not confuse with the Adams Mark 4).
- features include: an unusually long five shot cylinder (to use the relatively short 450 Revolver Service Cartridge), loading gate on the right side of the frame, rod ejector and housing on the right side of the barrel, spurred hammer with an attached long-nosed firing pin. (MARK 2s and MARK 3s were built with shorter cylinders, as they were not converted from Cap & Ball)
- "MARK 1" was a conversion of the earlier Adams Cap and Ball Percussion Revolver by various manufacturers.
- "MARK 1" conversion included the replacement of the original six shot percussion cylinder and flat-faced hammer, with a five shot bored through cylinder and firing-pin tipped hammer, and reworking the frame to support and eject the 450 Revolver Service Cartridge.
- the original serial number (usually marked on the right side of the receiver/frame below the cylinder) is usually defaced.
- the new serial number (conversion number) is usually marked on the right side of the receiver/frame just above the rear juncture of the trigger guard; and also on the side of the new cylinder, example: 4321
- the date of the conversion is usually marked on the left side of the frame, example: 11.72
- most of the MARK 1s were reworked at a later date, principally to correct a weak cylinder rotation problem, and were remarked MARK IV.

Serial Number

- the original serial number (usually marked on the right side of the receiver/frame below the cylinder) is usually defaced.
- the new serial number (conversion number) is marked on the right side of the receiver/frame just above the rear juncture of the trigger guard; and also on the side of the new cylinder, example: 4321

Shots

- the Adams Mark I revolver was a conversion from a six shot cap & ball revolver to a five shot cartridge arm.
- Mark II and Mark III models are six shot revolvers.
- Mark I and Mark IV models are five shot revolvers.

Notes

Make

- "ADAMS'S PATENT" is usually marked on the right side of the receiver/frame.
- "ADAMS" is used as a make on firearms that were built using design patents held by John and Robert Adams.
- John Adams was the brother or cousin of Robert Adams.
- John Adams became Managing Director of the Adams Patent Small Arms Company, Limited in 1864.
- John Adams died in 1881.
- Robert Adams was a inventor and manufacturer located in London, England.
- Robert Adams was the manager of George & John Deane's firearms business at 30 King William Street, London Bridge circa 1846.
- Robert Deane was in partnership with George and John Deane as "Deane, Adams & Deane" from 1851 to 1856.
- Robert Adams sold his interest in Deane, Adams & Deane in 1856.
- Robert Adams was the manager of the London Armoury Company located at Henry Street, Bermondsey from 1856 to 1858.
- Robert Adams established his own firearms business at 76 King William Street from 1858 to 1865.
- Robert Adams had facilities at Henry Street from 1863 to 1865.
- Robert Adams went bankrupt in 1865.
- Robert Adams established a new business at 40 Pall Mall in 1866.
- Robert Adams died in 1870.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "MARK 1" is not marked on the firearm.
- "MARK 1" was a conversion of the earlier Adams Cap and Ball Percussion Revolver by various manufacturers.
- "MARK 1" date of the conversion is usually marked on the left side of the frame, example: 11.72.
- "MARK 1" conversion included the replacement of the original six shot percussion cylinder and flat-faced hammer, with a five shot bored through cylinder and firing-pin tipped hammer, and reworking the frame to support and eject the 450 Revolver Service Cartridge.
- "MARK 1" initial units were accepted into Naval Service in November 1868; and after the adoption of the MARK 2 in February 1872, the earlier converted cartridge pistol became known as the MARK 1. (Do not confuse with the Adams Mark 4).
- "MARK 1" revolvers were reworked at a later date, principally to correct a weak cylinder rotation problem, and were remarked "MARK IV".
- features include: dovetail front and fixe rear sight; octagonal barrel; ejector rod and housing on the right side of the barrel; solid receiver/frame with a rear hump behind the hammer; unusually long five shot cylinder (to use the relatively short 450 Revolver Service Cartridge); loading gate on the right side of the frame; spurred hammer with an attached long-nosed firing pin; double action trigger mechanism; checkered wood grip with a metal base cap that may have a loop lanyard; blue finish.

Manufacturer

- "L.A. Co." or "LONDON ARMOURY COMP" or variation of, is usually marked on the top strap of the receiver/frame.

Serial Number

- the original serial number (usually marked on the right side of the receiver/frame below the cylinder) is usually defaced.
- the new serial number (conversion number) is marked on the right side of the receiver/frame just above the rear juncture of the trigger guard; and also on the side of the new cylinder.

Shots

- the Adams Mark I revolver was a conversion from a six shot cap & ball revolver to a five shot cartridge arm.
- Mark II and Mark III models are six shot revolvers.
- Mark I and Mark IV models are five shot revolvers.

- Robert Adams established his own firearms business at 76 King William Street from 1858 to 1865.
- Robert Adams had facilities at Henry Street from 1863 to 1865.
- Robert Adams went bankrupt in 1865.
- Robert Adams established a new business at 40 Pall Mall in 1866.
- Robert Adams died in 1870.

Model

- "MARK 2" was adopted into service in February 1872.
- "MARK 3" was introduced on August 24, 1872)
- "WD" and a Roman Numeral "II" are marked on the barrel-lug on the left side, above the foreframe screw in front of the cylinder.
- features include: double action; ejector rod and loading gate attached on the right side below the octagonal barrel; pronounced spur on receiver between hammer and grip; lanyard ring on bottom of grip.
- this firearm's cylinder was designed for six cartridges, and is shorter than the five shot MARK 1 and the MARK 4, both of which were conversions from Cap & Ball.

Manufacturer

- "ADAMS'S PATENT" is usually marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame below the cylinder, and on the outside of the cylinder, example: 5432
Shots	- Mark II and Mark III models are six shot revolvers. - Mark I and Mark IV are five shot revolvers.

Notes

Make

- "Adams" is engraved on the side of the receiver/frame.

Model

- the model is not marked on the firearm.
- this is a typical "screw-barrel" percussion single shot pistol made in the 1800s, with an exposed, manually-cocked hammer, a folding or fixed trigger, (usually) a sliding safety catch that locks into the rear of the hammer to prevent accidental firing, and a screw-off/screw-on barrel for loading and unloading, which is spun with a circular wrench having a keyway that engages a standing lug on the barrel.
- features include: blued or browned finish; round screw-off barrel; no sights; manually cocked hammer with single-action trigger mechanism, within a box-lock frame; and wooden grips on a bag-shaped frame.

Action

- percussion single shot.

Notes

Make

- "ADAMS & Co." was observed marked on the firearm.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a standard-pattern side by side double rifle, in side lock or box lock form, and in under-lever, top-lever, or side-lever opening form.
- features may include: blued or browned finish; Damascus or fluid steel barrels; open express sights; checkered walnut forearm and straight or pistol-grip buttstock; double triggers; side-hammer or hammerless; sling swivels.

Manufacturer

- "ADAMS & Co." was observed marked on the firearm.
- Adams & Company, Wholesale Gunmakers was founded by Henry Adams, circa 1870.
- Henry Adams patented an automatic safety hammer safety system in 1873.
- Adams & Company manufactured pin and centerfire revolvers, rifles and cartridges.
- Adams & Company also manufactured revolvers for John Adams.
- Adams & Company was located in London, England at:
- 9 Finsbury Place South from 1870 to 1880.
- 32 Finsbury Pavement from 1881 to 1894.
- 22 Denmark Street, Soho from 1897 to 1899.
- Adams & Company ceased trading in 1899.

Action

- side by side configuration.

Serial Number

- serial-numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel - barrel lengths may vary

124408 - 2	380 LONG CF	1	680	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ADAMS & Co. 9, FINSBURY PLACE SOUTH LONDON" was observed marked on a barrel.
- "ADAMS & Co., 32, FINSBURY PAVEMENT LONDON" was observed marked on a barrel.

Model

- "Rook Rifle" is not marked on the firearm.
- "Rook Rifle" model designation was used in the United Kingdom in refers to the intended purpose of a small, single shot, lightweight sporting rifle normally used for rabbit, crow, or vermin control.
- "Rook Rifle" was also known as a 'Garden Rifle', 'Rabbit Rifle', or 'Pest/Vermin Rifle'.
- "Rook Rifle" may be found with a number of different types of actions including but not limited to break open (hinged barrel design), falling block or Martini-type.
- this rifle may also be known as the "Martini-Zeller" single shot rifle.
- the Zeller System/Martini-Zeller utilizes an under lever operated Martini-type action with swinging breech block pivoted at the rear but differs from the typical Martini action in that it is designed for a "one-piece" stock and is made with a swinging hammer centrally located at the rear of the receiver/frame instead of a striker.
- Gottlieb Zeller was granted US patent #186,894 dated March 18, 1873 for this action design.
- features include; one piece Walnut stock with straight English style buttstock; octagonal barrel; blued finish with case hardened receiver/frame; two-leaf rear sight with blade front sight.
- British proof marks are apparent on the barrel and receiver/frame.

Manufacturer

- "ADAMS & Co. 9, FINSBURY PLACE SOUTH LONDON" was observed marked on a barrel.
- "ADAMS & Co., 32, FINSBURY PAVEMENT LONDON" was observed marked on a barrel.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- known example had a four digit number without prefix or suffix marked on the left side of the receiver/frame.
Calibre	- known example had the calibre designation marked on the rear of the barrel as, "297/250".

Notes

Make

- "S. ADAMS" or "ADAMS PATENT" is marked on the firearm.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a single-shot heavy-barrel percussion target rifle manufactured by Samuel Adams prior to the US Civil War.
- features may vary, as these rifles were individually hand-crafted, but features may include: blued or browned finish; heavy octagonal barrel (usually fitted with a false muzzle or short-starter to make loading easier); open micrometer-adjustable or optical tube sights; a straight-grip walnut stock with German silver fittings; an engraved sidelock with manually-cocked hammer; a finial trigger guard/gripstrap; crescent buttplate.

Manufacturer

- "S. ADAMS" or "ADAMS PATENT" is marked on the firearm.
- Samuel Adams was an inventor and gunsmith during the mid-1800s who lived and worked in Springfield, Massachusetts (1830s-1838), Troy, New York (1838-1840), and Battle Creek, Michigan (1840s until ~1890). He was granted a patent on a hinged-breech percussion firearm that could be converted from shotgun to rifle (with a barrel insert), and was breech-loaded with pre-loaded insert chambers.

Action

- muzzle-loaded percussion single-shot.

Notes

Make

- "S. ADAMS" or "ADAMS PATENT" is marked on the firearm.
- Samuel Adams was an inventor and gunsmith during the mid-1800s who lived and worked in Springfield, Massachusetts (1830s -1838), Troy, New York (1838-1840), and Battle Creek, Michigan (1840s until ~1890). He was granted a patent on a hinged-breech percussion firearm that could be converted from shotgun to rifle (with a barrel insert), and was breech-loaded with pre-loaded insert chambers.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm.
- this is a unique hinged-breech single-shot percussion shotgun that accepts pre-loaded breech-loading insert chambers, and which can be converted to a rifle through the use of a barrel insert which also accepts pre-loaded breech-loading insert chambers. This firearm was invented and patented by samuel Adams in 1838, and examples were built for Adams by C.B. Allen of Springfield, Massachusetts.
- features include: browned finish; octagonal tip-down barrel, rotating from and supported on two side arms; fixed open sights; under-barrel ramrod; short forearm and straight-grip walnut stock; German silver stock fittings; a manually-cocked back-action side-lock with moderate engraving; a side-pivoting opening lever on the bottom of the action, in front of the trigger-guard; and insert chambers that can be removed from the breech when the action is opened.

Manufacturer

- the manufacturer is marked on the firerarm.
- C.B. Allen built these firearms for Samuel Adams, based on Adams' patent of 1834.

Action

- percussion single-shot with interchangeable chambers.

FRT Report

Firearm Reference Number (FRN): 93537
Make: Adamy
Model: Bockdrilling

Summary

Make:	Adamy
Model:	Bockdrilling
Manufacturer:	Adamy, Gebruder
Level:	Manufacturer Specifications and Commercial Customization
Type:	Combination Gun
Action:	Multi-Barrel
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
93537 - 1	22 LR/8X57RJS MAUSER/12 GA X 2 3/4"	3	635	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make designation is marked on the barrels.

Model

- model is not marked on the firearm.
- this is a semi-custom boxlock combination gun of the type known to the Germans as a "bockdrilling" (a three barreled firearm combining a shot barrel over a large calibre rifle barrel, with a small calibre rifle barrel mounted on the side rib between the two), made to a specific customer's request as per chambering, barrel length, stock dimensions, and engraving/finish.
- features may include: false sideplates, Kersten cross-bolt lock-up, hammerless, extractors or ejectors, double triggers, pistol-grip stock with schnabel forearm, tang safety with wrist barrel selector and open folding leaf or fixed sights.
- some versions fitted with quick detachable scope mounts.
- Adamy also makes several other varieties of Drillings, but these can be distinguished by the fact that they have Greener cross-bolt lock-up and a barrel selector and safety mounted on the tang, while the Bockdrilling has a Kersten lock-up and the barrel selector mounted on the side of the wrist.

Manufacturer

- manufacturer's designation is marked on the barrels.

Action

- hinged barrel design.
- barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.

Serial Number

- serial number is marked on the receiver/frame.

93996 - 1	22 LR/8X57RJS MAUSER/12 GA X 2 3/4"	4	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is marked on the barrels.

Model

- this is a four barrel combination gun.
- this type of firearm is known as a "Vierling" ("vier" meaning "four") in Germany.
- Kersten or Greener lock-up, walnut pistol grip stock and forearm, double-set triggers, open fixed or folding leaf sights, tang safety and barrel selector, and may also be seen with quick detachable scope mounts.
- these combination guns are customarily seen with two side by side shotgun barrels above a major calibre rifle barrel, with a minor calibre rifle barrel either in the centre of the other three, or inset along the top-rib.
- these combination guns are available with any amount of finish and engraving that the customer orders; false sideplates may be fitted to boxlock versions to provide additional room for engraving.

Manufacturer

- manufacturer's designation is marked on the barrels.

Action

- hinged barrel design.
- barrel configurations may be as follows:
- one small calibre rifle barrel mounted over two side by side shotgun barrels which is mounted over a large calibre rifle barrel;
- side by side shotgun barrels mounted over a small calibre rifle barrel which is over a large calibre rifle barrel;
- two side by side shotgun barrels mounted over two side by side rifle barrels;
- two side by side shotgun barrels mounted over two side by side shotgun barrels;
- barrels are mounted in a diamond configuration with two over and under shotgun barrels with two side by side rifle barrels; and
- barrels are mounted in a diamond configuration with two over and under rifle barrels with two side by side shotgun barrels .

Serial Number

- serial number is marked on the receiver/frame.

Notes

Make

- known example marked "GEBR. ADAMY" on the barrels.

Model

- no model name appears on this firearm.
- this is a generic entry for over/under shotguns manufactured by Adamy that have no model name marked on them.
- features may include:
- box lock or side lock,
- top/side/under lever opening,
- false sideplates, Kersten cross-bolt lock-up, extractor or ejector,
- single or double triggers,
- pistol-grip stock with three-piece forearm.
- Adamy firearms are available with any customer desired chambering, barrel length or finish.
- German proofmarks are apparent on the barrels and the receiver/frame.

Manufacturer

- known example marked "GEBR. ADAMY" on the barrels.
- the letters "G.A.S." which stand for "Gebruder Adamy, Suhl" may be marked on the barrels and the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- over & under pattern.
Serial Number	- known example had a five digit number without prefix or suffix marked on the flats of the receiver/frame.
Other Markings	- known example marked, "Krupp - Laufstahl" on both barrels.

Notes

Make

- ADCOR DEFENSE" is marked on the lower receiver.

Model

- the model may or may not be marked on the firearm.
- this is an AR-15/M16 based rifle newly manufactured by ADCOR Defense, as a product-improved version of their earlier rifles, and available in both selective fire and semi-automatic only versions. The A556 Elite is a piston operated rifle, while the A556 Elite GI is a gas impingement operated rifle.
- features include: standard AR-15/M16 layout and operation, anodized and phosphated black finish; "bird cage" muzzle brake; "flat top" upper with integral optics mounting rail; ventilated handguard with accessory mounting rails; optional dual charging handles (one "T"-shaped handle at the rear of the upper receiver, and an optional folding handle at the forward left on the handguard); and a skeletonized stock.

Manufacturer

- ADCOR DEFENSE" is marked on the lower receiver.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- numbered on the receiver/frame.
Calibre	- calibre is usually marked on the barrel.
Shots	- detachable box magazine. - this rifle accepts standard AR-15/M16 magazines, commonly available in capacities of 5, 10, 20, and 30 rounds.

Notes

Make

- ADCOR DEFENSE" was observed, on a referenced example, marked on the right side of the receiver/frame.

Model

- the model may or may not be marked on the firearm.
- this is an AR-15/M16 based rifle newly manufactured by ADCOR Defense, as a product improved version of their earlier rifles, and available in both selective fire and semi-automatic only versions. The A556 Elite is a piston operated rifle, while the A556 Elite GI is a gas impingement operated rifle.
- features include: standard AR-15/M16 layout and operation, anodized and phosphated black finish; "bird cage" muzzle brake; "flat top" upper with integral optics mounting rail; ventilated handguard with accessory mounting rails; optional dual charging handles (one "T" shaped handle at the rear of the upper receiver/frame, and an optional folding handle at the forward left on the handguard); and a skeletonized stock.

Manufacturer

- ADCOR DEFENSE" was observed, on a referenced example, marked on the right side of the receiver/frame.

Action

- gas operated.

Notes

Make

- "ADCOR" over "INDUSTRIES INC." over "BALTIMORE, MD" is marked on the left side of the receiver/frame.
- "ADCOR" may be marked on the right side of the receiver/frame.

Model

- "MODEL ADC 15" is marked on the left side of the receiver/frame.
- "MODEL ADC 15" variations are based on the Colt AR-15/M16 design.
- "MODEL ADC 15" has a long stroke operating gas system with a handguard located, supplementary, non reciprocating and folding cocking handle.
- features include: threaded muzzle for flash hider/muzzle brake; round, standard or grooved, M4 carbine contoured barrel; gas block with adjustable gas plug for the piston operated system and folding front sight bracket; Picatinny rail handguard; A3 Picatinny rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; bolt carrier with long operating rod attaching like the standard bolt key; collapsible, standard or custom rifle buttstock; synthetic pistol grip; matte black and/or coloured finish.

Manufacturer

- "ADCOR" over "INDUSTRIES INC." is marked on the left side of the receiver/frame.
- "ADCOR" may be marked on the right side of the receiver/frame.
- "ADCOR DEFENSE INC" is an owned subsidiary of "ADCOR INDUSTRIES INC.".
- "ADCOR DEFENSE INC" is located in Baltimore, Maryland U.S.A.
- "ADCOR DEFENSE INC" was founded in 1990.

Action

- gas-operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number observed consisted of a two letter "AD" prefix and five numbers.

Calibre

- "CAL. 5.56" is marked on the left side of the receiver/frame.
- calibre identification is also marked on the barrel.
- "5.56mm NATO" rifling characteristics; 1 turn in 7 inches , right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- "ADCOR DEFENSE" is marked on the lower receiver/frame.

Model

- the model may or may not be marked on the firearm.
- this is an AR-15/M16 based rifle newly manufactured by ADCOR Defense, as a product-improved version of their earlier rifles, and available in both selective-fire and semi-automatic-only versions. The Elite is a piston operated rifle, while the Elite GI is a gas-impingement operated rifle.
- features include: standard AR-15/M16 layout and operation, anodized and phosphated black finish; "bird cage" muzzle brake; "flat top" upper with integral optics mounting rail; ventilated handguard with accessory mounting rails; dual charging handles (one folding handle at the forward left on the handguard, one "T" shaped handle at the rear of the upper receiver); and a skeletonized stock.

Manufacturer

- "ADCOR DEFENSE" is marked on the lower receiver/frame.

Action

- gas operated.

Serial Number

- numbered on the receiver/frame.

Calibre

- calibre is usually marked on the barrel.
- rifling characteristics: one turn in 7 inches.

Shots

- detachable box magazine.
- this rifle accepts standard AR-15/M16 magazines, commonly available in capacities of 5, 10, 20, and 30 rounds.

Notes

Make

- "ADLER" is marked on the right side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- Observed Adler logo consisted: an eagle spreading its wings to fly (pointed beak facing left) with the body forming a left slanting letter "L" in the word ADLER.
- "Adler Silah Sanayi", "Adler Weapons Factory", "Adler Hunting Arms Company" and/or "Adler Arms" was established in 2007.

Model

- "A-110" is marked on the right side of the receiver/frame.
- Features include: solid top receiver/frame with right side ejection and with or without accessory top accessory rail; bottom loading port for under barrel magazine; front under barrel accessory rail; single action trigger mechanism; cross bolt safety; loop operating lever; varied receiver/frame colour options from standard black, camo covered, red, silver/nickeled to bronze; varied stock options in Turkish checkered wood or synthetic with matching forend; options from semi-pistol grip stock to old style straight stock (no noticeable pistol grip).
- Barrel options: threaded or standard; with or without top ventilated barrel rib; with or without mid-rib ramp sight; with or without ventilated shield/shroud; front sight either fixed beaded or fixed blade, fiber optic.
- Overall length with a 508 mm (20 inches) barrel is 1041 mm (41 inches).

Manufacturer

- "ADLER" is marked on the right side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- Observed Adler logo consisted: an eagle spreading its wings to fly (pointed beak facing left) with the body forming a left slanting letter "L" in the word ADLER.
- "Adler Silah Sanayi", "Adler Weapons Factory", "Adler Hunting Arms Company" and/or "Adler Arms" was established in 2007.
- Known as a shotgun manufacturer based in Konya, Turkey, producing semi-automatic, pump action, lever action, and single shot shotguns.

Action

- manually operated, lever actuated, magazine fed repeating shotgun.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial-numbered on the receiver/frame.
- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of two number, a dash (-) and four numbers.

Calibre

- The calibre designation is usually marked on the barrel.

Shots

- underbarrel tubular magazine; may be seen fitted with a +3 extension.
- Fixed tubular magazine.
- Firearm may be fitted with a +3 shot magazine extension.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.
- Adler Silah Sanayi/"Adler Weapons Factory" is a manufacturer based in Konya, Turkey, that produces semi-automatic, pump-action, lever-action, and single-shot shotguns.

Model

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.
- this is one of several versions of single-shot break-open shotgun produced by Adler, known by a number of different product codes and "models"; these shotguns are produced in both hammerless and exposed-hammer, manually-cocked versions.
- features generally include: blued barrel; ventilated top-rib; checkered walnut or black synthetic furniture; action-release lever either built into the trigger-guard, as a top-lever, or as a separate lever in front of the trigger guard; extractor; sling swivels; rubber buttpad.

Manufacturer

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.
- Adler Silah Sanayii/"Adler Weapons Factory" is a manufacturer based in Konya, Turkey, that produces semi-automatic, pump-action, lever-action, and single-shot shotguns.

Action

- hinge-action break-open single-shot.

Serial Number

- serial-numbered on the receiver/frame.

Notes

Make

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.
- Adler Silah Sanayi/"Adler Weapons Factory" is a manufacturer based in Konya, Turkey, that produces semi-automatic, pump action, lever action, and single shot shotguns.

Model

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.
- this is one of several versions of pump action shotgun produced by Adler, known by a number of different product codes and "models"; these shotguns are produced in both sporting/hunting/competition and "tactical" versions.
- features generally include: blued barrel with screw-in choke tubes/muzzle brakes; ventilated top rib; "tactical" versions may have open sights, folding/collapsible buttstocks and/or heat shields; checkered walnut or black synthetic furniture; action release button at the front of the trigger guard; right side ejection port; cross bolt safety at the rear of the trigger guard; sling swivels; and a rubber buttpad.

Manufacturer

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.
- Adler Silah Sanayii/"Adler Weapons Factory" is a manufacturer based in Konya, Turkey, that produces semi-automatic, pump action, lever action, and single shot shotguns.

Serial Number

- serial numbered on the receiver/frame.

Shots

- underbarrel tubular magazine; may be seen fitted with a +3 round extension.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.

Model

- "ADLER" is marked in script letters on the right side of receiver/frame.
- this is an AR style shotgun.
- "ADLER" uses a split, two-piece receiver/frame in a manner similar to an AR-15/M-16 but which attaches in a different manner. The Adler is not attached by a front hinge pin, rather the Adler firearm has a one-piece butt and trigger mechanism housing and the two components of the receiver actually slide apart, horizontally. The one-piece butt and trigger mechanism housing are fastened to the "upper receiver" by a through-bolt which when removed, permits the two components of the receiver/frame to be disassembled.
- features include: upper receiver with a detachable carry handle having an adjustable A2 style rear sight, right hand cocking handle and ejector port; support tube that is mounted below the barrel; synthetic ventilated handguard; muzzle break; synthetic lower receiver with an integral/fixed or adjustable buttstock and pistol grip; sling swivels; black finish.

Notes

Make

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.
- "Made in Turkey" over "Adler Silah Sanayi" is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "ADLER" and logo is marked on both sides of the barrel shroud. - "Bullpup" is not marked on the firearm. - "Bullpup" describes the firearm configuration. - "Bullpup" is a magazine-fed, semi-automatic shotgun. - features include: round, tapered, smooth bore barrel; interchangeable chokes; may have adjustable sights, folding sights or optical sight; top, barrel shroud with top full length accessory rail and bottom short accessory rail; one piece, synthetic lower assembly including forend with forward hand stop, integral trigger guard, pistol grip, magazine housing and recoil plate; left side cocking handle and action release lever; right side magazine release; cross bolt safety at the rear of the magazine well; blue/black metal finish; synthetic lower assembly may be black or colour finish. - overall length with a 508mm (20") barrel is 750mm (29.52").
Manufacturer	- "ADLER" is marked on the right side of the receiver/frame. - "Made in Turkey" over "Adler Silah Sanayi" is marked on the barrel. - "Adler Silah Sanayi" is Turkish for "Adler Weapons Factory". - "Adler Silah Sanayi" is a manufacturer based in Konya, Turkey, that produces semi-automatic, pump action, lever action, and single shot shotguns.
Action	- gas operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of an observed example consisted of three numbers, one letter followed by four numbers.
Calibre	- calibre designation is marked on the barrel.
Shots	- detachable box magazine. - uses magazines common to the Derya MK1- and MK12 shotguns.
Canadian Law Comments	- This firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device") is removed the receiver/frame/barrel assembly may be correctly classified as "Non-Restricted" or "Restricted" depending upon over-all length and barrel length when assembled with a conventional stock.

Notes

Make

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.

Model

- HT-109 was observed marked on the left side of the receiver.
- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.
- this is a pump action shotgun produced by Adler,
- features include: steel barrel with screw-in choke tubes/muzzle brakes; ventilated top rib; anodized aluminium frame/receiver; action release button at the front of the trigger guard; right side ejection port; cross bolt safety at the rear of the trigger guard; synthetic or wood stock; sling swivels; and a synthetic recoil pad.

Manufacturer

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.
- Adler Silah Sanayii/"Adler Weapons Factory" is a manufacturer based in Konya, Turkey, that produces semi-automatic, pump action, lever action, and single shot shotguns.

Serial Number

- serial numbered on the receiver/frame.

Shots

- tubular magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.

Model

- "MT-202" may be marked on the receiver/frame.
- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm. The receiver may be engraved with a nature scene.
- This is a single barrel shotgun with an exposed hammer.
- Features include: bead or ramp front sight, round smoothbore barrel with or without a ventilated top rib; fixed or interchangeable chokes; hardened steel receiver; walnut forearm and pistol-grip stock; under lever action release; sling swivels; and synthetic recoil pad; matte black finish on the barrel.

Manufacturer

- "ADLER" and/or the Adler logo of an eagle spreading its wings to fly (beak to the left) is marked on the firearm.
- Adler Silah Sanayii/"Adler Weapons Factory" is a manufacturer based in Konya, Turkey, that produces semi-automatic, pump action, lever action, and single shot shotguns.

Action

- Front hinged break action, tip-down barrel.

Serial Number

- serial number may be on the receiver/frame.

Notes

Make - "ADLER" is marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Introduced in 2020. - "RF-224" is marked on the right side of the receiver/frame. - May also be known as "RF-224 Tactical". - The "RF-224" has three distinct versions with different appearances but sharing the same operating system. - The "RF-224" features: Threaded muzzle; front iron sight; rounded trigger guard; curved trigger; accessory rail and rear iron sight above the receiver/frame; right side reciprocating charging handle, proprietary single-stack stick magazine; wooden or camouflaged synthetic one-piece stock. - The "RF-224 Tactical" Variation #1 features: Threaded muzzle; accessory rail handguard; T-shaped top charging handle or right side reciprocating charging handle; rounded trigger guard; skeletonized trigger; proprietary single-stack stick magazine; pistol grip; telescopic or fixed stock, various colored finishes. - The "RF-224 Tactical" Variation #2 features: Threaded muzzle; accessory rail handguard; right side reciprocating charging handle; curved trigger; Ruger 10/22 pattern magwell with optional Remington 597 pattern magwell insert; pistol grip; two horizontal lightening cuts on the magwell; telescopic stock; various colored finishes. - Overall length with a 508 mm (20 inches) barrel is 965 mm (38 inches). - Overall length with a 300 mm (11.8 inches) barrel is 696 mm (27.4 inches) with the stock collapsed.
Manufacturer	- "ADLER" is marked on the right side of the receiver/frame.
Action	- Blowback operated.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Shots	- Detachable box magazine. - Designed to accept "Ruger 10/22" type magazines. - "Remington 597" type magazines can be used in the firearm when the magazine well insert is installed. - "Remington 597" type magazines were introduced in 2025 as a 25 shot magazine.
Canadian Law Comments	- Ruger "BX-25" magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the Criminal Code Part III, S. 84, Regulations Part 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rimfire ammunition.

197377 - 1	223 REM	5	508	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "Adler International Firearms" or "AIFC" is marked on the firearm in various places. - "Made in Canada" may be marked on the receiver/frame of the firearm.
Model	- Introduced in 2021. - "RS-Q1" is marked on the firearm in various places. - Features include: match grade barrel; matching upper and lower, 7075 T6511 thick aluminum receiver/frame; spring loaded side charging handle; adjustable trigger; free floating handguard and AR15 bolt carrier.
Manufacturer	- "Ballistics Defense Ltd-USA" is marked on the right side of the receiver/frame.
Action	- Gas operated.
Serial Number	- The serial number is marked on the left side of the receiver/frame. - Observed sample consists of five numbers without letter prefix or suffix. - The serial number is marked on both upper and lower receivers.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the barrel.
Shots	- Detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- This firearm design incorporates a split receiver/frame: the lower receiver is the master component for the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Other Markings

- Variations of marking exemplars have been observed, whereby the only consistent model name is "RS-Q1".
- May also be marked as follows: "Eagle", "Field", "Competition" or "Field/Competition".

Notes

Make

- "FRED ADOLPH" is usually marked on the firearm.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a three-barrelled combination gun of the type known to the Germans as a "drilling", from the German word "drei"/"three".
- these drillings may be seen in both underlever and top-lever opening styles.
- features include: blued finish; two shotgun barrels over a rifled barrel or two rifle barrels over a shotgun barrel; open sights (may include quick-detachable mounts for optical sights); sling swivels; a checkered walnut forearm and pistol-grip stock; various styles and amounts of engraving on a boxlock receiver; a selector on the wrist of the stock; double triggers; and a safety on the tang.

Manufacturer

- "FRED ADOLPH" is usually marked on the firearm.
- Fred Adolph was a manufacturer, importer and retailer of firearms located in Genoa, New York, USA, circa 1912-1920.

Action

- hinged barrel design.
- barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.

Serial Number

- numbered on the receiver/frame.

Barrel

- barrel lengths to customer's specifications.

Calibre

- calibres/gauges will vary.

Summary

Make:	Adsett, James
Model:	RIC Type
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
20382 - 2	380 REV SHORT CF	6	87	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- marked on the top strap as "J.ADSETT CANTERBURY".
- located at 4 Upper Bridge Street, Canterbury from 1869 to 1879.

Model

- this model closely resembles the RIC (Royal Irish Constabulary) model as manufactured by Webley and others circa 1870 to 1900.
- this is a generic entry designed to encompass all RIC-type revolvers as produced or sold by J. Adsett that have no model designation marked on them.
- features include: solid receiver/frame; unfluted cylinder; loading gate; blued finish; extractor/cylinder release pin assembly is housed in the front of the receiver/frame; wooden checkered grips; lanyard ring; round, "teardrop" or octagonal barrel; blade front and grooved rear sight.

Other Markings

- sample observed marked "J.ADSETT." over "CANTERBURY" on the top strap and had a Belgian proofmark marked on the side of the cylinder.

Remarks

- in 1879, James and Thomas Adsett patented a shotgun action that incorporated coil springs similar to the "Acme" action of Woodward.

Notes

Make

- "THOMAS ADSETT" was observed marked on both sides of the receiver/frame, and on the barrel assembly.

Model

- model designation is not marked on the shotgun.
- this is a generic entry for Thomas Adsett side by side shotguns with no model designation.
- features observed: side by side barrels with bead front sight; front hinged receiver/frame with top tang mounted break open lever; box lock; hammerless; single trigger; checkered wood forearm and straight grip English style buttstock; engraved receiver/frame.

Manufacturer

- Thomas Adsett was located at 82 Preston St., Faversham, Kent circa 1869 to 1874.
- Thomas Adsett was the successor (and possible son) to James Adsett of Guildford, Surrey circa 1883.
- Thomas Adsett business became "Thomas Adsett & Son" circa 1903.
- James Adsett was established in Guildford, Surry circa 1800.
- James Adsett was located at 101 High Street, Guildford from circa 1870 to 1878.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number was observed marked on the water table.
- observed serial number consisted of four numbers without a letter prefix or suffix.

Notes

Make

- "T. ADSETT" over "GUILDFORD" was observed marked on the firearm.

- Thomas Adsett was located at 82 Preston St., Faversham, Kent circa 1869 to 1874.
- Thomas Adsett was the successor to James Adsett of Guildford, Surrey circa 1883.
- Thomas Adsett business became "Thomas Adsett & Son" circa 1903.
- James Adsett was established in Guildford, Surry circa 1800.
- James Adsett was located at 101 High Street, Guildford from circa 1870 to 1878.

Model

- "THE BRITISH" over "BULL DOG" was observed marked on the top strap of the receiver/frame.
- "WEBLEY'S" over "No 2" was observed marked on the left side of the receiver/frame.
- features include: fixed front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a removable non fluted cylinder; hinged loading gate on the right side of the receiver/frame; swing-out case ejector rod stored within the cylinder axis rod; exposed spur hammer; double/single action trigger mechanism; bird's head grip strap; smooth ivory grip plates.
- NOTE: barrel is ovate and may have an unusual taper with the diameter at the muzzle end being greater in diameter than where the barrel meets the receiver/frame.

Manufacturer

- "WEBLEY'S" was observed marked on the front left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.

Serial Number

- serial number is marked on the left front side of the receiver/frame.

Notes

Make

- "ACS. Ltd" is marked on the left side of the stock.

Model

- Introduced in 2003.
- Based on the M1 Carbine design.
- intended to fill the role of Personal Defence Weapon (PDW) for civilians and the military/law enforcement markets.
- the semi-automatic version of the model Hezi SM-1 is built using the US Carbine, model M1 as a starting point.
- the Hezi SM-1 is equipped with a "bull-pup" stock and has some upgrades to the existing gas system, extractor, safety features and ejection system.
- features include: olive drab bull-pup stock with a vertical pistol grip forward of the magazine; magazine release, slide stop release, safety selector button, bolt catch/release and cocking handle are ambidextrous; folding sights with optional picatinney rails for mounting accessories such as a flashlight or optical/laser sights; muzzle brake.
- Advanced Combat Systems can supply complete firearms or retrofit existing stocks of US Carbine, model M1 to Hezi SM-1 configuration.
- a version capable of full automatic fire, based on the US Carbine, model M2 is also available.

Manufacturer

- Advanced Combat Systems (ACS) is an engineering, manufacturer and marketing firm based in Israel. They have been involved with weapon system development for the Israeli Defense Forces (IDF), Israeli Ministry of Defense and the Israel police.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the original manufacturer applied serial number (existing US Carbine model M1 rifles are used to create the Hezi SM-1) remains intact on the top rear of the receiver/frame.
Shots	- detachable box magazine, uses magazines intended for the US Carbine models M1 and M2. - M1 Carbine type magazines were introduced in 1942 as a 15 shot magazine and in 1944 as a 30 shot magazine.
Other Markings	- the original U.S. markings (serial number, calibre and manufacturer) remain on the receiver/frame.

Action	- Pre charged pneumatic. - Velocity has been measured as 299 mps or 981 fps.
Serial Number	- The serial number is marked on the right side of the firearm.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the right side of the receiver/frame.
Shots	- Detachable rotary disc magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Notes

Make

- "aeroprecision" was observed marked on the left side of the magazine housing of the receiver/frame.
- "AERO PRECISION INC" or "AERO PRECISION LLC" over "TACOMA, WA" is marked on the side of the receiver/frame.

Model

- "MODEL AP 15" was observed marked on the left side of the receiver/frame.
- "AP 15" is of the design commonly known as the AR-15/M-16 rifle.
- "AP 15" rifle uses a two piece receiver/frame similar to Colt model AR15 semi-automatic.
- "AP15" is also sold as a receiver/frame.
- features include: threaded muzzle for flash hider; round, chrome moly steel or stainless steel barrel that may be black Teflon coated; barrel of standard, M4 carbine or heavy contour that may be fluted; standard, low profile, folding or Picatinny rail gas block/front sight bracket; standard rifle or carbine length plastic or Picatinny rail free floating hand guard; A2 fixed carrying handle or A3 Picatinny rail flat top upper assembly with or without detachable carrying handle; fixed or collapsible buttstock; anodized and parkerized finish.

Manufacturer

- "AERO PRECISION INC" or "AERO PRECISION LLC" over "TACOMA, WA" is marked on the side of the receiver/frame.
- "Aero Precision" is located in Tacoma, Washington, U.S.A.
- "Aero Precision" was founded in the early 1990's.

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the magazine housing of the receiver/frame.
- observed serial number consisted of a two letter "US" prefix and five numbers.

Calibre

- "CAL MULTI" was observed marked on the left side on the magazine housing of the receiver/frame.

Shots

- detachable box or drum magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- "AERO PRECISION INC" or "AERO PRECISION LLC" over "TACOMA, WA" is marked on the side of the receiver/frame.
- Aero Precision's logo, a stylized letter "A" incorporating the letter "P" is marked on both the right and the left side of the magazine housing of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "MODEL X15" is marked on the left side of the receiver/frame. - "X15" variants are based on the Colt AR-15/M16 design. - "X15" is sold as a receiver/frame. - features include: threaded muzzle for flash hider/muzzle brake; round standard, heavy profile or grooved, M4 carbine contoured barrel; AR15/M16 standard, low profile, Picatinny rail or folding front sight bracket/gas block; Picatinny rail, free floating or synthetic handguard; A2 fixed carrying handle or A3 Picatinny rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; collapsible, standard or custom rifle buttstock; synthetic pistol grip; matte black finish.
Manufacturer	- "AERO PRECISION INC" or "AERO PRECISION LLC" over "TACOMA, WA" is marked on the side of the receiver/frame. - Aero Precision's logo, a stylized letter "A" incorporating the letter "P" is marked on both the right and the left side of the magazine housing of the receiver/frame. - "Aero Precision" is located in Tacoma, Washington, U.S.A. - "Aero Precision" was founded in the early 1990's.
Action	- gas operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number observed consisted of a three letter "USA" prefix and five numbers.
Calibre	- "CAL. MULTI" is marked on the left side of the receiver/frame. - calibre identification is usually marked on the barrel.
Shots	- detachable box or drum magazine. - uses all magazines available for AR15/M16 type rifles.

Notes

Make

- the make (or logo thereof) is marked on the air pistol.

Model

- the model designation is marked on the air pistol.
- this is a Co2-powered, match-grade, semi-automatic air pistol meant for ISU competition; this design is based on Aeron's earlier "Chameleon" series of air pistols.
- features include: adjustable anatomical walnut grips with heel plate; rod for stabilizing weights extending from receiver/frame in front of trigger guard; adjustable trigger; compensator at muzzle and fully adjustable target sights.
- also sold in a single-shot version as the "B97".
- where both the B96 and B97 have a gas/valve fitting in the pistol-grip (for use with 12-gram C02 gas cartridges or tanks with an adapter), later Aeron pistols (the B98 and B99) are fitted with a gas/valve fitting at the front of the receiver/frame, for use with refillable pre-charged pneumatic tanks.

Manufacturer

- the manufacturer (or logo thereof) is marked on the air rifle.
- Aeron Brno (also known as Aeron CZ) is a manufacturer located in Brno, the Czech Republic, that specializes in producing target-grade air rifles and pistols.
- Aeron Brno's logo consists of the word "AERON" ("E" and "R" joined), with the "O" replaced by a bulls-eye target.
- DO NOT CONFUSE "Aeron CZ" with any of the various other manufacturers that use similar names, such as Ceska Zbrojovka/Uhersky Brod (the most familiar "CZ"), Zbrojovka Brno/Brno Arms (a manufacturer that has split off of Ceska Zbrojovka, whose logo resembles a "Z" viewed through a rifled barrel), or Zastava/Zastava Kragujevac, a manufacturer that has produced firearms in both Yugoslavia and Greece (whose logo is a "CZ" within a circle and which very strongly resembles the original Ceska Zbrojovka logo).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- numbered on receiver/frame.
Shots	- uses a five-shot pellet "clip" that advances through the receiver/frame automatically after each shot. - a single shot adapter is also available for use in accordance with ISSF regulations.

Notes

Make

- the make is not marked on the air rifle.

Model

- the model designation may not be marked on the firearm.
- manufactured until 1997.
- this is a match-grade CO2-powered air rifle made in Czechoslovakia.
- the rifle is pressurized by unscrewing a forearm cap so that a Co2 cartridge can be inserted into the cartridge container; replacing the cap then punctures the Co2 cartridge.
- these rifles come with vertical pistol grip stocks with adjustable buttplates and cheekpieces; also available with heavy diameter muzzle weights.
- the receiver/frame is grooved for scope mounts or micrometer-adjustable peep sights.
- this rifle is also sold by RWS-Dynamit Nobel as the "CR 200".
- overall length 1017mm (41 5/8"), weight 3,5 kg.

Manufacturer

- the manufacturer is not marked on the air rifle.
- Aeron Brno (also known as Aeron CZ) is a manufacturer located in Brno, the Czech Republic, that specializes in producing target-grade air rifles and pistols.
- Aeron Brno's logo consists of the word "AERON" ("E" and "R" joined), with the "O" replaced by a bulls-eye target.
- DO NOT CONFUSE "Aeron CZ" with any of the various other manufacturers that use similar names, such as Ceska Zbrojovka/Uhersky Brod (the most familiar "CZ"), Zbrojovka Brno/Brno Arms (a manufacturer that has split off of Ceska Zbrojovka, whose logo resembles a "Z" viewed through a rifled barrel), or Zastava/Zastava Kragujevac, a manufacturer that has produced firearms in both Yugoslavia and Greece (whose logo is a "CZ" within a circle and which very strongly resembles the original Ceska Zbrojovka logo).

Action

- CO2 powered.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- may or may not be numbered on the receiver/frame.
- if marked the serial number will constist of four digit numbers without prefix or suffix.

Notes

Make

- make may be marked on the firearm.

Model

- "NTW" (New Technology Weapon) was designed circa 1997 by Tony Neophytou under the auspices of Aerotek, CSIR, of Pretoria, South Africa.
- this anti materiel rifle was designed to neutralise targets of high military value at extended ranges and also for Explosive Ordnance Disposal (EOD).
- features include: double baffle muzzle break; tapered, fluted barrel; box magazine protrudes horizontally from the left side; loop type carry handle/optical sight protector; six lug bolt face; adjustable and detachable trigger assembly; combined hydralic/pneumatic dampening and buffer system; bipod; recoiling parts slide within a chassis that includes the butt assembly.
- overall length is 1795mm.

Manufacturer

- Aerotek, CSIR, is located in Pretoria, South Africa.

Action

- turn-bolt design.

Shots

- detachable box magazine.

19544 - 3	32 RF	5	64	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Aetna" is marked on the top strap (the "A" and "E" are represented as one character).
- "Aetna" was a tradename used by Harrington & Richardson on a line of small, solid frame revolvers.
- "Harrington & Richardson" name is usually not marked on the firearms.
- "Aetna Arms Company" (a separate entity) was located in New York City, New York, U.S.A. and produced small "tip-up" revolvers based on the Smith & Wesson design prior to 1884.

Model

- "AETNA" is marked on the top strap.
- "AETNA" is the only marking on the firearm.
- introduced in 1876.
- features include: brass half-moon front sight and a groove in the top strap for a rear sight; round or octagonal barrel; flat sided, solid top receiver/frame with a removable cylinder; plain or fluted cylinder; exposed spur hammer; single action trigger mechanism; bird's head grip; hard rubber or walnut grip plates; case-hardened hammer and trigger; nickel plated finish.

Manufacturer

- manufacturer's name is not marked on the firearm.

FRT Report

Firearm Reference Number (FRN): 145302
Make: Afanasev Makarov
Model: AM-23

Summary

Make:	Afanasev Makarov
Model:	AM-23
Manufacturer:	Russian State Arsenal, Tula
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145302 - 1	23X115	N/A	1000	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm; this make is derived from the names of the two lead designers who developed this cannon, Afanasev and Makarov.

Model

- the model is marked on the firearm.
- this is an aircraft cannon developed by Afanasev and Makarov in the early 1950s, primarily for use as defensive armament on the Tupolev Tu-16 heavy bomber; this cannon is most often seen in dual turret mountings.
- this cannon is essentially a greatly-enlarged version of the Afanasev A-12.7 heavy machine gun, with a rate of fire of 1,350 rounds per minute.
- features include: blued or phosphated/parkerized finish; short under-barrel gas piston; rectangular stamped top cover; ambidextrous feed; bottom ejection; round gas buffer tube at the rear of the receiver; and solenoid firing controls.

Action

- gas operated.

Serial Number

- numbered on the receiver/frame.

Shots

- belt fed.

FRT Report

Firearm Reference Number (FRN): 131727
Make: Agnew & Son
Model: RIC No 1 Type

Summary

Make:	Agnew & Son
Model:	RIC No 1 Type
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
131727 - 1	44 WEBLEY	6	100	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AGNEW & SON" over "EXETER" was observed marked on the top strap of the receiver/frame.
- Agnew & Son was located at 79 South Street, Exeter, England between 1889 and 1930.

Model

- "RIC No 1 Type" is not marked on the firearm.
- resembles the "Royal Irish Constabulary" revolvers manufactured Webley.
- produced during the late 1800s to the early 1900s.
- features include: fixed blade front sight and groove in the top strap for a rear sight; ovate/round flat top barrel; solid top receiver/frame with unfluted cylinder and right side loading gate; Adams type yoke and extractor which fits into the cylinder-axis rod; spurred non-rebounding hammer with integral firing pin; single/double action trigger mechanism; round trigger guard; square butt strap with lanyard ring and checkered one-piece walnut grip.

Serial Number

- serial number was observed marked on the left side of the reciever/frame below the cylinder.
- observed serial number consisted of five numbers.

Shots

- removable cylinder.

Canadian Law Comments

- some example of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	INDIA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
172142 - 1	62 FLINTLOCK	1	356	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "AHU" or "A.H.U.", usually with "UDR" (an abbreviation for "Udaipur", the city in Rajasthan province, northwest India, where A.H.U. is located) is usually marked on the firearm.
- "AHU" commonly manufactures non-firing replicas of flintlock and percussion firearms as display pieces, but these are known to occasionally be converted to firing condition.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a modern reproduction of the style of pistol adopted by Prussia in 1731, and used through the Seven Years War by Prussian troops of Frederick the Great. The 1731 model was a slimmer, lightened version of the earlier 1727 pistol.
features include: round barrel (blued or "in the white"); under-barrel ramrod on brass thimbles with a brass end-cap; full-length walnut stock with brass trigger guard and butt-cap with side strakes; right-side lockplate, cock, pan, and frizzen.

Manufacturer

- "AHU" or "A.H.U.", usually with "UDR" (an abbreviation for "Udaipur", the city in Rajasthan province, northwest India, where A.H.U. is located) is usually marked on the firearm.
- "AHU" commonly manufactures non-firing replicas of flintlock and percussion firearms as display pieces, but these are known to occasionally be converted to firing condition.

Action

- muzzle-loading, single-shot, flintlock.

Serial Number

- serial-numbered on the butt and barrel.

Notes

Make

- "AA" over "AIR ARMS" is marked on the receiver/frame and/or barrel.

Model

- introduced in 2014.
- "HFT-500" or "HFT 500" is marked on both sides of the receiver/frame.
- this is a match grade, pre-charged pneumatic, single shot air rifle.
- features include: side lever loading; fixed under-barrel air cylinder with manometer; adjustable trigger; manual safety; laminated competition stock with adjustable cheekpiece, and rubber buttpad; accessory rail; fluted muzzle compensator; blue finish.
- overall length 1019mm (40.1"), average weight is 3.7 kg (8.2 lbs).

Manufacturer

- "AA" or "AA" over "AIR ARMS" or "AIR ARMS" or "AIR-ARMS" or "AIR" over "ARMS" within a double circle is usually marked on the receiver/frame and/or barrel.
- "Air Arms (AA)" is located in East Sussex, England.
- "Air Arms (AA)" specialize in manufacturing pre-charged pneumatic (PCP) pistols, FAC sporting rifles, sporting rifles, and target rifles, and spring-piston powered rifles.
- "Air Arms (AA)" is a division of "NSP Engineering Limited".
- "Air Arms (AA)" was established in the 1983.
- "Air Arms (AA)" began production of pre-charged pneumatic air guns circa 1988.

Action

- pre-charged pneumatic, side lever operated.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is usually marked on the receiver/frame.
- example observed with six numbers without a letter prefix or suffix.

Calibre

- calibre is marked on the right side.

- "S400" or "S400 CARBINE" or "S400F CARBINE SUPER-LITE" is marked on the side of the receiver/frame.
- "S400" is a redesigned Air Arms model "S300".
- features include: blued receiver/frame and barrel; the action is bolt operated; adjustable two-stage trigger; the receiver/frame will accept a scope.
- the stock may be beech or walnut with a schnabel tip and checkering on the forend. The stock may have a cheeckpiece with a pistol grip or a thumbhole stock.
- a pre-charged gas tube is located under the barrel with a screw on end cover.
- the underside of the stock has a pressure gauge.
- this firearm is available as a rifle version with a 495mm barrel or a carbine version with a 395mm barrel.
- an "Extra" version is also available. The pre-charged tube is capable of holding more gas then the regular version.
- options available: left handed versions, regular walnut stock, thumbhole walnut stock, moderator/silencer/sound suppressor, scopes & mounts.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "AA" or "AA" over "AIR ARMS" or "AIR ARMS" or "AIR-ARMS" or "AIR" over "ARMS" within a double circle is usually marked on the receiver/frame and/or barrel.
- "Air Arms (AA)" is located in East Sussex, England.
- "Air Arms (AA)" specialize in manufacturing pre-charged pneumatic (PCP) pistols, FAC sporting rifles, sporting rifles, and target rifles, and spring-piston powered rifles.
- "Air Arms (AA)" is a division of "NSP Engineering Limited".
- "Air Arms (AA)" was established in the 1983.
- "Air Arms (AA)" began production of pre-charged pneumatic air guns circa 1988.

Action

- precharged air cylinder.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Canadian Law Comments

- if the firearm leaves the factory equipped with a sound moderator/suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound moderator/suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

FRT Report

Firearm Reference Number (FRN): 125363
Make: Air Arms
Model: S410 ERB

Summary

Make:	Air Arms
Model:	S410 ERB
Manufacturer:	Air Arms (AA)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125363 - 1	177 PELLET	10	494	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
125363 - 2	22 PELLET	10	494	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AA" or "AA" over "AIR ARMS" or "AIR ARMS" or "AIR-ARMS" or "AIR" over "ARMS" within a double circle is usually marked on the receiver/frame and/or barrel.

Model

- "S410 ERB" may be marked on the right side of the receiver/frame.
- introduced in 2005.
- features include: round Walther's barrel; re-charged gas tube is located under the barrel with a pressure gauge; bolt operated; adjustable two-stage trigger; adjustable power knob; checkered beech pistol grip stock with cheeckpiece and schnabel tip on the forend; blued receiver/frame and barrel.

Manufacturer

- "AA" or "AA" over "AIR ARMS" or "AIR ARMS" or "AIR-ARMS" or "AIR" over "ARMS" within a double circle is usually marked on the receiver/frame and/or barrel.
- "Air Arms (AA)" is located in East Sussex, England.
- "Air Arms (AA)" specialize in manufacturing pre-charged pneumatic (PCP) pistols, FAC sporting rifles, sporting rifles, and target rifles, and spring-piston powered rifles.
- "Air Arms (AA)" is a division of "NSP Engineering Limited".
- "Air Arms (AA)" was established in the 1983.
- "Air Arms (AA)" began production of pre-charged pneumatic air guns circa 1988.

Action

- pre-charged pneumatic cylinder.
- discharges a projectile at a velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- known example had the serial number marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - removeable disk magazine.

Notes

Make

- "AA" or "AA" over "AIR ARMS" or "AIR ARMS" or "AIR-ARMS" or "AIR" over "ARMS" within a double circle is usually marked on the receiver/frame and/or barrel.

Model

- introduced in 2005.
- "S410 TDR" was observed marked on the left side of the firearm.
- "TDR" stands for "Take Down Rifle".
- features include: no iron sights; round Lothar Walther rifled barrel with a removable sound moderator/suppressor/silencer; round pre-charged pneumatic (PCP) cylinder with a screw on dust cover is mounted under the barrel; pre-charged pneumatic cylinder's pressure gauge is mounted on the underside of the forearm; flat sided receiver/frame with a rear mounted side operating lever and dovetail grooved for sight mounts; adjustable two-stage trigger; cross bolt safety is mounted on the trigger; walnut stock with a vertical pistol grip and a removable metal buttstock with a cheekpiece and a vertically adjustable buttpad; cheekpiece holds two ammo discs; blued finish.
- NOTE: when the buttstock is removed from the air gun, the pneumatic system is rendered inert/inoperable.
- overall length is 1060 mm (41.75"), and the average weight is 2.6 kgs (5.72 lbs).

Manufacturer

- "AA" or "AA" over "AIR ARMS" or "AIR ARMS" or "AIR-ARMS" or "AIR" over "ARMS" within a double circle is usually marked on the receiver/frame and/or barrel.
- "Air Arms (AA)" is located in East Sussex, England.
- "Air Arms (AA)" specialize in manufacturing pre-charged pneumatic (PCP) pistols, FAC sporting rifles, sporting rifles, and target rifles, and spring-piston powered rifles.
- "Air Arms (AA)" is a division of "NSP Engineering Limited".
- "Air Arms (AA)" was established in the 1983.
- "Air Arms (AA)" began production of pre-charged pneumatic air guns circa 1988.

Type

- NOTE: when the buttstock is removed from the air gun, the pneumatic system is rendered inert/inoperable.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- pneumatic powered. - pre-charged pneumatic cylinder is mounted under the barrel. - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- marked on the right side.
Calibre	- calibre designation may be marked on the firearm.
Shots	- detachable rotary disc magazine.
Canadian Law Comments	- as it left the factory, this firearm is equipped with a removable sound suppresser/silencer. The sound suppressor/silencer is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppresser/silencer (prohibited device) is removed the firearm is correctly identified as a "Non Restricted Firearm".

Model

- "T 200" and "Made in Czech Republic" may be marked on the left side of the receiver/frame.
- bolt operated, single shot air rifle utilizing a pre-charged air cylinder.
- features include: muzzle compensator; no iron sights; grooved for scope mounts; adjustable trigger; removeable air cylinder underneath the barrel; blued finish.

Action

- pre-charged pneumatic cylinder.
- known example was marked, "MAX. 16 Joules" on the right side of the receiver/frame.
- this rifle discharges a projectile at a velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 joules.

Serial Number

- known example had the serial number marked on the right side of the receiver/frame; the number consisted of six digits without a prefix or suffix.

Calibre

- known example had the calibre designation marked on the left side of the receiver/frame as, "Cal .177/4,5 mm".

Other Markings

- know example was marked, "MADE IN CZECH REPUBLIC" on the right side of the receiver/frame.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
58018 - 1	177 PELLET	1	400	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
58018 - 2	22 PELLET	1	400	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AA" or "AA" over "AIR ARMS" or "AIR ARMS" or "AIR-ARMS" or "AIR" over "ARMS" within a double circle is usually marked on the receiver/frame and/or barrel.

Model

- "TX200" is marked on the firearm.
- introduced in the early 1990s.
- features include: round barrel with a muzzle protector; under-ever cocking; two stage trigger; automatic safety; no iron sights; receiver/frame is grooved for scope mount; checkered oil finished hardwood forearm and pistol grip stock with raised comb and rubber butt pad; blue finish.
- NOTE:
- TX200 was the initial model in this series and had a 400 mm round barrel
- TX200 was also known as the TX200 Mark 1 and TX200 Mark 2 .
- TX200 HC was introduced in 1995 and has a 178 mm shrouded barrel with threaded adapter which allowed for an internal silencer or a screw on silencer.
- TX200 MARK 3 was introduced in 1998 and has a 357 mm barrel with or without a shroud with an integral silencer.

Manufacturer

- "AA" or "AA" over "AIR ARMS" or "AIR ARMS" or "AIR-ARMS" or "AIR" over "ARMS" within a double circle is usually marked on the receiver/frame and/or barrel.
- "Air Arms (AA)" is located in East Sussex, England.
- "Air Arms (AA)" specialize in manufacturing pre-charged pneumatic (PCP) pistols, FAC sporting rifles, sporting rifles, and target rifles, and spring-piston powered rifles.
- "Air Arms (AA)" is a division of "NSP Engineering Limited".
- "Air Arms (AA)" was established in the 1983.
- "Air Arms (AA)" began production of pre-charged pneumatic air guns circa 1988.

Action

- spring-piston powered
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Firearm Reference Number (FRN): 147545
Make: Air Force
Model: EscapeUL

Summary

Make:	Air Force
Model:	EscapeUL
Manufacturer:	Air Force
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147545 - 1	22 PELLET	1	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
147545 - 2	25 PELLET	1	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AIR" over "FORCE" or "AIRFORCE" or "AIRFORCE" over "AIRGUNS" is usually marked on the right side of the carrying handle.
- "AIR FORCE, Box 2478, Fort Worth, TX, 76113" may be marked on the right side of the firearm.

Model

- model designation may be marked on the firearm.
- "EscapeUL" is a sporter class lightweight target/small-game hunting/survival rifle.
- features observed: Lothar Walther barrel; TSI peep sight system and hooded front sight; aircraft grade aluminum alloy and polymer construction with three integrated dovetail rails; dry fire feature; two stage adjustable trigger; ambidextrous cocking knob; compressed air bottle doubles as shoulder stock; black anodized finish.
- available in an integrally-suppressed version as the "EscapeSS", and in a "standard" version as the "Escape".

Manufacturer

- "Air Force" is located in Fort Worth, Texas, U.S.A.
- "Air Force" is a manufacturer of Pre-Charged Pneumatic (PCP) airguns.
- "Air Force" starting developing Pre-Charged Pneumatic (PCP) airguns in the early 1990s.
- "Air Force" began production of the Talon line in 1998.

Action

- pneumatic powered.
- pre-charged pneumatic (PCP) compressed air or dry nitrogen cylinder acts as the buttstock.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number may be marked on the right side of the receiver/frame forward of the trigger guard.

Notes

Make

- "AIR" over "FORCE" or "AIRFORCE" or "AIRFORCE" over "AIRGUNS" is usually marked on the right side of the carrying handle.
- "AIR FORCE, Box 2478, Fort Worth, TX, 76113" may be marked on the right side of the firearm.

Model

- introduced in 2000.
- "TALONSS" is marked on the right side of the carrying handle.
- "SS" in the model designation denotes that this version of the Talon is fitted with an integral sound suppressor.
- features include: refillable high pressure cylinder located in line with the bore behind the receiver/frame that forms part of the buttstock; turn-bolt operated single shot; aluminium alloy receiver/frame; polymer pistol grip and fore-end; carrying handle is integral to the receiver/frame and is capable of mounting a variety of sighting systems; automatic safety located inside the trigger guard and a pressure regulator located on the left side of the receiver/frame to control velocity.

Manufacturer

- "Air Force" is located in Fort Worth, Texas, U.S.A.
- "Air Force" is a manufacturer of Pre-Charged Pneumatic (PCP) airguns.
- "Air Force" starting developing Pre-Charged Pneumatic (PCP) airguns in the early 1990s.
- "Air Force" began production of the Talon line in 1998.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- pneumatic powered. - pre-charged pneumatic (PCP) compressed air or dry nitrogen cylinder acts as the buttstock. - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is marked on the right side of the receiver/frame forward of the trigger guard.
Barrel	- this barrel is recessed within a tube, which is approximately 457mm long. The barrel is the first 305mm of the tube. The remainder of the tube has a diameter larger than the designated calibre of the rifle. This part of the tube acts as a "integrated sound reduction system".
Canadian Law Comments	- as it left the factory, this firearm is equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- The company logo is marked on the firearm.
- Air Venturi logo is the letter "A" over the letter "V" having a common line connecting the two letter.
- Air Venturi is a manufacturer, importer and distributor of airguns, airsoft and related products.
- Air Venturi headquarters is located in Solon, Ohio, U.S.A.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Introduced in 2020. - AVENGER is marked on the left side of the receiver/frame. - AVENGER is a magazine feed, pre-charged pneumatic (PCP) action rifle. - AVENGER as it left the factory, is equipped with a fully shrouded barrel that goes over the muzzle end and act as an integral sound suppressor/silencer. - Features include: no iron sights; rifled, steel barrel inside a straight contoured tubing/shroud; air reservoir under the barrel; pressure gauge, one on each side of the receiver/frame; accessory rail on the top of the receiver/frame and under the stock forend; cocking lever and safety lever on the right side of the receiver/frame. - Overall length with a 578 mm (22.75 inches) barrel is 1086 mm (42.75 inches), average weight is 2.72 kg (6 lbs).
Action	- Pre charged pneumatic.
Calibre	- The calibre designation is marked on the left side of the receiver/frame.
Shots	- Detachable rotary disc magazine.
Canadian Law Comments	- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. - This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. - If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Notes

Make

- "AIROW GUN" may be marked on the side of the air chamber tube.
- "AIROW GUN" was designed and is manufactured by Romney Motion, Incorporated.

Model

- Airow Gun converts a compound or recurve bow to shoot 22 calibre pellets, 50 calibre paintballs or 68 calibre paintballs.
- 22 PELLET Airow Gun consists of two major assemblies:
- upper assembly consists of: removable round, rifled barrel, and receiver/frame with an eight pellet manually rotated cylinder. Upper assembly is attached to the lower assembly by four allen screws.
- lower assembly consists of: aluninium arrow/rod with a plunger/piston head; large air chamber tube; front air transfer chamber; small air chamber tube; rear air transfer case; mounting bracket for the receiver/frame; cocking mechanism lever/knob; bow mounting bracket.
- 50 PAINTBALL & 68 PAINTBALL Airow Gun consists of two major assemblies:
- upper assembly consists of: removable round smoothbore barrel, and a receiver/frame with an adjustable paint ball feed, paintball staging tube, and air pressure control valve. Upper assembly is attached to the lower assembly by four allen screws.
- lower assembly consists of: aluninium arrow/rod with a plunger/piston head; large air chamber tube; front air transfer chamber; small air chamber tube; rear air transfer case; mounting bracket for the receiver/frame; cocking mechanism lever/knob; bow mounting bracket.

Manufacturer

- Romney Motion, Incorporated was founded in 2003.
- Romney Motion, Incorporated is owned and operated by Devon Romney.
- Romney Motion, Incorporated is located in Otis Orchards, Washington, U.S.A.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- spring-piston powered. - the bow acts as the spring. - at least two variants of this particular model exist: Variant # 1: discharge a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. Variant # 2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- observed example did not have a serial number.
Calibre	- "AIROW GUN 22 CAL PELLET" may be marked on the side of the air chamber tube guard. - "AIROW GUN PAINTBALL" may be marked on the side of the air chamber tube guard.
Shots	- 22 PELLET has a rotary cylinder. - 50 PAINTBALL & 68 PAINTBALL has a removable staging tube.
Canadian Law Comments	- at least two variants of this particular model exist: Variant # 1: discharge a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. Variant # 2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
123510 - 2	22 LR	10	470	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	Accessory Barrel
123510 - 3	22 LR	10	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	Accessory Barrel
123510 - 1	ARROW/22 LR	1	406	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AIRROW" is marked on the firearm.
- "AIRROW" is a registered trademark of Swivel Machine Works, Inc.

Model

- model designation is marked on the firearm.
- this firearm is based on the Ruger model 10/22 semi-automatic rimfire rifle.
- features include: Airrow's archery barrel chambered only for .22 LR "blank" consists of two components, an outer barrel (shroud) with an outside diameter of .920" and a second floating inner (spigot) barrel; Ruger 10/22 receiver/frame (Carbine or Rifle); walnut one-piece pistol grip stock with rubber recoil pad; no iron sights; receiver/frame is drilled and tapped for scope mounts; accessory bipod.
- overall length with 406 mm (16") barrel is 965 mm (38.0").
- overall weight is 2.0 kgs (4.4 lbs).
- Note: the original Ruger 10/22 rimfire barrel is also sold with the Airrow A-10/22.

Manufacturer

- Swivel Machine Works, Inc. is located in Newtown, Connecticut, U.S.A.
- Swivel Machine Works, Inc. has been manufacturing arrow-firing rifles and pistols as well as conventional high power CO2 airguns, since circa 1990.
- the Airrow A-10/22 is produced by Swivel Machine Works using a Ruger model 10/22 Carbine or 10/22 Rifle receiver/frame manufactured by Sturm Ruger.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- this is a semi-automatic rifle that has been fitted with a special barrel capable of launching an arrow. The manufacturer (Swivel Machine Works) states that conventional ammunition can not be fired in the replacement barrel.
- Note: when Airrow's archery barrel is installed on the A-10/22 receiver/frame the firearm is loaded as a single-shot muzzle loader, but instead of a lead projectile/ball being loaded into the muzzle, a # 2512 arrow is used. Energy is supplied by a 22 LR "blank".
- Note: the original Ruger 10/22 Carbine or 10/22 Rifle barrel can be re-installed onto the receiver/frame without any special tooling.

Calibre

- this model uses a 22 LR "blank" cartridge to propel a # 2512 arrow. This model is also capable of having a barrel mounted to the receiver/frame (OEM equipment or aftermarket) that will discharge all calibre 22 LR ammunition.
- Airrow's archery barrel is composed of two components, an outer barrel shroud with an outside diameter of 22 mm (.920") and a second, floating inner (spigot) barrel. The inner barrel fits inside the hollow aluminium shaft of the # 2512 arrow.
- the Airrow's archery barrel is only chambered for Airrow .22 LR blank.
- the # 2512 arrow has an overall length of 406 mm (16").
- a # 2512 arrow propelled by an Airrow 22 LR blank of Power Level 5 (Red colour) may achieve a velocity of 102.1 mps (335 fps).
- a # 2512 arrow propelled by an Airrow 22 LR blank of Power Level 6 (Purple colour) may achieve a velocity of 132.6 mps (435 fps).

Shots

- detachable box magazine.
- as the magazine can still be used to feed calibre 22 LR ammunition in conjunction with the original model 10/22 barrel (Carbine or Rifle) it retains its ten shot capacity.
- Swivel Machine Works supplies a one-shot, magazine adapter for use with the ARROW/22 LR blank cartridge.

Canadian Law Comments

- this firearm uses a Ruger model 10/22 Carbine or 10/22 Rifle receiver/frame and as such is a firearm by definition, as per "CC 2", "firearm".
- Criminal Code, section 2, definition; "firearm" means a barrelled weapon from which any shot, bullet or other projectile can be discharged and that is capable of causing serious bodily injury or death to a person, and includes any frame or receiver of such a barrelled weapon and anything that can be adapted for use as a firearm;

Notes

Make

- trademark logo and "AKDAL" are marked on the left side of the upper receiver.
- "AKDAL", "BLOW" and "VOLTRAN" are trade name/trade marks used by Ucyildiz Silah Sanayi ve Tic. Ltd. Sti. / Ucyildiz Arms Ind. Co. Ltd.

Model

- "MKA 1919" was observed marked on the right side of the lower receiver, just above the pistol grip and "Magnum" just above the magazine well on one observed model.
- this is an AR style shotgun.
- "MKA 1919" uses a split, two-piece receiver/frame in a manner similar to an AR-15/M-16 but which attaches in a different manner. The MKA 1919 is not attached by a front hinge pin, rather the MKA 1919 firearm has a one-piece butt and trigger mechanism housing and the two components of the receiver actually slide apart, horizontally. The one-piece butt and trigger mechanism housing are fastened to the "upper receiver" by a through-bolt which when removed, permits the two components of the receiver/frame to be disassembled.
- features include: a "TS 870" free floating round barrel; aluminum alloy upper receiver with a detachable carry handle having an adjustable A2 style rear sight, right hand cocking handle and ejector port; annular (ring type) gas piston which is located surrounding a support tube that is mounted below the barrel, the return spring is also located/mounted on the same support tube; synthetic upper and lower handguards; synthetic lower receiver with an integral/fixed buttstock and pistol grip; safety catch with two positions, safe and semi-automatic fire; sling swivels; black or camouflage finish.
- aftermarket parts the MKA 1919 may be found in a variety of configurations and barrel lengths.
- overall length with a 483mm (19") barrel is 964mm (38"), average weight is 3.25 kg (7.17lbs).

Manufacturer

- manufacturer is not marked on the examples observed.

Action

- gas operated.

Serial Number

- serial number is marked on a metal insert imbedded in the underside of the trigger guard.
- the serial number is repeated on the right forward side of the upper receiver.
- serial number of a referenced example consisted of one letter prefix (X) and seven numbers.
- serial number of a referenced example consisted of seven numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- "12 GA. / Magnum (3")" was observed marked on the left side of the magazine housing.
- calibre identification is also usually marked on the barrel.

Shots

- detachable box magazine.

- "CHURCHILL" trade name was previous imported and sold by Kassnar Imports, Inc. located in Harrisburg, Pennsylvania, U.S.A. prior to 1988/89.
- "CHURCHILL" trademark was sold to Ellett Brothers located in Chapin, South Carolina, U.S.A. in 1988/89.
- "CHURCHILL" name was used by the Ellett Brothers on imported shotgun manufactured in Europe and Japan until 1993.

Model

- "Churchill" is marked in script on the barrel and receiver/frame.
- the "28" within the model represents the gauge designation.
- features include: tapered, over and under, smooth bore barrels with a front fibre optic sight; interchangeable, screw-in choke tubes; front hinged receiver/frame; top tang mounted break open action release lever and a manual barrel selector/safety; extractors; box lock action; hammerless; single selective trigger; checkered walnut forearm and semi-pistol grip buttstock with a rubber recoil pad; blued finish.
- overall length with a 660 mm (26") barrel is 1100mm (43.375"), and the average weight is 2.7 kg (5.95 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- over & under barrel configuration.
Serial Number	- serial number is marked on the receiver/frame.
Calibre	- calibre designation is usually marked on the barrel.

Notes

Make

- "AKKAR" was observed marked on the right side of the receiver/frame.
- "AKKAR" may be marked on the barrel.

Model

- "CHURCHILL" is marked on the side of the receiver/frame.
- this is a version of the Akkar "Karatay" pump-action shotgun, manufactured with different trade or brand-name markings, using the same "Churchill" brand that Akkar uses on its over/under and side by side shotguns.
- features include: blued/black, and/or anodized finish; bead or rifle sights (some with accessory rails for mounting optics); fixed or screw-in interchangeable chokes; synthetic furniture; cross-bolt safety; bottom-loading; and right-side ejection.
- these shotguns may be seen in various configurations, including pistol-grip-only, fixed pistol-grip; folding pistol-grip; or fixed shoulder stock.

Manufacturer

- "AKKAR" was observed marked on the right side of the receiver/frame.
- "AKKAR" may be marked on the barrel.

Serial Number

- serial-numbered on the receiver/frame.

Calibre

- The calibre designation is usually marked on the barrel.

Shots

- underbarrel tubular magazine.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

141975 - 1	14 GA PERCUSSION	2	762	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "E. Akrill" will be marked on the lockplates and may also be marked on the top of the rib between the barrels.
- E. Akrill side by side shotguns also utilized barrels made by other British makers, e.g., "Thomas Boss", and will be so marked.

Model

- no model name is marked on this firearm; the model designation is derived from the characteristics of the firearm.
- this type of firearm would have been produced circa 1850's to 1861.
- features: muzzle loading, percussion ignition, side by side barrel configuration; usually side lock construction; double exposed hammers; double triggers; damascus barrels; may have plantinum line and vents; may have a trigger guard rear tang with grip safety bar; ramrod located beneath the barrels; walnut half stock with checkered wrist and forend; engraved lockplates; browned barrels.

Manufacturer

- "E. Akrill" will be marked on the lockplates and may also be marked on the top of the rib between the barrels.
- E. Akrill side by side shotguns also utilzed barrels made by other British makers, e.g., "Thomas Boss", and will be so marked.
- the firm of Esau Akrill was established in Beverley, Yorkshire, England in 1828.
- the business was recorded at Walkergate before moving to the Market Place by circa 1833; it was later recorded at, 18 Market Place; the business continued at this location under Henry Akrill (son of Esau) and then Henry Esau Akrill (son of Henry); the business closed in 2001.
- a second shop was opened at 25 Blackfriargate, Hull in 1847 which then moved to 72 Mytongate by 1851; this shop closed circa 1855.
- Esau Akrill passed the business on to his son Henry Akrill in 1861.

Action

- muzzle loading, percussion ignition, side by side barrel configuration.

Remarks

- two known examples of this type of firearm have been marked on the top of the rib between the barrels, "THOMAS BOSS, 75 ST JAMES STREET LONDON".

Notes

Make

- "H.E. Akrill" was observed marked on both sides of the receiver/frame and on the top of the rib between the barrels.

Model

- no model name is marked on this firearm.
- this is a generic entry for those side by side shotguns manufactured by Henry Esau Akrill that have no model designation marked on them.
- features may include: round side by side smoothbore barrels with a bead front sight; front hinged receiver/frame with the break open lever mounted on the top tang, side or underside; side lock or box lock action; exposed hammers or hammerless; double triggers; checkered wood forearm and straight grip buttstock; blued barrels; case hardened receiver/frame.

Manufacturer

- "H.E. Akrill" was observed marked on both sides of the receiver/frame and on the top of the rib between the barrels on one example.
- Henry Esau Akrill was the son of Henry Akrill, who in turn was the son of the original founder of the business, Esau Akrill.
- Henry Esau Akrill was an English gunmaker located, Beverley, Yorkshire, England; the actual name of the business was, "Henry Esau Akrill, Holderness Gun Stores".
- firm was located at Market Place, Beverley, Yorkshire, circa 1897 to circa 1901, and, 18 Beverley Place, circa 1905 to 2000; the business closed in 2001.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number is marked onthe watertable of the receiver/frame.
- observed serial number consisted of four numbers without a letter prefix or suffix.

Notes

Make

- "Aksa" or "Crossfire" may be marked on the firearm.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a Winchester "9410" style lever action shotgun, chambered for 410x76mm shells, and available in blued or matte chrome/nickel finishes.
- features include: standard lever action layout; blued or matte nickeled/chrome finish; fluorescent bead front sight; "battue rib" style ramp rear sight; underbarrel tubular magazine; right side loading gate; open top "angle-eject"; single action trigger mechanism; thumb tang safety; polished walnut forearm and straight grip buttstock; and a rubber recoil pad.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Aksa" or "Crossfire" may be marked on the firearm. - Aksa was founded in 2001, in Konya, Turkey, as a manufacturer of air guns, blank guns, and shotguns.
Serial Number	- serial numbered on the receiver/frame.
Shots	- underbarrel tubular magazine.

Notes

Make

- The make is not marked on the firearm.

Model

- The model designation is not marked on the firearm.
- "P-84" was developed in the 80's for the Albanian armed forces Special operations Battalions.
- "P-84" model is defined by its characteristics.
- "P-84" main features are a tubular receiver/frame with a under, vertical magazine well having a ring behind it acting as a grip safety that you need to hold forward holding the magazine well as to been able to pull the trigger.
- Features include: sheet metal construction; barrel flush with the barrel shroud; air elongated ventilation holes; tubular receiver/frame with knurled end cap; left side cocking handle; magazine release lever on the right side of the magazine well; behind the magazine well and grip safety ring, a rectangular shaped trigger mechanism housing with expose sear bar at the rear going over a expose, curved trigger having a hole through it; incline rectangular shaped pistol grip; collapsing wire butt stock that the butt plate, once collapsed, fit and become part of the pistol grip.

Manufacturer

- The manufacturer is not marked on the firearm.
- "Albania State Arsenal, Polican" stands for "Kombinati Mekanik Poliçan".
- "Albania State Arsenal, Polican" specialised in the production of rifle, machine gun and mortar ammunition, including anti-personnel and anti-tank mines.
- "Poliçan" is a city situated in south-central Albania.
- "Poliçan" was built in the 1960s by the Communist government with the purpose of creating an industrial town for the production of weapons and munitions.
- "Albania State Arsenal, Polican" faced rapid decline after the fall of communism in Albania during the early 1990s.
- "Albania State Arsenal, Polican" has of 2024 reportedly produces only pistol ammunitions.

Action

- Blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- Serial number is also usually marked on other parts of the firearm.
- Serial number of referenced examples consisted of two numbers, a dash and four numbers.

Shots

- Detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 177322
Make: Alberta Tactical Rifle
Model: ATSHL

Summary

Make:	Alberta Tactical Rifle
Model:	ATSHL
Manufacturer:	Alberta Tactical Rifle
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
177322 - 1	50 BMG	1	816	Prohibited PFR, Part 1, para. 96(h)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ALBERTA TACTICAL RIFLE" was observed marked on the right side of the receiver/frame.

Model

- "MODEL ATSHL" was observed marked on the right side of the receiver/frame.
- this is a conventional turn-bolt designed rifle chambered for the 50 BMG cartridge; this rifle has a separate upper and lower receiver/frame, with the lower machined from a solid piece of aluminum alloy with no magazine well.
- the Alberta Tactical Rifle model ATSHL receiver/frame is not compatible with a standard AR15 type upper assemblies and is not a variant of an AR15/M16.
- Alberta Tactical Rifle remanufactures bolt action 50 BMG AR15 type upper assemblies to fit the ATSHL lower receiver/frame.
- the ATSHL is a newly manufactured lower receiver/frame that is made specifically to be fitted with remanufactured bolt action AR15 50 BMG upper assemblies from one of three manufacturers: Safety Harbor Firearms SHTF 50, Spider Firearms Ferret 50, and Dominion Arms DA50.
- this is a turn bolt operated rifle which may be single shot configuration or magazine fed, utilizing a detachable box magazine feeding from the left side of the upper receiver.

Action

- turn-bolt design.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 142962
Make: Alberta Tactical Rifle
Model: Browning M1919A4

Summary

Make:	Alberta Tactical Rifle
Model:	Browning M1919A4
Manufacturer:	Alberta Tactical Rifle
Level:	Converted Automatics
Type:	Commercial Version
Action:	Converted Automatic
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
142962 - 1	30-06 SPRG	N/A	610	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
142962 - 2	7.62MM NATO	N/A	610	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- "ALBERTA TACTICAL RIFLE SUPPLY" and "MADE IN CANADA" was observed marked on the right side-plate of the receiver/frame.

Model

- "MODEL 1919A4" was observed marked on the right side plate of the receiver/frame.
- this "Browning 1919A4" is a re-creation of the United States Service, .30 calibre, Browning Machine Gun, M1919A4.
- Browning Machine Gun was named after the inventor, John M. Browning.
- "BROWNING M1919A4" is manufactured in semi-automatic fire configuration.
- the Browning Machine Gun M1919 could be configured into sub-models for different roles. A partial list of the possible configurations follows:

a) Browning Machine Gun M1919A4:
- M1919A4 is an air-cooled firearm which may be found in flexible configuration for infantry use and is normally fired from a tripod, or mounted on an armoured fighting vehicle.
- M1919A4 version feeds belts of ammunition from the left side.

b) Browning Machine Gun M1919A5:
- M1919A5 is an air-cooled firearm designed for fixed configuration and use in an armoured fighting vehicle. Rate of fire 550 to 650 shots per minute.
- M1919A5 version feeds belts of ammunition from the left side.

c) Browning Machine Gun M1919A6:
- M1919A6 is an air-cooled firearm which may be configured for infantry use with a carrying handle, bipod and shoulder stock.
- M1919A6 version feeds belts of ammunition from the left side.

Manufacturer

- "ALBERTA TACTICAL RIFLE SUPPLY" and "MADE IN CANADA" was observed marked on the right side-plate of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Type	- designed and manufactured in semi-automatic fire configuration. - the right-hand, side plate has a shoulder not found on full automatic versions. - this side plate was manufactured with the shoulder to prevent full automatic parts from being installed.
Action	- no longer capable of full automatic fire.
Serial Number	- serial number rationalization is unknown. - serial number observed consisted of a two number prefix followed by four numbers.
Calibre	- calibre is marked on the right side of the receiver/frame.
Shots	- belt-fed firearm.
Canadian Law Comments	- Browning Machine Gun receivers: (1) - the five sided box consisting of top and bottom plates, left and right side plates and the front trunnion block is the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm". (2) - for regulatory purposes, when the five sided box receiver/frame is further disassembled, the receiver/frame component plate where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration. (3) - the classification of this firearm as a semi-automatic firearm is based on the presumption that none of the original five (5) receiver components were reused. This is what was understood to be the meaning of the claim by the manufacturer that the firearm is a "newly manufactured semi-automatic firearm". (4) - the Criminal Code PART III, Section 84 para (c) definition - prohibited firearm means, "an automatic firearm, whether or not it has been altered to discharge only one projectile with one pressure of the trigger.
Remarks	- this firearm is a re-creation of the United States Service, 30 calibre, Browning Machine Gun, M1919A4, in semi automatic fire configuration. - the receiver has been designed and manufactured to prevent the use of full-auto parts. - the manufacturer uses surplus US parts to build the receiver/frame components into complete firearms.

Notes

Make

- "ALBERTA TACTICAL RIFLE", "MODEL Modern Hunter", "CALGARY, ALBERTA", "outline of a Maple leaf" and "CANADA" was observed marked on the right side of the magazine housing of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 2015. - this firearm is a production version of the ATRS, Model, Modern Hunter firearm. - the ATRS Modern Hunter uses a Timney AR-10 self-contained drop in trigger unit with single hammer pin mounting system. - the trigger well in the lower receiver is machined to fit mil-spec AR-10, 15 trigger and hammer parts, however this particular firearm receiver has a self-contained trigger mechanism which mounts on the hammer axis pin, there is no trigger pin hole in the receiver. - the ATRS, Model - Modern Hunter upper receiver does not have a cut for an automatic sear, and has a different system for mounting upper to lower receivers than either the AR-10 or AR-15 Rifles. - overall length of firearm butt collapsed 980mm. - overall length of firearm butt extended 1080mm.
Manufacturer	- Albertal Tactical Rifle/Alberta Tactical Rifle Supply is located in Calgary, Alberta, Canada. - Albertal Tactical Rifle/Alberta Tactical Rifle Supply is a Division of Magnum Machine Limited. - Albertal Tactical Rifle/Alberta Tactical Rifle Supply specializes in custom precision rifle manufacture, upgrades and modifications.
Action	- gas operated.
Serial Number	- serial number rationalization as follows: the ATRS prefix is an abbreviation of the manufacturer's brand name, Alberta Tactical Rifle Supply; followed by 2 digits - indicating the year of manufacture, followed by the Roman alphabet letters "MH" denoting the model - "Modern Hunter"; with the final six (6) numbers being the firearm's unique serial number within the Modern Hunter series production. - serial number was observed marked on the right side of the magazine housing of the lower receiver/frame. - observed serial number consisted of a four letter prefix followed by a series of letters and numbers.
Calibre	- 308 WIN 1:10 and "ATRS" may be found marked on the barrel.
Shots	- detachable box magazine. - the magazine well of the ATR Modern Hunter is of an early (first generation) AR-10 design, and will accept early AR-10 magazines and the Stoner SR-25 magazine. - late model AR-10 magazines do not fit and function in this firearm.
Other Markings	- the trade name "Alberta Tactical Rifle" may be found marked upon the left side of the upper receiver. - a stylized maple leaf and the word CANADA may be found marked on the right side of the upper receiver to the rear of the ejection opening.

Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
146190 - 1	308 WIN	5	565	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	

Notes

Make

"ALBERTA TACTICAL RIFLE", "MODEL Modern Hunter", "S/N. # ATRS#-MH-PROT01", "CALGARY, ALBERTA", "outline of a Maple leaf" and "CANADA" was observed marked on the right side of the magazine housing of the receiver/frame.

Model

- "MODERN HUNTER" is marked on the left side of the magazine housing.
- introduced in 2014.
- the ATRS Modern Hunter firearm portrayed here is a pre-production prototype firearm. The design is not "frozen" for final production.
- this FRT Record covers only Serial Number ATRS12-MH-PROTO 1.
- the ATRS Modern Hunter uses a Timney AR-10 self-contained drop in trigger unit with single hammer pin mounting system. The trigger well is machined to fit mil-spec AR-10, 15 trigger and hammer parts, (this particular mechanism has a self-contained trigger, there is no trigger pin hole in the receiver).
- the ATRS, Model - Modern Hunter upper receiver does not have a cut for an automatic sear, (as seen on the AR 15 upper receiver above) and has a different mounting system for the upper receiver to the lower receiver/frame than either the AR-10 or AR-15 Rifles.

Manufacturer

- Albertal Tactical Rifle/Alberta Tactical Rifle Supply is located in Calgary, Alberta, Canada.
- Albertal Tactical Rifle/Alberta Tactical Rifle Supply is a Division of Magnum Machine Limited.
- Albertal Tactical Rifle/Alberta Tactical Rifle Supply specializes in custom precision rifle manufacture, upgrades and modifications.

Action

- gas operated.

Serial Number

serial number was observed marked on the right side of the magazine housing of the lower receiver/frame.
- observed serial number consisted of a four letter "ATRS12-MH-PROT01"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- the magazine well of the ATR Modern Hunter is of an early (first generation) AR-10 design, and will accept early AR-10 magazines and the Stoner SR-25 magazine.
- late model AR-10 magazines do not fit and function in this firearm.

Notes

Make

- the make "ALBERTA TACTICAL RIFLE" was observed on a referenced example, marked on the right side of the magazine housing of the receiver/frame and on the left side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 2018.
- model designation "MODEL MODERN SPORTER" was observed marked on the right side of the magazine housing of the receiver/frame.
- features include: 5.56mm Wylde (long freebore) Chamber; free floating, round, stainless steel, heavy barrel; round alloy forend; no sights; integral sight rail on upper receiver; AR type charging handle located on top of the upper receiver; magazine mounted in front of the trigger guard; pistol grip; two position safety located on the left side of the frame/receiver above the pistol grip; collapsible stock.
- the sample firearm had an anodised matte black finish.
- the ATRS Modern Sporter accepts most AR-15 parts and accessories.
- the ATRS Modern Sporter can uses any compatible AR-15 trigger mechanism.
- the trigger well in the lower receiver is machined to fit mil-spec AR-15 trigger and hammer parts.
- the ATRS, Model - Modern Sporter upper receiver does not have a cut for an automatic sear, and has a different system for mounting upper to lower receivers than either the AR-10 or AR-15 Rifles.
- overall length of observed firearm butt collapsed 865mm.
- overall length of observed firearm butt extended 960mm.
- overall length with a 406mm (16") barrel with collapsed stock is 775mm (30.5").
- overall length with a 356mm (14") barrel with collapsed stock is 724mm (28.5").
- overall length with a 305mm (12") barrel with collapsed stock is 673mm (26.5").

Manufacturer

- the make "ALBERTA TACTICAL RIFLE" was observed on a referenced example, marked on the right side of the magazine housing of the receiver/frame and on the left side of the firearm.

Action

- gas operated

Serial Number

- serial number rationalization as follows: - the ATRS prefix is an abbreviation of the manufacturer's brand name, Alberta Tactical Rifle Suppy; followed by 2 digits - indicating the year of manufacture, followed by the Roman alphabet letters "MS" denoting the model - "Modern Sporter"; with the final six (6) digits being the firearm's unique serial number within the Modern Sporter series production.
- serial number was observed marked on the right side of the magazine housing of the lower receiver/frame.
- observed serial number consisted of a four letter prefix followed by a series of letters and numbers.

Calibre

- ".223 Wylde" is marked on the barrel of this firearm. This designation is not the calibre of the firearm but a description of the chamber leade dimensions.
- the Wylde chamber is identical to the NATO STANAG chamber with a longer freebore to accommodate .224 inches (5.6MM) diameter commercial projectiles up to 80grs (5.18gm) mass. The rifling twist is 1 turn in 9 inches (1 turn in 229mm) to stabilize projectiles with a greater mass than 55 grs without incurring the pressure spike of engaging a long projectile bearing surface at full rifling depth.

Shots

- detachable box magazine.
- firearm designed to utilze AR15/M16 STANAG "type" cartridge magazines.

149436 - 1	42 PERCUSSION	1	857	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "G. ALBIG" is usually marked on the firearm.
- George Albig was a gunsmith based in New York, New York, known for his percussion target guns during the mid-to-late 1800s.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a percussion muzzle-loaded "schuetzen"-style target rifle.
- features include: a wide range of possible finishes and engraving styles, but usually blued with hexagonal barrel; a one-piece walnut butt (with varying degrees of carving, checkering, and inlay); micrometer-adjustable peep sights (but may also be seen with adjustable open backup sights); double set triggers; an ornate filigree frame grip; and a butt with a cheekrest and hooked buttplate.
- may also be seen with an off-hand palm-rest.

Manufacturer

- "G. ALBIG" is usually marked on the firearm.
- George Albig was a gunsmith based in New York, New York, known for his percussion target guns during the mid-to-late 1800s.

Action

- muzzle-loaded percussion single-shot.

Barrel

- barrel lengths may vary.

Calibre

- calibres may vary.

FRT Report

Firearm Reference Number (FRN): 67525
Make: Albini Braendlin
Model: 1867 Infantry Rifle

Summary

Make:	Albini Braendlin
Model:	1867 Infantry Rifle
Manufacturer:	Manufacture d'Armes de L'Etat (MAE)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
67525 - 1	11X50R BELGIAN ALBINI	1	882	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Albini Braendlin" is not marked on the firearm.
- features a breech block system designed by Italian military officer Augusto Albini and perfected by Francis Braendlin.

Model

- conversion of earlier manufactured muzzleloading muskets to breech loading cartridge system, although when the stock of suitable muskets for conversion was exhausted new Albini - Braendlin rifles were manufactured.
- conversion entailed a new barrel with Albini - Braendlin breech system and reworking the inside of the lockplate.
- the Albini breech system uses a forward hinging breech block and a cocking piece which resembles a standard side hammer. On the moment of firing a round locking bolt enters the rear of the breechblock to secure the breechblock in the locked position and also strikes the end of the internal firing pin which goes forward to strike the primer of the chambered cartridge.
- rifle has three barrel bands, the front band encircles the barrel.

Manufacturer

- "MAE" is the abbreviation for Manufacture d'Armes de L'Etat.
- Manufacture d'Armes de L'Etat was founded in Faubourg Saint-Leonard, Liege, Belgium in 1838.
- Manufacture d'Armes de L'Etat was a government owned small arms factory which manufactured rifles and machine guns until the German invasion of 1914.
- Manufacture d'Armes de L'Etat converted model 1889/36 Short Rifles from 1936 to 1940.

Serial Number

- appears on the top of the chamber of the barrel.

Notes

Make

- the make is marked on top of the breechblock as "ALBINI-BRAENDLIN PATENT".

Model

- the model is not marked on the firearm; this is a breech-loading single-shot conversion of a muzzle-loaded percussion rifle, performed by Braendlin Armoury using the conversion method patented by Italian Captain Augusto Albini and British gunmaker Francis Braendlin; these rifles were delivered to Japan, and are marked with the Imperial Japanese chrysanthemum on the barrel forward of the breech.
- this conversion was normally performed on surplus 1858 Enfield percussion muskets, but may also be seen on a variety of other models.
- features include: standard 1858 Enfield appearance (save for the conversion breech); open adjustable sights; full-length straight-grip stock; nosecap with two barrel bands; back-action sidelock with a modified hammer; and the Albini-Braendlin "trap-door"-style breechblock.

Manufacturer

- the manufacturer is marked on the firearm with Braendlin's logo of crossed pennants over a "B".

Action

- "trap-door"-style single-shot.

Serial Number

- numbered on the receiver and breechblock.

67627 - 1	11X42R BELGIAN ALBINI	1	680	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Albini Braendlin" is not marked on the firearm.
- breech block system designed by Italian military officer Augusto Albini and perfected by Francis Braendlin.

Model

- conversion of earlier manufactured muzzleloading muskets to breech loading cartridge system although when the stock of suitable muskets for conversion was exhausted new Albini Braendlin rifles were manufactured.
- conversion entailed a new barrel with Albini Braendlin breech system and reworking the inside of the lockplate.
- the Albini Braendlin breech system uses a forward hinging breech block and a cocking piece which resembles a standard side hammer. On the moment of firing a round locking bolt enters the rear of the breechblock to secure the breechblock in the locked position and also strikes the end of the internal firing pin which goes forward to strike the primer of the chambered cartridge.
- rifle has three barrel bands, the front band encircles the barrel.
- the 1873 Musketoon is basically a short version of the 1867 Infantry Rifle, differing primarily by having only two barrel bands and a 200mm shorter barrel.

Manufacturer

- "MAE" is the abbreviation for Manufacture d'Armes de L'Etat.
- Manufacture d'Armes de L'Etat was founded in Faubourg Saint-Leonard, Liege, Belgium in 1838.
- Manufacture d'Armes de L'Etat was a government owned small arms factory which manufactured rifles and machine guns until the German invasion of 1914.
- Manufacture d'Armes de L'Etat converted model 1889/36 Short Rifles from 1936 to 1940.

Serial Number

- appears on the top of the chamber of the barrel.

Calibre

- a carbine cartridge intended for the Belgian Albini-Braendlin Carbine, identical to the 11X50R BELGIAN ALBINI rifle except an 8mm shorter cartridge case, lighter charge of gunpowder and a lighter weight bullet. May be chambered and fired in the Albini-Braendlin rifle but the rifle cartridge will not chamber in the carbine.

Notes

Make

- "ALDENS" is marked on the firearm.
- Aldens Inc. was a large Chicago catalog and direct marketing company.
- Aldens Inc. developed America Direct, Inc.in the 1970s.
- this was Alden's direct merchandising subsidiary.

Model

- "Model 670" is marked on the firearm.
- manufactured between 1956 and 1968.
- features include: round barrel with bead front sight; solid top steel receiver/frame with side ejection and bottom loading; hammerless; tubular magazine; cross bolt safety at the rear of the trigger guard or an upper rear tang safety located at the rear of the trigger guard; checkered walnut forearm and pistol grip stock and rubber butt plate.

Manufacturer

- "Savage Arms" is marked on the barrel and/or receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- tubular magazine mounted under the barrel.
- the tubular magazine will hold four (4) 2 3/4" shells or three (3) 3" shells.
- magazine may be plugged to reduce capacity to three (3) shots.
- total capacity of firearm is five (5) 2 3/4" shells with one (1) in the chamber.
- total capacity of firearm is four (4) 3" shells with one (1) in the chamber.

Notes

Make

- "ALERO" is marked on the barrel.

Model

- "ALERO - 1874" is marked on the top of the barrel.
- manufactured circa 1882.
- features include: single action revolver; solid flat sided receiver/frame with removeable side plate and fluted fixed cylinder with locking notches to the rear; cylinder pin release is a push in type blade located at the front end of the receiver/frame; round rifled barrel; exposed spur hammer; sheathed trigger; brass half disc front sight; rear sight is a raised notch in the top strap; blued or nickel finish; birds head grip with walnut grips.

Serial Number

- serial number is marked on the left side of the receiver/frame, under the grip panel.
- observed serial number consisted of three numbers without a letter prefix or suffix.

Notes

Make

- "ALERT - 1874" is marked on the barrel.
- "ALERT" was a brand/tradename used by Bacon Arms Company", "Hood Firearms Company" and "Norwich Falls Pistol Company".

Model

- "ALERT - 1874" is marked on the top of the barrel.
- manufactured prior to 1882.
- features include: single action revolver; solid flat sided receiver/frame with removeable side plate and fluted fixed cylinder with locking notches to the rear; cylinder pin release is a push in type blade located at the front end of the receiver/frame; round rifled barrel; exposed spur hammer; sheathed trigger; brass half disc front sight; rear sight is a raised notch in the top strap; blued or nickel finish; birds head grip with walnut grips.
- this revolver was manufactured under Freeman W. Hood's patent of March 14,1876, which dispenses with a method of locking the cylinder in the firing position; despite this, the cylinder will still often show locking notches for the non-existent bolt.

Manufacturer

- manufacturer's name is not marked on the firearm.

Serial Number

- serial number is marked on the left side of the receiver/frame, under the grip panel.
- observed serial number consisted of three numbers without a letter prefix or suffix.

Notes

Make	- "ALEXANDER ARMS RADFORD VA" and the Alexander Arms' logo of "A+A" in a shield is marked on the firearm.
Model	- "AAR15" is marked on the magazine well. - this is Alexander Arms' "generic" lower receiver, which can be assembled with various parts into any of Alexander Arms' AR-style rifles in a range of calibres. - features include: standard AR-15-style controls; black oxide/phosphate finish (camouflage finishes available); flat-top or carry handle upper; ventilated, cylindrical or accessory-rail forearm; various styles of muzzle brake; fixed A2, collapsible M4, or Magpul adjustable buttstock; "T" or side-handle operating handle; and can be assembled with any aftermarket AR-15 uppers.
Manufacturer	- "ALEXANDER ARMS RADFORD VA" and the Alexander Arms' logo of "A+A" in a shield is marked on the firearm.
Action	- gas-operated in centrefire calibres, and blowback in 17 HMR calibre.
Serial Number	- numbered on the left side of the lower receiver, on the magazine well.
Shots	- detachable box magazine. - the 50 Beowulf magazine is adapted from the original 5.56x45 NATO version of the magazine but the ability of the magazine to perform as originally designed has not been compromised by the adaptation.

Notes

Make

- "Alexander Arms" or "Alexander Arms LLC" is usually marked on the left side of the receiver/frame, above the trigger.
- "Alexander Arms" logo is usually marked on the left side of the magazine well housing of the receiver/frame.
- "Alexander Arms" logo consists of a shield with two "A"s separated by a set of crosshairs and a circle in the middle.

Model

- introduced in 2004.
- "CAL. 6.5 GRENDEL" and "MODEL AAR15" are usually marked on the left side of the magazine well housing of the receiver/frame.
- "AAR15 Grendel" is of the design commonly known as the AR15/M-16 rifle.
- features include: blued round barrel without sights; flat top upper with picatinny rail; aluminum alloy receiver/frame; rear cocking handle; manual close assist; right side ejection port with dust cover; safety lever is located on the left side of the receiver/frame above the pistol grip; magazine release is located on the right side of the receiver/frame; black round handguard, pistol grip and buttstock.
- also available as the "AWS Entry" version with an upper featuring four picatinny rails (a full length top rail with two side and one bottom rail).
- also available as the "Hunter" version which features a 508mm (20") barrel and a choice of black or coyote brown synthetic forearm, pistol grip and buttstock.
- also available as the "Tactical" version which features a 356mm (14") and 406mm (16") barrels, comes with a chrome lined barrel and fixed front sight.
- similar to the Alexander Arms model Grendel Overwatch which features a 610mm (24") barrel.

Manufacturer

- "Alexander Arms" is located in Radford, Virginia, U.S.A.
- "Alexander Arms" was founded by Bill Alexander in 2001.

Action

- gas operated.

Serial Number

- serial number is marked on the side of the lower receiver/frame.
- serial number may consist of a "GRE" or "GREN" prefix followed by four digits.

Calibre

- "CAL. 6.5 GRENDEL" may be marked on the side of the firearm.

Shots

- detachable box magazine.

Summary

Make:	ALFA Machine Gun
Model:	1944
Manufacturer:	Fabrica de Armas, Oviedo
Level:	Manufacturer Specifications and Commercial Customization
Type:	Machine Gun
Action:	Full Automatic
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
68746 - 1	8MM MAUSER	N/A	750	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ALFA" was not observed marked on the firearm.
- "Alfa" was also a trade name used by "A. L. Frank" of Hamburg, Germany.
- A. L. Frank was a distributor of firearms pre 1918.
- "Alfa" trade name was also used by "Armero Especialistas Reunidas" of Spain in the early 1920s.

Model

- usually not marked as to model number. (NOTE: the date on the receiver below the serial number is the year of manufacture; it is NOT the model number)
- a heavy ground-mount machinegun, usually deployed on a tripod or a flexible mount, machined steel receiver, dual spade grips, large vertical cylindrical charging handle on the right side, heavy fluted rapid-change barrel with wood carry handle, blade front sight and rear leaf sight.
- this model became the Model 1955, which is the same as the model 1944 but is chambered for the 7.62MM NATO cartridge.

Manufacturer

- "OVIEDO" is usually marked on the top of the receiver/frame, just below the serial number.

Action

- gas operation, selective fire.

Serial Number

- marked on top of the forward receiver.

Calibre

- calibre is marked on the firearm as "7.92".

Shots

- this is a belt fed firearm, usually found with a 100 round belt in a fixed box on the side of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- an unknown quantity of this model were exported to Egypt early circa 1950's and will have the Egyptian national symbol and various other markings in Arabic-Egyptian script on the top of the receiver/frame.
- observed example was dated "1953".

FRT Report

Firearm Reference Number (FRN): 182288
Make: ALFA Proj
Model: 020

Summary

Make:	ALFA Proj
Model:	020
Manufacturer:	ALFA Proj
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
182288 - 1	9X17 REVOLVER BLANK/GAS	6	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the "ALFA Proj" logo over "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.
- "ALFA" is marked on the left side of the barrel.

Model

- "model 020" is marked on the left side of the receiver/frame, below the cylinder latch.
- "model 020" has an alloy receiver/frame.
- features include: fixed sights; round barrel with a full length under lug; solid top receiver/frame with a left side swing-out fluted cylinder; cylinder release is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; synthetic; blued or nickel plated finish.
- overall length is 176 mm (7"), and the average weight is 0.7 kg (1.5 lbs).

Manufacturer

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.

Serial Number

- is marked on the left side of the receiver/frame above the trigger.
- observed serial number consisted of ten sequential numbers.

Canadian Law Comments

- the receiver/frame of the ALFA Proj, Model 020 Revolver, is in and of itself a firearm as the receiver frame is shared with other ALFA Proj revolvers. For this reason the ALFA Proj model 020 does not qualify as a "device designed exclusively for signalling, for notifying of distress or for firing blank cartridges" because it loses "exclusivity of use".

- observed serial number consisted of ten sequential numbers.

Canadian Law Comments

- the receiver/frame of the ALFA Proj, Model 120 Revolver, is in and of itself a firearm as the receiver frame is shared with other ALFA Proj revolvers; in this particular case the ALFA Proj, Model 861 Revolver in 38 Spl calibre. For this reason the ALFA Proj model 120 does not qualify as a "device designed exclusively for signalling, for notifying of distress or for firing blank cartridges" because it loses "exclusivity of use".

51602 - 1	22 LR	9	74	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.
- "ALFA" or "ALFA STEEL" may not be marked on the the barrel
- "HOLEK" was observed marked on the left side of the barrel.

Model

- "model 230" is marked on left side of the receiver/frame, below the cylinder latch.
- features include: fixed sights; round barrel with a full length under lug; solid top receiver/frame with a left side swing-out fluted cylinder; cylinder release is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; synthetic or wood grips; blued, chrome or nickel plated finish.
- overall length with a 74 mm barrel is 211mm, and the average weight is 0.830 kg.

Manufacturer

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on left side of receiver/frame, below cylinder.

Calibre

- calibre is usually marked on the right side of the barrel.

Shots

- swing-out cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- "Holek" is marked on the left side of the barrel. The Holek family is well known for their design and production of firearms in the former Czechoslovakia. This marking is representative of Zbrane Holek (ZH), whose nephew is part owner of Alfa Proj.
- "Bohemia" may be marked on the side plate. Alfa Proj began producing firearms during the time when the former Czechoslovakia was split into two independent countries and the new names of these countries were yet to be officially determined. During initial production, the company believed that "Bohemia" was going to become the official name of the country where the plant was located so this name was placed on the firearms. Months after production, the country officially became the "Czech Republic".
- "Bohemia" is now replaced by "Czech Rep." on any new production runs by Alfa Proj.

Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
51604 - 1	22 LR	9	98	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.
- "ALFA" or "ALFA STEEL" may not be marked on the the barrel
- "HOLEK" was observed marked on the left side of the barrel.

Model

- "model 241" is marked on left side of receiver/frame, below cylinder latch.
- features include: fixed sights; round barrel with a full length under lug; solid top receiver/frame with a left side swing-out fluted cylinder; cylinder release is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; synthetic or wood grips; blued, chrome or nickel plated finish.
- overall length is 237 mm (9 1/4"), and the average weight is 0.88 kg (1.94 lbs).

Manufacturer

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on left side of receiver/frame, below cylinder.
- observed serial number consisted of ten numbers without a letter prefix or suffix.

Calibre

- calibre is marked on the right side of the barrel.

Shots

- swing-out cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- "Holek" is marked on the left side of the barrel. The Holek family is well known for their design and production of firearms in the former Czechoslovakia. This marking is representative of Zbrane Holek (ZH), whose nephew is part owner of Alfa Proj.
- "Bohemia" may be marked on the side plate. Alfa Proj began producing firearms during the time when the former Czechoslovakia was split into two independent countries and the new names of these countries were yet to be officially determined. During initial production, the company believed that "Bohemia" was going to become the official name of the country where the plant was located so this name was placed on the firearms. Months after production, the country officially became the "Czech Republic".
- "Bohemia" is now replaced by "Czech Rep." on any new production runs by Alfa Proj.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
51605 - 2	22 LR	6	149	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
51605 - 1	22 LR	9	149	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.
- "ALFA" or "ALFA STEEL" may not be marked on the the barrel
- "HOLEK" and "HOLEK SPORT" have been observed marked on the left side of the barrel.

Model

- "model 261" is marked on the left side of the receiver/frame, below the cylinder latch.
- features include: fixed blade front sight and an adjustable rear sight; round barrel with a full length under lug or a hexagonal barrel grooved for optical sights; solid top receiver/frame with a left side swing-out fluted cylinder; cylinder release is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; synthetic or wood grips; blued, chrome or nickel plated finish.
- overall length is from 287 mm to 294 mm, and the average weight is from 0.97 kg to 1.200 kgs.

Manufacturer

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on left side of receiver/frame, below cylinder.
- observed serial number consisted of ten numbers without a letter prefix or suffix.

Calibre

- calibre designation is usually marked on the right side of the barrel.

Shots

- swing-out cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- "Holek" is marked on the left side of the barrel. The Holek family is well known for their design and production of firearms in the former Czechoslovakia. This marking is representative of Zbrane Holek (ZH), whose nephew is part owner of Alfa Proj.
- "Bohemia" may be marked on the side plate. Alfa Proj began producing firearms during the time when the former Czechoslovakia was split into two independent countries and the new names of these countries were yet to be officially determined. During initial production, the company believed that "Bohemia" was going to become the official name of the country where the plant was located so this name was placed on the firearms. Months after production, the country officially became the "Czech Republic".
- "Bohemia" is now replaced by "Czech Rep." on any new production runs by Alfa Proj.

51698 - 3	22 LR/22 MAG	8	74	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
51698 - 1	22 MAG	8	74	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.
- "ALFA" or "ALFA STEEL" may not be marked on the the barrel
- "HOLEK" was observed marked on the left side of the barrel.

Model

- "model 331" is marked on left side of receiver/frame, below cylinder latch.
- features include: fixed blade front sight and an adjustable rear sight; round barrel with a full length under lug; solid top receiver/frame with a left side swing-out fluted cylinder; cylinder release is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; synthetic or wood grips; blued, chrome or nickel plated finish.
- 22 LR accessory cylinder is available with this Model.
- overall length is 211mm (8 1/4"), average weight is 820g (1.81lbs).

Manufacturer

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on left side of receiver/frame, below cylinder.
- observed samples have ten digits.

Shots

- swing-out cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- "Holek" is marked on the left side of the barrel. The Holek family is well known for their design and production of firearms in the former Czechoslovakia. This marking is representative of Zbrane Holek (ZH), whose nephew is part owner of Alfa Proj.
- "Bohemia" may be marked on the side plate. Alfa Proj began producing firearms during the time when the former Czechoslovakia was split into two independent countries and the new names of these countries were yet to be officially determined. During initial production, the company believed that "Bohemia" was going to become the official name of the country where the plant was located so this name was placed on the firearms. Months after production, the country officially became the "Czech Republic".
- "Bohemia" is now replaced by "Czech Rep." on any new production runs by Alfa Proj.

Summary

Make:	ALFA Proj
Model:	3551C
Manufacturer:	ALFA Proj
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	CZECH REPUBLIC
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
172603 - 1	357 MAG	6	114	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.
- "ALFA stainless" or "ALFA steel" is marked on the left side of the barrel.

Model

- "model 3551C" is marked on the left side of the receiver/frame, below the cylinder latch.
- "model 3551C" is a special run for the Canadian market.
- features include: fixed blade front sight and an adjustable rear sight; round barrel with a full length under lug; solid top receiver/frame with a left side swing-out fluted cylinder; cylinder release is mounted on the left side of the receiver/frame; exposed spurred hammer; double/single action trigger mechanism; synthetic or wood grips; blued, chrome or stainless steel finish.
- overall length with a 114 mm barrel is 255 mm (10.0").

Manufacturer

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.
- "ALFA stainless" or "ALFA steel" is marked on the left side of the barrel.

Serial Number

- serial number is marked on left side of receiver/frame, below the cylinder.
- serial number of referenced examples consisted of ten numbers.

Calibre

- calibre is marked on the right side of the barrel.

Remarks

- 3551 model is a special run for the Canadian market with a 114mm barrel length.
- model designation information breakdown is as follows: first two numbers refers to calibre, third number refers to barrel length, and last number refers to sight configuration (0 = fixed sights, 1 = adjustable sights, 3 = LPA sight).

Notes

Make

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.
- "ALFA STEEL" or "ALFA STEEL SPORT" is marked on the left side of the barrel.

Model

- "model 3561" is marked on the left side of the receiver/frame, below the cylinder latch.
- features include: fixed blade front sight and an adjustable rear sight; round barrel with a full length under lug; solid top receiver/frame with a left side swing-out fluted cylinder; cylinder release is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; synthetic or wood grips; blued, chrome or nickel plated finish.
- overall length is 293 mm (11 5/8"), and the average weight is 1.15 kg (2.54 lbs).

Manufacturer

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on left side of receiver/frame, below cylinder.

Calibre

- calibre designation is marked on the right side of the firearm.

Shots

- swing-out cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- "ALFA STEEL" is marked on the left side of the barrel.
- "Bohemia" may be marked on the side plate. Alfa Proj began producing firearms during the time when the former Czechoslovakia was split into two independent countries and the new names of these countries were yet to be officially determined. During initial production, the company believed that "Bohemia" was going to become the official name of the country where the plant was located so this name was placed on the firearms. Months after production, the country officially became the "Czech Republic".
- "Bohemia" is now replaced by "Czech Rep." on any new production runs by Alfa Proj.

Notes

Make

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.
- "ALFA" or "ALFA STEEL" may not be marked on the the barrel
- "HOLEK" was observed marked on the left side of the barrel.

Model

- "model 361" is marked on left side of receiver/frame, below cylinder latch.
- "model 361" has an alloy receiver/frame.
- features include: fixed blade front sight and an adjustable rear sight; round barrel with a full length under lug; solid top receiver/frame with a left side swing-out fluted cylinder; cylinder release is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; synthetic or wood grips; blued, chrome or nickel plated finish.
- 22 LR accessory cylinder is available with this Model.
- overall length is 287 mm (11 1/4"), and the average weight is 0.96 kg (2.12 lbs).

Manufacturer

- "ALFA-PROJ BRNO" over "MADE IN CZECH" over "REPUBLIC" is usually marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on left side of receiver/frame, below cylinder. - observed samples have ten digits.
Calibre	- calibre designation is usually marked on the right side of the barrel.
Shots	- swing-out cylinder.
Other Markings	- "Holek" is marked on the left side of the barrel. The Holek family is well known for their design and production of firearms in the former Czechoslovakia. This marking is representative of Zbrane Holek (ZH), whose nephew is part owner of Alfa Proj. - "Bohemia" may be marked on the side plate. Alfa Proj began producing firearms during the time when the former Czechoslovakia was split into two independent countries and the new names of these countries were yet to be officially determined. During initial production, the company believed that "Bohemia" was going to become the official name of the country where the plant was located so this name was placed on the firearms. Months after production, the country officially became the "Czech Republic". - "Bohemia" is now replaced by "Czech Rep." on any new production runs by Alfa Proj.

- "Bohemia" may be marked on the side plate. Alfa Proj began producing firearms during the time when the former Czechoslovakia was split into two independent countries and the new names of these countries were yet to be officially determined. During initial production, the company believed that "Bohemia" was going to become the official name of the country where the plant was located so this name was placed on the firearms. Months after production, the country officially became the "Czech Republic".
- "Bohemia" is now replaced by "Czech Rep." on any new production runs by Alfa Proj.
