Notes

Make

- "AMERICAN DEFENSE MFG" is marked on the left side of the receiver/frame.
- "AMERICAN DEFENSE MFG" logo, an eagle flying down with talons extended, superimposed on a shield, is on the right side of the magazine well.
- "AMERICAN DEFENSE MFG" is located in New Berlin, Wisconsin USA.

Model

- "UICH" is marked on the left side of the receiver/frame.
- "UIC" is an acronym for "Universal Improved Carbine".
- "UICH" variants are based on the Colt AR-15/M16 design.
- "UICH" is also sold as a receiver/frame only.
- "UICH" was introduced in 2019.
- features include: threaded muzzle for flash hider/muzzle brake; standard, heavy profile or grooved M4 carbine contoured barrel that may be in stainless steel; AR15/M16 standard, low profile, accessory rail or folding front sight bracket/gas block; accessory rail, free floating or synthetic handguard; accessory rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; ambidextrous controls; magazine well features reinforcing ribs; integral trigger guard; standard, collapsible or custom rifle buttstock; synthetic pistol grip; matte black or colour finish.

Manufacturer

- "AMERICAN DEFENSE MFG" is marked on the left side of the receiver/frame.
- "AMERICAN DEFENSE MFG" logo, an eagle flying down with talons extended, superimposed on a shield, is on the right side of the magazine well.
- "AMERICAN DEFENSE MFG" is located in New Berlin, Wisconsin USA.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of the prefix "U15H" a dash and four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- "MULTI" is marked on the left side of the receiver/frame.
- calibre identification is usually marked on the barrel.
- "223 Wylde" is a chamber design and not a calibre. Wylde chamber has traditionally been used in match rifles and also allow the ability to safely and interchangeably shoot military 5.56MM NATO and .223 REM ammunition.
- 223 REM rifling characteristics: 1 turn in 7 inches, right hand twist.
- 5.56MM NATO rifling characteristics: 1 turn in 7 inches, right hand twist.
- 224 VALKYRIE rifling characteristics: 1 turn in 7 inches, right hand twist.

Shots

- detachable box magazine.

Notes

Make

- "American Derringer Corp." or "A.D.C." is marked on the side of the barrels.
- "A.D.C." is the abbreviation for American Derringer Corporation of Waco, Texas.

Model

- this basic design was first produced by High Standard, American Derringer manufactures a licenced copy of the design.
- features include, over/under derringer, double action only trigger mechanism, and the same top-latch that locks the barrels to the standing breech functions as an extractor when it is rotated towards the muzzle.

Manufacturer

- American Derringer Corporation is a manufacturer based in Waco, Texas, that specializes in building "hideout" style firearms, primarily over/under derringers. They have also purchased the manufacturing rights to several other unusual "hideout" style firearms, including the Semmerling LM-4 manually operated repeater.

Action

- over/under pattern.

Serial Number

- normal production features a numeric serial on the right side of the frame/receiver.
- custom serial numbers available as an option.

Notes

Make

- "American Derringer Corp." or "A.D.C." is marked on the side of the barrels.
- "A.D.C." is the abbreviation for American Derringer Corporation of Waco, Texas.

Model

- this is an unusual double action only repeating pistol that resembles a semi automatic, but is in fact a manually operated repeater.
- stainless steel or hard-chromed steel construction, plastic or wooden grip panels, fixed sights.
- this pistol is fired by operating the "slide" with the thumb of the non-firing hand, then squeezing the long double action only trigger.
- began production in 1986.
- overall length for 76mm is 132mm (5.22"), average weight is 0.680kg (1.5lb)

Manufacturer

- American Derringer Corporation is a manufacturer based in Waco, Texas, that specializes in building "hideout" style firearms, primarily over/under derringers. They have also purchased the manufacturing rights to several other unusual "hideout" style firearms, including the Semmerling LM-4 manually operated repeater.

Action

- manually operated repeater.

Serial Number

- marked on the right side of the receiver/frame, above trigger guard.

Shots

- detachable box magazine.

Notes

Make

- "American Derringer Corp." or "A.D.C." is marked on the side of the barrels.
- "A.D.C." is the abbreviation for American Derringer Corporation of Waco, Texas.

Model

- "M-1", "125th Anniversary" and a patent date of "December 12, 1865" is marked on the barrels.
- this is a version of American Derringer's basic M-1 design made to commemorate the 125th anniversary of Remington's original patent date (Dec.12, 1865).
- features include: brass grip frame, spur trigger, polished stainless steel barrels, single action trigger mechanism, stag or rosewood grips, hammer-block safety and optional engraving.
- production limited to 500 units in each calibre.

Manufacturer

- American Derringer Corporation is a manufacturer based in Waco, Texas, that specializes in building "hideout" style firearms, primarily over/under derringers. They have also purchased the manufacturing rights to several other unusual "hideout" style firearms, including the Semmerling LM-4 manually operated repeater.
- American Derringer Corp. has been in operation since 1980.

Action

- over/under pattern.

Serial Number

- normal production features a numeric serial on the right side of the receiver/frame.

Notes

Make	- "AMERICAN FRONTIER FIREARMS" is usually marked on the barrel.
Model	- this is a modern reproduction of the Colt 1851 Navy fitted with the Richards metallic-cartridge conversion kit. - DO NOT CONFUSE this revolver with the "Richards & Mason 1851 Navy Conversion Reproduction", which is essentially the same revolver, but fitted with an ejector-rod -octagonal barrel, loading-lever, color-case-hardened hammer and trigger, blued barrel, cylinder, and frame, and walnut grip panels. - this revolver is also available with a number of options, including: faux ivory grips, engraving (both gold-filled and plain), and silver-plated grip frames.
Manufacturer	- at present, a portion of the revolver is manufactured in Italy by ARMI SAN MARCO and imported "in the white" into the United States, where it is assembled to American sub components, polished and finished.
Action	- single-action revolver.
Serial Number	- numbered on receiver/frame.
Barrel	- these revolvers are built with 4 3/4"/121mm, 5 1/2"/140mm, and 7 1/2"/191mm barrels.

Notes

Make

- "AMERICAN FRONTIER FIREARMS" is usually marked on the barrel.

Model

- this is a modern reproduction of the Colt 1861 Navy fitted with the Richards metallic-cartridge conversion kit.
- this revolver is a slightly smaller version of the Colt 1860 Army, but still chambered in 38 and 44 calibres; the original revolvers were chambered in 36 Percussion, then converted to 38 RF or CF.
- features include: octagonal barrel; loading-lever; color-case-hardened hammer and trigger; blued barrel, cylinder, and frame, and walnut grip panels.
- this revolver is also available with a number of options, including: faux ivory grips; engraving (both gold-filled and plain) and silver-plated grip frames.

Manufacturer

- at present, a portion of the revolver is manufactured in Italy by ARMI SAN MARCO and imported "in the white" into the United States, where it is assembled to American sub components, polished and finished.

Action

- single-action revolver.

Serial Number

- numbered on receiver/frame.

Barrel

- these revolvers are built with 4 3/4"/121mm, 5 1/2"/140mm, and 7 1/2"/191mm barrels.

75149 - 8	44 COLT	6	203	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make appears on the barrel.
Model	- this is a modern reproduction of the Colt 1871-72 Open Top Frontier model, made in at least two grades of finish. - the standard model has all parts blued, except for the grip-frame and trigger-guard, which are silver-plated. - factory literature advertises a deluxe or "Tiffany" model that is entirely silver-plated, with highlights of gold, and with faux ivory carved grips. As of 2000 none have actually been produced.
Manufacturer	- some parts of this revolver are manufactured in Italy and imported "in the white" into the United States, where it is assembled to American sub components, polished and finished.
Action	- single-action revolver.
Serial Number	- serial numbered on the receiver/frame.

Notes

Make

- "American Historical Foundation" is not always marked on the firearm.
- "The American Historical Foundation" is a private organization which obtains firearms from various manufacturers and embellishes those firearms to create a wide variety of commemorative models.
- "The American Historical Foundation" was located in Richmond, Virginia and then in Ashland, Virginia, U.S.A.
- "The American Historical Foundation" assets were acquired by America Remembers of Ashland, Virginia, U.S.A. in 2005.

Model

- Introduced in 1991.
- "US AIR FORCE COMMEMORATIVE M1 CARBINE" is marked on the right side of the operating rod, with a 5-pointed star "roundel" on the bolt cam.
- this is a commemorative version of the M1 Carbine built by Auto Ordnance for the American Historical Foundation as a tribute to the US Air Force in 1991, with a limited issue of 500.
- features include: blued finish with gold-plated appointments; open adjustable sights; bayonet lug, polished walnut stock and handguard with a US Air Force inlaid into the right side of the buttstock; and matte gold-plated front sight band, sling swivel, band retaining spring, magazine release, safety, rear sight ears, bolt hold-open, and trigger.

Manufacturer

- "Auto-Ordnance" is marked on the top of the receiver/frame, below the rear sight.
- this firearm was manufactured by Auto Ordnance for the American Historical Foundation, who embellished the firearm's appearance.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas-operated.
Serial Number	- numbered on the receiver frame. - observed examples bear "USAF" prefixes.
Shots	- detachable box magazine. -Introduced in 1991 with a 15 shot and 30 shot detachable cartridge magazine - M1 Carbine type magazines were introduced in 1942 as a 15 shot magazine and in 1944 as a 30 shot magazine.

Summary

Make:	American Repeating Rifle Company
Model:	Repeating Rifle
Manufacturer:	American Repeating Rifle Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Lever Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
174002 - 1	56-50 SPENCER RF	7	762	Antique AFR, Section 1, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "REPEATING RIFLE CO." is usually marked on the firearm.
- The Fogerty Rifle Co. was founded in 1866 to manufacture repeating rifles based on Valentine Fogerty's mid-1860's patents on his lever-action repeating rifle design which was very similar to the earlier Spencer; in fact, when Spencer went out of business in 1868, Fogerty bought Spencer's machinery to increase his own production. In 1867, Fogerty changed the name of the "Fogerty Rifle Company" to the "American Repeating Rifle Company", and continued production until 1869, when Winchester bought Fogerty's patents in part to remove him as a potential competitor.

Model

- the model is not marked on the firearm; this is a descriptor for the style of firearm.
- this is a lever-action repeating rifle designed and patented by Valentine Fogerty in 1865, and produced in limited numbers under two manufacturer's names ("Fogerty Rifle Co." and "American Repeating Rifle Co.") until Winchester bought Fogerty's patents out to remove him as a source of competition to their lever-action repeaters.
- Fogerty built both "Rifle" and "Carbine" versions of this rifle, with different barrel lengths.
- the identifying characteristic of the American Repeating Rifle Company "Repeating Rifle" is a 762mm/30" barrel with three barrel bands on the forearm.
- features include: blued finish; open sights; round barrel transitioning to octagonal at the breech; walnut forearm with three barrel bands and a forearm tip; top ejection port; round-bodied receiver/frame with an oval lockplate inset on the right side; Sharps-style operating lever that acts as a trigger-guard; a straight-grip walnut butt with a crescent buttplate; and a "patchbox"-style loading port on the lower left side of the butt, through which the magazine can be loaded.

Manufacturer

- "REPEATING RIFLE CO." is usually marked on the firearm.
- The Fogerty Rifle Co. was founded in 1866 to manufacture repeating rifles based on Valentine Fogerty's mid-1860's patents on his lever-action repeating rifle design which was very similar to the earlier Spencer; in fact, when Spencer went out of business in 1868, Fogerty bought Spencer's machinery to increase his own production. In 1867, Fogerty changed the name of the "Fogerty Rifle Company" to the "American Repeating Rifle Company", and continued production until 1869, when Winchester bought Fogerty's patents in part to remove him as a potential competitor.

Shots

- tubular magazine in the butt.

Notes

Make

- "AMERICAN SPIRIT" over "ARMS CORP." or "AMERICAN SPIRIT" over "ARMS LLC." is marked on the left side of the receiver/frame.

Model

- "MODEL ASA15" is marked on the left side of the receiver/frame.
- "MODEL ASA15" variations are based on the Colt AR-15/M16 design.
- "MODEL ASA15" is also sold as a receiver/frame.
- introduced in 1999.
- features include: unthreaded or threaded muzzle for flash hider/muzzle brake; steel or stainless steel barrel; standard, folding or Picatinny rail front sight bracket/gas block; standard rifle or carbine length synthetic handguard or Picatinny rail free floating handguard; A1 fixed carrying handle with flip aperture rear sight upper, A2 fixed carrying handle with fully adjustable rear sight or A3 Picatinny rail flat top upper assembly with or without side cocking handle and detachable carrying handle with adjustable rear sight; collapsible, standard or custom rifle buttstock; synthetic pistol grip; matte black finish.
- 9MM LUGER calibre, available as a complete rifle or conversion kit and utilizes a modified UZI magazine.

Manufacturer

- "American Spirit Arms Corporation" was a manufacturer based in Phoenix, Arizona, U.S.A. in 1998.
- "American Spirit Arms Corporation" was located in Scottsdale, Arizona U.S.A. in 2000.
- "American Spirit Arms Corporation" moved to Tempe, Arizona U.S.A. where it was in the process of closing in 2005.
- "American Spirit Arms Corp." was bought in 2007 by JPS Manufacturing, a former sub-contractor and became "American Spirit Arms LLC" and returned to Scottsdale, Arizona U.S.A.
- "American Spirit Arms Corporation" and "LLC" specialized in producing accurized AR-15 style rifles and components.

Action

- gas operated.
- blowback operated in 9MM LUGER calibre.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a two letter "AS" prefix and five numbers.
- observed serial number consisted of a two letter "US" prefix and five numbers.

Calibre

- calibre or "CAL. MULTI" is marked on the left side of the receiver/frame.
- calibre identification may also be marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine. - uses all magazines available for AR15/M16 type rifles.
Remarks	- these rifles are sold as complete units or as receivers only, as such there may be other markings found on various components.

Notes

Make

- "American Tactical Imports" is an importer and distributor of firearms, ammunition and tactical equipment.
- "American Tactical Imports" was established in 2006.
- "American Tactical Imports" is located in Rochester, New York, U.S.A.
- "American Tactical Imports" also uses the acronym "ATI".
- "American Tactical Imports" logo consists of the letters "A", "T" and "I" overlapping within a diamond shape.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "GSG-5" is marked on both sides of the receiver/frame.
- "GSG-5" variants are based on the Heckler & Koch MP5 submachine gun.
- introduced in 2002 with American importation beginning in 2008.
- "GSG-5" was produced in several variants:
. GSG-5 A: with a 229mm (9") barrel.
. GSG-5 L: with a 414mm (16.3") barrel, designed to meet the legal requirements for minimum barrel length and overall length in several countries (including the United States). The longer barrel is covered with a barrel shroud (mock suppressor) for aesthetic purposes.
. GSG-5 SD: Similar to GSG-5 L but with both a larger fore grip and mock suppressor, similar in look to a MP5-SD. Pre-2010 manufactured mock suppressor may actually act as suppressor.
. GSG-5P: Pistol variant with an end cap instead of a buttstock. Barrel length is identical to the "A" version.
. GSG-5PK: Similar to the GSG-5P, with a 119mm (4.7") barrel and shorter handguard.
- features include: threaded fake suppressor or threaded muzzle for flash hider; circular front sight protector and adjustable rotating drum rear sight; split receiver/frame construction; cocking handle located on the forward top left side of the receiver/frame; wood or synthetic handguard; pistol grip and trigger guard assembly is made of synthetic material and is housing the trigger mechanism; magazine disconnect safety; ambidextrous safety selector; wood or synthetic, folding or collapsible stock; black, nickel or camouflage finish.
- overall length with a 414mm (16.3") barrel is 854mm (33.6") and the average weight is 2.54kgs (5.6lbs).

Manufacturer

- "German Sport Guns" also use's the acronym "G.S.G".
- "German Sport Guns" was founded in 2002.
- "German Sport Guns" logo is an oval superposed over a circle having "G.S.G" at it's centre.
- "G.S.G" and "Made in Germany" is marked on the left side of the receiver/frame.
- "German Sport Guns" is a manufacturer of semi-automatic firearms and airsoft versions of popular weapons.
- "German Sport Guns" was located in Arnsberg, and now Ense-Höingen Germany.

Action

- blowback operated.

Serial Number

- the serial number is marked on the right side of the receiver/frame.
- serial number of a referenced example consisted of a one letter (A) prefix and six numbers.

Calibre

- "cal. 22lr" or "cal.22LR HV" is marked on the right side of the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- "AMERICAN TACTICAL IMPORTS" is marked on the side of the magazine housing of the receiver/frame.
- "American Tactical Imports" is an importer and distributor of firearms, ammunition and tactical equipment.
- "American Tactical Imports" was established in 2006.
- "American Tactical Imports" is located in Rochester, New York, U.S.A.
- "American Tactical Imports" also uses the acronym "ATI".
- "American Tactical Imports" logo consists of the letters "A", "T" and "I" overlapping within a diamond shape.

Model

- "OMNI" is marked on the side of the receiver/frame.
- "OMNI" variants are based on the AR-15/M16 design.
- "OMNI" is also sold as a receiver/frame.
- "OMNI" features a polymer receiver/frame.
- "OMNI" was introduced in 2012.
- features include: threaded muzzle for flash hider; barrel of different profile that may be fluted; low profile or Picatinny railed gas block; may have detachable folding sights; short synthetic or free floating handguard; Picatinny railed upper assembly; synthetic pistol grip; no buttstock, plain, foam or tape covered buffer tube.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer's names are not marked on the firearm.
- "FMK Firearms" is located in Placentia, California U.S.A..
- "FMK" stands for "For My Kountry".
- "Phantom Forge Division of O'Dell Engineering Limited" is located in Puslinch, Ontario, Canada.
- "Phantom Forge" is a Division of O'Dell Engineering Limited.

Action

- gas operated.

Serial Number

- serial number is marked on a metal insert imbedded into the left side of the receiver/frame.
- serial number of referenced examples consisted of a two letter (AR) prefix and five numbers.

Calibre

- "MULTI-CALIBER" is marked on the side of the receiver/frame.
- calibre identification is usually marked on the barrel.

Shots

- detachable box magazine.

Canadian Law Comments

- The ten round limit specified in the cartridge magazine control regulations applies to magazines for this firearm provided:

a) the magazine is originally designed or manufactured for use in a semi-automatic handgun, and

b) the handgun is commonly available in Canada.

Notes

Make

- "AMERICAN TACTICAL IMPORTS" is marked on the upper left side of the receiver/frame.
- "American Tactical Imports" is located in Rochester, New York, U.S.A.
- "American Tactical Imports" also uses the acronym "ATI".
- "American Tactical Imports" logo consists of the letters "A", "T" and "I" overlapping within a diamond.

Model

- "OMNI HYBRID" is marked on the side of the receiver/frame.
- "OMNI HYBRID" variants are based on the Colt AR-15/M16 design.
- "OMNI HYBRID" is sold as a stripped receiver/frame.
- "OMNI HYBRID" main feature is that the receiver/frame is made of polymer with enlarged, curved integral trigger guard and flared magazine well.
- "OMNI HYBRID" is also available as a pistol variant.
- "OMNI HYBRID" was introduced in 2013.
- features include: threaded muzzle for flash hider/muzzle brake; standard, heavy profile or grooved, M4 carbine contoured barrel; folding front sight bracket/gas block; accessory railed, free floating or synthetic handguard; A2 fixed carrying handle or flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; receiver/frame features an embedded metal insert for the buffer tube attachment and rear takedown pin; collapsible, standard or custom rifle buttstock; synthetic pistol grip; coloured. finish.
- also available with a translucent, synthetic receiver/frame in 2015.

Manufacturer

- "American Tactical Imports" is an importer and distributor of firearms, ammunition and tactical equipment.
- "American Tactical Imports" started manufacturing their own injection molded synthetic AR15 type receiver/frame as the Omni Hybrid in 2013 and upper in 2016.
- "American Tactical Imports" was established in 2006.
- "American Tactical Imports" is located in Rochester, New York, U.S.A.
- "American Tactical Imports" also uses the acronym "ATI".
- "American Tactical Imports" logo consists of the letters "A", "T" and "I" overlapping within a diamond shape.

Action

- gas operated.

Serial Number

- serial number is marked on the rear left side on a metal insert imbedded in the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

121644 - 9	45 COLT	10	508	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "American Western Arms" is marked on the top of the barrel.
- "American Western Arms" logo (a cowboy with a revolver and stylized script) is engraved on the side of the receiver/frame.
- American Wester Arms is a trade mark originally used by American Western Arms, Inc. and now by AWA-USA, Inc.
- American Western Arms, Inc. was an importer located in El Paso, Texas and Del Ray Beach, Florida, U.S.A. from 1999 to 2004.
- American Western Arms, Inc. assets were purchased by AWA-USA, Inc. in 2004.
- AWA-USA, Inc. is an importer established and located in Hialeah, Florida in 2004.

Model

- the model name is not marked on the firearm.
- introduced circa 2003.
- this firearm is a reproduction of the Colt Lightning rifle as originally produced by Colt between circa 1884 and 1904.
- American Western Arms offers this model in rifle or carbine configuration.
- features include: round or octagonal barrel; blued or colour case-hardened finish; American walnut buttstock and forend; brass blade front sight with an elevation adjustable semi buckhorn rear sight; firing pin block safety.
- the Lightning rifle is also available in a deluxe "1 of 500" limited edition rifles with an engraved receiver/frame and checkered American walnut buttstock and forend.
- the Limited Edition rifles also have an "LE" serial number prefix.

Manufacturer

- American Western Arms is marked on the top of the barrel.
- the American Western Arms logo (a cowboy with a revolver and stylized script) is engraved on the receiver/frame.
- "AWA Intl, Delray Bch, Fl.". may be marked on the bottom/rear tang of the trigger guard.
- American Western Arms purchased the former Armi San Marco factory located in Gardonne, Italy and formed American Western Arms Italia in 2000.
- American Western Arms assets were sold to AWA-USA, Inc. in 2004.
- American Western Arms Italia was renamed AWA International, Inc. in 2004.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the receiver/frame underneath the loading gate and usually consists of a six digit number with a single or double letter prefix. - the prefix letter "L" has been observed on the AWA's Colt Lightning reproduction. - the "LE" prefix in the serial number denotes an AWA's Colt Lightning Limited Edition reproduction.
Calibre	- calibre designation is marked on the rear left side of the barrel.
Shots	- tubular magazine mounted under the barrel.

Notes

Make

- "AWA International Inc." and/or "American Western Arms" may be marked on the top of the barrel.
- "AWA Intl. Delray Bch, Fl." may be marked on the underside of the barrel.
- American Wester Arms is a trade mark originally used by American Western Arms, Inc. and now by AWA-USA, Inc.
- American Western Arms, Inc. was an importer located in El Paso, Texas and Del Ray Beach, Florida, U.S.A. from 1999 to 2004.
- American Western Arms, Inc. assets were purchased by AWA-USA, Inc. in 2004.
- AWA-USA, Inc. is an importer established and located in Hialeah, Florida in 2004.

Model

- "Peacekeeper" is marked on the left side of the barrel.
- this firearm is based on the "Colt 1873 Single Action Army" revolver.
- features include: walnut grips, bone charcoal or colour case hardened receiver/frame, blued barrel and trigger guard, loading gate, fluted cylinder, large blade front sight, and serrated hammer.
- this model shares most features with the Longhorn Model.

Manufacturer

- "AWA International Inc." and/or "American Western Arms" may be marked on the top of the barrel.
- "AWA Intl. Delray Bch, Fl." may be marked on the underside of the barrel.
- American Western Arms purchased the former Armi San Marco factory located in Gardonne, Italy and formed American Western Arms Italia in 2000.
- American Western Arms assets were sold to AWA-USA, Inc. in 2004.
- American Western Arms Italia was renamed AWA International, Inc. in 2004.

Serial Number

- serial number is marked on the underside of the receiver/frame in front of the trigger guard.
- four digit numbers with a single letter prefix have been observed.
- the letter prefix "P" has been observed.
- serial number note; it has been observed that the last four digits of the serial number without the letter prefix may be repeated on the buttstrap of the grip frame; this number is not the valid serial number for the firearm due to the fact that the grip frame is not an integral part of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- may be marked on the firearm: "AWA International Inc. Italy", or "AWA International Incorporated, Italy".
- Italian proof marks on the barrel.

FRT Report

Firearm Reference Number (FRN): 33985
Make: AMF
Model: Deer Gun

Summary

Make:	AMF
Model:	Deer Gun
Manufacturer:	American Machine & Foundry (AMF)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
33985 - 1	9MM LUGER	1	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- this pistol was manufactured at the request of the C.I.A. (Central Intelligence Agency) for distribution to friendly guerillas during the beginning of American involvement in Southeast Asia (1962-65).

Model

- this was the Vietnam-era equivalent to the O.S.S. Liberator pistol of World War II. It is a small, single-shot pistol that could be used to assassinate an enemy soldier to capture his weapon.
- features include: die-cast aluminium receiver/frame with a hollow butt to hold three cartridges and an ejector rod, and a screw-in barrel.
- these pistols were issued with a plastic device that resembled a "figure-eight" that could be clipped to the cocking rod to act as a "safety", or onto the barrel to act as a front sight. To use, the barrel would be unscrewed from the receiver/frame, a live round would be dropped into the chamber, and then the barrel would be screwed back into the receiver/frame. A cone-shaped cocking rod protruding from the back of the receiver/frame could then be pulled back to cock the pistol, and a pull of the trigger would release that rod to fire the cartridge. Approximately 1000 of these pistols were manufactured, they have been noted in both rifled and smooth-bore versions.

Manufacturer

- produced by the special firearms division of American Machine & Foundry (AMF), a manufacturer based in Alexandria, VA.

Serial Number

- these handguns were manufactured as completely "sterile" items, without any serial numbers or markings to indicate country of origin.

Notes

Make

- The company logo is marked on the receiver/frame.
- "AMOEBA" is marked on the left side of the receiver/frame.

Model

- The model designation is not marked on the firearm.
- This airsoft firearm resembles a full automatic "Colt model M4A1 Carbine".
- Features include: top mounted accessory rail on receiver/frame; magazine release located on the right side of the receiver/frame; mock right sided ejection port; manual safety/fire selector located on the left side of the receiver/frame; may come equipped with flip up, adjustable front and rear sights; flash hider may be in an orange finish; may come in a black or medium brown finish.

Manufacturer

- The company logo is marked on the receiver/frame.
- "AMOEBA" is marked on the left side of the receiver/frame.

Action

- Spring piston is powered by an electric motor, gear box and battery.
- Velocities with a 6MM AIRSOFT BB have been reported as 112 mps/370 fps and 121 mps/400 fps.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- Observed serial number consisted of two numbers followed by a letter six numbers.

Calibre

- The calibre designation is not marked on the firearm.
- NOTE: a false calibre designation marked "5.56MM NATO" on the left side of the receiver/frame.

125215 - 1	22 PELLET	1	214	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make was marked on the right side of one sample examined as "AMPELL ARMS CO USA".
- Ampell Arms was a trade name used on air and gas pistols produced by Playtime Products of Honeoye, New York.

Model

- the sample examined had the model designation marked on the left side.
- features include: cast metal construction with a black overall finish; Co2 powerlet housed in the grip, left grip is removable to insert/remove powerlet; combination safety/cocking knob is mounted on the right side, once cocked the knob cannot be reset to the safe position; hooked trigger guard.

Manufacturer

- Playtime Products was a manufacturer of air and gas guns based in Honeoye, New York circa 1968 - 1975. It is reported that some production was carried out in Canada. One sample examined was marked "PARTS MADE IN CANADA" on the right side of the receiver/frame. The same pistol was marked "MADE IN CANADA" on the inside of the grip frame (left grip and power cylinder must be removed to see this marking).

Action

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- sample examined had no visible serial number.

51293 - 2	20 GA PERCUSSION	2	711	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- the letters "AMR" inside a diamond shape are marked on the left side of the barrel.
- "AMR" is the abbreviation for "A. Marcos Relea".
- the "AMR" trademark is used by "Avancargas Anchu".

Model

- model designation is marked on the barrel.
- features include double triggers, double hammers and a plain receiver/frame with a checkered straight stock.

Manufacturer

- the letters "AMR" inside a diamond shape are marked on the left side of the barrel.
- "AMR" is the abbreviation for "A. Marcos Relea".
- the "AMR" trademark is used by "Avancargas Anchu".
- "AMR" is an acronym for the Spanish manufacturer A. Marcos Relea which is now listed as "Avancargas Anchu, S.L.".

Action

- side by side pattern.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number was observed marked on the rear of the left barrel.
- observed serial number consited of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

FRT Report

Firearm Reference Number (FRN): 148867
Make: Amsden, Benjamin W
Model: Percussion Rifle

Summary

Make:	Amsden, Benjamin W
Model:	Percussion Rifle
Manufacturer:	Amsden, Benjamin W
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148867 - 1	40 PERCUSSION	1	933	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "B.W. AMSDEN" is usually marked on the firearm.

Model

- model designation is not marked on the firearm.
- this is a heavy octagonal-barrel percussion target rifle manufactured by Benjamin Amsden prior to 1883.
- features include: open adjustable sights; octagonal barrel; under-barrel ramrod thimbles; half-length straight-grip walnut stock with German silver fittings and patchbox; external manually-cocked hammer; double set triggers; finial trigger guard/grip; and a crescent butt; browned or blued finish.

Manufacturer

- "B.W. AMSDEN" is usually marked on the firearm.
- Benjamin W. Amsden was located in Saratoga Springs, New York, U.S.A. from circa 1850 to 1882.

Action

- muzzle loading, percussion ignition.

FRT Report

Firearm Reference Number (FRN): 143784
Make: Amsterdam
Model: Wheel-Lock

Summary

Make:	Amsterdam
Model:	Wheel-Lock
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	NETHERLANDS
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
143784 - 1	17.7MM	1	960	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Amsterdam proof mark is marked on the top of the barrel.
- Amsterdam proof mark consists of a crowned shield containing three vertical "X" letters.
- references to the actual makers of these wheel-locks are currently unknown.

Model

- Wheel-Lock firearms were originally manufactured in Europe during the 16th and 17th century.
- model designation is not marked on the firearm.
- information regarding the early production of wheel-lock firearms in the Netherlands is limited.
- six are known and all are dated 1596 on the stock.
- the system uses iron pyrites pressed against a revolving toothed wheel to provide the sparks for igniting the powder in the priming pan, which in turn ignites the main powder charge in the barrel. The toothed wheel is made to rotate, when the trigger was pulled, by a spring that was wound by a key in a similar fashion to a mechanical clock.
- features include: bead front and parallel bars as a back sight; round to octagonal, smoothbore barrel; barrel is flared at the muzzle; large wheel-lock action includes a safety catch; ball-type trigger with elongated trigger guard; one piece walnut stock with engraved bone inlays and pronounced comb.
- overall length is 1300 mm (51 1/8").

Action

- muzzle loading.

Other Markings

- the lockplate is marked "D I" around three stars over a crescent.
- a small mark, shaped like a pistol, and the letters "R R" over a shield, are marked on the barrel.

FRT Report

Firearm Reference Number (FRN): 149479
Make: Ancion Marx
Model: 1891 Dutch East Indies Copy

Summary

Make:	Ancion Marx
Model:	1891 Dutch East Indies Copy
Manufacturer:	Ancion Marx, Leopold (LAM)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
149479 - 1	9.4MM DUTCH REV	6	113	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the manufacturer or logo thereof is marked on the firearm.
- Leopold Ancion Marx's logo consists of "LAM" within a triangle.

Model

- the model designation does not appear on the firearm.
NOTE: the year of issue of the firearm is usually located on the left side of the receiver/frame, just in front of and above the trigger.
- the firearm was designed in 1891 and was known as the M91 in police and military service.
- Leopold Ancion Marx sold copies of the M91 revolver beginning in 1896, after it was officially adopted by the Netherlands for issue in the Dutch East Indies.
- features and calibre determine this model.
- features include: octagonal barrel; solid five screw receiver/frame with under barrel spring loaded extractor rod; double action with rebounding hammer; hinged loading gate on right side of receiver/frame; two piece checkered wooden grips with metal butt cap and lanyard ring; beaded blade front sight and notch in the top strap for the rear sight.
- there are four distinct variations of the M91 Dutch East Indies revolver:
1) the original contract of 3754 revolvers, manufactured from 1894-5 by either WDW (using J.F.J.Bar-supplied parts) or JFJ Bar. Bar had originally agreed to supply complete revolvers, but as time progressed, Bar fell further behind schedule, and more and more of the contract had to be completed by WDW. These revolvers were serial numbered from 1 through 3754, and will bear Dutch inspector's/acceptance marks (usually consisting of a crowned "B" on all major parts). They will also usually (not always) bear issue dates on the left forward side of the frame (1895), along with unit issue marks on the left side of the frame above the grip;
2) the second contract of 2200 revolvers, manufactured entirely by L. Wittich, for a contract issued in 1909; these revolvers continued the serial number range from the first series, from 3755 through 5954, and will also bear Dutch inspection/acceptance marks;
3) in 1920, a third contract for M91 revolvers was issued, this time to Vickers-Armstrong of England, for 5830 revolvers for issue to the Dutch East Indies Police. These revolvers turned out to be of substandard quality, and had to be sent to Fabrique National of Belgium, to be completely reworked. These revolvers had serial numbers ranging between 1 and 9000 in several blocks, but all bear English proof marks; and
4) private copies of the M91 revolver were also made by Bar, Beaumont, and Munts in Holland, and by Nagant, and Ancion Marx in Belgium; for private sale to Dutch officers and for civilians heading to the Dutch East Indies.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.
- Leopold Ancion Marx's logo consists of "LAM" within a triangle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- double-action.
Serial Number	- numbered on the receiver/frame.

Notes

Make

- "LAM" inside a triangle is marked on the side of the receiver/frame.
- "LAM" is the trademark logo of Leopold Ancion-Marx.

Model

- the model designation does not appear on the firearm.
- features include: fixed blade front sight, grooved rear sight, round or octagonal barrel, fluted cylindre, hammer or hammerless, solid receiver/frame, may have a folding trigger, may have a loading gate, extractor rod located under the barrel, blued finish with hard plastic grip panels.

Manufacturer

- the manufacturer's logo "LAM" inside a triangle is marked on the side of the receiver/frame.
- "LAM" is the trademark logo of Leopold Ancion-Marx of Luttich, Belgium.
- Leopold Ancion-Marx manufactured rifles, revolvers, shotguns and miltary bolt action rifles from the 1860s to 1940.

Calibre

- the calibre designation may appear as "CAL 5.5", marked on the left side of the receiver/frame.

Other Markings

- some other markings may appear as "ACIER FONDU", and "J.BRILLE BRUXELLE" which is believed to have been a distributor.

Notes

Make

- "JA&C" below a crown is marked on the left side of the receiver/frame.
- "JA&C" stands for Jacques Ancion & Cie or Jacques Ancion & Compagnie.

Model

- "BRITISH" over "CONSTABULARY" is marked on the top-strap.
- this is a style of pocket revolver popular around the turn of the 20th Century known as a "British Constabulary type, being a medium-to-large-calibre revolver (32 to 45) having a relatively short octagonal barrel and double-action trigger mechanism.
- features include: blade and groove open fixed sights; round barrel; a swing-out ejector-rod stowed in a hollow cylinder-axis-pin; smooth cylinder; single-action/double-action trigger mechanism; wooden or synthetic grips; lanyard ring at the butt; blued finish.

Manufacturer

- "JA&C" below a crown is marked on the left side of the receiver/frame.
- "JA&C" stands for Jacques Ancion & Cie or Jacques Ancion & Compagnie.
- Jacques Anxion & Cie was located in Liege, Belgium.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number consisted of four numbers without letter prefix or suffix.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, may be considered "Antique" in Canada.

Notes

Make

- "J.A.&C." under a crown symbol was observed marked on the left side of the receiver/frame.
- "JA&C or J.A.&C." are the trademark initials used by "Jules Ancion & Company" of Liege, Belgium from circa 1866 to circa 1873 and by "Jules Ancion & Fils" of Liege, Belgium from circa 1866 to circa 1900.

Model

- model designation is not marked on this firearm.
- model designation is derived from the characteristics of the firearm.
- manufactured between 1865 and 1901.
- features include: ribbed barrel; solid top or top break receiver/frame; plain or fluted cylinder; exposed hammer or hammerless; single or double action trigger mechanism; hardwood or rubber grips; may have a swing-type ejector rod; may have a safety lever on the left side of the receiver/frame; loading gate on the solid top receiver/frame versions; blued or nickel plated finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "J.A.&C." under a crown symbol was observed marked on the left side of the receiver/frame.
- "JA&C or J.A.&C." are the trademark initials used by "Jules Ancion & Company" of Liege, Belgium from circa 1866 to circa 1873 and by "Jules Ancion & Fils" of Liege, Belgium from circa 1866 to circa 1900.
- Jules Ancion & Company manufactured rifles and pistols from circa 1866 to circa 1873.
- "Jules Ancion & Company (JA&C) name was changed to J. Ancion & Fils circa 1873.
- "Jules Ancion & Fils" ceased operations circa 1900.

Serial Number

- known example had a two digit serial number stamped on the left side of the grip frame underneath the grip plate.
- observed examples have had one to five numbers without prefix or suffix marked on the left side of the grip frame underneath the grip plate.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "JA&C" under a crown was observed marked on the left side of the barrel.
- "JA&C or J.A.&C." are the trademark initials used by "Jules Ancion & Company" of Liege, Belgium from circa 1866 to circa 1873 and by "Jules Ancion & Fils" of Liege, Belgium from circa 1866 to circa 1900.

Model

- model designation does not appear on the firearm.
- Warnant System is a description of the action.
- Warnant System was the last and final improvement of the Flobert rifle, later called "The Warnant Springfield"; the breech block was attached to the breech end of the barrel, so it could be swung up to open the action for loading and unloading the rifle.
- since this system was much stronger than all other Flobert actions previously made, it was available in stronger calibers and heavier barrels.
- features may include: one piece walnut stock with prominent flats on each side of the receiver/frame with a checkered straight or semi pistol grip, octagonal or round barrel, fixed rear and front sights and available in regular or heavy pattern.

Manufacturer

- "JA&C" under a crown symbol was observed marked on the left side of the barrel.
- "JA&C or J.A.&C." are the trademark initials used by "Jules Ancion & Company" of Liege, Belgium from circa 1866 to circa 1873 and by "Jules Ancion & Fils" of Liege, Belgium from circa 1866 to circa 1900.
- Jules Ancion & Company manufactured rifles and pistols from circa 1866 to circa 1873.
- "Jules Ancion & Company (JA&C) name was changed to J. Ancion & Fils circa 1873.
- "Jules Ancion & Fils" ceased operations circa 1900.

Action

- front hinged breech block.

Calibre

- calibre may be marked on the barrel.

Notes

Make

- "ANDREWS" is marked on the top of the receiver ring in a semi-circular fashion.
- "ANDREWS" name encompasses a number of British companies that could be attributed to this firearm; they are,
- 1) Andrew's Fire-Arms & Accessories Co.; 131 Kennington Pk Rd, SE II, London, 1919-37; 304 Kennington Rd, London, 1938-1940; this company was possibly a successor to C.W. Andrews Ltd.
- 2) C.W. Andrews Ltd.; 5 & 6 Gret Winchester St., London, 1894-1914; 2 Bradford Avenue, London, 1915-1917.
- 3) Charles Edward Andrews, 93 Halton Road, Islington, 1898; 15 Swallow St., Piccadilly, London, 1899-1904.
- 4) Charles William Andrews; 6 Great Winchester St., London, 1882-1891; 5 & 6 Great Winchester St., London, 1892; 15 Swallow St., Picadilly, London, 1899-1904.
- 5) Henry Andrews; 2 Green's End, Woolwich, London, 1906-1908; 1 & 3 Thomas St., Woolwich, London, 1909-1918.

Model

- no model name is marked on this firearm.
- this firearm is a sporterized military issue Lee-Enfield carbine or rifle.
- observed example was a reworked Lee-Enfield Calvary Carbine based on the action and Knox Form configurations.
- features; turn bolt operated, Lee-Enfield action with detachable box magazine; shortened barrel; sporterized hardwood stock and forend with checkering; blued finish.
- observed example had the original model and manufacturer markings on the buttsocket removed; barrel proofmarks were retained.

Action

- turn-bolt design.

Serial Number

- observed example retained the original factory applied serial number on the right side of the receiver ring consisting of a four digit number without prefix or suffix.

Shots

- detachable box magazine.

Notes

Make

- "ANDREWS FERREY & CO" is marked on the firearm.

Model

- manufactured between 1834 and 1837.
- model designation is not marked on the firearm.
- this is a standard-pattern underhammer percussion "saw-handle"-style pistol, made along the same pattern as Adin Ruggles' early guns using Ruggles' 1828 patent for an underhammer lock.
- features include: blued/browned finish; part-round/part-octagon barrel; fixed open sights; underhammer percussion lock; varying styles of triggers; and a "saw-handle"-profile of the grip, generally coming down to a rounded point at the butt.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "ANDREWS FERREY & CO" is marked on the firearm. - "Andrews, Ferrey & Company" was the partnership of Robert W. Andrews and James Ferrey. - "Andrews, Ferrey & Company" was located in Stafford, Connecticut, U.S.A. from 1834 to 1837. - "Andrews, Ferrey & Company" was one of the successors to Adin Ruggles.
Action	- muzzle-loading.
Serial Number	- these pistols may bear numbers, but these are believed to be "assembly" or "lot" numbers, indicating deliveries to specific retailers.
Barrel	- barrel lengths may vary.
Calibre	- calibres may vary.

Notes

Make - "ANDRUS & OSBORN" and "CANTON CONN." is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured prior to 1868.
- model designation is not marked on the firearm.
- this is a standard pattern underhammer percussion "saw-handle" style pistol, made along the same pattern as Adin Ruggles' early guns using Ruggles' 1828 patent for an underhammer lock.
- features include: blued/browned finish; part-round/part-octagon barrel; fixed open sights; underhammer percussion lock; varying styles of triggers; and a "saw-handle" profile of the grip, generally coming down to a rounded point at the butt. These pistols are known for their higher level of workmanship, and many have pearl or metal inlays on the butt, and almost universally have a German silver or brass strap that runs from the bottom of the pistol all around the grip profile.
- a number of these pistols were also manufactured in "buggy rifle" configuration, with a detachable buttstock.

Manufacturer

- "ANDRUS & OSBORN" and "CANTON CONN." is marked on the firearm.
- "Andrus & Osborn" was the partnership of Alanson Andrus and Sherman Osborn.
- "Andrus &Osborn" was located in Southbridge, Massachusetts, U.S.A. from 1850 to 1860.
- "Andrus &Osborn" was located in Canton, Connecticut, U.S.A. from 1863 to 1867.
- "Andrus &Osborn" specialized in underhammer pistols, rifles, and "buggy guns".

Action

- muzzle-loading.

118756 - 1	308 WIN	1	762	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- known example marked "ANGEL" on the left side of the receiver/frame.
- "ANGEL" is taken from "Bill Angel", the designer of this rifle.

Model

- known example marked "M80" on the left side of the receiver/frame.
- this is a single-shot target rifle manufactured by Bill Angel, Geoff Ayling, and Andrew Powell, during the 1980s, who formed "G.B. Rifles Pty" of Gosford, New South Wales, Australia.
- several hundred of these rifles were made, including actions only, but they may be configured to an end user's specifications. Perhaps a dozen of these rifles were manufactured in left-hand configuration.
- features usually include: blued finish; heavy round barrel; cylindrical single-shot action with off-side loading/ejection port; long bolt handle with round bolt knob; open peep or base-mounted optical sights; and a synthetic or laminated pistol-grip stock.

Manufacturer

- the manufacturer is not marked on the firearm.

Action

- turn bolt operated.

Serial Number

- known examples had serial numbers marked on the left side of the receiver/frame.
- double letter "AA" prefix followed by three numbers have been observed.

Barrel

- barrel lengths to customer specifications.

Notes

Make

- "N. ANGELL" is usually marked on the firearm.

Model

- model designation is not marked on the firearm.
- this is a heavy octagonal-barrel, percussion target rifle manufactured by Nehemiah Angell prior to 1897.
- this rifle may be seen in "take-down" configuration, where the various parts are stored in a small case, then screwed together for use.
- features include: browned or blued finish; open adjustable sights; heavy octagonal barrel; no forearm in many examples; under-barrel ramrod thimbles; straight-grip walnut stock with an octagonal profile at the wrist (acting as a transition between the octagonal barrel and the flat-sided stock); external manually-cocked hammer; finial trigger guard/grip; crescent butt plate.

Manufacturer

- "N. ANGELL" is usually marked on the firearm.
- Nehemiah Angell was located in Erieville, New York, U.S.A. during the mid-to-late 1800s.
- Nehemiah Angell was known primarily for his target rifles.

Action

- muzzle loading, percussion ignition.

Notes

Make

- "ANSTAT", "ANSTAT", "ANGSTED" or "ANSTEAD" may be marked on the firearm

Model

- manufactured in 1807 and 1808.
- model designation is not marked on the firearm.
- this is a muzzle-loading flintlock single-shot pistol produced by the Angstadt brothers. These pistols can be distinguished by their barrel length of 219mm (8 5.8"), half-round/half-octagonal barrel, and their curly maple stock.
- features include: browned barrel; bird's-head stock; under-barrel ramrod; cock, frizzen, and flash-pan mounted on right side; brass fittings.
- examples of this firearm may also be seen converted to percussion ignition.

Manufacturer

- "ANSTAT", "ANSTAT", "ANGSTED" or "ANSTEAD" was a contraction of the manufacturers' proper name.
- Adam and Jacob Angstadt were located in Kutztown, Berks County, Pennsylvania, U.S.A. from 1800 to 1817.

Action

- muzzle-loading.

Notes

Model

- this is a small CO2-powered double-action-only air pistol.
- available in an all-black finish with black plastic grip panels, or in a "nickel" finish with plastic "wood-grain" grip panels as the A-101 "Silver".
- these air pistols feed BBs from a detachable magazine in the grip.
- also available with a longer barrel as the "A-101 Magnum" which has a compensator-like barrel extension.

Manufacturer

- Anics Group was established in 1990.
- Anics Group is based in Moscow, Russia.
- Anics Group was originally a Russian importer of airguns and firearms.
- Anics Group began manufacturing their own line of air pistols and revolvers in 1996.
- Anics Group products have been imported into North America by "Air Rifle Specialists" of Pine City, New York, "Compasseco" of Bardstown, Kentucky, and "European American Armory Corp (EAA)" of Rockledge, Florida.

Action

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Shots

- detachable magazine for BB's.

Notes

Make

- "ANIT & CHAR" or "FABRICA D ANITUA Y CHAROLA EIBAR, ESPANA" is usually marked on the firearm.
- Anitua y Charola produced revolvers from 1881 until 1888, when the company was re-organized as "Charola y Anitua", to put a small C-96-style semi-automatic pistol into production.

Model

- the model may be marked on the firearm as "SISTEMA MERWIN".
- this is one of a number of copies of the Merwin & Hulbert double action revolver, with a barrel that slides forward on the cylinder axis-pin to extract cases or cartridges from the cylinder; these revolvers are loaded via a loading gate on the right side of the receiver/frame that slides vertically to expose the rear of the cylinder.
- features include: typical Merwin & Hulbert appearance and operation, with a barrel and cylinder that pulls forward along the cylinder-pin when the barrel latch is pressed, and the barrel is twisted to disengage it from the receiver/frame; blued or nickeled finish; fixed open sights; fluted cylinder; SA/DA trigger mechanism; exposed hammer; and a bird's-head or square-butt grip frame with wooden, synthetic, horn, or pearl grips.

Manufacturer

- "ANIT & CHAR" or "FABRICA D ANITUA Y CHAROLA EIBAR, ESPANA" is usually marked on the firearm.
- Anitua y Charola produced revolvers from 1881 until 1888, when the company was re-organized as "Charola y Anitua", to put a small C-96-style semi-automatic pistol into production.

Action

- double-action revolver.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122859 - 1	6MM FLOBERT RF	1	553	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- the model designation may be marked on the top of the barrel.
- this is a smooth bore version of the model 1361 and features a Flobert-type action where the bolt handle serves as the sole locking mechanism when it is in the closed position.
- features include: a sliding safety located on the right side of the receiver/frame; half moon extractor; tapered, blued barrel; open rear sight, post and bead or a ring-type front sight; uncheckered one-piece walnut stock with a pistol grip and a semi-beavertail forend; corrugated butt plate.

Manufacturer

- the Anschutz name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- the serial number is usually marked on the left side of the receiver/frame.
- the serial number rationalization is not known.

Calibre

- the calibre designation is normally marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Model: 1365

Summary

Make:	Anschutz
Model:	1365
Manufacturer:	Anschutz
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
106275 - 1	9MM FLOBERT	1	550	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
106275 - 2	9MM FLOBERT	1	650	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- model designation is not marked on the firearm.
- this is a single shot, bolt operated rifle with a Flobert type action where the action is locked by rotating the bolt handle down into it's seat in the receiver/frame.
- features include: leaf rear sight; plain pistol grip stock and adjustable trigger.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- serial number of observed example consisted of six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Model:	1408ED
Manufacturer:	Anschutz
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121616 - 2	22 LR	1	457	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
121616 - 1	22 LR	1	584	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- model designation is marked on the barrel as "MODELL 1408 ED".
- introduced in 1976.
- features include: blued barrel; no sights; single stage trigger; oversize bolt knob; European walnut thumbhole stock.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- turn bolt operated.

Serial Number

- marked on the left front side of the receiver/frame.
- observed specimen had six digits and a letter suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 1982. - "Anschutz" and/or the "JGA" logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame. - this is a match-grade sporter/target/hunting rifle. - utilizes the Match 64 action and available in several grades, and with a number of options including a left hand version, fiberglass stock and various sight and trigger options. - features include: folding leaf rear sight and hooded front sights on some models; blued steel tapered or heavy barrel; receiver/frame is drilled, tapped and grooved for scope mounts; chrome plated bolt with metal or black plastic bolt knob. - short 14" (356mm) threaded barrel versions are available with knurled barrel thread protector. - model designation and calibre may be marked on the barrel. - features observed: matte black anodized aluminium receiver/frame; round tapered barrel; laterally adjustable rear sight with three inset yellow target dots and optic front sight; sliding thumb safety located in front of the bolt; adjustable single trigger mechanism; magazine release part of/built-in the trigger guard; receiver/frame is drilled and tapped for scope mounts; wood or synthetic, checkered, thumbhole, Monte Carlo or Bavarian style pistol grip stock; rubber butt plate. - overall length with a 560mm (22.1") barrel is 1090mm (42.9"). - overall length with 14" (356mm) barrel is 32.5" (826mm)
Manufacturer	- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.
Action	- turn-bolt design.
Serial Number	- usually marked on the left front side of the receiver/frame.
Calibre	- marked on the barrel.
Shots	- detachable box magazine. - Steel 5 round or 10 round detachable box magazine
Remarks	- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote: B = Biathlon D = single stage trigger E = single shot FWT = featherweight G = threaded muzzle HB = heavy barrel HP = high power L = left hand version R = repeater St = double set trigger KL = folding leaf sight KV = heavy tangent sight M = magnum calibre MP = multi purpose MS = metallic silhouette MSP = metallic silhouette pistol MSR = metallic silhouette repeater Z = zimmerstutzen (indoor/gallery use)

33237 - 1	22 LR	5	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- "Modell 1422" is marked on the barrel.
- manufactured from 1982 to 1988.
- reintroduced as the model 1700 in 1989.
- features include: round barrel; Match 54 action; single or double set triggers; box magazine; manual safety located on left side of receiver/frame; hooded ramp front sight and folding leaf rear sight; receiver/frame is grooved and drilled & tapped for scope mount; one piece walnut stock with straight or Monte Carlo comb and pistol grip and plain or schnabel forend.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the receiver/frame.

Calibre

- marked on top of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- model designation marked on top of the barrel as follows;
"ANSCHUTZ - MODELL 1441/42"
" - CAL. .22 LONG RIFLE - ".
- features include; blued finish on metal parts; receiver/frame grooved to accept scope mounts; hardwood one-piece stock; adjustable rear sight with fixed front.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- serialization unknown, but seven numbers observed.
- serial number is usually located on left side of the receiver/frame.

Calibre

- calibre designation marked on top of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Other Markings

- additional markings may include German proof marks usually located on left side of barrel and receiver/frame.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- introduced in 2000.
- this is a bolt-operated, calibre 22 LR (intended for use with the 22 LR "Shot" cartridge), smooth bore repeater.
- features include: smooth bore barrel (no rifling); wood pistol grip stock; grooved receiver/frame, and a bead front sight.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Type

- this firearm resembles a traditional rifle but has a smooth bore barrel.

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Calibre

- calibre is referred to as "22 CLAY BIRD" in Anshutz literature, intended for use with the 22 LR "Shot" cartridge.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- introduced circa 1963.
- make/manufacturer, model and calibre are usually marked on the top of the barrel forward of the rear sight and on the left side of the receiver/frame.
- features include: match 64 action; rubber recoil pad; standard target scope mount bases; checkered American walnut or European walnut Monte Carlo stock and cheek piece with straight or schnabel forearm; hooded ramp front and folding rear leaf sights.
- overall length is 1040MM (40.9").

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- marked on left front side of the receiver/frame.

Calibre

- calibre is marked on the firearm, forward of the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- the Anschutz name and/or logo is usually marked on the barrel and/or on the receiver/frame.
- known Anschutz markings include: "JGA", "JGA ZELLA-MEHLIS", "J.G. ANSCHUTZ GmbH ULM", "J.G. ANSCHUTZ GmbH Ulm/D", "J.G. Anschutz GmbH Waffenfabrik Ulm/D. Germany" or "J.G. Anschutz GmbH Waffenfabrik Ulm/D. West Germany".
- the "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- the model designation may be marked on the barrel and/or receiver/frame of the firearm.
- this is a "Continental" style sporting rifle utilizing the American-made Savage 110 action.
- features include: tapered blued barrel; hooded, ramp front sight and folding leaf rear sight; double set triggers; top tang mounted safety; cocking indicator; checkered walnut Monte Carlo type stock with a capped pistol grip and schnabel forend; corrugated butt plate with white line spacer; sling swivels.

Manufacturer

- manufacturer's designation may not be marked on the firearm.

Action

- turn-bolt design.

Serial Number

- the serial number is usually marked on the left side of the receiver/frame.
- the serial number rationalization is not known.

Calibre

- the calibre designation is normally marked on the barrel.

Shots

- internal box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- manufacture began in 1989 as an improved version of the models 1422, 1432 and 1532.
- this is a generic record for the 1700 series of models that may not be marked with any model designation. Other specific 1700 models may better identify the firearm being observed.
- features include: Match 54 action; heavy barrel; walnut, fibreglass, fibre grain, synthetic wood or black graphite stock; swivel studs; safety lever on rear of bolt.
- available in a "Bavarian" version that features a hogs back-type stock with a schnabel forend and hooded front and folding rear sight; a "Classic" version with a traditional American stock and no open sights; a "Custom" version with a Monte Carlo stock, a roll-over cheek piece and a Wundhammer swell pistol grip with a rosewood cap; and a "Mannlicher" version that features a full length stock.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the left front side of the receiver/frame.
- serial number rationalization is unknown.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Firearm Reference Number (FRN): 126042
Make: Anschutz
Model: 1710 Anschutz 150th Anniversary Commemorative

Summary

Make:	Anschutz
Model:	1710 Anschutz 150th Anniversary Commemorative
Manufacturer:	Anschutz
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	GERMANY
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
126042 - 1	22 LR	5	584	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ANSCHUTZ" was observed marked on the right side of the stock.

Model

- introduced in 2006 to commemorate the 150th anniversary of the founding of Anschutz.
- "ANSCHUTZ" over the years "1856 2006" over "DIE MEISTER MACHER" over "150" is located on the right side of the buttstock.
- "Germania Waffenerk" logo is engraved on top of the barrel.
- the trigger guard is gold engraved with the founder's logo "ICA" (letters are overlapping in monogram form).
- this is a match-grade bolt-action repeater manufactured by Anschutz from 1988 until 1991 and then re-introduced in 2002.
- based on the Anschutz Model 54 action.
- features include: heavy round tapered stainless steel barrel; no sights; rifled bore; grooved and drilled and tapped blued receiver/frame; wing safety; wooden bolt knob; two stage gold plated trigger mechanism; detachable box magazine; fish scale or basket weave checkered, one piece stock.

Manufacturer

- "ANSCHUTZ" was observed marked on the right side of the stock.

Action

- turn-bolt design.

Calibre

- calibre designation may be marked on the firearm.

Shots

- detachable box magazine.

33227 - 1	22 LR	5	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- model designation may not be marked on the firearm.
- introduced in 1990.
- features observed: Match 54 action; blued round barrel with recess target crown; single stage trigger; folding leaf rear sight and hooded pearl front sight adjustable in height; checkered walnut pistol grip stock with rollover cheek piece; grooved and tapped receiver/frame for telescopic sight; sling swivels studs.
- overall length with a 549mm (21.6") barrel is 1041mm (40.9").

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- serial number is usually marked on the left front side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- round, blued.
Shots	- detachable box magazine.
Remarks	- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote: B = Biathlon D = single stage trigger E = single shot FWT = featherweight G = threaded muzzle HB = heavy barrel HP = high power L = left hand version R = repeater St = double set trigger KL = folding leaf sight KV = heavy tangent sight M = magnum calibre MP = multi purpose MS = metallic silhouette MSP = metallic silhouette pistol MSR = metallic silhouette repeater Z = zimmerstutzen (indoor/gallery use)

Notes

Make	- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame. - "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945. - "JGA" is the abbreviation for "Julius Gottfried Anschutz".
Model	- this is a version of the Anschutz Exemplar single-shot pistol made for hunting or field silhouette competition; - features include: ventilated, vertical pistol grip stock with thumbrest; drilled and tapped for scope mounts, and dovetailed sight bases for open/micrometer sights.
Manufacturer	- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
Action	- turn-bolt design.
Serial Number	- marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Summary

Make:	Anschutz
Model:	17LP
Manufacturer:	Anschutz
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Bolt Action
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127412 - 1	17 HMR	4	305	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- introduced in 2003.
- "17 LP" or "17 P" is marked on the firearm.
- features include: left hand bolt-action target/hunting pistol based on the Match 64 action, black synthetic stock, grooved/drilled and tapped for scope mounts, but will also accept Anschutz open sights, polished and blued finish barrel, two stage trigger, and sliding safety.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- turn bolt operated.

Serial Number

- serial number is marked on the receiver/frame.
- an observed sample consisted of seven numbers without an alpha prefix or suffix.

Shots

- detachable box magazine.

Serial Number

- serial number is marked on the left side of the barrel just forward of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel as "Cal. .22 long rifle"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- manufactured from 1981.
- designed for International Match Competition.
- features include: Match 54 action; thumb-hole hardwood stock with a tapered forend; adjustable sights and butt plate.
- available with a variety of sight, trigger and stock attachments.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- serial number is usually marked on the left side of the barrel and/or receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Summary

Make:	Anschutz
Model:	1903
Manufacturer:	Anschutz
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
3522 - 2	22 LR	1	540	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
3522 - 1	22 LR	1	650	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- introduced in 1990.
- the model designation may appear on the top of the barrel forward of the rear sight, and on the left side of the receiver/frame.
- this is a modernized version of the Model 1403.
- features include: Match 54 action; European walnut Monte Carlo stock with deeply fluted high comb, fully contoured pistol grip and a three slot forend.
- available with a left or right hand stock and action and a fully adjustable stock.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- serial number is usually marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- "1913" may be marked on the firearm.
- utilizes the Match 54 action
- this is a version of the 1913 rifle made specifically for benchrest shooting
- may have a carved wooden pistol grip stock having a high cheekpiece and a flat-bottomed forearm or an aluminum fully adjustable stock with pistol grip and benchrest plate along bottom of forearm, for shooting from a resting position on a bench.
- features include: blued finish; heavy barrel with the outside diameter of the barrel being wider for the last few inches at muzzle end of the barrel; barrel is grooved at muzzle end for target globe type front sights; receiver grooved for scope mounts or target peep sights; turnbolt single-shot mechanism; and an adjustable buttplate.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Action

- turn-bolt design.

Serial Number

- serial-numbered on the receiver/frame.

33131 - 1	22 LR	1	692	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- introduced in 1987.
- this is the evolution of the Model 1813 and was designed for 50m Free Rifle competitions.
- features include: Match 54 action; receiver/frame is grooved for scope rings or target sights; muzzle of barrel is grooved for globe type target front sights; stepped barrel at muzzle; trigger is adjustable for reach and weight; walnut, coloured laminate, or aluminum stock with adjustable comb, palm rest, vented forend and hooked butt plate.
- available in a left hand version.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- serial number is usually marked on the left front side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- 11,000 rifles of this model were produced from 1959 to 1967.
- this is a match grade, side cocking air rifle.
- features include: walnut, Monte Carlo stock with a vertical, checkered pistol grip; adjustable buttplate; adjustable trigger; globe front sight and micrometer adjustable rear sight.
- available in a left hand version as the 220 L.
- overall length of 1105mm (43 1/2").

Manufacturer

- the Anschutz name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- side-cocking, spring piston air rifle.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- the serial number is usually marked on the left side of the receiver/frame.
- the serial number rationalization is not known.

Calibre

- the calibre designation is normally marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- manufactured from the early 1950s to the late 1970s.
- "ANSCHUTZ ERZEUGNIS MODELL 275" may be marked on the firearm.
- this is a low-power spring-piston air rifle made for target practice at fairs, shooting galleries, etc.;
- uses a large bolt handle to cock the mainspring (must be turned up through 90 degrees, then pulled back to catch the piston on the sear), and feeds from a zinc "magazine", inserted into the rifle.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- spring-powered air rifle.
- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Shots

- detachable box magazine.

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- model designation may be marked on the receiver/frame.
- available between 1963 and 1981.
- features include: Match 54 action; walnut, Monte Carlo stock with roll-over cheek piece, schnabel forend and skip-line checkered pistol grip; single stage trigger, available with double set trigger; hooded, ramp front and folding leaf rear sight.
- also available in a 22 MAG version.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- serial number is usually marked on the left side of the receiver/frame.
Barrel	- Tapered, round
Shots	- detachable box magazine.
Remarks	- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote: B = Biathlon D = single stage trigger E = single shot FWT = featherweight G = threaded muzzle HB = heavy barrel HP = high power L = left hand version R = repeater St = double set trigger KL = folding leaf sight KV = heavy tangent sight M = magnum calibre MP = multi purpose MS = metallic silhouette MSP = metallic silhouette pistol MSR = metallic silhouette repeater Z = zimmerstutzen (indoor/gallery use)

126988 - 1	22 LR	1	570	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- "ANSCHUTZ MATCH MOD.54 MS" is marked on the right side of the barrel.
- features include: heavy profile round barrel; sliding safety; special one piece stock with high Monte Carlo comb, deep fluted pistol grip palm rest and stippled checkering on the grip and forend; receiver/frame is grooved and drilled and tapped for scope mounts.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- the serial number is located on the left side of receiver/frame.
- observed specimen had six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- model designation may be marked on the barrel near the breech.
- introduced circa 1963.
- this is a generic entry to describe models that feature the Match 64 action and may not be marked with a model designation. Other entries exist that may better describe the firearm being observed.
- features typically include: walnut finished, Monte Carlo style hardwood stock with checkered pistol grip and beavertail forend; grooved receiver/frame; single stage trigger; sliding safety on the right rear of the receiver/frame; adjustable butt plate.
- also available in a left hand version.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- serial number is marked on the left front side of the receiver/frame.
Barrel	- medium or heavy weight barrels available.
Calibre	- calibre designation is marked forward of rear sight.
Remarks	- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- manufactured from 1963 to 1981.
- the make/manufacturer's name, model, and calibre designation may be marked on the barrel, forward of the rear sight and/or on the left side of receiver/frame.
- features include: Match 64 action; walnut stock with thumb groove and full pistol grip; adjustable palm stop; rear micrometer sight and globe front sight supplied with seven aperture and post inserts.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the left side of the barrel.

Calibre

- the calibre designation is marked on the barrel, forward of the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "ANSHUTZ" name/logo and/or "J.G. Anschutz" and/or "JGA" name/logo and/or "J.G.A. ZELLA-MEHLIS GERMANY" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- this is a generic model. Other Anschutz model entries exist which may better describe the firearm being identified. Please refer to the AKA and Cross Reference fields of this record.
- model designations commonly marked on the top side of barrels, however models may not be marked in all cases;
- features of this firearm may include:
- highly adjustable stocks of different material construction designed for match shooting;
- simple non-adjustable wood stocks;
- barrel or receiver mounted rear sights of leaf or micrometer configuration;
- fixed or removeable foresight assemblies;
- single or double / adjustable or fixed pull-weight triggers;
- grooved/tapped or smooth receiver profiles;
- barrel accessories including sight base extensions and weights,
- single or twin extractors on the bolt face;
- may be fitted with a manual safety;
- may have a cocked-action indicator.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt action.
- bolt may lock in receiver recess or use lugs mounted on the rear portion of the bolt body.

Serial Number

- normally stamped on left side of receiver/frame.
- current production and observed samples have had six digits with no letter suffix or prefix.
- it is not known if serial numbering is sequential over all production or only within model lines.

Other Markings

- "J G Anschutz Gmbh. Waffenfabrik Ulm/D. Germany" is marked on top barrel.
- "ANSCHUTZ" in a border is marked on top of receiver/frame.

FRT Report

Firearm Reference Number (FRN): 145852
Make: Anschutz, Bruno
Model: Original System Aydt

Summary

Make:	Anschutz, Bruno
Model:	Original System Aydt
Manufacturer:	Anschutz, Bruno
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145852 - 1	8.15X46R	1	737	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm with Bruno Anschutz's logo of an "A" over a "B", within a circle.

Model

- "Original Syst. Aydt" or "Original System Aydt" is marked on the firearm.
- "Original System Aydt" shows that these rifles were licenced copies of the Aydt rifle manufactured between 1888 and 1904, from raw parts that were supplied by Haenel, the licencee of the Aydt patent.
- this is a single shot target rifle manufactured from parts supplied to any one of a number of sub-licencees by C.G. Haenel under a patent issued to Carl Wilhelm Aydt in 1884; Haenel had agreed to purchase the production rights to Aydt's design after it grew very popular among German target shooters, and had the sole rights to produce this action up until 1904. After Aydt's German patent expired in 1904, many other German manufacturers also produced single-shot rifles and pistols using the Aydt action; firearms manufactured by other manufacturers after Aydt's patent expired are customarily marked "Syst. Aydt" on the breechblock.
- this rifle is a single-shot with a hammer concealed inside the breechblock, and has an extractor on the left side of the chamber.
- features include: a wide range of possible finishes and engraving styles, but usually blued with engraved receiver/frame walls; octagonal barrel (sometimes fluted); a two-piece walnut forearm and butt (with varying degrees of carving, checkering, and inlay); micrometer-adjustable peep sights (but may also be seen with adjustable open backup sights); a flat-sided receiver/frame with hexagonal top and two curved, overlapping oval-headed pins on the left side (these form the hinge pins for the extractor and the breechblock); double set triggers; an ornated filigree grip that swings down to open the action; and a butt with a cheekrest and hooked buttplate.

Manufacturer

- the manufacture is marked on the firearm with Bruno Anschutz's logo of an "A" over a "B", within a circle.

Action

- lever operated, dropping/falling block design.

Serial Number

- numbered on the receiver/frame; these rifles may also bear unrelated serial numbers on the breech block, applied by Haenel, the original licencee of the Aydt system.

133951 - 1	22 LR	1	280	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Udo Anschutz Zella-Mehlis" and "Bohler Stahl" may be marked on the barrel.
- "U.A." over "Z" inside a shield outline may be marked on the side of the receiver/frame.
- "UAZ" is the abbreviation for Udo Anschutz Zella-Mehlis.

Model

- "MOD. 210" was observed marked on the receiver ring.
- manufactured prior to 1940.
- 210 is a custom manufactured target pistol.
- features observed: adjustable target sights; octagonal barrel; Martini type action; adjustable trigger; checkered wood forearm and target type pistol grip.

Manufacturer

- Udo Anschutz was born in 1862.
- Udo Anschutz established a business in Zella-St. Blasii, Germany in 1886.
- Udo Anschuts (UAZ) was in business from 1886 to circa 1945.
- Udo Anschutz moved to Bahnhofstasse 56, Zella-Mehlis, Germany in 1917.
- Udo Anschutz manufactured hunting and target guns and single-shot Free Pistols until circa 1935.
- Udo Anschutz died in 1935 and the business was taken over by his son-in-law, Franz Oskar Merkel.
- Udo Anschutz business took over the manufacture of the Luna and Tell pistol from Buchel in 1935.
- Udo Anschutz business operated as Franz Merkel - Vorm. Udo Anschutz until 1945.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Firearm Reference Number (FRN): 148870
Make: Antis, Robert
Model: Percussion Rifle

Summary

Make:	Antis, Robert
Model:	Percussion Rifle
Manufacturer:	Antis, Robert
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148870 - 1	36 PERCUSSION	1	826	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "R. ANTIS" is usually marked on the firearm.

Model

- model designation is not marked on the firearm.
- this is a percussion hunting rifle manufactured by Robert Antis prior to 1856.
- features include: browned or blued finish; open sights; octagonal barrel; underbarrel ramrod thimbles; half-length straight-grip walnut stock with brass or German silver accents; external manually-cocked "mule ear"-style hammer (where the striker/hammer swings out horizontally from the lockplate to cock the rifle); finial trigger guard/grip; crescent butt plate.

Manufacturer

- "R. ANTIS" is usually marked on the firearm.
- Robert Antis was located in Canandaigua, New York, U.S.A. from 1842 to 1855.
- Robert Antis was known primarily for his smaller calibre hunting rifles.

Action

- muzzle loading, percussion ignition.

FRT Report

Firearm Reference Number (FRN): 140798
Make: APS
Model: ASR104 M4 Airsoft

Summary

Make:	APS
Model:	ASR104 M4 Airsoft
Manufacturer:	Accuracy Pneumatics Shooting (APS)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Airsoft
Action:	Air,Spring or Gas
Country of Manufacturer:	CHINA
Serial Numbering:	
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
140798 - 1	6MM AIRSOFT BB	300	370	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "A.P.S." or "Accuracy Pneumatics Shooting" is marked on the airsoft carbine.

Model

- "ASR104 M4 AIRSOFT" is not marked on the firearm.
- "ASR104 M4 AIRSOFT" resembles a full automatic "Colt model M4" carbine.
- features include: adjustable sights; round aluminum outer barrel/sleeve and smoothbore inner barrel with muzzle brake and bayonet lug; flat top aluminum receiver/frame with removable rear sight; synthetic quad rail forearm assembly, and checkered pistol grip; telescoping buttstock assembly; sling attachments; black finish.
- overall length is 780 mm in the retracted position and 870 mm in the extended position, and average weight is 2. 82 kgs.

Manufacturer

- Accuracy Pneumatics Shooting (APS) Limited was established in 2001.
- Accuracy Pneumatics Shooting (APS) was originally known as Accuracy Pneumatics Shooting (APS) Airguns Limited.
- Accuracy Pneumatics Shooting (APS) is located in Hong Kong, China.

Type

- this is an airsoft rifle.

Action

- spring piston is powered by an electric motor, gear box and battery.
- selective fire.
- at least two variants of this particular model exist:

Variant #1) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 238.7 mps (783 fps) and/or a muzzle energy exceeding 5.7 Joules, and

Variant #2) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 111.6 mps (366 fps) and/or a muzzle energy exceeding 1.2 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- overall length of outer aluminum barrel/sleeve is 368 mm. - length of the smooth bore inner barrel is 363 mm.
Calibre	- "CAL. 5.56MM" was observed marked on the left side of the magazine housing. - "C" and "MP" over "5.56 NATO 1/7" was observed marked on the outer shell of the barrel at the muzzle.
Shots	- detachable box magazine.
Canadian Law Comments	- this airsoft is available in two variants: Variant #1) CC 2 "firearm" / CC 84 (3) Exempted: muzzle velocity exceeds 111.6 mps (366 fps) and/or muzzle energy exceeds 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB, and Variant #2) CC 84 (1) "replica firearm": muzzle velocity is less than 111.6 mps (366 fps) and/or muzzle energy is less than 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB.

Notes

Make

- "AR" over "FIVE SEVEN" was observed marked on the left side of the upper unit.
- "AR" over "FIVE SEVEN" was observed marked on the left side of the magazine housing of the receiver/frame.
- "AR" over "FIVE SEVEN" was observed marked on the pistol grip
- "AERO PRECISION INC" over "TACOMA, WA" was observed marked on the left side of the receiver/frame, above the trigger.
- "AR57 LLC" was established in 2007.
- "AR Five Seven" is a trade name/trademark used by "57 Center LLC".
- "57 CENTER LLC" was located in Redmond, Washington, U.S.A.
- "57 CENTER LLC" was located in Bellevue, Washington, U.S.A. in 2011.

Model

- introduced in 2010.
- "MODEL AR57A1 PDW" was observed marked on the left side of the receiver/frame.
- "AR57A1 PDW" is of the design commonly known as the AR-15/M-16 rifle.
- "AR57A1 PDW" rifle uses a two piece receiver/frame similar to Colt model AR15 semi-automatic.
- features include: round barrel with flash hider; AR57 flat top upper with integral accessory rails; AR57 box magazine is mounted horizontally over the barrel; AR15 type aluminum lower receiver/frame; synthetic pistol grip; six position collapsible buttstock; black matte finish.
- cartridge cases are ejected downward through the magazine well.
- "AR57A1 PDW" lower receiver/frame will accept and function with any AR15 type upper assembly.
- "AR57" upper assembly is also sold as a unit with a 279mm (11.0") or "407mm (16.04") barrel for installation on any AR15/M16 type lower receiver/frame.
- overall length with a 407mm (16.04") barrel is 838mm (33.0") and average weight is 3.4kg (7.45lbs).

Manufacturer

- "AERO PRECISION INC" or "AERO PRECISION LLC" over "TACOMA, WA" is marked on the side of the receiver/frame.
- "Aero Precision" is located in Tacoma, Washington, U.S.A.
- "Aero Precision" was founded in the early 1990's.

Action

- blowback operated.

Serial Number

- serial number is marked on the left side of the magazine housing of the receiver/frame.

Calibre

- "CAL. 5.7 x 28mm" was observed marked on the left side on the magazine housing of the receiver/frame.
- 5.7x28 FN rifling characteristics: 1 turn in 8.5 inches, right hand twist.

Shots

- detachable box magazine is mounted horizontally over the barrel.
- uses Fabrique National Herstal FN P90/PS90 magazine.

FRT Report

Firearm Reference Number (FRN): 119343
Make: ARAL
Model: Blunderbuss Reproduction

Summary

Make:	ARAL
Model:	Blunderbuss Reproduction
Manufacturer:	Armas ARAL
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119343 - 1	50 PERCUSSION	1	465	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- may or may not be marked with the Armas Aral name and logo (an "A" within a diamond).
- Armas Aral is a manufacturer based in Eibar, Spain, that specializes in building both modern side-by-side rifles and shotguns, and reproductions of black powder rifles and shotguns.

Model

- this is a modern reproduction of an early "Blunderbuss".
- "Blunderbuss" is a smooth-bored firearm with a large, belled muzzle, to allow fast reloading.
- straight-grip walnut stock with long forearm, color-case-hardened lockplate and hammer, blued barrel, and brass or bronze trigger-guard and flared "bell" at the muzzle.

Manufacturer

- Armas Aral is a manufacturer based in Eibar, Spain, that specializes in building both modern side-by-side rifles and shotguns, and reproductions of black powder rifles and shotguns.

Action

- percussion single-shot.

Serial Number

- may or may not be serial-numbered.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Notes

Make	- "ARAL" or "ARAL ARMS" is marked on the firearm.
Model	- the model is not marked on the firearm; this is a descriptor of the firearm type. - this is a standard-pattern pump-action shotgun manufactured by ARAL Arms in various grades and barrel lengths, for hunting, trap, skeet, tactical and sporting clays use. - features include: blue/black finish; screw-in interchangeable chokes/flash hiders; bead or rifle sights with carry-handle; round barrel (some with heat shields); checkered walnut or synthetic forearm and pistol-grip stock (some versions with a vertical pistol-grip-only, with a vertical pistol-grip with telescoping buttstock, or with an over-folding buttstock; forend return spring; right-side ejection port; cross-bolt safety at the rear of the trigger guard; and a rubber buttpad.
Manufacturer	- "ARAL" or "ARAL ARMS" is marked on the firearm.
Serial Number	- serial-numbered on the receiver/frame.
Shots	- underbarrel tubular magazine. - factory +3 extension available.
Canadian Law Comments	- this firearm is normally Non-Restricted unless affected by the following conditions: 1) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

Notes

Make

- may or may not be marked with the Armas Aral name and logo (an "A" within a diamond).
- Armas Aral is a manufacturer based in Eibar, Spain, that specializes in building both modern side-by-side rifles and shotguns, and reproductions of black powder rifles and shotguns.

Model

- this is a reproduction of a Remington rolling-block long-range target rifle.
- straight-grip walnut buttstock with shotgun butt, tang-mounted rear sight, globe front with interchangeable inserts, color-case-hardened receiver, and octagonal barrel.

Manufacturer

- Armas Aral is a manufacturer based in Eibar, Spain, that specializes in building both modern side-by-side rifles and shotguns, and reproductions of black powder rifles and shotguns.

Action

- "rolling-block" single-shot.

Serial Number

- numbered on receiver/frame.

Notes

Make

- may or may not be marked with the Armas Aral name and logo (an "A" within a diamond).
- Armas Aral is a manufacturer based in Eibar, Spain, that specializes in building both modern side-by-side rifles and shotguns, and reproductions of black powder rifles and shotguns.

Model

- this is a standard-pattern side-by-side exposed-hammer shotgun, made primarily for cowboy action shooters.
- color-case-hardened receiver/frame, double triggers, exposed hammers, and a pistol-grip walnut buttstock and beavertail forearm.

Manufacturer

- Armas Aral is a manufacturer based in Eibar, Spain, that specializes in building both modern side-by-side rifles and shotguns, and reproductions of black powder rifles and shotguns.

Action

- side by side barrel configuration.

Serial Number

- serial number is marked on the receiver/frame.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

FRT Report

Firearm Reference Number (FRN): 195302
Make: Aranguren, Pedro
Model: Lupara Pistol

Summary

Make:	Aranguren, Pedro
Model:	Lupara Pistol
Manufacturer:	Aranguren, Pedro
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195302 - 1	16 GA PIN-FIRE	1	193	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Aranguren Y C A PLACENCIA" was observed on the top strap of the barrel.

Model

- model designation is not marked on the firearm, this is a descriptor of the firearm type.
- this is a Lefaucheux-style pinfire, breech-loading pistol in the lupara style of "sawed-off`" shotgun.
- features include: octagonal, tapered barrel with no sights; side hammer; engraved, front hinged receiver/frame with the side-swing break open lever mounted on the underside; ornate rounded trigger guard; nickel finish; walnut pistol grip stock and checkered fore end; lanyard loop on brass butt cap.

Manufacturer

- "Aranguren Y C A PLACENCIA" was observed on the top strap of the barrel.
- Pedro Aranguren was a gunmaker in Eibar, Spain beginning in 1814.
- the Real Fabrica de Placencia was located in Placencia de las Armas, Spain until 1865.
- the royal factory at Placencia issued contracts to a guild of gunmakers and artisans who worked from homes or workshops in Placencia, Eibar and Elgoibar; their completed work would be submitted to the king's royal examiners at Placencia for visual inspection and proof.
- firearms were manufactured under the name Pedro Aranguren until 1912 by his successors in Eibar.

Action

- single barrel, breech loaded.

Serial Number

- no serial number was observed.

Calibre

- calibre was observed on the top of the barrel.

Other Markings

- marking of a crown over "PA" was observed on the barrel. Research indicates the marking under the crown may be the mark of a guild master, master inspector or royal examiner. It was not indicated if "PA" refers to Pedro Aranguren or if he held any of these titles.
