Notes

Make

- "AMERICAN DEFENSE MFG." is marked on the left side of the receiver/frame, with American Defense Manufacturing's logo of an eagle flying down with talons extended, superimposed on a shield, on the right side of the magazine well.

Model

- Introduced in 2014.
- "UIC" is marked on the left side of the receiver/frame; "UIC" is an acronym for "Universal Improved Carbine".
- available in three versions (Mod1,2 and 3); this is a redesigned ambidextrous carbine based on the AR-15, with all controls accessible with either the thumb or forefinger of the firing hand.
- features include: typical AR-15 layout and operation; black, flat earth, or tan finish; multi-port muzzle brake; ventilated aluminium handguard; full-length flat-top Picatinny rail for mounting sights or accessories; right-side ejection port with case deflector; and synthetic pistol-grip and collapsible M4-style buttstock.

Manufacturer

- "AMERICAN DEFENSE MFG." is marked on the left side of the receiver/frame, with American Defense Manufacturing's logo of an eagle flying down with talons extended, superimposed on a shield, on the right side of the magazine well.

Action

- gas-operated.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- detachable box magazine.
- this firearm accepts AR-15/M16-style magazines.

Notes

Make

- "AMERICAN DEFENSE MFG" is marked on the left side of the receiver/frame.
- "AMERICAN DEFENSE MFG" logo, an eagle flying down with talons extended, superimposed on a shield, is on the right side of the magazine well.
- "AMERICAN DEFENSE MFG" is located in New Berlin, Wisconsin USA.

Model

- "UICH" is marked on the left side of the receiver/frame.
- "UIC" is an acronym for "Universal Improved Carbine".
- "UICH" variants are based on the Colt AR-15/M16 design.
- "UICH" is also sold as a receiver/frame only.
- "UICH" was introduced in 2019.
- features include: threaded muzzle for flash hider/muzzle brake; standard, heavy profile or grooved M4 carbine contoured barrel that may be in stainless steel; AR15/M16 standard, low profile, accessory rail or folding front sight bracket/gas block; accessory rail, free floating or synthetic handguard; accessory rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; ambidextrous controls; magazine well features reinforcing ribs; integral trigger guard; standard, collapsible or custom rifle buttstock; synthetic pistol grip; matte black or colour finish.

Manufacturer

- "AMERICAN DEFENSE MFG" is marked on the left side of the receiver/frame.
- "AMERICAN DEFENSE MFG" logo, an eagle flying down with talons extended, superimposed on a shield, is on the right side of the magazine well.
- "AMERICAN DEFENSE MFG" is located in New Berlin, Wisconsin USA.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of the prefix "U15H" a dash and four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- "MULTI" is marked on the left side of the receiver/frame.
- calibre identification is usually marked on the barrel.
- "223 Wylde" is a chamber design and not a calibre. Wylde chamber has traditionally been used in match rifles and also allow the ability to safely and interchangeably shoot military 5.56MM NATO and .223 REM ammunition.
- 223 REM rifling characteristics: 1 turn in 7 inches, right hand twist.
- 5.56MM NATO rifling characteristics: 1 turn in 7 inches, right hand twist.
- 224 VALKYRIE rifling characteristics: 1 turn in 7 inches, right hand twist.

Shots

- detachable box magazine.

Notes

Make

- "American Derringer Corp." or "A.D.C." is marked on the side of the barrels.
- "A.D.C." is the abbreviation for American Derringer Corporation of Waco, Texas.

Model

- this basic design was first produced by High Standard, American Derringer manufactures a licenced copy of the design.
- features include, over/under derringer, double action only trigger mechanism, and the same top-latch that locks the barrels to the standing breech functions as an extractor when it is rotated towards the muzzle.

Manufacturer

- American Derringer Corporation is a manufacturer based in Waco, Texas, that specializes in building "hideout" style firearms, primarily over/under derringers. They have also purchased the manufacturing rights to several other unusual "hideout" style firearms, including the Semmerling LM-4 manually operated repeater.

Action

- over/under pattern.

Serial Number

- normal production features a numeric serial on the right side of the frame/receiver.
- custom serial numbers available as an option.

Notes

Make

- "American Derringer Corp." or "A.D.C." is marked on the side of the barrels.
- "A.D.C." is the abbreviation for American Derringer Corporation of Waco, Texas.

Model

- manufactured from 1999 to 2003.
- "Lady Derringer II" is marked in script on the left side of the barrel assembly.
- this is an over and under derringer with an aluminum receiver/frame and is based on the High-Standard's over and under design.
- features include: fixed sights; flat sided, over and under barrels; front hinged aluminum receiver/frame with a top mounted break open latch and manually operated extractor; double action only (DAO) trigger mechanism; open front trigger guard with the bottom of the trigger guard stopping at the trigger bottom.

Manufacturer

- American Derringer Corporation is a manufacturer based in Waco, Texas, that specializes in building "hideout" style firearms, primarily over/under derringers. They have also purchased the manufacturing rights to several other unusual "hideout" style firearms, including the Semmerling LM-4 manually operated repeater.
- American Derringer Corporation has been in operation since 1980.

Action

- over and under barrel configuration; hinged barrel design.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Notes

Make

- "American Derringer Corp." or "A.D.C." is marked on the side of the barrels.
- "A.D.C." is the abbreviation for American Derringer Corporation of Waco, Texas.

Model

- this is an unusual double action only repeating pistol that resembles a semi automatic, but is in fact a manually operated repeater.
- stainless steel or hard-chromed steel construction, plastic or wooden grip panels, fixed sights.
- this pistol is fired by operating the "slide" with the thumb of the non-firing hand, then squeezing the long double action only trigger.
- began production in 1986.
- overall length for 76mm is 132mm (5.22"), average weight is 0.680kg (1.5lb)

Manufacturer

- American Derringer Corporation is a manufacturer based in Waco, Texas, that specializes in building "hideout" style firearms, primarily over/under derringers. They have also purchased the manufacturing rights to several other unusual "hideout" style firearms, including the Semmerling LM-4 manually operated repeater.

Action

- manually operated repeater.

Serial Number

- marked on the right side of the receiver/frame, above trigger guard.

Shots

- detachable box magazine.

Notes

Make

- "American Derringer Corp." or "A.D.C." is marked on the side of the barrels.
- "A.D.C." is the abbreviation for American Derringer Corporation of Waco, Texas.

Model

- may also be known as "Model 1 Derringer".
- fashioned after the Remington over & under derringer.
- single action pocket pistol.
- automatic barrel selection.
- made of stainless steel with high polish or satin finish.
- may also be engraved.
- overall length 122mm, width across frame 23mm, width across grip is 30mm. Weight in .45 cal is 15 oz.
- introduced in 1980.
- "M-1" may be marked on left side of barrel.

Manufacturer

- manufactured in 1998.
- located in Waco, Texas, USA. Distributor and dealer sales.

Action

- over and under barrel configuration.

Serial Number

- marked on the right side of the receiver/frame.

Calibre

- calibre is marked on the right side of the barrel assembly.

Notes

Make	- "AMERICAN FRONTIER FIREARMS" is usually marked on the barrel.
Model	- this is a modern reproduction of the Colt 1851 Navy fitted with the Richards metallic-cartridge conversion kit. - DO NOT CONFUSE this revolver with the "Richards & Mason 1851 Navy Conversion Reproduction", which is essentially the same revolver, but fitted with an ejector-rod -octagonal barrel, loading-lever, color-case-hardened hammer and trigger, blued barrel, cylinder, and frame, and walnut grip panels. - this revolver is also available with a number of options, including: faux ivory grips, engraving (both gold-filled and plain), and silver-plated grip frames.
Manufacturer	- at present, a portion of the revolver is manufactured in Italy by ARMI SAN MARCO and imported "in the white" into the United States, where it is assembled to American sub components, polished and finished.
Action	- single-action revolver.
Serial Number	- numbered on receiver/frame.
Barrel	- these revolvers are built with 4 3/4"/121mm, 5 1/2"/140mm, and 7 1/2"/191mm barrels.

Notes

Model

- this firearm is a reproduction of a Colt "1860 Army" revolver which has undergone the Richards cartridge conversion.
- this model is available in a number of configurations which include: with or without a cartridge ejector, blued steel or colour case-hardened receiver/frame, blued steel or silver plated brass trigger-guard and back-strap, Army or Navy size wood grips, tiffany silver or pewter grips, or ivory grips with silver or gold plating and engraving.
- the standard feature common to all variations is a rebated cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer - some parts of this revolver are manufactured in Italy and imported "in the white" into the United States, where it is assembled to American sub components, polished and finished.

Notes

Make	- the make appears on the barrel.
Model	- this is a modern reproduction of the Colt 1871-72 Open Top Frontier model, made in at least two grades of finish. - the standard model has all parts blued, except for the grip-frame and trigger-guard, which are silver-plated. - factory literature advertises a deluxe or "Tiffany" model that is entirely silver-plated, with highlights of gold, and with faux ivory carved grips. As of 2000 none have actually been produced.
Manufacturer	- some parts of this revolver are manufactured in Italy and imported "in the white" into the United States, where it is assembled to American sub components, polished and finished.
Action	- single-action revolver.
Serial Number	- serial numbered on the receiver/frame.

Notes

Make

- "American Historical Foundation" is not always marked on the firearm.
- "The American Historical Foundation" is a private organization which obtains firearms from various manufacturers and embellishes those firearms to create a wide variety of commemorative models.
- "The American Historical Foundation" was located in Richmond, Virginia and then in Ashland, Virginia, U.S.A.
- "The American Historical Foundation" assets were acquired by America Remembers of Ashland, Virginia, U.S.A. in 2005.

Model

- this is a Colt 1911A1 pistol made as a tribute to the Second Amendment to the US Constitution and to the Founding Fathers that wrote it.
- THIS PISTOL SHOULD NOT BE CONFUSED WITH THE "Colt 1911A1 Founding Fathers Second Amendment Tribute", a similarly-named pistol with different features.
- this pistol was made in two distinct versions; the first, a blued pistol with gold engraving, produced in a run of 1791 pistols (the "collector's edition"), and the second, a completely gold-plated version, produced in a run of 100 pistols (the "museum edition").
- features include: steel frame and slide with gold-plated and engraved slide and/or frame (the "museum edition" includes oak-leaf engraving on both the slide and frame); extensive engraving on the slide, with banners reading "THE RIGHT TO KEEP AND BEAR ARMS SHALL NOT BE INFRINGED" on the side of the slide (both sides, in the case of the "collector's edition"); rear cocking serrations; fixed blade type front sight; solid trigger; grip safety; safety catch on the left side of the receiver/frame; gold finished grip screws, slide stop, hammer, safety catch and magazine release; and oval laser-engraved grips bearing facsimiles of the signatures of George Washington, John Adams, Thomas Jefferson, James Madison, Alexander Hamilton, Thomas Paine, Samuel Adams, and George Mason.
- 1892 (1792 "collectors" and 100 "museum") units were manufactured/supplied by Colt and marketed by America Remembers.

Manufacturer

- Colt manufactured this firearm for the American Historical Foundation.
- America Remembers commissioned the embellished of the firearm's appearance.
- America Remembers sold this firearm under their name and model designation.

Action

- recoil-operated.

Serial Number

- numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
174002 - 1	56-50 SPENCER RF	7	762	Antique AFR, Section 1, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "REPEATING RIFLE CO." is usually marked on the firearm.
- The Fogerty Rifle Co. was founded in 1866 to manufacture repeating rifles based on Valentine Fogerty's mid-1860's patents on his lever-action repeating rifle design which was very similar to the earlier Spencer; in fact, when Spencer went out of business in 1868, Fogerty bought Spencer's machinery to increase his own production. In 1867, Fogerty changed the name of the "Fogerty Rifle Company" to the "American Repeating Rifle Company", and continued production until 1869, when Winchester bought Fogerty's patents in part to remove him as a potential competitor.

Model

- the model is not marked on the firearm; this is a descriptor for the style of firearm.
- this is a lever-action repeating rifle designed and patented by Valentine Fogerty in 1865, and produced in limited numbers under two manufacturer's names ("Fogerty Rifle Co." and "American Repeating Rifle Co.") until Winchester bought Fogerty's patents out to remove him as a source of competition to their lever-action repeaters.
- Fogerty built both "Rifle" and "Carbine" versions of this rifle, with different barrel lengths.
- the identifying characteristic of the American Repeating Rifle Company "Repeating Rifle" is a 762mm/30" barrel with three barrel bands on the forearm.
- features include: blued finish; open sights; round barrel transitioning to octagonal at the breech; walnut forearm with three barrel bands and a forearm tip; top ejection port; round-bodied receiver/frame with an oval lockplate inset on the right side; Sharps-style operating lever that acts as a trigger-guard; a straight-grip walnut butt with a crescent buttplate; and a "patchbox"-style loading port on the lower left side of the butt, through which the magazine can be loaded.

Manufacturer

- "REPEATING RIFLE CO." is usually marked on the firearm.
- The Fogerty Rifle Co. was founded in 1866 to manufacture repeating rifles based on Valentine Fogerty's mid-1860's patents on his lever-action repeating rifle design which was very similar to the earlier Spencer; in fact, when Spencer went out of business in 1868, Fogerty bought Spencer's machinery to increase his own production. In 1867, Fogerty changed the name of the "Fogerty Rifle Company" to the "American Repeating Rifle Company", and continued production until 1869, when Winchester bought Fogerty's patents in part to remove him as a potential competitor.

Shots

- tubular magazine in the butt.

Notes

Make

- "American Tactical Imports" is an importer and distributor of firearms, ammunition and tactical equipment.
- "American Tactical Imports" was established in 2006.
- "American Tactical Imports" is located in Rochester, New York, U.S.A.
- "American Tactical Imports" also uses the acronym "ATI".
- "American Tactical Imports" logo consists of the letters "A", "T" and "I" overlapping within a diamond shape.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "GSG-5" is marked on both sides of the receiver/frame.
- "GSG-5" variants are based on the Heckler & Koch MP5 submachine gun.
- introduced in 2002 with American importation beginning in 2008.
- "GSG-5" was produced in several variants:
. GSG-5 A: with a 229mm (9") barrel.
. GSG-5 L: with a 414mm (16.3") barrel, designed to meet the legal requirements for minimum barrel length and overall length in several countries (including the United States). The longer barrel is covered with a barrel shroud (mock suppressor) for aesthetic purposes.
. GSG-5 SD: Similar to GSG-5 L but with both a larger fore grip and mock suppressor, similar in look to a MP5-SD. Pre-2010 manufactured mock suppressor may actually act as suppressor.
. GSG-5P: Pistol variant with an end cap instead of a buttstock. Barrel length is identical to the "A" version.
. GSG-5PK: Similar to the GSG-5P, with a 119mm (4.7") barrel and shorter handguard.
- features include: threaded fake suppressor or threaded muzzle for flash hider; circular front sight protector and adjustable rotating drum rear sight; split receiver/frame construction; cocking handle located on the forward top left side of the receiver/frame; wood or synthetic handguard; pistol grip and trigger guard assembly is made of synthetic material and is housing the trigger mechanism; magazine disconnect safety; ambidextrous safety selector; wood or synthetic, folding or collapsible stock; black, nickel or camouflage finish.
- overall length with a 414mm (16.3") barrel is 854mm (33.6") and the average weight is 2.54kgs (5.6lbs).

Manufacturer

- "German Sport Guns" also use's the acronym "G.S.G".
- "German Sport Guns" was founded in 2002.
- "German Sport Guns" logo is an oval superposed over a circle having "G.S.G" at it's centre.
- "G.S.G" and "Made in Germany" is marked on the left side of the receiver/frame.
- "German Sport Guns" is a manufacturer of semi-automatic firearms and airsoft versions of popular weapons.
- "German Sport Guns" was located in Arnsberg, and now Ense-Höingen Germany.

Action

- blowback operated.

Serial Number

- the serial number is marked on the right side of the receiver/frame.
- serial number of a referenced example consisted of a one letter (A) prefix and six numbers.

Calibre

- "cal. 22lr" or "cal.22LR HV" is marked on the right side of the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- "AMERICAN TACTICAL IMPORTS" was observed, on a referenced example, marked on the upper left side of the receiver/frame.
- "American Tactical Imports" is an importer and distributor of firearms, ammunition and tactical equipment.
- "American Tactical Imports" started manufacturing their own injection molded synthetic AR15 type receiver/frame as the Omni Hybrid in 2013.
- "American Tactical Imports" was established in 2006.
- "American Tactical Imports" is located in Rochester, New York, U.S.A.
- "American Tactical Imports" also uses the acronym "ATI".
- "American Tactical Imports" logo consists of the letters "A", "T" and "I" overlapping within a diamond.

Model

- "OMNI HYBRID" was observed, on a referenced example, marked on the right side of the receiver/frame.
- this is a semi-automatic shotgun version of the ``Omni Hybrid`rifle, re-worked as a gas operated shotgun, firing 410 GA x 2 1/2" shells.
- "OMNI HYBRID" variants are based on the Colt AR-15/M16 design.
- "OMNI HYBRID" main feature is that the receiver/frame is made of polymer with enlarged, curved integral trigger guard and flared magazine well.
- "OMNI HYBRID" was introduced in 2013.
- features include: standard AR-15 layout and operation; full length Picatinny rail on the handguard and the upper receiver/frame; synthetic receiver/frame features an embedded metal insert for the buffer tube attachment and rear takedown pin; collapsible, standard or custom rifle buttstock; synthetic pistol grip; colour finished receiver/frame and/or parts.
- Overall length with a 470 mm (18.5 inches) barrel is 965 mm (38 inches) with the stock extended, average weight is 2.95 kg (6.5 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "AMERICAN TACTICAL IMPORTS" was observed, on a referenced example, marked on the upper left side of the receiver/frame. - "American Tactical Imports" is an importer and distributor of firearms, ammunition and tactical equipment. - "American Tactical Imports" started manufacturing their own injection molded synthetic AR15 type receiver/frame as the Omni Hybrid in 2013. - "American Tactical Imports" was established in 2006. - "American Tactical Imports" is located in Rochester, New York, U.S.A. - "American Tactical Imports" also uses the acronym "ATI". - "American Tactical Imports" logo consists of the letters "A", "T" and "I" overlapping within a diamond.
Action	- gas operated.
Serial Number	- The serial number is marked on the left side of the receiver/frame. - Serial number on the referenced example consists of one two letters followed by six digits.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Shots	- detachable box magazine. - Designed to accept "AR-15/M4/M16" type magazines.
Canadian Law Comments	- The upper receiver of this firearm is a prohibited device as per PDR, Part 1, para. 4 - This firearm design incorporates a split receiver/frame: the lower receiver is the master component considered to be the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Notes

Make

- "AWA International Inc." and/or "American Western Arms" may be marked on the top of the barrel.
- "AWA Intl. Delray Bch, Fl." may be marked on the underside of the barrel.
- American Wester Arms is a trade mark originally used by American Western Arms, Inc. and now by AWA-USA, Inc.
- American Western Arms, Inc. was an importer located in El Paso, Texas and Del Ray Beach, Florida, U.S.A. from 1999 to 2004.
- American Western Arms, Inc. assets were purchased by AWA-USA, Inc. in 2004.
- AWA-USA, Inc. is an importer established and located in Hialeah, Florida in 2004.

Model

- "Peacekeeper" is marked on the left side of the barrel.
- this firearm is based on the "Colt 1873 Single Action Army" revolver.
- features include: walnut grips, bone charcoal or colour case hardened receiver/frame, blued barrel and trigger guard, loading gate, fluted cylinder, large blade front sight, and serrated hammer.
- this model shares most features with the Longhorn Model.

Manufacturer

- "AWA International Inc." and/or "American Western Arms" may be marked on the top of the barrel.
- "AWA Intl. Delray Bch, Fl." may be marked on the underside of the barrel.
- American Western Arms purchased the former Armi San Marco factory located in Gardonne, Italy and formed American Western Arms Italia in 2000.
- American Western Arms assets were sold to AWA-USA, Inc. in 2004.
- American Western Arms Italia was renamed AWA International, Inc. in 2004.

Serial Number

- serial number is marked on the underside of the receiver/frame in front of the trigger guard.
- four digit numbers with a single letter prefix have been observed.
- the letter prefix "P" has been observed.
- serial number note; it has been observed that the last four digits of the serial number without the letter prefix may be repeated on the buttstrap of the grip frame; this number is not the valid serial number for the firearm due to the fact that the grip frame is not an integral part of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- may be marked on the firearm: "AWA International Inc. Italy", or "AWA International Incorporated, Italy".
- Italian proof marks on the barrel.

122068 - 1	357 MAG	6	121	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	
122068 - 2	45 COLT	6	121	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "American Western Arms" is usually marked on the top of the barrel.
- American Wester Arms is a trade mark originally used by American Western Arms, Inc. and now by AWA-USA, Inc.
- American Western Arms, Inc. was an importer located in El Paso, Texas and Del Ray Beach, Florida, U.S.A. from 1999 to 2004.
- American Western Arms, Inc. assets were purchased by AWA-USA, Inc. in 2004.
- AWA-USA, Inc. is an importer established and located in Hialeah, Florida in 2004.

Model

- "Ultimate 1873" is marked on the left side of the barrel.
- introduced circa 2003.
- this firearm is a reproduction of the original Colt model 1873 Single Action Army revolver.
- features include: round barrel; ejector rod located on the right side of the barrel; solid top receiver/frame with fluted cylinder; loading gate on the left side of the standing breech of the receiver/frame; exposed spurred hammer; single action trigger mechanism; blued, colour case hardened, chromed, nickled finish.

Manufacturer

- "American Western Arms" is usually marked on the top of the barrel.
- bottom of the barrel may be marked, "AWA Intl. Delray Bch. Fl." or a variation thereof.
- American Western Arms purchased the former Armi San Marco factory located in Gardonne, Italy and formed American Western Arms Italia in 2000.
- American Western Arms assets were sold to AWA-USA, Inc. in 2004.
- American Western Arms Italia was renamed AWA International, Inc. in 2004.

Action

- single action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is marked on the underside of the receiver/frame in front of the trigger guard.
- known examples have had four digit numbers with a three letter prefix.
- the letter prefix, "AWA" has been observed.

Calibre

- calibre designation is usually marked on the left side of the barrel.

FRT Report

Firearm Reference Number (FRN): 33985
Make: AMF
Model: Deer Gun

Summary

Make:	AMF
Model:	Deer Gun
Manufacturer:	American Machine & Foundry (AMF)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
33985 - 1	9MM LUGER	1	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- this pistol was manufactured at the request of the C.I.A. (Central Intelligence Agency) for distribution to friendly guerillas during the beginning of American involvement in Southeast Asia (1962-65).

Model

- this was the Vietnam-era equivalent to the O.S.S. Liberator pistol of World War II. It is a small, single-shot pistol that could be used to assassinate an enemy soldier to capture his weapon.
- features include: die-cast aluminium receiver/frame with a hollow butt to hold three cartridges and an ejector rod, and a screw-in barrel.
- these pistols were issued with a plastic device that resembled a "figure-eight" that could be clipped to the cocking rod to act as a "safety", or onto the barrel to act as a front sight. To use, the barrel would be unscrewed from the receiver/frame, a live round would be dropped into the chamber, and then the barrel would be screwed back into the receiver/frame. A cone-shaped cocking rod protruding from the back of the receiver/frame could then be pulled back to cock the pistol, and a pull of the trigger would release that rod to fire the cartridge. Approximately 1000 of these pistols were manufactured, they have been noted in both rifled and smooth-bore versions.

Manufacturer

- produced by the special firearms division of American Machine & Foundry (AMF), a manufacturer based in Alexandria, VA.

Serial Number

- these handguns were manufactured as completely "sterile" items, without any serial numbers or markings to indicate country of origin.

Notes

Make

- the make was marked on the right side of one sample examined as "AMPELL ARMS CO USA".
- Ampell Arms was a trade name used on air and gas pistols produced by Playtime Products of Honeoye, New York.

Model

- the sample examined had the model designation marked on the left side.
- features include: cast metal construction with a black overall finish; Co2 powerlet housed in the grip, left grip is removable to insert/remove powerlet; combination safety/cocking knob is mounted on the right side, once cocked the knob cannot be reset to the safe position; hooked trigger guard.

Manufacturer

- Playtime Products was a manufacturer of air and gas guns based in Honeoye, New York circa 1968 - 1975. It is reported that some production was carried out in Canada. One sample examined was marked "PARTS MADE IN CANADA" on the right side of the receiver/frame. The same pistol was marked "MADE IN CANADA" on the inside of the grip frame (left grip and power cylinder must be removed to see this marking).

Action

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- sample examined had no visible serial number.

51293 - 2	20 GA PERCUSSION	2	711	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- the letters "AMR" inside a diamond shape are marked on the left side of the barrel.
- "AMR" is the abbreviation for "A. Marcos Relea".
- the "AMR" trademark is used by "Avancargas Anchu".

Model

- model designation is marked on the barrel.
- features include double triggers, double hammers and a plain receiver/frame with a checkered straight stock.

Manufacturer

- the letters "AMR" inside a diamond shape are marked on the left side of the barrel.
- "AMR" is the abbreviation for "A. Marcos Relea".
- the "AMR" trademark is used by "Avancargas Anchu".
- "AMR" is an acronym for the Spanish manufacturer A. Marcos Relea which is now listed as "Avancargas Anchu, S.L.".

Action

- side by side pattern.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number was observed marked on the rear of the left barrel.
- observed serial number consited of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Notes

Make

- the letters "AMR" inside a diamond shape are marked on the left side of the barrel.
- "AMR" is the abbreviation for "A. Marcos Relea".
- the "AMR" trademark is used by "Avancargas Anchu".

Model

- "C-28" in brackets is marked on the side of the barrel.
- features include: bead front sight, steel ramrod, may have brass patch box on right side of the stock and blued finish.
- black powder shotgun available with flint or percussion lock.

Manufacturer

- the letters "AMR" inside a diamond shape are marked on the left side of the barrel.
- "AMR" is the abbreviation for "A. Marcos Relea".
- the "AMR" trademark is used by "Avancargas Anchu".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- blackpowder muzzle loader.

Serial Number

- observed serial numbers consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Firearm Reference Number (FRN): 143784
Make: Amsterdam
Model: Wheel-Lock

Summary

Make:	Amsterdam
Model:	Wheel-Lock
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	NETHERLANDS
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
143784 - 1	17.7MM	1	960	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Amsterdam proof mark is marked on the top of the barrel.
- Amsterdam proof mark consists of a crowned shield containing three vertical "X" letters.
- references to the actual makers of these wheel-locks are currently unknown.

Model

- Wheel-Lock firearms were originally manufactured in Europe during the 16th and 17th century.
- model designation is not marked on the firearm.
- information regarding the early production of wheel-lock firearms in the Netherlands is limited.
- six are known and all are dated 1596 on the stock.
- the system uses iron pyrites pressed against a revolving toothed wheel to provide the sparks for igniting the powder in the priming pan, which in turn ignites the main powder charge in the barrel. The toothed wheel is made to rotate, when the trigger was pulled, by a spring that was wound by a key in a similar fashion to a mechanical clock.
- features include: bead front and parallel bars as a back sight; round to octagonal, smoothbore barrel; barrel is flared at the muzzle; large wheel-lock action includes a safety catch; ball-type trigger with elongated trigger guard; one piece walnut stock with engraved bone inlays and pronounced comb.
- overall length is 1300 mm (51 1/8").

Action

- muzzle loading.

Other Markings

- the lockplate is marked "D I" around three stars over a crescent.
- a small mark, shaped like a pistol, and the letters "R R" over a shield, are marked on the barrel.

Firearm Reference Number (FRN): 149479
Make: Ancion Marx
Model: 1891 Dutch East Indies Copy

Summary

Make:	Ancion Marx
Model:	1891 Dutch East Indies Copy
Manufacturer:	Ancion Marx, Leopold (LAM)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
149479 - 1	9.4MM DUTCH REV	6	113	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the manufacturer or logo thereof is marked on the firearm.
- Leopold Ancion Marx's logo consists of "LAM" within a triangle.

Model

- the model designation does not appear on the firearm.
NOTE: the year of issue of the firearm is usually located on the left side of the receiver/frame, just in front of and above the trigger.
- the firearm was designed in 1891 and was known as the M91 in police and military service.
- Leopold Ancion Marx sold copies of the M91 revolver beginning in 1896, after it was officially adopted by the Netherlands for issue in the Dutch East Indies.
- features and calibre determine this model.
- features include: octagonal barrel; solid five screw receiver/frame with under barrel spring loaded extractor rod; double action with rebounding hammer; hinged loading gate on right side of receiver/frame; two piece checkered wooden grips with metal butt cap and lanyard ring; beaded blade front sight and notch in the top strap for the rear sight.
- there are four distinct variations of the M91 Dutch East Indies revolver:
1) the original contract of 3754 revolvers, manufactured from 1894-5 by either WDW (using J.F.J.Bar-supplied parts) or JFJ Bar. Bar had originally agreed to supply complete revolvers, but as time progressed, Bar fell further behind schedule, and more and more of the contract had to be completed by WDW. These revolvers were serial numbered from 1 through 3754, and will bear Dutch inspector's/acceptance marks (usually consisting of a crowned "B" on all major parts). They will also usually (not always) bear issue dates on the left forward side of the frame (1895), along with unit issue marks on the left side of the frame above the grip;
2) the second contract of 2200 revolvers, manufactured entirely by L. Wittich, for a contract issued in 1909; these revolvers continued the serial number range from the first series, from 3755 through 5954, and will also bear Dutch inspection/acceptance marks;
3) in 1920, a third contract for M91 revolvers was issued, this time to Vickers-Armstrong of England, for 5830 revolvers for issue to the Dutch East Indies Police. These revolvers turned out to be of substandard quality, and had to be sent to Fabrique National of Belgium, to be completely reworked. These revolvers had serial numbers ranging between 1 and 9000 in several blocks, but all bear English proof marks; and
4) private copies of the M91 revolver were also made by Bar, Beaumont, and Munts in Holland, and by Nagant, and Ancion Marx in Belgium; for private sale to Dutch officers and for civilians heading to the Dutch East Indies.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.
- Leopold Ancion Marx's logo consists of "LAM" within a triangle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- double-action.

Notes

Make

- "J.A.&C." under a crown symbol was observed marked on the left side of the receiver/frame.
- "JA&C or J.A.&C." are the trademark initials used by "Jules Ancion & Company" of Liege, Belgium from 1866 to 1873 and by "Jules Ancion & Fils" of Liege, Belgium from 1873 to 1900.

Model

- model is not marked on the firearm.
- features include: round barrel with half-moon sight; solid top receiver/frame; fixed cylinder with oval flutes; right side fold-down loading gate; under-barrel mounted cylinder retention pin and ejector rod; exposed spur hammer; folding trigger; no trigger guard; checkered grip plates; blued finish; observed cylinder and receiver/frame engraved with simple scroll-design with gold inlay.

Manufacturer

- "J.A.&C." under a crown symbol was observed marked on the left side of the receiver/frame.
- "JA&C or J.A.&C." are the trademark initials used by Jules Ancion & Company of Liege, Belgium from circa 1866 to circa 1873 and by Jules Ancion & Fils of Liege, Belgium from circa 1873 to circa 1900.
- Jules Ancion & Company manufactured rifles and pistols from circa 1866 to circa 1873.
- Jules Ancion & Company (JA&C) name was changed to J. Ancion & Fils circa 1873.
- J. Ancion & Fils ceased operations circa 1900.
- Prior to 1866 Jules Ancion founded Ancion & Co (1849-1866) wich eventually became Jules Ancion & Company.
- He was a member of La Societe Des Anglais from 1854-1863 along with RENKIN Frères, FRANCOTTE Auguste and PIRLOT Frères, who delivered 150,000 ENFIELD model 1853 rifles to the English government.

Serial Number

- serial number may be marked on the receiver/frame.
- 010 marked on the receiver/frame in front of the cylinder observed on more than one example. Marking is likely not a serial number.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre not marked on firearm.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- Belgian proof of an oval containing ELG over a star was observed on the cylinder face.

FRT Report

Firearm Reference Number (FRN): 137139
Make: Ancion, Jules & Company
Model: Warnant System

Summary

Make:	Ancion, Jules & Company
Model:	Warnant System
Manufacturer:	Ancion, Jules & Company (JA&C)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	BELGIUM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
137139 - 1	22 LR	1	610	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "JA&C" under a crown was observed marked on the left side of the barrel.
- "JA&C or J.A.&C." are the trademark initials used by "Jules Ancion & Company" of Liege, Belgium from circa 1866 to circa 1873 and by "Jules Ancion & Fils" of Liege, Belgium from circa 1866 to circa 1900.

Model

- model designation does not appear on the firearm.
- Warnant System is a description of the action.
- Warnant System was the last and final improvement of the Flobert rifle, later called "The Warnant Springfield"; the breech block was attached to the breech end of the barrel, so it could be swung up to open the action for loading and unloading the rifle.
- since this system was much stronger than all other Flobert actions previously made, it was available in stronger calibers and heavier barrels.
- features may include: one piece walnut stock with prominent flats on each side of the receiver/frame with a checkered straight or semi pistol grip, octagonal or round barrel, fixed rear and front sights and available in regular or heavy pattern.

Manufacturer

- "JA&C" under a crown symbol was observed marked on the left side of the barrel.
- "JA&C or J.A.&C." are the trademark initials used by "Jules Ancion & Company" of Liege, Belgium from circa 1866 to circa 1873 and by "Jules Ancion & Fils" of Liege, Belgium from circa 1866 to circa 1900.
- Jules Ancion & Company manufactured rifles and pistols from circa 1866 to circa 1873.
- "Jules Ancion & Company (JA&C) name was changed to J. Ancion & Fils circa 1873.
- "Jules Ancion & Fils" ceased operations circa 1900.

Action

- front hinged breech block.

Calibre

- calibre may be marked on the barrel.

Notes

Make

- "ANDERSON & BUCHANAN" is marked on the lockplate.
- "ARMAGH" is marked on the top of the barrel.
- "ARMAGH" is the town of County Armagh in Northern Ireland.

Model

- model designation is derived from the characteristics of the firearm.
- this is a single shot, muzzle loading, percussion pistol with a swivel ramrod.
- features include: octagonal barrel; swivel type ram rod mounted under the barrel; round trigger guard; right side, oblong shaped, engraved side lock with external spur hammer; curved, round with rounded grip.

Action

- muzzle loader.

Notes

Make

- "ANDREWS" is marked on the top of the receiver ring in a semi-circular fashion.
- "ANDREWS" name encompasses a number of British companies that could be attributed to this firearm; they are,
- 1) Andrew's Fire-Arms & Accessories Co.; 131 Kennington Pk Rd, SE II, London, 1919-37; 304 Kennington Rd, London, 1938-1940; this company was possibly a successor to C.W. Andrews Ltd.
- 2) C.W. Andrews Ltd.; 5 & 6 Gret Winchester St., London, 1894-1914; 2 Bradford Avenue, London, 1915-1917.
- 3) Charles Edward Andrews, 93 Halton Road, Islington, 1898; 15 Swallow St., Piccadilly, London, 1899-1904.
- 4) Charles William Andrews; 6 Great Winchester St., London, 1882-1891; 5 & 6 Great Winchester St., London, 1892; 15 Swallow St., Picadilly, London, 1899-1904.
- 5) Henry Andrews; 2 Green's End, Woolwich, London, 1906-1908; 1 & 3 Thomas St., Woolwich, London, 1909-1918.

Model

- no model name is marked on this firearm.
- this firearm is a sporterized military issue Lee-Enfield carbine or rifle.
- observed example was a reworked Lee-Enfield Calvary Carbine based on the action and Knox Form configurations.
- features; turn bolt operated, Lee-Enfield action with detachable box magazine; shortened barrel; sporterized hardwood stock and forend with checkering; blued finish.
- observed example had the original model and manufacturer markings on the buttsocket removed; barrel proofmarks were retained.

Action

- turn-bolt design.

Serial Number

- observed example retained the original factory applied serial number on the right side of the receiver ring consisting of a four digit number without prefix or suffix.

Shots

- detachable box magazine.

Notes

Make

- "ANDREWS FERREY & CO" is marked on the firearm.

Model

- manufactured between 1834 and 1837.
- model designation is not marked on the firearm.
- this is a standard-pattern underhammer percussion "saw-handle"-style pistol, made along the same pattern as Adin Ruggles' early guns using Ruggles' 1828 patent for an underhammer lock.
- features include: blued/browned finish; part-round/part-octagon barrel; fixed open sights; underhammer percussion lock; varying styles of triggers; and a "saw-handle"-profile of the grip, generally coming down to a rounded point at the butt.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "ANDREWS FERREY & CO" is marked on the firearm. - "Andrews, Ferrey & Company" was the partnership of Robert W. Andrews and James Ferrey. - "Andrews, Ferrey & Company" was located in Stafford, Connecticut, U.S.A. from 1834 to 1837. - "Andrews, Ferrey & Company" was one of the successors to Adin Ruggles.
Action	- muzzle-loading.
Serial Number	- these pistols may bear numbers, but these are believed to be "assembly" or "lot" numbers, indicating deliveries to specific retailers.
Barrel	- barrel lengths may vary.
Calibre	- calibres may vary.

- model designation is not marked on the firearm.
- this is an underhammer percussion "buggy rifle"-style carbine, made as a conveniently transportable target rifle
- features include: blued/browned finish; part-round/part-octagon barrel; adjustable open sights; underhammer percussion lock; an exposed trigger without a trigger-guard; and a straight grip buttstock, often with patchbox and crescent buttplate.. These rifles are known for their higher level of workmanship, and many have pearl or metal inlays on the butt.

Manufacturer

- "Andrus & Osborn" was the partnership of Alanson Andrus and Sherman Osborn.
- "Andrus & Osborn" was located in Southbridge, Massachusetts, U.S.A. from 1850 to 1860.
- "Andrus & Osborn" was located in Canton, Connecticut, U.S.A. from 1863 to 1867.
- "Andrus &Osborn" specialized in underhammer pistols, rifles, and "buggy guns".

Action

- muzzle-loading.

118756 - 1	308 WIN	1	762	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- known example marked "ANGEL" on the left side of the receiver/frame.
- "ANGEL" is taken from "Bill Angel", the designer of this rifle.

Model

- known example marked "M80" on the left side of the receiver/frame.
- this is a single-shot target rifle manufactured by Bill Angel, Geoff Ayling, and Andrew Powell, during the 1980s, who formed "G.B. Rifles Pty" of Gosford, New South Wales, Australia.
- several hundred of these rifles were made, including actions only, but they may be configured to an end user's specifications. Perhaps a dozen of these rifles were manufactured in left-hand configuration.
- features usually include: blued finish; heavy round barrel; cylindrical single-shot action with off-side loading/ejection port; long bolt handle with round bolt knob; open peep or base-mounted optical sights; and a synthetic or laminated pistol-grip stock.

Manufacturer

- the manufacturer is not marked on the firearm.

Action

- turn bolt operated.

Serial Number

- known examples had serial numbers marked on the left side of the receiver/frame.
- double letter "AA" prefix followed by three numbers have been observed.

Barrel

- barrel lengths to customer specifications.

Notes

Make

- "N. ANGELL" is usually marked on the firearm.

Model

- model designation is not marked on the firearm.
- this is a heavy octagonal-barrel, percussion target rifle manufactured by Nehemiah Angell prior to 1897.
- this rifle may be seen in "take-down" configuration, where the various parts are stored in a small case, then screwed together for use.
- features include: browned or blued finish; open adjustable sights; heavy octagonal barrel; no forearm in many examples; under-barrel ramrod thimbles; straight-grip walnut stock with an octagonal profile at the wrist (acting as a transition between the octagonal barrel and the flat-sided stock); external manually-cocked hammer; finial trigger guard/grip; crescent butt plate.

Manufacturer

- "N. ANGELL" is usually marked on the firearm.
- Nehemiah Angell was located in Erieville, New York, U.S.A. during the mid-to-late 1800s.
- Nehemiah Angell was known primarily for his target rifles.

Action

- muzzle loading, percussion ignition.

Notes

Make

- "ANSTAT", "ANSTAT", "ANGSTED" or "ANSTEAD" may be marked on the firearm

Model

- manufactured in 1807 and 1808.
- model designation is not marked on the firearm.
- this is a muzzle-loading flintlock single-shot pistol produced by the Angstadt brothers. These pistols can be distinguished by their barrel length of 219mm (8 5.8"), half-round/half-octagonal barrel, and their curly maple stock.
- features include: browned barrel; bird's-head stock; under-barrel ramrod; cock, frizzen, and flash-pan mounted on right side; brass fittings.
- examples of this firearm may also be seen converted to percussion ignition.

Manufacturer

- "ANSTAT", "ANSTAT", "ANGSTED" or "ANSTEAD" was a contraction of the manufacturers' proper name.
- Adam and Jacob Angstadt were located in Kutztown, Berks County, Pennsylvania, U.S.A. from 1800 to 1817.

Action

- muzzle-loading.

Notes

Model

- this is a small CO2-powered double-action-only air pistol.
- available in an all-black finish with black plastic grip panels, or in a "nickel" finish with plastic "wood-grain" grip panels as the A-101 "Silver".
- these air pistols feed BBs from a detachable magazine in the grip.
- also available with a longer barrel as the "A-101 Magnum" which has a compensator-like barrel extension.

Manufacturer

- Anics Group was established in 1990.
- Anics Group is based in Moscow, Russia.
- Anics Group was originally a Russian importer of airguns and firearms.
- Anics Group began manufacturing their own line of air pistols and revolvers in 1996.
- Anics Group products have been imported into North America by "Air Rifle Specialists" of Pine City, New York, "Compasseco" of Bardstown, Kentucky, and "European American Armory Corp (EAA)" of Rockledge, Florida.

Action

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Shots

- detachable magazine for BB's.

FRT Report

Firearm Reference Number (FRN): 94296
Make: Anics
Model: SKIF A-3000

Summary

Make:	Anics
Model:	SKIF A-3000
Manufacturer:	Anics Group
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Air,Spring or Gas
Country of Manufacturer:	RUSSIA
Serial Numbering:	
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
94296 - 2	177 PELLET	28	127	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- "A-3000" and "SKIF" is marked on the left side of the slide.
- features include: single or double action; blade front sight; adjustable rear sight; grooved trigger guard; fiberglass reinforced polyamide receiver/frame accessory rail on dust cover for mounting accessories; black or stainless steel slide; rifled steel barrel; ambidextrous magazine release, magazine cover, and a receiver/frame mounted safety.
- overall length with a 127mm (5") barrel is 184mm (7.25"); average weight is 0.65kg (1.44lb).

Manufacturer

- "Made in RUSSIA, MOSCOW" is marked on the right side of the receiver/frame.
- Anics Group was established in 1990.
- Anics Group is based in Moscow, Russia.
- Anics Group was originally a Russian importer of airguns and firearms.
- Anics Group began manufacturing their own line of air pistols and revolvers in 1996.
- Anics Group products have been imported into North America by "Air Rifle Specialists" of Pine City, New York, "Compasseco" of Bardstown, Kentucky, and "European American Armory Corp (EAA)" of Rockledge, Florida.

Action

- CO2 powered handgun.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Calibre

- calibre designation is marked on the left side of the slide.

Shots

- detachable box magazine.

Notes

Make

- "ANIT & CHAR" or "FABRICA D ANITUA Y CHAROLA EIBAR, ESPANA" is usually marked on the firearm.
- Anitua y Charola produced revolvers from 1881 until 1888, when the company was re-organized as "Charola y Anitua", to put a small C-96-style semi-automatic pistol into production.

Model

- the model may be marked on the firearm as "SISTEMA MERWIN".
- this is one of a number of copies of the Merwin & Hulbert double action revolver, with a barrel that slides forward on the cylinder axis-pin to extract cases or cartridges from the cylinder; these revolvers are loaded via a loading gate on the right side of the receiver/frame that slides vertically to expose the rear of the cylinder.
- features include: typical Merwin & Hulbert appearance and operation, with a barrel and cylinder that pulls forward along the cylinder-pin when the barrel latch is pressed, and the barrel is twisted to disengage it from the receiver/frame; blued or nickeled finish; fixed open sights; fluted cylinder; SA/DA trigger mechanism; exposed hammer; and a bird's-head or square-butt grip frame with wooden, synthetic, horn, or pearl grips.

Manufacturer

- "ANIT & CHAR" or "FABRICA D ANITUA Y CHAROLA EIBAR, ESPANA" is usually marked on the firearm.
- Anitua y Charola produced revolvers from 1881 until 1888, when the company was re-organized as "Charola y Anitua", to put a small C-96-style semi-automatic pistol into production.

Action

- double-action revolver.

Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122859 - 1	6MM FLOBERT RF	1	553	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- the model designation may be marked on the top of the barrel.
- this is a smooth bore version of the model 1361 and features a Flobert-type action where the bolt handle serves as the sole locking mechanism when it is in the closed position.
- features include: a sliding safety located on the right side of the receiver/frame; half moon extractor; tapered, blued barrel; open rear sight, post and bead or a ring-type front sight; uncheckered one-piece walnut stock with a pistol grip and a semi-beavertail forend; corrugated butt plate.

Manufacturer

- the Anschutz name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- the serial number is usually marked on the left side of the receiver/frame.
- the serial number rationalization is not known.

Calibre

- the calibre designation is normally marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

- model designation may be marked on the firearm.
- discontinued in 1973.
- this is a single shot, bolt operated shotgun with a Flobert type action where the action is locked by rotating the bolt handle down into it's seat in the receiver/frame.
- features include: one piece walnut finish stock; hooded front sight and spring leaf rear sight; grooved for scope mounting; cocking indicator.
- available as the 1386FA and 1386FB that were sold with a 4X15 power optical sight and differed only in graticule configuration.
- overall length: 990mm and weight: 2,3 kg (5lbs)

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the receiver/frame.
- example reported with six digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- marked "Anschutz - Modell 1402A" on the top of the barrel.
- this is a single shot, bolt operated rifle with a Flobert type action where the action is locked by rotating the bolt handle down into it's seat in the receiver/frame.
- features include: fully adjustable, removable aperture rear sight, hooded front sight; one piece Monte Carlo-style hardwood stock with full pistol grip; blued finish.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- known example had a six digit number without prefix or suffix marked on the left side of the receiver ring.

Calibre

- known example had calibre designation marked on top of barrel, eg., "Cal .22 Long rifle".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
3593 - 1	22 LR	1	699	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- "1411" is marked on top of barrel in front of the rear sight.
- manufactured from 1963 to 1981.
- features include: "Match 54" action; walnut stock with unique thumb rest pistol grip; adjustable palm stop; no sights; adjustable trigger and recoil pad; provision for telescopic scope mounting.
- also available in a left hand version as the model 1411 L.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the left front side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
45612 - 1	22 LR	5	356	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- this is a variation of the Anschutz Exemplar single-shot, bolt-action pistol, made specifically for 22 LR silhouette competition.
- features include: fully adjustable trigger; bolt handle on the left (for a right handed shooter); hooded rear micrometer and globe insert front sights, and specially made vertical pistol grip stock with thumbrest and a wide, thin forearm to allow shooters to rest the pistol on the thigh when shooting.
- the single shot version of this model is known as the "1416 MSP E Unlimited".

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the receiver/frame.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

FRT Report

Firearm Reference Number (FRN): 101935
Make: Anschutz
Model: 1430/1434

Summary

Make:	Anschutz
Model:	1430/1434
Manufacturer:	Anschutz
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
101935 - 1	22 HORNET	4	572	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
101935 - 2	22 HORNET	5	610	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- model designation is marked on the top of the barrel.
- features include: Match 54 action; checkered walnut stock in straight or pistol grip configuration and a schnabel forend; sling swivel studs; grooved for scope mounting; hooded ramp front sight.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Calibre

- calibre designation is marked on the top of the barrel.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Model

- MODELL 1450 or variation thereof is marked on the top of the barrel.
- introduced circa 1984 in a sporting configuration with a flobert action and with a checkered, semi-pistol grip stock, lever safety mounted on either the left or right side of the receiver/frame and a hooded front sight. Also available in a single shot version as the model 1388.This model evolved and in 1990 was reintroduced as a Junior Target Biathlon rifle incorporating a three slot, beavertail forend, rail for a sling swivel, diopter rear sight and adjustable butt plate.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serialization unknown.
- example observed consisted of seven digits.

Calibre

- marked on the top of the barrel.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre-World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi-purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Remarks	- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote: B = Biathlon D = single stage trigger E = single shot FWT = featherweight G = threaded muzzle HB = heavy barrel HP = high power L = left hand version R = repeater St = double set trigger KL = folding leaf sight KV = heavy tangent sight M = magnum calibre MP = multi purpose MS = metallic silhouette MSP = metallic silhouette pistol MSR = metallic silhouette repeater Z = zimmerstutzen (indoor/gallery use)

Model

- "Anschutz - Modell 1532 Calibre .222 Rem Factory Cartridges Only" is marked on the top of the barrel.
- manufactured between 1973 and 1988.
- features include: round straight heavy barrel; receiver/frame is grooved and tapped and drilled for scope mount; single or double-triggers; Match 54 action; blued finish; barrel mounted flip up rear sight and hooded foresight; wing safety mounted on rear of bolt; walnut stock in either target or field configurations with Monte Carlo cheekpiece or straight comb and pistol grip stocks being encountered.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- serial number is usually marked on the left side of the receiver ring.
- six and seven digit numbers without prefix or suffix have been observed.

Calibre

- calibre designation is marked on the barrel.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- offered from the late 1950's to the early 1960's.
- uses a Sako-built receiver/frame.
- features include: round straight heavy barrel; receiver/frame is grooved and tapped and drilled for scope mount; single or double-triggers; blued finish; barrel mounted flip up rear sight and hooded foresight; wing safety mounted on rear of bolt; walnut stock in either target or field configurations with Monte Carlo cheekpiece or straight comb and pistol grip stocks being encountered.

Manufacturer

- "Sako-Anschutz" is marked on the left side of the receiver/frame.
- Anschutz made 1000 to 2000 rifles utilizing the Sako made actions in .222 REM in the late 1950's and early 1960's.

Action

- turn bolt operated.

Serial Number

- serial number is usually marked on the left side of the receiver ring.

Calibre

- calibre designation is marked on the barrel.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - known example marked "Sako-Anschutz" on the left side of the receiver/frame.

Notes

Make	- "Anschutz" and/or the "JGA" logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
Model	- model designation is marked on the barrel. - available from 1970 to 1973. - built on a 600 series Krico short action based on a modified Mauser design. - features include: checkered hardwood stock; single or double set triggers.
Manufacturer	- manufacturer's designation may not be marked on the firearm.
Action	- turn-bolt operated.
Serial Number	- serialization unknown, but six and nine numbers observed. - serial number usually located on the receiver/frame.
Calibre	- also available in other calibre's that include: 222 REM, 22-250 REM, 223 REM, and 243 WIN.
Shots	- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- manufacture began in 1989 as an improved version of the models 1422, 1432 and 1532.
- this is a generic record for the 1700 series of models that may not be marked with any model designation. Other specific 1700 models may better identify the firearm being observed.
- features include: Match 54 action; heavy barrel; walnut, fibreglass, fibre grain, synthetic wood or black graphite stock; swivel studs; safety lever on rear of bolt.
- available in a "Bavarian" version that features a hogs back-type stock with a schnabel forend and hooded front and folding rear sight; a "Classic" version with a traditional American stock and no open sights; a "Custom" version with a Monte Carlo stock, a roll-over cheek piece and a Wundhammer swell pistol grip with a rosewood cap; and a "Mannlicher" version that features a full length stock.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the left front side of the receiver/frame.
- serial number rationalization is unknown.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. 119489 - 1	17 HMR	4	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- this is a match grade rimfire sporter/target rifle based on the Anschutz Match 54 action, and chambered for the new (2002) 17 HMR (Hornady Magnum Rimfire) cartridge.
- available in a number of variations, and with several options.
- features include: blued finish; walnut pistol-grip stock; open adjustable sights or no sights; receiver/frame is drilled and tapped for a scope mount; tapered or heavy profile barrel; detachable box magazine.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- numbered on the receiver/frame.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

FRT Report

Firearm Reference Number (FRN): 120164
Make: Anschutz
Model: 1742

Summary

Make:	Anschutz
Model:	1742
Manufacturer:	Anschutz
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
120164 - 1	222 REM	1	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logo was used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- the model is marked on the firearm; various sub-models may have letters or numbers appended to the "1742" model designation.
- this is a small-bore single-shot hunting/target/varmint rifle, based on the Anschutz Match 54 action.
- features include: blued receiver/frame with rotating wing safety at rear of striker; blued or stainless-steel bull barrel; walnut pistol-grip stock with Bavarian cheekpiece/comb; drilled and tapped for scope mounts; single or double set triggers; ventilated rubber recoil pad; and no open sights supplied.
- a 3-shot bolt-action repeater version of this rifle is also available.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- bolt-operated single-shot.

Serial Number

- numbered on receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

127412 - 1	17 HMR	4	305	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- introduced in 2003.
- "17 LP" or "17 P" is marked on the firearm.
- features include: left hand bolt-action target/hunting pistol based on the Match 64 action, black synthetic stock, grooved/drilled and tapped for scope mounts, but will also accept Anschutz open sights, polished and blued finish barrel, two stage trigger, and sliding safety.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- turn bolt operated.

Serial Number

- serial number is marked on the receiver/frame.
- an observed sample consisted of seven numbers without an alpha prefix or suffix.

Shots

- detachable box magazine.

- also available in a repeating version.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the barrel just forward of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel as "Cal. .22 long rifle"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

41222 - 1	22 LR	5	546	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- introduced circa 1982 as a replacement for the Model 1427B.
- the model is located on the barrel.
- this is a biathlon rifle utilizing the Match 54 action and features a turn-bolt design later evolving to the Fortner straight pull bolt design circa 1991 as the Model 1827 BT Fortner.
- features include: Monte Carlo stock with adjustable cheek piece, thumb-hole pistol grip, adjustable wooden butt plate and hook and adjustable hand stock rail grip; nine way adjustable trigger.
- available with an optional left or right hand stock, diopter-type sights and barrel weight system.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- on left front side of receiver/frame.

Calibre

- marked forward of rear sight.

Shots

- detachable box magazine with provision to store four or eight additional magazines mounted on the stock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- "1927" or "1927F" is marked on the firearm.
- this is a Fortner-style straight-pull bolt-action rifle designed for rapid-fire target competition, using a biathlon-style repeating action in a fully-adjustable stock.
- features include: blued finish; micrometer-adjustable peep sights; stippled walnut vertical pistol-grip stock with adjustable cheekpiece and buttplate; adjustable trigger; straight-pull bolt action; and palm rest built into the bottom of the detachable box magazine.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Action

- straight-pull bolt design.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- 11,000 rifles of this model were produced from 1959 to 1967.
- this is a match grade, side cocking air rifle.
- features include: walnut, Monte Carlo stock with a vertical, checkered pistol grip; adjustable buttplate; adjustable trigger; globe front sight and micrometer adjustable rear sight.
- available in a left hand version as the 220 L.
- overall length of 1105mm (43 1/2").

Manufacturer

- the Anschutz name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- side-cocking, spring piston air rifle.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- the serial number is usually marked on the left side of the receiver/frame.
- the serial number rationalization is not known.

Calibre

- the calibre designation is normally marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- manufactured from the early 1950s to the late 1970s.
- "ANSCHUTZ ERZEUGNIS MODELL 275" may be marked on the firearm.
- this is a low-power spring-piston air rifle made for target practice at fairs, shooting galleries, etc.;
- uses a large bolt handle to cock the mainspring (must be turned up through 90 degrees, then pulled back to catch the piston on the sear), and feeds from a zinc "magazine", inserted into the rifle.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- spring-powered air rifle.
- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Shots

- detachable box magazine.

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- model designation may be marked on the receiver/frame.
- available between 1963 and 1981.
- features include: Match 54 action; walnut, Monte Carlo stock with roll-over cheek piece, schnabel forend and skip-line checkered pistol grip; single stage trigger, available with double set trigger; hooded, ramp front and folding leaf rear sight.
- also available in a 22 MAG version.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- serial number is usually marked on the left side of the receiver/frame.
Barrel	- Tapered, round
Shots	- detachable box magazine.
Remarks	- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote: B = Biathlon D = single stage trigger E = single shot FWT = featherweight G = threaded muzzle HB = heavy barrel HP = high power L = left hand version R = repeater St = double set trigger KL = folding leaf sight KV = heavy tangent sight M = magnum calibre MP = multi purpose MS = metallic silhouette MSP = metallic silhouette pistol MSR = metallic silhouette repeater Z = zimmerstutzen (indoor/gallery use)

Serial Number

- serial number is usually marked on the left side of the receiver/frame near the breech.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

91018 - 2	22 LR	10	650	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- model designation is marked on the barrel.
- "MP" in the model designation represents "Multi Purpose".
- features include: Match 64 action; cam cocking system; claw extractor; additional cartridge holder; anatomically designed hardwood stock with a semi- pistol grip, beavertail forend; grooved receiver/frame rail; adjustable rubber butt plate; optional sights; sliding safety on right side, and a two stage trigger.
- available in a left hand and stainless steel version.
- overall length with a 650mm (25.5") barrel is 1100mm (43.3").

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- serial number may be marked on the receiver/frame.

Calibre

- calibre designation is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Firearm Reference Number (FRN): 122575
Make: Anschutz
Model: LP-@

Summary

Make:	Anschutz
Model:	LP-@
Manufacturer:	Anschutz
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Air,Spring or Gas
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122575 - 2	177 PELLET	1	160	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
122575 - 1	177 PELLET	1	235	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- "LP-@" is marked on the right side of the receiver/frame.
- introduced circa 2001.
- this is a match-grade single-shot air pistol, using a compressed air cylinder as a power source and is the evolution of the model M10.
- features include: muzzle compensator; stabilizer rod mounted on the front of the trigger guard; adjustable trigger; adjustable rear sight and triangular front sight; fully adjustable anatomic walnut grip.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- the serial number is located on the right side of the receiver/frame.
- observed specimen had seven digits.

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the side of the receiver/frame.
- "SAM" may also be marked on models sold outside of Switzerland and Germany.

Model

- "M-10" is marked on the right side of the receiver/frame.
- "M10" is a match-grade single-shot air pistol, using a compressed air cylinder as a power source.
- "M10" was sold under the Anschutz and the Swiss Arms Manufacturer (SAM) names.
- manufactured from 1997 to 2000.
- "M10" was replaced by the Anschutz model LP@ circa 2001.
- features include: muzzle compensator; stabilizer rod mounted on the front of the trigger guard; adjustable trigger; adjustable rear sight and triangular front sight; fully adjustable anatomic walnut grip.

Manufacturer

- "SAM" monogram appears on the rear sight.
- "SAM" and "Made In Switzerland" are marked on the left side of the receiver/frame.
- "SAM" is the acronym for "Swiss Arms Manufacturer".
- Swiss Arms Manufacturer (ASM) is located in Davesco, Switzerland.

Action

- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- the serial number is located on the right side of the receiver/frame.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
3407 - 1	22 LR	1	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- manufactured from 1963 to 1981.
- the make/manufacturer's name, model, and calibre designation may be marked on the barrel, forward of the rear sight and/or on the left side of receiver/frame.
- features include: Match 64 action; walnut stock with thumb groove and full pistol grip; adjustable palm stop; rear micrometer sight and globe front sight supplied with seven aperture and post inserts.

Manufacturer

- the "Anschutz" name and/or logo is usually marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the left side of the barrel.

Calibre

- the calibre designation is marked on the barrel, forward of the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Anschutz utilizes letter code suffixes to designate certain features pertaining to their various models. Over the past half-century these letters have been generally consistent and in most cases have not been marked on the firearm. Anschutz also identifies models according to their action type. Pre World War II bolt operated models featured Flobert type "bolt" actions. This action with some design improvements was continued up to the 1980's as their economy line. The Match 54 action, also known as the Model 54 action, was introduced circa 1954 and was the cornerstone of Anschutz's success in the 22 LR, bolt action models. The Match 64 action, also known as the Model 64 action, followed in 1964 as a simplified version of the Match 54 and was designed to replace the Flobert type models. The straight-pull Fortner action is featured on models primarily for Olympic competition. There are also several models that employ Sako, Savage, Krico and other actions. The following letter code suffixes denote:
B = Biathlon
D = single stage trigger
E = single shot
FWT = featherweight
G = threaded muzzle
HB = heavy barrel
HP = high power
L = left hand version
R = repeater
St = double set trigger
KL = folding leaf sight
KV = heavy tangent sight
M = magnum calibre
MP = multi purpose
MS = metallic silhouette
MSP = metallic silhouette pistol
MSR = metallic silhouette repeater
Z = zimmerstutzen (indoor/gallery use)

Notes

Make

- "ANSHUTZ" name/logo and/or "J.G. Anschutz" and/or "JGA" name/logo and/or "J.G.A. ZELLA-MEHLIS GERMANY" is marked on the barrel and/or on the receiver/frame.
- "Germania" and "JGA" logos were used by "J.G. Anschutz" of Zella-Mehlis, Germany, pre 1945.
- "JGA" is the abbreviation for "Julius Gottfried Anschutz".

Model

- this is a generic model. Other Anschutz model entries exist which may better describe the firearm being identified. Please refer to the AKA and Cross Reference fields of this record.
- model designations commonly marked on the top side of barrels, however models may not be marked in all cases;
- features of this firearm may include:
- highly adjustable stocks of different material construction designed for match shooting;
- simple non-adjustable wood stocks;
- barrel or receiver mounted rear sights of leaf or micrometer configuration;
- fixed or removeable foresight assemblies;
- single or double / adjustable or fixed pull-weight triggers;
- grooved/tapped or smooth receiver profiles;
- barrel accessories including sight base extensions and weights,
- single or twin extractors on the bolt face;
- may be fitted with a manual safety;
- may have a cocked-action indicator.

Manufacturer

- "Anschutz" name/logo and/or "J.G. Anschutz" is marked on the barrel and/or on the receiver/frame.

Action

- turn-bolt action.
- bolt may lock in receiver recess or use lugs mounted on the rear portion of the bolt body.

Serial Number

- normally stamped on left side of receiver/frame.
- current production and observed samples have had six digits with no letter suffix or prefix.
- it is not known if serial numbering is sequential over all production or only within model lines.

Other Markings

- "J G Anschutz Gmbh. Waffenfabrik Ulm/D. Germany" is marked on top barrel.
- "ANSCHUTZ" in a border is marked on top of receiver/frame.

FRT Report

Firearm Reference Number (FRN): 145852
Make: Anschutz, Bruno
Model: Original System Aydt

Summary

Make:	Anschutz, Bruno
Model:	Original System Aydt
Manufacturer:	Anschutz, Bruno
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145852 - 1	8.15X46R	1	737	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm with Bruno Anschutz's logo of an "A" over a "B", within a circle.

Model

- "Original Syst. Aydt" or "Original System Aydt" is marked on the firearm.
- "Original System Aydt" shows that these rifles were licenced copies of the Aydt rifle manufactured between 1888 and 1904, from raw parts that were supplied by Haenel, the licencee of the Aydt patent.
- this is a single shot target rifle manufactured from parts supplied to any one of a number of sub-licencees by C.G. Haenel under a patent issued to Carl Wilhelm Aydt in 1884; Haenel had agreed to purchase the production rights to Aydt's design after it grew very popular among German target shooters, and had the sole rights to produce this action up until 1904. After Aydt's German patent expired in 1904, many other German manufacturers also produced single-shot rifles and pistols using the Aydt action; firearms manufactured by other manufacturers after Aydt's patent expired are customarily marked "Syst. Aydt" on the breechblock.
- this rifle is a single-shot with a hammer concealed inside the breechblock, and has an extractor on the left side of the chamber.
- features include: a wide range of possible finishes and engraving styles, but usually blued with engraved receiver/frame walls; octagonal barrel (sometimes fluted); a two-piece walnut forearm and butt (with varying degrees of carving, checkering, and inlay); micrometer-adjustable peep sights (but may also be seen with adjustable open backup sights); a flat-sided receiver/frame with hexagonal top and two curved, overlapping oval-headed pins on the left side (these form the hinge pins for the extractor and the breechblock); double set triggers; an ornated filigree grip that swings down to open the action; and a butt with a cheekrest and hooked buttplate.

Manufacturer

- the manufacture is marked on the firearm with Bruno Anschutz's logo of an "A" over a "B", within a circle.

Action

- lever operated, dropping/falling block design.

Serial Number

- numbered on the receiver/frame; these rifles may also bear unrelated serial numbers on the breech block, applied by Haenel, the original licencee of the Aydt system.

Firearm Reference Number (FRN): 133951
Make: Anschutz, Udo
Model: 210

Summary

Make:	Anschutz, Udo
Model:	210
Manufacturer:	Anschutz, Udo
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
133951 - 1	22 LR	1	280	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Udo Anschutz Zella-Mehlis" and "Bohler Stahl" may be marked on the barrel.
- "U.A." over "Z" inside a shield outline may be marked on the side of the receiver/frame.
- "UAZ" is the abbreviation for Udo Anschutz Zella-Mehlis.

Model

- "MOD. 210" was observed marked on the receiver ring.
- manufactured prior to 1940.
- 210 is a custom manufactured target pistol.
- features observed: adjustable target sights; octagonal barrel; Martini type action; adjustable trigger; checkered wood forearm and target type pistol grip.

Manufacturer

- Udo Anschutz was born in 1862.
- Udo Anschutz established a business in Zella-St. Blasii, Germany in 1886.
- Udo Anschuts (UAZ) was in business from 1886 to circa 1945.
- Udo Anschutz moved to Bahnhofstasse 56, Zella-Mehlis, Germany in 1917.
- Udo Anschutz manufactured hunting and target guns and single-shot Free Pistols until circa 1935.
- Udo Anschutz died in 1935 and the business was taken over by his son-in-law, Franz Oskar Merkel.
- Udo Anschutz business took over the manufacture of the Luna and Tell pistol from Buchel in 1935.
- Udo Anschutz business operated as Franz Merkel - Vorm. Udo Anschutz until 1945.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Notes

Make

- "AR" over "FIVE SEVEN" was observed marked on the left side of the upper unit.
- "AR" over "FIVE SEVEN" was observed marked on the left side of the magazine housing of the receiver/frame.
- "AR" over "FIVE SEVEN" was observed marked on the pistol grip
- "AERO PRECISION INC" over "TACOMA, WA" was observed marked on the left side of the receiver/frame, above the trigger.
- "AR57 LLC" was established in 2007.
- "AR Five Seven" is a trade name/trademark used by "57 Center LLC".
- "57 CENTER LLC" was located in Redmond, Washington, U.S.A.
- "57 CENTER LLC" was located in Bellevue, Washington, U.S.A. in 2011.

Model

- introduced in 2010.
- "MODEL AR57A1 PDW" was observed marked on the left side of the receiver/frame.
- "AR57A1 PDW" is of the design commonly known as the AR-15/M-16 rifle.
- "AR57A1 PDW" rifle uses a two piece receiver/frame similar to Colt model AR15 semi-automatic.
- features include: round barrel with flash hider; AR57 flat top upper with integral accessory rails; AR57 box magazine is mounted horizontally over the barrel; AR15 type aluminum lower receiver/frame; synthetic pistol grip; six position collapsible buttstock; black matte finish.
- cartridge cases are ejected downward through the magazine well.
- "AR57A1 PDW" lower receiver/frame will accept and function with any AR15 type upper assembly.
- "AR57" upper assembly is also sold as a unit with a 279mm (11.0") or "407mm (16.04") barrel for installation on any AR15/M16 type lower receiver/frame.
- overall length with a 407mm (16.04") barrel is 838mm (33.0") and average weight is 3.4kg (7.45lbs).

Manufacturer

- "AERO PRECISION INC" or "AERO PRECISION LLC" over "TACOMA, WA" is marked on the side of the receiver/frame.
- "Aero Precision" is located in Tacoma, Washington, U.S.A.
- "Aero Precision" was founded in the early 1990's.

Action

- blowback operated.

Serial Number

- serial number is marked on the left side of the magazine housing of the receiver/frame.

Calibre

- "CAL. 5.7 x 28mm" was observed marked on the left side on the magazine housing of the receiver/frame.
- 5.7x28 FN rifling characteristics: 1 turn in 8.5 inches, right hand twist.

Shots

- detachable box magazine is mounted horizontally over the barrel.
- uses Fabrique National Herstal FN P90/PS90 magazine.

Notes

Make

- "AR15.com" is marked on the left side of the receiver/frame.
- "AR15.com" also uses the acronym "ARFCOM", "AR Fifteen.com".
- "AR15.com" was located in Honeoye Falls, New York U.S.A..
- "AR15.com" is located in Farmington, New York U.S.A..
- "AR15.com" trademark logo is the draw front face of an AR15 bolt shape looking like an eight teeth gear.
- "AR15.com" was established in 1996 as a mailing list and growth into a large web bulletin board and archive for firearms of the Colt AR-15/M16 design.

Model

- "ARFCOM" is marked on the left side of the receiver/frame.
- "ARFCOM" stands for "AR Fifteen.com".
- "ARFCOM" variants are based on the Colt AR-15/M16 design.
- "AR15.com" trademark logo, the draw front face of an AR15 bolt shape looking like an eight teeth gear is engraved on the left side of the receiver/frame.
- "ARFCOM" was sold as a receiver/frame.
- features include: threaded muzzle for flash hider/muzzle brake; standard, heavy or grooved, M4 carbine contoured barrel; AR15/M16 standard, low profile, accessory rail or folding front sight bracket/gas block; operating gas system may be gas piston operated; accessory rail, free floating or synthetic handguard; A3 accessory rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; collapsible, standard or custom rifle buttstock; synthetic pistol grip; matte black or color finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of a three letter prefix (ARF) and six numbers.
Calibre	- "CAL. MULTI" is marked on the left side of the receiver/frame. - calibre identification is usually marked on the barrel.
Shots	- detachable box magazine. - uses all magazines available for AR15/M16 type rifles.

119343 - 1	50 PERCUSSION	1	465	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- may or may not be marked with the Armas Aral name and logo (an "A" within a diamond).
- Armas Aral is a manufacturer based in Eibar, Spain, that specializes in building both modern side-by-side rifles and shotguns, and reproductions of black powder rifles and shotguns.

Model

- this is a modern reproduction of an early "Blunderbuss".
- "Blunderbuss" is a smooth-bored firearm with a large, belled muzzle, to allow fast reloading.
- straight-grip walnut stock with long forearm, color-case-hardened lockplate and hammer, blued barrel, and brass or bronze trigger-guard and flared "bell" at the muzzle.

Manufacturer

- Armas Aral is a manufacturer based in Eibar, Spain, that specializes in building both modern side-by-side rifles and shotguns, and reproductions of black powder rifles and shotguns.

Action

- percussion single-shot.

Serial Number

- may or may not be serial-numbered.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Notes

Make	- "ARAL" or "ARAL ARMS" is marked on the firearm.
Model	- the model is not marked on the firearm; this is a descriptor of the firearm type. - this is a standard-pattern pump-action shotgun manufactured by ARAL Arms in various grades and barrel lengths, for hunting, trap, skeet, tactical and sporting clays use. - features include: blue/black finish; screw-in interchangeable chokes/flash hiders; bead or rifle sights with carry-handle; round barrel (some with heat shields); checkered walnut or synthetic forearm and pistol-grip stock (some versions with a vertical pistol-grip-only, with a vertical pistol-grip with telescoping buttstock, or with an over-folding buttstock; forend return spring; right-side ejection port; cross-bolt safety at the rear of the trigger guard; and a rubber buttpad.
Manufacturer	- "ARAL" or "ARAL ARMS" is marked on the firearm.
Serial Number	- serial-numbered on the receiver/frame.
Shots	- underbarrel tubular magazine. - factory +3 extension available.
Canadian Law Comments	- this firearm is normally Non-Restricted unless affected by the following conditions: 1) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

FRT Report

Firearm Reference Number (FRN): 195302
Make: Aranguren, Pedro
Model: Lupara Pistol

Summary

Make:	Aranguren, Pedro
Model:	Lupara Pistol
Manufacturer:	Aranguren, Pedro
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195302 - 1	16 GA PIN-FIRE	1	193	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Aranguren Y C A PLACENCIA" was observed on the top strap of the barrel.

Model

- model designation is not marked on the firearm, this is a descriptor of the firearm type.
- this is a Lefaucheux-style pinfire, breech-loading pistol in the lupara style of "sawed-off`" shotgun.
- features include: octagonal, tapered barrel with no sights; side hammer; engraved, front hinged receiver/frame with the side-swing break open lever mounted on the underside; ornate rounded trigger guard; nickel finish; walnut pistol grip stock and checkered fore end; lanyard loop on brass butt cap.

Manufacturer

- "Aranguren Y C A PLACENCIA" was observed on the top strap of the barrel.
- Pedro Aranguren was a gunmaker in Eibar, Spain beginning in 1814.
- the Real Fabrica de Placencia was located in Placencia de las Armas, Spain until 1865.
- the royal factory at Placencia issued contracts to a guild of gunmakers and artisans who worked from homes or workshops in Placencia, Eibar and Elgoibar; their completed work would be submitted to the king's royal examiners at Placencia for visual inspection and proof.
- firearms were manufactured under the name Pedro Aranguren until 1912 by his successors in Eibar.

Action

- single barrel, breech loaded.

Serial Number

- no serial number was observed.

Calibre

- calibre was observed on the top of the barrel.

Other Markings

- marking of a crown over "PA" was observed on the barrel. Research indicates the marking under the crown may be the mark of a guild master, master inspector or royal examiner. It was not indicated if "PA" refers to Pedro Aranguren or if he held any of these titles.

Notes

Make

- "S.L. Arano" is marked on the firearm.

Model

- model is not marked on the firearm.
- this is a generic entry for those Arano side by side shotguns that are not identifiable as to model.
- features may include:
- external or internal hammers.
- double, or single trigger.
- top, side, or push button opening lever.
- extractors or ejectors
- finishes, and engraving may vary widely.
- hardwood stock, pistol grip, semi pistol grip, or straight English style.
- observed example featured: break open, double trigger, top opening lever and auto ejectors.

Manufacturer

- "S.L. Arano" is marked on the firearm.

Action

- side by side pattern.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Calibre

- calibre is usually marked on the firearm.
