Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23454 - 2	54 PERCUSSION	1	425	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
23454 - 3	62 PERCUSSION	1	465	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ardesa Spain" or the "Ardesa" company logo is marked on the barrel.

Model

- model designation may not be marked on the firearm.
- this is a modern reproduction of an early "Blunderbuss".
- "Blunderbuss" is a smooth-bored firearm with a large, belled muzzle, to allow fast reloading.
- features include: color case hardened lock plate and hammer; one piece wooden stock (in traditional or "hakenbusche" styles); blued barrel with belled muzzle; and can be seen with a brass fence surrounding the nipple to protect the shooter's eyes.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Action

- muzzle loading, percussion ignition.

Serial Number

- serial number is marked on the receiver/frame/barrel.
- Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix.
- Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.

23452 - 3	45 PERCUSSION	1	250	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ardesa Spain" or the "Ardesa" company logo is marked on the barrel.

Model

- "BUCKHUNTER" may be marked on the right side of the barrel.
- this is a modern reproduction of a "Hawken"-style black powder pistol, available in both flint-lock and percussion variations
- features include: laminated or solid beech grip, with screw-adjustable rear sight; octagonal blued or nickeled barrel; hooked trigger-guard with double set triggers and color-case-hardened lock-plate and hammer/cock.
- DO NOT CONFUSE this "Buckhunter" pistol with the "Buckhunter In-Line Pistol"; the Buckhunter In-Line Pistol is a modern design, rather than a traditional design.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Action

- muzzle-loading percussion or flint-lock single-shot.

Serial Number

- serial number is marked on the receiver/frame/barrel.
- Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix.
- Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.

26757 - 3	50 PERCUSSION	1	315	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ardesa Spain" or the "Ardesa" company logo is marked on the barrel.

Model

- "IN LINE P." is marked on the right side of the barrel.
- this is an in-line percussion pistol made in two different styles: blued with walnut grip and forearm or matte/brushed nickel or stainless-steel with black-painted beech grip and forearm.
- features include: round plain or round fluted barrel with or without muzzle brake; frame-mounted safety on the right side of the pistol above the grip; ramp front sight and open fold-down rear sights; short ram-rod mounted under the barrel.
- DO NOT CONFUSE this pistol with the traditionally-styled "Buckhunter" pistol; where the Buckhunter In-Line Pistol is a modern design, the "Buckhunter" is a traditional Hawken design.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "Ardesa Spain" or the "Ardesa" company logo is marked on the barrel.

Model

- "LIGHTNING" or "LIGHTNING BOLT-ACTION" is marked on the side of the barrel.
- this is a modern-style in-line percussion rifle based on a Mauser bolt-action receiver.
- available in three different stock styles; a black nylon/synthetic, a laminated wood, or a solid polished birch, all with schnabel-tipped forearms, sling swivels, pistol-grips, and black rubber recoil pads.
- these rifles can be ordered in blued or matte/brushed nickel finishes, all with adjustable open sights (also available drilled and tapped for scope mounts), or with round or fluted barrels.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Action

- muzzle-loading, turn bolt operated, in line percussion.

Serial Number

- serial number is marked on the receiver/frame/barrel.
- Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix.
- Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.

Make: Ardesa
Model: Pennsylvania Rifle Reproduction

Summary

Make:	Ardesa
Model:	Pennsylvania Rifle Reproduction
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
40651 - 2	45 PERCUSSION	1	1025	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
40651 - 1	50 PERCUSSION	1	1025	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "Ardesa Spain" or the "Ardesa" company logo is marked on the barrel.
Model	- model name is NOT marked on the firearm. - full length walnut stock with brass fittings. - has brass patchbox in buttstock. - adjustable rear sight.
Action	- side hammer percussion lock with double set triggers.
Serial Number	- serial number is marked on the receiver/frame/barrel. - Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix. - Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.
Barrel	- barrel measurement for this firearm is an exterior measurement taken from the muzzle end of the barrel to the rear of the barrel where the breech plug joins the barrel. Normally there is a visible joint-line where the plug meets the barrel. - internal measurement by the rod method will result in a barrel length 15 to 30mm shorter than factory specification.
Other Markings	- rifles imported by Bell Distributors are marked "Bell-Spain" on the rear of the barrel.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
139584 - 1	50 PERCUSSION	1	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ardesa" may be marked on the firearm.

Model

- introduced in 2012.
- model designation may be marked on the firearm.
- "PURSUIT" over a stylized image of a deer skull with antlers was observed on the right side of the receiver/frame.
- this is a modern muzzle loader firearm.
- features include: fixed ramped front and adjustable rear fibre optic sights; round, tapered, fluted, alloy barrel fitted with an accelerator breech plug that holds a shotgun primer; rifled bore; barrel is drilled and tapped for optics; front hinged alloy receiver/frame; break opening release lever located in front of the trigger guard; spur hammer; single action trigger mechanism; cross bolt safety located at the rear of the trigger guard; aluminum ramrod mounted under the barrel; checkered black or camouflage pattern synthetic forearm and semi-pistol grip or thumbhole monte carlo buttstock; rubber recoil pad; sling swivel studs; grey finish.
- similar to the Ardesa model Pursuit Ultralight which features a 660mm (26") barrel.
- average weight is 2.68kgs (5.9 lbs).

Manufacturer

- "Ardesa" may be marked on the firearm.
- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder/muzzle-loading firearms.

Action

- hinged barrel design.
- muzzle loader.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the underside of the receiver/frame ahead of the trigger.
- Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix.
- Spanish firearms manufactured post 1994, serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 12-34-567890-00.

Calibre

- calibre designation may be marked on the firearm.
- rifling characteristics: 1 turn in 28 inches.

Notes

Make

- "Ardesa Spain" or the "Ardesa" company logo is marked on the barrel.

Model

- model name does not appear on firearm.
- flint or percussion lock, double set triggers, hardwood stock, adjustable rear sight, brass blade front sight.
- calibre marked on rear of barrel.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Action

- side hammer cap lock, double set triggers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the receiver/frame/barrel. - Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix. - Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.
Calibre	- this type of firearm utilizes the "hooked breech" type of construction; on this type of muzzle loader the barrel measurement must be taken externally from the muzzle end of the barrel to the point-of-contact between the hooked breech and the rear of the barrel, normally a "joint line" is visible where the breech plug meets the rear of the barrel. - barrel measurements taken internally by the rod method will result in a barrel length reading of 15-25mm shorter than factory specification.
Other Markings	- those firearms imported by Bell Distributors with have "Bell - Spain" marked on the barrel.

- Vest Pocket Derringer is similar in appearance to Colt's Derringer.
- Colt's Derringer was only made in Rim-Fire calibres.
- Colt's Derringer was not made with a percussion ignition system.
- this is a muzzleloading percussion pistol.
- features include: round brass barrel; brass receiver/frame; exposed spur hammer; sheathed trigger; single action trigger mechanism; bird's head grip; synthetic grip panels.
- barrel swings sideways from the standing breech to gain access to the percussion cap nipple.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Action

- muzzle loaded, percussion ignition.

Serial Number

- serial number is marked on the firearm.
- Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix.
- Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.

Calibre

- "Black Powder Only" is marked on the barrel.

Notes

Make

- "ARENDT BREVETE" is marked on the left side of the receiver/frame, below the cylinder.

Model

- not marked as to model (features simulate the popular "British Bulldog" by Webley); produced during the late 1800s to the early 1900s.
- the features of this firearm commonly referred to as "Bulldog", (sometimes as British Bulldog, English Bulldog, Ulster Bulldog, Tower Bulldog, or American Bulldog), are usually characterized as a compact, solid receiver/framed, short-barreled revolver (often with an integral barrel and receiver/frame), usually with a right side loading gate, usually with a swing out case ejector rod stored within the cylinder axis rod, usually with "Birds-head" style handgrip, usually of a large cartridge (rim-fire or centrefire) calibre (such as 32, 38, 41, 44, 450 or larger), with no sights or rudimentary sights.

Manufacturer

- "Henri Arendt" of Liege, Belgium manufactured pinfire revolvers, pistols and sporting guns in the 1870s and 1880s.

Serial Number

- sample viewed is marked with a numbers on the bottom of the butt, example: 12345.

Notes

Make	- "ARES DEFENSE SYSTEMS" over "MELBOURNE, FL USA" was observed, on a referenced example, marked on the left side of the receiver/frame.
Model	- introduced in 2015. - "SCR" was observed, on a referenced example, marked below the Ares Defence company logo, which consists of a stylized "A", on the left side of the receiver/frame. - "SCR" stands for "Sport Configurable Rifle" and is sold as a lower receiver/frame and bolt carrier that accepts any AR-15 upper assembly. - features include: AR15/M16 style magazine release, cross bolt safety located at the rear of the trigger guard; single trigger mechanism; alloy constructed receiver/frame; one piece checkered, black polymer, pistol grip buttstock; recoil pad.
Manufacturer	- "Ares Defense Systems, Incorporated" was established in 1997. - "Ares Defense Systems, Incorporated" is located in Melbourne, Florida, U.S.A.
Action	- gas operated.
Serial Number	- serial number was observed, on a referenced example, marked on the left side of the receiver/frame and consisted of a two letter prefix (AS) followed by a dash (-) and six digits.
Calibre	- "MULTI-CALIBER" was observed, on a referenced example, marked on the left side of the receiver/frame.
Shots	- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 129799
Make: Ares Incorporated
Model: 40-30MM Mann Barrel Firing System

Summary

Make:	Ares Incorporated
Model:	40-30MM Mann Barrel Firing System
Manufacturer:	Ares Incorporated
Level:	Manufacturer Specifications and Commercial Customization
Type:	Other
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129799 - 1	40-30MM MANN FIRING SYSTEM	1	3048	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "ARES INC." or variation is marked on the barrel.
Model	- model designation is not marked on the firearm. - this mechanism is a universal firing system that is designed to fire a 30MM saboted round in a 40MM chamber by electrical or percussion primed ignition, remotely fired. - developed for projectile penetration testing of vehicular mounted armour. - features include: modular design incorporating a removable breech plug, master case, igniter, breech assembly and barrel; smooth or rifled bore. - designed to be used in conjunction with the Ares 40-30 Mann Gun Firing Mount.
Manufacturer	- Ares Incorporated is located in Erie Industrial Park, Port Clinton, Ohio, U.S.A. - Ares Inc. is a manufacturer of fire control & turret control systems, small arms, automatic cannons and industrial machinery.
Serial Number	- serial number is marked on the barrel and repeated on the breech assembly. - serial number of a referenced example consisted of three numbers, preceded by a five digit part number, preceded by the alpha/numeric licencing number (4F946).
Barrel	- barrels may be supplied in any calibre or any length appropriate to the testing the customer wishes to perform.
Calibre	- designed to fire a 30MM saboted projectile with a varying size propellant container known as a "40MM reusable stubby case chamber".
Remarks	- the principle of use for this firing system is similar to that of the universal receivers used in testing small arms ammunition.

Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122872 - 1	7.62MM NATO	N/A	597	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make or logo thereof is marked on the firearm.
Model	- manufactured circa 1985. - the model designation may not be marked on the firearm; "EPG" is Ares' acronym for "Externally Powered Gun", as this is a machinegun which is mechanically-operated by an external power source, either electric or manual. - this is a medium machinegun designed for use as secondary armament on armoured fighting vehicles and in gun-pods, that is normally driven by an electric motor; however, the design of this particular firearm means that it can also be operated by a crank, in the same way that an original Gatling Gun is. - features include: blued or phosphated finish; no sights (sighting is intended to be accomplished via the mount); fed by a disintegrating link belt; large circular housing for the cam mechanism at the rear of the receiver/frame; and in use, ejected cases are directed downwards out of the receiver/frame.
Manufacturer	- Ares Incorporated was located in Erie Industrial Park, Port Clinton, Ohio, U.S.A. in the 1980s and late 1990s. - Ares Inc. was a manufacturer of fire control & turret control systems, small arms, automatic cannons and industrial machinery.
Action	- electrically/mechanically-powered.
Serial Number	- numbered on the receiver/frame.
Shots	- belt-fed firearm.

122871 - 1	5.56MM NATO	N/A	550	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- manufactured circa 1987.
- the model designation may not be marked on the firearm.
- this is a modular light machinegun very similar in concept to the Stoner 63 series; depending on the configuration desired, this firearm may be assembled as a Squad Automatic Weapon/SAW with bipod, on a tripod, as a belt-fed "carbine", or as a belt-fed automatic rifle. At the gunner's discretion, this firearm may be fed either with M249 Minimi-style disintegrating linked belts, or from M16-style box magazines.
- features include: modular design, with interchangeable barrels and buttstocks; aluminium and stainless-steel construction; synthetic furniture; open adjustable sights (a "Picatinny rail" along the top of the receiver allows attachment of optical sights); and this firearm will usually be seen with a molded synthetic belt carrier attached below the feed port.

Manufacturer

- Ares Incorporated was located in Erie Industrial Park, Port Clinton, Ohio, U.S.A. in the 1980s and late 1990s.
- Ares Inc. was a manufacturer of fire control & turret control systems, small arms, automatic cannons and industrial machinery.

Action

- gas-operated.

Serial Number

- numbered on the receiver/frame.

Barrel

- a number of different barrel lengths are available for this firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - this firearm can be fed with a disintegrating link belt, either loose or from a plastic box, or the conventional 30 shot, detachable box magazines common to the M-16 family of firearms.

FRT Report

Firearm Reference Number (FRN): 199622
Make: Arex Defense
Model: Zero 2S

Summary

Make:	Arex Defense
Model:	Zero 2S
Manufacturer:	Arex Defense
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SLOVENIA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
199622 - 1	9MM LUGER	18	108	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
199622 - 3	9MM LUGER	18	126	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
199622 - 2	9MM LUGER	20	108	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
199622 - 4	9MM LUGER	20	126	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "AREX" is marked on the left side of the firearm.
Model	- "ZERO 2S" is marked on the left side of the firearm. - Features include: front and rear slide serrations; loaded chamber indicator located behind the ejection port on the top of the slide; ambidextrous safety lever; slide release lever located on the left side of the receiver/frame; take down lever located on the left side of the receiver/frame; ambidextrous magazine release button; grip serrations in the front of the squared trigger guard. - Features may include: universal reflex optic mounting platform; extended threaded barrel; compensator; FDE finish on slide.
Manufacturer	- "AREX" is marked on the left side of the firearm.
Serial Number	- The serial number is marked on the right side of the receiver/frame. - The serial number is repeated on other parts and components. - The serial number of referenced example consists of a letter prefix followed by five digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the barrel, visible through the ejection port. - The calibre designation is marked on the left side of the firearm.
Shots	- Detachable box magazine housed in the grip.

FRT Report

Firearm Reference Number (FRN): 148806
Make: Argentine Mortar
Model: FMK1 60MM

Summary

Make:	Argentine Mortar
Model:	FMK1 60MM
Manufacturer:	Fabrica Militar Rio Tercero
Level:	Manufacturer Specifications and Commercial Customization
Type:	Mortar
Action:	Single-Shot
Country of Manufacturer:	ARGENTINA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148806 - 1	60MM MORTAR	1	650	Prohibited PFR, Part 1, para. 95(h)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the mortar.

Model

- the model may or may not be marked on the mortar.
- this is an Argentine designed and manufactured 60mm light mortar made as an infantry fire-support weapon for use at ranges up to 2000 metres.
- these mortars are produced in FMK1, FMK2, and FMK3 versions, which differ in the arrangement used to lay and sight the mortar; the FMK1 is a rapidly portable mortar with a permanent bowl baseplate and sliding tripod legs that can be adjusted for ranging, the FMK2 is a rapidly portable mortar with a permanent bowl baseplate that has a step-on carry strap to determine range, and the FMK3 is a portable mortar with a separate flat baseplate, sight, and tripod
- these mortars may fire a wide variety of ammunition, including illumination, high-explosive, and training bombs.
- these mortars are normally seen as backpack-portable units that can be easily carried by a single soldier, but require an additional soldier to carry an immediate supply of the required ammunition.
- features include: parkerized/phosphated/painted finish; smoothbore barrel; and one of three different methods for laying and firing the mortar.

Manufacturer

- the manufacturer or logo thereof is marked on the mortar.

Action

- drop or trigger fired single-shot.

Serial Number

- numbered on the barrel tube.

Notes

Make

- the make is not marked on the mortar.

Model

- the model may or may not be marked on the mortar.
- this is an Argentine-designed and manufactured 120mm heavy mortar made as an infantry fire-support weapon for use at ranges up to 6000 metres.
- these mortars may fire a wide variety of ammunition, including illumination, high-explosive, and training bombs.
- breaks down into a three-person portable assembly consisting of 1) the baseplate, 2) the barrel, and 3) the tripod and sight, but may also be seen mounted on a towed carriage assembly, or on/in a vehicle.
- features include: parkerized/phosphated finish; smoothbore barrel; traverse and elevation mechanism built into the tripod, with a detachable prismatic sight; and a heavy baseplate.

Manufacturer

- the manufacturer or logo thereof is marked on the mortar.

Action

- drop- or trigger-fired single-shot.

Serial Number

- numbered on the barrel tube.

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- manufactured 1958-1960.
- approximately 800 units were manufactured.
- the MEMS series of submachine guns was designed by Professor Miguel Enrique Manzo Sal, as a domestic design for the Argentine military, police, and penal forces.
- features include: stamped and folded lower receiver/frame with tubular upper receiver/frame; forward-angled magazine well; knurled receiver/frame end cap; fire selector-button at upper front of the trigger-guard; magazine release at upper rear of magazine well (this being one of the main differences between the MEMS 52/58 and later versions); foresight mounted on the barrel (many of the later MEMS have the foresight permanently mounted on the receiver tube); 12-groove "micro-rifling"; muzzle brake; under-folding MP-38/MP-40-style stock; and a bolt handle that runs in a raceway with a forward-angled "safety slot".
- overall length with stock extended is 895mm (35.2") with an approximate weight of 3.1kg (6.8 lbs).

Manufacturer

- the manufacturer may not be marked on the firearm.
- the OTME company was located in Cordoba, Argentina.

Action

- blowback operated.

Serial Number

- numbered on the receiver/frame.
- the serial number rationalization is unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- approximately 300 units were produced of this model in the early 1960's.
- the MEMS series of submachine guns was designed by Professor Miguel Enrique Manzo Sal, as a domestic design for the Argentine military, police, and penal forces.
- features include: stamped and folded lower receiver/frame with tubular upper receiver/frame; forward-angled magazine well; knurled receiver/frame end cap; fire selector-button at upper front of the trigger-guard; magazine release at lower rear of magazine well; foresight mounted on the barrel (many of the later MEMS have the foresight permanently mounted on the receiver tube); 12-groove "micro-rifling"; muzzle brake; under-folding MP-38/MP-40-style stock; and bolt handle that runs in a raceway with a forward-angled "safety slot".
- this model differs from the previous Model 52/58 in having a relocated magazine release and a wire, rather than tubular, folding butt stock.
- overall length with stock extended is 889mm (35") with an approximate weight of 3.1kg (6.8 lbs).

Manufacturer

- the manufacturer may not be marked on the firearm.
- located in Cordoba, Argentina.

Action

- blowback operated.

Serial Number

- numbered on the receiver/frame.
- serial number rationalization is unknown.

Make:	Argentine Submachine Gun
Model:	MEMS M67
Manufacturer:	Armas & Equipos
Level:	Manufacturer Specifications and Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	ARGENTINA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122648 - 1	9MM LUGER	5	201	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
122648 - 2	9MM LUGER	40	201	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- only experimental quantities of this model were produced as a part of the development of the MEMS series of submachine guns.
- the MEMS series of submachine guns was designed by Professor Miguel Enrique Manzo Sal, as a domestic design for the Argentine military, police, and penal forces.
- features include: stamped and folded lower receiver/frame with tubular upper receiver/frame; forward-angled magazine well with the magazine well styled as a forward pistol-grip; knurled receiver/frame end cap; fire selector-button at upper front of the trigger-guard; magazine release at lower rear of magazine well; user-removable barrel assembly; the magazine housing is configured as a forward hand grip; foresight mounted on the front of the receiver tube; 12-groove "micro-rifling"; muzzle brake; under-folding MP-38/MP-40-style stock; and bolt handle that runs in a raceway with a forward-angled "safety slot".
- overall length with stock extended is 800mm (31.5"), with a stock-folded length of 700mm (25.6"), with an approximate weight of 3.1kg (6.8 lbs).

Manufacturer

- the manufacturer may not be marked on the firearm.
- Armas & Equipos S.R.L. of Ciudad de Cordoba, Argentina, is a manufacturer owned by Miguel Enrique Manzo Sal, the designer of the MEMS series of submachine guns.

Action

- blowback operated.

Serial Number

- numbered on the frame/receiver.
- the serial number rationalization is unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- the make is not marked on the firearm; may bear Argentine crest and/or various markings in the Spanish language.

Model

- the model designation may not be marked on the firearm; some early examples may be marked "PAM1".
- this is a standard-pattern open-bolt submachinegun based on the earlier PAM1 submachinegun (which itself was based on the US M3A1 SMG), with the addition of a grip safety built into the magazine well.
- features include: stamped and welded receiver/frame; collapsible wire stock; fixed open sights; spring-loaded ejection-port cover; and a grip-safety built into the underside of the receiver/frame that must be squeezed with the forward hand while firing.

Manufacturer

- "F.M.A.P" and/or the Argentine crest may be marked on the right side of the receiver/frame.

Action

- open-bolt selective-fire.

Serial Number

- numbered on receiver/frame.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 27
Make: Arisaka
Model: Type 100 Paratroop Rifle

Summary

Make:	Arisaka
Model:	Type 100 Paratroop Rifle
Manufacturer:	Japanese State Arsenal, Nagoya
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
27 - 1	7.7X58 JAPANESE ARISAKA	5	648	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- the model designation does not appear on the firearm (the receiver ring is marked "Type 99" in Japanese characters).
- this firearm is designed to be dis-assembled quickly into two almost equal length sections, and re-assembled quickly for use. (see remarks)

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's symbol consist of three overlapped circles of different size, a large outer circle and two circles inside which resemble a number eight "8".
- Japanese State Arsenal, Nagoya/Nagoya Arsenal was operational from 1923 to 1945.

Serial Number

- located on the left side of the receiver.
- the Nagoya Arsenal produced Type 100 Paratroop Rifles have "kana" prefix characters which signify the production series of the particular rifle, these kana characters must be considered part of the serial number. Kana characters used by Nagoya Arsenal in the production of Type 100 Rifles are: 1, 21 and 22.

Also Known As/Product Code

- type 100 denotes the year of the adoption of this firearm (that relates to the basic Japanese calender year 2600), which co-responds to Western/Christian year 1940.

Other Markings

- chrysanthemum appears on the receiver ring (commonly this is defaced or roughly ground off).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- the Type 100 Paratroop Rifle was a Japanese service rifle during World War II, and is mechanically identical to the Type 99 (Model 1939) Rifle, the major difference being: a separate forend piece and an interrupted thread on breech of barrel permitting removal of barrel complete with the forend, by a twisting this assembly 90 degrees anti-clockwise in the same axis to the receiver.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
199933 - 1	6.5X50SR JAPANESE ARISAKA	5	480	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The make is not marked on the firearm.
- "ARISAKA" is derived from the last name of Colonel "Nariake Arisaka", a Japanese chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle.
- "ARISAKA" rifle type was developed at the Koishikawa Arsenal, Japan.

Model

- The model designation is marked on the receiver/frame.
- "North China Type 19" (?????) above the cherry blossom, the Manchuria Chinese province state of the Japanese empire is marked on top of the receiver/frame.
- "Type 19" is essentially a hybrid, incorporating elements from the Japanese Type 38 and other type rifles.
- "Type 19" was manufactured approximately from 1944 to 1945.
- "Type 19" first variant has a ladder type rear sight, left side front and rear sling swivels, straight bolt handle with oval shaped knob and steel butt plate.
- "Type 19" second variant has a fixe, notched rear sight, front left side sling swivel only, curved bolt handle with round shaped bolt knob and wood butt plate.
- Features include: no top handguard; cylindrical receiver/frame with stripper clip guides; top of the receiver/frame breech ring has a gas relief port; inside the trigger guard magazine bottom plate opening lever; no top hand guard.

Manufacturer

- The company logo is marked on the receiver/frame.
- "Manchurian State Arsenal, Tianjin" logo or factory mark is a cherry blossom or Sakura flower.
- "Tientsin" also spell "Tianjin" through history, is a city and a province of Manchurian in Northern China.
- "Manchurian State Arsenal, Tianjin" was formed with an unknown numbers of other producers into the state arsenal.
- "Manchurian State Arsenal, Tianjin" manufactured firearms while Manchuria province in China was a puppet state of the Japanese empire, between 1932 and 1945.

Action

- Turn bolt operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- The calibre designation is not marked on the firearm.
Shots	- Integral box magazine

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- manufactured between 1898 and 1908.
- "Chrysanthemum" symbol is marked on the receiver ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 30" is marked on the receiver ring in Japanese characters.
- "Type 30" denotes the year of the adoption of this firearm (the 30th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1897.
- "Type 30 (Model 1897) Carbine" is mechanically similar to the "Type 30 (Model 1897) Rifle".
- "Type 30 (Model 1897) Carbine" differs from the rifle in having a considerably shorter barrel and no provision for a handguard.
- "Type 30 (Model 1897) Carbine" was replaced in the Japanese service by the "Type 38 (Model 1905) Carbine".
- features may include: inverted "V" front sight without sight guards and "V" notch folding leaf rear sight; round rifled barrel; cleaning rod is mounted under the barrel; cylindrical receiver/frame with top ejection, and stripper clip guides; semi spherical shaped bolt handle knob; distinctive hook shaped safety catch lever projecting from the left side of the bolt; one piece wood semi-pistol grip stock and no top hand guard; side mounted sling swivels.
- overall length is approximately 984 mm (38.75 "), and average weight is 3.5 kgs (7.74 lbs).
- "Type 30 (Model 1897)" carbines and rifles were sold to England and Russia during World War One.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls).
- multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935.
- starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal.
- Kokura Arsenal also used the multi circle symbol (four stacked cannon balls).
- the transfer of rifle production to Kokura Arsenal was completed in 1935.
- Kokura Arsenal continued to use the symbol until 1945.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Shots

- internal box magazine fed by a top loaded stripper clip.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197736 - 1	8MM MAUSER	5	490	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- "ARISAKA" is derived from the last name of Colonel "Nariake Arisaka", chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- "ARISAKA" rifle was developed at the Koishikawa Arsenal, Japan.

Model

- The model designation is not marked on the firearm.
- "Type 30 Carbine" of the Manchurian arsenal manufacture is functionally a Japanese Type 30 Arisaka carbine chambered for the 8mm Mauser cartridge.
- The actual Manchurian/North Chinese model designation is not know, the designation come from the obvious similarity between the two firearms.
- "Type 30 Carbine" was manufactured approximately from 1938 to 1943.
- "Type 30 Carbine" is said, estimated to have been manufactured by a conglomerate of at least five small factories in Tientsin.
- "Type 30 Carbine" production is estimated to be around 38,500 carbine.
- Features include: cleaning rod mounted under the barrel; cylindrical receiver/frame with stripper clip guides; top of the receiver/frame breech ring has two gas relief ports; oval shaped bolt handle knob; distinctive hook shaped safety catch lever projecting from the left side of the bolt; one piece wood, semi-pistol grip stock and no top hand guard; side mounted sling swivels.

Manufacturer

- The manufacturer is marked in logo form on top of the breech ring of the receiver/frame.
- "Manchurian State Arsenal, Tianjin" logo or factory mark is a cherry blossom or Sakura flower.
- "Tientsin" also spell "Tianjin" through history, is a city and a province of Manchurian in Northern China.
- "Manchurian State Arsenal, Tianjin" was formed with a unknown numbers of other producers into the state arsenal.
- "Manchurian State Arsenal, Tianjin" manufactured firearms while Manchuria was a puppet state of the Japanese empire, between 1932 and 1945.

Action

- Turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- The serial number rationalization is said to come of the five arsenals or factories involved in the production that was assigned a serial number block of a hundred thousand.
- The official Tientsin Arsenal made guns will be the zero block (ie, starting at 0), with the other producers beginning at 100,000, 200,000, 300,000 and 400,000.

Calibre

- The calibre designation is not marked on the firearm.

Shots

- Integral box magazine with hinged floor plate.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- manufactured between 1898 and 1908.
- "Chrysanthemum" symbol is marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 30" is marked on the receiver ring in Japanese characters.
- "Type 30" denotes the year of the adoption of this firearm (the 30th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1897.
- "Type 30 (Model 1897) Rifle" is mechanically similar to the "Type 30 (Model 1897) Carbine".
- "Type 30 (Model 1897) Rifle" differs from the carbine in having a longer barrel and a top hand guard.
- "Type 30 (Model 1897) Rifle" was replaced in the Japanese service by the "Type 38 (Model 1905) Rifle".
- features include: inverted "V" front sight without sight guards and "V" notch folding leaf rear sight; round rifled barrel; cleaning rod is mounted under the barrel; cylinderical receiver/frame with top ejection, and stripper clip guides; semi spherical shaped bolt handle knob; distinctive hook shaped safety catch lever projecting from the left side of the bolt; one piece wood semi-pistol grip stock and top hand guard; sling swivels.
- overall length is approximately 1274 mm (50.15"), and average weight is 4.01 kgs (8.85 lbs).
- "Type 30 (Model 1897)" carbines and rifles were sold to England and Russia during World War One.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls).
- multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935.
- starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal.
- Kokura Arsenal also used the multi circle symbol (four stacked cannon balls).
- the transfer of rifle production to Kokura Arsenal was completed in 1935.
- Kokura Arsenal continued to use the symbol until 1945.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Shots

- internal box magazine fed by a top loaded stripper clip.

- "ARISAKA" is not marked on the firearm.
- Arisaka is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- converted between 1905 and 1921.
- total production of approximately 10,000 rifles.
- "Chrysanthemum" symbol is marked on the receiver ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 30" is marked on the receiver ring in Japanese characters.
- "Type 30" denotes the year of the adoption of this firearm (the 30th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1897.
- "Type 30 (Model 1897) Training Rifle" is a standard "Type 30" infantry rifle converted for training/drill purposes for use by civilian and para-military organizations within Japan, and were deemed to be obsolete by the Japanese military.
- "Type 30 (Model 1897) Training Rifle" conversion included: re-boring of barrel to remove rifling; removal of original government and model markings; removal of original serial number; addition of "Blank Ammunition Only" Japanese character markings on the top of the receiver/frame; and addition of new serial number on left side of the receiver/frame.
- other features include: blued receiver/frame and barrel; internal magazine; hook safety; post front sight; graduated rear sight; one piece stock with upper handguard; steel nosecap with bayonet lug; one barrel band with integral sling swivel; and cleaning rod located underneath the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's symbol is marked on the left side of the receiver/frame. - manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls). - multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935. - starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal. - Kokura Arsenal also used the multi circle symbol (four stacked cannon balls). - the transfer of rifle production to Kokura Arsenal was completed in 1935. - Kokura Arsenal continued to use the symbol until 1945.
Action	- turn-bolt design.
Serial Number	- serial number is located on the left side of the receiver/frame. - observed examples have consisted of a series of four numbers without a letter prefix or suffix.
Calibre	- this model of rifle was intended to be used with the 6.5x50SR paper bulleted blank cartridge only as the barrel is smooth bore, but will still chamber the 6.5X50SR ball cartridge as well.
Shots	- internal non-detachable magazine.
Canadian Law Comments	- examples may be marked "1 / X" which is the Kanjii character for school.

- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- manufactured from 1907 to 1932.
- "Chrysanthemum" symbol is marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 38" is marked on the receiver ring in Japanese characters.
- "Type 38" denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.

Manufacturer

- the manufacturer's identifier mark appears as a multi circle symbol (four stacked cannonballs) located on the left side of the receiver/frame.
- the "four stacked cannonballs" symbol was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935. Starting in 1929-30 the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal who also used the "four stacked cannonballs" symbol. The transfer of production was completed in 1935. Kokura Arsenal continued to use the symbol until 1945.

Action

- turn-bolt design.

Serial Number

- Kokura Arsenal produced Type 38 Carbines use a "kana" prefix character which signify the production series of their carbines.
- normally marked on the left side of the receiver.

Shots

- internal box magazine fed by a top loaded stripper clip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - chrysanthemum usually appears on the receiver ring.

Remarks - The Type 38 (Model 1905) Carbine was a Japanese service firearm introduced in 1905 used during World War I & II, and is mechanically identical to the Type 38 (Model 1905) Rifle, differing only in overall length and the position of sling swivels on left side of stock and barrel band instead of on the bottom of the buttstock and barrel band as found on the rifle.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- manufactured from 1933 to 1939.
- "Chrysanthemum" symbol is marked on the receiver ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 38" is marked on the receiver ring in Japanese characters.
- "Type 38" denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.
- features may include: inverted "V" front sight without sight guards and "V" notch folding leaf rear sight; round rifled barrel; cleaning rod is mounted under the barrel; cylindrical receiver/frame with top ejection, and stripper clip guides; semi spherical shaped bolt handle knob; one piece wood semi-pistol grip stock with top hand guard; sling swivels.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's symbol consist of three overlapped circles of different size, a large outer circle and two circles inside which resemble a number eight "8".
- Japanese State Arsenal, Nagoya/Nagoya Arsenal was operational from 1923 to 1945.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- Nagoya Arsenal produced Type 38 Carbines have "kana" prefix characters which signify the production series of their carbines, these kana characters must be considered part of the serial number. Kana characters used by Nagoya Arsenal in the production of Type 38 Carbines are: 4, 5 and 6 (see illustrations).
Other Markings	- Chrysanthemum appears on the receiver ring.
Remarks	- The Type 38 (Model 1905) Carbine was a Japanese service firearm introduced in 1905 used during World War I & II, and is mechanically similar to the Type 38 (Model 1905) Rifle, differing only in overall length and the position of sling swivels on left side of stock and barrel band instead of on the bottom of the buttstock and barrel band as found on the rifle.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- manufactured from 1907 to 1932.
- "Chrysanthemum" symbol is marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 38" is marked on the receiver ring in Japanese characters.
- "Type 38" denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.
- "Type 38 Carbine" versions were also modified for police use.

Serial Number

- may appears on the left side of the receiver.

Also Known As/Product Code

- type 38 denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.

Other Markings

- chrysanthemum appears on the receiver ring (commonly this is defaced or roughly ground off).
- some samples have been noted re-stamped with Siamese markings.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- The Type 38 (Model 1905) Carbine was a Japanese service firearm introduced in 1905 used during World War One & Two, and is mechanically similar to the Type 38 (Model 1905) Rifle, differing only in overall length and the position of sling swivels on left side of stock and barrel band instead of on the bottom of the buttstock and barrel band as found on the rifle.
- there was a modified version of this carbine known as the Siamese Police Carbine. The barrel was turned to a slightly smaller diameter, the stock had a relief cut to accomadate the bent down bolt handle, the sling was mounted on the left side of the stock like the M1 Carbine, markings and serial numbers were changed.

- "Type 38" denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.

Manufacturer

- the manufacturer's logo consists of two concentric rings with three equidistant bars extending from the inner circle towards the outer circle; depending on the period of manufacture, the bars may or may not reach all the way to the outer circle.
- these firearms were manufactured at the Mukden Arsenal while Manchuria was a puppet state of the Japanese empire, between 1931 and 1945

Action

- turn-bolt design.

Serial Number

- Mukden Arsenal produced Type 38 Carbines belong to two separate productions series, one series has a "kana" character prefix to the serial number while the other series lacks a prefix character. The kana prefix character used with the first mentioned production series is "6" (see illustration) and must be considered as part of the serial number.

Shots

- internal box magazine fed by a top loaded filler strip.

Other Markings

- Chrysanthemum appears on the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- This rifle was a Japanese service firearm introduced in 1905 as a replacement for the Type 30 (Model 1897) Rifle and used during World War I & II. It is basically a modified Mauser type turn bolt, box magazine rifle with a unique "push and turn" safety. This rifle has a two piece buttstock and a metal action cover which reciprocates with the bolt. Officially it was superseded by the Type 99 Rifle in 1939 but in reality it was never totally replaced by the new rifle before the end of World War II.

- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is marked on the receiver ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 38" is marked on the receiver ring in Japanese characters.
- "Type 38" denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's symbol is marked on the left side of the receiver/frame. - manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls). - multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935. - starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal. - Kokura Arsenal also used the multi circle symbol (four stacked cannon balls). - the transfer of rifle production to Kokura Arsenal was completed in 1935. - Kokura Arsenal continued to use the symbol until 1945.
Serial Number	- Kokura Arsenal produced Type 38 Rifles have "kana" prefix characters which signifies the production series of their rifles. - marked on the left side of the receiver.
Other Markings	- Chrysanthemum appears on the receiver ring.
Remarks	- This rifle was a Japanese service firearm introduced in 1905 as a replacement for the Type 30 (Model 1897) Rifle and used during World War I & II. It is basically a modified Mauser type turn bolt, box magazine rifle with a unique 'push and turn' safety. This rifle has a two piece buttstock and a metal action cover which reciprocates with the bolt. Officially it was superseded by the Type 99 Rifle in 1939 but in reality never totally replaced by the new rifle before the end of World War II.

- type 44 denotes the year of the adoption of this firearm (the 44th year of reign of the Japanese Emperor Meiji), which corresponds to Western/Christian year 1911.

Other Markings

- chrysanthemum appears on the receiver ring (commonly this is defaced or roughly ground off).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- The Type 44 (Model 1911) Carbine was a Japanese service firearm adopted in 1911 and used during World War I & II, and is mechanically similar to the Type 38 (Model 1905) Carbine differing primarily by having a longer forearm and a permanently attached folding bayonet.

Model:	Type 66 Siamese
Manufacturer:	Japanese State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
51771 - 1	8X52R SIAMESE	5	780	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- Siamese's Charkra (throwing weapon with twelve flaming blades) logo is marked on the top of the receiver ring.
- "Type 66" in Sanskirt is marked on the top of the receiver ring.
- "Type 66 Siamese" is chambered for the Type 66 cartridge (8x25R SIAMESE).
- Arisaka is basically a modified Mauser type turn bolt, box magazine rifle with a unique "push and turn" safety.
- Arisaka carbines and rifles were converted to 8X52R Siamese for the Siamese government.

Action

- turn-bolt design.

Serial Number

- appears on the receiver/frame in Siamese numerals.

Shots

- internal box magazine, fed by a top loaded stripper clip.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is usually marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 97" is marked on the receiver ring in Japanese characters.
- "Type 97" denotes the year of the adoption of this firearm (97 relates to the basic Japanese calender year of 2597), which co-responds to Western/Christian year of 1937.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls).
- multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935.
- starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal.
- Kokura Arsenal also used the multi circle symbol (four stacked cannon balls).
- the transfer of rifle production to Kokura Arsenal was completed in 1935.
- Kokura Arsenal continued to use the symbol until 1945.

Serial Number

- located at the left front end of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Also Known As/Product Code	- type 97 denotes the year of the adoption of this firearm (that relates to the basic Japanese calender year 2597), which co-responds to Western/Christian year 1937.
Other Markings	- Chrysanthemum appears on the receiver ring.
Remarks	- The Type 97 (Model 1937) Sniper Rifle was a Japanese service rifle adopted in 1905 and used during World War I & II, and is virtually identical to the standard Type 38 (Model 1905) Rifle except for a telescopic sight base pinned and screwed to the left side of the receiver, a folding wire monopod fitted to the barrel band and the bolt handle bent slightly downward.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- the original Japanese "Type 99" model designation and Chrysanthemum symbol have been removed from the receiver/ring of this rifle and replaced with Chinese characters which read from right to left "7.9 caliber".
- this rifle is a Chinese Nationalist Army arsenal rework of the Japanese Type 99 rifle as carried out after 1946.
- rework consisted of; rechambering the barrel to 8MM Mauser; the barrel may have been shortened; slight modification to the magazine; other than the noted modifications this rifle retains all of the features of the original Type 99.
- the original serial number and Japanese arsenal symbol are usually still apparent on the left side of the receiver/frame.

Manufacturer

- the manufacturer's symbol consists of a circle with three semi-circles on its outside periphery.
- Toyo Kogyo (Toyo Manufacturing Company) of Hiroshima Prefecture manufactured Type 99 rifles from 1940 to 1945 under the supervision of the Kokura Arsenal.

Action

- turn bolt design.

Serial Number

- original Japanese applied serial number is usually still apparent on the left side of the receiver/frame.

Shots

- internal box magazine.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is usually marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 99" is marked on the receiver ring in Japanese characters.
- "Type 99" denotes the year of the adoption of this firearm (99 which relates to the basic Japanese calender year of 2599), which co-responds to Western/Christian year of 1939.
- "Type 99" is also refered to as the Model 1939.
- "Type 99" was a Japanese service rifle used during World War II, and was intended as a replacement for the Type 38 Rifle to which it is mechanically similar. Differences include slightly shorter barrel, larger and more powerful calibre, folding wire monopod affixed to barrel band and a rear sight provided with folding graduated arms for leading aircraft (A.K.A. antiaircraft sights). In the latter stages of World War II steps were taken to hasten production and reduce costs. The result was a simplified version of the original Type 99 Short Rifle without the folding monopod and anti-aircraft sights

Manufacturer

- the manufacturer's symbols appear on the left side of the receiver as three overlapping circles of different size and a three sided rounded symbol.
- Howa Jyuko of Osaka manufactured Type 99 rifles from 1940 to 1945 under the supervision of the Nagoya Arsenal.

Serial Number

- the Howa Jyuko Arsenal produced Type 99 Rifles have a "kana" prefix character which signifies "series 9" (see illustration). This "kana" character must be considered part of the serial number which appears on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

- "Type 99" is also refered to as the Model 1939.

Manufacturer

- the manufacturer's symbols appear on the left side of the receiver as three overlapping circles of different size and a four pointed symbol.
- Izawa Jyuko of Osaka manufactured Type 99 rifles from 1940 to 1945 under the supervision of the Nagoya Arsenal.

Serial Number

- The Izawa Jyuko produced Type 99 Rifles have a "kana" prefix character signifying "series 4" (see illustration). This 'kana' character must be considered part of the serial number which appears on the left side of the receiver/frame.

Also Known As/Product Code

- type 99 denotes the year of the adoption of this firearm (that relates to the basic Japanese calender year 2599), which co-responds to Western/Christian year 1939.

Other Markings

- chrysanthemum apears on the receiver ring (commonly this will be defaced or roughly ground off).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- This rifle was a Japanese service rifle during World War II, intended as a replacement for the Type 38 Rifle to which it is mechanically similar. Differences include slightly shorter barrel, larger and more powerful calibre, folding wire monopod affixed to barrel band and a rear sight provided with folding graduated arms for leading aircraft (A.K.A. antiaircraft sights).

Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
54 - 2	30-06 SPRG	5	648	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
54 - 1	7.7X58 JAPANESE ARISAKA	5	648	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is usually marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 99" is marked on the receiver ring in Japanese characters.
- "Type 99" denotes the year of the adoption of this firearm (99 which relates to the basic Japanese calender year of 2599), which co-responds to Western/Christian year of 1939.
- "Type 99" is also refered to as the Model 1939.
- "Type 99" was a Japanese service rifle during World War II, and was intended as a replacement for the Type 38 Rifle to which it is mechanically similar. Differences include slightly shorter barrel, larger and more powerful calibre, folding wire monopod affixed to barrel band and a rear sight provided with folding graduated arms for leading aircraft (A.K.A. anti-aircraft sights). In the latter stages of World War II steps were taken to hasten production and reduce costs. The result was a simplified version of the original Type 99 Rifle without the folding monopod, anti-aircraft sights and subsequently with non adjustable sights and no provision for a metal action cover.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's symbol is marked on the left side of the receiver/frame. - manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls). - multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935. - starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal. - Kokura Arsenal also used the multi circle symbol (four stacked cannon balls). - the transfer of rifle production to Kokura Arsenal was completed in 1935. - Kokura Arsenal continued to use the symbol until 1945.
Action	- turn-bolt design.
Serial Number	- the Kokura Arsenal produced Type 99 Rifles have "kana" prefix characters which signify the production series of a particular rifle. These "kana" characters must be considered part of the serial number. "Kana" characters associated with Kokura Arsenal in the production of Type 99 Rifles are: 20, 21, 22, 23, 24 and 25.
Also Known As/Product Code	- type 99 denotes the year of the adoption of this firearm (that relates to the basic Japanese calender year 2599), which co-responds to Western/Christian year 1939.
Other Markings	- Chrysanthemum appears on the receiver ring (commonly this is defaced or roughly ground off).

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is usually marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 99" is marked on the receiver ring in Japanese characters.
- "Type 99" denotes the year of the adoption of this firearm (99 which relates to the basic Japanese calender year of 2599), which co-responds to Western/Christian year of 1939.
- "Type 99" is also refered to as the Model 1939.
- "Type 99" is a modified Mauser turn-bolt rifle, distinguishable by a large rotatable safety knob at the rear of the bolt, horizontally dovetail joined butt-stock toe-section.
- the sixteen petalled Imperial chrysanthemum crest adorns the top receiver ring, however, on many surrendered rifles the crest is defaced or removed by grinding.

Manufacturer

- the manufacturer's symbols appears as a circle within a circle, with the "O" divided into three equal parts (like a doughnut divided into thirds); marked on the left side of the receiver ahead of the bolt release.
- Mukden Arsenal was located in Mukden, Manchuria.
- Mukden Arsenal was built by the Manchurian leader, Chang Tso-Lin.
- Mukden Arsenal was taken over by the Japanese in 1931 during the Sino-Japanese War and re-opened in 1934 under a Manchurian puppet government, re-commenced rifle production about 1939 for the Japanese Military under Japanese supervision of two private civilian firms: the Mitsue Company and Okua Company.
- the plant was known as the "Second Mukden Arsenal" or "South Manchurian Arsenal", this arsenal was established in 1939, just northeast of Mukden, and was under total control of the Imperial Japanese Army; in 1944, one-third of the rifle production was moved to Lang-kang, due to increased Allied bombing.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- Serial number range: 1 to 99,999; usually preceded by an encircled Japanese "Kana" syllabary character in ascending order after the initial 99,999. - these "Kana" characters must be considered part of the serial number on Japanese military rifles.
Shots	- integral non-detachable box magazine.
Also Known As/Product Code	- type 99 denotes the year of the adoption of this firearm (that relates to the basic Japanese calender year 2599), which co-responds to Western/Christian year 1939.
Remarks	- This rifle was a Japanese service rifle during World War II, intended as a replacement for the Type 38 Rifle to which it is mechanically similar. Differences include slightly shorter barrel, larger and more powerful calibre, folding wire monopod affixed to barrel band and a rear sight provided with folding graduated arms for leading aircraft (A.K.A. anti-aircraft sights). In the latter stages of World War II steps were taken to hasten production and reduce costs. The result was a simplified version of the original Type 99 Rifle without the folding monopod , anti-aircraft sights and subsequently with non adjustable sights and no provision for a metal action cover.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls).
- multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935.
- starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal.
- Kokura Arsenal also used the multi circle symbol (four stacked cannon balls).
- the transfer of rifle production to Kokura Arsenal was completed in 1935.
- Kokura Arsenal continued to use the symbol until 1945.

Serial Number

- located on the bridge of the receiver

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Also Known As/Product Code	- type 99 denotes the year of the adoption of this firearm (that relates to the basic Japanese calender year 2599), which co-responds to Western/Christian year 1939.
Other Markings	- Chrysanthemum located on the receiver ring (commonly this is defaced or roughly ground off).
Remarks	- The Type 99 (Model 1939) Sniper Rifle was a Japanese service rifle during World War II, and is virtually identical to the standard Type 99 (Model 1939) Short Rifle except for a telescopic sight base pinned and screwed to the left side of the receiver, the bolt handle bent slightly downward and serial number located on the receiver bridge.

FRT Report

Firearm Reference Number (FRN): 26
Make: Arisaka
Model: Type 99 Special Naval Rifle

Summary

Make:	Arisaka
Model:	Type 99 Special Naval Rifle
Manufacturer:	Japanese State Naval Arsenal, Yokosuka
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
26 - 1	7.7X58 JAPANESE ARISAKA	5	673	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is usually marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 99 Special" is marked on the receiver ring in Japanese characters.
- "Type 99" denotes the year of the adoption of this firearm (99 which relates to the basic Japanese calender year of 2599), which co-responds to Western/Christian year of 1939.
- "Type 99" is also refered to as the Model 1939 Special.

Manufacturer

- the manufacturer's mark appears as an anchor on the top of the receiver ring.

Serial Number

- the serial number has the "kana" prefix character "7", this prefix must be considered as part of the serial number.

Barrel

- other barrel lengths known to exist.

Other Markings

- anchor symbol appears on the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- the Naval Type 99 Special Naval Rifle is a war time expedient intended for use by naval personnel. Most parts are of unmachined cast iron, including the receiver, and the locking lugs of the bolt mesh with locking recesses in the breech of the barrel. All metal parts are painted black and the general appearance of the rifle is of poor workmanship and questionable safety, however despite these appearances the Type 99 Special Naval Rifle is quite serviceable.

Model: Type 99 Training Rifle

Summary

Make:	Arisaka
Model:	Type 99 Training Rifle
Manufacturer:	Japanese State Arsenal, Kokura
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
126992 - 1	7.7X58 JAPANESE ARISAKA	5	794	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- model designation is not marked on the firearm.
- this is a standard "Type 99" infantry rifle converted for training/drill purposes for use by civilian and para-military organizations within Japan after they were deemed to be obsolete by the Japanese military.
- conversion included: re-boring of barrel to remove rifling; removal of original government and model markings; removal of original serial number; addition of "Blank Ammunition Only" Japanese character markings on the top of the receiver/frame; and the addition of new a serial number on left side of the receiver/frame.
- other features include: blued receiver/frame and barrel; internal magazine; hook safety; post front sight; graduated rear sight; one piece stock with upper handguard; steel nosecap with bayonet lug; one barrel band with integral sling swivel; and cleaning rod located underneath the barrel.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls).
- multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935.
- starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal.
- Kokura Arsenal also used the multi circle symbol (four stacked cannon balls).
- the transfer of rifle production to Kokura Arsenal was completed in 1935.
- Kokura Arsenal continued to use the symbol until 1945.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is located on the left side of the receiver/frame. - observed examples have consisted of a series of four numbers with a letter prefix.
Shots	- internal non-detachable magazine.
Canadian Law Comments	- examples may be marked "1 / X" which is the Kanjii character for school.

37977 - 3	20 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make (or logo thereof) is marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a standard-pattern side by side box lock shotgun available with a number of options.
- features include: checkered walnut straight, semi- or full pistol-grip stock and forearm; double triggers; side clips; automatic safety; square-bolt Greener locking system; and lightly engraved receiver in a running stag pattern.

Manufacturer

- Eusebio Arizaga/Successors de Eusebio Arizaga was located in Placencia de las Armas, Guipuzcoa, Spain.
- Eusebio Arizaga/Successors de Eusebio Arizaga was established in 1908.
- Eusebio Arizaga/Successors de Eusebio Arizaga manufactured custom and semi-custom multi-barreled shotguns.
- Eusebio Arizaga/Successors de Eusebio Arizaga joined "DIARM" circa 1984.
- "F.A." is the manufacturer's code for "Eusebio Arizaga".

Action

- side by side barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gun maker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Barrel

- available in various lengths, up to 36"/914mm; 28"/711mm is a typical "field" length.

Notes

Make

- the make (or logo thereof) is marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a standard-pattern side by side, side lock shotgun available with a number of options.
features include: checkered walnut straight, semi- or full pistol-grip stock and forearm; double triggers; cocking indicator pins; automatic safety; automatic selective ejectors; and heavily engraved side plates in a scroll pattern.

Manufacturer

- Eusebio Arizaga/Successors de Eusebio Arizaga was located in Placencia de las Armas, Guipuzcoa, Spain.
- Eusebio Arizaga/Successors de Eusebio Arizaga was established in 1908.
- Eusebio Arizaga/Successors de Eusebio Arizaga manufactured custom and semi-custom multi-barreled shotguns.
- Eusebio Arizaga/Successors de Eusebio Arizaga joined "DIARM" circa 1984.
- "F.A." is the manufacturer's code for "Eusebio Arizaga".

Action

- side by side barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gun maker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Barrel

- available in various lengths, up to 32"/812mm; 28"/711mm is a typical "field" length.

Notes

Make - "Arizaga" is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is not marked on the firearm. - features: side by side barrel configuration; hinged receiver/frame; box-lock or side-lock action.
Manufacturer	- Gaspar Arizaga was founded in Eibar, Spain in 1895. - Gaspar Arizaga was manufacturing and exporting a line of single shot and side by side box lock and side lock shotguns by 1915. - Gaspar Arizaga manufacture handguns, under the trade names of Arizaga, Mondial, Pinkerton, and Warwinch from the early 1920s to 1936. - Gaspar Arizaga was listed as a manufacturer of side by side, box lock and side lock shotguns in 1972. - Gaspar Arizaga was one of the many companies that formed "DIARM, S.A." in 1984. - the manufacturer's code of "F.N." may be marked on the watertable, this code was shared by Gaspar and Ignacio Arizaga.
Action	- side by side configuration.
Serial Number	- serial number rationalization is unknown. - Spanish government instituted a new system for firearm's serial numbering in 1995. - Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer. - Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95". - serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

23511 - 1	7.65MM	9	88	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AG" within an oval is marked on the side of the firearm.
- "Arizmendi y Goenaga" was located in Eibar, Spain from 1886 to 1914.
- "Arizmendi y Goenaga" was originally known as "Francisco Arizmendi y Goenaga".
- "FAG", "F.A.G." or "F.A. y G" were trademarks used by "Francisco Arizmendi y Goenga".
- "AG" was a trade mark used by "Arizmendi y Goenaga". This trademark was a crowned "AG" above a crescent or the letters "A.G" inside a circle/oval.
- "Francisco Arizmendi y Goenaga / Arizmendi y Goenaga" manufactured both revolvers and semiautomatic pistols.
- "Arizmendi y Goenaga" company name was changed to "Francisco Arizmendi" in 1914.
- "Franciso Arizmendi" was located in Eibar, Spain from 1914 to 1936.
- "FA" was a trademark used by "Francisco Arizmendi". This trademark was the letters "FA", above a five point star, over a horizontal crescent.

Model

- model designation is marked on the left side of the slide as "1933"; the date of 1933 is preceded by the Cyrillic characters for "Pistol" followed by "7.65MM - 9 BT3."; the number 9 in this sequence indicates the nine shot version, the seven shot model is marked with "7.65MM - 7"; the Cyrillic letters "BT3" mean "VTS" in English; VTS indicates the name of "Voino Teknicheski Zavod" which is "Military Technical Factory" in English; this is the name of the arsenal/factory that remanufactured and/or proofed this model series in Yugoslavia in 1933.
- this pistol is a Ruby-type handgun supplied by the French Government to the Serbian Army circa 1916. In 1933 these pistols were remanufactured and/or reproofed by the Military Technical Factory in Kragujevic, Yugoslavia.
- blow-back operated, single action trigger mechanism, semi-automatic pistol utilizing a detachable box magazine.
- features; swinging-type safety located on the left side of the receiver/frame; magazine release located on the bottom rear of the back strap of the grip frame; lanyard ring located on the bottom rear left side of the grip frame; blued finish.
- the trademark initials/logo of the original Spanish manufacturer of these pistols may still be apparent on the rear left side of the receiver/frame; the initials "GU" and "AG" have been observed where GU indicates " Gabilondo Y Urresti" and AG is for "Arizmendi Y Goenaga".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Yugoslav arsenal markings are located on the left side of the slide in Cyrillic as, "BT3" which stand for "Voino Teknicheski Zavod"; this arsenal was located in Kragujevic, Yugoslavia. - for clarity, the Cyrillic characters "BT3" are translated into English as "VTZ" and the name "Voino Teknicheski Zavod" means "Military Technical Factory". - in addition to the above, the trademark initials/logo of the original Spanish manufacturer of these pistols may still be apparent on the rear left side of the receiver/frame; the initials "GU" and "AG" have been observed where GU indicates " Gabilondo Y Urresti" and AG is for "Arizmendi Y Goenaga".
Action	- blowback operated.
Serial Number	- serial numbers are usually marked on the right side of the receiver/frame above the trigger guard; the number is usually repeated on the slide above the receiver/frame number and on the barrel at the ejection port. - observed examples have had three and four digit numbers without prefix or suffix.
Calibre	- calibre and number of shots is marked on the left side of the slide as, "7.65 MM - 7 BT3", or "7.65 MM - 9 BT3"; the letters "BT3" are in fact cyrillic.

Notes

Make

- manufacturer's name is marked on the firearm.
- "Arizmendi y Goenaga" was located in Eibar, Spain from 1886 to 1914.
- "Arizmendi y Goenaga" was originally known as "Francisco Arizmendi y Goenaga".
- "FAG", "F.A.G." or "F.A. y G" were trademarks used by "Francisco Arizmendi y Goenaga".
- "AG" was a trade mark used by "Arizmendi y Goenaga". This trademark was a crowned "AG" above a crescent or the letters "A.G" inside a circle/oval.
- "Francisco Arizmendi y Goenaga / Arizmendi y Goenaga" manufactured both revolvers and semiautomatic pistols.
- "Arizmendi y Goenaga" company name was changed to "Francisco Arizmendi" in 1914.
- "Franciso Arizmendi" was located in Eibar, Spain from 1914 to 1936.
- "FA" was a trademark used by "Francisco Arizmendi". This trademark was the letters "FA", above a five point star, over a horizontal crescent.

Model

- model designation is not marked on the firearm; this is the name under which these revolvers were commonly sold. These revolvers were produced primarily for export and for sale to colonists who were moving to South America, Africa, or the Far East.
- these revolvers combine features of the Belgian Nagant and the French 1892 military revolvers, but with a simplified (cheaper) ejection system.
- features include: blued finish; part round/part octagonal barrel; solid top receiver/frame; fixed oval-fluted cylinder; rotating ejector rod is mounted on the underside of the barrel and stored in the hollow cylinder pin; exposed spur hammer; single/double action trigger mechanism; rounded butt with lanyard ring; fixed sights; checkered plastic grips.

Manufacturer

- Arizmendi y Goenaga's manufacturer's mark of a crowned "AG" above a crescent is marked on the firearm.

Action

- double-action revolver.

Notes

Make

- "AZ" in an oval is marked on the left side of the slide and on at the back of the receiver/frame.
- "AZ" in an oval is a trade marked used by Arizmendi Zulaica y Cia.

Model

- manufactured from 1914 to 1918.
- "PISTOLET AUTOMATIQUE" and "ESPANA" was observed marked on the left side of the slide.
- total production 15,000 pistols.
- this firearm is an Eibar copy of a FN/Browning model 1906 semi-automatic pistol.
- features include: fixed sights; round barrel; flat side slide with rear grip serrations; safety/action release is located on the left side of the receiver/frame; magazine release is located on the bottom of the rear grip strap; lanyard ring is located on the left side of the rear grip strap; checkered grip plates; blued finish.

Manufacturer

- "AZ" in an oval is a trade marked used by Arizmendi Zulaica y Cia.
- "Arizmendi Zulaica y Cia" of Eibar, Spain and the relationship between the numerous other "Arizmendi" companies of Spain is uncertain.
- "Arizmendi Zulaica y Cia" was formed during World War I to produce "Ruby" type pistols as a sub-contractor for "Gabilondo Y Urresti" who had won a contract in 1916 to produce firearms for France. When the order was filled "Arizmendi Zulaica y Cia" continued to offer the pistol under the name "Cebra". At some point they also produced a revolver that was a copy of a Smith & Wesson product.

Action

- blowback operated.

Serial Number

- serial number is marked on the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Other Markings - may have two stars on the butt for the French contract.

Notes

Make

- "FA" was a trademark used by "Francisco Arizmendi".
- Francisco Arizmendi's trademark was the letters "FA", above a five point star, over a horizontal crescent.

Model

- no model name is apparent on this firearm.
- readily identifiable by Arizmendi's trademark; a circle containing a five-pointed star, surmounted by FA in a shield usually found on the left side of the frame in various locations. Stylized FA may also be found on the grip plates.
- this is a generic entry designed to encompass a model series of revolvers manufactured by Francisco Arizmendi circa 1914 to 1936; they are sometimes referred to simply as "Arizmendi" revolvers.
- features include: round barrel; solid top receiver/frame with fluted fixed or swing out cylinder; loading gate on right side of standing breech; ejector rod carried on a swivel-type crane attached to the cylinder axis pin is used to expel empty shell casings through the loading gate opening; folding trigger; single/double action trigger mechanism; may have a thumb-actuated sliding safety on the left rear of the frame above the grip plate.
- receiver/frame may have a distinctive "hump-back" appearance, which extends rearward from the top strap to the grip frame thereby enclosing the hammer or a conentional frame with an exposed hammer.

121786 - 2	32 S&W	6	110	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Non-Commercial Customization	
121786 - 1	38 SPL	6	118	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARIZMENDI ZULAICA Y CIA - EIBAR (ESPANA) is marked on the barrel.
- "AZC" monogram may be marked on the grip plates.

Model

- no model designation is marked on the firearm.
- this model resembles the Smith & Wesson produced "Military & Police" line of revolvers.
- features on examined sample included: blued finish; double action trigger mechanism; black synthetic grip panels with the Arizmendi Zulaica monogram moulded into the tops; non-shrouded ejector rod; lanyard ring affixed to the butt; cylinder release latch located on the left side of the receiver/frame; half-round, blade front sight with a channel/groove in the top strap for a rear sight; fluted cylinder.

Manufacturer

- "ARIZMENDI ZULAICA Y CIA - EIBAR (ESPANA) is marked on the barrel.
- "AZC" monogram may be marked on the grip plates.
- the relationship between "Arizmendi Zulaica y Cia" of Eibar, Spain and the numerous other "Arizmendi" companies of Spain is uncertain.
- "Arizmendi Zulaica y Cia" was formed during World War I to produce "Ruby" type pistols as a sub-contractor for "Gabilondo Y Urresti" who had won a contract in 1916 to produce firearms for France. When the order was filled "Arizmendi Zulaica y Cia" continued to offer the pistol under the name "Cebra". At some point they also produced a revolver that was a copy of a Smith & Wesson product.

Serial Number

- serial number on the sample examined consisted of sequential numbers located on the bottom of the butt. The serial number may also be repeated on the cylinder and barrel.

Shots

- swing-out cylinder.

Notes

Model

- model number appears on the top rear of receiver/frame as Mod. 39
- designed by Gino Ravelli thus also known as the Ravelli Mod 39
- semi-automatic rifle based on the short recoil principle; developed circa 1938-39 and produced until 1940.
- sleek design with few protrusions; no external or protruding bolt handle (bolt activated by pulling on the forward part of the sling thus activating an internal mechanism which causes bolt to be retracted); fixed magazine charged by standard 6 round clips (Carcano 91 type); rear sight mounted on the receiver ring; blade front sight; wood stock and blued metal.

Manufacturer

- Armaguerra or Societa Anonima Revelli Manufacttura Armaguerra had facilities in Genoa and Cremona, Italy.

Action

- short recoil operation

Calibre

- on receiver/frame, left side

Shots

- fixed magazine, loaded using en-block stripper clips as per the model 91 CARCANO

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "ARMALITE" is marked on left side of receiver/frame.
- ArmaLite Corporation was a division of the Fairchild Engine & Airplane Corporation (1954 to 1961).
- ArmaLite Corporation logo was the winged Pegasus logo of Fairchild superimposed upon a circle with crosshairs and the word "ARMALITE" written below it.
- ArmaLite was located in Hollywood, California U.S.A from 1954 to 1959.
- ArmaLite was located in Costa Mesa, California U.S.A. from 1959 through its demise as "ArmaLite Incorporated" in the early 1980's.
- "ArmaLite Corporation" was sold in 1962 to become "ArmaLite Incorporated". The Fairchild Pegasus, winged horse was removed from the logo and replaced with a rampant lion.
- ArmaLite granted licenses to Artillerie Inrichtingen (A.I.) (1957) and Colt's Patent Firearms Manufacturing Co Inc (1959) for the manufacture of AR 10 rifles.
- "ArmaLite Corporation" was never intended to be an arms company; instead it was to produce concepts and design for guns, put on paper, prototypes would be created and then sold or licensed to company's who would actually be manufacturing them.

Model

- "AR10" is marked on the left side of the receiver/frame.
- only production prototypes manufactured.
- features include: high front sight bracket with a carrying handle housing the adjustable rear sight; metal or fiberglass top handguard/heat shield; cocking handle located inside the carrying handle; straight inline stock design; receiver/frame and upper assembly is constructed of aluminum; furniture was made of resin/fiberglass brown in color or painted black; left side belt magazine fed; quick-change barrel; folding pistol grip/handguard.

Manufacturer

- "mfd by AI (in a triangle, the Artillerie-Inrichtingen Logo) Nederland" is marked on the left side of what would normally be the magazine housing.
- manufacturers logo is marked on left side of the receiver/frame.
- logo is made of a "A" superpose over a "I" inside a rounded corner triangle partially open at its base.
- Artillerie Inrichtingen (A.I.) was located in Hembrug- Zaandam, Holland.
- production of the AR-10 and its variants was from 1957 to early 1961.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial number is marked on the left side of the receiver/frame.

Shots - belt fed.

Notes

Make

- "ARMALITE" is marked on left side of receiver/frame.
- ArmaLite Corporation was a division of the Fairchild Engine & Airplane Corporation (1954 to 1961).
- ArmaLite Corporation logo was the winged Pegasus logo of Fairchild superimposed upon a circle with crosshairs and the word "ARMALITE" written below it.
- ArmaLite was located in Hollywood, California U.S.A from 1954 to 1959.
- ArmaLite was located in Costa Mesa, California U.S.A. from 1959 through its demise as "ArmaLite Incorporated" in the early 1980's.
- "ArmaLite Corporation" was sold in 1962 to become "ArmaLite Incorporated". The Fairchild Pegasus, winged horse was removed from the logo and replaced with a rampant lion.
- ArmaLite granted licenses to Artillerie Inrichtingen (A.I.) (1957) and Colt's Patent Firearms Manufacturing Co Inc (1959) for the manufacture of AR 10 rifles.
- "ArmaLite Corporation" was never intended to be an arms company; instead it was to produce concepts and design for guns, put on paper, prototypes would be created and then sold or licensed to company's who would actually be manufacturing them.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "AR-10" is marked on the left side of the receiver/frame.
- features include: high front sight bracket with a carrying handle housing the adjustable rear sight; cocking handle located inside the carrying handle; straight inline stock design; receiver/frame and upper assembly is constructed of aluminum; furniture was made of resin/fiberglass brown in colour or painted black.
- the "Sudanese" version: three prong flash suppressor; barrel sleeve with the bayonet lug; fluted barrel; one piece non-removable handguard; buttplate with trap door; weight 3.11kg (6.85 lbs).
- "Transitional" version: combination three gas port flash suppressor, grenade launcher and bayonet lug with provision for a bipod attachment; removable metal and fibreglass handguard; non-fluted barrel; rubber buttplate; overall length with a 508mm (20") barrel is 1056.7mm (41.6") and average weight is 4.31kg (9.5 lbs).
- "Transitional" model produced in limited numbers in a civilian semi-auto only version was the "ArmaLite Sporter AR-102". A very small number of a semi-automatic "Carbine" were made as part of an arctic survival kit for the KLM Royal Dutch Airline in 1958.
- the "Portuguese" version was the last improved AR-10.
- features include: combination three port flash suppressor, grenade launcher with a bipod attachment; bayonet lug located at 12 O'clock; gas regulator on the left side of the front sight bracket; removable handguard similar to the Transitional model; handguard may be grooved for a folding bipod; two piece cocking handle located in the carrying handle; rear sling swivel on the left side of the stock; safety/selector "safe" position at 9 O'clock; weight 4.59kg (10.11 lbs).

Manufacturer

- manufacturer's logo is marked on left side of the receiver/frame.
- manufactured the AR-10 in limited numbers.
- logo is made of a "A" superpose over an "I" inside a rounded corner triangle partially open at its base.
- Artillerie Inrichtingen (A.I.) was located in Hembrug- Zaandam, Netherlands.
- production of the AR-10 and its variants was from 1957 to early 1961.

Action

- gas operated.

Serial Number

- serial number location on the "Sudanese" and "Transitional" versions is on the bottom of the magazine well and on the left side edge of the upper assembly on the "Portuguese" version.

Shots

- detachable box magazine.

Notes

Make

- "ARMALITE" is marked on the firearm.

Model

- the model is not marked on the firearm; "AR-10" or "AR 102" may be present, possibly with KLM property markings.
- this firearm is a limited production run (qty 4) of semi-automatic-only AR-10 pattern carbines manufactured by Artillerie-Inrichtingen between 1957 and 1960, under licence from the Armalite Division of Fairchild Aircraft. These rifles were purchased by KLM (Royal Dutch Airlines) as part of a "survival kit" to be carried on aircraft flying the polar route from the Netherlands to Japan. These AR-10 Rifles were "Cuban pattern" without a flash eliminator; semi-automatic-only versions of the military AR-10's that were being offered to military customers. After only two major military contracts for the AR-10 (from Sudan and Portugal), no further military contracts were forthcoming, and Artillerie-Inrichtingen ceased production of the entire family of AR-10 firearms.
- features usually include: matte parkerized/phosphated metal finish; a plain barrel without flash-hider; a front sight base without the round gas-adjustment knob of the "Portuguese model" AR-10; a ventilated or fluted synthetic forearm extending up to the front sight base; a flat-bottomed magazine well (unlike the AR 102); a cocking handle inside the carry handle/rear sight base; sling swivels; and synthetic butt and pistol-grip - Note: - the take-down pins front and rear were attached to the firearm by small lanyard chains to prevent loss when handled by unskilled users.

Manufacturer

- "ARTILLERIE-INRICHTINGEN" and/or the Artillerie Inrichtingen logo of "AI" within a rounded triangle are marked on the firearm.

Action

- gas-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Remarks - it has been reported that at the end of their service life with KLM (circa 1974) these firearms were sold off as surplus to a dealer in the USA.

Notes

Make

- "ARMALITE" is marked on the firearm.

Model

- the model is marked on the lower receiver/frame as "ARMALITE SPORTER" over "AR 102".
- (distinguishing feature of this model) a magazine well cut at an angle from the forward hinge-pin to the bottom of the trigger-guard.
- this is a limited production run of semi-automatic-only AR-10 pattern rifles manufactured by Artillerie-Inrichtingen between 1957 and 1960, under licence from the Armalite Division of Fairchild Aircraft. These rifles were initially offered as a civilian version of the military AR-10 that was being offered to military customers, but after only two major military contracts for the AR-10 (from Sudan and Portugal), no further military contracts were forthcoming, and Artillerie-Inrichtingen ceased production of the entire family of firearms.
- features usually include: matte parkerized/phosphated metal finish; a plain barrel without flash-hider; a front sight base without the round gas-adjustment knob of the "Portuguese model" AR-10; a short synthetic forearm combined with a ventilated steel barrel shroud extending up to the front sight base; a cocking handle inside the carry handle/rear sight base; sling swivels; and synthetic butt and pistol-grip.
- total production estimated at less than 35 exemplars, including a few cut-away training aid models.

Manufacturer

- "ARTILLERIE-INRICHTINGEN" and/or the Artillerie Inrichtingen logo of "AI" within a rounded triangle are marked on the firearm.

Action

- gas-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- unique to this model, there is a 30 degree cut in the magazine housing from the front of the trigger guard to the forward portion of the magazine housing approximately one centimeter below the front hinge pin which necessitates a change to the location of the firearm make logo and the serial number location.
- the serial number is found on a flat located on the lowest portion of the upper receiver/frame following the calibre marking - immediately above the Patent Pending markings on the lower receiver.
- observed serial numbers consisted of six digits with zeros used as "place holders".
- example serial number - 000031.

Shots

- detachable box magazine.

Remarks

- it has been reported that at the end of the licencing agreement with ArmaLite the manufacturer Artillerie-Inrichtingen, Zaandam, cleaned up the factory of firearms and tooling and many of these semi-automatic AR-102 firearms were sold off as surplus to firearms businesses in Canada.

Notes

Make

- "ARMALITE" name and logo are marked on the left side of the receiver/frame.
- "ARMALITE" logo is a leaping lion within the outline of a rifle scope crosshair.
- "ARMALITE" over "GENESEO, IL USA" is marked on the left side of the receiver/frame.

Model

- "AR-10A" is marked on the left side of the receiver/frame.
- "AR-10A" variations are based on the Colt AR-15/M16 design.
- "AR-10A" was introduced in 2012.
- "AR-10A" main feature is the use of the vintage AR-10, Magpul and Knights Manufacturing SR25 type magazines instead of using the M14 US rifle based magazines of the other ArmaLite 7.62mm NATO calibre rifle.
- features include: threaded muzzle for flash hider/muzzle brake; chrome lined or stainless steel barrel; folding or Picatinny rail front sight bracket/gas block that may be adjustable; synthetic or Picatinny rail handguard; A4 Picatinny rail flat top upper assembly; may have adjustable sights, folding sights or optical sight; collapsible, standard or custom rifle buttstock; synthetic pistol grip; furniture may be coloured; matte black metal finish.
- overall length with a 406mm (16") barrel is 889mm (35") with the stock collapsed, average weight is 3.6kg (7.9lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "ARMALITE" name and logo are marked on the left side of the receiver/frame. - "ARMALITE" logo is a leaping lion within the outline of a rifle scope crosshair. - "ARMALITE" over "GENESEO, IL USA" is marked on the left side of the receiver/frame.
Action	- gas operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of referenced examples consisted of a one letter prefix (A) and six numbers.
Calibre	- "7.62 MM" is marked on the left side of the receiver/frame. - 7.62MM NATO rifling characteristics: 1 turn in 10 and 11.25 inches, right hand twist.
Shots	- detachable box magazine. - uses all magazines available for the 308 WIN/7.62MM calibre variant of the AR15/M16 type rifles from DPMS, MagPul LAR-308 and Knights Manufacturing (SR25).

Notes

Make

- ArmaLite's "cross hairs and flying horse" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Model

- new for November 1998.
- designed to meet the nostalgia market for the original AR-A and AR-15 rifles; this rifle has been produced in several sub-variants, including "flat-top" and "carry-handle" versions.
- the "carry-handle" version has the cocking lever on top of receiver and under the sight handle. This cocking lever looks like an upside - down trigger. The "flat-top" version has an AR-15/M16-style cocking T-handle at the upper rear of the receiver.
- these rifles may be seen with a variety of tapered, round, or ribbed handguards, and with synthetic furniture in a variety of finishes/colours.

Manufacturer

- ArmaLite's "cross hairs and flying horse" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Action

- gas operated, magazine fed, semi-automatic rifle.

Serial Number

- serial number rationalization as follows: two letter prefix "US" followed by a space and numbers.

Calibre

- the firearm is clearly marked 7.62MM on the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine. - detachable box magazine; this firearm uses modified magazines from the M14/M1A family of rifles.
Remarks	- Wolverine Supplies of Virden, Manitoba is the exclusive Canadian distributor for Armalite Incorporated & Eagle Arms products.

Notes

Make

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "AR-10(T)" is marked on the left side of the receiver/frame.
- "T" in the model designation is the abbreviation for Target.
- "T" series of firearms features a free-floating handguard.
- this firearm is of the design commonly known as the AR-15/M-16 rifle.
- barrel: stainless steel, heavy target.
- upper receiver: forged flattop.
- both the AR-10 T Rifle and the AR-10 T Carbine are covered by this screen.
- "AR-10(T)" is marked on the left side of the receiver/frame.
- "AR-10(T)" variants are based on the Colt AR-15/M16 design.
- "T" stands for "Target".
- "T" series main features are a stainless steel barrel and a free-floating handguard.
- "AR-10(T)" is available in rifle and carbine variants.
- features include: unthreaded or threaded muzzle for flash hider/muzzle brake; heavy contour barrel; Picatinny rail front sight bracket/gas block; tubular, free floating handguard; A3 Picatinny rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; standard or after market target rifle buttstock; synthetic pistol grip; coloured furniture and/or matte black finish.
- overall length with a 508mm (20") barrel is 1006mm (39.6"), average weight is 4.67kg (10.3lbs).

Manufacturer

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" is marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of referenced examples consisted of a two letter prefix (US) and six numbers.

Calibre

- "7.62MM" is marked on the left side of the receiver/frame.
- "243 WIN" calibre designation may be only marked on the barrel as "243".
- all other calibres will also be marked on the barrel and on the left side of the upper assembly, over the magazine well area.
- 7.62MM NATO rifling characteristics: 1 turn in 10 or 11.25 inches, right hand twist.
- 338 FEDERAL rifling characteristics: 1 turn in 10 inches, right hand twist.
- 260 REM rifling characteristics: 1 turn in 8 inches, right hand twist.

Shots

- detachable box magazine.

Notes

Make

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "RIFLE, 5.56MM" over "AR-180B" is marked on the left side of the magazine housing of the receiver/frame.
- "AR-180B / 5.56mm" is marked on the left side of the upper assembly.
- "AR-180B was manufactured from 2003 to 2007.
- features include: originally integral or threaded for muzzle flash hider/muzzle brake; straight profile barrel; front sight with protecting ears, gas block assembly; short recoil, gas piston operated; sheet metal module, protected "L" shaped rear sight with right, traversing adjustment knob; two piece, synthetic handguard; formed, sheet metal upper assembly with dovetailed optic mount base or accessory rail on the top; molded polymer lower receiver/frame; left side mounted safety lever; right side mounted bolt cocking handle;
- some parts such as the upper receiver/frame complete with the barrel are interchangeable with the first generation AR180.
- the lower receiver/frame, which is the serialized component, cannot be interchanged with the original AR180.
- overall length with a 508 mm barrel is 965 mm (38"), and the average weight is 2.72 kgs (6 lbs).

Manufacturer

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the lower receiver/frame.
- observed serial number consisted of six numbers without a letter prefix or suffix.
- observed serial number consisted of a two letter "US" prefix and six numbers.

Barrel

- barrel length includes an integral flash hider/muzzle brake unit.
- the US manufacturer has modified the design to include a screw on/off muzzle attachment effectively shortening the barrel to 462MM.

Calibre

- marked on the left side of the receiver/frame.
- 5.56MM NATO rifling characteristics: 1 turn in 9 inches, right hand twist.

Shots

- detachable box magazine.
- sold standard with a ten shot magazine.
- accepts standard AR-15 / M-16 pattern magazines.

Importer

- Wolverine Supplies of Virden, Manitoba is the exclusive Canadian distributor for Armalite Incorporated & Eagle Arms products.

Remarks

- this firearm is capable of mounting any AR-180 series rifle upper receiver/frame unit to the new polymer lower introduced in this model.
- the upper receiver/frame unit is identical to the original AR-180 first generation production items.
- two versions of this firearm exist, one with integral muzzle attachment and one with a screw on/screw off muzzle attachment resulting in a RESTRICTED and a NON RESTRICTED version by barrel length of this firearm model.

Notes

Make

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Model

- This firearm is of the design commonly known as the AR-15/M-16 rifle.
- The basic "M15" is available in several sub-models, variations in "A2" configuration feature an integral carry handle/rear sight assembly on the upper receiver and a fixed front sight. Variations in "A4" configuration feature a "flat-top" upper receiver with an integral picatinny rail for mounting optical, iron (rear) or laser sights and a picatinny rail front sight base.
- "M15A2" is marked on left side of receiver/frame (without the letters "NM", "Service Rifle" or "Carbine").
- The "NM" (National Match) is a target-oriented model and has a stainless steel barrel.
- In 2003 Armalite introduced the M15A2 SOF (Special Operation Forces) model in carbine configuration. This model features a fixed (permanently extended to comply with U.S. law) telescoping style buttstock.
- Features include: stainless or blued steel barrels with or without a flash suppressor; fixed sights; plastic pistol grip, buttstock and handguard.

Manufacturer

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Action

- Capable of full automatic fire.
- Gas operated.
- Select fire.

Notes

Make

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the the left side of the receiver/frame.

Model

- this firearm is of the design commonly known as the AR-15/M-16 rifle.
- the basic "M15" is available in several sub-models, variations in "A2" configuration feature an integral carry handle/rear sight assembly on the upper receiver and a fixed front sight. Variations in "A4" configuration feature a "flat-top" upper receiver with an integral picatinny rail for mounting optical, iron (rear) or laser sights and a picatinny rail front sight base.
- "M15A2" is marked on left side of receiver/frame (without the letters "NM", "Service Rifle" or "Carbine").
- the "NM" (National Match) is a target-oriented model and has a stainless steel barrel.
- in 2003 Armalite introduced the M15A2 SOF (Special Operation Forces) model in carbine configuration. This model features a fixed (permanently extended to comply with U.S. law) telescoping style buttstock.
- features include: stainless or blued steel barrels with or without a flash suppressor; fixed sights; plastic pistol grip, buttstock and handguard.

Manufacturer

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a two letter prefix (US) and five or six numbers.

Barrel

- there are many after-market accessory barrels in different configuration, calibre and barrel length which may be installed on this firearm.

Calibre

- calibre identification is marked on the left side of the receiver/frame.
- calibre identification is also usually marked on the barrel.
- 5.56MM NATO rifling characteristics: 1 turn in 8 inches or 9 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- Introduced in 1995-1996.
- This is a generic entry. Other "M15A4" model entries exist which might better describe the firearm.
- this firearm is of the design commonly known as the AR-15/M-16 rifle.
- the basic "M15" is available in several sub-models, variations in "A2" configuration feature an integral carry handle/rear sight assembly on the upper receiver and a fixed front sight. Variations in "A4" configuration feature a "flat-top" upper receiver with an integral picatinny rail for mounting optical, iron (rear) or laser sights and a picatinny rail front sight base.
- "M15A4" is marked on left side of receiver/frame.
- in 2003 Armalite introduced the M15A4 SOF (Special Operation Forces) model in carbine configuration. This model features a fixed (permanently extended to comply with U.S. law) telescoping style buttstock.
- features include: stainless or blued steel barrels with or without a flash suppressor; plastic pistol grip, buttstock and handguard.

Manufacturer

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a one or two letter prefix and five or six numbers.

Barrel

- there are many factory standard barrel lengths available that will fit this firearm.

Calibre

- these firearms are identified to 5.56MM NATO calibre by marking on the left side of the lower receiver.
- the calibre appears as 5.56MM without the word "NATO".
- "5.56 MM" or ".223 REM" is marked on the left side of the receiver/frame.
- calibre identification is also marked on the barrel.
- all other calibre will also be marked on the barrel and on the left side of the upper assembly, over the magazine well area.
- 5.56MM NATO/223 REM rifling characteristics: 1 turn in 8 inches or 9 inches, right hand twist.
- 6.8MM SPC rifling characteristics: 1 turn in 11 inches, right hand twist.
- 7.62X39 RUSSIAN rifling characteristics: 1 turn in 10 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- "ARMALON LTD." is marked on the right side of the receiver/frame.
- "Armalon" was developed around 1997.

Model

- The model designation is not marked on the firearm.
- This is a highly-customized "Lee-Enfield" rifle, converted to detachable pistol magazine feed, and reworked to produce as highly-accurate a sniper rifle as possible, similar in concept to the Delisle rifle. These rifles are built to customer order, and can have a range of features, including fluted or plain barrels, and detachable/integral suppressors.
- Features may include: matte blued or parkerized finish; the customer's choice of stock style; open sights or optical sight mounts; and various other options.

Manufacturer

- "ARMALON LTD." is marked on the right side of the receiver/frame.

Action

- Turn bolt operated.

Serial Number

- numbered on the receiver/frame; these rifles are highly-reworked Lee-Enfield No 4 Mk 1 rifles, and may bear multiple make/manufacturer/serial number markings.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.
- other barrel lengths available on order.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- other calibres available on order.
Shots	- Detachable box magazine. - These rifles use standard handgun magazines from a variety of handguns, depending on the calibre.

Notes

Make

- the maker's designation may be marked on the bottom of the barrels and the top of the water table as "J.B.".

Model

- model is not marked on firearm.
- features include: two piece checkered stock; double triggers inside an oval trigger guard; folding models are opened by a lever that looks like a third trigger in front of the trigger guard.
- an observed sample featured a barrel band at the muzzle on which the bead front sight was mounted, sighting notch in the top of the receiver/frame, extractors, blued barrels and a colour case hardened receiver/frame.

Manufacturer

- "J.B.", the manufacturer's designation may be marked on the top of the water table and the bottom of the barrel assembly.
- Armas Bost manufactured firearms in Eibar, Spain. "JB" are the manufacturer's code letters for Jose Bolumburu.

Action

- over & under barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the water table of the receiver/frame and repeated on the underside of the barrel assembly.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Calibre

- the calibrer designation fo 410 GA X 3" may be marked on the watertable of the receiver/frame as "12mm 76.2".

Notes

Make

- the make is stamped on the right barrel near the breech.

Model

- the model designation does not appear on the firearm.
- this is a side by side, top break, hammerless, box lock shotgun with extractors.
- case hardened receiver/frame, double triggers, two bead sights, automatic safety.
- checkered walnut stock with English style straight grip and light engraving on the receiver/frame.
- Armas Bost shotguns were apparently imported by Richland Arms Co. of Blissfield, Michigan in the 1960's.

Manufacturer

- the manufacturer's name appears on the right barrel near the breech and the manufacturers code "JB" is stamped on the watertable and the breech end of the barrels.
- Armas Bost is located in Eibar, Spain.
- the manufacturer's logo is marked on the right and left barrel near the breech and on the upper tang foreward of the opening lever.

Action

- side by side.

Serial Number

- serial number may be marked on the watertable of the receiver/frame, the breech end of the barrels and the forestock.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Calibre

- gauge and chamber length is marked on the water table.
- gauge, chamber length and chokes are marked on the under side of the barrel.

Other Markings

- Spanish proof marks on underside of the barrels.

FRT Report

Firearm Reference Number (FRN): 78691
Make: Armas Erbi
Model: GH

Summary

Make:	Armas Erbi
Model:	GH
Manufacturer:	Armas Erbi
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
78691 - 1	12 GA X 3"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARMAS ERBI" and/or "ARMAS ERBI S.C.I." and/or "ARMAS ERBI S.C.I. ELGOIBAR MADE IN SPAIN" is marked on the side of the receiver/frame and/or barrel assembly.
- "BEST" and/or "BEST-JI-ERBI" and/or "ERBI" may be marked on the watertable and/or the barrel flats.

Model

- model designation markings unknown.
- side by side, of fairly high quality workmanship.
- hand detachable sidelocks
- Purdey triple bolting system.
- side clips.
- selective automatic ejectors.
- Holland style self-opening mechanism.

Manufacturer

- "ARMAS ERBI" and/or "ARMAS ERBI S.C.I." and/or "ARMAS ERBI S.C.I. ELGOIBAR MADE IN SPAIN" is marked on the side of the receiver/frame and/or barrel assembly.
- "BEST" and/or "BEST-JI-ERBI" and/or "ERBI" may be marked on the watertable and/or the barrel flats.

Action

- side by side barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is usually located on the watertable of the receiver/frame and/or underneath the barrel at the chamber area.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121936 - 2	12 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
121936 - 1	12 GA X 3"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
121936 - 3	20 GA X 3"	2	711	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
121936 - 4	410 GA X 3"	2	660	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "ARMAS ERBI" and/or "ARMAS ERBI S.C.I." and/or "ARMAS ERBI S.C.I. ELGOIBAR MADE IN SPAIN" will be marked on the side of the receiver/frame and/or barrel assembly.
- "BEST" and/or "BEST-JI-ERBI" and/or "ERBI" may be marked on the watertable and/or the barrel flats.

Model

- the model designation is not marked on the firearm.
- features include: side by side barrels with matted raised rib and bead front sight; front hinged receiver/frame with top tang mounted break-open lever and automatic sliding safety; box lock action; double triggers; automatic ejectors; checkered wood beavertail forend and pistol grip butt stock with recoil pad; sling swivels.

Manufacturer

- "ARMAS ERBI" and/or "ARMAS ERBI S.C.I." and/or "ARMAS ERBI S.C.I. ELGOIBAR MADE IN SPAIN" will be marked on the side of the receiver/frame and/or barrel assembly.
- "BEST" and/or "BEST-JI-ERBI" and/or "ERBI" may be marked on the watertable and/or the barrel flats.

Action

- side by side barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the watertable of the receiver/frame and repeated on the barrel flats.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Calibre

- the gauge and chamber length are marked on the barrel assembly, eg.
"12 GAUGE 3" CHAMBER" and/or "12-76".

Firearm Reference Number (FRN): 34866
Make: Armas Garbi
Model: 51A

Summary

Make:	Armas Garbi
Model:	51A
Manufacturer:	Armas Garbi
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
34866 - 1	12 GA X 2 3/4"	2	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
34866 - 2	12 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
34866 - 3	12 GA X 2 3/4"	2	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this is a side by side English style shotgun with extractors, colour-case hardened receiver, and straight grip buttstock.

Action

- side by side pattern.

Serial Number

- serial number is usually marked on the watertable of the receiver/frame.
- serial number range pre-1995 was from approximately 1,000 to 17,670.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- an example of a serial number is as follows: "27 - 03 - #0# - 95".
- serial number break down, the first two numbers (27) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Barrel

- other barrel lengths possible, but not specified in reference.

Notes

Make

- "ARMAS GARBI" or "GARBI - BORN" could be marked in a banner on the both side of the receiver/frame.

Model

- this is a custom made, side by side, double rifle with deluxe stock and finish; amount and style of engraving, inlays, etc. left to customers taste.
- model is not marked on the firearm.
- introduced in 1997.
- features include: round side by side rifled barrels with a ramped front sight and adjustable rear sight; front hinged receiver/frame with a top tang mounted break open lever and safety/barrel selector; sidelock action; hammerless; double triggers; automatic selective ejectors; checkered wood forearm and pistol grip buttstock.

Manufacturer

- "ARMAS GARBI" may be marked on the receiver/frame.

Action

- side by side barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer. - an example of an Arrieta serial number is as follows: "27 - 06 - #0# - 95". - serial number break down, the first two numbers (27) are the code numbers for the manufacture, the next two numbers (06) are the code numbers for rifle, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.
Barrel	- other barrel lengths possible, but not specified in reference; 25"/635mm is likely to be the longest seen.

Notes

Make

- "ARMAS GARBI" may be marked on the barrel assembly or on the receiver/frame.

Model

- model designation is not marked on the firearm.
- this is a generic entry for those Armas Garbi side by side shotguns that are not identifiable as to model.
- features may include: side by side barrels with solid rib and bead front sight; front hinged receiver/frame with top tang mounted break open lever; double triggers; checkered splinter forearm and pistol grip buttstock; engraved receiver/frame.

Manufacturer

- "ARMAS GARBI" may be marked on the barrel assembly or on the receiver/frame.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number is usually marked on the water table.
- observed serial number consisted of a two letter "RA" prefix and four numbers.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Notes

Model

- this is a side by side sidelock shotgun with ejectors, nickel-chrome barrels, select walnut stock, and full scroll engraved receiver.

Action

- side by side pattern.

Serial Number

- serial number is usually marked on the watertable of the receiver/frame.
- serial number range pre-1995 was from approximately 1,000 to 17,670.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- an example of a serial number is as follows: "27 - 03 - #0# - 95".
- serial number break down, the first two numbers (27) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Barrel

- other barrel lengths possible, but not specified in reference.

FRT Report

Firearm Reference Number (FRN): 121142
Make: Armas Jabe
Model: Side By Side

Summary

Make:	Armas Jabe
Model:	Side By Side
Manufacturer:	Armas Jabe
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121142 - 2	12 GA X 2 3/4"	2	710	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
121142 - 1	28 GA X 2 3/4"	2	699	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- maker's designation is marked on the firearm.

Model

- no model name is marked on this firearm.
- this is a generic entry for all side by side pattern shotguns made by Armas Jabe that bear no model designation.
- features may include: box lock or side lock action; top, side, under lever opening; double triggers; double exposed hammers or hammerless.
- Spanish proof marks are usually apparent on the barrels and/or receiver/frame.

Manufacturer

- manufacturer's designation is marked on the firearm.

Action

- side by side barrel configuration.

Serial Number

- serial number is marked on the receiver/frame
- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is usually marked on the barrels and/or the receiver/frame.
Other Markings	- "Escopetas JABE" may be marked on the firearm. (escopetas is a spanish word for shotgun)

FRT Report

Firearm Reference Number (FRN): 179322
Make: Armas Tomas
Model: Blunderbuss

Summary

Make:	Armas Tomas
Model:	Blunderbuss
Manufacturer:	Armas Tomas
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
179322 - 1	60 PERCUSSION	1	392	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- "ARMAS-TOMAS" is marked on the top of the barrel. - "ARMAS-TOMAS" over "ALCOY" is marked on the sideplate.
Model	- model is not marked on the firearm. - a year date of manufactuer is marked on the barrel with observed examples in the 1970s. - features include: large, flared, brass muzzle attachment on a blued barrel; no sights; engraved sidelock with external hammer; brass trigger guard; deeply carved stock; steel buttplate secured with tacks.
Manufacturer	- "ARMAS-TOMAS" and "ALCOY" over "MADE IN SPAIN" and "1975" is marked on the top of the barrel.
Action	- muzzle loading, percussion ignition system.
Serial Number	- serial number is marked on the nipple shield and repeated on the trigger guard. - observed sample serial number consisted of four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- the percussion ignition, Spanish Blunderbuss made by Armas-Tomas was found to be capable of discharging a projectile (9.25mm calibre) having a mass of 80.24 grains, at a muzzle velocity that exceeded 152.4 metres per second with a muzzle energy that exceeded 5.7 Joules. The Spanish Blunderbuss made by Armas-Tomas, meets the Criminal Code Section 2 definition of a "firearm".
- the Spanish Blunderbuss made by Armas-Tomas has a barrel length of 392mm (15.43") with two interior diameters and has an overall length that exceeds 660mm which is consistent with the Criminal Code PART III, Section 84 legal class of "non-restricted firearm".
- the Armas-Tomas manufactured Spanish Blunderbuss firearm is fired by means of a percussion ignition system and was manufactured in 1975; therefore, it does not qualify as an "antique" firearm.
- the bore of the Spanish Blunderbuss made by Armas-Tomas is not obstructed and the capability of the firearm to discharge a projectile at a velocity in excess of 152.4 metres per second with an energy yield in excess of 5.7 Joules leaves the concept of "exclusivity of purpose" found in the Criminal Code PART III, Section 84 (3) (b) in doubt. For this reason the Spanish Blunderbuss, made by Armas-Tomas, does not qualify as a blank firing device. The velocity data disproves any exemption per Criminal Code PART III, Section 84 (3) (d).

Notes

Make

- "ARMED" was observed marked on the right side of the receiver/frame.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks used by the sales & export company, Izmirlioglu Av Malzemerleri San. Tic. Ltd. Sti. of Izmir, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks manufactured by Doruk Silah San. Tic. Ltd. Sti. of Konya, Turkey.

Model

- "Combat 6" was introduced in 2019.
- "Combat 6" is marked on the receiver/frame.
- "Combat 6" is a magazine feed pump action shotgun with a barrel shroud with a pistol grip or optional telescopic stock.
- features include: round, tapered barrel; ventilated barrel shroud; fixe choke; ramped fiber optic front sight; solid top receiver/frame grooved for accessory rail; right side ejection; magazine feed; cross bolt safety located at the rear of the trigger guard; synthetic serrated forearm and pistol grip; black finish.
- overall length with a 356mm (14") barrel is 640mm (25").

Manufacturer

- "ARMED" was observed marked on the right side of the receiver/frame.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks used by the sales & export company, Izmirlioglu Av Malzemerleri San. Tic. Ltd. Sti. of Izmir, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks manufactured by Doruk Silah San. Tic. Ltd. Sti. of Konya, Turkey.

Action

- slide action.

Serial Number

- serial number is marked on the receiver/frame.
- serial number of referenced examples consisted of a two letter prefix (CA), two numbers, a dash and four numbers.

Calibre

- calibre designation is marked on the barrel.

Shots

- detachable box magazine.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

Notes

Make

- "ARMED" was observed marked on the right side of the receiver/frame.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks used by the sales & export company, Izmirlioglu Av Malzemerleri San. Tic. Ltd. Sti. of Izmir, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks manufactured by Doruk Silah San. Tic. Ltd. Sti. of Konya, Turkey.

Model

- "Gladiator" was observed marked on the right side of the receiver/frame.
- features include: blade and fibre optic or fibre optic front sight; round tapered smooth bore barrel with or without a ventilated rib; solid top alloy receiver/frame with right side ejection and bottom loading; action release lever is located in front of the trigger guard; cross bolt safety is located on the rear of the trigger guard; single action trigger mechanism; synthetic or wood forearm and traditional sporting type semi-pistol grip buttstock, pistol grip only or a pistol grip with a top folding buttstock; sling swivels; black or carbon plated finish.
- overall length with a 330 mm (13") barrel and pistol grip only is 581 mm (22 7/8"), and the average weight is 2.15 kg (4.7 lbs).
- overall length with a 330 mm (13") barrel and a top folding buttstock in the closed position is 581 mm (22 7/8") and in the extended position is 851 mm (33.5").
- overall length with a 330 mm (13") barrel and a full length traditional sporting pistol grip buttstock is 851 mm (33.5")
- overall length with a 508mm (20") barrel and pistol grip only is 762 mm (30"), and the average weight is 2.68 kg (5.9 lbs).
- overall length with a 508mm (20") barrel and a top folding buttstock in the closed position is 762 mm (30") and in the extended position is 1029 mm (40.5"), and the average weight is 2.76 kg (6.08 lbs).
- overall length with a 508mm (20") barrel and a full length traditional sporting pistol grip buttstock is 1029 mm (40.5"), and the average weight is 2.77 kg (6.11 lbs).
- overall length with a 711mm (28") barrel and a full length traditional sporting pistol grip buttstock is 1222 mm (48 1/8"), and the average weight is 3.25 kg (7.2 lbs).

Manufacturer

- Doruk Silah San. Tic. Ltd. Sti. is located in Konya, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks used by the sales & export company, Izmirlioglu Av Malzemerleri San. Tic. Ltd. Sti. of Izmir, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks manufactured by Doruk Silah San. Tic. Ltd. Sti. of Konya, Turkey.

Serial Number

- serial number was observed marked on the right side of the receiver/frame above the trigger.
- serial number observed consisted of four numbers without a letter prefix or suffix.
- serial number observed consisted of a two letter "PA" prefix and four numbers.

Shots

- tubular magazine is mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "ARMED" was observed marked on the receiver/frame.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks used by the sales & export company, Izmirlioglu Av Malzemerleri San. Tic. Ltd. Sti. of Izmir, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks manufactured by Doruk Silah San. Tic. Ltd. Sti. of Konya, Turkey.

Model

- model designation is not marked on the firearm.
- features observed: blued round tapered smoothbore barrel with or without a ventilated rib and with a bead front sight; nickel plated front hinged receiver/frame; break open release may be the trigger guard or a lever in front of the trigger guard or a lever mounted on the right side of the receiver/frame; hammerless or with an exposed hammer; synthetic or wood forearm and a full length pistol grip buttstock or a pistol grip only; sling swivels.
- overall length with a 711 mm barrel is 1100 mm (43"), and average weight is 3.2 kgs (7.04 lbs).
- overall length with 330 mm (13") barrel and full length pistol grip buttstock configuration is 730 mm (28 3/4") and the average weight is 1.66 kg (3.66 lbs).
- overall length with 356 mm (14") barrel and pistol grip only configuration is 485 mm (19 1/8").
- overall length with 381 mm (15") barrel and pistol grip only configuration is 500 mm (19 5/8").
- overall length with 406 mm (16") barrel and pistol grip only configuration is 525 mm (20 3/4").
- overall length with 470 mm (18 1/2") barrel and pistol grip only configuration is 589 mm (23 1/8").

Manufacturer

- Doruk Silah San. Tic. Ltd. Sti. is located in Konya, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks used by the sales & export company, Izmirlioglu Av Malzemerleri San. Tic. Ltd. Sti. of Izmir, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks manufactured by Doruk Silah San. Tic. Ltd. Sti. of Konya, Turkey.

Action

- hinged barrel design.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "ARMI JAGER - MOD. A.P. 74 - MADE IN ITALY - CAL. 22 L.R." may be marked on the right side of the receiver/frame, or
- "ARMI JAGER LOANO ITALY - AP 74 - 22 L.R. - CAT. 1406" may be marked on the right side of the receiver/frame.

Model

- "ARMI JAGER - MOD. A.P. 74 - MADE IN ITALY - CAL. 22 L.R." may be marked on the right side of the receiver/frame, or
- "ARMI JAGER LOANO ITALY - AP 74 - 22 L.R. - CAT. 1406" may be marked on the right side of the receiver/frame.
- the letters "AA" on the left side of the firearm indicate this firearm was manufactured circa 1975.
- features include: integral carry handle above action; black painted two piece stock; military style pistol grip; replica gas tube.
- styled after the U.S. M16.

Manufacturer

- "ARMI JAGER - MOD. A.P. 74 - MADE IN ITALY - CAL. 22 L.R." may be marked on the right side of the receiver/frame, or
- "ARMI JAGER LOANO ITALY - AP 74 - 22 L.R. - CAT. 1406" may be marked on the right side of the receiver/frame.

Action

- blowback operated, no mechanical breech lock.

Serial Number

- serial number is marked on the left side of the upper receiver.
- observed serial number consists of five or six numbers without a letter prefix or suffix.
- "CAT. 1406" was observed marked on the right side of the firearm.
- "1406" is not the serial number, this is an Italian Proof House catalogue number.

Barrel

- barrel may come with or without flash suppressor.

Calibre

- calibre designation is marked on the right side of the firearm.

Shots

- detachable box magazine.

- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Model

- the model may not be marked on the firearm.
- this is a modern reproduction of a metallic-cartridge conversion of the Colt 1851 Navy percussion revolver to use centrefire metallic cartridges, a common post-Civil War practice seen on many original Colt percussion revolvers.
- features include: blued finish; fixed open sights; an original-style "open-top" Colt percussion receiver/frame with a conversion barrel having a manually-operated ejector-rod (rather than a loading rammer of the original percussion system); blued or colour-case-hardened receiver/frame; non-fluted cylinder; and smooth wooden grips.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Made in Italy" or "Italy" is marked on the firearm - "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm. - "ASM" is the abbreviation for "Armi San Marco". - "Armi San Marco" was located in Gardone, Italy. - "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000. - "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000. - "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004. - "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.
Action	- single-action revolver.
Serial Number	- serial-numbered on the receiver/frame.

Notes

Make

- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".

Model

- this is a generic screen for a firearm having a close resemblance to the Colt 1860 Army revolver in appearance, size, and features, and for which the "Model" cannot be determined because it is unmarked, or not known.
- this firearm is a six-shot, open-framed, front-loading, percussion revolver, in .44 percussion caliber, with a rounded loading cut in the lower barrel-lug in front of the bottom chamber.
-it consists of three major components: a) the steel front barrel assembly carrying a loading lever; b) the receiver/frame assembly consisting of the receiver/frame, trigger-guard, and back-strap of brass, iron, or steel, and which houses the internal parts consisting of the trigger, hammer, pawl, cylinder stop, and springs; c) the steel cylinder which is comprised of a central axis bored through, the six chambers are open to the front, with six nipples for percussion caps at the rear of each chamber.
- the cylinder slips over the barrel axis, which is attached to the receiver/frame.
- the barrel assembly is joined to the receiver/frame assembly by a laterally slotted key through the cylinder axis.
- the square-bottomed hand-grips are usually one-pieced of walnut or hardwood.

Manufacturer

- "Made in Italy" or "Italy" is marked on the firearm.
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Serial Number

- marked on the forward under-side of the receiver/frame.

Notes

Make

- "Made in Italy" or "Italy" is marked on the firearm
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a modern reproduction of the Colt 1872 "Open Top" single-action revolver, the immediate precursor to the Colt 1873 Single Action Army; this revolver was a metallic cartridge transition between the open-top two-piece frame and barrel of Colt's percussion revolvers, to the stronger one-piece frame with integral barrel of the Colt 1873, and can be recognized by the lack of a topstrap and a fixed rear sight at the cylinder end of the detachable barrel.
- features include: blued barrel and frame; fixed open sights; spring-loaded ejector rod in a housing at the lower right of the barrel; a rounded barrel lug that curves down to engage the front of the frame via two anti-rotation pins; a brass trigger-guard and gripstrap; non-fluted cylinder; and smooth wooden grips.

- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Model

- the model may not be marked on the firearm.
- this is a shortened "bird's-head" version of the Colt 1873 Single Action Army revolver, ostensibly named after the Pinkerton Detective Agency.
- features may include: standard Colt 1873 SAA layout and operation; nickeled, blued, or colour-case-hardened finish; fixed open sights; manually-operated ejector-rod; fluted cylinder; manually-cocked hammer; single-action trigger mechanism; and smooth wooden grips on a "bird's-head" grip-frame.

Manufacturer

- "Made in Italy" or "Italy" is marked on the firearm
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Action

- single-action revolver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial-numbered on the receiver/frame.

16403 - 1	58 FLINTLOCK	1	181	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".

Model

- this is a reproduction of Scottish Highland muzzle loading black powder flintlock all-metal pistol known as Scottish Black Watch Pistol.
- features include: round tapered smoothbore barrel; one piece ram's head shaped brass grips and frame; trigger is shaped like a ball; color case hardened lock and trigger; white steel belt hook and steel ramrod.
- a very similar pistol, the "Murdoch Pistol" is known under several similar names, and must not be confused with the "Black Watch" pistol; where the "Murdoch" pistol has a "ram's-head" butt, with curlicue extensions that help to protect a ball-headed vent-pick threaded into the butt, the "Black Watch Pistol" is made with an all-brass butt and stock, with a double-lobed "kidney-shaped" butt that allows the pistol to be used as a club after the shot is fired.

Manufacturer

- "Made in Italy" or "Italy" is marked on the firearm
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Action

- muzzle loader flintlock.

Serial Number

- the serial number is marked on the firearm.
- observed specimen had five digits.

Notes

Make

- "Armi San Marco" is marked on the firearm.

Model

- the model is not marked on the firearm; this is the name under which Smith & Wesson originally sold this design of revolver, colloquially known as the "Schofield" revolver, after the designer.
- this is a modern reproduction of the Smith & Wesson Top Break No 3 Single Action revolver, made in various barrel lengths.
- features include: typical Schofield layout and operation; top-break revolver with automatic ejection; fixed open sights on a barrel rib; top-break thumb latch at the top rear of the receiver/frame; colour-case-hardened hammer, thumb latch, trigger and trigger-guard; and square-butt grip-frame with smooth walnut grips; blued or nickel finish.

Manufacturer

- "Armi San Marco" is marked on the firearm.

Action

- top-break revolver.

Serial Number

- serial number is marked on the receiver/frame.

Notes

Make

- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model designation is not marked on the firearm.
- this is a copy of the Tingle Model 1960 percussion pistol as originally produced by Tingle Manufacturing Company.
- this is a muzzle loading, single action pistol of unusual design featuring a barrel that is easily removed from the receiver/frame for cleaning.
- features include: ramp Patridge-type front sight and large square-notched rear sight adjustable for windage; octagonal barrel; exposed spur hammer centrally located at rear of receiver/frame; square-back brass trigger guard.
- has a removable under-barrel support web fixed to the front of the receiver/frame; this web extends for approximately half the length of the barrel.
- grip frame is very similar to the Colt 1860 Army in configuration.

Manufacturer

- "Made in Italy" or "Italy" is marked on the firearm.
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Serial Number

- known example had four digit number without prefix or suffix marked on the underside of the receiver/frame.

Calibre

- known example had calibre designation marked on rear of barrel, eg., "Cal .44".

Other Markings

- known example marked, "Black Powder Only" and "Made in Italy" on the barrel.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128961 - 1	58 PERCUSSION	1	965	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "Armi San Paolo" or "San Paolo" or "DDG" is marked on the barrel.

Model

- model designation is not marked on the firearm.
- "1862 L.A.Co" was observed marked on the side plate.
- this is a modern reproduction of an Enfield Pattern 1853 Rifle which was originally manufactured by the London Armoury Company (L.A. Co.) in 1862.
- features include: full length walnut stock; three barrel bands; sling swivels attached to the first barrel band and to the butt stock; blade front sight and adjustable rear sight; ramrod.

Manufacturer

- "Armi San Paolo" or "San Paolo" or "DDG" is marked on the barrel.

Action

- muzzle loader.

Serial Number

- serial number is marked on the lock plate.
- observed serial number consisted of four numbers without a letter prefix or suffix.

Remarks

- L.A.Co./London Armoury Company Limited was founded in 1856. The founding of this new company effectively put an end to / dissolved the partnership of the firm Deane, Adams & Deane. The mechanical manufacturing assets of the old firm Deane Adams & Deane were sold to the London Armoury Company by Robert Adams as well as the Adams patent rights and Robert Adams was engaged as the plant manager for a period of seven years.
- the London Armoury Company was formed, like the Birmingham Small Arms Company, to compete more efficiently with the proposed Royal Small Arms Factory at Enfield Lock which opened in1857. The London Armoury Company was dissolved, reconstituted and incorporated as The London Small Arms Company Limited in 1866. During the years of its operation the London Armoury Company Limited used a frame stamping of LAC to identify some of its products.
- the London Small Arms Company Limited operated from 1866 to 1920 at the Victoria Mill on the Old Ford Road in London England. In 1921 the company moved to the Albion Works on Ossary Road and carried on operations until 1925. The company was dissolved in 1935.

145943 - 1	44-40 WIN	15	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARMI SAN PAOLO BRESCIA ITALY" is usually marked on the barrel.

Model

- model designation is not marked on the firearm.
- "Model 1873" is marked on the top rear tang of the receiver/frame.
- this is a modern reproduction of the Winchester Model 1873 lever action rifle.
- features include: fixed blade front sight and an adjustable rear sight; octagonal or round, rifled barrel with or without barrel bands; open top, flat sided 1873 type receiver/frame with sliding top action cover, right side loading gate, and brass cartridge lifter; exposed spur hammer; single action trigger mechanism; close loop operating lever; walnut forearm with or without a metal forend cap and straight grip buttstock with a curved metal butt plate; blued metal finish with or without engraving.
- sliding action cover protects the ejection port from debris.

Manufacturer

- "ARMI SAN PAOLO BRESCIA ITALY" is usually marked on the barrel.

Serial Number

- serial number was observed marked on the underside of the receiver/frame, forward of the operating lever.
- serial number observed consisted of four numbers without a letter prefix or suffix.

Calibre

- calibre is usually marked on the underside of the cartridge lifter.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - tubular magazine is mounted under the barrel.

Notes

Make

- "AC ARMI SPORT - ITALY" or "ARMI SPORT - ITALY" or "AC ARMI SPORT" or "ARMI SPORT" is marked on the firearm.
- Chiappa Group consists of the following: ACP, AIM, Armi Chiappa (AC), Armi Sport, Chiappa Firearms (CF), Costa Srl, and Kimar Srl.
- "ACP" name is used by the Chiappa Group for marketing laser training systems.
- "AIM" name is used by the Chiappa Group for marketing video/target simulators.
- "Armi Sport" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- "Chiappa Firearms" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War, "Old West" firearms, gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns".
- "Costa Srl" name is used by the Chiappa Group for marketing metal surface finishing treatments.
- "Kimar Srl" name is used by the Chiappa Group for marketing gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns", and single shot folding barrel shotguns.

Model

- model designation is not marked on the firearm.
- this model is a reproduction of a muzzle loading single shot percussion handgun made circa 1850.
- designed for practice home target shooting with no black powder needed to shoot. The primer is the sole propellant.
- features include: octagonal barrel; percussion lock; walnut bird's head grip stock; plain or engraved colour case hardened sidelock; brass furniture; blade front and open rear sight.

Action

- muzzle loading.

Notes

Make

- "AC ARMI SPORT - ITALY" or "ARMI SPORT - ITALY" or "AC ARMI SPORT" or "ARMI SPORT" is marked on the firearm.
- Chiappa Group consists of the following: ACP, AIM, Armi Chiappa (AC), Armi Sport, Chiappa Firearms (CF), Costa Srl, and Kimar Srl.
- "ACP" name is used by the Chiappa Group for marketing laser training systems.
- "AIM" name is used by the Chiappa Group for marketing video/target simulators.
- "Armi Sport" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- "Chiappa Firearms" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War, "Old West" firearms, gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns".
- "Costa Srl" name is used by the Chiappa Group for marketing metal surface finishing treatments.
- "Kimar Srl" name is used by the Chiappa Group for marketing gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns", and single shot folding barrel shotguns.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- this is a commemorative version of the 1874 Sharps long-range target rifle as used in the film "Quigley Down Under", available with a wide range of accessories and modifications. - features include: straight grip walnut stock with patchbox; colour case-hardened receiver/frame; blued octagonal barrel; checkered walnut forend with a pewter or brass cap and any one of several types of adjustable target sights (ladder, peep, tang, or Creedmore, with German silver or globe front sight).
Action	- lever operated falling (dropping) block design.
Serial Number	- serial number is marked on the receiver/frame, rationalization unknown.
Calibre	- rifling characteristics: 6-grooves, 1 turn in 560MM (22").
Importer	- may or may not be marked with an importer's name. - this model is also imported and sold in North America under the Cimarron Firearms and Taylors & Company brand names.
Other Markings	- firearms will usually bear Italian proof marks and a catalogue number assigned by the Italian National Proof House.

Notes

Make

- "AC ARMI SPORT - ITALY" or "ARMI SPORT - ITALY" or "AC ARMI SPORT" or "ARMI SPORT" is marked on the firearm.
- Chiappa Group consists of the following: ACP, AIM, Armi Chiappa (AC), Armi Sport, Chiappa Firearms (CF), Costa Srl, and Kimar Srl.
- "ACP" name is used by the Chiappa Group for marketing laser training systems.
- "AIM" name is used by the Chiappa Group for marketing video/target simulators.
- "Armi Sport" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- "Chiappa Firearms" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War, "Old West" firearms, gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns".
- "Costa Srl" name is used by the Chiappa Group for marketing metal surface finishing treatments.
- "Kimar Srl" name is used by the Chiappa Group for marketing gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns", and single shot folding barrel shotguns.

Model

- the model designation may not be marked on the firearm.
- this is a modern reproduction of the Sharps Model 1874 Sporting Rifle, available in several grades of finish, calibres, and rifle/carbine variations.
- features include: octagonal, blued barrel; oil finished American walnut straight-grip or pistol grip stock with a capped or schnabel forearm; fixed front and adjustable rear sights; colour case-hardened or "in the white" receiver/frame; single or double set triggers; pre-drilled tang for Creedmore sight, and extended trigger guard.
- variants may have a patchbox, engraved receiver/frame, pewter forearm tip, and checkered stock and forearm.

Action

- lever operated falling (dropping) block design.

Serial Number

- serial number is marked on the upper tang of the receiver/frame and repeated on the barrel.
- observed serial number consisted of a "SH" prefix followed by four numbers.

Calibre

- marked on the barrel.

Importer

- may or may not be marked with the importer's name.
- this model is also sold in North America under the Taylors & Company trade name.

Other Markings

- firearms will usually bear Italian proof marks and a catalogue number assigned by the Italian National Proof House.

Make

- "AC ARMI SPORT - ITALY" or "ARMI SPORT - ITALY" or "AC ARMI SPORT" or "ARMI SPORT" is marked on the firearm.
- Chiappa Group consists of the following: ACP, AIM, Armi Chiappa (AC), Armi Sport, Chiappa Firearms (CF), Costa Srl, and Kimar Srl.
- "ACP" name is used by the Chiappa Group for marketing laser training systems.
- "AIM" name is used by the Chiappa Group for marketing video/target simulators.
- "Armi Sport" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- "Chiappa Firearms" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War, "Old West" firearms, gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns".
- "Costa Srl" name is used by the Chiappa Group for marketing metal surface finishing treatments.
- "Kimar Srl" name is used by the Chiappa Group for marketing gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns", and single shot folding barrel shotguns.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of the "Spencer model 1860" carbine/rifle.
- Spencer model 1860 has a distinctly shaped operating lever and receiver/frame (the operating lever forms a large trigger-guard, and pivots around a pin in the bottom of a very large "hump" at the bottom of the receiver/frame).
- features include: blade front sight and an adjustable rear sight; round barrel; flat sided receiver/frame with a blade-type extractor on the left side of the chamber and a hammer mounted on a side-plate on the right side; walnut forearm (short forearm with one barrel band - carbine, or a full-length forearm with three barrel bands - rifle) and a straight grip buttstock with slightly curved butt plate; removable tubular magazine is located inside the buttstock; blued barrel, color case-hardened receiver/frame, hammer, operating lever and buttplate.
- overall length with a 508 mm (20") barrel is 940 mm (37").
- overall length with a 762 mm (30") barrel is 1194 mm (47").
- average weight is from 4.1 kgs (9 lbs) to 4.8 kgs (10.6 lbs).

Shots

- tubular magazine is mounted inside the buttstock.

Notes

Make

- "AC ARMI SPORT - ITALY" or "ARMI SPORT - ITALY" or "AC ARMI SPORT" or "ARMI SPORT" is marked on the firearm.
- Chiappa Group consists of the following: ACP, AIM, Armi Chiappa (AC), Armi Sport, Chiappa Firearms (CF), Costa Srl, and Kimar Srl.
- "ACP" name is used by the Chiappa Group for marketing laser training systems.
- "AIM" name is used by the Chiappa Group for marketing video/target simulators.
- "Armi Sport" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- "Chiappa Firearms" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War, "Old West" firearms, gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns".
- "Costa Srl" name is used by the Chiappa Group for marketing metal surface finishing treatments.
- "Kimar Srl" name is used by the Chiappa Group for marketing gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns", and single shot folding barrel shotguns.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of the "Spencer model 1865" carbine/rifle.
- the original was the second generation of one of the first truly practical repeating long-arms designed to use metallic cartridges, and has an important place in history as being one of the most widely used and effective firearms during the US Civil War.
- features include: a distinctly shaped lever and receiver/frame (the lever forms a large trigger-guard, and pivots around a pin in the bottom of a very large "hump" at the bottom of the receiver/frame); blade-type extractor on the left side of the chamber, and a hammer mounted on a side-plate on the right side; straight-grip walnut stock with slightly curved butt plate, used either a short forearm with one barrel band (carbine), or a full-length forearm with two or three barrel bands; American walnut buttstock and fore-end; blade front and adjustable rear sight; case-hardened receiver/frame, hammer and swivels.

Serial Number

- numbered on receiver/frame.

Shots

- tubular magazine is mounted inside the buttstock.

Notes

Make

- "AC ARMI SPORT - ITALY" or "ARMI SPORT - ITALY" or "AC ARMI SPORT" or "ARMI SPORT" is marked on the firearm.
- Chiappa Group consists of the following: ACP, AIM, Armi Chiappa (AC), Armi Sport, Chiappa Firearms (CF), Costa Srl, and Kimar Srl.
- "ACP" name is used by the Chiappa Group for marketing laser training systems.
- "AIM" name is used by the Chiappa Group for marketing video/target simulators.
- "Armi Sport" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- "Chiappa Firearms" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War, "Old West" firearms, gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns".
- "Costa Srl" name is used by the Chiappa Group for marketing metal surface finishing treatments.
- "Kimar Srl" name is used by the Chiappa Group for marketing gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns", and single shot folding barrel shotguns.

Model

- "Winchester 1892 Reproduction" is not marked on the firearm.
- this is a modern reproduction of the Winchester model 1892 rifle.
- Winchester model 1892 was originally designed by John M. Browning.
- Winchester 1892 Reproduction is available in carbine, rifle or take-down configuration.
- features include: blade front sight and an adjustable rear sight; blued octagonal or round rifled barrel; flat sided open top receiver/frame with a right side loading gate; exposed spur hammer; single action trigger mechanism; closed loop operating lever; walnut forearm and straight grip stock with a crescent butt plate; blued or colour case-hardened receiver/frame, looped operating lever and forend cap or barrel bands.
- available with engraving, engraving with gold inletting, or in a hard chrome finish.
- available with three interchangeable lever types: standard loop, Bounty Hunter (large tear drop shape loop), and Rio Bravo (large loop).
- overall length with a 406 mm (16") barrel is 864 mm (34"), and average weight is 2.6 kgs (5.7 lbs).
- overall length with a 508 mm (20") barrel is 965 mm (38"), and average weight is 2.8 kgs (6.2 lbs).
- overall length with a 610 mm (24") barrel is 1070 mm (42 1/8"), and average weight is 3.3 kgs (7.3 lbs).

Serial Number

- serial number is marked on the underside of the receiver/frame.
- serial number may also be repeated on the barrel.
- serial number rationalization is unknown.

Calibre

- rifling characteristics in calibre 357 MAG: 6-grooves, 1 turn in 483 MM (19").
- rifling characteristics in calibre 38 SPL: 6-grooves, 1 turn in 483 MM (19").
- rifling characteristics in calibre 38-40 WIN: 6-grooves, 1 turn in 914 MM (36").
- rifling characteristics in calibre 44 MAG: 6-grooves, 1 turn in 508 MM (20").
- rifling characteristics in calibre 44-40 WIN: 6-grooves, 1 turn in 914 MM (36").
- rifling characteristics in calibre 45 COLT: 6-grooves, 1 turn in 914 MM (36").

Shots

- tubular magazine is mounted under the barrel.
- shot capacity may be limited to five cartridges to comply with a given countries regulations.

Importer

- the Winchester 1892 Reproduction, as produced by Armi Chiappa is imported/marketed in North America by a variety of firms.
- importer markings are not always present on the firearm.

Other Markings

- this model will usually bear Italian proof marks and a catalogue number issued by the Italian National Proof House.

Type:	Handgun
Action:	Revolver
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197295 - 1	22 LR	5	24	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- "Arminius" is marked on the firearm in various places.
- The make is usually marked on the left side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- Logo may be stamped, engraved or otherwise marked on the firearm. Logo consists of a left side profile of a stylized winged-helmet roman warrior face, sometimes over the word "Arminius" and sometimes just the winged-helmet roman face.

Model

- "HW1G" is marked on the left side of the receiver/frame.
- The model designation is usually marked on the right side of the firearm.
- "Gas Alarm" may be marked on the side of the firearm.
- This firearm is a purpose built "gas alarm" pistol.
- Cylinder release located on the side of the firearm.
- Features include: round smooth bore barrel, with metal wedge inside the front muzzle (for the purpose of firing blank or smoke pellets); blued or nickel/chrome receiver/frame with grooved rear sight on top; rim-fire cocking hammer; double action trigger with round trigger guard; left hand cylinder release; small semi-rounded pistol grip with checkered ivory or black grip cover/sleeve.

Manufacturer

- The manufacturer is usually marked on the right side of the receiver/frame.
- Observed sample had "H. Weihrauch" over "Sportwaffen" marked on the right side of the receiver/frame.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- The serial number rationalization is unknown.
- The serial number observed consisted of six (6) numbers without letter prefix or suffix, marked on the right side of the receiver/frame forward of the cylinder.

Calibre

- "9mm Knall" may be marked on the side of the barrel, unless altered.
- Original calibre for this model is 9mm knall, a gas cartridge.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - Other markings for this model may consist of standard "German" proof marks: a forward facing eagle/hawk with flared wings over "N"; a cross hatched shield; a blank shield with a 73 inside; a circle with PTB over 89-69.

Notes

Make

- a "five point star" inside a circle and "ARMIST" was observed marked on the rear left side of the receiver/frame.
- Armist/Armist Industries is a Canadian importer located in Quebec.

Model

- "UZI MINI" is not marked on the firearm.
- this air gun resembles the Uzi model "Mini" submachine gun.
- features include: round metal barrel; aluminum and steel receiver/frame; synthetic forearm assembly and pistol grip; folding metal buttstock; 12g CO2 cylinder is mounted in the detachable box magazine; matte black finish.
- the Uzi Mini has an overall length with the stock in the extended position of 600 mm and with the stock folded of 360 mm.
- average weight is 2.2 kg.

Manufacturer

- "KWC" and "MADE IN TAIWAN" was observed marked on the rear right side of the receiver/frame.
- "KWC" is the abbreviation for Kien Well Corporation.
- Kien Well was founded in Taiwan in 1978.
- Kien Well development and production of BB guns began in 1984.
- Kien Well started development and production of Airsoft products in 2003.

Type

- this air gun resembles the Uzi model "Mini" submachine gun.

Action

- CO2 powered, blowback operated.
- selective fire.
- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number
- serial number was observed marked on the rear left side of the receiver/frame.
- observed serial number consisted of eight numbers without a letter prefix or suffix.

Calibre
- "CAL.177(4.5 mm)" was observed marked on the rear underside of the receiver/frame as .

Shots
- detachable box magazine.

Notes

Make

- "Arms East" is marked on the left side of the receiver/frame.
- "Arms East" is located in St- John's, Newfoundland Canada.

Model

- "N8S" was introduced in 2018.
- "N8S" is marked on the left side of the receiver/frame.
- "N8S" variants are based on the Colt AR-15/M16 design.
- "N8S" has a fully-automatic variant named "N8".
- features include: threaded muzzle for flash hider/muzzle brake; standard, heavy profile or grooved M4 carbine contoured barrel; AR15/M16 standard, low profile, accessory rail or folding front sight bracket/gas block; accessory rail, free floating or synthetic handguard; accessory rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; standard, collapsible or custom rifle buttstock; synthetic pistol grip; matte black and/or colour finish.

Manufacturer

- "Arms East" is marked on the left side of the receiver/frame.
- "Arms East" is located in St- John's, Newfoundland Canada.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a two letter prefix (AE) four numbers.

Calibre

- "Cal 5.56mm" is marked on the left side of the receiver/frame.
- calibre identification is also usually marked on the barrel.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

184562 - 1	7.62X39 RUSSIAN	N/A	520	Prohibited PFR, Part 1, para. 121(a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Arms East LLC" is marked on the left side of the receiver.
- Arms East LLC has United States address located at 2335 63rd Ave STE M, Bradenton Florida, United States, 34203.
- The make of firearm is located in a milled out window that is 70mm wide, by 13mm tall, by <1mm deep. This machining is located in the vicinity where previously inspected versions of this firearm had Wise Lite manufacturer markings. The serial number prefix is consistent with Wise Lite serial number prefixes. The combination of these features indicate that the receiver may be re-manufactured or re-marked post-manufacture.

Model

- "Semi Automatic RPD MK2" is marked on the left side of the receiver/frame.
- "RPD" stands for "Ruchnoy Pulemyot Degtyaryova", "Degtyaryova Light Machine Gun".
- "Semi Automatic RPD MK2" is a semi-automatic version of a belt-fed light machine gun based on the Russian RPD design started in 1943 and introduced circa 1953, built and used by the Soviet Union, China and their allies.
- "Semi Automatic RPD MK2" are mostly made of Polish parts kits identifiable by the number eleven in a oval marked on the top of the feeding cover.
- features include: threaded muzzle with knurled protective ring; front sight bracket with a windage adjustable sight having a circular open top protector; permanently attached, non-adjustable bipod that can be folded under; gas block with a three position gas regulator; gas cylinder located under the barrel; short wood handguard; notched tangent rear sight mounted on the feed cover over the belt feeding port; upward folding cocking handle on the right side of the receiver/frame; selector lever on the right side over the trigger; lower assembly incorporate the trigger assembly, pistol grip with wood panels and "club foot" shaped wood buttstock; steel buttplate with a tab extension on the left side for a sling attachment; converted to fire - closed bolt, striker-fired; blued finish.
- overall length with a 520mm (20.5") barrel is 1036mm (40.8") and a average weight of 7.1kgs (15.6lbs).

Manufacturer

- "Arms East LLC" is marked on the left side of the receiver.
- "Wise Lite Arms" is not marked on the firearm.
- The "Arms East LLC" above "SEMI-AUTO RPD MK2" marking is located in a milled out window that is 70mm wide, by 13mm tall, by <1mm deep. This milled window is the correct dimension and is in the correct vicinity that a previously inspected version of this firearm design had Wise Lite Arms manufacturer and model markings. The serial number prefix markings are consistent with Wise Lite serial numbering prefixes. The combination of these features with the fire control system and overall firearm design indicate that the receiver may be re-manufactured or re-marked post-manufacture by Arms East LLC.
- Arms East LLC has United States address located at 2335 63rd Ave STE M, Bradenton Florida, United States, 34203.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of three letters (WLA) followed by two numbers a dash two letters (BA) followed by four numbers.
Calibre	- "CAL. 7.62 X 39" is marked on the left side of the receiver/frame.
Shots	- the RPD is a belt-fed firearm. - RPD uses a 100-round (two fifty round sections) metallic linked belt fitted into a stamped metal drum mounted on a dovetail on the underside of the reciver/frame. - the drum for the RPD is not a cartridge magazine - it is a belt carrier. - the non disintegrating link belt for the RPD firearm is a belt that was designed to feed cartridges into the firing chamber of an automatic firearm which was in existance before 1945.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Firearm Reference Number (FRN): 195279
Make: Armsan
Model: BA 40

Summary

Make:	Armsan
Model:	BA 40
Manufacturer:	Armsan Silah Sanayi
Level:	Manufacturer Specifications and Commercial Customization
Type:	Grenade Launcher
Action:	Single-Shot
Country of Manufacturer:	TURKEY
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195279 - 2	40X51MM	1	240	Prohibited PFR, Part 1, para. 95(k)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARMSAN" is marked on the launcher.

Model

- "BA 40" is marked on the launcher.
- this is a single-shot grenade launcher that may be seen mounted on a rifle in an underbarrel configuration, or mounted onto a stand-alone telescoping stock assembly.
- this launcher uses a side-swinging barrel to load and unload (similar to the H&K 320), rather than the sliding-barrel reloading method of the Colt M203.
- this grenade launcher operates with a pivoting barrel assembly that can swing to the left or the right, depending on the user's requirements.
- features include: black synthetic and phosphate finish; may be seen with stand-alone open or adjustable sights, depending on configuration; ribbed barrel, allowing the launcher to be used as a forearm when mounted under a rifle; double-action trigger; ambidextrous safety lever above the trigger; and may be seen on a stand-alone pistol-grip telescoping stock assembly.

Manufacturer

- "ARMSAN" is marked on the launcher.

Action

- side-pivoting barrel single-shot.

Notes

Make

- "ARMSAN" is marked on the receiver/frame.
- "ARMSAN" and "ARMTAC" are trade names used by Armsan Silah Sanayi.

Model

- "EOS" was observed, on a referenced example, marked on the right side of the receiver/frame.
- this is a standard pattern break open single shot shotgun made as a "survival" firearm, with black anodized finish, and black synthetic furniture (including a hollow buttstock to stash ammunition and supplies).
- features include: brass bead front sight; synthetic grooved forearm and pistol grip buttstock; a single action trigger mechanism with manually cocked hammer; an opening button located on top of the receiver/frame, next to the hammer; a rotating manual safety located on the right side of the receiver/frame, above the trigger; black finish; synthetic grooved forearm and semi-pistol grip buttstock.

Manufacturer

- "MADE IN TURKEY BY ARMSAN" or "ARMSAN MADE IN TURKEY" may be marked on the barrel.
- Armsan Silah Sanayi is located in Istanbul, Turkey.
- Armsan Silah Sanayi is a member of the Armsan Group.
- Armsan Group consists of Armsan Silah San. ve Tic. A.S., Khan, and ATA Arms.

Action

- hinged barrel design.

Serial Number

- numbered on the receiver/frame.

Notes

Make

- "ARMSCOR" and/or the Armscor logo is marked on the launcher.

Model

- the model may or may not be marked on the launcher.
- this is a single-shot riot-control launcher made to fire a variety of smoke, flare, tear-gas, rubber-bullet, and baton rounds.
- this launcher somewhat resembles the Heckler & Koch HK69 grenade launcher, with a round barrel hinged onto a stamped rectangular frame with forward and rear pistol-grips.
- features include: matte parkerized/phosphated finish; open fixed sights; round barrel; forward and aft pistol-grips (taken from the FN-FAL rifle); left side thumb safety; manually-cocked hammer with single action trigger mechanism; and a telescoping buttstock on a strut that inserts into the bottom rear of the receiver/frame.

Manufacturer

- The manufacturer is not marked on the firearm.

Action

- hinge-action single-shot.

Serial Number

- serial-numbered on the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 72230
Make: Armsport
Model: 1032

Summary

Make:	Armsport
Model:	1032
Manufacturer:	Armas Erbi
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
72230 - 1	10 GA X 3 1/2"	2	813	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MADE IN ELGOIBAR - SPAIN" was observed marked on the right barrel.
- "ARMSPORT. INC., MIAMI, FLORIDA" over "MODEL 1032 10 GA. - 32 "F & F"" was observed marked on the left barrel.
- "Armsport, Incorporated" was an importer and distributor located in Miami, Florida, U.S.A. until 2000.

Model

- "MODEL 1032" was observed marked on the left barrel.
- introduced in 1979.
- features include: side by side barrels with solid matte rib and bead front sight; front hinged receiver/frame with top tang mounted break open lever and slide type safety; box lock action; double triggers; plain or engraved receiver/frame; checkered walnut beavertail forearm and pistol grip stock with recoil pad; blued finish.

Manufacturer

- "MADE IN ELGOIBAR - SPAIN" was observed marked on the right barrel.
- "ERBI" was observed marked on the bottom of the left barrel.

Action

- side by side pattern.

Serial Number

- serial number is usually marked on the water table of the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "10-89" is marked on the bottom of the left barrel.
Other Markings	- marked on the bottom of the right barrel is "U*1" over "2880 GRMS" over " trophy" over "crossed longarms" over "BP 100 KOS".

Notes

Make

- "ARMSPORT, INC., MIAMI, FLORIDA" may be marked on the side of the left barrel.
- "Armsport, Incorporated" was an importer and distributor located in Miami, Florida, U.S.A. until 2000.

Model

- "MODEL 1033" is marked on the left barrel.
- discontinued in 1985.
- features include: side by side barrels with raised rib and bead front sight; front hinged receiver/frame with top tang mounted break open lever and slide type safety; boxlock action; hammerless; double triggers; engraved silvered receiver/frame, blued barrels; checkered wood beavertail forearm and pistol grip buttstock.
- Spainish proofmarks are apparent on the barrels and receiver/frame.

Manufacturer

- "ARIZAGA, ARMS - PLACENCIA - SPAIN" may be marked on the right side barrel.
- Eusebio Arizaga/Successors de Eusebio Arizaga was located in Placencia de las Armas, Guipuzcoa, Spain.
- Eusebio Arizaga/Successors de Eusebio Arizaga was established in 1908.
- Eusebio Arizaga/Successors de Eusebio Arizaga manufactured custom and semi-custom multi-barreled shotguns.
- Eusebio Arizaga/Successors de Eusebio Arizaga joined "DIARM" circa 1984.
- "F.A." is the manufacturer's code for "Eusebio Arizaga".
- the underside of the barrel lugs is also marked with the manufacturers code letters "EX" which indicates barrels may habe been produced by "Hijos De F. Arizaga".

Action

- side by side barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number was observed marked on the watertable of the receiver/frame and repeated on the barrel assembly.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Calibre

- known example had the calibre marked on the left barrel as "10 GA."; it was also proof marked on the underside of the barrel lugs and on the action flats of the receiver/frame as "10-89" indicating a 10 GA X 3-1/2" chambering.

Other Markings

- known example had the following marking on the left barrel, "Model 1033 10 GA. - 32 "F&F" ".

Notes

Make

- "Armsport Inc." is marked on the side of the barrel.
- "Armsport, Incorporated" was an importer and distributor located in Miami, Florida, U.S.A. until 2000.

Model

- "MOD. 1101" is marked on the side of the barrel.
- discontinued in 1985.
- the model 1101 is the Armsport designation for the Pedretti model FP105 folding shotgun.
- when offered by Pedretti the model FP105 is available in three grades and several calibre choices. When Armsport imported these models each individual variation was given a specific designation.
- the model 1101 is chambered for 12 GA X 3" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 711mm blued barrel and a full length buttstock.
- the model 1102 is chambered for 20 GA X 3" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 660mm blued barrel and a full length buttstock.
- the model 1103 is chambered for 410 GA X 3" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 660mm blued barrel and a full length buttstock.
- the model 1104 is chambered for 28 GA X 2 3/4" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 660mm blued barrel and a full length buttstock.
- the same basic firearm is offered by Pedretti as the "Camper Special" model with a shorter barrel and a pistol grip, these are offered by Armsport as follows:
- the model 1107 is chambered for 12 GA X 3" shells and features an alloy receiver/frame and a 483mm barrel.
- the model 1108 is chambered for 20 GA X 3" shells and features an alloy receiver/frame and a 483mm barrel.
- the model 1109 is chambered for 410 GA X 3" shells and features an alloy receiver/frame and a 483mm barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "Franc. Pedretti" and "Gardone V.T." is marked on the side of the receiver/frame.
- Francesco Pedretti (FP) was founded in 1957.
- Francesco Pedretti was located in Gardone, Val Trompe, Italy in the 1990s.

Action

- hinged barrel design.

Serial Number

- sample examined was serialized on the water table of the receiver/frame and on the underside of the barrels.
- serial number rationalization is unknown but seven sequential numbers have been observed.
