Notes

Make

- "Ardesa Spain" or the "Ardesa" company logo is marked on the barrel.

Model

- model designation may not be marked on the firearm.
- this is a modern reproduction of an early "Blunderbuss".
- "Blunderbuss" is a smooth-bored firearm with a large, belled muzzle, to allow fast reloading.
- features include: color case hardened lock plate and hammer; one piece wooden stock (in traditional or "hakenbusche" styles); blued barrel with belled muzzle; and can be seen with a brass fence surrounding the nipple to protect the shooter's eyes.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Action

- muzzle loading, percussion ignition.

Serial Number

- serial number is marked on the receiver/frame/barrel.
- Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix.
- Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.

FRT Report

Firearm Reference Number (FRN): 23452
Make: Ardesa
Model: Buckhunter

Summary

Make:	Ardesa
Model:	Buckhunter
Manufacturer:	Ardesa
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23452 - 2	45 FLINTLOCK	1	250	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
23452 - 3	45 PERCUSSION	1	250	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ardesa Spain" or the "Ardesa" company logo is marked on the barrel.

Model

- "BUCKHUNTER" may be marked on the right side of the barrel.
- this is a modern reproduction of a "Hawken"-style black powder pistol, available in both flint-lock and percussion variations
- features include: laminated or solid beech grip, with screw-adjustable rear sight; octagonal blued or nickeled barrel; hooked trigger-guard with double set triggers and color-case-hardened lock-plate and hammer/cock.
- DO NOT CONFUSE this "Buckhunter" pistol with the "Buckhunter In-Line Pistol"; the Buckhunter In-Line Pistol is a modern design, rather than a traditional design.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Action

- muzzle-loading percussion or flint-lock single-shot.

Serial Number

- serial number is marked on the receiver/frame/barrel.
- Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix.
- Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.

Summary

Make:	Ardesa
Model:	Buckhunter In Line Pistol
Manufacturer:	Ardesa
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
26757 - 4	45 PERCUSSION	1	240	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
26757 - 5	45 PERCUSSION	1	375	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
26757 - 2	50 PERCUSSION	1	240	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
26757 - 3	50 PERCUSSION	1	315	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ardesa Spain" or the "Ardesa" company logo is marked on the barrel.

Model

- "IN LINE P." is marked on the right side of the barrel.
- this is an in-line percussion pistol made in two different styles: blued with walnut grip and forearm or matte/brushed nickel or stainless-steel with black-painted beech grip and forearm.
- features include: round plain or round fluted barrel with or without muzzle brake; frame-mounted safety on the right side of the pistol above the grip; ramp front sight and open fold-down rear sights; short ram-rod mounted under the barrel.
- DO NOT CONFUSE this pistol with the traditionally-styled "Buckhunter" pistol; where the Buckhunter In-Line Pistol is a modern design, the "Buckhunter" is a traditional Hawken design.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- muzzle loading, in line percussion.
Serial Number	- serial number is marked on the receiver/frame/barrel. - Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix. - Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.

Notes

Make

- "Ardesa Spain" or the "Ardesa" company logo is usually marked on the barrel.

Model

- model designation is not usually marked on the firearm.
- "Europe" may be marked on the barrel.
- "Europa 1871" is a modern reproduction of a "LePage" style percussion duelling pistol.
- LePage duelling pistol was popular in Europe during the late 1800s.
- features include: fixed open sights; fluted octagonal barrel; right side plate with a percussion hammer; adjustable single set trigger; finger-rest hook on the bottom of the trigger-guard; fluted walnut stock/grip with butt cap; white temper finished barrel, slide plate, hammer; trigger guard, butt cap and furniture.
- overall length is 430 mm, and average weight is 1 kg.
- may be sold in a elegent wooden case for one or two pistols.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- muzzle-loading percussion single-shot.
Serial Number	- serial number is marked on the receiver/frame/barrel. - Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix. - Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.

40595 - 1	50 PERCUSSION	1	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ardesa Spain" or the "Ardesa" company logo is marked on the barrel.

Model

- model name does NOT appear on the firearm.
- this rifle also available in kit form.
- has octagonal barrel with adjustable rear sight.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Action

- side hammer cap lock with double set triggers.

Serial Number

- serial number is marked on the receiver/frame/barrel.
- Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix.
- Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.

Barrel

- barrel measurement for this firearm is an exterior measurement taken from the muzzle end of the barrel to the rear of the barrel where the breech plug joins the barrel. Normally there is a visible joint-line where the breech plug meets the barrel.
- internal measurement by the rod method will result in a barrel length 15 to 30mm shorter than factory specification.

- serial number is marked on the receiver/frame/barrel.
- Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix.
- Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.

Barrel

- barrel measurement for this firearm is an exterior measurement taken from the muzzle end of the barrel to the rear of the barrel where the breech plug joins the barrel. Normally there is a visible joint-line where the plug meets the barrel.
- internal measurement by the rod method will result in a barrel length 15 to 30mm shorter than factory specification.

Other Markings

- rifles imported by Bell Distributors are marked "Bell-Spain" on the rear of the barrel.

Model

- "ROCHATTE" or "ROCHATTE A PARIS" may be marked on the firearm.
- this is a modern reproduction of an 1830 style pistol made by Rochatte in Paris, France circa 1870-80.
- features include: round Lothar Walther barrel with fixed front sight and an adjustable V-notched rear sight; trigger guard with finger rest; walnut checkered pistol grip.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Serial Number

- serial number is marked on the receiver/frame/barrel.
- Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix.
- Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
43191 - 5	45 FLINTLOCK	1	850	Antique AFR, Section 1, para. 1	Manufacturer Specifications and Commercial Customization	
43191 - 3	45 PERCUSSION	1	838	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
43191 - 4	45 PERCUSSION	1	850	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
43191 - 1	50 PERCUSSION	1	838	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
43191 - 2	50 PERCUSSION	1	850	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ardesa Spain" or the "Ardesa" company logo is marked on the barrel.

Model

- model name does not appear on firearm.
- flint or percussion lock, double set triggers, hardwood stock, adjustable rear sight, brass blade front sight.
- calibre marked on rear of barrel.

Manufacturer

- Ardesa was established in the 1980s.
- Ardesa is a manufacturer located in Vizcaya, Spain.
- Ardesa specializes in producing black powder / muzzle-loading firearms.

Action

- side hammer cap lock, double set triggers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the receiver/frame/barrel. - Spanish firearms manufactured pre-1995, the serial number consisted of numbers with or without a letter prefix or suffix. - Spanish firearms manufactured post-1994, the serial number consists of a two number gunmaker's/manufacture's code, a dash (-), a two number weapon's code, a dash (-), six numbers, a dash (-) and a two number year of production code. example: 14-13-087250-02.
Calibre	- this type of firearm utilizes the "hooked breech" type of construction; on this type of muzzle loader the barrel measurement must be taken externally from the muzzle end of the barrel to the point-of-contact between the hooked breech and the rear of the barrel, normally a "joint line" is visible where the breech plug meets the rear of the barrel. - barrel measurements taken internally by the rod method will result in a barrel length reading of 15-25mm shorter than factory specification.
Other Markings	- those firearms imported by Bell Distributors with have "Bell - Spain" marked on the barrel.

Notes

Make

- "ARENDT BREVETE" is marked on the left side of the receiver/frame, below the cylinder.

Model

- not marked as to model (features simulate the popular "British Bulldog" by Webley); produced during the late 1800s to the early 1900s.
- the features of this firearm commonly referred to as "Bulldog", (sometimes as British Bulldog, English Bulldog, Ulster Bulldog, Tower Bulldog, or American Bulldog), are usually characterized as a compact, solid receiver/framed, short-barreled revolver (often with an integral barrel and receiver/frame), usually with a right side loading gate, usually with a swing out case ejector rod stored within the cylinder axis rod, usually with "Birds-head" style handgrip, usually of a large cartridge (rim-fire or centrefire) calibre (such as 32, 38, 41, 44, 450 or larger), with no sights or rudimentary sights.

Manufacturer

- "Henri Arendt" of Liege, Belgium manufactured pinfire revolvers, pistols and sporting guns in the 1870s and 1880s.

Serial Number

- sample viewed is marked with a numbers on the bottom of the butt, example: 12345.

Notes

Make	- "ARES DEFENSE SYSTEMS" over "MELBOURNE, FL USA" was observed marked on the left sides of the magazine housing of the receiver/frame.
Model	- "MOD. ARES-15" is marked on the left side of the magazine housing of the receiver/frame. - "Ares-15" is of the design commonly known as the AR-15/M-16 rifle. - "Ares-15" is available in several different configurations. All configurations are built on the same AR-15 type lower receiver/frame but feature differences in the upper assembly. The upper assembly may be a regular AR-15 A2 or A3 upper with fixed barrel or the replacement/drop-on "SHRIKE 5.56" belt feed upper with quick-change barrel. - features may include: chrome moly or stainless steel round barrel with or without threaded muzzle for flash suppressor/hider, muzzle brake or compensator; gas block assembly with or without front sight assembly and with or without bayonet lug; forged A2 upper (integral carrying handle and rear sight), A3 upper (Picatinny rail) with or without detachable carrying handle or the SHRIKE 5.56 upper; forged lower receiver/frame with regular or winter trigger guard; two stage trigger; black or green furniture; A2, R4, CAR or mid-length, quad rail, tactical rail or free floating tube hand guard; standard, Hogue rubber or Ergo pistol grip; A2 fixed synthetic buttstock, skeleton stock, or 6 position CAR stock. - "ARES-15 SPW" uses a special purpose lower receiver/frame that is designed with an attachment point for the SAW type ammunition box (belt feed only).
Manufacturer	- "Ares Defense Systems, Incorporated" was established in 1997. - "Ares Defense Systems, Incorporated" is located in Melbourne, Florida, U.S.A.
Action	- gas operated.
Calibre	- "CAL. 5.56mm NATO" was observed marked on the left side of the magazine housing of the receiver/frame.
Shots	- belt feed (disintegrating link), AR-15/M-16 type detachable box magazine, or 100 round Beta C (drum) magazine.

Notes

Make

- "ARES DEFENSE SYSTEMS" over "MELBOURNE, FL USA" was observed, on a referenced example, marked on the left side of the receiver/frame.

Model

- introduced in 2015.
- "SCR" was observed, on a referenced example, marked below the Ares Defence company logo, which consists of a stylized "A", on the left side of the receiver/frame.
- "SCR" stands for "Sport Configurable Rifle" and is sold as a lower receiver/frame and bolt carrier that accepts any AR-15 upper assembly.
- features include: AR15/M16 style magazine release, cross bolt safety located at the rear of the trigger guard; single trigger mechanism; alloy constructed receiver/frame; one piece checkered, black polymer, pistol grip buttstock; recoil pad.

Manufacturer

- "Ares Defense Systems, Incorporated" was established in 1997.
- "Ares Defense Systems, Incorporated" is located in Melbourne, Florida, U.S.A.

Action

- gas operated.

Serial Number

- serial number was observed, on a referenced example, marked on the left side of the receiver/frame and consisted of a two letter prefix (AS) followed by a dash (-) and six digits.

Calibre

- "MULTI-CALIBER" was observed, on a referenced example, marked on the left side of the receiver/frame.

Shots

- detachable box magazine.

Summary

Make:	Ares Incorporated
Model:	40-30MM Mann Barrel Firing System
Manufacturer:	Ares Incorporated
Level:	Manufacturer Specifications and Commercial Customization
Type:	Other
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129799 - 1	40-30MM MANN FIRING SYSTEM	1	3048	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "ARES INC." or variation is marked on the barrel.
Model	- model designation is not marked on the firearm. - this mechanism is a universal firing system that is designed to fire a 30MM saboted round in a 40MM chamber by electrical or percussion primed ignition, remotely fired. - developed for projectile penetration testing of vehicular mounted armour. - features include: modular design incorporating a removable breech plug, master case, igniter, breech assembly and barrel; smooth or rifled bore. - designed to be used in conjunction with the Ares 40-30 Mann Gun Firing Mount.
Manufacturer	- Ares Incorporated is located in Erie Industrial Park, Port Clinton, Ohio, U.S.A. - Ares Inc. is a manufacturer of fire control & turret control systems, small arms, automatic cannons and industrial machinery.
Serial Number	- serial number is marked on the barrel and repeated on the breech assembly. - serial number of a referenced example consisted of three numbers, preceded by a five digit part number, preceded by the alpha/numeric licencing number (4F946).
Barrel	- barrels may be supplied in any calibre or any length appropriate to the testing the customer wishes to perform.
Calibre	- designed to fire a 30MM saboted projectile with a varying size propellant container known as a "40MM reusable stubby case chamber".
Remarks	- the principle of use for this firing system is similar to that of the universal receivers used in testing small arms ammunition.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122872 - 1	7.62MM NATO	N/A	597	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make or logo thereof is marked on the firearm.
Model	- manufactured circa 1985. - the model designation may not be marked on the firearm; "EPG" is Ares' acronym for "Externally Powered Gun", as this is a machinegun which is mechanically-operated by an external power source, either electric or manual. - this is a medium machinegun designed for use as secondary armament on armoured fighting vehicles and in gun-pods, that is normally driven by an electric motor; however, the design of this particular firearm means that it can also be operated by a crank, in the same way that an original Gatling Gun is. - features include: blued or phosphated finish; no sights (sighting is intended to be accomplished via the mount); fed by a disintegrating link belt; large circular housing for the cam mechanism at the rear of the receiver/frame; and in use, ejected cases are directed downwards out of the receiver/frame.
Manufacturer	- Ares Incorporated was located in Erie Industrial Park, Port Clinton, Ohio, U.S.A. in the 1980s and late 1990s. - Ares Inc. was a manufacturer of fire control & turret control systems, small arms, automatic cannons and industrial machinery.
Action	- electrically/mechanically-powered.
Serial Number	- numbered on the receiver/frame.
Shots	- belt-fed firearm.

122871 - 1	5.56MM NATO	N/A	550	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- manufactured circa 1987.
- the model designation may not be marked on the firearm.
- this is a modular light machinegun very similar in concept to the Stoner 63 series; depending on the configuration desired, this firearm may be assembled as a Squad Automatic Weapon/SAW with bipod, on a tripod, as a belt-fed "carbine", or as a belt-fed automatic rifle. At the gunner's discretion, this firearm may be fed either with M249 Minimi-style disintegrating linked belts, or from M16-style box magazines.
- features include: modular design, with interchangeable barrels and buttstocks; aluminium and stainless-steel construction; synthetic furniture; open adjustable sights (a "Picatinny rail" along the top of the receiver allows attachment of optical sights); and this firearm will usually be seen with a molded synthetic belt carrier attached below the feed port.

Manufacturer

- Ares Incorporated was located in Erie Industrial Park, Port Clinton, Ohio, U.S.A. in the 1980s and late 1990s.
- Ares Inc. was a manufacturer of fire control & turret control systems, small arms, automatic cannons and industrial machinery.

Action

- gas-operated.

Serial Number

- numbered on the receiver/frame.

Barrel

- a number of different barrel lengths are available for this firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - this firearm can be fed with a disintegrating link belt, either loose or from a plastic box, or the conventional 30 shot, detachable box magazines common to the M-16 family of firearms.

Model: M4A1 Airsoft

Summary

Make:	Ares International
Model:	M4A1 Airsoft
Manufacturer:	Ares International
Level:	Manufacturer Specifications and Commercial Customization
Type:	Airsoft
Action:	Air,Spring or Gas
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
130595 - 1	6MM AIRSOFT BB	130	363	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Ares logo (Greek Hoplite helmet and spear) and "ARES" may be marked on the left side of the firearm.

Model

- "ARES" over "AIRSOFT" over "M4A1" over the serial number was observed marked on the left side of the magazine housing well.
- "MODEL M4A1" over "CAL. 6MM" was observed marked on the left side of the lower unit.
- this airsoft firearm resembles a full automatic "Colt model M4A1 Carbine".
- features include: aluminum outer barrel/sleeve and smoothbore inner barrel; aluminum receiver/frame; Magpul style curved trigger guard; synthetic forearm assembly; Tango Down style pistol grip and a telescoping buttstock; black finish.
- M4 Airsoft has an overall length of 800mm in the retracted position and 890mm in the extended position.
- average weight without the battery is 2.94 kg and with the battery is 3.14 kg.

Manufacturer

- Ares logo (Greek Hoplite helmet and spear) and "ARES" may be marked on the left side of the firearm.

Type

- this is an airsoft rifle.

Action

- spring piston is powered by an electric motor, gear box and battery.
- selective fire.
- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- observed serial number consisted of two letters followed by eight numbers.

Calibre

- "CAL. 6mm" may be marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Firearm Reference Number (FRN): 148806
Make: Argentine Mortar
Model: FMK1 60MM

Summary

Make:	Argentine Mortar
Model:	FMK1 60MM
Manufacturer:	Fabrica Militar Rio Tercero
Level:	Manufacturer Specifications and Commercial Customization
Type:	Mortar
Action:	Single-Shot
Country of Manufacturer:	ARGENTINA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148806 - 1	60MM MORTAR	1	650	Prohibited PFR, Part 1, para. 95(h)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the mortar.

Model

- the model may or may not be marked on the mortar.
- this is an Argentine designed and manufactured 60mm light mortar made as an infantry fire-support weapon for use at ranges up to 2000 metres.
- these mortars are produced in FMK1, FMK2, and FMK3 versions, which differ in the arrangement used to lay and sight the mortar; the FMK1 is a rapidly portable mortar with a permanent bowl baseplate and sliding tripod legs that can be adjusted for ranging, the FMK2 is a rapidly portable mortar with a permanent bowl baseplate that has a step-on carry strap to determine range, and the FMK3 is a portable mortar with a separate flat baseplate, sight, and tripod
- these mortars may fire a wide variety of ammunition, including illumination, high-explosive, and training bombs.
- these mortars are normally seen as backpack-portable units that can be easily carried by a single soldier, but require an additional soldier to carry an immediate supply of the required ammunition.
- features include: parkerized/phosphated/painted finish; smoothbore barrel; and one of three different methods for laying and firing the mortar.

Manufacturer

- the manufacturer or logo thereof is marked on the mortar.

Action

- drop or trigger fired single-shot.

Serial Number

- numbered on the barrel tube.

FRT Report

Firearm Reference Number (FRN): 148809
Make: Argentine Mortar
Model: FMK2 60MM

Summary

Make:	Argentine Mortar
Model:	FMK2 60MM
Manufacturer:	Fabrica Militar Rio Tercero
Level:	Manufacturer Specifications and Commercial Customization
Type:	Mortar
Action:	Single-Shot
Country of Manufacturer:	ARGENTINA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148809 - 1	60MM MORTAR	1	650	Prohibited PFR, Part 1, para. 95(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the mortar.

Model

- the model may or may not be marked on the mortar.
- this is an Argentine designed and manufactured 60mm light mortar made as an infantry fire-support weapon for use at ranges up to 2000 metres.
- these mortars are produced in FMK1, FMK2, and FMK3 versions, which differ in the arrangement used to lay and sight the mortar; the FMK1 is a rapidly-portable mortar with a permanent bowl baseplate and sliding tripod legs that can be adjusted for ranging, the FMK2 is a rapidly-portable mortar with a permanent bowl baseplate that has a step-on carry strap to determine range, and the FMK3 is a portable mortar with a separate flat baseplate, sight, and tripod
- these mortars may fire a wide variety of ammunition, including illumination, high-explosive, and training bombs.
- these mortars are normally seen as backpack-portable units that can be easily carried by a single soldier, but require an additional soldier to carry an immediate supply of the required ammunition.
- features include: parkerized/phosphated/painted finish; smoothbore barrel; and one of three different methods for laying and firing the mortar.

Manufacturer

- the manufacturer or logo thereof is marked on the mortar.

Action

- drop- or trigger-fired single-shot.

Serial Number

- numbered on the barrel tube.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148752 - 1	81MM MORTAR	1	1155	Prohibited PFR, Part 1, para. 95(f)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the mortar.

Model

- the model may or may not be marked on the mortar.
- this is an Argentine designed and manufactured 81mm mortar made as an infantry fire-support weapon for use at ranges up to 4000 metres.
- these mortars may fire a wide variety of ammunition, including illumination, high-explosive, and training bombs.
- breaks down into a three-person portable assembly consisting of 1) the baseplate, 2) the barrel, and 3) the tripod and sight.
- features include: parkerized/phosphated finish; smoothbore barrel; traverse and elevation mechanism built into the tripod, with a detachable prismatic sight; and a heavy baseplate.

Manufacturer

- the manufacturer or logo thereof is marked on the mortar.

Action

- drop-fired single-shot.

Serial Number

- numbered on the barrel tube.

FRT Report

Firearm Reference Number (FRN): 121551
Make: Argentine Submachine Gun
Model: C-4

Summary

Make:	Argentine Submachine Gun
Model:	C-4
Manufacturer:	Hispano Argentina Fabrica de Automoviles SA (HAFDASA)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	ARGENTINA
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121551 - 1	9MM LUGER	5	197	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	
121551 - 2	9MM LUGER	30	197	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is not marked on the firearm.
Model	- the model may not be marked on the firearm. - this is a standard-pattern second-generation submachine gun, resembling a long-barreled STEN mated to an MP-38/MP-40-style under-folding stock. - features include: tubular receiver/frame; synthetic pistol-grip; horizontal magazine housing; fixed sights; and a STEN-style "safety notch" in the bolt handle raceway.
Manufacturer	- the manufacturer may not be marked on the firearm.
Action	- blowback operation.
Shots	- detachable box magazine.

122639 - 2	9MM LUGER	40	305	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- manufactured 1958-1960.
- approximately 800 units were manufactured.
- the MEMS series of submachine guns was designed by Professor Miguel Enrique Manzo Sal, as a domestic design for the Argentine military, police, and penal forces.
- features include: stamped and folded lower receiver/frame with tubular upper receiver/frame; forward-angled magazine well; knurled receiver/frame end cap; fire selector-button at upper front of the trigger-guard; magazine release at upper rear of magazine well (this being one of the main differences between the MEMS 52/58 and later versions); foresight mounted on the barrel (many of the later MEMS have the foresight permanently mounted on the receiver tube); 12-groove "micro-rifling"; muzzle brake; under-folding MP-38/MP-40-style stock; and a bolt handle that runs in a raceway with a forward-angled "safety slot".
- overall length with stock extended is 895mm (35.2") with an approximate weight of 3.1kg (6.8 lbs).

Manufacturer

- the manufacturer may not be marked on the firearm.
- the OTME company was located in Cordoba, Argentina.

Action

- blowback operated.

Serial Number

- numbered on the receiver/frame.
- the serial number rationalization is unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- approximately 300 units were produced of this model in the early 1960's.
- the MEMS series of submachine guns was designed by Professor Miguel Enrique Manzo Sal, as a domestic design for the Argentine military, police, and penal forces.
- features include: stamped and folded lower receiver/frame with tubular upper receiver/frame; forward-angled magazine well; knurled receiver/frame end cap; fire selector-button at upper front of the trigger-guard; magazine release at lower rear of magazine well; foresight mounted on the barrel (many of the later MEMS have the foresight permanently mounted on the receiver tube); 12-groove "micro-rifling"; muzzle brake; under-folding MP-38/MP-40-style stock; and bolt handle that runs in a raceway with a forward-angled "safety slot".
- this model differs from the previous Model 52/58 in having a relocated magazine release and a wire, rather than tubular, folding butt stock.
- overall length with stock extended is 889mm (35") with an approximate weight of 3.1kg (6.8 lbs).

Manufacturer

- the manufacturer may not be marked on the firearm.
- located in Cordoba, Argentina.

Action

- blowback operated.

Serial Number

- numbered on the receiver/frame.
- serial number rationalization is unknown.

FRT Report

Firearm Reference Number (FRN): 27
Make: Arisaka
Model: Type 100 Paratroop Rifle

Summary

Make:	Arisaka
Model:	Type 100 Paratroop Rifle
Manufacturer:	Japanese State Arsenal, Nagoya
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
27 - 1	7.7X58 JAPANESE ARISAKA	5	648	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- the model designation does not appear on the firearm (the receiver ring is marked "Type 99" in Japanese characters).
- this firearm is designed to be dis-assembled quickly into two almost equal length sections, and re-assembled quickly for use. (see remarks)

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's symbol consist of three overlapped circles of different size, a large outer circle and two circles inside which resemble a number eight "8".
- Japanese State Arsenal, Nagoya/Nagoya Arsenal was operational from 1923 to 1945.

Serial Number

- located on the left side of the receiver.
- the Nagoya Arsenal produced Type 100 Paratroop Rifles have "kana" prefix characters which signify the production series of the particular rifle, these kana characters must be considered part of the serial number. Kana characters used by Nagoya Arsenal in the production of Type 100 Rifles are: 1, 21 and 22.

Also Known As/Product Code

- type 100 denotes the year of the adoption of this firearm (that relates to the basic Japanese calender year 2600), which co-responds to Western/Christian year 1940.

Other Markings

- chrysanthemum appears on the receiver ring (commonly this is defaced or roughly ground off).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- the Type 100 Paratroop Rifle was a Japanese service rifle during World War II, and is mechanically identical to the Type 99 (Model 1939) Rifle, the major difference being: a separate forend piece and an interrupted thread on breech of barrel permitting removal of barrel complete with the forend, by a twisting this assembly 90 degrees anti-clockwise in the same axis to the receiver.

199933 - 1	6.5X50SR JAPANESE ARISAKA	5	480	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The make is not marked on the firearm.
- "ARISAKA" is derived from the last name of Colonel "Nariake Arisaka", a Japanese chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle.
- "ARISAKA" rifle type was developed at the Koishikawa Arsenal, Japan.

Model

- The model designation is marked on the receiver/frame.
- "North China Type 19" (?????) above the cherry blossom, the Manchuria Chinese province state of the Japanese empire is marked on top of the receiver/frame.
- "Type 19" is essentially a hybrid, incorporating elements from the Japanese Type 38 and other type rifles.
- "Type 19" was manufactured approximately from 1944 to 1945.
- "Type 19" first variant has a ladder type rear sight, left side front and rear sling swivels, straight bolt handle with oval shaped knob and steel butt plate.
- "Type 19" second variant has a fixe, notched rear sight, front left side sling swivel only, curved bolt handle with round shaped bolt knob and wood butt plate.
- Features include: no top handguard; cylindrical receiver/frame with stripper clip guides; top of the receiver/frame breech ring has a gas relief port; inside the trigger guard magazine bottom plate opening lever; no top hand guard.

Manufacturer

- The company logo is marked on the receiver/frame.
- "Manchurian State Arsenal, Tianjin" logo or factory mark is a cherry blossom or Sakura flower.
- "Tientsin" also spell "Tianjin" through history, is a city and a province of Manchurian in Northern China.
- "Manchurian State Arsenal, Tianjin" was formed with an unknown numbers of other producers into the state arsenal.
- "Manchurian State Arsenal, Tianjin" manufactured firearms while Manchuria province in China was a puppet state of the Japanese empire, between 1932 and 1945.

Action

- Turn bolt operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- The calibre designation is not marked on the firearm.
Shots	- Integral box magazine

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- manufactured between 1898 and 1908.
- "Chrysanthemum" symbol is marked on the receiver ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 30" is marked on the receiver ring in Japanese characters.
- "Type 30" denotes the year of the adoption of this firearm (the 30th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1897.
- "Type 30 (Model 1897) Carbine" is mechanically similar to the "Type 30 (Model 1897) Rifle".
- "Type 30 (Model 1897) Carbine" differs from the rifle in having a considerably shorter barrel and no provision for a handguard.
- "Type 30 (Model 1897) Carbine" was replaced in the Japanese service by the "Type 38 (Model 1905) Carbine".
- features may include: inverted "V" front sight without sight guards and "V" notch folding leaf rear sight; round rifled barrel; cleaning rod is mounted under the barrel; cylindrical receiver/frame with top ejection, and stripper clip guides; semi spherical shaped bolt handle knob; distinctive hook shaped safety catch lever projecting from the left side of the bolt; one piece wood semi-pistol grip stock and no top hand guard; side mounted sling swivels.
- overall length is approximately 984 mm (38.75 "), and average weight is 3.5 kgs (7.74 lbs).
- "Type 30 (Model 1897)" carbines and rifles were sold to England and Russia during World War One.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls).
- multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935.
- starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal.
- Kokura Arsenal also used the multi circle symbol (four stacked cannon balls).
- the transfer of rifle production to Kokura Arsenal was completed in 1935.
- Kokura Arsenal continued to use the symbol until 1945.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Shots

- internal box magazine fed by a top loaded stripper clip.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- "ARISAKA" is derived from the last name of Colonel "Nariake Arisaka", chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- "ARISAKA" rifle was developed at the Koishikawa Arsenal, Japan.

Model

- The model designation is not marked on the firearm.
- "Type 30 Carbine" of the Manchurian arsenal manufacture is functionally a Japanese Type 30 Arisaka carbine chambered for the 8mm Mauser cartridge.
- The actual Manchurian/North Chinese model designation is not know, the designation come from the obvious similarity between the two firearms.
- "Type 30 Carbine" was manufactured approximately from 1938 to 1943.
- "Type 30 Carbine" is said, estimated to have been manufactured by a conglomerate of at least five small factories in Tientsin.
- "Type 30 Carbine" production is estimated to be around 38,500 carbine.
- Features include: cleaning rod mounted under the barrel; cylindrical receiver/frame with stripper clip guides; top of the receiver/frame breech ring has two gas relief ports; oval shaped bolt handle knob; distinctive hook shaped safety catch lever projecting from the left side of the bolt; one piece wood, semi-pistol grip stock and no top hand guard; side mounted sling swivels.

Manufacturer

- The manufacturer is marked in logo form on top of the breech ring of the receiver/frame.
- "Manchurian State Arsenal, Tianjin" logo or factory mark is a cherry blossom or Sakura flower.
- "Tientsin" also spell "Tianjin" through history, is a city and a province of Manchurian in Northern China.
- "Manchurian State Arsenal, Tianjin" was formed with a unknown numbers of other producers into the state arsenal.
- "Manchurian State Arsenal, Tianjin" manufactured firearms while Manchuria was a puppet state of the Japanese empire, between 1932 and 1945.

Action

- Turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- The serial number rationalization is said to come of the five arsenals or factories involved in the production that was assigned a serial number block of a hundred thousand.
- The official Tientsin Arsenal made guns will be the zero block (ie, starting at 0), with the other producers beginning at 100,000, 200,000, 300,000 and 400,000.

Calibre

- The calibre designation is not marked on the firearm.

Shots

- Integral box magazine with hinged floor plate.

FRT Report

Firearm Reference Number (FRN): 139180
Make: Arisaka
Model: Type 30 Siamese

Summary

Make:	Arisaka
Model:	Type 30 Siamese
Manufacturer:	Japanese State Arsenal, Koishikawa
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
139180 - 1	6.5X50SR JAPANESE ARISAKA	5	794	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- manufactured between 1898 and 1908.
- Siamese's "Charkra" (throwing weapon with twelve flaming blades) logo is marked on the top of the receiver bridge.
- "Chrysanthemum" symbol is marked on the receiver ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 30" is marked on the receiver ring in Japanese characters.
- "Type 30" denotes the year of the adoption of this firearm (the 30th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1897.
- "Type 30 (Model 1897) Rifle" is mechanically similar to the "Type 30 (Model 1897) Carbine".
- "Type 30 (Model 1897) Rifle" differs from the carbine in having a longer barrel and a top hand guard.
- "Type 30 (Model 1897) Rifle" was replaced in the Japanese service by the "Type 38 (Model 1905) Rifle".
- features include: inverted "V" front sight without sight guards and "V" notch folding leaf rear sight; round rifled barrel; cleaning rod is mounted under the barrel; cylindrical receiver/frame with top ejection, and stripper clip guides; semi spherical shaped bolt handle knob; distinctive hook shaped safety catch lever projecting from the left side of the bolt; one piece wood semi-pistol grip stock and top hand guard; sling swivels.
- overall length is approximately 1274 mm (50.15"), and average weight is 4.01 kgs (8.85 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls).
- multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935.
- starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal.
- Kokura Arsenal also used the multi circle symbol (four stacked cannon balls).
- the transfer of rifle production to Kokura Arsenal was completed in 1935.
- Kokura Arsenal continued to use the symbol until 1945.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Shots

- internal box magazine fed by a top loaded stripper clip.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Arisaka is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- converted between 1905 and 1921.
- total production of approximately 10,000 rifles.
- "Chrysanthemum" symbol is marked on the receiver ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 30" is marked on the receiver ring in Japanese characters.
- "Type 30" denotes the year of the adoption of this firearm (the 30th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1897.
- "Type 30 (Model 1897) Training Rifle" is a standard "Type 30" infantry rifle converted for training/drill purposes for use by civilian and para-military organizations within Japan, and were deemed to be obsolete by the Japanese military.
- "Type 30 (Model 1897) Training Rifle" conversion included: re-boring of barrel to remove rifling; removal of original government and model markings; removal of original serial number; addition of "Blank Ammunition Only" Japanese character markings on the top of the receiver/frame; and addition of new serial number on left side of the receiver/frame.
- other features include: blued receiver/frame and barrel; internal magazine; hook safety; post front sight; graduated rear sight; one piece stock with upper handguard; steel nosecap with bayonet lug; one barrel band with integral sling swivel; and cleaning rod located underneath the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's symbol is marked on the left side of the receiver/frame. - manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls). - multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935. - starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal. - Kokura Arsenal also used the multi circle symbol (four stacked cannon balls). - the transfer of rifle production to Kokura Arsenal was completed in 1935. - Kokura Arsenal continued to use the symbol until 1945.
Action	- turn-bolt design.
Serial Number	- serial number is located on the left side of the receiver/frame. - observed examples have consisted of a series of four numbers without a letter prefix or suffix.
Calibre	- this model of rifle was intended to be used with the 6.5x50SR paper bulleted blank cartridge only as the barrel is smooth bore, but will still chamber the 6.5X50SR ball cartridge as well.
Shots	- internal non-detachable magazine.
Canadian Law Comments	- examples may be marked "1 / X" which is the Kanjii character for school.

- "Chrysanthemum" symbol is marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 38" is marked on the receiver ring in Japanese characters.
- "Type 38" denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.
- "Type 38 Carbine" versions were also modified for police use.

Serial Number

- may appears on the left side of the receiver.

Also Known As/Product Code

- type 38 denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.

Other Markings

- chrysanthemum appears on the receiver ring (commonly this is defaced or roughly ground off).
- some samples have been noted re-stamped with Siamese markings.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- The Type 38 (Model 1905) Carbine was a Japanese service firearm introduced in 1905 used during World War One & Two, and is mechanically similar to the Type 38 (Model 1905) Rifle, differing only in overall length and the position of sling swivels on left side of stock and barrel band instead of on the bottom of the buttstock and barrel band as found on the rifle.
- there was a modified version of this carbine known as the Siamese Police Carbine. The barrel was turned to a slightly smaller diameter, the stock had a relief cut to accomadate the bent down bolt handle, the sling was mounted on the left side of the stock like the M1 Carbine, markings and serial numbers were changed.

Summary

Make:	Arisaka
Model:	Type 38 Carbine
Manufacturer:	Manchurian State Arsenal, Mukden
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	MANCHURIA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
34 - 1	6.5X50SR JAPANESE ARISAKA	5	483	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 38" is marked on the receiver ring in Japanese characters.
- "Type 38" denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.

Manufacturer

- the manufacturer's logo consists of two concentric rings with three equidistant bars extending from the inner circle towards the outer circle; depending on the period of manufacture, the bars may or may not reach all the way to the outer circle.
- these firearms were manufactured at the Mukden Arsenal while Manchuria was a puppet state of the Japanese empire, between 1931 and 1945

Action

- turn-bolt design.

Serial Number

- Mukden Arsenal produced Type 38 Carbines belong to two separate productions series, one series has a "kana" character prefix to the serial number while the other series lacks a prefix character. The kana prefix character used with the first mentioned production series is "6" (see illustration) and must be considered as part of the serial number.

Shots

- internal box magazine fed by a top loaded filler strip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings	- Chrysanthemum appears on the receiver ring.
Remarks	- The Type 38 (Model 1905) Carbine was a Japanese service firearm introduced in 1905 used during World War I & II, and is mechanically similar to the Type 38 (Model 1905) Rifle, differing only in overall length and the position of sling swivels on left side of stock and barrel band instead of on the bottom of the buttstock and barrel band as found on the rifle.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Arisaka is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "REPUBLICA MEXICANA" and the Mexican eagle coat-of-arms is marked on the receiver ring.
- "Type 38 Carbine" was manufactured from 1907 to 1932.
- "Type 38" denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.
- "Type 38" was purchased by the Mexican Government in the 1910s.

Manufacturer

- manufacturer's symbol normally does not appear on the firearm.
- but some specimens are reported to have the manufacturer's identification mark.
- manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls).
- multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935.
- starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal.
- Kokura Arsenal also used the multi circle symbol (four stacked cannon balls).
- the transfer of rifle production to Kokura Arsenal was completed in 1935.
- Kokura Arsenal continued to use the symbol until 1945.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- internal box magazine fed by a top loaded stripper clip.
Other Markings	- the coat of arms of the Republic of Mexico appear on the receiver ring.
Remarks	- This carbine is identical to the Japanese Type 38 (Model 1905) Carbine except for calibre and the Mexican coat of arms on receiver ring. The bulk of carbines produced for the Republic of Mexico are believed to have been sold to Russia during World War I after Mexico defaulted on payment to Japan.

- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 38" is marked on the receiver ring in Japanese characters.
- "Type 38" denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.

Manufacturer

- the manufacturing arsenal's symbol may not be marked following the serial number.

Serial Number

- appears on the left side of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Also Known As/Product Code	- type 38 denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.
Other Markings	- Chrysanthemum normally appears on the receiver ring.
Remarks	- This rifle was a Japanese service firearm introduced in 1905 as a replacement for the Type 30 (Model 1897) Rifle and used during World War I & II. It is basically a modified Mauser type turn bolt, box magazine rifle with a unique "push and turn" safety. This rifle has a two piece buttstock and a metal action cover which reciprocates with the bolt. Officially it was superseded by the Type 99 Rifle in 1939 but in reality it was never totally replaced by the new rifle before the end of World War II.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 38" is marked on the receiver ring in Japanese characters.
- "Type 38" denotes the year of the adoption of this firearm (the 38th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1905.
- "Type 38" was a Japanese service firearm introduced in 1905 as a replacement for the Type 30 (Model 1897) rifle and used during World War I & II.
- "Type 38" is basically a modified Mauser type turn bolt, box magazine rifle with a unique "push and turn" safety.
- "Type 38" incorporates a two piece buttstock and a metal action cover which reciprocates with the bolt.
- "Type 38" was officially superseded by the Type 99 Rifle in 1939 but in reality, never totally replaced by the new rifle before the end of World War II.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's symbol consists of a five pointed star (emblem of the Imperial Japanese Army) with the crest of the Korean royal household inside.
- Jinsen Arsenal symbol was in use from the early 1920s to 1945.

Serial Number

- the Jinsen Arsenal produced Type 38 Rifles belong to two separate production series, one series has a "kana" prefix character to the serial number while the other series lacks this prefix character.
- the kana prefix character used with the first mentioned series is 30 and must be considered as part of the serial number.

Other Markings

- chrysanthemum appears on the receiver ring.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
48 - 1	6.5X50SR JAPANESE ARISAKA	5	794	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is usually marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 97" is marked on the receiver ring in Japanese characters.
- "Type 97" denotes the year of the adoption of this firearm (97 relates to the basic Japanese calender year of 2597), which co-responds to Western/Christian year of 1937.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's symbol consist of three overlapped circles of different size, a large outer circle and two circles inside which resemble a number eight "8".
- Japanese State Arsenal, Nagoya/Nagoya Arsenal was operational from 1923 to 1945.

Serial Number

- the Nagoya Arsenal produced Type 97 Rifles have a "kana" character prefix which must be considered as part of the serial number. The kana character prefix on Nagoya Arsenal produced Type 97 Rifles is "1".

Other Markings

- Chrysanthemum appears on the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- The Type 97 (Model 1937) Sniper Rifle was a Japanese service rifle adopted in 1905 and used during World War I & II, and is virtually identical to the standard Type 38 (Model 1905) Rifle except for a telescopic sight base pinned and screwed to the left side of the receiver, a folding wire monopod fitted to the barrel band and the bolt handle bent slightly downward.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- the original Japanese "Type 99" model designation and Chrysanthemum symbol have been removed from the receiver/ring of this rifle and replaced with Chinese characters which read from right to left "7.9 caliber".
- this rifle is a Chinese Nationalist Army arsenal rework of the Japanese Type 99 rifle as carried out after 1946.
- rework consisted of; rechambering the barrel to 8MM Mauser; the barrel may have been shortened; slight modification to the magazine; other than the noted modifications this rifle retains all of the features of the original Type 99.
- the original serial number and Japanese arsenal symbol are usually still apparent on the left side of the receiver/frame.

Manufacturer

- the manufacturer's symbol consists of a circle with three semi-circles on its outside periphery.
- Toyo Kogyo (Toyo Manufacturing Company) of Hiroshima Prefecture manufactured Type 99 rifles from 1940 to 1945 under the supervision of the Kokura Arsenal.

Action

- turn bolt design.

Serial Number

- original Japanese applied serial number is usually still apparent on the left side of the receiver/frame.

Shots

- internal box magazine.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's symbol consist of three overlapped circles of different size, a large outer circle and two circles inside which resemble a number eight "8".
- Japanese State Arsenal, Nagoya/Nagoya Arsenal was operational from 1923 to 1945.

Serial Number

- the Nagoya Arsenal produced Type 99 Rifles have "kana" prefix characters which signify the production series of the particular rifle.
- marked on left side of receiver.

Also Known As/Product Code

- type 99 denotes the year of the adoption of this firearm (that relates to the basic Japanese calender year 2599), which co-responds to Western/Christian year 1939.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- Chrysanthemum appears on the receiver ring (commonly this will be defaced or roughly ground off).

Remarks

- This rifle was a Japanese service rifle during World War II, intended as a replacement for the Type 38 Rifle to which it is mechanically similar. Differences include slightly shorter barrel, larger more powerful calibre, folding wire monopod affixed to barrel band and a rear sight provided with folding graduated arms for leading aircraft (A.K.A. antiaircraft sights). In the latter stages of World War II steps were taken to hasten production and reduce costs. The result was a simplified version of the original Type 99 Short Rifle without the folding monopod , anti-aircraft sights and subsequently with non adjustable sights and no provision for a metal action cover.

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is usually marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 99" is marked on the receiver ring in Japanese characters.
- "Type 99" denotes the year of the adoption of this firearm (99 which relates to the basic Japanese calender year of 2599), which co-responds to Western/Christian year of 1939.
- "Type 99" is also refered to as the Model 1939.

Manufacturer

- the manufacturer's identifier mark appears as a circle with an upside down figure eight (8) inside and a rounded cross located on the left side of the receiver/frame.
- Toyo Juki Kogyo (Toyo Rifle Manufacturing Company) of Tokyo manufactured Type 99 rifles from 1940 to 1945 under the supervision of the Kokura Arsenal and Nagoya Arsenal.

Serial Number

- Tokyo Juki Kogyo Arsenal produced Type 99 Rifles have "kana" prefix characters which signify the production series of a particular rifle. These "kana" characters must be considered part of the serial number. "Kana" characters used by Tokyo Juki Kogyo Arsenal in the production of Type 99 Rifles are 27 and 37.

Also Known As/Product Code

- type 99 denotes the year of the adoption of this firearm (that relates to the basic Japanese calender year 2599), which co-responds to Western/Christian year 1939.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- chrysanthemum appears on the receiver ring (commonly this is defaced or roughly ground off).

Remarks

- This rifle was a Japanese service rifle during World War II, intended as a replacement for the Type 38 Rifle to which it is mechanically similar. Differences include slightly shorter barrel, larger and more powerful calibre, folding wire monopod affixed to barrel band and a rear sight provided with folding graduated arms for leading aircraft (A.K.A. anti-aircraft sights). Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is usually marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 99" is marked on the receiver ring in Japanese characters.
- "Type 99" denotes the year of the adoption of this firearm (99 which relates to the basic Japanese calender year of 2599), which co-responds to Western/Christian year of 1939.
- "Type 99" is also refered to as the Model 1939.
- "Type 99" is a modified Mauser turn-bolt rifle, distinguishable by a large rotatable safety knob at the rear of the bolt, horizontally dovetail joined butt-stock toe-section.
- the sixteen petalled Imperial chrysanthemum crest adorns the top receiver ring, however, on many surrendered rifles the crest is defaced or removed by grinding.

Manufacturer

- the manufacturer's symbols appears as a circle within a circle, with the "O" divided into three equal parts (like a doughnut divided into thirds); marked on the left side of the receiver ahead of the bolt release.
- Mukden Arsenal was located in Mukden, Manchuria.
- Mukden Arsenal was built by the Manchurian leader, Chang Tso-Lin.
- Mukden Arsenal was taken over by the Japanese in 1931 during the Sino-Japanese War and re-opened in 1934 under a Manchurian puppet government, re-commenced rifle production about 1939 for the Japanese Military under Japanese supervision of two private civilian firms: the Mitsue Company and Okua Company.
- the plant was known as the "Second Mukden Arsenal" or "South Manchurian Arsenal", this arsenal was established in 1939, just northeast of Mukden, and was under total control of the Imperial Japanese Army; in 1944, one-third of the rifle production was moved to Lang-kang, due to increased Allied bombing.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- Serial number range: 1 to 99,999; usually preceded by an encircled Japanese "Kana" syllabary character in ascending order after the initial 99,999. - these "Kana" characters must be considered part of the serial number on Japanese military rifles.
Shots	- integral non-detachable box magazine.
Also Known As/Product Code	- type 99 denotes the year of the adoption of this firearm (that relates to the basic Japanese calender year 2599), which co-responds to Western/Christian year 1939.
Remarks	- This rifle was a Japanese service rifle during World War II, intended as a replacement for the Type 38 Rifle to which it is mechanically similar. Differences include slightly shorter barrel, larger and more powerful calibre, folding wire monopod affixed to barrel band and a rear sight provided with folding graduated arms for leading aircraft (A.K.A. anti-aircraft sights). In the latter stages of World War II steps were taken to hasten production and reduce costs. The result was a simplified version of the original Type 99 Rifle without the folding monopod , anti-aircraft sights and subsequently with non adjustable sights and no provision for a metal action cover.

FRT Report

Firearm Reference Number (FRN): 26
Make: Arisaka
Model: Type 99 Special Naval Rifle

Summary

Make:	Arisaka
Model:	Type 99 Special Naval Rifle
Manufacturer:	Japanese State Naval Arsenal, Yokosuka
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
26 - 1	7.7X58 JAPANESE ARISAKA	5	673	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- "Chrysanthemum" symbol is usually marked on the recevier ring.
- "Chrysanthemum with 16 petals" is the symbol of the Japanese Emperor.
- "Type 99 Special" is marked on the receiver ring in Japanese characters.
- "Type 99" denotes the year of the adoption of this firearm (99 which relates to the basic Japanese calender year of 2599), which co-responds to Western/Christian year of 1939.
- "Type 99" is also refered to as the Model 1939 Special.

Manufacturer

- the manufacturer's mark appears as an anchor on the top of the receiver ring.

Serial Number

- the serial number has the "kana" prefix character "7", this prefix must be considered as part of the serial number.

Barrel

- other barrel lengths known to exist.

Other Markings

- anchor symbol appears on the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- the Naval Type 99 Special Naval Rifle is a war time expedient intended for use by naval personnel. Most parts are of unmachined cast iron, including the receiver, and the locking lugs of the bolt mesh with locking recesses in the breech of the barrel. All metal parts are painted black and the general appearance of the rifle is of poor workmanship and questionable safety, however despite these appearances the Type 99 Special Naval Rifle is quite serviceable.

FRT Report

Firearm Reference Number (FRN): 126992
Make: Arisaka
Model: Type 99 Training Rifle

Summary

Make:	Arisaka
Model:	Type 99 Training Rifle
Manufacturer:	Japanese State Arsenal, Kokura
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
126992 - 1	7.7X58 JAPANESE ARISAKA	5	794	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "ARISAKA" is not marked on the firearm.
- Ariska is derived from the last name of Colonel Nariake Arisaka.
- Colonel Nariake Arisaka was the chairman of the committee to develop a small caliber, turn-bolt design, box magazine fed rifle to replace the Murata service rifle.
- Arisaka rifle was developed at the Koishikawa Arsenal.
- Arisaka was officially patterned the Type 30 infantry rifle in 1897.

Model

- model designation is not marked on the firearm.
- this is a standard "Type 99" infantry rifle converted for training/drill purposes for use by civilian and para-military organizations within Japan after they were deemed to be obsolete by the Japanese military.
- conversion included: re-boring of barrel to remove rifling; removal of original government and model markings; removal of original serial number; addition of "Blank Ammunition Only" Japanese character markings on the top of the receiver/frame; and the addition of new a serial number on left side of the receiver/frame.
- other features include: blued receiver/frame and barrel; internal magazine; hook safety; post front sight; graduated rear sight; one piece stock with upper handguard; steel nosecap with bayonet lug; one barrel band with integral sling swivel; and cleaning rod located underneath the barrel.

Manufacturer

- manufacturer's symbol is marked on the left side of the receiver/frame.
- manufacturer's identification mark consists of a multi circle symbol (top down view of four stacked cannon balls).
- multi circle symbol (four stacked cannon balls) was used by the Japanese State Arsenal, Koishikawa at Tokyo up until 1935.
- starting in 1929/1930, the manufacture of rifles was gradually transferred from Koishikawa Arsenal to Kokura Arsenal.
- Kokura Arsenal also used the multi circle symbol (four stacked cannon balls).
- the transfer of rifle production to Kokura Arsenal was completed in 1935.
- Kokura Arsenal continued to use the symbol until 1945.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is located on the left side of the receiver/frame. - observed examples have consisted of a series of four numbers with a letter prefix.
Shots	- internal non-detachable magazine.
Canadian Law Comments	- examples may be marked "1 / X" which is the Kanjii character for school.

37977 - 3	20 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make (or logo thereof) is marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a standard-pattern side by side box lock shotgun available with a number of options.
- features include: checkered walnut straight, semi- or full pistol-grip stock and forearm; double triggers; side clips; automatic safety; square-bolt Greener locking system; and lightly engraved receiver in a running stag pattern.

Manufacturer

- Eusebio Arizaga/Successors de Eusebio Arizaga was located in Placencia de las Armas, Guipuzcoa, Spain.
- Eusebio Arizaga/Successors de Eusebio Arizaga was established in 1908.
- Eusebio Arizaga/Successors de Eusebio Arizaga manufactured custom and semi-custom multi-barreled shotguns.
- Eusebio Arizaga/Successors de Eusebio Arizaga joined "DIARM" circa 1984.
- "F.A." is the manufacturer's code for "Eusebio Arizaga".

Action

- side by side barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gun maker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Barrel

- available in various lengths, up to 36"/914mm; 28"/711mm is a typical "field" length.

Notes

Make

- make designation is marked on the barrels.

Model

- "39" may be marked on the firearm.
- this is a low cost side by side sidelock shotgun in either English or American stock styles.
- features include: double triggers; automatic safety; Purdey locking system, and lightly engraved sideplates in a flying bird pattern (two birds opposite directions).

Manufacturer

- Eusebio Arizaga/Successors de Eusebio Arizaga was located in Placencia de las Armas, Guipuzcoa, Spain.
- Eusebio Arizaga/Successors de Eusebio Arizaga was established in 1908.
- Eusebio Arizaga/Successors de Eusebio Arizaga manufactured custom and semi-custom multi-barreled shotguns.
- Eusebio Arizaga/Successors de Eusebio Arizaga joined "DIARM" circa 1984.
- "F.A." is the manufacturer's code for "Eusebio Arizaga".

Action

- side by side configuration.

Serial Number

- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Barrel

- available in various lengths, up to 36"/914mm; 28"/711mm is a typical "field" length.

Calibre

- calibre designation is marked on the bottom of the barrels.

FRT Report

Firearm Reference Number (FRN): 23511
Make: Arizmendi
Model: 1933

Summary

Make:	Arizmendi
Model:	1933
Manufacturer:	Arizmendi y Goenaga
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23511 - 1	7.65MM	9	88	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AG" within an oval is marked on the side of the firearm.
- "Arizmendi y Goenaga" was located in Eibar, Spain from 1886 to 1914.
- "Arizmendi y Goenaga" was originally known as "Francisco Arizmendi y Goenaga".
- "FAG", "F.A.G." or "F.A. y G" were trademarks used by "Francisco Arizmendi y Goenga".
- "AG" was a trade mark used by "Arizmendi y Goenaga". This trademark was a crowned "AG" above a crescent or the letters "A.G" inside a circle/oval.
- "Francisco Arizmendi y Goenaga / Arizmendi y Goenaga" manufactured both revolvers and semiautomatic pistols.
- "Arizmendi y Goenaga" company name was changed to "Francisco Arizmendi" in 1914.
- "Franciso Arizmendi" was located in Eibar, Spain from 1914 to 1936.
- "FA" was a trademark used by "Francisco Arizmendi". This trademark was the letters "FA", above a five point star, over a horizontal crescent.

Model

- model designation is marked on the left side of the slide as "1933"; the date of 1933 is preceded by the Cyrillic characters for "Pistol" followed by "7.65MM - 9 BT3."; the number 9 in this sequence indicates the nine shot version, the seven shot model is marked with "7.65MM - 7"; the Cyrillic letters "BT3" mean "VTS" in English; VTS indicates the name of "Voino Teknicheski Zavod" which is "Military Technical Factory" in English; this is the name of the arsenal/factory that remanufactured and/or proofed this model series in Yugoslavia in 1933.
- this pistol is a Ruby-type handgun supplied by the French Government to the Serbian Army circa 1916. In 1933 these pistols were remanufactured and/or reproofed by the Military Technical Factory in Kragujevic, Yugoslavia.
- blow-back operated, single action trigger mechanism, semi-automatic pistol utilizing a detachable box magazine.
- features; swinging-type safety located on the left side of the receiver/frame; magazine release located on the bottom rear of the back strap of the grip frame; lanyard ring located on the bottom rear left side of the grip frame; blued finish.
- the trademark initials/logo of the original Spanish manufacturer of these pistols may still be apparent on the rear left side of the receiver/frame; the initials "GU" and "AG" have been observed where GU indicates " Gabilondo Y Urresti" and AG is for "Arizmendi Y Goenaga".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Yugoslav arsenal markings are located on the left side of the slide in Cyrillic as, "BT3" which stand for "Voino Teknicheski Zavod"; this arsenal was located in Kragujevic, Yugoslavia. - for clarity, the Cyrillic characters "BT3" are translated into English as "VTZ" and the name "Voino Teknicheski Zavod" means "Military Technical Factory". - in addition to the above, the trademark initials/logo of the original Spanish manufacturer of these pistols may still be apparent on the rear left side of the receiver/frame; the initials "GU" and "AG" have been observed where GU indicates " Gabilondo Y Urresti" and AG is for "Arizmendi Y Goenaga".
Action	- blowback operated.
Serial Number	- serial numbers are usually marked on the right side of the receiver/frame above the trigger guard; the number is usually repeated on the slide above the receiver/frame number and on the barrel at the ejection port. - observed examples have had three and four digit numbers without prefix or suffix.
Calibre	- calibre and number of shots is marked on the left side of the slide as, "7.65 MM - 7 BT3", or "7.65 MM - 9 BT3"; the letters "BT3" are in fact cyrillic.

Type:	Handgun
Action:	Revolver
Country of Manufacturer:	SPAIN
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
124734 - 1	8MM LEBEL REV	7	105	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- manufacturer's name or logo thereof may be marked on the firearm.
- "FA" over a star over a crescent is usually marked on the firearm.
- "TRADE MARK" with a star over a crescent moon and "F.A.G" are marked on the grips.
- "F.A.G" is the abbreviation for "Francisco Arizmendi Y Goenaga".

Model

- model designation is not marked on the firearm.
- similar to the Belgian gas seal Nagant model 1895.
- features include: round barrel; solid top receiver/frame; fixed fluted cylinder; extractor rod is mounted on the underside off the barrel; exposed spur hammer; single/double action trigger mechanism; rounded butt with lanyard ring; fixed sights; checkered plastic grips.

Manufacturer

- manufacturer's name is not marked on the firearm.
- "Arizmendi y Goenaga" was located in Eibar, Spain from 1886 to 1914.
- "Arizmendi y Goenaga" was originally known as "Francisco Arizmendi y Goenaga".
- "FAG", "F.A.G." or "F.A. y G" were trademarks used by "Francisco Arizmendi y Goenga".
- "AG" was a trade mark used by "Arizmendi y Goenaga". This trademark was a crowned "AG" above a crescent or the letters "A.G" inside a circle/oval.
- "Francisco Arizmendi y Goenaga / Arizmendi y Goenaga" manufactured both revolvers and semiautomatic pistols.
- "Arizmendi y Goenaga" company name was changed to "Francisco Arizmendi" in 1914.
- "Francisco Arizmendi" was located in Eibar, Spain from 1914 to 1936.
- "FA" was a trademark used by "Francisco Arizmendi". This trademark was the letters "FA", above a five point star, over a horizontal crescent.

Calibre

- available in 7.62MM NAGANT or 8MM LEBEL RV.
- calibre designation is marked on the left side of the receiver/frame.

194302 - 1	8MM LEBEL REV	9	107	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- manufacturer's name is marked on the firearm.
- "Arizmendi y Goenaga" was located in Eibar, Spain from 1886 to 1914.
- "Arizmendi y Goenaga" was originally known as "Francisco Arizmendi y Goenaga".
- "FAG", "F.A.G." or "F.A. y G" were trademarks used by "Francisco Arizmendi y Goenaga".
- "AG" was a trade mark used by "Arizmendi y Goenaga". This trademark was a crowned "AG" above a crescent or the letters "A.G" inside a circle/oval.
- "Francisco Arizmendi y Goenaga / Arizmendi y Goenaga" manufactured both revolvers and semiautomatic pistols.
- "Arizmendi y Goenaga" company name was changed to "Francisco Arizmendi" in 1914.
- "Franciso Arizmendi" was located in Eibar, Spain from 1914 to 1936.
- "FA" was a trademark used by "Francisco Arizmendi". This trademark was the letters "FA", above a five point star, over a horizontal crescent.

Model

- model designation is not marked on the firearm; this is the name under which these revolvers were commonly sold. These revolvers were produced primarily for export and for sale to colonists who were moving to South America, Africa, or the Far East.
- these revolvers combine features of the Belgian Nagant and the French 1892 military revolvers, but with a simplified (cheaper) ejection system.
- features include: blued finish; part round/part octagonal barrel; solid top receiver/frame; fixed oval-fluted cylinder; rotating ejector rod is mounted on the underside of the barrel and stored in the hollow cylinder pin; exposed spur hammer; single/double action trigger mechanism; rounded butt with lanyard ring; fixed sights; checkered plastic grips.

Manufacturer

- Arizmendi y Goenaga's manufacturer's mark of a crowned "AG" above a crescent is marked on the firearm.

Action

- double-action revolver.

Notes

Make

- "AZ" in an oval is marked on the left side of the slide and on at the back of the receiver/frame.
- "AZ" in an oval is a trade marked used by Arizmendi Zulaica y Cia.

Model

- manufactured from 1914 to 1918.
- "PISTOLET AUTOMATIQUE" and "ESPANA" was observed marked on the left side of the slide.
- total production 15,000 pistols.
- this firearm is an Eibar copy of a FN/Browning model 1906 semi-automatic pistol.
- features include: fixed sights; round barrel; flat side slide with rear grip serrations; safety/action release is located on the left side of the receiver/frame; magazine release is located on the bottom of the rear grip strap; lanyard ring is located on the left side of the rear grip strap; checkered grip plates; blued finish.

Manufacturer

- "AZ" in an oval is a trade marked used by Arizmendi Zulaica y Cia.
- "Arizmendi Zulaica y Cia" of Eibar, Spain and the relationship between the numerous other "Arizmendi" companies of Spain is uncertain.
- "Arizmendi Zulaica y Cia" was formed during World War I to produce "Ruby" type pistols as a sub-contractor for "Gabilondo Y Urresti" who had won a contract in 1916 to produce firearms for France. When the order was filled "Arizmendi Zulaica y Cia" continued to offer the pistol under the name "Cebra". At some point they also produced a revolver that was a copy of a Smith & Wesson product.

Action

- blowback operated.

Serial Number

- serial number is marked on the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine.
Other Markings	- may have two stars on the butt for the French contract.

Notes

Make

- manufacturer's name is not marked on the firearm.
- "Arizmendi y Goenaga" was located in Eibar, Spain from 1886 to 1914.
- "Arizmendi y Goenaga" was originally known as "Francisco Arizmendi y Goenaga".
- "FAG", "F.A.G." or "F.A. y G" were trademarks used by "Francisco Arizmendi y Goenaga".
- "AG" was a trade mark used by "Arizmendi y Goenaga". This trademark was a crowned "AG" above a crescent or the letters "A.G" inside a circle/oval.
- "Francisco Arizmendi y Goenaga / Arizmendi y Goenaga" manufactured both revolvers and semiautomatic pistols.
- "Arizmendi y Goenaga" company name was changed to "Francisco Arizmendi" in 1914.
- "Franciso Arizmendi" was located in Eibar, Spain from 1914 to 1936.
- "FA" was a trademark used by "Francisco Arizmendi". This trademark was the letters "FA", above a five point star, over a horizontal crescent.

Model

- "PISTOLET AUTOMATIQUE" is marked on the slide; care must be taken to not confuse this model with any of the similar models produced by Arizmendi, but which have similar model names appended with a trade-name; eg. "Pistolet Automatique Singer", "Pistolet Automatique Walman", "Pistolet Automatique Victor", etc.
- this is a typical Spanish copy of the then-popular Browning 1906 6.35mm/25 AUTO pocket pistol, manufactured by Francisco Arizmendi, and made without a grip safety.
- features include: blued finish; fixed groove sights; single-action trigger mechanism; hammerless; rotating safety lever on the left side above the trigger; heel magazine release, and gutta percha or wooden grips.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "FA" was a trademark used by "Francisco Arizmendi".
- Francisco Arizmendi's trademark was the letters "FA", above a five point star, over a horizontal crescent.

Model

- no model name is apparent on this firearm.
- readily identifiable by Arizmendi's trademark; a circle containing a five-pointed star, surmounted by FA in a shield usually found on the left side of the frame in various locations. Stylized FA may also be found on the grip plates.
- this is a generic entry designed to encompass a model series of revolvers manufactured by Francisco Arizmendi circa 1914 to 1936; they are sometimes referred to simply as "Arizmendi" revolvers.
- features include: round barrel; solid top receiver/frame with fluted fixed or swing out cylinder; loading gate on right side of standing breech; ejector rod carried on a swivel-type crane attached to the cylinder axis pin is used to expel empty shell casings through the loading gate opening; folding trigger; single/double action trigger mechanism; may have a thumb-actuated sliding safety on the left rear of the frame above the grip plate.
- receiver/frame may have a distinctive "hump-back" appearance, which extends rearward from the top strap to the grip frame thereby enclosing the hammer or a conentional frame with an exposed hammer.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "ARMALITE" is marked on left side of receiver/frame.
- ArmaLite Corporation was a division of the Fairchild Engine & Airplane Corporation (1954 to 1961).
- ArmaLite Corporation logo was the winged Pegasus logo of Fairchild superimposed upon a circle with crosshairs and the word "ARMALITE" written below it.
- ArmaLite was located in Hollywood, California U.S.A from 1954 to 1959.
- ArmaLite was located in Costa Mesa, California U.S.A. from 1959 through its demise as "ArmaLite Incorporated" in the early 1980's.
- "ArmaLite Corporation" was sold in 1962 to become "ArmaLite Incorporated". The Fairchild Pegasus, winged horse was removed from the logo and replaced with a rampant lion.
- ArmaLite granted licenses to Artillerie Inrichtingen (A.I.) (1957) and Colt's Patent Firearms Manufacturing Co Inc (1959) for the manufacture of AR 10 rifles.
- "ArmaLite Corporation" was never intended to be an arms company; instead it was to produce concepts and design for guns, put on paper, prototypes would be created and then sold or licensed to company's who would actually be manufacturing them.

Model

- "AR10" is marked on the left side of the receiver/frame.
- only production prototypes manufactured.
- features include: high front sight bracket with a carrying handle housing the adjustable rear sight; metal or fiberglass top handguard/heat shield; cocking handle located inside the carrying handle; straight inline stock design; receiver/frame and upper assembly is constructed of aluminum; furniture was made of resin/fiberglass brown in color or painted black; left side belt magazine fed; quick-change barrel; folding pistol grip/handguard.

Manufacturer

- "mfd by AI (in a triangle, the Artillerie-Inrichtingen Logo) Nederland" is marked on the left side of what would normally be the magazine housing.
- manufacturers logo is marked on left side of the receiver/frame.
- logo is made of a "A" superpose over a "I" inside a rounded corner triangle partially open at its base.
- Artillerie Inrichtingen (A.I.) was located in Hembrug- Zaandam, Holland.
- production of the AR-10 and its variants was from 1957 to early 1961.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial number is marked on the left side of the receiver/frame.

Shots - belt fed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "AR-10" is marked on the left side of the receiver/frame.
- features include: high front sight bracket with a carrying handle housing the adjustable rear sight; cocking handle located inside the carrying handle; straight inline stock design; receiver/frame and upper assembly is constructed of aluminum; furniture was made of resin/fiberglass brown in colour or painted black.
- the "Sudanese" version: three prong flash suppressor; barrel sleeve with the bayonet lug; fluted barrel; one piece non-removable handguard; buttplate with trap door; weight 3.11kg (6.85 lbs).
- "Transitional" version: combination three gas port flash suppressor, grenade launcher and bayonet lug with provision for a bipod attachment; removable metal and fibreglass handguard; non-fluted barrel; rubber buttplate; overall length with a 508mm (20") barrel is 1056.7mm (41.6") and average weight is 4.31kg (9.5 lbs).
- "Transitional" model produced in limited numbers in a civilian semi-auto only version was the "ArmaLite Sporter AR-102". A very small number of a semi-automatic "Carbine" were made as part of an arctic survival kit for the KLM Royal Dutch Airline in 1958.
- the "Portuguese" version was the last improved AR-10.
- features include: combination three port flash suppressor, grenade launcher with a bipod attachment; bayonet lug located at 12 O'clock; gas regulator on the left side of the front sight bracket; removable handguard similar to the Transitional model; handguard may be grooved for a folding bipod; two piece cocking handle located in the carrying handle; rear sling swivel on the left side of the stock; safety/selector "safe" position at 9 O'clock; weight 4.59kg (10.11 lbs).

Manufacturer

- manufacturer's logo is marked on left side of the receiver/frame.
- manufactured the AR-10 in limited numbers.
- logo is made of a "A" superpose over an "I" inside a rounded corner triangle partially open at its base.
- Artillerie Inrichtingen (A.I.) was located in Hembrug- Zaandam, Netherlands.
- production of the AR-10 and its variants was from 1957 to early 1961.

Action

- gas operated.

Serial Number

- serial number location on the "Sudanese" and "Transitional" versions is on the bottom of the magazine well and on the left side edge of the upper assembly on the "Portuguese" version.

Shots

- detachable box magazine.

- ArmaLite Corporation logo was the winged Pegasus logo of Fairchild superimposed upon a circle with crosshairs and the word "ARMALITE" written below it.
- ArmaLite was located in Hollywood, California U.S.A from 1954 to 1959.
- ArmaLite was located in Costa Mesa, California U.S.A. from 1959 through its demise as "ArmaLite Incorporated" in the early 1980's.
- "ArmaLite Corporation" was sold in 1962 to become "ArmaLite Incorporated". The Fairchild Pegasus, winged horse was removed from the logo and replaced with a rampant lion.
- ArmaLite granted licenses to Artillerie Inrichtingen (A.I.) (1957) and Colt's Patent Firearms Manufacturing Co Inc (1959) for the manufacture of AR 10 rifles.
- "ArmaLite Corporation" was never intended to be an arms company; instead it was to produce concepts and design for guns, put on paper, prototypes would be created and then sold or licensed to company's who would actually be manufacturing them.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "AR-10" is marked on the left side of the receiver/frame.
- features include: high front sight bracket with a carrying handle housing the adjustable rear sight; cocking handle located inside the carrying handle; straight inline stock design; receiver/frame and upper assembly is constructed of aluminum; furniture was made of resin/fiberglass brown in colour or painted black.
- the "Sudanese" version: three prong flash suppressor; barrel sleeve with the bayonet lug; fluted barrel; one piece non-removable handguard; buttplate with trap door; weight 3.11kg (6.85 lbs).
- "Transitional" version: combination three gas port flash suppressor, grenade launcher and bayonet lug with provision for a bipod attachment; removable metal and fibreglass handguard; non-fluted barrel; rubber buttplate; overall length with a 508mm (20") barrel is 1056.7mm (41.6") and average weight is 4.31kg (9.5 lbs).
- "Transitional" model produced in limited numbers in a civilian semi-auto only version was the "ArmaLite Sporter AR-102". A very small number of a semi-automatic "Carbine" were made as part of an arctic survival kit for the KLM Royal Dutch Airline in 1958.
- the "Portuguese" version was the last improved AR-10.
- features include: combination three port flash suppressor, grenade launcher with a bipod attachment; bayonet lug located at 12 O'clock; gas regulator on the left side of the front sight bracket; removable handguard similar to the Transitional model; handguard may be grooved for a folding bipod; two piece cocking handle located in the carrying handle; rear sling swivel on the left side of the stock; safety/selector "safe" position at 9 O'clock; weight 4.59kg (10.11 lbs).

Manufacturer

- manufacturer's logo is marked on left side of the receiver/frame.
- made from 1957 to early 1961 in limited numbers.
- manufacturer's logo is marked on left side of the receiver/frame.
- logo consists of an "A" superposed over an "I" inside a triangle partially open at its base.
- Artillerie Inrichtingen (A.I.) was located in Hembrug- Zaandam, Netherlands.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number location on the "Sudanese" and "Transitional" versions is on the bottom of the magazine well and on the left side edge of the upper assembly on the "Portuguese" version.

Barrel

- barrel length does not include the flash hider.

Shots

- detachable box magazine.

Notes

Make

- "ARMALITE" is marked on the firearm.

Model

- the model is not marked on the firearm; "AR-10" or "AR 102" may be present, possibly with KLM property markings.
- this firearm is a limited production run (qty 4) of semi-automatic-only AR-10 pattern carbines manufactured by Artillerie-Inrichtingen between 1957 and 1960, under licence from the Armalite Division of Fairchild Aircraft. These rifles were purchased by KLM (Royal Dutch Airlines) as part of a "survival kit" to be carried on aircraft flying the polar route from the Netherlands to Japan. These AR-10 Rifles were "Cuban pattern" without a flash eliminator; semi-automatic-only versions of the military AR-10's that were being offered to military customers. After only two major military contracts for the AR-10 (from Sudan and Portugal), no further military contracts were forthcoming, and Artillerie-Inrichtingen ceased production of the entire family of AR-10 firearms.
- features usually include: matte parkerized/phosphated metal finish; a plain barrel without flash-hider; a front sight base without the round gas-adjustment knob of the "Portuguese model" AR-10; a ventilated or fluted synthetic forearm extending up to the front sight base; a flat-bottomed magazine well (unlike the AR 102); a cocking handle inside the carry handle/rear sight base; sling swivels; and synthetic butt and pistol-grip - Note: - the take-down pins front and rear were attached to the firearm by small lanyard chains to prevent loss when handled by unskilled users.

Manufacturer

- "ARTILLERIE-INRICHTINGEN" and/or the Artillerie Inrichtingen logo of "AI" within a rounded triangle are marked on the firearm.

Action

- gas-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Remarks - it has been reported that at the end of their service life with KLM (circa 1974) these firearms were sold off as surplus to a dealer in the USA.

Notes

Make

- "ARMALITE" is marked on the firearm.

Model

- the model is marked on the lower receiver/frame as "ARMALITE SPORTER" over "AR 102".
- (distinguishing feature of this model) a magazine well cut at an angle from the forward hinge-pin to the bottom of the trigger-guard.
- this is a limited production run of semi-automatic-only AR-10 pattern rifles manufactured by Artillerie-Inrichtingen between 1957 and 1960, under licence from the Armalite Division of Fairchild Aircraft. These rifles were initially offered as a civilian version of the military AR-10 that was being offered to military customers, but after only two major military contracts for the AR-10 (from Sudan and Portugal), no further military contracts were forthcoming, and Artillerie-Inrichtingen ceased production of the entire family of firearms.
- features usually include: matte parkerized/phosphated metal finish; a plain barrel without flash-hider; a front sight base without the round gas-adjustment knob of the "Portuguese model" AR-10; a short synthetic forearm combined with a ventilated steel barrel shroud extending up to the front sight base; a cocking handle inside the carry handle/rear sight base; sling swivels; and synthetic butt and pistol-grip.
- total production estimated at less than 35 exemplars, including a few cut-away training aid models.

Manufacturer

- "ARTILLERIE-INRICHTINGEN" and/or the Artillerie Inrichtingen logo of "AI" within a rounded triangle are marked on the firearm.

Action

- gas-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- unique to this model, there is a 30 degree cut in the magazine housing from the front of the trigger guard to the forward portion of the magazine housing approximately one centimeter below the front hinge pin which necessitates a change to the location of the firearm make logo and the serial number location.
- the serial number is found on a flat located on the lowest portion of the upper receiver/frame following the calibre marking - immediately above the Patent Pending markings on the lower receiver.
- observed serial numbers consisted of six digits with zeros used as "place holders".
- example serial number - 000031.

Shots

- detachable box magazine.

Remarks

- it has been reported that at the end of the licencing agreement with ArmaLite the manufacturer Artillerie-Inrichtingen, Zaandam, cleaned up the factory of firearms and tooling and many of these semi-automatic AR-102 firearms were sold off as surplus to firearms businesses in Canada.

Notes

Make

- ArmaLite's "cross hairs and flying horse" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Model

- new for November 1998.
- designed to meet the nostalgia market for the original AR-A and AR-15 rifles; this rifle has been produced in several sub-variants, including "flat-top" and "carry-handle" versions.
- the "carry-handle" version has the cocking lever on top of receiver and under the sight handle. This cocking lever looks like an upside - down trigger. The "flat-top" version has an AR-15/M16-style cocking T-handle at the upper rear of the receiver.
- these rifles may be seen with a variety of tapered, round, or ribbed handguards, and with synthetic furniture in a variety of finishes/colours.

Manufacturer

- ArmaLite's "cross hairs and flying horse" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Action

- gas operated, magazine fed, semi-automatic rifle.

Serial Number

- serial number rationalization as follows: two letter prefix "US" followed by a space and numbers.

Calibre

- the firearm is clearly marked 7.62MM on the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine. - detachable box magazine; this firearm uses modified magazines from the M14/M1A family of rifles.
Remarks	- Wolverine Supplies of Virden, Manitoba is the exclusive Canadian distributor for Armalite Incorporated & Eagle Arms products.

Notes

Make

- "ARMALITE" is marked on the left side of the receiver/frame and includes the lion logo of Armalite Inc.

Model

- Introduced in 1976.
- Manufactured from 1976 to 1985.
- "AR-180" was manufactured from 1969 to 1972 by ARMALITE Inc.
- "AR-180" was manufactured by HOWA MACHINERY in Nagoya, Japan for ARMALITE Inc. from 1972 until 1973.
- "AR-180" has been manufactured by STERLING ARMAMENT in Essex, England since 1976.
- "AR-180" is marked on the left side of the firearm.
- "AR-180 SCS" model has a wood thumb-hole stock to give the firearm a less "Military" appearance.
- "AR-180 SCS" uses the same mechanical assemblies as the "AR-180" model.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "STERLING" is marked on the left side of the firearm.
- Sterling Telephone & Electric Company of Dagenham, Essex, England was established in 1909.
- Sterling Telephone & Electric Company was known as Sterling Works (Dagenham) Limited in 1932.
- Sterling Telephone & Electric Company became Sterling Electric Holding Limited in 1933.
- Sterling Electric Holding Limited was the parent company of Sterling Armaments and Sterling Engineering.

- STERLING ARMAMENTS was located in Northampton, England circa 1940 to circa 1943.
- Sterling Armaments was one of the secondary companies assigned to produce the Lanchester submachine gun.
- Sterling Armaments was a satellite factory to the original "Sterling Engineering" of Dagenham.
- Sterling Armaments' wartime production code was "M619".

- STERLING ENGINEERING was located on Dagenham, Essex, England.
- Sterling Engineering Company Limited's parent company was Sterling Electric Holding Limited from 1939 to 1972.
- Sterling Engineering was the original company assigned to produce the Lanchester submachine gun.
- Sterling Engineering's wartime production code was "S109".
- Sterling Engineering became Sterling Armament Company Limited.

- STERLING ARMAMENT COMPANY LIMITED was purchased by James Edminston in 1972.
- Sterling Armament and Armalite signed a manufacturing agreement in 1974.
- Sterling Armament was sold by James Edminston in 1983/1984.
- Sterling Armament was purchased by British Aerospace in 1989.
- Sterling Armament ceased operations in the early 1990's.

Action

- gas operated.

Serial Number

- the serial number is usually located on upper rear, right side of the receiver/frame.
- observed sample serial number consisted of a two letter prefix followed by five digits.

Shots

- detachable box magazine.
- AR15 type magazines were introduced in 1959 as a 20 shot magazine.

Notes

Make

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "RIFLE, 5.56MM" over "AR-180B" is marked on the left side of the magazine housing of the receiver/frame. - "AR-180B / 5.56mm" is marked on the left side of the upper assembly. - "AR-180B was manufactured from 2003 to 2007. - features include: originally integral or threaded for muzzle flash hider/muzzle brake; straight profile barrel; front sight with protecting ears, gas block assembly; short recoil, gas piston operated; sheet metal module, protected "L" shaped rear sight with right, traversing adjustment knob; two piece, synthetic handguard; formed, sheet metal upper assembly with dovetailed optic mount base or accessory rail on the top; molded polymer lower receiver/frame; left side mounted safety lever; right side mounted bolt cocking handle; - some parts such as the upper receiver/frame complete with the barrel are interchangeable with the first generation AR180. - the lower receiver/frame, which is the serialized component, cannot be interchanged with the original AR180. - overall length with a 508 mm barrel is 965 mm (38"), and the average weight is 2.72 kgs (6 lbs).
Manufacturer	- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame. - "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.
Action	- gas operated.
Serial Number	- serial number was observed marked on the left side of the lower receiver/frame. - observed serial number consisted of six numbers without a letter prefix or suffix. - observed serial number consisted of a two letter "US" prefix and six numbers.
Barrel	- barrel length includes an integral flash hider/muzzle brake unit. - the US manufacturer has modified the design to include a screw on/off muzzle attachment effectively shortening the barrel to 462MM.
Calibre	- marked on the left side of the receiver/frame. - 5.56MM NATO rifling characteristics: 1 turn in 9 inches, right hand twist.
Shots	- detachable box magazine. - sold standard with a ten shot magazine. - accepts standard AR-15 / M-16 pattern magazines.
Importer	- Wolverine Supplies of Virden, Manitoba is the exclusive Canadian distributor for Armalite Incorporated & Eagle Arms products.
Remarks	- this firearm is capable of mounting any AR-180 series rifle upper receiver/frame unit to the new polymer lower introduced in this model. - the upper receiver/frame unit is identical to the original AR-180 first generation production items. - two versions of this firearm exist, one with integral muzzle attachment and one with a screw on/screw off muzzle attachment resulting in a RESTRICTED and a NON RESTRICTED version by barrel length of this firearm model.

Notes

Make

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Model

- This firearm is of the design commonly known as the AR-15/M-16 rifle.
- The basic "M15" is available in several sub-models, variations in "A2" configuration feature an integral carry handle/rear sight assembly on the upper receiver and a fixed front sight. Variations in "A4" configuration feature a "flat-top" upper receiver with an integral picatinny rail for mounting optical, iron (rear) or laser sights and a picatinny rail front sight base.
- "M15A2" is marked on left side of receiver/frame (without the letters "NM", "Service Rifle" or "Carbine").
- The "NM" (National Match) is a target-oriented model and has a stainless steel barrel.
- In 2003 Armalite introduced the M15A2 SOF (Special Operation Forces) model in carbine configuration. This model features a fixed (permanently extended to comply with U.S. law) telescoping style buttstock.
- Features include: stainless or blued steel barrels with or without a flash suppressor; fixed sights; plastic pistol grip, buttstock and handguard.

Manufacturer

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Action

- Capable of full automatic fire.
- Gas operated.
- Select fire.

Notes

Make

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- Introduced in 1995-1996.
- This is a generic entry. Other "M15A4" model entries exist which might better describe the firearm.
- this firearm is of the design commonly known as the AR-15/M-16 rifle.
- the basic "M15" is available in several sub-models, variations in "A2" configuration feature an integral carry handle/rear sight assembly on the upper receiver and a fixed front sight. Variations in "A4" configuration feature a "flat-top" upper receiver with an integral picatinny rail for mounting optical, iron (rear) or laser sights and a picatinny rail front sight base.
- "M15A4" is marked on left side of receiver/frame.
- in 2003 Armalite introduced the M15A4 SOF (Special Operation Forces) model in carbine configuration. This model features a fixed (permanently extended to comply with U.S. law) telescoping style buttstock.
- features include: stainless or blued steel barrels with or without a flash suppressor; plastic pistol grip, buttstock and handguard.

Manufacturer

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a one or two letter prefix and five or six numbers.

Barrel

- there are many factory standard barrel lengths available that will fit this firearm.

Calibre

- these firearms are identified to 5.56MM NATO calibre by marking on the left side of the lower receiver.
- the calibre appears as 5.56MM without the word "NATO".
- "5.56 MM" or ".223 REM" is marked on the left side of the receiver/frame.
- calibre identification is also marked on the barrel.
- all other calibre will also be marked on the barrel and on the left side of the upper assembly, over the magazine well area.
- 5.56MM NATO/223 REM rifling characteristics: 1 turn in 8 inches or 9 inches, right hand twist.
- 6.8MM SPC rifling characteristics: 1 turn in 11 inches, right hand twist.
- 7.62X39 RUSSIAN rifling characteristics: 1 turn in 10 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- Introduced in 1995 - 1996.
- Discontinued in 2020.
- this firearm is of the design commonly known as the AR-15/M-16 rifle.
- M15A4 is marked on receiver/frame (without the letter "T", "Special Purpose Rifle" or "Carbine").
- the "T" models are target oriented with a free floating stainless steel barrel and gas block.
- the models without the "T" designation are the blued utility models "Special Purpose Rifle" and "Special Purpose Carbine".
- features include: flat top upper receiver; stainless or blued steel barrels of various contours and lengths with or without a flash suppressor; free-floating barrels without sights; Picatinny rail on upper receiver; plastic pistol grip stock and handguard.
- the "T" models are target oriented with stainless barrels, gas ports and a free floating barrel, the models without the "T" designation are the blued utility models "Special Purpose Rifle" and "Special Purpose Carbine"
- this record includes the models M15A4 "T" Rifle, M15A4 "T" Carbine, M15A4 Rifle and M15A4 Carbine.

Manufacturer

- ArmaLite's "cross hairs and leaping lion" logo and the "ArmaLite" name are marked on the left side of the magazine housing of the receiver/frame.
- "ArmaLite Inc." over "Geneseo, IL" are marked on the the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number rationalization as follows: two letter prefix "US" followed by a space and five numbers.

Shots

- detachable box magazine.

Other Markings

- the receiver/frame is marked: "M15A4".

Remarks

- Wolverine Supplies of Virden, Manitoba is the exclusive Canadian distributor for Armalite Incorporated & Eagle Arms products.

Notes

Make

- "ARMALON LTD." is marked on the right side of the receiver/frame.
- "Armalon" was developed around 1997.

Model

- The model designation is not marked on the firearm.
- This is a highly-customized "Lee-Enfield" rifle, converted to detachable pistol magazine feed, and reworked to produce as highly-accurate a sniper rifle as possible, similar in concept to the Delisle rifle. These rifles are built to customer order, and can have a range of features, including fluted or plain barrels, and detachable/integral suppressors.
- Features may include: matte blued or parkerized finish; the customer's choice of stock style; open sights or optical sight mounts; and various other options.

Manufacturer

- "ARMALON LTD." is marked on the right side of the receiver/frame.

Action

- Turn bolt operated.

Serial Number

- numbered on the receiver/frame; these rifles are highly-reworked Lee-Enfield No 4 Mk 1 rifles, and may bear multiple make/manufacturer/serial number markings.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.
- other barrel lengths available on order.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- other calibres available on order.
Shots	- Detachable box magazine. - These rifles use standard handgun magazines from a variety of handguns, depending on the calibre.

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model designation may or may not be marked on the firearm.
- this is a highly customized Remington 700 rifle, converted to detachable magazine feed, and reworked to produce as highly accurate a sniper rifle as possible. These rifles are built to customer order, and can have a range of features, including fluted or plain barrels, flash suppressors, muzzle brakes, and detachable/integral suppressors.
- features may include: matte blued or Parkerized finish; the customer's choice of stock style (usually synthetic); folding detachable bipod; open sights or optical sight mounts; and various styles of barrel and bolt types.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer or logo thereof is marked on the firearm.
Serial Number	- numbered on the receiver/frame; this firearm is a highly customized Remington 700 rifle, and may bear multiple make/manufacturer/serial number markings.
Barrel	- other barrel lengths available on order.
Calibre	- other calibres available on order.
Shots	- detachable box magazine; this firearm uses modified magazines from the AR-15/M16 or M1A/M-14 families, depending on the chambering.

Notes

Make

- the maker's designation may be marked on the bottom of the barrels and the top of the water table as "J.B.".

Model

- model is not marked on firearm.
- features include: two piece checkered stock; double triggers inside an oval trigger guard; folding models are opened by a lever that looks like a third trigger in front of the trigger guard.
- an observed sample featured a barrel band at the muzzle on which the bead front sight was mounted, sighting notch in the top of the receiver/frame, extractors, blued barrels and a colour case hardened receiver/frame.

Manufacturer

- "J.B.", the manufacturer's designation may be marked on the top of the water table and the bottom of the barrel assembly.
- Armas Bost manufactured firearms in Eibar, Spain. "JB" are the manufacturer's code letters for Jose Bolumburu.

Action

- over & under barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the water table of the receiver/frame and repeated on the underside of the barrel assembly.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Calibre

- the calibrer designation fo 410 GA X 3" may be marked on the watertable of the receiver/frame as "12mm 76.2".

Notes

Make

- the make is stamped on the right barrel near the breech.

Model

- the model designation does not appear on the firearm.
- this is a side by side, top break, hammerless, box lock shotgun with extractors.
- case hardened receiver/frame, double triggers, two bead sights, automatic safety.
- checkered walnut stock with English style straight grip and light engraving on the receiver/frame.
- Armas Bost shotguns were apparently imported by Richland Arms Co. of Blissfield, Michigan in the 1960's.

Manufacturer

- the manufacturer's name appears on the right barrel near the breech and the manufacturers code "JB" is stamped on the watertable and the breech end of the barrels.
- Armas Bost is located in Eibar, Spain.
- the manufacturer's logo is marked on the right and left barrel near the breech and on the upper tang foreward of the opening lever.

Action

- side by side.

Serial Number

- serial number may be marked on the watertable of the receiver/frame, the breech end of the barrels and the forestock.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Calibre

- gauge and chamber length is marked on the water table.
- gauge, chamber length and chokes are marked on the under side of the barrel.

Other Markings

- Spanish proof marks on underside of the barrels.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- this is a side by side shotgun with detachable sidelocks, ejectors, articulated front trigger, oil-finished walnut stock, and Purdy-style scroll-engraved receiver.
Action	- side by side barrel configuration, hinged barrel design.
Serial Number	- serial number is usually marked on the watertable of the receiver/frame. - serial number range pre-1995 was from approximately 1,000 to 17,670. - in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer. - an example of a serial number is as follows: "27 - 03 - #0# - 95". - serial number break down, the first two numbers (27) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.
Barrel	- other barrel lengths possible, but not specified in reference.

34877 - 1	12 GA X 2 3/4"	2	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
34877 - 2	12 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
34877 - 3	12 GA X 2 3/4"	2	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this is a side by side sidelock shotgun with extractors, cocking indicators, scroll-engraved colour-case hardened receiver, and choice of straight grip or pistol grip buttstock.

Action

- side by side barrel configuration.

Serial Number

- serial number is usually marked on the watertable of the receiver/frame.
- serial number range pre-1995 was from approximately 1,000 to 17,670.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- an example of a serial number is as follows: "27 - 03 - #0# - 95".
- serial number break down, the first two numbers (27) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Barrel

- other barrel lengths possible, but not specified in reference.

Notes

Make

- "ARMAS GARBI" or "GARBI - BORN" could be marked in a banner on the both side of the receiver/frame.

Model

- this is a custom made, side by side, double rifle with deluxe stock and finish; amount and style of engraving, inlays, etc. left to customers taste.
- model is not marked on the firearm.
- introduced in 1997.
- features include: round side by side rifled barrels with a ramped front sight and adjustable rear sight; front hinged receiver/frame with a top tang mounted break open lever and safety/barrel selector; sidelock action; hammerless; double triggers; automatic selective ejectors; checkered wood forearm and pistol grip buttstock.

Manufacturer

- "ARMAS GARBI" may be marked on the receiver/frame.

Action

- side by side barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer. - an example of an Arrieta serial number is as follows: "27 - 06 - #0# - 95". - serial number break down, the first two numbers (27) are the code numbers for the manufacture, the next two numbers (06) are the code numbers for rifle, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.
Barrel	- other barrel lengths possible, but not specified in reference; 25"/635mm is likely to be the longest seen.

Notes

Make

- "ARMAS GARBI" may be marked on the barrel assembly or on the receiver/frame.

Model

- model designation is not marked on the firearm.
- this is a generic entry for those Armas Garbi side by side shotguns that are not identifiable as to model.
- features may include: side by side barrels with solid rib and bead front sight; front hinged receiver/frame with top tang mounted break open lever; double triggers; checkered splinter forearm and pistol grip buttstock; engraved receiver/frame.

Manufacturer

- "ARMAS GARBI" may be marked on the barrel assembly or on the receiver/frame.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number is usually marked on the water table.
- observed serial number consisted of a two letter "RA" prefix and four numbers.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Serial Number

- serial number is usually marked on the watertable of the receiver/frame.
- serial number range pre-1995 was from approximately 1,000 to 17,670.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- an example of a serial number is as follows: "27 - 03 - #0# - 95".
- serial number break down, the first two numbers (27) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Barrel

- other barrel lengths possible, but not specified in reference.

FRT Report

Firearm Reference Number (FRN): 121142
Make: Armas Jabe
Model: Side By Side

Summary

Make:	Armas Jabe
Model:	Side By Side
Manufacturer:	Armas Jabe
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121142 - 2	12 GA X 2 3/4"	2	710	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
121142 - 1	28 GA X 2 3/4"	2	699	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- maker's designation is marked on the firearm.

Model

- no model name is marked on this firearm.
- this is a generic entry for all side by side pattern shotguns made by Armas Jabe that bear no model designation.
- features may include: box lock or side lock action; top, side, under lever opening; double triggers; double exposed hammers or hammerless.
- Spanish proof marks are usually apparent on the barrels and/or receiver/frame.

Manufacturer

- manufacturer's designation is marked on the firearm.

Action

- side by side barrel configuration.

Serial Number

- serial number is marked on the receiver/frame
- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is usually marked on the barrels and/or the receiver/frame.
Other Markings	- "Escopetas JABE" may be marked on the firearm. (escopetas is a spanish word for shotgun)

FRT Report

Firearm Reference Number (FRN): 179322
Make: Armas Tomas
Model: Blunderbuss

Summary

Make:	Armas Tomas
Model:	Blunderbuss
Manufacturer:	Armas Tomas
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
179322 - 1	60 PERCUSSION	1	392	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- "ARMAS-TOMAS" is marked on the top of the barrel. - "ARMAS-TOMAS" over "ALCOY" is marked on the sideplate.
Model	- model is not marked on the firearm. - a year date of manufactuer is marked on the barrel with observed examples in the 1970s. - features include: large, flared, brass muzzle attachment on a blued barrel; no sights; engraved sidelock with external hammer; brass trigger guard; deeply carved stock; steel buttplate secured with tacks.
Manufacturer	- "ARMAS-TOMAS" and "ALCOY" over "MADE IN SPAIN" and "1975" is marked on the top of the barrel.
Action	- muzzle loading, percussion ignition system.
Serial Number	- serial number is marked on the nipple shield and repeated on the trigger guard. - observed sample serial number consisted of four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- the percussion ignition, Spanish Blunderbuss made by Armas-Tomas was found to be capable of discharging a projectile (9.25mm calibre) having a mass of 80.24 grains, at a muzzle velocity that exceeded 152.4 metres per second with a muzzle energy that exceeded 5.7 Joules. The Spanish Blunderbuss made by Armas-Tomas, meets the Criminal Code Section 2 definition of a "firearm".
- the Spanish Blunderbuss made by Armas-Tomas has a barrel length of 392mm (15.43") with two interior diameters and has an overall length that exceeds 660mm which is consistent with the Criminal Code PART III, Section 84 legal class of "non-restricted firearm".
- the Armas-Tomas manufactured Spanish Blunderbuss firearm is fired by means of a percussion ignition system and was manufactured in 1975; therefore, it does not qualify as an "antique" firearm.
- the bore of the Spanish Blunderbuss made by Armas-Tomas is not obstructed and the capability of the firearm to discharge a projectile at a velocity in excess of 152.4 metres per second with an energy yield in excess of 5.7 Joules leaves the concept of "exclusivity of purpose" found in the Criminal Code PART III, Section 84 (3) (b) in doubt. For this reason the Spanish Blunderbuss, made by Armas-Tomas, does not qualify as a blank firing device. The velocity data disproves any exemption per Criminal Code PART III, Section 84 (3) (d).

Notes

Make

- "ARMED" was observed marked on the right side of the receiver/frame.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks used by the sales & export company, Izmirlioglu Av Malzemerleri San. Tic. Ltd. Sti. of Izmir, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks manufactured by Doruk Silah San. Tic. Ltd. Sti. of Konya, Turkey.

Model

- "Combat 6" was introduced in 2019.
- "Combat 6" is marked on the receiver/frame.
- "Combat 6" is a magazine feed pump action shotgun with a barrel shroud with a pistol grip or optional telescopic stock.
- features include: round, tapered barrel; ventilated barrel shroud; fixe choke; ramped fiber optic front sight; solid top receiver/frame grooved for accessory rail; right side ejection; magazine feed; cross bolt safety located at the rear of the trigger guard; synthetic serrated forearm and pistol grip; black finish.
- overall length with a 356mm (14") barrel is 640mm (25").

Manufacturer

- "ARMED" was observed marked on the right side of the receiver/frame.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks used by the sales & export company, Izmirlioglu Av Malzemerleri San. Tic. Ltd. Sti. of Izmir, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks manufactured by Doruk Silah San. Tic. Ltd. Sti. of Konya, Turkey.

Action

- slide action.

Serial Number

- serial number is marked on the receiver/frame.
- serial number of referenced examples consisted of a two letter prefix (CA), two numbers, a dash and four numbers.

Calibre

- calibre designation is marked on the barrel.

Shots

- detachable box magazine.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

- "ARES", "ARMED", and "DORUK" are trade names/trademarks manufactured by Doruk Silah San. Tic. Ltd. Sti. of Konya, Turkey.

Serial Number

- serial number was observed marked on the right side of the receiver/frame above the trigger.
- serial number observed consisted of four numbers without a letter prefix or suffix.
- serial number observed consisted of a two letter "PA" prefix and four numbers.

Shots

- tubular magazine is mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "ARMED" was observed marked on the receiver/frame.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks used by the sales & export company, Izmirlioglu Av Malzemerleri San. Tic. Ltd. Sti. of Izmir, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks manufactured by Doruk Silah San. Tic. Ltd. Sti. of Konya, Turkey.

Model

- model designation is not marked on the firearm.
- features observed: blued round tapered smoothbore barrel with or without a ventilated rib and with a bead front sight; nickel plated front hinged receiver/frame; break open release may be the trigger guard or a lever in front of the trigger guard or a lever mounted on the right side of the receiver/frame; hammerless or with an exposed hammer; synthetic or wood forearm and a full length pistol grip buttstock or a pistol grip only; sling swivels.
- overall length with a 711 mm barrel is 1100 mm (43"), and average weight is 3.2 kgs (7.04 lbs).
- overall length with 330 mm (13") barrel and full length pistol grip buttstock configuration is 730 mm (28 3/4") and the average weight is 1.66 kg (3.66 lbs).
- overall length with 356 mm (14") barrel and pistol grip only configuration is 485 mm (19 1/8").
- overall length with 381 mm (15") barrel and pistol grip only configuration is 500 mm (19 5/8").
- overall length with 406 mm (16") barrel and pistol grip only configuration is 525 mm (20 3/4").
- overall length with 470 mm (18 1/2") barrel and pistol grip only configuration is 589 mm (23 1/8").

Manufacturer

- Doruk Silah San. Tic. Ltd. Sti. is located in Konya, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks used by the sales & export company, Izmirlioglu Av Malzemerleri San. Tic. Ltd. Sti. of Izmir, Turkey.
- "ARES", "ARMED", and "DORUK" are trade names/trademarks manufactured by Doruk Silah San. Tic. Ltd. Sti. of Konya, Turkey.

Action

- hinged barrel design.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

FRT Report

Firearm Reference Number (FRN): 184048
Make: Armelegant
Model: SLB-X102

Summary

Make:	Armelegant
Model:	SLB-X102
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Pump Action
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
184048 - 1	12 GA X 3"	4	350	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "ARMELEGANT" and the horse head logo is marked on the receiver/frame. - "ARMELEGANT" is located in Konya, Turkey.
Model	- "SLB-X102" is marked on the right side of the receiver/frame. - features include: ramped front sight; smooth bore, round, tapered barrel; magazine tube under the barrel; solid top aluminium alloy receiver/frame with right side ejection port and bottom loading port; cross bolt safety located on the rear of the trigger guard; action release located on the left, front of the trigger guard; synthetic, ribbed forearm with a short, accessory rail, collapsible butt stock with ribbed recoil pad and pistol grip; black finish.
Action	- slide action.
Serial Number	- serial number is marked on the right side of the receiver/frame.
Calibre	- calibre designation is marked on the barrel.
Shots	- tubular magazine mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "Made in Italy" or "Italy" is marked on the firearm
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Model

- the model may not be marked on the firearm.
- this is a modern reproduction of a metallic-cartridge conversion of the Colt 1860 Army percussion revolver to use centrefire metallic cartridges, a common post-Civil War practice seen on many original Colt percussion revolvers.
- features include: blued finish; fixed open sights; an original-style "open-top" Colt percussion receiver/frame with a conversion barrel having a manually-operated ejector-rod (rather than a loading rammer of the original percussion system); blued or colour-case-hardened receiver/frame; non-fluted cylinder; and smooth wooden grips.

Notes

Make

- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".

Model

- this is a generic screen for a firearm having a close resemblance to the Colt 1860 Army revolver in appearance, size, and features, and for which the "Model" cannot be determined because it is unmarked, or not known.
- this firearm is a six-shot, open-framed, front-loading, percussion revolver, in .44 percussion caliber, with a rounded loading cut in the lower barrel-lug in front of the bottom chamber.
-it consists of three major components: a) the steel front barrel assembly carrying a loading lever; b) the receiver/frame assembly consisting of the receiver/frame, trigger-guard, and back-strap of brass, iron, or steel, and which houses the internal parts consisting of the trigger, hammer, pawl, cylinder stop, and springs; c) the steel cylinder which is comprised of a central axis bored through, the six chambers are open to the front, with six nipples for percussion caps at the rear of each chamber.
- the cylinder slips over the barrel axis, which is attached to the receiver/frame.
- the barrel assembly is joined to the receiver/frame assembly by a laterally slotted key through the cylinder axis.
- the square-bottomed hand-grips are usually one-pieced of walnut or hardwood.

Manufacturer

- "Made in Italy" or "Italy" is marked on the firearm.
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.

Notes

Make

- "Made in Italy" or "Italy" is marked on the firearm
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a modern reproduction of the Colt 1872 "Open Top" single-action revolver, the immediate precursor to the Colt 1873 Single Action Army; this revolver was a metallic cartridge transition between the open-top two-piece frame and barrel of Colt's percussion revolvers, to the stronger one-piece frame with integral barrel of the Colt 1873, and can be recognized by the lack of a topstrap and a fixed rear sight at the cylinder end of the detachable barrel.
- features include: blued barrel and frame; fixed open sights; spring-loaded ejector rod in a housing at the lower right of the barrel; a rounded barrel lug that curves down to engage the front of the frame via two anti-rotation pins; a brass trigger-guard and gripstrap; non-fluted cylinder; and smooth wooden grips.

Notes

Make

- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a modern reproduction of the Colt 1873 Single Action Army/SAA revolver, in various barrel lengths, calibres, and finishes, manufactured by Armi San Marco and often retailed under other names by a range of importers.
- features include: standard Colt 1873 layout and operation; blued, nickeled, or colour-case-hardened finish; fixed open sights; round barrel; manually-operated ejector; fluted cylinder; right-side flip-out loading gate; and wooden, synthetic, or mother-of-pearl grips on a square-butt grip frame.

Manufacturer

- "Made in Italy" or "Italy" is marked on the firearm.
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Action

- single-action revolver.

Serial Number

- serial-numbered on the receiver/frame.

Firearm Reference Number (FRN): 16403
Make: Armi San Marco
Model: Scottish Black Watch Regimental Flintlock Pistol

Summary

Make:	Armi San Marco
Model:	Scottish Black Watch Regimental Flintlock Pistol
Manufacturer:	Armi San Marco
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
16403 - 1	58 FLINTLOCK	1	181	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".

Model

- this is a reproduction of Scottish Highland muzzle loading black powder flintlock all-metal pistol known as Scottish Black Watch Pistol.
- features include: round tapered smoothbore barrel; one piece ram's head shaped brass grips and frame; trigger is shaped like a ball; color case hardened lock and trigger; white steel belt hook and steel ramrod.
- a very similar pistol, the "Murdoch Pistol" is known under several similar names, and must not be confused with the "Black Watch" pistol; where the "Murdoch" pistol has a "ram's-head" butt, with curlicue extensions that help to protect a ball-headed vent-pick threaded into the butt, the "Black Watch Pistol" is made with an all-brass butt and stock, with a double-lobed "kidney-shaped" butt that allows the pistol to be used as a club after the shot is fired.

Manufacturer

- "Made in Italy" or "Italy" is marked on the firearm
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Action

- muzzle loader flintlock.

Serial Number

- the serial number is marked on the firearm.
- observed specimen had five digits.

Notes

Make

- "Armi San Marco" is marked on the firearm.

Model

- the model is not marked on the firearm; this is the name under which Smith & Wesson originally sold this design of revolver, colloquially known as the "Schofield" revolver, after the designer.
- this is a modern reproduction of the Smith & Wesson Top Break No 3 Single Action revolver, made in various barrel lengths.
- features include: typical Schofield layout and operation; top-break revolver with automatic ejection; fixed open sights on a barrel rib; top-break thumb latch at the top rear of the receiver/frame; colour-case-hardened hammer, thumb latch, trigger and trigger-guard; and square-butt grip-frame with smooth walnut grips; blued or nickel finish.

Manufacturer

- "Armi San Marco" is marked on the firearm.

Action

- top-break revolver.

Serial Number

- serial number is marked on the receiver/frame.

Notes

Make

- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model designation is not marked on the firearm.
- this is a copy of the Tingle Model 1960 percussion pistol as originally produced by Tingle Manufacturing Company.
- this is a muzzle loading, single action pistol of unusual design featuring a barrel that is easily removed from the receiver/frame for cleaning.
- features include: ramp Patridge-type front sight and large square-notched rear sight adjustable for windage; octagonal barrel; exposed spur hammer centrally located at rear of receiver/frame; square-back brass trigger guard.
- has a removable under-barrel support web fixed to the front of the receiver/frame; this web extends for approximately half the length of the barrel.
- grip frame is very similar to the Colt 1860 Army in configuration.

Manufacturer

- "Made in Italy" or "Italy" is marked on the firearm.
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Serial Number

- known example had four digit number without prefix or suffix marked on the underside of the receiver/frame.

Calibre

- known example had calibre designation marked on rear of barrel, eg., "Cal .44".

Other Markings

- known example marked, "Black Powder Only" and "Made in Italy" on the barrel.

FRT Report

Firearm Reference Number (FRN): 16062
Make: Armi San Paolo
Model: Colt 1861 Navy Reproduction

Summary

Make:	Armi San Paolo
Model:	Colt 1861 Navy Reproduction
Manufacturer:	Armi San Paolo
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
16062 - 2	36 PERCUSSION	6	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARMI SAN PAOLO-BRESCIA-ITALY" is usually marked on the top of the barrel.

Model

- "1861 NAVY" is usually marked on the left side of the barrel.
- this is a modern reproduction of the "Colt model 1861 Navy" blackpowder percussion revolver.
- features include: fixed sights; round barrel; open top receiver/frame with removable fluted or unfluted percussion cylinder; exposed spur hammer; single action trigger mechanism; round trigger guard; one piece wood grip; blued barrel & cylinder; case hardened loading lever, receiver/frame, and hammer; brass trigger guard & backstrap.
- also available in stainless steel.
- also available with engraving.
- overall length with a 191 mm (7.5") barrel is 324 mm (12.75"), and the average weight is 1.15 kgs (2.5 lbs).

Manufacturer

- "ARMI SAN PAOLO-BRESCIA-ITALY" is usually marked on the top of the barrel.
- "DGG" intertwined within a circle is usually marked on the underside of the barrel under the loading lever.
- "DGG" is the initials of Armi San Paolo's previous name.

Serial Number

- serial number is usually marked on the underside of the receiver/frame, forward of the trigger guard, and is usually repeated on the barrel assembly.
- observed serial number consisted of four numbers without a letter prefix or suffix.

Calibre

- "CAL. 36" or "CAL. 44" is usually marked on the left side of the barrel.
- "FOR BLACK POWDER ONLY" is usually marked on the right side of the barrel.

Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128961 - 1	58 PERCUSSION	1	965	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "Armi San Paolo" or "San Paolo" or "DDG" is marked on the barrel.

Model

- model designation is not marked on the firearm.
- "1862 L.A.Co" was observed marked on the side plate.
- this is a modern reproduction of an Enfield Pattern 1853 Rifle which was originally manufactured by the London Armoury Company (L.A. Co.) in 1862.
- features include: full length walnut stock; three barrel bands; sling swivels attached to the first barrel band and to the butt stock; blade front sight and adjustable rear sight; ramrod.

Manufacturer

- "Armi San Paolo" or "San Paolo" or "DDG" is marked on the barrel.

Action

- muzzle loader.

Serial Number

- serial number is marked on the lock plate.
- observed serial number consisted of four numbers without a letter prefix or suffix.

Remarks

- L.A.Co./London Armoury Company Limited was founded in 1856. The founding of this new company effectively put an end to / dissolved the partnership of the firm Deane, Adams & Deane. The mechanical manufacturing assets of the old firm Deane Adams & Deane were sold to the London Armoury Company by Robert Adams as well as the Adams patent rights and Robert Adams was engaged as the plant manager for a period of seven years.
- the London Armoury Company was formed, like the Birmingham Small Arms Company, to compete more efficiently with the proposed Royal Small Arms Factory at Enfield Lock which opened in1857. The London Armoury Company was dissolved, reconstituted and incorporated as The London Small Arms Company Limited in 1866. During the years of its operation the London Armoury Company Limited used a frame stamping of LAC to identify some of its products.
- the London Small Arms Company Limited operated from 1866 to 1920 at the Victoria Mill on the Old Ford Road in London England. In 1921 the company moved to the Albion Works on Ossary Road and carried on operations until 1925. The company was dissolved in 1935.

Model

- "1853 Enfield" was observed marked on the lockplate.
- this is a modern reproduction of a British "Enfield Pattern 1853 Rifle".
- features include: fixed blade front sight and an adjustable rear sight; blued, round smooth or rifled bore barrel with three barrel bands; ramrod is mounted under the barrel; colour case-hardened right side lockplate with an exposed percussion hammer; one piece walnut stock with a brass nose cap, trigger guard, and butt plate; sling swivels are attached to the front barrel band and to the front of the trigger guard.
- overall length with a 991mm (39") barrel is 1397mm (55"), and the average weight is 4 kg (8.8 lbs).

Action

- muzzle loader.

Serial Number

- numbered on the barrel/receiver/frame and may begin with an "E" prefix.

Calibre

- sample examined was marked as "BLACK POWDER ONLY CAL.58".
- rifling characteristics: 3-grooves, 1 turn in 1660MM (66").

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- may or may not be marked with the importer's name.
- this model is also sold in North America under the Taylors & Company trade name.

Notes

Make

- "AC ARMI SPORT - ITALY" or "ARMI SPORT - ITALY" or "AC ARMI SPORT" or "ARMI SPORT" is marked on the firearm.
- Chiappa Group consists of the following: ACP, AIM, Armi Chiappa (AC), Armi Sport, Chiappa Firearms (CF), Costa Srl, and Kimar Srl.
- "ACP" name is used by the Chiappa Group for marketing laser training systems.
- "AIM" name is used by the Chiappa Group for marketing video/target simulators.
- "Armi Sport" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- "Chiappa Firearms" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War, "Old West" firearms, gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns".
- "Costa Srl" name is used by the Chiappa Group for marketing metal surface finishing treatments.
- "Kimar Srl" name is used by the Chiappa Group for marketing gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns", and single shot folding barrel shotguns.

Model

- the model designation may not be marked on the firearm.
- this is a scaled-down reproduction (20% smaller) of a Sharps 1874 falling-block single-shot rifle.
- features include: walnut forearm with schnabel tip; straight-grip stock; color case hardened or engraved "in the white" finish receiver/frame; double set triggers; octagonal barrel; may be drilled and tapped for period optics; steel buttplate; open sights with front bead and rear tang mounted vernier sight.
- overall length with a 660mm (26") barrel is 1006mm (39 5/8") and average weight is 2.7kgs (5.59lbs).

Action

- lever operated falling (dropping) block design.

Calibre

- rifling characteristics in calibre 45 COLT: 1 turn in 406mm (16").

Notes

Make

- "AC ARMI SPORT - ITALY" or "ARMI SPORT - ITALY" or "AC ARMI SPORT" or "ARMI SPORT" is marked on the firearm.
- Chiappa Group consists of the following: ACP, AIM, Armi Chiappa (AC), Armi Sport, Chiappa Firearms (CF), Costa Srl, and Kimar Srl.
- "ACP" name is used by the Chiappa Group for marketing laser training systems.
- "AIM" name is used by the Chiappa Group for marketing video/target simulators.
- "Armi Sport" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- "Chiappa Firearms" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War, "Old West" firearms, gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns".
- "Costa Srl" name is used by the Chiappa Group for marketing metal surface finishing treatments.
- "Kimar Srl" name is used by the Chiappa Group for marketing gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns", and single shot folding barrel shotguns.

Model

- the model designation may not be marked on the firearm.
- this is a modern reproduction of the Sharps Model 1874 Sporting Rifle, available in several grades of finish, calibres, and rifle/carbine variations.
- features include: octagonal, blued barrel; oil finished American walnut straight-grip or pistol grip stock with a capped or schnabel forearm; fixed front and adjustable rear sights; colour case-hardened or "in the white" receiver/frame; single or double set triggers; pre-drilled tang for Creedmore sight, and extended trigger guard.
- variants may have a patchbox, engraved receiver/frame, pewter forearm tip, and checkered stock and forearm.

Action

- lever operated falling (dropping) block design.

Serial Number

- serial number is marked on the upper tang of the receiver/frame and repeated on the barrel.
- observed serial number consisted of a "SH" prefix followed by four numbers.

Calibre

- marked on the barrel.

Importer

- may or may not be marked with the importer's name.
- this model is also sold in North America under the Taylors & Company trade name.

Other Markings

- firearms will usually bear Italian proof marks and a catalogue number assigned by the Italian National Proof House.

Make

- "AC ARMI SPORT - ITALY" or "ARMI SPORT - ITALY" or "AC ARMI SPORT" or "ARMI SPORT" is marked on the firearm.
- Chiappa Group consists of the following: ACP, AIM, Armi Chiappa (AC), Armi Sport, Chiappa Firearms (CF), Costa Srl, and Kimar Srl.
- "ACP" name is used by the Chiappa Group for marketing laser training systems.
- "AIM" name is used by the Chiappa Group for marketing video/target simulators.
- "Armi Sport" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- "Chiappa Firearms" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War, "Old West" firearms, gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns".
- "Costa Srl" name is used by the Chiappa Group for marketing metal surface finishing treatments.
- "Kimar Srl" name is used by the Chiappa Group for marketing gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns", and single shot folding barrel shotguns.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of the "Spencer model 1860" carbine/rifle.
- Spencer model 1860 has a distinctly shaped operating lever and receiver/frame (the operating lever forms a large trigger-guard, and pivots around a pin in the bottom of a very large "hump" at the bottom of the receiver/frame).
- features include: blade front sight and an adjustable rear sight; round barrel; flat sided receiver/frame with a blade-type extractor on the left side of the chamber and a hammer mounted on a side-plate on the right side; walnut forearm (short forearm with one barrel band - carbine, or a full-length forearm with three barrel bands - rifle) and a straight grip buttstock with slightly curved butt plate; removable tubular magazine is located inside the buttstock; blued barrel, color case-hardened receiver/frame, hammer, operating lever and buttplate.
- overall length with a 508 mm (20") barrel is 940 mm (37").
- overall length with a 762 mm (30") barrel is 1194 mm (47").
- average weight is from 4.1 kgs (9 lbs) to 4.8 kgs (10.6 lbs).

Shots

- tubular magazine is mounted inside the buttstock.

Notes

Make

- "AC ARMI SPORT - ITALY" or "ARMI SPORT - ITALY" or "AC ARMI SPORT" or "ARMI SPORT" is marked on the firearm.
- Chiappa Group consists of the following: ACP, AIM, Armi Chiappa (AC), Armi Sport, Chiappa Firearms (CF), Costa Srl, and Kimar Srl.
- "ACP" name is used by the Chiappa Group for marketing laser training systems.
- "AIM" name is used by the Chiappa Group for marketing video/target simulators.
- "Armi Sport" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- "Chiappa Firearms" name is used by the Chiappa Group for marketing modern reproductions of black powder muzzle loaders, US Civil War, "Old West" firearms, gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns".
- "Costa Srl" name is used by the Chiappa Group for marketing metal surface finishing treatments.
- "Kimar Srl" name is used by the Chiappa Group for marketing gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns", and single shot folding barrel shotguns.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of the "Spencer model 1865" carbine/rifle.
- the original was the second generation of one of the first truly practical repeating long-arms designed to use metallic cartridges, and has an important place in history as being one of the most widely used and effective firearms during the US Civil War.
- features include: a distinctly shaped lever and receiver/frame (the lever forms a large trigger-guard, and pivots around a pin in the bottom of a very large "hump" at the bottom of the receiver/frame); blade-type extractor on the left side of the chamber, and a hammer mounted on a side-plate on the right side; straight-grip walnut stock with slightly curved butt plate, used either a short forearm with one barrel band (carbine), or a full-length forearm with two or three barrel bands; American walnut buttstock and fore-end; blade front and adjustable rear sight; case-hardened receiver/frame, hammer and swivels.

Serial Number

- numbered on receiver/frame.

Shots

- tubular magazine is mounted inside the buttstock.

- "Kimar Srl" name is used by the Chiappa Group for marketing gas, blank, flare, and alarm guns, air pistols and rifles, low-powered self-defence and target-practice "guns", and single shot folding barrel shotguns.

Model

- usually marked on the lock-plate as "Spring" over "Field", the lock-plate also carries a "date of production" from the original era. Samples have been noted with the date 1847. Will also be marked with a martial eagle and "U.S.".
- this is a modern reproduction of an 1842 Springfield percussion musket.
- features include: an unblued barrel, lock and fittings; two barrel bands and a barrel encircling front end band; front sight located on front band and a bayonet stud on the bottom of the barrel at the muzzle.
- these reproductions are made with both smooth bores (the original configuration) and rifled bores (as many of these muskets were rifled during armory re-fits during the Civil War).

Action

- muzzle-loading, percussion ignition rifle.

Serial Number

- serial number is marked on the barrel/receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- sample examined was marked "BLACK POWDER ONLY CAL.69". - rifling characteristics: 3-grooves, 1 turn in 1660MM (66").
Importer	- may or may not be marked with the importer's name. - this model is also sold in North America under the Taylors & Company trade name
Other Markings	- Italian proof marks are usually marked on the barrel/receiver/frame.

Notes

Make

- the "ARMINIUS" trade name and/or the "Arminius" trademark logo of a bearded warrior's head with a winged helmet is marked on the barrel and/or receiver/frame and/or grip plates.
- the "Arminius" trademark logo of a bearded warrior's head with a winged helmet was used by Pickert and Weihrauch of Germany.
- "Arminius" was a trade name used by Gregorio Bolumburu of Eibar, Spain, prior to 1936.
- "Arminius" was a trade name used by Friedrich Pickert of Arminus Waffenwerk in Zella St. Blasii and Zella-Mehlis, Germany, prior to 1939.
- "Arminius" is a trade name adopted by Hermann Weihrauch of Mellrichstadt, Germany, circa 1960.

Model

- manufactured from 1905 to 1939.
- features include: round barrel; solid receiver/frame with removable fluted cylinder; single/double action trigger mechanism; exposed spur hammer; rounded trigger guard.
- the model "9" was also available as the model "9A" with a longer barrel.

Manufacturer

- the "FP" monogram in a circle was the identifier/trade mark of "Fredrich Pickert".
- "Pickert" was located at Arminus Waffenwerk in Zella St Blasii & Zella Mehlis, Germany.
- "Pickert" was founded in 1869 and ceased operations in 1939.
- "Pickert" was owned by "Wilhelm Pickert" between 1919 and 1930.

FRT Report

Firearm Reference Number (FRN): 197295
Make: Arminius
Model: HW1G

Summary

Make:	Arminius
Model:	HW1G
Manufacturer:	Weihrauch
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197295 - 1	22 LR	5	24	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- "Arminius" is marked on the firearm in various places.
- The make is usually marked on the left side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- Logo may be stamped, engraved or otherwise marked on the firearm. Logo consists of a left side profile of a stylized winged-helmet roman warrior face, sometimes over the word "Arminius" and sometimes just the winged-helmet roman face.

Model

- "HW1G" is marked on the left side of the receiver/frame.
- The model designation is usually marked on the right side of the firearm.
- "Gas Alarm" may be marked on the side of the firearm.
- This firearm is a purpose built "gas alarm" pistol.
- Cylinder release located on the side of the firearm.
- Features include: round smooth bore barrel, with metal wedge inside the front muzzle (for the purpose of firing blank or smoke pellets); blued or nickel/chrome receiver/frame with grooved rear sight on top; rim-fire cocking hammer; double action trigger with round trigger guard; left hand cylinder release; small semi-rounded pistol grip with checkered ivory or black grip cover/sleeve.

Manufacturer

- The manufacturer is usually marked on the right side of the receiver/frame.
- Observed sample had "H. Weihrauch" over "Sportwaffen" marked on the right side of the receiver/frame.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- The serial number rationalization is unknown.
- The serial number observed consisted of six (6) numbers without letter prefix or suffix, marked on the right side of the receiver/frame forward of the cylinder.

Calibre

- "9mm Knall" may be marked on the side of the barrel, unless altered.
- Original calibre for this model is 9mm knall, a gas cartridge.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - Other markings for this model may consist of standard "German" proof marks: a forward facing eagle/hawk with flared wings over "N"; a cross hatched shield; a blank shield with a 73 inside; a circle with PTB over 89-69.

Notes

Make

- "ARMINIUS" trade name and/or the "Arminius" trademark logo of a bearded warrior's head with a winged helmet is marked on the barrel and/or receiver/frame and/or grip plates.
- "Arminius" trademark logo of a bearded warrior's head with a winged helmet was used by Pickert and Weihrauch of Germany.
- "Arminius" was a trade name used by Gregorio Bolumburu of Eibar, Spain, prior to 1936.
- "Arminius" was a trade name used by Friedrich Pickert of Arminius Waffenwerk in Zella St. Blasii and Zella-Mehlis, Germany, prior to 1939.
- "Arminius" is a trade name adopted by Hermann Weihrauch of Mellrichstadt, Germany, circa 1960.

Model

- "HW7" is marked on left side of cylinder crane.
- "HW7" was sold in the United States as the "HERTER'S GUIDE MODEL".
- features include: ramp front sight and notch in the top strap for a fixed rear sight; round rifled barrel with a ventilated top rib; solid top receiver/frame with a left side swing-out fluted cylinder; exposed spur hammer; single/double action trigger mechanism; checkered plastic grips; blued finish.
- "HW7" was available with an interchangeable cylinders in calibres: 22 LR and 22 MAG.

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame and on the cylinder.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame parallel with the barrel.
- serial number may also be repeated on the inside of the crane.
- observed serial number consisted of six numbers without a letter prefix or suffix.
- observed serial number consisted of seven numbers without a letter prefix or suffix.

Calibre

- calibre is marked on the left side of the barrel.

Shots

- swing-out cylinder.

Notes

Make

- the "ARMINIUS" trade name and/or the "Arminius" trademark logo of a bearded warrior's head with a winged helmet is marked on the barrel and/or receiver/frame and/or grip plates.
- the "Arminius" trademark logo of a bearded warrior's head with a winged helmet was used by Pickert and Weihrauch of Germany.
- "Arminius" was a trade name used by Gregorio Bolumburu of Eibar, Spain, prior to 1936.
- "Arminius" was a trade name used by Friedrich Pickert of Arminius Waffenwerk in Zella St. Blasii and Zella-Mehlis, Germany, prior to 1939.
- "Arminius" is a trade name adopted by Hermann Weihrauch of Mellrichstadt, Germany, circa 1960.

Model

- "TITAN TIGER" is marked on the right side of receiver/frame.
- "Titan Tiger" is solid top frame, double-action revolver with swing out cylinder and a rib on barrel.
- pot-metal two-piece receiver/frame with steel cylinder and barrel, brown plastic grips, front sight and barrel rib made of black plastic, and blued or chromed finish.
- two slightly different versions of this revolver have been made, both marked as "Titan Tiger". One has a Smith & Wesson-style cylinder-latch built into the left rear of the frame, while the other must be opened by pulling the end of the ejector-rod forward, then tipping the cylinder out of the frame.

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame and on the cylinder.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Calibre

- calibre designation is marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- swing out cylinder.
Importer	- "F.I.E. CORP. MIAMI. FLA." is marked on the right side of the receiver/frame.

Notes

Make

- "Arms East LLC" is marked on the left side of the receiver.
- Arms East LLC has United States address located at 2335 63rd Ave STE M, Bradenton Florida, United States, 34203.
- The make of firearm is located in a milled out window that is 70mm wide, by 13mm tall, by <1mm deep. This machining is located in the vicinity where previously inspected versions of this firearm had Wise Lite manufacturer markings. The serial number prefix is consistent with Wise Lite serial number prefixes. The combination of these features indicate that the receiver may be re-manufactured or re-marked post-manufacture.

Model

- "Semi Automatic RPD MK2" is marked on the left side of the receiver/frame.
- "RPD" stands for "Ruchnoy Pulemyot Degtyaryova", "Degtyaryova Light Machine Gun".
- "Semi Automatic RPD MK2" is a semi-automatic version of a belt-fed light machine gun based on the Russian RPD design started in 1943 and introduced circa 1953, built and used by the Soviet Union, China and their allies.
- "Semi Automatic RPD MK2" are mostly made of Polish parts kits identifiable by the number eleven in a oval marked on the top of the feeding cover.
- features include: threaded muzzle with knurled protective ring; front sight bracket with a windage adjustable sight having a circular open top protector; permanently attached, non-adjustable bipod that can be folded under; gas block with a three position gas regulator; gas cylinder located under the barrel; short wood handguard; notched tangent rear sight mounted on the feed cover over the belt feeding port; upward folding cocking handle on the right side of the receiver/frame; selector lever on the right side over the trigger; lower assembly incorporate the trigger assembly, pistol grip with wood panels and "club foot" shaped wood buttstock; steel buttplate with a tab extension on the left side for a sling attachment; converted to fire - closed bolt, striker-fired; blued finish.
- overall length with a 520mm (20.5") barrel is 1036mm (40.8") and a average weight of 7.1kgs (15.6lbs).

Manufacturer

- "Arms East LLC" is marked on the left side of the receiver.
- "Wise Lite Arms" is not marked on the firearm.
- The "Arms East LLC" above "SEMI-AUTO RPD MK2" marking is located in a milled out window that is 70mm wide, by 13mm tall, by <1mm deep. This milled window is the correct dimension and is in the correct vicinity that a previously inspected version of this firearm design had Wise Lite Arms manufacturer and model markings. The serial number prefix markings are consistent with Wise Lite serial numbering prefixes. The combination of these features with the fire control system and overall firearm design indicate that the receiver may be re-manufactured or re-marked post-manufacture by Arms East LLC.
- Arms East LLC has United States address located at 2335 63rd Ave STE M, Bradenton Florida, United States, 34203.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of three letters (WLA) followed by two numbers a dash two letters (BA) followed by four numbers.
Calibre	- "CAL. 7.62 X 39" is marked on the left side of the receiver/frame.
Shots	- the RPD is a belt-fed firearm. - RPD uses a 100-round (two fifty round sections) metallic linked belt fitted into a stamped metal drum mounted on a dovetail on the underside of the reciver/frame. - the drum for the RPD is not a cartridge magazine - it is a belt carrier. - the non disintegrating link belt for the RPD firearm is a belt that was designed to feed cartridges into the firing chamber of an automatic firearm which was in existance before 1945.

FRT Report

Firearm Reference Number (FRN): 166182
Make: Arms East
Model: VZN-58

Summary

Make:	Arms East
Model:	VZN-58
Manufacturer:	Arms East
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
166182 - 1	7.62X39 RUSSIAN	5	400	Prohibited PFR, Part 1, para. 90	Manufacturer Specifications and Commercial Customization	
166182 - 2	7.62X39 RUSSIAN	30	400	Prohibited PFR, Part 1, para. 90	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Arms East LLC" is marked on the left side of the receiver/frame.

Model

- Introduced in 2016.
- "VZN-58" is a newly manufactured purpose built semi-automatic version of the military Czech Vz 58 rifle.
- "VZN-58", over "Cal. 7.62 x 39", over "Arms East LLC", over "Boca Ralon. FL." was observed marked on the left side of the receiver/frame.
- Features include: a forged steel receiver/frame with a matte blue finish; matte blue finished steel barrel; hooded front sight and notched tangent rear sight; integral clip charging guide on the bolt carrier; pressed wood fibre synthetic forend, handguard, pistol grip and buttstock.

Manufacturer

- "Arms East LLC" is marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number rationalization unknown.
- observed serial numbers are located on the lower left side of the receiver/frame.

Barrel

- the barrel length as advertised by the manufacturer is 410mm. That length includes a barrel extension tube permanently welded to the barrel and front sight base. The extension is not included in the barrel length measurement for the purposes of this record.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the left side of the receiver/frame under the model designation as "CAL. 7.62 x 39". - "Cal. 7.62X39" is marked on the left side of the receiver/frame. - "Cal. 7.62X39" rifling characteristics: 1 turn in 14 inches, right hand twist.
Shots	- detachable box magazine.

Notes

Make

- "ARMS TECH LTD" may be marked on the receiver/frame.

Model

- "THE HAMMER" may be marked on the firearm.
- this is a Remington 870 receiver/frame action.
- features observed: parkerized finish; no sights; folding stock with pistol grip; tubular bottom fed and right side ejection receiver/frame; a cross bolt safety is located at the rear of the trigger guard and a slide release is located at the front of the trigger guard.
- overall length with a 178mm (7") barrel and the stock extended is 699mm (27.5").

Manufacturer

- "ARMS TECH LTD" may be marked on the receiver/frame.
- established in 1987 and located in Phoenix Arizona.

Serial Number

- may be marked on the receiver/frame.

Shots

- tubular magazine fed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

FRT Report

Firearm Reference Number (FRN): 195279
Make: Armsan
Model: BA 40

Summary

Make:	Armsan
Model:	BA 40
Manufacturer:	Armsan Silah Sanayi
Level:	Manufacturer Specifications and Commercial Customization
Type:	Grenade Launcher
Action:	Single-Shot
Country of Manufacturer:	TURKEY
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195279 - 2	40X51MM	1	240	Prohibited PFR, Part 1, para. 95(k)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARMSAN" is marked on the launcher.

Model

- "BA 40" is marked on the launcher.
- this is a single-shot grenade launcher that may be seen mounted on a rifle in an underbarrel configuration, or mounted onto a stand-alone telescoping stock assembly.
- this launcher uses a side-swinging barrel to load and unload (similar to the H&K 320), rather than the sliding-barrel reloading method of the Colt M203.
- this grenade launcher operates with a pivoting barrel assembly that can swing to the left or the right, depending on the user's requirements.
- features include: black synthetic and phosphate finish; may be seen with stand-alone open or adjustable sights, depending on configuration; ribbed barrel, allowing the launcher to be used as a forearm when mounted under a rifle; double-action trigger; ambidextrous safety lever above the trigger; and may be seen on a stand-alone pistol-grip telescoping stock assembly.

Manufacturer

- "ARMSAN" is marked on the launcher.

Action

- side-pivoting barrel single-shot.
