Notes

Make

- left side of slide marked, "Pietro Beretta Gardonne V.T. Made in Italy " or a variation thereof.

Model

- "Mod 81B" marked on left side of receiver/frame.
- the model 81 series was introduced in 1975.
- double action, exposed hammer, open-top slide configuration.
- ambidextrous safety on rear of receiver/frame.
- magazine release can be installed on left or right side of receiver/frame.
- magazine safety is optional.
- a disassembly lever is located on right side of receiver/frame over the trigger guard.
- usually blued finish.

Manufacturer

- left side of slide marked, "Pietro Beretta Gardonne V.T. Made in Italy " or a variation thereof.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- known examples had five digit number with letter prefix and suffix marked on right side of receiver/frame, eg., DxxxxxW.
Barrel	- factory literature references only one barrel length at 97mm.
Calibre	- calibre usually marked on left side of slide or receiver/frame. - the Model 81B was made in 7.65MM/32 AUTO calibre only.
Shots	- detachable, double column box magazine.

Notes

Make

- the Beretta name and logo normally appear on the firearm.

Model

- improved version of the Model "81". The slide, frame, and recoil spring are further strengthened.
- this model shares the same design as the model "84BB" but is chambered in 7.65mm (32 AUTO) calibre.
- model designation is marked on left side of receiver/frame.
- patterned after the model 92F.
- firing pin-block, ambidextrous safety also functions as a decocking lever.
- rounded off trigger guard.
- the "BB" suffix refers to the addition of an automatic internal firing pin block.

Manufacturer

- manufacturer's designation is marked on the slide as "PIETRO BERETTA".

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number located on the left side of the receiver/frame forward of the trigger guard. - serialization sequence unknown, but numerical digits with alpha prefix and/or suffix observed.
Calibre	- marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine.

Notes

Make

- "P BERETTA GARDONE VT" is marked on the left side of the slide.

Model

- manufactured in 1980 for Beretta's Tricentennial anniversary (1680 to 1980).
- "MOD. 84 D. B. TERCENTENNIAL" may be marked on the right side of the slide.
- 300 units manufactured, one for each year of Beretta's history of which only 100 were imported in the United States of America. Each one is supplied with a case, an extra magazine and a cleaning kit.
- features include: fixed sights; open top slide with finger serrations at the rear; gold plated exposed hammer and trigger; the ambidextrous manual safety/decocker and the slide release are located on the left side of the receiver/frame; double action trigger mechanism; a reversible magazine catch is located behind the trigger; chamber indicator; blued finish with schroll engraving; slide markings are hand engraved instead of being stamped; plain walnut grip panels with a gold plate for initials on the left grip panel.
- overall length with a 97mm (3.8") barrel is 172mm (6.8"), average weight is 660g (23.3oz).
- similar to the model 81 Tricentennial Commemorative which is available in the calibre 32 AUTO (7.65MM).

Manufacturer

- "P BERETTA GARDONE VT" is marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blow back operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame.
Calibre	- calibre is marked on the left side of the slide.
Shots	- detachable box magazine.
Other Markings	- the right side of the slide is also marked "BERDEN CORP. N.Y. - N.Y. CAL 380 PAT.".

Notes

Make

- marked on the left side of the firearm.

Model

- "MOD. 84BB" is normally marked on left side of receiver/frame.
- improved version of the Model "84B". The slide, receiver/frame, and recoil spring are further strengthened.
- began manufacture in 1984.
- patterned after the model 92F.
- firing pin-block ambidextrous safety also functions as a decocking lever.
- rounded off trigger guard.

Manufacturer

- marked on the left side of the firearm.

Serial Number

- serial number located on the right side of the reciever/frame foreward of the trigger guard.
- sample seen with a "D" prefix and an"Y" suffix

Notes

Make

- maker's designation is marked on the slide as "PIETRO BERETTA".

Model

- introduced in 1996.
- "84 FS CHEETAH" is usually marked on the right side of the receiver/frame.
- features include: double/single action trigger mechanism; ambidextrous safety; chrome-lined steel barrel; open top slide design; dovetail rear sight, integral blade front sight; alloy receiver/frame with a matte black or nickel finish; and plastic or wood grip panels.
- overall length with a 97mm (3.8") barrel is 172mm (6.8"), average weight is 660g (23.3oz).
- similar to the model 85F which is available with a 97mm barrel and a single column 8 shot magazine.
- distinctive features for the model 84FS Cheetah includes additional safety features consisting of locking the slide in the closed position while disconnecting the trigger, the hammer and the sear.
- the 84FS Cheetah replaced the 84F Cheetah which was manufactured from 1994 to 1995 and which the safety design consisted of rotating the firing pin extension so that it was shielded from the impact of the hammer.

Manufacturer

- manufacturer's designation is marked on the left side of the slide as "PIETRO BERETTA".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- serial number is marked on the left side of the receiver/frame.
Calibre	- calibre designation is marked on the left side of the receiver/frame as "CAL.9 Short".
Shots	- detachable box magazine located in the grip.

Notes

Make

- the Beretta name and logo (PB in an oval) appear on the firearm.

Model

- this model is available in two configurations, the model "9000S Type F" which is a traditional single/double action pistol and the model "9000S Type D" which is double action only.
- on both variations the model designation appears as "9000 S" on the left side of the receiver/frame.
- the "Type F" version features: an ambidextrous safety/decocking lever mounted on the left side of the receiver/frame, spurred hammer, firing pin block safety, loaded chamber indicator, polymer receiver/frame, open top slide, blued finish on barrel and slide, and dovetailed front and rear three dot sights that are adjustable for windage.
- the "Type D" version shares the same features but does not have a manual safety/decocking lever and uses a spurless hammer.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturers name appears on the receiver/frame.
Action	- recoil operated.
Serial Number	- serial number appears on the underside of the receiver/frame. - serial number may be repeated on the barrel. - observed serial number consisted of a two letter prefix of "SZ" or "SN" followed by six numbers. - "9000S" is not the serial number, this is the model designation.
Calibre	- the calibre designation is marked on the barrel.
Shots	- detachable box magazine.
Importer	- marked on the right side of the slide.
Other Markings	- the front of the slide may be marked with a catalog number, the receiver/frame will be marked with "Read Manual Before Use", and major components will bear Italian proof marks.

Notes

Make

- "PIETRO BERETTA Gardone V.T." was observed, on a referenced example, marked on the left side of the slide.
- Beretta trademark logo of three upright arrows each superimposed over a circle over "P. BERETTA" all within a three ringed circle is usually marked on both side of the grip.

Model

- introduced in 2015.
- "MOD. 92A1 - CAL. 4.5mm (.177)" is usually marked on the right side of the slide.
- "92A1" is made to resemble the actual Beretta 92 pistol adopted by the US Army, but with a rounded trigger guard..
- "92A1" is CO 2 powered, full and semi-automatic, double action BB gun with a removable magazine that is also used for holding the CO2 cartridge.
- features include: fixed sights; round, smoothbore metal barrel; open top metal slide with rear grasping serrations; metal receiver/frame; magazine release is located at the rear of the trigger guard; ambidextrous manual safety; exposed hammer; single action trigger mechanism.
- slide cycles like a blowback firearm during the firing of the BB.
- overall length with a 114 mm (4.5") barrel is 222 mm (8.74"), average weight is 1.06 kg (2.35 lbs).

Manufacturer

- "BERETTA TRADEMARKS LICENSED BY BERETTA - ITALY" over "MADE FOR UMAREX - GERMANY" is usually marked on the right side of the slide.

Action

- CO2 powered.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the side of the receiver/frame.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Model

- manufactured from 1994 to 1998.
- "MOD. 92D CENTURION" is marked on the right side of the slide.
- "D" in the model designation is for the double action only firing mechanism.
- "CENTURION" stands for the use of the compact pistol variant, slide and barrel onto the standard receiver/frame size of the Beretta model 92.
- features include: three dot or Tritium sights (fixed blade front sight and dovetailed rear sight); round rifled barrel; open top slide with rear grip serrations; exposed hammer without a spur; double action only (DAO) trigger mechanism; no manual safety; large trigger guard with flat serrated front; synthetic grips; loop lanyard mounted on the bottom of the rear grip strap; black finish.

Manufacturer

- "BERETTA U.S.A.CORP. ACKK. MD.- MADE IN USA" is marked on the left side of the slide.
- Beretta U.S.A. Corporation manufacturer a partial line of hand guns in the United States of America, which has included the US Pistol M-9 and the Beretta 92 FS.

Action

- recoil operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a three letter "BER" prefix and six numbers.
- serial number suffix letter was marked on older model and stands for the calibre, "Z" for 9MM LUGER and "M" for .40 S&W.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre is marked on the right side of the slide and may be repeated on the barrel.
Shots	- detachable box magazine.

Firearm Reference Number (FRN): 47491
Make: Beretta
Model: 92FS

Summary

Make:	Beretta
Model:	92FS
Manufacturer:	Umarex
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Air,Spring or Gas
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
47491 - 2	177 PELLET	8	115	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	
47491 - 1	177 PELLET	8	127	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "P. Beretta" and/or the Beretta trademark will be marked on the barrel/slide and/or the receiver/frame.
- the Beretta trademark symbol is three upright arrows each superimposed over a circle over the name P.Beretta all within a three-ringed circle.

Model

- "MOD. 92 FS" is usually marked on the side of the barrel/slide.
- introduced in 2000.
- this is a very detailed air-pistol version of the original Beretta 92FS semi-automatic handgun replicating both the size and weight of the original model.
- CO 2 powered, semi-automatic, double action, utilizing an eight shot removable cylinder-type magazine.
- the action is opened with what would "normally" be the slide release lever located on the left side of the receiver/frame; this allows the barrel/slide assembly to slide forward for the insertion of a loaded magazine into the action.
- features may include:
- blued or nickel plated finish,
- barrel compensator,
- adjustable sights including optional Red Dot, C-More or Top Point sighting systems.

Manufacturer

- Umarex produces these pistols under licence from P. Beretta.

Action

- CO2 powered.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- usually serial numbered on the barrel/slide and/or the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is usually marked on the left side of the barrel/slide as: "cal. .177/4.5mm" or "1.77 cal. (4.5mm)".
Shots	- removable eight shot rotary magazine.

Notes

Make

- "BERETTA" and the Beretta "PB" logo is marked on the firearm.

Model

- may also be known as "92 Brigadier FS".
- began manufacture in 1995.
- this is a strengthened, heavy-duty version of the Beretta 92FS pistol, with a thickened slide in the area of the locking-block cutouts to increase service life and reliability. These pistols may be seen in both blued and stainless ("Inox") versions.
- "FS" denotes: single or double action, with external ambidextrous manual safety, decocking lever, trigger bar disconnect, and rotating firing pin striker.
- the "Brigadier" series was designed for the special needs of the U.S. Immigration and Naturalization Service (INS). The firearm is recontoured along with a heavier slide and adjustable front and rear sights.
- features include: standard Beretta 92 layout and profile; blued or stainless finish; fixed three-dot sights; take-down lever on the left side of the receiver/frame; single/double action trigger mechanism with a slide-mounted decocker safety; roundel hammer; and pebbled synthetic finger-groove grips.

Manufacturer

- "BERETTA U.S.A. CORP." is marked on the left side of the slide.

Action

- recoil-operated.

Serial Number

- serial-numbered on the receiver/frame.

Calibre

- "CAL. 9 Parabellum" is marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- marked on the left side of the slide and on both grips, markings on the slide read "PIETRO BERETTA".
- grip markings have the Beretta logo.

Model

- introduced in 1999.
- "MOD.92FS COMPACT" is marked on the right side of the slide.
- 92FS Compact is derived directly from the basic 92FS, with all the same features except for it's reduced dimensions and a ten (10) shot staggered magazine.

Manufacturer

- marked on the left side of the slide, markings read "PIETRO BERETTA GARDONE V.T. -MADE IN ITALY " followed by the Pietro Beretta logo, the letters P B inside an oval.
- USA at the begining of the serial number indicate that the firearm was manufactured in the United States of America.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- located on the left side of the frame/receiver forward of the trigger guard.
- examples observed have a letter prefix or USA as prefix with a sequence of 5 numbers and the letter Z or M suffix.
- USA at the begining of the serial number indicates the firearm was manufactured in the United States of America.
- the Z suffix indicates the firearm was manufactured in 9MM LUGER.
- the M suffix indicates the firearm was manufactured in 40 S&W.

Calibre

- should be marked on the right side of the slide.

Model:	92G Brigadier Elite 2
Manufacturer:	Beretta USA Corporation
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119156 - 1	9MM LUGER	10	120	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Beretta" is marked on the slide and/or receiver/frame.
- the Beretta trademark symbol is usually moulded into the grips.

Model

- model designation is marked on the right side of the slide as "Elite II" over "Mod. 92 Brigadier G" or on the right side of the slide as "Mod. 92 Brigadier G" and on the left side of the slide as "Elite II".
- introduced mid-2000.
- the model designation denotes various features of the firearm, i.e., "G" designates the presence of a slide mounted, ambidextrous decocking lever, a rotating firing pin striker, a trigger bar disconnect and a chamber loaded indicator; BRIGADIER denotes the provision for a removable front sight post and a heavier weight slide; the "ELITE II" designation indicates the use of a stainless steel barrel with a recessed crown, and a beveled magazine well.
- recoil operated, single/double action trigger mechanism, detachable box magazine.
- features include: slide serration's on the front and rear portions of the slide; skeletonized hammer; satin finished stainless steel slide, matte black finish on the receiver/frame; Novak low-profile rear sights; rubber base pads on the magazines; may have plastic grip plates.
- available in calibre 40 S&W as the model 96G Brigadier Elite II.

Manufacturer

- "Beretta U.S.A." Corp. or a variation thereof is usually marked on the slide and/or receiver/frame.
- Beretta manufactures firearms in the United States of America and Italy.
- Beretta U.S.A. Corporation manufacturer a partial line of hand guns in the United States of America, which has included the US Pistol M-9 and the Beretta 92 FS.

Action

- recoil operated.

Serial Number

- serial number is usually marked on the left side of the receiver/frame.
- known examples have had six digit numbers with a three letter prefix.
- prefix letters "BER" have been observed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre designation is marked on the right side of the slide.

Shots - detachable box magazine located in the grip.

189428 - 3	9MM LUGER	20	110	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "BERETTA U.S.A. CORP." and the "PB" logo are marked on the left side of the slide.

Model

- "MOD 92G - Centurion Tactical" is marked on the right side of the slide.
- "92G" variant indicates the decocker-only style of this pistol, with the thumb lever spring-loaded so the pistol immediately returns to firing condition instead of staying on "safe" if the lever is left down, as it does on the more common 92F, 92FS and M9 series.
- "MOD 92G - Centurion Tactical" has a special serial number range with a "WC" prefix.
- features include: dovetailed front and rear fixed sights; open top slide; stainless steel barrel with recessed muzzle crown; fluted steel guide rod; accessory rail on the dust cover; ambidextrous decocking lever at the rear of the slide; takedown lever and slide release located on the left side of the receiver/frame; extended magazine release; skeletonized hammer; rounded trigger guard; single or double action trigger mechanism; beveled magazine well; checkered front and back strap; synthetic grip panels; black finish.

Manufacturer

- "BERETTA U.S.A. CORP." and the "PB" logo are marked on the left side of the slide.
- Wilson Combat logo is marked on the right side of the slide and in medallions on the grip panels.
- Wilson Combat logo is a "W" represented as an open wing eagle over a "C".
- Wilson Combat is located in Berryville, Arizona, U.S.A.
- Wilson Combat was founded by Bill Wilson.
- Bill Wilson established Wilson's Gun Shop in late 1977.
- Wilson Combat/Wilson's Gun Shop manufacturer and customize firearms, and supply custom parts and accessories for firearms.
- Wilson Combat acquired Scattergun Technologies in late 1999.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of a two letter prefix (WC), four numbers and two letter (CT) suffix.
Calibre	- calibre is marked on the right side of the slide.
Shots	- detachable box magazine.

Notes

Make

- "BERETTA USA CORP." is marked on the left side of the slide and the Beretta logo (three arrows in a circle and P.BERETTA is marked at the bottom of the circle) appears on the grip panels.

Model

- introduced in 2000.
- "ELITE II" is laser engraved on the left side of the slide.
- features include: low profile dovetail rear sight, dovetail blade front sight; stainless steel open top heavy weight (Brigadier slide) slide with finger serrations at the front and at the rear of the slide; decocker; exposed skeletonized hammer; stainless steel barrel with a target muzzle crown; blued receiver/frame with checkered front and back strap; a slide release and a takedown lever are located on the left side of the receiver/frame; custom factory single or double action trigger mechanism; extended magazine release is located behind the trigger guard; checkered black grip panels.
- original issued magazine featured magazine bumpers.
- overall length with a 119mm (4.7") barrel is 211mm (8.3"), average weight is 980gr (35.3oz).
- similar to the model 96G Elite II which is in calibre 40 S&W.

Manufacturer

- "BERETTA USA CORP." is marked on the left side of the slide and the Beretta logo (three arrows in a circle and P.BERETTA is marked at the bottom of the circle) appears on the grip panels.

Action

- recoil operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame in front of the trigger guard.
- sample observed consisted of the prefixes "BER" followed by six sequential numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre designation is marked on the slide or on the barrel.

Shots - detachable box magazine.

Notes

Make

- "BERETTA USA CORP." is marked on the left side of the slide.
- "BERETTA" logo, "PB" in an oval is also marked on the left side of the slide.
- "BERETTA" emblem, three arrows pointing upward through three rings inside a circle, is on the grip panels.

Model

- Introduced in 2019.
- "MOD. 92X" is marked on the right side of the slide.
- "92X" is the "Full Size" variant of the serie.
- "92X Full Size" uses a 119mm (4.7") barrel to produce a pistol that is 216mm (8.5") long overall.
- "92X" use a Beretta "Vertec" pistol style, thin grip, straight backstrap receiver/frame.
- "92X" safety slide design is convertible from a safety-decocker (code F) or to decocker-only (code G).
- "92X" series is available as the;

"92X Centurion" is fundamentally a Commander-sized companion to the Full-Size with a shorter 108mm (4.25") barrel length.
"92X Compact" offered in both an M1913 railed model and one with a classic smooth dust cover for those who aren't looking to add accessories, has the Centurion-length slide and barrel on a shorter frame 103mm(5.25") high, versus the standard 137mm (5.4").
"92X Performance" has a steel frame and heavier Beretta "Brigadier" pistol slide, frame mounted safety lever and adjustable trigger mechanism intended for competition.

- features include: fixed, dovetailed front and rear sights; round, chrome-lined barrel with a recessed target crown; open top, flat sided slide with rear grip serrations; slide mounted, ambidextrous safety/decocking lever; aluminium alloy receiver/frame with integral accessory rail; rounded trigger guard; Beretta "Vertec" pistol style, thin grip, straight backstrap receiver/frame; front and back cross checkering on the grip frame; beveled magazine well; exposed hammer; double/single action trigger mechanism; takedown lever and action release lever are mounted on the left side of the receiver/frame; oversize magazine release; synthetic grip panels; black finish.
- overall length with a 119mm (4.7") barrel is 211mm (8.5"), and the average weight is 945 grams (33.3 oz).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Beretta U.S.A. Corporation manufacturer a partial line of hand guns in the United States of America, which has included the US Pistol M-9 and the Beretta 92 FS. - "BERETTA USA CORP." is marked on the left side of the slide. - "BERETTA" logo, "PB" in an oval is also marked on the left side of the slide. - "BERETTA" emblem, three arrow pointing upward through three rings inside a circle, is on the grip panels.
Action	- recoil operated.
Serial Number	- serial number is marked on the forward, left side of the receiver/frame. - serial number of a referenced example consisted of the prefix (92X) and seven numbers.
Calibre	- calibre designation is marked on the right side of the slide. - calibre identification is also marked on the barrel.
Shots	- detachable box magazine.

Notes

Make

- the make is normally marked on the left side of the slide as, "P. BERETTA".

Model

- designed in 1950 and manufactured from 1956 to 1976.
- the model designation on the slide is "1951", however Beretta marketed it as the Model 951.
- features include black ribbed plastic grips, fixed sights, blued finish, single action only, push button cross bolt safety and a separate dismantling latch on the right side of the receiver/frame marked "SMONTAGGIO", which translates into "dismantle".
- for the United States of America the Model 951 was marketed as the "Brigadier".
- it was adopted by the Italian Army and Navy and by the military in Israel, Egypt and Nigeria.
- models manufactured from 1956 to 1970 are proof marked with Roman numerals that reflect the date of manufacture with the Roman numeral dating starting in 1944 at I.
- post 1970 the proof mark is a two letter date code.

Manufacturer

- the manufacturer is normally marked on the left side of the slide as, "P. BERETTA" over "GARDONE V.T. - ITALIA".

Action

- recoil operated.

Serial Number

- the serial number is marked on the right side of the receiver/frame above the trigger.
- serial numbers from 1951 to 1961 were from 00001C to 46410C. Later made versions may or may not have a letter prefix or suffix.

Calibre

- the calibre designation is normally marked on the left side of the slide as "CAL. 9m/m".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119473 - 1	40 S&W	10	119	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "BERETTA U.S.A. CORP. ACKK. MD. - MADE IN USA" and the Beretta "PB" logo are marked on the left side of the slide.

Model

- "MOD. 96 VERTEC" is marked on the right side of the slide.
- this is a new (2002) variation of the 96FS pistol with some new features that distinguish it from earlier variations.
- features include: open fixed sights with replaceable front (intended to allow mounting of tritium/night sights); round rifled barrel; open top, flat sided slide with rear grip serrations; slide-mounted safety; alloy receiver/frame with an integral mounting rail for lights/lasers on dust cover and straight backstrap; straight front on trigger-guard; exposed hammer; double/single action trigger mechanism; checkered grip plates.
- available in blued or stainless-steel ("96FS Vertec Inox") versions.
- also available in 9MM LUGER calibre as the "92FS Vertec".
- as of 2003 this model is available with the Beretta B-Lok integral lock system that is mounted in the grip; a 90 degree turn of a key blocks the hammer in the lowered position to prevent firing and slide operation.

Manufacturer

- "BERETTA U.S.A. CORP. ACKK. MD. - MADE IN USA" and the Beretta "PB" logo are marked on the left side of the slide.
- Beretta U.S.A. Corporation manufacturer a partial line of hand guns in the United States of America, which has included the US Pistol M-9 and the Beretta 92 FS.

Action

- recoil operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a three letter "BER" prefix and six numbers.

Calibre

- calibre is marked on the slide and barrel.

Notes

Make

- the Beretta name and logo are marked on the firearm.

Model

- introduced in 2003.
- the "SD" in the model designation denotes "Special Duty".
- this model is essentially the same as the standard model 96G except that the dustcover portion of the receiver/frame has an integral accessory rail machined into it so that attachments such as a flashlight or laser aiming device can be mounted.
- features include: blued finish; heavy "Brigadier" style slide; Trijicon three-dot tritium sights; checkered front and back straps; beveled magazine well; slide mounted decocker; extended magazine release button; double action trigger mechanism.
- also available in calibre 9MM LUGER as the model 92G-SD.

Manufacturer

- the Beretta name is marked on the slide.
- Beretta manufactures pistols in Italy and the United States.
- sample in Beretta literature is marked "Made in USA" on the slide.

Action

- recoil operated.

Serial Number

- numbered on the left side of the receiver/frame, incorporates a three alpha character prefix.

Shots

- detachable box magazine.

Notes

Make

- The company logo is marked on the receiver/frame.
- "BERETTA" is marked on the firearm in various places.

Model

- Introduced in 2023.
- "A300 Ultima" is marked on the right side of the receiver/frame.
- There are two versions of this model, but both are marked as "A300 Ultima".
- Version 1: standard "A300 Ultima" and comes with standard features, nominally longer barrel with ventilated top rib and fiber-optic front sight.
- Version 2: short barrel, known as "A300 Ultima Patrol" version, which comes with a shorter barrel with no top rib, rear ramp sight and iron front sight, top accessory rail and two magazine options, one in 5 shots and one with a 7 shot extension.
- Features include: right side cocking bolt handle/knob; safety toggle/button as part of the front of the trigger guard.

Manufacturer

- The company logo is marked on the receiver/frame.
- "BERETTA USA CORP." is marked on the firearm in various places.

Action

- Gas operated.

Serial Number

- The serial number is marked on the right side of the receiver/frame.

Calibre

- The calibre designation is marked on the barrel.
- The calibre designation is marked on the right side of the receiver/frame.

Shots

- Fixed tubular magazine.

FRT Report

Firearm Reference Number (FRN): 137007
Make: Beretta
Model: A400 Xtreme Unico

Summary

Make:	Beretta
Model:	A400 Xtreme Unico
Manufacturer:	Beretta
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Semi-Automatic
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
137007 - 1	12 GA X 3 1/2"	4	670	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
137007 - 2	12 GA X 3 1/2"	4	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
137007 - 3	12 GA X 3 1/2"	4	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
137007 - 4	20 GA X 3"	4	762	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "BERETTA" name and logo was observed marked on the right side of the receiver/frame.

Model

- "A400 XTREME" over "UNICO" was observed marked on the left side of the receiver/frame.
- "XTREME" over "UNICO" was observed marked on the right side of the receiver/frame.
- introduced in 2011.
- features observed: blued or camo round steel smoothbore barrel with Optima choke tube system, ventilated rib, and bead front sight; green anodized aluminum solid top receiver/frame with right side ejection and bottom loading; rotating bolt head; cross bolt safety located on the front of the trigger guard; action release button located on the right side of the receiver/frame; black or camo synthetic stock and pistol grip buttstock with recoil pad.
- average weight is 3.54 kgs (7.8 lbs).

Manufacturer

- "BERETTA" name and logo are marked on the right side of the receiver/frame.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number consisted of a two letter prefix and six numbers.

Notes

Make

- "BERETTA" over "GARDONNE V.T." followed by "MADE IN ITALY" was observed marked on the left side of the slide.
- the company logo was observed marked on the left side of the slide and on the sides of the grip.

Model

- introduced in 2015.
- APX is marked on both sides of the front forward extension of the polymer grip frame and is repeated on the top of the slide.
- APX is a polymer grip frame pistol with interchangeable back straps and an internal stainless steel receiver/frame chassis.
- APX uses a striker fired operating system.
- features include: cold hammer forged, rifled barrel; dovetailed front and rear adjustable sight; full length, rectangular shaped, cocking grooves; polymer grip frame with an integral, front accessory rail, finger grooved front strap and interchangeable back straps; removable, stainless steel receiver/frame chassis in the grip frame; reversible magazine release button; ambidextrous slide stop lever; automatic firing pin safety; trigger with integral safety lever; black slide; synthetic coloured grip frame.
- overall firearm length with 108mm (4.25") barrel is 192mm (7.5").

Manufacturer

- "BERETTA" over "GARDONNE V.T." followed by "MADE IN ITALY" was observed marked on the left side of the slide.
- "BERETTA USA CORP." followed by "ACKK. MD" is marked on the right side of the slide under the ejection port window.
- the company logo was observed marked on the left side of the slide and on the sides of the grip.

Action

- recoil operated.

Serial Number

- serial number is marked on the receiver/frame.
- serial number is marked on several components of the firearm, ie: barrel, slide, etc...
- stainless steel chassis is serialized and visible through the small view port on the left side of the receiver/frame.

Calibre

- calibre designation is also marked on the barrel, visible through the ejection port.

Shots

- detachable box magazine.

139451 - 2	22 LR	20	460	Prohibited PFR, Part 1, para. 101(b)	Manufacturer Specifications and Commercial Customization	
139451 - 4	22 LR	30	460	Prohibited PFR, Part 1, para. 101(b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "BERETTA" and the Beretta logo are marked on the right forward side of the receiver/frame.

Model

- "ARX 160" over "CAL. .22 L.R. HV" is marked on the side of the receiver/frame.
- "ARX160" has a two piece polymer receiver/frame.
- features include: flip up adjustable front and rear sights; quick change round rifled barrel with a muzzle brake/flash hider; upper receiver/frame with top, bottom and side mounted picatinny rails, and a reversible ejection ports; lower receiver/frame with integral magazine housing, pistol grip, and an ambidextrous safety lever; synthetic collapsible, side folding buttstock; sling mounting points.
- "ARX160-22" is also available in a pistol version.

Manufacturer

- "MADE IN GERMANY BY UMAREX" is marked on the side of the receiver/frame.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- observed specimen serial numbers were located on the rear right side of the receiver frame and consisted of two letters (PB) followed by a series of six numbers. - examples PB003971 (S) & PB016721
Barrel	- quick change barrel assembly.
Shots	- detachable box magazine.
Canadian Law Comments	- this firearm is manufactured in both rifle and handgun configurations. The magazine is interchangeable between the two configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition. - this Beretta ARX160-22 firearm has a two piece receiver/frame. The upper receiver to which the barrel, stock and handguards are fastened and inside of which the bolt reciprocates is the receiver/frame for all purposes of the Firearms Act.

Notes

Make

- make is marked on the firearm.

Model

- the model designation is found on the underside of the receiver/frame.
- manufactured from 1968 to 1976.
- similar to the "BL-2" but with a rib, ejectors and more engraving.
- features include: hand checkered European walnut buttstock and fore-end with satin finish, pistol grip, gold plated single selective trigger, ramp front sight, chrome moly steel barrels, and the Beretta monobloc system.

Manufacturer

- manufacturers name is marked on the firearm.

Action

- over / under configuration.

Serial Number

- found on tang under opening lever.

Calibre

- calibre designation is marked on the barrel.

146264 - 3	7.62MM NATO	20	490	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make may or may not be marked on the firearm.
- this is a licenced copy of the Beretta BM59 rifle, made at a factory set up in Bandung, Indonesia by Beretta.

Model

- the model designation may or may not be marked on the firearm.
- this is a licenced copy of the Beretta BM59, made in Indonesia in three variations, for issue to Indonesian troops; the first version was the standard BM59 (without muzzle brake or flash hider), the second was a version with a flash hider/barrel extension (to allow the use of rifle-launched grenades), and the third was a bipod-equipped version that was intended to be used as a light machine gun.
- features include: blued finish; open adjustable sights; wooden handguard and pistol-grip stock; detachable box magazine; stripper-clip guide above the ejection port; and a Garand-style safety at the front of the trigger-guard.

Manufacturer

- the manufacturer is marked on the firearm by way of Indonesian national markings, consisting of a "garuda" (an eagle with outstretched wings that come up to a point, holding a five-pointed star above its head) on the rear of the receiver, above the serial number.

Action

- gas operated.

Serial Number

- numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- the "Beretta" trade name is marked on the firearm.

Model

- the model designation is marked on the firearm.
- introduced in 2003.
- this is a bullpup design firearm that incorporates a barrel assembly, a bolt assembly and a trigger/buttstock assembly.
- features include: navy blue (blue/grey) or matte black overall finish; hammer forged chrome lined barrel; polymer upper and lower receiver/frames; ambidextrous design, cross-bolt safety, magazine release button, bolt handle and ejection can be adapted for left or right-hand use; multiple sling attachment points; retractable forward accessory rail extends from the forearm; optional "Picatinny" rails can be mounted on the forearm to accept accessories such as a forward vertical handgrip, light or laser sighting system; protected front and rear sights; adjustable length of pull by adding spacers.
- the overall length is 755 mm (29.7") to 800 mm (31.5") with a 422 mm (16.6") barrel.

Manufacturer

- "BERETTA, P. BERETTA - GARDONE V.T. - MADE IN ITALY BERETTA USA CORP. ACKK MD. PAT. PEND." may be on the left side of the firearm.
- the "Beretta" logo is also marked on the firearm.

Action

- blowback operated.

Serial Number

- serial number is stamped on a metal plate inlet into the side of the upper receiver/frame and may be obscured by an accessory mounting plate.
- observed serial number had a "CX" or "CY" prefix followed by five numbers.
- serial number is usually repeated on the left side of the barrel, the bolt and the lower receiver/buttstock (the firearm must be disassembled to see the number on the lower).

Calibre

- the calibre designation is usually marked on the left side of the barrel.
- observed sample in calibre 9MM LUGER was marked "9 Para" followed by the serial number.

Shots

- detachable box magazine.
- this model uses the standard Beretta pistol magazines from the models 92, 96, 800, 8040 and 8045.
- a ten cartridge magazine designed specifically for the Cx4 Storm rifle has been produced and is indicated by a "Cx4 Storm" stamp.

Canadian Law Comments

- The ten round limit specified in the cartridge magazine control regulations applies to magazines for this firearm provided:

a) the magazine is originally designed or manufactured for use in a semi-automatic handgun, and

b) the handgun is commonly available in Canada.

Notes

Make

- "Beretta" and/or the Beretta trademark is marked on the firearm.
- "Beretta" trademark symbol is three upright arrows each superimposed over a circle over the name P.Beretta all within a three-ringed circle.

Model

- introduced in 2007.
- model designation is marked on the firearm.
- this is a CO2 powered, semi-automatic air rifle.
- features include: protected adjustable front sight and a protected adjustable rear sight; round, steel barrel with a threaded muzzle for the detachable sound moderator/silencer; one piece ambidextrous polymer receiver/frame with an integral top mounted Picatinny type rail; ambidextrous safety; multiple sling attachment points; CO2 cylinder is stored in the butt; navy blue (blue/grey) or matte black finish.
- Cx4 Storm is also in a tactical version known as the Cx4 Storm XT.
- Cx4 Storm overall length with a 445 mm (17.5") barrel is 781mm (30.75"), and the average weight is 2.54 kgs (5.6 lbs).
- Cx4 Storm XT overall length with a 445 mm (17.5") barrel and the sound moderator/suppressor installed is 902mm (350.5"), and the average weight is 3.31 kgs (7.3 lbs).

Manufacturer

- Umarex produces these firearms under licence from "P. Beretta".

Action

- CO2 powered.
- at least two variants of this particular model exist.

Variant #1: - discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: - does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number was observed marked on the side of the barrel.
- serial number observed consisted of eleven alpha-numeric characters.

Shots

- detachable rotary belt magazine.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Notes

Make

- "BERETTA", "P. BERETTA" and/or "PIETRO BERETTA" is usually marked on the side of the firearm.

Model

- model designation may be marked on the receiver/frame (samples have been seen with no model markings).
- introduced in 1948.
- this is a single barrel folding shotgun.
- features include: round barrel with bead front sight; front hinged receiver/frame with break open lever/release located in front of the trigger guard (barrel folds 180 degrees); hammerless; plain or checkered wood forearm and semi-pistol grip buttstock.
- the forearm has a cut-out to accommodate the action release lever.
- this model is similar to the Beretta Model 412 and 413.

Manufacturer

- manufacturer's name is usually marked on the firearm.
- manufactured in Brazil and Italy.

Action

- hinged barrel, single-shot.

Serial Number

- marked on the water table of the receiver/frame with observed example with a letter prefix and five or six numbers.

Calibre

- chamber length is marked on the barrel.

Remarks

- at one point in time this model may have been referred to as the "Companion".

Notes

Make

- "BERETTA" name and logo are marked on the right side of the receiver/frame.

Model

- "Giubileo" may be marked on the right side of the receiver/frame.
- this is a variation of the S687 over/under boxlock shotgun made specifically to commemorate the year 2000; "Giubileo" is Italian for "Jubilee".
- highly-decorated receiver/frame with total-coverage small scroll engraving and "P.Beretta Giubileo" on "shields" in the extended false sideplates.
- single trigger; tang safety/barrel selector; deluxe walnut pistol-grip stock and schnabel-tipped forearm and a gold "PB" shield inset on the bottom of the forearm.
- average weight in 28 GA is 2.49kg (5.5lbs).

Manufacturer

- P. Beretta is a manufacturer located in the Gardone area of Italy.
- P. Beretta has been manufacturing firearms in this area since 1680, and they are particularly known for the complete line of handguns and for their custom/semi-custom shotguns.

Action

- over and under barrel configuration.

Serial Number

- serial number is marked on the tang.

Notes

Make

- the Beretta name is usually marked on the top of the barrel.

Model

- introduced in 2005.
- "LARAMIE" resembles the Smith & Wesson Top Break No 3 Single Action Schofield Model.
- features include: blade front side with a channel/notch in the topstrap for the rear sight; round barrel with solid top rib; front hinged receiver/frame with a fluted cylinder and break open mechanism located on the rear of the top strap; exposed spur hammer; single action trigger mechanism; colour case-hardened trigger guard and hammer; smooth wooden grips with gold Beretta logo; blued, nickel or De Luxe finish.
- overall length with a 165 mm barrel is 310 mm (12 1/4"), and average weight is 1.2 kgs (42.68 oz).

Manufacturer

- "A. Uberti" is marked on the right side of the barrel.

Action

- hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is usually marked on the underside of the receiver/frame ahead of the trigger guard. - observed serial number consisted of a letter "L" prefix and five numbers.
Calibre	- calibre designation is usually marked on the side of the barrel.
Importer	- Beretta USA markings will be found on the top of the barrel.

Notes

Make

- when marked on the firearm the markings are usually found on the left side of the receiver/frame as follows "BERETTA - ARMI" "ROMA - ITALIA".
- samples have been noted with the "P.B." in the serial number as the only Beretta identifier.

Model

- Based on the "M1 Garand" design.
- The Beretta M1 Garand was manufactured from 1950 to 1959.
- These firearms were made on contract for other nations.
- Features include: parkerized metal surfaces; walnut stock; post foresight with protective side wings and rear aperture sight adjustable for both windage and elevation; detachable trigger group; bayonet lug forged as part of the gas assembly.

Manufacturer

- manufactured by Beretta who were licenced to produce these firearms and sell them to third nation clients.
- in addition to those rifles produced solely for Italian use, export orders were produced for Denmark and Indonesia.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- found on the top rear of the receiver/frame.
- all Italian and foreign contract models manufactured by Beretta will have serial numbers beginning with "PB".
- serial numbers observed include PB 644 and PB 3385

Shots

- The "M1 Garand" was introduced in 1936 with an 8 shot enbloc clip.
- The Beretta M1 Garand was introduced in 1950 with an 8 shot enbloc clip.
- does not have a conventional magazine, it has a feed mechanism which must be charged with a special, eight cartridge, enbloc clip.
- once inserted into the firearm, this clip cannot be recharged.

Other Markings

- Danish rifles are marked with a crown over "FKF", while Indonesian rifles are marked with a half-bird / half-human figure.

Remarks

- designed by John Garand, adopted by the U.S. Government in 1936, and saw service through World War II and Korea.
- these Italian versions of the US Rifle, M1 (also known as the "Garand") were manufactured by Breda & Beretta who were licenced to produce these firearms and sell them to third nation clients.
- in addition to those rifles produced solely for Italian use, export orders were produced for Denmark and Indonesia.

160 - 2	12 GA X 3"	5	508	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- make marked on right side of receiver/frame.

Model

- model marked on receiver/frame.
- designed for security/law enforcement and features a "dual operating system" which can be used either as a pump-action shotgun, or as a semi-automatic shotgun, at the discretion of the user.
- features include: black synthetic pistol-grip or folding metal buttstock; open "rifle" sights; box magazine and an action selector switch at the front of what would be the magazine tube, if this were a tube-magazine-fed firearm.
- overall length with a 400mm barrel with the stock folded is 685mm.

Manufacturer

- manufacturer marked on firearm as "P.BERETTA".

Action

- this firearm is considered "Other" for an action-type because it can operate as a semi-automatic (gas operated) or a pump action.
- designed to function primarily as a semi-automatic firearm, with the pump-action mode used to reliably fire low-pressure ammunition such as tear gas rounds or less-lethal rounds.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on receiver/frame.
Calibre	- marked on barrel in front of action.
Shots	- detachable box magazine.

Notes

Make

- the make is not marked on the firearm.
- this is a licenced copy of the Beretta Model 12, manufactured by Taurus after that company purchased the Brazilian subsidiary of Beretta.

Model

- the model may or may not be marked on the firearm.
- this is a direct licenced copy of the Beretta Model 12 submachine gun, manufactured by Taurus after Taurus purchased the Brazilian subsidiary of Beretta in 1980.
- this submachine gun was later replaced by the Model MT12A (a version with a spring-loaded cover over the ejection port, and a copy of the Beretta 12S), but the MT12 retains the original controls and features of the Model 12.
- features include: standard Beretta PM12 layout; blued finish; stamped, folded, and welded construction; knurled receiver end caps; open peep sights with protective ears; a cocking handle on the forward left side of the receiver; dual pistol-grips; a forward-canted magazine-well; two cross-bolt safety/selector buttons (the forward button selects between semi-auto and full-auto, while the rear button selects between safe and fire); a grip-safety in the front-strap of the rear grip; synthetic furniture; and a forward-folding single-strut stock.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- blowback.

Serial Number

- numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 25256
Make: Beretta
Model: PA MAS G1

Summary

Make:	Beretta
Model:	PA MAS G1
Manufacturer:	GIAT
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
25256 - 4	9MM LUGER	10	125	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
25256 - 3	9MM LUGER	15	125	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "FABRICATION SOUS LICENCE BERETTA" is marked on the right of the side.
Model	- this is a licenced version of the Beretta 92F pistol, made with a decocking lever ONLY (as opposed to the hammer-drop safety of the Beretta 92F) on the slide; other features remain the same as on the Beretta 92F. - features include: standard Beretta 92 layout and operation; blued/phosphated finish; fixed open three-dot sights on an open-topped slide; squared-off trigger-guard; "FABRICATION SOUS LICENCE BERETTA" on the left side of the slide; "PA MAS 9mm G1" on the right side of the slide; take-down lever on the left side of the frame; SA/DA trigger mechanism with decocking lever on the slide; and synthetic grip panels with "MAS" logo.
Manufacturer	- "Groupement Industriel des Armements Terrestres (GIAT)" is a group including "Manufacture d'Armes de Sainte-Etienne" located in Saint-Cloud, France and is a French State Arsenal.
Action	- recoil operated.
Serial Number	- serial number located on the left side of the receiver/frame in front of the trigger guard.
Shots	- detachable box magazine.

Firearm Reference Number (FRN): 146189
Make: Beretta
Model: PB4

Summary

Make:	Beretta
Model:	PB4
Manufacturer:	Beretta
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Multi-Barrel
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
146189 - 1	357 MAG	4	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model is marked on the firearm.
- this is an unusual multi-barrelled pistol manufactured by Beretta for a short time during the early 1980s, as a self-defence firearm.
- this pistol was unsuccessful because it was deemed to be un-importable to the United States, because of its fixed sights and small size.
- features include: blued finish; fixed open sights; four barrels in a square configuration in a "tip-up" barrel block; a double-action trigger mechanism that fires each barrel in succession; checkered walnut grips; and a thumb-operated opening mechanism mounted on the top rear of the pistol that somewhat resembles a hammer, and which slides rearward to open the action.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- four barrel cluster configuration, hinged barrel design.

Serial Number

- serial number is marked on the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 144471
Make: Beretta
Model: Pico

Summary

Make:	Beretta
Model:	Pico
Manufacturer:	Beretta USA Corporation
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
144471 - 1	380 AUTO	6	70	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
144471 - 2	9MM BROWNING SHORT	6	70	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "BERETTA" is marked on the left side of the slide.
- "MADE IN USA" is marked on the right side of the slide.
- "BERETTA USA CORP" is marked on the left side of the grip assembly.

Model

- introduced in 2013.
- "PICO" is marked on the right side of the slide and on the grip assembly.
- "Pico" is a lightweight "pocket pistol" made with interchangeable grip assembly in different colours (white, pink, sand, olive, etc.)
- some versions of this pistol are made with integral lasers or flashlights in the detachable synthetic grip assembly.
- "Pico" has an extremely thin profile (18mm maximum thickness).
- "Pico" is hammer fired.
- features include: fixed tritium sights; round barrel; flat sided stainless steel slide with rear gripping serrations; internal stainless steel receiver/frame; double action only trigger mechanism; synthetic grip; action release is mounted on the left side; magazine release is mounted behind the trigger guard.
- overall length with a 70 mm (2.7") barrel is 130 mm (5.1"), and the average weight is 325 grams (11.5 oz).

Manufacturer

- Beretta U.S.A. Corporation manufacturer a partial line of hand guns in the United States of America, which has included the US Pistol M-9 and the Beretta 92 FS.

Action

- blowback operated.

Serial Number

- serial number is marked on the internal stainless steel receiver/frame.
- serial number is visible through a slot in the synthetic grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is marked on the barrel.
Shots	- detachable box magazine.

166 - 3	12 GA X 3"	3	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- make is marked on the firearm.
Model	- model name is located on the receiver/frame. - model design is based on the Benelli designed "Montefeltro" short recoil system. - features include: matte black finish; ventilated rib on barrel; metal bead front sight; checkered, grooved forend and semi-pistol grip buttstock; sling swivels. - also available in a rifle sight version as the model Pintail Slug.
Action	- recoil operated.
Serial Number	- the serial number is marked on the side of the receiver/frame.
Calibre	- chamber length is marked on the barrel near the receiver/frame.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component commonly referred to as the frame assembly, onto which the breech bolt assembly and barrel are mounted and upon which the model designation and the full serial number is found, is the receiver/frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Make

- "Beretta" and/or the Beretta trademark will be marked on the barrel/slide and/or the receiver/frame.
- the Beretta trademark symbol is three upright arrows each superimposed over a circle over the name P.Beretta all within a three-ringed circle; a variant of this marking may not have the name P.Beretta within the circle.

Model

- "BERETTA", "PX4 Storm", and "Cal. .177/4.5mm" were observed marked on the left side of the slide.
- "PX4 Storm" was observed marked on the grips.
- "PX4 Storm" air pistol is designed to virtually replicate the weight, appearance and function of the Beretta model "PX4 Storm" semi-automatic centre-fire pistol.
- CO2 powered, semi-automatic, blow-back type of action utilizing a detachable 16 shot magazine.
- power source is a 12 gram CO2 capsule inserted in what would be the magazine well of the grip frame.
- features include: single or double action; manual safety switch located on the left side of the slide; black glass fiber reinforced polymer frame; fixed front sight; adjustable rear sight; ambidextrous magazine release lever integrated into the trigger guard; accessory rail on the underside of the receiver/frame in front of the trigger guard.

Manufacturer

- "UMAREX" is usually marked on the grips.

Action

- CO2 powered.
- 12 gram CO2 capsule is located inside the grip frame.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Calibre

- "Cal. .177/4.5mm" is usually marked on the left side of the barrel/slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - double rotary-type detachable magazine.

Notes

Make

- "Beretta" name and logo are marked on the receiver/frame and barrels.

Model

- "686 Onyx" is marked on the underside of the receiver/frame.
- "S686 Onyx" or "Onyx" series is available in several configurations. The main differences between the variations are the finish and features.
- "S686 Onyx", standard model has a plain, matte black finished box lock receiver/frame and barrels with gold filled Beretta markings and a select walnut buttstock and forend.
- "S686 White Onyx" features a box lock receiver/frame with a "Dura-Jewel" design satin nickel finish; select walnut buttstock and forend, blued barrels and gold filled Beretta markings.
- "S686 Onyx Pro" features a box lock receiver/frame with a "Dura-Jewel" design matte black finish; "X-Tra" wood finish on the buttstock and forend (this finish reproduces the grain pattern of high quality walnut on a wood core); gold filled Beretta markings; extended Mobilchoke tubes; TruGlo bead sight.
- all variations feature a ventilated rib on the barrel; Mobilchoke interchangeable choke tubes; single selective gold plated trigger and an automatic safety.

Action

- over and under barrel configuration, hinged barrel design.

Calibre

- chamber length is usually marked on the barrel(s).
- the 28 GA version was introduced in 2003.

Notes

Make

- "P. BERETTA" is marked on the left, right and underside of the receiver/frame.
- "P. Beretta - Gardone V.T. - ITALY" and the Beretta "PB" logo are marked on the left side of the barrel assembly.

Model

- manufactured from 1987 to 1992.
- "Mod. S686 SPECIAL" is marked on underside of receiver/frame.
- "SPORTING" may be marked on the barrel assembly or trigger guard.
- S686 Special is a good quality boxlock shotgun.
- features include: blued over and under smoothbore barrels with a ventilated mid rib, ventilated top rib and metal bead front sight; engraved and chromium plated front hinged receiver/frame with top tang mounted break open lever and safety; ejectors; single selective or double triggers; checkered walnut forearm and straight grip or pistol grip buttstock.

Manufacturer

- "MADE IN ITALY" over "P. BERETTA" over "GARDONE VT" are marked on the underside of the receiver/frame.
- "P. Beretta - Gardone V.T. - ITALY" and the Beretta "PB" logo are marked on the left side of the barrel assembly.
- "MADE IN ITALY" is marked on the right side of the barrel assembly.

Action

- over and under barrel configuration, hinged barrel design.

Serial Number

- serial number is marked on the top tang of the receiver/frame, under the break open lever and is repeated on the barrel assembly.

Calibre

- gauge, chamber length and barrel length are marked on the left side of the barrel assembly.

Notes

Make - the Beretta name and logo are marked on the receiver/frame and barrels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the "S686 White Onyx" was introduced in 2003.
- the model designation is marked on the underside of the receiver/frame as "686 Onyx".
- the "S686 Onyx" or "Onyx" series is available in several configurations. The main differences between the variations are the finish and features.
- the "S686 White Onyx" features a box lock receiver/frame with a "Dura-Jewel" design satin nickel finish; select walnut buttstock and forend, blued barrels and gold filled Beretta markings.
- the standard model S686 Onyx has a plain, matte black finished box lock receiver/frame and barrels with gold filled Beretta markings and a select walnut buttstock and forend.
- the "S686 Onyx Pro" features a box lock receiver/frame with a "Dura-Jewel" design matte black finish; "X-Tra" wood finish on the buttstock and forend (this finish reproduces the grain pattern of high quality walnut on a wood core); gold filled Beretta markings; extended Mobilchoke tubes; TruGlo bead sight.
- all variations feature a ventilated rib on the barrel; Mobilchoke interchangeable choke tubes; single selective gold plated trigger and an automatic safety.

Action

- over and under barrel configuration.

Serial Number

- the serial number is marked on the receiver/frame.

Calibre

- gauge is marked on the barrel assembly.

Notes

Make	- was observed marked on the receiver/frame and on the barrel assembly.
Model	- the model "S686 Whitewing" has the P. Beretta signature on the sides of the action. - "WHITEWING" was observed marked on the underside of the receiver/frame. - features include; polished steel receiver, barrels with full length rib, open side rib, walnut stock and forearm, and uses the "Mobilchoke" system.
Manufacturer	- was observed marked on the receiver/frame and on the barrel assembly.
Action	- over and under barrel configuration.
Serial Number	- was observed marked on the upper rear receiver/frame tang under the break opening lever.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- Berreta literature lists the barrel length as 26" and 28" when using the imperial unit of measurement, when using the metric method they are listed as 670mm and 710mm. The correct metric conversion of 26" is 660mm, this is the length reflected in the FRT.
Calibre	- was observed marked on the left side of the upper barrel.

Notes

Action - over/under.

Remarks - the S687 EL Ultralight Golden Onyx model is a derivative of the S680. Though a modern over/under of box lock design, this model has added false side plates giving the gun the look of a sidelock. The action is made of light alloy reinforced with titanium plate making it lighter. It is finished in matte black with gold game birds. The barrels have a full length rib and are stocked in fine walnut wood.

Notes

Make

- "PIETRO BERETTA" is marked on the right side of the receiver/frame.

Model

- model designation is located on the left side of the receiver/frame.
- early semi-automatic shotgun, forerunner of current Beretta semi-automatic line, blued steel receiver/frame and barrel, anodized alloy trigger guard, checkered walnut pistolgrip stock with a silver lark in a black inlay at bottom and centre of forearm.
- pistol grip cap and butt pad of black plastic, manual safety on the trigger guard in front of trigger.
- right side of receiver/frame is marked only with ' Pietro Beretta ' above the bolt release button.
- left side of the receiver/frame is marked with four lines of detail:
  ' Prima Fabbrica Italiana d'Armi '
  ' Pietro Beretta '
  ' Founded in 1680 '
  ' Made in Italy Silver Lark 12 Gauge '.

Manufacturer

- the manufacturer is on the receiver/frame.

Action

- gas operated.

Serial Number

- serial number is located on the right side of the receiver/frame, rationalization unknown.

Calibre

- the calibre is marked on the receiver/frame.
- chamber length is marked on the underside of the barrel (hidden by the forearm) along with the choke constriction and proof marks.

28432 - 6	12 GA X 3"	2	750	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model	- underside of receiver, just ahead of trigger guard. - made from 1948 to 1987.
Action	- over and under barrel configuration, hinged barrel design.
Barrel	- full rib.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- chamber length marked on barrel.
Remarks	- Highly decorated with engraved scenes and stocked in well figured walnut. Rarely encountered. The other grades (from SO3, SO3 EL and SO3 EELL) differ in the quality of the wood and the amount of engraving. In the EELL the customer has input into the type of embellishment.

193 - 6	410 GA X 3"	2	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- model designation is marked under the opening lever on the receiver/frame.
- features include: engraved receiver/frame; solid full length rib; bead sight; cold hammer forged blued Monobloc barrels; European walnut checkered buttstock and forend; single or double trigger mechanism and a manual or automatic safety.
- may have a ventilated rib.

Manufacturer

- manufacturer's name is marked on the right side of the firearm as "P.Beretta".

Action

- over and under sidelock.

Barrel

- full length rib.

Calibre

- chamber length marked on barrel.

Remarks

- highly decorated with scroll and engraved scenes. It is a true sidelock, ejector action stocked in well figured walnut. Rarely encountered.

Firearm Reference Number (FRN): 204
Make: Beretta
Model: Sport

Summary

Make:	Beretta
Model:	Sport
Manufacturer:	Beretta
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
204 - 2	22 LR	5	520	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
204 - 1	22 LR	10	520	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Beretta name is marked on the side of the return spring housing.

Model

- the model designation is not marked on the firearm.
- this is a light sporting rifle with a tapered round barrel.
- features include: blued finish; checkered walnut stock; fixed rear sight notch with two blades; trigger pull adjusting screw on the trigger guard.
- the key differences between this model and the Super Sport and Olimpia are the following;
- simpler stock (no cheek rest), and shorter barrel as compared to the Super Sport.
- capable of semi-automatic fire only, this model does not have the option of locking down the operating handle into a recess to fire in single shot mode as does the Olimpia.

Manufacturer

- the Beretta name is marked on the side of the return spring housing.

Action

- blowback operated.

Serial Number

- serialization sequence unknown, but five numerical digits, with one alpha prefix marked on observed specimen. Other combinations are possible.

Shots

- detachable box magazine.

Notes

Model	- Found on underside of receiver in front of trigger. Currently discontinued or not imported (since 1989).
Barrel	- Rifle sights.
Remarks	- the SSO rifle is built on the SO series action and thus is a side by side double rifle with a side lock action. The rifle is rare in North America. The gun has rifle sights and is not intended for shotshells. As a custom set of barrels can be ordered at time of purchase an example can be found in 12 Ga. format with options as per the SO series of shotguns.

Make:	Beretta
Model:	Stampede Marshall
Manufacturer:	Uberti
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122126 - 2	357 MAG	6	89	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
122126 - 1	45 COLT	6	89	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Beretta name is marked on the top of the barrel.

Model

- the model designation is marked on the top of the barrel.
- this model closely resembles the Colt, 1873 Single Action Army revolver, although it is fitted with birds-head style grips.
- features include: single action trigger mechanism; blade front side with a channel/notch in the topstrap for the rear sight; cylinder, trigger guard and the receiver/frame are colour case-hardened; right side mounted swing out loading gate; wood panels on the bird's-head style grips with inlaid gold Beretta logo escutcheon; spur hammer.
- introduced in 2007; "Old West" finish consisting of a dull grey corrosion resistant finish reproducing the 19th century originals revolvers.

Manufacturer

- the Uberti name is usually marked on the underside of the barrel.

Serial Number

- the serial number is marked on the underside of the receiver/frame ahead of the trigger guard.
- observed serial number sequences have consisted of six numbers without prefix or suffix.

Calibre

- the calibre designation is marked on the barrel.
- the 45 COLT calibre designation is marked as "CAL.45 LC".

Notes

Make

- "BERETTA U.S.A.CORP. ACCOKEEK. MD." and "MADE IN USA" is marked on the left side of the barrel.

Model

- "U22 NEOS Carbine" was introduced in 2010 to the U.S.A. market as a accessory kit featuring a 413mm (16.25") barrel and molded skeletonized stock and grip assembly to be fitted to the U22 NEOS pistol receiver/frame.
- "U22 NEOS" is marked on the left side of the barrel.
- "NEOS" means "New" in Greek.
- "U22 NEOS" pistol was introduced in 2002.
- "U22 NEOS Deluxe" pistol was introduced in 2003 featuring an adjustable trigger and interchangeable front and rear sights. The slide features a new, laser engraved "blue-dotted" logo (two blue dots are placed on the "O" in Neos).
- features include: fixed heavy barrel; adjustable sights integrated to the half length of the upper assembly optic mounting rail; synthetic forend; short slide behind the barrel with one large groove over the grasping serrations; magazine catch is located on the right side of the receiver/frame forward of the grip and above the trigger; slide release on the left side; ambidextrous safety lever; loaded chamber /cocked firing pin indicator at the rear of the pistol slide; single-action operation; skeletonized stock and grip assembly or interchangeable synthetic pistol grip frames in a variety of colours or with colour rubberized inlay with a sharply raked to the rear grip and oval shaped trigger guard; blue or stainless (Inox) finish.
- overall length with a 413mm (16.25") barrel is 794mm (31.25"), average weight is 1.7kg (3.8lbs).

Manufacturer

- "BERETTA U.S.A.CORP. ACCOKEEK. MD." and "MADE IN USA" is marked on the left side of the barrel.
- Beretta U.S.A. Corporation manufacturer a partial line of hand guns in the United States of America, which has included the US Pistol M-9 and the Beretta 92 FS.

Action

- blowback operated.

Serial Number

- numbered on left side of receiver/frame, above the trigger guard.
- serial number of a referenced example consisted of one letter prefix and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "CAL. 22LR" is marked on the left side of the barrel.
Shots	- detachable box magazine.
Canadian Law Comments	- this firearm Model is using the receiver/frame of a handgun. The magazine is interchangeable between the two configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

122740 - 2	12 GA X 2 3/4"	1	813	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "BERETTA" is marked on the right side of the receiver/frame.

Model

- introduced in 2004.
- "UGB 25XCEL" is marked on both sides of the receiver/frame.
- this firearm uses a unique design whereby the barrel assembly hinges downward as would a traditional over and under barrel design for loading the chamber, but when the action is closed, a second cartridge may be loaded into a loading gate on the right side of the receiver/frame, where thereafter the firearm functions as a semi-automatic upon firing.
- features include: downward ejection; low barrel axis; interchangeable sighting ribs for adjustable point of impact selection; alloy receiver/frame; adjustable cheek piece; adjustable recoil reduction system with adjustable length of pull and interchangeable pads; interchangeable choke tubes; blue finished steel barrel; walnut, checkered butt stock and fore-end; button safety mounted on the trigger guard; action opening lever located on the left side of the receiver/frame.

Manufacturer

- the manufacturer's designation is marked on the receiver/frame and on the barrel assembly.

Action

- recoil operated with a short recoil mechanism.

Serial Number

- the serial number is marked on the receiver/frame of the firearm.
- the serial number rationalization is unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the barrel assembly.
Shots	- the "magazine" of this firearm consists of a longitudinally hinged open loading gate that holds the cartridge in place for feeding after the cartridge in the chamber has been fired and ejected.

Notes

Make

- "P. Beretta" is marked on the side and/or the underside of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Ultralight" is marked on the side and/or the underside of the receiver/frame. - this is a an over/under boxlock shotgun built by Beretta to minimize weight as much as possible. - features include: coin-finished and engraved aluminum-alloy receiver/frame (higher-grade versions have gold filled engravings); blued finish on barrels; walnut pistol grip stock with schnabel forearm; interchangeable choke tubes or fixed chokes; single trigger; tang mounted safety; and a ventilated rib on the barrel (the "Ultralight SR" version has a short or "Strada" type top rib and no side rib). - a version of this shotgun known as the "Ultralight SR" (Ultralight Short Range) is made for bird hunters who hunt in dense cover, and want as wide a shot pattern as possible; to this end, the lower barrel is rifled to spread the pattern out.
Manufacturer	- "P. Beretta" is marked on the side and/or the underside of the receiver/frame.
Action	- over/under barrel configuration.
Serial Number	- numbered on the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 145270
Make: Berezin
Model: B-20

Summary

Make:	Berezin
Model:	B-20
Manufacturer:	Russian State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145270 - 1	20X99R	N/A	970	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make may or may not be marked on the firearm.
Model	- the model is marked on the firearm. - this is a version of the Berezin aircraft machine gun manufactured as a 20mm cannon, firing the 20x99R ShVAK cartridge; this cannon saw use on many of the Russian fighters and ground-attack airplanes of the Second World War, after the much greater effectiveness of the 20mm chambering proved itself in combat. - as with the earlier ShVAK machine gun and cannon, changing the calibre of the Berezin from 12.7mm to 20mm was primarily a matter of changing the barrel from one to the other, and these cannon were produced in flexible, wing, and through-engine mounts. - features include: blued finish; open sights on flexible versions; under-barrel gas piston; thin rectangular receiver; a hinged top cover; a reciprocating bolt locked by a sideways-moving block; and various styles of firing and cocking controls, depending on whether the intended mounting is flexible or fixed.
Manufacturer	- the manufacturer or logo thereof is marked on the firearm.
Action	- gas operated.
Serial Number	- numbered on the receiver/frame.
Shots	- belt-fed.

Notes

Make

- "BERGARA" may be marked on the receiver/frame.

Model

- "APEX" is marked on the side of the receiver/frame.
- features include: tapered or fluted interchangeable rifled barrel; front hinged receiver/frame with trigger guard actuated break open mechanism; exposed centrally located hammer; single action adjustable trigger mechanism; black or camouflage finish synthetic forearm and ambidextrous pistol grip buttstock with rubber recoil pad; sling swivel studs; stainless or carbon steel finish.
- overall length with a 508mm (20") barrel is 894mm (35 1/4") and average weight is 2.9kgs (6.4lbs).

Manufacturer

- "BERGARA BARRELS" and "MADE IN SPAIN" may be marked on the barrel.
- "Bergara" was founded in 1969.
- "Bergara" is located in Bergara, Spain.
- "Bergara" is a manufacturer of barrels and rifles.
- "Bergara" products are distributed in North America by Bergara Barrels North America (Bergara USA), and Blackpowder Product Incorporated (BPI).
- "Bergara Barrels" were used on the CVA model Electra, Optima Elite and Optima Pro Thumbhole starting in 2007.
- "Bergara Barrels" were used on the CVA model Accura starting in 2008.
- "Bergara Barrels" were used on the CVA model Apex starting in 2009.

Action

- hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the underside of the receiver/frame ahead of the trigger guard.
- serial number may be marked on the barrel.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm serial numbering in 1995.
- Spanish system incorporated the code number of the gun maker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- serial number break down, the first two numbers (61) are the code numbers for the manufacture, the next two numbers (13) are the code numbers for muzzle loader, the next numbers are the serial number sequence, and the last two numbers (97) are the year of manufacture.

Other Markings

- "BERGARA BARRELS" and "MADE IN SPAIN" were observed marked on the right side of the barrel.
- "Bergara Barrels" are manufactured in Spain and distributed by BP Firearms, LLC of Norcross, GA, U.S.A.

Notes

Make

- "BERGARA" is marked on both side of the receiver/frame of the firearm.

Model

- "BA13" is marked on the firearm.
- this is a lightweight break-open single-shot rifle designed for hunting medium to large game, opened by pulling rearwards on a tang at the bottom of the trigger-guard.
- features include: top Picatinny blued or stainless steel finish tapered, fluted barrel with threaded muzzle; open adjustable sights with mounting rail for optics; walnut or synthetic forearm and stock (the synthetic stock may be seen in thumbhole configuration, and in black, or a variety of camouflage patterns/colours); sling studs; and external manually-cocked hammer.
- overall firearm length with 508mm (20") barrel is 900mm (35.5") and average weight is 2.7 kg (6 lbs).

Manufacturer

- "BERGARA" observed marked on the left side of the receiver/frame.
- "BERGARA BARRELS" and "MADE IN SPAIN" may be marked on the barrel.
- "Bergara" was founded in 1969.
- "Bergara" is located in Bergara, Spain.
- "Bergara" is a manufacturer of barrels and rifles.
- "Bergara" products are distributed in North America by Bergara Barrels North America (Bergara USA), and Blackpowder Product Incorporated (BPI).

Action

- break-open single-shot.

Serial Number

- numbered on the receiver/frame.

Calibre

- calibre is marked on the barrel.

Notes

Make

- "BERGARA" was observed marked on the left side of the receiver/frame.
- "BERGARA BARRELS" and "MADE IN SPAIN" may be marked on the barrel.
- "Bergara" was founded in 1969.
- "Bergara" is located in Bergara, Spain.
- "Bergara" is a manufacturer of barrels and rifles.
- "Bergara" products are distributed in North America by Bergara Barrels North America (Bergara USA), and Blackpowder Product Incorporated (BPI).

Model

- the model is marked on the firearm.
- this is an unusual style of modular bolt-action rifle which can be assembled with different bolt-heads, barrels, and magazines to give hunters a wide range of possible options for medium to large game.
- features include: blued finish; open adjustable "battue"-style ramp sights or no open sights, each with a receiver-mount Picatinny rail for scope mounts; a two-piece checkered walnut or synthetic stock, available in black or camouflage finishes (the forearm removes to allow barrel changes); sling swivel studs; adjustable trigger; detachable box magazine; sliding safety to the right of the cocking piece; and rubber butt pad.
- this firearm is able to be converted from one calibre to another by using an Allen wrench to remove and replace the barrels and bolt-heads, and by using the appropriate magazine.

Manufacturer

- "BERGARA" was observed marked on the left side of the receiver/frame.
- "BERGARA BARRELS" and "MADE IN SPAIN" may be marked on the barrel.
- "Bergara" was founded in 1969.
- "Bergara" is located in Bergara, Spain.
- "Bergara" is a manufacturer of barrels and rifles.
- "Bergara" products are distributed in North America by Bergara Barrels North America (Bergara USA), and Blackpowder Product Incorporated (BPI).

Serial Number

- numbered on the receiver/frame.

Shots

- detachable box magazine.
- magazines for non-belted cases have a capacity of 3+1, while magazines for belted magnums have a capacity of 2+1.

Notes

Make - "BERGARA" may be marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "SCOUT" observed marked on the both sides of the receiver/frame.
- features observed: fixed fiber optic front sight and an adjustable rear sight; round, rifled barrel with a Picatinny rail; front hinged receiver/frame with a trigger guard actuated break open mechanism; exposed centrally located hammer; synthetic forearm and full length pistol grip buttstock or thumbhole buttstock with raised cheek piece and rubber recoil pad; sling swivel studs.
- overall length with a 508 mm (20") barrel is 914 mm (36"), and the average weight is 2.64 kgs (5.8 lbs).

Manufacturer

- "BERGARA BARRELS" and "MADE IN SPAIN" may be marked on the barrel.
- "Bergara" was founded in 1969.
- "Bergara" is located in Bergara, Spain.
- "Bergara" is a manufacturer of barrels and rifles.
- "Bergara" products are distributed in North America by Bergara Barrels North America (Bergara USA), and Blackpowder Product Incorporated (BPI).
- "Bergara Barrels" were used on the CVA model Electra, Optima Elite and Optima Pro Thumbhole starting in 2007.
- "Bergara Barrels" were used on the CVA model Accura starting in 2008.
- "Bergara Barrels" were used on the CVA model Apex starting in 2009.

Action

- hinged barrel design.

Serial Number

- serial number is marked on the underside of the receiver/frame ahead of the trigger guard.
- serial number may be marked on the barrel.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- serial number break down, the first two numbers (61) are the code numbers for the manufacture, the next two numbers (13) are the code numbers for muzzle loader, the next numbers are the serial number sequence, and the last two numbers (97) are the year of manufacture.

Notes

Make

- make is not marked on the firearm.
- the Bergmann trade mark (a miner, hiker, or mountain dweller) may be marked in an oval on the right side of the receiver/frame; some pistols are also seen with a large "B" on the grips.
- Theodore Bergmann (1850-1931) was an entrepreneur who produced everything from gas stoves and lanterns to automobiles; in the firearms line, he is best known for being the patentee and driving force behind several designs of semi-automatic pistols (most of which were based on a patent originally owned by Otto Brauswetter, then subsequently improved by Louis Schmeisser, an employee of Bergmann's). Though Bergmann's designs never really proved effective or popular, they were later incorporated into the Bergmann-Bayard line of handguns.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model is not marked on the firearm. - manufactured from 1894 to 1896. - the 1894 was the first of a series of pistols known as "Bergmanns", and this series would later evolve into the Bergmann-Bayard line of handguns. - these pistols all had fixed magazines with pivoting covers that retracted a magazine follower lever; shooters could drop in either single rounds or a five-round clip, and then close the cover. This would free the follower to force the rounds up into the feeding position. - the 1894 can be distinguished from later Bergmanns by the location and angle of the magazine follower spring housing; the 1894 has this housing parallel to the barrel, while later Bergmanns have this housing sharply angled down towards the butt. - 1894 Bergmanns also have bird's-head grips with swiveling lanyard rings.
Manufacturer	- "V.C.S. SUHL" or V.C. Schilling Suhl" may be marked on the right side of the receiver/frame.
Action	- blowback operated.
Serial Number	- may or may not be serial numbered.
Shots	- internal magazine with pivoting cover; loaded with loose rounds or pre-loaded clips.
Remarks	- this was a short lived prototype pistol designed by Louis Schmeisser and marketed by Schmeisser's employer, Theodore Bergmann; though this pistol aroused considerable interest at the time (and even saw military trials in Switzerland), the mechanism was prone to jams and used under-powered ammunition. Extraction and ejection in these pistols was problematic, as Bergmann/Schmeisser depended on residual gas pressure in the bore and chamber to blow an empty case out of the chamber, where it would bounce off the next round and (hopefully) out of the pistol; early ammunition for these pistols did not even have extractor grooves, and the pistols were made entirely without an extractor or other method of removing a round from the chamber.

FRT Report

Firearm Reference Number (FRN): 17001
Make: Bergmann
Model: 1896

Summary

Make:	Bergmann
Model:	1896
Manufacturer:	Schilling, V C
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
17001 - 2	5MM BERGMANN NO 2 M96	5	80	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	
17001 - 1	6.5MM BERGMANN NO 3 M96	5	114	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	
17001 - 3	8MM BERGMANN NO 4	5	100	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Theodore Bergmann (1850-1931) was an entrepreneur who produced everything from gas stoves and lanterns to automobiles; in the firearms line, he is best known for being the patentee and driving force behind several designs of semi-automatic pistols (most of which were based on a patent originally owned by Otto Brauswetter, then subsequently improved by Louis Schmeisser, an employee of Bergmann's). Though Bergmann's designs never really proved effective or popular, they were later incorporated into the Bergmann-Bayard line of handguns.
- the Bergmann trade mark (a miner, hiker, or mountain dweller) may be marked in an oval on the right side of the receiver/frame; some pistols are also seen with a large "B" on the grips.

Model

- model designation is not marked on the firearm; this entry identifies the earliest of two forms of Bergmann 1896 pistols produced. This record is for 1896's without an extractor; 1896's with an extractor are correctly known as the 1896 New Model.
- the magazine quickly identifies this firearm as all variants of the M1896 have two diagonal slots cut in the cover. The magazine cover swings forward for loading, allowing a five round clip of cartridges to be dropped into place.
- the original 5MM calibre pistol was designated the "M1896 No. 2", the 6.5MM pistol was designated "M1896 No. 3", and the 8MM pistol was designated the M1896 No. 4"; these pistols could be ordered with special barrel lengths, factory engraving, folding triggers, or even detachable shoulder stocks.
- the above had rimless-grooveless cases and and used retained gas to eject the cases. These did not work well and a conventional rimless cartridge with a groove was adopted and a extractor added (1896 "neuer Art", or "New Model"). About five hundred 5MM and nine hundred 6MM old style pistols were manufactured.
- because of the low power of this pistol and its chamberings, the military contract that Bergmann was hoping for did not materialize; he had Schmeisser re-design the pistol somewhat (into a locked-breech design), and had a new version built for a more powerful cartidge to compete with the then new C96 Mauser. This new pistol is known as the 1897, and has a bolt which swings sideways to lock into the side of the receiver/frame.
- Bergmann made custom order firearms in customer specified calibers, barrel lengths, set or folding triggers and sights.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "V.C.S. SUHL" or V.C. Schilling Suhl" may be marked on the right side of the receiver/frame.
Action	- direct blowback.
Serial Number	- serial number is located on the receiver/frame.
Barrel	- non standard and custom order barrel lengths common in this pistol.
Calibre	- rimless grooveless cartridge.
Shots	- internal magazine with pivoting cover; loaded with loose rounds or pre-loaded clips.

Notes

Make

- Theodore Bergmann (1850-1931) was an entrepreneur who produced everything from gas stoves and lanterns to automobiles; in the firearms line, he is best known for being the patentee and driving force behind several designs of semi-automatic pistols (most of which were based on a patent originally owned by Otto Brauswetter, then subsequently improved by Louis Schmeisser, an employee of Bergmann's). Though Bergmann's designs never really proved effective or popular, they were later incorporated into the Bergmann-Bayard line of handguns.
- the Bergmann trade mark (a miner, hiker, or mountain dweller) may be marked in an oval on the right side of the receiver/frame; some pistols are also seen with a large "B" on the grips.

Model

- no model name is marked on this firearm.
- manufactured 1897 to very early 1900's.
- pistol design was protected by German patent 98,318 of 1897 and British patent 17,251 of 1897.
- this is a re-designed M1896 Bergmann that uses a side-swinging bolt to lock into the receiver; this was done in order to chamber the pistol for a more powerful cartridge, and thereby, compete with the C96 Mauser.
- the M1897 is distinguished from earlier Bergmanns by the fact that it has a detachable box magazine that can be loaded with stripper clips and has a piece of spring steel running in a slot along the right side of the receiver; this spring forms part of the locking mechanism.
- to handle the increased pressures of the 7.8mm Bergmann round , Louis Schmeisser adapted the M1896 into a short-recoil locked-breech design that locks the bolt-head into lugs on the left side of the receiver.
- only approximately 800 of these pistols were made, as the shortcomings of this design were still too great to be a commercial or military success.
- several of the known existing specimens came complete with detachable holster/shoulder stocks, and adjustable sights graduated to 1000 meters
- Bergmann made custom order guns in customer specified calibers, barrel lengths, set or folding triggers, and sights.

Manufacturer

- "V.C.S. SUHL" or V.C. Schilling Suhl" may be marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- short recoil-operated.
Serial Number	- numbered on the right side of the receiver/frame.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- normally marked on the top of the magazine housing, markings read "Brevet Bergmann" and is the only identifying markings on the firearm.
- may also be known as Swiss Machine Gun.

Model

- features include; ventilated barrel shroud, half length stock, tubular receiver and side mounted magazine.
- model designation does not appear on the firearm.
- introduced in 1920, produced until 1927, in 1930 a modified version was offered redesignated as the model 1930. The major modifications were a forward mounted grip and the magazine fed from the right side. This model was not very successful and was dropped, being replaced by the model MKMO.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the top of the receiver, samples examined used sequential numbers. - serial number may also be marked on the magazine housing and other componants.
Shots	- detachable box magazine.

Notes

Make

- "THEODOR BERGMANN . GAGGENAU" over "WAFFENFABRIK SUHL CAL. 6.35 D.R.P.a." is usually marked on the left side of the slide.
- "MADE in GERMANY" is usually marked on the right side of the slide.
- "BERGMANN" is usually marked on the grip plates.

Model

- this is one of two variations of a small pocket pistol that Bergmann produced; the first was based on Wytold Chylewski's patent for a pistol that could be cocked and fired with one hand (the design that eventually became the Lignose "Einhand"), while this, the second was based largely on the FN-Browning 1906. Bergmann made and sold two variations of this pistol; the Model 2 (with a six shot magazine), and the Model 3 (with a nine shot magazine); in neither case was the actual model designation marked on the firearm.
- this is a single-action, semi-automatic pistol (striker-fired), with a rotating safety lever at the left rear of the pistol, a heel-clip magazine release, and a sighting groove running the length of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "THEODOR BERGMANN . GAGGENAU" over "WAFFENFABRIK SUHL CAL. 6.35 D.R.P.a." is usually marked on the left side of the slide. - "BERGMANN" is usually marked on the grip plates. - Theodore Bergmann (1850-1931) was an entrepreneur who produced everything from gas stoves and lanterns to automobiles; in the firearms line, he is best known for being the patentee and driving force behind several designs of semi-automatic pistols (most of which were based on a patent originally owned by Otto Brauswetter, then subsequently improved by Louis Schmeisser, an employee of Bergmann). Though Bergmann's designs never really proved effective or popular, they were later incorporated into the Bergmann-Bayard line of handguns.
Action	- blowback operated.
Serial Number	- serial number is marke on the receiver/frame, inside the magazine well, and may be repeated on other major component parts.
Shots	- detachable box magazine.

Notes

Make

- not marked on the firearm.

Model

- development of this model began in 1916, the first units produced for testing were designated "MP18" (Maschinenpistole 18), after slight modifications were made the weapon re-designated and put into production as the "MP18/1".
- this model is generally regarded as being the first true submachine gun.
- features include; ventilated barrel shroud, half length stock, and a tubular receiver/frame.
- the original design featured a swept back magazine housing for the Luger "snail drum" magazine, when the design was modified to accept a straight box magazine designed by Hugo Schmeisser the old housing was removed and replaced with a new, straight housing by the firm of C G Haenel.
- when World War I ended, the treaty of Versailles forbade the use of the model "MP18/1" by the German military. Some local police forces were allowed to use this weapon and marked them with the date of issue (usually 1920).
- further development of the "MP18/1" led to the model "MP 28/II.

Manufacturer

- manufacturers full name is Theodor Bergmann Waffenbau AG, located in the Suhl region of Germany.

Action

- blow-back operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- this model originally used the snail drum magazine (holding 32 cartridges) used in the Luger Artillery pistol, a small adapter was placed over mouth of the magazine to locate it at the correct distance to feed the ammunition. The snail drum was not found to feed reliably so a conventional straight box magazine was developed (20 or 32 cartridge capacity) later in the production run.

Canadian Law Comments

- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

Notes

Make

- marked on the firearm.

Model

- development of this model began in 1916, with the first weapons being delivered in 1918.
- model designation normally appears on the magazine housing as "M.P. 18,I" or "M.P. 18.I"
- this model is generally regarded as being the first true submachine gun.
- features include; ventilated barrel shroud, half length stock, and a tubular receiver/frame.
- the original design featured a swept back magazine housing for the Luger "snail drum" magazine, when the design was modified to accept a straight box magazine designed by Hugo Schmeisser the old housing was removed and replaced with a new, straight housing by the firm of C G Haenel.
- when World War One ended the treaty of Versailles forbade the use of this model by the German military. Some local police forces were allowed to use this weapon and marked them with the date of issue(usually 1920).
- further development led to the model "MP 28/II.

Manufacturer

- manufacturers full name is Theodor Bergmann Waffenbau AG, located in the Suhl region of Germany.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the top of the receiver, samples examined used sequential numbers.
- serial number may also be marked on the magazine housing and other componants.

Shots

- detachable box magazine.
- this model originally used the snail drum magazine (holding 32 cartridges) used in the Luger Artillery pistol, a small adapter was placed over mouth of the magazine to locate it at the correct distance to feed the ammunition. The snail drum was not found to feed reliably so a conventional straight box magazine was developed (20 or 32 cartridge capacity) later in the production run.

Notes

Make

- not marked on the firearm.

Model

- manufactured from 1928 to 1938.
- model designation is marked on top of the chamber as "MP 28 II".
- development of this model began in 1916, the first units produced for testing were designated "MP18" (Maschinenpistole 18), after slight modifications were made the weapon re-designated and put into production as the "MP18/1", further development of the "MP18/1" led to the model "MP 28/II.
- features include; ventilated barrel shroud, half length stock, tangent rear sight, selector mechanism, and a tubular receiver/frame.
- the original design (MP18 and MP18/1) featured a swept back magazine housing for the Luger "snail drum" magazine, when the design was modified to accept a straight box magazine designed by Hugo Schmeisser the old housing was removed and replaced with a new, straight housing by the firm of C G Haenel.

Manufacturer

- manufacturers full name is Theodor Bergmann Waffenbau AG, located in the Suhl region of Germany.
- "C.G.HAENEL WAFFENFABRIK SUHL" may be marked on the top of the magazine housing, this is the manufacturer of the conversion housing, not of the firearm.

Action

- blowback operated.

Shots

- detachable box magazine.
- the magazine housing on this model accepts the Schmeisser designed single position feed magazine, the magazine collar will usually be marked "System Schmeisser Patent".

- development of this model began in 1916, the first units produced for testing were designated "MP18" (Maschinenpistole 18), after slight modifications were made the weapon re-designated and put into production as the "MP18/1", further development of the "MP18/1" led to the model "MP 28/II.
- features include; ventilated barrel shroud, half length stock, tangent rear sight, selector mechanism, and a tubular receiver/frame.
- the original design (MP18 and MP18/1) featured a swept back magazine housing for the Luger "snail drum" magazine, when the design was modified to accept a straight box magazine designed by Hugo Schmeisser the old housing was removed and replaced with a new, straight housing by the firm of C G Haenel.

Manufacturer

- manufacturers full name is Theodor Bergmann Waffenbau AG, located in the Suhl region of Germany.
- "C.G.HAENEL WAFFENFABRIK SUHL" may be marked on the top of the magazine housing, this is the manufacturer of the conversion housing, not of the firearm.

Action

- no longer capable of full automatic fire.

Shots

- detachable box magazine.
- the magazine housing on this model accepts the Schmeisser designed single position feed magazine, the magazine collar will usually be marked "System Schmeisser Patent".

Notes

Make

- make may be marked on the firearm.

Model

- "MP. 35/I" is marked on the left side of the receiver/frame.
- production began in late 1940 and ended in 1945 with reported production of less than 40,000.
- the initial development of this model began in 1916, the first units produced for testing were designated "MP18" (Maschinenpistole 18), after slight modifications were made the weapon re-designated and put into production as the "MP18/1", further development of the "MP18/1" led to the models "MP28/II", "MP34", "MP34/1", MP35, and finally the "MP35/1".
- features include; ventilated barrel shroud, half length stock, tangent rear sight, selector mechanism, and a tubular receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's name is normally marked on the firearm. - later wartime production used the factory code "ajf".
Action	- no longer capable of full automatic fire.
Serial Number	- serial number is marked on the left side of the receiver/frame.
Shots	- detachable box magazine located on the right side.
Other Markings	- this model was used during the Spanish Civil War and was purchased by Ethiopia, therefore, specimens may be found with the Ethiopian Sun Lion crest on the receiver/frame.

96335 - 2	8MM BERGMANN-SIMPLEX	5	66	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
96335 - 1	8MM BERGMANN-SIMPLEX	5	74	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Theodore Bergmann (1850-1931) was an entrepreneur who produced everything from gas stoves and lanterns to automobiles; in the firearms line, he is best known for being the patentee and driving force behind several designs of semi-automatic pistols (most of which were based on a patent originally owned by Otto Brauswetter, then subsequently improved by Louis Schmeisser, an employee of Bergmann's). Though Bergmann's designs never really proved effective or popular, they were later incorporated into the Bergmann-Bayard line of handguns.

Model

- this is a simplified version of the Bergmann M1897, built to try to attract interest as a "pocket pistol"; this pistol has a detachable box magazine in front of the trigger-guard (which cannot be loaded via stripper clips), and reverts to a low-powered round and simple blowback operation.
- "SIMPLEX" is marked on the pistol grips (some references refer to "Simplex" as a tradename).
- this pistol was produced by V.C. Schilling in Suhl, Germany from 1901 until 1904, but the rights were then sold to an unknown Belgian company, who continued production until 1914.
- German-made examples can be distinguished by the fact that the barrel and receiver/frame were made as a one-piece unit (another strong indicator would be German proof marks on the firearm); Belgian examples were produced with barrels that screwed into the receiver/frame, and will bear Belgian proofs.

Manufacturer

- early examples of this pistol were manufactured by V.C. Schilling in Suhl, Germany, but later production was moved to Belgium.

Action

- direct blowback operated.

Serial Number

- serial number is located on the bottom of the butt.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

122050 - 1	36 PERCUSSION	1	1067	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "J. F. Bergmann" is marked on the barrel.

Model

- no model name is marked on this firearm.
- this is a reproduction of a Pennsylvania-style, muzzle loading, percussion rifle.
- features include: brass furniture; under-barrel rammer; patch box on the right side of the buttstock; octagonal barrel; three quarter length hardwood stock; set trigger.

Manufacturer

- "J. F. Bergmann" is marked on the barrel.
- "John F. Bergmann" is a US manufacturer of custom muzzle loading firearms circa 2004.

Action

- muzzle loading, percussion ignition.

Serial Number

- the serial number should be marked on the underside of the barrel.
- observed serial number had four sequential numbers without prefix or suffix.

15859 - 1	12 GA X 2 3/4"	1	654	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "BERGSLAGSBOSSAN FILIPSTAD SWEDEN" is marked on the bottom of the receiver/frame.

Model

- the model is not marked on the firearm.
- this is an unusual form of pump-action shotgun manufactured in Filipstad, Sweden, during the 1960's.
- this shotgun was intended for use by hunters who carried one shell in the chamber with a second shell in an internal box magazine below the bolt, which can be loaded when the action is open.
- features include: stainless-steel construction; screw-on choke tubes; sling swivels; smooth hardwood forearm and pistol-grip stock; top-loading and ejection; a tipping bolt that locks against the top of the receiver/frame; cross-bolt safety above the trigger; stainless-steel grip-gap with a rosetta pattern resembling six hammers around a central screw.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- internal one-shot box magazine, loaded from the top through the ejection-port.

Notes

Make

- "V. BERNARDELLI GARDONE V.T. - MADE IN ITALY" may be marked on the left side of the barrel.

Model

- introduced in 1989.
- this is a standard-pattern side by side boxlock shotgun, available in several grades of fit and finish, ranging from a plain model with extractors, double triggers and no engraving, to a fully-engraved version with customer's choice of single or double triggers, ejectors, interchangeable screw-in choke tubes and available in various magnum gauges.

Manufacturer

- "V. Bernardelli" may be marked on the side of the receiver/frame.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- located on the receiver/frame.

Other Markings

- the Bernardelli logo consists of a swan sitting on an inverted triangle containing the letters "V B" over "G" (Vincenzo Bernardelli, Gardone).

Remarks

- Letter suffixes following the model designation are defined as:
"E" - equipped with ejectors.
"EM"- equipped with ejectors and a single trigger.
"M"- equipped with a single trigger.
"MC"- magnum guage with removable chokes.
"WF"- waterfowl version.
