Notes

Make

- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- the model name may or may not be marked on the firearm; the "8" in the model name refers to the octagonal/eight-sided barrel.
- this is a new (2015) version of the Cimarron "Frontier" revolver, made as part of the "Eliminator" series, with a short-throw hammer and custom action-smoothing job, produced for Cimarron by Pietta. These revolvers are popular amongst cowboy action shooters.
- features include: blued barrel and grip-frame; fixed open sights; octagonal barrel; colour-case-hardened receiver/frame; fluted cylinder; wide hammer; and checkered walnut grips.
- other revolvers in the "Eliminator" series include the "Eliminator C" (Competition), with a round barrel, and the "Eliminator TS" (Thunderstorm), in both blued and stainless finish, with either standard or bird's-head-style grips.

Manufacturer

- manufacturers's name or "FAP" logo is normally marked on the receiver/frame or barrel.

Action

- single-action revolver.

Serial Number

- serial-numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "Cimarron Fredericksburg, Texas" may be marked on the barrel.
- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- this is a modern reproduction of a compact Single Action Army that was made without an ejector-rod housing;
- to unload or eject fired cases, the cylinder has to be removed, and then the cylinder pin can be used to push the rounds or cases out of the cylinder one at a time.
- features include: colour case hardened frame; blued barrel, cylinder, and grip frame, and walnut grip panels.

Manufacturer

- manufacturer's name or logo may be marked on the firearm.

Action

- single-action revolver.

Serial Number

- serial number will be found on the receiver/frame.

- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- introduced in 1996.
- "MODEL P" may be marked on the top of the barrel.
- "P" is based on the original Colt model 1873 Single Action Army revolver.
- features include: quarter moon front with receiver/frame notched rear sight; round barrel; solid frame revolver; fluted cylinder; right side loading gate; spurred hammer; single action trigger mechanism; wood or synthetic ivory grips; may have a case hardened receiver/frame with washed blued parts or original finish.
- "Man With no Name" variant is available in 45 COLT with a barrel length of 121mm (4.75") or 140mm (5.5"), case hardened receiver/frame and inletted wood grip panels.
- "Hand of God" and "Holy Smoker" variants are in 45 COLT with a barrel length of 121mm (4.75"), case hardened receiver/frame and one piece, cross inletted walnut grips.
- "Rooster Shooter" version is available in 45 COLT, 44 WCF, and .357/.38 SPL calibers with a 121mm (4.75") barrel in an original finish and grooved pearl/ivory grips.

Manufacturer

- "MADE IN ITALY", Italian proofmarks, the Uberti name, "AU" or "A" within an octagon may be marked on the firearm.

Serial Number

- serial number rationalization unknown.
- the serial number will usually be marked on the underside of the receiver/frame ahead of the trigger guard.

Calibre

- calibre is marked on the barrel.

Notes

Make

- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- model designation is not marked on the firearm.
- manufactured in 2000 and 2001 and reintroduced in 2004
- this model is a smaller version (80% full size) of the "Colt 1873 Single Action Army".
- the receiver/frame is based on the post 1890 Colt Single Action Army model that features a half moon ejector rod head and a left side mounted spring loaded cylinder pin release button.
- also available in a dual cylinder version in 32 H&R MAG and 32-20 WIN calibres.
- a "Black Stallion" variant was introduced in 2010 that features dual 22LR/22MAG cylinders, 121mm (4.75") barrel, brass trigger guard and a blued finish.
- features include: half round shaped fixed front sight with receiver/frame notched rear sight; straight round barrel; ejector rod under the barrel; solid top receiver/frame; fluted cylinder; loading gate located on the right side; exposed spur hammer; wood grip; colour case-hardened receiver/frame and blued or antique nickel finish.

Manufacturer

- manufacturer's name or logo may be marked on the firearm.

Action

- single action.

Serial Number

- serial number is marked on the underside of the receiver/frame in front of the trigger guard, and on one example consisted of a "J" prefix followed by a series of numbers.

Calibre

- calibre identification is marked on the barrel and/or accessory cylinder.
- available in dual cylinder versions in 32 H&R MAG and 32-20 WIN calibres and in 22LR and 22MAG calibres.

Notes

Make

- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this is a reproduction of the model known as the "New Model Army" originally manufactured from 1863 to 1888 by Remington.
- the original was also referred to as the "1858" or "New Army".
- may be marked "New Model Army".
- features include: solid receiver/frame revolver with a fixed cylinder; single action trigger mechanism; tapered octagonal barrel; fixed sights; walnut stock; brass trigger guard and backstrap.
- available with a blued, charcoal or "original" (this finish makes the gun look as though it has seen several years service) antique finish and case-hardened receiver/frame or in stainless steel.
- metallic cartridge center fire conversion variant introduced in 2006.

Manufacturer

- manufacturer's name or logo may be marked on the firearm.

Serial Number

- serial number rationalization is unknown.
- serial number is marked on the butt of the grip frame.

Notes

Make

- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- introduced to the Cimarron line-up in 2004.
- according to Cimarron literature, this model is intended to replicate Billy Dixon's rifle of choice (Cimarron also markets two versions of the "Sharps 1874 Rifle" to commemorate Billy Dixon) . Billy Dixon is famous for shooting an Indian off his horse at an estimated range of one mile during an encounter on June 27, 1874, that has since become known as the "Battle of Adobe Walls".
- features include: case-hardened receiver/frame; blued barrel; hand checkered walnut stock and forend with a German silver nose cap; double set triggers; hooded front sight with a barrel mounted buckhorn type rear sight, a tang mounted Creedmore sight is available as an option.

Manufacturer

- Davide Pedersoli's trademark "dp" within an oval, "Davide Pedersoli & C.", "Pedersoli", "Pedersoli - Italy", or a variation thereof is marked on the firearm.

Action

- rolling block action.

Serial Number

- usually numbered on the receiver/frame, rationalization unknown.

Calibre

- calibre designation is marked on the barrel.

Make	- Cimarron Fire Arms is an importer, distributor and retailer established in 1987. - Cimarron Fire Arms was originally known as the Old-West Gun Company. - Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.
Model	- introduced in 2005. - this is Cimarron's reproduction of the Colt 1873 Single Action Army revolver. The "Evil Roy" designation refers to the Single Action Shooting Society (S.A.S.S.) world champion cowboy action shooter who competes under the alias "Evil Roy" that helped design this particular version. - the bottom of the grip-frame and/or the barrel bears a facsimile of Evil Roy's signature. - features include: carbon steel or stainless steel construction; blade front sight and wide grove/notch in the top strap for a rear sight; round rifled barrel with ejector rod assembly; solid top colour case-hardened or stainless steel receiver/frame with removable fluted cylinder and right side loading gate; exposed spur hammer; tuned single action trigger mechanism with lightened trigger and hammer springs; steel trigger guard and grip-frame; checkered or smooth slim grips; matte blue or stainless finish.
Manufacturer	- the manufacturer's name and/or logo will usually be marked on the firearm.
Serial Number	- serial number is marked on the underside of the receiver/frame ahead of the trigger guard. - serial number rationalization is unknown. - observed serial number consisted of a letter "P" prefix and five numbers.
Calibre	- the calibre designation is usually marked on the barrel.
Other Markings	- the receiver/frame, barrel and/or cylinder will usually bear Italian proof marks.

Notes

Make

- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- model designation is not marked on the firearm.
- this is a copy of one of the guns used by Clint Eastwood in "The Man With No Name" series of westerns made by Sergio Leone during the 1960's.
- this firearm is based on a reproduction of a Colt model 1873 Single Action Army revolver.
- features include: blade front sight and a groove and notch in the top strap for a rear sight; blued round rifled barrel with right side ejector rod assembly; colour case-hardened solid top receiver/frame with removable blued fluted cylinder and right side loading gate; exposed spur hammer; single action trigger mechanism; one piece walnut grip with inlayed silver rattle snake.

Manufacturer

- manufacturer's name or logo may be marked on the firearm.

Serial Number

- serial number rationalization unknown.
- serial number is usually marked on the underside of the receiver/frame ahead of the trigger guard.
- observed serial number consisted of a letter prefix and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre may be marked on the cylinder or the barrel.

Notes

Make

- "Cimarron Fredericksburg, Texas" may be marked on the barrel.
- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- introduced in 1994.
- model designation is not marked on the firearm.
- the "Thunderer" is based on the Colt model 1873 Single Action Army revolver design, but has been given a Colt model 1877 Double Action type grip profile.
- utilizes the old model features that include a screw in cylinder pin retainer and a circular "bullseye" ejector head.
- features include: single action trigger mechanism; right side loading gate; birdshead grip profile with smooth or checkered wood panels; case-hardened receiver/frame and blued cylinder/barrel or nickel finish; under-barrel mounted ejector rod; fixed front sight and topstrap rear sight.
- referred to by Cimarron as "the gun Sam Colt should have made."

Manufacturer

- manufacturer's name or logo may be marked on the firearm.

Serial Number

- serial number is marked on the receiver/frame.
- serial number of an observed example consisted of a letter prefix and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre designation is marked on the barrel and/or accessory cylinder.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
135318 - 1	45 COLT	6	89	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "CIMARRON" may be marked on the barrel.
- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- introduced in 2008.
- "Doc Holliday" is engraved in script on the backstrap.
- inspired by the movie "Tombstone".
- "Thunderer" is not marked on the firearm.
- this firearm is based on the Colt model 1873 Single Action Army design, but features a Colt 1877 Double Action type grip profile.
- features include: quarter round shaped fixed front sight with receiver/frame notched rear sight; straight round barrel; under-barrel mounted ejector rod; right side loading gate; single action trigger mechanism; birdshead grip; nickel finish.

Manufacturer

- "MADE IN ITALY", Italian proof marks, the Uberti name, "AU" or "U" within an octagon may be marked on the firearm.

Serial Number

- serial number rationalization unknown.
- the serial number will usually be marked on the underside of the receiver/frame ahead of the trigger guard.

Calibre

- calibre identification is marked on the barrel and/or accessory cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- introduced in 2002.
- model designation is not marked on the firearm.
- this firearm is based on the Colt model 1873 Single Action Army revolver that featured an extra long barrel and was allegedly ordered by the "dime" novel author Ned Buntline for Wyatt Earp and his lawmen associates after the famous battle at the OK Corral in Tombstone, Arizona on April 8, 1878.
- features include: blade front sight and groove and notch in the top strap for a rear sight; solid top receiver/frame with fluted cylinder and right side mounted swing-out loading gate; exposed spur hammer; single action trigger mechanism; walnut grip panels with an engraved right side mounted silver shield marked "WYATT EARP / PEACEMAKER / From the Grateful People of Dodge City / Apr. 1878 8th"; blued and color case hardened or "original" antique finish.

Manufacturer

- manufacturer's name and logo may be marked on the firearm.

Serial Number

- serial number rationalization is unknown.
- serial number is usually marked on the underside of the receiver/frame in front of the trigger guard.
- observed serial number consisted of a letter "E" prefix and five numbers.

Calibre

- calibre designation is normally marked on the side of the barrel.

Shots

- removable cylinder.

Firearm Reference Number (FRN): 127943
Make: Cimarron Fire Arms
Model: Spencer 1860 Reproduction

Summary

Make:	Cimarron Fire Arms
Model:	Spencer 1860 Reproduction
Manufacturer:	Chiappa
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Lever Action
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127943 - 1	56-50 SPENCER CF	7	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- model designation may not be marked on the firearm.
- this is a reproduction of the "Spencer 1860" rifle. It has the same action as the "Spencer 1865 Carbine".
- the original was one of the first truly practical repeating long-arms designed to use metallic cartridges, and has an important place in history as being one of the most widely used and effective firearms during the US Civil War.
- features include: a distinctly shaped lever and receiver/frame (the lever forms a large trigger-guard, and pivots around a pin in the bottom of a very large "hump" at the bottom of the receiver/frame); blade-type extractor on the left side of the chamber, and a hammer mounted on a side-plate on the right side; straight-grip walnut stock with slightly curved butt plate, a full-length American walnut forearm with two or three barrel bands; American walnut buttstock; blade front and adjustable rear sight; case-hardened receiver/frame, hammer and sling swivels.

Action

- lever operated repeating firearm.

Serial Number

- the serial number is usually marked on the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Shots

- tubular magazine is mounted inside the buttstock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- introduced in 2005.
- this is a reproduction of the "Spencer 1865" carbine/rifle.
- the original was the second generation of one of the first truly practical repeating long-arms designed to use metallic cartridges, and has an important place in history as being one of the most widely used and effective firearms during the US Civil War.
- features include: an unmistakeably shaped lever and receiver/frame (the lever forms a large trigger-guard, and pivots around a pin in the bottom of a very large "hump" at the bottom of the receiver/frame), blade-type extractor on the left side of the chamber, and a hammer mounted on a side-plate on the right side, straight-grip walnut stock with slightly curved buttplate, used either a short forearm with one barrel band (carbine), or a full-length forearm with two or three barrel bands. American walnut buttstock and fore-end, blade front sight, adjustable rear sight, case-hardened receiver/frame, and swivels.

Action

- lever actuated repeating firearm.

Serial Number

- the serial number is marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the barrel.
Shots	- tubular magazine is mounted inside the buttstock.

- model designation is not marked on the firearm.
- production limited to 2000 units for each of the five companies (C, E, F, I, and L) that were at the battle at the Little Big Horn.
- this is based on the original military contract for the 1873 Colt Single Action Army revolver.
- this utilizes the old model receiver/frame with features that include a screw in cylinder pin retainer and a circular "bullseye" ejector head.
- features include: blued, charcoal or "original" antique finish; single action trigger mechanism; colour case hardened receiver/frame; walnut grip panels.

Manufacturer

- manufacturer's name or logo may be marked on the firearm.

Serial Number

- serial number rationalization unknown.
- the serial number will usually be marked on the underside of the receiver/frame ahead of the trigger guard.

Other Markings

- marked with the "OWA" inspection cartouche within a border on the bottom of the left grip panel.
- a two line patent date and "U.S." are marked on the left side of the receiver/frame.
- company and 7th Cavalry markings are present on the butt of the backstrap.

Notes

Make

- "Cimarron Fire Arms" is an importer, distributor and retailer established in 1987.
- "CIMARRON'S REPEATING ARMS" is marked on top of the barrel.

Model

- Based on the "Winchester Model 1866" design, introduced in 1866.
- "MOD. 66 CARBINE" is marked on the top tang of the receiver/frame.
- "MOD. 66 CARBINE" was nickname "Yellow Boy" due to its distinctive brass receiver/frame.

Manufacturer

- "A. UBERTI" is marked on the lower tang of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the underside of the receiver/frame.
Calibre	- The calibre designation is marked on the barrel.
Shots	- Fixed tubular magazine.
Other Markings	- "MANUFACTURED IN ITALY FOR CIMARRON F.A. FREDERICKSBURG,TEXAS" on top of barrel.
Remarks	- This is a carbine-length modern reproduction of Winchester's 1866 Sporting Rifle, commonly called the "Yellowboy" because of its brass receiver. This rifle has a brass butt-plate in addition to the receiver, and has a round barrel with two barrel bands instead of the octagonal barrel of the rifle version. Uncheckered walnut stock and forend; this rifle differs from the 1866 Yellowboy Carbine in that it is meant to reproduce an "Indian"-style rifle, with brass tacks hammered into the stock in various patterns, and it has a "photo-engraved" pattern on the brass receiver.

Notes

Make

- Cimarron Fire Arms is an importer, distributor and retailer established in 1987.
- Cimarron Fire Arms was originally known as the Old-West Gun Company.
- Cimarron Fire Arms was originally located in Houston, Texas and is now located in Fredericksburg, Texas, U.S.A.

Model

- model designation is marked on the top tang of the receiver/frame as "Model 1873" or "1873".
- introduced in 1988.
- this is a modern reproduction of the Winchester Model 1873 lever action rifle.
- features include: colour case hardened receiver/frame with blued or "original" (this finish makes the gun look as though it has seen several years service) antique finish; tapered round, octagonal or half round & half octagon barrel; plain or checkered walnut, straight or pistol grip buttstock and forend; blade front and adjustable open rear sight.
- available in a "Long Range", "Long Range Deluxe", "Short Rifle", "Saddle Ring Carbine", "Trapper", "Border" or "Texas Brush Popper" version.

Manufacturer

- manufacturer's name or logo may be marked on the firearm.

Serial Number

- marked on the receiver/frame.

Calibre

- marked on the barrel.

Shots

- tubular magazine, mounted under the barrel.

Other Markings

Notes

Make

- may or may not be marked on the firearm.

Model

- "THE DE LISLE COMMANDO CARBINE MK II" may be marked on the integral sound suppressor or dummy suppressor.
- this firearm is built on the receiver/frame of a Lee-Enfield, No 1 MK III.
- features include: rifled barrel with or without a sound suppressor and fixed front and rear sights; single trigger mechanism; magazine release toggle inside trigger guard; solid or folding buttstock; sling swivels; original Lee-Enfield furnishings, ex: brass butt plate.
- sporter: overall firearm length with a 457mm (18") barrel is 660mm (26").
- paratrooper version: overall firearm length with a 208mm (8.18") barrel is 660mm (26"), with stock folded.

Manufacturer

- manufacturer is not marked on the firearm.
- the original manufacturer's marking "B.S.A. Co" remains present on the right side of the butt socket.
- CinArm Defence is a Canadian company that specializes in manufacturing/supplying movie firearms/props, including silencing or integrated muffling devices.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number may be marked on the receiver/frame. - serial number rationalization is not known. - note: serial number not to be confused by "No. 1033" which may be marked on the firearm followed by "PAT. PEND.".
Calibre	- calibre may be marked on the firearm.
Shots	- detachable box magazine. - this firearm uses a Colt 1911-A1 handgun style magazine.
Canadian Law Comments	- as it left the factory, this firearm is equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed the firearm is correctly identified as a "Non-Restricted" firearm.

Notes

Make

- "CK" and "ARMS" are marked on the right side of the receiver/frame.
- "CKA" is marked on the right side of the receiver/frame, as the serial number prefix.
- "CKA" is also the abbreviation for "CK Arms".
- "CK ARMS" over "CAMILLA, GA" is marked on the underside of the receiver/frame.

Model

- model designation is not marked on the firearm.
- LDC uses the modular design of the 2011 series.
- LDC differs from the traditional 1911A1 design whereby the grip/trigger guard are not integral to the receiver/frame.
- LDC is sold as a frame kit.
- features include: carbon steel receiver/frame only; will fit any 1911 barrel and slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "CK Arms" is located in Camilla, Georgia, U.S.A. - "CK Arms" was formed by Matt Cheely of Cheely Custom Gunworks and Bobby Keigans of Freedom Gunworks.
Action	- recoil operated.
Serial Number	- serial number is marked on the right side of the receiver/frame. - serial number observed consisted of a three letter "CKA" prefix, a space, and four numbers.
Calibre	- calibre designation is marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine. - use STI double stack magazine.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
84937 - 2	20 GA X 2 3/4"	1	762	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
84937 - 3	8 GA	1	845	Antique AFR, Section 1, para. 5	Non-Commercial Customization	

Notes

Make

- "CLABROUGH & JOHNSTONE MAKERS BIRMINGHAM ENGLAND" may be marked on the top of the barrel.
- some models may also be marked: "San Francisco, California."

Model

- model designation is not marked on the firearm.
- this is a generic entry for those Clabrough & Johnstone single barrel shotguns that are not identifiable as to model.
- features may vary greatly.
- this type of firearm would have been made circa late 1870's to the early 1900's.

Manufacturer

- "CLABROUGH & JOHNSTONE MAKERS BIRMINGHAM ENGLAND" may be marked on top of the barrel.
- some models may also be marked: "San Francisco, California."
- Clabrough & Johnstone were one of the early partners of J.P. Clabrough & Bros circa 1872-1883.
- Note: in the early years of the firm's existence, variations in the spelling of the name "Clabrough" as "Claborough" have been noted.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make	- "J. P. Clabrough & Bros.", "Clabrough & Bro.", "J.P. Clabrough & Bros. England" or "J. P. Clabrough Bros - Makers - Birmingham" may be marked on the firearm.
Model	- model designation is not marked on the firearm. - features include: Damascus or fluid steel barrels in side by side configuration; front hinged receiver/frame with top tang mounted break open lever with or without a sliding safety; double triggers; sidelock or boxlock design; hammer or hammerless; extractors or automatic ejectors; plain or engraved; English style (straight) buttstock or semi-pistol grip stock.
Manufacturer	- "J. P. Clabrough & Bros.", "Clabrough & Bro.", "J.P. Clabrough & Bros. England" or "J. P. Clabrough Bros - Makers - Birmingham" may be marked on the firearm.
Action	- side by side configuration.
Serial Number	- serialization unknown; observed examples have had four or five digit numbers without prefix or suffix marked on the action flats of the receiver/frame. - Clabrough actions may also be marked, "Makers Patent Action 257764" on the action flats; the number 257764 is a US registered patent number issued in 1882 to J.P. Clabrough; it is frequently mistaken as being a serial number.
Other Markings	- known example was marked on the top rear of the left barrel with, "Special Diamond Steel".

Notes

Make

- "CLARK" is marked on the side lock or on the barrel.
- "LONDON" is marked on the top of the barrel.
- there were a number of "Clark" gun makers with addresses in London, England, however, none of these businesses existed past circa 1874.
- Clark (circa 1800); made flintlock pistols; located at Marlow, Buckingham.
- Clark (1785-1840); shop in Holborn, London; made flintlock muskets, double barrel flintlock holster pistols, flintlock sporting rifles; also made a combination flintlock/percussion pistol that could be altered to fire either form of ignition in the field.
- Clark, Charles (1854-1874); had shops in London and Cambridge, England; made percussion pocket pistols, naval percussion pistols and percussion sporting rifles.
- Clark, Watell (1790-1813); addresses at; 133 High Holborn and 43 High Holborn.

Model

- the model designation is not marked on the firearm.
- this firearm would have been manufactured circa 1840's to circa 1860's.
- features include: front bead sight, smooth bore percussion, half round half octagonal barrel or round or octagonal barrel, full or half length stock.

Action

- muzzle loading, percussion ignition.

Calibre

- the calibre designation may appear on the firearm.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- the word "LONDON" may appear on the firearm.

Firearm Reference Number (FRN): 22212
Make: Clark & Sherrard
Model: Colt Dragoon Type

Summary

Make:	Clark & Sherrard
Model:	Colt Dragoon Type
Manufacturer:	Clark & Sherrard
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
22212 - 1	44 PERCUSSION	6	191	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "CLARK, SHERRARD & Co" over "LANCASTER TEXAS" was observed marked on the barrel.
- "TEXAS ARMS" was observed marked on the cylinder.

Model

- model designation is not marked on the firearm.
- Tucker & Sheppard (Tucker, Sheppard & Company) entered into a contract with the State of Texas in 1862 to provide 1,500 Colt Type .36 percussion revolvers and 1,500 Colt Type .44 percussion calibre revolvers. Due to shortage of manpower and material Tucker & Sherrard was not able to complete the contact. After the end of conflict, Clark & Sherrard (Clark, Sherrard & Company) assembled, finished and sold the Colt Dragoon Type .44 percussion calibre revolver.
- manufactured/assembled from 1865 to 1867.
- this model resembles the Colt produced model 1848 Dragoon.
- features include: fixed sights; blued round to octagonal Dragoon type barrel with no loading aperture on the right side of the barrel lug; case-hardened open top receiver/frame with blued round non-fluted cylinder; exposed spur hammer; single action trigger mechanism; brass square back or round trigger-guard; brass grip frame; one piece walnut grips.

Manufacturer

- Clark & Sherrard (Clark, Sherrard & Company) was located in Lancaster, Texas circa 1865 to 1867.
- Clark & Sherrard (Clark, Sherrard & Company) was the successors to Tucker & Sherrard (Tucker, Sherrard & Company).

Summary

Make:	Clark Custom Guns
Model:	11-87
Manufacturer:	Clark Custom Guns/Remington
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
46706 - 1	12 GA X 3"	4	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
46706 - 2	12 GA X 3"	10	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- Clark Custom Guns is a manufacturer/large-scale customizer based in Princeton, Louisiana, that performs custom work on Springfield, Colt, Norinco, Essex, SVI, Smith & Wesson, Para-Ordnance, STI, Caspian, and Ruger handguns, and on Ruger rifles and Remington shotguns. They will supply a factory new firearm with their custom work done on it, or they will perform their custom work on a customer supplied firearm.
Model	- this is a stock Remington model 11-87 semi-automatic shotgun that has been customized by Clark Custom specifically for use in "combat" style or PPC slug-gun matches. - custom refinements include an action reliability tuning, trigger work, lengthened forcing cone to reduce recoil, and an enlarged loading gate, to reduce loading time. - these shotguns can also be ordered with long eye relief scopes, speed-loader accessories, and magazine extension tubes.
Manufacturer	- Clark Custom builds these shotguns on stock Remington 11-87 Special Purpose shotguns, and then marks these shotguns as having been customized by them.
Action	- gas operated.
Serial Number	- the serial number is marked on the receiver/frame.
Barrel	- other barrel lengths and styles available, eg. rifled slug or other length of shot barrel.
Calibre	- other chamber lengths available.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- Fixed tubular magazine.
Canadian Law Comments	- the magazine capacity of this firearm is subject to the "Former Cartridge Magazine Control Regulations". - the maximum legal magazine capacity for this firearm is five (5) cartridges.

Notes

Make

- Clark Custom Guns is a manufacturer/large-scale customizer based in Princeton, Louisiana, that performs custom work on Springfield, Colt, Norinco, Essex, SVI, Smith & Wesson, Para-Ordnance, STI, Caspian, and Ruger handguns, and on Ruger rifles and Remington shotguns. They will supply a factory-new firearm with their custom work done on it, or they will perform their custom work on a customer supplied firearm.

Model

- model designation is marked on the right side of the receiver/frame above the trigger.
- this is a Smith & Wesson Model 41 target pistol that has been customized by Clark Custom.
- custom refinements include a trigger job, reliability tuning and a new match-grade barrel in one of three configurations (the Standard, with open adjustable high-visibility target sights, the STC, with an integral scope-mounting rib running the length of the barrel, or the Bullseye Optic, with an extended integral scope-mounting rail that extends back over the top of the slide).

Manufacturer

- Clark markings, as well as the original Smith & Wesson manufacturer markings are located on the right side of the receiver/frame.
- Clark builds these firearms on a stock Smith & Wesson model 41 and marks the firearm as having been customized by them.

Action

- blowback operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Shots

- detachable box magazine housed in the grip.

46645 - 1	38 SPL	6	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- ""Clark" CUSTOM" is marked on the barrel.
- Clark Custom Guns is a manufacturer, large-scale customizer based in Princeton, Louisiana, that performs custom work on Springfield, Colt, Norinco, Essex, SVI, Smith & Wesson, Para-Ordnance, STI, Caspian, and Ruger handguns, and on Ruger rifles and Remington shotguns. They will supply a factory-new firearm with their custom work done on it, or they will perform their custom work on a firearm that a customer sends them.

Model

- model designation may be marked on the firearm.
- this is a standard Smith & Wesson double-action revolver that has been customized by Clark Custom specifically for PPC or NRA Action competition.
- these revolvers have several custom refinements, including a heavy slab-sided Douglas match barrel, a full-length Bo-Mar sight rib with adjustable target sights, and an "accuracy guarantee", certifying that these revolvers will shoot a maximum of a 3-inch ten-shot group at 50 yards.

Manufacturer

- Clark markings, as well as, the original Smith & Wesson manufacturer markings will appear on the firearm.
- Clark Custom builds these firearms on a standard Smith & Wesson 38 Special or .357 Magnum double-action revolver (eg. Model 10, Model 14, Model 19, etc.), and marks the barrel as having been customized by them.

Action

- single-action/double-action revolver.

Serial Number

- serial number is marked on the receiver/frame.

Calibre

- almost always, a 357 Magnum revolver modified for PPC shooting will have a 38 Special cylinder installed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

FRT Report

Firearm Reference Number (FRN): 50096
Make: Clark Custom Guns
Model: Long Heavy Slide

Summary

Make:	Clark Custom Guns
Model:	Long Heavy Slide
Manufacturer:	Clark Custom Guns/Colt
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
50096 - 3	38 SPL	6	152	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	
50096 - 2	45 AUTO	7	152	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Clark" is marked on the side of the slide.
- Clark Custom Guns is a manufacturer & large-scale customizer based in Princeton, Louisiana, that performs custom work on Springfield, Colt, Norinco, Essex, SVI, Smith & Wesson, Para-Ordnance, STI, Caspian, and Ruger handguns, and on Ruger rifles and Remington shotguns. They will supply a factory-new firearm with their custom work done on it, or they will perform their custom work on a firearm that a customer sends them.

Model

- "Long Heavy Slide" is marked on the left side of the slide.
- this is a "long-slide" 1911 semi-automatic pistol that has been customized for bullseye or NRA Centerfire pistol shooting; several custom refinements have been added to this pistol for improved accuracy, including a full-length Bo-mar sight rib, match-grade barrels, adjustable target sights, a tuned trigger-pull, and a complete reliability tuning, to minimize jams.
- these pistols come with an "accuracy guarantee", which certifies that they will fire a 10-shot 2.5-inch group at 50 yards from a Ransom rest.

Manufacturer

- unless a customer sends their personal firearm to Clark for customization or orders a specific manufacturer, Clark Custom will build these firearms on a Colt frame; Clark only marks the slide as having been customized by them.

Action

- recoil-operated.

Serial Number

- on frame.

Shots

- detachable box magazine.

Model:	Percussion Derringer
Manufacturer:	Deringer, H
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
146406 - 1	45 PERCUSSION	1	64	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "F. H. CLARK & CO" is marked on the barrel.
- "F. H. Clark & Company" was located in Memphis, Tennessee, U.S.A.

Model

- manufactured prior to 1869.
- model designation is not marked on the firearm.
- this is a single-shot pocket pistol manufactured by Henry Deringer (after whom "derringers" were named), and retailed by F.H. Clark & Co., of Memphis, Tennessee, U.S.A.
- this is a single-shot percussion pocket pistol of the type popularized by Henry Deringer, with a short barrel, large calibre, and bird's-head walnut stock.
- features include: blued octagonal barrel with "DERINGER" and "F.H. CLARK" markings; fixed sights; German silver mountings; manually-cocked hammer on a back-action lock, with the lock engraved "H. DERINGER"; and checkered walnut bird's-head grip.

Manufacturer

- "DERINGER" is marked on the barrel and lockplate.
- Henry Deringer (Senior) was located in Richmond, Virginia, U.S.A. prior to 1769, Philadephia, Pennsylvania from 1769 to 1814 and also in Easton, Pennsylvania from 1786 to 1798.
- Henry Deringer (Junior) was the son and the successor to Henry Deringer (Senior) was born in 1786 and died in 1868.
- Henry Deringer (Junior) was located in Richmond, Virginia from 1807 to 1808, and Philadelphia, Pennsylvania from 1808 to 1868.
- Henry Deringer (Junior) developed a short rifled barrel percussion pistol in a heavy caliber which became later known as the "Derringer" in 1831.
- in some instances the Deringer factory marked the name and address of the store or the agent for whom the firearm was manufactured along the top of the barrel.

Action

- muzzle loader.

Notes

Make

- "Classic Doubles" is marked on both sides of the receiver/frame.
- "Classic Doubles" was a tradename imported and distributed by "Classic Doubles International, Incorporated" of St. Lois, MO, U.S.A.
- "Classic Doubles" trademark was manufactured in Tochigi City, Japan until 1988.
- "Classic Doubles International" was set up to market "Classic" style shotguns in the United States of America, after Winchester stopped sales of the model 101 and model 23 shotgun.
- "Classic Doubles International, Inc.", American arm of this company folded, but it still has a European branch located in Italy.

Model

- "Classic Doubles" may be marked on both sides of the receiver/frame.
- "M92" may be marked on the underside of the receiver/frame.
- "Lady Spectrum" may be marked on the trigger guard.
- features include: blued round over & under smoothbore barrels with ventilated top rib, red blade front sight and screw in choke tubes; front hinged receiver/frame with top tang mounted break open lever and safety; satin nickel finished box lock action; hammerless; automatic extractors/ejectors; single selective adjustable trigger; checkered walnut forearm with schnabel forend tip and pistol grip buttstock with rubber recoil pad.
- overall length with a 711 mm barrel is 1140 mm, and average weight is 3.3 kgs.

Manufacturer

- manufacturer's name or logo is marked on the firearm.

Action

- over & under barrel configuration, hinged barrel design.

Serial Number

- serial number is usually marked on the upper tang of the receiver/frame, under the break open lever.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel - these barrel lengths are given in the European lengths, as these shotguns are intended primarily for the European market.

Make

- "Classic" over "Doubles" is usually marked on the underside of the receiver/frame.
- "Classic Doubles" was a tradename imported and distributed by "Classic Doubles International, Incorporated" of St. Lois, MO, U.S.A.
- "Classic Doubles" trademark was manufactured in Tochigi City, Japan until 1988.
- "Classic Doubles International" was set up to market "Classic" style shotguns in the United States of America, after Winchester stopped sales of the model 101 and model 23 shotgun.

Model

- This was a copy of the Winchester Model 101, made specifically for shooting Sporting Clays, with ventilated-rib barrels, interchangeable choke tubes, checkered walnut stock and forend, and moderate border engraving on the coin-finished receiver.

Action

- over/under pattern.

Notes

Make

- "Clement Arms" or "Clement Arms Co." may be marked on the top strap.
- Charles Ph. Clements company logo of interlocking back to back "C"s may be marked on the receiver/frame and/or grip plates.
- "Clement Arms Co." and "J.B. Clement" were tradenames imported and sold by Powell & Clement located in Cincinnati, Ohio between 1891 and 1903.
- "Clement Arms Co." was manufactured by Charles Ph. Clement of Liege, Belgium.

Model

- "The Baby" may be marked on the top strap.
- double action, solid frame, folding trigger, fluted cylinder.
- hinged loading gate on right side of standing breech.
- hinged ejector rod is housed within the cylinder axis pin and swings to the right for ejection of spent casings.
- known example was nickel plated.

Manufacturer

- manufacturer's name is not marked on the firearm.
- Charles Ph. Clements company logo of interlocking back to back "C"s may be marked on the receiver/frame and/or grip plates.
- Charles Philibert Clement was a Belgium manufacture located in Liege from 1886 to 1913.
- Charles Ph. Clement business was purchased by Neuman Freres et Cie in 1913.

Serial Number

- serial number marked under the grip plate and may consist of five digits with or without a prefix.

17373 - 7	44 WEBLEY	5	67	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Clement Arms" or "Clement Arms Co." may be marked on the barrel.
- "Clement Arms Co." and "J.B. Clement" were tradenames imported and sold by Powell & Clement located in Cincinnati, Ohio between 1891 and 1903.
- "Clement Arms Co." was manufactured by Charles Ph. Clement of Liege, Belgium.

Model

- "BRITISH" and "BULL-DOG" are marked on the topstrap.
- manufactured between 1886 and 1913.
- features on the sample examined included: ovate barrel with half-moon front sight ; solid top receiver/frame with removable fluted cylinder, ejector rod/cylinder axis pin mounted on the front, channel milled into the topstrap for a rear sight and loading gate mounted on the right side; exposed spur hammer; single/double action trigger mechanism; checkered grip plates; nickel finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Clement Arms" or "Clement Arms Co." may be marked on the barrel. - Charles Ph. Clements company logo of interlocking back to back "C"s may be marked on the receiver/frame and/or grip plates. - Charles Philibert Clement was a Belgium manufacture located in Liege from 1886 to 1913. - Charles Ph. Clement business was purchased by Neuman Freres et Cie in 1913.
Serial Number	- one example examined had a serial number stamped on the backstrap. - serial number note: two known examples have had the number "14" stamped upside down on the front right side of the the receiver/frame; the significance of this number is unknown, however, it is not considered to be a serial number.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- sample examined also bore Belgian proofmarks on the rear of the cylinder. - a Belgian proofmark of "ELG*" within an oval is a good indication that a firearm was made prior to July, 1893. In July of 1893 a crown was added to the top of the oval which encircles "ELG*".

38110 - 1	6.35MM	7	69	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
38110 - 3	7.65MM	6	95	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make - marked with "CHARLES PH. CLEMENT" over "LIEGE", "CLEMENT'S PATENT", and/or the Clement grip logo of two back-to-back "C"s.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "1903" is not marked on the firearm; this is the year this particular model was patented. - this is one of a series of pocket pistols designed and manufactured by Charles Clement, many of which differ only slightly from one another, and which are generally marked "CLEMENT'S PATENT"; care must be taken to identify them properly, usually by reference to physical or mechanical features. DO NOT CONFUSE WITH THE SIMILAR MODELS 1907, 1908, and 1909. - the Clement 1903 was built in two distinct frame sizes, one for 7.65mm/32 Auto, and one for 5mm Clement and 6.35mm/25 Auto; both somewhat resemble the Browning 1900, with a raised hump at the rear of the pistol, but with square cocking knobs on the sides of the bolt, protruding through slots in the sides of the pistol. Additionally, the smaller-calibre 5mm and 6.35mm/25 pistols have a mainspring housing above the barrel (strengthening their resemblance to the Browning 1900), but the above-barrel rib on the 7.65/32 pistols is narrowed out and scalloped on both sides. Where the 7.65/32 pistols have a single large retaining screw at the rear of the pistol (passing through both sides of overhanging "cheeks" on the barrel assembly, below the bolt) the 5mm/6.35/25 pistols have two smaller retaining screws at the top rear of the pistol, above the bolt. - features include: blued finish; generalized Browning 1900 appearance; fixed open slot and blade sights; single-action trigger mechanism with an internal striker; factory black synthetic grips with a back-to-back "CC" logo; left side knurled rotating safety; and a checkered magazine-release button in the backstrap of the pistol.
Manufacturer	- usually marked with "CHARLES PH. CLEMENT" over "LIEGE", "CLEMENT'S PATENT", and/or the Clement grip logo of two back-to-back "C"s.
Action	- blow-back operation.
Serial Number	- early firearms may not be numbered. - usually numbered on the left receiver/frame above the trigger, on the right side of the breechblock (visible through the ejection port), and the top barrel housing above the ejection port.
Calibre	- usually not marked with cartridge designation.
Shots	- detachable box magazine.
Other Markings	- this firearm bears Belgian Proof and Inspection marks (Liege), on the receiver/frame, barrel, breech-block, and barrel housing.
Remarks	- Points of Distinction: - the 1903 model has five or six vertical serrations on both charging ears of the breech-block, which is a separate part from both receiver/frame and barrel housing. - on the model 1907, the vertically serrated charging grips are on both sides of the entire exposed length of the breech-block, which is a separate part from both receiver/frame and barrel housing, handgrip frame tapered. - the model of 1908 is a refinement of the 1907, the vertically serrated charging grips are on both sides of the entire exposed length of the breech-block, which is a separate part from both receiver/frame and barrel housing; and the frame at the thumb-web is cut deeper (parallel side handgrip frame). - the model 1909 has a top housing which combines barrel housing with the barrel, the long rectangular grip-panels on both sides of the breech-block are vertical/horizontal checkered; and the frame at the thumb-web is cut deeper (parallel side handgrip frame). - the model 1912 is similar to the FN-Browning 1906, but without a grip-safety: the early model has the barrel front retained by a collar which is fastened to the frame by a screw; the later version is very much like the Browning 1906.

Notes

Make

- marked on the left side of the frame above the handgrip: - AUTOMATIC PISTOL CLEMENT'S PATENT -
- marked with "CLEMENT'S PATENT", and/or the Clement grip logo of two back-to-back "C"s.

Model

- "1907" is not marked on the firearm; this is the year this particular model was patented.
- this is one of a series of pocket pistols designed and manufactured by Charles Clement, many of which differ only slightly from one another, and which are generally marked "CLEMENT'S PATENT"; care must be taken to identify them properly, usually by reference to physical or mechanical features. DO NOT CONFUSE WITH THE SIMILAR MODELS 1903, 1908, and 1909.
- the Clement 1907 was built in two distinct frame sizes, one for 7.65mm/32 Auto, and one for 6.35mm/25 Auto; both somewhat resemble the Browning 1900, with a flute on the barrel assembly separating the barrel from the mainspring housing.. Where the 6.35mm/25 pistols have a single retaining screw at the top rear of the pistol, the 7.65mm/32 pistols have two retaining screws in a line at the top rear of the pistol, above the bolt.
- features include: blued finish; generalized Browning 1900 appearance; fixed open slot and blade sights; single-action trigger mechanism with an internal striker; factory black synthetic grips with a back-to-back "CC" logo; left side knurled rotating safety; vertically-grooved bolt sides, to allow a better grip when cocking the pistol; and a checkered magazine-release button in the backstrap of the pistol.
- all 1907-pattern Clements were fitted with black synthetic grips having a flat top, inlaid into the frame to reduce the width of the pistols; these grips (or the recessed grip-frame to accept them) are the primary identification feature for the 1907. The 6.35mm/25 Auto versions of this pistol strongly resemble the Clement 1908, but the 1908 has rounded-top grip plates screwed to the sides of the grip-frame, instead of having flat-topped recessed grips.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- designed and manufactured by Charles Ph. Clement, Liege Belgium. - marked with "CLEMENT'S PATENT", and/or the Clement grip logo of two back-to-back "C"s.
Action	- blow-back operation.
Serial Number	- generally ranging below 6000 - usually marked on the left side; on the receiver/frame above the trigger, the left side of the recoil-spring/barrel housing, and the forward left edge of the breech-block.
Calibre	- usually not marked with cartridge designation. - manufactured in 7.65mm (32ACP/.32 Automatic) and 6.35mm (25ACP/.25 Automatic) as two different size pistols.
Shots	- detachable box magazine.
Other Markings	- left side of firearm marked: AUTOMATIC PISTOL CLEMENT'S PATENT - this firearm bears Belgian Proof and Inspection marks (Liege), on the frame, barrel, breech-block, and barrel housing.
Remarks	- the 1903 model has five or six vertical serrations on both charging ears of the breech-block, which is a separate part from both frame and barrel housing. - on the model 1907, the long rectangular vertically serrated charging grips are on both sides of the exposed length of the breech-block, which is a separate part from both frame and barrel housing, handgrip frame tapered. - the model of 1908 is a refinement of the 1907, the vertically serrated charging grips are on both sides of the entire exposed length of the breech-block, which is a separate part from both frame and barrel housing; and the frame at the thumb-web is cut deeper (parallel side handgrip frame). - the model 1909 has a top housing which combines barrel housing with the barrel, the long rectangular grip-panels on both sides of the breech-block are vertical/horizontal checkered; and the frame at the thumb-web is cut deeper (parallel side handgrip frame). - the model 1912 is similar to the FN-Browning 1906, but without a grip-safety: the early model has the barrel front retained by a collar which is fastened to the frame by a screw; the later version is very much like the Browning 1906.

Notes

Make

- the make "AUTOMATIC PISTOL CLEMENT'S PATENT" is marked on the left side of the firearm.

Model

- "1908" is not marked on the firearm; this is the year this particular model was patented.
- this is one of a series of pocket pistols designed and manufactured by Charles Clement, many of which differ only slightly from one another, and which are generally marked "CLEMENT'S PATENT"; care must be taken to identify them properly, usually by reference to physical or mechanical features. DO NOT CONFUSE WITH THE SIMILAR MODELS 1903, 1907, and 1909.
- the Clement 1908 was built only in 6.35mm/25 Auto, somewhat resembling a miniaturized Browning 1900, with a flute on the barrel assembly separating the barrel from the mainspring housing.. These 6.35mm/25 pistols have a single retaining screw at the top rear of the pistol.
- features include: blued finish; miniature Browning 1900 appearance; fixed open slot and blade sights; single-action trigger mechanism with an internal striker; factory black synthetic grips with a back-to-back "CC" logo; left side knurled rotating safety; vertically-grooved bolt sides, to allow a better grip when cocking the pistol; and a checkered magazine-release button in the left side of the butt of the pistol.
- the magazine release is one of the primary identification features of this pistol, because it was the first of the Clement series to use a button-style release on the left side of the butt; later pistols in the series continued using a magazine release in this location, but also have a swing-out tab partially concealed under the left grip, that releases the mainspring housing to lift up and out of the backstrap. Otherwise, these pistols strongly resemble the 6.35mm/25 Auto versions of the Clement 1907, but have rounded-top grips screwed to the flat sides of the grip frame, instead of having flat-topped recessed grips.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blow back operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame above the trigger guard.
Shots	- detachable box magazine.
Other Markings	- "BELGIUM" is marked on the right side of the receiver/frame.
Remarks	- POINTS OF DISTINCTION: - the 1903 model has five or six vertical serrations on both charging ears of the breech-block, which is a separate part from both frame and barrel housing. - on the model 1907, the vertically serrated charging grips are on both sides of the entire exposed length of the breech-block, which is a separate part from both frame and barrel housing, handgrip frame tapered. - the model of 1908 is a refinement of the 1907, the vertically serrated charging grips are on both sides of the entire exposed length of the breech-block, which is a separate part from both frame and barrel housing; and the frame at the thumb-web is cut deeper (parallel side handgrip frame). - the model 1909 has a top housing which combines barrel housing with the barrel, the long rectangular grip-panels on both sides of the breech-block are vertical/horizontal checkered; and the frame at the thumb-web is cut deeper (parallel side handgrip frame). - the model 1912 is similar to the FN-Browning 1906, but without a grip-safety: the early model has the barrel front retained by a collar which is fastened to the frame by a screw; the later version is very much like the Browning 1906.

Notes

Make - usually marked on the side of the recoil spring-barrel housing: AUTOMATIC PISTOL CLEMENT PATENT

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "1909" is not marked on the firearm; this is the year this particular model was patented. - this is one of a series of pocket pistols designed and manufactured by Charles Clement, many of which differ only slightly from one another, and which are generally marked "CLEMENT'S PATENT"; care must be taken to identify them properly, usually by reference to physical or mechanical features. DO NOT CONFUSE WITH THE SIMILAR MODELS 1903, 1907, and 1908. - the Clement 1909 represented a major design change in the Clement series of pistols, with a completely new style of takedown from the previous pistols in the series; where earlier pistols all had a solid trigger-guard and a bolt that had to be removed through the rear of the pistol after unscrewing one or more disassembly screws at the rear of the pistol, the 1909 series all have a drop-down trigger guard that rotates around a pin at the top front of the trigger-guard; this allows the barrel unit to tip up, freeing the bolt to be lifted out of the pistol. The 1909 also has a hinged backstrap that is retained in the rear of the grip by a rotating tab on the left side of the butt (partially concealed by the grip-plate), above the magazine-release button. - the Clement 1909 was built in two distinct frame sizes, one for 7.65mm/32 AUTO, and one for 6.35mm/25 AUTO; both somewhat resemble the Browning 1900, with a flute on the barrel assembly separating the barrel from the mainspring housing. Both of these pistols have a large screw through the middle of a hinge at the top rear of the pistol, a magazine-release button at the left side of the butt with a backstrap-release tab above the magazine-release; and a hinged trigger-guard that swings down from the top of the trigger-guard (opposite to the Walther PP/PPK take-down). - features include: blued finish; generalized Browning 1900 appearance; fixed open slot and blade sights; single-action trigger mechanism with an internal striker; factory black synthetic grips with a back-to-back "CC" logo; left side knurled rotating safety; (usually) cross-hatched bolt sides, to allow a better grip when cocking the pistol; and a checkered magazine-release button at the left side of the butt of the pistol, with a backstrap-release tab above the magazine-release.
Manufacturer	- usually marked on the side of the receiver/frame: CHARLES PH. CLEMENT LIEGE
Action	- blow back operation.
Serial Number	- usually numbered on the left side on the receiver/frame above the trigger, the forward left side of the breech-block, and on the left side of the barrel-housing.
Calibre	- usually not marked with cartridge designation.
Shots	- detachable box magazine.
Other Markings	- this firearm bears Belgian Proof and Inspection marks (Liege), on the receiver/frame, barrel, and slide.
Remarks	- POINTS OF DISTINCTION: - the 1903 model has five or six vertical serrations on both charging ears of the breech-block, which is a separate part from both frame and barrel housing. - on the model 1907, the vertically serrated charging grips are on both sides of the entire exposed length of the breech-block, which is a separate part from both frame and barrel housing, handgrip frame tapered. - the model of 1908 is a refinement of the 1907, the vertically serrated charging grips are on both sides of the entire exposed length of the breech-block, which is a separate part from both frame and barrel housing; and the frame at the thumb-web is cut deeper (parallel side handgrip frame). - the model 1909 has a top housing which combines barrel housing with the barrel, the long rectangular grip-panels on both sides of the breech-block are vertical/horizontal checkered; and the frame at the thumb-web is cut deeper (parallel side handgrip frame). - the model 1912 is similar to the FN-Browning 1906, but without a grip-safety: the early model has the barrel front retained by a collar which is fastened to the frame by a screw; the later version is very much like the Browning 1906.

Notes

Make

- "CLEMENT'S PATENT" may be marked on the firearm.
- Charles Ph. Clement trademark "CC" monogram may be marked on the grip plates.

Model

- "Modele 1912" is usually marked on the left side of the slide; this is the year this particular model was patented. Clement made THREE different models of the "1912", and care must be taken to identify them properly, usually by reference to physical or mechanical features.
- the Clement 1912 is a Browning 1906-pattern pocket pistol, manufactured without a grip safety, and representing a modified version of the earlier "1912 Fulgor", which had a lengthened "scoop" at the rear of the slide. This pistol should not be confused with the later "1912 Vest Pocket", which replaced the button-style magazine-release at the left rear of the butt with a Browning-style heel release.
- features include: blued finish; generalized Browning 1906 appearance; fixed open slot sights; single-action trigger mechanism with an internal striker; factory black synthetic grips with a back-to-back "CC" logo; left side knurled rotating safety; vertically-serrated slide sides, to allow a better grip when cocking the pistol; and a checkered magazine-release button at the left side of the butt of the pistol.

Manufacturer

- "CLEMENT'S PATENT" may be marked on the firearm.
- Charles Ph. Clement trademark "CC" monogram may be marked on the grip plates.

Notes

Make

- "CLEMENT'S PATENT" and/or "Modele 1912" may be marked on the firearm.
- Charles Ph. Clement trademark "CC" monogram may be marked on the grip plates.

Model

- "1912 Vest Pocket" is not marked on the firearm; this is the year this particular model was patented. Clement made THREE different models of the "1912", and care must be taken to identify them properly, usually by reference to physical or mechanical features. The "1912 Vest Pocket" is named as such to distinguish it from the other two versions of the Clement 1912, and is the version which most closely resembles the Browning 1906, with a heel magazine release.
- the Clement 1912 Vest Pocket is a pocket pistol manufactured without a grip safety, and with a heel magazine release, rather than the button magazine release at the left side of the butt, as seen on the other two versions of the 1912.
- features include: blued finish; generalized Browning 1906 appearance; fixed open slot sights; a single-action trigger mechanism with an internal striker; factory black synthetic grips with a back-to-back "CC" logo; left side knurled rotating safety; vertically-serrated slide sides, to allow a better grip when cocking the pistol; and a checkered magazine-release latch at the heel of the pistol.

Manufacturer

- "CLEMENT'S PATENT" and/or "Modele 1912" may be marked on the firearm.
- Charles Ph. Clement trademark "CC" monogram may be marked on the grip plates.

Action

- blowback operated.

Serial Number

- serial-numbered on the receiver/frame.

119200 - 3	8MM LEBEL REV	9	100	Antique AFR, Section 1, para. 7	Non-Commercial Customization	

Notes

Make	- make is marked on the top strap of the receiver/frame.
Model	- manufactured circa 1886 to 1914. - "BULLDOG TYPE" is not marked on the firearm. - features on examined sample include: fixed top strap receiver/frame, loaded or unloaded by activating the ejector rod at front of cylinder; chrome finish (blued finish may also have been available); folding trigger; fixed blade front sight and channel rear sight; hammer block sliding safety located behind the hammer on the receiver/frame.
Manufacturer	- observed revolver marked C. CLEMENT and LIEGE on receiver/frame.
Serial Number	- on examined specimen, the serial number was on the receiver/frame under the left grip panel.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- observed revolver marked C. CLEMENT and LIEGE as well as a Liege proof mark on the top of the receiver/frame.
- Belgian proofmarks of "ELG*" within an oval indicates that a firearm was made prior to July, 1893. In July of 1893 a crown was added to the top of the oval which encircles "ELG*". These proofmarks are frequently stamped on the rear of the cylinder.

Notes

Make

- "Charles Clement" name was not observed marked on the example, however, the top of both of the grip plates are marked with the firm's trademark symbol of stylized capital letters "C" intertwined in a back-to-back manner within a circle.

Model

- model name is not marked on the firearm.
- model designation is derived from the physical characteristics of the piece and also the historical fact that this type of handgun was used at one time by various police forces.
- "Constabulary" is a variation of the British Bulldog revolver.
- "Constabulary" is distinguished from the Bulldog revolver by a lanyard ring and metal endcap on the bottom of the grip frame.
- features include: solid top receiver/frame, usually with the barrel, frame and grip forged in one piece; usually double action trigger; rebounding centrally located hammer at rear of standing breech; fluted or plain cylinder; loading gate on right side of standing breech usually swings out to the right; folding trigger or trigger with guard; extended grip frame behind the hammer; may have rounded butt grip; usually steel buttcap with lanyard ring; ejector rod is housed within the cylinder axis pin and swings to the right to eject spent casings; usually an ovate or octagonal barrel; may have a safety device on the left side of the receiver/frame; blued or nickel plated finish; blade front sight with a grooved top strap for a rear sight; plastic grips with checkering.
- Belgian proofmarks are apparent on this firearm.

Manufacturer

- "Charles Clement" name was not observed marked on the example, however, the top of both of the grip plates are marked with the firm's trademark symbol of stylized capital letters "C" intertwined in a back-to-back manner within a circle.

Serial Number

- serial number was observed marked on the left side of the grip frame underneath the grip plate and on the rear of the cylinder.
- observed serial number consisted of two numbers without a letter prefix or suffix.
- observed serial number consisted of four numbers without a letter prefix or suffix;

Notes

Make - the "CC" monogram on grips is a Charles Clement trademark.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is not marked on firearm. - manufactured circa 1886 to 1914. - features may include: fixed sights; trigger guard, double action or single action; hinged frame/receiver; action release on topstrap; nickel or blued finish.
Manufacturer	- "CC" monogram on grips is a Charles Clement trademark.
Serial Number	- a serial number may be marked on the frame/receiver below the cylinder.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- Belgian proofmarks of "ELG*" within an oval indicates that a firearm was made prior to July, 1893. In July of 1893 a crown was added to the top of the oval which encircles "ELG*". These proofmarks are frequently stamped on the back of the cylinder.

Notes

Model

- manufactured from 1973 to 1975.
- should be marked on the right side of the receiver/frame just above the trigger. It should read "CLERKE 1st" in a banner.
- firearm appears to have a one-piece die-cast alloy receiver/frame and barrel shroud with a rifled steel barrel liner.
- features a double action trigger mechanism with a swing out cylinder.

Manufacturer

- "Mfd by Clerke Technicorp, Santa Monica, California" is found marked in two lines on the right side of the receiver/frame above the trigger guard.

Serial Number

- serial number is usually found on the bottom of the butt.
- all samples observed have a six digit serial number.

Barrel

- factory literature references the barrel length as 57MM (2 1/4"), actual measurement of barrels on units examined was 52MM.

Notes

Make

- make marked on firearm as "Clerke" or some variation thereof.
- Clerke (known variously as "Clerke Technicorp", "Clerke Recreation Products", "Clerke Sporting Arms", and "Clerke Custom Gun Services"), was a manufacturer based in Santa Monica, California, during the late 1960s to mid-1970s. They manufactured a number of handguns, rifles, and shotguns.

Model

- this is a falling-block single shot shotgun based in large part on the Winchester 1885 design.
- walnut pistol-grip stock and forearm, color-case-hardened receiver, action lever on the right side of the frame/receiver, round or ventilated-rib barrel, automatic ejector.

Manufacturer

- manufacturer marked on firearm as "Clerke" or some variation thereof.
- Clerke (known variously as "Clerke Technicorp", "Clerke Recreation Products", "Clerke Sporting Arms", and "Clerke Custom Gun Services"), was a manufacturer based in Santa Monica, California, during the late 1960s to mid-1970s. They manufactured a number of handguns, rifles, and shotguns.

Action

- lever operated, falling/dropping block design.
- solid metal breechblock slides vertically in grooves cut into the receiver/frame.

Serial Number

- serial number is marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "CMC" is marked on the under-side of the firearm.
- "CMC" is the abbreviation for "Challanger Manufacturing Corporation".
- "Challanger" was both an importer and manufacture of blackpowder muzzle loading firearms from the early 1970s to 1988.

Model

- one piece brass receiver.
- brass spur trigger guard.
- comes with a brass ramrod mounted under barrel.
- there is a accessory knife kit that can be mounted to this firearm, known as the Cutlass Pistol Kit.
- is normally equipped with a smooth bore barrel, but a rifled barrel was avaliable as an option.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "CMC" is the abbreviation for "Challanger Manufacturing Corporation".
- "Challanger" was both an importer and manufacture of blackpowder muzzle loading firearms from the early 1970s to 1988.
- "Challanger Manufacturing Corporation" was a Division of Photo Manufacturing Corporation.
- "Challanger Manufacturing Corporation (CMC)" was originally located in Jamaica, New York and then at Mount Vernon, New York, U.S.A.

Serial Number

- sequential numbers with a letter suffix on observed samples.

Notes

Make

- "CMMG" stands for "Central Missouri Machine Gun".
- "CMMG" and the trademark logo are marked on the receiver/frame.
- "CMMG INC" over "FAYETTE, MO" and "USA" is marked on the left side of the receiver/frame .

Model

- "MK-4" is marked on left side of the receiver/frame.
- "MK-4" is also sold as a receiver/frame.
- "MK-4" variants are based on the Colt AR-15/M16 design.
- "MK-4" variants may use the standard AR-15/M16 direct gas system or a piston driven gas system.
- features include: threaded muzzle for flash hider/muzzle brake; round, standard or grooved, M4 carbine contoured barrel; standard, low profile or Picatinny rail front sight bracket/gas block; gas system may be piston operated; Picatinny rail, free floating or standard synthetic handguard; A2 fixed carrying handle or A3 Picatinny rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight; standard rifle or collapsible buttstock;; synthetic pistol grip; matte black or coloured finish.

Manufacturer

- "CMMG INC" over "FAYETTE, MO" and "USA" is marked on the left side of the receiver/frame .
- Central Missouri Machine Gun (CMMG) Inc. is located in Fayette, Missouri, U.S.A.
- "CMMG" is a family owned business incorporated in 2002.

Action

- blowback or gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number observed consisted of a three letter "SCM" prefix and six numbers.

Calibre

- "MULTI" is marked on the left side of the receiver/frame.
- calibre identification is marked on the barrel.
- 5.56MM NATO rifling characteristics: 1 turn in 9 inches, right hand twist.
- 300 AAC BLACKOUT rifling characteristics: 1 turn in 8 inches, right hand twist.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- "AR15 rifle" outline over "CMMG" was observed marked on the left side of the magazine housing of the receiver/frame.
- "CMMG INC" over "FAYETTE, MO" over "USA" was observed marked on the left side of the receiver/frame above the trigger.
- "CMMG" is an acronym for "Central Missouri Machine Gun".

Model

- "MK-9" over "9mm" over the serial number was observed marked on the left side of the magazine housing of the receiver/frame.
- "CMMG" over "PISTOL" over "ONLY" was observed marked on the right side of the magazine housing of the receiver/frame.
- introduced in 2009.
- design is based on the Colt produced M-16/AR-15 family.
- CMMG uses the same receiver/frame design for all of its AR-15 variants. Models are available in rifle, carbine, or pistol configuration.
- features include: forged upper and lower receiver/frame; black pistol grip and handguards; may have a carrying handle with an adjustable rear sight in "A2" configuration or a flattop upper assembly with integral accessory rail in "A4" configuration; chrome moly barrel; flash hider; and sling swivel on front sight mount.

Manufacturer

- "CMMG INC" over "FAYETTE, MO" over "USA" was observed marked on the left side of the receiver/frame above the trigger.
- Central Missouri Machine Gun (CMMG) Inc. is located in Fayette, Missouri, U.S.A.

Action

- Blowback operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a three letter "SMG" prefix, a dash (-) and four numbers.

Calibre

- "9mm" is marked on the left side of the receiver/frame.
- Calibre identification may also be marked on the barrel.
- 9MM LUGER rifling characteristics: 1 turn in 10 inches, right hand twist.

Shots

- Detachable box magazine.
- Compatible with Colt and Uzi sub-machine gun magazines.

- "CMMG" is a family owned business incorporated in 2002.

Model

- "MkG" is marked on the left side of the firearm.
- this is an "AR-15"-styled pistol-calibre carbine, designed to feed from Glock full-size 45 Auto pistol magazines; a similar carbine in 9mm Luger (the "MkGs") was likewise designed to feed from Glock full-size 9mm pistol magazines.
- these firearms use an unusual form of delayed-blowback operating mechanism, where the rear faces of the rotating bolt head are canted, so that recoil forces the bolt head to twist out of engagement before completing the recoil stroke.
- features include: matte black phosphate and anodized aluminium finish; various styles of muzzle brakes; full-length accessory rail on a ventilated forearm and flat-topo upper; bolt hold-open; left-side controls; slanted magazine well to accept Glock magazines; synthetic pistol-grip; and a telescoping buttstock on the buffer tube.

Manufacturer

- "CMMG" and a line drawing of an M4 Carbine is marked on the left side of the magazine well.
- "CMMG INC" over "BOONVILLE, MO" and "USA" is marked on the left side of the receiver/frame .
- "CMMG" is a family owned business incorporated in 2002.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- delayed blowback.
Serial Number	- serial-numbered on the left side of the magazine well.
Shots	- detachable box magazine. - this firearm uses Glock 45 Auto pistol magazines.

Notes

Make

- the make is marked on the firearm.

Model

- introduced in 2006.
- the model designation may not be marked on the firearm.
- this is a conventional turn bolt action rifle chambered for the 50 BMG cartridge; this rifle is based somewhat loosely on the AR-15 concept, with separate upper and lower receivers, and a manually-operated bolt handle located on the left side of the receiver/frame.
- features include: parkerized and hard anodized black finish, DuraCoat finish or camouflage finish available on special order; standard A2 style butt stock with pistol grip (other style available on special order); machined one piece T6-6061 aluminum upper and lower receiver/frame; high efficiency recoil reducing device; steel bipod.
- overall length with 762mm barrel is 1473mm, average weight is 13.7kg.
- rifling characteristics in calibre 50BMG: 1 turn in 381mm (15").

Manufacturer

- the manufacturer is marked on the firearm.

Action

- turn bolt operated.

Serial Number

- numbered on the receiver/frame.

125913 - 2	30-06 SPRG	20	610	Prohibited PFR, Part 1, para. 87(z.18)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm.

Model

- Introduced 2006.
- MCR stands for "Multi-Caliber-Rifle".
- This is a multi-caliber rifle based on the AR-15 rifle design with separate lower receiver/frame and upper. It is available in four different variants chambered in a long list of calibers which interchange with each other from one series to the next by changing magazine module and upper.
- Features include: lower receiver/frame and upper machined from T6-6061 aircraft aluminum; 1913 rail system machined on the upper; AR-15 type butt stock and pistol grip; anodized black finish or optional DuraCoat camouflage finish; scope, bipod and various muzzle attachments available as optional accessories.

Manufacturer

- the manufacturer is marked on the firearm.

Action

- gas operated.

Shots

- detachable box magazine.

Canadian Law Comments

- This firearm design incorporates a split receiver/frame: the lower receiver is the master component considered to be the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- available in four different action length:
MCR100; 45ACP, 223 REM, 7.62x39 RUSSIAN, 50 BEOWULF and 6.5 GRENDEL.
MCR200; 308 WIN, 243 WIN, 22-250 REM, 220 SWIFT, 6MM REM, 250 SAVAGE, 300 SAVAGE, 7MM-08 REM and 358 WIN.
MCR300; 30-06 SPRG.
MCR400; 338 LAPUA MAG.

Notes

Make

- the make is marked on the firearm.

Model

- Introduced 2006.
- This is a limited edition of 100 rifles to commemorate 100 years of the introduction of the 30-06 Springfield cartridge in 1906.
- "1906-2006" over "30-06" over "100 years" is marked in a square on the right side of the lower receiver/frame.
- MCR stands for "Multi-Caliber-Rifle".
- This is a multi-caliber rifle based on the AR-15 rifle design with separate lower receiver/frame and upper.
- Features include: lower receiver/frame and upper machined from T6-6061 aircraft aluminum; 1913 rail system machined on the upper; AR-15 type butt stock and pistol grip; anodized black finish and special MoD-O kit which include a Leupold Tactical Mark 4 scope, 2 spare magazines, bipod, NFA sound suppressor, tactical ergonomic grip and cleaning kit.

Manufacturer

- the manufacturer is marked on the firearm.

Action

- gas operated.

Serial Number

- special numbering from 1 to 100.

Shots

- detachable box magazine.
- modified BAR 1918 type magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This firearm design incorporates a split receiver/frame: the lower receiver is the master component considered to be the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

FRT Report

Firearm Reference Number (FRN): 81291
Make: Cobold
Model: Cobold

Summary

Make:	Cobold
Model:	Cobold
Manufacturer:	Francotte
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
81291 - 3	9.4MM DUTCH REV	5	84	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- model is usually not marked on the firearm.
- produced from the late 1800s to the early 1900s.
- carries Belgian proof, acceptance marks on the cylinder, and "Raye" (rifled) barrel markings, indicating manufacture and proof in Belgium.
- the Cobold revolver is similar to and often classed with the "Bulldog" or "Bulldog Type", but differs primarily in having a plain birdshead hand-grip; without the "hump" at the thumb-web, called a "prawl".
- the Cobold is otherwise usually characterized as a compact, solid-framed, short barreled revolver (often with an integral barrel and receiver/frame), usually with a right side loading-gate, usually with a swing-out case ejector rod stored within the cylinder axis rod, usually of a large cartridge caliber, with no sights or rudimentary sights.
- a safety lever, located on the left side of the receiver/frame below the hammer, when applied, prevents the cylinder from being rotated and the hammer from being cocked.

Manufacturer

- "AF", "AFC" , "A. Francotte & Cie", "A. Francotte a Liege" or "Francotte" are some of the markings found on Francotte manufactured firearms.

Serial Number

- appears on the left side of the receiver/frame.

Calibre

- caliber designation appears on right side of the receiver/frame as "9 m/m Holl".

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- firearms of this type manufactured for the 9.4MM DUTCH REV cartridge were often used by the Netherlands Gendarmerie (Police) and may be found variously marked on the barrel with inscriptions such as:
- "NED WAPPENMAGAZIJN - HAARLEM " , "HAAG - AMSTERDAM - ARNHEM", "NED. WAPENMAGAZIJN" or perhaps " V./N. S. DE JAGER DEN HAAG" .

19652 - 5	9.4MM DUTCH REV	5	89	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Model

- "Cobold" is not usually marked on the firearm.
- produced during the late 1800s to the early 1900s.
- carries Belgian proof, acceptance marks on the cylinder, and "Raye" (rifled) barrel markings, indicating manufacture and proof in Belgium.
- the Cobold revolver is similar to and often classed with the "Bulldog" or "Bulldog Type", but differs primarily in having a plain birdshead hand-grip; without the "hump" at the thumb-web, called a "Prawl".
- the Cobold is otherwise usually characterized as a compact, solid-framed, short-barreled revolver (often with an integral barrel and frame), usually with a right side loading-gate, usually with a swing-out case ejector rod stored within the cylinder axis rod, usually of a large cartridge caliber, with no sights or rudimentary sights.
- a lever is attached to the left side of the frame below the cylinder, which may be pivoted into a chamber-mouth, to effectively lock the cylinder and firing mechanism.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Henrion, Dassy & Heuschen" may not be marked on firearm. - "HDH" may be found in some inconspicuous place on the receiver/frame, such as underneath the grip plates. - "HDH" is used to denote Henrion, Dassy & Heuschen of Liege, Belgium. - "Henrion, Dassy & Heuschen (HDH)" was in business from 1893 to circa 1934. - "Henrion, Dassy & Heuschen (HDH)" was originally known as Henrion & Dassy. - "Henrion & Dassy (H&D) or Fabrique d'Armes Henrion & Dassy of Liege, Belgium was in business prior to 1893.
Serial Number	- the serial number on Dutch marked revolvers have been observed in either of two areas: on the left side of the barrel, example: RV 3210, or on the left lower receiver/frame, example: 345.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- this firearm in the 9.4mm Dutch Service cartridge was often used by the Netherlands Gendarmerie (Police) and may be found variously marked on the barrel with inscriptions such as: - NED WAPPENMAGAZIJN - HAARLEM - or - HAAG - AMSTERDAM - ARNHEM - or - NED. WAPENMAGAZIJN or - V./N. S. DE JAGER DEN HAAG and on the frame as: - topstrap: D.V.P. - in an upright triangle on the left upper foreframe: letter "L", over letters "AM". - date on right side of receiver/ frame, example: 1920 or date on topstrap, example: 1922.

Model: Cobra

Summary

Make:	Cobra
Model:	Cobra
Manufacturer:	Rhodesian State Arsenal
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	RHODESIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
21476 - 1	9MM LUGER	5	250	Prohibited PFR, Part 1, para. 115	Manufacturer Specifications and Commercial Customization	
21476 - 2	9MM LUGER	25	250	Prohibited PFR, Part 1, para. 115	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Cobra" appears on left side of pistol grip; letters are written vertically and have an image of a Cobra snake intertwined with the lettering.

Model

- "Cobra" appears on left side of pistol grip; letters are written vertically and have an image of a Cobra snake intertwined with the lettering.
- blow-back, semi-automatic only; fires from the closed-bolt position.
- stamped sheet metal receiver with stamped sheet metal skeleton-type buttstock that folds over the top of the firearm.
- ventilated barrel jacket.
- top of receiver is slotted to accommodate a round cocking handle mounted on top of the bolt.
- bolt design is of the wrap-around type, i.e., it actually encloses the rear portion of the barrel.
- detachable box magazine is located in the pistol grip in similar fashion to the Uzi submachine gun; this firearm does in fact utilize Uzi submachine magazines.
- magazine release button is located on bottom left side of the pistol grip.
- forestock is mounted underneath the barrel jacket and may be of the pistol-grip type or conventional horizontal type; both the forestock and the magazine housing grip are of high impact-type plastic.
- known example had a green 'painted' type of finish.
- this firearm was apparently intended for use by the civilian market as a personal defense weapon; it was designed to be fired from the shoulder by utilizing the folding shoulder stock or by the use of one hand as a handgun with the stock folded.
- length of this firearm with stock folded is 420mm; with stock extended, 620mm.

Manufacturer

- manufactured in Bulawayo, Rhodesia.

Serial Number

- known example had a four digit number with a two letter prefix etched on top of the bolt only.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- Designed to accept UZI type magazines.

Remarks

- this model was produced in two versions, the Mark 1 and the Mark 2. The working parts for both Marks are identical, however, the Mark 1 required complete separation of the receiver from the grip frame for disassembly whereas the Mark 2 had the receiver hinged to the frame by means of a locking body pin located at the top front of the trigger guard.

Notes

Make	- "COBRA" moulded into the rubber grip panels.
Model	- model is not marked on the firearm. - this is a semi automatic only firearm of the basic MAC/Ingram type, with an overhanging bolt and open bolt firing mechanism. - features include: moulded rubber grip panels and horizontal forearm, folding stamped steel shoulder stock, fixed sights, integral compensator, Uzi type magazine and ventilated barrel shroud. - a later version of this firearm (the MARK 2 Carbine) differs mainly in that it uses a hammer/firing-pin firing mechanism, and was re-designed slightly so that the two halves of the receiver do not need to be separated in order to field-strip the firearm.
Type	- this is a semi automatic only firearm of submachine gun style design.
Action	- semi automatic only; other versions may have been produced in full automatic or selective fire.
Serial Number	- numbered on the right side of the receiver/frame, rearward of the barrel shroud and on the bottom of the lower receiver/frame, rearward of the pistol grip.
Shots	- detachable box magazine. - Designed to accept UZI type magazines.

Model: MARK 2 Carbine

Summary

Make:	Cobra
Model:	MARK 2 Carbine
Manufacturer:	Rhodesian State Arsenal
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	RHODESIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
120476 - 1	9MM LUGER	5	254	Prohibited PFR, Part 1, para. 115(b)	Non-Commercial Customization	
120476 - 2	9MM LUGER	25	254	Prohibited PFR, Part 1, para. 115(b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "COBRA" is moulded into the rubber grip panels.

Model

- the model is not marked on the firearm.
- this is a semi automatic-only firearm of the basic MAC/Ingram type, with an overhanging bolt and separate hammer and firing-pin.
- features include: moulded rubber grip panels and horizontal forearm; folding stamped steel shoulder stock; fixed sights; integral compensator; Uzi type magazine; and ventilated barrel shroud.
- an earlier version of this firearm (the "MARK 1 Carbine") differed mainly in that the two halves of the receiver must be completely separated in order to field-strip the firearm; the MARK 2 Carbine is designed so that the upper receiver merely tips forward on a lower-receiver pin for field-stripping.

Action

- blowback-operated.

Serial Number

- numbered on the right side of the receiver/frame, rearward of the barrel shroud and on the bottom of the lower receiver/frame, rearward of the pistol grip.

Shots

- detachable box magazine.
- Designed to accept UZI type magazines.

Notes

Make

- Cobra Enterprises is marked on the barrel.

Model

- this is a "Derringer" type pocket pistol.
- Cobra Enterprises offers three distinct variations of their Derringer line. The standard "C Series" are offered with a 61mm barrel. The "CB" or "Big Bore Series" feature a 70mm barrel and the "CLB" or "Long Bore Series" come with an 89mm barrel. Each variation also features unique model markings, which include "C", "CB", or "CLB" followed by the calibre designator (22 for 22 LR, 22M for 22 MAG, 32M for 32 H&R MAG, 38 for 38 SPL, 9 for 9MM LUGER, 25 for 25 AUTO and 32 for 32 AUTO).
- the model designation is marked on the barrel assembly.
- features include: satin nickel, bright chrome, or black Teflon finish; cross-bolt hammer-block safety; spur trigger; fixed sights; rib on upper barrel and white synthetic, black synthetic, or laminated wood grips.

Manufacturer

- Cobra Enterprises was established in Ennis, Montana, U.S.A. in 2001.
- Cobra Enterprises headquarters are located in Salt Lake City, Utah, U.S.A.
- Cobra Enterprises name was changed to Cobra Enterprises of Utah, Inc. in 2004.

Action

- over/under barrel configuration.

Serial Number

- numbered on the receiver/frame.
- serial number of a referenced example consisted of six numbers.

Calibre

- the calibre designation is marked on the barrel assembly.

Notes

Make

- "CE" ("Cobra Enterprises") may or may not be moulded into the grip plates, but "Cobra" is not marked on the firearm.

Model

- "DENALI 380" is marked on the left side of the receiver/frame, above the trigger.
- this is a redesigned Cobra FS380 pistol (based on the Jennings/Bryco series of pistols), made with a synthetic frame, rather than a die-cast metal frame, for ease of manufacture.
- features include: squarish slide in various anodized or cera-coated colours; fixed open sights; 12-o'clock extractor; single-action striker firing mechanism; forward-angled gripping grooves on the slide; black synthetic frame; black synthetic grip plates and extended magazine floorplate; a manual safety at the left rear of the frame; and a push-button magazine-release in the left side of the grip.

Manufacturer

- "KODIAK IND." is marked on the right side of the receiver/frame.
- Kodiak Industries/Kodiak Arms is a manufacturer based in Salt Lake City, Utah

Action

- blowback.

Serial Number

- serial-numbered on an insert in the dust-cover of the receiver/frame.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 125681
Make: Cobray
Model: 37mm Launcher

Summary

Make:	Cobray
Model:	37mm Launcher
Manufacturer:	Cobray Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Grenade Launcher
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125681 - 1	37MM RIMMED	1	381	Prohibited PFR, Part 1, para. 95(z.011)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is not marked on the firearm.

Model

- "37MM LAUNCHER" is marked on the left side of the receiver/frame.
- this launcher externally resembles the M203 Grenade Launcher.
- features include: round smooth bore barrel with ringed/grooved hand guard; single action trigger mechanism; cocking lever located on the right side of the receiver/frame; safety lever located on the left side of the receiver/frame; barrel/slide action release located on the left side of the mounting rail; blued/black finish.
- available with mounts for the AR15, CAR15, AR15A2 HBar, AKS, and SKS.
- available with AR15 quadrant sight or M203 leaf sight.
- available with M203 top hand guard, or with folding shoulder stock and pistol grip.

Manufacturer

- manufacturers name or insignia is not marked on the firearm.
- the"Cobray" insignia consists of: representation of the world, surrounded by the crosshairs of a scope, which is surrounded by a stylized cobray (combination of a cobra and a moray eel) over top of the trade name "Cobray".
- Cobray Company manufactures replacement parts for Cobray and Ingram products as well as a line of 37mm launchers and accessories.
- Cobray Company is a Division of DWO P.O.C.
- Cobray Company is located in Westhope, North Dakota, U.S.A.

Action

- slide-type action.

Other Markings

- "WARNING !", "USE ONLY U.S.C.G. APP. FLARES, SMOKE, OR GAS ROUNDS !" is marked on the left side of the frame.

Type:	Commercial Version
Action:	Full Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
131621 - 1	9MM LUGER	30	138	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	

Notes

Make

- "COBRAY" is marked on the top and right side of the receiver/frame.
- "COBRAY" is a trade name used by S.W.D. Inc., Full Metal Jacket (FMJ), and Leinad.
- "COBRAY" logo/insignia: representation of the world, superimposed on the crosshairs of a scope, which is surrounded by a stylized cobray (combination of a cobra and a moray eel) inside a circle over top of the trade name "COBRAY" was used by S.W.D. Incorporated, Full Metal Jacket (FMJ), and Leinad.
- "COBRAY" logo/insignia: representation of the world, superimposed on the crosshairs of a scope, which is surrounded by a stylized cobray (combination of a cobra and a moray eel) inside a circle less the trade name "COBRAY" was used on Ingram and MAC firearms manufactured by Sonic Inc., Military Armament Corporation (MAC) and RPB Industries, Incorporated.

Model

- "CM-11/NINEmm" over "FMJ" over "DUCKTOWN, TN" was observed marked on the rear right side of the receiver/frame.
- the letter "C" in the model designation is for carbine.
- features observed: round barrel with muzzle threaded to accept a silencer or other barrel accessory; rectangular sheet metal upper assembly with right side ejection and protected blade front sight; rectangular bolt with top mounted cocking knob; flat sided sheet metal receiver/frame with rear aperature sight and right side mounted fire control selector; magazine release is located on the bottom rear of the pistol grip.

Manufacturer

- "FMJ" over "DUCKTOWN, TN." was observed marked on the right side of the receiver/frame.

Action

- blowback operated.
- this was a purpose built semi-automatic firearm originally in a "Carbine" configuration that was subsequently altered to fire as a full automatic.

Serial Number

- serial number was observed marked on the right side of the receiver/frame.
- observed serial number consisted of nine numbers without a letter prefix or suffix, eg. "94-0000001".
- "94" is believed to represent the year of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "NINE mm" was observed marked on the rear right side of the receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- "SEMI" was observed marked on the left side of the barrel housing.

Notes

Make

- "COCHRANS PATENT" is marked on the topstrap.
- John Webster Cochran was a New York City-based inventor and designer of small arms and artillery during the mid-1800s.

Model

- "COCHRANS PATENT" is marked on the top strap.
- this is an example of a "turret" revolver patented by John Webster Cochran of New York in the early 1830s, and built for Cochran by C.B. Allen of Springfield, Massachusetts.
- features include: browned finish; half-octagonal/half-round barrel; open fixed sights; a manually-revolved horizontally-mounted revolving disc/chamber piece containing seven individual chambers; and under-hammer firing mechanism without a trigger-guard; and a bag-grip walnut grip.

Manufacturer

- "C.B. ALLEN" is marked on the topstrap.
- Cyrus Bullard Allen was located in Springfield, Massachusetts from 1836 to 1841.
- Cyrus Bullard Allen was in a partnership known as "Allen & Barber" from 1830 to 1835.
- Cyrus Bullard Allen and Charles Ball formed a partnership known as "Allen & Ball" from 1835 to 1836.

Serial Number

- numbered on the receiver/frame.

Notes

Make

- "COCHRANS MANY CHAMBERD & NON-RECOIL RIFLE" is marked on the top strap.
- John Webster Cochran was a New York City-based inventor and designer of small arms and artillery during the mid-1800s.

Model

- "COCHRANS MANY CHAMBERD & NON-RECOIL RIFLE" is marked on the top strap.
- this is an example of a "turret" rifle patented by John Webster Cochran of New York in the early 1830s, and built for Cochran by C.B. Allen of Springfield, Massachusetts.
- these rifles were built in three basic variations, with relatively minor mechanical changes between each type.
- features include: browned finish; octagonal or round barrels; open fixed sights; a manually-revolved horizontally-mounted revolving disc/chamber piece containing seven or nine individual chambers; and under-hammer firing mechanism (some versions use the hammer itself as a form of trigger-guard, and others have no trigger-guard at all); and a straight-grip walnut stock with or without a patch box.

Manufacturer

- "C.B. ALLEN" is marked on the topstrap.
- Cyrus Bullard Allen was located in Springfield, Massachusetts from 1836 to 1841.
- Cyrus Bullard Allen was in a partnership known as "Allen & Barber" from 1830 to 1835.
- Cyrus Bullard Allen and Charles Ball formed a partnership known as "Allen & Ball" from 1835 to 1836.

Action

- "turret" style revolver, with a rotating radial horizontal disc having chambers bored towards the centre of the disc.

Serial Number

- numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- 787mm/31" is only an example of a "typical" barrel length; lengths will vary.
Shots	- these rifles are seen in three general types, with both seven- and nine-shot turrets.

Notes

Make

- known example marked, " COGSWELL & HARRISON LTD. 141 NEW BOND ST. & 226 STRAND. LONDON " on the top of the barrel.

Model

- known example was marked "Patent Certus" on the top of the bolt body.
- the original Certus rifle by Cogswell & Harrison was based on a unique turn-bolt operated design, patented by Edgar Harrison in 1900 (Patent No. 4097 of March 1, 1900).
- production dates circa 1900 to 1914.
- patented bolt action design featured a rotating bolt head with a straight bolt handle attached on the right side, both of which were positioned in front of the bolt body which did not rotate with the bolt head, instead, the bolt body moved back and forth in rails in the receiver/frame once the bolt head was unlocked; this design is very noticeable in appearance in that the bolt handle is located at the front of the action as opposed the middle or rear of the action.
- features include: radial lever-type safety catch located on the right rear side of the bolt body; interchangeable rear sights; easily detachable barrel; one piece walnut half stock with semi-pistol grip; blued finish.
- Cogswell & Harrison made/makes a number of different "Certus" models, and care must be taken to properly identify them.

Notes

Make

- "COGSWELL & HARRISON" is marked on the firearm, "CERTUS" is a model name trademarked used by Cogswell & Harrison.

Model

- "CERTUS" is marked on the firearm; "EXPRESS RIFLE" is added to this model to distinguish it from numerous other Cogswell & Harrison firearms that are named "Certus".
- this is an early 1900s design of Cogswell & Harrison bolt action repeating rifle, sold as a repeating rifle for large/dangerous Indian and African game animals; this rifle should not be confused with the modern "Certus Centrefire" rifles, which use a conventional Mauser action; the "Certus Express" mechanism uses an exposed bolt body that runs on two rails, and a forward bolt head rotated by the bolt handle.
- features include: blued finish; round barrel; sling swivels; open adjustable sight; short, checkered walnut semi-pistol grip stock; a lever safety on the right side of the bolt body; a cocking indicator at the rear of the bolt; and some versions of this rifle may be manufactured with an interchangeable barrel.

Notes

Make

- make is marked on the barrel.

Model

- model is not marked on the firearm.
- built on surplus military action such as Mauser, Enfield or Lee-Enfield.
- original model markings may still be visible on the firearm.
- conversion from military to sporting rifle involved replacement of the original military stock with a sporting stock with Monte Carlo comb and schnabel forend, adding sporting sights and sling swivels.

Manufacturer

- manufacturer's designation is marked on the barrel.

Action

- turn-bolt design.

Serial Number

- marked on the right or on the left side of the receiver/frame.

Calibre

- the Magazine Rifle can be custom ordered in several calibres.

Shots

- internal box magazine with a hinged floorplate or detachable box magazine.

Notes

Make

- "COGSWELL & HARRISON LTD." is marked on the top strap of the receiver/frame of the firearm, over "226 STRAND & 142 NEW BOND ST. LONDON".
Cogswell & Harrison was founded by Benjamin Cogswell (Junior) and Edward Harrison.
- Benjamin Cogswell's business was claimed by Cogswell & Harrison to have been established in 1770.
- Benjamin Cogswell (Senior) was originally in business as a pawnbroker at No 4 Bengal Place, New Kent Road, London, England from 1830 to 1842.
- Benjamin Cogswell (Senior) purchased the business of Edward Benton at 224 Strand Street, London, England in 1842 and advertised himself as a gun and pistol warehouse.
- Benjamin Cogswell (Senior) advertised himself as "Benjamin Cogswell (Gunmaker)" in 1857.
- Benjimin Cogswell (Gunmaker) was located in London, England at 224 Strand Street from 1857 to 1863.
- Benjamin Cogswell's son, Benjamin Cogswell (Junior) formed a partnership with Edward Harrison in 1863, this gunmaking business was known as "Cogswell & Harrison".
- Cogswell & Harrison was located in London, England at 223-224 Strand from 1863 to 1879, 223-224 Strand and 142 New Bond Street from 1880 to 1881, Bond Street and 226 Strand from 1882 to 1897.
- Cogswell & Harrison became a limited company and was renamed "Cogswell & Harrison Limited" in 1882.
- Cogswell & Harrison Ltd. (Gun & Rifle Maker) was located in London, England at 141 New Bond Street and 226 Strand from 1897 to 1917, they were temporary located at 210 Strand in 1907.
- Cogswell & Harrison Ltd. purchased the business of William Moore & Grey located on Craven Street in 1908.
- Cogswell & Harrison Ltd. was located in London, England at 226 Strand and 168 Piccadily from 1917 to 1928.
- Cogswell & Harrison Ltd. was located in London, England at 168 Piccadily from 1928 to 1982.
- Cogswell & Harrison Limited ceased operations in 1982.
- Cogswell & Harrison (Gun Agency) was located in London, England at 5 King Street, Covent Garden from 1987 to 1989.
- Cogsell & Harrison (Gunmakers), Ltd. was re-established in London, England in 1993.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "WEBLEY'S" over "R.I.C" over "No 1" and "calibre designation" over "NEW MODEL" is marked on the front left side of the receiver/frame. - introduced circa 1880's. - date of termination of production is undetermined, however, based on the popularity RIC model line, it is likely that production lasted into the early 1900's. - features include: blade front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a fluted cylinder and right side swing down loading gate; ejector rod is of the "acorn" style fixed to the right front side of the receiver/frame with the ejector rod housed within the cylinder axis pin, and the ejector rod swings to the right to align with the cylinder chambers; exposed spurred hammer; single/double action trigger mechanism; checkered hardwood grip; lanyard ring; blue or nickel plated finish.
Manufacturer	- "WEBLEY" is marked on the left side of the receiver/frame. - Webley logo of the bullet with wings and "W&S" under, may be marked on the side of the receiver/frame.
Serial Number	- serial number is marked on the left side of the receiver/frame. - observed serial number consisted of five numbers without letter prefix or suffix. - serial number rationalization is not known.
Calibre	- calibre is marked on the side of the receiver/frame. - observed calibre was marked as "476 CF".
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

119455 - 1	45 PERCUSSION	1	51	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "B. Cogswell" over "London" was observed marked on the left side of the receiver/frame.

Model

- manufactured prior to 1864.
- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- this is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- this handgun is intended to be loaded from the breech end of the barrel and as such was originally suppied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- features may include; folding trigger; metal butt cap with a trap door for the storage of the "barrel wrench" within the grip stock; sliding-type safety device on the top of the rear tang which engages a notch in the rear of the hammer.
- British proofmarks are usually apparent on the receiver/frame and/or the barrel of this firearm.

Manufacturer

- "B. Cogswell" over "London" was observed marked on the left side of the receiver/frame.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- the turnoff barrel may be rifled.

Serial Number

- known example had no serial number.

Notes

Make

- "D.S. COLE" was observed marked on the firearm.

Model

- the model designation is not marked on the firearm.
- "PAT. JAN. 1 1884" was observed marked on the firearm.
- approximately 36 rifles manufactured circa 1885.
- loosely resembles the Sharps 1878 Borchardt Patent rifle.
- features include: round barrel; open loop underlever/trigger guard; serrated trigger; semi-pistol grip or straight style stock with a high comb; may utilize a Vernier-type sight mounted at the rear of the buttstock; brass, crescent butt plate.

Manufacturer

- David S. Cole was born in Columbus Junction, Iowa, U.S.A. in 1836.
- David S. Cole was located in Wapello, Iowa from 1882 to 1884.
- David S. Cole had the following patent numbers on a single shot, breechloading, dropping block rifle: Pat. No. 289,070 - November, 27, 1883 and Pat. No. 291,153 - January 01, 1884.

Action

- lever operated, falling/dropping block design.
- solid metal breechblock slides vertically in grooves cut into the receiver/frame.

Other Markings

- "PAT. JAN. 1 1884" is marked on the firearm.

33356 - 1	58 PERCUSSION	1	838	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Collector's Armoury, Limited was established in 1980.
- Collector's Armoury is located in North Virginia, U.S.A.
- Collector's Armoury sells non-firing replica guns and modern reproductions of black powder pistols and rifles.
- Collector's Armoury is the company which came out of the merger of Replica Models, Inc. and Unique Imports, Inc. in 1980.
- Replica Models, Incorporated was found in 1968.
- Replica Models, Inc. was a retailer of non-firing replica guns.
- Unique Imports, Inc. was established in 1972.
- Unique Imports supplied military collectors with a range of original and high quality military collectables.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of a "Remington model 1863 Zouave Rifle-Musket".
- "Zouave" in the model designation is for the French North African troops who originally used a percussion rifle of this type.
- features include: fixed blade front sight and three-leaf rear sight; blued round barrel with bayonet lug, ramrod is mounted under the barrel; color-case-hardened lockplate, percussion hammer, and sling swivels; one-piece stained hardwood straight grip stock with a brass nosecap, two barrel bands, trigger guard, patchbox and buttplate.
- "U.S. large spread wing eagle" logo is usually marked on the lock-plate.
- overall length is 1245 mm (49"), and the average weight is 4.08 kgs (9 lbs).

Action

- muzzle loading.

Notes

Make

- "Victor Collette", "Victor Collette Liege, Belgium" or "Victor Collette of Liege, Belgium" may be marked on the barrel rib.
- "Victor Collette" and "Liege" may be marked on the receiver/frame.
- "VC" may be marked on the watertable and barrel flats.
- "VC" are the initial of "Victor Collette".

Model

- "Cape Gun" is not marked on the firearm.
- "Cape Gun" is a double barrel, side by side combination gun with a rifled barrel and a smoothbore barrel.
- features include: round side by side barrels with a fixed front sight and an adjustable rear sight; front hinged receiver/frame with a break open lever mounted on the top tang, side or underside; box or side lock action; exposed side hammers or hammerless; single or double trigger; checkered wood forearm and straight grip or semi-pistol grip butt stock.

Manufacturer

- "Victor Collette" was located in Liege, Belgium from 1846 to 1893.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- located on the water table.
- observed specimen had five numbers without letter prefix or suffix.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195980 - 1	44 PERCUSSION	1	68	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "VC" is marked on the underside of the firearm.
- "VC" OR "VC" under a star is a marking used by Victor Collette, who was a gunamker in Belgium circa 1836-1909.

Model

- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- this is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- this handgun is intended to be loaded from the breech end of the barrel and as such was originally supplied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- features include: no front sight; removable, tapered round damascus barrel with an under lug; central hammer; folding trigger; sliding safety lever behind the hammer; ornate, flared, scalloped wood grips with metal butt cap; nickel finish with scroll pattern engraving.

Manufacturer

- "VC" is marked on the underside of the firearm.
- "VC" are the initials of Victor Collette, who was a gun maker in Belgium circa 1836-1909.
- "Victor Collette", "Victor Collette Liege, Belgium" or "Victor Collette of Liege, Belgium" or "VC" under a star are other markings used by "Victor Collette".
- "Victor Collette" held an 1852 patent for a 20 shot gravity pistol.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- the turnoff barrel may be rifled.

Serial Number

- serial number may be marked on the firearm.
- a two-digit number was observed on the underside of the firearm marked below the manufacturer's initials.
- references indicate two-didgit number below manufacturer's initials may in some cases denote year of manufacture and not the serial number.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is not marked on the firearm.
Other Markings	- pre-1893 belgian proof of an oval containing "ELG" over a star was observed on the left side of the firearm.

- "Victor Collette", "Victor Collette Liege, Belgium" or "Victor Collette of Liege, Belgium" may be marked on the barrel rib.
- "Victor Collette" and "Liege" may be marked on the receiver/frame.
- "VC" may be marked on the watertable and barrel flats.
- "VC" are the initial of "Victor Collette".

Model

- model designation may be marked on the firearm.
- features include: Damascus barrels; front hinged receiver/frame with top tang mounted break open lever or underside break open lever; side lock; double external hammers; double triggers; walnut checkered tapered forearm and butt stock.

Manufacturer

- "Victor Collette" was located in Liege, Belgium from 1846 to 1893.

Action

- side by side barrel configuration.

Serial Number

- serial number is usually marked on the watertable and may be repeated on the barrel assembly.
- observed serial number consisted of five digits.
- "VC" may be marked in front of the serial number, these letter are the initials of "Victor Collette".

Notes

Make

- "H. COLLEYE BREVETE" is usually marked on the firearm.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a repeating percussion pistol designed by Henri Colleye during the 1850's, involving a rising multi-chambered block (commonly known as a "harmonica type") that passes through the receiver/frame behind the barrel, allowing each chamber to be fired in turn.
- features usually include: blued or coin finish; octagonal barrel; fixed bead sights offset to the right (the pistol is meant to be canted to the left during firing, as the rising block would obscure sights on the top of the barrel); a rectangular chamber block (usually having four to six chambers) that passes through a slot in the receiver/frame; box-lock double-action with varying degrees of engraving; double-action, ring trigger mechanism that both cocks the hammer and raises the chamber-block; checkered, walnut, bag grip.

Manufacturer

- "H. COLLEYE BREVETE" is usually marked on the firearm.
- Henri Joseph Colleye, of Liege, Belgium, was an inventor and gunsmith during the mid-1800's.

Action

- repeating percussion pistol with a rising block of multiple individually-capped chambers

Notes

Make

- "COLLIER" over "Millen, GA" was observed marked on the left side of the receiver/frame.

Model

- "MARKSMAN" was observed marked on the right side of the receiver ring.
- "MARKSMAN" is available as a receiver/frame only, or as a custom built bolt action repeating rifle with a variety of custom features which will vary depending on the customers requirements.
- features observed: no iron sights; round barrel with a muzzle break; solid top steel receiver/frame with right side ejection and an integral Picatinny rail; fluted bolt with an oversize bolt handle; safety lever is mounted on the right side of the tang of the receiver/frame; bolt release is mounted on the rear left side of the receiver/frame; detachable box magazine release is mounted on the rear of the magazine well; one piece synthetic pistol grip stock with an adjustable comg and rubber butt plates; sling swivel studs; matte blued finish.

Manufacturer

- Collier Rifles is owned by Joe Collier.
- Collier Rifles LLC is located in Millen, Georgia, USA.
- Collier Rifles are manufactured using Surgeon Rifles and Remington actions.

Action

- turn-bolt design.

Serial Number

- serial number was observed marked on the right side of the receiver ring.
- serial number observed consisted of a three letter prefix and three numbers.

Shots

- detachable box magazine.

Notes

Make

- this was the first production handgun produced by Samuel Colt.
- marked "Patent Arms M'g Co. Paterson N.J.- Colt's Pt." on top of barrel.

Model

- manufactured in 1837 and 1838.
- approximately 500 of these revolvers were produced at Colt's Paterson, New Jersey plant, before the "Patent Arms Manufacturing Company" went bankrupt and closed in 1842.
- some variations of this revolver were completed out of in-stock parts by an erstwhile business partner, John Ehlers, after the company folded; these revolvers were made with loading levers and a recoil shield cut-out to allow percussion caps to be placed on the cylinder nipples. These late-production/"Ehlers" No 1s were made to resemble No 2s as much as possible, but will still have the smaller-diameter cylinder.
- blued octagonal barrel, receiver/frame, and cylinder (some examples may have been silver-plated), varnished wood grips on a slightly-curved grip frame (some examples were produced with horn or ivory grips), forward-folding trigger, and a hammer with a very high spur.
- these revolvers also have a partial roll-engraved scene of a centaur (half-man, half-horse) on an island, fighting off several attackers with a revolver in each hand, along with Colt's trademark of the time ("Colt" in an oval, from which four horse's heads sprout). At the top of Colt's trademark, portions of another centaur holding a rifle may be seen. Later Patersons will have larger receiver/frames and cylinders, and a more complete cylinder scene, as the larger-diameter cylinder allowed more of the impression to be added.

Manufacturer

- marked "Patent Arms M'g Co. Paterson N.J.- Colt's Pt." on top of barrel, reading towards the muzzle.
- this was Samuel Colt's first production facility, which operated at Paterson, New Jersey, from 1837 through 1842.

Serial Number

- serial-numbered from #1 through approximately #500; normally stamped on the breech end of the barrel (below the cylinder-pin hole), and on major sub-assemblies. The barrel must be removed from the cylinder-pin to read this number.

Barrel

- these revolvers left the factory with barrels between 2 1/2" and 4 3/4" (76-121mm), or at a predictable fraction thereof (eg. 2 3/4"/69mm).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- this was the first production rifle produced by Samuel Colt.
Model	- manufactured from 1837 to 1838. - approximately 200 of these revolving rifles were produced at Colt's Paterson, New Jersey plant, before the "Patent Arms Manufacturing Company" went bankrupt and closed in 1842. - blued or browned octagonal barrel, receiver/frame, and cylinder, varnished wood straight-grip stock with cheekpiece, no forearm, topstrap integral with stock/trigger assembly, and a ring-shaped cocking lever at the bottom of the frame, in front of the trigger-guard. This cocking lever both cocks the internal hammer and revolves the cylinder to the next chamber. Most of the No 1 rifles seen will not have a loading-lever, but if there is one (found on the right side), the right side of the recoil shield will be cut-out to allow a shooter to cap the percussion nipples. - these rifles also have a roll-engraved hunting scene on the cylinder, showing a centaur (half-man, half-horse) and three riders hunting a deer or stag. Also on the cylinder is the name "Colt" in a cylinder-length rectangle. This scene and the integral topstrap are the primary means of identifying this model from the No 2 Rifle; (No 2 Rifles don't have a topstrap, and add a house to the roll-engraved scene on the cylinder).
Manufacturer	- marked "Colt's Patent - Patent Arms Man'g Co., Paterson N.Jersey" on top of barrel at breech, reading towards the muzzle. - this was Samuel Colt's first production facility, which operated at Paterson, New Jersey, from 1837 through 1842.
Serial Number	- serial-numbered from #1 through approximately #200; normally stamped on the breech end of the barrel (below the cylinder-pin hole), on the rear of the cylinder, and on other major sub-assemblies.
Barrel	- factory records indicate that a carbine length barrel may also have been made, and that other lengths could be supplied on order.

Notes

Make

- this was the second production handgun produced by Samuel Colt, it being a slightly enlarged version of the Paterson No 1.
- marked "Patent Arms M'g Co. Paterson N.J.- Colt's Pt." on top of barrel.

Model

- manufactured from 1837 to 1840.
- approximately 800 of these revolvers were produced at Colt's Paterson, New Jersey plant, before the "Patent Arms Manufacturing Company" went bankrupt and closed in 1842.
- blued octagonal barrel, receiver/frame, and cylinder (some examples may have been silver-plated), varnished wood grips on a slightly-curved grip frame (some examples were produced with horn or ivory grips), forward-folding trigger, and a hammer with a very high spur. Also, most of the No 2 Patersons seen will have a loading-lever and a recoil shield cut-out to allow a shooter to cap the nipples, unlike most of the original-production No 1s.
- these revolvers also have a roll-engraved scene of two centaurs (half-man, half-horse) on two separate islands. One is depicted fighting off several attackers with a revolver in each hand, while one is holding a rifle. Colt's trademark of the time ("Colt" in an oval, from which four horse's heads sprout) is also seen on the cylinder. This scene (and the caliber of the revolver being looked at) is the primary means of identifying this particular model. Paterson No 1s (the earlier models) will have smaller frames, smaller-diameter cylinders, and a less complete cylinder scene (as the larger-diameter cylinder of the No 2 allowed more of the impression to be added), while Paterson No 3s will generally have longer barrels and flared grips.

Manufacturer

- marked "Patent Arms M'g Co. Paterson N.J.- Colt's Pt." on top of barrel, reading towards the muzzle.
- this was Samuel Colt's first production facility, which operated at Paterson, New Jersey, from 1837 through 1842.

Serial Number

- serial-numbered from #1 through approximately #800; normally stamped on the breech end of the barrel (below the cylinder-pin hole), and on major sub-assemblies. The barrel must be removed from the cylinder-pin to read this number.

Barrel

- these revolvers left the factory with barrels between 2 1/2" and 4 3/4" (76-120mm), or at a predictable fraction thereof (eg. 2 3/4"/69mm).

Notes

Make

- this was the third production handgun produced by Samuel Colt, it being a slightly modified version of the Paterson No 2, and generally with a longer barrel.

Model

- manufactured from 1837 to 1840.
- approximately 800 of these revolvers were produced at Colt's Paterson, New Jersey plant, before the "Patent Arms Manufacturing Company" went bankrupt and closed in 1842.
- blued octagonal barrel, receiver/frame, and cylinder (some examples may have been silver-plated), varnished wood, ivory, or horn grips on a slightly-curved grip frame (most No 3s also had flared grips, somewhat resembling the standard SAA grip), forward-folding trigger, and a hammer with a very high spur. Also, most of the No 3 Patersons seen will not have a loading-lever, but if there is one, the right side of the recoil shield will be cut-out to allow a shooter to cap the nipples
- these revolvers also have a roll-engraved scene of two centaurs (half-man, half-horse) on two separate islands. One is depicted fighting off several attackers with a revolver in each hand, while one is holding a rifle. Colt's trademark of the time ("Colt" in an oval, from which four horse's heads sprout) is also seen on the cylinder. This scene, the flared grip, and the caliber/ barrel length of the revolver being looked at, is the primary means of identifying this particular model.

Manufacturer

- marked "Patent Arms M'g Co. Paterson N.J.- Colt's Pt." on top of barrel, reading towards the muzzle.
- this was Samuel Colt's first production facility, which operated at Paterson, New Jersey, from 1837 through 1842.

Serial Number

- serial-numbered from #1 through approximately #800; normally stamped on the breech end of the barrel (below the cylinder-pin hole), and on major sub-assemblies. The barrel must be removed from the cylinder-pin to read this number.

Barrel

- most of these revolvers left the factory with barrels between 4" and 6" (102-152mm), or at a predictable fraction thereof (eg. 4 1/2"/114mm), but some have also been seen with barrels up to 12"/304mm long.

Notes

Make

- this was the second production rifle produced by Samuel Colt, it being a modified version of the No 1.

Model

- manufactured from 1838 to 1841.
- approximately 500 of these revolving rifles were produced at Colt's Paterson, New Jersey plant, before the "Patent Arms Manufacturing Company" went bankrupt and closed in 1842
- blued or browned octagonal barrel, receiver/frame, and cylinder, varnished wood straight-grip stock with cheekpiece, no forearm, no topstrap, and a ring-shaped cocking lever at the bottom of the frame, in front of the trigger-guard. This cocking lever both cocks the internal hammer and revolves the cylinder to the next chamber. Most of the No 2 rifles seen will not have a loading-lever, but if there is one (found on the right side), the right side of the recoil shield will be cut-out to allow a shooter to cap the percussion nipples.
- these rifles also have a roll-engraved hunting scene on the cylinder, showing a centaur (half-man, half-horse) and three riders hunting a deer or stag, with a house at one end of the scene. Also on the cylinder is the name "Colt" in a cylinder-length rectangle. This scene and the lack of a topstrap are the primary means of identifying this model from the No 1 Rifle; (No 1 Rifles have a topstrap, and don't have a house in the roll-engraved scene on the cylinder)

Manufacturer

- marked "* Patent Arms M'g Co., Paterson N.J.- Colt's Pt.*" on top of barrel at breech, reading towards the muzzle.
- this was Samuel Colt's first production facility, which operated at Paterson, New Jersey, from 1837 through 1842.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- single-action percussion revolving rifle.
Serial Number	- serial-numbered from #1 through approximately #500; normally stamped on the breech end of the barrel (below the cylinder-pin hole), on the rear of the cylinder, and on other major sub-assemblies.
Barrel	- factory records indicate that other lengths could be supplied on order.
Shots	- some of these rifles were apparently made with 10-shot cylinders, but these are exceedingly rare.

Notes

Make - this was the fourth production handgun produced by Samuel Colt, it being an enlarged and modified version of the Paterson No 3 , and generally with a longer barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- manufactured from 1838 to 1840. - approximately 1000 of these revolvers were produced at Colt's Paterson, New Jersey plant, before the "Patent Arms Manufacturing Company" went bankrupt and closed in 1842. - blued or color-case-hardened octagonal barrel, receiver/frame, and cylinder (some examples may have been silver-plated), varnished wood, ivory, pearl or horn grips on a flared grip frame (somewhat resembling the standard SAA grip), forward-folding trigger, and a hammer with a very high spur. This was also the first of Colt's revolvers to use a barrel wedge with an integral spring to keep it in place (earlier-production Patersons and early-run No 5s were generally kept in with screws). Also, most of the No 5 Patersons seen will not have a loading-lever, but if there is one, the right side of the recoil shield will be cut-out to allow a shooter to cap the nipples - these revolvers also have a roll-engraved stagecoach hold-up scene on the cylinder, along with the "Colt" name in a cylinder-length rectangle. This scene, the flared grip, and the caliber of the revolver being looked at, are the primary means of identifying this particular model.
Manufacturer	- marked "Patent Arms M'g Co. Paterson N.J.- Colt's Pt." on top of barrel, reading towards the muzzle. - this was Samuel Colt's first production facility, which operated at Paterson, New Jersey, from 1837 through 1842.
Serial Number	- serial-numbered from #1 through approximately #1000; normally stamped on the breech end of the barrel (below the cylinder-pin hole), and on major sub-assemblies. The barrel must be removed from the cylinder-pin to read this number.
Barrel	- most of these revolvers left the factory with barrels between 4" and 12" (102-305mm), or at a predictable fraction thereof (eg. 4 1/2"/114mm), but the standards are considered to be 7 1/2"/190mm and 9"/228mm.

110615 - 1	36 PERCUSSION	5	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the firearm is identified as a Colt on the barrel.

Model

- manufactured from 1998 to 2002.
- the model designation is not marked on this firearm.
- this model is in the Colt Blackpowder Third Generation Line of firearms and may also be known as, "Paterson No. 5 Third Generation", "Texas Paterson", or "Paterson No. 5 Third Generation Signature Series".
- features include: single action; a royal blue finish on the receiver/frame; octagon barrel; engraved cylinder; hammer; and the loading lever located under the barrel; a folding trigger with no trigger guard; five bands of 18-kt gold; two encircling the end of the muzzel; two encircling the cylinder; and one on the circumference of the standing breech; a fixed blade front sight and walnut grip panels.
- this firearm in normally marked, "-Patent Arms Mg. Co. Paterson, NJ - Colt's PL-", with a barrel address.
- NOTE: this firearm is a Third Generation Colt as manufactured by Colts Black Powder Arms, an exception to the rule, as it has no facsimile of the "Samuel Colt signature" on the hand grip, backstrap.
- the receiver/frame and barrel may have engraving.

Manufacturer

- the manufacturer is normally not marked on the firearm.

Action

- percussion ignition system.

Serial Number

- the serial number is marked on the receiver/frame.

Notes

Make

- this was one of the first rifles (and the first commercially successful rifle) produced by Samuel Colt.
- marked with "Colt's Pt." on the firearm.

Model

- manufactured from 1838 to 1841.
- approximately 950 of these revolving rifles were produced at Colt's Paterson, New Jersey plant, before the "Patent Arms Manufacturing Company" went bankrupt and closed in 1842.
- blued or browned octagonal barrel, frame, and cylinder, varnished wood straight-grip stock with crescent buttplate and finial trigger-guard/gripstrap, no forearm, no topstrap, and an exposed hammer. Most of these rifles/carbines were made with a loading-lever (found on the right side), but the earliest examples don't have this feature.
- some of these rifles also have a roll-engraved scene on the cylinder, having three cartouches depicting a battle, a sailing ship, and a hunter astride a lion. Also on the cylinder is "W.L. Ormsby" (the engraver who produced the die), and "Colt's Patent-Patent Arms Man'y-Patterson Jersey" (Paterson being misspelled with two "t"s.) Some examples have been seen showing these markings as well as a hunting scene with a centaur (half-man, half-horse).

Manufacturer

- marked "Patent Arms M'g Co., Paterson N.J-Colt's Pt." on left or right side of the barrel lug (sometimes obscured by loading lever).
- this was Samuel Colt's first production facility, which operated at Paterson, New Jersey, from 1837 through 1842.

Serial Number

- serial-numbered from #1 through approximately #950; normally stamped on the breech end of the barrel (below the cylinder-pin hole), on the rear of the cylinder, and on other major sub-assemblies.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - some eight-shot cylinders for these rifles have also been noted, but its unknown whether these were a production item or not.

Notes

Make

- this was the first shotgun produced by Samuel Colt.
- marked "Colt's Pt." on the firearm.

Model

- manufactured from 1839 to 1841.
- approximately 225 of these revolving shotguns were produced at Colt's Paterson, New Jersey plant, before the "Patent Arms Manufacturing Company" went bankrupt and closed in 1842.
- blued receiver/frame, and cylinder with browned Damascus barrel, varnished wood straight-grip stock with crescent buttplate and finial trigger-guard/gripstrap, no forearm, no topstrap, and an exposed hammer.
- these shotguns also have a roll-engraved scene on the cylinder, having three cartouches depicting a running deer/stag, an Indian holding a bow, and an American eagle holding an olive branch and a sheaf of arrows in its talons. Also on the cylinder is "W.L. Ormsby" (the engraver who produced the die), "Colt's Patent", and "Patent Arms Manufactory Paterson Jersey"

Manufacturer

- marked "Patent Arms M'g Co., Paterson N.J-Colt's Pt." on right side of the barrel lug
- this was Samuel Colt's first production facility, which operated at Paterson, New Jersey, from 1837 through 1842.

Serial Number

- serial-numbered from #1 through approximately #225; normally stamped on the breech end of the barrel (below the cylinder-pin hole), on the rear of the cylinder, and on other major sub-assemblies.

Barrel

- it's known that other lengths were made, but these aren't specified.

Notes

Make

- "ADDRESS SAML COLT NEW-YORK CITY" is normally marked on top of barrel.

Model

- Manufactured in 1847.
- Model designation is not marked on the firearm.
- "US" and "1847" are normally marked on the right side of the barrel lug.
- "MODEL U.S.M.R." and "COLT'S PATENT" are normally marked on the cylinder.
- Samuel Colt designed this revolver for military use. The first two revolvers were presented to Captain Walker.
- Total estimated production is 1,100. Of the original Walkers produced, less then 200 revolvers are known to have survived.
- Approximately 1,000 revolvers were manufactured for the army and will have military "Company" markings. Less the 100 revolvers were manufactured for civilian use.
- Features include: blade front sight and a "V" notch in the nose of the hammer for a rear sight; round to octagonal, rifled barrel with loading lever mounted on the underside; open top receiver/frame with a removeable non-fluted round cylinder which has a scene of Texas Rangers in a battle with Native Americans and oval cylinder stop slots; exposed spur percussion hammer; single action trigger mechanism; brass square back trigger guard and front grip strap; steel back strap; one piece walnut grip; blued barrel, cylinder and backstrap; colour case hardened loading lever, receiver/frame, and hammer.
- The left side of the barrel lug will fit parallel to the front of the cylinder. On the right side of the barrel lug there is a "U" shape to the barrel lug where the plunger accesses the cylinder.
- Overall length with a 229 mm (9") barrel is 394.7 mm (15.5").
- Average weight is 2.06 kgs (4.5 lbs).

Manufacturer

- "ADDRESS SAML COLT NEW-YORK CITY" is normally marked on top of barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is marked on the left side of the receiver/frame above the trigger guard.
- on Walkers which were issued to a "Company" the serial number is normally up to three digits long, and the serial number is normally marked as: "A COMPANY No 123".
- Serialization is by Company. It starts with:
  "A" Company, numbered from 1 to approximately 215,
  "B" Company, 1 to approximately 175,
  "C" Company, 1 to approximately 220,
  "D" Company, 1 to approximately 220
  "E" Company, 1 to approximately 120.
- other civilian issue Walkers were numbered in the 1000 to 1100 range. The serial number is marked in tiny numerals on the underside of the receiver/frame.

Other Markings

- on revolvers which were issued to a "Company", the serial number is marked on the left side of the receiver/frame. Example, "A COMPANY No 123". This marking may also be marked on the left side of the barrel lug and on the butt of the backstrap. An abbreviated form will also be marked on the cylinderas, "A COM-Y No 123", and triggerguard as,"A COM Y No 123".
- on revolvers which were issued to a "Company", the grip panels may have a inspector's mark. The left grip panels was marked, "NWP", and the right grip panel, "WAT".
- on civilian issued revolvers, the serial is marked in tiny numerals on the underside of the receiver/frame. This same number is also marked on the triggerguard, backstrap, barrel lug, and on the cylinder.

Remarks

- this revolver weighs 4 pounds, 9 ounces and the cylinder is 62 mm, or 2 7/16", in length.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
33898 - 1	44 PERCUSSION	6	191	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is normally marked on top of barrel as:
"ADDRESS SAML COLT NEW-YORK CITY".
- some revolvers may not have any barrel markings.

Model

- these firearms were manufactured circa 1847, at Colt's new factory, located in Hartford.
- total estimated production is 240. Of the 240 original Walkers produced, less then 25 revolvers are known to have survived.
- the model designation is not marked on the firearm.
- this model was also known as the "Transition Walker" as this model was manufactured from parts originally manufactured for the "Walker".
- manufactured for the army and civilian use.
- the right side of the barrel lug is normally marked "U S".
- features include: single action trigger mechanism, case hardened receiver/frame, spurred hammer and the loading lever located under the barrel, blued part octagon and part round barrel, a fixed small blade for a front sight, a brass or silver plated square back triggerguard, and walnut grip panels.
- the backstrap may be blued, tinned, brass or silverplated.
- the cylinder will have a scene of Texas Rangers in a fight with Indians and oval cylinder stops. The cylinder will be marked, "MODEL U.S.M.R." over "COLT'S PATENT". As the cylinder was reduced in length, the top of the markings may be incomplete.
- the left side of the barrel lug will fit parallel to the the the front of the cylinder. On the right side of the barrel lug there is a "U" shape to the barrel lug where the plunger access the cylinder. There may be a noticable gap between the cylinder and the barrel lug as the cylinder was reduced in length from the original "Walker" cylinders.

Manufacturer

- the manufacturer is normally marked on top of barrel as:
"ADDRESS SAML COLT NEW-YORK CITY".
- some revolvers may not have any barrel markings.
- the right side of the receiver/frame may be marked, "COLT'S / PATENT" or "COLT'S / PATENT / U.S.".

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- serialization is a continuation of the "Walker" series and starts at 1101 and continues to 1340.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- on revolvers which were issued to a "Company", the grip panels may have a inspector's mark.
- the left grip panel was marked "NWP", and the right grip panel "WAT".
- the serial is marked on the underside of the receiver/frame. This same number is also marked on the trigger guard, backstrap, bottom of the barrel lug, and on the cylinder.The last two digits of the serial number are marked on the wedge, top flat of the lever lug, and the bottom of the muzzle end of the cylinder pin.

Remarks

- this revolver weighs 4 pounds, 2 ounces and the cylinder is 56 mm, or 2 3/16", in length.

Notes

Make

- the make is identified by markings on the barrel as" U.S.M.R.COLT's PATENT".

Model

- introduced in 1996.
- the model designation does not appear on the firearm.
- features include: single action trigger mechanism, square back trigger guard, engraved cylinder, walnut grips, and a facsimile of Samuel Colt's signature is engraved on the hand grip backstrap.

Manufacturer

- the actual manufacturer's name is not marked on the firearm.

Serial Number

- usually marked on the bottom of the receiver/frame forward of the trigger guard, and the barrel lug.
- the last four digits of the serial number are marked on the bottom of the grip and side of the cylinder.

Other Markings

- the engraver's initials and last name may be marked on the spaces between the hammer stop notches on the cylinder.
- there will be fight scenes engraved on the periphery of the cylinder.
- a facsimile of Samuel Colt's signature will be marked on the revolver, hence the name "signature series".

- "COLT'S PATENT U.S." was observed marked on the left side of the receiver/frame.
- "COL. COLT - LONDON" was observed marked on top of the barrel assembly.

Model

- "MODEL USMR" was observed marked on the cylinder.
- this is a unique firearm that incorporates features from the Colt Walker and Colt Dragoon family of firearms and may not be an original firearm made by Colt.
- features observed: blade front sight and fixed dovetailed rear sight on the barrel and a notch in the nose of the hammer for a rear sight; blued round Dragoon type barrel with a loading aperture on the right side of the barrel lug; barrel wedge assembly and wedge screw are mounted on the right side of the barrel lug; case-hardened open top steel receiver/frame with round non-fluted cylinder; cylinder is roll engraved with Ranger and Indian fight scene; exposed spur hammer; single action trigger mechanism; brass square back trigger guard assembly and backstrap; walnut grip.

Serial Number

- serial number was observed marked on the underside of the receiver/frame in front of the trigger guard and repeated on the barrel, loading lever, cylinder, trigger guard, and grip strap.
- observed serial number consisted of three numbers without a letter prefix or suffix.

Other Markings

- known example was marked "3D. N.Y." over "VOL. CAV" on the top of the grip strap and "PATENT No 839" on the cylinder.

Notes

Make

- the make is normally marked on top of barrel as:
"ADDRESS SAML COLT NEW-YORK CITY".

Model

- model designation is not marked on the firearm.
- "Dragoon" model was introduced in 1847/1848.
- "Dragoon" models were manufactured from 1848 to 1861.
- "1848 Dragoon Model 1" was manufactured from 1848 to 1850.
- "1848 Dragoon Model 1" total estimated production is approximately 7,000.
- "1848 Dragoon Model 1" was manufactured for both the United States army and civilian market.
- "1848 Dragoon Model 1" was also known as the "1848 First Model Dragoon".
- features include: blade front sight and a "V" notch in the nose of the hammer for a rear sight; round to octagonal barrel with a loading lever mounted on the underside; open top steel receiver/frame with a removable non-fluted percussion cylinder; exposed spur hammer; single action trigger mechanism; brass square back trigger guard and grip strap; one piece walnut grip; blued barrel and cylinder; colour case hardened loading lever, receiver/frame, and hammer.
- triggerguard on civilian revolvers is silver-plated and unfinished on military revolvers.
- cylinder will have a scene of Texas Rangers in a fight with Indians and oval cylinder stops.
- "MODEL U.S.M.R." or "U.S. DRAGOONS" over "COLT'S PATENT" is usually marked on the cylinder.
- the left side of the barrel lug will fit parallel to the front of the cylinder.
- the right side of the barrel lug there is a "U" shape to the barrel lug where the plunger access the cylinder.
- the right side of the barrel lug is normally marked, "US", on government issued revolvers.
- Colt 1848 Dragoon distinguishing features between the Model 1, 2, and 3 are:
- Model 1: oval cylinder stop notches, and a square back trigger guard.
- Model 2: rectangular cylinder stop notches, and a square back trigger guard.
- Model 3: rectangular cylinder stop notches, and a rounded trigger guard.
- Model 3: may have a groove in the bottom of the grip strap for a shoulder stock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- the manufacturer is normally marked on top of barrel as:
"ADDRESS SAML COLT NEW-YORK CITY".
- the left side of the receiver/frame may be marked, "COLT'S / PATENT" or "COLT'S / PATENT / U.S.".

Serial Number

- serial numbers continued the range established by the "Walker" and "Whitneyville Hartford Model Dragoon" pistols and commenced at 1341 through to approximately 8000.
- serial number is marked on the underside of the receiver/frame. On early revolver the numbers are small, on later revolvers the numbers were larger. This same number is also marked on the triggerguard, backstrap, bottom of the barrel lug, and on the cylinder. The last two or three digits of the serial number are marked on the barrel wedge, top flat of the lever lug, and the bottom of the muzzle end of the cylinder pin.

Notes

Make

- the make is normally marked on top of barrel as:
"ADDRESS SAML COLT, NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW-YORK CITY"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- Model designation is not marked on the firearm.
- "Dragoon" model was introduced in 1847/1848.
- "Dragoon" models were manufactured from 1848 to 1861.
- "1848 Dragoon Model 3" was manufactured from 1851 to 1861.
- "1848 Dragoon Model 3" total estimated production is approximately 10,500.
- "1848 Dragoon Model 3" was manufactured for the both the United States army and civilian market.
- "1848 Dragoon Model 3" was also known as the "1848 Third Model Dragoon".
- The right side of the barrel lug is normally marked, "US", on government issued revolvers.
- Features include: single action trigger mechanism, case hardened receiver/frame, spurred hammer and the loading lever located under the barrel, blued part octagon and part round barrel, a fixed small blade for a front sight, a brass or blued backstrap, a round trigger guard, and walnut grip panels.
- The trigger guard on civilian revolvers is silver-plated and polished on military revolvers.
- A small number were given a tinned or nickel finish.
- Approximately 946 revolvers were available with a shoulder stock and known as "Pistol Carbines".
- The cylinder will have a scene of Texas Rangers in a battle with Native Americans and square cylinder stops. The cylinder will be marked, "MODEL U.S.M.R." or "U.S. DRAGOONS" over "COLT'S PATENT".
- Some may be marked, "C.L. DRAGOONS" on the left side of the barrel. The "C.L." is interpreted as "Connecticut Light" or "Crocheron Light". The "C.L. DRAGOONS" will normally have a 203mm barrel.
- The left side of the barrel lug will fit parallel to the front of the cylinder. On the right side of the barrel lug there is a "U" shape to the barrel lug where the plunger accesses the cylinder.
- Colt 1848 Dragoon distinguishing features between the Model 1, 2, and 3 are:
- Model 1: oval cylinder stop notches, and a square back trigger guard.
- Model 2: rectangular cylinder stop notches, and a square back trigger guard.
- Model 3: rectangular cylinder stop notches, and a rounded trigger guard.
- Model 3: may have a groove in the bottom of the grip strap for a shoulder stock.

Manufacturer

- the manufactuer is normally marked on top of barrel as:
"ADDRESS SAML COLT, NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW-YORK CITY"
- the left side of the receiver/frame may be marked, "COLT'S / PATENT" or "COLT'S / PATENT / U.S.".

Serial Number

- serial numbers continued the range established by the "Walker" and "Whitneyville Hartford Model Dragoon" pistols and ran from 10700 through to approximately 19500.
- serial is marked on the underside of the receiver/frame. On early revolver the numbers are small, on later revolvers the numbers were larger. This same number is also marked on the triggerguard, backstrap, bottom of the barrel lug, and on the cylinder.The last two or three digits of the serial number are marked on the barrel wedge, top flat of the lever lug, and the bottom of the muzzle end of the cylinder pin.

Notes

Make

- the make is normally marked on top of the barrel as:
"ADDRESS SAML COLT"
"NEW-YORK CITY".
- on early production revolvers the above markings did not have any brackets and were normally printed to be read from breech towards the muzzle. On later production revolvers the markings had brackets at both ends and were printed to be read from the muzzle towards the breech.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this firearm was manufactured from 1847 to 1850.
- total estimated production is approximately 15,500.
- the model designation is normally not marked on the firearm.
- may also be known as "Baby Dragoon", "1848", Pocket Dragoon", or "Little Dragoon".
- the pistol may be found with or without a loading lever.
- The main distinguishing feature identifying a "1848 Pocket" revolver from a "1849 Pocket" revolver is the triggerguard. The "1848 Pocket" has a square back triggerguard while the "1849 Pocket" has a round triggerguard.
- features include: single action trigger mechanism, case hardened receiver/frame, spurred hammer and when present, the loading lever located under the barrel, blued octagon barrel, a fixed small bead for a front sight, a silver plated brass backstrap and square back triggerguard, and walnut grip panels.
- a small number were given a full silver plated finish.
- the cylinder will have a modified scene of Texas Rangers in a fight with Indians and the cylinder will be marked, "COLT'S PATENT". At approximately serial number 10,500 the scene on the cylinder was changed to a stagecoach hold up scene and the cylinder will be marked in small print, "ENGRAVED BY W. L. ORMSBY NEW YORK", over "COLT'S PATENT" in larger print. The cylinder may have round, oval or square cylinder stop notches.
- the barrel lug will fit parallel to the front of the cylinder. On models with a loading lever, the right side of the barrel lug may have a "U" shaped cut-out to facilitate the loading of round or conical ball projectiles.

Manufacturer

- the make is normally marked on top of the barrel as:
"ADDRESS SAML COLT"
"NEW-YORK CITY".
- on early production revolvers the above markings did not have any brackets and were normally printed to be read from breech towards the muzzle. On later production revolvers the markings had brackets at both ends and were printed to be read from the muzzle towards the breech.
- the left side of the receiver/frame is marked, "COLT'S / PATENT".

Serial Number

- one early production revolvers the serial number is marked on the breech end of the barrel, cylinder and on the bottom of the triggerguard strap.
- one later production revolvers the serial number is marked on the underside of the receiver/frame, barrel lug, and the triggerguard strap, the cylinder, buttstrap and on the wedge.
- serialization started at 1 and continued unbroken until approximately 15500.
- the Model "1849 Pocket" is numbered concurrently from Serial Number 12,000.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- The make is normally marked on the top of the barrel as:
"ADDRESS SAML COLT"
" NEW-YORK CITY"
or
"ADDRESS SAML COLT"
" NEW YORK CITY"
or
"ADDRESS SAML COLT"
"HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
- a small number were marked:
"SAML COLT" in old english script
or
"ADDRESS COL: COLT."
"LONDON"

Model

- this firearm was manufactured from 1850 to 1873.
- total estimated production is in excess of 325,000.
- the model designation is normally not marked on the firearm.
- the pistol may be found with or without a loading lever.
- there are an estimated 200 sub-variations to this model.
- the main distinguishing feature identifying a "1849 Pocket" revolver from a "1848 Pocket" revolver is the triggerguard. The "1849 Pocket" has a round triggerguard while the "1848 Pocket" has a square back triggerguard
- features include: single action trigger mechanism, case hardened receiver/frame, spurred hammer and when present, the loading lever located under the barrel, blued round or octagon barrel, a fixed small bead for a front sight, a silver plated brass backstrap and round triggerguard, and walnut grip panels.
- may also be finished in full silver, gold or nickel plating, or various combinations, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the cylinder will have a scene of a stagecoach hold up and square cylinder stops. The cylinder will be marked in small print, "ENGRAVED BY W. L. ORMSBY NEW YORK", over "COLT'S PATENT" in larger print. After serial number 15,000, the cylinder was only marked, "COLT'S PATENT".
- the barrel lug will fit parallel to the front of the cylinder. On models with a loading lever, the right side of the barrel lug may have a "U" shaped cut-out to facilitate the loading of round or conical ball projectiles.

Manufacturer

- The manufacturer is normally marked on the top of the barrel as:
"ADDRESS SAML COLT"
" NEW-YORK CITY"
or
"ADDRESS SAML COLT"
" NEW YORK CITY"
or
"ADDRESS SAML COLT"
"HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
- a small number were marked:
"SAML COLT" in old english script
or
"ADDRESS COL: COLT."
"LONDON"
- the left side of the receiver/frame is marked, "COLT'S / PATENT".

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- serial numbers started at approximately 12,000 and continued unbroken to approximately 340,000.
- the serial number range is shared with the "1848 Pocket", until approximately 15,500.
- the whole serial number or a part of the serial number is also marked on the triggerguard, backstrap, bottom of the barrel lug, and on the cylinder. The last two or three digits of the serial number are marked on the wedge, top flat of the lever lug, and the bottom of the muzzle end of the cylinder pin.

Calibre

- from 1860 on, the calibre designation is normally marked on the left side of the triggerguard strap as "31 CAL".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- some revolvers were purchased by the U.S. Government and marked "U.S." on the left side of the receiver/frame and acceptance / inspection stamping were marked on the cylinder between two stop notches as, "P/GG. The U.S. Navy marked "USN" on the top flat of the back strap.
- 265 revolvers were made in Hartford, but completed in London, England and given London markings and proofmarks.
- The markings on the top of the barrel in relation to serial numbers:
 from approximately serial number 12,000 to 187,000
"ADDRESS SAML COLT"
" NEW-YORK CITY"
or
"ADDRESS SAML COLT"
" NEW YORK CITY"
 from approximately seial number 164,000 to 206, 000
"ADDRESS SAML COLT"
"HARTFORD CT",
 from approximately serial number 187,000 to 340,000
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA".

Notes

Make

- the make is normally marked on top of the barrel within brackets as:
"ADDRESS. COL: COLT."
"LONDON"
- on the first 265 revolvers the make was normally marked as:
"COL. COLT. LONDON"
or
"SAML COLT. LONDON."
- on the first 265 revolvers the markings may read from the breech to muzzle or vice versa.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this firearm was manufactured from 1853 to 1857.
- total estimated production is in excess of 11,000.
- the model designation is normally not marked on the firearm.
- the pistol may be found with or without a loading lever.
- the left side of the barrel lug and the cylinder will have London proof marks: a crown over a "V", and a crown over "GP".
- features include: single action trigger mechanism, case hardened receiver/frame, spurred hammer and when present, the loading lever located under the barrel, blued octagon barrel, a fixed small bead for a front sight, a round triggerguard, and walnut grip panels.
- the backstrap and triggerguard may be made of iron, blued, or silver plated brass.
- may also be finished in full silver, gold or nickel plating, or various combinations, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the cylinder will have a scene of a stagecoach hold up and square cylinder stops and marked, "COLT'S PATENT". The cylinder may also be marked in small print, "ENGRAVED BY W. L. ORMSBY NEW-YORK".
- the barrel lug will fit parallel to the front of the cylinder. On models with a loading lever, the right side of the barrel lug may have a "U" shaped cut-out to facilitate the loading of round or conical ball projectiles.

Manufacturer

- the manufacturer is normally marked on top of the barrel within brackets as:
"ADDRESS. COL: COLT."
"LONDON"
- on the first 265 revolvers the manufacturer was normally marked as:
"COL. COLT. LONDON"
or
"SAML COLT. LONDON."
- on the first 265 revolvers the markings may read from the breech to muzzle or vice versa.
- the left side of the receiver/frame is marked as, "COLT'S / PATENT".

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- Range: Numbered from 1 to approximately 11000.
- the whole serial number or a part of the serial number is also marked on the triggerguard, backstrap, bottom of the barrel lug, on top of the flats of the loading lever, and on the cylinder. The last two or three digits of the serial number are marked on the wedge, top flat of the lever lug, and the bottom of the muzzle end of the cylinder pin.
- between serial number 266 and 1,000, a "x" is marked before the serial number on the receiver/frame, barrel, backstrap and cylinder.

Remarks

- the 1849 London Pocket can be broken down into six variations.
- the first variation - The first 265 revolvers were made in Hartford, Connecticut U.S.A. with no markings. They were ship to London were London markings and proof marks were applied.
- the second variation - Between serial number 266 and 1,000, a "x" is marked before the serial number on the receiver/frame, barrel, backstrap and cylinder. The "x" may imply a special run or a special finish. The factory in Hartford supplied parts for these revolvers. These revolvers normally have small round brass triggerguards.
- the third variation - On this model the serial numbers overlap with the second model. This model will have large oval steel triggerguards and steel backstraps.
- the fourth variation - The serial number range is approximately 3,000 to 5,900. The right side of the barrel lug will have an enlarge and more rounded loading channel cut into the barrel lug.
- the fifth variation - The serial number range is approximately 5,901 to 9,100. The grip was larger and comparable the "Hartford English Model Dragoon".
- the sixth variation - From serial number 9,101 to the end of production. These revolvers had the same grip as the fifth model and the loading channel on the right side of the barrel lug was made larger.

Notes

Make

- normally marked on the top of the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"

a small number may be marked:

"SAML COLT" in old english script
or
"ADDRESS COL: COLT. LONDON"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this conversion was developed in 1868 by Alexander Thuer, a Colt field representative and factory marksman. This was a successful attempt to bypass the Rollin White patent on bored through cylinders. The Thuer cylinder is actually bored through, however the tapered design of the cartridges prevent loading from the rear. He assigned the patent to Colt's Manufacturing and production commenced in 1869 and ended in 1872.
- barrel length, grip and receiver/frame finish and features are the same as the conversion base gun and examples are known to exist in all grades including engraved box sets.
- full factory conversions were performed but factory produced conversion kits were also sold for conversion by owners or gunsmiths.
- features include: front loading and ejecting system; cylinder is taper bored to accept the proprietary self contained metallic, centre-fire Thuer cartridges; Thuer ring contains checkered thumb knob which is a loading (moved right) and unloading (moved left) "selector", a rebounding firing pin, a two piece "cascade" ejection system and a spring loaded positioning detent and is removable separately after removing the cylinder; loading rammer is threaded on the inside to accept the Thuer loading tool; face of the hammer is fitted with a hardened round plate for striking the firing pin; a noticeably deepened loading lug on the right side of the barrel.
- all Thuer rings are marked with an "E" under the thumb knob at the ejection position and "PAT.SEPT." over "15.1868" on the side of the ring. There is usually an assembly number marked on the ring, cylinder or both.

Manufacturer

- normally marked on the top of the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"

a small number may be marked:

"SAML COLT" in old english script
or
"ADDRESS COL: COLT. LONDON"

Serial Number

- the serial number is marked on the underside of the receiver/frame.

Remarks

- the thumb knob must be moved to the right to fire.
- cartridges are loaded through the front of the cylinder and are "seated" using the loading lever in the same manner as the percussion loads.
- to eject, the thumb knob is first moved completely to the left exposing a large script "E". The hammer is then cocked and the trigger pulled in the exact manner as if firing. When the hammer falls it ejects the cartridge, either empty or loaded, out through the front of the cylinder.

Notes

Make

- marked on the firearm.

Model

- manufactured from 1850 to 1873.
- approximately 4000 were produced.
- this model was a variant of the successor to the Baby Dragoon, the 1849 Pocket.
- features include:
- no under-barrel loading lever;
- barrel with breech extension and long receiver/frame;
- rounded trigger guard;
- single action only;
- brass grip frame and steel receiver/frame;
- octagonal barrel.

Manufacturer

- marked on the firearm.

Serial Number

- usually found in the 15,000-164,000 range.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

197341 - 1	44 PERCUSSION	6	191	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is normally marked on the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT. HARTFORD CT."
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
or
"ADDRESS COL. COLT LONDON", on revolvers sold through the London office.
- a few models were marked, "SAML COLT", in old english script

Model

- Manufactured from 1851 to 1873.
- The model designation is not marked on the firearm.
- This model is the 44 calibre version of the Colt 1851 "Navy" model, in 36 percussion, and was commonly known as the "Army Model" or "New Model Army".
- May also be known as the "Belt" revolver.
- Features include: blued octagonal or round barrel, a fixed small bead for a front sight; case hardened receiver/frame, either blued or brass; single action trigger mechanism; spurred hammer and the loading lever located under the barrel; silver plated round or square back trigger guard; silver plated or blued iron backstrap; grip panels in various configurations.
- Options include: full silver, gold or nickel plating, or various finish combinations, with or without engraving; ebony, ivory, and oak or pearl grip panels; may contain a detachable shoulder stock option.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- the manufacturer is normally marked on the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT. HARTFORD CT."
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
or
"ADDRESS COL. COLT LONDON", on revolvers sold through the London office.
- a few models were marked, "SAML COLT", in old english script.
- the left side of the receiver/frame is marked, "COLT'S / PATENT"

Action

- External percussion cap ignition.
- Front revolver/cylinder loading.

Remarks

- Common terms existed at the time to define the "type" of firearm based on calibre configuration. All references point to the calibre of 36 percussion belonging to the "Navy" model/version of this firearm, whereas the 44 percussion was known as the "Army" model/version. There are no visual references to confirm or deny the existence of this model, as there are prolific references to the 1851 Navy model with side notes or added data confirming that the .44 CAL were deemed or known as "Army".

- the model designation is normally not marked on the firearm.
- may also be known as the "Belt" revolver.
- this model had a number of enhancements and changes made to it over the years of its production. Therefore, some models are known as "First Model Squareback", "Second Model Squareback", "Third Model", "Fourth Model".
- features include: single action trigger mechanism, case hardened receiver/frame, spurred hammer and the loading lever located under the barrel, blued octagonal barrel, a fixed small bead for a front sight, silver plated round or squareback triggerguard, silver plated or blued iron backstrap, and may have walnut grip panels.
- may also be finished in full silver, gold or nickel plating, or various combinations, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the model is available with a detachable shoulder stock.
- the cylinder will square cylinder stops and a navy battle scene, the Texas Navy's victory over Mexico's Navy. The cylinder will be marked in small print, "ENGAGED 16 MAY 1843", and "COLT'S PATENT". The cylinder may also be marked in small print, "ENGRAVED BY W. L. ORMSBY NEW YORK".
- the barrel lug will fit parallel to the front of the cylinder. The right side of the barrel lug will have a "U" shape where the plunger accesses the cylinder.
- the biggest identifier between the 1851 and 1861 Navy models is that the barrel on the "1851 Navy" is octagonal, while the barrel on the "1861 Navy" is round. Also the barrel lug on the "1851 Navy" fits parallel to the front of the cylinder with the right side of the barrel lug will having a "U" shape where the plunger accesses the cylinder. On the "1861 Navy", the barrel lug will have a "U" shape where the plunger accesses the cylinder and this "U" shape is visible from both sides of the revolver.

Manufacturer

- the manufacturer is normally marked on the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT. HARTFORD CT."
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
or
"ADDRESS COL. COLT LONDON", on revolvers sold through the London office.
- a few models were marked, "SAML COLT", in old english script.
- the left side of the receiver/frame is marked, "COLT'S / PATENT".

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- the serial number range is from 1 to 215,348.
- the whole serial number or a part of the serial number is also marked on the triggerguard, backstrap, bottom of the barrel lug, top flat of the loading lever, and on the cylinder. The last two or three digits of the serial number are marked on the wedge, top flat of the lever lug, cylinder pin.
- revolvers made in London had their own serial number range.

Barrel

- usually equipped with an octagonal barrel.

Other Markings

- the U.S. government purchased approximately 35,000 revolvers. These revolvers are marked "U.S." below the "COLT / PATENT" receiver/frame markings. The U.S. Army purchased 20,000 of these revolvers and inspector's initials may be marked on the grips and various parts of the revolver, receiver/frame, cylinder, backstrap and triggerguard. The U.S. Navy purchased the remaining 15,000 and they were marked "USN" on the backstrap and some revolvers may have inspector's initial on the butt or an anchor on the barrel.
- the Kriegs Marine purchased 1,000 revolvers, serial number range from 31,000 to 32,000. These revolvers are marked "KM" with a serial number on the backstrap. "KM 1" to "KM 1000".
- the Victoria, Australia, Police Trooper purchased several hundred revolvers between the serial number range of 165,800 to 168,700. These revolver a normally marked, "V.P." on the receiver/frame. The bottom of the barrel lug is marked with a letter followed by a number, example "E 25".
- the New South Wales, Police purchased revolvers between the serial number range of 125,800 to 130,600 and 185,600 to 189,400. These revolvers are marked "N.S.W. POLICE" on one side of the barrel lug with a police number on the opposite side. The backstrap may have police markings.
- the New South Wales Goal purchased revolvers between serial numbers 153,400 and 155,900 and 168 to 188,500. These revolvers were marked, "N.S.W.G., "GOAL N.S.W." or "GOAL", with a number.
- the serial number range of the barrel markings are:
from 1 to 74,000
"ADDRESS SAML COLT NEW-YORK CITY",
from 74,001 to 101,000
"ADDRESS SAML COLT. HARTFORD CT.",
from 101,001 to the end of production
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- the Colt 1851 Navy has for variations within the model:
- the First Model Squareback - From serial number 1 to approximately 1,250. Identified by the squareback triggerguard, the wedge screw is located under the wedge, and the wedge notch is on top of the cylinder pin.
- the Second Model Squareback - from serial number 1,250 to 4,200, approximately. Identified by the squareback triggerguard, the wedge screw is located on top of the wedge, and the wedge now goes through the center of the cylinder pin.
- the Third Model - from serial number 4,200 to 85,000, approximately. The basic identifiable feature is the small round triggerguard.
- the Fourth Model - from serial number 8,500 to 215,348, approximately. The basic identifiable feature is the large round triggerguard.
- F. Alexander Thuer, 1869 to 1872 converted some revolvers, to accept a conical bullet. This bullet was loaded by using the loading lever. These revolvers are marked on the Thuer conversion ring as, "PAT.SEP." over "15. 1868", and on the ejection position on the ring with a letter "E" in script. The calibre and barrel lengths were not modified.

Notes

Make

- the make is normally marked on the barrel.

Model

- model is not marked on the firearm.
- manufactured between 1971 and 1986.
- approximately 26,000 firearms were produced.
- this is a modern production of the "Colt 1851 Navy" single action black powder percussion revolver.
- features include: octagonal barrel; open top frame/receiver; hinged and latched loading lever; round cylinder which may or may not be engraved; silver plated or brass backstrap and square back trigger guard; stainless steel or colour case hardened frame/receiver; one piece stock.

Manufacturer

- "Colt" subcontracted the manufacturer of the "Second Generation" percussion revolver.
- normally marked on the barrel.

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- serial number range: 4201 to 25099 in years 1971 to 1978.
- serial numbers were repeated between 24900 and 25099.
- serial number range: 24900 to 28850 in years 1980 to 1981.
- serial number range: 28851 to 29640 in years 1981 to 1986.

Notes

Make

- the firearm is identified as a Colt on the barrel.

Model

- this model is in the Colt Blackpowder "Third Generation" line of firearms and may be known as, "1851 Navy Third Generation Signature Series" or "1851 Navy London Third Generation Signature Series".
- the 1851 Navy version was introduced in 1994 and the Navy London version was introdued in 1997.
- the model designation is not marked on this firearm.
- the backstrap will have a reproduction of Sam Colt's signature.
- features include: single action trigger mechanism, the receiver/frame, loading rammer located under the barrel, and the hammer are all case hardened, the octagonal barrel is blued, the backstrap and trigger guard are silver plated, the rebated cylinder will have square stop slots, and may have walnut grip panels.
- the trigger guard may have a square or a round back. The round trigger guard version is used on the 1851 Navy model. The square back trigger guard is used on the 1851 Navy London model
- the barrel will normally have a New York address and the left side of the receiver/frame is normally marked, "COLT'S PATENT".
- the cylinder will be engraved with a scene depicting sailing ships engaged in a battle and be marked, "ENGAGED 16 MAY 1843".

Manufacturer

- the manufacturers full name is not marked on the firearm.
- the Colt Blackpowder Arms Company, of Brooklyn, New York, U.S.A. is licenced by Colt to manufacturer the Third Generation of Colt firearms, introduced in 1994. With the exception of a few models, all Colt Third Generation firearms will have a reproduction of Sam Colts signature on the backstrap.

Action

- percussion ignition system.

Serial Number

- the serial number is marked on the receiver/frame.

Notes

Make

- the make is normally marked on the barrel as:
"ADDRESS. COL: COLT. LONDON"
or
"ADDRESS. COL. COLT LONDON"
- a few revolvers with serial numbers below 500 were marked:
"ADDRESS SAML COLT NEW-YORK CITY"

Model

- this firearm was manufactured from 1853 to 1857.
- total estimated production is in approximately 42,000.
- the model designation is normally not marked on the firearm.
- the left side of the barrel lug and the cylinder will have London proof marks: a crown over a "V", and a crown over "GP".
- may also be known as the "Belt" revolver.
- this model had a number of enhancements and changes made to it over the years of its production. Therefore, some models are known as "First Model", "Second Model, "Third Model", "Fourth Model".
- features include: single action trigger mechanism; case hardened receiver/frame; loading lever located under the barrel; blued octagonal barrel, a fixed small bead for a front sight; silver plated or blued iron backstrap; and may have walnut grip panels.
- the trigger guard may be made of iron and have a round profile, or be silver plated brass with a round or a square-back profile.
- may also be finished in full silver, gold or nickel plating, or various combinations, with or without engraving.
- may have ebony, ivory, oak or pearl grip panels.
- the cylinder will have square cylinder stops and a navy battle scene, the Texas Navy's victory over Mexico's Navy. The cylinder will be marked in small print, "ENGAGED 16 MAY 1843", and "COLT'S PATENT". The cylinder may also be marked in small print, "ENGRAVED BY W. L. ORMSBY NEW YORK".
- the barrel lug will fit parallel to the front of the cylinder. The right side of the barrel lug will have a "U" shape where the plunger accesses the cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- the manufacturer is normally marked on the barrel as:
"ADDRESS. COL: COLT. LONDON"
or
"ADDRESS. COL. COLT LONDON"
- a few revolvers with serial number below 500 were marked:
"ADDRESS SAML COLT NEW-YORK CITY
- the left side of the reciever/frame is marked, "COLT'S / PATENT".

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- the serial number range is from 1 to 42,000.
- the complete serial number or a part of the serial number is also marked on the trigger guard, backstrap, bottom of the barrel lug, top flat of the loading lever, on the cylinder, the forward end of the cylinder pin and on the bottom of the wedge.
- there are a few examples with a serial number as high as 69,000. These revolvers may have been mis-stamped at the factory, where the 6 was meant to be a 3.

Other Markings

- revolvers purchased by Upper and Lower Canada were marked, "U.C." for Upper Canada, and "L.C." for Lower Canada.
- revolvers purchased by the British government were marked, "WD", below a broad arrow. This mark was normally located on the left side of the barrel lug. Some revolvers have double broad arrows. The two arrows point towards each other. Military issued revolvers will also have additional British proof marks of a crown over a "VR", and a crossed flag motif above the letter, "P". The left grip panel may be marked with a crown over a "WD", and the number "6".

Remarks

- there were four sub-models of the 1851 Navy London:
- First Model - The serial number range is from 1 to approximately 2,000. The first 500 revolvers were made in Hartford, Connecticut, U.S.A. and shipped to London to be completed and given London markings and proof markings. Parts were shipped from Hartford, to be used on revolvers made in London. The identifying features on these revolvers are brass backstraps and small round or square-back trigger guards.
- Second Model - The serial number range is from 1,800 to 3,000 approximately. The identifying features on these revolvers were the barrel markings, which were now all marked, "COL. COLT LONDON", with a mixture of brass or iron trigger guards. The iron trigger guards were replacing the brass trigger guards. The loading lever screws enter from both the left or right side of the revolver.
- Third Model - The serial number range is from 3,000 to 37,500 approximately. All the change or modifications which needed to be done, were done. The revolver remained unchanged until approximately serial number 37,500. The identifying features on these revolvers include; same barrel markings as the Second Model, large round iron trigger guard, and the loading lever screw enters from the let side of the revolver.
- Fourth Model - The serial number range is from 37,500 to 42,000 approximately. Same as the Third Model except the cylinder markings. On these revolvers the cylinder markings , "ENGRAVED BY W. L. ORMSBY NEW-YORK", were removed.

Notes

Make

- the make is marked on top of the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S.AMERICA"
or
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this model was converted to metallic cartridge use in 1873-76 by Colt using the patented Richard-Mason method/design.
- the total estimated production is 3,800. Approximately 2,000 are 38-rim fire and 1,800 are 38-centre fire.
- the model designation is normally not marked on the firearm.
- this model was built in several ways: using finished 1851 Navy models that were then bored out and converted; by using remaining production parts of 1851 Navy percussion models; and by using newly produced parts assemblies.
- the conversion included a new barrel and barrel lug, installing a breechplate without an integral rear sight, a loading gate and an integral ejector rod on the right side of the barrel. The front of the barrel lug has a smooth "S" curve contour and the rear of the barrel lug will be parallel to the cylinder on both sides.
- features include: single action trigger mechanism, blued receiver/frame and round barrel, case hardened spurred hammer, breechplate, and the loading gate, no topstrap, a fixed small bead for a front sight, a round silver plated brass triggerguard, and may have walnut grip panels.
- the loading lever, which was located under the barrel, has been replaced with an ejector rod located on the right side of the barrel.
- may also be finished in full nickel plating, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the cylinder will have square cylinder stops and a navy battle scene, the Texas Navy's victory over Mexico's Navy. The cylinder will be marked in small print, "ENGAGED 16 MAY 1843", and "COLT'S PATENT". The cylinder may also be marked in small print, "ENGRAVED BY W. L. ORMSBY NEW YORK".
- the left side of the receiver/frame may be marked: "COLT'S PATENT" or "PAT. JULY. 25 1871" over "PAT. JULY. 2. 1872".

Manufacturer

- the manufacturer is marked on top of the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S.AMERICA"
or
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT".
- the left side of the receiver/frame may be marked, "COLT'S / PATENT" or with a patent date.

Serial Number

- serial numbers are marked on the underside of the receiver/frame at the junction of the trigger guard, and barrel assembly.
- numerous parts numbers may be encountered stamped on this firearm and should not be taken to be the serial number.
- serial numbers 1-3800 were assembled from unused percussion assemblies.
- serial numbers 41000-91000 are percussion models having been converted to metallic cartridge use for the US Navy.
- other numbers may be encountered from the 1851 serial number range, 1-215348, as those examples would be privately owned samples sent in for factory conversion by their owners.

Calibre

- some samples of this model will still have calibre markings of ".36CAL" on the sides of their receiver/frames and/or triggerguard. This refers to the previous percussion calibre prior to conversion to accept metallic cartridges.

Remarks

- the barrel may identify the 1851 Navy Richards-Mason Conversion from the 1861 Navy Richards-Mason Conversion . The 1851 Navy was given a new barrel with the "S" curve on the bottom of the lug and an ejector rod attached to the right side of the barrel. The 1861 Navy had the original style of barrel reworked and an ejector rod attached to the right side of the barrel. There is a "U" shape where the plunger accesses the cylinder and this "U" shape is visible from both sides of the revolver.

Notes

Make

- normally marked on the top of the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"

a small number may be marked:

"SAML COLT" in old english script
or
"ADDRESS COL: COLT. LONDON"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this conversion was developed in 1868 by Alexander Thuer, a Colt field representative and factory marksman. This was a successful attempt to bypass the Rollin White patent on bored through cylinders. The Thuer cylinder is actually bored through, however the tapered design of the cartridges prevent loading from the rear. He assigned the patent to Colt's Manufacturing and production commenced in 1869 and ended in 1872.
- barrel length, grip and receiver/frame finish and features are the same as the conversion base gun and examples are known to exist in all grades including engraved box sets.
- full factory conversions were performed but factory produced conversion kits were also sold for conversion by owners or gunsmiths.
- features include: front loading and ejecting cylinder, which is taper bored to accept the proprietary self contained metallic, centre-fire Thuer cartridges; Thuer ring contains checkered thumb knob which is a loading (moved right) and unloading (moved left) "selector", a rebounding firing pin, a two piece "cascade" ejection system and a spring loaded positioning detent and is removable separately after removing the cylinder; loading rammer is threaded on the inside to accept the Thuer loading tool; face of the hammer is fitted with a hardened round plate for striking the firing pin; a noticeably deepened loading lug on the right side of the barrel.
- all Thuer rings are marked with an "E" under the thumb knob at the ejection position and "PAT.SEPT." over "15.1868" on the side of the ring. There is usually an assembly number marked on the ring, cylinder or both.

Manufacturer

- normally marked on the top of the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"

a small number may be marked:

"SAML COLT" in old english script
or
"ADDRESS COL: COLT. LONDON"

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- the whole serial number or a part of the serial number may also marked on the triggerguard, backstrap, bottom of the barrel lug, top flat of the loading lever, and on the cylinder. The last two or three digits of the serial number may also be marked on the wedge, top flat of the lever lug, cylinder pin.
- revolvers made in London had their own serial number range.

Calibre

- 36 Thuer was available in 2 different lengths, the longer of which was used in the 1851 Navy conversions.

Remarks

- the thumb knob must be moved to the right to fire.
- cartridges are loaded through the front of the cylinder and are "seated" using the loading lever in the same manner as the percussion loads.
- to eject, the thumb knob is first moved completely to the left exposing a large script "E". The hammer is then cocked and the trigger pulled in the exact manner as if firing. When the hammer falls it ejects the cartridge, either empty or loaded, out through the front of the cylinder.

Notes

Make

- the make is normally marked on the top of the barrel as:
"COLT'S" over "PATENT" followed by "ADDRESS SAML COLT" over "HARTFORD CT. U.S.A.", with three large stars,
or
"COLT'S PT" over "1855" followed by "ADDRESS COL. COLT" over "HARTFORD CT. U.S.A.", with three large "+" and one hand print,
or
"ADDRESS COL. COLT" over "NEW-YORK U.S.A."
- some revolvers in the serial number range of 12,000 may be marked:
"ADDRESS COL. COLT" over "LONDON".
- tha barrel markings will read from the muzzle towards the breech.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this firearm was manufactured from 1855 to 1873.
- total estimated production of approximately 40,000.
- the model designation is normally not marked on the firearm
- this revolver may be found is the following sub-variants; 1, 1A, 2, 3, 3A, 4, 5, 5A, 6, 6A, 7 and 7A.
- this revolver is easily identified by the cylinder pin, which protrudes out at the rear of the revolver under the hammer. The hammer is mounted on the right side of the receiver/frame is bends over the top of the cylinder pin to strike the cylinder, hence the name Sidehammer.
- features include: single action spurred trigger mechanism, blued receiver/frame with a top strap, case hardened spurred hammer and the loading lever located under the barrel, blued octagon or round barrel, round or full fluted cylinder, a fixed small bead for a front sight, and walnut grip panels.
- The loading lever rotates on gear. As the lever is pulled downward, the gear rotates along notches on the bottom of the barrel, forcing the plunger in the cylinder.
- may also be finished in full silver, or gold plating in various combinations, with or without engraving.
- the cylinder may have a scene of a cabin and Indian fight or a stagecoach hold up. The cylinder will be marked in large print "COLT'S PATENT", and in small print, "ENGRAVED BY W. L. ORMSBY NEW-YORK".
- cylinder which have full-length flutes will have one flute marked, "PATENTED SEPT. 10TH 1850".
- the barrel lug will have a distinctive "U" shaped cut-out to facilitate the loading of round or conical ball projectiles. The "U" shape is visible from both side of the firearm.
- F. Alexander Thuer, 1869 to 1872 converted some revolvers, to accept a conical bullet. This bullet was loaded by using the loading lever. These revolvers are marked on the Thuer conversion ring as, "PAT.SEP." over "15. 1868", and on the ejection position on the ring with a letter "E" in script.

Manufacturer

- the manufacturer is normally marked on the top of the barrel as:
"COLT'S" over "PATENT" followed by "ADDRESS SAML COLT" over "HARTFORD CT. U.S.A.", with three large stars,
or
"COLT'S PT" over "1855" followed by "ADDRESS COL. COLT" over "HARTFORD CT. U.S.A.", with three large "+" and one hand print,
or
"ADDRESS COL. COLT" over "NEW-YORK U.S.A."
- some revolvers in the serial number range of 12,000 may be marked:
"ADDRESS COL. COLT" over "LONDON".
- tha barrel markings will read from the muzzle towards the breech.

Serial Number

- the serial number is marked on the butt strap of the receiver/frame and under the grip panels.
- for the 28 PERCUSSION, serial number range is 1 to approximately 30,000.
- for the 31 PERCUSSION, serial number range 1 to approximately 14,000.
- the whole serial number is also marked on the bottom of the barrel, and on the cylinder.

Calibre

- on some revolvers the left side of the receiver/frame behind the recoil shield may be marked vertically, "31 CAL".

Other Markings

- The markings on the variations are:
variation 1 -Colt's first style of address, a round cylinder which is marked with cabin and Indian fight scene.
variation 1A - Colt's first style of address, a round cylinder which is marked with cabin and Indian fight scene.
variation 2 - Colt's second style of address, a round cylinder which is marked with cabin and Indian fight scene.
variation 3 - Colt's second style of, the cylinder has full-length flutes with one flute marked, "PATENTED SEPT. 10TH 1850".
variation 3A -Same as 3.
variation 4 - Colt's second style of address, the cylinder has full-length flutes with one flute marked, "PATENTED SEPT. 10TH 1850", and the cylinder pin is usually marked, "MAY 4th 1858".
variation 5 - Colt's third style of, the cylinder has full-length flutes with one flute marked, "PATENTED SEPT. 10TH 1850", and the cylinder pin is marked, "MAY 4th 1858", the left side of the receiver/frame behind the recoil shield may be marked vertically, "31 CAL".
variation 5A - Same as 5.
variation 6 - Colt's third style of address, a round cylinder which is marked with a stage coach hold up scene, and the cylinder pin is marked, "MAY 4th 1858", the left side of the receiver/frame behind the recoil shield may be marked vertically, "31 CAL".
variation 6A - Same as 6.
variation 7 - Colt's third style of address, a round cylinder which is marked with a stage coach hold up scene, and the cylinder pin is not marked, the left side of the receiver/frame behind the recoil shield may be marked vertically, "31 CAL".
variation 7A - Same as 7.
- some of the variations 7 and 7A may have a "London" address marked on them. These models are in the serial number range of 12,000 and will have a letter, "L", with the serial number.
-cylinders with scenes marked on them are also marked, "COLT'S PATENT" and "ENGRAVED BY W. L. ORMSBY NEW YORK".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- The serial number and differences in the variations are:
variation 1 - approximately 1 to 175. Octagonal barrel. 28 percussion. Has an octagonal loading lever, the cylinder pin retaining screw is on the right side, and a round cylinder.
variation 1A - approximately 176 to 384. Octagonal barrel. 28 percussion. Has an octagonal loading lever, the cylinder pin retaining screw is on the right side, and a round cylinder.
variation 2 - approximately 476 to 25,000. Octagonal barrel. 28 percussion. Has a round loading lever, the cylinder retaining screw is on the right side, and a round cylinder.
variation 3 - approximately 25,001 to 30,000. Octagonal barrel. 28 percussion. Has a round loading lever, the cylinder pin retaining screw is on the left side, and a fluted cylinder.
variation 3A - approximately 1 to 1350. Same as 3, but in 31 percussion.
variation 4 - approximately 1,351 to 2,400. Octagonal barrel. 31percussion. Has a round loading lever, the cylinder pin retaining screw is on the left side, a fluted cylinder.
variation 5 - approximately 2,401 to 8,000. 89mm round barrel. 31percussion. Has a round loading lever, the cylinder pin retaining screw is on the left side, and a fluted cylinder.
variation 5A - approximately 2,401 to 8,000. Same as 5, but with a barrel length of 114mm.
variation 6 - Serial number range approximately 8,001 to 11,074. 89mm round barrel. 31percussion. Has a round loading lever, the cylinder pin retaining screw is on the left side, and a round cylinder.
variation 6A - approximately 8,001 to 11,074. Same as 6, but with a barrel length of 114mm.
variation 7 - approximately 11,075 to 14,000. 89mm round barrel. 31percussion. Has a round loading lever, a round cylinder, the cylinder pin retaining screw is through the side of the cylinder, and a round cylinder.
variation 7A - approximately 11,075 to 14,000.Same as 7, but with a barrel length of 114mm.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- approximately 17,200 of these revolving rifles were produced at Colt's Hartford, Connecticut, factory between 1855 and 1864; Colt made both Sporting and Military Rifles and Carbines, as well as 1855 Revolving Shotguns. - all of these rifles were descended from the 1855 Sidehammer Revolver design, with a solid frame and a cylinder axis pin running through the cylinder from the rear. - blued or browned barrel, frame, and cylinder (most barrels half-octagon/half-round, but some made full-octagonal), varnished walnut straight-grip stock with crescent buttplate and either no forearm or a full-length/half-length forearm (Military rifles will have full-length forearms with barrel bands), and an exposed hammer mounted on the right sideplate. - these rifles/carbines also have an integral frame mounted loading-lever at the bottom front, and depending on when they were made, have one of three styles of trigger-guard; an "SAA"- type with two additional "hooks" projecting downwards off the lower tang (fore and aft of the trigger-guard proper), an ordinary "SAA"- style trigger-guard (most often found on Military rifles or carbines), or a full-grip finial-style trigger-guard and tang. - three distinct cylinder types can be seen on these rifles; a plain smooth cylinder with no markings (some Military types), a smooth cylinder with a roll-engraved scene of a hunter and five deer (first Sporting Rifle), and a fully-fluted cylinder with smooth, rounded transitions between flutes (most common, and seen on both Military and Sporting rifles/carbines).
Manufacturer	- marked on the barrel.
Action	- single-action percussion revolving rifle.
Serial Number	- normally stamped on the receiver/frame (some stamped only on the cylinder), and on other major sub-assemblies.
Shots	- some eight-shot cylinders for these rifles have also been noted, but its unknown whether these were a production item or not.

Notes

Model

- approximately 1,100 of these revolving shotguns were produced at Colt's Hartford, Connecticut, factory between 1855 and 1864; Colt also made both Sporting and Military Rifles and Carbines, in addition to Revolving Shotguns.
- all of these shotguns were descended from the 1855 Sidehammer Revolver design, with a solid frame and a cylinder axis pin running through the cylinder from the rear.
- blued or browned barrel, frame, and cylinder (most barrels round with an octagonal section at the frame), varnished walnut straight-grip stock with straight buttplate and a half-length forearm, and an exposed hammer mounted on the right sideplate.
- these shotguns also have an integral frame-mounted loading-lever at the bottom front, and depending on when they were made, have one of two styles of trigger-guard; an ordinary "SAA"-style trigger-guard (most often found on 20 GA examples), or a full-grip finial-style trigger-guard and tang (most often found on 10 GA examples)
- these shotguns have fully-fluted cylinders, with smooth, rounded transitions between flutes.

Manufacturer

- marked on the barrel.

Action

- single-action percussion revolving shotgun.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- normally stamped on the receiver/frame, and on other major sub-assemblies.
Barrel	- other barrel lengths may also exist.
Calibre	- the 10 Guage calibre designation may be marked on the firearm as "75 Cal" and the 20 Guage designation as "60 Cal".

Notes

Make - make is marked on the top of the barrel as "COLT'", with "COLTS" / "PATENT" marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1860 to 1873.
- model designation is not marked on the model.
- may also be known as "New Model Army" or "New Army".
- this model was produced in both a military and civilian version.
- features on the military version include: single action, marked "U.S." on the left side of the receiver/frame, dull blue receiver/frame and barrel, rebated or fluted cylinder, loading lever located under the barrel, no plating on the trigger guard and backstrap, colour case hardened loading lever and spurred hammer, fixed blade front sight, and may have walnut grip panels.
- features on the civilian version include: single action, rebated or fluted cylinder, loading lever located under the barrel, colour case hardened receiver/frame, spurred hammer and loading lever, high gloss blue barrel and backstrap, silver plated forestrap and trigger guard, fixed blade front sight and may have walnut grip panels.
- civilian models may have varying levels of engraving and/or specific parts may be nickel, gold or silver plated or may be full nickel, silver or gold plated.
- the rebated cylinder will have a picture of a navel engagement scene and will be marked with a patent date of "PAT. SEPT. 10th 1850" or "PATENTED SEPT. 10th 1850".
- the fluted cylinder will normally have a patent date of "PATENTED SEPT. 10th 1850" marked in one of the cylinder flutes.
- a shoulder stock was available for both versions.
- the barrel lug will have a "U" shape where the plunger accesses the cylinder. This "U" shape is visible from both the left and right side of the revolver.
- F. Alexander Thuer, 1869 to 1872 converted some revolvers, to accept a conical bullet. This bullet was loaded by using the loading lever. These revolvers are marked on the Thuer conversion ring as, "PAT.SEP." over "15. 1868", and on the ejection position on the ring with a letter "E" in script. The calibre and barrel lengths were not modified.

Manufacturer

- manufacturer's designation is marked on top of barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S.AMERICA"
or
"ADDRESS SAML COLT HARTFORD CT"
or
"ADDRESS COL COLT LONDON"

Serial Number

- serial number is marked on the underside of the receiver/frame in front of the trigger guard.
- serial number range is from 1 to approximately 200,500.
- serial number is also marked on the trigger guard, underside of the barrel lug and may be marked on the cylinder.
- the last four or five digits in the serial number may also be marked on the wedge, bottom of the muzzle, end of the cylinder pin and on the grip frame.
- with fluted cylinders, the serial number is marked in one of the flutes or on the rear of the cylinder.
- revolvers with the "London" address or British proofs and a New York address may have a "L" in the serial number.

Calibre

- calibre designation may be marked on the left shoulder of the trigger guard strap as:
"44CAL".

Other Markings

- revolvers with the "London" address will have London proof marks: a crown over a "V", and a crown over "GP". These proof marks are located on the left side of the barrel lug and on the cylinder.

Notes

Make

- "COLT'S PT.F.A. MFG. CO. HARTFORD CT. U.S.A." is marked on the barrel.
- Colt's logo is marked on the left side of the receiver/frame.

Model

- in production only in 1961.
- 1860 Army Civil War Centennial Commemorative is a 7/8 scale reproduction of the Colt model 1860 Army revolver.
- 1860 Army Civil War Centennial Commemorative although patterned to look like a revolver the cylinder does not rotate, only one cartridge can be loaded.
- "CIVIL WAR CENTENIAL MODEL" is marked on the left side of the barrel.
- features include: blued round barrel; blued rammer assembly mounted under the barrel; gold plated open top receiver/frame with a blued non-fluted cylinder; exposed spur hammer; single action trigger mechanism; gold plated trigger guard, backstrap, and barrel wedge key; walnut grips.

Manufacturer

- "COLT'S PT.F.A. MFG. CO. HARTFORD CT. U.S.A." is marked on the barrel.
- Colt's logo is marked on the left side of the receiver/frame.

Action

- although patterned to look like a revolver the cylinder does not rotate, only one cartridge can be loaded.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number range was from 50W to 24189W.
- serial numbers from 1W to 49W and 124W to 149W were not used.

Calibre

- the calibre designation is marked on the left side of the barrel as:
".22 CALIBRE SHORT".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- although this model looks like a Colt 1860 Army revolver it will hold and fire only one 22 SHORT cartridge.
- some consecutively serialized samples were shipped as cased pairs.

- this model is in the Colt Blackpowder Third Generation Line of firearms and may be known as, "1860 Army Gold U.S. Cavalry Third Generation Signature Series".
- the backstrap will have a facsimile of Samuel Colt's signature.
- features include: single action, a case hardened receiver/frame and hammer, and the loading rammer located under the barrel, a round blued barrel, the cylinder be rebated and finished in 24-kt gold with the two cross sabers emblem and marked, "U.S. 1860", the cylinder will have square cylinder stop slots, the backstrap and a round trigger guard are brass, and may have walnut grip panels.
- the barrel will normally have a N.Y. address and the left side of the receiver/frame is normally marked, "COLT'S PATENT".

Manufacturer

- the manufacturer is normally not marked on the firearm.

Action

- percussion ignition system.

Serial Number

- the serial number is marked on the receiver/frame.

Calibre

- the calibre designation is normally marked on the left side of the trigger guard as, "44 CAL.".

37947 - 2	44 COLT	6	203	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- maker's designation is marked on the barrel.
- the make is marked on the barrel as:
"ADDRESS COL. SAM L COLT NEW-YORK U.S. AMERICA".

Model

- this firearm was manufactured from 1873 to 1878.
- the total estimated production is 9,000.
- the model designation is normally not marked on the firearm.
- this model is an 1860 Army percussion revolver that has been converted to fire 44 centre fire cartridges.
- the conversion included machining the barrel and breech area and installing a breechplate with an integral rear sight, a loading gate and an integral ejector rod.
- features include: single action trigger mechanism, blued receiver/frame and round barrel, case hardened spurred hammer, Richards breechplate, and the loading gate, no topstrap, a fixed small bead for a front sight, a round silver plated brass triggerguard, silver plated brass backstrap, and may have walnut grip panels.
- the loading lever, which was located under the barrel, has been replaced with an ejection rod located on the right side of the barrel.
- may also be finished in full nickel plating, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the rebated cylinder will have a picture of a naval engagement scene and will be marked with a patent date of "PAT. SEPT. 10th 1850" or "PATENTED SEPT. 10th 1850".
- the left side of the receiver/frame may be marked: "PAT. JULY. 25 1871" over "PAT. JULY. 2. 1872".
- the standard conversions featured 6 cylinder notches, however some will feature 12 cylinder notches.
- the barrel lug will have a "U" shaped cut-out below the cylinder axis pin which was used to facilitate the loading of round or conical ball projectiles prior to conversion. This "U" shape is visible from both sides of the revolver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer's designation is marked on the barrel as:
"ADDRESS COL. SAM L COLT NEW-YORK U.S. AMERICA"
- the left side of the receiver/frame is marked, "COLT'S / PATENT".

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- the serial number range is from 167,000 to 200,614, approximately.
- serial number is also marked on the trigger guard, underside of the barrel lug, the backstrap, and on the cylinder. The last four or five digits in the serial number may also be marked on the wedge, bottom of the muzzle, end of the cylinder pin and on the grip frame.
- this revolver is also marked with a conversion serial number from 1 to 9,000. This number is may be marked above or below the original serial number, on the loading gate, breechplate, cylinder, barrel lug, on top of the cylinder pin.
- the U.S. Government returned 1,200 revolvers for the Richards conversion system. The conversion was done at the Springfield Armory. These revolvers are marked "U.S." on the left side of the barrel lug and were marked with an "A" suffix followed by two or three sequential numbers. This number is may be marked on the loading gate, breechplate, cylinder, barrel lug, on top of the cylinder pin.

Calibre

- calibre designation is stamped on the left side of the trigger guard strap as:
"44 CAL"

Other Markings

- markings on left side of receiver/frame:
- PAT. JULY. 25 1871 -
- PAT. JULY. 2. 1872 -

Notes

Make

- the make is normally marked on top of barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
or
"COLT'S PT. F. A. MFG. Co HARTFORD, CT. U.S.A.".

Model

- this firearm was manufactured from 1877 to 1878. A few early prototypes were made in 1871 to 1872.
- the total estimated production is 2,100.
- the model designation is normally not marked on the firearm.
- this model is an 1860 Army percussion revolver that has been converted to fire 44 centre fire cartridges.
- the conversion included a new barrel and barrel lug, and installing a breechplate without an integral rear sight, and a loading gate and an integral ejector rod.
- features include: single action trigger mechanism, blued receiver/frame and round barrel, case hardened spurred hammer, breechplate, and the loading gate, no topstrap, a fixed small bead for a front sight, a round silver plated brass triggerguard, and may have walnut grip panels.
- the loading lever, which was located under the barrel, has been replaced with an ejection rod located on the right side of the barrel.
- may also be finished in full nickel plating, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the rebated cylinder will have a picture of a naval engagement scene and will be marked with a patent date of "PAT. SEPT. 10th 1850" or "PATENTED SEPT. 10th 1850".
- the left side of the receiver/frame may be marked: "PAT. JULY. 25 1871" over "PAT. JULY. 2. 1872".
- the barrel lug will fit parallel to the cylinder on both sides.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is normally marked on top of barrel as: "ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA" or "COLT'S PT. F. A. MFG. Co HARTFORD, CT. U.S.A.". - the left side of the receiver/frame may be marked, "COLT'S / PATENT".
Serial Number	- the serial number is marked on the underside of the receiver/frame. - the serial number range is from 5,800 to 7,900, approximately. - serial number is also marked on the trigger guard, underside of the barrel lug, the backstrap, and on the cylinder. The last four or five digits in the serial number may also be marked on the wedge, bottom of the muzzle, end of the cylinder pin and on the grip frame.
Calibre	- the calibre designation is marked on the left shoulder of the trigger guard strap as, "44 CAL".
Other Markings	- top of barrel marked: "-ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA" or "COLT'S PT. F. A. MFG. Co HARTFORD, CT. U.S.A." - left side of frame: "-PAT. JULY. 25, 1871-" and "PAT. JULY. 2, 1872". - "44 CAL" stamped on left side of trigger guard strap. - cylinders engraved with naval battle scene.
Remarks	- the visible difference between the 1860 Colt Army Richard Conversion and the 1860 Army Richards-Mason Conversion is the front barrel lug. The 1860 Colt Army Richard Conversion retained the original barrel and barrel lug; the barrel lug will have a "U" shape where the plunger accesses the cylinder. This "U" shape is visible from both the left and right side of the revolver. The 1860 Army Richards-Mason Conversion was given a new barrel with a new style of barrel lug; the front of the barrel lug has a smooth "S" curve contour and the rear of the barrel lug will be parallel to the cylinder on both sides.

127954 - 3	44 THUER	6	203	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- normally marked on the top of the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"

a small number may be marked:

"SAML COLT" in old english script
or
"ADDRESS COL: COLT. LONDON"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this conversion was developed in 1868 by Alexander Thuer, a Colt field representative and factory marksman. This was a successful attempt to bypass the Rollin White patent on bored through cylinders. The Thuer cylinder is actually bored through, however the tapered design of the cartridges prevent loading from the rear. He assigned the patent to Colt's Manufacturing and production commenced in 1869 and ended in 1872.
- barrel length, grip and receiver/frame finish and features are the same as the conversion base gun and examples are known to exist in all grades including engraved box sets.
- full factory conversions were performed but factory produced conversion kits were also sold for conversion by owners or gunsmiths.
- features include: front loading and ejecting cylinder, which is taper bored to accept the proprietary self contained metallic, centre-fire Thuer cartridges; Thuer ring contains checkered thumb knob which is a loading (moved right) and unloading (moved left) "selector", a rebounding firing pin, a two piece "cascade" ejection system and a spring loaded positioning detent and is removable separately after removing the cylinder; loading rammer is threaded on the inside to accept the Thuer loading tool; face of the hammer is fitted with a hardened round plate for striking the firing pin; a noticeably deepened loading lug on the right side of the barrel.
- all Thuer rings are marked with an "E" under the thumb knob at the ejection position and "PAT.SEPT." over "15.1868" on the side of the ring. There is usually an assembly number marked on the ring, cylinder or both.

Manufacturer

- normally marked on the top of the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"

a small number may be marked:

"SAML COLT" in old english script
or
"ADDRESS COL: COLT. LONDON"

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- the whole serial number or a part of the serial number may also marked on the triggerguard, backstrap, bottom of the barrel lug, top flat of the loading lever, and on the cylinder. The last two or three digits of the serial number may also be marked on the wedge, top flat of the lever lug, cylinder pin.
- revolvers made in London had their own serial number range.

Remarks

- the thumb knob must be moved to the right to fire.
- cartridges are loaded through the front of the cylinder and are "seated" using the loading lever in the same manner as the percussion loads.
- to eject, the thumb knob is first moved completely to the left exposing a large script "E". The hammer is then cocked and the trigger pulled in the exact manner as if firing. When the hammer falls it ejects the cartridge, either empty or loaded, out through the front of the cylinder.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
17568 - 1	36 PERCUSSION	6	191	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is normally marked on the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA".

Model

- this firearm was manufactured from 1861 to 1873.
- total estimated production is in excess of 38,000.
- the model designation is normally not marked on the firearm.
- features include: single action trigger mechanism, case hardened receiver/frame, spurred hammer and the loading lever located under the barrel, blued octagonal barrel, a fixed small bead for a front sight, a round silver plated brass triggerguard, silver plated brass backstrap, and may have walnut grip panels.
- may also be finished in full silver, gold or nickel plating, or various combinations, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the model is available with a detachable shoulder stock. On this model the backstrap is blued.
- the cylinder will square cylinder stops and a navy battle scene, the Texas Navy's victory over Mexico's Navy. The cylinder will be marked in small print, "ENGAGED 16 MAY 1843", and "COLT'S PATENT". The cylinder may also be marked in small print, "ENGRAVED BY W. L. ORMSBY NEW YORK". A few revolvers were manufactured with a fluted cylinder. One of the flutes will be marked, "PAT. SEPT 10TH 1850".
- the barrel lug will fit parallel to the front of the cylinder. The right side of the barrel lug will have a "U" shape where the plunger accesses the cylinder cut-out to facilitate the loading of round or conical ball projectiles.
- the biggest identifier between the 1851 and 1861 Navy models is that the barrel on the "1851 Navy" is octagonal, while the barrel on the "1861 Navy" is round. Also the barrel lug on the "1851 Navy" fits parallel to the front of the cylinder with the right side of the barrel lug will having a "U" shape where the plunger accesses the cylinder. On the "1861 Navy", the barrel lug will have a "U" shape where the plunger accesses the cylinder and this "U" shape is visible from both sides of the revolver.

Manufacturer

- the manufacturer is normally marked on the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA".
- the left side of the receiver/frame is marked, "COLT'S / PATENT".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the underside of the receiver/frame. - the serial number range is from 1 to 38,843. - serial number is also marked on the trigger guard, underside of the barrel lug, the backstrap, and on the cylinder. On fluted cylinders the serial number is marked in one of the flutes or on the rear of the cylinder. The last four or five digits in the serial number may also be marked on the wedge, bottom of the muzzle, end of the cylinder pin and on the grip frame.
Calibre	- the calibre designatioin is marked on the left side of the triggerguard strap as, "36 CAL".
Other Markings	- on revolvers purchased by the U.S. government, the receiver/frame is marked "U.S." below the "COLT / PATENT", and inspector's initials may be marked on the grips and various parts of the revolver. The U.S. Navy purchased approximately 650 and they were marked "USN" on the buttstrap.
Remarks	- F. Alexander Thuer, 1869 to 1872 converted some revolvers, to accept a conical bullet. This bullet was loaded by using the loading lever. These revolvers are marked on the Thuer conversion ring as, "PAT.SEP." over "15. 1868", and on the ejection position on the ring with a letter "E" in script. The calibre and barrel lengths were not modified.

Notes

Make

- make is marked on the firearm.

Model

- introduced in 1995.
- features include: fixed blade front sight, notched hammer rear sight, round barrel, creeping style loading lever, engraved cylinder, case hardened receiver/frame, one piece walnut grip, blued steel backstrap, steel trigger guard and barrel.
- facsimile of Samuel Colt's signature on the backstrap.
- found with the original Colt markings.
- the model designation is not marked on this firearm.
- this model is in the Colt Blackpowder "Third Generation" line of firearms and may be known as, "1861 Navy Third Generation Signature Series".
- the barrel will normally have a New York address and the left side of the receiver/frame is normally marked, "COLT'S PATENT".

Manufacturer

- the manufacturers full name is normally not marked on the firearm.
- the Colt Blackpowder Arms Company, of Brooklyn, New York, U.S.A. is licenced by Colt to manufacturer the Third Generation of Colt firearms, introduced in 1994. With the exception of a few models, all Colt Third Generation firearms will have a reproduction of Sam Colts signature on the backstrap.

Action

- percussion ignition system.

Serial Number

- the serial number is marked on the receiver/frame.

Calibre

- the calibre designation is normally marked on the left side of the trigger guard as, "36 CAL.".

- the firearm is identified as a Colt on the barrel.

Model

- introduced in 1996.
- the model designation is not marked on this firearm.
- this model is in the Colt Blackpowder "Third Generation" line of firearms and may be known as, "1860 Navy General Custer Commemorative Third Generation Signature Series".
- the backstrap will have a reproduction of Sam Colt's signature.
- features include: single action trigger mechanism, the receiver/frame, loading rammer located under the barrel, barrel, backstrap, trigger guard, and the unfluted cylinder are all finished in a brilliant antique silver with engraving, the cylinder will have square stop slots, and may have rosewood grip panels with a raised eagle over a shield on the left panel and a checkered right panel.
- the barrel will normally have a New York address and the left side of the receiver/frame is normally marked, "COLT'S PATENT".

Manufacturer

- the manufacturers full name is not marked on the firearm.
- the Colt Blackpowder Arms Company, of Brooklyn, New York, U.S.A. is licenced by Colt to manufacturer the Third Generation of Colt firearms, introduced in 1994. With the exception of a few models, all Colt Third Generation firearms will have a reproduction of Sam Colts signature on the backstrap.

Action

- percussion ignition system.

Calibre

- the calibre designation is normally marked on the left side of the trigger guard as "36 CAL".

Remarks

- this model includes ornate scrollwork and special left grip incorporating the US Eagle and Shield.

Notes

Make

- the manufacturer is marked on top of the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S.AMERICA"

Model

- this firearm was manufactured from 1873 to 1876.
- the total estimated production is 2,200. Approximately 400 are 38 Rim-Fire and 1,800 are 38 Centre-Fire calibre.
- the model designation is normally not marked on the firearm.
- Colt used the patented Richard-Mason conversion to converted this model to use a metallic cartridge.
- this model was built in several ways: using finished 1861 Navy models that were then bored out and converted; by using remaining production parts of 1861 Navy percussion models; and by using newly produced parts assemblies.
- the conversion included a new barrel and barrel lug, and installing a breechplate without an integral rear sight, and a loading gate and an integral ejector rod on the right side of the barrel. The front of the barrel lug has a smooth "S" curve contour and the rear of the barrel lug will be parallel to the cylinder on both sides.
- features include: single action trigger mechanism, blued receiver/frame and round barrel, case hardened spurred hammer, breechplate, and the loading gate, no topstrap, a fixed small bead for a front sight, a round silver plated brass or blued triggerguard, and may have walnut grip panels.
- the loading lever, which was located under the barrel, has been replaced with an ejection rod located on the right side of the barrel.
- may also be finished in full nickel plating, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the cylinder will square cylinder stops and a navy battle scene, the Texas Navy's victory over Mexico's Navy. The cylinder will be marked in small print, "ENGAGED 16 MAY 1843", and "COLT'S PATENT". The cylinder may also be marked in small print, "ENGRAVED BY W. L. ORMSBY NEW YORK".
- the left side of the receiver/frame may be marked: "COLT'S PATENT" or "PAT. JULY. 25 1871" over "PAT. JULY. 2. 1872".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is marked on top of the barrel as: "ADDRESS COL. SAML COLT NEW-YORK U.S.AMERICA" - the left side of the receiver/frame may be marked, "COLT'S / PATENT" or with a patent date.
Serial Number	- the serial number is marked on the underside of the receiver/frame. - the serial number range is from 1 to 38,843. - serial number is also marked on the trigger guard, underside of the barrel lug, the backstrap, and on the cylinder. On fluted cylinders the serial number is marked in one of the flutes or on the rear of the cylinder. The last four or five digits in the serial number may also be marked on the wedge, bottom of the muzzle, end of the cylinder pin and on the grip frame.
Calibre	- some samples of this model will still have calibre markings of ".36 CAL" on the left side of the triggerguard. This refers to the previous percussion calibre prior to conversion to accept metallic cartridges.
Remarks	- the barrel may identify the 1851 Navy Richards-Mason Conversion from the 1861 Navy Richards-Mason Conversion . The 1851 Navy was given a new barrel with the "S" curve on the bottom of the lug and an ejector rod attached to the right side of the barrel. The 1861 Navy had the original style of barrel reworked and an ejector rod attached to the right side of the barrel. There is a "U" shape where the plunger accesses the cylinder and this "U" shape is visible from both sides of the revolver.

127957 - 1	36 THUER NAVY	6	191	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- normally marked on the top of the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"

a small number may be marked:

"SAML COLT" in old english script
or
"ADDRESS COL: COLT. LONDON"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this conversion was developed in 1868 by Alexander Thuer, a Colt field representative and factory marksman. This was a successful attempt to bypass the Rollin White patent on bored through cylinders. The Thuer cylinder is actually bored through, however the tapered design of the cartridges prevent loading from the rear. He assigned the patent to Colt's Manufacturing and production commenced in 1869 and ended in 1872.
- barrel length, grip and receiver/frame finish and features are the same as the conversion base gun and examples are known to exist in all grades including engraved box sets.
- full factory conversions were performed but factory produced conversion kits were also sold for conversion by owners or gunsmiths.
- features include: front loading and ejecting cylinder, which is taper bored to accept the proprietary self contained metallic, centre-fire Thuer cartridges; Thuer ring contains checkered thumb knob which is a loading (moved right) and unloading (moved left) "selector", a rebounding firing pin, a two piece "cascade" ejection system and a spring loaded positioning detent and is removable separately after removing the cylinder; loading rammer is threaded on the inside to accept the Thuer loading tool; face of the hammer is fitted with a hardened round plate for striking the firing pin; a noticeably deepened loading lug on the right side of the barrel.
- all Thuer rings are marked with an "E" under the thumb knob at the ejection position and "PAT.SEPT." over "15.1868" on the side of the ring. There is usually an assembly number marked on the ring, cylinder or both.

Manufacturer

- normally marked on the top of the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"

a small number may be marked:

"SAML COLT" in old english script
or
"ADDRESS COL: COLT. LONDON"

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- the whole serial number or a part of the serial number may also marked on the triggerguard, backstrap, bottom of the barrel lug, top flat of the loading lever, and on the cylinder. The last two or three digits of the serial number may also be marked on the wedge, top flat of the lever lug, cylinder pin.
- revolvers made in London had their own serial number range.

Calibre

- 36 Thuer was available in 2 different lengths, the longer of which was used in the 1861 Navy conversions.

Remarks

- the thumb knob must be moved to the right to fire.
- cartridges are loaded through the front of the cylinder and are "seated" using the loading lever in the same manner as the percussion loads.
- to eject, the thumb knob is first moved completely to the left exposing a large script "E". The hammer is then cocked and the trigger pulled in the exact manner as if firing. When the hammer falls it ejects the cartridge, either empty or loaded, out through the front of the cylinder.

Notes

Make

- the make is normally marked on the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
- a limited number of revolvers were marked:
"ADDRESS - COL. COLT"
"LONDON".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this firearm was manufactured from 1865 to 1873.
- The production numbers and serial number ranges are purportedly shared with the firearm known as 1862 Police and the combined production is estimated at 47,000 examples.
- the total estimated production of the 1862 Pocket Navy (AKA 1865 Pocket Navy) is 21,000.
- the model designation is normally not marked on the firearm.
- features include: single action trigger mechanism; case hardened receiver/frame; spur hammer; the loading lever is located under the barrel; no topstrap; blued octagonal barrel; a fixed small bead front sight; a round silver plated brass triggerguard, silver plated brass backstrap, and may have walnut grip panels.
- some revolvers may have a blued round steel triggerguard and blued steel backstrap.
- may also be finished in full silver, gold or nickel plating, or various combinations, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the cylinder is rebated, will have square cylinder stops and will have an engraved scene of a stagecoach hold up, marked, "COLT'S PATENT". The cylinder may also be marked in small print, "ENGRAVED BY W. L. ORMSBY NEW-YORK",
- the barrel lug will have a "U" shaped cut-out to facilitate the loading of round or conical ball projectiles. This "U" shape is visible from both sides of the revolver.
- Colt's, in 1869 to 1872, converted some revolvers (Thuer conversion - named for F. Alexander Thuer who assigned the patent to Colt) to accept a self-contained metallic, centre-fire cartridge. This cartridge was loaded in the conventional manner from the breech end of the cylinder. These revolvers are marked on the Thuer conversion ring as, "PAT.SEP." over "15. 1868", and on the ejection position on the ring as a letter "E" in script. The calibre and barrel lengths were not modified.

Manufacturer

- the make is normally marked on the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
- a limited number of revolvers were marked:
"ADDRESS - COL. COLT"
"LONDON".
- the left side of the receiver/frame is marked, "COLT'S / PATENT".

Action

- percussion ignition system.

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- the total estimated production figure of 19,000 - 21,000 is purportedly shared within the total production of 47,000 1862 Police Models. The serial number range has been determined to be 1 to approximately 21,000.
- on revolvers with the "LONDON address, the serial number may include a suffix letter "L" underneath the serial number.
- serial number is also marked on the trigger guard, underside of the barrel lug, the backstrap; and, on the fluted cylinder the serial number is marked in one of the flutes or on the rear of the cylinder. The last four or five digits in the serial number may also be marked on the wedge, bottom of the muzzle, end of the cylinder pin and on the grip frame.
- revolvers marked with the "LONDON" address are usually in the serial number range of 17,000 to 18,000.
- 250 examples of the 1862 Pocket Navy revolver will be found in the 37,000 serial number range. These revolvers will all be found with a "London" address and will all have iron backstraps and trigger guards.

Calibre

- the calibre designation is normally marked on the left side of the triggerguard as, "36 CAL".
- the receiver/frame for the Colt 1862 Pocket Navy was adapted from the Colt 1849 Pocket revolvers, therefore some triggerguards may be marked "31 CAL".

Other Markings

- a total of fifty 1862 Colt Police and Pocket Navy revolvers were purchased by the U.S. Government. These revolvers have 114mm barrels and may have "U.S." markings on them.
- a limited number of revolvers were marked:
"ADDRESS - COL. COLT"
"LONDON".
- revolvers marked with the "LONDON" address are in the serial number range of 17,000 to 18,000 and in the high 37,000 range.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- the make is normally marked on the top of the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
or
"COLT'S PT.F.A.MFG.Co."
"HARTFORD CT.U.S.A."

Model

- the model designation is not marked on the firearm.
- the 1862's were converted/manufactured between 1873 and 1880.
- the total estimated production is approximately 25,000.
- the 1862 Conversions include the Colt 1862 Police & 1862 Pocket Navy percussion revolvers which were converted to fire 38 rim-fire and centre-fire ammunition.
- the conversions on the Colt 1862 Police and Pocket Navy may vary. At the time of converting this model, Colt had a surplus of parts left over from the production of the two models, and parts left over from the Colt 1847 Pocket revolvers. Colt used up the surplus of parts in the conversions. The conversion included an installation of a new breechplate with a loading gate, and may include a new round or octagonal barrel or the original barrel, a new cylinder or the original cylinder, and may include an ejector rod on the right side of the barrel. Some of the Colt 1862 Police revolvers retained the original fluted cylinders while others were given a converted rebated cylinder.
- features normally include: single action trigger mechanism, case hardened receiver/frame and spurred hammer, no topstrap, blued barrel, a fixed small bead for a front sight, a round triggerguard, and may have walnut grip panels.
- some revolvers may have a blued round steel triggerguard or silver plated brass, and a blued steel or silver plated brass backstrap.
- may also be finished in full silver, gold or nickel plating, or various combinations, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the barrel lug may have may have a smooth "S" curve contour and the rear of the barrel lug will be parallel to the cylinder on both sides, or the barrel lug will fit parallel to the front of the cylinder with a "U" shaped cut-out on the right side which was used to facilitate the loading of round or conical ball projectiles, or a "U" shaped cut-out which is visible from both sides of the revolver.

Manufacturer

- the manufacturer is normally marked on the top of the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
or
"COLT'S PT.F.A.MFG.Co."
"HARTFORD CT.U.S.A."
- the left side of the receiver/frame may be marked, "COLT'S / PATENT" or with a patent date.

Serial Number

- the serial number is marked on the underside receiver/frame.
- the serial number range for the converted Colt 1862 Police and Pocket Navy converted to fire metallic cartridges is from 1 to 19,000, approximately.
- the serial number range of Colt 1849 Pocket revolvers converted to fire metallic cartridges is from 274,000 to 328,000, approximately.
- the serial number may also marked on the trigger guard, underside of the barrel lug, the backstrap, and on the cylinder. The last four or five digits in the serial number may also be marked on the wedge, bottom of the muzzle, end of the cylinder pin and on the grip frame.

Calibre

- some samples of this model will still have calibre markings of, ".36 CAL" or ".31 CAL", on the left side of the triggerguard. This refers to the previous percussion calibre prior to conversion to accept metallic cartridges.
- on some model the calibre designation has been restamped as "38 CAL". The "8" may be stamped over top of a "6" or a "1".

Other Markings

- the unfluted cylinder is rebated with square cylinder stops, and a scene of a stagecoach hold up, marked, "COLT'S PATENT". The cylinder may also be marked in small print, "ENGRAVED BY W. L. ORMSBY NEW-YORK".
- the fluted cylinder is rebated and will have square cylinder stops; the flutes are on the front half of the cylinder. One of the flutes may be marked, "PAT. SEPT 10TH 1850".
- the left side of the receiver/frame may be marked: "COLT'S PATENT" or "PAT. JULY. 25 1871" over "PAT. JULY. 2. 1872".

127959 - 3	36 THUER POCKET NAVY	6	165	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- normally marked on the top of the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"

a small number may be marked:

"SAML COLT" in old english script
or
"ADDRESS COL: COLT. LONDON"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this conversion was developed in 1868 by Alexander Thuer, a Colt field representative and factory marksman. This was a successful attempt to bypass the Rollin White patent on bored through cylinders. The Thuer cylinder is actually bored through, however the tapered design of the cartridges prevent loading from the rear. He assigned the patent to Colt's Manufacturing and production commenced in 1869 and ended in 1872.
- barrel length, grip and receiver/frame finish and features are the same as the conversion base gun and examples are known to exist in all grades including engraved box sets.
- full factory conversions were performed but factory produced conversion kits were also sold for conversion by owners or gunsmiths.
- features include: front loading and ejecting cylinder, which is taper bored to accept the proprietary self contained metallic, centre-fire Thuer cartridges; Thuer ring contains checkered thumb knob which is a loading (moved right) and unloading (moved left) "selector", a rebounding firing pin, a two piece "cascade" ejection system and a spring loaded positioning detent and is removable separately after removing the cylinder; loading rammer is threaded on the inside to accept the Thuer loading tool; face of the hammer is fitted with a hardened round plate for striking the firing pin; a noticeably deepened loading lug on the right side of the barrel.
- all Thuer rings are marked with an "E" under the thumb knob at the ejection position and "PAT.SEPT." over "15.1868" on the side of the ring. There is usually an assembly number marked on the ring, cylinder or both.

Manufacturer

- normally marked on the top of the barrel as:
"ADDRESS SAML COLT NEW-YORK CITY"
or
"ADDRESS SAML COLT NEW YORK CITY"
or
"ADDRESS SAML COLT HARTFORD CT.",
or
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"

a small number may be marked:

"SAML COLT" in old english script
or
"ADDRESS COL: COLT. LONDON"

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- the whole serial number or a part of the serial number may also marked on the triggerguard, backstrap, bottom of the barrel lug, top flat of the loading lever, and on the cylinder. The last two or three digits of the serial number may also be marked on the wedge, top flat of the lever lug, cylinder pin.
- revolvers made in London had their own serial number range.

Calibre

- 36 Thuer was available in 2 different lengths, the shorter of which was used in the 1862 Pocket Navy conversions.

Remarks

- the thumb knob must be moved to the right to fire.
- cartridges are loaded through the front of the cylinder and are "seated" using the loading lever in the same manner as the percussion loads.
- to eject, the thumb knob is first moved completely to the left exposing a large script "E". The hammer is then cocked and the trigger pulled in the exact manner as if firing. When the hammer falls it ejects the cartridge, either empty or loaded, out through the front of the cylinder.

18334 - 4	36 PERCUSSION	5	165	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is normally marked on the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
or
"ADDRESS SAML COLT"
"HARTFORD CT."
- a limited number of revolvers were marked:
"ADDRESS - COL. COLT"
"LONDON".
- revolvers marked with the "LONDON" address are in the serial number range of 38,000.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this firearm was manufactured from 1861 to 1873.
- the total estimated production is approximately 47,000 examples. The production numbers and serial number ranges are purportedly shared with firearm known as 1862 Pocket Navy (AKA 1865 Pocket Navy).
- the model designation is normally not marked on the firearm.
- features include: single action trigger mechanism; case hardened receiver/frame; spur hammer; with the loading lever located under the barrel; no topstrap; blued round barrel; a fixed small bead for a front sight; a rounded silver plated brass triggerguard; silver plated brass backstrap; and may have walnut grip panels.
- some revolvers may have a blued round steel triggerguard and blued steel backstrap.
- may also be finished in full silver, gold or nickel plating, or various combinations, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the cylinder will be found with square cylinder stops, and is rebated with flutes on the front half of the cylinder. One of the flutes will be marked, "PAT. SEPT 10TH 1850".
- the barrel lug will have a "U" shaped cut-out to facilitate the loading of round or conical ball projectiles. This "U" shape is visible from both sides of the revolver.
- Colt's, in 1869 to 1872, converted some revolvers (Thuer conversion - named for F. Alexander Thuer who assigned the patent to Colt) to accept a self contained metallic, centre-fire cartridge. This cartridge was loaded in the conventional manner from the breech end of the cylinder. These revolvers are marked on the Thuer conversion ring as, "PAT.SEP." over "15. 1868", and on the ejection position on the ring as a letter "E" in script. The calibre and barrel lengths were not modified.
- all "1862" pocket pistols display fluted cylinders and the patent date of "Sept 10, 1850" within one of the flutes.
- some pistols may be marked "31 Cal" due to frames from the "1849 Pocket" being used.

Manufacturer

- the manufacturer is normally marked on the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
or
"ADDRESS SAML COLT"
"HARTFORD CT."
- a limited number of revolvers were marked:
"ADDRESS - COL. COLT"
"LONDON".
- revolvers marked with the "LONDON" address are in the serial number range of 38,000.
- the left side of the receiver/frame is marked, "COLT'S / PATENT".

Action

- percussion ignition system.

Serial Number

- the serial number is marked on the underside receiver/frame.
- the total estimated production is purported to have been shared with the 1862 Pocket Navy. The serial number range is from 1 to 47,000.
- serial number is also marked on the trigger guard, underside of the barrel lug, the backstrap, and on the fluted cylinder the serial number is marked in one of the flutes or on the rear of the cylinder. The last four or five digits in the serial number may also be marked on the wedge, bottom of the muzzle, end of the cylinder pin and on the grip frame.
- early models destined for England may be found with the letter "L" underneath the serial numbers and may be found with British proof marks.

Calibre

- the calibre designation is normally marked on the left side of the triggerguard as, "36 CAL".
- the receiver/frame for the Colt 1862 Police was adapted from the Colt 1849 Pocket revolvers, therefore some triggerguards may be marked "31 CAL".

Other Markings

- a total of fifty 1862 Colt Police and Pocket Navy revolvers were purchased by the U.S. Government. These revolvers have 114mm barrels and may have "U.S." markings on them.

Notes

Model

- introduced in 1997.
- the model designation is not marked on this firearm.
- this model is in the Colt Blackpowder "Third Generation" line of firearms and may be known as, "1862 Pocket Police Third Generation Signature Series".
- the backstrap will have a reproduction of Sam Colt's signature.
- features include: single action trigger mechanism, the receiver/frame, loading rammer located under the barrel, and the hammer are all case hardened, the round barrel is blued, the backstrap and trigger guard are silver plated, the fluted and rebated cylinder will have square stop slots, and may have walnut grip panels.
- the barrel will normally have a New York address and the left side of the receiver/frame is normally marked, "COLT'S PATENT".

Manufacturer

- the manufacturers full name is normally not marked on the firearm.
- the Colt Blackpowder Arms Company, of Brooklyn, New York, U.S.A. is licenced by Colt to manufacture the Third Generation of Colt firearms, introduced in 1994. With the exception of a few models, all Colt Third Generation firearms will have a reproduction of Sam Colts signature on the backstrap.

Action

- percussion ignition system.

Serial Number

- the serial number is marked on the receiver/frame.

Notes

Make

- "ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA" or "COLT'S PT.F.A.MFG.Co." over "HARTFORD CT.U.S.A." is normally marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model designation is not marked on the firearm.
- the 1862's were converted/manufactured between 1873 and 1880.
- the total estimated production is approximately 25,000.
- the 1862 Conversions include the Colt 1862 Police & 1862 Pocket Navy percussion revolvers which were converted to fire 38 rim-fire and centre-fire ammunition.
- the conversions on the Colt 1862 Police and Pocket Navy may vary. At the time of converting this model, Colt had a surplus of parts left over from the production of the two models, and parts left over from the Colt 1847 Pocket revolvers. Colt used up the surplus of parts in the conversions. The conversion included an installation of a new breechplate with a loading gate, and may include a new round or octagonal barrel or the original barrel, a new cylinder or the original cylinder, and may include an ejector rod on the right side of the barrel. Some of the Colt 1862 Police revolvers retained the original fluted cylinders while others were given a converted rebated cylinder.
- features normally include: single action trigger mechanism, case hardened receiver/frame and spurred hammer, no topstrap, blued barrel, a fixed small bead for a front sight, a round triggerguard, and may have walnut grip panels.
- some revolvers may have a blued round steel triggerguard or silver plated brass, and a blued steel or silver plated brass backstrap.
- may also be finished in full silver, gold or nickel plating, or various combinations, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the barrel lug may have may have a smooth "S" curve contour and the rear of the barrel lug will be parallel to the cylinder on both sides, or the barrel lug will fit parallel to the front of the cylinder with a "U" shaped cut-out on the right side which was used to facilitate the loading of round or conical ball projectiles, or a "U" shaped cut-out which is visible from both sides of the revolver.

Manufacturer

- "ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA" or
"COLT'S PT.F.A.MFG.Co." over "HARTFORD CT.U.S.A." is normally marked on the barrel.

Serial Number

- serial number usually marked in front of the trigger guard.
- serial number range from 1 to 19000 and from 35500 to 47000.

Other Markings

- receiver/frame may be marked with: "COLTS/PATENT" or "PAT.JULY.25.1871", "PAT.JULY.2.1872", and or "PAT.SEPT.19.1871./PAT.JULY.2.1872".
- assembly number on the cylinder may match the serial number or part of it.

Notes

Make

- normally marked on the top of the barrel as: "ADDRESS SAML COLT NEW-YORK CITY" or "ADDRESS SAML COLT NEW YORK CITY" or "ADDRESS SAML COLT HARTFORD CT.", or "ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA".
- a small number may be marked: "SAML COLT" in old English script or "ADDRESS COL: COLT. LONDON".

Model

- This conversion was developed in 1868 by Alexander Thuer, a Colt field representative and factory marksman. This was a successful attempt to bypass the Rollin White patent on bored through cylinders. The Thuer cylinder is actually bored through, however the tapered design of the cartridges prevent loading from the rear. He assigned the patent to Colt's Manufacturing and production commenced in 1869 and ended in 1872.
- full factory conversions were performed but factory produced conversion kits were also sold for conversion by owners or gunsmiths.
- barrel length, grip and receiver/frame finish and features are the same as the conversion base gun and examples are known to exist in all grades including engraved box sets.
- features include: front loading and ejecting cylinder, which is taper bored to accept the proprietary self-contained metallic, centre-fire Thuer cartridges; Thuer ring at rear of cylinder contains checkered thumb knob which is a loading (moved right) and unloading(moved left) "selector", a rebounding firing pin, a two piece "cascade" ejection system and a spring loaded positioning detent and is removable separately after removing the cylinder; loading rammer is threaded on the inside to accept the Thuer loading tool; face of the hammer is fitted with a hardened round plate for striking the firing pin; a noticeably deepened loading lug on the right side of the barrel.
- all Thuer rings are marked with an "E" under the thumb knob at the ejection position and "PAT.SEPT." over "15.1868" on the side of the ring. There is usually an assembly number marked on the ring, cylinder or both.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- normally marked on the top of the barrel as: "ADDRESS SAML COLT NEW-YORK CITY" or "ADDRESS SAML COLT NEW YORK CITY" or "ADDRESS SAML COLT HARTFORD CT.", or "ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA".
- a small number may be marked: "SAML COLT" in old English script or "ADDRESS COL: COLT. LONDON".

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- the whole serial number or a part of the serial number may also marked on the trigger guard, backstrap, bottom of the barrel lug, top flat of the loading lever, and on the cylinder. The last two or three digits of the serial number may also be marked on the wedge, top flat of the lever lug, cylinder pin.
- revolvers made in London had their own serial number range.

Calibre

- 36 THUER was available in 2 different lengths, the longer of which was used in the 1862 Police conversions.

Remarks

- the thumb knob must be moved to the right to fire.
- cartridges are loaded through the front of the cylinder and are "seated" using the loading lever in the same manner as the percussion loads.
- to eject, the thumb knob is first moved completely to the left exposing a large script "E". The hammer is then cocked and the trigger pulled in the exact manner as if firing. When the hammer falls it ejects the cartridge, either empty or loaded, out through the front of the cylinder.

Notes

Make

- marked on barrel.
- the make is normally marked on top of the barrel as:
"COLT'S HOUSE PISTOL"
"HARTFORD CT. U.S.A.".
- a few, very rare, were marked as:
"COLT'S PT. F.A. MFG. C."
"HARTFORD CT. U.S.A.".
- revolvers with a barrel length of 38mm, were marked "COLT" on the left side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 1871 and discontinued in 1876. - the model designation is normally marked on top of the barrel of 66mm or more as, "COLT'S HOUSE PISTOL". Barrels of 38mm were normally only marked "COLT" on the left side of the barrel. - total production is approximately 10,000. - after serial number 5,000, approximately, a patent date was marked in the sight channel on the topstrap as, "PAT. SEPT. 19. 1871". - this revolver may have one of two types of cylinders. The first is a round unfluted five shot cylinder. The second is a four shot cylinder, which was called the "Cloverleaf" model, so-called because the cylinder resembles a cloverleaf when viewed from the end. Both cylinders had the cylinder stop located near the front of the cylinder. - features include: single action spur trigger mechanism, a unfinished, nickel plated or silver plated receiver/frame with a bird's-head grip, a blued or nickel plated round barrel and cylinders, the cylinder pin or ejection rod, spurred hammer and trigger were usually blued, a fixed blade or bead for a front sight with a fixed channel along the topstrp for a rear sight, and walnut, rosewood, ivory or pearl grip panels. - revolvers with a barrel length of 38mm may have a round or octagonal barrel. - the first 7,500 revolvers had the four shot cloverleaf cylinder with an ejection rod located under the 38 or 76mm barrel. The remaining 2,500 revolvers had the round five shot cylinder with a cylinder pin located under the 66mm barrel.
Manufacturer	- the manufacturer is normally marked on top of the barrel as: "COLT'S HOUSE PISTOL" "HARTFORD CT. U.S.A.". - a few, very rare, were marked as: "COLT'S PT. F.A. MFG. C." "HARTFORD CT. U.S.A.". - revolvers with a barrel length of 38mm, were marked "COLT" on the left side of the barrel. - the Colt rampant colt logo may be marked on some revolvers.
Serial Number	- the serial number is marked on the butt of the receiver/frame. - the serial number range is from 1 to approximately 9,952. - the serial number may also be marked on the underside of the barrel. - revolvers from serial number 1 to 7,500, approximately, normally had the four shot cloverleaf cylinder with an ejection rod located under the barrel. From serial number 7,500 to 10,000, approximately, these revolvers normally had the round five shot cylinder with a cylinder pin located under the barrel.
Calibre	- the calibre designation is normally marked on the left side of the lower frame strap as, "41 CAL".

Notes

Make

- the make is marked on top of the barrel as:
"COLT'S PT. F.A. MFG. Co"
"HARFORD CT. U.S.A.".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- this firearm model was manufactured from 1871 to 1877. - 114,200 manufactured. - model is not marked on the firearm. - features include: bird's head grip frame; spur hammer; sheath trigger; integeral ejector on early production models; brass open top frame usually plated in silver or nickel with other finishes available; nickel or blued steel barrel and cylinder; circular inspection plate on the left side of the receiver/frame; walnut grips were standard; non fluted cylinder with stop slots in front towards the muzzle; front sights of german silver or brass.
Manufacturer	- the manufacturer is marked on top of the barrel as: "COLT'S PT. F.A. MFG. Co" "HARFORD CT. U.S.A.".
Action	- single action.
Serial Number	- serialization started at 1 and continued unbroken to approximately 114200. - serial numbers may be marked on the butt.
Calibre	- the calibre designation may be marked on the left side of the receiver/frame as "22 CAL.". - the first few thousand revolvers manufactured did not have a calibre designation marked on them.
Other Markings	- top of barrel is marked with the Hartford address.

Notes

Make

- the make is normally marked on top of the barrel as:
"ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA"
or
"COLT'S PT.F.A.MFG.Co.HARTFORD,CT.U.S.A.".

Model

- this firearm was manufactured from 1871 to 1872.
- the total estimated is 7,000.
- the model designation is not marked on the firearm.
- this model was an improvement on the Richard-Mason Conversions. Can be identified by the cylinder and the loading gate. The cylinder was manufactured as one piece. No conversion breechplate is located at the rear. The cylinder is round with square notches and no flutes, and is not rebated towards the rear of the cylinder. The loading gate is attached directly to the breechplate.
- features include: single action trigger mechanism, blued receiver/frame and the round barrel and cylinder, case hardened spurred hammer, no topstrap, an ejection rod located on the right side of the barrel, a fixed small bead for a front sight and a rear sight located at the rear of the barrel, and may have walnut grip panels.
- the round triggerguard and backstrap may be blued steel, or silver-plated brass.
- may also be finished in full silver, gold or nickel plating, or various combinations, with or without engraving.
- may have ebony, ivory, and oak or pearl grip panels.
- the front of the barrel lug has a smooth "S" curve contour and the rear of the barrel lug will be parallel to the cylinder on both sides.
- the left side of the receiver/frame may be marked: "COLT'S PATENT" or "PAT. JULY. 25 1871" over "PAT. JULY. 2. 1872".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is normally marked on top of the barrel as: "ADDRESS COL. SAML COLT NEW-YORK U.S. AMERICA" or "COLT'S PT.F.A.MFG.Co.HARTFORD,CT.U.S.A.". - The right side of the receiver/frame may be marked, "COLT'S PATENT" or with patent dates.
Serial Number	- the serial number is marked on the underside of the receiver/frame. - the serial number range is from 1 to 7,000. - serial number is also marked on the trigger guard, underside of the barrel lug, the backstrap, bottom of the wedge, and on the loading gate. The last four or five digits in the serial number may also be marked on the wedge, and on the cylinder. - the backstrap may be marked, "AM EX CO 2636". The number "2636" is not the serial number, it is a locally assigned American Express Company property number.
Calibre	- the calibre designation is normally marked on the left side of the triggerguard as, "44 CAL".
Other Markings	- Early models will have the barrel marking " ADDRESS COL SAML COLT NEW-YORK U.S.AMERICA" and the words "COLTS PATENT" on the left side of the frame. Later models will have the patent dates of July 25 1871 and July 2 1872 on the left side of the frame. - Late pistols will have the barrel marked "COLT'S PT. F.A. MFG. Co. HARTFORD. CT. U.S.A." - the Union Pacific Railway purchased an undetermined number of revolvers. On these revolvers the backstrap may be marked, "U.P.R.R. Co's Express", or, "AM EX CO 2636".

Notes

Make

- "COLT" and/or the "Rampant Colt" logo is marked on the firearm.
- "COLT" was marked on the top of the barrel from 1873 to 1929.
- Colt's "Rampant Colt" logo was marked on the left side of the receiver/frame, above the trigger starting in 1890.
- "COLT" was marked on the left side of the barrel starting in 1929.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1872 to 1929.
- Colt model 1873 revolver shares the distinction with the Model 1873 Winchester rifle as "the gun that won the west".
- "SINGLE ACTION ARMY" was marked on the left side of the barrel starting in 1929.
- features include: round barrel; with or without ejector rod assembly located on the right side of the barrel; solid top receiver/frame with fluted cylinder and right side gate loading; spurred hammer; single action trigger mechanism; round trigger guard; fixed blade front sight with a groove/channel along the top strap for a rear sight; wood or rubber grips; blued barrel, cylinder, grip frame and trigger guard; colour case-hardened receiver/frame; may also have engraving or a full blue, nickel, silver, copper or gold plated finish.
- the left side of the receiver/frame is marked with patent date markings in one of the following three formats:
- "PAT. SEPT. 19, 1871" over "PAT. JULY. 2, 1872",
or
- "PAT. SEPT. 19, 1871" over " JULY. 2, -72" over " JAN. 19, -75",
or
- "PAT. SEPT. 19, 1871" over "JULY 2, 72, JAN 19, 75".
- 1873 revolver was chambered in 44-40 WIN in 1878 and became known and marked as the "COLT FRONTIER SIX SHOOTER".
- "FRONTIER SIX SHOOTER" remained in production until 1939 and in 1940, the model name reverted back to and was marked "SINGLE ACTION ARMY".

Manufacturer

- manufacturer is marked on top of the barrels as:
"COLT'S PT. F.A. MFG. Co. HARTFORD, CT. U.S.A."
or
"COLT'S PT. F.A. MFG. Co." over "HARTFORD, CT. U.S.A." on short barrel models.
- on models which were intended to be sold through the Colt's London Agency the top of the barrel is marked as:
"COLT'S PT. F.A. MFG. Co. HARTFORD, CT. U.S.A. DEPOT 14 PALL MALL LONDON"
or
"COLT'S PT. F.A. MFG. Co. HARTFORD, CT. U.S.A." over "DEPOT 14 PALL MALL LONDON" on short barrel models. The "CT. U.S.A." is sometimes not marked on some short barrel models.

Serial Number

- serial number is located on the bottom of the receiver/frame and trigger guard.
- Colt 1873 and 1873 Single Action Army serial number range is from 1 to approximately 357,859.
- Colt 1873 Single Action Army 2nd Generation's serial number range is from 0001SA to approximately 74000SA.
- Colt 1873 Single Action Army 3rd Generation's serial number range is from 80000SA to 99999SA, and SA0001 to SA99999, and S02001A to approximately S34800A in 2003.
- an exception is a sub group of 22RF and 44RF pistols which are also numbered from 1 to approximately 1800.

Barrel

- there is a considerable variation in barrel length for this model. It ranges from 51mm to 406mm.

Calibre

- the calibre designation marking is found on the left side of the barrel.
- there are three variant styles of markings on early models: calibre may be marked on the top left rear side of the receiver/frame, on the side of the trigger guard or the firearm may not have a calibre marking at all.
- NOTES:
- Colt lists a number of calibres as being available in this model firearm. In fact colt revolver cylinders had chambers which were cut for the longest of a variety of cartridge case lengths of the same approximate calibre cartridge. The shorter cartridges chamber and fire in the long chamber in much the same way that 38 SPL will chamber and fire in a revolver chambered for the 357 MAG cartridge.
Further Info:
- 32 LONG COLT was the longest 32 calibre cartridge chambering. Firearms chambered for 32 LONG COLT calibre will also accepted 32 SHORT COLT cartridges.
- 38 LONG COLT was the longest 38 calibre cartridge chambering until 1902. Firearms chambered for 38 LONG COLT calibre will also accept 38 SHORT COLT cartridges.
- 41 LONG COLT was the longest 41 calibre cartridge chambering. Firearms chambered for 41 LONG COLT calibre will also accepted 41 SHORT COLT cartridges.
- in 1902, the calibre 38 SPL was introduced which was longer that the 38 LONG COLT cartridge. Firearms chambered for 38 SPL calibre will also accept the following cartridges: 38 LONG COLT, 38 SHORT COLT, 38 COLT SPL, 38 S&W SPECIAL & 38-44 S&W.
- 38 SPL & 38 S&W are not interchangeable, 38 S&W is larger in diameter than 38 SPL and shorter in length.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
- NOTE: - there is no provision in the Antique Firearms Regulations that prevents a genuine Antique firearm from having the calibre of cartridge it utilizes changed and retain antique status under certain circumstances. The calibre change to 38 Special, 357 Magnum or 45 AUTO does not disqualify a firearm from being antique because these calibres are not excluded calibres in the Regulations Prescribing Antique Firearms (SOR - 464). This is true even though cartridges in these calibres did not exist before 1898.

Other Markings

- from 1890 the Colt's rampant colt logo is marked on the left side of the receiver/frame, above the trigger.
- from 1901 a "VP" within a triangle, for "Verified Proof", was marked on the left front bow of the trigger guard.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- a revolver which is known as the Sheriff's Model or Storekeeper's Model had a barrel length less then 121mm and no ejector housing on the side of the barrel. The barrel length is known to be as short as 64mm and a few revolvers will have a barrel of 191mm. These revolvers were made from the Colt "1873 Single Action Army", "1873 Single Action Army Flattop Target", "1894 Single Action Army Bisley", and a few were made from the "1894 Single Action Army Bisley Target Model". It is estimated that 1,000 revolvers were manufactured. The Colt markings may vary on the shorter barrel revolvers. The markings may be on the side or the bottom of the barrel.

Notes

Make - "COLT" is marked on the left side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "COLT FRONTIER SIX SHOOTER" is marked on the left side of the barrel.
- approximately 64,500 units were manufactured from 1878 to 1939.
- Colt's Frontier Six Shooter revolver originated from the 1873 Single Action Army.
- Colt's 1873 Single Action Army revolver in 44-40 WIN calibre was marketed and marked "FRONTIER SIX SHOOTER" starting in 1878.
- "FRONTIER SIX SHOOTER" was introduced so that a person could use the same ammunition in their revolver and their rifle.
- "FRONTIER SIX SHOOTER" model remained in production until 1939.
- Colt's Frontier Six Shooter reverted back to and was marked "Single Action Army" starting in 1940.
- features include: single action trigger mechanism; case hardened solid receiver/frame and hammer; blued round barrel, cylinder, grip frame and round trigger guard; fixed blade front sight with a channel along the top strap; ejector rod located on the right side of the barrel and grip panels made of wood or rubber.
- models may also have engraving, or be finished in full nickel, silver, copper or gold plating.

Manufacturer

- manufacturer's designation is marked on top of the barrels as:
"COLT'S PT. F.A. MFG. Co. HARTFORD, CT. U.S.A.",
or
"COLT'S PT. F.A. MFG. Co." over "HARTFORD, CT. U.S.A." on short barrel models.
- on models intended to be sold through the Colt's London Agency the top of the barrel is marked as:
"COLT'S PT. F.A. MFG. Co. HARTFORD, CT. U.S.A. DEPOT 14 PALL MALL LONDON",
or
"COLT'S PT. F.A. MFG. Co. HARTFORD, CT. U.S.A." over "DEPOT 14 PALL MALL LONDON" on short barrel models.

Serial Number

- serial number is located on the bottom of the receiver/frame in front of the trigger guard.
- serial number range is between 41 000 and 352 400.

Calibre

- calibre designation may be marked on the left side of the barrel as, "44-40".
- on earlier models calibre may be marked on the bottom of the breech or on the side of the trigger guard.

Other Markings

- from 1890 forward, the Colt's rampant colt logo is marked on the left side of the receiver/frame, above the trigger.
- the left side of the receiver/frame will have patent date markings in one of the following two formats:
"PAT. SEPT. 19, 1871" over " JULY. 2, -72" over " JAN. 19, -75",
or
"PAT. SEPT. 19, 1871" over "JULY 2, 72, JAN 19, 75".

Notes

Make

- the make is normally marked on the top of the barrel as:
"COLT'S PT.F.A.MFG.Co.HARTFORD,CT.U.S.A."
- a few revolvers were marked:
"COLTS PT. F.A. MFG. Co. HATRFORD CT. U.S.A. DEPOT 14 PALL MALL LONDON".

Model

- introduced in 1888.
- this revolver was replace by the Colt "1894 Single Action Army Bisley". A few revolvers were manufactured after 1896.
- the model designation is not marked on the firearm.
- total estimated production is approximately 925.
- this revolver is the Colt "1873" with a flat topstrap with square sides. The front sight has a solid base with an adjustable and removable German silver blade, and a fixed rear sight, which is dovetailed to the topstrap.
- features include: single action, gate loading, case hardened solid receiver/frame and spurred hammer, blued round barrel, fluted cylinder, grip frame and round trigger guard, ejector rod located on the right side of the barrel and grip panels made of wood or rubber.
- models may also have engraving, or be finished in full nickel, silver, copper or gold plating.
- the left side of the receiver/frame will normally have one of the following patent date markings:
"PAT. SEPT. 19, 1871"
" " JULY 2, -72"
" " JAN. 19, -75"
or
"PAT. SEPT. 19, 1871"
"JULY 2, 72, JAN 19, 75".
- an estimated 21 revolvers were manufactured in 44-40 WIN. These revolvers may be marked, "COLT FRONTIER SIX SHOOTER", on the left side of the barrel.

Manufacturer

- the manufacturer is normally marked on the top of the barrel as:
"COLT'S PT.F.A.MFG.Co.HARTFORD,CT.U.S.A."
- a few revolvers were marked:
"COLTS PT. F.A. MFG. Co. HATRFORD CT. U.S.A. DEPOT 14 PALL MALL LONDON".
- the Colt rampant horse logo is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- solid receiver/frame, single action revolver, fixed cylinder with right side loading gate.
Serial Number	- serial number is located on the underside of the receiver/frame. - the serial number rational is the same as the Colt "1873 Single Action Army". - the serial number range is from 127,000 to 351,424.
Barrel	- the standard barrel length was 191mm. Some revolvers were made with a 121, 127, 140, 178, 203, or a 229mm barrel. - a barrel length other then 191mm is rare.
Calibre	- the calibre designation is normally marked on the left side of the barrel. Early production models had the serial number marked on the triggerguard. - a barrel lenght other then 191mm is rare.
Remarks	- a revolver which is known as the Sheriff's Model or Storekeeper's Model was a revolver which normally had a barrel length less then 121mm or less and no ejector housing on the side of the barrel. The barrel length is known to be as short as 64mm and a few revolvers will have a barrel of 191mm. These revolvers were made from the Colt "1873 Single Action Army", "1873 Single Action Army Flattop Target", "1894 Single Action Army Bisley", and a few were made from the "1894 Single Action Army Bisley Target Model". It is estimated that 1,000 revolvers were manufactured. The Colt markings may vary on the shorter barrel revolvers. The markings may be on the side or the bottom of the barrel.

Notes

Make - the maker's designation is usually marked on the left side of the barrel and the receiver/frame as "COLT".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "COLT SINGLE ACTION ARMY" is marked on the side of the barrel.
- "PAT. SEPT. 19, 1871" over "JULY 2, 72 JAN. 19 75" is marked on the left side of the receiver/frame above the trigger.
- introduced in 1976.
- features include: single action trigger mechanism; various finishes including blued, nickel, colour case-hardened; large spur hammer; ejector rod located on the right lower side of the barrel; half moon front sight and a loading gate located on the right side of the receiver/frame.

Manufacturer

- "COLT'S PT.F.A. MFG. Co. HARTFORD CT. U.S.A." is marked on the top of the barrel.

Serial Number

- serial number is located on the receiver/frame under the left grip plate and may be repeated on the underside of the receiver/frame in front of the trigger guard.
- the Colt 1873 Single Action Army's serial number range is from 1 to approximately 357,859.
- the Colt Single Action Army Second Generation's serial number range is from 0001SA to approximately 74000SA.
- the Colt Single Action Army Third Generation's serial number range is from 80000SA to 99999SA, and SA0001 to SA99999, and S02001A to approximately S34800A in 2003.
- serial number S64XXXA has been observed in 2009.

Remarks

- this is a reintroduced production of the 1873 Single Action Army revolver with several improvements and modern manufacturing methods.

33863 - 1	45 COLT	6	190	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "COLT .45 PEACEMAKER" is marked on the right side of the barrel.

Model

- this is one of a set of four different commemorative revolvers (two 45 Colt 1873 Single Action Army's, and two 22 LR Frontier Scouts) manufactured by Colt for release in 1966, to commemorate the Pony Express, a mail service that ran from Sacramento, California to St. Joseph, Missouri, and vice-versa. These revolvers were available in single issues, cased pairs, and four-revolver sets, with each of the four revolvers bearing a different inscription on the backstrap, for a different stage of the route (eg. "Sacramento To Friday's Station", "Salt Lake City To Fort Laramie", "St. Joseph To Marysville", or "Fort Kearney To Julesburg").
- the Frontier Scouts in this series were gold-plated, while the 1873 Single Action Army's were nickel-plated, all with wooden grips and special markings.
- delivered in velvet-lined cases, usually with additional engraved cylinders and high-relief medallions depicting the founders of the Pony Express.

Manufacturer

- "Colt" and the Colt "pony" logo are marked on the firearm.

Action

- single-action revolver.

Serial Number

- serial number ranges from PE 0-E, PE 00-E, PE 001-E to PE 500-E and serial number ranges from PE 0-W, PE 00-W, PE 001-W to PE 500-W.

Calibre

- "COLT .45 PEACEMAKER" is marked on the right side of the barrel.

Notes

Make

- make is usually marked on the top or side of the barrel as:
"COLTS PT F.A. MFG Co HARTFORD CONN USA"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the left side of the barrel is usually marked: "SINGLE ACTION ARMY .45" or '-SAA 45 LC-".
- manufactured in 1987 only.
- estimated production of 100 sets of revolvers. Each set includes five revolvers with barrel lengths of 51, 64, 76, 102 and 140mm.
- features include: single action trigger mechanism; blued solid receiver/frame, barrel and grip frame, fixed blade front sight with a fixed notch on the top-strap, fluted cylinder, and may have smooth rosewood grip panels with the Colt medallion.
- a "Sheriff's Model" revolver will not have an ejector rod located on the right side of the barrel and receiver/frame.
- the left side of the receiver/frame will usually have a patent date marking of:
"PAT. SEPT. 19, 1871"
"JULY 2, 72 JAN. 19 75".
- this set of revolvers was marketed in a glass top display case. The revolvers were placed in a circle with a brass sheriff's badge in the centre.
- these revolvers were sold in a commemorative set but may be found as individual pieces.

Manufacturer

- manufacturer's designation is usually marked on the top or side of the barrel as:
"COLTS PT F.A. MFG Co HARTFORD CT USA"

Serial Number

- serial number is marked on the underside of the receiver/frame, forward of the trigger guard.
- serial number has three digits followed by the letters "SE", followed by the barrel length in inches. A 51mm or 2 inch barrel is "SE2" and a 140mm or 5 ½ inch barrel is "SE55". The first three digits will be the same for all five revolvers in one set.
Example: a set of revolvers with the serial number of 001 for the first three digits, will have the following serial numbers; 001SE2, 001SE25, 001SE3, 001SE4 and 001SE55.
- Sheriffs model with the alpha characters of "SA" in the serial number is a Colt "Single Action Army Sheriffs Third Generation".
- a Sheriffs model with the alpha characters of "SM" in the serial number is a Colt "Single Action Army Sheriffs Post-war Commemorative".

Calibre

- this model was manufactured in 45 COLT only.
- marked on the left side of the barrel.

Other Markings

- the 'rampant colt' logo is marked on the left side of the receiver/frame.

Model

- "COLT S.A.A." is marked on the right side of the barrel.
- "STOREKEEPER'S MODEL" may be marked on the left side of the barrel.
- manufactured from 1984 to 1985 with an estimated production of 280 revolvers.
- reintroduced in 2008 on a limited production run and in 2010 in a nickel finish.
- this model is a reintroduction of a 102mm barrel version of the Colt "1873 Single Action Army" which was known as the Storekeeper's Model.
- "STOREKEEPER'S MODEL" will not have an ejector rod located on the right side of the barrel.
- features include: fixed blade front with receiver/frame notched fixed rear sight; straight round barrel; solid top strap receiver/frame manufactured on the Colt Third Generation receiver/frame; fluted cylinder; spurred hammer; single action trigger mechanism; may be blued, walnut, ivory or black "American Eagle" grip panels with the colt logo at the top and the American Eagle at the bottom; case hardened, royal blue or nickel plated.

Manufacturer

- manufacturer's designation is usually marked on the top of the barrel as:
"COLT'S PT.F.A. MFG. Co."
"HARTFORD, CONN. U.S.A.".

Serial Number

- serial number is marked on the underside of the receiver/frame in front of the trigger guard.
- serial number features a prefix of "SA".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is usually marked on the right side of the barrel as: ".45"
Other Markings	- the left side of the receiver/frame will usually have one of the following patent date markings: "PAT. SEPT. 19, 1871", "SEPT. 15, 1874", "JAN. 19, 1875" or "PAT. SEPT. 19, 1871", "JULY 2, 72 JAN. 1875".

Notes

Make

- the make is normally marked on the top of the barrel as:
"COLT'S PT. F.A. MFG. Co. "HARTFORD. CT. U.S.A."
- on short barreled revolvers the make may be marked in two lines:
"COLT'S PT. F.A. MFG. Co."
"HARTFORD. CT. U.S.A.".
- revolvers with barrel length of 64mm or less may have the make marked on the side of the barrel.
- approximately 1,500 of the Colt 1877 Double Action Lightning and Thunderer revolvers were marked on top of the barrel as:
"COLT'S PT. F.A. MFG. Co. HARTFORD CT. U.S.A. / DEPOT 14. PALL MALL LONDON".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1877 to 1909.
- Colt models 1877 Double Action Thunderer and Lightning revolvers were the first double action revolvers produced by Colt; these revolvers resemble a standard Colt Single Action Army, only fitted with a bird's-head grip and an unusual double action trigger and guard.
- total production of the Colt 1877 Double Action Lightning and Thunderer revolvers was approximately 166,849.
- the cylinder is fluted and there are no cylinder stop notches.
- the majority of these revolvers were blued with color-case-hardened receiver/frames, while most of the remainder were nickel plated; custom revolvers were also available with various degrees of engraving.
- the left side of the receiver/frame will normally have a patent date marking of:
"PAT. SEPT. 19, 1871"
"PAT. SEPT. 15, 1874"
"PAT. JAN. 19, 1875".
- this revolver was also manufactured as the Colt "1877 Double Action Thunderer", in calibre 41 LONG COLT which will also accept the shorter 41 SHORT COLT cartridge.
- made both with and without ejector-rod and housing, the majority of production was fitted with hard rubber grips with Colt's "rampant colt" insignia.
- features include: solid top receiver/frame with a right side loading gate; fixed sights; bird's-head grip; double-action trigger mechanism.

Manufacturer

- manufacturer's designation is marked on the barrel.
- the manufacturer is normally marked on the top of the barrel as:
"COLT'S PT. F.A. MFG. Co. "HARTFORD. CT. U.S.A."
- on short barreled revolvers, the manufacturer may be marked in two lines:
"COLT'S PT. F.A. MFG. Co."
"HARTFORD. CT. U.S.A.".
- revolvers with barrel length of 64mm or less may have the manufacturer marked on the side of the barrel.
- approximately 1,500 of the Colt 1877 Double Action Lightning and Thunderer revolvers were marked on top of the barrel as:
"COLT'S PT. F.A. MFG. Co. HARTFORD CT. U.S.A. / DEPOT 14. PALL MALL LONDON".
- the Colt rampant horse logo is normally marked on the left side of the receiver/frame, above the trigger.

Serial Number

- serial number ranges from 1 to 166849.
- numbered on the bottom of the receiver/frame forward of the trigger-guard, the trigger-guard, and the bottom of the butt.

Calibre

- from 1877 to 1890, up to approximately serial number 73,500, the calibre designation was normally on the left side of the trigger guard as: "32 CAL" or "38 CAL".
- from 1890 on, the calibre designation is normally marked on the left side of the barrel as: "COLT. D.A. 32" or "COLT. D.A. 38".
- Colt lists a number of calibres as being available in this model firearm. In fact Colt revolver cylinders had chambers which were cut for the longest of a variety of cartridge case lengths of the same approximate calibre cartridge. The shorter cartridges chamber and fire in the long chamber in much the same way that 38 SPL will chamber and fire in a revolver chambered for the 357 MAG cartridge.

Further Info:
- 32 LONG COLT was the longest 32 calibre cartridge chambering. Firearms chambered for 32 LONG COLT calibre will also accepted 32 SHORT COLT cartridges.
- 38 LONG COLT was the longest 38 calibre cartridge chambering. Firearms chambered for 38 LONG COLT calibre will also accepted 38 SHORT COLT cartridges.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
- Note: revolvers in this model series using the cartridge 38-44 SMITH & WESSON and within the serial number range of 1 to 105,200 are known to have been manufactured prior to 1898, and are considered "Antique" in Canada.

Other Markings

- the American Express Company purchased approximately 1,200 Colt 1877 Double Action Lightning and Thunderer revolvers. These revolvers were marked on the backstrp, "AM. EX. CO.", followed by a company number.
- Colt 1877 Double Action Lightning and Thunderer revolvers have been observed to have the following markings:
"POLICIA DEL DISTRITO FEDERAL"
- or
"GENDARMAEIA V.C."
or
"POLICIA DEL DISTRITO FEDERAL MINISTERIO DE GOBERNACIAON".
- the left side of the receiver/frame will normally have a patent date marking of:
"PAT. SEPT. 19, 1871"
"PAT. SEPT. 15, 1874"
"PAT. JAN. 19, 1875".

Remarks

- the Colt Model 1877 Double Action Lightning is normally (90%) found in 38 Colt calibre and will be found marked as D.A. 38.
- when in calibre 41 SHORT COLT or 41 LONG COLT and marked as D.A. 41, this revolver is known as the 1877 Double Action Thunderer.

Notes

Make

- the make is normally marked on top of the barrel as:
"COLT'S PF. F.A. MFG. Co. "HARTFORD. CT. U.S.A."
- on short barreled revolvers, the make may be marked in two lines:
"COLT'S PF. F.A. MFG. Co."
"HARTFORD. CT. U.S.A.".
- revolvers with barrel length of 64mm or less may have the make marked on the side of the barrel.
- approximately 1,500 of the Colt 1877 Double Action Thunderer and Lightning revolvers were marked on top of the barrel as:
"COLT'S PT. F.A. MFG. Co. HARTFORD CT. U.S.A. / DEPOT 14. PALL MALL LONDON".

Model

- manufactured from 1877 to 1909.
- Colt models 1877 Double Action Thunderer and Lightning revolvers were the first double action revolvers produced by Colt; these revolvers resemble a standard Colt Single Action Army, only fitted with a bird's-head grip and an unusual double action trigger and guard.
- total production of the Colt 1877 Double Action Thunderer and Lightning revolvers was approximately 166,849.
- the majority of these revolvers were blued with color-case-hardened receiver/frames, while most of the remainder were nickel plated; custom revolvers were also available with various degrees of engraving.
- the cylinder is fluted and there are no cylinder stop notches.
- made both with and without ejector-rod and housing, and the majority of production was fitted with hard rubber grips with Colt's "rampant colt" insignia.
- fixed sights, bird's-head grip, and a double-action trigger mechanism.
- the left side of the receiver/frame will normally have a patent date marking of:
"PAT. SEPT. 19, 1871"
"PAT. SEPT. 15, 1874"
"PAT. JAN. 19, 1875".
- this revolver was also manufactured as the Colt "1877 Double Action Lightning", in 32 Long Colt, 38 S&W, 38-44 S&W, and 38 Long Colt.

Manufacturer

- the manufacturer is normally marked on top of the barrel as:
"COLT'S PF. F.A. MFG. Co. "HARTFORD. CT. U.S.A."
- on short barreled revolvers, the manufacturer may be marked in two lines:
"COLT'S PF. F.A. MFG. Co."
"HARTFORD. CT. U.S.A.".
- revolvers with barrel length of 64mm or less may have the manufacturer marked on the side of the barrel.
- approximately 1,500 of the Colt 1877 Double Action Thunderer and Lightning revolvers were marked on top of the barrel as:
"COLT'S PT. F.A. MFG. Co. HARTFORD CT. U.S.A. / DEPOT 14. PALL MALL LONDON".
- the Colt rampant horse logo is normally marked on the left side of the receiver/frame, above the trigger.

Serial Number

- serial number ranges from 1 to 166849.
- serial number is marked on the bottom of the receiver/frame forward of the trigger-guard, the trigger-guard, and the bottom of the butt.
- revolvers in this model series using the cartridge 41 Long Colt and within the serial number range of 1 to 105,200 are known to have been manufactured prior to 1898.

Barrel

- barrels range from 38mm to 152mm without ejector and from 114mm to 254mm with ejector.

Calibre

- from 1877 to 1890, up to approximately serial number 73,500, the calibre designation was normally on the left side of the triggerguard as: "41 CAL".
- from 1890 on, the calibre designation is normally marked on the left side of the barrel as: "COLT. D.A. 41".
- Colt firearms of the 1875 - 1900 time period, chambered for the cartridge known as 41 LONG COLT will also chamber and fire the cartridge known as 41 SHORT COLT in the same manner as 38 SPL may be fired in firearms chambered for the 357 MAGNUM cartridge.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
- revolvers in this model series using the cartridge 41 Long Colt and within the serial number range of 1 to 105,200 are known to have been manufactured prior to 1898 and are considered "Antique" in Canada.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- the American Express Company purchased approximately 1,200 Colt 1877 Double Action Lightning and Thunderer revolvers. These revolvers were marked on the backstrp, "AM. EX. CO.", followed by a company number.
- Colt 1877 Double Action Lightning and Thunderer revolvers have been observed to have the following markings:
"POLICIA DEL DISTRITO FEDERAL"
- or
"GENDARMAEIA V.C."
or
"POLICIA DEL DISTRITO FEDERAL MINISTERIO DE GOBERNACIAON".

Remarks

- the Colt Model 1877 Double Action Thunderer is normally always found in 41 COLT or 41 LONG COLT calibre and will be found marked as D.A. 41.
- when in calibre 38 SHORT COLT or 38 COLT calibre and marked D.A. 38, this revolver is known as the Colt Model 1877 Double Action Lightning.

Notes

Make

- "COLT'S PT.F.A. MFG. CO. HARTFORD CT. U.S.A." is usually marked on the top of the rib between the barrels; "Colt's Pt. F.A. Mfg. Co." is usually marked on the lock plates.

Model

- model designation is not marked on the firearm.
- model designation is derived from the date of introduction, i.e., 1878.
- introduced in 1878 and production ceased in 1889.
- total production of 22,683 units.
- features inlclude: round side by side barrels with a bead front sight; front hinged receiver/frame with a top tang mounted break open lever; side locks with exposed rebound hammers; double triggers; extractors; checkered or uncheckered walnut forearm and semi-pistol grip buttstock; blued or browned barrels in various Damascus patterns; colour case hardened receiver/frame, locks, and forend mounts.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "COLT'S PT.F.A. MFG. CO. HARTFORD CT. U.S.A." is usually marked on the top of the rib between the barrels; "Colt's Pt. F.A. Mfg. Co." is usually marked on the lock plates.
Action	- side by side barrel pattern.
Serial Number	- serial numbering started at 1 through to 22683; serial numbers were marked on the rear of the trigger tang, bottom of the barrels at the breech end, on the action flats and the inside of each lockplate.
Barrel	- following barrel lengths were produced by Colt for this model line: 18, 26, 27, 28, 29, 29-1/4, 29-1/2, 29-3/4, 30, 31, 32, 33, and 34 inches.
Calibre	- the gauge is marked on the underside of the barrels at the breech end as either "10" or "12".

Notes

Make

- the make is normally marked on top of the barrel as:
"COLT'S PF. F.A. MFG. Co. "HARTFORD. CT. U.S.A."

Model

- manufactured from 1878 to 1905.
- the model designation is not marked on the firearm.
- this revolver was purchased by the U.S. Ordnance Department for military service and designed with an oversized triggerguard so that the revolver could be used without removing gloves or mittens. This revolver was issued to US Military troops in the State of Alaska and was also issued to US Military personnel stationed in the Philippines.
- may also be known as "Model 1902".
- total production was approximately 4,600.
- this revolver has a large round access plate on the left side of the receiver/frame located between the cylinder and the grip.
- the following markings are normally found on this revolver. The right side of the receiver/frame is marked "U.S.". The right side of the receiver/frame at the top of the grip will have inspector's markings of "J.T.T.", for John T. Thompson, or "O.C.H." for Odus C. Horney. The right side of the receiver/frame at the bottom of the grip will have a date mark of "1902". The left side of the triggerguard is marked, "R.A.C." on the front bow.
- features include: double action trigger mechanism, blued receiver/frame with a bird's-head grip, round barrel, fluted cylinder without stop notches, a fixed front sight with a fixed channel along the top strap, checkered black rubber grip panels with the Colt rampant horse logo marked on them, and the grip may have a lanyard loop.

Manufacturer

- the manufacturer's name is normally marked on top of the barrel as:
"COLT'S PF. F.A. MFG. Co. "HARTFORD. CT. U.S.A."
- the Colt rampant horse logo is normally marked on the left side of the receiver/frame.

Action

- solid reciever / frame, double action revolver with right side loading gate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- Serial numbers started at 43401 and continued unbroken to 48097 for a total of approx 4,600 pistols. - Serial number will usually be found stamped on the grip-strap. The last 2-3 digits may be repeated on the back of the cylinder and on the loading gate.
Calibre	- the calibre designation is normally marked on the left side of the triggerguard as, "45 CAL", or on the left side of the barrel as, "45 COLT".
Other Markings	- will be found dated 1902 and marked "U.S." - will be found with RAC acceptance stamps and an oversize trigger guard.

Notes

Make

- the make is normally marked on top of the barrel as:
"COLT'S PF. F.A. MFG. Co. "HARTFORD. CT. U.S.A."
- on short barreled revolvers, the make may be marked in two lines:
"COLT'S PF. F.A. MFG. Co."
"HARTFORD. CT. U.S.A.".
- revolvers with barrel length of 64mm or less may have the make marked on the side of the barrel.
- approximately 1,500 revolvers were marked on top of the barrel as:
"COLT'S PT. F.A. MFG. Co. HARTFORD CT. U.S.A. DEPOT 14. PALL MALL LONDON".

Model

- manufactured from 1878 to 1905.
- the model designation is not marked on the firearm.
- this revolver has a large round access plate on the left side of the receiver/frame. Located between the cylinder and the grip.
- total production was approximately 51,210.
- features normally include: double action trigger mechanism, blued or nickel receiver/frame with a bird's-head grip, round barrel, fluted cylinder without stop notches, a fixed front sight with a fixed channel along the top strap, may have checkered wood grip panels or checkered black rubber grip panels with the Colt rampant horse logo marked on them, and the grip may have a lanyard loop.
- revolvers with short barrels may not have an ejector rod located on the right side of the barrel. These short barrel revolvers are also known as the Sheriff's Model, Storekeeper's Model or House Model. These revolvers normally have a barrel length less then 121mm. The barrel length is known to be as short as 64mm and a few revolvers will have a barrel of 140mm.
- approximately 19,000 of these revolvers were manufactured in 44-40 WIN calibre. Revolvers in 44-40 WIN calibre were normally marked, "FRONTIER SIX SHOOTER", on the left side of the barrel.
- approximately 13 revolvers were manufactured as a flatop target revolvers. Twelve in the calibre of 450 REV calibre and one in 32-20 WIN calibre. These revolvers will have a flat topstrap with square sides. The rear sight is windage adjustable and the front sight will have a solid base and is fitted with an iron blade or German silver blade, which is adjustable and removable.
- revolvers with an oversized triggerguard, marked "U.S." on the right side of the receiver/frame are the Colt 1877 Double Action Alaska and Philippine models. These revolvers are normally in 45 Long Colt with a 152mm barrel.

Manufacturer

- the manufacturer is normally marked on top of the barrel as:
"COLT'S PF. F.A. MFG. Co. "HARTFORD. CT. U.S.A."
- on short barreled revolvers, the manufacturer may be marked in two lines:
"COLT'S PF. F.A. MFG. Co."
"HARTFORD. CT. U.S.A.".
- revolvers with barrel length of 64mm or less may have the manufacturer marked on the side of the barrel.
- approximately 1,500 revolvers were marked on top of the barrel as:
"COLT'S PT. F.A. MFG. Co. HARTFORD CT. U.S.A. DEPOT 14. PALL MALL LONDON".
- the Colt rampant horse logo is normally marked on the left side of the receiver/frame. Located at the lower edge of the receiver/frame, in front of the grip and behind the triggerguard.

Action

- solid receiver/frame, double action revolver with right side loading gate.

Serial Number

- serial number is usually found on the grip strap.
- the last 2-3 digits may be repeated on the back of the cylinder and on the loading gate.
- serial number range began at 1 and continued unbroken to 51210.
- in this model series, serial numbers 1 to 38,199 are known to have been manfuactured prior to 1898.
- serial numbers are numeric only without prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre may either on the left front portion of the trigger guard or on the barrel.
- calibre markings may be as follows: 32 W.C.F.; 38 CAL; 38 W.C.F.; COLT D.A. 41, 44 C.F.; 44 W.C.F.; 45 CAL; 45 COLT; 476 CAL.
- Colt firearms of the 1875 - 1900 time period, chambered for the cartridge known as 38 LONG COLT will also chamber and fire the cartridge known as 38 SHORT COLT in the same manner as 38 SPL may be fired in firearms chambered for the 357 MAGNUM cartridge.
- Colt firearms of the 1875 - 1900 time period, chambered for the cartridge known as 41 LONG COLT will also chamber and fire the cartridge known as 41 SHORT COLT, in the same manner as 38 SPL may be fired in firearms chambered for the 357 MAGNUM cartridge.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- KITTREDGE may be found marked on some pistols.
- Benjamin Kittredge of Cincinnati, Ohio, was a distributor of Colt revolvers. On 1878 Double Action Frontier revolvers, Kittridge had "OMNIPOTENT" etched on the left side of the barrel. The right side of the receiver/frame may be marked "B. KITTREDGE & Co. Cin. O.".

Notes

Make

- marked on top of the barrel as: "COLT'S PF. F.A. MFG. Co. HARTFORD. CT. U.S.A." over patent dates and abreviated on shorter barrel versions to read: "COLT'S PF. F.A. MFG. Co." over "HARTFORD. CT. U.S.A." over patent dates.

Model

- manufactured from 1889 to 1894.
- total production was approximately 31,000.
- "COLT D.A. 38" or "COLT D.A. 41" is normally marked the left side of the barrel.
- "PATENTED AUG. 5TH 1884 NOVEMBER 6TH 1888" is normally marked on top of the barrel, or "PAT. AUG. 5. 84 NOV. 6. 1888" is normally marked on the 76mm long barrel.
- Colt model 1889 Navy revolver was the first double action revolver produced by Colt featuring a swing-out cylinder.
- features include: double action trigger mechanism, a solid blued or nickel receiver/frame and round barrel, the hammer may be case hardened, a unshrouded ejector rod is located under the barrel, a rectangular shaped cylinder release button is located on the left side of the receiver/frame, a fixed half moon blade for a front sight with a fixed rear sight notch on the topstrap, and may have black checkered rubber grip panels with marked with "COLT" inside an oval or a circle with "COLT", the Colt rampant colt logo and "1892".
- revolvers may also be finished with gold or silver plating, or various combinations.
- the grip panels may also made be walnut, pearl or ivory.
- the cylinder has long flutes with the cylinder stop notches located on the back of the cylinder and the cylinder rotates counter clock wise.
- a access plate is located on the right side of the receive/frame.
- the U.S. Navy purchased 5,000 revolvers in 38 LONG COLT with 152MM barrels. From serial number 1 to 5,000. Between 1896 and 1890, approximately 4,500 of the revolvers purchased by the U.S. Navy were converted to the use the Colt model "1892 New Army & Navy Double Action" cylinder and lockwork.
- the U.S. Navy revolvers will have the following markings located on the but as: "U.S.N", a picture of an anchor, ".38 D.A.", "No", the Colt serial number, "P", "W.W.K.", and a date marking, example "1889".

Manufacturer

- the manufacturer is normally marked on top of the barrel as:
"COLT'S PF. F.A. MFG. Co. HARTFORD. CT. U.S.A."
over patent dates and abreviated on shorter barrel versions to read:
"COLT'S PF. F.A. MFG. Co."
"HARTFORD. CT. U.S.A.".
over patent dates.

Action

- this firearm was the first revolver featuring a swing-out cylinder made by Colt.
- solid reciever/frame, swing-out cylinder, simultaneous ejecting revolver.

Serial Number

- the serial number is marked on the butt of the receiver/frame.
- the serial number range is from 1 to approximately 31,000.
- the serial number may be marked in one or two lines.
- this revolver is also marked with assembly numbers and this number should not be mistaken for the serial number. These numbers are two or three digits, located on the receiver/frame in the crane cut out area, crane, cylinder release, and the underside of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- Colt firearms of the 1875 - 1900 time period, chambered for the cartridge known as 41 LONG COLT will also chamber and fire the cartridge known as 41 SHORT COLT and firearms chambered for the cartridge known as 38 LONG COLT will also chamber and fire the cartridge known as 38 SHORT COLT in the same manner as 38 SPL may be fired in firearms chambered for the 357 MAGNUM cartridge.
- the calibre will be found marked on the left side of the barrel as: - "COLT D.A. 38" or "COLT D.A. 41", depending on the pistol's actual calibre.

Other Markings

- top of barrel marked with Colt address and patent dates.
- the US Navy contract for qty 5000 revolvers in calibre 38 LONG COLT with 152MM barrels are marked with Navy "Fouled Anchor" USN property mark on the bottom of the hand grip.
- may be encountered with British proof marks in the following locations: left side or bottom of the barrel/each chamber of the cylinder, both near the breech.

Remarks

- 5000 of these firearms were purchased by the US Navy in calibre 38 LONG COLT with 152MM barrels. These firearms are marked with Navy "Fouled Anchor" USN property mark on the bottom of the hand grip.

Notes

Make

- the make is normally marked on top of the barrel as:
"COLT'S PF. F.A. MFG. Co. HARTFORD. CT. U.S.A.".
over a patent dates.
- on short barreled revolvers, the make may be marked in two lines as:
"COLT'S PF. F.A. MFG. Co."
"HARTFORD. CT. U.S.A.".
over a patent dates.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1892 to 1907.
- model is not written in full on the firearm.
- approximately 291,000 examples produced.
- features include: fluted cylinder; single and double action capable; round barrel;
 blued metal surfaces were standard with nickel plating or gold and nickel plating options, or a combination of the three.
- blued or case-hardened hammers with a fixed firing pin; two-piece checkered rubber grips with "COLT" and in some cases with the Colt rampant horse symbol and the model date, walnut grips were also available along with a number of special order materials as ivory, silver, and pearl;
- cylinders revolve counter-clockwise with the crane opening to the left of the receiver/frame, cylinder does not feature automatic ejection.
- cylinder centre-pin/ejector rod is not shrouded on the underside of the barrel;
- an action sideplate is fitted to the right side of the receiver/frame;
- may be fitted with a lanyard ring on the bottom of the butt;
- half-moon blade foresight combined with a fixed groove/notch rear sight machined in the receiver/frame top strap forward of the hammer.
- markings include manufacturer information on the top of the barrel (see manufacturer notes) and "COLT D.A. 38" or "COLT D.A. 41" stamped on the left side of the barrel.
- is similar to the model 1889 Navy; do not confuse the two distinct models (see cross references)
- variant markings for this model are listed in the "Other Markings" notes field.
- may also be known as the 1894, 1895, 1896, 1901 or 1903 New Army & Navy Double Action.

Manufacturer

- the manufacturer is normally marked on top of the barrel as:
"COLT'S PF. F.A. MFG. Co. HARTFORD. CT. U.S.A.".
over a patent dates.
- on short barreled revolvers, the manufacturer may be marked in two lines as:
"COLT'S PF. F.A. MFG. Co."
"HARTFORD. CT. U.S.A.".
over a patent dates.

Action

- solid receiver/frame, swing-out cylinder, simultaneous ejecting revolver.

Serial Number

- total production approximately 291,000.
- serial numbers started at 1 and continued to 291000.
- stamped on bottom of butt, often in two lines, for example the stamping:
 12
 169
would actually be serial number 12169.
- do not confuse assembly numbers (normally two to three digits) found on the cylinder release and crane, on the frame or on the breech end of the cylinder with the serial number which may consist of a single digit to six digits.

Barrel

- rare factory original lengths were 51mm and 127mm.
- US Navy models were supplied in 152mm length.

Calibre

- Colt firearms of the 1875 - 1900 time period, chambered for the cartridge known as 41 LONG COLT will also chamber and fire the cartridge known as 41 SHORT COLT and firearms chambered for the cartridge known as 38 LONG COLT will also chamber and fire the cartridge known as 38 SHORT COLT in the same manner as 38 SPL may be fired in firearms chambered for the 357 MAGNUM cartridge.
- the calibre will be found marked on the left side of the barrel as: - "COLT D.A. 38" or "COLT D.A. 41", depending on the pistol's actual calibre.
- 32-20 WIN was introduced to production circa 1905 in the 241000 serial number range.
- 38 SPL as a cartridge calibre was introduced by Smith & Wesson in 1902.
- Colt chambered this model revolver for 38 SPL circa 1904.
- Colt discontinued this model revolver in 1907.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
- NOTE: - there is no provision in the Antique Firearms Regulations that prevents a genuine Antique firearm from having the calibre of cartridge it utilizes changed and retain antique status under certain circumstances. The calibre change to 38 Special, 357 Magnum or 45 AUTO does not disqualify a firearm from being antique because these calibres are not excluded calibres in the Regulations Prescribing Antique Firearms (SOR - 464). This is true even though cartridges in these calibres did not exist before 1898.
- examples being evaluated for Antique status must have a serial number in the range of 1 to 91199; serial numbers of 91200 to 272000 were produced beginning in 1898.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- markings which may be found on this model include the following:
- US Navy owned examples were marked on the barrel in the following format:
  U.S.N. / "Fouled Anchor" symbol / .38 D.A. / No (serial number) / P / W.W.K / (date)
- a trident symbol was also included on occasion.
- US Army owned examples were marked on the barrel in the following format:
  U.S. ARMY MODEL / (date) / (serial number)
- Army assigned serial numbers may not correspond with the serial number on the butt of the receiver/frame which must be used for the purpose of registration.
- other markings which may be on the barrel or on the receiver/frame include:
  - CORREOS RM
  - ELYNIA
  - POLICIA DE SAN SALVADOR
  - PROPERTY POLICE DEPT / ATHENS GA.
  - MODELE ARGENTINE 1895 (NOTE :s/n range 80000-85000 only).
  - ARMADA ARGENTINA
  - GUARDIA RURAL
  - POLICIA DEL SALVADOR
  - POLICIA DE LA CAPITAL
  - POLICIA DE GUATEMALA
  - PROP. OF 1st NAT. BANK BUTTE, MONT.
- additionally rollmarks applied by agencies in Connecticut and Pennsylvania may also be seen.
- may be encountered with British proof marks in the following locations: left side or bottom of the barrel/each chamber of the cylinder, both near the breech.
- a patent date is normally marked on top of the barrel as:
"PATENTED AUG. 5TH 1884 NOVEMBER 6TH 1888".
- on short barreled revolvers, the manufacturer may be marked in two lines as:
"PAT. AUG. 5. 84 NOV. 6. 1888".
- in 1895 at approximately serial number 15,100, a patent date marking of
"MAR. 5. 95" was added.
- in 1901 at approximately serial number 148,000, a patent date marking of
"APR. 9. 1901" was added.

Remarks

- this model includes six separate variants of the New Army & Navy Double Action model.
- these variants include:
  - Model 1892- the basic model to which design adaptations/modifications were made within the series;
  - Model 1894- incorporated hammer and trigger locks in the action lockwork;
  - Model 1895- barrel markings modified;
  - Model 1896- barrel markings modified;
  - Model 1901- lanyard rings mounted as standard rather than as a service modification, grips changed to a narrower width;
  - Model 1903- bore diameter reduced by .005" in an effort to improve accuracy.
- this model was adopted by the United States Army and Navy and may be marked to indicate possession by and service with these military branches.
- numerous other police forces, agencies, countries also purchased this model.
- variant markings will be listed in the "Other Markings: note field.

Notes

Make

- the make is normally marked on the top of the barrel as:
"COLT'S PT.F.A.MFG.Co.HARTFORD,CT.U.S.A."

Model

- introduced in 1894 and discontinued in 1912.
- the model designation is not marked on the firearm.
- total estimated production is approximately 6,803.
- this revolver is the Colt "1894 Single Action Army Bisley" model with the left side of the barrel normally marked, "FRONTIER SIX SHOOTER", and may also be marked "BISLEY MODEL".
- the grip and the spur on the hammer identify a Bisley revolver. The grip will give the appearance of a curving straight downward. The hammer spur will normally curve in a rearward direction, keeping the hammer below the level of the rear sight in both the cocked and uncocked position.
- features include: single action, gate loading, case hardened solid receiver/frame and spurred hammer, blued round barrel, fluted cylinder, grip frame and round trigger guard, ejector rod located on the right side of the barrel and grip panels made of wood or rubber.
- models may also have engraving, or be finished in full nickel, silver, copper or gold plating.
- the left side of the receiver/frame will normally have one of the following patent date markings:

"PAT. SEPT. 19, 1871"
" " JULY 2, -72"
" " JAN. 19, -75"
or
"PAT. SEPT. 19, 1871"
"JULY 2, 72, JAN 19, 75".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is normally marked on the top of the barrel as: "COLT'S PT.F.A.MFG.Co.HARTFORD,CT.U.S.A." - the Colt rampant horse logo is marked on the left side of the receiver/frame.
Action	- solid receiver/frame, single action revolver, fixed cylinder with right side loading gate.
Serial Number	- serial number is located on the bottom of the receiver/frame in front of the trigger guard.
Calibre	- calibre is marked on the firearm.
Remarks	- a revolver which is known as the Sheriff's Model or Storekeeper's Model was a revolver which normally had a barrel length less then 121mm or less and no ejector housing on the side of the barrel. The barrel length is known to be as short as 64mm and a few revolvers will have a barrel of 191mm. These revolvers were made from the Colt "1873 Single Action Army", "1873 Single Action Army Flattop Target", "1894 Single Action Army Bisley", and a few were made from the "1894 Single Action Army Bisley Target Model". It is estimated that 1,000 revolvers were manufactured. The Colt markings may vary on the shorter barrel revolvers. The markings may be on the side or the bottom of the barrel.

Notes

Make

- the make is normally marked on the top of the barrel as:
"COLT'S PT.F.A.MFG.Co.HARTFORD,CT.U.S.A."

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 1894 and discontinued in 1912.
- the full model designation is not marked on the firearm.
- total estimated production is approximately 44,350.
- the left side of the barrel is normally marked, "(BISLEY MODEL)", on revolvers manufactured after 1895. The markings on the barrel may also include, "SINGLE ACTION ARMY".
- the grip and the spur on the hammer identify a Bisley revolver. The grip will give the appearance of a curving straight downward. The hammer spur will normally curve in a rearward direction, keeping the hammer below the level of the rear sight in both the cocked and uncocked position.
- features include: single action, gate loading, case hardened solid top receiver/frame and spurred hammer, blued round barrel, fluted cylinder, grip frame and round trigger guard, ejector rod located on the right side of the barrel and grip panels made of wood or rubber.
- models may also have engraving, or be finished in full nickel, silver, copper or gold plating.
- the left side of the receiver/frame will normally have one of the following patent date markings:

"PAT. SEPT. 19, 1871"
" " JULY 2, -72"
" " JAN. 19, -75"
or
"PAT. SEPT. 19, 1871"
"JULY 2, 72, JAN 19, 75".

- revolvers in 44-40 WIN may be marked, "COLT FRONTIER SIX SHOOTER", on the left side of the barrel.

Manufacturer

- the manufacturer is normally marked on the top of the barrel as:
"COLT'S PT.F.A.MFG.Co.HARTFORD,CT.U.S.A."
- the Colt rampant horse logo is marked on the left side of the receiver/frame.

Action

- solid receiver/frame, single action revolver, fixed cylinder with right side loading gate.

Serial Number

- the serial number is marked on the underside of the receiver/frame.
- this model was numbered within the Single Action Army serial number range starting at approximately 156,300 and continued to approximately 331,916.
- this revolver model was discontinued in 1912.

Calibre

- the calibre designation is normally marked on the left side of the barrel.

Remarks

- a revolver which is known as the Sheriff's Model or Storekeeper's Model was a revolver which normally had a barrel length less then 121mm or less and no ejector housing on the side of the barrel. The barrel length is known to be as short as 64mm and a few revolvers will have a barrel of 191mm. These revolvers were made from the Colt "1873 Single Action Army", "1873 Single Action Army Flattop Target", "1894 Single Action Army Bisley", and a few were made from the "1894 Single Action Army Bisley Target Model". It is estimated that 1,000 revolvers were manufactured. The Colt markings may vary on the shorter barrel revolvers. The markings may be on the side or the bottom of the barrel.

Notes

Make

- the make is normally marked on the top of the barrel as:
"COLT'S PT.F.A.MFG.Co.HARTFORD,CT.U.S.A."
- a few revolvers were marked:
"COLTS PT. F.A. MFG. Co. HATRFORD CT. U.S.A. DEPOT 14 PALL MALL LONDON".

Model

- introduced in 1894 and discontinued in 1912.
- the model designation is not marked on the firearm.
- total estimated production is approximately 976.
- the left side of the barrel is normally marked, "(BISLEY MODEL)".
- this revolver is the Colt 1894 Single Action Army Bisley with a flat topstrap with square sides. The front sight has a solid base with an adjustable and removable German silver blade, and a fixed rear sight, which is dovetailed to the topstrap.
- the grip and the spur on the hammer identify a Bisley revolver. The grip will give the appearance of a curving straight downward. The hammer spur will normally curve in a rearward direction, keeping the hammer below the level of the rear sight in both the cocked and uncocked position.
- features include: single action, gate loading, case hardened solid receiver/frame and spurred hammer, blued round barrel, fluted cylinder, grip frame and round trigger guard, ejector rod located on the right side of the barrel and grip panels made of wood or rubber.
- models may also have engraving, or be finished in full nickel, silver, copper or gold plating.
- the left side of the receiver/frame will normally have one of the following patent date markings:
"PAT. SEPT. 19, 1871"
" " JULY 2, -72"
" " JAN. 19, -75"
or
"PAT. SEPT. 19, 1871"
"JULY 2, 72, JAN 19, 75".
- an estimated 78 revolvers were manufactured in 44-40 WIN. These revolvers may be marked, "COLT FRONTIER SIX SHOOTER", on the left side of the barrel.

Manufacturer

- the manufacturer is normally marked on the top of the barrel as:
"COLT'S PT.F.A.MFG.Co.HARTFORD,CT.U.S.A."
- a few revolvers were marked:
"COLTS PT. F.A. MFG. Co. HATRFORD CT. U.S.A. DEPOT 14 PALL MALL LONDON".
- the Colt rampant horse logo is marked on the left side of the receiver/frame.

Action

- solid receiver/frame, single action revolver, fixed cylinder with right side loading gate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is located on the underside of the receiver/frame. - the serial number rational is the same as the Colt "1873 Single Action Army". - the serial number range is from 156,300 to 331,916.
Barrel	- the standard barrel length was 191mm. Some revolvers were made with a 127, 140, or a 152mm barrel. Custom orders could be placed for a specific barrel length. - a barrel length other then 191mm is rare.
Calibre	- the calibre designation is normally marked on the left side of the barrel. - a barrel lenght other then 191mm is rare.
Remarks	- a revolver which is known as the Sheriff's Model or Storekeeper's Model was a revolver which normally had a barrel length less then 121mm or less and no ejector housing on the side of the barrel. The barrel length is known to be as short as 64mm and a few revolvers will have a barrel of 191mm. These revolvers were made from the Colt "1873 Single Action Army", "1873 Single Action Army Flattop Target", "1894 Single Action Army Bisley", and a few were made from the "1894 Single Action Army Bisley Target Model". It is estimated that 1,000 revolvers were manufactured. The Colt markings may vary on the shorter barrel revolvers. The markings may be on the side or the bottom of the barrel.

Notes

Model

- was manufactured from 1900 to 1903.
- may also be known as "1900 US Army" or "1900 US Navy".
- 3500 pistols were manufactured, 200 sold to the US Navy, 200 sold to the US Army and the remaining to the civilian market.
- the Navy marked models have "USN" stamped on the left side of the receiver above the trigger guard, followed by a number. These models are also marked with a "b" inside a triangle on the left side of the trigger guard and a "trident" on the right side of the trigger guard.
- some Army models have "U.S." stamped on the left side of the trigger guard. "J.T.T." and "1900" are stamped on either the right or left grip. Other Army models are marked with the initials "R.A.C." on the right side of the trigger guard. These firearms have no grip markings.

Serial Number

- serial numbering started at 1 and ran consecutively to approximately 3500.
- the serial number for the "1900 US Army" is located on the left side of the frame and ranges from 1501 to 1700.
- the serial number for the "1900 US Navy" is located on the right side of the receiver above the trigger guard and ranges from 1001 to 1250.

Other Markings

- Markings on the left side of slide:
"BROWNING'S PATENT" COLT'S PATENT FIRE ARMS MFG. CO.
PAT'D APRIL 20. 1897 HARTFORD. CONN. USA
- Markings on the right side of slide:
AUTOMATIC COLT
CALIBRE 38 RIMLESS SMOKELESS
- The "rampant Colt" trademark inside a circle is stamped on the right of the left side of the slide.

Notes

Make

- the "COLT" name and logo are marked on the firearm.

Model

- manufactured from 1903 to 1908.
- the model designation is not marked on the firearm.
- may also be known as the "1902 Sporting".
- the key to identifying the model 1902 from the model "1902 Military" is the model 1902 does not have an automatic slide lock on the left side of the receiver/frame, has a seven shot magazine and both models have independent serial number rationalizations.

Manufacturer

- "COLT'S PATENT FIRE ARMS MFG. CO." over "HARTFORD. CONN. U.S.A." is marked on the left side of the slide.

Serial Number

- serial numbers continue from the Model 1900.
- Range: from 3500 to 8800.
  from 10200 to 10999.
  from 30000 to 30190.
- the serial number should be located on the left side of the receiver/frame above the trigger guard.

Calibre

- marked as "AUTOMATIC COLT" over "CALIBRE 38 RIMLESS SMOKELESS" on the right side of the slide.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- markings on the left side of slide: serial number from 3500 to 5500:
  "BROWNING'S PATENT" COLT'S PATENT FIRE ARMS MFG. CO.
  PAT'D APRIL 20. 1897 HARTFORD. CONN. U.S.A.
- markings on the left side of slide: serial number from 5500 to 6500:
  "BROWNING'S PATENT" COLT'S PATENT FIRE ARMS MFG. CO
  PAT'D APRIL 20. 1897 HARTFORD. CONN. U.S.A.
  SEPTEMBER 9, 1902
- markings on the left side of slide: serial number from 6500 to 9500:
  "BROWNING'S PATENT" COLT PATENT FIRE ARMS MFG. CO
  APR. 20. 1897 SEPT.9.1902 HARTFORD, CONN. U.S.A.
- markings on the left side of slide: serial number from 9500 forward:
  PATENTED COLT'S PT. F. A. MFG. CO.
  APR. 20. 1897 SEPT. 9. 1902 HARTFORD, CT. U.S.A.
- markings on the right side of slide:
  AUTOMATIC COLT
  CALIBRE 38 RIMLESS SMOKELESS
- the "rampant colt" trademark inside a circle is usually marked on the firearm.

Notes

Make

- marked on the firearm.

Model

- was manufactured from 1903 to 1945.
- may also be known as "1903 Pocket Automatic".
- features an internal hammer.
- 200,000 were made for the US Military from 1941 to 1945, these models having their own serial number range and marked "US PROPERTY" on the frame.
- "VP" within a triangle may be stamped on the left side of the trigger guard.
- the 1903 Pocket Hammerless was only factory chambered for the 32 Auto/7.65mm cartridge; a later version of this pistol, the 1908 Pocket Hammerless, was chambered for 380 Auto, but bears the same patent dates.

Manufacturer

- marked on the firearm.

Serial Number

- Range: 1 to 572215.
- serial number is stamped on the left side of the receiver/frame above the trigger guard.

Barrel

- barrels were 102MM until approximately serial No 72000, when the factory reduced the barrel length to 95MM.

Shots

- detachable box magazine.

Other Markings

- markings on the left side of the slide:
  - serial number from 1 to 11000:
    "BROWNING'S PATENT" COLT'S PAT. F.A. M'F'G. CO.
    PAT'D APRIL 20.1897 HARTFORD. CONN. U.S.A.
  - serial number 11000 to 60000:
    "BROWNING'S PATENT" COLT'S PAT. F.A. M'F'G. CO.
    APR. 20. 1897 DEC. 22.1903 HARTFORD. CONN. U.S.A.
  - serial number 60000 forward:
    PATENTED COLT'S PAT. F.A. M'F'G. CO.
    APR. 20. 1897 DEC.22. 1903 HARTFORD, CT. U.S.A.
  - Colt Markings 1910 to 1925
    COLT'S PT. F.A. MFG. CO.
    HARTFORD, CT. U.S.A.
  - Colt Markings 1925 forward:
    COLT'S PT.F.A. MFG. CO. HARTFORD. CT. U.S.A.
    PATENTED APR. 20. 1897, DEC. 22. 1903.
- markings on the right side fo the slide:
  - from 1903 to 1925
    AUTOMATIC COLT
    CALIBRE 32 RIMLESS SMOKELESS
  - 1925 forward:
    COLT AUTOMATIC
    CALIBRE 32 RIMLESS SMOKELESS

Remarks

- the model "1903 Pocket Hammerless" in calibre "32 AUTO" only and the "1908 Pocket Hammerless" in calibre "380 AUTO" only; share the same Patent Dates of "Apr. 20. 1897. Dec. 22. 1903".

Notes

Make

- "AUTOMATIC COLT" was observed marked on the right side of the slide.
- "COLT'S PT. F.A. MFG. CO." and "HARTFORD. CT. U.S.A" was observed marked on the left side of the slide.

Model

- "PATENTED" and "APR.20,1897 SEPT.9,1902 DEC.19,1905" was observed marked on the left side of the slide.
- 1905 was the direct predecessor of the Model 1911.
- manufactured from 1905 to 1911.
- available with a combination stock and holster which allowed the firearm to be quickly converted into a shoulder piece.
- Two hundred "1905 US Military" models were manufactured and serial numbered separately. They are differentiated from the Model "1905" by the "KM" stamped on the left side of the trigger guard.

Manufacturer

- "COLT" was observed marked on the side of the slide.

Action

- recoil operated.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- serial number range was from 1 to 6100.

Calibre

- "AUTOMATIC COLT" and "CALIBRE 45 RIMLESS SMOKELESS" was observed marked on the right side of the slide.

Shots

- detachable box magzine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- markings on the left side of the slide:
serial number 1 to 500:
"BROWNING'S PATENT" COLT'S PATENT FIRE ARMS MFG. CO.
APR. 20. 1897 SEPT. 9. 1902 HARTFORD. CONN. U.S.A.
serial number 500 to 700:
PATENTED COLT'S PT. F.A. MFG. CO.
APR. 20. 1897 SEPT. 9. 1902 HARTFORD. CONN. U.S.A.
serial number 700 to approximately 2600:
PATENTED COLT'S PATENT FIRE ARMS MFG. CO.
APR.20,1897 SEPT.9,1902 DEC.19,1905 HARTFORD.CONN. U.S.A.
serial number, approximately from 2600 forward:
PATENTED COLT'S PT. F.A. MFG. CO.
APR.20,1897 SEPT.9,1902 DEC.19,1905 HARTFORD. CT. U.S.A
- markings on the right side of slide:
AUTOMATIC COLT
CALIBRE 45 RIMLESS SMOKELESS

Notes

Make

- "COLT AUTOMATIC" over "CALIBRE 25" is usually marked on the right side of the slide.
- "COLT" may be marked on the grip panels.

Model

- model designation is not marked on the firearm.
- manufactured from 1908 to 1941.
- this model received the "Vest Pocket" designation because of the smaller calibre and shorter barrel. This is the main difference from the "1908 Hammerless" model.
- this model may also be known as "1908 Hammerless Automatic" or "1908 Pocket Hammerless".
- "VP" within a triangle may be stamped on the left side of the trigger guard.
- the US Military purchased a few thousand. These firearms can be stamped "U.S. PROPERTY" on the right side of the frame above the trigger guard.
- firearms sold in England will be found with British proofmarks.

Manufacturer

- "COLT'S PT.F.A. MFG. CO. HARTFORD, CT. U.S.A." is marked on the left side of the slide.
- "COLT AUTOMATIC" is marked on the right side of the slide.
- "COLT" may be marked on the grip panels.

Action

- blowback operated.

Serial Number

- production started in 1908 with serial number 1 and continued until 1941 when production stopped at number 409061.
- serial number is stamped on the left side of the receiver/frame above the trigger.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "CALIBRE 25" is marked on the right side of the slide.
Shots	- detachable box magazine.
Other Markings	- Markings on the left side of slide: serial number from 1 to 2000 COLT'S PAT. FIRE ARMS MFG. CO. HARTFORD CONN USA. PATENTED AUG. 25. 1896 APR. 20. 1897. 24027 - 3	45 COLT M1909	6	140	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is normally marked on top of the barrel with patent dates as:
"COLT'S PF. F.A. MFG. CO. HARTFORD. CT. U.S.A."
"PAT'D AUG. 5. 1884. JUNE 5, 1900. JULY 4, 1905".
- the 'Rampant Colt' logo is marked on the left side of the receiver/frame on the sideplate.

Model

- this firearm model was manufactured from 1911 to 1913.
- the sideplate may be marked "COLT'S NEW SERVICE" as a circle. The underside of the barrel is normally marked, "UNITED STATES PROPERTY", and the butt of the revolver is normally marked:
"U.S."
"ARMY"
"MODEL"
"1909"
"No"
"12"
"345"
- features include: double action trigger mechanism, blue finish, solid receiver/frame and round barrel, fluted cylinder, the cylinder stop notches are located on the side of the cylinder towards the rear, the cylinder release latch is on the left side of the receiver/frame, a fixed blade iron sight with the rear sight consisting of a fixed channel on the topstrap, lanyard loop on the butt, the hand grip panels may be checkered hard rubber marked "COLT", or checkered walnut grips with the Colt medallion.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is normally marked on top of the barrel with patent dates as: "COLT'S PF. F.A. MFG. CO. HARTFORD. CT. U.S.A." "PAT'D AUG. 5. 1884. JUNE 5, 1900. JULY 4, 1905". - the 'Rampant Colt' logo is marked on the left side of the receiver/frame on the sideplate.
Action	- solid receiver/frame, swing out cylinder, simultaneous ejecting, double action revolver.
Serial Number	- the serial number is marked on the receiver/frame in the crane cut out area. - the serial number range is from 30,000 to 50,000. - on revolvers with military markings, a number may be marked on the butt of the grip. This number is not the serial number. This number may be marked as: "NO" "12" "123"
Calibre	- the calibre designation is normally marked on the left side of the barrel as, "45". - the ammunition for these revolvers was manufactured only in US Government arsenals and was known as 45 COLT US GOVERNMENT, Model 1909. While these cartridges were practically identical to the commercial 45 COLT calibre cartridges, the US GOVERNMENT Model 1909 cartridges differered in one major respect, that being an increased diameter rim for more positive extraction. Commercial 45 COLT ammunition will chamber, function and fire in this model revolver; however, the 45 COLT US GOVERNMENT Model of 1909 cartridge cannot be loaded in revolvers chambered for 45 COLT calibre cartridges except in every second chamber due to the overlap of the larger diameter cartridge rims.
Other Markings	- Top of barrel (from 1909 to 1926) is marked with; "COLT'S PT FA MFG CO HARTFORD CT USA PAT'D AUG 5, 1884, JUNE 5, 1900, JULY 4, 1905".

Make:	Colt
Model:	1909 US Navy
Manufacturer:	Colt
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
33386 - 1	45 COLT	6	140	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
33386 - 3	45 COLT M1909	6	140	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is normally marked on top of the barrel with patent dates as:
"COLT'S PF. F.A. MFG. CO. HARTFORD. CT. U.S.A."
"PAT'D AUG. 5. 1884. JUNE 5, 1900. JULY 4, 1905".
- the 'Rampant Colt' logo is marked on the left side of the receiver/frame on the sideplate.

Model

- this firearm model was manufactured from 1911 to 1913.
- the sideplate may be marked "COLT'S NEW SERVICE" as a circle.
- the underside of the barrel is normally marked, "UNITED STATES PROPERTY", and the butt of the revolver is normally marked:
"U.S.N."
"fouled anchor"
"45 DA"
"No"
"123"
- features include: double action trigger mechanism, blue finish, solid receiver/frame and round barrel, fluted cylinder, the cylinder stop notches are located on the side of the cylinder towards the rear, the cylinder release latch is on the left side of the receiver/frame, a fixed blade iron sight with the rear sight consisting of a fixed channel on the topstrap, lanyard loop on the butt, and the hand grip panels may be checkered hard rubber marked "COLT", or checkered walnut hand grips with the Colt medallion.

Manufacturer

- the manufacturer is normally marked on top of the barrel with patent dates as:
"COLT'S PF. F.A. MFG. CO. HARTFORD. CT. U.S.A."
"PAT'D AUG. 5. 1884. JUNE 5, 1900. JULY 4, 1905".
- the 'Rampant Colt' logo is marked on the left side of the receiver/frame on the sideplate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- solid receiver/frame, swing out cylinder, simultaneous ejecting, double action revolver.
Serial Number	- the serial number is marked on the receiver/frame in the crane cut out area. - the serial number range is from 30,000 to 50,000. - on revolvers with military markings, a number may be marked on the butt of the grip. This number is not the serial number. This number may be marked as: "NO" "12" "123"
Calibre	- the calibre designation is normally marked on the left side of the barrel as, "45". - the ammunition for these revolvers was manufactured only in US Government arsenals and was known as 45 COLT US GOVERNMENT, Model 1909. While these cartridges were practically identical to the commercial 45 COLT calibre cartridges, the US GOVERNMENT Model 1909 cartridges differered in one major respect, that being an increased diameter rim for more positive extraction. Commercial 45 COLT ammunition will chamber, function and fire in this model revolver; however, the 45 COLT US GOVERNMENT Model of 1909 cartridge cannot be loaded in revolvers chambered for 45 COLT calibre cartridges except in every second chamber due to the overlap of the larger diameter cartridge rims.
Other Markings	- top of barrel (from 1909 to 1926) is marked with; "COLT'S PT FA MFG CO HARTFORD CT USA PAT'D AUG 5, 1884, JUNE 5, 1900, JULY 4, 1905".

Notes

Make

- make will be marked on the firearm.

Model

- "GOVERNMENT MODEL" is marked on the receiver/frame.
- manufactured from 1911 to 1925.
- 1911 Government Model was the commercial production model of the 1911 Military.
- 1911 Government is physically identical to the 1911 Military with different markings.
- the key feature that identifies the 1911 from the 1911A1 is the 1911 does not have a relief cut on the receiver/frame behind the trigger.
- contracts for Britain, Russia, Norway and Argentina were filled from this series.
- in 1938 Colt began manufacturing a conversion unit that converted Government and National Match Models from calibre 45 AUTO to 22 LR.

Manufacturer

- manufacturer's name will be marked on the firearm.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is located on the right side of the receiver/frame.
- serial numbers with a "C" prefix denotes the commercial series.
- serial number range is from C1 to C138532.

Calibre

- calibre designation is marked on the barrel, visible through the ejection port.

Shots

- detachable box magazine.

Notes

Make

- "COLT'S PT. F. A. MFG. CO." over "HARTFORD, CT. U.S.A." are marked on the left side of the slide.
- "COLT AUTOMATIC" is marked on the right side of the slide.

Model

- "GOVERNMENT MODEL" is marked on the right side of the receiver/frame.
- date of the contract was 1915, delivery of the 11000 firearms was completed by 1916.
- the British War Department property mark "broad arrow" was stamped on all firearms accepted by the UK Government.
- firearms were issued to the British Navy, British Army, and Canadian Army.
- in the early 1920's they were re-issued to the officers in the Royal Air Force. These models have RAF or R.A.F. may be stamped on the left side of the receiver/frame above the trigger guard.

Manufacturer

- "COLT'S PT. F. A. MFG. CO." over "HARTFORD, CT. U.S.A." are marked on the left side of the slide.
- "COLT AUTOMATIC" is marked on the right side of the slide.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- located on right side of receiver/frame
- this contract had their own serial number series with a "W" prefix.
- Range: approximately from W19,000 to W110,695.
- it is possible to find "C" prefix firearms in this contract serial number series.
- the rationalization then would be:
  "W" prefix = British Contract model, originally manufactured in 455 WEBLEY AUTO Calibre,
  "C" prefix - possibly a British Contract model and may be found in either 45 AUTO or 455 WEBLEY AUTO Calibre.

Calibre

- "CALIBRE 45" or "CALIBRE 455" may be marked on the right side of the slide.

Shots

- detachable box magazine.

Other Markings

PATENTED APR 20.1897.SEPT.9.1902 COLT'S PT.F.A.MFG.CO.
DEC.19.1905.FEB.14.1911.AUG.19.1913 HARTFORD.CT.U.S.A.
are marked on the left side of the slide.

- "rampant colt"' trademark is stamped on left side of the slide above the safety.

COLT AUTOMATIC
CALIBRE 455
is marked on the right side of the slide.

GOVERNMENT MODEL
and the serial number are marked on the right side of the receiver/frame.

Notes

Model

- this model is a generic entry representing the 1911 manufactured for the United States Army, Navy and U.S.M.C. Other FRT entries will be found that more accurately identify this Model.
- manufactured from 1912 to 1924
- This model was also manufactured by Remington-UMC, North America Arms Company and Springfield Armory.
- the 1911 Military is physically identical to the 1911 Government with different markings.
- the key feature that identifies the "1911" from the "1911A1" is that the "1911" does not have a relief cut on the frame behind the trigger.

Serial Number

- the serial number is located on the right side of the frame with the prefix "No."
- Range: approximately from 1 to 629500.

Other Markings

- Markings on the Left Side of the Frame:
  UNITED STATES PROPERTY
- Markings on the Left Side of the Slide:
  PATENTED APR.20.1897

Notes

Make

- "COLT'S PT. F. A. MFG. CO." over "HARTFORD, CT. U.S.A." is marked on the left side of the slide.

Model

- "MODEL OF 1911. U.S. ARMY" is marked on the right side of the slide.
- "PATENTED APR. 20, 1897 SEPT. 9, 1902." over "DEC. 19, 1905. FEB. 14, 1911. AUG. 19, 1913 " is marked on the left side of the slide.
- "UNITED STATES PROPERTY" is marked on the side of the receiver/frame.
- manufactured from 1911 to 1919
- 1911 was adopted by the U.S. Ordnance Department on March 29, 1911.
- the 1911 US Army was reintroduced in 2004.
- this firearm was manufactured by the "Colt's Patent Fire Arms Mfg. Co." which held the manufacturing rights under patents held by the designer, J.M. Browning.
- it featured a grip safety, manual safety, dis-connector safety; flat main-spring housing, fixed sights on the slide, and a slide-hold-open latch that engages after the last shot, or which may be manually engaged.
- it has a blued finish, with diamond-checkered walnut grips.
- the 1911 US Army is physically identical to the 1911 Government with different markings.

Manufacturer

- "COLT'S PT. F. A. MFG. CO." over "HARTFORD, CT. U.S.A." is marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- recoil operation based on the Browning system.

Serial Number

- the serial number is located on the right side of the receiver/frame with the letters "No" preceeding the serial number. The letters "No" is the abbreviation for number, eg "No 199242", the sequential number "199242" is the actual serial number.
- the serial number range is as follows: from 1 to 72570, 83856 to 102596, 107597 to 113496, 120567 to 125586, 128616 to 629500 inclusive. (also 629563, 629927, 629971).
- for intervening serial numbers, check Colt model 1911 U.S. Army manufactured by Springfield Armory.
- the serial number rationalization for pistols manufactured upon being reintroduced in 2004 differs from that of the original production run.
- newly manufactured pistols bear a serial number consisting of a "WMK" suffix followed by four numbers ranging from 0001 to approximately 4000.
- the "WMK" prefix is representative of the initials of William M. Keys, president and CEO of Colt's Manufacturing Company at the time of manufacture.

Shots

- detachable box magazine.

Notes

Make

- "Colt" is not marked on the firearm.
- produced under license from Colt.

Model

- this firearm is a standard-pattern M1911 semi-automatic pistol, notable for its manufacturer and rarity.
- the Ross Rifle Company of Quebec, Canada was closed in 1916. The vacant building was leased by the "North American Arms Company" in 1917 and manufacture of Colt, Model 1911 Pistols on contract to the United States of America Government commenced in 1917. Manufacture and deliveries were so slow that it's believed that less than 100 pistols were actually produced by the time of the Armistice in November, 1918. The contract was cancelled shortly after the end of WW I.
- these pistols have a distinct lack of markings, when marked they bear make / manufacturer and serial number markings only on the slide.
- if marked the markings read "MANUFACTURED BY / NORTH AMERICAN ARMS CO. LIMITED / QUEBEC, CANADA" on the left side of the slide.

Manufacturer

- "MANUFACTURED BY" over "NORTH AMERICAN ARMS CO. LIMITED" over "QUEBEC, CANADA" may be marked on the left side of the slide.

Action

- recoil-operated.

Serial Number

- the serial number is located on the left side of the slide at the rear and the range is from 1 to 100.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "PATENTED DEC. 19. 1905" over "FEB. 14. 1911. AUG. 19. 1913" over "COLT'S PT. F.A.MFG.CO." may be marked on the left front side of the slide.
- this firearm was produced under agreement between the "Colt's Patent Fire Arms Mfg. Co." and the United States Ordnance Department, by REMINGTON-UMC.

Model

- "MODEL OF 1911.U.S.ARMY" or "MODEL OF 1911" over "U.S.ARMY CALIBER.45" is marked on the right side of the slide.
- produced from 1918 to 1919 only; 21,698 units made.
- this firearm is virtually the same as the "model of 1911 U. S. Army" as manufactured by COLT, (except for markings, and serial number) which held the manufacturing rights under patents held by the designer, J.M. Browning.
- this firearm features a grip safety, flat main-spring housing, manual safety, dis-connector safety; fixed sights on the slide, and a slide-hold-open latch that engages after the last shot, or which may be manually engaged.
- it has a blued finish, with diamond-checkered walnut grips.
- the 1911 US Army is physically identical to the 1911 Government with different markings.

Manufacturer

- "MANUFACTURED BY" over "REMINGTON ARMS UMC CO. INC." over "BRIDGEPORT, CONN. U.S.A. " may be marked on the left rear side of the slide.

Action

- recoil operation based on the Browning system.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is located on the right side of the receiver/frame with the letters "No" preceeding the serial number. The letters "No" is the abbreviation for number, eg "No.21676", the sequential number "21676" is the actual serial number.
- the Remington UMC firm manufactured 1911 Military models were serial numbered within their own series.
- the serial number range was from 1 to 21676.

Calibre

- located on the right side of the slide.

Shots

- detachable box magazine.

Other Markings

- "UNITED STATES PROPERTY" is marked on the side of the receiver/frame.
- "PATENTED DEC. 19. 1905" over "FEB. 14. 1911. AUG. 19. 1913" over "COLT'S PT. F.A.MFG.CO." may be marked on the left front side of the slide.
- "REMINGTON" over "UMC" inside a circle, may be marked on the left side of the slide.
- "MANUFACTURED BY" over "REMINGTON ARMS UMC CO. INC." over "BRIDGEPORT, CONN. U.S.A. " may be marked on the left rear side of the slide.
- "MODEL OF 1911.U.S.ARMY" or "MODEL OF 1911" over "U.S.ARMY CALIBER.45" is marked on the right side of the slide.

Notes

Make

- "PATENTED APR. 20.1897" over "SEPT.9.1902.DEC.19.1905. FEB.14.1911" over "COLT'S PT. F.A.MFG.CO." may be marked on the left front side of the slide.
- this firearm was produced under agreement between the "Colt's Patent Fire Arms Mfg. Co." and the United States Ordnance Department, by the Government Arsenal at Springfield Mass., called "Springfield Armory".

Model

- "MODEL OF 1911. U. S. ARMY" is marked on the right side of the slide.
- produced from 1914 to 1917 only; 25,767 units made.
- this firearm is virtually the same as the "model of 1911 U. S. Army" as manufactured by COLT, (except for markings, including serial number) which held the manufacturing rights under patents held by the designer, J.M. Browning.
- this firearm features a grip safety, flat main-spring housing, manual safety, dis-connector safety; fixed sights on the slide, and a slide-hold-open latch that engages after the last shot, or which may be manually engaged.
- it has a blued finish, with diamond-checkered walnut grips.
- the 1911 US Army is physically identical to the 1911 Government with different markings.

Manufacturer

- "SPRINGFIELD ARMORY" over "U.S.A." is marked on the left side of the slide.
- SPRINGFIELD ARMORY was located in Springfield Massachusetts, it started in 1790 and opened in 1795 as the first U.S. Government Arsenal, officially made a federal arsenal in 1872 by an Act of Congress, terminated production in 1968, and officially closed in 1975.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is located on the right side of the receiver/frame with the letters "No" preceeding the serial number. The letters "No" is the abbreviation for number, eg "No 74759", the sequential number "74759" is the actual serial number.
- the serial numbers by the production years were:
1914, from 72571 to 75600.
1915, from 75601 to 83855, and from 102597 to 107596, and from 113497 to 115600.
1916, from 115601 to 120586.
1917, from 125587 to 127998.
- (serial numbers from 127999 up to 133186 were assigned but never used).
- for intervening numbers, see COLT, model 1911 U.S. Army as manufactured by COLT.

Shots

- detachable box magazine.

Other Markings

- "UNITED STATES PROPERTY" is marked on the side of the receiver/frame.
- "PATENTED APR. 20. 1897" over "SEPT. 9. 1902. DEC. 19. 1905. FEB. 14. 1911" over "COLT'S PT. F.A.MFG.CO." may be marked on the left front side of the slide.
- "SPRINGFIELD ARMORY" over "U.S.A." may be marked on the left rear side of the slide.
