- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was used by Ceska Zbrojovka Strojirna (CZ Strojirna Limited) of the Czech Republic until 2006.
- Ceska Zbrojovka Strojirna (CZ Strojirna Limited) was purchased by "LUVO Prague Limited (LUVO Arms)" of the Czech Republic in 2006.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) has been used by "LUVO Prague Limited (LUVO Arms)" since 2006.

Model

- "22" may be marked on the left side of the trigger guard.
- the model 22 has an odd appearance, the back of the slide is flat or flush with the back strap of the grip and has a ramped front sight. The barrel has three locking lugs.
- do not confuse with the 6.35MM version known as the model 1922.

Manufacturer

- "Cs.St zbrojovka Brno." is marked on the left side of the receiver.

Action

- recoil operated.

Calibre

- marked on the left side of the receiver/frame.

Shots

Make

- "CZ" is the acronym for Ceska Zbrojovka.
- "CZ" firearms have been made in Czechoslovakia, the Czech Republic, Turkey, and the United States of America.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was originally used by Ceska Zbrojovka of Strakonice, Czechoslovakia.
- Czechoslovakia was dissolved into the Czech Republic and Slovakia in January of 1993.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was used by Ceska Zbrojovka Strojirna (CZ Strojirna Limited) of the Czech Republic until 2006.
- Ceska Zbrojovka Strojirna (CZ Strojirna Limited) was purchased by "LUVO Prague Limited (LUVO Arms)" of the Czech Republic in 2006.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) has been used by "LUVO Prague Limited (LUVO Arms)" since 2006.

Model

- model name does not appear on the firearm.
- adopted by the Czechoslovak military in 1924 as the model 24 (Vz 24). This pistol was an improvement on and the successor to the model 22 pistol (Vz 22).
- production 'in quantity' ceased in 1939 with the German occupation of Czechoslovakia, however, small quantities were apparently produced during this period as well; research sources also indicate that some pistols were produced as late as 1946.
- production of these pistols was carried out exclusively by Ceska Zbrojovka at the Strakonice factory.
- recoil operated, barrel has three locking lugs, magazine safety, wooden or hard rubber grips, has an external hammer which is almost entirely concealed by the rear of the slide, barrel protrudes noticeably from the front of the slide (approximately 6mm).
- some models may have the rear backstrap grooved for a shoulder stock attachment.
- five "slanted" grasping grooves at the rear of slide (vs. vertical grasping grooves as found on the model 27).
- pistols produced during the German occupation of WWII may be devoid of all markings except the company name on the top rib of the slide or feature four vertical slide serrations, brown plastic grips and an eagle over "WaA76" stamped on the barrel lug.
- Czechoslovak Military acceptance marks are usually stamped on the right rear of the receiver/frame above the grip plate; they may appear as a "J", followed by a stylized lion with a crown followed by a two digit number. This series of characters has offen been mistaken for the model number, eg., J26, J37; in fact, these characters represent Czechoslovakian Military acceptance marks with the J indicating the "office" of acceptance, and the numerals indicating the year of acceptance. The year of manufacture is usually marked on the left side of the slide below the cocking serrations, ie. "CZ26", "CZ27" and "CZ28" etc.
- Note: The stylized lion Acceptance Mark may also be found stamped on the firearm without accompanying characters.
- this pistol was designated P24(t) by the German occupying forces of WW II.

Manufacturer

- "CZ" logo is usually marked on the receiver/frame or slide or grip plates.
- "CESKA ZBROJOVKA A.S. v PRAZE" may be marked on the slide.

Action

- recoil operated.

Serial Number

- usually located on left rear on left rear of receiver, right front of receiver, top of slide.
- apparently some of the pistols produced during the German occupation were not serialized or were not serialized in the traditional manner.

Shots

- detachable box magazine.

Other Markings

- "CESKA ZBROJOVKA A.S. v PRAZE." marked on top of slide rib.
- the CZ logo or "c" and "z" seperated by a vertical arrow and a two number year of manufacture date are marked on the left side of the slide below the cocking serrations.

Remarks

- The model 24 pistol was an evolution of the model 22. These pistols look very similar in appearance; in order to assist in the identification of these handguns the following outline will be of assistance;
- Model 22: - muzzle almost flush with front of slide.
  - ejection port has straight edge at rear of opening.
  - there is a noticeable open space between the trigger and the receiver
  - manufacturer's markings located on left side plate of receiver.
  - rear of receiver is square or flat in appearance.
- Model 24: - muzzle protrudes approximately 6mm from the front of slide.
  - ejection port is rounded at the rear of the opening.
  - left side plate of receiver is ridged.
  - no open space between trigger and receiver.
  - rear of receiver is rounded.
  - manufacturer's markings located on top rib of slide.

Model

- "52", the model designation denotes 1952, the year of adoption by the Czechoslovakian Military.
- "52", "53" or "54", the year of manufacture and the crossed swords of the Czechoslovakian Military were marked on the right side of the receiver/frame just above the front of the trigger guard. These date markings have been mistaken for model numbers.
- CZ model 52 or vz. 52 ("vzor 52" means "model of 1952") may be marked differently if they have been reconditioned or sold in North America.
- CZ model 52 is identified by its generally clean, slim angular appearance.
- features include: round barrel with recoil spring; angular slide with rear grip serrations and fixed sights; roller-locking system; exposed hammer; single action trigger mechanism; ribbed take-down buttons on either side of the forward portion of the trigger guard; heel mounted magazine release; receiver/frame mounted safety/de-cocker; dark plastic grip halves held to the receiver/frame by an external spring-clip; blued or parkerized finish.
- in 1947, the Czechoslovakian Minister of Defense orders Ceska Zbrojovka (CZ) to produce three prototype pistols for evaluations.
- in 1948, at the Swiss military trials in Myska, the CZ prototype pistol was designated the CZ 038.
- in 1948, at the Czechoslovakian military trial, the CZ 038 was known as the "vz 482" design. During the testing, the pistol was also known as the "CZ 038/vz 482". After the testing, the vz 482 design was modified and became the vz 491 in 9mm Luger.
- in early 1951, a small number of prototype vz 491 9mm pistols were made and tested. The pistols were found unsatisfactory and in late 1951 the design were again modified, changing the calibre to 7.62mm Tokarev and the designation to "vz 513".
- in 1952 the vz 513 prototype was adopted by the Czechoslovakian Military and designated the vz 52. Productions of the vz 52 start in late 1952 and ended in 1954 with an estimated total production of 200,000 to 220,000 units.
- in the late 1970's a refurbishing program was initiated by the Czechoslovakian Military and the letters "VOZ" denoting (military repair plant) and the last two digits of the year, i.e. 78 for 1978 were marked on the firearm. These markings have been mistaken for model numbers.
- Century Arms and Century International imported a number of the model 52's into the U.S.A. and Canada. These pistols may be marked as per U.S.A. import regulations (CZ52 7.62 TOK Czech).
- also available in 9MM LUGER calibre.
- the CZ model 52 design was also manufactured in an automatic version in limited numbers. This automatic version was known as the model 55 or vz 55.

Manufacturer

- usually marked after the serial number on the forward right side of the frame as an "rid" code.

Action

- delayed blowback operation.

Serial Number

- serial number was observed marked on the left side of the receiver/frame and repeated on the top of the slide and on the barrel.

Calibre

- calibre may be marked on the receiver/frame and/or slide.
- examples have been observed marked "9.MM".
- examples have been observed marked "7.62 TOK".

Shots

- detachable box magazine in the grip.

Importer

- "C.A.I. ST. ALB. VT" was observed marked on the right side of the receiver/frame of two samples.
- "C.A.I. GEORGE VT." was observed marked on the right side of the slide of one sample.

Other Markings

- units imported into the U.S.A. by Century Arms International are usually marked on the right side of receiver/frame above trigger as "CAI ST ALB VT" or "CAI GEORGIA VT".
- marked on the right side of the frame above trigger: "Czechoslovak Military mark with two digit year mark, eg; X54".
- marked when repaired, usually on the slide with the letters "VOZ" denoting Military Repair Plant and the last two digits denoting year of re-work: (eg; VOZ 78 re-worked in 1978).

Notes

Make

- "CZ" is marked on the firearm.
- "CZ" is the acronym for Ceska Zbrojovka.
- "CZ" firearms have been made in Czechoslovakia, the Czech Republic, Turkey, and the United States of America.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was originally used by Ceska Zbrojovka of Strakonice, Czechoslovakia.
- Czechoslovakia was dissolved into the Czech Republic and Slovakia in January of 1993.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was used by Ceska Zbrojovka Strojirna (CZ Strojirna Limited) of the Czech Republic until 2006.
- Ceska Zbrojovka Strojirna (CZ Strojirna Limited) was purchased by "LUVO Prague Limited (LUVO Arms)" of the Czech Republic in 2006.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) has been used by "LUVO Prague Limited (LUVO Arms)" since 2006.

Model

- this model is a derivation of the Brno ZKM 452-2 which in itself was an improvement of the Brno Model 5.
- take note that the marking practices for this series of firearms has changed over the years as the factory changed names and management.
- the evolution of Czechoslovakia into the Czech Republic and the Slovakian Republic has invalidated copyright and trademark protection to the point where it is difficult to trace the history and development of model names and manufacturer's names.
- the model designation is usually marked on the firearm.
- features include: barrel has no sights; grooved receiver/frame; safety lever mounted at the rear of the bolt; blued finish and a black synthetic stock.
- overall length for a 572mm (22 1/2") barrel is 1035mm (40 3/4"), average weight is 2.7kg (5.97lbs).

Manufacturer

- these rifles are manufactured at the arms factory at Uhersky Brod in the country formerly known as Czechoslovakia, now known as the Czech Republic.
- during the period 1988 to 1993 firearms manufactured at this factory were identified with the "BRNO" trade mark, as the Uhersky Brod Plant was part of Agrozet Brno.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- the serial number is located on the right side of the receiver/frame, rationalization unknown.
Shots	- this rifle uses a five or ten shot detachable box magazine, a single shot magazine adapter is available.
Importer	- CZ-USA literature refers to the 452-2E ZKM line of firearms simply as CZ452.
Other Markings	- year of manufacture is usually indicated by its last two digits which appear with the proof marks ('98 indicates 1998).
Remarks	- this rifle is a direct descendant of the Brno ZKM series of rifles. - the 452-2E series is available in various different configurations, as follows: - 452-2E ZKM Standard: calibre 22 MAG or 22 LR, no checkering and standard grade beechwood stock. - 452-2E ZKM Lux: calibre 22 MAG or 22 LR, checkered, standard grade walnut stock. - 452-2E ZKM Special: calibre 22 MAG or 22 LR, checkered, standard grade beechwood stock. - 452-2E ZKM Varmint: calibre 22 MAG, 22 LR or 17 HMR, heavier than normal barrel, classic American style stock with a checkered wrist. - 452-2E ZKM Classic: calibre 22 MAG or 22 LR, classic American style stock with a checkered wrist and forend. - 452-2E ZKM Silhouette: calibre 22 LR, blued finish and synthetic stock with a schnable forend. - 452-2E ZKM Style: calibre 22 MAG or 22 LR, nickel finish and synthetic stock. - 452-2E ZKM Scout: calibre 22 LR, compact size for young shooters. - 452-2E ZKM FS: calibre 22 MAG and 22 LR, full length "Mannlicher" style stock. - 452-2E ZKM American: calibre 17 HMR, 22 MAG and 22 LR, Turkish or American walnut stock, no iron sights.

Model

- the "452-2E ZKM Style" is a nickel-plated steel and synthetic stocked version of the 452-2E ZKM.
- this model is a derivation of the Brno ZKM 452-2 which in itself was an improvement of the Brno Model 5.
- take note that the marking practices for this series of firearms has changed over the years as the factory changed names and management.
- the evolution of Czechoslovakia into the Czech Republic and the Slovakian Republic has invalidated copyright and trademark protection to the point where it is difficult to trace the history and development of model names and manufacturer's names.
- the model designation is usually marked on the firearm.
- features include: barrel has no sights; grooved receiver/frame; safety lever mounted at the rear of the bolt; nickel finish and a black synthetic stock.
- overall length for a 572mm (22 1/2") barrel is 1035mm (40 3/4"), weight 2.7kg (5.97lbs).

Manufacturer

- these rifles are manufactured at the arms factory at Uhersky Brod in the country formerly known as Czechoslovakia, now known as the Czech Republic.
- during the period 1988 to 1993 firearms manufactured at this factory were identified with the "BRNO" trade mark, as the Uhersky Brod Plant was part of Agrozet Brno.

Action

- turn-bolt design.

Serial Number

- the serial number is located on the right side of the receiver/frame, rationalization unknown.

Shots

- this rifle uses a five or ten shot detachable box magazine, a single shot magazine adapter is also available.

Importer

- CZ-USA literature refers to the 452-2E ZKM line of firearms simply as CZ452.

Other Markings

- year of manufacture is usually indicated by its last two digits which appear with the proof marks ('95 indicates 1995).

Remarks

- this rifle is a direct descendant of the Brno ZKM series of rifles.
- the 452-2E series is available in various different configurations, as follows:
- 452-2E ZKM Standard: calibre 22 MAG or 22 LR, no checkering and standard grade beechwood stock.
- 452-2E ZKM Lux: calibre 22 MAG or 22 LR, checkered, standard grade walnut stock.

Notes

Make

- "CZ" is marked on the firearm.
- "CZ" is the acronym for Ceska Zbrojovka.
- "CZ" firearms have been made in Czechoslovakia, the Czech Republic, Turkey, and the United States of America.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was originally used by Ceska Zbrojovka of Strakonice, Czechoslovakia.
- Czechoslovakia was dissolved into the Czech Republic and Slovakia in January of 1993.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was used by Ceska Zbrojovka Strojirna (CZ Strojirna Limited) of the Czech Republic until 2006.
- Ceska Zbrojovka Strojirna (CZ Strojirna Limited) was purchased by "LUVO Prague Limited (LUVO Arms)" of the Czech Republic in 2006.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) has been used by "LUVO Prague Limited (LUVO Arms)" since 2006.

Model

- model marked on left side of receiver/frame as "CZ 47".
- this is a standard pattern open bolt submachine gun with several unusual features, designed by Frantisek Myska and built by CZ during the post WW2 period; a slightly later version of this submachine gun (the CZ247) is identical except that it has a bayonet lug mounted on the barrel.
- this submachine gun is selective fire, with the length of pull of the trigger determining the mode of fire.
- features include: wooden pistol grip stock, tubular receiver/frame with octagonal barrel nut, skeletonized magazine housing that can be rotated from vertical to horizontal (this submachine gun can be fired in either position) and a magazine loading accessory inlet into the right side of the buttstock; to use this loader, you place a stripper clip of 8 rounds in the track, then push the magazine along the track.

Manufacturer

- manufacturer's designation is not marked on the firearm.

Action

- selective fire.

Model

- the model "513" is a simplified version of the CZ 452. The 513 has been offered as the "513 Hunter", "513 Farmer" and "513 Basic" which are the same rifle with minor variations.
- take note that the marking practices for this rifle and this series of firearms has changed over the last few years as the factory changed names and management.
- the evolution of Czechoslavakia into the Czech Republic and the Slovakian Republic has invalidated copyright and trademark protection to the point where it is difficult to trace the history and development of model names and manufacturer's names.
- built on a modified miniature Mauser type action.
- safety locks the bolt.
- optional threaded muzzle to accommodate a sound suppressor.
- overall length with a 530mm (20.9") barrel is 990mm (39"), average weight is 2.60kg (5.73lbs).

Manufacturer

- these rifles are manufactured at the arms factory at Uhersky Brod in the country formerly known as Czechoslovakia, now known as the Czech Republic.
- during the period 1988 to 1993 firearms manufactured at this factory were identified with the "BRNO" trade mark, as the Uhersky Brod Plant was part of Agrozet Brno.

Action

- turn-bolt design.

Serial Number

- the serial number is located on the right side of the receiver/frame, rationalization unknown.

Shots

- this rifle uses a five or ten shot detachable box magazine.
- a single shot magazine adapter is available.

Other Markings

- year of manufacture is usually indicated by the last two digits which appear with the proof marks ('95 indicates 1995).

Remarks

- this firearm is a magazine fed, bolt action sporting rifle with an adjustable trigger. It features a lacquered beechwood stock, sling swivel studs, tangent rear and hooded front sight and an optional threaded muzzle to accomodate muzzle attachments (silencer etc.).
- this rifle is a direct descendant of the Brno ZKM series of rifles.

Notes

Make

- "CZ" is marked on the firearm.
- "CZ" is the acronym for Ceska Zbrojovka.
- "CZ" firearms have been made in Czechoslovakia, the Czech Republic, Turkey, and the United States of America.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was originally used by Ceska Zbrojovka of Strakonice, Czechoslovakia.
- Czechoslovakia was dissolved into the Czech Republic and Slovakia in January of 1993.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was used by Ceska Zbrojovka Strojirna (CZ Strojirna Limited) of the Czech Republic until 2006.
- Ceska Zbrojovka Strojirna (CZ Strojirna Limited) was purchased by "LUVO Prague Limited (LUVO Arms)" of the Czech Republic in 2006.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) has been used by "LUVO Prague Limited (LUVO Arms)" since 2006.

Model

- this model is built using a Mauser 98 inspired receiver/frame design.
- the CZ 550 is available in several configurations. All variations share the same basic design but differ in finish, stock design or sight options.
- markings on the left side of the receiver/frame for the 550 series of rifles beginning with their introduction in1995 may include the following: CZ logo followed by "CZ" followed by the model designation.
- features include: single-set trigger; select walnut stock with fine checkering and a satin finish; blued receiver/frame and barrel; silent, two position lever safety located on right side near bolt shroud/cocking piece; receiver/frame adapted for scope mounting with integral mounting grooves and/or drilled and tapped for base mounting; hooded post foresight, windage and elevation adjustable rear sight mounted on barrel; sling swivel attachment points.
- overall length for a 600mm (23.6") barrel is 1135mm (44.7"), average weight is 3.3kg (7.27lbs).

Manufacturer

- these rifles are manufactured at the arms factory at Uhersky Brod in the country formerly known as Czechoslovakia, now known as the Czech Republic.
- during the period 1988 to 1993 firearms manufactured at this factory were identified with the "BRNO" trade mark, as the Uhersky Brod Plant was part of Agrozet Brno.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the receiver/frame, rationalization unknown.

Shots

- this model is available with either a five shot fixed magazine or four shot detachable box magazine in calibre's 243 WIN, 308 WIN or 22-250 REM. All other calibre choices came with a five shot fixed magazine.

Other Markings

- VZ58 was introduced into military service in 1958.
- VZ58 is also known as the "Samopal vzor 58" or "SA Vz.58".
- VZ58 externally resembles a Kalashnikov model AK47 assault rifle, but is not a member of the Kalashnikov family of firearms.
- VZ58 early versions used wood stocks but most samples will be found with wood fibre filled plastic furniture.
- features include: round barrel with a threaded muzzle, hooded front sight and tangent leaf V-notch rear sight; gas operating system is mounted above the barrel; flat sided machined steel receiver/frame; tilting block locking system; selector/safety is mounted on the right side of the receiver/frame; wood filled plastic covered metal heat shield and forearm; wood filled plastic vertical pistol grip; wood filled fixed buttstock with metal butt plate or a right side folding metal buttstock; sling swivels.
- overall length with a 390 mm (15 3/8") barrel and a fixed buttstock is 838 mm (33").
- overall length with a 390 mm (15 3/8") barrel and the metal buttstock folded is 635 mm (25") and with the buttstock extended is 838 mm (33").
- average weight is 2.91 kgs (6.42 lbs).
- VZ58 was available in three standard versions:
- VZ58P has a solid non folding buttstock,
- VZ58V has a right side folding buttstock,
- VZ58Pi is the VZ58P with the addition of a dovetail bracket on the left side for mounting a night sight. The VZ58Pi will normally also have a flash hider and bi-pod.
- accessories available include, sling, bayonet, flash hider, bi-pod and a blank firing attachment.
- VZ58 breech mechanism and locking mechanism are vastly different to the AK-47 in that locking is accomplished by a falling breech block somewhat similar to the breech locking system employed by the Walther P-38 and Beretta 92 pistol. The breech lock is pivoted downwards into dual locking recesses in the side of the receiver/frame to accomplish the locking cycle rather than a bolt which rotates into a locking recess in the receiver/frame employed by the AK family of firearms. Unlocking the breech mechanism is accomplished by the breech block carrier, when struck by the gas piston, the rearward movement of the breech block carrier cams the front of the locking block upwards, disengaging it from the locking recesses.
- VZ58 does not employ a hammer, it has a striker to give firing pin impulse.
- VZ58 gas mechanism is a "short stroke" system independent of the breech block carrier.

Manufacturer

Notes

Make

- "CZ" is the acronym for Ceska Zbrojovka.
- "CZ" firearms have been made in Czechoslovakia, the Czech Republic, Turkey, and the United States of America.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was originally used by Ceska Zbrojovka of Strakonice, Czechoslovakia.
- Czechoslovakia was dissolved into the Czech Republic and Slovakia in January of 1993.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was used by Ceska Zbrojovka Strojirna (CZ Strojirna Limited) of the Czech Republic until 2006.
- Ceska Zbrojovka Strojirna (CZ Strojirna Limited) was purchased by "LUVO Prague Limited (LUVO Arms)" of the Czech Republic in 2006.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) has been used by "LUVO Prague Limited (LUVO Arms)" since 2006.

Model

- VZ58 was introduced into military service in 1958.
- VZ58 is also known as the "Samopal vzor 58" or "SA Vz.58".
- VZ58 externally resembles a Kalashnikov model AK47 assault rifle, but is not a member of the Kalashnikov family of firearms.
- VZ58 early versions used wood stocks but most samples will be found with wood fibre filled plastic furniture.
- features include: round barrel with a threaded muzzle, hooded front sight and tangent leaf V-notch rear sight; gas operating system is mounted above the barrel; flat sided machined steel receiver/frame; tilting block locking system; selector/safety is mounted on the right side of the receiver/frame; wood filled plastic covered metal heat shield and forearm; wood filled plastic vertical pistol grip; wood filled fixed buttstock with metal butt plate or a right side folding metal buttstock; sling swivels.
- overall length with a 400 mm (15 3/4") barrel and a fixed buttstock is 838 mm (33").
- overall length with a 400 mm (15 3/4") barrel and the metal buttstock folded is 635 mm (25") and with the buttstock extended is 838 mm (33").
- average weight is 2.91 kgs (6.42 lbs).
- VZ58 was available in three standard versions:
- VZ58P has a solid non folding buttstock,
- VZ58V has a right side folding buttstock,
- VZ58Pi is the VZ58P with the addition of a dovetail bracket on the left side for mounting a night sight. The VZ58Pi will normally also have a flash hider and bi-pod.
- accessories available include, sling, bayonet, flash hider, bi-pod and a blank firing attachment.
- VZ58 breech mechanism and locking mechanism are vastly different to the AK-47 in that locking is accomplished by a falling breech block somewhat similar to the breech locking system employed by the Walther P-38 and Beretta 92 pistol. The breech lock is pivoted downwards into dual locking recesses in the side of the receiver/frame to accomplish the locking cycle rather than a bolt which rotates into a locking recess in the receiver/frame employed by the AK family of firearms. Unlocking the breech mechanism is accomplished by the breech block carrier, when struck by the gas piston, the rearward movement of the breech block carrier cams the front of the locking block upwards, disengaging it from the locking recesses.
- VZ58 does not employ a hammer, it has a striker to give firing pin impulse.
- VZ58 gas mechanism is a "short stroke" system independent of the breech block carrier.

Manufacturer

- the code "she" may be the only manufacturers mark on the firearm.

Action

- gas operated.
- selective fire.

Serial Number

- serial number observed consisted of a letter prefix and five numerals.

Shots

- detachable box magazine.

Remarks

- this firearm has only a similar appearance to the AK-47 family of firearms.
- the only commonality between the Kalashnikov AK-47 family of firearms and the Vz58 is the calibre of the cartridge the rifle is chambered to utilize and a common magazine.
- the breech mechanism and locking mechanism of the Vz58 is vastly different from the AK-47 in that locking is accomplished by a pivoting/falling breech block somewhat similar to the breech locking system employed by the Walther P-38 and Beretta 92 pistol. The breech lock of the Vz58 is pivoted downwards into dual locking recesses in the side of the receiver/frame to accomplish the locking cycle rather than a bolt which rotates into a locking recess in the receiver/frame employed by the AK family of firearms. Unlocking the breech mechanism is accomplished by the breech block carrier, which when struck by the gas piston, moves rearward, this rearward movement of the breech block carrier cams the front of the locking block upwards, disengaging it from the locking recesses.
- the Vz58 does not employ a hammer, it has a striker to give firing pin impulse.
- the gas mechanism of the Vz58 is a "short stroke" system independent of the breech carrier.
- the VZ58 is available in three standard versions, the VZ58P, which has a solid non folding buttstock, the VZ58V, which uses a folding buttstock and the VZ58Pi, which is the VZ58P with the addition of a dovetail bracket on the left side for mounting a night sight. The VZ58Pi will normally also have a flash hider and bi-pod.

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model is marked on the firearm.
- this is a heavy machine gun developed by CZ in the late 1930s, and which was sold to various foreign buyers (including Greece, Iran, Yugoslavia, and, notably, the UK, who further developed this design as the Besa Mk. I), but which didn't enter full production in time for the Czech armed forces to adopt it prior to World War Two.
- this machine gun is essentially a greatly-enlarged version of the VZ26 (which would become the BREN), and functions in the same manner, with a tipping bolt locked and unlocked by a cam on a gas-operated piston, and fired by an integral hammer on the piston during the closing stroke.
- features include: cone-shaped flash hider; quick-change barrel; ventilated shroud extending off of the receiver; hinged top cover; folding open ladder sights; and dual horizontal spade grips; blued finish.
- this machine gun was produced in tripod, towed/wheeled, and vehicle-mounted configurations.
- captured versions were used by the German forces during WW2 as anti-aircraft machineguns ("Flakmaschinengewehr"/"FlaMG").

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- gas-operated.

Serial Number

- numbered on the receiver/frame.

Model

- the model designation may not be marked on the firearm.
- this is an unusual "power driven" machine gun designed by CZ in the late 1930's specifically for use as an aircraft machine gun; unlike most other full automatic firearms, this design uses an external power source (planned to be an aircraft engine in this particular instance) to cycle the firearm and advance a linked non-disintegrating belt of ammunition through the firearm. Another peculiar aspect of this particular machine gun is that the belt remains attached to the cartridge rim at all times during passage through the machine gun and the barrel reciprocates longitudinally back and forth onto the linked cartridges as they are fired.
- features include: large sprocket on left or right side (depending on mounting position) to deliver mechanical power to the machine gun; slot-ventilated barrel shroud; remote firing apparatus and no sights (as this machine gun was designed to be aimed by the pilot via a remote gunsight).

Manufacturer

- the manufacturer may not be marked on the firearm.

Action

- mechanically operated with an external power source.

Shots

- belt fed firearm.

Notes

Make

- CZ firearms have been made both in the former Czechoslovakia and the new Czech Republic.
- "CZ" is the acronym for Ceska Zbrojovka.
- "CZ" firearms have been made in Czechoslovakia, the Czech Republic, Turkey, and the United States of America.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was originally used by Ceska Zbrojovka of Strakonice, Czechoslovakia.
- Czechoslovakia was dissolved into the Czech Republic and Slovakia in January of 1993.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) was used by Ceska Zbrojovka Strojirna (CZ Strojirna Limited) of the Czech Republic until 2006.
- Ceska Zbrojovka Strojirna (CZ Strojirna Limited) was purchased by "LUVO Prague Limited (LUVO Arms)" of the Czech Republic in 2006.
- "CZ" trademark/logo ("CZ" with a "v" on top of the letter "C" in a circle) has been used by "LUVO Prague Limited (LUVO Arms)" since 2006.

Model

- "ZKM-452" is marked on the firearm.
- hardwood stock with Schnabel forend, adjustable rear sight.
- this model is a derivation of the Brno ZKM 452-2 which in itself was an improvement of the Brno Model 5.
- Take note that the marking practices for this rifle and this series of firearms has changed over the last few years as the factory changed names and management.
- The evolution of Czechoslavakia into the Czech Repubic and the Slovakian Republic has invalidated copyright and trademark protection to the point where it is difficult to trace the history and development of model names and manufacturer's names.
- may be found with an optional threaded muzzle to accomodate a sound suppressor.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- these rifles are manufactured at the arms factory at Uhersky Brod in the country formerly known as Czechoslovakia, now known as the Czechoslovakian Republic. - during the period 1988 to 1993 firearms manufactured at this factory were identified with the "BRNO" trade mark, as the Uhersky Brod Plant was part of Agrozet Brno.
Action	- modified miniature mauser type action. - safety locks the bolt.
Serial Number	- number located on right side of receiver.
Shots	- this rifle uses a 5 or 10 shot detachable box magazine.
Remarks	- this firearm is a magazine fed, bolt action sporting rifle with an adjustable trigger. It features a walnut stock which may have a schnabel fore-end, sling swivel studs and tangent rear and hooded front sight. - this rifle is a direct descendant of the Brno ZKM series of rifles.

Model

- "SA vz.58" over "CANADIAN SPORTER" over "CAL. 7.62x39" was observed marked on the upper left side of the receiver/frame, rear sight housing.
- the "SA VZ58 CANADIAN SPORTER 7.62" has a resemblance to the Kalishnikov model AK47 assault rifle but is not a member of the Kalishnikov family of firearms.
- the "SA VZ58 CANADIAN SPORTER 7.62" is a factory original, semi-automatic version of the "vz 58" family of firearms.
- features include: hooded front sight and tangent rear sight; round rifled barrel with bayonet mounting point is under the front sight bracket; this firearm is gas operated with the gas tube mounted above the barrel; flat sided machined steel receiver/frame; tilting breech block locking system; safety lever mounted on the right side of the receiver/frame; magazine release located behind the magazine well; black synthetic polymer forearm with upper hand guard and pistol grip (SA Vz58 FAB Ltd Defense Line furniture), skeleton folding buttstock; sling swivels; blue/black finish on metal components.
- overall length with a 300mm barrel and the stock in the folded position is 547mm and with the stock in the extended position is 705mm.
- "SA VZ58 CANADIAN SPORTER 7.62" is designed to use commonly available Vz58 accessories and will accommodate a vast array of aftermarket parts and components which may vary from the standard features as described in the above note.
- "SA vz.58" over "CANADIAN SPORTER" over "CAL. 7.62x39" was observed marked on the upper left side of the receiver/frame, rear sight housing.
- "SA VZ58 CANADIAN SPORTER 7.62" has a resemblance to the Kalashnikov model AK47 assault rifle but is not a member of the Kalashnikov family of firearms.
- "SA VZ58 CANADIAN SPORTER 7.62" is a factory original, semi-automatic version of the "vz 58" family of firearms.

- overall length with a 300mm (11.75") barrel is 864mm (34"), stock in folded position is 547mm (21.5"), with the stock extended 705mm (27.75").

Manufacturer

- "CZECH SMALL ARMS" over "CZECH REPUBLIC" was observed marked on the left side of the receiver/frame of an example.
- "Czech Small Arms, s.r.o." is located in Jablunka, Czech Republic.

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the receiver/frame under the rear sight housing.
- observed serial number consisted of seven numerals with a letter "CA" suffix.

Calibre

- "CAL. 7.62x39" was observed marked on the upper left side of the receiver/frame rear sight housing of an example.

Shots

- detachable box magazine.
- is designed to use the Vz58 detachable magazine and will accommodate a vast array of aftermarket magazines.

Remarks

- the SA VZ 58 CANADIAN SPORTER 7.62 firearm has a breech mechanism and a breech locking system that is vastly different from the Kalashnikov family of firearms in that locking is accomplished by a falling breech block somewhat similar to the breech locking system employed by the Walther P-38 and Beretta 92 pistol. The breech lock is pivoted downwards into dual locking recesses in the side of the receiver/frame to accomplish the locking cycle rather than a bolt which rotates into a locking recess in the receiver/frame employed by the Kalashnikov family of firearms. Unlocking the breech mechanism is accomplished by the breech block carrier, when struck by the gas piston, the rearward movement of the breech block carrier cams the front of the locking block upwards, disengaging it from the locking recesses.
- the SA VZ 58 CANADIAN SPORTER 7.62 firearm does not employ a hammer, it has a striker to give firing pin impulse.
- the SA VZ 58 CANADIAN SPORTER 7.62 firearm's gas mechanism is a "short stroke" system independent of the breech block carrier.

- "CZECH SMALL ARMS" over "CZECH REPUBLIC" was observed marked on the left side of the receiver/frame of an example.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "SA vz.58 SPORTER" and "CAL. 5.56x45" were observed marked on the upper left side of the receiver/frame rear sight housing of an example firearm. - "SA VZ58 Sporter 5.56" has a resemblance to the Kalishnikov model AK47 assault rifle but is not a member of the Kalishnikov family of firearms. - "SA VZ58 Sporter 5.56" is a factory original, semi-automatic version of the "vz 58" family of firearms. - features include: hooded front sight and tangent rear sight; round rifled barrel with bayonet mounting point under the front sight bracket; gas operating system is mounted above the barrel; flat sided machined steel receiver/frame; tilting breech block locking system; safety lever is mounted on the right side of the receiver/frame; magazine release is located behind the magazine well; synthetic forearm, upper hand guard with a skeletonized thumb-hole buttstock with check rest or a synthetic vertical pistol grip with a fixed buttstock or a side folding metal buttstock or a telescoping buttstock; black/blue finish. - "SA VZ58 Sporter 5.56" is available with optional magazine adapter, magazine catch and bolt catch which allows the use of a standard AR15/M16 type magazine. - "SA VZ58 Sporter 5.56" is designed to use the Vz58 accessories and will accommodate a vast array of aftermarket parts and may vary from the standard features as described to in the above note.
Manufacturer	- "CZECH SMALL ARMS" over "CZECH REPUBLIC" was observed marked on the left side of the receiver/frame of an example. - "Czech Small Arms, s.r.o." is located in Jablunka, Czech Republic.
Action	- gas operated.
Serial Number	- serial number was observed marked on the left side of the receiver/frame under the rear sight housing. - observed serial number consisted of seven numerals with a letter "C" suffix.
Barrel	- the breech block of this firearm has a recessed breech face. When the barrel is measured with a cleaning rod the barrel will appear to be 4MM longer than actual.
Calibre	- "CAL. 5.56x45" was observed marked on the left side of the rear sight housing of an observed example.
Shots	- detachable box magazine submitted for examination with the firearm is of black plastic material. - "Czech Small Arms" was observed marked on the left side of the magazine body. - "5.56X45MM NATO, .223 Rem & .222 Rem" was observed marked on the right side of the magazine body. - optional magazine adapter allows the use of a standard M15 type magazine.
Other Markings	- "US PATENT No. 7,373,868" is marked on the side of the receiver/frame. - it was found by examining the Patent drawings for U.S. Patent No. 7,373,868 that the SA VZ 58 Sporter 5.56 model did not follow the description nor the patent drawings completely.
Remarks	- SA VZ 58 SPORTER 5.56 firearm has a breech mechanism and a breech locking system that is vastly different from the Kalashnikov family of firearms in that locking is accomplished by a falling breech block somewhat similar to the breech locking system employed by the Walther P-38 and Beretta 92 pistol. The breech lock is pivoted downwards into dual locking recesses in the side of the receiver/frame to accomplish the locking cycle rather than a bolt which rotates into a locking recess in the receiver/frame employed by the Kalashnikov family of firearms. Unlocking the breech mechanism is accomplished by the breech block carrier, when struck by the gas piston, the rearward movement of the breech block carrier cams the front of the locking block upwards, disengaging it from the locking recesses. - SA VZ 58 SPORTER 5.56 firearm does not employ a hammer, it has a striker to give firing pin impulse. - SA VZ 58 SPORTER 5.56 firearm's gas mechanism is a "short stroke" system independent of the breech block carrier.
