Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

130649 - 1	177 PELLET	1	406	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "DAISY" over "ROGERS, AR USA" was observed marked on the left side of the receiver/frame.

Model

- introduced in 1996.
- "MODEL 1150" was observed marked the left side of the receiver/frame.
- features include: ramp front sight; synthetic barrel having a rifled barrel liner; break barrel; adjustable ramp rear sight, action body is synthetic covered with an integral scope rail; synthetic composite stock with molded checkering at the pistol grip area; safety located at the front of the trigger inside the trigger guard.
- overall length with a 406mm (16") barrel is 940mm (37"), average weight is 1.72kg (3.8 lbs).

Manufacturer

- manufacturer's name is not marked on the firearm.
- "MADE IN SPAIN" was observed marked on the left side of the barrel lug.
- "04", the first two numbers in the serial number is the Spanish Government code for Gamo (Industrias El Gamo).

Action

- spring-piston powered, hinged barrel design.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number was observed marked on the left side of the barrel lug.
- observed serial numbers is "04-1C-035659-96".
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the gunmaker/manufactuer code, weapon code, serial number sequence, and year of manufacturer. examples: 04-1C-101010-96, 04-4C-101010-96, and 04-5C-101010-96.
- serial number break down: the first two numbers (04) are the code for Gamo, the next number and letter are the code for an air carbine/rifle (1C), air pistol (4C), and air revolver (05), the next six numbers are the serial number sequence, and the last two numbers (96) are the year of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre is marked on the side of the barrel.

Make

- "Daisy" in a logo form is marked on the left side of the firearm.
- "Daisy" over "ROGERS AR USA" is marked on the left side of the firearm.
- "Daisy" in 1958 moved from Plymouth to Rodgers, Arkansas, USA.

Model

- "MODEL 120" is marked on the left side of the firearm.
- "MODEL 120" is a break-barrel, spring-piston air rifle.
- "MODEL 120" was produced in 1984/1985.
- features include: straight barrel; ramped front sight with hood and adjustable rear sight located over the barrel chamber area; grooved action tube for optic mounting; square shaped trigger guard; wood stock with cheek rest; blue finish.

Manufacturer

- "Industrias El Gamo", variation thereof or "Made in Spain" may not be marked on the firearm.
- Gamo (El Gamo) trade name/trademark is manufactured by Industrias El Gamo located in Barcelona, Spain.
- Gamo (El Gamo) trade name/trademark has been imported into the USA by Gamo USA, Corp. of Ft. Lauderdale, Florida, and by Stoeger Industries of Wayne, NJ and by Dynamite Nobel, RWS, Inc. of Closter, NJ and by Daisy.
- Industrias El Gamo was founded by Antonio Casas of Barcelona, Spain in the 1880s.
- Antonio Casas S.A. changed its name to Industrias El Gamo in the 1940s.
- Industrias El Gamo produces spring-piston, CO2 powered and pre-charged pneumatic airguns.

Action

- spring-piston powered.

Serial Number

- serial number is marked on the left side of the barrel at the chamber end.
- serial number of referenced examples consisted of six and seven numbers.
- serial number of a referenced example consisted of one letter prefix (B) and two numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre identification is marked on the left side of the barrel at the chamber end.
Canadian Law Comments	- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

FRT Report

Firearm Reference Number (FRN): 135085
Make: Daisy
Model: 1296

Summary

Make:	Daisy
Model:	1296
Manufacturer:	Daisy Manufacturing
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
135085 - 1	BB	999	235	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Non-Commercial Customization	

Notes

Make

- "Daisy MFG. Co." is marked on the top of the barrel.

Model

- known example is marked "Model 1296" on the barrel.
- manufactured circa 1960's; the Model 1296 parts were made at the Daisy plant in Rogers, Arkansas and then shipped to the Daisy Canadian operation located in Preston, Ontario, Canada for assembly and distribution.
- this is a spring piston air rifle actuated by a trigger guard lever; it uses a gravity feed system.
- features include: smooth bore barrel; magazine surrounding the barrel; BB's are loaded via the "lightning loader" system which is located at the end of the barrel muzzle and is opened and closed by simply turning the muzzle end cap and pouring the BB's into the magazine opening located directly behind the front sight; ramp type front sight; open rear sight; plastic forearm and buttstock in simulated wood grain with semi-pistol grip; black painted finish.

Manufacturer

- "Daisy MFG. Co. Rogers Arkansas, USA" over "PAT. No. 2,758,586" is marked on the top of the barrel.

Action

- lever operated.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- not serial numbered, however, Daisy Manufacturing does apply a unique "Registration Number" to each barrel assembly; barrel is marked, "Reg. No." followed by the number.
- known example had a six digit number with a letter prefix.
- letter prefix "A" has been observed.

Shots

- magazine housed in the barrel jacket.
- magazine could accommodate up to 1000 BB's.

Notes

Make	- the Daisy logo appears on the right side of the reciever/frame.
Model	- marked "DAISY / No 11 MODEL 29 / 350 SHOT" in front of "DAISY MFG CO. / PLYMOUTH, MICH., U.S. PATS. NOV. 3, 1908-AUG. 7, 1915" on top of the receiver/frame. - this is a very low-powered single-shot BB gun made by Daisy from 1929 until 1937. - all-stamped sheet metal construction, open fixed sights, lever actuated; a straight-grip wooden stock; nickel finish.
Manufacturer	"DAISY MFG CO. / PLYMOUTH, MICH., U.S. PATS. NOV.3, 1908- AUG.7 1915" is marked on the top of the barrel.
Action	- lever operated.
Shots	- large BB reservoir that loads from an opening behind the front sight.
Canadian Law Comments	- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorization to Transport.

Notes

Make	- "DAISY" is marked on the air rifle.
Model	- "No. 108 Model 39" is stamped on the top of the receiver/frame. - this is a standard pattern lever operated BB rifle manufactured just prior to and just after World War Two, and notable for both being the first "Lightning Loader" model (where up to 500 BBs can be poured into a hopper below the barrel, by rotating a cap to one side), and for being the immediate precursor to the "Red Ryder Carbine" model. - this model was originally introduced as the "Lone Scout", but was renamed after complaints of infringement from the Boy Scouts of America. - features include: blued finish; adjustable (early) or fixed (later) open sights; a muzzle cap that is twisted to the side to allow BBs to be poured into the under-barrel magazine tube; a lever-action cocking mechanism; board buttstock with a rounded forearm.
Manufacturer	- "DAISY" is marked on the air rifle.
Action	- spring-powered BB rifle. - does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Shots	- hopper-fed BB rifle with a nominal 500 BB capacity.

Notes

Make

- make is marked on the top of the receiver/frame.

Model

- model designation is stamped on the top of the receiver/frame.
- this model is similar to the Daisy Model 94 but features a device on the underside of the forearm that produces a ricochet sound with each shot. This feature enhances the model's semblance to a cartridge firearm.
- features include:
- lever cocking, spring powered.
- projectile launched by a spring powered plunger inside the barrel.
- blade front sight, adjustable rear sight.
- dummy hammer on wood grain plastic buttstock.
- metal forestock.
- saddle ring on left side of receiver/frame.
- full length, under barrel, replica magazine tube.

Manufacturer

- manufacturer's designation and address is marked on the top of the receiver/frame.

Action

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- patent numbers marked on the top of the receiver/frame should not be used as a serial number.

Shots

- the barrel shroud functions as the reservoir for the BB's and is filled at the muzzle end.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - patent numbers are marked on the top of the receiver/frame.

99175 - 2	22 PELLET	1	530	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Daisy" is marked on the firearm.

Model

- introduced in 1999.
- features include: fiber optic front sight; blued barrel and receiver/frame; dovetailed for scope mount; adjustable rear sight; hardwood stock; crossbolt trigger block safety.

Manufacturer

- Daisy Manufacturing is a company based in Rodgers, Arkansas, that produces and imports air rifles and pistols.

Action

- spring-piston air rifle, pump operated.
- At least two variants of this particular model exist:
Variant #1: - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorization to Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorization to Transport

Notes

Make

- "Daisy" is marked on the firearm.

Model

- introduced in 1984.
- model designation is marked on top of the barrel, may also be repeated on the receiver/frame.
- features include: two piece plastic stock with Monte Carlo cheekpiece; cross bolt triggerblock safety; adjustable rear sight; open front sight.
- velocity may be altered by reducing the number of pumps.

Manufacturer

- Daisy Power Line 880 series have been manufactured in China and the United States of America.

Action

- spring-piston air rifle, pump operated.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number may be marked on the underside of the barrel. - serial number of referenced examples consisted of twelve numbers and a letter "Q".
Calibre	- calibre designation is marked on top of the barrel.
Shots	- the barrel shroud functions as the reservoir for the BB's.
Canadian Law Comments	- At least two variants of this particular model exist: Variant #1: - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorization to Transport. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorization to Transport

Notes

Make

- "Daisy" is marked on the receiver/frame.

Model

- introduced in 2004.
- "POWER LINE 953" is marked on the firearm.
- features include: fiber optic sights; round rifled fixed steel barrel with a barrel weight; cocking lever is mounted under the barrel; die cast metal receiver/frame with a dovetail scope groove; straight pull bolt; adjustable trigger pull length; crossbolt type safety located at front of trigger guard; one piece composite stock with near vertical pistol grip.
- available single shot adapter.
- overall length is 1110 mm (39.75"), and average weight is 2.9 kgs (6.4lbs).

Action

- single-pump pneumatic.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Shots

- removable shot clip/holder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

- also offered as a "Standard" rifle with a one piece pistol grip "Lustran" plastic simulated wood grain stock with white grip and butt plate spacer.

Manufacturer

- "Daisy/Heddon Rogers, Ark. U.S.A." and "Division Victor Comptometer Corporation" is marked on the left side of the receiver/frame.

Action

- the ".22 calibre" 29-grain lead projectile achieves a velocity of 1150 fps.

Serial Number

- the serial number is marked on the right side of the receiver/frame.
- serial number rationalization unknown.
- an observed specimen serial number consisted of a series of six digits with a letter prefix and no suffix.

Calibre

- this unique cartridge was manufactured in Canada by Canadian Industries Limited, Brownsburg, Quebec.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- the unique cartridge employed by this model of rifle was manufactured in Canada by Canadian Industries Limited, Brownsburg, Quebec. The rifle and cartridge both had a short manufacturing life as the concept was not a commercial success.

Notes

Make

- "DAKIN" over "GUN COMPANY" was observed marked on the underside of the receiver/frame.
- Dakin Gun Company was an importer based in San Francisco, California, U.S.A. during the 1960s.

Model

- "Mo 215" was observed marked on the rear tang of the trigger guard.
- features include: blued side by side smoothbore barrels with a ventilated rib and bead front sight; front hinged receiver/frame with top tang mounted break open lever and safety; engraved side lock action; hammerless; single selective trigger; automatic ejectors; checkered wood forearm and pistol grip buttstock.

Manufacturer

- the image of a crane over "GRULLA" inside a circle was observed marked on the water table and barrel flats.
- "U.A" was observed marked on the water table, and barrel flats.
- "U.A" is the manufacturer's code for "Union Armera".
- "Union Armera" became "Grulla Armas".

Action

- side by side barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is usually marked on the water table of the receiver/frame and repeated on the underside of the barrel assembly.
- serial number may consisted of five numbers without a letter prefix or suffix.
- serial number may consisted of a letter "U", a period (.), and a letter "A" and five numbers, example "U.A13##7".
- "U.A" is also the manufacturer's code for Union Armera.
- serial number range pre-1995 was from approximately 0001 to 32,508.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gun maker/manufacturer, weapon code, serial number sequence, and year of manufacturer, example of a serial number is as follows: "31 - 03 - #0# - 95".
- serial number break down, the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Calibre

- gauge and chamber length was observed marked on the watertable and barrel flats.

Notes

Make

- "DAKOTA" is marked on the barrel.
- "DAKOTA" was a trademarked used on Single Action Revolvers manufactured by Adler, Armi Jager, Armi San Marco, Hammerli, and Uberti.
- "Dakota" Single Action Revolvers were imported and distributed by Early and Modern Firearms (EMF) Company, Incorporated and Intercontinental Arms Incorporated.
- "Intercontinental Arms Incorporated" was located in Los Angeles, California, U.S.A. in the 1960s and 1970s.
- "Early and Modern Firearms (EMF)" was established in 1956.
- "Early and Modern Firearms (EMF)" was located in Studio City, California, U.S.A., before 1981.
- "Early and Modern Firearms (EMF)" moved to Santa Ana, California, U.S.A., circa 1982.
- "Early and Modern Firearms (EMF)" introduced the New Dakota Single Action Army revolver series in 1991.
- "Early and Modern Firearms (EMF)" Dakota revolvers were mainly manufactured by Armi Jager until the mid 1980s, Armi San Marco until the early 1990s, and by Uberti from the early 1990s to 2008.

Model

- "DAKOTA" and "MOD. 1873" are marked on the barrel.
- this firearm resembles a Colt 1873 Single Action Army revolver.
- features include: blade front sight and groove in the top strap for a rear sight; round barrel with an ejector rod assembly mounted beneath the barrel; solid top receiver/frame with a removable fluted cylinder and a right side loading gate; exposed spurred hammer; single action trigger mechanism; one piece wooden grips.
- available with a colour case-hardened or nickel plated steel receiver/frame.
- available with engraving.
- 305mm barrel length models are known as "Buntline Special" and 420mm barrel length models are known as "Buntline Target Special "

Manufacturer

- "ADLER ITALY" is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the front underside of the receiver/frame, in front of the trigger guard.
- observed serial number consisted of five digits without a letter prefix or suffix.
- "CAT 1458" was observed marked on the side of the barrel.
- "1458" is not the serial number, this is an Italian Proof House catalogue number.

Calibre

- calibre designation is marked on the barrel.

Notes

Make

- "Dakota Arms" is marked on the receiver/frame.

Model

- introduced in 1999.
- the model designation is not usually marked on the firearm.
- this is a sporting rifle utilizing the Dakota 76 action.
- features include: easily removable barrel for cleaning, transport and storage; checkered American walnut stock; swivel studs; black recoil pad.
- interchangeable barrels are available, as well as, left or right handed configurations.
- average weight 3.41 kg (7.5 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's name is marked on the receiver/frame.
Action	- turn bolt operated.
Serial Number	- the serial number is marked on the receiver/frame. - the serial number consists of a "TDC" prefix followed by four numbers and an "L" for left handed models.
Calibre	- the calibre designation is marked on the barrel.
Shots	- internal magazine.

Notes

Make

- "Dakota Arms" is marked on the receiver/frame.

Model

- introduced in 1999.
- the model designation is not usually marked on the firearm.
- this is a sporting rifle utilizing the Dakota 76 action.
- features include: easily removable barrel for cleaning, transport and storage; flip-up night sight; checkered American walnut stock with cheekpiece; ebony fore end tip; swivel studs; black recoil pad.
- interchangeable barrels are available, as well as, left or right handed configurations.
- average weight 3.86 kg (8.5 lbs).

Manufacturer

- manufacturer's name is marked on the receiver/frame.

Action

- turn bolt operated.

Serial Number

- the serial number is marked on the receiver/frame.
- the serial number consists of a "TDS" prefix followed by four numbers and an "L" for left handed models.

Calibre

- the calibre designation is marked on the barrel.

Shots

- internal magazine with floorplate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "DAN WESSON ARMS" is usually marked on the right side of the receiver/frame and/or barrel lug.
Model	- the model does not appear on the firearm. - this is a blued version, opposed to the model 714 (stainless finish) - solid frame with a swing out cylinder. - the cylinder release is located on the left side of the receiver/frame forward of the cylinder. - the rear sight is fixed. - there are accessory barrels and grips available. - it is the fixed rear sight and blue finish that identify this revolver. - when equipped with a adjustable rear sight this model is known as the model "15".
Manufacturer	- usually marked on the right side of the receiver/frame.
Serial Number	- serial number may be marked on the right side of the receiver/frame.
Barrel	- this model came with two different barrel nuts. A "one way" nut that made for a fixed barrel model and a "quick shift" interchangeable barrel model.
Calibre	- "357 MAGNUM CTG." is usually marked on the right side of the barrel lug. - rifling characteristics for barrels with lengths from 64 mm (2.5") to 203 mm (8.0"): 6 lands & grooves, 1 turn in 18.75 inches, right hand twist. - rifling characteristics for barrels with lengths from 254 mm (10.0") to 381 mm (15.0"): 6 lands & grooves, 1 turn in 14.0 inches, right hand twist.
Shots	- swing out cylinder.

Notes

Make

- "DAN WESSON ARMS" is usually marked on the right side of the barrel lug.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1982 to 1995.
- this is the bright blue version of the 22 LR calibre handgun.
- single and double action.
- interchangeable barrel & front sights.
- swing out cylinder, opening is done by pressing a latch at the front of the cylinder.
- the only difference between the target model and the service model is that service model has a fixed rear sight, and the target model has an adjustable rear sight.
- an overview of Dan Wesson's most current product codes is as follows:
  - P = pistol pac.
  - G = complete gun.
  - 7 = stainless steel.
  - VH = vent rib, heavy barrel
  - number at end of mode code = barrel length

Example; G22VH8 is explained by the following ; G = complete gun.
22 = 22 LR caliber.
VH = vent rib, heavy barrel.
8 = 8 inch (203mm) barrel length.

- other product code combinations exist.

Manufacturer

- "DAN WESSON ARMS MONSON, MASS. U.S.A." may be marked on the right side of the receiver/frame.

Serial Number

- serial number rationalization unknown, but six numerical digits, with two alpha prefixes have been observed.
- located on right side of the receiver/frame.

Barrel

- interchangeable barrels.
- the 254MM was discontinued in 1987.

Calibre

- "CAL.'22 LR " is usually marked on the right side of the barrel lug.

Shots

- swing out cylinder.

Remarks

Notes

Make

- the make is normally marked on the right side of the receiver/frame and may be marked on the barrel as, "DAN WESSON ARMS". As the ownership of Dan Wesson Arms changed over the years, the make may also be Wesson Firearms Co. or Dan Wesson Firearms.
- the Dan Wesson logo of a "DW" inside a circle may be marked on the receiver/frame, barrel or the grips.

Model

- manufactured from 1981 to 1995 and subsequently reintroduced.
- model designation is normally marked on the receiver/frame in the crane cut-out area.
- features include: interchangeable barrel design; solid frame with a swing out cylinder; cylinder release on the crane; adjustable rear sight; blued finish; double action.
- accessory barrels and grips are available.
- produced in stainless steel as the model 744.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- the manufacturer is normally marked on the right side of the receiver/frame and may be marked on the barrel as, "DAN WESSON ARMS" over "MONSON, MASS. U.S.A.". As the ownership of Dan Wesson Arms changed over the years, the make may also be Wesson Firearms Co. of Palmer, Mass. U.S.A. or Dan Wesson Firearms of Norwich, New York U.S.A.
- the Dan Wesson logo of a "DW" inside a circle may be marked on the receiver/frame, barrel or the grips.

Serial Number

- the serial number is normally marked on the right side of the receiver/frame. The serial number may be marked as two numbers, one alpha character, followed by six sequential numbers.

Calibre

- the calibre may be marked on the right side of the barrel as, ".44 MAGNUM CTG.".

Notes

Model

- this revolver is essentially a single/double actioned frame and cylinder, to which the owner may fit barrels and barrel-shrouds of different lengths and features; as well as different hand-grips, triggers, and hammers, to suit his requirement for the moment; the frame is mounted with a fully adjustable Patridge rear target sight, and a Hogue Monogrip.
- the leading numerals usually designate the model, example: 445 (caliber/model 445, a preceeding numeral "7" designates the firearm is produced in Stainless Steel, example: 7445.
- the letters following the numerals usually indicate features, "VH" for "Ventilated, Heavy" barrel-shroud; example: 445VH.
- other letters include "VR" for "Ventilated Rib" shroud.
- the number following this designates the barrel length in inches, example: 445VH8
- the trailing letter designation "C" usually denotes "Compensated" barrel and shroud, example: 445VH4C
- the trailing letter designation "S" usually denotes "Slotted" barrel-shroud, example: 445VH8S

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the current company known as "Dan Wesson Firearms" has been located in Norwich NY, since 1996, and shipped the first revolver of their new production in December of 1997. - formerly known as "Dan Wesson Arms", Monson MA (1968 to 1990), and "Wesson Firearms Co., Inc., Palmer MA. (1991 to 1995)
Serial Number	- The serial number is marked on the receiver/frame.
Barrel	- interchangeable barrel lengths with co-responding barrel shrouds currently available for this firearm: 102mm (four inch), 153mm (six inch), 203mm (eight inch), 254mm (ten inch). NOTE: when measuring a Compensated barrel for length, ensure that the actual barrel is measured, as the barrel-shroud usually protrudes beyond the actual barrel by about 40mm.
Calibre	- marked for 445 Super Magnum.

Notes

Model

- model designation may be marked on the frame in the crane cutout area.
- this is a satin stainless steel variation of the Model 15 (blued finish).
- solid frame with a swing out cylinder.
- the cylinder release is located on the left side of the receiver/frame forward of the cylinder.
- the rear sight is fully adjustable.
- there are accessory barrels and grips available.
- it is the stainless steel finish, 357 Mag cal, and adjustable sights that identify this firearm.

Manufacturer

- "Wesson Firearms" over "Palmer, Mass. U.S.A." is marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- sample serial numbers have been six numbers with and without a letter prefix.
- serial numbers may also include a "357" prefix.

Barrel

- this model came with two different barrel nuts; a "one way" nut that made for a fixed barrel model and a "quick shift" interchangeable barrel model.

Calibre

- calibre is marked on the barrel.
- rifling characteristics for barrels with lengths from 64 mm (2.5") to 203 mm (8.0"): 6 lands & grooves, 1 turn in 18.75 inches, right hand twist.
- rifling characteristics for barrels with lengths from 254 mm (10.0") to 381 mm (15.0"): 6 lands & grooves, 1 turn in 14.0 inches, right hand twist.

Notes

Make

- "Dan Wesson Arms" and the Dan Wesson "DW" logo are marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- stainless steel version of the Model 22.
- double action trigger mechanism.
- interchangeable barrel & front sights.
- swing out cylinder, opening is done by pressing a latch at the front of the cylinder.
- the only difference between the target model and the service model is that service model has a fixed rear sight, and the target model has an adjustable rear sight.
- an overview of Dan Wesson's most current product codes is as follows:
  - P = pistol pac.
  - G = complete gun.
  - 7 = stainless steel.
  - VH = vent rib, heavy barrel.
  - number at end of mode code = barrel length.
- example: G722VH8 is explained by the following:

G = complete gun.
7 = stainless steel.
22 = 22 LR calibre.
VH = vent rib, heavy barrel.
8 = 8 inch (203mm) barrel length.

- other product code combinations exist.
- introduced in 2001, the "722" Super Ram Silhouette (product code 722VH10SRS) has fully adjustable Bomar sights with "SRS-1" engraved on front sight hood; the "722" Standard Silhouette (product code 722VH10) model has adjustable sights, both feature a tuned trigger; shrouded barrel and are available with a fluted or non-fluted cylinder.

Manufacturer

- "DAN WESSON ARMS" over "MONSON, MASS. U.S.A." is marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number observed consisted of a two letter "SA" prefix and six numbers.

Calibre

- calibre designation is marked on the right side of the barrel shroud.

Shots

- swing-out cylinder.

23419 - 3	38 SPL	5	165	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- the make is normally marked on the right side of the receiver/frame and may be marked on the barrel as, "DAN WESSON ARMS". As the ownership of Dan Wesson Arms changed over the years, the make may also be Wesson Firearms Co. or Dan Wesson Firearms.
- the Dan Wesson logo of a "DW" inside a circle may be marked on the receiver/frame, barrel or the grips.

Model

- introduced in 1991.
- the 7 in the model designation "738P" denotes stainless steel, 38 is the calibre 38 SPL and the P represents the fact that the firearm is rated for +P pressures.
- features include: fixed notch rear sight, ramp front sight and wood or rubber grips.

Manufacturer

- the manufacturer is normally marked on the right side of the receiver/frame and may be marked on the barrel as, "DAN WESSON ARMS" over "MONSON, MASS. U.S.A.". As the ownership of Dan Wesson Arms changed over the years, the make may also be Wesson Firearms Co. of Palmer, Mass. U.S.A. or Dan Wesson Firearms of Norwich, New York U.S.A.
- the Dan Wesson logo of a "DW" inside a circle may be marked on the receiver/frame, barrel or the grips.
- manufacturer is located in Norwich, New York.

Action

- solid receiver/frame, swing-out cylinder.

Serial Number

- serial number was observed marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre designation was observed marked on the right side of the barrel.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this is the stainless steel version of the 357 Maximum calibre handgun.
- single and double action trigger mechanism.
- interchangeable barrel & front sights.
- swing out cylinder, opening is done by pressing a latch at the front of the cylinder.
- the only difference between the target model and the service model is that service model has a fixed rear sight, and the target model has an adjustable rear sight.
- an overview of Dan Wesson current product codes is as follows;
- P = pistol pac.
- G = complete gun.
- 7 = stainless steel.
- VH = vent rib heavy barrel.
- 2 to 10 = barrel length.

for example; G740VH8 is explained by the following ; G ; complete gun.
7 ; stainless steel finish.
40 ; 357 Maximum cal.
VH; vent rib heavy barrel.
8 ; 8 inch (203mm) barrel length.

- other combinations of products codes exist.
- introduced in 2001, the "740" Super Ram Silhouette (product code 740V8S SRS1) has fully adjustable Bomar sights with "SRS-1" engraved on front sight hood; the "740" Standard Silhouette (product code 740V8S) model has adjustable sights, both feature a tuned trigger; shrouded barrel and are available with a fluted or non-fluted cylinder.

Serial Number

- serial number rationalization unknown, but six numerical digits, with two alpha prefix observed.

Barrel

- interchangeable barrels.

Notes

Make

- "DAN WESSON ARMS" is usually marked on the right side of the receiver/frame.

Model

- manufactured from 1981 to 1995 and subsequently reintroduced.
- model designation may be marked on the receiver/frame in the crane cutout area.
- features include: interchangeable barrel design; solid frame with a swing out cylinder; cylinder release on the crane; adjustable rear sight; stainless steel; double action.
- accessory barrels and grips are available.
- it is the stainless steel finish, 44 Mag cal, and adjustable sights that identify this firearm.
- produced in blued steel as the model 44.
- introduced in 2001, the "744" Super Ram Silhouette (product code 744V10S SRS1) has fully adjustable Bomar sights with "SRS-1" engraved on front sight hood; the "744" Standard Silhouette (product code 744V10S) model has adjustable sights, both feature a tuned trigger; shrouded barrel and are available with a fluted or non-fluted cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "DAN WESSON ARMS" or "WESSON ARMS" is marked on the right side of the receiver/frame.

Serial Number

- located on right side of the receiver/frame.
- serial number rationalization unknown.
- observed serial numbers consisted of a two alpha character prefix followed by six digits.

Barrel

- this model came with two different barrel nuts. A "one way" nut that made for a fixed barrel model and a "quick shift" interchangeable barrel model.

Calibre

- marked on the right side of the barrel.

FRT Report

Firearm Reference Number (FRN): 25486
Make: Dan Wesson
Model: 7445 Supermag

Summary

Make:	Dan Wesson
Model:	7445 Supermag
Manufacturer:	Dan Wesson
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
25486 - 2	445 SUPER MAG	6	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
25486 - 3	445 SUPER MAG	6	153	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
25486 - 1	445 SUPER MAG	6	204	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
25486 - 4	445 SUPER MAG	6	254	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this revolver is essentially a single/double actioned frame and cylinder, to which the owner may fit barrels and barrel-shrouds of different lengths and features; as well as different hand-grips, triggers, and hammers, to suit his requirement for the moment; the frame is mounted with a fully adjustable Patridge rear target sight, and a Hogue Monogrip.
- the leading numeral "7" designates this model firearm is produced in Stainless Steel, example: 7445 ("Blued" steel firearms do not carry this first number "7" designation, example: 445).
- the letters following the numerals usually indicate features, "VH" for "Ventilated, Heavy" barrel-shroud; example: 7445VH.
- other letters include "VR" for "Ventilated Rib" shroud.
- the number following this designates the barrel length in inches, example: 7445VH8
- the trailing letter designation "C" usually denotes "Compensated" barrel and shroud, example: 7445VH4C
- the trailing letter designation "S" usually denotes "Slotted" barrel-shroud, example: 7445VH8S
- introduced in 2001, the "7445 Supermag" Super Ram Silhouette (product code 7445 V8S SRS1) has fully adjustable Bomar sights with "SRS-1" engraved on front sight hood; the "7445 Supermag" Standard Silhouette (product code 7445V8S) model has adjustable sights, both feature a tuned trigger; shrouded barrel and are available with a fluted or non-fluted cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the current company known as "Dan Wesson Firearms" has been located in Norwich NY, since 1996, and shipped the first revolver of their new production in December of 1997. - formerly known as "Dan Wesson Arms", Monson MA (1968 to 1990), and the restructured "Wesson Firearms Co., Inc., Palmer MA. (1991 to 1995)
Serial Number	- The serial number is marked on the receiver/frame.
Barrel	- interchangeable barrel lengths with co-responding barrel shrouds currently available for this firearm: 102mm (four inch), 152mm (six inch), 203mm (eight inch), 254mm (ten inch). NOTE: when measuring a Compensated barrel for length, ensure that the actual barrel is measured, as the barrel-shroud usually protrudes beyond the actual barrel by about 40mm.
Calibre	- marked on firearm.

Notes

Make

- the make is normally marked on the right side of the receiver/frame and may be marked on the barrel as, "DAN WESSON ARMS". As the ownership of Dan Wesson Arms changed over the years, the make may also be Wesson Firearms Co. or Dan Wesson Firearms.
- the Dan Wesson logo of a "DW" inside a circle may be marked on the receiver/frame, barrel or the grips.

Model

- model designation normally marked in the crane cut-out on the left side of the receiver/frame.
- features include: stainless steel construction, swing out cylinder, standard Hogue black rubber grip (other materials available as an option), adjustable rear sight, interchangeable barrels and shrouds, ventilated rib on barrel shroud, double/single action trigger mechanism.
- this model in blued steel is known as the model "45".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- the manufacturer is normally marked on the right side of the receiver/frame and may be marked on the barrel as, "DAN WESSON ARMS" over "MONSON, MASS. U.S.A.". As the ownership of Dan Wesson Arms changed over the years, the make may also be Wesson Firearms Co. of Palmer, Mass. U.S.A. or Dan Wesson Firearms of Norwich, New York U.S.A.
- the Dan Wesson logo of a "DW" inside a circle may be marked on the receiver/frame, barrel or the grips.
- manufacturer is located in Norwich, New York.

Serial Number

- the seiral number is normally marked on the right side of the receiver/frame. The serial number may be marked as two numbers, one alpha character, followed by six sequential numbers. Example "45S001061", or as six sequential numbers.

Calibre

- the calibre may be marked on the right side of the barrel as, ".45 COLT CTG.".

Notes

Make

- marked on the right side of both barrel and receiver/frame as "DAN WESSON ARMS".

Model

- also known as the model 8-2 or 8-2B.
- this is a 6-shot double-action revolver manufactured with the capability of accepting numerous barrel lengths; Dan Wesson also made a very similar 5-shot revolver with a fixed barrel known as the "38P" ("738P" in stainless)
- the Model 8 differs from the Model 9 only in that the Model 8 has a fixed rear sight, while the Model 9 has an adjustable rear sight; Dan Wesson made stainless-steel versions of both of these revolvers as the "708" (fixed sights) and "709" (adjustable sights).
- features include: one-piece wooden grips of varying styles; double action trigger mechanism; front-mounted cylinder release; an overtravel adjustment setscrew in the rear of the trigger-guard; varying styles of one-piece wooden grips and available in bright or satin blued finish.

Manufacturer

- marked on the right side of both barrel and receiver/frame as "DAN WESSON ARMS".

Serial Number

- numbered on the right front of the receiver/frame.
- example examined had a nine-digit serial number, including a "38" prefix, followed by an alpha character, followed by six digits (with zeros used as place holders).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - rifling characteristics: 6 lands & grooves, 1 turn in 18.75 inches, right hand twist.

Notes

Make

- "DANIEL DEFENSE" over "BLACK CREEK, GA" over "U.S.A." over "DD MK762" over "CAL. 7.62MM" over the "serial number" was observed marked on the left side of the magazine housing of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 2015.
- "DD MK762" was observed marked on the left side of the magazine housing of the receiver/frame.
- "DD MK762" is of the design commonly known as the AR-15/M-16 rifle.
- features include: round barrel with a threaded muzzle for flash hider/muzzle brake; low profile gas block is mounted inside the handguard; free floating ventilated handguard with a full length Picatinny rail; handguard is anchor directly to the upper assembly by four screws; flat top upper assembly with a Picatinny rail and four threaded protrusion blending with the handguard anchor attachment points; upper assembly has a right side ejection port without cover, case deflector, forward assist and a rear mounted cocking handle; AR-15 type receiver/frame with an integral magazine well, ambidextrous magazine release and bolt release, left side mounted safety selector, and a synthetic vertical pistol grip; telescoping buttstock; matte black finish.
- overall length with a 410 mm (16") barrel and the telescoping buttstock in the closed position is 851 mm (33.5"), and the average weight is 3.98 kg (8.8 lbs).

Manufacturer

- "DANIEL" over "DEFENSE" in a logo form with interlocking "D" was observed marked on the left side of the magazine housing of the receiver/frame.
- "Daniel Defense" started business creating accessories and handguard rail systems for the AR15/M-16 family of rifle.
- "Daniel Defense, Incorporated" was founded by Marvin Daniel in 2000.
- "Daniel Defense" was originally located in Savannah, Georgia, U.S.A.
- "Daniel Defense" relocated to Black Creek, Georgia, U.S.A. in 2009.
- "Daniel Defense" introduced its sporting branch, "Ambush Firearms" in 2011.
- "Daniel Defense" in addition to the Black Creek location, began operation of a new facility in 2012 in Ridgeland, South Carolina U.S.A.

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the magazine housing of the receiver/frame.
- serial number observed consisted of a two letter "DD" prefix, a space, six numbers and a letter "P" suffix.

Calibre

- "CAL. 7.62MM" was observed marked on the left side of the magazine housing of the receiver/frame.
- calibre is also usually marked on the barrel.
- 7.62MM NATO rifling characteristics: 1 turn in 11 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for the 308 WIN/7.62MM calibre variant of the AR15/M16 type rifles from DPMS, MagPul LAR-308 and Knights Manufacturing (SR25).

Notes

Make

- "DANIEL DEFENSE" in logo form over "BLACK CREEK, GA" over "U.S.A." is marked on the left side of the receiver/frame.

Model

- "DD5" is marked on the left side of the magazine well.
- "DD5" variants are based on the Colt AR-15/M16 design.
- features include: round barrel with a threaded muzzle for flash hider/muzzle brake; low profile gas block is mounted inside the handguard; free floating ventilated handguard with integral top accessory rail with accessory anchor point; handguard is attached directly to the upper assembly by four screws; flat top upper assembly with an accessory rail and four threaded protrusion blending with the handguard anchor attachment points; upper assembly has a right side ejection port with cover, case deflector, forward assist and a rear mounted cocking handle; AR-15 type receiver/frame with an integral magazine well, ambidextrous magazine release and bolt release and safety selector; telescoping buttstock; matte black finish.
- overall length with a 457 mm (16") barrel and the telescoping buttstock in the closed position is 898 mm (35.375"), and the average weight is 3.9 kg (8.6 lbs).

Manufacturer

- "DANIEL" over "DEFENSE" in a logo form with interlocking "D" was observed marked on the left side of the magazine housing of the receiver/frame.
- "Daniel Defense" started business creating accessories and handguard rail systems for the AR15/M-16 family of rifle.
- "Daniel Defense, Incorporated" was founded by Marvin Daniel in 2000.
- "Daniel Defense" was originally located in Savannah, Georgia, U.S.A.
- "Daniel Defense" relocated to Black Creek, Georgia, U.S.A. in 2009.
- "Daniel Defense" introduced its sporting branch, "Ambush Firearms" in 2011.
- "Daniel Defense" in addition to the Black Creek location, began operation of a new facility in 2012 in Ridgeland, South Carolina U.S.A.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a two letter prefix (DD) and seven numbers.

Calibre

- "CAL. MULTI" is marked on the left side of the receiver/frame.
- calibre identification is usually marked on the upper assembly and on the barrel.
- 260 REM rifling characteristics: 1 turn in 7 inches, right hand twist.
- 6.5MM CREEDMOOR rifling characteristics: 1 turn in 8 inches, right hand twist.
- 7.62MM NATO rifling characteristics: 1 turn in 11 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for the 308 WIN/7.62MM calibre size variant of the AR15/M16 type rifles from DPMS, MagPul LAR-308/P Mag and Knights Manufacturing (SR25).

Notes

Make

- "DANIEL DEFENSE" was observed marked on the left side of the magazine housing of the receiver/frame.

Model

- "M4 CARBINE" is marked on the left side of the receiver/frame.
- this is an AR-15 rifle in M4 Carbine configuration.
- the Daniel Defense M4 is available in different carbine configurations. All configurations are built on the same platform but vary with barrel, handguard or gas system length and accessories.
- features include: birdcage flash hider; standard AR/M4 front sight bracket; may have the M4 carbine barrel profile for M-203 grenade launcher attachment; free floating rail system or plastic handguard; may have a handguard vertical grip; Picatinny railed flat top upper assembly; telescoping buttstock.

Manufacturer

- "Daniel" over "Defense" in a logo form with interlocking "D" is marked on the left side of the receiver/frame.
- "Daniel Defense" started business creating accessories and handguard rail systems for the AR15/M-16 family of rifle.
- "Daniel Defense, Incorporated" was founded by Marvin Daniel in 2000.
- "Daniel Defense" was originally located in Savannah, Georgia, U.S.A..
- "Daniel Defense" relocated to Black Creek, Georgia, U.S.A. in 2009.
- "Daniel Defense" introduced its sporting branch, "Ambush Firearms" in 2011.
- "Daniel Defense" in addition to the Black Creek location, began operation of a new facility in 2012 in Ridgeland, South Carolina U.S.A..

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the magazine housing of the receiver/frame.
- serial number rationalization is unknown.
- observed serial number consisted of a two letter prefix and six numbers.
- observed serial number consisted of a two letter prefix and eight numbers.
- observed serial number consisted of a three letter prefix and five numbers.
- observed serial number consisted of a three letter prefix, six numbers, and a letter suffix.

Barrel

- various barrel lengths available.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre may be marked on the left side of the magazine housing of the receiver/frame.
- rifling characteristics: 1 turn in 7 inch, right hand twist in the 5.56MM NATO.
- rifling characteristics: 1 turn in 10 inch, right hand twist in the 6.8MM SPC.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

FRT Report

Firearm Reference Number (FRN): 119091
Make: Danish Machine Gun
Model: MG62

Summary

Make:	Danish Machine Gun
Model:	MG62
Manufacturer:	Rheinmetall
Level:	Manufacturer Specifications and Commercial Customization
Type:	Machine Gun
Action:	Full Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119091 - 1	7.62MM NATO	N/A	531	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make will not be found marked on the firearm.

Model

- rear left side of the receiver/frame is usually marked with the serial number, date of manufacture and the Rheinmetall trademark which is represented by a stylized 4-sided diamond within a circle.
- this firearm is the post WW II version of the original MG 42 designed and produced specifically for the 7.62MM Nato cartridge.
- this firearm accepts both the US M-13 disintegrating link and the German DM1 disintegrating link belts.
- this is a fully automatic, air-cooled, belt fed medium or general purpose machine gun utilizing a short recoil type of action which is gas-assisted by means of a recoil booster located within the flash hider; the bolt is of the roller locking type.
- features include;
- full automatic fire only, cyclic rate at 900 rds/min.
- barrel is chrome plated.
- metal stamping type of construction,
- bolt weight - 950 g
- quick-change barrel system,
- easily removeable bi-pod.
- NOTE: this firearm will accept differing masses of bolt and different buffers from other models of the MG1. When the 550 g bolt is installed this machine gun will fire at a cyclic rate of 1000 to 1100 shots per minute.

Manufacturer

- the Rheinmetall trademark which is represented by a stylized 4-sided diamond within a circle is usually located on the left rear side of the receiver/frame.

Type

- air-cooled medium machine gun.

Action

- short recoil operated, with a gas assist by means of a muzzle booster.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number usually located on the rear left side of the receiver/frame.
Barrel	- barrel length without the barrel extension is 531 mm. - barrel length with the barrel extension is 565 mm.
Calibre	- calibre designation is marked on the rear left side of the receiver/frame as: 7.62.
Shots	- this firearm accepts both the US M-13 disintegrating link and the German DM1 disintegrating link belts. - belt fed machinegun, will not accept the 50 cartridge belt carrier or the 75 round saddle magazine without extensive modification.
Canadian Law Comments	- the magazine known as a "saddle-drum" type (doppeltrommel or satteltrommel"), which is not a reproduction and was originally designed or manufactured for use in the automatic firearms known as the MG13, MG15, MG17, MG34, T6-200 or T6-220, or any variant or modified version of it: is exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".
Remarks	- in Yugoslavian service, manufactured at ZASTAVA, the MG42 was named "SARAC" or "M53". - the Italians manufactured this machine gun model (calibre 7.62 x 51 mm NATO) under the designation "MG42/59". - in 1957, the West Germans Government recommenced manufacture of this firearm in various calibres as the "MG1", "MG1A1", and later, the "MG3" & MG3e.

- quick-change barrel system,
- easily removeable bi-pod.
- NOTE: this firearm will accept differing masses of bolt and different buffers from other models of the MG1. When the 550 g bolt is installed this machine gun will fire at a cyclic rate of 1000 to 1100 shots per minute.

Manufacturer

- the Rheinmetall trademark which is represented by a stylized 4-sided diamond within a circle is usually located on the left rear side of the receiver/frame.

Type

- air-cooled medium machine gun.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number usually located on the rear left side of the receiver/frame.
Barrel	- barrel length without the barrel extension is 531 mm. - barrel length with the barrel extension is 565 mm.
Calibre	- calibre designation is marked on the rear left side of the receiver/frame as: 7.62.
Shots	- this firearm accepts both the US M-13 disintegrating link and the German DM1 disintegrating link belts. - belt fed machinegun, will not accept the 50 cartridge belt carrier or the 75 round saddle magazine without extensive modification.
Canadian Law Comments	- the magazine known as a "saddle-drum" type (doppeltrommel or satteltrommel"), which is not a reproduction and was originally designed or manufactured for use in the automatic firearms known as the MG13, MG15, MG17, MG34, T6-200 or T6-220, or any variant or modified version of it: is exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".
Remarks	- in Yugoslavian service, manufactured at ZASTAVA, the MG42 was named "SARAC" or "M53". - the Italians manufactured this machine gun model (calibre 7.62 x 51 mm NATO) under the designation "MG42/59". - in 1957, the West Germans Government recommenced manufacture of this firearm in various calibres as the "MG1", "MG1A1", and later, the "MG3" & MG3e.

Firearm Reference Number (FRN): 23029
Make: Danish Service
Model: 1880

Summary

Make:	Danish Service
Model:	1880
Manufacturer:	Danish State Arsenal, Copenhagen
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	DENMARK
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23029 - 1	9.4MM	6	110	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Danish Service" is not marked on the firearm; this make applies to firearms adopted by the Danish military that are not otherwise identifiable as to the designer.

Model

- the model is not marked on the firearm; this is the year this revolver was adopted by the Danish military.
- this is a licenced Warnant-pattern revolver adopted by Denmark in 1880, for issue to military officers. This revolver has typical Warnant-pattern features, but may be mistaken for a Chamelot-Delvigne pattern due to the hinged sideplate and vertical loading-gate that swings backwards along the side of the receiver/frame.
- features include: blued finish; open fixed sights; half-round/half-octagon barrel; under-barrel plunger-style ejector rod; an "L"-shaped side-plate retaining lever on the left side of the receiver/frame that swings forward to allow the side-plate to swing out and back on a hinged at the prawl; double-action Warnant trigger mechanism; fluted cylinder; a rotating safety on the left side of the receiver/frame, near the prawl; checkered walnut grips; lanyard loop at the butt.

Manufacturer

- the manufacturer is not marked on the firearm.
- bears a crowned "KT" marking, indicating "Copenhagen Tojhus", or "Copenhagen Armory".

Action

- double-action revolver.

Serial Number

- serial-numbered on the left side of the receiver/frame inside the sideplate.

Notes

Make

- marked with the Danish Crown and the Letters "SA" on the top of the receiver/frame.

Model

- "1891" is not marked on the firearm.
- "1891" represents the year of entry in service in the Danish navy.
- "1891" is based on the "Le Vaux" revolver with the exception of the half-round and half-octagonal barrel, and the lever safety on the right side of the receiver/frame. These features are not based on the "Le Vaux".
- Danish service acceptance stamp of a crown over "SA" is marked on the top strap.
- features include: dovetailed, front sight ramp and notched barrel locking latch rear sight; half-round and half-octagonal barrel; cylinder with oval recesses; safety lever on the right side of the receiver/frame; hinged frame; double action trigger mechanism; self-ejecting, disc type ejector; checkered, wood grip panels having an assembly screw on the bottom, right panel needing a two post type screwdriver; lanyard ring; blued finish.
- 2,049 were produced.

Manufacturer

- "JBR" in an oval with a star over a "J" was observed on the right side of the receiver/frame.
- "JBR" denotes Jean-Baptiste Ronge.

Serial Number

- serial number is marked in several location including the receiver/frame just above the front edge of the trigger guard.

Notes

Make

- "Danjou & Desenne a Paris" is marked on the barrel.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a "duelling pistol" style of percussion single shot, usually manufactured in cased pairs.
- features may include: blued or coin-finish; octagonal barrel; open fixed sights; ornately-carved walnut stocks; right-side lockplate and manually-cocked hammer; single-action trigger mechanism; a nipple pick screwed into the grip-cap; and usually delivered as a cased pair, with powder flask, bullet mould; ramrods, cap-box, and accessories.

Manufacturer

- "Danjou & Desenne a Paris" is marked on the barrel.

Action

- muzzle-loaded percussion single-shot.

Firearm Reference Number (FRN): 143785
Make: Danner, Hans
Model: Wheel-Lock

Summary

Make:	Danner, Hans
Model:	Wheel-Lock
Manufacturer:	Danner, Hans
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
143785 - 1	10.5MM	1	513	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Hans Danner" is usually not marked on the firearm.
- "HD" the initials of Hans Danner is usually marked on the firearm.
- "Hans Danner" logo consists of a snake and the letters "HD".

Model

- manufactured prior to 1621.
- model designation is not marked on the firearm.
- Wheel-Lock firearms were originally manufactured in Europe during the 16th and 17th century.
- this wheel-lock pistol was assembled from pre-manufactured parts.
- the system uses iron pyrites pressed against a revolving toothed wheel to provide the sparks for igniting the powder in the priming pan, which in turn ignites the main powder charge in the barrel. The toothed wheel is made to rotate, when the trigger was pulled, by a spring that was wound by a key in a similar fashion to a mechanical clock.
- features include: no sights; round to octagonal, polished steel barrel; ramrod is mounted under the barrel; wheel-lock action; walnut stock with metal furniture, trigger guard and butt cap.

Manufacturer

- Hans Danner was located in Nurenberg, Germany.
- Hans Danner died in 1573.
- Hans Danner's business was still producing firearm circa 1620.

Action

- muzzle loading.

Notes

Make

- "J.D" is marked on the left side of the receiver/frame underneath the left grip panel.
- "J.D" was a trademark used by Joseph Danthine/Joseph Danthine & Fils of Liege, Belgiun from 1899 to 1935.

Model

- model designation is derived from the characteristics of the firearm.
- model is of a Warnant type of revolver with a single Francotte-type locking latch, vertical lever with oval thumb pad at the bottom, on the left side of the receiver/frame.
- features include: half-moon, fixed front blade and fixed grooved rear sight; octagonal barrel; short, curvy and knurled cylinder axis pin under the barrel; fluted cylinder; trigger guard; upper, rear portion of the grip has a characteristic protrusion; one piece receiver/frame grip with round butt cap normally with a lanyard loop; two piece grips that may be smooth or checkered; may have some engraving; blued or nickel finish.

Canadian Law Comments

- "MF" was also observed on the side of the receiver/frame.

Notes

Make

- "J.D" is marked on the left side of the receiver/frame underneath the left grip panel.
- "J.D" was a trademark used by Joseph Danthine/Joseph Danthine & Fils of Liege, Belgiun from 1899 to 1935.

Model

- manufactured after 1898.
- model name is not marked on this firearm.
- model name is based on the characteristics of this handgun that resemble the original pin-fire design of Casimir & Eugene Lefaucheux circa 1854-55.
- features may include: round or octagonal barrel; open top or solid top receiver/frame; exposed spurred hammer; single or double action trigger mechanism; fold down trigger or a regular trigger and trigger guard; and plain or decorated grips.

Manufacturer

- "J.D" is marked on the left side of the receiver/frame underneath the left hand grip panel.
- "Joseph Danthine" was a firearms manufacturer located in Liege, Belgium from 1899 to 1926.
- "Joseph Danthine" was succeeded by his son in 1926.
- "Joseph Danthine's" business was renamed "Joseph Danthine & Fils".
- "Joseph Danthine & Fils" was in business from 1926 to 1935.

Serial Number

- observed example was marked with a two digit number on the receiver/frame.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the left side of the receiver/frame. - Serial number of referenced examples consisted of a two letter prefix, a dash and five numbers.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- "MULTI-CALIBER" is marked on the left side of the receiver/frame. - The calibre designation is marked on the barrel assembly.
Canadian Law Comments	- This firearm is normally Non-Restricted unless affected by the following conditions: 1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada. "Handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands. 2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada. 3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada. "Prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted, (i) is less than 660 mm in length, or (ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

FRT Report

Firearm Reference Number (FRN): 24679
Make: Darling
Model: Darling

Summary

Make:	Darling
Model:	Darling
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
24679 - 2	22 RF	7	58	Prohibited CC 84(1) "prohibited firearm"	Non-Commercial Customization	
24679 - 1	32 RF	5	76	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "DARLING" was observed marked on the top strap.

Model

- "DARLING" is marked on the top strap.
- this revolver is of a type commonly known as a Suicide Special.
- features include: octagonal barrel with half moon front sight; solid top receiver/frame with removable fluted cylinder; cylinder has locking notches to the rear; cylinder axis pin release is of a push in type located on the front of the receiver/frame; exposed spur hammert; sheathed trigger; single action trigger mechanism; bird's head grip; checkered grip plates.

Serial Number

- serial number was observed marked on the left grip strap of the receiver/frame, underneath the grip pannels.

Canadian Law Comments

- some examples of this model manufactured prior to 1898, are considered "Antique" in Canada.

FRT Report

Firearm Reference Number (FRN): 146337
Make: Darling, Barton & Benjamin M
Model: Pepperbox

Summary

Make:	Darling, Barton & Benjamin M
Model:	Pepperbox
Manufacturer:	Darling, Barton & Benjamin M
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
146337 - 1	30 PERCUSSION	6	83	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "B.& B.M. DARLING" is marked on the firearm.

Model

- manufactured prior to 1850.
- model designation is not marked on the firearm.
- this is an early style of single-action revolving pepperbox pistol manufactured by the Darling brothers during the late 1830s and early 1840s; though many such pistols have become colloquially known as "Darling pepperboxes", the vast majority of such pistols have brass frames and barrels, and were actually imported from Sweden. This record applies only to the actual US-made, iron-framed pepperboxes produced by the Darlings.
- features include: blued finish; six-shot barrel cluster with ribs; exposed nipples; single-action hammer/trigger mechanism; trigger-guard; flat-sided "box" receiver; and walnut or tortoise-shell grips.

Manufacturer

- Barton & Benjamin M. Darling was located in Bellingham, Massachusetts and Woonsocket, Rhode Island, U.S.A between 1808 and 1890.
- Barton & Benjamin M. Darling was granted Patent Number 9,591X on April 13, 1836 for an iron frame pepperbox pistols.

Action

- muzzle-loading, "pepperbox"-style pistol with revolving barrel cluster.

Serial Number

- serial number is marked on the receiver/frame.

Notes

Make

- "WK DARLING" is marked on the firearm.
- William K Darling was a gunsmith in Busti, New York, during the early 1860s, who later moved to Otsego, Michigan. He was known primarily for percussion target and hunting rifles.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a percussion hunting or target rifle made by William K. Darling prior to 1897.
- features may include: blued or browned octagonal barrel; open fixed sights; half- or full-length walnut or maple straight-grip stock; brass or German silver mountings (may include patch box); under-barrel ramrod; single trigger, and finial trigger-guard/grip strap.

Manufacturer

- "WK DARLING" is marked on the firearm.
- William K Darling was a gunsmith in Busti, New York, during the early 1860s, who later moved to Otsego, Michigan. He was known primarily for percussion target and hunting rifles.

Action

- muzzle loaded percussion single-shot.

FRT Report

Firearm Reference Number (FRN): 121885
Make: Darne
Model: 1918

Summary

Make:	Darne
Model:	1918
Manufacturer:	Darne
Level:	Manufacturer Specifications and Commercial Customization
Type:	Machine Gun
Action:	Full Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121885 - 2	303 BRITISH	N/A	610	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
121885 - 1	8X50R LEBEL	N/A	660	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make may not be marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a gas-operated machinegun designed by Darne during the First World War; Darne had been one of the sub-contractors responsible for producing the Lewis aircraft machinegun and as a result, they combined features from a number of other designs to produce a belt-fed gas-operated machinegun primarily for aircraft use. This design was finalized too late during WW1 to see much actual use, and many of these machineguns were modified during the post-war period to ground-mount and light machinegun configurations.
- features include: wooden buttstock and pistol-grip; open adjustable sights; under-barrel gas piston; large diameter trigger guard; vertical pistol grip, and buttstock with a sharp drop at the comb with adjustment for elevation.
- versions also seen with spade-grip or grips.

Manufacturer

- the manufacturer may not be marked on the firearm.

Action

- gas-operated.

Serial Number

- numbered on the receiver/frame.

Shots

- belt-fed firearm.

Notes

Make

- make is not marked on the firearm.

Model

-"HALIFAX" is marked on sliding breech release.
- produced in three grades: type three (3 PM) to type five (5 PM).
- each grade indicated by the number of "punch marks" under the barrel table. A punch mark is described as the word "DARNE" inside a circle.
- features include: side by side barrels with matted rib and bead front sight; sliding Darne breech, operated by a T-handle; automatic ejectors; sliding safety lever on left side of the sliding breach; double triggers; checkered wood one piece semi-pistol grip stock, or two piece with splinter forearm and semi-pistol butt stock.

Type

- barrel proof mark consists of two interlaced palms surmounted by a crown (blazon of the city of Saint Etienne).

Action

- side by side barrel configuration.

Serial Number

- observed serial number was marked on the inside of the trigger guard.
- observed serial number consists of five numbers without a prefix or suffix.

Firearm Reference Number (FRN): 128625
Make: Darne
Model: Over & Under

Summary

Make:	Darne
Model:	Over & Under
Manufacturer:	Darne
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128625 - 1	12 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "DARNE" was observed marked on the underside of the lower barrel.
- "LE FUSIL DARNE", "SAINT-ETIENNE", "PARIS" and "MADE IN FRANCE" were observed moulded into the butt plate.

Model

- model designation is not marked on the firearm.
- this is a generic entry for all over & under pattern shotguns produced by Darne that have no model name marked on them.
- features observed: over and under barrels with solid top rib and bead front sight; front hinged receiver/frame with top tang mounted break open lever; two triggers; checkered wood forearm and semi-pistol grip buttstock; sling swivels; engraving.

Manufacturer

- "DARNE" was observed marked on the underside of the lower barrel.
- "LE FUSIL DARNE", "SAINT-ETIENNE", "PARIS" and "MADE IN FRANCE" were observed moulded into the butt plate.

Action

- over and under design.

Serial Number

- serial number was observed marked on the inside of the receiver/frame and repeated on the barrel assembly.
- observed serial number consisted of four numbers without a letter prefix or suffix.

Make

- Darne's gunmaking business was established by Regis and Pierre Darne in Saint Etienne, France, circa 1881.
- "Darne Company/Regis Darne et Cie" had facilities in both Paris and Saint Etienne, France.
- "F. Darne Fils et Aine" was established by Francisque Darne, circa 1892.
- Francisque Darne was the eldest son of Regis Darne, the original manufacturer of the Darne shotgun.
- Francisque left his father's company in 1910 to manufacture his own version of the original 1894 patent Darne shotgun.
- F. Darne had upgraded most of the original shotgun designs of Regis Darne by 1909.
- "Darne Company/Regis Darne et Cie" produced the Darne and Lewis machine gun between 1915 and 1930s.
- Darne was trading as "Manufacturer d'Armes a Canons Fixes F. Darne Fils Aine, Etienne Jallas & Cie, Successeurs", circa 1933.
- Darne was trading as "Etablissements Darne S.A.", between 1970 and 1979.
- Paul Bruchet, an ex-employee of the original Darne company, manufactured shotguns using the Darne type actions between 1981 and 1989.
- "Darne" trade name and trademark were purchased by Paul Bruchet, circa 1989.
- "Darne S.A." shotguns were manufactured at the Bruchet Darne factory in Saint Etienne, France beginning in 1990.
- "Darne S.A." started production of a double barrel rifle in 1996.

Model

- model designation is not marked on firearm.
- this is a generic entry to encompass those Darne shotguns with a sliding breech system with no model markings.
- features include:
- unique action utilizes sliding breech lock-up.
- features may vary greatly as models differ in the grade of wood and amount of engraving.
- custom order available, thus any caliber, barrel length, weight, and choke combinations may be encountered.

Action

- side by side configuration.
- "Sliding breech" may be operated by a T-handle on the tang.

Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
149088 - 1	32 PERCUSSION	1	768	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "LF DARROW" is usually marked on the firearm.
- Lafayette F. Darrow was a Mayville, New York-based gunsmith during the mid-to-late 1800s, who was known primarily for his percussion hunting and target rifles.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a percussion hunting or target rifle made by Lafayette F Darrow prior to 1882.
- features may include: blued or browned octagonal barrel; open adjustable sights (may also have adjustable peep sight mounted on the tang); half- or full-length walnut or maple straight-grip stock; brass or German silver mountings (may include patch box); under-barrel ramrod; single trigger, finial trigger-guard/grip strap; and crescent butt.

Manufacturer

- "LF DARROW" is usually marked on the firearm.
- Lafayette F. Darrow was a Mayville, New York-based gunsmith during the mid-to-late 1800s, who was known primarily for his percussion hunting and target rifles.

Action

- muzzle loaded percussion single-shot.

Model:	Colt 1851 Navy Reproduction
Manufacturer:	Riva Esterina
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127086 - 1	36 PERCUSSION	6	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "DART ITALY" was observed marked on the bottom buttstrap of the grip frame.
- "DART" was a trade name used by the Italian firm of Riva Esterina.
- "DART" was a trade name sold by EXCAM.
- EXCAM was a importer and distributor located in Hialeah, Florida, U.S.A.
- EXCAM ceased operations in late 1990.
- EXACM imported and distributed the following trade names/trademarks: DART, ERMA, SENATOR, TANARMI, TARGA, UBERTI, and WARRIOR.

Model

- model designation is not marked on the firearm.
- this firearm is a modern reproduction of the original Colt model 1851 Navy blackpowder percussion revolver made from 1851 to 1873.
- features include: octagonal barrel with rammer rod assembly; open top brass receiver/frame with unfluted and engraved percussion cylinder; exposed spurred hammer; single action trigger mechanism; brass trigger guard and back strap; fixed sights; wood grips.
- Italian proof marks are apparent on the barrel and/or receiver/frame.

Manufacturer

- "DART ITALY" was observed marked on the bottom of the buttstrap of the grip frame.
- "DART", "PR" and three stacked "Rs" were trademarks used by the Italian firm of Riva Esterina.
- Riva Esterina ceased operations in the 1980s.

Action

- muzzleloading, black powder, percussion cap ignition.

Serial Number

- known example had a four digit number with a letter prefix marked on the underside of the receiver/frame in front of the trigger guard.
- letter prefix "A" has been observed.

118972 - 1	6.5X53.5 DAUDETEAU	5	826	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is not marked on the firearm.
- make is in recognition of the designer, Commandant Louis Daudetau.
- the "Daudetau" design was also manufactured by "MAS" as the "Rival" sporting carbine.

Model

- model designation is not marked on the firearm.
- manufactured between 1896 and 1900.
- total production of approximately 5000 units.
- this model was produced both as a rifle and a carbine.
- features include: split bridge receiver/frame; turn bolt action; integral box magazine; one piece straight stock with top handguard.

Manufacturer

- "SFAP" and "St Denis Paris" are marked on the firearm.
- references indicate that the firearm may have been actually made by "Compagnies des Forges et Acieries de la Marine, Saint Chamond" or "Manufacture Francaise des Armes et Cycles, Saint Etienne".

Calibre

- "Daudetau" rifles were chambered for cartridges ranging from 6x51 to 8x60.

Shots

- integral box magazine.

146490 - 1	31 PERCUSSION	1	51	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "A. DAVIS, JR." over "STAFFORD, CONN." is marked on the firearm.

Model

- manufactured between 1835 and 1837.
- model designation is not marked on the firearm.
- this is a standard-pattern underhammer percussion "saw-handle"-style pistol, made along the same pattern as Adin Ruggles' early guns using Ruggles' 1828 patent for an underhammer lock.
- features include: blued/browned finish; part-round/part-octagon barrel; fixed open sights; underhammer percussion lock; varying styles of triggers; and a "saw-handle"-profile of the grip, generally coming down to a rounded point at the butt. These pistols almost universally have a brass or German silver strap running around the grip of the pistol, and are stamped or engraved with a variety of leaves, vines, stars, and so on.

Manufacturer

-- "A. DAVIS, JR." over "STAFFORD, CONN." is marked on the firearm.
- Aaron Davis Junior was a gunsmith based in Stafford, Connecticut, U.S.A.
- Aaron Davis Junior had earlier worked for Adin Ruggles in Ruggle's factory; after Ruggles' death in 1833, Aaron Davis Junior continued producing Ruggles-pattern pistols, with the blessing of Ruggles' widow, Cynthia Ruggles.

Action

- muzzle-loading.

Notes

Make

- "AR DAVIS" is normally marked on the firearm.
- Aron R. Davis was a Deposit, New York-based gunsmith during the mid-to-late 1800s, known primarily for his percussion rifles and combination guns.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is an over/under percussion double rifle manufactured by Amos R. Davis prior to 1882.
- features include: browned or blued finish; open fixed or adjustable sights; side ramrod thimbles; straight-grip maple or walnut stock (no forearm) with brass or German silver finishings (may include patch box); external manually-cocked hammers; single or double triggers; finial trigger guard/grip strap; and a crescent butt.

Manufacturer

- "AR DAVIS" is normally marked on the firearm.
- Aron R. Davis was a Deposit, New York-based gunsmith during the mid-to-late 1800s, known primarily for his percussion rifles and combination guns.

Action

- over/under muzzle loaded percussion configuration.

Barrel

- barrel lengths may vary.

197018 - 1	455 REV	6	145	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "G.H. DAW & Co" over "57. THREADNEEDLE ST and "67. ST JAMES'S ST" over "LONDON" was marked on the top of the receiver/frame.
- Witton, Daw & Company was formed by John Sergeant Witton and George Henry Daw circa 1851.
- Witton, Daw & Company were located at 82 Old Broad Street from 1851 to 1852 and at 57 Threadneedle Street circa 1853 to 1854.
- Witton, Daw & Company was renamed "Witton & Daw" circa 1854.
- Witton & Daw was located at 57 Threadneedle Street from circa 1854 to 1860.
- George Henry Daw established his own business circa 1861.
- George Henry Daw/G. H. Daw & Company manufactured military arms, hammerless shotguns, express rifles, revolvers and ammunition.

- George Henry Daw was located at 57 Threadneedle Street from circa 1867 to 1880.
- George Henry Daw's business was renamed "G. H. Daw & Company" in 1880.

- G. H. Daw & Company was located at 166 Frenchurch Street circa 1888.
- G.H. Daw & Company ceased to trade circa 1889.
- Daw Gun Company was located at 19 Great Winchester Street from circa 1890 to 1892.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- The model designation is not marked on the firearm.
- "MK" inside a triangle may be marked on right the side of the receiver/frame. "MK" trademark was marked on the Webley "Improved Government" model until circa 1885.
- "MK" was the trademark of Michael Kaufmann who was a firearms designer for Webley circa 1878 to 1881.
- "Improved Government" is similar to the Webley No 4 revolver and may be seen with a variety of features that changed over time, as the Webley company introduced safety and mechanical improvements.
- Features include: front hinged receiver/frame with fluted cylinder and automatic extractor; break open release button or lever located on the left side of the receiver/frame; removable inspection plate on the left side of the receiver/frame; exposed spur hammer; checkered walnut grip with lanyard ring.
- Early revolvers may show Pryse-style lock work, with an additional sear release at the rear of the trigger-guard, but will also have integral trigger-guards that were formed as part of the frame casting; these revolvers will all have "Kaufmann"-style frames, with a detachable side plate on the left side of the revolver.

- Latching mechanisms changed, ranging from an early "push-button" style on the left side, through a thumb-operated latch that operated a cross-bolt through the top-strap, to a "half-stirrup" style that was replaced by the classic Webley "stirrup" latch in 1889.

Manufacturer

- "WEBLEY" over "PATENTS" is marked on the left side of the receiver/frame.

Serial Number

- Serial number is located on the left side of the back strap under the grip panel, it also appears on the underside of each grip panel and at the rear of the barrel lug below the cylinder axis pin hole.

- The number below the "MK" symbol is a "royalty" number, which served to keep track of the number of revolvers produced under Michael Kaufmann's patents, so that Kaufmann could be paid on a "per revolver produced" basis.

Calibre

- The calibre designation is not marked on the firearm.

23103 - 3	455 REV	6	140	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "G H.DAW & Co" is marked on top of the barrel.
- "George H. Daw, 57 Threedneedle St. London, Patented No. 112", "George Henry Daw", "George H Daw", "G.H. Daw", "G.H. Daw & Co." or "Daw Gun Co." may be marked on the firearm.

Model

- The model is not marked on the firearm; this is a descriptor of the firearm type.
- This is a top-break double-action revolver based on Charles Pryse' 1855 patent, characterized by a "tong"-style opening system where two levers at the rear of the recoil shield are squeezed in to allow the barrel and cylinder to tip down for loading/unloading/reloading.

Manufacturer

- "G H.DAW & Co" is marked on top of the barrel.
- "George H. Daw, 57 Threedneedle St. London, Patented No. 112", "George Henry Daw", "George H Daw", "G.H. Daw", "G.H. Daw & Co." or "Daw Gun Co." may be marked on the firearm.

Action

- Double-action revolver.

Serial Number

- The serial number is usually marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- The calibre designation is not marked on the firearm.
Canadian Law Comments	- Some examples of this model, when manufactured prior to 1898 may be considered Antique in Canada.
Other Markings	- Proof marks are marked on the firearm. - The knob on the left side of the firearm has an arrow engraved on it, and when the arrow is facing the muzzle (like a similar arrow engraved on the barrel above it), the cylinder is locked to the mechanism. When the knob is rotated 180-degrees, and the arrows oppose each other, the cylinder may be removed from the revolver when the action is opened.

Notes

Make - "DAYSTATE ENGLAND" is marked on left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Air Ranger" is marked on both sides of the receiver/frame above the trigger. - this is a pre-charged pneumatic air rifle designed as a match/target and "field" air rifle. - features include: bolt action adjustable for right hand or left hand use; black finish on metal components; permanently attached under-barrel air chamber; air pressure gauge; rotary safety lever; two stage, electronic, trigger; grooved top receiver/frame for scope mounts; walnut thumbhole stock with rubber recoil pad. - this rifle has two methods of loading, a ten shot rotary magazine is standard but a single shot holder is supplied by the manufacturer. - although the barrel has an integral, full-length silencer/sound suppressor available on certain versions, it is also threaded at the muzzle for use with an additional, removable Muzzle Flip Compensator "MFC" silencer/sound suppressor to further reduce the noise level.
Manufacturer	- Daystate Limited was founded in 1973. - Daystate Limited is located in Stone, Staffordshire, England. - Daystate Limited is an airgun manufacturer. - Daystate Limited has specializes in producing pre-charged pneumatic high-power air guns for target and hunting use since 1987.
Action	- pre-charged pneumatic. - in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 25 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- numbered on left side of the receiver/frame. - observed examples were marked with a series of four numbers preceeded by a two letter prefix.
Barrel	- examples of this model of firearm may be fitted with the full length barrel shroud and when the barrel shroud is present the nosecap must be removed to obtain an accurate barrel measurement. - length of barrel shroud: 597mm.
Canadian Law Comments	- as it left the factory, this firearm may be equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make - "Daystate" is marked on both sides of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Introduced in 2023. - "ALPHA WOLF" is marked on the left side of the receiver/frame. - "ALPHA WOLF" is marked on the right side of the receiver/frame. - Combines firearms design features of more than one firearm including "Daystate Delta Wolf". - The unique difference between this firearm and the "Delta Wolf" is the stock. This firearm features a rear magazine loading, over-sized thumbhole, pistol grip bull-pup stock. - The "Alpha Wolf" is also offered as a "conversion kit" option for those seeking to change the stock configuration of their "Delta Wolf" firearms. - Features include: rear loading receiver/frame with ambidextrous cocking handle; left side on-board electronic chronograph; left side pressure gauge; front loading air cylinder. - Overall length with a 432 mm (17 inches) barrel is 619.8 mm (24.4 inches), average weight is 3.35 kg (7.4 lbs).
Manufacturer	- "Daystate" is marked on both sides of the receiver/frame.
Action	- Pre charged pneumatic.
Serial Number	- The serial number is usually marked on the right side of the receiver/frame. - The serial number rationalization is unknown. - Observed sample consisted of the following format: two (2) letters, followed by four (4) numbers.
Calibre	- The calibre designation is usually marked on the barrel.
Shots	- Detachable rotary disc magazine.
Canadian Law Comments	- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. - This firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, Sec. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, Sec. 2) is removed the receiver/frame/barrel assembly may be correctly classified as "Non-Restricted" or "Restricted".

Notes

Make - "DAYSTATE ENGLAND" is marked on left side of receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- discontinued in 2002.
- "HUNTSMAN MK II" is marked on the left side of the receiver/frame.
- "PH6" refer to six shot rotary magazine.
- this is a pre-charged pneumatic air rifle designed as a match/target and "field" air rifle
- features included: carved beech or walnut pistol-grip stock with high comb (thumbhole stocks available); under-barrel air chamber filled off of a high-pressure air line or SCUBA tank; no open sights (meant for use with a scope); and a single-shot action.
- this rifle is cocked by grasping the "swan's-neck" cocking piece and pulling it rearwards; this both cocks the rifle and opens the breech for loading a pellet.
- single shot version available as model Huntsman MARK 2

Manufacturer

- Daystate Limited was founded in 1973.
- Daystate Limited is located in Stone, Staffordshire, England.
- Daystate Limited is an airgun manufacturer.
- Daystate Limited has specializes in producing pre-charged pneumatic high-power air guns for target and hunting use since 1987.

Action

- pre-charged pneumatic.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on left side of receiver/frame.

Shots

- rotary magazine.

Notes

Make - marked "DAYSTATE- UK" on left side of receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- marked "DAYSTATE PH6" on the front left side of the receiver/frame.
- this is a pre-charged pneumatic air rifle designed as a "field" gun for hunters and plinkers.
- features include: carved beech or walnut pistol-grip stock with high comb and cheekpiece (skeletonized thumbhole stock available as an accessory); under-barrel air chamber filled from a high-pressure air line or SCUBA tank; no open sights (meant for use with a scope) and a "swan-neck"-shaped cocking-piece / bolt-handle that extends backwards from the rear of the receiver/frame.
- this rifle has a six-shot rotary magazine, which is automatically advanced each time the rifle is cocked, by grasping the finger extension on the cocking-piece and pulling to the rear.
- this rifle is manufactured in both "Huntsman" (full-length rifle) and "Harrier" (carbine-length rifle) variations, and can be ordered blued or with a matte black finish.

Manufacturer

- Daystate Limited was founded in 1973.
- Daystate Limited is located in Stone, Staffordshire, England.
- Daystate Limited is an airgun manufacturer.
- Daystate Limited has specializes in producing pre-charged pneumatic high-power air guns for target and hunting use since 1987.

Action

- precharged pneumatic air rifle.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 20 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 25 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- numbered on the left side of the receiver/frame.

Shots

- permanently-mounted rotating cylinder.

Notes

Make

- "Daystate" is marked on both side of the receiver/frame.
- "Daystate" is also marked on the stock.
- "Daystate" logo is a bull's-eye pattern surrounded by 12 stars.
- "Daystate" is located in Stone, Staffordshire England.
- "Daystate" was founded in 1973.

Model

- "RED WOLF" is marked on both side of the receiver/frame.
- "RED WOLF" marking has a wolf head engraved after it.
- "RED WOLF" is a pre-charged pneumatic (PCP) air rifle.
- "RED WOLF" is available in a walnut or laminated birch/beech red and grey coloured stock, with black anodized receiver/frame.
- "RED WOLF" is also available as a special edition,"Serie Rosso".
- "RED WOLF" is also available with a steel (B-type) or carbon (Hi-Lite) air tank bottle.
- "RED WOLF" from the factory has a carbon-fibre barrel shroud that is acting as a sound suppressor.
- features include: carbon-fibre barrel shroud; carbon-fibre or steel air reservoir under the barrel; sculpted laminated stock with lower lip/forearm extension to protect the air fitting; top of the receiver/frame grooved for optic mounting; detachable rotary magazine; right-side cocking lever that can be installed to the left; left side LCD pressure display above the trigger; straight shank, adjustable trigger with an adjustable finger shoe; safety, rocker switch type at the rear of the receiver/frame; finger-grooved pistol-grip; adjustable cheekpiece and recoil pad.

Manufacturer

- "Daystate" is marked on both side of the receiver/frame.
- "Daystate" is also marked on the stock.
- "Daystate" logo is a bull's-eye pattern surrounded by 12 stars.
- "Daystate" is located in Stone, Staffordshire England.
- "Daystate" was founded in 1973.

Action

- pre-charged pneumatic (PCP) air rifle.
- discharges a projectile at a muzzle velocity exceeding 152.4mps (500 fps) and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of referenced examples consisted of a two letter prefix (RW) and four numbers.

Shots

- detachable rotary magazine.
- a single shot loading tray is available as an accessory.

Canadian Law Comments

- this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.
- if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

FRT Report

Firearm Reference Number (FRN): 143466
Make: Daystate
Model: Wolverine

Summary

Make:	Daystate
Model:	Wolverine
Manufacturer:	Daystate
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
143466 - 1	303 PELLET	5	584	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
143466 - 2	303 PELLET	5	584	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "DAYSTATE ENGLAND" is marked on the side of the receiver/frame.

Model

- introduced in 2012, initially in 303 PELLET, but later in 177 PELLET and 22 PELLET.
- "WOLVERINE" is marked on both sides of the receiver/frame.
- features include: no iron sights; blued shrouded round, rifled Lothar Walther barrel with an integral silencer and a threaded muzzle for a secondary sound suppressor; blued permanently attached 300 cc air cylinder with quick fill adapter (some versions with detachable air tanks in capacities up to 500 cc), adapter cap and air pressure gauge is mounted under the barrel; titanium receiver/frame is grooved for scope mounts; ambidextrous rotary magazine; bolt action is adjustable for right hand or left hand use; manual safety is mounted on the rear of the receiver/frame; two stage mechanical trigger; one piece, checkered ambidextrous walnut pistol grip stock with rubber recoil pad.
- overall length is 1118 mm (44") or 1060mm (34.7"), depending on calibre, with weights between 3.2 kg (7.0 lbs) and 4.3 kg (9.4 lbs).
- available with the following options: screw on sound suppressor/silencer, sling swivels, gun box, and charging set.

Manufacturer

- Daystate Limited was founded in 1973.
- Daystate Limited is located in Stone, Staffordshire, England.
- Daystate Limited is an airgun manufacturer.
- Daystate Limited has specializes in producing pre-charged pneumatic high-power air guns for target and hunting use since 1987.

Action

- pneumatic powered, pre-charged pneumatic (PCP) cylinder.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - example observed with "WW" prefix and four numbers.
Calibre	- "303" is marked on both sides of the receiver/frame.
Shots	- detachable rotary magazine.
Canadian Law Comments	- as it left the factory, this firearm may be equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

Firearm Reference Number (FRN): 64446
Make: De Lisle
Model: Commando Carbine

Summary

Make:	De Lisle
Model:	Commando Carbine
Manufacturer:	Sterling
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
64446 - 1	45 AUTO	7	184	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "De Lisle" is derived from the last name of William De Lisle, who, in a joint effort with Sir Malcolm Campbell developed the carbine for British commandos in 1942.
- "The De Lisle Carbine" is built on the Lee-Enfield rifle platform.

Model

- "De Lisle Commando Carbine" was built using condemned or "in service" Lee-Enfield No. 1 MARK III or No. 1 MARK III* rifles.
- modifications included: the charger guide on the receiver/frame was removed; an ejector was added to the left side of the receiver/frame; the trigger guard has a magazine housing attached to accept a Colt M1911A1 magazine; the bolt was shortened by 91mm and is fitted with a recessed boltface and a modified extractor; the underside of the bolt is fitted with a bakelite insert to reduce noise; the barrel assembly incorporates a sound suppressor/silencer and the fore-stock has been modified.
- an airborne version with a folding metal buttstock was also developed but it is believed that no production units were built.
- although contracted for 500 production units, it is believed that less than 200 units were manufactured.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer's name is not marked on the firearm.
- "S.E.C.O." may be marked on the firearm.
- "S.E.C.O." is the abbreviation for "Sterling Engineering Company".
- although some of the prototypes were built at the Ford Dagenham, production units were produced by Sterling Engineering Company (S.E.C.O.).
- as these carbines were produced/converted from existing rifles the original model, manufacturer and year of production markings will usually still be marked on the butt-socket.

- Sterling Telephone & Electric Company of Dagenham, Essex, England was established in 1909.
- Sterling Telephone & Electric Company was known as Sterling Works (Dagenham) Limited in 1932.
- Sterling Telephone & Electric Company became Sterling Electric Holding Limited in 1933.
- Sterling Electric Holding Limited was the parent company of Sterling Armaments and Sterling Engineering.

- STERLING ARMAMENTS was located in Northampton, England circa 1940 to circa 1943.
- Sterling Armaments was one of the secondary companies assigned to produce the Lanchester submachine gun.
- Sterling Armaments was a satellite factory to the original "Sterling Engineering" of Dagenham.
- Sterling Armaments' wartime production code was "M619".

- STERLING ENGINEERING was located on Dagenham, Essex, England.
- Sterling Engineering Company Limited's parent company was Sterling Electric Holding Limited from 1939 to 1972.
- Sterling Engineering was the original company assigned to produce the Lanchester submachine gun.
- Sterling Engineering's wartime production code was "S109".
- Sterling Engineering became Sterling Armament Company Limited.

- STERLING ARMAMENT COMPANY LIMITED was purchased by James Edminston in 1972.
- Sterling Armament and Armalite signed a manufacturing agreement in 1974.
- Sterling Armament was sold by James Edminston in 1983/1984.
- Sterling Armament was purchased by British Aerospace in 1989.
- Sterling Armament ceased operations in the early 1990's.

Action

- turn bolt design.

Serial Number

- serial number is usually marked on the receiver/frame.

Shots

- uses the Colt M1911A1 type detachable box magazine.

Canadian Law Comments

- as it left the factory, this firearm is equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

Firearm Reference Number (FRN): 37276
Make: Dead Shot
Model: Dead Shot

Summary

Make:	Dead Shot
Model:	Dead Shot
Manufacturer:	Bacon Arms Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
37276 - 2	22 SHORT	6	62	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
37276 - 1	22 SHORT	6	76	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "DEAD SHOT" is marked on the top strap or barrel.
- "Dead Shot" trade name was used on a suicide special revolver possibly manufactured by Bacon Arms Company, Lucius W. Pond, Hopkins & Allen, or an unknown manufacturer.
- "Dead Shot" trade name was used on a .22 calibre single shot rifle manufactured by Meriden Firearms Company.

Model

- "DEAD SHOT" is marked on the top strap or barrel.
- this is a single-action spur trigger revolver manufactured by the Bacon Arms Company circa 1869, to take advantage of the expiry of Smith & Wesson's Rollin White patent; these revolvers were conversions of surplus "Pepperbox" handguns, made by shortening the lower arm of the receiver/frame, milling a loading groove in the right side of the recoil shield, and hooking and pinning a new forward/upper receiver/frame and barrel assembly to the grip frame.
- features include: round barrel; solid top iron receiver/frame with removable un-fluted cylinder; cylinder stop slots at the forward end of the cylinder; exposed manually-cocked hammer; sheathed spur trigger; square butt; walnut grips; blued finish; round-sided receiver/frame.

Manufacturer

- the manufacturer is not marked on the firearm.

Action

- single-action revolver.

Serial Number

- serial number may be marked on the left grip strap, under the grip plate.
- observed serial number consisted of three numbers without a letter prefix or suffix.

Notes

Make

- "GEORGE & JOHN DEANE (MAKERS TO H.R.H. PRINCE ALBERT) No 30 KING WILLIAM STREET, LONDON BRIDGE" may be marked in the rib between the barrels.
- "GEORGE & JOHN DEANE" may be marked on the lock plates.
- "DEANE'S PATENT" may be marked on the hammers.
- "DEANE & CO" may be marked on the lockplate or barrel rib.

Model

- model designation is not marked on the firearm.
- manufactured between 1845 and 1852.
- features include: side by side barrels; percussion side locks; two side hammers; double triggers; checkered walnut forearm and straight grip buttstock; engraved.

Manufacturer

- George Deane had a hardware business at 41 Fish Street Hill, London in 1785.
- George Deane was joined by his brother John and formed the firm of George & John Deane circa 1830.
- George & John Deane established a gunmakers business at 46 King William Street circa 1838.
- George & John Deane was located at 30 King William Street from 1846 to 1851.
- George & John Deane's firearms business at 30 King William Street, London Bridge was managed by Robert Adams circa 1846.
- George & John Deane's business name was changed to Deane & Company in 1852.
- Deane & Company was in business from 1852 to 1853.
- George and John Deane formed a partnership with Robert Deane.
- Deane, Adams & Deane was in business from 1853 to 1855.
- Deane, Adams & Deane were located at 30 King William Street and 1 New Weston Street, Tolley Street.
- Robert Adams sold his interest in Deane, Adams & Deane in 1856.
- John Deane & Son was the successor to Deane, Adams & Deane.
- John Deane & Son remained at 30 King William Street until 1873.

Action

- side by side muzzleloader.

18689 - 3	442 REV RF	6	121	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "DEANE & SON. LONDON BRIDGE." or "DEANE & SON.", "30, KING WILLAM STREET.", and "LONDON BRIDGE." are marked on the top strap.

Model

- "DEANE HARDING PATENT" is marked on the right side of the receiver/frame.
- features include: octagonal barrel with rammer/loading rod mounted underneath; solid top receiver/frame with fixed percussion or rim fire cylinder; exposed spur hammer; single/double action trigger mechanism; fixed sights; ejector rod screwed into the bottom of the pistol grip.
- this revolver was capable of switching from a muzzle loader to a breech loader by only changing the cylinder.

Serial Number

- "DEANE, HARDIN PATENT No" preceeds a number which is suffixed by the letter "P" on the right side of the receiver/frame. This is not a patent number, it is the serial number of the handgun. The serial number should be in the 15000P range.
- the number prefixed by "No" and suffixed by "D.H.D." that marked on the right side of the receiver/frame and on the cylinder is a conversion serial number or the serial number of the conversion unit. If the number on the cylinder does not match the number on the frame ie: No. 40. D.H.D. in both places then one does not have the cylinder originally mated to the firearm.

Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
181322 - 1	50 BMG	1	913	Prohibited PFR, Part 1, para. 96(z.028)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make or logo thereof may or may not be marked on the firearm; Iran is known to have produced "sterile" firearms for export.
Model	- the model may or may not be marked on the firearm; where marked, it may only be marked in Persian, and/or with the colloquial name of "Sayyad" ("Hunter"). This is a bolt-operated single-shot 50 BMG target/sniping/anti-materiel rifle, believed to be an unlicensed copy of the Steyr HS50. - features include: matte phosphated/anodized finish; large, flat multi-port muzzle brake; heavy free-floated barrel; folding bipod attached to a hanger forearm; synthetic furniture; vertical pistol-grip; and a frame support under the butt, for the off hand while firing.
Manufacturer	- the manufacturer or logo thereof may or may not be marked on the firearm; Iran is known to have produced "sterile" firearms for export.
Action	- bolt-operated single-shot.
Serial Number	- serial-numbered on the receiver/frame. - Serial Numbers are dot peened onto every major firearm component. Aside from the receiver/frame which will contain the complete serial number, other components are only marked with the last three digits of the serial number.
Calibre	- The calibre designation is marked on the right side of the firearm.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "DEFENDER" is marked on the firearm.
- "Defender" trade name was used on revolvers manufactured for J.P. Lovell Arms
- "Defender" trade name/trademark was used on revolvers manufactured by Johnson, Bye & Company from 1875 to 1883, Iver Johnson & Company in 1883, and Iver Johson Arms & Cycle Works from 1884 to 1895.
- "Defender 89" trademark was used on revolvers manufactured by Iver Johson Arms & Cycle Works from 1889 to 1895.
- "Defender" trade name was used on revolvers manufactured by the Whitney Arms Company.
- "Defender" trade mark was used on pistols manufactured by J. Eschaniz.

Model

- "DEFENDER" is marked on the top strap.
- "Defender" is a brand name used by Johnson, Bye & Company from 1871 to 1883; by Iver Johnson & Company from 1883 to 1891; and Iver Johnson Arms & Cycle Works from 1891 to 1895.
- single action, solid top receiver/frame, spur trigger.
- push-in blade-type cylinder axis pin release lever located at the front of the receiver/frame underneath the cylinder axis pin.
- bird's head grip configuration.
- round or octagonal barrel, plain or fluted cylinder with rectangular locking notches at the rear of the cylinder.
- receiver/frame size will vary depending on calibre.
- blued or nickel plated finish.
- grips may be hardwood or checkered black rubber.

Manufacturer

- the Iver Johnson name is not usually marked on this firearm.

Serial Number

- serial numbers are numeric only without prefix or suffix.
- serial number is usually marked on the left side of the grip frame underneath the grip plate.
- duplication of serial numbers may be possible for this model series.

Canadian Law Comments

- depending on calibre, certain versions of this handgun will qualify for antique status.

200190 - 2	68 PAINTBALL	6	115	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "DEFENSE INNOVATION" is marked on the left side of the firearm.
Model	- "PISTELLE X-68" is marked on the left side of the firearm. - Features include: manually actuated cylinder piercing cap; CO2 reservoir located in the pistol grip; accessory rail forward of the trigger guard; magazine release located at the rear of the trigger guard on the grip; trigger safety; threaded barrel.
Manufacturer	- "NX WERKS" is marked on the right side of the firearm.
Action	- CO2 powered.
Serial Number	- The serial number is marked on the right side of the firearm. - Referenced example consists of 9 digits.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- ".68 CAL" is marked on the left side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- Detachable box magazine housed in the grip.

Canadian Law Comments

- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of Prohibited Device in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a CC 2 "firearm"/CC 84(3) Exempted firearm. NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed."
- This model, "PISTELLE X-68", may be sold with projectiles containing incapacitating liquid, spray or powder such as tear gas, mace or pepper spray. When used in combination with these projectiles this firearm may meet the definition of "Prohibited Weapon" under Former Prohibited Weapons Order, No 1 (CC 84, PWR part 3(1)).

Notes

Make

- "DEFENSE TECHNOLOGY", CASPER, WY." and "MADE IN U.S.A." was observed marked on the barrel.

Model

- "37mm GAS GUN" was observed marked on the barrel.
- features include: round smooth bore aluminum barrel; attached fore grip; sling swivels; removable post front sight; weaver type scope rail mount; rear leaf sight; front hinged steel receiver/frame; exposed spur hammer; single/double action trigger mechanism; polymer thumbhole pistol grip buttstock; recoil pad; overall matt black finish. May be equipped with a barrel attached launcher cup.
- overall length with a 356mm (14") barrel is 711mm (28"), average weight 3.06kgs (6.75lbs).

Manufacturer

- Defense Technology is located in Casper, Wyoming, U.S.A.
- "DEFENSE TECHNOLOGY", CASPER, WY." and "MADE IN U.S.A." was observed marked on the barrel.

Action

- hinged barrel design.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- observed serial number consisted of a letter "D" prefix and five numbers.

Calibre

- "37mm GAS GUN" was observed marked on the side of the barrel.

Notes

Make

- "DEFENSE TECHNOLOGY" may be marked on the firearm.
- "DESENSE TECHNOLOGY" is a brand name used by Safariland Group.

Model

- "40mm Launcher" is marked on the left side of the firearm.
- "40mm Launcher" is also known as the "40LMTS" or "40mm Tactical Launcher".
- features include: rifled barrel; fully adjustable sights; accessory rail; top break action; single/ double action trigger; exposed hammer located at centre of standing breech; cross bolt safety; aluminum receiver/frame; ambidextrous breech release; "pump-action revolver", where pumping the forward grip revolves the cylinder, then squeezing the double-action trigger fires the chamber lined up with the barrel; matte black finish; front and rear pistol grips, fixed synthetic buttstock with recoil pad.

Manufacturer

- "LMT" inside an oval is marked on the side of the receiver/frame.
- "LMT" is the abbreviation for "Lewis Machine & Tool".
- "Lewis Machine & Tool Co." is usually marked on the side of the receiver/frame.
- "Lewis Machine & Tool (LMT)" was established in 1980.
- "Lewis Machine & Tool (LMT)" is located in Milan, Illinois U.S.A..

Action

- this firearm operates as a "pump-action revolver", where pumping the forward grip revolves the cylinder, then squeezing the double-action trigger fires cartridge in the chamber lined up with the barrel.

Serial Number

- serial number is marked on the left side of the receiver/frame.

127500 - 1	38MM RIMMED	6	229	Prohibited PFR, Part 1, para. 95(z.023)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Defense Technology Corporation of America" was observed marked on the front of the receiver/frame.
- Defense Technology is located in Casper, Wyoming, U.S.A.

Model

- "L8-37" was observed marked on the front of the receiver/frame.
- the "8" refers to the cylinder length (8") and the "37" refers to the calibre.
- this is an anti-riot, non-lethal weapon designed to shoot various gas and baton projectiles and utilizes a spring actuated, rotary magazine where each round is automatically indexed at top dead centre.
- this firearm is capable of firing all natures of 37MM or 38MM Rimmed ammunition.
- features include: smooth bore barrel; front iron sight; cross bolt safety; constructed of lightweight polymer and aluminum alloy materials; matte black finish; sling swivels; front and rear pistol grips and a fixed or folding buttstock with recoil pad.
- overall length is 850mm (33.5") with a fixed stock and 570mm (22.5") with the stock folded (folding stock version).
- also available in a shorter cylinder version as the "L6".

Manufacturer

- "PENN ARMS" was observed marked on the butt plate.
- Penn Arms Incorporated was founded in 1989.
- Penn Arms Incorporated is located in Punxsutawney, Pennsylvania, U.S.A.
- Penn Arms Incorporated was aquired by Combined Systems Incorporated (CSI) in 2008.
- Combined Systems Incorporated (CSI) was established in 1981.
- Combined Systems Incorporated (CSI) headquarters are located in Great Neck, New York, U.S.A.
- Combined Systems Incorporated (CSI) manufacturing facilities are located in Jamestown. Pennsylvania, U.S.A.

Serial Number

- serial number was observed marked on the receiver/frame below the trigger guard and was repeated on the front of the cylinder housing.
- observed serial number consisted of a two letter "DT" prefix and four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - this firearm is capable of firing all natures of 37MM or 38MM Rimmed ammunition.

Notes

Make

- "DEFIANCE" will be marked on the top or left side of the barrel.
- on some versions of this handgun, the barrel will also marked with, "PAT'D APR. 23 1878".
- "PAT'D APR. 23 1878" represents the date that patent number 202,627 was assigned to William H. Bliss of Norwich, Connecticut.

Model

- "DEFIANCE" will be marked on the top or left side of the barrel.
- on some versions of this handgun, the barrel will also marked with, "PAT'D APR. 23 1878".
- "PAT'D APR. 23 1878" represents the date that patent number 202,627 was assigned to William H. Bliss of Norwich, Connecticut.
- this firearm would have been manufactured circa 1875 to 1887.
- this type of handgun is commonly referred to as a "Suicide Special".
- features: solid receiver/frame; will have the W.H. Bliss patented circular side plate with a slot on the left side of the receiver/frame, however, some earlier versions of this model will have an irregularly shaped removable side plate without the slot on the left side of the receiver/frame; single action spur trigger; may have a fluted cylinder with locking notches at the front or a plain cylinder with locking notches to the rear; cylinder pin release is a button-type located on the left front of the receiver/frame; round barrel; brass half-disc blade front sight; bird-head grip frame; case hardened trigger and hammer; nickel plated finish; grips may be walnut or checkered black hard rubber; may have light engraving on the barrel and/or receiver/frame.

Manufacturer

- manufacturer's name is not marked on this firearm; firearm was made by Norwich Pistol Company/Norwich Falls Pistol Company of Norwich, Connecticut.
- some versions of this model will be marked "PAT'D APR. 23 1878" on the left side or top of the barrel.
- "PAT'D APR. 23 1878" represents the date that patent number 202,627 was assigned to William H. Bliss of Norwich, Connecticut.
- W.H. Bliss was the plant superintendent of the Norwich Pistol Co. (circa 1873 to 1881) and its successor the Norwich Falls Pistol Co.(circa 1882 to 1887). He was not affiliated in any way with the company of Bliss & Goodyear of New Haven, Connecticut.

Serial Number

- serial number is usually marked on the left side of the grip frame underneath the grip plate and may be repeated on the underside of the barrel.
- serial numbers are numeric only without prefix or suffix.

Make: Defourny, Antoine Joseph
Model: Semi-Automatic

Summary

Make:	Defourny, Antoine Joseph
Model:	Semi-Automatic
Manufacturer:	Defourny, Antoine Joseph
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129622 - 1	22 LONG	10	603	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AJD" over "Patent" in an oval was observed marked on the top of the receiver/frame.
- the "Defourny" name has been associated with many gunsmiths and weapons manufacturers in Belgium.
- Alphonse Defouny & Jules Monnard were in business from 1906 to 1927.
- Antoine Joseph Defourny was in business from 1894 to 1933.
- Georges Defourny was in business from 1930 to 1937.
- Guillaume Defourny-Sevrin was in business from 1896 to 1908.
- Jules Defourny was in business from 1930 to 1937.
- Maurice Defourny was in business circa 1928.
- N.J. Defourny was in business circa 1855.
- Noel Defourny was in business from 1902 to 1957.
- Societe Anonyme Antoine Joseph Defourny was in business from 1944 to 1967.

Model

- model designation is not marked on the firearm.
- "Automatic's Works" was observed marked on the top of the receiver/frame.
- "Herstal- Belgique" was observed marked on the top of the receiver/frame.
- features include: blued round barrel; engraved receiver/frame; adjustable rear sight and fixed front sight; detachable box magazine; safety located behind the trigger; one piece semi-pistol grip wood stock.

Manufacturer

- the manufacturer's name will usually appear on the firearm as "A.J.D. Patent" or "Jos. Defourny" or "A. Jos. Defourny" or "Patent A. Jos. Defourny S.A." and "Herstal Belgique" or a variation thereof.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- located on left side of the receiver/frame under the wood stock. - observed specimen consisted of four numbers without a letter prefix or suffix.
Shots	- detachable box magazine

FRT Report

Firearm Reference Number (FRN): 145301
Make: Degtyarev
Model: AGS-30

Summary

Make:	Degtyarev
Model:	AGS-30
Manufacturer:	Russian State Arsenal, Kovrov
Level:	Manufacturer Specifications and Commercial Customization
Type:	Grenade Launcher
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145301 - 1	30X29	N/A	290	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model is marked on the firearm, in Cyrillic; the Cyrillic representation of "AGS-30" resembles "ArC-30". "AGS-30" stands for "Avtomatichesky Granatomyot Stankovy-30", or "Automatic Grenade-launcher, Mounted, 30". This grenade-launcher was introduced in 2002, is known as the "Atlant" ("Atlas") or 6G25 in Russian service, and is a lightened, modified version of the AGS-17 "Plamya" ("Flame") grenade-launcher.
- features include: parkerized/phosphated finish; stubby barrel on a rectangular receiver; hinged top-cover/feed tray; right-side feed (usually from a 30-round box); a vertical cocking lever on the right side of the receiver; a prismatic illuminated (for night-firing) sight mounted on the left rear side of the receiver; and dual horizontal spade grips at the lower rear of the receiver. This grenade-launcher is normally seen on a folding tripod mount, and can be broken down into backpack-sized loads for easy transport.
- may also be seen on vehicle and helicopter mounts.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.
- the V.A. Degtyarev Factory (Russian: "Zavod imeni Degtyareva", or "ZiD") is the current incarnation of a manufacturer that was originally set up in Kovrov, Russia, by Danish investors to produce Madsen machine guns for the Russian armed forces during World War One. After the factory was nationalized during the Russian Revolution, it became known as "Factory 2", and then the "Kirkizh Factory" (after a Communist leader who had died in 1927). During the 1950s, the factory was part of a conglomerate in the closed city of Kovrov known as the "Kovrov Mechanichevsky Zavod"/"Kovrov Mechanical Factory", but in 1993, the small arms and cannon component of that factory was reorganized into its own stand-alone manufacturer again, as the "Factory in the name of V.A. Degtyarev".

Action

- blowback.

Serial Number

- numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- belt fed grenade launcher.
- the belt carriers that attach to this launcher normally hold 90 linked rounds.

FRT Report

Firearm Reference Number (FRN): 145299
Make: Degtyarev
Model: ASVK

Summary

Make:	Degtyarev
Model:	ASVK
Manufacturer:	Russian State Arsenal, Kovrov
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145299 - 1	12.7X107 RUSSIAN	5	1000	Prohibited PFR, Part 1, para. 96(z.029)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model may or may not be marked on the firearm; the Cyrillic representation of "ASVK" resembles "ACBK"; "ASVK" is an acronym for "Armejskaya Snajperskaya Vintovka Krupnokalibernaya", or "Army Sniper Rifle Large-calibre". This rifle was originally named the "KSVK" ("Kovrov Large-calibre Sniper Rifle") but was adopted by the Russian military as the ASVK (their index number 6S8).
- this is an unusual-appearing "bullpup"-style large-calibre sniper/target rifle, designed primarily for anti-personnel and anti-materiel use at ranges up to 1500 metres. This rifle is based on the SVN-98, designed by E.V. Žhuravlev, M. Yu. Kutchin, and V.I. Negrolenko at the Kovrov Mechanical Factory.
- features include: large multi-chamber muzzle brake; folding open sights (though the primary sights will be one of a variety of optical/electronic, or night sights); a heavy cylindrical free-floating barrel; a folding adjustable bipod on a short support rail extending out from the trigger-group; a bolt operating handle in front of the trigger-guard; a PKM-style folding carry handle at the centre of gravity above the trigger; a detachable box magazine; a wooden cheekpiece on top of the receiver; and a thickly-padded buttpad with a spot for the off-hand in between the magazine and the buttpad.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.
- the V.A. Degtyarev Factory (Russian: "Zavod imeni Degtyareva", or "ZiD") is the current incarnation of a manufacturer that was originally set up in Kovrov, Russia, by Danish investors to produce Madsen machine guns for the Russian armed forces during World War One. Manufacturer:	Russian State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Machine Gun
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
67466 - 2	7.62X54R RUSSIAN	5	605	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
67466 - 1	7.62X54R RUSSIAN	47	605	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Degtyarev" is not marked on the firearm.
- "Degtyarev" is named after the Russian designer "Vasiliy Alexeyevich Degtyarev".
- "Vasiliy Alexeyevich Degtyarev" was born in 1880 and died in 1949.

Model

- characteristics: flash hider, semi-shrouded barrel, bipod, return spring located below the barrel, drum magazine (top feed), automatic grip safety device located behind the trigger guard, adjustable front post sight and square-notch tangent leaf rear sight, and wood semi-pistol grip buttstock.
- year of manufacture is marked on the receiver/frame, just behind the rear sight.
- "Degtyarev" models in calibre 7.62 x 54R RUSSIAN:
DA = Degtyarev Aircraft (manufactured from 1928 to 1941)
DP = Degtyarev Infantry (manufactured from 1928 to 1941)
DPM = Degtyarev Infantry Modified/Modernized (manufactured from 1941 to 1950)
DS = Degtyarev Medium (introduced in 1939)
DT = Degtyarev Tank (manufactured from 1929 to 1942)
DTM = Degtyarev Tank Modified/Modernized (manufactured from 1942 to 1945)
RP46 = Degtyarev Company (manufactured 1946 to 1954)
- "DP" is an abbreviation of "Degtyareva Pechotny" or "Degtyarev Infantry".
- after reliability problems caused by the barrel heating the underbarrel operating spring made themselves apparent during the early Second World War, the "DP" was replaced by the "DPM" in 1941, which moved the operating spring to the top rear of the receiver, located in a tube over the buttstock.

Type

- air-cooled light machine gun.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is marked on the top rear of the receiver/frame.
Shots	- drum magazine.
Remarks	- DEGTYAREV Models: DA = characteristics: same as "DP", but with a pistol grip and aircraft sights and without a flash hider, barrel shroud, or buttstock. DP = characteristics: flash hider, semi-shrouded barrel, bipod, return spring located below the barrel, drum magazine (top feed), automatic grip safety device located behind the trigger guard, adjustable front post sight and square-notch tangent leaf rear sight, and wood semi-pistol grip buttstock; DPM = characteristics: flash hider, semi-shrouded barrel, bipod, return spring located in a tubular extension behind the receiver, drum magazine (top feed), adjustable front post sight and square-notch tangent leaf rear sight, manual safety catch on the right side of the receiver (above the trigger), pistol grip, and straight wood butt stock; DT = characteristics: heavy barrel without a flash hider or barrel shroud, return spring located below the barrel, drum magazine (top feed), pistol grip, and metal telescoping buttstock; DTM = characteristics: heavy barrel without a flash hider or barrel shroud, manual safety catch on the right side of the receiver (above the trigger), return spring located in a tubular extension behind the receiver, drum magazine (top feed), pistol grip, and metal telescoping buttstock. DS = characteristics: heavy barrel with cooling fins and flash hider, belt fed, tripod mounted, and spade grips. RP46 = characteristics: flash hider, semi-shrouded heavy barrel, bipod, return spring located in a tubular extension behind the receiver, detachable feed system which can use a cloth belt or drum magazine (top feed), adjustable front post sight and square-notch tangent leaf rear sight, manual safety catch on the right side of the receiver (above the trigger), pistol grip, and straight wood butt stock.

Notes

Make

- "Degtyarev" is not marked on the firearm.
- "Degtyarev" is named after the Russian designer "Vasiliy Alexeyevich Degtyarev".
- "Vasiliy Alexeyevich Degtyarev" was born in 1880 and died in 1949.

Model

- characteristics: heavy barrel without a flash hider or barrel shroud, manual safety catch on the right side of the receiver/frame (above the trigger), return spring located in a tubular extension behind the receiver/frame, drum magazine (top feed), pistol grip, and metal telescoping buttstock.
- year of manufacture is marked on the receiver/frame, just behind the rear sight.
- "Degtyarev" models in calibre: 7.62 x 54R RUSSIAN:

DA = Degtyarev Aircraft (manufactured from 1928 to 1941)
DP = Degtyarev Infantry (manufactured from 1928 to 1941)
DPM = Degtyarev Infantry Modified/Modernised (manufactured from 1941 to 1950)
DS = Degtyarev Medium (introduced in 1939)
DT = Degtyarev Tank (manufactured from 1929 to 1942)
DTM = Degtyarev Tank Modified/Modernised (manufactured from 1942 to 1945)
RP46 = Degtyarev Company (manufactured 1946 to 1954)

Manufacturer

- manufactures/factory identifier located on the top rear of the receiver/frame.

Type

- air-cooled light machine gun.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- no longer capable of full automatic fire.
Serial Number	- serial number is marked on the top rear of the receiver/frame.
Shots	- drum magazine.
Remarks	- DEGTYAREV Models: DA = characteristics: same as "DP", but with a pistol grip and aircraft sights and without a flash hider, barrel shroud, or buttstock. DP = characteristics: flash hider, semi-shrouded barrel, bipod, return spring located below the barrel, drum magazine (top feed), automatic grip safety device located behind the trigger guard, adjustable front post sight and square-notch tangent leaf rear sight, and wood semi-pistol grip buttstock; DPM = characteristics: flash hider, semi-shrouded barrel, bipod, return spring located in a tubular extension behind the receiver, drum magazine (top feed), adjustable front post sight and square-notch tangent leaf rear sight, manual safety catch on the right side of the receiver (above the trigger), pistol grip, and straight wood butt stock; DT = characterisics: heavy barrel without a flash hider or barrel shroud, return spring located below the barrel, drum magazine (top feed), pistol grip, and metal telescoping buttstock; DTM = characteristics: heavy barrel without a flash hider or barrel shroud, manual safety catch on the right side of the receiver (above the trigger), return spring located in a tubular extension behind the receiver, drum magazine (top feed), pistol grip, and metal telescoping buttstock. DS = characteristics: heavy barrel with cooling fins and flash hider, belt fed, tripod mounted, and spade grips. RP46 = characteristics: flash hider, semi-shrouded heavy barrel, bipod, return spring located in a tubular extension behind the receiver, detachable feed system which can use a cloth belt or drum magazine (top feed), adjustable front post sight and square-notch tangent leaf rear sight, manual safety catch on the right side of the receiver (above the trigger), pistol grip, and straight wood butt stock.

Notes

Make

- "Degtyarev" is not marked on the firearm.
- "Degtyarev" is named after the Russian designer "Vasiliy Alexeyevich Degtyarev".
- "Vasiliy Alexeyevich Degtyarev" was born in 1880 and died in 1949.

Model

- year of manufacture is marked on the receiver/frame, just behind the rear sight.
- "Degtyarev" models in calibre: 7.62 x 54R RUSSIAN (see Other Notes/Remarks):
DA = Degtyarev Aircraft (manufactured from 1928 to 1941)
DP = Degtyarev Infantry (manufactured from 1928 to 1941)
DPM = Degtyarev Infantry Modified/Modernised (manufactured from 1941 to 1950)
DS = Degtyarev Medium (introduced in 1939)
DT = Degtyarev Tank (manufactured from 1929 to 1942)
DTM = Degtyarev Tank Modified/Modernised (manufactured from 1942 to 1945)
RP46 = Degtyarev Company (manufactured 1946 to 1954)
- "RP-46" stands for "Rotny Pulyemot-46", or "Company Machine Gun-46"; this is an adaptation of the DPM machine gun to belt-feed, for use as a medium machine gun , adopted in 1946. This machine gun was copied in China as the Type 58 Degtyarev RP46, and in North Korea as the Type 64 Degtyarev RP46.

Manufacturer

- manufactures/factory identifier located on the top rear of the receiver/frame.

Type

- air-cooled light machine gun.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is marked on the top rear of the receiver/frame.
Shots	- feed system: belt or drum magazine.
Remarks	- DEGTYAREV Models: DA = characteristics: same as "DP", but with a pistol grip and aircraft sights and without a flash hider, barrel shroud, or buttstock. DP = characteristics: flash hider, semi-shrouded barrel, bipod, return spring located below the barrel, drum magazine (top feed), automatic grip safety device located behind the trigger guard, adjustable front post sight and square-notch tangent leaf rear sight, and wood semi-pistol grip buttstock; DPM = characteristics: flash hider, semi-shrouded barrel, bipod, return spring located in a tubular extension behind the receiver, drum magazine (top feed), adjustable front post sight and square-notch tangent leaf rear sight, manual safety catch on the right side of the receiver (above the trigger), pistol grip, and straight wood butt stock; DT = characterisics: heavy barrel without a flash hider or barrel shroud, return spring located below the barrel, drum magazine (top feed), pistol grip, and metal telescoping buttstock; DTM = characteristics: heavy barrel without a flash hider or barrel shroud, manual safety catch on the right side of the receiver (above the trigger), return spring located in a tubular extension behind the receiver, drum magazine (top feed), pistol grip, and metal telescoping buttstock. DS = characteristics: heavy barrel with cooling fins and flash hider, belt fed, tripod mounted, and spade grips. RP46 = characteristics: flash hider, semi-shrouded heavy barrel, bipod, return spring located in a tubular extension behind the receiver, detachable feed system which can use a cloth belt or drum magazine (top feed), adjustable front post sight and square-notch tangent leaf rear sight, manual safety catch on the right side of the receiver (above the trigger), pistol grip, and straight wood butt stock.

DA = Degtyarev Aircraft (manufactured from 1928 to 1941)
DP = Degtyarev Infantry (manufactured from 1928 to 1941)
DPM = Degtyarev Infantry Modified/Modernised (manufactured from 1941 to 1950)
DS = Degtyarev Medium (introduced in 1939)
DT = Degtyarev Tank (manufactured from 1929 to 1942)
DTM = Degtyarev Tank Modified/Modernised (manufactured from 1942 to 1945)
RP46 = Degtyarev Company (manufactured 1946 to 1954)

Manufacturer

- manufactures/factory identifier located on the top rear of the receiver/frame.

Type

- air-cooled light machine gun.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the top rear of the receiver/frame.
Shots	- feed system: belt or drum magazine.
Remarks	- DEGTYAREV Models: DA = characteristics: same as "DP", but with a pistol grip and aircraft sights and without a flash hider, barrel shroud, or buttstock. DP = characteristics: flash hider, semi-shrouded barrel, bipod, return spring located below the barrel, drum magazine (top feed), automatic grip safety device located behind the trigger guard, adjustable front post sight and square-notch tangent leaf rear sight, and wood semi-pistol grip buttstock; DPM = characteristics: flash hider, semi-shrouded barrel, bipod, return spring located in a tubular extension behind the receiver, drum magazine (top feed), adjustable front post sight and square-notch tangent leaf rear sight, manual safety catch on the right side of the receiver (above the trigger), pistol grip, and straight wood butt stock; DT = characterisics: heavy barrel without a flash hider or barrel shroud, return spring located below the barrel, drum magazine (top feed), pistol grip, and metal telescoping buttstock; DTM = characteristics: heavy barrel without a flash hider or barrel shroud, manual safety catch on the right side of the receiver (above the trigger), return spring located in a tubular extension behind the receiver, drum magazine (top feed), pistol grip, and metal telescoping buttstock. DS = characteristics: heavy barrel with cooling fins and flash hider, belt fed, tripod mounted, and spade grips. RP46 = characteristics: flash hider, semi-shrouded heavy barrel, bipod, return spring located in a tubular extension behind the receiver, detachable feed system which can use a cloth belt or drum magazine (top feed), adjustable front post sight and square-notch tangent leaf rear sight, manual safety catch on the right side of the receiver (above the trigger), pistol grip, and straight wood butt stock.

FRT Report

Firearm Reference Number (FRN): 70929
Make: Degtyarev
Model: RPD

Summary

Make:	Degtyarev
Model:	RPD
Manufacturer:	Hungarian State Arsenal, Factory 02
Level:	Converted Automatics
Type:	Machine Gun
Action:	Converted Automatic
Country of Manufacturer:	HUNGARY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
70929 - 1	7.62X39 RUSSIAN	N/A	521	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
70929 - 2	7.62X39 RUSSIAN	5	521	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- "Degtyarev" is not marked on the firearm.
- "Degtyarev" is named after the Russian designer "Vasiliy Alexeyevich Degtyarev".
- "Vasiliy Alexeyevich Degtyarev" was born in 1880 and died in 1949.

Model

- "RPD" design was started in 1943.
- "RPD" was introduced into serice in Russia circa 1953.
- "RPD" denotes "Ruchnouy Pulemet sistemi Degtyarev" (Degtyarev light machine gun).
- "RPD" is a belt-fed light machinegun intended to fill the role of a "SAW" - "squad automatic weapon", built and used by the Soviet Union, China, and their allies up until it was replaced in service by the magazine-fed RPK
- "RPD" uses Degtyarev's locking system of twin opposed locking lugs that are forced outward into shoulders in the sideplates; the RPK, on the other hand, uses a rotating bolt-head twisted into position by a camming surface on the gas piston/ bolt-carrier
- "RPD" can be recognized by several features; an under-barrel gas piston with gas regulator, a fixed barrel without quick-change capability, a folding bipod fixed to the barrel just rearward of the front sight, a hinged top-cover that rotates up towards the muzzle to allow a loaded belt to be placed in position, and a drum-type belt carrier that attaches to the bottom of the receiver in the standard location.
- there have been at least five distinct variations of the RPD, signified by changes in the gas piston, sights, bolt, feed mechanism, and reciprocating/non-reciprocating bolt handle.
- full-automatic-only mechanism, with a selector over the right side of the pistol-grip; Hungarian-made RPKs are marked "TUZ" ("Automatic"), visible when the safety is in the fire position.

Manufacturer

- may be seen marked with "02".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- no longer capable of full automatic fire.
Serial Number	- serial numbered on the top cover. - serial number rationalization unknown. - observed specimen serial number consisted of a two letter prefix ("BM") followed by sequential numbers.
Shots	- the RPD is a belt-fed firearm. - RPD uses a 100-round (two fifty round sections) metallic linked belt fitted into a stamped metal drum mounted on a dovetail on the underside of the reciver/frame. - the drum for the RPD is not indeed a cartridge magazine - it is a belt carrier. - the non disintegrating link belt for the RPD firearm is a belt that was designed to feed cartridges into the firing chamber of an automatic firearm which was in existance before 1945.

Notes

Make

- "Degtyarev" is not marked on the firearm.
- "Degtyarev" is named after the Russian designer "Vasiliy Alexeyevich Degtyarev".
- "Vasiliy Alexeyevich Degtyarev" was born in 1880 and died in 1949.

Model

- "SUEZ" may not be marked on the firearm.
- "SUEZ" is a domestically-produced Egyptian copy of the Russian RPD squad automatic weapon/SAW.
- "RPD" is the abbreviation for "Ruchnoy Pulemet sistemi Degtyarev" or "Degtyarev light machine gun".
- features include: stamped, folded, and welded steel construction; wooden butt, forearm, and pistol-grip; open adjustable sights; hinged top-cover to allow a gunner to lay a belt of linked ammunition in the feedway; blued finish; folding bipod clamped at muzzle; under-barrel gas piston; 100-round drum-style belt carrier normally attached below the feed-port, and typical RPD/Degytarev layout, with side-swinging bolt arms that lock into the sides of the receiver/frame.
- overall length is 1040mm (41"), average weight (empty) is 6.8kg (14.96 lbs) with a 100 round belt in its carrier adding an additional 2.2kg (4.84 lbs).

Manufacturer

- the manufacturer may not be marked on the firearm, or may only be marked as Factory "54", the military adjunct to the commercial Maadi firm.

Action

- gas-operated.

Serial Number

- numbered on the receiver/frame; may only be marked in Arabic script.

Calibre

- the calibre designation may not be marked on the firearm.
- rifling characteristics: 4 grooves.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- the RPD is a belt-fed firearm.
- RPD uses a 100-round (two fifty round sections) metallic linked belt fitted into a stamped metal drum mounted on a dovetail on the underside of the receiver/frame.
- the drum for the RPD is not indeed a cartridge magazine - it is a belt carrier.
- the non disintegrating link belt for the RPD firearm is a belt that was designed to feed cartridges into the firing chamber of an automatic firearm which was in existence before 1945.

Notes

Make

- "Degtyarev" is not marked on the firearm.
- "Degtyarev" is named after the Russian designer "Vasiliy Alexeyevich Degtyarev".
- "Vasiliy Alexeyevich Degtyarev" was born in 1880 and died in 1949.

Model

- model designation is not marked on the firearm.
- this is a Chinese manufactured copy of the Russian DPM series of pan fed light machine guns; do not confuse these firearms with the very similar series of Type 56 belt fed light machine guns.
- this firearm can be recognized by the presence of a sliding feed port cover on top of the receiver/frame, where the 47 round pan normally sits; the Type 56 belt fed machine gun has a separate housing in this area, with slots in the sides to allow the passage of a linked belt of ammunition.
- features include: wooden pistol grip and buttstock, tubular main spring housing at the rear of the receiver/frame projecting towards the firer's face, cocking handle on the right side of the operating slide at the bottom of the receiver/frame, bottom ejection, open adjustable high mounted sights, folding bi-pod legs that swing up to lay alongside the receiver/frame, a ventilated barrel jacket/shroud at the front of the receiver/frame and a cone type flash-hider.
- this firearm fires from an open bolt, like the Bren, and uses the distinctive Degtyarev locking system, with two side swinging legs on the bolt.

Manufacturer

- manufacturer marked on firearm as "22" within an equilateral triangle on the top of the receiver/frame.

Action

- gas operated full automatic.

Serial Number

- serial number is marked on the top of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - pan magazine.

- this firearm can be recognized by the presence of a sliding feed port cover on top of the receiver/frame, where the 47 round pan normally sits; the Type 56 belt fed machine gun has a separate housing in this area, with slots in the sides to allow the passage of a linked belt of ammunition.
- features include: wooden pistol grip and buttstock, tubular main spring housing at the rear of the receiver/frame projecting towards the firer's face, cocking handle on the right side of the operating slide at the bottom of the receiver/frame, bottom ejection, open adjustable high mounted sights, folding bi-pod legs that swing up to lay alongside the receiver/frame, a ventilated barrel jacket/shroud at the front of the receiver/frame and a cone type flash-hider.
- this firearm fires from an open bolt, like the Bren, and uses the distinctive Degtyarev locking system, with two side swinging legs on the bolt.

Manufacturer

- manufacturer marked on firearm as "22" within an equilateral triangle on the top of the receiver/frame.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number is marked on the top of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - pan magazine.

FRT Report

Firearm Reference Number (FRN): 35495
Make: Degtyarev
Model: Type 56 RPD

Summary

Make:	Degtyarev
Model:	Type 56 RPD
Manufacturer:	Chinese State Arsenal, Factory 36
Level:	Manufacturer Specifications and Commercial Customization
Type:	Machine Gun
Action:	Full Automatic
Country of Manufacturer:	CHINA
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
35495 - 1	7.62X39 RUSSIAN	N/A	520	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Degtyarev" is not marked on the firearm.
- "Degtyarev" is named after the Russian designer "Vasiliy Alexeyevich Degtyarev".
- "Vasiliy Alexeyevich Degtyarev" was born in 1880 and died in 1949.

Model

- "Type 56" is a copy of the Russian 7.62mm RPD light machine gun.
- "RPD" design was started in 1943.
- "RPD" was introduced into serice in Russia circa 1953.
- "RPD" denotes "Ruchnoy Pulemet sistemi Degtyarev" (Degtyarev light machine gun).
- "RPD" is a belt-fed light machinegun intended to fill the role of a "SAW" - "squad automatic weapon", built and used by the Soviet Union, China, and their allies up until it was replaced in service by the magazine-fed RPK
- "RPD" uses Degtyarev's locking system of twin opposed locking lugs that are forced outward into shoulders in the sideplates; the RPK, on the other hand, uses a rotating bolt-head twisted into position by a camming surface on the gas piston/ bolt-carrier
- "RPD" can be recognized by several features; an under-barrel gas piston with gas regulator, a fixed barrel without quick-change capability, a folding bipod fixed to the barrel just rearward of the front sight, a hinged top-cover that rotates up towards the muzzle to allow a loaded belt to be placed in position, and a drum-type belt carrier that attaches to the bottom of the receiver in the standard location.
- there have been at least five distinct variations of the RPD, signified by changes in the gas piston, sights, bolt, feed mechanism, and reciprocating/non-reciprocating bolt handle.

Type

- light air-cooled machine gun.

Action

- gas-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- the RPD is a belt-fed firearm.
- RPD uses a 100-round (two fifty round sections) metallic linked belt fitted into a stamped metal drum mounted on a dovetail on the underside of the reciver/frame.
- the drum for the RPD is not indeed a cartridge magazine - it is a belt carrier.
- the non disintegrating link belt for the RPD firearm is a belt that was designed to feed cartridges into the firing chamber of an automatic firearm which was in existance before 1945.

124707 - 1	7.62X54R RUSSIAN	N/A	607	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- "Type 58" was marked in Chinese characters on the top cover of the sample examined.
- "Type 58" machine gun is a Chinese built version of the Russian, Degtyarev model RP46 (official designation; Rotniy Pulemat Obrazets 1946g) medium machine gun.
- RP46 was itself a modification of the Degtyarev model DPM machine gun.
- "Type 58 RP46" was adopted into Chinese service as a company machine gun.
- features include: blued finish; wood butt and pistol grip; ventilated, half-length barrel jacket with an attached folding bipod; carry handle; adjustable gas system; cylindrical post front sight with a tangent leaf rear sight with a "V" notch; cone shaped flash hider; return spring located in a tubular extension behind the receiver/frame, detachable feed system which can use a cloth belt or drum magazine (top feed); manual safety catch on the right side of the receiver/frame (above the trigger).

Manufacturer

- reportedly produced at a variety of state owned arsenals, a manufacturer's identifier may or may not be marked on the firearm.

Action

- gas operated with a cyclic rate of 600 rds/min.

Shots

- this is usually a belt fed firearm.
- this model is also capable of using the 47 shot, drum/pan magazine from the Russian Degtyarev models DP or DPM light machine gun.

Notes

Make

- "Degtayarev Shpagin" is not marked on the firearm.
- "Degtayarev Shpagin", the make is derived from the last name of the two Russian designers Vasiliy Degtayarev and Georgiy Shpagin.

Model

- model designation is not marked on the firearm.
- "DShK" is the abbreviation for "Degtyarev-Shpagin krupnokaliberniy" or "Degtyarev-Shpagin, large calibre".
- "DShK" was designed by V.A. Degtyarev and G.E. Shpagin in 1938.
- manufactured from 1940 to 1946.
- air cooled heavy machine gun.
- the DShK 1938 differs from the DShK 38/46 in having a large rounded top-cover that houses a rotating "sprocket" feed mechanism; the simplified DShK 38/46 has a flattened rectangular top-cover that uses feed pawls and a feed arm that shuttles side-to-side to pull a belt into the receiver/frame.

Manufacturer

- factory mark and year of manufacturer are located on the top rear of the receiver/frame, above the grips.

Action

- no longer capable of full automatic fire.

Serial Number

- factory mark, year of manufacturer and serial number are located on the top rear of the receiver/frame, above the grips.

Shots

- belt feed mechanism.

Model: DShKM 1938/46

Summary

Make:	Degtyarev Shpagin
Model:	DShKM 1938/46
Manufacturer:	Russian State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Machine Gun
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
36799 - 1	12.7X107 RUSSIAN	N/A	1066	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Degtayarev Shpagin" is not marked on the firearm.
- "Degtayarev Shpagin", the make is derived from the last name of the two Russian designers Vasiliy Degtayarev and Georgiy Shpagin.

Model

- model designation is not marked on the firearm.
- "DShKM" is the abbreviation for "Degtyarev-Shpagin krupnokaliberniy modernizirovanniy" or "Degtyarev-Shpagin, large calibre modernised".
- "DShK" was designed by V.A. Degtyarev and G.E. Shpagin in 1938.
- this a modernized version of the "DShK 1938".
- manufactured/upgrade from 1946 to 1980.
- air cooled heavy machine gun.
- the DShK 1938 differs from the DShK 38/46 in having a large rounded top-cover that houses a rotating "sprocket" feed mechanism; the simplified DShK 38/46 has a flattened rectangular top-cover that uses feed pawls and a feed arm that shuttles side-to-side to pull a belt into the receiver/frame.

Manufacturer

- factory mark and year of manufacturer are located on the top rear of the receiver/frame, above the grips.

Action

- gas operated.

Serial Number

- factory mark, year of manufacturer and serial number are located on the top rear of the receiver/frame, above the grips.

Shots

- belt feed mechanism.

Notes

Make

- "Degtayarev Shpagin" is not marked on the firearm.
- "Degtayarev Shpagin", the make is derived from the last name of the two Russian designers Vasiliy Degtayarev and Georgiy Shpagin.

Model

- the model designation may not be marked on the firearm; where present, may only be marked in non-Western characters.
- this is a Chinese-made copy of the Russian DShKM 1938/46 heavy machine gun.
- features include: finned barrel; large-diameter muzzle brake; adjustable ladder-type sights (may also be seen with anti-aircraft sights); and usually seen on a wheeled "Sokolov"-type mount for easy transport behind motorized vehicles.
- an updated/modernized version of this machinegun is also available as the "Type 77".

Manufacturer

- the manufacturer (or factory code thereof) is marked on the firearm.

Action

- gas-operated.

Serial Number

- numbered on receiver/frame; may contain Oriental ideographs and/or non-Western characters.

Shots

- belt-fed firearm.

Manufacturer:	Degueldre, Constant Joseph
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148928 - 1	11MM PIN-FIRE	6	158	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "DEGUELDRE BREVETE" was observed marked on the firearm.
- "BREVETE" stands for "Patent".

Model

- manufactured prior to 1885.
- "Pin-Fire" stands for the ammunition type use in the revolver.
- "DEGUELDRE" revolver has the outline of a Lefaucheux type revolver.
- "DEGUELDRE" revolver main features are a sliding barrel and cylinder actuated by an articulated lever located under and right side of the barrel with and extractor. The extractor is a ring that goes around the back of the cylinder, in front of the cartridges pins, that is attached to the frame.
- features include: front sight post; round or octagonal barrel; barrel block with the operating lever attach with a link bar to the receiver/frame; receiver/frame with no top strap; may have a trigger guard or a folding trigger; spur hammer; single and double action firing mechanism; rear receiver/frame hump behind the hammer; square or rounded bottom of the grip that may have a lanyard ring; wood grip panels.

Manufacturer

- "Constant Joseph Degueldre" was born in 1825 and died in 1899.
- "Constant Joseph Degueldre" was a manufacturer located in Saint-Remy (province of Liege, Belgium) from 1864 to 1884.
- "Constant Joseph Degueldre" had three personal patents and six others with Francois Joseph Ledent.

Serial Number

- some specimen were numbered.

Firearm Reference Number (FRN): 146747
Make: DeHuff, Henry
Model: 1797 Pennsylvania Contract Musket

Summary

Make:	DeHuff, Henry
Model:	1797 Pennsylvania Contract Musket
Manufacturer:	DeHuff, Henry
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
146747 - 1	69 FLINTLOCK	1	1111	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	
146747 - 2	69 PERCUSSION	1	1111	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Dehuff" is marked in script on top of the breech.

Model

- the model is not marked on the firearm
- this is an example of the 1797 Pennsylvania Contract Flintlock Musket (a copy of the French Charleville 1763 Flintlock Musket), adopted by the State of Pennsylvania in 1797 and supplied by Henry DeHuff of Lancaster, Pennsylvania, under a contract issued by the state government to arm the state militia.
- known DeHuff 1797 muskets are unmarked on the lock plate, but are marked "DeHuff" in script on the top of the breech; DeHuff was later contracted to produce 1807 Muskets for the US government, and care must be taken to not confuse these two models. Where the 1797 has a straight-grip stock without a handgrip extension off the trigger-guard, the 1807 has a one-piece trigger-guard/handgrip on a straight-grip stock and a patch box in the butt.
- features include: browned finish; fixed open sights; iron mountings and three barrel bands; an under barrel ram-rod; flintlock mechanism with cock and frizzen on the right-side lock plate; sling swivels at second barrel band and front of trigger-guard; and straight-grip stock with an iron butt plate.
- these firearms may also be seen converted to percussion ignition.

Manufacturer

- "Dehuff" is marked in script on top of the breech.
- Henry DeHuff was a Lancaster, Pennsylvania-based gunsmith during the late 1700s and early 1800s, who produced flintlock muskets under contract to the State of Pennsylvania and the US government.

Action

- muzzle loaded flintlock single-shot.

Barrel

- barrel lengths may vary slightly.

FRT Report

Firearm Reference Number (FRN): 146492
Make: Demeritt, John
Model: Underhammer Pistol

Summary

Make:	Demeritt, John
Model:	Underhammer Pistol
Manufacturer:	Demeritt, John
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
146492 - 1	27 PERCUSSION	1	254	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "J. DEMERITT" over "MONTPELIER" over "VERMONT" is marked on the firearm.

Model

- manufactured prior to 1890.
- model designation is not marked on the firearm.
- this is an underhammer percussion "saw-handle"-style pistol, made using Demeritt's design for an underhammer lock that used the trigger-guard as a combination hammer/trigger.
- features include: blued/browned finish; octagonal barrel cast integral to the frame; fixed open sights; underhammer percussion lock; varying styles of triggers; and a rounded"saw-handle"-profile of the grip.. These pistols show a wide degree of variation.

Manufacturer

- "J. DEMERITT" over "MONTPELIER" over "VERMONT" is marked on the firearm.
- John Demeritt was located in Dover, New Hampshire, U.S.A. from 1860 to 1863.
- John Demeritt was located in Montpelier, Vermont, U.S.A. from 1866 to 1889.
- John Demeritt produced underhammer pistols.

Action

- muzzle-loading.

Notes

Make

- make may be marked on the firearm.

Model

- "NTW" (New Technology Weapon) was designed circa 1997 by Tony Neophytou under the auspices of Aerotek, CSIR, of Pretoria, South Africa.
- this anti materiel rifle was designed to neutralise targets of high military value at extended ranges and also for Explosive Ordnance Disposal (EOD).
- features include: double baffle muzzle break; tapered, fluted barrel; box magazine protrudes horizontally from the left side; loop type carry handle/optical sight protector; six lug bolt face; adjustable and detachable trigger assembly; combined hydralic/pneumatic dampening and buffer system; bipod; recoiling parts slide within a chassis that includes the butt assembly.
- readily modified between two calibres by switching the barrel, bolt, sighting equipment and magazine.

Manufacturer

- manufacturer may be marked on the firearm.
- Denel is located in Pretoria, South Africa.

Action

- turn-bolt design.

Shots

- detachable box magazine.

144144 - 1	20X110 HISPANO-SUIZA	1	1000	Prohibited PFR, Part 1, para. 95(z.029)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make or logo thereof is marked on the firearm.
Model	- the model may or may not be marked on the firearm. - this is an adaptation of the earlier NTW (chambered for the 20x82mm Mauser cartridge) to the significantly longer, and more common, 20x110mm Hispano-Suiza cartridge; however, the general design and operation of the rifle remains as before. - features include: matte parkerized/phosphated finish; large multi-chamber muzzle brake; fluted heavy barrel; a hydraulic-dampened recoiling barrel and receiver that rides inside a chassis to reduce recoil; adjustable bipod a square frame-style carrying handle that also acts to protect the optical sights; a bolt operating handle on the right side of the rifle; and an adjustable monopod at the rear of the butt for fine-tuning elevation. - these rifles are also seen on pintle vehicle mounts.
Manufacturer	- the manufacturer or logo thereof is marked on the firearm.
Action	- turn bolt design.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

190084 - 3	20X42	7	355	Prohibited PFR, Part 1, para. 95(z.03)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- "PAW" is marked on the firearm; "PAW-20" is an acronym for "Personal Area Weapon - 20mm".
- in South African service, this grenade-launcher is known as the "Inkunzi", Xhosa for "Bull'.
- this is an unusual-appearing shoulder-fired 20mm grenade launcher developed by Denel to fill a specific requirement for an anti-armour, anti-vehicle, and anti-personnel weapons system that can engage targets up to 1000 metres range in direct fire; this increases the range available to infantry, but reduces the available ammunition types that are available in similar 30mm and 40mm grenade-launcher applications. This launcher is in limited production and use by the South African Defense Forces.
- features include: matte black anodized and synthetic finish; synthetic and stamped and folded furniture; an MP-5-style operating handle to the top left of the forearm; a "collapsed" layout that places the pistol-grip to the right side of the firearm (but still behind the magazine well); a detachable box or rotary magazine (early examples used a 7-round box magazine, but feeding difficulties resulted in a redesigned 6-round rotary magazine); left-side ejection port (in front of a right-handed firer's face); an integrated laser and holographic sight that automatically calibrates for elevation using a laser range-finder; a stretched hexagonal-form butt that is hydraulically buffered against recoil; and a rubber buttpad.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- Recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the bottom of the receiver/frame.
Shots	- detachable box (7-round) or drum (6-round) magazine.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197882 - 1	TASER AIR CARTRIDGE	1	51	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The make is usually marked on the left side of the firearm.
- "DEPM" established circa 2010 (based on available copyright web data).

Model

- The model designation is not marked on the firearm.
- "Stun Gun" is a descriptor model name based on the weapon's use/purpose.
- This is a conductive energy weapon, which fires needle like probes attached to cables.
- Features include: one-piece synthetic receiver casing with forward facing hollow square cartridge housing (muzzle) to accommodate cartridge; four mode toggle to operate device, 1) turn off, 2) Illumination (flashlight), 3) Siren (SOS), 4) Electricity; top button electricity activator/trigger; rechargeable battery pack housed within grip, comes with charging cable.

Type

- Non conventional firearm that resembles a handheld flashlight that discharges wired darts which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Action

- Compressed nitrogen from the cartridge fires two darts towards the target. Once the darts are attached to the subject (target), electrical power is delivered to the target for as long as the trigger is held down.

Serial Number

- The serial number is not marked on the firearm.
- The serial number rationalization is unknown.

Calibre

- The calibre designation is not marked on the firearm.
- each cartridge contains two small dart conductors attached to two insulated high voltage wires and are compressed nitrogen gas actuated. The cartridges are not re-usable.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - Detachable cartridge containing probes and wires, which is installed/loaded from the front.

Notes

Make

- "H. DERINGER" is marked on the firearm.

Model

- manufactured prior to 1868.
- model designation is not marked on the firearm.
- "H. DERINGER" over "PHIL" (some examples seen marked only "H.DERINGER") is marked on the lockplate.
- this is a muzzle-loading flintlock single-shot pistol produced by Henry Deringer in the early 1800s, apparently under a contract from the State of Maryland. These pistols can be distinguished by their barrel length of 254mm (10"), and their stock style (a full-length stock without a barrel band).
- features include: browned barrel; bird's-head stock with iron buttcap and tang; under-barrel ramrod; cock, frizzen, and flash-pan mounted on right side; brass fittings.
- examples of this firearm may also be seen converted to percussion ignition.

Manufacturer

- "H. DERINGER" is marked on the firearm.
- Henry Deringer (Senior) was located in Richmond, Virginia, U.S.A. prior to 1769, Philadephia, Pennsylvania from 1769 to 1814 and also in Easton, Pennsylvania from 1786 to 1798.
- Henry Deringer (Junior) was the son and the successor to Henry Deringer (SEnior) was born in 1786 and died in 1868.
- Henry Deringer (Junior) was located in Richmond, Virginia from 1807 to 1808, and Philadelphia, Pennsylvania from 1808 to 1868.
- Henry Deringer (Junior) developed a short rifled barrel percussion pistol in a heavy caliber which became later known as the "Derringer" in 1831.
- in some instances the Deringer factory marked the name and address of the store or the agent for whom the firearm was manufactured along the top of the barrel.

Action

- muzzle-loading.

Notes

Make - "DERINGER PHILADEL'A" is usually marked on the lock plate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is not marked on the firearm. - about 15,000 manufactured between c.1831-1868. - this is a single barrel pistol with a back action lock, wide bore, rifled barrel which became later known as the "Derringer" or "Deringer-Derringer" with barrels lengths ranging from 38mm to 152mm for the "Derringer" type, and from 165mm to 254mm for the duelling pistol. - all pistols had a two piece iron barrel with the tang and breech plug screwed into the barrel. - casehardened lock with scroll engraving, round barrel with flat top, crowned muzzle, and simulated damascus finish was standard. - varnished walnut stock with checkered grips.
Manufacturer	- Henry Deringer (Senior) was located in Richmond, Virginia, U.S.A. prior to 1769, Philadephia, Pennsylvania from 1769 to 1814 and also in Easton, Pennsylvania from 1786 to 1798. - Henry Deringer (Junior) was the son and the successor to Henry Deringer (SEnior) was born in 1786 and died in 1868. - Henry Deringer (Junior) was located in Richmond, Virginia from 1807 to 1808, and Philadelphia, Pennsylvania from 1808 to 1868. - Henry Deringer (Junior) developed a short rifled barrel percussion pistol in a heavy caliber which became later known as the "Derringer" in 1831. - in some instances the Deringer factory marked the name and address of the store or the agent for whom the firearm was manufactured along the top of the barrel.
Action	- muzzle loader.
Serial Number	- usually not serial numbered, but the various parts were stamped with matching assembly numbers or letters.
Barrel	- barrels length may vary considerably, sometimes with but 3mm intervals between sizes.
Calibre	- 41 PERCUSSION was the most popular calibre.

Notes

Make

- "DERYA" is marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "ANAKON" was observed marked on the right side of the receiver/frame. - this is a series of "tactically"-styled semi-automatic shotguns (not to be confused with any of Derya's "Anakon" pump-action shotguns), manufactured in a variety of barrel lengths, stock, and sight configurations. - features include: blue/black anodized or dipped carbon fibre, camouflaged or snake-skin finish; muzzle with interchangeable screw-in muzzle brake/flash hider or choke tubes; shrouded barrel with a full length top accessory rail; high, adjustable and removable front and rear sight or ghost ring sights (some with AR-15 type carrying handle); synthetic forend assembly with a short accessory rail; may include a dummy forward grip that resembles a detachable box magazine; right side ejection port; synthetic fixed or collapsible stock and pistol grip or pistol-grip-only; triangular, button cross-bolt button safety at the rear of the trigger guard.
Manufacturer	- "DERYA" is marked on the firearm. - "Derya Arms" was founded in 2000. - "Derya Arms" is located in Konya, Turkey.
Action	- gas-operated.
Serial Number	- serial-numbered on the receiver/frame.
Shots	- underbarrel tubular magazine. - factory +2 and +3 extensions available.
Canadian Law Comments	- this firearm is normally Non-Restricted unless affected by the following conditions: 1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada. - "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands. 2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada. 3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada. - "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted, (i) is less than 660 mm in length, or (ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make	- "DERYA" is marked on the right side of the receiver/frame.
Model	- "CARINA" above an eagle with spread wings may be marked on the right side of the receiver/frame. - this is a series of "tactically"-styled short-barrelled pump-action shotguns, manufactured in a variety of barrel lengths, stock, and sight configurations. - features include: round barrel with no sight, bead front sight with ventilated rib, fiber optic front sight with screw-in muzzle break/flash hider or choke tubes or ramped front sight with adjustable rear sight on accessory rail; right side ejection port; triangular, button cross-bolt button safety at the rear of the trigger guard; synthetic or wood stock and pistol grip or pistol-grip-only; blue/black, nickel or red anodized finish. - overall length with the 356mm (14") barrel and the pistol grip is 610mm (24").
Manufacturer	- "DERYA ARMS LTD" is marked on the left side of the barrel. - "Derya Arms" was founded in 2000. - "Derya Arms" is located in Konya, Turkey.
Serial Number	- serial number is marked on the right side of the receiver/frame above the trigger. - serial number of a referenced example consisted of two letter prefix "CH", a dash (-) and five numbers. - serial number of a referenced example consisted of two number, a dash (-) and four numbers.
Shots	- underbarrel tubular magazine.
Canadian Law Comments	- this firearm is normally Non-Restricted unless affected by the following conditions: 1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada. - "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands. 2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada. 3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada. - "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted, (i) is less than 660 mm in length, or (ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Firearm Reference Number (FRN): 164151
Make: Derya Arms
Model: Lion SPX

Summary

Make:	Derya Arms
Model:	Lion SPX
Manufacturer:	Derya Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Pump Action
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
164151 - 1	12 GA X 3"	4	350	Restricted CC 84(1) "restricted firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
164151 - 2	12 GA X 3"	4	350	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "DERYA" is marked on the firearm.

Model

- "SPX" may or may not be marked on the firearm.
- this is a series of "tactically"-styled short-barrelled pump-action shotguns, manufactured in a variety of barrel lengths, stock, and sight configurations.
- features include: blue/black anodized finish; muzzle with interchangeable screw-in muzzle brake/flash hider or choke tubes; round barrel with bead or rifle sights; synthetic forend assembly; right side ejection port; synthetic fixed, folding or telescopic stock and pistol grip or pistol-grip-only; triangular, button cross-bolt button safety at the rear of the trigger guard.

Manufacturer

- "DERYA" is marked on the firearm.
- "Derya Arms" was founded in 2000.
- "Derya Arms" is located in Konya, Turkey.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- underbarrel tubular magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

- the design of this semi-automatic box magazine feed shotgun resembles but is not a variant of the AR15.
- available in a wide variety of colours and finishes.
- features include: round muzzle shroud that threads over the barrel and retains the handguard; muzzle shroud may or may not be ported, and may be smooth or have helical grooves; round plain chrome-lined barrel with interchangeable chokes; ventilated round aluminium handguard with integral rails for sights and accessories at top, left, right, and underside; integral full length rail for detachable AR15 style rear sights, optics, or other sights on aluminium upper receiver, right side ejection port with slot on left and right side for ambidextrous cocking handle on reciprocating bolt assembly; bolt may be marked with the words "BufferBolt System" on right side; forward takedown pin in front of the magazine well on the lower receiver; AR15-style controls including magazine release on right side, and bolt release and selector switch on left side; trigger guard integral with magazine well and lower receiver; single trigger; removable AR15-style rubber pistol grip; rear takedown pin located on lower receiver above the grip; AR15-style castle nut and buffer tube usually fitted with a multi-position adjustable polymer shoulder stock, with or without adjustable cheek piece and rubber recoil pad.
- finish options include: black; black with red barrel, bolt assembly, cocking handle, magazine floorplate, castle nut, and adjustable cheek piece; flat dark earth upper receiver, handguard, and adjustable cheek piece with black barrel, lower receiver and shoulder stock; olive drab upper receiver, handguard, and adjustable cheek piece with black barrel, lower receiver and shoulder stock; red handguard and lower receiver, with black muzzle brake, barrel, upper receiver, shoulder stock, and adjustable cheek piece.

Manufacturer

- "DERYA ARMS LTD." above "MADE IN TURKEY" observed marked on the magazine well of the lower receiver, forward of the magazine release.
- "DERYA ARMS LTD." above calibre, year of production, and "Made in TURKEY" observed marked on the left side of the barrel beneath the front of the handguard.
- "Derya Arms" was founded in 2000.
- "Derya Arms" is located in Konya, Turkey.

Action

- gas operated.

Serial Number

- serial number observed marked on the upper receiver underneath the cocking handle slot.
- The words "SERIAL NUMBER:" were observed marked to the left of the serial number.
- Serial number may consist of a two-digit prefix followed by a dash, followed by a numberic or alpha numeric suffix.

Calibre

- "12 Ga 2 3/4" and 3" Shotshells" observed marked on the left side of the barrel beneath the front of the handguard.

Shots

- detachable box magazine

Notes

Make

- "DERYA" is marked on the right side of the receiver/frame.
- "DERYA ARMS" is marked on the left side of the receiver/frame.

Model

- "TM22-A-16" is marked on the right side of the receiver/frame.
- May also be known as "TM22 Pro".
- "TM22-A-16" is available with the following configurations: "TM-22-A-16", "TM22-A-16 Feather", and "TM22-A-16 Standard".
- The "TM22-A-16" features: Ventilated aluminum accessory rail handguard; aluminum flattop receiver/frame with top accessory rail; safety lever on the left side of the receiver/frame; left side reciprocating charging handle; magazine release button located on the right side of the receiver/frame; flat trigger; AR-15 pattern pistol grip; fixed tubular buttstock or telescopic buffer tube buttstock; various colored finishes.
- The "TM22-A-16 Feather" features: Ribbed synthetic handguard; synthetic receiver/frame with carrying handle and rear sight; fixed front sight post; AR-15 pattern pistol grip and buffer tube buttstock.
- The "TM22-A-16 Standard" features: Synthetic receiver/frame with top accessory rail; sleeved front sight; textured synthetic semi-pistol grip stock; crossbolt safety; angular trigger guard; curved trigger; magazine release lever in front of the trigger guard; interchangeable stock spacers; adjustable cheek rest; rubber recoil pad.

Manufacturer

- "DERYA" is marked on the right side of the receiver/frame.
- "DERYA ARMS" is marked on the left side of the receiver/frame.

Action

- Blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the left side of the firearm. - The serial number is repeated on other parts and components. - The serial number of a referenced example consists of two letters followed by three digits, a dash, two digits, one letter and five digits.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the left side of the receiver/frame. - "22 LR" is marked on the left side of the firearm. - Rifling characteristics in calibre 22 LR: 6 grooves, 1 turn in 16 inches, right hand twist.
Shots	- Detachable box magazine.

Notes

Make

- "DERYA ARMS - TURKEY" was observed marked on the left side of the receiver/frame.

Model

- "VR60" is marked on the right side of the upper assembly.
- this is an AR style shotgun.
- "VR" denotes that this shotgun has a detachable box magazine.
- "VR60" is not to be confuse with the "MK10 VR" shotgun, which has a machined aluminium lower receiver/frame, rather than the injection-moulded synthetic lower of the "VR60".
- features include: screw-in muzzle brake/flash-hider, or choke tubes; ventilated forearm with full length top and bottom accessory rail; handguard with forward, short length accessories rails; under-barrel gas piston; open, removable, adjustable sights, with rear sight on an AR-15-style carry handle; detachable box magazine; bolt release, magazine release and safety selector in the style of the Colt AR-15/M16 design; injection-moulded, synthetic receiver/frame with integral vertical pistol-grip and fixed butt with cheek pad; anodized black finish.

Manufacturer

- "DERYA" is marked on the firearm.
- "Derya Arms" was founded in 2000.
- "Derya Arms" introduced their "Lion" line of semi-automatic shotguns in 2000.
- "Derya Arms" introduced their "Lion" line of pump shotguns in 2006.
- "Derya Arms" introduced their "Lion" line of break open, single shot shotguns in 2010.
- "Derya Arms" is located in Konya, Turkey.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas-operated.
Serial Number	- serial number is marked on the right side of the receiver/frame. - serial number is repeated on the left side of the upper assembly. - serial number of referenced examples consisted of a letter prefix (R) followed by six numbers.
Calibre	- calibre designation is marked on the right side of the upper assembly. - calibre designation is also usually marked on the barrel.
Shots	- detachable box magazine.

161986 - 3	7.62MM NATO	N/A	559	Prohibited PFR, Part 1, para. 188	Non-Commercial Customization	

Notes

Make

- the MAKE is found marked "DESERT ORDNANCE LLC" above the (second line) address "McCARRAN NV 89434" above (third line) MODEL designation "M-60 SEMI AUTO 7.62mm" on the left side of the lower receiver channel behind the pistol grip.

Model

- this firearm is a semi-automatic recreation of the US Machine Gun M60E4.
- the MODEL designation is found on the trunnion (a component of the receiver/frame) of the firearm and is marked as "M60 E4".
- features include: closed-bolt, striker fired, semi-automatic firearm; light machine gun pattern; with a bipod mounted on the operating rod tube; blued/parkerized finish; synthetic polymer butt with aluminum butt plate; aluminum fore end with three integral accessory rails; sight rail mounted on the top cover; adjustable sights; carrying handle; quick-change barrel; belt fed from the left side of the gun, with an ammunition carrier box mounting point on the left side of the gun; ambidextrous safety catch on the rear of the trigger housing.
- "M-60 SEMI AUTO" is marked on the left side of the receiver/frame.
- "M-60 SEMI AUTO" is a semi-automatic variant of the US Machine Gun M60 in "E4" configurations.
- "M60 E4" designation is marked on the trunnion (a component of the receiver/frame) of the firearm.
- features include: closed-bolt, striker fired, semi-automatic firearm; light machine gun pattern; with a bipod mounted on the operating rod tube; blued/parkerized finish; synthetic polymer butt with aluminum butt plate; aluminum fore end with three integral accessory rails; sight rail mounted on the top cover; adjustable sights; carrying handle; quick-change barrel; belt fed from the left side of the gun, with an ammunition carrier box mounting point on the left side of the gun; ambidextrous safety catch on the rear of the trigger housing; parkerized finish.

Manufacturer

- U.S. Ordnance Incorporated is a manufacturer based in Reno, Nevada that produces full automatic machine guns and semi-automatic recreations of medium machine-guns.
- the manufacturer's information is found on the trunnion (a component of the receiver/frame) of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Type	- designed and manufactured in semi-automatic fire configuration.
Action	- gas-operated. - designed and manufactured in semi-automatic fire configuration.
Serial Number	- serial number is marked on the receiver - left side of trunnion beneath the rear sight. - example observed consisted of a letter followed by five numbers. Example M60XXX.
Calibre	- "7.62mm" is marked on the left side of the receiver/frame. - calibre identification is also marked on the trunnion of the receiver/frame. - calibre identification is also usually marked on the barrel.
Shots	- belt-fed firearm.
Canadian Law Comments	The US Machine Gun, Model M60 and any variant or modified version of it: - receiver/frame. - in the case of the US Machine Gun, Model M60 and any variant or modified version of it, the rectangular assembly fabricated from metal, permanently assembled with rivets and/or by welding, from the butt socket forward to and including the front trunnion block, is the receiver/frame for all purposes of the Criminal Code. This receiver assembly includes the following components: a) trunnion block; b) left side receiver rail; c) right side receiver rail; d) lower receiver rail; e) lower receiver channel; and, f) receiver bridge. - for regulatory purposes, when the receiver/frame is further disassembled, the trunnion block where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration.

Notes

Make

- "DESERT TACTICAL ARMS, INC.", "DESERT TECH LLC" or "DESERT TECHNOLOGY LLC" may be marked on the right side of the receiver/frame.

Model

- Introduced in 2008.
- "Stealth Recon Scout" is not marked on the firearm.
- Introduced in 2010, in a dedicated "sporter" version as the SRS "Hunter" and as the SRS "Covert" with optional suppressor.
- Overall length with a 660mm (26") barrel is 953mm (37.5") and average weight is 5.26kgs (11.6lbs).
- The "Desert Tech" "Stealth Recon Scout" is a features driven model.
- The "DT-SRS A2" is considered the base model and is defined by a fixed top mounted accessory rail.
- The "DT-SRS M2" is defined by a removeable/moveable full length top mounted accessory rail from muzzle to chamber.
- The "DT-SRS Covert" is defined by a compact forend and shorter barrel.
- Features include: threaded barrel for accessories; barrel may be fluted; free floating handguard; modular "bullpup" style design; polymer stock panels; accessory rails; adjustable 2-stage trigger; adjustable butt pad; detachable box magazine behind the pistol-grip; magazine catch and safety located on the right side; quick caliber conversion.

Manufacturer

- "DESERT TACTICAL ARMS, INC.", "DESERT TECH LLC" or "DESERT TECHNOLOGY LLC" may be marked on the right side of the receiver/frame.

Action

- turn-bolt operation.

Serial Number

- The serial number is marked on the right side of the receiver/frame.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.
- Muzzle brake which comes standard on the caliber 338 LAPUA MAG adds 51 mm (2") to the length.

Calibre

- the Stealth Recon Scout was designed around the 338 LAPUA MAG and can be quickly converted to 243 WIN, 308 WIN or 300 WIN MAG.

Shots

- Detachable box magazine.

Canadian Law Comments

- as it left the factory, this firearm is equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- "DESTRYER" is marked on the left side of the slide.
- "DESTROYER" may also be marked at the top of each grip plate in a crescent shape over which are the stylized letters "IG"; these letters may also have the letter "I" superimposed over the letter "G" or "IG" in an oval may be marked on the left side of the receiver/frame just above the grip plate.

Model

- "PISTOLET AUTOMATIQUE "DESTROYER"" or "MODEL AUTOMATIC PISTOL" and ""DESTROYER" PATENT" may be marked on the left side of slide
- this pistol is basically a copy of the Browning 1906 semi automatic pistol without the grip safety; may also be referred to as a Baby Browning Copy.
- blow back operated, detachable box magazine with magazine release button at bottom rear of grip frame.
- safety lever usually centrally located on left side of receiver/frame behind the trigger; earlier models may have the safety located at the rear of the receiver/frame behind the grip plate.
- blued or nickel/chrome plated finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "I. GAZTANAGA - EIBAR" may be marked on the left side of the slide. - Isidro Gaztanaga was a firearms manufacturer established circa 1900 at Eibar, Spain. - the business ceased operations circa 1939 as a result of the Spanish Civil War. - the manufacturer's initials "IG" may appear on the left rear side of the receiver/frame or in stylized form on the grip plates of this pistol; these letters may also have the letter "I" superimposed over the letter "G".
Action	- blowback operated.
Serial Number	- known examples have had five digit numbers without prefix or suffix and can be marked on the left or the right side of receiver/frame above the trigger.
Canadian Law Comments	- Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states: "prohibited firearm" means (a) a handgun that (ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

Notes

Make

- "Deutsche Werke Aktiengesellschaft" over "Werk Erfurt" or "Deutsche Werke", the company logo, and "Werk Erfurt" is marked on the left side of the slide.
- the bronze medallion in the grip on the early models bares the (HO) monogram of Heinrich Ortgies. The (HO) medallions and the model name Ortgies Patent were used by Deutsche Werke for some years after the purchase of the company in 1921 till 1932.
- the later models have the Deutsche Werke logo monogram in a medallion on the grips.
- the Deutsche Werke logo was a stylized lion within a circle, with a raised tail that looks like a script "D".

Model

- manufactured between 1922 and 1929.
- "Ortgies' Patent" is marked on early models, just above the manufacturer name.
- "Ortgies' Patent" is marked on later models, on the right side of the slide.
- features may include: integral front blade and rear notch sight; cocking serrations at the rear of the slide; "T" shaped double lug barrel locking design; locking grip safety with release button; large or small frame; nickel plate or blued finish.
- grip safety, a distinguishing feature about the safety is when depressed it will not spring back to unlock, it has to be done manually. By pressing a button on the left side of the receiver which also doubles as a takedown catch.
- care must be taken to NOT confuse the Deutsche Werke "Ortgies Patent" pistol with the earlier "Ortgies Patent" pistol manufactured by Heinrich Ortgies from 1918 to 1921; in 1921, Deutsche Werke acquired Ortgies' patents, and continued producing the same pistol under the "Deutsche Werke" name, though continuing to use Heinrich Ortgies "HO" grip monogram for a period. Deutsche Werke-produced pistols will have "Deutsche Werke" marked on the slide, and later pistols will have grip medallions depicting Deutsche Werke's lion/dragon logo with a raised tail forming a "D".

Manufacturer

- "Deutsche Werke" was located in Erfurt, Germany.
- "Deutsche Werke" was a small scale manufacturer that assembled parts from various sub-manufacturers, between 1921 and 1932.

Action

- blow-back operated.

Serial Number

- may be found on the under side of the receiver in front of the trigger guard. The number is repeated on the under side of the slide at the muzzle end.
- sequential numbers.

Shots

- detachable box magazine.

Firearm Reference Number (FRN): 196876
Make: Devisme
Model: 1854

Summary

Make:	Devisme
Model:	1854
Manufacturer:	Devisme, L F
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
196876 - 1	11MM DEVISME	6	165	Antique CC 84(1) "antique firearm" para. (b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "DEVISME A PARIS" is marked on the top strap of the receiver/frame.
- "DEVISME BTE" is marked on the left side of the firearm.

Model

- The model designation is not marked on the firearm.
- "1854" stands for the period of the patents used in building this revolver.
- "1854" is defined by its characteristics.
- May also be known as "1854/55".
- Features include: steel frame and barrel; longitudinally-swinging checkered lever at the bottom left side of the frame that allows the barrel and cylinder to pivot downwards around a pin at the front of the frame; round cylinder with percussion nipples; a right side mounted hammer; checkered walnut rounded grips with a square butt having a removable nipple wrench containing a spare nipple acting has a loop lanyard.

Manufacturer

- "DEVISME A PARIS" is marked on the top strap of the receiver/frame.
- DEVISME BTE" is marked on the left side of the receiver/frame.
- "DEVISME" also used "F.P. DEVISME", or "L.F. DEVISME" marking on his firearms.
- "DEVISME" may also had marked the address of "36 Boulevart des Italiens" or "12 Rue du Helder" on his firearms.
- "DEVISME" were a gunmaking family based in Paris, France, from 1834 through 1870.

Serial Number

- The serial number is marked on the right side of the stock over the rear of the trigger guard.
- Serial number of referenced examples consisted of four number.
- Usually has a assembly number marked on the receiver/frame not to be confuse with the serial number.

Calibre

The revolver is nominally .41 caliber (or 10.5 mm if you prefer) with the bore measuring about 10.5mm land to land and 11mm groove to groove. The chamber mouths measure closer to 12mm. Much like the Lefaucheux pinfire system, this no doubt results in some disagreement about the caliber of the revolver. As most period cartridge revolvers were referred to by the diameter of the casing, rather than the bore diameter

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - Removeable cylinder.

Firearm Reference Number (FRN): 151347
Make: Dezamet
Model: GPBO-40

Summary

Make:	Dezamet
Model:	GPBO-40
Manufacturer:	Dezamet
Level:	Manufacturer Specifications and Commercial Customization
Type:	Grenade Launcher
Action:	Single-Shot
Country of Manufacturer:	POLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
151347 - 1	40X46MM	1	250	Prohibited PFR, Part 1, para. 95(z.033)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the manufacturer or logo thereof is marked on the launcher.

Model

- the model is not marked on the launcher; "GPBO-40" is an acronym for "Grenade-launcher, under-barrel, single-shot - 40mm".
- this is a single-shot 40mm grenade launcher manufactured along the lines of the H&K AG36/M320 grenade launcher, with a barrel that tilts out to the left to allow grenades to be single-loaded.
- a stand-alone launcher is also produced as the "GSBO-40", with a buttstock and folding forward grip.
- features include: anodized gray finish; synthetic pistol-grip plates; thumb-operated safety and opening lever on the left side of the launcher; and folding sights mounted on the host rifle.

Manufacturer

- the manufacturer or logo thereof is marked on the launcher.
- Dezamet S.A. is a manufacturer located in Nowa Deba, Poland, that specializes in metal fabrication and machining.

Action

- pivoting-barrel single-shot.

Serial Number

- The serial number is usually marked on the left side of the receiver/frame.

Notes

Make

- "DIAMOND" is marked on the right side of the receiver/frame.
- "DIAMOND MATSAN A.S. Made In Turkey" is marked on the right side of the barrel.

Model

- "ACTION" may be marked on the left side of the receiver/frame.
- Matsan produces semi-automatic shotguns on three basic receiver/frame shapes; the "Gold"/"Marine"/"Hunter"/"Panther" series resembles a Franchi 48 receiver/frame, with an angled rear receiver/frame profile, the "Silver"/"Crom" series more closely resembles a Benelli 1200/1201 (with a sharper rear receiver/frame profile), and the "Action"/"Sport" series resemble the Remington 1100, with a rounded receiver/frame profile.
- features include: Turkish walnut or synthetic pistol grip buttstock and forend; plain barrel with rifle type sights or a ventilated rib on the barrel with a bead sight; interchangeable choke tube system; matte blued/anodized metal surfaces; bolt release button on right side of the receiver/frame; fitted recoil pad and a tubular magazine.
- a similar model in 12 GA X 3 1/2" featuring a matte finish, no engraving, and an anodized alloy construction is available as the model "Sport".

Manufacturer

- "MATSAN A.S. Made In Turkey" is marked on the right side of the barrel.
- "Matsan S.A." is located in Istanbul, Turkey since 1962.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the receiver/frame. - examples of serial numbers seen consist of six digits with no prefix or suffix.
Calibre	- the calibre and chamber length are marked on the right side of the barrel.
Shots	- tubular magazine mounted under the barrel. - magazine extensions are available that increase the magazine capacity. - magazine tube may be plugged to comply with hunting regulations.
