19392 - 4	44 CF	5	64	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- Dresse-Laloux trademark logo of a bee/winged insect inside a circle with the letter "D" on the left wing and and the letter "L" on the right wing was observed marked on the left side of the receiver/frame..
- "DL&CO. BTES" was observed marked on the left side of the receiver/frame, below the cylinder.

Model

- model designation is not marked on the firearm.
- features include: monobloc barrel and receiver/frame; blade front sight and V-notch on the top strap for a rear sight; round rifled barrel with under lug; solid top receiver/frame with left side swing-out fluted cylinder; cylinder release lever is mounted on the front of the receiver/frame and allows the cylinder to swing-out horizintally to the left for loading and unloading; exposed spur hammer; single/double action trigger mechanism; rounded trigger guard; flat bottom grip strap with checkered grip panels.

Manufacturer

- Dresse-Laloux & Cie operated in Liege, Belgium from 1862 to 1914.
- Dresse-Laloux also had facilities in London, England at 47 Basinghall Street from 1881 to 1884 and at 4 St. Mary Axe after 1896.
- Dresse-Laloux & Cie (D L & Co) marked their firearms with their company name or trademark logo.
- Dresse-Laloux & Cie (D L & Co) trademark logos consisted of the letters "DL" under a crown or a bee/winged insect with the letter "D" on the left wing and the letter "L" on the right wing.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- observed serial number consisted of four numbers without a letter prefix or suffix.

Shots

- cylinder swings out to the left on a parallel axis to the barrel, on a lever mounted under the barrel. It does not swing down as a conventional cylinder does.

Manufacturer:	Dreyse
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
72357 - 1	15.43MM PRUSSIAN NEEDLE-FIRE	1	365	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	
72357 - 2	15.43MM PRUSSIAN NEEDLE-FIRE	1	382	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "DREYSE" is not usually marked on firearm.

Model

- model designation is marked on the left side of the receiver/frame as "MOD: 55.", below the manufacturer's name and city location of "SOEMMERDA ND" in flowing script. The year of manufacture is also apparent on right side of receiver/frame, and should not be mistaken with the model designation.
- manufactured between 1855 and 1865.
- this model is identical to the model 1857, except for the model marking and the wrought iron barrel construction, thus the marking "STAHL" is not apparent on this model.
- the model 1855 is a short carbine with a short receiver (13cm), primarily issued to the dragoon and hussar regiments of the Prussian army, and to some few Bavarian army cavalry units, the browned round barrel has a short octagonal section at the breech wich carries the fixed rear sight. The barrel is retained in the stock by an iron nose cap, whose uppermost edges are continued upwards sufficiently far enough to protect the front sight, there are no barrel bands, and no provision for a bayonet.
- the one piece walnut stock with prominent flats each side of the receiver/frame, also includes a cheekpiece on the rear buttstock.
- a key to identify this model from other Dreyse models is the lack of a rearward finger rest extension on the trigger guard, and the addition of a large saddle ring retained by a smaller ring in the underside of the butt.

Manufacturer

- "Soemmerda N.D." or "Fr. D." is marked on the left side of the receiver/frame.

Action

- bolt action operated, needle fire system.

Serial Number

- serial number locations are on left side of receiver, on the base of the bolt handle, on the left side of the barrel, and on the left side of the cocking piece head. The last two or three digits are usually repeated on each removable part and screw.

Notes

Make

- "v. DREYSE" and "SÖMMERDA" is marked on the top of the receiver/frame.
- "v. DREYSE" stands for Nikolas von Dreyse, a Prussian arms designer and manufacturer based in Soemmerda, Germany.

Model

- model designation is not marked on the firearm.
- model designation relates to the year of introduction.
- features include: fixed front and rear sights; rear sight mounted on the top plate over the cylinder; octagonal barrel ; unfluted cylinder; needle fire knob at the rear of the receiver/frame; hammerless; may have a straight loading lever on the right side of the receiver/frame above the trigger guard; double action trigger mechanism; rounded trigger guard; lanyard loop at the bottom of the grip; one piece, wood, checkered grip that extends over the receiver/frame; may have engraving; blued finish.

Manufacturer

- "v. DREYSE" and "SÖMMERDA" is marked on the top of the receiver/frame.
- "v. DREYSE" stands for Nikolas von Dreyse, a Prussian arms designer and manufacturer based in Soemmerda, Germany.

Action

- double action only.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of referenced examples consisted of four or five numbers.

Calibre

- calibre designation is marked on the right side of the receiver/frame.
- calibre designation is usually marked as "0,35 12Gran Pulv".
- rifling characteristics: 5 groove rifling, left hand twist.

Notes

Make

- "F.V. Soemmerda" is marked on the firearm.
- Franz von Dreyse manufactured firearms under the Dreyse name following his father's retirement.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is an unusual "cape gun"-style combination gun (a side by side gun combination gun pairing a rifle with a shotgun) built using the Dreyse "needle-fire" ignition system, where a spring-loaded firing pin passes through a paper cartridge to strike a percussion cap or pill on the bottom of the bullet or wad.
- features include: blued finish; round barrels; sling swivels; an underlever opening mechanism that allows the barrels to move forward off the standing breech and to one side; fixed open sights; dual strikers with dual triggers; a short walnut checkered stock with cheekpiece; carved horn trigger guard/grip-strap.

Manufacturer

- "F.V. Soemmerda" is marked on the firearm.
- Franz von Dreyse manufactured firearms under the Dreyse name following his father's retirement.

Action

- side by side configuration.

Notes

Make

- "DREYSE" is usually marked on the right side of the slide.

Model

- model designation does not appear on the firearm.
- introduced into military service circa 1914.
- production ceased in 1916. It was still being marketed into the early 1920's.
- features include: front hinged receiver/frame.
- striker does not fully cock on recoil. The trigger must be pulled to fully cock the striker.
- cocking handle can be lifted up to bypass the recoil spring lug by isolating the recoil spring during the cocking stroke. This allows the striker/slide to be retacted and the firearm to be loaded without any resistance by the recoil spring.

Manufacturer

- "Rheinische Metallwaren und Maschinenfabrik AG. Sommerda" or " Rheinische Metallwaren-& Maschinenfabrik Ast. Sommerda" is usually marked on the left side of the slide.
- manufacturer's logo usually appears on the grip plates.

Action

- blowback operated.

Serial Number

- serial number range is usually between 1200 and 1399.

Firearm Reference Number (FRN): 18540
Make: Dreyse & Collenbusch
Model: Needle-Fire Pistol

Summary

Make:	Dreyse & Collenbusch
Model:	Needle-Fire Pistol
Manufacturer:	Dreyse & Collenbusch
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
18540 - 1	58 PRUSSIAN NEEDLE-FIRE	1	146	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	

Notes

Make

- "DREYSE & COLLENBUSCH" or a "D&C" logo under a Prussian eagle is usually marked on the barrel.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is an early example (1840's to 1860's) of Dreyse's "needle-fire" system, adapted to handgun format. and usually cocked via a pivoting arm on the right side of the pistol. At different points in the life of this system, these pistols were made in entirely muzzle loaded format (where cartridges had to be pushed into the muzzle with an underbarrel rod), or in a breech loaded format, where the short cartridge could be pushed into a rotating tap, then spun in-line with the bore for firing.
- features may include: blued or browned finish; round or octagonal barrel; Damascus or wrought iron construction; under-barrel ramrod; brass or German silver fittings; carved and checkered walnut stock; a right side crank lever that cocks the internal "needle" for firing; various degrees of engraving.

Manufacturer

- "DREYSE & COLLENBUSCH" or a "D&C" logo under a Prussian eagle is usually marked on the barrel.
- Dreyse and Collenbusch were partners from 1824 to ~1900 in the production of firearms and ammunition; Collenbusch ran a factory producing explosives, powder, primers and detonators, and had provided the ammunition for Dreyse's early needle-fire rifles, while Dreyse produced firearms that required specialized ammunition.

Action

- muzzle or port-loaded using Dreyse's unique form of "needle-fire" paper-cased ammunition.

Serial Number

- usually serial-numbered on the barrel or tang.

Calibre

- calibres may vary.

FRT Report

Firearm Reference Number (FRN): 18550
Make: DruLov
Model: 78

Summary

Make:	DruLov
Model:	78
Manufacturer:	Dilo Svratouch
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	CZECHOSLOVAKIA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
18550 - 1	22 LR	1	251	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is marked on the left side of the receiver/frame.
Model	- the model designation is marked on the left side of the receiver/frame as "Drulov mod 78". - features include: blued finish; target style grip; rear of bolt is rotated to unlock and retract for loading and ejecting; adjustable sights.
Manufacturer	- Dilo Svratouch (there is confusion as to the correct spelling of the name, some references list the manufacturer as Dilo Svratovich) has been part of the state controlled Czechoslovakian arms industry since the Communist Party came to power in 1948.
Serial Number	- serial number is usually marked on the left side of the receiver/frame. - observed serial number consisted of five numbers without a letter prefix or suffix. - the last three digits of the serial number will usually be marked on the bolt.
Calibre	- the calibre designation is marked on the barrel.
Other Markings	- Czech proofmarks and the year of proof will be marked on the major components.

Notes

Make

- "DRULOV" was observed marked on the left side of the receiver/frame.

Model

- features include: sharply raked wooden grip, knurled cylindrical cocking piece at the rear of the standing breech and fixed sights
- this pistol may be known as the Model "P", Model "70", "Standard", "Drulov", or a number of others, depending on when it was produced. "Make" may likewise differ, ranging from "Pavlicek" (the original designer/manufacturer), "PAV" (a later designation used by Czech State Arsenals), "CZ" (who produced this pistol as the "P"), or even "Drulov", who produced this pistol prior to manufacturing their own design of single shot pistol.
- this record is ONLY for those pistols produced after 1963 (pistols will have a two number date stamp next to the proof); pistols produced earlier than 1948 are known as "Pavlicek Model P"s, pistols produced between 1948 and 1963 are known as "CZ Model P"s, while pistols produced after 1963 are known as "Pav 70"s, or "Drulov PAV"s, depending on how they are marked.

Serial Number

- the serial number should have a five digits number.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - "22 LONG RIFLE" was observed marked on the left side of the barrel.

Notes

Make

- "DUMONTHIER" over "B.S.G.D.G." was observed marked on a metal ring just below the handle on a known example.
- "B.S.G.D.G." stand for "Brevete Sans Garantie Du Gouvernement" and indicate that this particular design was "Patented without government guarantee".
- "DUMONTHIER" was observed marked on the underside of the breech on a known example and is only visible when the action is open.

Model

- no model name is marked on this device.
- this is a generic entry for cane guns manufactured by Dumonthier that have no model designation marked on them.
- Celestin Dumonthier was a firearm manufacturer located in Paris, France, circa 1860 to 1890; Dumonthier had several patents attributed to him for cane guns and other combination-type weapons such as a dagger-revolver type handgun.
- single action, breech loading firearm made to resemble a cane or walking stick.
- these firearms are usually loaded either by pulling back on the handle, twisting and pulling the shaft of the cane or some variation thereof thus exposing the breech area and usually cocking the piece at the same time.
- trigger may be of the folding or button type.
- many variations of grip design may be encountered.
- may be rifled or smooth bore.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "DUMONTHIER" over "B.S.G.D.G." was observed marked on a metal ring just below the handle on a known example.

161128 - 1	38 PERCUSSION	2	89	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	

Notes

Make

- known example marked "DUMONTHIER BREVET" on the blade.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is an unusual style of knife-pistol manufactured by Celestine Dumonthier prior to 1890.
- this firearm incorporates two muzzle-loaded percussion barrels into a dagger or short sword, with one barrel on each side of the blade, and the nipples struck by spring-loaded hammers that form part of the dagger's quillon or hilt; the user could fire the pistols when desired by pulling back on the hammers, then letting them slip out from the thumb.
- features may include: double-edged blade measuring approximately 212mm/8 3/8" long; engraved and/or damascened finish; spring-loaded hilt crossbar pieces that act as hammers; and ivory, silver, or plated hilt.

Manufacturer

- known example marked "DUMONTHIER BREVET" on the blade.
- Celestin Dumonthier was a firearm manufacturer located in Paris, France, circa 1860 to 1890; Dumonthier had several patents attributed to him for cane guns and other combination-type weapons such as a knife-revolver.

Action

- multi-barreled configuration with one barrel on each side of the dagger blade.

Notes

Make

- known example marked "DUMONTHIER" over "B.S.G.D.G." on the rear left side of the barrel.

Model

- model name is not marked on this handgun; the model name is derived from the physical characteristics of the firearm.
- this type of knife-revolver firearm was patented by Celestin Dumonthier of Paris, France in 1862.
- features include: open top receiver/frame; usually double action; barrel and cutlass-type knife blade are an integral part with the knife blade extending several inches beyond the muzzle end of the barrel; folding trigger or trigger with full trigger guard; may have saw-handle type grip with hardwood grip plates; may have lanyard ring; blued finish; may have scroll engraving on the barrel/blade and cylinder.

Manufacturer

- known example marked "DUMONTHIER" over "B.S.G.D.G." on the rear left side of the barrel.
- the letters "B.S.G.D.G." stand for "Brevete Sans Garantie Du Gouvernement" and indicate that this particular design was "Patented without government guarantee".
- Celestin Dumonthier was a firearm manufacturer located in Paris, France, circa 1860 to 1890; Dumonthier had several patents attributed to him for cane guns and other combination-type weapons such as a kinfe-revolver.

Serial Number

- serial number is usually marked on the front left side of the receiver/frame below the cylinder.
- serial numbers were numeric only without prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - known example was also marked "P.Stevens" on the top of the barrel; "Petrus Stevens" was a Dutch firearms retailer and manufacturer located in Maastricht, Netherlands, the business was established in 1849; in the case of this example, the firearm is attributed to Dumonthier manufacture with retail by P.Stevens.

19280 - 2	38 S&W	5	86	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- Dumoulin Freres and/or Dumoulin Bros. and/or the trademark logo is marked on the firearm.
- Dumoulin Freres trademark logo was the letters "DF" bisected horizontally by an arrow, or "DF" within an oval, or "DF" over an "L" within an oval, or "DF" with a hornet or wasp between the two letters, or "DF" below a crown.

Model

- model designation is not marked on the firearm.
- this is a generic entry for those Dumoulin revolvers that feature top break opening and automatic cartridge case ejection.
- features may include: hammer or hammerless, blued or nickel finish; wood or plastic grips and a lanyard ring.

Manufacturer

- Dumoulin Freres and/or Dumoulin Bros. and/or the trademark logo is marked on the firearm.
- Dumoulin Freres trademark logo was the letters "DF" bisected horizontally by an arrow, or "DF" within an oval, or "DF" over an "L" within an oval, or "DF" with a hornet or wasp between the two letters, or "DF" below a crown.

Serial Number

- the serial number is usually marked on the grip strap of the receiver/frame and may be repeated on the major components (barrel, cylinder, etc.).

FRT Report

Firearm Reference Number (FRN): 130332
Make: Dumoulin Freres
Model: Warnant System

Summary

Make:	Dumoulin Freres
Model:	Warnant System
Manufacturer:	Dumoulin Freres (DF)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
130332 - 1	8MM FLOBERT	1	593	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "DF" bisected horizontally by an arrow was observed marked on the left side of the barrel.
- Dumoulin Freres/Dumolin Brothers trademark logo consisted of the letters "DF" bisected horizontally by an arrow, or "DF" within an oval, or "DF" over an "L" within an oval, or "DF" with a hornet or wasp between the two letters, or "DF" below a crown.

Model

- model designation does not appear on the firearm, but is rather a description of the action.
- features include: blued finish; octagonal barrel and receiver/frame; fixed front and rear sights; hinged breach block; one piece pistol grip stock, checkered; exposed hammer; usually features an ornate trigger guard.
- this was the last and final improvement on the Flobert rifle, later called "The Warnant Springfield"; the breech block was attached to the breech end of the barrel, so it could be swung up to open the action for loading and unloading the rifle.
- since this system was much stronger than all other Flobert actions previously made, it was available in stronger calibers and heavier barrels.

Manufacturer

- "DF" bisected horizontally by an arrow was observed marked on the left side of the barrel.
- Dumoulin Freres/Dumolin Brothers trademark logo consisted of the letters "DF" bisected horizontally by an arrow, or "DF" within an oval, or "DF" over an "L" within an oval, or "DF" with a hornet or wasp between the two letters, or "DF" below a crown.

Action

- hinged breech block.

Serial Number

- serial number was observed marked on the left side of the barrel.

Calibre

- calibre is marked on the left side of the barrel.

Notes

Make

- F. Dumoulin & Co. and/or Dumoulin & Co. and/or the trademark logo is marked on the firearm.
- F. Dumoulin & Company trademark logo was the letters "FDC", or "FDC" bisected horizontally by an arrow, "FDC" within a rectangle, or a symbol of a bear walking on all four limbs.

Model

- no model name is marked on this firearm.
- model designation is derived from the characteristics of the firearm.
- this handgun would have been made circa 1880's to the early 1900's.
- features include: fixed sights; solid top receiver/frame with cylinder swings to the right for loading and unloading; swing-back loading gate on the right side of the standing breech; partially shrouded, rebounding hammer; double action trigger mechanism; blued finish.

Manufacturer

- F. Dumoulin & Co. and/or Dumoulin & Co. and/or the trademark logo is marked on the firearm.
- F. Dumoulin & Company trademark logo was the letters "FDC", or "FDC" bisected horizontally by an arrow, "FDC" within a rectangle, or a symbol of a bear walking on all four limbs.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearm Reference Number (FRN): 18559
Make: Duo
Model: Duo

Summary

Make:	Duo
Model:	Duo
Manufacturer:	Dusek, Frantisek
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	CZECHOSLOVAKIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
18559 - 2	25 AUTO	6	55	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
18559 - 1	6.35MM	6	55	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AUTOMAT PISTOLE "DUO" CAL 6.35" over "F. DUSEK, OPOTSCHNO" was observed marked on the left side of the slide of one sample.
- "AUTOMATIC. PISTOLE "DUO" CAL. 6.35" was observed marked on the left side of the slide of one sample.
- "DUO" may be marked on the grip plates.
- "DUO" name was used by Frantisek Dusek on many firearms made or marketed by that firm between 1935 and 1948.

Model

- "AUTOMAT PISTOLE "DUO" CAL 6.35" over "F. DUSEK, OPOTSCHNO" was observed marked on the left side of the slide of one sample.
- "AUTOMATIC. PISTOLE "DUO" CAL. 6.35" was observed marked on the left side of the slide of one sample.
- was also sold under the name "Jaga" for the German market. This can be identified by the names embossed in the grips.
- the DUO tradename was first applied to pistols in 1935.
- actual manufacture of these pistols by Dusek began in 1938 and carried on until 1948, with over 110,000 pistols being made before 1946.
- features include: butt magazine release; blued or nickel finish; left side thumb safety; black or pearl synthetic grips; no sights.
- "Duo" was renamed the "CZ model Z" by Ceska Zbrojovka.

Manufacturer

- "F. DUSEK OPOCO", "F. DUSEK OPOTSCHNO" or "aek" is usually marked on the slide.
- Dusek was founded by Frantisek Dusek of Opocno, Czechoslovakia in 1908.
- Dusek's products included airguns, rifles, shotguns and pistols between 1908 and 1948.
- Dusek's semi-automatic pistols were sold under the following brand/trade names: Duo, Ideal, Jaga, Perla, and Singer.
- Dusek manufactured weapons components during the German occupation of World War Two
- Dusek was assigned the German code "aek".
- Dusek's business was nationalization by the Communist Government in 1948.
- Dusek's business was transferred to the CESKA ZBROJOVKA plant in 1948.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- a five digit number was observed marked on the right side of the slide. - a three digit number was observed marked on the left side of magazine well of the receiver/frame, behind the magazine. - observed slide number consisted of six numbers without a letter prefix or suffix, example "44283". - observed receiver/frame number consisted of three numbers without a letter prefix or suffix, example "283".
Calibre	- "CAL. 6.35" was observed marked on the left side of the slide.
Shots	- detachable box magazine.
Other Markings	- a Czechoslovakian proofmark usually appears on the left side of the slide next to the last two digits of year the pistol was proof tested. - there may be reference made to "Eblen". This is a Distributor who marketed the "Duo" Model in Germany.

118055 - 1	9.4MM DUTCH REV	6	160	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Dutch Service" is not marked on the firearm.
- the Make designation is derived from the fact that this model was adopted by the Dutch Military in 1873 as the "Service" handgun for the armed forces.

Model

- model designation is not marked on the firearm; the model designation is derived from the date of adoption by the Dutch Military in 1873.
- manufacturing of this firearm in Holland commenced in 1873 and ceased circa 1915, however, it remained in Dutch military service until 1945.
- manufacturing at Hembrug commenced circa 1898.
- the manufacturer's markings are usually found on the right side of the receiver/frame ahead of the cylinder as, "HEMBRUG".
- features include: solid, six screw receiver/frame with rear-swinging loading gate on the right side with its lateral leaf-spring; caliber 9.4MM DUTCH REV; octagonal or round barrel; single/double action trigger mechanism with rebounding spurred hammer; walnut panels on a broom handle-type grip frame with thumb-web prawl; lanyard ring on the bottom of the grip frame.
- Note: the year of manufacture may be marked on the front lower right hand side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- this manufacturer commenced manufacture in 1898.
- the manufacturer's markings are usually found on the right side of the receiver/frame ahead of the cylinder.
- Dutch Service model 1873 revolvers were produced by other manufacturers as follows:
- P. Stevens, Maastricht
- JFJ Bar, Delft
- De Beaumont, Maastricht
- Werkplaats Draagbare Wapenen (WDW), Bandoeng, Java, Indonesia
- Werkplaats Draagbare Wapenen (WDW), Delft.
- Note: during the 1930s the firm of L. Ancion-Marx of Liege, Belgium produced a copy of the Dutch M73 revolver, offered as the "Nederlandsche Gouvernements Revolvers" (some equipped with an ejector rod on the right side).

Serial Number

- serial number is marked on the receiver/frame under the left grip and on the left side of the barrel.
- model 1873 Old Model (OM) serial numbers by this manufacturer range from 12,300 to 13,026.

Remarks

- this model is sometimes refered to as Old Model (OM), and was issued to the "KNIL" which translates roughly to Kingdom of the Netherlands Indies Army as the Netherlands Army in the "East Indies" was known at one time.

Notes

Make

- the Make designation is derived from the fact that this model was adopted by the Dutch Military in 1873 as the "Service" handgun for the armed forces.

Model

- the model designation is not marked on the firearm.
- this firearm was manufactured by the firm of J.F.J. Bar from circa 1880 until 1908; operations ceased in 1908 with the death of the owner, JFJ Bar.
- the manufacturer's markings are usually found on the right side of the frame ahead of the cylinder:
- features and caliber determine the model: solid six screw receiver/frame with rear-swinging loading gate on the right side with its lateral leaf-spring; octagonal barrel; single/double action with rebounding spurred hammer; walnut panels on broom-handle grip with thumb-web prawl and lanyard ring on the bottom.
- Note: the year of manufacture is usually marked on the lower right fore-frame.
- any number found below the date of manufacture is not relevant to the identification of these firearms.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- the manufacturer's markings are usually found on the right side of the frame ahead of the cylinder.
- Do not confuse with other Dutch Service model 1873 revolvers as produced by other manufacturers as follows:
P. Stevens, Maastricht
De Beaumont, Maastricht
Werkplaats Draagbare Wapenen (WDW), Bandoeng, Java, Indonesia
Artillerie-Inrichtingen, Hembrug (Military arsenal).
- Note: during the 1930s the firm of L. Ancion-Marx of Liege, Belgium produced a copy of the Dutch M73 revolver, offered as the "Nederlandsche Gouvernements Revolvers" (some equipped with an ejector rod on the right side).

Action

- double action, solid frame revolver.

Serial Number

- serial number is marked on the receiver/frame under the left- hand grip and on the left-hand side of the barrel.
- serial numbered between 7,800 and 9,100.

Remarks

- this model is sometimes refered to as Old Model (OM), and was issued to the "KNIL" which translates roughly to Kingdom of the Netherlands Indies Army as the Netherlands Army in the "East Indies" was known at one time.

Notes

Make

- not marked as "Dutch Service".
- the Make designation is derived from the fact that this model was adopted by the Dutch Military in 1873 as the "Service" handgun for the armed forces.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation is not marked on the firearm.
- this firearm would have been made by the firm of Edouard de Beaumont, circa 1882 until the end of production circa 1915.
- the manufacturer's markings are usually found on the right side of the frame ahead of the cylinder: - marked "DE BEAUMONT, MAASTRICHT".
- features and caliber determine the model:
- solid six screw frame/receiver with rear-swinging loading gate on the right side with its lateral leaf-spring, in caliber 9.4mm Dutch Revolver cartridge, octagonal or round barrel, single/double action with rebounding spurred hammer, walnut panels on broom-handle grip with thumb-web prawl and lanyard ring on the bottom.
- Note: the year of manufacture is usually marked on the lower right fore-frame.
- any number found below the date of manufacture is not relevant to the identification of these firearms.

Manufacturer

- "DE BEAUMONT" over "MAASTRICHT" is marked on the right side of the receiver/frame
- the manufacturer's markings are usually found on the right side of the frame ahead of the cylinder.
- Do not confuse with other Dutch Service model 1873 revolvers as produced by other manufacturers as follows:

JFJ Bar, Delft
P STEVENS, Maastricht
Werkplaats Draagbare Wapenen (WDW), Bandoeng, Java, Indonesia
Artillerie-Inrichtingen, Hembrug (Military arsenal).

- Note: during the 1930s the firm of L. Ancion-Marx of Liege, Belgium produced a copy of the Dutch M73 revolver, offered as the "Nederlandsche Gouvernements Revolvers" (some equipped with an ejector rod on the right side).

Action

- double action, solid frame revolver.

Serial Number

- serial number is marked on the receiver/frame under the left- hand grip and on the left-hand side of the barrel.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Remarks

- this model is sometimes refered to as Old Model (OM), and was issued to the "KNIL" which translates roughly to Kingdom of the Netherlands Indies Army as the Netherlands Army in the "East Indies" was known at one time.

Notes

Make

- "Dutch Service" is not marked on the firearm.
- the Make designation is derived from the fact that this model was adopted by the Dutch Military in 1873 as the "Service" handgun for the armed forces.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model designation is not marked on the firearm; the model designation is derived from the date of adoption by the Dutch Military in 1873.
- manufacturing of this firearm in Holland commenced in 1873 and ceased circa 1915, however, it remained in Dutch military service until 1945.
- this entry is for those Model 1873 revolvers that are not marked with a specific manufacturers name.
- features and calibre will determine the model version; sometimes this model is further defined as an Old Model (OM), a New Model (NM) with round barrel , an Officers or Klein Model (with 130mm barrel length), and as a model issued to the Dutch East Indies (KNIL).
- features; solid six screw receiver/frame with rear-swinging loading gate on the right side with its lateral leaf-spring; calibre 9.4MM Dutch Revolver cartridge; octagonal or round barrel; single/double action with rebounding spurred hammer; walnut panels on a broom-handle type grip with a lanyard ring on the bottom.
- Note: the year of manufacture may be marked on the front lower right side of the receiver/frame.
- any number found below the date of manufacture is not relevant to the identification of these firearms.

Manufacturer

- manufacturers name may appear on frame. Known manufacturers and the city in which they operated include;
JFJ Bar, Delft
De Beaumont, Maastricht
P Stevens, Maastricht
WDW Bandung, Java (East Indies)
Niederländisch Ost-Indien (East Indies)
Artillerie-Inrichtingen, Hembrug (Military arsenal).
- Historical notes re Dutch State Arsenals:
- 1816; the Geweerwinkel (Gun Factory) was established by the Dutch Government.
- 1887; the name of the Geweerwinkel was changed to "Werkplaats voor Draagbare Wapenen" (Small Arms Factory); this factory used the arsenal mark of "WDW" in an oval for production and Government Inspection identification purposes.
- also in 1887, all of the national military factories were consolidated into one company called, "Artillerie Inrichtingen" (AI); this consisted of four factories and warehouses in Delft as well as the cannon foundry and testing committee in The Hague. Research indicates that Model 1873 revolvers made by WDW in Delph prior to 1896 do not bear the manufacturer's mark; from circa 1896 onwards pistols made by WDW will bear the WDW arsenal mark.
- 1895; the main centre for the military factories shifted to the town of Zaandam which was located within the city of Amsterdam's fortifications; manufacturing at the new location began circa 1898. Pistols made at this location will be marked with the arsenal identification, "HEMBRUG".
- after 1960 all production of firearms in Holland ceased.
- 2003; Artillerie Inrichtingen went bankrupt and all manufacturing ceased.

Action

- solid frame revolver.

Serial Number

- serial number is usually marked on the left side of the grip frame portion of the receiver/frame underneath the left grip plate, and on the left hand side of the barrel.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "Dutch Service" is not marked on the firearm.
- the Make designation is derived from the fact that this model was adopted by the Dutch Military in 1873 as the "Service" handgun for the armed forces.

Model

- the model designation is not marked on the firearm.
- adopted in 1873, manufactured from 1874 to 1882 by Stevens and in Dutch military service until 1945.
- Stevens manufactured a total of 3,750 revolvers of this model between 1874 and 1882.
- the firm P. Stevens, Maastricht produced no "New Model" 1873 Revolvers as the "New Model" was authorized in 1908 and Stevens was sold to de Beaumont in 1882.
- the manufacturer's markings are usually found on the right side of the frame ahead of the cylinder: - marked P. Stevens, Maastricht.
- features and caliber determine the model:
- solid six screw frame/receiver with rear-swinging loading gate on the right side with its lateral leaf-spring, in caliber 9.4mm Dutch Revolver cartridge, octagonal barrel, single/double action with rebounding spurred hammer, walnut panels on broom-handle grip with a lanyard ring on the bottom.
- Note: the year of manufacture is usually marked on the lower right fore-frame.
- any number found below the date of manufacture is not relevant to the identification of these firearms.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "P. STEVENS, MAASTRICHT" markings are usually found on the right side of the frame ahead of the cylinder.
- P. Stevens, Mastricht was in operation manufacturing the Model 1873 revolver from 1874 until the company was sold to Edouard de Beaumont circa 1880 - 82.
- Do not confuse with other Dutch Service model 1873 revolvers as produced by other manufacturers as follows:
JFJ Bar, Delft
De Beaumont, Maastricht
Werkplaats Draagbare Wapenen (WDW), Bandoeng, Java, Indonesia
Artillerie-Inrichtingen, Hembrug (Military arsenal).
- Note: during the 1930s the firm of L. Ancion-Marx of Liege, Belgium produced a copy of the Dutch M73 revolver, offered as the "Nederlandsche Gouvernements Revolvers" (some equipped with an ejector rod on the right side).

Action

- double action, solid frame revolver.

Serial Number

- serial number is marked on the receiver/frame under the left-hand grip and on the left-hand side of the barrel.
- P. Stevens production was sequentially numbered from 1 to 3,750.

Remarks

- this model is sometimes referred to as Old Model (OM), and was on occasion issued to the "KNIL" which translates roughly to Kingdom of the Netherlands Indies Army as the Netherlands Army in the "East Indies" was known at one time.

Notes

Make

- not marked as "Dutch Service".

Model

- the model designation is not marked on the firearm.
- adopted in 1873, manufactured from 1873 to 1911 and in Dutch military service until 1945.
- the small manufacturer's logo represented by "WDW" within a lateral oval is usually marked on the right side of the receiver/frame ahead of the cylinder: early specimens of this firearm are unmarked and may be diifficult to identify to this manufacturer.
- features and caliber determine the model:
- solid six screw receiver/frame with rear-swinging loading gate on the right side with its lateral leaf-spring, in caliber 9.4MM DUTCH REV cartridge, octagonal barrel, single/double action with rebounding spurred hammer, walnut panels on broom-handle grip with thumb-web prawl and lanyard ring on the bottom.
- Note: the year of manufacture is usually marked on the lower right fore-frame.
- any number found below the date of manufacture is not relevant to the identification of these firearms.
- during the 1930s the firm of L. Ancion-Marx of Liege, Belgium produced a copy of the Dutch M73 revolver, offered as the "Nederlandsche Gouvernements Revolvers" (some equipped with an ejector rod on the right side).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's markings may be marked on the right side of the receiver/frame ahead of the cylinder as "WDW" in an oval: some early specimens of this firearm may be difficult to identify to this manufacturer as they are not marked. - do not confuse with other Dutch model 1873 revolvers as produced by other manufacturers as follows: - JFJ Bar, Delft (marked "J.F.J. BAR DELFT" in an oval); - De Beaumont, Maastricht (marked "DE BEAUMONT" over "MAASTRICHT"); - P Stevens, Maastricht (marked "P. STEVENS" over "MAASTRICHT"); or - the Werkplaats Braagbare Wapenen (WDW) at Hembrug (either marked "HEMBRUG", or marked with "WDW" in an oval).
Action	- solid frame, double action revolver.
Serial Number	- serial number is marked on the receiver/frame under the left grip and on the left side of the barrel. - revolvers manufactured by WDW at Delft fall into two serial-number groups: between 3751 and 8000, or between 9300 and ~12300.
Calibre	- caliber designation not marked on the firearm.
Remarks	- this model is sometimes refered to as Old Model (OM), and was issued to the "KNIL" which translates roughly to Kingdom of the Netherlands Indies Army as the Netherlands Army in the "East Indies" was known at one time.

Notes

Make

- The make is not marked on the firearm.

Model

- This is a "constabulary"-style double-action revolver manufactured for use by Dutch police and militia in the Dutch East Indies/Indonesia between the late 1870s and the Second World War.
- The model designation is not marked on the firearm.
- Features include: loading gate on the right side; ejector rod contained inside the cylinder pin; "broom handle" style grips; and a lanyard loop at the butt.

Manufacturer

- The manufacturer is not marked on the firearm.
- Belgian proof marks were observed.

Serial Number

- The serial number was observed on the receiver/frame under the grips.

Notes

Make

- not marked as "Dutch Service".
- the Make designation is derived from the fact that the original 1873 service model was adopted by the Dutch Military in 1873 as the "Service" handgun for the armed forces.

Model

- the model designation is not marked on the firearm.
- this firearm would have been manufactured by the firm of J.F.J. Bar from circa 1880 until 1908; operations ceased in 1908 with the death of the owner, J.F.J. Bar.
- this model is also known as the 1873 KIM or Klein model which translates into English as "small".
- features and caliber determine the model:
- the main recognition feature is the 130MM barrel length.
- features include: solid six screw receiver/frame with rear-swinging loading gate on the right side with a lateral leaf-spring; octagonal barrel; single/double action trigger mechanism with rebounding spurred hammer; walnut panels on broom-handle grip with thumb-web prawl and lanyard ring on the bottom.
- Note: the year of manufacture is usually marked on the lower right fore-frame.
- any number found below the date of manufacture is not relevant to the identification of these firearms.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's markings are usually found on the right side of the receiver/frame ahead of the cylinder. - Do not confuse with other Dutch Service model 1873 revolvers as produced by other manufacturers as follows: P. Stevens, Maastricht De Beaumont, Maastricht Werkplaats Draagbare Wapenen (WDW), Bandoeng, Java, Indonesia Artillerie-Inrichtingen, Hembrug (Military arsenal). - Note: during the 1930s the firm of L. Ancion-Marx of Liege, Belgium produced a copy of the Dutch M73 revolver, offered as the "Nederlandsche Gouvernements Revolvers" (some equipped with an ejector rod on the right side).
Serial Number	- serial number is marked on the receiver/frame under the left-hand grip and on the left-hand side of the barrel. - serial numbered between 7,800 and 9,100.
Canadian Law Comments	1`w- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Remarks	- this model is sometimes refered to as Old Model (OM), and was issued to the "KNIL" which translates roughly to Kingdom of the Netherlands Indies Army as the Netherlands Army in the "East Indies" was known at one time.

118254 - 2	9.4MM DUTCH REV	6	130	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- not marked as "Dutch Service".
- the Make designation is derived from the fact that this model was adopted by the Dutch Military in 1873 as the "Service" handgun for the armed forces.

Model

- the model designation is not marked on the firearm.
- the 1873 KIM or Klein model translates into English as "small".
- this firearm would have been made by the firm of Edouard de Beaumont, circa 1882 until the end of production in 1911.
- features and caliber determine the model:
- the main recognition feature is the 130MM barrel length.
- features include: solid six screw frame/receiver with rear-swinging loading gate on the right side with a lateral leaf-spring, in caliber 9.4MM Dutch Revolver, octagonal barrel, single/double action trigger mechanism with a rebounding spurred hammer, walnut panels on broom-handle grip with thumb-web prawl and lanyard ring on the bottom.
- Note: the year of manufacture is usually marked on the lower right fore-frame.
- any number found below the date of manufacture is not relevant to the identification of these firearms.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "DE BEAUMONT MAASTRICHT" is marked on the right side of the receiver/frame - Do not confuse with other Dutch Service model 1873 revolvers as produced by other manufacturers as follows: P. Stevens, Maastricht Werkplaats Draagbare Wapenen (WDW), Bandoeng, Java, Indonesia Artillerie-Inrichtingen, Hembrug (Military arsenal). - Note: during the 1930s the firm of L. Ancion-Marx of Liege, Belgium produced a copy of the Dutch M73 revolver, offered as the "Nederlandsche Gouvernements Revolvers" (some equipped with an ejector rod on the right side).
Serial Number	- serial number is marked on the receiver/frame under the left-hand grip and on the left-hand side of the barrel. - serial numbered between 7,800 and 9,100.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Remarks	- this model is sometimes refered to as Old Model (OM), and was issued to the "KNIL" which translates roughly to Kingdom of the Netherlands Indies Army as the Netherlands Army in the "East Indies" was known at one time.

FRT Report

Firearm Reference Number (FRN): 118210
Make: Dutch Service
Model: 1891 Dutch East Indies

Summary

Make:	Dutch Service
Model:	1891 Dutch East Indies
Manufacturer:	Bar, J F J
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	NETHERLANDS
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
118210 - 1	9.4MM DUTCH REV	6	113	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	
118210 - 2	9.4MM DUTCH REV	6	113	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is not marked on the firearm.

Model

- the model designation does not appear on the firearm.
NOTE: the year of issue of the firearm is usually located on the left side of the receiver/frame, just in front of and above the trigger.
- the firearm was designed in 1891 and was known as the M91 in police and military service.
- this firearm was in Dutch Military use until 1945.
- features and caliber determine this model.
- features include: octagonal barrel; solid five screw receiver/frame with under barrel spring loaded extractor rod; double action with rebounding hammer; hinged loading gate on right side of receiver/frame; two piece checkered wooden grips with metal butt cap and lanyard ring; beaded blade front sight and notch in the top strap for the rear sight.
- there are four distinct variations of the M91 Dutch East Indies revolver:
1) the original contract of 3754 revolvers, manufactured from 1894-5 by either WDW (using Bar-supplied parts) or JFJ Bar. Bar had originally agreed to supply complete revolvers, but as time progressed, Bar fell further behind schedule, and more and more of the contract had to be completed by WDW. These revolvers were serial numbered from 1 through 3754, and will bear Dutch inspector's/acceptance marks (usually consisting of a crowned "B" on all major parts). They will also usually (not always) bear issue dates on the left forward side of the frame (1895), along with unit issue marks on the left side of the frame above the grip;
2) the second contract of 2200 revolvers, manufactured entirely by L. Wittich, for a contract issued in 1909; these revolvers continued the serial number range from the first series, from 3755 through 5954, and will also bear Dutch inspection/acceptance marks;
3) in 1920, a third contract for M91 revolvers was issued, this time to Vickers-Armstrong of England, for 5830 revolvers for issue to the Dutch East Indies Police. These revolvers turned out to be of substandard quality, and had to be sent to Fabrique National of Belgium, to be completely reworked. These revolvers had serial numbers ranging between 1 and 9000 in several blocks, but all bear English proof marks on the top right of the barrel; and
4) private copies of the M91 revolver were also made by Bar, Beaumont, and Munts in Holland, and by Nagant, and Ancion Marx in Belgium; for private sale to Dutch officers and for civilians heading to the Dutch East Indies.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is marked on the right front side of the frame, forward of the cylinder, with "JFJ BAR DELFT" in an oval. - these revolvers were actually assembled by WDW in Delft, Holland, from parts supplied by the Jean Francois Joseph Bar company (also of Delft). Although Bar had originally contracted to supply complete revolvers, they were heavily involved in other contracts for the Dutch Army and Navy, and could not meet their original terms, so they instead supplied parts for completion by WDW. - JFJ Bar was in business from 1883 to 1908 in Delft, Netherlands.
Action	- solid receiver/frame, fixed cylinder revolver with an ejector mounted on the right-hand side.
Serial Number	- serial number is marked on the receive/frame and on major component parts, internally and externally. - serial number range from 1 to 3754
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

18564 - 5	9.4MM DUTCH REV	6	113	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is not marked on the firearm.

Model

- KNIL translates roughly to Kingdom of the Netherlands Indies Army.
- the model designation does not appear on the firearm.
- firearms were manufactured from 1891 to at least 1925.
NOTE: the year of issue of the firearm is usually located on the left side of the receiver/frame in front of and above the trigger.
- a lighter, smaller version of the M1873 Dutch Service revolver.
- designed in 1891 and was known as the M/91. It was adopted into military use in 1894 and is sometimes referred to as the M/94 and was in military use until 1945.
- features include: octagonal barrel; solid five screw receiver/frame with an under barrel spring loaded extractor rod; double action with rebounding hammer; hinged loading gate on right side of receiver/frame; two piece checkered wooden grips with metal butt cap and lanyard ring; beaded blade front sight and notch in the top strap for the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer may not be marked on the firearm.
- this firearm was designed by Captain Kuhn, the Superintendent of the Indies Small Arms Arsenal at Bandoeng.

Canadian Law Comments

- "Dutch Service" "1891 Dutch East Indies" revolvers manufactured before January 1, 1898, in calibre 9.4MM DUTCH REV or 10 MM SOERABAJA, are classified as an "Antique Firearm" in Canada.

Notes

Make

- "E3 ARMS" was observed marked on the right side of the receiver/frame below the "E3 ARMS" logo of a stylized "E" in front of a "3" which form a six-pointed star in the centre.

Model

- "Omega-15" was observed marked on the right side of the receiver/frame on the magazine housing.
- "Omega-15" is of the design commonly known as the AR-15/M16.
- "Omega-15" is sold as a receiver/frame only.
- features include: round barrel with threaded muzzle; post front sight; handguard; flat top upper assembly with integral accessory rail; polymer receiver/frame; magazine release is located on the right side of the receiver/frame; safety selector is located on the left side of the receiver/frame; integral enlarged trigger guard; pistol grip; collapsible butt-stock; black finish.

Manufacturer

- "E3 ARMS" was observed marked on the right side of the receiver/frame on the magazine housing.
- "E3 ARMS" logo of a stylized "E" in front of a "3", which form a six-pointed star in the centre, was observed on the right side of the receiver/frame on the magazine housing.
- "L.H.C. AZ" was observed on the right side of the receiver/frame.
- "E3 Arms" is located in Lake Havasu City, Arizona, U.S.A.
- "E3 Arms" was established in 2012.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number was observed on the left side of the receiver/frame. - serial number consisted of the letter prefix "A" followed by five digits. - serial number rationalization unknown.
Calibre	- "MULTI-CAL" was observed marked on the right side of the receiver/frame on the magazine housing.
Shots	- detachable box magazine.

Notes

Make

- "EAA ROCKLEDGE, FL" is marked on the right side of the slide.
- "EAA" is the acronym for European American Armory.
- European American Armory Corporation is an importer and distributor established in the 1990s.
- European American Armory Corporation is based in Florida, U.S.A.

Model

- importation began in 2007.
- same general specifications as the EZ Pistol version except for the shorter slide/barrel combination and a more compact receiver/frame.
- features include: ambidextrous controls (slide release, magazine release and decocker); single and double action; loaded chamber indicator; aluminum receiver/frame and machined steel slide with integral accessory rail; firing pin block safety; full length claw extractor; fixed three dots sight system; black or chrome finishes available.
- overall length for a 89mm (3.5") barrel is 184mm (7.25"); average weight is 0.85kg (30oz).

Manufacturer

- may be marked "ZASTAVA SERBIA" on the firearm.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- located on the right side of the receiver/frame and repeated on the right side of the slide. - "ZAS" letters prefix observed.
Calibre	- marked on the barrel over the chamber area.
Shots	- detachable box magazine.

Notes

Make

- "EAA" is the acronym for European American Armory.
- European American Armory Corporation is an importer and distributor established in the 1990s.
- European American Armory Corporation is based in Florida, U.S.A.

Model

- this firearm is a variant of the IZH-27 shotgun design, with double non-selective triggers and selective ejectors.
- the IZH-94 is built in rifle over shotgun (the "Sever", or "North") and shotgun over rifle (the "Taiga", or "Forest") versions.
- also available in an over/under double rifle version (the "IZH-94 Express").
- this firearm is a conventional over/under box lock shotgun design and may or may not be marked "IZH-94" (or marking may appear in Cyrillic as "I3H-94")
- available in different grades of engraving and embellishment.
- features include: automatic tang safety; forearm and buttstock with pistol-grip of hardwood; extractors and non-selective ejectors; double non-selective triggers; rifle sights and blued metal finish.
- combination guns of this design (or other variants of similar design) may be sold by other retailers.
- this combination gun can be either a rifle barrel over a shotgun barrel ("Sever") or a shotgun barrel over a rifle barrel.
- overall length for 600mm barrel is 1029mm (40.5"), average weight is 3.63kg (8lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- over/under pattern; shotgun barrel over rifle barrel.
Serial Number	- marked on the receiver/frame.

Notes

Make

- "EAA" is the acronym for European American Armory.
- European American Armory Corporation is an importer and distributor established in the 1990s.
- European American Armory Corporation is based in Florida, U.S.A.

Model

- this is an unusual pump-action shotgun that can feed from both a detachable box magazine AND an integral tube magazine; the shooter flips a switch on the side of the box magazine to select which magazine the firearm will feed from; checkered hardwood pistol-grip stock and forearm.
- features include: blued finish; slot and blade fixed rifle sights; "ringtail"-style forearm; and checkered pistol-grip walnut stock.

Serial Number

- serial number is usually marked on the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- the box magazine is available in 3- and 5-round capacities, while the tube magazine is available in 4- or 5-round capacities; therefore, depending on which magazines are used or attached, this firearm can have a total capacity of 7, 8, 9, or 10 rounds.

Notes

Make	- "EAA" may be marked on the firearm. - "EAA" is the acronym for European American Armory. - European American Armory Corporation is an importer and distributor established in the 1990s. - European American Armory Corporation is based in Florida, U.S.A.
Model	- "THOR" is marked on the left side of the barrel/upper assembly. - this is a single-shot handgun similar in concept to the Pachmayr Dominator, whereby a single-shot "upper" replaces the slide/barrel assembly to transform a 1911-style handgun into a single-shot handgun for hunting or metallic-silhouette competition. - features include: barrel assembly without sights but with a Weaver type base located on top of the upper receiver/frame for mounting an optical sight; manual thumb and extended beavertail grip safeties; exposed hammer with an extended spur; adjustable, single action trigger; the magazine release has been converted into a "break-opening" lever; fitted with a dummy magazine with an extended aluminum floorplate which can be used as a finger rest; blued finish; wrap-around rubber grip. - overall length for a 356mm (14") barrel is 406mm (16"), average weight 2.27kg (5lbs).
Manufacturer	- "TANFOGLIO" is marked on the left side of the barrel assembly.
Action	- hinged barrel design.
Calibre	- calibre designation may be marked on the barrel assembly.
Other Markings	- "MADE IN ITALY" may be marked on the firearm.

Notes

Make

- "EAA" is marked on the left side of the receiver/frame.
- "EAA" over "COCOA, FL." is marked on the right side of the receiver/frame.
- "EAA" is the acronym for European American Armory.
- European American Armory Corporation is an importer and distributor established in the 1990s.
- European American Armory Corporation is based in Florida, U.S.A.

Model

- introduced in 1991.
- the "Windicator" revolver was originally offered in three grades. The "Standard" grade featured a Zamak (lightweight alloy) receiver/frame and gripframe with fixed sights on all variations except for those in 22 calibre with a 152mm barrel. The "Tactical" grade was also made with a Zamak receiver/frame and gripframe and was available with a 102mm (4") compensated barrel or a 51mm (2") barreled version with a "bobbed" hammer (the spur was removed). The "Target" grade featured a 152mm barrel with a steel receiver/frame and a Zamak gripframe, and adjustable sights. More recent European American Armory (EAA) product literature refers to this model as simply the "Windicator double action revolver", available with a steel or alloy receiver/frame.
- features include: blued finish; double action trigger mechanism; swing-out cylinder for loading and unloading, release latch is located on the left side of the receiver/frame; shrouded ejector rod; fixed or adjustable rear sight.

Manufacturer

- "HWM" in a circle is marked on the side of the firearm.
- "HWM" denotes "HERMANN WEIHRAUCH MELRICHSTADT".

Serial Number

- sample examined used sequential numbers, marked on the right side of the receiver/frame.

Calibre

- this model was offered as a "convertible" whereby it came with two cylinders in different calibres such as 22 LR/22 MAG or 38 SPL/357 MAG.
- the sample examined had the calibre designation marked on the left side of the barrel as "Cal. .38 SPECIAL" over ".357 MAG". The cylinder was clearly marked "cal.. 357 MAG".

Importer

- marked on the right side of the receiver/frame.

Other Markings

- will usually bear German proof marks.

Notes

Make

- "EAA-COCOA-FLA" may be marked on the left side of the receiver/frame.
- "EAA" is the acronym for European American Armory.
- European American Armory Corporation is an importer and distributor established in the 1990s.
- European American Armory Corporation is based in Florida, U.S.A.

Model

- this is a version of Tanfoglio's "Witness" series of semi-automatic pistols, with a decocking lever in place of the manual safety, double/single action. Appearance and function follow the basic CZ-75 design. This pistol is also available in both "Compact" and a "Carry-Comp" version.

Manufacturer

- Tanfoglio is a handgun manufacturer based in Gardone, Italy; they specialize in producing assorted variations of the "Witness" pistol, a CZ-75 derived design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- serial number usually marked on the right hand side of the receiver/frame.
Shots	- detachable box magazine.

Firearm Reference Number (FRN): 122154
Make: EAA
Model: Witness-PC

Summary

Make:	EAA
Model:	Witness-PC
Manufacturer:	Tanfoglio, Fratelli
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122154 - 1	9MM LUGER	10	93	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EAA" is the acronym for European American Armory.
- European American Armory Corporation is an importer and distributor established in the 1990s.
- European American Armory Corporation is based in Florida, U.S.A.

Model

- "WITNESS - P C" is marked on the left side of the slide.
- the "WITNESS - PC" model differs from the "WITNESS P COMPACT" model as it does not have the external strengthening ribs off of the locking-block protrusion or the muzzle cocking serrations that are features of the "WITNESS P COMPACT" model.
- features include: black polymer grip and receiver/frame; blue/black or chromed slide finish; single and double action trigger mechanism; looped hammer; extended beavertail tang; checkered front and back straps; open sights or optional adjustable rear sight.
- also available in a full-size version as the "Witness-PS" (longer receiver/frame and barrel).

Manufacturer

- manufacturer's designation of "FT" is usually marked on the firearm.

Action

- recoil operated.

Serial Number

- marked on a metal insert on the left side of the receiver/frame above the grip.

196171 - 1	42 FRONT-LOADING CUP PRIMER	6	152	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EAGLE ARMS CO. NEW YORK" is marked on the barrel.

Model

- The model designation is not marked on the firearm.
- "PATENTED JULY 12, 1859 & JULY 2, 1863" is marked on the cylinder.
- Revolvers were manufactured under these patents by "Plant Manufacturing Company", "Eagle Arms Company" and "Reynolds, Plant and Hotchkiss" and were distributed and sold by Merwin & Bray.
- This is a front loading revolver utilising a cup-primed metallic cartridge designed to circumvent patents held by Rollins & White for a bored-through cylinder controlled by Smith & Wesson. The opening at the rear of the cylinder is smaller allowing only the hammer or ejector rod to pass through.
- Features include: brass receiver/frame with silver plate; under barrel cylinder retention pin; ejector rod mounted to the right side of the receiver/frame to eject cartridges from the rear of the cylinder out through the front; walnut or rosewood grips.
- A scaled down "Front Loading Pocket Model" exists in .28 and .30 cup fire calibres.
- The patents for this design were granted to Willard C. Ellis and John N. White in 1859 and later assigned to A. Hotchkiss, E.H. & A.P. Plant, and H. Reynolds.
- The ejector rod mounted to the side of the receiver/frame patented by H. Reynolds will not be seen on Front Loading Army First Model.

Manufacturer

- "EAGLE ARMS CO. NEW YORK" is marked on the barrel.

Serial Number

- Serial number is marked on the butt strap.
- Observed serial number consisted of four digits.
- Serial number may be repeated on other parts/components.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- The calibre designation is not marked on the firearm.
Other Markings	- "APC" was observed marked on the butt strap under the serial number.

74912 - 1	36 PERCUSSION	6	191	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EAGLE CO." is marked on the barrel.
- "Eagle Co." was a tradename used by the Whitney Arms Company.

Model

- model is not marked on firearm.
- this is the first Model of a "Navy type" single action percussion revolver made by Whitney between 1858 and 1865; these revolvers were made to compete with similar revolvers produced by Colt, after Colt's patents had expired.
- many of these revolvers were actually marked "EAGLE CO.", because these revolvers were not up to the quality standards that Whitney had for his other firearms, and he was afraid of gaining a bad reputation for those guns.
- these revolvers resemble a Remington 1875 without the under barrel web, and with a very thin topstrap on the receiver/frame; two piece walnut grips, colour case hardened finish, and octagonal barrel. Early guns were made without a loading lever, having only a cylinder pin through the receiver/frame.
- collectors have identified four general "types" of the Navy First Model, and these types can be differentiated by things such as cylinder roll markings, loading lever type, safety notches on the cylinder, and the shape of the junction between the grip frame and receiver/frame proper.
- when these revolvers are marked with Whitney's name, it appears as "E. Whitney" over "N. Haven".

Manufacturer

- manufacturer's designation may be marked on the barrel as:
"E.WHITNEY".

Action

- single action percussion revolver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial number is marked on the receiver/frame starting at "1".

64984 - 1	303 BRITISH	10	543	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EAL" or "E.A.L." is marked on the left side of the receiver/frame.
- "E.A.L." is the abbreviation for Essential Agencies Limited.

Model

- converted/sporterized from 1953 to 1960.
- "Lee-Enfield No 4 MARK 1* Sporter" is not marked on firearm.
- ".303 CAL. E.A.L. - XXXX" or "EAL XXXX." (XXXX represents a four digit serial number) are usually marked on the left side of the receiver/frame.
- features include: either a flip-type two position rear aperture sight mounted on the rear of the receiver or a barrel mounted folding double leaf express type sight, post front sight.
- receiver/frame bodies are modified from their original profile in that the charging bridge and sight mounting block of the original No 4 MARK 1* receiver have been milled off, metal surfaces are polished and blued, and the wood stock is of a sporter profile with a rubber recoil pad fitted by the manufacturer.

Manufacturer

-Essential Agencies Limited (EAL) was founded in 1945.
-Essential Agencies Limited (EAL) was based in Markham, Ontario, Canada.
-Essential Agencies Limited (EAL) was a sporting goods importer/distributor.
-Essential Agencies Limited (EAL) built sporter rifles based on surplus Lee-Enfield No 4 MARK 1* receiver/frames made by Canadian Arsenals Ltd. from 1953 to 1960.

Action

- turn-bolt action.

Serial Number

- located on left side of receiver/frame.
- consists of four digits without letter prefix or suffix.
- serial number range is between approximately 2000 and 6999.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- ".303 CAL" may be marked on left side of receiver/frame.
Shots	- detachable box magazine.
Remarks	- this model was manufactured using surplus Canadian No 4 MARK 1* receivers that were unmarked and non-serialized prior to being built up as complete rifles by EAL. - produced in both a military and commercial version, the receiver/frame of both variants are identical. - originally sold with either a 5 or 10 round magazine, both variants accept a manufacturers standard 10 round detachable box magazine.

134932 - 2	69 PERCUSSION	1	229	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the "East India Company" name is not marked on the firearm; the company identity is confirmed by the East India Company trademark symbol engraved on the rear of the lock plate and on the top of the barrel.
- the Company trademark consists of a "4" over a heart shape with the letters "V" on the top, an "I" on the right side, a "C" at the bottom and an "E" on the left side separated by a diagonal cross.
- East India Company was in business from 1600 to 1874.
- East India Company headquarters were located in London, England.
- East India Company was also known as the East India Trade Company, English East India Company or the Honourable East India Company (HEIC).
- East India Company was granted an English Royal Charter, under the name Governor and Company of Merchants of London Trading into the East Indies, by Elizabeth I on 31 December 1600.
- East India Company traded mainly in cotton, silk, indigo dye, saltpeter, tea, and opium.
- East India Company ruled large areas of India, exercising military power and assuming administrative functions, to the exclusion, gradually, of its commercial pursuits.
- East India Company ruled in India from 1757 to 1858.
- East India Company was dissolved on 1 January 1874.

Model

- model designation is not marked on the firearm.
- this is a commercial version of a British Ordnance "Light Dragoon Pistol" made under contract for the East India Company.
- year of proofing is marked on top of the East India Company trade mark on the lock plate and/or on the top of the barrel.
- originally a flintlock pistol, it may have been converted to a percussion pistol.
- this type of pistol is also referred to as: cavalier's pistol, chevalier pistol, horse pistol, horseman's pistol, dragoon pistol, holster pistol.
- features include: steel barrel; walnut stock; left side serpentine shaped brass retaining plate with two screws; ram rod; brass trigger guard and butt cap.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "HARRISON" is marked on the lock plate and the barrel. - "HARRISON" was located in Manchester, England circa 1800.
Action	- muzzle loading, flint or percussion ignition.
Serial Number	- known example did not have a serial number.

136979 - 1	69 PERCUSSION	1	229	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- the "East India Company" name is not marked on the firearm; the company identity is confirmed by the East India Company trademark symbol of a "rampant lion facing to the left holding a crown" engraved on the lock plate; the other East India Company trademark consists of a "4" over a heart shape with the letters "V" on the top, an "I" on the right side, a "C" at the bottom and an "E" on the left side separated by a diagonal cross - this mark was apparently never used on this model series of pistol.
- East India Company was in business from 1600 to 1874.
- East India Company headquarters were located in London, England.
- East India Company was also known as the East India Trade Company, English East India Company or the Honourable East India Company (HEIC).
- East India Company was granted an English Royal Charter, under the name Governor and Company of Merchants of London Trading into the East Indies, by Elizabeth I on 31 December 1600.
- East India Company traded mainly in cotton, silk, indigo dye, saltpeter, tea, and opium.
- East India Company ruled large areas of India, exercising military power and assuming administrative functions, to the exclusion, gradually, of its commercial pursuits.
- the East India Company ruled in India from 1757 until the Sepoy uprising in 1857, after which the British Government assumed control of India circa 1858.
- the East India Company was dissolved on 1 January 1874.

Model

- no model name is marked on this firearm; the model designation is derived from the characteristics of the firearm.
- year of proofing may be marked on the lock plate; British proofmarks are usually apparent on the top rear of the barrel.
- introduced circa 1770's and produced into the early 1800's.
- these pistols were made for the East India Company by various British makers.
- originally a flintlock pistol, it may have been converted to percussion ignition.
- features include: muzzle loading, originally flintlock ignition; steel barrel; full walnut stock with brass mounts comprising butt cap with lanyard ring, trigger guard and forend cap with captive swivel-type ram rod; early versions of this model had a rounded brass butt which was soon followed by a flat butt with heavy brass cap and a lanyard ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- muzzle loading, flintlock or percussion ignition.
Serial Number	- there is no research information to confirm that these firearms were serial numbered.

Notes

Make

- The make is marked on the left side of the firearm.
- "East Wind" is the name for a series of Chinese target handguns manufactured by Chinese State Arsenal, Factory 626.

Model

- Based on the "TsKIB SOO MC-4" design.
- "East Wind 4" is marked on the left side of the receiver/frame below the rear sight.
- "East Wind" is marked as two Chinese characters pronounced "Dong Feng".
- This is the first of two target revolver models named "East Wind 4" manufactured by Chinese State Arsenal, Factory 626.
- A later model also known as the "East Wind 4" existed as a distinct design circa. 1980s, often marked "ZS01".
- Features include: Raised, spring steel front sight with adjustment screw; heavy target barrel steps down to a thinner profile at the receiver/frame; swing-out ejection rod; Nagant-style movable gas-sealed cylinder; right side swing-out loading gate; exposed spur hammer; wooden target pistol grips in various shapes.

Manufacturer

- The arsenal stamp is marked on the left side of the receiver/frame.
- The stamp consists of the numbers "66" inside a triangle.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- The serial number consists of five digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- "East Wind" is the name for a series of Chinese target handguns manufactured by Chinese State Arsenal, Factory 626.
- "East Wind 1" is a series of semi-automatic handguns chambered in .22 Short. Designated SS for "Su She" (rapid fire) including models SS01, SS02, SS03.
- "East Wind 2" is a series of bolt action handguns chambered in .22LR. Designated MS for "Man She" (slow fire) including models DF-2, MS01, and MS02.
- "East Wind 3" is a series of semi-automatic handguns that are copies of the "Margolin MCM" chambered in .22LR. Designated PS for "Puji Sheji" (promoting marksmanship) including models PS01, PS02, PS03.
- "East Wind 4" is a series of gas-seal revolver handguns. Designated ZS for "Zhuanlun Shouqiang" (revolver handgun) including models ZS01 chambered in 7.62 Nagant and ZS01-1 chambered in 9mm.
- An earlier iteration of the "East Wind 4" existed as a copy of the "TsKIB SOO MC-4" Nagant target revolver from the 1960s.
- "East Wind 5" is a series of semi-automatic handguns chambered in .22LR. Designated BS for "Biaozhun Shouqiang" (standard handgun) including models BS01, BS02, BS03.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "EASTERN ARMS COMPANY 101.1" is marked on the left side of the receiver/frame.
- "EASTERN ARMS COMPANY" was a tradename used by Sears Roebuck & Company from 1923 to 1946.
- "Eastern", "Eastern Arms Co" and "Eastern Firearms Co" were trade/brand names used on shotguns manufactured by Meriden Firearms Company between 1905 and 1915, Stevens/Savage after 1915, Andrew Fyreberg & Company between 1905 and 1907, and Iver Johnson's Arms & Cycle Works.
- "Eastern Arms Company" was a trade name used on revolvers sold by Sears Roebuck & Company and F. Biffen & Co. of Chicago and manufactured by Meridan Firearms Co.

Model

- "EASTERN ARMS COMPANY 101.1" is marked on the left side of the receiver/frame.
- this is a Stevens model "94B" sold under the Eastern Arms Company name and model designation.
- features include: blued round tapered barrel with bead front sight; colour case hardened front hinged receiver/frame with top tang mounted break open lever; exposed spur hammer; single action trigger mechanism; walnut forearm and semi-pistol grip buttstock.

Serial Number

- sample examined was not numbered.
- "94B" marked on the right side of the receiver/frame is not a serial number; this is a Stevens model designation.

Calibre

- marked on the left side.

Remarks

- Case hardened receiver/frame, automatic ejector and a visible spurred hammer. Tang mounted breech opening lever. A varnished, pistol grip, walnut stock (later models have checkering) with rubber butt plate and forearm with metal joint. Same as the Stevens 94B with some possible internal and/or external modifications made for Eastern Arms. Has a full choke barrel.

Notes

Make

- "EASTERN ARMS" was observed marked on the left side of the receiver/frame.
- "MADE IN U.S.A." was observed marked on the barrel on one example.
- "EASTERN ARMS COMPANY" was a tradename used by Sears Roebuck & Company from 1923 to 1946.
- "Eastern", "Eastern Arms Co" and "Eastern Firearms Co" were trade/brand names used on shotguns manufactured by Meriden Firearms Company between 1905 and 1915, Stevens/Savage after 1915, Andrew Fyreberg & Company between 1905 and 1907, and Iver Johnson's Arms & Cycle Works.
- "Eastern Arms Company" was a trade name used on revolvers sold by Sears Roebuck & Company and F. Biffen & Co. of Chicago and manufactured by Meridan Firearms Co.

Model

- "105.9" over the "serial number" was observed marked on the lower tang of the receiver/frame, behind the trigger guard.
- "105.9", a dash (-), and the serial number was observed marked on the left side of the barrel lug.
- features observed: bead front sight and groove in the top of the receiver/frame for a rear sight; round smooth bore barrel; front hinged receiver/frame with top tang mounted break open lever; automatic ejector; exposed spurred hammer; single action trigger mechanism; wood forearm and semi-pistol grip buttstock; blued finish.

Action

- hinged barrel design.

Serial Number

- serial number was observed marked on the lower tang of the receiver/frame, under the model number "105.9".
- serial number was repeated on the left side of the barrel lug, after the model number "105.9", example "105.9-2002".

Notes

Make

- "D.S. EBERSOL" is marked on the firearm.

Model

- manufactured prior to 1881.
- model designation is not marked on the firearm.
- this is a standard-pattern underhammer percussion "saw-handle"-style pistol, made using Ruggles' 1826/28 patent for an underhammer lock.
- features include: blued/browned finish; part-round/part-octagon barrel; fixed open sights; underhammer percussion lock; varying styles of triggers; and a "saw-handle"-profile of the grip, generally coming down to a rounded point at the butt. These pistols almost universally have a brass or German silver strap running around the grip of the pistol, may have brass or German silver inlays, and are stamped or engraved with a variety of leaves, vines, stars, and so on.

Manufacturer

- "D.S. EBERSOL" is marked on the firearm.
- Daniel S. Ebersol was located in Ottawa, Illinois, U.S.A. from 1855 to 1880.
- Daniel S. Ebersol produced Ruggles-pattern saw-handle underhammer percussion pistols.
- Daniel S. Ebersol and David Krouse were in a partnership known as "Ebersol & Krouse".
- "Ebersol & Krouse" was located in Ottawa, Illinois, U.S.A. from 1872 to 1880.

Action

- muzzle-loading.

Notes

Make

- "ECHASA" is an acronym for Echave Arizmendi y Cia SA.
- "ECHASA" trade name was first used by Echave Arizmendi y Cia in the early 1950's.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "FAST" is marked on the side of the slide.
- this model is the Echasa sold under a different name.
- the "ECHASA" was introduced in the early 1950s.
- this is similar to the Walther PP pistol, with many interior, and exterior changes, the most significant difference is in the method of dismantling, instead of pivoting the trigger guard like in the Walther, a sliding catch at the rear of the receiver/frame allows the slide to be removed.
- severals variants were made and were sold under differents "catalog" or "product numbers" but these differences were matters of finish and calibre.
- a consistant identification key for these catalog numbers remain in the first two digits wich was always refering to the caliber;

ex; Fast 221 = 22 LR calibre
Fast 631 = 6.35MM calibre
Fast 761 = 7.65MM calibre
Fast 901 = 9MM BROWNING SHORT calibre

Manufacturer

- Echave Arizmendi y Cia's logo is normally marked on the left side of the slide.

Action

- blow back operated.

Serial Number

- serial number located on the left side of the receiver/frame just above and forward of the trigger.

Calibre

- marked on the left side of the slide.

Shots

- detachable box magazine.

Remarks

- a rationalisation of some of the products code is reproduced here;

Fast 221; 22 LR calibre with Blue Finish, Black Plastic Grips.
Fast 631; 6.35MM calibre with Blue finish, Black Plastic Grips.
Fast 633; 6.35MM calibre Chrome finish, Pearl Grips.
Fast 761; 7.65MM calibre with Blue Finish, Black Plastic Grips.
Fast 901; 9MM BROWNING SHORT calibre with Blue Finish, Black Plastic Grips.
Fast 902; 9MM BROWNING SHORT calibre with Chrome Finish, Walnut Grips.

18723 - 4	22 LR	10	118	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "ECHASA" is an acronym for Echave Arizmendi y Cia SA.
- "ECHASA" trade name was first used by Echave Arizmendi y Cia in the early 1950's.

Model

- this was a copy of the famous Luger toggle lock action and a copy of the German Erma LA-22.
- manufactured between early 1950s and 1970.
- it was an exact copy, except for the trigger assembly and a less robust mainspring, due to the lesser force involved for the caliber.
- "LUR" is stamped on left side of the receiver/frame.
- "PANZER" is molded into the black plastic grips.
- sometimes referred as the model 310, but this is more a catalog number or an ordering number, than a model name.

Manufacturer

- Echave Arizmendi y Cia's logo is normally marked on the left side of the slide or on the grip plates.

Action

- blow back operated.

Serial Number

- located on the right side of the receiver/frame, over the trigger.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Firearm Reference Number (FRN): 119292
Make: Echeverria
Model: Ruby Type

Summary

Make:	Echeverria
Model:	Ruby Type
Manufacturer:	Echeverria, Hijos de A
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119292 - 2	32 AUTO	9	89	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
119292 - 1	7.65MM	9	89	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "HIJOS DE A. ECHEVERRIA - EIBAR" is usually marked on the left side of the slide.

Model

- model is not marked on the firearm.
- model name is derived from the original "Ruby" style of blowback semi-automatic pistol as produced initially by Gabilondo of Spain for the French Army during the First World War; this pistol was subsequently copied/produced by many Spanish manufacturers; also commonly known as the "Eibar Type".
- this style of handgun is loosely based on the FN-Browning model 1906 design.
- research indicates that the firm of Hijos de A Echeverria produced Ruby pistols under contract for Gabilondo, circa 1916 to 1918; the firm did not survive the Spanish Civil War circa 1940 which would place the date of manufacture for this model of pistol from 1916 to 1940.
- features include; hammerless; detachable box magazine; manual safety/slide lock lever located on the left side of the receiver/frame above the trigger; no grip safety; fixed front sight, notch rear sight; magazine release located in the heel of the butt; may have a lanyard ring on the bottom left side of the grip frame; curved grasping grooves at the rear of the slide; blued finish.

Manufacturer

- "HIJOS DE A. ECHEVERRIA - EIBAR" is usually marked on the left side of the slide.

Action

- blowback operated.

Serial Number

- known examples have had the serial number marked on the right side of the receiver/frame above the trigger.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- The make is marked on the left side of the receiver/frame.
- "ECHO1" is located in South El Monte, California U.S.A..

Model

- "ASR" is marked on the left side of the receiver/frame.
- "ASR" stands for "Advanced Sniper Rifle".
- "ASR" is based on the "Japanese Maruzen APS SR-2" design.
- May also be known as "ASR SR-2".
- "ASR" is a spring operated, bolt action rifle with an "AR" type pistol grip and collapsible stock.
- Features include: shrouded barrel; shroud retaining band located close to the end of the forestock; bipod attachment spigot hidden at the front of the forestock; detachable magazine box on the bottom of the forehand; right or left side angle down bolt handle with ribbed, tubular bolt knob; close top receiver/frame with optic mount; manual safety lever located at the rear right side of the action; black colored barreled action with black or coloured furniture.

Manufacturer

- The manufacturer is not marked on the firearm.

Action

- Compressed spring air piston.
- Turn bolt operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- Serial number of a referenced example consisted of a four letter prefix (DRIX) and four numbers

Shots

- Detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - Does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "Eclipse" was a trade name/trademark manufactured by Johnson, Bye & Company from 1871 to 1883, Iver Johnson & Company in 1883, and Iver Johson Arms & Cycle Works from 1884 to 1887.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Eclipse was manufactured from 1871 to 1887. - "ECLIPSE" may be marked on the side of the barrel or receiver/frame. - Eclipse is a single shot Derringer type pistol. - features include: blued half round/half octagonal side pivoting barrel; nickel plated receiver/frame; exposed spur hammer; sheated spur trigger; bird's head grip with smooth wood grip plates.
Manufacturer	- manufacture's name is not marked on the firearm.
Action	- side pivoting barrel design.
Serial Number	- serial number range began at 1 and continued to 99,999. The range was then started again at 1.
Barrel	- longer barrels were available by special order.
Remarks	- The profile of Eclipse deringers is relatively distinctive. The hammer spur has very little curve, unlike many deringers of the period. There is a flat area at the bottom front of the frame where the screw/pin holding the barrel is located. There is a distinctive chamfer which flows up from the rear of this flat area and down to the tip of the spurs on each side of the trigger in one continuous arc.

125244 - 2	45 PERCUSSION	1	89	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EGG" over "LONDON" was observed marked on the left side of the receiver/frame.
- "D. EGG" over "LONDON" on a other variant was observed marked on the tang of the receiver/frame.

Model

- Manufactured prior to 1866.

- The model designation is not marked on the firearm.
- Model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- This handgun is intended to be loaded from the breech end of the barrel and as such was originally supplied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- Features include: barrel with lug; boxlock action; exposed hammer centrally located on the receiver/frame behind the chamber or with a side mounted hammer; folding trigger-type or a trigger with trigger guard; may have a metal butt cap with a trap door for the storage of the barrel wrench within the grip stock.

Action

- External percussion cap ignition.

Serial Number

- The serial number is not marked on the firearm.

Shots

- Loading is done by unscrewing the barrel from the receiver/frame, in front of the chamber, so it can be loaded with a ball and powder and screwed back.

Other Markings

- Birmingham and London proof marks are marked on the firearm.

Notes

Make	- the make is not marked on the firearm.
Model	- Introduced in 1960. - the model designation may be marked on the firearm as "RASHID" or "RASHEED". - this is a gas operated, semi-automatic rifle that combines features from a number of different firearms, notably the Siminov SKS Carbine and the Ljungmann AG-42B/Hakim designs; this rifle was an interim issue item to some Egyptian military forces while they were being transitioned from the Hakim/AG-42B to the Kalashnikov AKM. - features include: hardwood pistol-grip stock and upper handguard; folding blade bayonet; detachable box magazine; stripper-clip guide on the triangular bolt cover; blued finish; "wing"-type safety at the rear of the receiver/frame and open adjustable sights.
Manufacturer	- the manufacturer is not marked on the firearm; marked only "MADE IN U.A.R." ("United Arab Republic").
Action	- gas operated.
Serial Number	- numbered on the receiver/frame; these rifles bear original serial numbers in non-Western numerals, may be re-serial numbered in Western numerals (samples have been noted with numbers electro-pencil engraved).
Shots	- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 18750
Make: EIG
Model: E1

Summary

Make:	EIG
Model:	E1
Manufacturer:	Rohm
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
18750 - 1	22 SHORT	6	64	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EIG" or the "EIG" logo is marked on the firearm.
- the "EIG" logo consists of the letters "EIG" within a Bullseye-type target configuration sectioned by the crosshairs of a telescopic sight.
- "EIG" was an importer and distributor of handguns from the 1950's to the 1970's.
- "EIG" was located in Miami, Florida, U.S.A.

Model

- marked "Model EIG E1" on the barrel or on the top of the receiver/frame.
- solid frame, double action revolver.
- cylinder axis pin easily removed and used to eject expended cartridge casings from the cylinder.
- usually an alloy receiver/frame with steel cylinder; barrel may also be alloy material with a steel liner.
- loading gate located on right rear of standing breech.
- West German proofmarks are apparent on the receiver/frame of this firearm.
- this firearm bears a very strong resemblance to the Rohm model RG-10.

Manufacturer

- the Rohm logo of an "R" inside a football shaped oval is usually marked on the grip strap.

Serial Number

- known examples have had six digit numbers without prefix or suffix marked on the front left side of the receiver/frame.

Calibre

- known examples have been marked "Cal. 22 Short" on the barrel.

Other Markings

- known examples were marked, "Germany" or "Made in Germany" on the barrel.

18897 - 3	22 MAG	6	121	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EIG" and/or the "EIG" logo is marked on the firearm.
- the "EIG" logo consists of the letters "EIG" within a Bullseye-type target configuration, sectioned by the crosshairs of a telescopic sight.
- "EIG" was an importer and distributor of handguns from the 1950's to the 1970's.
- "EIG" was located in Miami, Florida, U.S.A.

Model

- "EIG MODEL E 15" over "GERMANY" is marked on the bottom of the butt.
- resembles a Colt 1873 Single Action Army revolver.
- features include: round barrel with ejector rod assembly; solid top receiver/frame with fixed fluted cylinder and right side loading gate; exposed spurred hammer; single action trigger mechanism; fixed sights; black plastic grips with depiction of a buffalo moulded into the grip plate; blued finish.

Manufacturer

- "HS" and/or "H. Schmidt" and/or "Herbert Schmidt" and/or "H. Schmidt Osheim/Rhoen Made in West Germay" is marked on the barrel and/or on the bottom of the butt and/or under the grip plates on the grip strap.
- "Germany" may be marked on the firearm.

Serial Number

- the serial number is located on the bottom front of the receiver/frame just forward of the trigger guard and may be repeated on the underside of the barrel.
- serial number rationalization unknown.
- specimen serial number observed consisted of six digits without prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- caliber may be marked on the barrel and the cylinder.
- this is a convertible firearm.
- the caliber designation is marked on the barrel as "Cal. .22 LR" and the cylinder may read either Cal. .22 LR or Cal. .22 MAGN."

Shots

- removeable cylinder.

Notes

Make

- "ES" trademark logo and "EKOL" are marked on the left side of the barrel.
- "Ekol" and "Voltran" are trade names/trademarks used by Voltran AV Silahlari.

Model

- "EKOL Arda" was observed marked on the left side of the receiver/frame on one example, other examples may have different markings in different places.
- feature include: square shaped barrel; solid top zinc or aluminum alloy receiver/frame with fluted left side swing-out cylinder and a single groove in the top strap for a sight ; exposed spurred hammer; single action trigger mechanism; spur trigger without a trigger guard; black plastic grips; satin nickel or matte black finish.
- overall length with a 22 mm barrel is 100 mm, overall height is 78 mm, and average weight is 0.255 kg.
- Arda is a copy of the Keseru model Micromax with the addition of a swing-out cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Made in Turkey" was observed marked onthe right side of the receiver/frame on one example - Voltran AV Silahlari is located in Istanbul, Turkey. - Voltran AV Silahlari specializes in producing CO2 guns, gas and blank guns. - "Ekol" and "Voltran" are trade names/trademarks used by Voltran AV Silahlari
Action	- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number was observed marked on the right side of the receiver/frame in the front of the cylinder. - serial number may consist of a "EAR" prefix, a dash (-), seven numbers. - serial number rationalization is unknown.
Calibre	- "Cal. 4mm Flobert" was observed marked on the right side of the receiver/frame of one example.
Shots	- swing-out cylinder.
Canadian Law Comments	- the Ekol model Arda revolver does not qualify for exemption under Criminal Code S. 84 (3) (b) (i) as it is a multi purpose design firearm. - the Ekol model Arda revolver is manufactured as a blank or tear-gas-firing pistol ONLY, as a tear-gas-firing pistol that is also capable of firing "traumatic" rubber-ball ammunition and as a conventional firearm discharging bulleted ammunition, depending on the construction of the barrel and cylinder.

Notes

Make - the Ekol logo of "ES" in a circular shape is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "ASI" is marked on the synthetic "clam shell" housing.
- the handgun under the ASI "clam shell" housing, is an EKOL, Model Jackal Dual that is not identified as a Jackal Duo.
- this is one of several versions of gas/blank/traumatic pistols built by the Turkish manufacturers utilizing a handgun inside a synthetic "clam shell" with the capability of full automatic fire. The ASI version of this firearm utilizes a synthetic "clam shell" which encloses all but the interior handgun's grip, trigger guard, trigger and magazine release. The "clam shell" encloses the interior handgun's slide which is operated by means of an operating handle on the left side of the ASI firearm's "clam shell" housing. This firearm has visual impact as it resembles a submachine gun.
- ASI firearm is manufactured in two versions - as a blank- or tear-gas-firing firearm ONLY, and as a tear-gas-firing firearm that is also capable of firing "traumatic" rubber-ball ammunition, depending on the construction of the barrel.
- features include: generalized UZI - SMG appearance; matte black or camouflage finish, with numerous mounting rails moulded into the upper housing to allow the attachment of various sights, grips, lights, lasers, and so on; fixed open sights; a SA trigger mechanism; and a rotating safe-semi-full selector above the trigger-guard.
- to more closely resemble a submachine gun, the internal 130mm pistol barrel is threaded and fitted with an extension to give the appearance of a longer barrel, with an overall length of 195mm
- overall length is 345mm, overall height is 180mm, and the average weight is 1560 grams.

Manufacturer

- manufacturer's name may be marked on the left side of the firearm.
- Voltran AV Silahlari is located in Istanbul, Turkey.
- Voltran AV Silahlari specializes in producing CO2 guns, gas, blank & traumatic firearms.

Action

- blowback operated.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- capable of semi-automatic and full automatic fire.
- fire mode selector mounted on left side of receiver/frame above the trigger.

Serial Number

- serial number rationalization is unknown.
- serial number is usually marked on the left side of the firearm and clam shell.
- serial number observed consisted of a three letter "EAS" prefix, a dash (-), and seven or eight numbers.

Barrel

- this firearm is fitted with a threaded 130mm barrel and has a 65mm barrel extension, to give an overall barrel length of 195mm to function in the EKOL Model ASI, however the barrel extension may not be included in the length of the barrel under Canadian law.

Shots

- detachable box magazine.
- cartridge magazines are subject to capacity limitations in the Regulations appended to the Criminal Code.

Canadian Law Comments

- the Ekol model ASI firearm is a synthetic "clamshell" containing a Voltran manufactured EKOL, Model Jackal Duo handgun capable of full automatic fire.
- this firearm does not qualify for exemption under Criminal Code S. 84 (3) (b) (i) as it is a multi purpose design firearm.
- the Ekol model ASI is manufactured both as a blank or tear-gas-firing firearm ONLY and as a firearm that is also capable of firing "traumatic" rubber-ball ammunition, wholly dependent on the construction of the barrel and the two firearms share a common receiver/frame.
- this firearm is fitted with a threaded 130mm barrel and has a 65mm barrel extension, to give an overall barrel length of 195mm to function in the EKOL Model ASI, however the barrel extension may not be included in the length of the barrel under Canadian law.
- cartridge magazines are subject to capacity limitations in the Regulations appended to the Criminal Code.

Remarks

- this firearm is one of several versions of gas/blank/traumatic pistols built by Voltran utilizing a "handgun", capable of full automatic fire surrounded by a synthetic "clamshell". The ASI firearm utilizes a synthetic "Clam Shell" which encloses all but the interior handgun's grip, trigger guard, trigger and magazine release. The "Clam Shell" encloses the interior handgun's slide which is operated by means of an operating handle on the left side of the ASI firearm's "Clam Shell" housing.

Notes

Make

- the Ekol logo of "ES" in a circular shape is marked on the firearm.

Model

- the model is marked on the slide as "Firat Magnum".
- this is one of several versions of gas/blank/traumatic pistols built by Voltran on their "92F" frame, meant to resemble a Beretta 92F pistol.
- this pistol is manufactured both as a blank- or tear-gas-firing pistol ONLY, and as a tear-gas-firing pistol that is also capable of firing "traumatic" rubber-ball ammunition, depending on the construction of the barrel.
- features include: generalized Beretta 92F appearance; chrome, nickel, or black finishes, in both bright and matte treatment (some with gold-highlighted accents, such as trigger, hammer, etc.); fixed open sights; a SA/DA trigger mechanism with exposed round hammer; a slide-mounted thumb safety at the rear of the slide; and varying colours of checkered synthetic grip-plates.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is not marked on the firearm. - Voltran AV Silahlari is located in Istanbul, Turkey. - Voltran AV Silahlari specializes in producing CO2 guns, gas and blank guns.
Action	- blowback operated. - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number rationalization unknown. - serial number is marked on the left side of the firearm. - serial number observed consisted of two letter "EF" prefix, followed by a dash, and eight numbers.
Calibre	- "9MM P.A.K." is marked on the left side of the slide.
Shots	- detachable box magazine. - cartridge magazines are subject to capacity limitations in the Regulations appended to the Criminal Code.
Canadian Law Comments	- the Ekol model Firat Magnum does not qualify for exemption under Criminal Code S. 84 (3) (b) (i) as it is a multi purpose design firearm. - the EKOL model Firat Magnum is manufactured both as a blank or tear-gas-firing pistol ONLY, and as a tear-gas-firing pistol that is also capable of firing "traumatic" rubber-ball ammunition, depending on the construction of the barrel. - this firearm is manufactured as a blank firing pistol and as a pistol capable of firing "traumatic" rubber-ball ammunition, wholly dependent on the construction of the barrel and the two firearms share a common receiver/frame. - cartridge magazines are subject to capacity limitations in the Regulations appended to the Criminal Code.

FRT Report

Firearm Reference Number (FRN): 147883
Make: Ekol
Model: Jackal Dual

Summary

Make:	Ekol
Model:	Jackal Dual
Manufacturer:	Voltran
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Full Automatic
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147883 - 1	9X22 PA BLANK/GAS	15	130	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ES" trademark logo and "EKOL" are marked on the left side of the slide.
- "Ekol" and "Voltran" are trade names/trademarks used by Voltran AV Silahlari.

Model

- "Jackal Dual" is marked on the side of the slide.
- the "Dual" in the model designation refers to both the blank firing and flare firing ability.
- this is a close copy of the Beretta Model 92FS.
- features include: semi-plugged barrel; metal body and receiver/frame; open top slide assembly; fixed sights; external hammer; slide mounted, deckocking lever; single/double action trigger; finger grooved, synthetic or wood grip panels; available in a variety of finishes and plating colours.
- average weight is 1.2kgs (2.5lbs).
- this is also available in a compact version as the "Jackal Dual Compact" and an unmarked firearm/device housed within the Ekol "ASI" model submachine gun.

Manufacturer

- "Made in Turkey" was observed marked on the right side of the receiver/frame on one example
- Voltran AV Silahlari is located in Istanbul, Turkey.
- Voltran AV Silahlari specializes in producing CO2 guns, gas and blank guns.
- "Ekol" and "Voltran" are trade names/trademarks used by Voltran AV Silahlari

Action

- capable of semi-automatic and full automatic fire.
- fire mode selector mounted on left side of receiver/frame above the trigger.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of observed examples consisted of a two letter prefix (EJ) followed by a dash followed by eight numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- cartridge magazines are subject to capacity limitations in the Regulations appended to the Criminal Code.

Canadian Law Comments

- the Ekol model ASI firearm is a synthetic "clamshell" containing a Voltran manufactured EKOL, Model Jackal Duo handgun capable of full automatic fire.
- the Ekol model Jackal Dual (and therefore the Ekol, Model ASI), does not qualify for exemption under Criminal Code S. 84 (3) (b) (i) as it is a multi purpose design firearm.
- the EKOL model Jackal Dual handgun is manufactured both as a blank / tear-gas-firing pistol ONLY, and as a tear-gas-firing pistol that is also capable of firing "traumatic" rubber-ball ammunition, depending on the construction of the barrel and the backstrap of the hand grip.
- this firearm is manufactured as a blank firing pistol and as a pistol capable of firing "traumatic" rubber-ball ammunition, wholly dependent on the construction of the barrel and the two handguns share a common receiver/frame.
- this firearm is fitted with a threaded 130mm barrel and has a 65mm barrel extension, to give an overall barrel length of 195mm to function in the EKOL Model ASI, however the barrel extension may not be included in the length of the barrel under Canadian law.
- cartridge magazines are subject to capacity limitations in the Regulations appended to the Criminal Code.

Notes

Make

- the Ekol logo of "ES" in a circular shape is marked on the firearm.

Model

- the model is marked on the slide as "P29".
- this is one of several versions of gas/blank/traumatic pistols built by Voltran on their "85F" frame, meant to resemble a Beretta 85F Cheetah pistol. The P.29 is the closed-top slide version of the Special 99 pistol.
- this pistol is manufactured both as a blank- or tear-gas-firing pistol ONLY, and as a tear-gas-firing pistol that is also capable of firing "traumatic" rubber-ball ammunition, depending on the construction of the barrel.
- features include: generalized Beretta 85F Cheetah appearance; chrome, nickel, or black finishes, in both bright and matte treatment (some with gold-highlighted accents, such as trigger, hammer, etc.); fixed open sights; a SA/DA trigger mechanism with exposed round hammer; a frame-mounted thumb safety at the tang that blocks movement of the slide when applied; and varying colours of synthetic grip-plates with the Ekol logo moulded into them.

Manufacturer

- the manufacturer is not marked on the firearm.
- Voltran AV Silahlari is located in Istanbul, Turkey.
- Voltran AV Silahlari specializes in producing CO2 guns, gas and blank guns.

Action

- blowback operated.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number rationalization unknown.
- observed sample was marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Canadian Law Comments
- the Ekol model P29 does not qualify for exemption under Criminal Code S. 84 (3) (b) (i) as it is a multi purpose design firearm.
- the Ekol model P29 is manufactured both as a blank or tear-gas-firing pistol ONLY, and as a tear-gas-firing pistol that is also capable of firing "traumatic" rubber-ball ammunition, depending on the construction of the barrel.
- this firearm is manufactured as a blank firing pistol and as a pistol capable of firing "traumatic" rubber-ball ammunition, wholly dependent on the construction of the barrel and the two firearms share a common receiver/frame.

Notes

Make

- "ES" trademark logo and "EKOL" are marked on the left side of the slide.
- "Ekol" and "Voltran" are trade names/trademarks used by Voltran AV Silahlari.

Model

- "PIRANHA" was observed marked on the left side of the slide.
- the "PIRANHA" is manufactured by Voltran to fire rubber ball ammunition and has a special barrel made to shoot rubber bullets only,
- the "PIRANHA" shares a common receiver/frame with the EKOL model P 29 and the EKOL "SPECIAL 99"Gas/Alarm pistol.
- features observed: fixed barrel with blade front sight; flat sided metal slide with rear cocking serrations and rear sight; metal receiver/frame with integral barrel assembly; slide release lever, safety selector, and the magazine release button is mounted in the conventional north american location at the rear of the trigger guard; exposed hammer; single action trigger mechanism; squared front trigger guard; black two-piece grips; found in with different finishes.
- vague resemblance to a SIG Model P-229.
- exterior dimensions 172MM length, 132MM height, 35MM thick.

Manufacturer

- Voltran AV Silahlari is located in Istanbul, Turkey.
- Voltran AV Silahlari specializes in producing CO2 guns, gas and blank guns.

Action

- blowback operated.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number was observed marked on the front left side of the receiver/frame above the trigger guard.

Notes

Make

- "ES" trademark logo and "EKOL" are marked on the left side of the barrel.
- "Ekol" and "Voltran" are trade names/trademarks used by Voltran AV Silahlari.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "EKOL Viper 2.5" or "EKOL Viper 4.5" is marked on the left side of the barrel. - features include: fixed sights; round barrel with underlug; solid top receiver/frame with fluted swing-out cylinder; cylinder release located on the left side of the receiver/frame; exposed spur hammer; double action trigger mechanism; black plastic grip; black, satin, charcoal, matte or polished chrome finish. - overall length with a 63mm barrel is 186mm (7.1/4"). - overall length with a 114mm barrel is 235mm (9.1/4"). - "blank" versions of this model are also available from the manufacturer. The blank/gas version share the same receiver/frame as the 4mm Flobert models.
Manufacturer	- Voltran AV Silahlari is located in Istanbul, Turkey. - Voltran AV Silahlari specializes in producing CO2 guns, gas and blank guns.
Action	- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number was observed marked on the left side of the receiver/frame below the cylinder.
Shots	- swing-out cylinder.
Canadian Law Comments	- the Ekol model Viper revolver does not qualify for exemption under Criminal Code S. 84 (3) (b) (i) as it is a multi purpose design firearm. - the Ekol model Viper revolver is manufactured as a blank or tear-gas-firing pistol ONLY, as a tear-gas-firing pistol that is also capable of firing "traumatic" rubber-ball ammunition and as a conventional firearm discharging bulleted ammunition, depending on the construction of the barrel and cylinder.

Notes

Make

- "ES" trademark logo and "EKOL" are marked on the left side of the slide.
- "Ekol" and "Voltran" are trade names/trademarks used by Voltran AV Silahlari.

Model

- "VOLGA" was observed marked on the left side of the slide.
- features observed: fixed barrel with blade front sight; the inside of the barrel at the muzzle may be threaded to accept a signal flare adapter; flat sided metal slide with rear cocking serrations and rear sight; metal receiver/frame insert with integral barrel assembly; the slide release lever and safety catch, are mounted on the left side of the receiver/frame; exposed hammer; single/double action trigger mechanism; round front trigger guard; the wrap-around polymer hand grip forms an outer shell into which the barrel and receiver assembly is fitted (in a manner similar to the SIG SAUER Model P250); available in black matte, bright or dull chrome finish.
- NOTE: the barrel liner, which is a steel insert (apparently) cast into the shroud of the "hood" of the barrel, is off-set from the midline of the bore. This feature presents no obstacle to the passage of a malleable Traumatic Rubber Ball projectile.
- overall length is 126 mm, height is 100 mm, width is 29 mm, and average weight is 490 grams.

Manufacturer

- Voltran AV Silahlari is located in Istanbul, Turkey.
- Voltran AV Silahlari specializes in producing CO2 guns, gas and blank guns.
- "Ekol" and "Voltran" are trade names/trademarks used by Voltran AV Silahlari

Action

- blowback operated.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number rationalization unknown.
- the serial number was observed marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "Cal. 9mm P.A.K." or "Cal. 9mm P.A." was observed marked on the left side of the slide.
Shots	- detachable box magazine.
Canadian Law Comments	- the Ekol model Volga does not qualify for exemption under Criminal Code S. 84 (3) (b) (i) as it is a multi purpose design firearm. - the Ekol model Volga is manufactured both as a blank or tear-gas-firing pistol ONLY, and as a tear-gas-firing pistol that is also capable of firing "traumatic" rubber-ball ammunition, depending on the construction of the barrel. - this firearm is manufactured as a blank firing pistol and as a pistol capable of firing "traumatic" rubber-ball ammunition, wholly dependent on the construction of the barrel and the two firearms share a common receiver/frame.

Notes

Make

- "Marca Registrata", profile of a pheasant and "EL FAISAN" is marked on the chamber of the barrels.
- "E.L. FAISAN - Elgoibar (ESPANA)" is marked on the right barrel.
- "MADE IN SPAIN" is marked on the left barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Marca Registrata", profile of a pheasant and "EL FAISAN" is marked on the chamber of the barrels. - "E.L. FAISAN - Elgoibar (ESPANA)" is marked on the right barrel. - "MADE IN SPAIN" is marked on the left barrel. - the El Faisan was available in at least two versions of break action shotguns; a traditional hammerless and with hammers. - FOLDING SHOTGUN: can fold over on itself by pressing a small checkered button at the hinge-point. - features observed: side by side barrels; front hinged receiver/frame with right side mounted break open lever; exposed hammers; double triggers; wood forearm and pistol grip buttstock; blued barrels; engraved silver or nickel plated or blued receiver/frame. - NON-FOLDING SHOTGUN: - features observed: side by side barrels; front hinged receiver/frame with top tang mounted break open lever and safety; hammerless; double triggers; wood forearm and pistol grip buttstock; blued barrels and engraved silver or nickel plated receiver/frame.
Manufacturer	- Pedro Aguirre was located in Elgoibar, Spain from 1960 to 1977.
Action	- side by side configuration.
Serial Number	- stamped on water table below chambers.
Calibre	- known example marked "Cal 410-70" on action flats. - known examples are marked "Cal 410-70" and "Cal 410-76" on action flats and underside of the barrels.
Other Markings	- the "crossed firearms" and the number "2" markings that appear on the watertable are Spanish definitive black powder proof marks used from 1929 to 1931.

Firearm Reference Number (FRN): 146299
Make: Elgar & Smith
Model: Volley Gun

Summary

Make:	Elgar & Smith
Model:	Volley Gun
Manufacturer:	Elgar & Smith
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
146299 - 1	32 PERCUSSION	9	140	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Wm. ELGAR & R.M. SMITH" is marked on the firearm.

Model

- manufactured prior to 1860.
- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is an unusual multi-shot handgun that combines features from several action types into one; this is a three-barrelled pistol with three individual triangular three-chambered "cylinders" that are manually rotated into position before firing, and each of those cylinders have a single nipple. This means that each "shot" will actually fire three individual projectiles, through three slightly-divergent barrels.
- features include: blued or browned finish; triangular barrel cluster that flattens towards the muzzle; a revolving cylinder cluster with a total of nine chambers; a manually-cocked hammer on the right side of the action; an exposed trigger; and a "pepperbox"-style bag grip with walnut grips.

Manufacturer

- Elgar & Smith was the partnership of William Elgar & R. M. Smith.
- Elgar & Smith was located in Mineral Point, Wisconsin, U.S.A. in the 1850s.
- Elgar & Smith manufactured an odd style of revolving volley gun (both handguns and rifles).

Action

- this handgun combines several action types; a manually-operated "revolver", and a multi-barrel "volley gun".

Shots

- this handgun has three "cylinders" of three chambers each, and each "cylinder" is fired with a single nipple, firing three projectiles simultaneously.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is a percussion hunting rifle manufactured by James A. Ellis prior to 1897, using a "mule ear" percussion side lock.
- features include: browned or blued finish; open fixed sights; octagonal barrel; under barrel ramrod thimbles; straight-grip walnut butt (no forearm) with brass or German silver finishings; external manually-cocked hammer on the lock plate; finial trigger-guard/grip strap; and a crescent butt.

Manufacturer

- "JA ELLIS" is usually marked on the firearm.
- James A. Ellis was a prolific New York gunsmith (based in Honeoye until 1862, and thereafter in Canandaigua, until 1923), known for his percussion target and hunting guns. In his later career, he also produced breech loading shotguns using barrels imported from England.

Action

- muzzle loaded percussion single-shot.

FRT Report

Firearm Reference Number (FRN): 149114
Make: Ellis, Rueben
Model: Flintlock Repeating Rifle

Summary

Make:	Ellis, Rueben
Model:	Flintlock Repeating Rifle
Manufacturer:	Ellis, Rueben
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Other
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
149114 - 1	58 FLINTLOCK	4	914	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "R. ELLIS" may or may not be marked on the firearm.
- Rueben Ellis was an Albany, New York-based gunsmith during the early to mid-1800s, known primarily for his repeating flintlock rifles based on Isiah Jennings' patent of 1821.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is an unusually-styled flintlock multi-shot rifle that uses "stacked loads" (multiple charges of powder between independent projectiles), and a sliding flintlock mechanism that lines up with multiple independent flash-holes.
- Ellis built these rifles based on Isiah Jennings' patent for a flintlock repeating rifle.
- features include: browned finish; round or octagonal barrel with multiple flash-holes along the side of the barrel; independent flash-hole covers that pivot down to cover off flash-holes that aren't in use (to prevent simultaneous ignition of multiple charges); a sliding lockplate with cock, frizzen, pan, and flash-hole on the right side of the rifle; and a walnut straight-grip full stock with three barrel bands (most of these rifles being conversions of surplus US 1817 Flintlock Rifles).

Manufacturer

- "R. ELLIS" may or may not be marked on the firearm.
- Rueben Ellis was an Albany, New York-based gunsmith during the early to mid-1800s, known primarily for his repeating flintlock rifles based on Isiah Jennings' patent of 1821.

Action

- this is a multi-shot repeating rifle, using "stacked loads" (multiple charges of powder between projectiles), and a sliding flintlock mechanism that lines up with multiple independent flash-holes.

Notes

Make

- "ELUSTONDO, URTIAGA Y CIA" over "FABRICA DE ARMAS" over "GUERNICA (VIZCAYA) was observed marked on the left side of the slide.
- "E.L" inside an oval was observed marked on the left rear side of the receiver/frame.

Model

- model is not marked on the firearm.
- model name is derived from the original "Ruby" style of blowback semi-automatic pistol as produced initially by Gabilondo of Spain for the French Army during the First World War; this pistol was subsequently copied/produced by many Spanish manufacturers; also commonly known as the "Eibar Type".
- this style of handgun is loosely based on the FN-Browning model 1906 design.
- features include: round rifled barrel; flat sided slide with right side ejection, fixed front sight, notch rear sight, and rear curved grasping serrations; hammerless; manual safety/slide lock lever is located on the left side of the receiver/frame above the trigger; no grip safety; detachable box magazine release is located in the heel of the butt; lanyard ring on the bottom left side of the grip frame; blued finish.

Manufacturer

- "ELUSTONDO, URTIAGA Y CIA" over "FABRICA DE ARMAS" over "GUERNICA (VIZCAYA) was observed marked on the left side of the slide.
- Elustondo, Urtiaga Y Cia produced Ruby pistols.
- Elustondo, Urtiaga Y Cia did not survive the Spanish Civil War circa 1940 which would place the date of manufacture for this model of pistol from 1916 to 1940.
- Vizcaya (Biscay) is a Basque region and a province of Spain.

Action

- blowback operated.

Serial Number

- serial number was observed marked on the left side of the receiver/frame, above the trigger.
- observed serial number consisted of four numbers without a letter prefix or suffix.

125217 - 4	32 S&W LONG	6	152	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- EM-GE is a trade name used by EM-GE Sportgerate GmbH & Co. KG, Gerstenberger & Eberwein of Germany.
- the EM-GE logo may be found on medallions inlet into the grip panels (samples have been noted with no EM-GE markings). On one sample examined the only identifier was "Gerstenberger u Eberwein, Gussenstadt" marked on the left side plate.

Model

- model name is not usually marked on the firearm; the model designation is derived from the fact that this firearm is chambered for 32 S&W Long ammunition.
- features include: solid receiver/frame or swing-out cylinder design; double action trigger mechanism; fluted cylinder; removable ejector rod mounted under the barrel on the solid receiver/frame version; swing-out cylinder version has simultaneous ejection of all chambers; target version will have a six inch ventilated rib barrel and adjustable sights; blued finish.
- also known as the model 323 which indicates the Model 32 with a 3"/ 76mm barrel length; similarly, the model 324 indicates a 4" /102mm barrel and the 326T indicates a 6" /152mm barrel length in Target configuration.

Manufacturer

- one sample examined was marked "Gerstenberger u Eberwein, Gussenstadt" on the left side plate and "Made in Germany" on the right side of the barrel.

Serial Number

- the sample examined was numbered on the right side of the receiver/frame with the serial number being repeated on the right side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- on the sample examined the calibre designation was marked on the left side of the barrel as "Cal. 32 S&W lg".
Other Markings	- will usually bear German proof marks on the receiver/frame, barrel and cylinder.

FRT Report

Firearm Reference Number (FRN): 130848
Make: EM-GE
Model: Solid Top Frame Double Action

Summary

Make:	EM-GE
Model:	Solid Top Frame Double Action
Manufacturer:	Gerstenberger & Eberwein
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
130848 - 1	9MM FLOBERT	5	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EM-GE" was observed marked on the grip plates.
- "Gerstenberger" over "u. Eberwein" over "Gussenstadt" was observed marked on the left side of the receiver/frame.
- "EM-GE" was a trade name used by Gerstenberger u Eberwein of Gussenstadt, Germany.
- "EM-GE" is a trade name used by Em-Ge Sportgerate GmbH & Co. KG, of Gerstetten-Gussenstadt, Germany.

Model

- model designation is not marked on the firearm.
- features include: ramp front sight and a notch in the top strap for a rear sight; round barrel with rifled bore; solid top receiver/frame with fluted, left side swing-out cylinder; exposed spurred hammer; single/double action trigger mechanism; checkered wood grips; blued finish.

Manufacturer

- "Gerstenberger" over "u. Eberwein" over "Gussenstadt" was observed marked on the left side of the receiver/frame.
- "MADE IN WESTERN GERMANY" was observed marked on the left side of the top strap of the receiver/frame.

Serial Number

- serial number was observed marked on the right side of the top strap of the receiver/frame and repeated on the right side of the barrel.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Calibre

- "Flobert 9mm gezogen" was observed marked on the left side of the barrel.
- "gezogen" means rifled in English.

Shots

- swing-out cylinder.

Firearm Reference Number (FRN): 124817
Make: EMEI
Model: CF98-9

Summary

Make:	EMEI
Model:	CF98-9
Manufacturer:	Chinese State Arsenal, JianShe
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
124817 - 1	9MM LUGER	10	112	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
124817 - 2	9MM LUGER	15	112	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EMEI" or the "EMEI" logo may be on the firearm.
- "EMEI" logo consists a mountain with two peaks, the capital letter "E" with an extended solid line under the mountain, over the letters "EMEI".
- "EXPORTED BY NORINCO" may be marked on the firearms.
- NORINCO" is not a manufacturer.
- "NORINCO" is a trade name found on small arms and light weapons (SALW) manufactured in China.
- "NORINCO" is an acronym for a company which has been referred to as China North Industries Corporation and on occasion as North China Industries Corporation.
- "NORINCO" was established in 1979 by China's former Fifth Ministry of Machine-Building and in 1980 was made the principal "state owned" organisation responsible for the export of SALW's produced by Chinese manufacturers.
- the Fifth Ministry later became the Ministry of Ordnance Industry. It was renamed the China Ordnance Industry Corporation (COIC) in 1988.
- in 1999, a restructuring of the China Ordnance Industry Corporation resulted in the China North Industries Group Corporation (CNGC), also known as the NORINCO Group, and the China South Industries Group Corporation (CSGC) being formed. Both have their headquarters in Beijing.
- due to brand recognition, the organisation responsible for exports of firearms retained the name "NORINCO".
- "NORINCO" is owned by both China North Industries Group Corporation (NORINCO Group) and the China South Industries Group Corporation.
- "NORINCO" is one of four state-owned enterprises authorized to export SALW's.

Model

- "CF98-9" was marked, on a referenced example, on the left side of the slide.
- "CF98-9" is a modular design with a serialized steel receiver/frame housed between a steel slide and the polymer grip shell.
- features include: fixed front and rear sights with white dots; round barrel; flat sided steel slide with right side ejection and rear grip serrations; skeletonized hammer; polymer grip shell with accessory rail; double/single action trigger mechanism; ambidextrous safety, slide-lock/release and push button magazine release are located on the left side of the receiver/frame; checkered grips with raised star monogram in a circle, lanyard loop; black finish.
- slide mounted safety catch which also functions as a decocking lever.
- overall length with a 112mm barrel (4 13/32") barrel is 190mm (7 31/64"), average weight is .76kg (26.08 oz).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "MADE IN CHINA" may be marked on the receiver/frame. - manufacturer's designation may be marked on the firearm.
Action	- recoil operated.
Serial Number	- serial number was marked on the left side of the slide and on the receiver/frame. - observed serial number consisted of six numbers followed by a space and two numbers; the last two numbers represent the year of manufacture.
Shots	- detachable box magazine.
Canadian Law Comments	- the component that supports the barrel and slide and to which the trigger is attached and is typically marked with the serial number is deemed the receiver/frame in Canada.

Notes

Make

- "EMEI" or the "EMEI" logo may be marked on the firearm.
- "EMEI" logo consists a mountain with two peaks, the capital letter "E" with an extended solid line under the mountain, over the letters "EMEI".
- "EXPORTED BY NORINCO" may be marked on the firearms.
- NORINCO" is not a manufacturer.
- "NORINCO" is a trade name found on small arms and light weapons (SALW) manufactured in China.
- "NORINCO" is an acronym for a company which has been referred to as China North Industries Corporation and on occasion as North China Industries Corporation.
- "NORINCO" was established in 1979 by China's former Fifth Ministry of Machine-Building and in 1980 was made the principal "state owned" organisation responsible for the export of SALW's produced by Chinese manufacturers.
- the Fifth Ministry later became the Ministry of Ordnance Industry. It was renamed the China Ordnance Industry Corporation (COIC) in 1988.
- in 1999, a restructuring of the China Ordnance Industry Corporation resulted in the China North Industries Group Corporation (CNGC), also known as the NORINCO Group, and the China South Industries Group Corporation (CSGC) being formed. Both have their headquarters in Beijing.
- due to brand recognition, the organisation responsible for exports of firearms retained the name "NORINCO".
- "NORINCO" is owned by both China North Industries Group Corporation (NORINCO Group) and the China South Industries Group Corporation.
- "NORINCO" is one of four state-owned enterprises authorized to export SALW's.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- a stylized scorpion and the word "SCORPIO" is marked on the left side of the receiver/frame. - "EM332A" is marked on the right side of the receiver/frame. - features include: ramp front sight and an adjustable open rear sight; round, rifled barrel; tubular receiver/frame is grooved for scope mounts; round bolt body; bolt release catch and thumb safety located on the left side of the receiver/frame; round bolt handle; magazine release located ahead of the magazine well; one piece, pistol grip style synthetic, thumbhole stock with cheekpiece and recoil pad; diamond shaped stippled forend and pistol grip; sling attachments; blued finish. - overall length with a 508mm (20.0") barrel is 964mm (37.95"), average weight is 3.0 kg (6.6 lbs).
Manufacturer	- "MADE IN CHINA" may be marked on the receiver/frame. - manufacturer's designation may not be marked on the firearm.
Action	- turn-bolt design.
Serial Number	- alpha/numeric serial number is marked on the right side of the receiver/frame. - part of the serial number is marked on the bolt.
Calibre	- "22LR" is marked on the right side of the receiver/frame.
Shots	- detachable box magazine.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147791 - 1	9MM LUGER	5	216	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	

Notes

Make

- "EMEI" logo and "EMEI" was observed marked on the left side of the reiver/frame.
- "EMEI" logo consists of a mountain with two peaks, the capital letter "E" with an extended solid line under the mountain, over the letters "EMEI".

Model

- "T05 CAL. 9mm" over "SEMI AUTO" was observed marked on the left side of the receiver/frame.
- "T05 Semi Auto" externally resembles a Heckler & Koch model MP5.
- features include: adjustable sights; round barrel with the muzzle designed for a quick disconnect sound suppressor/silencer; aluminium upper receiver/frame with an integral, top mounted Picatinny type rail, right side ejection port, and a left side mounted cocking handle; synthetic tubular forearm with three Picatinny type rails; synthetic lower assembly with an integral magazine well, vertical pistol grip, and a right side folding buttstock; removable trigger group assembly; magazine release button and safety/selector lever are located on the left side of the lower assembly; matte black finish.
- overall length with a 216 mm (8.5") barrel and the stock in the closed position is 433 mm (17.05"), and with the stock in the extended position is 660 mm (26"), and the average weight is 2.5 kgs (5.5 lbs).

Manufacturer

- manufacturer's name was not observed marked on the firearm.

Action

- blowback operated.

Serial Number

- serial number was observed marked on the right side of the receiver/frame.
- serial number observed consisted of eight numbers without a letter prefix or suffix. (eg) 20120901

Calibre

- "CAL. 9mm" was observed marked on the left side of the receiver/frame.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- "EMEI Model T05 Semi Auto" S/N: 20120901 was inspected and has been assigned the legal class of "prohibited" as a full automatic firearm.
- when inspected this firearm fired in the semi-automatic fire mode; however it was not possible to asses the differences between a full automatic version and a semi-automatic version of this firearm, nor to asses whether the semi-automatic trigger mechanism could be repopulated with full automatic trigger mechanism components to produce full automatic fire "on demand", due to a lack of a comprehensive data package and/or a full automatic exemplar for comparison.
- a second iteration of this make and model of firearm was submitted to SFSS for physical inspection. EMEI T05 Semi Auto, S/N: 20160001 was examined and was confirmed as legal class of "prohibited" as a full automatic firearm. The upper receiver/frame does not employ sufficient measures to prevent the installation of a full automatic bolt assembly or full automatic lower receiver. Per GFC-2000-7-2-147791 dated 2018-04-04.

Notes

Make

- "EMEI" logo and "EMEI" was observed marked on the right side of the magazine well of the receiver/frame.
- "EMEI" logo consists of a mountain with two peaks, the capital letter "E" with an extended solid line under the mountain, over the letters "EMEI".
- EMEI model T97NSR is exported from China by Poly Tech/Poly Technologies.
- Poly Tech/Poly Technologies is the trade name of Poly Technologies, Incorporated which is directly connected to the Chinese Ministry of Military Armament.
- Poly Technologies, Inc. of Beijing, China was established in 1984.
- Poly Technologies, Inc. is one of the core elements of the China Poly Group Corporation.
- China Poly Group Corporation/Poly Group was founded in 1993.
- China Poly Group Corporation was authorized by the State Council and the Military Commission of the Central Committee.
- China Poly Group Corporation is under the supervision and management of the State owned Assets Supervision and Administration Commission of the State Council.

Model

- introduced circa 2012.
- "T97NSR CAL. 5.56mm" over "SEMI AUTO" was observed marked on the right side of the magazine well of the receiver/frame.
- T97NSR is a semi-automatic variant of the QBZ (Qing Buquiang Zu or Light Rifle Family of firearms).
- T97NSR is a semi-automatic variant or modified version of the 5.8X42MM CHINESE Type 95 service rifle (aka QBZ-95) and is chambered for 5.56MM NATO calibre ammunition.
- T97NSR is a semi-automatic "bullpup" design firearm.
- features include: bird cage type flash eliminator/muzzle brake; round tapered barrel; aluminum alloy receiver/frame attached to a steel trunion that has an integral top mounted frame for the carrying handle; the cocking lever is mounted inside the carrying handle (similar to the Armalite AR-10); pistol grip stock with trigger guard; ventilated top cover; vertically grooved forearm; rotating bolt locking system; striker fired; fire selector/safety catch dial is located on the left rear side of the receiver/frame; rear sight is located in the rear of the carrying handle, front sight located on top of the gas block (similar to the AR 15/M16); sling attachment points; flat matte black finish.
- safety and semi-automatic fire dial "S and F" was observed marked on the left side at the rear, dial will only rotate 180 degrees.
- accessories available for this firearm include optical and night vision sights, sound suppresser, laser aim designator and under barrel mounted grenade launcher.
- overall length with a 480 mm barrel and flash eliminator is 760 mm, and the average weight is 3.7 kgs.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's designation was not observed marked on the firearm.
Type	-"bullpup" design firearm.
Action	- gas operated.
Serial Number	- serial number was observed marked on the left side of the magazine well of the receiver/frame. - serial number rationalization is unknown. - observed serial number consisted of eight numbers without a letter prefix or suffix. It is suspected that the first four digits could indicate the year of manufacture.
Calibre	- "CAL 5.56mm" was observed marked on the right side of the magazine housing of the receiver/frame.
Shots	- detachable box magazine. - accepts all NATO STANAG M16 and commercial AR15 style magazines. - does not accept the previous generation of Chinese TYPE 97 Rifle magazines without fitting.
Canadian Law Comments	- the EMEI, T97NSR firearm, was found by inspection to be a purpose built, semi-automatic firearm. - the EMEI, T97NSR firearm is a "bullpup design firearm" and does not contain a "bull-pup stock" in its parts make-up.

162786 - 2	5.56MM NATO	10	620	Prohibited PFR, Part 1, para. 114(c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the right side of the receiver bears the EMEI logo featuring stylized mountains forming the letters "EM" on top of the letters "EMEI".

Model

"5.56mm Type NQU03 12-CN" is marked on the right side of the receiver/frame.
- the right side of the receiver bears the EMEI logo featuring stylized mountains or volcanoes forming the letters "EM" on top of the letters "EMEI".
- EMEI Type NQU03 is a semi-automatic export version of the Type 88 sniper rifle.
- this is a "bullpup" design firearm.
- features include: fold down iron sights and scope mounts; round barrel with flash hider/muzzle brake; machined steel receiver/frame; rotating bolt head locking system; cocking handle located on the right side of the bolt carrier group; hammer fired; magazine release and safety located behind the magazine well; synthetic vented top cover, forearm/pistol grip assembly, and buttstock.
- accessories may include optical and night vision sights, sound suppressor, laser designator and bipod.
- overall length with a 620mm barrel is 920mm and average weight is 4.1kgs.
- the EMEI Type NQU03 rifle is similar to the Norinco Type 97 Sniper Rifle

Manufacturer

- the manufacturer's name appears on factory letterhead as "CHONGQING JIANSHE INDUSTRY (GROUP) CO., LTD.

Serial Number

- observed specimen serial number consisted of eight digits. e.g. 12000327

Shots

- detachable box magazine.
- proprietary design cartridge magazine.
- cartridge magazine supplied with firearm is a factory supplied ten shot capacity magazine reduced to 5 shots and riveted.

Notes

Make

- "EMF COMPANY, INC. CA" is marked on the left side of the barrel.
- "EMF" is the abbreviation for Early and Modern Firearms Company Incorporated.
- "EMF CO. Inc." is an importer and distributor.
- EMF was located in Studio City, California, U.S.A., before 1981.
- EMF moved to their new location in Santa Ana, California, U.S.A., circa 1982.
- EMF distributed the Dakota Single Action revolver series.
- EMF introduced the New Dakota Single Action Army revolver series in 1991.
- EMF's Dakota revolvers were mainly manufactured by Armi San Marco until 2000, and than by Uberti starting in 2001.
- EMF introduced the Hartford 1873 Single Action Army series, circa 1991.
- EMF introduced the Great Western II 1873 Single Action series, circa 2003.

Model

- manufactured circa 1977.
- model designation is not marked on the firearm.
- this is a modern reproduction of a Colt Model 1847 Walker black powder percussion revolver.
- "WHITNEYVILLE WALKER 1847 Cal. 44" over "BLACK POWDER ONLY - MADE IN ITALY" is usually marked on the left side of the barrel lug.
- Italian proof marks were observed marked on the right side of the barrel and receiver/frame and on the cylinder.
- features include: blade front sight and a V-notch in the nose of the hammer for a rear sight; round to octagonal, rifled barrel with a loading lever mounted on the underside; open top steel receiver/frame with a removable non-fluted percussion cylinder; cylinder has oval index/stop slots; exposed spur hammer; single action trigger mechanism; square back brass trigger guard and front grip strap; steel back strap; one piece hardwood grip; blued barrel, cylinder, and back strap; colour case hardened loading lever, receiver/frame, and hammer; engraved cylinder.
- overall length with a 229 mm (9") barrel is 394 mm (15 1/2").
- average weight is 2.04 kgs (4 1/2 lbs).

Serial Number

- serial number was observed marked on the underside of the receiver/frame and repeated on the barrel lug and bottom of the grip strap.
- serial number observed consisted of five numbers without a letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - "Cal. 44" over "BLACK POWDER ONLY" is marked on the left side of the barrel lug.

Notes

Make	- "EMF" or the Early & Modern Firearms logo is marked on the firearm.
Model	- "MASON-DIXON COMMEMORATIVE" is marked on the firearm; this is a modern reproduction of the Colt 1851 Navy revolver, made to commemorate the "Mason-Dixon Line" a border survey in the 1760s that was undertaken by Charles Mason and Jeremiah Dixon to mark a definitive border between Pennsylvania and Delaware in the north, and Virginia and Maryland in the south; this border also served to mark the boundary of the "slave" southern states and the "free" northern states during the lead-up to the US Civil War. - features include: standard Colt 1851 Navy layout and operation; blued octagonal barrel and cylinder; nickeled receiver/frame, grip-frame and backstrap; under-barrel loading lever; fixed bead sight and notched hammer rear sight; engraved cylinder; manually-cocked hammer with single-action trigger mechanism; smooth walnut, square-butt' "plowhandle" grips.
Manufacturer	- the manufacturer or logo thereof is marked on the firearm.
Action	- single-action revolver.
Serial Number	- serial-numbered on the receiver/frame.

128191 - 1	36 PERCUSSION	5	140	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EMF", "EMF CO.", "EMF CO. CALIF. USA." or "EMF S.A. Cal." may be marked on the firearm.
- "EMF" is the abbreviation for Early and Modern Firearms Company Incorporated.
- EMF was located in Studio City, California, U.S.A., before 1981.
- EMF moved to their new location in Santa Ana, California, U.S.A., circa 1982.

Model

- reproduction of the Colt 1862 Pocket Police - single action percussion revolver.
- features include: black powder single action percussion revolver; grips are one-piece, walnut, with satin finish; receiver/frame may be brass or steel, colour case-hardened; barrel is blued steel, tapered round; cylinder is half fluted; front sight is a brass bead; rear sight is a V-notch in the hammer nose; backstrap & trigger guard are brass, and may have a silvered finish; loading lever & hammer are steel, and are colour case-hardened.
- overall length with a 140mm barrel is 283 mm

Manufacturer

- Uberti logo may appear on the firearm as a "U" inside a rifled, octagonal barrel.

Serial Number

- serial number is usually marked on the bottom of the receiver/frame in front of the trigger guard.

Calibre

- calibre is usually marked on the barrel assembly.

Notes

Make

- "EMF", "EMF CO.", "EMF CO. CALIF. USA." or "EMF S.A. Cal." may be marked on the firearm.
- "EMF" is the abbreviation for Early and Modern Firearms Company Incorporated.
- EMF was located in Studio City, California, U.S.A., before 1981.
- EMF moved to their new location in Santa Ana, California, U.S.A., circa 1982.
- "EMF CO. Inc." is an importer and distributor.
- "EMF" distributed the Dakota Single Action revolver series.
- "EMF" introduced the New Dakota Single Action Army revolver series in 1991.
- "EMF" Dakota revolvers were mainly manufactured by Armi San Marco until 2000, and then by Uberti starting in 2001.
- "EMF" introduced the Hartford 1873 Single Action Army series, circa 1991.
- "EMF" introduced the Great Western II 1873 Single Action series, circa 2003.

Model

- "Hartford" may be marked on the firearm.
- this is a side by side "coach gun" style of shotgun, built as a modern reproduction of the Colt 1878 side hammer shotgun; a hammerless box lock version (a reproduction of the Colt 1883 shotgun) is also produced, as the "Coach Gun".
- features include: bead front sight; round, smoothbore, side by side blued barrels with a solid top rib; front hinged steel receiver/frame with a top tang mounted break open lever and sliding type safety; side-hammer side lock receiver/frame; double triggers; walnut beavertail forearm and pistol-grip buttstock; steel butt plate; blued finish.
- overall length with a 508mm (20") barrel is 940mm (37"), average weight is 3.25kg (7.16 lbs).

Manufacturer

- manufacturer's logo, "FAP"in a diamond and/or "F.LLI PIETTA - MADE IN ITALY" may be marked on the firearm.

Action

- side by side barrel configuration.

Serial Number

- serial number is usually marked on the water table and may be repeated on the underside of the barrel, hidden by the forearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre designation is usually marked on top of the barrel and/or on the underside of the barrel, hidden by the forearm.

- "HARTFORD" is a trademark used on firearms manufactured by Aral, Armi San Marco, Armi Sport, Rossi, and Uberti and imported by EMF.
- "EMF" is the abbreviation for Early and Modern Firearms Company Incorporated.
- "EMF CO. Inc." is an importer and distributor.
- EMF was located in Studio City, California, U.S.A., before 1981.
- EMF moved to their new location in Santa Ana, California, U.S.A., circa 1982.
- EMF distributed the Dakota Single Action revolver series.
- EMF introduced the New Dakota Single Action Army revolver series in 1991.
- EMF's Dakota revolvers were mainly manufactured by Armi San Marco until 2000, and then by Uberti starting in 2001.
- EMF introduced the Hartford 1873 Single Action Army series, circa 1991.
- EMF introduced the Great Western II 1873 Single Action series, circa 2003.

Model

- "HARTFORD MODEL" is marked on the barrel.
- "FRONTIER SIX SHOOTER" is marked on the left side of the barrel.
- "PAT. SEPT. 19, 1871" over "JULY 2, 72. JAN. 19, 75." is marked on the left side of the receiver/frame.
- this firearm resembles a Colt "Frontier Six Shooter" revolver.
- features include: round barrel; fixed half-moon blade front sight and a notch in the top strap for a rear sight; ejector rod mounted on the right bottom side of the barrel; solid top receiver/frame with removable fluted cylinder and right side loading gate; exposed spur hammer; single action trigger mechanism; blued barrel with a case hardened receiver/frame; blued steel backstrap and trigger guard; walnut grip plates.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "Made in Italy" or "Italy" is marked on the firearm.
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Serial Number

- serial number is marked on the underside of the receiver/frame in front of the trigger guard.
- observed serial number consisted of a two letter "SA" prefix and five numbers.

Calibre

- calibre is marked on the left side of the barrel.

Other Markings

HARTFORD CT MODEL
was observed marked on the top of the barrel.

FRONTIER SIX SHOOTER .40-40
was observed marked on the left side of the barrel.

ASM ITALY + EMF S.A. CAL*
was observed marked on the underside of the barrel.

CAT. 5561
was observed marked on the front of the receiver/frame.

PAT.SEPT.19.1871.
JULY 2.72.JAN.19.75.
was observed marked on the left side of the receiver/frame.

SA12471
was observed marked on the underside of the receiver/frame.

Notes

Make

- "EMF", "EMF CO.", "EMF CO. CALIF. USA." or "EMF S.A. Cal." may be marked on the firearm.
- "EMF" is the abbreviation for Early and Modern Firearms Company Incorporated.
- EMF was located in Studio City, California, U.S.A., before 1981.
- EMF moved to their new location in Santa Ana, California, U.S.A., circa 1982.
- "EMF CO. Inc." is an importer and distributor.
- "EMF" distributed the Dakota Single Action revolver series.
- "EMF" introduced the New Dakota Single Action Army revolver series in 1991.
- "EMF" Dakota revolvers were mainly manufactured by Armi San Marco until 2000, and then by Uberti starting in 2001.
- "EMF" introduced the Hartford 1873 Single Action Army series, circa 1991.
- "EMF" introduced the Great Western II 1873 Single Action series, circa 2003.

Model

- "Col LeMat" may be marked on the firearm. This is one of several "Le Mat" models reproduced by Pietta.
- this muzzle-loading, percussion firearm has a single shot barrel (.65" calibre or 20 GA) with a nine shot (.44" calibre) cylinder, that revolves on the central single shot barrel.
- features include fixed front sight and a "V" notch in the nose of the hammer for a rear sight; rifled, octagonal top barrel; round, smoothbore, lower barrel (both are normally the same internal length); two-piece ramrod/loading lever mounted on the left side of the receiver/frame; case-hardened hammer and trigger; rounded trigger guard; scroll engraving on cylinder; knurled pin barrel release; cross pin barrel selector located on the hammer; two-piece checkered walnut grip; lanyard ring on butt; artificially aged grey patina finish.

Manufacturer

- manufacturer's logo, "FAP" and/or "F.LLI PIETTA - MADE IN ITALY" is usually marked on the firearm.
- "FAP" is the abbreviation for Fabbrica Armi Pietta.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- muzzle-loading. - revolving cylinder with a central shotgun barrel.
Serial Number	- serial number is usually marked on the underside of the receiver/frame next to the trigger.
Calibre	calibre designation is usually marked on the barrel.

- EMF introduced the New Dakota Single Action Army revolver series in 1991.
- EMF's Dakota revolvers were mainly manufactured by Armi San Marco until 2000, and than by Uberti starting in 2001.
- EMF introduced the Hartford 1873 Single Action Army series, circa 1991.
- EMF introduced the Great Western II 1873 Single Action series, circa 2003.

Model

- This model is a reproduction of the Smith & Wesson Schofield Revolver as adopted by the U.S. military and produced for civilian sales.
- The barrel length 127MM is peculiar to the "Wells Fargo" variation of the Schofield as manufactured by Armi San Marco.

Manufacturer

- "Made in Italy" or "Italy" is marked on the firearm.
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Action

- single action, top break revolver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number rationalization unknown. - observed specimen serial numbers have no suffix or prefix - four digits only.
Calibre	- This firearm as produced by Armi San Marco is available in other calibres. At the present time (1999) 45 Colt is the only calibre available from EMF.

Notes

Make

- "EMF", "EMF CO.", "EMF CO. CALIF. USA." or "EMF S.A. Cal." may be marked on the firearm.
- "EMF" is the abbreviation for Early and Modern Firearms Company Incorporated.
- "EMF CO. Inc." is an importer and distributor.
- EMF was located in Studio City, California, U.S.A., before 1981, moved to their new location in Santa Ana, California, U.S.A., circa 1982.
- EMF distributed the Dakota Single Action revolver series and introduced the New Dakota Single Action Army revolver series in 1991.
- EMF's Dakota revolvers were mainly manufactured by Armi San Marco until 2000, and then by Uberti starting in 2001.
- EMF introduced the Hartford 1873 Single Action Army series, circa 1991.
- EMF introduced the Great Western II 1873 Single Action series, circa 2003.

Model

- introduced in 2006.
- this is a reproduction of the "Spencer model 1865" carbine.
- the original was the second generation of one of the first truly practical repeating long-arms designed to use metallic cartridges, and has an important place in history as being one of the most widely used and effective firearms during the US Civil War.
- features include: tapered round barrel; fixed front sight and adjustable rear sight; receiver/frame featuring a distinctly shaped lever (the lever forms a large trigger guard, and pivots around a pin in the bottom of a very large "hump" at the bottom of the receiver/frame); blade type extractor located on the left side of the chamber; a hammer is mounted on a side plate on the right side; single trigger mechanism; straight-grip walnut stock with slightly curved butt plate and short forearm with one barrel band (carbine); blued barrel finish; color case hardened receiver/frame, hammer, side plate, lever and barrel band.
- overall length for a 508mm (20") barrel is 940mm (37"), average weight is 3.63kg (8lbs).

Calibre

- calibre designation may be marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - tubular magazine is mounted inside the buttstock.

Notes

Make

- "EMF", "EMF CO.", "EMF CO. CALIF. USA." or "EMF S.A. Cal." may be marked on the firearm.
- "EMF" is the abbreviation for Early and Modern Firearms Company Incorporated.
- "EMF CO. Inc." is an importer and distributor.
- EMF was located in Studio City, California, U.S.A., before 1981.
- EMF moved to their new location in Santa Ana, California, U.S.A., circa 1982.
- EMF distributed the Dakota Single Action revolver series.
- EMF introduced the New Dakota Single Action Army revolver series in 1991.
- EMF's Dakota revolvers were mainly manufactured by Armi San Marco until 2000, and than by Uberti starting in 2001.
- EMF introduced the Hartford 1873 Single Action Army series, circa 1991.
- EMF introduced the Great Western II 1873 Single Action series, circa 2003.

Model

- this is a modern reproduction of the Winchester Model 1873 lever action rifle, available in some non-original chamberings.
- model designation is marked on the top tang of receiver/frame as: "Model 1873" or "1873".
- features include: colour case-hardened or blued receiver/frame; blued tapered round, octagonal or half round & half octagonal barrel; European walnut buttstock with straight or curved pistol grip and separate forearm with barrel band or end cap; blade front and adjustable open rear sight.
- several options available: deluxe grade wood, pistol grip buttstock, checkering, engraving, tang mounted rear sight etc.

Manufacturer

- Uberti logo may appear on the firearm as a "U" inside a rifled, octagonal barrel.

Serial Number

- serial number is marked on the receiver/frame.

Calibre

- calibre designation is marked on the barrel.

Shots

- tubular magazine located under the barrel.

Notes

Make

- British government ownership markings appear on the lockplate as does the crown and cypher (VR) of Queen Victoria.

Model

- model is not marked on the firearm.
- a percussion ignition replacement to the flint ignition Baker rifle.
- a side hammer, back action or side lock, muzzle loading percussion rifle.
- features include: brass buttplate, patch box, barrel key escutcheons, finger spur trigger guard, two ramrod pipes and nosecap; multi leaf rear sight; double line border engraved on the lock plate and the body of the hammer; bayonet bar on right side of muzzle of barrel; full length walnut stock.
- unique form of rifling utilizing two deep spiraled grooves which requires a bullet in the form of a belted round lead ball which fits into those grooves and imparts a spin on the bullet when the rifle is fired.
- adopted by the British Army in 1837 and replaced by the Pattern 1853 Enfield.

Manufacturer

- appears on the lockplate as "ENFIELD"

Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145541 - 1	30X170	3	2440	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- "L21" or "L21A1" is marked on the cannon.
- this is an unusual 30mm cannon designed at Enfield during the early 1960s, for use on armoured fighting vehicles; "RARDEN" is an acronym for "Royal Armament Research and Development Enfield".
- this cannon was developed after analysis of Soviet armoured fighting vehicles (the most likely threat at the time) showed that a calibre of 30mm was the smallest that was likely to be effective against those vehicles, but there was no suitable cannon in the UK armory that could fill that role. Enfield was given the task of designing suitable cannon for the Fox, Scimitar, and FV 432 armoured fighting vehicles, and the L21 RARDEN was the end result.
- this cannon was designed with an emphasis on light weight and small size, allowing it to be mounted in a turret on any suitable armoured vehicle; one side effect of this is that the gun only has a six-shot capability at any one time, as the cannon is fed via three-round stripper clips stacked in the feed-way. Additional clips must be dropped into the feed-way as the cannon is fired.
- features include: parkerized or phosphated finish; cone-shaped flash-hider; a cylindrical barrel housing; an unusual long-recoil method of operation that uses a rolling cam to draw the breechblock sideways as the barrel assembly recoils; three-round clip feed; solenoid firing controls, a rotary crank charging handle at the rear of the receiver; and remote sights.
- this cannon is in use in the UK, Belgium, and several smaller countries.

Manufacturer

- the manufacturer or logo thereof is marked on the cannon.

Action

- recoil operated.

Serial Number

- serial numbered on the receiver/frame.

Notes

Make

- the weapons system that was adopted by the British military was developed and originally produced at the Royal Small Arms Factory in Enfield.

Model

- model designation may appear on the right side of the firearm.
- this model is part of the weapons system known as the "SA 80" and was adopted by the British army in 1985 as the "L85A1" to fill the role of the combat soldiers "Individual Weapon".
- L85A1 was manufactured until 1994.
- L85A1 was modified/upgraded to a L85A2 version starting in 2001.
- features include: designed and intended to be deployed with an optical (4X) sight unit known as, Sight Unit Small Arms Trilux (SUSAT Sight), may be utilized with standard iron sights consisting of an adjustable blade fore-sight and an adjustable leaf aperture rear sight; a true bull-pup design firearm with the magazine well, ejection port and the breech mechanism located to the rear of the pistol grip and trigger mechanism; injection moulded synthetic furniture.
- cyclic rate of fire 700 - 800 shots per minute.
- overall length of 773mm.
- weight with SUSAT sight unit and full 30 round magazine 4.80 Kg.
- rifling, six grooves, uniform right hand twist, one turn in 180mm.

Manufacturer

- manufacturer's identification code and year of manufacture may be marked on the receiver/frame, eg. "UE 85".
- "L85A1" was originally produced at the Royal Ordnance Factory located in Enfield, England (UE).
- "L85A1" production was moved to the Royal Ordnance Nottingham Small Arms Facility (NSAF)/Royal Ordnance PLC in Nottingham, England (UN) in 1988.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame. - observed serial number had a letter "A" prefix. - observed marked on the right side of the firearm: "UE 85 A000001". - "UE 85" is the manufacturer's code and year of manufacturer. - "A000001" is the serial number.
Barrel	- barrel measurement does not include flash hider. - overall length of the barrel including the flash hider is 518 mm.
Calibre	- calibre is marked on the side of the firearm.
Shots	- detachable box magazine.

Notes

Make

- the weapons system that was adopted by the British military was developed and originally produced at the Royal Small Arms Factory in Enfield.

Model

- the model designation may appear on the right side of the firearm as an engraved addition to the model.
- this model is part of the weapons system known as the "SA 80" and was adopted by the British army in 2002 as the "L85A2" to fill the role of the combat soldiers "Individual Weapon".
- the Heckler & Koch logo was engraved on the top of the receiver/frame after the modification program changes were made.
- visible modifications include: enlarged ejection opening and new pattern gas plug with one slot as opposed to two slots on the older L85A1 variant. Many internal mechanism changes; one of the locking lugs on the barrel extension has been removed to provide a guide for ejected cartridge cases; changed bolt assembly with a larger more robust extractor; different tear-drop shaped cocking handle.
- all modified or improved parts are identified by a different finish, high polish or they are marked with the H&K logo.
- features common to both the L85A1 & L85A2 include: designed and intended to be deployed with an optical (4X) sight unit known as, Sight Unit Small Arms Trilux (SUSAT Sight), may be utilized with standard iron sights consisting of an adjustable blade fore-sight and an adjustable leaf aperture rear sight; a true bull-pup design firearm with the magazine well, ejection port and the breech mechanism located to the rear of the pistol grip and trigger mechanism; injection moulded synthetic furniture.
- cyclic rate of fire 610 - 775 shots per minute.
- overall length of 785mm.
- weight with SUSAT sight unit and full 30 round magazine 4.80 Kg.
- rifling, six grooves, uniform right hand twist, one turn in 177.8mm (different rifling pitch than the L85A1).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the original manufacturer's identification code and year of manufacture may be marked on the receiver/frame, eg. "UE 85" and "UN 89". - L85A1 was originally produced at the Royal Ordnance Factory located in Enfield, England (UE) until 1988. - L85A1 production was moved to the Royal Ordnance Nottingham Small Arms Facility in Nottingham, England (UN) in 1988. - L85A2 modification was designed and implemented by Heckler & Koch, Oberndorf, Germany. Approximately 385,000 rifles were reworked in this five year time period at Oberndorf.
Action	- gas operated.
Serial Number	- serial number is marked on the right side of the receiver/frame. - observed serial number had a letter "A" prefix. - observed marked on the right side of the firearm: "UE 85 A000001". - "UE 85" is the manufacturer's code and year of manufacturer. - "A000001" is the serial number.
Barrel	- barrel measurement does not include flash hider. - overall length of the barrel including the flash hider is 518 mm.
Calibre	- calibre is marked on the side of the firearm.
Shots	- detachable box magazine of a new improved design.

Model

- manufactured from 1882 to 1887.
- British Royal Cypher (crown), over "V.R.", over "ENFIELD", over the date of manufacture, over the Roman numeral "II" or the British Royal Cypher (crown), over "V.R.", over "ENFIELD", over the Roman numeral "II", over the date of manufacture is marked on the right side of the receiver/frame. These marking may be placed horizontally or vertically.
- "MARK 1" was an early top-break double-action revolver adopted for UK service in 1880, and the "MARK 2" was an improved version adopted in 1882.
- these revolvers have butt-caps with lanyard-rings, unusual high backstrap tangs, top-strap latches on the left side of the frame, fluted cylinders, a loading groove milled into the right side of the frame with a loading gate, and an unusual arched front frame-strap, which allowed the cylinder to move forward when the barrel tipped down.
- these revolvers have an unusual extraction system, whereby the cylinder is pulled forward off of cases that are retained by a clip on the standing breech. This was an unnecessarily complicated system, and the Webley Mark I revolver was adopted to replace the Enfield in November 1887.

Manufacturer

- "ENFIELD" and the year of manufacture are usually marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on the front underside of the receiver/frame, with major parts also numbered.
- example observed with one to four numbers and without a letter prefix or suffix.
- example observed with an "A" prefix and four numbers.

Notes

Make

- the make "Enfield" is derived from the location of the small arms factory that developed and manufactured most of these firearms.

Model

- "No 2 Mk I" is marked on the right side of the receiver/frame.
- "No 2 MARK 1" was manufactured from 1932 to 1939.
- "No 2 MARK 1" has a front hinged receiver/frame and an exposed spurred hammer.
- "No 2 MARK 1" may also be known as "Enfield 38".
- "No 2 MARK 1" was the standard revolver used by the British Army in WWII.
- some parts may be stamped "SM" or "SSM". This refers to SINGER SEWING MACHINE COMPANY who produced some parts for ENFIELD during WWII.
- the standard "No 2 Mark I" revolver in 38 S&W calibre can be converted to fire 22 LR ammunition by means of a "sub-calibre adaptor unit". These units could be referred to as a "Morris Tube Sub-Calibre" or "Parker Hale Adaptors". They may also be generally referred to as "Conversion Units".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- prior to 1941, the manufacturer's name "Enfield" over a crown is marked on the right side of the receiver/frame. - from 1941 to 1945, the manufacturer's mark for Royal Small Arms, Enfield, may be marked on the right side of the receiver/frame above the grip as the alpha character "E" superimposed on a "D".
Serial Number	- The serial number is marked on the front of the receiver/frame and is repeated on the barrel assembly. - The serial number may have no letter prefix or a one letter prefix.
Barrel	- 38 SPL / 22 LR - if the barrel is measured with the 22 LR adaptor inserted, the length extends to 140mm.

Notes

Make

- the make "Enfield" is derived from the location of the small arms factory that developed and manufactured most of these firearms.
- Enfield is not marked on units produced by Albion Motors Ltd.

Model

- "No 2 Mk I*" over the year of manufacture is marked on the right side of the receiver/frame.
- manufactured from 1941 to 1942.
- similar to the "No 2 MARK I" model only with a spurless hammer.
- it was developed to address the requirement of the Royal Tank Regiment who found the hammer of the "No 2 MARK I" caught on the interior fittings of tanks when entering and exiting the tank.
- may also be known as "No 2 MARK I* Tanker", "No 2 MARK I* Commando", "Tanker" or "Commando".

Manufacturer

- "ALBION" is marked on the right side of the receiver/frame.
- ALBION MOTORS LIMITED produced the "No 1 Mark I*" , "No 1 Mark I**" and possibly the "No 2 Mark 1*" from 1941 to 1943. In the first quarter of 1943, all production was passed on from ALBION to COVENTRY TOOL & GAUGE COMPANY, who continued production under a war time code of "M290".

Serial Number

- observed serial number had a letter "A" prefix and four numbers.

Notes

Make

- the make "Enfield" is derived from the location of the small arms factory that developed and manufactured most of these firearms.
- Enfield is not marked on units produced by Albion Motors Ltd.

Model

- "No 2 Mk I**" over the date of manufacture is marked on the right side of the receiver/frame.
- produced from 1942 to 1943.
- similar to the "No 2 MARK I*" Model except for the absense of the hammer safety stop.
- this was found to be an unsafe model. Therefore, after the war they were recalled to have a hammer stop added. By doing so, these firearms became the same as the " "No 2 MARK I*" models.
- features include: double-action only trigger mechanism, no hammer spur, bakelite or wooden grip panels, lanyard ring, fixed sights, top break, automatic ejection.

Manufacturer

- "ALBION" is marked on the right side of the receiver/frame, behind the trigger.
- ALBION MOTORS LIMITED only produced the "No 1 Mark I*" and the "No 1 Mark I**" from 1941 to 1943. In the first quarter of 1943, all production was passed on from ALBION to COVENTRY TOOL & GAUGE COMPANY, who continued production under a war time code of "M290".

Serial Number

- serial number is marked on the front underside of the receiver/frame in front of the trigger guard and may be repeated on the barrel and cylinder.
- the serial number may have a "B", "C" or "D" prefix.

Calibre

- calibre is marked on the top of the barrel rib.

Shots

- fixed cylinder.

Notes

Make

- the basic firearm originated at the Royal Small Arms Factory, Enfield.

Model

- not marked on the firearm as to the model or pattern.
- this pattern was adopted in 1853 by the British Military Ordnance Board as the "1853 Pattern Rifle".
- initially produced in America for the British War Department during the war in the Crimea against Czarist Russia, and the contract was terminated in 1858. Ironically, within five years, it is possible that many of these firearms were "repatriated" to America for use in their Civil War.
- features include: side-lock plate on the right side with external hammer, nipple for percussion cap on the right-rear of the barrel, barley-corn style front-sight and open folding-leaf rear-sight, walnut furniture with three barrel-retaining bands, brass buttplate, nose-cap, and trigger guard, steel ram-rod carried under-barrel, sling swivels on the front of the trigger guard and the foremost barrel band.

Manufacturer

- manufacturer is not marked on the firearm.
- "WINDSOR" is marked on the lock on the right side of the firearm, ahead of the hammer:

Action

- muzzle-loading black powder percussion rifle.

Serial Number

- numerals, usually found on the underside of the rear-sight leaf.
- numbers found on the side of the buttstock, or on the buttplate are NOT serial numbers: these are usually unit/regiment or rack numbers.

Other Markings

- British Proof and Acceptance markings on all major components.
- a crown, and the letters V.R. appears toward the rear of the lock-plate.
- the "cartouche" of the manufacturer may appear on the right side of the buttstock.

FRT Report

Firearm Reference Number (FRN): 54477
Make: Enfield
Model: Pattern 1853 Rifle

Summary

Make:	Enfield
Model:	Pattern 1853 Rifle
Manufacturer:	Royal Small Arms Factory, Enfield (RSAF(E))
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
54477 - 2	12 GA PERCUSSION	1	883	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	
54477 - 1	577 PERCUSSION	1	991	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the basic firearm originated at the Royal Small Arms Factory, Enfield.

Model

- not marked on the firearm as to the model or pattern.
- this pattern was adopted in 1853 by the British Military Ordnance Board as the "1853 Pattern Rifle".
- side-lock plate on the right side with external hammer, nipple for percussion cap on the right-rear of the barrel, barley-corn style front-sight and open folding-leaf rear-sight, walnut furniture with three barrel-retaining bands, brass buttplate, nose-cap, and trigger-guard, steel ram-rod carried under-barrel, sling swivels on the front of the trigger-guard and the foremost barrel-band.

Manufacturer

- marked on the lock on the right side of the firearm, ahead of the hammer: ENFIELD (plus date of manufacture)
- the "cartouche" of the manufacturer appears on the right side of the buttstock as a circle within a circle, with a date in the center, and between the circles at the top, "R" (crown) "M"; and at the bottom, "ENFIELD".
- alternate cartouche: within the circles, a crown, surmounted with "E", and a "No" beneath the crown; and between the circles, at the top, "R" (crown) "M"; and at the bottom, "ENFIELD".

Action

- muzzle-loading black powder percussion rifle.

Serial Number

- numerals, usually found on the underside of the rear-sight leaf.
- numbers found on the side of the buttstock, or on the buttplate are NOT serial numbers: these are usually unit/regiment or rack numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- British Proof and Acceptance markings on all major components.
- a crown, and the letters V.R. appears toward the rear of the lock-plate.
- the "cartouche" of the manufacturer appears on the right side of the buttstock.

74931 - 1	577 PERCUSSION	1	991	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the basic firearm originated at the Royal Small Arms Factory, Enfield.

Model

- not marked on the firearm as to the model or pattern.
- this pattern was adopted in 1853 by the British Military Ordnance Board as the "1853 Pattern Rifle".
- side-lock plate on the right side with external hammer, nipple for percussion cap on the right-rear of the barrel, barley-corn style front-sight and open folding-leaf rear-sight, walnut furniture with three barrel-retaining bands, brass buttplate, nose-cap, and trigger-guard, steel ram-rod carried under-barrel, sling swivels on the front of the trigger-guard and the foremost barrel-band.

Manufacturer

- "TOWER" is marked on the lock plate.
- British Royal Board of Ordnance established a system circa 1714 to control manufacturing specifications of firearms for the Army (Land Service) and Navy (Sea Service), this system was known as the Pattern.
- British Royal Board of Ordnance had two main assembly/inspection armory sites: DUBLIN CASTLE in Ireland and TOWER in London, England.
- "TOWER" was marked on firearms assembled/inspected at the Tower of London armory from parts supplied by various contracts.
- "TOWER" was also marked on firearms inspected at the Tower of London armory and manufactured by other contracted gunmakers.
- "TOWER" was used by the Tower of London armory as an inspection marked, until the early 1900s.
- "TOWER" marked firearms were proofed in either Birmingham or London.

Action

- muzzle-loading black powder percussion rifle.

Other Markings

- the date of manufacture appears on the lockplate under the manufacturer's name.

Notes

Make

- the basic firearm originated at the Royal Small Arms Factory, Enfield.

Model

- not marked on the firearm as to the model or pattern.
- this pattern was adopted in 1853 by the British Military Ordnance Board as the "1853 Pattern Rifle".
- side-lock plate on the right side with external hammer, nipple for percussion cap on the right-rear of the barrel, barley-corn style front-sight and open folding-leaf rear-sight, walnut furniture with three barrel-retaining bands, brass buttplate, nose-cap, and trigger-guard, steel ram-rod carried under-barrel, sling swivels on the front of the trigger-guard and the foremost barrel-band.

Manufacturer

- references indicate manufacture under contract to the British Military Ordnance Boards, by a consortium of various makers in Liege Belgium.
- a "cartouche" may (or may not) appear on the right side of the buttstock, example: three concentric rings, and in the center, a date surmounted by a British ordnance broad arrow.

Action

- muzzle-loading black powder percussion rifle.

Serial Number

- numerals, usually found on the underside of the rear-sight leaf.
- numbers found on the side of the buttstock, or on the buttplate are NOT serial numbers: these are usually unit/regiment or rack numbers.

Other Markings

- usually has British Proof and Acceptance markings on most major components.
- appears on the lock-plate, behind the hammer, a crown and the letters V R (usually with a small star between V and R), and date of manufacture (italic style) ahead of the hammer.
- may or may not have a "cartouche" of the manufacturer on the right side of the buttstock.

Notes

Make

- "ENFIELD" is marked on the side plate; the date of manufacture is also usually marked above the Enfield name.

Model

- model is not marked on the firearm but the year of manufacture is marked on the side plate.
- the No 2 is the same as the No 1 or first pattern except that has no tige (tige is a post or wedge located in the chamber, designed to expand the ball into the rifling).
- an optional detachable stock was available.
- this pistol was approved for British Service on 22 November 1856; production ceased circa 1864.
- features; muzzle loading, percussion ignition; side action lock plate and exposed hammer mounted on right side of pistol; one piece hardwood stock which had a brass plate butt cap with lanyard ring; ramrod mounted underneath the barrel, the ramrod was of the captive, swivel-type retained in position by the brass nose cap; brass trigger guard.

Manufacturer

- "ENFIELD" is marked on the side plate.

Action

- muzzle loading, percussion ignition.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- the proof mark of a "Crown" over "VR" is marked on the side plate.
- the proof mark of a "Crown" over "E" over "8" may be marked on the barrel.
- the proof mark of a "Crown" over "E" over "9" may be marked on the barrel.
- the proof mark of a "Crown" over "VI" may be marked on the barrel.
- an anchor over crossed swords may be marked on the barrel.

Notes

Make

- make is usually not marked on the firearm.
- the basic firearm originated at the Royal Small Arms Factory, Enfield.

Model

- not marked on the firearm as to the model or pattern.
- this pattern was adopted in 1856 by the British Military Ordnance Board as the "1856 Pattern Short Rifle".
- known examples were purchased for use in the U.S. Civil War circa 1861 to 1865.
- features include: blued, round barrel; side lock plate on the right side with external hammer; nipple for percussion cap on the right rear of the barrel; barley corn style front sight and open folding leaf rear sight; walnut furniture with two barrel retaining bands where the front band incorporates a bayonet lug; iron butt plate, nose-cap, and trigger guard; steel ramrod mounted under the barrel; sling swivels on the front of the trigger guard and the foremost barrel band.

Manufacturer

- "POTTS & HUNT" over "LONDON" is marked on the lock plate.
- Thomas Henry Potts was an English gunmaker located in London from 1821 to 1851,
- in 1853 Potts entered partnership with Thomas Hunt to form the company Potts & Hunt and that company was dissolved in 1874.

Action

- muzzle-loading black powder percussion rifle.

Notes

Make

- the basic firearm originated at the Royal Small Arms Factory, Enfield.

Model

- not marked as to the model or pattern.
- this pattern was adopted in 1856 by the British Military Ordnance Board as the "1856 Pattern Short Rifle".
- various dates commencing with 1856 and up to the mid to late 1860's will be marked on right lockplate below a Victorian crown.
- identified by the shorter barrel of 838mm (33") from the 1856 Rifle with a 991mm (39") barrel.
- features include: walnut full stock; two barrel bands; sling swivels attached to the first barrel band and to the butt stock; blade front sight; adjustable rear sight; ramrod.

Manufacturer

- "TOWER" is marked on the lock plate.
- British Royal Board of Ordnance established a system circa 1714 to control manufacturing specifications of firearms for the Army (Land Service) and Navy (Sea Service), this system was known as the Pattern.
- British Royal Board of Ordnance had two main assembly/inspection armory sites: DUBLIN CASTLE in Ireland and TOWER in London, England.
- "TOWER" was marked on firearms assembled/inspected at the Tower of London armory from parts supplied by various contracts.
- "TOWER" was also marked on firearms inspected at the Tower of London armory and manufactured by other contracted gunmakers.
- "TOWER" was used by the Tower of London armory as an inspection marked, until the early 1900s.
- "TOWER" marked firearms were proofed in either Birmingham or London.

Action

- muzzle-loading, black powder percussion rifle.

Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
140925 - 1	577 PERCUSSION	1	610	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is not marked on the firearm; the make is derived from the fact that this model/design of firearm originated at the Royal Small Arms Factory, Enfield.

Model

- no model name is marked on this firearm; model designation is derived from British Ordnance records.
- this rifle is basically a variant of the Pattern 1853 Artillery Carbine; it was authorized by British Ordnance on 15 March 1858, Order 77/18/50, as the "Pattern No. 2"; an official Pattern was produced by the Royal Small Arms Factory, Enfield in 1858 which became known as the Pattern 1858 Artillery Carbine.
- features include: muzzle loading, percussion ignition, exposed side hammer; 24"/610 mm barrel length; two bands, sling swivels and a sword bar on the front right side of the barrel; rear sight is a fixed "V" notch 100 yard sight with flip-up type leaves for 200 and 300 yards; brass furniture; 3-groove progressive depth rifling; walnut stock.
- differences between the Pattern 1853 Artillery Carbine (Pattern No.1) and the Pattern 1858 Artillery Carbine (Pattern No.2);
- no forward extension on the sword bar.
- no retaining lip on the forend cap for the ramrod.
- steel ramrod is 24"/610 mm long with a slotted jag head.
- forend cap similar to the Pattern 1853 rifle.

Manufacturer

- known example was marked "TOWER" on the lockplate in front of the hammer, over which is marked the date of manufacture; known example was dated 1862; the British Orndance "crown" is marked to the rear of the hammer.
- in addition, the manufacturers' name is marked, "JOSEPH BOURNE" on the toe of the buttstock, the inside of the lock and the bottom of the barrel.
- this firearm was made by the commercial firm of Joseph Bourne for British Service and was thusly inspected and approved for service by the Government storage facility at the Tower of London with the name "TOWER" being marked on the lockplate.
- various British Government proofmarks/acceptance marks as well as Birmingham Small Arms Trade proofmarks are apparent on this firearm.

Action

- muzzle loading, percussion ignition.

Calibre

- calibre is proofed on the breech end of the barrel as "25" which indicates "25 Bore"; 25 Bore is equivalent of .577" Bore.

Firearm Reference Number (FRN): 35934
Make: Enfield
Model: Pattern 1913

Summary

Make:	Enfield
Model:	Pattern 1913
Manufacturer:	Royal Small Arms Factory, Enfield (RSAF(E))
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
35934 - 1	276 ENFIELD	5	653	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
35934 - 2	303 BRITISH	5	653	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- named after the government arsenal where the firearm was designed. - the make does not appear on the rifle.
Model	- about 1,251 were made during 1912 and 1913. - official British nonemclature in March 1913 was: "Rifle, Magazine, Enfield, .276-inch. - do not confuse with the Enfield Model Pattern 1914.
Action	- manually operated, magazine fed, bolt action, repeating rifle. - modified Mauser type action.
Serial Number	- normally marked on the front right side of the receiver.
Calibre	- ".276" designation follows the British practice of using barrel bore diameter as the cartridge name. Bullet diameter is listed as .282" (nominal 7MM).
Remarks	- Assuming the rifle is in original configuration, the four angled finger grooves on both sides of the forend and the .276 bore diameter (smaller than the Pattern 1914, .303 bore diameter) are the main identification features. Also, the lack of manufacturer's markings as found on the Enfield Model 1914 rifles will assist in the correct identification.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "ENFIELD" is not marked on the firearm. - named after the government arsenal where the firearm was designed.
Model	- "Pattern 1914" is not marked on the firearm. - manufactured from 1915 to 1917. - Remington Arms (located in Eddystone) manufactured about 403,000 examples of this model. - "Pattern 1914" was also produced by Winchester. - "Pattern 1914" official pre 31 May 1926 nomenclature was: "Rifle, Magazine, .303 inch, Pattern 1914". - "Pattern 1914" post 31 May 1926, nomenclature became "Rifle No. 3 Mark 1" or "Rifle No. 3 Mark 1*". - "Pattern 1914" rifle is a Mauser type bolt action rifle with a one-piece, full length military style walnut stock, having a full length wood upper hand guard. - features include: protected blade front sight, protected elevation adjustable rear peep sight, bayonet lug, sling swivels, integral charger bridge, with an internal box magazine charged from the top using a five round stripper clip. - the rifle has a notable swept-back "dog-legged" bolt handle, a pronounced angular step on the front portion of the trigger guard, and a pair of substantial "wings" protecting the rear sights. - A cock on open conversion kit is available for the "P-14" pattern on Enfield rifles. This kit consists of a new cocking piece, a new striker spring and a Mauser style "Mark II" trigger.
Manufacturer	- "ERA" is marked on the receiver ring above the serial number. - "ERA" identifies the manufacturer as "Eddystone, Remington Arms" (Remington Arms, located in Eddystone). The actual corporate name of the temporary wartime company created to make this rifle at Eddystone was "Remington Arms of Delaware".
Action	- turn-bolt design.
Serial Number	- the serial number is marked on the right side of the receiver ring. - the serial number has no letter prefix or suffix. - "ERA" the manufacturer's identifier is marked above the serial number. - the serial number range is from 1 to about 605,000. - NOTE: the letter prefix of "W" in the serial number indicates the manufacturer to be "Winchester".
Shots	- internal box magazine.
Canadian Law Comments	- many examples of this model have been converted to hunting rifles by the removal of unnecessary wood and possible barrel shortening.
Remarks	- there were several small design changes in 1916 in the bolt and barrel causing rifles with the improved components to be called Pattern 1914 Mark 1*. - the original rifles with the older bolts and barrels then changed their nomenclature from "Pattern 1914" to "Pattern 1914 Mark 1". - many examples of this model have been converted to hunting rifles by the removal of unnecessary wood and possible barrel shortening.

Notes

Make

- "ENFIELD" is not marked on the firearm.
- named after the government arsenal where the firearm was designed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "Pattern 1914" is not marked on the firearm.
- manufactured from 1915 to 1917 by Remington.
- Remington made about 403,000 examples of this model.
- "Pattern 1914" official pre 31 May 1926 nomenclature was: "Rifle, Magazine, .303 inch, Pattern 1914".
- "Pattern 1914" post 31 May 1926, nomenclature became "Rifle No. 3 Mark 1" or "Rifle No. 3 Mark *".
- "Pattern 1914" rifle is a sturdy Mauser type bolt action rifle with one piece full length military style walnut stock, having a full top-wood handguard.
- features include: protected blade front sight, protected elevation adjustable rear peep sight; bayonet lug; sling swivels; integral charger bridge with an internal box magazine charged from the top using a five round stripper clip.
- the rifle has a notable swept-back dog-legged bolt handle, a pronounced angular step on the front portion of the trigger guard, and a pair of substantial "wings" protecting the rear sights.

Manufacturer

- "RE" inside an oval is maked on the top of the receiver ring.
- "RE" identifies the manufacturer to be "REMINGTON".

Action

- turn bolt operated.

Serial Number

- serial number is marked on the right side of the receiver ring and may also be repeated on the bolt.
- serial number has no letter prefix or suffix.
- serial number range is from 1 to about 403,126.
- NOTE: letter "W" prefix in the serial number indicates the manufacturer to be "Winchester".

Shots

- internal box magazine.

Canadian Law Comments

- many examples of this model have been converted to hunting rifles by the removal of unnecessary wood and possible barrel shortening.

Remarks

- there were several small design changes in 1916 in the bolt and barrel causing rifles with the improved components to be called Pattern 1914 Mark 1*.
- the original rifles with the older bolts and barrels then changed their nomenclature from Pattern 1914 to Pattern 1914 Mark 1.
- for the purpose of the FRT, all are considered "Pattern 1914".
- many examples of this model have been converted to hunting rifles by the removal of unnecessary wood and possible barrel shortening. The different manufacturers' marks on the receiver will correctly identify the manufacturer and hence the correct FRT entry.

Notes

Make

- "ENFIELD" is not marked on the rifle.
- named after the government arsenal where the firearm was designed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "Pattern 1914" is not marked on the firearm.
- manufactured from 1915 to 1917.
- Winchester manufactured about 235,500 examples of this model.
- "Pattern 1914" official pre 31 May 1926 nonemclature was: "Rifle, Magazine, .303 inch, Pattern 1914".
- "Pattern 1914" post 31 May 1926, nomenclature became "Rifle No. 3 Mark 1" or "Rifle No. 3 Mark*".
- there were several small design changes in 1916 in the bolt and barrel causing rifles with the improved components to be called Pattern 1914 Mark 1*.
- the original rifles with the older bolts and barrels then changed their nomenclature from Pattern 1914 to Pattern 1914 Mark 1.
- for the purpose of the FRT, all are considered "Pattern 1914".
- "Pattern 14" rifle is a sturdy Mauser type bolt action rifle with one piece full length military style walnut stock, having a full top-wood handguard.
- it has a protected blade front sight, protected elevation adjustable rear peep sight, bayonet lug, sling swivels, integral charger bridge, with an internal box magazine charged from the top using a 5 round stripper clip.
- the rifle has a noteable swept-back dog-legged bolt handle, a pronounced angular step on the front portion of the trigger guard, and a pair of substantial "wings" protecting the rear sights.

Manufacturer

- the manufacture's name is not marked on the firearm.
- the letter prefix of "W" in the serial number indicates the manufacturer to be "Winchester".
- do not confuse with Pattern 1914 rifles made by the other two manufacturers or confuse with the Pattern 1913.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the right side of the receiver ring.
- serial number has a letter "W" prefix.
- serial number range is from W1 to about W235,500.

Shots

- internal box magazine.

Canadian Law Comments

- many examples of this model have been converted to hunting rifles by the removal of unnecessary wood and possible barrel shortening.

Remarks

- many examples of this model have been converted to hunting rifles by the removal of unnecessary wood and possible barrel shortening.
- this model has a noteable swept back dog-leg bolt handle, a pronounced angular step at the front part of the trigger guard and a pair of substantial "wings" or "ears" protecting the aperature rear sight.

Notes

Make

- "ENFIELD" is not marked on the firearm.
- named after the government arsenal where the firearm was designed.

Model

- model designation does not appear on the firearm.
- originally manufactured from 1915 to 1917.
- the receiver/frame of this firearm has been permanently altered to no longer allow the use of the integral magazine by silver soldering a metal plate in the recess in the bottom of the receiver/frame.

Action

- turn bolt operated.

Serial Number

- the serial number is marked on the right side of the receiver ring.

Canadian Law Comments

- many examples of this model have been converted to hunting rifles by the removal of unnecessary wood and possible barrel shortening.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - the original manufacturers name or code may be marked on the firearm.

Notes

Make

- make is not marked on the firearm.

Model

- model name is not marked on the firearm.
- this is a generic entry to encompass all former military contract Model of 1917 rifles as reworked by BSA for the commercial hunting market. Original barrel may or may not have been replaced. Action may or may not have been polished and reblued.
- BSA is marked/stamped on the receiver, usually at the rear. Barrel may also be marked with BSA logo.
- original manufacturer's name, i.e., Winchester, Eddystone or Remington may or may not be apparent on the receiver ring.
- original military contract markings of: "U.S. Model of 1917" and serial number may or may not be apparent on the receiver ring.

Manufacturer

- rifle converted to sporting model on a commercial customization basis by BSA.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization unknown.
- serial number reported: prefix letter H followed by five digits.

Notes

Make

- the make does not appear on the firearm.
- named after the government arsenal where the firearm was designed.
- Enfield should not be confused with Lee-Enfield.

Model

- model does not appear on firearm
- this is a generic entry for the purpose of identifying an otherwise un-identifiable Enfield Pattern 1914 or US Rifle model 1917 when all markings are removed and no markings are added by the person customizing the firearm.
- the large external extractor, the safety located on the right rear of the receiver/frame and a raised boss on the right side of the front receiver ring distinguish this rifle.
- do not confuse this with the Lee-Enfield rifle with the detachable magazine.
- A cock on open conversion kit is available for the "P-14" pattern on Enfield rifles. This kit consists of a new cocking piece, a new striker spring and a Mauser style Mark II trigger.

Action

- turn-bolt design.

Serial Number

- usually marked on the side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre may be marked on the barrel. - these receiver/frames are commonly used to build custom rifles in a wide range of calibres.
Shots	- integral magazine.
Other Markings	- if "ERA" is marked on the receiver/frame the original manufacturer is the Remignton Arms factory located in Eddystyone. - if "RE" inside an oval is marked on the receiver/frame the original manufacturer is Remington. - if the serial number has a "W" prefix the original manufacturer is Winchester.
Remarks	- these rifles or receiver/frames are often used to make sporting rifles. - the receiver/frame may be extensively modified by removing the rear sight guards, straightening the floor plate of the magazine, cock on open conversion, drilling and tapping for scope mounts or commercial pattern sights, straightening the bolt handle and altering the bolt face. The stock may also be extensively modified.

Notes

Make

- "MP 45" over "CAL. 45 ACP" over "ENFIELD AMERICA INC." over "ATLANTA, GA. U.S.A. " is marked on the left side of the receiver/frame.
- Enfield America Incorporated was a short-lived manufacturer based in Atlanta, Georgia, U.S.A., that produced a number of para-military-style handguns and carbines before re-organizing in 1986 to become "Encom".

Model

- "MP 45" is marked on the left side of the receiver/frame.
- manufactured in 1985.
- this is a "para-military"-style handgun resembling a STEN with a vertical magazine well, produced by Enfield America Inc. for a short time during 1985. After Enfield America was re-organized in 1986 as "Encom", the design was produced for a short time as the "Encom MP45", then re-designed slightly to become the "Encom Mk IV".
- features include: tubular receiver; AR-15/M16-style pistol-grip, a vertical magazine well; ventilated barrel shroud; parkerized finish; and open adjustable sights.
- also produced in 9mm Luger as the "Enfield America MP9".

Manufacturer

- "ENFIELD AMERICA INC." over "ATLANTA, GA. U.S.A." is marked on the left side of the receiver/frame.
- Enfield America Incorporated was a short-lived manufacturer based in Atlanta, Georgia, U.S.A. that produced a number of para-military-style handguns and carbines before re-organizing in 1986 to become "Encom".

Action

- blowback operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number consisted of a letter "F" prefix and five numbers.

Calibre

- "CAL. 45 ACP" is marked on the left side of the receiver/frame.

Shots

- detachable box magazine, available in capacities of 5, 10, 30, 40, or 50 rounds.

FRT Report

Firearm Reference Number (FRN): 195967
Make: EP Armory
Model: AR15/M16 Type

Summary

Make:	EP Armory
Model:	AR15/M16 Type
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Receiver Blank
Action:	Full Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

No Data

Notes

Make

- "EP" interlocked letter and "ARMORY" is molded on the right side of the receiver/frame.
- "EP ARMORY" logo is a skull with a gas mask with two filters with the letter "EP" on the forehead.
- "EP ARMORY" has the USA 80 percent receiver/frame types for AR-15, AR-10, AR-9 MM, Ruger 10/22 type rifle and Colt 1911 type.
- "EP ARMORY" is located in Burnet, Texas USA.

Model

- this record is for receiver/frame blanks sold under a percentage of completion. (i.e.:80%).
- AR15/M16 Type is not marked on the receiver/frame blank.

Type

- receiver/frame blanks are sold under a percentage of completion (i.e.:80%).
- receiver/frame blanks that are partially completed require some tooling and minimal skill to be completed.
- receiver/frame blanks variants are based on the Colt AR-15/M16 design.
- receiver/frame blanks is sold as a receiver/frame.

Canadian Law Comments

- this receiver/frame blank is a nearly complete receiver that falls within the adaptability clause of the Criminal Code Section 2 definition of "firearm".

198332 - 9	25 PELLET	10	700	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "EPIC AIRGUNS" is marked on the left side of the receiver/frame.
Model	- "TWO" is marked on the right side of the receiver/frame. - Features include: tensioned barrel; under-barrel air tank with front mounted pressure gauge; air tank fill port located on the right side of the tank; cocking lever can be located on the right or left side of the receiver/frame; safety lever located on the left side of the receiver/frame; fixed or folding stock.
Manufacturer	- "EPIC AIRGUNS" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- Pre charged pneumatic.
Serial Number	- The serial number is marked on the left side of the receiver/frame. - The serial number of a referenced example consisted of three letters, followed by six digits.
Calibre	- The calibre designation is marked on the left side of the receiver/frame.
Shots	- Detachable rotary disc magazine.
Canadian Law Comments	- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed. - Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

FRT Report

Firearm Reference Number (FRN): 118287
Make: ERMA
Model: EG722

Summary

Make:	ERMA
Model:	EG722
Manufacturer:	ERMA Werke
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Pump Action
Country of Manufacturer:	GERMANY
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
118287 - 1	22 LR	15	470	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ERMA-WERKE" is marked on the left side of the barrel.
- ERMA was a trade name sold by EXCAM until 1986.
- EXCAM was a importer and distributor located in Hialeah, Florida, U.S.A.
- EXCAM ceased operations in late 1990.
- EXCAM imported and distributed the following trade names/trademarks: DART, ERMA, SENATOR, TANARMI, TARGA, UBERTI, and WARRIOR.

Model

- "MOD. EG 722" is marked on the barrel.
- manufactured from 1970 to 1985.
- features include: round barrel; solid receiver/frame with right side ejection; exposed spur hammer; receiver/frame is grooved for a scope mount; adjustable iron sights and a straight butt stock.

Manufacturer

- "ERMA WERKE" is marked on the firearm.

Shots

- tubular magazine mounted under the barrel.

Firearm Reference Number (FRN): 134142
Make: ERMA
Model: ELG 10

Summary

Make:	ERMA
Model:	ELG 10
Manufacturer:	ERMA Werke
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
134142 - 1	177 PELLET	1	450	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ERMA-WERKE Mod. ELG 10 Kal. 4.5mm" was observed marked on the left side of the barrel.
- "MADE IN WEST-GERMANY" was observed marked on the right side of the barrel.

Model

- introduced circa 1981 and discontinued in the 1990s.
- "ERMA-WERKE Mod. ELG 10 Kal. 4.5mm" was observed marked on the barrel.
- "ELG 10" resembles a "Winchester model 94" lever action rifle.
- this model was also solded as the Webley Ranger.
- features include: round rifled steel barrel with dummy magazine tube, hooded ramp post front sight and adjustable rear sight; flat sided open top receiver/frame; manual safety is on the rear of the receiver/frame were the hammer would normally be located; secondary safety is located on the lower tang and is actuated by the operating lever; loop operating lever; single action trigger mechanism; walnut stained beechwood forearm and straight grip buttstock.
- dummy magazine tube under the barrel holds a brass cleaning rod.
- overall length is 970 mm and average weight is 2.85 kgs.

Action

- springp-piston, lever action cocking.
- dischrages a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number was observed marked on the lower tang, under the operating lever.
- observed serial number consisted of six numbers without a letter prefix or suffix.

Calibre

- "Kal. 4.5mm" was observed marked on the left side of the barrel.

Firearm Reference Number (FRN): 97376
Make: ERMA
Model: EMP

Summary

Make:	ERMA
Model:	EMP
Manufacturer:	Erfurter Maschinenfabrik (ERMA)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
97376 - 3	9MM LUGER	5	247	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
97376 - 1	9MM LUGER	25	247	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
97376 - 2	9MM LUGER	32	247	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make not marked on the firearm.

Model

- this model is also known as the "Erma Maschinen Pistole" or "Maschinen Pistole Erma".
- this is an early production submachine gun designed by Heinrich Vollmer, an employee of ERMA; this was one of the first submachine guns to use a captured mainspring inside a telescoping metal tube, a feature later used on both the MP-38 and MP-40.
- these submachine guns were built from 1930 until 1938, when ERMA began producing the MP-38; they remained in German military use until 1942, when they were replaced by the MP-40.
- stick magazine-fed through a magazine housing on the left side of a tubular receiver, a slot-ventilated barrel shroud, a half-length solid wood buttstock with a forward handgrip extending downwards, a selector-switch above the right side of the trigger-guard, adjustable rear sight with blade front, a knurled button that serves as a bolt-stop/"safety" in front of the trigger-guard, and a take-down latch that extends down through the rear of the trigger-guard. To field-strip this submachine gun, the bolt must be forward and both the trigger and the take-down latch must be pulled to the rear; this allows the tubular receiver to be rotated out of engagement with the locking lugs at the rear of the trigger-group/lower receiver, then the upper receiver can be pulled forward.
- though ERMA built this submachine gun primarily for domestic German military and police use, some examples were sold abroad (primarily France, Spain, Mexico, and Latin America). By the time of the Spanish Civil War, Spanish copies were also being produced for use by the Civil Guardia (both in 9mm Luger and 9mm Largo).

Manufacturer

- Erfurter Maschinenfabrik (ERMA) produced rifles, pistols, and submachine guns for the German Army and private commercial sales; they are best known for being the original producers of the MP-38 and MP-40 submachine guns (sometimes called "Schmeissers").

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- selective-fire open-bolt blowback.
Serial Number	- numbered on the bolt and magazine housing.
Shots	- detachable box magazine.
