18818 - 2	22 LR	10	303	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ERMA" is normally marked on the left side of the receiver/frame above the grip.

Model

- introduced in 1964. An estimated 375 units were produced.
- "ET-22" is normally marked on the left side of the receiver/frame above the grip.
- this model is the Erma "La 22" with a 303mm barrel and a forend stock.
- this model looks similar to the Luger "1902 Carbine".
- features include: blued receiver/frame and barrel, fixed front sight with an adjustable rear sight located on the barrel ahead of the receiver/frame, a toggle on the top of the receiver/frame with a serrated knob on each side, the safety is located on the left side at the rear of the receiver/frame, the magazine release is located on the left side of the receiver/frame behind the trigger, may have a walnut forend and checkered grip panels with a thumb rest.

Manufacturer

- "ERMA" or "ERMA - WERKE" is marked on the left side of the firearm.
- the manufacturer's logo is normally marked on the top of the toggle in script as the letters "M" and "W" superimposed on the letter "E".
- "EWM" is the abbreviation for "Erma Werke Munchen".

Action

- blowback operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame above the trigger as sequential numbers. An observed sample used five sequential numbers.

Calibre

- the calibre is marked on the right side of the receiver/frame as, "cal. 22 L.R.".

4736 - 1	54 PERCUSSION	1	565	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Calibre

- This breechloading carbine requires a special brass cartridge case which the shooter loads with loose black gunpowder and lead bullet. A separate percussion cap placed on the nipple on the right rear side of the receiver is necessary to detonate the powder.

Also Known As/Product Code

- Due to the fact that this firearm is a breechloader that requires a cartridge and separate percussion cap for firing, the proper terminology to describe this is "capping breech loading".

Remarks

- This is a replica of the American Civil War vintage Gallager Model 1860 breechloading percussion carbine. It features an underlever which when pulled downward causes the barrel to move forward and then tip down to expose the chamber for loading, the lever then is moved upwards, returning the barrel to battery.

Firearm Reference Number (FRN): 18814
Make: ERMA
Model: KGP22

Summary

Make:	ERMA
Model:	KGP22
Manufacturer:	ERMA Werke
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
18814 - 1	22 LR	8	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ERMA" or "ERMA WERKE" is marked on the firearm.
- ERMA was a trade name sold by EXCAM until 1986.
- EXCAM was a importer and distributor located in Hialeah, Florida, U.S.A.
- EXCAM ceased operations in late 1990.
- EXACM imported and distributed the following trade names/trademarks: DART, ERMA, SENATOR, TANARMI, TARGA, UBERTI, and WARRIOR.

Model

- model designation may be marked on the left side of the receiver/frame.
- outwardly resembles the Luger model P08 and is an improvement of the models EP22 and KGP69.

Manufacturer

- "ERMA" or "ERMA WERKE" is marked on the firearm.

Action

- blowback operated.

Shots

- detachable box magazine.

Notes

Make

- "E.F.M." may be marked on the top rear of the receiver/frame.
- "E.F.M." may be obscurred by the rear sight.
- "ERMA'S MFG. CO." over ".30 CAL. M1" may be marked on the left side of the receiver/frame, under the stock.
- "E.F.M." is the abbreviation for "Erma's Firearms Manufacturing".

Model

- Introduced circa 1960.
- the model designation is not marked on the firearm.
- this model is based on the U.S. Carbine M 1.
- features on these carbines will generally be the same as on carbines produced under government contract, with the large number of surplus parts available at the time each individual firearm may display minor variations in markings, stock, hanguard and metal hardware.
- features may include: walnut pistol grip stock; blued or parkerized finish; military front sights and a adjustable rear peep sight; detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "E.F.M." may be marked on the top rear of the receiver/frame.
- "E.F.M." may be obscurred by the rear sight.
- "ERMA'S MFG. CO." over ".30 CAL. M1" may be marked on the left side of the receiver/frame, under the stock.
- "E.F.M." is the abbreviation for "Erma's Firearms Manufacturing".
- Erma's Firearms Manufacturing Company was located in Steelville, Missouri, U.S.A.
- Erma's Firearms Manufacturing (EFM) was bought out by Steelville Manufacturing Company in the mid 1960's.
- Steelville Manufacturing Company carried on manufacturing the Erma's M1 carbine until about 1967.

Action

- gas operated.

Serial Number

- the serial number is marked on the top rear of the receiver/frame.
- observed sample was marked below the manufacturer's abbreviation of "E.F.M.".

Calibre

- ".30 CAL. M1" may be marked on the left side of the receiver/frame, under the stock.

Shots

- Introduced around 1960 with a 15 shot detachable cartridge magazine.
- detachable box magazine.

121755 - 2	38 SPL	6	108	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "THE A.E. REVOLVER" is marked on the barrel.
- the "Errasti" logo may be marked on the side of the receiver/frame as an entwined "AE" within a circle, and the word "TRADE" at the top and "MARK" at the bottom of the circle.
- "AE" is the identifier for "Antonio Errasti".

Model

- "GOLIAT" is marked on the grip plates (on some samples the markings resemble "COLIAT").
- "Goliat" was a brand/trade name used by "Antonio Errasti (AE)".
- manufactured between 1905 and 1920.
- this model is similar in appearance to a "Colt Police Positive".
- features include: round barrel with half moon front sight; solid top receiver/frame with fluted cylinder that swings out to the left side; manual ejector; left side plate; exposed spurred hammer; square butt; checkered grip plates.

Manufacturer

- "THE A.E. REVOLVER" is marked on the barrel.
- the "Errasti" logo may be marked on the side of the receiver/frame as an entwined "AE" within a circle, and the word "TRADE" at the top and "MARK" at the bottom of the circle.
- "AE" is the identifier for "Antonio Errasti".
- "Antonio Errasti" was a handgun manufacturer located in Eibar, Spain from approximately 1900 to 1936.

Serial Number

- the serial number is usually marked on the butt of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre is marked on the side of the barrel, eg. "32 LONG CTG".
Other Markings	- marked on the barrel: BEST AMERICAN CARTRIDGES ARE THOSE THAT FIT BEST THE A.E. REVOLVER

Notes

Make

- "ESCORT" is marked on the side of the receiver/frame.
- "ESCORT" and "OPTIMA" are trademarks manufactured by Hatsan Arms.

Model

- "ESCORT" is marked on the side of the receiver/frame.
- introduced in 2002/2003.
- features include: interchangeable round barrel; solid top alloy receiver/frame with side ejection and bottom loading port; single action bar; cross bolt safety located behind the trigger guard; ramp front sight with bead; synthetic forend, pistol grip and folding stock or full pistol grip butt stock; sling swivel studs; matte black, camouflage (Break-Up or Shadow Grass pattern), nickel plated or stainless finish.
- overall length with a 457 mm (18") barrel and a folding stock in the folded position or a pistol grip only is 711 mm (28").
- overall length with a 457 mm (18") barrel and conventional fixed buttstock is 965 mm (38").
- average weight is from 2.5 kg (5.5 lbs) to 2.9 kgs (6.4 lbs).

Manufacturer

- "HATSAN" and the company logo consisting of a bow and arrow are usually marked on the receiver/frame.

Serial Number

- serial number is marked on the left side of the receiver/frame, above the trigger.
- serial number observed consisted of six numbers without a letter prefix or suffix.
- serial number observed consisted of two numbers, a space, and six numbers.

Calibre

- calibre designation is marked on the barrel.

Shots

- tubular magazine mounted under the barrel.
- may be equipped with a removable plug that restricts the magazine capacity to two shells.

Canadian Law Comments

- This firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
"Handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
"Prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "ESCORT" is marked on the firearm.
- "Escort" is a trademark owned by Hatsan.

Model

- "Escort" is marked on the upper receiver, while "Dynamax" is marked on the bolt.
- this is a hybrid gas/inertially-operated semi-automatic shotgun manufactured by Hatsan that is designed to be easily taken apart into two major components (the barrel and upper receiver/and the stock, magazine and lower receiver) for easy transport in a fitted carrying case.
- features include: synthetic pistol-grip stock (in black, camouflage, olive drab, or desert tan colours); round barrel with ventilated rib or rifle sights (in blued/black or camouflage finishes)sling swivels; screw-in interchangeable chokes; a two-position rocker switch on the right side in an oval (below the ejection port) to allow the shotgun to be taken down into two major parts; right-side cocking lever; cross-bolt safety at the rear of the trigger-guard; and soft rubber pads on the comb and butt.

Manufacturer

- "HATSAN" or the Hatsan bow and arrow logo is marked on the firearm.

Action

- dual gas/inertial operation.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial-numbered on the receiver/frame.
Shots	- underbarrel tubular magazine.

Notes

Make

- ESCORT is marked on the firearm.
- Escort is a trademark owned by Hatsan.

Model

- Introduced in 2016.
- Raider may not be marked on the firearm
- Escort Magnum is marked on the right side of the receiver/frame.
- This is a tactically-styled semi-automatic shotgun based on Hatsan's existing sporting models, available in several configurations with fixed, telescoping, side-folding, or top-folding stocks, and in black, olive drab, or camouflage finishes.
- Features include: button magazine release on the right side of the magazine well; cross-bolt safety at the rear of the trigger-guard.
- Some buttstock versions come with additional shell-holders for extra cartridges.

Manufacturer

- HATSAN or the Hatsan bow and arrow logo is marked on the firearm.

Action

- gas-operated.

Serial Number

- serial-numbered on the receiver/frame.
- The serial number is marked on the underside of the receiver/frame.
- The serial number observed consists of 6 numbers.

Shots

- Introduced in with 2, 5, 7, and 10 shot magazine capacity.
- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 25572
Make: Esperanza y Unceta
Model: 1911

Summary

Make:	Esperanza y Unceta
Model:	1911
Manufacturer:	Esperanza y Unceta (EU)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
25572 - 1	7.65MM	7	83	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- ESPERANZA Y UNCETA was founded in July 1908 at Eibar, Spain.
- the company moved to Guernica, Spain in 1913. The pistols produced at the Guernica plant are marked "GUERNICA" on the slide.

Model

- may also be known as MODEL 100, MODEL 1911/100 or 1911. The pistol was also marked under the tradename VICTORIA.
- the HAMMERLESS designation added to model name to differentiate this model from the "external hammer" type.
- the word "HOPE" on the exposed portion of the barrel hood at the ejection port was a definitive characteristic of ESPARANZA Y UNCETA made pistols. HOPE is the english translation of the Spanish name ESPERANZA.

Serial Number

- all completed pistols manufactured by ESPERANZA Y UNCETA irrespective of calibre or model were numbered in a single sequential serial numbering system that started with serial number 1. (There is an exception with the CAMPO-GIRO model 1913 and 1913-16 series of pistols for the Spanish Army which had their own serial number range starting at number 1.)
- in 1983 ASTRA started a new sequential numbering system which was prefixed by an alpha character. This new system started with the M4000 FALCON model at serial number A0001.

Notes

Make

- "ESSEX ARMS" or "ESSEX ARMS CORP" may be marked on the right side of the receiver/frame.

Model

- this is a copy of a Colt 1911 semi automatic pistol, made by Essex Arms for commercial sales, complete gun or receiver/frame only(for custom built) are availiable through this manufacturer. It is generally possible to install a slide bearing one manufacturer's name onto a receiver/frame made by another manufacturer; thus the name appearing on the slide is not necessarily the manufacturer of the receiver/frame
- the key feature that identifies the 1911A1 from the 1911, is the 1911A1 has a relief cut on the receiver/frame behind the trigger, humped mainspring housing, longer spur grip safety, and shorter trigger.
- since receiver/frames only are availiable through this manufacturer for commercial sales, this firearm may be found in almost any configuration of caliber/barrel length, finish and slide design. Slide may bear the name and/or "model" of the custom builder and most of the time are a "one of a kind" unit.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer
- Essex Arms/Essex Arms Corporation was a manufacture of Colt 1911 type pistols and 1911 type receivers/frames.
- Essex Arms was located in Island Pond, Vermont, U.S.A. circa 1970.
- Essex Arms was located in Hardwick, Vermont, U.S.A. from circa 1999 to circa 2003.

Action
- recoil operated.

Shots
- detachable box magazine.

Notes

Make	- the make designation is not marked on the firearm; the Estonian national crest may be found stamped on the magazine housing.
Model	- the model designation may not be marked on the firearm. - this is an early submachinegun (strongly resembling the MP18, but with numerous unusual features) adopted by the Estonian police and armed forces during the 1920's. - features include: a one-piece wooden straight-grip stock; open adjustable sights; a horizontal magazine housing that feeds from the left side; a fixed firing pin; a hinged, two-piece receiver/frame and a barrel shroud with longitudinal cooling slots. - among other things, this submachinegun is noteworthy for having a reduced-diameter bolt at its forward end (similar to the Thompson series).
Manufacturer	- the manufacturer designation may not be marked on the firearm.
Action	- recoil-operated; open-bolt selective-fire.
Serial Number	- numbered on receiver/frame.

Make: Euroarms
Model: Colt 1851 Army Reproduction

Summary

Make:	Euroarms
Model:	Colt 1851 Army Reproduction
Manufacturer:	Euroarms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	ITALY
Serial Numbering:	
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197382 - 1	44 PERCUSSION	6	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Euroarms - Brescia" is marked the top of the barrel of the firearm.
- Euroarms ceased operations circa 2011.
- "Euroarms" was established in 2002 and continued production of black powder reproduction arms and accessories, selling through "Euroarms of America".
- Previously the same black powder reproductions were sold under the name of "Armi San Paolo" until 2002.

Model

- Colt manufactured revolver of this type from 1851 to 1873.
- May also be known as "1851 Yank".
- May also be known as the "Belt" revolver.
- This reproduction model is the 44 calibre version of the Colt 1851 "Navy" model, in 36 percussion, and was commonly known as the "Army Model" or "New Model Army".
- Features include: blued octagonal or round barrel, a fixed small bead for a front sight; case hardened receiver/frame, either blued or brass; single action trigger mechanism; spurred hammer and the loading lever located under the barrel; silver plated round or square back trigger guard; silver plated or blued iron backstrap; grip panels in various configurations.
- Options include: full silver, gold or nickel plating, or various finish combinations, with or without engraving; ebony, ivory, and oak or pearl grip panels; may contain a detachable shoulder stock option.
- Options include: cased set with both calibres of 36 Percussion and 44 Percussion (cased set may be known as "1851 Yank").

Manufacturer

- "Euroarms - Brescia" is marked the top of the barrel of the firearm.
- Euroarms ceased operations circa 2011.
- "Euroarms" was established in 2002 and continued production of black powder reproduction arms and accessories, selling through "Euroarms of America".
- Previously the same black powder reproductions were sold under the name of "Armi San Paolo" until 2002.

Action

- External percussion cap ignition.
- Front revolver/cylinder loading.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- Additional markings may be found on the receiver/frame of the firearm, such as: a swirling bullet crest over two letters, "PN"; a circle over a shield like crest; roman numeral markings (ex: XX7), usually to denote year of production.
- Common Italian proof marks and inspector marks.

Remarks

- Common terms existed at the time to define the "type" of firearm based on calibre configuration. All references point to the calibre of 36 percussion belonging to the "Navy" model/version of this firearm, whereas the 44 percussion was known as the "Army" model/version. There are no visual references to confirm or deny the existence of this model, as there are prolific references to the 1851 Navy model with side notes or added data confirming that the .44 CAL were deemed or known as "Army".

Make:	Euroarms
Model:	Colt 1851 Navy Reproduction
Manufacturer:	MAVI
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
183042 - 1	36 PERCUSSION	6	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EUROARMS" is marked on the left side of the barrel.
- "EUROARMS" was established in 2002
- "EUROARMS" Italia, was the new name for Armi San Paolo.
- "EUROARMS" ceased operation in late 2011.

Model

- "NAVY MODEL" is marked on the right side of the barrel.
- "NAVY MODEL" is a reproduction of the Colt Old Model 1851 Navy Pistol.
- "NAVY MODEL" is a single action, black powder percussion revolver with a brass receiver/frame and a blued cylinder and octagonal barrel.
- features include: bead front sight and a "V" notch in the nose of the hammer for a rear sight; octagonal barrel with a rammer/loading lever mounted on the underside with front lock; open top brass receiver/frame with a non-fluted percussion cylinder; exposed spur hammer; single action trigger mechanism; brass trigger guard and grip strap; one piece wood grip.

Manufacturer

- "MAVI" is marked in logo form on the bottom of the grip.
- "MAVI" logo is the framed name under the front view of a double barrel, side by side firearm within a circle.
- "MAVI" or "M.A.V.I." and "Gardone V.T. Italy" may be marked on the firearm.

Serial Number

- serial number is marked on the underside of the receiver/frame forward of the trigger guard.
- observed serial number consisted of four numbers.

Calibre

- calibre designation is marked on the right side of the barrel.

118938 - 2	58 PERCUSSION	1	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is marked on the firearm.

Model

- model designation is not marked on the firearm.
- "COOK & BROTHER" over "N.O." over "1861" is usually marked on the lockplate.
- "COOK & BROTHER" (Ferdinand W. and Francis Cook) manufactured firearms for the Confederate States of America in New Orleans, Mississippi from 1861 to 1863 and Athens, Georgia from 1863 to 1865.
- this is a modern reproduction of the Cook & Brother carbine which was originally based on the British Enfield Pattern 1853 Carbine.
- features include: blade front sight and a fixed open rear sight; round, blued and rifled barrel with two barrel bands; steel ramrod is mounted under the barrel; colour case hardened lockplate with an exposed percussion hammer; brass furniture; sling swivels are attached to the first barrel band and to the buttstock; one piece walnut stock.
- available in two variant: cavalry and artillery carbine, the major difference between them is the barrel length.

Action

- muzzle loader.

Other Markings

- New Orleans production is stamped as: "COOK & BROTHER NO (date)" on the barrel, and may be on the lockplate.
- Athens production is stamped as: "COOK & BROTHER", "ATHENS GA (date)", and the serial number on three line on the barrel and "COOK & BROTHER ATHENS GA" over the date on the lockplate.
- on both the Stars and Bars Confederate Flag on the lockplate tail.
- also is stamped "PROVED" on the barrel near the breech.

36161 - 1	58 PERCUSSION	1	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "EUROARMS" is usually marked on the barrel
Model	- reproduction of a Pattern 1861 British Enfield percussion artillery carbine. - "Enfield 1861" may be marked on the firearm. - "London Armory Co." may be marked on the lockplate. - features include; walnut stock, front and rear sling swivels, blued steel barrel and bayonet lug, color case hardened lock plate,2 blued or color case hardened barrel bands, brass butt plate, trigger guard and nose cap, long range adjustable rear sight, blade front sight. - overall length with a 610mm (24") barrel is 1015mm (40"), average weight is 3.4 kgs(7.5 lbs)
Manufacturer	- "EUROARMS" is usually marked on the barrel
Type	- side hammer percussion muzzle loading rifle.
Action	- muzzle loader, percussion ignition.
Other Markings	- "Made in Italy" and Italian proof marks on barrel, lockplate marked "London Armory Co." with a crown.
Remarks	- This is a reproduction of a circa 1860 British military Enfield style musketoon (short rifle) as originally manufactured by the London Armory Company of England. It features a European walnut stock, two barrel bands, brass trigger guard, buttplate and nose cap, colour case hardened lock, blace front and adjustable open rear sights. A similar firearm manufactured by Parker-Hale has been on the market since the 1970's and may be mistaken for the Euro Arms version.

- "EUSTA" within an oblong diamond shape (with the letter "S" being oversized) was observed marked on the grip plates.
- "EUSTA" and "EUSTA-SCHIEDER" were brand/trade name used by Kaschie, Herbert Schmidt, and Wrage of Germany.
- "EUSTA" brand/tradename was used on air pistols distributed by Alpina Werke, Eckhard G. Damaschke, and Hans Wrage & Company of Germany prior to 1976.
- "KASCHIE" is the trademark of Karl Schieder.

Model

- "Mod. SR 10" was observed marked on the left side of the barrel.
- features include: round barrel with ventilated rib and adjustable target sights; solid top receiver/frame with fluted left side swing-out cylinder; cylinder release is located on the left rear side of the receiver/frame; exposed spurred hammer; single/double action trigger mechanism; checkered plastic grip plates; blued finish.

Serial Number

- serial number was observed marked on the right side of the receiver/frame and repeated on the barrel and cylinder.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Calibre

- calibre was observed marked on the left side of the barrel.

Shots

- swing-out cylinder.

Notes

Make

- "EVANIX" is marked on both side of the firearm.

Model

- "EVANIX" over "Rainstorm" is marked on both sides of the receiver/frame.
- features include: no iron sights; round, rifled barrel with or without a barrel shroud; pre-charged pneumatic (PCP) cylinder is located under the barrel with a screw on end cover; built-in pressure gauge; flat sided receiver/frame is grooved for scope mounts; cocking mechanism may be a right side lever operated bolt, rear turn bolt or right side turn bolt; adjustable two-stage trigger; manual safety; rotary disk magazine; one piece wood, ambidextrous checkered thumbhole pistol grip stock (walnut, sepatia, thumbhole or sporter) with a raised cheek piece and adjustable rubber butt pad; blued finish.
- "Rainstorm" is also available with a "bull-pup" stock.
- overall length with a 432 mm (17") barrel and a bull-pup stock is 686 mm (27").
- overall length with a 432 mm (17") barrel and a full length stock is 991 mm (39").
- overall length with a 485 mm (19.1") barrel and a full length stock is 953 mm (37.5").
- overall length with a 550 mm (21.65") barrel and a full length stock is 1020 mm (40.16").
- weight is from 3.1 kgs to 3.9 kgs.

Manufacturer

- "Evanix" or "Meca Evanix Corporation" is located in Seoul, Korea.
- "Evanix" or "Meca Evanix Corporation" has been in business since 1994.

Action

- pneumatic powered
- uses a pre-charged pneumatic (PCP) cylinder.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number rationalization is not known. - serial number observed consisted of twelve numbers without a letter prefix or suffix. - serial number observed consisted of four numbers, a letter, and six numbers.
Calibre	- calibre is marked on the left side of the receiver/frame.
Shots	- detachable cylinder-type magazine.
Canadian Law Comments	- this firearm, as it left the factory, may be fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). - when the "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2) is removed the receiver/frame or complete barrelled action, the firearm may be correctly classified as "Non-Restricted". - as it left the factory, this firearm may be equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- "EVANIX" is marked on both side of the firearm.

Model

- "REX" is marked on the both side of the receiver/frame.
- this is a pre-charged pneumatic air rifle designed for target competition and hunting, designed with a very "futuristic" appearance, having a bare frame with accessory rail on the top, a barrel shroud, and a sliding adjustable buttstock with vertical buttpad.
- features include: black anodized finish; barrel shroud; PCP cylinder; finger-grooved synthetic pistol-grip; trigger guard used as underlever; metal stock with integrated pressure gauge and a vertical buttplate; and blued finish.
- Rex barrel shroud acts as a sound suppressor/moderator.
- overall length with a 300mm (11.8") barrel is 735mm (28.9"), and average weight is 1.9kg (4.2lb).
- a pistol version is also available.

Manufacturer

- "EVANIX" is marked on both side of the firearm.
- "Evanix" or "Meca Evanix Corporation" is located in Seoul, Korea and has been in business since 1994.

Action

- pre-charged pneumatic (PCP) cylinder.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the right side of the firearm.

Canadian Law Comments

- this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

- if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Notes

Make

- "EVANIX" is marked on both side of the firearm.

Model

- "WINDY CITY" is marked on both side and of the firearm.
- features include: no iron sights; round, rifled barrel with a barrel shroud; pre-charged pneumatic (PCP) cylinder is located under the barrel with a screw on end cover; flat sided receiver/frame is grooved for scope mounts; cocking mechanism may be a right side lever operated bolt, rear turn bolt or right side turn bolt; adjustable power; adjustable two-stage trigger; manual safety; rotary disk magazine; one piece wood, ambidextrous checkered thumbhole pistol grip stock with a raised cheek piece and rubber butt plate; blued finish.
- overall length with a 470 mm (18.5") barrel is 953 mm (37.5"), and the average weight 3.1 kgs (6 lbs 12 oz).

Manufacturer

- "Evanix" or "Meca Evanix Corporation" is located in Seoul, Korea.
- "Evanix" or "Meca Evanix Corporation" has been in business since 1994.

Action

- pneumatic powered.
- uses a pre-charged pneumatic (PCP) cylinder.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- example observed with four numbers, a letter, and six numbers.

Shots

- detachable cylinder-type magazine.

Canadian Law Comments

- as it left the factory, this firearm is equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- "EVANS SPORTING RIFLE" is marked on the barrel.

Model

- "EVANS SPORTING RIFLE" is marked on the barrel.
- this is an unusual appearing lever-action rifle that feeds from a spiral magazine in the butt.
- these rifles were conversions from Evans' New Model Military Musket, which retained the 30"/762mm barrel, but replaced the two-band full-length forearm with a shorter screwed-on forearm.
- these rifles were constructed in a "clamshell" pattern, with the left and right halves of the receiver stamped out separately, then joined to construct the receiver/frame and integral magazine.
- two-piece wooden buttstock (upper and lower), wooden forearm, adjustable sights, sling swivels, lever catch, and an ejection-port dust-cover that rotates rear-ward as the rifle is cocked.
- these rifles were built from New Model Military Muskets after the Evans Repeating Rifle Comapny folded, and should not be confused with prior (Old Model, New Model, or Transitional Model).

Manufacturer

- Evans Repeating Rifle Company was a manufacturer located in Mechanic Falls, Maine, U.S.A. from 1868 to 1879.
- Evans Repeating Rifle Company produced several models of an unusual lever-action rifle that fed metallic cartridges from a spiral magazine in the butt.

Shots

- integral spiral magazine in the butt of the rifle.

Notes

Make

- "EVANS REPEATING RIFLE MECHANIC FALLS ME PAT. DEC 8, 1868 & SEPT 16, 1871" or "EVANS REPEATING RIFLE MECHANIC FALLS ME PAT. DEC 8, 1868 & SEPT 16, 1871 U.S.A." is usually marked on the barrel.
- Warren R. Evans of Thomaston, Maine, U.S.A. was assigned patent number 84,685 on December 8, 1868 and patent number 119,020 on September 19, 1871 for a magzine gun.

Model

- this is an unusual appearing lever-action rifle that feeds from a spiral magazine in the butt.
- these rifles were constructed in a "clamshell" pattern, with the left and right halves of the receiver/frame stamped out separately, then joined to construct the receiver/frame and integral magazine.
- features include: two piece wooden buttstock (upper and lower), wooden forearm, adjustable sights, sling swivels, lever catch, and an ejection port dust-cover that rotates rear ward as the rifle is cocked.
- "New Model" rifles were constructed in Sporting Rifle, Carbine, and Military Musket configurations; Sporting Rifles had octagonal barrels, Carbines had one barrel band with short barrel (some with bayonet stud), and Military Muskets had two barrel bands, full-length forearm, and fitting for a bayonet.
- barrels were marked "Evans Repeating Rifle Mechanic Falls ME/Pat. Dec.8,1868 & Sept. 16,1871 USA".

Manufacturer

- Evans Repeating Rifle Company was a manufacturer located in Mechanic Falls, Maine, U.S.A. from 1868 to 1879.
- Evans Repeating Rifle Company produced several models of an unusual lever-action rifle that fed metallic cartridges from a spiral magazine in the butt.

- Warren R. Evans of Thomaston, Maine, U.S.A. was assigned patent number 84,685 on December 8, 1868 and patent number 119,020 on September 19, 1871 for a magzine gun.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is not marked on the firearm. - manufactured between 1871 and 1878. - this is an unusual-appearing lever-action rifle that feeds from a spiral magazine in the butt. - these rifles were constructed in a "clamshell" pattern, with the left and right halves of the receiver/frame stamped out separately, then joined to construct the receiver/frame and integral magazine - two-piece wooden buttstock (separate upper and lower pieces), wooden forearm, flat-topped receiver/frame, sling swivels and lever catch, and no ejection-port dust-cover - "Transition Model" rifles were constructed in Sporting Rifle, Carbine, and Military Musket configurations; Sporting Rifles had octagonal barrels, Carbines had one barrel band with short barrel, and Military Muskets had two barrel bands, full-length forearm, and fitting for a bayonet. - barrels were marked "Evans Repeating Rifle Mechanic Falls ME/Pat. Dec.8,1868 & Sept. 16,1871" - Approximately 100 of these carbines were made for sale through Evans' representative in Montreal, and these rifles will be marked "Evans Repeating Rifle - Pat. July 24, 1873 - Montreal"
Manufacturer	- Evans Repeating Rifle Company was a manufacturer located in Mechanic Falls, Maine, U.S.A. from 1868 to 1879. - Evans Repeating Rifle Company produced several models of an unusual lever-action rifle that fed metallic cartridges from a spiral magazine in the butt.
Serial Number	- "Transition Model" Evans rifles (all in 44 EVANS SHORT) were serial-numbered, from approximately 500 through 2185.
Shots	- integral spiral magazine in the butt of the rifle.

Notes

Make

- "EVANS" is marked on the firearm.

Model

- manufactured prior to 1813.
- model designation is not marked on the firearm.
- this is a muzzle-loading flintlock single-shot pistol manufactured by Owen & William Evans of Evansburg, Pennsylvania in the early 1800s. These pistols can be distinguished by their calibre (69), their barrel length (8 7/8"/225mm), , their resemblance to the French "AN XIII"/"Year 13" flintlock pistol, and their markings.
- features include: browned barrel; short stock with the forearm cut back in an angle from the muzzle; brass barrel-band, fittings, and grip-cap; under-barrel iron ramrod; and cock, frizzen, and flash-pan mounted on right side.
- marked "EVANS" on the lockplate, with the date of manufacture (1814).
- examples of this firearm may also be seen converted to percussion ignition.

Manufacturer

- "EVANS" is marked on the firearm.
- "O. & E. Evans/Owen & Edward Evans" was located in Evansburg, Pennsylvania, U.S.A. from 1800 to 1812.
- Edward Evans was located in Evansburg, Pennsylvania, U.S.A. from 1800 to 1815.
- Edward Evans & James Evans manufactured 1801 contract muskets for Pennsylvania.
- Edward Evans & Owen Evans manufactured 1808 contract muskets.
- James Evans was located in Evansburg, Pennsylvania, U.S.A. circa 1805.
- James Evans and Edward Evans manufactured 1801 contract muskets for Pennsylvania.
- Owen Evans was located in Evansburg, Pennsylvania, U.S.A. from 1790 to 1812.
- Owen Evans manufactured 1798 contract muskets, and 1797 contract muskets for Pennsylvania.
- Owen Evans & Edward Evans manufactured 1808 contract muskets.

Action

- muzzle-loading.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
57877 - 8	10 GA	2	711	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
57877 - 2	12 GA	2	711	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- "William Evans" will be marked on both sides of the receiver/frame or lock plates and on the top rib between the barrels.
Model	- model designation is not marked on the firearm. - this is a standard-pattern side by side boxlock rifle, with a tang opening lever and folding express sights; these rifles were chambered for several of the large "gauge" cartridges that are now only used in shotguns, or not at all. - these rifles were available with any amount of custom work, engraving, special barrel lengths, etc. that the customer was willing to pay for, but all would have had pistol-grip walnut stocks and double triggers. - business established and production began in 1883.
Manufacturer	- "William Evans" will be marked on both sides of the receiver/frame or lock plates and on the top rib between the barrels.
Action	- side by side barrel configuration.
Barrel	- barrel length not specified, but lengths longer than 28"/711mm are unlikely, considering their intended use.
Calibre	- chamber lengths not specified.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

57881 - 2	300 ROOK	1	663	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "Wm EVANS" or "EVANS" or variation thereof is usually marked on the barrel and/or receiver/frame.

Model

- "Rook Rifle" is not marked on the firearm.
- "Rook Rifle" model designation was used in the United Kingdom in refers to the intended purpose of a small, single shot, lightweight sporting rifle normally used for rabbit, crow, or vermin control.
- "Rook Rifle" was also known as a 'Garden Rifle', 'Rabbit Rifle', or 'Pest/Vermin Rifle'.
- "Rook Rifle" may be found with a number of different types of actions including but not limited to break open (hinged barrel design), falling block or Martini-type.
- may have an external hammer (made in both side-lock and boxlock versions); may have folding rear sight blades; walnut pistol-grip stock and forearm, and octagonal barrel.
- these rifles were made as top-lever or side-lever opening and in single and double barreled versions.
- business established and production began in 1883.

Manufacturer

- "Wm EVANS" or "EVANS" or variation thereof is usually marked on the barrel and/or receiver/frame.

Action

- hinged barrel design, break open action.

Serial Number

- one example consisted of five numbers.
- known example had a five digit number without prefix or suffix marked on the underside of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel - no barrel length given, but likely to be 26-28"/660-711mm.

Canadian Law Comments - some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "WILLIAM EVANS" is marked on the side plate.
- "WILLIAM EVANS" and "ST JAMES ST LONDON SW1" was observed marked on the barrel assembly.
- William Evans/William Evans Limited was founded by William Evans in 1883.
- William Evans had previously worked for James Purdey prior to 1871 and HJ Holland and Holland & Holland prior to 1883.
- William Evans/William Evans Limited, a Gun & Rifle Makers and distributor has been located in London, England at:
- 95a Buckingham Palace Road from 1883 to 1884.
- 4 Holden Terrace, Pimlico from 1885 to 1887.
- 4 Pall Mall Place from 1888 to 1895.
- 63 Pall Mall from 1896 to 1934.
- William Evans became William Evans Limited in 1934.
- 63 Pall Mall from 1934 to 1944.
- 67a St.James's Street since 1944.
- the manufacturer and finishing of firearms occurred in a section of the Webley factory and it is speculated that Webley had considerable involvement with the Evans models.
- William Evans previously worked as a gunsmith at Purdey's and many of his firearms will also be marked "from Purdey's", after "William Evans" or "W Evans".

Model

- introduced in 2008.
- "ST. JAMES" is marked on the underside of the receiver/frame.
- features include: blued over and under smoothbore chrome lined barrels with solid top rib, brass bead front sight and interchangeable choke tube; front hinged receiver/frame with interchangeable hinge pin, top tang mounted break open lever and safety/barrel selector; boxlock action with engraved side plates; single trigger; ejectors; checkered wood forearm and semi-pistol grip buttstock.

Manufacturer

- St James shotguns are manufactured by Caesar Guerini of Italy and finished by William Evans Limited in England.

Action

- over and under barrel configuration, hinged barrel design.

Serial Number

- serial number is marked on the lower tang and repeated on the barrel assembly.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Calibre

- calibre is marked on the barrel assembly.

Other Markings

- Italian proof marks were observed on the barrels. The barrels are made by Ceasar Guerini.

Notes

Make

- "EXCEL" is marked on the firearm.
- "Excel" was a trade name used by Montgomery Ward & Co., of Chicago, Illinois, U.S.A.
- "Excel" shotguns were manufactured by Crescent Firearms Company and Iver Johnson's Arms & Cylce Works.

Model

- "EXCEL" is marked on left side of the receiver/frame.
- "EXCEL" is in fact the Iver Johnson "Champion" model single barrel shotgun sold under the brand/trade name Excel.
- features include: bead front sight and a groove in the top of the standing breech for a rear sight; round, smoothbore barrel; front hinged receiver/frame with a top tang mounted break open lever; auto extractor; exposed spur hammer; single action trigger mechanism; plain hardwood forearm and semi-pistol grip buttstock, blued finish.

Manufacturer

- manufacturer's name is not marked on the firearm.

Action

- hinged barrel design.

Serial Number

- serial number is usually marked on the inside of the receiver/frame and repeated on the lower tang behind trigger guard and on the underside of barrel.

Firearm Reference Number (FRN): 16677
Make: Excelsior
Model: Excelsior

Summary

Make:	Excelsior
Model:	Excelsior
Manufacturer:	Norwich Pistol Company/Norwich Falls Pistol Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
16677 - 2	32 RF	5	64	Antique AFR, Section 1, para. 6	Non-Commercial Customization	
16677 - 1	32 RF	5	76	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EXCELSIOR" over "PATD APRIL 23, 1878" is marked on the top of the barrel.
- "PATD APRIL 23, 1878" represents the date that patent number 202,627 was assigned to William H. Bliss of Norwich, Connecticut.
- Note: the patent date marking is usually stamped as "PAT'D APR. 23 1878"; the marking on this particular observed example is therefore different from what is usually encountered on this type of Norwich Pistol Company/Norwich Falls Pistol Company handgun.

Model

- "EXCELSIOR" over "PATD APRIL 23, 1878" are marked on the top of the barrel.
- "PATD APRIL 23, 1878" represents the date that patent number 202,627 was assigned to William H. Bliss of Norwich, Connecticut.
- Note: the patent date marking is usually stamped as "PAT'D APR. 23 1878"; the marking on this particular observed example is therefore different from what is usually encountered on this type of Norwich Pistol Company/Norwich Falls Pistol Company handgun.
- this firearm would have been made circa 1873 to 1887.
- this type of handgun is commonly referred to as a "Suicide Special".
- features include: solid receiver/frame; will have the W.H. Bliss patented circular side plate with a slot on the left side of the receiver/frame; single action spur trigger; fluted cylinder with locking notches at the rear; cylinder axis pin release is a lever-type located on the front of the receiver/frame; round or octagonal barrel; loading groove machined into the right side of the receiver/frame through the standing breech; brass half-disc blade front sight; bird-head grip frame; case hardened trigger and hammer; nickel plated finish; grips may be walnut or checkered black hard rubber; may have light engraving on the barrel and/or receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer's name is not marked on the firearm; firearm was made by the Norwich Pistol Company/Norwich Falls Pistol Company.
- "PATD APRIL 23, 1878" is marked on the top of the barrel and represents the date that patent number 202,627 was assigned to William H. Bliss of Norwich, Connecticut.
- Note: the patent date marking is usually stamped as "PAT'D APR. 23 1878"; the marking on this particular observed example is therefore different from what is usually encountered on this type of Norwich Pistol Company/Norwich Falls Pistol Company handgun.
- W.H. Bliss was the plant superintendent of the Norwich Pistol Co. (circa 1873 to 1881) and its successor the Norwich Falls Pistol Co.(circa 1882 to 1887). He was not affiliated in any way with the company of Bliss & Goodyear.

Serial Number

- serial number is usually marked on the right side of the grip frame underneath the grip plate.
- serial numbers are numeric only without prefix or suffix.

Notes

Make

- the make "EXCELSIOR" is marked on top of the barrel.
- Excelsior is a trade name used by both Bliss & Goodyear and Hopkins & Allen. It is believed that Hopkins & Allen produced firearms using at least one feature that F. D. Bliss (previously of Bliss & Goodyear) held a patent for.
- the "Excelsior" brand/trade name has been used by numerous companies, including:

Quackenbush on air guns.
Mayer & Grammelspacher on air guns.
Bliss & Goodyear on revolvers.
John Blisset & Sons on revolvers.
Hopkins & Allen on revolvers.
Crescent Fire Arms Company on revolvers.
Norwich Falls Pistol Company on revolvers.
Manufacture Liegeoise d'Armes a Feu on shotguns.
D.M. Lefever, Sons & Company on shotguns.
Iver Johnson Arms & Cycle Works on shotguns.
Simonis, Janssen & Dumoulin on shotguns.

Model

- the model designation "EXCELSIOR" is marked on top of the barrel.
- features include: fixed front sight, grooved top strap rear sight, fluted cylinder with locking notches located at the rear, absence of a loading gate, the cylinder has to be removed to extract cartridges or empty cases, external hammer, single action, spur trigger, round barrel, case hardened hammer and trigger, nickeled finish, black hard rubber chekered birds-head grip panels.

Calibre

- the calibre designation may appear on the firearm.

Other Markings

- the top of the barrel is marked: "EXCELSIOR
PATD APRIL 23 1878".

31725 - 5	20 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Exel Arms of America, Incorporated was an importer located in Gardener, Massachusetts, U.S.A.
- Exel Arms of America, Incorporated imported Lanber 100 Series, Ugartechea 200 Series, and Laurona 300 Series shotguns.

Model

- imported from 1984 to 1987.
- this is the basic shotgun in Ugartechea's "200" series
- features include: boxlock action; double-triggers; extractors; splinter forearm and straight English-style buttstock.

Manufacturer

- the letters "I" over "U" within a shield is one of the known company logo's for "Ignacio Ugartechea".

Action

- side by side barrel configuration.

Serial Number

- serial number is usually marked on the watertable of the receiver/frame.
- serial number range was from approximately 17,888 to 195,820.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- an example of a serial number is as follows: "35 - 03 - #0# - 95".
- serial number break down, the first two numbers (35) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Notes

Make

- observed example was marked, "THE BEST AUTOMATIQUE PISTOL "EXPRESS"" on the left side of the slide; "EXPRESS" was also marked on both grip plates under the image of a semi-automatic pistol and single cartridge within an oval cartouche.
- the grip plates may also display the word "EXPRESS" under the image of a crouching tiger which is over the words "Trade Mark"; other grip plates may display a dragon motif within an oval cartouche.
- "Express" was a trade name used by "Tomas de Urizar y Cia" of Eibar, Spain.
- "Express" was a trade name used by "Garate Anitua Y Cia" of Eibar, Spain.
- "Express" was a trade name used by the "Bacon Arms Company" circa 1880.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "VERITABLE EXPRESS" is marked on the left side of the slide. - this firearm dates from circa 1914 to 1925. - this is a standard Eibar-type blowback pistol based on the Browning model 1906 pistol. - features include: blowback operated, single action trigger semi-automatic pistol utilizing a detachable box magazine; can be hammer or striker fired; lever-type safety located on rear left side of receiver/frame or above the trigger on the left side of the receiver/frame; push-type magazine release button is located on the bottom rear of the buttstrap; blued finish. - known example had the safety catch marked with the French words, "SUR" and "FEU". - Spanish proofmarks are apparent on the barrel, slide and receiver/frame.
Manufacturer	- observed example was marked with the Garate Anitua Y Cia (GAC) trade mark logo on both grip plates; logo consists of the stylized & intertwined letters GAC within a double-headed serpentine figure all of which are within a circle; the circle has the word "TRADE" on top and the word "MARK" underneath. - the makers name does not appear on the firearm itself.
Action	- blowback operated.
Serial Number	- serial number was not observed marked on an example. - serial number was observed marked on the right side of the receiver/frame of an example. - serial number observed consisted of four numbers without a letter prefix or suffix.
Calibre	- calibre will be marked on the left side of the slide as, "FOR THE 6.35 BROWNING CARTRIDGE" or "FOR THE 7.65 CARTRIDGE" or "FOR THE 9MM CARTRIDGE".
Shots	- detachable box magazine.

Notes

Make

- marking practices have varied over the production life of this firearm.
- F&L is not marked on firearms intended for the domestic Argentine market.
- firearms destined for internal Argentine use may only be marked "RANGER".
- firearms destined for the export market may be marked on the right side of the receiver/frame as "MADE IN ARGENTINA / F&L".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation of "RANGER" is marked on the left side of the receiver/frame in an inset rectangle below the cylinder opening latch as "RANGER / IND. ARGENTINA".
- the Ranger series of firearms are die castings with steel bearing point pins in place to support the internal mechanism. The cylinder and barrel liner are made from steel. This production technique enables high rates of production at low cost with minimal production equipment requirements.
-sub variants of this model are defined by barrel length, calibre, grip types and finish. There is no sub type designation indicated on the firearm. The only designator is the word "RANGER" molded into the left side of the receiver/frame above and to the rear of the trigger guard.
NOTES - models are found with either adjustable or fixed rear sights.
-catalog model codes:
R 61 = Ranger, Calibre 22 LR, 2 1/2" / 61mm Barrel, Synthetic grips, Fixed sights Blue finish.
R 102 = Ranger, Calibre 22 LR, 4" / 102mm Barrel, Synthetic grips, Fixed sights Blue finish.
R 61 P = Ranger, Calibre 32 S&W LONG, 2 1/2" / 61mm Barrel, Synthetic grips, Fixed sights Blue finish.
R 61 M = Ranger, Calibre 32 S&W LONG, 2 1/2" / 61mm Barrel, Wood grips, Fixed sights Blue finish.
R 61 P = Ranger, Calibre 38 SPL, 2 1/2" / 61mm Barrel, Synthetic grips, Fixed sights Blue finish.
R 61 M = Ranger, Calibre 38 SPL, 2 1/2" / 61mm Barrel, Wood grips, Fixed sights Blue finish.
R 102 P = Ranger, Calibre 32 S&W LONG, 4" / 102mm Barrel, Synthetic grips, Adjustable sights, Blue finish.
R 102 M = Ranger, Calibre 32 S&W LONG, 4" / 102mm Barrel, Wood grips, Adjustable sights, Blue finish.
R 102 P = Ranger, Calibre 38 SPL, 4" / 102mm Barrel, Synthetic grips, Adjustable sights, Blue finish.
R 102 M = Ranger, Calibre 38 SPL, 4" / 102mm Barrel, Wood grips, Adjustable sights, Blue finish.

Manufacturer

- marking practices have varied over the production life of this firearm.
- F&L is not marked on firearms intended for the domestic Argentine market.
- firearms destined for internal Argentine use may only be marked "RANGER".
- firearms destined for the export market may be marked on the right side of the receiver/frame as "MADE IN ARGENTINA / F&L".

Action

- single and double action mechanism.

Serial Number

- the serial number is marked on the right side of the receiver/frame.
- observed sequences have consisted of five digits with or without a letter suffix.

Calibre

- calibre designations are marked on the left side of the barrel as "CAL. 22 LARGO", "CAL. 38 LARGO", or "CAL. 32 LARGO".

Notes

Make

- "F-1 FIREARMS" is marked on the right side of the receiver/frame.
- "F-1 FIREARMS" is located in Spring, Texas U.S.A..
- "F-1 FIREARMS" was established in 2012.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "BDR-15" is marked on the right side of the receiver/frame.
- "Pistol" is not usually marked on the firearm.
- "B" stands for the "Billet" type of receiver/frame.
- "BDR-15" variants are based on the Colt AR-15/M16 design.
- "CA" in the model name stands for "Canadian" semi-automatic variant.
- "CA 16" for "Canada" and year of manufacture "2016", is marked on the right side of the receiver/frame below the rear takedown pin.
- "BDR-15" is sold as a receiver/frame.
- features include: threaded muzzle for flash hider/muzzle brake; light, medium or heavy profile contoured barrel that may be in stainless steel and fluted; low profile, bracket/gas block; accessory railed, free floating handguard; accessory rail flat top upper assembly; may have adjustable sights, folding sights or optical sight; oversize integral trigger guard; beveled magazine well; may have an ambidextrous safety selector; no buttstock, plain, foam or tape covered buffer tube or forehand brace attachment; matte black and/or colour finish.

Manufacturer

- "F-1 FIREARMS" is marked on the right side of the receiver/frame.
- "F-1 FIREARMS" is located in Spring, Texas U.S.A..
- "F-1 FIREARMS" was established in 2012.

Action

- gas operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number of a referenced example consisted of the prefix "100" a dash and five numbers.

Calibre

- "MULTI" is marked on the right side of the receiver/frame.
- calibre identification is marked on the barrel.
- 223 REM rifling characteristics: 1 turn in 8 inches, right hand twist.
- 300 AAC BLACKOUT rifling characteristics: 1 turn in 8 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Canadian Law Comments

- The F-1 Firearms, BDR-15 3G is a prohibited firearm within the meanings of the Criminal Code PART III, Section 84 definitions of automatic firearm and prohibited firearm:

"automatic firearm" means a firearm that is capable of, or assembled or designed and manufactured with the capability of, discharging projectiles in rapid succession during one pressure of the trigger;

"prohibited firearm" means
(c) an automatic firearm, whether or not it has been altered to discharge only one projectile with one pressure of the trigger

FRT Report

Firearm Reference Number (FRN): 186522
Make: F-1 Firearms
Model: UDR-15-3G

Summary

Make:	F-1 Firearms
Model:	UDR-15-3G
Manufacturer:	F-1 Firearms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
186522 - 1	5.56MM NATO	5	406	Prohibited PFR, Part 1, para. 87(z.364)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "F-1 FIREARMS" is marked on the right side of the receiver/frame.
- "F-1 FIREARMS" is located in Spring, Texas U.S.A..
- "F-1 FIREARMS" was established in 2012.

Model

- "UDR-15-3G" is marked on the right side of the receiver/frame.
- "U" stands for "Universal" type receiver/frame; a format that will allow interchangeability for various AR-Type uppers, as the "Billet" or "BDR" is not universal, but a dedicated receiver/frame with matching upper assembly.
- "UDR-15-3G" is a variant based on the Colt AR-15/M16 design.
- "UDR-15-3G" is sold as a receiver/frame, so features may vary between examples.
- main features are the full sides of the magazine well cut-out/skeletonize, large oversize trigger guard and slotted/ventilated upper assembly.
- features include: threaded muzzle; light, medium or heavy profile contoured barrel that may be in stainless steel and fluted; low profile, accessory rail or folding front sight bracket/gas block; synthetic or metal handguard; accessory rail flat top upper assembly that may be skeletonized; may have adjustable sights, folding sights or optical sight; oversize integral trigger guard; beveled and skeletonized magazine well; may have an ambidextrous safety selector; collapsible, standard or custom rifle buttstock; synthetic pistol grip; matte black or colour finish.

Manufacturer

- "F-1 FIREARMS" is marked on the right side of the receiver/frame.
- "F-1 FIREARMS" is located in Spring, Texas U.S.A..
- "F-1 FIREARMS" was established in 2012.

Action

- gas operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number of referenced examples consisted of three numbers, followed by a dash (-) and five numbers.
- serial number rationalization is not known.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "MULTI" is marked on the right side of the receiver/frame. - calibre may be marked on the barrel.
Shots	- detachable box magazine.

Notes

Make

- The make is marked on the right side of the receiver/frame.
- The company logo is marked on the receiver/frame.

Model

- Introduced in 2017.
- The model designation is marked on the right side of the receiver/frame.
- "F4-15" is of the design commonly known as the AR15/M-16 rifle.
- Features include: Standard AR-15 layout and operation; various barrel profile types; multiple barrel finishes; oversized trigger guard; flared magazine well; may have a flat trigger.
- "F4-15" is available from the manufacturer as a receiver/frame set or as a complete rifle.
- Overall length with a 190 mm (7.5 inches) barrel is 597 mm (23.5 inches) with the stock collapsed, average weight is 2.63 kg (5.79 lbs).
- Overall length with a 406 mm (16 inches) barrel is 838 mm (33 inches) with the stock collapsed, average weight is 3.06 kg (6.74 lbs).

Manufacturer

- The manufacturer is marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- Gas operated.
Serial Number	- The serial number is marked on the right side of the receiver/frame.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- "CAL: MULTI" is marked on the right side of the receiver/frame. - The calibre designation is marked on the barrel assembly.
Shots	- Detachable box magazine.
Canadian Law Comments	- This firearm design incorporates a split receiver/frame: the lower receiver is the master component for the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Notes

Make

- "FABARM" is marked on the receiver/frame.

Model

- this is a self-compensating gas-operated shotgun with ventilated-rib barrel, plated trigger, dual action bars and a blued receiver with photo-etched "engraving" (patterns and finish will vary); checkered walnut stock and an aluminium receiver/frame.

Manufacturer

- "FABARM S.P.A." or "FABBRICA BRESCIANA ARMI S.P.A." may be marked on the barrel.
- "Fabbrica Bresciana Armi (FABARM)" was established in 1900.
- "Fabbrica Bresciana Armi (FABARM)" is located in Brescia, Italy.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- marked on the left side.
Barrel	- this model is available in the Multichoke configuration with five different external threaded choke tubes which extend the standard barrel length up to 152mm.
Importer	- marked on the right side of the firearm.
Canadian Law Comments	- this model is available in the Multichoke configuration with five different external threaded choke tubes which extend the standard barrel length up to 152mm. However, for the purpose of registration in Canada these extensions are not considered part of the barrel and must not be taken into consideration when measuring barrel length.
Other Markings	- "FABARM" or "Fabarm SpA" appears on the left side of the receiver/frame.
Remarks	- this model was available in six different configurations as follows; - Ellegi Police; 508mm cylinder bored barrel, matte black finish. - Ellegi Slug; 622mm barrel, with rifle rear sight. - Ellegi Super Goose; 902mm barrel, ventilated rib (12mm wide), adjustable rifle rear sight, supplied with a rail for mounting scope rings. - Ellegi Magnum; 12GA X 3", with 762mm barrel length. - Ellegi Innerchoke; 711mm barrel length standard, vent rib, supplied with five different innerchokes. - Ellegi Multichoke; standard 622mm barrel length, threaded at the muzzle end to accept five different choke tubes, which extended the standard barrel length up to 152mm depending on the choke used.

Notes

Make

- "FABARM" is marked on the receiver/frame.

Model

- This is a single- or double-trigger over/under shotgun with extractors and a blued receiver with photo-etched "engraving"; manufactured in both steel- and aluminium-receiver versions; on this firearm, the top barrel is rifled for shooting slugs, while the bottom barrel has interchangeable screw-in choke tubes.

Manufacturer

- "FABARM" is marked on the receiver/frame.
- "FABARM S.P.A" or "FABBRICA BRESCIANA ARMI S.P.A." may be marked on the barrel.
- "Fabbrica Bresciana Armi (FABARM)" was established in 1900.
- "Fabbrica Bresciana Armi (FABARM)" is located in Brescia, Italy.

Action

- over/under pattern.

Notes

Make

- "FABARM" may be marked on the receiver/frame and/or barrel.

Model

- SDASS was imported into North America in 1989 and 1990.
- "S.D.A.S.S." may be marked on the right side of the receiver/frame.
- "CAT 16912" is marked on the side of the receiver/frame.
- SDASS is available in self defense, police, hunting and sporting configurations.
- features include: black synthetic or wood forearm and full length semi-pistol grip buttstock, full length pistol grip buttstock, telescoping or folding buttstock with pistol grip or pistol-grip only; dual action bars; matte black aluminium receiver/frame (available with various engraving or crests); matte black barrel ("carbon fiber" overlay with cross-hatched finish optional); slide lock release forward of the trigger and cross bolt safety at the rear of the trigger guard.
- some variations may be equipped with a ghost ring sight, ventilated barrel shroud or a Picatinny rail for mounting auxiliary sights.
- overall length with a 356 mm (14") barrel and pistol grip with folding stock or pistol grip only is 610 mm (24").
- overall length with a 457 mm (18") barrel and pistol grip with folding stock or pistol grip only is 711 mm (28").

Manufacturer

- "FABARM" may be marked on the receiver/frame and/or barrel.
- "FABARM S.P.A" or "FABBRICA BRESCIANA ARMI S.P.A." may be marked on the barrel.
- "Fabbrica Bresciana Armi (FABARM)" was established in 1900.
- "Fabbrica Bresciana Armi (FABARM)" is located in Brescia, Italy.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Calibre

- marked on the right side.

Shots

- tubular magazine mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "FABARM" is marked on the receiver/frame.
Model	- SDASS Martial was imported into North America in 1989 and 1990. - "S.D.A.S.S. Martial" may be marked on the right side of the receiver/frame. - "CAT. 16912" may be marked on the right side of the receiver/frame. - features include: dual action bars; matte black aluminium receiver/frame; open fixed sights; this firearm has been manufactured with both screw-in interchangeable choke tubes, and screw-on interchangeable choke tubes; available with a fixed full length buttstock, pistol grip with folding buttstock or pistol grip only. - overall length with a 356 mm (14") barrel and pistol grip with folding stock or pistol grip only is 610 mm (24"). - overall length with a 457 mm (18") barrel and pistol grip with folding stock or pistol grip only is 711 mm (28").
Manufacturer	- "FABARM" is marked on the receiver/frame. - "FABARM S.P.A" or "FABBRICA BRESCIANA ARMI S.P.A." may be marked on the barrel. - "Fabbrica Bresciana Armi (FABARM)" was established in 1900. - "Fabbrica Bresciana Armi (FABARM)" is located in Brescia, Italy.
Action	- manual pump action.
Serial Number	- serial number is marked on the receiver/frame.
Barrel	- longer barrel (24.5"/622mm) has a threaded muzzle to allow screw-on choke attachments.
Calibre	- the calibre designation is marked on the receiver/frame as, "CAL.12 / 76-3"".
Shots	- tubular magazine mounted under the barrel.
Canadian Law Comments	- this firearm is normally Non-Restricted unless affected by the following conditions: 1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada. - "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands. 2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada. 3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada. - "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted, (i) is less than 660 mm in length, or (ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "FABARM PROFESSIONAL" is marked on both side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "STF/12" is marked on the right side of the receiver/frame. - "STF/12" is a modular pump-action shotgun which can be assembled in a variety of configurations. - "STF/12" was introduced in 2014. - features include: interchangeable screw-in choke tubes that may have a muzzle brake/compensator; tapered, chrome lined smooth bore; heat shield attached over the barrel; removable front and adjustable rear sight or optical sight; anchor point on the heat shield and receiver/frame for an accessory rail; aluminum receiver/frame; bottom loading and right side ejection port; action release at the front of the trigger guard; cross-bolt safety at the rear of the trigger-guard; extended magazine tube available; synthetic furniture's; forehand with short, forward accessory rails; fixed, side folding, collapsible stock or pistol grip only; black, nickel or coloured finish. - overall length with a 280mm (11") barrel is 530mm (20.875")with the folding stock folded. - overall length with a 280mm (11") barrel is 680mm (26.75")with the collapsible stock collapsed.
Manufacturer	- "FABARM PROFESSIONAL" is marked on both side of the receiver/frame.
Serial Number	- serial number is marked on the right side of the receiver/frame, above the trigger. - serial number of a referenced example consisted of a two letter prefix and six numbers.
Calibre	- calibre designation is marked on the barrel.
Shots	- underbarrel tubular magazine.
Canadian Law Comments	- this firearm is normally Non-Restricted unless affected by the following conditions: 1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada. - "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands. 2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada. 3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada. - "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted, (i) is less than 660 mm in length, or (ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "FABARM" is marked on the receiver/frame.

Model

- introduced in 2010.
- "XLR" is marked on the right side of the receiver/frame.
- features include: blue or camouflage steel finish, ventilated rib barrel with fibre optic front sight; interchangeable choke tubes; composite combo configuration has ramped front sight, adjustable rear ghost-ring sight and a fixed improved cylinder choke; composite combo configuration comes with a second barrel of choice; receiver cut for Weaver-style optic rings; black bolt and charging handle; synthetic forestock and buttstock with textured gripping surfaces and gel filled recoil pads; available in black, forest or bullrush camouflage patterns; trigger guard mounted cross-bolt safety; sling swivels.
- overall weight is between 2.9 and 3.30kgs. (6.39-7.27lbs)

Manufacturer

- "FABARM S.p.A - Italy" or "FABBRICA BRESCIANA ARMI S.P.A." may be marked on the barrel.
- "Fabbrica Bresciana Armi (FABARM)" was established in 1900.
- "Fabbrica Bresciana Armi (FABARM)" is located in Brescia, Italy.

Action

- gas operated.

Serial Number

- serial number was observed on the right side of the receiver/frame above the trigger guard.

Shots

- tubular magazine mounted under the barrel.

Canadian Law Comments

- this model has an optional magazine extension which increases the magazine capacity to in excess of five rounds and contravenes the Criminal Code of Canada, Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted, Part IV, Former Cartridge Control Regulations limiting a centrefire semi-automatic firearm to five rounds.

Notes

Make

- "FABARM" was observed marked on the firearm.
- "FABARM S.P.A" or "FABBRICA BRESCIANA ARMI S.P.A." may be marked on the barrel.

Model

- "XLR5" is marked on the right side of the receiver/frame, with "VELOCITY" and "FABARM" below the bolt raceway; "AR" is an acronym for "Adjustable Rib" and is derived from the fact that this shotgun has an adjustable ventilated rib.
- this is a gas operated semi-automatic shotgun made specifically for trap shooters, with an adjustable ventilated rib and cheekpiece that allows a shooter to adjust their point of impact on a rising clay target.
- features include: blued barrel; screw-in interchangeable choke tube; fluorescent bead sight; adjustable ventilated rib; a tapered magazine cap that can be fitted with weights to adjust the balance of the shotgun; checkered walnut forearm and pistol-grip stock; matte satin nickel or black anodized receiver/frame; bottom loading port; left side action release; right side ejection port; cross-bolt safety at the rear of the trigger guard; and an adjustable cheekpiece.

Manufacturer

- "FABARM" was observed marked on the firearm.
- "FABARM S.P.A" or "FABBRICA BRESCIANA ARMI S.P.A." may be marked on the barrel.
- "Fabbrica Bresciana Armi (FABARM)" was established in 1900.
- "Fabbrica Bresciana Armi (FABARM)" is located in Brescia, Italy.

Action

- gas operated.

Serial Number

- serial numbered on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- tubular magazine in the forearm.
- this firearm is delivered with a magazine plug that restricts the capacity to 2 rounds in the magazine and 1 round in the chamber, but removing that plug allows 4 rounds in the magazine tube.

Notes

Make

- "FAIR" is usually marked on the receiver/frame.
- "FAIR" is the acronym for "Fabbrica Armi Isidoro Rizzini".

Model

- "Bilozir Prestige Special" over "Canada" is marked on the receiver/frame.
- this is a standard pattern box lock over and under shotgun.
- the receiver/frame size varies with the calibre/gauge.
- features include: chromed finished, ornately engraved receiver/frame with quail motif and extended false side plates; fret worked top lever, top tang safety/selector, blued trigger guard; gold coloured single trigger; blued barrels; ventilated rib, fixed or interchangeable choke tubes, ejectors; and front bead sight; checkered walnut "Prince of Wales" semi pistol-grip buttstock with wooden butt plate; checkered, "owl-beak" forestock.
- average weight varies with caliber and barrel length.

Action

- over and under pattern.

Serial Number

- the serial number is marked on the receiver/frame under the action opening lever and on the barrel lug.
- serial number rationalization is unknown.

Calibre

- the calibre/gauge designation is marked on the left side of the barrel.

Notes

Make

- "FAIR" is usually marked on the receiver/frame.
- "FAIR" is the acronym for "Fabbrica Armi Isidoro Rizzini".

Model

- introduced in 2005.
- "CARRERA" is marked on the side of the receiver/frame.
- features include: matte black ported barrels; X-CONES® system to reduce recoil; interchangeable TECHNICHOKE® choke tubes; ventilated rib; fibre optic LPA® front sight; top tang opening lever and manual safety; automatic ejectors; interchangeable hinge pins; gold adjustable XR-TRIGGER®; gold sporting clay engraved on receiver/frame; laser checkered walnut pistol grip adjustable XR-STOCK®, rubber ventilated recoil pad.

Manufacturer

- "FAIR" is marked on the underside and both sides of the receiver/frame.
- "FAIR" was observed marked on the left side of the upper barrel.
- "MARCHENO-BS-100% ITALIAN MADE" may be marked on the side of the barrels.
- "FAIR" is the acronym for "Fabbrica Armi Isidoro Rizzini".

Action

- over & under barrel configuration; front hinged, break open action..

Serial Number

- serial number is marked on the receiver/frame.
- serial number rationalization is unknown.

Calibre

- the calibre designation is marked on the barrel assembly.

Notes

Make

- "FAIR" is usually marked on the receiver/frame.
- "FAIR" is the acronym for "Fabbrica Armi Isidoro Rizzini".

Model

- model designation is marked on the underside of the receiver/frame.
- this is a standard pattern boxlock over & under combination gun featuring: a silvered and engraved receiver/frame, blued barrels, double triggers, extractors, tang safety, quarter-rib barrel, sling swivels and a checkered walnut pistol grip stock.
- some variations of this model are available with extended false sideplates and schnabel tipped forearms
- additional over & under shotgun barrels are also available.

Action

- over & under pattern; shotgun barrel over rifle barrel.

Serial Number

- serial number is marked on the receiver/frame, under the top opening lever.
- serial number rationalization is unknown.
- observed sample serial numbers consisted of 6 digits without prefix or suffix.

Notes

Make

- "FAIR" is usually marked on the receiver/frame.
- "FAIR" is the acronym for "Fabbrica Armi Isidoro Rizzini".

Model

- this is a series of standard-pattern boxlock over/under shotguns made specifically for Skeet shooters
- all of these shotguns have single triggers, ejectors, tang safeties, ventilated ribs, cylinder barrels, and Turkish walnut pistol-grip stocks
- depending on the exact variation, these shotguns can be seen with plain blue/black finished receivers (with or without extended false sideplates), silver-finished engraved receivers (with or without extended false sideplates), and with or without precious-metal inlays
- these shotguns are made in two frame sizes, and those based on the 12 GA frame can also be ordered with an additional set of 20 GA barrels

Manufacturer

- "FAIR" is usually marked on the underside and both sides of the receiver/frame.
- "FAIR" may be marked on the left side of the upper barrel.
- "MARCHENO-BS-100% ITALIAN MADE" may be marked on the side of the barrels.
- "FAIR" is the acronym for "Fabbrica Armi Isidoro Rizzini".

Action

- Over/Under pattern.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is found marked on the receiver/frame under the action opening lever and on the barrel lug.
- serial number rationalization unknown.
- sample serial numbers observed consisted of 6 digits without prefix or suffix.

Notes

Make

- "FAIR" is usually marked on the receiver/frame.
- "FAIR" is the acronym for "Fabbrica Armi Isidoro Rizzini".

Model

- the model designation is marked on the underside of the receiver/frame as "Jubilee".
this is a standard-pattern box lock over/under shotgun with a silvered and engraved receiver with extended false side plates and blued barrels
- features include: box lock receiver/frame; single trigger; top tang mounted opening lever; automatic ejectors; top tang mounted safety selector; ventilated barrel rib; fixed or interchangeable choke tubes; oil finished, checkered walnut pistol-grip butt stock and schnabel forend.
- this shotgun can also be ordered with colour-case-hardened receiver/frame and side plates with gold inlays as the model "Jubilee Prestige".

Action

- over & under configuration.

Serial Number

- the serial number is found marked on the receiver/frame under the action opening lever and on the barrel lug.
- serial number rationalization unknown.
- observed sample serial numbers consisted of 6 digits without prefix or suffix.

Calibre

- the calibre designation is marked on the left side of the barrel assembly on the chamber area of the top barrel.

Notes

Make

- "FAIR" is usually marked on the receiver/frame.
- "FAIR" is the acronym for "Fabbrica Armi Isidoro Rizzini".

Model

- "LX 692" is usually marked on the underside of the receiver/frame.
- this is a standard pattern box lock over/under shotgun with chromed/silvered and engraved receiver/frame with extended false side plates and blued barrels.
- features include: single trigger, ejectors, tang safety, ventilated-rib, fixed and interchangeable choke tubes (one of each), and checkered walnut pistol-grip stock.
- some versions of this shotgun have gold inlays as part of the receiver/frame engraving.

Action

- over & under barrel configuration, hinged barrel design.

Serial Number

- the serial number is marked on the receiver/frame under the action opening lever and on the barrel lug.
- sample serial numbers observed consisted of 6 numbers without prefix or suffix.

Calibre

- the 28 GA and 410 Ga barrels are available on request, they are not offered as a standard calibre.

Notes

Make

- "FAIR" is usually marked on the receiver/frame.
- "FAIR" is the acronym for "Fabbrica Armi Isidoro Rizzini".

Model

- the model designation is marked on the underside of the receiver/frame as "Premier".
- features include: box lock receiver/frame; matte blue/black metal finish on barrels and receiver/frame; single trigger; ejectors or extractors; top tang mounted safety selector; ventilated barrel rib; fixed or interchangeable choke tubes; oil finished checkered walnut pistol-grip butt stock and forend.

Action

- over & under configuration.

Serial Number

- serial number is marked on the receiver/frame and the barrel lug.
- the serial number is found marked on the receiver/frame under the action opening lever and on the barrel lug.
- serial number rationalization unknown.
- sample serial numbers observed consisted of 6 digits without prefix or suffix.

143774 - 1	33 PERCUSSION	1	76	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm as "Fairbanks Boston".

Model

- the model is not marked on the firearm.
- manufactured circa 1840.
- this is an all-metal percussion pistol manufactured by A.B. Fairbanks of Boston, Massachusetts.
- fetaures include: part round/part octagonal browned barrel; fixed sights; one-piece hammer/trigger; and a cast brass "bag" shaped grip, onto which the barrel is screwed.
- Fairbanks is also known to have made "saw-handle" style target pistols of the same general type, with barrels up to 254mm long.

Manufacturer

- the manufacturer is marked on the firearm as "Fairbanks Boston".
- A.B. Fairbanks was a Boston gunsmith active between 1827 and 1841, producing muzzle-loading percussion rifles, shotguns, and pistols.

Action

- muzzle-loading, percussion single-shot.

Barrel

- examples of this pistol have been seen with barrels up to 254mm long.

Firearm Reference Number (FRN): 143773
Make: Fairbanks, A B
Model: All Metal Percussion Rifle

Summary

Make:	Fairbanks, A B
Model:	All Metal Percussion Rifle
Manufacturer:	Fairbanks, A B
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
143773 - 1	40 PERCUSSION	1	770	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- the make is marked on the firearm as "Fairbanks Boston".

Model

- the model is not marked on the firearm.
- manufactured circa 1835.
- this is an all-metal percussion rifle manufactured by A.B. Fairbanks of Boston, Massachusetts.
- fetaures include: octagonal browned barrel; fixed sights; ramrod loops; manually-cocked hammer; and a cast "skeletonized" buttstock, onto which the barrel is screwed.

Manufacturer

- the manufacturer is marked on the firearm as "Fairbanks Boston".
- A.B. Fairbanks was a Boston gunsmith active between 1827 and 1841, producing muzzle-loading percussion rifles, shotguns, and pistols.

Action

- muzzle-loading, percussion single-shot.

Notes

Make

- "FALCO" within an oval, or "FALCO S.R.L." is usually marked on the receiver/frame and/or on the barrel assembly.

Model

- model designation is not marked on the firearm.
- this firearm is available with a folding mechanism whereby the barrel assembly rotates to below the pistol grip for storage or transportation.
- features include: blued round side by side barrels with a bead front sight; blued or silver finished front hinged receiver/frame with top tang mounted safety and the trigger guard acts as the break open lever; box lock action; hammerless; double triggers; checkered wood forearm and pistol grip only.
- overall length of 720 mm, and an average weight of 1.7 kgs.

Manufacturer

- "FALCO" within an oval, or "FALCO S.R.L." is usually marked on the receiver/frame and/or on the barrel assembly.
- Falco s.r.l. is located in Marcheno, Italy and has been manufacturing firearms since the 1960's.
- Falco s.r.l. is well known for their small calibre folding actions.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number is marked on the receiver/frame and is only visible when the action is open.
- serial number rationalization is unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre designation is usually marked on the barrel.

FRT Report

Firearm Reference Number (FRN): 169902
Make: Falisse & Trapmann
Model: Screw Barrel Pistol

Summary

Make:	Falisse & Trapmann
Model:	Screw Barrel Pistol
Manufacturer:	Falisse & Trapmann
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
169902 - 1	50 PERCUSSION	1	75	Antique CC 84(1) "antique firearm" para. (b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Falisse & Trapmann" used the initial "FT" as trademark.
- "Falisse & Trapmann", "FT" has been observed also inside a circle or a diamond shape.
- "Falisse & Trapmann" was located in Liege, Belgium from 1850 to 1884.

Model

- model is not marked on the firearm.
- "Screw Barrel Pistol" designation is derived from the method by which this pistol is loaded; loading is accomplished by unscrewing the barrel.
- "Screw Barrel Pistol" is usually of small overall size to fit a coat pocket and of a bore diameter from 32 to 60 calibre.
- features include: no sights; round or octagonal barrel; flat sided receiver/frame; folding trigger; external hammer mounted in the receiver/frame; wood grip; bright finish with light engraving.

Manufacturer

- "Falisse & Trapmann" used the initial "FT" as trademark.
- "Falisse & Trapmann", "FT" has been observed also inside a circle or a diamond shape.
- "Falisse & Trapmann" was located in Liege, Belgium from 1850 to 1884.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- the barrel may be rifled.

Serial Number

- serial number of a referenced example consisted of two numbers on the barrel and two numbers on the inside of the hammer.

- features include: round, free floating rifled barrel with muzzle brake, round ventilated handguard with top accessory rail and mounting points; alloy upper assembly with integral accessory rail; right side ejection port with dust cover and forward assist function; T-shaped charging handle located at the rear of the upper assembly; front hinged alloy receiver/frame with ambidextrous safety/selector, bolt release lever and magazine release button; synthetic pistol grip with finger grooves; adjustable butt stock and cheek piece; camouflage finish.
- overall length with a 508mm (20") barrel and with the adjustable butt pad in its most compressed position is 1086mm (42.75").

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- a Falkor Defense logo consisting of the word "FALKOR" in large bold font with the "O" having the image of a flame superimposed over the inside open space of the "O", with the word "DEFENSE" in smaller font under the second half of the word "FALKOR" is marked on the left side of the receiver/frame on the magazine well. - "FALKOR SID INC" over "KALISPELL, MT" over "USA" is marked on the left side of the receiver/frame above the trigger. - Falkor SID, Inc. owns the trademark for the FALKOR Defense logo. - a Falkor Defense logo, consisting of the letter "O" having the image of a flame superimposed over the inside open space of the letter "O", is marked on the underside of the receiver/frame on the integral trigger guard. - a Falkor Defense logo mark consisting of the word "FALKOR" in large bold font with the "O" having the image of a flame superimposed over the inside open space of the "O", with the word "DEFENSE" in smaller font under the second half of the word "FALKOR" is marked on the right side of the upper receiver and on the inside of the ejection port dust cover. - Falkor Defense was founded by Richard Sonju. - Falkor Defense is the sister company for Sonju Industrial (SI) an aerospace and defense company that was founded in 2001. - FALKOR Defense is the sister company of S.I. DEFENSE, Inc. (SID) which was founded in 2009.
Action	- gas operated.
Serial Number	- serial number is marked on the right side of the receiver/frame. - observed serial number consisted of the model information, "FD-30A" followed by seven numbers without suffix. - On 2016-06-20, Falkor Defense changed their lower receiver drawings. - models with a serial number higher than 2000 , i.e. FD-30A 0002001, represents the new design which is a narrow cavity. The narrow fire control cavity of the receiver/frame prevents a full-automatic sear from fitting within the interior of the receiver/frame.
Calibre	- the calibre designation is marked on the inside of the dust cover and may be repeated on the barrel.
Shots	- detachable box magazine.
Canadian Law Comments	- there are two receiver designs available for this firearm: 1) the wide cavity design is considered susceptible to being readily and easily converted from semi-automatic to fire shots in rapid succession with one pressure of the trigger in a relatively short period of time with relative ease and as a result has a prohibited classification. 2) The narrow cavity design is considered an adequate method of preventing the installation of a full-automatic sear within the receiver/frame and as a result has either a restricted or non-restricted legal classification based on barrel length.

Notes

Make

- "FALKOR" is marked on the left side of the receiver/frame.
- "Falkor Defense" logo consist of the word "FALKOR" in large bold font with the "O" having the image of a flame superimposed over the inside open space of the "O".
- "Falkor Defense" is located in Kalispell, Montana U.S.A..

Model

- "LW7" is marked in logo form on the right side of the receiver/frame.
- "LW7" is sold as a receiver/frame.
- "LW7" is a stainless steel, short action receiver/frame with integral recoil lug having the "Remington 700TM" footprint.
- "LW7" is available in left and right operating bolt action having a .308 WIN or Magnum bolt face.
- "LW7" can be customized with a multitude of custom or after market parts for the ""Remington 700".
- Features include: sculptured, lightweight cut receiver/frame; drilled and tapped for optic mount; receiver/frame right side gas vent in a forward tear drop shape; fluted bolt with changeable bolt knob; M16 style extractor usually red in colour; lightening cuts on the bolt shroud; left side vertical bolt release.

Manufacturer

- "FALKOR" is marked on the left side of the receiver/frame.
- "Falkor Defense" logo consist of the word "FALKOR" in large bold font with the "O" having the image of a flame superimposed over the inside open space of the "O".
- "Falkor Defense" is located in Kalispell, Montana U.S.A..
- "Falkor SID, Inc." owns the trademark for the "FALKOR Defense" logo.
- "Falkor Defense" was founded by Richard Sonju.
- "Falkor Defense" is the sister company for "Sonju Industrial (SI)" an aerospace and defense company that was founded in 2001.
- "Falkor Defense" is the sister company of "S.I. DEFENSE, Inc. (SID)" which was founded in 2009.

Action

- Turn bolt operated.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- Serial number of referenced examples consisted of one letter prefix (F) and five numbers.

Notes

Make

- "FALLING BLOCK WORKS" is marked on the left side of the firearm.

Model

- no model designation is marked on the firearm.
- manufactured between 1974 and 1978.
- features include: falling block receiver/frame, extractors, schuetzen stock or any custom order stock and the choice of five different opening levers.

Manufacturer

- "FALLING BLOCK WORKS" was located in Troy, Michigan, U.S.A.
- Falling Blocks Works manufactured a single shot rifle based on a modernized Winchester High Wall type action between 1974 and 1978.

Action

- lever operated, falling/dropping block design.
- solid metal breechblock slides vertically in grooves cut into the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is usually located behind the trigger.
- example observed with prefix letter followed by three digits.

Notes

Make

- the make does not appear on the firearm.

Model

- "FG 42" is marked on the top of the receiver/frame.
- produced from 1942 to 1945 and does not appear to be dated to the year of production.
- the FG 42 in all of its sub models had a total production of less than 7,500 examples.
- features include, straight line design with a light bipod and integral bayonet; open bolt firing in full automatic mode and closed bolt firing in single shot mode; vented barrel shroud, vertical or raked pistol grip; blued finish.
- overall length is 940mm/37".

Action

- gas operated.

Serial Number

- serial number may be found on the top of the receiver forward of the ejection opening.
- serial numbers from L.O. Dietrich (gcy) seem to have followed the same conventions as that from Kreighoff (fzs), namely one to five digits without the lower case script letter suffix normally incorporated into the German serial numbers. Example - 0155
- serial numbers from Kreighoff (fzs) seen in reference texts may or may not have a zero prefix: 68, 1999, 00004, 04455, 04456, 02009, 1700, etc.

Shots

- magazines available in 10 or 20 shot capacity.

Notes

Make

- the make does not appear on the firearm.

Model

- "FG 42" is marked on the top of the receiver/frame.
- produced from 1942 to 1945 and does not appear to be dated to the year of production.
- the FG 42 in all of its sub models had a total production of less than 7,500 examples.
- features include, straight line design with a light bipod and integral bayonet; open bolt firing in full automatic mode and closed bolt firing in single shot mode; vented barrel shroud, vertical or raked pistol grip; blued finish.
- overall length is 940mm/37".

Manufacturer

- it is not known which of the Rheinmetall factories is the manufacturor.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number may be found on the top of the receiver forward of the ejection opening.
- serial numbers from L.O. Dietrich (gcy) seem to have followed the same conventions as that from Kreighoff (fzs), namely one to five digits without the lower case script letter suffix normally incorporated into the German serial numbers. Example - 0155

Make: FAMAE
Model: MINI SAF

Summary

Make:	FAMAE
Model:	MINI SAF
Manufacturer:	Fabrica y Maestranzas del Ejercito (FAMAE)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	CHILE
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
118672 - 3	9MM LUGER	5	115	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
118672 - 1	9MM LUGER	20	115	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
118672 - 2	9MM LUGER	30	115	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "FAMAE" is usually marked on the left side of the firearm.

Model

- "MINI SAF" is usually marked on the left side of the firearm.
- this model is the compact version of the Famae SAF submachine gun.
- the SAF model series of submachine gun is based on the overall design concept of the SIG model SG540 assault rifle, however, it utilizes a completely different operating system to that of the assault rifle; Famae is/was a manufacturer of the SIG SG540 model series as licenced by SIG.
- blow back operated, capable of full-automatic fire, detachable box magazine, fires from the closed bolt position utilizing a hammer-driven, floating firing pin arrangement.
- additional features: capable of semi-automatic, 3-round burst or full automatic fire, overall length of 310 mm with shoulder stock folded, cocking lever located on the right side of the upper receiver housing, right side ejection, bolt hold-open lever located on the left side of the receiver/frame; this device keeps the bolt open after the last round has been fired and the magazine is empty,
- buttstock may be; plastic coated, tubular steel, right side, folding-type with synthetic butt plate or fixed type made of black, solid synthetic material, is supplied with a vertical-type handgrip which also has a finger guard to prevent the fingers from slipping in front of the muzzle; this grip is mounted on the underside of the barrel in front of the receiver/frame and is very similar in appearance to the handgrip utilized on the Heckler & Koch, MP5K submachine gun,
- magazines are made of a translucent synthetic material which allows the user to view the contents; these magazines also have studs and slots in their sides which permits two or more magazines to be "clipped" together,
- chrome plated chamber and bore, safety/selector lever located on the left side of the receiver/frame, push-forward type magazine release lever is located in front of the trigger guard, adjustable front and rear sights, threaded muzzle end with protective screw-on cover,
- parkerized finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "FAMAE" is usually marked on the left side of the firearm.
- FAMAE is the trade name for Fabrica de Materiel del Ejercito (also known as, Fabricas y Maestranzas del Ejercito) which is a Chilean defense products manufacturer established in 1811 and located in Santiago, Chile.

Action

- blow back operated.

Serial Number

- the serial number is marked on the left side of the upper receiver/frame and may be repeated on other components.
- serial number rationalization unknown.
- observed specimen serial numbers consisted of an alpha character prefix followed by a dash followed by a series of five digits.
- the letter prefix "M" has been observed.

Canadian Law Comments

- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Make - "FAMAE" is usually marked on the left side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "MINI SAF SA" is usually marked on the left side of the firearm. - this model is the compact commercial version of the Famae MINI SAF submachine gun and is manufactured to fire in the semi-automatic mode only. - the SAF model series of submachine gun is based on the overall design concept of the SIG model SG540 assault rifle however it utilizes a completely different operating system to that of the assault rifle; Famae is/was a manufacturer of the SIG SG540 model series as made under licence from SIG. - blow back operated, fires from closed bolt position utilizing a hammer-driven, floating firing pin arrangement. - additional features: overall length of 310 mm without the shoulder stock, cocking lever on the right side of the upper receiver housing, right side ejection, bolt hold-open lever located on the left side of the receiver/frame; this device keeps the bolt open after the last round is fired and the magazine is empty, - buttstock may be; plastic coated, tubular steel, right side, folding-type with synthetic butt plate or fixed type made of black solid synthetic material, - is supplied with a vertical-type handgrip which also has a finger guard to prevent the fingers from slipping in front of the muzzle; this grip is mounted on the underside of the barrel in front of the receiver/frame and is very similar in appearance to the handgrip utilized on the Heckler & Koch, MP5K submachine gun. - the magazines are made of a translucent synthetic material which allows the contents to be viewed by the user; these magazines also have studs and slots in their sides which permit two or more magazines to be "clipped" together, - chrome plated chamber and bore, - safety/selector lever located on the left side of the receiver/frame, - push-forward type magazine release lever is located in front of the trigger guard, - adjustable front and rear sights, - may have a threaded muzzle end with protective screw-on cover, - parkerized finish.
Manufacturer	- "FAMAE" is usually marked on the left side of the firearm.
Type	- designed and manufactured to be capable of semi-automatic fire only.
Action	- blow back operated. - manufactured to fire semi-automatic only.
Serial Number	- the serial number is marked on the left side of the upper receiver/frame and may be repeated on other components. - serial number of referenced examples consisted of a letter prefix a dash and five numbers. - serial number of referenced examples also consisted of two letter prefix a dash and five numbers.
Calibre	- calibre designation is marked on the left side of the upper receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.
Other Markings	- known examples have been marked "BRUGGER & THOMET" on the left side of the upper receiver housing. - apparently the major components of this firearm are manufactured by FAMAE in Chile, then sent to Brugger & Thomet in Switzerland for final machining and assembly using additional components that are "semi-automatic" only, therefore, the company name of "BRUGGER & THOMET" is usually marked on the commercial version of the SAF model series.

Notes

Make

- "FAMAE" over "CHILE" within the outline of a shield is usually maked on the top of the magazine housing.

Model

- the model name is usually marked on the top of the magazine housing as, "P.A.F.".
- the Pistol Ametralladora (rapid fire pistol) is of domestic design however, from its appearance, it seems to have been based on the British Sterling submachine gun.
- this firearm is produced for the Chilean military and police forces.
- blow back operated, capable of full automatic fire, detachable box magazine, fires from the open bolt position.
- additional features;
- cyclic rate of approximately 800-875 rounds per minute,
- round tubular steel receiver/frame with swept-back style pistol grip very similar in appearance to that of the Sterling submachine gun.
- selector lever located on the top, left side of the pistol grip behind the trigger guard,
- cocking handle on right side of receiver/frame,
- right side ejection,
- bolt has spiral-type, dirt-clearing grooves machined on the outside of the bolt body,
- bevelled muzzle compensator,
- magazine release button located on the top rear of the magazine housing,
- telescoping wire-type stock with synthetic shoulder stock,
- fixed front and rear sight,
- parkerized type finish.

Manufacturer

- "FAMAE" over "CHILE" within the outline of a shield is usually maked on the top of the magazine housing.

- "SAF" was observed marked on the left side of the firearm.
- the SAF model series of submachine gun is based on the overall design concept of the SIG model SG540 assault rifle, however, it utilizes a completely different operating system to that of the assault rifle; Famae is/was a manufacturer of the SIG SG540 model series as made under licence from SIG.
- blow back operated, capable of full-automatic fire, detachable box magazine, fires from the closed bolt position utilizing a hammer-driven, floating firing pin arrangement.
- additional features;
- capable of semi-automatic, 3-round burst or full automatic fire,
- cyclic rate of fire is approximately 1100 to 1200 rounds per minute,
- overall length of 410 mm with shoulder stock folded,
- cocking lever located on the right side of the upper receiver housing,
- right side ejection,
- bolt hold-open lever located on the left side of the receiver/frame; this device keeps the bolt open after the last round has been fired and the magazine is empty,
- the buttstock may be; plastic coated, tubular steel, right side folding type with synthetic butt plate or solid fixed type made of black synthetic material,
- vented handguard and hollow pistol grip both of synthetic material,
- magazines are made of a translucent synthetic material which allows the user to view the contents; these magazines also have studs and slots in their sides which permits two or magazines to be "clipped" together,
- chrome plated chamber and bore, safety/selector lever located on the left side of the receiver/frame, push-forward type magazine release lever is located in front of the trigger guard, adjustable front and rear sights and may have a threaded muzzle end with protective screw-on cover,
- parkerized finish.

Manufacturer

- manufacturer's name / trade mark is usually marked on the left side of the firearm as "FAMAE".

Action

- blowback operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame and may be repeated on other components.
- serial number rationalization unknown.
- observed specimen serial numbers consisted of an alpha character prefix followed by a dash followed by a series of five digits.
- the letter prefix "A" has been observed.

Calibre

- ".40" was observed marked on the left side of the firearm.

Shots

- detachable box magazine.

Canadian Law Comments

- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Make

- "FAMAE" is usually marked on the left side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "SAF SA" is usually is marked on the left side of the firearm. - "SAF SA" model is the semi-automatic commercial version of the FAMAE model SAF submachine gun. - "SAF" model series submachine gun is based on the overall design concept of the SIG SG540 assault rifle, however, it utilizes a completely different operating system to that of the assault rifle; Famae is/was a manufacturer of the SIG SG540 model series as made under licence from SIG. - blow back operated, semi-automatic, detachable box magazine, fires from the closed bolt position utilizing a hammer-driven, floating firing pin arrangement. - additional features; - overall length of 410 mm with the shoulder stock folded, - cocking lever located on the right side of the upper receiver housing, - right side ejection, - bolt hold-open lever located on the left side of the receiver/frame; this device keeps the bolt open after the last round has been fired and the magazine is empty, - buttstock may be; plastic coated, tubular steel, right side folding type with synthetic butt plate or solid, fixed type, made of black synthetic material, - vented handguard and hollow pistol grip both made of synthetic material, - magazines are made of a translucent synthetic material which allows the user to view the contents; these magazines also have studs and slots in their sides which permits two or more magazines to be "clipped" together, - chrome plated chamber and bore, - safety/selector lever located on the left side of the receiver/frame, - push-forward type magazines release lever located in front of the trigger guard, - adjustable front and rear sights, - may have an externally threaded muzzle with protective screw-on cover, - parkerized finish.
Manufacturer	- "FAMAE" is usually marked on the left side of the firearm. - FAMAE is the trade name for Fabrica de Materiel del Ejercito (also referenced as, Fabricas y Maestranzas del Ejercito) which is a Chilean defense products manufacturer established in 1811 and located in Santiago, Chile. - known examples have also been marked "BRUGGER & THOMET" on the left side of the upper receiver housing.
Type	- designed and manufactured to be capable of semi-automatic fire only.
Action	- blow back operated. - manufactured to fire semi-automatic only.
Serial Number	- the serial number is marked on the left side of the upper receiver/frame and may be repeated on other components. - serial number rationalization unknown. - observed specimen serial numbers consisted of an alpha character prefix followed by a dash followed by a series of five digits. - the letter prefix "B" has been observed.
Shots	- detachable box magazine.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.
Other Markings	- known examples have been marked "BRUGGER & THOMET" on the left side of the upper receiver housing. - apparently the major components of this firearm are manufactured by FAMAE in Chile, then sent to Brugger & Thomet in Switzerland for final machining and assembly using additional components that are "semi-automatic" only, therefore, the company name of Brugger & Thomet is usually found on the commercial version of the SAF model series.

Notes

Make

- "FAMAE" is marked on the left side of the firearm.

Model

- "SG 540-1" may be marked on the left side of the upper receiver/frame just above the magazine housing.
- "SG540" was introduced by SIG in 1972 to replace the model SG530.
- variants have been produced including the SG543 with a shorter barrel and folding butt stock and the SG542-1 in 7.62MM NATO calibre.
- "SG540-1" is a Chilean-built version of the SIG SG540 rifle.
- "SG540-1" is manufactured under licence for the Chilean armed forces.
- features include: baked powder coat finish on exposed metal surfaces; rotating diopter rear sight and cylindrical post front sight protected by wings; synthetic buttstock, pistol grip and grooved, ventilated forend; fixed, reciprocating bolt handle on the right side of the bolt assembly; rotating bolt; integral folding bipod; optional folding buttstock of tubular metal; adjustable gas regulator with the gas system mounted above the barrel; birdcage flash suppressor; selector lever mounted on the left side of the receiver/frame above and behind the trigger assembly; capable of mounting a tubular handled bayonet; single stage trigger pull for automatic fire and two stage trigger operation in the semi automatic mode of fire.

Manufacturer

- "FAMAE" or the manufacturer's name or logo is marked on the firearm.

Action

- gas operated.
- fitted with a fire control selector permitting semi automatic, three shot burst and full automatic modes of operation.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left side of the upper receiver/frame assembly above the magazine housing.
Shots	- detachable box magazines.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada. - serial number rationalization is unknown.

Notes

Make

- "FAMAE" over "SG 542-1" over "SA 7.62mm" is marked on the left side of the lower receiver/trigger mechanism housing above the trigger.

Model

- "FAMAE" over "SG 542-1" over "SA 7.62mm" is marked on the left side of the lower receiver/trigger mechanism housing above the trigger.
- "FAMAE SG 542-1 SA" rifle has a two piece receiver/frame.
- features include: blade front sight and an adjustable rotary aperture rear sight; round, rifled barrel with a muzzle brake; gas block with adjustable regulator is mounted over the barrel; stamped metal upper receiver/frame with right side ejection, fixed right side mounted cocking handle, and left side mounted action release; rotating bolt head; front hinged, stamped metal lower with integral magazine well, trigger mechanism, ambidextrous safety/selector, and two captive take-down pins; magazine release is located behind the magazine well; green synthetic forearm and upper handguard, vertical pistol grip with an internal storage compartment; and fixed solid buttstock or a right side folding skeleton buttstock with a rubber butt pad; bipod; sling attachment mounts; matte blue/black finish.
- overall length with a fixed buttstock is approximately 1020 mm.
- overall length with a side folding buttstock in the folded position is approximately 754 mm and the extended position is approximately 1020 mm.
- average weight is 3.6 kgs.

Manufacturer

- "FAMAE" over "SG 542-1" over "SA 7.62mm" is marked on the left side of the lower receiver/trigger mechanism housing above the trigger.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame and repeated on the lower receiver/trigger mechanism housing above the trigger.
- serial number observed consisted of a two letter prefix followed by five numbers without a suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "7.62" is marked on the left side of the lower receiver/frame above the trigger.
Shots	- detachable box magazine.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.
Other Markings	- serial number appears marked on both upper and lower receiver in full. - Make, Model & Manufacturer identification is found marked on the lower receiver.

Notes

Make

- "FAMAE" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Based on the "SIG SG540" design. - "SG543-1 TI" is marked on the left side of the upper receiver/frame. - May also be known as "SG543-1". - May also be known as "SG543-1M". - "TI" stands for "Tactical Imports Corporation". - Features include: Round, rifled, threaded barrel with a flash hider; adjustable gas block mounted above the barrel; stamped metal upper receiver/frame with right side ejection; right side mounted reciprocating charging handle; left side mounted bolt release; rotating bolt head; front hinged stamped metal lower with integral magazine well, trigger mechanism, ambidextrous safety selector, and two captured take-down pins; magazine release paddle located behind the magazine well; spring attachment points; matte blue finish. - The "SG543-1" features: Blade front sight and an adjustable rotary aperture rear sight; carbine length green synthetic forearm and upper handguard, pistol grip with an internal storage compartment; fixed polymer buttstock or right side folding metal tubular buttstock with a rubber butt pad. - The "SG543-1M" features: No iron sights; carbine length accessory rail handguard; integrated accessory rail above the upper receiver/frame; right side folding telescopic polymer buttstock.
Manufacturer	- "FAMAE" is marked on the left side of the receiver/frame.
Action	- gas operated.
Serial Number	- The serial number is marked on the left side of the receiver/frame. - Serial number observed on the "SG543-1" consisted of a two letter "DX" prefix and five numbers. - Serial number observed on the "SG543-1M" consisted of a two letter "LW" prefix and four numbers.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is usually marked on top of magazine housing.
Shots	- Detachable box magazine. - Designed to accept "SG540" type magazines.
Canadian Law Comments	- In the case of this firearm, it has been determined that the component commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the manufacturer's identification, model identification, proof information, and the full serial number is marked, is the receiver/frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Make

- "ARMI FAMARS" and/or "FAMARS" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "ABBIATICO & SALVINELLI" and/or "A&S abbiatico salvinelli" is marked on the firearm on either the receiver/frame or the barrel assembly.
- "FAMARS" is an acronym for Fabrica Armi di M. Abbiatico and R. Salvinelli of Gardone, Val Trompia, Brescia, Italy, a manufacturer of custom shotguns and rifles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation may not be marked on the firearm.
- this is a round-action side lock receiver/frame, side by side rifle, available with numerous options.
- features include: a unique trigger mechanism whereby the lock mechanisms are removable as part of the trigger mechanism group; receiver/frame manufactured in proportionate size to the gauge selected; oil finished, checkered, high grade walnut stock and forearm; automatic ejectors; top tang mounted manual or automatic safety; top or side mounted action opening lever; single or double triggers; articulated front trigger when double triggers are installed; full coverage engraving on the receiver/frame; blued chopper lump barrel assembly; "self-opening" mechanism; available with fitted shotgun barrels.
- due to the nature of the trigger/lock mechanism being a single removable unit, this side lock does not have the traditional appearance of side locks with side plates and instead appears at first glance to be a box lock mechanism.

Manufacturer

- "ARMI FAMARS" and/or "FAMARS" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "ABBIATICO & SALVINELLI" and/or "A&S abbiatico salvinelli" is marked on the firearm on either the receiver/frame or the barrel assembly.
- "FAMARS" is an acronym for Fabrica Armi di M. Abbiatico and R. Salvinelli of Gardone, Val Trompia, Brescia, Italy, a manufacturer of custom shotguns and rifles.
- Fabrica Armi M. Abbiatico and R. Salvinelli was founded by Mario Abbiatico and Remo Salvinelli in 1967.

Action

- side by side barrel configuration.

Serial Number

- the serial number is marked on both the receiver/frame and the barrel assembly of each firearm.
- the serial number rationalization is unknown.

Barrel

- barrel lengths may be custom ordered.

Calibre

- the calibre designation is marked on the receiver/frame and the barrel assembly of each firearm.

Notes

Make

- "ARMI FAMARS" and/or "FAMARS" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "ABBIATICO & SALVINELLI" and/or "A&S abbiatico salvinelli" is marked on the firearm on either the receiver/frame or the barrel assembly.
- "FAMARS" is an acronym for Fabrica Armi di M. Abbiatico and R. Salvinelli of Gardone, Val Trompia, Brescia, Italy, a manufacturer of custom shotguns and rifles.

Model

- the model designation may not be marked on the firearm.
- this is a standard-pattern box lock over and under rifle, which is available with numerous options.
- features include: receiver/frame sizes proportionate to calibre of manufacture; checkered walnut semi-pistol grip stock and schnabel forend; automatic ejectors; top tang mounted manual safety selector; top tang mounted opening lever; removable single trigger mechanism; engraved receiver/frame; interchangeable choke tubes; monoblock barrel construction; blued barrels; available with optional fitted shotgun barrels.
- also available with a "round-action"-style receiver/frame, as the "Excalibur BL Round", or with extended false side plates as the "Excalibur BLX".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "ARMI FAMARS" and/or "FAMARS" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "ABBIATICO & SALVINELLI" and/or "A&S abbiatico salvinelli" is marked on the firearm on either the receiver/frame or the barrel assembly. - "FAMARS" is an acronym for Fabrica Armi di M. Abbiatico and R. Salvinelli of Gardone, Val Trompia, Brescia, Italy, a manufacturer of custom shotguns and rifles. - Fabrica Armi M. Abbiatico and R. Salvinelli was founded by Mario Abbiatico and Remo Salvinelli in 1967. - the "Abbiatico & Salvinelli" trademark was adopted in 1976.
Action	- over and under barrel configuration.
Serial Number	- the serial number is marked on both the receiver/frame and the barrel assembly of each firearm. - the serial number rationalization is unknown.
Barrel	- barrel lengths may be custom ordered.
Calibre	- the calibre designation is marked on the receiver/frame and the barrel assembly of each firearm.

Notes

Make

- "ARMI FAMARS" and/or "FAMARS" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "ABBIATICO & SALVINELLI" and/or "A&S abbiatico salvinelli" is marked on the firearm on either the receiver/frame or the barrel assembly.
- "FAMARS" is an acronym for Fabrica Armi di M. Abbiatico and R. Salvinelli of Gardone, Val Trompia, Brescia, Italy, a manufacturer of custom shotguns and rifles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation may not be marked on the firearm.
- this is a round-action side lock receiver/frame, over and under rifle, available with numerous options.
- features include: a unique trigger mechanism whereby the lock mechanisms are removable as part of the trigger mechanism group; receiver/frame manufactured in proportionate size to the calibre selected; oil finished, checkered, high grade walnut stock and forearm; automatic ejectors; top tang mounted manual or automatic safety; top tang mounted action opening lever; single or double triggers; articulated front trigger when double triggers are installed; full coverage engraving on the receiver/frame; blued chopper lump or monoblock barrel assembly; hinged forend hanger; interchangeable or fixed chokes available with fitted shotgun barrels.
- due to the nature of the trigger/lock mechanism being a single removable unit, this side lock does not have the traditional appearance of side locks with side plates and instead appears at first glance to be a box lock mechanism.

Manufacturer

- "ARMI FAMARS" and/or "FAMARS" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "ABBIATICO & SALVINELLI" and/or "A&S abbiatico salvinelli" is marked on the firearm on either the receiver/frame or the barrel assembly.
- "FAMARS" is an acronym for Fabrica Armi di M. Abbiatico and R. Salvinelli of Gardone, Val Trompia, Brescia, Italy, a manufacturer of custom shotguns and rifles.
- Fabrica Armi M. Abbiatico and R. Salvinelli was founded by Mario Abbiatico and Remo Salvinelli in 1967.

Action

- over and under barrel configuration.

Serial Number

- the serial number is marked on both the receiver/frame and the barrel assembly of each firearm.
- the serial number rationalization is unknown.

Barrel

- barrel lengths may be custom ordered.

Calibre

- the calibre designation is marked on the receiver/frame and the barrel assembly of each firearm.

- the model designation may not be marked on the firearm.
- this is a round-action side lock receiver/frame, over and under shotgun, available with numerous options.
- features include: a unique trigger mechanism whereby the lock mechanisms are removable as part of the trigger mechanism group; receiver/frame manufactured in proportionate size to the gauge selected; oil finished, checkered, high grade walnut stock and forearm; automatic ejectors; top tang mounted manual or automatic safety; top tang mounted action opening lever; single or double triggers; articulated front trigger when double triggers are installed; full coverage engraving on the receiver/frame; blued chopper lump or mono block barrel assembly; hinged forend hanger; interchangeable or fixed chokes; available with fitted rifle barrels.
- due to the nature of the trigger/lock mechanism being a single removable unit, this side lock does not have the traditional appearance of side locks with side plates and instead appears at first glance to be a box lock mechanism.

Manufacturer

- "ARMI FAMARS" and/or "FAMARS" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "ABBIATICO & SALVINELLI" and/or "A&S abbiatico salvinelli" is marked on the firearm on either the receiver/frame or the barrel assembly.
- "FAMARS" is an acronym for Fabrica Armi di M. Abbiatico and R. Salvinelli of Gardone, Val Trompia, Brescia, Italy, a manufacturer of custom shotguns and rifles.
- Fabrica Armi M. Abbiatico and R. Salvinelli was founded by Mario Abbiatico and Remo Salvinelli in 1967.

Action

- over and under barrel configuration.

Serial Number

- the serial number is marked on both the receiver/frame and the barrel assembly of each firearm.
- the serial number rationalization is unknown.

Barrel

- barrel lengths may be custom ordered.

Calibre

- the calibre designation is marked on the receiver/frame and the barrel assembly of each firearm.

Notes

Make

- "ARMI FAMARS" and/or "FAMARS" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "ABBIATICO & SALVINELLI" and/or "A&S abbiatico salvinelli" is marked on the firearm on either the receiver/frame or the barrel assembly.
- "FAMARS" is an acronym for Fabrica Armi di M. Abbiatico and R. Salvinelli of Gardone, Val Trompia, Brescia, Italy, a manufacturer of custom shotguns and rifles.

Model

- the model designation may not be marked on the firearm.
- this shotgun uses an Anson and Deeley type box lock receiver/frame, is a side by side shotgun, and is available with numerous options.
- features include: receiver/frame manufactured in proportionate size to the gauge selected; oil finished, checkered, high grade walnut stock and forearm; automatic ejectors; top tang mounted manual or automatic safety; top tang mounted action opening lever; single or double triggers; articulated front trigger when double triggers are installed; engraved receiver/frame; blued chopper lump barrel assembly; "self-opening" mechanism; removable Westley Richards style lock mechanisms.

Manufacturer

- "ARMI FAMARS" and/or "FAMARS" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "FAMARS di ABBIATICO & SALVINELLI" and/or "ABBIATICO & SALVINELLI" and/or "A&S abbiatico salvinelli" is marked on the firearm on either the receiver/frame or the barrel assembly.
- "FAMARS" is an acronym for Fabrica Armi di M. Abbiatico and R. Salvinelli of Gardone, Val Trompia, Brescia, Italy, a manufacturer of custom shotguns and rifles.
- Fabrica Armi M. Abbiatico and R. Salvinelli was founded by Mario Abbiatico and Remo Salvinelli in 1967.
- the "Abbiatico & Salvinelli" trademark was adopted in 1976.

Action

- side by side barrel configuration.

Serial Number

- the serial number is marked on both the receiver/frame and the barrel assembly of each firearm.
- the serial number rationalization is unknown.

Barrel

- barrel lengths can be custom ordered.

Calibre

- the calibre designation is marked on the receiver/frame and the barrel assembly of each firearm.

Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
124337 - 1	222 REM	1	686	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make designation of "FARLEY ACTION", is marked on the top bridge of the receiver/frame.

Model

- the model designation is not marked on the firearm.
- this is a custom built receiver/frame which is typically assembled using customer specified custom barrels, stocks and trigger assemblies.
- features include: 714 stainless steel casting receiver/frame construction; rectangular receiver/frame shape with flat top receiver bridge; available with 222 REM or 308 WIN calibre-sized bolt faces; two lug bolt design based on the Remington Model 700 series design; coned bolt head.
- the "R" model differs from the "FIREFLY" model as produced by Farley in having different receiver/frame lengths; the former is 203mm (8") in length, the latter 191mm (7.5").

Manufacturer

- the manufacturer's designation of "FARLEY ACTION", is marked on the top bridge of the receiver/frame.

Action

- turn down bolt operated.

Serial Number

- serial number is located on the receiver/frame.
- observed specimen had three numbers without prefix or suffix.
- consecutive serial numbers may be allocated for future use by a customer by reserving that number until a later date for use. Therefore, consecutive serial numbers do not necessarily indicate consecutive dates of production/completion.

Calibre

- the calibre designation is typically marked on the barrel.

119893 - 2	500/450 X 3 1/4"	1	699	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- John Farquharson was born in 1833 at Dalahu in Perthshire, Scotland. In the 1860's John Farquharson became known for his marksmanship with a rifle.
- John Farquharson had two patents. The first one was for an improved extractor system. The second patent was for a falling block hammerless rifle. This rifle had a lever located under the trigger guard. When the lever was moved in a downward direction, the falling block would also move downward, the spent cartridge will be extracted and an internal reciprocating cocking bar was engaged.
- in 1875, John Farquharson entered into an agreement to have his rifles manufactured by George Gibbs, William Metford and Thomas Pitt. All were located in Bristol. The rifles may have "FARQUHARSON PATENT" marked on the right side of the receiver/frame.
- after the patents had expired, the Farquharson rifle was manufactured by various companies and became known as the "Trade Farquharson" or "Trade Farquharsons".

Model

- Farquharson Sporting Rifle was manufactured circa 1870.
- this is a generic entry for those Farquharson Sporting Rifles that are not identifiable as to a manufacturer.
- Farquharson Sporting Rifle is not marked on the firearm.
- features include: steel receiver/frame and round or octagonal barrel; lever under the trigger guard to drop the falling block; a safety may be located on the right side of the receiver/frame; a wooden stock and forend.
- the receiver/frame and barrel may be engraved.

Action

- lever operated, dropping block design.
- operating lever is located under the trigger guard

Serial Number

- a serial number may be marked on the receiver/frame or barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation may be marked on the barrel.
Other Markings	- if the forearm is removed, the front of the receiver/frame may be marked "PD" or "PI". It is believed that the "PD" was for "Public Domain" which indicated that the patent had expired and was now public property. The "PI" was the "PD" mark in which part of the "D" was improperly stamped. These rifles are known as the "PD Trade Farquharsons" or "PD Farquharsons".
Remarks	- the Farquharson rifle was manufactured by various manufacturers including: - W.J. Jeffery - A. Allen - Thomas Bland & Sons - William Evans - William Ford - W. W. Greener - Alex Henry - Holland & Holland - Alfred B. Hollis - Charles Lancaster - Joseph Lang - Manton & Co. - George Newham - James Purdy - John Rigby & Co. - R. B. Rodda - J. & W. Tolly - Thomas Turner - Watson Bros. - P.Webley & Son - Westley Richards - Continental Makers

Firearm Reference Number (FRN): 15696
Make: Fatou
Model: Flintlock Pistol

Summary

Make:	Fatou
Model:	Flintlock Pistol
Manufacturer:	Fatou
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	FRANCE
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
15696 - 1	65 FLINTLOCK	1	381	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make	- "Fatou" or "Fatou a Paris" is usually marked on the firearm.
Model	- the model is not marked on the firearm; this is a descriptor of the firearm type. - this is a typical-pattern flintlock pistol manufactured by Fatou prior to 1820, usually with a high level of finish, carving, and/or engraving. - features usually include: round or half-octagon/half-round barrel (some Damascus); precious metal inlays; full length walnut stock; engraved back-plate and pommel; cock, frizzen, and pan on the lockplate.
Manufacturer	- "Fatou" or "Fatou a Paris" is usually marked on the firearm. - Fatou (first name not known) was a Paris gunmaker from 1720 to 1820, who was succeeded by his sons (as "Fatou & Fils").
Action	- muzzle-loaded flintlock ignition.
Barrel	- barrel lengths may vary.
Calibre	- calibres may vary.

Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	CZECHOSLOVAKIA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
76652 - 1	12 GA X 2 1/2"	2	750	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "F. FAUKNER & CIE" or "F. FAUKNER A SPOL" may be marked on the side of the receiver/frame.
- "F. FAUKNER & CIE" may be marked on the right barrel.
- "PRAGUE" may be marked on the left barrel.

Model

- model designation is not marked on the firearm.
- manufactured between 1888 and 1926.
- features observed: side by side barrels with bead front sight; front hinged receiver/frame with top tang mounted break open lever with sliding type safety; hammerless; box lock or side lock action; double triggers; checkered wood forearm and straight grip buttstock; blued barrels; engraved and silver finished receiver/frame.

Manufacturer

- "F. FAUKNER & CIE" or "F. FAUKNER A SPOL" may be marked on the side of the receiver/frame.
- "F. FAUKNER & CIE" may be marked on the right barrel.
- "PRAGUE" may be marked on the left barrel.
- Frantisek Faukner was born in 1861 and died in 1928.
- Faukner established a business in Kolin in 1888 and moved to Prague in 1909.
- Faukner's name was used on firearms until the 1950s.

Serial Number

- serial number was observed marked on the watertable and repeated on the bottom of the barrel assembly.

Calibre

- gauge and chamber length may be marked on bottom of barrels.

Other Markings

- Czechoslovakian proof marks will be found on the barrels and on the watertable of the receiver/frame.

129938 - 2	410 GA TEAR GAS	1	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- "Faultless" over "USA" was observed marked on the "pocket-clip".

Model

- model is not marked on the firearm.
- this is a tear-gas gun disguised as a fountain pen.
- these "fountain pen guns" were made by Federal Laboratories prior to World War Two, usually with constricted or partially-blocked barrels to prevent bulleted/shot cartridges from being fired in them.
- they may be see with either "Federal Laboratories" or "Faultless" (a Federal Laboratories trade name) markings, but were all based on Scott Abbott's patent number 1772656 of June 23, 1928.
- loading a cartridge requires unscrewing the barrel, inserting a cartridge, and re-attaching the barrel.
- features include: machined aluminum or brass receiver/frame and barrel assembly; pocket clip; striker assembly consists of a small spring loaded button pulled to the rear; a small detent button protruding through the upper body assembly serves as a trigger; black or blued.
- overall length is 133mm.

Manufacturer

- the "Faultless" Trade Name was owned by "FEDERAL LABORATORIES, INC." of Pittsburgh, Pennsylvania, USA.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- screw-barrel single-shot pistol.
Serial Number	- The serial number is not marked on the firearm.
Other Markings	- "PAT. NO : 1,772,656" is marked on the end of the firearm.

Notes

Make

- "FAUSTI" may be marked on the firearm.

Model

- "ALBION" is marked on the bottom of the receiver/frame.
- features include: blued side solid rib barrels with ventilated top rib, fixed or interchangeable chokes, bead front sight; scroll and game scene engraved chrome plated box lock front hinged receiver/frame; hammerless; manual extractors or automatic ejectors; blued trigger guard, single or double triggers; blued barrel release latch and blued automatic or manual safety/selector are mounted on the upper rear tang; checkered walnut forearm and pistol grip buttstock.
- optional interchangeable barrels available.
- similar to the model Albion SL except this model comes with side locks.
- paradox rifling is available with the Albion Slug version.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "FAUSTI" may be marked on the firearm.
- "MADE IN ITALY" may be marked on the receiver/frame of the firearm.
- "FAUSTI USA, INC" over "FREDERICKSBURG, VA - MADE IN ITALY" may marked on the barrels of the firearm.
- Fausti was founded by Stefano Fausti in Brescia, Italy in 1948.
- Fausti is currently located in Marcheno, V.T., (Brescia) Italy.
- Fausti specializes in making multi-barreled shotguns for hunting, target shooting and competition.
- Fausti family purchased the Emilo Rizzini brand in 1999.
- Emilio Rizzini line is manufactured and distributed by Fausti.
- Fausti was being managed by Stefano Fausti's three daughters, Elena, Giovanna and Barbara in 2010.

Action

- over and under configuration.

Serial Number

- the serial number is marked on the receiver/frame under the break opening lever.

Calibre

- is marked on the barrels.

Notes

Make

- "FAUSTI" is usually marked on the receiver/frame and barrels.

Model

- introduced in 2009.
- "ALBION SL" was observed marked on the side of the receiver/frame.
- features include: bead front sight; blued barrels with ventilated top rib; smooth bores; fixed or interchangeable chokes; scroll and game scene engraved, coin finished receiver/frame with side plates; hammerless; manual extractors or automatic ejectors; blued trigger guard, single or double trigger mechanism; break opening lever and thumb safety/selector are mounted on the upper rear receiver/frame tang; checkered walnut forearm and rounded pistol grip buttstock.
- optional interchangeable barrels.
- deluxe version available on request.

Manufacturer

- "FAUSTI" may be marked on the firearm.
- "MADE IN ITALY" may be marked on the receiver/frame of the firearm.
- "FAUSTI USA, INC" over "FREDERICKSBURG, VA - MADE IN ITALY" may marked on the barrels of the firearm.
- Fausti was founded by Stefano Fausti in Brescia, Italy in 1948.
- Fausti is currently located in Marcheno, V.T., (Brescia) Italy.
- Fausti specializes in making multi-barreled shotguns for hunting, target shooting and competition.
- Fausti family purchased the Emilo Rizzini brand in 1999.
- Emilio Rizzini line is manufactured and distributed by Fausti.
- Fausti was being managed by Stefano Fausti's three daughters, Elena, Giovanna and Barbara in 2010.

Action

- over & under barrel configuration.

Serial Number

- the serial number is usually marked on the upper rear tang of the receiver/frame under the break opening lever.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - may be marked on the barrel assembly.

Notes

Make

- "FAUSTI ITALY" was observed marked on the top right side of the barrel assembly.

Model

- "BRIXIAN" is marked on the right side of the receiver/frame.
- features include: blued barrels with ventilated top rib; fixed or interchangeable chokes; bead front sight; scroll and flower engraved chrome plated box lock front hinged receiver/frame; hammerless; manual extractors or automatic ejectors; chromed trigger guard, single or double triggers; chromed barrel release latch and chromed automatic or manual safety/selector are mounted on the upper rear tang; checkered forearm and straight buttstock.
- also available with accessory barrel sets.
- similar to the model Brixian SL which features a side lock receiver/frame.

Manufacturer

- "FAUSTI" may be marked on the firearm.
- "MADE IN ITALY" may be marked on the receiver/frame of the firearm.
- "FAUSTI USA, INC" over "FREDERICKSBURG, VA - MADE IN ITALY" may marked on the barrels of the firearm.
- Fausti was founded by Stefano Fausti in Brescia, Italy in 1948.
- Fausti is currently located in Marcheno, V.T., (Brescia) Italy.
- Fausti specializes in making multi-barreled shotguns for hunting, target shooting and competition.
- Fausti family purchased the Emilo Rizzini brand in 1999.
- Emilio Rizzini line is manufactured and distributed by Fausti.
- Fausti was being managed by Stefano Fausti's three daughters, Elena, Giovanna and Barbara in 2010.

Action

- over and under configuration.

Serial Number

- serial number is marked on the receiver/frame under the opening lever.
- serial number of an observed example consisted of a letter prefix (B) and five numbers.

Calibre

- calibre designation is marked on the barrels.

Other Markings

- "PATENTED FOUR LOCKS" may be marked on the upper right side of the top barrel.

Notes

Make

- "FAUSTI" was observed marked on both sides of the receiver/frame.

Model

- introduced in 2012.
- "BRIXIAN LX" over "MADE IN ITALY" was observed marked on the underside of the receiver/frame.
- features include: bead front sight; tapered round barrels with top rib; smooth bore; fixed or interchangeable chokes; engraved box lock receiver/frame with or without side plates; thumb safety and break opening lever are located on the upper rear receiver/frame tang; single trigger mechanism; long tanged trigger guard; automatic ejector; checkered walnut semi-pistol grip buttstock and forearm; steel pistol grip cap; factory installed recoil pad; in the white or color case hardened receiver/frame; blued barrels.

Manufacturer

- "FAUSTI" was observed marked on both sides of the receiver/frame.
- "FAUSTI" followed by "BRESCIA" was observed marked on the left side of the top barrel.
- "MADE IN ITALY" was observed marked on the underside of the receiver/frame forward of the trigger guard.
- Fausti was founded by Stefano Fausti in Brescia, Italy in 1948.
- Fausti is currently located in Marcheno, V.T., (Brescia) Italy.
- Fausti specializes in making multi-barreled shotguns for hunting, target shooting and competition.
- Fausti family purchased the Emilo Rizzini brand in 1999.
- Emilio Rizzini line is manufactured and distributed by Fausti.
- Fausti was being managed by Stefano Fausti's three daughters, Elena, Giovanna and Barbara in 2010.

Action

- over & under barrel configuration.

Serial Number

- serial number observed marked on the upper rear receiver/frame tang under the break opening lever.
- observed serial number consisted of a letter prefix followed by five numbers.

Calibre

- may be marked on the barrel assembly.
