Notes

Make

- "J.S.L." over "HEREFORD" over "ENGLAND" is marked on the left side of the receiver/frame.
- "J.S.L." is the abbreviation for John Slough Limited.

Model

- "SPITFIRE 9MM MK II" is marked on the slide.

Manufacturer

- "J.S.L." over "HEREFORD" over "ENGLAND" is marked on the left side of the receiver/frame.
- "J.S.L." is the abbreviation for John Slough Limited.
- John Slough Limited (JSL) was an imported and distributed of the ITM model AT84 pistol in the 1980's.
- John Slough redesigned the "CZ75" pistol in response to British military desires and produced it as the "Spitfire".
- Spitfire has reportedly been adopted by various police agencies but not on a large scale.

Action

- recoil operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of six numbers without a letter prefix or suffix.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - calibre and British proof marks may be marked on the barrel, visible through the ejection port.

Notes

Make

- "JTS" is marked on the firearm in various places.
- The company logo is marked on the firearm.
- The company logo consists of the letters "TJS" inside of a shield-shaped outline.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "AIRACUDA MAX" is marked on the right side of the receiver/frame. - Features include: barrel shroud; quick-disconnect fill fitting under barrel; reservoir pressure gauge and regulator pressure gauge on the underside of the receiver; manual safety in front of the trigger; right side cocking lever.
Manufacturer	- "JTS GROUP" is marked on the left side of the receiver/frame.
Action	- Pre charged pneumatic.
Serial Number	- The serial number is marked on the right side of the receiver/frame. - Serial number of referenced example consisted of sixteen digits.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the right side of the receiver/frame.
Shots	- Detachable rotary disc magazine.
Canadian Law Comments	- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. - This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Notes

Make

- barrel usually marked with "Spain" or "Made in Spain" and "JUKAR"

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of an "English belt pistol", popular during the 1700s and 1800's; versions were made with both flintlock and percussion ignition systems.
- features include: walnut bird's-head grip stock; engraved or plain, colour-case-hardened lock-plate; brass trigger-guard; blued octagonal barrel; fixed sights; steel ramrod.
- may be supplied with a brass belt "hook" mounted on the left side lock screw.

Manufacturer

- barrel usually marked with "Spain" or "Made in Spain" and "JUKAR".
- Jukar was a manufacturer located in Eibar, Spain.

Action

- percussion or flintlock ignition.

Notes

Make

- stamped on the barrel.

Model

- model designation not marked on the firearm.
- this is a black powder muzzleloading reproduction of the Kentucky rifle.
- the Kentucky rifle was America's first great contribution to firearms technology, this type of rifle was born in the 1750's, and was developed by various gunsmiths.
- features may include:
- octagonal barrel.
- blade front and "V" notch rear sights.
- crescent shaped butt plate.
- patchbox located in the buttstock.
- full, or half length stock.
- cheekpiece is usually standard.
- patchbox, lock plate, and butt plate, usually made of brass or case hardened steel.

Manufacturer

- Jukar was a manufacturer located in Eibar, Spain

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the side of the barrel.
Other Markings	- Made in Spain appears on barrel as do Spanish proof marks.

Notes

Make

- barrel usually marked with "Spain" or "Made in Spain" and "JUKAR".

Model

- this is a reproduction based on the Henry Deringer percussion pistol made between 1830 and 1870. The use of a Deringer pistol to assassinate President Abraham Lincoln led to small pocket type percussion pistols becoming known collectively as a "Deringer" or "Philadelphia Deringer" in reference to the city where Henry Deringer produced his firearms (markings on the original included Deringer's name and "Philadelphia" in abbreviated form). Over the years the spelling was sometimes changed to "Derringer".
- "DERRINGER " over "PHILADELPHIA" is marked on the right side plate.
- features include: checkered walnut bird's head grip stock; engraved lock plate and brass wedge holder; round or octagonal barrel; blued finish.
- also available as a kit, as such variations in finish and features may vary.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Jukar was a manufacturer based in Eibar, Spain.
Action	- muzzle loading percussion pistol.
Serial Number	- serial number is located on the left side of the barrel and may consist of six numbers.
Calibre	- calibre is not marked on the firearm.

Notes

Make

- "JR" in a larger "C" logo was observed marked on the left side of the receiver/frame.
- "JUST RIGHT CARBINES" over "CANANDAIGUA, NY" over "XLI CORPORATION" over "ROCHESTER, NY" was observed marked on the right side of the receiver/frame.

Model

- introduced in 2010.
- "MODEL JR CARBINE" was observed marked on the left side of the receiver/frame.
- "MULTI-CALIBER" was observed marked on the left side of the receiver/frame.
- JR Carbine is distributed by Early & Modern Firearms (EMF) in the U.S.A.
- JR Carbine uses a split receiver/frame design.
- JR Carbine is not of the design commonly known as the AR15/M-16 rifle, and any variant or modified version of it.
- features include: no sights; lightweight Mossberg Tri-Flatted barrel; flat top aluminum receiver/frame with integral Picatinny rail, ambidextrous bolt charging handle, ejector, and ejector port, and collapsible buttstock; removable lower frame with magazine well, magazine release, AR15/M4 rifle type trigger group, and synthetic pistol grip; synthetic AR15/M4 type hand guard, pistol grip and telescoping buttstock; black finish.
- other custom features include calibre/barrel/magazine type etc.
- overall length with a 413 mm (16 1/4") barrel and the buttstock in the collapsed position is 768 mm (30 1/4") and in the extended position is 851 mm (33 1/2").

Manufacturer

- "JR" in a larger "C" logo was observed marked on the left side of the receiver/frame.
- "JUST RIGHT CARBINES" over "CANANDAIGUA, NY" over "XLI CORPORATION" over "ROCHESTER, NY" was observed marked on the right side of the receiver/frame.

Action

- blowback operated.

Serial Number

- serial number rationalization is unknown.
- serial number was observed marked on the left side of the receiver/frame.
- observed serial number consisted of a two letter "JR" prefix and six numbers.
- observed serial number consisted of a four letter "JRCP" prefix and six numbers.
- observed serial number consisted of a four letter "JRCV" prefix and six numbers.

Calibre

- "MULTI-CALIBER" was observed marked on the left side of the receiver/frame.
- "G-9MM" was observed marked on the left side of the receiver/frame.
- "9MM PARA" was observed marked on the right side of the barrel.

Shots

- detachable box magazine.
- supplied with Glock pistol magazines.

Notes

Make

-"K-Mart Corporation, Troy, Michigan" is marked on top of the chamber.
- K-Mart of the United States contracted with CBC of Brazil to produce these firearms for U.S. sales.

Model

- "MOD 151" is usually marked on underside of receiver/frame in front of trigger guard.
- features include: round tapered barrel with bead front sight; front hinged receiver/frame; action release button at the front of the trigger guard; ejector; exposed spur hammer; single action trigger mechanism; plastic trigger guard; walnut finished Brazilian hardwood tapered forearm and pistol grip buttstock.

Manufacturer

- "CBC", "Made in Brazil", "Made in Brazil by CBC", "Made in Brazil" and "By Companhia Brasileira de Cartuchos" or "Made in Brazil", "By Companhia Brasileira de Cartuchos" and "S.Andre-Est. S.Paulo" may be marked on the receiver/frame or barrel.
- "CBC" is the acronym for Companhia Brasileira de Cartuchos.
- Companhia Brasileira de Cartuchos (CBC) is a Brazilian company that primarily produces ammunition but they also manufacture airguns, revolvers, break open shotguns and double rifles under their own name and contracted "house brand" firearms.

Action

- hinged barrel design.

Serial Number

- marked on underside of receiver/frame, in front of the model designation and may be repeated on the barrel lug.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - the calibre designation is marked on the barrel.

Notes

Make

- "K MART CANADA LIMITED/LIMITEE" over "TORONTO CANADA M5B - 1L3" was observed marked on the left side of the barrel.
- "K Mart Canada Limited/Limitee" was located in Toronto, Ontario, Canada.

Model

- "Semi-Automatic" is not marked on the firearm.
- "Semi-Automatic" is in reference to the action type.
- this model resembles a "Squibman or Squires Bingham model M20" semi-automatic 22 calibre rifle.
- features include: ramped front sight and an adjustable open rear sight; round tapered barrel; round receiver/frame with a rounded end cap; sheet metal cartridge case deflector on the right side of the receiver/frame over the ejection port; right side cocking handle; magazine release lever is mounted on the rear of the magazine well; one piece checkered wood semi-pistol grip with pistol grip cap and buttplate with white spacers; blue finish.

Action

- blowback operated.

Serial Number

- serial number was observed marked on the right side of the receiver/frame.
- serial number observed consisted of the number "23", a dash (-), and six numbers.

- Note: "M5B - 1L3" marked on the left side of the barrel is a Canadian Postal Code and not a serial number.

Calibre

- calibre is marked on the left side of the barrel.

Shots

- detachable box magazine.

Notes

Make

- "KAHR" was observed marked on the left side of the slide.
- "KAHR ARMS" over "WORCESTER, MA" was observed marked on the left side of the receiver/frame above the trigger.
- "K" within a circle, the Kahr Arms logo was observed marked on both sides of the grip.

Model

- introduced in 2013.
- "CW 380" was observed marked on the left side of the slide.
- features include: blade front sight and a drift adjustable square notch rear sight with white dots; round barrel; matte stainless steel slide with rear gripping serrations; black polymer receiver/frame with metal inserts and cross hatch serrations molded on the front and back of the grip; double action only (DAO) trigger mechanism; striker fired; slide release lever and magazine release button are mounted on the left side of the receiver/frame.
- overall length with a 66 mm (2.58") barrel is 124.5 mm (4.9"), and the average weight is 0.29 kg (10.2 oz).

Manufacturer

- "KAHR" was observed marked on the left side of the slide.
- "KAHR ARMS" over "WORCESTER, MA" was observed marked on the left side of the receiver/frame above the trigger.
- "K" within a circle, the Kahr Arms logo was observed marked on both sides of the grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- serial number was observed marked on a metal insert on the left side of the receiver/frame.
Calibre	- calibre was observed marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine. - available with a six (6) round stainless steel magazine with a flush base plate. - available with a seven (7) round stainless steel magazine with a grip extension.

Notes

Make

- "KAHR" was observed marked on the left side of the slide.
- "KAHR ARMS" over "WORCESTER, MA" was observed marked on the left side of the receiver/frame above the trigger.
- "K" within a circle, the Kahr Arms logo was observed marked on both sides of the grip.

Model

- introduced in 2008.
- "CW 40" was observed marked on the left side of the slide.
- "CW40" is similar to the "P" series Kahr pistols except for conventional rifling (in-lieu of polygonal match grade rifling standard on "P" series), simpler sights system and fewer machining operation on the slide exterior.
- features include: blade front sight and a square notch rear sight with white dots; round barrel; matte stainless steel slide with rear gripping serrations; black polymer receiver/frame with cross hatch serrations moulded on the front and back of the grip; double action only (DAO) trigger mechanism; striker fired.
- overall length with a 91 mm barrel is 162 mm (6.36"), and the average weight is 0.48 kg (1.05 lbs).

Manufacturer

- "KAHR" was observed marked on the left side of the slide.
- "KAHR ARMS" over "WORCESTER, MA" was observed marked on the left side of the receiver/frame above the trigger.
- "K" within a circle, the Kahr Arms logo was observed marked on both sides of the grip.

Action

- recoil operated.

Calibre

- rifling characteristics: 1 turn in 406mm (16") right hand twist.

Shots

- detachable box magazine.
- available with a six (6) round stainless steel magazine with a flush base plate.
- available with a seven (7) round stainless steel magazine with a grip extension.

- "KAHR" was observed marked on the left side of the slide.
- "KAHR ARMS" over "WORCESTER, MA" was observed marked on the left side of the receiver/frame above the trigger.
- "K" within a circle is the Kahr Arms logo.

Model

- "K9" is marked on the slide.
- manufactured from 1997 to 1999.
- "K9 Lady" is similar to the K9, but with a lightened recoil spring.
- available in matte black, electroless nickel or matte stainless finishes.
- wraparound soft polymer (or exotic wood, optional) hand grips.
- low profile white bar-dot sights (or optional tritium night sights)

Manufacturer

- "KAHR" was observed marked on the left side of the slide.
- "KAHR ARMS" over "WORCESTER, MA" was observed marked on the left side of the receiver/frame above the trigger.
- "K" within a circle is the Kahr Arms logo.

Action

- recoil operated.

Serial Number

- serial number of 2 letter and 4 digits is located on right hand side of the frame just above the trigger guard.

Calibre

- located on right hand side of the frame just above the trigger guard.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- available with a seven (7) round stainless steel magazine with a flush base plate.
- available with a eight (8) round stainless steel magazine with a grip extension.

Notes

Make

- "KAHR" was observed marked on the left side of the slide.
- "KAHR ARMS" over "WORCESTER, MA" was observed marked on the left side of the receiver/frame above the trigger.
- "K" within a circle, the Kahr Arms logo was observed marked on both sides of the grip.

Model

- "P9" was observed marked on the left side of the slide.
- introduced in 1999.
- second generation introduced in 2016.
- "P9" is a variation of the Kahr K9 with a receiver/frame molded out of polymer.
- features include: matte stainless or matte black steel slide; fixed high-visibility or Tritium night sights; double action only trigger pull; polymer receiver/frame with or without an accessory rail; receiver/frame mounted slide release and magazine button on the left side.
- overall length with a 89mm (3.5") barrel is 152mm (6") , average weight is 0.4kg (0.94lbs).
- available with a loaded chamber indicator (LCI) and external safety.
- also available in a red or orange training version.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "KAHR" was observed marked on the left side of the slide. - "KAHR ARMS" over "WORCESTER, MA" was observed marked on the left side of the receiver/frame above the trigger. - "K" within a circle, the Kahr Arms logo was observed marked on both sides of the grip.
Action	- recoil-operated.
Serial Number	- serial number was observed marked on a metal insert on the underside of the receiver/frame. - observed serial number had a letter "YA" prefix and four numbers.
Barrel	- longer barrels (102MM) will usually have an integral compensator.
Calibre	- calibre was observed marked on the barrel, visible through the ejection port. - rifling characteristics: polygonal rifling right hand twist 1 turn in 254mm.
Shots	- detachable box magazine. - available with a seven (7) round stainless steel magazine with a flush base plate. - available with a eight (8) round stainless steel magazine with a grip extension.

Notes

Make

- "KAHR" was observed marked on the left side of the slide.
- "KAHR ARMS" over "WORCESTER, MA" was observed marked on the left side of the receiver/frame above the trigger.
- "K" within a circle, the Kahr Arms logo was observed marked on both sides of the grip.

Model

- "TP40" was observed marked on the left side of the slide.
- introduced in 2006.
- "TP40" is similar to the model T40 except for a polymer receiver/frame.
- features include: black polymer receiver/frame with integral textured grip panels featuring the Kahr Arms logo (a stylized "K" in a circle); matte stainless steel slide with cocking serration; trigger cocking Double Action Only (DAO) with a passive striker block; polygonal rifling; MMC elevation adjustable rear 3-dot sights or tritium front sight with a Novak low profile 2-dot tritium rear sight.
- overall length with a 102mm barrel is 170mm, average weight is 535grams.

Manufacturer

- "KAHR" was observed marked on the left side of the slide.
- "KAHR ARMS" over "WORCESTER, MA" was observed marked on the left side of the receiver/frame above the trigger.
- "K" within a circle, the Kahr Arms logo was observed marked on both sides of the grip.

Action

- recoil operated.

Serial Number

- serial number is usually marked on a metal strip imbedded in the underside of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- rifling characteristics; polygonal rifling, 1 turn in 406mm, right hand twist.
Shots	- detachable box magazine.

127344 - 2	7.62X39 RUSSIAN	30	415	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- the model name is not marked on the firearm.
- this is a Romanian version of the Soviel AK and the predessesor to the Romanian AIM (AKM based model).
- production started circa 1960's.
- features include: gas operated, stamped steel receiver/frame, selective fire trigger mechanism utilizing a detachable box magazine; may be found with various stock or furniture variations.
- most notable feature differing from the AIM model is the lack of forestock which had an intergral pistol grip; selector/safety lever mounted on right of the receiver/frame; receiver/frame is marked on the right side with the letters "FA" for full-automatic and "FF" for semi-automatic; a cleaning rod is usually mounted below the barrel; blued finish.

Manufacturer

- manufacturer is not marked on the firearm.
- observed examples have been marked with an arrow in a triangle on the left side of the receiver/frame ahead of a date/serial number group.

Action

- gas operated.
- to select full automatic, contrary to Western design conventions, the selector lever is set to the middle of three positions, arranged from top to bottom: safe, full-automatic and semi-automatic.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is usually marked on the front left side of the receiver/frame. - serial number may consist of a four digit number with a two letter prefix and is usually preceeded by the year of manufacture.
Shots	- detachable box magazine.
Other Markings	- date of manufacture may be marked on the left side of the receiver/frame.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- the model name is not marked on the firearm.
- this is a version of the Russian AKM manufactured by Soviet-client states.
- production started circa late 1960's.
- features; gas operated, stamped steel receiver/frame, selective fire trigger mechanism utilizing a detachable box magazine; may be found with various stock or furniture variations however the most notable version was the laminated wooden stock and forestock which had an intergral pistol grip; selector/safety lever mounted on right of the receiver/frame; receiver/frame is marked on the right side with the letters "FA" for full-automatic and "FF" for semi-automatic; a cleaning rod is usually mounted below the barrel; blued finish.

Manufacturer

- manufacturer is not marked on the firearm.
- observed examples have been marked with an arrow in a triangle on the left side of the receiver/frame ahead of a date/serial number group.

Action

- gas operated.
- to select full automatic, contrary to Western design conventions, the selector lever is set to the middle of three positions, arranged from top to bottom: safe, full-automatic and semi-automatic.

Serial Number

- serial number is marked on the front left side of the receiver/frame.
- observed examples have had a four digit number with a two letter prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Other Markings - date of manufacture may be marked on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the left side of the receiver/frame.

Shots

- detachable box magazine.

Remarks

- variations of the AK-100 Series of rifles are:
AK-101 - 5.56MM NATO. Barrel length, 415mm.
AK-102 - 5.56MM NATO. Barrel length, 314mm.
AK-103 - 7.62X39 RUSSIAN. Barrel length, 415mm.
AK-104 - 7.62X39 RUSSIAN. Barrel length, 314mm.
AK-105 - 5.45X39 RUSSIAN. Barrel length, 314mm.
AK-107 - 5.45X39 RUSSIAN. Barrel length, 415mm.
AK-108 - 5.56MM NATO. Barrel length, 415mm.
- the AK102, 104 and 105 are basically the same firearm with 314mm barrels, each in a different calibre. The steel cover on the gas chamber extends to the front sight. Cyclic rate is 600rpm.
- the AK101 and 103 have 415mm barrels, each in a different calibre. The steel cover on the gas chamber does not extend to the front sight. Cyclic rate is 600rpm.
- the AK107 and 108 are visually the same as the AK101 and 103. Visually the differences are minor. On the AK107 and 108, the steel cover on the gas chamber extends to the front sight. Internally the AK107 and 108 have a counter balanced synchronizer with a six-gear sprocket that are attached to the upper rail. Cyclic rate varies from 850 to 900rpm.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- model designation may not be marked on the firearm.
- "AK" designation refers to "Avtomat Kalashnikova".
- this is one of the models within the Kalashnikov "Hundred Series" of Assault Rifles made by Izmash.
- "100" refers to an old code designation for Izmash, and the last digit refers to features found on the firearm.
- the "100 Series/Hundred Series" was introduced in 1993.
- features include: black phosphate finish on the receiver/frame and metal components; a steel cover on the gas chamber which does not extend to the front sight; the gas tube is above the barrel; the fire selector lever is located on the right side of the receiver/frame; the magazine release is located in front of the trigger guard; an adjustable rear sight located above the rear portion of the barrel; fixed front sight; a flash deflector which screws onto the barrel; a black plastic folding stock, forend and pistol grip.

Manufacturer

- the manufacturer may be marked with a small factory logo and factory number on the forward left side of the receiver/frame.

Action

- no longer capable of full automatic fire.

Serial Number

- the serial number is marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- barrel measurement does not include flash hider.
Calibre	- the calibre designation is normally marked on the left side of the receiver/frame.
Shots	- detachable box magazine.
Remarks	- variations of the AK-100 Series of rifles are: AK-101 - 5.56MM NATO. Barrel length, 415mm. AK-102 - 5.56MM NATO. Barrel length, 314mm. AK-103 - 7.62X39 RUSSIAN. Barrel length, 415mm. Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalashnikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalashnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalashnikov is used as the make for military versions of this firearm.

Model

- model designation may not be marked on the firearm.
- "AK" designation refers to "Avtomat Kalashnikova".
- this is one of the models within the Kalashnikov "Hundred Series" of Assault Rifles made by Izmash.
- "100" refers to an old code designation for Izmash, and the last digit refers to features found on the firearm.
- the "100 Series/Hundred Series" was introduced in 1993.
- the un-ribbed body-cover is attached by a front extension engaging under the front sight base, the rear by a frame-mounted "button" that protrudes through the rear of the cover (not the rear of the recoil spring guide as on the AK47).
- the robust square over-barrel tube (looks like a "gas-tube") is a housing for opposed dual-piston counter-recoil mechanism comprising the bolt-carrier connecting rod, upper counter-recoil rail with related springs; and the six toothed sprocket-wheel that synchronizes the motion of the lower gas-piston/bolt system to the upper gas-piston/connecting rod assembly.
- muzzle-brake/flash suppressor, tangent rear-sight and protected post front-sight, darkened matte over-all finish.
- moulded dark synthetic forestock, top-stock, pistol-grip, and butt-stock (fixed or folding).

Manufacturer

- usually marked with a small factory logo and factory number on the forward left side of the receiver/frame, often under the receiver cover.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked usually on the forward left side of the receiver/frame.
Calibre	- NOTE: the model AK-107 is only available chambered for 5.45 X 39 ammunition. - the model AK-108 is only available chambered for 5.56 NATO ammunition.
Shots	- detachable box magazine.
Remarks	- variations of the AK-100 Series of rifles are: AK-101 - 5.56MM NATO. Barrel length, 415mm. AK-102 - 5.56MM NATO. Barrel length, 314mm. AK-103 - 7.62X39 RUSSIAN. Barrel length, 415mm. AK-104 - 7.62X39 RUSSIAN. Barrel length, 314mm. AK-105 - 5.45X39 RUSSIAN. Barrel length, 314mm. AK-107 - 5.45X39 RUSSIAN. Barrel length, 415mm. AK-108 - 5.56MM NATO. Barrel length, 415mm. - the AK102, 104 and 105 are basically the same firearm with 314mm barrels, each in a different calibre. The steel cover on the gas chamber extends to the front sight. Cyclic rate is 600rpm. - the AK101 and 103 have 415mm barrels, each in a different calibre. The steel cover on the gas chamber does not extend to the front sight. Cyclic rate is 600rpm. - the AK107 and 108 are visually the same as the AK101 and 103. Visually the differences are minor. On the AK107 and 108, the steel cover on the gas chamber extends to the front sight. Internally the AK107 and 108 have a counter balanced synchronizer with a six-gear sprocket that are attached to the upper rail. Cyclic rate varies from 850 to 900rpm.

FRT Report

Firearm Reference Number (FRN): 57181
Make: Kalashnikov
Model: AK-107

Summary

Make:	Kalashnikov
Model:	AK-107
Manufacturer:	Izhevsky Mashinostroitely Zavod (Izhmash)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
57181 - 2	5.45X39 RUSSIAN	5	415	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
57181 - 1	5.45X39 RUSSIAN	30	415	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalashnikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalashnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalashnikov is used as the make for military versions of this firearm.

Model

- model designation may not be marked on the firearm.
- "AK" designation refers to "Avtomat Kalashnikova".
- this is one of the models within the Kalashnikov "Hundred Series" of Assault Rifles made by Izmash.
- "100" refers to an old code designation for Izmash, and the last digit refers to features found on the firearm.
- the "100 Series/Hundred Series" was introduced in 1993.
- the un-ribbed body-cover is attached by a front extension engaging under the front sight base, the rear by a frame-mounted "button" that protrudes through the rear of the cover (not the rear of the recoil spring guide as on the AK47).
- the robust square over-barrel tube (looks like a "gas-tube") is a housing for opposed dual-piston counter-recoil mechanism comprising the bolt-carrier connecting rod, upper counter-recoil rail with related springs; and the six toothed sprocket-wheel that synchronizes the motion of the lower gas-piston/bolt system to the upper gas-piston/connecting rod assembly.
- a four position change lever: safe, single round, three-shot burst, full-automatic.
- muzzle-brake/flash suppressor, tangent rear-sight and protected post front-sight, darkened matte over-all finish.
- moulded dark synthetic forestock, top-stock, pistol-grip, and butt-stock (fixed or folding).

Manufacturer

- usually marked with a small factory logo and factory number on the forward left side of the receiver/frame, often under the receiver cover.

Action

- selective fire, locked breech, rotating bolt, gas operation.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked usually on the forward left side of the receiver/frame.
Calibre	- NOTE: the model AK-107 is only available chambered for 5.45 X 39 ammunition. - the model AK-108 is only available chambered for 5.56 NATO ammunition.
Shots	- detachable box magazine.
Remarks	- variations of the AK-100 Series of rifles are: AK-101 - 5.56MM NATO. Barrel length, 415mm. AK-102 - 5.56MM NATO. Barrel length, 314mm. AK-103 - 7.62X39 RUSSIAN. Barrel length, 415mm. AK-104 - 7.62X39 RUSSIAN. Barrel length, 314mm. AK-105 - 5.45X39 RUSSIAN. Barrel length, 314mm. AK-107 - 5.45X39 RUSSIAN. Barrel length, 415mm. AK-108 - 5.56MM NATO. Barrel length, 415mm. - the AK102, 104 and 105 are basically the same firearm with 314mm barrels, each in a different calibre. The steel cover on the gas chamber extends to the front sight. Cyclic rate is 600rpm. - the AK101 and 103 have 415mm barrels, each in a different calibre. The steel cover on the gas chamber does not extend to the front sight. Cyclic rate is 600rpm. - the AK107 and 108 are visually the same as the AK101 and 103. Visually the differences are minor. On the AK107 and 108, the steel cover on the gas chamber extends to the front sight. Internally the AK107 and 108 have a counter balanced synchronizer with a six-gear sprocket that are attached to the upper rail. Cyclic rate varies from 850 to 900rpm.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- model designation not marked on firearm.
- model was accepted by the Russian Military and designated as AK47 (Avtomat Kalishnikov 1947) in 1949.
- total production of AK47 type firearms exceeds 35 million.
- adopted by several communist bloc countries, several of which manufacture their own variant of this design.
- uses a machined steel receiver/frame, available with a fixed or under folding stock.
- a modernized version with a stamped steel receiver known as the "AKM" was also produced.

Manufacturer

- manufacturer's logo consisting of an arrow within a triangle or an arrow within a triangle within a circle is marked on the receiver/frame.

Action

- gas operated.

Serial Number

- serial number is usually located on left side of the receiver/frame

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel - barrel measurement does not include the flash hider.

Shots - detachable box magazine.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- this firearm is a converted AK-47.
- the conversion appears to have been done by adapting an AK milled/forged receiver to become a 22 calibre training rifle, by the addition of an appropriate barrel and blow-back breech mechanism.
- it is not possible to tell exactly where or when this conversion took place and it cannot safely be presumed that that the firearm was adapted/manufactured or re-manufactured at the factory which manufactured of the receiver/frame.
- this firearm does have a "dummy" gas tube to closely resemble the parent AK-47 firearm.

Manufacturer

- manufacturer's logo is marked on the receiver/frame.
- "Bulgarian State Arsenal, Factory 10" is identified by a "10" in a double circle logo.
- "Bulgarian State Arsenal" logo is marked on the left side of the receiver/frame.
- "Bulgarian Artillery Arsenal" was originally established in Rousse, Bulgaria circa 1878 for the Bulgarian Army.
- "Artillery Arsenal" was transferred to Sofia and became the "Sofia Artillery Arsenal" in 1891.
- "Sofia Artillery Arsenal" was moved to Kazanlak in 1924 and became the "State Military Factory".
- "State Military Factory" in Kazanlak, Bulgaria was given the code name "Factory 10" in 1948.
- "Factory 10" started production of assault rifles circa 1958.
- "Factory 10" was renamed the "United Industrial Plant Friedrich Engles" circa 1964.
- "United Industrial Plant Friedrich Engles" was known as "F. Engles Machine Building Plant" from 1977 to 1987.
- "Arsenal/Arsenal Limited/Arsenal JSCo/Arsenal 2000 JSCo" was established in 1987.
- "Arsenal 2000 JSCo "also uses the logo of a "10" in a double circle.
- "Arsenal 2000 JSCo "was privatized in 2011.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- no longer capable of full automatic fire.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number rationalization unknown. - one specimen reported revealed the following information: full year prefix 1960 followed by two letters followed by three digits.
Barrel	- barrel measurements do not include flash hider.
Shots	- detachable box magazine.
Remarks	- this firearm was manufactured by the Bulgarian State Arsenals during the 1970's for export sales to Canada and other trading partners. - it replicates the weight and appearance of the larger calibre firearm that it imitates and the automatic fire capability was included to train personnel in the use of this feature for transition to the parent firearm.

FRT Report

Firearm Reference Number (FRN): 111856
Make: Kalashnikov
Model: AKKM

Summary

Make:	Kalashnikov
Model:	AKKM
Manufacturer:	Bulgarian State Arsenal, Factory 10
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	BULGARIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
111856 - 1	7.62X39 RUSSIAN	5	415	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
111856 - 2	7.62X39 RUSSIAN	30	415	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- model designation is not marked on firearm, "AKKM" denotes "Avtomaticheskiy Karabin Kalashnikova Modernizirovanniya".
- this is a Bulgarian variant of the Russian AKM.
- features include: a stamped steel receiver/frame, available with a fixed wooden or under folding metal buttstock; open sights; detachable curved box magazine; sling swivels mounted to left side of frame/receiver and barrel by the gas port.
- manufacture began in the early 1970s.
- an earlier version with a machined steel receiver/frame known as the "AKK" was also produced.

Manufacturer

- manufacturer's logo will normally appear on the receiver/frame as "10" inside two concentric circles.

Action

- gas operated.

Serial Number

- usually located on left side of receiver/frame, may include cyrillic characters.

Barrel

- barrel measurement does not include flash hider.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Remarks - this firearm may be equipped with a 40mm grenade launcher and auxilliary sights.

Notes

Make

- the make is not marked on the firearm.

Model

- the model is not marked on the firearm.
- this is an Albanian-produced domestic copy of the Chinese Type 56 Kalashnikov AKM, produced at a factory that was given to Albania by Communist China. These rifles have been produced in three basic variations; 1) a short-barreled Type 56 style, with folding bayonet; 2) a long-barreled grenade-launching version without a gas cut-off at the gas block; and 3) an even longer-barreled grenade-launching version with a gas cut-off at the gas block.
- features include: standard Kalashnikov layout; blued finish; stamped and folded AKM receiver with markings reading "A" for automatic and "1" for semi-automatic; the short-barreled rifle is fitted with a Type 56-style folding spike bayonet; open adjustable sights; wooden forearm, handguard, pistol-grip, and buttstock; and safety/selector lever on the right side of the receiver. The grenade-launching versions of this rifle are seen in two variations, both of which have the top cover hinged to the trunnion to prevent the top cover from jumping off the rifle when firing rifle grenades, and the rear sight moved from the trunnion to the top cover to lengthen the sight radius. The original grenade-launching version has no gas cut-off mechanism (which allows the bolt carrier to slam to the rear unnecessarily), while the final grenade-launching version has a gas cut-off built into the right side of the gas block. Both of the grenade-launching versions of this rifle have a larger-diameter tube slipped over and threaded onto a longer barrel, while the final version has a spring steel wire clip mounted on the front sight block to prevent a grenade from accidentally slipping off if the rifle is canted forward while a grenade is in place.

Manufacturer

- the manufacturer is not marked on the firearm.
- the Gramsh Mechanical Factory was established near the town of Gramsh in 1962, after being shipped entirely from China.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas-operated, selective-fire.
Serial Number	- numbered on the receiver/frame, appended with the year of production (ie. "-91" signifies production in 1991).
Shots	- detachable box magazine.

45285 - 2	7.62X39 RUSSIAN	30	414	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- version of the AKM manufactured by Soviet-client states.
- may be found with various stock or furniture variations.
- selector/safety lever mounted on right of receiver/frame.
- full automatic position marked with a horizontally stamped arabic numeral "8", indicating infinity, or full-automatic mode.
- cleaning rod normally seen mounted below the barrel.
- recent importations may have importer's marks stamped or electro-pencilled on the receiver/frame.

Type

- rotating bolt, gas operated.

Action

- no longer capable of full automatic fire.

Serial Number

- normally on left side of receiver/frame.
- usually on metal barrel-mounting block riveted into the sheet metal body.
- may include letter prefixes.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- not marked on firearm.
- markings may be added by importer/distributor.

Shots

- detachable box magazine.
- may also mount drum magazines originally designed for the RPK.
- magazines may be of sheet-metal construction or of sybthetic; most common synthetic issue version being orange in colour.

Other Markings

- factory markings may be present, as well as year of manufacture.

Remarks

- a modernized version of the AK47, it entered production in 1959.
- it replaced the forged steel receiver of the AK47 with a stamped and pressed steel receiver employing simplified construction and material requirements.
- the AKM series of weapons have several visual distinguishing characteristics which set it apart from the standard AK47.
- the main differences are:
- small recess in each side of the receiver is located centrally over the magazine to serve as a guide for magazine loading/unloading.
- the lower handguard may be grooved, or in the case of the Hungarian or Rumanian versions replaced by a metal cover and plastic handgrip, or fitted with a wooden forend/handgrip unit.
- the receiver cover has stamped, transverse (perpendicular to the bore) ribs.
- the four gas escape holes on each side of the gas cylinder are not present (however, AK47 gas-cylinder assemblies may be found mounted as these parts are generally interchangeable).
- the rear sight arrangement is graduated to 1000m instead of 800m, except in the case of certain Hungarian variants.
- a small compensator is fitted to the muzzle (this compensator is of an angled-cut configuration).
- the wide production, proliferation, and supply of this weapon to various groups and nations worldwide means that numerous variances in furniture, finish, markings, accessories, etc may be encountered.
- stock configurations may include folding buttstocks of skeleton style, mono-tube construction, underfolders, side folders, etc.
- grip profiles for forearm or pistol grips may also differ between national arsenals.

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for full automatic versions of this firearm.

Model

- model designation is not marked on the firearm.
- this is a copy of an AKM.
- this firearm may have been manufactured by an unidentified manufacturing company using new parts, or this firearm may have been manufactured by an individual or organization using an AKM receiver template, and a sheet metal plate which is folded into a receiver/frame. This AKM copy is assembled using the AKM type receiver/frame and components from a parts kit.
- features usually include: adjustable sights; round rifled barrel with or without a flash hider; gas piston system is mounted above the barrel; rectangular sheet metal receiver/frame with a sheet metal dust cover; right side ejection; safety/selector is mounted on the right side of the receiver/frame; magazine release lever is mounted behind the magazine well; synthetic or wood forearm and pistol grip; available with or without a metal, synthetic, or wood fixed or folding buttstock; matte black finish.
- available with or without accessory equipment rails.

Action

- gas operated, selective fire.

Serial Number

- serial number is usually marked on the left side of the barrel trunnion.

Shots

- detachable drum or box magazine.

198380 - 2	7.62X39 RUSSIAN	30	415	Prohibited PFR, Part 1, para. 64	Non-Commercial Customization	

Notes

Make

- The make is not marked on the firearm.
- "Kalasknikov" as a make is in reference to the designer's last name, "Mikhail Timofeyevich Kalishnikov" of the "Automat Kalasnikova obrazets 1947" (AK47) assault rifle.

Model

- The model designation is not marked on the firearm.
- This is a copy of an AKM.
- This firearm may have been manufactured by an unidentified manufacturing company using new parts, or this firearm may have been manufactured by an individual or organization using an AKM receiver template, and a sheet metal plate which is folded into a receiver/frame. This AKM copy is assembled using the AKM type receiver/frame and components from a parts kit.
- Features usually include: gas piston system is mounted above the barrel; rectangular sheet metal receiver/frame with a sheet metal dust cover; safety/selector lever is located on the right side of the receiver/frame and is also acting as a dust cover for the cocking handle opening; magazine release lever is mounted in front of the trigger guard; available with or without accessory equipment rails or optic rail on the left side of the receiver/frame.

Action

- Gas operated.

Serial Number

- Serial number is usually marked on the left side of the barrel trunnion.

Calibre

- The calibre designation is not marked on the firearm.

Shots

- Detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- "AKM" copy country of origin of a parts kit can sometime be identified by the combination of characteristics and a letter on some of the parts i.e.; rear sight, action cover, bolt and carrier.
It has been observed:
- "A" = Hungary
- "D" = Vietnam
- "N" and ""K" = East Germany
- "P" and "S" = Poland or China
- "?" Cyrillic script = Russia or Bulgaria

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- version of the AKM manufactured by Hungarian State Arsenals.
- may be found with various stock or furniture variations.
- this model features polypropelene stock furniture of a blue, or blue-grey colour.
- this model has eliminated the lower wooden handguard of other AKM's , replacing it with a sheet metal cover and a second pistol grip.
- selector/safety lever mounted on right of receiver.
- full automatic position marked with a horizontally stamped arabic numeral "8," indicating infinity, or full-automatic mode.
- stamped steel receiver.
-cleaning rod normally seen mounted below the barrel.
- SEE REMARKS.

Type

- rotating bolt, gas operated.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- normally on left side of receiver.
- usually on metal barrel-mounting block riveted into the sheet metal body.
-factory markings may be present, as well as year of manufacture.
-may include letter prefixes.
- recent importations may have importer's marks stamped or electro-pencilled on the receiver.

Calibre

- not marked on firearm.
- markings may be added by importer/distributor.

Shots

- detachable box magazine.
- may also mount drum magazines originally designed for the RPK.
- magazines may be of sheet-metal construction or of sybthetic; most common synthetic issue version being orange in colour.

Remarks

- a modernized version of the AK47, entered production in 1959.
- it replaced the forged steel receiver of the AK47 with a stamped and pressed steel receiver employing simplified construction and material requirements.
- the AKM series of weapons have several visual distinguishing characteristics which set it apart from the standard AK47.
- the main diferences are:
    - a small recess in each side of the receiver is located centrally over the magazine to serve as a guide for magazine loading/unloading.
    - The lower handguard may be grooved, or in the case of the Hungarian or Rumanian Versions replaced by a metal cover and plastic handgrip, or fitted with a wooden forend/handgrip unit.
    - the receiver cover has stamped, transverse (perpindicular to the bore) ribs.
    - the four gas escape holes on each side of the gas cylinder are not present (however, AK47 gas-cylinder assemblies may be found mounted as these parts are generally interchangeable).
    - the rear sight arrangement is graduated to 1000m instead of 800m, except in the case of certain Hungarian variants.
    - a small compensator is fitted to the muzzle (this compensator is of an angled-cut configuration)
- the wide production, proliferation, and supply of this weapon to various groups and nations worldwide means that numerous variances in furniture, finish, markings, accessories, etc may be encountered.
-Stock configurations may include folding buttstocks of skeleton style, mono-tube construction, underfolders, side folders, etc.
- Grip profiles for forearm or pistol grips may also differ between national arsenals.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalashnikov of the "Automat Kalashnikova obrazets 1947" assault rifle.
- Kalashnikov is used as the make for military versions of this firearm.

Model

- introduced in 1959.
- model designation is not marked on the firearm.
- this is a modernized stamped receiver/frame version of the Russian AK47 rifle.
- manufactured until the late 1970's and made with an under folding stock to allow more convenient use by paratroopers and mechanized infantry.
- the fixed stock version of this rifle is properly known as the "AKM".
- "AKM" stands for "Avtomat Kalashnikova Modernizirovannyi".
- features include: open adjustable sights; round rifled barrel; gas tube above with cleaning rod mounted below the barrel; stamped steel receiver/frame riveted to a machined trunnion; safety/selector on the right side of the receiver with positions marked in Cyrillic lettering reading "AV" ("Automatic") and "OD" ("Semi-Automatic"); small recess/indent located on either side of receiver/frame at magazine well; wood forearm and pistol grip; under folding stamped metal stock with U shaped butt plate; blued finish.
- overall length with a 415mm (16.3") barrel is 651mm (25.6") stock folded and 880mm (34.6") extended, average weight with magazine is 3.3Kg (7.3 lbs).

Manufacturer

- the manufacturer's factory code consisting of a fletched arrow within a triangle is usually marked on the right side of the receiver/frame.

Action

- gas operated.

Serial Number

- the serial number is usually marked on the left side of the receiver/frame.
- serial number of an observed example consisted of two Cyrillic letters followed by four numbers.
- the year of manufacture consisting of four numbers is not to be confused with the serial number.

Notes

Make	- "KALASHNIKOV" is not marked on the firearm. - Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalashnikov of the "Automat Kalashnikova obrazets 1947" assault rifle.
Model	- the model is not marked on the firearm; this is the Russian designation for an AKM rifle (stamped-receiver/frame AK) fitted with an underfolding stock, to allow more convenient use and transport, especially by paratroopers. - features include: typical AK layout and operation; blued finish; flat muzzle without brake or compensator; above-barrel gas tube and piston; open adjustable sights; a stamped receiver/frame rivetted to a machined trunnion; wooden forearm, handguard, and pistol-grip; right-side selector lever marked "AB" (Cyrillic "АV", for "automatic) and "OA" (Cyrillic "OD", for "single"); underfolding stock on rails with a U-shaped buttplate.
Manufacturer	- the manufacturer may or may not be marked on the firearm, depending on the period of manufacture; research and development of the AKM (stamped receiver/frame) was carried out at Izhmash (Factory 74), and early examples may bear no manufacturer's marks, but later examples are usually marked with the Izhmash "arrow in a triangle" factory code.
Action	- gas-operated. - no longer capable of full automatic fire.
Serial Number	- serial-numbered on the left side of the trunnion, with two Cyrillic letters in front of four numbers.
Shots	- detachable box magazine.

Model: AKT-98

Summary

Make:	Kalashnikov
Model:	AKT-98
Manufacturer:	Romanian State Arsenal, Cugir
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	ROMANIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125705 - 1	22 LR	10	439	Prohibited PFR, Part 1, para. 64	Non-Commercial Customization	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- AKT-98 is a 22 LR CALIBRE firearm.
- AKT-98 is a either purpose-built or a conversion from an AKM.
- the conversion appears to have been done by adapting an AKM sheet metal pressing receiver/frame to become a 22 calibre training rifle, by the addition of an appropriate barrel and blow-back breech mechanism.
- It is not possible to tell exactly where or when this conversion took place and it cannot safely be presumed that that the firearm was not originally manufactured to be a 22 LR CALIBRE firearm.
- this firearm does have a "dummy" gas tube to closely resemble the parent AKM firearm.
- features include: plastic furniture which may readily be replaced with the furniture from any model of AKM.

Manufacturer

- "CUGIR - ROMANIA" is lightly stamped on the receiver/frame.

Action

- blow-back operated.

Serial Number

- serial number rationalization unknown.
- observed specimen serial number consisted of model designation AKT-98 followed by a dash followed by five digits followed by a dash followed by a two digit year code.
EXAMPLE: - AKT-98-00084-04

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- Markings consisted of:
AK-98 22 LR
ARMAMENTOS INC WPB FL

WPB FL = WEST PALM BEACH, FLORIDA

Other Markings

- the rear sight block has been observed with KK-95 marked on the left side.
- markings found on the left front of the receiver/frame include in three lines:
AKT-98 22 LR
ARMAMENTOS INC WPB FL
CUGIR -ROMANIA

Remarks

- this firearm was manufactured circa 2004, for export sales to North America by the Romanian State Arsenals or a privatised segement of the Romanian State Arsenals known as S.C. Fabbrica De Arme Cugir S.A. .
- this firearm replicates the weight and appearance of the larger calibre firearm that it imitates.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- the model designation will usually be marked on the firearm, with "al Quds" on the right side of the sight block, and an Arabic inscription and a dime-sized circular stamp depicting the Dome of the Rock Mosque in Jerusalem on the left side of the sight block; "al Quds" is the Arabic name for Jerusalem.
- this is an Iraqi-produced version of the RPK squad automatic weapon (SAW), based on the standard Iraqi AKM rifle.
- features include: wooden butt, pistol-grip, and forearm; heavy barrel with cooling fins below the gas tube; adjustable open sights; safety/selector on the right side of the receiver/frame; and a detachable bipod.

Manufacturer

- the manufacturer may not be marked on the firearm.

Action

- gas operated.

Serial Number

- numbered on the receiver/frame; may include non-Roman alphabet letters or non-Arabic numerals.

Shots

- detachable box magazine; this firearm accepts AK-47/AKM-style magazines.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- this is a grenade-launching version of the AKM manufactured by Hungarian State Arsenals/FEG.
- may be found with various stock or furniture variations.
- this model features polypropelene stock furniture of a blue, or blue-grey colour.
- this model has a conventionally-styled forearm with an internal spring, rather than the forward-angled foregrip of most other Hungarian AKMs.
- selector/safety lever mounted on right of receiver.
- full automatic position marked with a horizontally stamped Arabic numeral "8," indicating infinity, or full-automatic mode.
- stamped steel receiver.
- an optical grenade-launching sight is normally attached to the sight rail on the left side of the receiver.
- cleaning rod normally seen mounted below the barrel.
- side-folding strut stock with an integral recoil-absorbing tube.
- this model was designed specifically for launching grenades (including smoke and tear-gas grenades), and was issued with a five-round magazine that will only accept blank launching cartridges, but will also feed from the standard 30-round rifle magazines.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- gas-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- numbered on the receiver/frame.
Calibre	- marked on the left side.
Shots	- detachable box magazine; a special 5-round magazine that will only accept grenade-launching blanks is also issued with this rifle.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalashnikov of the "Automat Kalashnikova obrazets 1947" assault rifle.
- Kalashnikov is used as the make for military versions of this firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- AR-M4SF is not marked on the firearm.
- AR-M4SF stands for Assault Rifle Short Barrel and Folding Stock.
- AR-M4SF is based on a Kalashnikov AK47 assault rifle design.
- features include: open adjustable sights and carrying handle with sight rail; round barrel with threaded muzzle for flash hider/compensator or sound suppressor/silencer; machined steel AK-47 type receiver/frame; hinged AKS-74U type top cover; safety/selector is mount on the right side; magazine release is located behind the magazine well; synthetic front handguard and heat shield; synthetic pistol grip; right side folding metal buttstock; sling swivels mounted on the left side of receiver/frame and on the left side of the front sight/gas block.
- overall length with the stock in the folded position is 520 mm.
- overall length with the stock extended is 760 mm.
- average weight is 3.48 kg.
- "AR-M4SF" model designation is not marked on the firearm.
- "AR-M4SF" model is defined by its features.
- "AR-M4SF" is a variant of the Russian AKS-74U "Krinkov".
- "AR-M4SF" as of December 2004, the manufacturer list both milled and stamped sheet metal receiver/frame variants under the same model designation.
- "AR-M4SF" stands for "Assault Rifle, Model 4, Short barrel Folding stock".
- features include: threaded muzzle for a compensator that may be of cylindrical shaped with knurling rings or with a cone shaped end; front post sight bracket with protective ears mounted on top of the gas block and notched two leaf flip type rear sight with protective ears, mounted on the top of the forward hinged sheet metal body, action cover; synthetic furniture with handguard that may have a light incorporated and a tubular and a right side folding stock; magazine release ahead of the trigger guard; scope rail attachment on the left side of the receiver/frame; safety lever on the right side of the receiver/frame and on "safe" is also acting as a dust cover for the cocking handle slot and a secondary lever located on the left side at the pistol grip location; mat blue or parkerized finish.
- overall length with a 215mm (8.4") barrel is 520mm (20.4") with the stock folded, average weight is 3.38kg (7.4 lbs).

Manufacturer

- "10" inside two circles and/or "Arsenal" and "Made in Bulgaria" may be marked on the side of the receiver/frame.
- "Arsenal" is a manufacturer located in Kazanlak, Bulgaria.
- "Bulgarian Artillery Arsenal" was originally established in Rousse, Bulgaria circa 1878 for the Bulgarian Army.
- "Artillery Arsenal" was transferred to Sofia and became the "Sofia Artillery Arsenal" in 1891.
- "Sofia Artillery Arsenal" was moved to Kazanlak in 1924 and became the "State Military Factory".
- "State Military Factory" in Kazanlak, Bulgaria was given the code name "Factory 10" in 1948.
- "Factory 10" was identified by a "10" in a double circle.
- "Factory 10" started production of assault rifles circa 1958.
- "Factory 10" was renamed the "United Industrial Plant Friedrich Engles" circa 1964.
- "United Industrial Plant Friedrich Engles" was known as "F. Engles Machine Building Plant" from 1977 to 1987.
- "Arsenal/Arsenal Limited/Arsenal JSCo/Arsenal 2000 JSCo" was established in 1987.
- "Arsenal Bulgaria" also uses the logo of "10" in a double circle.
- "Arsenal" was exclusively imported from 1994 to 1996 by Sentinel Arms.
- "Sentinel Arms" was located in Detroit, Michigan U.S.A.
- "Arsenal" is exclusively imported by "Arsenal Incorporated".
- "Arsenal Inc." was established in 2001.
- "Arsenal Inc." is located in Las Vegas, Nevada U.S.A.
- "Bulgarian State Arsenal, Factory 10" is identified by a "10" in a double circle logo.
- "Bulgarian State Arsenal" logo is marked on the left side of the receiver/frame.
- "Bulgarian Artillery Arsenal" was originally established in Rousse, Bulgaria circa 1878 for the Bulgarian Army.
- "Artillery Arsenal" was transferred to Sofia and became the "Sofia Artillery Arsenal" in 1891.
- "Sofia Artillery Arsenal" was moved to Kazanlak in 1924 and became the "State Military Factory".
- "State Military Factory" in Kazanlak, Bulgaria was given the code name "Factory 10" in 1948.
- "Factory 10" started production of assault rifles circa 1958.
- "Factory 10" was renamed the "United Industrial Plant Friedrich Engles" circa 1964.
- "United Industrial Plant Friedrich Engles" was known as "F. Engles Machine Building Plant" from 1977 to 1987.
- "Arsenal/Arsenal Limited/Arsenal JSCo/Arsenal 2000 JSCo" was established in 1987.
- "Arsenal 2000 JSCo "also uses the logo of a "10" in a double circle.
- "Arsenal 2000 JSCo "was privatized in 2011.

Action

- gas operated.
- selective fire.

Serial Number

- serial number is marked on the left side of the receiver/frame, and last four digits may be repeated.
- example observed with "BA" prefix and six numbers.
- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a two letter prefix, a space, two numbers, a space, and four numbers.

Calibre

- calibre is marked on the left side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- this firearm does not have a "dummy" gas tube which alters its appearance significantly, compared to an original AKM.

Manufacturer

- manufactured in the German Democratic Republic (DDR) in the 1960 to 1975 era.
- two examples examined were marked with what is suspected to be factory numbers: - 470 & 374.
- it is suspected that these firearms were manufactured by the (AKA Ernst Thalmann-Werk) VEB Fahrzeug-und-Waffenfabrik "Ernst Thalmann", Suhl.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number rationalization unknown.
- four specimens have been reported all having a six digit serial number without prefix or suffix.

Barrel

- barrel measurements do not include flash hider.

Calibre

- this cartridge in DDR service was known as 22 Lang M 70.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this firearm was manufactured by DDR Government Arsenals during the 1960s & '70s for the Peoples Army of the German Democratic Republic.
- this firearm is purpose-built to replicate the weight and appearance of the larger calibre firearm that it imitates and the automatic fire capability was included to train personnel in the use of this feature for transition to the parent firearm.

- manufactured in the German Democratic Republic (DDR) in the 1960 to 1975 era.
- two examples examined were marked with what is suspected to be factory numbers: - 470 & 374.
- it is suspected that these firearms were manufactured by the (AKA Ernst Thalmann-Werk) VEB Fahrzeug-und-Waffenfabrik "Ernst Thalmann", Suhl.

Action

- blowback operated.
- capable of full automatic or semi-automatic fire.
- rate-of-fire (theoretical) 700 shots-per-minute.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number rationalization unknown.
- four specimens have been reported all having a six digit serial number without prefix or suffix.

Barrel

- barrel measurements do not include flash hider.

Calibre

- this cartridge in DDR service was known as 22 Lang M 70.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Remarks
- this firearm was manufactured by DDR Government Arsenals during the 1960s & '70s for the Peoples Army of the German Democratic Republic.
- this firearm is purpose-built to replicate the weight and appearance of the larger calibre firearm that it imitates and the automatic fire capability was included to train personnel in the use of this feature for transition to the parent firearm.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalashnikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalashnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalashnikov is used as the make for military versions of this firearm.

Model

- "LMG" model designation is not marked on the firearm.
- "LMG" model is defined by its features.
- "LMG" stands for "Light Machine Gun".
- "LMG" is a variant of the Russian RPK-74 LMG.
- model designation from the manufacturer, as of December 2004 list both milled and stamped sheet metal receiver/frame variants under the same model designation if they are of similar type.
- "LMG" in 5.45X39 calibre has a stamped sheet metal receiver/frame with the 5.56MM NATO and 7.62X39 Russian variants having a forged and milled receiver/frame.
- features include: threaded muzzle; high front post sight bracket with protective ears and notched tangent rear sight; bipod attachment point behind the front sight bracket; gas cylinder mounted over the barrel; sheet metal body, action cover; wood furniture synthetic pistol grip with a fixe rifle or under folding stock; magazine release ahead of the trigger guard; safety lever located on the right side of the receiver/frame and on "safe" is also acting as a dust cover for the cocking handle slot; optic attachment bracket of the left side of the receiver/frame; mat blue or parkerized finish.
- overall length with a 590mm (23.25") barrel is 1060mm (41.75"), average weight is 5.8kg (12.79 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "Bulgarian State Arsenal, Factory 10" is identified by a "10" in a double circle logo.
- "Bulgarian State Arsenal" logo is marked on the left side of the receiver/frame.
- "Bulgarian Artillery Arsenal" was originally established in Rousse, Bulgaria circa 1878 for the Bulgarian Army.
- "Artillery Arsenal" was transferred to Sofia and became the "Sofia Artillery Arsenal" in 1891.
- "Sofia Artillery Arsenal" was moved to Kazanlak in 1924 and became the "State Military Factory".
- "State Military Factory" in Kazanlak, Bulgaria was given the code name "Factory 10" in 1948.
- "Factory 10" started production of assault rifles circa 1958.
- "Factory 10" was renamed the "United Industrial Plant Friedrich Engles" circa 1964.
- "United Industrial Plant Friedrich Engles" was known as "F. Engles Machine Building Plant" from 1977 to 1987.
- "Arsenal/Arsenal Limited/Arsenal JSCo/Arsenal 2000 JSCo" was established in 1987.
- "Arsenal 2000 JSCo "also uses the logo of a "10" in a double circle.
- "Arsenal 2000 JSCo "was privatized in 2011.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a two Cyrillic letter prefix, a space, two numbers, a space, and four numbers.

Shots

- detachable box magazine.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- model designation is not marked on the firearm.
- RPK type, light air cooled machine gun.
- this is the light support weapon of the "M64" assault rifle family.
- features include: quick change heavy barrel; bipod; conical flash hider; carrying handle; selective fire; pistol grip; straight buttstock; hooded front sight; notched tangent rear sight.

Manufacturer

- "ZASTAVA - KRAGUYEVAC" and "YUGOSLAVIA" may be marked on the left side of the receiver/frame.

Action

- gas operated.

Shots

- detachable staggered column box magazine.

Notes

Make

- The make is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- The model designation is not marked on the firearm.
- "M70" is the Yugoslavian designation for the forged, milled steel receiver/frame version of the Kalashnikov AK-47. The AK-47 and AKM were manufactured in large quantities in Yugoslavia.
- Features include: milled steel receiver/frame; selector / safety lever mounted on right side of the receiver, full automatic position marked "R" for full automatic, "J" for semi-automatic, and "U" for safe; barrel is fitted with an integral grenade launcher, and a folding grenade launcher sight which is mounted over the top of the forearm/gas-tube assembly; cleaning rod mounted below the barrel.

Manufacturer

- "ZASTAVA" is marked on the left side of the receiver/frame.
- The logo of Zavodi Crvena Zastava may be found marked on the firearm receiver as "ZCZ" in a circle.

Action

- No longer capable of full automatic fire.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- Observed serial number format consisted of a single letter prefix followed by a dash followed by five numbers.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- Detachable box magazine.
- Designed to accept "AK47" type magazines.

Canadian Law Comments

- This design incorporates the receiver/frame of a full automatic firearm; namely the "Kalashnikov" model "AK47".

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- model designation is not marked on the firearm.
- "M70" is the Yugoslavian designation for the forged, milled steel receiver/frame version of the Kalashnikov AK-47. The AK-47 and AKM were manufactured in large quantities in Yugoslavia.
- features include: full, fixed wood butt-stock & wood hand guards, rubber butt plate; stamped steel receiver/frame; selector / safety lever mounted on right side of the receiver, full automatic position marked "R" for full automatic, "J" for semi-automatic, and "U" for safe; barrel is fitted with an integral grenade launcher, and a folding grenade launcher sight which is mounted over the top of the forearm/gas-tube assembly; cleaning rod mounted below the barrel.
- cyclic rate of fire - 620 shots per minute (theoretical).
- weight - approx 4 0 kg.
- overall length - approx 900 mm.

Manufacturer

- "ZASTAVA - KRAGUJEVAC YUGOSLAVIA" is marked on the front left of the receiver.
- The logo of Zavodi Crvena Zastava may be found marked on the firearm receiver as "ZCZ" in a circle.

Action

- gas operated.

Serial Number

- serial number is located on right side of receiver/frame under the ejection port..
- observed serial number consisted of a single letter prefix followed by a dash followed by five digits without suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Remarks

- this firearm model designation of "M70" has also been applied to a semi-automatic firearm sold commercially in North America under the tradename of "Mitchell Arms Incorporated, "MODEL AK-47".
- the Mitchell Arms advertising brochures designated the semi-automatic version that they sold in USA as the model "AK47"; however, neither the M70 nor AK-47 model designation was marked on the firearm.
- Yugoslavian Kalashnikov model designations:
- M70 is the Yugoslavian designation for the forged, milled steel receiver/frame version of the Kalashnikov AK-47 with a wood-stock..
- M70A is the Yugoslavian designation for the forged, milled steel receiver/frame version of the Kalashnikov AK-47 with an under-folding stock.
- M70A1 is the Yugoslavian designation for the forged, milled steel receiver/frame version of the Kalashnikov AK-47 with an under-folding stock and optical & night-sight mount on the left side of the receiver/frame.
- M70AB2 is the Yugoslavian designation for the stamped steel receiver/frame version of the Kalashnikov AKM with an under-folding stock.
- M70AB2N is the Yugoslavian designation for the stamped steel receiver/frame version of the Kalashnikov AKM with an under-folding stock and optical & night-sight mount on the left side of the receiver/frame.
- M70B1 is the Yugoslavian designation for the stamped steel receiver/frame version of the Kalashnikov AKM with a wood-stock.
- M70B1N is the Yugoslavian designation for the stamped steel receiver/frame version of the Kalashnikov AKM with a wood stock and optical & night-sight mount on the left side of the receiver/frame.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalashnikov of the "Automat Kalashnikova obrazets 1947" assault rifle.

Model

- introduced circa 1971.
- Yugoslavian designation for the Kalashnikov AK rifle.
- Kalashnikov model AK-47 and AKM were manufactured in large quantities in Yugoslavia.
- "M70A" is a model M70 with an underfolding buttstock.
- features include: adjustable sights; round, rifled barrel with a threaded muzzle for a muzzle break or detachable grenade launcher; cleaning rod is mounted under the barrel; flat sided, stamped steel receiver/frame; selector/safety lever is mounted on right side of the receiver/frame ("R" for full automatic, "J" for semi-automatic, and "U" for safe); wood forearm, hand guard, and pistol grip and an underfolding metal buttstock.
- integral grenade launcher sight is mounted on the gas block and automatically cuts the gas supply when the sight is raised.
- "M64" was replaced by the "M64A" in 1967.

Manufacturer

- "Zavodi Crvena Zastava" logo is usually marked on the left side of the receiver/frame.

Action

- gas operated, selective fire.

Serial Number

- serial number rationalization unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalashnikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalashnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalashnikov is used as the make for military versions of this firearm.

Model

- "M72B1" is available with two types of receiver/frame: stamped or forged steel.
- "M72B1" is usually marked on the left side of the stamped steel receiver/frame.
- "M72B1" may not be marked on the forged steel receiver/frame.
- "M72B1" is the Yugoslavian version of the RPK.
- "RPK" stands for "Ruchnoi Pulemet Kalashnikova", light machine gun Kalashnikov.
- "M72B1" main visual feature is a short stretch of fins on the barrel under the gas cylinder.
- features include: high front post sight bracket with protective ears and notched tangent rear sight usually found with tritium night sights; non-adjustable folding bipod; gas cylinder mounted over the barrel; sheet metal body, action cover; magazine release ahead of the trigger guard; three position safety lever located on the right side of the receiver/frame that on "safe" is also acting as a dust cover for the cocking handle slot; forged, milled receiver/frame has machined lightening cut above the magazine well; teak wood butt stock & hand guards and synthetic pistol grip; parkerized finish.
- overall length with a 540 mm (21.25") barrel is 1025 mm (40.375"), and the average weight is 5 kgs (11.02 lbs).

Manufacturer

- Zavodi Crvena Zastava's logo is marked on the side of the receiver/frame.
- ZASTAVA-KRAGUJEVAC" and "YUGOSLAVIA" are marked on the side of the receiver/frame.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization unknown.
- serial number is marked on the left side of the stamped steel receiver/frame.
- serial number observed marked on the stamped steel receiver/frame consisted of five numbers without a letter prefix or suffix.
- serial number is marked on the right side of the forged/machined receiver/frame.
- serial number observed marked on the forged steel receiver/frame consisted of a letter "C" prefix, a dash (-), and five numbers.

Shots

- detachable box magazine.
- accepts all box and drum magazines available for the Kalashnikov family of firearms.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "M76" is usually marked on the left side of the receiver/frame.
- the "M76" line was manufactured from 1976 to 1990.
- this is a Finnish manufactured version of the Kalashnikov AK-47 assault rifle.
- features included: round barrel with flash suppressor; selective fire; rotating bolt; detachable box magazine; hooded post front sight and tangent aperture rear sight; composite forend and pistol grip, folding or fixed butt stock of wood, plastic or metal.
- length with fixed or folding butt stock extended and a 420 mm barrel is 950 mm.
- length overall with butt stock folded and a 420 mm barrel is 690 mm.
- this firearm was available in many sub-variants, such as:
- M76 F, Sub-Model: 254 100; calibre 5.56MM NATO / side folding butt stock.
- M76 F, Sub-Model: 254 090; calibre 7.62X39 RUSSIAN / side folding butt stock.
- M76 P, Sub-Model: 254 080; calibre 5.56MM NATO / fixed plastic butt stock.
- M76 P, Sub-Model: 254 070; calibre 7.62X39 RUSSIAN / fixed plastic butt stock.
- M76 Short, Sub-Model: 255 470; calibre 5.56MM NATO / Bull-pup stock (became the model M82).
- M76 Short, Sub-Model: 255 490; calibre 7.62X39 RUSSIAN / Bull-pup stock.
- M76 T, Sub-Model: 254 060; calibre 5.56MM NATO / fixed tubular butt stock.
- M76 T, Sub-Model: 253 810; calibre 7.62X39 RUSSIAN / fixed tubular butt stock.
- M76 W, Sub-Model 255 200; calibre 5.56MM NATO / fixed wooden butt stock.
- M76 W, Sub-Model 255 460; calibre 7.62X39 RUSSIAN / fixed wooden butt stock.

Manufacturer

- "Valmet Oy" was the manufacturer of the "M76" line from 1976 to 1987, then on the 1st of January 1987, "SAKO" and "VALMET" joined businesses to become the firm of "SAKO-VALMET LTD" or "SAKO-VALMET OY" and produced the "M76" line until 1990.

Action

- gas operated, selective fire.

Serial Number

- serial number is usually marked on the receiver/frame, rationalization unknown.

Calibre

- calibre designation is usually marked on the left side of the receiver/frame.

Shots

- detachable box magazine.

Canadian Law Comments

- some versions of the Valmet model M76 , known as the M76 Short or M76 Bullpup, left the factory equipped with a Prohibited Device commonly known as a "bull-pup" stock (PDR, Part 4, para. 2). Even when the "Prohibited Device" is removed this model remains a Prohibited firearm by virtue of CC84(1) definition of "prohibited firearm" para.(c).

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalashnikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalashnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- "Made by Maadi Co. in Egypt" is marked on the right side of the receiver/frame below the ejection port.

Model

- a copy of the original Russian Kalashnikov, AKM, (except for the receiver/frame markings) imported in semi automatic version only.
- features include: laminated wood stock; blued finish and checkered plastic pistol grip.
- the model designation may not be marked on the firearm; where present, may only be marked in Arabic script characters.
- this is a semi-automatic-ONLY version of the Egyptian AKM rifle, made for export and sporting uses.
- features include: stamped, folded, and rivetted receiver/frame; fixed or side-folding stock; laminated wooden butt and forearm; synthetic pistol-grip, blued finish; open adjustable sights; safety on right side of receiver/frame; sling swivels; and may be fitted with a "spoon-bill"-style compensator on muzzle.

Manufacturer

- "Made by Maadi Co. in Egypt" is marked on the right side of the receiver/frame below the ejection port.
- Steyr-Daimler-Puch, of Secaucus New Jersey is importing this Egyptian manufactured AKM in semi-automatic only, as manufactured by the Maadi Company.
- the Maadi Company is also known as "Factory 54".

Action

- gas-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number may contain non-Western characters (Arabic script) and/or numbers.
- serial number rationalization is unknown.
- observed serial numbers have included a two letter prefix followed by a zero and four numbers, ie: CM0xxxx, AC0xxxx and CA0xxxx.
- observed serial number consisted of a six digit number with the letter "S" prefix.

Calibre

- marked on the left side of the receiver/frame.

Shots

- detachable box magazine.

Other Markings

- known example variant markings;
- Left side receiver/frame," ARM SEMI AUTOMATIC RIFLE", over "Caliber 7.62 X 39", over "MAADI COMPANY", over "MADE IN EGYPT".
- Right side receiver/frame; "STEYR, SECAUCUS,N.J.".

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalashnikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalashnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- MAADI markings will usually be found on the receiver/frame.

Model

- "MISR-10 SEMI-AUTO" was observed marked on the firearm.
- "Misr-10" is a semi-automatic variant of the Kalashnikov assault rifle. This particular version is built on the "AKM" type receiver/frame initially in a single stack magazine version and subsequently altered to a double stack magazine version. Maadi has also produced a similar model as the "MISR AKM".
- features include: laminated wood thumbhole buttstock and handguards (the "Misr AKM" that was examined used a traditional pistol grip and butt); blued finish; gas system mounted on the top of the barrel; tangent rear sight mounted on the gas block with a hooded post front sight; large safety catch mounted on the right side of the receiver/frame; cleaning rod mounted under the barrel.

Manufacturer

- the sample examined was marked "MADE BY MAADI CO. IN EGYPT" on the right side of the receiver/frame.

Action

- gas operated.

Serial Number

- the serial number was marked on the left side of the receiver/frame on the sample examined.
- a partial serial number will usually be repeated on major components.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre was observed marked on the firearm.
Shots	- single stack, detachable box magazine.
Importer	- when present, importer markings will usually be found on the receiver/frame or barrel.

Firearm Reference Number (FRN): 113555
Make: Kalashnikov
Model: MPiK

Summary

Make:	Kalashnikov
Model:	MPiK
Manufacturer:	East German State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
113555 - 1	7.62X39 RUSSIAN	5	417	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
113555 - 2	7.62X39 RUSSIAN	30	417	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- no model designation is marked on the firearm.
- the "MPiK" designation denotes "Maschinenpistole Kalishnikov".
- early production samples used fixed wood furniture, a version using a side or underfolding metal buttstock was known as the "MPiKS".
- as with the original Kalashnikov this early version uses a machined receiver/frame.
- a later "modernized" version, known as the "MPiKM" uses a stamped steel receiver/frame.
- this model is almost identical to the Russian produced AK, except the selector markings appear as "D" above "E".
- year of production may be marked on the left side of the receiver/frame just ahead of the serial number.
- features include: a large selector lever on the right side of the receiver/frame, a gas system mounted on top of the barrel, a hooded front sight with an adjustable rear sight, may have a cleaning rod mounted beneath the barrel and a wood or plastic pistol grip.

Manufacturer

- manufactured in the German Democratic Republic (DDR).
- it is suspected that these firearms were manufactured by the (AKA Ernst Thalmann-Werk) VEB Fahrzeug-und-Waffenfabrik "Ernst Thalmann", Suhl.
- a specific manufacturers designator may appear on the firearm.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - the serial number will normally incorporate the last two digits of the year of production followed by an alpha prefix; example 61 M 2945
Shots	- detachable box magazine.
Other Markings	- an inspectors' mark appear on the firearm as a letter inside a circle of dots.

FRT Report

Firearm Reference Number (FRN): 100175
Make: Kalashnikov
Model: MPiKMS-74N

Summary

Make:	Kalashnikov
Model:	MPiKMS-74N
Manufacturer:	East German State Arsenals
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
100175 - 1	7.62X39 RUSSIAN	5	418	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
100175 - 2	7.62X39 RUSSIAN	30	418	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make
- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model
- model designator is not marked on the firearm.
- has a heavy gage wire stock that folds to the right and plastic furniture.

Action
- no longer capable of full automatic fire.

Serial Number
- serial number is marked on the left side of the receiver/frame.

Barrel
- barrel measurements do not include flash hider.

Shots
- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 113576
Make: Kalashnikov
Model: MPiKS

Summary

Make:	Kalashnikov
Model:	MPiKS
Manufacturer:	East German State Arsenals
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
113576 - 1	7.62X39 RUSSIAN	5	417	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
113576 - 2	7.62X39 RUSSIAN	30	417	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- no model designation is marked on the firearm.
- the "MPiKS" designation denotes "Maschinenpistole Kalishnikov mit geklappbarem Schulterstutze".
- a fixed stock version, known as the "MPiK" also exists.
- as with the original Kalashnikov this early version uses a machined receiver/frame.
- a later "modernized" version, known as the "MPiKMS" uses a stamped steel receiver/frame.
- this model is almost identical to the Russian produced AK, except the selector markings appear as "D" above "E".
- year of production may be marked on the left side of the receiver/frame as the first part of the serial number.
- features include: a large selector lever on the right side of the receiver/frame, a gas system mounted on top of the barrel, a hooded front sight with an adjustable rear sight, may have a cleaning rod mounted beneath the barrel and a wood or plastic pistol grip.

Manufacturer

- a specific manufacturers designator may appear on the firearm.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- the serial number will normally incorporate the last two digits of the year of production followed by an alpha prefix; example 61 M 2945

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Other Markings - an inspectors' mark appears on the firearm as a letter inside a circle of dots.

Firearm Reference Number (FRN): 103516
Make: Kalashnikov
Model: PK

Summary

Make:	Kalashnikov
Model:	PK
Manufacturer:	Polish State Arsenal, Factory 6
Level:	Converted Automatics
Type:	Machine Gun
Action:	Converted Automatic
Country of Manufacturer:	POLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
103516 - 1	7.62X54R RUSSIAN	N/A	605	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "PK" machine gun.
- "PK" denotes "Pulemyot Kalashnikova" or "Kalashnikov's Machinegun".

Model

- introduced in to Russian service in the early 1960s.
- "PK" denotes "Pulemyot Kalashnikova" or "Kalashnikov's Machinegun".
- this is a Kalashnikov style rotating bolt locking mechanism.
- "PK"'s has a bipod mount only, intended for infantry fire support.
- these machine guns are belt-fed, gas operated firearms that fire in the full automatic mode only; a safety over the right side of the trigger group either blocks trigger operation, or allows full-auto (non-selective) fire.
- fluted barrel with quick change mechanism (barrel handle and locating stud are located on top of the barrel), cast and machined components, three position gas regulator below gas take-off, and solid or skeletonized buttstock with pistol grip on most versions.

Manufacturer

- "6" within a circle is marked on the top of the receiver/frame.

Action

- no longer capable of full automatic fire.

Serial Number

- serial numbered on major component parts, including bolt, receiver/frame, top cover, and trigger group.
- on the top cover with the serial number is an arsenal marking and the year of manufacture.
- the serial number located on the right side of the receiver/frame is the one to be used, the sample imaged has a "UG" prefix.

Barrel

- barrel length does not include flash suppressor.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - 100, 200 or 250 round belt feed.

Cross-References

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalashnikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "PK" machine gun.
- "PK" denotes "Pulemyot Kalashnikova" or "Kalashnikov's Machinegun".

Model

- introduced into Russian service in the early 1960s.
- "PK" denotes "Pulemyot Kalashnikova" or "Kalashnikov's Machinegun".
- this is a Russian machine gun based on a Kalashnikov style rotating bolt locking mechanism (unlike the earlier Goryunov/SGM/SG-43 series, which used a tilting-bolt locking mechanism).
- these machine guns were built in several variations and, depending on their primary intended role, could be known as plain "PK"'s (bipod mount only, intended for infantry fire support), "PKS"'s (tripod mount, intended for both infantry fire support and anti-aircraft use), "PKT"'s (internal armoured vehicle mount, fired with a solenoid), or as "PKB"'s (flexible gun mounted on an armoured vehicle, with spade grips).
- a slightly modified version of the PK is known as the "PKM"; these are easier to manufacture versions that have non-fluted barrels and stamped top covers. The original PK series all have longitudinally-fluted barrels, and milled top covers.
- these machineguns are belt-fed, gas operated firearms that originally fired in the full automatic mode only; a safety over the right side of the trigger group either blocks trigger operation, or allows semi automatic fire.
- fluted barrel with quick change mechanism (barrel handle and locating stud are located on top of the barrel), cast and machined components, three position gas regulator below gas take-off , and solid or skeletonized buttstock with pistol grip on most versions.

Manufacturer

- this machine gun was built by various Russian arsenals, as well as other Eastern Bloc/Communist countries.
- a manufacturers identifier may be marked on the firearm.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial numbered on major component parts, including bolt, receiver, top cover, and trigger group. - serial number that is marked on the right side of the receiver/frame is to be used without the cyrlic letters.
Barrel	- barrel length does not include flash suppressor.
Shots	- this is a belt-fed firearm, commonly using 100, 200, or 250-round metallic linked belts.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125246 - 1	7.62X54R RUSSIAN	N/A	658	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalashnikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "PK" machine gun.
- "PK" denotes "Pulemyot Kalashnikova" or "Kalashnikov's Machinegun".

Model

- "PK" denotes "Pulemyot Kalashnikova" or "Kalashnikov's Machinegun".
- "PK" was designed as a general purpose machine gun
- "PK" was introduced into Russian service in the early 1960s.
- "PK" series includes the:
- "PK" is the basic configuration with a heavy profile, fluted barrel and the feed cover built from stamped and machined components. When the "PK" is mounted on a tripod it is known as the "PKS". Average weight is around 9kg (19.8lbs).
- "PKT" is the model "PK" configured for coaxial installation in an armoured vehicle/tank. This model has had the sights, stock and trigger mechanism removed. Equipped with a longer barrel and a solenoid operated trigger mechanism is mounted to the back of the receiver/frame for remote firing. An emergency, manual trigger mechanism and safety are mounted to the top of the solenoid plate.
- "PKM" is basically an improved model "PK" with a lighter, non-fluted barrel, a feed cover entirely of stamped components and a hinged butt-plate attached to the rear of the buttstock. This model is also a bit lighter than the standard "PK", average weight is around 8.4kg (18.4lbs). When mounted on a tripod this model is also known as the "PKMS".
- "PKB" is the model "PKM" with the buttstock and trigger mechanism removed. The trigger mechanism is replaced with twin spade grips and a "butterfly" trigger. This model is sometimes also known as the "PKMB".

Manufacturer

- manufacturer's identifier may be marked as an arrow within a five pointed star.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- samples examined were numbered with Cyrillic characters followed by sequential numbers. The serial number was marked on the receiver/frame and repeated on most components.

Shots

- this model is a belt fed firearm.
- early versions of the "PK" belt were a one-piece design capable of holding 250 cartridges. Modern belts hold 25 cartridges and can be linked together. The belts are usually held in a 250-round ammunition box or in a 100-round assault "magazine" that attaches to the bottom of the receiver/frame.

- model is not marked on the firearm.
- "PKM" denotes "Pulemyot Kalashnikova Modernized" or "Kalashnikov's Machinegun Modernized".
- "PKM" is a product improved PK model.
- this is a Russian machine gun based on a Kalashnikov style rotating bolt locking mechanism (unlike the earlier Goryunov/SGM/SG-43 series, which used a tilting-bolt locking mechanism).
- these machine guns were built in several variations and depending on their primary intended role, could be known as plain "PKM"'s (bipod mount only, intended for infantry fire support), "PKMS"'s (tripod mount, intended for both infantry fire support and anti-aircraft use), "PKMT"'s (internal armoured vehicle mount, fired with a solenoid), or as "PKMB"'s (flexible gun mounted on an armoured vehicle, with spade grips)
- a slightly earlier version of the PKM is known as the "PK"; these are the original, harder to manufacture versions that have fluted barrels and milled top covers. The PKM series all have non-fluted barrels, and stamped top covers.
- these machine guns are belt-fed, gas-operated firearms that fire in the full automatic mode only; a safety over the right side of the trigger group either blocks trigger operation, or allows full-automatic fire.
- barrel with quick change mechanism (barrel handle and locating stud are located on top of the barrel), cast and machined components, three-position gas regulator below gas take-off , and solid or skeletonized buttstock with pistol-grip on most versions.
- also built in a shorter version with a side-folding strut buttstock as a "PKM Commando".

Manufacturer

- manufacturer is not marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is marked on the right side of the receiver/frame. - serial number is also marked on the top of the feed cover with the year of manufacture. - sample imaged has a "U-" prefix.
Barrel	- barrel length does not include flash suppressor.
Shots	- uses a 100, 200 and 250 round belt box. - only the 100 round belt box can be attached to the underside of the PKM.

195946 - 1	7.62X54R RUSSIAN	N/A	725	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "PK" machine gun.
- "PK" denotes "Pulemyot Kalashnikova" or "Kalashnikov's Machinegun".

Model

- model designation is not marked on the firearm.
- "PK" denotes "Pulemyot Kalashnikova" or "Kalashnikov's Machinegun".
- "PK" was designed as a general purpose machine gun
- "PK" was introduced into Russian service in the early 1960s.
- "PK" series includes the:
- "PK" is the basic configuration with a heavy profile, fluted barrel and the feed cover built from stamped and machined components. When the "PK" is mounted on a tripod it is known as the "PKS". Average weight is around 9kg (19.8lbs).
- "PKT" is the model "PK" configured for coaxial installation in an armoured vehicle/tank. This model has had the sights, stock and trigger mechanism removed. Equipped with a longer barrel and a solenoid operated trigger mechanism is mounted to the back of the receiver/frame for remote firing. An emergency, manual trigger mechanism and safety are mounted to the top of the solenoid plate.
- "PKM" is basically an improved model "PK" with a lighter, non-fluted barrel, a feed cover entirely of stamped components and a hinged butt-plate attached to the rear of the buttstock. This model is also a bit lighter than the standard "PK", average weight is around 8.4kg (18.4lbs). When mounted on a tripod this model is also known as the "PKMS".
- "PKB" is the model "PKM" with the buttstock and trigger mechanism removed. The trigger mechanism is replaced with twin spade grips and a "butterfly" trigger. This model is sometimes also known as the "PKMB".

Manufacturer

- "6" within a circle is marked on the top of the receiver/frame.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial numbered on major component parts, including bolt, receiver/frame, top cover and trigger group.
- on the top cover with the serial number is an arsenal marking and the year of manufacture.
- serial number located on the right side of the receiver/frame is the one to be used.
- serial number observed consisted of two letter "KB", a space and three numbers.
- serial number observed consisted of two letter "NY", a space and three numbers.

Shots

- this model is a belt fed firearm.
- early versions of the "PK" belt were a one-piece design capable of holding 250 cartridges. Modern belts hold 25 cartridges and can be linked together. The belts are usually held in a 250-round ammunition box or in a 100-round assault "magazine" that attaches to the bottom of the receiver/frame. Russian tanks may be fitted with larger capacity ammunition boxes.

Model

- model is not marked on the firearm.
- has a wooden butt stock that has trapezoidal metal plates on each side used to attach a rubber butt cup (recoil pad).
- model was adapted to fire F1/N60 anti personnel and PGM-60 anti-tank grenades from a LON-1 launcher. It has a special leaf rear sight a special small capacity magazine and a gas-cylinder cut-off valve marked "O" and "Z".

Manufacturer

- "11" inside an oval is marked on the left side of the receiver/frame.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- may have a "MG" prefix and four digits.

Other Markings

- year of manufacture is marked on the left side of the receiver/frame.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- the model is not marked on the firearm; "PMKMS" stands for "Pistolet Maszynowy Kalasznikowa Modernizowany Skladany", or "Modernized Kalashnikov Machine Pistol Folding". In 1970, this rifle was re-designated as the "Krotki Bojowy Karabin Automatyczny Kalasznikowa Modernizowany Skladany"/"Kbk AKMS", for "Modernized Kalashnikov Short Battle Rifle Folding".
- this is the Polish-manufactured, folding-stock version of the stamped-receiver AKM, manufactured at Radom/Factory 11 for issue to the Polish armed forces prior to the adoption of the vz.88 5.45x39mm stamped-receiver rifle; a version with a fixed stock was also made as the PMKM.
- features include: general Kalashnikov layout; blued finish; removable barrel nut (may be replaced with a "spoon-bill" compensator); raised open adjustable sights; gas tube above the barrel; wooden forearm and hand-guard; detachable box magazine; safety selector on the right side of the receiver with positions marked "C" ("Ciagly"/"Repetition") for full-automatic and "P" ("Pojedynczy"/"Single") for semi-automatic; synthetic pistol-grip; and under-folding stamped metallic stock.

Manufacturer

- "11" inside an oval is marked on the left side of the receiver/frame.

Action

- gas-operated.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- detachable box magazine.

121067 - 5	7.62X39 RUSSIAN	30	414	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.
- this firearm is based on the original Russian, Kalashnikov, model AKM ("MODERNIZIROVANNYI AVTOMAT KALASHNIKOVA" or "AUTOMATIC KALASHNIKOV MODERNIZED").

Model

- all markings on this firearm will normally be marked in Arabic or non-Western characters and numerals.
- features include: fixed wood or metal folding buttstock, wood handguards, synthetic pistol grip; adjustable open sights; AK-style safety/selector lever on the right side of the receiver/frame.
- a similar, semi-automatic only model, known as the Tabuk Sniper rifle that features a longer barrel with a muzzle brake, a skeletonized buttstock and is fitted with an optical sight is also available.
- do not confuse the Tabuk Sniper rifle with the similar appearing "Al Kadisa" sniper rifle. The "Tabuk" is based on the Kalashnikov, model AKM receiver/frame, and is chambered for the 7.62X39 RUSSIAN cartridge, while the "Al Kadisa" is based on the Dragunov, model SVD and is chambered for the 7.62X54R RUSSIAN cartridge.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Barrel	- it is reported that a short barrelled variant with a folding buttstock may also exist.
Shots	- detachable box magazine.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- model designation is not marked on the firearm.
- production of the Chinese Type 56 Rifle began in the mid 1950's.
- early production of the Type 56 is a copy of the AK47 with a machine steel receiver/frame..
- later production of the Type 56 is a copy of the AKM with a stamped sheet metal receiver/frame.
- features include a fixed wood stock and folding bayonet.
- it is also available with an under folding stock which has the model designation 56-1.
- early models have Chinese characters on the right side of the receiver denoting full automatic fire and single shot. Later models, intended for the export market have an "L" denoting full automatic fire and "D" for single shot.
- export models were sometimes marked "M22" marked on the receiver/frame in place of Chinese characters.

Manufacturer

- located on the left side of the receiver.
- State factory markings include a 66 within a triangle, a 26 within a triangle and a 416 within a triangle.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- usually located on the left side of the receiver.
Barrel	- barrel measurement does not include flash hider.
Shots	- detachable box magazine.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.
- there are three Chinese State owned / controlled marketing agencies:
- "Norinco" is a Chinese State marketing agency that sells products of the Chinese State Arsenals.
- "Norinco" is not a manufacturer.
- "Poly Technologies" is the trade name of "Poly Technologies International Incorporated", a marketing agency which is a subsidiary of the Chinese People's Liberation Army.
- "China Jin An" is the sales branch of the Ministry of Public Security.

Model

- "M22" is marked on the left side of the receiver/frame.
- this is a Type 56 assault rifle manufactured by an unknown plant for the China North Industries Corporation (Norinco) in the 1970s for export purposes.
- the Type 56 assault rifle is a copy of the Russian AK47.
- features include: milled steel receiver/frame; fixed wood stock and non-detachable folding bayonet.
- the selector lever on the right side is marked with the letter "L" denoting full automatic fire and the letter "D" for single shot.

Manufacturer

- manufacturer's name or code is not marked on the firearm.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number
- serial number is marked on the left side of the receiver/frame.
- observed serial number had a letter "N" prefix followed by six numbers.

Shots
- detachable box magazine.

Notes

Make

- The make is not marked on the firearm.
- "Kalasknikov" make name is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- The "Kalishnikov" name is used as the make for military versions of this firearm.

Model

- "56-2" is marked on the left side of the receiver/frame.
- "AKM" stands for "Avtomat Kalashnikova Modernizirovanniy", or modernized AK rifle.
- This is a "Type 56-2 AKM" full automatic receiver/frame, which has been converted to fire a BB projectile powered by a CO2 cartridge.
- The CO2 cartridge mechanism for the model "Type 56-2 AKM BB Gun", is housed in a converted thirty round cartridge magazine, combining the projectiles and action mechanism.
- Features include: stamped, folded steel receiver/frame; magazine release ahead of the trigger guard; safety lever located on the right side of the receiver/frame that on "safe" is also acting as a dust cover; safety lever markings on the receiver/frame may be of Chinese characters denoting full automatic fire and single shot or of later manufacturing having a "L" denoting full automatic fire and "D" for single shot.

Manufacturer

- The company logo is marked on the firearm.
- The company logo is comprised of the following: a line drawn shape of an even sided triangle with the number "66" in the center of the shape.

Action

- CO2 powered.

Serial Number

- The serial number is marked on the left side of the receiver/frame.

Calibre

- The calibre designation is not marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- Detachable box magazine.
- This model uses a converted thirty (30) round cartridge magazine, which houses the CO2 cartridge and BB rounds.

Canadian Law Comments

- This design incorporates the receiver/frame of a full automatic firearm; namely the "KALASHNIKOV" model "Type 56-2 AKM".
- This firearm is of the design commonly known as the "AK-47" rifle.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- "TYPE 56-3" is marked on the left side of the receiver/frame.
- "Type 56-3" is similar in design to the AKM with a stamped sheet metal receiver/frame.
- this Type 56-3 was designed to fire semi automatic only.
- features include: fixed wooden buttstock, wooden pistol grip, short wooden forend, over barrel gas tube assembly and an under barrel folding triangular bayonet.
- do not confuse with other Type 56 rifles built as Full Automatic or modified as Converted Automatic
- in the mid 1970's the production of the Type 56 line was switched from Factory 66, to facilities controlled by the China North Industries Corporation (NORINCO).

Manufacturer

- the manufacturer's name is not marked on the firearm.
- the manufacturer's logo is marked on the left forward side of the receiver/frame and appears as a stylized "416" within a triangle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated. - semi automatic only.
Serial Number	- serial number on observed sample was located on the left side of the receiver/frame. - observed specimen have serial numbers that have a two letter prefix followed by two digits (possibly the year of manufacture) followed by 6 digits. - partial serial number, usually the last four digits may be found on other metal parts such as the body cover, breech block and breech block carrier. - serial number usually consists of a "PW85" prefix followed by three zeroes and finally three numbers. (eg. PW85000262)
Calibre	- calibre is marked on the left side of the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- "TYPE 56-3" is usually marked on the left side of the receiver/frame just above the trigger.
- "Type 56-3" is similar in design to the AKM with a stamped steel receiver/frame.
- features include: wood forestock, butt and pistol grip , rear sight located at the rear of the barrel, front sight located near the muzzle, and bottom folding bayonet.

Manufacturer

- the manufactures designation is usually marked on the left side of the receiver/frame as a triangle with the factory number inside.

Action

- gas operated.

Serial Number

- the serial number is usually marked on the left side of the receiver/frame just below and rearward of the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the left side of the receiver/frame as "CAL. 5.56".
Shots	- detachable box magazine.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- "TYPE 56-4" is marked on the left side of the receiver/frame.
- "Type 56-4" is similar in design to the AKM with a stamped sheet metal receiver/frame.
- this "Type 56-4" was manufactured to only function as a semi-automatic: hammer lacks a "full-auto bent", trigger lacks "full-auto tail".
- marked on the right side of the receiver: upper notch with "S" for "SAFE", bottom notch with "F" for "FIRE" (semi-automatic), middle notch unmarked (functions in semi-automatic)
- this model has a skeleton metal under-folding shoulder stock; the knurled stock lock-release button is on the left side stock pivot (with the rear sling swivel), and the skeleton butt-plate rotates ninety degrees to user position.
- the receiver of the firearm (with the wood pistol-grip) is typically Kalashnikov: with a short wood forend, an over-barrel gas tube assembly partially covered with the short top-wood; and a cleaning rod carried under-barrel and an attached extendable triangular bayonet.

Manufacturer

- the manufacturer's name is not marked on the firearm.
- the manufacturer's logo is marked on the left forward side of the receiver/frame and appears as a stylized "416" within a triangle.

Action

- gas operated, semi-automatic only (not selective fire).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left hand side of the receiver/frame.
- example reported with two letter prefix (usually "PF") followed by eight digits of which the first two are possibly the year of manufacture.
- partial serial numbers, usually the last four digits may be found on other metal parts such as the body cover, breech-block, breech-block carrier.

Shots

- detachable box magazine.
- usually issued with 30 shot capacity magazine.

Firearm Reference Number (FRN): 102615
Make: Kalashnikov
Model: Type 58 AK47

Summary

Make:	Kalashnikov
Model:	Type 58 AK47
Manufacturer:	North Korean State Arsenals
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	KOREA, NORTH
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
102615 - 1	7.62X39 RUSSIAN	5	415	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
102615 - 2	7.62X39 RUSSIAN	30	415	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- model designation not marked on firearm.
- Type 58 was a copy of the Russian model AK47.
- Type 58 uses a machined steel receiver/frame and has a fixed wooden stock or folding steel stock.

Manufacturer

- "star" with five points inside a circle is marked on the left side of the receiver/frame
- "star" with five points, or a "star" with five points inside a circle, or a "star" with five points inside two circles indicates manufactured in North Korea.
- Type 58 rifles were manufactured in the North Korean State Arsenal, Factory 61 and 65.

Action

- no longer capable of full automatic fire.

Serial Number

- usually located on left side of receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- the model designation is not marked on the firearm.
- this firearm is a variant of the Kalashnikov AKM rifle, with a side-folding stock.
- the folding stock is similar in shape to the former East German (D.D.R.) production AKMS rifle model.
- features include: skeletonized metal side-folding butt stock folds parallel to the right side of the receiver frame and does not impede firing; stamped sheet steel receiver/frame; illuminated open sights for low level light operations; an optical sight mount rail may be mounted on the left side of the receiver/frame; AK-74 style muzzle brake; iron sight radius of 370mm.
- this firearm has a fire selector located on the left side of the receiver/frame above and slightly to the rear of the trigger; a Kalashnikov style selector lever is found on the right side of the receiver/frame in the traditional position but acts only as a safety catch and acts independently from the fire selector.
- rate of fire is 700 shots per minute.
- overall length for this rifle manufactured with a 423mm barrel is 742mm (29 ¼") with the butt stock folded, and 943mm (37 1/8") with the butt extended; average unloaded weight is 3.4kg (7.5lbs).

Manufacturer

- the manufacturer's name or logo will be found on the left upper portion of the receiver/frame just below the body cover.

Action

- gas operated.
- capable of full automatic, 3 round burst and semi automatic fire.
- the selector switch is marked as follows: C - full automatic, P - single shot, and S - 3 shot burst.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number will be found on the left upper portion of the receiver/frame just below the body cover.
Shots	- detachable box magazine.
Other Markings	- the selector switch is marked as follows: "C" for full automatic, "P" for single shot, and "S" for 3 shot burst. - the safety mechanism, found in the traditional Kalashnikov fire selector position, is marked with "Z" for safe and "O" for fire.
Remarks	- this firearm is a Polish improved version of the Kalashnikov AK-74. - this firearm was designed in the early 1980's and adopted by the Polish military in 1990 as the kbs wz. 88. - the wz. 88 Tantal and the wz. 89 Onyks are the same basic firearm in different barrel lengths. - this Kalashnikov variant is adapted to mount a wz. 74 PALLAD, 40MM Grenade Launcher under the barrel handguard.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- model designation is not marked on the firearm.
- this is the Polish model designation for their variant of the "AK74S" with an additional three-round burst-firing capability and an East German-Style folding stock, modified after manufacture to be capable of semi-automatic fire only.
- model designation is not marked on the firearm.
- this firearm is a Kalashnikov AKM variant rifle, with a side-folding stock.
- the folding stock has a shape similar to the former D.D.R. production AKMS.
- features include: side folding butt stock; illuminated open sights for low level light operations; this firearm has a fire selector located on the left side of the receiver/frame above and slightly to the rear of the trigger. A Kalashnikov type selector lever is found on the right side of the receiver/frame in the traditional position but acts as a safety catch only and acts independently from the fire selector.
- the selector switch is marked as follows: C - full automatic, P - single shot, and S - 3 shot burst.
- the safety mechanism, found in the traditional Kalashnikov fire selector position, is marked as follows: Z - safe and O - fire.
- overall length for this rifle manufactured with a 425mm barrel is 742mm (29 ¼") with the butt stock folded, and 943mm (37 1/8") with the butt extended; average unloaded weight is 3.4kg (7.5lbs).

Manufacturer

- "11" inside an oval is marked on the left side of the receiver/frame.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number will be found on the left upper portion of the receiver/frame just below the body cover.
- an observed serial number was preceded by the manufacturer identification, the year of manufacture and consisted of a two letter prefix followed by four digits.

Shots

- detachable box magazine.

Remarks

- this firearm is a Polish improved version of the Kalashnikov AK-74.
- this firearm was designed in the early 1980's and adopted by the Polish military in 1990 as the kbs wz. 88.
- the wz. 88 Tantal and the wz. 89 Onyks are the same basic firearm in different barrel lengths.
- this Kalashnikov variant is adapted to mount a wz. 74 PALLAD, 40MM Grenade Launcher under the barrel handguard.

FRT Report

Firearm Reference Number (FRN): 102836
Make: Kalashnikov
Model: Wz88

Summary

Make:	Kalashnikov
Model:	Wz88
Manufacturer:	Polish State Arsenal, Factory 11
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	POLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
102836 - 1	5.45X39 RUSSIAN	5	425	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	
102836 - 2	5.45X39 RUSSIAN	30	425	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- model designation is not marked on the firearm.
- this firearm is a Kalashnikov AKM variant rifle, with a side-folding stock.
- the folding stock has a shape similar to the former D.D.R. production AKMS.
- features include: side folding butt stock; illuminated open sights for low level light operations; this firearm has a fire selector located on the left side of the receiver/frame above and slightly to the rear of the trigger. A Kalashnikov type selector lever is found on the right side of the receiver/frame in the traditional position but acts as a safety catch only and acts independently from the fire selector.
- the selector switch is marked as follows: C - full automatic, P - single shot, and S - 3 shot burst.
- the safety mechanism, found in the traditional Kalashnikov fire selector position, is marked as follows: Z - safe and O - fire.
- overall length for this rifle manufactured with a 425mm barrel is 742mm (29 ¼") with the butt stock folded, and 943mm (37 1/8") with the butt extended; average unloaded weight is 3.4kg (7.5lbs).

Manufacturer

- "11" inside an oval is marked on the left side of the receiver/frame.

Action

- gas operated.
- capable of full automatic, 3 round burst and semi automatic fire.
- the selector switch is marked as follows: C - full automatic, P - single shot, and S - 3 shot burst.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number will be found on the left upper portion of the receiver/frame just below the body cover.
- an observed serial number was preceded by the manufacturer identification, the year of manufacture and consisted of a two letter prefix followed by four digits.

Shots

- detachable box magazine.

Remarks

- this firearm is a Polish improved version of the Kalashnikov AK-74.
- this firearm was designed in the early 1980's and adopted by the Polish military in 1990 as the kbs wz. 88.
- the wz. 88 Tantal and the wz. 89 Onyks are the same basic firearm in different barrel lengths.
- this Kalashnikov variant is adapted to mount a wz. 74 PALLAD, 40MM Grenade Launcher under the barrel handguard.

FRT Report

Firearm Reference Number (FRN): 31677
Make: Kalashnikov
Model: Wz96

Summary

Make:	Kalashnikov
Model:	Wz96
Manufacturer:	Lucznik
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	POLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
31677 - 2	5.56MM NATO	5	457	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	
31677 - 1	5.56MM NATO	30	457	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalashnikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalashnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalashnikov is used as the make for military versions of this firearm.

Model

- this firearm is a Kalashnikov variant rifle, with a side-folding stock.
- features include: side folding butt stock with rubber butt plate; permanently installed optical sight mount, illuminated open sights for low level light operations; optimized rifling twist to permit the accurate stabilization of both M193 and SS109 ball ammunition.
- this firearm has a fire selector located on the left side of the receiver/frame above and slightly to the rear of the trigger. A Kalashnikov type selector lever is found on the right side of the receiver/frame in the traditional position but acts as a safety catch only and acts independently from the fire selector.
- this firearm model is designed to fire a "bullet trap" rifle grenade.
- rate of fire = 700 shots per minute
- effective range = 700 meters
- sight radius = 372MM
- barrel length = 457MM
- length of rifle - butt folded = 742MM, butt extended = 943MM,
- rifle weight without magazine = 3350 grams, w/loaded magazine add 547 grams.

Manufacturer

- the manufacturer's trade mark will be found on the left upper portion of the receiver/frame just below the body cover.

Action

- gas operated.
- capable of full automatic, 3 round burst and semi-automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number will be found on the left upper portion of the receiver/frame just below the body cover.
- serial number rationalization unknown.

Calibre

- optimized rifling twist to permit the accurate stabilization of both M193 and SS109 ball ammunition,
- rifling characteristics: - 6 grooves, one turn in 228 mm (1 turn in 9in)
- muzzle velocity = Vo 920 m/s
- muzzle energy = Eo 1690 j.

Shots

- detachable box magazine.
- the Model 96 Automatic Carbine variant of this rifle has both 30 and 20 shot magazines. The 20 shot magazine is not supplied with the Model 96 Automatic Rifle although it is compatible with this firearm.

Remarks

- this firearm is an improved version of the wz. 88 and the wz. 90 Tantal Rifles, which are the same basic firearms.
- this firearm model is a variant of the Kalashnikov AKM design.
- this Kalashnikov variant is adapted to mount a "PALLAD", 40MM Grenade Launcher under the barrel handguard.
- service life estimated to be 10,000 rounds, by manufacturer.
- service life estimated to be 150 rounds in grenade launching mode by manufacturer.
- magazine life estimated to be 5,000 rounds plus by manufacturer.

Notes

Make

- "KALASHNIKOV" is not marked on the firearm.
- Kalasknikov as a make is in reference to the designer's last name, Mikhail Timofeyevich Kalishnikov of the "Automat Kalasnikova obrazets 1947" assault rifle.
- Kalishnikov is used as the make for military versions of this firearm.

Model

- this firearm is a Kalashnikov variant rifle, along the lines of the "Russian AKSU", with a side-folding stock.
- features include: side folding butt stock with rubber butt plate; permanently installed optical sight mount, illuminated open sights for low level light operations; optimized rifling twist to permit the accurate stabilization of both M193 and SS109 ball ammunition.
- this firearm has a fire selector located on the left side of the receiver/frame above and slightly to the rear of the trigger. A Kalashnikov type selector lever is found on the right side of the receiver/frame in the traditional position but acts as a safety catch only and acts independently from the fire selector.
- rate of fire = 700 shots per minute.
- overall length for this rifle manufactured with a 457mm barrel is 742mm with the butt stock folded, and 943mm with the butt extended; average unloaded weight is 3.35kg.

Manufacturer

- "11" in an oval is marked on the left side of the receiver/frame.

Action

- gas operated.
- capable of full automatic, 3 round burst and semi-automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number will be found on the left upper portion of the receiver/frame just below the body cover.
- traditional Polish serial number rationalizations observed on past models of the Kalashnikov design have had serial numbers preceded by the manufacturer identification, followed by the year of manufacture, followed by the actual serial number.
- serial number rationalization unknown.

Calibre

- optimized rifling twist to permit the accurate stabilization of both M193 and SS109 ball ammunition.
- rifling characteristics: - 6 grooves, one turn in 228 mm (1 turn in 9in).
- muzzle velocity = Vo 920 m/s.

Shots

- detachable box magazine.
- the Model 96 Automatic Carbine variant of this rifle has both 30 and 20 shot magazines. The 20 shot magazine is not supplied with the Model 96 Automatic Rifle although it is compatible with this firearm.

Remarks

- this firearm is an improved version of the wz. 88 and the wz. 90 Tantal Rifles, which are the same basic firearm in different calibres.
- this firearm model is a variant of the Kalashnikov AKM design.
- this Kalashnikov variant is adapted to mount a "PALLAD", 40MM Grenade Launcher under the barrel handguard.
- service life estimated to be 10,000 rounds, by manufacturer.
- service life estimated to be 150 rounds in grenade launching mode by manufacturer.
- magazine life estimated to be 5,000 rounds plus by manufacturer.

Notes

Make

- KalibrGun's logo and "CRICKET" over "KalibrGun Valdy EU s.r.o." over "Made in Czech Republic" is marked on the left side of the receiver/frame.

Model

- "CRICKET" is marked on the left side of the receiver/frame.
- Cricket is a pre-charged pneumatic (PCP) air gun.
- Cricket is available in two stock configurations.
- traditional full length thumbhole type stock with adjustable cheek piece or a bull-pup stock.
- features include: no iron sights; weaver rail; round rifled barrel with a threaded muzzle and sound suppressor/silencer; pre-charged pneumatic cylinder with pressure gauge is mounted under the barrel; flat side monoblock receiver/frame with a rotary magazine; wood or synthetic thumbhole stock; blued or silver finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "KalibrGun Valdy EU s.r.o." over "Made in Czech Republic" is marked on the left side of the receiver/frame.
Action	- pneumatic powered. - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is marked on the left side of the receiver/frame.
Calibre	- calibre and "Max. press. 300 bar" are marked on the left side of the receiver/frame.
Shots	- removable rotary magazine.
Canadian Law Comments	- Kalibrgun Model Cricket Bullpup, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2) is removed the receiver/frame/barrel assembly may be correctly classified as "Non-Restricted". - The receiver/frame or complete action of the firearm, when the "bull-pup" stock ("Prohibited Device") is removed may be associated to the Kalibrgun Model Cricket. - this firearm left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - if the prohibited device (sound suppressor/silencer) were to be removed from the air gun, the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- KalibrGun's logo and "CRICKET" over "KalibrGun Valdy EU s.r.o." over "Made in Czech Republic" is marked on the left side of the receiver/frame.

Model

- "Cricket Bullpup" is not marked on the firearm.
- "CRICKET" is marked on the left side of the receiver/frame.
- Cricket is a pre-charged pneumatic (PCP) air gun.
- Cricket is available in two stock configurations.
- bull-pup stock or a traditional full length thumbhole type stock with adjustable cheek piece.
- features include: no iron sights; weaver rail; round rifled barrel with a threaded muzzle and sound suppressor/silencer; pre-charged pneumatic cylinder with pressure gauge is mounted under the barrel; flat side monoblock receiver/frame with a rotary magazine; wood or synthetic bull-pup stock; blued or silver finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "KalibrGun Valdy EU s.r.o." over "Made in Czech Republic" is marked on the left side of the receiver/frame.
Action	- pneumatic powered. - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is marked on the left side of the receiver/frame.
Calibre	- calibre and "Max. press. 300 bar" are marked on the left side of the receiver/frame.
Shots	- detachable rotary magazine.
Canadian Law Comments	- Kalibrgun Model Cricket Bullpup, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2) is removed the receiver/frame/barrel assembly may be correctly classified as "Non-Restricted". - the receiver/frame or complete action of the firearm, when the "bull-pup" stock ("Prohibited Device") is removed may be associated to the Kalibrgun Model Cricket. - this firearm left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - if the prohibited device (sound suppressor/silencer) were to be removed from the air gun, the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- "KASSNAR" or "KASSNAR IMPORTS" is marked on the barrel.
- Kassnar Imports, Incorporated was an importer and distributor located in Harrisburg, Pennsylvania, U.S.A.
- Kassnar Imports, Incorporated ceased operations in April of 1989.

Model

- no model name is marked on this firearm.
- this is a modern manufactured version of the American "Kentucky" style muzzle loading, side hammer, percussion sporting rifle.
- features include: octagonal barrel; ramrod under the barrel; colour case hardened hammer and lock; brass trigger guard, buttplate and patch box.

Manufacturer

- "MENDI" and/or the Mendi's logo is marked on the barrel.
- Mendi's logo consists of a small case letter "m" inside a circle (the letter "m" central line resembles a rifle).
- "Mendi" manufactured reproductions of muzzle loading, black powder firearms.
- "Mendi" was located in Spain.

Action

- muzzle loading, side hammer, percussion ignition.

Serial Number

- known example had a five digit number without prefix or suffix marked on the rear left side of the barrel/receiver/frame.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- serial number break down, the first two numbers (61) are the code numbers for the manufacture, the next two numbers (13) are the code numbers for muzzle loader, the next numbers are the serial number sequence, and the last two numbers (97) are the year of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is marked on the rear left side of the barrel. - known example was marked, "CAL 45".
Other Markings	- known example marked "MADE IN SPAIN" on the rear left side of the barrel.

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model is marked on the firearm, in Cyrillic; the Cyrillic representation of "AGS-30" resembles "ArC-30". "AGS-30" stands for "Avtomatichesky Granatomyot Stankovy-30", or "Automatic Grenade-launcher, Mounted, 30". This grenade-launcher was introduced in 2002, is known as the "Atlant" ("Atlas") or 6G25 in Russian service, and is a lightened, modified version of the AGS-17 "Plamya" ("Flame") grenade-launcher.
- features include: parkerized/phosphated finish; stubby barrel on a rectangular receiver; hinged top-cover/feed tray; right-side feed (usually from a 30-round box); a vertical cocking lever on the right side of the receiver; a prismatic illuminated (for night-firing) sight mounted on the left rear side of the receiver; and dual horizontal spade grips at the lower rear of the receiver. This grenade-launcher is normally seen on a folding tripod mount, and can be broken down into backpack-sized loads for easy transport.
- may also be seen on vehicle and helicopter mounts.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- blowback.

Serial Number

- numbered on the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 143472
Make: KBP
Model: PP-2000

Summary

Make:	KBP
Model:	PP-2000
Manufacturer:	KBP/TsKIB SOO
Level:	Manufacturer Specifications and Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
143472 - 1	9MM LUGER	20	139	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
143472 - 2	9MM LUGER	44	139	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof may be marked on the firearm.

Model

- the model is marked on the left side of the firearm.
- this is a very unusual appearing submachine gun made with modern manufacturing techniques in order to speed production and reduce costs; this submachine gun entered service with the Russian military in 2006.
- features include: a molded synthetic lower receiver/frame with an integral fore-grip that also forms the trigger guard; a side-folding single strut stock with perpendicular buttplate; a "bird-cage" style flash suppressor with integral front sight; an ambidextrous cocking lever that lays along the top of the barrel; sight mounting dovetail on the top of the receiver with a fixed notch rear sight; and a flat safety/selector lever on the left side of the lower receiver to allow selection of safe/semi-automatic/full automatic fire.
- made with 20 and 44 round magazines, and the rear of the lower receiver/frame has a square socket inlet into it to allow a spare 44 round magazine to be inserted and carried as a fixed "stock" of sorts.
- may be seen with a variety of laser or optical sighting systems.

Manufacturer

- the manufacturer or logo thereof may be marked on the firearm.

Action

- blowback operated.

Serial Number

- numbered on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

198443 - 1	410 GA X 3"	10	470	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KEL TEC" is marked on the firearm in various places.

Model

- "KSG410" is marked on the left side of the receiver/frame.
- "KSG410" is marked on the right side of the firearm.
- "KSG410" is a unique pump action, bullpup design shotgun that features a single barrel over twin magazine tubes
- Features include: twin tubular magazines; dual operating bars; carrying handle with a channel that houses the front and rear sights; manual magazine selector lever located below the barrel; large loading/ejection port located at the bottom of the receiver/frame behind the pistol grip; front side mounted action release lever; cross bolt manual safety located above the grip.
- Overall length with a 470 mm (18.5 inches) barrel is 663 mm (26.1 inches), average weight is 2.4 kg (5.4 lbs).

Manufacturer

- "KEL TEC" is marked on the firearm in various places.
- "KEL-TEC CNC INC." is marked on the left side of the firearm.

Serial Number

- The serial number is marked on the left side of the receiver/frame.

Calibre

- The calibre designation is marked on the left side of the receiver/frame.
- Calibre of a referenced example was marked as "410 Bore 3".

Shots

- Fixed tubular magazine.

Canadian Law Comments

- This firearm has been determined to be a bull-pup design and does not incorporate a bull-pup stock.

197538 - 1	5.7X28 FN	50	244	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Kel Tec" is marked on the left side of the receiver/frame.
- "Kel Tec" is marked on the right side of the receiver/frame.
- Trade name used by "Kel-Tec Inc.".

Model

- Introduced in 2021.
- "P50 Pistol" is marked on the left side of the firearm.
- Extended ambidextrous thumb safety located on the receiver/frame.
- Features include: front hinged receiver/frame for magazine load; magazine release lever/toggle located at the rear of the firearm; ambidextrous half-moon grooves in forend for stabilizing grip; non-swivel sling mounts.
- Overall length with a 244 mm (9.6 inches) barrel is 380 mm (15 inches), average weight is 1.43 kg (3.2 lbs).

Manufacturer

- "Kel-Tec Inc." is marked on the left side of the receiver/frame.

Action

- Blowback operated.

Serial Number

- The serial number is marked on the left side of the firearm.
- The serial number rationalization is unknown.
- Observed sample serial number consisted of four (4) letter prefix followed by two (2) numbers.

Calibre

- The calibre designation is marked on the left side of the firearm.
- Rifling characteristics in calibre 5.7x28mm FN: 6 grooves, 1 turn in 7 inches, right hand twist.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- Magazine introduced in 2021, factory specification for 50 rounds.
- Uses FN P90/PS90 magazines. Detachable magazine, non-traditional box style with top rotary loading feature.

Canadian Law Comments

- In the case of this firearm, it has been determined that the component commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the manufacturer's identification, model identification, proof information, and the full serial number is marked, is the receiver/frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

FRT Report

Firearm Reference Number (FRN): 198792
Make: Kel Tec
Model: PLR-16F

Summary

Make:	Kel Tec
Model:	PLR-16F
Manufacturer:	Kel Tec CNC Industries
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
198792 - 1	223 REM	10	234	Prohibited PFR, Part 1, para. 152(b)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- The company logo is marked on the receiver/frame. - The company logo consists of the company name "KEL TEC" written in a stylized manner with the word "KEL" over the word "TEC". - "KEL-TEC CNC INC" is marked on the right side of the receiver/frame.
Model	- "PLR-16F" is marked on the right side of the receiver/frame. - Features include: top mounted accessory rail; right side charging handle; magazine release located on the right side of the receiver/frame; may come equipped with a synthetic handguard.
Manufacturer	- "KEL-TEC CNC INC" is marked on the right side of the receiver/frame.
Action	- Gas operated.
Serial Number	- The serial number is marked on the right side of the receiver/frame.
Calibre	- The calibre designation is marked on the right side of the receiver/frame.
Shots	- Detachable box magazine. - Designed to accept "AR-15" type magazines.

Notes

Make

- The company logo is marked on the receiver/frame.

Model

- The model designation is marked on the right side of the receiver/frame.
- "PLR-16 R" is a handgun variation of Kel-Tec's SU-16 rifle design, also with the ability to accept AR-15/M16-style rifle magazines.
- Features include: threaded muzzle; open adjustable sights; accessory rail for mounting optics; fiberglass-reinforced polymer receiver/frame; blued metal finish with black polymer furniture; cross-bolt safety; available with a number of accessories, including a forearm that covers the barrel and bolt carrier op-rod.

Manufacturer

- "KEL-TEC CNC INC.", "COCOA FL" and "MADE IN USA" is usually marked on the right side of the receiver/frame.
- "Kel-Tec CNC Industries Incorporated" was originally a CNC machine shop.
- "Kel-Tec CNC Industries Incorporated" was established in 1991.
- "Kel-Tec CNC Industries Incorporated" began manufacturing firearms in 1995.

Action

- Gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the forward, top side of the receiver/frame. - The serial number of a referenced example consisted of a three letter prefix and two numbers.
Calibre	- The calibre designation is marked on the right side of the receiver/frame.
Shots	- Uses all magazines available for AR15/M16 type rifles.

Notes

Make

- "PLR-22 .22LR" over "KEL-TEC CNC INC." over "COCOA FL" over "MADE IN USA" was observed marked on the right side of the receiver/frame.

Model

- introduced in 2008.
- "PLR-22 .22LR" was observed marked on the right side of the receiver/frame.
- this is a handgun variation of Kel-Tec's SU-16 and SU-22 rifle design.
- features include: open adjustable sights; round barrel with threaded muzzle to accept flash-hiders and similar accessories; black fibreglass-reinforced polymer receiver/frame with integral Picatinny rail and right side ejection; knurled bolt charging handle; cross-bolt safety; push button magazine release; blued metal finish.
- available with a number of accessories, including a forearm that covers the barrel and bolt carrier op-rod (the standard pistol leaves these components bare).
- overall length is 470mm (18 1/2") and average weight is 1.3 kg (2.8 lbs).

Manufacturer

- Kel Tec / Kel-Tec CNC Industries Incorporated is located in Cocoa, Florida, U.S.A.
- Kel Tec / Kel-Tec CNC Industries Incorporated was established in 1991.
- Kel Tec / Kel-Tec CNC Industries Incorporated was originally a CNC machine shop.
- Kel Tec / Kel-Tec CNC Industries Incorporated began manufacturing firearms in 1995.

Action

- blowback operated.

Serial Number

- serial number is marked on the side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- ".22LR" was observed marked on the right side of the receiver/frame.
- rifling characteristics: 1 turn in 16 inches.

Shots

- detachable box magazine.

Notes

Make

- KEL-TEC INC is marked on the left side of the receiver/frame.
KEL TEC is marked on both sides of the firearm.

Model

- Introduced in 2023.
- R50 Rifle is marked on the left side of the receiver/frame.
- Features include: round, rifled barrel with threaded muzzle and thread protector; front hinged receiver/frame with continuous top accessory rail; charging handle at rear; bottom accessory rail forward of trigger; safety lever at rear of grip frame, behind trigger; magazine release at rear of grip frame; folding stock; black finish.
- Overall length with a 410 mm (16.1 inches) barrel is 546 mm (21.5 inches) with the stock collapsed, average weight is 1.5 kg (3.5 lbs).
- Overall length with a 410 mm (16.1 inches) barrel is 775 mm (30.5 inches) with the stock extended, average weight is 1.5 kg (3.5 lbs).
- The R50 rifle uses the same receiver/frame as the Kel Tec P50 handgun.

Manufacturer

- KEL-TEC INC is marked on the left side of the receiver/frame.

Action

- Blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the left side of the receiver/frame. - Observed sample serial number consisted of a two letter prefix followed by a four digit number.
Calibre	- The calibre designation is marked on the left side of the receiver/frame.
Shots	- Detachable box magazine. - Uses FN P90/PS90 magazines. Detachable magazine, non-traditional box style with top rotary loading feature.
Canadian Law Comments	- In the case of this firearm, it has been determined that the component commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the manufacturer's identification, model identification, proof information, and the full serial number is marked, is the receiver/frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Make

- "KEL" over "TEC" was observed marked on the left side of the receiver/frame.
- "KEL-TEC CNC INC COCOA FL", "serial number", and "MADE IN USA" were observed marked on the right side of the firearm above the magazine.

Model

- introduced in 2007.
- "RFB" was observed marked on the left side of the firearm above the magazine.
- "RFB" is the acronym for "Rifle Forward ejection Bullpup".
- this firearm uses a "bullpup" design.
- the forward ejection of the spent cartridge cases is done when a case is sent into the tubular shape ejection chute which is aiming to the right of the firearm and is located above the barrel.
- "RFB" uses a FN FAL magazine.
- features include: round barrel (457mm/18" barrel with a flash hider); accessory rail located above the ejection chute; ambidextrous thumb safety; single trigger guard; magazine is located behind the pistol grip.
- overall length with a 457mm (18") barrel is 660mm (26"), average weight is 3.68kg (8.1lbs).
- overall length with a 813mm (32") barrel is 1016mm (40"), average weight is 5.14kg (11.3lbs).

Manufacturer

- Kel Tec / Kel-Tec CNC Industries Incorporated is located in Cocoa, Florida, U.S.A.
- Kel Tec / Kel-Tec CNC Industries Incorporated was established in 1991.
- Kel Tec / Kel-Tec CNC Industries Incorporated was originally a CNC machine shop.
- Kel Tec / Kel-Tec CNC Industries Incorporated began manufacturing firearms in 1995.

Action

- gas operated.

Serial Number

- one sample observed featured the serial number located on the right side of the firearm and consisted of one alpha prefix followed by four digits.

Barrel

- overall length of the 470mm (18.5") barrel with flash hider is 508mm (20").

Calibre

- "7.62 NATO" was observed marked on the left side of the firearm above the magazine.

Shots

- detachable box magazine.

Notes

Make

- "KEL" over "TEC" or "KEL-TEC" is marked on the left side of the receiver/frame.
- "KEL-TEC CNC INC" over "COCOA FL" over "MADE IN USA" is marked on the right side of the receiver/frame.

Model

- "RMR30" is marked on the right side of the receiver/frame.
- "RMR30" rifle uses a reinforced polymer construction, based on the PMR30 pistol.
- Features include: round rifled barrel with threaded muzzle; Picatinny rail running the length of the receiver, Picatinny rail handguard; flat top, ambidextrous safety; magazine catch is located on the right side of the receiver/frame; synthetic pistol grip frame with a sliding, collapsible frame stock.
- Overall length with a 408 mm (16.1") is 571mm (22.5") with the stock collapsed, average weight is 1.72kg (3.8lbs).

Manufacturer

- "KEL" over "TEC" or "KEL-TEC" is marked on the left side of the receiver/frame.
- "KEL-TEC CNC INC" over "COCOA FL" over "MADE IN USA" is marked on the right side of the receiver/frame.

Action

- Blowback operated.

Serial Number

- Numbered on the receiver/frame.

Shots

- Detachable box magazine.

Notes

Make

- "KEL" over "TEC" is marked on the left side of the receiver/frame.
- "KEL-TEC CNC INC" over "COCOA FL" over "MADE IN USA" is marked on the right side of the receiver/frame.

Model

- introduced in 2003.
- "SU-16" is marked on the right side of the receiver/frame.
- this is a generic entry for Kel Tec model SU-16 family of rifles.
- "SU-16" uses a reinforced polymer construction except for the steel barrel and operating components.
- features include: open sights; round rifled barrel with or without a threaded muzzle for attachment of a muzzle brake; round fixed ventilated forearm with Picatinny rails or a forearm which folds down to become a bipod; receiver/frame has an integral Picatinny rail; M16 type breech locking and feeding system; ambidextrous safety; magazine catch is located on the right side of the receiver/frame; synthetic rotating buttstock and trigger mechanism or a fixed pistol grip with an under folding or telescoping buttstock; blued or parkerized finish.
- "SU-16" family of firearms can be fitted with an AR15 type pistol grip/trigger mechanism assembly only, or an underfolding AR15 type pistol grip/trigger mechanism assembly with a M4 type telescoping buttstock, or an under folding synthetic full length buttstock/trigger mechanism assembly, or a synthetic pistol grip with an under folding buttstock as used on the SU-16C.
- Kel Tec model SU-16 family of rifles includes: see Other Notes/Remarks.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- Kel Tec / Kel-Tec CNC Industries Incorporated is located in Cocoa, Florida, U.S.A.
- Kel Tec / Kel-Tec CNC Industries Incorporated was established in 1991.
- Kel Tec / Kel-Tec CNC Industries Incorporated was originally a CNC machine shop.
- Kel Tec / Kel-Tec CNC Industries Incorporated began manufacturing firearms in 1995.

Action

- gas operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Calibre

- calibre is marked on the right side of the receiver/frame.

Shots

- utilizes an M16-type detachable box magazine.

Remarks

- "SU-16" variants:
- "SU-16A" features include: front sight mounted on the barrel; forearm which folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Cannot be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).
- "SU-16B" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Cannot be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 632.5 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.0 kg (4.5 lbs).
- "SU-16C" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 406 mm (16.0") barrel with the buttstock in the folded position is 648mm (25.5"), and with the stock in the extended 902 mm (35.5"), and average weight is 2.0 kg (4.7 lbs).
- "SU-16CA" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Cannot be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 633 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.1 kg (4.7 lbs).
- "SU-16D" features include: 229 mm or 297 mm barrel with a bayonet lug and threaded muzzle with muzzle brake; front sight is intergrated into the gas block; short ventilated handguard with Picatinny rail ; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 229 mm (9.2") barrel and the stock in the folded position is 506 mm (19.9") and in the open position is 760 mm (29.9), and average weight is 1.68 kg (3.7 lbs).
- overall length with a 297mm (11.7") barrel and the stock in the folded position is 569mm (22.4"), and average weight is 1.73 kg (3.8 lbs).
- "SU-16E" main characteristic is the use of a pistol grip/trigger mechanism assembly with an attachment to install an AR15/M4 carbine type collapsible, side folding or rigid stock, that is also sold as an accessory.
- overall length with a 408 mm (16.1") is 813mm (32") with the stock collapsed, average weight is 2.1kg (4.7lbs)
- "SU-16F" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a forward rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Cannot be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).

Manufacturer

- Kel Tec / Kel-Tec CNC Industries Incorporated is located in Cocoa, Florida, U.S.A.
- Kel Tec / Kel-Tec CNC Industries Incorporated was established in 1991.
- Kel Tec / Kel-Tec CNC Industries Incorporated was originally a CNC machine shop.
- Kel Tec / Kel-Tec CNC Industries Incorporated began manufacturing firearms in 1995.

Action

- gas operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Calibre

- calibre is marked on the right side of the receiver/frame.

Shots

- utilizes AR15/M16 type detachable box magazine and drums.

Remarks

- "SU-16" variants:
- "SU-16A" features include: front sight mounted on the barrel; forearm which folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).
- "SU-16B" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 632.5 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.0 kg (4.5 lbs).
- "SU-16C" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 406 mm (16.0") barrel with the buttstock in the folded position is 648mm (25.5"), and with the stock in the extended 902 mm (35.5"), and average weight is 2.0 kg (4.7 lbs).
- "SU-16CA" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 633 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.1 kg (4.7 lbs).
- "SU-16D" features include: 229 mm or 297 mm barrel with a bayonet lug and threaded muzzle with muzzle brake; front sight is intergrated into the gas block; short ventilated handguard with Picatinny rail ; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 229 mm (9.2") barrel and the stock in the folded position is 506 mm (19.9") and in the open position is 760 mm (29.9), and average weight is 1.68 kg (3.7 lbs).
- overall length with a 297mm (11.7") barrel and the stock in the folded position is 569mm (22.4"), and average weight is 1.73 kg (3.8 lbs).
- "SU-16E" main characteristic is the use of a pistol grip/trigger mechanism assembly with an attachment to install an AR15/M4 carbine type collapsible, side folding or rigid stock, that is also sold as an accessory.
- overall length with a 408 mm (16.1") is 813mm (32") with the stock collapsed, average weight is 2.1kg (4.7lbs)
- "SU-16F" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a forward rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).

Notes

Make

- "KEL" over "TEC" or "KEL-TEC" is marked on the left side of the receiver/frame.
- "KEL-TEC CNC INC" over "COCOA FL" over "MADE IN USA" is marked on the right side of the receiver/frame.

Model

- Kel Tec model SU-16 was introduced in 2011.
- "SU-16" is marked on the right side of the receiver/frame.
- "SU-16B" uses a reinforced polymer construction except for the steel barrel and operating components.
- features include: open sights; front sight is mounted on the barrel and rear sight is mounted on the Picatinny rail; round rifled barrel; forearm folds down to become a bipod; receiver/frame has an integral Picatinny rail; M16 type breech locking and feeding system; ambidextrous safety; magazine catch is located on the right side of the receiver/frame; synthetic forward rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock.
- "SU-16B" can not be fired when the buttstock/trigger mechanism assembly is in the folded position.
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 632.5 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.0 kg (4.5 lbs).
- "SU-16" family of firearms can be fitted with an AR15 type pistol grip/trigger mechanism assembly only, or an underfolding AR15 type pistol grip/trigger mechanism assembly with a M4 type telescoping buttstock, or an under folding syntheic full length buttstock/trigger mechanism assembly, or a synthetic pistol grip with an under folding buttstock as used on the SU-16C.
- Kel Tec model SU-16 family of rifles includes: see Other Notes / Remarks.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- Kel Tec / Kel-Tec CNC Industries Incorporated is located in Cocoa, Florida, U.S.A.
- Kel Tec / Kel-Tec CNC Industries Incorporated was established in 1991.
- Kel Tec / Kel-Tec CNC Industries Incorporated was originally a CNC machine shop.
- Kel Tec / Kel-Tec CNC Industries Incorporated began manufacturing firearms in 1995.

Action

- gas operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Calibre

- calibre is marked on the right side of the receiver/frame.

Shots

- utilizes AR15/M16 type detachable box magazine and drums.

Remarks

- "SU-16" variants:
- "SU-16A" features include: front sight mounted on the barrel; forearm which folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).
- "SU-16B" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 632.5 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.0 kg (4.5 lbs).
- "SU-16C" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 406 mm (16.0") barrel with the buttstock in the folded position is 648mm (25.5"), and with the stock in the extended 902 mm (35.5"), and average weight is 2.0 kg (4.7 lbs).
- "SU-16CA" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 633 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.1 kg (4.7 lbs).
- "SU-16D" features include: 229 mm or 297 mm barrel with a bayonet lug and threaded muzzle with muzzle brake; front sight is intergrated into the gas block; short ventilated handguard with Picatinny rail ; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 229 mm (9.2") barrel and the stock in the folded position is 506 mm (19.9") and in the open position is 760 mm (29.9), and average weight is 1.68 kg (3.7 lbs).
- overall length with a 297mm (11.7") barrel and the stock in the folded position is 569mm (22.4"), and average weight is 1.73 kg (3.8 lbs).
- "SU-16E" main characteristic is the use of a pistol grip/trigger mechanism assembly with an attachment to install an AR15/M4 carbine type collapsible, side folding or rigid stock, that is also sold as an accessory.
- overall length with a 408 mm (16.1") is 813mm (32") with the stock collapsed, average weight is 2.1kg (4.7lbs)
- "SU-16F" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a forward rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).

Model

- Kel Tec model SU-16 was introduced in 2011.
- "SU-16" is marked on the right side of the receiver/frame.
- "SU-16C" uses a reinforced polymer construction except for the steel barrel and operating components.
- features include: open sights; front sight is integrated into the gas block and rear sight is mounted on the Picatinny rail; round rifled barrel with threaded muzzle; forearm folds down to become a bipod; receiver/frame has an integral Picatinny rail; M16 type breech locking and feeding system; ambidextrous safety; magazine catch is located on the right side of the receiver/frame; synthetic pistol grip with under folding buttstock.
- "SU-16C" can be fired when the buttstock is in the folded position.
- overall length with a 406 mm (16.0") barrel with the buttstock in the folded position is 648mm (25.5"), and with the stock in the extended 902 mm (35.5"), and average weight is 2.0 kg (4.7 lbs).
- "SU-16" family of firearms can be fitted with an AR15 type pistol grip/trigger mechanism assembly only, or an underfolding AR15 type pistol grip/trigger mechanism assembly with a M4 type telescoping buttstock, or an under folding synthetic full length buttstock/trigger mechanism assembly, or a synthetic pistol grip with an under folding buttstock as used on the SU-16C.
- Kel Tec model SU-16 family of rifles includes: see Other Notes/Remarks.
- Overall length with a 408 mm (16 inches) barrel is 648 mm (25.5 inches) with the stock collapsed.

Manufacturer

- Kel Tec / Kel-Tec CNC Industries Incorporated is located in Cocoa, Florida, U.S.A.
- Kel Tec / Kel-Tec CNC Industries Incorporated was established in 1991.
- Kel Tec / Kel-Tec CNC Industries Incorporated was originally a CNC machine shop.
- Kel Tec / Kel-Tec CNC Industries Incorporated began manufacturing firearms in 1995.

Action

- gas operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Calibre

- calibre is marked on the right side of the receiver/frame.
- calibre identification is also usually marked on the barrel.
- 5.56MM NATO rifling characteristics: 1 turn in 9 inches, right hand twist.
- 300 AAC BLACKOUT rifling characteristics: 1 turn in 8 inches, right hand twist.

Shots

- utilizes AR15/M16 type detachable box magazine and drums.
- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- "SU-16" variants:
- "SU-16A" features include: front sight mounted on the barrel; forearm which folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).
- "SU-16B" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 632.5 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.0 kg (4.5 lbs).
- "SU-16C" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 406 mm (16.0") barrel with the buttstock in the folded position is 648mm (25.5"), and with the stock in the extended 902 mm (35.5"), and average weight is 2.0 kg (4.7 lbs).
- "SU-16CA" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 633 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.1 kg (4.7 lbs).
- "SU-16D" features include: 229 mm or 297 mm barrel with a bayonet lug and threaded muzzle with muzzle brake; front sight is intergrated into the gas block; short ventilated handguard with Picatinny rail ; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 229 mm (9.2") barrel and the stock in the folded position is 506 mm (19.9") and in the open position is 760 mm (29.9), and average weight is 1.68 kg (3.7 lbs).
- overall length with a 297mm (11.7") barrel and the stock in the folded position is 569mm (22.4"), and average weight is 1.73 kg (3.8 lbs).
- "SU-16E" main characteristic is the use of a pistol grip/trigger mechanism assembly with an attachment to install an AR15/M4 carbine type collapsible, side folding or rigid stock, that is also sold as an accessory.
- overall length with a 408 mm (16.1") is 813mm (32") with the stock collapsed, average weight is 2.1kg (4.7lbs)
- "SU-16F" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a forward rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).

Remarks

- "SU-16" variants:
- "SU-16A" features include: front sight mounted on the barrel; forearm which folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).
- "SU-16B" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 632.5 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.0 kg (4.5 lbs).
- "SU-16C" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 406 mm (16.0") barrel with the buttstock in the folded position is 648mm (25.5"), and with the stock in the extended 902 mm (35.5"), and average weight is 2.0 kg (4.7 lbs).
- "SU-16CA" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 633 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.1 kg (4.7 lbs).
- "SU-16D" features include: 229 mm or 297 mm barrel with a bayonet lug and threaded muzzle with muzzle brake; front sight is intergrated into the gas block; short ventilated handguard with Picatinny rail ; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 229 mm (9.2") barrel and the stock in the folded position is 506 mm (19.9") and in the open position is 760 mm (29.9), and average weight is 1.68 kg (3.7 lbs).
- overall length with a 297mm (11.7") barrel and the stock in the folded position is 569mm (22.4"), and average weight is 1.73 kg (3.8 lbs).
- "SU-16E" main characteristic is the use of a pistol grip/trigger mechanism assembly with an attachment to install an AR15/M4 carbine type collapsible, side folding or rigid stock, that is also sold as an accessory.
- overall length with a 408 mm (16.1") is 813mm (32") with the stock collapsed, average weight is 2.1kg (4.7lbs)
- "SU-16F" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a forward rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).

Notes

Make

- "KEL" over "TEC" or "KEL-TEC" is marked on the left side of the receiver/frame.
- "KEL-TEC CNC INC" over "COCOA FL" over "MADE IN USA" is marked on the right side of the receiver/frame.

Model

- Kel Tec model SU-16 was introduced in 2011.
- "SU-16" is marked on the right side of the receiver/frame.
- "SU-16D" uses a reinforced polymer construction except for the steel barrel and operating components.
- features include: open sights; front sight is intergrated into the gas block and rear sight is mounted on the Picatinny rail; round rifled barrel with threaded muzzle; forearm folds down to become a bipod; receiver/frame has an integral Picatinny rail; M16 type breech locking and feeding system; ambidextrous safety; magazine catch is located on the right side of the receiver/frame; synthetic pistol grip with an under folding buttstock.
- "SU-16D" can be fired with the under folding buttstock in the folded position.
- "SU-16D9" overall length with a 229 mm (9.2") barrel and the stock in the folded position is 506 mm (19.9") and in the open position is 760 mm (29.9), and average weight is 1.68 kg (3.7 lbs).
- "SU-16D12" overall length with a 297mm (11.7") barrel and the stock in the folded position is 569mm (22.4"), and average weight is 1.73 kg (3.8 lbs).
- "SU-16" family of firearms can be fitted with an AR15 type pistol grip/trigger mechanism assembly only, or an underfolding AR15 type pistol grip/trigger mechanism assembly with a M4 type telescoping buttstock, or an under folding syntheic full length buttstock/trigger mechanism assembly, or a synthetic pistol grip with an under folding buttstock as used on the SU-16C.
- Kel Tec model SU-16 family of rifles includes: see Other Notes / Remarks.

Manufacturer

- Kel Tec / Kel-Tec CNC Industries Incorporated is located in Cocoa, Florida, U.S.A.
- Kel Tec / Kel-Tec CNC Industries Incorporated was established in 1991.
- Kel Tec / Kel-Tec CNC Industries Incorporated was originally a CNC machine shop.
- Kel Tec / Kel-Tec CNC Industries Incorporated began manufacturing firearms in 1995.

Action

- gas operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Calibre

- calibre is marked on the right side of the receiver/frame.

Shots

- utilizes AR15/M16 type detachable box magazine and drums.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- "SU-16" variants:
- "SU-16A" features include: front sight mounted on the barrel; forearm which folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).
- "SU-16B" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 632.5 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.0 kg (4.5 lbs).
- "SU-16C" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 406 mm (16.0") barrel with the buttstock in the folded position is 648mm (25.5"), and with the stock in the extended 902 mm (35.5"), and average weight is 2.0 kg (4.7 lbs).
- "SU-16CA" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 633 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.1 kg (4.7 lbs).
- "SU-16D" features include: 229 mm or 297 mm barrel with a bayonet lug and threaded muzzle with muzzle brake; front sight is intergrated into the gas block; short ventilated handguard with Picatinny rail ; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 229 mm (9.2") barrel and the stock in the folded position is 506 mm (19.9") and in the open position is 760 mm (29.9), and average weight is 1.68 kg (3.7 lbs).
- overall length with a 297mm (11.7") barrel and the stock in the folded position is 569mm (22.4"), and average weight is 1.73 kg (3.8 lbs).
- "SU-16E" main characteristic is the use of a pistol grip/trigger mechanism assembly with an attachment to install an AR15/M4 carbine type collapsible, side folding or rigid stock, that is also sold as an accessory.
- overall length with a 408 mm (16.1") is 813mm (32") with the stock collapsed, average weight is 2.1kg (4.7lbs)
- "SU-16F" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a forward rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- KEL over TEC or KEL-TEC is marked on the left side of the receiver/frame. - KEL-TEC CNC INC over COCOA FL over MADE IN USA is marked on the right side of the receiver/frame.
Model	- SU-16 was introduced in 2011. - SU-16 is marked on the right side of the receiver/frame. - SU-16 family uses a reinforced polymer construction. - SU-16E model is defined by its characteristics. - SU-16E main characteristic is the use of a pistol grip/trigger mechanism assembly with an attachment to install an AR15/M4 carbine type collapsible, side folding or rigid stock, that is also sold as an accessory. - Features include: round rifled barrel with threaded muzzle; open sights, front is integrated into the gas block and rear is mounted on the accessory rail; accessory rail handguard; flat top, integral accessory rail receiver/frame; ambidextrous safety; magazine catch is located on the right side of the receiver/frame; AR15/M16 type breech locking and feeding system; synthetic pistol grip with an adapter to install AR15/M4 carbine type collapsible, side folding or rigid stock. - Overall length with a 408 mm (16.1 inches) is 813 mm (32 inches) with the stock collapsed, average weight is 2.1 kg (4.7 lbs). - SU-16 family of firearms can be fitted with an AR15 type pistol grip/trigger mechanism assembly only, or an underfolding AR15 type pistol grip/trigger mechanism assembly with a M4 type telescoping buttstock, or an under folding synthetic full length buttstock/trigger mechanism assembly, or a synthetic pistol grip with an under folding buttstock as used on the SU-16C. - Kel Tec model SU-16 family of rifles includes: see Other Notes / Remarks. - Overall length with a 408 mm (16 inches) barrel is 902 mm (35.5 inches) with the stock extended.
Manufacturer	- Kel Tec / Kel-Tec CNC Industries Incorporated is located in Cocoa, Florida, U.S.A. - Kel Tec / Kel-Tec CNC Industries Incorporated was established in 1991. - Kel Tec / Kel-Tec CNC Industries Incorporated was originally a CNC machine shop. - Kel Tec / Kel-Tec CNC Industries Incorporated began manufacturing firearms in 1995.
Action	- Gas operated.
Serial Number	- Serial number is marked on the forward, right side edge of the receiver/frame. - Serial number of a referenced example consisted of one letter "N", a number, one letter (V) and two numbers. - Serial number of referenced examples consisted of one letter (N) and four numbers.
Calibre	- Calibre is marked on the right side of the receiver/frame. - Calibre identification is also usually marked on the barrel. - 5.56MM NATO rifling characteristics: 1 turn in 9 inches, right hand twist. - 300 AAC BLACKOUT rifling characteristics: 1 turn in 8 inches, right hand twist.
Shots	- Detachable box magazine. - Uses all magazines available for AR15/M16 type rifles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- SU-16 variants:
- SU-16A features include: front sight mounted on the barrel; forearm which folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- Overall length with a 470 mm (18.5 inches) barrel and the stock in the folded position is 670mm (26.4 inches) and in the open position is 950 mm (37.4 inches), and average weight is 2.3 kg (5.0 lbs).
- SU-16B features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- Overall length with a 406 mm (16.0 inches) barrel and the stock in the folded position is 632.5 mm (24.9 inches) and in the open position is 912 mm (35.9 inches), and average weight is 2.0 kg (4.5 lbs).
- SU-16C features include: threaded muzzle; front sight is integrated into the gas block; forearm folds down to become a bipod; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- Overall length with a 406 mm (16.0 inches) barrel with the buttstock in the folded position is 648 mm (25.5 inches), and with the stock in the extended 902 mm (35.5 inches), and average weight is 2.0 kg (4.7 lbs).
- SU-16CA features include: threaded muzzle; front sight is integrated into the gas block; forearm folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position.)
- Overall length with a 406 mm (16.0 inches) barrel and the stock in the folded position is 633 mm (24.9 inches) and in the open position is 912 mm (35.9 inches), and average weight is 2.1 kg (4.7 lbs).
- SU-16D features include: 229 mm or 297 mm barrel with a bayonet lug and threaded muzzle with muzzle brake; front sight is integrated into the gas block; short ventilated handguard with accessory rail ; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- Overall length with a 229 mm (9.2 inches) barrel and the stock in the folded position is 506 mm (19.9 inches) and in the open position is 760 mm (29.9), and average weight is 1.68 kg (3.7 lbs).
- Overall length with a 297mm (11.7 inches) barrel and the stock in the folded position is 569mm (22.4 inches), and average weight is 1.73 kg (3.8 lbs).
- SU-16E main characteristic is the use of a pistol grip/trigger mechanism assembly with an attachment to install an AR15/M4 carbine type collapsible, side folding or rigid stock, that is also sold as an accessory.
- Overall length with a 408 mm (16.1 inches) is 813 mm (32 inches) with the stock collapsed, average weight is 2.1 kg (4.7 lbs)
- SU-16F features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a forward rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Can not be fired when the buttstock/trigger mechanism assembly is in the folded position).
- Overall length with a 470 mm (18.5 inches) barrel and the stock in the folded position is 670 mm (26.4 inches) and in the open position is 950 mm (37.4 inches), and average weight is 2.3 kg (5.0 lbs).

Notes

Make

- "KEL" over "TEC" or "KEL TEC" is marked on the left side of the receiver/frame.
- "KEL-TEC CNC INC" over "COCOA FL" over "MADE IN USA" is marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 2011.
- "SU-16F" and ".223 REM" are marked on the right side of the receiver/frame.
- "SU-16F" uses a reinforced polymer construction except for the steel barrel and operating components.
- features include: open sights; front sight is mounted on the barrel or gas block and rear sight is mounted on the Picatinny rail; round, rifled barrel; forearm folds down to become a bipod or forearm has multiple rails; receiver/frame has an integral Picatinny rail; M16 type breech locking and feeding system; ambidextrous safety; magazine catch is located on the right side of the receiver/frame; AR15 type pistol grip with a M4 type telescoping forward rotating (under folding) buttstock or a synthetic forward rotating (under folding) buttstock and trigger mechanism assembly with extra magazine storage space in the buttstock.
- "SU-16F" can not be fired when the buttstock/trigger mechanism assembly is in the under folded position.
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670 mm (26.4") and in the open position is 950 mm (37.4"), and the average weight is 2.3 kgs (5.0 lbs).
- "SU-16" family of firearms can be fitted with an AR15 type pistol grip/trigger mechanism assembly only, or an underfolding AR15 type pistol grip/trigger mechanism assembly with a M4 type telescoping buttstock, or an under folding synthetic full length buttstock/trigger mechanism assembly, or a synthetic pistol grip with an under folding buttstock as used on the SU-16C.
- Kel Tec model SU-16 family of rifles includes: see Other Notes/Remarks.

Manufacturer

- Kel Tec / Kel-Tec CNC Industries Incorporated is located in Cocoa, Florida, U.S.A.
- Kel Tec / Kel-Tec CNC Industries Incorporated was established in 1991.
- Kel Tec / Kel-Tec CNC Industries Incorporated was originally a CNC machine shop.
- Kel Tec / Kel-Tec CNC Industries Incorporated began manufacturing firearms in 1995.

Action

- gas operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Calibre

- calibre is marked on the right side of the receiver/frame.

Shots

- utilizes AR15/M16 type detachable box magazine and drums.

Remarks

- "SU-16" variants:
- "SU-16A" features include: front sight mounted on the barrel; forearm which folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Cannot be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).
- "SU-16B" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Cannot be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 632.5 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.0 kg (4.5 lbs).
- "SU-16C" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 406 mm (16.0") barrel with the buttstock in the folded position is 648mm (25.5"), and with the stock in the extended 902 mm (35.5"), and average weight is 2.0 kg (4.7 lbs).
- "SU-16CA" features include: threaded muzzle; front sight is intergrated into the gas block; forearm folds down to become a bipod; and a rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Cannot be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 633 mm (24.9") and in the open position is 912 mm (35.9"), and average weight is 2.1 kg (4.7 lbs).
- "SU-16D" features include: 229 mm or 297 mm barrel with a bayonet lug and threaded muzzle with muzzle brake; front sight is intergrated into the gas block; short ventilated handguard with Picatinny rail ; pistol grip with an under folding buttstock. (Can be fired with the under folding buttstock in the folded position).
- overall length with a 229 mm (9.2") barrel and the stock in the folded position is 506 mm (19.9") and in the open position is 760 mm (29.9), and average weight is 1.68 kg (3.7 lbs).
- overall length with a 297mm (11.7") barrel and the stock in the folded position is 569mm (22.4"), and average weight is 1.73 kg (3.8 lbs).
- "SU-16E" main characteristic is the use of a pistol grip/trigger mechanism assembly with an attachment to install an AR15/M4 carbine type collapsible, side folding or rigid stock, that is also sold as an accessory.
- overall length with a 408 mm (16.1") is 813mm (32") with the stock collapsed, average weight is 2.1kg (4.7lbs)
- "SU-16F" features include: front sight mounted on the barrel, forearm folds down to become a bipod, and a forward rotating (under folding) buttstock and trigger mechanism assembly with an extra magazine storage space in the buttstock. (Cannot be fired when the buttstock/trigger mechanism assembly is in the folded position).
- overall length with a 470 mm (18.5") barrel and the stock in the folded position is 670mm (26.4") and in the open position is 950 mm (37.4"), and average weight is 2.3 kg (5.0 lbs).

FRT Report

Firearm Reference Number (FRN): 139783
Make: Kel Tec
Model: SU-22

Summary

Make:	Kel Tec
Model:	SU-22
Manufacturer:	Kel Tec CNC Industries
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
139783 - 1	22 LR	10	408	Prohibited PFR, Part 1, para. 152(l)	Manufacturer Specifications and Commercial Customization	
139783 - 2	22 LR	26	408	Prohibited PFR, Part 1, para. 152(l)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KEL-TEC CNC INC.", "COCOA FL" and "MADE IN USA" was observed marked on the right side of the receiver/frame.

Model

- introduced in 2011.
- "SU-22 .22LR" is usually marked on the right side of the receiver/frame.
- this is a variation of Kel-Tec's PLR-22 and SU-16 rifle design.
- "SU-22" series is available in several variations:
- SU-22CA has a one piece buttstock (trigger mechanism/stock assembly is able to fold under for storeage/transporation),
- SU-22C has a pistol grip with an underfolding buttstock.
- SU-22E has a pistol grip with a six position adjustable AR type telescoping buttstock.
- features include: open adjustable sights; round rifled barrel with a threaded muzzle; black fibreglass-reinforced polymer receiver/frame with Picatinny rail and right side ejection; steel bolt with right side cocking handle; cross-bolt safety; black synthetic forearm and a semi-pistol grip buttstock with a magazine storage compartment; blued metal finish.

FIXED STOCK
- overall length with a 408 mm (16.1") barrel and a fixed buttstock is 864 mm (34.0"), and average weight is 1.8 kgs (4 lbs).

FOLDING STOCK
- overall length with a 408 mm (16.1") barrel and an underfolding buttstock in the folded position is 610 mm (24.0") and with the stock in the open position is 864 mm (34.0"), and average weight is 1.8 kgs (4 lbs).

Manufacturer

- Kel Tec / Kel-Tec CNC Industries Incorporated is located in Cocoa, Florida, U.S.A.
- Kel Tec / Kel-Tec CNC Industries Incorporated was established in 1991.
- Kel Tec / Kel-Tec CNC Industries Incorporated was originally a CNC machine shop.
- Kel Tec / Kel-Tec CNC Industries Incorporated began manufacturing firearms in 1995.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- serial number is marked on the side of the receiver/frame. - serial number of an observed example consisted of a letter prefix (V) and four numbers.
Calibre	- ".22LR" was observed marked on the right side of the receiver/frame. - rifling characteristics: 1 turn in 16".
Shots	- detachable box magazine. - compatible with Atchison M16 and the PLR-22 pistol magazines.
Canadian Law Comments	- there is a 26 shot magazine available for this firearm. - this firearm is manufactured in both a rifle "SU-22" and handgun "PLR-22" configurations. The magazine is interchangeable between the two configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

Notes

Make

- "KEL" over "TEC" is marked on both sides of the firearm.
- "KEL-TEC CNC INC. COCOA FL MADE IN USA" was observed marked on the right side of the receiver/frame.

Model

- Introduced in circa 2001.
- "SUB2000" is marked on both sides of the receiver/frame.
- the model designation is marked on the firearm.
- this rifle is an updated version of the Kel-Tec Sub-9 and Sub-40, a folding carbine for use as a "plinking"/backpacking/camping firearm.
- this rifle has also been designed to use commonly-available handgun magazines, so that a shooter may use the same magazines in both a pistol and a rifle.
- features include: matte black finish with synthetic furniture; open adjustable sights; folding design, where the barrel folds up to lay rearward along the butt stock, and is retained by a spring-loaded plunger at the rear of the stock; straight blowback operation, cocked by a handle that protrudes through a slot in the bottom of the tubular stock; cross-bolt safety above the pistol-grip; and an internal keyed safety lock.
- overall length with a 408mm (16.1") barrel in the open position is 749mm (29.5") and overall length in the folded position is 406mm (16.0") and average weight is 1.8 kg (4.0 lbs).
- overall length with a 472mm (18.6") barrel in the open position is 749mm (32.0") and overall length in the folded position is 813mm (18.5") and average weight is 1.8 kg (4.0 lbs).

Manufacturer

- Kel Tec / Kel-Tec CNC Industries Incorporated is located in Cocoa, Florida, U.S.A.
- Kel Tec / Kel-Tec CNC Industries Incorporated was established in 1991.
- Kel Tec / Kel-Tec CNC Industries Incorporated was originally a CNC machine shop.
- Kel Tec / Kel-Tec CNC Industries Incorporated began manufacturing firearms in 1995.

Action

- blowback operated.

Serial Number

- The serial number is marked on the left side of the firearm.
- The serial number of referenced example consist of two digits, followed by a letter, followed by four digits.

Shots

- detachable box magazine; this rifle was designed to use magazines intended for Beretta, Glock, and Smith & Wesson handguns.

Canadian Law Comments

- NOTE: the ten round limit specified in the Cartridge Magazine Control Regulations applies to magazines for this firearm provided: a) the magazine is originally designed for use in a semi-automatic handgun, and b) the handgun is commonly available in Canada.

FRT Report

Firearm Reference Number (FRN): 198067
Make: Kel Tec
Model: Sub-2000 CQB

Summary

Make:	Kel Tec
Model:	Sub-2000 CQB
Manufacturer:	Kel Tec CNC Industries
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
198067 - 1	9MM LUGER	5	410	Prohibited PFR, Part 1, para. 153	Manufacturer Specifications and Commercial Customization	
198067 - 2	9MM LUGER	10	410	Prohibited PFR, Part 1, para. 153	Manufacturer Specifications and Commercial Customization	
198067 - 3	9MM LUGER	17	410	Prohibited PFR, Part 1, para. 153	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KEL-TEC" is marked on the left side of the firearm.
- "KEL-TEC" is marked on both sides of the receiver/frame.

Model

- Introduced in 2020.
- "SUB-2000" is marked on both sides of the receiver/frame.
- "CQB" is marked on the left side of the barrel.
- Based on the "SUB-2000" design.
- Features Include: folding and rotating barrel fore-end for transport; polymer over-mold grip on fore-end with top and bottom accessory rail; magazine release located on the right side of the receiver/frame; crossbolt safety; bolt release located on the bottom of the stock.

Manufacturer

- "KEL-TEC" is marked on the left side of the firearm.
- "KEL-TEC" is marked on both sides of the receiver/frame.

Action

- Blowback operated.

Serial Number

- The serial number is marked on the left side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- "CQB" over all length 410mm with a integrally suppressed portion and a 108mm rifled portion at the chamber.
Calibre	- The calibre designation is marked on the barrel assembly.
Shots	- Detachable box magazine housed in the grip.
Canadian Law Comments	- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. If the complete sound suppressor/silencer (prohibited device) is removed, the firearm remains a "Prohibited Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), when removed will not change the "Prohibited Firearm" classification.

Notes

Model

- this is an unusual appearing semi-custom, bolt-action rifle, with a great degree of handwork put into the finish.
- this rifle is available in either a full Mannlicher-style stock, or a more standard sporter style stock with a schnabel forearm tip.
- both stock styles have a "hog's-back" style comb and cheek piece, and an exaggerated pistol grip with an integral grip safety.
- they also have a "butter-knife" style flattened bolt-handle, sling swivels, and engraved bolt body and sideplates.
- these rifles are essentially custom ordered firearms, and can be seen with almost any degree of handwork, stockwork, inlays. etc. - "3S" stands for the manufacturer's claims of Short, double Safety, and Straight-on loading.

Manufacturer

- Kufsteiner Waffenstube is a small factory / manufacturer located in Kufstein, Austria.

Shots

- detachable box magazine.

174342 - 1	45-90 WIN	1	690	Antique AFR, Section 1, para. 3	Non-Commercial Customization	

Notes

Make

- "JAS. KERR" is marked on the side plate of an observed example.

Model

- model is not marked on the firearm.
- this is a transitional design, built on a pattern 1853 Enfield rifle, originally submitted to the British Army trials of 1865. The unsuccessful design was later made for commercial sporting use in limited numbers.
- features include: fixed front sight and ramp adjustable rear sight; tapered round barrel retained by a single transverse wedge; checkered half stock with steel forend cap; engraved side plate with external hammer that acts as a striker for the removable bolt assembly retained by a right side mounted screw; steel trigger guard with finger rest; engraved, steel buttplate, blued finish.

Manufacturer

- "Kerr & Company" was originally formed by James and John Kerr, circa 1853/54.
- James Kerr & Company was an English firearms manufacturer located in London, England; this firm co-existed with the firm known as the "London Armoury Company".
- James Kerr & Company was established circa 1866 and ceased operations in 1894.
- James Kerr & Company was located at the following addresses:
36 King Street from 1866 to 1868,
54 King William Street and 27 Leman Street, Goodman's Field from 1868 to 1883,
118 Queen Victoria Street from 1884 to 1887, and
114 Queen Victoria Street from 1888 to 1894.

Action

- turn-bolt design with external hammer/striker.

Other Markings

- known example was marked, "114 Queen Victoria St. London" on the rear right side of the right hand barrel.

91816 - 1	44 BULL DOG	6	158	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Jas. Kerr and Co." is marked on the firearm.

Model

- this record is for metallic cartridge double action revolvers made by James Kerr & Company under the name of the London Armoury Company.
- the primary identifying feature of any Kerr revolver is Kerr's method of retaining an easily removable cylinder-pin; this is a spring-loaded "blade" catch at the front of the receiver/frame, which can be depressed to allow the cylinder pin to be pulled straight out the front of the frame.
- a secondary feature of Kerr's designs is a receiver/frame mounted sear in the rear of the detachable trigger-guard.
- Kerr's designs also habitually have a butt-mounted lanyard ring, a side-swinging loading gate with a spring-loaded catch, and a loading groove milled into the frame behind the loading gate; Kerr's revolvers are generally seen with either an early "rod"-type ejector, similar to the Colt SAA, or a later "Tranter"-style compound lever ejector, that fits the chamber mouths to eject a case through pressure on the case mouths.

Manufacturer

- "Kerr & Company" was originally formed by James and John Kerr, circa 1853/54.
- James Kerr & Company was an English firearms manufacturer located in London, England; this firm co-existed with the firm known as the "London Armoury Company".
- James Keer & Company was established circa 1866 and ceased operations in 1894.
- James Kerr & Company was located at the following addresses:
36 King Street from 1866 to 1868,
54 King William Street and 27 Leman Street, Goodman's Field from 1868 to 1883,
118 Queen Victoria Street from 1884 to 1887, and
114 Queen Victoria Street from 1888 to 1894.

Serial Number

- these revolvers are serial numbered on major component parts, but not necessarily on the receiver/frame.

Calibre

- calibre is not marked on firearm.

Firearm Reference Number (FRN): 119655
Make: Kessler
Model: 05

Summary

Make:	Kessler
Model:	05
Manufacturer:	Pickert
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119655 - 1	7.65MM	7	95	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SYSTEM KESSLER" or "SYSTEM KESZLER"may be marked on the barrel.

Model

- this firearm was manufactured circa 1905.
- "MOD. 05. CAL. 7.65. SYSTEM KESSLER D.R. & AUSL. PATENT" or "MOD. 05. CAL. 7.65. SYSTEM KESZLER D.R. & AUSL. PATENT" may be marked on the top of the barrel.
- features may include: blued receiver/frame, slide and barrel; a lug on each side of the barrel for cocking the firearm; the barrel can tip upwards; a fixed front sight with a fixed rear sight; a cocked indicator button on the back of the receiver/frame; safety located on the left side of the receiver/frame; magazine release located on the butt of the grip.
- the firearm was cocked by the lugs located on each side of the barrel. By gripping these lugs and moving them in the rearward direction would cock the inverted hammer located inside the hump at the rear of the receiver/frame.

Action

- blowback operated.

Serial Number

- a serial number may be marked under the left grip panel.

Calibre

- the calibre designation may be marked on top of the barrel as, "CAL. 7.65".

Shots

- detachable box magazine.

Notes

Make

- "T. Ketland & Co." is marked on the right side lock plate in front of the hammer.

Model

- no model designation is marked on this firearm.
- manufactured between 1762 and 1833.
- this is a muzzle loading, black powder flint ignition pistol.
- features include: octagonal barrel; right side mounted flintlock mechanism; one piece hardwood stock with the stock extending almost to the muzzle end of the barrel; belt hook fixed to the left side plate and extending forwards for approximately three to four inches; ramrod mounted under the barrel.
- Birmingham proof marks used circa 1750 to 1800 are apparent on the barrel.

Manufacturer

- "T. Ketland & Co." is marked on the right side lock plate in front of the hammer.
- "Thomas Ketland" was located in Birmingham, England between 1766 and 1826.
- "Thomas Ketland" was in business at 2 Weaman Row from 1804 to 1816 and 55 Bread Street from 1822 to 1825.
- "Thomas Ketland" also had facilities at Lichfield Street, Catherine Street and Weeman Row between 1766 and 1783.

Action

- muzzle loading, flintlock ignition.

Serial Number

- known example did not have a serial number.

137141 - 1	44 FLINTLOCK	1	79	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "W." over "KETLAND" over "& Co." was observed marked on the left side of the receiver/frame.
- "LONDON" was observed marked on the right side of the receiver/frame.

Model

- manufactured prior to 1832.
- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- this is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- this handgun is intended to be loaded from the breech end of the barrel and as such was originally suppied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- features include: muzzle loading, flintlock ignition with screw barrel; boxlock action with flintlock hammer centrally located on top of the receiver/frame; full trigger guard; rounded grip frame; engraving on receiver/frame and trigger guard.

Manufacturer

- "W." over "KETLAND" over "& Co." was observed marked on the left side of the receiver/frame.
- "LONDON" was observed marked on the right side of the receiver/frame.
- William Ketland was located in Birmingham, England from 1802 to 1831.
- William Ketland also had a branch of the business located at 2 Copthall Building in London, England.
- Willian Ketland was listed as "William Ketland" from 1802 to 1807.
- Willian Ketland was listed as "William Ketland & Company" from 1808 to 1831.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- the turnoff barrel may be rifled.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

FRT Report

Firearm Reference Number (FRN): 197869
Make: Keystone Sporting Arms
Model: KSA Mini Mosin-Nagant

Summary

Make:	Keystone Sporting Arms
Model:	KSA Mini Mosin-Nagant
Manufacturer:	Keystone Sporting Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197869 - 1	22 LR	1	409	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
197869 - 2	22 LR	1	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KSA" is marked on the left side of the firearm.

Model

- Introduced in 2019.
- The model designation is not marked on the receiver/frame.
- This is a lightweight, scaled down, .22LR, single-shot version of a "Mosin-Nagant" rifle model "M91/30", which was used by the Russians in WWII.
- Features include: single-shot receiver/frame with non-functioning triangle/wedge shape magazine with integral trigger guard; one-piece full length rifle stock, period specific with comparative accessories/furnishings.
- Overall length with a 409.6 mm (16.1 inches) barrel is 760 mm (30 inches), average weight is 1.3 kg (2.8 lbs).

Manufacturer

- "KSA" is marked on the left side of the receiver/frame.

Action

- Turn bolt operated.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- The serial number rationalization is unknown.
- Observed serial number consisted of the following configuration: three (3) letter prefix, (MOS), followed by a dash "-" followed by five (5) numbers (ex: MOS-12345).

Calibre

- ".22 LR ONLY" is marked on the right side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- The magazine is "fake" or deemed a "dummy magazine" and has no functionality other than "authenticity of appearance".
Other Markings	- This scaled down, ".22LR", version of a Mosin-Nagant war rifle, may contain similar markings in similar location to an original, which may include any or all of the following: five pointed star on the top of the receiver/frame with a center image, over a year date (ex: "2019"), followed by "No.".

Firearm Reference Number (FRN): 123985
Make: Khan
Model: 650R

Summary

Make:	Khan
Model:	650R
Manufacturer:	Khan
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
123985 - 1	177 PELLET	1	450	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
123985 - 2	22 PELLET	1	450	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KHAN" is usually marked on the firearm.

Model

- "650R" may be marked on the firearm.
- features include: adjustable rear sight; Truglo® front sight; blued barrel; manual safety; synthetic stock with pistol grip; recoil pad.
- overall length is 1080 mm (42.51"), average weight with 22 PELLET is 3.0kg (6.6 lbs).

Manufacturer

- "KHAN" is marked on the firearm.
- Khan was established in 1985.
- Khan (Khan Arms Company/Khan-Arthemis Shotgun/Khan Shotguns) head office is located in Istanbul, Turkey.
- Khan (Khan Arms Company/Khan-Arthemis Shotgun/Khan Shotguns) factory is located in Uzumlu/Konya, Turkey.

Action

- break barrel, spring piston operated.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- the serial number is marked on the firearm.
- the serial number rationalization is unknown.

Calibre

- the calibre designation is usually marked on the barrel.

FRT Report

Firearm Reference Number (FRN): 144743
Make: Khan
Model: A-TAC Force Duo-Sys

Summary

Make:	Khan
Model:	A-TAC Force Duo-Sys
Manufacturer:	Khan
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Other
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
144743 - 1	12 GA X 3"	6	508	Prohibited PFR, Part 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KHAN" may be marked on the receiver/frame and on the barrel assembly.
- "Arthemis Silah San." above "Made in Turkey" was observed on the barrel assembly.
- "KHAN ARMS DUO-SYS" or "A-Tac" may be marked on the breech block.

Model

- introduced in 2012.
- model designation may not be marked on the firearm.
- "A-TAC" may be marked on the side of the firearm or the breech block.
- "KHAN ARMS DUO-SYS" or "A-Tac" may be marked on the breech block.
- this is dual operating system, with selectable semi-automatic or pump action functioning.
- features observed: rail mounted adjustable peep rear sight and fibre optic post front sight; black anodized receiver/frame with accessory rail; fixed or removable choke system; black synthetic pistol grip stock; sling swivels; black finish.
- overall length with a 508mm barrel is 1050mm (41 3/8"), average weight is 3.15kg (6.94 lbs).

Manufacturer

- "KHAN" may or may not be marked on the receiver/frame and on the barrel assembly.
- Khan was established in 1985.
- Khan (Khan Arms Company/Khan-Arthemis Shotgun/Khan Shotguns) head office is located in Istanbul, Turkey.
- Khan (Khan Arms Company/Khan-Arthemis Shotgun/Khan Shotguns) factory is located in Uzumlu/Konya, Turkey.

Action

- this firearm is considered "Other" for an action-type because it can operate as a semi-automatic or a pump action.
- designed to function primarily as a semi-automatic firearm, with the pump-action mode used to reliably fire low-pressure ammunition.
- action switch is located at the forward end of the forearm, and is formed as an annular knurled ring. Rotation of this ring either engages the action rods of the pump system and locks the semi-automatic recoil system, or disengages the action bars, locks the forearm and allows the inertia recoil system to operate the action automatically.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- sample serial number observed marked on the receiver/frame.
Shots	- tubular magazine is mounted under the barrel.
Canadian Law Comments	- the Khan Arms, A-Tac Force Duo-Sys, shotgun mechanism has been found to be a variant or modified version of the Benelli, M3 Super 90 shotgun "Reconversion Device for a Gun from Semi-Automatic to Pump Operation" mechanism as patented by Benelli Armi S.p.A. of Italy in 1985 (US Patent 4538502). This US Patent describes the operating mechanism used in the Benelli, M3 Super 90 shotgun. This device permits the fore-end to be locked or unlocked to change modes of operation from semi-automatic to pump action and is the most distinctive feature of the Benelli, M3 Super 90 shotgun. This patented operating system was unique to the Benelli M3 Super 90 shotgun when introduced in 1986 and distinguishes the Benelli M3 Super 90 from other Benelli Super 90 shotguns named in the Criminal Code, PART 1, para 7.

Notes

Make	- "KHAN" and/or the Khan logo of a "K" in an oval is marked on the firearm.
Model	- "A-TAC" and "PX" are marked on the firearm. - this is a box magazine-fed pump-action shotgun available in various stock and sight configurations. - features include: high-rise rifle-style sights or blade front sight; smoothbore barrel with or without muzzle brake; synthetic ribbed spring-assisted forearm; detachable box magazine; cross-bolt safety at the rear of the trigger-guard; fixed or telescoping buttstock; matte blue/black anodized finish.
Manufacturer	- "KHAN" and/or the Khan logo of a "K" in an oval is marked on the firearm.
Serial Number	- serial-numbered on the receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- the magazine for this firearm may be the same as for Khan Arms' semiautomatic shotguns and as such may be limited to a five (5) shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (a) (ii) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity to five (5) shots, despite the model A-TAC PX being designed as a pump action.

Make

- "KHAN" may be marked on the firearm.

Model

- "MATRIX" was observed marked on the right side of the receiver/frame.
- "KHAN ARMS KINE-SYS" is usually marked on the breech block.
- features include: fiber optic front sight or rear adjustable fiber optic sight and front sight; with or without a ventilated rib mounted on the top of the barrel; interchangeable choke system; black or silver anodized receiver/frame; blued or chromed bolt assembly; carrier locking feature with red and green indicators; satin or glossy finish or synthetic checkered pistol grip stock and forearm; rubber recoil pad.
- overall length with 711mm (28") barrel is 1250mm (49 1/4"), average weight is 3.10 kgs (6.83 lbs).

Manufacturer

- "MADE IN TURKEY" may be marked on the firearm.
- Khan was established in 1985.
- Khan's (Khan Arms Company/Khan-Arthemis Shotgun/Khan Shotguns) head office is located in Istanbul, Turkey and the factory is located in Uzumlu/Konya, Turkey.

Action

- recoil operated.

Serial Number

- was observed marked on the right side of the receiver/frame above the loading port.

Calibre

- was observed marked on the right side of the barrel's chamber area.

Shots

- tubular magazine is located under the barrel.

FRT Report

Firearm Reference Number (FRN): 144740
Make: Khan
Model: Matrix Duo-Sys

Summary

Make:	Khan
Model:	Matrix Duo-Sys
Manufacturer:	Khan
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Other
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
144740 - 1	12 GA X 3"	4	711	Prohibited PFR, Part 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KHAN" may be marked on the receiver/frame and on the barrel assembly.
- "KHAN ARMS DUO-SYS" may be marked on the breech block.

Model

- introduced in 2012.
- "MATRIX" was observed marked on the right side of the receiver/frame.
- "KHAN ARMS DUO-SYS" may be marked on the breech block.
- this is dual operating system, with selectable semi-automatic or pump action functioning.
- features observed: round barrel with a ventilated rib, fibre optic front sight and interchangeable choke; solid top receiver/frame with right side ejection and bottom loading; black or camouflage synthetic forearm and fixed traditional pistol grip buttstock with rubber recoil pad; black/blue metal finish.
- overall length with a 711 mm (28") barrel and a fixed buttstock is 1250 mm (49 1/4"), and average weight is 3.1 kgs (6.83 lbs).

Manufacturer

- "KHAN" may be marked on the receiver/frame and on the barrel assembly.
- Khan was established in 1985.
- Khan (Khan Arms Company/Khan-Arthemis Shotgun/Khan Shotguns) head office is located in Istanbul, Turkey.
- Khan (Khan Arms Company/Khan-Arthemis Shotgun/Khan Shotguns) factory is located in Uzumlu/Konya, Turkey.

Action

- this firearm's "ACTION" is considered "Other" as it can operate as a semi-automatic (inertia-recoil operated) or a pump action (manually operated) mechanism.
- designed to function primarily as a semi-automatic firearm, with the pump-action mode used to reliably fire, low-power ammunition.
- the action switch is located at the forward end of the forearm, and is formed as an annular, knurled ring. Rotation of this ring either engages the action rods of the pump mechanism and locks the semi-automatic recoil system out-of-operastion, or disengages the action bars and unlocks the inertia-recoil system to engage the semi-automatic mechanism.

Serial Number

- serial number is marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- tubular magazine is mounted under the barrel.

Canadian Law Comments

- the Khan Arms, Matrix Field Duo-Sys mechanism has been found to be a variant or modified version of the Benelli, M3 Super 90 shotgun "Reconversion Device for a Gun from Semi-Automatic to Pump Operation" mechanism as patented by Benelli Armi S.p.A. of Italy in 1985 (US Patent 4538502). This US Patent describes the operating mechanism used in the Benelli, M3 Super 90 shotgun. This device permits the fore-end to be locked or unlocked to change modes of operation from semi-automatic to pump action and is the most distinctive feature of the Benelli, M3 Super 90 shotgun. This patented operating system was unique to the Benelli M3 Super 90 shotgun when introduced in 1986 and distinguishes the Benelli M3 Super 90 from other Benelli Super 90 shotguns named in the Criminal Code Regulations PART 1, para 7.

FRT Report

Firearm Reference Number (FRN): 129910
Make: Kimar
Model: Blank Gun

Summary

Make:	Kimar
Model:	Blank Gun
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129910 - 1	22 SHORT	7	67	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- the make is not marked on the firearm; these starter pistols may be retailed under several names.
- "MADE in ITALY" was observed marked on the right side of the receiver/frame.

Model

- the model is not marked on the revolver; this is a descriptor of the type.
- this is a 6mm Flobert blank-firing starter-pistol that has been converted to fire 22 SHORT bulleted ammunition.
- these revolvers have been sold under a variety of trade names.
- features include: die-cast construction; matte blank painted finish; a swing-out cylinder that locks into place via a pull-out cylinder-pin; 7-shot cylinder; single/double-action trigger mechanism; and checkered brown plastic grip panels with a bullseye logo.

Serial Number

- some examples are numbered, not numbered or may also have an applied number.

Canadian Law Comments

- this bank gun, as it left the factory, is exempt under the Criminal Code 84 (3) (b) : "For the purposes of sections 91 to 95, 99 to 101, 103 to 107 and 117.03 of this Act and the provisions of the Firearms Act, the following weapons are deemed not to be firearms:
(b) any device that is
(i) designed exclusively for signalling, for notifying of distress, for firing blank cartridges or for firing stud cartridges, explosive-driven rivets or other industrial projectiles, and
(ii) intended by the person in possession of it to be used exclusively for the purpose for which it is designed"

Remarks

- this a starter pistol/blank gun that has had the barrel drilled out to allow the firing of 22 SHORT ammunition.

Make: Kimball Arms
Model: Combat

Summary

Make:	Kimball Arms
Model:	Combat
Manufacturer:	Kimball Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
117384 - 2	22 HORNET	7	89	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
117384 - 1	30 CARBINE	7	89	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- marked "J.KIMBALL ARMS CO." on the left side of the receiver/frame.

Model

- this is an unusual handgun, noteworthy as it was (at one time) considered to be the most powerful semi-automatic pistol available; this was due to the primary calibre (30 CARBINE) these pistols were chambered in.
- overall, these handguns somewhat resemble an enlarged Colt Woodsman, with distinctive grip angle, fixed or adjustable sights, round barrel, and a manual safety at the left rear of the frame.
- marked "J. KIMBALL ARMS CO. / DETROIT MICH. U.S.A." on the left side of the receiver/frame, with the calibre marked on the left side of the slide.
- this pistol used an unusual "delayed blowback" recoil system to try to deal with the high pressures of the 30 CARBINE cartridge; grooves were machined in the chamber to slow extraction and ejection until chamber pressure had dropped to a safe level; however, this did not reduce the velocity of the slide enough to reduce battering or possible shearing off of the slide stops, and Kimball pistols gained a reputation as being dangerous to fire. Production ended after less than 300 pistols were made.
- referred to as the "Combat" model when equipped with a 89mm barrel and as the "Target" model when equipped with a 127mm barrel.

Manufacturer

- the J.Kimball Arms Company of Detroit, Michigan, produced less than 300 semi-automatic pistols of their own design, from 1955 to 1958.

Action

- recoil operated.

Serial Number

- numbered on receiver/frame.

Calibre

- the majority of these pistols were chambered for 30 CARBINE, with some chambered for 22 HORNET, and some prototypes possibly in 357 MAG.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make	- The name "Kimber" has been used by three separate manufacturers; Kimber of Oregon (1980-91), Kimber of America (1993-97), and Kimber Manufacturing.
Model	- This is a version of the 89 Big Game Rifle made specifically for African hunters.
Manufacturer	- Clackamas, Oregon, 1980-91. Kimber stamped on left side of receiver.
Serial Number	- front left of receiver. AFO prefix or custom number if ordered.
Calibre	- Other calibres on special order. Calibre left hand side of barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Longer action than standard BGR, modified Mauser 98 type. Barrel has quarter rib, folding front sight and banded sling swivel. These rifles are manufactured with long actions, shorter barrels, express folding sights, a barrel band for a front sling swivel, and a trap-door in the pistol-grip to store an illuminated night-sight.

Notes

Make

- the "Kimber" name is marked on the firearm.

Model

- "AUGUSTA" is usually marked on the left side of the receiver/frame.
- this is a standard pattern, over/under boxlock shotgun manufactured for Kimber by Investarm, of Brescia, Italy.
- features include: walnut stock and forearm (both straight grip and pistol grip versions available; Trap versions have a Monte Carlo stock); blued barrels; blued or nickeled receiver/frame with customer's choice of engraving; single selective trigger; tang mounted safety; ventilated ribs on and between the barrels and interchangeable choke tubes.

Manufacturer

- Investarm and/or the Investarm's logo is marked on the firearm.
- Investarm logo consists of the outline of an oversize capital "I" within a rectangle.
- Investarm was founded in 1975 by the three Salvinelli brothers.
- Investarm is a manufacturer located in Marcheno, Italy.
- Investarm specializes in producing single barrel and multi barrel shotguns and muzzle loading percussion and flintlock firearms.

Action

- over/under pattern.

Serial Number

- numbered on tang of the receiver/frame.

Notes

Make

- "Kimber" is marked between "CUSTOM" and "SHOP" on the left side of the slide.
- "KIMBER" is marked on the right side of the receiver/frame.

Model

- "COMPACT CDP II" is marked on the right side of the slide.
- introduced in 2002.
- beginning in 2002, Kimber has incorporated a new style of grip-activated firing-pin safety into their 1911-style pistols; pistols with this feature have "II" incorporated into their model designation.
- this is a semi-custom pistol built by the Custom Shop of Kimber Manufacturing.
- this pistol features a lightweight aluminium-alloy frame, skeletonized hammer, extended tang on the grip safety, checkered straight backstrap housing, skeletonized lightweight trigger, match grade trigger group, lowered and flared ejection port, low-profile fixed McCormick Pro carry sights (also available with tritium night sights), beveled-mouth magazine well, extended thumb safety lever, "melted" rounded edges, and diamond checked rosewood grips.
- this firearm is available in a duo-tone finish (stainless slide on a matte black frame); other finishes/materials/sight configurations have other model designations.
- a similar pistol with a "bushingless" bull barrel is available as the "Pro CDP 2".
- overall length with a 102mm (4") barrel is 196mm (7.7"), average weight (magazine empty) 794grams (28oz).

Manufacturer

- "KIMBER, YONKERS, NY U.S.A." is marked on the right side of the receiver/frame.

Action

- recoil-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial numbered is marked on the right side of the receiver/frame. - observed serial number had a "KC" prefix with five numbers.
Calibre	- rifling characteristics: 1 turn in 16" (406mm) left hand twist.
Shots	- detachable box magazine.

Notes

Make

- "1979 Kimber 2004" is marked on the left side of the slide.
- "KIMBER" is marked on the right side of the receiver/frame.

Model

- the full model name is not marked on the firearm; this is a specially marked and serial numbered version of 1,911 Kimber "Gold Match 2" pistols, manufactured in 2004 to commemorate the 25th anniversary of Kimber. Simultaneously, Kimber also produced 1,911 "Custom 2 25th Anniversary Limited Edition" pistols, fitted with fixed sights and marked "CUSTOM" on the right side of the slide.
- features include: blue/black finish; stainless steel barrel; adjustable open target sights; fore and aft slide gripping serrations; relieved ejection port; ventilated adjustable trigger; specific markings and serial-number series; polished walnut burl with "Kimber 1979-2004 25th ANNIVERSARY" laser-engraved into them; straight mainspring housing; loop-style hammer; ambidextrous manual safety; and an extended beavertail grip safety.

Manufacturer

- "1979 Kimber 2004" is marked on the left side of the slide.
- "KIMBER" is marked on the right side of the receiver/frame.

Action

- recoil operated.

Serial Number

- serial numbered on the right side of the receiver/frame, from "KAPG0001" to "KAPG0500".

Shots

- detachable box magazine.

Notes

Make

- "Kimber" is marked between "CUSTOM" and "SHOP" on the left side of the slide.
- "KIMBER" is marked on the right side of the receiver/frame.

Model

- "LTP II" is marked on the right side of the slide.
- "LTP" in the model designation denotes "Limited Ten Pistol".
- introduced in 2002.
- beginning in 2002, Kimber has incorporated a new style of grip activated firing pin safety into their 1911-style pistols; pistols with this feature have "II" incorporated into their model designation.
- this is a semi-custom target pistol built by the Custom Shop of Kimber Manufacturing.
- features include: a forged steel receiver/frame; skeletonized hammer; extended tang on the grip safety; checkered straight backstrap housing; skeletonized lightweight trigger; match grade trigger group; lowered and flared ejection port; low-profile adjustable target sights; enlarged competition magazine well; extended/ambidextrous thumb safety lever and diamond checked rosewood grips.
- available in a matte black finish; other finishes/materials/sight configurations have other model designations.
