Notes

Make

- "BAER Custom" is marked on the right side of the slide.
- current manufacturer and customizer of pistols and rifles, located in Le Claire, Iowa, U.S.A. since 2008. Previously located in Hillsdale, IL, USA until 2008.

Model

- model is not marked on the firearm.
- introduced in 2006.
- features include: full size 1911 style pistol; blued steel slide; grasping serrations on the front and rear of the slide; night sight tritium inserts on fixed or adjustable rear sight, dovetailed front sight; lowered and flared ejection port; receiver/frame with integral Picatinny rail system for a receiver/frame mounted light; checkered front strap (30 lpi); beavertail grip safety with a raised pad; flat, serrated mainspring housing; extended, with or without an ambidextrous safety catch; checkered, Cocobolo grip panels; finish can be bead blast blue or optional bead blast chrome.

Manufacturer

- "BAER Custom" is marked on the right side of the slide.
- "CAPSIAN ARMS LTD. WOLCOTT, VT. USA" is marked on the right side of the receiver/frame.
- Caspian Arms Limited sells slides, receiver/frames or a combination, as requested by the customer. In many cases, the customer may choose to complete the receiver/frame with components from other industry manufacturers.

Action

- recoil operated.

Serial Number

- the serial number is marked on the right side of the receiver/frame above the trigger.
- alpha/numeric, observe specimen had prefix "LB", for the carbon steel receiver/frame, with five numbers.

Calibre

- "45 ACP" is marked, centered on the left side of the slide.
- "BAER 45 MATCH" is marked, on top of the barrel at the chamber.

Make	- make marked on the slide as "BAER Custom".
Model	- model designation is not marked on the firearm. - "2011" is marked on the side of the receiver/frame. - Les Baer markets a number of pistols on similar frames. - "2011 Ultimate Master Match" is a high-capacity pistol built by Les Baer Custom for IPSC competition on an STI International receiver/frames; while the slides bear Les Baer markings, the receiver/frames bear STI International markings. - features include: stainless steel modular STI receiver/frame with short dust-cover (synthetic pistol-grips available in a wide range of colours); flat mainspring housing; enlarged ejection-port; squared-off trigger-guard; serrated slide grasping grooves fore and aft; match Baer barrel; loop-style hammer; match lightweight trigger; extended beavertail safety; adjustable Bomar sights; and available in 5"/127mm and 6"/152mm versions. - this pistol differs from the "2011 Match" in that the 2011 Match has a blued receiver/frame and slide with a flared ejection port.
Manufacturer	- "BAER Custom" is marked on the right side of the slide.
Action	- recoil-operated.
Serial Number	- numbered on the right side of the receiver/frame.
Shots	- detachable box magazine, available in various capacities for various jurisdictions and uses.

Notes

Make

- marked on the right side of the receiver/frame above the trigger as:
"Les Baer Custom", "Hillsdale IL USA".

Model

- model designation is not marked on the firearm.
- "Ultimate AR" is of the design commonly known as the AR-15/M-16 rifle.
- features include: synthetic fixed or collapsible buttstock with pistol grip; forged receiver/frame with or without forward bolt assist; free-floating handguard with or without integral rail system or locking ring; ultra single or Jewell two stage trigger group; aluminum gas block; barrel may have integral compensator; versa pod and a detachable carrying handle.
- six basic sub-models exist and all parts are interchangeable:
- "Super Varmint" version has standard stock, free floating handguard, aluminum gas block, Jewell two stage trigger, and versa pod.
- "M4 Flattop" version has standard or collapsible stock, ultra single stage trigger, and free floating handguard with integral rail system.
- "IPSC Action Model" version has standard stock, barrel with integral compensator and free floating handguard with locking ring.
- "NRA Match" version has a 30"/762mm stainless bull barrel with a deeply-recessed crown (to give 24"/610mm of actual rifling), peep rear and globe front sights, and a full-length buttstock.
- "Super Match" version has a standard stock, four position free floating handguard with an integral Picatinny rail system, aluminum gas block, Jewell two stage trigger, and versa pod.
- "CMP Competition Rifle" has standard stock, upper assembly with Picatinny flattop rail having removable carry handle with adjustable rear sight, chromed bolt and carrier, special free floating tube under the handguard; may have lead weights inserted in the handguard and buttstock; total weight with lead inserts is 7.71kg (17lbs).

Manufacturer

- marked on the right side of the receiver/frame above the trigger as:
"Les Baer Custom", "Hillsdale IL USA".

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number observed consisted of a three letter "LBR" prefix and six numbers.

Calibre

- calibre is marked on the right side of the firearm.

Shots

- detachable box magazine.
- this rifle will accept AR-15/M16-style magazines, commonly available in capacities of 5, 9, 20, and 30 cartridges.

Notes

Make

- make is marked on top of the barrel in "old script" form.

Model

- model designation not marked on the firearm.
- this is a parlor or gallery rifle of Schuetzen pattern made c.1860 which was used for general indoor target shooting that was very popular in that era.
- features include;
- external hammer mounted on a lockplate located on the right-hand side of the firearm.
- deluxe hardwood stock with "schuetzen" style hooked buttplate and high comb cheek rest.
- double set triggers with elaborately shaped trigger guard.
- globe front sight with tiny post, single leaf rear sight, and square post tang sight.
- other features as to engraving, metal finishes, and wood grades and configuration may vary greatly.
- an unique feature of this rifle is that the projectile and percussion cap is loaded through a milled port in the underside of the barrel about 200mm or less back from the muzzle, and is then discharged by a long firing piston, spring driven by the hammer at the breech end.

Manufacturer

- manufacturer's designation is marked on top of the barrel.
- G. Leute was a firearm manufacturer located in Munich Bavaria circa 1860.

Notes

Make

- "Josef Leuthner" or variation thereof is marked on the firearm.
- "Josef Leuthner" was located in Salzburg, Austria.

Model

- model designation is not marked on the firearm.
- model designation is defined by its main feature of having a shotgun and a rifle barrel.
- features include: over & under barrels with a ramped front sight and a folding leaf rear sight; front hinged receiver/frame with a top tang mounted break open lever; spurred, external hammers; double set triggers; receiver/frame may be engraved; two piece wood stock that may be checkered; "in the white" receiver/frame and/or blue finish.

Action

- over & under barrel configuration, hinged barrel design.

Serial Number

- serial number is marked on the receiver/frame.
- serial number of a referenced example consisted of three numbers.
- serial number is not to be confused with the Austrian proof house number rationalization of one to five numbers, a dot, two numbers, a dot and followed by numbers.

18575 - 3	500 REV	5	104	Antique AFR, Section 1, para. 7	Non-Commercial Customization	

Notes

Make

- "DDL Bte" was observed under the grips.
- "DDL" stands for Dieudonne Levaux.
- Dieudonne Levaux was an inventor located in Liege, Belgium with various firearms patents dating between 1870 and 1877 with production to the early 1900's.
- firms that maufactured or distributed firearms with these patents included: G. Mercenier, L. Ancion-Marx, Braedlin, Bodeo E Carral of Italy, Ferran y Turdera of Argentina, A.D.Jansen of Brussels and Hughes of England, among others.

Model

- model designation is not marked on the firearm.
- this is a generic entry for those firearms that are only identifiable as having typical "Constabulary" type features.
- "Constabulary" refers to a variation of the British Bulldog/RIC revolvers.
- "Constabulary" is distinguished from the Bulldogs by a lanyard ring and metal endcap on the bottom of the grip frame.
- features usually include: fixed blade front sight; grooved rear sight; solid receiver/frame; external hammer; lanyard ring; safety lever; loading gate; fluted or plain cylinder; round or octagonal barrel; blued or nickel finish; plain or checkered plastic or wooden saw handle square grip.

Serial Number

- serial number usually marked on the left side of the receiver/frame.
- example observed with three numbers without a letter prefix or suffix.

Notes

Make - known example marked "D.D. Levaux Bte" on the left side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- no model name appears on this firearm.
- this is a generic entry designed to encompass those handguns produced by D.D. Levaux Bte. of Liege, Belgium, that bear no model name.
- features include:
- double action, hinged receiver/frame, top break.
- folding trigger or conventional trigger guard types were produced.
- thumb-actuated action release lever protrudes noticeably from the top rear of the cylinder strap directly above the hammer.
- extraction is by means of an extractor-plate which is actuated when the action is opened and the barrel hinged downwards thereby removing the spent casings from the cylinder chambers; this extractor-plate is removable.
- smooth or fluted cylinder.
- may have lanyard ring on bottom of butt grip.
- octagonal barrel.
- blued finish.
- Belgian proof marks are usually apparent on the barrel and/or receiver/frame.

Other Markings

- "Acier Fondu" may be marked on the barrel.

Notes

Make

- "LEVER ARMS" and "MADE IN ITALY" was observed marked on the left side of the receiver/frame.
- "Lever Arms"/"Lever Arms Services Limited" is an importer located in Vancouver, British Columbia, Canada.
- "Lever Arms" has been in business since 1949.

Model

- model designation not marked on the firearm.
- features include; brass receiver/frame, long spurred exposed hammer, single action spur/sheathed trigger, push button opening located under the forward part of the receiver/frame which enables the barrels to be slid forward for loading/unloading and black plastic grips.
- right side of receiver/frame may be stamped with year of manufacture code in roman numerals, or twin alpha digits, do not confuse with model designation.

Action

- four barrels, two uppers over two lowers.

Serial Number

- serialization unknown, but four numerical digits observed.
- specimen observed had serial number stamped on the bottom of the butt.

Other Markings

- additionnal markings on right side of the receiver/frame, may include Italian proof marks and year of manufacture code in roman numerals, or twin alpha digits.

Firearm Reference Number (FRN): 146276
Make: Lever Arms
Model: LA-K12 Puma

Summary

Make:	Lever Arms
Model:	LA-K12 Puma
Manufacturer:	Kuandian
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Semi-Automatic
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
146276 - 2	12 GA X 2 3/4"	5	485	Prohibited PFR, Part 1, para. 218	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "LEVER ARMS SERVICE LTD. CANADA" was seen marked on the lower right front side of the receiver/frame.
- "Lever Arms"/"Lever Arms Services Limited" is an importer located in Vancouver, British Columbia, Canada.
- "Lever Arms" has been in business since 1949.

Model

- the LA-K12 Puma Semi Auto Shotgun is a variant or modified version of the QBZ 95 (Qing Buquiang Zu or Light Rifle Family).
- the LA-K12 Semi Auto Shotgun is a "bullpup" design firearm with a strong resemblance to the Type 97A Rifle.
- features include: bird cage type flash eliminator/muzzle brake; round tapered barrel; aluminum alloy receiver/frame attached to a steel trunion that has an integral top mounted frame for the carrying handle; the cocking lever is mounted inside the carrying handle (similar to the Armalite AR-10), picatinny rail mounted to top of carrying handle; light/laser rails attached to left and right sides of forward hand grip; synthetic pistol grip stock with trigger guard; ventilated top cover; vertically grooved forearm; rotating bolt locking system; striker fired; fire selector/safety catch dial is located on the left rear side of the receiver/frame; sling attachment points; flat matte black finish.
- overall length with a 485 mm barrel and flash eliminator is 790 mm.

Manufacturer

- manufacturer's name is not marked on the firearm.
- "MADE IN CHINA" is marked on the right rear of the firearm's receiver/frame.
- "KUANDIAN" is located in Dandong, Liaoning Province, China.

Action

- gas operated.

Serial Number

- serial number rationalization unknown.
- sample serial numbers reported and one observed serial number consisted of two letters followed by four numbers followed by a dash followed by two numbers. (It is strongly suspected that the last two numbers are the date of production.)
- example KB0006-13

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is marked on the left side of the firearm.
Shots	- detachable box magazine.
Importer	- "LEVER ARMS SERVICE LTD. CANADA" was seen marked on the lower right side of the receiver/frame. - LEVER ARMS SERVICE LTD is an importer located in Vancouver, British Columbia, Canada.

Notes

Make

- "Lever Arms" is normally marked on the receiver/frame of the firearm.
- "Lever Arms"/"Lever Arms Services Limited" is an importer located in Vancouver, British Columbia, Canada.
- "Lever Arms" has been in business since 1949.

Model

- the model designation is normally marked on the receiver/frame of the firearm or on the barrel assembly; when marked it is "M9."
- features include: barrel-cocking mechanism; adjustable sights with hooded front; pistol-grip wood stock; an adjustable two stage trigger and a grooved receiver/frame for scope mounting.

Manufacturer

- manufacturer's name may not be marked on the firearm.
- "Made in China" is usually marked on the firearm.
- JiangSu XinSu Machinery Manufacturing Company Limited located in WuXi, JiangSu Province, China.
- JiangSu XinSu Machinery Manufacturing began manufacturing military rifles and handguns in 1965 and airguns for the civilian market in 1980.
- Jiang Su XinSu Machinery Manufacturing is the sole manufacturer for this model as imported and sold by Lever Arms of Vancouver, British Columbia, Canada.

Action

- barrel-cocking lever spring piston cocking mechanism.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- this firearm may be found either serialized or not.
- a serial number rationalization for these firearms is unknown at this time.
- when serialized, the serial number is located on the receiver/frame of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - the calibre designation is normally marked on the receiver/frame or the barrel assembly.

Firearm Reference Number (FRN): 20703
Make: Lewis Machine Gun
Model: 1914

Summary

Make:	Lewis Machine Gun
Model:	1914
Manufacturer:	Birmingham Small Arms (BSA)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Machine Gun
Action:	Full Automatic
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
20703 - 1	303 BRITISH	30	667	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
20703 - 4	303 BRITISH	47	667	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
20703 - 5	303 BRITISH	97	667	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Lewis Auto Gun" and "Mod. 1914 Pat." are marked on the top rear of the receiver/frame, just rear of the drum magazine and may also be found on the top forward part of the receiver/frame, underneath the drum magazine.

Model

- model designation may be marked on the firearm.
- this is an air-cooled firearm and may be set up in an anti-aircraft configuration or ground mount type bi-pod.
- features include: barley corn front sight; leaf rear sight; wooden butt, steel skeleton stock with wooden cheek rest or spade grip.

Manufacturer

- "Manufactured by The Birmingham Small Arms Co LTD ENGLAND for Armes Automatiques Lewis BELGIUM" is marked on the firearm.

Action

- gas operated.

Serial Number

- may be marked on the top rear of the receiver/frame, just rear of the drum magazine.
- the serial number may also be found on the top forward part of the receiver/frame, underneath the drum magazine.

Shots

- detachable drum magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - a magazine that is of the "drum" type, is not a reproduction and was originally designed or manufactured for use in a firearm commonly known as (i) the .303 in. Lewis Mark 1 machine-gun, or any variant or modified version of it, including the Lewis Mark1*, Mark 2, Mark 2*, Mark 3, Mark 4, Lewis SS and .30 in. Savage-Lewis" is exempt from the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".

Notes

Make	- should be marked on the top rear of the receiver/frame, just rear of the drum magazine. - markings should read "Lewis Auto Gun".
Model	- model designation may or may not be found on the firearm. - some of the MARK 2 were reworked or refurbished from other existing models and may still have the original markings.
Manufacturer	- should be marked on the top rear of the receiver/frame.
Action	- no longer capable of full automatic fire.
Serial Number	- should be marked on the top rear of the receiver/frame, just rear of the drum magazine. - the serial number may also be found on the top forward part of the receiver/frame, underneath the drum magazine.
Shots	- uses detachable drum magazines.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - the Lewis gun uses 30, 47, and 97 round drum magazines which are exempted from the magazine regulations. For further confirmation or clarification, please refer to the CARTRIDGE MAGAZINE CONTROL REGULATIONS document which pertains to PART III of the CRIMINAL CODE.

FRT Report

Firearm Reference Number (FRN): 85100
Make: Lewis Machine Gun
Model: MARK 2*

Summary

Make:	Lewis Machine Gun
Model:	MARK 2*
Manufacturer:	Birmingham Small Arms (BSA)
Level:	Converted Automatics
Type:	Machine Gun
Action:	Converted Automatic
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
85100 - 1	303 BRITISH	47	667	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
85100 - 2	303 BRITISH	97	667	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make	- may be marked on the top rear of the receiver/frame, just rear of the drum magazine and may also be found on the top forward part of the receiver/frame, underneath the drum magazine.
Model	- model designation may be marked on the firearm. - this is an air-cooled firearm and may be set up in an anti-aircraft configuration or ground mount type bi-pod. - the MARK 2* was modified from other existing Lewis Gun models and may still have the original markings. - features include: barley corn front sight; leaf rear sight; wooden butt, steel skeleton stock with wooden cheek rest or spade grip.
Manufacturer	- the manufacturers name or logo (three stacked rifles) may be marked on the firearm.
Action	- no longer capable of full automatic fire.
Serial Number	- may be marked on the top rear of the receiver/frame, just rear of the drum magazine. - the serial number may also be found on the top forward part of the receiver/frame, underneath the drum magazine.
Shots	- detachable drum magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - a magazine that is of the "drum" type, is not a reproduction and was originally designed or manufactured for use in a firearm commonly known as (i) the .303 in. Lewis Mark 1 machine-gun, or any variant or modified version of it, including the Lewis Mark1*, Mark 2, Mark 2*, Mark 3, Mark 4, Lewis SS and .30 in. Savage-Lewis" is exempt from the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".

Remarks - the MARK II*, introduced on May 1918, differs from the MARK II in having a larger gas port and a faster rate of fire.

Notes

Make

- may be marked in Japanese characters on the top rear of the receiver/frame, just rear of the drum magazine and may also be found on the top forward part of the receiver/frame, underneath the drum magazine.

Model

- in 1931 & 1932 the Japanese Government negotiated manufacturing rights for Lewis Machine Guns from the British firm BSA; production started in 1932 as the Lewis, Type 92. (Japanese year 2592 which equates to 1932.)
- this firearm model is a gas operated, air cooled, light machine gun which may be employed in a variety of roles; ground mounted with a bipod or tripod, vehicle, boat or aircraft mounted with various pintle or fixed mountings.
- features include: cocking handle on the left side only and an enlarged trigger guard.
- rifling characteristics: 5 grooves, right hand twist.

Manufacturer

- the manufacturer's name, in Japanese characters and the Naval Arsenal mark/logo (fouled anchor with one straight and one "V" shaped crossbar) will be found marked on the firearm.

Action

- gas operated, air cooled.

Serial Number

- serial number rationalization unknown.
- specimen serial numbers observed consisted of up to four digits with a prefix and occasionally a suffix Japanese character representing the Naval Arsenal at which the firearm was manufactured.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- in Japanese service the 303 BRITISH cartridge was known as the 7.7X56R cartridge.
- the Japanese employed the 7.7X56MM cartridge in three forms: - Rimless, Semi-Rimmed and Rimmed.

Shots

- drum magazine.

Canadian Law Comments

- a magazine that "is of the "drum" type, is not a reproduction and was originally designed or manufactured for use in a firearm commonly known as (i) the .303 in. Lewis Mark 1 machine-gun, or any variant or modified version of it, including the Lewis Mark1*, Mark 2, Mark 2*, Mark 3, Mark 4, Lewis SS and .30 in. Savage-Lewis". is exempt from the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".

- in 1931 & 1932 the Japanese Government negotiated manufacturing rights for Lewis Machine Guns from the British firm BSA; production started in 1932 as the Lewis, Type 92. (Japanese year 2592 which equates to 1932.)
- this is a gas operated, air cooled, light machine gun which may be employed in a variety of roles; ground mounted with a bipod or tripod, vehicle, boat or aircraft mounted with various pintle or fixed mountings.
- features include: cocking handle on the left side only and an enlarged trigger guard.
- rifling characteristics: 5 grooves, right hand twist.

Manufacturer

- the manufacturer's name, in Japanese characters and the Naval Arsenal mark/logo (fouled anchor with one straight and one "V" shaped crossbar) will be found marked on the firearm.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number rationalization unknown.
- specimen serial numbers observed consisted of up to four digits with a prefix and occasionally a suffix Japanese character representing the Naval Arsenal at which the firearm was manufactured.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- in Japanese service the 303 BRITISH cartridge was known as the 7.7X56R cartridge.
- the Japanese employed the 7.7X56MM cartridge in three forms: - Rimless, Semi-Rimmed and Rimmed.

Shots

- drum magazine.

Canadian Law Comments

- a magazine that "is of the "drum" type, is not a reproduction and was originally designed or manufactured for use in a firearm commonly known as (i) the .303 in. Lewis Mark 1 machine-gun, or any variant or modified version of it, including the Lewis Mark1*, Mark 2, Mark 2*, Mark 3, Mark 4, Lewis SS and .30 in. Savage-Lewis". is exempt from the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".

Notes

Make

- "LHR SPORTING ARMS" over "ROCHESTER, NH" is marked on the barrel.

Model

- introduced in 2013.
- "REDEMPTION" is marked on the barrel.
- features include: fibre optic sights; round, rifled barrel with threaded chamber for primer adapter and retaining collar; ramrod is mounted under the barrel; barrel is drilled and tapped for scope mount; front hinged receiver/frame with a top tang mounted break open lever and with cocking slide lever with decocking button; single action trigger mechanism; synthetic or wood forearm and full length pistol grip stock with recoil pad; sling swivel studs; Armornite black metal finish.
- overall length with a 610 mm (24") barrel and full length buttstock is 1041 mm (41"), and the average weight is 3.2 kgs (7 lbs).

Manufacturer

- "LHR Sporting Arms LLC" is located in Rochester, New Hampshire, U.S.A.
- "LHR Sporting Arms LLC" was founded by Michael Garland, Patrick Hanley, Mark Laney, and Karl Ricker in May of 2012.

Action

- muzzle loading, 209 primer ignition, hinged barrel design.

Serial Number

- serial number is marked on the underside of the receiver/frame.
- serial number observed consisted of a letter "R" prefix and five numbers.

Calibre

- ".50 CAL." is marked on the barrel.

23884 - 2	45 AUTO	1	107	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "LIBERATOR" is not marked on the firearm.

Model

- manufactured in 1942.
- approximately 1,000,000 units were produced.
- "LIBERATOR FP-45" is not marked on the firearm.
- "Liberator FP-45" was produced as an economical firearm for air-drop to World War Two partisans in occupied countries. The intention was to use this firearm as a means to acquire other weapons.
- "Liberator FP-45" smoothbore pistol contained ten (10) loose rounds in the grip.
- "Liberator FP-45" was fired by pulling back on a cocking handle with a fixed firing pin, the trigger then releases the firing pin onto the chambered round.

Manufacturer

- Guide Lamp Division of General Motors produced over one million of these firearms.
- Guide Lamp Division was one of many firms that produced weapons for the U.S. government during World War Two. They also produced the U S Submachine Gun, models M3 and M3A1.

Serial Number

- these pistols were not serial numbered at the factory.
- samples have been noted with serial numbers applied by electric pencil when imported into Canada.

121759 - 1	12 GA X 2 3/4"	4	343	Restricted CC 84(1) "restricted firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make may not be marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is an unusual four-barreled shotgun that was designed by Bob Hillberg (a designer for High Standard) as a "guerilla gun" for air-drop to partisans, but was eventually put into limited production by Winchester as a low-cost police and military firearm.
- features include: stamped and die-cast construction with black enamel painted finish; four-barrel cluster that tips down to load and unload; opened with a thumb operated side-latch; a conventional single-action/double-action trigger with a rotating hammer nose (similar to the Sharps 1859 derringer); fixed open sights; integral forward hand-grip; and a sliding wire stock that can be removed entirely or reversed for storage.
- after Winchester dropped the Liberator concept, Bob Hillberg went on to design the Colt Defender, an 8-barrelled shotgun along the same lines that was marketed specifically to police forces as a "riot-control" firearm, with the added ability to dispense aerosol tear-gas.
- overall length with 343 mm barrels and without the detachable stock is 470 mm.
- overall length with 343 mm barrels and with the detachable stock is 724 mm.

Manufacturer

- the manufacturer may not be marked on the firearm.

Action

- four-barreled "tip-down" shotgun.

Notes

Make

- "LIBERTY" is marked on the slide and grip plates.
- "Liberty" was a trade name used by "Retolaza Hermanos".
- "FABRIQUE D'ARMES DE GUERRE DE GRANDE PRECISION" may be marked on the left side of the slide. This was a sales organization only, no manufacturing was done by this firm. This tradename was registered by "EXTEZAGARRA Y ANITUA" of Eibar, Spain to promote sales in Europe.
- "Liberty" was a trade name used on Suicide Special revolvers manufactured by "Hood Firearms Company" of Norwich, Connecticut, and "Otis A. Smith" of Middlefield and Rock Fall, Connecticut, U.S.A., in the late nineteenth century.
- "Liberty" was a trade name used between 1967 and 1986 by the importer and distributor "Liberty Arms Corporation / Liberty Firearms Corporation" of Montrose, California, U.S.A.
- "Liberty Arms Corp." name was changed to "Liberty Arms Organization", circa 1971/72 and eventually to the "Liberty Organization".
- "Liberty" is a trade name used by the importer and distributor K.B.I., Inc. since 1997.

Model

- "1914 AUTOMATIC PISTOL" is marked on the left side of the slide.
- this is a copy of a "FN-Browning Model 1906".
- manufactured circa 1920.

Manufacturer

- Retolaza Hermanos is not marked on the firearm.
- "R.H." in a circle is the manufacturer's initials and may be marked on the receiver/frame and grip plates.
- Retolaza Hermanos of Eibar, Spain was in business from 1895 to 1936.
- Retolaza Hermanos manufactured Velo-Dog pocket revolvers under the names of Brompetier, Puppy, Velo-Brom and Velo-Mith.
- Retolaza Hermanos started manufacturing semi-automatic pistols circa 1906.
- Retolaza Hermanos manufactured semi-automatic pistols under the names of Gallus, Liberty, Military, Paramount, Retolaza, Stosel, Titan, and Titanic.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blow back operated.
Serial Number	- serial number is marked on the right side of the receiver/frame. - observed example consisted of five numbers.
Calibre	- "7.65" the caliber designation is marked on the left side of the slide.
Shots	- detachable single column box magazine.

Notes

Make

- "LIBERTY ARMS" was observed marked on the top of the barrel.
- "Liberty" was a trade name used on Suicide Special revolvers manufactured by "Hood Firearms Company" of Norwich, Connecticut, and "Otis A. Smith" of Middlefield and Rock Fall, Connecticut, U.S.A., in the late nineteenth century.
- "Liberty" was a trade name used on semi-automatic pistols manufactured by "Retolaza Hermanos of Eibar, Spain, prior to 1936.
- "Liberty" was a trade name used between 1967 and 1986 by the importer and distributor "Liberty Arms Corporation / Liberty Firearms Corporation" of Montrose, California, U.S.A.
- "Liberty Arms Corp." name was changed to "Liberty Arms Organization", circa 1971/72 and eventually to the "Liberty Organization".
- "Liberty" is a trade name used by the importer and distributor K.B.I., Inc. since 1997.

Model

- "LIBERTY ARMS MOD. NEVADA" was observed marked on the top of the barrel.
- this is a copy of a Colt 1873 Single Action Army revolver.
- manufactured circa 1973.
- features observed: round barrel with blade front sight; solid top receiver/frame with a removable fluted cylinder, right side loading gate and groove in the top strap for a rear sight; exposed spur hammer; single action trigger mechanism; blue engraved barrel and cylinder; engraved nickel finish receiver/frame; engraved brass trigger guard and grip strap; wood grip plates.

Manufacturer

- "ARMI JAGER ITALY" was observed marked on the underside of the barrel.

Serial Number

- serial number was observed marked on the underside of the receiver/frame, in front of the trigger guard.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Calibre

- "CAL 357 MAGNUM" was observed marked on the left side of the barrel.

Notes

Make

- "The Liege United Arms Co Ltd. Liege Belgium" or a variation thereof will be marked on the top barrel and/or the receiver/frame.
- "Baby", "Bull Dog", "Centaure", "Clement Fulgor", "Constabulary", "Cowboy Ranger", "Dictator", "Extracteur", "F.A.U.L.", "Le Centaure", "Liege United Arms", "Milady", "Nagant" and "Texas Ranger" were some brand/trade names and models manufactured and sold by Fabriques d'Armes Unies de Liege (F.A.U.L.).

Model

- no model name is marked on this firearm.
- features include: box lock or side lock action; single or double trigger; top, side, or under lever opening latch; top tang mounted sliding-type safety; case hardened receiver/frame; blued barrels.
- Belgian proof marks are usually apparent on the barrels and/or the receiver/frame.

Manufacturer

- "Fabriques d'Armes Unies de Liege" was founded in 1919.
- "Fabriques d'Armes Unies de Liege S.A." was formed from the amalgamation of "Fabriques d'Armes Reunies", "Fabriques d'Armes de Liege" and "Ferdinand Hanquet".
- "Fabriques d'Armes Reunies" was formed from the partnership of "Albert Simonis", "Antoine Bertrand & Fils" and "Pirlot & Fresart".
- "Fabriques d'Armes de Liege" was formed from the partnership of "J. Ancion & Fils", "Joseph Tolet & Cie" and "Societe Anonyme Fabrication des Armes a Feu".
- "Fabriques d'Armes Unies de Liege" ceased operations in 1959.

Action

- over/under barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- observed examples have had a five digit number without prefix or suffix marked on the inside of the action.
Other Markings	- calibre designation, chamber length and choke constriction is usually proof marked on the barrel lugs.

20541 - 2	6.35MM	6	55	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "LIGNOSE" is marked on the grip plates.
- "AKT. - GES. LIGNOSE, BERLIN" over "ABTEILUNG SUHL" is marked on the left side of the slide.
- "Lignose" was the brand name used by the holding company of Aktein Gesellschaft Lignose of Berlin, Germany in the marketing of pistols produced at the old Bergmann factory in Abteilung Suhl, Germany.
- the Bergmann company and factory were acquired by Aktein Gesellschaft Lignose in approximately 1921-22 and the factory in Abteilung, Suhl, Germany was renamed the Lignose Sprengstoff Werke GmbH.

Model

- production under the Lignose name began in 1921-22
- the model name does not appear on the firearm
- similar to the Lignose Model 3 except the grip is shorter
- "Lignose" appears on the synthetic grips
- features include: hammerless design, magazine release on butt, no sights

Manufacturer

- "LIGNOSE" is marked on the grip plates.
- "AKT. - GES. LIGNOSE, BERLIN" over "ABTEILUNG SUHL" is marked on the left side of the slide.

Action

- blowback operated.

Serial Number

- observed samples had a five digit numeric serial number on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- may be encountered with the nine shot magazine from the Lignose 3 or 3A.

Other Markings

- Suhl, Germany Nitro proof marks appear on the right side of the receiver behind the trigger, the slide and the barrel.
- When the safety is in the up position it is in line with a small arrow pointing towards an "S".

Notes

Make

- "LILIPUT" is marked on the left side of the slide.

Model

- "Modell 1927" is usually marked on left side of slide.
- the Liliput line was introduced circa 1920; firearm production by the Menz firm ceased when the business was sold to Lignose in 1937.
- features include: single action trigger mechanism; rotating safety lever located on the left rear of the receiver/frame; magazine release lever located at the bottom rear of the grip strap; black plastic grip plates.
- both grip plates usually have a round medallion which displays the calibre designation or the outline of a woman's head encircled by a wreath within a circle.
- German proofmarks are usually apparent on the slide and/or receiver/frame of this firearm.

Manufacturer

- manufacturers name may be marked on the side of the barrel (when marked in this fashion the markings will be hidden by the slide).
- Waffenfabrik August Menz was a German firearms manufacturer located in Suhl, Germany in the early 1900's.
- the firm was sold to Lignose in 1937.

Action

- blowback operated.

Serial Number

- serial number is usually marked on the left side of the receiver/frame ahead of the trigger guard.
- four and five digit numbers without prefix or suffix have been observed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is usually marked on the left side of the slide, e.g., "KAL - 4.25", "KAL - 6.35".
Shots	- detachable box magazine.

Firearm Reference Number (FRN): 142351
Make: Lisboa
Model: British Service Pattern Flintlock Pistol

Summary

Make:	Lisboa
Model:	British Service Pattern Flintlock Pistol
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	PORTUGAL
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
142351 - 1	56 FLINTLOCK	1	245	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- known example was marked "LISBOA" over the date "1797" on the lock plate behind the hammer.
- "Lisboa", also known as "Lisbon", is a city in Portugal.
- known example was also marked with a "Royal Crown" cypher over the script-type letters "MR" on the lock plate in front of the hammer.
- "MR" stands for Maria Regina or Queen Mary.

Model

- no model name is marked on this firearm; the model designation is derived from the characteristics of the firearm.
- this handgun bears a strong resemblance to the English Pattern 1738 Royal Dragoon Pistol and the later Pattern 1756 Land Service Pistol.
- this type of handgun would have been produced from the early 1700's to the early 1800's.
- known example was marked on the side plate behind the trigger as, "LISBOA" over "1797".
- features; muzzle loading, flintlock ignition; side lock action with exposed hammer; rammer mounted underneath the barrel; brass trigger guard and fittings; heavy brass butt cap with side extensions; single hardwood stock which extends to the end of the muzzle.

Action

- muzzle loading, flintlock ignition.

Notes

Make

- "LISTONE INDUSTRY" is marked on the right side of the receiver/frame.
- "LISTONE INDUSTRY" may also be marked on the barrel.
- "LISTONE INDUSTRY" manufactures their own precision barrel.
- "LISTONE INDUSTRY" is located in New Taipei City, Taiwan.

Model

- "LAP-1" is marked on the left side of the receiver/frame.
- "LAP-1" is a single shot, competition type pistol having a pre-charged pneumatic (PCP) power source.

features include: muzzle break with three slotted gas escape ports on both sides and a ramped front sight blade; straight contour barrel that has a covering shroud; air cylinder under the barrel with a pressure gage at the front; accessory rail on the top, rear of the receiver/frame; adjustable rear sight that hang at the back of the receiver/frame; bolt operated with the operating lever folded on top of the chamber area; hammerless; fully adjustable, target style trigger; half pattern trigger guard; synthetic pistol grip; black muzzle break, receiver/frame and grip with silver, blue or red barrel shroud, air cylinder and trigger finish.

- overall length with a 240mm (9.5") barrel is 440mm (17.375") average weight is 1kg (2.2 lbs).

Manufacturer

- "LISTONE INDUSTRY" is marked on the right side of the receiver/frame.
- "LISTONE INDUSTRY" may also be marked on the barrel.
- "LISTONE INDUSTRY" manufactures their own precision barrel.
- "LISTONE INDUSTRY" is located in New Taipei City, Taiwan.

Action

- pre-charged pneumatic (PCP).
- "LAP-1" discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations to Transport.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame. - serial number of referenced examples consisted of the prefix "LAP1C" and seven numbers.
Calibre	- calibre identification is marked on the left side of the receiver/frame.
Canadian Law Comments	- "LAP-1" discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations to Transport.

Notes

Make

- "LISTONE INDUSTRY" is marked on the right side of the receiver/frame.
- "LISTONE INDUSTRY" may also be marked on the barrel.
- "LISTONE INDUSTRY" manufactures their own precision barrel.
- "LISTONE INDUSTRY" is located in New Taipei City, Taiwan.

Model

- "TAICHI" is marked on both side of the receiver/frame.
- "TAICHI" is available as a PCP rifle, PCP pistol and a CO2 pistol.
- "TAICHI" as a handgun is advertised as the "TAICHI CO2" or "TAICHI PCP" depending on the power source.
- "TAICHI" as a PCP rifle is advertised as the "TAICHI X".
- "TAICHI CO2" in its original form is factory equipped with a sound suppressor/silencer.
- "TAICHI" was introduced in 2017.
- features include: no sights; accessory rail on the top of the receiver/frame; straight contour barrel shroud with three pressure release hole toward the receiver/frame; straight barrel profile with a baffle design muzzle brake; CO2 cartridge storage cylinder under the barrel; loading gate at the rear of the receiver/frame; spur hammer; straight pull, arched trigger; single action firing mechanism; synthetic grip; combination of black receiver/frame with black, red or blue finish of the barrel shroud, CO2 cartridge storage cylinder and pivoting breech block.
- overall length with a 200mm (7.875") barrel is 340mm (13.375") average weight is 0.62kg (1.36 lbs).

Manufacturer

- "LISTONE INDUSTRY" is marked on the right side of the receiver/frame.
- "LISTONE INDUSTRY" may also be marked on the barrel.
- "LISTONE INDUSTRY" manufactures their own precision barrel.
- "LISTONE INDUSTRY" is located in New Taipei City, Taiwan.

Action

- CO2 cartridge powered.
- "PCP/CO2" is marked on the right side of the receiver/frame.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500fps) and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of a three letter prefix and eight numbers.
Calibre	- calibre identification is marked on the right side of the receiver/frame.
Canadian Law Comments	- does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500fps) and/or a muzzle energy exceeding 5.7 Joules. - this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. - if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Notes

Make

- the Lithgow Arms logo of a pyramid in cog was observed on the right side of the shoulder stock;
- LITHGOW ARMS may be marked on the barrel;
- the F90 known as the EF88, produced for Australian Defence Force (ADF), is not marked with manufacturer name or country of origin.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "F90" observed marked on the left side of the barrel between the gas block and the flash suppressor;
- the F90 known as the EF88, produced for Australian Defence Force (ADF), is not marked with the model name.
- F90MBR (Modular Bullpup Rifle), manufactured for sale to NATO member countries, utilizes only STANAG (M16 compatible) magazines; all other versions of the F90 are compatible with F88/EF88 (Steyr AUG) magazines instead.
- features include: threaded muzzle with or without flash suppressor; fluted round rifled barrel with black finish, chrome lined bore and chamber; bayonet lug may be present on 508mm barrel; interchangeable barrel housing group (upper receiver assembly) with optic and accessory rails atop, to the left, right, and under the barrel; adjustable gas regulator and gas tube parallel, below, and to the right of the barrel; fibre reinforced polymer bullpup design shoulder stock (lower receiver) with integral pistol grip and trigger guard that encloses shooter's hand, that is adapted for attachment of a grenade launcher; ambidextrous magazine release on trigger guard in front of the trigger; non-reciprocating cocking handle on right side; square vent holes on left and right side over pistol grip, ambidextrous safety on pistol grip at top; left and right side ejection ports, with one removable ejection port cover, located above the flared magazine well; case deflector on right side ejection port; ambidextrous bolt release behind magazine well; black polymer recoil pad. Available finishes include: black, tan, olive drab.
- F90 weight is 3.25 kg with 407mm barrel and 701mm overall length;
- F90(G) weight is 4.28 kg fitted with side loading 40mm grenade launcher, with 407mm barrel and 701mm overall length;
- F90M weight is 3.39 kg with 508mm barrel and 802mm overall length;
- F90M(G) weight is 4.41 kg fitted with side loading 40mm grenade launcher, with 407mm barrel and 701mm overall length;
- F90CQB weight is 3.15 kg with 360mm barrel and 653mm overall length;
- F90CQB(G) weight is 4.18 kg fitted with side loading 40mm grenade launcher, with 360mm barrel and 653mm overall length;

Manufacturer

- MADE IN AUSTRALIA observed marked on the underside of the barrel near the muzzle.
- the F90 known as the EF88, produced for Australian Defence Force (ADF), is not marked with manufacturer name or country of origin.

Recommend new manufacturer: Thales

Keywords would include: Thales Australia, Thales Australia Limited, Thales Group, Thales Air Defence, Lithgow Arms USA.

Correspondence with this company regarding their products originates from Thales Australia

Action

- select fire determined by multi stage trigger: semi-automatic operation with short trigger pull; full automatic fire when trigger is pulled further.

Serial Number

- serial number is on the barrel in front of the lower accessory rail;
- serial number is also marked on the bolt carrier;
- serial number format is two letters, followed by two numbers, followed by five numbers; the two letter prefix corresponds to the firearm model, such as "AF" for the EF88; the first two numbers indicate year of manufacture; and the subsequent five digits is the unique identifier of the rifle.
- "MAXP1200802" was observed marked on an EF88.

Calibre

- "5.56" observed marked on the left side of the barrel between the gas block and the flash suppressor;

Shots

- detachable box magazine;
- F90 and EF88 rifles are compatible with magazines for the F88 and Steyr AUG;
- the F90MBR rifle uses only NATO STANAG (M16) magazines.

Notes

Make

- the Lithgow Arms logo is present on the right side of the polymer butt stock
- the Lithgow Arms logo is represented as a stylized design of a cog wheel, with a triangle in the center of the cog wheel, and a target with crosshairs in the center of the triangle;
- "LITHGOW ARMS" marked on the right side of the integral magazine well of the lower receiver;
- "MADE IN AUSTRALIA LITHGOW ARMS" is marked on the barrel, visible through the top of the upper receiver in the vicinity of the cocking handle (the cocking handle is however located on the left);

Model

- "F90S 508 CANADA" observed marked on the right side of the integral magazine well of the lower receiver;
- the F90S 508 is an Australian made export version of the Lithgow Arms F90, intended for the Canadian market;
- the "S" in "F90S" indicates "semi-automatic only" operation; "508" denotes barrel length of 508mm;
- features include: threaded muzzle with or without flash suppressor; fluted round rifled barrel with chrome lined bore and chamber, black finish, without bayonet lug, and threaded portion between muzzle and forend; interchangeable barrel housing group (upper receiver assembly) with optic and accessory rails atop, to the right, and under the barrel; adjustable gas regulator and gas tube located on the right side below the barrel; fibre reinforced polymer shoulder stock (lower receiver) with integral pistol grip and trigger guard that encloses shooter's hand; removable polymer insert on the front of the trigger guard to permit the attachment of a grenade launcher; non-reciprocating cocking handle on right side; square vent holes on left and right side over pistol grip, ambidextrous safety above pistol grip; left and right side ejection ports with one removable ejection port cover located above the flared magazine well; case deflector on right side ejection port; bolt catch on left side of shoulder stock behind the magazine well; ambidextrous magazine release on underside of shoulder stock behind magazine well; black polymer recoil pad.
- overall length is 802mm with 508mm barrel; weight is 3.39 kg.
-- finish options include: black polymer-ceramic weather resistant finish with black synthetic stock; may also include tan, olive drab.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the LithgowArms logo is present on the right side of the polymer butt stock - "Thales Australia" is not marked on the firearm. - Thales Australia manufactures and exports multiple lines of military and consumer products from the Lithgow factory under the 'Lithgow Arms' brand. Originally called the Small Arms Factory (SAF-Lithgow), the factory was first established in 1912 by the Australian Government to provide a strategic capability for military small arms manufacture for Australia and allied forces. It was acquired in 1999 by Thales Australia as part of the Australian Government's sale of Australian Defence Industries (ADI). - the Lithgow Arms logo is represented as a stylized design of a cog wheel, with a triangle in the center of the cog wheel, and a target with crosshairs in the center of the triangle; - "LITHGOW ARMS" is marked on the right side of the integral magazine well of the lower receiver; - "MADE IN AUSTRALIA LITHGOW ARMS" is marked on the barrel, visible through the top of the upper receiver in the vicinity of the cocking handle (the cocking handle is however located on the left);
Serial Number	- serial number located on the right side of the integral magazine well on the lower receiver, beneath the model name; - serial number also present on the barrel forward of the accessory rail; - serial number also present on the right side of the bolt carrier, visible through the ejection port; - the two letter prefix "CA" followed by seven numbers was observed.
Calibre	- "5.56/7" is marked on the barrel, to the right of "F90S 508", visible through the top of the upper receiver in the vicinity of the cocking handle (the cocking handle is however located on the left);
Shots	- detachable box magazine
Canadian Law Comments	- the Lithgow Arms F90S 508 was readily and easily converted to discharge shots in rapid succession with a single pressure of the trigger in a relatively short time period with relative ease. - this is a prohibited firearm within the meanings of the Criminal Code PART III, Section 84 definitions of automatic firearm and prohibited firearm: "automatic firearm" means a firearm that is capable of, or assembled or designed and manufactured with the capability of, discharging projectiles in rapid succession during one pressure of the trigger; "prohibited firearm" means (c) an automatic firearm, whether or not it has been altered to discharge only one projectile with one pressure of the trigger.

2514 - 2	6.5X55 SWEDISH MAUSER	10	635	Prohibited PFR, Part 1, para. 219	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ljungman" is not marked on the firearm.
- "Ljungman" is also known as "Eklund-Ljungman".
- Erik Eklund, an engineer working at Ljungman in Malmo, Sweden designed the Ljungman self-loading rifle in 1941.
- Ljungman self-loading rifle design was officially adopted as the "Halvautomatisket Gevaer 42" in caliber 6.5x55 by the Swedish army in 1942.
- Ljungman rifles were manufactured by Carl Gustafs Stads Gevarsfaktori and Husqvarna Vapenfabrik AB from circa 1942 to 1955.

Model

- Introduced in 1942.
- "AG42" was manufactured from 1942 to 1953.
- "AG42" is not marked on the firearm.
- year of manufacture is marked on the left side of the receiver/frame.
- according to the Swedish system of nomenclature, "AG42" stands for "semi-automatic rifle, model of 1942".
- this is the original Swedish design which later became the AG42 B (after trigger, extractor, front sight and gas tube changes were made to the AG42 in 1953).
- AG42 is a long firearm with its barrel and gas system covered by the forearm and top wood guard.
- AG42 design has an unusual bolt/bolt-carrier/breech-cover system, which is cocked by pushing the triangular breech-cover forward, over the triangular bolt-carrier, then pulling it rearward.
- if the magazine is full, the bolt and bolt-carrier will then return forward to strip the top round out of the magazine.
- almost all of the AG42 models were eventually converted to the AG42 B, which has a stainless-steel gas tube and a rubber roller on the right side of the breech-cover to soften ejection.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Carl Gustafs' logo of a crown over the letter "C" are usually marked on the left side of the receiver/frame.
Action	- gas operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - AG42 serial numbers consist of numbers without a letter prefix or suffix. - AG42B serial numbers have a letter "B" suffix.
Shots	- detachable box magazine.
Other Markings	- will be marked with the date of manufacture, serial number and proofs.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
732 - 1	6.5X55 SWEDISH MAUSER	5	635	Prohibited PFR, Part 1, para. 219	Non-Commercial Customization	
732 - 2	6.5X55 SWEDISH MAUSER	10	635	Prohibited PFR, Part 1, para. 219	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ljungman" is not marked on the firearm.
- "Ljungman" is also known as "Eklund-Ljungman".
- Erik Eklund, an engineer working at Ljungman in Malmo, Sweden designed the Ljungman self-loading rifle in 1941.
- Ljungman self-loading rifle design was officially adopted as the "Halvautomatisket Gevaer 42" in caliber 6.5x55 by the Swedish army in 1942.
- Ljungman rifles were manufactured by Carl Gustafs Stads Gevarsfaktori and Husqvarna Vapenfabrik AB from circa 1942 to 1955.

Model

- Introduced in 1942.
- "AG42" was manufactured from 1942 to 1953.
- "AG42" is not marked on the firearm.
- year of manufacture is marked on the left side of the receiver/frame.
- according to the Swedish system of nomenclature, "AG42" stands for "semi-automatic rifle, model of 1942".
- AG42 is the original Swedish design which later became the AG42 B (after trigger, extractor, front sight and gas tube changes were made to the AG42 in 1953).
- AG42 is a long firearm with its barrel and gas system covered by the forearm and top wood guard.
- AG42 design has an unusual bolt/bolt-carrier/breech-cover system, which is cocked by pushing the triangular breech-cover forward, over the triangular bolt-carrier, then pulling it rearward.
- if the magazine is full, the bolt and bolt-carrier will then return forward to strip the top round out of the magazine.
- almost all of the AG42 models were eventually converted to the AG42 B, which has a stainless-steel gas tube and a rubber roller on the right side of the breech-cover to soften ejection.

Manufacturer

- Husqvarna's logo of a crown over the letter "H" are usually marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas-operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - AG42 serial numbers consist of numbers without a letter prefix or suffix. - AG42B serial numbers have a letter "B" suffix.
Shots	- detachable box magazine
Canadian Law Comments	- magazine must be blocked/pinned to five rounds or less to comply with Canadian magazine-capacity regulations.
Other Markings	- date of manufacture, serial number and proofs.

Notes

Make

- "Ljungman" is not marked on the firearm.
- "Ljungman" is also known as "Eklund-Ljungman".
- Erik Eklund, an engineer working at Ljungman in Malmo, Sweden designed the Ljungman self-loading rifle in 1941.
- Ljungman self-loading rifle design was officially adopted as the "Halvautomatisket Gevaer 42" in caliber 6.5x55 by the Swedish army in 1942.
- Ljungman rifles were manufactured by Carl Gustafs Stads Gevarsfaktori and Husqvarna Vapenfabrik AB from circa 1942 to 1955.

Model

- Introduced in 1955.
- this is an Egyptian produced, licenced copy of the Swedish AG42/AG42B, with semi-pistol grip stock, sling swivels, detachable box magazine, bayonet lug on nose cap, adjustable sights, a case deflector on the right side of the top cover, pivoting safety at the top rear of the receiver/frame, and a ventilated muzzle brake.
- these rifles have the same unusual semi-automatic mechanism as the AG42/AG42B series, with a sliding triangular top cover that is pushed forward to latch into the bolt, then pulled rearwards to strip a cartridge out of the magazine.

Manufacturer

- a logo of the manufacturing facility, as well as various Arabic writing are marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- originally marked on the receiver/frame in Arabic. - samples imported into North America may bear both Western (applied after manufacture) and original Arabic serial numbers.
Shots	- removable box magazine.
Other Markings	- some Arabic script on action and sight elevation scale.

FRT Report

Firearm Reference Number (FRN): 4561
Make: Ljutic
Model: Mono Trap Gun

Summary

Make:	Ljutic
Model:	Mono Trap Gun
Manufacturer:	Ljutic Industries
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
4561 - 1	12 GA X 2 3/4"	1	813	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
4561 - 2	12 GA X 2 3/4"	1	864	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model	- designed to be a trap gun only. - it is basically an expensive single shot hand crafted trap gun. - the advantage of small production manufacturing allows for this Ljutic to be well tuned and well finished but to be a semi-custom quality firearm.
Manufacturer	- the Ljutic company is family owned and the products designed by owner Al Ljutic of Yakima, Washington State.
Action	- break open.
Serial Number	- marked on the action. - may range from 1 to 12,500
Calibre	- offered in 12GA X 2 3/4" only.

Notes

Make

- make may be marked on the left side of the receiver/frame.

Model

- introduced in 1981, no longer in production.
- model designation is marked on the left side of the receiver/frame.
- designed to be a trap gun only.
- radical in its design as the gun is tubular with a bolt (as in bolt action) that when drawn back, cocks a heavy piston as well as to expose the loading port. The shell is loaded, the bolt is closed and locked.
- features include: walnut buttstock, pistol grip and fore end.

Manufacturer

- manufacturer's name is marked on the left side of the receiver/frame.
- the Ljutic company is family owned and operated, the products are designed by owner Al Ljutic of Yakima, Washington State. Previously manufactured under the name Ljutic Gun Company (before 1960).

Notes

Make	- the make (or logo thereof) is marked on the firearm.
Model	- the model designation may not be marked on the firearm. - this is a single-shot pistol intended for metallic silhouette or target competition, based in large part on Ljutic's similar designs for their "Space" shotguns and rifles. - features include: checkered walnut pistol-grip and forearm; blued finish; no open sights (drilled and tapped for mounts); "twist-open" breech design; and a large cocking handle protruding from the bottom of the receiver/frame ahead of the trigger guard.
Manufacturer	- the manufacturer (or logo thereof) is marked on the firearm.
Action	- "twist-open" single-shot.
Serial Number	- numbered on receiver/frame.

Notes

Make

- "LJUTIC" is marked on the firearm.

Model

- "SPACE RIFLE" is marked on the left side of the receiver/frame.
- this is a unique, tubular, in-line layout single-shot rifle based on Ljutic's "Space Gun" trap-shooting shotgun, and using the same floating-breech mechanism to reduce recoil.
- features include: blued finish; no open sights (mounting bases for optical sights supplied); very unusual in-line layout, with a tubular wooden forearm and cheekpiece, and wooden pistol-grip; a vertical cocking knob on the bottom of the receiver/frame that opens the breech and cocks the striker; and a ventilated rubber buttpad.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's name is marked on the left side of the receiver/frame. - the Ljutic company is family owned and operated, the products are designed by owner Al Ljutic of Yakima, Washington State. Previously manufactured under the name Ljutic Gun Company (before 1960).
Action	- in-line single-shot design, loaded through a port in the bottom of the receiver/frame, after cocking the internal striker by pulling the bolt handle to the rear.
Serial Number	- serial-numbered on the receiver/frame.

Make	- "LLAMA" is marked on the slide. - "LLAMA" is a tradename used by Gabilondo Y Cia.
Model	- the 9MM LUGER version was manufactured from 1937 to 1954. - model designation is marked on the right hand side of the slide. - this is a generic entry and the name "ESPECIAL" was a designation only and was stamped on different models of current production Llama pistols. - the calibre and grip safety features are the main identification keys to differentiate models in Llama pistol line. - features may vary greatly on finishes, calibre, barrel length, and sights configuration.
Manufacturer	- manufacturer designation is marked on the left hand side of the slide.
Serial Number	- usually stamped on the receiver/frame. - observed serial number examples have consisted of six numbers.
Calibre	- calibre is marked on the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- "LLAMA" is marked on the slide.
- the Llama trademark badge symbol is usually marked on both grip plates; this trademark consists of a hand bearing a flaming torch with the word "LLAMA" on top, the words "Trade Mark" underneath, all within a circular badge.

Model

- early production versions of this handgun are not marked with the model name; later versions are marked "III-A" on the left side of the slide.
- this model superseded the Llama Model III in 1955; it is similar to the Llama Model III but has the addition of a Colt-type grip safety.
- features; blow-back operated, single action trigger, detachable box magazine with exposed hammer; grip safety on rear strap of the grip; thumb safety located on the left rear of the receiver/frame; slide release lever located on the left side of the receiver/frame; top rib on the slide which may be ventilated; magazine release button behind the trigger on the left side of the receiver/frame; plastic checkered grips; blued finish.
- Italian proofmarks are apparent on this firearm.
- the "Airlite" version of this model is known as the model XIX.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer designation is marked on the right side of the slide.
Action	- blowback operated.
Serial Number	- marked on the right side of the receiver/frame. - observed serial numbers consisted six digit numbers and five digit numbers with a letter prefix. - letter prefixes "A" and "C" have been observed.
Calibre	- calibre is marked on the slide. - the calibre 32 AUTO/7.65MM version was discontinued in 1993.
Shots	- detachable box magazine.
Importer	- importers information may be marked on the right side of the receiver/frame.
Remarks	- this model is also known as the "Small Frame" or "Classic Small Frame" and is part of the "New Generation" manufacture

Notes

Make

- "LLAMA" name is marked on the right side of the barrel.
- "LLAMA" trade mark logo is marked on the right side of the receiver/frame.
- "LLAMA" logo is usually marked on the grip plates.
- "LLAMA" is a tradename used by Gabilondo Y Cia.

Model

- manufactured from 1967 to 1976.
- model designation is not marked on this model.
- features include: double action trigger mechanism, blued receiver/frame and ventilated rib barrel, spurred hammer, fluted cylinder which swings out to the left side, shrouded or exposed ejector rod, fixed ramp front sight with adjustable rear sight and may have walnut or simulated pearl grip panels.
- this model was also available with a satin, chrome or gold damascened finish and engraving.

Manufacturer

- "GABILONDO Y CIA. VICTORIA (ESPANA)" is marked on the left side of the barrel.
- "Made in Spain" is marked on the bottom of the grip strap.
- this model was also manufactured by "INDUMIL" for Gabilondo Y Cia.

Serial Number

- the serial number is marked on the bottom of the grip strap.
- example observed had a letter prefix and six sequential numbers.

Calibre

- calibre designation is marked on the left side of the barrel.

Importer

- importer information may be marked on the right side of the receiver/frame.

Other Markings

- "MADE IN SPAIN" is marked on the bottom of the pistol grip.

Notes

Make

- "LLAMA" is marked on the left hand side of the slide.
- "LLAMA" company logo is on the grip plates.
- "LLAMA" is a tradename used by Gabilondo Y Cia.

Model

- introduced in 1995.
- "LLAMA MAX-I 45 C/F" or "LLAMA CAL 45 MAX-I-CF" may be marked on the left side of the slide.
- "CF or C/F" in the model designation denotes "Compact Frame".
- features include: fixed sights; round barrel; flat sided slide with right side ejection and rear grasping serrations; 1911 type receiver/frame with an extended beavertail grip safety; exposed skeletonized hammer; single action trigger mechanism; action release lever, manual thumb safety lever and magazine release button are mounted on the left side of the receiver/frame; synthetic or wood grip plates; blued, green, two-tone or chrome plated finish.

Manufacturer

- "GABILONDO Y CIA. VITORIA (ESPANA) is usually marked on the right side of the slide.
- "Made in Spain" is usually marked on the right side of the receiver/frame.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number may be marked on either side of the receiver/frame.
- serial number rationalization is unknown.
- serial number was observed marked on the right side of the receiver/frame and consisted of a letter "C" prefix and five numbers.
- serial number observed marked on both sides of the receiver/frame.
- "07-04" was observed marked on the left side of the receiver/frame, above the trigger.
- "06771-96" was observed marked on the right side of the receiver/frame, above the trigger.
- serial number was observed marked on the left side of the receiver/frame and consisted of eleven numbers without a letter prefix or suffix, eg. "07-04-11576-96".
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "07-04-11576-96".
- serial number break down: the first two numbers (07) are the code numbers for the manufacture, the next two numbers (04) are the code numbers for pistol, the next Numbers are the serial number sequence, and the last two numbers (96) are the year of manufacture.

Calibre

- calibre designation is marked on the left side of the slide.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 126465
Make: Llama
Model: Minimax Sub Compact

Summary

Make:	Llama
Model:	Minimax Sub Compact
Manufacturer:	Fabrinor
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
126465 - 1	45 AUTO	10	79	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "LLAMA" is marked on the left side of the slide.
- "LLAMA" logo is marked on the grip panel.
- "LLAMA" is a tradename used by Gabilondo Y Cia.

Model

- one sample observed featured the model designation "MINIMAX" over "SUB-COMPACT" marked on the left side of the slide.
- resembles the style of a compacted Colt model M1911A1 US Army.
- features include: solid top slide with serrations at the rear; fixed sights; rounded spur external hammer; chamber indicator; extended slide release and thumb safety lever located on the left side of the receiver/frame; single action trigger mechanism; magazine release located behind the trigger; extended spur grip safety; blued, chromed or two tone finish; checkered black polymer grip panels.
- overall length with a 79mm (3 1/8") barrel is 165mm (6 1/2"), average weight is 886gr (31oz).

Manufacturer

- "71" the first two numbers in the serial number is the manufacturer's code for Fabrinor S.A.L.
- Fabrinor S.A.L. was established by ex-Gabilondo employees in 2000.
- Fabrinor ceased operations in 2005.

Action

- recoil operated.

Serial Number

- one sample observed featured the serial number marked on the left side of the receiver/frame.

Calibre

- one sample observed featured the calibre designation "45" marked on the left side of the slide.

Shots

- detachable box magazine.

20584 - 1	9MM LUGER	9	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "LLAMA" is marked on the slide.
- "LLAMA" is a tradename used by Gabilondo Y Cia.

Model

- originally called the "LLAMA ESPECIAL".
- manufactured from 1936 to 1954, replaced by the XI B.
- model designation not marked on the firearm.
- this model differed from all previous Llama models, it used a longer, curved butt to form a finger rest, vertically checkered walnut grips, and ring hammer.
- no grip safety.
- earlier issues had a lanyard ring on the left side of the grip, this was omitted on later issues.

Calibre

- calibre is marked on the slide.

Shots

- detachable box magazine.

Other Markings

- Gabilondo markings may be marked on the slide as follows:
- pre-1936: "GABILONDO y Cia ELGOIBAR (ESPANA) CAL [xx]m/m LLAMA".
- post-1936: "LLAMA Gabilondo y Cia Elgoibar (Espana) Cal [xx]m/m".

Notes

Make

- "LMT" inside an oval over "LEWIS MACHINE" over "& TOOL CO." over "MILAN, IL" is usually marked on the left side of the magazine housing of the lower receiver/frame.
- "LMT" is the abbreviation for "Lewis Machine & Tool".

Model

- "DEFENDER 2000" is marked on the left side of the receiver/frame.
- "DEFENDER 2000" is of the design commonly known as the AR-15/M-16 rifle.
- "DEFENDER 2000" is also sold as a receiver/frame.
- "DEFENDER 2000" is the semi-automatic version of the LMT full automatic "GUARDIAN" rifle series.
- "DEFENDER 2000" chambering in "6.8MM REM SPC" was introduced in 2006.
- features include: unthreaded or threaded muzzle for flash hider/muzzle brake; steel or stainless steel barrel; standard, heavy profile or grooved, M4 carbine contoured barrel; AR15/M16 standard, low profile, Picatinny rail or folding front sight bracket/gas block; Picatinny rail, free floating or synthetic handguard; may be of monolithic design, a one piece upper assembly and handguard having a "quad-rail" system with a continuous top rail or A3 Picatinny rail flat top upper assembly; may have a detachable sight system, folding sights or optical sight; standard, collapsible or custom rifle buttstock; synthetic pistol grip; matte black or coloured finish.
- overall length with a 406mm (16") barrel is 826 mm (32.5") with the stock collapsed, average weight is 2.83kg (6.25lbs).

Manufacturer

- "LEWIS MACHINE" over "& TOOL CO." over "MILAN, IL" may be marked on the left side of the magazine housing of the lower receiver/frame.
- "Lewis Machine & Tool (LMT)" was established in 1980.
- "Lewis Machine & Tool (LMT)" is located in Milan, Illinois U.S.A..

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the magazine well of the lower receiver/frame.
- serial numbers observed consisted of a three letter "LMT" prefix and five numbers.

Calibre

- calibre is marked on the side of the receiver/frame and/or barrel.
- rifling characteristics in calibre 204 RUGER: 1 turn in 12 inches, right hand twist.
- rifling characteristics in 5.56 NAT0: 1 turn in 7 inches, right hand twist.
- rifling characteristics in 6.8 REM SPC: 1 turn in 10 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks - as a large variety of after-market parts are available for this design external appearance may vary greatly from the original configuration.

Notes

Make

- "LMT" inside an oval was observed marked on the left side of the magazine well.
- "Lewis Machine and Tool Co." over "Milan, Il. USA" was observed marked on the left side of the receiver/frame above the trigger.
- "Lewis Machine and Tool Co." was observed marked on the upper receiver/frame above the ejection port.

Model

- "LM308MWS" or "LM308MW8" is marked on the left of the magazine housing.
- "LM308MWS" or "LM308MW8" variants are based on the Colt AR-15/M16 design.
- "MWS" stands for "Modular Weapon System".
- features include: standard AR-type black lower receiver/frame with ambidextrous safety selector and magazine release; chrome-lined, black surfaced barrel with flash eliminator; upper receiver equipped with a full length Picatinny rail; free-floating black plastic forend with top, bottom, left and right mounting rails; black rubber covered pistol grip and collapsible SOPMOD buttstock.
- this firearm is highly configurable from the factory, and may not exist in this exact configuration.
- overall empty weight: 4.526 kgs.
- overall length : 762 mm.

Manufacturer

- "Lewis Machine & Tool (LMT)" was established in 1980.
- "Lewis Machine & Tool (LMT)" is located in Milan, Illinois U.S.A..

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of referenced examples consisted of the prefix "L8" and six numbers.
- serial number of a referenced example consisted of the prefix "LS" and six numbers.
- serial number of referenced examples consisted of a three letter prefix (LMS) and five numbers when marked "CAL. 7.62X51MM".

Calibre

- calibre identification is marked on the left side of the receiver/frame.
- calibre identification is also usually marked on the barrel.
- 308 WIN rifling characteristics: 1 turn in 10 and 11.25 inches, right hand twist.

Shots

- detachable box magazine.
- uses KAC/ Knight (SR-25), C-Products, DPMS and Magpul magazines.

Manufacturer:	Lewis Machine & Tool (LMT)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Grenade Launcher
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
144187 - 1	40X46MM	1	305	Prohibited PFR, Part 1, para. 95(z.094)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "LMT" inside an oval was observed marked on both side of the receiver/frame.
- "LMT" is the abbreviation for "LEWIS MACHINE & TOOL CO.".
- "LEWIS MACHINE & TOOL CO." over "MILAN, IL" was observed marked on the left side of the receiver/frame.

Model

- "LAUNCHER GRENADE " over "40MM" and "M-2032003" is marked on the left side of the receiver/frame.
- "FMT" was observed marked on the right side of the receiver/frame above the trigger.
- "FMT" is the abbreviation for "Forsvarets Materieltjeneste".
- the grenade launcher were manufactured for the Danish Defence.
- "M-2032003" can be mounted to a firearm or a buttstock with a pistol grip assembly and/or an accessory rail can be added.
- "M-2032003" is a breech loading, forward sliding barrel, manually operated grenade launcher.
- features include: round rifled aluminum barrel; barrel unlocking lever on the left side over the ribbed handguard; double action trigger mechanism; safety lever in the trigger guard.

Manufacturer

- "Lewis Machine & Tool (LMT)" was established in 1980.
- "Lewis Machine & Tool (LMT)" is located in Milan, Illinois U.S.A..

Action

- pump/slide action.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number observed consisted of two digits followed by two alpha characters followed by four digits.

Calibre

- "40MM" was observed marked on the left side of the receiver/frame.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- company logo over "LOBAEV ARMS" may be marked on the right side of the receiver/frame, in front of the ejection port. - "LOBAEV" over "HUMMER BARRELS" may be marked on the left side of the barrel, in front of the receiver/frame.
Model	- "DVL-10" may be marked on the forward left side of the receiver/frame. - "SABOTEUR" or "URBANA" may be marked on the left side of the receiver/frame. - features may include: reflex suppressor over barrel; fluted muzzle brake; heavy contour round or fluted rifled steel barrel; receiver/frame with accessory rail mounted on top; aluminum stock/chassis with integral accessory rail on forward top and bottom section; safety lever in trigger guard; adjustable trigger; polymer pistol grip; aluminum adjustable stock; black finish. - overall length with a 600mm (23.62") barrel is 1054mm (41.49"), average weight is 4.8 kgs (10.58 lbs). - overall length with a 400mm (15.75") barrel with the stock folded is 580mm (22.87").
Manufacturer	- company logo over "LOBAEV ARMS" may be marked on the right side of the receiver/frame, in front of the ejection port. - "LOBAEV" over "HUMMER BARRELS" may be marked on the left side of the barrel, in front of the receiver/frame.
Action	- turn-bolt design.
Serial Number	- serial number may be marked on the right side of the receiver/frame, behind the ejection port and on the right side of the barrel. - serial number of an observed example consisted of nine numbers.
Calibre	- calibre may be marked on the right side of the barrel just forward of the receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- as it left the factory, this firearm (DVL-10 M1) is equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the barrel and the overall length is over 660mm with the stock folded, the firearm is correctly identified as a "Non Restricted Firearm". - when the sound suppressor/silencer (prohibited device) is removed from the 400mm length barrel the firearm is identified as "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

FRT Report

Firearm Reference Number (FRN): 134799
Make: Lochet-Habran, Laurent
Model: Side By Side

Summary

Make:	Lochet-Habran, Laurent
Model:	Side By Side
Manufacturer:	Lochet-Habran, Laurent
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
134799 - 1	12 GA X 2 1/2"	2	686	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
134799 - 3	12 GA X 2 3/4"	2	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
134799 - 2	16 GA X 2 1/2"	2	680	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "LLH" or "L.L.H." or "LLH" and "ACL" or variation thereof is marked on the underside of the barrels or on the watertable.
- "LLH" is the acronym for "Laurent Lochet-Habran".

Model

- model designation is not marked on the firearm.
- this is a higher quality, side by side, boxlock shotgun that features a Greener locking system.
- features observed: blued side by side smoothbore barrels with matted rib and bead front sight; front hinged receiver/frame with top tang mounted break open lever and safety; engraved and nickel plated box lock or back action lock; external hammers or hammerless; two triggers; checkered wood firearm with straight or semi-pistol grip buttstock; sling swivels.
- overall length is 1041 mm (41").

Manufacturer

- "LLH" or "L.L.H." or "LLH" and "ACL" or variation thereof is marked on the underside of the barrels or on the watertable.
- "LLH" is the acronym for "Laurent Lochet-Habran".
- Laurent Lochet-Habran (LLH) was located in Jupille-lez-Liege, Belgium from 1860 to circa 1924.

Action

- side by side barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number was observed marked on the underside of the barrel assembly.
- observed serial number consisted of four numbers without a letter prefix or suffix.
- serial number was observed marked on the watertable of the receiver/frame and repeated on the underside of the barrel assembly.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Canadian Law Comments

- one example was marked "WAPEN DEPOTEN FALUN IMPORT" on the barrel rib.

Notes

Make

- "LOCKHART TACTICAL" is marked on the right side of the receiver/frame.
- "MADE IN CANADA / FABRIQUE AU CANADA" is marked on the left side of the receiver/frame.
- "LOCKHART TACTICAL" is located on Vancouver Island, British Columbia, Canada.

Model

- The model designation is not marked on the receiver/frame.
- "RAVEN" is marked on both side of the upper assembly.
- "RAVEN" is not a variant of the Colt AR-15 type rifle.
- "RAVEN" is a designed purpose built pistol-calibre carbine (PCC) that uses simple blowback operation from a closed bolt and feeds 9 MM Luger ammunition from Glock 9MM pistol magazines.
- "RAVEN" shares design features reminiscent of the Thureon Defense Model GA, Just Right JR carbine, TNW Areo Survival Rifle and Kel-Tec Sub 2000.
- Features include: ventilated forearm with accessory rail; aluminium alloy flat top upper assembly with accessory rail; tool-less barrel removal design; ambidextrous charging handles; ambidextrous safety/selector ; bolt release lever located on the left side of the aluminium alloy receiver/frame; automatic last round bolt hold open.
- Overall length with a 472 mm (18.6 inches) barrel is 838 mm (33 inches), average weight is 2.5 kg (5.5 lbs).
- The "RAVEN" utilizes a 3-part receiver consisting of an upper, a lower, and a magazine well. For regulatory purposes, the lower receiver is the receiver/frame of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "LOCKHART TACTICAL" is marked on the right side of the receiver/frame. - "MADE IN CANADA / FABRIQUE AU CANADA" is marked on the left side of the receiver/frame. - "LOCKHART TACTICAL" is located on Vancouver Island, British Columbia, Canada. - "LOCKHART TACTICAL" was established in 2012.
Action	- Blowback operated.
Serial Number	- The serial number is marked on the right side of the receiver/frame. - Serial number of a referenced example consisted of a two letter prefix (PR) and five numbers.
Calibre	- The calibre designation is marked on the left side of the receiver/frame. - The calibre designation is usually marked on the barrel assembly.
Shots	- Detachable box magazine. - Accept Glock pistol magazine.

Summary

Make:	Lockheed Martin
Model:	M168
Manufacturer:	Lockheed Martin
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148853 - 1	20X102	N/A	1524	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make or logo thereof is marked on the cannon.
Model	- the model may or may not be marked on the cannon; "M168" was the model number assigned by the US military on the adoption of this particular cannon. - this is a version of the M61A1 aircraft cannon (seen mounted on many US fighter planes) produced as a ground-mount anti-aircraft weapon, with a lower rate of fire than the M61A1 (where the M61A1 fires at a rate of 6000 rpm, to increase hit probability, the M168 has a selectable rate of fire of either 1000 rpm or 3000 rpm.) - features include: parkerized finish; six-barrel rotating barrel cluster; an electrically-powered feed and firing system; and these cannon are normally seen on a wheeled mount with electro-optical sights and electrically-powered traverse and elevation controls to allow tracking an airborne target.
Manufacturer	- the manufacturer or logo thereof is marked on the cannon.
Action	- electrically powered with a rotating barrel cluster.
Serial Number	- numbered on the receiver/frame.
Shots	- belt fed.

95975 - 1	8X57R MAUSER/16 GA	3	673	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "A.LOESCHE. HANNOVER" is marked on the top rib.

Model

- model designation is not marked on the firearm.
- may be found with two side by side shotgun barrels over a single rifle barrel or one shotgun barrel with two rifle barrels (may be different calibres).
- features may include:
- box lock, or side lock configuration.
- single or double triggers, with barrel selector located on the upper tang, either side of the receiver/frame, or inside the trigger guard.
- may have rear flip up "express type" sight.

Manufacturer

- Adolf Loesche was located in Hannover, Germany, circa 1921 to 1926.

Action

- hinged barrel design.
- barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.

Serial Number

- specimen observed with four numerical digits.

Other Markings

- additional markings may include German proof marks located on barrel, and receiver/frame.

28445 - 2	44-40 WIN	6	165	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "LUDW. LOEWE & Co. WAFFEN- & MUNITIONS - FABRIK. BERLIN." was observed marked on the barrel followed by "NO." and the serial number.

Model

- model designation is not marked on the firearm.
- this is a copy of the Smith & Wesson Top Break No. 3 Single Action Russian Model 3 manufactured by Ludwig Loewe & Company after their contract with the Russian government ended circa 1880; these post-contract revolvers can be distinguished from earlier models by the manufacturer's information appearing in the English (Roman) alphabet rather than the Russian Cyrillic alphabet.
- features include: round ribbed barrel with blade front sight; front hinged receiver/frame with fluted cylinder with automatic extractor/ejector, and top strap mounted fixed rear sight and break open mechanism; exposed spurred hammer; single action trigger mechanism; trigger guard with finger rest; round butt grip frame with wood grip plates, and lanyard ring; blued finish.

Manufacturer

- "LUDW. LOEWE & CO. WAFFEN- & MUNTIONS - FABRIK. BERLIN." is marked on the top strap of the barrel followed by the serial number.

Serial Number

- serial number was observed marked on the bottom of the grip strap and repeated on the barrel.
- serial number rationalization is unknown. It is believed that serialization started at 1 and may have rose to 70000.

Firearm Reference Number (FRN): 16358
Make: Loktev-Loginov
Model: M1939

Summary

Make:	Loktev-Loginov
Model:	M1939
Manufacturer:	Russian State Arsenal, Korolev
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
16358 - 1	37X250R	5	2315	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the cannon.
- this make is derived from the names of the two lead designers who worked on designing this cannon, Lev Abramovich Loktev and Mikhail Nikolaevich Loginov.
- Loktev and Loginov worked together as designers at Korolev's Factory 8, the "Factory in the name of Kalinin"/"Zavod imeni Kalinin'/"ZiK", producing artillery during the Second World War.

Model

- the model may be marked on the cannon as "1939" or "obr. 1939".
- this is a model of anti-aircraft cannon developed by Lev Loktev and Mikhail Loginov at the Zavod imeni Kalinina/Factory in the name of Kalinin during the late 1930s. This cannon is essentially a smaller-calibre copy of the Bofors 40mm cannon, and was manufactured at Factories 4 and 8 up until the end of the Second World War; after World War Two, export versions were supplied to Algeria and Egypt, and China was given copies of the plans to begin producing their own versions, known as the "Type 65".
- these cannon may be seen in both single- and double-mounts, and in towed or self-propelled versions, depending on the intended tactical use.
- features include: parkerized/phosphated, or painted finish; cone-shaped Bofors-style flash hider; tapered barrel with under barrel hydraulic brake; wheel and pedal aiming/firing controls; "open-bolt" firing cycle; a vertical feed chute with cartridge pawls (fed via 5-round clips dropped into the chute); and rear ejection into a disposal chute.
- cyclic rate of 160-170 rpm.
- this cannon was normally crewed by up to 7 crew members, with one gunner traversing, one gunner elevating/depressing, and the remainder keeping the cannon(s) supplied with cartridges in clips.

Manufacturer

- the city (Korolev, previously Podlipki), the factory number (8), or the factory name (Factory 8, "ZiK", or the "Factory in the name of Kalinin"/"Zavod imeni Kalinina", all in Cyrillic) is marked on the identification plaque riveted to the cannon.

Action

- long recoil operation.

Serial Number

- serial numbered on an identification plaque riveted to the cannon.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - clip fed cannon.

16357 - 1	37X250R	5	2315	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the cannon.
- this make is derived from the names of the two lead designers who worked on designing this cannon, Lev Abramovich Loktev and Mikhail Nikolaevich Loginov.
- Loktev and Loginov worked together as designers at Korolev's Factory 8, the "Factory in the name of Kalinin"/"Zavod imeni Kalinin'/"ZiK", producing artillery during the Second World War.

Model

- the model may be marked on the cannon as "1939" or "obr. 1939".
- this is a model of anti-aircraft cannon developed by Lev Loktev and Mikhail Loginov at the Zavod imeni Kalinina/Factory in the name of Kalinin during the late 1930s. This cannon is essentially a smaller-calibre copy of the Bofors 40mm cannon, and was manufactured at Factories 4 and 8 up until the end of the Second World War; after World War Two, export versions were supplied to Algeria and Egypt, and China was given copies of the plans to begin producing their own versions, known as the "Type 65".
- these cannon may be seen in both single- and double-mounts, and in towed or self-propelled versions, depending on the intended tactical use.
- features include: parkerized/phosphated, or painted finish; cone-shaped Bofors-style flash hider; tapered barrel with under barrel hydraulic brake; wheel and pedal aiming/firing controls; "open-bolt" firing cycle; a vertical feed chute with cartridge pawls (fed via 5-round clips dropped into the chute); and rear ejection into a disposal chute.
- cyclic rate of 160-170 rpm.
- this cannon was normally crewed by up to 7 crew members, with one gunner traversing, one gunner elevating/depressing, and the remainder keeping the cannon(s) supplied with cartridges in clips.

Manufacturer

- the city (Krasnoyarsk), the factory number (4), or the factory name (Factory 4, "Krasmash", or the "Factory in the name of Voroshilov"/"Zavod imeni Voroshilova", all in Cyrillic) is marked on the identification plaque rivetted to the cannon.

Action

- long recoil operation.

Serial Number

- serial numbered on an identification plaque riveted to the cannon.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - clip fed cannon.

Notes

Make

- the make is not marked on the cannon.
- this is a licence-built version of the Russian Loktev-Loginov M1939 AA cannon.

Model

- the model may or may not be marked on the cannon.
- this is a model of anti-aircraft cannon developed by Lev Loktev and Mikhail Loginov at the Zavod imeni Kalinina/Factory in the name of Kalinin during the late 1930s. This cannon is essentially a smaller-calibre copy of the Bofors 40mm cannon, and was manufactured at Factories 4 and 8 up until the end of the Second World War; after World War Two, export versions were supplied to Algeria and Egypt, and China was given copies of the plans to begin producing their own versions, known as the "Type 65". China also supplied these cannon to other customers, such as Pakistan.
- these cannon may be seen in both single- and double-mounts, and in towed or self-propelled versions, depending on the intended tactical use.
- features include: parkerized/phosphated, or painted finish; cone-shaped Bofors-style flash hider; tapered barrel with under barrel hydraulic brake; wheel and pedal aiming/firing controls; "open-bolt" firing cycle; a vertical feed chute with cartridge pawls (fed via 5-round clips dropped into the chute); and rear ejection into a disposal chute.
- cyclic rate of 160-170 rpm.
- this cannon was normally crewed by up to 7 crew members, with one gunner traversing, one gunner elevating/depressing, and the remainder keeping the cannon(s) supplied with cartridges in clips.

Manufacturer

- the manufacturer may or may not be marked on the cannon; where present, may only be marked in Chinese ideographs.

Action

- long recoil operation.

Serial Number

- serial numbered on an identification plaque rivetted to the cannon.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - clip fed cannon.

Notes

Make

- the make is not marked on the cannon.
- this is a Chinese built modification of the Russian Loktev-Loginov M1939 AA cannon.

Model

- the model may or may not be marked on the cannon.
- this is a model of anti-aircraft cannon developed from the earlier "Type 65" cannon, a straight-across copy of the Russian Loktev-Loginov M1939; the Type 74 is a radar-guided version of the Type 65 which can be operated remotely and is often seen in naval mountings.
- these cannon may be seen in both single- and double-mounts, and in towed, naval, or self-propelled versions, depending on the intended tactical use.
- features include: parkerized/phosphated, or painted finish; cone-shaped Bofors-style flash hider; tapered barrel with under barrel hydraulic brake; "open-bolt" firing cycle; and rear ejection into a disposal chute.
- cyclic rate of 160-170 rpm.

Manufacturer

- the manufacturer may or may not be marked on the cannon; where present, may only be marked in Chinese ideographs.

Action

- long recoil operated.

Notes

Make

- the make is not marked on the cannon.
- this is a redesigned and updated version of the Type 74 anti-aircraft cannon (itself a redesigned version of the Type 65, which was a licence-built version of the Loktev-Loginov M1939 AA cannon).

Model

- the model may or may not be marked on the cannon.
- this is a model of anti-aircraft cannon developed from the earlier "Type 74" cannon, which was based on the "Type 65", a straight-across copy of the Russian Loktev-Loginov M1939; the Type 76 is chambered for a shorter 37x240mm cartridge, rather than the 37x250 cartridge of its predecessors, in order to facilitate feeding via chute, as many of these cannon are installed in radar-guided naval mounts.
- these cannon may be seen in both single- and double-mounts, and in towed, naval, or self-propelled versions, depending on the intended tactical use.
- features include: parkerized/phosphated, or painted finish; cone-shaped Bofors-style flash hider; tapered barrel with under barrel hydraulic brake; "open-bolt" firing cycle; and rear ejection into a disposal chute.
- cyclic rate of 160-170 rpm.

Manufacturer

- the manufacturer may or may not be marked on the cannon; where present, may only be marked in Chinese ideographs.

Action

- long recoil operated.

Serial Number

- serial numbered on the receiver/frame.

Shots

- clip, hopper, or chute fed cannon.

Notes

Make

- "H. C. Lombard & Co. Springfield, Mass." is marked on the barrel.

Model

- model designation is not marked on the firearm.
- manufactured between 1859 and 1861.
- total production of approximately 1000 units.
- "Patent Pending" may be marked on the bottom of the butt.
- features include: blued iron octagonal side swing barrel; brass receiver/frame may be silver plated; single action trigger mechanism; exposed spur hammer; sheathed trigger; square butt; wood grip plates; half moon front sight and no rear sight; plain or engraved finish.

Manufacturer

- "Lombard & Co" was a pistol and cartridge maker located on Market Street in Springfield, Massachusetts from 1859 to 1861.

Action

- single action, side swing barrel.

Serial Number

- serial number is located on the grip frame and repeated on the bottom of the barrel and on the inside of the grip.
- serial number range from 1 to 1005 plus.

Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
45758 - 3	36 PERCUSSION	5	140	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
45758 - 2	44 PERCUSSION	6	140	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "LONDON ARMOUR BERMONDSEY" and/or "L.A.C." may be marked on the barrel.
- "L.A.C." is the abbreviation for London Armoury Company.
- early examples may be marked on the right side of the receiver/frame "LONDON KERR'S PATENT BERMONDEY" inside an oval.
- "LONDON ARMOURY" may also be marked on the side plate/lock located on the right side of the grip.
- "LONDON ARMOURY" in the shape of an oval may be found on other major parts.

Model

- "LONDON KERR'S PATENT BERMONDEY" inside a oval or "KERR'S PATENT" may be marked on the right or left side of the receiver/frame.
- features include: octagonal barrel with loading lever mounted underneath; solid top receiver/frame; single or double action trigger mechanism; external hammer fixed to the side plate/lock on the right side of the grip.

Serial Number

- the patent number on the Kerr's revolver is often mistaken for the serial number. It is marked in a larger scrip than the serial number. The patent number is marked on the cylinder and on the right side of the receiver/frame. The marking on the receiver/frame may read "KERR'S PATENT" and then a number.
- the true serial number should be marked through out the firearm on the major parts in a much smaller scrip. The most evident place to find the serial number is on the face of the cylinder and on the inside bow of the trigger guard.
- examples observed may or may not have a letter prefix or suffix.

Calibre

- may be found in center fire and in a number of different calibres.

Notes

Make

- "London Sporting Park Ltd. The Watts Gun Hendon London SW" was observed marked on the rib between the barrels.
- company was founded by W.Watts circa 1890 and was located at 60 New Bond Street in London.

Model

- "THE "Watts" GUN" was marked on both side's of the receiver/frame of an observed example.
- features include: blued side by side barrels, front hinged nickel finished, engraved receiver/frame with top tang mounted opening lever and safety; sidelocks; hammerless; double triggers; auto ejectors; checkered wooden splinter forearm with push button release and straight grip buttstock.

Manufacturer

- "E.C.G & S" was marked on the water table of an observed example.
- Edwinson Charles Green learned his gun making trade in Birmingham, England.
- Edwinson C. Green moved to 87 High Street, Cheltenham in 1863 and established a gun making business.
- E.C. Green also had premises at The Cross and 4 Northgate Street, Gloucester.
- in 1894, the business name was changed to Edwinson C. Green & Son.
- in 1921, the business name was ammended to Edwinson C. Green & Sons.
- Edwinson Charles Green died in 1927 at the age of 89.
- Edwinson C. Green & Sons ceased operations in 1983.

Action

- side by side configuration.

Serial Number

- an observed serial number consisted of three numbers and was marked on the water table and under the forend.

Calibre

- "12" in a diamond and 2 1/2" was marked on the barrel flats of an observed example.

127711 - 1	50 PERCUSSION	1	83	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "E. London. London" was observed marked on the backstrap of the grip frame.

Model

- manufactured prior to 1873.
- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- this is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- this handgun is intended to be loaded from the breech end of the barrel and as such was originally supplied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- features include: screw barrel design; octagonal barrel; box lock action; percussion ignition with the percussion hammer centrally located at the top of the action; hidden trigger design with the trigger being released when the action is cocked; may also have a full trigger guard with conventional trigger.
- British proof marks are apparent on the barrel and receiver/frame.

Manufacturer

- Edward London was a British gunmaker located in London, England at the following addresses: 50 London Wall from 1826 to 1827, and 51 London Wall from 1828 to 1872.
- Edward London's the business was continued by his executors from circa 1867 to 1872.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- the turnoff barrel may be rifled.

Serial Number

- two known examples did not have serial numbers.

Notes

Make

- "LPA, LLC HYDE PARK, UT" or "LEM, LLC HYDE PARK, UT" may be marked on the left side of the receiver/frame.
- "LPA" denotes "Lone Peak Arms."

Model

- "FUZION-TI" was observed on the left side of the receiver/frame.
- "FUZION-TI" is sold as a receiver/frame only.
- "FUZION-TI" is a turn bolt operated, long or short action, designed in the configuration of the Remington 700.
- features may include: integral accessory rail; one piece fluted bolt with threaded bolt handle; various finishes; since these are custom made rifles, the features, overall length and weight may vary.

Manufacturer

- "LPA, LLC HYDE PARK, UT" or "LEM, LLC HYDE PARK, UT" may be marked on the left side of the receiver/frame.
- "LPA" denotes "Lone Peak Arms."
- "Lone Peak Arms" is a manufacturer of Remington style rifle actions for custom built bolt action firearms located in Hyde Park, Utah, U.S.A.

Action

- turn-bolt design.

Serial Number

- serial number observed on the left side of the receiver/frame.
- observed serial numbers contained the letter prefix "FT" or "FTZ" followed by five digits.

Calibre

- calibre designation may be marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 121479
Make: Lone Star Armament
Model: Guardian

Summary

Make:	Lone Star Armament
Model:	Guardian
Manufacturer:	Lone Star Armament
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121479 - 1	45 AUTO	8	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "LONE STAR ARMAMENT" or "LSA ARMS INC" is marked on the slide and/or the receiver/frame.

Model

- Lone Star Armament offers three basic series of pistols based on the "1911" (although generically known as "1911" pistols these models use a 1911A1 type receiver/frame) design. These include the Ranger, Lawman and Guardian models. The Ranger and Lawman models are also available in "Match" configuration.
- the Ranger model is equipped with a 102mm (4 inch) barrel, the Lawman and Guardian models are equipped with a 127mm barrel (5 inch).
- features include: full size carbon steel receiver/frame and slide; angled cocking serrations are machined into the front and rear of the slide; flared ejection port; beveled magazine well; standard profile barrel; beavertail grip safety; Lone Star Armament "Quick Point" sights; blued finish.
- the Lawman is offered with Chip McCormick and Nowlin parts as a slightly higher grade version of the Guardian.
- the Ranger is offered in the same basic configurations as the Lawman but with a 102mm barrel and slide assembly.

Manufacturer

- Lone Star Armament was based in Richardson and Stephenville, Texas between 1970 and 2004.
- Lone Star Armaments was absorbed by STI of Georgetown, Texas in 2003/2004.
- Lone Star Armament manufactured quality parts from other manufacturers.
- Lone Star Armament manufactured their own receiver/frame and slide to produce several models based on the Browning 1910 and Colt 1911 semi-automatic type pistols.

Action

- recoil operated.

Serial Number

- rationalization unknown, sample seen incorporated an "LSA" prefix followed by sequential numbers.

Shots

- detachable box magazine housed in the grip.
- aftermarket magazines are available that will alter the shot capacity.

Notes

Make

- "LONE WOLF ARMS" is marked on the left side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- The logo is comprised of the following configuration: a blocky, stylized silhouette outline of a wolf's head with exaggerated pointy features, like ears and nose.
- The logo may be found marked on the firearm at various locations, including, but not limited to: both sides of rear slide, both sides of pistol grip and on the side of the barrel.

Model

- Introduced in 2023.
- "DUSK 19" is marked on the right side of the firearm.
- "DUSK 19" is available as a receiver/frame only.
- Observed "DUSK 19" marked on the right side of the slide, forward of the rear slide serrations.
- Combines firearms design features of more than one firearm including "Glock 17" and "Glock 19".
- Combines firearms design features of more than one firearm including "Glock pattern GEN3 to GEN5".
- Features include: pistol grip, polymer receiver/frame with accessory rail and integral trigger guard with front serrations; barrels come in various colour configurations; extended slide stop release toggle; reversible magazine release button; interchangeable and round back strap for comfort grip; varied sight options; varied finishes.
- Overall length with a 99 mm (3.9 inches) barrel is 176.5 mm (6.95 inches), average weight is 0.56 kg (1.24 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "LONE WOLF ARMS" is marked on the left side of the receiver/frame. - The company logo is marked on the receiver/frame. - The logo is comprised of the following configuration: a blocky, stylized silhouette outline of a wolf's head with exaggerated pointy features, like ears and nose. - The logo may be found marked on the firearm at various locations, including, but not limited to: both sides of rear slide, both sides of pistol grip and on the side of the barrel.
Action	- Recoil operated.
Serial Number	- The serial number is usually marked on the receiver/frame.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the barrel, visible through the ejection port.
Shots	- Detachable box magazine housed in the grip. - The magazines for this model are from third-party manufacturers (ETS (Elite Tactical Systems), Glock Inc., KCI (Korean Mags) & SGM Tactical), made to fit most conventional Glock pattern models.

Notes

Make

- "LOOKING GLASS" or "LOOKING - GLASS" is marked on the left side of the slide.
- "LOOKING GLASS" may be marked on the grip panels.
- "Looking Glass" was a brand/trade name used by "Acha Hermanos y Cia", prior to 1927 and by "Domingo Acha y Cia", after 1927.
- "LOOKING GLASS" pistols are also known to have been sold by "Aguirre y Cia" (identifiable with a "dragon" logo on the grips) and by Fabrica de Armas de Guerre de Grand Precision, and it is unknown if these pistols were actually manufactured by Acha Hermanos/Domingo Acha for resale, or simply copied.

Model

- "LOOKING GLASS" and "PATENT" or "LOOKING - GLASS" are marked on the left side of the slide.
- "LOOKING GLASS" may be marked on the grip panels.
- this is a pistol manufactured by Acha Hermanos y Cia prior to 1927, in two frame sizes and styles; a "Ruby"-style pistol in 7.65/32, and a "Browning 1906"-style pistol (without grip safety) in 6.35/25. After Acha Hermanos was reorganized in 1927 to become "Domingo Acha y Cia", the company continued making both of these styles of pistol.
- features include: blued finish; typical Spanish "Ruby" or "Browning 1906" layout and operation; fixed open sights or a slide groove; single-action trigger mechanism; a left-side rotating safety/slide hold-open lever; wooden or synthetic grips (factory grips may bear a "Looking Glass" inscription, with a human head); and a heel magazine release.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- the manufacturer's name may not be marked on the firearm.
- "FA. DE ACHA H", "FA. DE ACHA HRS", and "ESPANA - ERMUA - VIZCAYA", "F. DE ACHA H", "F. DE ACHA HRS", and "ESPANA - ERMUA - VIZCAYA", and "PISTOLA ACHA HOS" and "ESPANA - ERMUA - VIZCAYA" have been observed marked on the left side of Acha slides.
- "Acha Hermanos y Compania" was located in Ermua, Spain from 1916 to 1927.
- "AH" in an oval may be marked on the left side of the receiver/frame.
- "AH" is the abbreviation for "Acha Hermanos".
- "AHC" intertwined in an oval may be molded into the top of the grip panels.
- "AHC" is the abbreviation for "Acha Hermanos y Cia".
- "Acha Hermanos y Compania" was succeeded by "Domingo Acha y Compania".
- "Domingo Acha y Compania" was located in Ermua, Spain from 1927 to 1939.
- "DAC" intertwined in an oval may be molded into the top of the grip panels.
- "DAC" is the abbreviation for "Domingo Acha y Compania".

Action

- blowback operated.

Serial Number

- observed serial numbers were marked on the right side of the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- make is not marked on the firearm.
- "LORON BREVETE" is marked on the left side of the firearm.
- Loron, Pierre-Antione produced firearms in Versailles and had two French patents/brevets; one for a hammerless rifle (1847) and one for a saloon pistol (1850).
- Loron, Pierre-Antione was located at 7 rue de Hoche at Versailles in 1851, then at Barchon-Cheratte from 1855 to 1870, Housse 1858-59 and then in Liège, Belgium circa 1863.
- Loron, Pierre-Antione produced 11 firearm patents/brevets between 1855 and 1880.
- Loron, Clixte-Henri, produced firearms using his father's (Loron, Pierre-Antione) patents/brevets, selling them from the business named "LORON et Cie" until circa 1880.
- Loron, Paul Léon, located in St. Etienne produced three Belgian patents/brevets for a repeating pistol between 1887 and 1889.
- Loron, Henriette (Miss), located at St. Etienne and successor to Loron, Paul Léon, produced a Belgian patent/brevet for a repeating pistol in 1890.

Model

- "LORON BREVETE" is marked on the left side of the firearm.
- this firearm features a unique cylinder release system whereby a lever found on the left side next to a rod under the barrel swings down, allowing the barrel to slide forward on the rod, followed by the cylinder for ease of loading and unloading. The rod extracts the shell casings by swinging to face the rear of the firearm and sliding the cylinder forward to effectively push the casings out.
- features include: octagonal barrel with fixed front and rear sights; solid pin-fire cylinder; spurred hammered; left side barrel and cylinder release lever; ring, regular or folding trigger, with or without trigger guard; high squared grip with wood, bone or pearl grip plates.
- options: partially engraved on the cylinder and both side of the receiver/frame above the trigger or fully engraved to include both sides of the lever housing and muzzle-end of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer is not marked on the firearm. - "LORON BREVETE" is marked on the left side of the firearm. - Loron, Pierre-Antione produced firearms in Versailles and had two French patents/brevets; one for a hammerless rifle (1847) and one for a saloon pistol (1850). - Loron, Pierre-Antione was located at 7 rue de Hoche at Versailles in 1851, then at Barchon-Cheratte from 1855 to 1870, Housse 1858-59 and then in Liège, Belgium circa 1863. - Loron, Pierre-Antione produced 11 firearm patents/brevets between 1855 and 1880. - Loron, Clixte-Henri, produced firearms using his father's (Loron, Pierre-Antione) patents/brevets, selling them from the business named "LORON et Cie" until circa 1880. - Loron, Paul Léon, located in St. Etienne produced three Belgian patents/brevets for a repeating pistol between 1887 and 1889. - Loron, Henriette (Miss), located at St. Etienne and successor to Loron, Paul Léon, produced a Belgian patent/brevet for a repeating pistol in 1890.
Serial Number	- serial number is marked on the firearm. - observed serial number was marked foreward of the trigger, under the barrel and consisted of four numbers without letter prefix or suffix. - note: the number located under the words "LORON BREVETE" is not to be confused with the serial number.
Other Markings	- Belgian proof marks were located on the outside cylinder and consisted of an inspector mark, letter with a crown above and "ELG" over a star inside an oval, indicating a pre-1898 manufacture.

Make:	Loyalist Arms & Repairs
Model:	Enfield Pattern 1853 Rifle Reproduction
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
130475 - 1	62 PERCUSSION	1	991	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "Loyalist Arms & Repairs" is usually not marked on the firearm.
- "LAR" the abbreviation for Loyalist Arms & Repairs is usually the prefix in the serial number.
- "Loyalist Arms & Repairs" was established in 1998/1999 by Blair Higgins.
- "Loyalist Arms & Repairs" is located in Harrietsfield, Nova Scotia, Canada.

Model

- "1853 Enfield" is not marked on the lockplate.
- this is a modern reproduction of a British "Enfield Pattern 1853 Rifle".
- features include: fixed blade front sight and an adjustable rear sight; blued, round smooth or rifled bore barrel with three barrel bands; ramrod is mounted under the barrel; colour case-hardened right side lock plate with an exposed percussion hammer; one piece walnut stock with a brass nose cap, trigger guard, and butt plate; sling swivels are attached to the front barrel band and to the front of the trigger guard.
- overall length with a 991mm (39") barrel is 1397mm (55"), and the average weight is 4 kg (8.8 lbs).

Action

- muzzle loader.

Serial Number

- serial number is marked on the left side of the barrel at the breech.
- example observed with "LAR" prefix and four numbers.

Notes

Make

- "Loyalist Arms & Repairs" is usually not marked on the firearm.
- "LAR" the abbreviation for "Loyalist Arms & Repairs" is usually the prefix in the serial number.
- "Loyalist Arms & Repairs" was established in 1998/1999 by Blair Higgins.
- "Loyalist Arms & Repairs" is located in Harrietsfield, Nova Scotia, Canada.

Model

- model designation is not marked on the firearm.
- this is a reproduction of a muzzle loading pistol utilizing a flintlock ignition that was used circa 1615 to 1660 and during the English Civil War by Royalist and Parliamentarian Cavalry.
- features include: no sights; smooth bore, stepped barrel; ramrod; full length stock with a flared and capped pistol grip; three screw lock support; horizontal, external sear that engages the hooked base of the cock; finished in the white.

Action

- muzzle loading.

Serial Number

- serial number will typically be stamped on the left side of the barrel, near the breech area.
- serial number usually will have the prefix "LAR", the abbreviation for "Loyalist Arms & Repairs" and four numbers.

FRT Report

Firearm Reference Number (FRN): 160586
Make: Loyalist Arms & Repairs
Model: French Service 1763/66 Libreville Pistol Reproduction

Summary

Make:	Loyalist Arms & Repairs
Model:	French Service 1763/66 Libreville Pistol Reproduction
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
160586 - 1	67 FLINTLOCK	1	229	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is not marked on the firearm.

Model

- "M.1763" was observed, on a referenced example, marked on the top tang of the barrel/receiver/frame.
- "Mr. Libreville" was observed, on a referenced example, marked on the right side plate.
- this firearm is a reproduction of the "French Service 1736/66" flintlock pistol that was produced during the French Revolution when the "Manufacture d'Armes de Charleville" temporarily changed name to "Manufacture d'Armes de Libreville".
- this is the copy of an example of the 1763 Cavalry and Dragoon flintlock pistol adopted in 1763 to an approved master pattern, and manufactured at Imperial French arsenals, converted from the longer, heavier 1763 pattern in 1766, but the markings remained unchanged; this pistol was designed specifically for French cavalry and dragoons, who would be expected to load and fire these pistols from horseback.
- features include: round barrel/receiver/frame with "in-the-white" finish; a full-length walnut straight grip stock with single barrel band having two barrel loops; ram rod located under barrel/receiver/frame; a steel rounded butt cap with a short extension up the backstrap of the grip; "in-the-white" or nickeled furnishings.
- may also be seen converted to percussion ignition.
- options include: brass furnishings.

Action

- muzzle loading.

Serial Number

- serial number is located on the left side of the barrel/receiver/frame.
- observed serial number consisted of a three letter prefix "LAR" followed by four digits.
- "LAR" is a prefix used by Loyalist Arms & Repairs on their firearms.

Calibre

- calibre designation is not marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- "RN" may be marked on the top of the barrel/receiver/frame forward of the model marking.

Remarks

- Libreville was the brief name change; of what is known today as 'Charleville, Ardennes, France'; during the time of the French Revolution.
- only 35000 were produce with the marking of "Libreville" from the Charleville location.
- the manufacture of the firearms during the time of the French Revolution was produced through an assembly of firearms recycled parts ranging from the 1763 pistol to the 1777 musket and flintlock rifles, as well as producing original 1763 parts and furniture of less quality, durability to the originals.
- Libreville also produced a 1786 Musketoon, which may be marked with another model date, example: 1777.

Notes

Make

- "Loyalist Arms & Repairs" is usually not marked on the firearm.
- "LAR" the abbreviation for Loyalist Arms & Repairs is usually the prefix in the serial number.
- "Loyalist Arms & Repairs" was established in 1998/1999 by Blair Higgins.
- "Loyalist Arms & Repairs" is located in Harrietsfield, Nova Scotia, Canada.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of an Austrian model 1854 Lorenz Rifle-Musket.
- the model 1854 Lorenz Infantry Rifle pattern was developed by Lieutenant Joesf Lorenz at the Vienna Arsenal and adopted by the Austrian Army in 1854.
- the original model was manufactured between 1854 and 1861.
- features include: smoothbore, round to octagonal barrel; three barrel bands; sling swivels are attached to the central rifle band and the front of the trigger guard; ramrod mounted under the barrel; right side lockplate with large spurred hammer; blade/bayonet stud front sight and block or folding rear sight; one piece walnut straight grip stock with cheek rest.
- the Austro-Hungarian double headed eagle and the last three digits of the year of manufacture, eg. "854" for 1854 and "861" for 1861 are usually marked on the lockplate.

Serial Number

- serial number is marked on the barrel.
- serial number has "LAR" prefix followed by four numbers.

- "Loyalist Arms & Repairs" was established in 1998/1999 by Blair Higgins.
- "Loyalist Arms & Repairs" is located in Harrietsfield, Nova Scotia, Canada.

Model

- the model designation is not marked on the firearm.
- this is a modern reproduction of a government armory muzzle loading, single shot, side hammer firearm with a percussion ignition system built at the Palmetto Armory in Columbia, South Carolina circa 1852 prior to the U.S. Civil War.
- features include: side hammer; round barrel; a flat lock plate with beveled edges; two barrel bands; a patch box on the stock; a full length stock and may have a steel ram rod located under the barrel.
- the lock plate may have the following markings: a palm tree encircled by the words "PALMETTO ARMORY" over "S*C", with "COLUMBIA S.C. 1852" to the rear of the hammer.
- the barrel may have the following markings: "W.GLAZE & CO", "WM. GLAZE & CO.", or "W.G. & CO."; William Glaze was the armory manager during this period.
- these rifles saw use on both sides during the U.S. Civil War, as the Palmetto Armory was in South Carolina (a Confederate state), and the armory's output was seized and put to Confederate use at the beginning of hostilities.

Action

- muzzle loader with percussion ignition system.

Serial Number

- serial number is marked on the barrel.
- serial number has "LAR" prefix followed by four numbers.

- "Loyalist Arms & Repairs" was established in 1998/1999 by Blair Higgins.
- "Loyalist Arms & Repairs" is located in Harrietsfield, Nova Scotia, Canada.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of a German Wheel-Lock pistol.
- Wheel-Lock firearms were originally manufactured in Europe during the 16th and 17th century.
- this wheel-lock pistol was assembled from pre-manufactured parts.
- the system uses a iron pyrites pressed against a revolving toothed wheel to provide the sparks for igniting the powder in the priming pan, which in turn ignites the main powder charge in the barrel. The toothed wheel is made to rotate, when the trigger was pulled, by a spring that was wound by a key in a similar fashion to a mechanical clock.
- features include: no sights; round to octagonal, polished steel barrel; ramrod is mounted under the barrel; wheel-lock action; walnut stock with brass furniture and with or without a belt hook mounted on the left side; brass trigger guard and butt cap.
- overall length is 610 mm (24").

Action

- muzzle loading.

Serial Number

- serial number is marked on the barrel.

Notes

Make - the make of the samples observed was marked "LRB ARMS" on the receiver/frame behind the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation of the samples observed was marked "M14SA" on the receiver/frame behind the rear sight.
- features include: a round barrel; may have a multi slotted flash suppressor with or without a bayonet lug; a gas cylinder located under the barrel; a rotating breech-bolt activated by the gas-activated operating rod with an exposed operating handle on the right side; a two stage trigger; a detachable box magazine; a square post front sight and an aperture rear sight which is adjustable for both windage and elevation; drilled, tapped and grooved for a side optical mount; a one piece semi-pistol grip stock with top hand-guard; a steel butt-plate with shoulder rest and butt-trap.
- available as a "Government Issue" version featuring a 559mm (22") barrel or a "Tanker" version featuring a 470mm (18.5") barrel.
- also available as a barreled receiver/frame or as a receiver/frame only.
- similar to the LRB Arms model M25 which features a M1913 optical mount design which consists of two integral top mount bases.

Manufacturer

- the manufacturer's name of the samples observed was marked "LRB ARMS" on the receiver/frame behind the rear sight and "JVP SEYMOUR CT USA" or "JV PRECISION SEYMOUR CT USA" was marked on the right side of the receiver/frame.
- JVP manufactures the receiver/frames and LRB does the assembling and the finishing of the firearms.

Action

- gas operated.
- semi-automatic only.

Serial Number

- the serial number of the samples observed were marked on the receiver/frame behind the rear sight.
- first sample observed consisted of five digits and a second sample observed consisted of one alpha prefix "X" followed by five digits.

Calibre

- the calibre designation of the sample observed was marked "7.62MM" on the receiver/frame behind the rear sight.

Shots

- detachable box magazine.

Other Markings

- "U.S . RIFLE" over "7.62MM M14SA" over "LRB ARMS" over the serial number was marked on the receiver/frame behind the rear sight of samples observed.

Notes

Make

- "LRB ARMS" is marked on the top of the receiver/frame behind the rear sight.
- "LRB" is marked on the right side of the receiver/frame.

Model

- "T44E4" is marked on the top of the receiver/frame behind the rear sight.
- Based on the "US Rifle M14" design.
- The model name "T44E4" is named after the prototype of the US Rifle T44 manufactured by Springfield Armory.

- This firearm can be sold as a receiver/frame only.
- Features include: magazine release located on the underside of the firearm ahead of the trigger guard; safety located on the front of the trigger guard.

Manufacturer

- "LRB FLORAL PARK NY / JVP SEYMOUR CT USA" is marked on the right side of the receiver/frame.
- "JVP" manufactures the receiver/frames and "LRB" completes the assembly and the finishing of the firearms.

Action

- Gas operated.

Serial Number

- The serial number is marked on the receiver/frame behind the rear sight.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Calibre

- "CaL.30US" is marked on the rear receiver tang.

Shots

- Detachable box magazine.

122615 - 3	9MM LUGER	20	115	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- the model designation will be found marked on the forward, left side of the slide as, "MAG 95".
- this firearm design was developed in early 1993 as a replacement for the P-83 service pistol.
- the MAG-95 Pistol was not adopted for use as the replacement for the P-83, Polish Service Pistol.
- features include: double action/single action trigger mechanism; receiver/frame manufactured from steel (MAG95) or light alloy (MAG98), slide and barrel manufactured from steel; internal firing pin safety; external controls include, decocker, slide release lever, take-down lever and a reversible magazine catch for use by both left and right hand shooters; a variant model (MAG95c) is available with adjustable rear sight; available finishes include, dull oxide receiver/frame and slide with chrome finish barrel, dull or bright chrome finish or duo-tone finish; grips are black checkered plastic with the Lucznik logo molded into the grip; the receiver/frame has a grooved front strap and the front of the trigger guard is checkered, and the slide has front and rear gripping grooves.
- length - 200MM; height - 140MM; width - 35MM; weight of firearm (empty magazine) 1.1KG.

Action

- recoil operated.

Serial Number

- the serial number is marked on the receiver/frame.
- serial number rationalization is unknown.

Calibre

- some versions may be found marked with the calibre designation "9X19 NATO" along with a Polish eagle crest on the slide assembly.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Remarks

- pistol design developed in early 1993 as a replacement for the P-83 service pistol which was not available in the NATO standard 9MM calibre and was considered obsolete by the Polish authorities.
- the MAG designation came from the designer's (Marian Gryszkiewicz) name.
- by January of 1994 two prototypes had been developed and the design was offered to the Polish Government as a candidate for the replacement service pistol.
- the MAG95 lost the competition to replace the P-83 as the service side arm for the Polish Armed Forces as it was considerably heavier than the other candidate, the WIST-94.

Notes

Make

- "Z.M. LUCZNIK" is marked on the left side of the receiver/frame.

Model

- "MAG 98c" is marked on the left side of the slide.
- "MAG 98c" has an aluminum alloy frame.
- "MAG 98c" stands for a "Competition" model.
- "MAG 98c" has a standard model is called "MAG 98".
- features include: dovetailed front and rear adjustable sight; slide front and rear grasping serrations; slide mounted external extractor; exposed rounded hammer; aluminum alloy receiver/frame; single and double action trigger mechanism; square shaped front trigger guard; receiver/frame mounted ambidextrous safety catch/decocking lever; left side slide release and takedown lever; synthetic checkered grip panels; blue or two tone finish.
- overall length with a 115mm (4.5") barrel is 200mm (7.875"), average weight is 0.88kg (30.86 oz).

Manufacturer

- "Z.M. LUCZNIK" is marked on the left side of the receiver/frame.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame. - serial number may be repeated on the slide and barrel. - serial number of a referenced example consisted of a one letter and five numbers.
Calibre	- "9x19 NATO" or variation thereof is marked on the left side of the slide. - calibre designation is also marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine.

Notes

Make

- the make/manufacturer's name will be found marked on the left side of the slide immediately under the model designation.

Model

- manufacture commenced in 1983 and continues to date (2004).
- the model designation is normally marked on the left side of the slide as, "P-83".
- features include: double action trigger mechanism; blued receiver/frame and barrel; receiver/frame and slide consist mainly of sheet metal stampings; exposed hammer; the barrel is pinned to the frame; fixed sights; the firearm has a slide-mounted safety lever, located on the left side of the slide which decocks the hammer when applied; a loaded chamber indicator is located just above the safety catch on the slide; the magazine release is located on the base of the butt or hand grip; the firearm may have black, plastic, checkered grip panels; when firing or functioning the slide, the action remains to the rear on an empty magazine; the slide release is located at the top, forward edge of the left hand grip panel.
- overall length is 165MM.
- overall height is 125MM
- weight of the complete firearm with empty magazine is 730 gms.

Manufacturer

- the manufacturer's name will be found marked on the left side of the slide immediately under the model designation.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the right side of the receiver/frame to the rear of the trigger. - an observed sample serial number consisted of a two letter prefix followed by five digits. - the serial number may also be marked on other components of the firearm. - the serial number will be repeated on the left front of the slide.slide followed by the factory code and the year of production.
Calibre	- "9mm" may be marked on the slide on the left side of the firearm.
Shots	- detachable box magazine.
Other Markings	- two different styles of markings will be found on these firearms. Polish service pistols are marked "9MM P-83" on the left side of the slide, while pistols intended for the commercial market are marked with a Polish eagle followed by "RADOM wz. P-83 9X18 POLAND Z.M. LUCZNIK". - firearms imported into the U.S.A. will also have the importer's name marked on the left side of the receiver/frame.
Remarks	- this pistol design was developed during the late 1970's as a replacement for the Polish service pistol, P64. - the purpose of the new design was to overcome what were considered to be the shortcommings of the P64 pistol: small magazine capacity, heavy double-action trigger pull and heavy recoil. - design goals for the new model service pistol were: modern production methods and less expensive manufacturing techniques. - this design was developed as two different prototype models named, P-78 Tul and P-78 Wanad. The P-78 Wanad was selected for mass production as the most promising of the two designs. - production commenced in 1983 under the designation of "9mm pistolet wz. 1983" or "P-83 Wanad" when it was adopted as the service side arm for the Polish Armed Forces. - variant models exist: P-83G, identical to the P-83 but intended for blank firing and tear gas launching; P-83M, a prototype version of the P-83 with a polymer receiver/frame and a heavily modified version of the P-83 which eventually became the pistol design adopted by the Polish Government as the P-93..

Firearm Reference Number (FRN): 23606
Make: Luger
Model: 1900

Summary

Make:	Luger
Model:	1900
Manufacturer:	Deutsche Waffen und Munitionsfabriken (DWM)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23606 - 1	7.65MM LUGER	8	120	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- this is the forerunner of the world-renowned "Pistole Parabellum, Modell 1908" (also known as the model "P08"), produced from 1900 to 1905.
- distinguishing features include: grip safety; anti-bounce lock fitted to the rear "dished" toggles; unmarked safety lever bay; no cutout for a shoulder stock lug.
- other features include: blued finish; straw coloured trigger and takedown lever; tapered barrel; checkered wood grip panels.
- this model was adopted by the Swiss and Bulgarian armies with trials conducted in Germany, Great Britain, France, China, Norway, the United States and Russia among others.
- distinct variations of this model include:
- the "1900 American Eagle" model is marked with an eagle and star over the chamber, this model was intended for the U.S. market.
- the "1900 Swiss" model is marked with the Swiss cross within a sunburst over the chamber.
- the "1900 Bulgarian" model is marked with a Bulgarian national crest over the chamber and "OrbHb" in the safety lever area that denotes the word "fire".
- small quantities of a carbine version were manufactured with a 300MM barrel, checkered wood forearm and provision for a removable shoulder stock.

Manufacturer

- marked on the pistol as a stylized "DWM" monogram on the rear toggle-link.

Action

- recoil operated.

Serial Number

- numbered between 1 and about 22,000.
- the Swiss military contract used numbers of 1 to 5000 and 5001A to 5100A (referbished).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel - other barrel lengths were available on special order.

Shots - detachable box magazine.

Canadian Law Comments - The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".
- Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:
"prohibited firearm" means
(a) a handgun that
(ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- model designation is not marked on the firearm.
- 250 produced.
- Mauser issued this model circa 1975 as part of a line to commemorate various Luger models. These pistols had the "DWM" monogram in gold lettering, enscribed on the toggle within an oval. The left side of the receiver/frame had the commemorative information enscribed in gold. The language of the inscription was normally German.
- "75 JAHRE" over "PARABELLUM - PISTOLE" over "KONIGREICH BULGARIEN" is marked on the left side of the receiver/frame.
- "75 JAHRE" is "75 years" in German.
- "PARABELLUM - PISTOLE" is "war pistol" is German.
- "KONIGREICH BULGARIEN" is "Kingdom of Bulgaria" in German.
- this is to commemorate the 75th Anniversary of the 1900 Bulgarian pistol produced from 1900 to 1905.
- features include: tapered barrel; fixed front sight with a notched rear sight located at the rear of the receiver/frame; anti-bounce lock fitted to the rear "dished" toggles; toggle has two partially serrated knobs; marked with a Bulgarian national crest over the chamber and "OrbHb" in the safety lever area that denotes the word "fire"; grip safety; magazine release is located on the left side of the grip; no cut out for a shoulder stock lug; checkered grip panels.

Manufacturer

- "MAUSER-WERKE A.G. Oberndorft a.N" is marked on the front strap of the receiver/frame.

Action

- recoil operated.

Shots

- detachable box magazine.

- Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:
"prohibited firearm" means
(a) a handgun that
(ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

Other Markings

- "Bulgarian Crest" is engraved on the chamber.
- "INTERARMS" over "ALEXANDRIA, VIRGINIA" is marked on the right side of the firearm.

FRT Report

Firearm Reference Number (FRN): 28986
Make: Luger
Model: 1900 Carbine

Summary

Make:	Luger
Model:	1900 Carbine
Manufacturer:	Deutsche Waffen und Munitionsfabriken (DWM)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
28986 - 1	7.65MM LUGER	8	298	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
28986 - 3	9MM LUGER	8	298	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the model designation is not marked on the firearm.
- features include: blued receiver/frame and barrel, a dovetailed inverted front sight with a five position rear sight located at the rear of the receiver/frame, the safety lever is located on the left side at the rear of the receiver/frame, the magazine release is located on the left side of the grip, the toggle has two partially serrated knobs, there is a stock attachment located on the back strap, grips are checkered walnut, walnut forearm with a sling swivel and a lock detent on the left side, and may have a detachable walnut stock.
- distinct variations of this model include:
- the "1900 American Eagle" model is marked with an eagle and star over the chamber, this model was intended for the U.S. market.
- the "1900 Swiss" model is marked with the Swiss cross within a sunburst over the chamber.
- the "1900 Bulgarian" model is marked with a Bulgarian national crest over the chamber and "OrbHb" in the safety lever area that denotes the word "fire".

Manufacturer

- the manufacturer is normally marked on the rear toggle link as a stylized monogram, "DWM".

Serial Number

- the serial number is marked on the receiver/frame under the front stock as sequential numbers.
- the estimated production was 100 or less.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Canadian Law Comments - Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:
"prohibited firearm" means

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- this is the forerunner of the world-renowned "Pistole Parabellum, Modell 1908" (also known as the model "P08"), produced from 1900 to 1905.
- distinguishing features include: grip safety; anti-bounce lock fitted to the rear "dished" toggles; unmarked safety lever bay; no cutout for a shoulder stock lug; marked with the Swiss cross within a sunburst over the chamber.
- other features include: blued finish; straw coloured trigger and takedown lever; tapered barrel; checkered wood grip panels.
- this model was adopted by the Swiss and Bulgarian armies with trials conducted in Germany, Great Britain, France, China, Norway, the United States and Russia among others.
- distinct variations of this model include:
- the "1900 American Eagle" model is marked with an eagle and star over the chamber, this model was intended for the U.S. market.
- the "1900 Bulgarian" model is marked with a Bulgarian national crest over the chamber and "OrbHb" in the safety lever area that denotes the word "fire".
- small quantities of a carbine version were manufactured with a 300MM barrel, checkered wood forearm and provision for a removable shoulder stock.

Serial Number

- commercial range: 01-21250 (2,000 pieces)
- military range: 2001-5000 (3,000 pieces)

Canadian Law Comments

- Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:

23662 - 1	7.65MM LUGER	8	299	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the model designation is not marked on this firearm.
- approximately 2500 manufactured for commercial sale.
- features include: blued receiver/frame and barrel; ramp front sight and a four position rear sight located on the barrel; grip safety lever; magazine release is located on the left side of the grip; the toggle has two partially serrated, dished knobs; stock attachment located on the back strap; grips are checkered walnut; walnut, schnabel forearm with a sling swivel, and a detachable, checkered buttstock and horn butt plate.
- the transverse wedge held forearm contains an actuator spring that works in conjunction with an extended lug on the underside of the barrel to aid in restoring the heavier barrel assembly to the battery position.

Manufacturer

- the manufacturer is marked on the rear toggle link as a stylized monogram of "DWM".

Action

- recoil operated.

Serial Number

- the serial number is marked on the receiver/frame on the forend hanger extension (visible only with the forend removed), the full serial number is also repeated on the underside of the rear sight block. The last two or three digits of the serial number are usually repeated on most other components.
- the serial number ranges are 21000 to 22100 and 23500 to 24900.
- a few units were made from parts after production was discontinued and may have higher serial numbers.

Shots

- detachable box magazine.

- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- "Mod. 1902" over "Cartridge Counter" is marked on the left side of the firearm.
- available between 1983 and 1998.
- this is based on the original 1902 American Eagle Cartridge Counter Model as produced by DWM for US Army evaluation.
- incorporates the standard P08 features with the exception of the left grip panel that is slotted to allow observation of a numbered metal strip attached to the magazine floor plate that allows the shooter to determine the number of shots remaining in the magazine.

Manufacturer

- although made by Mauser, the original manufacturer's logo of "DWM" in German script is marked on the toggle assembly.

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the firearm.
- observed serial number consisted of a letter "C" prefix, three numbers, "von", and the number "250".

Calibre

- "9mm Parabellum" is marked on the top of the barrel and "Cal 9mm" is marked on the bottom ot the magazine.

28989 - 2	9MM LUGER	32	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the German Navy was the first of the military branches to adopt a version of the "Luger" pistol. They adopted this design in 1904 as the "Marine Model 04".
- distinguishing features of all "Navy" versions include; 152MM barrel, stock lug, two position rear sight and "DWM" toggle.
- all but the early production "1904 Navy" models will have the the following military stamps, a "crown" followed by two "M's" under crowns.
- variations of this basic model exist.
- "1904 Navy", long frame, grip safety, safe position when safety lever is up, toggle lock, blank chamber (undated) and thick barrel. Known serial number range, from 35 to 1153.
- "1906 Navy", long frame, grip safety, originally had safe position when safety lever is up (first issue), later changed to safe position when lever was down (second issue), and blank chamber (undated). Known serial number range, 9-998b.
- "1908 Navy", long frame, blank chamber (undated) and no grip safety, identify this version. Known serial number range, from 1044b to 9505b
- "1914 Navy", chamber, left side of receiver/frame and front sight will normally be dated 1916, 1917 or 1918, no grip safety and uses the short frame. Known serial number ranges; 1916 from 44 to 9433, 1917 from 20 to 7741a, 1918 from 159 to 5309.
- approximately 1,300 samples of the "1904 Navy" were produced.

Manufacturer

- the stylized "DWM" logo will be marked on the toggle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- 2 to 4 digit serial number. - normally marked on the front of the receiver/frame. - known serial number range, from 35 to 1153.
Shots	- detachable box magazine
Canadian Law Comments	- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

FRT Report

Firearm Reference Number (FRN): 119911
Make: Luger
Model: 1904 Navy Commemorative

Summary

Make:	Luger
Model:	1904 Navy Commemorative
Manufacturer:	Mauser
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119911 - 1	9MM LUGER	8	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- Mauser issued this model in 1979 as part of a line to commemorate various Luger models. These pistols had the "DWM" monogram in gold lettering, inscribed on the toggle within an oval. The left side of the receiver/frame had the commemorative information inscribed in gold. The language of the inscription was normally German.
- the left side of the receiver/frame is marked:
"75 JAHRE"
"PARABELLUM - PISTOLE"
"KAISERLICHE MARINE"
- "JAHRE" is "years" in German.
- "KAISERLICHE MARINE" is for the German Imperial Navy
- features include: blued receiver/frame and barrel; a fixed front sight with a two position rear sight located at the rear of the receiver/frame; the safety lever is located on the left side at the rear of the receiver/frame; the magazine release is located on the left side of the grip; the toggle has two partially serrated knobs; a stock-lug is located on the butt of the receiver/frame; and may have checkered grip panels.

Manufacturer

- the manufacturer is not marked on the firearm.
- Mauser issued this model in the 1970's as part of a line to commemorate various Luger models. These pistols had the "DWM" monogram in gold lettering, inscribed on the toggle within an oval.
- the rear of the receiver/frame is normally marked, "MADE IN GERMANY"

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the right side of the receiver/frame above the trigger. The serial number rational is two alpha characters, "KM", followed by three sequential numbers. - the serial number may be marked in the following format, "KM.169 VON 250". "VON" is "of" in German. The translation is serial number KM169 (of 250). - the same serial number may be marked on the right side of the slide.
Calibre	- the calibre designation is marked on the barrel.
Shots	- detachable box magazine.

29345 - 2	9MM LUGER	32	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- manufactured in 1923.
- safety is marked "Rust" with an arrow pointing "Up".
- approximately 10,000 manufactured.

Manufacturer

- "VICKERS LTD" is marked on the toggle.

Serial Number

- Range: 1 - 10100

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

Manufacturer:	Deutsche Waffen und Munitionsfabriken (DWM)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125024 - 1	7.65MM LUGER	8	120	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
125024 - 2	9MM LUGER	8	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- available from 1909 to 1914.
- "1906" is not marked on the firearm.
- "MANUFACTURE FRANCAISE D'ARMES & CYCLES DE SAINT-ETIENNE" was observed marked on top of the barrel.
- this version of the Luger model 1906 pistol was distributed by Manufacture Française d'Armes & Cycles de Saint-Etienne. They ceased offering this pistol with the declaration of World War I.
- features include: tapered round barrel; rifled bore; fixed sights; hammerless; safety lever located on the left side of the receiver/frame; single trigger mechanism; magazine release located behind the trigger; grip safety located on the back strap; blued finish; wood grip panels.

Manufacturer

- "DWM" may be marked on the toggle.

Action

- blowback operated.

Serial Number

- serial number was observed marked on the front of the receiver/frame below the barrel.
- a second series of digits appear on the bottom of the grip, these digits are different from the serial number and reflects the business inventory number.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Canadian Law Comments

- the 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- for further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".
- handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:
"prohibited firearm" means
(a) a handgun that
(ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the German Navy was the first of the military branches to adopt a version of the "Luger" pistol. They adopted this design in 1904 as the " Marine Model 04".
- distinguishing features of all "Navy" versions include; 152MM Barrel, stock lug, two position rear sight and "DWM" toggle.
- all but the early production "1904 Navy" models will have the following military stamps, a "crown" followed by two "M's" under crowns.
- variations of this basic model exist.
- "1904 Navy", long frame, grip safety, safe position when safety lever is up, toggle lock, blank chamber (undated) and thick barrel. Known serial number range, from 35 to 1153.
- "1906 Navy", long frame, grip safety, originally had safe position when safety lever is up (first issue), later changed to safe position when lever was down (second issue), and blank chamber (undated). Known serial number range, 9-998b.
- "1908 Navy", long frame, blank chamber (undated) and no grip safety, identify this version. Known serial number range, from 1044b to 9505b
- "1914 Navy", chamber, left side of receiver/frame and front sight will normally be dated 1916, 1917 or 1918, no grip safety and uses the short frame. Known serial number ranges; 1916 from 44 to 9433, 1917 from 20 to 7741a, 1918 from 159 to 5309.
- approximately 21,000 samples of the "1906 Navy" were produced.

Manufacturer

- the stylized "DWM" logo will be marked on the toggle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- approximately 2,500 were manufactured in the 25,050 - 65,000 range.
- serial numbers for firearms with dated chambers will consist of 1 to 5 digits, with a letter "a" or "b" suffix.

Shots

- detachable box magazine.

Canadian Law Comments

- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

29024 - 2	9MM LUGER	32	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the model is not marked on the firearm; this is the name by which these pistols are commonly known.
- this is a specific contract run of one thousand 1906 Luger pistols manufactured for the Imperial Russian Army between 1906 and 1909.
- these pistols bear markings consisting of crossed Mosin-Nagant rifles on the chamber, a "DWM" monogram on the rear toggle link, and Cyrillic markings on the extractor and the frame at the safety.
- features include: blued finish; open fixed sights; an extractor marked "Zaryad" ("Loaded"), resembling "3AP(backwards R)Ab", on the left side (visible only when the bolt is forward on a chambered cartridge; a "down to fire" safety system with the "fire" marking in Cyrillic reading "Ogon" (resembling"OrbHb"); and checkered walnut grip panels.

Manufacturer

- the "DWM" monogram is marked on the rear toggle link.

Action

- short recoil operated.

Serial Number

- referenced serial numbers are one to three numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Canadian Law Comments - the 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- for further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

FRT Report

Firearm Reference Number (FRN): 29523
Make: Luger
Model: 1906 Russian Commemorative

Summary

Make:	Luger
Model:	1906 Russian Commemorative
Manufacturer:	Mauser
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
29523 - 1	9MM LUGER	8	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Notes

Make

- "Luger" is not marked on the firearm.
- "Luger" is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- manufactured between 1918 and 1934.
- "1906 Swiss" is not marked on the firearm.
- a total of 17,874 units were manufactured.
- features include: fixed front and rear sight; round tapered barrel; hammerless; grip safety; manual safety lever is located on the left side of the receiver/frame; magazine release is located behind the trigger on the left side of the receiver/frame; blued finish with checkered black or brown plastic grip panels.

Manufacturer

- "WAFFENFABRIK" over "BERN" is marked on the toggle.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- recoil operated.

Serial Number

- serial number is marked on the front of the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Shots

- detachable box magazine.

25868 - 4	9MM LUGER	32	120	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- is a 1906 Swiss Luger sold commercially by Abercrombie & Fitch. There is a Swiss Sunburst property stamp on the barrel extension over the chamber. The inscription on the barrel may be in either one or two lines and reads "ABERCROMBIE & FITCH Co. New York. Made in Switzerland".
- the Swiss Cross in the Sunburst symbol and the "Made in Switzerland" inscription was applied as a ploy to confuse consumers as to the country of origin of the firearm. These firearms were delivered by DWM through Switzerland.
- approximately 100 units were produced - 49 units in 9mm LUGER, and 51 units in 7.65mm LUGER.

Manufacturer

- "DWM" in script is marked on the toggle assembly.

Serial Number

- serial number range of observed examples is from 2995 to 3089 and may contain an "i" suffix.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- the 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- for further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".
- handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:
"prohibited firearm" means
(a) a handgun that
(ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

46366 - 2	9MM LUGER	32	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- model designation is not marked on the firearm.
- this is a standard 1906 model alterred to comply with the 1919 Treaty of Versailles regulations. Some of these alterations include: reducing the barrel to 102mm(4"); removal of the grip safety; new sight blade added (may be date stamped 1917 etc.) without the standard bolstered muzzle support; crowned or uncrowned barrel; single date, double date or sanitized chamber markings.

Manufacturer

- the "DWM" logo in script is marked on the upper toggle assembly.

Action

- recoil operated.

Serial Number

- many Weimar navy pistols will have a grip-strap marking consisting of the Letter "O" or "N" (Ost-see - Baltic Sea, or Nord-see - North Sea) and a 1 to 4 digit number, e.g. N-1675 or O-249. These are not to be confused with the pistols' serial number which is located on the frame, below the barrel. This number may include a script alpha character.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

Remarks

- Most Weimar navy pistols are World War I issue pistols which have been refurbished to meet the requirements of the Versaille Treaty. This usually meant replacing or shortening the barrel from 152MM to 100MM. Some new manufacture was undertaken also. Most Weimar Navy pistols will exhibit an issue date, usually 1916, 1917 or 1918 while many others will be double-dated. The double dated models would incorporate either 1920 or 1921 and one of the original issue dates shown above. A small few are completly without any date.
- Many Weimar navy pistols will have a grip-strap marking consisting of the Letter "O" or "N" (Ost-see - Baltic Sea, or Nord-see - North Sea) and a 1 to 4 digit number, e.g. N-1675 or O-249. These are not to be confused with the pistols" serial number which is located on the frame, below the barrel. This number may include a script alpha character.
- Rear sight is typically a special navy pattern with the number "100" (100 metres) just ahead of it.

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the model is not marked on the firearm; this is the common name by which these firearms are known.
- this is a custom-made Luger pistol manufactured by Krausewerk to resemble the extremely rare 45 Auto Luger pistols manufactured by DWM for the US Army 1907 trials.
- these firearms are manufactured entirely from forgings.
- features include: typical Luger appearance and operation; blued finish; fixed open sights; tapered barrel with muzzle ring; an "up to fire" manual safety on the left side of the frame that blocks the sear bar in its lower ("safe") position; knurled toggle knobs; and checkered walnut grip panels.
- these pistols may bear a "DWM"-like monogram on the toggle link, and "GL" ("George Luger") initials at the rear of the toggle.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.
- Krausewerk is a custom refinisher and manufacturer based in San Mateo, California, that is known for its reproductions of Luger pistols in non-standard calibres and configurations.

Action

- recoil-operated.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 161553
Make: Luger
Model: 1908 Bolivian

Summary

Make:	Luger
Model:	1908 Bolivian
Manufacturer:	Deutsche Waffen und Munitionsfabriken (DWM)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
161553 - 1	9MM LUGER	8	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the model is not marked on the firearm; this is the name by which these pistols are commonly known.
- this is a specific run of approximately 200 1908 Luger pistols manufactured for the Bolivian Army.
- these pistols bear markings consisting of "EJERCITO DE BOLIVIA" (Army of Bolivia) on the chamber, a "DWM" monogram on the forward toggle link, and Spanish markings on the extractor and the frame at the safety.
- features include: blued finish; open fixed sights; an extractor marked "CARGADO" ("Loaded"; visible only when the bolt is forward on a chambered cartridge); an "up to fire" safety system with the "safe" marking in Spanish reading "SEGURO"; and checkered walnut grip panels.

Manufacturer

- the "DWM" monogram is marked on the forward toggle link.

Action

- recoil operated.

Serial Number

- serial-numbered on the receiver/frame and barrel, with the last two digits on major components.

Shots

- detachable box magazine.

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- "1908 Commercial" is not marked on the firearm.
- "1908 Commercial" was the last commercial development of the Luger type pistol that became the World War two German Army Luger model P08 pistol.
- approximately 9,000 were manufactured.
- "1908 Commercial" has only commercial proof markings.
- "1908 Commercial" area above the chamber is unmarked, extractor is marked "GELADON" and safety lever, when down will show "GESICHERT".
- "1908 Commercial" had, by serial number range, some issued for military trials and marked as such that will be better identified under the model "1908 Commercial/Military".
- features include: tapered barrel with a muzzle band including a dovetailed front sight base; inverted "V" front and "V" notch rear sight; hump back looking, rectangular shaped slide with safety lever on the left side; rear toggle, side knurled, round, bolt cocking gripping area; receiver/frame with round trigger guard; left side square trigger plate; disassembly lever on the forward, left side of the receiver/frame; left side magazine release; no grip safety; usually has no stock lug on the rear of the grip; checkered wood grip panels; blue finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "DWM" is marked as a stylized monogram on the top, rear toggle-link.
Action	- toggle-locked recoil operated.
Serial Number	- serial number is marked on the front end of the receiver/frame. - serial number range is from 39000 to 71500. - serial number within that range, from 69600 to 70907 apply to the 1908 Commercial/Military model.
Shots	- detachable box magazine.
Canadian Law Comments	- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

66465 - 2	9MM LUGER	32	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the German Navy was the first of the military branches to adopt a version of the "Luger" pistol. They adopted this design in 1904 as the " Marine Model 04".
- distinguishing features of all "Navy" versions include; 152MM Barrel, stock lug, two position rear sight and "DWM" toggle.
- all but the early production "1904 Navy" models will have the the following military stamps, a "crown" followed by two "M's" under crowns.
- variations of this basic model exist.
- "1904 Navy", long frame, grip safety, safe position when safety lever is up, toggle lock, blank chamber (undated) and thick barrel. Known serial number range, from 35 to 1153.
- "1906 Navy", long frame, grip safety, originally had safe position when safety lever is up (first issue), later changed to safe position when lever was down (second issue), and blank chamber (undated). Known serial number range, 9-998b.
- "1908 Navy", long frame, blank chamber (undated) and no grip safety, identify this version. Known serial number range, from 1044b to 9505b
- "1914 Navy", chamber, left side of receiver/frame and front sight will normally be dated 1916, 1917 or 1918, no grip safety and uses the short frame. Known serial number ranges; 1916 from 44 to 9433, 1917 from 20 to 7741a, 1918 from 159 to 5309.
- approximately 8500 samples of the "1908 Navy" were produced.

Manufacturer

- the stylized "DWM" logo will be marked on the toggle.

Serial Number

- known serial number range, from 1044b to 9505b.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Canadian Law Comments

- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

27926 - 2	9MM LUGER	32	203	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the official designation of this pistol is "Lange Pistole 08".
- the term "Artillery" is an unofficial term that became associated with this Model because of its issue to the Artillery troops by the Germans during World War I. The model designation "1914 Artillery" has become universally recognized for this type of "P08" and denotes the 203MM (8 inch) barrel length and barrel mounted rear sight.

Manufacturer

- found marked on the pistol as a stylized monogram "DWM" on the rear toggle-link.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- consists of one to four digits, most with a letter suffix. German military numbering consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc. - if production exceeded 260,000 pistols per year, the numbering started again at 1, thereby creating duplicate serial numbers.
Shots	- detachable box magazine.
Canadian Law Comments	- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- made in 1914 only, with an estimated production of between 23,000 and 25,000 units.
- the official name of this pistol is the "Lange Pistole 08".
- the term "Artillery" is an unofficial term that became associated with this Model because of its issue to the Artillery troops by the Germans during World War I. The Model name 1914 Artillery has become universally recognized for this type of "P08" and denotes the 203MM (8") barrel length and barrel mounted rear sight adjustable to 800 meters.

Manufacturer

- marked with a crown over the word "ERFURT" on the rear toggle-link.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- short-recoil operated.
Serial Number	- consists of 1 to 4 digits, most with a letter suffix. German military numbering consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc. (the letter "i" was not used). - if production exceeded 260,000 pistols per year, the numbering stared again at 1, thereby creating duplicate serial numbers.
Shots	- detachable box magazine.
Canadian Law Comments	- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the German Navy was the first of the military branches to adopt a version of the "Luger" pistol. They adopted this design in 1904 as the " Marine Model 04".
- distinguishing features of all "Navy" versions include; 152MM Barrel, stock lug, two position rear sight and "DWM" toggle.
- all but the early production "1904 Navy" models will have the the following military stamps, a "crown" followed by two "M's" under crowns.
- variations of this basic model exist.
- "1904 Navy", long frame, grip safety, safe position when safety lever is up, toggle lock, blank chamber (undated) and thick barrel. Known serial number range, from 35 to 1153.
- "1906 Navy", long frame, grip safety, originally had safe position when safety lever is up (first issue), later changed to safe position when lever was down (second issue), and blank chamber (undated). Known serial number range, 9-998b.
- "1908 Navy", long frame, blank chamber (undated) and no grip safety identify this varsion. Known serial number range, from 1044b to 9505b.
- "1914 Navy", chamber, left side of receiver/frame and front sight will normally be dated 1916, 1917 or 1918, no grip safety and uses the short frame. Known serial number ranges; 1916 from 44 to 9433, 1917 from 20 to 7741a, 1918 from 159 to 5309.
- approximately 21,000 samples of the "1906 Navy" were produced.

Manufacturer

- the stylized "DWM" logo will be marked on the toggle.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial numbers for firearms with dated chambers will consist of one to five digits, with a letter "a" or "b" suffix.
Shots	- detachable box magazine.
Canadian Law Comments	- the 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - for further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known. - Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.
Model	- may also be known as Model "1920". - these firearms are commercial rebuilds of World War One military pistols. - some of these reworked pistols have the date stamp over the chamber (valid dates being from 1908 to 1921) and military markings removed. Because most of these firearms were remanufactured with whatever military surplus parts were available, nearly any barrel length, calibre, safety, serial number and sight combination is possible. - these firearms are most often found in 7.65MM LUGER calibre, with a 98mm barrel. - subsequent to remanufacture, these firearms may have been marked with property stampings of the organization to which the firearms belonged. - with or without stock lug.
Manufacturer	- the manufacturers logo (a stylized DWM) normally appears on the toggle.
Serial Number	- serial number is located on the front of the receiver/frame, under the barrel and may be repeated on all major components. - the serial number may consist of one to five digits with or without a script letter suffix, eg. "8093n". - total production is estimated at several hundred thousand.
Barrel	- barrel lengths were available from 92mm (3 5/8") to 610mm (24").
Shots	- detachable box magazine.
Canadian Law Comments	- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations". - Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states: "prohibited firearm" means (a) a handgun that (ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

Canadian Law Comments

- The 32 shot magazine known as the "schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

FRT Report

Firearm Reference Number (FRN): 29343
Make: Luger
Model: 1923 Long Barrel Commercial

Summary

Make:	Luger
Model:	1923 Long Barrel Commercial
Manufacturer:	Deutsche Waffen und Munitionsfabriken (DWM)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
29343 - 1	7.65MM LUGER	8	190	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- includes stock lug.
- safety and extractor will be marked in either German or English.

Serial Number

- Range: 73500 - 96000.

Canadian Law Comments

- Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:
"prohibited firearm" means
(a) a handgun that
(ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

25866 - 15	7.65MM LUGER	8	406	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- these firearms are a combination of commercially rebuilt WWI military pistols, assembly of leftover parts and new production firearms.
- total production is estimated at one thousand.
- these firearms were manufactured on almost a custom basis for A.F. STOEGER INCORPORATED. Virtually all of these pistols will be found with an American eagle above the chamber on the barrel extension. The word "Germany" and the name "A.F. Stoeger Inc. New York" is normally found on the right side of the barrel extension. The safety catch positions may by marked in English "Safe" or in German "Gesichert", and the extractor inscription states the word "Loaded" in English or "Geladen" in German.
- the recognition feature to distinguish this model from the MAUSER "1935 STOEGER COMMERCIAL" Model is the lack of the inscription on the right side of the pistol receiver "GENUINE LUGER - REGISTERED US PATENT OFFICE". This remark is only found on the MAUSER "1935 STOEGER COMMERCIAL".

Serial Number

- follows the military style of one to five digits with or without a script letter suffix.

Canadian Law Comments

- Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:
"prohibited firearm" means

33351 - 2	9MM LUGER	32	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- model designation is not marked on the firearm.
- 3,820 pistols were produced for the Dutch East Indies Army circa 1928. This was the last pistol produced by Deutsche Waffen und Munitionsfabriken (DWM) before being absorbed by Mauser in 1930.
- features include: dovetailed, inverted "V" front sight; tapered barrel; checkered wood grip panels; brass plate attached to the left side of the receiver/frame; thumb safety lever and a grip safety; no provision for a shoulder stock; wood based magazine; the extractor functions as a loaded chamber indicator.
- may not be dated or has a four digit date marked over the chamber or near the breech end of the barrel.

Manufacturer

- "DWM" in script is marked on the front toggle assembly, Deutsche Waffen und Munitionsfabriken (DWM) was still used as a tradename by "Berlin-Karlsruher Industrie-Werke A.G." in 1928.

Action

- recoil operated.

Serial Number

- consists of five numbers between 10182 and 14001.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Canadian Law Comments

- The 32 shot magazine known as the "schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

Other Markings

- crown "N" proof mark is located on the left side of the receiver/frame.
- "KL" intertwined in a circle is marked on the right side of the receiver/frame. There is some confusion surrounding the meaning of the "KL" logo. One interpretation is "Koninklijke Landmacht"(Royal Army) or "Koninklijke Luchtmacht"(Royal Airforce). Another interpretation is that this logo is "KOL" and represents "Kolonien"(colonies) to differentiate this contract from the Dutch Navy contract pistols of the same period.
- "RUST" (safe) over a forward pointing arrow is located above the thumb safety catch lever.
- extractor marked "GELADEN" (loaded) on both sides.

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- model designation is not marked on the firearm.
- adopted by the Dutch Navy in 1928 and is readily identifiable by the absence of a grip safety.
- the safety catch position on the receiver/frame is marked "RUST" which translates to "SAFE" and both sides of the extractor are marked "GELADEN" which translates to "LOADED".
- in 1930, production ceased at BKIW (DWM) and was continued at Mauser Werke, Oberndorf. The toggle assemblies may still be marked DWM but the Mauser proof of a double crown over a "U" will be present.

Manufacturer

- "DWM" in script is marked on the toggle assembly.

Action

- short recoil operated.

Serial Number

- numbered from 1 to 2329.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known. - Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.
Model	- The model designation is not marked on the firearm. - Based on the "Luger P08" design. - This is "1970 Commemorative Edition" of the "Luger P08 American Eagle". This firearm was manufactured buy Mauser in Germany under that specifications prescribed by Interarms of Alexandria, Virginia, USA. - an estimated 50,000 have been produced since 1971. - immediately recognizeable by its "straight" front grip-strap. - usually includes the American Eagle crest on the chamber.
Manufacturer	- The company logo is marked on the firearm. - The company logo is a stylized word "MAUSER" within an ovel with a squeezed flat circle above and below the word with diagonal lines within it.
Action	- recoil operated.
Serial Number	- the first serial numbers were 10.001001 and 11.001001. - The serial number is marked on the right side of the receiver/frame.
Calibre	- The calibre designation is marked on the barrel assembly. - The calibre designation is marked on the left side of the receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- the 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - for further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations". - handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states: "prohibited firearm" means (a) a handgun that (ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,
Other Markings	- On the top of the receiver/frame above the chamber is a stylized "American Eagle" logo. - This logo consists of an Eagle with its wings spread, a shield on it's chest, with arrows clutched in its left foot, a holly branch in its right foot, the words "Fluribus" and "Unum" on a ribbon clutched in its beak and what appears to be a cloud above its head with a sunburst with 13 stars in the center. - "MAUSER-WERKEA.G. Oberndorf a. N." can be seen marked on the front of the firearm grip below the magazine ejection button. - The Interarms logo can be observed on the right side of the receiver frame. - The Interarms logo appears to be a stylized compass rose.

Firearm Reference Number (FRN): 23964
Make: Luger
Model: 1934 Commercial

Summary

Make:	Luger
Model:	1934 Commercial
Manufacturer:	Mauser
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23964 - 2	7.65MM	8	102	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
23964 - 1	9MM LUGER	8	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
23964 - 3	9MM LUGER	32	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- stock lug.
- no military proofs.

Manufacturer

- front toggle link marked with "Mauser" banner.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

Notes

Make

- "Genuine Luger" is not marked on the firearm.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- these firearms were manufactured from a combination of leftover parts from the DWM factory and new production at the MAUSER factory. - marked with an American Eagle above the chamber on the barrel extension. The word "Germany" and the name "A.F. Stoeger Inc. New York", is normally found on the right side of the receiver/frame. The safety catch positions are marked in English "SAFE" and the extractor inscription states the word "LOADED" in English. - model differs from the DWM "1923 STOEGER COMMERCIAL" via an inscription on the right side of the pistol receiver/frame: "GENUINE LUGER" and "REGISTERED US PATENT OFFICE".
Action	- recoil operated.
Serial Number	- serial number consisted of three digits followed by a script-letter suffix "v" (lower case). EG: 400v, 414v, 463v
Shots	- detachable box magazine housed in the grip.

Notes

Make

- "LUGER" and "REG. US PAT. OFF." is marked on left side of the upper assembly.
- "Luger" is a registered trade name owned by Stoeger Industries (formerly Stoeger Arms Corporation) since 1929.
- "Luger" is a trade name that was derived from the firearms principle designer, for Georg Luger.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- "Luger" in bold lettering within a scroll engraved oval is marked on left side of the upper assembly.
- "Luger" is a registered trade name owned by Stoeger Industries (formerly Stoeger Arms Corporation) since 1929.
- "Stoeger Ind. American Eagle" is marked on right side of receiver; the American Eagle symbol is prominently displayed on top of the receiver ring.
- introduced 1994.
- "Luger" is a registered trade name owned by Stoeger Industries (formerly Stoeger Arms Corporation) since 1929.
- this handgun is a stainless steel reproduction of the original American Eagle Luger as made for Stoeger Arms Corportation by DWM of Germany in the 1920's.
- features include: polished stainless finish; round tapered barrel; dovetailed, inverted "V" front sight; checkered walnut grip panels; thumb safety lever and a grip safety; may have a provision for a shoulder stock; the extractor functions as a loaded chamber indicator.
- available in P08 version with 4"/102mm barrel and Navy version with 6"/152mm barrel;

Manufacturer

- "Stoeger Ind." is marked on right side of receiver/frame with the Stoeger logo.

Action

- toggle lock recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is usually marked on right side of receiver/frame above trigger.
Calibre	- calibre is marked on the right side of the upper assembly as "9mm Luger".
Shots	- detachable stainless steel in-line box magazine.

15678 - 1	32 AUTO	6	75	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the model is not marked on the firearm; this is the common name by which these firearms are known.
- this is a custom-made "baby Luger" manufactured by Krausewerk to resemble the extremely rare 32 AUTO/7.65mm and 380 AUTO/9mm Browning Short reduced-size Lugers manufactured by DWM during the 1920s.
- these firearms are manufactured entirely from forgings.
- features include: typical Luger appearance and operation; blued finish; fixed open sights; tapered barrel with muzzle ring; a sliding manual safety on the left side of the frame that blocks the sear bar in its upper ("safe") position; knurled toggle knobs; checkered walnut grip panels.
- these pistols may bear a "DWM"-like monogram on the toggle link, and "GL" ("George Luger") initials at the rear of the toggle.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.
- Krausewerk is a custom refinisher and manufacturer based in San Mateo, California, that is known for its reproductions of Luger pistols in non-standard calibres and configurations.

Action

- recoil-operated.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- detachable box magazine.

24734 - 6	9MM LUGER	32	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- typically, these pistols are reworks from the mid-1920s, which still show their WWI issue date.
- with or without stock lug.
- chamber will be marked with a single date of issue.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the rear toggle will be marked with SIMPSON's trademark.
Action	- recoil operated.
Serial Number	- consists of 1 to 4 digits, most with a letter suffix. German military numbering consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc. (the letter "i" was not used). - if production exceeded 260,000 pistols per year, the numbering started again at 1, thereby creating duplicate serial numbers.
Shots	- detachable box magazine.
Canadian Law Comments	- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations". - Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states: "prohibited firearm" means (a) a handgun that (ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

Notes

Make

- "Luger" was observed marked on the left side of the slide.
- "Luger" is a trade/brand name.
- "Mauser" of Germany contracts "Femaru Fegyver es Gepgyar RT (FEG)" of Hungary to manufacture this firearm. The Mauser name is not marked on this firearm.

Model

- "Luger Compact" was observed marked on the left side of the slide.
- this firearm was manufactured in Hungary by FEG for MAUSER in Germany, who distribute the model worldwide.
- this is a recoil operated, semi-automatic pistol.
- features include: flat sided slide with fixed sights; slide mounted safety; exposed spur hammer; single/double action trigger mechanism; box magazine release located on the left side of the receiver/frame; blued finish.
- "Luger Compact" is the FEG Model MBK Compact.
- "Luger Compact" uses the receiver/frame of the Luger Model M90 Double Action and the slide and barrel from the FEG, Model MBK Compact.

Manufacturer

- manufacturer's name was not observed marked on the firearm.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number was observed marked on the front of the grip strap of the receiver/frame and repeated on the right side of the slide. - observed serial number had a letter "K" prefix followed by five digits.
Calibre	- "PARABELLUM Cal. 9mm" was observed marked on the left side of the slide.
Shots	- detachable box magazine.

Notes

Make

- "LUGER" is a registered trade name owned by Stoeger Industries (formerly Stoeger Arms Corporation) since 1929.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "LUGER" is marked in bold lettering on left or right side of receiver.
- the name "Luger" is a registered trade name owned by Stoeger Industries (formerly Stoeger Arms Corporation) since 1929.
- introduced in 1968, this firearm was designed and manufactured in the United States of America.
- aluminum alloy receiver, available with left or right hand operated rear mounted safety, fixed or adjustable rear sight.
- standard version has 114mm barrel, target version has 140mm barrel.
- per Stoeger literature, the following model versions are encompassed by this entry:
-- 1) model STLR-4: fixed rear sight, 114mm barrel with safety mounted on left rear of receiver for right hand shooters.
-- 2) model STLL-4: fixed rear sight, 114mm barrel with safety mounted on right rear of receiver for left hand shooters.
-- 3) model STLR-5: fixed rear sight, 140mm barrel with safety mounted on left rear of receiver for right hand shooters.
-- 4) model STLL-5: fixed rear sight, 140mm barrel with safety mounted on right rear of receiver for left hand shooters.
-- 5) model TLL-4: adjustable rear sight, 114mm barrel with safety mounted on right rear of receiver for left hand shooters.
-- 6) model TLR-4: adjustable rear sight, 114mm barrel with safety mounted on left rear of receiver for right hand shooters.
-- 7) model TLL-5: adjustable rear sight, 140mm barrel with safety mounted on right rear of receiver for left hand shooters.
-- 8) model TLR-5: adjustable rear sight, 140mm barrel with safety mounted on left rear of receiver for right hand shooters.
-- note: a model designation starting with the letters ST indicates the Standard version Stoeger Luger with fixed sight; the model designation starting with the letter T indicates the Target version Stoeger Luger with adjustable rear sight; the STLL, STLR etc. designations do not appear on the firearm, they are literature references only.

Manufacturer

- manufacturer's name is marked on either left or right side of receiver.

Action

- blow-back operated.

Serial Number

- marked on left or right side of receiver.

Shots

- detachable in-line box magazine.

137078 - 2	9MM LUGER	6	80	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm; the Make is derived from the characteristics of the firearm.

Model

- model name is not marked on the firearm.
- the Martz Custom Luger is a completely remanufactured and refinished copy of the Luger pistol using original WW II receiver/frames; for calibres 45 AUTO, 38 SUPER and 22 MAG, two Luger receiver/frames are cut in half and then re-welded to accommodate the modifications required.
- some versions of this model line will also be marked with the letters "MSTR" on the left frame rail; MSTR indicates that a particular handgun has been modified by the addition of the "Martz Safe Toggle Release" which is a patented mechanical device (US Patent 3,956,967 of 1976) which allows the toggle of the Luger to close safely over an empty magazine, alternatively, by moving the safety to the safe position, it will allow the action to close once a loaded magazine has been inserted into the feedway.
- features include: recoil operated, semi-automatic pistol utilizing a detachable box magazine; usually has a "satin-white" finish, rust blue also available; may have a custom fitted ambidextrous safety; may have been fitted with the Martz Safe Toggle Release (MTSR).
- note: original German manufacturers code letters, dates and proof marks may also be apparent on these firearms.

Manufacturer

- manufacturer's name is not marked on the firearm however the letters "JVM" in an oval will be marked on the receiver/frame and is also marked on the top of the rear toggle link in script-type lettering; "JVM" stands for John Vernon Martz who is the owner of Custom German Lugers & P38.
- Custom German Lugers & P38 was a firearms manufacturer/gunsmithing business specializing in the custom remanufacturing of Luger and P38 pistols; the firm is located in Lincoln, California, USA.
- the firm was in business circa mid-1960's to early 1990's.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- known example had the original WW II German serial number marked on the receiver/frame in front of the trigger guard; it consisted of a four digit number with the script-type letter underneath the numbers.
Calibre	- calibre is marked on the top of the rear toggle.
Shots	- detachable box magazine.

23656 - 10	9MM LUGER	32	203	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- may not be marked "P08" on the firearm.
- marked on the rear left side of the receiver/frame: "GESICHERT" (means "Safety"; may be found marked on firearms in calibre 9MM LUGER).
- features include: fixed front and rear sight; tapered barrel; hammerless; the safety lever is located on the left side of the receiver/frame; the magazine release is located behind the trigger on the left side of the receiver/frame; blued finish with checkered walnut grip panels; stock lug cutout at base of the backstrap.
- year of manufacture is usually marked on the top of the chamber.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- marked on the pistol as a stylized monogram "DWM" on the rear toggle-link.
Action	- recoil operated.
Serial Number	- consists of one to four digits, most with a letter suffix. German military numbering consisted of consecutive numbers, starting at "1" and continuing to "9999", then starting again at "1"a to "9999a", "1b" to "9999b", etc. - if production exceeded 260,000 pistols per year, the numbering started again at "1", thereby creating the possibility of duplicate serial numbers.
Shots	- detachable box or "snail drum" magazine.
Canadian Law Comments	- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", "Former Cartridge Magazine Control Regulations".

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- with or without stock lug.
- chamber will be marked with a single date of issue (Note: there is no 1915 date).

Manufacturer

- marked on the firearm as a crown over the word "ERFURT" on the rear toggle-link.

Action

- recoil operated.

Serial Number

- serial numbers consist of 1 to 4 digits, most with a letter suffix.
- German military numbering consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc. (the letter "i" was not used).
- if production exceeded 260,000 pistols per year, the numbering started again at 1, thereby creating duplicate serial numbers.

Shots

- detachable box magazine.

Canadian Law Comments

- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", "Former Cartridge Magazine Control Regulations".

This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- manufactured from 1935 to 1945 for the German Luftwaffe. - a limited edition of 200 units were made in 2006. - the model designation "P08" does not appear on the firearm but the year of production or a coded letter date (letter "G" or "S") is marked on top of the chamber on the barrel extension. The letters "G" and "S" were used in early production. In 1936 two other variations of year markings were used, "36" and "1936". - features include: fixed front and rear sight, hammerless, the safety lever is located on the left side of the receiver/frame, the magazine release is located behind the trigger on the left side of the receiver/frame, blued finish with checkered walnut or black plastic grip panels. - a similar commercial version was also produced and is distinguished by the prefix "P" in the serial number.
Manufacturer	- the manufacturer's name may appear on the firearm. - the company logo resembles a boat anchor with the letter "H" on the left side and the letter "K" on the right side. Below the logo the words "KRIEGHOFF" and "SUHL" or only the word "SUHL" is marked. - Krieghoff was contracted by the Germany Military to supply 10,000 Luger pistols to the Luftwaffe in 1934 - Krieghoff commenced production in 1934 and by 1937 had manufactured components for 13,580 Luger pistols. - Krieghoff delivered approximately 12,220 Luger pistols to the German Military by 1945. - Krieghoff producted approximately 1,625 Luger pistols commercially.
Action	- recoil operated.
Serial Number	- firearms produced in 1936 were marked as "36" or "1936". - firearms marked with the year of manufacture as "36" had a serial number range from 3900 to 4700. - firearms with the year of manufacture marked as "1936" to "1945" (inclusive) have a serial number range from 4500 to 14000. - firearms with the year of manufacture marked as the letter "G" or "S" had a serial number range from 1 to 4000, overlapping serialization with the "36" marked year. - limited edition 2006 serial number range is from 18001 to 18200.
Calibre	- the calibre designation is not marked on the firearm.
Shots	- detachable box magazine.
Canadian Law Comments	- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", "Former Cartridge Magazine Control Regulations".
Other Markings	- the word "GESICHERT" is marked on the left side of the receiver/frame close to the safety lever.

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- may not be marked "P08" on the firearm. - marked on the rear left side of the receiver/frame: "GESICHERT" (means "Safety"; may be found marked on firearms in calibre 9MM LUGER). - features include: fixed front and rear sight, hammerless, the safety lever is located on the left side of the receiver/frame, the magazine release is located behind the trigger on the left side of the receiver/frame, blued finish with checkered walnut grip panels. - year of manufacture is usually marked on the top of the slide.
Manufacturer	- "MAUSER" is marked on the top of the slide toggle.
Action	- recoil operated.
Serial Number	- marked on the front of the receiver/frame on P08 models: S/N sequence starts at 1 and progresses to 9999, then goes to 1a progressing to 9999a, and then to 1b to 9999b, etc.
Shots	- detachable box magazine.
Canadian Law Comments	- the 32 shot magazine known as the "schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - for further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", "Former Cartridge Magazine Control Regulations".
Other Markings	- the last several digits of the main serial number (which is found on the front of the frame, or receiver) is usually repeated on most other parts of a firearm as originally manufactured; however many firearms will be found with mis-matched numbers. - usually marked on the right side of the receiver ring: proof/acceptance marks.
Remarks	- the "Luger", model P08 is the German military designation for this semi-automatic handgun.

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- the chamber is marked with the year of manufacture.
- approximately 50,000 were produced.
- features include: fixed front and rear sight, hammerless, the safety lever is located on the left side of the receiver/frame, the magazine release is located behind the trigger on the left side of the receiver/frame, blued finish with checkered walnut grip panels.

Manufacturer

- the front toggle is marked with the manufacturer's code "42".

Serial Number

- serial number is located on the receiver/frame.
- serial number may consist of four digits with or without a letter suffix.
- serial number may consist of four digits a have a "KU" prefix if manufactured in 41 (1941).

Shots

- detachable box magazine.

Canadian Law Comments

- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", "Former Cartridge Magazine Control Regulations".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known. - Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.
Model	- the model designation may be marked on the left side of the receiver/frame above the grip as, "P.08". - the date of manufacture may be marked marked on top of the receiver/frame in front of the toggle. - features include: blued receiver/frame and barrel, a fixed blade for a front sight with a fixed V-notch for a rear sight, the safety lever is located on the left side at the rear of the receiver/frame, the magazine release is located on the left side of the grip, the toggle has two checkered knobs, and the grips are checkered walnut. - the safety lever is normally marked "GESICHERT", and the extractor on the left side may be marked "GELADEN".
Manufacturer	- the rear toggle is marked with the manufacturer's code "byf".
Action	- recoil operated.
Serial Number	- serial number is marked on the receiver/frame under the barrel and visible from the front of the friearm. - serial number will have four sequential numbers and may have one alpha character suffix. - the four numbers of the serial number may also be marked on the left side of the receiver/frame without the one alpha letter character. - the last two digits of the serial number may be marked on various parts of the firearm.
Calibre	- the calibre designation is normally not marked on this firearm.
Shots	- detachable box magazine.
Canadian Law Comments	- the 32 shot magazine known as the "schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - for further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", "Former Cartridge Magazine Control Regulations".

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- "P08" is the German military designation for this semi-automatic handgun.
- "P08" is usually not marked on the firearm.
- year of manufacture is usually marked on the top of the firearm, over the chamber.
- year of manufacture may be a letter date code or an actual year.
- "G" is an alphabet date code which indicates manufactured in 1935.
- "K" is an alphabet date code which indicates manufactured in 1934.
- "GESICHERT" is marked on the rear left side of the receiver/frame.
- "GESICHERT" translates to "Safe".
- features include: fixed front and rear sights; round barrel; barrel extension with hinged toggle action; hammerless; take down lever, manual safety lever and magazine release button are located on the left side of the receiver/frame; checkered walnut grip panels; blued finish.

Manufacturer

- the top of the rear toggle is marked with the manufacturer code "S/42".

Action

- recoil operated.

Serial Number

- serial number is marked on the front of the receiver/frame.
- serial number consists of a four (4) digit number with or without a letter suffix.
- serial number sequence starts at 1 and progresses to 9999, then goes to 1a progressing to 9999a, and thence to 1b to 9999b, etc.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- the 32 shot magazine known as the "schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- for further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", "Former Cartridge Magazine Control Regulations".

Other Markings

- the last several digits of the main serial number (which is found on the front of the frame, or receiver) is usually repeated on most other parts of an originally manufactured firearm; however many firearms will be found with mis-matched numbers.
- usually marked on the right side of the receiver ring: proof/acceptance marks.

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- with or without stock lug.
- chamber will be marked with a single date of issue.

Action

- recoil operated.

Serial Number

- consists of 1 to 4 digits, most with a letter suffix. German military numbering consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc. (the letter "i" was not used).
- if production exceeded 260,000 pistols per year, the numbering started again at 1, thereby creating duplicate serial numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Canadian Law Comments - The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", "Former Cartridge Magazine Control Regulations".

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- This is a generic entry for those P08 lugers that may be missing manufacturer's markings or assembled from parts making determination of the manufacturer of the receiver/frame impossible . Other entries may exist which would better match a given sample.
- may not be marked "P08" on the firearm.
- marked on the rear left side of the receiver/frame: "GESICHERT" (means "Safety"; may be found marked on firearms in calibre 9MM LUGER).
- features include: fixed front and rear sight; tapered barrel; hammerless; the safety lever is located on the left side of the receiver/frame; the magazine release is located behind the trigger on the left side of the receiver/frame; blued finish with checkered walnut grip panels; stock lug cutout at base of the backstrap.
- year of manufacture is usually marked on the top of the chamber.

Action

- Recoil operated.

Serial Number

- Consists of one to four digits, most with a letter suffix. German military numbering consisted of consecutive numbers, starting at "1" and continuing to "9999", then starting again at "1"a to "9999a", "1b" to "9999b", etc.
- If production exceeded 260,000 pistols per year, the numbering started again at "1", thereby creating the possibility of duplicate serial numbers.

- The serial number is marked on the front of the receiver/frame just below the barrel.

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- Mauser issued this model in the 1970's as part of a line to commemorate various Luger models. These pistols had the "DWM" monogram in gold lettering, enscribed on the toggle within an oval. The left side of the receiver/frame had the commemorative information enscribed in gold. The language of the inscription was normally German.
- "75 JAHRE" over "PARABELLUM - PISTOLE" over "MOD. 08" is marked on the left side of the receiver/frame.
- "JAHRE" is "years" in German.
- the top of the chamber bears date markings of "1983" over "1908" enscribed in gold to denote the 75th anniversary of the model P08.
- features include: blued receiver/frame and barrel; a fixed front sight with a notched rear sight located at the rear of the receiver/frame; the safety lever is located on the left side at the rear of the receiver/frame and is marked, "GESICHERT"; the magazine release is located on the left side of the grip; the toggle has two partially serrated knobs; and checkered grip panels.

Manufacturer

- the manufacturer is not marked on the firearm.
- Mauser issued this model in the 1970's as part of a line to commemorate various Luger models. These pistols had the "DWM" monogram in gold lettering, enscribed on the toggle within an oval.
- the rear of the receiver/frame is normally marked, "MADE IN GERMANY".

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the right side of the receiver/frame above the trigger. The serial number rational is one alpha character followed by three sequential numbers. - the serial number may be marked in the following format, "J.215 VON 250". "VON" is "of" in German. The translation is serial number J215 (of 250). - the same serial number may be marked on the right side of the slide.
Calibre	- the calibre designation is marked on the barrel.
Shots	- detachable box magazine.
Importer	- the importer/distributer may not be marked on the firearm.

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model does not appear on the firearm - typical of post-World War I factory reworked pistols. - these firearms will display the dates 1920 or 1921 as well as the original date of manufacture which ran from 1910 to 1918.
Manufacturer	- found marked on the pistol as a stylized monogram "DWM" on the rear toggle-link.
Action	- recoil operated.
Serial Number	- consists of one to four digits, most with a letter suffix. - German military numbering consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc. (the letter "i" was not used). - if production exceeded 270,000 pistols per year, the numbering started again at 1, thereby creating duplicate serial numbers.
Shots	- detachable box magazine.
Canadian Law Comments	- the 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - for further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- P-08 ("Pistole 08", 08 denoting 1908, the year of adoption) is the original German military designation for this semi-automatic handgun.
- as issued in calibre 9MM LUGER, the "P08" was equipped with a 102mm barrel.
- may or may not be marked "P08" on the firearm.
- the model designation denotes German military issue "P08" pistols that have been "remanufactured" and have been remarked or have had the original manufacturer's marks removed or added to, and may have been partially or completely refinished.
- this "remanufacture" may combine dated or undated receiver/frames with marked or unmarked toggles, a factory or non-standard length barrel, and markings which are in variance with original manufacturers or issuers specifications.
- features will usually include: fixed front and rear sight; the safety lever located on the left side of the receiver/frame; the magazine release button located behind the trigger on the left side of the receiver/frame and blued finish with checkered walnut grip panels.

Manufacturer

- as these pistols are "Reworked", and may combine parts produced by any number of manufacturers, it is usually impossible to determine who actually produced a given pistol. Many parts may be marked with a code or manufacturer's designation but most will only help determine who produced a given part.

Action

- recoil operated.

Serial Number

- the serial number rationalization for these firearms is impossible to detail. Any combination of military, commercial or export serial number rationalizations may be found, receivers/frames may even have had serial numbers cancelled and firearms may have been renumbered.
- when originally produced the "P08" had the complete serial number marked on the receiver/frame, a partial serial number was then applied to the majority of major components.

Shots

- detachable box or "snail drum" magazine.

Canadian Law Comments

- The 32 shot magazine known as the 'schneckentrommel" or "snail drum" magazine, originally designed and manufactured for use in a firearm that is a handgun, known as the Parabellum-Pistol, System Borchardt-Luger, Model 1900, or "Luger", or any variant or modified version of it including the Model 1902, Model 1904 (Marine), Model 1904/06 (Marine), Model 1904/08 (Marine), Model 1906, Model 1908 and Model 1908 (Artillery), are exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

25891 - 4	9MM LUGER	32	203	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Luger" is not marked on the firearm but is the "common" name by which this firearm is known.
- Georg Luger, while an employee of Deutsche Waffen und Munitionsfabriken (DWM) improved the original Borchardt designed pistol by replacing the helical recoil spring in the back of the receiver/frame with a simple leaf spring in the back of the butt (later replaced by a coil spring). This new spring was coupled to the toggle by a bell-crank lever. A grip safety was also added to the design. Other improvements were made in design and balance that resulted in this universally recognised pistol.

Model

- Persian (Iranian) contract manufactured in 1936 and 1942.
- Persian crest is stamped onto top of chamber.
- All characters, including serial number, are marked in Farsi (arabic) characters.
- manufactured 1,000 pistols in 101mm barrel and 1,000 pistols in 203mm barrel.

Serial Number

- all characters including serial number are marked in Farsi (arabic) characters.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Type:	Shotgun
Action:	Semi-Automatic
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
78573 - 1	12 GA X 3"	4	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
78573 - 2	12 GA X 3"	4	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is marked on the left side of the receiver/frame.
- the "Luger" trade name is owned by Stoeger Industries.

Model

- introduced in 2000.
- model designation is not marked on the firearm.
- features include: hand checkered European walnut stock and forend, glossy finish, blued receiver/frame, manual safety, molded buttplate, bead front sight and chrome lined barrels with ventilated rib.

Manufacturer

- "Ata Arms", "ATA ARMS", "ATA ARMS MADE IN TURKEY", or "ATA Made in Turkey" is usually marked on the firearm.
- "ATA Arms" / "ATA av Tufekleri San ve Tic Ltd Sti" is located in Istanbul, Turkey.
- "ATA Arms" was established circa 1960.
- "ATA Arms" products were imported into North America by K.B.I. of Harrisonburg, PA, and Tristar of North Kansas City, MO, U.S.A., prior to 2008.
- "ATA Arms" products have been imported into North America by Weatherby of Paso Robles, CA, U.S.A., beginning in 2008.

Action

- gas operated.

Serial Number

- serial number is marked on the bottom left side of the receiver/frame.

Shots

- tubular magazine is mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer	- the first firearms imported will have "Stoeger Ind. Wayne, NJ" or "Stoeger Canada" marked on the barrel, but subsequent firearms may not have these markings.
Other Markings	- "ATA - Made in Turkiye" is marked on the barrel.
Remarks	- the complete manufacturer's name is "ATA AB TUFEKLERI SAN. VE TIC. LTD. STI."

Notes

Make

- "Luger" is not marked on the firearm.
- "Luger", Parabellum Pistol and "P08" are the common names by which this firearm is known.
- "Luger" stands for "Georg Luger" (1849-1923), Austrian-born, German gun designer.
- "Luger" first manufactured in 1900 for both military and commercial use.

Model

- "Wyatt-Imthurn Conversion" is not marked on the firearm.
- "WYATT" is usually marked on the barrel, at the chamber area.
- this is a Luger P08 pistol converted to an internal magazine fed, 45 AUTO target pistol, based on patents issued to Kenneth Wyatt and Elmer Imthurn in 1962.
- this conversion was carried out on an estimated 150 Lugers from various manufacturers.
- typical Luger appearance and operation except for a fixed top loading internal magazine.
- features include: Partridge type front and adjustable barrel mounted raised rear sight; round or slab sided, tapered barrel; knurled toggle knobs; groove in right grip panel for visual inspection of cartridges; manual safety on the left side of the receiver/frame above the grip; checkered synthetic or wood grip panels, or target type grip; blued finish.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the front of the receiver/frame, below the barrel. - serial number may have a script type letter, underneath the numbers. - serial number of known example had the original WW II German serial number marked.
Calibre	- calibre designation is usually marked on the barrel, at the chamber area as "WYATT .45".
Shots	- internal box magazine.

Firearm Reference Number (FRN): 20669
Make: Luna
Model: Free Pistol

Summary

Make:	Luna
Model:	Free Pistol
Manufacturer:	Buchel, Ernst Friedrich
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
20669 - 1	22 LR	1	305	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
20669 - 2	22 LR	1	349	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Luna" and "Tell" were trade names used by "Ernst Friedrich Buechel".

Model

- the model designation will not appear on the firearm.
- being custom built there can be numerous variations in features grip styles, sights, and barrel lengths.
- Luna freepistols have a grip angle closer to 90 degrees than do the Tell free pistols which have a more acute grip angle.
- the ring tipped action lever of the Luna will also differentiate it from the Tell.

Manufacturer

- "E.P.B" or "E.F.B.", the initials for "Ernst Friedrich Buechel", may be marked on the firearm.
- manufacturer was located at Mehlis and Zella-Mehlis, Germany between 1887 and the 1930s.
- manufactured handguns and rifles under the trade names of "Tell" and "Luna".
- Ernst Friedrich Buechel specialized in the manufacture of free pistols from 1919 to 1926.

Action

- falling block action.

Serial Number

- serial number will usually be marked on the side of the receiver/frame.

Firearm Reference Number (FRN): 120498
Make: LUSA
Model: LUSA A1

Summary

Make:	LUSA
Model:	LUSA A1
Manufacturer:	Industria Nacional de Defesa do Exercito Portugues (INDEP)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	PORTUGAL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
120498 - 1	9MM LUGER	5	160	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
120498 - 2	9MM LUGER	30	160	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "LUSA" is derived from Lusitania, a region in Portugal.
- "LUSA" was originally developed by INDEP of Portugal and fielded by the Portuguese Military in 1987.

Model

- the model designation may not be marked on the firearm.
- designed in Portugal in 1986, this model was produced to replace existing Portuguese submachine guns in military service.
- features include: a general appearance suggestive of a "miniaturized" MP-5, although the design uses an overhung bolt rather than a roller locking mechanism; synthetic pistol-grip and forearm; forward handgrip is co-located with the magazine well; sliding collapsible stock; open adjustable sights; sling swivels; Uzi-style magazine; a barrel assembly retained by a knurled nut, to allow the barrel to be exchanged for silenced/suppressed barrel units.
- the A1 has been seen with both a plain, bare barrel and a barrel covered with a ventilated shroud.
- in 1991, the A1 model was superseded by the LUSA A2, a slightly easier-to-manufacture version that shares the same external characteristics.
- overall length for 160mm barrel configuration is 600mm (23 5/8") with stock extended and 445mm (17 1/2") with stock retracted, average weight is 2.5kg (5.5 lbs) empty.

Manufacturer

- "INDEP" may be marked on the firearm.
- "INDEP" is the acronym for "Industria Nacional de Defesa do Exercito Portugues".
- "Industria Nacional de Defesa do Exercito Portugues (INDEP)" of Lisbon, Portugal took over the former Portugese State Arsenal of "Fabrica Militar de Braco de Prata", sometime prior to 2003.

Action

- blowback operated.

Serial Number

- numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation may be marked on the firearm. - rifling characteristics: 6-grooves, 1 turn in 10 inches, right hand twist.
Shots	- detachable box magazine.

Notes

Make

- "LUSA" is derived from Lusitania, a region in Portugal.
- "LUSA" was originally developed by INDEP of Portugal and fielded by the Portuguese military in 1987.

Model

- the model designation may not be marked on the firearm.
- introduced in 2004.
- this is a semi-automatic only version of the LUSA A2 selective fire submachine gun.
- features include: a general appearance strongly suggestive of a "miniaturized" MP-5; synthetic pistol-grip and forearm; sliding collapsible stock; open adjustable sights; sling swivels; Uzi-style magazine; shrouded barrel assembly which resembles a silencer/suppressor.
- overall length with a 413 mm (16 1/4") barrel is 845 mm (33 1/4") with stock extended and 718 mm (28 1/4") with stock retracted, average weight is 2.8 kg (6.2 lbs) empty.

Manufacturer

- manufacturer's name may not be marked on the firearm.
- "LUSA USA" is located in Webster, New Hampshire, U.S.A.
- "LUSA USA" was formed in 2004 by Stan Andrewski of Stan's Gunsmithing Service, Jerry Prasser of Recon Ordnance and Ralph Dimicco of Riley's Gun Shop.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated. - semi-automatic only.
Serial Number	- serial number is marked on the receiver/frame.
Calibre	- the calibre designation may be marked on the firearm.
Shots	- detachable box magazine.

Notes

Make

- "LWRC" or "LWRC" over "INTERNATIONAL" is marked on the left side of the receiver/frame and upper assembly.
- "LWRC" stands for "Land Warfare Resources Corporation".

Model

- "M6" model is based on the "M16/AR15" style rifle.
- "M6" utilizes a self regulating, short stroke piston design.
- features include: chrome lined barrel with or without flash hider or bayonet lug; flat top receiver/frame with Picatinny type rail; ejection port dust cover, case deflector and manual assist are located on the right side of the firearm; selective fire lever is located on the left side of the receiver/frame; single action trigger mechanism; synthetic pistol grip; retractable buttstock.
- overall length with a 409 mm (16.1") barrel and the stock retracted is 826 mm (32.5").
- overall length with a 409 mm (16.1") barrel and the stock extended is 914 mm (36").
- overall weight without magazine and a 409 mm (16.1") barrel is approximately 2.95 kg (6.5 lb).
- "M6" is available in several configurations:
- "M6" basic has an "A" frame style front sight, removeable Glacier Guard synthetic hand guards and a collapsible M4 style stock.
- "M6A1" has an "A" frame style front sight, removeable ARM-R four rail system synthetic hand guards and a collapsible M4 style stock.
- "M6A2" has a low profile gas block without a front sight, removeable ARM-R four rail system synthetic hand guards, MIAD pistol grip, enhanced trigger guard, and a Magpul CTR stock.
- "M6A2 DMR" (Dedicated Marksman Rifle) is a precision variant of the M6A2 with a match grade barrel and PRS or UBR multi-adjustable stock. Also available with a two stage trigger group.

Manufacturer

- Land Warfare Resources Corporation products are sold under the trade name and trademark of "LWRC", "LWRCI" (Land Warfare Resources Corporation International) and "LWRC International".
- Land Warfare Resources Corporation International is located in Cambridge, Maryland, U.S.A..
- LWRC International was established and incorporated in Maryland, U.S.A. in 2007.
- Leitner-Wise Rifle Company, Incorporated (LWRC Inc.) was purchased in January of 2006 and reorganized as Land Warfare Resources Corporation (LWRC).
- Land Warfare Resources Corporation (LWRC) was founded in 1999 and is located in Springfield, Virginia, U.S.A.
- Land Warfare Resources Corporation (LWRC) since 2008 operates as a subsidiary of LWRC International, LLC.

Action

- gas operated.
- self regulating, short stroke piston design.

Serial Number

- serial number is marked on the left side of the magazine housing of the lower receiver/frame.

Barrel

- barrel is available with a removeable or a permanent attached flash hider.

Calibre

- calibre identification is marked on the left side of the receiver/frame and upper assembly.
- calibre identification may also be marked on the barrel.
- 5.56MM NATO rifling characteristics; 1 turn in 7 inches, right hand twist.
- 6.8MM SPC rifling characteristics; 1 turn in 10 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- "LWRC" or "LWRC" over "INTERNATIONAL" is marked on the left side of the receiver/frame and upper assembly.
- "LWRC" stands for "Land Warfare Resources Corporation".

Model

- model designation is marked on the left side of the magazine housing of the receiver/frame.
- this firearm is a virtual copy of the Colt AR-15/M-16 rifle with the exception that it utilizes a short-stroke gas-piston operating system as opposed to the direct gas impingement system of the AR-15/M-16.
- features; gas operated, semi-automatic only utilizing a detachable box magazine; adjustable mid-length short-stroke gas-piston design by LWRC; flat top upper receiver/frame with Picatinny type rail; match grade, cold rotary hammer forged barrel with chrome plated bore and bird cage-type flash hider; bolt carrier is coated with a proprietary nickel coating for protection and lubricity; ambidextrous safety; forward bolt assist; retractable buttstock; adjustable sights; black finish.
- this rifle is capable of taking a wide variety of accessories.

Manufacturer

- Land Warfare Resources Corporation products are sold under the trade name and trademark of "LWRC", "LWRCI" (Land Warfare Resources Corporation International) and "LWRC International".
- Land Warfare Resources Corporation International is located in Cambridge, Maryland, U.S.A..
- LWRC International was established and incorporated in Maryland, U.S.A. in 2007.
- Leitner-Wise Rifle Company, Incorporated (LWRC Inc.) was purchased in January of 2006 and reorganized as Land Warfare Resources Corporation (LWRC).
- Land Warfare Resources Corporation (LWRC) was founded in 1999 and is located in Springfield, Virginia, U.S.A.
- Land Warfare Resources Corporation (LWRC) since 2008 operates as a subsidiary of LWRC International, LLC.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a two numbers, a dash and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre identification is marked on the left side of the receiver/frame and upper assembly.
- calibre identification may also be marked on the barrel.
- 5.56MM NATO rifling characteristics; 1 turn in 7 inches, right hand twist.
- 6.8MM SPC rifling characteristics; 1 turn in 10 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- "LWRC" over "SPRINGFIELD, VA" over "USA" was observed marked on the left side of the magazine housing of the lower receiver/frame of an example.
- "LAND WARFARE " over "RESOURCES CORP." was observed marked on the left side of the receiver/frame above the trigger of one example.
- "LWRC" over "INTERNATIONAL" over "CAMBRIDGE, MD" was observed marked on the left side of the lower receiver/frame of an example.
- "LWRC" is a trade name/trademark of Land Warfare Resources Corporation.

Model

- "R.E.P.R." was observed marked on the left side of the receiver/frame and may be repeated on the upper assembly.
- introduced in 2009.
- "R.E.P.R." is the acronym for "Rapid Engagement Precision Rifle".
- "R.E.P.R." is of the design commonly known as the AR15/M-16 rifle.
- "R.E.P.R." utilizes a self regulating, short stroke piston design.
- features include: threaded muzzle for flash hider/muzzle brake; hammer forged barrel; gas block with regulator; front and rear Troy folding BUIS sights; Picatinny rail flat top upper assembly having a continuous rail with the Picatinny handguard quad rail system; non reciprocating cocking handle with integral forward assist on the left side of the upper assembly; ejection port dust cover; case deflector; adjustable trigger mechanism; synthetic pistol grip; collapsible buttstock; tan or black finish.

Manufacturer

- Land Warfare Resources Corporation products are sold under the trade name and trademark of "LWRC", "LWRCI" (Land Warfare Resources Corporation International) and "LWRC International".
- Land Warfare Resources Corporation International is located in Cambridge, Maryland, U.S.A..
- LWRC International was established and incorporated in Maryland, U.S.A. in 2007.
- Leitner-Wise Rifle Company, Incorporated (LWRC Inc.) was purchased in January of 2006 and reorganized as Land Warfare Resources Corporation (LWRC).
- Land Warfare Resources Corporation (LWRC) was founded in 1999 and is located in Springfield, Virginia, U.S.A.
- Land Warfare Resources Corporation (LWRC) since 2008 operates as a subsidiary of LWRC International, LLC.

Action

- gas operated.
- self regulating, short stroke piston design.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- observed serial number consisted two numbers (70), a dash (-), and five numbers.
- observed markings "SER 70-011##"

Calibre

- "7.62mm x 51mm" and/or "7.62x51 NATO" is marked on the left side of the firearm.

Shots

- detachable box magazine.
- "R.E.P.R." receiver/frame use KAC/ Knight (SR25), C-Products, DPMS and Magpul magazines.

Notes

Make

- "LWRC", "SPRINGFIELD, VA" and "USA" was observed marked on the left side of the magazine housing of the lower receiver/frame.
- "LWRC" is a trade name/trademark of Land Warfare Resources Corporation.

Model

- "S.A.B.R." was observed marked on the left side of the magazine housing.
- introduced in 2009.
- "S.A.B.R." is the acronym for Sniper/Assaulter Battle Rifle.
- "S.A.B.R." is of the design commonly known as the AR15/M-16 rifle.
- "S.A.B.R." utilizes a self regulating, short stroke piston design.
- various accessories include: upper barreled assemblies, optics, etc.
- features include: round chrome lined barrel with a pronged flash hider; folding front and rear sights; flat top receiver/frame with Picatinny type rail system and left side cocking handle; ejection port dust cover, case deflector and manual assist are located on the right side of the firearm; adjustable trigger mechanism; quad rail forearm, synthetic pistol grip and adjustable buttstock; tan or black finish.
- overall length with a 457 mm (18") barrel and the stock retracted is 914 mm (36") and 999 mm (39.3") with the stock extended.
- overall weight without magazine and a 457 mm (18") barrel is approximately 3.72 kg (8.2 lbs).

Manufacturer

- Land Warfare Resources Corporation products are sold under the trade name and trademark of "LWRC", "LWRCI" (Land Warfare Resources Corporation International) and "LWRC International".
- Land Warfare Resources Corporation International is located in Cambridge, Maryland, U.S.A..
- LWRC International was established and incorporated in Maryland, U.S.A. in 2007.
- Leitner-Wise Rifle Company, Incorporated (LWRC Inc.) was purchased in January of 2006 and reorganized as Land Warfare Resources Corporation (LWRC).
- Land Warfare Resources Corporation (LWRC) was founded in 1999 and is located in Springfield, Virginia, U.S.A.
- Land Warfare Resources Corporation (LWRC) since 2008 operates as a subsidiary of LWRC International, LLC.

Action

- gas operated.
- self regulating, short stroke piston design.

Serial Number

- serial number was observed marked on the left side of the magazine housing of the lower receiver/frame.
- observed serial number consisted of eight numbers (two numbers, a dash (-), and six numbers).

Calibre

- "7.62MM NATO" was observed marked on the left side of the magazine housing.
- rifling characteristics: one turn in 10.0 inches, right hand twist.
- rifling characteristics: one turn in 11.25 inches, right hand twist.

Shots

- detachable box magazine.

Notes

Make

- make is marked on the magazine well on the left side of the receiver/frame.
- M2 Corporation is a tradename of the Military Manufacturing Corporation.

Model

- model designation is not marked on the firearm.
- resembles the Colt produced M-16/AR-15 family of rifles.
- standard features for this series of rifles include: hardlined or staycool barrel, telescoping buttstock, bird cage or VortX flash suppressor, and a magazine release button.
- available in several variations;
- features for the "M16C" include: flat top design, hardlined 152 MM barrel, removable vertical foregrip, VortX flash suppressor, may have a red dot aiming system, laser or visible light illuminator.
- features for the "M16Z1" model include: bird cage flash suppressor, aperture front sight, carrying handle with a hardlined 413 MM barrel.
- features for the "Patrol" model include: full length hand guard, carrying handle with a hardlined 364 MM barrel.
- features for the "M4N" include: flat top design, side mounted laser designator or illuminator, side mount bayonet lug, standard back-up mechanical sights, bird cage flash suppressor and a staycool 324 MM barrel.
- features for the "M16SP" include; carrying handle, bird cage flash suppressor and a 213 MM hardlined barrel.
- features for the "M16X" include: carrying handle, VortX flash suppressor, aperture front sight and a 105 MM hardlined barrel.

Manufacturer

- manufacturer's name is marked on the left side of the receiver/frame above the trigger and selector lever.
- manufacturer is currently located in Las Vegas, Nevada.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated. - a full automatic variant is also offered.
Serial Number	- serial number is marked on the magazine well on the left side of the receiver/frame.
Calibre	- calibre is marked on the left side of the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- make is marked on the magazine well on the left side of the receiver/frame.
- M2 Corporation is a tradename of the Military Manufacturing Corporation.

Model

- model designation is not marked on the firearm.
- resembles the Colt produced M-16/AR-15 family of rifles.
- standard features for this series of rifles include: hardlined or staycool barrel, telescoping buttstock, bird cage or VortX flash suppressor, and a magazine release button.
- available in several variations;
- features for the "M16X" include: carrying handle, VortX flash suppressor, aperture front sight and a 105 MM hardlined barrel.
- features for the "M16Z1" model include: bird cage flash suppressor, aperture front sight, carrying handle with a hardlined 413 MM barrel.
- features for the "Patrol" model include: full length hand guard, carrying handle with a hardlined 364 MM barrel.
- features for the "M16C" include: flat top design, hardlined 152 MM barrel, removable vertical foregrip, VortX flash suppressor, may have a red dot aiming system, laser or visible light illuminator.
- features for the "M4N" include: flat top design, side mounted laser designator or illuminator, side mount bayonet lug, standard back-up mechanical sights, bird cage flash suppressor and a staycool 324 MM barrel.
- features for the "M16SP" include; carrying handle, bird cage flash suppressor and a 213 MM hardlined barrel.

Manufacturer

- manufacturer's name is marked on the left side of the receiver/frame above the trigger and selector lever.
- manufacturer is currently located in Las Vegas, Nevada.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated. - a full automatic variant is also offered.
Serial Number	- serial number is marked on the magazine well on the left side of the receiver/frame.
Calibre	- calibre is marked on the left side of the receiver/frame.
Shots	- detachable box magazine.
