FRT Report

Firearm Reference Number (FRN): 120635
Make: Maroszek
Model: Wz35

Summary

Make:	Maroszek
Model:	Wz35
Manufacturer:	Polish State Arsenal, Warsaw
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	POLAND
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
120635 - 1	8MM MAROSZEK	4	1200	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.
- Josef Maroszek was a Polish small-arms designer and engineer, most well-known for his work on the wz.35 "Ur" anti-tank rifle fielded during the opening phases of World War Two; he also designed the wz.38M semi-automatic infantry rifle, which wasn't put into full production before Poland was invaded in 1939.

Model

- the model may not be marked on the firearm.
- this is a greatly-enlarged Mauser-type bolt-action rifle based on the Mauser T-Gewehr, and adopted by the Polish armed forces in 1935.
- in order to achieve the velocities required to pierce any significant amount of armour, the Poles married a hard-core 8mm bullet to a long, slim case with a greater capacity than the 8mm Mauser that was the Polish standard at that time. Although this rifle/ammunition combination produced acceptable penetration for the time, all conventional anti-tank rifles were reduced to "obsolescent" status by the end of World War Two.
- features include: blued finish; walnut pistol-grip stock and upper handguard; open adjustable sights; bipod; and a muzzle brake.

Manufacturer

- manufacturer's name is marked on the firearm.

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the receiver/frame.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 157968
Make: Maroszek
Model: Wz38M

Summary

Make:	Maroszek
Model:	Wz38M
Manufacturer:	Polish State Arsenal, Warsaw
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	POLAND
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
157968 - 1	8MM MAUSER	5	625	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
157968 - 2	8MM MAUSER	10	625	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.
- Josef Maroszek was a Polish small-arms designer and engineer, most well-known for his work on the wz.35 "Ur" anti-tank rifle fielded during the opening phases of World War Two; he also designed the wz.38M semi-automatic infantry rifle, which wasn't put into full production before Poland was invaded in 1939.

Model

- Introduced in 1938.
- the model is not marked on the firearm.
- this is a gas-operated semi-automatic rifle designed by Josef Maroszek during the early 1930s, and which was adopted by Poland in 1938 as a replacement for their K98 Mauser rifles, however, World War Two began before full-scale production began; it is believed that somewhere around 150 of these rifles were produced at the Warsaw Arsenal, and that less than 10 are known to exist.
- a re-issued version, in the original calibre, was produced in 2013.
- features include: blued finish; open adjustable sights; bayonet lug; under-barrel gas piston; three-piece walnut stock, handguard and forearm; fixed box magazine (fed via stripper-clips when the action is open); right-side operating handle; an exposed top-eject bolt that tilts to lock; a rotating lever safety above the trigger; and sling swivels.

Manufacturer

- "Zbr.2" is marked on top of the receiver.
- "Zbrojownia No. 2" ("Arsenal #2") was the factory identifier for the Warsaw Arsenal in Warsaw, Poland.

Action

- gas-operated.

Serial Number

- serial numbered on the receiver/frame.
- serial numbers observed consisted of four numbers or a two letter prefix (RT) and three numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- box magazine loaded via stripper clips.
Remarks	- The original version was produced in limited numbers with no unique features.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "Mars" is marked on the left side of the slide. - "Mars" has been used as a tradename on firearms by at least three different firms.
Model	- manufactured from 1928 to 1945. - "MARS" is marked on the side of the slide and may be repeated on the grip plates. - this is one of a large number of different "Mars" pistols produced and distributed throughout Europe by Kohout & Spol up to the end of World War Two, and which can be seen in both 25/6.35mm and 32/7.65 calibres and a range of versions. - these pistols are largely functional copies of the FN-Browning 1906 and 1906, built without grip safeties, but with the manual safeties seen both in front of and behind the left grip plate. - features include: blued finish; fixed groove sights; single-action trigger mechanism; varying placement of a rotating manual safety; synthetic grip plates (usually with "Mars" embossed into them); and a heel magazine release.
Manufacturer	- manufacturers name may be marked on the left side of the slide.
Action	- blow back operated.
Serial Number	- serial number is located on the left side of the receiver/frame, just above the trigger.
Calibre	- calibre is marked on the left side of the slide.
Shots	- detachable box magazine.

60297 - 1	450 MARS	8	223	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Mars Automatic Pistol" was designed and patented by Hugh William Gabbett-Fairfax of Leamington Spa, Warwickshire, England.
- Mars Pistol was originally manufactured under contract by Webley & Scott from 1900 to 1905.
- Hugh W. Gabbett-Fairfax was bankrupted circa 1902.
- "Mars Automatic Firearms Syndicate" was formed in 1904 to exploit the Gabbet-Fairfax patents.
- "Mars Automatic Firearms Syndicate" ceases operations in 1907.

Model

- "MARS PISTOL" or "PISTOLET MARS" may be marked on the firearm.
- less than 200 firearms manufactured between 1900 and 1907.

Manufacturer

- Webley & Scott were licenced in 1899 to manufacturer, and the firearms were patented in 1900.

Action

- long-recoil with a distincive locking system: rotating-bolt.

Calibre

- calibre is marked on the barrel.

Shots

- detachable box magazine.

97795 - 1	410 GA X 2 1/2"	5	260	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this is an unusual five shot smoothbore survival revolver originally made for the Soviet space program. In the event that a cosmonaut came down in a remote area where recovery was not immediately possible, this revolver would enable him or her to hunt for food.
- this revolver was also issued to pilots, geologists, etc., who could expect to live and work in remote areas.
- double-action revolver.
- detachable shoulder-stock and optical sight
- this revolver is chambered for 410 GA X 2 1/2" shotshells, loaded with either shot or flechettes; the barrel and cylinder "tip-up" to extract/eject empty cases, and firing is done from the lower most chamber.

Action

- double action.

Serial Number

- numbered on receiver/frame.

Firearm Reference Number (FRN): 135202
Make: Marson, Samuel
Model: Martini-Henry Sporter

Summary

Make:	Marson, Samuel
Model:	Martini-Henry Sporter
Manufacturer:	Marson, Samuel
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
135202 - 1	22 LR	1	730	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "CONVERTED BY" over "SAMUEL MARSON & Co." over "BIRMINGHAM" was observed marked on the left side of the receiver/frame.

Model

- Martini-Henry does not appear on the firearm; characteristics and/or markings on the receiver/frame are what define the Make.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini and has an under-lever operated falling breech block hinged at the rear; this action featured a coiled mainspring, integral cocking mechanism, tear-drop shaped external cocking indicator located on the right side of the receiver/frame; this design incorporated fewer parts than its contemporary competitors. The "Henry" part of the name indicates the use of a seven groove rifling design patented by Alexander Henry in 1860 (Patent No. 2802, 15 November 1860).
- Martini-Henry Sporter model designation is for those Martini-Henry military actions rebuilt into a sporting configuration by the firm of Samuel Marson & Co.
- Martini-Henry designation is confirmed by the existence of the original ordnance markings retained on the right side of the receiver/frame after reworking.
- original manufacturer's name, royal cypher of Queen Victoria (crown and V.R.), date of manufacture and model designation appear on the right side of the receiver/frame; two examples of the model markings will be in the form of the Roman Numeral "I" for the Mark 1 rifle and "I.C.1" for the Mark 1 Carbine in "1st" class condition, others may exist depending on the "Mark" of rifle or carbine.
- original manufacturer's name or trade mark would be marked as follows;
- 1.) BSA & M Co.; Birmingham Small Arms and Metal Company Ltd.
- 2.) ENFIELD; The Royal Small Arms Factory, Enfield Lock.
- 3.) HB Co. or HRB Co.; Henry Rifled Barrel, Engineering and Small Arms Company Limited.
- 4.) LSA Co.; London Small Arms Company Limited.
- 5.) NA & A Co. Ld.; National Arms and Ammunition Company Limited.
- features include: round, tapered barrel with adjustable sights; Martini-Henry under-lever operated, rear hinged, tipping block action; receiver/frame mounted custom sight; checkered hardwood forearm and straight grip buttstock; blued finish.

Manufacturer

- "CONVERTED BY" over "SAMUEL MARSON & Co." over "BIRMINGHAM" was observed marked on the left side of the receiver/frame.
- Samuel Marson & Company was an English gunmaking firm located in Birmingham, England from 1871 to 1951.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- rear hinged, under-lever operated, tipping block design.
Serial Number	- on military issue actions the serial number is usually stamped on the front of the receiver/frame and may have a letter prefix or suffix. - known example had a three digit number with a letter suffix. - suffix letter "N" is known.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "MARSTAR" is not marked on the firearm.
- "MC-Z LK22H" over "Made in Canada" is marked on the side of the receiver/frame.
- "MC-Z" stands for "MARSTAR CANADA-ZASTAVA".
- although made by Zavodi Crevena Zastava of Yugoslavia, this was a pre-production sample made for MARSTAR CANADA which accounts for the "MADE IN CANADA," markings on the receiver/frame.
- MARSTAR was incorporated in late 1984 by John and Cynthia St Amour.
- MARSTAR began operations in 1985.
- MARSTAR has been known as Marstar International Armaments, Marstar International Trading, Marstar Trading, and Marstar Canada Incorporated.
- MARSTAR is located in Vankleek Hill, Ontario, Canada.

Model

- "MC-Z LK22H" is marked on the side of the receiver/frame.
- "MC-Z" stands for "MARSTAR CANADA-ZASTAVA".
- "LK22H" is the model designation.
- "LK22H" was a pre-production sample made in Yugoslavia for MARSTAR CANADA.
- walnut stock and blued metal.
- adjustable trigger unit.
- magazine base extends below the stock and is uniquely tapered.
- built on a M85 miniature mauser action as produced by Zastava.
- safety extends upward from trigger unit on right side of receiver.
- adjustable sights on barrel.
- receiver is drilled and tapped for scope mounts.

Manufacturer

- manufacturer's name is not marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- located on right side of receiver. - sample observed did not have letter prefixes nor suffixes.
Calibre	- marked on barrel as "CAL 22 Hornet."
Shots	- detachable box magazine. - magazine has side plate cutouts.

Notes

Make

- "W. W. MARSTON", "NEW-YORK" and "PATENTED 1850" may be marked on the barrel.

Model

- this is an unusual early attempt at producing a practical breech loading pistol, manufactured during the mid-1850s by William W. Marston of New York City.
- this pistol has an action lever built into the front of the grip frame that retracts the breech block when it is swung forward; this opens a window on the right side of the receiver/frame that allows a ball and powder to be placed in the chamber.
- versions built with either silver-plated brass or colour case-hardened iron frames, and with an octagonal or half-round/half octagonal barrel.
- these pistols used percussion caps in conjunction with a leather and paperboard cartridge, in an attempt to give a practical, rapidly reloaded single-shot handgun.
- features include: walnut grips, hammer mounted on the right side of the receiver/frame; simple engraving.
- these pistols are generally marked "W. W. MARSTON / NEW-YORK / PATENTED 1850" on the barrel, while brass-framed examples have an additional "CAST STEEL" marking.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- William Walker Marston was a gun manufacturer and retailer based in New York City, New York, U.S.A. from 1844 to 1872. - Marston produced both percussion and metallic cartridge firearms under a variety of names and with various partners: "W.W. Marston", "W.W. Marston, New York City", "W. W. Marston Armory, New York", "William Marston, New York City", "Marston & Knox, New York", "Sprague & Knox, New York", "The Washington Arms Company", "The Union Arms Company" and "Phenix/Phoenix Armory". - Marston was in partnership with Knox, circa 1847. - Marston was in partnership with Sprague from 1848 to 1853.
Action	- percussion single-shot.
Serial Number	- numbered on the receiver/frame.
Barrel	- these pistols are seen with barrels ranging from 4"/102mm to 8 1/2"/216mm.
Calibre	- these pistols used a paper-board and leather, self contained cartridge that was ignited by the jet of flame from a percussion cap.

Notes

Make

- "W.W. MARSTON" may or may not be marked on the firearm.

Model

- model is not marked on firearm.
- manufactured during the late 1850's.
- this is a very unusual superposed three barreled REPEATING percussion derringer, with a moving hammer nose that strikes the percussion caps of each successive barrel in sequence from top to bottom.
- manufactured with a single or double action trigger mechanism, walnut grips, fluted barrel unit, and a flat sided receiver/frame with a cut out to allow movement of the pivoting hammer nose.

Manufacturer

- William Walker Marston was a gun manufacturer and retailer based in New York City, New York, U.S.A. from 1844 to 1872.
- Marston produced both percussion and metallic cartridge firearms under a variety of names and with various partners: "W.W. Marston", "W.W. Marston, New York City", "W. W. Marston Armory, New York", "William Marston, New York City", "Marston & Knox, New York", "Sprague & Knox, New York", "The Washington Arms Company", "The Union Arms Company" and "Phenix/Phoenix Armory".
- Marston was in partnership with Knox, circa 1847.
- Marston was in partnership with Sprague from 1848 to 1853.

Action

- muzzle loader, superposed three barrel configuration.

Notes

Make

- "W.W. MARSTON, PATENTED 1850. NEW YORK" may be marked on the receiver/frame.

Model

- model is not marked on the firearm.
- this is an unusual early attempt at producing a practical breechloading rifle, manufactured during the mid-1850s by William W. Marston of New York City.
- this rifle has an action lever that retracts and lowers the breech block when it is swung forward (the receiver appears very similar to the Evans Repeating Rifle).
- versions built with either blued/browned or color case hardened iron frames, and with round or half-round/half-octagonal barrels.
- these rifles used percussion caps in conjunction with a leather and paperboard cartridge, in an attempt to give a practical, rapidly reloaded single shot rifle.
- walnut straight grip stock and forearm, hammer mounted on the right side of the receiver, and simple engraving on the frame.
- Marston also made handguns and shotguns that used this breech loading percussion system.

Manufacturer

- William Walker Marston was a gun manufacturer and retailer based in New York City, New York, U.S.A. from 1844 to 1872.
- Marston produced both percussion and metallic cartridge firearms under a variety of names and with various partners: "W.W. Marston", "W.W. Marston, New York City", "W. W. Marston Armory, New York", "William Marston, New York City", "Marston & Knox, New York", "Sprague & Knox, New York", "The Washington Arms Company", "The Union Arms Company" and "Phenix/Phoenix Armory".
- Marston was in partnership with Knox, circa 1847.
- Marston was in partnership with Sprague from 1848 to 1853.

Action

- percussion single shot rifle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - numbered on the bottom of the receiver/frame.

Notes

Make

- "W.W. MARSTON, PATENTED 1850. NEW YORK" may be marked on the receiver/frame.

Model

- model is not marked on the firearm.
- this is an unusual early attempt at producing a practical breechloading shotgun, manufactured during the mid-1850s by William W. Marston of New York City.
- this shotgun has an action lever that retracts and lowers the breech block when it is swung forward (the receiver appears very similar to the Evans Repeating Rifle).
- versions built with either blued/browned or colour case-hardened iron frames, and with round or half-round/half-octagonal barrels.
- these shotguns used percussion caps in conjunction with a leather and paperboard cartridge, in an attempt to give a practical, rapidly reloaded single shot shotgun.
- walnut straight grip stock and forearm, hammer mounted on the right side of the receiver, and simple engraving on the receiver/frame.
- Marston also made handguns and rifles that used this breech loading percussion system.

Manufacturer

- William Walker Marston was a gun manufacturer and retailer based in New York City, New York, U.S.A. from 1844 to 1872.

Action:	Semi-Automatic
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122633 - 2	25 AUTO	6	54	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
122633 - 1	6.35MM	6	54	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MARTE" is marked on the left side of the slide.
- "MARTE" inside an oval may be marked on the top of the grip plates.

Model

- this model is typical of the many "Vest Pocket" or "Ruby" type handguns based on the Browning model 1906 design. Variations in markings have been observed. Slide markings of "MARTE" over "IMPORTE D"ESPAGNE" or "AUTOMATIC PISTOL CAL.6.35" over "MARTE" are known to exist. Grip panels have also been noted with "MARTE" or an "EMC" monogram inlet into the top of each panel or plain checkered panels.
- manufactured before 1936.
- features include: groove in the top of the slide for a sight; round rifled barrel; flat sided slide with right side ejection and rear grip serrations; hammerless; receiver/frame does not have a grip safety; manual safety/slide lock lever is located on the left side of the receiver/frame; detachable box magazine release is located on the heel of the rear grip strap; checkered grip plates; blued finish.

Manufacturer

- "Erquiaga Y Cia" of Eibar, Spain was a sub-contractor for Gabilondo, during the First World War.
- "Erquiaga Y Cia" name was changed to "Erquiaga Muguruzu Y Cia" circa 1921.
- "Erquiaga Muguruzu Y Cia" ceased operations prior to 1936.
- the manufacturer's name may be marked on early production firearms as "ERQUIAGA Y CIA", on late production only the monogram "EMC" is molded into the top of the grip plate.
- "EC" stands for "Erquiaga Y Cia".
- "EMC" stands for "Erquiaga Muguruzu Y Cia".
- "Erquiaga Y Cia" / "Erquiaga, Muruguraza Y Cia" of Eibar, Spain produced the Aguro, Diane, Fiel, and Marte semi-automatic pistols.
- some reference material spells the company name Urquiaga, Muruguraza Y Cia of Eibar.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- serial number practice for this model is unknown. - on the sample examined all major components (receiver/frame, barrel and slide) were marked with the same three digit number. None of the numbers were visible without disassembly, the receiver/frame was marked on the top of the right slide rail, the slide was marked on the underside and the barrel was marked on the side. - the sample examined was also marked with a three digit number (different from the aforementioned numbers) on the left side of the receiver/frame.
Shots	- detachable box magazine housed in the grip.

Notes

Make

- "FA. DE MARTIN A. BASCARAN - EIBAR", "MARTIAN", "MAB", "MB", and "THUNDER" were trade names/trademarks used by Martin A. Bascaran of Eibar, Spain until circa 1927.

Model

- "Automatic Pistol "Martian" " or a variation thereof is usually marked on the left side of the slide.
- "Martian" and/or "MAB" may also be embossed on each of the grip plates.
-production of this pistol circa 1914 to circa 1927.
- blowback operated, striker fired, semi-automatic pistol utilizing a detachable box magazine.
- has an unusual barrel locking feature whereby the barrel is locked to the receiver/frame by means of a catch operated by pulling the trigger guard down and away from the receiver/frame.
- features include; magazine release located at the bottom rear of the grip frame; vertically sliding-type safety located behind the trigger on the receiver/frame; black plastic grips; blued finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Martin A. Bascaran was a Spanish firearms manufacturer located in Eibar, Spain. - Martin A. Bascaran started business during the First World War and ceased operations circa 1927. - Martin A. Bascaran company monogram consisting of the letters "MAB" within an oval with the word "Trade" on the top and the word "Mark" on the bottom - "MAB" monogram may be marked on the slide and/or embossed on the grip plates. - "MB" in an oval may be marked on the side of the receiver/frame. - "MB" is the abbreviation for "Martin Bascaran".
Action	- blowback operated.
Serial Number	- known examples have had three digit serial numbers without prefix or suffix marked on the left rear of the receiver/frame or on the right side of the receiver/frame above the trigger.
Calibre	- calibre designation is usually marked on the left side of the slide.
Shots	- detachable box magazine.

Make

- "FA. DE MARTIN A. BASCARAN - EIBAR", "MARTIAN", "MAB", "MB", and "THUNDER" were trade names/trademarks used by Martin A. Bascaran of Eibar, Spain until circa 1927.
- "MARTIAN" may or may not be marked on the firearm (either on the slide, or on the grips).
- "MARTIAN" was a trade-name owned by Martin A. Bascaran, of Eibar, Spain.

Model

- produced from 1919 to 1926.
- "COMERCIAL" is marked on the grips and/or the left side of the slide.
- this is a version of Bascaran's "Martian" pistol manufactured after 1919, as a copy of Browning's 1906, without a grip safety.
- features include: blued finish; fixed groove sights; single-action trigger mechanism; rotating safety lever above the trigger-guard; and heel magazine release.
- these pistols may be seen with a number of Bascaran's trademarks, including an "MAB" with the legs of the "A" forming the right and left legs of the "M" and "B", or with a cursive "MB" monogram.

Manufacturer

- Martin A. Bascaran was a Spanish firearms manufacturer located in Eibar, Spain.
- Martin A. Bascaran started business during the First World War and ceased operations circa 1927.
- Martin A. Bascaran company monogram consisting of the letters "MAB" within an oval with the word "Trade" on the top and the word "Mark" on the bottom
- "MAB" monogram may be marked on the slide and/or embossed on the grip plates.
- "MB" in an oval may be marked on the side of the receiver/frame.
- "MB" is the abbreviation for "Martin Bascaran".

Action

- blowback operated.

Notes

Make

- "FA. DE MARTIN A. BASCARAN - EIBAR" over "MARTIAN" and "CAL 7.65" was observed marked on the left side of the slide.
- "FA. DE MARTIN A. BASCARAN - EIBAR", "MARTIAN", "MAB", "MB", and "THUNDER" were trade names/trademarks used by Martin A. Bascaran of Eibar, Spain until circa 1927.

Model

- "MARTIAN" is marked on the firearm.
- this is one of two distinct "Martian" pistols manufactured by Bascaran from the early part of the First World War until 1927.
- the first version of the "Martian" was the more refined, mechanically, with a hinged trigger-guard to allow disassembly, and a vertically-sliding manual safety behind the trigger-guard; the second was put into production midway through the First World War, and was a rougher "Ruby"-style pistol, with the typical rotating lever safety and standard "Ruby" takedown. Both of these pistols were marked as "Martians".
- features include: blued finish; fixed open sights; manual safety, single-action trigger; synthetic or wooden grips; heel magazine release; and the "Ruby"-style Martians were usually fitted with a lanyard ring at the butt.
- overall length is 155 mm (6.1"), and average weight is 0.623 kg (22 oz).

Manufacturer

- "FA. DE MARTIN A. BASCARAN - EIBAR" was observed marked on the left side of the slide.
- "MB" in an oval was observed marked on the left side of the receiver/frame.
- Martin A. Bascaran was a Spanish firearms manufacturer located in Eibar, Spain.
- Martin A. Bascaran started business during the First World War and ceased operations circa 1927.
- Martin A. Bascaran company monogram consisting of the letters "MAB" within an oval with the word "Trade" on the top and the word "Mark" on the bottom

Notes

Make

- Martini type action.

Model

- model designation is not marked on the firearm.
- this is a modified Martini action used by gunmakers to build "Off-Hand" or "Schuetzen" or "Schuetzenfest" target rifles which were used in target matches.
- features include:
- larger and heavier receiver/frame than the original Martini action.
- breech block hinged at the rear of the receiver/frame that swings downward at the front to open.
- usually these actions were made so that the essential parts of the receiver/frame, including the trigger plate could be disassembled quickly.
- elaborately shaped trigger guard which serves a triple purpose, that of the trigger guard, operating lever and type of grip to support the hand in firing.
- deluxe pistol grip or straight stock with "schuetzen" style hooked buttplate and high comb cheek rest.
- octagonal or round barrel and usually of heavy contour.
- usually found with double set triggers.
- others features as to wood selection and configuration, barrel length and contour, engraving and metal finishes may vary greatly from one gunmaker to another.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- may or may not be serial numbered.
Other Markings	- depending on the location of the manufacturer, proof marks from different countries may be encoutered. - specimen observed with German proof mark.

Notes

Make	- maker's name is not usually marked on the firearm; the use of the name Martini is descriptive of the type of action and may not be the name of the individual or firm that produced the firearm.
Model	- no model name is marked on this firearm. - this is a generic entry for sporting rifles utilizing a Martini-type action that are otherwise unidentifiable as to make, model or manufacturer. - features include: Martini-type action utilizing an under-lever actuated tipping breech block which is hinged at the rear; other features may vary widely.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- the original serial number may or may not be present. - serial numbering for such rifles is unknown or non-existant.
Calibre	- calibre may or may not be marked on the firearm.

Notes

Make

- the make is not marked on the firearm; this is a description of the action type used.

Model

- this firearm is a single-shot handgun utilizing a Martini action.
- these pistols may be seen both manufactured "as-is", or converted from cut-down Martini-Enfield rifles.
- cut-down examples will typically bear Enfield markings and dates, while locally-manufactured examples will typically show non-standard measurements and decorative embellishments.
- wooden grip and forearm (most often converted or sawn-off from original parts), and most examples will have no or very rudimentary sights.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- could possibly be numbered, although the serial number may have no coherent rationalization.

Remarks

- these pistols were commonly manufactured in Afghanistan and Pakistan from surplus or captured rifles, as well as "homemade" manufacture. Many of these pistols will show no indication as to manufacturer or origin.
- those firearms with recognizable markings are quite often not what they seem to be. The "home made" Afghan "cottage industry" firearms have spurious markings applied by tradesmen who did not understand the significance of the markings they were copying: - such as Queen Victoria's Royal Cypher applied to firearms manufactured 10 - 20 years after Queen Victoria died.

Summary

Make:	Martini-Enfield
Model:	MARK 1 Artillery Carbine
Manufacturer:	Henry Rifle Barrel Company (HRB)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1488 - 1	303 BRITISH	1	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "M.E. .303" is usually marked on the left side of the receiver/frame. - "M.E." is the abbreviation for Martini-Enfield.
Model	- the model designation appears on the left side of the receiver as "A.C. I".
Manufacturer	- the Royal cypher, manufacturer's name and the year of conversion to a Martini-Enfield are marked on the left side of the receiver/frame. - the original markings with the Royal cypher, manufacturer's name, year of manufacture of the receiver/frame and model are usually marked on the right side of the receiver/frame.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- appears on the leaf of the rear sight.
Barrel	- Enfield Patent rifling.
Other Markings	- The original manufacturer, model designation and year of production appear on the right side of the receiver, the name of the company which performed the conversion to the new configuration plus the new designation and year of conversion appear on the left side of the receiver. A capital letter 'E' denoting Enfield rifling appears on the Knox form of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- This carbine is a conversion of existing Martini Henry MARK 3 Rifles from calibre .577-450 to calibre .303 BRITISH carbines. Conversion entailed fitting a new barrel with Enfield rifling, sights, extractor, breechblock, forend and inletting a brass marking disc into the buttstock. The new model designation, converting agency and year of conversion are stamped on the left side of the receiver. All Martini Enfield Artillery Carbines have a bayonet mounting bar on the nosecap.

1496 - 1	303 BRITISH	1	767	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "M.E. .303" is usually marked on the left side of the receiver/frame.
- "M.E." is the abbreviation for Martini-Enfield.

Model

- the model designation appears on the left side of the receiver/frame as "I".

Manufacturer

- the Royal cypher, "ENFIELD" and the year of conversion to a Martini-Enfield are marked on the left side of the receiver/frame.
- the original markings with the Royal cypher, manufacturer's name, year of manufacture of the receiver/frame and model are usually marked on the right side of the receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- appears on the leaf of the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- The original manufacturer, model designation and year of production appear on the right side of the receiver, the name of the company which performed the conversion to the new configuration plus the new designation and year of conversion appear on the left side of the receiver. A capital letter 'E' denoting Enfield rifling appears on the Knox form of the barrel.

Remarks

- This rifle is a conversion of existing Martini Henry MARK 3 Rifles from calibre 577/450 MARTINI HENRY to calibre 303 BRITISH. Conversion entailed fitting a new barrel with Enfield rifling, sights and extractor, modifying the breechblock and forend, inletting a brass marking disc into the buttstock and adding a handguard behind the rear sight. The new model designation, converting agency and year of conversion are stamped on the left side of the receiver.

- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Other Markings

- The original manufacturer, model designation and year of production appear on the right side of the receiver, the name of the company which performed the conversion to the new configuration plus the new designation and year of conversion appear on the left side of the receiver. A capital letter 'E' denoting Enfield rifling appears on the Knox form of the barrel.

Remarks

- This carbine is a variation of the Martini-Enfield MARK 2 Artillery Carbine which is a conversion of existing Martini-Henry MARK 1and MARK 3 Artillery Carbines from calibre 577-450 to calibre 303 BRITISH. Conversion entailed fitting a new barrel with Enfield rifling, sights, extractor, breechblock, forend and inletting a brass marking disc into the buttstock. The new model designation, converting agency and year of conversion are stamped on the left side of the receiver. The MARK 2* Artillery Carbine differs from the MARK 2 Artillery Carbine in having no provision in the forend or nosecap for a cleaning rod.

Firearm Reference Number (FRN): 28977
Make: Martini-Enfield
Model: MARK 3 Artillery Carbine

Summary

Make:	Martini-Enfield
Model:	MARK 3 Artillery Carbine
Manufacturer:	Beardmore Engineering Company (B E Co)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
28977 - 1	303 BRITISH	1	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "M.E. .303" is usually marked on the left side of the receiver/frame.
- "M.E." is the abbreviation for Martini-Enfield.

Model

- "A.C. III." is usually marked on the right side of the receiver/frame.
- the Roman numeral "III." is the model designation for "MARK 3".
- the letters "A.C." indicates Artillery Carbine.

Manufacturer

- the Royal cypher, "B.E.Co" and the year of conversion to a Martini-Enfield are marked on the left side of the receiver/frame.
- the original markings with the Royal cypher, manufacturer's name, year of manufacture of the receiver/frame and model designation are usually marked on the right side of the receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Other Markings

- the original manufacturer, model designation and year of production appear on the right side of the receiver/frame, the name of the company which performed the conversion to the new configuration plus the new designation and year of conversion appear on the left side of the receiver/frame. A capital letter 'E' denoting Enfield rifling appears on the Knox form of the barrel.

Remarks

- this carbine is a conversion of existing Martini-Henry MARK 2 Rifles from calibre .577/450 MARTINI-HENRY to artillery carbines of calibre .303 BRITISH. Conversion entailed fitting a new barrel with Enfield rifling, sights, extractor, breechblock, forend and inletting a brass marking disc into the buttstock. The new model designation, converting agency and year of conversion are stamped on the left side of the receiver. All Martini Enfield Artillery Carbines have a bayonet mounting bar on the nosecap.

Notes

Make

- "M.E. .303" is usually marked on the left side of the receiver/frame.
- "M.E." is the abbreviation for Martini-Enfield.

Model

- "A.C. III." over an Arabic number is usually marked on the right side of the receiver/frame; eg. "A.C. III." and "1".
- the Roman numeral "III." is the model designation for "MARK 3".
- the letters "A.C." indicates Artillery Carbine.
- the Arabic number "1" indicates this is a first class weapon.

Manufacturer

- the Royal cypher, "ENFIELD" and the year of conversion to a Martini-Enfield are marked on the left side of the receiver/frame.
- the original markings with the Royal cypher, manufacturer's name, year of manufacture of the receiver/frame and model are usually marked on the right side of the receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- appears on the leaf of the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- the original manufacturer, model designation and year of production appear on the right side of the receiver, the name of the company which performed the conversion to the new configuration plus the new designation and year of conversion appear on the left side of the receiver. A capital letter 'E' denoting Enfield rifling appears on the Knox form of the barrel.

Remarks

- this carbine is a conversion of existing Martini-Henry MARK 2 Rifles from calibre .577-450 to artillery carbines of calibre .303 BRITISH. 102696 - 1	303 BRITISH	1	757	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
102696 - 2	45-70 GOVT	1	629	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "M.E. .303" may or may not be marked on either side of the receiver/frame.
- "M.E." is the abbreviation for Martini-Enfield.
- "Enfield" may or may not be marked on the receiver/frame and maybe characterized by been misspelled, reversed and/or upside down.
- "Martini-Enfield" make is determined by the firearm characteristics.

Model

- model markings may not be present on the receiver/frame or will be indicated by the chambering of 303 BRITISH calibre and/or an "E" stamped on the barrel knox-form.
- features and markings will usually contradict typical Martini-Enfield conventions as these rifles are assembled from parts of different models and/or produced to copy known British configurations by indigenous armourers.
- various British proof marks are usually replicated on the receiver/frame and barrel.
- in many instances this type of rifle is generically known as Khyber Pass Martini's or variation thereof.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- serial number rationalization unknown.
- serial number if present may be stamped on the bottom of the receiver/frame forward of the action-opening mechanism.
- observed example had a seven digit number without suffix or prefix.

Notes

Make

- "M.E. .303" is usually marked on the left side of the receiver/frame.
- "M.E." is the abbreviation for Martini-Enfield.

Model

- "Superior Quality ENGLISH Manufacture" was observed marked on the left side of the receiver/frame.
- "Superior" was observed marked on the rear of the barrel.
- this firearm has the same general appearance of a Martini-Enfield Mark I rifle.
- lever operated, rear hinged tilting breech block Martini-type action.
- this is a British "trade pattern" rifle which is typically made from or in some instances simply reworked from a former military rifle.
- features may vary greatly or follow the same general military outline.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- known example did not have a serial number marked on the receiver/frame.

Other Markings

- known example had the letter "E" on the knox form of the barrel and various British proofmarks on the receiver/frame and barrel.

1472 - 1	450 X 3 1/4" BPE	1	889	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make does not appear on the firearm. - Martini-Henry: - Actually invented by Friedrich Martini and Henry Peabody, the firearm is named after Friedrick Martini. The rifle utilises Henry patent rifling.
Model	- the model designation does not appear on the firearm. - this firearm is a manually operated, under lever, rear hinged tipping breech-block, rifle manufactured for the feasibility trials of 1869-70.
Manufacturer	- manufacturer's name and date of manufacture normally appear on right side of receiver.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- the serial number normally appears on the leaf of the rear sight.
Barrel	- the barrel utilises Henry patent rifling.
Other Markings	- manufacturer's name and date of manufacture appear on right side of receiver.
Remarks	- this firearm is a single shot, hammerless under lever operated tipping block military pattern rifle. - it was manufactured in limited quantities in 1869 for feasability trials by the British government as a possible replacement for the Snider-Enfield. - these rifle trials were successful and led to the adoption, as general issue, to the British army in 1871 of the Martini-Henry MARK 1, a modified version of the 1869 Trials Rifle.

28899 - 1	577/450 MARTINI-HENRY	1	541	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "M.H." the abbreviation for "Martini-Henry" may be marked on the left side of the receiver/frame.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- model designation is not marked on the firearm.
- the Royal cypher, manufacturer's name, year of manufacture, "I.C.1" or "I.C.2." are usually marked on the right side of the receiver/frame.
- the Roman numeral "I." is the model designation "MARK 1".
- the letter "C." is the designation for carbine.
- the Arabic number "1." indicates this is a first class weapon for first line services.
- the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training).
- main differences between the MARK 1 Artillery Carbine and Calvary Carbine was the Artillery Carbine had a bayonet lug and the Calvary Carbine did not have a bayonet lug.
- MARK 1 Carbines were manufactured between 1871 and the mid-1890's.
- MARK 1 Rifles were manufactured between 1871 and 1876.
- MARK 2 Rifle was approved in 1877.
- MARK 2 Carbine was approved in 1892.

Manufacturer

- the Royal cypher, manufacturer's name and the year of manufacture are usually marked on the right side of the receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- appears on the leaf of the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.
Other Markings	- The manufacturer's name, royal cypher of Queen Victoria (crown over V.R.), date of manufacture and model designation (I.C.1 which denotes MARK 1 Carbine, 1'st Class Issue) appears on the right side of the receiver.
Remarks	- This firearm is a manually operated, under lever, rear hinged tipping breech-block, military rifle derived from the feasibility trials of 1869-70. - This carbine is mechanically and visually identical to the Martini-Henry MARK 1 Cavalry Carbine except for the addition of a bayonet stud on the right side of the front barrel band, sling swivels and the elimination of rear sight protector cover wood screws. - This carbine utilizes Henry patent segmental rifling.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1477 - 1	577/450 MARTINI-HENRY	1	541	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "M.H." the abbreviation for "Martini-Henry" may be marked on the left side of the receiver/frame.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- model designation is not marked on the firearm.
- the Royal cypher, manufacturer's name, year of manufacture, "I.C.1" or "I.C.2." are usually marked on the right side of the receiver/frame.
- the Roman numeral "I." is the model designation "MARK 1".
- the letter "C." is the designation for carbine.
- the Arabic number "1." indicates this is a first class weapon for first line services.
- the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training).
- main differences between the MARK 1 Artillery Carbine and Calvary Carbine was the Artillery Carbine had a bayonet lug and the Calvary Carbine did not have a bayonet lug.
- MARK 1 Carbines were manufactured between 1871 and the mid-1890's.
- MARK 1 Rifles were manufactured between 1871 and 1876.
- MARK 2 Rifle was approved in 1877.
- MARK 2 Carbine was approved in 1892.

Manufacturer

- the Royal cypher, manufacturer's name and the year of manufacture are usually marked on the right side of the receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- appears on the leaf of the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.
Other Markings	- the manufacturer's name, royal cypher of Queen Victoria (crown and V.R.), date of manufacture and model designation (I.C.1 which denotes MARK 1 Carbine, 1'st Class Issue) appears on right side of the receiver.
Remarks	- This firearm is a manually operated, under lever, rear hinged tipping breech-block, military rifle derived from the feasibility trials of 1869-70. This carbine is mechanically identical to the Martini-Henry MARK 2 Rifle differing in barrel length, size of rear sight and forearm with metal cleaning rod guide at muzzle. This carbine does not take a bayonet. This carbine utilizes Henry patent segmental rifling.

- the Royal cypher, manufacturer's name, year of manufacture, the Roman numeral "II." and an Arabic number "1" or "2" are usually marked on the right side of the receiver/frame.
- the Roman numeral "II." is the model designation "MARK 2".
- the Arabic number "1." indicates this is a first class weapon for first line services.
- the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training).
- the MARK 2 Carbine pattern was approved in 1892.
- the MARK 2 Rifle pattern was approved in 1877.
- Note: some MARK 1 rifles were converted to the MARK 2 pattern and may have earlier manufacturing dates.
- the MARK 2 was manufactured from 1880 to 1890.
- features include: fixed front and ladder type adjustable rear sights; steel cleaning rod and forend cap with bayonet lug mounted on the right side; two piece straight grip stock; two barrel bands; sling swivels; steel butt plate.
- overall length with a 843mm (33.2") barrel is 1257mm (49.5").
- rifling characteristics: 7 groove, left hand twist.
- the MARK 3 Rifle pattern was approved in 1879.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the Royal cypher, "B.S.A. & M. Co" and the year of manufacturer are marked on the right side of the receiver/frame.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- appears on the leaf of the rear sight.
Calibre	- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.
Other Markings	- manufacturer's name, royal cypher of Queen Victoria (crown and V.R.), date of manufacture and model designation appear on the right side of the receiver.
Remarks	- This rifle is an improved version of the Martini-Henry MARK 1 Rifle and was adopted by the British Army in 1876. It is visually similar to the MARK 1 differing mainly in internal action details. Many Martini-Henry MARK 1 rifles were updated to MARK 2 standards and so marked on the right side of the receiver.

Make

- the make is not marked on the firearm.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- model designation is not marked on the firearm.
- the Royal cypher, manufacturer's name, year of manufacture, the Roman numeral "II." and an Arabic number "1" or "2" are usually marked on the right side of the receiver/frame.
- the Roman numeral "II." is the model designation "MARK 2".
- the Arabic number "1." indicates this is a first class weapon for first line services.
- the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training).
- the MARK 2 Carbine pattern was approved in 1892.
- the MARK 2 Rifle pattern was approved in 1877.
- Note: some MARK 1 rifles were converted to the MARK 2 pattern and may have earlier manufacturing dates.
- the MARK 2 was manufactured from 1880 to 1887.
- features include: fixed front and ladder type adjustable rear sights; steel cleaning rod and forend cap with bayonet lug mounted on the right side; two piece straight grip stock; two barrel bands; sling swivels; steel butt plate.
- overall length with a 843mm (33.2") barrel is 1257mm (49.5").
- rifling characteristics: 7 groove, right hand twist.
- the MARK 3 Rifle pattern was approved in 1879.

Manufacturer

- the Royal cypher, "L.S.A. Co" and the year of manufacture are marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- serial number is numeric and may be marked under the ladder of the rear sight.
Calibre	- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: 577/450 MARTINI-HENRY.
Other Markings	- the manufacturer's name, royal cypher of Queen Victoria (crown and V.R.), date of manufacture and the model designation appear on the right side of the receiver/frame.
Remarks	- this rifle is an improved version of the Martini-Henry MARK 1 Rifle and was adopted by the British Army in 1876. It is visually similar to the MARK 1 differing mainly in internal action details. Many Martini-Henry MARK 1 rifles were updated to MARK 2 standards and so marked on the right side of the receiver/frame.

Notes

Make

- "M.H." the abbreviation for "Martini-Henry" may be marked on the left side of the receiver/frame.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- model designation is not marked on the firearm.
- the Royal cypher, manufacturer's name, year of conversion/manufacture, letters "A.C.", Roman numeral "III." and an Arabic number "1" or "2" may be marked on the side of the receiver/frame.
- the letters "A.C." are the abbreviations for Artillery Carbine.
- the Roman numeral "III." is the model designation "MARK 3".
- the Arabic number "1." indicates this is a first class weapon for first line services.
- the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training).
- the MARK 3 Carbine pattern was approved in 1893.
- the MARK 3 Rifle pattern was approved in 1879.
- the MARK 3 was manufactured from 1881 to 1888.
- features include: fixed front and ladder type adjustable rear sights; steel cleaning rod and forend cap with bayonet lug mounted on the right side; two piece straight grip stock; two barrel bands; sling swivels; steel butt plate.
- the MARK 4 Rifle pattern was approved in 1887.

Manufacturer

- the Royal cypher, manufacturer's name and the year of manufacturer are marked on the right side of the receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- appears on the leaf of the rear sight.
Calibre	- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.
Other Markings	- original manufacturer's name, royal cypher of Queen Victoria (crown and V.R.), original date of manufacture and original model designation appear on the right side of the receiver.
Remarks	- this carbine is a conversion of Martini Henry MARK III rifles to carbine configuration in the 1890's primarily for use by cadets in military schools. - conversion entailed replacing the original rifle barrel with a carbine barrel of 544MM and either shortening the rifle forearm or fitting a new carbine forearm.

Notes

Make

- "M.H." the abbreviation for "Martini-Henry" may be marked on the left side of the receiver/frame.
- the Martini-Henry action was designed by a Swiss engineer, Freidrich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is not marked on the firearm. - the Royal cypher, manufacturer's name, year of manufacture, Roman numeral "IV." and an Arabic number "1" or "2" are marked on the right side of the receiver/frame. - the Roman numeral "IV." is the model designation "MARK 4". - the Arabic number "1." indicates this is a first class weapon for first line services. - the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training). - the MARK 4 Rifle pattern was approved in 1887. - the MARK 4 was manufactured from 1887 to 1889. - features include: fixed front and ladder type adjustable rear sights; steel cleaning rod and forend cap with bayonet lug mounted on the right side; two piece straight grip stock; two barrel bands; sling swivels; steel butt plate.
Manufacturer	- the Royal cypher, "ENFIELD" and the year of manufacture are marked on the right side of the receiver/frame.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- marked on the leaf of the rear sight.
Calibre	- the 577/450 calibre cartridge is a British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: 577/450 MARTINI-HENRY. - as an experiment, small numbers of Martini-Henry, Mark 4 Rifles were chambered for the 45 Gardner Gatling Nordenfeldt cartridge. Trial rifles produced for the School of Musketry first utilized an annular bushing in a reamed-out chamber during 1881. Later production by Enfield utilized a purpose-chambered barrel for this cartridge. The Mark 4 pattern was sealed on 1 October 1881. However, the project was cancelled in mid-January 1882. Approximately 40 rifles were built using modified bushed chambers, with a further 100 produced by RSAF (E).
Other Markings	- the manufacturer's name, royal cypher or Queen Victoria (crown and V.R.), date of manufacture and the model designation are marked on the right side of the receiver/frame.
Remarks	- this rifle is mechanically identical to Martini-Henry MARK 3 Rifle but visually distinctive by its pronounced shoulder at the rear of the receiver/frame and by its extremely long action operating lever.

Notes

Make

- "M.H." the abbreviation for "Martini-Henry" may be marked on the left side of the receiver/frame.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini. The Martini action has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- model designation is not marked on the firearm.
- the Royal cypher, manufacturer's name, year of manufacture, Roman numeral "V." and an Arabic number "1" or "2" are marked on the right side of the receiver/frame.
- the Roman numeral "V." is the model designation "MARK 5".
- the Arabic number "1." indicates this is a first class weapon for first line services.
- the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training).
- this is a Martini-Henry MARK 3 that was converted to 303 BRITISH and redesignated the Martini-Henry MARK 5.
- features include: fixed front and ladder type adjustable rear sights; steel cleaning rod and forend cap with bayonet lug mounted on the right side; two piece straight grip stock; two barrel bands; sling swivels; steel butt plate.
- the Martini-Henry MARK 5 rifle was redesignated the "Martini-Metford MARK 1" in 1891.

Manufacturer

- the Royal cypher, "B.S A. & M. Co." and the year of manufacturer are marked on the right side of the receiver/frame.
- "B.S.A. & M. Co." is the abbreviation for "Birmingham Small Arms & Metal Company".

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- serial number is marked on the front face of the receiver/frame, under the wooden forend and may be repeated on the top of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- markings on the right side of the receiver/frame:
1. Royal Cypher: (Queen's crown)
V. R
2. Manufacturer's Code: B.S.A. & M. Co.
3. Year of Manufacturer: 1889
4. Lock Viewer's Mark: (Crown on an arrow)
5. Model designation: VI.

71369 - 10	577/450 MARTINI-HENRY	1	643	Antique AFR, Section 1, para. 3	Non-Commercial Customization	

Notes

Make

- Martini-Henry does not appear on the firearm.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- this is a Martini-Henry single-shot rifle that has been converted to sporting configuration.
- this record is ONLY for those rifles where it is not possible to determine the original manufacturer of the receiver/frame.
- these rifles were converted to sporting configuration from any one of several marks of original military Martini-Henrys, and may still bear evidence of their original "as-issued" pattern.
- this type of Martini-Henry sporting rifle could have been manufactured circa early 1870's to the late 1890's.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- may or may not have a serial number; many of these rifles will have had all of their original markings removed when they were converted to sporting configuration.

Calibre

- The most common calibre for these sporting rifles is 577/450 Martini but other calibres are known to exist.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Remarks

- This firearm is a manually operated, under lever, rear hinged tipping breech-block, sporting rifle.
- This rifle was adopted by the British Army as general issue in 1871.
- sporting rifle built on a commercial Martini action.
- A wide variation of styles and features is possible (deluxe wood, checkered wrist and forearm, express sights, engraving, ebony forend tip, precious metal inlays, butt plate trap, ribbed barrel, sling studs etc.).

Firearm Reference Number (FRN): 71371
Make: Martini-Henry
Model: Trade Pattern Military Rifle

Summary

Make:	Martini-Henry
Model:	Trade Pattern Military Rifle
Manufacturer:	Westley Richards & Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
71371 - 1	577/450 MARTINI-HENRY	1	843	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
71371 - 2	577/450 MARTINI-HENRY	1	843	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make does not appear on the firearm.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- this firearm is similar to the standard British War Department issue, Martini-Henry rifles, except for the lack of British War Department property markings and date.
- commercial rifles may have better quality wood stocks, checkering at the wrist and forearm, and perhaps some decorative engraving on the breech-block.
- this type of rifle was offered for sale to any individual or group who wanted a rifle approximating the British service arm.
- at least two versions were offered, one advertised for target practice, and the other one less expensive advertised as "Government quality", both were offered with Martini rifling, or Metford rifling at extra cost.
- no model name is marked on this firearm; the model name is derived from the action design and the civilian market for which the gun was intended.
- this type of firearm would have been produced circa 1870's to the mid-late 1890's.

Manufacturer

- manufacturer's name appears on the right side of the receiver as:
"WESTLEY RICHARDS & CO"
"LONDON"

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- appears on the leaf of the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada. ddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddd
Other Markings	- manufacturer's name, and year of manufacture within a triangle, appear on the right side of the receiver.
Remarks	- this firearm is a manually operated, under lever, rear hinged tipping breech-block, military type rifle derived from the feasibility trials of 1869-70. This rifle was adopted by the British Army as general issue in 1871.

72193 - 1	577/450 MARTINI-HENRY	1	845	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Martini-Henry" does not appear on the firearm.
- "HENRY RIFLING" may be marked on the barrel, behind the rear sight.
- action is of Martini's under lever operated tipping block design.
- barrel has Henry type rifling.

Model

- "MADE SPECIFICALLY FOR ZAR" is marked on the right side of the receiver/frame.
- contracted from Westley Richards in England during the 1890's by the government of the Zuid Afrikaans Republiks (South African Republic).
- utilizes an improved Martini under lever operated tipping block action similar to the British government issue Martini Henry rifles, differs in profile by having a more round hump at the rear of the receiver and having the feature of a quick removable lock mechanism (by turning two slotted knurled screws, one on each side of the lower front end of the receiver).
- two piece stock of military pattern, two barrel bands, cleaning rod mounted under barrel.
- barley corn front, adjustable for elevation military rear sight.

Manufacturer

- "WESTLEY RICHARDS & Co" appears on the left side of the receiver/frame along with the Westley Richards logo (a triangle).
- "WESTLEY RICHARDS & Co" also appears on top of the barrel.
- the top of the chamber of the barrel is marked with the company logo triangle in which is stamped the year of manufacture.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- serial number is usually marked on the left front side of the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.

FRT Report

Firearm Reference Number (FRN): 1501
Make: Martini-Metford
Model: MARK 1 Cavalry Carbine

Summary

Make:	Martini-Metford
Model:	MARK 1 Cavalry Carbine
Manufacturer:	Henry Rifle Barrel Company (HRB)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1501 - 1	303 BRITISH	1	546	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "M.M. 303" is marked on the left side of the receiver/frame. - "M.M." is the abbreviation for "Martini-Metford".
Model	- the model designation appears on the left side of the receiver/frame as "I".
Manufacturer	- the Royal cypher, "H.R.B. Co." and the year of conversion to a Martini-Metford are marked on the left side of the receiver/frame. - the original markings with the Royal cypher, manufacturer's name, year of manufacture of the receiver/frame and model are usually marked on the right side of the receiver/frame. - "H.R.B. Co." is the abbreviation for the "Henry Rifle Barrel Company.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Other Markings	- the original manufacturer, model designation and year of production appear on the right side of the receiver/frame, the name of the company which performed the conversion to the new configuration plus the new designation and year of conversion appear on the left side of the receiver/frame.
Remarks	- this carbine is a conversion of existing Martini Henry Cavalry Carbines from calibre .577-450 to calibre .303 BRITISH. - conversion entailed fitting a new barrel with Metford patent rifling, breechblock, extractor, sights and modifying the nosecap of the forearm. The new model designation, contractor and year of conversion were stamped on the left side of the receiver/frame.

Firearm Reference Number (FRN): 1486
Make: Martini-Metford
Model: MARK 1 Rifle

Summary

Make:	Martini-Metford
Model:	MARK 1 Rifle
Manufacturer:	Birmingham Small Arms (BSA)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1486 - 1	303 BRITISH	1	515	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
1486 - 2	303 BRITISH	1	843	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "M.M. 303" is marked on the left side of the receiver/frame. - "M.M." is the abbreviation for "Martini-Metford".
Model	- appears on the right side of the receiver as "V" or "I" (see REMARKS).
Manufacturer	- the Royal cypher, manufacturer's name and the year of conversion to a Martini-Metford are marked on the left side of the receiver/frame. - the original markings with the Royal cypher, manufacturer's name, year of manufacture of the receiver/frame and model are usually marked on the right side of the receiver/frame.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Other Markings	- manufacturer's name, cypher of Queen Victoria (crown and V.R.), date of manufacture (or conversion) and model designation appear on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this rifle is a conversion of an existing Martini Henry MARK 3 rifles to 303 BRITISH calibre using a barrel with Metford patent rifling.
- initially designated Martini Henry MARK 5 Rifle but in 1891 this designation was changed to Martini Metford MARK 1 Rifle.
- conforms in virtually all respects to the Martini Henry MARK 3 Rifle except for the addition of a bayonet bar on the nosecap and modification to or replacement of those parts necessary to accommodate the 303 BRITISH cartridge.
- some Martini Metford MARK 1 rifles were newly manufactured arms and as such bear the model designation "I" on the right side of receiver/frame as opposed to the model designation "V" on the right side of the receiver/frame of converted arms.

Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- appears on the leaf of the rear sight.
Other Markings	- the original manufacturer, model designation and year of production appear on the right side of the receiver, the name of the company which performed the conversion to the new configuration plus the new designation and year of conversion appear on the left side of the receiver.
Remarks	- this carbine is a conversion of existing Martini-Henry MARK 1 Artillery Carbines from calibre .577-450 to calibre .303 BRITISH. Conversion entailed fitting a new barrel with Metford patent rifling, breechblock, extractor, sights and modifying the nosecap of the forearm. The new model designation, contractor and year of conversion were stamped on the left side of the receiver. The Martini Metford Cavalry Carbine MARK II* differs from the Martini Metford Cavalry Carbine MARK II by having front sight protection ears.

102675 - 2	45-70 GOVT	1	845	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "M.M. 303" is marked on the left side of the receiver/frame.
- "M.M." is the abbreviation for "Martini-Metford".

Model

- this rifle is derived from a Martini pattern action and is documented as having been converted from a number of different Martini-Henry and/or Martini-Metford model series rifles to roughly Martini-Metford MARK 3 series configuration.
- markings are on the left side of the receiver/frame and consist of a crescent moon facing upward with a five pointed star between the crescent ends, below which is stamped "CITADEL," below which is the date of conversion/manufacture.
- typically the original model designation and manufacturer marks have been obliterated; British proofs, inspector marks, or part assembly numbers may remain on the firearm.
- features include: a Metford or Enfield barrel; Martini falling block action; cocked action indicator; extended action opening lever; wood stock.

Manufacturer

- "CITADEL" over the year of conversion/manufacturer is marked on the left side of the receiver/frame.
- the Citadel Armory was located in Cairo, Egypt.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - marked on the bottom of the receiver/frame forward of the action-opening assembly.

Firearm Reference Number (FRN): 71374
Make: Martini-Metford
Model: Trade Pattern Military Rifle

Summary

Make:	Martini-Metford
Model:	Trade Pattern Military Rifle
Manufacturer:	Westley Richards & Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
71374 - 2	303 BRITISH	1	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
71374 - 1	303 BRITISH	1	843	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make does not appear on the firearm.

Model

- this firearm is similar to the standard British War Department issue, Martini-Metford rifles, except for the lack of British War Department property markings and date.
- commercial rifles may have better quality wood stocks, checkering at the wrist and forearm, and perhaps some decorative engraving on the breech-block.
- at least two versions were offered, one advertised for target practice, and so marked on the barrel "SPECIAL TARGET RIFLE", fitted with a handguard on top of barrel, the other one less expensive advertised as "plain quality" and without a handguard.

Manufacturer

- "WESTLEY RICHARDS & CO 'LONDON" may be marked on the right side of the receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Barrel

- Metford Patent rifling

Other Markings

- the manufacturer's name,and year of manufacture within a triangle appear on the right side of the receiver.

Remarks

- this rifle is not a conversion of an existing rifle but is a newly manufactured utilizing Metford patent rifling. It conforms in virtually all respects to the Martini-Henry MARK 2 Rifle except as to calibre and those parts necessary to accommodate the .303 BRITISH cartridge.

FRT Report

Firearm Reference Number (FRN): 2493
Make: MAS
Model: 1917 FA RSC

Summary

Make:	MAS
Model:	1917 FA RSC
Manufacturer:	Manufacture d'Armes de St-Etienne (MAS)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2493 - 1	8X50R LEBEL	5	800	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAS" is the abbreviation for "Manufacture d'Armes Saint Etienne".
- Manufacture d'Armes de St. Etienne (MAS) was the primary assembler of this model, parts were supplied by Manufacture d'Armes de Chatellerault (MAC), Manufacture d'Armes de St. Etienne (MAS), Manufacture d'Arms Tulle (MAT), and Manufacturer d'Armes de Paris.

Model

- "Mle 1917" is marked on the left side of the firearm.
- the letters FA RSC in the model designation stand for: Fusil Automatique, Ribeyrolle, Sutter, Chauchat.
- features include: two piece stock, rounded magazine housing, bayonet lug, safety mounted on the left of the receiver/frame, manually operated hold-open lever / device, prominent operating slide and retracting handle on the bolt.

Manufacturer

- "Manufactures Nationales" over "MAS" is marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- appears on the side of the receiver and or the breech of the barrel, usually has a one or more script letter prefix.
- serial number rationalization unknown.

Shots

- non detachable, internal magazine.

Remarks

- this is a gas operated autoloading military rifle adopted by the French army in 1917. While the design was sound the manufacture of the rifle was handicapped by the use of many stamped parts which required much hand fitting. The resultant rifle was unreliable and extremely unpopular with the troops to whom it was issued.

FRT Report

Firearm Reference Number (FRN): 2494
Make: MAS
Model: 1918 FA RSC

Summary

Make:	MAS
Model:	1918 FA RSC
Manufacturer:	Manufacture d'Armes de St-Etienne (MAS)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2494 - 1	8X50R LEBEL	5	586	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "MAS" is the abbreviation for "Manufacture d'Armes Saint Etienne". - Manufacture d'Armes de St. Etienne (MAS) was the assembler of this model, parts were supplied by Manufacture d'Armes de Chatellerault (MAC), Manufacture d'Armes de St. Etienne (MAS), Manufacture d'Arms Tulle (MAT), and Manufacturer d'Armes de Paris.
Model	- the model designation appears on the left side of the receiver. 'FA RSC' means Fusil Automatique, Ribeyrolle, Sutter, Chauchat.
Manufacturer	- "Manufactures Nationale" over "MA. S" is marked on the left side of the receiver/frame.
Serial Number	- appears on the side of the receiver and or the breech of the barrel, usually has a one or more script letter prefix.
Other Markings	- model designation and name of arsenal on left side of receiver.
Remarks	- This is an improved version of the original St. Etienne 1917 F A R S C semi-auto loading rifle in which many of the shortcomings of the earlier rifle were addressed. The resultant rifle was in fact but little improved and, like the Model 1917, was unreliable and unpopular with the troops. The letters FA RSC in the model designation stand for: Fusil Automatique, Ribeyrolle, Sutter, Chauchat.

Firearm Reference Number (FRN): 121779
Make: MAS
Model: 1918/21

Summary

Make:	MAS
Model:	1918/21
Manufacturer:	Manufacture d'Armes de St-Etienne (MAS)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121779 - 1	30-06 SPRG	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
121779 - 2	7.5X58 FRENCH	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make designation is marked on the firearm as, "MAS".

Model

- the model designation is marked on the firearm as "Md 1918-21".
- this was a limited-production MAS rifle produced as a consequence of the French small-arms trials of 1921, in which the French military was searching for a new semi-automatic rifle for general issue to its troops; ostensibly, this rifle was a refinement of the earlier 1917 and 1918 RSC rifles, but was actually an entirely new design.
- features include: three-piece stock (butt, forearm and upper hand guard); knurled receiver cap; sliding adjustable rear sight; cocking handle on the right side of bolt; rotating bolt-head; rotating safety lever on the left side of the receiver/frame; and a reversible bayonet carried in a tube under the muzzle.
- after testing disclosed a number of weaknesses in this design, it was dropped.

Manufacturer

- the manufacturer' designation, logo, or acronym thereof is marked on the firearm.

Action

- gas-operated.

Serial Number

- numbered on the receiver/frame.

Shots

- stripper-clip fed internal box magazine.

122662 - 2	9MM LUGER	32	226	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a conventionally-styled first-generation submachine gun developed at the St. Etienne Arsenal during the mid-1920s; France had just come through the First World War without any sort of submachine gun, and had seen first-hand the effectiveness of the German MP18, so a number of design teams had been ordered to produce a French equivalent. The STA 1924 ("Section Technique de l'Artillerie Mle 1924") was the result of one of these attempts, being essentially a re-worked MP18 without a barrel shroud and with a folding bipod and a vertical magazine well. Although this design worked very well, adopting it would have necessitated an additional calibre for the French military (9mm Luger), so the design was shelved in favour of the MAS 1938, a submachine gun chambered for the 7.65 French Long pistol cartridge.
- though the design was never adopted by the French, large numbers were made and shipped to French holdings in North Africa, where they were used to equip colonial forces.
- features include: wooden pistol-grip stock with sling swivel mount inletted in the left side of the butt; open adjustable sights; blued finish on metal surfaces; folding bipod mounted at the muzzle; vertical magazine well; and forward sling mounting ring above the magazine-release button.

Manufacturer

- the manufacturer, logo, or acronym thereof is marked on the firearm.

Action

- blowback operated.

Serial Number

- numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

121782 - 2	7.5X58 FRENCH	10	610	Prohibited PFR, Part 1, para. 220	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make designation is marked on the left side of the receiver/frame as, "M.A.S."

Model

- Introduced in 1928.
- May also be known as "an experimental firearm".
- the model designation is marked on the left side of the receiver/frame as "Mle 1928".
- this was a short-lived MAS rifle submitted for possible adoption by the French military.
- features include: tilting bolt; gas-operated; open adjustable sights; walnut stock with upper hand guard; a small "grip safety" lever behind the trigger-guard; and an overall resemblance to the Tokarev SVT40 (without a muzzle brake or forward sheet-metal hand guard).

Manufacturer

- the manufacturer's designation is marked on the left side of the receiver/frame as, "M.A.S."

Action

- gas-operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Shots

- Introduced in 1928 with 10 shot capacity, magazine.
- Detachable box magazine.

Notes

Make

- the make designation, acronym, or logo thereof is marked on the firearm.

Model

- the model designation is marked on the firearm as "MAS Mle 1928-31".
- this is a later refinement of the MAS 1928, built for the 1931 "Concours" trials to determine the best possible semi-automatic rifle for issue to the French military.
- features include: gas-operated, with tipping block bolt; one-piece walnut pistol-grip stock and hand guard; sling swivels; open adjustable sights; internal box magazine with hinged floor plate; and a reversible tube-handled bayonet stored in the stock under the muzzle.

Manufacturer

- the manufacturer's designation, acronym, or logo thereof is marked on the firearm.

Action

- gas-operated.

Serial Number

- the serial number is marked on the receiver/frame.

Shots

- internal box magazine.

Notes

Make

- "MAS" is marked on the left side of the slide.
- "MAS" is the abbreviation for Manufacture d'Armes de St-Etienne.

Model

- introduced by Manufacture d'Armes de St-Etienne (MAS) in 1935 for French military service pistol trials and officially adopted in 1937.
- "1935S" is marked on the right side of the slide.
- "S" denotes the arsenal that designed the firearm, Manufacture d'Armes de St-Etienne (MAS).
- early samples of the 1935S were simply marked with the model designation "1935S", when a safety modification was implemented an "M1" marking was added to the right of the model designation.
- as all SAGEM pistols were produced after the modification, all have the designation "M1" marked on the right side.
- features include:curved backstrap; manual safety; lanyard ring; external hammer; fixed sights;checkered grips;semi-beavertail grip; barrel protrudes from the slide.

Manufacturer

- "MAS" is marked on the left side of the slide.
- "MAS" is the abbreviation for Manufacture d'Armes de St-Etienne.

Action

- recoil operated.

Serial Number

- 1 through 2569 - no script letter prefix.
- F1 through F4117 - F prefix is in script
- script letter F resembles a J.

Calibre

- "CAL. 7.65 L" is marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Canadian Law Comments - Handguns chambered for the cartridge 7.65MM FRENCH LONG, also known as 32 FRENCH LONG, 7.65MM LONG AND 7.65MM MAS, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:
"prohibited firearm" means
(a) a handgun that
(ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

Firearm Reference Number (FRN): 127478
Make: MAS
Model: 1936 LG 48

Summary

Make:	MAS
Model:	1936 LG 48
Manufacturer:	Manufacture d'Armes de St-Etienne (MAS)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127478 - 1	7.5X54 FRENCH MAS	5	575	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "MAS" is marked on the left side of the receiver/frame.
Model	- "MAS Mle 1936" is marked on the left side of the receiver/frame. - this rifle was adopted by the French government in 1936 as a replacement for the 1886/93 Lebel and Mannlicher Berthier rifles and was subsequently modified to accept the 1948-type grenade launcher muzzle attachment. - features include: folding sight arm mounted on the side of the nose cap; separate butt stock and forearm; quadrangular bayonet stored in metal tube in forearm; bolt handle has "dog leg" forward bend; aperture sight on rear of receiver/frame.
Manufacturer	- the abbreviation for the manufacturer, "MAS", is marked on the left side of the receiver/frame.
Action	- turn-bolt design.
Serial Number	- serial number is usually marked on the left side of the receiver/frame and may also be repeated on the bottom of the trigger guard, bottom of the magazine floor plate, the forestock and the buttstock. - serial number of an observed example consisted of a two letter prefix (FH) and five numbers.
Shots	- internal box magazine.

Notes

Make
- the make designation is marked on the left side of the receiver/frame as, "MAS".

Model
- the model designation is marked on the left side of the receiver/frame as "1938-39".
- this was the immediate pre-production trials version of the MAS 1940, the gas-operated rifle that would eventually become the MAS 44.
- although adopted, widespread production of this rifle did not take place until after the war.
- features include: three-piece wooden furniture (butt, forearm, and upper handguard); charger guide on the forward edge of the bolt carrier; open, sliding adjustable aperture rear sight with post front sight; knurled round cocking handle on right side of the bolt carrier; tilting bolt; and a reversible tubular-handle bayonet stored in the forearm under the muzzle.

Manufacturer
- the manufacturer's designation is marked on the left side of the receiver/frame as, "MAS".

Action
- gas-operated.

Serial Number
- the serial number is marked on the left side of the receiver/frame above the magazine well.

Calibre
- the calibre designation is marked on the left side of the receiver/frame as "CAL. 7.5"

Shots
- internal box magazine with hinged floor plate.

Notes

Make

- the make designation is marked on the left side of the receiver/frame as, "MAS".

Model

- Introduced in 1940.
- the model designation is marked on the left side of the receiver/frame as "MAS Mle 1940".
- features include: three-piece wooden furniture (butt, forearm, and upper hand guard); charger guide on the forward edge of the bolt carrier; open, sliding adjustable aperture rear sight with post front sight; knurled round cocking handle on right side of the bolt carrier; tilting bolt; and a reversible tubular-handle bayonet stored in the forearm under the muzzle.

Manufacturer

- the manufacturer's designation is marked on the left side of the receiver/frame as, "MAS".

Action

- gas-operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame above the magazine well.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the left side of the receiver/frame as "CAL. 7.5"
Shots	- internal box magazine with hinged floor plate. - some versions of this rifle are reported to have been modified for the Chatellerault 1924/29 magazine, in both 10 and 25 round capacities.
Remarks	- This version was deemed "experimental" and produced in very limited numbers (approximately 50). - this is the rifle that would have become the primary-issue rifle of the French military during 1940, had not the invasion of France intervened; as it was, this rifle was approved and adopted (and eventually formed the basis for the MAS 1944) but did not see any widespread production.

54185 - 2	7.5X54 FRENCH MAS	10	581	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAS" is the acronym for "Manufacture d'Armes de St-Etienne" or "Manufacture Nationale d'Armes de St-Etienne".

Model

- Introduced in 1945.
- "MAS Mle 1944" is marked on the left side of the receiver/frame.
- the model 1944 was the next evolution of the semi-autromatic rifle being designed for use by French troops. It is an updated version of the MAS model 1940 rifle that was made in limited quantities for troop trials.
- officially adopted as the model 1944 on January 11, 1945, only about 6200 were produced.
- the model 1944 was made in four different variations;

1) basic model 1944; features include: plain receiver/frame (no groove for telescopic sight); rear sight mounted on the receiver/frame; two piece stock, aluminum (on prototypes) or white plastic (all regular production) bolt knob; detachable bayonet stored under barrel in the forearm; no grenade launcher.
2) model 1944A; this was an updated version intended to correct perceived deficiencies of the original design. Identifying features include: integral grenade launcher; rubber buttplate; rear sight mounted on the receiver/frame; elimination of the bayonet; and a groove on the left side of the receiver/frame to accommodate a telescopic sight mount. Specifications for a folding stock for use by alpine troops were also detailed but it is unknown if any were produced.
3) model 1944B; features include: same basic design as previous versions but with an adjustable rear peep sight mounted at the rear of the barrel. This version uses a detachable sleeve to launch grenades.
4) model 1944C; similar to the model 1944 but with a different trigger guard attachment method and a different receiver/frame cover.

- the model 1944 became the basis for the upgraded M1949 rifle used extensively by the French Army.

Manufacturer

- manufacturer is marked as "MAS" on left side of receiver.
- Manufacture d'Armes de St-Etienne is one of several manufacturers that supplies small arms to the French government.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is usually marked on the left side of the receiver/frame and may incorporate an alpha prefix.
Shots	- detachable box magazine.
Remarks	- This version was produced in limited numbers.

Notes

Make - "MAS" is the acronym for "Manufacture d'Armes de St-Etienne" or "Manufacture Nationale d'Armes de St-Etienne".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Introduced in 1949. - the model 1949 is basically a modernized version of the MAS model 1944. The model 1949 was adopted on July 12, 1949. - it is reported that a total of only 20,000 were manufactured for the French army and navy. - features include: phosphate finish; two piece stock; white plastic bolt knob; no provision for a bayonet (except on those built for Syria); built in grenade launcher and sight. - Syria ordered 6000 MAS 1949 rifles equipped with an upper band similar to the one used on the MAS model 1936 equipped with a grenade launcher. The forestock was hollowed out to accept a MAS model 1936 bayonet (either attached point forward or stored reversed in the forend). - France experimented with a calibre 30-06 SPRG version that utilized a longer receiver/frame to accommodate the cartridge. At least four variants were made, one had no provision for launching a grenade, and the remainder featured different grenade launching mechanisms and/or sights. - a folding stock version was also produced as the model 1949 CR (crosse rabattable). This version used an underfolding cast aluminum buttstock, and had a shorter barrel with no grenade launching capability. At least one sample of this version was built with the long receiver/frame in calibre 30-06 SPRG. - at least one model 1949 was built as a "Hunting Carbine" to explore the feasibility of producing a sporting style arm. - the model 1949 was superceded by the model 1949/56.
Manufacturer	- the manufacturer is marked on the receiver/frame as "MAS". - Manufacture d'Armes de St-Etienne is one of several manufacturers that supplies small arms to the French government.
Action	- gas operated.
Serial Number	- marked on the left side of the receiver/frame, usually incorporates a letter prefix followed by sequential numbers.
Calibre	- the calibre designation is usually marked on the left side of the receiver/frame as "CAL 7.5". - some experimental versions were chambered in calibre 30-06 SPRG (metric designation 7.62 X 63MM), these were produced before the current 7.62MM NATO cartridge was so designated, the calibre designation is usually marked as "CAL. 7.62" on those examples. - a prototype of a MAS 49 "Hunting Carbine" in calibre 7MM MAUSER was also built.
Shots	- detachable box magazine.
Other Markings	- the top of the barrel, towards the breech end will usually be marked with the manufacturer, year of manufacture and the code of the firm that supplied the steel. example: MAS - 1953 - FY
Remarks	- accessories that were issued to troops that may be found on individual rifles include; a) Night Sighting Device; this device is a conical sleeve that attaches to the end of the barrel and acts as a flash suppressor, it is also equipped with a front and rear sight that are phosphorescent. b) Rope Launcher; used by the French navy, uses a threaded rod fired by a bulletless cartridge. c) Telescopic Sight model 1953; built by the firm of Puteaux Works, this sight mounts to grooves on the left side of the receiver/frame. this sight was intended for precision shooting out to 600 meters.

Make - marked as "MAS" on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Introduced in 1956. - 275,240 units manufactured between 1956 and 1978. - model designation marked on left side of the receiver/frame as, "MLE 1949-56" - features include: - two piece wood stock; - usually fitted with a white plastic bolt knob; - recognizable by the grooved barrel which extends approx 200MM beyond the short forearm and by an in-line folding "trestle" type auxiliary grenade launching sight; - may be fitted with rubber buttstock extension/recoil pad; - removable box magazine; - rear peep sight mounted on the rear of the receiver is adjustable for coarse elevation (range) changes and fine windage adjustment; - post foresight is adjustable for fine elevation changes; - integral scope mounting grooves on the left side of the receiver/frame; - this firearm is a derivative of the MAS 1944 and MAS 1949.
Manufacturer	- marked on left side of receiver/frame as "MAS".
Action	- gas operated.
Serial Number	- marked on the left side of the receiver/frame. - serial number rationalization for this model breaks down as follows: - 100,000 produced numbered between F001 and F100000; - 100,000 produced numbered between G001 and G100000; - 75.240 produced numbered between H001 and H75240. - additionally, some examples may be encountered with "X"-ed out serial numbers. These rifles were modified by the French military for demonstration purposes and were de-activated to French military standard.
Calibre	- marked on left side of receiver/frame as "CAL. 7.5" or as "CAL. 7.62N" as appropriate.
Shots	- removable box magazine. - factory magazines were altered to hold only two of the 30-284 WIN WILDCAT cartridges.
Remarks	- with few exceptions French citizens are not allowed to own firearms that chamber military cartridges, as such a version of this rifle was made for French domestic sales in a "Wildcat" cartridge that used a 284 WIN case necked up to .30 calibre.

Notes

Make

- marked as "MAS" on the left side of the receiver/frame.

Model

- three thousand of this special target version of the model "1949/56" were ordered circa 1968, it is reported that only 900 were delivered.
- the "MSE" in the model designation denotes "Modified, St Etienne"
- these rifles were built on existing 1949/56 models or newly produced receiver/frames.
- features include:
- two piece wood buttstock with pistol grip and cheekpiece;
- usually fitted with a white plastic bolt knob;
- recognizable by the grooved barrel which extends approximately 200mm beyond the short forearm and by an in-line folding "trestle" type auxiliary grenade launching sight;
- may be fitted with rubber buttstock extension/recoil pad;
- removable box magazine;
- rear peep sight mounted on the rear of the receiver is adjustable for fine elevation (range) changes and fine windage adjustment;
- post foresight is adjustable for fine elevation changes;
- integral scope mounting grooves on the left side of the receiver/frame.

Manufacturer

- marked on left side of the receiver/frame as "MAS".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.

Notes

Model

- model designation is marked on the slide.
- after World War Two the French army was looking to replce the model 1935. They wanted a larger calibre so development work was done to redesign the previous model to accept the 9MM LUGER cartridge and the grip was lengthened to take a nine shot magazine.
- production ceased by 1960.

Manufacturer

- "MAS" is marked on the slide.

Action

- recoil operated.

Serial Number

- serial number marked on the right side of the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- marked as "MAS" within a circle on the barrel.

Model

- the model designation is marked as "Mod. 45" or "Mod 45" on the top of the barrel.
- features include: round barrel that is pressed and pinned into the receiver/frame; large, open top ejection port; bolt release located on the left rear side of the receiver/frame; wing type safety on the bolt; detachable box magazine; ramped front sight with quick change sight blade and shroud, tangent rear sight located on the top of the receiver/frame bridge; one piece pistol grip stock with sling swivels.
- manufactured from August 1945 to the end of June 1946 by Mauser-Werke at Oberndorf, Germany as the "Mauser Model 45".
- the production for this firearm was transferred to France in 1946.

Manufacturer

- "MAS" is the abbreviation for Manufacture d'Armes de St-Etienne.
- "ST ETIENNE" may also be marked on the barrel.
- unfinished Mauser produced parts were assembled into complete firearms by Manufacture d'Armes de St-Etienne (MAS), as such some firearms may bear Mauser and MAS markings.

Action

- turn-bolt operated.

Serial Number

- serial number is usually located on the rear right side of the receiver/frame.
- serial number usually has the letter prefix "F".

Calibre

- "Cal. .22 long rifle" may be marked on the barrel.

Shots

- detachable box magazine.

Notes

Make

- "FA MAS" marked on the right side of the receiver/frame on the magazine housing.
- FA MAS denotes: Fusil Automatique, Manufacture d'Armes de Sainte-Etienne.
- usually abbreviated to MAS.

Model

- this is the original FAMAS (Fusil Automatique, Manufacture d'Armes de Saint-Etienne) rifle made for use by the French military. Also known as the "FAMAS F1".
- the right side of the magazine well is usually marked "FA MAS 5.56 F1".
- FAMAS prototypes were introduced in 1973, production began in 1979 and continued to 1994. In 1994/5 the original FAMAS rifle was replaced by an updated version capable of using NATO standard magazines and a new "whole hand" pistol grip/trigger guard assembly. This new version was designated "FAMAS G2".
- the FAMAS model line is in "bull-pup" configuration whereby the stock (in this case several separate components that make up the stock assembly) places the trigger ahead of the action. The FAMAS is also readily altered from right side ejection to left side ejection.
- features include: select fire (full, semi and 3-shot burst) capability; polymer butt with reversible cheek piece; bipod; ambidextrous cocking handle located within the integral carrying handle; upper hand-guard includes the carrying handle which also serves as the sight channel and protector for the front sight and an elevation adjustable rear sight; trigger, trigger guard and pistol grip are mounted on the forestock; grenade launcher.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "FA MAS" marked on the right side of the receiver/frame on the magazine housing. - FAMAS denotes: Fusil Automatique, Manufacture d'Armes de Sainte-Etienne.
Action	- delayed blowback operation, no longer capable of full automatic fire.
Serial Number	- serial number located on the right side of the magazine housing.
Calibre	- the calibre is usually marked on the right side of the magazine well as part of the manufacturer/model designation "FA MAS 5.56 F1".
Shots	- detachable box magazine.
Canadian Law Comments	- this model is equipped with an assembly of parts known as a "bull-pup" stock which, in Canada, is a Prohibited Device as described in PDR, Part 4, para. 2.

- marked on the left side of the receiver/frame as "MAS".

Model

- FR-F2 stands for Fusil a Repetition F2.
- this model is a re-design of the MAS-36, first intended as a target rifle and later used to serve as a snipers rifle.
- features include: half length plastic covered metal forend, a barrel cover, folding bipod, buttstock with cheekpiece and pistol grip, flash hider and designed for use with optical sights.
- reported to have been introduced between 1984.
- a similar model, designated the "FR-F1" with a wood forend and different bipod was also available.

Manufacturer

- manufacturer is marked on the left side of the receiver/frame as "MAS".
- MAS is part of GIAT a French Government owned conglomerate (Groupement Industriel des Armements Terrestres).

Action

- bolt has cocking handle on right.

Serial Number

- normally marked on the left side of the receiver/frame.

Shots

- detachable box magazine.

Make	- the make is marked on the firearm as "A. Masereel Liege".
Model	- the model is not marked on the firearm. - this is a Belgian-made copy of the Colt 1851 Navy revolver, made by Antoine Masereel up to the 1890s, and commonly called the "Brooklyn Bridge" model because of the roll-marked engraving on the cylinder. - features include: typical 1851 Navy appearance and operation; blued or nickel-plated finish; hexagonal barrel; fixed open sights; under-barrel loading lever; 5- or 6-shot cylinder; cylinder engraving of a sailing ship with the Brooklyn Bridge in the background; single-action mechanism; noticeably curved trigger, in relation to the Colt original; walnut grip plates.
Manufacturer	- the manufacturer is marked on the firearm as "A. Masereel Liege".
Serial Number	- serial number marked on the receiver/frame.

135958 - 1	45 FLINTLOCK	1	242	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	

Notes

Make

- "M M" over "MASLIN" over "WARRANTED" was observed marked on the sidelock of an example.
- Michael M. Maslin was a lockmaker located in Baltimore Maryland from 1822 to 1833 and in Philadelphia, Pennsylvania to 1847.

Model

- manufactured prior to 1898.
- model designation is not marked on the firearm.
- this is a muzzle loading, flinlock ignition pistol.
- features include: octagonal barrel with brass blade front sight and dovetailed rear sight; ramrod mounted under the barrel; lightly engraved lockplate and cock; brass nosecap, trigger guard, transverse barrel wedge and ramrod thimbles; full length walnut stock.

Action

- muzzle loading, flintlock ignition.

Serial Number

- observed firearm did not have a serial number.

Other Markings

- probably marked on the side lock: "W. Moore London" or "Wm Moore London".

81692 - 1	31 PERCUSSION	6	76	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
81692 - 3	31 PERCUSSION	6	152	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
81692 - 2	31 PERCUSSION	6	178	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap.

Model

- "Maynard Primed Belt" is an oddly shaped single action, Maynard primed percussion revolvers.
- "Maynard Primed Belt" was made in the quantity of approximately a 1000, after Samuel Colt successfully sued the Massachusetts Arms Company for patent infringement.
- "Maynard Primed Belt" was made from 1851 to 1857.
- "MAYNARD'S PATENT" and "SEP. 22. 1845" is usually marked in a circle around an eagle on the primer cover on the right side.
- features include: pin front and "v" notched blade rear sight; round barrel with top-strap mounted on a central cylinder axis pin; standing breech (similar to a pepperbox type) with side tangs running down the right sides of the grip; external, right side spurred hammer; right side loading door; cylinder release button inside the top of the trigger-guard; rounded shape wood grip; etched decoration of shield and spears, cannon and anchor with floral scrollwork mixing blue and color casehardened colours.
- in order to comply with the terms of Samuel Colt's lawsuit, the Massachusetts Arms Company had to re-design their Wesson & Leavitt design to a manually revolved cylinder; this they did, but they continued using as many parts as practicable from their existing stock.

Manufacturer

- the manufacturer is marked on the firearm.

Serial Number

- numbered on frame from "1" up.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- barrels on these revolvers are seen between 76mm and 178mm, but there doesn't appear to have been a "standard" barrel length.
Other Markings	- marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap, "PAT. NOV. 26, 1850" on the barrel, and "MAYNARD'S PATENT SEP. 22, 1845" on the door of the tape primer; additional designs on the door of the tape primer are also known (most notably an American eagle and shield).

81712 - 5	31 PERCUSSION	6	89	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap.

Model

- between 2500 and 3000 of these small Maynard-primed pocket revolvers were manufactured by the Massachusetts Arms Company between 1851 and 1860.
- two primary variations of these revolvers are known; due to Samuel Colt's earlier lawsuit, the earliest variations of these revolvers were manually-revolved, but later production versions were fitted with an internal hand to revolve the cylinder when the hammer was cocked.
- the earlier (hand-revolved) pattern was made in calibre 28 PERCUSSION only, and was made with a cylinder release button mounted inside the top of the trigger guard; the later pattern was made with a cylinder that revolved as the hammer was cocked, and was made in a larger frame size (both 28 and 31PERCUSSION examples known).

Manufacturer

- marked on the topstrap.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- barrels on these revolvers are seen between 76mm and 178mm, but there doesn't appear to have been a "standard" barrel length.
Other Markings	- marked "MASS. ARMS CO. / CHICOPEE FALLS" and "MAYNARD'S PATENT 1845", with the second pattern adding "PATENT / JAN. 2, 1855" on the backstrap

Notes

Make

- "Massachusetts Arms Co.", "Mass. Arms Co.", "Mass. Arms Co." and "Chicopee Falls" or "Mass. Arms Co." and "Chicopee Falls, Mass." may be marked on the firearm.
- the "Massachusetts Arms" name was used by several different firearms producers.
- "Massachusetts Arms Co." was a tradename used by the "Massachusetts Arms Company" of Chicopee Falls, Massachusetts from 1860 to 1893. This company manufactured Maynard's patent single shot pistols, rifles, carbines and shotguns, Wesson's and Leavitt's, Maynard's and Adams patent revolvers, and conventional single barrel shotguns with front hinged receiver/frame and top mounted break open lever.
- "Massachusetts Arms Co." was a tradename used by the "Blish, Mizet and Silliman Hardware Company" of Atchinson, Kansas.
- "Massachusetts Arms Co." was a tradename used on double barrel shotguns manufactured by "Crescent Firearms Company/H.D. Folsom Arms Company" from 1905 to 1920.
- "Massachusetts Arms Co." was a tradename used on both single and double barrel shotguns manufactured by the "J. Stevens Arms Company/Savage from 1920 to 1940. The Steven's Patent of December 11, 1900 may be used on this firearm.

Model

- model designation is not marked on the firearm.
- features include: round, smoothbore barrel with a bead front sight and extractor; front hinged receiver/frame with upper tang mounted break opening lever and external spur hammer; plain wood snap on forearm and semi pistol grip buttstock with hard black rubber buttplate.

Manufacturer

- the manufacturer's name is not marked on the firearm.
- Steven's "CHICOPEE FALLS, MASS." address is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- hinged barrel design.
Serial Number	- serial number of an observed example was marked on the lower tang of the receiver/frame. - observed serial number consisted of a two letter prefix followed by three numbers.
Other Markings	- on an observed example "CHOKE BORED" is marked on the barrel.

Notes

Make

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Model

- manufactured in 1850 and 1851.
- "WESSON'S AND LEAVITT'S PATENT" or "WESSON'S & LEAVITT'S PATENT" is usually marked on the lock plate.
- "PATENT NOV. 25, 1850" is usually marked on the barrel catch.
- "WESSON'S" over "PATENT" over "AUG. 28, 1849" is usually marked on the bevel gear.
- "LEAVITT'S PATENT APRIL 29, 1837" is usually marked on the cylinder.
- approximately 800 of these oddly shaped single action percussion revolvers were made before Samuel Colt successfully sued the Massachusetts Arms Company for patent infringement.
- this model has a grip protruding directly out the back of the standing breech (similar to a pepperbox type) with side tangs running down the sides of the grip, a round barrel with top-strap mounted on a central cylinder axis pin, hammer mounted on the right side of the receiver/frame, and percussion nipples inset into the cylinder in angled holes.
- later production versions of these revolvers were manufactured with loading levers similar to the Colt Walker, but the earliest examples had no levers; also, the cylinders on these revolvers may be seen in either plain or engraved styles.
- a smaller version of this revolver was also made, but in calibre 31 PERCUSSION.

Manufacturer

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - numbered on frame from "1" up.

Other Markings - marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap, "WESSON'S AND LEAVITT'S PATENTS" on the lockplate, "PATENT NOV.26 1850" on the barrel catch (approximately 30 revolvers of early production omitted this marking), "WESSON'S / PATENT / AUG. 28, 1849" on the bevel gear, and "LEAVITT'S PATENT APRIL 29, 1837" on the rear of the cylinder.

Notes

Make

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Model

- manufactured in 1850 and 1851.
- "WESSON'S AND LEAVITT'S PATENT" or "WESSON'S & LEAVITT'S PATENT" is usually marked on the lock plate.
- "PATENT NOV. 25, 1850" is usually marked on the barrel catch.
- "WESSON'S" over "PATENT" over "AUG. 28, 1849" is usually marked on the bevel gear.
- "LEAVITT'S PATENT APRIL 29, 1837" is usually marked on the cylinder.
- less than 50 of these oddly shaped single action percussion revolving rifles were made before Samuel Colt successfully sued the Massachusetts Arms Company for patent infringement.
- this model has a grip protruding directly out the back of the standing breech with side tangs running down the sides of the grip, a two-step round barrel with top-strap mounted on a central cylinder axis pin, hammer mounted on the right side of the receiver/frame, and percussion nipples inset into the cylinder in angled holes.
- roll-engraved cylinder scene, and what appears to be a detachable shoulder stock, but is actually a permanent two-piece stock.

Manufacturer

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Serial Number

- numbered on frame from "1" up.

Barrel

- barrels on these revolving rifles have been measured between 16"/406mm and 24"/610mm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap, "WESSON'S AND LEAVITT'S PATENTS" on the lockplate, "PATENT NOV.26 1850" on the barrel catch (approximately 30 revolvers of early production omitted this marking), "WESSON'S / PATENT / AUG. 28, 1849" on the bevel gear, and "LEAVITT'S PATENT APRIL 29, 1837" on the rear of the cylinder.

Notes

Make

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Model

- manufactured in 1850 and 1851.
- "WESSON'S AND LEAVITT'S PATENT" or "WESSON'S & LEAVITT'S PATENT" is usually marked on the lock plate.
- "PATENT NOV. 25, 1850" is usually marked on the barrel catch.
- "WESSON'S" over "PATENT" over "AUG. 28, 1849" is usually marked on the bevel gear.
- "LEAVITT'S PATENT APRIL 29, 1837" is usually marked on the cylinder.
- approximately 1000 of these oddly shaped single action percussion revolvers were made before Samuel Colt successfully sued the Massachusetts Arms Company for patent infringement.
- features a grip protruding directly out the back of the standing breech (similar to a pepperbox type) with side tangs running down the sides of the grip, a round barrel with top-strap mounted on a central cylinder axis pin, hammer mounted on the right side of the frame, and percussion nipples inset into the cylinder in angled holes.
- a larger version of this revolver was also made, but in calibre 40 PERCUSSION.

Manufacturer

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Serial Number

- numbered on frame from "1" up.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- barrels on these revolvers are seen between 76mm and 178mm, but there doesn't appear to have been a "standard" barrel length.
Other Markings	- marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap, "WESSON'S AND LEAVITT'S PATENT" on the lockplate, and "LEAVITT'S PATENT APRIL 29, 1837" on the front of the cylinder.

108255 - 1	12 GA X 2 3/4"	2	704	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- known example marked as follows:
- "Fausto Massi - Vicenza" on the top barrel,
- "Fausto Massi" over "Made in Italy" over "Vicenza" on the underside of the receiver/frame in front of the trigger guard.
- "Massi, Fausto" over "Vicenza" in a semi-circle configuration on the underside of the barrel flats.

Model

- this is a generic entry for over/under shotguns made by Fausto Massi that have no model designation marked on them.
- features may include:
- boxlock, sidelock action, hammerless,
- top lever opening,
- extractors or ejectors,
- single or double trigger,
- top tang mounted sliding-type safety,
- blued barrels, colour case-hardened receiver/frame.
- Italian proofmarks are apparent on the barrels and the receiver/frame.

Serial Number

- known example had a four digit number without prefix or suffix marked on the top tang of the receiver/frame underneath the action release lever.

Other Markings

- known example marked, "Acciaio Boehler" on the top barrel.

Notes

Make

- "MasterPiece Arms" over "Comer, GA" or the logo is marked on the right side of the chassis/stock and on the barrel.
- "MPA" is the abbreviation for "MasterPiece Arms".
- MasterPiece Arms (MPA) was founded in 1992 by Gary Poole.
- MasterPiece Arms (MPA) has facilities in Carrollton and Comer, Georgia, U.S.A.

Model

- "STOLLE - ATLAS" is marked on the side of the receiver/frame.
- "Atlas" model is frequently sold as an action without trigger, barrel or stock for assembly into a custom single shot or repeating target rifle.
- features include: rifled barrel with a muzzle brake; steel construction; flat bottom receiver/frame with a full length dovetail for mounting a scope; integral recoil lug; accessory rail; MasterPiece adjustable chassis/stock with bipod.
- available in a left or right hand action.
- also available in a long action.

Manufacturer

- "KELBLY'S INC." over "N. LAWRENCE, OHIO" is marked on the side of the receiver/frame.
- "Kelbly's Incorporated" was established by George Kelbly in 1981.
- "Kelbly's Incorporated" is located in North Lawrence, Ohio, U.S.A.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.
- example observed with a letter prefix and four numbers.

Calibre

- calibre is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- "MasterPiece Arms" over "Comer, GA" or the logo is marked on the chassis/stock and on the barrel.
- "MPA" is the abbreviation for "MasterPiece Arms".
- "MasterPiece Arms (MPA)" was founded in 1992 by Gary Poole.
- "MasterPiece Arms (MPA)" has facilities in Carrollton and Comer, Georgia, U.S.A.

Model

- "AXIOM" is marked on the right, forward side of the receiver/frame.
- "AXIOM" is a custom receiver/frame and rifle having the standard Remington 700 footprint.
- "AXIOM" is available in short and long actions in a right or left hand configurations.
- "AXIOM" is sold as a rifle, rifle action or barreled action.
- "AXIOM" as assembled and sold by "MasterPiece Arms (MPA) has a MPA manufactured/marked barrel and rifle chassis using Accuracy International (AI) bolt rifle magazines.
- "MasterPiece Arms (MPA) chassis/stock assembly is machined from aluminum alloy with adjustable buttstock that may have a monopod and a cheek riser
- features include: no sight; may have a threaded muzzle; round, tapered; receiver/frame with close top, drilled and tapped for optic mount; left or right hand spiral fluted bolt; rear receiver/frame mounted bolt release lever; detachable magazine; magazine release located in the front of the trigger guard; chassis/stock assembly machined from aluminum alloy with fully adjustable stock and recoil pad; integrated level in the chassis behind the receiver/frame; stainless steel or blue finish with the chassis/stock assembly that may be in colour.
- overall length with 559 mm (22") barrel is 1073mm (42.25") and the average weight is 3.54kg (7.8lbs).

Manufacturer

- manufacturer may not be marked on the firearm.
- "Curtis Custom" was established in 2011.
- "Curtis Custom" are a manufacturer of custom action and rifle having the standard Remington 700 footprint.
- "Curtis Custom" is located in Alvarado, Texas U.S.A..

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left, forward side of the receiver/frame.
- serial number of referenced examples consisted of one letter (A) and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre designation is marked on the barrel.
- 223 REM rifling/5.56MM NATO rifling characteristics: 1 turn in 7 inches, right hand twist.
- "223 Wylde" is a chamber design and not a calibre. Wylde chamber has traditionally been used in match rifles and also allow the ability to safely and interchangeably shoot military 5.56MM NATO and .223 REM ammunition.
- 224 VALKYRIE rifling characteristics: 1 turn in 7 inches, right hand twist.
- 300 NORMA MAG rifling characteristics: 1 turn in 10, 1 turn in 9 or 1 turn in 8 inches, right hand twist.
- 308 WIN rifling characteristics: 1 turn in 8 or 1 turn in 10 inches, right hand twist.
- 6MM CREEDMOOR rifling characteristics: 1 turn in 8 inches, right hand twist.
- 6.5x47 LAPUA rifling characteristics: 1 turn in 8 inches, right hand twist.

Shots

- detachable box magazine.
- "MasterPiece Arms (MPA)" bolt action chassis use Accuracy International (AI) bolt rifle magazine.

- "Masu Bros", "Masu Bros. Co.", or "Masu Freres" may be marked on the side locks and/or on the rib.

Model

- model designation is not marked on the firearm.
- features may include: external hammers; under lever opener; double triggers; damascus barrels; lightly engraved side locks; checkered straight grip stock; pin-fire or centerfire.

Manufacturer

- Masu had manufacturing facilities in Liege, Belgium and London, England.
- Masu of Belgium was located in Liege between 1849 and 1853.
- Masu Brothers were located in Liege between 1853 and 1876.
- Gustave Masu was located in Liege between 1876 and 1890.
- Masu of England.
- Gustave Masu was in business at 3a Wigmore Street in London, England circa 1860.
- Gustave Masu's business name was changed to Masu Brothers from 1865 to 1869.
- Masu Brothers' business name was changed to Gustavas Masu and was located at 10 Wigmore Street in London, England from 1870 to 1872.
- Gustavas Masu's business name was changed back to Masu Brothers in 1883.
- Masu Brothers ceased operations in 1892.

Action

- side by side pattern.

Serial Number

- serial number usually located on the water table and underneath the barrels.

Other Markings

- British or Belgium proof marks may be marked on the water table and underneath the barrels.

Make:	MAT
Model:	1935S
Manufacturer:	Manufacture d'Armes de Chatellerault (MAC)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
20736 - 1	7.65MM FRENCH LONG	8	106	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAT" is marked on the left side of the slide.
- "MAT" is the abbreviation for Manufacture d'Armes de Tulle.
- Manufacture d'Armes de Tulle (MAT) manufactured the barrel and slide and supplied these parts to Manufacture Nationale d'Armes de Chatellerault (MAC) for final assembly.

Model

- introduced by Manufacture d'Armes de St-Etienne (MAS) in 1935 for French military service pistol trials and officially adopted in 1937.
- "MODELE 1935 S" or "MODELE 1935 S M1" is marked on the right side of the slide.
- "S" denotes the arsenal that designed the firearm, Manufacture d'Armes de St-Etienne (MAS).
- early samples of the 1935S were simply marked with the model designation "1935S", when a safety modification was implemented an "M1" marking was added to the right of the model designation.
- as all SAGEM pistols were produced after the modification, all have the designation "M1" marked on the right side.
- features include:curved backstrap; manual safety; lanyard ring; external hammer; fixed sights;checkered grips;semi-beavertail grip; barrel protrudes from the slide.

Manufacturer

- "MAC" is marked on the right side of the receiver/frame.
- "MAC" the abbreviation for Manufacture Nationale d'Armes de Chatellerault.
- Manufacture Nationale d'Armes de Chatellerault (MAC) manufactured the receiver/frame and assembled the firearm.
- Manufacture d'Armes de Tulle (MAT) manufactured the barrel and slide and supplied these parts to Manufacture Nationale d'Armes de Chatellerault (MAC) for final assembly.

Action

- short recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- "MAC" and a dash (-) in front of the serial number is not a prefix to the serial number.
- serial number observed consisted of a letter "C" prefix and four numbers.

- serial number ranges is from A1 to A10000, B10000 to B20000, C1 to C10000, D1 to D10000, E1 to E10000, and F1 to F6087.

Calibre

- "CAL. 7,65 L" is marked on the right side of the slide.

Shots

- detachable box magazine.

Notes

Make

- "Tulle" in script is marked on the left side of the receiver/frame.
- "Tulle" stands for "Manufacture d'Armes de Tulle".
- "Manufacture d'Armes de Tulle" uses the acronym "MAT".
- "Manufacture d'Armes de Tulle" was located in the town of Tulle, France.

Model

- "Mier", and "A6 MLE 1916" is marked on the left side of the receiver/frame.
- "Mier" and "A6 MLE 1916" stands for "Meunier A6 Modèle 1916".
- "Etienne Meunier" was an inventor and French weapons inspector.
- "A6 Modèle 1916" is a semi-automatic, internal magazine feed, with a full length stock and top handguard.
- "A6 Modèle 1916"was presented in 1910 to replace the Lebel rifle and tested in 1911/1912.
- "A6 Modèle 1916" had limited production started and ended in 1913.
- "A6 Modèle 1916" production re-started in late 1916 to the spring of 1917.
- "A6 Modèle 1916" was using a unique cartridge/calibre to that French Military rifle.
- features include: stepped barrel at the muzzle; dovetailed front sight and a mid- barrel mounted rear tangent sight; front stock band located behind the front sight with a stacking hook and bayonet lug; rectangular receiver/frame with a round top action cover with a stripper clip loading guide; right side "S" shaped bolt handle with knob; rotary bolt locking with three locking lugs at the front of the bolt; right side, in front of the trigger guard, safety lever; internal magazine with a front hinged base plate; one piece stock with top handguard with two elongated slots on both sides; steel buttplate; blued finish.
- overall length with a 715mm (28.125") barrel is 1295mm (51"), average weight is 4.03kg (8.88lbs).

Manufacturer

- "Tulle" in script is marked on the left side of the receiver/frame.
- "Tulle" stands for "Manufacture d'Armes de Tulle".
- "Manufacture d'Armes de Tulle" was using the acronym "MAT".
- "Manufacture d'Armes de Tulle" was located in the town of Tulle, France.
- "Manufacture d'Armes de Tulle" was founded in 1690 in the city of Tulle by the town's gunsmiths. It produced armaments for the Empire of Sieuxerr as the "Imperial Arsenal of Tulle", however after the collapse of the monarchy in the mid-18th century, the factory was renamed to the "Manufacture d'Armes de Tulle".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- long-recoil operated.
Serial Number	- serial number is marked on the left side of the barrel. - serial number can also be marked on left side of the buttstock and rear stock band spring. - serial number of referenced examples consisted of one letter (R) in script and one to four numbers. - not to confuse the serial number with the right side barrel marking "MA" a space, "T" and the date of manufacture.
Calibre	- 7X57 Meunier was introduced in 1910. - 7X57 Meunier was made and use specifically for this rifle for the French Army. - 7X57 Meunier is a necked, rimless cartridge with a 139gr bullet of 0.284" in diameter. - 7X57 Meunier rifling characteristics: 1 turn in 8.66 inches, right hand twist.
Shots	- internal box magazine.

Notes

Make

- "MATEBA" is marked on the receiver/frame.
- "Mateba" stands for "MAcchine TErmo-BAlistiche".

Model

- model may be marked on the firearm.
- unusual handgun that functions as a "semi-automatic revolver".
- "semi-automatic revolver" is described by the recoil of firing a cartridge driving the upper receiver/frame, barrel and cylinder backwards along rails in the top of the grip frame to re-cock the hammer and advance the cylinder.
- features include: fires cartridges from the bottom chamber in the cylinder rather than the top; may have a barrel extension; square shaped barrel with top rib that may be ventilated; cylinder swings out to the left; no top strap over the cylinder; laminated or walnut grips; blued or nickel finish.
- a rifle operating on this principle is also made by Mateba as the "AutoRevolver Carbine".

Manufacturer

- based in Pavia, Italy.
- manufacturer name and logo is marked on the firearm.
- Mateba srl ("Macchine Termo Ballistiche") is a manufacturer based in Pavia, Italy, that specialized in making several versions of this "automatic revolver".

Action

- this firearm is both a "semi-automatic" and a "revolver".

Serial Number

- serial number is marked on the receiver/frame above the trigger.
- serial number of a referenced example consisted of six numbers.

42124 - 2	38 SPL	8	115	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Mateba" is marked on the right side of the receiver/frame.
- "Mateba" is an acronym obtained by joining the first two letters of Macchine Termo Ballistiche, the manufacturer's full name together.

Model

- the model is not marked on the firearm.
- this is an unusual revolver designed by Emilio Ghisoni specifically for ISU "rapid-fire" competition; in order to minimize felt recoil and muzzle jump when firing, Ghisoni placed the cylinder low in front of the trigger-guard, and the barrel then lay in line with the shooter's index finger.
- features include: blued finish; single or double-action trigger mechanism; anatomical stippled walnut grips; open adjustable sights, and an overall appearance that resembles the front half of a revolver mated with the rear half of a semi-automatic pistol.
- later Mateba designs have changed somewhat from this pattern, and can be identified by their Italian National Catalog Numbers.

Manufacturer

- manufacturer (or logo thereof) marked on firearm.
- Mateba srl ("Macchine Termo Ballistiche") is a manufacturer based in Pavia, Italy, that specializes in making several versions of a "automatic revolver"; where earlier versions of the Mateba revolver were manufactured with the cylinder located low in front of the trigger-guard; current Matebas have the cylinder mounted in an conventional location, albeit on an upper receiver/frame that slides back and forth on the pistol-grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is located on the left side of the receiver/frame.
- observed serial number consitsed of six digits without a letter prefix or suffix, eg. "000074".
- "CAT. 2901" or "CAT. 2902" may be marked on the left side of the firearm.
- "2901" and "2902" are not serial numbers, these are Italian Proof House catalogue numbers.

Calibre

- "CAL. 38 SPL" or "CAL. 357 MAG" may be marked on the left side of the receiver/frame.

Notes

Make

- make is marked on the centre of the barrels as:
"M. MATER PATENT. CHIPPAWA. ONT.".

Model

- model designation is not marked on the firearm.
- manufactured between 1852 to 1879.
- this is a generic entry for Mater side by side percussion shotguns that are not identifiable as to model.
- features include: external hammers, single or double triggers, single bead front sight, ram rod may be located under the barrel and a wooden stock.

Manufacturer

- manufacturer's designation is marked on the centre of the barrels as:
"M. MATER PATENT. CHIPPAWA. ONT.".
- Michael Mater manufactured firearms in Chippawa, Ontario, Canada from 1852 to 1879 and had two patents on shotgun designs.

Remarks

- Mater also manufactured single barrel and three and four barrel shotguns.
- the single barrel percussion model features an external hammer.
- the three and four barrel models feature: one centre barrel pin with external hammers, a ram rod located in the centre axis of the barrels and the barrels require rotating to bring the unfired barrel in line with a the hammer.
- the barrel or barrels are attached to the breech face by one centre screw and are removable.

Notes

Make

- "MATRTIX ARMS" is marked on the left side of the receiver/frame.
- In 2015, the brand name Matrix Arms was adopted by Matrix Aerospace.

Model

- "MOD MA556" is marked on the left side of the lower receiver/frame.
- Introduced in 2023.
- This firearm comes as a standard AR15 platform but the company offers a "cage" handguard that has an integrated pump mechanism. When this pump handguard is installed, this firearm will continue to function as a semi automatic with the ability to use both the rear charging handle and the pump alternatively. It is only when the "cage" pump handguard is installed and the gas block and gas tube is removed that the firearm is now able to operate as a pump action. If the gas block and gas tube is removed and the "cage" pump handguard is not installed, the firearm will continue to function as a repeater.
- Features include: standard AR platform; rear AR charging handle; left side fire control selector; left side bolt catch; right side foreword assist; right side magazine release; right side deflector. Some models of this firearm come with a second charging handle on the left side of the receiver/frame.

Manufacturer

- In 2015, the brand name Matrix Arms was adopted by Matrix Aerospace.
- Matrix Aerospace prior to small arms manufacturing began production in the military, aerospace and defense domains.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- Gas operated.
Serial Number	- The serial number is marked on the left side of the receiver/frame. - The serial number of referenced example consists of two letters, three digits, a dash followed by five digits.
Calibre	- The calibre designation "MULTI" is marked on the left side of the receiver/frame.
Shots	- Detachable box magazine.

Notes

Make

- the make is normally not marked on this firearm.

Model

- this is a conversion of a Mauser 1871 Infantry Rifle into a single shot bolt operated Shotgun.
- the conversions were done by various manufactures in various countries.
- these shotguns may have the original markings on the firearm.
- model designation is not marked on the firearm.
- these shotguns may have the original markings on the firearm.
- "J.G. Mod. 71" or "K. Mod. 71" or "Mod. 71" may be marked on the left side of the receiver/frame.
- this is a conversion of a Mauser 1871 into a single shot bolt operated Shotgun.
- features include: one piece straight stock or one piece monte carlo type stock with pistol grip and sling swivels.
- also the Mauser 1871/84 was converted to a single shot shotgun.

Note: this conversions were done by numerous manufactures in Europe.

Action

- bolt operated.

Serial Number

- four numerical digits observed, probably from original manufacturer.

Calibre

- the original Mauser 1871 and 1871/84 were converted to chamber and fire the following calibres: 12 Ga., 16 Ga., 20 Ga., 24 Ga., 28 Ga., and 410 Ga.

Other Markings

- the original date of manufacture may be marked on the right side of the receiver/frame ie. 1881.

Firearm Reference Number (FRN): 1506
Make: Mauser
Model: 1871 Carbine

Summary

Make:	Mauser
Model:	1871 Carbine
Manufacturer:	Haenel
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1506 - 1	43 MAUSER	1	508	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver as "K. MOD. 71".
- mechanically identical to Model 1871 Infantry Rifle, differs in minor details such as barrel length, turned down bolt handle, full length stock ending flush with the barrel's muzzle and nosecap with sight protecting ears.

Manufacturer

- the manufacturer's name appears on the chamber of the barrel as "AGH".

Action

- bolt operated, single-shot firearm.

Serial Number

- appears on left-front of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- cartridge commonly known as 43 MAUSER in North America.
Other Markings	- model designation on left rear of receiver, year of manufacture on right rear of receiver.

Rudimentary turn bolt single shot rifle, historically significant as this is the first Mauser bolt action rifle to be adopted by any country. Many of these rifles were sold as surplus in the late 1800's and converted to economy single shot shotguns.
-features include: browned finished barrel; trigger guard may be iron in the white or bronze; octagonal receiver/frame and straight handled bolt left in natural white finish; "wing" type safety lever on the back of the bolt; butt plate in bronze ; adjustable rear sight; fixed post front sights, barrel bands and sling swivels are usually fire blued; a two-piece bolt; straight gripped wooden stock.

Manufacturer

- "Greenwood & Batley. Leeds" or "G&B" is marked on the chamber of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action - turn-bolt design.

Serial Number - the serial number is normally marked on the left front end of the receiver/frame and may be repeated on the barrel and bolt.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "I.G. Mod: 71." or "I.G. Mod. 71." is normally marked on the left side of the receiver/frame.
- the year of manufacture is marked on the right side of the receiver/frame.
- manufactured between 1872 and 1885.
- first breech loading rifle to be adopted as general issue by all of the states of Imperial Germany. Rudimentary turn bolt single shot rifle, historically significant as this is the first Mauser bolt action rifle to be adopted by any country. Many of these rifles were sold as surplus in the late 1800's and converted to economy single shot shotguns.
-features include: browned finished barrel; trigger guard may be iron in the white or bronze; octagonal receiver/frame and straight handled bolt left in natural white finish; "wing" type safety lever on the back of the bolt; butt plate in bronze ; adjustable rear sight; fixed post front sights, barrel bands and sling swivels are usually fire blued; a two-piece bolt; straight gripped wooden stock.

Manufacturer

- the manufacturer's name appears as "AGH" on the chamber of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- appears on the left front end of the receiver.
Calibre	- cartridge commonly known as 43 MAUSER in North America.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "I.G. Mod: 71." or "I.G. Mod. 71." is normally marked on the left side of the receiver/frame.
- the year of manufacture is marked on the right side of the receiver/frame.
- manufactured between 1872 and 1885.
- first breech loading rifle to be adopted as general issue by all of the states of Imperial Germany. Rudimentary turn bolt single shot rifle, historically significant as this is the first Mauser bolt action rifle to be adopted by any country. Many of these rifles were sold as surplus in the late 1800's and converted to economy single shot shotguns.
-features include: browned finished barrel; trigger guard may be iron in the white or bronze; octagonal receiver/frame and straight handled bolt left in natural white finish; "wing" type safety lever on the back of the bolt; butt plate in bronze ; adjustable rear sight; fixed post front sights, barrel bands and sling swivels are usually fire blued; a two-piece bolt; straight gripped wooden stock.

Manufacturer

- the manufacturer's name appears as "SP.& SR." on the chamber of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- appears on the left front end of the receiver.
Calibre	- this cartridge is commonly known as 43 MAUSER in North America

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "I.G. Mod. 71/84." is marked on the left side of the receiver/frame.
- "1871/84 Infanterie Gewehr" year of manufacturer is marked on the right side of the receiver/frame.
- "Infanterie-Gewehr Model 1871/84" was manufactured from the early 1880s to 1890.
- "1871/84 Infanterie Gewehr" was the first repeating rifle to be adopted by Germany on the 30th of January 1884.
- "1871/84 Infanterie Gewehr" is basically a modification of the Mauser Model 1871 from single shot to repeater using an eight round tubular magazine mounted under the barrel.
- features include: round barrel with blade front sight and adjustable V-notch rear sight; three barrel bands; front barrel band has a bayonet lug on the right side and the middle band has a sling attachment; open top receiver/frame; magazine cut-off is built into the left side of the receiver/frame; bolt hand is straight and at right angle to the bolt body; round trigger guard with sling attachment mounted on the front; one piece wood straight grip stock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "MAUSER" is marked on the chamber end of the barrel.
Action	- turn bolt design.
Serial Number	- marked on the left front of the receiver/frame.
Calibre	- 43 MAUSER is also known as 11MM MAUSER. - calibre may not be marked on the firearm.
Shots	- tubular magazine is located under the barrel, inside the forearm.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- It is believed that the model designation does not appear on the firearm.

Manufacturer

- "S.F.A.P." over "St.Denis" in script is marked on the barrel.

Action

- turn-bolt design.

Serial Number

- Appears on the side of the receiver and may have a letter prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "St. Denis" appears on the barrel.

Remarks - This carbine is mechanically identical to the Mauser Model 1871 Mauser Rifle. This carbine was built in France on contract for the Uruguayan government in 1895 and entailed fitting a new bolt head, barrel and stock to existing Model 1871 Mauser actions. A small quantity of full length rifles are known to exist.

Notes

Make

- "GEBR. MAUSER & Co." is marked on the firearm.

Model

- the model is not marked on the firearm; even though this model is known as the "1877" (from its patent date); extant examples are known to be marked with the year of manufacture (1876).
- this is an unusual style of falling-block single-shot pistol, produced by Mauser for a short period during 1876/7. This pistol was rapidly dropped from production after it became apparent that European military powers had moved to the revolver as a military sidearm.
- features include: blued finish; open fixed sights; an underbarrel shroud hinged to the barrel at the midpoint, containing the mainspring; a breechblock with a large, flat, knurled thumbpiece that is pressed down to open the breech; a double-action-only trigger mechanism that drops with the breechblock, so that the tip of the trigger protrudes through a slot in the bottom of the trigger-guard; a thumb-operated lever on the left side of the receiver/frame that can open or close the action with an up or down motion; smooth walnut square-butt grips; and a lanyard loop at the butt.

Manufacturer

- "GEBR. MAUSER & Co." is marked on the firearm.

Action

- falling-block single-shot.

Serial Number

- serial-numbered on the receiver/frame.

Notes

Make

- "GEBR. MAUSER & CIE" is marked on the top of the barrel.

Model

- "1878. PATENT" is marked on the top of the barrel.
- this Model superceded the Model "1877".
- may also be known as "Zig Zag". The name is derived from the unusual "zig-zag" cut into the cylinder.
- the revolver was originally manufactured as a solid-frame and then as a "tip-up" or "hinged" frame.
- the grip straps may exhibit unit markings. These should not be confused with the serial number.
- production ceased around 1888.

Manufacturer

- "GEBR. MAUSER & CIE OBERNDORF A/N. WURTTEMBERG." is marked on the top of the barrel.

Serial Number

- serialization is unknown, but it is suspected to have started at 1.
- the grip straps may exhibit unit markings. These should not be confused with the serial number.
- serial number is marked on the barrel lug.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - serial number is marked on the barrel lug. The Canadian Firearms Registery requires that the serial number be marked on the receiver/frame.

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver in Cyrillic script.

Manufacturer

- the manufacturer is marked on the side of the receiver in either German or Serbian Cyrillic (both versions noted).

Action

- turn-bolt design.

Serial Number

- appears on the left side of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- This rifle is mechanically identical to the Mauser Model 1871 Mauser bolt action German service rifle, differing in having a projection at rear of the receiver for additional bearing surface for the bolt when being operated.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1532 - 1	10.15X63R SERBIAN	6	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
1532 - 2	11X59R FRENCH	6	508	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model is not marked on the firearm; this is a carbine version of the 1880 Serbian Rifle, shortened and converted to tube-magazine-feed, for use by the Serbian Artillery in 1884. At the same time, the Serbs also converted a number of the same rifles to an even shorter Cavalry Carbine version.
- features include: blued finish; open adjustable sights; a barrel that extends noticeably beyond the nose-cap (the Cavalry Carbine has a barrel that ends flush at the nose-cap); under-barrel ramrod; barrel band; a straight-grip walnut stock with sling swivels at the barrel band and bottom of the butt; and a grooved extension on the rear of the receiver that extends horizontally out rearwards on the wrist of the stock.
- in 1937, many of these carbines were converted to 11mm Gras, as the original Serbian ammunition was no longer produced.

Manufacturer

- "MAUSER WEAPONS FACTORY OBERNDORF a/N WURTTEMBERG" is marked in Serbian Cyrillic on the left side of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- serial number designation is marked on the left side of the receiver.
Shots	- tube magazine.

- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation does not appear on the firearm.

Manufacturer

- "MAE" is the abbreviation for Manufacture d'Armes de L'Etat.
- Manufacture d'Armes de L'Etat was founded in Faubourg Saint-Leonard, Liege, Belgium in 1838.
- Manufacture d'Armes de L'Etat was a government owned small arms factory which manufactured rifles and machine guns until the German invasion of 1914.
- Manufacture d'Armes de L'Etat converted model 1889/36 Short Rifles from 1936 to 1940.

Serial Number

- marked on the side of the receiver/frame, usually has a letter prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- variations in stocks, barrel bands and bayonet mounts will be encountered. This model was produced with no mount for a bayonet as well as a version equipped with a mount for the "Yataghan" (a long curved blade) bayonet.
- another version with a longer barrel also exists, this model is known as the "1889 Belgian Carbine".

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation usually does not appear on the firearm, however some specimens may have this marking on the left side of the receiver/frame. These rifles were manufactured (converted) from 1936 to 1940.

Manufacturer

- the original manufacturer's name appears on the receiver ring.
- Manufacture d'Armes de L'Etat may not appear on these firearms.
- "MAE" is the abbreviation for Manufacture d'Armes de L'Etat.
- Manufacture d'Armes de L'Etat was founded in Faubourg Saint-Leonard, Liege, Belgium in 1838.
- Manufacture d'Armes de L'Etat was a government owned small arms factory which manufactured rifles and machine guns until the German invasion of 1914.
- Manufacture d'Armes de L'Etat converted model 1889/36 Short Rifles from 1936 to 1940.

Serial Number

- marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this rifle is a conversion of existing Belgian Model 1889 Carbines and Rifles to conform to the 1935 Belgian Short Rifle. Conversion entailed reworking the receiver/frame and bolt to approximate that of the model "98 Mauser", fitting a new barrel and eliminating the original sheet metal barrel jacket, reworking the original stock and fitting 1935 Belgian Short Rifle barrel bands. The 1889/36 Belgian Short Rifle is visually distinctive in that it retains the original projecting box magazine.

- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- this rifle is mechanically identical to the 1889 Belgian Rifle except it has short wooden handguard in front of the rear sight instead of the metal tube encasing the barrel as on the Belgian rifle.

Serial Number

- appears on the right side of the receiver in Turkish numerals.

Shots

- detachable box magazine.

Other Markings

- manufacturer's name and model designation are marked on the left side of the receiver/frame in Arabic script, it also has a "toughra" (Turkish property mark) on the top of the receiver ring.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MAUSER MODELO ARGENTINO 1891" is marked on the left side of the receiver/frame.
- Peruvian national crest and "Republica Peruana" is marked on the receiver ring.
- this carbine is identical to the model 1891 Argentine Carbine.
- Peru had two similar model 1891 Argentine based designs. One version was a factory (German) produced model 1891 Argentine Carbine with a full-length stock and nosecap with protective ears and no provision for mounting a bayonet. This version is seen with the standard rear leaf sight and the Peruvian crest on the receiver ring. The other version is a Peruvian modification of the model 1891 Argentine Rifle that Peru purchased for its own use. This version has a three-quarter length stock with a mid-barrel band and sling swivel and a noseband with a bayonet lug. Due to a modernization program instituted in 1912 to enable the use of improved ammunition many of these carbines will be found with the "Lange Vizier" (resembles the "ski jump" sight on the GEW 98) rear sight.

Manufacturer

- "Deutsche Waffen-Und Munitionsfabriken Berlin" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - marked on the side of the receiver/frame, usually has a letter prefix.

1558 - 1	7.65X53 MAUSER	5	740	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "MAUSER MODELO ARGENTINO 1891" is marked on the left side of the receiver/frame.
- the Peruvian national crest is marked on the receiver ring.
- this rifle model series was the product of a government authorized modification of the Argentine Model 1891 Mauser rifles as was then in use by the Peruvian armed forces.
- the model name is derived from the fact that these rifles are still marked with the original Argentine markings on the left side of the receiver/frame as, "Mauser Modelo Argentino 1891", with the Peruvian national crest marked on the top of the receiver ring under which is usually marked the words, "Republica Peruana" or a variation thereof.
- modifications were instituted circa 1909 when the Peruvians adopted the newer 7.65X53 MAUSER "Spitzer" ammunition.
- some of the rifles were also converted into carbines by shortening the barrel and are known as the Model 1891 Argentine Carbine, Peruvian Modification.
- characterized by; straight bolt handle, straight-line fixed type box magazine that extends below the stock in front of and attached to the trigger guard and a Lange Vizier type rear sight which was added as part of the arsenal modification.

Manufacturer

- the manufacturer's name appears on the left side of the receiver.

Action

- turn bolt operated.

Serial Number

- appears on the receiver and usually has a letter prefix.

Remarks

- this rifle is identical to the standard Model 1891 Argentine Rifle except for the rear sight which is the same as used on the German Gew 98 Rifles of World War I. The Peruvians had new sights fitted to their existing Model 1891 Argentine Rifles to correspond to the flatter trajectory of a "hotter" loading of the 7.65MM MAUSER cartridge which was introduced into their army in 1909 with the Mauser Model 1909 Rifle. Besides resighting the 1891 Rifles the Peruvians took the opportunity to have them refurbished and shorten some of them to carbine and short rifle lengths. During the refurbishing, most had their national crests ground off and their receivers re-blued and re-serial numbered.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MAUSER ESPANOL MODELO 1893" is marked on the left side of the receiver/frame.
- the "Spanish" crest and the word "Berlin" and the year of manufacturer should be marked on the top of the receiver ring.
- manufactured from 1893 to 1896.
- this is a shortened version of the "1893 Spanish Rifle".

Manufacturer

- "Manufactura Loewe Berlin" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - the serial number usually has a letter prefix.
Calibre	- many of these rifles were converted to calibre 7.62MM NATO in the 1960's for the Spanish Reserve Units.
Shots	- fixed box magazine.
Other Markings	- model designation "Mauser Espanol Modelo 1893" and maker's name on left side of receiver, coat of arms of the Kingdom of Spain and date of manufacture on top of the receiver ring. Rifles manufactured for other nations will have the purchasing nation's coat of arms on the receiver ring and may have the model designation "Mauser Mod 1893" on the left side of the receiver.
Remarks	- this rifle is historically significant in that it was the first Mauser rifle to use an enclosed, staggered column magazine. Mechanically it incorporates the features of the Spanish 1892 Rifle (non-rotating extractor and bolt guide rib on inner left side of receiver). Single barrel band and short round tipped forend, which ended some distance from the muzzle.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mauser Espanol Modelo 1893" is marked on the left side of the receiver/frame.
- the "Spanish" crest and the word "Berlin" and the year of manufacturer should be marked on the top of the receiver ring.
- manufactured from 1893 to 1896.

Manufacturer

- "Manufactura Loewe Berlin" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - the serial number usually has a letter prefix.
Shots	- internal box magazine.
Other Markings	- Model designation "Mauser Espanol Modelo 1893" and maker's name on left side of receiver/frame, coat of arms of the Kingdom of Spain and date of manufacture on top of the receiver ring. Rifles manufactured for other nations will have the purchasing nation's coat of arms on the receiver ring and may have the model designation "Mauser Mod 1893" on the left side of the receiver/frame.
Remarks	- This rifle is historically significant in that it was the first Mauser rifle to use an enclosed, staggered column magazine. Mechanically it incorporates the features of the Spanish 1892 Rifle (non-rotating extractor and bolt guide rib on inner left side of receiver/frame). This rifle was an immediate success and was adopted by Spain, Chile and Mexico.

- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears (in Arabic script) on the left side of the receiver/frame.

Manufacturer

- the manufacturer's name appears (in Arabic script) on the left side of the receiver/frame.

Serial Number

- marked on the right side of the receiver/frame in either Turkish or Western numerals.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- in the 1920's and 30's the Turkish government rebarreled surviving specimens of these rifles from the original 7.65X53 MAUSER cartridge to the 8MM MAUSER cartridge.
Other Markings	- the maker's name and model designation are marked on the left side of the receiver/frame (in Turkish script), a "toughra" (Turkish property stamp) on the top of the receiver ring. In the period following the World War I many of these rifles were refurbished and had the original markings ground off and had the name of the arsenal which did the work (usually Ankara) and date, stamped on the receiver ring.
Remarks	- this rifle is mechanically identical to the Spanish Model 1893 Rifle with the exception of the addition of a magazine cutoff on the left side of the receiver/frame. In the period following World War I many of these rifles were refurbished and rebarreled from 7.65X53 MAUSER to 8MM MAUSER, at this time the magazine cutoff levers were removed.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "MAUSER" is not marked on the firearm. - "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser. - Wilhelm Mauser was born in 1834 and died in 1882. - Paul Mauser was born in 1838 and died in 1914. - Paul Mauser was officially named Peter Paul Mauser. - Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.. - Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872. - Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874. - Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884. - Mauser was established under the German proof law as a proof house in 1898. - Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923. - Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975. - Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.
Model	- the model designation is not marked on the firearm. - the year of manufacturer is marked on the top of the receiver ring, below the manufactuer's name. - manufactured from 1898 to 1932.
Manufacturer	- "Carl Gustafs Stads" and "Gevarsfaktori" and the year of manufacturer are marked on the top of the receiver ring.
Action	- manually operated, turn bolt action repeating carbine/rifle.
Serial Number	- serial number is stamped on the left side of the receiver/frame. - serial numbers appear to have been numeric only. - Note: in many instances the serial number will have an inspector's initials stamped in front of it; these initials are usually a noticeable distance in front of the serial number, are not usually "in-line" with the numbers and should not be included as being part of the actual serial number for the firearm. - inspector's initials stamped in front of serial number may be: "B.H.", "G.F.", "H.K.", "H.R.", "J.V.", "K.B.", "M.B.", "O.G." or "R.L.".
Calibre	- the calibre designation is not marked on the firearm.
Shots	- internal box magazine.
Other Markings	- the date of manufacture appears on the receiver ring.
Remarks	- this firearm is a military carbine using a slightly modified version of the Mauser Model 1893 Spanish action. It features a full length stock, a metal nosecap which extends upwards to form front sight protecting ears, and an "L" shaped knurled extension on the cocking piece with a turned down bolt handle. The receiver has a cut on the left side to accommodate the thumb when charger loading the magazine. There is no provision for mounting a bayonet. In 1917 existing carbines were retrofitted with a steel bayonet mounting fixture.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MAUSER CHILENO MODELO 1895" is marked on the left side of the receiver/frame.

Manufacturer

- The manufacturer's name appears on the left side of the receiver.

Serial Number

- serial number is marked on the side of the receiver/frame.
- serial number usually has a letter prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- Coat of arms of the Republic of Chile on top of receiver ring. Name of manufacturer and model designation (Mauser Chileno Modelo 1895) on left side of receiver. A number of other nations adopted this rifle and their coats of arms may appear on the receiver ring (among these nations are: Bolivia, China, Costa Rica, El Salvador, Honduras, Mexico, Paraguay, Persia, Peru and Uruguay).

Remarks

- This rifle is mechanically identical to the Chilean Model 1895 Rifle differing in having a shorter barrel, turned down bolt handle, side mounted sling swivels and front sight protector.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "MAUSER" is marked on the firearm. - "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser. - Wilhelm Mauser was born in 1834 and died in 1882. - Paul Mauser was born in 1838 and died in 1914. - Paul Mauser was officially named Peter Paul Mauser. - Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.. - Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872. - Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874. - Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884. - Mauser was established under the German proof law as a proof house in 1898. - Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923. - Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975. - Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.
Model	- "MOD. MAUSER 1896." is marked on the left side of the receiver/frame. - manufactured between 1896 and 1897. - "O.V.S." may be marked on the side of the receiver ring. - "O.V.S." is the acronym for Oranje Vrij Staat (Orange Free State), a short lived republic in South Africa.
Manufacturer	- "LUDW. LOEWE & Co BERLIN." is marked on the left side of the receiver/frame.
Action	- turn bolt operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame, below the O.V.S. marking. - referenced examples consisted of a "B" or "C" prefix followed by three or four numbers.
Shots	- internal box magazine.
Other Markings	- Manufacturer's name and model designation (Mod. Mauser 1896) on left side of receiver. "OVS" is usually marked on the left side of the receiver ring and stands for Oranje Vrij Staat (Orange Free State). Some rifles may have the stylized logo of Ludwig and Loewe Company on top of the receiver ring.
Remarks	- This rifle is identical in all respects to the Spanish Model 1893 Rifle (except for markings). Often these rifles were "personalized" by their original Boer owners who carved their names, dates, names of battles and even maps, into the buttstocks.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "1896 Swedish Rifle" does not appear on the firearm.
- 1896 Swedish Rifle model was produced as a repeater from 1899 to circa 1940.
- this is a generic entry for those rifles permanently converted to single shot configuration.

Manufacturer

- the original manufacturer's name will usually appear on the receiver ring.

Serial Number

- serial number is stamped on the left side of the receiver/frame.
- serial numbers appear to have been numeric only.
- Note: in many instances the serial number will have an inspector's initials stamped in front of it; these initials are usually a noticeable distance in front of the serial number, are not usually "in-line" with the numbers and should not be included as being part of the actual serial number for the firearm.
- inspector's initials stamped in front of serial number may be: "B.F.", "B.H.", "G.F.", "H.A.", "H.K.", "H.R.", "J.V.", "K.B.", "M.B.", "O.G.", "R.L.", "W.L." or "Y.T.".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this is a rifle that is derived from the 1894 Swedish Carbine. It differs from the carbine by having a considerably longer barrel, longer rear sight, straight bolt handle (some specimens encountered have a turned down bolt handle), approximately 100MM of exposed barrel at muzzle and sling swivels mounted under the buttstock and the lower barrel band. Note, a number of 1896 Swedish Rifles were converted to 1938 Swedish Short Rifle configuration, these rifles although retaining their original manufacture dates are Model 1938 Swedish Short Rifles.

- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- the model designation does not appear on the firearm. - this model was produced from 1899 to circa 1940. - Mauser only produced these rifles between 1899 and 1904.
Manufacturer	- the manufacturer's name appears on the receiver ring.
Action	- turn bolt operated.
Serial Number	- appears on the left side of the receiver/frame.
Shots	- integral magazine.
Remarks	- this is a rifle version of the 1894 Swedish Carbine. It differs from the carbine by having a considerably longer barrel, longer rear sight, straight bolt handle (some specimens encountered have a turned down bolt handle), approximately 100MM of exposed barrel at muzzle and sling swivels mounted under the buttstock and the lower barrel band. Note, a number of 1896 Swedish Rifles were converted to 1938 Swedish Short Rifle configuration, these rifles although retaining their original manufacture dates are Model 1938 Swedish Short Rifles.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation is not marked on the firearm. The official Swedish military designation was Gevär m/96-38.
- between 1938 and 1940 the Carl Gustafs factory converted some 30,000 model 1896 Swedish rifles into a shorter configuration to make the rifle easier to handle for infantry troops. This conversion included installing a shorter barrel, shortening the forward portion of the stock and the installation of a new rear sight.
- due to the success of this conversion the same basic rifle was adopted circa 1941 as the model 1938 Swedish Short Rifle (official Swedish nomenclature was Gevär m/38).
- features include: straight bolt handle (note that as parts are readily interchangeable some examples may be found with a non-original turned down bolt handle, these will usually have a mis-matched, partial serial number); blued finish on metal (except bolt); stock and handguard will be walnut, beech, ash, oak, maple or elm depending on the year that the rifle was originally manufactured; two types of rear sight were installed on this model, both were known as the Vasteras Metallverken Refined Sight Adapter, the first type was graduated from 300 meters to 600 meters in 50 meter increments for use with the 156 grain bullet, the second type was intended for use with the newer m/94/41 loading that used the 139 grain spire point (spitzer) bullet and was graduated from 250 meters to 600 meters in 50 meter increments (some will also have a decal or plate attached to the buttstock that had a chart with ballistic information that allowed the user to calculate hold-over or under); nosecap has a bayonet mounting point and a cleaning rod is stored in the stock below the barrel.
- some examples were fitted with a barrel that was threaded at the muzzle for a blank firing attachment. When the attachment was not on the rifle a thread protector was installed in its place. Those examples with the threaded muzzle were officially known by the Swedish military as the Gevär m/96-38B.

Manufacturer

- based on available information it would appear that Carl Gustafs Stads Gevarsfaktori made these conversions between 1938 and 1940. These conversions were done on existing model 1896 Swedish rifles produced by Mauser, Carl Gustafs Stads Gevarsfaktori and Husqvarna. Husqvarna also produced receivers/frames and complete rifles beginning in 1941, and examples with Husqvarna markings are correctly identified as the model 1938 Swedish Short Rifle. This causes much confusion as the original manufacturer markings were not removed from the top of the receiver/frame so many have been identified solely to the original manufacturer. (An example would be a Mauser marked receiver/frame, dated 1900. Mauser only produced the model 1896 Swedish Rifle in 1899 and 1900 (some references put the date as late as 1904) so they could not have produced the model 1896/38 Swedish Short Rifle).

Serial Number

- serial number is stamped on the left side of the receiver/frame.
- serial numbers appear to have been numeric only.
- Note: in many instances the serial number will have an inspector's initials stamped in front of it; these initials are usually a noticeable distance in front of the serial number, are not usually "in-line" with the numbers and should not be included as being part of the actual serial number for the firearm.
- inspector's initials stamped in front of serial number may be: "B.F.", "B.H.", "G.F.", "H.A.", "H.K.", "H.R.", "J.V.", "K.B.", "M.B.", "O.G.", "R.L.", "W.L." or "Y.T.".

Barrel

- although references indicate that barrels were 622mm long, actual measurement of several examples were between 608mm and 610mm.

Shots

- internal magazine with a hinged floorplate.

Other Markings

- the original date of manufacture and manufacturer markings are marked on the receiver ring.
- Mauser produced receivers/frames will have a date between 1899 and 1904 (references conflict as to the actual year production ceased).
- Carl Gustafs Stads Gevärsfaktori produced receivers/frames will be dated between 1899 and circa 1925 (References conflict on the year production ceased. It is believed that while production of the model 1896 Swedish Rifle continued into the early 1930's, actual production of receivers/frames ceased around 1925).
- Husqvarna produced receivers/frames cause much confusion. It would appear that the model 1896 Swedish Rifle was produced and dated 1943 or 1944. Those examples dated between 1941 and 1944 with a turned down bolt handle in "short" configuration would be correctly identified as a newly built model 1938 Swedish Short Rifle.
- the initials of the inspector (usually two alpha characters) will also be found on various components.

Remarks

- this conversion/model was so well received that when new rifles were ordered for the Swedish military it was specified that they be built to the same specifications with only minor modifications. The most identifiable modification is that these newly built model 1938 Swedish Short Rifles had a turned down bolt handle. In 1941 a contract was issued to Husqvarna Vapenfabriks Aktiebolag (known as Husqvarna) for rifles that were officially designated as the Gevär m/38 (commonly known as the model 1938 Swedish Short Rifle).

Model

- the model designation is not marked on the firearm. The official Swedish military designation was Gevär m/96-38.
- between 1938 and 1940 the Carl Gustafs factory converted some 30,000 model 1896 Swedish rifles into a shorter configuration to make the rifle easier to handle for infantry troops. This conversion included installing a shorter barrel, shortening the forward portion of the stock and the installation of a new rear sight.
- due to the success of this conversion the same basic rifle was adopted circa 1941 as the model 1938 Swedish Short Rifle (official Swedish nomenclature was Gevär m/38).
- features include: straight bolt handle (note that as parts are readily interchangeable some examples may be found with a non-original turned down bolt handle, these will usually have a mis-matched, partial serial number); blued finish on metal (except bolt); stock and handguard will be walnut, beech, ash, oak, maple or elm depending on the year that the rifle was originally manufactured; two types of rear sight were installed on this model, both were known as the Vasteras Metallverken Refined Sight Adapter, the first type was graduated from 300 meters to 600 meters in 50 meter increments for use with the 156 grain bullet, the second type was intended for use with the newer m/94/41 loading that used the 139 grain spire point (spitzer) bullet and was graduated from 250 meters to 600 meters in 50 meter increments (some will also have a decal or plate attached to the buttstock that had a chart with ballistic information that allowed the user to calculate hold-over or under); nosecap has a bayonet mounting point and a cleaning rod is stored in the stock below the barrel.
- some examples were fitted with a barrel that was threaded at the muzzle for a blank firing attachment. When the attachment was not on the rifle a thread protector was installed in its place. Those examples with the threaded muzzle were officially known by the Swedish military as the Gevär m/96-38B.

Manufacturer

- "HUSQVARNA VAPENFABRIKS" may be marked on the receiver ring.
- based on available information it would appear that Carl Gustafs Stads Gevarsfaktori made these conversions between 1938 and 1940. These conversions were done on existing model 1896 Swedish rifles produced by Mauser, Carl Gustafs Stads Gevarsfaktori and Husqvarna. Husqvarna also produced receivers/frames and complete rifles beginning in 1941, and examples with Husqvarna markings are correctly identified as the model 1938 Swedish Short Rifle. This causes much confusion as the original manufacturer markings were not removed from the top of the receiver/frame so many have been identified solely to the original manufacturer. (An example would be a Mauser marked receiver/frame, dated 1900. Mauser only produced the model 1896 Swedish Rifle in 1899 and 1900 (some references put the date as late as 1904) so they could not have produced the model 1896/38 Swedish Short Rifle).

Action

- turn-bolt design with a straight bolt handle.

Serial Number

- the serial number is marked on the left side of the receiver/frame. Samples will sometimes be marked with the inspector's initials (two alpha characters). These are not part of the serial number.
- the last three digits of the serial number are usually repeated on almost all other components.

Barrel

- although references indicate that barrels were 622mm long, actual measurement of several examples were between 608mm and 610mm.

Shots

- internal magazine with a hinged floorplate.

Other Markings

- the original date of manufacture and manufacturer markings are marked on the receiver ring.
- Mauser produced receivers/frames will have a date between 1899 and 1904 (references conflict as to the actual year production ceased).
- Carl Gustafs Stads Gevärsfaktori produced receivers/frames will be dated between 1899 and circa 1925. (References conflict on when production ceased. It is believed that while production of the model 1896 Swedish Rifle continued into the early 1930's, actual production of receivers/frames ceased around 1925).
- Husqvarna produced receivers/frames cause much confusion. It would appear that the model 1896 Swedish Rifle was produced and dated 1943 or 1944. Those examples dated between 1941 and 1944 with a turned down bolt handle in "short" configuration would be correctly identified as a newly built model 1938 Swedish Short Rifle.
- the initials of the inspector (usually two alpha characters) will also be found on various components.

Remarks

- this conversion/model was so well received that when new rifles were ordered for the Swedish military it was specified that they be built to the same specifications with only minor modifications. The most identifiable modification is that these newly built model 1938 Swedish Short Rifles had a turned down bolt handle). In 1941, a contract was issued to Husqvarna Vapenfabriks Aktiebolag (known as Husqvarna) for rifles that were officially designated as the Gevär m/38 (commonly known as the model 1938 Swedish Short Rifle).

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation is not marked on the firearm. The official Swedish military designation was Gevär m/96-38.
- between 1938 and 1940 the Carl Gustafs factory converted some 30,000 model 1896 Swedish rifles into a shorter configuration to make the rifle easier to handle for infantry troops. This conversion included installing a shorter barrel, shortening the forward portion of the stock and the installation of a new rear sight.
- due to the success of this conversion the same basic rifle was adopted circa 1941 as the model 1938 Swedish Short Rifle (official Swedish nomenclature was Gevär m/38).
- features include: straight bolt handle (note that as parts are readily interchangeable some examples may be found with a non-original turned down bolt handle, these will usually have a mis-matched, partial serial number); blued finish on metal (except bolt); stock and handguard will be walnut, beech, ash, oak, maple or elm depending on the year that the rifle was originally manufactured; two types of rear sight were installed on this model, both were known as the Vasteras Metallverken Refined Sight Adapter, the first type was graduated from 300 meters to 600 meters in 50 meter increments for use with the 156 grain bullet, the second type was intended for use with the newer m/94/41 loading that used the 139 grain spire point (spitzer) bullet and was graduated from 250 meters to 600 meters in 50 meter increments (some will also have a decal or plate attached to the buttstock that had a chart with ballistic information that allowed the user to calculate hold-over or under); nosecap has a bayonet mounting point and a cleaning rod is stored in the stock below the barrel.
- some examples were fitted with a barrel that was threaded at the muzzle for a blank firing attachment. When the attachment was not on the rifle a thread protector was installed in its place. Those examples with the threaded muzzle were officially known by the Swedish military as the Gevär m/96-38B.

Manufacturer

- based on available information it would appear that only Carl Gustafs Stads Gevarsfaktori produced these conversions between 1938 and 1940. These conversions were done on existing model 1896 Swedish rifles produced by Mauser, Carl Gustafs Stads Gevarsfaktori and Husqvarna. Husqvarna also produced receivers/frames and complete rifles beginning in 1941, so those examples with Husqvarna markings are correctly identified as the model 1938 Swedish Short Rifle. This causes much confusion as the original manufacturer markings were not removed from the top of the receiver/frame so many have been identified solely to the original manufacturer. (An example would be a Mauser marked receiver/frame, dated 1900. Mauser only produced the model 1896 Swedish Rifle in 1899 and 1900 (some references put the date as late as 1904) so they could not have produced the model 1896/38 Swedish Short Rifle).

Serial Number

- the serial number is marked on the left side of the receiver/frame. Samples will sometimes be marked with the inspector's initials (two alpha characters). These are not part of the serial number.
- the last three digits of the serial number are usually repeated on almost all other components.

Barrel

- although references indicate that barrels were 622mm long, actual measurement of several examples were between 608mm and 610mm.

Shots

- internal magazine with a hinged floorplate.

Other Markings

- the original date of manufacture and manufacturer markings are marked on the receiver ring.
- Mauser produced receivers/frames will have a date between 1899 and 1904 (references conflict as to the actual year production ceased).
- Carl Gustafs Stads Gevärsfaktori produced receivers/frames will be dated between 1899 and circa 1925. (References conflict on when production ceased. It is believed that while production of the model 1896 Swedish Rifle continued into the early 1930's, actual production of receivers/frames ceased around 1925).
- Husqvarna produced receivers/frames cause much confusion. It would appear that the model 1896 Swedish Rifle was produced and dated 1943 or 1944. Those examples dated between 1941 and 1944 with a turned down bolt handle in "short" configuration would be correctly identified as a newly built model 1938 Swedish Short Rifle.
- the initials of the inspector (usually two alpha characters) will also be found on various components.

Remarks

- this conversion/model was so well received that when new rifles were ordered for the Swedish military it was specified that they be built to the same specifications with only minor modifications. The most identifiable modification is that these newly built model 1938 Swedish Short Rifles had a turned down bolt handle). In 1941, a contract was issued to Husqvarna Vapenfabriks Aktiebolag (known as Husqvarna) for rifles that were officially designated as the Gevär m/38 (commonly known as the model 1938 Swedish Short Rifle).

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm.
- this is a single shot conversion of an 1896 Swedish Mauser as originally made at Carl Gustav, Mauser Werke or Husqvarna Wapinfabriks. The conversion was accomplished at the Carl Gustov factory after 1938 and involved altering the bolt and barrel for firing the 22 rimfire cartridge.

Manufacturer

- Mauser Werke, Carl Gustafs Stads Gevarsfaktori or Husqvarna may be marked on the receiver ring.

Action

- turn-bolt design with a straight bolt handle.

Serial Number

- serial number may be marked on the receiver/frame under the right grip pannel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - although this is a single shot conversion to .22 calibre, the original 6.5 X 55 calibre internal magazine may still be present.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm.
- this is a standard Model 1896 Swedish Rifle adapted to mount a telescopic sight.
- this model differs from the standard 1896 Rifle by having a metal telescopic sight mounting base pinned and screwed to the left side of the receiver/frame and the bolt handle bent down.

Manufacturer

- the manufacturer's name and year of manufacture are marked on the top of the receiver ring.

Action

- turn bolt action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number may be obscured by the telescopic sight mounting base. - serial numbers appear to have been numeric only. - Note: in many instances the serial number will have an inspector's initials stamped in front of it; these initials are usually a noticeable distance in front of the serial number, are not usually "in-line" with the numbers and should not be included as being part of the actual serial number for the firearm. - inspector's initials stamped in front of serial number may be: "B.F.", "B.H.", "G.F.", "H.A.", "H.K.", "H.R.", "J.V.", "K.B.", "M.B.", "O.G.", "R.L.", "W.L." or "Y.T.".
Shots	- internal box magazine.
Other Markings	- the date of manufacture appears on the receiver ring.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm.
- this is a conversion of the Mauser 1896 Swedish Rifle that was developed for target shooting.
- features include: hooded front and peep rear sight; box magazine; knurled trigger and trigger guard; half stock and hand guard; single band; straight or turn down bolt; sling swivel; blued finish and uncheckered stock with cheekpiece.
- a military version equipped with a cleaning rod mounted in the stock was also available.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is marked on the top ring.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - serial numbers appear to have been numeric only. - Note: in many instances the serial number will have an inspector's initials stamped in front of it; these initials are usually a noticeable distance in front of the serial number, are not usually "in-line" with the numbers and should not be included as being part of the actual serial number for the firearm. Research literature and observed specimens have indicated the following 'incomplete' listing of inspector's initials which may be encountered G.B., H.K., J.V., B.F.,V.T.
Shots	- internal magazine with a removeable floorplate.
Other Markings	- "CARL GUSTAFS STADS GEVARSFAKTORI", the manufacturing date and the Swedish crest is marked on the top ring.

Also Known As/Product Code	- WZ is the Polish acronym for Wzor (Model)
Other Markings	- polish eagle, arsenal name and date of manufacture appear on the receiver/frame ring.
Remarks	- this rifle is identical in all respects (except for markings and tangent rear sight) to the post 1917 German Gewehr 1898 rifle. - the machinery used to produce these rifles was ceded to Poland as war reparations from Germany in 1919. In addition to machinery, Poland received a quantity of finished and semi finished parts which were incorporated into Polish Wz 98a Rifles.

FRT Report

Firearm Reference Number (FRN): 1583
Make: Mauser
Model: 1898 AZ Carbine

Summary

Make:	Mauser
Model:	1898 AZ Carbine
Manufacturer:	Amberg Arsenal
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1583 - 1	8MM MAUSER	5	590	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
1583 - 2	8MM MAUSER	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- Model designation is not marked on the firearm.
- "Kar. 98" is marked on the left side of the receiver/frame.
- Manufactured from 1909 to 1912.
- Total production by all the manufacturers was approximately 1,500,000 units.

Manufacturer

- "AMBERG" is marked on the top of the receiver ring above the year of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- the serial number is marked on the left front side of the receiver/frame. - the serial number may have a letter suffix.
Shots	- internal box magazine.
Remarks	- This carbine is mechanically identical to the Gewehr 1898 differing in being considerably shorter, having a nosecap which has sight protecting ears and a distinctive 'elbow' stacking rod, a turned down bolt handle, tangent rear sight and a smaller diameter receiver ring. A point of confusion is that after World War I the German Army changed the model designation of these carbines from 1898 AZ to 1898 a, the markings on the carbine were not changed. Some of these carbines will have date in the 1920's in addition to the manufacture date (1907-1918) indicating re-issue to the post World War I German Army.

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm.
-"Kar. 98" is marked on the left side of the receiver/frame.
- manufactured from 1908 to 1918.
- features include: blued receiver/frame and round barrel, adjustable rear sight located in front of the receiver/frame ring, globe front sight, safety located on the rear of the bolt, wooden hand guard located on top of the barrel, two barrel bands, bayonet mount at the front of the stock, may have a cleaning rod located under the barrel and a full length wooden stock.
- this model may be distinguished from most other models which are marked "KAR. 98" by the presence of a raised rib encircling the forward edge of the receiver ring.

Manufacturer

- "ERFURT" is marked on the top of the receiver ring above the date of manufacture.

Action

- turn bolt operated.

Serial Number

- the serial number is marked on the left front side of the receiver/frame.
- the serial number may have a one or two letter suffix.

Shots

- internal box magazine.

Remarks

- This carbine is mechanically identical to the Gewehr 1898 differing in being considerably shorter, having a nosecap which has sight protecting ears and a distinctive 'elbow' stacking rod, a turned down bolt handle, tangent rear sight and a smaller diameter receiver ring. A point of confusion is that after World War I the German Army changed the model designation of these carbines from 1898 AZ to 1898 a, the markings on the carbine were not changed. Some of these carbines will have dates in the 1920's in addition to the manufacture date (1907-1918) indicating reissue to the post World War I German Army.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Karab.98b" is marked on the left side of the receiver/frame.
- manufactured or converted "Gew.98" from 1923 to 1934.

Manufacturer

- "SIMON & Co" and "SUHL" may be marked on the top of the receiver ring.
- converted "Gew.98"s may retain their original maker's name and date of manufacture and model designations.
- "Simpson & Company" was licensed by the allies to produce arms for the German army under the conditions imposed by the treaty of Versailles.
- it is believed that "Simpson & Company" were the sole manufacturer/converter of firearms to "1898 B Carbine" specifications.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left front side of the receiver/frame. - the serial number may have a letter suffix.
Shots	- internal box magazine.
Other Markings	- some rifles will have two dates on the receiver ring.
Remarks	- this rifle is mechanically identical to the Gewehr 1898 differing in having scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. Most of these rifles are conversions of existing Gewehr 98 and as such will have a date in the 1920's in addition to the original manufacture date (1898-1918). Despite the German designation "Karabiner 1898b" this is a full length rifle.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Gew 98" is marked on the left side of the receiver/frame.
- this Mauser designed military rifle was adopted by the German army in 1898.
- manufactured from 1898 to 1918.
- features include: wood stock; straight bolt handle; under-barrel cleaning rod; blued finish.
- this rifle is visually distinctive by its "ski jump" rear sight configuration (in the 1930's some of these rifles were retrofitted with conventional tangent rear sights).
- some of these rifles will have a date in the 1920's in addition to the date of original manufacture (1898-1918) indicating reissue to the post World War I German Army.

Manufacturer

- the manufacturer's name appears on the top of the receiver ring above the date of manufacture.

Action

- turn bolt operated.

Serial Number

- appears on the left font end of the receiver/frame with a suffix letter.

Shots

- internal box magazine.

Remarks

- this Mauser designed bolt action military rifle was adopted by Germany in 1898. This rifle is visually distinctive by its 'ski jump' rear sight configuration (in the 1930's some of these rifles were retrofitted with conventional tangent rear sights). Some of these rifles will have a date in the 1920's in addition to the date of manufacture (1898-1918) indicating reissue to the post World War One German Army.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- no model name is marked on this firearm. - model designation is representative of the fact that this rifle is basically a copy of the Mauser Model 1898 rifle utilizing a modified bolt system derived from the Ariska Model 38 rifle. - produced circa 1931 to 1939; exact dates of production are uncertain. - turn bolt operated, staggered column internal box magazine with removable floor plate. - additional features: - bolt assembly retains the Mauser 98 safety however the bolt is bored out from the rear to accept the mainspring which is similar in design to the Arisaka model 38; the cylindrical "false" cocking piece extension which is bolted not screwed to the rear of the bolt serves only as a fixed guide for the mainspring, - two gas escape holes are located on the top of the receiver ring, - removable sliding dust cover that operates with the bolt, - Mauser 98 style bolt stop located at the rear left side of the receiver/frame, - straight bolt handle with plum-shaped bolt handle knob, - tangent leaf rear sight graduated to 2000 metres, - pistol grip stock with an upper hand guard extending from the front of the receiver ring to just beyond the lower barrel band, - lower barrel band has an underside sling swivel, - a quick release type sling swivel is fitted behind the pistol grip of the stock, - blued finish.
Manufacturer	- the name of the manufacturer does not appear on the firearm, however, the Mukden Arsenal symbol will appear on the top of the receiver ring; this symbol consists of; two concentric circles, the smaller inner circle has crossed-lines inside with a longer vertical arm extending through and past the outer circle, the outside line of the outer circle does not completely enclose the inner circle but forms a reverse v-type shape at the bottom of the symbol. - the Mukden Arsenal was located in the Chinese province of Manchuria; after the invasion of Manchuria in 1931 by the Japanese, the Mukden Arsenal continued to produce firearms for the Japanese armed forces until circa 1945.
Action	- turn bolt operated.
Serial Number	- serial number is usually marked on the receiver/frame and is located on the left side of the receiver ring. - five and six digit numbers without prefix or suffix have been observed.
Shots	- internal box magazine.

Notes

Make	- the make is not marked on the firearm.
Model	- "W.98" is marked on the left side of the receiver/frame; this is a Polish manufactured version of the German G98 rifle, adopted by Poland in 1924 as the "WZ24", or "Wzor 24" (Model of 1924). - these rifles were produced on machinery originally purchased from Germany, when the Danzig Arsenal was closed, and are identical in most respects to the German model, except for the markings. - features include: blued finish; open adjustable "Lange Vizier" ("ski jump"-style) sights; under barrel ramrod and bayonet lug; H-style nose cap; mid-barrel band; pistol-grip wooden stock.
Manufacturer	- "P.F.K. WARSZAWA", with a manufacture date, is marked on the firearm.
Action	- turn-bolt design.
Serial Number	- serial number marked on the receiver/frame.
Shots	- internal box magazine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Gew. 98" may be marked on the left side of the receiver/frame. The top of the receiver/frame is marked "Oviedo 1928".
- in the 1920s and 1930s, large quantities of surplus World War I "Mauser 1898s" were converted to fire "7MM MAUSER" by "Fabrica de Armas, Oviedo" .

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- marked on top of the receiver ring is a "crown" cupped by the words "Fabrica de Armas" and below this is "Oviedo" and the modification date, eg: 1928.
Serial Number	- marked on the side of the receiver/frame, may have a letter prefix.
Calibre	- "Entubados a 7m/m" is marked on the firearm, this indicates the conversion to "7MM MAUSER".
Shots	- internal box magazine.
Remarks	- these rifles are Spanish rebuilds of surplus World War I German Gew 98 Rifles. Work entailed rebarreling from the original 8MM MAUSER to 7MM MAUSER, removing German markings, restamping with Spanish arsenal and date markings, fitting a tangent rear sight and a new handguard.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation does not appear on the firearm.
- manufactured circa 1924 to 1930.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name appears on the top of the receiver ring.
Serial Number	- appears on the left front end of the receiver/frame, may have a letter prefix.
Other Markings	- Czech proof marks appear on the left side of the receiver ring and these incorporate the last two digits of the year of manufacture (23 for 1923).
Remarks	- this rifle is one of the first commercial Brno manufactured Mauser 98 action military firearms and is identical to the Mexican Model 1912 Rifle. In addition to being adopted by the Republic of Czechoslovakia this rifle was sold in significant quantity to Turkey and China.

- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- manufactured in 1906 and 1907.
- model designation is not marked on the firearm.
- year of manufacturer is usually marked on the receiver ring.
- features include: 98 Mauser style bolt gas shroud; straight grip, one-piece stock with upper hand guard; single barrel band and stock end cap with bayonet lug are fitted; tangent rear sight and fixed post front sight with protective wings; straight bolt handle; blued metal surfaces; sling swivels on barrel band and butt stock.
- overall length for 737mm barrel is 1232mm (48.5"), average weight is 3.98kg (8.75lbs).

Manufacturer

- the maker's identifier is marked on the left side of the receiver/frame.

Serial Number

- marked on the side of the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings	- Coat of Arms of Republic of Mexico and date of manufacture on receiver ring. "Made in Austria" may be stamped on the receiver/frame.
Remarks	- this rifle is mechanically identical to the German Gewehr 1898. It has a small diameter receiver ring as found on the German 1898 AZ Carbine.

128869 - 1	8MM MAUSER	5	584	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation appears in part on the receiver ring in Arabic script.
- this is a Model 1903 Turkish Rifle originally manufactured by Mauser and reworked in Yugoslavia during the 1920's to a Short Rifle configuration.
- the re-work entailed fitting a new 8MM MAUSER calibre barrel, shorteneing the original stock, fitting a tangent rear sight and a new handguard of Mauser Model 1924 style. Original Turkish markings were left intact.

Manufacturer

- manufacturer's name does not appear on the firearm.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- new serial number is usually marked on the left side of the receiver ring. - original serial number appears on the top of the receiver ring in Turkish numerals.
Shots	- internal box magazine.
Other Markings	- original manufacturer's name and model designation on left side of receiver (in Arabic script), toughra (Turkish property mark) on top of receiver ring.
Remarks	- this is a Model 1890 Turkish Mauser Rifle reworked in Yugoslavia during the 1920's. Work entailed fitting a new 8MM MAUSER calibre barrel, shorteneing the original stock, fitting a tangent rear sight and a new handguard of Mauser Model 1924 style. Original Turkish markings were left intact.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "MAUSER" is not marked on the firearm. - "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser. - Wilhelm Mauser was born in 1834 and died in 1882. - Paul Mauser was born in 1838 and died in 1914. - Paul Mauser was officially named Peter Paul Mauser. - Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.. - Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872. - Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874. - Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884. - Mauser was established under the German proof law as a proof house in 1898. - Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923. - Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975. - Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.
Model	- 1903 Turkish Rifle was originally manufactured by Mauser. - in the 1930's these rifles were re-manufactured in Turkey. - the original markings were ground off and the receiver ring was re-stamped with the name of the Turkish State Arsenal located in Ankara or Kirikkale (K. Kale) and the date the rifle was re-worked. - this rifle is mechanically identical to the German Gewehr 1898.
Manufacturer	- the manufacturer marking may be marked on top of the receiver/ring. - at least two variations of manufacturer's markings are known to exist. Factory markings appear as a crescent moon with a star between the two points of the crescent moon. The letter "T" will be on the left of the star and the letter "C" will be on the right side of the star (the "TC" denotes "Turkiye Cumhuriyeti" or "Turkish Republic"). The left side of the crescent moon will have the letters "AS" with the letters "FA" on the right side of the crescent moon or the "ASFA" will be below the moon (the "AS FA" denotes "Askeri Fabrika" which literally translates to Soldier Factory). The left side of the crescent moon will have the letters "ANK" with the letters "ARA" on the right side of the crescent moon or "ANKARA" will be below the "ASFA", "Ankara" is the location of the factory. The last line of the marking is the year of manufacture or conversion.
Action	- turn-bolt design.
Serial Number	- the serial number is marked on the receiver/frame.
Calibre	- the calibre designaion may not be marked on the firearm.
Shots	- internal box magazine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- The model designation appears on the left side of the receiver in Arabic script.

Manufacturer

- The manufacturer's name appears on the left side of the receiver in Arabic script.

Serial Number

- Appears on the side of the receiver in "Turkish" numerals on unmodified carbines (on modified rifles serial numbers are in Western numerals).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- As originally manufactured these carbines were chambered for the 7.65X53MM cartridge, in the 1930's they were re-barrelled to 8MM MAUSER.
Other Markings	- As originally manufactured, model and manufacturer are stamped on the receiver in Arabic script, in the 1930's these carbines were reworked in Turkey, the original markings were ground off and the receiver marked in Roman alphabet with the name of the Turkish arsenal (Ankara) and the re-work date.
Remarks	- This carbine is mechanically identical the Turkish Model 1903 Rifle. It differs in overall length and in having a full length stock with a nosecap with front sight protecting ears. These carbines underwent modifications to calibre (as originally manufactured, calibre was 7.65X53MM, many were rebarreled to 8MM MAUSER) and markings during the 1930's.

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MAUSER MOD. 1910" is marked on the receiver/frame.
- "Costa Rican" national crest is marked on the top of the receiver ring.
- a number of these rifles have been converted to "carbine" configuration, by shortening the barrel to 559mm/22", and a further number of those have been converted to 30-06 SPRG, by milling a notch at the rear of the receiver ring to allow the longer cartridges to be loaded from the top of the rifle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name is marked on the receiver/frame ring.
Serial Number	- marked on the left front end of the receiver/frame.
Shots	- internal box magazine.
Remarks	- this rifle is mechanically and visually identical to the Serbian Model 1910 Rifle, differing primarily in markings.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "1912" and the "Mexican" national crest are marked on the top of the receiver ring.
- this rifle is mechanically identical to the 1912 Chilean Rifle differing only in markings.

Manufacturer

- the manufacturer's name is marked on the left side of the receiver/frame.

Action

- turn bolt action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left front side of the receiver/frame. - the serial number may have a letter prefix.
Shots	- internal box magazine.
Other Markings	- Coat of arms of the Republic of Mexico appears on the receiver ring.

- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MODELO 1912-61" over "NATO" is marked on the receiver ring below the Chilean national crest.
- this is a 1912 Chilean Mauser, that was re-chambered to fire the 7.62MM NATO cartridge circa 1961 for the Chilean military.
- this rifle is mechanically identical to the Chilean Model 1912 Rifle.
- features include: large ring receiver/frame with rounded full depth cut out on the left side to allow for charger loading from a stripper clip; bare steel receiver/frame; blued barrel; straight bolt handle; safety lever on rear of bolt; hinged floor plate; one piece semi-pistol grip stock with re-enforcing bolt; upper hand guard; one barrel band with integral sling swivel; tangent rear sight graduated to 2000 meters; nose cap with bayonet lug and sling hook; cleaning rod underneath barrel; and pivoting sling swivel on the bottom of the butt stock.

Manufacturer

- the original manufacturer's name and address "WAFFENFABRIK STEYR" over "AUSTRIA" are marked on the left side of the receiver/frame.
- "Fabricas y Maestranzas del Ejercito (FAMAE)" converted the Mauser 1912 Chilean Rifle, 1912 Chilean Short Rifle and 1935 Chilean Rifle to fire the 7.62MM NATO cartridge, circa 1961.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- observed example was marked on the left side of the receiver/frame and consisted of a letter prefix and four numbers. - serial number may be repeated on the bolt handle.
Shots	- internal box magazine.

20829 - 3	7.65MM	8	140	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Non-Commercial Customization	

Notes

Make

- MAUSER is marked on the left side of the firearm.

Model

- an accessory barrel is available for this model with a 4MM UBUNGSMUNITION Calibre and 133mm barrel.
- the earliest model (approximately the first 2900) features a "stepped-down" profile to the top of the slide as well as a differently shaped extractor. This resulted in firearm being referred to as the "1914 Humpback". After serial number 3000, this feature disappeared.
- around serial number 525000, the grip contour changed and the pistol was termed the "1934".
- manufactured from 1914 to approximately 1934.

Manufacturer

- MAUSER is marked on the left side of the firearm.

Serial Number

- the complete serial number is marked on the left side of the slide.
- range: began at 3000 and continued to 525000.
- the last three digits are repeated at the rear of the receiver, on the barrel lug and on the underside of the sideplate.
- examples have been noted with the complete serial number marked on the rear of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- very few of the longer barrel lengths will be encountered and most of these will be in the lower serial number range.
Calibre	- "7.65" is marked on the right side of the firearm.
Shots	- detachable box magazine. - the 4MM UBUNGSMUNITION accessory barrel does not use a magazine, it is loaded one cartridge at a time.

28886 - 2	7.65MM	8	108	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- in 1914, MAUSER developed a larger frame model of the popular Model "1910", this time in 7.65MM/32 AUTO.
- the first 2900 (approximately) had a "step-down" profile to the slide as well as a differently shaped extractor. This model became known as the "Humpback". After serial number 3000, this feature disappeared.

Serial Number

- the serial number is located on the forward section of the left side of the slide.
- the last three digits are repeated at the rear of the frame, on the barrel lug, and on the underside of the sideplate.

Barrel

- long barrels were offered in the earliest days and are considered uncommon.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation does not appear on the firearm.
- this rifle is mechanically identical to the Spanish Model 1893 Rifle, but with a shorter barrel and turned down bolt handle and no stock cut out.
- features include: small ring receiver/frame with rounded full depth cut out on the left side to allow loading from a stripper clip; additional gas escape hole in the bolt body and left side of receiver ring; tangent rear sights; one piece straight wrist stock with upper hand guard and a single barrel band and no nose cap; pivoting sling swivel on the left side of the barrel band and a sling bar on the left side of the butt stock. This firearm is not made to mount a bayonet.
- overall length of firearm is 940mm.

NOTE: many Spanish rifles were converted from the original 7MM MAUSER cartridge to 8MM MAUSER in the 1940's and to 7.62MM NATO in the 1960's for Spanish Reserve Units.

Manufacturer

- a crown and "FABRICA DE ARMAS" and "OVIEDO" plus year of manufacturer are marked on top of the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame.
Calibre	- marked on the left side of the receiver/frame.
Shots	- integral staggered column, flush mounted box magazine.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "MAUSER" is not marked on the firearm. - "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser. - Wilhelm Mauser was born in 1834 and died in 1882. - Paul Mauser was born in 1838 and died in 1914. - Paul Mauser was officially named Peter Paul Mauser. - Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.. - Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872. - Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874. - Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884. - Mauser was established under the German proof law as a proof house in 1898. - Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923. - Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975. - Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.
Model	- model designation does not appear on the firearm. - manufactured from 1916 to 1951, and many were subsequently remanufactured for reserve units until the wholesale adoption of the CETME "L" series, after which these rifles were widely sold as surplus. - this rifle is mechanically identical to the Spanish Model 1893 Rifle, but with a shorter barrel and turned down bolt handle without stock cut-out. - features include: small ring receiver/frame with a rounded full depth cut out on the left side to allow loading from a stripper clip; additional gas escape hole in the bolt body and left side of receiver ring; rear sights - original model has a "Lange Vizier" type (ski-jump) rear sight and later production rifles have regular tangent rear sights; hinged or detachable magazine floor plate; one piece straight wrist stock with upper hand guard and a single barrel band and nose cap with bayonet lug and cleaning rod; pivoting sling swivel on the left side of the barrel band and a sling bar on the left side of the butt stock. NOTE: many of these rifles were converted from the original 7MM MAUSER cartridge to 8MM MAUSER in the 1940's and to 7.62MM NATO from the 1960's to the 1980s for Spanish Reserve Units. Many of these are likely to have been "sporterized" or rebarrelled/rechambered to other cartridges.
Manufacturer	- the manufacturer is not marked on the firearm, but it may bear Spanish military or militia property markings. - these firearms were remanufactured in 7.62mm NATO at either Oviedo or Coruna/Santa Barbara, but the original manufacturer's markings were removed, and often replaced with the "sword and fasces" logo of the Spanish nationalist government.
Action	- turn bolt design.
Serial Number	- serial number is marked on the receiver/frame. - observed example bore a "3Z" serial number prefix.
Calibre	- calibre is usually marked on the left side of the receiver ring.
Shots	- internal box magazine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MOD 1922" is marked on the right side of the receiver ring.
- Brazilian crest is marked on the receive ring.

Manufacturer

- "FAB NAT. D'ARMES de GUERRE" over "HERSTAL - BELGIQUE" is marked on the left side of the receiver/frame.

Serial Number

- serial number is marked on the left front side of the receiver/frame.

Shots

- internal box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - Coat of arms of the Republic of Brazil appears on the receiver ring.

Remarks - This carbine is one of the first commercial F.N. contract Mauser 98 action military firearms and is mechanically identical to the German Gewehr 1898. This carbine is distinctive by having a straight grip buttstock.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- Siamese's Charkra (throwing weapon with twelve flaming blades) logo is marked on the top of the receiver ring.
- "Type 47/66" in Sanskrit script is marked on the receiver ring.

Manufacturer

- the manufacturer's mark (three interlocked circles) appears on the left side of the receiver.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- appears on top of the receiver bridge in Siamese numerals.
Calibre	- the 8X52R SIAMESE cartridge is also known as SIAMESE MAUSER TYPE 66. This cartridge is similar to the earlier 8X50R Siamese Type 45 cartridge but not interchangeable with it.
Shots	- integral magazine.
Other Markings	- Markings are in Siamese (Thai) script, Siamese property mark (winged circular device known as 'Charkra') appears on receiver.
Remarks	- This rifle is mechanically identical to the Siamese 1903 rifle, it differs in being considerably shorter, having a shorter rear sight and side mounted sling swivels.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "VZ 24" is marked on the left side of the receiver/frame.
- "VZ" is the abbeviation for model.
- the "Czechoslovakian" national crest is marked on the top of the receiver ring.
- manufactured from 1924 to 1942.
- this rifle is mechanically identical to the 1923 Czech Rifle only longer.

Manufacturer

- the manufacturer's name is marked on the left side of the receiver/frame.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the front left side of the receiver/frame.
- the serial number may have a letter prefix, suffix or alpha/numeric sequence.

Shots

- internal box magazine.

Other Markings

- a great many markings may appear on these rifles and on some specimens the manufacturer's name appears on the top of the receiver ring, on others these markings appears on the left side of the receiver/frame, some specimens have a date (eg. 1937) on the top of the receiver ring and some have national crests (Romania, Guatemala and Czechoslovakia etc.).

Remarks

- this firearm was adopted as standard by the Czechoslovakian Army and was manuactured on contract to a host of Kingdoms and Republics including: Bolivia, Brazil, Equador, Guatemala, Latvia, Peru, Romania, Venezuela, China and Czechoslovakia in either 7MM, 7.65MM or 8MM MAUSER calibre.

FRT Report

Firearm Reference Number (FRN): 147441
Make: Mauser
Model: 1924 Ethiopian Carbine

Summary

Make:	Mauser
Model:	1924 Ethiopian Carbine
Manufacturer:	Fabrique Nationale Herstal (FN)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147441 - 1	8MM MAUSER	5	572	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is not marked on the firearm.
Model	- the model is not marked on the firearm; this is a specific variation of the Mauser FN 1924 Carbine, manufactured for Ethiopia during the 1930s, bearing the (at that time) Ethiopian crest, Ethiopian acceptance marks (and, occasionally, Ethiopian issue marks). Ethiopia ordered both Short Rifles and Carbines from FN during this period, which can be distinguished from each other by their bolt handles (straight - Short Rifle, turned down - Carbine). - features include: standard Mauser bolt-action rifle layout and operation; blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; and a large Ethiopian crest on the receiver ring; this crest is composed of a square crown above a banner in Amharic and a stylized lion's face, with laurels forming a border. - when accepted into Ethiopian service, these rifles were stamped with the Ethiopian "lion of Judah" (a crowned lion on three legs facing to the left, and holding a cross streaming a banner over the lion's back), on the left side of the receiver ring.
Manufacturer	- the manufacturer is marked on the left side of the receiver as "FAB. NAT. D'ARMES de GUERRE HERSTAL, BELGIQUE".
Action	- turn-bolt design.
Serial Number	- numbered on top of the receiver.
Shots	- internal box magazine.

- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver/frame in Persian characters.
- the "Persian" national crest is marked on the top of the receiver ring.
- about 10,000 of these rifles were purchased by Persia from Czechoslovakia together with some short rifles from Fabrique Nationale of Belgium circa 1930.
- features include: blued action and barrel; full military wood with upper barrel hand guard; straight bolt handle; hooded front sight and sliding graduated rear sight; steel butt plate.

Manufacturer

- the manufacturer's name may be marked on the left side of the receiver/frame in Persian characters.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number may be marked on the left side of the receiver/frame in Persian numerals.
Shots	- internal box magazine.
Other Markings	- the coat of arms of Persia appears on top of the receiver ring and Czech proof marks appear on the right side of the receiver/frame (crown over crossed swords)

Notes

Make	- the make is not marked on the firearm.
Model	- the model is not marked on the firearm; this is a version of the Czech Vz.24 Short Rifle, made for Romania during the 1920s and 1930s. These rifles can be identified by the presence of Romanian property markings OR one of two Romanian royal crests on the receiver ring, either that of King Carol II (a circle containing overlapping back-to-back "C"s, surrounded by laurels and topped with a crown), or that of King Michael I (four crowned "M"s, straddling "I"s, arranged base-to-base in a cross). During 1939 and 1940, a number of these rifles were produced without a royal crest (the monarchy being in exile at that time), and these rifles will bear only a date on the receiver. - the Romanian property markings include a "CM" in a circle, on the receiver above the serial number, and a squared "C" containing an "M" on the bottom of the bolt handle; "CM" stands for "Copsa Mica", an industrial town in the northern centre of the country. - features include: blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; sling swivels at barrel bands and bottom of the butt; and a straight bolt handle.
Manufacturer	- the manufacturer is marked on the left side of the receiver; these rifles were actually produced at a subsidiary of Zbrojovka Brno, located in Copsa Mica, Romania.
Action	- turn-bolt design.
Serial Number	- numbered on the receiver/frame.
Shots	- internal box magazine.

Notes

Make

- the make is not marked on the firearm.

Model

- "29/40" is marked on the firearm; "G29/40" stands for "Gewehr 29/40", or "1929 Rifle, 1940 Conversion".
- this is a 1929 Polish Short Rifle, as captured by the Germans, and converted to K98 configuration (mainly through the addition of a stock with sling cut-outs) for issue to the Luftwaffe; this conversion was performed at the Radom factory, which was placed under the control of the Steyr-Daimler-Puch conglomerate, and rifles so converted were marked with both their original Polish markings ("wz.29" and "F.B. Radom", with a Polish eagle) and conversion markings applied by Steyr ("660" - the early wartime factory code for Steyr, and "/40", appended to the original model on the receiver.
- features include: blued finish; adjustable open sights; round rifled barrel; tubular receiver/frame; turned down bolt handle; wing safety mounted on the rear of the bolt; full length wood semi-pistol grip stock with sling cut-out and swivel at the barrel band.

Manufacturer

- both manufacturers are marked on the firearm, one as "660" (an early wartime production code for Steyr-Daimler-Puch) and one as "F.B. RADOM" (Fabryka Broni Radom", the Polish arsenal. These rifles were conversions from 1929 Polish Short Rifles to the standard German K98 configuration, for issue to the German Luftwaffe, and the work of conversion was performed at the captured Radom arsenal, under the direction of Steyr, who had been placed in control of Radom after the German invasion of Poland.

Action

- turn-bolt design.

Serial Number

- numbered on the receiver/frame.

Shots

- internal box magazine.

Notes

Make	- the make is not marked on the firearm.
Model	- the model is not marked on the firearm; marked only "IOB" in a 6-sided polygon on top of the receiver. - this is a post-WW2 version of the FN 1930 Mauser Carbine, made on contract for the "Indische Ondernemers Bond"/"IOB" ("Indian Entrepreneurs Association"), for issue to police in the regions of Indonesia controlled by the Netherlands as the "Dutch East Indies". By 1949, Indonesia had become an entirely autonomous power, and many of these rifles ended up passing to the Indonesian state police, where they were marked with a five-pointed star above the original "IOB" logo. - features include: blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; sling swivels at barrel bands and bottom of the butt; and a turned-down bolt handle.
Manufacturer	- the manufacturer is marked on the left side of the receiver as "FAB. NAT. D'ARMES de GUERRE HERSTAL, BELGIQUE".
Action	- turn-bolt design.
Serial Number	- numbered on the receiver/frame.
Shots	- internal box magazine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation does not normally appear on the firearm however it may appear on the receiver ring of some contract firearms (eg. Greece).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name appears on the left side of the receiver.
Serial Number	- appears on the right front end of the receiver.
Other Markings	- Many nations adopted this carbine and their coats of arms appear on top of the receiver ring but some carbines have the F.N. logo on top of the receiver ring while yet others are unmarked.
Remarks	- This carbine is mechanically identical to the 1930 F.N. Short Rifle differing only in barrel length and shorter rear sight. This carbine was adopted as standard by many countries including Greece and Venezuela.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm, "Deutsche Reichspost" denotes "German Post Office".
- introduced circa 1933 - 1934. Date of manufacturer is normally marked on the top of the receiver ring just below the Mauser Logo.
- the Deutsche Reichspost rifle is an impoved verison of the "Standard Modell" with a turned down bolt handle and a recess in the stock for the bolt knob.
- this rifle is believed to be the forerunner to the model 98K, the only differences between the two is the method of retaining both upper and lower handguard bands.
- a single band spring is used on the 98K.
- on the Deutsche Reichspost model a band spring is used the lower band only, the upper band is held in place with a retaining pin.

Manufacturer

- "MAUSER - WERKE A:G.OBERNDOF A/N" is marked on the left side of the receiver/frame.
- "MAUSER" banner / trademark is marked on the top of the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the left side of the receiver/frame. - predates the serial numbering rationalization used by Germany during World War Two.
Shots	- internal magazine with removeable floorplate.
Other Markings	- on samples issued to the German Postal service the buttstock was marked " D.R.P", some samples display "CH.d.A" inside a circle (believed to be a military designation for "Chef des Amtes"), samples issued for use by the German Railway System were marked "D.R." for "Deutsche Reichsbahn".

FRT Report

Firearm Reference Number (FRN): 147447
Make: Mauser
Model: 1933 Standard Argentine Police Short Rifle

Summary

Make:	Mauser
Model:	1933 Standard Argentine Police Short Rifle
Manufacturer:	Mauser
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147447 - 1	7.65X53 MAUSER	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is marked on the firearm as "MAUSER", with the Mauser crest.
Model	- the model is not marked on the firearm; this is a specific variation of the Mauser 1933 Standard Model Short Rifle, manufactured specifically for issue to Argentine Provincial Police Forces during the 1930s, and bearing "POLICIA" chamber markings, along with the province of issue (Buenos Aires, Santa Cruz, La Pampa, etc. Argentina is split into 23 individual provinces). - features include: standard Mauser bolt-action rifle layout and operation; blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; sling swivels at bottom of butt and barrel band; and a metal butt plate.
Manufacturer	- the manufacturer is marked on the firearm as "MAUSER", with the Mauser crest.
Action	- turn-bolt design.
Serial Number	- numbered on the left side of the receiver/frame.
Shots	- internal box magazine.

Notes

Make

- the make is not marked on the firearm; this is a Chinese-manufactured copy of the Mauser 1898 infantry rifle, produced at several arsenals during the Sino-Japanese War, World War Two, and the Chinese Revolution.

Model

- the model is marked on the firearm, in Chinese ideographs reading "Zhong Zheng Shi"/"Chiang Kai Shek Type".
- this is a Chinese-manufactured copy of the Mauser Standard Modell Short Rifle, produced at several Nationalist arsenals during the Sino-Japanese War, World War Two, and the Chinese Revolution (1936 to 1949); these rifles bear Chinese or spurious German "Mauser" markings, have straight bolt handles, and a lower grade of fit and finish than genuine Mauser rifles.
- features include: blued finish; general Mauser-style layout and operation; open adjustable sights; sling swivels; semi-pistol-grip wooden stock and upper handguard; thumb cut-out for stripper-clip loading; straight bolt handles; and a Mauser-type flip-over wing safety.

Manufacturer

- the manufacturer is marked on the firearm with a bow and arrow within a geared wheel, and a reversed swastika (arms hooked to the left) inside an oblong box containing Chinese ideographs reading "Zhong Zheng Shi"/"Chiang Kai Shek Type".

Action

- turn bolt design.

Serial Number

- alpha/numeric serial number is marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - internal box magazine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model is marked on the firearm, in Chinese ideographs reading "Zhong Zheng Shi"/"Chiang Kai Shek Type".
- this is a Chinese-manufactured copy of the Mauser Standard Modell Short Rifle, produced at several Nationalist arsenals during the Sino-Japanese War, World War Two, and the Chinese Revolution (1936 to 1949); these rifles bear Chinese or spurious German "Mauser" markings, have straight bolt handles, and a lower grade of fit and finish than genuine Mauser rifles.
- features include: blued finish; general Mauser-style layout and operation; open adjustable sights; sling swivels; semi-pistol-grip wooden stock and upper handguard; thumb cut-out for stripper-clip loading; straight bolt handles; and a Mauser-type flip-over wing safety.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name appears on the receiver ring as a logo involving several Chinese characters.
Action	- turn-bolt design.
Serial Number	- appears on the side of the chamber and may have prefix or suffix letters.
Shots	- internal box magazine.
Other Markings	- the year of manufacture appears on the receiver ring as a two digit number, a hyphen and a one or two digit number eg. 25-6 (the 25 indicates the 25'th year since the Chinese revolution in 1911, hence 1936 and the 6 indicates the month of manufacture, hence June).
Remarks	- this rifle is a faithful copy of the Mauser model 1933 "Standard Modell" Short Rifle and was manufactured in China between 1936 and 1949.

Notes

Make

- the make is marked on the firearm as "MAUSER", with the Mauser crest.

Model

- the model is not marked on the firearm; this is a specific variation of the Mauser 1933 Standard Model Carbine, manufactured for Ethiopia during the 1930s, bearing Ethiopian acceptance marks (and, occasionally, Ethiopian issue marks). Ethiopia ordered both 1933 Short Rifles and 1933 Carbines during this period, which can be distinguished from each other by their bolt handles (straight - Short Rifle, turned down - Carbine) and the presence or absence of an accompanying stock cut-out to accommodate the bolt knob above the trigger-guard.
- features include: standard Mauser bolt-action rifle layout and operation; blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; sling cut-outs to allow for a sling on the left side; and a metal butt cap.
- when accepted into Ethiopian service, these rifles were stamped with the Ethiopian "lion of Judah" (a crowned lion on three legs facing to the left, and holding a cross streaming a banner over the lion's back), on the left side of the receiver ring.

Manufacturer

- the manufacturer is marked on the firearm as "MAUSER", with the Mauser crest.

Action

- turn-bolt design.

Serial Number

- numbered on the left side of the receiver/frame.

Shots

- internal box magazine.

- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "STANDARD-MODELL" is marked on the left side of the receiver/frame.

Manufacturer

- "MAUSER " is marked on the top of the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- appears on the left front end of the receiver.
Shots	- internal box magazine.
Remarks	- This rifle is identical to the 1933 Standard Modell Short Rifle differing only in having a turned down bolt handle with a scalloped recess in the stock under the bolt handle and provision for a side mounted sling. The "Standard Modell" Carbine was designed by Mauser for export sales and Bolivia, China, Ethiopia, Honduras, Paraguay, Portugal and Spain purchased considerable quantities. This carbine (rifle) with slight modifications was adopted by the German government as the 98k Carbine.

- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "STANDARD-MODELL" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "MAUSER" is marked on the top of the receiver ring.
Action	- turn-bolt design.
Serial Number	- appears on the left front end of the receiver.
Shots	- internal box magazine.
Remarks	- This rifle is mechanically identical to the German Kar 98b Rifle and incorporates some of the features of the 1930 F.N. Short Rifle. The "Standard Modell" was designed by Mauer for export sales and Bolivia, China, Ethiopia, Honduras, Paraguay, Portugal and Spain purchased considerable quantities. This rifle is identical to the 1933 Standard Modell Carbine except for having a straight bolt handle an under butt and under barrel band mounted sling swivels.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1655 - 1	8MM MAUSER	5	490	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "G.33/40" is marked on the left side of the receiver/frame.

Manufacturer

- the manufacturer's name appears on top of the receiver ring as a code: " 945", "dou" or "dot".

Action

- turn-bolt design.

Serial Number

- Appears on the left front end of the receiver. Serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- internal box magazine.
Other Markings	- the date of manufacture appears on the receiver ring below the manufacturer's code either as the full year or last two digits of the year.
Remarks	- This carbine was manufactured in Czechoslovakia during the Nazi occupation from 1940 to 1944 as a short handy firearm for alpine troops. It is mechanically identical to the German 1898 K differing in being considerably shorter, having a short based rear sight, hollow bolt handle and a metal protecting plate on the toe and left side of the buttstock. This firearm is a direct derivative of the Czech VZ (Model) 1933 carbine.

20815 - 2	7.65MM	8	97	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	

Notes

Model

- "1934" is similar to the Model "1914", except for changes made to the grip.
- manufactured from 1934 to 1939.
- it will often be found with two to four Navy property numbers on the right side of the receiver/frame or front grip-strap, either with or without the letters "N" or "O". These should not be confused with the serial number.

Serial Number

- serial range is considered to be from 525000 and continues to approximately 625000.
- the serial number is stamped, in full, on the front of the left side of the slide.
- the last three digits are repeated at the rear of the frame, on the barrel lug, and on the underside of the sideplate.
- the firearm will often be found with 2 to 4 Nazi Navy property numbers on the right frame or front grip-strap, either with or without the letters "N" or "O". These should not be confused with the serial number.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- The model designation usually does not appear however some specimens may have this marking on the left side of the receiver. These rifles were manufactured from 1935 to 1940.

Manufacturer

- the manufacturer's usually does not appear on these firearms.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Other Markings

- The cypher of King Leopold of Belgian appears on the receiver ring as a crown and a script letter "L".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- This rifle is mechanically identical to the 1930 F.N. Short Rifle, it differs visually by having heavy hinged barrel bands and a stacking swivel on the underside of the front band. This rifle was standard issue with the Belgian armed forces in World War 2.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "CHILE ORDEN Y PATRIA" and "MODELO 1935" are marked on the top of the recevier ring.
- "Fabricas y Maestranzas del Ejercito (FAMAE)" converted some Mauser 1935 Chilean Carbines to fire the 7.62MM NATO cartridge, circa 1961. This model was known as the 1935/61 Chilean Carbine.

Manufacturer

- manufacturer's name is marked on the left side of the receiver/frame.

Action

- turn bolt action.

Serial Number

- the serial number is marked on the left side of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- internal box magazine.
Other Markings	- The crest of the Chilean State Police (two crossed rifles and legend Orden Y Patria) appear on the receiver ring, coat of arms of the Republic of Chile normally appears on the left side of the buttstock.
Remarks	- This carbine is mechanically identical to the Mauser 1933 Standard Model Carbine differing only in minor details such as barrel length, method of sling attachment and handguard.

147460 - 1	30-06 SPRG	5	595	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is not marked on the firearm.
Model	- the model is not marked on the firearm; this is a 1946 conversion of surplus M1935 Belgian Short Rifles (originally chambered for 7.65x53 Mauser) to 30-06 Springfield, due to the great abundance of surplus US war materiel at the end of World War Two. The original markings on these rifles were not changed, but a new calibre marking was added, and a notch had to be added to the rear of the receiver ring in order to allow the longer 30-06 cartridges to be loaded via stripper clips. - features include: blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; sling swivels at barrel bands and bottom of the butt; and a straight bolt handle.
Manufacturer	- the manufacturer is marked on the left side of the receiver as "FAB. NAT. D'ARMES de GUERRE HERSTAL, BELGIQUE".
Action	- turn-bolt design.
Serial Number	- numbered on the receiver/frame.
Shots	- internal box magazine.

Notes

Make	- "MAUSER" is not marked on the firearm. - "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser. - Wilhelm Mauser was born in 1834 and died in 1882. - Paul Mauser was born in 1838 and died in 1914. - Paul Mauser was officially named Peter Paul Mauser. - Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.. - Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872. - Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874. - Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884. - Mauser was established under the German proof law as a proof house in 1898. - Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923. - Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975. - Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.
Model	- the model designation does not appear on the firearm.
Manufacturer	- the manufacturer's name appears on the receiver ring.
Action	- turn bolt operated.
Serial Number	- appears on the front end of the receiver/frame.
Shots	- integral magazine located forward of the trigger guard.
Other Markings	- the Coat of arms of the Republic of Mexico and the year of manufacture appear on the receiver ring.
Remarks	- this is a standard 1898 Mauser, small diameter ring actioned rifle with the addition of a knurled cocking knob. This rifle is distinctive in appearance due to its "full bodied" stock and American 1903 Springfield type upper barrel band with stacking swivel. Most specimens have an oval brass plate bearing a rack number affixed to the underside of the buttstock.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm.
- "Portuguese national crest" over the manufacturer's date is marked on top of the breech ring.
- manufactured from 1937 to 1938.
- this is a "Standard Model Mauser" similar in design to the "Kar. 98K" adopted by Portugal as the model "1937" or "M/937".
- this model was superseded by the "1937-A", also known as the "Mo. 937-A".
- the model 1937 used the German style slot and bar sling mounts, while the model 1937-A used sling swivels attachment on the lower barrel band and on both the side and bottom of the butt.

Manufacturer

- "Mauser-Werke A.G. Oberndorf A.N." is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - the serial number may have a letter prefix.
Calibre	- calibre designation is not marked on the firearm.
Shots	- integral box magazine.

- Portugese crest and year of manufacture are marked on the receiver ring.

Manufacturer

- "MAUSER-WERKE A.G." is marked on the left side of the receiver/frame.

Action

- turn bolt operated.

Serial Number

- the serial number is marked on the left front side of the receiver.
- the serial number may have a letter prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- internal box magazine.
Other Markings	- the coat of arms of the Republic of Portugal appears on the top of the receiver ring.
Remarks	- This rifle is a slight modification to the standard German 1898 K Carbine, differences include provision for mounting a sling on either the left side or underside of the buttstock and the underside of the barrel band. This rifle has front sight protecting ears.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm, the official Swedish military designation was Gevär m/38.
- a total of approximately 60,000 examples were produced by Husqvarna between 1941 and 1944.
- between 1938 and 1940 the Carl Gustafs factory converted some 30,000 model 1896 Swedish Rifles into a shorter configuration to make the rifle easier to handle for infantry troops. This conversion included installing a shorter barrel, shortening the forward portion of the stock and the installation of a new rear sight.
- due to the success of this conversion the same basic rifle was adopted circa 1941 as the model 1938 Swedish Short Rifle (official Swedish military designation was Gevär m/38).
- features include: turned down bolt handle (note that as parts are readily interchangeable some examples may be found with a non-original straight bolt handle, these will usually have a mis-matched, partial serial number); blued finish on metal (except bolt); stock and handguard will be beech wood; hinged rear sight graduated to 600 meters; nosecap has a bayonet mounting point; cleaning rod stored in the stock below the barrel.
- some examples were fitted with a barrel that was threaded at the muzzle for a blank firing attachment. When the attachment was not on the rifle a thread protector was installed in its place. Those examples with the threaded muzzle were officially known by the Swedish military as the Gevär m/38B.

Manufacturer

- "Husqvarna Vapenabriks Aktiebolag" (known as Husqvarna) is marked on the top of the receiver ring, over the date of manufacture 1941, 1942, 1943 or 1944.
- based on available information it would appear that only Husqvarna produced this model between 1942 and 1943. This model was adopted as a result of conversions that were done on existing model 1896 Swedish Rifles (manufactured by either Carl Gustafs Stads Gevärsfaktori or Mauser) known as the model 1896/38 Swedish Short Rifle, by Carl Gustafs Stads Gevärsfaktori between 1938 and circa 1940. As the conversion/model was so well received, when new rifles were ordered for the Swedish military it was specified that they be built to the same specifications with only minor modifications. The most identifiable modification is that these newly built model 1938 Swedish Short Rifles had a turned down bolt handle. In 1941 a contract was issued to Husqvarna Vapenfabriks Aktiebolag for rifles that were to be officially designated as the Gevär m/38 (commonly known as the model 1938 Swedish Short Rifle).

Action

- turn-bolt action.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- the last three digits of the serial number are also marked on most of the other components.
- serial number rationalization of known firearms:
  - 1941, 600035 to 628717
  - 1942, 628822 to 667603
  - 1943, 669783 to 683939
  - 1944, 704000 to 705969
- NOTE: these serial numbers overlap with the Carl Gustafs production from 1938 to 1940.

Calibre

- it is estimated that 1000 examples of the 1938 Swedish Short Rifle were produced in calibre 22 LR for training purposes. These rifles were fitted with a new barrel, bolt and magazine assembly.

Shots

- intenal magazine with a hinged floorplate.

Other Markings

- the date of manufacture and manufacturer markings are marked on the receiver ring.
- the initials of the inspector (usually two alpha characters) will also be found on various components.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- 1938 Turkish Short Rifle is not marked on the firearm.
- the Turkish military, in order to standardize the various Mauser rifles in their inventory to a common Short Rifle configuration and chambered to fire the 8MM MAUSER, had many of their rifles re-manufactured in the late 1930s and early 1940s.
- the original markings were removed and the receiver ring was re-stamped with the name of the Turkish State Arsenal located in Ankara or Kirikkale (K. Kale) and the date the rifle was re-worked.
- this rifle is similar in appearance to the 1903 Turkish Rifle, but with a shorter barrel, turned down bolt handle and semi-pistol grip stock with a sling slot in the butt.

Manufacturer

- manufacturer's name appears on the receiver ring.

Serial Number

- serial number appears on the side of the receiver/frame.
- serial number rationalization is unknown.

Shots

- internal box magazine.

Other Markings

- The "Star and Crescent" emblem of the Republic of Turkey and the date of re-manufacture appears on the receiver ring.

Remarks

- this rifle is a conversion of existing Mauser Model 1898 action type rifles to "short rifle" configuration. Work was carried out in Turkey and usually entailed re-barreling or shortening the original barrel, restocking or shortening the original stock and removing the original markings. Several variations of this rifle exist, this depending on which original model rifle was being converted.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Kirikkale Tufek Fabricasi" was formed circa 1940 to re-work Mauser rifles. - "Kirikkale Tufek Fabricasi" was renamed "Makina ve Kimya Endustria (MKE) in 1952.- -the "Star and Crescent" emblem of the Republic of Turkey and the date of re-manufacture appears on the receiver ring. - at least two variations of manufacturer's markings are known to exist. Factory markings appear as a crescent moon with a star between the two points of the crescent moon. The letter "T" will be on the left of the star and the letter "C" will be on the right side of the star (the "TC" denotes "Turkiye Cumhuriyeti" or "Turkish Republic"). The left side of the crescent moon will have the letters "AS" with the letters "FA" on the right side of the crescent moon or the "ASFA" will be below the moon (the "AS FA" denotes "Askeri Fabrika" which literally translates to Soldier Factory). The left side of the crescent moon will have the letters "ANK" with the letters "ARA" on the right side of the crescent moon or "ANKARA" will be below the "ASFA", "Ankara" is the location of the factory. The last line of the marking is the year of manufacture or conversion.
Serial Number	- serial number is located on the left side of the receiver/frame. - observed specimen had four numbers without a letter prefix or suffix.
Shots	- internal box magazine.
Other Markings	- the "Star and Crescent" emblem of the Republic of Turkey and the date of re-manufacture appears on the receiver ring.
Remarks	- this rifle is a conversion of existing Mauser Model 1898 action type rifles to "short rifle" configuration. Work was carried out in Turkey and usually entailed re-barreling or shortening the original barrel, restocking or shortening the original stock and removing the original markings. Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm.
- this is a standard pattern Mauser 98K rifle, adopted by Sweden in 1940 as a supplementary long-arm to be be issued to Swedish machine-gunners (who were then issued with the Browning 8x63 SWEDISH M36 machinegun); because of the inordinate recoil of the 8x63 SWEDISH cartridge (as compared to other military issue bolt-action rifles) Sweden had to specify that a factory muzzle-brake be added to the rifle.
- features include: standard Mauser-pattern 98K; laminated wooden pistol-grip stock; open adjustable sights; blued finish; and a four-slot factory muzzle brake.

Manufacturer

- the manufacturer (or crest thereof) is marked on the receiver/frame.

Serial Number

- numbered on the receiver/frame.

- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm.
- manufactured from 1943 to 1959.
- this rifle is mechanically identical and visually similar to the Czech VZ 1924 Rifle.
- some 1943 Spanish Short Rifles have turned down bolt handles but the majority have straight bolt handles.

Manufacturer

- the manufacturer's name may be marked on the receiver/frame ring.

Action

- turn bolt action.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- the serial number may have a single letter or multiple letter prefix.

Calibre

- many of these rifles were converted to 7.62MM NATO in the 1960's for Spanish Reserve Units.

Shots

- internal box magazine.

Other Markings

- Several different receiver markings are known:
a. Stylized crowned eagle (Spanish Air Force)
b. Coat of arms of the Republic of Spain with arsenal name and date of manufacture.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "M 48" is marked on the top of the receiver ring.
- the "Yugoslavian Communist" crest is marked on the top of the receiver ring.
- in the case of the "M 48 BO" the firearm will be devoid of markings.
- model recognition features:
- the "M48" & the "M48 BO" both have all milled parts.
- the "M48A" has "some" milled and some stamped parts.
- the "M48B" has all stamped component parts.

Manufacturer

- the manufacturer's name is marked on the left side of the firearm.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the right side of the receiver ring.
- the serial number may have a letter prefix.

Shots

- internal box magazine.

Other Markings

- the coat of arms of communist era Yugoslavia appears on the receiver ring of the 1948 Yugoslavian Short Rifle.
- the model 1948 BO Yugoslavian Short Rifle is a model 1948 Yugoslavian Short Rifle devoid of markings.
- "M48 BO" translates to M1948 Bez Oznake - which is Serbian for "without markings". - the model designation "M48 BO" does not appear on the firearm.
- the Model 1948 BO Yugoslavian Short Rifle was manufactured as part of a pre-production run of rifles for the Egyptian Government. This contract was cancelled before the firearms went into full production due to the "Suez Crises". After the Suez Crises the Egyptian Government cancelled the order for these rifles as they were no longer interested in a bolt action service rifle, preferring instead a self-loading firearm.
- total production of the 1948 BO Yugoslavian Short Rifle was approximately 3800 units.
- identification guide: - the M48 & the M48 BO both have all milled steel parts.
- the M48A has "some" milled steel and some stamped parts.
- the M48B has all stamped steel component parts.

Remarks

- this rifle is mechanically identical to the Yugoslavian manufactured and F.N. manufactured 1924 Short Rifles. It differs in minor details such as a slot in the buttstock for mounting a German type sling and having a turned down bolt handle with the underside of the knob flattened.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
30338 - 1	7.65X53 MAUSER	5	599	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the receiver ring as "Serie B-50".
- manufactured from 1950 to 1952.

Manufacturer

- the manufacturer's name appears on the left side of the receiver.

Serial Number

- appears on the front end of the receiver.

Other Markings

- The coat of arms of the Republic of Bolivia appears on the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- This rifle is mechanically identical to the Czech VZ 24 Short Rifle and incorporates a number of features associated with the German W.W. II 98 K Carbine (turned down bolt handle, scooped area in the stock under the bolt handle, cupped buttplate and short handguard). The trigger guard and barrel bands are stamped instead of being machined.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm.
- manufactured from 1975 to 1986.
- this firearm is a commercial bolt action Mauser derivative set up for long range targets and for Police sales.

Manufacturer

- "FN" is marked on the left side of the receiver ring.
- the manufacturer's name is marked on the left side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt action.
Serial Number	- the serial number is marked on the right side of the receiver ring.
Barrel	- four grooves, right hand twist. - 525MM barrel is 602MM with the flash hider.
Calibre	- the calibre designation is marked on the barrel.
Shots	- 5 shot version has an internal box magazine with floor plate.

Notes

Make

- "MAUSER" logo is marked on the bolt carrier and on the top of the barrel.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod. 66" is marked on the bolt carrier.
- produced from 1966 to 1995.
- designed to easily allow accessory barrels of different lengths or calibres to be installed.
- this is a short telescoping action 76mm to 146mm shorter than a standard length M98 action.

Manufacturer

- "MAUSER - WERKE A.G. Obendorf a.N." may be marked on the bolt carrier.

Action

- turn bolt operated.

Serial Number

- "DBP 1 205 423" may be marked on the right side of the firearm.
- "DBP 1 205 423" is a Duetschland Bundesrepublik Patentamt (German Republic Patent) number granted to Walter Gehmann for his short bolt action on September 14, 1963.

Shots

- the box magazine is integral to the receiver/frame and is not removable.

Other Markings

- barrels will have their own serial number that may not match the serial number on the receiver.

Notes

Make

- "Original" in handwritten script over the "MAUSER" banner trademark symbol is usually marked on the top of the receiver ring.
- "MAUSER" banner and "MAUSER - WERKE" are marked on the left side of the receiver/frame.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- manufactured from 1978 to 1987. - "Mod. 77" is marked on the top of the receiver ring or on the left side of the receiver/frame. - "77" is a turn bolt operated sporting rifle utilizing a three-lug, rear-locking bolt action design with detachable box magazine. - receiver/frame on this firearm is solid on top causing a right-side ejection; because of this design feature, loading of the magazine must be accomplished by removal of the magazine using the dual magazine release buttons located on either side of the stock above the magazine. - features include: patented single set trigger with set button located at the right rear of the receiver/frame, or double set triggers; patented silent rotary safety located on the right side of the receiver/frame bridge; semi-bull barrel with integral muzzle brake; sling swivels on the underside of the barrel and buttstock; adjustable and detachable sights, or drilled and tapped for scope mounts, also available with a rear sight rail; various stock configurations with hand checkering and/or engraving, white line spacers, ventilated rubber recoil pad; usually a blued finish, however one model did feature a dull sandblasted military-type finish.
Manufacturer	- "Original" in handwritten script over the "MAUSER" banner trademark symbol is usually marked on the top of the receiver ring. - "MAUSER - WERKE" is marked on the side of the receiver/frame.
Action	- turn-bolt operated.
Serial Number	- serial number is usually marked on the left side of the receiver/frame. - serial numbering began in 1978 at 01000 and ceased in 1987 at 04637.
Calibre	- calibre designation is usually marked on the left side of the barrel.
Shots	- detachable box magazine.

Notes

Make	- "MAUSER-WERKE A.G" and/or the Mauser "tonne" (MAUSER in a barrel-shaped stamp) is marked on the firearm.
Model	- the model is marked on the chamber as "T.ST.V", with a Nazi-style eagle with a swastika in its talons. - this is a single-shot target rifle (either converted from existing G98/K98 rifles, or built from scratch) manufactured by Mauser for the Tyrolean Sport-Shooting Association during the inter-war period, as a "service-rifle" adjunct to popular schuetzen rifle competition. - features may include: generalized G98/K98 layout and appearance; blued finish; open adjustable sights calibrated for ranges up to 300 metres; a blocked, plugged or solid magazine well (these competitions were single-shot only); a rotating wing-style safety on the bolt shroud; hardwood semi-pistol-grip stock.
Manufacturer	- "MAUSER-WERKE A.G" and/or the Mauser "tonne" (MAUSER in a barrel-shaped stamp) is marked on the firearm.
Action	- turn-bolt design.
Serial Number	- serial-numbered on the receiver/frame and barrel.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod. 98" or "98" is marked on the left side of the receiver/frame.
- the rifles with the code "237" were manufactured from 1938 to 1940 inclusive.

Manufacturer

- "237" the manufacturer's code is marked on the top of the receiver ring above the year of manufacturer.
- "237" is the code for "Berlin-Lubecker Maschinenfabrik".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- manually operated, bolt action, repeating rifle.
Serial Number	- Appears on the left front end of the receiver. Serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.
Shots	- non-detachable, internal, 5 shot magazine.
Other Markings	- The year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits.
Remarks	- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

FRT Report

Firearm Reference Number (FRN): 31150
Make: Mauser
Model: 98K

Summary

Make:	Mauser
Model:	98K
Manufacturer:	Berlin-Lubecker Maschinenfabriken (S/237)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
31150 - 1	8MM MAUSER	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver as "Mod 98" or "98".
- rifles with the code "S237" were manufactured from 1936 to 1938 inclusive.

Manufacturer

- the manufacturer's name appears on the receiver ring as the code "S237".

Action

- manually operated, turn bolt action, repeating rifle.

Serial Number

- Appears on the left front end of the receiver. Serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- non-detachable, internal, 5 shot magazine.
Other Markings	- The year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits.
Remarks	- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the 98K was the standard issue rifle of the German Army in World War II.
- the model designation is marked on the left side of the receiver/frame as "Mod 98" or "98".
- rifles with the code "27" were manufactured from 1938 to 1940 inclusive.

Manufacturer

- the manufacturer's identifier is marked on the receiver ring as the code "27".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the left front end of the receiver/frame. Serial number includes a letter suffix, except for the first 9999 firearms made in each year.
Shots	- non-detachable, internal magazine.
Other Markings	- the year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits.
Remarks	- this rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod.98" or "98" may be marked on the left side of the receiver/frame.
- rifles with the manufacturer's code "ax" were manufactured in 1940 and 1941.

Manufacturer

- "ax", the manufacturer's code and the year of production are marked on the top of the receiver ring.
- "ax" was the code for ERMA.

Action

- manually operated, turn bolt action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left side of the receiver/frame. - the serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.
Shots	- non-detachable, internal, box magazine.
Other Markings	- the year of manufacture appears on the receiver ring below the manufacturer's code as the last two digits of the year.
Remarks	- this rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver as "Mod 98" or "98".
- rifles marked with the code "S/27" were manufactured from 1935 to 1938.
- rifles marked with the code "S/27G" were manufactured in 1935.

Manufacturer

- the manufacturer's name appears on the receiver ring as the code "S/27".

Action

- manually operated, turn bolt action, repeating rifle.

Serial Number

- Appears on the left front end of the receiver. Serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- non-detachable, internal, 5 shot magazine.
Other Markings	- The year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits. 1935 does not show on the receiver ring of those rifles manufactured in this year but is represented by the letter G in the code S/27G on the receiver ring.
Remarks	- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

Firearm Reference Number (FRN): 121388
Make: Mauser
Model: 98K

Summary

Make:	Mauser
Model:	98K
Manufacturer:	Gustloff-Werke/Mauser (bcd/ar)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121388 - 1	8MM MAUSER	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod.98" is marked on the left side of the receiver/frame.
- manufactured in 1942.

Manufacturer

- "bcd/ar" the manufacturer's code and the year of production are marked on the top of the receiver ring.
- "bcd/ar" is the code for the joint production by "Gustloff-Werke and Mauser/Borsigwalde".

Action

- turn-bolt operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- the serial number may have a letter suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - internal box magazine.

- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod. 98" or "98" is marked on the left side of the receiver/frame.
- code "byf" rifles were manufactured from late 1940 to 1945.
- this rifle is mechanically identical to the Gewehr 1898, it differs in length, has a scalloped recess in the stock for the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98K was the standard issue rifle of the German Army in World War II.

Manufacturer

- "byf", the manufacturer's code is marked on the top of the receiver ring above the year of manufacturer.
- "byf" is the code for "MAUSER WERKE AG" in Oberndorf a/N.

Action

- turn bolt action.

Serial Number

- appears on the left front end of the receiver.
- serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Shots

- non-detachable, internal magazine.

Other Markings

- rifles manufactured between 1941 and 1945 are marked with only the last two digits of the year of production on the receiver ring.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver as "Mod. 98" or "98".
- the code "S/243" appears on the top of the receiver ring.
- the code "S/243G" indicates the item was manufacture in 1935.
- the code "S/243" was manufactured 1936 to 1938.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name appears in code on the receiver ring as svw.
Action	- manually operated, bolt action, repeating rifle.
Serial Number	- Appears on the left front end of the receiver. Serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.
Shots	- non-detachable, internal, 5 shot magazine.
Other Markings	- The year of manufacture appears on the receiver ring below the manufacturer's code as the full year in four numbers. 1935 does not show on the receiver ring of those rifles made in that year but is represented by the letter G in S/243G on the top of the receiver ring.
Remarks	- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98K was the standard issue rifle of the German Army in World War II.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod 98" or "98" may be marked on the left side of the receiver/frame.
- rifles marked "S/147K" were manufactured in 1934.
- rifles marked "S/147G" were manufactured in 1935.
- rifles marked "S/147" were manufactured from 1936 to 1938.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's code "S/147" is marked on the top of the receiver ring. - "S/147" was the code for "J.P. SAUER und SOHN GEWEHRFABRIK" in Suhl.
Action	- manually operated, turn bolt action, repeating rifle.
Serial Number	- the serial number is marked on the left front side of the receiver/frame. - the serial number may includes a letter suffix. - the first 9999 firearms made in each year which have no letter suffix.
Shots	- non-detachable, internal, 5 shot magazine.
Other Markings	- the year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits. 1934 and 1935 do not show on the receiver ring of those rifles manufactured in those years but are represented by the letter K in S/147K for 1934, and the letter G in S/147G for 1935.
Remarks	- this rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver as "Mod 98" or "98".
- rifles with the code "660" were manufactured in 1939 and 1940.

Manufacturer

- the manufacturer's name appears on the receiver ring as the code "660".

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number
- serial number is marked on the left side of the receiver ring.
- serial number may includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Shots
- internal box magazine is usually top loaded by a stripper clip holding five cartridges.

Other Markings
- The year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits.

Remarks
- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II. Historically Austria was part of the greater German Reich from Anschlus of 1938 until the capitulation of Nazi Germany in 1945.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver/frame as "Mod 98" or "98" except on those rifles manufactured in 1945 where the model designation appears on the top of the receiver ring as "Mod.98".

Manufacturer

- the manufacturer's name appears on the receiver ring as the code "dou".

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver ring.
- serial number may includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Shots

- internal box magazine is usually top loaded by a stripper clip holding five cartridges.

Other Markings

- The year of manufacture appears on the receiver ring below the manufacturer's code as the last two digits of the year. In 1945 the manufacturer's code is immediately followed by 45. (eg. dou.45)

Remarks

- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II. The Germans recognized the factory represented by the code dou as Waffen Werke Bystrica and considered it a subsidiary of Waffen Werke Brunn. For the purpose of the FRT dou is considered a facility of the (larger) Waffen Werke Brunn.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod. 98" is marked on the top of the receiver ring.
- "98K" rifles with the manufacturer's code "swp" were manufactured in 1945 only.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SWP 45" is marked on the top of the receiver ring. - "SWP" was the code for Waffen Werke Brunn AG.
Action	- turn-bolt design.
Serial Number	- serial number is marked on the left side of the receiver ring. - serial number may includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.
Shots	- internal box magazine is usually top loaded by a stripper clip holding five cartridges.
Other Markings	- the year of manufacture appears on the receiver ring immediately following the manufacturer's code. (eg. swp 45)
Remarks	- this rifle is mechanically identical to the Gewehr 1898, it differs in length, has a scalloped recess in the stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm.
- "Mod.98" is marked on the top of the receiver ring.
- manufactured between August 1945 and May 1946.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "svw MB", the manufacturer's code is marked on the top of the receiver ring. - "svw MB" is the manufacturer's code assigned to "MAUSER WERKE AG" at Oberndorf a/N.
Action	- turn bolt operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - observed serial number had a letter suffix.
Shots	- internal box magazine.
Remarks	- This rifle is a German 1898 K Carbine produced at the Mauser Werke plant in Oberndorf, Germany during the period 1945 to 1946 when that factory was under the auspices of the French occupation forces. It is identical to the World War II German rifle in all respects except for the lack of a bayonet attachment bar (in its place a staching rod), a sling attachment bar on the left side of the buttstock and barrel bands retained by wood screws.

Notes

Make

- the make is not marked on the firearm.

Model

- the model is not marked on the firearm; this is a version of the Mauser 98K manufactured by Fabrique National on contract for Israel, during the early 1950s.
- these rifles bear an Israeli Defence Forces crest (laurels, wrapped around a vertical sword, in the middle of a stylized Star of David) on top of the receiver, along with "7.62" calibre markings.
- these rifles should not be confused with the many CONVERSIONS of captured and surplus Mauser rifles that were rebuilt to 7.62 NATO, and which bear their original manufacturer markings (usually Czech or wartime German).
- features include: blued finish; open adjustable sights; under-barrel bayonet lug; "H"-style nosecap; barrel band; sling swivels on the left side of the rifle, attaching through a cut-out at the rear of the wrist; steel butt-cap.

Manufacturer

- the manufacturer may or may not be marked on the firearm.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the receiver/frame.

Shots

- internal box magazine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.
