Model: MARK 1 Rifle

Summary

Make:	Martini-Henry
Model:	MARK 1 Rifle
Manufacturer:	Royal Small Arms Factory, Enfield (RSAF(E))
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1481 - 3	22 HORNET	1	662	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
1481 - 2	45-70 GOVT	1	711	Antique AFR, Section 1, para. 3	Non-Commercial Customization	
1481 - 1	577/450 MARTINI-HENRY	1	845	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "M.H." the abbreviation for "Martini-Henry" may be marked on the left side of the receiver/frame.
- the Martini-Henry action was designed by a Swiss engineer, Freidrich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- model designation is not marked on the firearm.
- the Royal cypher, manufacturer's name, year of manufacture, "I.", "I.1." or "I.2." are marked on the right side of the receiver/frame.
- the Roman numeral "I." is the model designation "MARK 1".
- the Arabic number "1." indicates this is a first class weapon for first line services.
- the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training).
- manufactured between 1871 and 1876.
- this rifle was adopted by the British Army in 1871 and is visually distinctive from later patterns by having a checkered iron buttplate and a brass breech block hinge pin.
- manually operated, under lever, rear hinged tipping breech-block, (hinged at the top rear of the receiver), hammerless, extracts and ejects, blued or colour case hardened receiver/frame with a cocking indicator.

Manufacturer

- the Royal cypher, "ENFIELD" and the year of manufacture are usually marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- the serial number may be marked under the forend or under the ladder on the rear sight.
Calibre	- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.
Other Markings	- manufacturer's name, royal cypher of Queen Victoria (crown and V.R.), date of manufacture and model designation appear on the right side of the receiver/frame.

Notes

Make

- "M.H." the abbreviation for "Martini-Henry" may be marked on the left side of the receiver/frame.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- model designation is not marked on the firearm.
- the Royal cypher, manufacturer's name, year of original manufacturer of the receiver/frame and previous model designation "I." may be marked on the right side of the receiver/frame.
- "A.C.II." may be marked on the left side of the receiver/frame.
- the Roman numeral "II." is the model designation "MARK 2"
- the letters "A.C." are the abbreviation for Artillery Carbine.
- this carbine is a conversion of existing "MARK II" rifles to carbine configuration in the 1890's primarily for use by artillery garrisons.
- conversion entailed shortening the original rifle barrel to 544MM, shortening the forearm and replacing the original rear rifle sight with a short carbine rear sight.
- the "Mark 2 Rifle" was manufactured from 1877 to 1890.
- the "Mark 2 Artillery Carbine" was converted/manufactured from 1892 to 1896.
- approximately 57,208 carbines were converted/manufactured.

Manufacturer

- the Royal cypher, manufacturer's name and the year of manufacture are usually marked on the right side of the receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- appears on the leaf of the rear sight.

- the Roman numeral "II." is the model designation "MARK 2".
- the Arabic number "1." indicates this is a first class weapon for first line services.
- the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training).
- the MARK 2 Carbine pattern was approved in 1892.
- the MARK 2 Rifle pattern was approved in 1877.
- Note: some MARK 1 rifles were converted to the MARK 2 pattern and may have earlier manufacturing dates.
- the MARK 2 was manufactured from 1880 to 1890.
- features include: fixed front and ladder type adjustable rear sights; steel cleaning rod and forend cap with bayonet lug mounted on the right side; two piece straight grip stock; two barrel bands; sling swivels; steel butt plate.
- overall length with a 843mm (33.2") barrel is 1257mm (49.5").
- rifling characteristics: 7 groove, left hand twist.
- the MARK 3 Rifle pattern was approved in 1879.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the Royal cypher, "B.S.A. & M. Co" and the year of manufacturer are marked on the right side of the receiver/frame.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- appears on the leaf of the rear sight.
Calibre	- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.
Other Markings	- manufacturer's name, royal cypher of Queen Victoria (crown and V.R.), date of manufacture and model designation appear on the right side of the receiver.
Remarks	- This rifle is an improved version of the Martini-Henry MARK 1 Rifle and was adopted by the British Army in 1876. It is visually similar to the MARK 1 differing mainly in internal action details. Many Martini-Henry MARK 1 rifles were updated to MARK 2 standards and so marked on the right side of the receiver.

Notes

Make

- "M.H." the abbreviation for "Martini-Henry" may be marked on the left side of the receiver/frame.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- model designation is not marked on the firearm.
- the Royal cypher, manufacturer's name, year of conversion/manufacture, letters "A.C.", Roman numeral "III." and an Arabic number "1" or "2" may be marked on the side of the receiver/frame.
- the letters "A.C." are the abbreviations for Artillery Carbine.
- the Roman numeral "III." is the model designation "MARK 3".
- the Arabic number "1." indicates this is a first class weapon for first line services.
- the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training).
- the MARK 3 Carbine pattern was approved in 1893.
- the MARK 3 Rifle pattern was approved in 1879.
- the MARK 3 was manufactured from 1881 to 1888.
- features include: fixed front and ladder type adjustable rear sights; steel cleaning rod and forend cap with bayonet lug mounted on the right side; two piece straight grip stock; two barrel bands; sling swivels; steel butt plate.
- the MARK 4 Rifle pattern was approved in 1887.

Manufacturer

- the manufacturer's name appears on the right side of the receiver.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- appears on the leaf of the rear sight.
Calibre	- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.
Other Markings	- original manufacturer's name, royal cypher of Queen Victoria (crown and V.R.), original date of manufacture and original model designation appear on the right side of the receiver.
Remarks	- this carbine is a conversion of Martini Henry MARK III rifles to carbine configuration in the 1890's primarily for use by cadets in military schools. - conversion entailed replacing the original rifle barrel with a carbine barrel of 544MM and either shortening the rifle forearm or fitting a new carbine forearm.

Notes

Make

- "M.H." the abbreviation for "Martini-Henry" may be marked on the left side of the receiver/frame.
- the Martini-Henry action was designed by a Swiss engineer, Freidrich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- model designation is not marked on the firearm.
- the Royal cypher, manufacturer's name, year of manufacture, Roman numeral "III." and an Arabic number "1" or "2" are marked on the right side of the receiver/frame.
- the Roman numeral "III." is the model designation "MARK 3".
- the Arabic number "1." indicates this is a first class weapon for first line services.
- the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training).
- the MARK 3 Carbine pattern was approved in 1893.
- the MARK 3 Rifle pattern was approved in 1879.
- the MARK 3 was manufactured from 1881 to 1888.
- features include: fixed front and ladder type adjustable rear sights; steel cleaning rod and forend cap with bayonet lug mounted on the right side; two piece straight grip stock; two barrel bands; sling swivels; steel butt plate.
- the MARK 4 Rifle pattern was approved in 1887.

Manufacturer

- the Royal cypher, "B.S.A.&M.Co." and the date of manufacture are marked on the right side of the receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- appears on the leaf of the rear sight.
Calibre	- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.
Other Markings	- the manufacturer's name, royal cypher of Queen Victoria (crown and V.R.), date of manufacture and model designation appear on the right side of the receiver.
Remarks	- This is an improved version of the Martini-Henry MARK 2 Rifle adopted by the British Army in 1879. It is visually similar to the MARK 2 differing mainly in the method of attachment of the forearm and in internal action details.

Notes

Make

- "M.H." the abbreviation for "Martini-Henry" may be marked on the left side of the receiver/frame.
- the Martini-Henry action was designed by a Swiss engineer, Freidrich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is not marked on the firearm. - the Royal cypher, manufacturer's name, year of manufacture, Roman numeral "IV." and an Arabic number "1" or "2" are marked on the right side of the receiver/frame. - the Roman numeral "IV." is the model designation "MARK 4". - the Arabic number "1." indicates this is a first class weapon for first line services. - the Arabic number "2." indicates this is a second class weapon for use by the militia or drill purpose (training). - the MARK 4 Rifle pattern was approved in 1887. - the MARK 4 was manufactured from 1887 to 1889. - features include: fixed front and ladder type adjustable rear sights; steel cleaning rod and forend cap with bayonet lug mounted on the right side; two piece straight grip stock; two barrel bands; sling swivels; steel butt plate.
Manufacturer	- the Royal cypher, "ENFIELD" and the year of manufacture are marked on the right side of the receiver/frame.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- marked on the leaf of the rear sight.
Calibre	- the 577/450 calibre cartridge is a British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: 577/450 MARTINI-HENRY. - as an experiment, small numbers of Martini-Henry, Mark 4 Rifles were chambered for the 45 Gardner Gatling Nordenfeldt cartridge. Trial rifles produced for the School of Musketry first utilized an annular bushing in a reamed-out chamber during 1881. Later production by Enfield utilized a purpose-chambered barrel for this cartridge. The Mark 4 pattern was sealed on 1 October 1881. However, the project was cancelled in mid-January 1882. Approximately 40 rifles were built using modified bushed chambers, with a further 100 produced by RSAF (E).
Other Markings	- the manufacturer's name, royal cypher or Queen Victoria (crown and V.R.), date of manufacture and the model designation are marked on the right side of the receiver/frame.
Remarks	- this rifle is mechanically identical to Martini-Henry MARK 3 Rifle but visually distinctive by its pronounced shoulder at the rear of the receiver/frame and by its extremely long action operating lever.

Notes

Make

- Martini-Henry does not appear on the firearm.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- this is a Martini-Henry single-shot rifle that has been converted to sporting configuration.
- this record is ONLY for those rifles where it is not possible to determine the original manufacturer of the receiver/frame.
- these rifles were converted to sporting configuration from any one of several marks of original military Martini-Henrys, and may still bear evidence of their original "as-issued" pattern.
- this type of Martini-Henry sporting rifle could have been manufactured circa early 1870's to the late 1890's.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- may or may not have a serial number; many of these rifles will have had all of their original markings removed when they were converted to sporting configuration.

Calibre

- The most common calibre for these sporting rifles is 577/450 Martini but other calibres are known to exist.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Remarks

- This firearm is a manually operated, under lever, rear hinged tipping breech-block, sporting rifle.
- This rifle was adopted by the British Army as general issue in 1871.
- sporting rifle built on a commercial Martini action.
- A wide variation of styles and features is possible (deluxe wood, checkered wrist and forearm, express sights, engraving, ebony forend tip, precious metal inlays, butt plate trap, ribbed barrel, sling studs etc.).

FRT Report

Firearm Reference Number (FRN): 71371
Make: Martini-Henry
Model: Trade Pattern Military Rifle

Summary

Make:	Martini-Henry
Model:	Trade Pattern Military Rifle
Manufacturer:	Westley Richards & Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
71371 - 1	577/450 MARTINI-HENRY	1	843	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
71371 - 2	577/450 MARTINI-HENRY	1	843	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make does not appear on the firearm.
- the Martini-Henry action was designed by a Swiss engineer, Frederich von Martini and has a falling breech block hinged at the rear. This action featured a coiled mainspring, integral cocking mechanism, tear dropped shaped external cocking indicator and incorporated fewer parts than its contemporary competitors. As the latter part or the name suggests, the seven groove rifling is of Alexander Henry's design.

Model

- this firearm is similar to the standard British War Department issue, Martini-Henry rifles, except for the lack of British War Department property markings and date.
- commercial rifles may have better quality wood stocks, checkering at the wrist and forearm, and perhaps some decorative engraving on the breech-block.
- this type of rifle was offered for sale to any individual or group who wanted a rifle approximating the British service arm.
- at least two versions were offered, one advertised for target practice, and the other one less expensive advertised as "Government quality", both were offered with Martini rifling, or Metford rifling at extra cost.
- no model name is marked on this firearm; the model name is derived from the action design and the civilian market for which the gun was intended.
- this type of firearm would have been produced circa 1870's to the mid-late 1890's.

Manufacturer

- manufacturer's name appears on the right side of the receiver as:
"WESTLEY RICHARDS & CO"
"LONDON"

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- appears on the leaf of the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada. ddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddddd
Other Markings	- manufacturer's name, and year of manufacture within a triangle, appear on the right side of the receiver.
Remarks	- this firearm is a manually operated, under lever, rear hinged tipping breech-block, military type rifle derived from the feasibility trials of 1869-70. This rifle was adopted by the British Army as general issue in 1871.

Make: Martini-Henry
Model: ZAR Rifle

Summary

Make:	Martini-Henry
Model:	ZAR Rifle
Manufacturer:	Westley Richards & Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
72193 - 1	577/450 MARTINI-HENRY	1	845	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Martini-Henry" does not appear on the firearm.
- "HENRY RIFLING" may be marked on the barrel, behind the rear sight.
- action is of Martini's under lever operated tipping block design.
- barrel has Henry type rifling.

Model

- "MADE SPECIFICALLY FOR ZAR" is marked on the right side of the receiver/frame.
- contracted from Westley Richards in England during the 1890's by the government of the Zuid Afrikaans Republiks (South African Republic).
- utilizes an improved Martini under lever operated tipping block action similar to the British government issue Martini Henry rifles, differs in profile by having a more round hump at the rear of the receiver and having the feature of a quick removable lock mechanism (by turning two slotted knurled screws, one on each side of the lower front end of the receiver).
- two piece stock of military pattern, two barrel bands, cleaning rod mounted under barrel.
- barley corn front, adjustable for elevation military rear sight.

Manufacturer

- "WESTLEY RICHARDS & Co" appears on the left side of the receiver/frame along with the Westley Richards logo (a triangle).
- "WESTLEY RICHARDS & Co" also appears on top of the barrel.
- the top of the chamber of the barrel is marked with the company logo triangle in which is stamped the year of manufacture.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- serial number is usually marked on the left front side of the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- British military calibre formed by lengthening the 577 SNIDER cartridge and necking it down to accept a .450 diameter projectile. The resulting cartridge nomenclature being: - 577/450 MARTINI-HENRY.

1486 - 2	303 BRITISH	1	843	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "M.M. 303" is marked on the left side of the receiver/frame.
- "M.M." is the abbreviation for "Martini-Metford".

Model

- appears on the right side of the receiver as "V" or "I" (see REMARKS).

Manufacturer

- the Royal cypher, manufacturer's name and the year of conversion to a Martini-Metford are marked on the left side of the receiver/frame.
- the original markings with the Royal cypher, manufacturer's name, year of manufacture of the receiver/frame and model are usually marked on the right side of the receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Other Markings

- manufacturer's name, cypher of Queen Victoria (crown and V.R.), date of manufacture (or conversion) and model designation appear on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this rifle is a conversion of an existing Martini Henry MARK 3 rifles to 303 BRITISH calibre using a barrel with Metford patent rifling.
- initially designated Martini Henry MARK 5 Rifle but in 1891 this designation was changed to Martini Metford MARK 1 Rifle.
- conforms in virtually all respects to the Martini Henry MARK 3 Rifle except for the addition of a bayonet bar on the nosecap and modification to or replacement of those parts necessary to accommodate the 303 BRITISH cartridge.
- some Martini Metford MARK 1 rifles were newly manufactured arms and as such bear the model designation "I" on the right side of receiver/frame as opposed to the model designation "V" on the right side of the receiver/frame of converted arms.

Firearm Reference Number (FRN): 1502
Make: Martini-Metford
Model: MARK 2 Cavalry Carbine

Summary

Make:	Martini-Metford
Model:	MARK 2 Cavalry Carbine
Manufacturer:	Henry Rifle Barrel Company (HRB)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1502 - 1	303 BRITISH	1	544	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "M.M. 303" is marked on the left side of the receiver/frame. - "M.M." is the abbreviation for "Martini-Metford".
Model	- model designation is marked on the left side of the receiver/frame as "II".
Manufacturer	- the Royal cypher, "H.R.B. Co." and the year of conversion to a Martini-Metford are marked on the left side of the receiver/frame. - the original markings with the Royal cypher, manufacturer's name, year of manufacture of the receiver/frame and model are usually marked on the right side of the receiver/frame. - "H.R.B. Co." is the abbreviation for the "Henry Rifle Barrel Company.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- Appears on the leaf of the rear sight.
Other Markings	- The original manufacturer, model designation and year of production appear on the right side of the receiver, the name of the company which performed the conversion to the new configuration plus the new designation and year of conversion appear on the left side of the receiver.
Remarks	- This carbine is a conversion of existing Martini-Henry MARK 1 Artillery Carbines from calibre .577-450 to calibre .303 BRITISH. Conversion entailed fitting a new barrel with Metford patent rifling, breechblock, extractor, sights and modifying the nosecap of the forearm. The new model designation, contractor and year of conversion were stamped on the left side of the receiver.

FRT Report

Firearm Reference Number (FRN): 1487
Make: Martini-Metford
Model: MARK 2 Rifle

Summary

Make:	Martini-Metford
Model:	MARK 2 Rifle
Manufacturer:	Birmingham Small Arms (BSA)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1487 - 2	22 HORNET	1	686	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
1487 - 1	303 BRITISH	1	843	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "M.M. 303" is marked on the left side of the receiver/frame.
- "M.M." is the abbreviation for "Martini-Metford".

Model

- the model designation is not marked on the firearm.
- this firearm was originally known as the "Martini-Henry MARK 6", but was redesignated the "Martini-Meford MARK 2" in 1891.
- the Roman numerals six over 1. (VI. over 1.) may be marked on the right side of the receiver/frame.
- this model was manufactured from 1889 to 1891.
- total production was approximately 9,600 units.

Manufacturer

- the Royal cypher, "B.S A. & M. Co." and the year of conversion to a Martini-Metford are marked on the left side of the receiver/frame.
- the original markings with the Royal cypher, manufacturer's name, year of manufacture of the receiver/frame and model are usually marked on the right side of the receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- the serial number is marked on the leaf of the rear sight.

Other Markings

- the manufacturer's name, cypher of Queen Victoria (crown and V.R.), date of manufacture and model designation appear on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this rifle is not a conversion of an existing rifle but is a newly manufactured arms utilizing Metford patent rifling It conforms in virtually all respects to the Martini-Henry MARK 2 Rifle except as to calibre and those parts necessary to accommodate the .303 BRITISH cartridge. In 1891 the British government altered the designation of this rifle from Martini Henry MARK 6 Rifle to Martini-Metford MARK 2 Rifle.

102675 - 2	45-70 GOVT	1	845	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "M.M. 303" is marked on the left side of the receiver/frame.
- "M.M." is the abbreviation for "Martini-Metford".

Model

- this rifle is derived from a Martini pattern action and is documented as having been converted from a number of different Martini-Henry and/or Martini-Metford model series rifles to roughly Martini-Metford MARK 3 series configuration.
- markings are on the left side of the receiver/frame and consist of a crescent moon facing upward with a five pointed star between the crescent ends, below which is stamped "CITADEL," below which is the date of conversion/manufacture.
- typically the original model designation and manufacturer marks have been obliterated; British proofs, inspector marks, or part assembly numbers may remain on the firearm.
- features include: a Metford or Enfield barrel; Martini falling block action; cocked action indicator; extended action opening lever; wood stock.

Manufacturer

- "CITADEL" over the year of conversion/manufacturer is marked on the left side of the receiver/frame.
- the Citadel Armory was located in Cairo, Egypt.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - marked on the bottom of the receiver/frame forward of the action-opening assembly.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1503 - 1	303 BRITISH	1	544	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "M.M. 303" is marked on the left side of the receiver/frame. - "M.M." is the abbreviation for "Martini-Metford".
Model	- model designation is marked on the left side of the receiver/frame as "III".
Manufacturer	- the Royal cypher, "H.R.B. Co." and the year of conversion to a Martini-Metford are marked on the left side of the receiver/frame. - the original markings with the Royal cypher, manufacturer's name, year of manufacture of the receiver/frame and model are usually marked on the right side of the receiver/frame. - "H.R.B. Co." is the abbreviation for the "Henry Rifle Barrel Company.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- Appears on the leaf of the rear sight.
Other Markings	- The original manufacturer, model designation and year of production appear on the right side of the receiver, the name of the company which performed the conversion to the new configuration plus the new designation and year of conversion appear on the left side of the receiver.
Remarks	- This carbine is a conversion of existing Martini-Henry MARK 3 rifles from calibre .577-450 to calibre .303 BRITISH. Conversion entailed fitting a new barrel with Metford patent rifling, breechblock, extractor, sights and forearm. The new model designation, contractor and year of conversion were stamped on the left side of the receiver.

127013 - 1	303 BRITISH	1	770	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- make is not marked on the firearm.
Model	- the model designation is not marked on the firearm. - this is a conversion of a Martini-Henry MARK 3 rifle originally in calibre 577-450 to calibre 303 BRITISH. The conversion entailed fitting a new barrel with Metford patent rifling, breechblock, extractor, sights and forearm with nosecap adapted for a bayonet. - features include: ramp front and adjustable ladder-type rear sights; blued finish; serrated trigger; short under lever; right side mounted, tear drop cocking indicator; sling swivels; brass butt plate with hinged storage cover.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- a number was observed marked on the leaf of the rear sight.
Other Markings	- a "Crown" over "SHAPORI" over "SXS" was marked on an observed example on the right side of the receiver/frame.

Firearm Reference Number (FRN): 71374
Make: Martini-Metford
Model: Trade Pattern Military Rifle

Summary

Make:	Martini-Metford
Model:	Trade Pattern Military Rifle
Manufacturer:	Westley Richards & Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
71374 - 2	303 BRITISH	1	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
71374 - 1	303 BRITISH	1	843	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make does not appear on the firearm.
Model	- this firearm is similar to the standard British War Department issue, Martini-Metford rifles, except for the lack of British War Department property markings and date. - commercial rifles may have better quality wood stocks, checkering at the wrist and forearm, and perhaps some decorative engraving on the breech-block. - at least two versions were offered, one advertised for target practice, and so marked on the barrel "SPECIAL TARGET RIFLE", fitted with a handguard on top of barrel, the other one less expensive advertised as "plain quality" and without a handguard.
Manufacturer	- "WESTLEY RICHARDS & CO 'LONDON" may be marked on the right side of the receiver/frame.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Barrel	- Metford Patent rifling
Other Markings	- the manufacturer's name,and year of manufacture within a triangle appear on the right side of the receiver.
Remarks	- this rifle is not a conversion of an existing rifle but is a newly manufactured utilizing Metford patent rifling. It conforms in virtually all respects to the Martini-Henry MARK 2 Rifle except as to calibre and those parts necessary to accommodate the .303 BRITISH cartridge.

Notes

Make

- "*22 MARVEL PAT. APPLIED FOR*" is marked on the barrel.

Model

- "*22 MARVEL*" or "*The 22 Marvel*" and "*PAT. APPLIED FOR*" is marked on the barrel.
- this is a direct copy of the Stevens Crack Shot 16 rifle, possibly made for sale by one of Stevens' retailers.
- features include: blued barrel on a colour-case-hardened receiver; open adjustable sights; walnut forearm and straight-grip buttstock; a falling-block action operated with a thumb-lever on the right side of the receiver; a single-action, manually-cocked hammer; and a knurled tang screw behind the hammer that acts as a push-button safety (must be depressed in order to fire the rifle).

Action

- falling-block single-shot.

Serial Number

- may or may not be numbered on the lower tang, usually with a letter prefix.

FRT Report

Firearm Reference Number (FRN): 2493
Make: MAS
Model: 1917 FA RSC

Summary

Make:	MAS
Model:	1917 FA RSC
Manufacturer:	Manufacture d'Armes de St-Etienne (MAS)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2493 - 1	8X50R LEBEL	5	800	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAS" is the abbreviation for "Manufacture d'Armes Saint Etienne".
- Manufacture d'Armes de St. Etienne (MAS) was the primary assembler of this model, parts were supplied by Manufacture d'Armes de Chatellerault (MAC), Manufacture d'Armes de St. Etienne (MAS), Manufacture d'Arms Tulle (MAT), and Manufacturer d'Armes de Paris.

Model

- "Mle 1917" is marked on the left side of the firearm.
- the letters FA RSC in the model designation stand for: Fusil Automatique, Ribeyrolle, Sutter, Chauchat.
- features include: two piece stock, rounded magazine housing, bayonet lug, safety mounted on the left of the receiver/frame, manually operated hold-open lever / device, prominent operating slide and retracting handle on the bolt.

Manufacturer

- "Manufactures Nationales" over "MAS" is marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- appears on the side of the receiver and or the breech of the barrel, usually has a one or more script letter prefix.
- serial number rationalization unknown.

Shots

- non detachable, internal magazine.

Remarks

- this is a gas operated autoloading military rifle adopted by the French army in 1917. While the design was sound the manufacture of the rifle was handicapped by the use of many stamped parts which required much hand fitting. The resultant rifle was unreliable and extremely unpopular with the troops to whom it was issued.

2494 - 1	8X50R LEBEL	5	586	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "MAS" is the abbreviation for "Manufacture d'Armes Saint Etienne". - Manufacture d'Armes de St. Etienne (MAS) was the assembler of this model, parts were supplied by Manufacture d'Armes de Chatellerault (MAC), Manufacture d'Armes de St. Etienne (MAS), Manufacture d'Arms Tulle (MAT), and Manufacturer d'Armes de Paris.
Model	- the model designation appears on the left side of the receiver. 'FA RSC' means Fusil Automatique, Ribeyrolle, Sutter, Chauchat.
Manufacturer	- "Manufactures Nationale" over "MA. S" is marked on the left side of the receiver/frame.
Serial Number	- appears on the side of the receiver and or the breech of the barrel, usually has a one or more script letter prefix.
Other Markings	- model designation and name of arsenal on left side of receiver.
Remarks	- This is an improved version of the original St. Etienne 1917 F A R S C semi-auto loading rifle in which many of the shortcomings of the earlier rifle were addressed. The resultant rifle was in fact but little improved and, like the Model 1917, was unreliable and unpopular with the troops. The letters FA RSC in the model designation stand for: Fusil Automatique, Ribeyrolle, Sutter, Chauchat.

121779 - 2	7.5X58 FRENCH	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make designation is marked on the firearm as, "MAS".

Model

- the model designation is marked on the firearm as "Md 1918-21".
- this was a limited-production MAS rifle produced as a consequence of the French small-arms trials of 1921, in which the French military was searching for a new semi-automatic rifle for general issue to its troops; ostensibly, this rifle was a refinement of the earlier 1917 and 1918 RSC rifles, but was actually an entirely new design.
- features include: three-piece stock (butt, forearm and upper hand guard); knurled receiver cap; sliding adjustable rear sight; cocking handle on the right side of bolt; rotating bolt-head; rotating safety lever on the left side of the receiver/frame; and a reversible bayonet carried in a tube under the muzzle.
- after testing disclosed a number of weaknesses in this design, it was dropped.

Manufacturer

- the manufacturer' designation, logo, or acronym thereof is marked on the firearm.

Action

- gas-operated.

Serial Number

- numbered on the receiver/frame.

Shots

- stripper-clip fed internal box magazine.

122662 - 2	9MM LUGER	32	226	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a conventionally-styled first-generation submachine gun developed at the St. Etienne Arsenal during the mid-1920s; France had just come through the First World War without any sort of submachine gun, and had seen first-hand the effectiveness of the German MP18, so a number of design teams had been ordered to produce a French equivalent. The STA 1924 ("Section Technique de l'Artillerie Mle 1924") was the result of one of these attempts, being essentially a re-worked MP18 without a barrel shroud and with a folding bipod and a vertical magazine well. Although this design worked very well, adopting it would have necessitated an additional calibre for the French military (9mm Luger), so the design was shelved in favour of the MAS 1938, a submachine gun chambered for the 7.65 French Long pistol cartridge.
- though the design was never adopted by the French, large numbers were made and shipped to French holdings in North Africa, where they were used to equip colonial forces.
- features include: wooden pistol-grip stock with sling swivel mount inletted in the left side of the butt; open adjustable sights; blued finish on metal surfaces; folding bipod mounted at the muzzle; vertical magazine well; and forward sling mounting ring above the magazine-release button.

Manufacturer

- the manufacturer, logo, or acronym thereof is marked on the firearm.

Action

- blowback operated.

Serial Number

- numbered on the receiver/frame.

Notes

Make

- the make designation is marked on the left side of the receiver/frame as, "M.A.S."

Model

- Introduced in 1928.
- May also be known as "an experimental firearm".
- the model designation is marked on the left side of the receiver/frame as "Mle 1928".
- this was a short-lived MAS rifle submitted for possible adoption by the French military.
- features include: tilting bolt; gas-operated; open adjustable sights; walnut stock with upper hand guard; a small "grip safety" lever behind the trigger-guard; and an overall resemblance to the Tokarev SVT40 (without a muzzle brake or forward sheet-metal hand guard).

Manufacturer

- the manufacturer's designation is marked on the left side of the receiver/frame as, "M.A.S."

Action

- gas-operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Shots

- Introduced in 1928 with 10 shot capacity, magazine.
- Detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 33982
Make: MAS
Model: 1935S

Summary

Make:	MAS
Model:	1935S
Manufacturer:	Manufacture d'Armes de St-Etienne (MAS)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
33982 - 1	7.65MM FRENCH LONG	8	108	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAS" is marked on the left side of the slide.
- "MAS" is the abbreviation for Manufacture d'Armes de St-Etienne.

Model

- introduced by Manufacture d'Armes de St-Etienne (MAS) in 1935 for French military service pistol trials and officially adopted in 1937.
- "1935S" is marked on the right side of the slide.
- "S" denotes the arsenal that designed the firearm, Manufacture d'Armes de St-Etienne (MAS).
- early samples of the 1935S were simply marked with the model designation "1935S", when a safety modification was implemented an "M1" marking was added to the right of the model designation.
- as all SAGEM pistols were produced after the modification, all have the designation "M1" marked on the right side.
- features include:curved backstrap; manual safety; lanyard ring; external hammer; fixed sights;checkered grips;semi-beavertail grip; barrel protrudes from the slide.

Manufacturer

- "MAS" is marked on the left side of the slide.
- "MAS" is the abbreviation for Manufacture d'Armes de St-Etienne.

Action

- recoil operated.

Serial Number

- 1 through 2569 - no script letter prefix.
- F1 through F4117 - F prefix is in script
- script letter F resembles a J.

Calibre

- "CAL. 7.65 L" is marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Canadian Law Comments - Handguns chambered for the cartridge 7.65MM FRENCH LONG, also known as 32 FRENCH LONG, 7.65MM LONG AND 7.65MM MAS, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:
"prohibited firearm" means
(a) a handgun that
(ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
76176 - 1	7.65MM FRENCH LONG	8	106	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAS" is marked on the left side of the slide.
- "MAS" is the abbreviation for Manufacture d'Armes de St-Etienne.
- Manufacture d'Armes de St-Etienne (MAS) manufactured the barrel and slide and supplied these parts to Manufacture Francaise d"Armes & Cycles de St-Etienne / ManuFranced (MF) for final assembly.

Model

- introduced by Manufacture d'Armes de St-Etienne (MAS) in 1935 for French military service pistol trials and officially adopted in 1937.
- "1935S" is marked on the right side of the slide.
- "S" denotes the arsenal that designed the firearm, Manufacture d'Armes de St-Etienne (MAS).
- early samples of the 1935S were simply marked with the model designation "1935S", when a safety modification was implemented an "M1" marking was added to the right of the model designation.
- features include: curved backstrap; manual safety; lanyard ring; external hammer; fixed sights; checkered grips; semi-beavertail grip; barrel protrudes from the slide.

Manufacturer

- "MF" is marked on the right side of the receiver/frame.
- "MF" was the abbreviation used by "Manufacture Francaise d'Armes & Cycles de St-Etienne" and "ManuFrance".

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- "MF" in front of the serial number is not a prefix, this is the manufacturer's code.
- serial number range is from G1 to G10000.

Calibre

- "CAL. 7,65 L" is marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Canadian Law Comments - Handguns chambered for the cartridge 7.65MM FRENCH LONG, also known as 32 FRENCH LONG, 7.65MM LONG AND 7.65MM MAS, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:
"prohibited firearm" means
(a) a handgun that
(ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

Notes

Make

- the make designation is marked on the left side of the receiver/frame as, "MAS".

Model

- the model designation is marked on the left side of the receiver/frame as "1938-39".
- this was the immediate pre-production trials version of the MAS 1940, the gas-operated rifle that would eventually become the MAS 44.
- although adopted, widespread production of this rifle did not take place until after the war.
- features include: three-piece wooden furniture (butt, forearm, and upper handguard); charger guide on the forward edge of the bolt carrier; open, sliding adjustable aperture rear sight with post front sight; knurled round cocking handle on right side of the bolt carrier; tilting bolt; and a reversible tubular-handle bayonet stored in the forearm under the muzzle.

Manufacturer

- the manufacturer's designation is marked on the left side of the receiver/frame as, "MAS".

Action

- gas-operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame above the magazine well.

Calibre

- the calibre designation is marked on the left side of the receiver/frame as "CAL. 7.5"

Shots

- internal box magazine with hinged floor plate.

121795 - 3	7.5X54 FRENCH MAS	25	580	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make designation is marked on the left side of the receiver/frame as, "MAS".

Model

- Introduced in 1940.
- the model designation is marked on the left side of the receiver/frame as "MAS Mle 1940".
- features include: three-piece wooden furniture (butt, forearm, and upper hand guard); charger guide on the forward edge of the bolt carrier; open, sliding adjustable aperture rear sight with post front sight; knurled round cocking handle on right side of the bolt carrier; tilting bolt; and a reversible tubular-handle bayonet stored in the forearm under the muzzle.

Manufacturer

- the manufacturer's designation is marked on the left side of the receiver/frame as, "MAS".

Action

- gas-operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame above the magazine well.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the left side of the receiver/frame as "CAL. 7.5"
Shots	- internal box magazine with hinged floor plate. - some versions of this rifle are reported to have been modified for the Chatellerault 1924/29 magazine, in both 10 and 25 round capacities.
Remarks	- This version was deemed "experimental" and produced in very limited numbers (approximately 50). - this is the rifle that would have become the primary-issue rifle of the French military during 1940, had not the invasion of France intervened; as it was, this rifle was approved and adopted (and eventually formed the basis for the MAS 1944) but did not see any widespread production.

FRT Report

Firearm Reference Number (FRN): 54185
Make: MAS
Model: 1944

Summary

Make:	MAS
Model:	1944
Manufacturer:	Manufacture d'Armes de St-Etienne (MAS)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
54185 - 1	7.5X54 FRENCH MAS	5	581	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
54185 - 2	7.5X54 FRENCH MAS	10	581	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAS" is the acronym for "Manufacture d'Armes de St-Etienne" or "Manufacture Nationale d'Armes de St-Etienne".

Model

- Introduced in 1945.
- "MAS Mle 1944" is marked on the left side of the receiver/frame.
- the model 1944 was the next evolution of the semi-autromatic rifle being designed for use by French troops. It is an updated version of the MAS model 1940 rifle that was made in limited quantities for troop trials.
- officially adopted as the model 1944 on January 11, 1945, only about 6200 were produced.
- the model 1944 was made in four different variations;

1) basic model 1944; features include: plain receiver/frame (no groove for telescopic sight); rear sight mounted on the receiver/frame; two piece stock, aluminum (on prototypes) or white plastic (all regular production) bolt knob; detachable bayonet stored under barrel in the forearm; no grenade launcher.
2) model 1944A; this was an updated version intended to correct perceived deficiencies of the original design. Identifying features include: integral grenade launcher; rubber buttplate; rear sight mounted on the receiver/frame; elimination of the bayonet; and a groove on the left side of the receiver/frame to accommodate a telescopic sight mount. Specifications for a folding stock for use by alpine troops were also detailed but it is unknown if any were produced.
3) model 1944B; features include: same basic design as previous versions but with an adjustable rear peep sight mounted at the rear of the barrel. This version uses a detachable sleeve to launch grenades.
4) model 1944C; similar to the model 1944 but with a different trigger guard attachment method and a different receiver/frame cover.

- the model 1944 became the basis for the upgraded M1949 rifle used extensively by the French Army.

Manufacturer

- manufacturer is marked as "MAS" on left side of receiver.
- Manufacture d'Armes de St-Etienne is one of several manufacturers that supplies small arms to the French government.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is usually marked on the left side of the receiver/frame and may incorporate an alpha prefix.
Shots	- detachable box magazine.
Remarks	- This version was produced in limited numbers.

Notes

Make - "MAS" is the acronym for "Manufacture d'Armes de St-Etienne" or "Manufacture Nationale d'Armes de St-Etienne".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Introduced in 1949. - the model 1949 is basically a modernized version of the MAS model 1944. The model 1949 was adopted on July 12, 1949. - it is reported that a total of only 20,000 were manufactured for the French army and navy. - features include: phosphate finish; two piece stock; white plastic bolt knob; no provision for a bayonet (except on those built for Syria); built in grenade launcher and sight. - Syria ordered 6000 MAS 1949 rifles equipped with an upper band similar to the one used on the MAS model 1936 equipped with a grenade launcher. The forestock was hollowed out to accept a MAS model 1936 bayonet (either attached point forward or stored reversed in the forend). - France experimented with a calibre 30-06 SPRG version that utilized a longer receiver/frame to accommodate the cartridge. At least four variants were made, one had no provision for launching a grenade, and the remainder featured different grenade launching mechanisms and/or sights. - a folding stock version was also produced as the model 1949 CR (crosse rabattable). This version used an underfolding cast aluminum buttstock, and had a shorter barrel with no grenade launching capability. At least one sample of this version was built with the long receiver/frame in calibre 30-06 SPRG. - at least one model 1949 was built as a "Hunting Carbine" to explore the feasibility of producing a sporting style arm. - the model 1949 was superceded by the model 1949/56.
Manufacturer	- the manufacturer is marked on the receiver/frame as "MAS". - Manufacture d'Armes de St-Etienne is one of several manufacturers that supplies small arms to the French government.
Action	- gas operated.
Serial Number	- marked on the left side of the receiver/frame, usually incorporates a letter prefix followed by sequential numbers.
Calibre	- the calibre designation is usually marked on the left side of the receiver/frame as "CAL 7.5". - some experimental versions were chambered in calibre 30-06 SPRG (metric designation 7.62 X 63MM), these were produced before the current 7.62MM NATO cartridge was so designated, the calibre designation is usually marked as "CAL. 7.62" on those examples. - a prototype of a MAS 49 "Hunting Carbine" in calibre 7MM MAUSER was also built.
Shots	- detachable box magazine.
Other Markings	- the top of the barrel, towards the breech end will usually be marked with the manufacturer, year of manufacture and the code of the firm that supplied the steel. example: MAS - 1953 - FY
Remarks	- accessories that were issued to troops that may be found on individual rifles include; a) Night Sighting Device; this device is a conical sleeve that attaches to the end of the barrel and acts as a flash suppressor, it is also equipped with a front and rear sight that are phosphorescent. b) Rope Launcher; used by the French navy, uses a threaded rod fired by a bulletless cartridge. c) Telescopic Sight model 1953; built by the firm of Puteaux Works, this sight mounts to grooves on the left side of the receiver/frame. this sight was intended for precision shooting out to 600 meters.

Notes

Make - marked as "MAS" on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Introduced in 1956. - 275,240 units manufactured between 1956 and 1978. - model designation marked on left side of the receiver/frame as, "MLE 1949-56" - features include: - two piece wood stock; - usually fitted with a white plastic bolt knob; - recognizable by the grooved barrel which extends approx 200MM beyond the short forearm and by an in-line folding "trestle" type auxiliary grenade launching sight; - may be fitted with rubber buttstock extension/recoil pad; - removable box magazine; - rear peep sight mounted on the rear of the receiver is adjustable for coarse elevation (range) changes and fine windage adjustment; - post foresight is adjustable for fine elevation changes; - integral scope mounting grooves on the left side of the receiver/frame; - this firearm is a derivative of the MAS 1944 and MAS 1949.
Manufacturer	- marked on left side of receiver/frame as "MAS".
Action	- gas operated.
Serial Number	- marked on the left side of the receiver/frame. - serial number rationalization for this model breaks down as follows: - 100,000 produced numbered between F001 and F100000; - 100,000 produced numbered between G001 and G100000; - 75.240 produced numbered between H001 and H75240. - additionally, some examples may be encountered with "X"-ed out serial numbers. These rifles were modified by the French military for demonstration purposes and were de-activated to French military standard.
Calibre	- marked on left side of receiver/frame as "CAL. 7.5" or as "CAL. 7.62N" as appropriate.
Shots	- removable box magazine. - factory magazines were altered to hold only two of the 30-284 WIN WILDCAT cartridges.
Remarks	- with few exceptions French citizens are not allowed to own firearms that chamber military cartridges, as such a version of this rifle was made for French domestic sales in a "Wildcat" cartridge that used a 284 WIN case necked up to .30 calibre.

Notes

Make

- marked as "MAS" on the left side of the receiver/frame.

Model

- three thousand of this special target version of the model "1949/56" were ordered circa 1968, it is reported that only 900 were delivered.
- the "MSE" in the model designation denotes "Modified, St Etienne"
- these rifles were built on existing 1949/56 models or newly produced receiver/frames.
- features include:
- two piece wood buttstock with pistol grip and cheekpiece;
- usually fitted with a white plastic bolt knob;
- recognizable by the grooved barrel which extends approximately 200mm beyond the short forearm and by an in-line folding "trestle" type auxiliary grenade launching sight;
- may be fitted with rubber buttstock extension/recoil pad;
- removable box magazine;
- rear peep sight mounted on the rear of the receiver is adjustable for fine elevation (range) changes and fine windage adjustment;
- post foresight is adjustable for fine elevation changes;
- integral scope mounting grooves on the left side of the receiver/frame.

Manufacturer

- marked on left side of the receiver/frame as "MAS".

65209 - 1	9MM LUGER	9	112	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Model	- model designation is marked on the slide. - after World War Two the French army was looking to replce the model 1935. They wanted a larger calibre so development work was done to redesign the previous model to accept the 9MM LUGER cartridge and the grip was lengthened to take a nine shot magazine. - production ceased by 1960.
Manufacturer	- "MAS" is marked on the slide.
Action	- recoil operated.
Serial Number	- serial number marked on the right side of the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- marked as "MAS" within a circle on the barrel.

Model

- the model designation is marked as "Mod. 45" or "Mod 45" on the top of the barrel.
- features include: round barrel that is pressed and pinned into the receiver/frame; large, open top ejection port; bolt release located on the left rear side of the receiver/frame; wing type safety on the bolt; detachable box magazine; ramped front sight with quick change sight blade and shroud, tangent rear sight located on the top of the receiver/frame bridge; one piece pistol grip stock with sling swivels.
- manufactured from August 1945 to the end of June 1946 by Mauser-Werke at Oberndorf, Germany as the "Mauser Model 45".
- the production for this firearm was transferred to France in 1946.

Manufacturer

- "MAS" is the abbreviation for Manufacture d'Armes de St-Etienne.
- "ST ETIENNE" may also be marked on the barrel.
- unfinished Mauser produced parts were assembled into complete firearms by Manufacture d'Armes de St-Etienne (MAS), as such some firearms may bear Mauser and MAS markings.

Action

- turn-bolt operated.

Serial Number

- serial number is usually located on the rear right side of the receiver/frame.
- serial number usually has the letter prefix "F".

Calibre

- "Cal. .22 long rifle" may be marked on the barrel.

Shots

- detachable box magazine.

Notes

Make

- "FA MAS" marked on the right side of the receiver/frame on the magazine housing.
- FA MAS denotes: Fusil Automatique, Manufacture d'Armes de Sainte-Etienne.
- usually abbreviated to MAS.

Model

- this is the original FAMAS (Fusil Automatique, Manufacture d'Armes de Saint-Etienne) rifle made for use by the French military. Also known as the "FAMAS F1".
- the right side of the magazine well is usually marked "FA MAS 5.56 F1".
- FAMAS prototypes were introduced in 1973, production began in 1979 and continued to 1994. In 1994/5 the original FAMAS rifle was replaced by an updated version capable of using NATO standard magazines and a new "whole hand" pistol grip/trigger guard assembly. This new version was designated "FAMAS G2".
- the FAMAS model line is in "bull-pup" configuration whereby the stock (in this case several separate components that make up the stock assembly) places the trigger ahead of the action. The FAMAS is also readily altered from right side ejection to left side ejection.
- features include: select fire (full, semi and 3-shot burst) capability; polymer butt with reversible cheek piece; bipod; ambidextrous cocking handle located within the integral carrying handle; upper hand-guard includes the carrying handle which also serves as the sight channel and protector for the front sight and an elevation adjustable rear sight; trigger, trigger guard and pistol grip are mounted on the forestock; grenade launcher.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "FA MAS" marked on the right side of the receiver/frame on the magazine housing. - FAMAS denotes: Fusil Automatique, Manufacture d'Armes de Sainte-Etienne.
Action	- delayed blowback operation, no longer capable of full automatic fire.
Serial Number	- serial number located on the right side of the magazine housing.
Calibre	- the calibre is usually marked on the right side of the magazine well as part of the manufacturer/model designation "FA MAS 5.56 F1".
Shots	- detachable box magazine.
Canadian Law Comments	- this model is equipped with an assembly of parts known as a "bull-pup" stock which, in Canada, is a Prohibited Device as described in PDR, Part 4, para. 2.

Notes

Make

- "FA MAS" marked on the right side of the receiver/frame on the magazine housing.
- FA MAS denotes: Fusil Automatique, Manufacture d'Armes de Sainte-Etienne.
- usually abbreviated to MAS.

Model

- this is the original FAMAS (Fusil Automatique, Manufacture d'Armes de Saint-Etienne) rifle made for use by the French military. Also known as the "FAMAS F1".
- the right side of the magazine well is usually marked "FA MAS 5.56 F1".
- FAMAS prototypes were introduced in 1973, production began in 1979 and continued to 1994. In 1995 the original FAMAS rifle was replaced by an updated version capable of using NATO standard magazines and a new "whole hand" pistol grip/trigger guard assembly. This new version was designated "FAMAS G2".
- the FAMAS model line is in "bull-pup" configuration whereby the stock (in this case several separate components that make up the stock assembly) places the trigger ahead of the action. The FAMAS is also readily altered from right side ejection to left side ejection.
- features include: select fire (full, semi and 3-shot burst) capability; polymer butt with reversible cheek piece; bipod; ambidextrous cocking handle located within the integral carrying handle; upper hand-guard includes the carrying handle which also serves as the sight channel and protector for the front sight and an elevation adjustable rear sight; trigger, trigger guard and pistol grip are mounted on the forestock; grenade launcher.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "FA MAS" marked on the right side of the receiver/frame on the magazine housing. - FA MAS denotes: Fusil Automatique, Manufacture d'Armes de Sainte-Etienne.
Action	- delayed blowback operation.
Serial Number	- serial number located on the right side of the magazine housing.
Calibre	- the calibre is usually marked on the right side of the magazine well as part of the manufacturer/model designation "FA MAS 5.56 F1".
Shots	- detachable box magazine.
Canadian Law Comments	- this model is equipped with an assembly of parts known as a "bull-pup" stock which, in Canada, is a Prohibited Device as described in PDR, Part 4, para. 2.

Firearm Reference Number (FRN): 135958
Make: Maslin, Michael M
Model: Flintlock Pistol

Summary

Make:	Maslin, Michael M
Model:	Flintlock Pistol
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
135958 - 1	45 FLINTLOCK	1	242	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	

Notes

Make

- "M M" over "MASLIN" over "WARRANTED" was observed marked on the sidelock of an example.
- Michael M. Maslin was a lockmaker located in Baltimore Maryland from 1822 to 1833 and in Philadelphia, Pennsylvania to 1847.

Model

- manufactured prior to 1898.
- model designation is not marked on the firearm.
- this is a muzzle loading, flinlock ignition pistol.
- features include: octagonal barrel with brass blade front sight and dovetailed rear sight; ramrod mounted under the barrel; lightly engraved lockplate and cock; brass nosecap, trigger guard, transverse barrel wedge and ramrod thimbles; full length walnut stock.

Action

- muzzle loading, flintlock ignition.

Serial Number

- observed firearm did not have a serial number.

Other Markings

- probably marked on the side lock: "W. Moore London" or "Wm Moore London".

Notes

Make

- "MANUFACTURED BY MASS. ARMS CO. CHICOPEE FALLS" is marked on the top strap.

Model

- manufactured from 1857 to 1861.
- model designation does not appear on the firearm.
- "ADAM'S PATENT MAY 3, 1858" is marked on the left side of the firearm.
- "PATENT JUNE 3, 1856" is marked on the left side of the firearm.
- "KERR'S PATENT" and "APRIL 14th, 1857" are marked on the loading lever.
- approximately 1000 were produced.
- features include: fixed sights, solid receiver/frame, external hammer, plain cylinder, octagonal barrel, loading lever located on the left side of the barrel, double action trigger mechanism, sliding cylinder safety located on the right side of the receiver/frame, blued finish with checkered walnut grip.
- some specimens may bear United States inspector's markings on the walnut grip.

Manufacturer

- "MANUFACTURED BY MASS. ARMS CO. CHICOPEE FALLS" is marked on the top strap.

Calibre

- the calibre designation may appear on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- the left side of the receiver/frame is marked:
"ADAMS PATENT
MAY 3 1858".
- the right side of the receiver/frame is marked:
"PATENT
JUNE 3 1856".
- the top strap is marked:
"MANUFACTURED BY
MASS. ARMS CO.
CHICOPEE FALLS".
- the loading lever is marked:
"KERR'S PATENT
APRIL 14 1857".

FRT Report

Firearm Reference Number (FRN): 81692
Make: Massachusetts Arms
Model: Maynard Primed Belt

Summary

Make:	Massachusetts Arms
Model:	Maynard Primed Belt
Manufacturer:	Massachusetts Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
81692 - 1	31 PERCUSSION	6	76	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
81692 - 3	31 PERCUSSION	6	152	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
81692 - 2	31 PERCUSSION	6	178	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap.

Model

- "Maynard Primed Belt" is an oddly shaped single action, Maynard primed percussion revolvers.
- "Maynard Primed Belt" was made in the quantity of approximately a 1000, after Samuel Colt successfully sued the Massachusetts Arms Company for patent infringement.
- "Maynard Primed Belt" was made from 1851 to 1857.
- "MAYNARD'S PATENT" and "SEP. 22. 1845" is usually marked in a circle around an eagle on the primer cover on the right side.
- features include: pin front and "v" notched blade rear sight; round barrel with top-strap mounted on a central cylinder axis pin; standing breech (similar to a pepperbox type) with side tangs running down the right sides of the grip; external, right side spurred hammer; right side loading door; cylinder release button inside the top of the trigger-guard; rounded shape wood grip; etched decoration of shield and spears, cannon and anchor with floral scrollwork mixing blue and color casehardened colours.
- in order to comply with the terms of Samuel Colt's lawsuit, the Massachusetts Arms Company had to re-design their Wesson & Leavitt design to a manually revolved cylinder; this they did, but they continued using as many parts as practicable from their existing stock.

Manufacturer

- the manufacturer is marked on the firearm.

Serial Number

- numbered on frame from "1" up.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- barrels on these revolvers are seen between 76mm and 178mm, but there doesn't appear to have been a "standard" barrel length.
Other Markings	- marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap, "PAT. NOV. 26, 1850" on the barrel, and "MAYNARD'S PATENT SEP. 22, 1845" on the door of the tape primer; additional designs on the door of the tape primer are also known (most notably an American eagle and shield).

81712 - 5	31 PERCUSSION	6	89	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap.

Model

- between 2500 and 3000 of these small Maynard-primed pocket revolvers were manufactured by the Massachusetts Arms Company between 1851 and 1860.
- two primary variations of these revolvers are known; due to Samuel Colt's earlier lawsuit, the earliest variations of these revolvers were manually-revolved, but later production versions were fitted with an internal hand to revolve the cylinder when the hammer was cocked.
- the earlier (hand-revolved) pattern was made in calibre 28 PERCUSSION only, and was made with a cylinder release button mounted inside the top of the trigger guard; the later pattern was made with a cylinder that revolved as the hammer was cocked, and was made in a larger frame size (both 28 and 31PERCUSSION examples known).

Manufacturer

- marked on the topstrap.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- barrels on these revolvers are seen between 76mm and 178mm, but there doesn't appear to have been a "standard" barrel length.
Other Markings	- marked "MASS. ARMS CO. / CHICOPEE FALLS" and "MAYNARD'S PATENT 1845", with the second pattern adding "PATENT / JAN. 2, 1855" on the backstrap

Notes

Make

- "Massachusetts Arms Co.", "Mass. Arms Co.", "Mass. Arms Co." and "Chicopee Falls" or "Mass. Arms Co." and "Chicopee Falls, Mass." may be marked on the firearm.
- the "Massachusetts Arms" name was used by several different firearms producers.
- "Massachusetts Arms Co." was a tradename used by the "Massachusetts Arms Company" of Chicopee Falls, Massachusetts from 1860 to 1893. This company manufactured Maynard's patent single shot pistols, rifles, carbines and shotguns, Wesson's and Leavitt's, Maynard's and Adams patent revolvers, and conventional single barrel shotguns with front hinged receiver/frame and top mounted break open lever.
- "Massachusetts Arms Co." was a tradename used by the "Blish, Mizet and Silliman Hardware Company" of Atchinson, Kansas.
- "Massachusetts Arms Co." was a tradename used on double barrel shotguns manufactured by "Crescent Firearms Company/H.D. Folsom Arms Company" from 1905 to 1920.
- "Massachusetts Arms Co." was a tradename used on both single and double barrel shotguns manufactured by the "J. Stevens Arms Company/Savage from 1920 to 1940. The Steven's Patent of December 11, 1900 may be used on this firearm.

Model

- model designation is not marked on the firearm.
- features include: round, smoothbore barrel with a bead front sight and extractor; front hinged receiver/frame with upper tang mounted break opening lever and external spur hammer; plain wood snap on forearm and semi pistol grip buttstock with hard black rubber buttplate.

Manufacturer

- the manufacturer's name is not marked on the firearm.
- Steven's "CHICOPEE FALLS, MASS." address is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- hinged barrel design.
Serial Number	- serial number of an observed example was marked on the lower tang of the receiver/frame. - observed serial number consisted of a two letter prefix followed by three numbers.
Other Markings	- on an observed example "CHOKE BORED" is marked on the barrel.

Notes

Make

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Model

- manufactured in 1850 and 1851.
- "WESSON'S AND LEAVITT'S PATENT" or "WESSON'S & LEAVITT'S PATENT" is usually marked on the lock plate.
- "PATENT NOV. 25, 1850" is usually marked on the barrel catch.
- "WESSON'S" over "PATENT" over "AUG. 28, 1849" is usually marked on the bevel gear.
- "LEAVITT'S PATENT APRIL 29, 1837" is usually marked on the cylinder.
- approximately 800 of these oddly shaped single action percussion revolvers were made before Samuel Colt successfully sued the Massachusetts Arms Company for patent infringement.
- this model has a grip protruding directly out the back of the standing breech (similar to a pepperbox type) with side tangs running down the sides of the grip, a round barrel with top-strap mounted on a central cylinder axis pin, hammer mounted on the right side of the receiver/frame, and percussion nipples inset into the cylinder in angled holes.
- later production versions of these revolvers were manufactured with loading levers similar to the Colt Walker, but the earliest examples had no levers; also, the cylinders on these revolvers may be seen in either plain or engraved styles.
- a smaller version of this revolver was also made, but in calibre 31 PERCUSSION.

Manufacturer

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - numbered on frame from "1" up.

Other Markings - marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap, "WESSON'S AND LEAVITT'S PATENTS" on the lockplate, "PATENT NOV.26 1850" on the barrel catch (approximately 30 revolvers of early production omitted this marking), "WESSON'S / PATENT / AUG. 28, 1849" on the bevel gear, and "LEAVITT'S PATENT APRIL 29, 1837" on the rear of the cylinder.

Notes

Make

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Model

- manufactured in 1850 and 1851.
- "WESSON'S AND LEAVITT'S PATENT" or "WESSON'S & LEAVITT'S PATENT" is usually marked on the lock plate.
- "PATENT NOV. 25, 1850" is usually marked on the barrel catch.
- "WESSON'S" over "PATENT" over "AUG. 28, 1849" is usually marked on the bevel gear.
- "LEAVITT'S PATENT APRIL 29, 1837" is usually marked on the cylinder.
- less than 50 of these oddly shaped single action percussion revolving rifles were made before Samuel Colt successfully sued the Massachusetts Arms Company for patent infringement.
- this model has a grip protruding directly out the back of the standing breech with side tangs running down the sides of the grip, a two-step round barrel with top-strap mounted on a central cylinder axis pin, hammer mounted on the right side of the receiver/frame, and percussion nipples inset into the cylinder in angled holes.
- roll-engraved cylinder scene, and what appears to be a detachable shoulder stock, but is actually a permanent two-piece stock.

Manufacturer

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Serial Number

- numbered on frame from "1" up.

Barrel

- barrels on these revolving rifles have been measured between 16"/406mm and 24"/610mm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap, "WESSON'S AND LEAVITT'S PATENTS" on the lockplate, "PATENT NOV.26 1850" on the barrel catch (approximately 30 revolvers of early production omitted this marking), "WESSON'S / PATENT / AUG. 28, 1849" on the bevel gear, and "LEAVITT'S PATENT APRIL 29, 1837" on the rear of the cylinder.

FRT Report

Firearm Reference Number (FRN): 81691
Make: Massachusetts Arms
Model: Wesson's & Leavitt's Patent Belt Revolver

Summary

Make:	Massachusetts Arms
Model:	Wesson's & Leavitt's Patent Belt Revolver
Manufacturer:	Massachusetts Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
81691 - 1	31 PERCUSSION	6	76	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
81691 - 3	31 PERCUSSION	6	102	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	
81691 - 2	31 PERCUSSION	6	178	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Model

- manufactured in 1850 and 1851.
- "WESSON'S AND LEAVITT'S PATENT" or "WESSON'S & LEAVITT'S PATENT" is usually marked on the lock plate.
- "PATENT NOV. 25, 1850" is usually marked on the barrel catch.
- "WESSON'S" over "PATENT" over "AUG. 28, 1849" is usually marked on the bevel gear.
- "LEAVITT'S PATENT APRIL 29, 1837" is usually marked on the cylinder.
- approximately 1000 of these oddly shaped single action percussion revolvers were made before Samuel Colt successfully sued the Massachusetts Arms Company for patent infringement.
- features a grip protruding directly out the back of the standing breech (similar to a pepperbox type) with side tangs running down the sides of the grip, a round barrel with top-strap mounted on a central cylinder axis pin, hammer mounted on the right side of the frame, and percussion nipples inset into the cylinder in angled holes.
- a larger version of this revolver was also made, but in calibre 40 PERCUSSION.

Manufacturer

- "MASS. ARMS CO." over "CHICOPEE FALLS" is marked on the topstrap.

Serial Number

- numbered on frame from "1" up.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- barrels on these revolvers are seen between 76mm and 178mm, but there doesn't appear to have been a "standard" barrel length.
Other Markings	- marked "MASS. ARMS CO. / CHICOPEE FALLS" on the topstrap, "WESSON'S AND LEAVITT'S PATENT" on the lockplate, and "LEAVITT'S PATENT APRIL 29, 1837" on the front of the cylinder.

Notes

Make

- "MasterPiece Arms" over "Comer, GA" or the logo is marked on the chassis/stock and on the barrel.
- "MPA" is the abbreviation for "MasterPiece Arms".
- "MasterPiece Arms (MPA)" was founded in 1992 by Gary Poole.
- "MasterPiece Arms (MPA)" has facilities in Carrollton and Comer, Georgia, U.S.A.

Model

- "AXIOM" is marked on the right, forward side of the receiver/frame.
- "AXIOM" is a custom receiver/frame and rifle having the standard Remington 700 footprint.
- "AXIOM" is available in short and long actions in a right or left hand configurations.
- "AXIOM" is sold as a rifle, rifle action or barreled action.
- "AXIOM" as assembled and sold by "MasterPiece Arms (MPA) has a MPA manufactured/marked barrel and rifle chassis using Accuracy International (AI) bolt rifle magazines.
- "MasterPiece Arms (MPA) chassis/stock assembly is machined from aluminum alloy with adjustable buttstock that may have a monopod and a cheek riser
- features include: no sight; may have a threaded muzzle; round, tapered; receiver/frame with close top, drilled and tapped for optic mount; left or right hand spiral fluted bolt; rear receiver/frame mounted bolt release lever; detachable magazine; magazine release located in the front of the trigger guard; chassis/stock assembly machined from aluminum alloy with fully adjustable stock and recoil pad; integrated level in the chassis behind the receiver/frame; stainless steel or blue finish with the chassis/stock assembly that may be in colour.
- overall length with 559 mm (22") barrel is 1073mm (42.25") and the average weight is 3.54kg (7.8lbs).

Manufacturer

- manufacturer may not be marked on the firearm.
- "Curtis Custom" was established in 2011.
- "Curtis Custom" are a manufacturer of custom action and rifle having the standard Remington 700 footprint.
- "Curtis Custom" is located in Alvarado, Texas U.S.A..

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left, forward side of the receiver/frame.
- serial number of referenced examples consisted of one letter (A) and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre designation is marked on the barrel.
- 223 REM rifling/5.56MM NATO rifling characteristics: 1 turn in 7 inches, right hand twist.
- "223 Wylde" is a chamber design and not a calibre. Wylde chamber has traditionally been used in match rifles and also allow the ability to safely and interchangeably shoot military 5.56MM NATO and .223 REM ammunition.
- 224 VALKYRIE rifling characteristics: 1 turn in 7 inches, right hand twist.
- 300 NORMA MAG rifling characteristics: 1 turn in 10, 1 turn in 9 or 1 turn in 8 inches, right hand twist.
- 308 WIN rifling characteristics: 1 turn in 8 or 1 turn in 10 inches, right hand twist.
- 6MM CREEDMOOR rifling characteristics: 1 turn in 8 inches, right hand twist.
- 6.5x47 LAPUA rifling characteristics: 1 turn in 8 inches, right hand twist.

Shots

- detachable box magazine.
- "MasterPiece Arms (MPA)" bolt action chassis use Accuracy International (AI) bolt rifle magazine.

FRT Report

Firearm Reference Number (FRN): 20736
Make: MAT
Model: 1935S

Summary

Make:	MAT
Model:	1935S
Manufacturer:	Manufacture d'Armes de Chatellerault (MAC)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
20736 - 1	7.65MM FRENCH LONG	8	106	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAT" is marked on the left side of the slide.
- "MAT" is the abbreviation for Manufacture d'Armes de Tulle.
- Manufacture d'Armes de Tulle (MAT) manufactured the barrel and slide and supplied these parts to Manufacture Nationale d'Armes de Chatellerault (MAC) for final assembly.

Model

- introduced by Manufacture d'Armes de St-Etienne (MAS) in 1935 for French military service pistol trials and officially adopted in 1937.
- "MODELE 1935 S" or "MODELE 1935 S M1" is marked on the right side of the slide.
- "S" denotes the arsenal that designed the firearm, Manufacture d'Armes de St-Etienne (MAS).
- early samples of the 1935S were simply marked with the model designation "1935S", when a safety modification was implemented an "M1" marking was added to the right of the model designation.
- as all SAGEM pistols were produced after the modification, all have the designation "M1" marked on the right side.
- features include:curved backstrap; manual safety; lanyard ring; external hammer; fixed sights;checkered grips;semi-beavertail grip; barrel protrudes from the slide.

Manufacturer

- "MAC" is marked on the right side of the receiver/frame.
- "MAC" the abbreviation for Manufacture Nationale d'Armes de Chatellerault.
- Manufacture Nationale d'Armes de Chatellerault (MAC) manufactured the receiver/frame and assembled the firearm.
- Manufacture d'Armes de Tulle (MAT) manufactured the barrel and slide and supplied these parts to Manufacture Nationale d'Armes de Chatellerault (MAC) for final assembly.

Action

- short recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- "MAC" and a dash (-) in front of the serial number is not a prefix to the serial number.
- serial number observed consisted of a letter "C" prefix and four numbers.

- serial number ranges is from A1 to A10000, B10000 to B20000, C1 to C10000, D1 to D10000, E1 to E10000, and F1 to F6087.

Calibre

- "CAL. 7,65 L" is marked on the right side of the slide.

Shots

- detachable box magazine.

Notes

Make

- "Tulle" in script is marked on the left side of the receiver/frame.
- "Tulle" stands for "Manufacture d'Armes de Tulle".
- "Manufacture d'Armes de Tulle" uses the acronym "MAT".
- "Manufacture d'Armes de Tulle" was located in the town of Tulle, France.

Model

- "Mier", and "A6 MLE 1916" is marked on the left side of the receiver/frame.
- "Mier" and "A6 MLE 1916" stands for "Meunier A6 Modèle 1916".
- "Etienne Meunier" was an inventor and French weapons inspector.
- "A6 Modèle 1916" is a semi-automatic, internal magazine feed, with a full length stock and top handguard.
- "A6 Modèle 1916"was presented in 1910 to replace the Lebel rifle and tested in 1911/1912.
- "A6 Modèle 1916" had limited production started and ended in 1913.
- "A6 Modèle 1916" production re-started in late 1916 to the spring of 1917.
- "A6 Modèle 1916" was using a unique cartridge/calibre to that French Military rifle.
- features include: stepped barrel at the muzzle; dovetailed front sight and a mid- barrel mounted rear tangent sight; front stock band located behind the front sight with a stacking hook and bayonet lug; rectangular receiver/frame with a round top action cover with a stripper clip loading guide; right side "S" shaped bolt handle with knob; rotary bolt locking with three locking lugs at the front of the bolt; right side, in front of the trigger guard, safety lever; internal magazine with a front hinged base plate; one piece stock with top handguard with two elongated slots on both sides; steel buttplate; blued finish.
- overall length with a 715mm (28.125") barrel is 1295mm (51"), average weight is 4.03kg (8.88lbs).

Manufacturer

- "Tulle" in script is marked on the left side of the receiver/frame.
- "Tulle" stands for "Manufacture d'Armes de Tulle".
- "Manufacture d'Armes de Tulle" was using the acronym "MAT".
- "Manufacture d'Armes de Tulle" was located in the town of Tulle, France.
- "Manufacture d'Armes de Tulle" was founded in 1690 in the city of Tulle by the town's gunsmiths. It produced armaments for the Empire of Sieuxerr as the "Imperial Arsenal of Tulle", however after the collapse of the monarchy in the mid-18th century, the factory was renamed to the "Manufacture d'Armes de Tulle".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- long-recoil operated.
Serial Number	- serial number is marked on the left side of the barrel. - serial number can also be marked on left side of the buttstock and rear stock band spring. - serial number of referenced examples consisted of one letter (R) in script and one to four numbers. - not to confuse the serial number with the right side barrel marking "MA" a space, "T" and the date of manufacture.
Calibre	- 7X57 Meunier was introduced in 1910. - 7X57 Meunier was made and use specifically for this rifle for the French Army. - 7X57 Meunier is a necked, rimless cartridge with a 139gr bullet of 0.284" in diameter. - 7X57 Meunier rifling characteristics: 1 turn in 8.66 inches, right hand twist.
Shots	- internal box magazine.

Notes

Make

- "MATADOR ARMS" is marked on the left side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- The Matador Arms logo consists of a pentagon with a skeletonized outline of a bull's head.

Model

- Introduced in "2023".
- "MAT9-9CLT" is marked on the left side of the lower receiver/frame.
- Based on the "AR-15/M4/M16" design.
- Features include: non-reciprocating charging handle; M-Lok rail attachment points; AR-style controls; ambidextrous three position safety selector.

Manufacturer

- "MATADOR ARMS" is marked on the left side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- The Matador Arms logo consists of a pentagon with a skeletonized outline of a bull's head.

Action

- Delayed roller-locking system.
- Select fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the left side of the receiver/frame. - Serial Number rationalization begins with "CLT" followed by a series of numbers.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the barrel, visible through the ejection port.
Shots	- Detachable box magazine. - Designed to accept "COLT 9MM CARBINE/SMG" type magazines.
Canadian Law Comments	- This firearm design incorporates a split receiver/frame: the lower receiver is the master component considered to be the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

199996 - 1	9MM LUGER	32	203	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MATADOR ARMS" is marked on the left side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- The Matador Arms logo consists of a pentagon with a skeletonized outline of a bull's head.

Model

- Introduced in "2023".
- "MAT9-9CLT" is marked on the left side of the lower receiver/frame.
- Based on the "AR-15/M4/M16" design.
- Features include: non-reciprocating cocking handle; M-Lok rail attachment points; 1913 rail stock attachment point; AR-style controls; ambidextrous two position safety selector.

Manufacturer

- "MATADOR ARMS" is marked on the left side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- The Matador Arms logo consists of a pentagon with a skeletonized outline of a bull's head.

Action

- Delayed roller-locking system.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the left side of the receiver/frame. - Serial Number rationalization begins with "CLT" followed by a series of numbers.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the barrel, visible through the ejection port.
Shots	- Designed to accept "COLT 9MM CARBINE/SMG" type magazines.
Canadian Law Comments	- This firearm design incorporates a split receiver/frame: the lower receiver is the master component considered to be the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Firearm Reference Number (FRN): 128766
Make: Match Grade Arms
Model: MGA Silver Edition

Summary

Make:	Match Grade Arms
Model:	MGA Silver Edition
Manufacturer:	Match Grade Arms (MG Arms)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128766 - 1	416 REM MAG	4	610	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "MGA" is marked on the firearm.
- "MGA" is the abbreviation for "Match Grade Arms (MG Arms)".

Model

- manufactured in 2009 and 2010.
- model designation is marked on the right side of the firearm.
- features include: custom firearm with choice of finish; safety on the right side; hinged floor plate magazine; scope.

Manufacturer

- Match Grade Arms (MG Arms) was established in 1980.
- Match Grade Arms (MG Arms) is located in Spring, Texas, U.S.A.
- Match Grade Arms (MG Arms) was originally known as Match Grade Arms & Ammunition.
- Match Grade Arms & Ammunition company name was changed to MG Arms Incorporated in 2004.
- Match Grade Arms (MG Arms) is a custom manufacturer of revolvers and rifles.
- Match Grade Arms (MG Arms) has used Ruger revolver receiver/frames by Sturm Ruger, Remington 700 rifle actions, Weatherby Vanguard rifle actions by Howa Machinery, Winchester 70 rifle actions by U.S. Repeating Arms, and Nesika Hunter rifle actions by Nesika Bay Precision.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a two letter "CG" prefix and seven numbers.

Calibre

- calibre is usually marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- internal magazine with hinged floor plate.
Other Markings	- example observed with the owner's name engraved on the firearm; do not confuse this with the actual manufacturer.

Notes

Make

- "MATCH GUNS" is marked on the receiver/frame of the firearm.
- "BY CESARE MORINI" may be marked on the firearms.
- logo of a four point "star"/cardinal points with a hollowed out square tilted on an axis may be found marked on the firearm.

Model

- introduced in 2015.
- "MGH1" is marked on the left side of the receiver/frame.
- this is a competition single-shot air pistol, manufactured with either a mechanical or an electronic trigger, for 10m ISU and Olympic competition.
- features include: round barrel with muzzle counterweight; interchangeable blade front sight and multi-directional, adjustable rear sight; selectable trigger, either mechanical or electrical; multi-directional and full adjustable, anatomical walnut grip available in right or left handed configurations.
- overall length is 420mm (16.5") with a 240mm (9.5") barrel and average weight is 0.98kgs (2.16lbs) or 1.100 kgs (2.42lbs), with balance weights.

Manufacturer

- "MATCH GUNS" is marked on the receiver/frame of the firearm.
- "BY CESARE MORINI" may be marked on the firearms.
- logo of a four point "star"/cardinal points with a hollowed out square tilted on an axis may be found marked on the firearm.

Action

- PCP/pre-charged pneumatic air pistol.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number may be marked on the receiver/frame.
- observed sample may consist of three numbers without letter prefix or suffix.
- note: number found on receiver/frame consisting of "C.N. 415" is not to be mistaken for the serial number of the firearm.

Notes

Make

- "MATEBA" is marked on the receiver/frame.
- "Mateba" stands for "MAcchine TErmo-BAlistiche".

Model

- model may be marked on the firearm.
- unusual handgun that functions as a "semi-automatic revolver".
- "semi-automatic revolver" is described by the recoil of firing a cartridge driving the upper receiver/frame, barrel and cylinder backwards along rails in the top of the grip frame to re-cock the hammer and advance the cylinder.
- features include: fires cartridges from the bottom chamber in the cylinder rather than the top; may have a barrel extension; square shaped barrel with top rib that may be ventilated; cylinder swings out to the left; no top strap over the cylinder; laminated or walnut grips; blued or nickel finish.
- a rifle operating on this principle is also made by Mateba as the "AutoRevolver Carbine".

Manufacturer

- based in Pavia, Italy.
- manufacturer name and logo is marked on the firearm.
- Mateba srl ("Macchine Termo Ballistiche") is a manufacturer based in Pavia, Italy, that specialized in making several versions of this "automatic revolver".

Action

- this firearm is both a "semi-automatic" and a "revolver".

Serial Number

- serial number is marked on the receiver/frame above the trigger.
- serial number of a referenced example consisted of six numbers.

42124 - 2	38 SPL	8	115	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Mateba" is marked on the right side of the receiver/frame.
- "Mateba" is an acronym obtained by joining the first two letters of Macchine Termo Ballistiche, the manufacturer's full name together.

Model

- the model is not marked on the firearm.
- this is an unusual revolver designed by Emilio Ghisoni specifically for ISU "rapid-fire" competition; in order to minimize felt recoil and muzzle jump when firing, Ghisoni placed the cylinder low in front of the trigger-guard, and the barrel then lay in line with the shooter's index finger.
- features include: blued finish; single or double-action trigger mechanism; anatomical stippled walnut grips; open adjustable sights, and an overall appearance that resembles the front half of a revolver mated with the rear half of a semi-automatic pistol.
- later Mateba designs have changed somewhat from this pattern, and can be identified by their Italian National Catalog Numbers.

Manufacturer

- manufacturer (or logo thereof) marked on firearm.
- Mateba srl ("Macchine Termo Ballistiche") is a manufacturer based in Pavia, Italy, that specializes in making several versions of a "automatic revolver"; where earlier versions of the Mateba revolver were manufactured with the cylinder located low in front of the trigger-guard; current Matebas have the cylinder mounted in an conventional location, albeit on an upper receiver/frame that slides back and forth on the pistol-grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is located on the left side of the receiver/frame.
- observed serial number consitsed of six digits without a letter prefix or suffix, eg. "000074".
- "CAT. 2901" or "CAT. 2902" may be marked on the left side of the firearm.
- "2901" and "2902" are not serial numbers, these are Italian Proof House catalogue numbers.

Calibre

- "CAL. 38 SPL" or "CAL. 357 MAG" may be marked on the left side of the receiver/frame.

Firearm Reference Number (FRN): 55827
Make: Mathelon
Model: MXD Drilling

Summary

Make:	Mathelon
Model:	MXD Drilling
Manufacturer:	Mathelon
Level:	Manufacturer Specifications and Commercial Customization
Type:	Combination Gun
Action:	Multi-Barrel
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
55827 - 2	8X57RJS MAUSER/20 GA X 3"	3	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
55827 - 1	9.3X74R/20 GA X 3"	3	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make (or logo thereof) is marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is an unusual three barreled firearm of the "drilling" type, but with two rifle barrels over a shotgun barrel.
- features include: coin finished engraved box lock receiver/frame; blued barrels; checkered walnut stock with "hog's-back" comb and a schnabel forearm; double triggers; tang safety/selector; sling swivels; and a quarter-rib with open leaf rear and a fluorescent front bead sight.
- overall length for 600mm (23 5/8") barrels in 8X57JRS/20 GA X 3" is 1040mm (41"), average weight is 3.4kg (7.48lbs).
- overall length for 600mm (23 5/8") barrels in 9.3X74R/20 GA X 3" is 1040mm (41"), average weight is 3.5kg (7.7lbs).

Manufacturer

- the manufacturer (or logo thereof) is marked on the firearm.

Action

- three barrelled firearm with two rifle barrels over a shotgun barrel.

Serial Number

- numbered on the receiver/frame.

Calibre

- is marked on the barrel assembly.

199321 - 2	5.56MM NATO	30	406	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MATRTIX ARMS" is marked on the left side of the receiver/frame.
- In 2015, the brand name Matrix Arms was adopted by Matrix Aerospace.

Model

- "MOD MA556" is marked on the left side of the lower receiver/frame.
- Introduced in 2023.
- This firearm comes as a standard AR15 platform but the company offers a "cage" handguard that has an integrated pump mechanism. When this pump handguard is installed, this firearm will continue to function as a semi automatic with the ability to use both the rear charging handle and the pump alternatively. It is only when the "cage" pump handguard is installed and the gas block and gas tube is removed that the firearm is now able to operate as a pump action. If the gas block and gas tube is removed and the "cage" pump handguard is not installed, the firearm will continue to function as a repeater.
- Features include: standard AR platform; rear AR charging handle; left side fire control selector; left side bolt catch; right side foreword assist; right side magazine release; right side deflector. Some models of this firearm come with a second charging handle on the left side of the receiver/frame.

Manufacturer

- In 2015, the brand name Matrix Arms was adopted by Matrix Aerospace.
- Matrix Aerospace prior to small arms manufacturing began production in the military, aerospace and defense domains.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- Gas operated.
Serial Number	- The serial number is marked on the left side of the receiver/frame. - The serial number of referenced example consists of two letters, three digits, a dash followed by five digits.
Calibre	- The calibre designation "MULTI" is marked on the left side of the receiver/frame.
Shots	- Detachable box magazine.

Notes

Make

- the make is normally not marked on this firearm.

Model

- this is a conversion of a Mauser 1871 Infantry Rifle into a single shot bolt operated Shotgun.
- the conversions were done by various manufactures in various countries.
- these shotguns may have the original markings on the firearm.
- model designation is not marked on the firearm.
- these shotguns may have the original markings on the firearm.
- "J.G. Mod. 71" or "K. Mod. 71" or "Mod. 71" may be marked on the left side of the receiver/frame.
- this is a conversion of a Mauser 1871 into a single shot bolt operated Shotgun.
- features include: one piece straight stock or one piece monte carlo type stock with pistol grip and sling swivels.
- also the Mauser 1871/84 was converted to a single shot shotgun.

Note: this conversions were done by numerous manufactures in Europe.

Action

- bolt operated.

Serial Number

- four numerical digits observed, probably from original manufacturer.

Calibre

- the original Mauser 1871 and 1871/84 were converted to chamber and fire the following calibres: 12 Ga., 16 Ga., 20 Ga., 24 Ga., 28 Ga., and 410 Ga.

Other Markings

- the original date of manufacture may be marked on the right side of the receiver/frame ie. 1881.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver as "K. MOD. 71".
- mechanically identical to Model 1871 Infantry Rifle, differs in minor details such as barrel length, turned down bolt handle, full length stock ending flush with the barrel's muzzle and nosecap with sight protecting ears.

Manufacturer

- the manufacturer's name appears on the chamber of the barrel as "AGH".

Action

- bolt operated, single-shot firearm.

Serial Number

- appears on left-front of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- cartridge commonly known as 43 MAUSER in North America.
Other Markings	- model designation on left rear of receiver, year of manufacture on right rear of receiver.

FRT Report

Firearm Reference Number (FRN): 1514
Make: Mauser
Model: 1871 Infantry Rifle

Summary

Make:	Mauser
Model:	1871 Infantry Rifle
Manufacturer:	Erfurt Arsenal
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1514 - 2	43 MAUSER	1	622	Antique AFR, Section 1, para. 3	Non-Commercial Customization	
1514 - 1	43 MAUSER	1	852	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "I.G. Mod: 71." or "I.G. Mod. 71." is normally marked on the left side of the receiver/frame.
- the year of manufacture is marked on the right side of the receiver/frame.
- manufactured between 1872 and 1885.
- first breech loading rifle to be adopted as general issue by all of the states of Imperial Germany. Rudimentary turn bolt single shot rifle, historically significant as this is the first Mauser bolt action rifle to be adopted by any country. Many of these rifles were sold as surplus in the late 1800's and converted to economy single shot shotguns.
-features include: browned finished barrel; trigger guard may be iron in the white or bronze; octagonal receiver/frame and straight handled bolt left in natural white finish; "wing" type safety lever on the back of the bolt; butt plate in bronze ; adjustable rear sight; fixed post front sights, barrel bands and sling swivels are usually fire blued; a two-piece bolt; straight gripped wooden stock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name appears on the chamber of the barrel.
Action	- turn-bolt design.
Serial Number	- appears on the left front end of the receiver.
Calibre	- cartridge commonly known as 43 MAUSER in North America.

- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "I.G. Mod: 71." or "I.G. Mod. 71." is normally marked on the left side of the receiver/frame.
- the year of manufacture is marked on the right side of the receiver/frame.
- manufactured between 1872 and 1885.
- first breech loading rifle to be adopted as general issue by all of the states of Imperial Germany. Rudimentary turn bolt single shot rifle, historically significant as this is the first Mauser bolt action rifle to be adopted by any country. Many of these rifles were sold as surplus in the late 1800's and converted to economy single shot shotguns.
-features include: browned finished barrel; trigger guard may be iron in the white or bronze; octagonal receiver/frame and straight handled bolt left in natural white finish; "wing" type safety lever on the back of the bolt; butt plate in bronze ; adjustable rear sight; fixed post front sights, barrel bands and sling swivels are usually fire blued; a two-piece bolt; straight gripped wooden stock.

Manufacturer

- the manufacturer's name appears as "VCS" on the chamber of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action - turn-bolt design.

Serial Number - appears on left front end of the receiver/frame.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "I.G. Mod. 71/84." is marked on the left side of the receiver/frame. - "1871/84 Infanterie Gewehr" year of manufacturer is marked on the right side of the receiver/frame. - "Infanterie-Gewehr Model 1871/84" was manufactured from the early 1880s to 1890. - "1871/84 Infanterie Gewehr" was the first repeating rifle to be adopted by Germany on the 30th of January 1884. - "1871/84 Infanterie Gewehr" is basically a modification of the Mauser Model 1871 from single shot to repeater using an eight round tubular magazine mounted under the barrel. - features include: round barrel with blade front sight and adjustable V-notch rear sight; three barrel bands; front barrel band has a bayonet lug on the right side and the middle band has a sling attachment; open top receiver/frame; magazine cut-off is built into the left side of the receiver/frame; bolt hand is straight and at right angle to the bolt body; round trigger guard with sling attachment mounted on the front; one piece wood straight grip stock.
Manufacturer	- "ERFURT" is marked on the chamber of the barrel.
Action	- turn-bolt design.
Serial Number	- appears on the left front end of the receiver/frame.
Calibre	- 43 MAUSER is also known as 11MM MAUSER.
Shots	- tubular magazine is located under the barrel, inside the forearm.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- It is believed that the model designation does not appear on the firearm.

Manufacturer

- "S.F.A.P." over "St.Denis" in script is marked on the barrel.

Action

- turn-bolt design.

Serial Number

- Appears on the side of the receiver and may have a letter prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "St. Denis" appears on the barrel.

Remarks - This carbine is mechanically identical to the Mauser Model 1871 Mauser Rifle. This carbine was built in France on contract for the Uruguayan government in 1895 and entailed fitting a new bolt head, barrel and stock to existing Model 1871 Mauser actions. A small quantity of full length rifles are known to exist.

Notes

Make

- "GEBR. MAUSER & Co." is marked on the firearm.

Model

- the model is not marked on the firearm; even though this model is known as the "1877" (from its patent date); extant examples are known to be marked with the year of manufacture (1876).
- this is an unusual style of falling-block single-shot pistol, produced by Mauser for a short period during 1876/7. This pistol was rapidly dropped from production after it became apparent that European military powers had moved to the revolver as a military sidearm.
- features include: blued finish; open fixed sights; an underbarrel shroud hinged to the barrel at the midpoint, containing the mainspring; a breechblock with a large, flat, knurled thumbpiece that is pressed down to open the breech; a double-action-only trigger mechanism that drops with the breechblock, so that the tip of the trigger protrudes through a slot in the bottom of the trigger-guard; a thumb-operated lever on the left side of the receiver/frame that can open or close the action with an up or down motion; smooth walnut square-butt grips; and a lanyard loop at the butt.

Manufacturer

- "GEBR. MAUSER & Co." is marked on the firearm.

Action

- falling-block single-shot.

Serial Number

- serial-numbered on the receiver/frame.

Notes

Make

- "GEBR. MAUSER & CIE" is marked on the top of the barrel.

Model

- "1878. PATENT" is marked on the top of the barrel.
- this Model superceded the Model "1877".
- may also be known as "Zig Zag". The name is derived from the unusual "zig-zag" cut into the cylinder.
- the revolver was originally manufactured as a solid-frame and then as a "tip-up" or "hinged" frame.
- the grip straps may exhibit unit markings. These should not be confused with the serial number.
- production ceased around 1888.

Manufacturer

- "GEBR. MAUSER & CIE OBERNDORF A/N. WURTTEMBERG." is marked on the top of the barrel.

Serial Number

- serialization is unknown, but it is suspected to have started at 1.
- the grip straps may exhibit unit markings. These should not be confused with the serial number.
- serial number is marked on the barrel lug.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - serial number is marked on the barrel lug. The Canadian Firearms Registery requires that the serial number be marked on the receiver/frame.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver in Cyrillic script.

Manufacturer

- the manufacturer is marked on the side of the receiver in either German or Serbian Cyrillic (both versions noted).

Action

- turn-bolt design.

Serial Number

- appears on the left side of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- This rifle is mechanically identical to the Mauser Model 1871 Mauser bolt action German service rifle, differing in having a projection at rear of the receiver for additional bearing surface for the bolt when being operated.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model is not marked on the firearm; this is a carbine version of the 1880 Serbian Rifle, shortened and converted to tube-magazine-feed, for use by the Serbian Artillery in 1884. At the same time, the Serbs also converted a number of the same rifles to an even shorter Cavalry Carbine version.
- features include: blued finish; open adjustable sights; a barrel that extends noticeably beyond the nose-cap (the Cavalry Carbine has a barrel that ends flush at the nose-cap); under-barrel ramrod; barrel band; a straight-grip walnut stock with sling swivels at the barrel band and bottom of the butt; and a grooved extension on the rear of the receiver that extends horizontally out rearwards on the wrist of the stock.
- in 1937, many of these carbines were converted to 11mm Gras, as the original Serbian ammunition was no longer produced.

Manufacturer

- "MAUSER WEAPONS FACTORY OBERNDORF a/N WURTTEMBERG" is marked in Serbian Cyrillic on the left side of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- serial number designation is marked on the left side of the receiver.
Shots	- tube magazine.

- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation does not appear on the firearm.

Manufacturer

- "MAE" is the abbreviation for Manufacture d'Armes de L'Etat.
- Manufacture d'Armes de L'Etat was founded in Faubourg Saint-Leonard, Liege, Belgium in 1838.
- Manufacture d'Armes de L'Etat was a government owned small arms factory which manufactured rifles and machine guns until the German invasion of 1914.
- Manufacture d'Armes de L'Etat converted model 1889/36 Short Rifles from 1936 to 1940.

Serial Number

- marked on the side of the receiver/frame, usually has a letter prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- variations in stocks, barrel bands and bayonet mounts will be encountered. This model was produced for use with the "Rifle" bayonet as well as the "Yataghan" (a long curved blade) bayonet.
- another version with an even shorter barrel also exists, this model is known as the "1889 Belgian Lightened Carbine".

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation usually does not appear on the firearm, however some specimens may have this marking on the left side of the receiver/frame. These rifles were manufactured (converted) from 1936 to 1940.

Manufacturer

- the original manufacturer's name appears on the receiver ring.
- Manufacture d'Armes de L'Etat may not appear on these firearms.
- "MAE" is the abbreviation for Manufacture d'Armes de L'Etat.
- Manufacture d'Armes de L'Etat was founded in Faubourg Saint-Leonard, Liege, Belgium in 1838.
- Manufacture d'Armes de L'Etat was a government owned small arms factory which manufactured rifles and machine guns until the German invasion of 1914.
- Manufacture d'Armes de L'Etat converted model 1889/36 Short Rifles from 1936 to 1940.

Serial Number

- marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this rifle is a conversion of existing Belgian Model 1889 Carbines and Rifles to conform to the 1935 Belgian Short Rifle. Conversion entailed reworking the receiver/frame and bolt to approximate that of the model "98 Mauser", fitting a new barrel and eliminating the original sheet metal barrel jacket, reworking the original stock and fitting 1935 Belgian Short Rifle barrel bands. The 1889/36 Belgian Short Rifle is visually distinctive in that it retains the original projecting box magazine.

- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation appears in part on the left side of the receiver in Arabic script.
- this is a Model 1890 Turkish Mauser Rifle reworked in Yugoslavia during the 1920's. Work entailed fitting a new 8MM MAUSER calibre barrel, shortening the original stock, fitting a tangent rear sight and a new handguard of Mauser Model 1924 style. Original Turkish markings were left intact.

Manufacturer

- The manufacturer's name does not appear on the firearm.

Serial Number

- Appears on the right side of the receiver in Turkish numerals.

Shots

- single column, external box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - Original manufacturer's name and model designation on left side of receiver (in Arabic script), toughra (Turkish property mark) on top of receiver ring.

Notes

Make

- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver/frame in Arabic script.

Manufacturer

- the manufacturer's name appears on the left side of the receiver/frame in Arabic script.

Serial Number

- appears on the right side of the receiver/frame in Turkish numerals.

Other Markings

- manufacturer's name and model designation on left side of receiver/frame (in Arabic script), toughra (Turkish property mark) on top of receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this rifle is a carbine version of the Turkish 1890 Rifle. It differs from the rifle by having a considerably shorter barrel, short carbine type rear sight and full length stock with metal nosecap with front sight protecting ears. This carbine was produced in very limited quantities for feasability trials.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MAUSER MODELO ARGENTINO 1891" is marked on the left side of the receiver/frame.
- Peruvian national crest and "Republica Peruana" is marked on the receiver ring.
- this carbine is identical to the model 1891 Argentine Carbine.
- Peru had two similar model 1891 Argentine based designs. One version was a factory (German) produced model 1891 Argentine Carbine with a full-length stock and nosecap with protective ears and no provision for mounting a bayonet. This version is seen with the standard rear leaf sight and the Peruvian crest on the receiver ring. The other version is a Peruvian modification of the model 1891 Argentine Rifle that Peru purchased for its own use. This version has a three-quarter length stock with a mid-barrel band and sling swivel and a noseband with a bayonet lug. Due to a modernization program instituted in 1912 to enable the use of improved ammunition many of these carbines will be found with the "Lange Vizier" (resembles the "ski jump" sight on the GEW 98) rear sight.

Manufacturer

- "Deutsche Waffen-Und Munitionsfabriken Berlin" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - marked on the side of the receiver/frame, usually has a letter prefix.

1556 - 1	7.65X53 MAUSER	5	740	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mauser Modelo Argentino 1891" is marked on the left side of the receiver/frame.
- manufactured from 1897 to 1900.

Manufacturer

- "Deutsche Waffen-Und Munitionsfabriken Berlin" is marked on the left side of the receiver/frame.

Action

- turn bolt operated.

Serial Number

- marked on the side of the receiver/frame, usually has a letter prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- internal box magazine.
Other Markings	- rifles purchased by the Republic of Argentina have the Argentine coat of arms on the receiver ring, rifles purchased by other countries (Peru, Ecuador and Colombia) have their coats of arms on the receiver rings. Rifles issued to Argentine military academies are marked on the chamber of the barrel.
Remarks	- this rifle is a slightly modified version of the Turkish Model 1890 Rifle.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "MAUSER MODELO ARGENTINO 1891" is marked on the left side of the receiver/frame.
- the Peruvian national crest is marked on the receiver ring.
- this rifle model series was the product of a government authorized modification of the Argentine Model 1891 Mauser rifles as was then in use by the Peruvian armed forces.
- the model name is derived from the fact that these rifles are still marked with the original Argentine markings on the left side of the receiver/frame as, "Mauser Modelo Argentino 1891", with the Peruvian national crest marked on the top of the receiver ring under which is usually marked the words, "Republica Peruana" or a variation thereof.
- modifications were instituted circa 1909 when the Peruvians adopted the newer 7.65X53 MAUSER "Spitzer" ammunition.
- some of the rifles were also converted into carbines by shortening the barrel and are known as the Model 1891 Argentine Carbine, Peruvian Modification.
- characterized by; straight bolt handle, straight-line fixed type box magazine that extends below the stock in front of and attached to the trigger guard and a Lange Vizier type rear sight which was added as part of the arsenal modification.

Manufacturer

- the manufacturer's name appears on the left side of the receiver.

Action

- turn bolt operated.

Serial Number

- appears on the receiver and usually has a letter prefix.

Remarks

- this rifle is identical to the standard Model 1891 Argentine Rifle except for the rear sight which is the same as used on the German Gew 98 Rifles of World War I. The Peruvians had new sights fitted to their existing Model 1891 Argentine Rifles to correspond to the flatter trajectory of a "hotter" loading of the 7.65MM MAUSER cartridge which was introduced into their army in 1909 with the Mauser Model 1909 Rifle. Besides resighting the 1891 Rifles the Peruvians took the opportunity to have them refurbished and shorten some of them to carbine and short rifle lengths. During the refurbishing, most had their national crests ground off and their receivers re-blued and re-serial numbered.

- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MAUSER ESPANOL MODELO 1893" is marked on the left side of the receiver/frame.
- the "Spanish" crest and the word "Berlin" and the year of manufacturer should be marked on the top of the receiver ring.
- manufactured from 1893 to 1896.
- this is a shortened version of the "1893 Spanish Rifle".

Manufacturer

- "Manufactura Loewe Berlin" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - the serial number usually has a letter prefix.
Calibre	- many of these rifles were converted to calibre 7.62MM NATO in the 1960's for the Spanish Reserve Units.
Shots	- fixed box magazine.
Other Markings	- model designation "Mauser Espanol Modelo 1893" and maker's name on left side of receiver, coat of arms of the Kingdom of Spain and date of manufacture on top of the receiver ring. Rifles manufactured for other nations will have the purchasing nation's coat of arms on the receiver ring and may have the model designation "Mauser Mod 1893" on the left side of the receiver.
Remarks	- this rifle is historically significant in that it was the first Mauser rifle to use an enclosed, staggered column magazine. Mechanically it incorporates the features of the Spanish 1892 Rifle (non-rotating extractor and bolt guide rib on inner left side of receiver). Single barrel band and short round tipped forend, which ended some distance from the muzzle.

Notes

Make

- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears (in Arabic script) on the left side of the receiver/frame.

Manufacturer

- the manufacturer's name appears (in Arabic script) on the left side of the receiver/frame.

Serial Number

- marked on the right side of the receiver/frame in either Turkish or Western numerals.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- in the 1920's and 30's the Turkish government rebarreled surviving specimens of these rifles from the original 7.65X53 MAUSER cartridge to the 8MM MAUSER cartridge.
Other Markings	- the maker's name and model designation are marked on the left side of the receiver/frame (in Turkish script), a "toughra" (Turkish property stamp) on the top of the receiver ring. In the period following the World War I many of these rifles were refurbished and had the original markings ground off and had the name of the arsenal which did the work (usually Ankara) and date, stamped on the receiver ring.
Remarks	- this rifle is mechanically identical to the Spanish Model 1893 Rifle with the exception of the addition of a magazine cutoff on the left side of the receiver/frame. In the period following World War I many of these rifles were refurbished and rebarreled from 7.65X53 MAUSER to 8MM MAUSER, at this time the magazine cutoff levers were removed.

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- manufactured from 1894 to 1899.
- "ESTADOS UNIDOS DO BRAZIL" and "1894" are marked on the left side of the receiver/frame.

Manufacturer

- The manufacturer's name appears on the left side of the receiver.

Serial Number

- Appears on the side of the receiver and usually has a letter prefix.

Other Markings

- Coat of arms of the United States of Brazil on top of receiver ring. Manufacturer's name and model designation on left side of receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- This rifle is mechanically identical to the Spanish 1893 Rifle except that the rear of the magazine follower is chamfered to allow the bolt to be closed when the magazine is empty.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "MAUSER" is not marked on the firearm. - "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser. - Wilhelm Mauser was born in 1834 and died in 1882. - Paul Mauser was born in 1838 and died in 1914. - Paul Mauser was officially named Peter Paul Mauser. - Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.. - Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872. - Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874. - Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884. - Mauser was established under the German proof law as a proof house in 1898. - Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923. - Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975. - Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.
Model	- the model designation is not marked on the firearm. - the year of manufacturer is marked on the top of the receiver ring, below the manufactuer's name. - manufactured from 1898 to 1932.
Manufacturer	- "Carl Gustafs Stads" and "Gevarsfaktori" and the year of manufacturer are marked on the top of the receiver ring.
Action	- manually operated, turn bolt action repeating carbine/rifle.
Serial Number	- serial number is stamped on the left side of the receiver/frame. - serial numbers appear to have been numeric only. - Note: in many instances the serial number will have an inspector's initials stamped in front of it; these initials are usually a noticeable distance in front of the serial number, are not usually "in-line" with the numbers and should not be included as being part of the actual serial number for the firearm. - inspector's initials stamped in front of serial number may be: "B.H.", "G.F.", "H.K.", "H.R.", "J.V.", "K.B.", "M.B.", "O.G." or "R.L.".
Calibre	- the calibre designation is not marked on the firearm.
Shots	- internal box magazine.
Other Markings	- the date of manufacture appears on the receiver ring.
Remarks	- this firearm is a military carbine using a slightly modified version of the Mauser Model 1893 Spanish action. It features a full length stock, a metal nosecap which extends upwards to form front sight protecting ears, and an "L" shaped knurled extension on the cocking piece with a turned down bolt handle. The receiver has a cut on the left side to accommodate the thumb when charger loading the magazine. There is no provision for mounting a bayonet. In 1917 existing carbines were retrofitted with a steel bayonet mounting fixture.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MOD. MAUSER 1896." is marked on the left side of the receiver/frame.
- manufactured between 1896 and 1897.
- "O.V.S." may be marked on the side of the receiver ring.
- "O.V.S." is the acronym for Oranje Vrij Staat (Orange Free State), a short lived republic in South Africa.

Manufacturer

- "LUDW. LOEWE & Co BERLIN." is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - the serial number may have a letter prefix.
Shots	- internal box magazine.
Other Markings	- Manufacturer's name and model designation (Mod. Mauser 1896) on left side of receiver/frame. Some carbines may have the stylized logo of Ludwig Loewe & Company on top of the receiver ring.
Remarks	- this carbine is mechanically identical to the Orange Free State Model 1896 Rifle, it differs by having a considerably shorter barrel, turned down bolt handle and front sight protecting ears.

Make	- "MAUSER" is marked on the firearm. - "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser. - Wilhelm Mauser was born in 1834 and died in 1882. - Paul Mauser was born in 1838 and died in 1914. - Paul Mauser was officially named Peter Paul Mauser. - Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.. - Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872. - Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874. - Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884. - Mauser was established under the German proof law as a proof house in 1898. - Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923. - Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975. - Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.
Model	- "MOD. MAUSER 1896." is marked on the left side of the receiver/frame. - manufactured between 1896 and 1897. - "O.V.S." may be marked on the side of the receiver ring. - "O.V.S." is the acronym for Oranje Vrij Staat (Orange Free State), a short lived republic in South Africa.
Manufacturer	- "LUDW. LOEWE & Co BERLIN." is marked on the left side of the receiver/frame.
Action	- turn bolt operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame, below the O.V.S. marking. - referenced examples consisted of a "B" or "C" prefix followed by three or four numbers.
Shots	- internal box magazine.
Other Markings	- Manufacturer's name and model designation (Mod. Mauser 1896) on left side of receiver. "OVS" is usually marked on the left side of the receiver ring and stands for Oranje Vrij Staat (Orange Free State). Some rifles may have the stylized logo of Ludwig and Loewe Company on top of the receiver ring.
Remarks	- This rifle is identical in all respects to the Spanish Model 1893 Rifle (except for markings). Often these rifles were "personalized" by their original Boer owners who carved their names, dates, names of battles and even maps, into the buttstocks.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm.
- the year of manufacturer is marked on the receiver ring.
- this model was manufactured from 1898 to 1925.
- this is a rifle that is derived from the 1894 Swedish Carbine.
- it differs from the carbine by having a considerably longer barrel, longer rear sight, straight bolt handle (some specimens encountered have a turned down bolt handle), approximately 100MM of exposed barrel at muzzle and sling swivels mounted under the buttstock and the lower barrel band.

Note: a number of 1896 Swedish Rifles were converted to 1938 Swedish Short Rifle configuration, these rifles although retaining their original manufacture dates are Model 1938 Swedish Short Rifles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer
- manufacturer's name and year of manufacturer are marked on the receiver ring.

Action
- turn bolt design.

Serial Number
- serial number is stamped on the left side of the receiver/frame.
- serial numbers appear to have been numeric only.
- Note: in many instances the serial number will have an inspector's initials stamped in front of it; these initials are usually a noticeable distance in front of the serial number, are not usually "in-line" with the numbers and should not be included as being part of the actual serial number for the firearm.
- inspector's initials stamped in front of serial number may be: "B.F.", "B.H.", "G.F.", "H.A.", "H.K.", "H.R.", "J.V.", "K.B.", "M.B.", "O.G.", "R.L.", "W.L." or "Y.T.".

Shots
- internal box magazine.

Remarks
- this is a rifle that is derived from the 1894 Swedish Carbine.
- it differs from the carbine by having a considerably longer barrel, longer rear sight, straight bolt handle (some specimens encountered have a turned down bolt handle), approximately 100MM of exposed barrel at muzzle and sling swivels mounted under the buttstock and the lower barrel band.

Note: a number of 1896 Swedish Rifles were converted to 1938 Swedish Short Rifle configuration, these rifles although retaining their original manufacture dates are Model 1938 Swedish Short Rifles.

- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm.
- this model was produced from 1899 to circa 1940.

Manufacturer

- the manufacturer's name is marked on the receiver/frame ring.

Action

- turn bolt design.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Other Markings

- the date of manufacture appears on the receiver ring.

Remarks

- this is a rifle version of the 1894 Swedish Carbine. It differs from the carbine by having a considerably longer barrel, longer rear sight, straight bolt handle (some specimens encountered have a turned down bolt handle), approximately 100mm of exposed barrel at muzzle and sling swivels mounted on the underside of the buttstock and the lower barrel band. Note, do not confuse the Husqvarna manufactured Model 1896 Swedish Rifles with the Husqvarna manufactured Model 1938 Swedish Short Rifles.

- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation is not marked on the firearm. The official Swedish military designation was Gevär m/96-38.
- between 1938 and 1940 the Carl Gustafs factory converted some 30,000 model 1896 Swedish rifles into a shorter configuration to make the rifle easier to handle for infantry troops. This conversion included installing a shorter barrel, shortening the forward portion of the stock and the installation of a new rear sight.
- due to the success of this conversion the same basic rifle was adopted circa 1941 as the model 1938 Swedish Short Rifle (official Swedish nomenclature was Gevär m/38).
- features include: straight bolt handle (note that as parts are readily interchangeable some examples may be found with a non-original turned down bolt handle, these will usually have a mis-matched, partial serial number); blued finish on metal (except bolt); stock and handguard will be walnut, beech, ash, oak, maple or elm depending on the year that the rifle was originally manufactured; two types of rear sight were installed on this model, both were known as the Vasteras Metallverken Refined Sight Adapter, the first type was graduated from 300 meters to 600 meters in 50 meter increments for use with the 156 grain bullet, the second type was intended for use with the newer m/94/41 loading that used the 139 grain spire point (spitzer) bullet and was graduated from 250 meters to 600 meters in 50 meter increments (some will also have a decal or plate attached to the buttstock that had a chart with ballistic information that allowed the user to calculate hold-over or under); nosecap has a bayonet mounting point and a cleaning rod is stored in the stock below the barrel.
- some examples were fitted with a barrel that was threaded at the muzzle for a blank firing attachment. When the attachment was not on the rifle a thread protector was installed in its place. Those examples with the threaded muzzle were officially known by the Swedish military as the Gevär m/96-38B.

Manufacturer

- based on available information it would appear that Carl Gustafs Stads Gevarsfaktori made these conversions between 1938 and 1940. These conversions were done on existing model 1896 Swedish rifles produced by Mauser, Carl Gustafs Stads Gevarsfaktori and Husqvarna. Husqvarna also produced receivers/frames and complete rifles beginning in 1941, and examples with Husqvarna markings are correctly identified as the model 1938 Swedish Short Rifle. This causes much confusion as the original manufacturer markings were not removed from the top of the receiver/frame so many have been identified solely to the original manufacturer. (An example would be a Mauser marked receiver/frame, dated 1900. Mauser only produced the model 1896 Swedish Rifle in 1899 and 1900 (some references put the date as late as 1904) so they could not have produced the model 1896/38 Swedish Short Rifle).

Serial Number

- serial number is stamped on the left side of the receiver/frame.
- serial numbers appear to have been numeric only.
- Note: in many instances the serial number will have an inspector's initials stamped in front of it; these initials are usually a noticeable distance in front of the serial number, are not usually "in-line" with the numbers and should not be included as being part of the actual serial number for the firearm.
- inspector's initials stamped in front of serial number may be: "B.F.", "B.H.", "G.F.", "H.A.", "H.K.", "H.R.", "J.V.", "K.B.", "M.B.", "O.G.", "R.L.", "W.L." or "Y.T.".

Barrel

- although references indicate that barrels were 622mm long, actual measurement of several examples were between 608mm and 610mm.

Shots

- internal magazine with a hinged floorplate.

Other Markings

- the original date of manufacture and manufacturer markings are marked on the receiver ring.
- Mauser produced receivers/frames will have a date between 1899 and 1904 (references conflict as to the actual year production ceased).
- Carl Gustafs Stads Gevärsfaktori produced receivers/frames will be dated between 1899 and circa 1925 (References conflict on the year production ceased. It is believed that while production of the model 1896 Swedish Rifle continued into the early 1930's, actual production of receivers/frames ceased around 1925).
- Husqvarna produced receivers/frames cause much confusion. It would appear that the model 1896 Swedish Rifle was produced and dated 1943 or 1944. Those examples dated between 1941 and 1944 with a turned down bolt handle in "short" configuration would be correctly identified as a newly built model 1938 Swedish Short Rifle.
- the initials of the inspector (usually two alpha characters) will also be found on various components.

Remarks

- this conversion/model was so well received that when new rifles were ordered for the Swedish military it was specified that they be built to the same specifications with only minor modifications. The most identifiable modification is that these newly built model 1938 Swedish Short Rifles had a turned down bolt handle. In 1941 a contract was issued to Husqvarna Vapenfabriks Aktiebolag (known as Husqvarna) for rifles that were officially designated as the Gevär m/38 (commonly known as the model 1938 Swedish Short Rifle).

- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation is not marked on the firearm. The official Swedish military designation was Gevär m/96-38.
- between 1938 and 1940 the Carl Gustafs factory converted some 30,000 model 1896 Swedish rifles into a shorter configuration to make the rifle easier to handle for infantry troops. This conversion included installing a shorter barrel, shortening the forward portion of the stock and the installation of a new rear sight.
- due to the success of this conversion the same basic rifle was adopted circa 1941 as the model 1938 Swedish Short Rifle (official Swedish nomenclature was Gevär m/38).
- features include: straight bolt handle (note that as parts are readily interchangeable some examples may be found with a non-original turned down bolt handle, these will usually have a mis-matched, partial serial number); blued finish on metal (except bolt); stock and handguard will be walnut, beech, ash, oak, maple or elm depending on the year that the rifle was originally manufactured; two types of rear sight were installed on this model, both were known as the Vasteras Metallverken Refined Sight Adapter, the first type was graduated from 300 meters to 600 meters in 50 meter increments for use with the 156 grain bullet, the second type was intended for use with the newer m/94/41 loading that used the 139 grain spire point (spitzer) bullet and was graduated from 250 meters to 600 meters in 50 meter increments (some will also have a decal or plate attached to the buttstock that had a chart with ballistic information that allowed the user to calculate hold-over or under); nosecap has a bayonet mounting point and a cleaning rod is stored in the stock below the barrel.
- some examples were fitted with a barrel that was threaded at the muzzle for a blank firing attachment. When the attachment was not on the rifle a thread protector was installed in its place. Those examples with the threaded muzzle were officially known by the Swedish military as the Gevär m/96-38B.

Manufacturer

- "HUSQVARNA VAPENFABRIKS" may be marked on the receiver ring.
- based on available information it would appear that Carl Gustafs Stads Gevarsfaktori made these conversions between 1938 and 1940. These conversions were done on existing model 1896 Swedish rifles produced by Mauser, Carl Gustafs Stads Gevarsfaktori and Husqvarna. Husqvarna also produced receivers/frames and complete rifles beginning in 1941, and examples with Husqvarna markings are correctly identified as the model 1938 Swedish Short Rifle. This causes much confusion as the original manufacturer markings were not removed from the top of the receiver/frame so many have been identified solely to the original manufacturer. (An example would be a Mauser marked receiver/frame, dated 1900. Mauser only produced the model 1896 Swedish Rifle in 1899 and 1900 (some references put the date as late as 1904) so they could not have produced the model 1896/38 Swedish Short Rifle).

Action

- turn-bolt design with a straight bolt handle.

Serial Number

- the serial number is marked on the left side of the receiver/frame. Samples will sometimes be marked with the inspector's initials (two alpha characters). These are not part of the serial number.
- the last three digits of the serial number are usually repeated on almost all other components.

Barrel

- although references indicate that barrels were 622mm long, actual measurement of several examples were between 608mm and 610mm.

Shots

- internal magazine with a hinged floorplate.

Other Markings

- the original date of manufacture and manufacturer markings are marked on the receiver ring.
- Mauser produced receivers/frames will have a date between 1899 and 1904 (references conflict as to the actual year production ceased).
- Carl Gustafs Stads Gevärsfaktori produced receivers/frames will be dated between 1899 and circa 1925. (References conflict on when production ceased. It is believed that while production of the model 1896 Swedish Rifle continued into the early 1930's, actual production of receivers/frames ceased around 1925).
- Husqvarna produced receivers/frames cause much confusion. It would appear that the model 1896 Swedish Rifle was produced and dated 1943 or 1944. Those examples dated between 1941 and 1944 with a turned down bolt handle in "short" configuration would be correctly identified as a newly built model 1938 Swedish Short Rifle.
- the initials of the inspector (usually two alpha characters) will also be found on various components.

Remarks

- this conversion/model was so well received that when new rifles were ordered for the Swedish military it was specified that they be built to the same specifications with only minor modifications. The most identifiable modification is that these newly built model 1938 Swedish Short Rifles had a turned down bolt handle). In 1941, a contract was issued to Husqvarna Vapenfabriks Aktiebolag (known as Husqvarna) for rifles that were officially designated as the Gevär m/38 (commonly known as the model 1938 Swedish Short Rifle).

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation is not marked on the firearm. The official Swedish military designation was Gevär m/96-38.
- between 1938 and 1940 the Carl Gustafs factory converted some 30,000 model 1896 Swedish rifles into a shorter configuration to make the rifle easier to handle for infantry troops. This conversion included installing a shorter barrel, shortening the forward portion of the stock and the installation of a new rear sight.
- due to the success of this conversion the same basic rifle was adopted circa 1941 as the model 1938 Swedish Short Rifle (official Swedish nomenclature was Gevär m/38).
- features include: straight bolt handle (note that as parts are readily interchangeable some examples may be found with a non-original turned down bolt handle, these will usually have a mis-matched, partial serial number); blued finish on metal (except bolt); stock and handguard will be walnut, beech, ash, oak, maple or elm depending on the year that the rifle was originally manufactured; two types of rear sight were installed on this model, both were known as the Vasteras Metallverken Refined Sight Adapter, the first type was graduated from 300 meters to 600 meters in 50 meter increments for use with the 156 grain bullet, the second type was intended for use with the newer m/94/41 loading that used the 139 grain spire point (spitzer) bullet and was graduated from 250 meters to 600 meters in 50 meter increments (some will also have a decal or plate attached to the buttstock that had a chart with ballistic information that allowed the user to calculate hold-over or under); nosecap has a bayonet mounting point and a cleaning rod is stored in the stock below the barrel.
- some examples were fitted with a barrel that was threaded at the muzzle for a blank firing attachment. When the attachment was not on the rifle a thread protector was installed in its place. Those examples with the threaded muzzle were officially known by the Swedish military as the Gevär m/96-38B.

Manufacturer

- based on available information it would appear that only Carl Gustafs Stads Gevarsfaktori produced these conversions between 1938 and 1940. These conversions were done on existing model 1896 Swedish rifles produced by Mauser, Carl Gustafs Stads Gevarsfaktori and Husqvarna. Husqvarna also produced receivers/frames and complete rifles beginning in 1941, so those examples with Husqvarna markings are correctly identified as the model 1938 Swedish Short Rifle. This causes much confusion as the original manufacturer markings were not removed from the top of the receiver/frame so many have been identified solely to the original manufacturer. (An example would be a Mauser marked receiver/frame, dated 1900. Mauser only produced the model 1896 Swedish Rifle in 1899 and 1900 (some references put the date as late as 1904) so they could not have produced the model 1896/38 Swedish Short Rifle).

Serial Number

- the serial number is marked on the left side of the receiver/frame. Samples will sometimes be marked with the inspector's initials (two alpha characters). These are not part of the serial number.
- the last three digits of the serial number are usually repeated on almost all other components.

Barrel

- although references indicate that barrels were 622mm long, actual measurement of several examples were between 608mm and 610mm.

Shots

- internal magazine with a hinged floorplate.

Other Markings

- the original date of manufacture and manufacturer markings are marked on the receiver ring.
- Mauser produced receivers/frames will have a date between 1899 and 1904 (references conflict as to the actual year production ceased).
- Carl Gustafs Stads Gevärsfaktori produced receivers/frames will be dated between 1899 and circa 1925. (References conflict on when production ceased. It is believed that while production of the model 1896 Swedish Rifle continued into the early 1930's, actual production of receivers/frames ceased around 1925).
- Husqvarna produced receivers/frames cause much confusion. It would appear that the model 1896 Swedish Rifle was produced and dated 1943 or 1944. Those examples dated between 1941 and 1944 with a turned down bolt handle in "short" configuration would be correctly identified as a newly built model 1938 Swedish Short Rifle.
- the initials of the inspector (usually two alpha characters) will also be found on various components.

Remarks

- this conversion/model was so well received that when new rifles were ordered for the Swedish military it was specified that they be built to the same specifications with only minor modifications. The most identifiable modification is that these newly built model 1938 Swedish Short Rifles had a turned down bolt handle). In 1941, a contract was issued to Husqvarna Vapenfabriks Aktiebolag (known as Husqvarna) for rifles that were officially designated as the Gevär m/38 (commonly known as the model 1938 Swedish Short Rifle).

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm.
- this is a single shot conversion of an 1896 Swedish Mauser as originally made at Carl Gustav, Mauser Werke or Husqvarna Wapinfabriks. The conversion was accomplished at the Carl Gustov factory after 1938 and involved altering the bolt and barrel for firing the 22 rimfire cartridge.

Manufacturer

- Mauser Werke, Carl Gustafs Stads Gevarsfaktori or Husqvarna may be marked on the receiver ring.

Action

- turn-bolt design with a straight bolt handle.

Serial Number

- serial number may be marked on the receiver/frame under the right grip pannel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - although this is a single shot conversion to .22 calibre, the original 6.5 X 55 calibre internal magazine may still be present.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm.
- this is a standard Model 1896 Swedish Rifle adapted to mount a telescopic sight.
- this model differs from the standard 1896 Rifle by having a metal telescopic sight mounting base pinned and screwed to the left side of the receiver/frame and the bolt handle bent down.

Manufacturer

- the manufacturer's name and year of manufacture are marked on the top of the receiver ring.

Action

- turn bolt action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number may be obscured by the telescopic sight mounting base. - serial numbers appear to have been numeric only. - Note: in many instances the serial number will have an inspector's initials stamped in front of it; these initials are usually a noticeable distance in front of the serial number, are not usually "in-line" with the numbers and should not be included as being part of the actual serial number for the firearm. - inspector's initials stamped in front of serial number may be: "B.F.", "B.H.", "G.F.", "H.A.", "H.K.", "H.R.", "J.V.", "K.B.", "M.B.", "O.G.", "R.L.", "W.L." or "Y.T.".
Shots	- internal box magazine.
Other Markings	- the date of manufacture appears on the receiver ring.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm.
- this is a conversion of the Mauser 1896 Swedish Rifle that was developed for target shooting.
- features include: hooded front and peep rear sight; box magazine; knurled trigger and trigger guard; half stock and hand guard; single band; straight or turn down bolt; sling swivel; blued finish and uncheckered stock with cheekpiece.
- a military version equipped with a cleaning rod mounted in the stock was also available.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is marked on the top ring.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - serial numbers appear to have been numeric only. - Note: in many instances the serial number will have an inspector's initials stamped in front of it; these initials are usually a noticeable distance in front of the serial number, are not usually "in-line" with the numbers and should not be included as being part of the actual serial number for the firearm. Research literature and observed specimens have indicated the following 'incomplete' listing of inspector's initials which may be encountered G.B., H.K., J.V., B.F.,V.T.
Shots	- internal magazine with a removeable floorplate.
Other Markings	- "CARL GUSTAFS STADS GEVARSFAKTORI", the manufacturing date and the Swedish crest is marked on the top ring.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "WZ. 98a" is marked on the left side of the receiver/frame.
- "WZ" is the abbreviation fo the Polish word "wzor" meaning model.
- in production from the mid to late 1930's.
- features include: full length wood stock with grasping grooves on the forend and firing pin assembling /disassembling bushing in the side of the butstock, bayonet lug, and straight bolt handle.

Manufacturer

- "F.B. RADOM" is marked on the top forward part of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- Mauser "98" type turnbolt.
Serial Number	- serial number is marked on the left side of the receiver/frame and may have a letter prefix.
Other Markings	- polish eagle, arsenal name and date of manufacture appear on the receiver/frame ring.
Remarks	- this rifle is identical in all respects (except for markings and tangent rear sight) to the post 1917 German Gewehr 1898 rifle. - the machinery used to produce these rifles was ceded to Poland as war reparations from Germany in 1919. In addition to machinery, Poland received a quantity of finished and semi finished parts which were incorporated into Polish Wz 98a rifles.

Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1583 - 1	8MM MAUSER	5	590	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
1583 - 2	8MM MAUSER	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- Model designation is not marked on the firearm.
- "Kar. 98" is marked on the left side of the receiver/frame.
- Manufactured from 1909 to 1912.
- Total production by all the manufacturers was approximately 1,500,000 units.

Manufacturer

- "AMBERG" is marked on the top of the receiver ring above the year of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- the serial number is marked on the left front side of the receiver/frame. - the serial number may have a letter suffix.
Shots	- internal box magazine.
Remarks	- This carbine is mechanically identical to the Gewehr 1898 differing in being considerably shorter, having a nosecap which has sight protecting ears and a distinctive 'elbow' stacking rod, a turned down bolt handle, tangent rear sight and a smaller diameter receiver ring. A point of confusion is that after World War I the German Army changed the model designation of these carbines from 1898 AZ to 1898 a, the markings on the carbine were not changed. Some of these carbines will have date in the 1920's in addition to the manufacture date (1907-1918) indicating re-issue to the post World War I German Army.

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm.
-"Kar. 98" is marked on the left side of the receiver/frame.
- manufactured from 1908 to 1918.
- features include: blued receiver/frame and round barrel, adjustable rear sight located in front of the receiver/frame ring, globe front sight, safety located on the rear of the bolt, wooden hand guard located on top of the barrel, two barrel bands, bayonet mount at the front of the stock, may have a cleaning rod located under the barrel and a full length wooden stock.
- this model may be distinguished from most other models which are marked "KAR. 98" by the presence of a raised rib encircling the forward edge of the receiver ring.

Manufacturer

- "ERFURT" is marked on the top of the receiver ring above the date of manufacture.

Action

- turn bolt operated.

Serial Number

- the serial number is marked on the left front side of the receiver/frame.
- the serial number may have a one or two letter suffix.

Shots

- internal box magazine.

Remarks

- This carbine is mechanically identical to the Gewehr 1898 differing in being considerably shorter, having a nosecap which has sight protecting ears and a distinctive 'elbow' stacking rod, a turned down bolt handle, tangent rear sight and a smaller diameter receiver ring. A point of confusion is that after World War I the German Army changed the model designation of these carbines from 1898 AZ to 1898 a, the markings on the carbine were not changed. Some of these carbines will have dates in the 1920's in addition to the manufacture date (1907-1918) indicating reissue to the post World War I German Army.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "K98" is marked on the left side of the receiver/frame.
- manufactured between 1923 and 1929.
- features include: ramp front sight and an adjustable leaf rear sight; round rifled barrel; tubular receiver/frame; straight or turned down bolt handle; wing safety mounted on the rear of the bolt; full length wood semi-pistol grip stock with sling swivels; stacking hook and sling bar on left side of buttstock, blued metal finish.

Manufacturer

- "F. B. RADDOM" is marked on the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- serial number is marked on the side of the receiver. - serial number may have a letter prefix. - observed serial number consisted of four numbers with a letter prefix or suffix .
Other Markings	- Polish eagle, arsenal name and date of manufacture on receiver ring, model designation on left side of receiver.
Remarks	- the Polish Wz K 98 is identical to the German 1898 AZ Carbine except for square elbow on stacking hook and sling bar on left side of buttstock and sling swivel on bottom of barrel band. The machinery used to produce these rifles was ceded to Poland as war reparations from Germany in 1919. In addition to machinery, Poland received a quantity of finished and semi finished parts which were incorporated into Polish Wz K 98 Carbines.

- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "K98" is marked on the left side of the receiver/frame.
- a conversion of the standard K 98 Polish rifle.
- features include: ramp front sight and an adjustable leaf rear sight; round rifled barrel; tubular receiver/frame; straight or turned down bolt handle; wing safety mounted on the rear of the bolt; full length wood semi-pistol grip stock with sling swivels; stacking hook and sling bar on left side of buttstock, blued metal finish.

Manufacturer

- "P.F.K. WARSZAWA" is marked on the receiver ring below the Polish national crest and above the date of manufacture.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left side of the receiver/frame.
Other Markings	- may have "22" marked in the wood in front of the rear sight.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "K98" is marked on the left side of the receiver/frame.
- features include: ramp front sight and an adjustable leaf rear sight; round rifled barrel; tubular receiver/frame; straight or turned down bolt handle; wing safety mounted on the rear of the bolt; full length wood semi-pistol grip stock with sling swivels; stacking hook and sling bar on left side of buttstock, blued metal finish.

Manufacturer

- "P.F.K. WARSZAWA" is marked on the receiver ring below the Polish national crest and above the date of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- Appears on the side of the receiver, may have a letter prefix.
Other Markings	- Polish eagle, arsenal name and date of manufacture on receiver ring, model designation on left side of receiver.
Remarks	- The Polish Wz K 98 is identical to the German 1898 AZ Carbine except for square elbow on stacking hook and sling bar on left side of buttstock and sling swivel on bottom of barrel band. The machinery used to produce these rifles was ceded to Poland as war reparations from Germany in 1919. In addition to machinery, Poland received a quantity of finished and semi finished parts which were incorporated into Polish Wz K 98 Carbines.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Karab.98b" is marked on the left side of the receiver/frame.
- manufactured or converted "Gew.98" from 1923 to 1934.

Manufacturer

- "SIMON & Co" and "SUHL" may be marked on the top of the receiver ring.
- converted "Gew.98"s may retain their original maker's name and date of manufacture and model designations.
- "Simpson & Company" was licensed by the allies to produce arms for the German army under the conditions imposed by the treaty of Versailles.
- it is believed that "Simpson & Company" were the sole manufacturer/converter of firearms to "1898 B Carbine" specifications.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left front side of the receiver/frame. - the serial number may have a letter suffix.
Shots	- internal box magazine.
Other Markings	- some rifles will have two dates on the receiver ring.
Remarks	- this rifle is mechanically identical to the Gewehr 1898 differing in having scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. Most of these rifles are conversions of existing Gewehr 98 and as such will have a date in the 1920's in addition to the original manufacture date (1898-1918). Despite the German designation "Karabiner 1898b" this is a full length rifle.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Gew 98" is marked on the left side of the receiver/frame.
- manufactured from 1898 to 1918.
- this Mauser designed military rifle was adopted by Germany in 1898.
- this rifle is visually distinctive by its "ski jump"-type rear sight configuration (in the 1930's some of these rifles were retrofitted with conventional tangent rear sights). - some of these rifles will have a date in the 1920's in addition to the date of manufacture (1898-1918). This is indicating reissue to the post World War One German Army.

Manufacturer

- the manufacturer's name appears on the top of the receiver/frame ring above the date of manufacture.

Serial Number

- serial number is marked on the left front side of the recevier/frame, and may be repeated on the barrel.
- observed serial number consisted of four numbers and a letter "d" suffix.

- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Gew 98" is usually marked on the left side of the receiver/frame.
- manufactured from 1914 to 1918.

Manufacturer

- "WAFFENWERKE", "OBERSPREE", "KORNBUSH & Co" and the year of manufacture are marked on the receiver ring.

Serial Number

- serial number is marked on the left front end of the receiver/frame and has a letter suffix.

Remarks

- Adopted by Germany in 1898, considered to have the most perfect turn bolt action ever designed. Rifle is visually distinctive by its 'ski jump' rear sight configuration (in the 1930's some of these rifles were retrofitted with conventional tangent rear sights). Some of these rifles will have a date in the 1920's in addition to the date of manufacture (1898-1918) indicating reissue to the post World War I German Army.

- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- no model name is marked on this firearm. - model designation is representative of the fact that this rifle is basically a copy of the Mauser Model 1898 rifle utilizing a modified bolt system derived from the Ariska Model 38 rifle. - produced circa 1931 to 1939; exact dates of production are uncertain. - turn bolt operated, staggered column internal box magazine with removable floor plate. - additional features: - bolt assembly retains the Mauser 98 safety however the bolt is bored out from the rear to accept the mainspring which is similar in design to the Arisaka model 38; the cylindrical "false" cocking piece extension which is bolted not screwed to the rear of the bolt serves only as a fixed guide for the mainspring, - two gas escape holes are located on the top of the receiver ring, - removable sliding dust cover that operates with the bolt, - Mauser 98 style bolt stop located at the rear left side of the receiver/frame, - straight bolt handle with plum-shaped bolt handle knob, - tangent leaf rear sight graduated to 2000 metres, - pistol grip stock with an upper hand guard extending from the front of the receiver ring to just beyond the lower barrel band, - lower barrel band has an underside sling swivel, - a quick release type sling swivel is fitted behind the pistol grip of the stock, - blued finish.
Manufacturer	- the name of the manufacturer does not appear on the firearm, however, the Mukden Arsenal symbol will appear on the top of the receiver ring; this symbol consists of; two concentric circles, the smaller inner circle has crossed-lines inside with a longer vertical arm extending through and past the outer circle, the outside line of the outer circle does not completely enclose the inner circle but forms a reverse v-type shape at the bottom of the symbol. - the Mukden Arsenal was located in the Chinese province of Manchuria; after the invasion of Manchuria in 1931 by the Japanese, the Mukden Arsenal continued to produce firearms for the Japanese armed forces until circa 1945.
Action	- turn bolt operated.
Serial Number	- serial number is usually marked on the receiver/frame and is located on the left side of the receiver ring. - five and six digit numbers without prefix or suffix have been observed.
Shots	- internal box magazine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Gew. 98" may be marked on the left side of the receiver/frame. The top of the receiver/frame is marked "Oviedo 1928".
- in the 1920s and 1930s, large quantities of surplus World War I "Mauser 1898s" were converted to fire "7MM MAUSER" by "Fabrica de Armas, Oviedo" .

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- marked on top of the receiver ring is a "crown" cupped by the words "Fabrica de Armas" and below this is "Oviedo" and the modification date, eg: 1928.
Serial Number	- marked on the side of the receiver/frame, may have a letter prefix.
Calibre	- "Entubados a 7m/m" is marked on the firearm, this indicates the conversion to "7MM MAUSER".
Shots	- internal box magazine.
Remarks	- these rifles are Spanish rebuilds of surplus World War I German Gew 98 Rifles. Work entailed rebarreling from the original 8MM MAUSER to 7MM MAUSER, removing German markings, restamping with Spanish arsenal and date markings, fitting a tangent rear sight and a new handguard.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- 1903 Turkish Rifle was originally manufactured by Mauser.
- in the 1930's these rifles were re-manufactured in Turkey.
- the original markings were ground off and the receiver ring was re-stamped with the name of the Turkish State Arsenal located in Ankara or Kirikkale (K. Kale) and the date the rifle was re-worked.
- this rifle is mechanically identical to the German Gewehr 1898.

Manufacturer

- the manufacturer marking may be marked on top of the receiver/ring.
- at least two variations of manufacturer's markings are known to exist. Factory markings appear as a crescent moon with a star between the two points of the crescent moon. The letter "T" will be on the left of the star and the letter "C" will be on the right side of the star (the "TC" denotes "Turkiye Cumhuriyeti" or "Turkish Republic"). The left side of the crescent moon will have the letters "AS" with the letters "FA" on the right side of the crescent moon or the "ASFA" will be below the moon (the "AS FA" denotes "Askeri Fabrika" which literally translates to Soldier Factory). The left side of the crescent moon will have the letters "ANK" with the letters "ARA" on the right side of the crescent moon or "ANKARA" will be below the "ASFA", "Ankara" is the location of the factory. The last line of the marking is the year of manufacture or conversion.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the receiver/frame.

Calibre

- the calibre designaion may not be marked on the firearm.

Shots

- internal box magazine.

1607 - 1	7MM MAUSER	5	739	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation does not appear on the firearm.

Manufacturer

- the manufacturer's name appears on the left side of the receiver.

Serial Number

- appears on the side of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- intergral magazine.
Other Markings	- Crest of the Republic of Colombia on receiver ring.
Remarks	- this rifle is mechanically identical to the German Gew 98. Unlike the German Gew 98, the handguard runs from the receiver ring to just beyond the lower barrel band.

- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- The model designation appears on the left side of the receiver in Arabic script.

Manufacturer

- The manufacturer's name appears on the left side of the receiver in Arabic script.

Serial Number

- Appears on the side of the receiver in "Turkish" numerals on unmodified carbines (on modified rifles serial numbers are in Western numerals).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- As originally manufactured these carbines were chambered for the 7.65X53MM cartridge, in the 1930's they were re-barrelled to 8MM MAUSER.
Other Markings	- As originally manufactured, model and manufacturer are stamped on the receiver in Arabic script, in the 1930's these carbines were reworked in Turkey, the original markings were ground off and the receiver marked in Roman alphabet with the name of the Turkish arsenal (Ankara) and the re-work date.
Remarks	- This carbine is mechanically identical the Turkish Model 1903 Rifle. It differs in overall length and in having a full length stock with a nosecap with front sight protecting ears. These carbines underwent modifications to calibre (as originally manufactured, calibre was 7.65X53MM, many were rebarreled to 8MM MAUSER) and markings during the 1930's.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MAUSER MOD. 1907." is marked on the left side of the receiver/frame.
- the year of manufacturer is marked on the top of the receiver ring, below the manufacturer's name.

Manufacturer

- "WAFFENFABRIK MAUSER A.-G OBERNDORF A/N" is marked on the top of the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt action.
Serial Number	- the serial number is marked on the left front side of the receiver. - the serial number may have a letter prefix.
Shots	- internal box magazine.
Remarks	- This rifle is mechanically identical to the Brazilian Model 1907 Rifle. Considerable confusion surrounds this rifle as to markings and difficulty in making a positive identification. Rifles ordered by China but undelivered at the outbreak of World War I were rebarreled to accommodate the 8MM MAUSER cartridge and issued to German troops. The Chinese also rebarreled some rifles to calibre 8MM MAUSER.

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the right side of the receiver ring as "Mod 1908"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name appears on the left side of the receiver/frame.
Serial Number	- appears on the left side of the receiver ring and may have a letter suffix.
Other Markings	- Crest of the Republic Brazil on the receiver ring.
Remarks	- this rifle is mechanically identical to the Brazilian Model 1908 Rifle, differing in having a shorter barrel and a turned down bolt handle.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MAUSER MOD. 1910" is marked on the left side of the receiver/frame.

Manufacturer

- the manufacturer's name appears on top of the receiver ring.

Serial Number

- appears on the left front end of the receiver.

Remarks

- This rifle is mechanically and visually identical to the Serbian Model 1910 Rifle differing primarily in markings. These rifles have been used by a number of Latin American republics including: Equador, Guatemala, Venezuela and Costa Rica but seldom if ever have state property markings.

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MODELO 1912" is marked on the top of the receiver ring.
- the "Chilean" national crest is marked on the top of the receiver ring.
- "Fabricas y Maestranzas del Ejercito (FAMAE)" converted some Mauser 1912 Chilean Short Rifles to fire the 7.62MM NATO cartridge, circa 1961. This model was known as the 1912/61 Chilean Short Rifle.

Manufacturer

- "Waffenfabrik Steyr" and " Austria" are marked on the left side of the receiver/frame.

Action

- turn bolt operated.

Serial Number

- the serial number is marked on the left front side of the receiver/frame.
- the serial number may have a letter prefix.

Shots

- internal box magazine.

Other Markings

- Coat of arms of the Republic of Chile appears on the receiver ring.

Remarks

- this rifle is mechanically identical to the 1912 Chilean Rifle differing only in having a shorter barrel, shorter rear sight and a turned down bolt handle.

Make

- MAUSER is marked on the left side of the firearm.

Model

- an accessory barrel is available for this model with a 4MM UBUNGSMUNITION Calibre and 133mm barrel.
- the earliest model (approximately the first 2900) features a "stepped-down" profile to the top of the slide as well as a differently shaped extractor. This resulted in firearm being referred to as the "1914 Humpback". After serial number 3000, this feature disappeared.
- around serial number 525000, the grip contour changed and the pistol was termed the "1934".
- manufactured from 1914 to approximately 1934.

Manufacturer

- MAUSER is marked on the left side of the firearm.

Serial Number

- the complete serial number is marked on the left side of the slide.
- range: began at 3000 and continued to 525000.
- the last three digits are repeated at the rear of the receiver, on the barrel lug and on the underside of the sideplate.
- examples have been noted with the complete serial number marked on the rear of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- very few of the longer barrel lengths will be encountered and most of these will be in the lower serial number range.
Calibre	- "7.65" is marked on the right side of the firearm.
Shots	- detachable box magazine. - the 4MM UBUNGSMUNITION accessory barrel does not use a magazine, it is loaded one cartridge at a time.

Notes

Model

- in 1914, MAUSER developed a larger frame model of the popular Model "1910", this time in 7.65MM/32 AUTO.
- the first 2900 (approximately) had a "step-down" profile to the slide as well as a differently shaped extractor. This model became known as the "Humpback". After serial number 3000, this feature disappeared.

Serial Number

- the serial number is located on the forward section of the left side of the slide.
- the last three digits are repeated at the rear of the frame, on the barrel lug, and on the underside of the sideplate.

Barrel

- long barrels were offered in the earliest days and are considered uncommon.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- Introduced in 1915.
- model designation is not marked on the firearm.
- production began in 1907 and the first use was for arial combat in the early years of World War One.
- features include: full or half Gew 98-type stock with an extended grip in front of the magazine; ramp front and adjustable rear sights; magazine release inside the trigger guard; lever safety.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's name is marked on the receiver/frame.
Action	- recoil operated.
Serial Number	- serial number is located on the receiver/frame.
Shots	- detachable box magazine.
Other Markings	- may be marked "1915" or "1916".

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation does not appear on the firearm.
- this rifle is mechanically identical to the Spanish Model 1893 Rifle, but with a shorter barrel and turned down bolt handle and no stock cut out.
- features include: small ring receiver/frame with rounded full depth cut out on the left side to allow loading from a stripper clip; additional gas escape hole in the bolt body and left side of receiver ring; tangent rear sights; one piece straight wrist stock with upper hand guard and a single barrel band and no nose cap; pivoting sling swivel on the left side of the barrel band and a sling bar on the left side of the butt stock. This firearm is not made to mount a bayonet.
- overall length of firearm is 940mm.

NOTE: many Spanish rifles were converted from the original 7MM MAUSER cartridge to 8MM MAUSER in the 1940's and to 7.62MM NATO in the 1960's for Spanish Reserve Units.

Manufacturer

- a crown and "FABRICA DE ARMAS" and "OVIEDO" plus year of manufacturer are marked on top of the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame.
Calibre	- marked on the left side of the receiver/frame.
Shots	- integral staggered column, flush mounted box magazine.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "MAUSER" is not marked on the firearm. - "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser. - Wilhelm Mauser was born in 1834 and died in 1882. - Paul Mauser was born in 1838 and died in 1914. - Paul Mauser was officially named Peter Paul Mauser. - Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.. - Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872. - Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874. - Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884. - Mauser was established under the German proof law as a proof house in 1898. - Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923. - Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975. - Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.
Model	- model designation does not appear on the firearm. - manufactured from 1916 to 1951, and many were subsequently remanufactured for reserve units until the wholesale adoption of the CETME "L" series, after which these rifles were widely sold as surplus. - this rifle is mechanically identical to the Spanish Model 1893 Rifle, but with a shorter barrel and turned down bolt handle without stock cut-out. - features include: small ring receiver/frame with a rounded full depth cut out on the left side to allow loading from a stripper clip; additional gas escape hole in the bolt body and left side of receiver ring; rear sights - original model has a "Lange Vizier" type (ski-jump) rear sight and later production rifles have regular tangent rear sights; hinged or detachable magazine floor plate; one piece straight wrist stock with upper hand guard and a single barrel band and nose cap with bayonet lug and cleaning rod; pivoting sling swivel on the left side of the barrel band and a sling bar on the left side of the butt stock. NOTE: many of these rifles were converted from the original 7MM MAUSER cartridge to 8MM MAUSER in the 1940's and to 7.62MM NATO from the 1960's to the 1980s for Spanish Reserve Units. Many of these are likely to have been "sporterized" or rebarrelled/rechambered to other cartridges.
Manufacturer	- the manufacturer is not marked on the firearm, but it may bear Spanish military or militia property markings. - these firearms were remanufactured in 7.62mm NATO at either Oviedo or Coruna/Santa Barbara, but the original manufacturer's markings were removed, and often replaced with the "sword and fasces" logo of the Spanish nationalist government.
Action	- turn bolt design.
Serial Number	- serial number is marked on the receiver/frame. - observed example bore a "3Z" serial number prefix.
Calibre	- calibre is usually marked on the left side of the receiver ring.
Shots	- internal box magazine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "VZ33" or "VZ 16/33" may be marked on the left side of the receiver/frame.
- the "Czechoslovakian" national crest is marked on the top of the receiver ring.

Manufacturer

- the manufacturer's name is marked on the left side of the receiver/frame.

Action

- turn bolt operated.

Serial Number

- the serial number is marked on the left front side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- internal box magazine.
Other Markings	- The rampant lion of the Republic of Czechoslovakia appears on the top of the reciever ring.
Remarks	- This carbine is mechanically identical to the Czech VZ 24, differing in having a turned down bolt handle with a hollow grasping knob and in being considerably shorter. This carbine was used by the Republic of Czechoslovakia as a police weapon.

Make:	Mauser
Model:	1924 Czechoslovakian Short Rifle
Manufacturer:	Ceskoslovenska Zbrojovka
Level:	Non-Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	CZECHOSLOVAKIA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125155 - 1	22 LR	1	591	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
125155 - 2	22 LR	1	630	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- this "1924 Czechoslovakian Short Rifle", also known as the "VZ24" has been re-barreled to fire the 22 LR cartridge and re-worked so the magaine follower is welded in place.
- CESKOSLOVENSKA ZBROJOVKA, A.S. BRNO" is marked on the left side of the receiver/frame.
- this rifle is mechanically identical to the 1923 Czech Rifle only longer.
- features include: blued action and barrel; full military wood with upper barrel hand guard; hooded front sight and sliding graduated rear sight; steel butt plate.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is located on the front of the receiver ring.
- the serial number may have a letter prefix.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "VZ 24" is marked on the left side of the receiver/frame.
- "VZ" is the abbeviation for model.
- the "Czechoslovakian" national crest is marked on the top of the receiver ring.
- manufactured from 1924 to 1942.
- this rifle is mechanically identical to the 1923 Czech Rifle only longer.

Manufacturer

- the manufacturer's name is marked on the left side of the receiver/frame.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the front left side of the receiver/frame.
- the serial number may have a letter prefix, suffix or alpha/numeric sequence.

Shots

- internal box magazine.

Other Markings

- a great many markings may appear on these rifles and on some specimens the manufacturer's name appears on the top of the receiver ring, on others these markings appears on the left side of the receiver/frame, some specimens have a date (eg. 1937) on the top of the receiver ring and some have national crests (Romania, Guatemala and Czechoslovakia etc.).

Remarks

- this firearm was adopted as standard by the Czechoslovakian Army and was manuactured on contract to a host of Kingdoms and Republics including: Bolivia, Brazil, Equador, Guatemala, Latvia, Peru, Romania, Venezuela, China and Czechoslovakia in either 7MM, 7.65MM or 8MM MAUSER calibre.

FRT Report

Firearm Reference Number (FRN): 147441
Make: Mauser
Model: 1924 Ethiopian Carbine

Summary

Make:	Mauser
Model:	1924 Ethiopian Carbine
Manufacturer:	Fabrique Nationale Herstal (FN)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147441 - 1	8MM MAUSER	5	572	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is not marked on the firearm.
Model	- the model is not marked on the firearm; this is a specific variation of the Mauser FN 1924 Carbine, manufactured for Ethiopia during the 1930s, bearing the (at that time) Ethiopian crest, Ethiopian acceptance marks (and, occasionally, Ethiopian issue marks). Ethiopia ordered both Short Rifles and Carbines from FN during this period, which can be distinguished from each other by their bolt handles (straight - Short Rifle, turned down - Carbine). - features include: standard Mauser bolt-action rifle layout and operation; blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; and a large Ethiopian crest on the receiver ring; this crest is composed of a square crown above a banner in Amharic and a stylized lion's face, with laurels forming a border. - when accepted into Ethiopian service, these rifles were stamped with the Ethiopian "lion of Judah" (a crowned lion on three legs facing to the left, and holding a cross streaming a banner over the lion's back), on the left side of the receiver ring.
Manufacturer	- the manufacturer is marked on the left side of the receiver as "FAB. NAT. D'ARMES de GUERRE HERSTAL, BELGIQUE".
Action	- turn-bolt design.
Serial Number	- numbered on top of the receiver.
Shots	- internal box magazine.

Notes

Make	- the make is not marked on the firearm.
Model	- the model is marked on the firearm as "24 L" or "Mod. 24 L"; this is a version of the FN 1930 Short Rifle manufactured for Lithuania under contract during the 1930s, when Lithuania was an independent state; during the 1920s, they also purchased similar rifles from CZ of Czechoslovakia. - depending on the specific period of purchase, these rifles may be seen with either Fabrique National's "FN" crest, or Lithuania's "gate" crest (somewhat resembling an open-topped box with an upside-down, square-armed "Y" in the middle; this pattern is meant to resemble a castle's battlements). - features include: blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; sling swivels at barrel bands and bottom of the butt; and a straight or turned-down bolt handle.
Manufacturer	- the manufacturer is marked on the left side of the receiver as "FAB. NAT. D'ARMES de GUERRE HERSTAL, BELGIQUE".
Action	- turn-bolt design.
Serial Number	- numbered on the receiver/frame.
Shots	- internal box magazine.

147495 - 1	8MM MAUSER	5	590	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is not marked on the firearm.
Model	- the model is not marked on the firearm; this is a version of the Czech Vz.24 Short Rifle, made for Romania during the 1920s and 1930s. These rifles can be identified by the presence of Romanian property markings OR one of two Romanian royal crests on the receiver ring, either that of King Carol II (a circle containing overlapping back-to-back "C"s, surrounded by laurels and topped with a crown), or that of King Michael I (four crowned "M"s, straddling "I"s, arranged base-to-base in a cross). During 1939 and 1940, a number of these rifles were produced without a royal crest (the monarchy being in exile at that time), and these rifles will bear only a date on the receiver. - the Romanian property markings include a "CM" in a circle, on the receiver above the serial number, and a squared "C" containing an "M" on the bottom of the bolt handle; "CM" stands for "Copsa Mica", an industrial town in the northern centre of the country. - features include: blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; sling swivels at barrel bands and bottom of the butt; and a straight bolt handle.
Manufacturer	- the manufacturer is marked on the left side of the receiver; these rifles were actually produced at a subsidiary of Zbrojovka Brno, located in Copsa Mica, Romania.
Action	- turn-bolt design.
Serial Number	- numbered on the receiver/frame.
Shots	- internal box magazine.

1654 - 1	8MM MAUSER	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "G.29/40" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "660", the manufacturer's code is marked on top of the receiver ring. - the year of manufacture is marked below the manufacturer's code.
Action	- turn-bolt design.
Serial Number	- serial number was observed marked on the front left side of the receiver/frame.
Shots	- internal box magazine.
Other Markings	- date of manufacture on receiver ring below manufacturer's code (either full year or the last two digits of year). Some these rifles may have their original markings in addition to the later applied German markings.
Remarks	- these are Austrian manufactured Colombian Model 1929 or Polish manufactured Model 1929 rifles converted in Austria to conform with the standard German 98 K Carbine. Some of these rifles may have their original markings in addition to the German designation G 29/40 and the manufacturer's (converter's) code "660". Converted Gewehr 29/40 are virtually identical to either standard 98 K or G 24 (t) rifles, except for markings.

Notes

Make

- the make is not marked on the firearm.

Model

- "29/40" is marked on the firearm; "G29/40" stands for "Gewehr 29/40", or "1929 Rifle, 1940 Conversion".
- this is a 1929 Polish Short Rifle, as captured by the Germans, and converted to K98 configuration (mainly through the addition of a stock with sling cut-outs) for issue to the Luftwaffe; this conversion was performed at the Radom factory, which was placed under the control of the Steyr-Daimler-Puch conglomerate, and rifles so converted were marked with both their original Polish markings ("wz.29" and "F.B. Radom", with a Polish eagle) and conversion markings applied by Steyr ("660" - the early wartime factory code for Steyr, and "/40", appended to the original model on the receiver.
- features include: blued finish; adjustable open sights; round rifled barrel; tubular receiver/frame; turned down bolt handle; wing safety mounted on the rear of the bolt; full length wood semi-pistol grip stock with sling cut-out and swivel at the barrel band.

Manufacturer

- both manufacturers are marked on the firearm, one as "660" (an early wartime production code for Steyr-Daimler-Puch) and one as "F.B. RADOM" (Fabryka Broni Radom", the Polish arsenal. These rifles were conversions from 1929 Polish Short Rifles to the standard German K98 configuration, for issue to the German Luftwaffe, and the work of conversion was performed at the captured Radom arsenal, under the direction of Steyr, who had been placed in control of Radom after the German invasion of Poland.

Action

- turn-bolt design.

Serial Number

- numbered on the receiver/frame.

Shots

- internal box magazine.

Notes

Make	- the make is not marked on the firearm.
Model	- the model is not marked on the firearm; marked only "IOB" in a 6-sided polygon on top of the receiver. - this is a post-WW2 version of the FN 1930 Mauser Carbine, made on contract for the "Indische Ondernemers Bond"/"IOB" ("Indian Entrepreneurs Association"), for issue to police in the regions of Indonesia controlled by the Netherlands as the "Dutch East Indies". By 1949, Indonesia had become an entirely autonomous power, and many of these rifles ended up passing to the Indonesian state police, where they were marked with a five-pointed star above the original "IOB" logo. - features include: blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; sling swivels at barrel bands and bottom of the butt; and a turned-down bolt handle.
Manufacturer	- the manufacturer is marked on the left side of the receiver as "FAB. NAT. D'ARMES de GUERRE HERSTAL, BELGIQUE".
Action	- turn-bolt design.
Serial Number	- numbered on the receiver/frame.
Shots	- internal box magazine.

FRT Report

Firearm Reference Number (FRN): 74472
Make: Mauser
Model: 1933 Gewehr Deutsche Reichspost

Summary

Make:	Mauser
Model:	1933 Gewehr Deutsche Reichspost
Manufacturer:	Mauser
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
74472 - 1	8MM MAUSER	5	630	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm, "Deutsche Reichspost" denotes "German Post Office".
- introduced circa 1933 - 1934. Date of manufacturer is normally marked on the top of the receiver ring just below the Mauser Logo.
- the Deutsche Reichspost rifle is an impoved verison of the "Standard Modell" with a turned down bolt handle and a recess in the stock for the bolt knob.
- this rifle is believed to be the forerunner to the model 98K, the only differences between the two is the method of retaining both upper and lower handguard bands.
- a single band spring is used on the 98K.
- on the Deutsche Reichspost model a band spring is used the lower band only, the upper band is held in place with a retaining pin.

Manufacturer

- "MAUSER - WERKE A:G.OBERNDOF A/N" is marked on the left side of the receiver/frame.
- "MAUSER" banner / trademark is marked on the top of the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the left side of the receiver/frame. - predates the serial numbering rationalization used by Germany during World War Two.
Shots	- internal magazine with removeable floorplate.
Other Markings	- on samples issued to the German Postal service the buttstock was marked " D.R.P", some samples display "CH.d.A" inside a circle (believed to be a military designation for "Chef des Amtes"), samples issued for use by the German Railway System were marked "D.R." for "Deutsche Reichsbahn".

- the model is marked on the firearm, in Chinese ideographs reading "Zhong Zheng Shi"/"Chiang Kai Shek Type".
- this is a Chinese-manufactured copy of the Mauser Standard Modell Short Rifle, produced at several Nationalist arsenals during the Sino-Japanese War, World War Two, and the Chinese Revolution (1936 to 1949); these rifles bear Chinese or spurious German "Mauser" markings, have straight bolt handles, and a lower grade of fit and finish than genuine Mauser rifles.
- features include: blued finish; general Mauser-style layout and operation; open adjustable sights; sling swivels; semi-pistol-grip wooden stock and upper handguard; thumb cut-out for stripper-clip loading; straight bolt handles; and a Mauser-type flip-over wing safety.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name appears on the receiver ring as a logo involving several Chinese characters.
Action	- turn-bolt design.
Serial Number	- appears on the side of the chamber and may have prefix or suffix letters.
Shots	- internal box magazine.
Other Markings	- the year of manufacture appears on the receiver ring as a two digit number, a hyphen and a one or two digit number eg. 25-6 (the 25 indicates the 25'th year since the Chinese revolution in 1911, hence 1936 and the 6 indicates the month of manufacture, hence June).
Remarks	- this rifle is a faithful copy of the Mauser model 1933 "Standard Modell" Short Rifle and was manufactured in China between 1936 and 1949.

Notes

Make

- the make is marked on the firearm as "MAUSER", with the Mauser crest.

Model

- the model is not marked on the firearm; this is a specific variation of the Mauser 1933 Standard Model Carbine, manufactured for Ethiopia during the 1930s, bearing Ethiopian acceptance marks (and, occasionally, Ethiopian issue marks). Ethiopia ordered both 1933 Short Rifles and 1933 Carbines during this period, which can be distinguished from each other by their bolt handles (straight - Short Rifle, turned down - Carbine) and the presence or absence of an accompanying stock cut-out to accommodate the bolt knob above the trigger-guard.
- features include: standard Mauser bolt-action rifle layout and operation; blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; sling cut-outs to allow for a sling on the left side; and a metal butt cap.
- when accepted into Ethiopian service, these rifles were stamped with the Ethiopian "lion of Judah" (a crowned lion on three legs facing to the left, and holding a cross streaming a banner over the lion's back), on the left side of the receiver ring.

Manufacturer

- the manufacturer is marked on the firearm as "MAUSER", with the Mauser crest.

Action

- turn-bolt design.

Serial Number

- numbered on the left side of the receiver/frame.

Shots

- internal box magazine.

Model:	1933 Standard German Carbine
Manufacturer:	Mauser
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
29742 - 1	7.65X53 MAUSER	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
29742 - 3	7MM MAUSER	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
29742 - 2	8MM MAUSER	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "STANDARD-MODELL" is marked on the left side of the receiver/frame.

Manufacturer

- "MAUSER " is marked on the top of the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- appears on the left front end of the receiver.
Shots	- internal box magazine.
Remarks	- This rifle is identical to the 1933 Standard Modell Short Rifle differing only in having a turned down bolt handle with a scalloped recess in the stock under the bolt handle and provision for a side mounted sling. The "Standard Modell" Carbine was designed by Mauser for export sales and Bolivia, China, Ethiopia, Honduras, Paraguay, Portugal and Spain purchased considerable quantities. This carbine (rifle) with slight modifications was adopted by the German government as the 98k Carbine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "G.33/40" is marked on the left side of the receiver/frame.

Manufacturer

- the manufacturer's name appears on top of the receiver ring as a code: " 945", "dou" or "dot".

Action

- turn-bolt design.

Serial Number

- Appears on the left front end of the receiver. Serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- internal box magazine.
Other Markings	- the date of manufacture appears on the receiver ring below the manufacturer's code either as the full year or last two digits of the year.
Remarks	- This carbine was manufactured in Czechoslovakia during the Nazi occupation from 1940 to 1944 as a short handy firearm for alpine troops. It is mechanically identical to the German 1898 K differing in being considerably shorter, having a short based rear sight, hollow bolt handle and a metal protecting plate on the toe and left side of the buttstock. This firearm is a direct derivative of the Czech VZ (Model) 1933 carbine.

20815 - 2	7.65MM	8	97	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	

Notes

Model

- "1934" is similar to the Model "1914", except for changes made to the grip.
- manufactured from 1934 to 1939.
- it will often be found with two to four Navy property numbers on the right side of the receiver/frame or front grip-strap, either with or without the letters "N" or "O". These should not be confused with the serial number.

Serial Number

- serial range is considered to be from 525000 and continues to approximately 625000.
- the serial number is stamped, in full, on the front of the left side of the slide.
- the last three digits are repeated at the rear of the frame, on the barrel lug, and on the underside of the sideplate.
- the firearm will often be found with 2 to 4 Nazi Navy property numbers on the right frame or front grip-strap, either with or without the letters "N" or "O". These should not be confused with the serial number.

147460 - 1	30-06 SPRG	5	595	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is not marked on the firearm.
Model	- the model is not marked on the firearm; this is a 1946 conversion of surplus M1935 Belgian Short Rifles (originally chambered for 7.65x53 Mauser) to 30-06 Springfield, due to the great abundance of surplus US war materiel at the end of World War Two. The original markings on these rifles were not changed, but a new calibre marking was added, and a notch had to be added to the rear of the receiver ring in order to allow the longer 30-06 cartridges to be loaded via stripper clips. - features include: blued finish; open adjustable sights; under-barrel ramrod and bayonet lug; wooden handguard and pistol-grip stock; sling swivels at barrel bands and bottom of the butt; and a straight bolt handle.
Manufacturer	- the manufacturer is marked on the left side of the receiver as "FAB. NAT. D'ARMES de GUERRE HERSTAL, BELGIQUE".
Action	- turn-bolt design.
Serial Number	- numbered on the receiver/frame.
Shots	- internal box magazine.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm.
- "Portuguese national crest" over the manufacturer's date is marked on top of the breech ring.
- manufactured from 1937 to 1938.
- this is a "Standard Model Mauser" similar in design to the "Kar. 98K" adopted by Portugal as the model "1937" or "M/937".
- this model was superseded by the "1937-A", also known as the "Mo. 937-A".
- the model 1937 used the German style slot and bar sling mounts, while the model 1937-A used sling swivels attachment on the lower barrel band and on both the side and bottom of the butt.

Manufacturer

- "Mauser-Werke A.G. Oberndorf A.N." is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - the serial number may have a letter prefix.
Calibre	- calibre designation is not marked on the firearm.
Shots	- integral box magazine.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
30253 - 2	6.5MM REM MAG	3	610	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
30253 - 1	7MM MAUSER	5	590	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on top of the receiver ring as "937".

Manufacturer

- the manufacturer's name appears on the left side of the receiver.

Serial Number

- appears on top of the receiver ring, below the model designation.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings	- The coat of arms of the Republic of Uruguay appears on the receiver ring together with the legend "R.O.U. Ejercito Nacional".
Remarks	- This rifle is identical to the Czech VZ 1924 Short Rifle, except for markings.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm.
- this model was introduced in 1938 and produced until 1943 by Mauser.
- Portugese crest and year of manufacture are marked on the receiver ring.

Manufacturer

- "MAUSER-WERKE A.G." is marked on the left side of the receiver/frame.

Action

- turn bolt operated.

Serial Number

- the serial number is marked on the left front side of the receiver.
- the serial number may have a letter prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- internal box magazine.
Other Markings	- the coat of arms of the Republic of Portugal appears on the top of the receiver ring.
Remarks	- This rifle is a slight modification to the standard German 1898 K Carbine, differences include provision for mounting a sling on either the left side or underside of the buttstock and the underside of the barrel band. This rifle has front sight protecting ears.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm, the official Swedish military designation was Gevär m/38.
- a total of approximately 60,000 examples were produced by Husqvarna between 1941 and 1944.
- between 1938 and 1940 the Carl Gustafs factory converted some 30,000 model 1896 Swedish Rifles into a shorter configuration to make the rifle easier to handle for infantry troops. This conversion included installing a shorter barrel, shortening the forward portion of the stock and the installation of a new rear sight.
- due to the success of this conversion the same basic rifle was adopted circa 1941 as the model 1938 Swedish Short Rifle (official Swedish military designation was Gevär m/38).
- features include: turned down bolt handle (note that as parts are readily interchangeable some examples may be found with a non-original straight bolt handle, these will usually have a mis-matched, partial serial number); blued finish on metal (except bolt); stock and handguard will be beech wood; hinged rear sight graduated to 600 meters; nosecap has a bayonet mounting point; cleaning rod stored in the stock below the barrel.
- some examples were fitted with a barrel that was threaded at the muzzle for a blank firing attachment. When the attachment was not on the rifle a thread protector was installed in its place. Those examples with the threaded muzzle were officially known by the Swedish military as the Gevär m/38B.

Manufacturer

- "Husqvarna Vapenabriks Aktiebolag" (known as Husqvarna) is marked on the top of the receiver ring, over the date of manufacture 1941, 1942, 1943 or 1944.
- based on available information it would appear that only Husqvarna produced this model between 1942 and 1943. This model was adopted as a result of conversions that were done on existing model 1896 Swedish Rifles (manufactured by either Carl Gustafs Stads Gevärsfaktori or Mauser) known as the model 1896/38 Swedish Short Rifle, by Carl Gustafs Stads Gevärsfaktori between 1938 and circa 1940. As the conversion/model was so well received, when new rifles were ordered for the Swedish military it was specified that they be built to the same specifications with only minor modifications. The most identifiable modification is that these newly built model 1938 Swedish Short Rifles had a turned down bolt handle. In 1941 a contract was issued to Husqvarna Vapenfabriks Aktiebolag for rifles that were to be officially designated as the Gevär m/38 (commonly known as the model 1938 Swedish Short Rifle).

Action

- turn-bolt action.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- the last three digits of the serial number are also marked on most of the other components.
- serial number rationalization of known firearms:
  - 1941, 600035 to 628717
  - 1942, 628822 to 667603
  - 1943, 669783 to 683939
  - 1944, 704000 to 705969
- NOTE: these serial numbers overlap with the Carl Gustafs production from 1938 to 1940.

Calibre

- it is estimated that 1000 examples of the 1938 Swedish Short Rifle were produced in calibre 22 LR for training purposes. These rifles were fitted with a new barrel, bolt and magazine assembly.

Shots

- intenal magazine with a hinged floorplate.

Other Markings

- the date of manufacture and manufacturer markings are marked on the receiver ring.
- the initials of the inspector (usually two alpha characters) will also be found on various components.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- 1938 Turkish Short Rifle is not marked on the firearm.
- the Turkish military, in order to standardize the various Mauser rifles in their inventory to a common Short Rifle configuration and chambered to fire the 8MM MAUSER, had many of their rifles re-manufactured in the late 1930s and early 1940s.
- the original markings were removed and the receiver ring was re-stamped with the name of the Turkish State Arsenal located in Ankara or Kirikkale (K. Kale) and the date the rifle was re-worked.
- this rifle is similar in appearance to the 1903 Turkish Rifle, but with a shorter barrel, turned down bolt handle and semi-pistol grip stock with a sling slot in the butt.

Manufacturer

- manufacturer's name appears on the receiver ring.

Serial Number

- serial number appears on the side of the receiver/frame.
- serial number rationalization is unknown.

Shots

- internal box magazine.

Other Markings

- The "Star and Crescent" emblem of the Republic of Turkey and the date of re-manufacture appears on the receiver ring.

Remarks

- this rifle is a conversion of existing Mauser Model 1898 action type rifles to "short rifle" configuration. Work was carried out in Turkey and usually entailed re-barreling or shortening the original barrel, restocking or shortening the original stock and removing the original markings. Several variations of this rifle exist, this depending on which original model rifle was being converted.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Kirikkale Tufek Fabricasi" was formed circa 1940 to re-work Mauser rifles. - "Kirikkale Tufek Fabricasi" was renamed "Makina ve Kimya Endustria (MKE) in 1952.- -the "Star and Crescent" emblem of the Republic of Turkey and the date of re-manufacture appears on the receiver ring. - at least two variations of manufacturer's markings are known to exist. Factory markings appear as a crescent moon with a star between the two points of the crescent moon. The letter "T" will be on the left of the star and the letter "C" will be on the right side of the star (the "TC" denotes "Turkiye Cumhuriyeti" or "Turkish Republic"). The left side of the crescent moon will have the letters "AS" with the letters "FA" on the right side of the crescent moon or the "ASFA" will be below the moon (the "AS FA" denotes "Askeri Fabrika" which literally translates to Soldier Factory). The left side of the crescent moon will have the letters "ANK" with the letters "ARA" on the right side of the crescent moon or "ANKARA" will be below the "ASFA", "Ankara" is the location of the factory. The last line of the marking is the year of manufacture or conversion.
Serial Number	- serial number is located on the left side of the receiver/frame. - observed specimen had four numbers without a letter prefix or suffix.
Shots	- internal box magazine.
Other Markings	- the "Star and Crescent" emblem of the Republic of Turkey and the date of re-manufacture appears on the receiver ring.
Remarks	- this rifle is a conversion of existing Mauser Model 1898 action type rifles to "short rifle" configuration. Work was carried out in Turkey and usually entailed re-barreling or shortening the original barrel, restocking or shortening the original stock and removing the original markings. Several variations of this rifle exist, this depending on which original model rifle was being converted.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm.
- this is a standard pattern Mauser 98K rifle, adopted by Sweden in 1940 as a supplementary long-arm to be be issued to Swedish machine-gunners (who were then issued with the Browning 8x63 SWEDISH M36 machinegun); because of the inordinate recoil of the 8x63 SWEDISH cartridge (as compared to other military issue bolt-action rifles) Sweden had to specify that a factory muzzle-brake be added to the rifle.
- features include: standard Mauser-pattern 98K; laminated wooden pistol-grip stock; open adjustable sights; blued finish; and a four-slot factory muzzle brake.

Manufacturer

- the manufacturer (or crest thereof) is marked on the receiver/frame.

Serial Number

- numbered on the receiver/frame.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- this model was introduced in 1941 and produced until 1943 by Mauser.
- Portugese crest and year of manufacture are marked on the receiver ring.
- features include: wooden pistol grip stock, and an upper handguard that extends from the front of the receiver to about one inch past the forward barrel band; steel buttplate, steel trigger guard and magazine floor plate; round steel barrel with fixed post front sight and elevation adjustable sliding rear sight; sling swivels; a cleaning rod may be found under the barrel.

Manufacturer

- "Mauser-Werke A.G. Oberndorf, a N." is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - the serial number may have a letter prefix.
Shots	- internal box magazine.
Other Markings	- The coat of arms of the Republic of Portugal appears on the top of the receiver ring.
Remarks	- This rifle is a slightly modified version of the Portugese Model 1937-A Short Rifle. It resembles in all respects, except markings, the German World War II Model 98 K Carbine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on the firearm.
- manufactured from 1943 to 1959.
- this rifle is mechanically identical and visually similar to the Czech VZ 1924 Rifle.
- some 1943 Spanish Short Rifles have turned down bolt handles but the majority have straight bolt handles.

Manufacturer

- the manufacturer's name may be marked on the receiver/frame ring.

Action

- turn bolt action.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- the serial number may have a single letter or multiple letter prefix.

Calibre

- many of these rifles were converted to 7.62MM NATO in the 1960's for Spanish Reserve Units.

Shots

- internal box magazine.

Other Markings

- Several different receiver markings are known:
a. Stylized crowned eagle (Spanish Air Force)
b. Coat of arms of the Republic of Spain with arsenal name and date of manufacture.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "M 48" is marked on the top of the receiver ring.
- the "Yugoslavian Communist" crest is marked on the top of the receiver ring.
- in the case of the "M 48 BO" the firearm will be devoid of markings.
- model recognition features:
- the "M48" & the "M48 BO" both have all milled parts.
- the "M48A" has "some" milled and some stamped parts.
- the "M48B" has all stamped component parts.

Manufacturer

- the manufacturer's name is marked on the left side of the firearm.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the right side of the receiver ring.
- the serial number may have a letter prefix.

Shots

- internal box magazine.

Other Markings

- the coat of arms of communist era Yugoslavia appears on the receiver ring of the 1948 Yugoslavian Short Rifle.
- the model 1948 BO Yugoslavian Short Rifle is a model 1948 Yugoslavian Short Rifle devoid of markings.
- "M48 BO" translates to M1948 Bez Oznake - which is Serbian for "without markings". - the model designation "M48 BO" does not appear on the firearm.
- the Model 1948 BO Yugoslavian Short Rifle was manufactured as part of a pre-production run of rifles for the Egyptian Government. This contract was cancelled before the firearms went into full production due to the "Suez Crises". After the Suez Crises the Egyptian Government cancelled the order for these rifles as they were no longer interested in a bolt action service rifle, preferring instead a self-loading firearm.
- total production of the 1948 BO Yugoslavian Short Rifle was approximately 3800 units.
- identification guide: - the M48 & the M48 BO both have all milled steel parts.
- the M48A has "some" milled steel and some stamped parts.
- the M48B has all stamped steel component parts.

Remarks

- this rifle is mechanically identical to the Yugoslavian manufactured and F.N. manufactured 1924 Short Rifles. It differs in minor details such as a slot in the buttstock for mounting a German type sling and having a turned down bolt handle with the underside of the knob flattened.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is marked on the left side of the receiver/frame in Persian characters.
- "1949 IRANIAN CARBINE" was manufactured in the state rifle factory set up by the Czechs in Mosalsalsasi.
- "1949 IRANIAN CARBINE" is a modification of the Czech made Model 30 carbine.
- "1949 IRANIAN CARBINE" receiver ring has the Iranian crest comprised of a lion and sun and a sword-wielding lion inside a wreath and a crown.
- features include: blade front sight with protective ears and adjustable rear sight with Persian numerals; wood top handguard; lower and upper barrel bands are stamped sheet steel and retained by a single spring bar on the right side; lower barrel band has a fixed sling bar on the left side; curved bolt handle; wood stock with grooved forend, cut-out for the bolt handle/knob and German style sling slot cut through the buttstock; steel butt plate; blued finish.
- overall length with a 460mm (18.11") barrel is 968mm (38.18") average weight is 3.9kg (8.6 lbs).

Manufacturer

- the manufacturer's name appears on the left side of the receiver in Persian characters.
- the receiver ring has the Iranian crest comprised of a lion and sun and a sword-wielding lion inside a wreath and a crown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - factory applied serial number appears on the left side of the receiver/frame in Persian numerals.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver ring as "MOD.54".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name appears on the receiver ring.
Action	- turn bolt operated.
Serial Number	- appears on the front end of the receiver.
Calibre	- the calibre designation appears on the left side of the recevier ring as "CAL. 7.62mm".
Shots	- integral magazine located in front of the trigger guard.
Other Markings	- Coat of arms of the Republic of Mexico and the year of manufacture appear on the receiver ring.
Remarks	- This rifle closely resembles the Mexican Model 1936 Short Rifle with the exceptions that it is chambered for the 30-06 cartridge and may have a bridge mounted aperture rear sight (some specimens retained the barrel mounted tangent rear sight). Most specimens have an oval brass plate bearing a rack number affixed to the underside of the buttstock.

Notes

Make

- "MAUSER - WERKE" is marked on the left side of the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MOD 225" is marked on the left side of the firearm.
- manufactured by Mauser from 1987 to 1995.
- formerly manufactured by Voere-Voetter as the model 2250 or "Titan II"
- features include; open top receiver/frame, front locking, three lug bolt with a 60 degree lift, detachable magazine, the trigger was available as either a single adjustable, double set, or single-rear set.
- stocks were available with a choice of fiberglass or laminated wood.
- deluxe model had a jeweled bolt, higher quality finish, and a monte-carlo stock with rosewood tip on high grade wood.

Manufacturer

- "MAUSER - WERKE OBERNDORF WEST GERMANY" is marked on the left side of the firearm.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- the Mauser manufactured rifles started with serial number 100 000 and ended with number 127452 on a firearm reportedly built on April 20, 1995.
- this serial number sequence was shared with 4 other former Voere models, the Models 201,105,107 and 226.

Calibre

- the calibre designation is marked on the left side of the firearm.

Shots

- detachable box magazine.
- three shot capacity for magnum calibres.
- five shot capacity for standard calibres.

Notes

Make

- "MAUSER-WERKE" is marked on the left side of the barrel.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MOD 226" is marked on the left side of the barrel.
- introduced in 1998.
- this is a left-handed version of the Model 225, a newly-manufactured version of the KDF K-15.

Manufacturer

- "MAUSER-WERKE OBERNDORF W GERMANY" may be marked on the left side of the barrel.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left side of the receiver/frame.
Barrel	- the barrel length for the magnum calibres are 660mm and the standard calibres are 610mm.
Calibre	- the calibre designation is marked on the left side of the barrel.
Shots	- detachable box magazine.
Other Markings	- manufacturer and serial number found on left side of receiver.
Remarks	- differs from Model 225 only in that it is left handed.

Notes

Make

- "MAUSER" logo is marked on the bolt carrier and on the top of the barrel.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod. 66" is marked on the bolt carrier.
- produced from 1966 to 1995.
- designed to easily allow accessory barrels of different lengths or calibres to be installed.
- this is a short telescoping action 76mm to 146mm shorter than a standard length M98 action.

Manufacturer

- "MAUSER - WERKE A.G. Obendorf a.N." may be marked on the bolt carrier.

Action

- turn bolt operated.

Serial Number

- "DBP 1 205 423" may be marked on the right side of the firearm.
- "DBP 1 205 423" is a Duetschland Bundesrepublik Patentamt (German Republic Patent) number granted to Walter Gehmann for his short bolt action on September 14, 1963.

Shots

- the box magazine is integral to the receiver/frame and is not removable.

Other Markings

- barrels will have their own serial number that may not match the serial number on the receiver.

Notes

Make

- "Original" in handwritten script over the "MAUSER" banner trademark symbol is usually marked on the top of the receiver ring.
- "MAUSER" banner and "MAUSER - WERKE" are marked on the left side of the receiver/frame.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- manufactured from 1978 to 1987. - "Mod. 77" is marked on the top of the receiver ring or on the left side of the receiver/frame. - "77" is a turn bolt operated sporting rifle utilizing a three-lug, rear-locking bolt action design with detachable box magazine. - receiver/frame on this firearm is solid on top causing a right-side ejection; because of this design feature, loading of the magazine must be accomplished by removal of the magazine using the dual magazine release buttons located on either side of the stock above the magazine. - features include: patented single set trigger with set button located at the right rear of the receiver/frame, or double set triggers; patented silent rotary safety located on the right side of the receiver/frame bridge; semi-bull barrel with integral muzzle brake; sling swivels on the underside of the barrel and buttstock; adjustable and detachable sights, or drilled and tapped for scope mounts, also available with a rear sight rail; various stock configurations with hand checkering and/or engraving, white line spacers, ventilated rubber recoil pad; usually a blued finish, however one model did feature a dull sandblasted military-type finish.
Manufacturer	- "Original" in handwritten script over the "MAUSER" banner trademark symbol is usually marked on the top of the receiver ring. - "MAUSER - WERKE" is marked on the side of the receiver/frame.
Action	- turn-bolt operated.
Serial Number	- serial number is usually marked on the left side of the receiver/frame. - serial numbering began in 1978 at 01000 and ceased in 1987 at 04637.
Calibre	- calibre designation is usually marked on the left side of the barrel.
Shots	- detachable box magazine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod. 98" or "98" is marked on the left side of the receiver/frame.
- the rifles with the code "237" were manufactured from 1938 to 1940 inclusive.

Manufacturer

- "237" the manufacturer's code is marked on the top of the receiver ring above the year of manufacturer.
- "237" is the code for "Berlin-Lubecker Maschinenfabrik".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- manually operated, bolt action, repeating rifle.
Serial Number	- Appears on the left front end of the receiver. Serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.
Shots	- non-detachable, internal, 5 shot magazine.
Other Markings	- The year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits.
Remarks	- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

31150 - 1	8MM MAUSER	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver as "Mod 98" or "98".
- rifles with the code "S237" were manufactured from 1936 to 1938 inclusive.

Manufacturer

- the manufacturer's name appears on the receiver ring as the code "S237".

Action

- manually operated, turn bolt action, repeating rifle.

Serial Number

- Appears on the left front end of the receiver. Serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- non-detachable, internal, 5 shot magazine.
Other Markings	- The year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits.
Remarks	- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- this is a reworked 98K.
- model designation may appear on the top of the receiver ring as Mod.98.
- this rifle is mechanically identical to the Gewehr 1898, it differs in: length; scalloped recess in stock, turned down bolt handle; sling cut out in the buttstock; wider barrel barrel band with an integral sling loop on the left side; tangent rear sight; oversize trigger guard.

Manufacturer

- the manufacturer's name appears on the receiver ring.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver ring.
- serial number may includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Shots

- internal box magazine is usually top loaded by a stripper clip holding five cartridges.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the 98K was the standard issue rifle of the German Army in World War II.
- the model designation is marked on the left side of the receiver/frame as "Mod 98" or "98".
- rifles with the code "27" were manufactured from 1938 to 1940 inclusive.

Manufacturer

- the manufacturer's identifier is marked on the receiver ring as the code "27".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the left front end of the receiver/frame. Serial number includes a letter suffix, except for the first 9999 firearms made in each year.
Shots	- non-detachable, internal magazine.
Other Markings	- the year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits.
Remarks	- this rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver as "Mod 98" or "98".
- rifles marked with the code "S/27" were manufactured from 1935 to 1938.
- rifles marked with the code "S/27G" were manufactured in 1935.

Manufacturer

- the manufacturer's name appears on the receiver ring as the code "S/27".

Action

- manually operated, turn bolt action, repeating rifle.

Serial Number

- Appears on the left front end of the receiver. Serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- non-detachable, internal, 5 shot magazine.
Other Markings	- The year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits. 1935 does not show on the receiver ring of those rifles manufactured in this year but is represented by the letter G in the code S/27G on the receiver ring.
Remarks	- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod. 98" or "98" may be marked on the left side of the receiver/frame.
- the rifles with the code "bcd" were manufactured in 1941 to 1945.

Manufacturer

- "bcd", the manufacturer's name code and year of manufacturer are marked on the top of the receiver ring.
- "bcd" is the code for "GUSTLOFF WERKE" in Weimar.

Action

- turn bolt action.

Serial Number

- the serial number is marked on the left front side of the receiver/frame.
- the serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Shots

- non-detachable, internal, 5 shot magazine.

Other Markings

- the year of manufacture appears on the receiver ring below the manufacturer's code as either the last two digits or the last digit of the year.

Remarks

- this rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod. 98" or "98" is marked on the left side of the receiver/frame.
- code "byf" rifles were manufactured from late 1940 to 1945.
- this rifle is mechanically identical to the Gewehr 1898, it differs in length, has a scalloped recess in the stock for the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98K was the standard issue rifle of the German Army in World War II.

Manufacturer

- "byf", the manufacturer's code is marked on the top of the receiver ring above the year of manufacturer.
- "byf" is the code for "MAUSER WERKE AG" in Oberndorf a/N.

Action

- turn bolt action.

Serial Number

- appears on the left front end of the receiver.
- serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Shots

- non-detachable, internal magazine.

Other Markings

- rifles manufactured between 1941 and 1945 are marked with only the last two digits of the year of production on the receiver ring.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver as "Mod. 98" or "98".
- the code "S/243" appears on the top of the receiver ring.
- the code "S/243G" indicates the item was manufacture in 1935.
- the code "S/243" was manufactured 1936 to 1938.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name appears in code on the receiver ring as svw.
Action	- manually operated, bolt action, repeating rifle.
Serial Number	- Appears on the left front end of the receiver. Serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.
Shots	- non-detachable, internal, 5 shot magazine.
Other Markings	- The year of manufacture appears on the receiver ring below the manufacturer's code as the full year in four numbers. 1935 does not show on the receiver ring of those rifles made in that year but is represented by the letter G in S/243G on the top of the receiver ring.
Remarks	- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98K was the standard issue rifle of the German Army in World War II.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles.
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver/frame as "Mod 98" or "98".
- the rifles with the code "ce" were manufactured from 1940 to 1944 inclusive.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name appears on the receiver ring as the code "ce".
Action	- manually operated, bolt action, repeating rifle.
Serial Number	- appears on the left front end of the receiver/frame. - serial number includes a letter prefix or suffix, except for the first 9999 firearms made in each year which have no letter suffix.
Shots	- non-detachable, internal, 5 shot magazine.
Other Markings	- the year of manufacture appears on the receiver ring below the manufacturer's code as the last two digits of the year only.
Remarks	- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod 98" or "98" may be marked on the left side of the receiver/frame.
- rifles marked "S/147K" were manufactured in 1934.
- rifles marked "S/147G" were manufactured in 1935.
- rifles marked "S/147" were manufactured from 1936 to 1938.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's code "S/147" is marked on the top of the receiver ring. - "S/147" was the code for "J.P. SAUER und SOHN GEWEHRFABRIK" in Suhl.
Action	- manually operated, turn bolt action, repeating rifle.
Serial Number	- the serial number is marked on the left front side of the receiver/frame. - the serial number may includes a letter suffix. - the first 9999 firearms made in each year which have no letter suffix.
Shots	- non-detachable, internal, 5 shot magazine.
Other Markings	- the year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits. 1934 and 1935 do not show on the receiver ring of those rifles manufactured in those years but are represented by the letter K in S/147K for 1934, and the letter G in S/147G for 1935.
Remarks	- this rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver as "Mod 98" or "98".
- rifles with the code "660" were manufactured in 1939 and 1940.

Manufacturer

- the manufacturer's name appears on the receiver ring as the code "660".

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number
- serial number is marked on the left side of the receiver ring.
- serial number may includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Shots
- internal box magazine is usually top loaded by a stripper clip holding five cartridges.

Other Markings
- The year of manufacture appears on the receiver ring below the manufacturer's code as the full year showing four digits.

Remarks
- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II. Historically Austria was part of the greater German Reich from Anschlus of 1938 until the capitulation of Nazi Germany in 1945.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation appears on the left side of the receiver/frame as "Mod 98" or "98" except on those rifles manufactured in 1945 where the model designation appears on the top of the receiver ring as "Mod.98".

Manufacturer

- the manufacturer's name appears on the receiver ring as the code "dou".

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver ring.
- serial number may includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.

Shots

- internal box magazine is usually top loaded by a stripper clip holding five cartridges.

Other Markings

- The year of manufacture appears on the receiver ring below the manufacturer's code as the last two digits of the year. In 1945 the manufacturer's code is immediately followed by 45. (eg. dou.45)

Remarks

- This rifle is mechanically identical to the Gewehr 1898, it differs in length, has scalloped recess in stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II. The Germans recognized the factory represented by the code dou as Waffen Werke Bystrica and considered it a subsidiary of Waffen Werke Brunn. For the purpose of the FRT dou is considered a facility of the (larger) Waffen Werke Brunn.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Mod. 98" is marked on the top of the receiver ring.
- "98K" rifles with the manufacturer's code "swp" were manufactured in 1945 only.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SWP 45" is marked on the top of the receiver ring. - "SWP" was the code for Waffen Werke Brunn AG.
Action	- turn-bolt design.
Serial Number	- serial number is marked on the left side of the receiver ring. - serial number may includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.
Shots	- internal box magazine is usually top loaded by a stripper clip holding five cartridges.
Other Markings	- the year of manufacture appears on the receiver ring immediately following the manufacturer's code. (eg. swp 45)
Remarks	- this rifle is mechanically identical to the Gewehr 1898, it differs in length, has a scalloped recess in the stock under the turned down bolt handle, a sling cut out in the buttstock a wider barrel barrel band with an integral sling loop on the left side and a tangent rear sight. The 98 K was the standard issue rifle of the German Army in World War II.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm.
- "Mod.98" is marked on the top of the receiver ring.
- manufactured between August 1945 and May 1946.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "svw MB", the manufacturer's code is marked on the top of the receiver ring. - "svw MB" is the manufacturer's code assigned to "MAUSER WERKE AG" at Oberndorf a/N.
Action	- turn bolt operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - observed serial number had a letter suffix.
Shots	- internal box magazine.
Remarks	- This rifle is a German 1898 K Carbine produced at the Mauser Werke plant in Oberndorf, Germany during the period 1945 to 1946 when that factory was under the auspices of the French occupation forces. It is identical to the World War II German rifle in all respects except for the lack of a bayonet attachment bar (in its place a staching rod), a sling attachment bar on the left side of the buttstock and barrel bands retained by wood screws.

Notes

Make

- the make is not marked on the firearm.

Model

- the model is not marked on the firearm; this is a version of the Mauser 98K manufactured by Fabrique National on contract for Israel, during the early 1950s.
- these rifles bear an Israeli Defence Forces crest (laurels, wrapped around a vertical sword, in the middle of a stylized Star of David) on top of the receiver, along with "7.62" calibre markings.
- these rifles should not be confused with the many CONVERSIONS of captured and surplus Mauser rifles that were rebuilt to 7.62 NATO, and which bear their original manufacturer markings (usually Czech or wartime German).
- features include: blued finish; open adjustable sights; under-barrel bayonet lug; "H"-style nosecap; barrel band; sling swivels on the left side of the rifle, attaching through a cut-out at the rear of the wrist; steel butt-cap.

Manufacturer

- the manufacturer may or may not be marked on the firearm.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the receiver/frame.

Shots

- internal box magazine.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- the model designation does not usually appear on the firearm, however the original markings may be marked on the left side of the receiver/frame. - a refurbished and rebarreled (from 8MM MAUSER to 7.62MM NATO) World War II era 98 K Carbine.
Manufacturer	- the manufacturer's (refurbisher's) name does not appear on the firearm. - the original manufacturer's name may be marked on the side of the receiver/frame.
Action	- turn-bolt design.
Serial Number	- the serial number should be located on the left side of the receiver ring.
Calibre	- the calibre designation is normally marked on the top of the receiver ring and also on the buttstock.
Shots	- internal box magazine.
Other Markings	- the original manufacturer's markings may be marked on the receiver ring of some specimens and may also bear the coat of arms of the Republic of Israel.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- model designation is not marked on this firearm.
- this rifle is basically an identical copy of the German 98K Mauser as made for the Israeli Government by FN circa early 1950's.
- features include: Mauser action; turn bolt operated; single shot only; scalloped recess in the stock under the turned down bolt handle; sling cut out in the buttstock; large front barrel band with an integral sling loop on the left side; tangent rear sight; may have a protective hood over the front sight; blued finish.

Manufacturer

- known example had the FN name marked on the left side of the receiver/frame as, "FAB.NAT.D'ARMES DE GUERRE HERSTAL-BELGIQUE".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- serial number is usually marked on the right side of the receiver ring. - known example had a four digit number without prefix or suffix.
Calibre	- known example had the calibre designation marked on the right side of the butt stock as, "0.22".
Other Markings	- the Israeli National Crest is marked on the top of the receiver ring. - Belgian proof marks are apparent on the barrel and/or receiver/frame.

- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- the model designation does not appear on the firearm however the original model designation appears on the left side of the receiver/frame. - marked in Norwegian on a milled flat along the left side of the receiver ring: "HAER" (Army) or: "FLYs" (Airforce). - these rifles are reworked German Military rifles, model Karbiner 98 kurtz (K 98k), that have been modified to handle the current cartridge of the Norwegian Armed Forces, 30-06 SPRG or 7.62 NATO ammunition. (to accommodate clip loading of the longer 30-06 SPRG cartridge, a semi-circular notch has been put in the rear of the receiver ring.) - the receiver/frames utilize the Mauser M98 configuration, and may be variously marked with German Military manufacturers' names or codes, or any of Belgian (M24), Czechoslovakian (VZ24), Yugoslav (M24), or Polish (29/40) markings. The original manufacturer's markings and model designation were not removed during the refurbishing process.
Manufacturer	- the manufacturer's (refurbisher's) name does not appear on the firearm.
Serial Number	- appears on the left side of the receiver ring with the abbreviation "HAER" (army) or "FLYS" (airforce). - observed examples consisted of five digits.
Calibre	- the calibre designation appears on the breech of the barrel as "KAL 7.62mm".
Shots	- flush integral box magazine.
Other Markings	- original manufacturer's markings appear on the receiver ring.
Remarks	- this is nothing more than a refurbished and rebarreled (from 8MM MAUSER to 30-06 SPRG or 7.62MM NATO) World War II, German 98 K Carbine.

FRT Report

Firearm Reference Number (FRN): 53956
Make: Mauser
Model: 98K-ZF41

Summary

Make:	Mauser
Model:	98K-ZF41
Manufacturer:	Mauser (ar)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
53956 - 1	8MM MAUSER	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the 98K-ZF41 is variant of the standard 98K German service rifle.
- the addition of a removeable optical sight mounted on the barrel to aid in precision shooting is the defining feature of this firearm.
- the complete model designation does not appears on the receiver/frame, what does appear on the left side of the receiver/frame is "Mod.98" or "98".
- the letters ZF41 appear on the scope only.

Manufacturer

- the manufacturer's name appears on the receiver ring as the code "ar".
- some of these rifles may have a second code marked on the barrel.
- the year of manufacture is marked below the manufacturer's code of "ar".

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- appears on the left front of the receiver. - serial number includes a letter suffix, except for the first 9999 firearms made in each year which have no letter suffix.
Shots	- internal magazine.

197862 - 4	22 PELLET	1	495	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is marked on top of the barrel.
- The company logo is marked on the receiver/frame.

Model

- Introduced in 2016.
- "AM03" is marked on top of the barrel.
- Features include: steel break barrel receiver/frame with front and rear sights; one-piece, adjustable cheek-piece, synthetic stock which comes in variety of colour options.
- Overall length with a 495 mm (19.5 inches) barrel is 1160 mm (45.7 inches), average weight is 3.6 kg (7.9 lbs).

Manufacturer

- The manufacturer is not marked on the firearm.

Action

- Break open action.

Serial Number

- The serial number is usually marked on the left side of the receiver/frame.
- The serial number rationalization is unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- The calibre designation is usually marked on the barrel.

Canadian Law Comments

- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "MAUSER", "SYSTEM MAUSER", or "WAFFENFABRIK MAUSER" is usually marked on the firearm.
Model	- manufactured from 1896 to 1936. - "C96 Broomhandle" is not marked on the firearm. - "C96" is derived from the abbreviation for "Construction 1896" - "Broomhandle" is derived for the popular name for the tubular-shaped grip. - "C96 Broomhandle" is unlike most semi-automatic pistols, the magazine is not inserted into the grip, but is located forward of the trigger. - "C96 Broomhandle" reloading is via a "charger clip". - "C96 Broomhandle" pistols, the original versions were "Safe" when the safety lever was down. - "C96 Broomhandle" pistols, later versions, this is reversed and the pistol is on "Safe" when the safety lever is up. These new safeties can be recognised by the intertwined letters "NS" engraved on the safety lever. This represents "Neues Sicherung" (New Safety).
Manufacturer	- "WAFFENFABRIK MAUSER" and "OBERNDORF A/N" was observed marked on the barrel. - "WAFFENFABRIK MAUSER" and "OBERNDORF A NECKAR" was observed marked on the side of the receiver/frame.
Serial Number	- serialization started at 1 and continued, skipping entire number blocks. An exception to this are "contract" pistols. - the full serial number will be found stamped on any one or combination of the following locations: the left side of the barrel ahead of the ejection port, the top of the rear grip strap and/or the bottom of the magazine floor plate. - it is possible to have serial number duplication in this family of firearms.
Shots	- integral box magazine. - detachable box magazine was introduced in 1930.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- make is not marked on the firearm.

Model

- introduced in 2014.
- "WAFFENFABRICK" over "C96" is marked on the right side of the firearm.
- this is a very detailed air-pistol version of the original Mauser C96 Broomhandle semi-automatic handgun replicating both the size and weight of the original model.
- "C96" is derived from the abbreviation for "Construction 1896"
- "Broomhandle" is derived for the popular name for the tubular-shaped grip.
- features include: fixed front sight and adjustable rear sight; magazine housing is part of the trigger guard; safety on the left side; magazine release button on the right side; ring hammer; lanyard ring.
- overall length is 292mm (11 1/2"), weight is 793gr (1.75lb).

Manufacturer

- may be marked on the firearm.

Action

- CO_2 powered.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Calibre

- calibre is marked on the right side of the firearm.

Shots

- detachable box magazine.

Notes

Make

- the make designation is marked on the top of the receiver/frame as:
"WAFFENFABRIK" over "MAUSER" over "OBERNDORF A/N".

Model

- C96 Broomhandle models were manufactured from 1896 to 1936.
- Flatside, Slab Side or Slab-Side was introduced in 1899.
- the "flatside" describes this Model variant. Instead of the usual machined recessed panels on the sides of the frame, the frame is manufactured with completely flat sides.
- may also be known as "Slab-side".

Manufacturer

- the manufactuer designation is marked on the top of the receiver/frame as:
"WAFFENFABRIK" over "MAUSER" over "OBERNDORF A/N".

Serial Number

- will be below 1000 for the early production and between 20000 and 30000 for the standard production.

28904 - 2	9MM MAUSER AUTO	10	140	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- the model takes its name from the prominent use of the MAUSER "Banner" stamped on top of the chamber.
- manufactured in 1906 or 1907.
- approximately 10,000 pistols were produced.
- in addition to the serial number, many exhibit a 2-4 digit property number.

Serial Number

- range: from approximately 78000 to 93000.
- is located on the left side of the chamber and on the top of the rear grip strap.
- in addition to the serial number, many exhibit a 2-4 digit property number.

Notes

Model

- manufactured circa 1912.
- a small contract was allowed for approximately 1,000 pistols by Persia (now Iran). These pistols are identified by the engraved Perian crest on the frame's left rear-most panel. This crest consists of a crowned, sword-bearing lion.
- further identification is by the Persian proofmark of a rising sun, located on the left side of the frame directly behind the chamber.

Serial Number

- serial number range was from 154,000 to 155,000.

Notes

Model

- C96 Broomhandle models were manufactured from 1896 to 1936.
- C96 Broomhandle 1930 was manufactured from 1930 to 1936.
- available with or without a removable magazine.
- the 1930 is more of a collectors variant than an official factory designation. These pistols normally display the MAUSER trademark "banner" on the left side of the receiver/frame, usually in the rear-most recessed panel.

Serial Number

- some specimens may have the complete serial number marked on barrel assembly only.
- there is also a possibilty that some specimens will have a partial or complete serial number marked on top front of receiver, only visible when firearm is disassembled.
- Range: from approximately 730000 to 900000.

Shots

- internal magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- the make designation is marked on the right side of the receiver/frame as "WAFFENFABRIK MAUSER" over "OBERNDORF a NECKAR" and over the chamber as "WAFFENFABRIK" over "MAUSER" over "OBERNDORF A/N" or a variation thereof.
Model	- model designation is not marked on the firearm. - C96 Broomhandle models were manufactured from 1896 to 1936. - manufactured pre World War I and manufactured after World War I from 1920 to the 1930s to meet the requirements of the Russians and various police agencies. The Versailles Treaty forbade the manufacture of small arms in calibre 9MM or with barrel lengths greater than 100mm. - the model derives its name from the word "Bolshevik", hence "Bolo". - features include: large or small ring hammer; wood or plastic squared grip panels (smaller than the standard C96); lanyard ring; ladder type adjustable rear sight graduated from 50 to 1000 meters; shoulder stock slot at rear of grip and blued finish.
Manufacturer	- the manufacturer's name and address are marked on the right side of the receiver/frame as "WAFFENFABRIK MAUSER" over "OBERNDORF a NECKAR".
Action	- recoil operated.
Serial Number	- the serial number is located on the rear of the receiver/frame below the hammer and above the grip and is repeated on the upper assembly and on the left side of the slide/barrel at the breech. - the serial number ranges are from approximately "29,000 to 44,000" and "440,000 to 800,000".
Shots	- top loading, internal box magazine.

Notes

Make

- "SYSTEM MAUSER", or "WAFFENFABRIK MAUSER" is usually marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Model designation is not marked on the firearm. - Manufactured from 1896 to circa 1900. - This pistol derives its name from the abbreviation for "Construction 1896" - hence "C96". The popular name of "broomhandle" is due to its almost tubular-shaped grip. - "Conehammer" refers to the consecutive stacked ring construction of the grasping grooves on the hammer. Later versions incorporated a "Large Ring" hammer and later a "Small Ring" hammer. - Unlike most semi-automatic pistols, the magazine is not inserted into the grip, but is located forward of the trigger. - Reloading is via a "charger clip". - The original pistols were "Safe" when the lever was down. On later pistols this is reversed and the pistol is on "Safe" when the lever is up. These new safeties can be recognised by the intertwined letters "NS" engraved on the safety lever. This represents "Neues Sicherung" (New Safety).
Manufacturer	- "WAFFENFABRIK MAUSER" and "OBENDORF A/N" may be marked on the barrel. - "WAFFENFABRIK MAUSER" and "OBENDORF A NECKAR" may be marked on the left side of the receiver/frame.
Action	- Recoil operated.
Serial Number	- Serialization started in the low three digits and continued to five digits skipping entire number blocks. An exception to this are "contract" pistols. - The full serial number will be found stamped on any one or combination of the following locations: the left side of the barrel ahead of the ejection port, the top of the rear grip strap and/or the bottom of the magazine floor plate, on the hammer assembly and internally on the side of the follower or on the top of the receiver/frame under the barrel assembly. - Possible to have serial number duplication in this family of firearms.
Shots	- fixed box magazine.
Canadian Law Comments	- Some examples of this model, when manufactured prior to 1898 may be considered Antique in Canada.
Other Markings	- "NOT ENGLISH MAKE" was marked on the right side of the barrel assembly of an observed example.

Notes

Make

- make is not marked on the firearm.

Model

- model designation is not marked on the firearm.
- up to 8000 units produced between 1925 and 1932.
- characterized by Chinese markings on both left and right rear sides of the receiver/frame. Markings will usually indicate the manufacturer and the date of production.
- the overall dimensions are larger than the standard C96 model in order to accommodate the larger calibre.
- this pistol derives its name from the abbreviation for "Construction 1896", hence "C96". The popular name of "broomhandle" is due to the odd shape of the grip.
- unlike most semi-automatic pistols, the magazine is not inserted into the grip, but is located forward of the trigger.
- reloading is via a top loading "charger clip" but a box magazine may be encountered.
- other features include: blued finish; tapered upper barrel assembly; stepped, block front sight and adjustable tangent rear sight; manual lever safety located at the left rear of the receiver/frame; small ring, exposed hammer; horizontally ringed wooden grips; lanyard ring.
- may be encountered with a wood, combination shoulder stock/holster.

Manufacturer

- arsenal may be marked on the side of the receiver/frame in Chinese characters.
- the Shansei and Hanyang arsenals produced copies of the Mauser C96 either under contract or for commercial sales.

Action

- recoil operated.

Serial Number

- serial number is usually marked on the left side of the barrel and/or barrel extension in either English or Chinese characters.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - internal box magazine located forward of the trigger.

Notes

Make

- "MAUSER", "WAFFENFABRIK MAUSER", "OBERNDORF A/N" and/or "OBERNDORF A NECKAR" is usually marked on the firearm.
- "MAUSER" logo is usually marked on the receiver/frame.
- "C96 Broomhandle Copy" made in China generally have wrongful spelling, inverted letter and/or irregular font size in their markings.

Model

- The model designation is not marked on the firearm.
- "C96 Broomhandle Copy" stands for "Construktion 1896" and "Broomhandle" after its rounded wood grip panels that resembled a broom handle end.
- "C96 Broomhandle Copy" of this listing has no Chinese marking on the firearm.
- "C96 Broomhandle Copy" made in China usually have wrongful spelling, inverted letter in their markings.
- "C96 Broomhandle" in China was nicknamed the "Box Cannon" because of its rectangular internal magazine and it could be holstered in its wooden box-like detachable stock.
- Features include: inverted "V" front with an adjustable "V" notch tangent rear with graduations out to 1,000 meters; top loading magazine by single round or by using stripper clip; manual lever safety located at the left rear of the receiver/frame; small ring, exposed hammer; horizontally ringed wooden grips; lanyard ring.

Manufacturer

- The manufacturer is not marked on the firearm.

Action

- Recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- The serial number is marked on top of the rear grip strap.
- The serial number on some examples were not marked on top of the rear grip strap.
- The serial number is repeated on the left side of the barrel ahead of the ejection port.
- The serial number is also completely or partially repeated on a multitude of parts.

Calibre

- The calibre designation is not marked on the firearm.

Shots

- Integral box magazine

Notes

Make	- "Waffenfabrik Mauser" marked on right side of frame and may also be marked on top of chamber.
Model	- model designation not marked on the firearm. - features include: integral magazine located ahead of the trigger guard; loading accomplished by retracting the bolt and using a stripper clip; adjustable tangent rear sight; wooden grips; lanyard ring; manual safety located at rear of receiver/frame on the left; exposed hammer. - this model is usually identifiable by the numeral "9" carved into the wood grip and filled in with red paint. - over 150,000 were manufactured for the German military from 1914 to 1918.
Manufacturer	- "Waffenfabrik Mauser" marked on right side of receiver/frame.
Serial Number	- within its own series, starting at 1 or 100. - numeric serial number located on the top of the rear grip strap and repeated on the left side of the barrel.
Shots	- integral magazine.
Other Markings	- most pistols will exhibit the letter "W" under a crown and/or the Prussian Eagle stamp denoting Kaiser Wilhelm and Prussian acceptance, respectively.

FRT Report

Firearm Reference Number (FRN): 28797
Make: Mauser
Model: C96 Broomhandle Schnellfeuer

Summary

Make:	Mauser
Model:	C96 Broomhandle Schnellfeuer
Manufacturer:	Mauser
Level:	Converted Automatics
Type:	Handgun
Action:	Converted Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
28797 - 1	7.63MM MAUSER	10	140	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
28797 - 2	7.63MM MAUSER	20	140	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- "MAUSER" logo is usually marked on the left side of the receiver/frame.
- "WAFFENFABRIK MAUSER", "OBERNDORF A. NECKAR" or "WAFFENFABRIK MAUSER", "OBERNDORF A. NECKAR" and "D.R.P.u.A.P." is usually marked on the right side of the receiver/frame.
- "WAFFENFABRIK MAUSER OBERNDORF A/N" is usually marked on the upper barrel flat.

Model

- model designation is not marked on the firearm.
- MAUSER developed a selective-fire model of the "C96", circa 1930.
- C96 Broomhandle Schnellfeuer/Reihenfeuer was in response to the popularity of such look-alikes as the ASTRA and ROYAL pistols.
- Mauser's first patent for the C96 Broomhandle Schnellfeuer pistol was applied for in Germany on November 5th, 1930 by Josef Nickl.
- Mauser's second patent for the C96 Broomhandle Schnellfeuer pistol was applied for in Germany on April 13th, 1932 by Karl Westinger.
- C96 Broomhandle Schnellfeuer is easily identified by the selective-fire lever on the left side of the receiver/frame.
- "N" denotes semi-automatic, "R" denotes full automatic.
- C96 Broomhandle Schnellfeuer was originally available with a fixed/integral box magazine and then with a removeable box magazine.
- C96 Broomhandle Schnellfeuer with fixed box magazine may be known as the C96 Broomhandle 1930 Schnellfeuer.
- C96 Broomhandle Schnellfeuer with detachable box magazine may be known as the C96 Broomhandle 1932 Schnellfeuer.
- C96 Broomhandle 1932 Schnellfeuer were sold in North America by Stoeger as the "Model 712".
- C96 Broomhandle Schnellfeur is sometimes found with Chinese characters.
- crude Chinese copies were also made.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "MAUSER" logo is usually marked on the left side of the receiver/frame. - "WAFFENFABRIK MAUSER", "OBERNDORF A. NECKAR" or "WAFFENFABRIK MAUSER", "OBERNDORF A. NECKAR" and "D.R.P.u.A.P." is usually marked on the right side of the receiver/frame. - "WAFFENFABRIK MAUSER OBERNDORF A/N" is usually marked on the upper barrel flat.
Action	- no longer capable of full automatic fire.
Serial Number	- serial number rationalization unknown. - contracts for differing nations and organizations are reported to have had their own serial number rationalizations resulting in duplications of serial numbers. - a partial serial number is marked on top front of receiver/frame, in front of the magazine well but is not visible unless firearm is disassembled. - partial serial numbers may be found marked on several other componants.
Shots	- 10 shot fixed/integral box magazine, or - 10 or 20 shot detachable box magazine.
Canadian Law Comments	- CC PART III, S. 84, Regulations appended thereto: - PART 4 "Prohibited Devices"; Paragraph 3.; "The Former Cartridge Magazine Control Regulations"; - (1) Any Cartridge Magazine - (a) that is capable of containing more than five cartridges of the type for which the magazine was originally designed and that is designed or manufactured for use in - (2) Paragraph (1) (a) does not include any cartridge magazine that - (c) was originally designed or manufactured as an integral part of the firearm known as the Mauser Selbstladepistole C96 ("broomhandle"), or any variant or modified version of it; including the model 1895, Model 1896, Model 1902, Model 1905, Model 1915, Model 1930, Model 1931, M711 and M712 or
Other Markings	- a partial serial number is marked on top front of receiver/frame, in front of the magazine well but is not visible unless firearm is disassembled.
Remarks	- C96 Broomhandle Schnellfeuer is easily identified by the selective-fire lever on the left side of the receiver/frame. - "N" denotes semi-automatic, "R" denotes full automatic.

147284 - 2	7.63MM MAUSER	10	368	Restricted CC 84(1) "restricted firearm" para. (b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SYSTEM MAUSER", or "WAFFENFABRIK MAUSER" is usually marked on the firearm.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this record is ONLY for specific versions of the C96 Carbine made with either a full rifle stock (where the barrelled action drops into the stock, as with other rifle actions), or where the receiver/frame is slotted horizontally, in order to allow a detachable shoulder-stock/holster to be slid onto the frame from the rear; this second version is NOT to be confused with the more common "broomhandle" style of pistol, where a slot in the backstrap of the pistol will accept a detachable shoulder-stock/holster. In the rifle version of this firearm, the entire "broomhandle" shape of the grip is milled away, leaving a horizontal T-shaped lug that matches up to a horizontal slot in the grip-frame attached to the stock.
- features include: blued finish; open adjustable sights; either a full rifle-style stock (less common), or a two-piece stock with an L-shaped forearm and a detachable buttstock that resembles the "broomhandle" stock, but slides horizontally onto the bottom of the grip-frame.

Manufacturer

- "WAFFENFABRIK MAUSER" and "OBENDORF A/N" may be marked on the barrel.
- "WAFFENFABRIK MAUSER" and "OBENDORF A NECKAR" may be marked on the left side of the receiver/frame.

Action

- recoil-operated.

Serial Number

- numbered on the receiver/frame.

Shots

- fixed internal box magazine, fed via stripper clips.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

28908 - 3	7.63MM MAUSER	10	413	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SYSTEM MAUSER", or "WAFFENFABRIK MAUSER" is usually marked on the firearm.

Model

- this is an extremely rare version of the 1896 Mauser "Broomhandle" pistol.
- MAUSER manufactured a large number, and variety, of the C96 Carbine.
- these firearms will often have the name of the retailer engraved on the receiver/frame or barrel which could be mistaken for the manufacturer's name.
- most carbines were produced prior to the 1930's.

Manufacturer

- "WAFFENFABRIK MAUSER" and "OBENDORF A/N" may be marked on the barrel.
- "WAFFENFABRIK MAUSER" and "OBENDORF A NECKAR" may be marked on the left side of the receiver/frame.

Action

- recoil-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serialization was within the standard number ranges, although most carbines were produced prior to the 1930's.
Barrel	- carbines can be found with a variety of barrel lengths.
Calibre	- some additional calibres may be encountered, however, the factory produced the carbines in calibre 7.63MM MAUSER almost exclusively.
Shots	- usually has a fixed box magazine located in front of the triggerguard.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- military training rifle.
- resembles the Mauser K98k military rifle.
- "Deutsches Sportmodell 34" was manufactured by approximately 15 other manufacturers.

Manufacturer

- "JGA" in a circle, with a semi-cirular "THURINGEN" under it, is marked on the top of receiver.

Action

- bolt-operated single-shot.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- found on barrel.
- numbers seen have no prefix or suffix and range from 5,741 to 8,741
- an estimated production of less than 3,000 rifles.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- this was a small bore military training rifle.
- resembles the Mauser K98k military rifle.
- the "Deutsches Sportmodell 34" was manufactured by approximately 15 other manufacturers.

Manufacturer

- "BSW SUHL" is usually marked on the receiver ring.
- "BSW" denotes Berlin-Suhler Waffenfabrik und Fahrzeugwerke.

Action

- turn bolt-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- found on barrel.
- numbers seen have no prefix or suffix and range from 128,369 to 191,705
- an estimated production of less than 6,000 rifles.

- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- military training rifle.
- resembles the Mauser K98k military rifle.
-"Deutsches Sportmodell 34" was manufactured by approximately 15 other manufacturers.

Manufacturer

- "MENZ" logo is marked on top of the receiver.
- poor quality finish and crudly made.
- this firm may have been manufacturing other metal parts and switched to manufacturing rifles as a political move.

Action

- bolt-operated single-shot.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- found on right front of receiver.
- numbers seen have no prefix or suffix and range from 98 to 4,223.
- 45,000 were believed to have been manufactured.

Calibre

- 5.4MM marked on left side of barrel.

Firearm Reference Number (FRN): 127190
Make: Mauser
Model: Deutsches Sportmodell 34

Summary

Make:	Mauser
Model:	Deutsches Sportmodell 34
Manufacturer:	Waffenstadt Suhl
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127190 - 1	22 LR	1	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "Deutsches Sportmodell" may be marked on the barrel.
- this is a military training rifle.
- resembles the Mauser 98K military rifle.
- the "Deutsches Sportmodell 34" was manufactured by many other manufacturers.

Manufacturer

- year of manufacturer, "Waffenstadt", the Suhl gunmakers shield and "Suhl" are usually marked on the receiver ring.
- "Waffenstadt Suhl" was a cooperative group of firearms manufacturers. J.P. Sauer & Sohn was a major supplier to this group.

Action

- turn bolt operated, single-shot.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number may be marked on the left side of the receiver/frame and may be repeated on the barrel.
- observed serial numbers have been as low as 324 and the highest number was 10,779.
- observed serial numbers did not have a letter prefix or suffix..
- estimated 11,000 rifles were manufactured.

Notes

Make

- "MAUSER" banner is marked on the top of the receiver/frame.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- the model designation is not marked on the firearm.
- manufactured from 1930 to 1933.
- features include: round barrel; bolt operated; solid top grooved receiver with gas relief port; slide or rotary safety on the left rear side of the receiver; adjustable trigger, one piece stock with checkered pistol grip with or without grooved fore-end, tangent adjustable rear sight or telescopic sight mount.

Manufacturer

- "MAUSER-WERKE A.-G. OBERNDORF A.N." is marked on the left side of the receiver/frame.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is located on the left front side of the receiver/frame. - serial number range from 77921 to 133083.
Calibre	- marked on the left side of the barrel: "PATRONE 22 LONG RIFLE" "459", serial number and BUG/Crown proofs marks.

Notes

Make

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "FR7" is marked on the left side of the receiver/frame.
- this rifle is a rework of the Spanish Model 1916 Short Rifle.
- converted in the 1950s.
- conversion entailed rebarreling from the original 7MM MAUSER to 7.62MM NATO; shortening the stock; fitting a rotary aperture rear sight to the receiver bridge; a hooded front sight and muzzle brake to the barrel.
- has a distinctive appearance imparted by the presence of an exposed tube under the barrel resembling the gas cylinder of a semi automatic rifle.

Manufacturer

- the manufacturer's name is marked on the top of the receiver ring.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left side of the receiver/frame. - the model designation "FR7" is marked just in front of the serial number.

Notes

Make

- "Mauser" is not usually marked on the firearm.

Model

- this model was made by the conversion of a 1898 Mausers military rifle in the early 1920's.
- "Germany" is usually stamped on the receiver ring.
- some Geha stocks are converted from Mauser 98, service issue stocks, some observed specimens have been seen manufactured specially from a very light wood of unknown type with a rubber butt plate, the common characteristic is a circular sheet metal medallion or carved wood emblem bearing the name "GEHA" placed in what was formerly the firing pin disassembly device in the military buttstock or inlet into the wood on the side of the commercial stock.

Manufacturer

- the manufacturer's name is not marked on the firearm.

Action

- turn-bolt design.

Serial Number

- one sample observed featured the serial number marked on the underside of the receiver/frame ring and on the left side of the firearm and consisted of four digits.

Shots

- integral box magazine.
- Geha has a two shot capacity with one round in the magazine and one round in the chamber.

- "MAUSER" is not marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- this is a single shot, training version of the German "98k Carbine".
- KKW is an acronym for Kleinkaliber-Wehrsportgewehr (small calibre military and sporting rifle).

Action

- bolt action.

Serial Number

- serial number stamped on the receiver, usually with letter prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "MAUSER" and "Made in Germany" are marked on the side of the receiver/frame.
- "Original" and "MAUSER" inside a banner may be marked on the barrel.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "M 03" is marked on the receiver/frame and barrel. - introduced in 2005. - features include: round or fluted tapered barrel with or without iron sights; iron sights consist of a windage adjustable blade rear sight and an elevation adjustable ramped bead front sight; double square bridge receiver/frame prepared for a double square scope mount; turn bolt action; safety system for manual cocking located on the rear of the bolt; single stage or adjustable set trigger; one piece synthetic stock with black or orange checkered rubber inserts or oil finished walnut Monte Carlo stock with checkered forearm and pistol grip; sling swivels; magazine lock; interchangeable barrel and bolt head system. Available in a left hand version. - overall length is from 991 mm (39") to 1168 mm (46"), average weight is from 3.52 kg (7.75 lbs) to 4.4 kg (9.75 lbs).
Manufacturer	- manufacturer's name is not marked on the firearm. - "Made in Germany" are marked on the rear right side of the receiver/frame. - in April 2001, SIG-Blaser purchased the rights for Mauser sporting rifles, in 2005 Blaser in Isny began manufacturing these rifles.
Action	- turn-bolt design.
Serial Number	- serial number is marked on the left side of the receiver/frame before the chamber.
Barrel	- 470mm (18 1/2") barrel advertised on the M03 Trail is for the complete barrel assembly muzzle to end of barrel (actual barrel length from muzzle to end of the chamber is 450MM).
Calibre	- 520 mm, 540 mm and 560 mm barrels are available for standard calibers. - 600 mm and 620 mm barrels are available for magnum calibers.
Shots	- detachable box magazine.
Other Markings	- left handed version have an "L" stamped on the bolt head alongside the marking for caliber group.
Remarks	- available in either left handed version with reversed cocking safety system and left handed stock or with right handed action and left handed stock.

- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 2018 as a rebranding of the "German Sport Guns GSG-15" rifle.
- "MAUSER" is marked on the left side of the receiver/frame.
- "M15" is marked on the right side of the receiver/frame.
- "M15" resembles with near precision an ISSC model MK22, 22LR rifle.
- "M15" has a two piece split receiver/frame.
- features observed: muzzle flash hider; round barrel inside a barrel shroud; 400mm top rail and three, 170mm hand guard rails for accessories; ambidextrous safety lever; black and color furniture, synthetic stock which both folds and telescopes, adjustable check piece; left or right side cocking lever.
- overall length with a 415 mm barrel (16 3/8") is 913 mm with a fully extended butt stock, and 689 mm with the butt stock folded, and the average weight is 3.400 kg (7.5 lbs).

Manufacturer

- "MADE IN GERMANY" is marked on the left side of the receiver/frame.
- "German Sport Guns" also use the acronym "G.S.G".
- "German Sport Guns" was founded in 2002.
- "German Sport Guns" logo is an oval over a circle with "G.S.G" at it centre.
- "G.S.G" and "Made in Germany" are usually marked on the firearm.
- "German Sport Guns" is a manufacturer of semi-automatic firearms and airsoft versions of popular weapons.
- "German Sport Guns" was located in Arnsberg, and now Ense-Höingen Germany.

Action

- Blowback operated.

Serial Number

- serial number was marked on the right side of the receiver/frame just below the ejection port.
- serial number is repeated on the breech block, barrel and trigger mechanism on one example.
- serial number of referenced examples consisted of a two letter prefix (BL) and five numbers.

Calibre

- "cal.22LR HV" was observed marked on the right side of the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- "WAFFENFABRIK MAUSER A.-G. OBERDORF A/N" or the "MAUSER" banner trademark or the Waffenfabrik Mauser monogram of "WM" or "WFM" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- "MAUSER M18" is marked on the left side of the receiver/frame.
- introduced in 2018.
- features include: round tapered barrel without iron sights; double square bridge receiver/frame drilled for scope mount; turn bolt action; three position safety at rear right of bolt; one piece synthetic pistol grip stock with storage in the butt; sling swivels; blued finish.
- average weight is 3.0kg (6.6lbs).

Manufacturer

- "WAFFENFABRIK MAUSER A.-G. OBERDORF A/N" or the "MAUSER" banner trademark or the Waffenfabrik Mauser monogram of "WM" or "WFM" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Action

- turn bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a two letter prefix "LC" followed by six numbers.

Calibre

- calibre is marked on the left side of the barrel, forward of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- the make is not marked on the air gun; this is an air pistol reproduction of the Mauser M712 selective-fire "Broomhandle" pistol.

Model

- "WAFFENFABRIK" over "M712" is marked on the right side of the firearm.
- this is a very detailed air-pistol version of the original Mauser M712 Broomhandle selective-fire handgun replicating both the size and weight of the original model.
- "Broomhandle" is derived for the popular name for the tubular-shaped grip.
- features include: fixed front sight and adjustable rear sight; magazine housing is part of the trigger guard; smoothbore; safety on the left side; steel construction; magazine release button on the right side; slotted rear grip strap; ring hammer; lanyard ring.
- overall length is 304mm (12"), weight is 1.4 kg (3.1lb).

Manufacturer

- "UMAREX" is marked on the air gun..
- Umarex was established in 1972 as UMA Mayer & Ussfeller GmbH.
- UMA Mayer & Ussfeller GmbH acquired Reck Sportwaffenfabrik Karl Arndt.
- UMA was reorganized as "UMARECK" and finally as "UMAREX".
- Umarex is located in Arnsberg, Germany.
- Umarex purchased Walther in 1996.
- Umarex manufactures firearms, airguns, signal pistols, ammunition, soft air, optics and accessories.
- Umarex manufactures extremely detailed air-pistol versions of genuine handguns and rifles.
- Umarex also contracts other manufactures in China, Mexico, Spain, Taiwan and Turkey to produce firearms under various licensed trade marks.
- Umarex Sportwaffen GmbH & Company KG established a distribution company in North America called "UMAREX USA".
- Umarex USA acquired Ruag Ammotec USA the distributor of the RWS brand of airgun and acquired Crosman Corporation in 1997.
- Umarex distributes produces under the following trade names/trademarks: Ares, Beretta, Browning, Colt, Combat Zone, Elite Force, FN Browning, Hammerli, Heckler & Koch (HK), KWA, Legends, Magnum Research, Mauser, Makarov, Norica, Perfecta, PTS, PTSxKWA, RAM (Real Action Marker), Reck International, Ruger, RWS, Smith & Wesson (S&W), Tactical Force, Tokyo Soldier, Umarex, Walther, and Webley & Scott.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- CO2 powered. - does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial-numbered on the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- "MAUSER" banner and "MAUSER - WERKE Oberndorf GmbH" are usually marked on the left side of slide.

Model

- known example had no model designation marked on it.
- this pistol bears a very close resemblance to the Browning High Power and the FEG P9R.
- this firearm is manufactured in Hungary by FEG for the distributor Umarex who is licensed by Mauser to use the Mauser banner trademark and name.
- introduced 1992; importation discontinued 1993.
- double action, recoil operated, detachable box magazine, exposed hammer.
- thumb-actuated, swing-type safety lever is located on the rear left side of the slide.
- blued finish, hardwood grip plates.

Manufacturer

- manufacturer's name is not usually marked on this firearm.
- "FEG", "FEGYVER", "FEGYVERGYAR", "FEMARU", "FEMARU ES SZERSZAMGEPGYAR NV", "FEMARU FEGYVER ES GEPGYAR RT", "FFG", "FIREBIRD", "FROMMER", "HUNGARIAN ARMS WORKS", "TOKAGYPT", "WALAM", and "BUDAPEST" are trade names/trademarks used on firearms manufactured by "Femaru Fegyver es Gepygar / Fegyver es Gazkeszuelekgyara".

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number rationalization unknown. - known example had an eight digit number without prefix or suffix marked on the front gripstrap of the receiver/frame; it was also marked on the right side of the slide beneath the ejection port and on the right side of the barrel visible through the ejection port.
Calibre	- known example had calibre designation marked the right side of the slide, eg., "Cal. 9mm Parabellum".
Shots	- detachable box magazine.

Notes

Make

- "MAUSER" is marked on the firearm.
- "MAUSER" as a make is derived from the last name of Paul and Wilhelm Mauser.
- Wilhelm Mauser was born in 1834 and died in 1882.
- Paul Mauser was born in 1838 and died in 1914.
- Paul Mauser was officially named Peter Paul Mauser.
- Paul Mauser was an inventor and designer with numerous patents on revolvers, pistols, automatic and semi-automatic rifles, and bolt-action rifles..
- Wilhelm and Peter Paul Mauser were established as Gebruder Mauser (Mauser Brothers) in Oberndorf am Neckar, Wurttemburg, Germany in 1872.
- Gerbruder Mauser becomes Gebruder Mauser & Cie in 1874.
- Gebruder Mauser & Cie was renamed Waffenfabrik Mauser AG in 1884.
- Mauser was established under the German proof law as a proof house in 1898.
- Waffenfabrik Mauser AG name was changed to Mauser-Werke AG in 1923.
- Mauser-Werke AG name was changed to Mauser-Werke Oberndorf GmbH in 1975.
- Mauser manufactured pistols, revolvers, rifles, and machine guns almost continuously since 1872.

Model

- introduced in 1998.
- "M98" is marked on the left side of the receiver/frame.
- this is a newly produced Mauser rifle manufactured after the original Mauser drawings of 1936 and the respective Mauser patents.
- features include: Mauser 98 action machined out of a solid piece of high grade steel; single stage trigger; select hardwood stock with Rigby style cheek piece; checkered grip and forearm; folding leaves or peep rear sight; three position safety with locking lever and gold inlays "F" and "S"; inlaid butt stock sling swivels.
- various options available.
- this model is also available in magnum/safari calibers as the Model M98 Magnum.
- overall length with a 610mm barrel is 1140mm, average weight is 3.6kg.

Action

- turn bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- the serial number rationalization is unknown.

Calibre

- the calibre designation is marked on the barrel.

Shots

- internal magazine.
