FRT Report

Firearm Reference Number (FRN): 195362
Make: Norinco
Model: Type CQ-A-1 Semi-Automatic Rifle

Summary

Make:	Norinco
Model:	Type CQ-A-1 Semi-Automatic Rifle
Manufacturer:	Chinese State Arsenals
Level:	Non-Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195362 - 1	223 REM	30	368	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	

Notes

Make

- "NORINCO" was not marked on the firearm.
- "NORINCO" is the trade-name of China North Industries Corporation.
- there are three Chinese State owned / controlled marketing agencies:
- "Norinco" is a Chinese State marketing agency that sells products of the Chinese State Arsenals.
- "Norinco" is not a manufacturer.
- "Poly Technologies" is the trade name of "Poly Technologies International Incorporated", a marketing agency which is a subsidiary of the Chinese People's Liberation Army.
- "China Jin An" is the sales branch of the Ministry of Public Security.

Model

- "CQ" within a triangle, over "SEMI-AUTOMATIC RIFLE" over "CQ-A-1 5.56MM" over the serial number was observed marked on the left side of the magazine housing of the lower receiver/frame on one example.
- "CQ" represents "16" and refers to the family of firearms that this model is based on.
- "Type CQ-A-1 Semi-Automatic Rifle" is a variant of a Colt M-16/AR-15 firearm and is patterned after the current military production M-16, M4A1 carbine and differs from the M-16, M4A1 Carbine by having the capability for semi-automatic fire only.
- this entry is for "Type CQ-A-1" that have been converted to fully automatic fire.
- features may include: round barrel with bird cage type flash hider and bayonet lug; flattop upper receiver with accessory rail and removable carry handle; forward assist assembly located on right side of upper assembly; aluminum lower receiver/frame with two position selector marked "SAFE" and "SEMI"; synthetic A2 style round handguard; synthetic pistol grip; synthetic telescoping buttstock; sling swivels.
- this firearm is compatible with a wide array of aftermarket parts and accessories and may have features not listed above.

Manufacturer

- manufacturer's name, trademark or logo is not marked on the firearm.

Action

- gas operated.
- modified to fire in full automatic mode.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - observed serial numbers consisted of seven numbers without a letter prefix or suffix.
Shots	- detachable box magazine.
Canadian Law Comments	- any numbers found on the sheet metal fabrication known as the trigger mechanism housing or lower receiver will be considered to have no significance to the registration process and will be considered to have no significant identification value.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "NORRAHAMMAR SWEDEN" is marked on the barrel.
- "Norrahammar" was a tradename used by "Tradewinds" on rifles manufactured by Husqvarna.
- Tradewinds was an importer located in Tacoma, Washington, U.S.A. from 1954 to 1974.

Model

- "MODEL N-900" may be marked on the top of the barrel.
- manufactured between 1954 and 1972.
- features include: hammer forged round tapered barrel; HVA bolt action; box magazine with hinged floor plate; slide safety; single stage trigger; checkered sporting style stock with pistol grip and sling swivels.
- the overall length of the firearm is 1048mm with a 521mm barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the "HUSQVARNA" crown trademark over the word "SWEDEN" and/or "HUSQVARNA" and/or "HUSQVARNA - MADE IN SWEDEN" and/or "HUSQVARNA VAPENFABRIKS" and/or "HUSQVARNA VAPENFABRIKS AKTIEBOLAG" and/or "HUSQVARNA VAPENFABRIKS A.B." and/or "HVA" in an oval and/or "HVA ACTION - MADE IN SWEDEN" is marked on the receiver/frame and/or the barrel. - "HVA" is an acronym for Husqvarna Vapenfabriks Aktiebolag. - "HUSQVARNA" is located in Huskvarna, Sweden. - the Husqvarna Arms Factory was founded in 1689 and manufacturer firearms until the early 1970s. - Husqvarna manufactured military and sporting rifles, handguns, shotguns, waffle irons, sewing machines, bicycles, motor cycles, chain saws, lawn mowers, cylinder blocks and other mechanical devices. - Husqvarna Vapenfabriks Aktiebolag and Carl Gustafs Stads Gevarsfactori were amalgamated in the early 1970s to form Forenade Fabriksverken AS (FFV) located at Eskilstuna, Sweden.
Action	- turn bolt operated.
Serial Number	- the serial number is usually stamped on the underside of the receiver ring and may be repeated on the left side of the barrel. - serialization sequence unknown. - an observed serial number consisted of six numerical digits with one alpha suffix.
Calibre	- the calibre designation is marked on the barrel.
Shots	- internal box magazine with hinged floor plate.
Importer	- Tradewinds was an importer located in Tacoma, Washington, U.S.A. from 1954 to 1974.

Notes

Make

- make marked on barrel as "NORTH & SAVAGE".
- though this rifle was manufactured by H.S. North and Edward Savage, it was based on a patent issued jointly to H.S. North and C.D. Skinner; therefore, it may also be known as a "North & Skinner".

Model

- model not marked on firearm.
- this is a black powder percussion revolving rifle built by H.S. North and Edward Savage during the late 1850s.
- straight-grip walnut stock with curved buttplate, no forearm, round or half-octagonal barrel, loading lever mounted in front of cylinder, a large external hammer that can be cocked either manually or by way of the action lever/trigger-guard at the bottom of the action.
- also made as a 60 calibre(20 gauge) revolving percussion shotgun.

Manufacturer

- make marked on top of barrel as "NORTH & SAVAGE", over "MIDDLETOWN CONN", with "PATENTED JUNE 1 1852" and "CAST STEEL" along the sides.
- formed by a partnership between Simeon North and Josiah Savage the company was originally known as "The North & Savage Company", the firm changed its name to "Savage & North" in 1831.
- though this rifle was manufactured by North and Savage, it was based on a patent issued jointly to Henry S. North and Chauncey D. Skinner; therefore, it may also be known as a "North & Skinner".

Action

- single-action revolving rifle, cocked by a downward movement of the trigger-guard/cocking lever.

Serial Number

- may or may not be serial-numbered.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
136225 - 1	22 SHORT	5	64	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "NORTH AMERICAN ARMS" or "NORTH AMERICAN ARMS CORP" or "NORTH AMERICAN ARMS INC" is marked on the side of the receiver/frame.

Model

- NAA22 mini-revolver series was introduced in 1975.
- NAA22S was introduced in 1994.
- "NAA 22 SE" may be marked on the side of the receiver/frame.
- NAA22S is in calibre 22 SHORT with a barrel length of 29 mm (1 1/8").
- NAA22SL is in calibre 22 SHORT with a barrel length of 41 mm (1 5/8").
- NAA22SE is in calibre 22 SHORT with a barrel length of 64 mm (2 1/2").
- features include: stainless steel construction; round rifled barrel with solid top rib and integral blade front sight; solid top receiver/frame with removable fluted cylinder and a notch in the top strap for a rear sight; knurled cylinder axis pin; exposed hammer; spur trigger; single action trigger mechanism; bird's head grip strap; plastic or laminated rosewood grip plates or checkered polymer pivoting holster grip; matte finish.
- cylinder axis pin is used to remove fired cartridge cases from the cylinder.
- NAA22S was also sold as part of a three gun presentation/collector set in a standard or deluxe finish with matching serial numbers.

Manufacturer

- "NORTH AMERICAN ARMS" or "NORTH AMERICAN ARMS CORP" or "NORTH AMERICAN ARMS INC" is marked on the side of the receiver/frame.

Serial Number

- serial number is marked on underside of the receiver/frame.

Calibre

- "CAL .22 SHORT" is marked on the side of the receiver/frame.

Shots

- removable cylinder.

Notes

Make

- "NORTH EASTERN ARMS" over "MADE IN CANADA" is marked on the upper right side of the receiver/frame on the magazine well.

Model

- "NEA-15" may be marked on right side of the receiver/frame on the magazine well.
- "NEA-15" is also sold as a receiver/frame.
- "NEA-15" is of the design commonly known as the AR-15/M-16 rifle.
- features include: threaded muzzle for flash hider/muzzle brake; round standard or heavy profile contoured barrel; AR15/M16 standard style, low profile, Picatinny rail or folding front sight bracket/gas block; operating gas system may be gas piston operated; free floating or synthetic handguard; A3 rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; AR-15 type receiver/frame with an integral magazine well housing, oversize integral trigger guard and a vertical synthetic pistol grip ; collapsible, standard or custom rifle buttstock; matte black and/or coloured finish.
- available with a host of custom features and accessories.

Manufacturer

- "NORTH EASTERN ARMS" over "MADE IN CANADA" is marked on the upper right side of the receiver/frame on the magazine well.

Action

- gas operated.

Serial Number

- serial number is marked on the right side of the magazine housing of the receiver/frame.
- serial numbers observed consisted of a three letter "NEA" prefix, a dash (-), two numbers, a dash (-), and five numbers, example "NEA-11-00001".

Shots

- detachable box magazine.

Firearm Reference Number (FRN): 200458
Make: Northernaer
Model: JCAU03

Summary

Make:	Northernaer
Model:	JCAU03
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
200458 - 1	177 PELLET	1	480	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- The company logo is marked on the firearm. - The company logo consists of two triangles inside of a square. - "NORTHERNAER" is marked on top of the receiver/frame.
Model	- "JCAU03" is marked on top of the receiver/frame. - Features include: under-lever cocking mechanism; manual safety located inside the trigger guard; may include accessory rail. - Overall length with a 480 mm (18.9 inches) barrel is 1150 mm (45.3 inches).
Action	- Under-lever cocking mechanism. - Compressed spring air piston. - Velocity has been measured as 167 mps or 548 fps.
Serial Number	- The serial number is marked on the right side of the receiver/frame. - The serial number of a referenced example consisted of two letters followed by two digits, one letter and five digits.
Calibre	- The calibre designation is marked on top of the receiver/frame.
Canadian Law Comments	- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

45004 - 2	7.62MM NATO	N/A	610	Prohibited PFR, Part 1, para. 105(e)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Northwest Imports", "Maynard Arms", "MA T" or "NWI" may be found marked on the firearm.

Model

- "BROWNING M1919A4" is not marked on the receiver/frame.
- "BROWNING M1919A4" is a re-creation of the United States Service, .30 calibre, Browning Machine Gun, M1919A4.
- the Browning Machine Gun was named after the inventor, John M. Browning.
- "BROWNING M1919A4" is capable of semi-automatic fire only.
- the Browning Machine Gun M1919 could be configured into sub-models for different roles. A partial list of the possible configurations follows:

a) Browning Machine Gun M1919A4:
- M1919A4 is an air-cooled firearm which may be found in flexible configuration for infantry use and is normally fired from a tripod, or mounted on an armoured fighting vehicle.
- M1919A4 version feeds belts of ammunition from the left side.

b) Browning Machine Gun M1919A5:
- M1919A5 is an air-cooled firearm designed for fixed configuration and use in an armoured fighting vehicle. Rate of fire 550 to 650 shots per minute.
- M1919A5 version feeds belts of ammunition from the left side.

c) Browning Machine Gun M1919A6:
- M1919A6 is an air-cooled firearm which may be configured for infantry use with a carrying handle, bipod and shoulder stock.
- M1919A6 version feeds belts of ammunition from the left side.

Manufacturer

- manufacturer's name is marked on the receiver/frame.

Type

- designed and manufactured in semi-automatic fire configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- "short" recoil operated.
Serial Number	- numbered. - serial number rationalization unknown.
Shots	- belt-fed firearm.
Remarks	- this firearm is a re-creation of the United States Service, 30 calibre, Browning Machine Gun, M1919A4, in semi-automatic fire configuration. - the receiver has been designed and manufactured to prevent the use of full-auto parts. - the manufacturer uses surplus US parts to build the receivers / frames into complete firearms.

Notes

Make	- make may be found marked on the firearm as Northwest Imports, Maynard Arms, MA T or NWI.
Model	- this firearm is a recreation of the United States Service, Browning Machine Gun, Calibre 50, M2 HB, in semi-automatic fire configuration. - the model designation, manufacturer's name and the serial number are located on the right or left-hand receiver side plate, under the feed-way. - named after the inventor, John M. Browning.
Manufacturer	- may be marked MA & T which stands for Maynard Arms & Technetwork, Maynard Arms, or Northwest Imports.
Type	- designed and manufactured to be capable of semi-automatic fire only.
Action	- "short" recoil operated.
Serial Number	- serial number rationalization unknown.
Shots	- belt fed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- Browning Machine Gun receivers:

- The five sided box consisting of top and bottom plates, left and right side plates and the front trunnion block is the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm".
- For regulatory purposes, when the five sided box receiver/frame is further disassembled, the receiver/frame component plate where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration.
- The classification of this firearm as a semi-automatic firearm is based on the presumption that none of the original five (5) receiver components were reused. This is what was understood to be the meaning of the claim by the manufacturer that the firearm is a "newly manufactured semi-automatic firearm".
- The Criminal Code PART III, Section 84 para (c) definition - prohibited firearm means, "an automatic firearm, whether or not it has been altered to discharge only one projectile with one pressure of the trigger.

Remarks

- this firearm is a re-creation of the United States Service, Browning Machine Gun, Calibre 50, M2 HB, capable of semi-automatic fire only.
- the receiver has been designed and manufactured to prevent the use of full-auto parts.
- the manufacturer uses surplus US parts to build the receivers / frames into complete firearms.

Notes

Make

- make will not be found marked on the firearm.

Model

- essentially this firearm is a Rheinmetall produced MG3.
- rear left side of the receiver/frame is usually marked with the model, serial number, date of manufacture and the Rheinmetall trademark which is represented by a stylized 4-sided diamond within a circle.
- this firearm accepts both the US M-13 disintegrating link and the German DM1 & DM-6 disintegrating link belts.
- this firearm is a fully automatic, air-cooled, belt fed medium or general purpose machine gun utilizing a short recoil type of action which is gas-assisted by means of a recoil booster located within the flash hider; the bolt is of the roller locking type.
- features include;
- full automatic fire only.
- barrel is chrome plated.
- metal stamping type of construction,
- quick-change barrel system,
- easily removeable bi-pod.
- NOTE: this firearm will accept 2 different masses of bolt and different buffers from other models of the MG1. When the 550 g bolt is installed this machine gun will fire at a cyclic rate of 1000 to 1100 shots per minute. When the 950 g bolt is installed this machine gun will fire at a cyclic rate of 900 shots per minute.

Manufacturer

- the Rheinmetall trademark which is represented by a stylized 4-sided diamond within a circle is usually located on the left rear side of the receiver/frame.

Type

- air-cooled medium machine gun.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number usually located on the rear left side of the receiver/frame.
Barrel	- barrel length without the barrel extension is 531 mm. - barrel length with the barrel extension is 565 mm.
Calibre	- calibre designation is marked on the rear left side of the receiver/frame as: 7.62.
Shots	- this firearm accepts the US M-13 disintegrating link and the German DM1 & DM-6 disintegrating link belts. - belt fed machinegun. - also accepts a 100 cartridge, belt carrier type drum magazine.
Canadian Law Comments	- the magazine known as a "saddle-drum" type (doppeltrommel or satteltrommel"), which is not a reproduction and was originally designed or manufactured for use in the automatic firearms known as the MG13, MG15, MG17, MG34, T6-200 or T6-220, or any variant or modified version of it: is exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".
Remarks	- in Yugoslavian service, manufactured at ZASTAVA, the MG42 was named "SARAC" or "M53". - the Italians manufactured this machine gun model (calibre 7.62 x 51 mm NATO) under the designation "MG42/59". - in 1957, the West Germans Government recommenced manufacture of this firearm in various calibres as the "MG1", "MG1A1", and later, the "MG3" & MG3e.

Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
134197 - 1	16.8MM PERCUSSION	1	762	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is not marked on the firearm.

Model

- model designation is not marked on the firearm.
- "Kammerlader" stands for "Chamber Loader".
- "Kammerlader" model 1859 was produced from 1859 to 1862.
- "Kammerlader" model 1859 may also have been a conversion of an earlier model.
- "Kammerlader" rifles were produced in multiple variants from 1842 to 1870.
- "Kammerlader" rifles were produced by "Kongsberg Vapenfabrikk" (script letter "K" beneath a crown), in Liège by Francotte, (marked "I.P. or with the makers name) and in Herzberg by Crause (marked "R" over "CH").
- "Kammerlader" are breech loading, under hammer percussion fired rifles.
- features include: round barrel; barrel mounted front, combination "V" notched block and folding-leaf rear sight; box like receiver/frame; long breech operating lever on the right side of the receiver/frame; rear pivoting tip-up breech or loading chamber; two oval guards under the receiver/frame, a smaller rear one acts as a trigger guard and a larger one encases the hammer; one piece stock with straight grip design; stock nose cap, one barrel band, trigger guard and buttplate are made of brass; blued finish on metal parts.

Manufacturer

- "Kongsberg Vapenfabrikk" is located in Kongsberg, Norway.
- "Kongsberg Vapenfabrikk" was the Norwegian State Arsenal starting in 1814.
- "Kongsberg Vapenfabrikk" is represented by a script letter "K" beneath a crown.

Serial Number

- serial number is marked on the top of the receiver/frame.
- serial number of a referenced example consisted of four numbers.

121131 - 1	10.15X61R JARMANN	8	828	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- this design was adopted by the Norwegian army and navy in the early 1880's.

Model

- no model designation is marked on this firearm; the model name reflects the model name as used by the Norwegian army and the name of the designer, Jacob Smith Jarmann.
- officially adopted by the Norwegian Army 1884.
- produced circa 1884 to circa 1897; approximately 28,000 examples were made.
- turn bolt operated, repeating rifle, utilizing an under-barrel tubular magazine with an eight (8) shot capacity.
- action is locked by a single lug on the bolt engaging a recess in the receiver/frame as the bolt handle is turned down.
- features include; tangent leaf rear sight; one piece walnut or birch stock with a single spring-retained barrel band and a pinned metal nose cap; the nose cap has a bayonet lug on its right side; blued finish.
- variants: the only major variant of this rifle is known as the model 1884/87 and it is distinguished by a magazine cut-off located on the left side of the receiver/frame; in addition, several types of carbine versions were produced in limited quantities, these rifles had shorter barrels and a six shot magazine; a single shot version was also produced.

Manufacturer

- makers name is not usually marked on these firearms.

Action

- turn-bolt operated.

Shots

- under-barrel tubular magazine.

Notes

Make

- "NOSLER" is marked on the side of the receiver/frame and/or on the barrel.
- "NC" in a stylized script is usually embossed on the magazine floor plate.
- "NC" is the trademark for Nosler Custom.

Model

- Nosler model M48 was introduced in late 2005.
- "Nosler" and "M48" and "Bend, Oregon" are marked on the left side of the receiver/frame.
- "Nosler M48" is marked on the left side of the receiver/frame on all the Nosler model "M48" Series of rifles.
- this is a generic entry for all Nosler model M48 rifles.
- Nosler model M48 series of rifles include the M48 Sporter introduced in 2007, the M48 Varmint introduced in 2008, the M48 Trophy introduced in 2010, and the M48 Legacy, introduced in 2011.
- features include: match-grade chrome moly or stainless, tapered, round, ceramic coated blue/black barrel; no sights; ceramic coated blue/black, drilled and tapped, receiver/frame; ceramic coated blue/black bolt and bolt handle, bolt knob is checker engraved; left side push button bolt release; right side rocker safety aft of the bolt handle; trigger guard mounted floor plate release; floor plate is embellished with either the "NC" logo or the "John Nosler" signature; composite or walnut checkered or stippled one-piece stock; sling swivels and black recoil pad.
- Nosler M48 series is available with either heavy or light contoured barrels.
- Nosler M48 series is available in either short or long action sizes.
- Nosler M48 series is available in either left or right hand action.
- overall length with a 610 mm (24.0") barrel is approximately 1120 mm (44.0").
- average weight is from 2.61 kgs (5.75 lbs) to 3.0 kgs (7.25 lbs).
- M48 Legacy has a high gloss, walnut stock and the "John Nosler" signature on the floor plate.
- M48 Sporter version has a black onyx composite stock and the "NC" logo on the floor plate.
- M48 Trophy is marked "NOSLER M48 TROPHY GRADE RIFLE" on the barrel.
- M48 Varmint version has a tan coloured composite stock and the "NC" logo on the floor plate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- Nosler was founded by John Nosler in 1948.
- Nosler is a rifle, ammunition, and bullet manufacturer located in Bend, Oregon, U.S.A.
- Nosler was primarily known for cartridge design and manufacture prior to 2004.
- Nosler/Nosler Custom introduced the Nosler Custom Rifle in late 2004.

Action

- turn-bolt design.

Serial Number

- serial number is located on the right side of the forward receiver ring.
- serial number rationalization is unknown.
- observed serial number consisted of a letter "N" prefix and four numbers.

Calibre

- one sample observed featured the calibre designation marked on the right side of the barrel.
- calibre designation of a referenced example was marked on the right side of the barrel.
- 22 Nosler rifling characteristics: 1 turn in 8 inches, right hand twist.
- 243 WIN rifling characteristics: 1 turn in 10 inches, right hand twist.
- 6.5MM CREEDMOOR rifling characteristics: 1 turn in 8 inches, right hand twist.
- 26 Nosler rifling characteristics: 1 turn in 8 inches, right hand twist.
- 270 WIN rifling characteristics: 1 turn in 10 inches, right hand twist.
- 280 Ackley Imp. rifling characteristics: 1 turn in 9 inches, right hand twist.
- 7MM REM MAG rifling characteristics: 1 turn in 9 inches, right hand twist.
- 28 Nosler rifling characteristics: 1 turn in 9 inches, right hand twist.
- 308 WIN rifling characteristics: 1 turn in 10, right hand twist.
- 30-06 SPRG rifling characteristics: 1 turn in 10, right hand twist.
- 300 WIN MAG rifling characteristics: 1 turn in 10 inches, right hand twist.
- 30 Nosler rifling characteristics: 1 turn in 10 inches, right hand twist.
- 338 WIN MAG rifling characteristics: 1 turn in 10 inches, right hand twist.
- 33 Nosler rifling characteristics: 1 turn in 10 inches, right hand twist.

Shots

- internal box magazine with a front hinged floor plate.

Notes

Make

- "NOSLER" is marked on the side of the receiver/frame and/or on the barrel.
- "John Nosler" signature in a stylized script is usually embossed on the magazine floor plate.
- "NC" is the trademark for Nosler Custom.

Model

- model designation may not be marked on the firearm.
- Nosler model M48 was introduced in late 2005.
- features include: match grade stainless steel hand lapped barrel; no sights; drilled and tapped receiver/frame; magazine floorplate or magazine release located inside the trigger guard; flush fitting detachable magazine to look exactly like a floorplate with "NC" logo; right side thumb safety; carbon fiber one piece stock; sling swivels and black recoil pad.
- in addition to standard Nosler rifle features the model 48 Custom comes with a number of option.
- overall length with a 610mm (24") barrel is 1120mm (44.").
- average weight is from 2.84 kgs (6.25 lbs) to 3.40 kgs (7.50 lbs).

Manufacturer

- Nosler was founded by John Nosler in 1948.
- Nosler is a rifle, ammunition, and bullet manufacturer located in Bend, Oregon, U.S.A.
- Nosler was primarily known for cartridge design and manufacture prior to 2004.
- Nosler/Nosler Custom introduced the Nosler Custom Rifle in late 2004.

Action

- turn-bolt design.

Serial Number

- serial number was observed marked on the right forward side of the receiver/frame.

Calibre

- was observed marked on the right side of the barrel.

Shots

- internal box magazine with a hinged floorplate or a detachable box magazine.

Notes

Make

- "NOSLER" is marked on the side of the receiver/frame and/or on the barrel.
- "NC" in a stylized script is usually embossed on the magazine floor plate.
- "NC" is the trademark for Nosler Custom.

Model

- introduced in late 2004.
- annual production is limited to 500 units.
- "Nosler Custom" is marked on the side of the receiver/frame.
- features include: match-grade stainless, tapered, round, heavy contour, ceramic coated black barrel; no sights; ceramic coated black, receiver/frame with integral scope mounts; ceramic coated black bolt and bolt handle, bolt knob is checker engraved; left side push button bolt release; right side rocker safety aft of the bolt handle; trigger guard mounted floor plate release; floor plate is embellished with the "NC" logo; fancy grade walnut checkered one-piece stock; sling swivels and black recoil pad.
- this rifle is factory fitted with a matching serial numbered Leupold scope.
- overall weight is approximately 3.75kgs (8.75lbs), and the overall length is approximately 1120mm (44") with a 610mm (24") barrel.
- average weight is 2.61kg (5.75lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Nosler was founded by John Nosler in 1948. - Nosler is a rifle, ammunition, and bullet manufacturer located in Bend, Oregon, U.S.A. - Nosler was primarily known for cartridge design and manufacture prior to 2004. - Nosler/Nosler Custom introduced the Nosler Custom Rifle in late 2004.
Action	- turn-bolt operated.
Serial Number	- serial number is marked on the right side of the forward receiver ring and is repeated on the scope. - numbered from 1 to 500 for each year of production and repeated each subsequent year on the new version offered in a new calibre. - serial number rationalization is NCR-99-999 where, NCR is "Nosler Custom Rifle" followed by the last two digits of the year of manufacture followed by the gun number between 001 and 500.
Calibre	- calibre designation is marked on the right side of the barrel, eg. "300 WSM" .
Shots	- internal box magazine with a hinged floor plate.
Other Markings	- a stylized "NC" within an oval is marked on the floor plate.

Notes

Make

- The make is not marked on the firearm.

Model

- "Leviathan" is marked on the left side of the receiver/frame.
- Features include: Full length barrel shroud; threaded barrel shroud cover; threaded gas valve cover; barrel band; accessory rail on top of the receiver/frame; safety lever located on the right rear of the receiver/frame; vertical charging handle located on the rear right of the receiver/frame.
- Features may include: Wood, black synthetic or camouflaged synthetic stock; suppressor baffles in place of the threaded barrel shroud cover.
- The "Leviathan PS-P" features a single pressure gauge located on the right side of the receiver/frame, a 140cc air tank, and no pressure regulator valves.
- The "Leviathan PS-R1" features two pressure gauges located on both sides of the receiver/frame, a 140cc air tank, and a pressure regulator valve.
- The "Leviathan PS-R2" features two pressure gauges located on both sides of the receiver/frame, a 180cc air tank, and a pressure regulator valve.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- The manufacturer is not marked on the firearm.
Action	- Pre charged pneumatic.
Serial Number	- The serial number is marked on the underside of the firearm. - Observed serial consists of eighteen (18) alphanumerical characters.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the left side of the receiver/frame.
Shots	- Detachable rotary disc magazine. - Single-shot feed tray also available from the manufacturer.
Canadian Law Comments	- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. - This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Make: Novohradsky, Petr
Model: FSN-01

Summary

Make:	Novohradsky, Petr
Model:	FSN-01
Manufacturer:	Novohradsky, Petr
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	CZECH REPUBLIC
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129128 - 1	7.62X39 RUSSIAN	5	390	Prohibited PFR, Part 1, para. 90(u)	Non-Commercial Customization	
129128 - 2	7.62X39 RUSSIAN	30	390	Prohibited PFR, Part 1, para. 90(u)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "PETR NOVOHRADSKY" was observed marked on the right side of the receiver/frame.

Model

- "FSN 01" was observed marked on the right side of the receiver/frame.
- the "FSN-01" is a variation of the CZ model vz 58 rifle.
- the "FSN-01" has a vague external resemblance to the Kalashnikov model AK47 assault rifle but is not a member of the Kalashnikov family of firearms.
- features include: round barrel with threaded muzzle with muzzle protector; short stroke gas piston mounted above the barrel; hooded front sight and tangent rear sight; rectangular milled steel receiver/frame; striker fired; synthetic furniture.
- also available with a multi-prong or cone shaped flash hider, bipod, bayonet and a fixed or metal (right) side folding buttstock.
- overall length of this model firearm with a 390mm barrel having a flash hider cone and fixed buttstock is 838 mm.
- overall length with a 390 mm barrel and the metal stock in the folded position is 635 mm.

Manufacturer

- "PETR NOVOHRADSKY" was observed marked on the right side of the receiver/frame.

Action

- gas operated.
- striker fired.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number consisted of three numbers without a letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "7.62 x 39" was observed marked on the right side of the receiver/frame.
Shots	- detachable box magazine.
Remarks	- the FSN family of firearms are variants of the CZ vz 58 firearm design. The CZ vz 58 family of firearms utilize a breech mechanism and locking mechanism that are vastly different to the Kalashnikov family of firearms in that locking is accomplished by a falling breech block somewhat similar to the breech locking system employed by the Walther P-38 and Beretta 92 pistol. The breech lock is pivoted downwards into dual locking recesses in the side of the receiver/frame to accomplish the locking cycle rather than a bolt which rotates into a locking recess in the receiver/frame employed by the Kalashnikov family of firearms. Unlocking the breech mechanism is accomplished by the breech block carrier which, when struck by the gas piston moves rearward, this movement of the breech block carrier cams the front of the locking block upwards, disengaging it from the locking recesses. - the CZ vz 58 family of firearms do not employ a hammer, they utilize a striker to give firing pin impulse. - the CZ vz 58 family of firearms are gas operated, utilizing a "short stroke" gas piston independent of the breech block carrier.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145988 - 1	22 LR	5	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "NS" under the outline of a "three pointed crown" and over the outline of a "rectangle" was observed marked on the left side of the receiver ring.
- "Model 522 Cal. .22 LR" was observed marked on the left side of the receiver/frame.
- "serial number" over "Made in China" was observed marked on the right side of the receiver ring.
- "KFS Atlanta, GA" was observed marked on the right side of the receiver/frame.
- "NS Firearms/NS Firearms Corporation" was an importer located in Atlanta, Georgia, U.S.A. prior to 1995.
- "NS Firearms/NS Firearms Corporation" was a division of Keng's Firearm Specialty (KFS).

Model

- imported in 1994.
- "Model 522" was observed marked on the left side of the receiver/frame.
- features include: round, hammer forged bull barrel; tubular receiver/frame has right side ejection and is grooved for scope mounts; turn-bolt action; bolt has dual rear locking lugs and dual extractors; bolt release and manual safety are mounted on the left side of the receiver/frame; detachable box magazine release is mounted in front of the magazine well; one piece checkered walnut pistol grip stock with a raised cheek piece and sling swivel studs; blued metal finish.
- overall length with a 533 mm (21") barrel is 1003 mm (39.5"), and the average weight is approximately 3.5 kgs (7.75 lbs).

Action

- turn-bolt design.

Serial Number

- serial number was observed marked on the right side of the receiver ring.
- serial number observed consisted of seven numbers without a letter prefix or suffix.

Calibre

- "Cal. .22 LR" was observed marked on the left side of the receiver/frame.

Shots

- detachable box magazine.

159446 - 3	37X155	N/A	1950	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm; this make is derived from the name of the lead designer on this cannon, Aleksander Nudelman.
- Aleksandr Emmanuilovich Nudelman was a lead designer at the OKB-16 ("Osoboe Konstruktsiya Byuro-16"/"Special Design Bureau-16") in Moscow, from 1941 until 1986; he played a key role in designing the aircraft cannon that would be seen on Russian fighters and ground-attack planes from World War Two through Vietnam.

Model

- the model is marked on the firearm, in Cyrillic, as "N-37"; the Cyrillic representation of "N-37" resembles "H-37".
- this is a 37mm cannon developed in the mid-1940s in an attempt to produce an aircraft cannon with a higher rate of fire, that could reliably destroy enemy targets with only one or two hits in a single burst; this cannon was a replacement for the earlier NS-37, which fired a more powerful 37x198mm cartridge, but the additional recoil of the heavier cartridge made it more difficult to keep on target while firing. To alleviate that, Russian designers shortened the cartridge to 155mm long, reducing the heavy recoil.
- these cannon were used primarily on Mig, Sukhoi, and Yak fighters, ground-attack planes, and fighter-bombers from 1944 until their replacement by the NN-37 cannon in 1957, but they saw active use through the Vietnam War on Russian- and Chinese-supplied aircraft. More than 20,000 of these cannon were produced by Russia.
- the N-37 is a faster-firing redesign of the earlier NS-37, but using the same basic "in-line", tubular design, with a feed housing off the top of the cannon that would line up with the feed mechanism of the gun-pack. These cannon were produced in N-37, N-37D, and N-37L variants, with differences in muzzle brakes and barrel lengths through their production history. All versions of the N-37 have an external "run-out" operating spring surrounding the rear part of the barrel, in order to return the barrel to battery after firing.
- features include: blued or parkerized finish; various or no muzzle attachments; large-diameter spring around the rear portion of the barrel (as with the NS-37 and NS-23), a ventilated shroud around the chamber; a feed chute extending sideways off the breech; and solenoid firing and cocking controls.

Manufacturer

- the Izhmash/Factory 74 logo of an arrow in a triangle is marked on the cannon.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- serial numbered on the receiver/frame or top-cover. - may or may not contain Cyrillic letter prefixes.
Shots	- belt fed firearm. - in most aircraft installations, this cannon was fed via a 40 round belt.

Model: NR-23

Summary

Make:	Nudelman Rikhter
Model:	NR-23
Manufacturer:	Russian State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145272 - 1	23X115	N/A	1450	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm; this make is a combination of the two main designers that worked on these cannon, Aleksandr Nudelman and Aron Rikhter.

Model

- the model is marked on the firearm, in Cyrillic, as "NR-23"; the Cyrillic representation of "NR-23" resembles "HP-23".
- this is a 23mm cannon developed in the late 1940s in an attempt to produce an aircraft cannon with a higher rate of fire, that would be more effective against the faster jets that were just then coming into use.
- these cannon were used primarily on Yak and MiG fighter-planes, and on Tupolev bombers.
- features include: blued finish; tapered barrel; a cylindrical receiver with a large square feed housing for a belt centred on one side; a tubular housing for the bolt mainspring attached above the receiver, and a rotating bolt-head.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- recoil operated.

Serial Number

- numbered on the receiver/frame.

Shots

- belt fed.

FRT Report

Firearm Reference Number (FRN): 145271
Make: Nudelman Suranov
Model: NS-23

Summary

Make:	Nudelman Suranov
Model:	NS-23
Manufacturer:	Russian State Arsenal, Kovrov
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145271 - 1	23X115	N/A	1450	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm; this make is derived from the names of the two lead designers on this cannon, Aleksander Nudelman and Aleksander Suranov.

Model

- the model is marked on the firearm, in Cyrillic, as "NS-23"; the Cyrillic representation of "NS-23" resembles "HC-23".
- this is a 23mm cannon developed in the early 1940s in an attempt to produce an aircraft cannon with a higher rate of fire, that could reliably destroy enemy targets with only one or two hits in a single burst; earlier cannon, such as the VYa-23, had the ability to destroy these targets if they were hit, but the VYa's low rate of fire and heavy recoil made it very difficult to reliably hit a target while firing.
- these cannon were used primarily on Yak and Lavochkin fighter-planes, and on post-war MiG-17 jets and Tupolev bombers.
- features include: blued finish; tapered barrel; a large, exposed barrel-return spring around the rear portion of the barrel; a largely-cylindrical receiver with a large feed housing for a belt on one side (this feed housing has cylindrical housings for a feed spring and a pneumatically-operated piston); a tubular housing for the bolt mainspring attached above the receiver, and a rotating bolt-head.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.
- the Kovrov Mechanical Factory (also known as Factory 2) was founded in 1916 as a Russian subsidiary of the "Dansk Rekyriffel Syndikat", in order to produce Madsen machine guns for the Russian armed forces. After the Russian Revolution of 1917, the factory was nationalized, and went through several name changes, from the "KPZ" ("Kovrovskiy Pulemety Zavod"/"Kovrov machine Gun Factory") to the "KMZ" ("Kovroskiy Mekhanicheskiy Zavod"/"Kovrov Mechanical factory"), to its current incarnation as the "Zavod imeni V.A. Degtyareva"/"Factory in the name of V.A. Degtyarev", or "ZiD". This factory produces a wide range of machine guns, grenade-launchers and cannon, as well as consumer goods including motor-cycles and agricultural machinery.
- the logo of Factory 2 consists of a bullet or arrow within an oval.

Action

- recoil operated.

Serial Number

- numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - belt fed.

FRT Report

Firearm Reference Number (FRN): 159466
Make: Nudelman Suranov
Model: NS-37

Summary

Make:	Nudelman Suranov
Model:	NS-37
Manufacturer:	Izhevsky Mashinostroitely Zavod (Izhmash)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
159466 - 1	37X198	N/A	2300	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm; this make is derived from the names of the two lead designers on this cannon, Aleksander Nudelman and Aleksander Suranov.

Model

- the model is marked on the firearm, in Cyrillic, as "NS-37"; the Cyrillic representation of "NS-37" resembles "HC-37".
- this is a 37mm cannon developed in 1941 in an attempt to produce an aircraft cannon that was powerful enough to destroy an enemy bomber with multiple hits from a single burst; this cannon was intended to be the anti-aircraft equivalent of the 23mm VYa anti-tank cannon.
- these cannon were used primarily on Yak-9 fighters and Ilyushin-2 ground-attack planes, from 1942 through 1945. More than 8,000 of these cannon were produced by Russia.
- the NS-37 is a faster-firing redesign of the earlier Shpitalny Sh-37, but using the same basic "in-line", tubular design, with a feed housing off the top of the cannon that would line up with the feed mechanism. These cannon were produced both in versions that fired through the propeller-hub, and in versions fitted to underwing gun-pods.
- features include: blued or parkerized finish; various or no muzzle attachments; a feed chute extending sideways off the breech; and solenoid firing and cocking controls.

Manufacturer

- the Izhmash/Factory 74 logo of an arrow in a triangle is marked on the cannon.

Action

- recoil operated.

Serial Number

- serial numbered on the receiver/frame.
- may or may not contain Cyrillic letter prefixes.

Shots

- belt fed firearm.
- most aircraft mountings of this cannon could accept no more than 32 rounds in the gun position.

Firearm Reference Number (FRN): 129592
Make: O & R
Model: Shorty 870

Summary

Make:	O & R
Model:	Shorty 870
Manufacturer:	Odermatt & Ruess (O&R)/Remington
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Pump Action
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129592 - 1	12 GA X 3"	2	194	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "O&R shorty" is marked on the left side of the receiver/frame.
- "O&R Switzerland" is marked on the left side of the barrel.
- "O&R" are the initials of Odermatt & Ruess (O&A) of Switzerland.

Model

- "O&R shorty" and "Remington 870 EXPRESS MAGNUM" are marked on the left side of the receiver/frame.
- the "Shorty 870" uses a modified Remington 870 Express Magnum receiver/frame. The modifications consist of: two oval guide rails that help support a round knurled aluminum pump forearm; shortened barrel with clip-on front sight; shortened magazine tube and Knoxx collapsible buttstock.
- overall length with a 194mm (7 5/8") barrel and the stock in the retracted position is 666mm (26" 1/4).

Manufacturer

- "O&R shorty" and the original Remington markings "Remington 870 EXPRESS MAGNUM" were observed marked on the left side of the receiver/frame on one example. Other examples may have different markings in different places or the original Remingtion markings may be removed.

Serial Number

- original Remington serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a letter "B" prefix, six numbers and a letter "M" suffix.

Calibre

- gauge and chamber length are marked on the barrel.

Shots

- tubular magazine mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- Occidental was used as a trade name by Auguste Francotte circa 1890.

Model

- model designation is not marked on the firearm.
- this is a generic entry for those Occidental side by side shotguns that are not identifiable as to model.
- features may include:
- external or internal hammers.
- double, or single trigger, with or without barrel selector.
- sidelock or boxlock.
- top, side, or push button opening lever.
- finishes, and engraving may vary widely.
- hardwood stock, pistol grip, semi pistol grip, or straight English style.

Manufacturer

- "AF", "AFC" , "A. Francotte & Cie", "A. Francotte a Liege" or "Francotte" are some of the markings found on Francotte manufactured firearms.

Action

- side by side barrel pattern.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - sample reported incorporated an alpha prefix.

Notes

Make

- "O.D.E. SINGAPORE" is marked on the left side of the receiver/frame.
- "O.D.E." stands for "Ordnance Development and Engineering".

Model

- "SAR 21" is marked on the left side of the receiver/frame on the magazine well.
- "SAR 21" stands for "Singapore Assault Rifle - 21st Century".
- "SAR 21" is a bull-pup design firearm.
- features include: threaded muzzle for flash hider/muzzle brake; carrying handle with integral scope; integral laser aiming device in front of the forend; long-stroke gas-piston system; synthetic stock designed with Integral pistol grip and trigger guard; non reciprocating charging handle; ambidextrous controls.
- overall length with a 508mm (20") barrel is 805mm (31.75"), average weight is 3.82kg (8.42lbs).

Manufacturer

- "O.D.E. SINGAPORE" is marked on the left side of the receiver/frame.
- "O.D.E." stands for "Ordnance Development and Engineering"
- "O.D.E. SINGAPORE" is a subsidiary of Singapore Technologies Kinetics (ST Kinetics).

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame on the magazine well.
- serial number of a referenced example consisted of six numbers.

Calibre

- calibre designation is marked on the left side on the magazine well.
- calibre designation is usually also marked on the barrel.
- 5.56MM NATO rifling characteristics: 1 turn in 7 inches or 1 turn in 12 inches, right hand twist.

145150 - 5	20X72RB OERLIKON	100	720	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model may or may not be marked on the firearm.
- this is an early model of aircraft cannon manufactured by Oerlikon, based on the Becker cannon, the manufacturing rights to which it had acquired from SEMAG when SEMAG went bankrupt in the 1920s. The "F" cannon was designed primarily as a wing-mounted ("flugelfest"; hence the "F" designation) cannon, but variations were also produced in flexible aircraft and ground mounts for anti-aircraft use.
- these cannon (and the later "L" and "S" versions) were produced for domestic use and foreign sales to a large number of countries, including Germany and Japan (both of whom would later produce their own modified versions; the Germans as the MG-FF, and the Japanese as the Type 99-1).
- features include: blued finish; recoil operation with a heavy recoil spring visible surrounding the barrel forward of the receiver; tubular receiver; magazine feed; and solenoid or pneumatic controls (for remote aircraft mounts; flexible mounts were provided with sights, and with manual cocking and firing controls).

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback.
Serial Number	- numbered on the receiver/frame.
Shots	- detachable drum magazine.

15991 - 2	20X128 OERLIKON	N/A	1700	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the cannon.

Model

- the model may or may not be marked on the cannon; "KAA" is Oerlikon's designation for a cannon ("K"= Kanone), chambered for a 20mm cartridge ("A"), and the first model of the series ("A").
- this is a gas-operated automatic cannon developed by Oerlikon after World War Two, as a replacement for the Hispano-Suiza "FF" series, which was commonly used as ship-board anti-aircraft armament or fighter cannon during the war. The KAA was originally called the "204Gk" ("204 Gurtkanone"/"204 Belted Cannon") as it was a belt-fed design, rather than the magazine-fed Hispano-Suiza. This cannon also replaces the API blowback system of the Hispano-Suiza with a two-piece bolt having Degtyarev-style side-swinging locking arms.
- this cannon may be single in single, double, or quadruple mountings, in flexible or remotely-aimed versions, and in ship-board, vehicle, towed, or helicopter mounts, depending on the intended tactical use.
- features include: blue/black parkerized/phosphated finish; various styles of flash-hiders/muzzle brakes; tapered barrel; short gas tube extending off the side of the barrel in line with the top-cover and feed-way; and various styles of mounts and aiming systems.
- licenced copies of these cannon are produced by a number of other manufacturers.

Manufacturer

- the manufacturer or logo thereof is marked on the cannon.

Action

- gas operated.

Serial Number

- serial numbered on the receiver/frame.

Shots

- belt or chute fed cannon.

Notes

Make

- the make or logo thereof is marked on the cannon.

Model

- the model may or may not be marked on the cannon; "KAB" is Oerlikon's designation for a cannon ("K"= Kanone), chambered for a 20mm cartridge ("A"), and the second model of the series ("B").
- this is a gas-operated automatic cannon developed by Oerlikon after World War Two, as a replacement for the Hispano-Suiza "FF" series, which was commonly used as ship-board anti-aircraft armament or fighter cannon during the war. This cannon also replaces the API blowback system of the Hispano-Suiza with a two-piece bolt having Degtyarev-style side-swinging locking arms.
- this cannon may be single in single, double, or quadruple mountings, in flexible or remotely-aimed versions, and in ship-board, vehicle, towed, or helicopter mounts, depending on the intended tactical use.

- licenced copies of these cannon are produced by a number of other manufacturers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Oerlikin was established as a Machine Tool Works in Switzerland in 1906. - Oerlikin acquired facilities in Germany in 1923. - Oerlikin entered the anti-aircraft defence field in 1924. - Oerlikin founded an anti-aircraft development company in 1936. - Oerlikin has been known as Oerlikin-Buehrle and Oerlikin Contraves. - Oerlikin formed Oerlikin Aerospace in Canada in 1986. - Oerlikin was purchased by Rheinmetall AG in 2009 and renamed Rheinmetall Air Defence AG.
Action	- gas operated.
Serial Number	- serial-numbered on the receiver/frame.
Barrel	- 35 mm calibre bore with a 3150 mm barrel is also known as a 35mm/90. - "35mm" is for the calibre and "90" is the barrel length in calibres; example "35mm calibre X 90 = 3150mm".
Shots	- detachable box or drum magazine, depending on the mounting.
Remarks	- rate of fire is 1000 rounds per minute.

FRT Report

Firearm Reference Number (FRN): 143896
Make: Oerlikon
Model: KBA

Summary

Make:	Oerlikon
Model:	KBA
Manufacturer:	Oerlikon
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
143896 - 1	35X228	N/A	3150	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- "KDA" is the model designation for the Oerlikon 35 mm cannon.
- "K" denotes Kanone (cannon), "D" denotes 35 mm calibre, and "A" is for type.
- overall length of the KDA cannon with muzzle break is approximately 4740 mm.
- "KDA" cannon was used on Self-Propelled Air Defence Gun systems such as the Gepard.

Manufacturer

- Oerlikin was established as a Machine Tool Works in Switzerland in 1906.
- Oerlikin acquired facilities in Germany in 1923.
- Oerlikin entered the anti-aircraft defence field in 1924.
- Oerlikin founded an anti-aircraft development company in 1936.
- Oerlikin has been known as Oerlikin-Buehrle and Oerlikin Contraves.
- Oerlikin formed Oerlikin Aerospace in Canada in 1986.
- Oerlikin was purchased by Rheinmetall AG in 2009 and renamed Rheinmetall Air Defence AG.

Action

- gas operated.

Barrel

- 35 mm calibre bore with a 3150 mm barrel is also known as a 35mm/90.
- "35mm" is for the calibre and "90" is the barrel length in calibres; example "35mm calibre X 90 = 3150mm".

Shots

- automatic ammunition feed system.

Firearm Reference Number (FRN): 145181
Make: Oerlikon
Model: L

Summary

Make:	Oerlikon
Model:	L
Manufacturer:	Oerlikon
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145181 - 1	20X100RB OERLIKON	15	1200	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model may or may not be marked on the firearm.
- this is an early model of aircraft cannon manufactured by Oerlikon, based on the Becker cannon, the manufacturing rights to which it had acquired from SEMAG when SEMAG went bankrupt in the 1920s. The "L" cannon was designed primarily as a flexible observer's gun, but could also be seen in anti-aircraft mountings.
- these cannon (and the earlier "F" and later "S" versions) were produced for domestic use and foreign sales to a large number of countries, including Germany and Japan (both of whom would later produce their own modified versions.
- features include: blued finish; recoil operation; multi-stage barrel with conical flash hider and fluted forward and rearward sections; tubular receiver; drum magazine feed; and solenoid or pneumatic controls (for remote aircraft mounts; flexible mounts were provided with sights, and with manual cocking and firing controls).
- in aircraft flexible use; these cannon were usually mounted on a ring allowing the gunner to move the cannon to a convenient position for aiming and firing.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- blowback.

Serial Number

- numbered on the receiver frame.

Shots

- detachable drum magazine.

Model

- the model is marked on the firearm in Japanese ideographs.
- this is an early model of aircraft cannon designed by Oerlikon (the L cannon), based on the Becker cannon, the manufacturing rights to which it had acquired from SEMAG when SEMAG went bankrupt in the 1920s. The "L" cannon were used by the Japanese as both wing-mounted fixed and flexible aircraft versions and ground mounts for anti-aircraft use.
- features include: blued finish; recoil operation with a heavy recoil spring visible through slots surrounding the barrel forward of the receiver; tubular receiver; drum or box magazine feed; and solenoid or pneumatic controls (for remote aircraft mounts; flexible mounts were provided with sights, and with manual cocking and firing controls).
- these cannon were used as ship anti-aircraft armament, and were mounted on later versions of the Mitsubishi A6M5 "Zero" fighter plane; these cannon replaced the earlier Type 99-1.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm, usually in Japanese ideographs.

Action

- blowback.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- numbered on the receiver/frame.
Shots	- these cannon were produced in box, drum, and belt fed versions, depending on the intended installation.

Notes

Make

- "W & C OGDEN" is usually marked on the firearm.
- Walter & Charles Ogden were Owego, New York-based gunsmiths during the mid-to-late1800s, known primarily for their percussion hunting and target guns.
- Walter & Charles Ogden were two of three brothers (Jehiel, Walter, and Charles) who each went into the gunmaking business; Walter & Charles each built guns as part of a partnership and on their own.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is an over/under percussion combination gun manufactured by Walter & Charles Ogden prior to 1878.
- features include: browned or blued finish; open fixed or adjustable sights; side ramrod thimbles; straight-grip maple or walnut stock (no forearm) with brass or German silver finishings (may include patchbox); external manually-cocked double hammers; double triggers; finial trigger guard/grip strap; a crescent butt.

Manufacturer

- "W & C OGDEN" is usually marked on the firearm.
- Walter & Charles Ogden were Owego, New York-based gunsmiths during the mid-to-late1800's, known primarily for their percussion hunting and target guns.
- Walter & Charles Ogden were two of three brothers (Jehiel, Walter, and Charles) who each went into the gunmaking business; Walter & Charles each built guns as part of a partnership and on their own.

Action

- muzzle-loaded percussion multi-barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- barrel lengths may vary.
Calibre	- calibres/gauges may vary.

Notes

Make

- "OHIO ORDNANCE WORKS, INC." and "CHARDON, OHIO" may be marked on the side of the receiver/frame.

Model

- the model designation is marked on the right side of the receiver/frame.
- is a re-creation of a heavy, water-cooled machine gun, normally fired from a tripod.
- this firearm is a purpose built semi-automatic firearm utilizing a thick right side-plate and thinner internal parts (i.e.) barrel extension, lock frame and bolt to prevent the assembly of parts which would convert this firearm to a full-automatic firearm.

Manufacturer

- "OHIO ORDNANCE WORKS, INC." and "CHARDON, OHIO" may be marked on the side of the receiver/frame.

Type

- this firearm is a Commercial Version (CV) of a Full-Automatic firearm and virtually indistiguishable from the military or commercial Full-Auto firearm without close examination.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- serial number rationalization unknown.
Shots	- is a belt fed firearm.
Canadian Law Comments	- Browning Machine Gun receivers: - The five sided box consisting of top and bottom plates, left and right side plates and the front trunnion block is the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm". - For regulatory purposes, when the five sided box receiver/frame is further disassembled, the receiver/frame component plate where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration. - The classification of this firearm as a semi-automatic firearm is based on the presumption that none of the original five (5) receiver components were reused. This is what was understood to be the meaning of the claim by the manufacturer that the firearm is a "newly manufactured semi-automatic firearm". - The Criminal Code PART III, Section 84 para (c) definition - prohibited firearm means, "an automatic firearm, whether or not it has been altered to discharge only one projectile with one pressure of the trigger.
Remarks	- The Browning Machine Gun model 1928 is a water-cooled firearm which may be found in flexible configuration for infantry use normally mounted on tripods, and a flexible configuration for mounting on an armoured fighting vehicle. - The Ohio Ordnance, 1928 Colt, semi-automatic firearm is a re-creation of the original Browning Machine Gun, Model 1917 as manufactured by Colt for the Argentine Government circa 1928.

Notes

Make

- "OHIO ORDNANCE WORKS INC." is marked on the right side of the receiver/frame.
- The company logo is marked on the receiver/frame.

Model

- "M240-SLR" is marked on the right side of the receiver/frame.
- "M240-SLR" is a new manufacture, purpose built semi-automatic only version of the Belgium FN MAG-58/ American military M240 series of medium machine gun.

- Features include: high adjustable front post sight with protective ears and notched tangent rear sight; quick-change barrel with carrying handle and gas regulator; folding bipod; top opening feed cover that may have an integral accessory rail; wood or synthetic buttstock; pistol grip/trigger mechanism module with plastic grip panels; cocking handle on the right side of the receiver/frame.
- Overall length with a 508mm (20") barrel is 1207mm (47.25"), average weight is 10.98 kg (24.2lbs).

Manufacturer

- "MANUFACTURED BY OHIO ORDNANCE WORKS, INC. CHARDON, OHIO" is marked on the right side of the receiver/frame.
- The company logo is marked on the receiver/frame.

Type

- Designed and manufactured to be capable of semi-automatic fire only.
- This firearm is a commercial version of a full-automatic firearm and is virtually indistinguishable from the military or commercial full-auto firearm without close examination.

Action

- Gas operated, closed bolt.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- Serial number of a referenced example consisted of six digits starting with "240".

Calibre

- "CAL. 7.62 x 51" is marked on right side of the receiver/frame.
- 7.62MM NATO rifling characteristics: 1 turn in 12 inches, right hand twist.

Shots

- Belt fed firearm.
- "M240SLR" utilizes M-13 disintegrating links.

Canadian Law Comments

- Machine gun receivers of a box type receiver construction.
- The five-sided box consisting of top and bottom plates, left and right side plates and the front trunnion block is the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm".
- For the administrative purposes of The Firearms Act, when the five-sided box receiver/frame is further disassembled, the receiver/frame component plate where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration.
- The classification of this firearm as a semi-automatic firearm is based on the presumption that none of the original five (5) receiver components were reused. This is what was understood to be the meaning of the claim by the manufacturer that the firearm is a "newly manufactured as a semi-automatic firearm".

Remarks

- This firearm is a re-creation of the United States Service, 7.62X51MM NATO Machine Gun, M240, in semi automatic fire configuration.
- The receiver has been designed and manufactured to prevent the use of full-auto parts.
- The manufacturer uses surplus US parts to build the receivers / frames into complete firearms.

Notes

Make

- "OHIO ORDNANCE WORKS" is marked on the right side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- The company logo is comprised of a pair of circles in the foreground, looking much like a ship's buoy with a belt around the bottom and a pair of crossed cannons in the background, with the right-side cannon's touchhole being visible and the left-side facing the rear. The words "OHIO ORDNANCE WORKS INC" are marked inside the pair of circles, like a banner. The crossed cannons are basically stylized out-line like drawings with a descending cannonball in the center of the cross, with stylized flames coming out of the top.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Introduced in "2011". - "OOW240" is marked on the right side of the receiver/frame. - Combines firearms design features of more than one firearm including "FN MAG M240". - The model "M240" machine gun was a USA variant of the Belgium FN MAG 58, named a medium "General Purpose Machine Gun" (GPMG). - The model "M240" machine gun, has been produced in several model variants that may have specific parts exchanged to make them operated as another variant. Ohio Ordnance Works Inc. has followed a similar nomenclature/pattern of variants. There are no changes to the overall technical configuration of the receiver/frame and no added markings to alter the model designation at this time. - "240" is a left-feed "Coaxial" version, without grips or bipod. - "240B" is an `Infantry" model with a hydraulic buffer, with bipod and pistol grip. - "240C" is a right-feed "Coaxial" version, without grips or bipod. - "240D" is made for `Aviation' use with specific spade grips, with options for added pistol grip, bipod and shoulder plate. - "240E1" is made for `Aviation' or `mounted' use with spade grips, without carry handle, pistol grips or bipod. - "240G" is an `Infantry" model with a mechanical buffer, with solid shoulder stock, pistol grip and bipod. - "240N" is a `Navy' model, without bipod or heatshield, with solid shoulder stock and pistol grip. - "240 Patrol" is a lightweight model, specific for `Infantry' patrols, with adjustable shoulder stock, pistol grips and bipod. - Features include: flat sided, rectangular shaped, riveted steel plates receiver/frame; hinged top cover; left side belt feed; right side cocking handle; fire from the open bolt; adjustable gas regulator at the gas block, fitting into the gas/piston tube under the barrel; top handguard/heat shield; quick change barrel by the use of the carrying handle and incorporated locking latch; optional trigger group with synthetic pistol grip panels and cross-bolt safety; varied other stock options. - Overall length with a 495 mm (19.5 inches) barrel is 1047.75 mm (41.25 inches) with the stock collapsed, average weight is 10.11 kg (22.3 lbs).
Manufacturer	- "OHIO ORDNANCE WORKS INC." is marked on the right side of the receiver/frame. - The company logo is marked on the receiver/frame. - The company logo is comprised of a pair of circles in the foreground, looking much like a ship's buoy with a belt around the bottom and a pair of crossed cannons in the background, with the right-side cannon's touchhole being visible and the left-side facing the rear. The words "OHIO ORDNANCE WORKS INC" are marked inside the pair of circles, like a banner. The crossed cannons are basically stylized out-line like drawings with a descending cannonball in the center of the cross, with stylized flames coming out of the top.
Action	- Gas operated.
Serial Number	- The serial number is marked on the right side of the receiver/frame.
Barrel	- The barrel length includes 'flash hider' as per manufacturer specifications.
Calibre	- "7.62 x 51" is marked on the right side of the receiver/frame.
Shots	- Belt fed firearm.

Firearm Reference Number (FRN): 121314
Make: Ohio Ordnance Works
Model: VZ2000

Summary

Make:	Ohio Ordnance Works
Model:	VZ2000
Manufacturer:	Ohio Ordnance Works (OOW)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121314 - 1	7.62X39 RUSSIAN	5	400	Prohibited PFR, Part 1, para. 90(t)	Manufacturer Specifications and Commercial Customization	
121314 - 2	7.62X39 RUSSIAN	30	400	Prohibited PFR, Part 1, para. 90(t)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- OHIO ORDNANCE WKS. or OHIO ORDNANCE WORKS INC. is marked on the left side of the receiver/frame.

Model

- MDL. VZ 2000 is marked on the left side of the receiver/frame.
- MDL. VZ 2000 is a purpose built semi-automatic version of the military Czech Vz 58 rifle.
- introduced in 2002.
- features include: hooded front sight and notched tangent rear sight; Gas tube on top of the barrel; wood fibre synthetic handguard, pistol grip and buttstock; Buttstock may be side folding; milled receiver; matte blued, parkerized or grey baked painted finish.

Manufacturer

- "OHIO ORDNANCE WORKS INC." is marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of three letter prefix (OOW) and three numbers.
- referenced example three letter prefix OOW stands for Ohio Ordnance Works .

Barrel

- the barrel length as advertised by the manufacturer is 410mm. That length includes a barrel extension tube permanently welded to the barrel and front sight base. The extension is not included in the barrel length measurement for the purposes of this record.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- Cal. 7.62X39 is marked on the left side of the receiver/frame. - Cal. 7.62X39 rifling characteristics: 1 turn in 14 inches, right hand twist.
Shots	- detachable box magazine.
Canadian Law Comments	- The barrel length as advertised by the manufacturer is 410mm. That length includes a barrel extension tube permanently welded to the barrel and front sight base. The extension is not an integral part of the barrel and, therefore, in accordance with current Canadian law is not included in the barrel length measurment for the purposes of this record. The barrel length without the extension is 400mm.
Remarks	- this firearm has a similar appearance to the AK-47 family of firearms and the Czechoslovakian Vz 58 assault rifle both of which are capable of full automatic fire. - the breech mechanism and locking mechanism of the VZ 2000 are vastly different from the AK-47 in that locking is accomplished by a pivoting/falling breech block somewhat similar to the breech locking system employed by the Walther P-38 and Beretta 92 pistol. The breech lock is pivoted downwards into dual locking recesses in the side of the receiver/frame to accomplish the locking cycle rather than a bolt which rotates into a locking recess in the receiver/frame employed by the AK family of firearms. Unlocking the breech mechanism is accomplished by the breech block carrier, which when struck by the gas piston moves rearward, this rearward movement of the breech block carrier cams the front of the locking block upwards, disengaging it from the locking recesses. - the VZ 2000 does not employ a hammer, it has a striker to give firing pin impulse. - the gas mechanism of the VZ 2000 is a "short stroke" system independent of the breech

Notes

Make

- "AMERICAN BEST CARTRIDGES ARE THOSE THAT FIT BEST THE O.V." was observed marked on the barrel of an example.
- "OV" is a trademark used by Ojanguren y Vidosa of Eibar, Spain, circa 1922 to 1938.
- Observed example had a trademark symbol on the left side of the receiver/frame which research has been unable to identify.
- Observed trademark consisted of an upright elongated letter "O" with a letter "Y" in the middle with a stylized capital letter "S" intertwined, inside a letter "C" all of which are within a circle with the word "TRADE" on top and "MARK" underneath.

Model

- model name is not marked on this firearm
- model designation is derived from the characteristics of the firearm.
- manufactured circa 1922 until the company went out of business circa 1938.
- features include: fixed sights; round barrel; solid top receiver/frame with a left side swing-out fluted cylinder; cylinder release button is located behind the cylinder on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; rounded trigger guard; squared butt profile; hardwood grips; blue or nickel plated finish.

Serial Number

- serial number was observed marked on the bottom of the grip strap of the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Calibre

- "38 Long CTG" was observed marked on the left side of the barrel of an example.

Shots

- swing-out cylinder.

- Hibbard, Spencer, Bartlett & Company was a retailer located in Chicago, Illinois, U.S.A. between 1883 and 1929.

Model

- "OLD HICKORY" was observed marked on the barrel.
- "OLD HICKORY" if marked on the top strap was manufactured by Johnson, Bye & Company.
- "OLD HICKORY" if marked on the barrel was manufactured by Iver Johnson.
- "Old Hickory" was a trade name used on solid frame double action revolvers manufactured by "Johnson, Bye & Company" from 1878 to 1883, "Iver Johnson and Company" in 1883, and "Iver Johnson Arms & Cycle Works" from 1884 to 1899.
- features observed: blade front sight and a groove in the top strap for a rear sight; half round and half octagonal barrel with rifled bore; solid top receiver/frame with removeable fluted cylinder and right side, flip down loading gate; cylinder axis pin release is located on the front of the receiver/frame; exposed spur hammer; single/double action trigger mechanism; brown, plastic grip panels with an eagle motif; nickel finished.

Manufacturer

- manufacture's name is not marked on the firearm.

Serial Number

- serial number was observed marked on the left side of the receiver/frame under the grip panel and repeated on the trigger guard assembly.
- serial number consisted of four numbers without a letter prefix or suffix.

Firearm Reference Number (FRN): 32454
Make: Olimpic
Model: V-2

Summary

Make:	Olimpic
Model:	V-2
Manufacturer:	Olimpic
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SPAIN
Serial Numbering:	
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
32454 - 1	22 SHORT	5	150	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Model	- a pistol designed specifically for the Olympic Rapid-Fire Pistol event; it has a sharply-angled grip and a barrel situated very low in the hand to direct recoil straight back against the shooter's hand to minimize "muzzle jump". - barrel designed with a 3-vent compensator ahead of the chamber.
Type	- designed specifically for the Olympic Rapid-Fire Pistol competition.
Action	- blow-back operation.
Other Markings	- marked "A.D OLIMPIC S.A. MOD V-2 PAT CAL .22 SHORT SPAIN" on barrel behind "Olimpic" insignia at muzzle.

Firearm Reference Number (FRN): 138439
Make: Oliver
Model: Oliver

Summary

Make:	Oliver
Model:	Oliver
Manufacturer:	Hopkins & Allen
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
138439 - 1	38 RF	5	114	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	
138439 - 2	38 RF	5	114	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "THE OLIVER" over "38 CAL. RIM FIRE" over "PAT. MCH 28, 71 MAY 27, 78" was observed marked on the top strap of the receiver/frame of one example.
- "OLIVER" was a trade name/trademark used by Hopkins & Allen.

Model

- "THE OLIVER" over "38 CAL. RIM FIRE" over "PAT. MCH 28, 71 MAY 27, 79" was marked on the top strap of the receiver/frame of one example.
- manufactured in the 1880's and 1890's.
- features include: blade front sight and a groove in the top strap for a rear sight; octagonal or round barrel; solid top receiver/frame with removeable unfluted cylinder and right side loading cut-out; receiver/frame does not have a removeable side plate; exposed spur hammer; sheathed or spur-type trigger; single action trigger mechanism; square butt grip frame; checkered grip plates with the Hopkins & Allen "dog's head" trade mark at the top of the plates; nickel plated finish.

Manufacturer

- Hopkins & Allen was not observed marked on the example.
- Hopkins & Allen's dog head logo was observed marked on the grip panels.
- both patent dates on this firearm were registered to Hopkins & Allen and will be found on many of their handguns.

Serial Number

- serial number was observed marked on the left side of the grip strap of the receiver/frame underneath the grip plate of one example..
- observed serial number consisted of four numbers without a letter prefix or suffix.
- research indicates that H&A handguns made prior to 1898 usually had the serial numbers on the front of the cylinder and on the left side of the grip frame underneath the grip plate.

Calibre

- "38 CAL. RIM FIRE" was observed marked on the top strap of the receiver/frame of one example.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearm Reference Number (FRN): 49045
Make: Olympic Arms
Model: Bauska Magnum

Summary

Make:	Olympic Arms
Model:	Bauska Magnum
Manufacturer:	Olympic Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
49045 - 1	375 H&H MAG	6	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "OLYMPIC ARMS OLY, WA" is usually marked on the side of the receiver/frame.

Model

- this is a semi-custom bolt-action rifle built by Olympic Arms on an in-house manufactured "Bauska" or "BBK" action;
- features include: plain or fluted heavy round barrel with or without muzzle brake; left or right hand Mauser-style action with Timney trigger; Winchester-style safety; and a deepened double-column internal magazine.
- Bauska BBK-01Ultramag rifle has a bolt face of .532" and can be chambered from 300 WIN MAG and up to 505 GIBBS.
- Bauska BBK-02 Standard Magnum rifle has a bolt face of .473" for chambering in 243 WIN, 30-06 SPRG, 308 WIN, 256 WIN MAG, 257 ROBERTS, 22-250 , etc.
- Bauska BBK-03 Minimag rifle is available in the following calibres: 222 REM MAG, 223 REM, 7.62x39 RUSSIAN, etc.

Manufacturer

- "OLYMPIC ARMS OLY, WA" is usually marked on the side of the receiver/frame.
- Olympic Arms also incorporate receiver/frames made by other manufacturer's (Sako etc.) that are assembled by their subsidiary Schuetzen Gun Works (SGW).

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the receiver/frame.

Shots

- internal box magazine.

Notes

Make

- make marked on firearm.
- Olympic Arms is a manufacturer based in Olympia, Washington, that produces handguns and rifles; they are particularly known for their line of AR-15-style rifles and handguns. They are also the parent organization for several subsidiary manufacturers, such as SGW/Schuetzen Gun Works, Safari Arms, and Schuetzen Pistol Works.

Model

- model marked on right side of lower receiver as "The Bill of Rights".
- this is a version of Olympic Arms' AR-15 made to commemorate the 200th anniversary of the Bill of Rights.
- beryllium-copper alloy upper and lower receivers, blued barrel, synthetic "wood-grain" buttstock, handguards, and pistol-grip, open adjustable sights, scroll engraving and lettering.
- this firearm was sold in a matched set with a like-numbered Safari Arms Matchmaster pistol (record #119392).

Manufacturer

- manufacturer's name is marked on the firearm.

Action

- gas-operated.

Serial Number

- numbered on the left side of the lower receiver, from 1791 to 1991 inclusive.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine; uses standard AR-15 magazines.

Notes

Make

- "Olympic Arms" is marked on the firearm.
- "OLYMPIC ARMS" and "OLY WA USA" is marked on the left side of the receiver/frame.
- Olympic Arms "rampant lion" is marked on the left side of the magazine housing of the receiver/frame.

Model

- "K40GL" is marked on the firearm.
- features include: chrome-moly steel barrel; non-chromed bore; telescoping buttstock and carbon reinforced fiber handguard, aluminum forged receiver/frame with black matte anodized finish; parkerized finish steel components; case deflector located rearward of the ejection port, folding ejection port cover, carrying handle with fully adjustable A2 rear sight is integral to the upper receiver; bolt forward assist located on the right side of the upper receiver; standard magazine release button.
- "K40GL" is marked on the left side of the magazine housing of the receiver/frame.
- this firearm is based on a Colt model AR15 rifle design.
- features include: lightweight or heavy profile barrel with bayonet lug and muzzle brake/flash suppressor/compensator; elevation adjustable post front sight and aperture rear sight; synthetic carbine length handguard or free floating aluminum tube with quad rails; Black Matte Anodized finish; upper receiver configuration with A2 solid carry handle or with detachable carry handle and flat top picatinny rail; M4 style 6 position retractable buttstock; sling swivels.
- overall length with a 406mm (16") barrel is 806mm (31.75"), average weight is 3.11kgs (6.86lbs).

Manufacturer

- the manufacturer's name is marked on the firearm.
- "OLYMPIC ARMS" and "OLY WA USA" is marked on the left side of the receiver/frame.
- Olympic Arms "rampant lion" is marked on the left side of the magazine housing of the receiver/frame.

Action

- blow back operated.

Serial Number

- serial number is marked on the left side of the receiver/frame on the magazine housing.
- the serial number usually consists of a "GL" prefix followed by four numbers.

Barrel

- barrel is either 406mm or 292mm with a permanently attached 140mm flash suppressor.

Calibre

- the calibre designation is marked on the firearm.
- rifling characteristics: 1 turn in 16 inches.
- calibre may be marked on the left side of the magazine well.
- calibre may also be found on the top of the barrel assembly in front of the sight post or gas block.
- rifling characteristics: 1 turn in 16 inches.

Shots

- detachable box magazine.
- this rifle accepts Glock® magazines.

Canadian Law Comments

- The ten round limit specified in the cartridge magazine control regulations applies to magazines for this firearm provided:

a) the magazine is originally designed or manufactured for use in a semi-automatic handgun, and

b) the handgun is commonly available in Canada.

Notes

Make

- "Olympic Arms" is marked on the firearm.

Model

- "K9GL" is marked on the firearm.
- "K9GL" is of the design commonly known as the AR-15/M-16 rifle.
- "K9GL" has a two piece split receiver/frame design.
- features include: chromoly steel barrel; non-chromed bore; telescoping buttstock and carbon reinforced fiber handguard, aluminum forged receiver/frame with black matte anodized finish; parkerized finish steel components; case deflector located rearward of the ejection port, folding ejection port cover, carrying handle with fully adjustable A2 rear sight is integral to the upper receiver, bolt forward assist located on the right side of the upper receiver; standard magazine release button.

Manufacturer

- the manufacturer's name is marked on the firearm.

Action

- blowback operated.

Serial Number

- serial number is marked on the left side of the receiver/frame on the magazine housing.
- the serial number usually consists of a "GL" prefix followed by four numbers.

Barrel

- barrel is either 406mm or 292mm with a permanently attached 140mm flash suppressor.

Calibre

- the calibre designation is marked on the firearm.
- rifling characteristics: 1 turn in 16 inches.

Shots

- detachable box magazine.
- this rifle accepts Glock® magazines.

Canadian Law Comments

- The ten round limit specified in the cartridge magazine control regulations applies to magazines for this firearm provided:

a) the magazine is originally designed or manufactured for use in a semi-automatic handgun, and

b) the handgun is commonly available in Canada.

Notes

Make

- "OPTIMA" is marked on the side of the receiver/frame.
- "OPTIMA" and "ESCORT" are trademarks manufactured by Hatsan Arms.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "OPTIMA" is marked on the side of the receiver/frame.
- features include: interchangeable round barrel with or without ventilated rib, bead front sight or cantilever for scope mounts and with or without interchangeable choke tubes; solid top alloy receiver/frame with right side ejection and bottom loading port; single action bar; action release located on the front of the trigger guard; cross bolt safety located behind the trigger guard; wood or synthetic forearm and full length semi-pistol grip buttstock or synthetic forearm and pistol grip only or synthetic forearm and pistol grip with metal top folding stock; sling swivel studs; matte black, white nickel or camouflage (Break-Up or Shadow Grass pattern) finish.
- overall length with a 356 mm (14") barrel and a traditional full length pistol grip buttstock is 870 mm (34.2").
- overall length with a 356 mm (14") barrel and a pistol grip only is 591 mm (23.2").
- overall length with a 356 mm (14") barrel and a folding buttstock in the folded position is 610 mm (24") and in the extended position is 870 mm (34.2").

Manufacturer

- "HATSAN" and the company logo consisting of a bow and arrow are usually marked on the receiver/frame.

Serial Number

- serial number is marked on the receiver/frame.

Shots

- tubular magazine is mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

21159 - 1	6.35MM	6	55	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- numerous makers in the Eibar area copied the successful "Vest Pocket" semi-automatic handgun by COLT/BROWNING in 6.35mm/.25 calibre. One such maker was ORBEA HERMANOS. Firearms were often maked with inscriptions which would be perceived to enhance their marketability, thus units are often identical or similar in design, but differ in their inscriptions.
- often identified by a stylized "OH" on the grips.

Manufacturer

- Orbea Hermanos (Orbea Brothers) was founded in Eibar, Spain in 1858/1859 by Juan, Manuel, Matthew, and Casimiro Orbea.
- Orbea y Compania is believed to denote a reorganization of Orbea Hermanos y Compania in the early 1930's.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "LA INDUSTRIAL ORBEA - EIBAR" is marked on the left side of the slide. - this is a "Ruby"-style pocket pistol manufactured by Orbea Hermanos between the First World War and the Spanish Civil War; these pistols were made in two different frame sizes and barrel lengths, but both versions were marked identically. - features include: typical "Ruby" layout and operation; blued finish; fixed open sights; single-action trigger; left side safety/slide catch; synthetic grip plates; lanyard loop at butt; heel magazine release.
Manufacturer	- "ORBEA" is marked on the slide. - Orbea Hermanos (Orbea Brothers) was founded in Eibar, Spain in 1858/1859 by Juan, Manuel, Matthew, and Casimiro Orbea. - Orbea y Compania is believed to denote a reorganization of Orbea Hermanos y Compania in the early 1930's. - Orbea y Compania operation was terminated by the Spanish Civil War which started in 1936 and ended in 1939.
Action	- blowback operated.
Serial Number	- serial-numbered on the left side of the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- "Orbea", "Orbea Her", "Orbea Hermanos", "Orbea Hermanos y Ca", "Orbea Hermanos y Cia", "Orbea y Cia", "Orbea Bros." or La Industrial Orbea" may be marked on the firearm.
- the "Orbea Hermanos" company logo of "OH" as a stylised "O" covered by an "H" inside a circle may be marked on the grip plates and/or "Orbea" over a stylised "O" covered by an "H" inside a circle, with the words "Marca" and "Registrada" below or as a stylised "O" covered by an "H" inside a circle, with "Marca" on top and "Registrada" below is marked on the side of the receiver/frame.

Model

- "Industrial" is marked on the barrel.
- this is a standard-pattern Spanish copy of the Smith and Wesson 1905 Hand Ejector, manufactured by Orbea Hermanos.
- features include: blued finish; fixed open sights; tapered barrel; cylinder that swings out to the left; fluted six-shot cylinder with manual ejection rod; left-side cylinder-release; single action/double action trigger mechanism; checkered wood or synthetic grips; lanyard loop at the butt.

Manufacturer

- Orbea Hermanos (Orbea Brothers) was founded in Eibar, Spain in 1858/1859 by Juan, Manuel, Matthew, and Casimiro Orbea.
- Orbea y Compania is believed to denote a reorganization of Orbea Hermanos y Compania in the early 1930's.
- Orbea y Compania operation was terminated by the Spanish Civil War which started in 1936 and ended in 1939.

Action

- double-action revolver.

Notes

Make

- "Orbea", "Orbea Her", "Orbea Hermanos", "Orbea Hermanos y Ca", "Orbea Hermanos y Cia", "Orbea y Cia", "Orbea Bros." or La Industrial Orbea" may be marked on the firearm.
- the "Orbea Hermanos" company logo of "OH" as a stylised "O" covered by an "H" inside a circle may be marked on the grip plates and/or "Orbea" over a stylised "O" covered by an "H" inside a circle, with the words "Marca" and "Registrada" below or as a stylised "O" covered by an "H" inside a circle, with "Marca" on top and "Registrada" below on the side of the receiver/frame.

Model

- the model designation does not normally appear on the firearm.
- Orbea produced at least two models that resemble the Colt Police Positive revolver. The "Iris" model was available with a square butt profile, in three calibres: 38 SPL, 32-20 WIN and 32 LONG. The "Colon" model was apparently only available with a 102mm barrel and a round butt profile.
- features include: double action trigger mechanism, blued finish, fixed sights, cylinder swings out to the left for loading and unloading, tapered barrel, no ejector rod shroud and wood grips.

Manufacturer

- Orbea Hermanos (Orbea Brothers) was founded in Eibar, Spain in 1858/1859 by Juan, Manuel, Matthew, and Casimiro Orbea.
- Orbea y Compania is believed to denote a reorganization of Orbea Hermanos y Compania in the early 1930's.
- Orbea y Compania operation was terminated by the Spanish Civil War which started in 1936 and ended in 1939.

Notes

Make

- "Orbea", "Orbea Her", "Orbea Hermanos", "Orbea Hermanos y Ca", "Orbea Hermanos y Cia", "Orbea y Cia", "Orbea Bros." or La Industrial Orbea" may be marked on the firearm.
- the "Orbea Hermanos" company logo of "OH" as a stylised "O" covered by an "H" inside a circle may be marked on the grip plates and/or "Orbea" over a stylised "O" covered by an "H" inside a circle, with the words "Marca" and "Registrada" below or as a stylised "O" covered by an "H" inside a circle, with "Marca" on top and "Registrada" below on the side of the receiver/frame.

Model

- the designation "OH" does not appear on the firearm except as the company monogram on the left rear frame. "OH" is considered descriptive of the Orbea line of pistols that were a solid frame, swing-out cylinder, double action copies of the Smith & Wesson Military & Police pattern.
- may have a round or square butt.

Manufacturer

- Orbea Hermanos (Orbea Brothers) was founded in Eibar, Spain in 1858/1859 by Juan, Manuel, Matthew, and Casimiro Orbea.
- Orbea y Compania is believed to denote a reorganization of Orbea Hermanos y Compania in the early 1930's.
- Orbea y Compania operation was terminated by the Spanish Civil War which started in 1936 and ended in 1939.

Serial Number

- serial number was observed marked in the crane cut-out and the bottom of the butt strap.
- observed serial number consisted of three or four numbers without a letter prefix or suffix.

Barrel

- the most common barrel lengths are 102mm and 152mm, but other lengths have been noted.

Calibre

- calibre was observed marked on the side of the barrel.

Notes

Make

- "Orbea", "Orbea Her", "Orbea Hermanos", "Orbea Hermanos y Ca", "Orbea Hermanos y Cia", "Orbea y Cia", "Orbea Bros." or La Industrial Orbea" may be marked on the firearm.
- the "Orbea Hermanos" company logo of "OH" as a stylised "O" covered by an "H" inside a circle may be marked on the grip plates and/or "Orbea" over a stylised "O" covered by an "H" inside a circle, with the words "Marca" and "Registrada" below or as a stylised "O" covered by an "H" inside a circle, with "Marca" on top and "Registrada" below on the side of the receiver/frame.

Model

- model designation is not marked on the firearm.
- introduced in 1915.
- similar to the S&W .44 Double Action Frontier.
- produced for the British Army during World War I with the official British designation of "Pistol OP No 1 MARK 1". References are conflicting as to the meaning of OP. It may be either Old Pattern or Ordnance Pattern.
- features include: fixed sights; round ribbed barrel; front hinged receiver/frame with fluted cylinder and no sideplate; exposed spur hammer; single/double action trigger mechanism; checkered bird's head grip panels; lanyard ring.
- the OP No 1 MARK I model is similar in all features with the OP No 2 MARK I with the exception of the shorter, horn or hard rubber, grip panels that are mounted approximately 1 cm above the bottom of the grip frame.

Manufacturer

- Orbea Hermanos (Orbea Brothers) was founded in Eibar, Spain in 1858/1859 by Juan, Manuel, Matthew, and Casimiro Orbea.
- Orbea y Compania is believed to denote a reorganization of Orbea Hermanos y Compania in the early 1930's.
- Orbea y Compania operation was terminated by the Spanish Civil War which started in 1936 and ended in 1939.

Action

- hinged barrel design.

Serial Number

- serial number is marked on the right side of the of the grip under the grip panel.
- observed serial number consisted of four numbers without a letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - early production may have no British military acceptance markings or be marked on the receiver/frame, cylinder and barrel with a crown over a "V", "BV" or V5 (over an F) and also may be marked with the broad arrow.

Make

- "Orbea", "Orbea Her", "Orbea Hermanos", "Orbea Hermanos y Ca", "Orbea Hermanos y Cia", "Orbea y Cia", "Orbea Bros." or La Industrial Orbea" may be marked on the firearm.
- the "Orbea Hermanos" company logo of "OH" as a stylised "O" covered by an "H" inside a circle may be marked on the grip plates and/or "Orbea" over a stylised "O" covered by an "H" inside a circle, with the words "Marca" and "Registrada" below or as a stylised "O" covered by an "H" inside a circle, with "Marca" on top and "Registrada" below on the side of the receiver/frame.

Model

- this model has the same external appearance as the Smith & Wesson Military and Police model.

Manufacturer

- Orbea Hermanos (Orbea Brothers) was founded in Eibar, Spain in 1858/1859 by Juan, Manuel, Matthew, and Casimiro Orbea.
- Orbea y Compania is believed to denote a reorganization of Orbea Hermanos y Compania in the early 1930's.
- Orbea y Compania operation was terminated by the Spanish Civil War which started in 1936 and ended in 1939.

Serial Number

- one sample examined had an alpha prefix followed by sequential numbers, located on bottom of butt.
- another sample had the serial number on the right side of the grip-strap under the grip panel as three digits.

Calibre

- calibre designation may be marked on the left side of the barrel.

Importer

- other firms are likely to have imported these firearms as well.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
198500 - 1	30X173	N/A	2700	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
198500 - 2	40x180MM	N/A	2700	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ORBITAL ATK" is marked on the right side of the receiver/frame.

Model

- "MODEL MK44" is marked on the right side of the receiver/frame.
- "Bushmaster MK44 Chain Gun" is an updated version of the "Bushmaster 2 Chain Gun" which is a linked-belt-fed 30/40mm version of the 25mm M242 Chain Gun developed in the late 1980s by the Hughes Tool Company/Hughes Aircraft; these firearms have been made in numerous machine gun and cannon chamberings, and by a variety of manufacturers.
- These firearms are mounted almost exclusively on armoured-vehicles, with remote firing and aiming controls, sometimes as co-axial armament to a larger main gun; they may also be seen in naval mountings, for close-range anti-ship use.

- The term "chain gun" is derived from these firearms' unique operating cycle, where a loop of chain inside the receiver is driven at high speeds around a circuit. One extended link in that chain engages a slot in the bolt carrier, driving the bolt carrier forwards and rearwards rapidly, producing a rate of fire that depends on the speed of the driving motor. Extracted cases are ejected forward through an ejection tube next to the barrel.
- The "MK44S" was adopted by the United States Army as the "XM813"
- Features include: various styles of muzzle brakes/flash-hiders; a quick-change barrel (depending on the specific installation); and solenoid firing controls.

Manufacturer

- The manufacturer is not marked on the firearm.
- Northrop Grumman is an aerospace and defense technologies company with headquarters located in Falls Church, Virginia, United States of America.

Action

- Electrically powered.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the right side of the receiver/frame.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the right side of the receiver/frame.
Shots	- Belt fed firearm. - Available with linked or linkless ammunition feed systems (Dual Feed).

FRT Report

Firearm Reference Number (FRN): 122004
Make: Original
Model: 50

Summary

Make:	Original
Model:	50
Manufacturer:	Mayer & Grammelspacher Dianawerk
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122004 - 2	177 PELLET	1	495	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
122004 - 1	22 PELLET	1	495	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Original" is usually marked on the barrel or receiver/frame/compression chamber.
- "Original" was a trade name used in the United Kingdom between 1951 and 1982 on Diana airguns that were manufactured by Mayer & Grammelspacher.
- "Diana" trade name/trademark was owned and manufactured by Millard Brothers Limited (Milbro) of Scotland from 1949 to 1982.

Model

- "Mod. 50" is marked on the top rear of the receiver/frame.
- spring-air type air rifle.
- features include: under-lever cocking with the lever folding up and into the forearm; hooded pillar foresight and adjustable rear sight; one piece hardwood stock, may have hard rubber butt plate; receiver/frame is grooved for scope mounts and may have the mounting ramps installed; blued finish.
- "Foreign" and/or "Made in Germany" may be marked on the left side of the receiver/frame.

Manufacturer

- the manufacturer's name is not marked on the firearm.
- "Foreign" and/or "Made in Germany" may be marked on the left side of the receiver/frame.

Action

- under-lever cocking, spring-air.
- in both 177 PELLET and 22 PELLET calibres, discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- reference literature indicates that the manufacturer marked the serial number on the barrel and not on the receiver/frame.

Calibre

- the calibre is usually stamped on the top of the air chamber.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - in both 177 PELLET and 22 PELLET calibres, discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Notes

Make	- not marked on firearm. - the bronze medallion in the grip bares the "HO" monogram of Heinrich Ortgies. The "HO" medallions and the model name Ortgies Patent were used by Deutsche Werke, who purchased the company in 1922 and continued to produce this model.
Model	- marked on the left side of the slide, model markings should read "Ortgies Patent" just below the manufacturer name. - production ceased circa 1929. - blued or nickle finish. - heel mounted magazine release. - may be found in a large or small frame. - incorporates a grip safety; a distinguishing feature about the safety is when depressed it will not spring back to unlock , this is done manually by pressing a button on the left side of the receiver which also doubles as a takedown catch.
Manufacturer	- marked on the left side of the slide. - markings should read " Ortgies & Co - Erfurt".
Action	- single action, blow-back operated.
Serial Number	- may be found on the under side of the receiver in front of the trigger guard. The number is repeated on the under side of the slide at the muzzle end. - sequential numbers.
Shots	- detachable box magazine.

Notes

Make

- known example had the manufacturers name marked on the left side of the barrel as, "H.ORTMANN" over "INur BREVETE".

Model

- no model name is marked on this firearm; the model designation is derived from the characteristics of the firearm.
- manufactured from 1865 to circa 1890.
- features include: open top receiver/frame; unusual cammed axis pin that allows the barrel to move forward from the cylinder; double action trigger mechanism; fixed sights; external hammer; loading gate located on right side of standing breech which pivots upwards; octagonal barrel; plain unfluted cylinder with rear locking notches; lanyard ring; wooden grip panels.
- Belgian proofmarks are marked on this firearm.

Manufacturer

- the manufacturers name may appear as "H.ORTMANN", marked on the left side of the barrel.
- known example had the manufacturer's name marked on the left side of the barrel as, "H.ORTMANN" over "INur BREVETE".
- Herman Ortmann was a Belgian firearms manufacturer located in Liege, Belgium, circa 1865 to circa 1890.

Serial Number

- the serial number is located on the left side of the receiver/frame.
- known example had a three digit number without prefix or suffix.

Calibre

- the calibre designation does not appear on the firearm.

Notes

Make

- "ORVIS USA " is marked on both sides of the receiver/frame.
- in 1973 the "ORVIS" Company opened a wingshooting school at Orvis Manchester, Vermont.
- Orvis offers a selection of custom-made shotguns from the finest gunmakers in the world, designed to their specifications.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "ORVIS ROUNDED ACTION SIDE BY SIDE" is marked on the underside of the barrel. - this is a custom-made sidelock side by side shotgun. - features include: single or double triggers, blued finish on barrel, case hardened or white steel receiver/frame with or without scroll engraving, straight or pistol grip stock, leather recoil pad.
Manufacturer	- "Arrieta", "Arrieta y Cia" or "Fabrica de Arrieta y Cia Elgoibar" may be marked on the side of the receiver/frame. - "Arrieta", "Cia" and "M. Registrada" inside an oval may be marked on the water table. - "A.C" inside a rectangle in front of the serial number may be marked on the water table and/or barrel flats. - "A.C" is the company's manufacturing code. - "Made in Spain" may be marked on the barrels.
Action	- Side by Side pattern.
Serial Number	- serial number may be numbered on the water table, barrel lug, and/or tang. - serial numbers may consisted of five numbers without a letter prefix or suffix. - in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer. - an example of an Arrieta serial number is as follows: "57 - 03 - #0# - 95". - serial number break down, the first two numbers (57) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.
Barrel	- other barrel lengths available on request.
Importer	- "ORVIS MANCHESTER VERMONT USA" appears on both barrels.

Notes

Make

- "OCA" is marked on the firearm in Cyrillic characters.
- "OCA" is translated to "OSA" in English.

Model

- "PB-4-2" is marked on the firearm in Cyrillic characters.
- features include: plastic/composite construction; fixed open sights and a laser sight; one piece barrel assembly with four round over and under and side by side borings; front hinged receiver/frame with an enclosed trigger guard; single action trigger mechanism; black finish.
- firing mechanism consists of a compact magnetic pulse generator to supply electricity to ignite the cartridges.
- laser sight is powered by a lithium battery.
- overall length is 130 mm and the average weight is 340 grams.

Manufacturer

- "OCA" is marked on the firearm in Cyrillic characters.
- "OCA" is translated to "OSA" in English.
- Russian Federal Center for Research and Manufacturing & the Institute for Science and Research in Applied Chemistry was the original designer and manufacturer of the PB Less Lethal pistol.

Action

- over & under and side by side barrel configuration, hinged barrel design.
- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Calibre

- this cartridge case has thick aluminum or stainless steel walls with a rebated rim.
- this cartridge case also functions as the barrel.
- this ammunition is available with the following loads: Traumatic (Rubber) Bullets, Flash/Sound, Pepper, and Illumination/Signal Flare.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
21174 - 1	22 SHORT/32 SHORT RF	9	64	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "OSGOOD GUN WORKS - NORWICH, CONN." is marked on the barrel.

Model

- "OSGOOD GUN WORKS . NORWICH, CONN." and "PAT'D DEC. 7. 1880" is usually marked on the barrel.
- "DUPLEX" is marked on the top strap.
- manufactured between 1880 and 1883.
- this is an unusual two-barreled revolver similar in concept to the LeMat; a standard eight-shot 22 LR cylinder revolves around a cylinder pin that is itself a 32 RF firing single-barrel. This revolver is arranged as a "top-break", which is loaded by releasing a top latch and swinging the barrel(s) down to eject and reload.
- blued or nickeled finish, squared-off butt with walnut grips, and spur trigger.
- Osgood also made a "deluxe" version of this revolver, known as the "MONARCH"; these pistols came with scroll engraving and deluxe grip material.

Manufacturer

- "OSGOOD GUN WORKS - NORWICH, CONN." is marked on the barrel.
- the Osgood Gun Works of Norwich, Connecticut, made several hundred "LeMat" style handguns during the 1880s.

Action

- this is a single-action revolver similar in concept to the LeMat revolver, in which the cylinder pin is actually the barrel for a single shot in another calibre.

Serial Number

- serial number may be found on the cylinder face and on the barrel assembly below the large calibre barrel.

Shots

- this handgun can fire one round of 32 RF ammunition and eight rounds of 22 LR ammunition per loading; utilizes a pivoting striker on the hammer.

Notes

Make

- "Oshkosk Arms Co.", "Oshkosh Ejector Field Gun", "Oshkosh Trap Double Gun", "Oshkosh Trap Gun", "Oshkosk Trap Gun over Oshkosh Arms Co. over Oshkosh Wis." or "Oshkosh Trap Gun Co." may be marked on the receiver/frame.
- "Oshkosh" was a tradename used by Frank Percy of Oshkosh, Wisconsin, U.S.A. from 1895 to 1915.
- "Oshkosh" shotguns were manufactured by Cresent Fire Arms Company, Davenport Arms Company, and Forehand Arms Company.

Model

- "OSHKOSK TRAP GUN" or "OSHKOSH TRAP GUN CO." is usually marked on the side of the receiver/frame.
- features include: side by side smoothbore barrels with a bead front sight; front hinged receiver/frame with top tang mounted break open lever; exposed side hammers; double triggers; checkered wood forearm and semi-pistol grip buttstock.

Manufacturer

- manufacturer may not be marked on the firearm.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- observed firearm did not have a serial number.

FRT Report

Firearm Reference Number (FRN): 197394
Make: OSS
Model: SSS-1 Stinger

Summary

Make:	OSS
Model:	SSS-1 Stinger
Manufacturer:	Rite-Rite Manufacturing Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197394 - 1	22 SHORT	1	51	Prohibited PFR, Part 1, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The make is not marked on the firearm.
- "OSS" is an abbreviation for the Office of Strategic Services.

Model

- Introduced in "July 1943".
- Discontinued in "January 1944".
- Approximately 25,500 were manufactured.
- The model designation is not marked on the firearm.
- This is a purpose built, disposable clandestine weapon and has no markings for this reason.
- This firearm, while devoid of markings came in four variations over its production period. These variations are determined by the features of the firearm.
- Stinger, T1: The original firearm with a brass receiver/frame.
- Stinger, T1E1: The original firearm with a steel receiver/frame.
- Stinger, T1E2: The original firearm with a brass receiver/frame and a steel outside cap added.
- Stinger, T1E3: The original firearm with a steel receiver/frame and a machined striker.
- Features include: a preloaded, non-reloadable, round, smoothbore barrel with a metal receiver/frame stamped around the chamber; pocket clip style trigger; two metal arms along the side of the receiver/frame that when spread by the depression of cocked trigger release the striker.
- NOTE: As it left the factory, this firearm was loaded.

Manufacturer

- The manufacturer is not marked on the firearm.

Action

- Single use non-reloadable design that is loaded during manufacture.

Serial Number

- The serial number is not marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - The calibre designation is not marked on the firearm.

Notes

Make

- make may not be marked on the firearm.
- Oklahoma Tire And Supply Co. (OTASCO) contracted Marlin Firearms to manufacture various limited edition, commemorative, and store brand models circa 1969 to 1987.

Model

- "LIMITED EDITION MODEL 6080" is marked on the side of the barrel of an observed example.
- "TRAIL RIDER" and a horse and rider is marked on a brass medallion inlayed in the stock.
- manufactured in 1980.
- features include: ramp front and adjustable rear sights; tapered, round barrel; tubular magazine mounted under the barrel; right side charging handle; cross bolt safety mounted behind the trigger; one piece, leaf and squirrel impressed, Monte Carlo, walnut stock; hard rubber butt plate; blued finish.

Manufacturer

- "THE MARLIN FIREARMS CO" over "MADE IN NORTH HAVEN CT. USA" is marked on the side of the barrel.

Action

- blowback operated.

Serial Number

- serial number is marked on the side of the receiver/frame.
- serial number of an observed example consisted of eight numbers.
- references confirm that a two letter prefix may be encountered.

Calibre

- "22LR" was observed marked on the left side of the barrel.

Shots

- tubular magazine.

FRT Report

Firearm Reference Number (FRN): 106455
Make: Pakistani Machine Gun
Model: MG1A3P

Summary

Make:	Pakistani Machine Gun
Model:	MG1A3P
Manufacturer:	Pakistan Ordnance Factories (POF)
Level:	Converted Automatics
Type:	Machine Gun
Action:	Converted Automatic
Country of Manufacturer:	PAKISTAN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
106455 - 1	7.62MM NATO	N/A	530	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- make will not be found marked on the firearm.

Model

- "MG1A3P" is marked on the left side of the receiver/frame.
- found with both black lacquered or phosphated finishes.
- this firearm is the post WW II version of the original MG 42 designed and produced specifically for the 7.62MM Nato cartridge.
- this is a fully automatic, air-cooled, belt fed medium or general purpose machine gun utilizing a short recoil type of action which is gas-assisted by means of a recoil booster located within the flash hider; the bolt is of the roller locking type.
- features include;
- full automatic fire only,
- metal stamping type of construction,
- variable cylic rate of fire through the use of two different bolt weights; a lightweight bolt of 550 g at 1100 rds/min, and a heavier bolt of 950 g at 900 rds/min,
- quick-change barrel system,
- easily removeable bi-pod.

Manufacturer

- "POF" is marked on the left side of the receiver/frame.
- "POF" stands for "Pakistan Ordnance Factories".
- "POF" manufactured under licence from Rhienmetall.
- "POF" is an organisation operating under the Pakistan Ministry of Defence.
- "POF" comprises of fourteen ordnance factories and three subsidiaries.
- "POF" is manufacturing under license products from Heckler & Koch and is having other joint venture with China and Czechoslovakia.
- "POF" headquarter is located in Wah Cantt, Pakistan.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the right side of the receiver/frame, the serial number is also marked on the feed cover and on the left side of the receiver/frame.

Shots

- belt fed machine gun.
- ammunition is packaged in 50 round non-disintegrating belts.
- belts may be linked together to form a continuous belt of any reasonable capacity, or the 50 round belt may be inserted into a 50 cartridge container/drum.
- a 75 round saddle drum magazine is available for this firearm (which is a true magazine).
- NOTE: all feed attachments for the MG34 family of machine guns may be utilized with the MG42 family of machine guns.

Canadian Law Comments

- the magazine known as a "saddle-drum" type (doppeltrommel or satteltrommel"), which is not a reproduction and was originally designed or manufactured for use in the automatic firearms known as the MG13, MG15, MG17, MG34, T6-200 or T6-220, or any variant or modified version of it: is exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".
- For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".

185063 - 2	20 GA X 3"	7	470	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Pallas" is marked on the right side of the firearm.
- "Pallas, HWG, DE" is marked on the barrel.
- "Pallas" is a trade name used by Hans Wrage & Co., Germany.

Model

- Model designation is not marked on the firearm.
- "PX2" uses a split, two-piece receiver/frame in a manner similar to an AR-15/M-16.
- Features include: round barrel with flash hider; alloy upper assembly incorporates a ventilated handguard, with short bottom accessory rail and full length top mounted accessory rail; alloy lower receiver/frame with cut way magazine well; adjustable trigger; collapsible pistol grip stock; rubber butt pad; black finish.
- Overall length with a 472 mm (18.58 inches) barrel is 942 mm (38.27 inches).
- Overall length with a 472 mm (18.58 inches) barrel is 1022 mm (40.24 inches) with the stock fully extended.

Manufacturer

- "KHAN" or KHAN/KAYHAN" may be marked on the receiver/frame and on the barrel assembly.
- Khan was established in 1985.
- Khan (Khan Arms Company/Khan-Arthemis Shotgun/Khan Shotguns) head office is located in Istanbul, Turkey.
- Khan (Khan Arms Company/Khan-Arthemis Shotgun/Khan Shotguns) factory is located in Uzumlu/Konya, Turkey.

Action

- Gas operated.

Serial Number

- The serial number of a referenced example consisted of two numbers, a dash, two letters "AX" and six numbers.
- The serial number is marked on the left side of the upper receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- The calibre designation is marked on the barrel.
Shots	- Detachable box magazine.
Canadian Law Comments	- This firearm design incorporates a split receiver/frame: the lower receiver is the master component considered to be the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Notes

Make

- "PALLAS" is marked on the right side of the receiver/frame.
- Trade name used by Hans Wrage & Co., Germany.

Model

- The model designation is not marked on the receiver/frame.
- This is a modular firearm with an upper and lower assembly. The lower is considered the receiver/frame of the firearm.
- Extended thumb safety located on the side of the receiver/frame.
- Features include: modular receiver/frame with right side bolt handle; right side magazine release button; varied accessory rail locations; ventilated barrel cover; synthetic stock with folding tripod; added options are with or without carry handle.

Action

- Gas operated.

Serial Number

- The serial number is marked on the left side of the firearm.
- The serial number rationalization is unknown.
- Observed serial number consisted of the following configuration: two (2) numbers followed by four letters, 'PAPX', finally followed by six (6) numbers, (example: 12ABCD123456).

Calibre

- The calibre designation is usually marked on the barrel.

Shots

- Detachable box magazine.

Notes

Make

- "Palmetto" is marked on firearm.
- "Palmetto" was a trade name used on shotguns produced by "J. Stevens Arms & Tool Company".
- "Palmetto" is a name that has been used by at least seven distinct manufacturers;
- the original "Palmetto Armory" was a government armory in Columbia, South Carolina, between 1851 and 1865. The armory produced cannon, swords, Model 1842 percussion pistols, Model 1841 percussion rifles, and Model 1842 percussion rifles (conversions of 1816 muskets) for the federal government prior to the U.S. Civil War, but was used by the Confederacy to build their own versions of these firearms after hostilities started. In 1865, the armory was destroyed by General Sherman's troops as they advanced into South Carolina. Palmetto Armory's logo was a palm tree surrounded by the words "PALMETTO.ARMORY", over "S*C", and this logo may be seen on the lockplates of the firearms they produced.
- "Palmetto Arms" was also a trade name used on shotguns produced by Davenport, Hopkins & Allen and Crescent Firearms.
- "Palmetto Armory" was also a name used by a private manufacturer of AR-15-style rifles during the late 1970s and early 1980's; this company built rifles on receivers supplied to them by Scheutzen Gun Works/SGW (of Washington; later to become part of Olympic Arms) and by Essential Arms of Krotz Springs, Louisiana. In both cases, rifles were marked with BOTH the original supplier of the receiver and the logo of Palmetto Armory (a quarter-sized crest bearing a palm tree on the left side of the receiver).
- "Palmetto Arms" is also the name of a current manufacturer located in Brescia, Italy, which specializes in manufacturing modern reproductions of black-powder and Civil War-era firearms; this manufacturer took its name from the original "Palmetto Armory" (Columbia, South Carolina) which was destroyed at the end of the U.S. Civil War.

Model

- "MODEL 11" is marked at the breech.
- features include: round barrel; front hinged receiver/frame with break open lever located behind the hammer; exposed hammer; extractor or automatic ejector; walnut forearm and semi-pistol grip buttstock with rubber butt plate.

Manufacturer

- manufacturer's name is not marked on the firearm.

Model

- the model designation is not marked on the firearm.
- this is a government armory single-shot percussion rifle built at the Palmetto Armory in Columbia, South Carolina prior to the U.S. Civil War.
- features include: side hammer; round barrel; a flat lock plate with beveled edges; two barrel bands; a patch box on the stock; a full length stock and may have a steel ram rod located under the barrel.
- the lock plate may have the following markings: a palm tree encircled by the words "PALMETTO ARMORY" over "S*C", with "COLUMBIA S.C. 1852" to the rear of the hammer.
- the barrel may have the following markings: "W.GLAZE & CO", "WM. GLAZE & CO.", or "W.G. & CO."; William Glaze was the armory manager during this period.
- these rifles saw use on both sides during the U.S. Civil War, as the Palmetto Armory was in South Carolina (a Confederate state), and the armory's output was seized and put to Confederate use at the beginning of hostilities.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer's name is marked on the firearm.
- the original "Palmetto Armory" was a government armory in Columbia, South Carolina, between 1851 and 1865. The armory produced cannon, swords, Model 1842 percussion pistols, Model 1841 percussion rifles, and Model 1842 percussion rifles (conversions of 1816 muskets) for the federal government prior to the U.S. Civil War, but was used by the Confederacy to build their own versions of these firearms after hostilities started. In 1865, the armory was destroyed by General Sherman's troops as they advanced into South Carolina. Palmetto Armory's logo was a palm tree surrounded by the words "PALMETTO.ARMORY", over "S*C", and this logo may be seen on the lockplates of the firearms they produced.

Type

- muzzle loading, single shot, side hammer firearm with a percussion ignition system.

Action

- percussion ignition system.

Notes

Make

- make marked on firearm.
- "Palmetto" is a name that has been used by at least seven distinct manufacturers;
- the original "Palmetto Armory" was a government armory in Columbia, South Carolina, between 1851 and 1865. The armory produced cannon, swords, Model 1842 percussion pistols, Model 1841 percussion rifles, and Model 1842 percussion rifles (conversions of 1816 muskets) for the federal government prior to the U.S. Civil War, but was used by the Confederacy to build their own versions of these firearms after hostilities started. In 1865, the armory was destroyed by General Sherman's troops as they advanced into South Carolina. Palmetto Armory's logo was a palm tree surrounded by the words "PALMETTO.ARMORY", over "S*C", and this logo may be seen on the lockplates of the firearms they produced.
- "Palmetto Arms" was also a trade name used on shotguns produced by Stevens, Davenport, Hopkins & Allen and Crescent Firearms.
- "Palmetto Armory" was also a name used by a private manufacturer of AR-15-style rifles during the late 1970s and early 1980's; this company built rifles on receiver/frames supplied to them by Scheutzen Gun Works/SGW (of Washington; later to become part of Olympic Arms) and by Essential Arms of Krotz Springs, Louisiana. In both cases, rifles were marked with BOTH the original supplier of the receiver/frame and the logo of Palmetto Armory (a quarter-sized crest bearing a palm tree on the left side of the receiver).
- "Palmetto Arms" is also the name of a current manufacturer located in Brescia, Italy, which specializes in manufacturing modern reproductions of black-powder and Civil War-era firearms; this manufacturer took its name from the original "Palmetto Armory" (Columbia, South Carolina) which was destroyed at the end of the U.S. Civil War.

Model

- the model designation is not marked on the firearm.
- this is a version of the US M1842 Percussion Pistol made specifically for South Carolinian militia troops during 1852-3.
- features include: walnut round-butt stock/pistol-grip; brass grip-cap, trigger-guard, and other mountings; ram-rod secured to the pistol with a swivelling hanger below the muzzle; and a bright-finished lockplate and barrel.
- markings include: "PALMETTO ARMORY S*C" stamped on the lockplate in a ring around a logo of a palm tree forward of the hammer, with "COLUMBIA S.C. 1852" at the rear of the lockplate. Barrels usually marked "1853", with "WM. GLAZE & CO." on the breech of the barrel. (William Glaze was the armory manager at this time.)
- because of their relative rarity, many of these pistols have been "faked", using non-Palmetto Armory M1842 pistols as a base.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer marked on firearm.

Model

- the model designation is not marked on the firearm.
- this is a government armory conversion of a Model 1816 flintlock musket, done at the Palmetto Armory in Columbia, South Carolina prior to the U.S. Civil War.
- features include: side hammer; round barrel; a flat lock plate with beveled edges; three iron barrel bands; a full length stock with a bayonet lug and may have a steel ram rod located under the barrel.
- the lock plate may have the following markings: a palm tree encircled by the words "PALMETTO ARMORY" over "S*C", with "COLUMBIA S.C. 1852" to the rear of the hammer.
- the barrel may have the following markings: "W.GLAZE & CO", "WM. GLAZE & CO.", or "W.G. & CO."; William Glaze was the armory manager during this period.
- the barrel will normally be found to be a smooth bore, however some muskets were re-fitted with lightly-rifled barrels or had their existing barrels lightly rifled in an attempt to increase their practical range.
- these muskets saw use on both sides during the U.S. Civil War, as the Palmetto Armory was in South Carolina (a Confederate state), and the armory's output was seized and put to Confederate use at the beginning of hostilities.

Manufacturer:	Palmetto Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119873 - 1	31 PERCUSSION	5	89	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
119873 - 2	31 PERCUSSION	5	140	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Palmetto" or "Palmetto Brescia, Italy" or "Made in Italy by Palmetto" and/or the "Palmetto Arms/Palmetto di Mainardi" logo of a "palm tree within a circle" is usually marked on the firearm.

Model

- model may or may not be marked on firearm.
- this is a modern reproduction of a Colt 1855 New Model Sidehammer Pocket revolver, made by Palmetto Arms of Brescia, Italy.
- features include: one-piece frame with Single Action Army-type grip profile; spur trigger; loading lever below barrel; unfluted cylinder, cylinder pin through frame from the rear; round barrel threaded into front of frame; walnut grips; and a hammer mounted on the right side of the frame/receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "Palmetto" or "Palmetto Brescia, Italy" or "Made in Italy by Palmetto" and/or the "Palmetto Arms/Palmetto di Mainardi" logo of a "palm tree within a circle" is usually marked on the firearm.

- "PALMETTO" name has been used by several manufacturers.
- "PALMETTO ARMORY", the original government Armory was located in Columbia, South Carolina, between 1851 and 1865. Palmetto Armory produced cannon, swords, Model 1842 percussion pistols, Model 1841 percussion rifles, and Model 1842 percussion rifles (conversions of 1816 muskets) for the federal government prior to the U.S. Civil War. Palmetto Armory was used by the Confederacy to build their own versions of these firearms after hostilities started. Palmetto Armory was destroyed by General Sherman's troops as they advanced into South Carolina in 1865. Palmetto Armory's logo was a palm tree surrounded by the words "PALMETTO.ARMORY", over "S*C".
- "PALMETTO ARMORY" was used by a private manufacturer of AR-15-style rifles during the late 1970s and early 1980's. Palmetto Armory built rifles on receivers supplied to them by Scheutzen Gun Works / SGW (of Washington; later to become part of Olympic Arms) and by Essential Arms of Krotz Springs, Louisiana. In both cases, rifles were marked with BOTH the original supplier of the receiver/frame and the logo of Palmetto Armory. Palmetto Armory logo consists of a two ring (lifebouy) crest with the words "PALMETTO" at the top and "ARMORY" at the bottom with a "palm tree" inside the inner ring.
- "PALMETTO ARMS" was a trade name used on shotguns produced by Crescent Firearms, Davenport, Hopkins & Allen, and Stevens.
- "PALMETTO ARMS / PALMETTO DI MAINARDI" was located in Brescia, Italy. Palmetto Arms / Palmetto di Mainardi specialized in manufacturing modern reproductions of black-powder and Civil War-era firearms. Palmetto Arms / Palmetto di Mainardi took its name from the original "Palmetto Armory" (Columbia, South Carolina) which was destroyed at the end of the U.S. Civil War. Palmetto Arms / Palmetto di Mainardi logo consists of a "palm tree within a circle".
- "PALMETTO STATE ARMORY" is located in Columbia, South Carolina, U.S.A. "Palmetto State Armory" logo consists of two crossed canon with piled canon ball at their top centre and a caption banner going across with "PALMETTO" over "STATE ARMORY". Palmetto State Armory was established in 2008.

Serial Number

- numbered on frame/receiver.
- observed specimen had six digits.

Palmetto Armory built rifles on receivers supplied to them by Scheutzen Gun Works / SGW (of Washington; later to become part of Olympic Arms) and by Essential Arms of Krotz Springs, Louisiana. In both cases, rifles were marked with BOTH the original supplier of the receiver/frame and the logo of Palmetto Armory. Palmetto Armory logo consists of a two ring (lifebouy) crest with the words "PALMETTO" at the top and "ARMORY" at the bottom with a "palm tree" inside the inner ring.
- "PALMETTO ARMS" was a trade name used on shotguns produced by Crescent Firearms, Davenport, Hopkins & Allen, and Stevens.
- "PALMETTO ARMS / PALMETTO DI MAINARDI" was located in Brescia, Italy. Palmetto Arms / Palmetto di Mainardi specialized in manufacturing modern reproductions of black-powder and Civil War-era firearms. Palmetto Arms / Palmetto di Mainardi took its name from the original "Palmetto Armory" (Columbia, South Carolina) which was destroyed at the end of the U.S. Civil War. Palmetto Arms / Palmetto di Mainardi logo consists of a "palm tree within a circle".
- "PALMETTO STATE ARMORY" is located in Columbia, South Carolina, U.S.A. "Palmetto State Armory" logo consists of two crossed canon with piled canon ball at their top centre and a caption banner going across with "PALMETTO" over "STATE ARMORY". Palmetto State Armory was established in 2008.

Action

- flintlock single-shot pistol.

Serial Number

- numbered on receiver/frame.

Notes

Make

- "Palmetto" or "Palmetto Brescia, Italy" or "Made in Italy by Palmetto" and/or the "Palmetto Arms/Palmetto di Mainardi" logo of a "palm tree within a circle" is usually marked on the firearm.

Model

- single action percussion derringer.
- barrel: browned, octagon, rifled bore.
- stock: walnut. lockplate, trigger guard & sideplate: engraved.

Manufacturer

- "Palmetto" or "Palmetto Brescia, Italy" or "Made in Italy by Palmetto" and/or the "Palmetto Arms/Palmetto di Mainardi" logo of a "palm tree within a circle" is usually marked on the firearm.

- "PALMETTO" name has been used by several manufacturers.
- "PALMETTO ARMORY", the original government Armory was located in Columbia, South Carolina, between 1851 and 1865. Palmetto Armory produced cannon, swords, Model 1842 percussion pistols, Model 1841 percussion rifles, and Model 1842 percussion rifles (conversions of 1816 muskets) for the federal government prior to the U.S. Civil War. Palmetto Armory was used by the Confederacy to build their own versions of these firearms after hostilities started. Palmetto Armory was destroyed by General Sherman's troops as they advanced into South Carolina in 1865. Palmetto Armory's logo was a palm tree surrounded by the words "PALMETTO.ARMORY", over "S*C".
- "PALMETTO ARMORY" was used by a private manufacturer of AR-15-style rifles during the late 1970s and early 1980's. Palmetto Armory built rifles on receivers supplied to them by Scheutzen Gun Works / SGW (of Washington; later to become part of Olympic Arms) and by Essential Arms of Krotz Springs, Louisiana. In both cases, rifles were marked with BOTH the original supplier of the receiver/frame and the logo of Palmetto Armory. Palmetto Armory logo consists of a two ring (lifebouy) crest with the words "PALMETTO" at the top and "ARMORY" at the bottom with a "palm tree" inside the inner ring.
- "PALMETTO ARMS" was a trade name used on shotguns produced by Crescent Firearms, Davenport, Hopkins & Allen, and Stevens.
- "PALMETTO ARMS / PALMETTO DI MAINARDI" was located in Brescia, Italy. Palmetto Arms / Palmetto di Mainardi specialized in manufacturing modern reproductions of black-powder and Civil War-era firearms. Palmetto Arms / Palmetto di Mainardi took its name from the original "Palmetto Armory" (Columbia, South Carolina) which was destroyed at the end of the U.S. Civil War. Palmetto Arms / Palmetto di Mainardi logo consists of a "palm tree within a circle".
- "PALMETTO STATE ARMORY" is located in Columbia, South Carolina, U.S.A. "Palmetto State Armory" logo consists of two crossed canon with piled canon ball at their top centre and a caption banner going across with "PALMETTO" over "STATE ARMORY". Palmetto State Armory was established in 2008.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- muzzle-loading single-shot percussion pistol.
Calibre	- this 41 caliber percussion derringer fires a .395 inch round ball.
Other Markings	- Markings: top barrel flat and lock "DERINGER Philadela". - also marked on the barrel "P" for proof.

In both cases, rifles were marked with BOTH the original supplier of the receiver/frame and the logo of Palmetto Armory. Palmetto Armory logo consists of a two ring (lifebouy) crest with the words "PALMETTO" at the top and "ARMORY" at the bottom with a "palm tree" inside the inner ring.
- "PALMETTO ARMS" was a trade name used on shotguns produced by Crescent Firearms, Davenport, Hopkins & Allen, and Stevens.
- "PALMETTO ARMS / PALMETTO DI MAINARDI" was located in Brescia, Italy. Palmetto Arms / Palmetto di Mainardi specialized in manufacturing modern reproductions of black-powder and Civil War-era firearms. Palmetto Arms / Palmetto di Mainardi took its name from the original "Palmetto Armory" (Columbia, South Carolina) which was destroyed at the end of the U.S. Civil War. Palmetto Arms / Palmetto di Mainardi logo consists of a "palm tree within a circle".
- "PALMETTO STATE ARMORY" is located in Columbia, South Carolina, U.S.A. "Palmetto State Armory" logo consists of two crossed canon with piled canon ball at their top centre and a caption banner going across with "PALMETTO" over "STATE ARMORY". Palmetto State Armory was established in 2008.

Action

- single-action percussion revolver.

Serial Number

- numbered on receiver/frame.

Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
77491 - 1	12 GA	2	762	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- make marked on firearm as "PALMETTO ARMS CO. PHILADELPHIA, PA."
- "Palmetto" is a name that has been used by at least seven distinct manufacturers;
- the original "Palmetto Armory" was a government Armory in Columbia, South Carolina, between 1851 and 1865. The Armory produced cannon, swords, Model 1842 percussion pistols, Model 1841 percussion rifles, and Model 1842 percussion rifles (conversions of 1816 muskets) for the federal government prior to the U.S. Civil War, but was used by the Confederacy to build their own versions of these firearms after hostilities started. In 1865, the Armory was destroyed by General Sherman's troops as they advanced into South Carolina. Palmetto Armory's logo was a palm tree surrounded by the words "PALMETTO.ARMORY", over "S*C", and this logo may be seen on the lockplates of the firearms they produced.
- "Palmetto Arms" was also a trade name used on shotguns produced by Stevens, Davenport, Hopkins & Allen and Crescent Firearms.
- "Palmetto Armory" was also a name used by a private manufacturer of AR-15-style rifles during the late 1970s and early 1980's; this company built rifles on receivers supplied to them by Scheutzen Gun Works/SGW (of Washington; later to become part of Olympic Arms) and by Essential Arms of Krotz Springs, Louisiana. In both cases, rifles were marked with BOTH the original supplier of the receiver/frame and the logo of Palmetto Armory (a quarter-sized crest bearing a palm tree on the left side of the receiver/frame).
- "Palmetto Arms" is also the name of a current manufacturer located in Brescia, Italy, which specialises in manufacturing modern reproductions of black-powder and Civil War-era firearms; this manufacturer took its name from the original "Palmetto Armory" (Columbia, South Carolina) which was destroyed at the end of the U.S. Civil War.

Model

- this is a generic entry for Palmetto Arms Co. side by side shotguns, with no model markings.
- features may include the following;
- hammer, or hammerless with a combination of single or double triggers.
- top, side, or push button opening lever.
- damascus, or steel barrels.
- boxlock, or sidelock configuration.

Action

- side by side configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - if any, usually located on the water table, and/or underneath the barrels at the chamber area.

- "PALMETTO" name has been used by several manufacturers.
- "PALMETTO ARMORY", the original government Armory was located in Columbia, South Carolina, between 1851 and 1865. Palmetto Armory produced cannon, swords, Model 1842 percussion pistols, Model 1841 percussion rifles, and Model 1842 percussion rifles (conversions of 1816 muskets) for the federal government prior to the U.S. Civil War. Palmetto Armory was used by the Confederacy to build their own versions of these firearms after hostilities started. Palmetto Armory was destroyed by General Sherman's troops as they advanced into South Carolina in 1865. Palmetto Armory's logo was a palm tree surrounded by the words "PALMETTO.ARMORY", over "S*C".
- "PALMETTO ARMORY" was used by a private manufacturer of AR-15-style rifles during the late 1970s and early 1980's. Palmetto Armory built rifles on receivers supplied to them by Scheutzen Gun Works / SGW (of Washington; later to become part of Olympic Arms) and by Essential Arms of Krotz Springs, Louisiana. In both cases, rifles were marked with BOTH the original supplier of the receiver/frame and the logo of Palmetto Armory. Palmetto Armory logo consists of a two ring (lifebouy) crest with the words "PALMETTO" at the top and "ARMORY" at the bottom with a "palm tree" inside the inner ring.
- "PALMETTO ARMS" was a trade name used on shotguns produced by Crescent Firearms, Davenport, Hopkins & Allen, and Stevens.
- "PALMETTO ARMS / PALMETTO DI MAINARDI" was located in Brescia, Italy. Palmetto Arms / Palmetto di Mainardi specialized in manufacturing modern reproductions of black-powder and Civil War-era firearms. Palmetto Arms / Palmetto di Mainardi took its name from the original "Palmetto Armory" (Columbia, South Carolina) which was destroyed at the end of the U.S. Civil War. Palmetto Arms / Palmetto di Mainardi logo consists of a "palm tree within a circle".
- "PALMETTO STATE ARMORY" is located in Columbia, South Carolina, U.S.A. "Palmetto State Armory" logo consists of two crossed canon with piled canon ball at their top centre and a caption banner going across with "PALMETTO" over "STATE ARMORY". Palmetto State Armory was established in 2008.

Notes

Make

- "Palmetto State Armory" is marked on the firearm, with Palmetto's logo of crossed cannons in front of stacked cannonballs.

Model

- "PA-15" and "CAL. MULTI" is marked on the magazine well.
- this is a pistol version of Palmetto State Armory's "PA-15" rifle, made with a bare buffer tube to allow use as a handgun.
- features include: typical AR-15 layout and operation; phosphated/parkerized finish; muzzle-brake; synthetic or ventilated aluminium forearm; flat-top upper with Picatinny rail to allow for the mounting of sights; "T" cocking handle; right-side ejection port; synthetic pistol-grip; sling swivels.

Manufacturer

- "Palmetto State Armory" is marked on the firearm, with Palmetto's logo of crossed cannons in front of stacked cannonballs.

Action

- gas operated or blowback operated depending on calibre.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- detachable box magazine.
- this firearm uses AR-15/M15 magazines, commonly available in capacities of up to 30 rounds.
- in 9MM LUGER, this firearm uses Colt SMG magazines.

Notes

Make

- "PALMETTO STATE ARMORY" is marked on the side of the receiver/frame.
- "WEST COLUMBIA SC" is marked on the side of the receiver/frame.
- Palmetto State Armory logo of crossed canons in an "X" formation over a triangle stack of cannon balls with the name "PALMETTO" in a banner over "STATE ARMORY" in front.

Model

- introduced in 2018.
- "PX9" is usually marked on the left side of the receiver/frame.
- "PX9" and variants are based on the Colt AR-15/M16 design.
- "PX9" is a dedicated receiver/frame using a Glock-type pistol magazine.
- "PX9" is commonly sold as a lower receiver/frame.
- features include: AR15 type, anodized black, billeted 7075 T6 aluminum receiver/frame with integral, enlarged trigger guard; detachable box magazine; collapsible/telescoping adjustable buttstock; synthetic pistol grip; matte black finish.
- optional features include: round rifled barrel, may have threaded muzzle end for accessories; multiple tactical sight and carry handle options; plain synthetic or accessory rail, free floating handguard; top accessory rail or flat top upper assembly.
- also sold as a dedicated "pistol" version, with a bare buffer tube, known as the "PSA X9 Pistol".

Manufacturer

- "PALMETTO STATE ARMORY" is marked on the side of the receiver/frame.
- "WEST COLUMBIA SC" is marked on the side of the receiver/frame.
- Palmetto State Armory logo of crossed canons in an "X" formation over a triangle stack of cannon balls with the name "PALMETTO" in a banner over "STATE ARMORY" in front.

Action

- blowback operated.

Serial Number

- serial number is marked on the side of the receiver/frame; usually the left side.
- observed serial number consisted of a letter prefix "X" followed by a number "9", followed by a dash "-", then followed by six more numbers.
- serial number rationalization is not known.

Calibre

- calibre is usually marked on the side of the receiver/frame.
- observed marking of "9MM" was marked on the left side of the firearm.

Shots

- detachable box magazine.

85335 - 3	45 AUTO	12	110	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "PARA-ORDNANCE" marked on the left side of the firearm.

Model

- model designation is marked on the right side of the slide as "12.45 LDA".
- the "12" in the model designation denotes the magazine capacity (using the higher capacity "pre-ban" magazines), the "45" in the model designation denotes the calibre and "LDA" denotes the Light Double Action trigger mechanism.
- this is a compact, double-action version of the Para-Ordnance P12 45 semi-automatic pistol; other than the pivoting "light double action" (LDA) trigger mechanism, most other features remain the same as on the P12 45.
- features include: wide body receiver/frame; blued steel or matte finished stainless steel construction; beavertail grip safety; combat-style serrated or flush (no spur) hammmer; fixed three dot sights; cocking grooves cut into the rear of the slide; black grip panels with the Para-Ordnance circular "P" logo marked on them.

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- the serial number is marked on the right side of the receiver/frame above the trigger.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- marked on the top of the chamber area of the barrel so as to be visible through the ejection port.
Shots	- detachable box magazine.
Remarks	- accessory components are available that would alter the firearm, as such features may vary.

122397 - 2	45 AUTO	12	89	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- the model designation is marked on the right side of the slide as "12·45 Limited".
- this is an evolution of the Para-Ordnance "P12 45 Limited" semi-automatic pistol.
- the "12" in the model designation denotes the magazine capacity (using high capacity "pre-ban" magazines) and the "45" denotes the calibre (45 AUTO).
- in 2004 Para-Ordnance introduced their new "Power Extractor". The Power Extractor increases the range of movement and surface area of the extractor. The addition of this feature has resulted in Para-Ordnance marking the left side of the slide with the stylized Para Power Extractor "PXT" marking on all models so equipped.
- features include: shortened receiver/frame; single action trigger mechanism; ambidextrous safety lever; beavertail grip safety; adjustable rear sight with a dovetailed front sight; cocking serrations on the rear of the slide; full length guide rod; lowered and flared ejection port and a straight mainspring housing.

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- the serial number is on the right side of the receiver/frame above the trigger, incorporates a two letter prefix.

Calibre

- marked on the barrel, visible through the ejection port.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine housed in the grip.

FRT Report

Firearm Reference Number (FRN): 122398
Make: Para Ordnance
Model: 16 40 Limited

Summary

Make:	Para Ordnance
Model:	16 40 Limited
Manufacturer:	Para Ordnance
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122398 - 1	40 S&W	10	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
122398 - 5	40 S&W	10	135	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	
122398 - 2	40 S&W	16	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- the model designation is marked on the right side of the slide as "16·40 Limited".
- this is an evolution of the Para-Ordnance "P16 40 Limited" semi-automatic pistol, originally known as the "P16 40 Signature".
- the "16" in the model designation denotes the magazine capacity (using high capacity "pre-ban" magazines) and the "40" denotes the calibre (40 S&W).
- in 2004 Para-Ordnance introduced their new "Power Extractor". The Power Extractor increases the range of movement and surface area of the extractor. The addition of this feature has resulted in Para-Ordnance marking the left side of the slide with the stylized Para Power Extractor "PXT" marking on all models so equipped.
- features include: full size receiver/frame and slide; single action trigger mechanism; ambidextrous safety lever; beavertail grip safety; adjustable rear sight with a dovetailed front sight; cocking serrations on the front and rear of the slide; full length guide rod; lowered and flared ejection port and a straight mainspring housing.
- available with a matte blued/black finish or in stainless steel.

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the right side of the receiver/frame above the trigger, incorporates a two letter prefix.
Calibre	- marked on the top of the barrel, visible in the ejection port.
Shots	- detachable box magazine.
Other Markings	- the right side of the receiver/frame will be marked: PARA-ORDNANCE INC. MADE IN FT LAUDERDALE FL CANADA
Remarks	- this model is frequently used as the basis for custom competition guns. As such it will be found in a variety of non-standard configurations and features may vary.

Notes

Make

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- introduced in 1999.
- this is a double-action version of the Para-Ordnance P18 9 semi-automatic pistol; other than the pivoting double action trigger, all other features remain the same as on the P18 9.
- "18.9 LDA" is marked on the right side of the slide.
- the LDA in the model designation denotes the Light Double Action trigger mechanism.
- features include: full size receiver/frame and slide in steel with a blued finish or stainless steel with a matte finish; fixed sights; cocking serrations on the rear of the slide; beavertail grip safety; receiver/frame mounted (left side) safety catch.
- a similar pistol with further enhancements (ambidextrous safety catch, cocking serrations on the front and rear of the slide, adjustable rear sight, full-length recoil guide rod, trigger overtravel stop and premium grade barrel) is available as the model "18 9 LDA Limited".

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- marked on the right side of the receiver/frame, above the trigger guard.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine.

Notes

Make	- the make is marked as part of the product warning on the left side of the upper assembly as "PARA-ORDNANCE MFG. INC., TORONTO ONT."
Model	- "MOD 85" is marked on the left side of the upper assembly. - features include: black glass-filled nylon polymer construction; fixed rear notch and front post sights with protective wings; heel of grip magazine release; safety switch mounted on the left underside of the receiver/frame; bottom rear disassembly latch; smoothbore barrel; top mounted action cocking knob; right side ejection port. - the top and bottom assemblies pivot on a front mounted hinge for disassembly and cleaning.
Manufacturer	- the manufacturer is marked as part of the product warning on the left side of the upper assembly as "PARA-ORDNANCE MFG. INC., TORONTO ONT."
Action	- blowback operated using the primer-setback principle to initiate action unlocking. - does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- the serial number is marked on the front underside of the receiver/frame. - observed serial number sequences have consisted of a single letter prefix followed by four numbers.
Barrel	- smooth bore barrel.
Calibre	- the cartridge for this calibre is proprietary in design and utilizes a large pistol primer and a series of venturis to provide propulsion to the dye marking projectile.
Shots	- detachable box magazine.

Notes

Make

- "Para" is marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- "Carry 12" was marked on the right side of the slide on the first 180 produced. - "Para Carry 12" was then marked on the left side of the slide or receiver/frame.
- features include: stainless steel construction; double action only trigger mechanism; "bobbed" (no extended tang) grip safety; ramp rear and dovetailed front sights; manual safety catch mounted on the left side of the receiver/frame.
- with the introduction of the Para "Power Extractor" in 2004 this model was re-designated as the model "PXT LDA Carry 12".

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- marked on the right side of receiver/frame, above trigger guard.
- observed specimen had a letter prefix and six numbers.

Shots

- detachable box magazine.

Notes

Make

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- sold as a receiver/frame only, as such this firearm may be found in almost any calibre, barrel length or slide combination.
- available in stainless steel or steel.

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Serial Number

- the serial number is marked on the right side of the receiver/frame above the trigger and may or may not have a two letter prefix.

Remarks

- the first products offered by Para-Ordnance were receiver/frame kits that owners could assemble into a complete gun using surplus or aftermarket parts. These receiver/frame assemblies could be ordered with the correct magazine for a given calibre. The standard model designation rationalization was an "F" denoting a "receiver/frame" only, followed by the number of cartridges the magazine held followed by the nominal designation of the intended calibre. When ordered with a 14 shot magazine for calibre 45 AUTO ammunition this model was sold as the F14 45. When Para-Ordnance started producing complete guns they changed the "F" in the model designation to "P" to denote a complete firearm.

Serial Number	- the serial number is on the right side of the receiver above the trigger, may or may not have a two letter prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- the first products offered by Para-Ordnance were receiver/frame kits that owners could assemble into a complete gun using surplus or aftermarket parts. These receiver/frame assemblies could be ordered with the correct magazine for a given calibre. The standard model designation rationalization was an "F" denoting a "receiver/frame" only, followed by the number of cartridges the magazine held followed by the nominal designation of the intended calibre. When ordered with a 14 shot magazine for calibre 45 AUTO ammunition this model was sold as the F14 45. When Para-Ordnance started producing complete guns they changed the "F" in the model designation to "P" to denote a complete firearm.

Notes

Make

- "Para-Ordnance" is marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- introduced in 1990.
- "P12·45" is marked on the right side of the slide.
- the "P" in the model designation denotes that this is a complete handgun (Para-Ordnance originally offered receiver/frame kits only), the "12" denotes the magazine capacity (using high capacity "pre-ban" magazines) and the "45 denotes the calibre (45 AUTO).
- in 2004 Para-Ordnance introduced their new "Power Extractor". The Power Extractor increases the range of movement and surface area of the extractor. The addition of this feature has resulted in Para-Ordnance marking the left side of the slide with the stylized Para Power Extractor "PXT" marking on all models so equipped.
- available in matte black carbon steel, matte black alloy or stainless steel.
- features include: shortened grip frame, beavertail grip safety, receiver/frame mounted safety catch (left side), fixed sights, lowered and flared ejection port and a single action trigger mechanism.
- in 2003 factory literature this model is noted under the heading "Performance Plus".
- a similar pistol with further enhancements (ambidextrous safety catch, full-length recoil spring guide rod, adjustable rear sight, trigger over-travel stop and premium grade barrel) is available as the model "P12 45 Limited".

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame above the trigger. - serial number usually incorporates a two letter prefix.
Calibre	- marked on the barrel, visible through the ejection port.
Shots	- double column, detachable box magazine housed in the grip.
Other Markings	- the right side of the receiver/frame will be marked: PARA-ORDNANCE INC. MADE IN FT LAUDERDALE FL CANADA

Notes

Make

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 1993. - the model designation is marked on the right side of the slide as "P13·45". - the "P" in the model designation denotes that this is a complete handgun (Para-Ordnance originally offered receiver/frame kits only), the "13" denotes the magazine capacity (using high capacity "pre-ban" magazines) and the "45 denotes the calibre (45 AUTO). - in 2004 Para-Ordnance introduced their new "Power Extractor". The Power Extractor increases the range of movement and surface area of the extractor. The addition of this feature has resulted in Para-Ordnance marking the left side of the slide with the stylized Para Power Extractor "PXT" marking on all models so equipped. - available in matte black carbon steel, matte black alloy or stainless steel. In 2004 Para-Ordnance also introduced this model with a "Spec Ops" finish (green, stainless steel receiver/frame and slide with black fire controls). - features include: shortened grip frame, beavertail grip safety, receiver/frame mounted safety catch (left side), fixed sights, lowered and flared ejection port and a single action trigger mechanism. - in 2003 factory literature this model is noted under the heading "Performance Plus". - a similar pistol with further enhancements (ambidextrous safety catch, full-length recoil guide rod, grasping grooves on the front and rear of the slide, adjustable rear sight, trigger over-travel stop and premium grade barrel) is available as the model "P13 45 Limited".
Manufacturer	- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.
Action	- recoil operated.
Serial Number	- the serial number is marked on the receiver/frame above the trigger as two alpha characters followed by four sequential numbers.
Calibre	- the calibre designation is normally marked on the barrel, visible through the ejection port as, ".45 ACP".
Shots	- double column, detachable box magazine housed in the grip.
Other Markings	- the right side of the receiver/frame will be marked: PARA-ORDNANCE INC. MADE IN FT LAUDERDALE FL CANADA

Notes

Make

- "Para-Ordnance" is marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- "P13·45 Limited" is marked on the right side of the slide.
- this is an enhanced version of the Para-Ordnance "P13 45" semi-automatic pistol.
- the "P" in the model designation denotes that this is a complete handgun (Para-Ordnance originally offered receiver/frame kits only), the "13" denotes the magazine capacity (using high capacity "pre-ban" magazines) and the "45" denotes the calibre (45 AUTO).
- in 2004 Para-Ordnance introduced their new "Power Extractor". The Power Extractor increases the range of movement and surface area of the extractor. The addition of this feature has resulted in Para-Ordnance marking the left side of the slide with the stylized Para Power Extractor "PXT" marking on all models so equipped.
- features include: shortened receiver/frame; single action trigger mechanism; ambidextrous safety lever; beavertail grip safety; adjustable rear sight with a dovetailed front sight; cocking serrations on the front and rear of the slide; full length guide rod; lowered and flared ejection port and a straight mainspring housing.
- available with a matte blued/black finish (steel or alloy) or in stainless steel. In 2004 Para-Ordnance also introduced this model with the "Sterling" finish (all stainless steel, blackened slide with polished sides).

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is on the right side of the receiver/frame above the trigger, will have a two letter prefix.
Calibre	- marked on the top of the barrel, visible in the ejection port.
Shots	- detachable box magazine housed in the grip.

Notes

Make

- "Para" or "Para-Ordnance" is marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- introduced in 1990.
- "P14·45" is marked on the right side of the slide.
- the "P" in the model designation denotes that this is a complete handgun (Para-Ordnance originally offered receiver/frame kits only), the "14" denotes the magazine capacity (using high capacity "pre-ban" magazines, early pistols had a total capacity of 14) and the "45 denotes the calibre (45 AUTO).
- in 2004 Para-Ordnance introduced their new "Power Extractor". The Power Extractor increases the range of movement and surface area of the extractor. The addition of this feature has resulted in Para-Ordnance marking the left side of the slide with the stylized Para Power Extractor "PXT" marking on all models so equipped.
- available in matte black carbon steel, matte black alloy, midnight blue (as of 2005) or stainless steel. In 2004 Para-Ordnance also introduced this model with a "Stealth" finish (black receiver/frame and slide, black fire controls).
- features include: full size receiver/frame and slide; beavertail grip safety; receiver/frame mounted safety catch (left side); fixed sights; lowered and flared ejection port and a single action trigger mechanism.
- in 2003 factory literature this model is noted under the heading "Performance Plus".
- a similar pistol with further enhancements (ambidextrous safety catch, full-length recoil guide rod, grasping grooves on the front and rear of the slide, adjustable rear sight, trigger overt-ravel stop and premium grade barrel) is available as the model "P14 45 Limited" (previously known as the P14 45 Signature).

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- the serial number is on the right side of the receiver/frame above the trigger, usually incorporates a two letter prefix.

Calibre

- calibre designation is located on the top of the chamber area of the barrel.

Shots

- double column, detachable box magazine housed in the grip.

Remarks

- this model is frequently used as the basis for custom competition guns. As such it will be found in a variety of non-standard configurations and features may vary.

Notes

Make

- "Para-Ordnance" is marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- "P15·10" is marked on the right side of the slide.
- introduced in 1990.
- the "P" in the model designation denotes that this is a complete handgun, the "15" denotes the capacity (14 rounds in the magazine and 1 round in the chamber) and the "10" denotes the calibre (10MM AUTO).
- features include: full size alloy, steel or stainless steel receiver/frame and slide; single action trigger mechanism; ambidextrous safety lever; beavertail grip safety; adjustable rear sight with a dovetailed front sight; cocking serrations on the front and rear of the slide; full length guide rod; lowered and flared ejection port and a straight mainspring housing.
- available with a matte blued/black finish or silver (stainless steel).

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- the serial number is marked on the right side of the receiver/frame.
- the serial number usually incorporates a letter prefix and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the top of the barrel, visible through the ejection port.
Shots	- double column, detachable box magazine housed in the grip.

Notes

Make

- "Para-Ordnance" is marked on the left side of the slide.
- "PARA-ORDNANCE INC" over "FT. LAUDERDALE FL." and "MADE IN" over "CANADA" are marked on the right side of the receiver/frame above and forward of the trigger guard.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "P16·40 Limited" is marked on the right side of the slide. - this is an enhanced version of the Para-Ordnance "P16 40" semi-automatic pistol, originally known as the "P16 40 Signature". - the "P" in the model designation denotes that this is a complete handgun (Para-Ordnance originally offered receiver/frame kits only), the "16" denotes the magazine capacity (using high capacity "pre-ban" magazines) and the "40" denotes the calibre (40 S&W). - in 2004 Para-Ordnance introduced their new "Power Extractor". The Power Extractor increases the range of movement and surface area of the extractor. The addition of this feature has resulted in Para-Ordnance marking the left side of the slide with the stylized Para Power Extractor "PXT" marking on all models so equipped. - features include: full size receiver/frame and slide; single action trigger mechanism; ambidextrous safety lever; beavertail grip safety; adjustable rear sight with a dovetailed front sight; cocking serrations on the front and rear of the slide; full length guide rod; lowered and flared ejection port and a straight mainspring housing. - available with a matte blued/black finish or in stainless steel.
Manufacturer	- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.
Action	- recoil operated.
Serial Number	- the serial number is marked on the right side of the receiver/frame above the trigger, incorporates a two letter prefix.
Calibre	- marked on the top of the barrel, visible in the ejection port.
Shots	- detachable box magazine.
Other Markings	- the right side of the receiver/frame will be marked: PARA-ORDNANCE INC. MADE IN FT LAUDERDALE FL CANADA
Remarks	- this model is frequently used as the basis for custom competition guns. As such it will be found in a variety of non-standard configurations and features may vary.

129787 - 2	9MM LUGER	18	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Para-Ordnance" is marked on the left side of the slide.
- "PARA-ORDNANCE INC" over "FT. LAUDERDALE FL." and "CANADA" are marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- "P18·9 Limited" is marked on the right side of the slide.
- the "P18" series was introduced in 1998.
- the "P" in the model designation denotes that this is a complete handgun (Para-Ordnance originally offered receiver/frame kits only), the "18" denotes the magazine capacity (using high capacity "pre-ban" magazines) and the "9" denotes the calibre (9MM LUGER).
- in 2004 Para-Ordnance introduced their new "Power Extractor". The Power Extractor increases the range of movement and surface area of the extractor. The addition of this feature has resulted in Para-Ordnance marking the left side of the slide with the stylized Para Power Extractor "PXT" marking on all models so equipped with "Para, PXT logo, and Hi-Cap".
- features include: full size stainless steel receiver/frame and slide; beavertail grip safety; receiver/frame mounted safety catch (left side); fixed sights; lowered and flared ejection port and a single action trigger mechanism.
- in 2003 factory literature this model is noted under the heading "Performance Plus".

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- serial number is usually marked on the right side of the receiver/frame.
- serial number usually incorporates a letter prefix and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the top of the barrel, visible through the ejection port.
Shots	- double column, detachable box magazine housed in the grip.

- introduced in 2006.
- "SSP Nite-Tac" is marked on the right side of the slide and "PARA 1911" is marked on the left side of the slide. The left side of the slide also bears the stylized Para Power Extractor "PXT" marking. The Power Extractor increases the range of movement and surface area of the extractor.
- features include: receiver/frame has an integral rail machined into the dust cover for mounting a variety of accessories; high visibility, low mount, three-dot sights dovetailed into the slide; competition hammer; beavertail grip safety; safety catch is mounted on the left side of the receiver/frame; flared ejection port; available in stainless steel or with a "Covert Black" finish; single action trigger mechanism; skeletonized match trigger; wood grip plates.

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- the serial number is marked on the receiver/frame, rationalization unknown.

Calibre

- calibre designation is usually marked on the barrel, visible through the ejection port.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine housed in the grip.
- aftermarket magazines are available with an increased capacity.

Notes

Make

- "Para", the Power Extractor (PXT) stylized logo and "1911" are marked on the left side of the slide.
- "PARA USA INC" and "FT. LAUDERDALE FL." are usually marked on the right side of the receiver/frame above and forward of the trigger guard.
- "MADE IN CANADA" is usually marked on the under side of the receiver/frame, forward of the trigger guard.

Model

- this is a full sized pistol that uses a single column magazine.
- "Para", the Power Extractor (PXT) stylized logo and "1911" are marked on the left side of the slide.
- "PXT" or the new Power Extractor increases the range of movement and surface area of the extractor.
- this pistol was made to commemorate the Canadian Forces' "Task Force Kandahar" T 1-08 (conducted by the Princess Patricia's Canadian Light Infantry) combat mission in Afghanistan during 2008; "KANDAHAR" is marked on the right side of the slide, with a maple leaf at the right rear of the slide TF108 on the left rear side.
- features include: tan Cerakote finish; fixed Trijicon rear night sight with a dovetailed front sight; competition hammer; beavertail grip safety; ambidextrous safety catch mounted on the receiver/frame; accessory rail on the dust cover for mounting lights or lasers; flared ejection port; single action trigger mechanism; skeletonized match trigger; black synthetic grip plates.

Manufacturer

- "PARA USA INC" and "FT. LAUDERDALE FL." are usually marked on the right side of the receiver/frame above and forward of the trigger guard.
- "MADE IN CANADA" is usually marked on the under side of the receiver/frame, forward of the trigger guard.

Action

- recoil-operated.

Serial Number

- serial-numbered on the bottom of the receiver/frame, at the rear of the accessory rail on the dust cover.

Shots

- detachable box magazine.

122352 - 2	45 AUTO	13	108	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Para", the Power Extractor (PXT) stylized logo and "Hi-Cap" are marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- introduced in 2004 as an evolution of the model "P13 45 Limited". This model was originally made in limited numbers as the model "S13 45 Limited".
- "Para", "PXT" stylized logo and "Hi-Cap" are marked on the left side of the slide.
- "13·45 Limited" is marked on the right side of the slide.
- this is an enhanced version of the Para-Ordnance "P13 45" semi-automatic pistol, previously known as the "P13 45 Limited".
- the "13" in the model designation denotes the magazine capacity (using high capacity "pre-ban" or "law enforcement only" magazines) and the "45" denotes the calibre (45 AUTO).
- in 2004 Para-Ordnance introduced their new "Power Extractor". The Power Extractor increases the range of movement and surface area of the extractor. The addition of this feature has resulted in Para-Ordnance marking the left side of the slide with the stylized Para Power Extractor "PXT" marking on all models so equipped.
- features include: full size receiver/frame and slide; single action trigger mechanism; ambidextrous safety catch; beavertail grip safety; adjustable rear sight with a dovetailed front sight; grasping grooves machined into the front and rear of the slide; full length guide rod; lowered and flared ejection port and an arched mainspring housing.
- this model is available with the "Sterling" finish (all stainless steel with a black slide with polished sides).

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the right side of the receiver/frame above the trigger, will usually incorporate a two letter prefix.
Calibre	- calibre designation is marked on the top of the barrel, visible in the ejection port.
Shots	- detachable box magazine housed in the grip.

Firearm Reference Number (FRN): 126972
Make: Para Ordnance
Model: PXT Hi-Cap Big Hawg

Summary

Make:	Para Ordnance
Model:	PXT Hi-Cap Big Hawg
Manufacturer:	Para Ordnance
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
126972 - 1	45 AUTO	10	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
126972 - 2	45 AUTO	14	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Para", the Power Extractor (PXT) stylized logo and "Hi-Cap" are marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- introduced in 2007.
- "Para", stylized "PXT" and "Hi-Cap" are marked on the left side of the slide.
- "Big Hawg" is marked on the right side of the slide.
- "PXT" in the model designation was introduced in 2004 and denoted the use of the Power Extractor, this increases the range of movement and surface area of the extractor.
- "Hi-Cap" in the model designation denotes the use of a wider than normal receiver/frame for use with "high capacity" staggered column magazines.
- features include: high visibility, low mount three-dot sights dovetailed into the slide; competition hammer; beavertail grip safety; alloy receiver/frame; extended safety catch mounted on the left side of the receiver/frame; flared ejection port; single action trigger mechanism; regal blue finish.
- overall length with a 127mm (5.0") is 216 mm (8.5"), and average weight is .79 kg (28 oz).

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number had a two letter prefix followed by four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is usually marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine housed in the grip.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
126977 - 1	45 AUTO	10	89	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
126977 - 2	45 AUTO	12	89	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Para", the Power Extractor (PXT) stylized logo and "Hi-Cap" are marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- "Para", "PXT" stylized logo and "Hi-Cap" are marked on the left side of the slide.
- "P12·45" is marked on the right side of the slide.
- the "P" in the model designation denotes that this is a complete handgun (Para-Ordnance originally offered receiver/frame kits only), the "12" denotes the magazine capacity (using high capacity "pre-ban" magazines) and the "45 denotes the calibre (45 AUTO).
- Para-Ordnance introduced their new Power Extractor (PXT) in 2004. The Power Extractor increases the range of movement and surface area of the extractor.
- features include: shortened grip frame, beavertail grip safety, receiver/frame mounted safety catch (left side), fixed sights, lowered and flared ejection port and a single action trigger mechanism.
- available in matte black carbon steel, matte black alloy or stainless steel.
- in 2003 factory literature this model is noted under the heading "Performance Plus".
- a similar pistol with further enhancements (ambidextrous safety catch, full-length recoil spring guide rod, adjustable rear sight, trigger over-travel stop and premium grade barrel) is available as the model "P12 45 Limited".

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame above the trigger. - usually incorporates a two letter prefix.
Calibre	- calibre is marked on the barrel, visible through the ejection port.
Shots	- double column, detachable box magazine housed in the grip.
Other Markings	- the right side of the receiver/frame will be marked: PARA-ORDNANCE INC. MADE IN FT LAUDERDALE FL CANADA

Notes

Make

- "Para", the Power Extractor (PXT) stylized logo and "Hi-Cap" are marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- introduced in 2004 as an evolution of the model "P12 45 Limited".
- the model designation is marked on the right side of the slide as "S12·45 Limited".
- this is an enhanced version of the Para-Ordnance "P12 45" semi-automatic pistol, originally known as the "P12 45 Limited".
- the "12" in the model designation denotes the magazine capacity (using high capacity "pre-ban" or "law enforcement only" magazines) and the "45" denotes the calibre (45 AUTO).
- in 2004 Para-Ordnance introduced their new "Power Extractor". The Power Extractor increases the range of movement and surface area of the extractor. The addition of this feature has resulted in Para-Ordnance marking the left side of the slide with the stylized Para Power Extractor "PXT" marking on all models so equipped.
- features include: full size receiver/frame and slide; single action trigger mechanism; ambidextrous safety catch; beavertail grip safety; adjustable rear sight with a dovetailed front sight; grasping grooves machined into the front and rear of the slide; full length guide rod; lowered and flared ejection port and an arched mainspring housing.
- this model is available with the "Sterling" finish (all stainless steel with a black slide with polished sides).

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the right side of the receiver/frame above the trigger, will usually incorporate a two letter prefix.
Calibre	- marked on the top of the barrel, visible in the ejection port.
Shots	- detachable box magazine housed in the grip.

122144 - 2	45 GLOCK AP	6	76	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Para", the Power Extractor (PXT) stylized logo and "LDA" are marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- introduced in 2004 as an evolution of the model "Carry C6 45 LDA".
- "CARRY" is marked on the right side of the slide (examples in 45 GLOCK are marked CARRY GAP).
- "PARA", the stylized "PXT" logo, and "LDA" are marked on the left side of the slide.
- the "PXT" in the model designation is in reference to the new Power Extractor which increases the range of movement and surface area of the extractor.
- the "LDA" in the model designation is in reference to the "Light Double Action" trigger mechanism.
- features include: high visibility, low mount, three-dot sights dovetailed into the slide; spurless hammer; "Griptor" grasping grooves on the frontstrap and rear of the slide; contoured grip safety; safety catch mounted on the left side of the receiver/frame; flared ejection port; double action trigger mechanism.
- available with a natural stainless steel finish, "Covert" black or with the "Stealth" finish (black slide, receiver/frame and fire controls).
- overall length is 165mm (6.5"), overall height is 121mm (4.75"), average weight is 30oz.

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- the serial number is marked on the right side of the receiver/frame above the trigger.
- observed specimen had a letter prefix and six digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is usually marked on the barrel, visible through the ejection port. - the 45 GLOCK variant was introduced in late 2006.
Shots	- single column, detachable box magazine housed in the grip.

Notes

Make

- "Para", the Power Extractor (PXT) stylized logo and "LDA" are marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the receiver/frame above and forward of the trigger guard.

Model

- introduced in late 2005.
- "NITE-TAC SS" is marked on the right side of the slide, the left side of the slide bears the stylized Para Power Extractor "PXT" marking and the "LDA" designation. The LDA in the model designation denotes Light Double Action in reference to the trigger mechanism. The Power Extractor increases the range of movement and surface area of the extractor.
- features include: black or stainless steel overall finish; high visibility, low mount, three-dot sights dovetailed into the slide; grasping grooves on the rear of the slide; beavertail grip safety; safety catch mounted on the left side of the receiver/frame; flared ejection port; double action trigger mechanism; "bobbed" hammer; "single-stack" receiver/frame (for use with single column magazines) has an accessory mounting rail machined into the dust cover.
- Para-Ordnance also uses the "Nite-Tac" model designation on a "wide-body" model with the LDA feature.

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- serial number is marked on the receiver/frame, rationalization unknown.

Shots

- detachable box magazine housed in the grip.

Model: PXT LDA Tac-Forty

Summary

Make:	Para Ordnance
Model:	PXT LDA Tac-Forty
Manufacturer:	Para Ordnance
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
124908 - 1	40 S&W	10	108	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
124908 - 2	40 S&W	15	108	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Para", the Power Extractor (PXT) stylized logo and "LDA" are marked on the left side of the slide.
- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Model

- introduced in 2005 as an evolution in the "LDA" model line.
- "Para", the Para Power Extractor stylized "PXT" logo and "LDA" are marked on the left side of the slide.
- "Tac-Forty" is marked on the right side of the slide.
- the Para Power Extractor "PXT" increases the range of movement and surface area of the extractor.
- "LDA" in the model designation denotes the "Light Double Action" trigger mechanism.
- features include: steel receiver/frame and slide with a matte finish; grasping grooves on the rear of the slide; double action only trigger mechanism; low mount sights dovetailed into the slide; contoured grip safety (no extended tang); spurless hammer; straight mainspring housing; safety catch mounted on left side of the receiver/frame; flared ejection port.

Manufacturer

- "PARA-ORDNANCE INC", "FT. LAUDERDALE FL." and "MADE IN CANADA" are usually marked on the right side of the receiver/frame above and forward of the trigger guard.

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame, incorporates an alpha character prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine housed in the grip.
