26255 - 3	9MM LUGER	32	152	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is an extremely lightweight, short submachinegun, intended for use by security and armed forces; a newer version of this submachinegun is available as the "MGP84".
- features include: tubular receiver/frame; open adjustable sights; side-folding stock; magazine well in pistol-grip; knurled barrel nut; safety/selector lever and cocking-handle on left side of receiver/frame; easily-adaptable to use silencers/suppressors; and uses Uzi magazines.
- this submachinegun is intended to fill the same tactical role as the Mini-Uzi.
- also available in semi-automatic-only as the MGP14.

Manufacturer

- the manufacturer may not be marked on the firearm; Sima-Cefar is a government manufacturer in Callao, Peru. "SIMA" stands for Servicio Industrial de la Marina, and "CEFAR" stands for Centro de Fabrication de Armas.

Action

- blowback operated.

Serial Number

- numbered on receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine; this firearm uses magazines that were originally designed for the Uzi submachinegun.

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a standard-pattern domestically-produced submachinegun for use by Peruvian armed forces and security personnel.
- features include: tubular upper receiver/frame with stamped, folded and welded lower receiver/frame; dual rotating safety and selector on the left side of the lower receiver/frame; ventilated barrel shroud; wooden grip panels on the sides of the magazine well, a wooden pistol-grip; and a general appearance that strongly resembles the Smith & Wesson M76 submachinegun.
- a later version of this submachinegun, the "MGP87", follows the same genral layout as the MGP79A, but has a shorter barrel without a ventilated shroud, and has a cocking handle bent upwards to allow use by either hand.

Manufacturer

- the manufacturer may not be marked on the firearm; Sima-Cefar is a government manufacturer in Callao, Peru. "SIMA" stands for Servicio Industrial de la Marina, and "CEFAR" stands for Centro de Fabrication de Armas.

Action

- blowback operated.

Firearm Reference Number (FRN): 186023
Make: Peshawar Arms
Model: Webley-Fosbery 1903 Automatic Revolver Reproduction

Summary

Make:	Peshawar Arms
Model:	Webley-Fosbery 1903 Automatic Revolver Reproduction
Manufacturer:	Peshawar Arms Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	PAKISTAN
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
186023 - 1	38 AUTO	8	150	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
186023 - 2	455 REV	6	150	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- PESHAWAR ARMS - MADE IN PAKISTAN is marked on the barrel.

Model

- model designation is not marked on the firearm.
- This firearm is similar in appearance to the Webley-Fosbery design which was manufactured from 1901-1915. This firearm is designed so that sliding the action, cylinder and barrel assembly back on the frame rotates the cylinder and cocks the hammer therefore the cylinder requires a distinctive (unusual) groove pattern with the appropriate pins in the frame to rotate the cylinder and cock the hammer.
- features include: fixed blade front sight, U notch rear sight, zig zag pattern on the cylinder assembly; manual safety lever on the lower left side , opening latch on the upper left side, single action break open revolver, caliber marked on left side.

Manufacturer

- PESHAWAR ARMS is located in Peshawar Pakistan and has been manufacturing pistols, hunting, and sporting firearms since the 1980's.

Action

- this firearm is both a "semi-automatic" and a "revolver" and as such has the "Action" classified as "Other". This is a recoil operated revolver.

Serial Number

- Located on the right side of the frame/receiver above the pistol grip. Observed example consisted of four numbers, another example consisted of one letter and four numbers.

26623 - 1	22 RF	7	57	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- the make "PET" is marked on top of the barrel.
- Pet is a trade name used by the Hopkins & Allen Company.

Model

- the model designation is marked on top of the barrel.
- manufactured circa 1870.
- features include: fixed blade front sight, spur trigger and birds head grip.
- solid receiver/frame and single action.

Manufacturer

- the manufacturer is not marked on the firearm.

FRT Report

Firearm Reference Number (FRN): 126769
Make: Petcairn, John
Model: Scottish Highlander Regimental Flintlock Pistol

Summary

Make:	Petcairn, John
Model:	Scottish Highlander Regimental Flintlock Pistol
Manufacturer:	Petcairn, John
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
126769 - 1	56 FLINTLOCK	1	184	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "JO.PETCAIRN" was observed marked on the lock.

Model

- model designation is not marked on the firearm.
- manufactured circa 1760.
- traditional Scottish military flintlock pistol.
- features include: all steel construction; round, stepped barrel slightly flared at the muzzle; ram's horn butt with a threaded, centre knob for the touch hole pick; button head, turned ram rod; goose neck cock; lobed trigger tip; belt hook attachment on the left side.
- overall length is 324mm (12 3/4").
- a very similar pistol, the "Black Watch Pistol" is known under several similar names, and must not be confused with the "Murdoch" pistol; where the "Murdoch" pistol has a "ram's-head" butt, with curlicue extensions that help to protect a ball-headed vent-pick threaded into the butt, the "Black Watch Pistol" is made with an all-brass butt and stock, with a double-lobed "kidney-shaped" butt that allows the pistol to be used as a club after the shot is fired.

Manufacturer

- "JO.PETCAIRN" was observed marked on the lock.
- John Petcairn (Pitcairn) was a manufacturer located in Scotland circa 1758 to 1775.

Action

- muzzle loading.

Other Markings

- on a referenced example the barrel was marked "RHR 2n B", with "C5 / N 11" on the back of the grip and "XXVII" marked under the belt hook.

120023 - 2	45 AUTO	7	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make, or logo thereof, is marked on the firearm.
Model	- this is a standard pattern 1911A1-type handgun, built by Peters-Stahl with the original "swinging link" style of lock-up, rather than the GP-35/CZ-75-style "ramp" lock-up seen on most other Peters-Stahl pistols. - features include: blued steel or stainless-steel construction; 127mm (5") or 152mm (6) stainless steel barrel; open adjustable sights; high beavertail grip safety; loop-style hammer and an adjustable match grade trigger.
Manufacturer	- the manufacturer's name, or logo thereof, is marked on the firearm. - Peters-Stahl is a manufacturer based in Paderborn, Germany, that specializes in producing several types of 1911-style semi-automatic pistols; their factory logo consists of "PETERS" over "STAHL", with the loop of the "P" in "Peters" extending out over both words.
Action	- recoil operated.
Serial Number	- numbered on the receiver/frame, rationalization unknown.
Shots	- detachable box magazine.

Notes

Make	- the Peters-Stahl name is marked on the receiver/frame and slide.
Model	- this is a 1911-style semi-automatic pistol with a widened grip to accomodate a high-capacity magazine. - this pistol was designed as a multi-caliber handgun that can be quickly changed from one rimless pistol caliber to another merely by replacing a few parts. - features include: blued slide and receiver/frame with wooden grip panels, extended and ambidextrous safety catch with extended slide release, extended beavertail grip safety, Commander-style hammer, enlarged magazine release, enlarged and beveled magazine well, and rounded or squared trigger guard.
Manufacturer	- Peters-Stahl is a manufacturer based in Paderborn, Germany, that specializes in producing several types of 1911-style semi-automatic pistols.
Action	- recoil operated.
Serial Number	- marked on the right side of the receiver/frame, above the trigger guard.
Calibre	- Peters-Stahl offers conversion units with barrel lengths of 152mm or 127mm for all its models.
Shots	- detachable box magazine.
Remarks	- this firearm is also offered as a receiver/frame only, as such features may vary.

Notes

Make
- the make is marked on the firearm.

Model
- this is a polymer-framed version of the Peters-Stahl "HC" pistol, similar in appearance to STI's line of 2011 pistols.
- features include: synthetic grip-frame with integral magazine well and squared-off trigger-guard; 152mm (6") stainless steel barrel; blued slide with fore and aft serrations; Peters-Stahl's easily interchangeable extractor/ejector combination; and open adjustable sights.

Manufacturer
- the manufacturer is marked on the firearm.
- Peters-Stahl is a manufacturer based in Paderborn, Germany, that specializes in producing several types of "1911"-style semi-automatic pistols; their factory logo consists of "PETERS" over "STAHL", with the loop of the "P" in "Peters" extending out over both words.

Action
- recoil operated.

Serial Number
- numbered on the receiver/frame, rationalization unknown.

Shots
- detachable box magazine.
- this pistol accepts the same magazines as Peters-Stahl's other "HC" models.

Notes

Make

- The make (or logo thereof) is marked on the firearm.

Model

- The model designation is not marked on the firearm.
- This is an unusual single-shot rifle based on the "bull-pup" concept, with the chamber rearward of the shooters firing hand. A lever locked, hinged butt-plate that lifts to expose the chamber and storage for extra ammunition serves as the firearms breech block/bolt.
- Features include: round tapered stainless steel barrel with or with out muzzle break; integral scope-mounting rail; a "button trigger"; a trigger-shaped cocking-handle within the trigger-guard; sling swivels; and an integral locking mechanism under the forearm that requires a key to unlock the mechanism; laminated, camouflaged, or walnut thumbhole stock.

Manufacturer

- The manufacturer (or logo thereof) is marked on the firearm.
- Pfeiffer-Waffen is a custom gunsmith/manufacturer based in Feldkirch, Austria, that manufactures firearms to their customer's specifications.

Action

- Single-shot rifle loaded through a hinged butt-plate.

Serial Number

- Numbered on receiver/frame.

Calibre

- Available in any calibre that the customer desires.

Notes

Make

- "Pfeifer-Waffen" was observed marked on the left side of the mounting block.

Model

- "Mod. SR2" was observed marked on the right side of the mounting block that is mounted to the barrel.
- This is an unusual single-shot rifle based on the "bull-pup" concept, with the chamber rearward of the shooters firing hand. A lever locked, hinged butt-plate that lifts to expose the chamber and storage for extra ammunition serves as the firearms breechblock/bolt.
- Features include: round tapered stainless steel barrel with or with out muzzle break; integral scope-mounting rail; a "button trigger"; a trigger-shaped cocking-handle within the trigger-guard; sling swivels; and an integral locking mechanism under the forearm that requires a key to unlock the mechanism; laminated, camouflaged, or walnut thumbhole stock;
- Total length with a 660mm barrel is 700mm.

Manufacturer

- "Pfeifer-Waffen A-6800 Feldkirch" was observed marked on the left side of the mounting block.
- Pfeiffer-Waffen is a custom gunsmith/manufacturer based in Feldkirch, Austria, that manufactures firearms to their customer's specifications.

Action

- single-shot rifle loaded through a hinged butt-plate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - the serial number was observed marked on the right side of the mounting block that is attached to the barrel.

Calibre
- available in any calibre that the customer desires.
- calibre was observed marked on the left side of the mounting block.

Notes

Make

- "PHASE 5 TACTICAL" or "PHASE 5 WEAPONS SYSTEMS" is marked the left side of the receiver/frame.
- "PHASE 5 TACTICAL" is located in Roseville, California U.S.A..
- "PHASE 5 TACTICAL" logo is a shield outline with the number five in it with or without the words "PHASE" and "TACTICAL".

Model

- "Atlas One" is marked on the left side of the receiver/frame.
- "Atlas One" variants are based on the Colt AR-15/M16 design.
- "Atlas One" is sold as a receiver/frame.
- "Atlas One" may also be in a pistol variant.
- features include: threaded muzzle for flash hider/muzzle brake; standard, heavy profile or grooved, M4 carbine contoured barrel; AR15/M16 standard, low profile, Picatinny rail or folding front sight bracket/gas block; operating gas system may be gas piston operated; accessory rail, free floating or synthetic handguard; A3 accessory rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; collapsible, standard or custom rifle buttstock; synthetic pistol grip; matte black and/or coloured finish.

Manufacturer

- "PHASE 5 TACTICAL" or "PHASE 5 WEAPONS SYSTEMS" is marked the left side of the receiver/frame.
- "PHASE 5 TACTICAL" is located in Roseville, California U.S.A..
- "PHASE 5 TACTICAL" logo consists of a shield outline with the number five in it with or without the words "PHASE" and "TACTICAL".

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a two letter prefix (MA) and four numbers.

Calibre

- "CAL: MULTI" is marked on the left side of the receiver/frame.
- calibre identification is usually marked on the barrel.
- "223 Wylde" is a chamber design and not a calibre. Wylde chamber allow the ability to safely and interchangeably shoot military 5.56MM NATO and .223 REM ammunition.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- "PhaZZer" is marked on the unit.

Model

- introduced in 2010.
- "ENFORCER" was observed marked on the side of the firearm.
- resembles a black semi-automatic handgun with a top mounted equipment rail.
- PhaZZer Enforcer CEW (Conductive Energy Weapon) is similar to Taser X26 and the PhaZZer ammunition is compatible with the Taser X26 ammunition.
- overall length without a cartridge is 170.7 mm.
- overall length with a dart cartridge installed is 202.7 mm.
- overall height is 112.5 mm, and overall width is 36.0 mm, and the average weight with a battery installed is 448 grams.

Manufacturer

- "PhaZZer" is marked on the unit.
- "PhaZZer Electronics Incorporated" is located in Omaha, Nebraska, U.S.A.

Type

- non conventional firearm that resembles a semi-automatic handgun which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Action

- uses a "Shaped Pulse" technology, where a first electric arc penetrates the cloth and the skin barrier followed by a second arc which flows across the first arc and delivers a severe electric current incapacitating the subject by overriding his/her central nervous system.

Barrel

- the barrel length is determined by measuring the overall length of the cartridge.

Notes

Make

- "PHOENIX ARMS" over "ONTARIO, CA. " is marked on the left side of the slide.

Model

- the model designation is marked on the slide as "MODEL HP22A".
- introduced in 1993.
- this is an updated version of the HP22, available in two barrel lengths and as part of a "range kit" with a lockable carry case and cleaning accessories.
- features include: matte blue or matte nickel finish; laminated wood or synthetic grips; open adjustable sights; slide-mounted firing-pin-block safety; ventilated rib on the slide; and a single-action trigger mechanism.
- in calibre 25 AUTO this model is known as the HP25A.

Manufacturer

- "PHOENIX ARMS" over "ONTARIO, CA. " is marked on the left side of the slide.
- "Phoenix Arms" was established in 1992 as a successor firm to Raven Arms Company, which was destroyed by fire in 1991.

Action

- blowback operated.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

Calibre

- marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine housed in the grip.

Notes

Make

- "PHOENIX LOWELL MASS. USA PATENT" is marked on the left side of the slide.
- "PHOENIX" is marked on the grip plates.
- "PHOENIX", "PHOENIX ARMS CO." or "PHOENIX CO." are trade names that were used by several U.S. manufacturer's including "Hopkins & Allen Arms Company" of Norwich, Connecticut, "Whitney Arms Company" of New Haven, Connecticut, "Phoenix Armory" of New York City, "Phoenix Arms Company" of Lowell, Massachusetts, and "Phoenix Arms" of Ontario, California.
- "PHOENIX" or "PHOENIX ARMS CO." was also used by "Robar & DeKerkhove" of Liege, Belgium and "Tomas de Urizar" of Barcelona, Spain.

Model

- " - PHOENIX - " over "Lowell, Mass.U.S.A." is marked on the side of the slide.
- "PHOENIX" within the shape of a cartridge is marked on the grips.
- manufactured circa 1920.
- this is a copy of the "Melior Old Model" pocket pistol.
- features include: fixed sights; blued finish; front and rear vertical gripping serrations; rear mounted safety, internal striker; checkered rubber grip panels.

Manufacturer

- the manufacturer's name and address are marked on the left side of the slide.
- the "Phoenix Arms Company" was located in Lowell, Massachusetts, U.S.A., circa 1920.
- this manufacture is not to be confused with "Phoenix Arms" of Ontario, California, U.S.A., that was established in 1992.

Action

- blowback operated.

Serial Number

- serial number is located on the right side of the receiver/frame and repeated on the slide.
- referenced serial number consisted of three numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
134637 - 1	20X102	1	2352	Prohibited PFR, Part 1, para. 95	Non-Commercial Customization	

Notes

Make

- makers name is not marked on the firearm

Model

- model designation is not marked on the firearm.
- this device is used to test ammunitions for pressure or velocity, to test penetration of (ammunition) projectiles on body armour, ballistic armor and for casualty or accuracy testing of ammunition.
- features include: universal receiver/frame, stand, and mounting bracket.
- barrels may be supplied in any calibre or any length appropriate to the testing the customer wishes to perform.

Manufacturer

- Physics Applications Incorporated (PAI) was founded in 1982.
- Physics Applications Incorporated (PAI) is located in Dayton, Ohio, U.S.A.
- Physics Applications Incorporated (PAI) design and manufacture ballistics research launchers, support equipment and instrumentation.
- Physics Applications Incorporated (PAI) manufacture single stage gas guns, solid propellant guns, and two stage light gas guns.

Type

- "Universal Receiver" is a testing system specifically designed for the firing of multi-calibres of ammunition and/or testing of terminal effects on armour.

Action

- this is a purpose built "test gun" designed for testing ammunition or armour in a scientific environment.

Serial Number

- serial number is marked on top of the receiver/frame.
- observed serial number consisted of eight numbers, a hyphen, and two numbers.

FRT Report

Firearm Reference Number (FRN): 128457
Make: PIAT
Model: MARK 1

Summary

Make:	PIAT
Model:	MARK 1
Manufacturer:	ICI Limited
Level:	Manufacturer Specifications and Commercial Customization
Type:	Other
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128457 - 1	3.5" PIAT	1	254	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "PIAT" or "PITA" is not marked on this firearm.
- "PIAT" is the abbreviation for "Projector, Infantry, Anti-Tank".
- "PIAT" was later known as "PITA".
- "PITA" is the abbreviation for "Projector, Infantry, Tank-Attack".

Model

- "MARK 1" is not marked on the firearm.
- manufactured from 1942 to 1945.
- in service until the 1950s.
- total production of approximately 115,000 units.
- this is a single shot, spigot gun which fires a fin stabilized projectile.
- PIAT fired the following type projectiles: shaped charge anti-tank, HE-shrapnel and smoke.
- features include: 76mm diameter sheet metal tube 610 mm long and a 254 mm long trough at the front end to hold the projectile and a padded T piece on the rear of the tub for a shoulder piece; strong coil spring and spigot piston are housed inside the tube; front and rear sight located on the top of the tube; rear sight is adjustable; trigger and trigger pistol grip/guard are mounted under the tube; single strut support is located in front of the trigger guard.
- NOTE: the spring must be pre-loaded before the firearm can be fired. This task is accomplished by placing the tube between the legs and standing on the T piece, the tube is grabbed at the trigger pistol grip and turning the tube clockwise while at the same time pulling the tube upward until a loud click is heard. This indicates the spring is cocked and locked.
- NOTE: when the spring is cocked and locked the driving spring is under approximately 90 kgs (200 lbs) pre-load.
- overall length is approximately 940 mm (37") and average weight is 14.5 kgs (32 lbs).

Manufacturer

- I.C.I. Limited was located in Belmont, Rideway, Mill Hill, England.
- I.C.I. Limited's war code was S222.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Type

- this is a single shot, spigot gun.
- the spigot is driven into the base of the projectile by a large coil spring.
- when the spigot's firing pin strikes the percussion primer inside the tail tube of the projectile, the propellant charges is ignited and the projectile is launched from the PIAT.
- the recoiling forces from the propelling charge forces the spigot to the rear and automatically recocks the spigot's recoil spring.

15704 - 1	20 PERCUSSION	2	533	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "PICHERAU" or "PICHERAU a PARIS" is usually marked on the firearm.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is an early style of breech-loaded shotgun using a hinged breech to allow loading the chambers from the rear; open the breech is accomplished by pulling upwards on a tang extension that lays along the top of the wrist, which looks like a "tail", leading to this type of mechanism being called a "monkey tail" breechloader.
- features usually include: blued or browned Damascus barrels; checkered walnut stock; underbarrel ramrod/cleaning rod; a large nut around which the hinged rear portion of the breech can rotate; double triggers; manually-cocked hammers on sideplates; and a "monkey-tail tang that is lifted up from the wrist to allow reloading.

Manufacturer

- "PICHERAU", "PICHEREAU" or "PICHERAU a PARIS" is usually marked on the firearm.
- Eugene Picherau was a Paris gunmaker who studied under Jean Samuel Pauly, the gunmaker known for developing the first self-contained cartridge; Pichereau continued working on various breech-loading systems up to the 1850s.

Action

- side by side configuration.

Serial Number

- serial-numbered on the receiver/frame.

Notes

Make

- "H. PIEPER LTD", "H. PIEPER" or a variation thereof will be marked on the barrel and/or receiver/frame.
- "H.P." the abbreviation used by "Henri Pieper" may be marked on the grip plates.

Model

- no model name is marked on this firearm; the model designation is derived from the characteristics of the firearm.
- this handgun is also known as the M1889 or M1890; it was based on the 1889 gas-seal patent of Henri Pieper.
- this second version which is the late model type of the 1889 patent was made by Steyr circa 1897 to 1898; in 1898 Henri Pieper died and the company name was changed to "Etablissements Pieper".
- features include: solid receiver/frame; double action trigger; rebounding spur hammer; swing-out cylinder with Colt-style cylinder release lever on the left side of the receiver/frame; fluted cylinder; full rib barrel with half moon blade front sight; gas seal design whereby the cylinder moves forward to enclose the barrel thereby forming the "gas seal"; checkered wooden grips; blued finish.

Manufacturer

- the manufacturer's name may not be marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "H.P." the abbreviation used by "Henri Pieper" is marked on the grip plates.

Model

- model designation is not marked on the firearm.
- this is a close copy of the Smith & Wesson Top Break No. 3 Single Action Russian Model 3, sometimes called the Smith & Wesson No 3 New Model Russian.
- manufactured circa 1880.
- features include: round ribbed barrel with blade front sight; front hinged receiver/frame with fluted cylinder with automatic extractor/ejector, and top strap mounted fixed rear sight and break open mechanism; exposed spurred hammer; single action trigger mechanism; trigger guard with finger rest; round butt grip frame with wood or hard rubber grip plates, and lanyard ring; blued or nickel plated finish.

Manufacturer

- manufacturer was located in Liege, Belgium.
- in the 1860s, "Henri Pieper" founded a company in Liege, Belgium. The company originally mass produced rifle barrels. In 1880, Pieper started producing shotguns, rifles and revolvers. In 1886, Pieper was granted a patent for a gas-seal revolver. In 1890, he let the patent right slip and they were picked up by the "Nagant" brothers. In 1890, Pieper improved on his previous gas-seal design and incorporated this into his 1893 models. The "Henri Pieper" company produced firearms under his name until his death in 1898.

Serial Number

- serial number is located on the butt and repeated on the cylinder, government issue number may be on the backstrap.

Other Markings

- if this firearm was purchased by the Mexican Government, it may be marked on the left side: with "Ejector Casing" and "R M"

Notes

Make

- make is usually marked on the left side of the recoil spring housing as, "Pistolet Automatique N. PIEPER Bte S.G.D.G" or a variation thereof.

Model

- the model designation does not appear on the firearm.
- "PISTOLET AUTOMATIQUE" may be marked on the left side of the barrel housing.
- introduced in 1907.
- note: a distinctive feature of this model is that it does not have the tip-down barrel that is associated with later Pieper designs, i.e., the Model 1908; the barrel and front end assembly are fixed to the receiver/frame by a cross-bolt.
- features include: recoil spring is located above the barrel, both of which are located within the barrel housing; single action trigger mechanism; swinging-type safety lever located on the rear left side of the receiver/frame; detachable box magazine with the magazine release button located at the bottom of the backstrap; two knurled "humps" are noticeably located on the top rear of the slide to allow the user to retract the slide thereby cocking the pistol; fixed sights; blued finish.
- Belgian proofmarks are apparent on this firearm.

Manufacturer

- manufacturer's designation is usually marked on the left side of the recoil spring housing as, "N. PIEPER Bte S.G.D.G" or a variation thereof.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is usually marked on the right side of the receiver/frame just above the trigger and under the right grip plate.
- known example had a four digit number with a letter prefix; letter prefix "A" has been observed.
- observed example was without a prefix letter and was marked on the right side of the slide.

Shots

- detachable box magazine

Other Markings

- additional markings may consist of the following;
- 1) the grip plates are usually marked with the Nicolas Pieper trademark symbol consisting of the stylized and intertwined letters "N" and "P" within a vertical oval.
- 2) the receiver/frame may also be metal stamped with the stylized and intertwined letters "N" and "P" surmounted by a Crown.

119159 - 2	7.65MM	6	81	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- marked on the left side of the recoil spring housing (above the barrel) as "N. PIEPER".
- also bears Nicolas Pieper's logo of an intertwined "N" and "P" on the grip plates.

Model

- model designation is not marked on the firearm.
- this is a later and improved version of Nicolas Pieper's Model 1907 small pocket pistol with a recoil spring above the barrel and are marked "Pistolet Automatique".
- the primary difference between the 1907 and this model is that the 1908 has a hinged, "tip-up" barrel that is retained by a lever on the left side of the pistol behind the trigger-guard and the 1907 does not have this lever and barrel tipping feature.
- these pistols all share the same external appearance, differing only by calibre and size (7.65mm pistols are approximately twice the size of 6.35mm pistols.)
- features include: blued finish; fixed sights; detachable magazine retained by a catch on the back strap; knurled, swinging safety at the left rear of the receiver/frame, and a knurled "hump" on top of the slide to allow a user to cock the pistol.

Action

- recoil-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame and barrel above the trigger guard and is repeated on the left side of the receiver/frame beneath the right grip plate. - observed example consisted of both a letter prefix followed by four numbers and four numbers without suffix or prefix.
Shots	- detachable box magazine.
Other Markings	- "PISTOLET AUTOMATIQUE N.PIEPER BTE S.GDH." or variation thereof is marked on the left side above the barrel.

- model designation is not marked on the firearm.
- this is a large shoulder-fired harpoon gun made for whalers circa 1882.
- these guns were very heavy smoothbore firearms that could be used to fire a harpoon with attached rope or an explosive "bomb lance", that exploded inside the whale.
- features include: brass construction; tapered smoothbore barrel with a ringed front sight and no back sight; front hinged receiver/frame with left side mounted break open lever and right side mounted serrated cocking lever; single action trigger mechanism; skeletonized buttstock.
- weight is 12 kg (25 lbs).

Manufacturer

- manufacturer is not marked on the firearm.
- Frank Eben Brown was a nephew of Ebenezer Pierce and manufactured whaling guns at 611 Dartmouth St. Dartmouth, Massachusetts circa 1882.

Action

- hinged barrel design.

Serial Number

- serial number was observed marked on the major components.
- observed serial number consisted of one number.

Notes

Make

- during the production history of this model the Pietta markings have varied greatly. Samples have been reported with "F.LLI PIETTA-MADE IN ITALY" or "MADE IN ITALY" marked on the barrel, other samples have been noted with no make or manufacturer markings other than the Pietta "FAP within a diamond" logo marked on the underside of the barrel assembly.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this is a modern reproduction of the Colt model "1860 Army" percussion revolver.
- depending on when the firearm being examined was produced the model designation may or may not be marked on the firearm (samples have been noted marked 'COLT 1860 ARMY" as well as with no markings).
- may also be known as "New Model Army" or "New Army".
- features include: fixed blade front sight and a "V" notch in the nose of the hammer for a rear sights; round barrel with a loading lever mounted on the underside; colour case hardened or brass open top receiver/frame with a removable un-fluted percussion cylinder; exposed spur hammer; single action trigger mechanism; colour case hardened loading lever and spurred hammer; blued barrel and rebated cylinder; steel or brass trigger guard and backstrap; walnut, tan bone or simulated ivory grip panels.
- a version of this model is available with a bright nickel finished receiver/frame, barrel, loading lever, trigger guard, backstrap and spurred hammer as well as a gold finished fluted cylinder, and simulated ivory grip panels.
- barrel lug will have a "U" shape where the plunger accesses the cylinder. This "U" shape is visible from both the left and right side of the revolver.
- cylinder may have a naval engagement scene and will be marked with a patent date of "PAT. SEPT. 10th 1850" or "PATENTED SEPT. 10th 1850".
- also available in a "silver"/nickel finish, and in varying degrees of engraving.

Manufacturer

- during the production history of this model the Pietta markings have varied greatly. Samples have been reported with "F.LLI PIETTA-MADE IN ITALY" or "MADE IN ITALY" marked on the barrel, other samples have been noted with no make or manufacturer markings other than the Pietta "FAP within a diamond" logo marked on the underside of the barrel assembly.

Serial Number

- serial number is marked on the underside of the receiver/frame ahead of the trigger guard. Samples have been noted with the full or partial serial number repeated on the barrel and/or cylinder.

Calibre

- calibre designation is usually marked on the barrel along with the warning "BLACK POWDER ONLY".

Importer

- importer markings may or may not be marked on the firearm.

Other Markings

- in accordance with Italian law, Italian proof marks will be marked on the receiver/frame, cylinder and barrel.

Notes

Make

- the make (or logo thereof) is marked on the firearm.

Model

- "Single Action Army Model", "Single Action" followed by the calibre, or "Model S.A. 1873" may be marked on the barrel.
- this is a modern reproduction of the original Colt 1873 Single Action Army revolver or of the Colt Single Action Army Second Generation revolver.
- depending on the version and date of production, "Pat. Sept. 19, 1871" and "July 2, 72 Jan. 19, 75." may be marked on the left side of the receiver/frame.
- features may include: colour case-hardened, blued, parkerized, stainless-steel or nickel finish; steel or brass backstrap and trigger guard; blade front sight and a receiver/frame mounted rear sight or dovetail front sight and a folding leaf rear sight, traditional or birds-head grip profile.
- the models with the longer barrel lengths may be supplied with a shoulder stock.

Manufacturer

- the manufacturer (or logo thereof) is marked on the firearm.
- may also be marked on the barrel as "Liberty by Pietta Made in Italy".

Serial Number

- serial number is marked on the bottom of the receiver/frame either below the cylinder ahead of the trigger guard or on the butt.
- serial number observed consisted of a letter prefix (E) and five numbers.
- serial number rationalization is unknown.

Calibre

- calibre is marked on the barrel.

FRT Report

Firearm Reference Number (FRN): 191562
Make: Pietta
Model: Colt 1878 Coach Gun Reproduction

Summary

Make:	Pietta
Model:	Colt 1878 Coach Gun Reproduction
Manufacturer:	Pietta
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
191562 - 1	12 GA X 3"	2	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
191562 - 2	12 GA X 3"	2	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- manufacturer's logo, "FAP"in a diamond and/or "F.LLI PIETTA - MADE IN ITALY" may be marked on the firearm.

Model

- introduced in 2017.
- the model may not be marked on the firearm.
- this is a side by side "coach gun" style of shotgun, built as a modern reproduction of the Colt 1878 side hammer shotgun; a hammerless box lock version (a reproduction of the Colt 1883 shotgun) is also produced, as the "Coach Gun".
- features include: bead front sight; round, smoothbore, side by side blued barrels with a solid top rib; front hinged steel receiver/frame with a top tang mounted break open lever and sliding type safety; blued, nickeled or case-hardened side-hammer side lock receiver/frame; double triggers; smooth or checkered walnut beavertail forearm and pistol-grip buttstock; steel butt plate.
- overall length with a 508mm (20") barrel is 953mm (371/2"), average weight is 3.20kg (7 lbs).

Manufacturer

- manufacturer's logo, "FAP"in a diamond and/or "F.LLI PIETTA - MADE IN ITALY" may be marked on the firearm.

Action

- side by side barrel configuration.

Serial Number

- serial number is usually marked on the water table and may be repeated on the underside of the barrel, hidden by the forearm.

Calibre

- calibre designation is usually marked either on top of the barrel or on the underside of the barrel, hidden by the forearm.

Notes

Make

- the make appears on the firearm as the manufacturer's name or logo.

Model

- this is a modern reproduction of a J.H. Dance & Brothers percussion revolver.
- the original J.H. Dancer & Brothers revolver was manufactured in Columbia, Texas circa 1862/1863 for the CSA.
- features include: brass front sight and a V-notch in the hammer nose for a rear sight; blued round to octagonal barrel with rammer/loading lever; flat sided open top brass receiver/frame without a recoil shield protrusion and a non-fluted cylinder; exposed spurred hammer; single action trigger mechanism; square back brass trigger guard; steel, colour case-hardened hammer & loading lever; walnut grips.
- overall length with a 203 mm (8") barrel is 343 mm (13.5"), and the average weights is 1.25 kgs (2.75 lbs).

Manufacturer

- the manufacturer's name or logo appears on the firearm.

Action

- single action.

Serial Number

- the serial number is marked on the bottom of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- black powder percussion.
- calibre designation is marked on the barrel.

Notes

Make

- "Pietta" or "FAP" logo is normally marked on the receiver/frame or barrel.

Model

- model designation is not marked on the firearm.
- this is a reproduction of a Griswold & Gunnison, also known as a Griswold & Grier, Griswold, or Griswoldville percussion revolver.
- Griswold & Gunnison percussion revolvers were originally manufactured in Griswoldville, Georgia between 1862 and 1864 for the C.S.A.
- Griswold & Gunnison's percussion revolver was based on the Colt 1851 Navy but featured a brass receiver/frame, round barrel and non-engraved cylinder.
- features include: round barrel with flat sided barrel lug and hinged loading lever; open top receiver/frame with round cylinder; exposed spur hammer; single action trigger mechanism; brass receiver/frame, trigger guard and back strap; blued barrel and cylinder; color case-hardened hammer, trigger and loading lever; wood grips.

Manufacturer

- manufacturers's name or "FAP" logo is normally marked on the receiver/frame or barrel.

Action

- single action percussion.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the receiver/frame. - serial number observed with six numbers without letter prefix or suffix.
Calibre	- normally marked on the barrel.

Notes

Make

- the Pietta name is usually marked on the barrel(s).

Model

- on the sample examined the model designation was marked on the top of the barrel as "Col. LeMat" within a scroll border. The "Le Mat Cavalry" is one of several "Le Mat" models reproduced by Pietta.
- this muzzle-loading, percussion firearm has a single shot barrel (.65" calibre or 20 GA) with a nine shot (.44" calibre) cylinder, that revolves on the central single shot barrel.
- features include: blued or nickeled finish, also available in a deluxe or super deluxe version with engraving and gold plating: hammer and trigger are colour case-hardened; top barrel is rifled with an octagonal profile, lower barrel is a smoothbore with a round profile (both are normally the same internal length); two-piece checkered walnut grip; lanyard ring on butt, trigger guard has a finger rest (this is a unique feature, the other Le Mat models offered by Pietta have a traditional, rounded trigger guard); lever type barrel release & cross pin barrel selector.

Manufacturer

- the Pietta name is usually marked on the barrel(s).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- muzzle loader. - rifled barrel with a revolving cylinder over a single shot, smooth bore barrel.
Serial Number	- the sample examined was numbered on the underside of the receiver/frame inside the trigger guard.
Calibre	- the .44 calibre rifled barrel fires a .451" round ball and the .65 calibre or 20 gauge smoothbore barrel fires a .630" round ball or buckshot.
Importer	- the importer's name is not always marked on the firearm.
Other Markings	- the barrel(s), cylinder and receiver/frame will usually bear Italian proof marks.

Notes

Make

- Pietta's "FAP" logo over "F.LLI PIETTA" are marked on the right side of the receiver/frame.
- "MADE IN ITALY" over "PATENTED" are marked on the left side of the receiver/frame.
- Pietta's "FAP" logo, "F.LLI PIETTA" and "MADE IN ITALY" are marked on the left side of the barrel and on the right side of the breech block assembly.

Model

- "MISTRAL 2" is marked on the right side of the receiver/frame.
- introduced in 2005.
- the principal difference between the Mistral models 1, 2 & 3 is the physical configuration of the receiver/frame.
- the "Challenge" line of Pietta shotguns may have laser engraving on the receiver/frame.
- features include: gas operated, semi-automatic utilizing an under-barrel tubular magazine; blued smoothbore chrome lined barrel with ventilated rib, brass bead or fibre optic front sight and interchangeable chokes; solid top aluminium alloy receiver/frame with right side ejection and bottom loading; a magazine cutoff is located on the front right side of the receiver/frame; gold plated trigger; cross bolt safety located on the rear of the trigger guard; checkered walnut forearm and pistol grip buttstock with recoil pad; black or nickel finished.
- average weight with 762mm barrel is 3.1kg (6.83 lbs).

Manufacturer

- Pietta's "FAP" logo over "F.LLI PIETTA" are marked on the right side of the receiver/frame.
- "MADE IN ITALY" over "PATENTED" are marked on the left side of the receiver/frame.
- Pietta's "FAP" logo, "F.LLI PIETTA" and "MADE IN ITALY" are marked on the left side of the barrel and on the right side of the breech block assembly.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is marked on the rear left side of the receiver/frame. - serial number rationalization is unknown.
Calibre	- marked on the right side of the barrel.
Shots	- under-barrel tubular magazine.

Notes

Make

- "F.LLI PIETTA", "MADE IN ITALY" and the "FAP" logo are marked on the left side of the firearm.

Model

- "MOD. PPS/50" is marked on the left side of the receiver/frame.
- Visually resembles a "Soviet PPSH" submachine gun.
- Features include: light colored hardwood stock with finger-grooves on both sides of the forend, or fixed or telescoping synthetic stock with or without forend accessory rail for vertical grip; black full length ventilated shroud covering the barrel; right side receiver/frame mounted safety release; black receiver/frame with nickel colored bolt and right side cocking handle; drum or stick magazine available; magazine release located in the trigger guard; metal butt plate.
- In 2010 a synthetic version was released, features remained the same except for the black synthetic one piece stock.
- In 2025 a 305mm (12 inches) short barrel version was introduced.
- Overall length with a 305 mm (12 inches) barrel is 737 mm (29 inches).

Manufacturer

- "F.LLI PIETTA", "MADE IN ITALY" and the "FAP" logo are marked on the left side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number rationalization is unknown. - observed serial number consisted of an "A" prefix followed by five numbers. - "CAT. 3046" is marked on the left side of the receiver/frame. - "3046" is not the serial number, this is an Italian Proof House catalogue number.
Calibre	- "22 LR" is marked on the left side of the receiver/frame.
Shots	- detachable box or drum magazine.
Other Markings	- the firearm will usually bear the Italian National Proof House, Catalogue Number "3046". A "Catalogue" number is required on all rifled firearms produced or imported into Italy that were manufactured after 1890.

FRT Report

Firearm Reference Number (FRN): 24376
Make: Pietta
Model: Remington New Model Army Target

Summary

Make:	Pietta
Model:	Remington New Model Army Target
Manufacturer:	Pietta
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
24376 - 3	36 PERCUSSION	6	165	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
24376 - 2	36 PERCUSSION	6	203	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
24376 - 4	44 PERCUSSION	6	165	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
24376 - 1	44 PERCUSSION	6	203	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- markings include the Pietta logo (a stylised FAP within a diamond) which is usually located on the bottom strap of the grip-frame or on the barrel. In later production pieces, the right side of the barrel may be marked "F.LLI PIETTA - MADE IN ITALY".
Model	- model designation is not marked on the firearm. This model resembles the Remington produced "New Model Army", also known as the model 1858. - available in stainless steel or blued versions, octagonal barrel, case-hardened hammer, brass trigger guard. - this model is identical to the Remington New Model Army Reproduction by Pietta except the Target model has an adjustable rear sight and elevated ramp-style front sight.
Manufacturer	- manufacturer identifiers are usually marked on the bottom of the butt or on the barrel.
Serial Number	- usually located on the bottom strap of the grip-frame.
Calibre	- calibre markings usually include "Black Powder Only 36 (or 44) Cal".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer - importer markings may or may not be marked on the firearm.

Other Markings - this model will usually be marked with Italian proof marks and a catalogue number assigned by the Italian National Proof House.

Notes

Make

- "FAP" in a diamond and "F.LL.I PIETTA - MADE IN ITALY" is marked on the right side of the barrel.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of a "Remington New Model Army" with a brass receiver/frame.
- "Remington New Model Army" black powder percussion revolver was originally manufactured with a steel receiver/frame by Remington between 1863 to 1875.
- features include: blade front sight and a groove and notch in the top strap for a rear sight; blued octagonal barrel with a hinged loading lever mounted on the underside; brass receiver/frame with a blued non-fluted percussion cylinder; blued or colour case-hardened exposed spur hammer; single action trigger mechanism; brass trigger guard and grip strap; wooden grip plates.

Manufacturer

- manufacturer located in Gussago, Italy.
- manufacturer's designation may be marked on the right hand side of the barrel as "Pietta" or "F.LLI Pietta.
- further identification may also include the following markings: "FAP" monogram, or "FAP" within a diamond.

Serial Number

- serial number is usually marked on the bottom of the grip strap of the receiver/frame.
- serial number observed consisted of a letter "R" prefix and six numbers.

Calibre

- calibre usually marked on the right side of the barrel.
- "BLACK POWDER ONLY" followed by the calibre is marked on the left side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- importer markings may or may not be present on the firearm.
- this model has also been sold in North America under a variety of importer trade names.

Other Markings

- this model will bear Italian proof marks, and, depending on date of manufacture, a catalogue number assigned by the Italian National Proof House.

36252 - 2	54 PERCUSSION	1	546	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Pietta name and/or logo are marked on the firearm.

Model

- introduced in 1989.
- model designation is not marked on the firearm.
- this model is a reproduction of the Smith 1857 Percussion Breechloader Carbine used during the Civil War.
- Smith 1857 Percussion Carbine was originally manufactured by the American Machine Works, the Massachusetts Arms Co. and the American Arms Co. from 1861 to 1865.
- Smith 1857 Percussion Carbine was invented by Gilbert Smith of Buttermilk Falls, New York, U.S.A.
- Smith 1857 Percussion Carbine was patented June 23, 1857.
- Gilbert Smith's sales agents were Poultney & Trimble (Thomas Poultney and David B. Trimble) of Baltimore, Maryland, U.S.A.
- features include: blued round to octagonal rifled steel barrel with one barrel band, fixed front sight and an adjustable rear sight; color case-hardened front hinged receiver/frame with right side percussion hammer and break open lever mounted inside the trigger guard; break open lever must be pressed up to allow the barrel to pivot down for loading; single action trigger mechanism; walnut forearm and straight grip buttstock.
- overall length is 991 mm (39") , and the average weight is 3.5 kg (7.75 lbs).
- Smith Artillery Carbine has a sling swivels on the barrel band and buttstock.
- Smith Cavalry Carbine has a saddle bar and ring on the left side of the receiver/frame.

Manufacturer

- Pietta name and/or logo are marked on the firearm.

Action

- hinged barrel design, breech loading, percussion ignition.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the receiver/frame.
- serial number rationalization unknown.

Other Markings

- "Made in Italy" and Italian proof marks appear on barrel.
- the firearm will also bear the Italian National Proof House Catalogue number (required on all post 1890 rifled arms imported into or manufactured in Italy) "Cat.6922".

Remarks

- this is a reproduction of an American Civil War, Smith "capping" carbine. Its requires that a "cartridge" (originals were made up of either a rubber or metal foil tube) loaded with powder and projectile be inserted into the chamber and that a separate percussion cap be placed on an external nipple. The cap is struck by the hammer which detonates, through a small hole in the base of the "cartridge" case, the powder in the cartridge. This firearm features a top break, tipping barrel action with an external side hammer, part round part octagon barrel, walnut buttstock and forearm, brass bladed front sight and folding leaf rear sights.

FRT Report

Firearm Reference Number (FRN): 57779
Make: Pietta
Model: Starr 1858 Double Action Army Reproduction

Summary

Make:	Pietta
Model:	Starr 1858 Double Action Army Reproduction
Manufacturer:	Pietta
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
57779 - 1	44 PERCUSSION	6	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the Pietta name and logo are usually marked on the barrel.
Model	- usually marked "STARR. ARMS. Co. NEW. YORK." on one side of the receiver/frame below the cylinder and "STARR'S PATENT JAN. 15, 1856," on the other side of the receiver/frame below the cylinder. - this firearm is a reproduction of the original Starr 1858 Double Action revolver. The 1858 Double Action was the precursor to the Starr 1863 Single Action Army and differs from the 1863 by having a double action trigger mechanism and having a shorter barrel. - a similar version in calibre 36 PERCUSSION is available as the Starr 1858 Double Action Navy. - features include: non-fluted cylinder; round barrel; walnut grips; blued finish; under-barrel loading lever and a large knurled screw on the upper right side that can be removed to allow the the barrel and upper frame to pivot.
Manufacturer	- the Pietta name and logo are usually marked on the barrel.
Serial Number	- marked on the left side of the receiver/frame.
Calibre	- marked on the left side.
Importer	- the importer's name is not always marked on the firearm.
Other Markings	- will usually bear Italian proof marks on the receiver/frame, barrel and cylinder.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
124272 - 1	12 GA X 3"	4	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
124272 - 2	12 GA X 3"	4	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
124272 - 3	12 GA X 3"	4	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "F.LLI PIETTA" and the "FAP" Pietta logo are marked on the right side of the receiver/frame and barrel.

Model

- introduced in 2005.
- "ZEPHYRUS" is marked on the right side of the receiver/frame.
- the number 1, 2, or 3 may be marked after the model name, this number indicates the shape of the receiver/frame.
- the Challenge line of Pietta shotguns may have a laser engraving on the right side of the receiver/frame.
- this model uses an "Inertia Driven" operating system that when fired, using the rearward recoil movement of all parts but for a free-floating bolt with a rotating bolt head which compresses an inertia spring. Once pressure levels have dropped to a safe level the inertia spring pushes the bolt rearward with enough energy to unlock the bolt head, eject the spent cartridge and re-cock the hammer. The recoil spring then pushes the bolt forward, feeding a new cartridge into the chamber and locking the bolt head.
- features include: chrome lined blued barrel; brass bead or fibre optic front sight; ventilated rib; internal choke; black or nickel finished receiver/frame; checkered walnut pistol grip stock and forend; gold plated trigger; may have a rubber ventilated recoil pad.
- average weight with 760 mm barrel is 3.1kg (6.83 lbs).

Manufacturer

- "F.LLI PIETTA" and the "FAP" Pietta logo are marked on the right side of the receiver/frame and barrel.

Action

- inertia operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the receiver/frame. - the serial number rationalization is unknown.
Calibre	- the calibre designation is marked on the barrel.
Shots	- tubular magazine mounted under the barrel.

Notes

Make

- "J. Pire & Cie." may be marked on the top of the right barrel.
- Jules Pire & Cie began operation as a retailer, importer/exporter, and refurbisher of firearms in Liege, Belgium during 1885; prior to 1899 the firm relocated to Antwerp, Belgium where it remained in operation until 1970.

Model

- "Buffalo" is usually marked in gold on the top of the centre rib between the barrels.
- this is a side by side shotgun using the Greener cross-bolt locking system.
- introduced during 1894.
- features may include: bright plain or engraved receiver/frame; side locks with internal or external hammers; top lever opening; tang safety; dual triggers; blued barrels; bead front sight; checkered, straight grip stock.

Action

- side by side configuration.

Serial Number

- serial number is located on the action flats of the receiver/frame.
- observed examples usually consist of a series of five numbers without a letter prefix or suffix.

Notes

Make

- "pkp" and/or "PKP INC." is marked on the firearm.
- "PKP" denotes Powell Knife Pistol".

Model

- manufactured in 1997 and 1998.
- the full model designation is not marked on the firearm; marked only with the logo "pkp" (standing for "Powell Knife Pistol").
- this is an unusual single-shot firearm similar to the Elgin cutlass, combining a firearm with a Bowie-type knife, designed and put into production by a Mr. Powell.
- features include: stainless-steel receiver/frame and blade with matte finish (some early examples were made with a brass receiver/frame and a tool-steel blade); rosewood or walnut grip panels; single-action spur trigger; manually-cocked hammer; automatic extractor; and an action-opening lever on the side of the receiver/frame (the hammer must be set at half-cock to open the action).

Manufacturer

- "pkp" and/or "PKP INC." and "TUCSON AZ USA" is marked on the firearm.
- PKP's logo consists of the lower-case letters "pkp" bounded on the top and bottom by straight lines.
- "PKP" denotes Powell Knife Pistol".
- "PKP Inc." was also located in Tempe, Arizona, U.S.A.

Action

- hinged barrel design.

21305 - 11	5.7MM JOHNSON SPITFIRE	5	502	Prohibited PFR, Part 1, para. 236(z.22)	Non-Commercial Customization	

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "PLAINFIELD", "PLAINFIELD MACHINE", "PLAINFIELD" over "MACHINE CO" or "PMC" is marked on the receiver/frame. - "PMC" is the abbreviation for "Plainfield Machine Company".
Model	- the model designation is not marked on the firearm. - this is a variant of the standard U.S. military M1 Carbine. - "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening. - features include: blued finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; fixed wooden pistol grip stock; wooden or perforated metal upper handguard; left side mounted front sling swivel; inletted oil holder/ sing attachment at the buttstock; G.I type front barrel band which may include a bayonet lug. - overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).
Manufacturer	- "PLAINFIELD", "PLAINFIELD MACHINE", "PLAINFIELD" over "MACHINE CO" or "PMC" and "DUNELLEN, N.J." or "MIDDLESEX, N.J." may be marked on the receiver/frame. - "PMC" is the abbreviation for "Plainfield Machine Company". - "Plainfield Machine Company, Incorporated" was originally founded as a machine shop by William Haas and William Storck in Middlesex, New Jersey, U.S.A. in 1951. - "Plainfield Machine Company" manufactured firearms from 1962 to 1978. - "Plainfield Machine Company" was acquired by Iver Johnson Arms Incorporated.
Action	- gas operated.
Serial Number	- the serial number is marked on the side of the receiver/frame.
Barrel	- Plainfield also manufactured longer barrels and unchambered .22 Cal barrels for Wildcat conversions.
Calibre	- the calibre designation is marked on the top of the receiver ring. "Cal. 30 M-1".
Shots	- detachable box magazine.
Remarks	- manufacturer names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fitting, sights and other gadgets may also confuse the issue of specific model identification.

Notes

Make

- "PLAINFIELD", "PLAINFIELD MACHINE", "PLAINFIELD" over "MACHINE CO" or "PMC" is marked on the receiver/frame.
- "PMC" is the abbreviation for "Plainfield Machine Company".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this is a variant of the standard U.S. military M2 Carbine
- "CAL.30 M-1" or "CAL.30 M-2" is usually marked on the top of the receiver/frame in front of the ejection opening.
- Plainfield manufactured both dedicated "M-2" Carbines as well as M-2 Conversion units for law enforcement and export sales. It is possible to encounter a carbine marked "M-1", which has a M-2 conversion unit installed. The conversion unit or the full auto parts are the primary distinguishing feature for this model.
- features include: blued finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; fixed wooden pistol grip stock with perforated metal handguard; left side mounted front sling swivel; inletted oil holder/ sing attachment at the buttstock; front barrel band which may include a bayonet lug; full-auto selector lever located on the left side of the receiver/frame.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "PLAINFIELD", "PLAINFIELD MACHINE", "PLAINFIELD" over "MACHINE CO" or "PMC" and "DUNELLEN, N.J." or "MIDDLESEX, N.J." may be marked on the receiver/frame.
- "PMC" is the abbreviation for "Plainfield Machine Company".
- "Plainfield Machine Company, Incorporated" was originally founded as a machine shop by William Haas and William Storck in Middlesex, New Jersey, U.S.A. in 1951.
- "Plainfield Machine Company" manufactured firearms from 1962 to 1978.
- "Plainfield Machine Company" was acquired by Iver Johnson Arms Incorporated.

Action

- gas operated.

Serial Number

- serial number is marked in a special milled slot on the left side of the receiver/frame, parallel to the chamber area.

Calibre

- the calibre designation is marked on the top of the receiver/frame.

Shots

- detachable box magazine.

Remarks

- manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fitting, sights and other gadgets may also confuse the issue of specific model identification.

- a distinguishing feature of Plainfield manufactured carbines is the slightly curved forward receiver lug.

- another distinguishing feature of the Plainfield manufactured receiver is the location and method of serial numbering. A rectangle with rounded corners was milled into the receiver/frame parallel to the chamber, just long enough to contain the serial number which was then stamped within.

128677 - 3	30 CARBINE	30	457	Prohibited PFR, Part 1, para. 236(z.24)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "PLAINFIELD", "PLAINFIELD MACHINE", "PLAINFIELD" over "MACHINE CO" or "PMC" is marked on the receiver/frame.
- "PMC" is the abbreviation for "Plainfield Machine Company".

Model

- this is a variant of the standard U.S. military M1 Carbine.
- "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: round, rifled barrel; ramped gold bead front sight; adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; deluxe hand checkered and oiled premium American Walnut stock, with pistol grip and high comb and matching handguard; satin blued finish.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "PLAINFIELD", "PLAINFIELD MACHINE", "PLAINFIELD" over "MACHINE CO" or "PMC" and "DUNELLEN, N.J." or "MIDDLESEX, N.J." may be marked on the receiver/frame.
- "PMC" is the abbreviation for "Plainfield Machine Company".
- "Plainfield Machine Company, Incorporated" was originally founded as a machine shop by William Haas and William Storck in Middlesex, New Jersey, U.S.A. in 1951.
- "Plainfield Machine Company" manufactured firearms from 1962 to 1978.
- "Plainfield Machine Company" was acquired by Iver Johnson Arms Incorporated.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is usually found on the top rear of the receiver/frame or on the left side of the receiver/frame parallel to the breech.
Barrel	- Plainfield also manufactured longer barrels and unchambered .22 Cal barrels for Wildcat conversions.
Calibre	- "CAL.30 M-1 " may be marked on the receiver/frame.
Shots	- detachable box magazine.
Remarks	- manufacturer names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fitting, sights and other gadgets may also confuse the issue of specific model identification.

FRT Report

Firearm Reference Number (FRN): 128681
Make: Plainfield Machine
Model: PM30P

Summary

Make:	Plainfield Machine
Model:	PM30P
Manufacturer:	Plainfield Machine Company (PMC)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128681 - 1	30 CARBINE	5	457	Prohibited PFR, Part 1, para. 236(z.29)	Manufacturer Specifications and Commercial Customization	
128681 - 2	30 CARBINE	15	457	Prohibited PFR, Part 1, para. 236(z.29)	Manufacturer Specifications and Commercial Customization	
128681 - 3	30 CARBINE	30	457	Prohibited PFR, Part 1, para. 236(z.29)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "PLAINFIELD", "PLAINFIELD MACHINE", "PLAINFIELD" over "MACHINE CO" or "PMC" is marked on the receiver/frame.
- "PMC" is the abbreviation for "Plainfield Machine Company".

Model

- this is a variant of the standard U.S. military M1 Carbine.
- "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: blued finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; wooden pistol grip stock with telescoping buttstock; perforated metal upper handguard; left side mounted front sling swivel; G.I type front barrel band which may include a bayonet lug.
- overall length with a 457mm (18") barrel is749mm (29.5") with the stock collapsed.

Manufacturer

- "PLAINFIELD", "PLAINFIELD MACHINE", "PLAINFIELD" over "MACHINE CO" or "PMC" and "DUNELLEN, N.J." or "MIDDLESEX, N.J." may be marked on the receiver/frame.
- "PMC" is the abbreviation for "Plainfield Machine Company".
- "Plainfield Machine Company, Incorporated" was originally founded as a machine shop by William Haas and William Storck in Middlesex, New Jersey, U.S.A. in 1951.
- "Plainfield Machine Company" manufactured firearms from 1962 to 1978.
- "Plainfield Machine Company" was acquired by Iver Johnson Arms Incorporated.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is usually found on the top rear of the receiver/frame or on the left side of the receiver/frame parallel to the breech.
Barrel	- Plainfield also manufactured longer barrels and unchambered .22 Cal barrels for Wildcat conversions.
Calibre	- "CAL.30 M-1 " may be marked on the receiver/frame.
Shots	- detachable box magazine.
Remarks	- manufacturer names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fitting, sights and other gadgets may also confuse the issue of specific model identification.

Notes

Make

- "PLAINFIELD", "PLAINFIELD MACHINE", "PLAINFIELD" over "MACHINE CO" or "PMC" is marked on the receiver/frame.
- "PMC" is the abbreviation for "Plainfield Machine Company".

Model

- "PP.30 M-1" may be marked on the top of the receiver/frame.
- features include: blue finish on the receiver/frame and round barrel; adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; wooden pistol grip stock with grooved forend, wooden or ventilated metal handguard; front sight mounted on the front barrel band.
- overall length with a 229mm (9") barrel is 432mm (17") and average weight is 1.70kgs (3.75lbs).

Manufacturer

- "PLAINFIELD", "PLAINFIELD MACHINE", "PLAINFIELD" over "MACHINE CO" or "PMC" and "DUNELLEN, N.J." or "MIDDLESEX, N.J." may be marked on the receiver/frame.
- "PMC" is the abbreviation for "Plainfield Machine Company".
- "Plainfield Machine Company, Incorporated" was originally founded as a machine shop by William Haas and William Storck in Middlesex, New Jersey, U.S.A. in 1951.
- "Plainfield Machine Company" manufactured firearms from 1962 to 1978.
- "Plainfield Machine Company" was acquired by Iver Johnson Arms Incorporated.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is usually found on the top rear of the receiver/frame or on the left side of the receiver parallel to the breech.
Calibre	- "CAL.30 " may be marked on the receiver/frame.
Shots	- detachable box magazine.
Remarks	- manufacturer names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fitting, sights and other gadgets may also confuse the issue of specific model identification.

FRT Report

Firearm Reference Number (FRN): 111095
Make: Plant
Model: Front Loading Army First Model

Summary

Make:	Plant
Model:	Front Loading Army First Model
Manufacturer:	Plant's Manufacturing Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
111095 - 1	42 FRONT-LOADING CUP PRIMER	6	152	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- marked "PLANT'S MFG. CO." on top of the barrel.

Model

- these revolvers are normally marked "PLANT'S MFG. CO. NEW HAVEN, CT" on top of the barrel, with either "M&B" or "M&B / N.Y." on the side of the barrel. The cylinder may also be found marked "PATENTED JULY 12, 1859".
- this is an unusual early "front-loading" revolver made by the Plant's Manufacturing Company for Merwin & Bray during the mid-1860's.
- these revolvers are seen in both brass and iron framed versions, and resemble an enlarged S&W #2 Army revolver, with a barrel that hinges upward on the topstrap to load and unload (later Plant's "Army" designs used a solid-frame design).
- silver plated brass and/or blued finish, spur trigger, fixed sights, walnut or rosewood grips, square butt, octagonal barrel, and a fixed ejector rod under the barrel. (This rod was used to punch empty cases out of the front of the cylinder when the cylinder was removed for reloading/unloading.)
- these revolvers and their patent-ignition "cup-fire" cartridges were designed to circumvent Rollin White's patent on bored-through revolver cylinders, which at that time was held by Smith & Wesson; this necessitated a system which could be loaded only from the front of the cylinder; altogether, it's believed that less than 250 Army First Models were made by Plant's.

Manufacturer

- the Plant's Manufacturing Company of New Haven, Connecticut, was organized to produce metallic cartridge revolvers for the Merwin & Bray Firearms Company of New York City during the 1860's.

Action

- single action revolver.

Serial Number

- numbered on the receiver/frame and/or barrel.

Make: Plant
Model: Front Loading Army Second Model

Summary

Make:	Plant
Model:	Front Loading Army Second Model
Manufacturer:	Plant's Manufacturing Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
111255 - 1	42 FRONT-LOADING CUP PRIMER	6	152	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- marked "PLANT'S MFG. CO." on top of the barrel.

Model

- these revolvers are normally marked "PLANT'S MFG. CO. NEW HAVEN, CT" on top of the barrel, with "MERWIN & BRAY, NEW YORK" on the side of the barrel. The cylinder may also be found marked "PATENTED JULY 12, 1859".
- this is an unusual early "front-loading" revolver made by the Plant's Manufacturing Company for Merwin & Bray during the mid-1860's.
- these revolvers are seen in both brass and iron framed versions, and have an unusual cartridge ejector mounted on the receiver/frame to the rear of the cylinder.
- brass and/or blued finish, spur trigger, fixed sights, walnut or rosewood grips, square butt, octagonal barrel, and an ejector with round knob mounted in a groove on the right side of the receiver/frame.
- Army Second Model revolvers can be distinguished from Army Third Model revolvers by the shape of the receiver/frame where the barrel is threaded into it. Second Model revolvers have an extension of the frame that projects forward to meet the barrel. Third Model revolvers have a flat face at the front of the frame into which the barrel is threaded. Also, revolvers serial-numbered below "700" are considered Second Model variations, while those numbered between 700 and 8000 are considered Third Models.
- these revolvers and their patent-ignition "cup-fire" cartridges were designed to circumvent Rollin White's patent on bored-through revolver cylinders, which at that time was held by Smith & Wesson; this necessitated a system which could be loaded only from the front of the cylinder; altogether, it's believed that less than 400 Army Second Models were made by Plant's.

Manufacturer

- the Plant's Manufacturing Company of New Haven, Connecticut, was organized to produce metallic-cartridge revolvers for the Merwin & Bray Firearms Company of New York City during the 1860's.

Action

- single action revolver.

Serial Number

- numbered on the receiver/frame and/or barrel.

FRT Report

Firearm Reference Number (FRN): 15518
Make: Plate, Adolphus, Joseph
Model: Percussion Rifle

Summary

Make:	Plate, Adolphus, Joseph
Model:	Percussion Rifle
Manufacturer:	Slotter & Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
15518 - 1	45 PERCUSSION	1	851	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "A.J. PLATE" is usually marked on the barrel.
- Adolphus Joseph Plate was a San Francisco, California-based distributor and retailer between 1818 and 1878.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a "hawken"-styled hunting rifle manufactured for A.J. Plate by Slotter & Co. prior to 1878.
- features include: browned or blued finish; open fixed or adjustable sights; octagonal or half-round/half-octagonal barrel; underbarrel ramrod thimbles; half-length straight-grip maple or walnut stock (some with brass or German silver finishings); external manually-cocked hammer on the lockplate; finial trigger guard/gripstrap; double-set triggers; crescent butt.

Manufacturer

- "SLOTTER & Co. PHILa" is usually marked on the firearm.
- Slotter & Company was located in Philadelphia, Pennsylvania, U.S.A. from 1860 to 1870.
- Slotter & Company was founded by Charles and Henry Schlotterbeck.
- Slotter & Company originally manufactured copies of Henry Deringer's pistol.
- Henry Deringer filled a a law suit against Slotter & Company for infringement of trade name circa 1863.
- Slotter & Company took into their partnership, a John Deringer to be able to legally use the Deringer name circa 1863.

Action

- muzzle-loaded percussion ignition.

Notes

Make

- "PNEU-DART" may be marked on the side of the receiver/frame or on the barrel.

Model

- "X-Caliber" is marked on the firearm, observed location on the butt plate.
- this device is purpose built for the tranquilization of animals, domestic and wild.
- features include: round barrel with external muzzle thread for accessories; spring loaded rotating butt plate for loading; machined aluminum receiver/frame with five loop raised accessory rail on top; scope mount; pistol grip and trigger system; CO2 port forward of the trigger guard; left side pressure gauge and housing which can be adjusted in five power levels; sling swivels.

Manufacturer

- "PNEU-DART" may be marked on the receiver/frame or on the barrel.
- Pneu-Dart established in 1967, in Pennsylvania USA.

Action

- CO2 powered.
- Spring loaded through rotating butt plate.
- Velocity varies at will, with choice of five (5) settings.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- The serial number rationalization is unknown.
- Observed serial number consisted of four numbers without alpha prefix or suffix.

FRT Report

Firearm Reference Number (FRN): 141921
Make: POF
Model: P308

Summary

Make:	POF
Model:	P308
Manufacturer:	Patriot Ordnance Factory (POF)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
141921 - 1	7.62MM NATO	5	318	Prohibited PFR, Part 1, para. 87(z.648)	Non-Commercial Customization	

Notes

Make

- "P.O.F" followed by a star and "USA" in a logo form is marked on the left side of the receiver/frame.
- "P.O.F" stands for "Patriot Ordnance Factory".

Model

- "P-308" is marked on the left side of the receiver/frame.
- "P-308" variants are based on the Colt AR-15/M16 design.
- "P-308" is also available as a rifle variant and as a receiver/frame.
- features include: threaded muzzle for flash hider/muzzle brake; heavy contour fluted barrel; gas block with adjustable gas plug for the piston operated system; Picatinny rail, free floating handguard; proprietary upper assembly with a full length Picatinny rail; folding or optical sight; no buttstock, plain, foam covered buffer tube; synthetic pistol grip; integral, enlarged curved trigger guard; ambidextrous safety lever and magazine release; chrome plated internal finish of the upper assembly and bolt group; matte black and/or a coloured finish.
- overall length with a 318mm (12.5") barrel is 781mm (30.75"), average weight is 3.64kg (8.02lbs).

Manufacturer

- "P.O.F" Patriot Ordnance Factory is located in Glendale Arizona U.S.A..
- they first displayed their gas piston operated AR-15 rifles at the 2004 SHOT show.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of referenced examples consisted of two number (year) prefix, a dash and five numbers.

Calibre

- "CALBER: MULTI" is marked on the left side of the receiver/frame.
- calibre identification is usually marked on the barrel.
- 7.62MM NATO rifling characteristics: 1 turn in 10 inches, right hand twist.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- uses various capacity magazines in .308 WIN available from DPMS, Knight Armament, C-Products, etc.

Notes

Make

- "P.O.F" followed by a star and "USA" was observed marked on the left side of the receiver/frame.
- the acronym "P.O.F" stands for "Patriot Ordnance Factory".

Model

- "P-415" is marked on the left side of the receiver/frame.
- this firearm resembles the Colt model AR15/M16 rifle.
- features include: gas piston rifle; fixed or removable muzzle device; barrel may be fluted; no sights; flat top upper assembly with Picatinny rail; free floating handguard of different design and length or M4 carbine plastic type; aluminum alloy lower receiver/frame; rear cocking handle; collapsible stock; ambidextrous safety lever and magazine release; chrome plated internal finish of the upper assembly and bolt group; finish can be a mix of nickel plated, parkerized and black anodized parts.

Manufacturer

- "P.O.F" Patriot Ordnance Factory is located in Glendale Arizona U.S.A..
- they first displayed their gas piston operated AR-15 rifles at the 2004 SHOT show.

Action

- gas operated, short stroke piston.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- serial number rationalization consists of a two number (year) prefix separated by a dash and five numbers.

Calibre

- "CALBER: MULTI" is marked on the left side of the receiver/frame.
- calibre identification is usually marked on the barrel.

Shots

- detachable box magazine.
- uses any of the M-16/AR-15 type magazines.

Notes

Make

- "P.O.F" followed by a star and "USA" was observed marked on the left side of the receiver/frame.
- the acronym "P.O.F" stands for "Patriot Ordnance Factory".

Model

- "P-416" was observed marked on the left side of the receiver/frame.
- this firearm resembles the Colt model AR15/M16 rifle.
- POF model P416 is a full automatic rifle with semi-automatic function.
- features include: full-automatic gas piston rifle; fixed or removable muzzle device; barrel may be fluted; no sights; flat top upper assembly with Picatinny rail; free floating handguard of different design and length or M4 carbine plastic type; aluminum alloy lower receiver/frame; rear cocking handle; collapsible stock; ambidextrous safety lever and magazine release; chrome plated internal finish of the upper assembly and bolt group; finish can be a mix of nickel plated, parkerized and black anodized parts.
- overall length with a 235mm (9.25") barrel and the stock collapsed is 654mm (25.75") and average weight is 2.9 kgs (6.4 lbs)..
- overall length with a 406mm (16.0") barrel and the stock collapsed is 807mm (31.75") and average weight is 3.5 kgs (7.8 lbs).

Manufacturer

- "POF" followed by a star followed by "USA" over GLENDALE, AZ" was observed marked on the left side of the lower receiver/frame.
- Patriot Ordnance Factory, Inc. is located in Glendale, Arizona, U.S.A.
- "P.O.F" Patriot Ordnance Factory is located in Glendale Arizona U.S.A..
- they first displayed their gas piston operated AR-15 rifles in 2004.

Action

- gas operated.
- gas piston/rotating bolt.
- gas operated, short stroke piston.

Serial Number

- serial number was observed marked on the left side of the magazine housing of the lower receiver/frame.
- observed serial numbers have consisted of a "POF" prefix and five numbers or a two number (year) prefix separated by a dash and five numbers.

Calibre

- calibre designation may be marked on the left side of the receiver/frame.
- receiver/frame can be marked "CALIBER: MULTI"

Shots

- detachable box magazine.
- any of the M-16/AR-15 type magazines will fit this model.

Notes

Make

- "POLI NICOLETTA" may be marked on the barrel.
- "P.N." may be marked on the underside of the receiver/frame.

Model

- model designation is not marked on the firearm; this is a descriptor of the firearm type.
- this is an over/under box lock shotgun produced in various small gauges, some with combinations of different gauges in the same barrel set.
- features include: bead front sight; blued smooth bore barrels with ventilated top rib and solid mid-rib; screw-in interchangeable chokes; alloy receiver/frame; single or double trigger; safety/selector lever and break opening lever located on the upper rear tang; checkered Schnabel forearm and pistol grip stock; synthetic butt plate; black finish.

Manufacturer

- "POLI NICOLETTA" may be marked on the barrel.
- "P.N." may be marked on the underside of the receiver/frame.
- "MADE IN ITALY" may be marked on the barrel and/or the underside of the receiver/frame.

Action

- over & under barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the upper tang hidden by the barrel opening lever.
Calibre	- usually marked on the barrel at the breech.

Notes

Make

- the make is not marked on the firearm.

Model

- the model may or may not be marked on the firearm.
- this is a single-shot grenade-launcher adopted by the Polish army in 1974 to replace the PMK-PGN-60 grenade-launching version of their then-standard Kalashnikov-pattern rifle; the Wz74 mounts under the handguard of the rifle, and does not require specialized grenade-launching propellant cartridges, unlike the previous grenade-launcher. A stand-alone version of this grenade-launcher, the Wz83, is also produced, which incorporates a separate pistol-grip and an under-folding AKMS-style metallic stock with a padded buttpad.
- features include: matte blued or parkerized/phosphated finish; an adjustable sight on the left side of the muzzle; a two-piece mounting system to allow attachment to a host rifle; a "bolt-action"-style bolt knob on the right side of the breech-piece to allow the breech to rotate backwards and down for loading/unloading/reloading; a thumb-operated lever safety on the left side of the breech-piece; and a thumb-operated "paddle"-type trigger on the top left of the chamber.

Manufacturer

- manufacturer's name or logo is marked on the firearm.
- Polish State Arsenal, Tarnow was originally established as a Railway Plant in 1917.
- Polish State Arsenal, Tarnow has also been known as Zaklady Mechaniczne Tarnow, Zaklady Mechaniczne Tarnow S.A. (ZMT SA), and ZM Tarnow.
- Zaklady Mechaniczne Tarnow was established in 1951.
- Zaklady Mechaniczne Tarnow was converted from a state company to a joint-stock company and remained Zaklady Mechaniczne Tarnow S.A. (ZMT SA) in 1994.
- Zaklady Mechaniczne Tarnow S.A. (ZMT SA) became a member of the BUMAR Capital Group in 2002.

Action

- hinged breech single-shot.

Serial Number

- numbered on the receiver/frame.

Notes

Make

- the make is not marked on this firearm.

Model

- manufacture commenced in the mid sixties and is discontinued as of 2004.
- the model designation is normally marked on the left side of the slide as, "P-64".
- this model resembles a Walther PPK.
- features include: double action; blued receiver/frame and barrel; exposed round hammer; fixed sights; the firearm has a slide-mounted safety lever, located on the left side of the slide which decocks the hammer when applied; gripping serrations on the rear of the slide; may have black checkered grip panels and when firing or functioning the slide, the action remains to the rear on an empty magazine.

Manufacturer

- the manufacturer is normally marked on the right side of the slide as a factory code, a "11" inside an oval.
- the year of manufacturer may also be marked on the right side of the slide.

Action

- blowback operated.

Serial Number

- the serial number is marked on the right side of the receiver/frame to the rear of the trigger. An observed sample serial number consisted of a two letter prefix followed by five digits.
- the serial number may also be marked on other components of the firearm.
- the serial number will be repeated on the left front of the slide.slide followed by the factory code and the year of production.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is normally marked on the left side of the slide as, "9mm".
Shots	- detachable box magazine.
Remarks	- pistol design developed during the late 1950's by a team of Polish military officers. - design developed as two different prototype models named CZAK (an acronym made from the names of the developer/designers) an "M" model for police use and a "W" model for military use. The differences between the M and the W model are that the W model had a longer barrel and a higher magazine capacity by one cartridge. - in 1961 the CZAK M version was chosen to replace the Tokarev TT-33 pistol as the service side arm for the Polish Armed Forces under the designation 9MM pistolet wz 1964. - production of the P64 commenced in the mid sixties. - the firearm was slightly modified in 1972 with minor changes to the trigger mechanism and a larger hammer spur.

Notes

Make

- the make is not marked on the firearm.

Model

- manufacture commenced in 1983 and continues to date (2004).
- the model designation is normally marked on the left side of the slide as, "P-83".
- features include: double action trigger mechanism; blued receiver/frame and barrel; receiver/frame and slide consist mainly of sheet metal stampings; exposed hammer; the barrel is pinned to the frame; fixed sights; the firearm has a slide-mounted safety lever, located on the left side of the slide which decocks the hammer when applied; a loaded chamber indicator is located just above the safety catch on the slide; the magazine release is located on the base of the butt or hand grip; the firearm may have black checkered grip panels; when firing or functioning the slide, the action remains to the rear on an empty magazine; the slide release is located at the top forward side of the left hand grip.

Manufacturer

- "11" in an oval is usually marked on the right side of the firearm.
- year of manufacture may be marked on the right side of the firearm.

Action

- blowback operated.

Serial Number

- the serial number is marked on the right side of the receiver/frame to the rear of the trigger. An observed sample serial number consisted of a two letter prefix followed by five digits.
- the serial number may also be marked on other components of the firearm.
- the serial number will be repeated on the left front of the slide.slide followed by the factory code and the year of production.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "9mm" may be marked on the slide on the left side of the firearm.
Shots	- detachable box magazine.
Other Markings	- two different styles of markings will be found on these firearms. Polish service pistols are marked "9MM P-83" on the left side of the slide, while pistols intended for the commercial market are marked with a Polish eagle followed by "RADOM wz. P-83 9X18 POLAND Z.M. LUCZNIK". - firearms imported into the U.S.A. will also have the importer's name marked on the left side of the receiver/frame.
Remarks	- pistol design developed during the late 1970's as a replacement for the P64. - the purpose of the new design was to overcome what were considered to be the short comings of the P64 pistol: small magazine capacity, heavy double-action trigger pull and heavy recoil. - design goals for the new model service pistol were: modern production methods and less expensive manufacturing techniques. - this design was developed as two different prototype models named, P-78 Tul and P-78 Wanad. The P-78 Wanad was selected for mass production as the most promising of the two designs. - production commenced in 1983 under the designation of "9mm pistolet wz. 1983" or "P-83 Wanad" when it was adopted as the service side arm for the Polish Armed Forces.

31409 - 2	9MM MAKAROV	8	90	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- may also be known as "Vanad".
- this handgun was manufactured as an easier to produce alternative to the P64.
- for use by the Polish military
- externally, is similar as a Mauser HSC with an external hammer.
- this pistol has been manufactured with both full and half bright chromed finish and with fixed or adjustable sights.

Manufacturer

- manufactured by Polish State Arsenals, but distributed through Europe by Moravia, Ltd., a Czechoslovakian-based wholesaler of Czech and Polish firearms, ammunition and equipment.

Action

- straight blowback semi-auto.

Other Markings

- "9mm P - 83" appears on left side of slide. Some versions also marked with a Polish eagle crest, and "Radom, Poland", along with "Z.M. LUCZNIK".

31682 - 2	9MM MAKAROV	25	185	Prohibited PFR, Part 1, para. 167(b)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this is a semi-automatic ONLY "submachine gun" built by Radom that externally looks similar as a Argentinian "PMK 3", but is actually an updated version of the Polish "PM 63".
- it has a telescoping wire-frame stock and a forward gripping handle that folds up under the barrel to provide a horizontal fore-end.
- the magazine is inserted in the grip frame and the firearm is cocked with a set of "ears" that extend up over the top of the receiver on both sides.

Shots

- Detachable box magazine housed in the grip.

Notes

Make

- the make will not be found marked on the firearm.

Model

- this firearm model is a semi-automatic version of the Polish PM98 SMG.
- this design is similar to the UZI SMG in that the bolt surrounds the rear of the barrel with the breech face being recessed into the bolt.
- features include: extensive use of sheet metal stampings and plastic; the bolt and barrel are the only major parts that are made from steel and require machining; the foregrip and hand grip are made from plastic; the magazine inserts into the hand grip; the fire selector is located on the left side of the receiver/frame and also functions as a safety catch; the pistol grip contains a rate reducer which has little or no function in the semi-automatic version of this firearm; retractable wire stock and foreward-folding fore grip; rear sight adjustable for three ranges, 75m (both open and peep), 150m and 200m; the magazine catch is located at the bottom of the pistol grip and the firearm is cocked with a set of "ears" that extend up over the top of the receiver/frame on both sides.

Manufacturer

- "11" in an oval is marked on the left side of the receiver/frame, over the date of manufacture.

Action

- blowback operated, capable of semi-automatic fire only.

Serial Number

- the serial number will be found on the left, upper rear portion of the receiver/frame and may be found repeated on other components.
- serial number rationalization unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- Detachable box magazine housed in the grip.

Remarks

- this firearm design was developed during the early 1980's by a design team of engineers from the Polish State Arsenal at Radom, Factory 11, to replace the SMG model pm wz63.
- the original prototype model was named the wz. 1981.
- after a period of testing and trials this fiream model was adopted for use in the Polish Armed Forces and went into production in 1984 as the 9MM pm wz. 1984 (9MM SMG Model 1984).
- the pm84P is the model pm84 SMG in 9MM LUGER calibre with some modifications to increase the mass of the breech mechanism for the purpose of reducing the cyclic rate of fire when the more powerful 9MM Luger cartridge is substituted for the 9MM Makarov cartridge.

Notes

Make

- the make will not be found marked on the firearm.

Model

- model designation is not marked on the firearm.
- manufactured from 1963 to 1980.
- features include: retractable metal stock and folding plastic foregrip; the magazine well is in the pistol grip; the safety catch is located on the left side at the upper rear portion of the pistol grip; this firearm has no selector, semi-automatic fire is achieved by a partial trigger pull and full-automatic fire is achieved by completely depressing the trigger; the magazine catch is located on the bottom of the pistol grip; the firearm has a rate reducer built into the rear of the receiver/frame to lower the cyclic rate to 650 shots per minute; the elongated and enlarged forward portion of the slide assists in reducing muzzle flip and may be used as an assist for one handed cocking of the mechanism; the rear sight is adjustable for 75 or 150 meters range, the front sight is fixed.
- a variant model was designed in 9MM Luger calibre but exists in pre-production prototype quantities only.

Manufacturer

- "11" in an oval is usually marked on the right side of the firearm.
- year of manufacture may be marked on the right side of the firearm.

Action

- blowback operated, advanced primer ignition.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number may be found marked on the right side of the receiver/frame.
- an observed serial number consisted of a two letter prefix followed by four digits followed by the manufacturer identification code and the year of manufacture.

Shots

- detachable box magazine.

Remarks

- this firearm design was developed under the leadership of Prof. Piotr Wilniewczyc, one of the designers of the VIS Pistol.
- this design was developed for the Polish Special Forces.
- production commenced in 1964.
- this firearm still in service with Polish police and military forces (2004).
- an unlicenced copy of the 9MM pm Wz63 is being manufactured in China and sold by NORINCO.

Notes

Make

- the make will not be found marked on the firearm.

Model

- model designation is not marked on the firearm.
- manufactured from 1963 to 1980.
- features include: retractable metal stock and folding plastic foregrip; the magazine well is in the pistol grip; the safety catch is located on the left side at the upper rear portion of the pistol grip; this firearm has no selector, semi-automatic fire is achieved by a partial trigger pull and full-automatic fire is achieved by completely depressing the trigger; the magazine catch is located on the bottom of the pistol grip; the firearm has a rate reducer built into the rear of the receiver/frame to lower the cyclic rate to 650 shots per minute; the elongated and enlarged forward portion of the slide assists in reducing muzzle flip and may be used as an assist for one handed cocking of the mechanism; the rear sight is adjustable for 75 or 150 meters range, the front sight is fixed.
- a variant model was designed in 9MM LUGER calibre but exists in pre-production prototype quantities only.

Manufacturer

- the manufacturer's designation may be marked on the firearm.

Action

- blowback operated, advanced primer ignition.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number may be found marked on the right side of the receiver/frame.
- the traditional Polish methodology for serial number rationalizations is to incorporate the year of manufacture, the manufacturer logo/trademark or factory number and the serial number all in the same location on the receiver/frame of the firearm.

Shots

- detachable box magazine.

Remarks

- this firearm design was developed under the leadership of Prof. Piotr Wilniewczyc, one of the designers of the VIS Pistol.
- this design was developed for the Polish Special Forces.
- production commenced in 1964.
- this firearm still in service with Polish police and military forces (2004).
- an unlicenced copy of the 9MM pm Wz63 is being manufactured in China and sold by NORINCO.

31680 - 2	9MM MAKAROV	25	185	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make will not be found marked on the firearm.

Model

- this firearm model is similar to the UZI SMG in that the bolt surrounds the rear of the barrel with the breech face being recessed into the bolt.
- introduced in 1984.
- features include: extensive use of sheet metal stampings and plastic; the bolt and barrel are the only major parts that are made from steel and require machining; the foregrip and hand grip are made from plastic; the magazine inserts into the hand grip; the model pm84 in calibre 9MM Makarov is threaded on the end of the barrel for a silencer/sound moderator; the fire selector is located on the left side of the receiver/frame and also functions as a safety catch; the pistol grip contains a rate reducer which reduces the cyclic rate of fire to 600 rpm in 9MM Makarov and 640 rpm in the 9MM Luger calibre version of this firearm; retractable wire stock and foreward-folding fore grip; rear sight adjustable for three ranges, 75m (both open and peep), 150m and 200m; the magazine catch is located at the bottom of the pistol grip and the firearm is cocked with a set of "ears" that extend up over the top of the receiver/frame on both sides.

Manufacturer

- "11" inside an oval is normally marked on the left side of the receiver/frame.
- the year of manufacturer may also be marked on the left side of the receiver/frame.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this firearm design was developed during the early 1980's by a design team of engineers from the Polish State Arsenal at Radom, Factory 11, to replace the pm wz63.
- the original prototype was named the wz. 1981.
- after a period of testing and trials this fiream model was adopted for use in the Polish Armed Forces and went into production in 1984 as the 9MM pm wz. 1984 (9MM SMG Model 1984).

31678 - 2	9MM LUGER	25	185	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this submachine gun externally looks like an Argentinian "PMK 3".
- this is an updated version of the Polish "PM 63".
- introduced in 1985/86.
- it has a telescoping wire frame stock and a forward gripping handle that folds up under the barrel to provide a horizontal fore-end.
- the magazine is inserted in the grip frame and the firearm is cocked with a set of "ears" that extend up over the top of the receiver on both sides.

Action

- open bolt full-automatic.

122635 - 1	9MM LUGER	5	300	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	
122635 - 2	9MM LUGER	25	300	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a standard-pattern first-generation submachine gun built for test trials in 1939; before the design was perfected and adopted, the Second World War began, and Poland was occupied by the Germans and development of the design ceased. Thirty-eight examples were manufactured before production ceased, four are known to exist and the fate of the remaining thirty-four cannot be established.
- features include: wooden pistol-grip stock with forward pistol-grip (containing an extendable metal monopod); forward-angle magazine well; adjustable open sights; slot-ventilated barrel shroud; dual triggers (the forward trigger for full-automatic fire, the rear for semi-automatic fire); and an internal follower/lever system that caused the bolt to lock open and the empty magazine to fall out of its well as soon as the last shot in the magazine was fired.

Manufacturer

- manufacturer markings are unknown.
- production reputedly attributed to Fabryka Karabinow, Warsaw

Action

- blowback operated.

Shots

- detachable box magazine.

- Poly Technologies is the trade name of Poly Technologies, Incorporated which is directly connected to the Chinese Ministry of Military Armament.
- Poly Technologies, Inc. of Beijing, China was established in 1984.
- Poly Technologies, Inc. is one of the core elements of the China Poly Group Corporation.
- China Poly Group Corporation/Poly Group was founded in 1993.
- China Poly Group Corporation was authorized by the State Council and the Military Commission of the Central Committee.
- China Poly Group Corporation is under the supervision and management of the State owned Assets Supervision and Administration Commission of the State Council.

Model

- "MODEL AKS-762" over "CAL. 7.62X39MM" over "SEMI-AUTO" may be marked on left front side of the receiver/frame.
- this model is an adaptation of the military service rifle AKM complete with the sheet metal fabrication receiver.
- model is factory original with a wood stock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name is not marked on the firearm. - the manufacturer's logo is marked on the left forward side of the receiver/frame and appears as a stylized number within a triangle.
Action	- gas operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - observed serial number had two numbers followed by three letters, followed by five numbers, with a single letter suffix, eg. "86PCA00024R".
Barrel	- the barrel has an attached flash hider / muzzle brake, which cannot be included in the barrel length measurement.
Shots	- detachable box magazine.
Remarks	- NORINCO is a Chinese State marketing agency that sells products of the Chinese State Arsenals. - "Poly Technologies" is the trade name of "Poly Technologies International Incorporated", a marketing agency which is a subsidiary of the Chinese People's Liberation Army. - China Jin An is the sales branch of the Ministry of Public Security. - Although Poly Technologies International Incorporated, NORINCO (China North Industries) and China Jin An are all Chinese State organizations there is a slight quality difference with the Poly Technologies products having a higher degree of finish and a more lustrous blue colour as a general rule.

Notes

Make

- The make is not marked on the firearm.
- Poly Tech/Poly Technologies is the trade name of Poly Technologies, Incorporated which is directly connected to the Chinese Ministry of Military Armament.
- Poly Technologies, Inc. of Beijing, China was established in 1984.
- Poly Technologies, Inc. is one of the core elements of the China Poly Group Corporation.
- China Poly Group Corporation/Poly Group was founded in 1993.
- China Poly Group Corporation was authorized by the State Council and the Military Commission of the Central Committee.
- China Poly Group Corporation is under the supervision and management of the State owned Assets Supervision and Administration Commission of the State Council.

Model

- The model designation is marked on the left side of the receiver/frame.
- Slide release lever located on the side of the firearm.
- Takedown catch/lever located on the side of the firearm.
- The "S" designation in the Poly Technologies "M12PT-S" refers to the term "standalone", meaning it is to be operated independently of any other device/firearm. There exists a "M12PT-U" version of this shotgun that shares an interchangeable receiver. The "U" stands for "under barrel" in which the only noticeable difference is that the "U" variant does not come with a pistol grip, buttstock assembly, handguard, interchangeable choke tubes, and is fitted with a shorter barrel. The "under barrel" designation denotes it is meant to be mounted under the barrel of another firearm.

Manufacturer

- The manufacturer is not marked on the firearm.

Action

- Straight-pull bolt operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- 1"2Ga 2 3/4 IN-3IN" is marked on the left side of the barrel.
Canadian Law Comments	- The magazine of this firearm is compatible with a semi automatic firearm and is therefore limited to a five (5) cartridge capacity.
Remarks	- Firearm shares a common receiver with the M12PT-U.

Model

- The model designation is marked on the left side of the receiver/frame.
- Slide release lever located on the side of the firearm.
- The "U" designation in the Poly Technologies "M12PT-U" refers to the term "Under barrel", meaning it is to be mounted and operated under the barrel of another firearm. There exists a "M12PT-S" version of this shotgun that shares an interchangeable receiver. The "S" stands for "standalone" denoting to be operated independently of any other device/firearm in which the only noticeable difference is that the "S" variant comes with a pistol grip, buttstock assembly, handguard, interchangeable choke tubes, and is fitted with a longer barrel.

Manufacturer

- The manufacturer is not marked on the firearm.

Action

- Straight-pull bolt operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- "12GA 2 3/4 IN-3 IN" Marked on the left side of the barrel.
Shots	- Detachable box magazine.
Canadian Law Comments	- The magazine of this firearm is compatible with a semi automatic firearm and is therefore limited to a five (5) cartridge capacity. - The firearm is "Non-Restricted" when attached to another firearm, and "restricted" when the firearm has been completed to an OAL under 660mm.
Remarks	- The M12PT-U is "Non-restricted" when it is in a configuration for mounting on another firearm, however, when the firearm is combined with a pistol grip, folding or telescoping stock, and if the overall length is under 660mm, the firearm is a "Restricted firearm" as defined under Section 84 of the Criminal code of Canada.

Notes

Make

- "Poly Technologies" or "Poly Tech China" and "Made in China" is normally marked on firearm.
- Poly Technologies is the trade name of Poly Technologies, Incorporated which is directly connected to the Chinese Ministry of Military Armament.
- Poly Technologies, Inc. of Beijing, China was established in 1984.
- Poly Technologies, Inc. is one of the core elements of the China Poly Group Corporation.
- China Poly Group Corporation/Poly Group was founded in 1993.
- China Poly Group Corporation was authorized by the State Council and the Military Commission of the Central Committee.
- China Poly Group Corporation is under the supervision and management of the State owned Assets Supervision and Administration Commission of the State Council.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "M14","M-14S" or "M14S" and ".308" may be marked on the left side of the receiver/frame. - available with a synthetic or wood stock. - early models have a flash hider, on later models the flash hider and bayonet lug were removed to satisfy US import laws. - with the interchangeability of aftermarket parts, the "M14" may be found in any configuration with any number of barrel lengths. - features observed: round tapered chrome lined barrel with a bird cage type flash suppressor with bayonet mount lug; blade front sight and adjustable aperture rear sight; receiver/frame has an integral scope mount on the left side; receiver/frame has a cartridge clip guide for top loading the magazine; cocking/operating rod handle is located on the right side of the receiver/frame; removable trigger group assembly; manual safety lever is located on the front of the trigger guard; magazine catch/release is located behind the magazine well; flat matte black, green or camouflage finish handguard and pistol grip stock with metal butt plate; sling attachments; matte black metal finish. - overall length with a 559mm (22.0") barrel is 1030mm (40.5").
Manufacturer	- a factory identifier may or may not be marked on the firearm.
Action	- gas operated.
Serial Number	- serial number is usually marked on left side of the receiver/frame. - observed serial number consisted of five numbers without a letter prefix or suffix. - observed serial number consisted of eight numbers without a letter prefix or suffix.
Barrel	- barrels may have a flash hider installed, this accessory should not be included in barrel measurement. Overall length with flash hider is 635mm.
Calibre	- calibre is marked on the left side of the receiver/frame.
Shots	- detachable box magazine.
Importer	- other companies may also have imported this firearm.
Remarks	- copy of US Rifle M 14 manufactured by Chinese State Arsenals. - parts may or may not interchange with the US M 14. - manufactured in several variations to comply with BATF (US) regulations for importation. - some of the variants known to exist: direct copy of US M14 less the bayonet lug, sporting stock with recoil pad and flash hider that has been cut off, synthetic stock with flash hider cut off.

Notes

Make

- "M305 .308" over "BELL LIFESTYLE. CA" over "BY POLY INC MADE IN CHINA" was observed marked on the left side of the receiver/frame.
- "POLY INC" is not a manufacturer.
- "Poly Inc", "Polytech" and "Poly Technologies" are trademarks of "Poly Technologies International Incorporated".
- Poly Technologies is the trade name of Poly Technologies, Incorporated which is directly connected to the Chinese Ministry of Military Armament.
- Poly Technologies, Inc. of Beijing, China was established in 1984.
- Poly Technologies, Inc. is one of the core elements of the China Poly Group Corporation.
- China Poly Group Corporation/Poly Group was founded in 1993.
- China Poly Group Corporation was authorized by the State Council and the Military Commission of the Central Committee.
- China Poly Group Corporation is under the supervision and management of the State owned Assets Supervision and Administration Commission of the State Council.

Model

- "M305" and ".308" was observed marked on the left side of the receiver/frame.
- "M305" is a semi-automatic variant of the US M14 rifle.
- with the interchangeability of aftermarket parts, the "M305" may be found in any configuration with any number of barrel lengths.
- features observed: round tapered chrome lined barrel with a bird cage type flash suppressor with bayonet mount lug; blade front sight and adjustable aperture rear sight; receiver/frame has an integral scope mount on the left side; receiver/frame has a cartridge clip guide for top loading the magazine; cocking/operating rod handle is located on the right side of the receiver/frame; removable trigger group assembly; manual safety lever is located on the front of the trigger guard; magazine catch/release is located behind the magazine well; flat matte black or camouflage finish handguard and pistol grip stock with metal butt plate; sling attachments; matte black metal finish.
- accessories may include optical and/or night vision sights, sound suppresser, laser designator and under barrel mounted grenade launcher.
- overall length with a 559mm (22.0") barrel is 1030mm (40.5").

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "POLY INC" is not a manufacturer. - manufacturer's designation was not marked on the firearm.
Action	- gas operated.
Serial Number	- serial number was observed marked on the left rear side of the receiver/frame. - observed serial number consisted of eight numbers without a letter prefix or suffix. - observed serial numbers consisted of the year of manufacturer "2009" and four numbers.
Barrel	- barrel length of 559 mm does not include the attached flash suppressor. - overall length of the barrel group (barrel and flash suppressor) is 635 mm.
Calibre	- ".308" was observed marked on the left side on the receiver/frame.
Shots	- detachable box magazine. - M305 is designed to use the US rifle M14 detachable magazine and will accommodate a vast array of aftermarket magazines and drums.
Importer	- BELL LIFESTYLE is marked on the left side of the receiver/frame.

- Poly Technologies, Inc. is one of the core elements of the China Poly Group Corporation.
- China Poly Group Corporation/Poly Group was founded in 1993.

Model

- The model designation is marked on the right side of the receiver/frame.
- This firearm is built as a semi-automatic version of the Degtyarev RPD (Ruchnoy Pulemyot Degtyaryova) light machine gun.
- Features include: A safety selector on the left side of the trigger group assembly; charging handle located on the right side of the receive/frame; may come equipped with a folding bipod.
- Overall length with a 520 mm (20.5 inches) barrel is 1040 mm (41 inches).

Manufacturer

- Manufacturer's designation is not marked on the firearm.
- Poly Technologies is the trade name of Poly Technologies, Incorporated which is directly connected to the Chinese Ministry of Military Armament.
- Poly Technologies, Inc. of Beijing, China was established in 1984.
- Poly Technologies, Inc. is one of the core elements of the China Poly Group Corporation.
- China Poly Group Corporation/Poly Group was founded in 1993.
- China Poly Group Corporation was authorized by the State Council and the Military Commission of the Central Committee.
- China Poly Group Corporation is under the supervision and management of the State owned Assets Supervision and Administration Commission of the State Council.

Action

- Gas operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- The serial number consists of eight(8) digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- "CAL. 7.62mm" is marked on the left side of the receiver/frame.
Shots	- Belt fed firearm.
Canadian Law Comments	- In the case of this firearm, it has been determined that the component commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the manufacturer's identification, model identification, proof information, and the full serial number is marked, is the receiver/frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Make	- "POLY TECH" is marked on the left side of the receiver/frame.
Model	- "SKS HUNTER" is marked on the left side of the receiver/frame. - This is a heavily modified SKS variant. Less than 1000 have been produced. Special features include: a shorter 16.5" barrel; the bayonet lug was cut half way between the front sight and the lug; a bushing was installed over the barrel between the gas block and the front sight; the shroud around the front sight is cut half way open to emulate other military firearms; ambidextrous safety; magazine release behind magazine housing; a forward swing swivel was installed in place of the cleaning rod; a solid metal butt plate with no cut out for a cleaning kit; the bolt carrier has a clearance cut to accommodate the rear sight and a spring loaded firing pin.
Action	- Gas operated.
Serial Number	- The serial number is marked on the left side of the receiver/frame. - The serial number of referenced example consists of five digits.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the left side of the receiver/frame.
Shots	- Detachable box magazine. - Designed to accept AK type magazines.
Importer	- "C.A.I. ST. ALB. VT." is marked on the bottom of the barrel.

Notes

Make

- "Poly Technologies" name is not marked on the firearm.
- "Poly Technologies" is the trade name of "Poly Technologies International Incorporated", a marketing agency of the Chinese People's Liberation Army.

Model

- introduced in 2012.
- "T97NS" and "SEMI AUTO" was observed marked on the right side of the magazine well of the receiver/frame.
- "Prototype" is not marked on this firearm; however it has been incorporated into the model name to clearly describe the design lineage of this firearm.
- T97NS Semi Auto is a variant of the QBZ (Qing Buquiang Zu) or Light Rifle Family.
- T97NS Semi Auto is a variant or modified version of the 5.8X42MM CHINESE Type 95 service rifle (aka QBZ-95) and is chambered for 5.56MM NATO calibre ammunition.
- the T97NS Prototype Semi Auto Rifle is a "bullpup" design firearm.
- features include: bird cage type flash eliminator/muzzle brake; round tapered barrel with a bayonet mount and grenade launcher mounting capability; aluminum alloy receiver/frame attached to a steel trunion that has an integral top mounted frame for the carrying handle; the cocking lever is mounted inside the carrying handle (similar to the Armalite AR-10); pistol grip stock with trigger guard; ventilated top cover; vertically grooved forearm; rotating bolt locking system; striker fired; fire selector/safety catch dial is located on the left rear side of the receiver/frame; rear sight is located in the rear of the carrying handle, front sight located on top of the gas block (similar to the AR 15/M16); sling attachment points; matte black finish.
- safety and semi-automatic fire dial "S and F" was observed marked on the left side at the rear, dial will only rotate 180 degrees.
- accessories may include optical and night vision sights, sound suppresser, laser aim designator and under barrel mounted grenade launcher.
- overall length with a 480 mm barrel and flash eliminator is 760 mm and average weight is 3.7 kgs.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's designation was not observed marked on the firearm.
Type	-"bullpup" design firearm.
Action	- gas operated.
Serial Number	- serial number was observed marked on the left side of the magazine well of the receiver/frame. - serial number rationalization is unknown. - observed serial number consisted of eight numbers without a letter prefix or suffix.
Calibre	-".CAL 5.56mm" was observed marked on the right side of the magazine housing of the receiver/frame.
Shots	- detachable box magazine. - accepts all NATO STANAG M16 and commercial AR15 style magazines. - does not accept the previous generation of Chinese TYPE 97 Rifle magazines without fitting.
Canadian Law Comments	- the Poly Technologies T97NS pre-production prototype firearm, serial number 1200000, although manufactured in semi automatic configuration, was found to be a full automatic firearm. - Poly Technologies T97NS firearm is a "bullpup design firearm" and does not have a "bull-pup stock" in its parts make-up. - this is a prohibited firearm within the meanings of the Criminal Code PART III, Section 84 definitions of automatic firearm and prohibited firearm: "automatic firearm" means a firearm that is capable of, or assembled or designed and manufactured with the capability of, discharging projectiles in rapid succession during one pressure of the trigger; "prohibited firearm" means (c) an automatic firearm, whether or not it has been altered to discharge only one projectile with one pressure of the trigger.

Notes

Make

- the make is not marked on the firearm.
- "Poly Technologies" is the trade name of "Poly Technologies International Incorporated", a marketing agency which is a subsidiary of the Chinese People's Liberation Army.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "T81SA" was marked on the left side of an observed example. - this is a gas-operated semi-automatic rifle, based on the design by Wang Zi Jun and manufactured by the Chinese factory system as a semi-automatic, export version of their issue Type 81 Assault Rifles and Machine Guns. - features include: dark phosphate finish on metal parts; lacquered or painted wooden forearm, handguard, and buttstock; concentric rings on the muzzle to allow the launching of rifle grenades; a front sight base built into the gas take-off port, with a gas regulator that can be adjusted (with the head of a cartridge case) between "light"(1), "heavy"(2), and "grenade" (0) settings; a separate gas piston/bolt carrier assembly; a stamped and folded sheet-metal receiver/frame with a wide top portion and narrow lower portion; a rotating safety on the left side of the receiver/frame, accessible with the thumb; a bolt hold-open which locks the bolt to the rear when the magazine is empty (which requires magazines with a special follower to activate the bolt hold-open device.); and a "slot" style of rear sight, which is adjustable by rotating range dials on the sides of the sight block. - Type 81SA "Rifle" and "LMG" versions are marked the same on the front trunnion. Both share the same receiver/frame flats and only seem to differ aesthetically. - The LMG version features a RPK style buttstock, heavy barrel, and a barrel mounted foldable bipod. - The sights on the LMG version of the firearm is pushed past the gas block to the end of the barrel , providing a longer sight radius. - Features include: A safety selector on the left side of the trigger group assembly; charging handle located on the right side of the receiver/frame; may come equipped with a folding bipod. - Type 81 SA SE version are the Special Edition version of the standard Type 81 SA. - The SA version features include a phosphate finish, darker wood finish and is optic ready.
Manufacturer	- the manufacturer is not marked on the firearm.
Action	- gas-operated.
Serial Number	- observed example was serial-numbered on the left side of the trunnion, with an eight (8) digit serial number.
Barrel	- the barrel length, as physically measured, does not include the additional length of the Rifle Grenade Launcher bearing surface, which at first glance appears to be integral to the barrel. - total barrel length including Rifle Grenade Launcher is 460mm. - total barrel length excluding grenade launcher is 441mm. - additional barrel length information received from CHONGQING JIANSHE INDUSTRY (GROUP) barrel length of 475mm and 575mm.
Calibre	- "7.62mm" is marked on the left side of the front trunnion.
Shots	- detachable box magazine. - the cartridge magazine utilized by this firearm is a modified Kalashnikov cartridge magazine.
Other Markings	- the manufacturer is not identified on the firearm. - the Chinese Export Agency is Poly Technologies Inc.

Notes

Make

- The make is not marked on the firearm.
- Trade name used by "Poly Technologies International Incorporated".
- "Poly Technologies International Incorporated", is a marketing agency which is a subsidiary of the Chinese People's Liberation Army.

Model

- The model designation is usually marked on the left side of the receiver/frame.
- "T81SR" may be marked on the side of the receiver/frame of the firearm.
- May also be known as "Type 81" or "Type 81 Sniper Rifle".
- This is a gas-operated semi-automatic rifle, based on the design by Wang Zi Jun and manufactured by the Chinese factory system as a semi-automatic, export version of their issue Type 81 Assault Rifles and Machine Guns.
- Features include: short-stroke piston above the chrome-lined barrel; two-position gas regulator; Type 63 rotating bolt (style/group); Type 63 bolt hold-open device, which catches the bolt in the "open" position after final round fired; safety toggle on the left side of the receiver/frame; brushed wood tone one-piece pistol grip, thumbhole shoulder stock with matching wood forend; sling swivels, plus adjustable sling.
- Added/Optional features include: top carrying handle; mounted scope; polymer stock; muzzle accessories to suppress flash in RPK style or standard long; slant compensator; magazines advertised as 5/30 (long) & 5/75 (drum).
- Overall length with a 520 mm (20.5 inches) barrel is 1005 mm (39.5 inches), average weight is 4.6 kg (10.14 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- The manufacturer is not marked on the firearm.
Action	- Gas operated. - Rotating bolt.
Serial Number	- The serial number is marked on the left side of the receiver/frame. - The serial number rationalization is unknown. - Observed sample was located on the left side of the receiver/frame trunnion and consisted of an eight (8) digit serial number without letter prefix or suffix.
Calibre	- The calibre designation is usually marked on the barrel.
Shots	- Detachable box magazine. - Designed to accept "Chinese State Arsenals Type 81" type magazines. - Designed to accept "PMAG" type magazines. - Most magazines made for this model are altered or pinned to accept only 5 rounds for the Canadian market, but may look to have an oversized capacity with the possibility of looking to contain 30 rounds or be in a 'drum' configuration for 75 rounds.
Other Markings	- The manufacturer is not identified on the firearm. There may an indication of country should the firearm contain added markings in a language other than English. - The "Chinese Export Agency" is Poly Technologies International Incorporated (Poly Technologies Inc.).

Notes

Make

- "Poly Technologies" is not marked on the receiver/frame.
- Poly Technologies is the trade name of Poly Technologies, Incorporated which is directly connected to the Chinese Ministry of Military Armament.
- Poly Technologies, Inc. of Beijing, China was established in 1984.
- Poly Technologies, Inc. is one of the core elements of the China Poly Group Corporation.
- China Poly Group Corporation/Poly Group was founded in 1993.
- China Poly Group Corporation was authorized by the State Council and the Military Commission of the Central Committee.
- China Poly Group Corporation is under the supervision and management of the State owned Assets Supervision and Administration Commission of the State Council.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "CQ" within a triangle, over "CQ-A CAL5.56mm" over "SEMI AUTOMATIC" over the serial number over "DARK" was observed marked on the left side of the magazine housing of the lower receiver/frame. - "CQ" represents "16" and refers to the family of firearms that this model is based on. - "Type CQ-A Semi-Automatic Rifle" is a variant of a Colt M-16/AR-15 firearm and is patterned after the current military production M-16, M4A1 carbine and differs from the M-16, M4A1 Carbine by having the capability for semi-automatic fire only. - features observed: round barrel with bird cage type flash hider and bayonet lug; flattop upper receiver with accessory rail and removable carry handle; forward assist assembly located on right side of upper receiver; aluminum lower receiver/frame with two position selector marked "SAFE" and "SEMI"; synthetic A2 style round handguard; synthetic pistol grip; synthetic telescoping buttstock; sling swivels.
Manufacturer	- manufacturer's name, trademark or logo is not marked on the firearm.
Action	- gas operated.
Serial Number	- serial number was observed marked on the left side of the magazine housing of the receiver/frame. - observed serial number consisted of eight numbers without a letter prefix or suffix, eg. "000001-10".
Calibre	- CAL.5.56mm" was observed marked on the left side of the magazine housing.
Shots	- detachable box magazine.

Notes

Make	- "POLYMER80" is marked on the left side of the receiver/frame. - "POLYMER80" is marked on a wedge shape/flange to the rear of the integral trigger guard. - The "Polymer80" company logo, consisting of a diamond with centered crosshairs over the number "80", with a secondary border inscribed with the words "POLYMER EIGHTY RELUCTOR DOMINATUS". The logo is present on the side of the "jig".
Model	- "308" is marked on the left side of the lower receiver/frame. - This record is for receiver/frame blanks sold under a percentage of completion, (i.e.: 80%). - "308" over "POLYMER80" are present on the left hand side of the lower receiver/frame. All markings would be covered, should the firearm be fully assembles/completed. - This receiver/frame may be sold as a receiver/frame blank or as a "308 80% Lower Receiver and Jig system", which comes with a polymer receiver/frame, an orange/red polymer finishing jig, and all of the drill bits and end mills that are required to finish the receiver/frame blank into complete receiver/frame. - Features include: one-piece polymer, lower receiver/frame with integral trigger guard, integral hexagonal shaped threaded barrel ring at the rear and dual finger grooves on the front of the magazine well; offered in varied colours including: black, white, OD green, gray/grey and flat dark earth (FDE).
Type	- Receiver/frame blanks sold under a percentage of completion, (i.e.: 80%). - Receiver/frame blanks that are partially completed, require some tooling and minimal skill to be completed.
Serial Number	- The serial number is not marked on the firearm.
Canadian Law Comments	- This firearm design incorporates a split receiver/frame: the lower receiver is the master component for the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Notes

Make

- the Polymer80 company logo may be located on the pistol grip flange beneath the pistol grip.

Model

- Polymer80 company logo, consisting of a diamond with centered crosshairs over the number "80" is present on the right side of the pistol grip flange
- "AR15", and "G150" markings are also present on the right side of the pistol grip flange of the receiver. All of these markings would be covered by an AR-15 type pistol grip, if one was installed on the receiver/frame.
- this record is for receiver/frame that have been completed using a receiver blank sold under a percentage of completion. (i.e.:80%).
- this receiver/frame is compatible with parts and components designed for AR-15 or M16 type rifles and is constructed of polymer.
- features include: an integral trigger guard and serrations on the front of the magazine well, offered in a variety of colours including: black, white, pink, zombie green, OD green, light blue, gray, purple, and flat dark earth.
- this receiver/frame may have been sold as a receiver/frame blank or as a "Polymer80 G150 80% Lower with Jig system" which comes with a receiver/frame, an orange polymer finishing jig, and all of the drill bits and end mills that are required to finish the receiver/frame blank into complete receiver/frame.
- the quality and accuracy of the completion details may vary greatly depending on the operator skills.

Action

- 80% receiver blank finished to Full Auto capability.

Calibre

- calibre markings if present will usually be found on the barrel.

Shots

- detachable box magazine.

Notes

Make

- "POLYMER80, INC." is marked on the right side of the receiver/frame.
- "P80" is marked on both sides of the receiver/frame, specifically bottom of the polymer grips.

Model

- "PF45" is marked on the right side of the receiver/frame.
- "PF" stands for Polymer Frame and "45" refers to the calibre.
- This specific receiver/frame includes a steel combination front slide rail and locking block, and is compatible with Gen3 3-pin components for models such as the Gen3 Glock 20 and 21 SF.
- Features include: metal slide with front and rear serrations; left side magazine release button/toggle; integral accessory rail forward of the squared trigger guard; textured surface grips; may have black, medium brown, or grey finish.

Action

- Recoil operated.

Serial Number

- The serial number was not marked by the manufacturer.
- NOTE: This firearm closely resembles the "Glock" type firearms and contains "blank" metal insert imbedded in the underside of the receiver/frame ahead of the trigger guard. Early production models may not have a serial number added, current production models may have a serial number added.

Shots

- Detachable box magazine housed in the grip.

Remarks

- the PF45 may be sold as a receiver/frame blank, or as a "Polymer80 PF45 80% Pistol Frame and Jig Kit", which comes with a receiver/frame, steel locking block and screws, a finishing jig, and all of the drill bits and end mills that are required to finish the receiver/frame blank into a complete receiver/frame.

Notes

Make

- The make is not marked on the receiver/frame.

Model

- The model designation is not marked on the receiver/frame.
- PF940 stands for Polymer Frame 9mm/40 S&W.
- Spectre is for a receiver/frame blank, sold under a percentage of completion (i.e.: 80%) that was finished as a firearm.
- Spectre is the commercial/marketing name, marked on the Polymer 80 receiver/frame shipping box.
- Spectre is also know as Polymer 80 Pistol Frame V.1.5 model.
- The Glock type receiver/frame is made of polymer and is compatible with Gen3 components for Glock 17, 22, 24, 31, 34 and 35. The system comes with a combination front rail and locking block made from steel.
- Spectre main departure features: dust cover accessories rail; side grip panel, molded with honey comb grip sides; front strap with three large, rectangular, curved, gripping surfaces; backstrap has six, curved gripping ribs; molded, enlarge magazine funnel.
- The PF940 are sold as a receiver/frame blank, or as a "Polymer80 PF940 Spectre 80% Pistol Frame and Jig Kit", which comes with a receiver/frame, steel locking block and screws, a finishing jig, and all of the drill bits and end mills that are required to finish the receiver/frame blank into complete receiver/frame. Then it is built using the Glock 17, 22, 24, 31, 34 and 35 barrel/slide and parts.
- PF940 Spectre Glock type receiver/frame blank is offered in a multitude choice of colours.

Action

- Recoil operated.

Serial Number

- The serial number was not marked by the manufacturer.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- The calibre designation is marked on the barrel, visible through the ejection port.
Shots	- Detachable box magazine housed in the grip.

Notes

Make

- The make is not marked on the receiver/frame.

Model

- The model designation is not marked on the receiver/frame.
- PF940 stands for Polymer Frame 9mm/40 S&W.
- Spectre is the commercial/marketing name, marked on the Polymer 80 shipping box.
- Spectre is also know as Polymer 80 Pistol Frame V.1.5 model.
- Spectre is for a receiver/frame blank, sold under a percentage of completion (i.e.: 80%).
- The Glock type receiver/frame blank is made of polymer and is compatible with Gen3 components for Glock 17, 22, 24, 31, 34 and 35. The system comes with a combination front rail and locking block made from steel.
- Spectre main departure features: dust cover accessories rail; side grip panel, molded with honey comb grip sides; front strap with three large, rectangular, curved, gripping surfaces; backstrap has six, curved gripping ribs; molded, enlarge magazine funnel.
- The PF940 are sold as a receiver/frame blank, or as a "Polymer80 PF940 Spectre 80% Pistol Frame and Jig Kit", which comes with a receiver/frame, steel locking block and screws, a finishing jig, and all of the drill bits and end mills that are required to finish the receiver/frame blank into complete receiver/frame.
- PF940 Spectre Glock type receiver/frame blank is offered in a multitude choice of colours.

Action

- Recoil operated.

Serial Number

- The serial number was not marked by the manufacturer.

184442 - 7	9MM LUGER	27	114	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "POLYMER80, INC," over "MADE IN USA" followed by "DAYTON, NV" is marked on the right side of the receiver/frame.
- "P80" is marked on both sides of the grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "PF940C" is marked on the right side of the receiver/frame.
- "PF940C" is a Glock pistol type handgun.
- "PF940C" is a Glock pistol type receiver/frame that is sold as an unfinished blank receiver/frame.
- "PF940C" used the Glock semi-automatic pistols "Safe Action" system, which does not use a traditional single action or double action trigger mechanism.
- Glock's "Safe Action" system is a partly tensioned firing pin/striker, which is moved further back by the trigger bar when the trigger is pulled. When the trigger is pulled, three safety features (trigger safety, firing pin safety, and drop safety) are automatically deactivated one after another. When doing so, the trigger bar is deflected downward by the connector and the firing pin is released under full load. When the trigger is released, all three safety features re-engage.
- Glock pistols have become increasingly popular and a large number of accessory items have become available that will alter the pistol's appearance.
- features include: fixe front and dovetailed rear sight; round, steel or stainless steel barrel; flat sided steel slide with right side ejection and external extractor; rear or combined front and rear grip serrations; hammerless; polymer receiver/frame with accessory rail and squared trigger guard having a serrated front; single trigger with integral safety lever; slide lock/release and magazine release are located on the left side of the receiver/frame; black or colour finish.

Action

- recoil operated.

Serial Number

- serial number is marked on a metal insert imbedded in the underside of the receiver/frame ahead of the trigger guard.
- serial number rationalization is unknown since the receiver/frame started as an incomplete "blank receiver/frame" that has to be engraved by the owner.

Calibre

- calibre designation may be marked on the barrel, visible through the ejection port.

Shots

- detachable box magazine.

Notes

Make

- "POLYMER80, INC." is marked on the right side of the receiver/frame.
"P80" is marked on both sides of the pistol grip, on the lower rear corner.

Model

- "PF940CL" stands for Polymer Frame 9mm / 40 S&W Compact Long slide.
- "PF940CL" is marked on the right side of the receiver/frame.
- Features may include: accessory rail in front of the trigger guard; disassembly catch above the trigger guard; contoured, stippled, and undercut trigger guard; magazine release button on the left side of the frame, behind the lower web of the trigger guard; left side slide catch lever; stippled pistol grip; extended beavertail available in multiple colors: black, flat dark earth, olive drab green, grey, & cobalt.
- The PF940CL is a compact size frame, with a shorter grip frame, but with a long dustcover to accommodate a full length slide.

Action

- Recoil operated.

Serial Number

- The receiver/frame may contain an embedded metal strip ahead of the trigger guard, where a serial number may or may not be present.

Calibre

- The calibre designation is not marked on the firearm.

Shots

- Detachable box magazine.

Model

- "PF940V2" is marked on the right side of the firearm.
- This "PF940V2" was a receiver/frame blank sold under a percentage of completion (i.e.: 80%) that has been finished as a firearm and modified with the addition of a drop-in, full-automatic conversion device mounted on the rear of the slide that replaces the original rear slide cover plate.
- Features include: combination front rail and locking block made from stainless steel; flat sided steel slide with right side ejection and rear grip serrations; polymer receiver/frame with squared trigger guard; slide release and magazine release located on the left side; textured surface grips.
- The Glock type receiver/frame blank is made of polymer and may be compatible with components for the Gen3 Glock 17, 22, 24, 31, 34 and 35.

Action

- Recoil operated.
- Additional Full-Auto unit installed on sample firearm.

Serial Number

- The serial number is not marked on the firearm.
- Metal insert ahead of the trigger guard was not marked with a serial number.

Calibre

- Calibre designation was observed marked on the left side of the slide.

Shots

- Detachable box magazine housed in the grip.

Notes

Make

- "POLYMER80, INC," over "MADE IN USA" followed by "DAYTON, NV" is marked on the right side of the receiver/frame blank.

Model

- "PF940V2" is marked on the right side of the receiver/frame blank.
- the Polymer 80 model PF940v2 Full Size is a newer version of the polymer 80 MODEL PF940.
- the Glock type receiver/frame blank is made of polymer and may be compatible with components for the Gen3 Glock 17, 22, 24, 31, 34 and 35.
- features include: combination front rail and locking block made from stainless steel; accessory rail; squared trigger guard; textured surface grips; black, olive, medium or reddish brown or grey tone finish.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- receiver/frame is not numbered. - receiver/frame may contain a similar metal plate/strip attached to the underside of the receiver/frame, in front of the trigger guard as per Glock Models: 17, 22, 24, 31, 34 and 35; but there is no mark or serial number.
Calibre	- may be marked on the barrel.
Shots	- detachable box magazine. - the PF940 uses box type cartridge magazines that are compatible with Glock pistols.

Notes

Make

- "POLYMER80, INC," over "MADE IN USA" followed by "DAYTON, NV" is marked on the right side of the receiver/frame.
- "P80" is marked on both sides of the grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "PFC-9" is marked on the right side of the receiver/frame. - "PFC-9" is a Glock pistol type handgun. - "PFC-9" is a Glock pistol type that is sold as a serialized receiver/frame. - "PFC-9" is of the compact Glock receiver/frame type of the Glock Gen 3, 19 and 23 models. - "PFC-9" used the Glock semi-automatic pistols "Safe Action" system, which does not use a traditional single action or double action trigger mechanism. - Glock's "Safe Action" system is a partly tensioned firing pin/striker, which is moved further back by the trigger bar when the trigger is pulled. When the trigger is pulled, three safety features (trigger safety, firing pin safety, and drop safety) are automatically deactivated one after another. When doing so, the trigger bar is deflected downward by the connector and the firing pin is released under full load. When the trigger is released, all three safety features re-engage. - Glock pistols have become increasingly popular and a large number of accessory items have become available that will alter the pistol's appearance. - features include: fixe front and dovetailed rear sight; round, steel or stainless steel barrel; flat sided steel slide with right side ejection and external extractor; rear or combined front and rear grip serrations; hammerless; polymer receiver/frame with accessory rail and squared trigger guard having a serrated front; single trigger with integral safety lever; slide lock/release and magazine release are located on the left side of the receiver/frame; black or colour finish.
Action	- recoil operated.
Serial Number	- serial number is marked on a metal insert imbedded in the underside of the receiver/frame ahead of the trigger guard.
Calibre	- calibre designation is usually marked on the left side of the slide. - calibre designation is marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine. - use all available magazine for the Glock 19 and 23 models.

139021 - 1	41 SWISS RF	1	800	Antique AFR, Section 1, para. 2	Non-Commercial Customization	

Notes

Make

- "JULES PONCET & FILS" over "a" over "GENEVE" was observed marked on the right side of the receiver/frame.

Model

- manufactured prior to 1886.
- model designation is not marked on the firearm.
- this martini type action is operated by pulling down alever behing the trigger-guard, which drops the front face of the breech-block
- features include: ramp front sight and an adjustable rear sight; blued octagonal to round barrel; cleaning rod mounted under the barrel; case hardener flat sided Martini type receiver/frame; lever operated breech block is hinged at the top rear of the receiver/frame and swings downward at the front to open; double set triggers; full length wood forearm and straight grip buttstock with "schuetzen" style hooked buttplate and high comb cheek rest; sling attachments.

Manufacturer

- "JULES PONCET & FILS" over "a" over "GENEVE" was observed marked on the right side of the receiver/frame.
- Jules Poncet & Fils was located in Geneve, Switzerland from 1870 to 1885.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- observed firearm did not have a serial number.

Notes

Make

- "L.W. POND, WORCHESTER, MASS. PAT'D SEPT. 8, 1863", "PAT'D NOV. 8, 1864", and "1847" may be marked on the barrel.

Model

- manufactured from 1863 to 1870.
- about 2000 made in 22 RF.
- about 5000 made in 32 RF.
- this revolver uses removable steel chambers that can be removed from the front of the cylinder, in order to avoid the Rollin White patent, under the control of Smith & Wesson.
- frames are silver-plated brass.
- spur trigger
- unfluted cylinders

Manufacturer

- "L.W. POND, WORCHESTER, MASS. PAT'D SEPT. 8, 1863", "PAT'D NOV. 8, 1864", and "1847" may be marked on the barrel.

Type

- octogonal barrel.

Notes

Make

- "L.W. Pond" is marked on the barrel.

Model

- no model name on the firearm.
- manufactured 1861-1870.
- barrel marked; "L.W. Pond, Worcester, Mass. Pat'd. July 10, 1860".
- due to the fact that this revolver was a patent infringement on the Rollin White patent under the control of Smith & Wesson, the barrel may also be marked with the following: "Manuf'd for Smith & Wesson Pat'd April 5, 1855".
- single action, spur trigger, fixed front and rear sights, octagonal barrel, unfluted cylinder with locking notches at front end of cylinder.
- receiver may be iron or brass.
- barrel is hinged at rear of topstrap where it joins the recoil shield; a release button on front left side of receiver allows barrel and cylinder to swing up for loading.
- cylinder pin cannot be withdrawn; cylinder can only be removed by removing a screw in the rear end of the cylinder pin; most of these models will have a small screwdriver fitted into the bottom buttstrap specifically for the purpose of removing the cylinder.

Manufacturer

- "L.W. POND WORCESTER, MASS. PATD JULY 10, 1860" is marked on top of the barrel.

FRT Report

Firearm Reference Number (FRN): 142348
Make: Porto
Model: British Service Pattern Flintlock Pistol

Summary

Make:	Porto
Model:	British Service Pattern Flintlock Pistol
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	PORTUGAL
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
142348 - 1	66 FLINTLOCK	1	229	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- known example was marked "PORTO" over the date "1817" on the lock plate behind the hammer.
- "Porto", also known as "Oporto" is a city in Portugal.
- known example was also marked with a "Royal Crown" over the letters "IR" on the lock plate.
- "IR" stands for Iohannes Rex or King John.

Model

- no model name is marked on this firearm; the model designation is derived from the characteristics of the firearm.
- this handgun bears a strong resemblance to the English Light Dragoon Pistol Pattern 1759.
- this type of handgun would have been produced mid-1700's to the early 1800's.
- known example was marked on the side plate behind the trigger as, "PORTO" over "1817".
- features; muzzle loading, flintlock ignition; side lock action with exposed hammer; rammer mounted underneath the barrel; brass trigger guard and fittings; single hardwood stock which extends to the end of the muzzle.

Action

- muzzle loading, flintlock ignition.

FRT Report

Firearm Reference Number (FRN): 106357
Make: Portuguese Machine Gun
Model: M938

Summary

Make:	Portuguese Machine Gun
Model:	M938
Manufacturer:	Rheinische Metallwaaren & Maschinenfabrik
Level:	Manufacturer Specifications and Commercial Customization
Type:	Machine Gun
Action:	Full Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
106357 - 3	8MM MAUSER	5	718	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
106357 - 1	8MM MAUSER	25	718	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
106357 - 2	8MM MAUSER	75	718	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Portuguese national crest is marked on the right side of the barrel extension.

Model

- when the German army adopted the MG34 they sold to Portugal a number of MG13 machine guns that were adopted into Portuguese service as the M938.
- the year date "1938" is marked on the right side of the barrel extention to indicate the year of adoption.
- features include: a metal stock with a two piece padded butt was standard, however wooden stocks may be encountered; box magazine or drum is fed into the left side of the receiver/frame; air cooled barrel within a barrel jacket which is perforated/ventilated, fitted with a shoulder stock, pistol grip, sling and a bipod.

Manufacturer

- the MG13 (Portuguese designation M938) was developed by Rheinische Metallwaareen & Machinenfabrik at Sömmerda, Germany. It is believed that at least some production (or possibly all) was carried out by Rheinische Metallwaareen & Machinenfabrik. Because of restrictions imposed by the Treaty of Versailles, all production was credited to Simpson & Company of Suhl (this information is widely considered to be suspect). Under the terms of the Treaty of Versailles, Simson & Company were the only firm allowed to produce machine guns.

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- sample examined incorporated an "A" prefix

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- uses a 25 shot detachable box magazine or a 75 shot saddle drum magazine.
Canadian Law Comments	- the 75 shot saddle drum magazine is exempt from the "Former Cartridge Magazine Control Regulations" in the "Regulations Prescribing Certain Firearms and Other Weapons, Componants and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted".

FRT Report

Firearm Reference Number (FRN): 127320
Make: Portuguese Mortar
Model: M937

Summary

Make:	Portuguese Mortar
Model:	M937
Manufacturer:	Fabrica Militar de Braco de Prata
Level:	Manufacturer Specifications and Commercial Customization
Type:	Mortar
Action:	Single-Shot
Country of Manufacturer:	PORTUGAL
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127320 - 1	81MM MORTAR	1	1170	Prohibited PFR, Part 1, para. 95(z.161)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Mortar is a short barreled, smooth bore or rifled, muzzle or breech loading, low velocity, short range, high angle of fire weapon.
- Mortars are classified as artillery although usually employed by infantry troops.

Model

- this is a medium weight, drop fire, infantry mortar.
- features included: round smooth bore barrel; bipod mount with elevation and traverse mechanism, sights and shock absorber; base plate.
- overall weight of total unit is approximately 45.0 kgs.

Canadian Law Comments

- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

107215 - 1	9MM LUGER	32	253	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Model

- the model designation is marked on the left side of the magazine housing.
- introduced in 1948, this is the first submachine gun produced in Portugal. The M/48 was designed and developed by Major Goncalves Cardoso after studying other successful machine guns and as a result he used the best features of the German MP40 and the US M3A1.The bolt, main spring, barrel lock, magazine and safety are MP40 design and the stamped receiver/frame, wire type collapsable stock, sights and trigger housing are copied from the US M3A1.

Manufacturer

- "F.B.P." is marked on the left side of the magazine housing.
- "FBP" denotes "Fabrica Militar de Braco de Prata".

Action

- no longer capable of full automatic fire.

Serial Number

- serial number is marked on the left side of the magazine housing.

Shots

- detachable box magazine.

Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
94356 - 1	70 PERCUSSION	1	762	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "T. POTTS, HAYDON SQUARE, LONDON" is marked on the lockplate.

Model

- side hammer, muzzle loading percussion rifle.
- brass buttplate, patch box, trigger guard, ramrod pipes and nosecap.
- multi leaf rear sight, bayonet bar on right side of muzzle of barrel.
- unique form of rifling utilizing two deep spiraled grooves which requires a bullet in the form of a round lead ball having an integral belt which fits into those grooves and imparts a spin on the bullet when the rifle is fired.
- closely follows the lines of British Service Brunswick Rifle and was manufactured for private sale to semi / non official organizations in Britain and the colonies (including Canada).
- identifiable by lack of British government acceptance markings and the presence of the name of the manufacturer on the lockplate in lieu of "ENFIELD".

Manufacturer

- Thomas Henry Potts was an English gun making firm located in London, England from 1821 to 1851.
- Thomas Henry Potts entered into a partnership with Thomas Hunt to form the company of "Potts & Hunt" in 1853.
- "Potts & Hunt" was dissolved in 1874.

Notes

Make

- "PPK s.r.o." is usually marked on the side of the receiver/frame.

Model

- Introduced in 2014.
- "MOD. BRNO KMS 619" may be marked on the right side of the receiver/frame.
- features observed: round rifled barrel with open iron sights; flat sided receiver/frame with right side ejection, left side take-down screw, and dovetail for scope mounts; checkered walnut or beech forearm and pistol grip buttstock with plastic butt plate; blue/black finish.
- overall length is 990 mm (39.0"), and the average weight is 2.5 kgs (5.51 lbs).

Manufacturer

- Zbrojovka Holice is located in Holice, Czeck Replublic.
- Zbrojovka Holice was established in 1999.
- Zbrojovka Holice was Incorporated in 2004.
- Zbrojovka Holice manufacture Zbrojovka Brno designed firearms.

Action

- blowback operated.

Serial Number

- serial number is located on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- Introduced in 2012 with 10 and 15 shot capacity, "handgun" magazines.
- Introduced in 2015 with magazine available with a 8 shot capacity.
- detachable box magazine.
- in some instances this firearm utilizes handgun cartridge magazines.
- due to the design of the cartridge magazine having been changed to permit the magazine to be retained in the rifle and function when utilized with the Rifle, (MAKE PPK, Model KMS 619) the cartridge magazine loses its exclusivity of design as a handgun magazine and becomes a dual purpose cartridge magazine for both a handgun and a rifle. The more restrictive limit of five (5) shots of the kind or type for which the cartridge magazine was designed comes into effect and the magazine must be limited to five (5) shots or less.

Notes

Make

- "Puskastvi Pavel Kupec" "pKp" logo and "PPK" or "Puskastvi Pavel Kupec" over "MADE IN CZECH REPUBLIC" is usually marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "MOD. KSK" over "SEMI-AUTO" is marked on the right side of the receiver/frame. - the word "SPORT" does not appear on the firearm. - "KSK" is derived from a full automatic firearm, which has been altered to discharge one projectile with one pressure of the trigger, and has had the original markings altered or obliterated and has been remarked as a "KSK". - "KSK" externally resemble the Kalashnikov model AK47 assault rifle; however, this firearm is not a member of the Kalashnikov family of firearms nor a Kalashnikov variant. - "KSK" is a variant or modified version of the "VZ58" or "Puska VZ 58" (Rifle Model 1958) developed in Czechoslovakia for use by the Czech army. - features observed: hooded front sight and tangent rear sight; round, rifled barrel; short stroke gas piston mounted above the barrel; flat sided machine steel receiver/frame with a sheet metal dust cover; tilting block locking system; striker fired; cocking handle is mounted on the right side of the breech block; detachable box magazine release lever is mounted behind the magazine well; safety/selector lever is mounted on the right side of the receiver/frame; composition wood forearm, hand guard, pistol grip, and fixed buttstock; sling swivels; blued finish. - overall length with a 397 mm barrel and a fixed buttstock is 845 mm, and the average weight is 2.9 kgs.
Action	- no longer capable of full automatic fire.
Serial Number	- observed serial number consisted of six digits without prefix or suffix.
Shots	- detachable box magazine.
Importer	- "SEBARMS" is a Canadian business located in Edmonton, Alberta, Canada.
Canadian Law Comments	- The "KSK" (SPORT) as manufactured by Zbrojovka Holice is derived from a full automatic firearm, which has been altered to discharge one projectile with one pressure of the trigger, has had the original markings altered or obliterated, been remarked as a "KSK" and has been re-proofed (2013) and re-serial numbered.
Other Markings	- there are two firearms with similar Manufacturer and Model names from Zbrojovka Holice; the PPK - KSK (Hunter) and the PPK - KSK (Sport). - the sub-model names "Hunter" & "Sport" do not appear on the firearms. - the PPK - KSK (Sport) is a less luxurious version of the same rifle, retaining the original military composite furniture and is (essentially) a version of the CZ858 in appearance and in the method of conversion from full automatic to semi-automatic fire capability. - the PPK - KSK (Hunter) has a higher degree of polish on the metal parts with a blued finish, has replaced the composite furniture with a hardwood furniture set with a low lustre finish and has a commercial trigger mechanism.

16671 - 1	22 RF	7	57	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "PRAIRIE KING" and "PAT'D APR. 23 1878" are marked on the barrel.
- "PAT'D APR. 23 1878" represents the date that patent number 202,627 was assigned to William H. Bliss of Norwich, Connecticut.
- "Prairie King" was a brand/trade name used by the Norwich Pistol Co./Norwich Falls Pistol Co. of Norwich, Connecticut.

Model

- "PRAIRIE KING" and "PAT'D APR. 23 1878" are marked on the barrel.
- this firearm would have been manufactured circa 1873 to 1887.
- this type of handgun is commonly referred to as a "Suicide Special".
- "PAT'D APR. 23 1878" represents the date that patent number 202,627 was assigned to William H. Bliss of Norwich, Connecticut.
- features: solid receiver/frame; single action spur trigger; round barrel; plain cylinder with locking notches either at the front or at the rear; cylinder pin may unscrew, or it may be released by a push button on the front left side of the receiver/frame; will have the W.H. Bliss patented removable side plate with a slot on the left side of the receiver/frame, or some models may have a sideplate that is irregular in shape without the slot which is held in place by a screw inserted from the right side of the receiver/frame; brass half disk blade-type front sight; case hardened trigger and hammer; nickel plated finish; bird head grip frame; walnut grips.

Manufacturer

- manufacturer's name is not marked on this firearm; firearm was made by Norwich Pistol Company/Norwich Falls Pistol Company of Norwich, Connecticut.
- "PAT'D APR. 23 1878" as marked on the firearm, represents the date that patent number 202,627 was assigned to William H. Bliss of Norwich, Connecticut.
- W.H. Bliss was the plant superintendent of the Norwich Pistol Co. (circa 1873 to 1881) and its successor the Norwich Falls Pistol Co.(circa 1882 to 1887). He was not affiliated in any way with the company of Bliss & Goodyear of New Haven, Connecticut.

Serial Number

- serial number is usually marked on the left side of the grip frame of the receiver/frame underneath the grip plate.
- serial numbers are numeric only without prefix or suffix.
- known examples have had four digit numbers.

Firearm Reference Number (FRN): 36851
Make: Prairie River
Model: PRA Bullpup

Summary

Make:	Prairie River
Model:	PRA Bullpup
Manufacturer:	Prairie River Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
36851 - 1	50 PERCUSSION	1	711	Prohibited PDR, Part 4, para. 2	Manufacturer Specifications and Commercial Customization	
36851 - 2	54 PERCUSSION	1	711	Prohibited PDR, Part 4, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Model

- introduced in 1995.
- PRA in the model designation denotes Prairie River Arms.
- this is a "bull-pup" stocked version of the PRA Classic rifle.
- it differs from the PRA Classic primarily by having a thumbhole, bull-pup stock and in having a 711MM long barrel in lieu of the PRA Classic's 660MM.
- available in blued or stainless steel with a black or hardwood stock.

Manufacturer

- markings unknown, Prairie River Arms is located in Princeton, Illinois.

Action

- percussion ignition.

Serial Number

- rationalization unknown.

Canadian Law Comments

- this firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2) is removed the receiver/frame/barrel assembly is correctly classified as "Non-Restricted".

Notes

Make

- "G.Prechtl In Weinheim" is marked on the top of the barrel.

Model

- introduced in 2005.
- this is the Safari grade version of the model Mauser 98 Standard.
- this is a modern reproduction of the original Mauser 98 rifle manufactured according to the original Mauser drawings with only few changes to accommodate contemporary ammunitions.
- features include: Lothar Walter match barrel; English "Rigby" style walnut stock of various grade and configuration; hinged floor plate magazine; quarter rib barrel with express-type two leafs rear sights; scope mounts are inset milled in to the receiver/frame; color case hardened, grey or blued action finishes; optional "GOLmatic" 3 positions safety incorporating a spring activated locking dog to prevent accidental move of the safety lever to the "off safe" ready-to-fire position.
- Prechtl firearms offer a variety of upgrades on all its models on special orders, as such the coverage and style of engraving will vary on individual examples. Different stock configurations/quality of wood will also be encountered.

Manufacturer

- Gottfried Prechtl is a firearms and machine tool maker located in Birkenau, Germany.

Action

- turn bolt action.

Serial Number

- serial number located on the receiver/frame.

Calibre

- calibre designation is marked on the left side of the barrel over the chamber area.

Shots

- hinged floorplate type magazine.
- magnum magazine are offered with a choice of either a flat floorplate or "Rigby" type II or type III floorplates which increase magazine nominal capacity.

Other Markings

- "Big Game" observed stamped on the top of barrel.

Notes

Make

- "PRECISION INDUSTRIES" is marked on the barrel.

Model

- "WILDCAT" is usually marked on the barrel.
- model is based on the original design by Harold Rau of Rau Arms Corp, formerly located in El Dorado, Kansas..
- manufactured circa 1975.
- this is a single shot rifle resembling a pump action repeater designed for the junior shooter.
- operates by pulling the operating handle to the rear to expose the chamber for loading, pushing forward on the operating handle closes the action and cocks the firing mechanism. Extraction of the fired cartridge case is achieved by pulling the ringed "pump" handle to the rear.
- flat wooden or plastic buttstock with heavy wire skeleton frame.
- overall length is 864 mm (34"), and average weight is 1.7 kg (3 1/2 lbs).

Manufacturer

- appears on the firearm as "PRECISION INDUSTRIES".
- Precision Industries, was located in Ozark, Missouri, U.S.A. in the 1970s.

Action

- rotating barrel design.

Serial Number

- serial number may be marked in the trigger guard above the trigger.

Calibre

- calibre is usually marked on the barrel.

122540 - 4	7.62X39 RUSSIAN	75	222	Prohibited PFR, Part 1, para. 64	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- "Krinkov" is a generic term for the AKSU submachine-gun-length version of the AK-74 rifle.
- this is a shortened version of the Bulgarian produced semi-automatic AKS rifle, manufactured in the United States from a receiver/frame only so as to qualify as an "AOW" ("Any Other Weapon") under US federal law.
- features include: no buttstock; fore and aft pistol grips; flash suppressor; open adjustable sights.

Manufacturer

- the manufacturer is marked on the firearm; these firearms are built on Bulgarian-produced receivers (possibly "Arsenal") that are imported as "receivers-only", then assembled as "Any Other Weapons"/"AOW"s in a manner to comply with US law.

Action

- gas-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- numbered on the receiver/frame; rationalization unknown.
Shots	- detachable box magazine; this firearm uses all standard AKS-style rifle magazines.

Notes

Make

- "PREMIER" is marked on the receiver/frame.
- "Premier" was a brand/trade name used on firearms retailed by Montgomery Ward & Company.
- "Premier" was a brad/trade name used on semi-automatic pistols manufactured by Tomas de Urizar y Cia of Eibar, Spain circa 1920.
- "Premier" was a brand/trade name used on revolvers manufactured by Thomas E. Ryan, circa 1870 and Harrington & Richardson, circa 1880s.
- "Premier" and "Premier Trail Blazer" were brand/trade name used on rifles manufactured by the J. Stevens Arms Company.
- "Premier" and "Premier Arms Co." were brand/trade names used on double barrel shotguns manufactured by Pieper of Belgium.
- "Premier" was a brand/trade name used on double barrel shotguns manufactured by Crescent Fire Arms Company and sold by Montgomery Ward & Company and Hibbard, Spencer, Bartlett & Company.
- "Premier" was a brand/trade name sold by Premier of Brooklin, New York circa 1957 on double barrel shotguns imported from Italy and Spain.
- "Premier" was a brand/trade name used on single barrel shotguns manufactured by G.W. Turner & Ross of Boston, Massachusetts, U.S.A. between 1879 and 1882.
- "Premier" was a registered trade name of Edward K. Tyron & Company of Philadelphia, Pennsylvania.

Model

- "The 20th Century. Belgium" was observed marked on the top rib of the barrel.
- features observed: side by side barrels with doll's head extension and bead front sight; front hinged receiver/frame with top tang mounted break open lever and sliding type safety; box lock; hammerless; double triggers; checkered wood forearm and pistol grip buttstock.

Action

- side by side configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the watertable, underside of the barrel rib and on the metal insert of the forend.
Calibre	- calibre marking located on the barrels.
Other Markings	- the water table and underside of the barrel has numerous Belgium inspector marks and proof marks.

Notes

Make

- "PREMIER" is marked on the topstrap.
- "Premier" is a trade-name that has been used by a number of different manufacturers, including:
- "Premier" was used on a series of solid-frame spur-trigger revolvers, manufactured by the T.E. Ryan Company;
- "Premier" was used on a model of top-break revolver manufactured by Harrington & Richardson;
- "Premier" was used on a line of firearms retailed by Montgomery Ward;
- "Premier" was used as a model on various firearms sold by the Edward K. Tryon Company, of Philadelphia, Pennsylvania.

Model

- "PREMIER" is marked on the topstrap.
- this is a standard-pattern solid-frame spur-trigger single-action revolver manufactured by T. E. Ryan between 1890 and 1894.
- features include: nickeled finish; round barrel; half-moon front sight blade; spring-loaded cylinder-pin latch at the front of the frame; single action, sheathed trigger; rear sight slot in a "hump" at the rear of the frame; sheathed trigger; manually-cocked hammer; and bird's head grip frame (grips may be wood or gutta percha).

Manufacturer

- the manufacturer may not be marked on the firearm; "Premier" was a trade name used by the T.E. Ryan Company.
- Thomas E. Ryan firearms may be marked "T.E. Ryan" on the topstrap, or "T.E.R." on a grip logo, where present.

Serial Number

- these revolvers bear numbers on the grip-frame underneath the grips, but they are considered to be "lot" numbers, rather than true serial numbers.

Notes

Make

- "PRENSES" is usually marked on the firearm.
- Prenses Arms is a trademark used by Koc Arms, of Konya, Turkey, on a number of their shotguns.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a folding single-shot shotgun made in two different variations; either a) an exposed-hammer single-shot that opens via pulling rearwards on the trigger guard, or b) a hammerless single-shot that opens via an underlever in front of the trigger guard.
- features include: blued barrel with choke tubes; anodized receiver/frame; round or ventilated-rib barrel; checkered walnut or black synthetic forearm and pistol-grip stock; sling swivels.

Action

- hinged barrel design.

Serial Number

- serial-numbered on the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 117227
Make: Prescott Pistol Company
Model: Magazine Derringer

Summary

Make:	Prescott Pistol Company
Model:	Magazine Derringer
Manufacturer:	Prescott Pistol Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
117227 - 1	32 RF	6	112	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "PRESCOTT PISTOL COMPANY, HATFIELD MASS." is marked on the barrel.

Model

- this is an unusual "repeating derringer", similar to the Remington-Rider, in which the bottom "barrel" of what appears to be an over/under pistol is actually the magazine; opening the action of this pistol ejects any empty case in the chamber and reloads a fresh cartridge from the magazine as the action is closed.
- "tip-down" action, with a top-latch.
- bird's head grip, spur trigger, manually-cocked hammer and varying finishes and engraving.

Manufacturer

- "Edwin A. Prescott" was originally a partner with "Edwin Wesson" in Wesson & Prescott.
- "Wesson & Prescott" was located in Northboro, Masachussetts, U.S.A. from 1847 to 1850.
- "Edwin A. Prescott" was located in Worcester, Massachusetts, U.S.A. from 1850 to 1874.
- "Edwin A. Prescott" formed the "Prescott Pistol Company" in Hatfield, Massachusetts, U.S.A. in 1874.
- "Prescott Pistol Company" was in business from 1874 to 1876.

Action

- this is an unusual repeating action in which "breaking" the pistol open ejects an empty case and reloads a fresh cartridge from the magazine.

Shots

- tubular magazine below the barrel.

Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	POLAND
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122614 - 1	9MM LUGER	16	114	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make desigantion may be marked on the firearm.
Model	- this pistol was adopted in 1997 as the service side arm for the Polish Armed Forces. - features include: receiver/frame manufactured from polymer plastic, barrel and slide manufactured from steel; the barrel is polygonally rifled; the trigger mechanism is similar to the Glock "safe action" trigger mechanism; the firearm is striker fired and double action only (DAO); the magazine catch is reversible for use by a left-handed shooter; the slide release is located on the left side of the firearm; the pistol has fixed sights with tritium inserts for fast target acquisition in low-light conditions. - A variant model with a laser sight built into the trigger guard exists, known as the WIST-94L.
Manufacturer	- the manufacturer's designation may be marked on the firearm.
Action	- recoil operated.
Serial Number	- the serial number is marked on the receiver/frame of the firearm. - serial number rationalization is unknown.
Shots	- detachable box magazine.
Other Markings	- the Polish Government property mark "Polish Eagle" will be found marked on the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- pistol design developed during the early 1990's as a replacement for the P 83.
- this pistol was adopted in 1997, as the service side arm for the Polish Armed Forces.
- this fiream design was developed by Wojskowy Instytut Techniczny Uzbrojenia (WITU) which translates to "The Military Technical Institute of Armaments".
- this design was developed as the Piryt Model B01.
- at least one other prototype was devoped as the Piryt Model A01 which did not survive testing.
- development was delayed by lack of funding and subsequently revived when WITU took Prexer as a partner.
- a last prototype known as the WIST-94 was developed in 1994 based on the B01 Model.
- this new pistol design, the WIST-94, was adopted in 1997, as the service side arm for the Polish Armed Forces.

Notes

Make

- "Prinz" can be marked on the top of the barrel, on the barrel block or on the receiver/frame.
- "Prinz" is usually marked in medieval alphabet letter style having the "i" with three dots.
- "Prinz" stands for "Oswald Prinz" a custom gunmaker based in Maierhofen, Germany, that specializes in producing hinge-action hunting firearms.

Model

- "BBF" is marked on the left side of the barrel block.
- "BBF" is a three barrels configured combination gun that can be a combination of two rifle calibre and one shotgun or vice versa.
- "BBF" made by "Prinz" are called "Prinz Triplicate".
- "Prinz" models are based on the "Blaser Jagdwaffen GmbH" model 95 over-and-under shotguns. "Prinz" purchases the receivers as raw parts from Blaser and uses them as receivers for his over-and-under triplets and quadruplets combination gun.
- Features include: ramped front sight; dovetailed rear sight at mid length of the barrel; four optic mount anchor points on the barrel block; barrels unlocking lever on top of the receiver/frame behind the barrels assembly; sliding safety/barrel selector on the rear tang; flat sided receiver/frame with contoured depression.

Manufacturer

- "Prinz" can be marked on the top of the barrel, on the barrel block or on the receiver/frame.
- "Prinz" is usually marked in medieval alphabet letter style having the "i" with three dots.
- "Prinz" stands for "Oswald Prinz" a custom gunmaker based in Maierhofen, Germany, that specializes in producing hinge-action hunting firearms.
- "Prinz" was founded in 1995.
- "Prinz" learned his craft from "Blaser Jagdwaffen GmbH" in Isny, Germany where he was responsible for the luxury versions of the hunting guns.

Action

- Hinged barrel design.

Serial Number

- The serial number is marked on the left side of the barrel block at the chamber end.
- Serial number of a referenced example consisted of a number prefix, a oblique bar (/) and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - The calibre designation is marked on the barrel.

Notes

Make

- "PROARMS" over "ARMORY" over "MADE IN CZECK REPUBLIC" was observed marked on the right side of the magazine housing of the receiver/frame.

Model

- introduced in 2008.
- "PAR Mk 3" was observed marked on the left side of the magazine housing of the lower recever/frame.
- "PAR MARK 3" is of the design commonly known as the AR-15/M-16 rifle.
- "PAR" is the abbreviation for Piston Advanced Rifle.
- this rifle uses a two piece receiver/frame similar to Colt model AR15 semi-automatic.
- features include: heavy contour match grade round barrel with threaded muzzle with muzzle break; adjustable gas block and gas piston system mounted over the barrel; flat top upper aluminium alloy receiver with Picatinny rail; alunimum alloy lower receiver/frame with fold down trigger guard; free floating quad Picatinny rail handguard; synthetic pistol grip; six position adjustable buttstock.
- "PAR MARK 3" is also sold as a receiver/frame and with the interchangeability of aftermarket parts may be found in any configuration with any number of barrel lengths

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Proarms Armory s.r.o. is located in Nehvizdy, Czech Republic.
Action	- piston operated gas system.
Serial Number	- serial number was observed marked on the left side of the magazine housing of the receiver/frame.
Calibre	- "5.56mm/223 Rem" was observed marked on the right side of the magazine housing of the receiver/frame on one example, other examples may have different markings in different places.. - rifling characteristics: 1 turn in 9 inches, or 1 in 7 inch twist.
Shots	- detachable box magazine. - this firearm is designed to use the AR15/M16 detachable magazine and will accommodate a vast array of aftermarket magazines and drums.

Firearm Reference Number (FRN): 149225
Make: Probin, John
Model: Swivel Gun

Summary

Make:	Probin, John
Model:	Swivel Gun
Manufacturer:	Probin, John
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Multi-Barrel
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
149225 - 1	40 FLINTLOCK	1	103	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "J.PROBIN" is marked on the firearm.

Model

- "J.PROBIN" is marked on the side of the barrel.
- full model designation is not marked on the firearm.
- this is an over & under barrel system with a swivelling breech block that allows the upper barrel to fire first, then the whole assembly can be rotated until the lower barrel moves into the upper possition for firing.
- features include: round, cannon-form smoothbore barrels with eight muzzle cuts to take a square key to accomplish breech loading; no sights; back action lock; side mounted, "goose neck" cocks; capped, bulbous pommel; lightly engraved and finished "in the white".
- may be encountered with various proof marks.

Manufacturer

- "J.PROBIN" is marked on the firearm.
- John Probin was a Birmingham, England gunmaker circa 1770 to 1800.
- John Probin was likely the son of Owen Probin, with brothers William, Thomas, Owen and Samuel, all of which worked in the Birmingham gun trade.

Action

- breech loaded, flintlock ignition, over & under, swivel barrel design.

Notes

Make

- "PROCOMSA: Principe, 5. BILBAO" was observed marked on the left side of the receiver/frame of a known example.
- "Procomsa" appears to be a retailer/distributor; research cannot confirm any form of firearm manufacturing by this firm.

Model

- "Mod. VANGUARD" was observed marked on the left side of the receiver/frame.
- features observed: round tapered smoothbore barrel with bead front sight; front hinged receiver/frame with top tang mounted break open lever; automatic ejection; exposed spurred hammer; single action trigger mechanism; wood forearm and semi-pistol grip buttstock with butt plate; blued finish.
- Spanish proofmarks are apparent on the receiver/frame and/or barrel lug.

Manufacturer

- "CYA" trademark logo was observed marked on the buttplate.
- "CYA" is the trademark used by "Carrero Y Astelarra" of Guernica, Spain.
- "Carrero y Astelarra s.l" and "Made in Spain" or "CYA" is usually marked on the barrel of CYA firearms.
- "CYA" is also usually marked on the barrel lug and/or action flats of the receiver/frame in the absence of the company name.

Action

- hinge barrel design.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Notes

Make

- "PROJECT GUNS LLC" is marked on the left side of the receiver/frame.
- "PROJECT GUNS LLC" is located in Boca Raton, Florida U.S.A..
- "PROJECT GUNS LLC" is a custom work, building and restoration services shop of military type firearms.

Model

- "RPD SEMI AUTO" is marked on the left side of the receiver/frame.
- "RPD" denotes "Ruchnoy Pulemyot Degtyaryova" (Degtyaryova Light Machine Gun).
- "RPD SEMI AUTO" is a semi-automatic version of a belt-fed light machine gun based on the Russian RPD design started in 1943 and introduced circa 1953, built and used by the Soviet Union, China and their allies.
- "RPD SEMI AUTO" receiver/frame was built with a different country of origin, U.S.A. market, available "rifle kit".
- features include: threaded muzzle with knurled protective ring; front sight bracket with a windage adjustable sight having a circular open top protector; permanently attached, non-adjustable bipod that can be folded under; gas block with a three position gas regulator; gas cylinder located under the barrel; short wood handguard; notched tangent rear sight mounted on the feed cover over the belt feeding port; upward folding cocking handle on the right side of the receiver/frame; selector lever on the right side over the trigger; lower assembly incorporate the trigger assembly, pistol grip with wood panels and "club foot" shaped wood buttstock; steel butt plate with a tab extension on the left side for a sling attachment; converted to fire - closed bolt, striker-fired; blued finish.
- overall length with a 520mm (20.5") barrel is 1036mm (40.8") and a average weight of 7.1kgs (15.6lbs).

Manufacturer

- "PROJECT GUNS LLC" is marked on the left side of the receiver/frame.
- "PROJECT GUNS LLC" is located in Boca Raton, Florida U.S.A..
- "PROJECT GUNS LLC" is a custom work, building and restoration services shop of military type firearms.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a two letter prefix (PT) and four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- "CAL. 7.62X39" is marked on the left side of the receiver/frame.

Shots

- the RPD is a belt-fed firearm.
- RPD uses a 100-round (two fifty round sections) metallic linked belt fitted into a stamped metal drum mounted on a dovetail on the underside of the reciver/frame.
- the drum for the RPD is not indeed a cartridge magazine - it is a belt carrier.
- the non disintegrating link belt for the RPD firearm is a belt that was designed to feed cartridges into the firing chamber of an automatic firearm which was in existance before 1945.

Notes

Make

- PROOF is marked on the left side of the receiver/frame.
- Columbia Falls, MT is marked on the right side of the receiver/frame.
- Trade name used by Proof Research.

Model

- H6 is marked on the right side of the receiver/frame.
- Elevation MTR is not marked on the firearm.

- H6 is the code for the receiver/frame manufacturer.

- MTR stands for Mountain Tactical Rifle.

- H6 Elevation MTR is built on a Bighorn Arms Origin action.
- H6 Elevation MTR is a custom rifle available with hinged floorplate magazine or detachable box magazine.
- Features include: carbon fiber wrapped, match-grade barrel; receiver/frame with open top, drilled and tapped for optic mount; right hand bolt; fluted bolt body; floating and interchangeable bolt head; long arched ejection port; left side mounted bolt release lever; trigger with safety lever on the right side of the tang.

Manufacturer

- H6 is marked on the right side of the receiver/frame.
- H6 is the code for the receiver/frame manufacturer.
- Bighorn Arms is partnering with Zermatt Arms Inc (ZAI) in its manufacturing.
- Bighorn Arms is located in Bennet, Nebraska, U.S.A.

Action

- Turn bolt operated.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- The serial number of a referenced example consisted of a letter prefix H, a dash and four numbers.

Calibre

- The calibre designation is marked on the barrel.

Shots

- Integral box magazine with hinged floor plate.
- Detachable box magazine.

Notes

Make

- "PROOF RESEARCH" may be marked on the firearm.

Model

- model may be marked on the firearm.
- custom rifle based on the Remington 700 BDL or the 700 DBM models.
- features include: carbon fiber wrapped barrel; receiver/frame is drilled and tapped for optical sight mounting and integral rail; integral box magazine with front pivoting floorplate or detachable box magazine; adjustable synthetic one-piece stock.
- overall length with a 508mm (20") barrel is 1016mm (40") average weight is 3.97 kgs (8.75lbs).

Manufacturer

- Proof Research is located in Columbia Fall, MT, USA.

Action

- turn-bolt design.

Serial Number

- serial number is usually marked on the receiver/frame.

Shots

- integral box magazine with front pivoting floorplate or detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 159186
Make: Proparms
Model: Merlin Recoiless Disrupter

Summary

Make:	Proparms
Model:	Merlin Recoiless Disrupter
Manufacturer:	Proparms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Other
Action:	Other
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
159186 - 1	12.5MM MERLIN DISRUPTER	1	381	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "PROPARMS LTD" may be marked on the firearm.

Model

- model designation is not marked on the firearm.
- introduced in 2015.
- this unique recoilless firearm design utilizes a non-traditional receiver/frame with a recoilless venturi breech; the portions of this firearm screw together to form a barrelled breech that fires a slug or water jet to destroy an explosive device.
- this "disrupter" wil also accomplish a disrupting of an IED (Improvised Explosive Device) via it's recoil, ie. working in reverse, pointing away from the target.
- this "disrupter" is a single-shot firearm with a remote hand held detonator (trigger/firing device); it is designed to assist law enforcement or any type of security organization in disrupting packages containing explosive devices in such a manner as to permit forensic analysis of the unexploded remains of the improvised explosive device.

Manufacturer

- "PROPARMS LTD" was observed marked on the firearm.

Type

- an Improvised Explosive Device (I.E.D.) disrupter, designed to assist Explosive Ordnance Disposal personnel in the performance of their duties by reducing the hazard of dismantling Improvised Explosive Devices manually.

Action

- screw-together, single-shot.

Serial Number

- the serial number may be marked on the barrel/receiver/frame.
- due to the unique design of this firearm, the barrel is considered to be the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- uses proprietary ammunition.
- electric primed ammunition.
- fires either water slug, steel slug or frangible projectile.

126648 - 1	12 GA X 2 3/4"	12	300	Prohibited PFR, Part 1, para. 4	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "Protecta" is a trade name used on the Striker/Streetsweeper type shotgun manufactured by Reutech Defence Industries and Aserma Manufacturing of South Africa.
Model	- this firearm is a compact shotgun designed for security, police and military applications, operating on a revolving cylinder principle. The front vertical grip, when swung to the right and back, rotates a barrel shroud and a pivoting arm linked to it, which in turn rotates the cylinder 1/12 of a turn which lines the cylinder up with the barrel for the next shot. Fired empty cartridge cases are ejected automatically with a small amount of bleed off gas from the fired chamber with the last spent case being removed by a spring loaded ejector rod mounted on the right side of the barrel. - features include: alloy/fibre carbon construction; vented barrel shroud; Ocluded Eye Gunsight (OEG sight); trigger locking safety catch; top folding twin strut buttstock. - overall length with the butt extended is 780mm (30 3/4") and 500mm (19 5/8") with the butt folded.
Manufacturer	- Aserma Manufacturing is located in New Germany, South Africa.
Shots	- hand indexed, revolving magazine.
Canadian Law Comments	- the Protecta revolving shotgun is deemed to be a variant or modified version of the Striker Shotgun and Prohibited as per PFR Part 1 Para 4 of the Criminal Code.

Notes

Make

- "PROTECTION" is marked on the cylinder, between two roll-engraved scenes.
- "PROTECTION" was a trade name used by Chicago Arms Company, Francotte, and Whitney.

Model

- "PROTECTION" is marked on the cylinder, between roll-engraved scenes of a police officer and two burglars, and a traveler being held up by two highwaymen.
- This is a small percussion revolver believed to have been made or designed by Fordyce Beals, a supervisor at the Whitney Firearms Company, during the late 1850s; these revolvers share a number of characteristics with known Whitney revolvers.

- Features include: under-barrel loading rammer; iron frame or brass receiver/frame; a sheath-style trigger; a hammer with sharply upswept spur; walnut grips.

Manufacturer

- The manufacturer is not marked on the firearm.

Serial Number

- Serial number is marked on the receiver/frame and may be repeated on the barrel.
- The serial number rationalization is unknown.

Calibre

- The calibre designation is not marked on the firearm.

Notes

Make

- "PROTECTOR" is marked on the top of the barrel chamber.
- "Protector" was a trade name/model marketed by "Sile".
- "SILE" was an distributor and importer of foreign firearms, and a manufacturer based in New York, that dealt in Italian shotguns and reproductions of black powder muzzle loaders and western style firearms and accessories from the 1970s to 1999.

Model

- "PROTECTOR" is marked on the top of the barrel chamber.
- features include: round tapered barrel with bead front sight; front hinged receiver/frame with top tang mounted slide type safety; action release lever located on the underside of the receiver/frame forward of the trigger guard; hammerless; extractor; two piece stock with wood forearm and pistol grip only (not intended to be fired from the shoulder); blued receiver/frame and barrel.
- overall length with a 502 mm barrel is 686 mm.

Manufacturer

- Investarm and/or the Investarm's logo is marked on the firearm.
- Investarm logo consists of the outline of an oversize capital "I" within a rectangle.
- Investarm was founded in 1975 by the three Salvinelli brothers.
- Investarm is a manufacturer located in Marcheno, Italy.
- Investarm specializes in producing single barrel and multi barrel shotguns and muzzle loading percussion and flintlock firearms.

Action

- hinged receiver/frame, break open action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the barrel and action flat and is followed by the Investarm logo.
- observed sample consisted of 6 digits.

Calibre

- gauge and chamber length are marked on the top side of the barrel.
- observed sample was marked:
"20 GAUGE 3" MAGNUM"

Other Markings

- importer's designation marked on the barrel under the forend as:
"SILE, NEW YORK, N.Y."
- marked on the left side of the barrel as:
HARD CHROME
MADE IN ITALY

Notes

Make

- "PROTECTOR" is marked on the top of the barrel.
- "PAT'D APR. 23 1878" is marked on the left side of the barrel.
- "PAT'D APR. 23 1878" represents the date that patent number 202,627 was assigned to William H. Bliss of Norwich, Connecticut.

Model

- "PROTECTOR" is marked on the top of the barrel.
- "PAT'D APR. 23 1878" is marked on the left side of the barrel.
- this firearm would have been made circa 1878 to circa 1887.
- this type of handgun is typically known as a "suicide special".
- features: solid receiver/frame; will have the W.H. Bliss patented circular side plate with a slot on the left side of the receiver/frame, however, some versions of this model have been observed with a plain circular side plate without the slot on the left side of the receiver/frame; single action spur trigger; plain cylinder with locking notches to the rear; cylinder pin release is a blade-type located on the front of the receiver/frame; round barrel; blade front sight; bird-head grip frame; case hardened trigger and hammer; nickel plated finish; grips may be walnut or checkered black hard rubber; may have light engraving on the barrel and/or receiver/frame.

Manufacturer

- manufacturer's name is not marked on this firearm; firearm was made by Norwich Pistol Company/Norwich Falls Pistol Company of Norwich, Connecticut.
- some versions of this model will be marked "PAT'D APR. 23 1878" on the left side or top of the barrel.
- "PAT'D APR. 23 1878" represents the date that patent number 202,627 was assigned to William H. Bliss of Norwich, Connecticut.
- W.H. Bliss was the plant superintendent of the Norwich Pistol Co. (circa 1873 to 1881) and its successor the Norwich Falls Pistol Co.(circa 1882 to 1887). He was not affiliated in any way with the company of Bliss & Goodyear of New Haven, Connecticut.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is usually marked on the left side of the grip frame underneath the grip plate.
- serial numbers are numeric only without prefix or suffix.

Notes

Make

- "PROTECTOR" is marked on the left side of the slide.
- "ETNA", "INVICTA", "PROTECTOR", and "TISAN" are trade names used by Santiago Salaberrin.
- "Protector" was also a trade name used by "Echave y Arizmendi".
- "Protector" was also a trade name used by "Norwich Falls Pistol Company".

Model

- "Protector" is marked on the left side of the slide.
- manufactured prior to 1939.
- "Automatic Pistol" over "Protector" or "Model Automatic Pistol" over "Protector" or "Protector" over " 1918 Model Automatic Pistol" have been observed.
- this is a copy of a model 1906 FN-Browning pocket pistol without a grip safety.
- features include: flat sided slide with rear grip serrations; detachable box magazine with magazine release button on bottom of the grip; blued finish.

Manufacturer

- Santiago Salaberrin was located in Eibar, Guipuzcoa, Spain prior to 1936.

Action

- blowback operated.

Serial Number

- known example had a five digit number without prefix or suffix marked on the right side of the receiver/frame above the trigger guard.

Calibre

- calibre designation may be marked on the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine housed in the grip.
Other Markings	- known example marked "Spain" on left rear of receiver/frame. - known example also marked on each grip plate with following logo; a stylized 'standing' dragon within a circle over the words "Trade Mark"; this logo is attributed to the Spanish manufacturer, Santiago Salaberrin.

145899 - 1	65 FLINTLOCK	1	368	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is not marked on the firearm.
- prior to 1871, Prussia maintained armories at Potsdam, Saarn, Neifse (Neisse), Danzig and Zella/Mehlis. There also existed a large private armaments industry in Suhl.

Model

- model not marked on the firearm.
- this is a cavalry model "1742" that originated during the time of Friderius Rex, King of Prussia between 1740-1786, with the identifying feature a brass coin insert on the handle with a stylized crown and the letters "FR" intertwined and a long barrel of approximately 14 1/2 inches.
- "1789" cavalry model contains a similar stylized crown the reigning king's initials as "FWR" located on the butt cap and a shorter barrel length.
- features include: distinctive rippled right side plate rear of the flint holder; flintlock action with squared frizzen pan; brass butt cap with ring; brass coin on the top of the grip and other brass furniture; full walnut stock with ram rod sheath, plus metallic loading rod.
- overall length for 368mm (14 1/2") barrel is 565mm (22 1/4") and overall weight is 1.45kg (3.2lbs).

Manufacturer

- "POTZDAM MAGAZ" is marked on the right side plate in front of the flint hammer.

Action

- muzzle loader.

Notes

Make

- make is not marked on the firearm.
- prior to the 1871, Prussia maintained armories at Potsdam, Saarn, Neifse (Neisse), Danzig and Zella/Mehlis. There also existed a large private armaments industry in Suhl.

Model

- model is not marked on the firearm.
- known as the "Potsdam" musket as large quantities were made at that state arsenal. Along with Potsdam and Danzig, other state arsenal markings encountered will include Neifse, Saarn, Suhl, and Zella/Mehlis.
- up to 165,000 Prussian muskets were purchased by the United States circa 1861.
- originally made in smooth bore and with a flintlock ignition and many were later rifled and converted to percussion ignition using a curved cone seat forged onto the breech. The year of conversion may be stamped on the barrel or butt plate adjacent to a crowned "FW".
- features include: cupped, trumpet shaped ram rod end; three brass barrel bands held by leaf springs with the front band serving as a combination ram rod guide and front sight; notched rear sight; brass trigger guard and brass or steel butt plate that end with three pointed finials; beech or walnut stock with recessed cheek rest; lockplate has a small tail that ends in a teat; sling swivel attached to the middle band and trigger guard.
- overall length is 1435mm (56.5").

Manufacturer

- "Neifse" in script under a crown is marked on the lockplate.

Action

- muzzle loading.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - references confirm calibre as 71 FLINTLOCK or 72 FLINTLOCK.

Notes

Make

- make is not marked on the firearm.
- prior to the 1871, Prussia maintained armories at Potsdam, Saarn, Neifse (Neisse) and Zella/Mehlis. There also existed a large private armaments industry in Suhl.

Model

- model is not marked on the firearm.
- the year and the manufacturer may be marked on the lock plate.
- this is a purpose built smooth bore percussion firearm.
- up to 165,000 Prussian muskets were purchased by the United States circa 1861.
- differs from the 1809 Potsdam Musket by having a rounded tail on the lock plate and does not have the three pointed finial ends found on the trigger guard and butt plate of the 1809 version.
- many of these models were updated with the addition of rifling circa 1855.
- originally made in smooth bore and with a flintlock ignition and many were later rifled and converted to percussion ignition using a curved cone seat forged onto the breech. The year of conversion may be stamped on the barrel or butt plate adjacent to a crowned "FW".
- features include: cupped, trumpet shaped ram rod end; three brass barrel bands held by leaf springs with the front band serving as a combination ram rod guide and front sight; ladder or leaf back sight with notched rear tang mounted block; brass trigger guard and brass or steel butt plate; beech or walnut stock with recessed cheek rest; sling swivels attached to the middle band and trigger guard.
- overall length is 1448mm (57").

Manufacturer

- "POTZDAM MAGAZ" or "Potsdam" in script under a crown is usually marked on the lockplate.

Action

- muzzle loading.

Calibre

- calibre may vary from 69 PERCUSSION to 72 PERCUSSION.

Notes

Make

- make is not marked on the firearm.
- prior to 1871, Prussia maintained armories at Potsdam, Saarn, Neifse (Neisse), Danzig and Zella/Mehlis. There also existed a large private armaments industry in Suhl.

Model

- "1850" is marked on the barrel and/or sidelock.
- other dates may be encountered.
- in 1850, the Prussian government embarked on the conversion of their obsolete flintlock pistols to the more reliable percussion ignition system.
- these may be conversions of original flintlocks made from circa 1823 to 1860 or purpose built percussion handguns.
- examples have been marked with other makers/arsenals including "Suhl V.C.S." and "Saarn".
- typical features include: tapered round barrel with reinforcing muzzle ring; post front sight; external hammer; frizzen spring actuated safety lever/nipple protector; brass trigger guard with finger grip; full or half stock with brass barrel band and a bird's head grip cap; lanyard ring; finished "in the white" or period nickel plate.

Manufacturer

- "Potsdam" in script under a crown is marked on the lockplate of an observed example.

Action

- muzzle loader.

Other Markings

- "FW" in script under a crown is marked on the firearm and represents King Friedrich Wilhelm IV and other inspector's initials may be encountered.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Multi-Barrel
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145694 - 1	48 PERCUSSION	2	141	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm as "Pryse & Redman".

Model

- the model is not marked on the firearm; this is a descriptor of the type of firearm.
- this is an over/under double barrel percussion pistol.
- features include: browned finish; dual, vertical, octagonal barrels; a hinged ramrod that can be swung to load either barrel (usually clipped into place below the bottom barrel); fixed notch and bead sights; dual hammers, where the left hammer fires the upper barrel and the right hammer fires the lower barrel; back-action lockplates; checkered pistol-grip; and lanyard loop at butt.

Manufacturer

- the manufacturer is marked on the firearm as "Pryse & Redman".
- Charles Pryse and Richard Redman were located in Birmingham, England between 1842 and 1873; Pryse and Redman also had a showroom and retail store in London, and their firearms may be seen with either address.

Action

- over/under configuration.

Notes

Make

- "PUMA" may be marked on the top tang or a "PUMA" medallion may be fitted on the left side of the receiver/frame.
- Puma is a trademark/trade name used by Legacy Sports International of Alexander, Va. and Reno, NV., U.S.A. since 2001.
- Puma lever action rifles have been manufactured by Amadeo Rossi of Brazil and Armi Chiappa of Italy.

Model

- introduced in 2008.
- "Mare's Leg" is a registered trademark of J.B. Custom, Incorporated.
- "Bounty Hunter" model was based on the role played by actor Steve McQueen in the television series "Wanted Dead or Alive". The firearm utilized in the television series was a Winchester model 1892, featuring a barrel reduced to 305 mm (12") and a stock shortened to approximately 102 mm (4") beyond the "large" close loop operating lever.
- this firearm is based upon a Chiappa manufactured "PUMA" Winchester model 1892 reproduction.
- features include: fixed blade front sight and a drift adjustable rear sight; round, tapered barrel with a rifled bore and two barrel bands; 1892 type flat sided, open top receiver/frame with left side mounted saddle ring, top ejection, and a right side loading gate; external hammer; single action trigger mechanism; extra large closed loop operating lever; walnut forearm and a straight grip, shortened buttstock with a metal butt plate; blued or casehardened finish.
- overall length with a 305 mm (12") barrel is 610 mm (24"), and the average weight is 1.4 kgs (3.1 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the receiver/frame. - serial number of an observed example consisted of a letter prefix (T) and four numbers.
Calibre	- rifling characteristics for caliber 45 COLT: 1 turn in 406mm (16").
Shots	- tubular magazine mounted under the barrel.

Notes

Make

- "PUMA" may be marked on the top tang or a "PUMA" medallion may be fitted on the left side of the receiver/frame.
- Puma is a trademark/trade name used by Legacy Sports International of Alexander, Va. and Reno, NV., U.S.A. since 2001.
- Puma lever action rifles have been manufactured by Amadeo Rossi of Brazil and Armi Chiappa of Italy.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 2009. - "Model 1892" or "M92" may be marked on the firearm. - this is a modern reproduction of the Winchester, model 1892 rifle originally designed by John M. Browning. The Armi Chiappa offering is available in rifle or carbine configuration. - features include: blade front sight and adjustable buckhorn style rear sight; blued octagonal or round rifled barrel; case-hardened flat sided open top receiver/frame with a right side loading gate; spur hammer; closed loop operating lever and forend cap; wood forend and straight grip butt stock with a crescent butt plate.
Manufacturer	- "Chiappa Firearms, ITALY" may be marked on the barrel.
Serial Number	- serial number is usually marked on the bottom of the receiver/frame ahead of the operating lever and may be repeated on the barrel. - serial number of a reference example consisted of the letter (T) followed by 4 numbers.
Calibre	- calibre designation is usually marked on the barrel.
Shots	- tubular magazine mounted under the barrel.
Importer	- the Winchester 1892 Reproduction, as produced by Armi Chiappa is imported/marketed in North America by a variety of firms. - importer markings are not always present on the firearm.
Other Markings	- this model will usually bear Italian proof marks and a catalogue number issued by the Italian National Proof House.

Notes

Make

- "PWS" is marked on the left side of the receiver/frame.
- "PWS" stands for "Primary Weapons Systems".
- "PWS" over "BOISE, ID" is marked on the left side of the receiver/frame.

Model

- "MODEL MK1" is marked on the left side of the receiver/frame.
- "MODEL MK1" variations are based on the Colt AR-15/M16 design.
- "MODEL MK1" is also sold as a receiver/frame.
- "MODEL MK1" is also available in a semi-automatic variant.
- features include: threaded muzzle for flash hider/muzzle brake; steel or stainless steel barrel; folding sights or optical sight; gas block with adjustable gas plug for the long stroke piston driven gas system; Picatinny rail free floating handguard; A3 Picatinny rail flat top upper assembly; collapsible buttstock; synthetic pistol grip; matte black finish.

Manufacturer

- "PWS" is marked on the left side of the receiver/frame.
- "PWS" stands for "Primary Weapons Systems".
- "Primary Weapons Systems (PWS)" is located in Boise, Idaho, U.S.A..
- "Primary Weapons Systems (PWS)" was established in 2006.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of the prefix "M" and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "CAL. MULTI" is marked on the left side of the receiver/frame. - calibre identification is usually marked on the barrel.
Shots	- detachable box magazine. - uses all magazines available for AR15/M16 type rifles.

Notes

Make

- "PWS" was observed marked on the left side of the receiver/frame.
- "PWS" stands for "Primary Weapons Systems".
- "PWS" over "BOISE, ID" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "MODEL MK1" is marked on the left side of the receiver/frame.
- "MODERN MUSKET" is marked on the right side of the receiver/frame on the magazine well.
- "MODERN MUSKET" uses a logo made of a combination of a flintlock musket and an AR type hammer.
- "MK1 MODERN MUSKET" variations are based on the Colt AR-15/M16 design.
- "MK1 MODERN MUSKET" is also available as a pistol variant.
- features include: threaded muzzle for flash hider/muzzle brake; low profile gas block for direct impingement gas system; free floating, full length top Picatinny rail, skeletonized handguard with anchoring attachment points; Picatinny rail flat top upper assembly; collapsible buttstock; synthetic pistol grip; matte black finish.
- overall length with a 368mm (14.5") barrel is 810mm (31.875") with the stock collapsed, average weight is 3.04kg (6lbs, 7oz).
- "MODEL MK1" is also sold as a receiver/frame.
- "MODEL MK1" is also available in a full automatic variant.

Manufacturer

- "PWS" was observed marked on the left side of the receiver/frame.
- "PWS" stands for "Primary Weapons Systems.
- "Primary Weapons Systems (PWS)" is located in Boise, Idaho, U.S.A..
- "Primary Weapons Systems (PWS)" was established in 2006.

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a letter prefix (M) followed by five digits.

Calibre

- "CAL. MULTI" was observed marked on the left side of the receiver/frame.
- calibre identification is marked on the left side of the upper assembly.
- calibre identification is also usually marked on the barrel.
- "223 Wylde" is a chamber design and not a calibre. Wylde chamber has traditionally been used in match rifles and also allow the ability to safely and interchangeably shoot military 5.56MM NATO and .223 REM ammunition.
- 223 REM rifling characteristics: 1 turn in 8 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

- overall length with a 273mm (10.75") barrel is 686mm (27"), average weight is 2.72kg (6lbs).
- "MODEL MK1" is also sold as a receiver/frame.
- "MODEL MK1" is also available in a full automatic variant.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "PWS" was observed marked on the left side of the receiver/frame.
- "PWS" stands for "Primary Weapons Systems.
- "Primary Weapons Systems (PWS)" is located in Boise, Idaho, U.S.A.
- "Primary Weapons Systems (PWS)" was established in 2006.

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a letter prefix (M) followed by five digits.

Calibre

- "CAL. MULTI" was observed marked on the left side of the receiver/frame.
- calibre identification is marked on the left side of the upper assembly.
- calibre identification is also usually marked on the barrel.
- "223 Wylde" is a chamber design and not a calibre. Wylde chamber has traditionally been used in match rifles and also allow the ability to safely and interchangeably shoot military 5.56MM NATO and .223 REM ammunition.
- 223 REM rifling characteristics: 1 turn in 8 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147261 - 1	22 LR	10	410	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
147261 - 2	22 LR	10	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "PWS SUMMIT 22LR" and the "serial number" over "Boise ID" are marked on the left side of the receiver/frame.
- "PWS" stands for "Primary Weapons Systems".

Model

- "PWS SUMMIT 22LR" is marked on the left side of the receiver/frame.
- "SUMMIT" receiver/frame resembles a Ruger model 10/22.
- "SUMMIT" is uses a toggle style, straight-pull action similar to biathlon style rifles.
- "SUMMIT" is also sold as a receiver/frame.
- features include: round bull or carbon fiber barrel with a threaded muzzle; flat sided aluminium alloy receiver/frame with Picatinny rail and right side ejection; right side cocking handle having a rectangular shaped bolt knob pointing downward; removable trigger group assembly; cross bolt safety is located on the forward part of the trigger guard; magazine release lever is located on the front of the trigger guard; one piece, color laminated thumbhole stock; black finish.
- overall length for a 410 mm (16.1") barrel is 883 mm (34.75"), and the average weight is 2.45 kgs (5.4 lbs).

Manufacturer

- "PWS SUMMIT 22LR" and the "serial number" over "Boise ID" are marked on the left side of the receiver/frame.
- "PWS" stands for "Primary Weapons Systems".
- "Primary Weapons Systems (PWS)" is located in Boise, Idaho, U.S.A..
- "Primary Weapons Systems (PWS)" was established in 2006.

Action

- toggle style, straight-pull action.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial numbers observed consisted of a "S2" prefix, a dash (-) and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre is marked on the left side of the receiver/frame.
Shots	- detachable rotary box magazine. - uses all standard magazine available for the Ruger 10/22 rifle.
Canadian Law Comments	- any 22 LR calibre cartridge magazine manufactured for the Ruger 10/22 type platform which exceeds ten (10)shots capacity is a prohibited device, regardless of which manufacturer made it. These magazines are interchangeable between handguns and rifles and are considered "handgun" magazines. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

195999 - 5	5.56MM NATO	30	410	Prohibited PFR, Part 1, para. 87(z.663)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Q was observed marked on the right side of the receiver/frame.
- Q LLC is located in Portsmouth, New Hampshire, USA.

Model

- HONEY BADGER was observed marked on the left side of the upper receiver.
- HONEY BADGER is based on the design commonly known as the AR15/M16.
- HONEY BADGER may be equipped with an integral sound suppressor/silencer designed specifically for this model which has a small diameter allowing it to fit inside the handguard.
- HONEY BADGER is available as a pistol and a rifle variant.
- Earlier versions of the "HONEY BADGER" were manufactured by Advanced Armaments Corp (AAC) but were not commercially available.
- Features include: threaded muzzle for flash hider/muzzle brake; round tapered barrel; low profile gas block; free floating hand guard; accessory rail flat top upper assembly; ambidextrous charging handle; aluminum receiver/frame with ambidextrous safety selector; enlarged, flared magazine well; integral trigger guard; 2 position collapsible butt stock; synthetic pistol grip; grey and titanium finish.
- Overall length with 178 mm (7") barrel and stock collapsed is 508 mm (20").
- Average weight is 2kg (4lbs 8oz) or 2.5 kg (5lbs 7oz) with suppressor.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Q was observed on the right side of the receiver/frame. - Q LLC was founded by Kevin Britingham (former owner of Advanced Armaments Corp) in 2016 in Portsmouth, New Hampshire, USA. - PORTMOUTH over NH was observed on the left side of the receiver/frame.
Action	- Gas operated.
Serial Number	- Serial number was observed on the left side of the receiver/frame. - Observed serial number consisted of the two letter prefix "AA" followed by four digits. - Serial number rationalization unknown.
Calibre	- Calibre designation was observed marked on the left side of the firearm as "300 BLK". - 300 AAC BLACKOUT rifling characteristics: 1 turn in 5 inches, right hand twist for the 178 mm (7 inches) barrel. - 300 AAC BLACKOUT rifling characteristics: 1 turn in 6 inches, right hand twist for the 410 mm (16 inches) barrel. - 5.56MM NATO rifling characteristics: 1 turn in 8 inches, right hand twist.
Shots	- Detachable box magazine.
Canadian Law Comments	- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. If the complete sound suppressor/silencer (prohibited device) is removed, the firearm remains a "Prohibited Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), when removed will not change the "Prohibited Firearm" classification.

Firearm Reference Number (FRN): 196233
Make: Q
Model: Sugar Weasel

Summary

Make:	Q
Model:	Sugar Weasel
Manufacturer:	Q LLC
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
196233 - 1	300 AAC BLACKOUT	30	178	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Q in logo form is marked on the right side of the receiver/frame.
- Q LLC is located in Portsmouth, New Hampshire, USA.

Model

- SUGAR over WEASEL is marked on the front of the magazine well.
- SUGAR WEASEL is based on the Colt AR-15/M16 design.
- SUGAR WEASEL may come from the factory with a sound suppressor/silencer (prohibited device).
- SUGAR WEASEL is a pistol having a collapsible arm brace that may also be side folding.
- Features include: adjustable low-profile gas block; flat top upper assembly with integral accessory rail; no forward assist; standard AR-15 receiver/frame.

Manufacturer

- Q in logo form is marked on the right side of the receiver/frame.
- Q LLC was founded by Kevin Britingham (former owner of Advanced Armaments Corp) in 2016 in Portsmouth, New Hampshire, USA.
- PORTMOUTH over NH is marked on the front of the magazine well.

Action

- Gas operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- Serial number of a referenced example consisted of a two letter prefix (AA) and four numbers.

Calibre

- The calibre designation is usually marked on the barrel assembly.

Shots

- Detachable box magazine.
- Uses all magazines available for AR15/M16 type rifles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

If the complete sound suppressor/silencer (prohibited device) is removed, the firearm remains a "Prohibited Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), when removed will not change the "Prohibited Firearm" classification.

Notes

Make

- "Q.S. Italia" or "Q.S. Progetto Meccanica s.a.s. Italia" is marked on the left side of the slide.
- "Q.S. Italia" or "Q.S. Progetto Meccanica" is marked on the right side of the receiver/frame.

Model

- the model designation is not marked on the firearm.
- introduced in 2005 and based on a modified Colt 1911 design except that it is blow back, rather than recoil operated, and has a fixed barrel.
- this is a shortened version of the P7000 model.
- features include: nickel finished steel slide and blued alloy receiver/frame; the top of the slide assembly is cut away, exposing the barrel; interchangeable and adjustable sights with coloured or tritium dots; recessed muzzle crown; beavertail grip safety; walnut grip panels with other woods available; vented trigger and hammer.
- available with an optional smooth bore barrel for close quarter shooting or a straight rifled barrel that offers higher bullet speed.

Manufacturer

- "Q.S. Italia" or "Q.S. Progetto Meccanica s.a.s. Italia" is marked on the left side of the slide.
- "Q.S. Italia" or "Q.S. Progetto Meccanica" is marked on the right side of the receiver/frame.
- "Q.S. Progetto Meccanica" was renamed "Q.S. Armi" circa 2010.
- "Q.S." is the abbreviation for "Quod Sufficit".

Action

- blowback operated.

37776 - 2	22 SHORT	1	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- maker's designation is usually marked on the firearm.

Model

- model designation may be marked on the firearm.
- approximately 7,000 manufactured from 1893 to 1920.
- overall length 813mm (32").
- a single-shot, manually-cocked takedown rifle with a receiver/frame made of stamped sheet steel; skeletonized metal stock, nickel-plated barrel and receiver/frame.
- to load/unload, the barrel can be pivoted to one side, and the entire rifle can be taken down by removing the pivot pin. A similar rifle, the "Safety Cartridge Rifle" is identical except that it features a walnut stock.

Manufacturer

- Quackenbush was a small-scale manufacturer based in Herkimer, New York, that produced two versions of single-shot "boys rifles".

Other Markings

- markings of the barrel:
"H.M. QUACKENBUSH, HERKIMER, N.Y., U.S.A."
"PAT. IN U.S. & ENGLAND, FEB. 23, 1886, BELGIUM, MAR 15, 1886".

121251 - 8	25 RF	1	457	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- maker's designation and patent dates are marked on the top of the receiver/frame.

Model

- model may be marked on the firearm.
- approximately 3,127 were manufactured circa 1884 to 1913.
- this is a combination air and cartridge rifle originally designed, patented and manufactured by Haviland & Gunn circa 1871.
- to use as a .22 calibre cartridge rifle, a heavy metal plug is provided in a hinged receptacle in the buttstock. This plug (which serves as a firing hammer) is inserted at the front of the standing breech and the top screw is tightened down. A cartridge is then inserted into the chamber and when fired, the piston and spring are released and drive the floating hammer plug forward to strike the cartridge case over it's entire head.
- features include: heavy barrel; fixed sights; combined trigger guard cocking lever; blued, browned or nickel finish; walnut stock with crescent butt plate.
- available with an optional hooded front sight and flip-up rear aperture sight.

Manufacturer

- manufacturer's designation and patent dates are marked on the top of the grip of the receiver/frame.
- H.M.Quackenbush was located in Herkimer, New York between 1871 and 1943 and produced single-shot rifles, pistols and a wide variety of airguns.
- Denis Quackenbush, a distant relative, is a current manufacturer of airguns located in Urbana, Missouri, U.S.A.

Type

- although this resembles and operates as a traditional airgun, it is also designed to fire 22 rimfire cartridge ammunition.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- break barrel action.
Serial Number	- the serial number is located on the cylinder piston and may consist of up to four numbers.
Calibre	- as a "spring-air" gun, these rifles would also fire the old "TT shot", "No.21 1/2" darts, felted or burred slugs or .22 RF cartridges.
Canadian Law Comments	- Although originally marketed and sold as an air rifle/combination gun, the Model No 5 Quackenbush rifle is deemed to be a firearm as outlined in Section 84 of the Criminal Code of Canada.
Other Markings	- early specimens marked "H.M.QUACKENBUSH, HERKIMER, NEW YORK, PAT. APRIL 18, 71, MAY 21, 1872, RE-SEPT. 26 1882"
Remarks	- available in four versions as the model progressed/improved: Version 1- serial number 1 to 100, Version 2- serial number 101 to 1350, Version 3- serial number 1351 to 2850, Version 4- serial number above 2850.

- "R BROS RIFLES" started in 2009 building rifle with their private labeled "Rogue" receivers/frame.

Model

- "ROGUE" is marked on the front, right side of the receiver/frame.
- "ROGUE" is a custom made receiver/frame of Remington 700 lineage to R Bros Rifles specifications.
- "ROGUE" rifles are custom built from a package list or customized as per the client requirements.
- "ROGUE" rifles are also available as single shot, internal, front hinged floorplate or detachable box magazine.
- "ROGUE" receiver/frame's are available in all action lengths in two variants, one mainly for hunting rifles with a lighter tang design and an ejection port that rolls up to the centerline of the receiver/frame and the long range variant has a heavier tang; detachable magazine and features a full round top design with a side port.
- features include: may be threaded for muzzle attachment; round tapered barrel that may be fluted, stainless steel or chrome moly; round receiver/frame; turn bolt operated; one piece bolt with a helically fluted body and a mini AR-15-style extractor; synthetic stock; matte blue or coloured finish.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the front, right side of the receiver/frame.
- serial number of a referenced example consisted of a two letter prefix (RB) and four numbers.

Calibre

- calibre designation is marked on the left side of the barrel.

Shots

- internal, front hinged floorplate or detachable box magazine.

Notes

Make
- make is not marked on the firearm.
- the receiver/frame of the firearm inspected is devoid of markings.

Model
- model is not marked on the firearm.
- the receiver/frame of the firearm inspected is devoid of markings.
- "M4 AIRSOFT" resembles with near precision a genuine Colt/Armalite full automatic "M4" Carbine.
- features include: flat top aluminum upper receiver with an integral Picatinny type rail; aluminum lower receiver/frame with an integral magazine well; black or white finish.

Manufacturer
- the receiver/frame of the firearm inspected is devoid of markings.
- RA Tech is located in Hualien City, Hualien County, Taiwan.
- RA Tech was established in 1995.

Type
- this airsoft uses the receiver/frame of a full automatic firearm.
- the RA TEC AirSoft receiver/frame can be assembled into a genuine automatic firearm.

Action
- gas operated.

Serial Number
- the receiver/frame of the firearm inspected is devoid of markings.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine. - "KINGARMS" was marked on the bottom of the magazine of an observed example.
Canadian Law Comments	- the lower receiver is the controlled component and qualifies as a receiver for the purpose of the definition of "firearm" in Section 2 of the Criminal Code. - the inspected lower receivers are fully functional selective fire (full automatic capable) receivers for M4 assault rifles.
Other Markings	- the receiver/frame of the firearm inspected is devoid of markings.

Notes

Make

- "Rabbit" was one of the trade names used on firearms distributed in Western Canada by J.H. Ashdown from the mid 1920's to the late 1920's.

Model

- "Rabbit" and calibre designation are marked on the top of the receiver/frame.
- produced from the mid to late 1920's.
- the "Rabbit" rifle is a simple single shot economy rifle of the Cooey Ace/Cooey Canuck type manufactured by the H.W. Cooey Machine & Arms Company.
- features include: blued finish; wood stock; requires manual cocking after closing the bolt.

Manufacturer

- "Rabbit" firearms were produced by H.W. Cooey Machine & Arms Company, manufacturer's markings were not applied to the firearm.

Action

- turn-bolt operated.

Serial Number

- "Rabbit" rifles were not usually marked with a serial number. Only 2,000 "Rabbit" rifles are known to have had serial numbers, these rifles were manufactured for export to Australia in the late 1920's.

Calibre

- samples are known to have been marked ".22 Long Rifle" or ".22 Cal.".

Model: Bow-Mag

Summary

Make:	Rac-Em-Bac
Model:	Bow-Mag
Manufacturer:	Rac-Em-Bac
Level:	Manufacturer Specifications and Commercial Customization
Type:	Other
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
144113 - 1	357 MAG	1	28	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Rac-Em-Bac" is not marked on the "BOW-MAG".
- "BOW-MAG" is a trade name/trademark manufactured and distributed by Rac-Em-Bac, LLC.

Model

- "BOW-MAG" was observed marked on the side of the of the black plastic cylindrical body in raised letters.
- "BOW-MAG" arrowhead consists of three (3) pieces. synthetic red cap with a hollow core and serrations; synthetic black hollow cylindrical one piece barrel/receiver/frame with four (4) sets of three (3) fins and is threaded at the rear to attached to the firing pin mechanism; synthetic firing pin mechanism with a metal firing pin is threaded at the front for attachment to the barrel/receiver/frame and threaded on the tail to fit on an arrow shaft.
- over all length of the assembled item is 76 mm (3").

Manufacturer

- Rac-Em-Bac is located in DeQuincy, Louisiana, U.S.A.

Action

- firing of the cartridge is achieved when the BOW-MAG strikes a target with sufficient force to drive the cartridge back onto the firing pin to ignite the primer.

Serial Number

- observed example did not have a serial number.

Canadian Law Comments

- "BOW-MAG" is destroyed upon striking a target.

Make: Rachinskiy Purtsen
Model: 2A14

Summary

Make:	Rachinskiy Purtsen
Model:	2A14
Manufacturer:	KBP/TsKIB SOO
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145334 - 1	23X152B	N/A	1880	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm; this make is derived from the names of the two lead designers on this cannon, E.K. Rachinskiy and R. Ya. Purtsen.

Model

- the model may or may not be marked on the firearm.
- this is a medium anti-aircraft cannon originally designed and adopted in the late 1950s for use as a towed mobile anti-aircraft system (the ZU), but which has been modified to produce several other versions for mounting on self-propelled AA systems and helicopters.
- this cannon is normally seen in dual mounts on a wheeled carriage called the "ZU-23", for "Zenitnaya Ustanovka-23" (Anti-aircraft, Mounted-23), and copies thereof have been produced around the world in former Eastern Bloc countries and China; it is also commonly seen in quadruple self-propelled mounts, called the "ZSU-23-4" (Zenitnaya Samokhodnaya Ustanovka-23-4/Anti-aircraft Self-propelled Mount-23-4), commonly called the "Shilka" (a Russian river) or the "Zeus".
- this cannon operates as an enlarged Afanasev A-12.7 machine gun, with a toggled bolt to increase the velocity of the bolt and the rate of fire; each individual cannon in a single, dual, or quadruple mount can have a rate of fire of up to 1000 rpm.
- features include: blued, parkerized, phosphate, or painted finish; large tubular flash hider on the muzzle; under-barrel gas piston; hinged top cover; quick-change barrel with fluted chamber; ambidextrous feed (dual mounts are usually fed one from each side); open-bolt operation to allow for faster cooling; and a firing control operated via foot pedal from the gunner's seat.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- gas operated.

Serial Number

- numbered on the receiver/frame.

Shots

- belt-fed.

- "FB" stands for the factory is "Fabryka Broni w Radomiu" or "F B Radom".

Action

- Gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- Serial number is marked on the forward, right side of the receiver/frame. - Serial number is also marked on the bolt. - Serial number of referenced examples consisted of two letter prefix and five numbers.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- Calibre is marked on the left side of the receiver/frame. - 223 REM rifling characteristics: 1 turn in 228mm (9 inches), right hand twist.
Shots	- Detachable box magazine. - Utilizes STANAG Type AR15/M16 Cartridge Magazines.
Canadian Law Comments	- In the case of this firearm, it has been determined that the component commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the manufacturer's identification, model identification, proof information, and the full serial number is marked, is the receiver/frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Model

- model marking rationalization unknown.
- this variant Kalashnikov design is marketed as a civilian hunting rifle.
- features include: longer barrel than the military version, with chrome plated bore; the barrel lacks a bayonet lug and is not equipped with nor threaded to accept a flash eliminator; the fore-stock and butt stock are manufactured from laminated wood with the butt in a thumb-hole design; the firearm is equipped with a telescopic sight mount.

Manufacturer

- the manufacturer's designation may be marked on the left side of the receiver/frame along with the year of manufacture.

Action

- gas operated.
- this firearm model is a variant of the AKM Kalashnikov design, manufactured with semi-automatic fire capability only.

Serial Number

- the serial number will be found on the left upper portion of the receiver/frame just below the body cover.
- serial number rationalization is unknown.

Shots

- this Kalashnikov variant firearm model is supplied with two, 5 shot capacity magazines at the point of manufacture. Be aware that any/all Kalashnikov magazines in the appropriate calibre will fit and function in this firearm.

Remarks

- this firearm model is a civilian version of the AKM Kalashnikov design, manufactured in semi-automatic fire capability only.

Notes

Make

- "F.B. RADOM" and year of manufacture are marked on the left side of the slide.
- "FB" inside a triangle may be moulded into the left grip plate.
- "VIS" inside a triangle may be moulded into the right grip plate.
- Radom is the common name for this pistol although it is more properly known as the VIS pistol.
- the full name of the factory is Fabryka Broni w Radomiu or F B Radom.

Model

- "VIS-wz. 35" and "pat. Nr 15567" may be marked on the left side of the slide.
- "VIS 35" was adopted by the Polish military in 1935.
- full scale production began at F.B. Radom in 1936.
- "VIS" is Latin for "power or powerful".
- features include: single action trigger mechanism; blued receiver/frame and barrel; round exposed hammer; fixed sights; a hammer decocking lever is located on the left side of the slide; grip safety; serrations on the rear of the slide; the slide lock and magazine release are located on the left side of the receiver/frame; checkered plastic grips with "FB" or "VIS" marked on them.
- Polish manufactured models are marked with the year of manufacture on the slide.
- manufactured up until 1939 by the Polish Government and from 1939 to 1945 by the German Occupying Force.
- this firearm was taken into German service as the "P 35 (p.)", (denotes Pistole 35 Polen) and may be so marked.
- these pistols will have German military acceptance markings on the major components. Those firearms manufactured at F B Radom will be marked WaA 77.
- the P35 (p.) was also manufactured by the German Government during World War II at Steyr in Austria. Those firearms manufactured at Steyr will be marked WaA 623.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame just above the trigger. - observed serial number consisted of five numbers without a letter prefix or suffix.
Shots	- detachable box magazine.
Other Markings	- slide on a sample produced in 1938 is marked "F.B. RADOM" over a date of manufacture followed by the Polish eagle and "VIS-wz. 35" over "pat. Nr 15567". Variations of these markings are known to exist.

FRT Report

Firearm Reference Number (FRN): 65664
Make: Radom
Model: VIS35 P35p

Summary

Make:	Radom
Model:	VIS35 P35p
Manufacturer:	Polish State Arsenal, Radom
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	POLAND
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
65664 - 1	9MM LUGER	8	121	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "F.B. RADOM VIS Mod 35 Pat Nr.15567" or "F.B. RADOM VIS Mod 35 Pat Nr.15567" over "P.35(p)" is marked on the left side of the slide.
- "FB" inside a triangle may be moulded into the left grip plate.

Model

- "F.B. RADOM VIS Mod. 35. Pat. Nr. 15567" and "P. 35 (p)" was observed marked on the left side of the slide.
- manufactured as the VIS 35 from 1936 until 1939 by the Polish Government at Fabryka Broni w Radomiu (FB Radom) and from 1939 to 1945 as the VIS 35 P.35 (p) by the German Occupying Force under the supervision of staff from the Steyr weapons factory in Austria.
- VIS is latin for "power or powerful".
- "P.35 (p.)" is the German model designation for this firearm, which denotes Pistole 35 (Polen); translates to "Pistol 35 Polish".
- these pistols will have German military acceptance markings on the major components.
- those firearms manufactured at F B Radom will be marked WaA 77.
- the"P.35 (p.)" was also manufactured by the German Government during World War II at Steyr in Austria.
- those firearms manufactured at Steyr will be marked WaA 623.
- fit and finish generally deteriorated as the war progressed and many parts were re-engineered for ease of manufacture. On early versions the slide markings read "F B RADOM VIS MOD 35 Pat. Nr 15567 P.35 (p)" and there is a take-down latch on the left rear of the receiver/frame. Later versions had the take-down latch eliminated and the slide markings were modified to read "F B RADOM VIS MOD 35 Pat. Nr 15567".
- features include: single action trigger mechanism; blued receiver/frame and barrel; round exposed hammer; fixed sights; a hammer decocking lever is located on the left side of the slide; grip safety; serrations on the rear of the slide; the slide lock and magazine release are located on the left side of the receiver/frame; the grip panels will be checkered plastic with "FB" or "VIS" marked on them, or wood.
- the back strap may have a slot for a holster stock.

Manufacturer

- "F.B. RADOM" is normally marked on the left side of the slide.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is marked on the right side of the receiver/frame.
- observed examples with or without a letter prefix and four or five numbers.
- the serial number may also be marked on the slide and the barrel.
- the slide is normally marked with a patent number that is not a serial number, "15567".

Calibre

- the calibre designation is normally not marked on this model.

Shots

- detachable box magazine.

Notes

Make

- Radom is the common name for this pistol although it is more properly known as the VIS pistol.

Model

- manufactured from 1939 until 1944 by the German Occupying Force at the Radom Arsenal in Poland, under the supervision of staff from the Steyr factory in Austria, and again from late 1944 to May 1945 at the Steyr factory in Austria using parts and machinery moved from Radom to Steyr before Poland was re-occupied by the Russian Army.
- VIS is latin for "power or powerful".
- "P35 (p.)" is the German model designation, which means Pistole 35 (Polish).
- these pistols will have German military acceptance markings on the major components.
- Those firearms manufactured at Steyr will be marked WaA 623.
- the P35 (p.) was also manufactured by the German Government during WWII at Radom in Poland.
- Those firearms manufactured at Radom after 1939 will be marked WaA 77.

Manufacturer

- will be found marked on the firearm as a code "bnz".

Action

- recoil operated.

Shots

- detachable box magazine.

Remarks

- VIS 35 pistols, German designation "P.35 (p.)", built at Steyr during WW II, from late 1944 to May 1945, had German acceptance / proof marks: - "WaA 623".

Notes

Make

- "F.B. RADOM" is marked on the slide, and the Radom trademark of "FB" in an inverted triangle is marked on the left grip.

Model

- "VIS wz.35" is marked on the slide; this is a modern reproduction of the original VIS35 pistol, manufactured at the Radom factory by the current owners of the business.
- this pistol is meant to reproduce in detail a VIS35 pistol as produced immediately prior to World War Two, complete with the original markings, slide-mounted hammer-drop safety, manual and grip safeties, and shoulder stock mounting slot.
- features include: blued finish; fixed open sights; slide markings showing the Polish eagle, "Radom", the model, and a putative manufacture date of 1938; slide-mounted hammer-drop safety; frame-mounted slide stop, manual safety, and grip safety; grip plates with "FB" moulded into the left side and "VIS" moulded into the right side; and a lanyard loop at the butt.

Manufacturer

- "Lucznik" is not marked on the firearm.
- Lucznik owns the F.B. Radom ("Fabryka Broni Radom"/Radom Arms Factory) trademarkes of "FB" and "Radom".

Action

- recoil-operated.

Serial Number

- serial number is marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

- model designation is not marked on the firearm.
- this a reproduction of a "Colt 1851 Navy" black powder percussion revolver.
- barrel may be marked on the right side "Black Powder Only".
- features include: blued octagonal barrel; case hardened loading lever located under the barrel; case hardened open top receiver/frame with blued round fixed cylinder; single action trigger mechanism; case hardened exposed spur hammer and trigger; brass trigger guard and grip strap; wood grips.

Manufacturer

- "RAG" is marked on the left rear side of the barrel assembly.
- "RAG" is the trade mark and acronym for "Rigarmi di Rino Galesi".
- "RIGARMI" is marked on the left side of the barrel.
- Italian proof marks will be marked on the left side of the receiver/frame and on the barrel.

Serial Number

- serial number is located on the bottom of the receiver/frame, ahead of the trigger guard.
- observed serial numbers have consisted of five digits without a letter prefix or suffix.

Calibre

- "36" is marked on the right side of the barrel.

Notes

Make

- "RAG" was observed marked on the bottom of the buttstrap.
- "RAG" is the acronym for "Rigarmi di Rino Galesi".

Model

- model designation is not usually marked on the firearm.
- this is a modern reproduction of the "Remington New Model Army" single action black powder percussion revolver in .44 calibre.
- features include: fixed sights; octagonal barrel; loading lever located under the barrel and hinged at the front of the receiver/frame; solid top receiver/frame with removable un-fluted cylinder; exposed spurred hammer; single action trigger mechanism; brass trigger guard and backstrap, case hardened backstrap and hammer; two piece wood grip.
- Italian proofmarks are usually marked on the barrel and on the side of the receiver/frame.

Manufacturer

- "RAG" was observed marked on the bottom of the buttstrap.
- "RAG" is the acronym for "Rigarmi di Rino Galesi".
- "MADE IN ITALY" was observed marked on the barrel.

Serial Number

- serial number was observed marked on the bottom of the buttstrap.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Calibre

- "BLACK POWDER ONLY" and "44" was observed marked on the barrel.

Notes

Make

- "RAG" was observed marked on the bottom of the buttstrap.
- "RAG" is the acronym for "Rigarmi di Rino Galesi".

Model

- no model name marked on this firearm.
- this is a generic screen designed to encompass all black powder reproduction handguns produced by RAG that resemble the Remington New Model Navy revolver in calibre 36 PERCUSSION and have no model designation marked on them.
- solid receiver/frame, single action revolver.
- may have brass trigger guard and backstrap, case hardened trigger guard and hammer.
- usually has octagonal barrel, smooth cylinder, blued finish.
- loading lever located under the barrel and hinged at front of the receiver/frame.
- Italian proofmarks are apparent on barrel and receiver/frame.

Manufacturer

- "RAG" was observed marked on the bottom of the buttstrap.
- "RAG" is the acronym for "Rigarmi di Rino Galesi".

Serial Number

- known example had five digit number without prefix or suffix marked on bottom buttstrap.

Calibre

- "Blackpowder Only 36 Cal" or a variation thereof usually marked on the barrel.

Other Markings

- known example had "Made in Italy" marked on underside of barrel.

Notes

Make

- "Manufacture d'Armes Raick Freres" or "Raick Freres" may be marked on the firearm.

Model

- "Cape Gun" is not marked on the firearm.
- "Cape Gun" is a double barrel, side by side combination gun with a rifled barrel and a smoothbore barrel.
- features may include: round side by side barrels; front hinged receiver/frame; box lock or side lock configuration; single or double trigger; barrel selector located on the upper tang or either sides of the receiver/frame or inside the trigger guard; may have bead front sight; straight or pistol grip stock.

Manufacturer

- "Manufacture d'Armes Raick Freres" or "Raick Freres" may not be marked on the firearm.
- "Raick Freres" manufactured double barrel box lock and side lock rifles and shotguns, single shot folding shotguns and bolt action rifles and handguns.
- the "Raick" name has been associated with gun makers in the Liege region of Belgium, since 1807.
- "Mathieu Raick" established a business in Liege in 1807.
- "Mathieu Raick" was joined by his two sons Felix and Mathieu Jeune Raick in 1842 and formed the business of "Raick & Fils".
- "Raick & Fils" was in business from 1842 to 1865.
- Felix and Mathieu Jeune Raick took over the business in 1865 after the death of "Mathieu Raick".
- "Raick Freres" was established in 1865. Rick Freres had a sales office in London, England for several years starting in 1898.
- "Raick Freres" ceased operations during World War One but re-established the business in 1919, the same happened during World War Two with the business being rebuilt in 1945.
- in 1965, Raick Freres was manufacturing bolt action rifles on FN receivers/frames.

Type

- the shotgun barrel is on the right side and the rifle barrel is on the left side.

Action

- side by side barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- located on the receiver/frame.
- observed specimen had five numbers.

195702 - 2	9MM LUGER	15	109	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make may be marked on the firearm.

Model

- "TYPE R" is marked on the right side of the slide below the logo.
- "RAVEN" is marked on the left side of the slide.
- this is a custom firearm made using the receiver/frame of the "Type B" pistol made by Archon Firearms.
- this firearm is of a modular design and has a steel receiver housed within a synthetic grip frame module.
- features include: dovetail fixed front and both fixed and Red Dot rear sight; round rifled barrel; flat sided ported steel slide with front and rear grip serrations; synthetic grip frame shell with integral rail located on the underside in front of the trigger guard; striker fired; integrated beaver tail; single action, vertical, trigger mechanism; take down pin located on the grip frame ahead of the trigger guard; action release lever located on the left side of grip frame; reversible magazine release; stippled grip; black finish.

Manufacturer

- pistols are built by Rain6 on receiver/frames supplied by Archon Firearms; these pistols may bear markings from both companies.

Action

- recoil operated.

Serial Number

- the serial number is marked on a metal strip on the underside of the receiver/frame, in front of the trigger guard and is repeated on the barrel.
- the serial number is found on the rear of the receiver module visible when disassembled.
- observed serial number consisted of a two letter prefix "AB" and seven numbers.
- the number marked on the right side of the slide is not the serial number. It indicates the production number. Seventy-five of these models were produced and numbered from 0001 to 0075.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is marked on the barrel visible through the ejection port.
Shots	- detachable box magazine.

Notes

Make

- "RANDALL" is marked on the side of the slide.
- "RANDALL F.A. MFG. CORP. SUN VALLEY, CA. U.S.A." is marked on the side of the receiver/frame.

Model

- introduced in 1983.
- "COMBAT" is marked on the side of the slide.
- "Combat" resembles a full size Colt model 1911-A1.
- features include: stainless steel construction; fixed sights; round barrel; flat sided slide with rear gripping serrations; 1911-A1 type receiver/frame with beavertail type grip safety; exposed hammer; single action trigger mechanism; action release lever, manual thumb safety and magazine release button are mounted on the side of the receiver/frame; Pachmayr grips or checkered wood grip plates; matte finish.
- available in a left-hand or right-hand version.

Manufacturer

- "RANDALL" is marked on the side of the slide.
- "RANDALL F.A. MFG. CORP. SUN VALLEY, CA. U.S.A." is marked on the side of the receiver/frame.

Action

- recoil operated.

Serial Number

- serial number is marked on the side of the receiver/frame.
- serial number rationalization unknown.
- serial number observed consisted of a two letter prefix, seven numbers and a letter suffix.
- serial number may be partially obscured by the right grip plate.

Calibre

- calibre is marked on the side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Remarks

- Variations of Randall Firearms are denoted by a 4 character notation in Randall literature. These designations consist of an alpha prefix followed by three digits.
- The alpha prefix will be "A" which denotes "right hand configuration", "B" which denotes "left hand configuration", or "C" which denotes "right hand lightweight configuration".
- The first digit will be "1" which designates "Service Model", "2" which designates "Service Model C" or "Raider", or "3" which denotes "Curtis E LeMay" model.
- The second digit designates the slide and sight configuration, "1" is round top and fixed sight slide, "2" indicates flat top and fixed sight slide, "3" indicates adjustable sights and flat top slide.
- The third digit represents calibre, "1" being "45 AUTO", "2" being "9MM LUGER", "3" being "38 SUPER AUTO". Example: A113, represents a right hand, Service Model, round top with fixed sight pistol in 38 SUPER AUTO.
- These designators do not appear on the firearm.
