- "Ranger Arms" was a brand/trade used on rifles manufactured by Ranger Arms, Incorporated of Gainsville, Texas in the 1970s.
- "Ranger Arms Company" was a brand/trade name used on shotguns manufactured by Crescent Firearms Company.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model designation "Ranger" is stamped on top of the receiver/frame.
- features include:
- operates as a semi-automatic, but pressing the cross bolt to the left locks the action, and adapts the rifle for use as a single shot.
- tubular or detachable box magazine.
- thumb safety located at the rear of the receiver/frame.
- walnut finished, one piece pistol grip stock with rubber butt plate.
- sporting front sight and open rear sight with step elevator.
- tapered round barrel.
- left side of receiver/frame has eight slots cut vertically just rear of the chamber.
- large takedown screw located just forward of the magazine well.
- receiver/frame drilled and tapped on left side for scope mounting.
- this firearm is similar to the Springfield Model 85, 085 and the Savage Model 7.

Action

- blowback operated.

Serial Number

- "PATENT 2094577" may be stamped on the firearm, and "2094577" should not be mistaken for the serial number.

Calibre

- marked on left side of the barrel as follows;
"CAL 22 LONG RIFLE SMOKELESS GREASED ONLY".

Notes

Make

- "RAPER" is marked on the barrel.
- "RAPER" was located in Leeds, in the northern English county of Yorkshire.
- "RAPER" was at 56 Call Line from 1827 to 1837.

Model

- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- "Screw Barrel Pistol" is a single shot pistol, with a removable barrel and an exposed hammer centrally located behind the chamber.
- "Screw Barrel Pistol" is intended to be loaded from the breech end of the barrel and as such was originally supplied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- features may include: no sights; tapered, round barrel with underlug for wrench; round action; exposed hammer; folding trigger; receiver/frame and hammer with scroll engraving; round, curved, checkered wooden grip.

Manufacturer

- "RAPER" is marked on the barrel.
- "RAPER" was located in Leeds, in the northern English county of Yorkshire.
- "RAPER" was at 56 Call Line from 1827 to 1837.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.

Notes

Make

- "RAPID AIR WEAPONS" is marked on the side of the receiver/frame.

Model

- introduced in 2011.
- "TM 1000" is marked on the side of the receiver/frame.
- "TM 1000" is a modern high-power air rifle.
- "TM 1000" uses a Pre-Charged Pneumatic (PCP) cylinder for power.
- "TM 1000" is built for target shooters and small-game/varmint hunters.
- features include: interchangeable round ported stainless steel barrel or a black carbon fibre shrouded barrel; aluminum resevoir tube mounted below the barrel; receiver/frame is dovetailed for scope mounts; side lever cocking; two-stage match trigger; right or left hand action; walnut or laminated, thumbhole or vertical pistol grip stock with adjustable high comb and recoil pad.
- overall length with a 483 mm (19") barrel is 1054 mm (41.5"), and the average weight is 4.5 kgs (10 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "RAPID AIR WEAPONS" is marked on the side of the receiver/frame. - Rapid Air Weapons is located in Minor Hill, Tennessee, U.S.A. - Rapid Air Weapons was founded in 2006 as a supplier of Precision Air Rifle components. - Rapid Air Weapons began manufacturing custom stocks in 2010. - Rapid Air Weapons started manufacturing compete firearms in 2011.
Action	- pneumatic powered. - in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 20 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 25 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- alpha/numeric serial number is marked on the right side of the receiver/frame.
Canadian Law Comments	- as it left the factory, this firearm may be equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

124986 - 2	8MM MAUSER	N/A	610	Prohibited PFR, Part 1, para. 105(g)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "RAPID FIRE" is marked on the right side plate of the receiver/frame.

Model

- "1919A4" was marked on the right side plate of one example.
- the "BROWNING M1919A4" model is a re-creation of the United States Service, .30 calibre, Browning Machine Gun, M1919A4.
- the Browning Machine Gun was named after the inventor, John M. Browning.
- the Browning Machine Gun M1919 could be configured into sub-models for different roles. A partial list of the possible configurations follows:

a) Browning Machine Gun M1919A4:
- M1919A4 is an air-cooled firearm which may be found in flexible configuration for infantry use and is normally fired from a tripod, or mounted on an armoured fighting vehicle.
- M1919A4 version feeds belts of ammunition from the left side.

b) Browning Machine Gun M1919A5:
- M1919A5 is an air-cooled firearm designed for fixed configuration and use in an armoured fighting vehicle. Rate of fire 550 to 650 shots per minute.
- M1919A5 version feeds belts of ammunition from the left side.

c) Browning Machine Gun M1919A6:
- M1919A6 is an air-cooled firearm which may be configured for infantry use with a carrying handle, bipod and shoulder stock.
- M1919A6 version feeds belts of ammunition from the left side.

Manufacturer

- "RAPID FIRE TROY OH" is marked on the right side plate of the receiver/frame.
- "Rapid Fire" is a manufacturer based in Troy, Ohio that produces semi-automatic re-creations of the Browning medium machine gun.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Type	- this is a commercial version of a machine gun design that is re-designed and manufactured to be capable of semi-automatic fire only.
Action	- "short" recoil operated with a muzzle booster. - manufactured to fire semi-automatic only.
Serial Number	- serial number is marked on the right side plate of the receiver/frame. - observed serial number consisted of four numbers without letter prefix or suffix. - custom engraving is available on the right side plate of the receiver/frame as an extra cost identifying the semi-automatic firearm to an original equipment manufacturer as either semi-automatic (BROWNING S-MACHINE GUN) or duplicating the original automatic Machine Gun (BROWNING MACHINE GUN) nomenclature.
Calibre	- calibre is usually marked on the right side plate.
Shots	- this is a belt-fed firearm.
Canadian Law Comments	- Browning Machine Gun receivers: - The five sided box consisting of top and bottom plates, left and right side plates and the front trunnion block is the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm". - For regulatory purposes, when the five sided box receiver/frame is further disassembled, the receiver/frame component plate where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration. - The classification of this firearm as a semi-automatic firearm is based on the presumption that none of the original five (5) receiver components were reused. This is what was understood to be the meaning of the claim by the manufacturer that the firearm is a "newly manufactured semi-automatic firearm".
Remarks	- this firearm is a re-creation of the United States Service, 30 Calibre, Browning Machine Gun, M1919A4, in semi-automatic fire configuration. - the receiver has been designed and manufactured to prevent the use of full-auto parts. - the manufacturer uses surplus military parts to build the receivers/frames into complete firearms.

26147 - 3	8MM GASSER	8	116	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "PATENT" over "RAST & GASSER" over "WIEN" is marked on the side of the receiver/frame.

Model

- "PATENT" over "RAST & GASSER" over "WIEN" is marked on the side of the receiver/frame.
- introduced in 1898.
- features include: blade front sight and a notch in the top strap for a rear sight; round barrel with manually operated ejector rod; solid top receiver/frame with a removable non-fluted cylinder and right side mounted swing down loading gate; firing pin is mounted in the receiver/ frame; left side plate of the receiver/frame swings out and to the rear to expose the lock works; exposed spur hammer; double/single action trigger mechanism; trigger guard is hinged at the front; checkered wood grip plates; metal butt cap with lanyard ring; blued finish.
- 1898 model has an Abadie-type loading gate which prevents movement of the hammer by disconnecting the trigger when the loading gate is open.

Manufacturer

- "Rast & Gasser" was founded by August Rast and Michael Gasser.
- "Rast & Gasser" was in business from 1898 to 1918.
- Leopold Gasser's business was located in Vienna (Wien), Austria between 1862 and 1898.
- Leopold Gasser originally manufactured copies of Adams cap lock revolvers.
- Lepold Gasser's patent revolvers were adopted by the Austo-Hungarian Army in circa 1869.
- Leopold Gasser's trademark logo consisted of the letters "L.G." over an apple pierced by an arrow over "SCHUTZ MARKE".
- Leopold Gasser was born in 1836 and died in 1871.
- Leopold Gasser's business was taken over by his brother Johann Gasser.
- Johann Gasser was born in 1847 and died in 1896.
- Leopold Gasser's business was then run by Michael Gasser.
- Leopold Gasser's business manufactured more than 100,000 revolvers for the Austo-Hungarian Army between 1870 and 1884.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the receiver/frame and may be repeated on the barrel, and cylinder.
- serial numbers observed:
1) serial number consisted of five numbers without a letter prefix or suffix,
2) serial number consisted of five numbers without a letter prefix or suffix and the serial number marked on the barrel and cylinder consisted of a two letter "ML" prefix and five numbers, and
3) serial number consisted of six numbers without a letter prefix or suffix and the serial number marked on the barrel and cylinder consisted of a two letter "ML" prefix and six numbers.
- "ML" prefix indicates military service acceptance.
- "1898" model may also be marked with a further serialization; an example of which is "984 -01," the first three digits being an assigned identification number, and the last two digits being the year - ie "01" equals 1901.

Remarks

- this firearm was adopted by the Austro-Hungarian Army as the "ARMEEREVOLVER M. 1898." and was also produced for civilian/non-military sales.
- it saw service throughout the First World War.

127536 - 1	22 LR	1	438	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARMS CORP." over the "Rau" logo consisting of an extended "R" surrounding "au" over "EL DORADO" over "KANS USA" was marked on an observed example on the right side of the receiver/frame.

Model

- "WILDCAT" is marked on the side of the barrel of an observed example.
- this is a single shot, survival-type rifle resembling a pump action repeater.
- operates by pulling the operating handle to the rear to expose the chamber for loading while pushing forward on the operating handle closes the action and cocks the firing mechanism. Extraction of the fired cartridge case is achieved by pulling the ringed "pump" handle to the rear.
- features include: fixed front and adjustable rear sight; blued finish; full length barrel guide rod that serves as a pivot for opening the action.
- offered in a fixed stock or takedown version with either a wood or plastic stock insert.
- overall length is 864mm (34").
- average weight is 1.7kg (3 1/2lb.)

Manufacturer

- Harold Rau founded Rau Arms Corporation of El Dorado, Kansas in 1969 and was in operation for about one year. Rau Arms Corporation was purchased by Lee Coonis of Precision Industries of Ozark, MO, U.S.A.
- Precision Industries was in business until circa 1976.

Action

- rotating barrel design.

Serial Number

- serial number of an observed example was marked on the inside of the trigger guard above the trigger and consisted of a letter prefix (A) and four numbers.

Calibre

- "22-S-L-LR" is marked on the side of the barrel.

FRT Report

Firearm Reference Number (FRN): 130224
Make: Real Sword
Model: Dragunov SVD Airsoft

Summary

Make:	Real Sword
Model:	Dragunov SVD Airsoft
Manufacturer:	Real Sword
Level:	Manufacturer Specifications and Commercial Customization
Type:	Airsoft
Action:	Air,Spring or Gas
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
130224 - 1	6MM AIRSOFT BB	96	690	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "RS" logo" over "Real Sword" and "HIGH SPEED MOTOR" over "FOR AIRSOFT ELECTRIC GUN" and "RS INTERNATIONAL" over "www.realsword.com.hk" may be marked on the side of the electric motor assembly inside the firearm.

Model

- "DRAGUNOV SVD AIRSOFT" is not marked on the firearm.
- this airsoft firearm resembles a "Dragunov model SVD" rifle.
- features include: steel outer barrel/sleeve and smoothbore inner barrel; steel receiver/frame; wood heat shield, forearm, pistol grip and buttstock; black finish.
- the firearm is identified on the packaging and manufacturer's technical specifications as Model S181C & S181C-S.
- the manufacterer's information would have us believe that the basic firearm designation is S181, the "C" denotes the high velocity Canadian sub-model and the designation S181C-S means that the basic rifle comes with a telescopic sight.
- Dragunov SVD Airsoft has an overall length of 1220 mm and an average weight without the battery is 4.1 kg.

Manufacturer

- Real Sword International Industry Hong Kong Company, Limited market products under the brand of RS and Real Sword.

Type

- this is an AirSoft type rifle.

Action

- spring piston is powered by an electric motor, gear box and battery.
- semi-automatic fire.
- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number was observed marked on the under side of the receiver/frame.
- observed serial number consisted of a two letter "RS" prefix and six numbers, example "RS003558".
- it is not certain whether this "serial number" is unique to this firearm or repeated on every firearm of its kind or type.
- "81081422" marked on the right side of the metal gear box assembly is a control serial/number for this item.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine.
Remarks	- the firearm is identified on the packaging and manufacturer's technical specifications as Model S181C & S181C-S. - the manufacterer's information would have us believe that the basic firearm designation is S181, the "C" denotes the high velocity Canadian sub-model and the designation S181C-S means that the basic rifle comes with a telescopic sight.

- "RECK DOUBLE ACTION Mod. R22 cal. 4mm M20" was observed marked on the left side of the barrel.
- "PTB" over "29" inside a square was observed marked on the left side of the receiver/frame.
- features include: blade front sight and an adjustable rear sight; round barrel with a solid top rib; solid top receiver/frame with a left side swing-out fluted cylinder; cylinder release is located on the left side of the receiver/frame, behind the cylinder; exposed spur hammer; double/single action trigger mechanism; checkered wood grips; blued finish.

Manufacturer

- "RECK DOUBLE ACTION Mod. R22 cal. 4mm M20" was observed marked on the left side of the barrel.
- "MADE IN WEST GERMANY" was observed marked on the right side of the barrel.

Serial Number

- serial number was observed marked on the left of the receiver/frame below the cylinder.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Calibre

- "cal. 4mm M20" was observed marked on the left side of the barrel.
- this center fire ammunition is loaded into a steel carrier which looks like a spent cartridge case. The steel carrier with the 4MM UBUNGSMUNITION M20 is then loaded into the cylinder.

Shots

- swing-out cylinder.

FRT Report

Firearm Reference Number (FRN): 24410
Make: Reck
Model: R40 Single Action

Summary

Make:	Reck
Model:	R40 Single Action
Manufacturer:	Reck
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	GERMANY, WEST
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
24410 - 1	4MM FLOBERT RF	6	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm.

Model

- model designation is marked as: "RECK Single Action Model R -40
- styled after a Colt 1873 Single Action Army.
- adjustable rear sight.
- a gold colored "Reck" medallion normally appears on the left side grip only.
- designed to fire "Flobert" type cartridges only.
- Single action with traditional half cock "safety".

Serial Number

- marked on the left side of the receiver/frame.

Other Markings

- left side of receiver/frame near the barrel may be marked "F" in a pentgraph. This is West German Proof for firearms generating less than 5.5. ft lbs energy.
- will also be marked with a "PTB" monogram in Square with the number 39. This is West German Proof for firearms that use barrel liners and inserts

Remarks

- the Single Action R40 has been redesigned to fire 4MM FLOBERT cartridges.

Main recognition features are:

- the barrel is screwed to receiver/frame and does not use a retaining pin. Reck Single Actions designed to fire regular ammunition feature screwed and pinned barrels.
- a groove is machined into the rear portion of the cylinder to preclude the reboring of the chambers.
- on each side of the barrel forcing cone there are hardened pins to prevent the boring out of the barrel.
- vent holes drilled in the bolt locking recesses of the cylinder.
- overall length of the cylinder window in the receiver/frame is shorter than the 22 LR cartridge to preclude interchanging of cylinders.

Firearm Reference Number (FRN): 127323
Make: Recoilless Rifle
Model: AT4

Summary

Make:	Recoilless Rifle
Model:	AT4
Manufacturer:	Saab Bofors Dynamics
Level:	Manufacturer Specifications and Commercial Customization
Type:	Other
Action:	Single-Shot
Country of Manufacturer:	SWEDEN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127323 - 1	84MM RECOILLESS	1	1004	Prohibited PFR, Part 1, para. 95(z.162)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- this Recoilless Rifle is designed to eliminate or balance the equal but opposite reaction to the force required to accelerate the projectile out of the tube; known as recoil.
- recoil is eliminated/reduced by controlling the escape of propellant gases to the rear of the weapon through an opening in the breech/venturi.
- Recoilless Rifle was a name originally applied to the US 57mm calibre recoilless rifle as it could be fired from the top of the shoulder.
- Recoilless Gun or Heavy Recoilless Gun/Rifle is usually applied to larger calibre that are fired from lightweight portable tripod mounts or from light vehicles such as a Jeep or Land Rover.

Model

- "AT4" and "13229861" over "HJA91D902-016" was marked at the muzzle of an observed example.
- the "AT4" Light Multipurpose Assault Weapon (LMAW) is a one man portable, preloaded, disposable, and recoilless anti-armour weapon, utilizing fin-stabilized ammunition.
- features include: glass-fibre reinforced synthetic, barrel/tube with an aluminium venturi; shock absorbers and muzzle cover; the firing mechanism is mounted on the top of the tube; the sights are protected by folding covers, the rear sight is adjustable.
- the AT4 is currently in use by several countries that include Sweden, Denmark, Brazil, Taiwan, Veneszuela and the United States of America.

Manufacturer

- manufacturer was not marked on the observed example.

Type

- this is a lightweight, compact, preloaded, disposable, shoulder controlled weapon.

Serial Number

- serial number of an observed example was marked on a bar-code sticker at the rear of the tube assembly.

Canadian Law Comments

- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- Recoilless Weapon is designed to eliminate or balance the equal but opposite reaction to the force required to accelerate the projectile out of the tube; known as recoil.
- recoil is eliminated/reduced by controlling the escape of propellant gases to the rear of the weapon through an opening in the breech/venturi.
- Recoilless Rifle was a name originally applied to the US 57mm calibre recoilless rifle as it could be fired from the top of the shoulder.
- Recoilless Gun or Heavy Recoilless Gun/Rifle is usually applied to larger calibres that are fired from lightweight portable tripod mounts or from light vehicles such as a Jeep or Land Rover.

Model

- "B-10" is lightweight anti-armour weapon, normally served by a two man crew and could be fired from a tripod or from the travelling wheels.
- "B-10" was used up until the 1960s by the Russian military.
- features include: round smooth bored barrel; multi vented breech block; manual operated breech; optical sight.
- overall length of approximately 1677 mm and weight of approximately 87.6 kg.
- the B-10 Recoilless Gun was manufactured in China as the Type 65 RCL Gun.

Action

- recoilless.

Canadian Law Comments

- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- the make is not marked on the recoilless rifle.
- "Recoilless Rifle" as a make is being used to describe a form of light artillery using a rifled bore and a venturi system that directs backblast to cancel out the recoil of firing a large-calibre projectile.
- a Recoilless Rifle may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable.

Model

- the model is marked on the breech or identification plate.
- this is a recoilless rifle adopted by the Argentinian armed forces in 1974 as a form of easily-transportable light artillery, for use against buildings, bridges, ships, heavy armoured vehicles, and similar targets at ranges up to 9000 metres, using high-explosive or shaped-charge ammunition.
- this recoilless rifle uses a perforated cartridge case that allows a large volume of gas to escape rearward through a nozzle upon firing, counteracting the recoil of the projectile.
- features include: parkerized, phosphated, painted, or camouflaged finish; tubular layout with a larger-diameter breech; optical sighting scope with range-finder; and a side-swinging breech-piece that allows cartridges to be loaded and fired cases to be extracted.
- these recoilless rifles are normally fitted with a bracket to allow mounting of an FN-FAL "FAP Modelo 2" rifle, for use as a spotting rifle, with tracer ammunition. In this configuration, the gunner will aim with the optical sight, fire a round from the 7.62mm spotting rifle to confirm the trajectory, then fire the main gun.
- these artillery-pieces generally require a crew of 3-4 to lay, aim, load, and fire.
- also sold to other countries.

Manufacturer

- the manufacturer is marked on the recoilless rifle.

Action

- single loaded recoilless light artillery.

Serial Number

- serial numbered on the breech or identification plate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- the make is not marked on the recoilless rifle.
- "Recoilless Rifle" as a make is being used to describe a form of light artillery using a rifled bore and a venturi system that directs backblast to cancel out the recoil of firing a large-calibre projectile.
- a Recoilless Rifle may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable.

Model

- the model may or may not be marked on the recoilless rifle; "folgore" is the Italian word for "thunderbolt".
- this is a recoilless rifle adopted by the Italian armed forces in 1974 as a form of easily-transportable light artillery, for use against buildings, bridges, heavy armoured vehicles, and similar targets at ranges up to 1000 metres, using high-explosive or shaped-charge ammunition.
- this recoilless rifle uses a cartridge case which perforates upon firing and that allows a large volume of gas to escape rearward through a nozzle during firing, counteracting the recoil of the projectile.
- features include: parkerized, phosphated, painted, or camouflaged finish; tubular layout with a larger-diameter breech and cone-shape venturi; open sights or optical sighting scope with range-finder; and a side-swinging breech-piece that allows cartridges to be loaded and fired cases to be extracted.
- these artillery-pieces are usually employed by a team of two (one loader, one gunner), and may be seen on a light bipod for mobility or a tripod for semi-emplaced usage.
- also sold to other countries.

Manufacturer

- the manufacturer is marked on the recoilless rifle.

Action

- single-loaded recoilless light artillery.

Serial Number

- serial-numbered on the breech or launch tube.

Canadian Law Comments

- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

FRT Report

Firearm Reference Number (FRN): 16998
Make: Recoilless Rifle
Model: M136 AT4

Summary

Make:	Recoilless Rifle
Model:	M136 AT4
Manufacturer:	Alliant Techsystems (ATK)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Other
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
16998 - 1	84MM RECOILLESS	1	1020	Prohibited PFR, Part 1, para. 95(z.166)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- this Recoilless Rifle is designed to eliminate or balance the equal but opposite reaction to the force required to accelerate the projectile out of the tube; known as recoil.
- recoil is eliminated/reduced by controlling the escape of propellant gases to the rear of the weapon through an opening in the breech/venturi.
- Recoilless Rifle was a name originally applied to the US 57mm calibre recoilless rifle as it could be fired from the top of the shoulder.
- Recoilless Gun or Heavy Recoilless Gun/Rifle is usually applied to larger calibre that are fired from lightweight portable tripod mounts or from light vehicles such as a Jeep or Land Rover.

Model

- the model may or may not be marked on the launcher; this is a licenced, American-produced version of the Saab (Swedish) AT4 recoilless anti-tank weapon.
- features include: glass-fibre reinforced synthetic, barrel/tube with an aluminium venturi; shock absorbers and muzzle cover; the firing mechanism is mounted on the top of the tube; the sights are protected by folding covers, the rear sight is adjustable.
- upon firing, a large volume of gas is directed rearwards to balance out the recoil of the projectile moving forward; this gas blast is hazardous to personnel behind the firer.
- a "CS"/"Confined Spaces" version of the AT4 is also produced, which has a salt water counterweight which is ejected rearwards on firing; this counterweight rapidly disperses into a mist, which allows that particular version of the AT4 to be fired from within buildings without destroying the building or killing the firer.

Manufacturer

- the manufacturer may or may not be marked on the launcher.

Type

- this is a lightweight, compact, preloaded, disposable, shoulder controlled weapon.

Action

- single-shot disposable recoilless weapon.

Serial Number

- serial-numbered on the launch tube, with lot numbers and manufacturer dates.

Notes

Make

- the make is not marked on the recoilless rifle.
- "Recoilless Rifle" as a make is being used to describe a form of light artillery using a rifled bore and a venturi system that directs back blast to cancel out the recoil of firing a large-calibre projectile.
- a Recoilless Rifle may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable.

Model

- "M18A1" may or may not be marked on the breech.
- this is a single-shot portable artillery-piece originally designed in 1942 as an anti-tank weapon that could be taken wherever an infantry platoon might require a means of knocking out a tank, without the difficulty of moving a towed field-piece. These recoilless rifles entered service at roughly the same time as the 60mm/2.36" "bazooka" rocket launcher, and were heavier, but were more accurate and had more target effect. These recoilless rifles saw use up through the Vietnam War, and were copied by China as the "Type 36".
- - this recoilless rifle uses a perforatable cartridge case that allows a large volume of gas to escape rearward through a nozzle upon firing, counteracting the recoil of the projectile.
- features include: parkerized, phosphated, painted, or camouflaged finish; tubular layout with a larger-diameter breech and venturi; optical sighting scope with range-finder; pistol-grip firing control; and a side-swinging breech-piece that allows cartridges to be loaded and fired cases to be extracted.
- these artillery-pieces may be seen on tripod or vehicle mounts, as well as being carried and fired from the shoulder..
- also sold to other countries.

Manufacturer

- the manufacturer or logo thereof is marked on the recoilless rifle.

Action

- single loaded recoilless light artillery.

Serial Number

- serial numbered on the breech.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

FRT Report

Firearm Reference Number (FRN): 164682
Make: Recoilless Rifle
Model: M18A1

Summary

Make:	Recoilless Rifle
Model:	M18A1
Manufacturer:	US Ordnance Department
Level:	Manufacturer Specifications and Commercial Customization
Type:	Other
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
164682 - 1	57MM RECOILLESS	1	1219	Prohibited PFR, Part 1, para. 95(z.167)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the recoilless rifle.
- "Recoilless Rifle" as a make is being used to describe a form of light artillery using a rifled bore and a venturi system that directs backblast to cancel out the recoil of firing a large-calibre projectile.
- a Recoilless Rifle may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable.

Model

- "RIFLE, 57mm, M18A1" is marked on the breech.
- this is a single-shot portable artillery-piece designed in 1942 as an anti-tank weapon that could be taken wherever an infantry platoon might require a means of knocking out a tank, without the difficulty of moving a towed field-piece. These recoilless rifles entered service at roughly the same time as the 60mm/2.36" "bazooka" rocket launcher, and were heavier, but were more accurate and had more target effect. These recoilless rifles saw use up through the Vietnam War, and were copied by China as the "Type 36".
- - this recoilless rifle uses a cartridge case which perforates on firing and that allows a large volume of gas to escape rearward through a nozzle upon firing, counteracting the recoil of the projectile.
- features include: parkerized, phosphated, painted, or camouflaged finish; tubular layout with a larger-diameter breech and venturi; optical sighting scope with range-finder; pistol-grip firing control; and a side-swinging breech-piece that allows cartridges to be loaded and fired cases to be extracted.
- these artillery-pieces may be seen on tripod or vehicle mounts, as well as being carried and fired from the shoulder..
- also sold to other countries.

Manufacturer

- the manufacturer or logo thereof is marked on the recoilless rifle.

Action

- single loaded recoilless light artillery.

Serial Number

- serial numbered on the breech.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- the make is not marked on the recoilless rifle.
- "Recoilless Rifle" as a make is being used to describe a form of light artillery using a rifled bore and a venturi system that directs backblast to cancel out the recoil of firing a large-calibre projectile.
- a Recoilless Rifle may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable.

Model

- the model is marked on the breech or identification plate.
- this is a recoilless rifle adopted by the US armed forces in 1955 as a form of easily-transportable light artillery, for use against buildings, bridges, ships, heavy armoured vehicles, and similar targets at ranges up to 9000 metres, using high-explosive or shaped-charge ammunition.
- this recoilless rifle uses a perforated cartridge case that allows a large volume of gas to escape rearward through a nozzle upon firing, counteracting the recoil of the projectile.
- features include: parkerized, phosphated, painted, or camouflaged finish; tubular layout with a larger-diameter breech; optical sighting scope with range-finder; a top-mounted M8C 50 BAT spotting rifle (separate FRT entry) with a trajectory matched to the main gun's trajectory; and a side-swinging breech-piece that allows cartridges to be loaded and fired cases to be extracted.
- these artillery-pieces generally require a crew of 3-4 to lay, aim, load, and fire.
- also sold to other countries.

Manufacturer

- the manufacturer is marked on the recoilless rifle.

Action

- single loaded recoilless light artillery.

Serial Number

- serial numbered on the breech or identification plate.

Notes

Make

- the make is not marked on the recoilless rifle.
- "Recoilless Rifle" as a make is being used to describe a form of light artillery using a rifled bore and a venturi system that directs backblast to cancel out the recoil of firing a large-calibre projectile.
- a Recoilless Rifle may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable.

Model

- "M68", "M/68" or a variation thereof may be marked on the launcher.
- this is a lightweight single-shot disposable anti-tank weapon developed by FFV Ordnance of Sweden in the late 1960s, and which was replaced by the "AT4" in 1987; this launcher was intended to give infantry a portable means of destroying tanks in the absence of artillery or air support.
- this launcher is constructed of fibreglass, with a pre-loaded projectile and propelling charge, and after firing, the launch tube is discarded.
- features include: cylindrical layout with enlarged venturi tube at the rear of the launcher; folding open sights; a top-rib containing the cocking lever and firing button along the top of the launcher; and training versions of this launcher may be seen with a reloadable chamber insert that fires 9mm Luger tracer rounds.

Manufacturer

- the manufacturer may or may not be marked on the launcher.

Action

- single-shot disposable recoilless launcher.

Serial Number

- serial-numbered with lot and date codes on the launch tube.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- "RGW 60" (an acronym for "Recoilless Grenade Weapon 60mm") may or may not be marked on the launcher.
- this is a single-shot disposable recoilless rocket-launcher designed for infantry anti-tank, anti-building, or "bunker-buster" use, that comes pre-loaded with shaped charge, HE-fragmentation, or HE-Squash-Head warheads, and is effective at ranges up to 300 metres.
- this launcher ejects a mass of iron filings rearwards as the warhead is launched forwards, cancelling out the recoil, and limiting the rearward danger area for friendly personnel.
- features include: matte black and olive drab colour; folding handgrips and shoulder-rest; integral optical sight; thumb-operated safety/cocking mechanism; carrying sling and percussion firing mechanism.
- overall length of 900mm (35.4") and overall unfired weight of 5.8 kg (12.7 pounds).

Manufacturer

- the manufacturer or logo thereof is marked on the launcher.

Action

- pre-loaded single-shot disposable launcher.

Serial Number

- serial numbered on the launch tube.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- "RGW 90" (an acronym for "Recoilless Grenade Weapon 90mm") may or may not be marked on the launcher.
- this is a single-shot disposable recoilless rocket-launcher designed for infantry anti-tank, anti-building, or "bunker-buster" use, that comes pre-loaded with shaped charge, HE-fragmentation, or HE-Squash-Head warheads, and is effective at ranges up to 300 metres.
- this launcher ejects a mass of ceramic powder rearwards as the warhead is launched forwards, cancelling out the recoil, and limiting the rearward danger area for friendly personnel.
- features include: matte black and olive drab colour; folding handgrips and shoulder-rest; integral optical sight; thumb-operated safety/cocking mechanism; carrying sling and percussion firing mechanism.
- overall length of 1000mm (39.3") and overall unfired weight of 8.6 kg (18.9 pounds).

Manufacturer

- the manufacturer or logo thereof is marked on the launcher.

Action

- pre-loaded single-shot disposable launcher.

Serial Number

- serial numbered on the launch tube, with manufacture dates and lot numbers.

Notes

Make

- the make is not marked on the recoilless rifle.
- "Recoilless Rifle" as a make is being used to describe a form of light artillery using a rifled bore and a venturi system that directs backblast to cancel out the recoil of firing a large-calibre projectile.
- a Recoilless Rifle may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable.

Model

- the model is marked in Cyrillic reading "SPG-9" (resembling "cnr-9") or a variant thereof; this launcher is produced in paratrooper, simplified, and night versions, each with its own model suffix. "SPG-9" is an abbreviation of "Stankovy Protivotankovy Granatomyot-9" or "Mounted Anti-Tank Grenade Launcher- 9"
- this is an unusual form of light recoilless rifle, first adopted by the Soviet Union in 1963, as an anti-tank weapon, but which immediately spread through the East Bloc and satellite countries. This launcher is essentially an enlarged RPG, with a hinged breech-piece to allow rocket-propelled projectiles with an attached base charge to be loaded from the rear, by rotating the hinged venturi tube out of line with the bore. These launchers may be seen in towed versions, on a two-wheeled mount, or on a tripod in semi-permanent installations.
- these launchers fire a range of explosive, fragmenting, armour-piercing, and smoke-laying projectiles.
- features usually include: tubular layout, with a smooth bore; painted finish; optical or night sights; an enlarged section at the rear of the tube containing the breech mechanism and venturi tube to counteract recoil; and either a wheeled or tripod mount.
- these launchers have an effective range (depending on ammunition) of up to 4500 metres.
- overall length of 2110mm, with weight depending on the mount.

Manufacturer

- the factory logo of an encircled "10" is marked on the launcher.

Action

- single loaded recoilless light artillery.

Serial Number

- serial numbered on the breech-piece or barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- the make is not marked on the recoilless rifle.
- "Recoilless Rifle" as a make is being used to describe a form of light artillery using a rifled bore and a venturi system that directs backblast to cancel out the recoil of firing a large-calibre projectile.
- a Recoilless Rifle may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable.

Model

- "Type 36" is marked on the breech.
- this is a single-shot portable artillery-piece copied from the US-designed M18A1 recoilless rifle (designed in 1942 as an anti-tank weapon that could be taken wherever an infantry platoon might require a means of knocking out a tank, without the difficulty of moving a towed field-piece). These recoilless rifles entered service at roughly the same time as the 60mm/2.36" "bazooka" rocket launcher, and were heavier, but were more accurate and had more target effect. These recoilless rifles saw use up through the Vietnam War, and were copied from US examples that were produced by Nationalist Chinese forces at the end of the Second World War
- - this recoilless rifle uses a cartridge case that perforates on firing and allows a large volume of gas to escape rearward through a nozzle upon firing, counteracting the recoil of the projectile.
- features include: parkerized, phosphated, painted, or camouflaged finish; tubular layout with a larger-diameter breech and venturi; optical sighting scope with range-finder; pistol-grip firing control; and a side-swinging breech-piece that allows cartridges to be loaded and fired cases to be extracted.
- these artillery-pieces may be seen on tripod or vehicle mounts, as well as being carried and fired from the shoulder..
- also sold to other countries.

Manufacturer

- the manufacturer or logo thereof is marked on the recoilless rifle.

Action

- single loaded recoilless light artillery.

Serial Number

- serial numbered on the breech.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- the make is not marked on the recoilless rifle.
- "Recoilless Rifle" as a make is being used to describe a form of light artillery using a rifled bore and a venturi system that directs backblast to cancel out the recoil of firing a large-calibre projectile.
- a Recoilless Rifle may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable.

Model

- the model may or may not be marked on the recoilless rifle; this is a Chinese-produced copy of the Russian "B-10" recoilless rifle, which was replaced in service by the "Type 78" recoilless rifle, which is itself now being replaced by the "Type 98" recoilless rifle. All of these systems are a form of lightweight artillery, which are intended to give area suppression and anti-tank support to infantry operations without requiring heavy transport vehicles; the recoilless rifles are mounted on a wheeled tripod stand which can be converted to a towed mount, and the launcher itself can be disassembled into man-portable components in mountainous terrain.
- this is a lightweight anti-armour weapon, normally served by a two man crew and can be fired from a tripod or from the travelling wheels.
- features include: round smooth bored barrel; multi vented breech block; manual operated breech; optical sight.
- overall length of approximately 1677 mm and weight of approximately 87.6 kg.

Manufacturer

- the manufacturer, factory numerical designator, or factory logo may be marked on the recoilless rifle.

Action

- breech-loaded single-shot recoilless rifle.

Serial Number

- serial-numbered on the breech or identification plate.

Notes

Make

- the make is not marked on the recoilless rifle.
- "Recoilless Rifle" as a make is being used to describe a form of light artillery using a rifled bore and a venturi system that directs back blast to cancel out the recoil of firing a large-calibre projectile.
- a Recoilless Rifle may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable.

Model

- the model is marked on the breech or identification plate.
- this is an updated recoilless rifle (based on the "Type 65", which was itself a copy of the Russian "B10") adopted by the Chinese armed forces in 1978 as a form of easily-transportable light artillery, for use against infantry and heavy armoured vehicles at ranges up to 2000 metres, using high-explosive, fragmenting or shaped-charge ammunition.
- this recoilless rifle uses a cartridge case that perforates on firing, allowing a large volume of gas to escape rearward through a nozzle upon firing, counteracting the recoil of the projectile.
- features include: parkerized, phosphated, painted, or camouflaged finish; tubular layout with a larger-diameter breech and cone-shaped venturi; optical sighting scope with range-finder; pistol-grip firing control; and a side-swinging breech-piece that allows cartridges to be loaded and fired cases to be extracted.
- these artillery-pieces may be seen on tripod or vehicle mounts.
- also sold to other countries.

Manufacturer

- the manufacturer is marked on the recoilless rifle.

Action

- single loaded recoilless light artillery.

Serial Number

- serial numbered on the breech or identification plate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- this model of recoilless weapon meets the definition of "firearm" in the Criminal Code of Canada S. 2.
- there are Federal Acts other than the Criminal Code which apply to these items such as the provisions of the Controlled Goods Act and the Defence Production Act.
- Natural Resources Canada has a vested interest in the natures of ammunition employed by these recoilless weapons, which fall under the ambit of the Explosives Act.

Notes

Make

- appears on top flat of the barrel as "J. H. RECTOR".

Model

- over & under (rifle/shotgun) muzzleloading side hammer percussion sporting firearm.
- utilizes swivel barrel system in which the shooter rotates either the rifle or shotgun barrel into the superior position, places a percussion cap on the nipple and cocks the hammer preparatory to firing.
- back action lock on right side, single trigger, walnut buttstock with inlays, crescent buttplate, brass triggerguard with finger extension, no provision for a forearm.
- rifle barrel has sporting front and rear sights, shotgun barrel has bead sight.
- may be seen with side-hammer or "mule-ear" ignition.

Manufacturer

- John H. Rector was a gunmaker in northern New York State from 1840 to 1868.
- marked on top of rifle barrel "J.H. Rector Syracuse, New York".

Type

- percussion, muzzleloading rifle / shotgun.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- over & under pattern.
Serial Number	- appears on rear of rifle barrel, specimen examined had three digit serial number.
Barrel	- barrel lengths may vary.
Calibre	- calibres/gauges may vary.
Other Markings	- lockplate marked "Moore", believe Moore was supplier of locks to the northern United States gun trade.

Notes

Make

- "REFORM" was a trade name used by August Schuler of Suhl, Germany.
- markings: 1) known example marked, "BREVETE" over "D.R.P." over the patent (177023) number on the left side of the barrel stack. ("BREVETE" is the French word for 'patented'; "D.R.P." is German for ' Deutsches Reichspatent' which means 'German patent' in English.)
- markings: 2) possible markings on the left side of the firearm as, "REFORM - PISTOLE", over "D.R. PAT.", over "D.R.G.M.", over "AUSLANDS - PAT". ("D.R.G.M. is German for ' Deutsches Reichs-Gebrauchsmuster' which means ' German Registered Design' in English.)
- markings: 3) possible markings on the grip plates as, "REFORM - PISTOLE", over "BREVETE" within a circle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Reform - Pistole" was produced from 1907 to 1914. - markings: 1) known example marked, "BREVETE" over "D.R.P." over the patent (177023) number on the left side of the barrel stack. ("BREVETE" is the French word for 'patented'; "D.R.P." is German for ' Deutsches Reichspatent' which means 'German patent' in English.) - markings: 2) possible markings on the left side of the firearm as, "REFORM - PISTOLE", over "D.R. PAT.", over "D.R.G.M.", over "AUSLANDS - PAT". ("D.R.G.M. is German for ' Deutsches Reichs-Gebrauchsmuster' which means ' German Registered Design' in English.) - markings: 3) possible markings on the grip plates as, "REFORM - PISTOLE", over "BREVETE" within a circle. - "Reform" main feature is its four superposed or vertically 'stacked' barrels which are removable for loading and then subsequently manually inserted into the top of the receiver/frame. - features include: half-moon front blade, rear notched sights; solid frame, double action, repeating firearm that at each pull of the trigger will fire one barrel, elevate the barrel stack, eject the spent casing by utilizing gas bled-off from the lower barrel; this cycle continues until the fourth barrel is fired at which time the barrel stack must be removed for ejecting of the spent casing in the bottom barrel and reloading; usually have pivoting-type safety lever located on left rear of receiver/frame; external hammer with a up-swing spur; blued finish
Manufacturer	- "AUGUST SCHULER" over "WAFFEN & MUNITIONS FABRIK" over "SUHL" was observed marked on the right side of the firearm. - "A.S.S." is the abbreviation for August Schuler of Suhl. - "August Schuler" was located in Suhl, Thuringen, Germany from 1900 to 1940.
Action	- over & under barrel configuration, four superposed or vertically 'stacked' barrels.
Serial Number	- serial number is usually marked on the bottom of the grip and/or under the grip plates. - serial number is also usually marked on the bottom of the superposed barrels block. - serial numbers observed consisted of four numbers without a letter prefix or suffix.
Shots	- four superposed or vertically 'stacked' barrels.
Remarks	- this firearm design based on the patents of Richard Schuler.

Notes

Make

- "REGENT" over a crown, over "MADE IN GERMANY" in a medallion is marked on the left side of the receiver/frame.
- "REGENT" and "BURGO" were tradenames/trademarks used by Karl Burgsmuller.
- "Karl Burgsmuller" was a retailer located in Kreiesen, Germany.
- "Karl Burgsmuller" was in business from 1955 to 1970.

Model

- these firearms were sold under various trade/brand names without a specific model designation. As such it is commonly referred to simply as the "Regent" revolver.
- features include: double action trigger mechanism, fixed sights, swing out cylinder, brown synthetic grips, pinned barrel, and blue/black painted finish.

Manufacturer

- Rohm markings do not usually appear on the firearm. The grip-frame on the sample examined was marked "Burgo", a known trade name used by Karl Burgsmuller on Rohm revolvers.

Serial Number

- serial number is located on the right side of the receiver/frame ahead of the cylinder.

Shots

- cylinder swings out to the left.

44465 - 1	11MM GERMAN ORDNANCE REV	6	183	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Reichsrevolver" is not marked on the firearm.
- "Reichsrevolver" was the official sidearm of the German Army from 1879 to 1908.
- "Reichsrevolver" was designed by Gewehr-Prufungs-Commission.
- "Reichsrevolver" was also known as the "Reichs-Commissions-Revolver".
- "Reichsrevolver model 1879" has a round to octagonal barrel with a muzzle ring and a metal butt cap with a lanyard ring.
- "Reichsrevolver model 1883" has a round to octagonal barrel without a muzzle ring and a rounded buttstrap with a lanyard ring.

Model

- Reichrevolvers were manufactured by Waffenfabrik F. v. Dreyse from 1879 to circa 1883.
- "Reichsrevolver model 1879" is not marked on the firearm.
- features include: fixed sights; round to octagonal barrel with a muzzle ring; solid top receiver/frame with a removable fluted cylinder and right side swing-down loading gate; exposed spur hammer; single action trigger mechanism; radial safety lever is mounted on the left side of the receiver/frame below the hammer; metal butt cap with a lanyard ring; checkered wood grip plates.
- Loading was via a loading gate on the right side of the receiver/frame, and the cylinder was released to rotate by pulling the hammer to half-cock.
- Unloading the empty cartridges was done by removing the cylinder from the receiver/frame by withdrawing the cylinder axis-pin, and then removing the cartridge casings from the cylinder by hand.

Manufacturer

- normally in an oval above the trigger guard.

Action

- single action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization unknown.
- found on the receiver/frame under the cylinder on the left side of the revolver.
- found in other locations also, ie. barrel and again on the cylinder.
- specimens observed had four digits without prefix or suffix.
- the year of manufacture may be found on the firearm.

Barrel

- the model with the 152MM barrel length is known as Revolver M/79 fur offiziere (Revolver M/79 for officers).
- the model with the 180MM barrel length is known as Revolver M/79 Reglementiert (Revolver M/79 Regulation issue).

Other Markings

- regimental markings and company issue markings may be found on the bottom of the butt / hand grip or the rear grip strap of the revolver's receiver/frame.

- "Reichsrevolver model 1879" is not marked on the firearm.
- features include: fixed sights; round to octagonal barrel with a muzzle ring; solid top receiver/frame with a removable fluted cylinder and right side swing-down loading gate; exposed spur hammer; single action trigger mechanism; radial safety lever is mounted on the left side of the receiver/frame below the hammer; metal butt cap with a lanyard ring; checkered wood grip plates.
- Loading was via a loading gate on the right side of the receiver/frame, and the cylinder was released to rotate by pulling the hammer to half-cock.
- Unloading the empty cartridges was done by removing the cylinder from the receiver/frame by withdrawing the cylinder axis-pin, and then removing the cartridge casings from the cylinder by hand.

Manufacturer

- normally in an oval above the trigger guard.

Action

- single action.

Other Markings

- regimental markings and company issue markings may be found on the bottom of the butt/hand grip or the rear grip strap of the revolver's receiver/frame.

FRT Report

Firearm Reference Number (FRN): 44491
Make: Reichsrevolver
Model: 1879/83

Summary

Make:	Reichsrevolver
Model:	1879/83
Manufacturer:	Dreyse
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
44491 - 1	11MM GERMAN ORDNANCE REV	6	117	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
44491 - 2	11MM GERMAN ORDNANCE REV	6	126	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Reichsrevolver" is not marked on the firearm.
- "Reichsrevolver" was the official sidearm of the German Army from 1879 to 1908.
- "Reichsrevolver" was designed by Gewehr-Prufungs-Commission.
- "Reichsrevolver" was also known as the "Reichs-Commissions-Revolver".
- "Reichsrevolver model 1879" has a round to octagonal barrel with a muzzle ring and a metal butt cap with a lanyard ring.
- "Reichsrevolver model 1883" has a round to octagonal barrel without a muzzle ring and a rounded buttstrap with a lanyard ring.

Model

- Reichsrevolvers were manufactured by Waffenfabrik F. v. Dreyse between 1892 and 1901.
- "1879/83" model was the civilian version of the standard military pattern 1883 Reichsrevolver.
- features include: fixed sights; round to octagonal barrel with or without a right side mounted ejector rod assembly; solid top receiver/frame with a removable fluted cylinder and right side swing-down loading gate; exposed spur hammer; single action trigger mechanism or double/single action trigger mechanism; round trigger guard with finger spur; radial safety lever is mounted on the left side of the receiver/frame below the hammer; round bottom grip strap with a lanyard ring; checkered wood grip plates.

Manufacturer

- normally in an oval above the trigger guard.

Action

- single action or double action.

Serial Number

- The serial number is marked on the receiver/frame under the cylinder on the left side of the revolver.
- The serial number is marked in other locations also, ie. barrel and again on the cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- It is difficult to establish the turn-of-the century production by this firm. Franz von Dreyse died in 1894 and the factory went into decline after his death. Waffenfabrik von Dreyse was bought-out by Rheinische-Metallwaaren-und Maschinenfabrik (later known as Rheinmetall) in 1901. Any of these firearms manufactured before January 1, 1898, in the original calibre, will be considered to be "Antique".

Notes

Make

- "Reichsrevolver" is not marked on the firearm.
- "Reichsrevolver" was the official sidearm of the German Army from 1879 to 1908.
- "Reichsrevolver" was designed by Gewehr-Prufungs-Commission.
- "Reichsrevolver" was also known as the "Reichs-Commissions-Revolver".
- "Reichsrevolver model 1879" has a round to octagonal barrel with a muzzle ring and a metal butt cap with a lanyard ring.
- "Reichsrevolver model 1883" has a round to octagonal barrel without a muzzle ring and a rounded buttstrap with a lanyard ring.

Model

- manufactured prior to 1902..
- "Reichsrevolver model 1883" is not marked on the firearm.
- features include: fixed sights; round to octagonal barrel; solid top receiver/frame with a removable left side plate, removable fluted cylinder and right side swing-down loading gate; exposed spur hammer; single action trigger mechanism; radial safety lever is mounted on the left side of the receiver/frame below the hammer; round bottom grip strap with a lanyard ring; checkered wood grip plates.
- Loading was via a loading gate on the right side of the receiver/frame, and the cylinder was released to rotate by pulling the hammer to half-cock.
- Unloading the empty cartridges was done by removing the cylinder from the receiver/frame by withdrawing the cylinder axis-pin, and then removing the cartridge casings from the cylinder by hand.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "F. v. DREYSE" over "SOMMERDA" or "SOEMMERDA" in an oval is usually marked on the left side plate of the receiver/frame.
Serial Number	- serial number is marked on the left side of the receiver/frame, and is usually repeated on the removable left side plate of the receiver/frame and on the barrel.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- Regimental markings and company issue markings may be found on the bottom of the butt / hand grip or the rear grip strap of the revolver's receiver/frame. - The Reichsrevolver model 1883's manufactured by Dreyse for Prussia in 1885 will display the Prussian acceptance marks of an eagle as well as the inspection mark "FW" under a Prussian Crown. - The Reichsrevolver model 1883's manufactured by Dreyse for Bavaria in 1889 will display the Bavarian inspection marks from the Royal Bavarian Gun Factory at Amberg. These Bavarian inspection markings are the the letters "GF" which denote the "Gewehrfabrik" at Amberg, as well as the gothic letter "L" under a crown which is the marking of King Ludwig II of Bavaria.

Notes

Make

- The make is not marked on the firearm.
- "Reichsrevolver" was the official sidearm of the German Army from 1879 to 1908.
- "Reichsrevolver" was also known as the "Reichs-Commissions-Revolver".
- "Reichsrevolver model 1879" has a round to octagonal barrel with a muzzle ring and a metal butt cap with a lanyard ring.
- "Reichsrevolver model 1883" has a round to octagonal barrel without a muzzle ring and a rounded buttstrap with a lanyard ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- The model designation is not marked on the firearm.
- Approximately 1500 Reichsrevolver model 1883's were ordered from Mauser by King Charles I of Wurttemberg in October of 1884 and were issued in 1886. Special permission was requested by the minister of war to fulfill the order through the Mauser factory in Oberndorf which was struggling at the time.
- Features include: fixed sights; round to octagonal barrel; solid top receiver/frame with a removable fluted cylinder and right side swing-down loading gate; exposed spur hammer; single action trigger mechanism; radial safety lever is mounted on the left side of the receiver/frame below the hammer; round bottom grip strap with a lanyard ring; checkered wood grip plates.

- Loading was via a loading gate on the right side of the receiver/frame, and the cylinder was released to rotate by pulling the hammer to half-cock. Unloading the empty cartridges was done by removing the cylinder from the receiver/frame by withdrawing the cylinder axis-pin, and then removing the cartridge casings from the cylinder by hand.

Manufacturer

- An oval with "WAFFENF. MAUSER" over "OBERNDORF" is marked on the left side of the receiver/frame.

Serial Number

- The serial number is marked on the left side of the receiver/frame and may be repeated on the barrel.
- Serial numbers range from 1 to approximately 1500 with some examples above 1500.

Calibre

- The calibre designation is marked on the barrel.

Other Markings

- Regimental markings and company issue markings may be found on the bottom of the butt/hand grip or the rear grip strap of the revolver's receiver/frame.
- Reichsrevolver model 1883's manufactured by Mauser may be marked with a stag antler on the barrel or cylinder to signify they were issued to King Charles I of Wurttemberg.

- "Reichsrevolver" was designed by Gewehr-Prufungs-Commission.
- "Reichsrevolver" was also known as the "Reichs-Commissions-Revolver".
- "Reichsrevolver model 1879" has a round to octagonal barrel with a muzzle ring and a metal butt cap with a lanyard ring.
- "Reichsrevolver model 1883" has a round to octagonal barrel without a muzzle ring and a rounded buttstrap with a lanyard ring.

Model

- "Reichsrevolver model 1883" is not marked on the firearm.
- features include: fixed sights; round to octagonal barrel; solid top receiver/frame with a removable fluted cylinder and right side swing-down loading gate; exposed spur hammer; single action trigger mechanism; radial safety lever is mounted on the left side of the receiver/frame below the hammer; round bottom grip strap with a lanyard ring; checkered wood grip plates.
- Loading was via a loading gate on the right side of the receiver/frame, and the cylinder was released to rotate by pulling the hammer to half-cock.
- Unloading the empty cartridges was done by removing the cylinder from the receiver/frame by withdrawing the cylinder axis-pin, and then removing the cartridge casings from the cylinder by hand.

Manufacturer

- normally in an oval above the trigger guard.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- Regimental markings and company issue markings may be found on the bottom of the butt/hand grip or the rear grip strap of the revolver's receiver/frame.

Notes

Make

- "J. REID. NEW YORK" may be marked on the barrel.

Model

- model designation is not marked on the firearm.
- approximately 880 of these revolvers were produced.
- manufactured between 1862 and 1865.
- this is an early single-action, spur trigger revolver with an octagonal barrel, square (most common) or round (rare) butt, and walnut grips; these revolvers are seen with both brass and iron receiver/frames, and in both blued and silver-plated versions. These revolvers have a loading-gate that swings up alongside the receiver/frame to load the cylinder, and some have an ejector-rod mounted on the right side of the barrel.
- barrel sometimes marked "J.REID, NEW YORK", but these revolvers are more often seen with markings reading "JAMES P. FITCH, N.Y. PHOENIX REVOLVER", "THE PHENIX", or "ADDRESS W. IRVING, 20. CLIFF ST. NY.". These markings were added by Reid at the request of various retailers who distributed his revolvers.
- Pocket Revolver Model 1 was sold in .22 calibre rimfire.
- Pocket Revolver Model 2 was sold in .32 calibre rimfire.
- Pocket Revolver Model 3 was sold in .31 calibre percussion with the ability to be converted to .32 calibre rimfire. Barrel is usually marked "J. Reid N.Y. City" and "Patd. Apl. 28, 1863".
- Pocket Revolver Model 3A was sold in .32 calibre rimfire with the ability to be converted to .31 calibre percussion. Barrel is usually marked "J. Reid N.Y. City" and "Patd. Apl. 28, 1863".
- Pocket Revolver Model 4 was sold in .31 calibre percussion with the ability to be converted to .32 calibre rimfire. Barrel is usually marked "J. Reid N.Y. City" and "Patd. Apl. 28, 1863".
- Pocket Revolver Model 4A was sold in .32 calibre rimfire with the ability to be converted to .31 calibre percussion. Barrel is usually marked "J. Reid N.Y. City" and "Patd. Apl. 28, 1863".

Manufacturer

- "J. REID. NEW YORK" may be marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the receiver/frame. - serial number range of "1" to "2650", interspersed with other models.
Other Markings	- the barrel is usually marked "J.REID, NEW YORK", but these revolvers are also seen with markings reading "JAMES P. FITCH, N.Y. PHOENIX REVOLVER", "HOLEY MFG. CO. LAKEVILLE, CONN", or "WM. IRVING, NEW YORK". Fitch, Irving, and the Holey Mfg. Co. were all retailers that distributed Reid's revolvers.

Model

- manufactured from 1862 to 1864.
- model designation is not marked on the firearm.
- this is an early single-action spur trigger revolver with octagonal barrel, iron frame, square butt, and walnut grips; are seen in both blued and silver-plated versions. These revolvers have a loading-gate that swings up alongside the frame to load the cylinder, and some have an ejector-rod mounted on the right side of the barrel.
- approximately 1200 of these revolvers were manufactured.
- barrel sometimes marked "J.REID, NEW YORK", but these revolvers are more often seen with markings reading "JAMES P. FITCH, N.Y. PHOENIX REVOLVER", "JAMES P. FITCH, N.Y. THE PHENIX", or "ADDRESS W. IRVING, 20. CLIFF ST. NY.". These markings were added by Reid at the request of various retailers who distributed his revolvers.
- Pocket Revolver Model 1 was sold in .22 calibre rimfire.
- Pocket Revolver Model 2 was sold in .32 calibre rimfire.
- Pocket Revolver Model 3 was sold in .31 calibre percussion with the ability to be converted to .32 calibre rimfire. Barrel is usually marked "J. Reid N.Y. City" and "Patd. Apl. 28, 1863".
- Pocket Revolver Model 3A was sold in .32 calibre rimfire with the ability to be converted to .31 calibre percussion. Barrel is usually marked "J. Reid N.Y. City" and "Patd. Apl. 28, 1863".
- Pocket Revolver Model 4 was sold in .31 calibre percussion with the ability to be converted to .32 calibre rimfire. Barrel is usually marked "J. Reid N.Y. City" and "Patd. Apl. 28, 1863".
- Pocket Revolver Model 4A was sold in .32 calibre rimfire with the ability to be converted to .31 calibre percussion. Barrel is usually marked "J. Reid N.Y. City" and "Patd. Apl. 28, 1863".

Action

- single-action revolver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "E. M. REILLY & CO." over "NEW OXFORD ST LONDON,S.W." may be marked on the top strap of the receiver/frame.
- Edward Michael Reilly was located at 16 New Oxford Street from 1883 to 1898.
- "Joseph Charles Reilly" founded the gunmaking firm of Reilly in 1835.
- "Joseph Charles Reilly" was a jeweler from 1816 to 1835 and a gunmaker from 1835 to 1847.
- "Edward Michael Reilly" worked for his father "Joseph Charles Reilly" from 1841 to 1847.
- "Joseph Charles Reilly" and his son "Edward Michael Reilly" formed a partnership from 1848 to 1858.
- In 1859, the name of the company was "Reilly & Company".
- In 1861, the company name was "Edward M. Reilly & Company".
- In 1911, E. M. Reilly & Co became incorporated with H. Reilly and C. W. Roberts as the directors.
- In 1920, the company was incorporated into the business of Charles Riggs & Co Ltd.
- "Reilly" manufactured cap-lock pistols, dueling pistols, pepper boxes, air canes, air guns, bolt action rifles, pinfire and centre-fire sporting guns and ammunition. Reilly also sold firearms by other manufacturers - Reilly had facilities at the following London locations:
- 316 High Holborn from 1835 to 1847.
- 502 Oxford from 1848 to 1875.
- 315 Oxford Street from 1859 to 1881. Renumbered to 277 Oxford Street.
- 16 New Oxford Street from 1883 to 1898.
- 277 Oxford Street from 1881 to 1903.
- 295 Oxford Street from 1904 to 1911.
- 13 High Street, Marylebone from 1912 to 1917.
- In the mid-1880s Reilly also occupied a shop at Rue Scribe, Paris.

Model

- "No 2" over "calibre" was observed marked on the left side of the receiver/frame.
- Features include: fixed half-moon blade front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a non-fluted or fluted cylinder, and right side loading gate; swing-out case ejector rod stored within the cylinder axis rod; exposed spur hammer; double/single action trigger mechanism; birds-head style grip strap with a lanyard loop or flat bottom grip strap; checkered wood grip plates; blued finish.
- NOTE: barrel is ovate and may have an unusual taper with the diameter at the muzzle end being greater in diameter than where the barrel meets the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- The company logo is marked on the receiver/frame.
Serial Number	- The serial number is marked on the left side of the receiver/frame.

Notes

Make

- the make designation is normally found marked on the receiver/frame of the firearm and/or on the barrel assembly.
- markings usually consist of the company name followed by an address, for example, "E.M. REILLY & Co. 16 NEW OXFORD ST. LONDON."

Model

- "Rook Rifle" is not marked on the firearm.
- "Rook Rifle" model designation was used in the United Kingdom in refers to the intended purpose of a small, single shot, lightweight sporting rifle normally used for rabbit, crow, or vermin control.
- "Rook Rifle" was also known as a 'Garden Rifle', 'Rabbit Rifle', or 'Pest/Vermin Rifle'.
- "Rook Rifle" may be found with a number of different types of actions including but not limited to break open (hinged barrel design), falling block or Martini-type.
- this rifle may be encountered in several configurations and with a variety of features including: round or octagonal barrels, internal or external hammers, sights mounted on the barrel and/or receiver/frame.

Manufacturer

- manufacturer's name will normally be found marked on the receiver/frame of the firearm and/or on the barrel assembly.
- varying addresses may also be encountered on this type of firearm depending on the date of manufacture by E.M. Reilly & Co., therefore, the company history of E.M. Reilly can be of assistance when dating the manufacture or distribution of a firearm by this firm.

Action

- 'Rook Rifle" was available in various action types:
- break open action (hinged barrel design).
- falling block/vertical sliding wedge action.
- tilting block action (Martini type).

Serial Number

- serial number located on barrel.
- serial number rationalization unknown.
- sample serial number observed consisted of five digits without prefix or suffix

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - the calibre designation is normally found marked on the barrel assembly.

Canadian Law Comments - Some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "E. M. REILLY & CO. LONDON" or a variation thereof is usually marked on the top of the barrel.
- "E. M. REILLY & CO. LONDON" known example was also marked with an address on the right side of the barrel, addresses may be encountered as noted in the glossary entry.

Model

- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- "Screw Barrel Pistol" is a single shot pistol, with a removable barrel and an exposed hammer located on the right side of the receiver/frame behind the chamber.
- "Screw Barrel Pistol" is intended to be loaded from the breech end of the barrel and as such was originally supplied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- features may include: front bead sight; round barrel with underlug for wrench; boxlock or round action; exposed hammer; trigger with a rounded trigger guard; receiver/frame and hammer with scroll engraving; round, curved, checkered wooden grip.

Manufacturer

- "E. M. REILLY & CO. LONDON" or a variation thereof is usually marked on the top of the barrel.
- "E. M. REILLY & CO. LONDON" known examples were also marked with an address on the right side of the barrel, addresses may be encountered as noted in the glossary for this manufacturer.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.

Notes

Make

- "E.M. REILLY & Co. 16 NEW OXFORD ST. LONDON" was observed marked on the barrel.

Model

- model name is not marked on this firearm.
- generic entry for single barrel shotguns made by E.M. Reilly that have no model name marked on them.
- features observed: octagonal to round barrel; front hinged receiver/frame with right side mounted break open lever; exposed spur hammer centrally located at rear of standing breech; checkered wood forearm and straight grip buttstock.

Manufacturer

- "E.M. REILLY & Co. 16 NEW OXFORD ST. LONDON" was observed marked on the barrel.
- varying addresses may also be encountered on this type of firearm depending on the date of manufacture by E.M. Reilly & Co., therefore, the company history of E.M. Reilly can also be of assistance when dating the manufacture or distribution of a firearm by this firm.

Action

- hinged barrel design.

Serial Number

- serial number was observed marked on the rear of the trigger tang.
- observed serial number consisted of five digits without a letter prefix or suffix.

Calibre

- calibre/gauge designation was not marked on known example.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "E. M. REILLY & CO." or a variation thereof is usually marked on the top of the barrel; known example was also marked, "502 NEW OXFORD ST LONDON" on the right side of the barrel; other addresses may be encountered as note below.
- Edward Michael Reilly was located at 502 Oxford from 1848 to 1875.
- "Joseph Charles Reilly" founded the gunmaking firm of Reilly in 1835.
- "Joseph Charles Reilly" was a jeweler from 1816 to 1835 and a gunmaker from 1835 to 1847.
- "Edward Michael Reilly" worked for his father "Joseph Charles Reilly" from 1841 to 1847.
- "Joseph Charles Reilly" and his son "Edward Michael Reilly" formed a partnership from 1848 to 1858.
- in 1859, the name of the company was "Reilly & Company".
- in 1861, the company name was "Edward M. Reilly & Company".
- in 1911, E. M. Reilly & Co became incorporated with H. Reilly and C. W. Roberts as the directors.
- in 1920, the company was incorporated into the business of Charles Riggs & Co Ltd.
- "Reilly" manufactured cap-lock pistols, dueling pistols, pepper boxes, air canes, air guns, bolt action rifles, pinfire and centre-fire sporting guns and ammunition.
- the E.M. Reilly firm also retailed firearms by other manufacturers.
- Reilly had facilities at the following London locations:
- 316 High Holborn from 1835 to 1847.
- 502 Oxford from 1848 to 1875.
- 315 Oxford Street from 1859 to 1881. Renumbered to 277 Oxford Street.
- 16 New Oxford Street from 1883 to 1898.
- 277 Oxford Street from 1881 to 1903.
- 295 Oxford Street from 1904 to 1911.
- 13 High Street, Marylebone from 1912 to 1917.
- in the mid-1880s Reilly also occupied a shop at Rue Scribe, Paris.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "THE TOWER" over "BULL DOG" is marked on the top strap.
- "TRADEMARK", over the outline of a "castle with four towers", over "LONDON TOWER" is marked on the front left side of the receiver/frame.
- manufactured circa 1875 to circa 1883.
- features include: fixed front sight and a groove in the top strap for a rear sight; ovate barrel which may be tapered; solid top receiver/frame with a fluted cylinder; hinged loading gate on the right side of the standing breech; swing-out case ejector rod stored within the cylinder axis rod; flat head ejector rod; exposed spur hammer which is noticeably more upswept than Webley-type spur hammers; double/single action trigger mechanism; saw handle bird's head grip strap; checkered wooden grip plates.

Manufacturer

- manufacturers name is not marked on the firearm.
- the David Bentley trade mark symbol is marked on the front left side of the receiver/frame; this symbol consists of the words "TRADE MARK" over the outline of a "castle with four towers" over "LONDON TOWER"; this symbol was in use beginning in 1875.
- this trademark was acquired by Webley in 1888.
- David Bentley was a British firearms manufacturer located in Birmingham, England, 1845 to circa 1883.
- the David Bentley firm was located at the following addresses;
- New Church St., 1845-49.
- 55 Hockley St., 1853.
- 5 Lower Loveday St., 1855-63.
- 44 Shadwell St., 1863-71.
- Tower Wks., 45 Tower Rd., Aston, 1871 - circa 1883.

Serial Number

- known examples had three digit numbers without prefix or suffix.

Calibre

- "FOR 450 CENTRAL FIRE CARTRIDGE" is marked on the left side of the top strap.

Notes

Make

- "E.M REILLY & Co 277 OXFORD St LONDON" was observed marked on the top of the barrel.
- "Joseph Charles Reilly" founded the gunmaking firm of Reilly in 1835.
- "Joseph Charles Reilly" was a jeweler from 1816 to 1835 and a gunmaker from 1835 to 1847.
- "Edward Michael Reilly" worked for his father "Joseph Charles Reilly" from 1841 to 1847.
- "Joseph Charles Reilly" and his son "Edward Michael Reilly" formed a partnership from 1848 to 1858.
- in 1859, the name of the company was "Reilly & Company".
- in 1861, the company name was "Edward M. Reilly & Company".
- in 1911, E. M. Reilly & Co became incorporated with H. Reilly and C. W. Roberts as the directors.
- in 1920, the company was incorporated into the business of Charles Riggs & Co Ltd.
- "Reilly" manufactured cap-lock pistols, dueling pistols, pepper boxes, air canes, air guns, bolt action rifles, pinfire and centre-fire sporting guns and ammunition. Reilly also sold firearms by other manufacturers
- Reilly had facilities at the following London locations:
- 316 High Holborn from 1835 to 1847.
- 502 Oxford from 1848 to 1875.
- 315 Oxford Street from 1859 to 1881. Renumbered to 277 Oxford Street.
- 16 New Oxford Street from 1883 to 1898.
- 277 Oxford Street from 1881 to 1903.
- 295 Oxford Street from 1904 to 1911.
- 13 High Street, Marylebone from 1912 to 1917.
- in the mid-1880s Reilly also occupied a shop at Rue Scribe, Paris.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "WEBLEY'S" and "No. 4 1/2" may be marked on the front left side of the receiver/frame.
- this firearm is a Webley No 4 1/2 revolver distributed by the English gunmaking firm of E.M. Reilly.
- this model was first advertised by Webley in January 1884.
- features include: fixed sights; octagonal barrel; front hinged receiver/frame with fluted cylinder and automatic extractor; Pryse Pattern break open release levers are located on the standing breech of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; saw handle type grip strap with a metal butt cap and lanyard ring; checkered walnut grip; blued finish.
- similar to the Webley No 4 revolver, but with a five shot cylinder.
- this firearm will have the distinctive Webley-style of orientation "arrows" marked on the left rear side of the barrel and on the cylinder retaining know; these arrows are to show the correct position of the cylinder retaining knob.
- British proof marks are apparent on the barrel, cylinder and/or receiver/frame of this firearm.

Manufacturer

- "WEBLEY'S" or "WEBLEY" over "PATENTS" is usually marked on the side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- Note; many Pryse Pattern revolvers of this type were devoid of model and maker's markings including those produced by Webley. Confirmation of Webley manufacture must then be determined by Webley-type "characteristics".

Serial Number

- known example had a five digit serial number without prefix or suffix marked on the front left side of the receiver/frame.

Calibre

- known example had the calibre proof marked on the rear right side of the barrel as, ".455".

Remarks

- the company history of E.M. Reilly & Co. as noted below can be of assistance when dating the manufacture or distribution of a firearm by this firm;

- "Joseph Charles Reilly" founded the gunmaking firm of Reilly in 1835.
- "Joseph Charles Reilly" was a jeweler from 1816 to 1835 and a gunmaker from 1835 to 1847.
- "Edward Michael Reilly" worked for his father "Joseph Charles Reilly" from 1841 to 1847.
- "Joseph Charles Reilly" and his son "Edward Michael Reilly" formed a partnership from 1848 to 1858.
- in 1859, the name of the company was "Reilly & Company".
- in 1861, the company name was "Edward M. Reilly & Company".
- in 1911, E. M. Reilly & Co became incorporated with H. Reilly and C. W. Roberts as the directors.
- in 1920, the company was incorporated into the business of Charles Riggs & Co Ltd.
- "Reilly" manufactured cap-lock pistols, dueling pistols, pepper boxes, air canes, air guns, bolt action rifles, pinfire and centre-fire sporting guns and ammunition. Reilly also sold firearms by other manufacturers
- Reilly had facilities at the following London locations:
- 316 High Holborn from 1835 to 1847.
- 502 Oxford from 1848 to 1875.
- 315 Oxford Street from 1859 to 1881. Renumbered to 277 Oxford Street.
- 16 New Oxford Street from 1883 to 1898.
- 277 Oxford Street from 1881 to 1903.
- 295 Oxford Street from 1904 to 1911.
- 13 High Street, Marylebone from 1912 to 1917.
- A shop at Rue Scribe, Paris, is recorded in 1882 and 1884, but not in 1893.

Notes

Make

- "E.M. REILLY & Co." and "502 OXFORD ST. LONDON" was marked on the top strap of known example.
- the firm of "E.M. Reilly" was both a manufacturer and distributor of firearms.
- E.M. Reilly was located at 502 Oxford Street, London from 1861 to 1869 and from 1875 to 1882.
- "Joseph Charles Reilly" founded the gunmaking firm of Reilly in 1835.
- "Joseph Charles Reilly" was a jeweler from 1816 to 1835 and a gunmaker from 1835 to 1847.
- "Edward Michael Reilly" worked for his father "Joseph Charles Reilly" from 1841 to 1847.
- "Joseph Charles Reilly" and his son "Edward Michael Reilly" formed a partnership from 1848 to 1858.
- in 1859, the name of the company was "Reilly & Company".
- in 1861, the company name was "Edward M. Reilly & Company".
- in 1911, E. M. Reilly & Co became incorporated with H. Reilly and C. W. Roberts as the directors.
- in 1920, the company was incorporated into the business of Charles Riggs & Co Ltd.
- "Reilly" manufactured cap-lock pistols, dueling pistols, pepper boxes, air canes, air guns, bolt action rifles, pinfire and centre-fire sporting guns and ammunition. Reilly also sold firearms by other manufacturers
- Reilly had facilities at the following London locations:
- 316 High Holborn from 1835 to 1847.
- 502 Oxford from 1848 to 1875.
- 315 Oxford Street from 1859 to 1881. Renumbered to 277 Oxford Street.
- 16 New Oxford Street from 1883 to 1898.
- 277 Oxford Street from 1881 to 1903.
- 295 Oxford Street from 1904 to 1911.
- 13 High Street, Marylebone from 1912 to 1917.
- in the mid-1880s Reilly also occupied a shop at Rue Scribe, Paris.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model name is not marked on this firearm.
- model designation is derived from the characteristics of the firearm to that of the early Webley First Pattern RIC No. 1 and the fact that it bears Webley markings.
- this type of firearm would have been manufactured circa 1867 to circa mid-1870's.
- features include: round barrel; solid top receiver/frame; fixed unfluted cylinder which usually has front locking notches; single/double action trigger; loading gate on the right side of the standing breech; exposed spur hammer; round trigger guard; checkered hardwood grips; lanyard ring; fixed blade front sight; no rear sight but has a sighting groove in the top strap.

Manufacturer

- "WEBLEY'S" or "WEBLEY" over "PATENTS" is usually marked on the side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.

Serial Number

- the serial number is marked on the side of the receiver/frame.
- known example had a three digit number without prefix or suffix marked on the front left side of the receiver/frame.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Remarks

- the company history of E.M. Reilly & Co. as noted below can be of assistance when dating the manufacture or distribution of a firearm by this firm:

- "Joseph Charles Reilly" founded the gunmaking firm of Reilly in 1835.
- "Joseph Charles Reilly" was a jeweler from 1816 to 1835 and a gunmaker from 1835 to 1847.
- "Edward Michael Reilly" worked for his father "Joseph Charles Reilly" from 1841 to 1847.
- "Joseph Charles Reilly" and his son "Edward Michael Reilly" formed a partnership from 1848 to 1858.
- in 1859, the name of the company was "Reilly & Company".
- in 1861, the company name was "Edward M. Reilly & Company".
- in 1911, E. M. Reilly & Co became incorporated with H. Reilly and C. W. Roberts as the directors.
- in 1920, the company was incorporated into the business of Charles Riggs & Co Ltd.
- "Reilly" manufactured cap-lock pistols, dueling pistols, pepper boxes, air canes, air guns, bolt action rifles, pinfire and centre-fire sporting guns and ammunition. Reilly also sold firearms by other manufacturers
- Reilly had facilities at the following London locations:
- 316 High Holborn from 1835 to 1847.
- 502 Oxford from 1848 to 1875.
- 315 Oxford Street from 1859 to 1881. Renumbered to 277 Oxford Street.
- 16 New Oxford Street from 1883 to 1898.
- 277 Oxford Street from 1881 to 1903.
- 295 Oxford Street from 1904 to 1911.
- 13 High Street, Marylebone from 1912 to 1917.
- A shop at Rue Scribe, Paris, is recorded in 1882 and 1884, but not in 1893.

Notes

Make

- "REIMS" is marked on the grip panels.
- "REIMS" PATENT is marked on the left side of the slide.

Model

- "1914 MODEL AUTOMATIC PISTOL" is marked on the left side of the slide.
- manufactured in 1914 and 1915.
- this model bears a striking resemblance to the small Browning auto pistols.
- features include: groove in the top of the slide that serves as a sighting channel; slide lock lever on the left side of the receiver/frame; magazine release located on the heal of the butt and blued finish.

Manufacturer

- "Azanza y Arrizabagala" was located in the Eibar region of Spain, between 1910 and 1920.
- "A.A." inside an oval was a trademark logo used by "Azanza y Arrizabagala".
- "AA" surmounted by a crown was a trademark logo used by "Azanza y Arrizabagala".
- "AA" in side a circle with the word "TRADE" on top and "MARK" underneath was observed marked on a "Azanza y Arrizabagala" semi-automatic pistol.
- "AA" inside a diamond was observed marked on the grip plates of a REIMS pistol manufactured by "Azanza y Arrizabagala".

Action

- blow back operated.

Serial Number

- serial number is marked on the right side of the receiver/frame, above the trigger.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is marked on the left side of the slide.
Shots	- removable box magazine located in the grip.
Other Markings	- the left side of the slide is usually marked "REIMS PATENT" - left side of the slide may be marked: 6.35 1914 MODEL AUTOMATIC PISTOL "REIMS" PATENT or 7.65 1914 MODEL AUTOMATIC PISTOL "REIMS" PATENT

Notes

Make

- "H & R - REISING" or "H.& R. REISING" is marked on the top of the receiver/frame in front of the rear sight.

Model

- production started in December 1941.
- "MODEL 50" is marked on the top of the receiver/frame in front of the rear sight.
- features include: fixed blade front sight, adjustable rear sight, selector and safety lever located on the right side of the receiver/frame, muzzle brake, the cocking handle is located in a recess on the underside of the forearm, the rear portion of the barrel is ribbed, blued finish with a one piece walnut stock.
- this Model was a limited standard firearm adopted by the U.S. Marine Corps in 1941. It was not a success as a military firearm and was relegated to police and security agencies.

Manufacturer

- "H & R" or "H.& R." and "HARRINGTON AND RICHARDSON ARMS CO." are marked on top of the receiver/frame in front of the rear sight.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is located on the right side of the receiver/frame.
Calibre	- the calibre designation "45" is marked on top of the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- "H&R REISING" is marked on the top of the receiver/frame.
- Eugene Reising designed a series of submachine guns, primarily for police use, in the early 1940's.
- these firearms were manufactured by Harrington & Richardson.

Model

- "MODEL 60" is marked on the top of the receiver/frame.
- the 45 Auto calibre, Reising, Model 60, "Semi-Automatic Subcarbine" was designed by Eugene Reising in the early 1940's.
- the Model 60 is identical in all respects to the Reising Model 50 Submachine Gun except for barrel length and the fact that the mechanism will function only in the semi-automatic mode.

Manufacturer

- "HARRINGTON AND RICHARDSON ARMS CO. WORCESTER,MASS.U.S.A. PAT. PENDING" is marked on the top of the receiver/frame.

Type

- this firearm has a mechanism designed and manufactured to function only in the semi-automatic mode.

Action

- this firearm has a mechanism designed and manufactured to function only in the semi-automatic mode.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- unknown serial number rationalization.
- six digit serial number without prefix or suffix reported.

Calibre

- "CAL.45" is marked on the top of the receiver/frame.

Notes

Make

- "THE REISING ARMS CO." over "HARTFORD, CONN, U.S.A" and may also be marked as, "REISING MANUFACTURING CORPORATION" over "NEW YORK, N.Y. U.S.A" is normally marked on the left side of the barrel.

Model

- model designation is not marked on firearm.
- this firearm was patented by Eugene Reising in 1916.
- this model was manufactured from 1921 to 1924.
- features include: single action, blued or nickle plated receiver/frame, slide and barrel, spurred hammer, fixed front sight with an adjustable rear sight, serrations on the rear of the slide, and black grip panels with a picture of a bear's head and the inscription "Reising it's a bear".
- the barrel is hinged at the front and can be tipped up for cleaning.
- it is estimated that 3,500 units were manufactured at the Hartford factory, and another 1,000 units at the New York factory.

Manufacturer

- Reising Arms Company was located in Hartford, Connecticut, U.S.A. until 1921. - Reising Arms Company was moved to New York City in 1922 and was renamed the Reising Manufacturing Corporation.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- approximately 4,500 manufactured. - marked on the left side of the receiver/frame above the trigger as sequential numbers.
Calibre	- ".22 LONG RIFLE CTG." is normally marked on top of the barrel.
Shots	- detachable box magazine.
Other Markings	- additional markings as follows: - on the left side of the barrel in two lines: "THE REISING ARMS CO" "HARTFORD CONN, USA" or "REISING MANUFACTURING CORPORATION" "NEW YORK, USA" - on the right side of the barrel in two lines: "PATENTED MAY 16, 1916" "OTHER PATENTS PENDING" - on top of the barrel over the chamber: "22 LONG RIFLE CTG" - patent information is normally marked on the right side of the barrel as, "PATENTED MAY 16-1916" over "OTHER PATENTS PENDING".

Notes

Make

- markings have varied on examined samples, some were marked; "Remington" over "TRADE MARK" on the upper tang of the receiver/frame and "REMINGTON" over "UMC" inside a circle over "TRADE MARK" on the lower tang of the receiver/frame while others have had no tang markings.
- barrel markings have included; "THE REMINGTON ARMS UNION METALLIC CTG. CO. INC., REMINGTON ILION WKS, ILION, N.Y. U.S.A." and "MANUFACTURED BY THE REMINGTON ARMS CO. ILION.N.Y.U.S.A." over "BROWNING'S PATENTS OCT.9.1900 DEC.17.01 SEPT.30.02 JUNE 16.03".

Model

- depending on the year of production, "MODEL 11" may or may not be marked on the firearm.
- manufactured between 1905 and 1948.
- approximately 300,000 of this model line were made.
- the Remington model 11 is a John M. Browning design, which was also manufactured by Fabrique National (FN) of Belgium as the Browning Automatic Shotgun.
- features include: plain, solid matted rib or ventilated matted rib on the barrel; solid top Browning Auto 5 type receiver/frame with right side ejection and bottom loading port; take-down; hammerless; safety located inside the trigger guard or cross bolt safety on the rear of the trigger guard; action release located on the right side of the receiver/frame; tubular magazine; front bead sight and the top of the receiver/frame is matte finish; plain or checkered forearm and straight or pistol grip butt stock.
- the design of this firearm remained the same but the model was offered in various grades such as the 11A "Standard", 11B "Special", 11C "Trap", 11D "Tournament", 11E "Expert", 11F "Premier", and 11R "Riot". These subsequent models differ in the quality of the wood and the inclusion and amount of engraving.

Manufacturer

- Remington also produced this model for "Browning" who sold it under the Browning trade name as the model "Auto-5".

Action

- recoil operated.

Serial Number

- serial number is marked on the underside of the receiver/frame, ahead of the loading port.
- serial number observed consisted of six numbers without a letter prefix or suffix.

Shots

- tubular magazine is mounted below the barrel.

Notes

Make

- "Remington" is marked on the receiver/frame.

Model

- "Model-1100" is marked on the side of the receiver/frame.
- introduced in 1963.
- plain or ventilated ribbed barrels available.
- this is a generic model. Other model "1100" entries exist which may better describe the firearm being examined.
- available in a left or right hand action.

Manufacturer

- "Remington" is marked on the receiver/frame.
- the manufacturer's name and address are marked on the barrel.

Action

- gas operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- serial number observed consist of six digits with a letter prefix and suffix, eg. "L######X".
- one observed serial number did not have a letter prefix.
- NOTE: the following patent numbers marked on the barrel are not to be confused as serial numbers: 2,645,873 - 2,675,638 - 2,719,375 - 3,200,710 - 3,201,885.
- serial number suffix letter indicates receiver/frame size as follows:
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- the calibre designation is marked on the barrel.
- 28 GA and 410 GA introduced in 1969.

Shots

- tubular magazine located under the barrel.
- the magazine may be plugged to alter the capacity to conform with hunting regulations.
- magazine extensions are available that would increase the capacity.

Notes

Make

- "Remington" is marked on the left side of the receiver/frame.

Model

- the model designation "1100 Field" is not marked on the firearm.
- "Model-1100" is marked on the left side of the receiver/frame.
- manufactured from 1963 to 1988.

Manufacturer

- "Remington" is marked on the left side of the receiver/frame.
- the manufacturer's name and address are marked on the barrel.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- serial number observed consisted of six digits with a letter prefix and suffix, eg "L######X".
- NOTE: the following patent numbers marked on the barrel are not to be confused as serial numbers: 2,645,873 - 2,675,638 - 2,719,375 - 3,200,710 - 3,201,885.
- serial number suffix letter indicates receiver/frame size as follows:
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Barrel

- plain or ventilated ribbed barrels available.

Calibre

- the calibre designation is marked on the barrel.
- the 12 GA was discontinued in 1987.
- the 16 GA ventrib was introduced in 1985.
- produced in 20 GA, 28 GA and 410 Bore X 3" on lightweight frame only from 1972.

Shots

- tubular magazine located under the barrel.
- may be plugged to 3 shot capacity for hunting.

Notes

Make

- "Remington" is marked on the left side of the receiver/frame.
- "Remington Arms Co. Inc. Ilion, N.Y. - Made in U.S.A." is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 1970.
- "Remington Model-1100 LW" is marked on the left side of the receiver/frame.
- "LW" stands for Lightweight.
- 1100 LW / 1100 Lightweight is similar to standard 1100 with the exception of smaller receiver dimensions sized to accommodate the 20 Gauge cartridge.
- features include: the furniture is made from mahogany wood to reduce weight, forearm and pistol grip stock are roll checkered, the receiver is roll engraved with a leaf motif and the metal is blued.

Manufacturer

- "Remington" is marked on the left side of the receiver/frame.
- "Remington Arms Co. Inc. Ilion, N.Y. - Made in U.S.A." is marked on the barrel.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number observed consisted of six digits with a letter prefix and suffix, eg "L######K".
- NOTE: the following patent numbers marked on the barrel are not to be confused as serial numbers: 2,645,873 - 2,675,638 - 2,719,375 - 3,200,710 - 3,201,885.
- serial number suffix letter indicates receiver/frame size as follows:
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Barrel

- vent rib.

Calibre

- calibre designation is marked on the left side of the barrel:
eg. *** 20 GA. * LW FOR 2 3/4 OR SHORTER SHELLS **

Shots

- tubular magazine is located under the barrel, inside the forearm.

Other Markings

- marked on the left side of the receiver/frame:
"Remingtom Model - 1100LW" and the serial number
- marked on the barrel:
REMINGTON ARMS CO. INC. ILION, N.Y. ---------- MADE IN U.S.A
PATENT NOS. 2,645,873 - 2,675,638 - 2,719,375 - 3,200,710 - 3,201,885
and the calibre designation.

Notes

Make

- the "Remington" trade name is marked on the firearm.

Model

- this model was originally designated "The New .22 Repeater".
- "The New .22 Pepeater" model name was not marked on the firearm.
- "MODEL 12" appeared later in the production run and was marked on the left side of the receiver/frame.
- manufactured from 1909 to 1936.
- total production of all model 12s was approximately 832,000.
- produced with a round or octagonal barrel.
- take-down pump-action repeater, with open sights.

Manufacturer

- the manufacturer's name and address are marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is stamped on the under side or left side of the receiver/frame.
- serial number range for model 12s was from 00001 to 820,759.
- the barrel may be marked with the following patent numbers or dates:
"908,883" issued January 5, 1909;
"936,806" issued October 12, 1909;
"951,657" issued March 8, 1910;
"953,797" issued April 5, 1910;
"963,171" issued July 5, 1910;
"13321" issued November 21, 1911;
"1,023,169" issued April 16, 1912;
"1,481,638" issued January 22, 1924;
"1,628,548" issued May 10, 1927; and
"1,682,704" issued April 28, 1928.

Calibre

- calibre designation may also read: 22 Rem Spl on left side of barrel; this calibre is identical to 22 WRF.

Shots

- fixed under barrel tube magazine.

Notes

Make

- "Remington" is a trade name/mark of the "Remington Arms Company, Inc.".
- "Remington Arms Company, Inc." is marked on the left side of the barrel.

Model

- "Sportsman 12 Pump" and "Magnum" are marked on the left side of the receiver/frame.
- manufactured from 1984 to 1986.
- features include: ventilated rib barrel; solid receiver/frame with side ejection port and bottom loading port; slide action; takedown; cross bolt safety; checkered forearm and pistol grip buttstock with recoil pad.

Manufacturer

- the manufacturer's name and address are marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number observed was marked on the left side of the receiver/frame. - serial number observed had a letter "W" prefix followed by six numbers with a letter "M" suffix.
Calibre	- gauge and chamber length are marked on the barrel.
Shots	- tubular magazine is mounted under the barrel.
Canadian Law Comments	- this firearm is normally Non-Restricted unless affected by the following conditions: 1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada. - "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands. 2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada. 3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada. - "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted, (i) is less than 660 mm in length, or (ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "Remington" is usually marked on the receiver/frame and/or barrel.
- this firearm will be found with either of two variations of Remington marking on the top of the barrel:

- 1) "REMINGTON ARMS CO., INC., REMINGTON ILION WORKS, ILION, N.Y.
  MADE IN U.S.A. PATENTS 1,461,638 - 1,628,548 - 1,682,704".

- 2) "REMINGTON ARMS CO., INC., ILION, N.Y., MADE IN U.S.A.
  PATENTS 1,461,638 - 1,628,548 - 1,682,704".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1936 to 1954.
- 557 units were manufactured.
- "121SB Fieldmaster" is a "smooth-bore" version of the Fieldmaster Model 121 rifle.
- "THE FIELDMASTER" over "MODEL 121" is marked on the left side of the receiver/frame as, .
- "SB" in the model designation denotes "Smooth Bore"
- "121SB Fieldmaster" series can be determined by the calibre marking on the left side of the barrel; five different markings are known;
- 1) SMOOTH BORE,
- 2) .22 CAL. SMOOTH BORE,
- 3) .22 CAL. MO-SKEET-0 BORE,
- 4) ROUTLEDGE BORE FOR .22 LONG RIFLE SHOT CARTRIDGE,
- 5) .22 SKEETRAP.
- manufactured from 1936 to 1954.
- "121SB Fieldmaster" line featured the "Routledge Bore" configuration which meant that the .22 calibre smooth bore was bored out to 0.40 inches for the last twelve to thirtheen and one-half inches; it is also known that some of the SB models had .22 smooth bore barrels for the entire length of the barrel.
- "121SB Fielmaster" is a takedown, pump action long arm with an under-barrel tubular magazine.
- features include: bead front and no rear sight; tapered round smoothbore barrel; flat sided receiver/frame with right side ejection; hammerless; cross bolt safety is mounted on the rear of the trigger guard; take down screw is mounted on the left side of the receiver/frame; walnut forearm with vertically grooves and a semi-pistol grip buttstock; blued finish.
- overall length is 1041 mm (41").

Manufacturer

- "Remington" is usually marked on the receiver/frame and/or barrel.
- this firearm will be found with either of two variations of Remington marking on the top of the barrel:

- 1) "REMINGTON ARMS CO., INC., REMINGTON ILION WORKS, ILION, N.Y.
  MADE IN U.S.A. PATENTS 1,461,638 - 1,628,548 - 1,682,704".

- 2) "REMINGTON ARMS CO., INC., ILION, N.Y., MADE IN U.S.A.
  PATENTS 1,461,638 - 1,628,548 - 1,682,704".

Type

- this firearm resembles a traditional pump action rifle.

Serial Number

- serial number is usually marked on the left side of the receiver/frame.
- serial numbers are numeric only without prefix or suffix.
- observed serial number consisted of five numbers "34368".

Calibre

- ".22 CAL. SMOOTH BORE" may be marked on the left side of the barrel.

Shots

- tubular magazine is mounted under the barrel.
- magazine will hold the following number of cartridges: 20 = 22 SHORT, 15 = 22 LONG or 14 = 22 LR.

Other Markings

- smooth bore models are usually marked " 22 CAL.MO-SKEET-O BORE".

Notes

Make

- "Remington" is usually marked on the barrel.

Model

- developed by John D. Pedersen who had entered into a business relationship with Remington after he was issued patents for a repeating shotgun. In 1907 Mr. Pedersen began work on a design that would be introduced in 1909 as Remington's "New .22 Repeater". The resulting design would be awarded further patents in 1910 and 1911. Pedersen's design was further improved by Crawford Loomis and G.H. Garrison.
- this design was later re-designated as the model "12". Production of this design, including all variants of the model "12" continued to 1936 with a total of approximately 832,000 examples.
- this design was intended for use with calibre 22 SHORT, 22 LONG or 22 LR ammunition.
- features of the "22 Repeater" include: take-down design with a large, knurled screw on the left side of the receiver/frame; blued finish on metalwork; walnut, straight grip buttstock and forend; action release mounted on the underside of the trigger housing; cross-bolt safety mounted on the rear of the trigger guard; barrel mounted sights.
- variations of the design include the basic model 12 and the following;
- 12A: same as the basic model 12 with a round barrel and straight grip stock.
- 12B: also known as the model 12B Gallery Special. Introduced in 1910, calibre 22 SHORT only with a 610mm octagonal barrel, pistol grip stock and an optional extended magazine that held 25 cartridges.
- 12C: calibre 22 LR, introduced in 1910 with a 610mm octagonal barrel and straight grip stock. A pistol grip stock was later added.
- 12C NRA Target: introduced in 1923, chambered for 22 LR only, fitted with a sling, a Lyman tang rear sight and a globe front sight.
- Remington also offered the model 12 in "CS", "DS", "ES" and "FS" grades in calibre 22 WRF (also known as 22 REMINGTON SPECIAL) with increasing levels of finish and embellishment. A "12D Peerless", "12E Expert Grade" and "12F Premier Grade" were also catalogued in calibre 22 LR with increased levels of finish and embellishment.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "Remington" is usually marked on the barrel.

Serial Number

- serial number is stamped on the underside or left side of the receiver/frame.
- serial number range for model 12s was from 00001 to 820,759.
- the barrel may be marked with the following patent numbers or dates:
"908,883" issued January 5, 1909;
"936,806" issued October 12, 1909;
"951,657" issued March 8, 1910;

Notes

Model

- manufactured from 1909 to 1936.

Serial Number

- serial number is stamped on the under side or left side of the receiver/frame.
- serial number range for model 12s was from 00001 to 820,759.
- the barrel may be marked with the following patent numbers or dates:
"908,883" issued January 5, 1909;
"936,806" issued October 12, 1909;
"951,657" issued March 8, 1910;
"953,797" issued April 5, 1910;
"963,171" issued July 5, 1910;
"13321" issued November 21, 1911;
"1,023,169" issued April 16, 1912;
"1,481,638" issued January 22, 1924;
"1,628,548" issued May 10, 1927; and
"1,682,704" issued April 28, 1928.

Calibre

- 22WRF denotes a 22 caliber cartridge, having a slightly larger diameter and longer casing than 22LR; thus will not function with 22LR ammunition: it is usually known as the 22 Winchester Rim Fire cartridge, and also reffered to as the 22 Remington Special at one time.

Shots

- fixed underbarrel tube magazine.

Notes

Make

- "REMINGTON" over "UMC" over "TRADEMARK" is marked on the lower tang of the receiver/frame.
- "REMINGTON ARMS - UNION METALLIC CARTRIDGE CO.," over "REMINGTON WORKS, ILION, N.Y. U.S.A. PEDERSEN'S PAT'S," over "OCT. 12, 09, JUL, 5, 10, NOV. 19, 12, AUG, 26, 13, SEP. 9, 13" is marked on the barrel.
- "Remington" over "TRADE MARK" is marked on the left side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured between 1912 and 1935.
- "MODEL 14" may be marked on the barrel or left side of the receiver/frame, earlier firearms may not be marked.
- this is a pump action, take-down rifle.
- features include: blade front sight and an adjustable rear sight; round, rifled barrel; round twisted magazine tube with the loading port located on the underside at the receiver/frame end; flat sided, solid top receiver/frame with anti-glare groove, right side ejection and left side take-down screw; cross bolt safety is mounted on the rear of the trigger guard; walnut grooved forearm and straight or semi-pistol grip buttstock; blued finish.
- "14" model was available in several grades, "A" denoted the "Standard Grade" with a minimum of embellishments, "C" denoted the "Special Grade", "D" denoted the "Peerless Grade", "E" denoted "Expert grade" and "F" denoted "Premier Grade".
- "14" model was also available in a "carbine" version.

Manufacturer

- "REMINGTON" over "UMC" over "TRADEMARK" is marked on the lower tang of the receiver/frame.
- "REMINGTON ARMS - UNION METALLIC CARTRIDGE CO.," over "REMINGTON WORKS, ILION, N.Y. U.S.A. PEDERSEN'S PAT'S," over "OCT. 12, 09, JUL, 5, 10, NOV. 19, 12, AUG, 26, 13, SEP. 9, 13" is marked on the barrel.
- "Remington" over "TRADE MARK" is marked on the left side of the barrel.

Serial Number

- serial number is marked on the underside or on the left side of the receiver/frame.
- serial number range for the model 14 and 14 1/2s was from 00001 to 126,000.
- grade letter "A" for standard grade, "C" for special grade, "D" for Peerless grade and "F" for Premier grade may be marked above the serial number.
- barrel may be marked with the following patent numbers or dates:

"936,807" issued October 12, 1909;
"963,171" issued July 5, 1910;
"1,043,354" issued November 5, 1912;
"1,044,568" issued November 19, 1912;
"1,071,173" issued August 26, 1913, and
"1,072,982" issued September 9, 1913.

Calibre

- calibre is marked on the left side of the barrel and on the receiver/frame.

Shots

- tubular magazine is mounted under the barrel.

Other Markings

- "PEDERSEN'S PATS. OCT.12.03, JUL.5.10, NOV.19.12, AUG.26.13, SEP.9.13" may be marked on the top of the barrel.

Notes

Make

- "REMINGTON" is marked on the barrel/receiver/frame.

Model

- model designation is not marked on the rifle.
- "ER1816" is marked on the barrel/receiver/frame.
- "ER1816" is also the serial number prefix.
- this flintlock rifle is to commemorated Eliphalet Remington II first gun built in 1816.
- this is a modern reproduction of New York State rifles produced in the early 1800's.
- approximately 5,000 of these rifles were distributed by the Remington Custom Shop in 1995.
- features include: blade front sight and a open V-leaf rear sight; octagonal, rifled barrel/receiver/frame with a ramrod mounted on the underside; right side lock plate; Ketland type flint lock ignition; set trigger; one piece full length curly maple stock; rust browned barrel/receiver/frame and lock; brass engraved escutcheons, fittings, trigger guard, patchbox, and crescent buttplate.

Manufacturer

- "REMINGTON" is marked on the barrel/receiver/frame.

Action

- muzzle loading.

Serial Number

- serial number is marked on the barrel/receiver/frame.
- serial number observed consisted of a "ER1816" prefix, a dash (-) and four numbers, eg. "ER1816-0XXX".

Calibre

- "50 Cal" is marked on the barrel/receiver/frame.

26167 - 3	44-40 WIN	6	203	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Remington" is marked on the top of the barrel.

Model

- "PATENTED DEC. 17, 1861" is marked on the top of the barrel.
- manufactured from 1862 to 1863
- approximately 2,000 to 12,000 were manufactured.
- may also be known as "Old Army Model".
- this is a single action, percussion, solid frame revolver with loading lever located under the barrel.
- distinguishing feature of this model is the channel 'cut-out' in the rammer lever which leaves a noticeable space between the lever and the barrel; this space allowed the base pin to be withdrawn without unlatching the lever rammer.(Wm. H.Elliot's patent No. 33,932 dated Dec. 17, 1861)
- features include: blued finish, octagonal barrel, case hardened high spur hammer, brass oval shaped trigger guard, German silver cone front sight, notch rear sight.
- early production pieces utilized the Beals type frame which concealed the barrel threads at the the breech; later production models used the exposed barrel thread type frame.
- conversion to 44 Rimfire or 44 Central Fire cartridges may be encountered with this model.

Manufacturer

- "Manufactured by Remington's, Ilion, N. Y." is marked on the top of the barrel.

Serial Number

- the serial number is marked on the underside of the barrel and on the side of the grip frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - barrel marked "Patented Dec 17, 1861. Manufactured by Remington's, Ilion NY".

72671 - 1	58 PERCUSSION	1	838	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- an American eagle over "U.S.", "Remington's" over "Ilion, N.Y.", and a date between 1861 and 1866 (with the most common encountered being 1863) may be marked on the lock plate. The rear of the barrel may be marked "Steel" and an inspector's mark.

Model

- manufactured between 1861 and 1866.
- this is one of the most widely-used long arms of the Civil War, a rifled percussion muzzle-loader known as the "Zouave", or "Harper's Ferry Pattern".
- the initial U.S. government contract of 1861 was for 10,000 rifles and was later increased by 2,500 rifles with the bulk of production occurring in 1863.
- these rifles were manufactured initially with 5 groove rifling (changed to 3 groove rifling midway through production).
- features include: blued round barrel; a three leaf rear sight; colour-case-hardened lock; walnut straight-grip stock based on the Harpers Ferry M1855 pattern with brass nose cap, barrel bands, two piece trigger guard and brass box inset on the right side for spare nipple, ball screw or screwdriver storage and a "tulip-head", cupped ramrod.
- the lock plate may be marked with an American eagle over "U.S.", "Remington's" over "Ilion, N.Y.", and the date "1861" or "1862" or "1863" or "1864". The rear of the barrel may also be marked "Steel" and an inspector's mark.
- Do not confuse this model with the Remington Contract U.S. model 1841 rifle as some were adapted circa 1861 to take the same "zouave" saber bayonet and have a longer patch box and integral forend cap, barrel band and sling swivel.

Manufacturer

- an American eagle over "U.S." and "Remington's" over "Ilion, N.Y." is marked on the lock plate.

Action

- muzzle loading.

Serial Number

- "1861", "1862", "1863", "1864", "1865" or "1866" may be marked on the barrel, this is the year of manufacture.

Model

- manufactured from 1866 to 1870 with approximately 6500 units produced.
- these pistols were Remington's first "Rolling Block" design, and can be identified by the lack of a trigger-guard (all 1865 Navy Rolling Block pistols had spur triggers; later models had trigger-guards with conventional triggers).
- walnut grip panels and forearm
- "Pat. May 3d Nov. 15th, 1864, April 17th, 1866" is marked on the left side of the receiver/frame.
- martial versions of this pistol will have inspectors marks ("P" or "PCW") on the right side of the receiver/frame.
- some of these pistols were later converted to fire center-fire cartridges, with the breech-block and firing-pin adapted to center-fire pattern.

Manufacturer

- "Remingtons, Ilion, N. Y. U.S.A." is marked on the left side of the receiver/frame.

Action

- rolling-block mechanism.

Serial Number

- serial number is usually on the top grip strap, under the grip panels, and could be repeated on the barrel, or on the bottom grip strap, or any number that can be found on the receiver/frame.
- serial number observed with three or four digit numbers without a letter prefix or suffix.

Notes

Make

- "REMINGTON" is not marked on the firearm.

Model

- "M-1867" is marked on the left side of the receiver/frame.
- manufactured from 1870 to 1890.
- total production of 5200 units.
- the "1867" is a "Remington No. 1 Rolling Block" manufactured for the military.
- features include: round barrel; rolling block action, which is locked by shoulders on the hammer body engaging the underside of the radial breech block; exposed hammer; ramp and leaf rear sight; two piece stock with short forend held by a single barrel band and straight wrist butt stock.
- the model "1867" was converted to use centrefire ammunition starting in 1897, this modifications was designated the model "1867/96.

Manufacturer

- "KJOBENHAVNS TOIHUUS" and year of manufacture is marked on the top tang of the receiver/frame.
- "Danish State Arsenal, Copenhagen" manufactured rolling block firearms under permission from "Remington".

Serial Number

- serial number is marked on the left side of the chamber of the barrel.

Calibre

- this firearm was originally manufactured as a rimfire, many were converted to centrefire and are designated the model "1867/96".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this military carbine was adopted by the Kingdom of Denmark in 1867 and is mechanically identical to the Model 1867 Rifle. The carbine differs only in barrel length and having a half stocked forearm. The firearm utilises the Remington No 1 Rolling Block action and the initial arms were purchased from the Remington Arms Company in the U.S.A. Subsequently Denmark acquired the manufacturing rights and produced their own rifles.

Notes

Make

- the make is not marked on the firearm.

Model

- model designation is not marked on the firearm.
- 1867 Swedish/Norweigan Infantry Rifle was adopted by Norway and Sweden in 1867 and utilizes the Remington Rolling Block Number 1 action.
- features include: round barrel; action is locked by shoulders on the hammer body engaging the underside of the radial breech block; exposed hammer; ramp and leaf rear sight; blonde, two piece stock with forend held by three barrel bands and a straight wrist butt stock.
- beginning in 1889 many examples of this model of rifle were converted by the Swedish Government to the 8 X 58R Danish Krag center-fire cartridge.

Manufacturer

- manufacturer's full name is not marked on the firearm.
- a crown over a "C" or "CGS" is usually found on the right side of the receiver/frame.
- total production of the 1867 Infantry Rifle at the Carl Gustafs Gevarsfactori is estimated between 100 000 - 120 000 units.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- rolling block action.
Serial Number	- serial number is usually marked on the left side of the receiver/frame. - observed serial number consisted of five digits without a letter prefix or suffix.
Other Markings	- the year of manufacture is usually marked on the right side of the receiver/frame and the underside of the barrel.

Notes

Make

- the make is not marked on the firearm.

Model

- model designation is not marked on the firearm.
- this military rifle was adopted by Norway and Sweden in 1867 and utilizes the Remington Rolling Block action manufactured under license in Sweden.
- features include: round barrel; action is locked by shoulders on the hammer body engaging the underside of the radial breech block; exposed hammer; ramp and leaf rear sight; blonde, two piece stock with forend held by three barrel bands and a straight wrist butt stock.

Manufacturer

- the manufacturer's name appears on most parts as the letter "H".
- the letter "H" over the year of manufacture is normally marked on the right side of the receiver/frame.

Action

- rolling block action.

Serial Number

- observed serial number consisted of five digits.

29035 - 2	8X58R DANISH KRAG	1	760	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- the make does not appear on the firearm.
Model	- "M-1867/96" is marked on the left side of the receiver/frame. - manufactured from 1870 to 1890. - this is a model "1867" that has been converted to use centrefire ammunition. - the "1867" is a "Remington No. 1 Rolling Block" manufactured for the military. - modifications were carried out from 1897 to 1908.
Manufacturer	- "KJOBENHAVNS TOIHUUS" and year of manufacture is marked on the top tang of the receiver/frame. - "Danish State Arsenal, Copenhagen" manufactured rolling block firearms under permission from "Remington".
Action	- rolling block design.
Serial Number	- serial number is marked on the left side of the chamber end of the barrel.
Calibre	- this is a centre fire cartridge, as originally manufactured this rifle was chambered for a rim fire 11.7X42R cartridge (see REMARKS).
Other Markings	- small inspector's stamps in the form of "crowns" are marked on various parts.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this military carbine was adopted by the Kingdom of Denmark in 1867 and is mechanically identical to the model 1867 Rifle differing only in barrel length in having a half stocked forearm. It utilizes the Remington Rolling Block action with initial arms being purchased from the Remington Arms Company in the U.S.A. Subsequently, Denmark purchased the manufacturing rights and produced their own rifles. In 1896 the Danish government had all surviving Model 1867 Carbines re-chambered from the original 11.7X42R rimfire cartridge to 11.7X51R centrefire (converted carbines were designated Model 1867/96). Danish military "Rolling Block" carbines are readily identifiable by the presence of a brass marking stud on the right side of the buttstock.

Make: Remington
Model: 1867/96 Danish Rifle

Summary

Make:	Remington
Model:	1867/96 Danish Rifle
Manufacturer:	Remington
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2097 - 1	11.7X51R DANISH	1	907	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Remington" is marked on the upper tang of the receiver/frame.

Model

- the model designation is not marked on the firearm.
- adopted by the Kingdom of Denmark in 1867.
- initial arms were purchased from the Remington Arms Company in the U.S.A. and later Denmark purchased the manufacturing rights and produced their own rifles. In 1896 the Danish government had all surviving Model 1867 Rifles rechambered from the original 11.7X42R rimfire cartridge to the 11.7X51R centrefire cartridge(converted rifles were designated Model 1867/96). Danish military "Rolling Block" rifles are readily identifiable by the presence of a brass disc located on the right side of the buttstock.

Manufacturer

- "Remington" is marked on the upper tang of the receiver/frame.

Action

- rolling block design.

Serial Number

- as manufactured by Remington these rifles had no serial numbers.

Notes

Make

- "E. REMINGTON & SONS, ILION, N.Y. U.S.A" or "REMINGTON'S ILION, N.Y. U.S.A." is marked on the upper tang of the receiver/frame.

Model

- the model designation is not marked on the firearm.
- the 1870 Egyptian Carbine and Rifle was manufactured in the United States of America for the Egyptian government.
- the Egyptian government place a large order with Remington for a No. 1 military model in 1868.
- the original Egyptian Rolling Block No. 1 military rifles were sold to France during the Franco-Prussian War.
- Remington completed delivery of 60,000 carbines and rifles in 1876.
- features include: round barrel; post front sight and a ladder rear sight graduated in Arabic characters; bayonet guide and lug mounted on the right side of the barrel at the muzzle; steel forend cap and two barrel bands; rolling block action; half cock safety; three quarter length forearm and straight grip buttstock with steel butt plate; sling swivels; steel cleaning rod mounted beneath the barrel.

Manufacturer

- No. 1 military model upper tang markings between 1868 and 1872:
"REMINGTON'S ILION, N.Y. U.S.A." and "PAT. MAY 3rd, NOV. 15th, 1864, APRIL 17th, 1866"
- No. 1 model upper tang markings after 1872:
"E. REMINGTON & SONS, ILION, N.Y. U.S.A", "PAT, MAY 30 1864, MAY 7th, JUNE 11th, NOV 12th, DEC 24th" and "DEC 31st 1872, SEP 9th 1873, Jan 12th, MARCH 18th 1874" or
"REMINGTON'S ILION, N.Y. U.S.A.", "PAT, MAY 30 1864, MAY 7th, JUNE 11th, NOV 12th, DEC 24th" and "DEC 31st 1872, SEP 9th 1873, Jan 12th, MARCH 18th 1874".

Action

- rolling block action.

Serial Number

- this model does not have a serial number.
- a casting or lot numbers may be marked on the sides of the upper and lower tangs beneath the buttstock wood.

Notes

Make

- "E. REMINGTON & SONS, ILION, N.Y. U.S.A" or "REMINGTON'S ILION, N.Y. U.S.A." is marked on the upper tang of the receiver/frame.

Model

- the model designation is not marked on the firearm.
- the 1870 Egyptian Carbine and Rifle was manufactured in the United States of America for the Egyptian government.
- the Egyptian government place a large order with Remington for a No. 1 military model in 1868.
- the original Egyptian Rolling Block No. 1 military rifles were sold to France during the Franco-Prussian War.
- Remington completed delivery of 60,000 carbines and rifles in 1876.
- features include: round barrel; post front sight and a ladder rear sight graduated in Arabic characters; bayonet guide and lug mounted on the right side of the barrel at the muzzle; steel forend cap and three barrel bands; rolling block action; half cock safety; full length forearm and straight grip buttstock with steel butt plate; sling swivels; steel cleaning rod mounted beneath the barrel.

Manufacturer

- "E. REMINGTON & SONS, ILION, N.Y. U.S.A" or "REMINGTON'S ILION, N.Y. U.S.A." is marked on the upper tang of the receiver/frame.

Action

- rolling block action.

Serial Number

- this model does not have a serial number.
- a casting or lot numbers may be marked on the sides of the upper and lower tangs beneath the buttstock wood.

Other Markings

- the left side of the receiver/frame bears the marking "EP" and a crescent.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- This is a military-style rifle adopted by Egypt in 1868. It utilises the Remington Rolling Block action and has three barrel bands making it appear virtually identical in appearance to other foreign contract Rolling Block military rifles. A chamber cast to determine the calibre and hence, the model, is the most certain means of identification.

Notes

Make

- "Remington" is marked on the upper tang of the receiver/frame.

Model

- model designation is not marked on the firearm.
- patent dates are marked on the upper tang.
- marked on top of the barrel: "R. DE MEXICO" or "RM".
- manufactured in 1871.
- about 1000 carbines were purchased by the Mexican government in 1877.
- features include: round barrel; manually operated rolling block action; exposed spur hammer; saddle ring mounted on the left side of the receiver/frame; barleycorn front sight; adjustable leaf/quadrant rear sight; forend is held on by one barrel band; straight buttstock.

Note: this carbine had a convertible firing pin system, which allowed it to fire the centrefire 50-70 GOVT or the rimfire 56-50 SPENCER RF cartridges. The breech block has a vertical slot in its face which allows the use of two firing pins.

Manufacturer

- "Remington's Ilion, NY USA" or "E. Remington & Sons. Ilion. N.Y. U.S.A." or "Remington Arms Company, Ilion, N.Y." is marked on the upper tang of the receiver/frame.

Serial Number

- firearm does not have a serial number.
- the number located on top of the barrel is a Mexican government issue number and not a serial number.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- make is not marked on the firearm; the make is determined by the characteristics of the patented Remington rolling block action.

Model

- model designation is not marked on this firearm.
- this carbine version of the Swedish military rolling block rifle was either converted from the Model 1867 rifle or newly manufactured by various Swedish State Arsenals; this model was adopted in 1885 by the Swedish military.
- features include: barrel shortened to 460mm; barrel held by a single barrel band; new sights were fitted graduated from 250 to 800 metres; cleaning rod is secured under the barrel at the muzzle end; brass butt plate; a unit marking disc of pewter was usually inlet into the left side of the buttstock, in many cases this disc is either absent or unmarked; case hardened receiver/frame; blued barrel.
- this carbine was for issue to artillery troops but it was also issued to infantry pioneer/combat engineer units as well.
- the arsenal markings will be found on the top rear of the barrel or on the left side of the receiver/frame; the arsenal mark consists of either one or two capital letter(s) surmounted by the Swedish Crown. The right side of the receiver/frame will also bear the date of original manufacture. The top rear of the barrel will also bear two sets of inspector's markings each consisting of two or three capital letters representing the inspector's initials, e.g. "J.P." and "J.G.".

Manufacturer

- firearm is marked with the arsenal symbol comprised of the Swedish Crown over the letter "C"; this mark may also be found on the top rear of the barrel immediately in front of the receiver ring or on the right side of the receiver/frame.
- date of original manufacture is also marked on the right side of the receiver/frame.
- the Carl Gustafs Stads Gevarsfaktori was established in 1813.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- rolling block action.
Serial Number	- serial number is usually marked on the left side of the receiver/frame, left rear side of the barrel and may be repeated on the top tang of the buttplate. - observed examples have had three and four numbers without prefix or suffix.
Other Markings	- these firearms usually have two sets of inspector's markings on the top rear of the barrel directly in front of the receiver ring. - observed example was marked with the arsenal code of Crown over "C" on the right side of the receiver/frame above the date "1869"; the two inspectors marks "J.P." on the left and "J.G." on the right were marked on the top rear of the barrel directly in front of the receiver ring. - Note: inspector markings will vary by date and arsenal/manufacturing facility location.

Notes

Make

- make is not marked on the firearm; the make is determined by the characteristics of the patented Remington rolling block action.

Model

- model designation is not marked on this firearm.
- this carbine version of the Swedish military rolling block rifle was either converted from the Model 1867 rifle or newly manufactured by various Swedish State Arsenals; this model was adopted in 1885 by the Swedish military.
- features include: barrel shortened to 460mm; barrel held by a single barrel band; new sights were fitted graduated from 250 to 800 metres; cleaning rod is secured under the barrel at the muzzle end; brass buttplate; a unit marking disc of pewter was usually inlet into the left side of the buttstock, in many cases this disc is either absent or unmarked; case hardened receiver/frame; blued barrel.
- this carbine was for issue to artillery troops but it was also issued to infantry pioneer/combat engineer units as well.
- the arsenal markings will be found on the top rear of the barrel or on the left side of the receiver/frame; the arsenal mark consists of either one or two capital letter(s) surmounted by the Swedish Crown. The right side of the receiver/frame will also bear the date of original manufacture. The top rear of the barrel will also bear two sets of inspector's markings each consisting of two or three capital letters representing the inspector's initials, e.g. "A.v.V." and "C.F.".

Manufacturer

- firearm is marked with the arsenal symbol comprised of the Swedish Crown over the letter "H"; this mark may also be found on the top rear of the barrel immediately in front of the receiver ring or on the right side of the receiver/frame.
- date of original manufacture is also marked on the right side of the receiver/frame.
- the Husqvarna Arms Factory was founded in 1689; firearms were produced by Husqvarna until the early 1970's.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- rolling block action.
Serial Number	- serial number is usually marked on the left side of the receiver/frame, left rear side of the barrel and may be repeated on the top tang of the buttplate. - observed examples have had three and four numbers without prefix or suffix.
Other Markings	- these firearms usually have two sets of inspector's markings on the top rear of the barrel directly in front of the receiver ring. - observed example was marked with the arsenal code of Crown over "H" on the top rear of the barrel; the two inspectors marks "A.v.V." on the left and "C.F." on the right were marked on the top rear of the barrel directly in front of the receiver ring. - Note: inspector markings will vary by date and arsenal/manufacturing facility location.

Notes

Make

- "REMINGTON ARMS CO." is marked on the firearm.

Model

- manufactured from 1893 to 1902.
- total production of approximately 25,000 units.
- this is the first modern "hammerless" shotgun produced by Remington.
- Remington's earlier single-shot shotguns (the REMINGTON-RIDER, No 1 and No 2) used the "rolling block" action.
- in 1903, this shotgun was replaced by the Model "1902 No 9" single barrel shotgun.
- features include: round barrel, front hinged receiver/frame, action opens by a tip-down barrel, top tang mounted break open lever, internal hammer that is cocked by an external lever on the left side of the receiver/frame, walnut forearm with push-button release, pistol-grip butt stock with hard rubber buttplate showing the Remington logo, blued barrel and color-case-hardened receiver/frame.

Manufacturer

- "REMINGTON ARMS CO. ILION, N.Y. U.S.A." is marked on the firearm.

Action

- front hinged, tip-down barrel, top lever, break action, single shot shotgun.

Serial Number

- serial number is marked on the receiver/frame.
- serial number rationalization unknown.
- specimen serial number observed consisted of five digits without prefix or suffix.

Notes

Model

- manufactured from 1894 to 1910.
- approximately 41,200 manufactured.
- features include: round side by side smoothbore barrels with a bead front sight; front hinged receiver/frame with a top tang mounted break open lever and safety; box lock action; hammerless; double triggers; checkered wood forearm and semi-pistol grip buttstock.

Manufacturer

- E. Remington and Sons.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number is found on the water table, it is also repeated on the underside of the barrel assembly, forend iron and trigger guard tang. Some examples are known to have a letter "P" preceding the serial number. The letter "P" is a Remington inventory symbol assigned to the model 1894 shotgun.
- serial number for the model 1894 (all grades) started at 100,000 and continued to number 141,194 which was shipped in 1910. Complete yearly breakdown is as follows;
- 1894; range from 100,000 to 100,660
- 1895; range from 100,661 to 103,106
- 1896; range from 103,107 to 104,144
- 1897; range from 104,145 to 106,916
- 1898; range from 106,917 to 110,895
- 1899, range from 110,896 to 116,139
- 1900; range from 116,140 to 120,932
- 1901; range from 120,933 to 123,913
- 1902; range from 123,914 to 127,017
- 1903; range from 127,018 to 129,349
- 1904; range from 129,350 to 131,263
- 1905; range from 131,264 to 133,042
- 1906; range from 133,043 to 134,627
- 1907; range from 134,628 to 136,292
- 1908; range from 136,293 to 137,319
- 1909; range from 137,320 to 137,988
- 1910; range from 137,989 to 141,194
- the serial number range is one of the unique identifiers of the model 1894. Remington's model 1900 shotgun, which is often confused with the model 1894 had a serial number range of 300,000 to 398,508.

Barrel

- the barrels were offered in Damascus(or twist) steel or decarbonized steel.

Other Markings

- Manufacturer name and address on top of rib writen as ' REMINGTON ARMS CO. ILLION, N.Y. U.S.A.' . This model has the grade number stamped on the watertable (near the serial number).

Notes

Make - the Remington name will usually be marked on the receiver/frame and/or barrels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the full model designation is not marked on the firearm. The grade designation is usually stamped on the water table on the opposite side of the serial number (examples in all grades have been noted without a grade marking).
- Remington introduced their first "Hammerless Double Barrel Shotgun" in the 1894 catalogue. This new design was advertised in several grades and is commonly referred to as the model "1894". The 1894 catalogue offered the following variations with all guns being available without the automatic ejectors (signified by the second letter, "E", in the grade designation) for a slightly lower cost;
- Grade A or A.E.; two stripe Damascus barrels, plain finish, English Walnut stock.
- Grade B or B.E.; fine three stripe Damascus barrels, line engraving, fine English walnut stock.
- Grade C or C.E.; finer Damascus barrels, scroll engraving, selected English walnut stock and finer checkering, silver name plate.
- Grade D or D.E.; very fine Damascus barrels, fine scroll engraving, fine English walnut stock and checkering, silver name plate.
- Grade E or E.E.; finest Damascus barrels, finest quality bird and game engraving, best English walnut stock, checkered sides, gold name plate.
- the model 1894 Grade A, also known as the "Field Grade" was the most common version of the model 1894.
- in late 1896, a supplementary catalogue, published by Hartley & Graham makes mention of the first model 1894 with a "Remington" steel barrel. In 1897 Remington introduced "ordnance" steel barrels for the model 1894.
- the model 1894 was originally produced in 12 gauge and 10 gauge with 16 gauge being introduced to the model 1894 in late 1897.
- other features include: half pistol grip buttstock; case-hardened receiver/frame; top tang mounted opening lever and safety catch; double triggers; "Purdy" style, push button forend release.

Manufacturer

- the Remington name will usually be marked on the receiver/frame and/or barrels. On Grade A and B firearms the Remington name is stamped, all higher grade firearms had the Remington name engraved on the receiver/frame sides.
- there are a few known examples of the model 1900 and 1894 that look like they are marked "REMINGTON ARMS OC.". This is due to a die stamp with a piece broken out of the "O" so that it looks like a "C", when examined carefully the first "O" is actually a "C" that has been heavily stamped and as a result it appears at first glance to be an "O".

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number is found on the water table, it is also repeated on the underside of the barrel assembly, forend iron and trigger guard tang. Some examples are known to have a letter "P" preceding the serial number. The letter "P" is a Remington inventory symbol assigned to the model 1894 shotgun.
- serial number for the model 1894 (all grades) started at 100,000 and continued to number 141,194 which was shipped in 1910. Complete yearly breakdown is as follows;
- 1894; range from 100,000 to 100,660
- 1895; range from 100,661 to 103,106
- 1896; range from 103,107 to 104,144
- 1897; range from 104,145 to 106,916
- 1898; range from 106,917 to 110,895
- 1899, range from 110,896 to 116,139
- 1900; range from 116,140 to 120,932
- 1901; range from 120,933 to 123,913
- 1902; range from 123,914 to 127,017
- 1903; range from 127,018 to 129,349
- 1904; range from 129,350 to 131,263
- 1905; range from 131,264 to 133,042
- 1906; range from 133,043 to 134,627
- 1907; range from 134,628 to 136,292
- 1908; range from 136,293 to 137,319
- 1909; range from 137,320 to 137,988
- 1910; range from 137,989 to 141,194
- the serial number range is one of the unique identifiers of the model 1894. Remington's model 1900 shotgun, which is often confused with the model 1894 had a serial number range of 300,000 to 398,508.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- Remington stamped a variety of letters and numbers on the underside of the barrels used on model 1889, 1894 and 1900 shotguns. While not a complete list, the following are believed to be accurate interpretations of some of these markings;
- numbers 1,2 and 3; used on model 1889 to denote grade
- A; model 1894 Grade A
- B; model 1894 Grade B
- C; model 1894 Grade C
- D; model 1894 Grade D
- E; automatic ejectors
- EE; model 1894 Grade E with automatic ejectors
- P; believed to indicate Remington "proof"
- ///: possibly indicates the choke of the barrel
- R; barrels of "Remington" steel
- O; barrels of "Ordnance" steel
- K; grade stamp on model 1900
- D; usually found on model 1900, barrels of "Damascus" steel

Notes

Make - the Remington name will usually be marked on the receiver/frame and/or barrels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the full model designation is not marked on the firearm. The grade designation is usually stamped on the water table on the opposite side of the serial number (examples in all grades have been noted without a grade marking).
- Remington introduced their first "Hammerless Double Barrel Shotgun" in the 1894 catalogue. This new design was advertised in several grades and is commonly referred to as the model "1894". The 1894 catalogue offered the following variations with all guns being available without the automatic ejectors (signified by the second letter, "E", in the grade designation) for a slightly lower cost;
- Grade A or A.E.; two stripe Damascus barrels, plain finish, English Walnut stock.
- Grade B or B.E.; fine three stripe Damascus barrels, line engraving, fine English walnut stock.
- Grade C or C.E.; finer Damascus barrels, scroll engraving, selected English walnut stock and finer checkering, silver name plate.
- Grade D or D.E.; very fine Damascus barrels, fine scroll engraving, fine English walnut stock and checkering, silver name plate.
- Grade E or E.E.; finest Damascus barrels, finest quality bird and game engraving, best English walnut stock, checkered sides, gold name plate.
- the model 1894 Grade A, also known as the "Field Grade" was the most common version of the model 1894. The "B" grade guns are far less common.
- in late 1896, a supplementary catalogue, published by Hartley & Graham makes mention of the first model 1894 with a "Remington" steel barrel. In 1897 Remington introduced "ordnance" steel barrels for the model 1894.
- the model 1894 was originally produced in 12 gauge and 10 gauge with 16 gauge being introduced to the model 1894 in late 1897.
- other features include: half pistol grip buttstock; case-hardened receiver/frame; top tang mounted opening lever and safety catch; double triggers; "Purdy" style, push button forend release.

Manufacturer

- the Remington name will usually be marked on the receiver/frame and/or barrels. On Grade A and B firearms the Remington name is stamped, all higher grade firearms had the Remington name engraved on the receiver/frame sides.
- there are a few known examples of the model 1900 and 1894 that look like they are marked "REMINGTON ARMS OC.". This is due to a die stamp with a piece broken out of the "O" so that it looks like a "C", when examined carefully the first "O" is actually a "C" that has been heavily stamped and as a result it appears at first glance to be an "O".

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number is found on the water table, it is also repeated on the underside of the barrel assembly, forend iron and trigger guard tang. Some examples are known to have a letter "P" preceding the serial number. The letter "P" is a Remington inventory symbol assigned to the model 1894 shotgun.
- serial number for the model 1894 (all grades) started at 100,000 and continued to number 141,194 which was shipped in 1910. Complete yearly breakdown is as follows;
- 1894; range from 100,000 to 100,660
- 1895; range from 100,661 to 103,106
- 1896; range from 103,107 to 104,144
- 1897; range from 104,145 to 106,916
- 1898; range from 106,917 to 110,895
- 1899, range from 110,896 to 116,139
- 1900; range from 116,140 to 120,932
- 1901; range from 120,933 to 123,913
- 1902; range from 123,914 to 127,017
- 1903; range from 127,018 to 129,349
- 1904; range from 129,350 to 131,263
- 1905; range from 131,264 to 133,042
- 1906; range from 133,043 to 134,627
- 1907; range from 134,628 to 136,292
- 1908; range from 136,293 to 137,319
- 1909; range from 137,320 to 137,988
- 1910; range from 137,989 to 141,194
- the serial number range is one of the unique identifiers of the model 1894. Remington's model 1900 shotgun, which is often confused with the model 1894 had a serial number range of 300,000 to 398,508.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "Remington Arms Co." is usually be marked on the receiver/frame and/or barrels.

Model

- as the model designation implies this model was introduced in 1900. The model 1900 was offered as a lower cost alternative to the Remington model 1894. The 1900 remained in production until 1910 with one unit being shipped in 1911. Total production numbered 98,508 units. The model 1900 is often confused with the model 1894, produced concurrently with the model 1900. This confusion is sometimes attributed to the "PAT. OCT. 30th 94" marking applied to the water table of both models (this marking sometimes appears twice on the water table). Key identifiers between the models include the serial number range and forend release mechanisms. The model 1894 uses a "Purdey" type push button release while the model 1900 uses a "snap" action which requires a downward pull of the forend to release it.
- the basic model 1900 was the only Remington shotgun offered in what was referred to as a "K" grade. The underside of the barrels will usually be marked "K". The "K" grade guns were equipped with extractors and steel barrels. When fitted with automatic ejectors it was known as the "KE" grade, when fitted with Damascus barrels it was the "KD" grade and when fitted with Damascus barrels and automatic ejectors it was known as the "KED" grade.
- features include: Anson & Deeley type boxlock action; no known examples were delivered with factory applied engraving on the receiver/frames; walnut buttstock and forend; top tang mounted opening lever and safety; double triggers; early production guns were fitted with a buttplate that featured a "widow's peak" and the stylised Remington "shield " logo, after approximately 1906 the buttplate was changed to a slat plate with horizontal ribbing and "Remington Arms CO." markings.

Manufacturer

- the Remington name will usually be marked on the receiver/frame and/or barrels.
- there are a few known examples of the model 1900 and 1894 that look like they are marked "REMINGTON ARMS OC.". This is due to a die stamp with a piece broken out of the "O" so that it looks like a "C", when examined carefully the first "O" is actually a "C" that has been heavily stamped and as a result it appears at first glance to be an "O".

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- the serial number is found on the water table, it is also repeated on the underside of the barrel assembly, forend iron and trigger guard tang. Examples produced between circa 1904 to 1910 sometimes have a "Q", which is noted as a Remington inventory symbol, stamped on the trigger guard ahead of the serial number.
- the serial number for the model 1900 started at 300,000 and continued to number 398,508 which was shipped in 1911 (serial number 398,508 is the only recorded model 1900 shipped in 1911). Complete yearly breakdown is as follows;
- 1900; range from 300,000 to 305,000
- 1901; range from 305,001 to 317,502
- 1902; range from 317,503 to 337,038
- 1903; range from 337,039 to 343,893
- 1904; range from 343,894 to 350,207
- 1905; range from 350,208 to 354,620
- 1906; range from 354,621 to 363,060
- 1907; range from 363,061 to 372,117
- 1908; range from 372,118 to 377,925
- 1909; range from 377,926 to 382,072
- 1910; range from 382,073 to 398,508
- the serial number range is one of the unique identifiers of the model 1900. Remington's model 1894 shotgun, which is often confused with the model 1900 had a serial number range of 100,000 to 141,194.

Other Markings

- Remington stamped a variety of letters and numbers on the underside of the barrels used on model 1889, 1894 and 1900 shotguns. While not a complete list, the following are believed to be accurate interpretations of some of these markings;
- numbers 1,2 and 3; used on model 1889 to denote grade
- A; model 1894 Grade A
- B; model 1894 Grade B
- C; model 1894 Grade C
- D; model 1894 Grade D
- E; automatic ejectors
- EE; model 1894 Grade E with automatic ejectors
- P; believed to indicate Remington "proof"
- ///: possibly indicates the choke of the barrel
- R; barrels of "Remington" steel
- O; barrels of "Ordnance" steel
- K; grade stamp on model 1900
- D; usually found on model 1900, barrels of "Damascus" steel

Notes

Make

- "REMINGTON'S ILION. NY. U.S.A." is marked on the left side of the firearm.
- "REMINGTON ARMS Co. ILION, N.Y. U.S.A" is marked on the barrel.

Model

- The model designation is not marked on the firearm.
- "PAT. MAY 3D NOV. 15th 1864 APRIL 17th 1866" is marked on the left side of the receiver/frame.
- This model was produced from 1901 to 1909, however many were built on receiver/frames from the 1871 Army contract. The military inspector mark "PS" on the left side of the receiver/frame indicates they were inspected circa 1871 to 1872.
- Features include: half round/half octagonal barrel; rolling block action; spurred hammer; single action trigger mechanism; oval iron trigger guard; ivory bead front sight and adjustable rear sight; checkered walnut forearm and grips; blue finish.
- Approximately 700 to 800 units were manufactured.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "REMINGTON'S ILION. NY. U.S.A." is marked on the left side of the receiver/frame. - "REMINGTON ARMS Co. ILION, N.Y. U.S.A" is marked on the barrel.
Action	- Rolling block action.
Serial Number	- The serial number is marked on the left side of the grip frame. - Observed serial numbers consisted of four digits.
Barrel	- part octagonal, part round barrel.
Calibre	- The calibre designation is marked on the barrel.
Canadian Law Comments	- Some examples of this model, when manufactured prior to 1898 may be considered Antique in Canada.
Other Markings	- barrel marked: "Remington Arms Co. Ilion NY" and "Remington's Ilion, N.Y. USA Pat May 3d Nov 15th 1864 April 17th 1866".

Manufacturer

- manufacturer's name is marked on the upper tang of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- rolling block design.
Serial Number	- serial number is marked on the lower tang of the receiver.
Calibre	- calibre designation is marked on the top of the barrel in front of the lower barrel band.
Remarks	- This is a military pattern carbine marketed by Remington as the Model 1897 to any nation or organization desirous of purchasing an economy priced yet reliable service weapon. It utilises the Remington Rolling Block action with an automatic ejector, smokleless powder steel barrel, single barrel band, sling bar and ring on the left side of the receiver and a wooden handguard. This carbine was adopted by a number of South American republics and although visually identical to the Model 1897 Commerical Military Carbine, may be identified by the post 1897 patent dates on the upper tang of the receiver.

Notes

Make

- "Remington Arms Co." is marked on the tang of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- the model does not appear on the firearm. - "Remington Arms Co.", "Ilion, N.Y. USA." and "Patented Octr, 22nd 1901" are marked on the upper tang. - this is a Remington No. 5 Rolling Block, that was sold on the military market as the models 1897, 1902 and 1910. - Model 1897 tang markings: Remington Arms Company, Ilion, NY USA Pat, May 30 1864, May 7th, June 11th, Nov 12th, Dec 24th, Dec 31st 1872, Sep 9th 1873, Jan 12th, March 18th 1874 - Model 1902 tang markings: Remington Arms Co. Ilion, N.Y. USA. Patented Octr, 22nd 1901 - Model 1910 tang markings: Remington Arms-Union Metallic CTG. Co. Rem Works, Ilion, N.Y. USA, Patd Oct 22. 1901
Manufacturer	- the manufacturer's name and address are marked on the upper tang of the receiver/frame.
Action	- rolling block design.
Serial Number	- serial number may be marked on the lower tang of the receiver/frame.
Calibre	- the calibre designation is marked on the top of the barrel in front of the lower barrel band.
Remarks	- this is a military pattern rifle marketed by Remington as the Model 1897 to any nation or organization desirous of purchasing an economy priced yet reliable service weapon. It utilises the Remington Rolling Block action with automatic ejector, smokleless powder steel barrel, two barrel bands, bayonet mounting fixture on the nosecap and a wooden handguard extending from the receiver to the barrel band. This rifle which was adopted by a number of South American republics and although visually identical to the Model 1897 Commerical Military Rifle, may be identified by the post 1897 patent dates on the upper tang of the receiver.

Notes

Make

- "REMINGTON ARMS CO." is marked on the barrel and upper rear tang of receiver/frame.

Model

- manufactured from 1902 to 1910.
- total production approximately 65,698.
- features include: round barrel with bead front sight; front hinged receiver/frame (removable hinge pin for take down); action opens by a tip-down barrel; top tang mounted break open lever; internal hammer that is cocked by an external lever on the left side of the receiver/frame; automatic ejector; plain walnut forearm, pistol-grip butt stock with hard rubber buttplate showing the Remington logo; blued barrel and colour case-hardened receiver/frame.
- similar to the REMINGTON, Model 1893 No 3 Shot Gun less the push button forearm release that has been replaced with a screw on the underside of the forearm.

Manufacturer

- "REMINGTON ARMS CO." is marked on the barrel and upper rear tang of receiver/frame.

Action

- front hinged, tip-down barrel, top lever, break action, single shot shotgun.

Serial Number

- serial number is marked on the receiver/frame and on the tang.
- serial number rationalization unknown.
- specimen serial number observed consisted of six digits without prefix or suffix.

Calibre

- the calibre designation is marked on the underside of the barrel in front of the forearm.

Other Markings

- the rear upper tang is marked "REMINGTON ARMS CO." over "ILLION. N.Y. U.S.A." over "PAT OCT 30 1894".

Firearm Reference Number (FRN): 29252
Make: Remington
Model: 1914 French Rifle

Summary

Make:	Remington
Model:	1914 French Rifle
Manufacturer:	Remington
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
29252 - 1	8X50R LEBEL	1	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make appears on the tang of the receiver.
Model	- the model does not appear on the firearm.
Manufacturer	- the manufacturer's name appears on the tang of the action.
Serial Number	- appears on the lower tang of the receiver.
Calibre	- the calibre designation appears on the top of the barrel as "Cal 8MM".
Remarks	- This is a military rifle adopted by France as an expedient measure in 1914 to supplement the production of their Model 1886/93 Lebel Rifle. It utilises the Remington Rolling Block action, smokleless powder steel barrel, one barrel band, bayonet mounting fixture on the nosecap and a wooden handguard extending from the receiver to the barrel band. This rifle closely resembles the Mexican Model 1897 and other Remington commercial military rifles (1897 and 1902), differing primarily in calibre.

Notes

Make

- the Remington and/or Remington/Union Metallic Cartridge Company name will usually be marked on the barrel in two locations. The Remington/UMC (Union Metallic Cartridge Company) logo may also be marked on the lower tang depending on when the firearm was manufactured.

Model

- developed by John D. Pedersen who had entered into a business relationship with Remington after he was issued patents for a repeating shotgun. In 1907 Mr. Pedersen began work on a design that would be introduced in 1909 as Remington's "New .22 Repeater". The resulting design would be awarded further patents in 1910 and 1911. Pedersen's design was further improved by Crawford Loomis and G.H. Garrison.
- this design was later re-designated as the model "12". Production of this design, including all variants of the model "12" continued to 1936 with a total of 831,737 examples being produced.
- this design was intended for use with calibre 22 SHORT, 22 LONG or 22 LR ammunition.
- features of the "22 Repeater" include: take-down design with a large, knurled screw on the left side of the receiver/frame; blued finish on metalwork; walnut, straight grip buttstock and forend; action release mounted on the underside of the trigger housing; cross-bolt safety mounted on the rear of the trigger guard; barrel mounted sights.
- variations of the design include the basic model 12 and the following;
- 12A: same as the basic model 12 with a round barrel and straight grip stock.
- 12B: also known as the model 12B Gallery Special. Introduced in 1910, calibre 22 SHORT only with a 610mm octagonal barrel, pistol grip stock and an optional extended magazine that held 25 cartridges.
- 12C: calibre 22 LR, introduced in 1910 with a 610mm octagonal barrel and straight grip stock. A pistol grip stock was later added.
- 12C NRA Target: introduced in 1923, chambered for 22 LR only, fitted with a sling, a Lyman tang rear sight and a globe front sight.
- Remington also offered the model 12 in "CS", "DS", "ES" and "FS" grades in calibre 22 WRF (also known as 22 REMINGTON SPECIAL) with increasing levels of finish and embellishment. A "12D Peerless", "12E Expert Grade" and "12F Premier Grade" were also catalogued in calibre 22 LR with increased levels of finish and embellishment.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the underside of the receiver/frame. - The serial number consisted of two letter prefix (RW) and numbers.
Calibre	- the calibre designation is marked on the barrel as ".22 SHORT, LONG OR LONG RIFLE".
Shots	- tubular magazine mounted under the barrel. - this model was originally produced with a magazine that held ten, calibre 22 LR cartidges, within a few months of its introduction the magazine design was changed and capacity was increased to eleven.
Other Markings	- barrel markings include "PEDERSEN'S PATENTS" followed by patent dates which vary depending on date of manufacture.

34399 - 4	22 SHORT	15	534	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- usually marked on the top of the barrel, behind the rear sight in two lines: Remington / REG. U.S. PAT. OFF.

Model

- marked on the left side of the receiver/frame: MODEL 24
- slim light rifle with open sights and bottom ejection, with a simple take-down feature, resulting in two sections of almost equal lengths.
- initial production started in 1922 with a nineteen inch barrel chambered for the 22 SHORT, and commencing in 1923 offered in 22 LR cartridge (not interchangeable) as well; and later it was available with a 21 inch (534mm) length barrel, chambered in 22 SHORT, or 22 LR, (not interchangeable).
- the standard rifle was marketed as the model 24A, with increasingly embellished models listed as: 24C Special Grade, 24D Peerless, 24E Expert, 24F Premier; the "Grade" was not known to be marked on the firearm, but was distinguished by the extent of engraving and quality of the furniture.
- Do not confuse with the virtually mechanically identical to the "Browning Semi-Auto 22", and the "FN Semi-Auto 22"; and the similar successor, the Remington model 241.

Manufacturer

- may be marked on early production arms on the top of the barrel, forward of the rear sight, in three lines: REMINGTON ARMS COMPANY INC., SUCCESSOR TO THE / REMINGTON ARMS, U.M.C. CO. INC., REMINGTON ILION WKS. / ILION, N.Y. U.S.A. BROWNING"S PATENT OCT. 24, 1916.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blow back operated.
Serial Number	- marked on the left side of the receiver/frame, example: 123456
Shots	- tube magazine in the butt-stock, accessed through the butt-plate, and loads through a port in the right side of the butt-stock.
Other Markings	- early rifles may be marked; on barrel, left side below rear sight: .22 SHORT LESMOK OR SMOKELESS GREASED

Notes

Make

- make designation is marked on the left side of the receiver/frame as: "REMINGTON".

Model

- manufactured from 1935 to 1949.
- approximately 56,000 made.
- "The Speedmaster" and "Model 241" are marked on the left side of the receiver/frame.
- this model has a takedown feature in which the firearm breaks down into two pieces.
- features include: blued receiver/frame and tapered round barrel, the safety is located on the trigger-guard, a white metal bead front sight with a step adjustable rear sight, a walnut pistol grip stock with a beavertail forend.
- this model was available in two calibres, a 22 SHORT only and 22 LR.
- available in different grades, Standard, Special, Peerless, Export, or Premier.

Manufacturer

- the manufacturer is normally on top of the barrel as:
"REMINGTON ARMS CO. INC. ILON. N.Y. MADE IN U.S.A. BROWNING" followed by patent numbers.

Action

- blowback operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Calibre

- calibre is marked on the left side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- fixed magazine tube in buttstock.
Other Markings	- the barrel will normally have the following patent markings: "PAT. NO. 1,372,336 - 1,381,448 ALSO PAT. NO. 1,740,187 - 1,889,099". - the left side of the receiver/frame is normally marked: "SPEEDMASTER" "REG. U.S. PAT.OFF." "MODEL 241"

Notes

Make

- "Remington" is marked on the firearm.

Model

- Produced from 1934 until 1949.
- Model designation may not be marked on the firearm.
- "MODEL 31" is marked on the left side of the receiver/frame.
- "POLICE GUN Property of (Police Organization)" may be marked on the right side of the receiver/frame.
- This is a version of the Remington 31 shotgun made specifically for use as a police "stakeout" shotgun, with a shortened barrel and a full length buttstock.
- Features include: round smoothbore barrel with bead front sight; solid top receiver/frame with right side ejection and bottom loading; tubular magazine; hammerless; cross-bolt safety at the rear of the trigger-guard; walnut ribbed forearm and full length half pistol grip buttstock; sling swivel attachments; blued finish.
- Overall length with a 470 mm (18 1/2") barrel and full length buttstock is 959 mm (37 3/4").

Manufacturer

- manufacturer's name is marked on the firearm.

Serial Number

- numbered on the left side of the receiver/frame.

Shots

- tubulatr magazine mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been designed or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Firearm Reference Number (FRN): 1964
Make: Remington
Model: 310 Skeet

Summary

Make:	Remington
Model:	310 Skeet
Manufacturer:	Companhia Brasileira de Cartuchos (CBC)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1964 - 3	310 REM	1	584	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
1964 - 2	310 REM	1	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Remington" is marked on the underside of the receiver/frame.
- "Remington Arms Co. Inc." may be marked on the barrel.

Model

- manufactured between 1967 and 1973.
- Companhia Brasileria de Cartuchos manufactured "CBC" shotguns for the "Remington Arms Company", these shotguns were sold as the Remington Model 310 Skeet and Model 812.
- this is a single shot break action shotgun designed to fire the "310 Remington" rimfire shotshell.
- this model was built exclusively for miniature clay target shooting but never caught on with the general public, as such the model was never mass produced due to poor sales.
- features include: round barrel; front hinged receiver/frame; break action; exposed spur hammer; beavertail forearm and pistol grip buttstock and a barrel attached self operated clay target thrower.

Manufacturer

- "CBC", "Made in Brazil", "Made in Brazil by CBC", "Made in Brazil" and "By Companhia Brasileira de Cartuchos" or "Made in Brazil", "By Companhia Brasileira de Cartuchos" and "S.Andre-Est. S.Paulo" may be marked on the receiver/frame or barrel.
- "CBC" is the acronym for Companhia Brasileira de Cartuchos.
- Companhia Brasileira de Cartuchos (CBC) is a Brazilian company that primarily produces ammunition but they also manufacture airguns, revolvers, break open shotguns and double rifles under their own name and contracted "house brand" firearms.

Action

- break open single-shot.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number
- the serial number is located on the bottom of the receiver/frame.
- samples observed had a "C" prefix followed by five numbers.

Calibre
- this is a rimfire cartridge.

Notes

Make

- the Remington name wil appear on the firearm.

Model

- manufactured 1931 to 1947.
- the Remington Model 32 is an over and under shotgun that was offered in 12GA only.
- this model has a sliding plate on the top of the action activated by the opening key which blocks the barrels from opening under recoil. This model has no centre rib between the barrels to aid in cooling the barrels. Available in Field or High grades which differed in the quality of wood. Options such as a solid rib, ventilated rib, checkering patterns or engraving determine the grade. The Tournament, Premier, Expert, Target and Skeet are also associated with the second letter of the model name (ie. 32 SC Target) which denotes Skeet C grade; A being the lowest and F the highest grade of embellishment.

Action

- over and under.

- manufactured from 1931 to 1947.

Action

- over and under.

Serial Number

- Manufacture dates as follows:
1931 0001-1,009 1932 1,010-1,903
1933 1,904-1,948 1934 1,949-2,727
1935 2,728-3,610 1936 3,611-4,259
1937 4,260-4,755 1938 4,756-4,958
1939 4,959-5,202 1940 5,203-5,525
1941 5,426-5,741 1942 5,742-6,020
1943 6,021-6,031 1944 6,032-6,049
1945 to 1947 6,050-6,053

Barrel

- vent rib or plain barrel.

Calibre

- made in 12 GA only.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- The Remington Model 32 is an over and under (offered in 12GA only) from 1931-1947. The shotgun has a sliding plate op top of the action activated by the opening key which blocks the barrels from opening under recoil. This model has no centre rib between the barrels, just 1/2 inch of space to aid in cooling the barrels. Available in Field or high grades which differed in the quality of wood. Options such as a solid rib, ventilated rib, checkering patterns or engraving determine the grade. The Tournament, Premier, Expert, Target and Skeet are also associated with the second letter of the model name (ie. 32 SC Target) which denotes Skeet C grade; A being the lowest and F the highest grade of embellishment.

Notes

Make	- the "Remington" trade name is marked on the underside of the receiver/frame.
Model	- "3200" is marked on the underside of the receiver/frame. - manufactured from 1972 to 1984. - features include: over/under design with single selective trigger, ejector, sliding lock on top of action and separated barrels with rib. The various sub-models differ in longer barrels, different choke options or better quality wood. Some models, as their name implies, were limited in the numbers produced. The basic design remained unchanged throughout the production period.
Manufacturer	- the "Remington" trade name is marked on the underside of the receiver/frame. - the manufacturer's name and address are marked on the barrel.
Action	- over and under barrel configuration, break open action.
Serial Number	- the serial number is marked on the underside of the receiver/frame and the last four numbers of the serial number may be repeated on the bottom of the barrel assembly. - the serial number has a two letter prefix of "OU". - observed serial number consisted of two letters and four sequential numbers, eg. "OU 9140".
Calibre	- the calibre designation is marked on the barrels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - made in 12 GA only.

Remarks - The Remington Model 32 is an over and under (offered in 12GA only) from 1931-1947. The shotgun has a sliding plate op top of the action activated by the opening key which blocks the barrels from opening under recoil. This model has no centre rib between the barrels, just 1/2 inch of space to aid in cooling the barrels. Available in Field or high grades which differed in the quality of wood. Options such as a solid rib, ventilated rib, checkering patterns or engraving determine the grade. The Tournament, Premier, Expert, Target and Skeet are also associated with the second letter of the model name (ie. 32 SC Target) which denotes Skeet C grade; A being the lowest and F the highest grade of embellishment.

Notes

Make

- the "Remington" trade name is marked on the firearm.

Model

- introduced in 2002.
- this is an over/under shotgun based on the original Remington Model 32.
- features include: over and under barrels with ventilated rib and twin bead sights; front hinged receiver/frame with top tang mounted break open lever and safety/barrel selector; single trigger; automatic ejectors; American walnut, forearm and pistol-grip stock with rubber recoil pad; blued finish.
- this model was further updated in late 2003 for the 2004 model line. As of 2004 the model 332 features a high gloss finish on the buttstock and forearm and the "Pointer" and "Setter" receiver/frame engravings are now encircled by an oval of fine scrollwork.
- overal length with a 660 mm (26") barrel is 1080 mm (42 1/2"), 711 mm (28") barrel is 1143 mm (45"), and 762 mm (30") barrel is 1200 mm (47 1/4").
- average weight is from 3.4 kgs (7 1/2 lbs) to 3.6 kgs (8 lbs).

Manufacturer

- the manufacturer's name is marked on the firearm.

Action

- break action, over/under barrel configuration.

Serial Number

- the serial number is marked on the receiver/frame.

- "341A Sportmaster" had a blade type front sight with a white metal bead, step adjustable rear sight, and weighed approximately 2.7 kgs (6 lbs).
- "341AT Special Sportmaster" has the same features as the model "341A Sportmaster" except the receiver/frame was drilled and tapped for a scope mount.
- "341P Sportmaster" had a hooded front sight with a replaceable recticle, peep rear sight with interchangeable disc, and weighed approximately 2.8 kgs (6 lbs 4 oz).
- "341PT Special Sportmaster" has the same features as the model "341P Sportmaster" except the receiver/frame was drilled and tapped for a scope mount.
- "341SB Sportmaster" had a smoothbore barrel, white metal bead front sight, and no rear sight.

Manufacturer

- "REMINGTON" and "REG US PAT OFF" are marked on the left side of the barrel.
- "REMINGTON ARMS CO., ILION, N.Y., MADE IN U.S.A." and "US PATENT NUMBERS 1,908,035 - 1,913,840 - 1,924,692" are marked on the top of the barrel.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the barrel, and the stock may cover the serial number on some of the earlier production units.
- "US PATENT NUMBERS 1,908,095 - 1,913,840 - 1,924,692" is marked on the barrel.
- the numbers "1,908,095", "1,913,840", and "1,924,692" are not serial numbers.
- the numbers "1,908,095", "1,913,840", and "1,924,692"are U.S. Patent Numbers.

Calibre

- ".22 SHORT, LONG OR LONG RIFLE" is marked on the left side of the barrel.

Shots

- tubular magazine is mounted under the barrel.
- magazine capacity with 22 SHORT is 22 catridges, 22 LONG = 17 cartridges, and 22 LR = 15 cartridges.

Notes

Make

- "Remington" is marked on the side of the receiver/frame.

Model

- introduced in 1987.
- "40XB KS" is not marked on the firearm.
- "Model 40-X" is marked on the side of the receiver/frame.
- "B" in the model designation is the last character in the serial number.
- "KS" stands for Kevlar Stock.
- this is a single-shot target rifle, made in the Remington's custom shop as a precision tactical rifle.
- features include: round, heavy contour stainless steel barrel; left or right hand turn bolt action; adjustable trigger; tubular, sold bottom receiver/frame is drilled and tapped for scope mounts; one piece black finish Kevlar pistol-grip stock.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.
- serial number has a letter "B" suffix.

Calibre

- calibre is marked on the barrel.

Remarks

- The 40XB KS is a bolt action rifle built on the M700 action. The Remington Custom Shop will special order the 40X from regular assembly line actions (before they get roll stamped and serial numbered) and are finished on a custom order basis at their facility. The barrel and action is stainless or blue highly polished. The stock is offered in deluxe grade wood with deluxe checkering or synthetic. This model comes with a Kevlar Stock (KS).

Notes

Make - "Remington" is marked on the side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 1969. - "40XBBR" is not marked on the firearm. - "Model 40XBR" is marked on the side of the receiver/frame. - the first letter "B" in the model designation is the suffix in the serial number. - "BR" in the model denotes "Bench Rest". - features include: round stainless steel barrel; turn bolt action; adjustable trigger; blued receiver/frame is drilled and tapped for scope mounts; no iron sights; one piece American walnut or kevlar pistol grip stock with wide squared-off forend. - options offered allowed the use of this rifle for all three classes of benchrest competition. - the forend was flattened, and broadened to accommodate the pedestal type rest thus eliminate canting. - chamber necks were made slightly smaller (four thousandths of an inch) to improve accurate alignment of the cartridge with the bore. - length of pull was reduced to twelve inches.
Manufacturer	- manufactured by the "Remington Custom Gun Shop".
Action	- turn-bolt design.
Serial Number	- serial number is marked on the side of the receiver/frame. - serial number has a letter "B" suffix.
Barrel	- as a custom shop product, this rifle may be found in a variety of barrel lengths.
Calibre	- the calibre designation is marked on the firearm. - as a custom shop product, this rifle may be found in a variety of calibres.
Shots	- solid bottom receiver/frame.

3410 - 2	22 MAG	1	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Remington" is marked on the side of the receiver/frame.

Model

- introduced in 1986.
- "40XR Custom Sporter" is not marked on the firearm.
- "R" in the model designation denotes "Rimfire".
- this is a single shot, turn bolt action rifle with a solid bottom receiver/frame.
- Remington Custom Gun Shop special orders the 40X from regular assembly line receivers (before they are stamped and serial numbered) and are finished on a custom order basis at the custom shop. The barrel and action can be stainless or chrome molly steel. The stock material is deluxe grade wood with deluxe checkering or synthetic. On this model the Remington Custom Shop has dropped the standard custom models in favour of individual quotations for work ordered.
This will inevitably result in the creation of rifles without a standard but rather all different, as per the individual option needs.
- "22 Winchester Magnum" was available in this model line starting in 2000.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.

35844 - 2	22 WIN RF	1	686	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the "REMINGTON" trade name is marked on the top of the firearm, between the chamber and rear sight.

Model

- "The Targetmaster" and "Model 41" are marked on the top of the firearm, between the rear and front sight.
- manufactured from 1936 to 1940.
- features include: one piece/homogeneous round barrel/receiver/frame; turn-bolt action with bolt handle turned down; takedown design; one piece uncheckered hardwood stock with semi beavertail forend and pistol grip stock, and iron sights.
- action must be manually cocked for firing, the safety is incorporated into the cocking knob.
- available in several variations:
- "A " Grade: furnished with a blade front sight and open rear sight.
- "P" Grade: furnished with a hooded front sight and receiver/frame mounted "peep" type rear sight.
- "AS" Grade: made in calibre 22 WRF (22 Remington Special).
- "SB" Grade: smooth bore barrel (no rifling, intended to fire "shot" cartridges), no rear sight and bead front sight.

Manufacturer

- "Remington Arms Co. Inc. Ilion N.Y." is marked on the top of the firearm, between the rear and front sight.

Action

- turn-bolt operated.

Serial Number

- the serial number is marked on the one piece/homogeneous barrel/receiver assembly.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - ".22 Short, Long or Long Rifle" is marked on the firearm.

Canadian Law Comments - as the receiver/frame/barrel are one homogeneous piece the serial number is deemed to be on the receiver/frame.

Firearm Reference Number (FRN): 3068
Make: Remington
Model: 411

Summary

Make:	Remington
Model:	411
Manufacturer:	Remington
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
3068 - 3	22 BB CAP	1	173	Prohibited CC 84(1) "prohibited firearm" para. (b)	Non-Commercial Customization	
3068 - 2	22 CB CAP	1	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
3068 - 1	22 SHORT	1	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Remington" was observed marked on the barrel.

Model

- "MODEL 411" was observed marked on the left side of the barrel.
- manufactured in 1937.
- total production was 1,316 units.
- features include: round open piece barrel and receiver/frame; self cocking turn bolt; extractor; round cartridge case discharger tube; no manual safety; one piece walnut semi-pistol grip stock with plastic butt plate; blade front sight and V-groove rear sight; blued finish.
- NOTE: some model 411s may not have a slot cut on the bottom of the receiver/frame or have a discharger tube.
- Model 411 was originally manufactured for Steel Materials Corporation of Detroit, Michigan, U.S.A.
- Steel Material Corporation was a shooting gallery supplier.

Manufacturer

- "Remington" was observed marked on the barrel.

Action

- turn bolt design.

Serial Number

- serial number is marked on the underside of the barrel/receiver/frame, ahead of the stock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "22 CB CAP" was observed marked on the left side of the barrel. - "22 SHORT ONLY" was observed marked on the left side of the barrel.
Shots	- Note: a round discharger tube may be located under the barrel. This is not a tube magazine. This tube is used to discharge fired cartridge cases from the rifle. When the cartridge case is extracted from the chamber it drops through a slot in the bottom of the receiver/frame. The fired cartridge case then falls out of the firearm, under the muzzle.
Also Known As/Product Code	- designed for 22 SHORT or 22CB only.

Notes

Make	- "REMINGTON" is marked on the left side of the receiver/frame.
Model	- "SPORTSMAN 48" is marked on the side of the receiver/frame. - production of the model 48 Sportsman began in 1948, it was officially introduced in 1949. Remington ceased production of this model in 1958. - this model was also offered in higher grades which differed in the quality of wood and the level of embellishment. Options such as a solid rib, ventilated rib, checkering patterns or engraving determine the grade. - the "Standard" grade was also known as the Sporstman 48A. This version featured a checkered American walnut buttstock and forearm, and a blued finish. - the "Special" grade was also known as the "Sportsman 48B Special". This version featured "Select" grade walnut furniture. - also available in a "Skeet" grade that featured a beavertail forearm and skeet bored barrel, and "D Tournament" or "F Premier" grades that were further embellished with engraving. - available with a solid or ventilated barrel rib with a single or double bead sight arrangement. - this model was available with a factory installed "Cutts Compensator" or "Poly-Choke".
Manufacturer	- "REMINGTON ARMS CO. INC., ILION, N.Y. MADE IN U.S.A." is marked on the right side of the barrel.
Action	- recoil operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - observed serial number consisted of seven numbers without a letter prefix or suffix. - NOTE: the following patent number marked on the barrel is not to be confused as serial number: 2,278,589.
Calibre	- gauge and chamber length are marked on the left side of the barrel.
Shots	- tubular magazine mounted under the barrel.
Other Markings	- "PATENT NO. 2,278,589 OTHERS PENDING" is marked on the right side of the barrel.

Notes

Make

- "REMINGTON ARMS CO. INC." and "Remington" are marked on the barrel.

Model

- the model designation is marked on the barrel.
- this is a standard pattern, bolt-action, small-bore rifle in the Remington "513" series, built between 1940 and 1968; the 513 series was divided into the "513S" series (with a checkered "Sporter"-style stock), and the "513T" series (with a smooth "Target"-style stock). Each of these variations could be fitted with a number of different factory sight configurations, each denoted with a separate model suffix letter (i.e. 513-S, 513-S-A, 513-T, 513-T-X, etc.).
- features include: a smooth walnut pistol-grip stock with beavertail forearm; sling swivels; steel buttplate; adjustable Redfield peep sights with Globe insert front sight; "semi-floating" heavy target barrel; and blued finish.

Manufacturer

- "REMINGTON ARMS CO. INC." and "Remington" are marked on the barrel.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is usually marked on the underside of the barrel, in front of the forend of the stock.
- serial numbers of the 513-S series was intermixed with the 513-T series.
- serial number range began at "1000".
- observed serial number consisted of four numbers without a letter prefix or suffix.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- observed serial number consisted of six numbers without a letter prefix or suffix.
- observed serial number consisted of seven numbers without a letter prefix or suffix.

- "REMINGTON ARMS CO. INC., ILION N.Y. MADE IN U.S.A." over "PATS. - 1,908, 035 - 1,913,840 - 2,356, 257 - 2,331,405" may be marked on the top of the the barrel.
- "1908035", "1913840", "2356257", and "2331405" are Patent Numbers and should not be confused as a serial number.

Calibre

- ".22 LONG RIFLE" is marked on the top of the barrel.

Shots

- detachable box magazine.

Other Markings

- "PATS 1.908.035 - 1.913.840 - 2.356.257 - 2.341.405" is marked on the top of the barrel.

Firearm Reference Number (FRN): 48546
Make: Remington
Model: 525

Summary

Make:	Remington
Model:	525
Manufacturer:	Companhia Brasileira de Cartuchos (CBC)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
48546 - 1	22 LR	6	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
48546 - 2	22 LR	10	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Remington name will be marked on the barrel and/or receiver/frame.
- one sample examined also had a stylized "R" within an elongated diamond on the grip cap.

Model

- "Model 525" is marked on the left side of the receiver/frame or top of the barrel.
- features include: blued finish; barrel mounted sights; receiver/frame is grooved for a scope mount.

Manufacturer

- "CBC", "Made in Brazil", "Made in Brazil by CBC", "Made in Brazil" and "By Companhia Brasileira de Cartuchos" or "Made in Brazil", "By Companhia Brasileira de Cartuchos" and "S.Andre-Est. S.Paulo" may be marked on the receiver/frame or barrel.
- "CBC" is the acronym for Companhia Brasileira de Cartuchos.
- Companhia Brasileira de Cartuchos (CBC) is a Brazilian company that primarily produces ammunition but they also manufacture airguns, revolvers, break open shotguns and double rifles under their own name and contracted "house brand" firearms.

Serial Number

- sample examined used sequential numbers marked on the underside of the barrel.

Shots

- detachable box magazine.

Other Markings

- observed samples have been marked: "Made in Brazil" on the left side of the receiver/frame below "Model 525", "Brazil" on the left side of the barrel ahead of the receiver/frame or "Made in Brazil" on the right side of the barrel.

Notes

Make

- the "Remington" trade name is marked on the side of the receiver/frame and on the top of the barrel.

Model

- introduced in 1957.
- model designation is marked on the left side of the receiver/frame as "Remington Speedmaster" over "Model 552" (some very early units may be marked "552" only).
- this firearm was offered in three variations; the first was the model "552 Speedmaster", also known as the model "552A Speedmaster". This was the plain version that was equipped with a plain walnut stock (no checkering or Monte Carlo cheekpiece) and a blade front sight. The second, a deluxe model known as the "552 BDL Deluxe Speedmaster" was equipped with a checkered walnut stock and a ramp front sight. These variations were available in rifle or carbine configuration as well as a variant known as the "Gallery Special" or "GS". The "Gallery Special" was chambered for calibre 22 SHORT ammunition only.
- overall length with a 533mm (21") barrel is 1016mm (40"), average weight is 2.61kg (5.75lbs).

Manufacturer

- the manufacturer's name and address are marked on the barrel.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left side of the receiver/frame, early samples may not be numbered.
Calibre	- the calibre designation is marked on the barrel.
Shots	- tubular magazine is mounted under the barrel.

Notes

Make	- the make is marked on the firearm.
Model	- the full model designation may not be marked on the firearm. - this is a "limited edition" of the 572 Fieldmaster pump-action rifle made in 1966, to commemorate the 150th anniversary of the founding of Remington. - features include: checkered gloss-finished walnut stock and forearm (standard-grade 572s have a "ringtail" vertically-grooved forearm and un-checkered buttstock); blued finish; adjustable open sights; tubular magazine loaded from the front; cross-bolt safety at the rear of the trigger-guard; and an 870-type action-release lever at the front of the trigger-guard.
Manufacturer	- the manufacturer is marked on the firearm.
Serial Number	- located on the left side of the receiver/frame. On those rifles manufactured before 1968, it is not known if there was a serial number. - known serial numbering indicates the use of seven numbers with or without an alpha prefix. - this firearm is marked on top of the barrel with a Remington patent number(PATENT NO. 2,675,638) and should not be mistaken for a serial number.
Shots	- tubular magazine.

Notes

Make	- "Remington" is marked on the side of the receiver/frame.
Model	- "Sportsman - 58" is usually marked on the left side of the receiver/frame. - available from 1956 to 1963 and offered as Remington's first gas-operated auto-loading shotgun that did not utilize the Browning designed recoiling barrel action. - the basic features of the model 58 Sportsman include: game scene and scroll etched receiver/frame; gloss finished and checkered walnut pistol grip stock and finger grooved forend; fixed choke; "Dial-A-Matic" load control whereby the magazine cap incorporates integral gas vents that allow for adjustments between light and heavy loads; takedown feature for ease of maintenance and barrel interchangeability.
Manufacturer	- "Remington" is marked on the side of the receiver/frame. - the manufacturer's name and address are marked on the barrel.
Action	- gas operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame. - known examples have had a six digit number with a letter suffix of "V" or "M". - NOTE: the following patent numbers marked on the barrel are not to be confused as serial numbers: 2,645,873 - 2,675,638.
Barrel	- ventilated rib or plain barrel.
Calibre	- known example had calibre designation marked on the rear left side of the barrel, eg., "12 GA. FOR 2 3/4 OR SHORTER SHELLS". - magnum model usually has calibre designation marked on the barrel as, "12 GA. Magnum for 3" Shells" or a variation thereof.
Shots	- tubular magazine located under the barrel.

Notes

Make

- "REMINGTON" is marked on the left side of the receiver/frame.

Model

- manufactured from 1968 to 1971.
- just under 51,00 were manufactured.
- "MODEL 660" is marked on the left side of the receiver/frame.
- the model 660 was offered in two versions, the first was chambered for "Standard" length cartridges (model 660), the second was offered in magnum calibres and was equipped with a recoil pad (model 660 Magnum).
- features include: blued finish; American walnut stock with a Monte Carlo cheekpiece and checkering on the pistol grip and fore-end; receiver/frame is drilled and tapped for scope mounts; blade front sight with a brass bead and adjustable "U' notch rear sight and an "S" shaped bolt handle (commonly referred to as a "dog leg" shape).

Manufacturer

- "REMINGTON ARMS CO. INC., ILION, N.Y. MADE IN U.S.A." is marked on the left side of the barrel.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Calibre

- caliber designation is marked on the left side of the barrel.
- the 223 REM calibre was not listed in any Remington catalogue, only 227 examples were manufactured.

Shots

- internal box magazine.

Notes

Make

- the "Remington" trade name is marked on the side of the receiver/frame.
- "REMINGTON ARMS CO. INC." and/or "REMINGTON ARMS COMPANY, INC." is marked on the barrel.

Model

- "Remington" over "MODEL 700" is marked on the side of the receiver/frame.
- introduced in 1962.
- the model 700 was sold in a finished form or as a gun kit.
- the main difference between the model 700 ADL and the model 700 BDL is that the model 700 ADL has a fixed magazine floor plate and the model 700 BDL has a hinged magazine floor plate.
- features include: cylindrical receiver/frame; safety located on the right side of the receiver/frame; bolt release located in front of the trigger; available in blued or stainless steel and with a wood or synthetic stock.

Manufacturer

- "REMINGTON ARMS CO. INC., ILION, N.Y. MADE IN U.S.A." and/or "REMINGTON ARMS COMPANY, INC., ILION, N.Y. U.S.A." is marked on the barrel.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.
- serial number observed consisted of four numbers without a letter prefix or suffix.
- serial number observed consisted of five numbers without a letter prefix or suffix.
- serial number observed consisted of seven numbers without a letter prefix or suffix.
- serial number observed consisted of a letter prefix and seven numbers.

Calibre

- the calibre designation is marked on the side of the barrel.
- the 280 REMINGTON / 7MM EXPRESS REMINGTON caliber markings differed over time, rifles were originally marked as 280 REMINGTON on the barrel; then marked 7MM Express from 1979 to 1982, then returned to the marking of 280 REMINGTON.

Shots

- fixed or detachable box magazine.

Remarks

- the 700 ADL is a basic version of the model 700 offered since 1962, supplied with a select one-piece walnut stock. (The model 700 replaced the models 721, 722, and 725)
- the 700 BDL is a deluxe version of the model 700, and when supplied with a select one-piece walnut stock, it usually features skip line checkering, contrasting tip, gripcap, white-line spacer and Monte Carlo stock.
- It is available with a short action for short non-magnum cartridges, in standard length for cartridges of 30-06 SPRG length. It has been offered in blued, or more recently in stainless steel with furniture in walnut, laminated wood, synthetic or Kevlar. The top of the action is drilled and tapped for telescope mounting and may be also found with or without sights.

Notes

Make

- "Remington" is marked on the side of the receiver/frame.
- "REMINGTON ARMS CO. INC." and/or "REMINGTON ARMS COMPANY, INC." is marked on the barrel.

Model

- "MODEL 700" is marked on the side of the receiver/frame.
- introduced in 1962.
- the main difference between the model 700 ADL and the model 700 BDL is that the model 700 ADL has a fixed internal magazine with no floor plate and the model 700 BDL has a hinged magazine floor plate.
- features include: cylindrical receiver/frame; safety located on the right side of the receiver/frame; bolt release located in front of the trigger; available in blued or stainless steel and with a wood or synthetic stock.

Manufacturer

- "REMINGTON ARMS CO. INC., ILION, N.Y. MADE IN U.S.A." and/or "REMINGTON ARMS COMPANY, INC., ILION, N.Y. U.S.A." is marked on the barrel.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the forward left side of the receiver/frame.
- an observed example included a letter prefix (A) and seven numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre is marked on the left side of the barrel, ahead of the rear sight base. - 280 REMINGTON / 7MM EXPRESS REMINGTON calibre markings; rifles were originally marked as 280 REMINGTON on the barrel; then marked 7MM EXPRESS from 1979 to 1982, then returned to the marking of 280 REMINGTON.
Shots	- the 700 ADL has a blind/internal magazine, with no external magazine floorplate.
Remarks	- the 700 ADL is a basic version of the model 700 (The model 700 replaced the models 721, 722, and 725).

Notes

Make

- "REMINGTON" is on the left side of the receiver/frame.

Model

- introduced in 2017.
- "Model 700" is marked on the side of the receiver/frame.
- "700 ADL Tactical" is not marked on the firearm.
- the main difference between the model 700 ADL and the model 700 BDL is that the ADL has a fixed internal magazine with no floor plate and the BDL has a hinged magazine floor plate.
- features include: rifled barrel without sight; cylindrical receiver/frame mounted with an accessory rail; safety located on the right side of the receiver/frame; bolt release located in front of the trigger; two tone synthetic stock; blued finish.

Manufacturer

- "Remington" is marked on the left side of the receiver/frame.
- the manufacturer's name and address is marked on the barrel.

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of two letter prefix "RR", five numbers and a letter suffix "J".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre is marked on the left side of the barrel.
Shots	blind/internal magazine, with no external magazine floorplate.

Notes

Make - the "Remington" trade name is marked on the side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 1962.
- "700 BDL" is not marked on the firearm.
- "Model 700" is marked on the side of the receiver/frame.
- "BDL" is not marked on the firearm.
- "700 BDL" is a deluxe version of the model 700.
- 700 replaced the models 721, 722, and 725.
- the main difference between the model 700 BDL and the model 700 ADL is that the model 700 BDL has a front hinged magazine floor plate and the model 700 ADL has a fixed internal magazine with no floor plate.
- features include: round tapered barrel; turn-bolt action in "short" length for short, non-magnum cartridges, "standard" length for cartridges of 30-06 SPRG length, and "long action" length for longer magnum cartridges; receiver/frame is drilled and tapped for optical sight mounting; available with or without iron sights; integral box magazine with front pivoting floorplate; one-piece stock in select walnut, laminated wood, synthetic or Kevlar; walnut stock usually features skip line checkering, contrasting tip, pistol grip cap with a white-line spacer and Monte Carlo stock; blued or stainless steel finish.
- overall length with a 559mm (22") barrel is 1080mm (42.5") average weight is 3.29 kgs (7.25lbs).

Manufacturer

- the manufacturer's name and address are marked on the barrel.
- "Remington" is marked on the side of the receiver/frame.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.
- observed serial number consisted of a letter prefix and seven numbers.

Calibre

- calibre is marked on the left side of the barrel, ahead of the rear sight base.
- 280 REMINGTON / 7MM EXPRESS REMINGTON calibre markings; rifles were originally marked as 280 REMINGTON on the barrel; then marked 7MM Express from 1979 to 1982, then returned to the marking of 280 REMINGTON.

Shots

- internal box magazine with front hinge floorplate.
- when the floor plate is opened the magazine spring and follower are exposed.

Notes

Make

- the "Remington" trade name is marked on the firearm.

Model

- "Model 700" is marked on the receiver/frame.
- introduced in 1978.
- "700 BDL Classic", also known as the "700 Classic" is a special edition sporting rifle built on the M700 action.
- the main difference between the model 700 BDL and the model 700 ADL is that the model 700 BDL has a front hinged magazine floor plate and the model 700 ADL has a fixed internal magazine with no floor plate.
- features include: hooded front sight; walnut, Monte Carlo, checkered stock; white-line spacers on pistol grip cap and butt plate and a hinged floorplate.
- it has become an annual tradition for Remington to introduce a new calibre in the "Classic" model each year.
- Remington has selected for 2005 the Model 700 Classic with a straight-comb Classic style stock and chambered in 308 WIN for their 25th edition.

Manufacturer

- the manufacturer's name and address are marked on the firearm.

Action

- turn-bolt operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- observed specimen had a letter prefix and seven digits.

Calibre

- the calibre designation is marked on the barrel.
- introduced in: "22-250 REM", "6MM REM", "243 WIN", "270 WIN", "30-06 SPRG" & "7MM REM MAG" in 1978; "7MM MAUSER" in 1981; "257 ROBERTS" in 1982; "300 H&H MAG" in 1983; "250 SAVAGE" in 1984; "350 REM MAG" in 1985; "264 WIN MAG" in 1986; "338 WIN MAG" in 1987; "35 WHELEN" in 1988; "300 WBY MAG" in 1989; "25-06 REM" in 1990; "7MM WBY MAG" in 1991; "220 SWIFT" in 1992; "222 REM" in 1993; "6.5X55 SWEDISH MAUSER" in 1994; "300 WIN MAG" in 1995; "375 H&H MAG" in 1996; "280 REM" in 1997; "8MM REM MAG" in 1998; "17 REM" in 1999; "223 REM" in 2000; "7MM-08 REM" in 2001; "221 FIRE BALL" in 2002; "300 SAVAGE" in 2003 and "8MM MAUSER" in 2004.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - integral box magazine with hinged floorplate.

Remarks - the classic has been offered in magnum and non-magnum calibres, blued steel with a walnut stock.

Notes

Make

- "REMINGTON ARMS CO. INC.", "REMINGTON ARMS COMPANY, INC." or "REMINGTON CUSTOM SHOP" is usually marked on the barrel.
- "Remington" is marked on the side of the receiver/frame.

Model

- "700 BDL Custom Deluxe" is not marked on the firearm.
- "Remington" and "MODEL 700" are marked on the side of the receiver/frame.
- "BDL Custom Deluxe" is not marked on the firearm.
- introduced in 1969.
- the main difference between the model 700 BDL and the model 700 ADL is that the model 700 BDL has a front hinged magazine floor plate and the model 700 ADL has a fixed internal magazine with no floor plate.
- this firearm was manufactured by the "Remington Custom Gun Shop".
- available in left or right hand bolt action.
- available with four grades of finish with customized features including engraving, gold inlay, finish, custom dimensions and accessories.
- features include: High polished carbon steel round barrel, Monte Carlo style stock with cheek piece.

Action

- turn-bolt operated.

Serial Number

- marked on the forward left side of the receiver/frame.

Calibre

- a new calibre is offered yearly, available for one year only.

Shots

- internal magazine.

Remarks

- The model 700 BDL Custom Deluxe is a variation of the basic model 700. Designed for use with magnum and non-magnum calibres. Receiver is drilled and tapped for a telescopic sight mounting system, it may be also found with or without sights.
