Notes

Make

- the "Remington" trade name is marked on the receiver/frame.

Model

- introduced in 2000.
- unique from standard Model 700 and variants in that it uses an electric priming and ignition system known as "EtronX".
- externally this model closely resembles the model "700 VS SF".
- features include:
- fixed electric firing pin;
- stainless steel fluted barrel;
- synthetic stock;
- electronic trigger assembly using electricity to actuate the firing pin rather than sear contact and spring mechanisms;
- full length aluminum bedding block in stock;
- manual safety indicating chamber and electric charge status;
- external key locking of battery power "on" or "off".

Manufacturer

- "Remington" is marked on the receiver/frame.
- the manufacturer's name and address are marked on the barrel.

Action

- turn-bolt action with electric primer ignition system and box magazine feeding.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left side of the receiver/frame.
Calibre	- this model requires the use of EtronX primed ammunition. - this model is incapable of firing percussion activated primers.
Shots	- internal box magazine with hinged floorplate.

Notes

Make

- "Remington" is marked on the left side of the receiver/frame.
- "REMINGTON ARMS CO. INC." and/or "REMINGTON ARMS COMPANY, INC." is marked on the barrel.

Model

- introduced in 1996.
- "Remington" over "MODEL 700 ML" is marked on the left side of the receiver/frame.
- "ML" denotes "Muzzle Loader".
- "700 ML" is an in-line, muzzle-loading, percussion ignition rifle based on the Remington Model 700.
- features include: stainless steel or matte blued finish; laminated or black or camouflage pattern synthetic pistol-grip stock; open adjustable sights; receiver/frame is drilled and tapped for scope mounts; fibreglass ram-rod; available with a conversion kit that allows the use of shotshell primers, musket caps, or No.11 percussion caps as the source of ignition.
- although this firearm appears to be a bolt-action repeater at first glance, the "bolt" mechanism only allows the shooter to cap the nipple, then close the striker over that nipple.
- also available in a "Magnum" version (with a stainless-steel 660 mm (26") barrel), as well as a "Mossy Oak" camouflaged version.

Manufacturer

- "Remington" is marked on the left side of the receiver/frame.
- "REMINGTON ARMS CO. INC." and/or "REMINGTON ARMS COMPANY, INC." is marked on the barrel.

Action

- muzzle loading, turn bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial number is marked on the left side of the receiver/frame.

Notes

Make

- "REMINGTON ARMS CO. INC.", "REMINGTON ARMS COMPANY, INC." or "REMINGTON CUSTOM SHOP" is usually marked on the barrel.
- "Remington" is marked on the side of the receiver/frame.

Model

- "Remington" over "MODEL 700" is marked on the side of the receiver/frame.
- appeared in the 1992/1993 catalogue as a stock item only available from the factory custom shop.
- features include: kevlar stock, barreled action may be blued or stainless steel without iron sights.

Action

- turn bolt design.

Serial Number

- located on the side of the receiver/frame.
- observed examlpe consisted of an alpha prefix followed by seven digits.

Calibre

- the calibre is usually marked on the barrel.
- other calibres than those listed may be encountered .

Shots

- the integral magazine will hold four standard (non magnum) cartridges and three magnum cartridges.
- there are aftermarket removable magazine assemblies available.

Remarks

- mountain rifles are usually thought of as light weight, bolt action rifles chambered in a flat shooting centre fire calibre and fitted with a telescopic sight.
- they were designed to be used in rugged or mountainous terrain.
- the Remington Custom Shop produces this type of rifle under several model names.
- the Custom KS means it was produced in the the factory custom shop and has a kevlar stock.

Notes

Make

- "REMINGTON" is marked on the left side of the receiver/frame.

Model

- "MODEL 722" is marked on the left side of the receiver/frame.
- manufactured between 1948 and 1962.
- features included: round barrel; one piece receiver/frame; adjustable trigger; non-detachable staggered column magazine; right side mounted pivoting safety; ramp front sight; step adjustable rear sight; receiver/frame drilled and tapped for scope mount or receiver/frame iron sight and a one piece stock.
- this model was offered in the following grades:
- 722A from 1948 to 1962, featured uncheckered walnut sporter stock.
- 722AC/ADL, featured walnut sporter stock with checkering on the pistol grip and forend.
- 722B from 1953 to 1955, featured a detachable magazine floorplate.
- 722BDL from 1955 to 1962, featured a Monte Carlo stock with a contrasting forend tip and sling swivels.

Manufacturer

- "REMINGTON" is marked on the left side of the receiver/frame.
- "Remington Arms Co. Inc., Ilion, N.Y." and "Made in U.S.A." and "Patent Pending" or "Remington Arms Co., Inc. Ilion, N.Y." and "Made in U.S.A." and Patent No. 2,473,373; 2,514,981 Others Pending" may be marked on the barrel.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial numbers have consisted of six numbers without a letter prefix or suffix.

Calibre

- cartridge designation is usually marked on the barrel.

Shots

- integral box magazine.

Remarks

- the model 722 A is a bolt action with extractor and ejector on the bolt face, internal magazine and Monte Carlo stock (as on all models). The checkering is hand cut in ADL and in addition, the BDL has better figured wood. Offered in A, ADL and BDL though only 721 or 722 appears on the gun. The 721 is the longer action; the 722 is shorter.

Notes

Make

- "REMINGTON" is marked on the left side of the receiver/frame.

Model

- "MODEL 722" is marked on the left side of the receiver/frame.
- manufactured between 1948 and 1962.
- features include: round barrel; one piece receiver/frame; adjustable trigger; right side mounted pivoting safety; ramp front sight; step adjustable rear sight; receiver/frame drilled and tapped for scope mount or receiver/frame iron sight and a one piece stock.
- this model was offered in the following grades:
- 722A from 1948 to 1962, featured uncheckered walnut sporter stock.
- 722AC/ADL, featured walnut sporter stock with checkering on the pistol grip and forend.
- 722B from 1953 to 1955, featured a detachable magazine floorplate.
- 722BDL from 1955 to 1962, featured a Monte Carlo stock with a contrasting forend tip and sling swivels.

Manufacturer

- "REMINGTON" is marked on the left side of the receiver/frame.
- "Remington Arms Co. Inc., Ilion, N.Y." and "Made in U.S.A." and "Patent Pending" or "Remington Arms Co., Inc. Ilion, N.Y." and "Made in U.S.A." and Patent No. 2,473,373; 2,514,981 Others Pending" may be marked on the barrel.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- observed example consisted of six numbers.

Calibre

- the calibre designation is marked on the barrel.

Shots

- integral box magazine.

Remarks

- the model 722 BDL is a bolt action with extractor and ejector on the bolt face, internal magazine and Monte Carlo stock (as on all models). The checkering is hand cut in ADL and in addition, the BDL has better figured wood. Offered in A, ADL and BDL though only 721 or 722 appears on the gun. The 721 is the longer action the 722 is shorter. Made 1948-1962.

Notes

Make

- "Remington" is usually marked on the left side of the receiver/frame.
- "Remington Arms Co. Inc., Ilion. N.Y." and "Made in U.S.A." are usually marked on the barrel.
- "R.E.P." in an oval on the breech end of the barrel is the Remington proof mark.

Model

- "Remington" and "MODEL 725" may be marked on the side of the receiver/frame.
- manufactured from 1958 to 1961.
- also known as the model "725 ADL" or "725 Kodiak".
- total production for all styles was 16,635 units.
- features include (standard grade variants): round tapered barrel; turn bolt action; integral box magazine with hinged floorplate; floor plate release is located inside the trigger guard; thumb operated three position safety mounted on the right side of the firearm; receiver/frame drilled and tapped for scope mounts; ramp front sight with or without hood and step adjustable open rear sight; checkered one piece pistol grip stock with semi-beavertail forend; matte finish on the receiver/frame.
- upgraded versions known as the "725F Premier" or "725D Peerless" with a higher quality American walnut stock (Monte Carlo, offset etc.), engraving, gold inlays and name plates were also available as a custom order item.

Manufacturer

- "Remington" is usually marked on the side of the receiver/frame.
- "Remington Arms Co. Inc., Ilion. N.Y." and "Made in U.S.A." are usually marked on the barrel.

Action

- turn bolt operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number consists of a six digit number, normally in the 700,000 range.

Calibre

- calibre designation is marked on the barrel.

Shots

- internal magazine.

Other Markings

- markings on the barrel may be as follows:
"Remington Arms Co. Inc., Ilion. N.Y. Made in U.S.A."
"Patent No.2,473,373: 2,514,981 Others Pending"

2941 - 2	308 WIN	4	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm.

Model

- produced in 1967 only.
- only 1,968 units were made.
- "CANADIAN CENTENNIAL GUN" over the "EXPO 67" symbol over "1867" and "1967" and "WOODMASTER" over "MODEL 742" are marked on the left side of the receiver/frame.
- there are three distinctive features that help identifiy the Canadian Centennial Gun from the other Remington Woodmaster Model 742.
- serial number starts with a letter "C" prefix.
- a silver medallion, set into the right side of the buttstock. The medallion bears the official crest of each of Canada's ten provinces and two territories and in the center of the twelve crest is the EXPO 67 symbol with Canadian Centennial Gun-1967 around the EXPO symbol.
- a special design is engraved on the left side of the receiver. The design incorporates the EXPO symbol in the center with 1867 and 1967 at the base of the symbol and to the right and left side of the symbol are branches of the Canadian maple leaf in a scroll pattern and in the top center are the words "CANADIAN CENTENNIAL GUN ".

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a letter "C" prefix and four numbers.

Shots

- detachable box magazine.

Notes

Make

- "Remington" is marked on the firearm.

Model

- introduced in 2006.
- this firearm, in barreled action form, is manufactured by Zastava in Serbia, imported into USA by Remington's International Products Division (US Gun South was marked on the observed sample as the importer) and supplied to Remington to their specifications. The firearm is stocked at the Remington Plant in Mayfield, Kentucky, USA.
- features include: round tapered barrel; square bridge Mauser 98 standard length action; controlled round feed with claw extractor; two position safety located on the right side of the receiver/frame; no iron sights; receiver/frame is drilled and tapped for scope mounts; checkered one piece brown laminated pistol grip stock with recoil pad and sling swivel studs; blued finish.
- overall length with a 559 mm (22") barrel is 1073 mm (42 1/4"), 610 mm (24") barrel is 1124 mm (44 1/4"), and 660mm (26") barrel is 1175 mm (46 1/4") and the average weight is 3.2 kgs (7 lbs).

Manufacturer

- the receiver/frame is marked in two lines "ZASTAVA SERBIA".

Action

- turn-bolt design.

Shots

- internal box magazine with front hinged floor plate.

Notes

Make - "Remington" is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 2006.
- the model designation is marked on the left side of the receiver/frame as "REMINGTON Model 799".
- this firearm, in barreled action form, is manufactured by Zastava in Serbia, imported into USA by Remington's International Products Division ("USSG - Sharpes, FL" was marked on the observed sample as the importer) and supplied to Remington to their specifications. The firearm is stocked at the Remington Plant in Mayfield, Kentucky, USA.
- features include: round tapered barrel; square bridge Mauser 98 design, short action; controlled feed, SAKO type claw extractor; two position safety located on the right side of the receiver/frame; not supplied with sights, the receiver/frame is drilled and tapped for scope mounts; checkered one piece brown laminated pistol grip stock with recoil pad and sling swivel studs; blued finish.
- overall length with a 508 mm (20") barrel is 1003 mm (39 1/2") and the average weight is 3.1 kgs (6 3/4 lbs).

Manufacturer

- the receiver/frame is marked in one line "ZASTAVA - SERBIA".

Action

- turn-bolt design.

Serial Number

- the serial number is found on the right forward portion of the receiver/frame.
- observed specimen serial numbers consisted of two letters followed by nine digits, the first two of the digits are 85. It is believed the serial number rationalization is as follows: ZA = Zastava Arms and the first two digits (85) are the Zastava model number.

NOTE: - the entire sequence of eleven letters and numbers is deemed to be the serial number.

Shots

- internal box magazine with front hinged floor plate.
- detachable box magazine for the variant model in 22 HORNET calibre.

- manufactured between 1967 and 1973.
- "Remington" over "MODEL 812" is usually marked on the underside of the receiver/frame.
- features include: round barrel with a bead front sight; front hinged receiver/frame with the break open action release button located at the front of the trigger guard; automatic ejection; exposed spur hammer; plastic trigger guard; walnut finished Brazilian hardwood forearm and semi-pistol grip buttstock; blued finish.

Manufacturer

- "CBC", "Made in Brazil", "Made in Brazil by CBC", "Made in Brazil" and "By Companhia Brasileira de Cartuchos" or "Made in Brazil", "By Companhia Brasileira de Cartuchos" and "S.Andre-Est. S.Paulo" may be marked on the receiver/frame or barrel.
- "CBC" is the acronym for Companhia Brasileira de Cartuchos.
- Companhia Brasileira de Cartuchos (CBC) is a Brazilian company that primarily produces ammunition but they also manufacture airguns, revolvers, break open shotguns and double rifles under their own name and contracted "house brand" firearms.

Action

- hinged barrel design.

Serial Number

- serial number was observed marked on the underside of the receiver/frame in front of the trigger guard.
- serial number may be repeated on the barrel lug extension without the letter prefix.
- serial numbers observed consisted of a letter "C" prefix and five numbers.
- serial numbers observed consisted of a letter "C" prefix and six numbers.

Calibre

- the calibre designation is marked on the barrel.

Other Markings

- an observed example was marked "PROOF TESTED" on the left side of the barrel near the breech.

Notes

Make

- the "Remington" tradename is marked on the left side of the receiver/frame.

Model

- the model designation is marked on the left side of the receiver/frame.
- introduced in 1950.
- this model replaced the Remington Model 31.
- this is a generic model. Other "870" entries exist which may better describe the firearm.
- this is a pump action takedown hammerless repeating shotgun.
- features include: smooth bore or rifled interchangeable round barrel with or without rib; solid top steel receiver/frame with left or right side ejection port and bottom loading port; dual action bars; cross bolt safety located on the rear of the trigger guard; action release located on the front of the trigger guard; bead sights, rifle sights, or ghost ring sights; standard or extended magazine tube; wood, black, camo or orange synthetic ribbed forearm and pistol grip buttstock with or without "Speedfeed" or synthetic pistol grip and folding metal buttstock or synthetic pistol grip only; nickel, parkerize or blue finish; with or without sling swivels.

Manufacturer

- the manufacturer's name is marked on the right side.

Action

- slide action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the side of the receiver/frame.
- observed serial number consisted of a two letter "AB" prefix, six numbers and a letter "M" suffix.
- observed serial number consisted of a two letter "AB" prefix, six numbers and a letter "U" suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- the calibre designation is marked on the barrel.
- in 1987, chamber dimensions were increased to allow the use of 12 GA x 3", 20 GA x 3" and 410 GA x 3". The 3" cartridges size became the North American industries standard.

Shots

- this shotgun feeds from a tubular magazine, located under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "Remington 870" is marked on the left side of the receiver/frame.
- "DLASK ARMS CORP. 6 1/2" 2 3/4" - 3"" is marked on the left side of the barrel.

Model

- "Remington 870" is marked on the left side of the receiver/frame.
- this Remington model 870 has been modified by Dlask Arms Corporation to a model SMD 12 type configuration.
- features include: round Dlask smoothbore barrel with a block type front sight; flat sided model 870 receiver/frame with right side ejection and bottom loading port; dual action bars; action release is mounted on the left front side of the trigger guard; cross bolt safety mounted on the trigger guard; black synthetic folding ribbed forearm grip; synthetic Hogue pistol grip.
- overall length is approximately 451 mm (17 3/4").

Manufacturer

- "DLASK ARMS CORP." is marked on the barrel.
- "Remington" is marked on the left side of the receiver/frame.
- "DA", "DAC", "DA CORP", "DLASK", and "DLASK ARMS CORP" are trademarks used by "Dlask Arms Corporation".
- "Dlask Arms Corporation" is a manufacturer and distributor located in Delta, British Columbia, Canada.
- "Dlask Arms Corporation" was incorporated in July of 1989.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - observed serial number consisted of a two letter "RS" prefix, five numbers, and a letter "D" suffix.
Barrel	- "DLASK ARMS CORP. 6 1/2" 2 3/4" - 3"" is marked on the side of the barrel.
Calibre	- "DLASK ARMS CORP. 6 1/2" 2 3/4" - 3"" is marked on the side of the barrel.
Shots	- tubular magazine is mounted under the barrel.
Canadian Law Comments	- this firearm is normally Non-Restricted unless affected by the following conditions: 1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada. - "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands. 2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada. 3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada. - "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted, (i) is less than 660 mm in length, or (ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

2052 - 1	12 GA X 2 3/4"	1	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the "Remington" trade name is marked on the receiver/frame.

Model

- the model designation is marked on the right side of the receiver/frame as "COMPETITION".
- supposedly available from 1980 to 1986. This firearm does not appear to have been featured in any Remington catalog after 1981.
- "870" is marked on the left side of the receiver/frame.
- NOTE: this shotgun is a true single shot mechanism as the cartridge lifter latch cuts in the receiver/frame have been omitted, the false magazine contains a gas assisted recoil absorbing system which operates by bleeding gas from the barrel into a spring-buffered inertia piston which is housed in the "magazine tube"; regular 870 shotgun barrels cannot be installed on this receiver/frame.
- features include: target trigger; ventilated rib barrel; solid receiver/frame with side ejection; fancy wood butt, trap style extended fore-end, hand checkered furniture; special recoil reduction system.

Manufacturer

- "Remington" is marked on the receiver/frame.
- the manufacturer's name and address are marked on the barrel.

Action

- manually operated, pump actuated, single shot firearm.

Serial Number

- the serial number is marked on the side of the receiver/frame.

Barrel

- this firearm was available only with a full choke 762mm (30") barrel.

FRT Report

Firearm Reference Number (FRN): 25063
Make: Remington
Model: 870 DM Tactical

Summary

Make:	Remington
Model:	870 DM Tactical
Manufacturer:	Remington
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Pump Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
25063 - 1	12 GA X 3"	3	470	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
25063 - 2	12 GA X 3"	6	470	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Remington" was observed marked on the left side of the receiver/frame.
- "REMINGTON ARMS COMPANY" may be marked on the barrel.

Model

- introduced in 2017.
- "870 DM" was observed marked on the left side of the receiver/frame.
- this is a detachable box magazine fed version of the Remington 870 pump action shotgun.
- features include: ghost ring rear sight and rifle style front sight; screw-in interchangeable choke; sheet metal magazine well attached to the receiver/frame with through bolts; magazine release latch located at the front of the magazine well; action release lever located between the magazine well and the trigger guard; crossbolt safety located at the rear of the trigger guard; black synthetic serrated forearm and vertical pistol grip buttstock; rubber recoil pad; sling swivel studs; matte black oxide/phosphate finish.
- other versions of the 870 DM featuring different buttstocks, forearms, sight options and finish are available.
- overall length with a 470 mm (18 1/2") barrel is 978 mm (38 1/2").
- average weight is 3.4 kgs (7 1/2 lbs)

Manufacturer

- "Remington" was observed marked on the left side of the receiver/frame.
- "REMINGTON ARMS COMPANY" may be marked on the barrel.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.

Calibre

- calibre designation may be marked on the barrel assembly.

Notes

Serial Number

- the letter "DU" appears in the serial number.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Barrel

- Vent rib.

Shots

- tubular magazine is mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Remarks

- the Model 870 Ducks Unlimited 1974 Mississippi Edition is a variation of the basic 870. The 870 DU have limited production numbers and the characteristics range from DU prefix on the serial number to added identification plaques on the side of the receiver. The first 500 of the series are designated Dinner Guns.

Notes

Make

- the "Remington" trade name is marked on the side of the receiver/frame.

Model

- "870 Express" is marked on the side of the receiver/frame.
- introduced in 1989.
- this is a slide action hammerless repeating shotgun with a tubular magazine.
- features include: interchangeable barrel with smooth bore and plain or ventilated rib and one or two beads or rifle sights or a rifled bore with rifle sights; interchangeable or fixed choke; solid top receiver/frame with side ejection and bottom loading port; hammerless; checkered wood or synthetic forend and stock; matte black or camouflage finish.
- there are numerous after market accessories available for the 870 family of shotguns. Side or top folding stocks may be encountered as well as models that have a pistol grip buttstock or pistol grip only.

Manufacturer

- "Remington" is marked on the side of the receiver/frame.
- the manufacturer's name and address are marked on the barrel.

Serial Number

- serial number is marked on the side of the receiver/frame.
- observed serial number consisted of a letter prefix, six numbers and a letter suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- the calibre and chamber length are marked on the barrel.

Shots

- the tubular magazine is located under the barrel.
- magazine tube extensions are available from several companies that will increase the capacity of the magazine by 1, 2, 3, 4 or 5 shots. Some magazines will be plugged so that they will only hold 2 shells for hunting purposes. These accessories are easily removed and installed, so the actual number of shots of the firearm may differ from manufacturers specifications.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Remarks

- the 870 Express was also sold as a combination package that included a 660mm or 711mm ventilated rib barrel and a 508mm rifled barrel intended for deer hunting.

Notes

Make

- "Remington 870 EXPRESS MAGNUM" is marked on the left side of the receiver/frame.
- "DLASK ARMS CORP. 8 1/2" 2 3/4" - 3"" is marked on the left side of the barrel.

Model

- "Remington 870 EXPRESS MAGNUM" is marked on the left side of the receiver/frame.
- this Remington model 870 Express Magnum has been modified by the Dlask Arms Corporation.
- features include: round Dlask smoothbore barrel with a block type front sight; flat sided model 870 Express Magnum receiver/frame with right side ejection and bottom loading port; dual action bars; action release is mounted on the left front side of the trigger guard; cross bolt safety mounted on the trigger guard; black synthetic forend with accessory rails and safety strap; traditional full length pistol grip buttstock or Hogue "Tamer" pistol grip.
- overall length with a 216 mm (8.5") barrel and a pistol grip only is approximately 457 mm (18").
- overall length with a 216 mm (8.5") barrel and a full length traditional pistol grip buttstock is approximately 737 mm (29").

Manufacturer

- "DLASK ARMS CORP." is marked on the left side of the barrel.
- "Remington" is marked on the left side of the receiver/frame.
- "DA", "DAC", "DA CORP", "DLASK", and "DLASK ARMS CORP" are trademarks used by "Dlask Arms Corporation".
- "Dlask Arms Corporation" is a manufacturer and distributor located in Delta, British Columbia, Canada.
- "Dlask Arms Corporation" was incorporated in July of 1989.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a two letter "AB" prefix, six numbers, and a letter "M" suffix.

Barrel

- "DLASK ARMS CORP. 8 1/2" 2 3/4" - 3"" is marked on the side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- "DLASK ARMS CORP. 8 1/2" 2 3/4" - 3"" is marked on the side of the barrel.

Shots

- tubular magazine is mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacturer that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- the "Remington" trade name is marked on the side of the receiver/frame.

Model

- "870 Express" is marked on the side of the receiver/frame with a National Wild Turkey Federation medallion in the right side of the stock.
- introduced in 2004.
- this is a slide action repeating shotgun with a tubular magazine.
- features include: Rem Choke barrel with ventilated rib and bead front sights; solid top receiver/frame with side ejection and bottom loading port; hammerless; checkered camouflage synthetic forend and pistol grip stock; matte black metal finish.

Manufacturer

- "Remington" is marked on the side of the receiver/frame.
- the manufacturer's name and address are marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the alpha-numeric serial number is usually marked on the left side of the receiver/frame.
- when present, the serial number suffix letter indicates the receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Shots

- tubular magazine mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.

- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Barrel

- optional ventilated rib.

Calibre

- the calibre and chamber length are marked on the barrel.

Shots

- tubular magazine is located under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

127144 - 1	20 GA X 3"	4	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Remington" was observed marked on the left side of the receiver/frame.

Model

- "Remington Model 870 LW" was observed marked on the left side of the receiver/frame.
- "Ducks Unlimited Special" was observed marked on the left side of the receiver/frame.
- features include: round tapered barrel with ventilated rib and bead front sight; solid top receiver/frame with right side ejection and bottom loading port; action release located on the left front side of the trigger guard; cross bolt safety located on the rear of the trigger guard; gold plated trigger; checkered walnut forearm and pistol grip buttstock with recoil pad; blued finish.

Manufacturer

- "Remington" was observed marked on the left side of the receiver/frame.
- manufacturer's name and address are usually marked on the side of the barrel.

Action

- magnum 870.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of four numbers, two letters "DU" and two numbers.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Shots

- tubular magazine mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- make is marked on the barrel.

Model

- introduced in 1964.
- "Remington Model 870 MAGNUM" is marked on the side of the receiver/frame.

Manufacturer

- manufacturer's designation is marked on the receiver/frame.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of six numbers and a letter "M" suffix.
- observed serial number consisted of a letter "W" prefix, six numbers and a letter "M" suffix.
- observed serial number consisted of a letter "X" prefix, six numbers and a letter "M" suffix.
- observed serial number consisted of a two letter "AB" prefix, six numbers and a letter "M" suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Barrel

- plain or ventilated ribbed barrels available.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - gauge and chamber length are marked on the barrel.

Shots - tubular magazine is mounted under the barrel.

Canadian Law Comments - this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been designed or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

- "X" full size receiver/frame for 20 GA X 2 3/4".

Barrel

- Vent rib or plain.

Calibre

- 3" standard after 1985. Rem Choke standard 1987.

Shots

- tubular magazine is mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Remarks

- the model 870 Magnum Duck Gun is a variation of the basic 870.

- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- gauge and chamber length are marked on the barrel.

Shots

- tubular magazine is mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

2057 - 4	12 GA X 3"	4	813	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the "Remington" trade name is marked on the side of the receiver/frame.

Model

- introduced circa 1982.
- this is a variation of the basic model 870 first offered in 1950.
- "Remington", "Model 870", "Magnum" and "the River" in scroll work was observed marked on the left side of the receiver/frame.
- "Ducks Unlimited", "Mississippi Edition" and the DU mallard head symbol was observed marked on the right side of the receiver/frame.
- features include: round smoothbore barrel with a ventilated top rib, bead front sight and fixed chike; solid top receiver/frame with right side ejection and bottom loading port; two action bars; action release is located on the front left side of the trigger guard; cross-bolt safety is mounted on the rear of the trigger guard; gold plated trigger; single action trigger mechanism; checkered walnut forearm and pistol grip buttstock with pistol grip cap and ventilated recoil pad; blued finish with gold accents.

Manufacturer

- "Remington" is marked on the side of the receiver/frame.
- the manufacturer's name and address are marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number has a two letter "DU" prefix.
- observed serial number consisted of the letters "DU" and six numbers, eg "DU82 6###".
serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- calibre designation is marked on the barrel.

Shots

- the tubular magazine is mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "Remington" is marked on the left side of the receiver/frame.

Model

- introduced in the 1950s.
- "870 Police" is a variation of the basic "870" Model.
- police agency property marks may be located on the left side of the receiver/frame.
- "870 Police" is a pump action takedown hammerless repeating shotgun.
- features include: interchangeable round barrel; solid top steel receiver/frame with right side ejection port and bottom loading port; dual action bars; cross bolt safety located on the rear of the trigger guard; action release located on the front of the trigger guard; bead sights, rifle sights, or ghost ring sights; standard or extended magazine tube; wood, black or orange synthetic ribbed forearm and pistol grip buttstock with or without "Speedfeed" or synthetic pistol grip and folding metal buttstock; parkerize or blue finish; sling swivels.

OVERALL LENGTH with a Folding Buttstock:
- in the folded position and a 356 mm (14") barrel is 616 mm (24 1/4");
- in the folded position and a 457 mm (18") barrel is 718 mm (28 1/4"); and
- in the folded position and a 508 mm (20") barrel is 768 mm (30 1/4").

OVERALL LENGTH with a Fixed Buttstock:
- and a 356 mm (14") barrel is 876 mm (34 1/2");
- and a 457 mm (18") barrel is 978 mm (38 1/2"); and
- and a 508 mm (20") barrel is 1029 mm (40 1/2").

NOTE - some versions of this shotgun are available from the factory as designated "Less Lethal" firearms, from which only riot-control, tear-gas, and similar rounds are intended to be fired.

Manufacturer

- "Remington" is marked on the left side of the receiver/frame.
- "REMINGTON ARMS COMPANY" is marked on the barrel.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial numbers have an "A", "AB" or "B" prefix, followed by six numbers and a "M" or "V" suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- "12 GA. for 2 3/4 or shorter shells" or "12 GA 2 3/4" or 3"" is marked on the barrel.
- the 3" chamber will accept all 12 GA X 3" shells and any 12 GA. shells shorter than 3".

Shots

- this shotgun feeds from a fixed tubular magazine located under the barrel.
- the number of shot is calculated on the number of shells the tubular magazine will hold and does not include a shell in the chamber.

Canadian Law Comments

- some versions of this shotgun are available from the factory as designated "Less Lethal" firearms, from which only riot-control, tear-gas, and similar rounds are intended to be fired; however, they remain "CC2 firearms".

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Other Markings

- this model has been sold with different markings on the receiver/frame:
"Wingmaster Model 870" or "870P" or "870 Police" or "870 Police Magnum".

Notes

Make

- "Remington" is marked on the left side of the receiver/frame.
- "REMINGTON ARMS COMPANY" is marked on the barrel.

Model

- "Remington 870 POLICE MAGNUM" is marked on the left side of the receiver/frame.
- features include: bead front sight or a blade front sight and an adjustable rear sight; removable round barrel with fixed or removable choke; solid top receiver/frame with right side ejection and bottom loading; double action bars; action release is located at the front of the trigger guard; cross bolt safety is located at the rear of the trigger guard; wood or synthetic forearm and wood, synthetic or metal pistol grip only, top folding, fixed or collapsible buttstock; parkerized finish.
- Remington's "MCS" (Modular Combat System) kit is available which gives the option of modifying the shotgun to a breaching or a tactical entry or a high capacity conventional shotgun configuration. This is a quick change kit which consists of a pistol grip, a one piece pistol grip with a straight stock, a 254MM (10"), 356MM (14") or 457MM (18") barrel with fixed or removable chokes and fixed or adjustable sights, optic rail, magazine extensions, shell carriers, tactical sling attachments and a cleaning rod.
- overall length with a 254 mm barrel and a pistol grip only is 514 mm.
- overall length with a 254 mm barrel and a full length tactical stock is 737 mm.
- overall length with a 356 mm barrel and a pistol grip only is 610 mm.
- overall length with a 356 mm barrel and a full length tactical stock is 844 mm.
- overall length with a 457 mm barrel and a full length tactical stock is 959 mm.
- approximate weight is from 2.95 to 3.6 kgs.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the side of the receiver/frame.
- observed serial number consisted of a letter prefix, six numbers and a letter suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- gauge and chamber length are marked on the barrel.

Shots

- tubular magazine is mounted under the barrel.
- Remington offers a magazine extension that increases the shot capacity to seven cartridges.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "REMINGTON ARMS COMPANY, INC." is marked inside an oval on the left side of the receiver/frame.

Model

- "Model 870" and "180th Anniversary Limited Edition" is marked on the left side of the receiver/frame in gold inlay.
- 180 sets made in 1996 to commemorate the 180th anniversary of the founding of Remington that included the models: 700 BDL; 7600; 7400; 870 and 11-87.
- features include: blued tapered round barrel with top ventilated rib; smooth bore; bead front sight; solid top receiver/frame with bottom feed and right side ejection; action release is located at the front of the trigger guard; cross bolt safety; checkered forearm and semi-pistol grip buttstock.

Manufacturer

- the manufacturer's name and address are marked on the barrel.
- "Remington" is marked on the side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number for each model in this series begins with the model number, eg. 870 followed by ER and 001 up to 180. Each of the five models in each set have the same last three numbers.
serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Shots

- tubular magazine mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

2067 - 2	12 GA X 3"	7	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- introduced in 1950 and discontinued in 1991.

Action

- Made on magnum 870 action.

Serial Number

- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Barrel

- No ventilated rib. The 20" barrel has rifle sights.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- tubular magazine is mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Remarks

- The model 870 Riot is a variation of the basic 870. This model has a hardwood stock and matte finish, made expressly for rough use.

Notes

Make

- the "Remington" trade name is marked on the side of the receiver/frame.

Model

- the model designation of "870 SP Magnum" is not marked on the firearm.
- "Remington 870 Magnum" and "Special Purpose" may be marked on the sides of the receiver/frame.
- the "870 Special Purpose Magnum" was introduced in 1986.
- features include: interchangeable round barrel with Rem Choke; ventilated rib; solid top receiver/frame with side ejection and bottom loading port; hammerless; takedown; cross-bolt safety located behind trigger; matte black finish on the receiver/frame and barrel; matte finish checkered wood forend and pistol grip butt stock with sling swivels and recoil pad.

Manufacturer

- "Remington" is marked on the side of the receiver/frame.
- the manufacturer's name and address are marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the side of the receiver/frame.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- the calibre and chamber length are marked on the barrel.

Shots

- the tubular magazine is located under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make - the make "REMINGTON" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation appears on the receiver/frame as "870" and "SPECIAL PURPOSE".
- this is a Remington model 870 Special Purpose with a synthetic buttstock and forearm.
- the 870 SPS has been offered in several specific variations, some are offered with camouflage finishes, with a rifled barrel, or with a cantilevered scope mount. These are usually marketed with descriptive names such as "870 SPS Deer", "870 SPS-T" (for turkey hunters), "870 SPS Camo" (with camouflage finish) and others.
- overall length with a 648mm (25 1/2") barrel is 1194mm (47"), average weight is 3.57kgs (7.7/8lbs).

Manufacturer

- the manufacturer's name "REMINGTON" is marked on the left side of the receiver/frame.

Serial Number

- serial number is located on the left side of the receiver/frame.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- the calibre designation is marked on the left side of the barrel.

Shots

- tubular magazine fed.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- the 20 gauge version was introduced in 2004.

Shots

- tubular magazine mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Remarks

- the model 870 Special Purpose Synthetic Deer Gun is a variation of the basic 870. This All Purpose (AP) model has synthetic stock and forearm, and has a fully rifled barrel.

- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Barrel

- No Vent rib, has rifle sights .

Shots

- tubular magazine is mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Remarks

- the model 870 SPS-BG (Special Purpose Synthetic Big Game) is a variation of the basic 870.

Notes

Make

- "REMINGTON" is marked on the receiver/frame and "REMINGTON ARMS CO. ILION, NY" is marked on the barrel.

Model

- introduced in 2005.
- "Remington 870 SUPER MAGNUM" is marked on the left side of the receiver/frame.
- "SPECIAL PURPOSE" is marked on the right side of the receiver/frame.
- "SP-T" is the abbreviation for "Special Purpose Turkey".
- features include: removable barrel with Truglo fiber optic adjustable rear sight and fixed front sight; interchangeable choke system; tubular bottom fed and right side ejection receiver/frame; a cross bolt safety is located at the rear of the trigger guard and a slide release is located at the front of the trigger guard; thumbhole laminated buttstock with a recoil pad; barrel, receiver/frame, forearm and buttstock are mossy oak finished.
- similar to the model 870 SPS-T Super Magnum which is available with a solid synthetic pistol grip stock.
- overall length with a 584mm (23") barrel is 1130mm (44 1/2"), average weight is 3.69kg (8.12lbs).

Manufacturer

- "REMINGTON" is marked on the receiver/frame and "REMINGTON ARMS CO. ILION, NY" is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is located on the left side of the receiver/frame
- serial number consist of a letter prefix, six numbers and a letter suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- is marked on the left side of the barrel.

Shots

- tubular fed magazine.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

- "Remington 870 SUPER MAGNUM" is marked on the left side of the receiver/frame.
- "SPECIAL PURPOSE" is marked on the right side of the receiver/frame.
- "SPS-T" is the abbreviation for "Special Purpose Synthetic Turkey".
- features include: various sight and sight mounting configurations: rifle sights, cantilever mounts etc.; interchangeable choke system; standard pistol grip or thumbhole stock with recoil pad; cross-bolt safety to rear of trigger; finish is non glare flat black, Mossy Oak or Bottomland camouflage..
- overall length with a 584 mm (23") barrel is 1130 mm (44.5"), and the average weight is 3.69 kgs (8 1/8 lbs).

Manufacturer

- "Remington" is marked on the receiver/frame.
- the manufacturer's name and address are marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a "AB" prefix, six numbers and a "A" suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Shots

- tubular magazine is mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "Remington" is marked on the left side of the receiver/frame and on the barrel.

Model

- "Remington 870 TACTICAL" is marked on the left side of the receiver/frame.
- introduced in 2007.
- features include: round tapered barrel with a bead front sight; solid top receiver/frame with tubular bottom fed magazine and right side ejection port; cross bolt safety is located at the rear of the trigger guard and action release is located at the front of the trigger guard; black or desert camo synthetic forearm and SpeedFeed IV pistol grip buttstock or pistol grip with Knoxx SpecOps folding metal stock or pistol grip with retractable stock; blasted black oxide metal finish.
- overall length with a 457 mm (18.0") barrel is 978 mm (38.5"), and average weight is 3.40 kgs (7.5 lbs).
- available with a "Magpull SGA" adjustable stock and "MOE" forend.
- available with ghost ring sights.
- available with six position stock.

Manufacturer

- the manufacturer's name is marked on the side of the receiver/frame and barrel.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a two letter "AB" prefix, six numbers and a letter "M" suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- calibre is usually marked on the barrel.

Shots

- tubular magazine mounted under the barrel with factory magazine extension (2 or 3 shots) that increases the capacity to six or seven cartridges.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make - "Remington" is marked on the left side of the receiver/frame and on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 2006.
- "Remington 870 TACTICAL MAGNUM" is marked on the left side of the receiver/frame.
- features include: round tapered barrel with front bead sight and fixed cylinder choke; solid top receiver/frame with tubular bottom fed magazine and right side ejection port; cross bolt safety is located at the rear of the trigger guard and action release is located at the front of the trigger guard; black synthetic forearm and pistol grip stock or buttstock with recoil-absorbing spring-loaded cam and adjustable length of pull from 12" to 16"; olive drab green metal finish; key lock safety system.
- overall length with a 470 mm (18.5") barrel is 1219 mm (38.5"), and average weight is 3.40 kgs (7.5 lbs).

Manufacturer

- the manufacturer's name is marked on the side of the receiver/frame and barrel.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a two letter "AB" prefix, six numbers and a letter "M" suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- marked on the left side of the barrel.

Shots

- tubular magazine mounted under the barrel with factory magazine extension that increases the shot capacity to seven cartridges (4+3)

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "REMINGTON" trade name is marked on the side of the receiver/frame.

Model

- "Remington", "Wingmaster" and "MODEL 870" is marked on the left side of the receiver/frame or "Remington 870" is marked on the left side of the receiver/frame and "Wingmaster" is marked on the right side of the receiver/frame.
- 870 Wingmaster was first introduced in 1950 as the model 870 Wingmaster AP, ADL or BDL.
- 870 Wingmaster AP, AP Bushmaster, ADL, ADL Bushmaster, BDL, Magnum AP and Magnum ADL were manufactured from 1950 to 1963.
- 870 Field Wingmaster model was introduced in 1964.
- 870 Wingmaster is available with different grades of wood, with or without a ventilated rib barrel and several barrel lengths.
- barrels may have a ramp front sight with adjustable rear sight, or a simple bead sight or may be equipped with a "Cantilever" barrel mounted scope rib.
- also available in a "Junior" or "Youth" version with a shorter barrel and buttstock with a shorter length of pull.

Manufacturer

- the manufacturer's name and address are marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the side of the receiver/frame.
- observed serial number consisted of a letter prefix, six numbers and a letter suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".
- NOTE: the following United States Patent Office numbers have been observed marked on Remington barrels: 2,039,814 / 2,675,636 / 2,719,375 / 2,780,881. These are not serial numbers.

Calibre

- the 28 GA and 410 GA calibres were discontinued in late 1994.
- calibre designation is marked on the left side of the barrel.

Shots

- tubular magazine mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

FRT Report

Firearm Reference Number (FRN): 120352
Make: Remington
Model: 870 Wingmaster 50th Anniversary Classic Trap

Summary

Make:	Remington
Model:	870 Wingmaster 50th Anniversary Classic Trap
Manufacturer:	Remington
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Pump Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
120352 - 1	12 GA X 2 3/4"	4	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm.

Model

- the model designation is marked in the gold inlays on the receiver/frame.
- this is a limited-edition version of the Remington 870 Wingmaster shotgun, made specifically for trap shooters and as a 50th anniversary commemorative of the first Remington shotgun made specifically for trap shooting.
- features include: deluxe gloss finished, checkered walnut, Monte Carlo style pistol-grip stock and forearm; blued finish; ventilated rib on barrel; interchangeable screw-in choke tubes; scroll engraving on both sides of the receiver; and a gold-filled engraved shield and banner on the left side of the receiver/frame.

Manufacturer

- the manufacturer is marked on the firearm.

Serial Number

- serial number is marked on the receiver/frame.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - tubular magazine.

Canadian Law Comments - this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- the "Remington" trade name is marked on the firearm.

Model

- "870 Wingmaster ADL" was manufactured from 1950 to 1963.
- this is a slide action, hammerless, take-down shotgun.
- features include: interchangeable plain, matted top surface or ventilated rib barrel with fixed choke and bead front sight; solid top receiver/frame with right side ejection and bottom loading; fixed tube magazine; two sliding action bars; cross bolt safety; removable trigger group; checkered beavertail forearm and pistol grip buttstock.
- the ADL is the deluxe version of the 870 Wingmaster AP.

Manufacturer

- "Remington" is marked on the receiver/frame and on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the receiver/frame.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Barrel

- vent rib or plain.

Shots

- factory literature lists 5 shot capacity: 4 in magazine, plus one in chamber.
- may be plugged to 3 shot total capacity for hunting under the Migratory Birds Regulation.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Model

- "870 Wingmaster BDL" model was manufactured from 1950 to 1963.
- this is a slide action, hammerless, magazine fed, take-down shotgun.
- features include: interchangeable matted top surface or ventilated rib barrel with fixed choke and bead front sight; solid top receiver/frame with right side ejection and bottom loading; fixed tube magazine; two sliding action bars; cross bolt safety; removable trigger group; select American walnut forearm and semi-pistol grip buttstock.

Serial Number

- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Barrel

- vent rib or plain.

Shots

- factory literature lists 5 shot capacity: 4 in magazine, plus one in chamber.
- may be plugged to 3 shot total capacity for hunting under the Migratory Birds Regulation.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Model

- offered for trap and competition trade on special order.
- is a variation of the basic Wingmaster model "870".
- introduced in 1950.

Serial Number

- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Barrel

- may be custom ordered in other barrel lengths.

Shots

- tubular magazine is mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "Remington Model - 870" was observed marked on the left side of the receiver/frame.

Model

- "Remington Model - 870" was observed marked on the left side of the receiver/frame.
- the model designation is marked on the left side of the receiver/frame.
- production of the Ducks Unlimited line started in 1974.
- Ducks Unlimited name or "Duck Head" logo will be visible on the receiver/frame.
- the "Ducks Unlimited Commemorative" line of Remington 870's are decorated versions of the Remington 870 Wingmaster shotgun.
- features include: smooth bore round barrel with or without rib; solid top steel receiver/frame with left or right side ejection port and bottom loading port; dual action bars; cross bolt safety located on the rear of the trigger guard; action release located on the front of the trigger guard; bead sights.

Manufacturer

- "Remington Model - 870" was observed marked on the left side of the receiver/frame.

Action

- pump/slide action takedown hammerless repeating shotgun.

Serial Number

- serial number may be located on the left side of the receiver/frame directly above the trigger group.
- serial number has the letters "DU" as either a prefix or suffix, eg. "DU501" or "5001DU".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- vent rib.
Calibre	- gauge and chamber lengths will be marked on the barrel.
Shots	- tubular magazine is mounted under the barrel.
Canadian Law Comments	- this firearm is normally Non-Restricted unless affected by the following conditions: 1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada. - "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands. 2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada. 3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada. - "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted, (i) is less than 660 mm in length, or (ii) is 660mm or greater in length and has a barrel less than 457 mm in length.
Other Markings	- The word WINGMASTER appears as a logo on left side of action. Ducks Unlimited design imprinted in metal or enamelled plaque left side of action.
Remarks	- the model 870 Ducks Unlimited is a variation of the basic 870 first offered in 1950. The 870 DU have limited production numbers and the characteristics range from DU prefix on the serial number to added identification plaques on the side of the receiver.

Notes

Make

- "Remington" is marked on the right side of the receiver/frame.
- "REMINGTON ARMS CO., INC. ILION, N.Y. MADE IN U.S.A." over "PATENT NO'S 2,719,375 - 2,675,638 - 2,780,881" was observed marked on the right side of the barrel.
- "REP" inside an oval was observed marked on the right side of the barrel.

Model

- "Remington" and "Wingmaster" over "MODEL 870 LH" was observed marked on the right side of the receiver/frame.
- features include: removable round smooth bore barrel with ventilated rib and bead front sight; solid top receiver/frame with left side ejection and bottom loading; hammerless; twin action bars; action release located on the front left side of the trigger guard; cross bolt safety located on the rear of the trigger guard; checkered walnut forearm and pistol grip butt stock with recoil pad; blued finish.

Manufacturer

- "Remington" is marked on the right side of the receiver/frame.
- "REMINGTON ARMS CO., INC. ILION, N.Y. MADE IN U.S.A." over "PATENT NO'S 2,719,375 - 2,675,638 - 2,780,881" was observed marked on the right side of the barrel.
- "REP" inside an oval was observed marked on the right side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number was observed marked on the right side of the receiver/frame.
- observed serial number consisted of a letter "S" prefix, six numbers and a letter "V" suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- "*12 GA.* L.H. FOR 2 ¾ OR SHORTER SHELLS" over "FULL" was observed marked on the left side of the barrel.

Shots

- tubular magazine mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "REMINGTON" is marked on the left side of the receiver/frame.

Model

- introduced in 2005.
- "870 WINGMASTER" is marked on the left side of the receiver/frame.
- "National Rifle Association" logo is laser etched on the right side of the receiver/frame and the "NRA Heritage" logo is laser etched on the left side.
- this National Rifle Association Limited Edition is one of three models offered by Remington in conjunction with the National Rifle Association's Firearm Safety, Marksmanship, Personal Safety, Hunting and Natural Resource Conservation ("Mean Green") programs.
- these models are the 870 Wingmaster NRA Limited Edition, 11-87 Sportsman NRA Limited Edition and 552 Speedmaster NRA Limited Edition.
- features include: blued tapered round barrel with top ventilated rib; smooth bore; interchangeable choke; bead front sight; solid top receiver/frame with bottom feed and right side ejection; action release is located at the front of the trigger guard; cross bolt safety; single action trigger mechanism; checkered forearm and semi-pistol grip butt stock.
- overall length for a 711mm (28") barrel is 1232mm (48.5"), average weight is 3.3kg (7.25lbs).

Manufacturer

- "REMINGTON" is marked on the left side of the receiver/frame and on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a three letter "NRA" prefix, four numbers an a letter "M" suffix.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Calibre

- calibre designation may be marked on the barrel assembly.

Shots

- tubular magazine fed.
- may be factory plugged to 2-round magazine capacity in accordance with hunting regulations.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125613 - 1	12 GA X 2 3/4"	4	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "REMINGTON ARMS COMPANY, INC." is marked inside an oval on the left side of the receiver/frame.

Model

- "REMINGTON ARMS COMPANY, INC.", "1816-1966" and "150th ANNIVERSARY" is marked inside an oval on the left side of the receiver/frame.
- 1000 examples of this model were produced in 1966 to commemorate the 150th anniversary of the Remington Arms Company.
- this model is a deluxe version of the 870 Wingmaster.

Manufacturer

- the manufacturer is marked on the firearm.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number suffix letter indicates receiver/frame size as follows:
- "A" full size receiver/frame for 12 GA X 3 1/2"
- "B" full size receiver/frame for 12 GA X 3 1/2"
- "H" small size receiver/frame for 410 GA X 3"
- "J" small size receiver/frame for 28 GA X 2 3/4"
- "K" small size receiver/frame for LW in 20 GA X 2 3/4"
- "K" small size receiver/frame for LT in 20 GA X 2 3/4"
- "M" full size receiver/frame for 12 GA X 3"
- "N" full size receiver/frame for 20 GA X 3"
- "U" small size receiver/frame for LT-20 in 20 GA X 3"
- "V" full size receiver/frame for 12 GA X 2 3/4"
- "W" full size receiver/frame for 16 GA X 2 3/4"
- "X" full size receiver/frame for 20 GA X 2 3/4".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- tubular magazine mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "REMINGTON" may be marked on the left side of the receiver/frame and "REMINGTON ARMS CO. ILION. NY." may be marked on the barrel, "REMINGTON" over "MPD" (Military products Division) may be marked on the receiver/frame.

Model

- "ACR" was observed marked on the firearm.
- "ACR" stands for "Adaptive Combat Rifle".
- this is a modular design rifle.
- features include: aluminum alloy upper receiver/frame; various types of polymer lower assemblies (pistol grip / trigger / magazine housing) to accommodate different types of magazines attached to the upper receiver/frame using cross-pins; trigger/manual safety unit is made as a single removable item, and utilizes AR-15-compatible parts; quick-detachable barrels with short-stroke gas pistons attached to each barrel; polymer handguards; barrels are free-floated; bolt group is a single unit, with captive return spring and rotary multi-lug bolt which locks directly to the barrel breech; ambidextrous magazine release buttons, ambidextrous bolt stop release button is located at the front of the trigger guard, safety lever is also ambidextrous; charging handle can be installed on either side of the gun; can be equipped with fixed or side-folding buttstock adjustable for length of pull and adjustable cheek rest; integral Picatinny rail on the top of the receiver/frame; additional accessory rails can be installed on forend according to user preferences; can be fitted with removable iron sights, and/or with any optical or night sight with appropriate mounting.

Manufacturer

- "REMINGTON" is marked on the left side of the receiver/frame and "REMINGTON ARMS CO. ILION. NY." may be marked on the barrel or "REMINGTON" over "MPD" (Military Products Division) may be marked on the receiver/frame.

Action

- short stroke gas piston operated.

Serial Number

- observed serial number was located on the upper receiver/frame.
- observed serial number consisted of a three letter prefix (ACR) and five numbers.
- observed serial number consisted of a two letter prefix (RW), five numbers and a letter suffix (A).

Shots

- detachable box magazine.

72553 - 2	44 PERCUSSION	1	711	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Remington name may or may not appear on the firearm.

Model

- this is a single-shot cane gun made at Remington between 1858 and 1888, in both metallic cartridge (1866 - 1888) and percussion (1858 - 1866) versions.
- these firearms are cocked by pulling back on the handle while holding the shaft; this either exposes a percussion-cap nipple, or opens a chamber with extractor.
- fired with a button trigger.
- the handles of these canes are seen in plain, curved, "ball and claw", or dog's-head styles, sometimes carved out of ivory, but normally in gutta percha.

Type

- this is a walking stick firearm that does not readily fit into the definition of a traditional rifle or handgun.

Action

- this is a single-shot cane gun that is loaded and cocked by pulling back on the cane handle; versions made in both metallic-cartridge and percussion.

Serial Number

- may or may not be numbered.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel - the barrels of these firearms can vary, as they were made on a "custom-order" basis; generally, they will be approx. 28"/711mm.

Notes

Make

- the make is not marked on these firearms.
- these firearms are the patented designs of Dr. W.H. Elliot, and were both manufactured and marketed by Remington.

Model

- on this specific model the manufacturer's name may be found marked in two different ways, either as "E. REMINGTON & SONS, ILION, N.Y." or as "REMINGTONS ILION N.Y. U.S.A." on the side of the barrel assembly on the flat join between the two barrels and marked "ELLIOT'S PATENT DEC. 12. 1865" on the other side of the barrel assembly on the flat join between the two barrels.
- NOTE: 1. this manufacturer's marking eliminated the "MANUFACTURED BY" portion of the manufacturer's information,
- NOTE: 2. there is no hard rule which side of the firearm either the manufacturer's name or the patent information will be found and in some cases the markings may be inverted.
- the model designation is not marked on the firearm.
- manufactured between 1869-1872.
- up to 2,200 examples manufactured.
- features include: tip up superposed barrels; fixed ramp front sight; fixed groove rear sight; spur hammer; sheath trigger; various finishes including blue, nickel, silver and gold plate, many variations exist, with or without engraving; wood, ivory, hard rubber, mother-of-pearl, bone or silver grip plates were available; this model may or may not feature a manual extractor on the left side of the barrels; the barrel release is located on the right side of the receiver/frame.
- overall length with a 76mm (3") barrel is 127mm (5"), average weight is 0.31kgs (11oz).

Manufacturer

- "E. REMINGTON & SONS, ILION, N.Y." or "REMINGTONS ILION N.Y. U.S.A." is marked on the side of the barrel assembly.
- "ELLIOT'S PATENT DEC. 12. 1865" are marked on the opposite side of the barrel assembly.

Action

- over and under barrel configuration, tip up hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number range is between 101 and approximately 2200.
- the serial number is marked on the barrel assembly at the locking lugs and under the right grip panel at the top of the grip frame.
- the serial number will be in a smaller modern type font.

Remarks

- the entire range of Remington Double Derringers are problematic and difficult, in some cases impossible, to identify the date of manufacture and/or a rationalization for serial numbers. The available references are in some cases vague and even contradictory. The factory records have become lost or destroyed and in some cases records are non-existent.
- specific models, manufacture dates and legal status can, in some cases, be determined by manufacturer's markings.
- as a quick reference for determining dates of manufacture and legal status of Remington-Elliot and Remington Double Derringers.
- the following manufacturer's marks located on the sides of the barrel ribs between the top and bottom barrel are indicative of manufacture prior to 1898.
- "E. REMINGTON & SONS, ILION, N.Y." or "REMINGTONS ILION N.Y. U.S.A." is marked on the side of the barrel assembly.

62186 - 4	41 SHORT RF	2	76	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- a two line address, "E. REMINGTON & SONS, ILION, N.Y." over "ELLIOT'S PATENT DEC. 12th. 1865" is marked on the top of the barrel assembly.

Model

- on this specific model the manufacturer's name will be found marked on the top of the barrel assembly, in a two line address, "E. REMINGTON & SONS, ILION, N.Y." over "ELLIOT'S PATENT DEC. 12. 1865"
- model designation is not marked on the firearm.
- manufactured between 1872-1888
- up to 18,000 manufactured.
- features include: tip up superposed barrels; fixed ramp front sight; fixed groove rear sight; spur hammer; sheath trigger; various finishes including blue, nickel, silver and gold plate, combinations with or without engraving; wood, ivory, hard rubber, mother-of-pearl, bone or silver grips; may or may not feature a manual extractor on the left side of the barrels; barrel release located on the right side of the receiver/frame.
- overall length with a 76mm (3") barrel is 127mm (5"), average weight is 0.31kgs (11oz).

Manufacturer

- a two line address, "E. REMINGTON & SONS, ILION, N.Y." over "ELLIOT'S PATENT DEC. 12th. 1865" is marked on the top of the barrel assembly.

Action

- over and under barrel configuration, tip up hinged barrel design.

Serial Number

- the serial number is actually a batch number, and numbers were repeated starting with 1 for each batch. There is no reliable rationalization or range known.
- batch numbers are usually found on the left side of the grip frame under the grip panel. The number will usually be in a smaller modern type font.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- the entire range of Remington Double Derringers are problematic and difficult, in some cases impossible, to identify the date of manufacture and/or a rationalization for serial numbers. The available references are in some cases vague and even contradictory. The factory records have become lost or destroyed and in some cases records are non-existent. Specific models, manufacture dates and legal status can, in some cases, be determined by manufacturer's markings.
- the manufacturer's name in a two line address, "E. REMINGTON & SONS, ILION, N.Y." over "ELLIOT'S PATENT DEC. 12. 1865" marked on the top of the barrel assembly is indicative of pre-1898.

Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129090 - 1	41 SHORT RF	2	76	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "REMINGTON ARMS--U.M.C. C.O.ILION,N.Y." is marked on the top of the barrel assembly.
- these firearms are the patented designs of W.H. Elliot, and were both manufactured and marketed by Remington.

Model

- on this specific model the manufacturer's name may be found marked "REMINGTON ARMS--U.M.C. C.O.ILION,N.Y." on the top of the barrel assembly.
- the model designation is not marked on the firearm.
- this model was manufactured between 1911 and 1935 with a total production estimated at 31,000 examples.
- features include: tip up superposed barrels; improved barrel hinges; fixed ramp front sight; fixed groove rear sight; spur hammer; sheath trigger; various finishes including blued, nickel, silver and gold plate, and combinations with or without engraving; wood, ivory, hard rubber, mother-of-pearl, bone or silver grips; this model may or may not feature a manual extractor on the left side of the barrels; barrel release located on the right side of the receiver/frame.
- overall length with a 76mm (3") barrel is 127mm (5"), average weight is 0.31kgs (11oz).

Manufacturer

- "REMINGTON ARMS--U.M.C. C.O.ILION,N.Y." is marked on the top of the barrel assembly.

Action

- over and under barrel configuration, tip up hinged barrel design.

Serial Number

- serial numbers were reintroduced for this variant beginning with 1 and continuing to 2999.
- in 1922 the serial number rationalization was changed to include an "L" prefix followed by 5 digits.
- L9XXXX began in 1922.
- L75XXX began in 1932.
- L76XXX began in 1935.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- beginning January 1, 1922, a two letter shipping date code was added to the side of the barrel locking lug. The first letter indicates the month and the second letter(s) indicating the year.
- A "3" was added after the date code to indicate a factory rework.
- multiple shipping codes have been observed.
- month date codes as follows:

January = B
February = L
March = A
April = C
May = K
June = P
July = O
August = W
September = D
October = E
November = R
December = X

- year date codes as follows:

1922 = N
1923 = P
1924 = R
1925 = S
1926 = T
1927 = U
1928 = W
1929 = X
1930 = Y
1931 = Z
1932 = A
1933 = B
1934 = C
1935 = D
1936 = E
1937 = F
1938 = G
1939 = H
1941 = K
1942 = L
1943 = MM
1944 = NN
1945 = PP
1946 = RR
1947 = SS

Remarks

- Any Double Derringer marked "REMINTON ARMS--U.M.C. C.O.ILION,N.Y." on the top of the barrel assembly was manufactured after 1898.

Canadian Law Comments

- At least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

124925 - 1	56-46 SPENCER RF	1	505	Antique AFR, Section 1, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Remington name and Ilion address are usually marked on the rear tang.

Model

- model designation is not marked on the firearm.
- 20,000 made between 1864 and 1866.
- Leonard Geiger, while working at Remington, designed the first rolling block action. Known as a split breech action, it was locked by shoulders on the hammer body that propped the radial breech block behind the chamber. This somewhat weak design was accepted for a government contract utilizing the 56-50 Spencer RF and 46 RF cartridges. Joseph Rider, a fellow Remington employee, refined this design and developed the improved rolling block action that subsequently gained worldwide acceptance.
- features include: straight wrist walnut butt stock and forend held by a single barrel band; three leaf rear sight; sling ring and bar mounted on the left side of the receiver/frame.

Manufacturer

- the Remington name and Ilion address are usually marked on the rear tang.

Action

- rolling block design.

Notes

Make

- the make is marked on the firearm.

Model

"IZH18MN" is marked on the firearm.
- this is a single-shot rifle version of the Baikal IZH-18M shotgun (the additional "N" standing for "narezny"/"rifled"), imported by Remington from Izhmech in the early 2000s.
- at different times in its production history, this firearm may be seen with differing markings.
- features usually include: blued barrel with hammered rifling; open adjustable sights; sling swivels; checkered hardwood forearm and pistol grip butt; optics mounting rail on the chamber; matte nickel receiver/frame; cross-bolt safety at the rear of the trigger guard; a "squeeze to open" lever at the rear of the trigger guard, that simultaneously cocks the internal hammer; and a ventilated rubber buttpad.

Manufacturer

- "BAIKAL" and "IMZ" (an abbreviation of "Izhevsky Mechanichesky Zavod", or "Izhmech") are marked on the firearm.

Action

- hinge action single shot.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - the serial number is located on the tang of the firearm and consists of nine numbers followed by the suffix R.

72550 - 12	46 RF	6	711	Antique AFR, Section 1, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the barrel as "E.REMINGTON & SONS'.

Model

- the model designation appears on the barrel as "New Model".
- this is a revolving rifle made by Remington from 1866 to 1879, based on their New Model Army revolver, but with a longer receiver/frame, barrel, loading lever, and cylinder, and a grip frame modified into an attachment for a straight-grip stock.
- octagonal or half-round/half-octagonal barrel, walnut buttstock with crescent buttplate, brass or iron scroll "finial" trigger-guard with spur for middle finger, blued barrel and cylinder, and color-case-hardened receiver/frame.
- some of these rifles were factory converted to fire metallic rimfire cartridges.

Manufacturer

- the manufacturer is marked on the barrel as "E. REMINGTON & SONS".

Serial Number

- numbered from "1" up, on receiver/frame.

Other Markings

- marked "Patented Sept. 14,1858 E. Remington & Sons, Ilion, New York, U.S.A New Model" on barrel.

Notes

Model	- manufactured from 1888 to 1897.
Barrel	- The barrels were offered 24 to 28 inch but on special order inbetween lengths could be had.
Other Markings	- Manufacturer name and address often written as ' REMINGTON ARMS CO. ILLION, N.Y. U.S.A.' . Various patent dates and markings encountered.
Remarks	- Early manufacture was case hardened and later production were blued. Few 1 1/2 models were made. The Model 1 1/2 was lighter construction than the Sporting Rifle .

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- the make designation is usually marked on the firearm.
Model	- manufactured circa 1875 to 1890, re-introduced as a Custom Shop item by Remington circa 1995. - "No 1" may be marked on the firearm. - features include: half round/half octagonal blued barrel with an adjustable open, tang peep or Vernier tang peep rear sight and a fixed or wind gauge front sight; blued or case-hardened receiver/frame; external hammer; checkered forearm and Creedmore style, straight, semi-pistol grip or pistol grip buttstock with rubber butt plate.
Manufacturer	- usually marked on the firearm including the manufacturer's address.
Action	- rolling block design.
Serial Number	- serial numbering practices and rationalization for the original 1875 to 1890 production is unknown. - firearms produced by the Remington Custom Shop beginning in 2005 are marked with a serial number beginning with the two letter prefix "RB" followed by four numbers.
Calibre	- the calibre designation may be marked on the barrel.
Canadian Law Comments	- re-introduced as a Remington Custom Shop special order item in 2005, newly produced firearms are deemed to be Non-Restricted in legal classification. - some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- marked on the receiver/frame/barrel: REMINGTON ARMS CO.

Model

- do not confuse with original Remington 1900 production.
- introduced in 1998.
- also refered to as "the "New Remington Mid-Range Sporter Rolling Block Rifle".
- the term "Rolling Block" describes a substantial thumb-spurred breech-block, which (rolls) rocks backwards to expose the chamber (for loading and unloading a cartridge), and rotates forward to close off the chamber (on a large strong axis pin); which is locked into position by the camming surface on the leading portion of the spurred hammer, as it rotates forward (on a large strong axis pin), into position to strike and detonate the primer.
- standard blued receiver (optional colour case-hardened).
- forend and buttstock furniture features hand checkered black American walnut with plastic buttplate (optional semi-fancy figured wood on buttstock with steel buttplate, and semi-fancy forend wood with Schnabel tip).
- standard blued round tapered barrel (optional half-octagon, half round barrel), with white beaded front blade sight, and adjustable center-notched buckhorn rear sight (optional tang-mounted rear vernier sight with spirit level, globe front sight).

Manufacturer

- manufactured by the "Remington Custom Gun Shop".

Serial Number

- the serial number is marked on the receiver/frame.
- two sample serial number observed had the prefix "RB" and four or six digits.

Notes

Make

- "REMINGTON" over "TRADE MARK", and "REMINGTON ARMS CO. ILLION, N.Y. U.S.A." or "REMINGTON ARMS - UNION METALLIC CARTRIDGE CO." over "REMINGTON WORKS, ILION, NEW YORK, U.S.A." may be marked on the barrel or on the top tang of the receiver/frame.

Model

- model designation is not marked on the firearm.
- "MODEL 4" may be marked on the receiver/frame and/or barrel.
- manufactured from 1890 to 1933.
- total production was approximately 356,000 units.
- this was the smallest and the lightest of the Remington Rolling Block Rifles.
- this firearm came in two variants: a solid and a takedown receiver/frame.
- the solid frame receiver/frame was introduced in 1890.
- the lever type takedown receiver/frame was introduced in 1901 with the operating lever being located on the right side of the receiver/frame.
- this screw type takedown receiver/frame was introduced in 1924.
- features include: blued rifled or smooth bore round or octagonal barrel; colour case hardened receiver/frame; rolling block action; exposed spur hammer; bead front sight and V notch rear sight.

Manufacturer

- marked on the barrel or on the top tang of the receiver/frame.

Action

- rolling block action.

Serial Number

- factory applied serial number is found on the underside of the barrel, in front of the forearm on the octagonal barrel version and is marked on the left side of the receiver/frame on the round barrel version.
- serial number range from 00001 to 356,000 with a letter prefix (J) observed.

Calibre

- calibre is usually marked on the barrel.

Other Markings

- manufacturer name and address often marked as:
'REMINGTON ARMS CO. ILLION, N.Y. U.S.A.' .
- various patent dates and markings encountered.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- usually marked on the top of the barrel "REMINGTON, REG. U.S. PAT. OFF." "REMINGTON ARMS CO. ILLION, N.Y. U.S.A." "REMINGTON ARMS CO. ILLION, N.Y. U.S.A." or "Remington TRADE MARK".
Model	- "MODEL 6" may be marked on the left side of the receiver/frame, depending on date of manufacture. - made between 1902 and 1928. - distinguishing features: an unusually long receiver/frame built of two flat steel side-plates (both side-plates displays a relief-cut beside the hammer to clear the reversible rolling-block knob) and a wide center section with the trigger-guard; to contain the trigger, spring, rolling block with a small knurled cylindrical knob on the right side, and spurred hammer; a knurled take-down knob on the underside of the receiver/frame to attach the round open-sighted 508mm barrel, which is grooved to receive/frame part of the receiver/frame side-plate; plain straight walnut stock and a plain short walnut forearm. - some units are marked on the right side of the receiver/frame with "PATENTED JULY 22, 1902", early models marked are "PATENT APPLIED FOR"). - a later version of this rifle was made as the "Improved Model 6" after 1928, with a one-piece receiver/frame, coil wire springs throughout, a new half-cock safety feature, and a non-reversible breech-block. - a small, light, single shot rifle; intended for use by a boy or youth. - the smooth-bore barrel variant of this firearm in "32 Caliber Rimfire" is marked on top of the barrel (along with the usual markings): SMOOTHBORE
Manufacturer	- manufacturer's name and address usually marked: REMINGTON ARMS CO. ILLION, N.Y. U.S.A. - alternate markings are: REMINGTON ARMS - UNION METALLIC CARTRIDGE CO. REMINGTON WORKS, ILION, N.Y. U.S.A.
Action	- rolling block type of action.
Serial Number	- sample examined had a serial number marked on the underside of the barrel.
Calibre	- calibre may be marked on the top of the barrel.
Other Markings	- manufacturer's name and address often written as ' REMINGTON ARMS CO. ILLION, N.Y. U.S.A.' . Various patent dates and markings encountered.
Remarks	- early samples were colour case hardened and later production were blued.

Notes

Make - make marked on left side of frame/receiver as "Remington Arms Co., Inc. Arms Works", and on top of barrel as "Remington".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "IMPROVED MODEL 6" is marked on left side of frame/receiver, above the manufacturer's name and address, and serial number. - this is a rolling-block single-shot "boy's rifle" - made by Remington between 1928 and 1933 - this is an improved version of the Model 6; the main "improvements" on this design are intended to make manufacture cheaper or faster, but this rifle DID have a new safety feature that prevented loading unless the hammer was set at half-cock. - straight-grip walnut stock and forearm, blued or color-case-hardened finish, extractor operated by opening the breech, non-ambidextrous breech-block (earlier No 6s could be switched from right-hand to left-hand), a stamped bar trigger-guard (earlier No 6s had machined trigger-guards), open elevation-adjustable sights, and coiled wire springs throughout (earlier No 6s used flat leaf springs).
Manufacturer	- manufacturer marked on left side of frame/receiver as "Remington Arms Co., Inc. Arms Works", and on top of barrel as "Remington".
Action	- rolling-block single-shot.
Serial Number	- numbered on left side of receiver/frame.
Barrel	- these rifles have been seen and referenced with barrels at both 20"/508mm, and 24"/610mm.

- Nylon 66 AB : Apache black; all weather chrome plated barrel and receiver/frame.
- Nylon 66 BD : Black Diamond.
- Nylon 66 BD : Black Diamond with a 4x scope.
- Nylon 66 Bicentennial Commemorative : produced in 1976 to honor the 200th anniversary of the United States of America. The receiver is marked with an eagle and shield, flanked with scrollwork and underlined with the date 1776-1976.
- Nylon 66 GS : Gallary Special (calibre 22 SHORT only).
- Nylon 66 MB : Mohawk Brown; blued barrel and receiver/frame.
- Nylon 66 MB : Mohawk Brown; blued barrel and receiver/frame with a 4x scope.
- Nylon 66 Remington's 150th Anniversary Commemorative.
- Nylon 66 SG : Seneca Green.

Manufacturer

- Remington manufactured this firearm in Canada and the United States of America.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- early production was not serial numbered. Some later production had a serial number impressed in the plastic receiver/frame under the metal "receiver cover". Later production has a serial number impressed on the metal receiver cover.
- serial number range was from 00001 to 2600000.
- do not confuse RD1959 on the barrel with a serial number.
- do not confuse "AN34" on the barrel with a serial number on some firearm.

Calibre

- calibre designation is marked on the barrel in front of the rear sight.

Shots

- tubular magazine mounted inside the buttstock.

Remarks

- normal butt made of Zytel but called Nylon Series.
- offered in blue or chrome metal finish and the stock was offered in various colours.

Notes

Make

- "Remington" is usually marked on the side of the receiver/frame.

Model

- introduced in 2015 under Remington line of Modern Sporting Rifles.
- "R25-G2" is marked on the left side of the magazine housing of the receiver/frame.
- "R25-G2" variations are based on the AR-15/M16 design.
- this firearm is a hunting oriented version of DPMS's line of GII rifles, which are basically AR-15 scaled-up to accept the 308 Winchester cartridge, with correspondingly longer/larger upper and lower receivers.
- features include: muzzle may be threaded for flash hider/muzzle brake; round, light, standard or heavy profile barrel; barrel may be fluted; low profile gas block; aluminum flat top upper assembly with an integral accessory rail, enlarged ejection port and forward bolt assist; aluminum lower receiver/frame with integral trigger guard and flared magazine well; composite material forearm with or without accessory rails; synthetic pistol grip; synthetic fixed buttstock with rubber buttpad; camouflage foliage finish.

Manufacturer

- "Remington" is usually marked on the side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame directly under the Make and Model.
- serial number of a referenced example consisted of a three letter prefix (RML) and six numbers.

Calibre

- ".308 WIN" calibre is marked on the barrel of this firearm. The calibre is not marked on the receiver, however "CALIBER MULTI" is marked underneath Model in the event more calibres become available.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 200023
Make: Remington
Model: R50

Summary

Make:	Remington
Model:	R50
Manufacturer:	EDM Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
200023 - 1	50 BMG	5	762	Prohibited PFR, Part 1, para. 96(z.039)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The company logo is marked on the receiver/frame.
- "REMINGTON ARMS CO. LLC" is marked on the left side of the receiver/frame.

Model

- Introduced in 2014.
- "MOD. R50" is marked on the left side of the receiver/frame.
- Based on the "Model 96 Windrunner" design.
- Features include: Fluted heavy barrel; knurled, quick-detach barrel nut; extended bipod mount in front of the receiver/frame; helically fluted bolt; accessory rail on the receiver/frame; safety lever on the rear right side of the receiver/frame; magazine release button on the right side of the trigger housing; collapsible wire buttstock.
- Features may include: Accessory rail handguard; finned bipod.

Manufacturer

- "MFG. EDM ARMS INC" is marked on the left side of the firearm.

Action

- Turn bolt operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Calibre

- The calibre designation is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- Detachable box magazine.

Remarks

- The Remington R50 is a rebranded EDM Arms Model 96 Windrunner featuring a tubular accessory rail handguard.
- 25 pre-production Remington R50 rifles were manufactured prior to its cancellation. These rifles were reverted to the original Model 96 Windrunner configuration with its Remington tubular handguard replaced by the standard Windrunner forend, and were sold by EDM Arms alongside regular Model 96 Windrunner rifles.

Notes

Make

- the maker's designation is usually marked on the barrel and or on the receiver/frame tang.

Model

- in production from 1863 to 1933.
- this is a generic record for those Remington Rolling Block rifles and carbines which have no model markings, other records exist which may better describe the sample being inspected.
- features include: rotating breech block and a large exposed hammer mounted in the centre line of the receiver/frame that move back together when being cocked and loaded, a retaining plate that looks like a slim bow tie on the left side of the receiver/frame retains the hammer and breech block pins is very easily recognized.

Action

- rolling block design.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- Patent dates, unit identification markings and various national crests may be found marked on the barrels, receiver/frames, and stocks as the Remington Rolling Block rifles and carbines were used by many countries.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- the Remington Rolling Block receiver/frame was made in three basic sizes.
- the No 1 Rolling Block is a large receiver/frame and is usually found in larger centre fire calibres.
- the No 2 Rolling Block is a medium size receiver/frame and is usually found in calibres from 22 LR to 38-40 REM
- the No 4 Rolling Block is the small size receiver/frame and is usually found only in 22 RF, 25 RF, and 32 RF calibres.

Notes

Make

- appears on the upper tang of the receiver as "REMINGTON'S, ILION NEW YORK".

Model

- this was the first of the Remington Rolling Block firearms
- invented and patented by Leonard M. Geiger in 1863, improved and perfected by Remington employee Joseph Rider.
- a U.S. government contract was awarded to Remington in 1864 to produce 6,000 carbines, Remington subcontracted manufacture to Savage Revolving Arms Company.
- single shot breechloading carbine utilising the "rolling block" breech system in which the forward motion of the hammer locks the breechblock into closed position.
- this firearm closely resembles the Rolling Block Carbine Type 2 but may be quickly identified by the smaller bore diameter (46 calibre as opposed to 50 calibre) and by the comparatively smaller size of the receiver/frame.

Manufacturer

- manufactured on contract for Remington by Savage Revolving Arms Company, Middletown, Conn, U.S.A.

FRT Report

Firearm Reference Number (FRN): 179382
Make: Remington
Model: Rolling Block Shotgun Pistol

Summary

Make:	Remington
Model:	Rolling Block Shotgun Pistol
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
179382 - 1	20 GA X 2 1/2"	1	305	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "REMINGTON ILION NY USA" over patent dates is usually marked on the left side of the receiver/frame; some unmarked examples are known.
Model	- the model is not marked on the firearm; this is a descriptor of the firearm type. - this is an unusual single-shot rolling-block shotgun pistol, believed to have been converted from surplus Spanish 1871 Remington rolling block military rifles after the First World War. - features include: typical "rolling block" layout and operation; blued finish; round smooth bore barrel with bead sight; smooth walnut forearm, pistol-grip with pronounced prawl, and a detachable buttstock (attached via a threaded bolt turned by a knurled wheel in the stock); single-action trigger mechanism; manually-cocked hammer, with extractor operated by the breechblock; and a cast brass pistol backstrap, to replace the original straight tang seen on the Remington 1871 rifle.
Action	- rolling block design.
Serial Number	- serial-numbered on the face of the receiver/frame under the forend stock.
Other Markings	- "Pat. May 3d Nov. 15th, 1864 April 17th, 1868 " may be marked on the left side of the receiver/frame.

Notes

Make - marked on the receiver/frame/barrel: REMINGTON ARMS CO.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 1998. - also refered to as "the "New Remington Mid-Range Sporter Rolling Block Rifle". - the term "Rolling Block" describes a substantial thumb-spurred breech-block, which (rolls) rocks backwards to expose the chamber (for loading and unloading a cartridge), and rotates forward to close off the chamber (on a large strong axis pin); which is locked into position by the camming surface on the leading portion of the spurred hammer, as it rotates forward (on a large strong axis pin), into position to strike and detonate the primer. - standard blued receiver (optional colour case-hardened). - forend and buttstock furniture features hand checkered black American walnut with plastic buttplate (optional semi-fancy figured wood on buttstock with steel buttplate, and semi-fancy forend wood with Schnabel tip). - standard blued round tapered barrel (optional half-octagon, half round barrel), with white beaded front blade sight, and adjustable center-notched buckhorn rear sight (optional tang-mounted rear vernier sight with spirit level, globe front sight).
Serial Number	- the serial number is marked on the receiver/frame. - two sample serial number seen have the prefix "RB" and six digits.
Canadian Law Comments	- firearms manufactured prior to 1898 in certain calibres will be antique qualified in Canada.

Notes

Make

- "Remington" may be marked on the pistol grip cap.
- "Remington Arms Company, Inc." is marked on the left side of the barrel.

Model

- introduced in 1983.
- "MODEL SEVEN" is marked on the left side of the receiver/frame.
- features include: carbon steel or stainless steel construction; no iron sights or ramp front sight and adjustable rear sight; round tapered rifled barrel; receiver/frame is drilled and tapped for scope mounts; safety lever is located on the rear right side of the receiver/frame; bolt release is located inside the trigger guard in front of the trigger; magazine floor plate release is located in front of the trigger guard; checkered walnut, laminated or synthetic pistol grip stock with sling swivel studs; blued, black or satin finish.
- overall length with a 508 mm (20.0") barrel is 997 mm (39.25"), and the average weight is 2.95 kgs (6.5 lbs).

Manufacturer

- the manufacturer's name and address are marked on the barrel.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left front side of the receiver/frame.
- serial number of a referenced example consisted of seven numbers.
- serial number of a referenced example consisted of a letter prefix "S" and seven numbers.
- serial number of a referenced example consisted of two letter prefix "RR", five numbers and a letter suffix "K".

Calibre

- calibre is marked on the barrel.
- the 17 REM, 222 REM and 6MM REM was discontinued in 1995.
- the 260 REM was introduced in 1997.
- available from Remington Custom Shop in 1991; 250 SAVAGE, 257 ROBERTS, 35 REM and 35 REM MAG.
- the 17 REM was produced with no sights.

Shots

- internal box magazine with front hinged floor plate.

Notes

Make	- "Remington" may be marked on the pistol grip cap. - "Remington Arms Company, Inc." is marked on the left side of the barrel.
Model	- manufactured from 1993 to 2007. - "MODEL SEVEN" is marked on the side of the receiver/frame. - "Seven Lightweight Youth" is a compact version of the model "Seven". - "Seven" is a lightweight and compact version of the model 700 short action. - "Seven Lightweight Youth" differs from other model "Seven" offerings by the use of a plain wood stock 1" shorter than factory normal (including recoil pad), designed to accommodate a junior or shooter of small stature. In 2004 Remington introduced a synthetic stocked version of the model "Seven Youth". - features include: shorter barrel than standard models Seven variants; open sights mounted on the barrel; receiver/frame is drilled and tapped for scope mounting.
Manufacturer	- the manufacturer's name and address are marked on the barrel.
Action	- turn-bolt design.
Serial Number	- marked on receiver/frame, observed serial numbers have had an "S" prefix.
Calibre	- calibre is marked on the barrel.
Shots	- internal box magazine with front hinged floor plate.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
72729 - 1	43 EGYPTIAN	1	800	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Remington's" is usually marked on the receiver/frame.

Model

- "Patent 1868" or "Patent 1869" is usually marked on the receiver/frame.
- this is an unusual single-shot bolt-operated rifle made by Remington in 1868/9, as a step towards the Remington-Keene bolt-action repeater
- straight-grip walnut stock with two barrel bands, adjustable rear sight, and large manually-cocked hammer.
- DO NOT CONFUSE this rifle with the Remington-Keene repeater; where the Remington-Keene has a full-length tube magazine under the barrel, this rifle is a single-shot only, and has no provision for a magazine.
- this rifle used barrels made in England, and may bear English proof marks.

Manufacturer

- "Remington's / Ilion, N.Y. U.S.A." is usually marked on the receiver/frame.

Action

- turn bolt operated single-shot, with manually-cocked external hammer.

Notes

Make

- usually marked on the firearm as "Spartan Gunworks by Remington".
- Spartan Gunworks was formed by Remington to offer consumers an economically priced line of break action shotguns. An agreement was reached with the owners of the Baikal line of firearms being produced in Russia to import and market single shot, over/under and side by side models under the Spartan Gunworks trade name.

Model

- "SPR94" is marked on right side of the receiver/frame.
- introduced in 2006.
- the SPR94 was originally sold under the Spartan Gunworks trade name.
- features include: over and under barrels (rifle barrel over shotgun barrel) with ramp front sight, adjustable rear sight and scope rail; front hinged receiver/frame with top tang mounted break open lever; single selective trigger; cross bolt safety; plain walnut forearm and pistol grip butt stock with recoil pad; sling swivel studs; blued finish;
- also available in a centrefire rifle barrel over a shotgun barrel as the "SPR94 Centrefire".

Manufacturer

- made in Russian under the Baikal trade name. Baikal is a trade name used by Izhevsky Mekhanichesky Zavod (Izhmech) of Russia that produces sporting firearms for domestic use and foreign export sales.

Action

- over and under configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial number is marked on the receiver/frame.

- features include: round hammer forged barrel with nickel plated bore, ventilated rib, bead front sight and removable Pro Bore flush mounted choke tube; solid top aluminum receiver/frame with side ejection and bottom loading; receiver/frame is drilled and tapped for sight mounts; enlarged trigger guard with cross bolt safety; synthetic forearm and pistol grip buttstock with overmoulded grips and soft touch finish; black, Mossy Oak, or Realtree Camo finish.
- overall length with a 660 mm (26.0") barrel is 1217 mm (47 15/16").
- overall length with a 711 mm (27.0") barrel is 1268 mm (49 15/16").
- available with either a left or right hand action.
- available in 2012 in a Tactical version with an extended tube magazine.
- available with "Hi-Viz" sights, high and straight comb inserts and "Proveil Reaper Zombie" finish.

Manufacturer

- "REMINGTON ARMS COMPANY INC., ILION, N.Y., U.S.A." may be marked on the right side of the barrel.

Action

- gas operated.

Serial Number

- serial number is marked on the side of the receiver/frame.
- serial number observed consisted of a two letter "RT" prefix, five numbers and a letter "A" suffix.

Shots

- tubular magazine is mounted under the barrel.
- magazine capacity when using 12 GA X 2 3/4" or 12 GA X 3" is three (3) shells.
- magazine capacity for 12 GA X 3 1/2" is two (2) shells.

Canadian Law Comments

- the semi-automatic Remington, Model, Versa Max shotgun's under-barrel, tubular cartridge magazine may be a "prohibited device" in all lengths of cartridge case for which the firearm was designed and manufactured unless permanently reduced to a maximum capacity of five (5) shots of the shortest cartridge length (12 GA X 2 3/4").

129089 - 1	41 SHORT RF	2	76	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.
- these firearms are the patented designs of Dr. W.H. Elliot, and were manufactured but not marketed by Remington.
- the total contract of 100 firearms was delivered to Dr. W.H. Elliot, actual marketing and sales of this model firearm was accomplished by Dr W.H. Elliot through his son Lowell Elliot's "Gun Business" which was located in New York City, USA.

Model

- this specific model was the only model marked as follows,"MANUFACTURED BY E. REMINGTON & SONS, ILION, N.Y." on the right side of the barrel assembly on the flat join between the two barrels and marked "ELLIOT'S PATENT DEC. 12. 1865" on the left side of the barrel assembly on the flat join between the two barrels.
- the model designation is not marked on the firearm.
- manufactured in 1867.
- 100 examples of this firearm were manufactured; currently only 27 examples are known to exist.
- NOTE: this model derringer does not have an extractor.
- features include: tip up superposed barrels; fixed ramp front sight; fixed groove rear sight; spur hammer; sheath trigger; various finishes possible including blue, nickel, silver and gold plate, many variations exist, with or without engraving; wood, ivory, hard rubber, mother-of-pearl, bone or silver grip plates were available; this model does not have an extractor; the barrel release is located on the right side of the receiver/frame.
- overall length with a 76mm (3") barrel is 127mm (5"), average weight is 0.31kgs (11oz).

Manufacturer

- "MANUFACTURED BY E. REMINGTON & SONS, ILION, N.Y." and "ELLIOT'S PATENT DEC. 12. 1865" are marked on the side of the barrel assembly.

Action

- over and under barrel configuration, tip up hinged barrel design.

Serial Number

- serial number range is between 1 and 100.
- the serial number is marked on the barrel assembly at the locking lugs and under the right grip panel at the top of the grip frame.
- the serial number will be in a large scroll type font.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- the entire range of Remington Double Derringers are problematic and difficult, in some cases impossible, to identify the date of manufacture and/or a rationalization for serial numbers. The available references are in some cases vague and even contradictory. The factory records have become lost or destroyed and in some cases records are non existant. in specific models, manufacture dates and legal status can, in some cases, be determined by manufacturer's markings.
- this specific model of Remington-Elliot Double Derringer was the only model marked as follows,"MANUFACTURED BY E. REMINGTON & SONS, ILION, N.Y." on the right side of the barrel assembly on the flat join between the two barrels and marked "ELLIOT'S PATENT DEC. 12. 1865" on the left side of the barrel assembly on the flat join between the two barrels.
- this manufacturer's mark when found marked on the sides of the barrel assembly are indicative of manufacture prior to 1898.

Make

- "MANUFACTURED BY" over "REMINGTONS" over "ILION. N.Y." are marked on the right side of the receiver/frame.
- "ELLIOT'S PATENT" over "AUG. 17 1858" over "MAY 29. 1860" are marked on the left side of the receiver/frame.

Model

- model designation is not marked on the firearm.
- "ELLIOT'S PATENT" over "AUG. 17, 1858" over "MAY 29, 1860" are marked on the left side of the receiver/frame.
- this is a small "pepperbox" type handgun with a ring-trigger double action only mechanism
- manufactured in 1861-1862; this was the first metallic-cartridge handgun built by Remington.
- approximately 1,000 of these pistols were built, based on a patent issued to William H. Elliot.
- these pistols can be identified by: a loading port at the left rear of the receiver/frame that allows access to the chambers, hard rubber grips, a blued or silver finish, six barrels joined in a rotating cluster, and a series of "zig-zag" grooves at the breech end of the barrels, that form part of the revolving mechanism.
- do not confuse this pistol with any of the Remington-Elliot multi-barrel derringers, which have multiple stationary barrels and a rotating firing-pin; though they look similar externally, the barrels tip up to load and they do not rotate during firing.

Manufacturer

- "MANUFACTURED BY" over "REMINGTONS" over "ILION, N.Y." are marked on the right side of the receiver/frame.

Action

- double action, hammerless design, six shot revolving barrels cluster.
- note that the firearm is considered to be a revolver as the Chambers (barrels) revolve about a central axis.

Serial Number

- serial number rationalization unknown.
- the serial numbers is marked under the left grip on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - marked "Elliot's Patent Aug. 17, 1858 May 29, 1860, as well as "Manufactured by Remington's Ilion, N.Y.".

Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
110116 - 1	45-70 GOVT	9	829	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is not marked on the firearm.
- John W. Keene was an inventor from Newark, New Jersey, who built several prototype magazine-fed repeating rifles during the early 1870s; after seeing Keene's patent for these designs, Remington became interested in manufacturing these rifles for possible military contracts and sporting rifle sales. Though Keene's design worked fairly well, it was soon surpassed by other inventor's designs, and only approximately 5000 Remington-Keene repeaters were ever built in all variations.

Model

- this is an unusual appearing bolt action repeating rifle, built by Remington between 1880 and 1888, for possible sale to the U.S. Army; though these rifles were tested by the Ordnance Board, it's unknown if any were actually accepted for service. However, the U.S. Navy did accept at least 250 of these rifles for service, and these were distinctively marked with "U.S." over an anchor on the barrel; these rifles will be found in their own record.
- blued finish, magazine tube below barrel, full length straight grip wooden stock with two barrel bands, round barrel, manually cocked external hammer at the rear of the bolt, adjustable open sights, and a magazine cut-off to allow the rifle to be used as a single-shot until the magazine was needed.
- these rifles are normally marked "E.REMINGTON & SONS, ILION, N.Y. / PATENT FEB.24, MARCH 17. 1874 JAN. 18. SEPT. 26, 1876. MAR. 20. JUL.31. 77." on the left side of the receiver.

Serial Number

- numbered on the bottom of the bolt; reading the serial number requires partial disassembly of the rifle. Some of these rifles also bear U.S./Government property ID numbers; DO NOT CONFUSE the property numbers with the full and proper serial numbers.

Shots

- under barrel tubular magazine.

Notes

Make

- make is not marked on firearm.
- make is derived from the manufacturer's name and the inventor's last name.
- "LEE ARMS CO. BRIDGEPORT, CONN. USA" is usually marked on the firearm.
- Remington was the main North American manufacturer of J.P. Lee's detachable box magazine bolt action rifle.
- this rifle was also manufactured by Sharps.
- James Paris Lee was an inventor and small arms designer.
- "Lee Arms Company" was founded by James Paris Lee and was located in Bridgeport, Connecticut, U.S.A.
- Lee Arms Company of Bridgeport was a sales orginization for the J.P. Lee's bolt action rifle between 1879 and 1910.
- James Paris Lee's patents for a magazine gun were used on the Remington-Lee rifles, Lee-Burton rifle, Lee-Metford rifles and Lee-Enfield rifles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "LEE ARMS CO. BRIDGEPORT, CONN. USA" and "PATENTED NOV.4, 1879" are usually marked on the receiver/frame.
- this was the first generation of James Paris Lee's bolt-action repeater, with a characteristic Lee-Enfield style receiver/frame and detachable box magazine, with the magazine catch in the top of the trigger-guard.
- in this design, the bolt handle acts as a safety locking lug, and abuts against the front of the split rear receiver/frame ring; later Remington-Lees (1882, 1885, and 1899) have the bolt handle moved to the rear of the rear receiver ring.
- features include: open adjustable sights, walnut stock (military rifles have full-length stocks with sling swivels and two barrel bands, carbines have half-length stocks with one barrel band, and sporting rifles may have checkered straight or pistol-grip half-length stocks and half-round/half-octagon barrels), and blued finish.
- these rifles were made for both U.S. and foreign military use, and a large number of these rifles were sold to China. Rifles sold to the U.S. Army or Navy will bear U.S. property and inspection marks (Naval rifles have an anchor stamped on the breech, and the inspector at the time was William Folger, who used "WKK / P" as his inspection mark.)

Manufacturer

- manufacturer's name is not marked on the firearm.

Serial Number

- numbered on the receiver/frame.

Shots

- detachable box magazine.

Remarks

- these rifles were designed by James Paris Lee, the inventor of the Lee-Enfield rifle, and a quantity (approximately 300) were sold to the U.S. Navy; however, Lee had no manufacturing facilities to produce this number of rifles, so he originally turned to the Sharps Rifle Company of Bridgeport, Connecticut to actually produce the firearms for this contract. Full-length rifles, shortened carbines, and fancy-grade sporting rifles were produced under an arrangement between Lee and Sharps, but the Sharps Rifle company folded in 1880, leaving Lee with no way to fill the outstanding military contracts he had. In 1881, Lee turned to Remington to produce the remainder of the rifles he had promised to the government, and Remington also produced a wide variety of rifles, carbines, and sporting rifles for Lee.

Notes

Make

- make is not marked on firearm.
- make is derived from the manufacturer's name and the inventor's last name.
- "LEE ARMS CO. BRIDGEPORT, CONN. USA" and "PATENTED NOV. 4, 1879" or "E. REMINGTON & SONS, ILION, N.Y. U.S.A. SOLE MANUFACTURERS & AGENTS" may be marked on the firearm.
- Remington was the main North American manufacturer of J.P. Lee's detachable box magazine bolt action rifle.
- James Paris Lee was an inventor and small arms designer.
- "Lee Arms Company" was founded by James Paris Lee and was located in Bridgeport, Connecticut, U.S.A.
- Lee Arms Company of Bridgeport was a sales orginization for the J.P. Lee's bolt action rifle between 1879 and 1910.
- James Paris Lee's patents for a magazine gun were used on the Remington-Lee rifles, Lee-Burton rifle, Lee-Metford rifles and Lee-Enfield rifles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this was the second generation of James Paris Lee's bolt-action repeater, with a Lee-Enfield style receiver/frame and detachable box magazine, with the magazine catch in the top of the trigger-guard.
- more than 47,000 of these rifles were built by Remington, to fill military contracts from the Chinese and U.S. governments, and for private sale as hunting and target rifles; a number of these rifles were later converted to the 1885 pattern by replacing the bolts with a newly manufactured bolt with a detachable bolt-head. 1882 rifles can be distinguished from 1885 rifles by an oblong gas-escape slot on the primary locking lug (a feature shared by the 1879 pattern, but the 1879 has a straight bolt-handle that locks in front of the rear receiver ring).
- features include: open adjustable sights, walnut stock (military rifles have full-length stocks with sling swivels and two barrel bands, carbines have half-length stocks with one barrel band, and sporting rifles may have checkered straight- or pistol-grip half-length stocks and half-round/half-octagon barrels), and blued finish.
- rifles sold to the U.S. Army or Navy will bear U.S. property and inspection marks (Naval rifles have an anchor stamped on the breech, while Army rifles will have "U.S." stamped in the same place; both of these variations will also bear government/military inspector's marks, consisting of initials.)

Serial Number

- numbered on receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- make is not marked on firearm.
- make is derived from the manufacturer's name and the inventor's last name.
- "LEE ARMS CO. BRIDGEPORT, CONN. USA" and "PATENTED NOV. 4, 1879" or "E. REMINGTON & SONS, ILION, N.Y. U.S.A. SOLE MANUFACTURERS & AGENTS" or "REMINGTON ARMS CO.", "ILION, N.Y. U.S.A." and "LEE PATENT NOV. 4, 1879." may be marked on the firearm.
- Remington was the main North American manufacturer of J.P. Lee's detachable box magazine bolt action rifle.
- James Paris Lee was an inventor and small arms designer.
- "Lee Arms Company" was founded by James Paris Lee and was located in Bridgeport, Connecticut, U.S.A.
- Lee Arms Company of Bridgeport was a sales orginization for the J.P. Lee's bolt action rifle between 1879 and 1910.
- James Paris Lee's patents for a magazine gun were used on the Remington-Lee rifles, Lee-Burton rifle, Lee-Metford rifles and Lee-Enfield rifles.

Model

- this was the third generation of James Paris Lee's bolt-action repeater, with a characteristic Lee-Enfield-style receiver and detachable box magazine, with the magazine catch in the top of the trigger-guard.
- more than 60,000 of these rifles were built by Remington, to fill military contracts from the Chinese and U.S. governments, and for private sale as hunting and target rifles; numbers of these rifles were also purchased by New Zealand, and by the British Ordnance Board for trials tests (it was these trials rifles that convinced the British to adopt the Lee-Enfield). 1885-pattern rifles can be distinguished from earlier patterns by the fact that they have bolts with detachable bolt-heads, and by the fact that 1885-pattern rifles do not have an oblong gas-escape port in the primary locking lug.
- detachable box magazine, open adjustable sights, walnut stock (military rifles have full-length stocks with sling swivels and two barrel bands, carbines have half-length stocks with one barrel band, and sporting rifles may have checkered straight- or pistol-grip half-length stocks and half-round/half-octagon barrels), and blued finish.
- these rifles were made for both U.S. and foreign military use, and a large number of these rifles were sold to China. Rifles sold to the U.S. Army or Navy will bear U.S. property and inspection marks (Naval rifles have an anchor stamped on the breech, while Army rifles will have "U.S." stamped in the same place; both of these variations will also bear government/military inspector's marks, consisting of initials.)
- these rifles are marked in one of three ways; either "LEE ARMS CO. BRIDGEPORT, CONN. USA", with a patent date of Nov. 4 1879, or "E. REMINGTON & SONS, ILION, N.Y. U.S.A. SOLE MANUFACTURERS & AGENTS", or "REMINGTON ARMS CO. / ILION, N.Y. U.S.A." with "LEE PATENT NOV. 4, 1879.", depending on the date of manufacture.

Serial Number

- numbered on receiver.

Shots

- detachable box magazine.

Notes

Make

- make is not marked on firearm.
- make is derived from the manufacturer's name and the inventor's last name.
- "REMINGTON ARMS CO.", "ILION, N.Y. U.S.A." and "PATENTED AUG. 26th 1884. SEP'T 9th 1884. MARCH 17th 1885. JAN. 18th 1887" are usually marked on the firearm.
- Remington was the main North American manufacturer of J.P. Lee's detachable box magazine bolt action rifle.
- James Paris Lee was an inventor and small arms designer.
- "Lee Arms Company" was founded by James Paris Lee and was located in Bridgeport, Connecticut, U.S.A.
- Lee Arms Company of Bridgeport was a sales orginization for the J.P. Lee's bolt action rifle between 1879 and 1910.
- James Paris Lee's patents for a magazine gun were used on the Remington-Lee rifles, Lee-Burton rifle, Lee-Metford rifles and Lee-Enfield rifles.

Model

- model is not marked on the firearm.
- manufactured from 1899 to 1907.
- features: round barrel, magazine feed, bolt action; action is locked by two lugs on the bolt head which engage in recesses in the receiver when the bolt handle is turned down; full one-piece straight stock and wooden handguard mounted on top of the barrel from the chamber to the barrel band or one-piece stock with semi-pistol grip; ramp and leaf rear sight or spring and leaf rear sight.

Manufacturer

- manufacturer is marked on the firearm.

Shots

- detachable box magazine with three grooves on each side of the casing.

Notes

Make

- make is not marked on firearm.
- make is derived from the manufacturer's name and the inventor's last name.
- Remington was the main North American manufacturer of J.P. Lee's detachable box magazine bolt action rifle.
- this rifle was also manufactured by Sharps.
- James Paris Lee was an inventor and small arms designer.
- "Lee Arms Company" was founded by James Paris Lee and was located in Bridgeport, Connecticut, U.S.A.
- Lee Arms Company of Bridgeport was a sales orginization for the J.P. Lee's bolt action rifle between 1879 and 1910.
- James Paris Lee's patents for a magazine gun were used on the Remington-Lee rifles, Lee-Burton rifle, Lee-Metford rifles and Lee-Enfield rifles.

Model

- model designation is not marked on the firearm.
- this is a generic record for the "sporterized" version of the military models 1879, 1882, 1885 and 1899.
- features may include: one piece sporting stock with checkered semi-pistol or straight grip; round, octogonal barrel or part round and part octogonal; variation of sights; detachable box magazine just head of the trigger guard; and action locked by two lugs on the bolt head which engage in recesses in the receiver/frame when the bolt handle is turned down.

Manufacturer

- "REMINGTON ARMS CO." and "ILION, N.Y. U.S.A." may be marked on the left side of the receiver/frame.

Serial Number

- serial number usually marked on the left side of the receiver/frame.
- serial number rationalization unknown, estimated production of 7,700.
- example observed with six digits or a letter prefix followed by five digits.

Calibre

- other calibres may be encountered.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Other Markings

- sporting rifle as same markings as the military version.
- these rifles are marked in one of these ways; either "LEE ARMS CO. BRIDGEPORT, CONN. USA", with "PATENTED NOV. 4 1879", or "E. REMINGTON & SONS, ILION, N.Y. U.S.A. SOLE MANUFACTURERS & AGENTS", or "REMINGTON ARMS CO. / ILION, N.Y. U.S.A." with "LEE PATENT NOV. 4, 1879.", or "REMINGTON ARMS CO. / ILION, N.Y. U.S.A." with "PATENTED AUG. 26th, 1884. SEP'T 9th, 1884. MARCH 17th, 1885. and JAN. 18th, 1887."

62622 - 1	32 EXTRA SHORT RF	5	76	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "E. Remington & Sons" and "Riders Pat." are marked on the top of the barrel.
Model	- the model designation is not marked on the firearm. - "RIDERS PAT. AUG. 15, 1871" is marked on the top of the barrel. - manufactured between 1871 and 1888. - features include: octagonal barrel with tubular magazine mounted underneath; spurred hammer; sheathed trigger; single action trigger mechanism; grips may be walnut, rosewood, ivory or pearl; blue, nickel-plated or case hardened finish; engraved or plain.
Manufacturer	- "E. Remington & Sons, Ilion, N.Y." is marked on the top of the barrel.
Action	- Loading is accomplished by pulling back the breech-block spur, which cocked the hammer, operating an extractor and raising a cartridge from the magazine. By releasing the cocking spur, it allows the breech block to spring forward and chamber a cartridge from the lifter, and return the lifter to pick-up another cartridge.
Serial Number	- the serial number is marked on the side of the grip frame.
Shots	- tubular magazine located under the barrel. - the magazine loads from the front end.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - on the barrel, it is marked "E. REMINGTON & SONS, ILION, N.Y./RIDER'S PAT. AUG. 15, 1871"

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
72515 - 1	17 PERCUSSION	1	76	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.
- "RIDER'S PT. SEPT.13, 1859" is marked on the top of the barrel.
- Joseph Rider was a Remington employee who held a patent for a split breech mechanism. Remington produced a limited quantity of pistols using this system.

Model

- "RIDER'S PT. SEPT.13, 1859" is marked on the top of the barrel.
- manufactured between 1860 and 1863.
- Remington produced approximately 200 units.
- this is a very small single-shot pistol.
- features include: brass receiver/frame and smooth bore barrel with integral grips; split breech, spurred hammer; sheathed trigger; brass pin front sight and V-notch rear sight; brass grips; natural brass or silver-plated finish.

Manufacturer

- the manufacturer's name is not marked on the firearm.

Calibre

- uses a .177 calibre projectile (No 1 shot) powered by a percussion cap.

Notes

Make

- "E. REMINGTON & SONS" may be marked on the side of the receiver/frame.
- "E. REMINGTON & SONS, ILION, N.Y." or "E. REMINGTON & SONS, NEW YORK & LONDON" may be marked on the barrel rib.
- "A.E. WHITEMORE'S PATENT AUG. 8. 1871" or "A.E. WHITEMORE'S PATENT AUG. 8. 1871, APRIL 16, 1872" or "PATENT" is usually marked on the hammer lifter latch.

Model

- model designation is not marked on the firearm.
- this is a generic record for Remington's earliest side by side breech loading firearms that utilized a "thumb lifting", top lever action release designed by Andrew Whitmore circa 1871.
- available in several models starting with the Model 1873 and ending with the Model 1879. All models were available from Grade One (the lowest) to Grade Five (the highest) and custom special orders were also offered.
- features may include: straight, half or full pistol-grip stocks with double triggers and exposed hammers; fluid or decarbonized steel or Damascus barrels; sidelocks; top tang mounted, "holed" lifting lever.
- the Model 1873 and 1874 feature a slight recess cut in the watertable.
- the Model 1873, Model 1874 and Model 1875 feature recessed hammer faces; a single wedge held forend and percussion fences.
- the Model 1876 features flat hammer faces and percussion fences.
- the Model 1878 features a heavier receiver/frame and was offered in 10 GA while the Model 1879 had a lighter receiver/frame; both featured the "Deeley & Edge" patented forend release (some early production still had the wedge held forend); no percussion fences; "dolls head" barrel rib extension and deeper bolster recesses.
- combination shotgun/rifle(cape gun) and double rifle variants were offered in Model's 1873, 1875 and 1876 and were purpose built or available as auxiliary barrel sets to the existing models.

Manufacturer

- "E. REMINGTON & SONS" may be marked on the side of the receiver/frame.
- "E. REMINGTON & SONS, ILION, N.Y." or "E. REMINGTON & SONS, NEW YORK & LONDON" may be marked on the barrel rib.
- manufactured between 1873 and 1882.
- references are conflicting as to the number of Whitmore Patent firearms produced and range from 12,000 to 50,000 (referenced serial number ranges would confirm that approximately 12,000 were produced).

Action

- side by side barrel configuration.

Serial Number

- serial number is located on the watertable of the receiver/frame and may be repeated on the underside of the barrels and trigger guard extension.
- observed examples consisted of one to four numbers.

Barrel

- factory standard barrel lengths offered were 711mm (28") and 762mm (30") with other lengths made to order by customer request.

Notes

Make

- "Replica Arms" or "Replica Arms" and Ridgefield N.J." or "Replica Arms, Inc." and "Marietta, Ohio." or "Replica Arms Co." and "El Paso Texas" may be marked on the barrel assembly or receiver/frame.
- "Replica Arms" was an importer that was purchased by Service Armament Corporation the parent of Navy Arms in 1973.

Model

- no model designation is marked on the firearm.
- this is a reproduction of the Colt Model 1849 Wells Fargo, also known as "1848 Pocket Pistol" or "Baby Dragoon".
- features include: colour case hardened receiver/frame; no loading lever; engraved cylinder; octagonal barrel; brass trigger guard and back strap; bead front sight; walnut grips and squared back trigger guard.

Serial Number

- serial number usually marked on the underside of the receiver/frame and barrel.

Other Markings

- Italian proof marks may be marked on the right side of the receiver/frame.

26175 - 3	36 PERCUSSION	6	190	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Replica Arms" or "Replica Arms" and Ridgefield N.J." or "Replica Arms, Inc." and "Marietta, Ohio." or "Replica Arms Co." and "El Paso Texas" may be marked on the barrel assembly or receiver/frame.
- "Replica Arms" was an importer that was purchased by Service Armament Corporation the parent of Navy Arms in 1973.

Model

- this model has the same visual appearance as the Colt produced model 1861 Navy. Replica Arms has offered this model in more than one variation and with features not found on the original Colt. This model is also available with a 140mm barrel that is reminiscent of the Colt 1862 Pocket Navy (Replica Arms literature refers to it only as the 1861 Navy).
- features include: fixed front sight and a notch in the nosed of the hammer for a rear sight; blued round barrel with a color case hardened rammer/loading lever; color case-hardened open top receiver/frame with a non-fluted cylinder with an engraved Naval scene or a fluted cylinder that has no engraving; color case-hardened exposed spur hammer; single action trigger mechanism; brass or steel grip-frame and trigger guard; round or square back trigger guard; one-piece walnut grip.

Manufacturer

- the sample examined was marked only with the Uberti logo (cross section of an octagonal barrel containing a "U").

Serial Number

- numbered on the underside of the receiver/frame forward of the trigger guard. Sample examined used sequential numbers.

Calibre

- usually marked as "Black Powder Only" and "Cal. 36" on the barrel.

Notes

Make

- "REPLICA ARMS INC. MARIETTA - OHIO - MADE IN ITALY" was observed marked on the barrel.

Model

- "MOD. 1862 POLICE CAL. 36" was observed marked on the left side of the barrel.
- "BLACK POWDER ONLY" was observed marked on the right side of the barrel.
- this is a modern reproduction of the Colt model 1862 Police single action, black powder, percussion revolver.
- features observed: brass bead front sight and a notch in the nose of the hammer for a rear sight; blue round barrel with a colour case-hardened rammer/loading lever assembly; colour case-hardened open top receiver/frame with a blue removable half fluted percussion cylinder; colour case-hardened exposed spur hammer; single action trigger mechanism; brass rounded trigger guard and backstrap; smooth wood grip.

Manufacturer

- Uberti's logo was observed marked on the left side of the receiver/frame.

Serial Number

- serial number is usually marked on the underside of the receiver/frame, and may be repeated on the trigger guard.

Calibre

- "CAL. 36" was observed marked on the left side of the barrel.

Notes

Make

- "Replica Arms" or "Replica Arms" and Ridgefield N.J." or "Replica Arms, Inc." and "Marietta, Ohio." or "Replica Arms Co." and "El Paso Texas" may be marked on the barrel assembly or receiver/frame.
- "Replica Arms" was an importer that was purchased by Service Armament Corporation the parent of Navy Arms in 1973.

Model

- the model designation is not marked on the firearm.
- this is a reproduction of the "Griswald & Gunnison" percussion revolver that was made during the American Civil War for the Confederate States by Griswald & Gunnison also known as a Griswold & Grier, Griswold, or Griswoldville percussion revolver. The pistol itself is basically a copy of the Colt 1851 Navy revolver.
- sales literature may also refer to this revolver as a "Griswald & Grier". This reflects the fact that Col. E.C. Grier was involved with the business and thus his name has been associated with this revolver. According to original Confederate Ordnance records, the plant was called "Griswald & Gunnison".

Serial Number

- serial number is marked on the bottom of the receiver/frame just forward of the trigger guard and the last three digits may be marked in other locations.

Calibre

- caliber designation is marked on the left side of the barrel.

Notes

Make

- "Revelation" and "Western Auto Supply Co." may be marked on the firearm.
- "Revelation" is a trade name used on firearms made for the "Western Auto Supply Company".

Model

- manufactured in 1970 only.
- this rifle is essentially a Mossberg Model 810AH rifle manufactured for sale by Western Auto under their Revelation brand name.
- features include: bolt action, center-fire rifle; internal non-detachable box magazine, with a hinged floorplate; right hand action; blued finish on metalwork; Monte Carlo style, one-piece walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has four in-line locking lugs.
- certain versions of the model 810 series were also sold by Montgomery Ward's under the Western Field brand name.

Serial Number

- serial number rationalization unknown.
- the serial number is usually marked on the left side of the receiver/frame.
- an observed serial number consisted of six digits without prefix or suffix.

Shots

- internal box magazine.

Notes

Make

- "Revelation" and "Western Auto Supply Co." may be marked on the firearm.
- "Revelation" is a trade name used on firearms made for the "Western Auto Supply Company".

Model

- this is a Mossberg model 800A sold under the Western Auto owned "Revelation" trade name.
- also available in a deluxe version as the model 220AD (Mossberg model 800AD).
- the Mossberg model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Mossberg under the New Haven trade name, by Montgomery Ward's under the Western Field brand name and by Western Auto under the Revelation name.

Action

- turn-bolt operated.

Serial Number

- numbered on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Shots

- internal magazine with a hinged floorplate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- also available in calibre 243 WIN as either the standard model 220B or "deluxe" model 220BD.
- also available in calibre 22-250 REM as either the standard model 220C or "deluxe" model 220CD.

Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock with a roll-over cheekpiece and rosewood forend tip and grip cap; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the Damascened bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Mossberg under the New Haven trade name, by Montgomery Ward's under the Western Field brand name and by Western Auto under the Revelation name.

Action

- turn-bolt operated.

Serial Number

- numbered on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - internal magazine with a hinged floorplate.

Remarks
- also available in calibre 243 WIN as either the standard model 220B or "deluxe" model 220BD.
- also available in calibre 22-250 REM as either the standard model 220C or "deluxe" model 220CD.

Notes

Make

- "Revelation" and "Western Auto Supply Co." may be marked on the firearm.
- "Revelation" is a trade name used on firearms made for the "Western Auto Supply Company".

Model

- this is a Mossberg model 800B sold under the Western Auto owned "Revelation" trade name.
- also available in a deluxe version as the model 220BD (Mossberg model 800BD).
- the Mossberg model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Mossberg under the New Haven trade name, by Montgomery Ward's under the Western Field brand name and by Western Auto under the Revelation name.

Action

- turn-bolt operated.

Serial Number

- numbered on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Shots

- internal magazine with a hinged floorplate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- also available in calibre 308 WIN as either the standard model 220A or "deluxe" model 220AD.
- also available in calibre 22-250 REM as either the standard model 220C or "deluxe" model 220CD.

Notes

Make

- "Revelation" and "Western Auto Supply Co." are marked on the barrel.
- "Revelation" is a trade name used on firearms made for the "Western Auto Supply Company".

Model

- "MODEL "99"" is marked on the left side of barrel.
- features include: round barrel; solid top receiver/frame with fluted swing out cylinder; exposed spur hammer; single/double action trigger mechanism; plastic birdshead grips; blade front sight and drift adjustable rear sight; blue/black finish; round or square butt configuration.

Manufacturer

- High Standard is not marked on the firearm.
- "H.S." was observed markings on the barrel.
- High Standard "trigger" logo was observed marked on each grip panel.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number consisted of seven numbers without a letter prefix or suffix.

FRT Report

Firearm Reference Number (FRN): 2615
Make: Revelation
Model: BD

Summary

Make:	Revelation
Model:	BD
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2615 - 1	243 WIN	4	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Revelation" and "Western Auto Supply Co." may be marked on the firearm.
- "Revelation" is a trade name used on firearms made for the "Western Auto Supply Company".

Model

- this firearm is essentially the same as the Mossberg 800DB.
- the model BD was designed for traditional "short" action length cartridges (308 WIN and shorter).
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the Mossberg model 800 series of rifles were sold by Montgomery Ward's under the Western Field brand name, by Western Auto under the Revelation name and by Mossberg under the New Haven brand name.

Remarks

- Mossberg used a coding system that identified specific features on their models. The codes are as follows:
A = calibre 308 WIN
B = calibre 243 WIN
C = calibre 22-250 REM
D = Deluxe or Super Grade (only one variant was sold without the "D" being prefixed with a calibre code. This variation was produced in 1970 only in calibre 6.5MM REM MAG).
E = calibre 350 REM MAG (1970 only)

Notes

Make

- "REVELLI" is named for the designer of this machine gun.
- Captain Bethel Abiel Revelli of the Italian Army first applied for a patent on machine guns in 1908.

Model

- manufactured during World War One.
- this is a medium weight, air cooled flexible machine gun for use in aircraft.
- the 1914 was also available as a water cooled machine gun for use by the infantry.
- features include: round barrel; slotted/louvered half-length barrel jacket; rectangular shaped receiver/frame with right side inspection plate; "T" shape cocking handle mounted on the rear of the reciprocating breech block; selective fire lever is located on the spade grip assembly; unique box magazine located on the left side of the receiver/frame; magazine has ten compartments which each hold five rounds, when the first five rounds are expended the magazine indexes one compartment; top ejecting; fixed front sight and leaf adjustable rear sight.
- weight of machine gun is approximately 13.4 kgs (29.5 lbs).

Manufacturer

- "MBT" is marked on the receiver/frame.
- the model 1914 was manufactured by Fabrica Italiana Automobli Torino (FIAT) which translates as Italian Automobile Manufacturer/Fabricator Turin, Metallurgica Bresciana gia Tempimi SA (MBT) and Societa Italiana Ernesto Breda of Brescia.

Action

- uses a combination of short recoil and blowback.

Serial Number

- serial number is located on the top of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable compartmentalized box magazine.

- this is a medium weight, air cooled flexible machine gun for use in aircraft.
- the 1914 was also available as a water cooled machine gun for use by the infantry.
- features include: round barrel; slotted/louvered half-length barrel jacket; rectangular shaped receiver/frame with right side inspection plate; "T" shape cocking handle mounted on the rear of the reciprocating breech block; selective fire lever is located on the spade grip assembly; unique box magazine located on the left side of the receiver/frame; magazine has ten compartments which each hold five rounds, when the first five rounds are expended the magazine indexes one compartment; top ejecting; fixed front sight and leaf adjustable rear sight.
- weight of machine gun is approximately 13.4 kgs (29.5 lbs).

Manufacturer

- "MBT" is marked on the receiver/frame.
- the model 1914 was manufactured by Fabrica Italiana Automobli Torino (FIAT) which translates as Italian Automobile Manufacturer/Fabricator Turin, Metallurgica Bresciana gia Tempimi SA (MBT) and Societa Italiana Ernesto Breda of Brescia.

Action

- uses a combination of short recoil and blowback.

Serial Number

- serial number is located on the top of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable compartmentalized box magazine.

Notes

Make

- "MADE SPECIALLY FOR REVILLION FRERES" was observed marked on the firearm.
- Revillon Freres was a French fur and luxury goods company with stores in London, New York and Montreal at the end of the 19th century.
- Revillon Freres de Paris established fur trading post in Canada in competition with the Hudson Bay Company (HBC).
- Revillon Freres were the first trading posts located at Sept-Iles, Quebec and Moosonee, Ontario circa 1903.
- Revillon Freres' operation in Canada was bought out by the Hudson Bay Company in 1936.

Model

- model name is not marked on the firearm.
- this type of firearm represents the Warnant System addition/improvement to the Flobert system whereby the breech block is hinged at the rear of the barrel allowing it to swing up and forward to open the action for loading/unloading.
- features include: octagonal barrel; Warnant type action with the breech block hinged at the front and swinging upwards and forward to expose the chamber; exposed hammer; single trigger; one piece hardwood stock; fixed sights.

Manufacturer

- "AF" under a crown is marked under the barrel.

Serial Number

- known example had a four digit number without prefix or suffix marked on the barrel.

Calibre

- "FL. 9 M.C" was observed marked on the side of the barrel.

193502 - 4	410 GA X 2 1/2"	10	510	Prohibited PFR, Part 1, para. 87(z.684)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "REVOLUTION ARMS" is marked on the right side of receiver/frame.

Model

- "AR-410" is marked on the right side of the lower receiver/frame.
- "AR-410" is a design/variant based on the Colt AR-15/M16 rifle.
- "AR-410" is also sold as an upper assembly.
- features include: threaded muzzle for flash hider/muzzle brake; threaded barrel nut; standard front sight; A2 fixed carrying handle or A3 accessory rail flat top upper assembly; forward assist; may have a detachable carrying handle with adjustable rear sight or optical sight; collapsible, standard or custom rifle buttstock; synthetic pistol grip; standard STANAG magazine well; matte black finish.
- overall length with stock collapsed with 472mm barrel is 909mm.
- lower portion of upper received is drilled for the pin that holds the ejector arm in place.

Manufacturer

- "Made by KRC AV in Turkey" is marked on barrel.

Type

- this firearm is a 410 gauge shotgun upper on an AR-15 STANAG lower receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated; annular gas ring type gas mechanism.
Serial Number	- on an observed sample firearm the serial number was found marked on the left side of the upper receiver. - serial numbers of referenced examples consisted of two lines of text, the top line "CA" (for Canada); "18" (for the year of manufacture); lower line "AR-410" (for model); followed by four Arabic numerals. Example "CA -18" AR-410-0000.
Calibre	- The calibre designation is marked on the barrel.
Shots	- detachable box magazine that fits in an STANAG magazine well. - the cartridge magazines inspected were a proprietary design which resembled, but were not NATO STANAG design. - the cartridge magazine is purpose designed for 410 Gauge X 2 1/2 inch shot shells.

FRT Report

Firearm Reference Number (FRN): 195283
Make: Revolution Armory
Model: AXL 47

Summary

Make:	Revolution Armory
Model:	AXL 47
Manufacturer:	Kirici
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Semi-Automatic
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195283 - 1	12 GA X 3"	5	508	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "REVOLUTION ARMS" is marked on the right side of receiver/frame

Model

- "AXL 47" is usually marked on the top-cover, rearward of the ejection port.
- this is an "AR-15"-styled gas-operated semi-automatic shotgun that also combines features of the AK-47/AKM design, notably a stamped top-cover and an above-barrel gas piston.
- features may include: round barrel with angle-slotted compensator on a threaded muzzle; screw-in interchangeable choke tubes; raised "AK"-style sights with accessory rail rear sight mount; above-barrel gas piston; synthetic furniture with ventilated forearm; right-side ejection port and operating handle; "AR"-style synthetic lower receiver/frame; "AR"- style safety and magazine release; vertical pistol-grip and a telescoping buttstock with adjustable cheek piece; matte black or tiger-stripe camouflage finish.
- overall length is 780mm (30.75") with a 508mm (20") barrel, with the stock fully collapsed.

The AXL 47 receiver/frame resembles that of the AR-15 family of firearms.

Manufacturer

- "Kirici Silah Sanayi" or variation may be marked on the side of the barrel and/or the receiver/frame.

Action

- gas-operated.

Serial Number

- serial number is marked on the front right side of the receiver/frame.
- serial number of an observed example consisted of "AXL47", a dash and four numbers.

Calibre

- calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

194778 - 3	12 GA X 3"	10	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "REVOLUTION ARMS" is marked on the receiver/frame.

Model

- "Revolution Arms" is marked on the right side of the barrel shroud.
- "BLP12" is marked on the firearm.
- "BLP12" is a box magazine fed, semi-automatic shotgun.
- features include: interchangeable, round, tapered, smooth bore barrel, with interchangeable chokes; may have adjustable sights, folding sights or optical sight; top, full length accessory rail integral to the barrel shroud; bottom, forward, short accessory rails integral to the barrel shroud; one piece, synthetic lower assembly including forend with forward hand stop, integral trigger guard, pistol grip, magazine housing and recoil plate; left side cocking handle and action release lever; right side magazine release; cross bolt safety at the rear of the magazine well; metallic components finished blue/black; synthetic lower assembly may be black or coloured.
- overall length with a 508mm (20") barrel is 750mm (29.52").

Manufacturer

- "Made by KRC A V in Turkey" is marked on the barrel.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of an observed example consisted of "BLP12" and a dash followed by four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device") is removed the receiver/frame/barrel assembly may be correctly classified as "Non-Restricted" or "Restricted" depending upon over-all length and barrel length when assembled with a conventional stock.
