Notes

Make

- marked on the barrel, toward breech end: SAVAGE ARMS INC., WESTFIELD MASS.

Model

- introduced in 1994.
- the "111" in the model designation denotes a "long" length receiver/frame (the "short" length receiver/frame is known as the model "11"), the "F" denotes a composite stock, the "L" denotes a left-hand action (the bolt handle and ejection port are on the left side).
- this is the left-hand version of the model 111F.
- features include: graphite/fiberglass filled stock with a non-glare finish; diamond checkered pistol grip and forend; fitted with recoil pad and swivel studs; action cocks on opening; the bolt has two locking lugs with gas vent holes that match twin gas ports in the receiver/frame; top loading magazine; tang safety; blade front sight on a ramp and a folding rear sight on a removable sliding ramp; as of 2004, this model is offered with the Savage "AccuTrigger" adjustable trigger unit.
- receiver/frame is drilled and tapped for a scope mount.

Manufacturer

- marked on the barrel, toward breech end: SAVAGE ARMS INC., WESTFIELD MASS.

Action

- manual turn-bolt mechanism.

Serial Number

- marked on right side of the receiver/frame.

Calibre

- marked on the barrel.
- when this model was introduced it was offered chambered for "short" and "long" length cartridges. When the model "11" was introduced in 1998 as the "short" length action all "short" length calibre options were discontinued in this model.

Shots

- internal box magazine.

Notes

Make

- the Savage name is marked on the firearm.

Model

- introduced in 2006.
- the "111" in the model designation denotes a long action length (short action variants of the model are designated as the model "11"), "F" denotes a synthetic stock, "Y" denotes that this is a youth model with more compact dimensions, "C" denotes a detachable box magazine and "AK" denotes the addition of an adjustable muzzle brake.
- features include; dual pillar bedded synthetic stock with a checkered pistol grip and forend, padded rubber recoil pad and sling swivel studs; blued, right-handed receiver/frame drilled and tapped for scope mounts; standard-weight satin-blued barrel with no open sights; sliding thumb safety on the right side of the receiver/frame; "AccuTrigger" adjustable trigger unit.
- the model "111" is also available in several other variations.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the receiver/frame, rationalization unknown.

Calibre

- the calibre designation is marked on the barrel.

Shots

- detachable box magazine.

Notes

Make

- the Savage name will be marked on the barrel and laser engraved on the bolt.

Model

- the "111GCNS" designation denotes a long action "111" (the short action within this line is known as the model 11), wood stock "G", detachable box magazine "C" and no iron sights "NS".
- features include: walnut stained hardwood stock; diamond checkered pistol grip and forend; fitted with recoil pad and swivel studs; action cocks on opening; the bolt has two locking lugs with gas vent holes that match twin gas ports in the receiver, as well as three safety gas baffles; AccuTrigger; tang mounted safety.
- receiver/frame is drilled and tapped for scope mount.
- also available with a synthetic stock as the model 111FCNS.

Manufacturer

- the Savage name will be marked on the barrel and laser engraved on the bolt.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt operated.
Serial Number	- the serial number is marked on the right side of the receiver/frame, rationalization unknown.
Calibre	- calibre designation is marked on the barrel.
Shots	- detachable box magazine.

Notes

Make

- marked on the top right side of barrel, towards the breech end: SAVAGE ARMS INC., WESTFIELD MASS.

Model

- introduced in 1994.
- the "111" in the model designation denotes a "long" length receiver/frame (the "short" length receiver/frame is known as the model "11"), the "G" denotes a wood stock, the "L" denotes a left-hand action (the bolt handle and ejection port are on the left side).
- this is the left-hand version of the model 111G.
- features include: diamond checkered wood pistol grip and forend; fitted with recoil pad and swivel studs; action cocks on opening; the bolt has two locking lugs with gas vent holes that match twin gas ports in the receiver/frame; top loading magazine; tang safety; blade front sight on a ramp and a folding rear sight on a removable sliding ramp; as of 2004, this model is offered with the Savage "AccuTrigger" adjustable trigger unit.
- receiver/frame is drilled and tapped for a scope mount.

Manufacturer

- marked on the top right side of barrel, toward breechend: SAVAGE ARMS INC., WESTFIELD MASS.

Action

- manual turn-bolt mechanism.

Serial Number

- found on front right side of receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Shots

- internal box magazine.

Notes

Make	- the make designation is marked on the barrel assembly and may also be found on the receiver/frame.
Model	- this FRT screen is a generic for the Savage model 112 series of variants. Other 112 entries exist which might better describe the firearm being identified. - manufacture of this model began in 1978. - the model designation is marked as, "SAVAGE MODEL 112 SERIES X" (where "X" is the series letter denoting modifications/variations within the model series) on the left rear side of the receiver/frame or barrel. - features may include: graphite/fiberglass filled composite stock or wood laminate stock or walnut varmint stock with checkered pistol grip and forend; ventilated recoil pad and swivel studs; the action cocks on opening; dual, horizontally opposed, locking lugs with gas vent holes that match twin gas ports in receiver; three safety gas baffles; top loading box magazine; slide thumb safety located on the top tang; receiver/frame drilled and tapped for top mounted scope; available in left or right hand versions.
Manufacturer	- the manufacturer's designation is marked on the barrel assembly and may also be found on the receiver/frame.
Action	- turn-bolt design.
Serial Number	- the serial number is marked on the right side of the receiver/frame. - observed serial number sequences have consisted of a single letter prefix followed by six numbers. - serial number rationalization is unknown.
Calibre	- the calibre designation is marked on the left side of the barrel assembly.
Shots	- internal box magazine.
Remarks	- this FRT screen is a generic for the Savage 112s. Other 112 entries exist which might better describe the firearm being verified. Graphite/fiberglass filled composite stock or wood laminate stock or walnut varmint stock with checkered pistol grip and forend. Comes with ventilated recoil pad and swivel studs. Action cocks on opening and two locking lugs with gas vent holes that match twin gas ports in receiver and has three safety gas baffels. Top loading magazine. Slide thumb safety located on the tang. Receiver drilled and tapped for top mounted scope. Comes in left or right hand versions.

Notes

Make

- marked on the barrel toward breech end SAVAGE ARMS INC., WESTFIELD MASS.

Model

- introduced in 1993.
- left handed version of model 116FSAK.
- "F" denotes Fibre-glass stock, "L" denotes Left-hand action, "S" denotes Stainless Steel, "AK" denotes Adjustable Muzzle Brake.
- features stainless steel receiver/frame drilled and tapped for scope mounts, standard-weight stainless steel barrel, sliding thumb safety beside the receiver tang, does not come equipped with sights.
- matte black graphite polymer stock with checkered pistol grip and forend, rubber recoil pad and swivel studs.

Manufacturer

- marked on the top right side of barrel, toward breech end: SAVAGE ARMS INC., WESTFIELD MASS.

Action

- left hand, turn-bolt action.

Serial Number

- found on front right side of receiver/frame.

Barrel

- the barrel length does not include the removable muzzle brake (approximately 51mm).

Calibre

- "PROOF TESTED CAL XXXXX" marked on the left side of barrel.

Shots

- integral box magazine.

Notes

Make

- "SAVAGE MODEL 11" over "SAVAGE ARMS INC., WESTFIELD MASS. 01085 U.S.A." is usually marked on the left side of barrel.

Model

- introduced in 1998.
- "SAVAGE MODEL 11" is usually marked on the left side of the barrel.
- "11F" is not marked on the firearm.
- "11" in the model designation denotes short action length (long action variants of the model are designated as the model "111"), and "F" denotes Fiberglass stock.
- when the model "11" is equipped with a walnut stained stock it is known as the model "11G".
- features include; dual pillar bedded synthetic stock with a checkered pistol grip and forend, padded rubber recoil pad and swivel studs; blued, short length, right-handed receiver/frame drilled and tapped for scope mounts; standard-weight satin-blued barrel with a hooded front sight and open adjustable rear sight; sliding thumb safety on the right side of the receiver/frame; as of 2004, this model is offered with the Savage "AccuTrigger" adjustable trigger unit.
- this model is available in several sub-variants as follows;
- 11FC; same features as the model 11F except this variation is equipped with a detachable box magazine.
- 11FL; same features as the model 11F except this variation is produced for left-handed shooters with the bolt handle and ejection port on the left side.
- 11FLC; same features as the model 11FL except this variation is equipped with a detachable box magazine.
- 11FNS; same features as the model 11F except this variation is not equipped with open sights.
- 11FXP3; same features as the model 11FNS except this variation is equipped with a factory mounted telescopic sight.
- also available with a shorter "Youth" length synthetic stock, with a reduced length-of-pull.

Manufacturer

- "SAVAGE MODEL 11" over "SAVAGE ARMS INC., WESTFIELD MASS. 01085 U.S.A." is usually marked on the left side of barrel.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.
- observed serial numbers consisted of a letter "G" prefix and six numbers.

Calibre

- calibre is usually marked on the left side of the barrel.

Shots

- integral box magazine.

Notes

Make

- "SAVAGE MODEL 11" over "SAVAGE ARMS INC., WESTFIELD MASS. 01085 U.S.A." is usually marked on the left side of barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 1999.
- "SAVAGE MODEL 11" is usually marked on the left side of the barrel.
- "11GC" is not marked on the firearm.
- "11" in the model designation denotes short action length (long action variants of the model are designated as the model "111") "G" denotes a walnut finished hardwood stock, and "C" denotes detachable box (clip) magazine).
- when the model "11" is equipped with a fiberglass stock it is known as the model "11FC".
- features include; walnut stained hardwood stock with a checkered pistol grip and forend, padded rubber recoil pad and swivel studs; blued, short length, right-handed receiver/frame drilled and tapped for scope mounts; standard-weight satin-blued barrel with a hooded front sight and open adjustable rear sight; sliding thumb safety on the right side of the receiver/frame.
- this model is also available in other variations as follows;
- 11GCNS; same features as the model 11GC except this variation is not equipped with open sights.
- 11G; same features as the model 11GC except this variation is equipped with an integral magazine.
- 11GL; same features as the model 11G except this variation is produced for left-handed shooters with the bolt handle and ejection port on the left side.
- 11GLC; same features as the model 11GL except this variation is equipped with a detachable box magazine.
- 11GNS; same features as the model 11G except this variation is not equipped with open sights.

Manufacturer

- "SAVAGE MODEL 11" over "SAVAGE ARMS INC., WESTFIELD MASS. 01085 U.S.A." is usually marked on the left side of barrel.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.

Calibre

- calibre is usually marked on the side of the barrel.

Shots

- detachable box magazine.

Notes

Make

- the Savage name is marked on the firearm.

Model

- introduced in 2004; this is a rifle built primarily for varmint hunters and target shooters.
- the model 12 series of firearms was offered in several variations as follows.
- 12 Varminter Low Profile; introduced in 2004, this single shot or turn-bolt operated (left or right-hand versions available) repeating rifle features a 660mm (26") fluted stainless steel barrel and a low profile, brown laminated stock with a wide beavertail forend.
- 12BVSS; features a target style laminated stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12BVSS-S; this is the single shot version of the model 12BVSS.
- 12FV; features a right-hand action and a black synthetic stock and blued finish.
- 12FLV; same as the model 12FV but uses a left-hand action (bolt and ejection port are on the left side).
- 12FVSS; features a black synthetic stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12FLVSS; same as the model 12VSS but uses a left-hand action (bolt and ejection port are on the left side).
- 12FVSS-S; this is the single shot version of the model 12FVSS.
- 12VSS; features a Choate adjustable synthetic stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12VSS-S; this is the single shot version of the model 12VSS.
- additional features on all variations include: short length receiver/frame (equivalent models with the long action length are known as the model 112) drilled and tapped for scope mounts (some variations were offered with a factory installed telescopic sight); integral box magazine (except single shot variants); free floated barrel; sling swivel studs; as of 2003 all variants are offered with the Savage AccuTrigger.

Action

- turn-bolt design.

Serial Number

- serial number rationalization unknown, marked on the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Shots

- internal or detachable box magazine.

Model

- this is a left-hand version of the model 12 Varminter Low Profile, introduced in 2005.
- the model 12 series of firearms was offered in several variations as follows.
- 12 Varminter Low Profile; introduced in 2004, this single shot or turn-bolt operated (left or right-hand versions available) repeating rifle features a 660mm (26") fluted stainless steel barrel and a low profile, brown laminated stock with a wide beavertail forend.
- 12BVSS; features a target style laminated stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12BVSS-S; this is the single shot version of the model 12BVSS.
- 12FV; features a right-hand action and a black synthetic stock and blued finish.
- 12FLV; same as the model 12FV but uses a left-hand action (bolt and ejection port are on the left side).
- 12FVSS; features a black synthetic stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12FLVSS; same as the model 12VSS but uses a left-hand action (bolt and ejection port are on the left side).
- 12FVSS-S; this is the single shot version of the model 12FVSS.
- 12VSS; features a Choate adjustable synthetic stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12VSS-S; this is the single shot version of the model 12VSS.
- additional features on all variations include: short length receiver/frame (equivalent models with the long action length are known as the model 112) drilled and tapped for scope mounts (some variations were offered with a factory installed telescopic sight); integral box magazine (except single shot variants); free floated barrel; sling swivel studs; as of 2003 all variants are offered with the Savage AccuTrigger.

Action

- turn-bolt operated.

Serial Number

- serial number rationalization unknown, marked on the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Shots

- internal magazine.

- the model 12 series of firearms was offered in several variations:
- 12 Varminter Low Profile; introduced in 2004, this single shot or turn-bolt operated (left or right-hand versions available) repeating rifle features a 660mm (26") fluted stainless steel barrel and a low profile, brown laminated stock with a wide beavertail forend.
- 12BVSS; features a target style laminated stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12BVSS-S; this is the single shot version of the model 12BVSS.
- 12FV; features a right-hand action and a black synthetic stock and blued finish.
- 12FLV; same as the model 12FV but uses a left-hand action (bolt and ejection port are on the left side).
- 12FVSS; features a black synthetic stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12FLVSS; same as the model 12VSS but uses a left-hand action (bolt and ejection port are on the left side).
- 12FVSS-S; this is the single shot version of the model 12FVSS.
- 12VSS; features a Choate adjustable synthetic stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12VSS-S; this is the single shot version of the model 12VSS.
- 12FTR; vented forend and cheekpiece.
- additional features on all variations include: short length receiver/frame (equivalent models with the long action length are known as the model 112) drilled and tapped for scope mounts (some variations were offered with a factory installed telescopic sight); integral box magazine (except single shot variants); free floated barrel; sling swivel studs; as of 2003 all variants are offered with the Savage AccuTrigger.

Action

- turn-bolt design.

Serial Number

- serial number rationalization unknown.
- marked on the receiver/frame.

- introduced in 2003, also known as the 12VSS-S Varminter.
- the model 12 series of firearms was offered in several variations as follows.
- 12VSS; features a Choate adjustable synthetic stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12VSS-S; this is the single shot version of the model 12VSS
- 12BVSS; features a target style laminated stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12BVSS-S; this is the single shot version of the model 12BVSS.
- 12BLVSS-S; left hand version of the 12BVSS-S.
- 12FV; features a right-hand action and a black synthetic stock and blued finish.
- 12FLV; same as the model 12FV but uses a left-hand action (bolt and ejection port are on the left side).
- 12FVSS; features a black synthetic stock and a stainless steel fluted barrel mated to a blued (early production) or stainless steel right-hand action (late production) and integral box magazine.
- 12FLVSS; same as the model 12VSS but uses a left-hand action (bolt and ejection port are on the left side).
- 12FVSS-S; this is the single shot version of the model 12FVSS.
- additional features on all variations include: short length receiver/frame (the equivalent model with the long action length is known as the model 112) drilled and tapped for scope mounts (some variations were offered with a factory installed telescopic sight); integral box magazine (except single shot variants); free floated barrel; sling swivel studs; as of 2003 all variants are offered with the Savage AccuTrigger.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- marked on the barrel, toward breech end: SAVAGE ARMS INC., WESTFIELD MASS.
Action	- turn-bolt operated.
Serial Number	- marked on the receiver/frame.
Calibre	- marked on the barrel.
Shots	- internal box magazine.

Notes

Make	- the Savage name is marked on the firearm.
Model	- introduced in 2006. - the model 14 "Classic" series is, as of 2006, available in three different configurations. All share the same basic design but each has a unique feature that differentiates it from the other model 14's. - the model "14 American Classic" features a detachable box magazine, a walnut stock with a straight comb and no open sights. The grip cap has an inlaid, brass Indian head medallion. - the model "14 Classic" features a walnut stock with a "Monte Carlo" style cheekpiece, a fixed, internal magazine with a hinged floor plate and no open sights. - the model "14 Euro Classic" features a walnut stock with a "Monte Carlo" style cheekpiece, a detachable box magazine and a barrel mounted adjustable rear sight with a hooded front sight. - the model designation is usually marked as "MODEL 14" on all variants. These model 14's use the Savage "short action", the same rifles are available with a long action as the model "114". - other features include: right-hand bolt, receiver/frame is drilled and tapped for scope mounts; blued finish; equipped with the Savage "Accu-Trigger" adjustable trigger unit; rubber recoil pad and sling swivel studs. - in 2008, Savage introduced a new bolt release located in front of the trigger guard.
Action	- turn-bolt design.
Serial Number	- numbered on the receiver/frame, rationalization unknown.
Calibre	- the calibre designation is marked on the barrel.
Shots	- internal magazine with a hinged floor plate.

Notes

Make

- make is marked on the firearm.

Model

- introduced in 2002 as a short-action variant of the 116BSS, chambered for various "short magnum" cartridges.
- the model 16 series of firearms was offered in several variations as follows.
- 16BSS; features a laminated stock and a stainless steel barrel and right-hand action (bolt handle and ejection port are on the right side) and an integral magazine.
- 16FSS; features a black composite stock, a stainless steel barrel and right-hand action (bolt handle and ejection port are on the right side) and an integral magazine.
- 16FLSS; same as the model 16FSS but features a left-hand action (bolt handle and ejection port are on the left side).
- 16FCSS; features a black composite stock, a stainless steel barrel and right-hand action (bolt handle and ejection port are on the right side) and a detachable box magazine.
- 16FLCSS; same as the model 16FCSS but features a left-hand action (bolt handle and ejection port are on the left side).
- 16LZ; this variant was made for the proprietary Lazzeroni cartridges.
- additional features on all variations include: short length receiver/frame (the equivalent model with the long action length is known as the model 116) drilled and tapped for scope mounts (some variations were offered with a factory installed telescopic sight); free floated barrel; sling swivel studs.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is marked on the firearm.
Serial Number	- numbered on receiver/frame.
Shots	- internal box magazine.

Notes

Make

- the Savage name is marked on the barrel and laser engraved on the bolt.

Model

- introduced in 2005, this model uses the Savage "short" action. Savage offers the same rifle with a "long" action as the model 116DCSAK.
- the model designation is usually marked as SAVAGE MODEL 16, the "F" denotes a synthetic stock in matte black graphite polymer with a checkered pistol grip and forend, the "C" denotes a detachable box magazine, the "S" denotes stainless steel construction and the "AK" denotes an adjustable muzzle brake.
- other features include: matte, natural stainless steel finished action and fluted barrel; receiver/frame is drilled and tapped for scope mounts; sliding thumb safety located at the rear of the receiver/frame; AccuTrigger; usually not equipped with iron sights.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the Savage name is marked on the barrel and laser engraved on the bolt.
Action	- turn-bolt operated.
Serial Number	- rationalization unknown, marked on the receiver/frame.
Calibre	- the calibre designation is usually marked on the barrel.
Shots	- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- the Savage name is marked on the firearm.
Model	- introduced in 2006/7. This model is one of the rifles in the Savage "Weather Warrior" series that features a synthetic stock and stainless steel receiver/frame and barrel. - the "16" in the model designation denotes that this model is built using a "short" action (long action variants of this model are designated model "116"), the "F" denotes a synthetic stock, the "H" denotes a hinged floor plate, the "L" denotes a left hand version and the "SS" denotes the use of stainless steel. - other features include: matte finish on receiver/frame and barrel; black, dual pillar bedded, pistol grip stock; no open sights, receiver/frame is drilled and tapped for a scope mount(s); fitted with the Savage, adjustable "AccuTrigger"; safety catch mounted on the right side; sling swivel studs. - also available in "long" action calibre's as the model 116FHSS and 116FHLSS in a left hand version. - overall length with a 610mm barrel is 1111mm (43.75"), average weight is 2.95kg (6.5lbs).
Manufacturer	- "SAVAGE" is marked on the firearm. - "SAVAGE" and the Savage Indian Head Logo is usually laser engraved on the bolt. - "SAVAGE ARMS INC., WESTFIELD MASS. 01085 U.S.A." is usually marked on the barrel.
Action	- turn-bolt design.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of a one letter prefix and six numbers.
Calibre	- the calibre designation is marked on the barrel. - 22-250 REM rifling characteristics: 1 turn in 12 inches, right hand twist. - 223 REM rifling characteristics: 1 turn in 9 inches, right hand twist. - 270 WSM, 308 WIN, 300WSM and 325WSM rifling characteristics: 1 turn in 10 inches, right hand twist. - 243 WIN rifling characteristics: 1 turn in 9.25 inches, right hand twist. - 7MM-08 REM rifling characteristics: 1 turn in 9.5 inches, right hand twist.
Shots	- internal magazine with a hinged floorplate.

Notes

Make

"SAVAGE REPEATING ARMS Co., UTICA, N.Y. U.S.A." over "PATENTED FEB. 7. 1893. JULY 25. 1893. CAL. .303" is marked on the barrel.
- "Savage" was incorporated as "Savage Repeating Arms Company" on April 5 1894.
- "Savage" was re-incorporated as "Savage Arms Company" on December 16 1997, before getting into production of firearms.

Model

- Manufactured from 1895 to 1899.
- "1895" manufactured by "Marlin" will be marked "SAVAGE REPEATING ARMS Co., UTICA, N.Y. U.S.A." over "PATENTED FEB. 7. 1893. JULY 25. 1893. CAL. .303." on the barrel.
- "1895" reference sources make mention of 5000 while others say 8000 were produced.
- "1895" defining features are: the bolt with a visual cocking indicator hole located on top, showing a "S" for safe and "C" for when its ready to fire; a cartridge counter on the left side of the receiver/frame which told the user how many rounds are left in the rotating magazine.
- "1895" from the 1900 Savage catalog, could been converted and improved to the model 1899 with a new bolt and related parts.
- Features include: round, half octagonal or octagonal barrel; hammerless, open top receiver/frame; drill and tapped tang for adjustable tang sight; internal rotating magazine with cartridge counter on the left side; crescent steel or hard rubber buttplate.

Manufacturer

- "Marlin" stamp "JM" or "M" in a circle appears on the bottom of the barrel, beneath the forearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the underside of the receiver/frame. - Serial number of referenced examples consisted of four numbers, highest approximately been 8200.
Calibre	- The calibre designation is marked on the barrel. - ".303" calibre marking stands for the "303 Savage". - "1895" made by "Marlin" were only available in "303 Savage".
Shots	- Internal rotating magazine.

FRT Report

Firearm Reference Number (FRN): 3236
Make: Savage
Model: 1899 Deluxe

Summary

Make:	Savage
Model:	1899 Deluxe
Manufacturer:	Savage
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Lever Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
3236 - 1	250 SAVAGE	5	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is marked on the barrel as: "SAVAGE".

Model

- introduced in 1914 and discontinued in 1922.
- model designation is marked on the barrel as: "MODEL 1899". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model.
- features include: blued steel receiver/frame with top ejection, takedown design, blued tapered round barrel, casehardened lever, hammerless with "cocked" indicator bar or button on top of the receiver/frame, adjustable rear sight with integral front sight base with white metal bead blade.
- many models were equipped with an adjustable rear sight with knurled knobs on each side. The knurled knobs may be marked, "Pat' Oct 13, 1914".
- trigger has a distinctive fine cross checkering. This fine cross checkering is not found on any other Savage Model 1899 or 99.
- safety located on the right side of the lever.
- extra wide varnished American walnut pistol grip stock with a "Perch-Belly" underside and a steel shotgun style buttplate, straight taper forearm with schnabel tip. The pistol grip and the forearm have fine checkered sides.
- this model came with the new takedown design in which the barrel and forend could be detached from the receiver/frame and stock by a button located on the underside of the forend. The barrel and forend were normally stamped with the serial number and a "H" on the rear.
- a shotgun barrel in 410 GA X 2 1/2 was introduced in 1920 as a special order for a rifle fitted with the new takedown design. With this barrel in place the firearm will operate as a single shot firearm only as the rotary magazine will not accept a shot shell.
- engraved models were available as special orders.

Manufacturer

- manufacturer's designation is marked on top of the barrel as:
"Manufactured by the Savage Arms Company. Utica. N.Y. U.S.A."
or
"Manufactured by the Savage Arms Corp. Utica. N.Y. U.S.A.".

Serial Number

- serial number is marked on the underside of the receiver/frame.
- serial number range is from approximately 146,000 to 237,500.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is marked on the barrel.
Shots	- internal rotary magazine.
Other Markings	- barrel may be marked on the left side as: "SAVAGE HI-PRESSURE STEEL" "MODEL 1899" "Manufactured by the Savage Arms Company. Utica. N.Y. U.S.A." "Pat - Feb. 7. 1893, July 25. 1893, Oct. 3, 1899. May 25, 1909, June 1, 1909" or "Manufactured by the Savage Arms Corp. Utica. N.Y. U.S.A." "Pat - Feb. 7. 1893, July 25. 1893, Oct. 3, 1899. May 25, 1909, June 1, 1909"

Notes

Make

- make is normally marked on the barrel as: "SAVAGE".
- by 1920 the make was relocated and marked on the top of the receiver/frame ring.

Model

- introduced in 1899. In 1926 the Model 1899-A rifle was improved, renamed and replaced with the Model 99A.
- model designation is normally marked on the barrel as: "MODEL 1899". By 1920 the model designation was relocated to the receiver/frame ring and was marked as: "MODEL 99". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model.
- features include: blued steel receiver/frame with top ejection, blued standard weight round barrel, casehardened lever, hammerless with "cocked" indicator bar or button on top of the receiver/frame, adjustable rear sight with a knife edge or white metal bead front.
- safety located on the right side of the lever.
- varnished American walnut straight stock with a "Perch-Belly" underside which was changed to a straight stock in 1920. A pistol grip was available as a special order. The forearm has a curved taper with a schnabel tip. The butt was a curved steel rifle type buttplate. A shotgun style buttplate was available until 1919.
- prior to 1909 the takedown feature design involved the stock being removed from the receiver/frame, barrel and forearm. Starting in 1909 a new takedown design was available as a special order in which the barrel and forend could be detached from the receiver/frame and stock by a button located on the underside of the forend.
- a shotgun barrel in 410 GA X 2 1/2 was introduced in 1920 as a special order for a rifle fitted with the new takedown design. With this barrel in place the firearm will operate as a single shot firearm only as the rotary magazine will not accept a shot shell.
- engraved models were available as special orders. Engraving would include scroll work which may include a deer within a circle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's designation is marked on the top of the barrel as: "Savage Arms Company, Utica, N.Y" or "Savage Arms Company, Utica, N.Y. U.S.A." or "Manufactured by the Savage Arms Company. Utica. N.Y. U.S.A." or "Manufactured by the Savage Arms Corp. Utica. N.Y. U.S.A.".
Serial Number	- serial number is marked on the underside of the receiver/frame. - serial number range is from approximately 10,000 to 300,000.
Calibre	- calibre designation is normally marked on the barrel.
Shots	- internal rotary magazine. - the internal rotary magazine will not accept a 410 GA x 2 1/2" shell. - the calibre conversion unit that was available in 410 GA X 2 1/2" was only usable as a "Single-Shot".
Other Markings	- the barrel may be marked on the left hand side as: "SAVAGE HI-PRESSURE STEEL" "MODEL 1899" - by 1920 the above markings were relocated onto the top of the receiver/frame ring as: "SAVAGE MODEL 99" - the top of the barrel may be marked with one of the following: "Savage Arms Company, Utica, N.Y. U.S.A. Pat. Feb. 7, 1893" or "Savage Arms Company, Utica, N.Y. U.S.A." "Pat. Feb. 7. ' 93. July 25. ' 93. Oct. 3. ' 99. Cal. .30" or "Manufactured by the Savage Arms Company. Utica. N.Y. U.S.A." "Patented February 7. 1893, July 25. 1893, October 3, 1899." or "Manufactured by the Savage Arms Company. Utica. N.Y. U.S.A." "Pat - Feb. 7. 1893, July 25. 1893, Oct. 3, 1899. May 25, 1909, June 1, 1909" or "Manufactured by the Savage Arms Corp. Utica. N.Y. U.S.A." "Pat - Feb. 7. 1893, July 25. 1893, Oct. 3, 1899. May 25, 1909, June 1, 1909"

Notes

Make - make is normally marked on the barrel as: "SAVAGE". By 1920 the make designation was relocated and marked on the top of the receiver/frame ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 1899. In 1922 the Model 1899-A Saddle Gun was improved, renamed and replaced with the Model 99C.
- model designation is normally marked on the barrel as: "MODEL 1899". On late models the model designation was relocated to the receiver/frame ring and was marked as: "MODEL 99".The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model.
- features include: blued steel receiver/frame with top ejection, blued standard weight round barrel, casehardened lever, hammerless with "cocked" indicator bar or button on top of the receiver/frame, adjustable rear sight with knife edge front sight.
- safety located on the right side of the lever.
- varnished American walnut straight stock with a "Perch-Belly" underside and a steel shotgun style buttplate. A pistol grip was available as a special order. The forearm has a curved taper with a schnabel tip.
- prior to 1917 the takedown design feature involved the stock being removed from the receiver/frame, barrel and forearm. Starting in 1917 a new takedown design was available as a special order in which the barrel and forend could be detached from the receiver/frame and stock by a button located on the underside of the forend.
- a shotgun barrel in 410 GA X 2 1/2 was introduced in 1920 as a special order for a rifle fitted with the new takedown design. With this barrel in place the firearm will operate as a single shot firearm only as the rotary magazine will not accept a shot shell.
- engraved models were available as special orders. Engraving would include scroll work which may include a deer within a circle.

Manufacturer

- the manufacturer's designation is normally marked on top of the barrel as:
"Savage Arms Company, Utica, N.Y"
or
"Savage Arms Company, Utica, N.Y. U.S.A."
or
"Manufactured by the Savage Arms Company. Utica. N.Y. U.S.A."
or
"Manufactured by the Savage Arms Corp. Utica. N.Y. U.S.A.".

Serial Number

- serial number is marked on the underside of the receiver/frame.
- serial number range is from approximately 10,000 to 220,000.

Calibre

- calibre designation is normally marked on the barrel.

Shots

- internal rotary magazine.
- the internal rotary magazine will not accept a 410 GA x 2 1/2" shell.
- the calibre conversion unit that was available in 410 GA X 2 1/2" was only usable as a "Single-Shot".

Other Markings

- the barrel may be marked on the left hand side as:
"SAVAGE HI-PRESSURE STEEL"
"MODEL 1899"
- on late models the above markings were relocated onto the top of the receiver/frame ring as:
"SAVAGE MODEL 99"
- the top of the barrel may be marked with one of the following:
"Savage Arms Company, Utica, N.Y. U.S.A. Pat. Feb. 7, 1893"
or
"Savage Arms Company, Utica, N.Y. U.S.A."
"Pat. Feb. 7. ' 93. July 25. ' 93. Oct. 3. ' 99. Cal. .30"
or

Model

- introduced in 1899 and discontinued in 1915.
- the model designation is normally marked on the barrel as, "MODEL 1899". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model.
- features include: blued steel receiver/frame with top ejection, blued half octagonal and half round standard weight barrel, casehardened lever, hammerless with a "cocked" indicator bar or button on top of the receiver/frame, adjustable rear sight with a knife edge front sight.
- safety located on the right side of the lever.
- varnished American walnut straight stock with a "Perch-Belly" underside. A pistol grip was available as a special order. The forearm has a curved taper with a schnable tip. The butt was a curved, steel, rifle type buttplate. A shotgun style buttplate was available as a special order.
- engraved models were available as special orders. Engraving would include scroll work which may include a bear. The stock and forearm may also have checkering and scroll work.

Manufacturer

- the manufacturer is normally marked on the top of the barrel as:
"Savage Arms Company, Utica, N.Y"
or
"Savage Arms Company, Utica, N.Y. U.S.A."
or
"Manufactured by the Savage Arms Company. Utica. N.Y. U.S.A."

Serial Number

- serial number is marked on the underside of the receiver/frame.
- serial number range is from approximately 10,000 to 175,000.

Calibre

- the calibre designation is normally marked on the barrel.

Shots

- internal, rotary magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- the barrel may be marked on the left hand side as:
"SAVAGE HI-PRESSURE STEEL"
"MODEL 1899"
- the barrel may be marked on the top with one of the following:
"Savage Arms Company, Utica, N.Y. U.S.A. Pat. Feb. 7, 1893"
or
"Savage Arms Company, Utica, N.Y. U.S.A."
"Pat. Feb. 7. ' 93. July 25. ' 93. Oct. 3. ' 99. Cal. .30"
or
"Manufactured by the Savage Arms Company. Utica. N.Y. U.S.A."
"Patented February 7. 1893, July 25. 1893, October 3, 1899."
or
"Manufactured by the Savage Arms Company. Utica. N.Y. U.S.A."
"Pat - Feb. 7. 1893, July 25. 1893, Oct. 3, 1899. May 25, 1909, June 1, 1909"

Notes

Make

- the Savage name is marked on the top of the barrel.

Model

- manufactured from 1904 to 1915/17.
- this is a compact rifle intended for younger shooters. The complete model designation is not usually marked on the firearm. The top of the barrel is usually marked only "MODEL 1904". The "Junior" in the model designation denotes the intended use as a "boys" rifle.
- features include: plain, uncheckered American walnut one piece stock; action cocks upon closing of the bolt; take down design; the trigger guard was a double loop that not only protected the trigger but formed a semi pistol-grip; bead front sight with a barrel mounted adjustable rear sight; round barrel; blued finish.
- the same design, fitted with a Savage ivory bead front sight and a deluxe, checkered walnut stock was known as the model "1904 Junior Special".

Manufacturer

- the Savage name is marked on the top of the barrel.

Action

- turn-bolt operated

Serial Number

- serial number may be located on the lower tang, inside the ejection port and/or rear left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre designation is marked on the top of the barrel.

Notes

Make

- "SAVAGE" is marked on the receiver/frame.

Model

- "SAVAGE - 1921 - MODEL" is stamped on the underside of the receiver/frame.
- manufactured from 1921 to 1927.
- this is the first Savage repeating shotgun.
- takedown design, available in 12 GA only.
- this was a design that closely resembled the Winchester Model 12. The main differences were the top tang safety, and the takedown lever mounted on the magazine tube. Pistol grip stock with varnish finish. Barrel come with either cylinder, full or modified chokes.
- this model was replaced by the model 1928.

Manufacturer

- "MANUFACTURE BY SAVAGE ARMS CORP" and "UTICA, N.Y. U.S.A." may be marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is usually found on the underside of the receiver/frame ahead of the loading port. - serialization unknown but specimen observed with five numerical digits.
Barrel	- the 508mm barrel length is found on the "Riot" configuration variation and is also called the model 1921C.
Calibre	- marked on the left side of the barrel.

Model

- manufactured from 1950 to 1965.
- "MODEL 24" is marked on right side of receiver.
- select walnut pistol grip stock with a corrugated butt plate on some models.
- forend has special fastening to prevent it from shooting loose. Open rear sight with elevation adjustment and a ramp front sight. Has a cast metal trigger guard. Single trigger and a slide button on the right side of the frame to select barrel.
- two way top opening lever for either right of left handed shooters.
- this is a generic model. Other model "24" entries exist which might better describe the firearm.

Manufacturer

- "SAVAGE ARMS CORPORATION CHICOPEE FALLS, MASS. U.S.A." is marked on left side of receiver.

Action

- over & under.

Serial Number

- the Model 24 may be marked on the barrel or receiver, "Pat. 2259397" or a variation thereof; this is a "Patent" number and NOT A SERIAL NUMBER.

Notes

Make

- "Savage Arms Corporation" is marked on the top of the barrel of the firearm.

Model

- Introduced in 1931.
- Manufactured from 1931 to 1945.
- May also be known as "Model 3".
- "MODEL 3BC" is marked on the top of the barrel of the firearm, common location for model markings during the time period this model was produced.
- This firearm model appears to be one of the numerous transition models produced by Savage without a fixed naming convention.
- Features include: round barrel with fixed front and rear sights; blued receiver/frame with right side cocking handle; single piece wood stock with or without "finger" grooved forend; metal shoulder plate.

Manufacturer

- "Savage Arms Corporation" is marked on the top of the barrel of the firearm.
- "SAVAGE" followed by "UTICA N.Y. - MADE IN U.S.A." is marked on the barrel under "SAVAGE ARMS CORPORATION".
- "Utica N.Y." dates this firearm as prior to 1946.

Action

- Turn bolt operated.

Serial Number

- The serial number is not marked on the firearm.

Firearm Reference Number (FRN): 195886
Make: Savage
Model: 500 Series

Summary

Make:	Savage
Model:	500 Series
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195886 - 1	177 PELLET	1	385	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SAVAGE" is marked on both sides of the receiver/frame.

Model

- "500 SERIES", "MADE IN CHINA" and "HUNTINGTON BEACH CALIF U.S.A. PAT. 3-988-626" are marked on the right side of the receiver/frame.
- this is a break-barrel, spring piston design, single shot air rifle.
- features include: plain round barrel with black cylindrical muzzle brake; receiver/frame with integral dovetail optic/accessory mount; synthetic stock. Grey finish with black accents and black stock.

Action

- break-barrel, spring piston design.
- at least two variants of this particular model may exist:
  1.)Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
  2.)Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- marked on the right side of the receiver/frame.
- serial number consisting of eight numbers was observed.

Calibre

- ".177 cal. (4.5mm)" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- at least two variants of this particular model may exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

FRT Report

Firearm Reference Number (FRN): 33149
Make: Savage
Model: 560F

Summary

Make:	Savage
Model:	560F
Manufacturer:	Industrias El Gamo
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
33149 - 1	177 PELLET	1	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Savage imported these rifles from Gamo in Spain.
- "Savage" may or may not be marked on firearm.

Model

- introduced 1998.
- features include: a black polymer stock with metallic finish and checkered pistol grip; comes with a rubber recoil pad; manual safety located directly ahead of a two stage trigger; hooded front sight on ramp; adjustable rear sight with elevator and four choices of notch shape; blued steel receiver grooved for scope mounts.
- when sold by Gamo, this rifle was known as the "Delta 10" or the "Spectra".

Manufacturer

- manufacturer not marked on airgun.
- marked "Made In Spain".

Action

- barrel cocks gas spring and feeds pellet into breech.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the left side of the barrel.
- observed serial number consisted of number "04", a dash (-), "1C", a dash (-), six numbers, a dash (-), and "98".
- Spanish government instituted a new system for firearm's serial numbering in 1995. This system incorporated the gunmaker/manufacturer code, weapon code, serial number sequence, and year of manufacturer.
- serial number break down: the first two numbers (04) are the code for Gamo, the next number and letter (1C) are the code for an air carbine/rifle, the next six numbers are the serial number sequence, and the last two numbers (98) are the year of manufacture.

- "MODEL 6" is marked on the barrel.
- the model 6 series was manufactured from 1938 to 1968.
- features include: round tapered alloy steel barrel with bead front sight and adjustable sporting type rear sight; solid top receiver/frame with right side ejection; receiver/frame is ventilated on the left side to allow gas and powder residue to escape; receiver/frame was drilled and tapped from 1938 to 1955 or grooved from 1955 to 1968 for scope mounting; takedown; tubular magazine; thumb safety on the right rear side of the receiver/frame from 1938 to 1963 or a tang mounted slide safety from 1963/64 to 1968; metal trigger guard; walnut one piece stock with checkered pistol grip, fluted comb and semi-beavertail fore-end and hard rubber butt plate from 1938 to 1946, walnut one piece stock with plain pistol grip, fluted comb and semi-beavertail fore-end and hard rubber butt plate from 1938 to 1946 and walnut one piece Monte Carlo stock with plain pistol grip, raised comb and semi-beavertail fore-end and hard rubber butt plate from 1947 to 1968.
- NOTE: Pressing the cross bolt to the left locks the action, which allows the rifle to operate like a single shot or bolt action repeater.
- the model 6 was originally introduced with a 610 mm barrel in 1938, the barrel length was shortened to 508 mm circa 1963/64.
- overall length with a 610 mm barrel is 1118 mm, approximate weight of 2.7 kgs.
- overall length with a 508 mm barrel is 1016 mm, approximate weight of 2.6 kgs.

Manufacturer

- manufacturer's name and address are marked on the barrel.

Action

- blowback operation.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the following patent numbers may be marked on the side of the barrel: "2,094,577", "2,224,758", "2,223,093", "RE.22,585" and "2,271,576". - NOTE: "2,094,577", "2,224,758", "2,223,093", "RE.22,585" and "2,271,576" are not serial numbers when marked on the Savage model 6 series.
Calibre	- "22 SHORT, LONG OR LONG RIFLE" is usually marked on the barrel.
Shots	- tubular magazine mounted under the barrel.

FRT Report

Firearm Reference Number (FRN): 33137
Make: Savage
Model: 600F

Summary

Make:	Savage
Model:	600F
Manufacturer:	Industrias El Gamo
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
33137 - 1	177 PELLET	25	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Savage imported these rifles from Gamo in Spain.
- "Savage" may or may not be marked on firearm.

Model

- introduced 1998.
- features include: black polymer stock with lacquer finish and checkered pistol grip; comes with a rubber recoil pad; manual safety located directly ahead of a two stage trigger; tube magazine located on top of the receiver; hooded front sight on ramp; adjustable rear sight with elevator and four choices of notch shape; blued steel, with barrel block grooved for scope mounts.
- the 600FXP is a "package" sold with an air rifle scope, while the 600F is the same rifle sold without a scope.

Manufacturer

- manufacturer not marked on airgun
- marked "Made In Spain".

Action

- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the left side of the barrel.
- observed serial number consisted of number "04", a dash (-), "1C", a dash (-), six numbers, a dash (-), and "98".
- Spanish government instituted a new system for firearm's serial numbering in 1995. This system incorporated the gunmaker/manufacturer code, weapon code, serial number sequence, and year of manufacturer.
- serial number break down: the first two numbers (04) are the code for Gamo, the next number and letter (1C) are the code for an air carbine/rifle, the next six numbers are the serial number sequence, and the last two numbers (98) are the year of manufacture.

Shots

- tubular magazine above compression chamber
- pellets are loaded into the breech automatically when the barrel is cocked.

Notes

Make

- "SAVAGE" is marked on the left side of the barrel.

Model

- Introduced in 1996.
- "MODEL 64" or "SAVAGE 64" is marked on the barrel.
- "64" is available in left or right hand configuration with one piece wood or synthetic stock and may be of a takedown barrel variant.
- Features include: carbon steel or stainless steel round barrel with blade front sight and adjustable rear sight; carbon steel or stainless steel flat sided receiver/frame with right side ejection; right handed tubular bolt knob; safety lever is located on the right side of the receiver/frame; receiver/frame is drilled and tapped for scope mounts; magazine release lever in front of the magazine well; blued or satin stainless finish.

Manufacturer

- "MFG. IN CANADA BY SAVAGE ARMS (CANADA) INC." over "IMPORTED BY SAVAGE ARMS INC. WESTFIELD MA. 01085 U.S.A." is usually marked on the left side of the barrel.

Action

- blowback operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the left side of the barrel as;
"CAL. .22 L.R. ONLY".

Shots

- detachable box magazine.

Other Markings

- a manufactures warning may be marked on the right side of the barrel as:
"BEFORE USING READ OWNERS MANUAL AVAILBLE FROM SAVAGE ARMS INC. WESTFIELD MA. 01085 U.S.A.".
or
"READ OWNERS MANUAL BEFORE USE AVAILBLE FROM SAVAGE ARMS INC. LAKEFIELD ONT. CANADA".

2168 - 4	22 LR	15	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SAVAGE" and "SAVAGE ARMS CORPORATION" was observed marked on the barrel.

Model

- "MODEL 6A" was observed marked on the barrel.
- the model 6 series was manufactured from 1938 to 1968.
- features include: round tapered alloy steel barrel with bead front sight and adjustable sporting type rear sight; solid top receiver/frame with right side ejection; receiver/frame is ventilated on the left side to allow gas and powder residue to escape; receiver/frame was drilled and tapped from 1938 to 1955 or grooved from 1955 to 1968 for scope mounting; takedown; tubular magazine; thumb safety on the right rear side of the receiver/frame from 1938 to 1963 or a tang mounted slide safety from 1963/64 to 1968; metal trigger guard; walnut one piece stock with checkered pistol grip, fluted comb and semi-beavertail fore-end and hard rubber butt plate from 1938 to 1946, walnut one piece stock with plain pistol grip, fluted comb and semi-beavertail fore-end and hard rubber butt plate from 1938 to 1946 and walnut one piece Monte Carlo stock with plain pistol grip, raised comb and semi-beavertail fore-end and hard rubber butt plate from 1947 to 1968.
- NOTE: Pressing the cross bolt to the left locks the action, which allows the rifle to operate like a single shot or bolt action repeater.
- the model 6 was originally introduced with a 610 mm barrel in 1938, the barrel length was shortened to 508 mm circa 1963/64.
- overall length with a 610 mm barrel is 1118 mm, approximate weight of 2.7 kgs.
- overall length with a 508 mm barrel is 1016 mm, approximate weight of 2.6 kgs.

Manufacturer

- "SAVAGE ARMS CORPORATION" and "UTICA, N.Y. MADE IN U.S.A." was observed marked on the barrel.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the following patent numbers may be marked on the side of the barrel: "2,094,577", "2,224,758", "2,223,093", "RE.22,585" and "2,271,576". - NOTE: "2,094,577", "2,224,758", "2,223,093", "RE.22,585" and "2,271,576" are not serial numbers when marked on the Savage model 6 series.
Calibre	- calibre is marked on the barrel.
Shots	- tubular magazine mounted under the barrel.

75992 - 2	22 LR	15	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SAVAGE" and/or "SAVAGE ARMS CORPORATION" is marked on the barrel.

Model

- "MODEL 6J-DL" is marked on the barrel.
- the model 6 series was manufactured from 1938 to 1968.
- features include: round tapered steel barrel with bead front sight and adjustable sporting type rear sight; solid top silver-grey receiver/frame with right side ejection; receiver/frame is ventilated on the left side to allow gas and powder residue to escape; receiver/frame was drilled and tapped from 1938 to 1955 or grooved from 1955 to 1968 for scope mounting; takedown; tubular magazine; thumb safety on the right rear side of the receiver/frame from 1938 to 1963 or a tang mounted slide safety from 1963/64 to 1968; metal trigger guard; walnut one piece stock with checkered pistol grip, fluted comb and semi-beavertail fore-end and hard rubber butt plate from 1938 to 1946, walnut one piece stock with plain pistol grip, fluted comb and semi-beavertail fore-end and hard rubber butt plate from 1938 to 1946 and walnut one piece Monte Carlo stock with plain pistol grip, raised comb and semi-beavertail fore-end and hard rubber butt plate from 1947 to 1968.
- NOTE: Pressing the cross bolt to the left locks the action, which allows the rifle to operate like a single shot or bolt action repeater.
- the model 6 was originally introduced with a 610 mm barrel in 1938, the barrel length was shortened to 508 mm circa 1963/64.
- overall length with a 610 mm barrel is 1118 mm, approximate weight of 2.7 kgs.
- overall length with a 508 mm barrel is 1016 mm, approximate weight of 2.6 kgs.

Manufacturer

- manufacturer's name and address are marked on the barrel.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the following patent numbers may be marked on the side of the barrel: "2,094,577", "2,224,758", "2,223,093", "RE.22,585" and "2,271,576". - NOTE: "2,094,577", "2,224,758", "2,223,093", "RE.22,585" and "2,271,576" are not serial numbers when marked on the Savage model 6 series.
Calibre	- "22 SHORT, LONG & LONG RIFLE" is marked on the barrel.
Shots	- tubular magazine mounted under the barrel.

Notes

Make - the Savage name was marked on the right side of the barrel on the sample examined.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- in 1930 Savage introduced a line of semi-automatic shotguns based on the Browning model "Auto-5" design that was being produced by Fabrique Nationale of Herstal, Belgium. This model used the long recoil method of operation. Savage offered several variations that were based on this design, all shared the same basic features but differed in the style of barrel and/or choke system. Savage further distinguished these models in factory literature by the number of shots each model could hold, catalogues referred to five and three shot capacities in certain models but these numbers included one cartridge in the chamber so actual capacities were four and two respectively. Although each variation was given a specific model designation in most factory literature, samples have been noted simply marked "Savage Automatic".
- the model 720 was produced between 1930 and 1949, it was a five shot version available in 12 GA or 16 GA.
- features include: American walnut buttstock and forend; plain round barrel with a bead front sight; push-button safety on rear of trigger guard; top of receiver/frame is channelled and matted in line of sight to reduce glare; friction ring adjustment for light or heavy loads.
- other variations include:
- model 720C, produced between 1946 and 1949; same as model 720 but with a 508mm barrel that featured a Cutts Compensator. The 720C was supplied with a "spreader" and "full" choke tube with a "modified" choke tube available as an option.
- model 720P, produced between 1946 and 1949; same as model 720 but with a 635mm barrel that featured a Poly Choke.
- model 720R introduced in 1940; this is the "Riot" version of the model 720, equipped with a 508mm barrel.
- further models can be found in the "Remarks" field.

Manufacturer

- the Savage name was marked on the right side of the barrel on the sample examined.

Action

- recoil operated.

Serial Number

- serial number is marked on the underside of the receiver/frame.

Calibre

- the gauge is marked on the barrel.

Shots

- tubular magazine mounted under the barrel.

Remarks

- further model breakdown is as follows,
- model 721, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised solid rib on the barrel.
- model 722, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised ventilated rib on the barrel.
- model 723, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 720 was re-designated as the model 723.
- model 724, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 721 was re-designated as the model 724.
- model 725, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 722 was re-designated as the model 725.
- model 726, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 720. It shares all of the features of the model 720 but the magazine capacity is reduced to two shells.
- model 727, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 721. It shares all of the features of the model 721 but the magazine capacity is reduced to two shells.
- model 728, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 723. It shares all of the features of the model 723 but the magazine capacity is reduced to two shells.
- model 740C, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 508mm barrel equipped with a Cutts Compensator. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.
- model 740P, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 635mm barrel equipped with a Poly Choke. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.

Notes

Make - "Savage" markings will be found on the receiver/frame or barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- in 1930 Savage introduced a line of semi-automatic shotguns based on the Browning model "Auto-5" design that was being produced by Fabrique Nationale of Herstal, Belgium. This model used the long recoil method of operation. Savage offered several variations that were based on this design, all shared the same basic features but differed in the style of barrel and/or choke system. Savage further distinguished these models in factory literature by the number of shots each model could hold, catalogues referred to five and three shot capacities in certain models but these numbers included one cartridge in the chamber so actual capacities were four and two respectively. Although each variation was given a specific model designation in most factory literature, samples have been noted simply marked "Savage Automatic".
- the model 720 was produced between 1930 and 1949, it was a five shot version available in 12 GA or 16 GA.
- the model 720P, produced between 1946 and 1949 was the same as model 720 but with a 635mm barrel that featured a Poly Choke.
- features include: American walnut buttstock and forend; plain round barrel with a bead front sight; push-button safety on rear of trigger guard; top of receiver/frame is channelled and matted in line of sight to reduce glare; friction ring adjustment for light or heavy loads.
- other variations include:
- model 720C, produced between 1946 and 1949; same as model 720 but with a 508mm barrel that featured a Cutts Compensator. The 720C was supplied with a "spreader" and "full" choke tube with a "modified" choke tube available as an option.
- model 720R introduced in 1940; this is the "Riot" version of the model 720, equipped with a 508mm barrel.
- further models can be found in the "Remarks" field.

Manufacturer

- "Savage" markings will be found on the receiver/frame or barrel.

Action

- recoil operated.

Serial Number

- typically consists of five or six digits marked on the underside of the receiver/frame.

Barrel

- standard barrel lengths on the model 720P were 635mm (25") or 660mm (26"), all other Savage "standard" barrel lengths (711mm (28"), 762mm (30")and 813mm (32")) were offered as special order items.

Calibre

- the gauge is marked on the barrel and underside of the receiver/frame.

Shots

- tubular magazine mounted under the barrel.

Remarks

- further model breakdown is as follows,
- model 721, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised solid rib on the barrel.
- model 722, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised ventilated rib on the barrel.
- model 723, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 720 was re-designated as the model 723.
- model 724, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 721 was re-designated as the model 724.
- model 725, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 722 was re-designated as the model 725.
- model 726, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 720. It shares all of the features of the model 720 but the magazine capacity is reduced to two shells.
- model 727, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 721. It shares all of the features of the model 721 but the magazine capacity is reduced to two shells.
- model 728, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 723. It shares all of the features of the model 723 but the magazine capacity is reduced to two shells.
- model 740C, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 508mm barrel equipped with a Cutts Compensator. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.
- model 740P, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 635mm barrel equipped with a Poly Choke. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.

Savage further distinguished these models in factory literature by the number of shots each model could hold, catalogues referred to five and three shot capacities in certain models but these numbers included one cartridge in the chamber so actual capacities were four and two respectively. Although each variation was given a specific model designation in most factory literature, samples have been noted simply marked "Savage Automatic".
- the model 722 was produced between 1930 and 1949, it was a five shot version available in 12 GA or 16 GA.
- features include: American walnut buttstock and forend; round barrel with a raised, ventilated rib and bead front sight; push-button safety on rear of trigger guard; top of receiver/frame is channelled and matted in line of sight to reduce glare; friction ring adjustment for light or heavy loads.
- other variations include:
- model 720, produced between 1930 and 1949; same as the model 721 but with a plain round barrel.
- model 720C, produced between 1946 and 1949; same as model 720 but with a 508mm barrel that featured a Cutts Compensator. The 720C was supplied with a "spreader" and "full" choke tube with a "modified" choke tube available as an option.
- model 720P, produced between 1946 and 1949; same as model 720 but with a 635mm barrel that featured a Poly Choke.
- model 720R introduced in 1940; this is the "Riot" version of the model 720, equipped with a 508mm barrel.
- further models can be found in the "Remarks" field.

Manufacturer

- "Savage" markings are found on the receiver/frame or barrel.

Action

- recoil operated.

Serial Number

- typically consists of five or six digits marked on the underside of the receiver/frame.

Calibre

- the gauge is marked on the barrel.

Shots

- tubular magazine mounted under the barrel.

Remarks

- further model breakdown is as follows,
- model 721, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised, solid rib on the barrel.
- model 723, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 720 was re-designated as the model 723.
- model 724, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 721 was re-designated as the model 724.
- model 725, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 722 was re-designated as the model 725.
- model 726, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 720. It shares all of the features of the model 720 but the magazine capacity is reduced to two shells.
- model 727, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 721. It shares all of the features of the model 721 but the magazine capacity is reduced to two shells.
- model 728, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 723. It shares all of the features of the model 723 but the magazine capacity is reduced to two shells.
- model 740C, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 508mm barrel equipped with a Cutts Compensator. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.
- model 740P, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 635mm barrel equipped with a Poly Choke. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.

This model used the long recoil method of operation. Savage offered several variations that were based on this design, all shared the same basic features but differed in the style of barrel and/or choke system. Savage further distinguished these models in factory literature by the number of shots each model could hold, catalogues referred to five and three shot capacities in certain models but these numbers included one cartridge in the chamber so actual capacities were four and two respectively. Although each variation was given a specific model designation (beginning with the model 720) in most factory literature, samples have been noted simply marked "Savage Automatic".
- the model 726, produced between 1931 and 1949 was the "Upland Sporter" version of the model 720. It shares all of the features of the model 720 but the magazine capacity is reduced to two shells.
- features include: American walnut buttstock and forend; plain round barrel with a bead front sight; push-button safety on rear of trigger guard; top of receiver/frame is channelled and matted in line of sight to reduce glare; friction ring adjustment for light or heavy loads.
- other variations include:
- model 720, produced between 1930 and 1949; same as the model 726 but magazine capacity is four shells.
- model 720C, produced between 1946 and 1949; same as model 720 but with a 508mm barrel that featured a Cutts Compensator. The 720C was supplied with a "spreader" and "full" choke tube with a "modified" choke tube available as an option.
- model 720P, produced between 1946 and 1949; same as model 720 but with a 635mm barrel that featured a Poly Choke.
- model 720R introduced in 1940; this is the "Riot" version of the model 720, equipped with a 508mm barrel.
- further models can be found in the "Remarks" field.

Manufacturer

- "Savage" markings are found on the receiver/frame or barrel.

Action

- recoil operated.

Serial Number

- typically consists of five or six digits marked on the underside of the receiver/frame.

Calibre

- the gauge is marked on the barrel.

Shots

- tubular magazine mounted under the barrel.

Remarks

- further model breakdown is as follows,
- model 721, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised solid rib on the barrel.
- model 722, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised ventilated rib on the barrel.
- model 723, produced between 1930 and 1949, it would appear that at some point the 16 GA version of the model 720 was re-designated as the model 723.
- model 724, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 721 was re-designated as the model 724.
- model 725, produced between 1930 and 1949: It would appear that at some point the 16 GA version of the model 722 was re-designated as the model 725.
- model 727, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 721. It shares all of the features of the model 721 but the magazine capacity is reduced to two shells.
- model 728, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 723. It shares all of the features of the model 723 but the magazine capacity is reduced to two shells.
- model 740C, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 508mm barrel equipped with a Cutts Compensator. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.
- model 740P, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 635mm barrel equipped with a Poly Choke. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.

Notes

Make

- "Savage" markings are found on the receiver/frame or barrel.

Model

- in 1930 Savage introduced a line of semi-automatic shotguns based on the Browning model "Auto-5" design that was being produced by Fabrique Nationale of Herstal, Belgium. This model used the long recoil method of operation. Savage offered several variations that were based on this design, all shared the same basic features but differed in the style of barrel and/or choke system. Savage further distinguished these models in factory literature by the number of shots each model could hold, catalogues referred to five and three shot capacities in certain models but these numbers included one cartridge in the chamber so actual capacities were four and two respectively. Although each variation was given a specific model designation (beginning with the model 720) in most factory literature, samples have been noted simply marked "Savage Automatic".
- the model 726C, produced between 1931 and 1949 was the "Upland Sporter" version of the model 720C. It shares all of the features of the model 720C but the magazine capacity is reduced to two shells.
- features include: American walnut buttstock and forend; plain round barrel with a Cutts Compensator and bead front sight; push-button safety on rear of trigger guard; top of receiver/frame is channelled and matted in line of sight to reduce glare; friction ring adjustment for light or heavy loads.
- other variations include:
- model 720, produced between 1930 and 1949; same as the model 726 but magazine capacity is four shells.
- model 720C, produced between 1946 and 1949; same as model 720 but with a 508mm barrel that featured a Cutts Compensator. The 720C was supplied with a "spreader" and "full" choke tube with a "modified" choke tube available as an option.
- model 720P, produced between 1946 and 1949; same as model 720 but with a 635mm barrel that featured a Poly Choke.
- model 720R introduced in 1940; this is the "Riot" version of the model 720, equipped with a 508mm barrel.

Manufacturer

- "Savage" markings are found on the receiver/frame or barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- typically consists of five or six digits marked on the underside of the receiver/frame.
Barrel	- overall length of the barrel including the Cutts Compensator is 625mm (24 5/8"), with the "full" choke tube installed the overall barrel length is 667mm (26 1/4").
Calibre	- the gauge is marked on the barrel.
Shots	- tubular magazine mounted under the barrel.
Remarks	- further model breakdown is as follows, - model 721, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised solid rib on the barrel. - model 722, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised ventilated rib on the barrel. - model 723, produced between 1930 and 1949, it would appear that at some point the 16 GA version of the model 720 was re-designated as the model 723. - model 724, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 721 was re-designated as the model 724. - model 725, produced between 1930 and 1949: It would appear that at some point the 16 GA version of the model 722 was re-designated as the model 725. - model 726, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 720. It shares all of the features of the model 720 but the magazine capacity is reduced to two shells. - model 727, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 721. It shares all of the features of the model 721 but the magazine capacity is reduced to two shells. - model 728, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 723. It shares all of the features of the model 723 but the magazine capacity is reduced to two shells. - model 740C, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 508mm barrel equipped with a Cutts Compensator. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type. - model 740P, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 635mm barrel equipped with a Poly Choke. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.

Make	- "Savage" markings are found on the receiver/frame or barrel.
Model	- in 1930 Savage introduced a line of semi-automatic shotguns based on the Browning model "Auto-5" design that was being produced by Fabrique Nationale of Herstal, Belgium. This model used the long recoil method of operation. Savage offered several variations that were based on this design, all shared the same basic features but differed in the style of barrel and/or choke system. Savage further distinguished these models in factory literature by the number of shots each model could hold, catalogues referred to five and three shot capacities in certain models but these numbers included one cartridge in the chamber so actual capacities were four and two respectively. Although each variation was given a specific model designation (beginning with the model 720) in most factory literature, samples have been noted simply marked "Savage Automatic". - the model 726P, produced between 1931 and 1949 was the "Upland Sporter" version of the model 720P. It shares all of the features of the model 720P but the magazine capacity is reduced to two shells. - features include: American walnut buttstock and forend; plain round barrel with a Poly Choke and bead front sight; push-button safety on rear of trigger guard; top of receiver/frame is channelled and matted in line of sight to reduce glare; friction ring adjustment for light or heavy loads. - other variations include: - model 720, produced between 1930 and 1949; same as the model 726 but magazine capacity is four shells. - model 720C, produced between 1946 and 1949; same as model 720 but with a 508mm barrel that featured a Cutts Compensator. The 720C was supplied with a "spreader" and "full" choke tube with a "modified" choke tube available as an option. - model 720P, produced between 1946 and 1949; same as model 720 but with a 635mm barrel that featured a Poly Choke. - model 720R introduced in 1940; this is the "Riot" version of the model 720, equipped with a 508mm barrel.
Manufacturer	- "Savage" markings are found on the receiver/frame or barrel.
Action	- recoil operated.
Serial Number	- typically consists of five or six digits marked on the underside of the receiver/frame.
Barrel	- standard barrel lengths on the model 726P were 635mm (25") or 660mm (26"), all other Savage "standard" barrel lengths (711mm (28"), 762mm (30")and 813mm (32")) were offered as special order items.
Calibre	- the gauge is marked on the barrel.
Shots	- tubular magazine mounted under the barrel.
Remarks	- further model breakdown is as follows, - model 721, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised solid rib on the barrel. - model 722, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised ventilated rib on the barrel. - model 723, produced between 1930 and 1949, it would appear that at some point the 16 GA version of the model 720 was re-designated as the model 723. - model 724, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 721 was re-designated as the model 724. - model 725, produced between 1930 and 1949: It would appear that at some point the 16 GA version of the model 722 was re-designated as the model 725. - Model 726, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 720. It shares all of the features of the model 720 but the magazine capacity is reduced to two shells. - model 727, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 721. It shares all of the features of the model 721 but the magazine capacity is reduced to two shells. - model 728, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 723. It shares all of the features of the model 723 but the magazine capacity is reduced to two shells. - model 740C, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 508mm barrel equipped with a Cutts Compensator. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type. - model 740P, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 635mm barrel equipped with a Poly Choke. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.

Notes

Make - "Savage" markings are found on the receiver/frame or barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- in 1930 Savage introduced a line of semi-automatic shotguns based on the Browning model "Auto-5" design that was being produced by Fabrique Nationale of Herstal, Belgium. This model used the long recoil method of operation. Savage offered several variations that were based on this design, all shared the same basic features but differed in the style of barrel and/or choke system. Savage further distinguished these models in factory literature by the number of shots each model could hold, catalogues referred to five and three shot capacities in certain models but these numbers included one cartridge in the chamber so actual capacities were four and two respectively. Although each variation was given a specific model designation (beginning with the model 720) in most factory literature, samples have been noted simply marked "Savage Automatic".
- the model 727, produced between 1931 and 1949 is the "Upland Sporter" version of the model 721. It shares all of the features of the model 721 but the magazine capacity is reduced to two shells.
- features include: American walnut buttstock and forend; round barrel with a raised, solid rib and bead front sight; push-button safety on rear of trigger guard; top of receiver/frame is channelled and matted in line of sight to reduce glare; friction ring adjustment for light or heavy loads.
- other variations include:
- model 720, produced between 1930 and 1949; same as the model 726 but magazine capacity is four shells.
- model 720C, produced between 1946 and 1949; same as model 720 but with a 508mm barrel that featured a Cutts Compensator. The 720C was supplied with a "spreader" and "full" choke tube with a "modified" choke tube available as an option.
- model 720P, produced between 1946 and 1949; same as model 720 but with a 635mm barrel that featured a Poly Choke.
- model 720R introduced in 1940; this is the "Riot" version of the model 720, equipped with a 508mm barrel.

Manufacturer

- "Savage" markings are found on the receiver/frame or barrel.

Action

- recoil operated.

Serial Number

- typically consists of five or six digits marked on the underside of the receiver/frame.

Calibre

- the gauge is marked on the barrel.

Shots

- tubular magazine mounted under the barrel.

Remarks

- further model breakdown is as follows,
- model 721, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised solid rib on the barrel.
- model 722, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised ventilated rib on the barrel.
- model 723, produced between 1930 and 1949, it would appear that at some point the 16 GA version of the model 720 was re-designated as the model 723.
- model 724, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 721 was re-designated as the model 724.
- model 725, produced between 1930 and 1949: It would appear that at some point the 16 GA version of the model 722 was re-designated as the model 725.
- Model 726, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 720. It shares all of the features of the model 720 but the magazine capacity is reduced to two shells.
- model 728, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 723. It shares all of the features of the model 723 but the magazine capacity is reduced to two shells.
- model 740C, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 508mm barrel equipped with a Cutts Compensator. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.
- model 740P, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 635mm barrel equipped with a Poly Choke. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.

Notes

Make - "Savage" markings are found on the receiver/frame or barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- in 1930 Savage introduced a line of semi-automatic shotguns based on the Browning model "Auto-5" design that was being produced by Fabrique Nationale of Herstal, Belgium. This model used the long recoil method of operation. Savage offered several variations that were based on this design, all shared the same basic features but differed in the style of barrel and/or choke system. Savage further distinguished these models in factory literature by the number of shots each model could hold, catalogues referred to five and three shot capacities in certain models but these numbers included one cartridge in the chamber so actual capacities were four and two respectively. Although each variation was given a specific model designation (beginning with the model 720) in most factory literature, samples have been noted simply marked "Savage Automatic".
- the model 728, produced between 1931 and 1949 is the "Upland Sporter" version of the model 723. It shares all of the features of the model 723 but the magazine capacity is reduced to two shells.
- features include: American walnut buttstock and forend; round barrel with a raised, ventilated rib and bead front sight; push-button safety on rear of trigger guard; top of receiver/frame is channelled and matted in line of sight to reduce glare; friction ring adjustment for light or heavy loads.
- other variations include:
- model 720, produced between 1930 and 1949; same as the model 726 but magazine capacity is four shells.
- model 720C, produced between 1946 and 1949; same as model 720 but with a 508mm barrel that featured a Cutts Compensator. The 720C was supplied with a "spreader" and "full" choke tube with a "modified" choke tube available as an option.
- model 720P, produced between 1946 and 1949; same as model 720 but with a 635mm barrel that featured a Poly Choke.
- model 720R introduced in 1940; this is the "Riot" version of the model 720, equipped with a 508mm barrel.

Manufacturer

- "Savage" markings are found on the receiver/frame or barrel.

Action

- recoil operated.

Serial Number

- typically consists of five or six digits marked on the underside of the receiver/frame.

Calibre

- the gauge is marked on the barrel.

Shots

- tubular magazine mounted under the barrel.

Remarks

- further model breakdown is as follows,
- model 721, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised solid rib on the barrel.
- model 722, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised ventilated rib on the barrel.
- model 723, produced between 1930 and 1949, it would appear that at some point the 16 GA version of the model 720 was re-designated as the model 723.
- model 724, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 721 was re-designated as the model 724.
- model 725, produced between 1930 and 1949: It would appear that at some point the 16 GA version of the model 722 was re-designated as the model 725.
- Model 726, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 720. It shares all of the features of the model 720 but the magazine capacity is reduced to two shells.
- model 727, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 721. It shares all of the features of the model 721 but the magazine capacity is reduced to two shells.
- model 740C, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 508mm barrel equipped with a Cutts Compensator. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.
- model 740P, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 635mm barrel equipped with a Poly Choke. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.

4497 - 2	12 GA X 2 3/4"	4	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this semi-automatic shotgun is based on the Browning model "Auto-5" design.
- manufactured from 1964 to 1967.
- same as the model 750 with an adjustable choke.
- "SAVAGE" over "MODEL 750C" may be marked on the left side of the receiver/frame.

Action

- recoil operated.

Calibre

- "PROOF TESTED 12 GAUGE" over "2 3/4 INCH CHAMBER" may be marked on left side of barrel.

Shots

- tubular magazine mounted under the barrel.

Remarks

- American walnut stock with fluted comb, checkered pistol grip and forearm. White line pistol grip cap and butt plate. Push button type safety rear of the trigger guard. Trigger and safety brightly plated. Receiver channeled and matted inline with bead front sight. Friction ring adjustment for light or heavy loads. Alloy receivers were engraved.

Notes

Make

- the make is marked on the left side of the barrel as, "SAVAGE".

Model

- introduced in 2001.
- "MODEL 93" is marked on the left side of the barrel.
- the Savage model "93LSS" is one exception to the "L" designation in the model name. Normally a "L" in the model name refers to a left-handed receiver/frame. In this model it refers to a laminated stock and "SS" is for stainless steel.
- right handed bolt.
- features include: free floating round stainless steel barrel; stainless steel turn bolt action; detachable box magazine; safety is mounted on the right side of the stainless steel receiver/frame; bead post front sight and adjustable notch rear sight; one piece pistol grip laminated stock.
- Savage incorporated their AccuTrigger into the "93" model line in 2006.

Manufacturer

- the manufacturer is marked on the left side of the barrel as:
"MFG. IN CANADA BY SAVAGE ARMS (CANADA) INC."
"IMPORTED BY SAVAGE ARMS INC. WESTFIELD MA. 01085 U.S.A.".

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- "01085" is marked on the barrel and is not a serial number.

Calibre

- the calibre designation is marked on the left side of the barrel as:
".22 W.M.R. ONLY".

Shots

- detachable single column box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- a manufactures warning may be marked on the right side of the barrel as:
"BEFORE USING READ OWNERS MANUAL AVAILBLE FROM SAVAGE ARMS INC. WESTFIELD MA. 01085 U.S.A.".
or
"READ OWNERS MANUAL BEFORE USE AVAILBLE FROM SAVAGE ARMS INC. LAKEFIELD ONT. CANADA".

Notes

Make

- "SAVAGE MODEL 93R17 CAL. 17 H.M.R. ONLY" over "MFG. BY SAVAGE ARMS (CANADA) INC. LAKEFIELD, ONT. CANADA" over "IMPORTED BY SAVAGE ARMS INC. WESTFIELD, MA. U.S.A. 01085" may be marked on the left side of the barrel.
- "WARNING:" and "BEFORE USING READ OWNERS" over "MANUAL AVAILABLE FROM" over "SAVAGE ARMS INC. WESTFIELD, MA. 01085 U.S.A." may be marked on the right side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "SAVAGE MODEL 93R17 CAL. 17 H.M.R. ONLY" may be marked on the left side of the barrel.
- "93R17" was introduced in 2003.
- "R" in the model designation denotes rimfire, and "17" denotes the calibre.
- Savage incorporated their AccuTrigger into the "93R17" model line in 2006.
- "93R17" may come as a package including scope and a variety of camouflage finish.
- features include: no iron sights; carbon steel or stainless steel round heavy profile barrel; carbon steel or stainless steel tubular receiver/frame is drilled and tapped for scope mounts; safety lever is located on the right side of the receiver/frame; magazine release is located behind the magazine well; one piece wood, laminated or synthetic pistol grip or thumbhole stock with sling swivel studs; blued or satin stainless steel finish.
- "93R17" is available with a factory installed scope as the 93R17XP.

Manufacturer

- "MFG. BY SAVAGE ARMS (CANADA) INC. LAKEFIELD, ONT. CANADA" over "IMPORTED BY SAVAGE ARMS INC. WESTFIELD, MA. U.S.A. 01085" may be marked on the left side of the barrel.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number rationalization is unknown.
- serial number may consist of six or seven numbers without a letter prefix or suffix.
- serial number may consist of a letter "G" prefix and six numbers.
- number "01085" marked on the barrel is not a serial number, this is a United States of America Post Office Department Postal Zip Code.

Calibre

- "CAL. 17 H.M.R. ONLY" may be marked on the left side of the barrel.

Shots

- detachable box magazine.

Other Markings

- a manufactures warning may be marked on the right side of the barrel as:
"BEFORE USING READ OWNERS MANUAL AVAILBLE FROM SAVAGE ARMS INC. WESTFIELD MA. 01085 U.S.A.".
or
"READ OWNERS MANUAL BEFORE USE AVAILBLE FROM SAVAGE ARMS INC. LAKEFIELD ONT. CANADA".

Notes

Make

- "SAVAGE MODEL 93R17 CAL. 17 H.M.R. ONLY" over "MFG. BY SAVAGE ARMS (CANADA) INC. LAKEFIELD, ONT. CANADA" over "IMPORTED BY SAVAGE ARMS INC. WESTFIELD, MA. U.S.A. 01085" may be marked on the left side of the barrel.
- "WARNING:" and "BEFORE USING READ OWNERS" over "MANUAL AVAILABLE FROM" over "SAVAGE ARMS INC. WESTFIELD, MA. 01085 U.S.A." may be marked on the right side of the barrel.

Model

- introduced in 2002.
- "93R17FNS" is not marked on the firearm.
- "MODEL 93R17" is marked on the barrel.
- the letter "R" in the model designation denotes rimfire, 17 denotes the calibre, "F" denotes a synthetic stock and "NS" denotes the lack of sights.
- features include: no iron sights; round, tapered rifled barrel; tubular receiver/frame is drilled and tapped for a scope mount; safety is located on the right side of the receiver/frame; magazine release lever is located on the rear of the magazine well; one piece synthetic pistol grip stock with sling swivel studs; blued finish.
- "93R17FNS" was available with a factory installed telescopic sight as of 2005.
- Savage's AccuTrigger was incorporated into the "93R17" model line in 2006.

Manufacturer

- "MFG. BY SAVAGE ARMS (CANADA) INC. LAKEFIELD, ONT. CANADA" over "IMPORTED BY SAVAGE ARMS INC. WESTFIELD, MA. U.S.A. 01085" may be marked on the left side of the barrel.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number rationalization is unknown.
- serial number may consist of six or seven numbers without a letter prefix or suffix.
- serial number may consist of a letter "G" prefix and six numbers.
- number "01085" marked on the barrel is not a serial number, this is a United States of America Post Office Department Postal Zip Code.

Calibre

- "17 H.M.R. ONLY" is marked on the barrel.

Shots

- detachable box magazine.

Other Markings

- a manufacturers warning is marked on the right side of the barrel as:
"BEFORE USING READ OWNERS MANUAL AVAILBLE FROM SAVAGE ARMS INC. WESTFIELD MA. 01085 U.S.A.".
or
"READ OWNERS MANUAL BEFORE USE AVAILBLE FROM SAVAGE ARMS INC. LAKEFIELD ONT. CANADA".

Remarks

- indicate features on firearm at the time of production:
- the letter "B" indicates a laminated stock.
- the letter "F" indicates a synthetic stock.
- the letter "G" indicates a hardwood stock.
- the letters "SS" indicates stainless steel receiver/frame and barrel.
- the letter "V" indicates a heavy barrel.
- the letters "XP" indicates a packaged firearm.
- the letter "Y" indicates a youth firearm.
- the letters "NS" indicates no sights on barrel.

FRT Report

Firearm Reference Number (FRN): 131864
Make: Savage
Model: 93R17TRR

Summary

Make:	Savage
Model:	93R17TRR
Manufacturer:	Savage
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
131864 - 1	17 HMR	5	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SAVAGE M93 CAL. 17 H.M.R. ONLY" over "SAVAGE ARMS INC. WESTFIELD, MA. 01085 U.S.A." may be marked on the left side of the barrel.

Model

- introduced in 2010.
- "93R17TRR" is not marked on the firearm.
- "SAVAGE M93 CAL. 17 H.M.R. ONLY" may be marked on the left side of the barrel.
- "R" in the model designation denotes a Rimfire, "17" denotes the calibre, and "TRR" denotes Tactical Rimfire with Picatinny Rail System.
- features include: no iron sights; carbon steel round fluted heavy profile barrel; carbon steel receiver/frame is drilled and tapped for a scope mount; safety lever is located on the right side of the receiver/frame; AccuTrigger; one piece black wood pistol grip stock with sling swivel studs; black matte finish.
- overall length is 40.0" and average weight is 7.5 lbs.

Manufacturer

- "SAVAGE ARMS INC. WESTFIELD, MA. 01085 U.S.A." may be marked on the left side of the barrel.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number rationalization is unknown.
- serial number may consist of six or seven numbers without a letter prefix or suffix.
- serial number may consist of a letter "G" prefix and six numbers.
- number "01085" marked on the barrel is not a serial number, this is a United States of America Post Office Department Postal Zip Code.

Calibre

- "CAL. 17 H.M.R. ONLY" may be marked on the left side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- make is marked on the top of the receiver/frame ring as: "SAVAGE".

Model

- the Savage Model 99A was introduced in 1926 and discontinued in 1936. It was reintroduced in 1971as the "99A Series A" and again discontinued in 1981. Both versions feature an internal rotary magazine.
- after World War One, Savage improved the "Model 1899" series and renamed it the "Model 99". The letters in the model designation may not be marked on early versions of the firearm, but indicate features that are found on a particular model.
- model designation may be marked on the top, side or on the barrel as "MODEL 99".
- was also known as the 99A Early Model or 99A Old Model or 99A Featherweight.
- the "99A Series A" was also known as the 99A Late Model or 99A Saddle Gun.
- features include: blued steel receiver/frame with top ejection, blued tapered round barrel, casehardened lever, hammerless design with "cocked" indicator button on the top of the receiver/frame, safety tab located on the right side of the lever, adjustable rear sight with white metal bead front sight which may be on a raised ramp, straight stock with curved steel buttplate and a tapered forearm with a schnabel tip.
- checkered pistol grip stock was available as an option.

Manufacturer

- manufacturer's designation is marked on the barrel as:
"MANUFACTURED BY SAVAGE ARMS CORP. UTICA. N.Y. U.S.A.",
or
"MANUFACTURED BY SAVAGE ARMS CORPORATION"
or
"SAVAGE ARMS CORPORATION",
or
"SAVAGE ARMS".

Serial Number

- serial number is marked on the underside of the receiver/frame.
- serial number range for firearms manufactured between 1920 and 1936 was approximately 290,000 to 370,000.

Calibre

- calibre designation is normally marked on the barrel.

Shots

- internal rotary magazine.

Other Markings

- marked on the receiver ring or the barrel: "SAVAGE" and "MODEL 99".
- may be marked on the barrel:
"Manufactured by Savage Arms Corp, Utica, N.Y. U.S.A."
"July 25, 1893, Oct. 3, 1899, Sept. 10, 1907, May 25, 1909, June 1, 1909" ---SAVAGE
or
"Manufactured by Savage Arms Corporation"
"Utica. N.Y. U.S.A Pat'd. May 25,1909, June 1, 1909" ---- SAVAGE
or
SAVAGE "Savage Arms Corporation"
"Utica. N.Y. Made in U.S.A."
or
"Savage Arms Corporation"
"Utica. N.Y. ---- Made in U.S.A."
or
"------- Savage Arms -------"
"Westfield, Mass. U.S.A."

Notes

Make - make is marked on the top of the receiver/frame ring as: "SAVAGE".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1920 to 1934.
- model designation is marked on the top of the receiver/frame ring as:
"MODEL 99".
- after World War One, Savage improved the "Model 1899" series and renamed it the "Model 99". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model.
- the Model 99B is similar to the Model 99A, featuring the take down design in which the barrel and forend can be detached from the receiver/frame and stock by a button located on the underside of the forend.
- features include: blued steel receiver/frame with top ejection, blued round barrel or round tapered barrel, casehardened lever, hammerless with a loaded cocked indicator button on top of the receiver/frame, adjustable rear sight, white metal bead front sight until 1926 when the front sight was placed on a raised sight ramp. - varnished American walnut straight stock and forearm with a crescent butt plate or shotgun style buttplate.
- safety located on the right side of the lever.
- this model featured an accessory 660mm shotgun barrel in 410 X 2 1/2 gauge. With this barrel in place the firearm will operate as a single shot firearm only as the rotary magazine will not accept a shotgun shell.

Manufacturer

- manufacturer's designation is marked on the barrel as:
"MANUFACTURED BY SAVAGE ARMS CORP. UTICA. N.Y. U.S.A.",
or
"MANUFACTURED BY SAVAGE ARMS CORP.",
or
"SAVAGE ARMS CORP.".

Serial Number

- serial number is marked on the receiver/frame.
- serial number range is from approximately 200,000 to 344,000.

Calibre

- calibre designation is marked on the barrel.

Shots

- internal rotary magazine.

Other Markings

- marked on the receiver ring: "SAVAGE" and "MODEL 99"
- may be marked on the barrel as:
"Manufactured by Savage Arms Corp, Utica, N.Y. U.S.A."
"July 25, 1893, Oct. 3, 1899, Sept. 10, 1907, May 25, 1909, June 1, 1909"
or
"Manufactured by Savage Arms Corp Utica, N.Y. U.S.A."

FRT Report

Firearm Reference Number (FRN): 183804
Make: Savage
Model: 99C

Summary

Make:	Savage
Model:	99C
Manufacturer:	Gabilondo y Cia
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Lever Action
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
183804 - 1	308 WIN	4	559	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "SAVAGE MODEL 99C" over "WESTFIELD, MA. U.S.A. MADE IN SPAIN" is marked on the left side of the barrel.

Model

- "MODEL 99C" is marked on the left side of the barrel.
- this is a Savage 99C manufactured by Gabilondo y Cia (the owner of the "Llama" trade-name") in Spain under contract, during the late 1980s and early 1990s, with a total production of a few thousand.
- uses a detachable box magazine.
- features may include: round, rifled barrel with ramp front sight and adjustable rear sight; steel receiver/frame with top ejection and dovetailed for scope rings; bent closed loop lever with safety tab on the right side; hammerless with a loaded cocked indicator button on top of the receiver/frame; wood stock and forearm; rubber butt pad; blued finish.

Manufacturer

- the manufacturer is not marked on the firearm, but "MADE IN SPAIN" is marked on the barrel.

Serial Number

- serial number may be marked on the lower left side of the receiver/frame.
- serial number of an observed example is an "L" prefix followed by six numbers.
- the "L" prefix may or may not denote Spanish production model 99 firearms.

Calibre

- "308 WIN" is marked on the left side of the barrel.

Shots

- detachable box magazine.

Notes

Make - make is marked on the top of the receiver/frame ring as: "SAVAGE".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "MODEL 99" is marked on top of the receiver/frame ring. - manufactured from 1922 to approximately 1927. - this lever action repeating rifle uses an internal rotary magazine. - do not confuse with the new model "99C Clip Magazine" which uses a detachable box magazine, that was introduced in 1965. - after World War I, Savage improved the "Model 1899" series and renamed it the "Model 99". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model. - the Model 99C has a straight grip shotgun style butt plate and a round untapered barrel. The butt plate is straight in appearance unlike other Model 99's where the butt plate has an identifiable curve to it. - features include: blued steel receiver/frame with top ejection; blued round barrel; case-hardened lever; hammerless with a loaded cocked indicator button on top of the receiver/frame; adjustable rear sight with a white metal bead front sight - until 1926 when the front sight was placed on a raised sight ramp; varnished American walnut straight stock and forearm; safety tab is located on the right side of the lever.
Manufacturer	- manufacturer's designation is marked on the barrel as: "MANUFACTURED BY SAVAGE ARMS CORP. UTICA. N.Y. U.S.A.".
Serial Number	- serial number is marked on the receiver/frame. - serial number range is from approximately 238,000 to 290,000.
Calibre	- calibre designation is marked on the barrel.
Shots	- internal rotary magazine.
Other Markings	- may be marked on the barrel as: "Manufactured by Savage Arms Corp, Utica, N.Y. U.S.A." "July 25, 1893, Oct. 3, 1899, Sept. 10, 1907, May 25, 1909, June 1, 1909" or "Manufactured by Savage Arms Corp Utica, N.Y. U.S.A." "Mar. 28. 1916 Dec. 26 1916 June. 17. 1919" or "Manufactured by Savage Arms Corp, Utica, N.Y. U.S.A." "July 25, 1893, Oct. 3, 1899, Sept. 10, 1907, May 25, 1909, June 1, 1909" ---SAVAGE

Notes

Make

- marked on the left side of the receiver ring "SAVAGE MODEL 99C".

Model

- the Model 99C Clip Magazine was introduced in 1965, featuring a detachable magazine.
- do not confuse with the Model "99C" that features an internal rotary magazine and was manufactured from 1922 to 1927.
- model designation may be marked on the left side of the receiver/frame or on the barrel as: "MODEL 99C".
- features include: blued steel receiver/frame with top ejection, blued round barrel or round tapered barrel, casehardened lever, gold plated trigger, hammerless with gold plated "cocked" indicator button on top of the receiver/frame, adjustable rear sight, safety located on the top tang, magazine release button located on the right side of the receiver/frame and the receiver/frame has been drilled and tapped for a scope mount.
- front sight is a gold bead placed on a raised sight ramp which may be removed.
- varnished American walnut stock and forearm with checkered pistol grip with cap, buttplate may be steel, aluminum or hard rubber and the forearm may be checkered or have deep finger grooves along the sides.
- in 1969 the model "99C Clip Magazine" was improved and replaced with the model "99C Series A".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- marked on top of the mid-barrel "SAVAGE ARMS - WESTFIELD, MASS. U.S.A.".
Serial Number	- marked on the mid-underside of the receiver, behind the magazine well. Starting at 1,080, 000. - later units located on left side of frame on lower edge: (new "A" series).
Calibre	- marked on the left side of the receiver ring.
Shots	- detachable box magazine.
Other Markings	- marked on right side of the receiver ring: PATENT 3,281,979 - marked on the right side of the barrel, chamber end: HI-PRESSURE STEEL - PROOF TESTED

Notes

Make

- make is marked on the barrel as: "SAVAGE".

Model

- model designation is marked on the barrel as: "MODEL 99CD SERIES A".
- the Model 99CD Series A was introduced circa 1978. This model is the deluxe version of the model "99C Clip Magazine" which features a detachable magazine.
- features include: blued steel receiver/frame with top ejection, blued tapered barrel, case-hardened lever, hammerless with "cocked" indicator button on top of the receiver/frame, removable adjustable rear sight with removable hooded bead front sight placed on a raised sight ramp, safety located on the top tang, magazine release button located on the right side of the receiver/frame and the receiver/frame has been drilled and tapped for a scope mount.
- select walnut Monte Carlo stock with checkered pistol grip and cap, smooth forearm with deep finger grooves along the sides, adjustable sling swivels and a recoil pad.
- may have white line spacers around the recoil pad and pistol grip cap.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's designation is marked on the barrel.
Serial Number	- marked on left side of the receiver/frame on lower edge. - a patent marking of "PATENT 3,281,979" may be marked on the top of the barrel. This number is not a serial number.
Calibre	- caliber designation is normally marked on the barrel.
Shots	- detachable box magazine.
Other Markings	- a patent marking of, "PATENT 3,281,979", may be marked on the top of the barrel.

Notes

Make

- make is normally marked on the barrel as: "SAVAGE ARMS".

Model

- manufactured in 1996 with a detachable box magazine.
- this model is also known as the "Centennial Edition".
- 1,000 units were manufactured.
- model designation may not be marked on the firearm.
- this model is identifiable by the level of the engraving on the receiver/frame.
- the unblued receiver/frame has a protective finish and is engraved with scroll work on the sides, top, underside, upper and lower tang, lever and magazine plate.
- right side of the receiver/frame features a picture of a Mountain Lion and the left side a picture of a Moose, both in 24K gold.
- features include: top ejection, blued round barrel, lever is not casehardened, hammerless with a 24K gold plated "cocked" indicator button on top of the receiver/frame, 24K gold plated trigger, 24K gold plated safety located on the upper tang, magazine release located on the right side of the receiver/frame, folding adjustable rear sight and gold bead front sight on a raised sight ramp.
- receiver/frame is drilled and tapped for a scope mount.
- select rich grain walnut Monte Carlo stock with checkered and capped pistol grip, padded shotgun style buttplate, straight tapered forend with round tip and checkering on the sides and the stock and forearm may have sling swivels.

Manufacturer

- manufacturers designation is normally marked on the barrel as:
"SAVAGE ARMS".

Serial Number

- serial number is marked on the underside of the receiver/frame.
- serial number range is from "AS0001" to "AS1000".

Calibre

- calibre designation is normally marked on the barrel.

Notes

Make

- make is marked on the top of the receiver/frame ring as: "SAVAGE".

Model

- manufactured from 1922 to approximately 1927.
- model designation is marked on the top of the receiver/frame ring as:
"MODEL 99".
- after World War One, Savage improved the "Model 1899" series and renamed it the "Model 99". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model.
- the Model 99D is similar to the Model 99C, featuring the take down design in which the barrel and forend can be detached from the receiver/frame and stock by a button located on the underside of the forend. The model 99D has a shotgun style buttplate and a round untapered barrel.
- features include: blued steel receiver/frame with top ejection, blued round barrel, casehardened lever, hammerless with a loaded cocked indicator button on top of the receiver/frame, adjustable rear sight with a white metal bead front sight until 1926 when the front sight was placed on a raised sight ramp.
- varnished American walnut straight stock and forearm with a shotgun style buttplate.
- safety tab is located on the right side of the lever.
- this model featured an accessory 660mm shotgun barrel in 410 X 2 1/2 gauge. The firearm will operate as a single shot firearm only as the rotary magazine will not accept a shotgun shell.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's designation is marked on the barrel as: "MANUFACTURED BY SAVAGE ARMS CORP. UTICA. N.Y. U.S.A.".
Serial Number	- serial number is marked on the receiver/frame. - serial number range is from approximately 238,000 to 290,000.
Calibre	- calibre designation is marked on the barrel.
Other Markings	- may be marked on the barrel as: "Manufactured by Savage Arms Corp, Utica, N.Y. U.S.A." "July 25, 1893, Oct. 3, 1899, Sept. 10, 1907, May 25, 1909, June 1, 1909" or "Manufactured by Savage Arms Corp Utica, N.Y. U.S.A." Notes

Make

- make is marked on the receiver/frame ring as: "SAVAGE".

Model

- the Savage Model 99E was first introduced in 1922 and discontinued in 1934, it was reintroduced in 1960. Both versions feature an internal rotary magazine.
- after World War One, Savage improved the "Model 1899" series and renamed it the "Model 99". The letters in the model designation may not be marked on early versions of the firearm, but indicate features that are found on a particular model.
- in the early version the model is marked on top of the receiver/frame ring as: "MODEL 99". The later version is marked on the side of the receiver/frame ring as: "MODEL 99E".
- early version also known as the 99 E Light Weight or 99E Old Model.
- later version of 1960 also known as the 99 E "Economy Carbine".
- in 1969 the model "99E" was improved and replaced with the model "99E Series A".
- from 1967 to 1974 a scoped version was available and known as the "99ES".
- features of the early version include: blued steel receiver/frame with top ejection, blued tapered lightweight round barrel, casehardened lever, hammerless design with "cocked" indicator button on the top of the receiver/frame, adjustable rear sight with white metal bead front sight which may be on a raised ramp, straight stock with serrated steel buttplate and the forearm has a schnabel tip.
- features of the later version include: blued steel receiver/frame with top ejection, blued straight tapered medium weight round barrel, casehardened lever, hammerless design with "cocked" indicator button on the top of the receiver/frame, receiver/frame is drilled and tapped for a scope mount, adjustable rear sight with white metal bead front sight which may be on a raised ramp, both sights may be removable, shotgun style uncapped pistol grip stock with serrated steel buttplate, forearm may be tapered with schnabel or round tip with or without checkering, or the forearm may be smooth with finger groves along the sides.
- on both versions the safety tab is located on the right side of the lever.

Manufacturer

- manufacturer's designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the receiver/frame.
- on the early version the serial number range is approximately 238,000 to 344,000 without prefix or suffix.
- later units located on left side of receiver/frame on lower edge. One alpha character, "A", followed by six sequential numbers.

Calibre

- calibre designation is normally marked on the barrel.

Shots

- internal rotary magazine.

Other Markings

- on the early versions the barrel may be marked as:
"Manufactured by Savage Arms Corp, Utica, N.Y. U.S.A."
"July 25, 1893, Oct. 3, 1899, Sept. 10, 1907, May 25, 1909, June 1, 1909"
or
"Manufactured by Savage Arms Corp Utica, N.Y. U.S.A."
"Mar. 28. 1916 Dec. 26 1916 June. 17. 1919"
or
"Manufactured by Savage Arms Corp, Utica, N.Y. U.S.A."
"July 25, 1893, Oct. 3, 1899, Sept. 10, 1907, May 25, 1909, June 1, 1909" ---SAVAGE
or
"Manufactured by Savage Arms Corporation"
"Utica. N.Y. U.S.A Pat'd. May 25,1909, June 1, 1909" ---- SAVAGE
or
SAVAGE "Savage Arms Corporation"
"Utica. N.Y. Made in U.S.A."
or
"Savage Arms Corporation"
"Utica. N.Y. ---- Made in U.S.A."
- on the later versions the barrel is normally marked as:
"------- Savage Arms ---------"
"Westfield, Mass. U.S.A."
- the left side of the barrel is normally marked:
"HI PRESSURE STEEL - PROOFTESTED"

Notes

Make	- make is marked on the top or left side of the receiver/frame ring as: "SAVAGE".
Model	- manufactured from 1935 to 1960 with an internal rotary magazine. - model designation is marked on the top of the receiver/frame ring as: "MODEL 99". - after World War One, Savage improved the "Model 1899" series and renamed it the "Model 99". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model. - this model was not manufactured between 1942 to 1946 due to World War Two. - models manufactured before 1942 are known as the "99EG Early Model" and models manufactured after 1946 are known as the "99EG Late Model". - features include: blued steel receiver/frame with top ejection, blued tapered medium weight round barrel, casehardened lever, hammerless with "cocked" indicator button on top of the receiver/frame, adjustable rear sight, with a plain metal or gold bead front sight on a raised ramp. - select walnut checkered capped pistol grip stock with flat corrugated steel shotgun style buttplate, a straight forearm with a schnabel tip. - safety located on the right side of the lever. - in 1940 checkering was added to the sides of the pistol grip and the forearm. - starting in 1957 the receiver/frame was predrilled and tapped for a scope.
Manufacturer	- manufacturer's designation is marked on the barrel as: "Savage Arms Corporation" "Utica. N.Y. ---- Made in U.S.A." or "Savage Arms Corporation" "Chicopee falls, Mass. U.S.A."
Serial Number	- serial number is marked on the underside of the receiver/frame. - serial number range is from approximately 350,000 to 1,060,000.
Calibre	- calibre designation is marked on the barrel.
Shots	- internal rotary magazine.

Notes

Make

- make is marked on the top of the receiver/frame ring as: "SAVAGE".

Model

- manufactured from 1920 to 1940.
- model designation is marked on the left of the receiver/frame ring as:
"MODEL 99". A model marking of "F" is usually found on the front of the receiver/frame.
- do not confuse with the model "99F Featherweight" of 1955 to 1973 which was manufactured without the take down feature.
- after World War One, Savage improved the "Model 1899" series and renamed it the "Model 99". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model.
- the Model 99F is similar to the Model 99E of 1922 to 1934, featuring the take down design in which the barrel and forend can be detached from the receiver/frame and stock by a button located on the underside of the forend.
- features include: blued steel receiver/frame with top ejection, blued tapered lightweight round barrel, casehardened lever, hammerless with "cocked" indicator button on top of the receiver/frame, adjustable rear sight, white metal bead front sight until 1926 when the front sight was placed on a raised sight ramp.
- varnished American walnut straight stock with a flat serrated shotgun style buttplate and forearm with a schnabel tip.
- safety located on the right side of the lever.
- this model featured an accessory 559 or 610mm shotgun barrel in 410 X 2 1/2 gauge. With this barrel in place the firearm will operate as a single shot firearm only as the rotary magazine will not accept a shotgun shell.

Manufacturer

- manufacturer's designation is marked on the barrel as:
"MANUFACTURED BY SAVAGE ARMS CORP. UTICA. N.Y. U.S.A.",
or
"MANUFACTURED BY SAVAGE ARMS CORP.",
or
"MANUFACTURED BY SAVAGE ARMS CORPORATION",
or
"SAVAGE ARMS CORPORATION".

Serial Number

- serial number may be marked on the receiver/frame.
- serial number range is from approximately 200,000 to 398,000.

Calibre

- calibre designation is normally marked on the barrel.

Shots

- internal rotary magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- may be marked on the barrel:
"Manufactured by Savage Arms Corp, Utica, N.Y. U.S.A."
"July 25, 1893, Oct. 3, 1899, Sept. 10, 1907, May 25, 1909, June 1, 1909"
or
"Manufactured by Savage Arms Corp Utica, N.Y. U.S.A."
"Mar. 28. 1916 Dec. 26 1916 June. 17. 1919"
or
"Manufactured by Savage Arms Corp, Utica, N.Y. U.S.A."
"July 25, 1893, Oct. 3, 1899, Sept. 10, 1907, May 25, 1909, June 1, 1909" ---SAVAGE
or
"Manufactured by Savage Arms Corporation"
"Utica. N.Y. U.S.A Pat'd. May 25,1909, June 1, 1909" ---- SAVAGE
or
SAVAGE "Savage Arms Corporation"
"Utica. N.Y. Made in U.S.A."
or
"Savage Arms Corporation"
"Utica. N.Y. ---- Made in U.S.A."

Notes

Make

- "SAVAGE" is marked on the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "MODEL 99F" is marked on the receiver ring.
- manufactured from 1955 to 1969.
- do not confuse with the model "99F" of 1920 to 1940 which was manufactured with the take down feature.
- after World War I, Savage improved the "Model 1899" series and renamed it the "Model 99".
- features include: blued steel receiver/frame with top ejection, blued lightweight round barrel, case-hardened lever, hammerless with "cocked" indicator button on top of the receiver/frame, gold plated or blued trigger, adjustable rear sight which may fold down and a gold bead front sight on a raised ramp.
- select walnut checkered capped pistol grip stock with flat corrugated steel or aluminum shotgun style butt plate and a slim tapered round tipped forearm with checkering on the sides and underside.
- safety was located on the right side of the lever until 1960 at which time the safety was relocated to the top tang.
- receiver/frame predrilled and tapped for scope mount, rear tang predrilled and tapped for micrometer rear sight.
- in 1969 the model "99F Featherweight" was improved and replaced with the model "99F Series A".

Manufacturer

- "SAVAGE ARMS CORPORATION" and "CHICOPEE FALLS, MASS. U.S.A.", or "SAVAGE ARMS" and "WESTFIELD, MASS. U.S.A.".

Serial Number

- serial number range starts at 750,000.
- serial number is marked on the underside of the receiver/frame.
- on later units the serial number is located on left side of the receiver/frame on the lower edge.
- an observed example consisted of an alpha character "A", followed by six numbers.

Calibre

- calibre designation is marked on the barrel.

Shots

- internal rotary box magazine.

Notes

Make

- make is marked on the receiver/frame ring as: "SAVAGE".

Model

- manufactured from 1923 to 1940.
- model designation is marked on the top of the receiver/frame ring as:
"MODEL 99".
- after World War One, Savage improved the "Model 1899" series and renamed it the "Model 99". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model.
- features include: a blued steel receiver/frame with top ejection, blued medium weight round barrel, casehardened lever, hammerless with "cocked" indicator button on top of the receiver/frame, adjustable rear sight, with silver knife blade or white metal bead front sight, in 1931 one barrel band was added.
- varnished American walnut straight stock with flat corrugated steel shotgun style buttplate and round tipped forearm.
- safety located on the right side of the lever.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- manufacturer's designation is marked on the barrel as:
"MANUFACTURED BY SAVAGE ARMS CORP. UTICA. N.Y. U.S.A.",
or
"MANUFACTURED BY SAVAGE ARMS CORP.",
or
"MANUFACTURED BY SAVAGE ARMS CORPORATION",
or
"SAVAGE ARMS CORPORATION".

Serial Number

- serial number is marked on the receiver/frame.
- serial number range is from approximately 220,000 to 400,000.

Calibre

- calibre designation is marked on the barrel.

Shots

- internal rotary magazine.

Other Markings

- may be marked on the barrel:
"Manufactured by Savage Arms Corp, Utica, N.Y. U.S.A."
"July 25, 1893, Oct. 3, 1899, Sept. 10, 1907, May 25, 1909, June 1, 1909"
or

Notes

Make - make is marked on the barrel as: "SAVAGE ARMS CORP.".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1926 to 1940.
- model designation is normally not marked on this firearm as the receiver/frame and the ring are engraved. A model marking of "K" is usually found on the front of the receiver/frame.
- after World War One, Savage improved the "Model 1899" series and renamed it the "Model 99". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model.
- this model was the last of the Savage Model 99 take down design in which the barrel and forend could be detached from the receiver/frame and stock by a button located on the underside of the forend.
- features include: engraved blued steel receiver/frame with top ejection, engraved blued tapered lightweight round barrel, casehardened lever, hammerless with "cocked" indicator button on top of the receiver/frame, Lyman rear sight located at the rear of the receiver/frame, folding middle sight, and white bead or gold bead front sight.
- varnished American walnut pistol grip stock with flat corrugated steel shotgun style buttplate and forearm with a schnabel tip. The sides of the forearm and the pistol grip will be checkered.
- safety located on the right side of the lever.
- this model featured an accessory 559 or 610mm shotgun barrel in 410 X 2 1/2 gauge. With this barrel in place the firearm will operate as a single shot firearm only as the rotary magazine will not accept a shotgun shell.

Manufacturer

- manufacturer's designation is marked on the barrel as:
"MANUFACTURED BY SAVAGE ARMS CORP. UTICA. N.Y. U.S.A.",
or
"MANUFACTURED BY SAVAGE ARMS CORP.",
or
"MANUFACTURED BY SAVAGE ARMS CORPORATION",
or
"SAVAGE ARMS CORPORATION".

Serial Number

- serial number is marked on the receiver/frame.
- serial number range is from approximately 285,000 to 498,000.

Calibre

- calibre designation may be marked on the barrel.

Shots

- internal rotary magazine.

Other Markings

- may be marked on the barrel:
"Manufactured by Savage Arms Corp, Utica, N.Y. U.S.A."
"July 25, 1893, Oct. 3, 1899, Sept. 10, 1907, May 25, 1909, June 1, 1909" ---SAVAGE
or
"Manufactured by Savage Arms Corporation"
"Utica. N.Y. U.S.A Pat'd. May 25,1909, June 1, 1909" ---- SAVAGE
or
SAVAGE "Savage Arms Corporation"
"Utica. N.Y. Made in U.S.A."
or
"Savage Arms Corporation"
"Utica. N.Y. ---- Made in U.S.A."

Notes

Make - make is marked on the receiver/frame ring as: "SAVAGE", or on the barrel as: "SAVAGE ARMS".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model designation is normally marked on the receiver/frame ring or on the barrel as "Model 99-M".
- this model designation was used from 1955 to 1973 on models with an internal rotary magazine.
- this is not a traditional model number, the "M" is a designation for "Monte Carlo" stock and was used on the Savage Model: 99F, 99PE, 99DE, 99DL and 99DL Series A.
- features include: blued or engraved unblued receiver/frame with top ejection, blued lightweight round barrel, lever may or may not be casehardened, hammerless with a gold plated "cocked" indicator button on top of the receiver/frame, gold plated trigger, safety located on the upper tang or on the right side of the lever, folding adjustable rear sight and gold bead front sight on a raised sight ramp.
- receiver/frame is drilled and tapped for a scope mount.
- select walnut Monte Carlo stock with checkered and capped pistol grip, flat corrugated steel or aluminum shotgun style buttplate.
- forearm may be a slim taper with round tip and checkering on the sides and on some models checkering on the underside.

Manufacturer

- manufacturer's designation is marked on the barrel as:
"SAVAGE ARMS CORPORATION"
"CHICOPEE FALLS, MASS. U.S.A.",
or
"SAVAGE ARMS"
"WESTFIELD, MASS. U.S.A.".

Serial Number

- serial number is marked on the receiver/frame.
- serial number range starts at 750,000.
- on late models the serial number is located on lower left side of the receiver/frame, in the new 'A' series.

Calibre

- calibre designation is marked on the barrel.

Shots

- internal rotary magazine.

Notes

Make

- make is marked on the barrel as: "SAVAGE ARMS".

Model

- manufactured from 1965 to 1970 with an internal rotary magazine.
- model designation is normally not marked on this firearm. This model is identifiable by the level of the engraving on the receiver/frame.
- after World War One, Savage improved the "Model 1899" series and renamed it the "Model 99". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model.
- unblued receiver/frame has a protective finish and is engraved with scroll work on the sides, top, underside, upper and lower tang and lever.
- right side of the receiver/frame features a picture of a Mountain Lion and the left a picture of a Elk.
- features include: top ejection, blued lightweight round barrel, lever is not casehardened, hammerless with gold plated "cocked" indicator button on top of the receiver/frame, gold plated trigger, gold plated safety located on the upper tang, folding adjustable rear sight and gold bead front sight on a raised sight ramp.
- receiver/frame is drilled and tapped for a scope mount.
- select rich grain walnut Monte Carlo stock with a checkered and capped pistol grip, aluminum shotgun style buttplate, straight taper forend with round tip and checkering on the sides.
- stock and forearm may have sling swivels.

Manufacturer

- manufacturer's designation is marked on the barrel in two lines as:
"SAVAGE ARMS" / "WESTFIELD, MASS. U.S.A.".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the underside of the receiver/frame. - serial number range starts at approximately 1,140,000.
Calibre	- calibre designation is normally marked on the barrel.
Shots	- internal rotary magazine.

Notes

Make - make is marked on the receiver/frame ring as: "SAVAGE".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1932 to 1960.
- model designation is marked on the top of the receiver/frame ring as:
"MODEL 99".
- after World War One, Savage improved the "Model 1899" series and renamed it the "Model 99". The letters in the model designation may not be marked on the firearm, but indicate features that are found on a particular model.
- this model was not manufactured between 1942 to 1946 due to World War Two.
- models manufactured before 1942 are known as the "99R Early Model" and models manufactured after 1946 are known as the "99R Late Model".
- features include: blued steel receiver/frame with top ejection, blued tapered medium weight round barrel, casehardened lever, hammerless with "cocked" indicator button on top of the receiver/frame, adjustable rear sight, with gold bead front sight.
- select walnut checkered capped pistol grip stock with flat corrugated steel shotgun style buttplate, semi-beavertail forearm with round tip and checkering on the sides and bottom or on the side only.
- safety located on the right side of the lever.
- stock is larger and heavier then on other Savage Model 99s.
- starting in 1950 the receiver/frame was predrilled and tapped for a scope.

Manufacturer

- manufacturer's designation is marked on the barrel as:
"SAVAGE ARMS CORPORATION"
"UTICA, N.Y.-----MADE IN U.S.A.",
or
"SAVAGE ARMS CORPORATION"
"CHICOPEE FALLS, MASS. U.S.A.".

Serial Number

- serial number is marked on the receiver/frame.
- serial number range is from approximately 340,000 to 1,060,000.

Calibre

- calibre designation is marked on the barrel.

Shots

- internal rotary magazine.

Notes

Make

- "Savage" is marked on the firearm.

Model

- "A17" or variation thereof is marked on the barrel.
- this is a delayed-blowback 17 HMR rifle introduced in 2015, with a unique bolt locking system that momentarily delays the opening of the breech, in order to prevent case blowouts; as the bolt starts to the rear, it must cam a locking-block in the top of the bolt downwards, and that additional delay allows the mechanism to operate properly.
- features include: blued steel barrel; anodized receiver/frame; oversize cocking knob; adjustable trigger; scope rail system; cross-bolt safety at the front of the trigger guard; black synthetic full pistol grip stock with sling swivel studs and a recoil pad.
- overall length is 1054mm/41.5" and the average weight is 2.54kgs/5.6lbs.

Manufacturer

- "Savage" is marked on the firearm.

Action

- delayed blowback.

Serial Number

- serial-numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- rifling characteristics: one turn in 9 inches.
Shots	- detachable rotary magazine.

Notes

Make - "Savage" may be marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "A22" or a variation thereof may be marked on the firearm. - this is a delayed-blowback, with a unique bolt locking system that momentarily delays the opening of the breech, in order to prevent case blowouts; as the bolt starts to the rear, it must cam a locking-block in the top of the bolt downwards, and that additional delay allows the mechanism to operate properly. - features may include: rifled, round steel barrel; blade front and adjustable rear sights; case-hardened receiver/frame with two piece accessory rail; oversize or cylindrical cocking handle; adjustable trigger; cross-bolt safety located at the front of the trigger guard; synthetic stock with textured pistol grip and forend; sling swivel studs; synthetic recoil pad; black finish. - overall length with a 533mm barrel is 1029mm (40.5"), average weight is 2.27kg (5 lbs). - overall length with a 559mm barrel is 1054mm (41.5"), average weight is 2.54kg (5.6 lbs). - Overall length with a 457 mm (18 inches) barrel is 939.8 mm (37 inches), average weight is 3 kg (6.6 lbs).
Manufacturer	- "Savage" may be marked on the firearm.
Action	- Blowback operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number, on a referenced example, consisted of a letter prefix "K" and six numbers.
Calibre	- calibre designation may be marked on the firearm. - rifling characteristics in calibre 22 LR: 1 turn in 16 inches, right hand twist.
Shots	- Detachable box magazine.

Notes

Make

- The company logo is marked on the firearm.
- "SAVAGE" is marked on both sides of the firearm.
- "SAVAGE ARMS INC." is marked on top of the barrel.

Model

- The "A22 Takedown" model features a twist-off take-down barrel and comes in a black synthetic version and a FDE (Flat Dark Earth color) synthetic version.
- Features include: magazine storage in the buttstock and extra storage space in the pistol grip; cross bolt safety; right side charging handle; bolt hold open button located on the underside of the receiver/frame.

Manufacturer

- The company logo is marked on the firearm.
- "SAVAGE" is marked on both sides of the firearm.
- "SAVAGE ARMS INC." is marked on top of the barrel.

Action

- Blowback operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- The serial number of referenced example consists of a letter followed by six digits.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Calibre

- The calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - Detachable rotary disc magazine.

Notes

Make

- the Savage name was marked on the left side of the receiver/frame on the sample examined.

Model

- in 1930 Savage introduced a line of semi-automatic shotguns based on the Browning model "Auto-5" design that was being produced by Fabrique Nationale of Herstal, Belgium. This model used the long recoil method of operation. Savage offered several variations that were based on this design, all shared the same basic features but differed in the style of barrel and/or choke system. Savage further distinguished these models in factory literature by the number of shots each model could hold, catalogues referred to five and three shot capacities in certain models but these numbers included one cartridge in the chamber so actual capacities were four and two respectively. Although each variation was given a specific model designation in most factory literature, samples have been noted simply marked "Savage Automatic".
- features include: American walnut buttstock and forend; plain round barrel with a bead front sight; push-button safety on rear of trigger guard; top of receiver/frame is channeled and matted in line of sight to reduce glare; friction ring adjustment for light or heavy loads.
- other variations include:
- model 720, produced between 1930 and 1949: five shots, 12 GA or 16 GA; American walnut buttstock and forend; plain round barrel with a bead front sight.
- model 720C, produced between 1946 and 1949; same as model 720 but with a 508mm barrel that featured a Cutts Compensator. The 720C was supplied with a "spreader" and "full" choke tube with a "modified" choke tube available as an option.
- model 720P, produced between 1946 and 1949; same as model 720 but with a 635mm barrel that featured a Poly Choke.
- model 720R introduced in 1940; this is the "Riot" version of the model 720, equipped with a 508mm barrel.
- further models can be found in the "Remarks" field.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the Savage name was marked on the left side of the receiver/frame on the sample examined.
Action	- recoil operated.
Serial Number	- sample examined was numbered on the underside of the receiver/frame.
Calibre	- the gauge is marked on the barrel.
Shots	- tubular magazine mounted under the barrel.
Remarks	- further model breakdown is as follows, - model 721, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised solid rib on the barrel. - model 722, produced between 1930 and 1949: same specifications as the model 720 but equipped with a raised ventilated rib on the barrel. - model 723, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 720 was re-designated as the model 723. - model 724, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 721 was re-designated as the model 724. - model 725, produced between 1930 and 1949: it would appear that at some point the 16 GA version of the model 722 was re-designated as the model 725. - model 726, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 720. It shares all of the features of the model 720 but the magazine capacity is reduced to two shells. - model 727, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 721. It shares all of the features of the model 721 but the magazine capacity is reduced to two shells. - model 728, produced between 1931 and 1949: this is the "Upland Sporter" version of the model 723. It shares all of the features of the model 723 but the magazine capacity is reduced to two shells. - model 740C, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 508mm barrel equipped with a Cutts Compensator. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type. - model 740P, produced circa 1946 to 1949; this gun is described in Savage literature as a "Skeet" version of the model 720 with a 508mm barrel equipped with a Poly Choke. The walnut buttstock has a grip cap and the forend is a larger "beavertail" type.

Notes

Make

- "SAVAGE ARMS INC." is marked on the left side of the barrel.

Model

- "SAVAGE AXIS" is usually marked on the left side of the barrel.
- introduced in 2010.
- features include: round tapered carbon steel or stainless steel barrel without iron sights; carbon steel or stainless steel receiver/frame is drilled and tapped for scope mounts; rear tang mounted safety; one piece black or camouflage synthetic pistol grip stock with recoil pad and sling swivel studs; matte black or stainless steel finish.
- available in a long or short action.
- available with a 3-9x40 Scope mounted.
- available in youth version.
- overall length with a 508mm (20") barrel is 1016mm (40") and with a 559mm (22.0") barrel is 1114mm (43.875") and average weight is 2.95 kg (6.5 lbs).
- "EDGE" series was redesignated the Savage model "AXIS" in 2010.
- the Savage "AXIS" has been made in both rimfire and centrefire versions, each with a different dedicated receiver, but they are each marked "AXIS" with a calibre designation; the rimfire "AXIS" was made in limited quantities, and is now replaced by the Mark II, using the same action/receiver and features.
- overall length of the centrefire version with a 508mm (20") barrel is 1016mm (40") and with a 559mm (22.0") barrel is 1114mm (43.875") and average weight is 2.95 kg (6.5 lbs).
- overall length of the rimfire version with a 533mm (21") barrel is 1003mm (39 1/2") and average weight is 3.4 kg (7.5 lbs).
- Overall length with a 457 mm (18 inches) barrel is 978 mm (38.5 inches), average weight is 2.6 kg (5.8 lbs).

Manufacturer

- "SAVAGE ARMS INC." is marked on the left side of the barrel.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left rear side of the receiver/frame.
- serial number observed consisted of a letter prefix and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre is usually marked on the left side of the barrel.
- rifling characteristics in calibre 22-250 REM: 1 turn in 12 inches, right hand twist.
- rifling characteristics in calibre 223 REM: 1 turn in 9 inches, right hand twist.
- rifling characteristics in calibre 243 WIN: 1 turn in 9.25 inches, right hand twist.
- rifling characteristics in calibre 25-06 REM: 1 turn in 10 inches, right hand twist.
- rifling characteristics in calibre 270 WIN: 1 turn in 10 inches, right hand twist.
- rifling characteristics in calibre 30-06 SPRG: 1 turn in 10 inches, right hand twist.
- rifling characteristics in calibre 308 WIN: 1 turn in 10 inches, right hand twist.
- rifling characteristics in calibre 7MM-08 REM: 1 turn in 11.5 inches, right hand twist.

Shots

- detachable box magazine.

Notes

Make

- make may be marked on the firearm.

Model

- model is marked on the firearm.
- this is a standard pattern gas operated semi automatic shotgun.
- features include:
- walnut pistol grip stock and forearm, white line spacers at buttpad and pistol grip, rosewood pistol grip cap, cross bolt safety at rear of trigger guard, blued ventilated rib barrel and an action release button on the right side of the receiver/frame below a chromed or polished bolt.

Manufacturer

- manufacturer's designation may not be marked on the firearm.
- although Savage retailed these shotguns, they were actually produced by KTG in Japan.

Action

- gas operated semi automatic.

Serial Number

- serial number is marked on the receiver/frame.

Shots

- tubular magazine in forearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- overall, these shotguns resemble a "plain" Weatherby Centurion, but with an exposed magazine cap; they were built on the same production line as the Centurion, but after Weatherby had stopped selling the Centurion.

FRT Report

Firearm Reference Number (FRN): 113217
Make: Savage
Model: MARK 1

Summary

Make:	Savage
Model:	MARK 1
Manufacturer:	Savage
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
113217 - 2	22 LR	1	483	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
113217 - 1	22 LR	1	526	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the left side of the barrel as, "SAVAGE".

Model

- this is a generic model. Other "MARK 1" model entries exist which might better describe the firearm.
- introduced in 1996.
- "MARK I" is marked on the left side of the barrel.
- features include; blued receiver/frame and round barrel; a fixed front sight with an adjustable notch for a rear sight; the safety is located on the right side of the receiver/frame; a walnut stock with a pistol grip and checkering on the forearm and pistol grip.

Manufacturer

- the manufacturer is marked on the left side of the barrel as:
"MFG. IN CANADA BY SAVAGE ARMS (CANADA) INC."
"IMPORTED BY SAVAGE ARMS INC. WESTFIELD MA. 01085 U.S.A.".

Action

- turn bolt operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the left side of the barrel as:
".22 S. L. & L.R.". or "S.B. SHOT CARTRIDGE ONLY".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- "01085" is marked on the barrel and is not a serial number.

Remarks

- indicate features on firearm at the time of production:
- the letter "G" indicates a hardwood stock.
- the letter "L" indicates a left-handed receiver/frame.
- the letters "SB" indicate a smooth bore barrel.

3312 - 4	22 LR	1	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the left side of the barrel as, "SAVAGE".

Model

- introduced in 1996.
- model designation is marked on the left side of the barrel as: "MARK I".
- "SB" suffix in the model designation indicates that this model is produced with a smooth bore, fixed barrel (no rifling),and is intended for use with a calibre 22 LR "shot" cartridge.
- features include: walnut finished hardwood pistol grip stock with cut checkering on pistol grip and forearm; self-cocking action and thumb operated safety; receiver/frame is dovetailed for scope mounting; bead front sight and adjustable open rear sight.
- as of 2006 this model is available with the adjustable "AccuTrigger".
- overall length with a 533mm (21") barrel is 1003mm (39.5") average weight is 2.49kg (5.5lbs).

Manufacturer

- the manufacturer is marked on the left side of the barrel as:
"MFG. IN CANADA BY SAVAGE ARMS (CANADA) INC."
"IMPORTED BY SAVAGE ARMS INC. WESTFIELD MA. 01085 U.S.A.".

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- this particular model is intended for use with calibre 22 LR "shot" cartridges.
- the calibre designation is marked on the left side of the barrel as "S.B. SHOT CARTRIDGE ONLY".

Other Markings

- a manufacturer's warning may be marked on the right side of the barrel as:
"BEFORE USING READ OWNERS MANUAL AVAILABLE FROM SAVAGE ARMS INC. WESTFIELD MA. 01085 U.S.A.".
or
"READ OWNERS MANUAL BEFORE USE AVAILABLE FROM SAVAGE ARMS INC. LAKEFIELD ONT. CANADA".
- "01085" is marked on the barrel and is not a serial number.

FRT Report

Firearm Reference Number (FRN): 138237
Make: Savage
Model: MARK 2BTVTBC

Summary

Make:	Savage
Model:	MARK 2BTVTBC
Manufacturer:	Savage
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
138237 - 1	22 LR	5	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "- SAVAGE MARK II CAL..22 L.R. ONLY-" over "MFG. BY SAVAGE ARMS (CANADA) INC. LAKEFIELD ONT. CANADA" over "IMPORTED BY SAVAGE ARMS INC. WESTFIELD. MA. U.S.A. 01085" is usually marked on the left side of the barrel.

Model

- introduced in 2011.
- "MARK 2BTVTBC" is not marked on the firearm.
- "MARK II" is usually marked on the left side of the barrel.
- the letters "BT" denotes a laminated thumbhole stock, the letter "V" denotes a long-range heavy profile barrel and "TBC" denotes Threaded Barrel Carbine.
- features include: no iron sights; round heavy profile barrel with a threaded muzzle; receiver/frame is drilled and tapped for a scope mount(s); safety lever is located on the right side of the receiver/frame; AccuTrigger; one piece laminated wood thumbhole stock with sling swivel studs; satin blued metal finish.
- a similar model, equipped with a "Mako" (this stock has distinct lines that remind one of a shark) stock is available as the "MARK II-BTV Mako".

Manufacturer

- "- SAVAGE MARK II CAL..22 L.R. ONLY-" over "MFG. BY SAVAGE ARMS (CANADA) INC. LAKEFIELD ONT. CANADA" over "IMPORTED BY SAVAGE ARMS INC. WESTFIELD. MA. U.S.A. 01085" is usually marked on the left side of the barrel.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Calibre

- calibre designation is marked on the left side of the barrel.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 134213
Make: Savage
Model: MARK 2FVSR

Summary

Make:	Savage
Model:	MARK 2FVSR
Manufacturer:	Savage
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
134213 - 2	22 LR	5	413	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
134213 - 1	22 LR	5	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
134213 - 3	22 MAG	5	419	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "- SAVAGE MARK II CAL..22 L.R. ONLY-" over "MFG. BY SAVAGE ARMS (CANADA) INC. LAKEFIELD ONT. CANADA" over "IMPORTED BY SAVAGE ARMS INC. WESTFIELD. MA. U.S.A. 01085" is usually marked on the left side of the barrel.

Model

- "MARK II" is marked on the left side of the barrel.
- "MARK 2FV ", "F" denotes a synthetic stock and "V" denotes a heavy barrel.
- "MARK 2FV" was introduced in 1998.
- features include: threaded or unthreaded, carbon steel, heavy contour barrel; no iron sights; carbon steel tubular receiver/frame is drilled and tapped for scope mounts; right handed bolt; safety lever is located on the right side of the receiver/frame; "AccuTrigger"; one piece black synthetic stock; matte black finish.
- overall length with a 533 mm (21") barrel is 1010 mm (40"), and the average weight is 2.72 kgs (6 lbs).

- Overall length with a 419 mm (16.5 inches) barrel is 889 mm (35 inches), average weight is 2.5 kg (5.5 lbs).

Manufacturer

- "- SAVAGE MARK II CAL..22 L.R. ONLY-" over "MFG. BY SAVAGE ARMS (CANADA) INC. LAKEFIELD ONT. CANADA" over "IMPORTED BY SAVAGE ARMS INC. WESTFIELD. MA. U.S.A. 01085" is usually marked on the left side of the barrel.

Action

- Turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the receiver/frame, rationalization unknown.
Calibre	- rifling characteristics: one turn in 16 inches.
Shots	- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 3316
Make: Savage
Model: MARK 2GYL

Summary

Make:	Savage
Model:	MARK 2GYL
Manufacturer:	Savage
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
3316 - 2	22 LR	5	483	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
3316 - 1	22 LR	10	483	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
3316 - 3	22 LR	10	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "- SAVAGE MARK II CAL..22 L.R. ONLY-" over "MFG. BY SAVAGE ARMS (CANADA) INC. LAKEFIELD ONT. CANADA" over "IMPORTED BY SAVAGE ARMS INC. WESTFIELD. MA. U.S.A. 01085" is usually marked on the left side of the barrel.

Model

- introduced in 1996.
- "MARK 2GYL" is not marked on the firearm.
- "MARK II Y" is marked on the left side of the barrel.
- the letter "G" denotes a Hardwood Stock, the letter "Y" denotes a Youth version and the "L" denotes a left hand configuration.
- features include: blued receiver/frame and round barrel; bolt handle is on the left side; fixed front sight with an adjustable rear sight; the safety is located on the right side of the receiver/frame.
- overall length with a 533mm (21") barrel is 959mm (37.75") average weight is 2.27kg (5lbs).

Manufacturer

- "- SAVAGE MARK II CAL..22 L.R. ONLY-" over "MFG. BY SAVAGE ARMS (CANADA) INC. LAKEFIELD ONT. CANADA" over "IMPORTED BY SAVAGE ARMS INC. WESTFIELD. MA. U.S.A. 01085" is usually marked on the left side of the barrel.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- "01085" is marked on the barrel, this is not a serial number.

Calibre

- the calibre designation is marked on the left side of the barrel as, ".22 L.R. ONLY".
- rifling characteristics: 1 turn in 406mm (16").

Shots

- detachable box magazine.

Other Markings

- a manufacturers warning may be marked on the right side of the barrel as:
"BEFORE USING READ OWNERS MANUAL AVAILABLE FROM SAVAGE ARMS INC. WESTFIELD MA. 01085 U.S.A.".
or
"READ OWNERS MANUAL BEFORE USE AVAILABLE FROM SAVAGE ARMS INC. LAKEFIELD ONT. CANADA".

Remarks

- the letters in the Savage Arms catalogue/model designation indicate features on a specific firearm at the time of production:
- the letter "G" denotes a hardwood stock.
- the letter "F" denotes a synthetic stock.
- the letter "C" denotes a camouflage stock.
- the letter "Y" denotes a youth rifle.
- the letters "SS" denotes stainless steel receiver/frame and barrel.
- the letter "V" denotes a heavy target barrel profile.
- the letter "L" denotes a left-handed receiver/frame or in some cases a laminated stock.
- the letters "XP" denotes a package firearm, which includes a scope.
- the letters "TD" denotes a take-down firearm.
- the letters "TH" denotes a threaded barrel for attachments.

Notes

Make

- "SAVAGE ARMS" is marked on the left side of the receiver/frame.
- "SAVAGE ARMS" followed by "WESTFIELD, MA USA" is marked on the receiver/frame of the firearm.

Model

- introduced in 2017.
- "MSR-10" is marked on the side of the magazine housing of the receiver/frame of the firearm.
- this is a compact "AR10" designed modular firearm with an AR type upper and lower receiver/frame.
- features include: Melonite finished fluted or round rifled barrel with threaded muzzle; black anodized modular receiver/frame lower with integral magazine housing; modular release toggle on the left side; left side safety switch.
- options include: various upper configurations; telescoping buttstock; pistol grip; accessory rails; floating handguard.
- overall firearm length with 410mm (16.13") barrel is 991mm (39") and average weight is 3.54kg (7.8lbs).

Manufacturer

- "SAVAGE ARMS" is marked on the left side of the receiver/frame.
- "SAVAGE ARMS" followed by "WESTFIELD, MA USA" is marked on the receiver/frame of the firearm.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the receiver/frame of the firearm. - observed sample consisted of two numbers followed by a dash, "-", followed by six numbers without a letter prefix or suffix or five numbers without a letter prefix or suffix.
Calibre	- "CAL: MULTI" is marked left side of the receiver/frame. - calibre identification is usually marked on the barrel. - 308 WIN rifling characteristics: 1 turn in 10 inches, right hand twist. - 338 FEDERAL rifling characteristics: 1 turn in 10 inches, right hand twist. - 6.5MM CREEDMOOR rifling characteristics: 1 turn in 8 inches, right hand twist.
Shots	- detachable box magazine.

Summary

Make:	Savage
Model:	RXR22
Manufacturer:	Adler
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
200202 - 1	22 LR	10	419	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Savage" is marked on the left side of the barrel.

Model

- "RXR22" is marked on the right side of the receiver/frame.
- "RXR22" is marked on the left side of the barrel.
- The "RXR22" is compatible with "Ruger 10/22" pattern barrels, magazines, and trigger groups.
- Features include: Synthetic receiver/frame with top accessory rail; bolt lock lever and magazine release lever located on the underside of the receiver in front of the trigger guard; right side charging handle; captive takedown screw on the underside of the stock, in front of the magazine well; interchangeable grip inserts; thread protector on the muzzle; cross bolt safety on trigger guard; stock comes in various colour finishes.
- Features may include: Last round bolt hold open mechanism.

Manufacturer

- "ADLER ARMS" is marked on the left side of the receiver/frame.

Action

- Blowback operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- The serial number is repeated on other parts and components.
- The serial number of referenced example consisted of two letters, three digits, a dash, two digits, two letters followed by five digits.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Calibre

- The calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- Detachable box magazine. - Designed to accept "Ruger 10/22" type magazines.
Importer	- "Imported by Savage Arms Inc" is marked on the left side of the firearm.
Canadian Law Comments	- Ruger "BX-25" magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the Criminal Code Part III, S. 84, Regulations Part 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rimfire ammunition.

Notes

Make
- normally marked on the barrel assembly and/or the receiver/frame.

Model
- this is a generic entry for Savage single shot rifles where the model designation is not present, has been removed, or is otherwise indeterminable; other records may exist which may better describe the firearm being identified.
- the features of this model may vary greatly.
- features may include: wood or synthetic stock; blued or stainless metal surfaces; fixed or adjustable iron sights; provision for scope mounting; tang or side-mounted safety.

Manufacturer
- normally marked on the barrel assembly and/or the receiver/frame.

Action
- may be of a variety of mechanisms including, but not exclusive to, falling block, hinged actions, and turn bolt mechanisms.

Serial Number
- normally marked, if present, on the barrel assembly and/or the receiver/frame.

Calibre
- normally marked on the left side of the barrel forward of the receiver/frrame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- marked on barrel and receiver/frame.

Model

- the Savage "Utility Gun" concept was intended to allow individuals to use one receiver with either a shotgun or rifle barrel. The "Utility Gun" has several different sub model designations depending on what barrel or combination of barrels it was sold with.
- this model was originally produced with a top mounted opening lever, when it was revived in 1960 the opening lever was moved to the side.
- features include; top tang mounted safety, automatic ejector, American walnut forend and stock, pistol grip stock with fluted comb and hard rubber buttplate, and no external hammer.
- Model 219; Rifle only in calibre 30-30 WIn or 25-20 WIN.
- Model 220; Shotgun only in 12 GA X 2 3/4", 16 GA X 2 3/4", 20 GA X 2 3/4" or 410 GA X 3".
- Model 221; sold with a rifle barrel in calibre 30-30 WIN and a 762 mm shotgun barrel in 12 GA X 2 3/4".
- Model 222; sold with a rifle barrel in calibre 30-30 WIN and a 711 mm shotgun barrel in 16 GA X 2 3/4".
- Model 223; sold with a rifle barrel in calibre 30-30 WIN and a 711 mm shotgun barrel in 20 GA X 2 3/4".
- Model 224; sold with a rifle barrel in calibre 25-20 WIN and a 762 mm shotgun barrel in 12 GA X 2 3/4".
- Model 225; sold with a rifle barrel in calibre 25-20 WIN and a 711 mm shotgun barrel in 16 GA X 2 3/4".
- Model 226; sold with a rifle barrel in calibre 25-20 WIN and a 711 mm shotgun barrel in 20 GA X 2 3/4".
- Model 227; sold with a rifle barrel in calibre 22 HORNET and a 762 mm shotgun barrel in 12 GA X 2 3/4".
- Model 228; sold with a rifle barrel in calibre 22 HORNET and a 711 mm shotgun barrel in 16 GA X 2 3/4".
- Model 229; sold with a rifle barrel in calibre 22 HORNET and a 711 mm shotgun barrel in 20 GA X 2 3/4".
- Model 230; sold with a rifle barrel in calibre 32-20 WIN and a 762 mm shotgun barrel in 12 GA X 2 3/4".
- Model 231; sold with a rifle barrel in calibre 32-20 WIN and a 711 mm shotgun barrel in 16 GA X 2 3/4".

Manufacturer

- marked on barrel and receiver/frame.

Remarks

- this is a generic entry for the Savage family known as "Utility Guns" that were marketed with a rifle and a shotgun barrel. Other entries exist that may better identify the firearm being identified.

Notes

Make

- marked on barrel and receiver/frame.

Model

- the Savage "Utility Gun" concept was intended to allow individuals to use one receiver with either a shotgun or rifle barrel. The "Utility Gun" has several different sub model designations depending on what barrel or combination of barrels it was sold with.
- this model was originally produced with a top mounted opening lever, when it was revived in 1960 the opening lever was moved to the side.
- features include; top tang mounted safety, automatic ejector, American walnut forend and stock, pistol grip stock with fluted comb and hard rubber buttplate, and no external hammer.
- Model 219; Rifle only in calibre 30-30 WIn or 25-20 WIN.
- Model 220; Shotgun only in 12 GA X 2 3/4", 16 GA X 2 3/4", 20 GA X 2 3/4" or 410 GA X 3".
- Model 221; sold with a rifle barrel in calibre 30-30 WIN and a 762 mm shotgun barrel in 12 GA X 2 3/4".
- Model 222; sold with a rifle barrel in calibre 30-30 WIN and a 711 mm shotgun barrel in 16 GA X 2 3/4".
- Model 223; sold with a rifle barrel in calibre 30-30 WIN and a 711 mm shotgun barrel in 20 GA X 2 3/4".
- Model 224; sold with a rifle barrel in calibre 25-20 WIN and a 762 mm shotgun barrel in 12 GA X 2 3/4".
- Model 225; sold with a rifle barrel in calibre 25-20 WIN and a 711 mm shotgun barrel in 16 GA X 2 3/4".
- Model 226; sold with a rifle barrel in calibre 25-20 WIN and a 711 mm shotgun barrel in 20 GA X 2 3/4".
- Model 227; sold with a rifle barrel in calibre 22 HORNET and a 762 mm shotgun barrel in 12 GA X 2 3/4".
- Model 228; sold with a rifle barrel in calibre 22 HORNET and a 711 mm shotgun barrel in 16 GA X 2 3/4".
- Model 229; sold with a rifle barrel in calibre 22 HORNET and a 711 mm shotgun barrel in 20 GA X 2 3/4".
- Model 230; sold with a rifle barrel in calibre 32-20 WIN and a 762 mm shotgun barrel in 12 GA X 2 3/4".
- Model 231; sold with a rifle barrel in calibre 32-20 WIN and a 711 mm shotgun barrel in 16 GA X 2 3/4".

Manufacturer

- marked on barrel and receiver/frame.

Remarks

- this is a generic entry for the Savage family known as "Utility Guns" that were marketed with a rifle and a shotgun barrel. Other entries exist that may better identify the firearm being identified.
