- the main difference between the models was the M1A1:
a) did not have the electrical contact box mounted on the top of the tube, the contact box was removed and two spring contacts were added at the rear of the tube;
b) front hand grip was eliminated on later production model M1A1s;
c) center of the tube was wire wrapped for approximately 508 mm to increase its strength; and
d) a removeable wire flash /deflector screen was added to the muzzle to protect the face of the firer from unburnt rocket exhaust particles.
- "M1" rocket launcher was introduced in May of 1942.
- features include: one piece open ended tube/barrel; two hand grips welded on the bottom of the tube; wooden shoulder stock fastened under the tube, which incorpates a light bulb for battery testing and a storage compartment for two dry cell flashlight type batteries; front sight welded on the barrel near the muzzle and a simple leaf rear sight; rear grip assembly contained the trigger and electrical contact swithes; electrical contact box was mounted on the top rear of the barrel.
- approximate weight of 18 lbs.
- the "M1A1" was replaced by the "M9" in October of 1943.

Type

- man portable, short-range anti-tank/anti-personnel weapon.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- electrically fired.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missle or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- "M20" was introduced in 1944/45.
- M20 marked on the left side.
- this is a lightweight, shoulder controlled, smooth bore, breech loaded and electrically fired anti-tank rocket launcher, also known as the Super Bazooka.
- features include: two piece open ended aluminium tube/barrel; one hand grip with a trigger operated magneto and safety switch located on the bottom of the tube; metal shoulder stock with two firing positions is fastened under the tube; optical sight.
- length overall when assembled is 1530 mm (60.5") and length overall when disassembled for carrying is approximately 800 mm (31.5").
- "M20" was replaced by the "M20B1".
- main difference between the "M20" and "M20B1" are:
- "M20" the muzzle deflector, breech guard, and barrel coupling were fastened to the barrel by screws.
- "M20" weighed approximately 15.0 lbs.
- "M20B1" used an improved aluminium casting method to integrate components into the barrel assembly and reduced overall weight.
- "M20B1" weighed approximately 14.0 lbs.

Type

- man portable, short-range anti-tank/anti-personnel weapon.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- electrically fired.
Serial Number	- marked on the left side.
Calibre	- marked on the left side.
Canadian Law Comments	- this model of Rocket Launcher meets the definition of "firearm" in the Criminal Code of Canada S. 2. - there are Federal Acts other than the Criminal Code which apply to these items such as the provisions of the Controlled Goods Act and the Defence Production Act. - Natural Resources Canada has a vested interest in the natures of ammunition employed by these recoilless weapons, which fall under the ambit of the Explosives Act.

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- "M20A1" is marked on the launcher tube.
- this is a lightweight, shoulder controlled, smooth bore, breech loaded and electrically fired anti-tank rocket launcher, also known as the Super Bazooka (the original "bazooka" fired 60mm/2.36" rockets, while the "super bazooka" increased the warhead diameter for greater armour penetration).
- these launchers entered service in 1952, as a lighter-weight version of the World War Two-era M20.
- features include: two piece open ended aluminium tube/barrel that twist to lock together; one hand grip with a trigger operated magneto and safety switch located on the bottom of the tube; metal shoulder stock with two firing positions is fastened under the tube; optical sight.
- length overall when assembled is 1530 mm (60.5") and length overall when disassembled for carrying is approximately 800 mm (31.5").
- "M20" was replaced by the "M20A1".
- the main differences between the "M20" and "M20A1" are:
- "M20" the muzzle deflector, breech guard, and barrel coupling were fastened to the barrel by screws.
- "M20" weighed approximately 15.0 lbs.
- "M20A1" used an improved aluminium casting method to integrate components into the barrel assembly and reduce overall weight.
- "M20A1" weighed approximately 14.0 lbs.
- "M20A1B1" used a simplified assembly method to integrate components into the barrel assembly and reduce overall weight.
- "M20A1B1" weighed approximately 13.0 lbs.
- the "M20A1" was replaced by the lighter-weight "M20A1B1".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is marked on the launch tube.
Type	- man portable, short-range anti-tank/anti-personnel rocket launcher.
Action	- electrically-fired single-shot rocket-launcher.
Serial Number	- serial-numbered on an identifcation plate on the launch tube.
Canadian Law Comments	- this model of Rocket Launcher meets the definition of "firearm" in the Criminal Code of Canada S. 2. - there are Federal Acts other than the Criminal Code which apply to these items such as the provisions of the Controlled Goods Act and the Defence Production Act. - Natural Resources Canada has a vested interest in the natures of ammunition employed by these recoilless weapons, which fall under the ambit of the Explosives Act.

- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the "M57" is a reloadable, man portable, shoulder controlled & hand fired, muzzle loading, anti-tank/anti-personnel grenade launcher.
- the "M57" launches a fin-stabilized rocket with oversize grenade warhead.
- features include: 40mm smooth bore tube; single grip assembly which houses the trigger mechanism; percussion firing mechanism; metal shoulder support; permanently attached bipod; open sights, optical range finding day sight, infra-red night sight or image intensification night sight.
- the "M57" or "RB57" was used by the armed forces of Yugoslavia and Serbia & Montenegro.

Type

- man portable, short-range anti-tank/anti-personnel weapon.

Action

- percussion fired with a positive indexed round.

Barrel

- 960mm is the total length of the launcher, this includes the launch tube (barrel) and the cone-shaped venturi funnel.

Calibre

- fin stabilized rocket propelled grenade.
- the High Explosive Anti-Tank (HEAT) shaped charge and High Explosive (HE) warhead diameter of 90 mm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this model of Rocket Launcher meets the definition of "firearm" in the Criminal Code of Canada S. 2.
- there are Federal Acts other than the Criminal Code which apply to these items such as the provisions of the Controlled Goods Act and the Defence Production Act.
- Natural Resources Canada has a vested interest in the natures of ammunition employed by these recoilless weapons, which fall under the ambit of the Explosives Act.

- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- introduced in the 1960s.
- the "M72" Lightweight Anti-Armour Weapon (LAW) is a lightweight, compact, preloaded, disposable, percussion fired, shoulder controlled, single person served anti-armour weapon.
- features include: barrel consists of a pair of telescoping tubes, a glass fibre composite outer tube and a aluminium inner tube; trigger, safety and firing mechanism are mounted on the top side; folding sights.
- to fire, the user extends the telescoping tube, which automatically cocks the launcher and erects the simple sights.
- overall length in the carrying configuration is from 665 to 775 mm and when extended and ready to fire is from 899 to 980 mm.
- overall weight is from 2.5 to 3.6 kg.

Type

- this is a lightweight, compact, preloaded, disposable, percussion fired, shoulder controlled, single person served anti-armour weapon.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- "M9" rocket launcher was introduced in October of 1943.
- this is a lightweight, shoulder controlled, smooth bore, breech loaded and electrically fired anti-tank rocket launcher, also known as the Bazooka.
- features include: two piece open ended tube/barrel; one hand grip with a trigger operated magneto and safety swith is welded on the bottom of the tube; metal shoulder stock with two firing positions is fastened under the tube; front sight welded on the barrel near the muzzle and a simple leaf rear sight.
- length overall when assembled is 1549 mm (61.0") and length overall when disassembled for carrying is approximately 800 mm (31.5").
- approximate weight of 15.87 lbs.
- "M9A1" rocket launcher/bazooka is an upgraded version of the "M9".
- "M9A1" used an improved barrel coupling mechanism on the two piece barrel assembly.

Type

- man portable, short-range anti-tank/anti-personnel weapon.

Action

- electrically fired.

Canadian Law Comments

- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the launcher.
- this is a lightweight disposable single-shot rocket launcher based on the US M72 LAW, but with a larger-diameter (and therefore, deeper armour-penetrating) rocket warhead, all contained in a collapsible aluminium and fibreglass launch tube that is extended to arm and fire the rocket.
- this launcher is meant for use against armoured vehicles, bunkers and buildings.
- features include: a launcher formed of two collapsible tubes; matte painted finish with arming and firing directions in cartoon form; folded flip-up sights and firing controls in a rail along the top of the forward tube; muzzle and venturi covers; and a sling for transport.

Manufacturer

- the manufacturer may or may not be marked on the launcher.

Action

- single-shot disposable rocket launcher.

Serial Number

- serial-numbered on the launch tube, with lot and manufacture dates.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the firearm; this system was adopted by the US Marine Corps as the MK 153, while "SMAW" is an acronym for "Shoulder-launched Multi-purpose Assault Weapon".
- this is a reusable single-shot rocket launcher that fires a variety of armour-piercing anti-tank and heavy blast HE projectiles; this rocket launcher was developed by McDonnel Douglas based on the similar Israeli B-300 anti-tank rocket launcher system.
- features include: a two-piece launcher system that includes pre-packaged projectiles in tubes that are attached to the rear of the forward half of the launcher for firing (via a twist-to-lock "bayonet"-style system); a main launch assembly that includes an optical sight, back-up open iron sights, and a semi-automatic 9mm (9x51) spotting rifle, to allow the gunner to be sure of their aim before firing the main projectile.
- these launchers have now been superseded by the SMAW-D ("Disposable"), a single-shot launcher with a synthetic launch tube that is thrown away after firing, rather than being reloaded.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- breech-loaded single-shot launcher, with the ammunition packed in disposable tubes that are twisted onto the rear of the launcher to fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- "MARK 777 RPG" is a re-designed lightweight version of the RPG-7.
- "MARK 777 RPG" is made with extensive use of synthetics and lightweight tube.
- "MARK 777 RPG" launcher has a planned service life of no more than 250 shots, after which the launcher is designed to be disposed of.
- "RPG" is also known as "Rocket Propelled Grenade" launcher.
- "RPG" is derived from the Russian "ruchny protivotankovy granatomyot"/"lightweight anti-tank grenade-launcher".
- "RPG" is an anti-tank/anti-personnel grenade launcher.
- "RPG" was adopted by the Soviet Armed Forces circa 1961.
- "MARK 777 RPG" is a reloadable man portable, shoulder controlled & hand fired, muzzle loading, anti-tank/anti-personnel grenade launcher.
- "MARK 777 RPG" is able to launch a variety of fin-stabilized rockets with oversize grenade warheads.
- features include: round 40mm smooth bore tube; two grip assemblies, front assembly houses the trigger mechanism; percussion firing mechanism; sight mounting rail for open iron sight, holographic sight, range finding optical day sight, infra-red night sight or image intensifier night sight.
- "MARK 777 RPG" is also available with a training insert that fires calibre 7.62X39 RUSSIAN Calibre ammunition. The insert looks like the rocket propelled grenade, but is in fact a rifled barrel and breech block/striker mechanism.
- Airtronics began manufacturing several US versions of the RPG in order to make use of the large stocks of 40mm RPG grenades encountered on the modern battlefield.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Airtronic (Airtronic Services, Incorporated / Airtronic USA, Incorporated) is located in Elk Grove Village, Illinois, U.S.A. - Airtronic is an engineering design and manufacturing company. - Airtronic was founded in 1990 and incorporated in 1993.
Action	- percussion fired with a positive indexed round.
Serial Number	- numbered on the trigger-frame.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- "Rocket Launcher" is used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc.).

Model

- the model is not marked on the launcher; "P27" is an abbreviation of "Pancerovka 27" or "Anti-tank Launcher, Model 27".
- this is a single-shot muzzle-loaded rocket launcher manufactured by Skoda for the Czechoslovakian armed forces from the end of the Second World War until the mid-1950s, when it was replaced by the Soviet RPG-2 series (for purposes of ammunition compatibility in the East Bloc).
- features include: generalized RPG shoulder-fired appearance and layout (except for the absence of a thumb-cocked external hammer on the firing grip); matte painted finish; open folding sights calibrated for ranges up to 100 metres; an underbarrel folding bipod; a single firing grip with synthetic sideplates and a cocking lever on the left side (marked "O" for "fire" and "Z" for "safe/load"); and a red fibreglass heat shield around the rear of the launcher tube.

Manufacturer

- the manufacturer is not marked on the launcher; Czech arsenal proofs of crossed swords were observed on an example.

Action

- percussion fired with a positive indexed round.

Serial Number

- serial-numbered on the left side of the launch tube, forward of the firing grip.

Calibre

- the launch tube diameter is 45mm, while the warhead diameter is 120mm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- no model name is marked on this firearm.
- introduced 1943, it was the first weapon of its type to be entered into military service; production ceased at the end of WW II.
- the "Panzerfaust" ("amour fist" or "tank fist"), also known as the "Faustpatrone" ("fist cartridge") is a single shot, recoilless rocket launcher used by the infantry as a close range anti-tank weapon. It fires a percussion ignited, fin-stabilized shaped-charge warhead (HEAT - High Explosive Anti-Tank), also known as a Rocket Grenade; it is designed for operation by one man; the launcher tube is expendable.
- also known as the Panzerfaust 30m klein or Faustpatrone klein 30m where the 30m represents the range in metres; the projectile was 100/101mm in diameter.
- features; launching tube is constructed of steel pipe to which is spot welded a sheet metal support for the flip-up sight and trigger mechanism; the projectile is front loaded into the launcher tube.
- total weight; 3.2 kg / 7 lbs.
- overall length; 985mm / 38.8".
- referenced velocity for the projectile is 28 to 30 mps / 92 to 98.4 fps.

Type

- man portable, short-range anti-tank/anti-personnel weapon.

Action

- front loaded recoilless rocket launcher; launcher tube is expendable.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this model of Rocket Launcher meets the definition of "firearm" in the Criminal Code of Canada S. 2.
- there are Federal Acts other than the Criminal Code which apply to these items such as the provisions of the Controlled Goods Act and the Defence Production Act.
- Natural Resources Canada has a vested interest in the natures of ammunition employed by these recoilless weapons, which fall under the ambit of the Explosives Act.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the launcher.
- this is a semi-disposable rocket launcher system designed by Dynamit Nobel to replace the Panzerfaust 2 in German military service in the mid-1980s, and which was adopted in 1992; this launcher was designed to reduce some of the drawbacks of earlier issued launchers, notably the dangerous backblast. To counteract the recoil of the launcher's firing, the rear of the disposable launch tube is filled with a mass of plastic granules, and the high-speed ejection of those granules balances out the recoil of firing the warhead.
- this launcher system comes with a detachable firing mechanism which is moved from launch tube to launch tube for each shot, and the launch tubes are discarded after a shot is fired.
- features include: matte paint finish; round launch tube with octagonal end plates; a detachable firing mechanism with a pistol-grip, forward hand-grip, a shoulder brace; and an optical sight.

Manufacturer

- the manufacturer or logo thereof is marked on the firing assembly.

Action

- pre-loaded single-shot launch tube.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the firing assembly is numbered, and is moved between disposable launch tubes for each shot.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model name is usually marked on the outside of the warhead as, "Panzerfaust 60m"; the number "60" in the model designation indicates a working range of 60 metres although it is also sighted for 30mm and 80mm as well.
- production started in September 1944 and ceased at the end of WW II.
- this is an updated version of the German Panzerfaust 2 utilizing a larger diameter launching tube and a larger 150mm warhead.
- the "Panzerfaust" ("amour fist" or "tank fist"), also known as the "Faustpatrone" ("fist cartridge") is a single shot, recoilless rocket launcher used by the infantry as a close range anti-tank weapon. It fires a percussion ignited, fin-stablized shaped-charge warhead (HEAT - High Explosive Anti-Tank); the projectile is also known as a "Rocket Grenade"; it is designed for operation by one man; the launcher tube is expendable.
- features; launching tube is constructed of steel pipe to which is spot welded a sheet metal support for housing the sight, the safety slider, the firing lever, the firing cap and the firing pin with its sheet metal spring; projectile is front loaded into the launcher tube.
- overall length with bomb; 1045mm.
- weight of projectile; 3,06 kg / 6.7 lbs.
- projectile velocity; 28 to 30 mps / 92 to 98.4 fps.
- maximum range; 80 metres/ 87.4 yards.

Type

- man portable, short-range anti-tank/anti-personnel weapon.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	front loaded recoilless rocket launcher; launcher tube is expendable.
Canadian Law Comments	- this model of Rocket Launcher meets the definition of "firearm" in the Criminal Code of Canada S. 2. - there are Federal Acts other than the Criminal Code which apply to these items such as the provisions of the Controlled Goods Act and the Defence Production Act. - Natural Resources Canada has a vested interest in the natures of ammunition employed by these recoilless weapons, which fall under the ambit of the Explosives Act.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model is marked on the launch tube.
- this is a reloadable anti-tank rocket launcher developed by Norinco in 1998 to replace the existing "Type 78" recoilless rifle. This launcher fires a warhead with a diameter of 120mm, allowing it to penetrate most non-reactive armour.
- this launcher may be tripod, vehicle, or shoulder-fired, and is fitted with an optical sight that allows thermal imaging (for night firing) and lead correction for moving targets.
- features include: matte olive drab or camouflage finish; combination short launch tube with hand-grip and optical sight (preloaded "cases" containing a warhead and propellant charge are twisted to lock onto the rear of the launch tube for each shot; adaptable for shoulder, tripod, or vehicle mounts; and a maximum range of 1800 metres.

Manufacturer

- the manufacturer or logo thereof is marked on the launcher.

Action

- electrically fired single-shot rocket launcher.

Serial Number

- serial numbered on the launch tube.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the launcher; this is a portable "bazooka"-style anti-vehicle rocket launcher based on the US M20 rocket-launcher.
- this is a rocket-launcher developed by Belgium in the 1950s, based on the then-current 3.5" M20 "bazooka"; this rocket-launcher saw wide export sales in Europe and Africa, and went through several generations of upgrades to increase its effectiveness. Ultimately, the RL83 Blindicide was replaced by the RL100 Blindicide, with a greater-diameter warhead and correspondingly greater penetration.
- this rocket launcher can be folded for transport or air-drop.
- features include: painted finish; simple tube design; open fixed sights with optional optical sight; a cone-shaped shield for the firer's face; a pistol-grip with firing trigger; synthetic shoulder rest; and "L"-shaped bracket at the rear of the tube to assist an assistant gunner in loading the launcher.
- this launcher added a secondary safety at the rear of the launcher (activated by the assistant gunner) to ensure that the loader is clear before the launcher can be fired.

Manufacturer

- the manufacturer may or may not be marked on the launcher.

Action

- breech-loaded percussion-fired rocket.

Canadian Law Comments

- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- "RPG" is also known as "Rocket Propelled Grenade" launcher.
- "RPG" is an anti-tank/anti-personnel grenade launcher.
- "RPG-16" was adopted by the Soviet Armed Forces circa 1970.
- "RPG" in Cyrillic characters may be marked on the side of the trigger/firing mechanism, eg. "pnr".
- in Russian service, this launcher is known colloquially as the "Udar", meaning "punch", "hit", "blow", or "strike".
- "RPG-16" is a reloadable man portable, shoulder controlled & hand fired, anti-tank/anti-personnel grenade launcher.
- "RPG-16" barrel/tube can be disassembled into two components for storage or transportation.
- features include: takedown round smooth bore barrel/tube with rear venturi; pistol grip assembly houses the trigger, safety and electrical firing mechanism; open iron sights or optical day sight or infra-red night sight; bipod.
- overall length in the firing position is 1104 mm.
- overall length disassembled for transportation is 645 mm.
- average weight is 9.4 kgs.

Type

- man portable, short-range anti-tank/anti-personnel weapon.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- single-shot, preloaded, disposable rocket launcher.
Serial Number	- serial-numbered on the launch tube, along with lot and date numbers.
Barrel	- 950mm is the total length of the launcher, this includes the launch tube (barrel) and the cone-shaped venturi funnel.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the launcher.
- "RPG" is also known as "Rocket Propelled Grenade" launcher.
- "RPG" is derived from the Russian "ruchny protivotankovy granatomyot"/"lightweight anti-tank grenade-launcher".
- the "RPG-2" is an anti-tank/anti-personnel grenade launcher.
- the "RPG-2" was adopted by the Soviet Armed Forces circa 1949, based on the German Panzerfaust, but was itself superseded by the shorter, more effective RPG-7 in 1961.
- the "RPG-2" is a reloadable man portable, shoulder controlled & hand fired, muzzle loading, anti-tank/anti-personnel grenade launcher.
- the "RPG-2" is able to launch fin-stabilized rockets with oversize hollow-charge grenade warheads; these grenades are NOT interchangeable with the 40mm grenades fired from the RPG-7.
- features include: 40mm smooth bore tube; a single grip assembly with integral hammer/trigger, a thin, straight launcher tube (the RPG-7 has a tube with a larger middle section); percussion firing mechanism; and open iron sights.
- this launcher has also been copied by numerous other Eastern Bloc countries under their own designations.

Manufacturer

- the manufacturer or logo thereof is marked on the launcher.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- percussion fired with a positive indexed round.
Serial Number	- numbered on the launch tube.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model is marked on the launcher in Cyrillic, resembling "Pnr-22"; "RPG-22" stands for "Ruchnoy Protivotankovy Granatemot - 22", or "Light Anti-tank Grenade launcher - 22".
- in Russian service, this launcher is colloquially known as the "Netto", meaning "Net".
- this is an upgraded RPG-18 launcher (itself a Russian copy of the US M72 single-shot disposable rocket launcher), made to give infantry a lightweight anti-tank weapon that can easily be transported and carried without the need for electronic aiming or guidance systems; this launcher has an effective range of 200 metres.
- this launcher fires a rocket with a larger diameter and greater penetration than its predecessor.
- this launcher is constructed of two telescoping aluminium and fibreglass tubes, that are pulled apart and locked into position to arm and fire the launcher; extending the launcher into its firing position also raises the integral sight bars. Once the launcher is extended, it MUST be fired, as it remains armed, and the launch tube is discarded after firing.
- features include: matte olive colour with a label showing aiming and firing instructions in Cyrillic and pictographs; a raised rail along the top of the forward tube that contains the folded sight bars and the arming/cocking mechanism; and aluminium or rubber covers for the ends of the launch tube to protect the missile from dust and moisture during transport.
- overall length of 785mm during transport, and 850mm in armed/firing/fired condition.

Manufacturer

- the manufacturer, logo, or factory code is marked on the launcher.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- single-shot, preloaded, disposable rocket launcher.
Serial Number	- serial-numbered on the launch tube, along with lot and date numbers.

- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the launcher.
- this is a single-shot disposable rocket launcher somewhat resembling an enlarged version of the US M72 or Russian RPG-26 launcher, with a 105mm rocket to provide deeper armour penetration against heavily-armoured targets; further, the rocket is fitted with a tandem warhead to defeat explosive or reactive armour, where the initial warhead detonates the armour, and the following warhead detonates against the underlying armour to fire a shaped-charge through the armour.
- features include: matte olive-drab fibreglass launch tube; pre-scored muzzle and rear caps; folding front and rear sights (raising the rear sight arms the launcher); and a fire button on a rail to the rear of the rear sight.
- this launcher has also been produced with a 125mm rocket projectile, with even greater armour penetration ability, as the "RPG-28 Klyukva".

Manufacturer

- the manufacturer, logo, or factory identifier is marked on the launch tube.

Action

- single-shot disposable rocket launcher.

Serial Number

- serial-numbered on the launch tube, with lot and manufacturer dates.

- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the launcher.
- this is a reloadable rocket launcher somewhat resembling the Israeli B-300 launcher, with a 105mm rocket to provide deeper armour penetration against heavily-armoured targets; further, the rocket is fitted with a tandem warhead to defeat explosive or reactive armour, where the initial warhead detonates the armour, and the following warhead detonates against the underlying armour to fire a shaped-charge through the armour.
- features include: matte olive-drab two-piece launch tube that is taken down into two pieces for transport or for reloading; a pistol-grip with trigger at the balance point; detachable optical sight; a foldable bipod, and this launcher may also be fired from the shoulder or from a light tripod mount..

Manufacturer

- the manufacturer, logo, or factory identifier is marked on the launch tube.

Action

- reloadable rocket-launcher.

Serial Number

- serial-numbered on the launch tube.

FRT Report

Firearm Reference Number (FRN): 148702
Make: Rocket Launcher
Model: RPG-7

Summary

Make:	Rocket Launcher
Model:	RPG-7
Manufacturer:	Airtronic
Level:	Manufacturer Specifications and Commercial Customization
Type:	Other
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148702 - 1	40MM RPG	1	950	Prohibited PFR, Part 1, para. 95(z.192)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- "RPG" is also known as "Rocket Propelled Grenade" launcher.
- "RPG" is derived from the Russian "ruchny protivotankovy granatomyot"/"lightweight anti-tank grenade-launcher".
- the "RPG" is an anti-tank/anti-personnel grenade launcher.
- the "RPG" was adopted by the Soviet Armed Forces circa 1961.
- the "RPG-7" is a reloadable man portable, shoulder controlled & hand fired, muzzle loading, anti-tank/anti-personnel grenade launcher.
- the "RPG-7" is able to launch a variety of fin-stabilized rockets with oversize grenade warheads.
- features include: 40mm smooth bore tube; two grip assemblies, an M4 Carbine-style stock assembly mounted below the launcher tube; front assembly houses the trigger mechanism; percussion firing mechanism; open iron sight, range finding optical day sight, infra-red night sight or image intensifier night sight.
- this model is also available with a training insert that fires calibre 7.62X39 RUSSIAN Calibre ammunition. The insert looks like the rocket propelled grenade, but is in fact a rifled barrel and breech block/striker mechanism.
- Airtronics began manufacturing several US versions of the RPG in order to make use of the large stocks of 40mm RPG grenades encountered on the modern battlefield.

Manufacturer

- Airtronic (Airtronic Services, Incorporated / Airtronic USA, Incorporated) is located in Elk Grove Village, Illinois, U.S.A.
- Airtronic is an engineering design and manufacturing company.
- Airtronic was founded in 1990 and incorporated in 1993.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- percussion fired with a positive indexed round.
Serial Number	- numbered on the launcher.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc.).

Model

- "RPG" is also known as "Rocket Propelled Grenade" launcher.
- the "RPG" is an anti-tank/anti-personnel grenade launcher.
- the "RPG" was adopted by the Soviet Armed Forces circa 1961.
- "RPG" in Cyrillic characters may be marked on the side of the trigger/firing mechanism, e.g. "pnr".
- the "RPG-7" is a reloadable man portable, shoulder controlled & hand fired, muzzle loading, anti-tank/anti-personnel grenade launcher.
- the "RPG-7" is able to launch a variety of fin-stabilized rockets with oversize grenade warheads.
- features include: 40mm smooth bore tube; two grip assemblies, front assembly houses the trigger mechanism; percussion firing mechanism; open iron sight, range finding optical day sight, infra-red night sight or image intensifier night sight.
- this model is also available with a training insert that fires calibre 7.62X39 RUSSIAN Calibre ammunition. The insert looks like the rocket propelled grenade, but is in fact a rifled barrel and breech block/striker mechanism.
- the "PRG-7" has been manufactured in Russia, Bulgaria, China, Iran, Iraq, Romania, and Pakistan.

Type

- man portable, short-range anti-tank/anti-personnel weapon.

Action

- percussion fired with a positive indexed round.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- observed serial numbers consisted of non-Roman Alphabet characters and Arabic numerals.
Barrel	- 950mm is the total length of the launcher, this includes the launch tube (barrel) and the cone-shaped venturi funnel.
Calibre	- fin stabilized rocket propelled grenade. - the High Explosive Anti-Tank (HEAT) shaped charge and High Explosive (HE) warhead diameter have varied over the years from 40mm to 85mm.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc.).

Model

- "RPG" is also known as "Rocket Propelled Grenade".
- the "RPG" is an anti-tank/anti-personnel grenade launcher.
- the "RPG" was adopted by the Soviet Armed Forces circa 1961.
- the "RPG-7" is a man portable, shoulder controlled & fired, muzzle loading, anti-tank/anti-personnel grenade launcher.
- the "RPG-7 Trainer" is a training insert that fires 7.62X39 RUSSIAN calibre ammunition. The insert looks like the rocket propelled grenade, but is in fact a rifled barrel with a breech block/striker mechanism.
- overall length of trainer is 880 mm.
- the "RPG-7" has been manufactured in Russia, Bulgaria, China, Iran, Iraq, Romania, and Pakistan.

Type

- man portable, short-range anti-tank/anti-personnel weapon.

Canadian Law Comments

- this model of Sub-Calibre Device meets the definition of "firearm" in the Criminal Code of Canada S. 2.

- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- introduced in the 1970s.
- "RPG-75" Light Anti-Armour Weapon (LAW) is a lightweight, compact, preloaded, disposable, percussion fired, shoulder controlled, single person served anti-armour weapon.
- features include: barrel consists of a pair of telescoping alloy tubes, an outer tube and an inner tube; trigger, safety and firing mechanism are mounted on the top side; folding sights.
- to fire, the user extends the telescoping tube, which automatically cocks the launcher and erects the simple sights.
- overall length in the carrying configuration is from 630 mm and when extended and ready to fire is 890 mm and overall weight is 3.2 kgs.

Type

- this is a lightweight, compact, preloaded, disposable, percussion fired, shoulder controlled, single person served anti-armour weapon.

Canadian Law Comments

- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Model

- "RPG-75" was introduced in the 1970s.
- "RPG-75" Light Anti-Armour Weapon (LAW) is a lightweight, compact, preloaded, disposable, percussion fired, shoulder controlled, single person served anti-armour weapon.
- "RPG-75 Trainer" is a sub-calibre adaptation of the 68mm RPG-75 and fires calibre 7.62X39 RUSSIAN calibre ammunition. The trainer looks like the rocket propelled grenade, but is in fact a rifled barrel with a breech block/striker mechanism.
- overall length in the firing position is 890 mm.

Type

- this is a lightweight, compact, preloaded, disposable, percussion fired, shoulder controlled, single person served anti-armour weapon.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- the RPG-75 Light Anti-Armour Weapon (LAW) meets the definition of "firearm" in the Criminal Code of Canada S. 2.
- there are Federal Acts other than the Criminal Code which apply to these items such as the provisions of the Controlled Goods Act and the Defence Production Act.
- Natural Resources Canada has a vested interest in the natures of ammunition employed by these recoilless weapons, which fall under the ambit of the Explosives Act.

NOTE 1:
- the RPG-75 Light Anti-Armour Weapon (LAW) when fired equals scrap.
- once the RPG-75 has been discharged it is not re-usable, short of factory re-manufacture which requires more than just reloading the tube with a new rocket.
- the RPG-75 Light Anti-Armour Weapon (LAW) when fired equals scrap.

NOTE 2:
- some RPG-75 Light Anti-Armour Weapon (LAW) were remanufactured to fire sub-calibre munitions for training purposes and in this configuration meets the definition of "firearm" in the Criminal Code of Canada S. 2.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model is marked on the launcher as "PG-76".
- this is a single-shot disposable rocket launcher (using the 40mm rocket-boosted projectiles for the RPG-7) designed as part of a joint Polish/Bulgarian project during the 1970s. This launcher was intended to give infantry a light and cheap method of defence against close-range tanks and armoured-fighting vehicles, by using the standard 40mm RPG projectiles in a disposable tube launcher. The result is a remarkably flimsy-looking launcher that has proven effective against vehicles and fortifications. This launcher has also been nicknamed the "Komar"/"Mosquito", apparently because of its less than intimidating appearance.
- features include: matte olive drab painted finish, with pre-loaded 40mm warhead on an RPG projectile booster assembly; folding open sights with pre-set range apertures; cartoon directions for use on a label on the side of the launcher; and an over-folding tubular buttstock that simultaneously raises the rear sight, arms the launcher, and drops the trigger when activated..

Manufacturer

- the manufacturer may or may not be marked on the launcher.

Action

- muzzle loaded single-shot launcher.

Serial Number

- may bear lot or serial numbers.

Notes

Make

- "Rocket Launcher" is a device designed to aim and launch a rocket.
- "Rocket Launcher" as a make is being used to describe a guiding tube weapon for a self propelled rocket. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant.
- "Rocket Launcher" may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- "Rocket Launcher" may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- "RPG-7B" is marked on the left side of the trigger mechanism.
- "RPG-7B" may be marked in Cyrillic characters, i.e. "pnr-7B".
- "RPG-7B" stands for "Ruchnoy Protivotankovy Granatomyot", "Rocket Propelled Grenade" launcher model "7B".
- "RPG-7B" trigger mechanism assembly can be use on other "RPG" models.
- "RPG-7B" is an anti-tank/anti-personnel grenade launcher.
- "RPG-7B" is a muzzle loading, reloadable, man portable, shoulder controlled, hand fired and recoilless grenade launcher.
- "RPG-7B" is able to launch a variety of fins-stabilized rockets with oversize grenade warheads.
- "PRG-7" types are also been manufactured in Russia, China, Iran, Iraq, Romania, and Pakistan.
- features include: 40mm smooth bore tube with a larger diameter centre portion and cone shaped back end; top mounted, folding front and rear sight; two grip assemblies with the front assembly housing the trigger mechanism; optical sight mount on the left side of the tube; wooden or synthetic grip panels and heat shield surrounding the tube from behind the second grip to the rear cone shape of the tube; blue finish with reddish stain wood.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Bulgarian State Arsenal, Factory 10" is identified by a "10" in a double circle logo. - "Bulgarian State Arsenal" logo may be marked on the left side of the receiver/frame. - "Bulgarian Artillery Arsenal" was originally established in Rousse, Bulgaria circa 1878 for the Bulgarian Army. - "Artillery Arsenal" was transferred to Sofia and became the "Sofia Artillery Arsenal" in 1891. - "Sofia Artillery Arsenal" was moved to Kazanlak in 1924 and became the "State Military Factory". - "State Military Factory" in Kazanlak, Bulgaria was given the code name "Factory 10" in 1948. - "Factory 10" started production of assault rifles circa 1958. - "Factory 10" was renamed the "United Industrial Plant Friedrich Engles" circa 1964. - "United Industrial Plant Friedrich Engles" was known as "F. Engles Machine Building Plant" from 1977 to 1987. - "Arsenal/Arsenal Limited/Arsenal JSCo/Arsenal 2000 JSCo" was established in 1987. - "Arsenal 2000 JSCo "also uses the logo of a "10" in a double circle. - "Arsenal 2000 JSCo "was privatized in 2011. - serial number of a short barrel rifle variant in limited edition was from AG 04 0001 to AG 04 0026.
Type	- man portable, short-range anti-tank/anti-personnel weapon.
Action	- muzzle loaded, percussion fired.
Serial Number	- serial number is marked on the left side of the trigger mechanism. - serial number of a referenced example consisted of a two letter prefix, a dash, two numbers, a dash, and three numbers.
Calibre	- fin stabilized rocket propelled grenade. - the High Explosive Anti-Tank (HEAT) shaped charge and High Explosive (HE) warhead diameter have varied over the years from 40mm to 106mm.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the launcher; where marked, it may only be marked in Hebrew.
- this is an Israeli-developed rocket launcher based in large part on the Swedish AT4, but with a detachable optical range-finding sight, allowing improved hit capability at ranges up to 600 metres. This launcher is also seen with a variety of pre-loaded warheads, which have improved armour penetration against reactive armour, or which can be used as an anti-personnel weapon against infantry.
- features include: matte olive drab painted finish; tubular layout with octagonal end-caps, and a top-mounted detachable monocular aiming/range-finding unit that is removed after firing so it may be attached to a new pre-loaded launcher tube.

Manufacturer

- the manufacturer or code thereof is marked on the launch tube.

Action

- single-shot disposable rocket launcher.

Serial Number

- serial-numbered on the launch tube, with lot and date codes.

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the launcher; "Type 2004" denotes the year of adoption (2004).
- this is a Chinese-manufactured copy of the Russian RPG-7D launcher, adopted as a replacement for the Type 69 launcher, itself a copy of the Russian RPG-7
- "RPG" is also known as "Rocket Propelled Grenade" launcher.
- "RPG" is derived from the Russian "ruchny protivotankovy granatomyot"/"lightweight anti-tank grenade-launcher".
- the "Type 2004" is an anti-tank/anti-personnel grenade launcher.
- the "Type 2004" is a reloadable man portable, shoulder controlled & hand fired, muzzle loading, anti-tank/anti-personnel grenade launcher.
- the "Type 2004" is able to launch fin-stabilized rockets with oversize hollow-charge grenade warheads.
- features include: 40mm smooth bore tube; a single grip assembly with integral hammer/trigger, a folding bipod attached forward of the firing grip; a carry handle on the top of the launcher tube; a launcher tube with a bulged middle section having two locking rings so the launcher can be disassembled for carry/transport/vehicle or air operations; percussion firing mechanism; and open iron sights with detachable optical sights.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- percussion fired with a positive indexed round.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial numbered on the launch tube or pistol-grip.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the launcher.
- "RPG" is also known as "Rocket Propelled Grenade" launcher.
- "RPG" is derived from the Russian "ruchny protivotankovy granatomyot"/"lightweight anti-tank grenade-launcher".
- the "Type 56" is an anti-tank/anti-personnel grenade launcher, copied from the Russian RPG-2, and manufactured by China beginning in 1956.
- the "RPG-2" was adopted by the Soviet Armed Forces circa 1949, based on the German Panzerfaust, but was itself superseded by the shorter, more effective RPG-7 in 1961; the Chinese version of the RPG-7, the Type 69, entered Chinese service in 1970.
- the "Type 56" is a reloadable man portable, shoulder controlled & hand fired, muzzle loading, anti-tank/anti-personnel grenade launcher.
- the "Type 56" is able to launch fin-stabilized rockets with oversize hollow-charge grenade warheads; these grenades are NOT interchangeable with the 40mm grenades fired from the RPG-7.
- features include: 40mm smooth bore tube; a single grip assembly with integral hammer/trigger, a thin, straight launcher tube (the RPG-7 has a tube with a larger middle section); percussion firing mechanism; and open iron sights.
- this launcher has also been copied by numerous other Eastern Bloc countries under their own designations.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- percussion fired with a positive indexed round.
Serial Number	- numbered on the launch tube.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

FRT Report

Firearm Reference Number (FRN): 148708
Make: Rocket Launcher
Model: Type 69 RPG

Summary

Make:	Rocket Launcher
Model:	Type 69 RPG
Manufacturer:	Chinese State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Other
Action:	Single-Shot
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148708 - 1	40MM RPG	1	950	Prohibited PFR, Part 1, para. 95(z.204)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the launcher; "Type 69" denotes the year of adoption (1969).
- this is a Chinese-manufactured copy of the Russian RPG-7 launcher, adopted as a replacement for the Type 56 launcher, itself a copy of the Russian RPG-2
- "RPG" is also known as "Rocket Propelled Grenade" launcher.
- "RPG" is derived from the Russian "ruchny protivotankovy granatomyot"/"lightweight anti-tank grenade-launcher".
- the "Type 69" is an anti-tank/anti-personnel grenade launcher.
- the "Type 69" is a reloadable man portable, shoulder controlled & hand fired, muzzle loading, anti-tank/anti-personnel grenade launcher.
- the "Type 69" is able to launch fin-stabilized rockets with oversize hollow-charge grenade warheads.
- features include: 40mm smooth bore tube; a single grip assembly with integral hammer/trigger, a folding bipod attached forward of the firing grip; a launcher tube with a bulged middle section (the earlier RPG-2/Type 56 had a straight outer profile); percussion firing mechanism; and open iron sights with detachable optical sights.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- percussion fired with a positive indexed round.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial numbered on the launch tube or pistol-grip.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

148837 - 1	70MM ROCKET	1	800	Prohibited PFR, Part 1, para. 95(z.21)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Rocket Launcher" as a make is being used to describe a guide tube or pressure tube weapon. The tube/barrel is used to aim/guide the rocket during the initial firing sequence.
- a Rocket is a missile or other projectile propelled by hot gases ejected rearward by a motor or burning charge. The Rocket motor/engine is moved forward by ejecting a stream of hot gases to the rear though a nozzle. Rockets carry their own solid or liquid propellant which contains an oxidizer which makes it independent of the atmosphere in which they operate.
- a Rocket Launcher is a device designed to aim and launch a rocket.
- a Rocket Launcher may be designed to utilize rails, posts, tubes or other mechanisms to carry and guide the rocket.
- a Rocket Launcher may be installed on a wheeled mount, vehicle, aircraft, water craft or may be man-portable (Bazooka, RPG, etc).

Model

- the model may or may not be marked on the launcher.
- this is a disposable rocket-launcher designed in the late 1980s as a lightweight anti-tank weapon that could replace the earlier APILAS launcher, without the heavy backblast of the APILAS.
- this launcher is built with a fibreglass launch tube having styrofoam end caps, and a sight/launch controller built into the mid-point and protected by styrofoam guards.
- in order to reduce the recoil of firing, the launcher ejects a mass of lightweight plastic particles from the rear of the launcher on firing, balancing out the mass of the rocket.
- a licenced copy of this launcher is also manufactured in Greece by EBO.

Manufacturer

- the manufacturer or logo thereof is marked on the launcher.

Action

- pre-loaded launch tube that is disposed of after firing.

Serial Number

- numbered on the launch tube.

- "R.B. RODDA" over "CALCUTTA" and "R.B. RODDA & CO" over "2 WELLESLEY PLACE CALCUTTA & BIRMINGHAM" was observed marked on the barrel.

- "R.B. Rodda" was originally founded as "Brown & Rodda" at 36 Piccadilly, London, England from 1846 to 1847.
- "R.B. Rodda & Company" had facilities in London, Birmingham, and Warwickshire, England and Calcutta, India from circa 1850 to 1955.

Model

- "THE BRITISH" over "BULL DOG" was observed marked on the top strap of the receiver/frame.
- "WEBLEY'S" over "No 2" was observed marked on the left side of the receiver/frame.
- features include: fixed front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with non-fluted cylinder; hinged loading gate on the right side of the receiver/frame; swing-out case ejector rod stored within the cylinder axis rod; exposed spur hammer; double/single action trigger mechanism; bird's head grip strap with a lanyard ring; checkered wood grip plates.

Manufacturer

- "WEBLEY'S" was observed marked on the front left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the left side of the receiver/frame.

Serial Number

- serial number is marked on the left front side of the receiver/frame.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "R.B. RODDA" over "CALCUTTA" or "R.B. RODDA & CO" over "2 WELLESLEY PLACE CALCUTTA & BIRMINGHAM" is usually marked on the barrel or top strap.
- "R.B. Rodda & Co" was a retailing, exporting business.
- "R.B. Rodda" was originally founded as "Brown & Rodda" at 36 Piccadilly, London, England from 1846 to 1847.
- "R.B. Rodda & Co" was located on Stafford Street, Birmingham, circa 1900.
- "R.B. Rodda & Co" was located at 10 Vesey Street, Birmingham, circa 1935.
- "R.B. Rodda & Co" was located at 17a Steelhouse Lane, Birmingham, circa 1940
- "R.B. Rodda & Company" had facilities in London, Birmingham, and Warwickshire, England and Calcutta, India from circa 1850 to 1955.

Model

- "R.I.C." and "No 1" are marked on the left side of the receiver/frame.
- "RIC" stands for "Royal Irish Constabulary".
- "R.I.C." production by Webley began in 1867, with orders filled as late as 1913.
- "RIC No 1" is a solid top receiver/frame revolver.
- "RIC No 1" is loaded and unloaded through a spring loaded gate on the right side of the receiver/frame.
- "RIC No 1" ejector rod pivoted on the barrel on early models and on the frame of later models.
- "RIC No 1" first pattern had four screws with the second pattern having three screws on the left side of the receiver/frame.
- some models will have a fluted cylinder, on early models this was only on the large calibres, on later models, sometimes known as the RIC No1 New Model (that is so marked) the cylinder was fluted for most calibres.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "WEBLEY'S" is marked on the left side of the receiver/frame.
- "P. Webley & Son trademark logo of a "Winged Bullet" over "W&S" is also marked on the left side of the receiver/frame.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of five numbers.

Calibre

- the calibre is marked on the left side of the receiver/frame.
- calibre may be marked in English or the Metric designation.

Firearm Reference Number (FRN): 36501
Make: Rodgers Machine Gun
Model: Interchangeable 1901

Summary

Make:	Rodgers Machine Gun
Model:	Interchangeable 1901
Manufacturer:	Simonis, Janssen & Dumoulin (SJ&D)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
36501 - 1	12 GA X 2 3/4"	2	609	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "RODGERS MACHINE GUN" was observed marked on the left side of the receiver/frame.
- "RODGERS" was a trade name registered in Belgium by W.E. Belknap & Company.
- "MACHINE GUN" was a trade name used by Simonis, Janssen & Dumoulin.
- "Rodgers Machine Gun" was meant to show that this firearm was produced with interchangeable parts.

Model

- "THE INTERCHANGEABLE" and "1901 MODEL" were observed marked on the right side of the receiver/frame.
- this is an exposed hammer, side by side shotgun with a pistol grip stock.
- this was a gun made in Belgium for sale in England or North America, at the beginning of the Industrial Revolution, when the mass production of identical parts made large scale production possible.

Manufacturer

- manufacturer's name is not usually marked on the firearm.
- "S.J.&D" may be marked on the watertable.

Action

- side by side pattern.

Serial Number

- it is unknown if these left the factory serial numbered, but the example seen has a four-digit number stamped on the water table.

Other Markings

- "TWIST BELGIUM" marked on barrel rib.

Notes

Make

- "James Rodgers" or "James" over "Rodgers" over "Sheffield" may be marked on the side of the barrel or on the side of the knife blade at the base.

Model

- model designation is not marked on the firearm.
- P. Unwin, J. Unwin and J. U. Askham were granted patent number 2801 on November 15, 1860 for a pistol with a pocket knife, dagger or bayonet.
- this is a generic entry for those "James Rodgers" Knife Pistols that are not identifiable as to a model.
- features may include: a folding single action trigger mechanism; a steel or nickel finished receiver/frame with a round or octagonal barrel along the top and a folding knife or knives below; spurred hammer; and may have horn slab or wooden grip panels.
- some Unwin & Rodgers Knife Pistols are known to have a removable bullet mold and rammer within the butt of the receiver/frame.

Manufacturer

- James Rodgers succeeded Unwin & Rogers, circa 1868.
- James Rodgers was located in Sheffield, England.
- Philip Unwin and James Rodgers manufactured firearms in Sheffield, Yorkshire, England from 1827 to 1868.
- Unwin & Rodgers was known for manufacturing knife pistols.
- Unwin & Rodgers manufactured firearms from the following address: 9 Charles Street in 1827, 23 Burgess Street in 1840, and 124 Rockingham from 1862 to 1868.

Action

- muzzle loading.

Serial Number

- the firearm may not have a serial number.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - the calibre may not be marked on the firearm.

Notes

Make

- "J.RODGERS & SONS" is marked on the side of the lock assembly.

Model

- the model is not marked on the firearm.
- made circa 1870.
- this is an unusual form of percussion pocket pistol fitted with two barrels that rotate around a central horizontal axis to bring each nipple into line with the hammer; this was designed to allow two fast shots from a single pistol.
- features include: over/under barrel arrangement, that twists on a single short pin out the front of the receiver; exposed nipples with the lower nipple protected with a curved guard extending from the bottom of the receiver; manually-cocked, centrally mounted hammer; hammer lock safety; folding trigger; square-profile receiver with sideplate; walnut "bag"-shaped grip.

Action

- rotating barrel design.

Notes

Make

- "RODIER PAT. SEP. 15 74" is marked on the barrel.

Model

- "RODIER PAT. SEP. 15 74" is marked on the barrel.
- this is a small "noisemaker"-style single-shot pistol manufactured by Rodier during the mid-1870s, in preparation for the centenary of the US Revolution.
- features include: blued finish; iron construction; round barrel; flat-sided frame; a hammer/breechblock with a vertical thumb spur; a spur trigger; and walnut grips on a bird's-head grip frame.

Manufacturer

- "RODIER PAT. SEP. 15 74" is marked on the barrel.
- Louis C. Rodier was a gunsmith/inventor in Springfield, Massachusetts during the mid-1870s, who designed a "noisemaker"-type single-shot pistol.

Action

- Flobert-type design, face of the hammer simultaneously fires the cartridge and sealing off the chamber.

Firearm Reference Number (FRN): 122579
Make: Rohm
Model: High Noon

Summary

Make:	Rohm
Model:	High Noon
Manufacturer:	Rohm
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122579 - 1	22 LR	6	114	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ROHM", "ROHM GER", "ROHM GMBH SONTHEIM/BRZ.", "ROHM GMBH SONTHEIM/BRENZ", "ROHM GMBH SONTHEIM/BRENZ" may be marked on the barrel or receiver/frame.
- the Rohm logo of an "R" inside a football shaped oval is usually marked on the left grip strap.
- "MADE IN GERMANY" may be marked on the barrel or receiver/frame.
- "ROHM" and/or "RG" inside a circle may be marked on the grip plates.
- "RG" is the abbreviation for Rohm GmbH, a manufacturer located in Sontheim an der Brenz, Germany.
- "RG" was also used by "RG Industries" of Miami, Florida, U.S.A. on firearms manufactured under a patent from Rohm Gmbh of Germany.

Model

- "ROHM - HIGH NOON" was marked on the left side of the receiver/frame.
- this model visually resembles the Colt produced 1873 Single Action Army.
- features include: blued finish, wood grip panels; single action trigger mechanism; ejector rod mounted on the right side of the barrel; ramp front sight with a windage adjustable, blade rear sight.

Serial Number

- sample examined used sequential numbers marked on the bottom of the butt.

Calibre

- sample examined was simply marked "Cal. .22" on the left side of the receiver/frame.

Importer

- "RG Industries" was a manufacturer and importer of "Rohm" type firearms, the company was established in 1972 and ceased operations in 1986.
- markings will usually be found on the barrel and or receiver/frame. The grip panels may also have "RG" medallions inlet into the tops.

Other Markings

- the importers name and address "RG IND." and "MIAMI FLA." are marked on the right side of the receiver/frame.

Notes

Make

- "ROHM", "ROHM GER", "ROHM GMBH SONTHEIM/BRZ.", "ROHM GMBH SONTHEIM/BRENZ", "ROHM GMBH SONTHEIM/BRENZ" may be marked on the barrel or receiver/frame.
- the Rohm logo of an "R" inside a football shaped oval is usually marked on the left grip strap.
- "MADE IN GERMANY" may be marked on the barrel or receiver/frame.
- "ROHM" and/or "RG" inside a circle may be marked on the grip plates.
- "RG" is the abbreviation for Rohm GmbH, a manufacturer located in Sontheim an der Brenz, Germany.
- "RG" was also used by "RG Industries" of Miami, Florida, U.S.A. on firearms manufactured under a patent from Rohm Gmbh of Germany.

Model

- the model designation was marked on the barrel rib on the sample examined. This model is typical of the over/under, tip up barrel design commonly referred to as a "derringer".
- features include: black overall finish with ivory coloured plastic grips; spur trigger, single action only mechanism; integral blade front sight with a notch in the barrel pivot for a rear sight; barrel release lever mounted on the right side of the receiver/frame; manual extractor mounted on the left side of the barrel assembly.

Action

- over & under barrel configuration, hinged barrel design.

Serial Number

- numbered on the receiver/frame and underside of the barrel assembly.

Calibre

- calibre designation was marked as "38 SPECIAL" on the barrel assembly of the sample examined.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - receiver/frame and barrels will usually bear German proof marks.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
176103 - 1	22 LR	1	160	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make	- "Rohm" and Rohm's "RG" trademark are marked on the firearm.
Model	- "Mustang" is marked on the left side of the barrel. - this is a Rohm revolver made as a single-shot firearm in order to comply with Swedish hunting regulations; this conversion involves replacing the normal six-shot cylinder with a single-shot cylinder with an extractor star. The hand on this firearm is removed, so the cylinder does not rotate when the trigger is squeezed. - features include: blued finish; open adjustable sights; flat sighting rib; single-shot cylinder opened with a revolver-style latch; synthetic finger-grooved grips.
Manufacturer	- "Rohm" and Rohm's "RG" trademark are marked on the firearm.
Action	- this is a handgun using a revolver receiver/frame that has been converted to single-shot by way of a cylinder that only has a single chamber.
Serial Number	- serial-numbered on the receiver/frame.

Notes

Make

- "ROHM", "ROHM GER", "ROHM GMBH SONTHEIM/BRZ.", "ROHM GMBH SONTHEIM/BRENZ", "ROHM GMBH SONTHEIM/BRENZ" may be marked on the barrel or receiver/frame.
- the Rohm logo of an "R" inside a football shaped oval is usually marked on the left grip strap.
- "MADE IN GERMANY" may be marked on the barrel or receiver/frame.
- "ROHM" and/or "RG" inside a circle may be marked on the grip plates.
- "RG" is the abbreviation for Rohm GmbH, a manufacturer located in Sontheim an der Brenz, Germany.
- "RG" was also used by "RG Industries" of Miami, Florida, U.S.A. on firearms manufactured under a patent from Rohm Gmbh of Germany.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "RG10s" is normally marked on the left grip plate.
- the "RG10s" is a variant of the "RG10". The grip on the "RG10s" has a smooth curve from the hammer to the butt and a rounded trigger guard. The "RG10" had a small hump on the back of the grip and a square looking trigger guard.
- features normally include: double action, a solid receiver/frame with fixed sights, fluted cylinder, various styles of hammers, exposed cylinder pin under the barrel, and the grip frame will vary, the grips were usually plastic.
- these models may have one of the following cylinder designs. A cylinder with a loading gate on the right side of the receiver/frame only, or with a ejector rod located on the right side of the firearm.
- the finish on the firearm may be blued, nickeled, or a mixture of both.

Serial Number

- the serial number is normally marked on the left side of the receiver/frame in front of the cylinder as sequential numbers.
- serial numbers may have a two letter prefix of "AA", firearms manufactured before 1966 will not have a letter prefix.

Calibre

- the calibre is normally marked on the left side of the barrel.

Notes

Make

- make is not marked on the firearm.

Model

- model is marked on the firearm as "ORITA" Md. 1941".
- this is a submachine gun used by Romania during the Second World War that outwardly resembles the German MP-41 (the wooden stocked version of the MP-40); after World War Two, a modified version of this submachine gun (the Orita 1941/48) was put into production until the Romanian armed forces were supplied with Soviet designed firearms.
- the Orita 1941 can be distinguished from the Orita 1941/48 by its all wood stock (the 1941/48 has a wooden butt and side plates on a metal frame), by the presence of a cross bolt safety at the front of the trigger guard and by the presence of a large selector switch on the right side of the receiver/frame. The 1941/48 has an lever projecting out of the back of the trigger guard that acts as a safety (it locks the bolt open or closed unless it is depressed) and is in full automatic only.
- features include: wooden pistol grip stock, vertical magazine well, open adjustable sights and a fire selector switch on the right side of the receiver/frame.

Manufacturer

- manufacturer's designation is marked on firearm as the "CUGIR" arsenal.

Action

- selective fire.

Serial Number

- serial number is marked on the top of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Firearm Reference Number (FRN): 32826
Make: Romano Rifle Company
Model: Spencer 1860 Reproduction

Summary

Make:	Romano Rifle Company
Model:	Spencer 1860 Reproduction
Manufacturer:	Romano Rifle Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Lever Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
32826 - 1	56-50 SPENCER CF	7	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "L. ROMANO RIFLE CO." over "PENNEVILLE. NY" is marked on the receiver/frame.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of the "Spencer model 1860" carbine.
- Spencer model 1860 has a distinctly shaped operating lever and receiver/frame (the operating lever forms a large trigger-guard, and pivots around a pin in the bottom of a very large "hump" at the bottom of the receiver/frame).
- features include: blade front sight and an adjustable rear sight; round barrel; flat sided receiver/frame with a blade-type extractor on the left side of the chamber and a hammer mounted on a side-plate on the right side; walnut forearm with one barrel band and a straight grip buttstock with slightly curved butt plate; removable tubular magazine is located inside the buttstock; blued barrel, color case-hardened receiver/frame, hammer, operating lever and buttplate.
- overall length with a 508 mm (20") barrel is 940 mm (37"), and the average weight is from 4.1 kgs.

Manufacturer

- Romano Rifle Company is located at the Alamo Gun Shop in Pennellville, New York, U.S.A.
- Larry Romano is the President of Ramano Rifle Company.

Barrel

- six land and groove rifling as per original specifications.

Shots

- tubular magazine is mounted inside the buttstock.

Firearm Reference Number (FRN): 126243
Make: Romarm
Model: AES-10

Summary

Make:	Romarm
Model:	AES-10
Manufacturer:	Romarm
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	ROMANIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
126243 - 1	7.62X39 RUSSIAN	30	587	Prohibited PFR, Part 1, para. 64	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "ROMARM" is usually marked on the side of the firearm.
Model	- on an observed sample "AES-10" was marked on the side of the receiver/frame. - features include: matte blue finish; RPK-style buttstock and pistol grip with two-piece handguards; large safety catch on the right side of the receiver/frame; gas tube mounted above the barrel; folding bipod; adjustable leaf type rear sight with an elevated and protected post front sight; no muzzle brake/flash hider or bayonet lug; side scope mounts; folding carry handle. - overall length is 1054mm (41 1/2").
Manufacturer	- similar Kalashnikov type firearms made by Romarm and imported by Century International Arms have been noted with receiver/frame markings "MADE BY CN ROMARM SA/CUGIR" over "IN ROMANIA". - Cugir is a city in Romania.
Action	- gas operated.
Serial Number	- serial number is located on the side of the receiver/frame. - an observed example consisted of an "AS1" prefix ie. AS1- xxxxx-05. (it is believed that the last two numbers represent the year of manufacture ie. 05 = 2005).
Calibre	- "Cal.7.62X39mm" was observed marked on the side of the receiver/frame.
Shots	- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "C.A.I. GEORGIA VT. U.S.A." was marked on the side of the receiver/frame of an observed example.

Notes

Make

- the Romarm name will be marked on the firearm.

Model

- this model is based on the Kalashnikov, AK47 rifle design.
- the same basic model is available in calibre 7.62X39 RUSSIAN as the model SAR 1 and in calibre 5.45X39 RUSSIAN as the model SAR 2.
- a similar Kalashnikov, AK47 type rifle is also offered by Romarm as the model WASR-10 in calibre 7.62X39 RUSSIAN.
- features include: matte blued finish; AK47 style buttstock and pistol grip with two-piece handguards; large safety catch on the right side of the receiver/frame; gas tube mounted above the barrel; adjustable leaf type rear sight with an elevated and protected post front sight; no muzzle brake/flash hider or bayonet lug; cleaning rod mounted under the barrel; equipped with a scope mount attached to the left side of the receiver/frame.

Manufacturer

- similar Kalashnikov type firearms made by Romarm and imported by Century International Arms have been noted with receiver/frame markings "MADE BY CN ROMARM SA/CUGIR" over "IN ROMANIA".
- Cugir is a city in Romania where one of the Romarm concerns is located.

Action

- gas operated.

Serial Number

- marked on the receiver/frame, rationalization unknown.

Shots

- detachable box magazine, "double" column configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- the importer/distributor name will usually be marked on the firearm.
- Century International Arms (also known as Century Arms International or Century Arms) markings may appear as "CAI".

Type:	Handgun
Action:	Multi-Barrel
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
112935 - 2	38 SPL	2	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	
112935 - 1	38 SPL	2	86	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ROMO" is marked on the top of the upper barrel.
- ROMO is a tradename manufactured by Rohm Gesellshaft of Germany.

Model

- no model designation is marked on this firearm; the model designation is derived from the style of the handgun in that it is a copy of the original Remington two shot derringer which had an over/under barrel configuration.
- this handgun appears to be identical to the Rohm model RG17 derringer.
- features usually include;
- single action spur trigger with an exposed hammer centrally located at rear of standing breech,
- tip-up type break action with the barrels hinged at the top of the standing breech,
- an action release lever is located on the right side of the receiver/frame,
- a manual extractor is located between the barrels on the the left side of the firearm.
- bird's head grip.
- nickel plated or blued finish with plastic simulated ivory grip panels.
- German proofmarks are usually apparent on the barrels and/or receiver/frame of this firearm.

Manufacturer

- the Rohm logo of an "R" inside a football shaped oval is usually marked on the grip strap.

Action

- over and under pattern.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number
- the serial number is located on the left side of the receiver/frame.
- five digit serial numbers without prefix or suffix have been observed.

Calibre
- the calibre designation is marked on the left side of the upper barrel.

Notes

Model

- this is a semi-custom combination gun that combines a straight-pull breeching system for the top two barrels, with a tip-down breeching system for the lower barrel; the top two barrels have an unusual breeching system similar to the Darne sliding breech seen on Darne shotguns; when the shooter pulls up and back on the top lever, a bolt at the back of the standing breech is raised, and this simultaneously rotates two independent bolt-heads with three rows of three lugs each. As the standing breech is pulled back, the bolt-heads extract and eject empty cases out to the sides. The lower barrel is loaded by pivoting a lever on the side of the receiver/frame and "breaking" the gun open in the same way as a single-shot shotgun.
- features include: blued finish, double triggers, walnut Monte Carlo pistol-grip stock and forearm, and open sights or fitted with a scope mounting base.
- Ronceraye also manufactures a double rifle that uses the above "Darne" style breeching system.

Manufacturer

- Ronceraye is a French manufacturer based in Sainte Florence.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- hinged barrel design. - barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.
Serial Number	- serial number is marked on the receiver/frame.
Calibre	- for all of these combinations, the first calibre is the chambering for the UPPER two barrels while the second calibre/gauge is the chambering for the LOWER barrel.

Notes

Make

- "RONCHARD" over "CIZERON" was observed marked on the barrel flats.

Model

- model designation is not marked on the firearm.
- features observed: side by side barrels with solid rib and bead front sight; front hinged receiver/frame with top tang mounted break open lever; side locks with exposed side hammers; double triggers; checkered wood forearm and semi-pistol grip buttstock.

Manufacturer

- "RONCHARD" over "CIZERON" was observed marked on the barrel flats.
- "Ronchard-Cizeron" was located in Saint Etienne, France.
- "Ronchard-Cizeron" was founded by Joseph Ronchard-Cizeron circa 1840.
- "Ronchard-Cizeron", "Berthon Freres", "Francisque Darne", "Didier-Drevet" and "Gerest" formed a group known as "SIFRAM" which was absorbed by Verney-Carron in 1963.

Action

- side by side design.

Serial Number

- serial number has been observed marked on the barrel assembly.

Notes

Make

- Jean Baptise Ronge's logo of the outline of a "crown" over the letters "JB" over the letter "R" was observed marked on left side of the receiver/frame.
- "JBR" is the initials of Jean Baptise Ronge.

Model

- manufactured prior to 1933.
- "BELGIAN" over "BULLDOG" was observed marked on the top strap of the receiver/frame.
- features include: half moon front sight; ovate barrel; solid top receiver/frame with a removable fluted cylinder and right side swing-down loading gate; right side swing-out ejector rod is stored in the cylinder axis pin; exposed spur hammer; folding trigger; double/single action trigger mechanism; checkered wood bird's head grip.

Manufacturer

- Jean Baptise Ronge's logo of the outline of a "crown" over the letters "JB" over the letter "R" was observed marked on left side of the receiver/frame.
- "JBR" is the initials of Jean Baptise Ronge.
- stylized letters "JBR" within a circle may also be marked on the top of the grip plates.
- the grip plates may also bear a checkered pattern within a circle.

Serial Number

- serial number is marked on the right side of the receiver/frame, and last two digits are repeated on the back of the cylindre.
- example observed with four numbers without a lettre prefix or suffix.

Shots

- removable cylinder.

FRT Report

Firearm Reference Number (FRN): 130730
Make: Ronge
Model: Open Top Frame Double Action

Summary

Make:	Ronge
Model:	Open Top Frame Double Action
Manufacturer:	Ronge
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
130730 - 1	32 SHORT COLT	6	88	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "J.B." over "R" was observed marked on the left side of the receiver/frame.
- the letters "J.B." over "R" is the abbreviation for J.B. Ronge et Fils of Liege Belgium.
- J.B. Ronge Fils (Ronge & Fils / J.B. Ronge et Fils / Manufacture d/Armes J.B. Ronge Fils / Societe Fabriques d'Armes de Liege et J.B. Ronge & Fils) was in business from 1832 to 1929.

Model

- model designation is not marked on the firearm.
- this firearm resembles a Lefaucheux Pin-Fire Revolver.
- features observed: fixed sights; round barrel; open top receiver/frame with round unfluted cylinder and right side loading gate; exposed spur hammer; double/single action trigger mechanism; fold down trigger; plain wood grips.

Manufacturer

- "J.B." over "R" was observed marked on the left side of the receiver/frame.
- the letters "J.B." over "R" is the abbreviation for J.B. Ronge et Fils of Liege Belgium.

Serial Number

- serial number was observed marked on the right side of the receiver/frame.
- observed serial number consisted of four numbers without a letter prefix or suffix.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

117726 - 4	32 CF	6	63	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- may be found marked prominently on the receiver/frame or hidden under the grip panel as: a small four lobed Belgian crown above the letters "J.B." over "R", which represents J.B. Ronge et Fils, Liege Belgium.

Model

- model not marked on the firearm.
- notable feature is the ring trigger, instead of the normal guarded trigger, spur trigger, or folding trigger, found on other revolvers with otherwise similar features.
- characterized by a compact pocket size revolver, with a short round or octagonal barrel, often with rudimentary sights, bird's head or square hand-grips, exposed spurred hammer, double/single action trigger; many have a yoke mounted ejector that tucks away into the cylinder axis pin.

Manufacturer

- may be found marked on the receiver/frame or under the grip panel as: a small four lobed Belgian crown above the letters "J.B." over "R", which represents J.B. Ronge et Fils.
- the above marks are usually augmented by prominent Belgian proof, acceptance and inspection marks of the period.
- may or may not be marked with a marketing name of a retailer on the barrel or receiver/frame topstrap.

Serial Number

- serial number usually marked on the receiver/frame, either in a readily visible area or under the grip.

140224 - 2	38 S&W	5	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "J.B." over "R" is usually marked on the left side of the receiver/frame.
- the letters "J.B." over "R" is the abbreviation for J.B. Ronge et Fils of Liege Belgium.
- J.B. Ronge Fils (Ronge & Fils / J.B. Ronge et Fils / Manufacture d/Armes J.B. Ronge Fils / Societe Fabriques d'Armes de Liege et J.B. Ronge & Fils) was in business from 1832 to 1929.
- stylized letters "JBR" within a circle may also be marked on the top of the grip plates.
- the grip plates may also bear a checkered pattern within a circle.

Model

- no model name is marked on this firearm; the model designation is derived from the characteristics of the firearm.
- this firearm resembles a Smith & Wesson model "Top Break 32 No 1 1/2 Double Action" revolver; it is also virtually identical to the "Automatic Extractor Revolver Patent 86" as made by J.B.Ronge under the tradename of "General Fire Arms Manufactory".
- features include: fixed sights; round barrel with rib; front hinged receiver/frame with fluted cylinder; automatic ejection; lever-type break open release is located at the rear of the top strap; exposed spurred hammer; double/single action trigger mechanism; flat bottom grip strap with lanyard loop; checkered black hard rubber grip plates; blued or nickel plated finish.

Manufacturer

- the outline of a "crown" over the letters "JB" over the letter "R" are usually marked on left side of the receiver/frame.
- "JBR" is the initials of Jean Baptise Ronge.
- stylized letters "JBR" within a circle may also be marked on the top of the grip plates.
- the grip plates may also bear a checkered pattern within a circle.

Serial Number

- known example did not have a serial number.

25785 - 6	5.75MM VELO DOG SHORT	5	40	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- not marked on firearm.

Model

- the name "Velo Dog" is not marked on the firearm.
- the name was originated by Charles Francois Galand (Paris) in 1894 combining "velocipedist" (bicyclist) and "dog".
- originally intended for use by cyclists to dispatch/repell chasing dogs during the late eighteenth and early nineteenth century, when dog-rabies was a dreaded common disease.
- the term initially defined a compact stream-lined revolver, initially in 5.75mm (also known as 5.5mm) long centerfire, or the 6mm "Type Francaise" long rimfire cartridge.
- the "Velodog" customarily features a folding trigger, elongated cylinder (fluted or unfluted), 5 to 7 shots (or more), usually a shrouded or enclosed hammer, often a safety lever on the side or rear of the receiver/frame, most have a yoke mounted ejector that tucks away into the cylinder axis pin, bird's head or square hand-grips, round or octagon barrel (often with rudimentary sights).
- by 1900 the name evolved to define a small calibered compact self-defense revolver with similar features (usually chambered for a 22 rimfire cartridge), which became popular throughout Continental Europe.
- Do not confuse with the "Puppy" revolvers in .25 caliber / 6.35mm, or firearms with similar features of larger calibers (.320 / 7.65mm caliber or greater).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- may be found marked on the receiver/frame under the hand-grip panel as: a small four-lobed Belgian crown surmounting the letters "J.B." over "R". - the above marks are usually augmented by Belgian proof, acceptance, and inspection marks of the period. - often marked with the name of a retailer on the barrel or receiver/frame top-strap.
Serial Number	- number usually found on the receiver/frame, either in a readily visible area, or under the hand-grip.
Remarks	- in America, a firearm designed in the same era to dispatch/repell dogs was known as the "Bicycle Gun", usually a break-open single-shot pistol, usually designed to discharge a pistol cartridge with a single bullet or shot charge.

81893 - 5	16 GA X 2 7/16" ROPER	4	660	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ROPER REPEATING RIFLE CO" over "AMHERST, MASS." over "PATENTED APRIL 10. 1866" is usually marked on the firearm.

Model

- "ROPER REPEATING RIFLE CO" over "AMHERST, MASS." over "PATENTED APRIL 10. 1866" is usually marked on the firearm.
- model designation is not marked on the firearm.
- manufactured from 1867 to 1868.
- features include: round barrel; walnut stock.
- this firearm uses a reloadable steel cartridge which was used to form a tight gas seal. Insertion and removal from the chamber was performed from either a cylinder or a web carrier. Two types of reloadable, steel, rebated, rimless cartridges were used.

Manufacturer

- "ROPER REPEATING RIFLE CO" over "AMHERST, MASS." over "PATENTED APRIL 10. 1866" is usually marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- Roper cartridge system was essentially an auxiliary chamber which was loaded with propellant, wad and shot and ignited by a percussion cap. Two types of steel reloadable, rebated, rimless cartridges were used. The first model of cartridge case was primed with a percussion cap over a nipple at the rear of the case. The second model used a recess in the case into which a percussion cap/primer was pressed which had an internal percussion cap extractor which served as an anvil for the cap and was pierced with four flash holes.

Canadian Law Comments

- the Roper Revolving Shotgun, when utilizing the Roper designed cartridge system, qualifies as a Percussion Ignition firearm for all purposes of the Firearms Act.

Notes

Make

- "ROSCO ARMS CO." is normally marked on the left side of the barrel.
- "ROSCO" may be marked on the grips inside a circle.

Model

- "VEST POCKET" is normally marked on the grips within a circle.
- this model is based on the Rohm model RG-10.
- features normally include: double action, a solid receiver/frame with fixed sights, fluted cylinder, various styles of hammers, exposed cylinder pin under the barrel, and the grip frame will vary, the grips were usually plastic.
- these models may have one of the following cylinder designs. A cylinder with a loading gate on the right side of the receiver/frame only, or with a ejector rod located on the right side of the firearm.
- the finish on the firearm may be blued, nickeled, or a mixture of both.

Manufacturer

- the Rohm logo of an "R" inside a football shaped oval is usually marked on the grip strap.

Serial Number

- the serial number is normally marked on the left side of the receiver/frame in front of the cylinder as sequential numbers.
- the serial number may also be marked on left side of the barrel.

Calibre

- the calibre is normally marked on the left side of the barrel. Example "Cal. 22 short".

128975 - 1	360 NO 5	1	660	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "JAMES W. ROSIER" and "66 ELIZABETH ST MELBOURNE" was observed marked on the barrel.

Model

- "Rook Rifle" is not marked on the firearm.
- "Rook Rifle" model designation was used in the United Kingdom in refers to the intended purpose of a small, single shot, lightweight sporting rifle normally used for rabbit, crow, or vermin control.
- "Rook Rifle" was also known as a 'Garden Rifle', 'Rabbit Rifle', or 'Pest/Vermin Rifle'.
- "Rook Rifle" may be found with a number of different types of actions including but not limited to break open (hinged barrel design), falling block or Martini-type.
- Rook Rifles marked with "JAMES W. ROSIER" and "66 ELIZABETH ST MELBOURNE" were manufactured between 1870 and 1888.
- features observed: octagonal barrel with blade front sight and one standing and two folding rear leaf sights; front hinged receiver/frame with top tang mounted break open lever; side lock with exposed hammer; single action trigger mechanism; checkered wood forearm and pistol grip buttstock; engraved lock plate, receiver/frame and trigger guard.

Manufacturer

- "JAMES W. ROSIER" and "66 ELIZABETH ST MELBOURNE" was observed marked on the barrel.

Action

- hinged barrel design.

Calibre

- calibre may be marked on the barrel.

Notes

Make

- "ROSS RIFLE CO. QUEBEC CANADA" over "PATENTED 1903" is marked on the left side of the receiver/frame.

Model

- model designation is not marked on the firearm.
- approximately 9000 made from 1903 to early 1905.
- "Patented 1903" is marked on the left side of the receiver/frame.
- an initial order of 500 was made for the Department of Marine and Fisheries.
- features include: dovetailed post (early production) or sleeve-mounted hooded front sight and folding leaf or tangent rear sight mounted in front of the breech; right side mounted thumb pressed magazine follower depressor; hollowed bolt knob; sling swivels.
- due to the stiffness of the action and erratic cartridge feeding, design improvements were made in 1904 and incorporated in the 1905 MARK 2 model.
- a carbine version (660mm barrel) was made in 1904 for the Royal North West Mounted Police (marked "R.N.W.M.P." within an oval belt motif on the buttstock).
- the primary identifying features of the 1903 Mark 1 Ross are the presence of "Patented 1903" on the left side of the receiver/frame, and a magazine cut-off protruding through the right side of the stock just above the front of the trigger-guard.

Manufacturer

- "ROSS RIFLE CO. QUEBEC CANADA" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- straight pull bolt design.
Serial Number	- serial number range: A-1 to K-1000 and may be marked on the right side of the buttstock.
Shots	- internal box magazine.
Also Known As/Product Code	- the designation Ross MARK 1 Rifle is that given to the rifle by the Canadian government.
Other Markings	- model designation on left side of receiver, Quebec Arsenal brand on right side of buttstock

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2120 - 1	303 BRITISH	5	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "ROSS RIFLE CO. QUEBEC CANADA" is marked on the left side of the receiver/frame.
Model	- "1903" is marked on the left side of the receiver/frame and "R.N.W.M.P." within an oval belt motif is marked on the right rear of the buttstock. - this is a standard 1903 MARK 1 model that featured a barrel reduced from 711mm (28") to 660mm (26") and the removal of the bayonet lug to allow for a cavalry scabbard fit. - 1000 units issued from 1904 to 1907 and in service until 1912. - overall length is 1184mm (46 5/8"). - the primary identifying features of the 1903 RNWMP Ross are the presence of "Patented 1903" on the left side of the receiver/frame, a magazine cut-off protruding through the right side of the stock just above the front of the trigger-guard, and a barrel shortened to 660mm/26", which is not made to accept a bayonet.
Manufacturer	- "ROSS RIFLE CO. QUEBEC CANADA" is marked on the left side of the receiver/frame.
Action	- straight pull bolt design.
Serial Number	- located on the right side of the buttstock and incorporates the year of manufacture and the alphabet letter C.
Shots	- fixed box magazine.
Also Known As/Product Code	- the designation Ross MARK 1 Carbine is that given to the firearm by the Canadian government.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - model designation on left side of receiver, R.N.W.M.P. property stamp on right side of buttstock.

Remarks - Note legal requirement that the serial number be on the frame or receiver. This carbine was designed specifically for the R.N.W.M.P. and was withdrawn as unsatisfactory within two years of introduction. It had a standard Ross MARK 1 (1903) double locking lug straight pull action and the Harris controlled magazine platform box magazine. Muzzle extended 2" beyond the nosecap and there was no provision for a bayonet. R.N.W.M.P. property stamp located on the right side of the buttstock.

Notes

Make

- "ROSS RIFLE CO. QUEBEC CANADA 1905" and "PATENTED" are marked on the left side of the receiver/frame.

Model

- "ROSS RIFLE CO. QUEBEC CANADA 1905" and "PATENTED" are marked on the left side of the receiver/frame.
- this is a generic model and other models may better describe the firearm being observed.
- introduced in 1905 to correct problems with the 1903 model and went through 70 to 90 modifications up to circa 1912.
- as with the 1903, the 1905 model has a double locking lug straight pull action with the Harris controlled platform box magazine with external metal cartridge follower depressor.
- many of the changes and modifications were indicated by an asterisk (*) stamped on the right side of the buttstock beside the model designation.
- may be encountered with a wide assortment of sights, handguards and minor mechanical differences. Some 1905 models were manufactured for sale to target shooters and these lack the designation stampings on the right side of the buttstock.
- typical features include: sleeve mounted, hooded, front sight and flip, adjustable rear sight mounted in front of the breech; one piece, full wood stock with a semi-pistol grip; bayonet lug mounted on the nose cap; right side mounted thumb pressed magazine follower depressor; flush mounted internal box magazine (versus the external magazine housing on the 1910 model); sling swivels.

Manufacturer

- "ROSS RIFLE CO. QUEBEC CANADA" is marked on the left side of the receiver/frame.

Action

- straight pull bolt design.

Serial Number

- the serial number was applied to the wood butt-stock by the manufacturer (usually the right side) and incorporates the year of manufacture, prefix letter(s) and the military model nomenclature designation (Roman numeral two and one or more stars).

Shots

- fixed box magazine.

- "ROSS RIFLE CO. QUEBEC CANADA 1905" over "PATENTED" is marked on the left side of the receiver/frame.
- " II** " in Roman numerals may be marked on the right side of the buttstock.
- introduced circa 1905 as an improvement to the MARK 2* model and incorporated changes to the safety, removal of the cut-off mechanism, a wider barrel band and a longer nose cap.
- also offered in a civilian version that featured a Canada Tool & Specialty H-type rear bridge mounted aperture sight and a side mounted A.G.Parker model 9G sight. The bayonet lug was extended to meet military match regulations.
- the primary identifying features of the 1905 Mark 2** Ross are the ABSENCE of a hook-shaped magazine cut-off lever protruding through the front of the trigger-guard (the magazine cut-off was omitted for the Mk 2**), a longer (775mm) barrel with a wide barrel band, (usually) a sliding button safety on the bolt handle (rather than a rotating flag) and a sling swivel loop at the front of the trigger-guard, on the bottom of the flat floorplate; subsequent changes to the Mark 2 resulted in the Mark 2*** through the Mark 2*****, each with changes to the furniture, the magazine cut-off lever, the barrel length, or the sights.

Manufacturer

"ROSS RIFLE CO. QUEBEC CANADA 1905" is marked on the left side of the receiver/frame.

Action

- straight pull bolt design.

Serial Number

- serial number is usually marked over the date of manufacture on the right side of the buttstock.
- may include a letter prefix or suffix and up to five numbers.

Shots

- internal box magazine.

FRT Report

Firearm Reference Number (FRN): 2133
Make: Ross
Model: 1905 R Sporter

Summary

Make:	Ross
Model:	1905 R Sporter
Manufacturer:	Ross Rifle Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2133 - 1	303 BRITISH	5	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "ROSS RIFLE CO. QUEBEC CANADA 1905" and "PATENTED" are marked on the left side of the receiver/frame.
Model	- the model designation appears on the left side of the receiver as "1905".
Manufacturer	- manufacturer's name appears on the left side of the receiver/frame.
Action	- This rifle has a straight pull action.
Serial Number	- Appears on left side of chamber of the barrel, not all of these rifles are serial numbered.
Barrel	- Other barrel lengths are known to exist.
Calibre	- Some rifles marked with calibre designation 303 ROSS.
Other Markings	- Calibre designation locted on the chamber of the barrel.
Remarks	- Note the legal requirement that the serial number be on the frame or receiver. These rifles are factory made sporting rifles using the dual locking lug Model 1905 straight pull action. Unlike the Model 1905 M Sporter which is a factory "cut down" military rifle, the Model R features a sporter weight barrel with a "swell" at the rear sight dovetail for a commercial "buckhorn" adjustable open sight and the stock is purpose made with a sporting rifle configuration. Some variation in barrel lengths are possible.

Notes

Make

- "ROSS RIFLE COMPANY, CANADA" was observed marked on the receiver/frame.

Model

- "1912" is marked on the top of the receiver/frame.
- available as a Cadet Rifle or Sporter (Sporting Rifle).
- "ROSS RIFLE COMPANY, CANADA, 1912" and "PATENTED" were observed marked on the receiver/frame.
- designed and introduced in 1912.
- manufactured from 1912 to 1917.
- this was available as full stocked training rifle manufactured for the use of the Canadian Army Cadet Corps and as a half stocked sporting version.
- the 1912 is a diminutive single shot 22 calibre rifle with a straight pull action approximating the action of the full size Ross military rifles.
- features include: one piece semi-pistol grip stock with full length forend and sleeve like nosecap with a bayonet lug (cadet version), half stock on the sporting version; front sight had a hooded protector; blued finish.
- this model, in addition to being adopted by the Canadian government, was offered for sale to the general public.

Manufacturer

- "ROSS RIFLE COMPANY, CANADA" was observed marked on the receiver/frame.

Action

- straight pull bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is not marked on the receiver/frame.
- serial numbers have been observed marked on the left side of the barrel.
- serial numbers maked on the side of the barrel have consisted of four or five numbers without a letter prefix or suffix.
- serial/control numbers used by the Canadian Department of Militia and Defence were stamped on the right side of the wooden stock. This number may have a letter prefix and the year of manufacturer, examples are "A503/1913", "B763/1914", and "D620/1914".

- features include: one piece semi-pistol grip stock with full length forend and sleeve like nosecap with a bayonet lug; front sight had a hooded protector.
- this model, in addition to being adopted by the Canadian government, was offered for sale to the general public.
- the Ross .22 Caibre Rifle was also available as a Sporting Rifle (1912 Sporter).

Manufacturer

- "ROSS RIFLE COMPANY, CANADA" was observed marked on the receiver/frame.

Action

- straight pull action.

Serial Number

- serial number is not marked on the receiver/frame.
- serial numbers have been observed marked on the left side of the barrel.
- serial numbers maked on the side of the barrel have consisted of four or five numbers without a letter prefix or suffix.
- serial/control numbers used by the Canadian Department of Militia and Defence were stamped on the right side of the wooden stock. This number may have a letter prefix and the year of manufacturer, examples are "A503/1913", "B763/1914", and "D620/1914".

Notes

Make

- marked on the left side of the receiver/frame in two lines:
ROSS RIFLE CO. QUEBEC. CANADA. 1905. / PATENTED

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model is not marked on the firearm. - marked on the left side of the receiver/frame in two lines: ROSS RIFLE CO. QUEBEC. CANADA. 1905. / PATENTED - manufactured from 1908 to 1914. - intended for competition use in the supine position, under the National Rifle Association Regulations of Great Britain, during the early twentieth century. - although marked 1905, samples that have been observed have threaded bolt lugs that indicate it is a 1907 action. - features determine the model: - single shot, 775mm barrel, with an overall rifle length of 1282mm. - raised barrel lug onto which the hooded optical fore sight is clamped on, walnut stock with a flat on the heel mounting a vernier tang sight; to permit the firearm to be used in the supine position. - the flat bottom of the receiver/frame is heavily scored to provide an intimate contact with the stock and the barrel is free floating in the stock. - early versions had a slim tapered forend, later versions had a broad beavertail forend.
Manufacturer	- marked on the left side of the receiver/frame in two lines: ROSS RIFLE CO. QUEBEC. CANADA. 1905. / PATENTED
Action	- straight pull, rotating bolt head.
Serial Number	- the receiver/frame is usually not numbered. - serial numbering on the trigger guard has been observed.

Notes

Make	- usually marked on the receiver/frame in three lines: ROSS RIFLE CO. / CANADA / M-10
Model	- these units were 1910 Ross rifles, modified by removing the safety lever and bridge, shortening the fore-stock, cutting off the butt-stock, and shortening and threading the barrel to attach the discharger cup to launch the four inch smoke canister. - used a specifically designated cartridge, called the ".303 Cartridge, Smoke Discharger, E 1 T", to ignite and discharge the four inch smoke canister. - these units were referred to as "Discharger, Smoke Generator, Four Inch" by the Canadian military, and affixed to Armoured Fighting Vehicles of the day: they were discharged by a cable from within the vehicle.
Action	- typical ROSS straight-pull bolt action.
Serial Number	- receiver/frame not numbered, all identification features will be found marked on the discharger tube.
Calibre	- used a specifically designated cartridge, called ".303 Cartridge, Smoke Discharger, E 1 T". - capable of discharging the normal .303 British bulleted cartridge.
Shots	- magazine capable of holding five cartridges.
Other Markings	- proof marks and English War Department property mark, the "Broad Arrow", will be found marked on the smoke discharger tube.

- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- "Model 37" may not be marked on firearm.
- this is a take-down pump-action repeating 22 LR rifle resembling the Winchester 1890 (and its modern descendant the Winchester Model 62).
- in its history, Rossi has made a number of variations of this same basic design, in varying barrel lengths and in both 22 LR and 22 Magnum chambering, and care must be taken not to confuse these models with one another. The series began in 1979, with the 62 SA and SAC (Slide-Action and Slide-Action Carbine). For a short while during the 1980's, these models became the 37 (rifle) and 57 (carbine), when a 22 Magnum version, the 59, was also added. At the very end of its production (2001), this rifle was again re-named for a short time, this time as the "G22".
- features include: straight-grip hardwood stock and ringtail forearm; blued or nickeled finish; open adjustable buckhorn sights; round barrel (octagonal barrel optional); and an under-barrel tubular magazine loaded from the front.
- the last production version of this rifle (the G22) was also unique in that it had a rotating firing-pin safety mounted on top of the bolt.
- also available in blued and chromed and engraved finish.

Manufacturer

- "AMADEO ROSSI S.A." is marked on the left side of the barrel.
- "MADE IN BRAZIL" is marked on the right side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "Amadeo Rossi S.A." may be marked on the barrel.
- "Rossi" logo may be marked on the side of the receiver/frame.
- "Rossi" trademark logo is the word "ROSSI" within a circle, often surrounded by the words "IND. BRAS." and "MARC. REG." ("Industria Brasil" and "Marcas Registrada").
- "Rossi" or "Amadeo Rossi" are registered trademarks of Amadeo Rossi, S.A.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- "Model 57" may not be marked on the firearm.
- this is a take-down pump-action repeating 22 LR rifle resembling the Winchester 1890 (and its modern descendant the Winchester Model 62).
- in its history, Rossi has made a number of variations of this same basic design, in varying barrel lengths and in both 22 LR and 22 Magnum chamberings, and care must be taken not to confuse these models with one another. The series began in 1979, with the 62 SA and SAC (Slide-Action and Slide-Action Carbine). For a short while during the 1980's, these models became the 37 (rifle) and 57 (carbine), when a 22 Magnum version, the 59, was also added. At the very end of its production (2001), this rifle was again re-named for a short time, this time as the "G22".
- features include: straight-grip hardwood stock and ringtail forearm; blued or nickeled finish; open adjustable buckhorn sights; round barrel (octagonal barrel optional); and an under-barrel tubular magazine loaded from the front.
- the last production version of this rifle (the G22) was also unique in that it had a rotating firing-pin safety mounted on top of the bolt.
- available in blued (standard) and chromed, engraved receivers (deluxe).

Manufacturer

- manufacturer's name and/or logo are marked on firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- slide action.
Serial Number	- numbered on receiver/frame. - observed serial number had a "G" prefix followed by six numbers.
Calibre	- "22S-L or LR" marked on top of the barrel.
Shots	- tubular magazine.
Importer	- "RUKO OF CANADA LIMITED" is marked on the right side of the receiver/frame.

Notes

Make

- "Amadeo Rossi, S.A." and/or the "Rossi" logo is marked on the receiver/frame and/or the barrel.
- "Rossi" or "Amadeo Rossi" are registered trade marks of Amadeo Rossi, S.A.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- "Model 92 SRC" may be marked on the barrel.
- "SRS" is the abbreviation for "Saddle Ring Short" carbine.
- introduced in 1986.
- similar in appearance to the "Winchester Model 1892".
- this is the model "92 SRC" with a shorter barrel.
- features include: tappered round barrel with barrel bands; open top receiver/frame with top ejection and a right side loading gate; saddle ring mounted on the left side of the receiver/frame; tubular magazine; exposed spurred hammer; blade front sight and adjustable buckhorn rear sight; walnut stock with curved steel buttplate; blued, nickel or gold plated finish with or without engraving.
- this firearm has an overall length of 838 mm (33") with a 406 mm (16") barrel.

Manufacturer

- "Amadeo Rossi, S.A." and/or the "Rossi" logo is marked on the receiver/frame and/or the barrel.
- "Made in Brazil" may be marked on the barrel.

Serial Number

- the serial number is stamped on right side or bottom of the receiver/frame.
- the serial number may have a single letter prefix and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the right side of the barrel. - the model 92 SRC in "357 Magnum" is also designed to chamber and fire the "38 Special".
Shots	- tubular magazine located under the barrel.
Other Markings	- May have a 'Puma' logo on the left side of the receiver.
Remarks	- Model 92 Rossi carbines and rifles are lever action, under barrel, tube magazine repeating arms bearing very close resemblance to the Winchester Model 1892. This particular model has a staple with saddle ring on the left side of the receiver and may also have a 'Puma' logo on the left side of the receiver.

FRT Report

Firearm Reference Number (FRN): 135568
Make: Rossi
Model: Circuit Judge 4510 Tuffy

Summary

Make:	Rossi
Model:	Circuit Judge 4510 Tuffy
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
135568 - 1	45 COLT/410 GA X 3"	5	470	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ROSSI" is usually marked on the side of the barrel.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- introduced in 2011.
- "CIRCUIT JUDGE Tuffy" may be marked on the side of the barrel.
- "CIRCUIT JUDGE 4510 TUFFY" is one of a series of firearms based on the Taurus "4510 The Judge" handgun with the addition of a polymer forearm and a removable rifle type polymer shoulder stock.
- features include: round rifled barrel with fibre optic front sight and adjustable rear ramp sight; scope mount base rail; solid top receiver/frame with left side swing-out cylinder; cylinder release is located on the left side of the receiver/frame; exposed spurred hammer with hammer extension; single/double action trigger mechanism; transfer bar; Taurus Security System; polymer forearm with integral Picatinny rail; contoured polymer Monte Carlo, thumbhole buttstock with integral recoil pad and shotshell capacity indicator; blued finish.
- overall length is 800 mm (31.8"), and average weight is 1.95 kgs (4.7 lbs)

Manufacturer

- Taurus trademark is usually marked on the right side of the receiver/frame.

Type

- Rossi model Circut Judge Tuffy externally resembles a rifle/shotgun, but uses the receiver/frame of a handgun.

Serial Number

- serial number is usually marked on the receiver/frame.
- serial number is marked on the right side of the receiver/frame.
- serial number of a referenced example consisted of a two letter prefix and four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is marked on the barrel.
Shots	- swing-out cylinder.
Canadian Law Comments	- Rossi model Circuit Judge externally resembles a rifle/shotgun, but uses the receiver/frame of a handgun. - Rossi model Circuit Judge receiver/frame is the same type of receiver/frame used in the Taurus model 4510 Judge handgun.

Notes

Make

- "A. Rossi", "A. Rossi SA" or a variation thereof is usually marked on the barrel and/or receiver/frame.
- "Rossi" or "Amadeo Rossi" are registered trade marks of Amadeo Rossi, S.A.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- this is a take-down, pump-action repeating 22 LR rifle resembling the Winchester 1890 (and its modern descendant the Winchester Model 62).
- in its history, Rossi has made a number of variations of this same basic design, in varying barrel lengths and in both 22 LR and 22 MAG chamberings, and care must be taken not to confuse these models with one another. The series began in 1979, with the models 62 SA and 62 SAC (Slide-Action and Slide-Action Carbine). For a short while during the 1980's, these models became the 37 (rifle) and 57 (carbine), and a calibre 22 MAG version, the model 59, was also added. At the very end of its production (2001), this rifle was again re-named for a short time, this time as the "G22".
- features include: octagonal or half-octagonal barrel; open top receiver/frame; under-barrel tubular magazine loaded from the front; exposed spurred hammer; straight grip hardwood stock and ringtail forearm; blue or nickel or stainless steel finish; open adjustable buckhorn sights.
- the last production version of this rifle (the G22) was also unique in that it had a rotating firing-pin safety mounted on the top of the bolt.

Manufacturer

- "Amadeo Rossi S.A." and/or "Rossi" is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- slide action.
Serial Number	- the serial numbered is marked on the receiver/frame. - the serial number rationalization is unknown.
Shots	- tubular magazine mounted under the barrel.

Notes

Make

- ROSSI is marked on the barrel.
- ROSSI logo may be marked on the side of the firearm.
- ROSSI trademark logo is the word ROSSI within a circle, often surrounded by the words "IND. BRAS." and "MARC. REG." ("Industria Brasil" and "Marcas Registrada").
- ROSSI or Amadeo Rossi are registered trademarks of Amadeo Rossi, S.A.
- ROSSI in December of 1997 created BrazTech International L.C. as the exclusive importer of Rossi firearms in North America.
- ROSSI previously, was distributed by Interarms of Alexandria, Virginia U.S.A.
- ROSSI manufactures its rifles in a plant in Sao Leopoldo, Brazil.

Model

- Introduced in 2020.
- "MODEL GALLERY" is marked on the barrel.

- "GALLERY" is a pump-action repeating 22 LR rifle resembling the Winchester 1890 (and its modern descendant the Winchester Model 62).
- "ROSSI" in its history, made a number of variations of this same basic design, in varying barrel lengths and in both 22 LR and 22 MAG chambering care must be taken not to confuse these models with one another.
- Features include: cross-bolt safety over the trigger; trapezoid shaped trigger guard.
- Overall length with a 457 mm (18 inches) barrel is 914 mm (36 inches), average weight is 2.38 kg (5.25 lbs).

Manufacturer

- "MADE IN BRAZIL BY CBC" is marked on the left side of the barrel.
- "CBC" is the acronym for "Companhia Brasileira de Cartuchos".
- Companhia Brasileira de Cartuchos (CBC) is a Brazilian company that primarily produces ammunition but they also manufacture airguns, revolvers, break open shotguns and double rifles under their own name and contracted "house brand" firearms.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the underside of the receiver/frame. - Serial number is also repeated on the barrel. - Serial number of a referenced example consisted of a number, two letter, six numbers and a letter.
Calibre	- The calibre designation is marked on the barrel.
Shots	- Fixed tube magazine.

Notes

Make

- "A. Rossi", "A. Rossi SA" or a variation thereof is usually marked on the barrel and/or receiver/frame.
- "Rossi" or "Amadeo Rossi" are registered trade marks of Amadeo Rossi, S.A.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- "M12" model or "Matched Pair" is sold with one receiver/frame and two barrels.
- "MS" model or "Matched Set" is sold with one receiver/frame and three or four barrels.
- "S" model is sold with one receiver/frame and a single barrel.
- features include: blued round shotgun barrel with bead front sight or ramp front sight and adjustable rear sight; barrel may be ported; blued front hinged receiver/frame with push-type break action release lever located on the top tang behind the hammer; exposed spur hammer; auto-ejecting; plain uncheckered hardwood forearm and pistol grip butt stock.
- safety features include a transfer bar mechanism; manual safety with change lever located on the left side of the receiver/frame, and a breech lock system that prevents the action being closed or opened if the hammer is cocked.
- available in standard and youth size.
- rifled calibre accessory barrels available with a blued or stainless steel finish, standard or heavy contour, and with or without iron sights.
- rifle barrels are drilled and tapped for scope mounts.

Action

- break-open action.

Serial Number

- serial number is marked on the receiver/frame.

Calibre

- the calibre designation is marked on the receiver/frame.

Notes

Make

- "A. Rossi", "A. Rossi SA" or a variation thereof is usually marked on the barrel and/or receiver/frame.
- "Rossi" or "Amadeo Rossi" are registered trade marks of Amadeo Rossi, S.A.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- introduced in 2003.
- "M12" model or "Matched Pair" is sold with one receiver/frame and two barrels.
- "MS" model or "Matched Set" is sold with one receiver/frame and three or four barrels.
- "S" model is sold with one receiver/frame and a single barrel.
- this is a break-open single shot rifle/shotgun based on Rossi's similar line of break-open single-shot shotguns; comes with one receiver/frame and two barrels (one shotgun, one rifle) that can be used interchangeably.
- features include: pistol-grip hardwood stock and forearm (with or without Monte Carlo comb, and in youth or adult sizes; stocks on stainless-steel firearms are customarily painted black); blued or stainless-steel construction; open adjustable sights on rifle barrels; thumb-operated action latch on the right side of the manually-cocked hammer; extractor; recoil pad; and a manual safety/decocking lever on the left side of the receiver/frame.
- overall length with a 585mm barrel (23") is 965mm (38").
- weight is 2.8 kgs (6.22 lbs).

Manufacturer

- observed marked on the left side of the barrel.

Type

- this firearm can be assembled as a rifle or a shotgun, at the user's discretion.

Action

- break-open single-shot.

Serial Number

- numbered on receiver/frame.
- an observed example had a two digit prefix (SP) and six numbers.

Calibre

- observed marked on the left side of the barrel.

FRT Report

Firearm Reference Number (FRN): 135580
Make: Rossi
Model: P41022

Summary

Make:	Rossi
Model:	P41022
Manufacturer:	Rossi
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
135580 - 1	22 LR	1	279	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
135580 - 2	45 COLT/410 GA X 3"	1	279	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Rossi" was observed marked on the left side of the barrel.
- "Rossi" logo was observed on the grip.
- "Rossi" and or the Rossi logo is usually marked on the receiver/frame.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- introduced in 2011.
- "P941022" is a hinged barrel design, single shot handgun.
- Rossi offers the P941022" as a "Matched Pair" with one receiver/frame and two barrels (one smoothbore barrel with removable choke tube, and one rifled barrel).
- "P941022" uses a quick change barrel system which requires no special tools.
- features include: round barrel with fibre optic ramp front sight and an adjustable rear sight; front hinged receiver/frame with top tang mounted break open release lever located on the right side of the exposed spur hammer; extractor; exposed spur hammer; single action trigger mechanism; manual safety/decocking lever is mounted on the left side of the receiver/frame; checkered rubber forearm and pistol grip; blued/black finish.
- overall length is approximately 400 mm (16.0").

Action

- hinged barrel design.

Serial Number

- serial number is marked on the receiver/frame

Notes

Make

- "A. Rossi" or "Rossi" is marked on the firearm.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- this is a break-open single shot rifle based on Rossi's similar line of break-open single-shot shotguns.
- Rossi also sells the "M" model or "Matched Pairs" with one receiver/frame and two barrels (one shotgun, one rifle) that can be used interchangeably.
- Rossi also sells the "MS" model or "Matched Sets" with one receiver/frame and three barrels (one shotgun, two rifle) or four barrels (two shotgun, two rifle) that can be used interchangeably.
- features include: pistol-grip hardwood stock and forearm (with or without Monte Carlo comb; stocks on stainless-steel firearms are customarily painted black); blued or stainless-steel construction; open adjustable sights; thumb-operated latch on the right side of the manually-cocked hammer; extractor; recoil pad; and a manual safety/decocking lever on the left side of the receiver/frame.

Action

- break-open single shot.

Serial Number

- serial number is marked on the receiver/frame.

Other Markings

- item number may be marked on the firearm.

Notes

Make

- "A. Rossi", "A. Rossi SA" or a variation thereof is usually marked on the barrel and/or receiver/frame.
- "Rossi" or "Amadeo Rossi" are registered trademarks of Amadeo Rossi, S.A.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trademark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- "S12" may be marked on the underside of the receiver/frame in front of the trigger guard.
- "S" model is sold with one receiver/frame and a single barrel.
- "M" model or "Matched Pair" is sold with one receiver/frame and two barrels.
- "MS" model or "Matched Set" is sold with one receiver/frame and three or four barrels.
- features include: blued round shotgun barrel with bead front sight or ramp front sight and adjustable rear sight; barrel may be ported; blued front hinged receiver/frame with push-type break action release lever located on the top tang behind the hammer; exposed spur hammer; auto-ejecting; plain uncheckered hardwood forearm and pistol grip buttstock.
- safety features include a transfer bar mechanism; manual safety with change lever located on the left side of the receiver/frame, and a breech lock system that prevents the action being closed or opened if the hammer is cocked.
- available in standard and youth size.
- rifled calibre accessory barrels available with a blued or stainless steel finish, standard or heavy contour, and with or without iron sights.
- rifle and muzzleloader barrels are drilled and tapped for scope mounts.

Action

- break open action.

Calibre

- calibre designation usually marked on rear of barrel.

Other Markings

- known example marked "Made in Brazil" on left side of receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is not marked on the firearm. - "S" models are sold as a receiver/frame with a single barrel. - this firearm is a purpose-built handgun with no provison to attach a traditional buttstock. - features observed: ported, round shotgun barrel with bead front sight; front hinged, purpose built "handgun" receiver with push-type action release lever located on the top tang behind the hammer; blued recoil buffer tube mounted in front of the black, synthetic, ringed forend; exposed spur hammer; auto-ejecting; rubber; the "S12 Handgun" has a synthetic rubber pistol grip similar to the "Taurus "Raging Bull" handgun pistol grip mounted onto a permanent metal hand grip; available in nickel finish or blued finish. - the permanent metal "pistol grip" prevents this firearm from having a conventional butt-stock installed. - the S12 handgun is a variation of the ROSSI "ROCKET PISTOL" and consists of a shotgun barrel assembled to a "ROSSI ROCKET PISTOL" receiver/frame. - safety features include a transfer bar mechanism; manual safety with selector lever located on the left side of the receiver/frame, and a built-in safety mechanism that prevents the action being closed or opened when the hammer is cocked.
Manufacturer	- "A. Rossi", "A. Rossi SA" or a variation thereof is usually marked on the barrel and/or receiver/frame. - "Rossi" or "Amadeo Rossi" are registered trade marks of Amadeo Rossi, S.A.
Action	- hinged barrel design.
Serial Number	- serial number was observed marked on the underside of the receiver/frame. - observed serial number consisted of a two letter "SP" prefix and six numbers.
Calibre	- "12 GA.3" CYL." is marked on the top of the barrel at the breech.
Canadian Law Comments	- this firearm by serial number (SP130048) and all others of its kind or type have been found to be "handguns" and "restricted firearms" in a manner similar to the H&R Handy Gun, and the Ithica Auto & Buglar" shotgun.
Other Markings	- "MADE IN BRAZIL" is marked on the left side of the receiver/frame.

Notes

Make

- "A. Rossi", "A. Rossi SA" or a variation thereof is usually marked on the barrel and/or receiver/frame.
- "Rossi" or "Amadeo Rossi" are registered trade marks of Amadeo Rossi, S.A.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "S20" may be marked on the underside of the receiver/frame in front of the trigger guard.
- "S" model is sold with one receiver/frame and a single barrel.
- "M" model or "Matched Pair" is sold with one receiver/frame and two barrels.
- "MS" model or "Matched Set" is sold with one receiver/frame and three or four barrels.
- features include: blued round shotgun barrel with bead front sight or ramp front sight and adjustable rear sight; blued front hinged receiver/frame with push-type break action release lever located on the top tang behind the hammer; exposed spur hammer; auto-ejecting; plain hardwood forearm and pistol grip buttstock.
- safety features include a transfer bar mechanism; manual safety with change lever located on the left side of the receiver/frame, and a breech lock system that prevents the action being closed or opened if the hammer is cocked.
- available in standard and youth size.
- rifled calibre accessory barrels available with a blued or stainless steel finish, standard or heavy contour, and with or without iron sights.
- rifle and muzzleloader barrels are drilled and tapped for scope mounts.

Serial Number

- usually marked on underside of receiver/frame in front of the trigger guard.
- six digit numbers with two letter prefix have been observed.

Calibre

- calibre designation usually marked on rear of barrel.

Other Markings

- known examples marked "Made in Brazil" on left side of receiver/frame.

Notes

Make

- "AMADEO ROSSI S.A." is marked on the left side of the barrel.
- "ROSSI" trademark logo is marked on the right sideplate.
- "ROSSI" trademark logo may be repeated on the grip plates.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- model designation is not marked on the firearm.
- this is an early model of Rossi's revolver imported from Brazil into the United States by Firearms International and the Garcia Corporation; this revolver can be distinguished from Rossi's later "numbered" models by several features; these include a cylinder latch with a round button (later and current Rossi revolvers use a S&W-style knurled and latch) and by a horizontally serrated (not knurled) hammer spur.
- features include: serrated ramp front sight and ajustable rear sight or a notch in the top strap for a rear sight; round rifled barrel; solid top receiver/frame with left side swing-out fluted cylinder; single/double action trigger mechanism; blue or nickel finish; smooth or checkered wooden grips or checkered plastic thumb-rest grips; square butt.

Manufacturer

- "AMADEO ROSSI S.A." is marked on the left side of the barrel and the "ROSSI" trademark is marked on the right sideplate.

Serial Number

- serial numbered may be marked on the right side of the receiver/frame, in front of the trigger guard or on the bottom of the grip strap.

Calibre

- calibre designation was observed marked on the right side of the barrel.

Shots

- swing-out cylinder.

Importer

- importer's marking may be located on the right side of the receiver/frame.

Notes

Make

- "ROSSI" is marked on the left side of the barrel.

Model

- "SS" is marked after "ROSSI" on the left side of the barrel.
- "SS" stands for "Single Shot".
- this is a single shot break open shotgun with interchangeable barrel, available in standard and youth size.
- features include: blued round smoothbore barrel with bead front sight or ramp front sight; front hinged receiver/frame with push-type break action release lever located on the top tang behind the hammer; exposed spur hammer; auto-ejecting; plain hardwood or synthetic forearm and pistol grip buttstock.
- safety features include a transfer bar mechanism; manual safety with change lever located on the left side of the receiver/frame, and a breech lock system that prevents the action being closed or opened if the hammer is cocked.

Manufacturer

- "MADE IN BRAZIL BY CBC" over "BRAZTECH INTERNATIONAL, MIAMI, FL" is marked on the left side of the barrel.

Serial Number

- marked on the underside of the receiver/frame.
- observed serial number consists of one number followed by two letters and six numbers.
- "2017" was observed marked under the serial number on one example.

Calibre

- calibre designation is marked on the left side of the barrel.

Notes

Make

- "ROSSI" is marked on the right side of the barrel.
- "ROSSI" trade name/trademark has been used on firearms manufactured by Amadeo Rossi S.A. of Sao Leopoldo, Brazil.
- "ROSSI" trade name/trade mark has been used on revolvers manufactured by Forjas Taurus S.A., since 2000/2001.
- "ROSSI" trade name/trade mark has been used on firearms manufactured by Forjas Taurus S.A., since 2008.
- Taurus has manufacturing facilities in Porto Alegre, and Sao Leopoldo, Brazil.

Model

- introduced in 2010.
- "WIZARD" is marked on the right side of the receiver/frame.
- the Wizard uses a quick change barrel system which requires no special tools.
- features include: round tapered smooth bore or rifled barrel with bead front sight or fibre optic front sight and adjustable ramp rear sight; rifled barrels have scope mount base; muzzle loading barrel has a fixed forearm and ramrod; front hinged receiver/frame with top tang mounted break open lever; exposed spurred hammer with extension; single action trigger mechanism; transfer bar, manual safety; key lock Taurus Security System; hardwood or camouflage forearm and Monte Carlo buttstock with ventilated recoil pad and white spacer; blued metal finish carbon steel barrel and receiver/frame.
- available in a youth version.
- overall length with a 584mm barrel is 978mm (38.5"), average weight is 3.2kg (7lbs).
- overall length with a 559mm barrel is 927mm (36.5"), average weight is 2.83kg (6.25lbs).

Manufacturer

- "A. Rossi", "A. Rossi SA" or a variation thereof is usually marked on the left side of the barrel and/or receiver/frame.
- "Rossi" or "Amadeo Rossi" are registered trade marks of Amadeo Rossi, S.A.

Action

- front hinged receiver/frame, break open action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number may be located on the receiver/frame.
Calibre	- was observed marked on the left side of the barrel.

Notes

Make

- "Rößler", "Rössler" or "Roessler" is marked on the firearm.
- "Rößler" stands for "Rößler Waffen GmbH", an Austrian firearm manufacturer.
- "Rößler Waffen GmbH" is located in Kufstein, Austria.

Model

- "TITAN 16" is marked on the receiver/frame.
- "TITAN 16" is a straight-pull bolt design rifle.
- features include: adjustable front and rear sights mounted to barrel; round, rifled interchangeable barrel; receiver/frame is drilled and tapped for scope mounts; sixteen-lug bolt which locks into the barrel; three position safety lever is located on the upper rear tang; magazine release is located on the magazine housing; single action trigger mechanism; checkered one piece synthetic or walnut stock with a semi-pistol grip, cheekpiece and "hogsback" style butt; sling swivels; blued finish.
- overall length with a 559 mm (22") barrel is 1080 mm (42 1/2"), and the average weight is 2.9 kg (6.38 lbs).
- overall length with a 610 mm (24") barrel is 1130 mm (44 1/2"), and the average weight is 3 kg (6.6 lbs).

Manufacturer

- "Rößler", "Rössler" or "Roessler" is marked on the firearm.
- "Rößler" stands for "Rößler Waffen GmbH", an Austrian firearm manufacturer.
- "Rößler Waffen GmbH" is located in Kufstein, Austria.
- "Rößler" also stand for "Erich Rößler" the founder of "Rößler Waffen GmbH".
- "Rößler Waffen GmbH" use the trademark name "RÖWA".
- "Rößler Waffen GmbH" was founded in 1996.

Action

- straight-pull bolt design.

Serial Number

- serial number is marked on the front, side of the receiver/frame.
- serial number of referenced examples consisted of two or three letter prefix, a space and three or four numbers.
- serial number of some examples were observed with the abbreviation letter of the country of import, a space and three or four numbers, i.e.: US xxxx, AUS xxx.

Calibre

- calibre designation is marked on the left side of the barrel.

Shots

- detachable box magazine.

Notes

Make

- the left barrel is marked "ROTA-LUCIANO /MADE IN ITALY" in two lines over the chamber area.

Model

- the model designation is not marked on the firearm.
- features include: blued steel barrel assembly; extractors only; Anson and Deeley system box lock with false side plates; rolled or hand engraving on the receiver/frame; double trigger mechanism; chromed, coin or case-hardened finished receiver/frame; checkered walnut beavertail or slim forend; straight or pistol grip buttstock in oil or varnish finish; fitted recoil pad or solid butt plate; raised central barrel rib; top tang mounted opening lever and safety selector.

Manufacturer

- the left barrel is marked "ROTA-LUCIANO / MADE IN ITALY" in two lines over the chamber area.
- the manufacturer's mark used in the proof process consists of the letters "RL" within a circle and will be found marked on the water table of the receiver/frame.
- located in Brescia, Italy since 1956.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- side by side barrel configuration.
Serial Number	- the serial number is marked on the water table of the receiver/frame. - serial number rationalization is unknown.
Calibre	- the calibre designation is marked as part of the proof process on the underside of the chamber area of the barrel assembly and on the water table of the receiver/frame.
Other Markings	- the right barrel is marked over the chamber area with "ACCAIO-VICKERS / CANNAE CROMATE" in two lines, indicating the use of Vickers steel and a chromed bore.

Notes

Make

- the left barrel is marked "ROTA-LUCIANO /MADE IN ITALY" in two lines over the chamber area.

Model

- the model designation is not marked on the firearm.
- features include: blued steel barrel assembly; automatic ejectors; Anson and Deeley system box lock; rolled or hand engraving on the receiver/frame; double trigger mechanism; receiver/frame finished in black with inlaid gold borders and inset lines; checkered walnut beavertail or slim forend; straight or pistol grip buttstock in oil or varnish finish; fitted recoil pad or solid butt plate; raised central barrel rib; top tang mounted opening lever and safety selector.

Manufacturer

- the left barrel is marked "ROTA-LUCIANO / MADE IN ITALY" in two lines over the chamber area.
- the manufacturer's mark used in the proof process consists of the letters "RL" within a circle and will be found marked on the water table of the receiver/frame.
- located in Brescia, Italy since 1956.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- side by side barrel configuration.
Serial Number	- the serial number is marked on the water table of the receiver/frame. - serial number rationalization is unknown.
Calibre	- the calibre designation is marked as part of the proof process on the underside of the chamber area of the barrel assembly and on the water table of the receiver/frame.
Other Markings	- the right barrel is marked over the chamber area with "ACCAIO-VICKERS / CANNAE CROMATE" in two lines, indicating the use of Vickers steel and a chromed bore.

Notes

Make

- "Luciano Rota", "R.F.M.", and/or Luciano Rota's logo of a stag with a shotgun in its antlers is marked on the firearm.

Model

- "KR15" is marked on the firearm.
- this is a box magazine-fed pump-action shotgun styled after the Valtro PM5, available in several barrel lengths and in fixed/folding, or collapsible stock versions.
- features include: black anodized finish; open adjustable rifle-style sights with a rear Picatinny rail; synthetic furniture; detachable box magazine; action-release at the front of the trigger-guard; cross-button safety at the rear of the trigger-guard; and a fixed, folding or collapsible pistol-grip buttstock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "Luciano Rota", "R.F.M.", and/or Luciano Rota's logo of a stag with a shotgun in its antlers is marked on the firearm.

Serial Number

- serial-numbered on the receiver/frame.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "Rota L Sarezzo - VT", " Made in Italy", maked on the left side of the receiver.

Model

- model designation is not marked on firearm.
- this is a generic record for those over/under shotguns produced by Luciano Rota/RFM and other entries exist that may better identify the model observed.
- the company assigns specific model names or numbers to each of their shotguns, but the specifications, finish, etc., can be changed at customer request.
- features may include: chromed, bright steel, colour case-hardened, matte, bright blued, or blacked finish; various grades of engraving both floral and game scene, with or without gold fill; checkered straight or pistol-grip stock; fixed or screw-in interchangeable chokes; box lock action, with or without false side plates; extractors or ejectors; solid or ventilated-rib; with or without sling swivels; and single or double triggers.

Manufacturer

- "Rota L Sarezzo - VT", "Made in Italy", marked on the left side of the receiver/frame.
- Luciano Rota is a manufacturer located in Sarezzo, Val Trompia, Italy, who specializes in making over & under and side by side shotguns; the company was founded in 1956.

Action

- over & under barrel pattern.

Serial Number

- sample has a one letter prefix and four digits.
- the serial number is marked on the receiver under the barrels.
- barrels must be removed to see the serial number.
- new-production examples will be serial-numbered on the tang underneath the top lever.

Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
120198 - 1	8MM MAUSER	4	500	Prohibited PDR, Part 4, para. 2	Manufacturer Specifications and Commercial Customization	
120198 - 2	8MM MAUSER	4	600	Prohibited PDR, Part 4, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make (or logo thereof) is marked on the firearm.

Model

- the model designation is not marked on the firearm.
- this is a unique adaptation of a standard-pattern (Mauser 98-style) bolt-action rifle into a short "bull-pup" style hunting rifle.
- features include: one-piece "bull-pup" stock with full-length forearm; no open sights (drilled and tapped for scope mounts; blued finish; engraving (and/or gold fill) to customer's taste; internal box magazine inlet into butt of stock; sling swivels.

Manufacturer

- the manufacturer (or logo thereof) is marked on the firearm.
- Rothenburger Waffeneck is a custom gunsmithing operation based in Rothenburg, Germany; its owner, Jurgen Hensel, is best known for a series of "bull-pup"-style bolt-action rifles. The company also makes a line of falling-block single-shot rifles with unique "split" set-triggers.

Serial Number

- numbered on the receiver/frame.

Calibre

- available in most standard varmint and big-game hunting chamberings.

Shots

- internal box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2) is removed the receiver/frame or complete barrelled action of the firearm is correctly classified as "Non-Restricted".

Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
118831 - 1	30-30 WIN	6	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
118831 - 2	35 REM	6	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- in 1961 Marlin started a program that was intended to expand their presence in the Canadian market. The plan was to add a "Canadian" marking that Canadians could identify with. Nine Marlin models were selected for the Canadian program. Most features remained the same, although the Canadian versions used a high-grade wood for the stocks and were equipped with sling swivels and slings. All had the barrel marking "ROYAL (Maple Leaf) CANADIAN". The intent of the project was to market these firearms through Canadian distributors. When the Canadian government refused to issue Marlin a trademark for the "Royal Canadian" name (to avoid a possible connection with the Royal Canadian Mounted Police, or mislead the public into believing that the product had any type of "Royal" approval) the program was discontinued and remaining inventory was sold in the United States.

Model

- the model designation is marked on the barrel.
- features include: full length tubular magazine; side loading and ejecting; high grade walnut butt-stock and fore-end; flat top receiver/frame and blued finish.

Manufacturer

- the Marlin name is marked on the barrel.

Serial Number

- serial number is marked on the receiver/frame.

Calibre

- calibre designation is usually marked on the barrel.

Shots

- tubular magazine.

Notes

Make

- "Royal Gun Co." may be marked on the firearm.

Model

- model designation is not marked on the firearm.
- manufactured from 1908 to 1910.
- "Drilling" is a three-barrelled gun which is combination of smoothbore and rifled barrels. The most common type of "Drilling" gun is made with two shotgun barrels over a single rifle barrel. The rifle barrel is usually positioned directly under the connecting rib of the shot barrels.

Manufacturer

- "Royal Gun Company" was located in Wheeling, West Virginia from 1908 to 1910.
- "Hollenbeck Gun Company" was owned by Frank Hollenbeck and was originally located in Wheeling, West Virginia from 1901 to 1903.
- "Hollenbeck Gun Company" was re-located to Moundsville, West Virginia from 1903 to 1905.
- "Hollenbeck Gun Company" went bankrupt in 1905 and was reorginized as the "The Three-Barrel Gun Company".
- "The Three-Barrel Gun Company" was located in Moundsville and Wheeling, West Virginia from 1905 to 1908.
- "The Three-Barrel Gun Company" was renamed the "Royal Gun Company".

Action

- hinged barrel design.
- barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.

Notes

Make

- "ROYALE", the outline of a crown, "D'ARMES" over "PRECISION" over "PREMIERE QUALITE" was observed marked on the left side of the slide.
- "MADE IN SPAIN" was observed marked on the right side of the slide.
- Spanish proof marks were observed marked on the left side of the receiver/frame.

Model

- "ROYALE", the outline of a crown, "D'ARMES" over "PRECISION" over "PREMIERE QUALITE" was observed marked on the left side of the slide.
- manufactured prior to 1939.
- this firearm resembles a FN/Browning model 1906 semi-automatic.
- features include: round rifled barrel; flat sided slide with right side ejection, rear grip serrations and a groove in the top for the sight; flat sided receiver/frame with grip safety, safety/holding open lever located on the left side and the magazine release located on the rear grip strap; nickel plated and engraved.
- overall length is 127 mm (5.0").

Manufacturer

- manufacturer's name is not marked on the firearm.
- "TU" is marked on the barrel.

Action

- striker fired.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number consisted of three numbers, example "No 127".

Shots

- detachable box magazine.

Notes

Make - the make is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is marked on the receiver/frame as "2000". - introduced in 1993. - this is a bolt operated single-shot target rifle based on an action built by RPA Precision Engineering; RPA itself only produces actions, so shooters who buy these actions will stock and barrel them to their own specifications. - an RPA action is a block of stainless steel with a square lower profile and an octagonal upper profile, with a loading/ejection port milled into the right side and a locking lug for the bolt handle at the right rear. - the model "2000" features a four lugged round receiver/frame with floating ejector and two bedding lugs.
Manufacturer	- RPA Precision Engineering is a metal working company based in Kent, England, that does specialty machining operations on stainless and alloy steels. They also manufacture single-shot rifle actions. Their logo is "rpa" (all lower-case) superimposed on a bulls-eye target.
Action	- turn-bolt design.
Serial Number	- serial number is marked on the right side of the receiver/frame. - serial numbers consist of 5 digits.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
144324 - 1	7.62MM NATO	1	756	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make designation of "RPA" is marked on the right side of the receiver/frame and the company logo of "rpa" (all lower-case) superimposed on a circle with a crosshair on the left side of the receiver/frame.

Model

- "TARGET RIFLE. 7.62MM. C12A1" was observed marked on the left side of the receiver/frame.
- the C12A1 was developed for the Canadian Cadet Movement (CCM) and made in conjunction with Diemaco of Canada.
- "QUADLOCK" is marked on the right side of the receiver/frame above the ejection port.
- an RPA receiver/frame is a block of stainless steel with a square lower profile and an octagonal upper profile, with a loading/ejection port milled into the right side and a locking lug for the bolt handle at the right rear.
- the "Quadlock" action derives its name from a four lugged bolt head, with an ejector built into one lug and an extractor built into the lug directly opposite; this provides a very strong lock around the circumference of the bolt head.
- features observed: stainless steel, fluted, round barrel; Quadlock action; two stage trigger; micrometer rear sight and removable, tunnel type, slotted for inserts, front sight; drilled and tapped for accessory rail; ambidextrous stock with adjustable cheek piece; adjustable butt plate.
- overall length is 1245mm/49".

Manufacturer

- RPA Precision Engineering is a metal working company based in Kent, England, that does specialty machining operations on stainless and alloy steels. They also manufacture single-shot rifle actions. Their logo is an "rpa" (all lower-case) superimposed on a circle with a crosshair.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the right side of the receiver/frame.
- observed serial numbers have consisted of two numbers, two letters, and three numbers.

Calibre

- rifling characteristics: 4-grooves, 1 turn in 13.5 inches, right hand twist.

Notes

Make

- the make is marked on the firearm.

Model

- this is a bolt operated, single-shot target rifle based on an action built by RPA Precision Engineering; RPA itself only produces actions, so shooters who buy these actions will stock and barrel them to their own specifications
- RPA will also build this action as a bolt-action repeater, if a customer requests it.
- an RPA action is milled from a block of stainless steel with a loading/ejection port milled into the right side and a locking lug for the bolt handle at the right rear; this action is shaped so that it will "drop-in" to a stock made for a Remington 700.
- the "Quadlite" action derives its name from a four lugged bolt head, with an ejector built into one lug and an extractor built into the lug directly opposite; this provides a very strong lock around the circumference of the bolt head.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer
- manufacturer marked on firearm.
- RPA Precision Engineering is a metal working company based in Kent, England, that does specialty machining operations on stainless and alloy steels. They also manufacture rifle actions. Their logo is "rpa" (all lower case) superimposed on a bulls-eye target.

Action
- turn-bolt operated.

Serial Number
- serial number is marked on the right side of the receiver/frame, rationalization unknown.

- RPA will also build this action as a bolt-operated, single-shot, if a customer requests it.
- an RPA action is milled from a block of steel with a loading/ejection port milled into the right side and a locking lug for the bolt handle at the right rear; this action is shaped so that it will "drop-in" to a stock made for a Remington 700.
- the "Quadlite" action derives its name from a four lugged bolt head, with an ejector built into one lug and an extractor built into the lug directly opposite; this provides a very strong lock around the circumference of the bolt head.

Manufacturer

- the manufacturers logo is marked on the firearm.
- RPA Precision Engineering is a metal working company based in Kent, England, that does specialty machining operations on stainless and alloy steels. They also manufacture single-shot rifle actions. Their logo is "rpa" (all lower-case) superimposed on a bulls-eye target.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame, rationalization unknown.
Shots	- detachable box magazine, uses either a SAKO type magazine (in calibre 308 WIN) or a Ruger, Mini 14.type magazine (in calibre 223 REM).

Notes

Make

- the make designation of "RPA" is marked on the left side of the receiver/frame using the company logo of "rpa" (all lower-case) superimposed on a circle with a crosshair.

Model

- this is a bolt operated single-shot target rifle that is an evolution of earlier SWING and Paramount produced receiver/frames.
- the model designation is marked as "QUADLOCK" on the right side of the receiver/frame above the ejection port.
- shooters who purchase these actions will stock and barrel them to their own specifications
- an RPA receiver/frame is a block of stainless steel with a square lower profile and an octagonal upper profile, with a loading/ejection port milled into the right side and a locking lug for the bolt handle at the right rear.
- the "Quadlock" action derives its name from a four lugged bolt head, with an ejector built into one lug and an extractor built into the lug directly opposite; this provides a very strong lock around the circumference of the bolt head.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- RPA Precision Engineering is a metal working company based in Kent, England, that does specialty machining operations on stainless and alloy steels. They also manufacture single-shot rifle actions. Their logo is "rpa" (all lower-case) superimposed on a circle with a crosshair.
Action	- turn bolt operated single-shot.
Serial Number	- the serial number is marked on the right side of the receiver/frame. - observed serial numbers have consisted of one number, followed by a space, followed by another four numbers.

Notes

Make

- the make designation of "RPA" is marked on the left side of the receiver/frame using the company logo of "rpa" superimposed on a circle with a crosshair.

Model

- "RANGEMASTER" is marked on the right side of the stock.
- introduced in 2004.
- an RPA receiver/frame is a block of stainless steel with a square lower profile and an octagonal upper profile, with a loading/ejection port milled into the right side and a locking lug for the bolt handle at the right rear.
- the "Quadlock" action derives its name from a four lugged bolt head, with an ejector built into one lug and an extractor built into the lug directly opposite; this provides a very strong lock around the circumference of the bolt head.
- features include: matt black corrosion resistant finish; proprietary Quadlock® action; manually operated rotary bolt with four frontal radial lugs; fluted barrel threaded to accept a muzzle brake or silencer; two-stage, fully adjustable trigger; ambidextrous manual safety located above the trigger; composite aluminum and polymer stock, with side-folding butt , adjustable for length of pull; standard Picatinny rail; additional Picatinny rails on the forend; sling attachment points; folding adjustable bipod and adjustable monopod in the stock. Unusual features of the RPA stock design are a bolt channel, which also serves as the stock comb / cheek rest, and the fact that in emergency situations the rifle can be fired with the butt folded.
- overall length with a 711mm (28") barrel is 1310mm (51.5"), with the stock folded length is 1050mm (41.5"). Average weight is 8.65kgs (18.9lbs)

Manufacturer

- RPA International Ltd, formerly RPA Precision Engineering is a metal working company based in Kent, England, that does specialty machining operations on stainless and alloy steels. Their logo is "rpa" (all lower-case) superimposed on a circle with a crosshair.

Action

- turn-bolt design.

Serial Number

- the serial number is usually marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - rifling characteristics in caliber .338 LAPUA: 1 turn in 254mm (10").

Shots - detachable box magazine.

Notes

Make

- "RPM" may be marked on the left side of the receiver/frame.
- "RPM" is the abbreviation for Rock Pistol Manufacturing.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "XL" is not longer in production (2002).
- "XL" within a square is marked on the left side of the receiver/frame.
- "XL" is a custom order firearm.
- features may include: single action trigger mechanism; steel receiver/frame; blued barrel; a thumb safety button on the left side of the receiver/frame which must be depressed to discharge the cartridge; a cocked indicator button located on the back of the receiver/frame; a barrel release latch which is located on the right side of the receiver/frame; wooden grip panels.

Manufacturer

- "MANUFACTURED BY RPM" over "TUCSON, ARIZONA" may be marked on the left side of the receiver/frame.
- Rock Pistol Manufacturing (RPM) was founded by Jim Rock in 1978.
- Rock Pistol Manufacturing (RPM) began manufacturing Merrill pistols in 1978.
- Rock Pistol Manufacturing (RPM) changed the Merrill pistol name to "XL" in 1985.
- Rock Pistol Manufacturing (RPM) moved from California, U.S.A. to Tucson, Arizona in 1989.

Serial Number

- the serial number is marked on the receiver/frame.

Barrel

- barrel lengths were offered in 203mm, 222mm, 254mm, 267mm, 273mm, 305mm and 356mm.
- the 203mm barrel may have "slab" sides.
- the 356mm barrel may be a "bull" barrel.
- the barrel may have a muzzle brake.

Calibre

- the calibre designation may be marked on the left side of the barrel.
- as this is a custom order firearm, other calibres may exist.

Notes

Make

- "RS" logo is marked on the top of both barrels in the chamber area.
- "RS" logo consists of the letters "RS" with an arched lines like a rainbow over top.
- it is not known what or who the logo represents, but this firearm's manufacturer has been traced to the Suhler Jagd-und Sportwaffen GmbH firm, a cooperative of many smaller works, post 1985.

Model

- model is not marked on the firearm.
- "Made in Germany" is marked on the top of the left barrrel.
- "Special-Gewehrlaufstahl" is marked on top of the right barrel.
- the "Suhler" stamp, a 1 in a triangle, indicates this is a "first quality" firearm, and is marked on the barrel lug.
- this is a generic record for those "RS" side by side shotguns that have no model markings.
- features include: blued round side by side smoothbore barrels with a center rib with top-of-rib cross hatch design and a bead front sight; color case hardened front hinged receiver/frame with top tang mounted break open lever with cross hatch engraving and slide safety; "Suhler" trademark, "Der Waffenschmied"(armourer, sword and an anvil) is marked on the underside of the box lock action; double triggers; checkered walnut forearm and buttstock with plastic butt plate with the "Suhler" trademark; sling swivels.

Manufacturer

- "Made in Germany" is marked on the top of the left barrrel.
- "Suhler Jagd und Sportwaffen GmbH" trademark, (a swordsmith and an anvil with the letters TW inside the anvil) is stamped on the receiver/frame of the firearm.
- the "Suhler" trademark, (swordsmith and an anvil) is stamped on the butt plate.
- "Suhler" proof marks are stamped on the barrels and receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- side by side barrel configuration, hinged barrel design.
Serial Number	- serial number is usually marked on the watertable of the receiver/frame and on the bottom side of the rib between the barrels. - observed serial consisted of four numbers without a letter prefix or suffix. - observed serial number consisted of six numbers without a letter prefix or suffix.

Type:	Handgun
Action:	Revolver
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195157 - 1	38 SPL	6	63	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "RS" logo is marked on the left side of the receiver/frame.
- "RS" logo consists of the letters "RS" with arched lines like a rainbow over top.

Model

- model designation is not marked on the firearm.
- this is a compact double action revolver with solid top frame and swing out cylinder.
- this revolver resembles a Arminius model HW3 manufactured by Weihrauch.
- features include: round barrel with or without barrel rib; fixed front sight; knurled cylinder pin under barrel; integral fixed rear sight on solid top receiver/frame; fluted cylinder; spur hammer; single/double action trigger mechanism; checkered grips with square butt or round butt configuration.

Manufacturer

- "H. WEIHRAUCH" may be marked on the right side of the receiver/frame, forward of the cylinder.

Serial Number

- marked on the right side of the receiver/frame, between the cylinder and the barrel.
- serial number may also be marked on the top of the crane, visible when the cylinder is in the open position.
- a serial number consisting of six number was observed on one example.

Calibre

- "CAL. .38 SPECIAL" is marked on the left side of the barrel.

Shots

- swing out cylinder.

Notes

Make

- "RS" logo is marked on the left side of the receiver/frame.
- "RS" logo consists of the letters "RS" with arched lines like a rainbow over top.
- it is not known what or who the logo represents, but this firearm's manufacturer has been traced to the Suhler Jagd-und Sportwaffen GmbH firm, a cooperative of many smaller works, post 1985.

Model

- model designation is not marked on the firearm.
- this revolver resembles a Arminius model HW3 manufactured by Weihrauch.
- this is a generic entry when the model designation is not marked.
- features may include: round plain or ribbed barrel; solid top receiver/frame with fluted swing out cylinder; spur hammer; single/double action trigger mechanism; checkered grips in either a square butt or round butt configuration; blade front sight and fixed rear sight.

Serial Number

- serial number marked on the right side of the receiver/frame in front of the cylinder.
- may also be found in the crane cut-out.

Calibre

- calibre designation is marked on the barrel.

Notes

Make

- make is marked on the left side of the receiver/frame in the form of a logo.
- "RTS" is a logo owned by Stefano Ronchi, of Treviglio, Italy; Ronchi produced a variety of blank-firing revolvers under the "RTS" trademark, eventually being bought out by "Gun Toys" and eventually owned by Umarex.

Model

- model designation is not marked on the firearm.
- revolver is double action with exposed hammer, side opening loading gate or swing out cylinder.
- this model has a cast modular receiver/frame which is assembled with metal screws.
- the finish consists of black baked paint over the alloy castings with blued finish on the steel cylinder and cylinder retaining pin.
- fixed front and rear sights, wood grips retained by screws.
- this is a blank-firing revolver that has been converted to fire bulleted ammunition.

Manufacturer

- the letters "RTS" in a circle are marked on the revolver.
- "RTS" is a logo owned by Stefano Ronchi, of Treviglio, Italy; Ronchi produced a variety of blank-firing revolvers under the "RTS" trademark, eventually being bought out by "Gun Toys" and eventually owned by Umarex.

Action

- double action.

Serial Number

- serial number is marked on the bottom of the grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation marked "cal. 6mm' on the receiver/frame.
Other Markings	- 'Made in Italy' and Italian proof marks are marked on the receiver/frame.

Notes

Make

- Ruby Extra is a trade name that was introduced in 1955 and used by Gabilondo Y Cia of Spain and also ESTABLECIMIENTOS VENTURINI S.A. of Argentina.
- Ruby Extra within a circle or an oval is the company logo for this model line and it is usually located on either the left or right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model name does not appear on the firearm.
- firearm will be marked on rear left or right side of receiver with the words "Ruby Extra" within a circle or an oval; original grip plates will also have a metal medallion on each side bearing the name "Ruby".
- this firearm is a Spanish copy of Smith & Wesson revolver designs.
- the Ruby Extra revolver design was patented in March of 1929 by Gabilondo; production continued until stopped by the Spanish Civil War in 1936. Production resumed in 1949, duration of manufacture not known.
- double action, left-side swing-out cylinder, heavy barrel with low profile rib and ramp-type front sight.
- top strap may have a full-length single sighting notch or raised fixed notch-type sight at rear of top strap.
- Smith & Wesson-type cylinder release button located on left rear of receiver.
- non-shrouded ejector rod.
- also available in a Special Deluxe version with; pearl finish grips, ornate engraving on barrel and receiver, chromium, silver or gold plated finish.
- produced in 38 Special only.

Manufacturer

- "Gabilondo Y Cia - Elgoibar Espana" or a variation thereof will be marked on left side of barrel.

Serial Number

- serial number usually marked on lower butt strap.
- known examples have six digit numbers without prefix or suffix.

Barrel

- Gabilondo literature indicates factory barrel lengths of: 2"/51mm, 4"/102mm, 5"/127mm and 6"/152mm.

Calibre

- marked on the left side of the firearm.

Remarks

- NOTE POSSIBLE MODEL CONFUSION between the Ruby Extra Model XII, Model XIII and Model XXV:
- factory literature indicates that the model XII was manufactured in 38 SPL only, heavy barrel with low profile rib and ramp front sight, gooved top strap or fixed notch rear sight; research has revealed that some publications are listing the Model XIII (produced in 32 S&W LONG only) in 38 SPL with ventilated rib barrel and adjustable rear sight; it is believed that these references are incorrect; in fact, the Ruby Extra Model XII is the Model XIII counterpart in 38 SPL with low-profile ribbed barrel, fixed sights etc., while the Model XXIII is the heavy barrel, ventilated rib, adjustable sight version of the Model XII.
- references to the Ruby Extra Model XXV cannot be substantiated by any published literature outside of a Distributor's catalog which is of doubtful significance; any reference to a Ruby Extra Model XXV should be referred to the Ruby Extra Model XXIII.

Notes

Make

- Ruby Extra is a trade name that was introduced in 1955 and used by Gabilondo Y Cia of Spain and also ESTABLECIMIENTOS VENTURINI S.A. of Argentina.
- Ruby Extra within a circle or an oval is the company logo for this model line and it is usually located on either the left or right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model name does not appear on the firearm.
- firearm will be marked on the left or right side of the receiver/frame with the words "Ruby Extra" within a circle or an oval; grip panels will have a metal medallion on each side bearing the name "Ruby".
- the Ruby Extra revolver design was patented in March of 1929 by Gabilondo; production continued until the Spanish Civil War in 1936 and resumed in 1949, with duration of manufacture up to 1970.
- features include: double action; left-side swing-out cylinder; heavy barrel with low profile rib with ramp-type front sight and a full-length single sighting notch or raised fixed notch-type rear sight; Smith & Wesson-type cylinder release button located on left rear of receiver/frame; non-shrouded ejector rod.
- also available in Special Deluxe version with pearl finish grips, ornate engraving on barrel and receiver/frame and chromium, silver or gold plated finish.
- produced in 22 Long Rifle only.

Manufacturer

- "Gabilondo Y Cia - Elgoibar Espana" or a variation thereof will be marked on left side of barrel.

Serial Number

- serial number usually marked on lower butt strap.
- known examples consist of six numbers without prefix or suffix.

Calibre

- Gabilondo literature indicates that this model was produced in calibre 22 LR only.

Remarks

- Note possible model/calibre confusion: some reference books list the Ruby Extra Model XIV as being available in 22 LR and 32 calibre; this is believed to be incorrect; Gabilondo literature indicates that the Ruby Extra Model XIV was available in 22 LR only with the Ruby Extra Model XIII as being the 32 S&W LONG calibre counterpart.

Notes

Make

- "RUDOLPH" or "W. RUDOLPH" is usually marked on the firearm.
- William Rudolph was a San Francisco, California-based gunsmith and retailer during the 1850s and 1860s.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a "hawken"-styled hunting rifle manufactured for William Rudolph by Slotter & Co. prior to 1873.
- features include: browned or blued finish; open fixed or adjustable sights; octagonal or half-round/half-octagonal barrel; underbarrel ramrod thimbles; half-length straight-grip maple or walnut stock (some with brass or German silver finishings); external manually-cocked hammer on the lockplate; finial triggerguard/gripstrap; double-set triggers; and a crescent butt.

Manufacturer

- "SLOTTER & Co. PHILa" is usually marked on the firearm.
- Slotter & Company was located in Philadelphia, Pennsylvania, U.S.A. from 1860 to 1870.
- Slotter & Company was founded by Charles and Henry Schlotterbeck.
- Slotter & Company originally manufactured copies of Henry Deringer's pistol.
- Henry Deringer filled a a law suit against Slotter & Company for infringement of trade name circa 1863.
- Slotter & Company took into their partnership, a John Deringer to be able to legally use the Deringer name circa 1863.

Action

- muzzle-loaded, percussion, single-shot.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "RUGER" was observed marked on the left side of the receiver/frame.
Model	- introduced in 1964. - "10/22" was observed marked on the left side of the receiver/frame. - features include: alloy steel or stainless steel construction; round barrel with blade front sight with gold bead and an adjustable rear sight; receiver/frame is drilled and tapped for scope mounts; solid top receiver/frame with right side cocking handle and ejection port; cross bolt safety is located on the rear of the trigger guard; detachable box magazine release is located behind the magazine well; one piece hardwood, laminated or synthetic pistol grip or thumbhole stock; sling swivels; matte black or stainless finish. - overall length with a 410 mm (16.12") barrel is 864 mm (34.0"), and the average weight is from 2.04 kgs (4.5 lbs) to 3.1 kgs (6.88 lbs). - overall length with a 470 mm (18.5") barrel is 940 mm (37.0"), and the average weight is 2.3 kgs (5.0 lbs). - overall length with a 508 mm (20") barrel is 978 mm (38.5"), and the average weight is 3.4 kgs (7.5 lbs).
Manufacturer	- manufacturer's name and address are marked on the barrel.
Action	- blowback operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - observed serial number consisted of three numbers, a dash (-) and five numbers. - beginning in 2014, Ruger added an extra digit in front of the dash used in the serial numbering (i.e.: xxxx-xxxxx) of their 10/22 model line.
Calibre	- "22 LR CALIBER" was observed marked on the left side of the receiver/frame.
Shots	- detachable, rotary box magazine. - accessory magazines with increased capacity are available.
Canadian Law Comments	- Ruger BX-25 is a twenty-five shot magazine available for this Model firearm. - Ruger BX-25 magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

FRT Report

Firearm Reference Number (FRN): 195339
Make: Ruger
Model: 10/22 Air Rifle

Summary

Make:	Ruger
Model:	10/22 Air Rifle
Manufacturer:	Umarex
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195339 - 1	177 PELLET	10	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- marked on the left side of the receiver/frame and on the right side to the rear of the cocking handle.

Model

- introduced in 2019.
- "10/22 AIR RIFLE" is marked on the left side of the receiver/frame.
- designed to resemble the Ruger 10/22 rifle.
- features include: round rifled barrel; raised bead front sight; fold down rear sight; receiver/frame tapped and drilled for accessories; right side cocking handle; double action/single action trigger mechanism; cross-bolt safety and magazine release located forward of the trigger guard; one piece checkered synthetic stock with single barrel band and removable butt pad to access the two CO2 cartridges; black finish.
- detachable box magazine contains a removable 10-shot circular disc.
- overall length with a 457mm (18") barrel is 942mm (37.1"); average weight is 1.98kg (4.36 lbs).

Manufacturer

- "Manufactured by Umarex under license from Sturm, Ruger & Co., Inc." is marked on the right side of the receiver/frame.

Action

- CO2 (carbon dioxide) powered.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- marked on left side of the receiver/frame.
- observed serial number consisted of a two number prefix, followed by one letter and five numbers.

Calibre

- "Cal. 177 (4.5mm)" is marked on left side of the receiver/frame.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Firearm Reference Number (FRN): 169583
Make: Ruger
Model: 10/22 ATI AR

Summary

Make:	Ruger
Model:	10/22 ATI AR
Manufacturer:	Sturm Ruger
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
169583 - 3	22 LR	10	410	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
169583 - 1	22 LR	10	422	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
169583 - 2	22 LR	15	422	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "RUGER Newport, NH" and logo is marked on the left side of the clam shell stock kit.

Model

- "Model: 10/22" over ".22 LR Cal." is marked on the left side of the clam shell magazine well.
- "10/22 ATI AR" is dress-up as a look like of a Colt AR-15/M16 type rifle.
- "10/22 ATI AR" uses an "ATI", "Advanced Technology International" stock kit.
- "ATI" is also selling a similar retrofit kit as a "Ruger 10/22 AR-22 stock system".
- features include: threaded muzzle for flash hider; removable, accessory folding front & rear sights; six sided with accessory rail threaded anchor points, ventilated, free floating handguard with a full length top rail; accessory rail flat top upper assembly; cross-bolt safety at the front of the trigger guard; extended magazine release located behind the magazine well; collapsible buttstock; synthetic pistol grip; matte black or tan finish.
- overall length with 422mm (16.62") barrel is 914mm (36") and average weight is 2.27 kg (5 lbs).

Manufacturer

- "RUGER Newport, NH" and logo is marked on the left side of the stock.

Action

- blowback operated.

Serial Number

- serial number is marked on the left side of the receiver/frame visible through an opening in the clam shell stock.
- beginning in 2014, Ruger added an extra digit in front of the dash used in the serial numbering (i.e.: xxxx-xxxxx) of their 10/22 model line.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre identification is marked on the left side of the stock magazine well. - calibre identification is also usually marked on the barrel. - 22 LR rifling characteristics: 1 turn in 16 inches, right hand twist.
Shots	- detachable rotary box magazine.
Canadian Law Comments	- Ruger BX-25 is a twenty-five shot magazine available for this Model firearm. - Ruger BX-25 magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

Notes

Make

- "Ruger" is marked on the left side of the receiver/frame.
- "Sturm, Ruger & Co., Inc." is marked on the top of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 1964.
- "Model 10/22 Carbine" is marked on the left side of the receiver/frame.
- manufactured in excess of 3,000,000 units by 1993.
- has a sliding cross-button type safety.
- may have single folding-leaf rear sight, adjustable for elevation, gold bead front sight.
- receiver/frame is drilled and tapped for scope mount adapter.
- magnum version has integral scope mounts machined into the receiver/frame.
- new features for 2006 with 410mm barrel length and fibre optic front and rear sights; flat butt pad; clear magazine with red rotor.

Manufacturer

- the manufacturer's name and address are marked on the top of the barrel.

Action

- blowback operated.

Serial Number

- Range: 1 to 200850
  C1 to C4424
  D89000 to D90146
  881045 to 881620
  B121-07961 to B121-08071
  B131-08075 to B131-09355
  110-00000 to 129-99999
  230-00000 to 241-00000, etc.
- the serial number is located on the front left side of the receiver/frame.
- beginning in 2014, Ruger added an extra digit in front of the dash used in the serial numbering (i.e.: xxxx-xxxxx) of their 10/22 model line.

Calibre

- the calibre designation is marked on left side of receiver/frame.

Shots

- detachable rotary box magazine.

Canadian Law Comments

- Ruger BX-25 is a twenty-five shot magazine available for this Model firearm.
- Ruger BX-25 magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

FRT Report

Firearm Reference Number (FRN): 122030
Make: Ruger
Model: 10/22 Carbine 40th Anniversary Commemorative

Summary

Make:	Ruger
Model:	10/22 Carbine 40th Anniversary Commemorative
Manufacturer:	Sturm Ruger
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122030 - 2	22 LR	10	457	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
122030 - 1	22 LR	10	470	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
122030 - 3	22 LR	10	508	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- the "RUGER" trade name and logo are marked on the left side of the receiver/frame.
Model	- "RUGER" over the "trademark logo", over "10/22 CARBINE" over "40th ANNIVERSARY" is marked on a nickel-silver medallion inlaid into the right side of the stock. The left side of the receiver/frame is marked "10/22 Carbine". - introduced in 2004. - features include: round tapered barrel, solid top receiver/frame with right side ejection; standard black or clear removable rotary magazine; cross-bolt safety; open adjustable sights; receiver/frame is drilled and tapped for scope mounts; one-piece hardwood pistol grip stock with curved butt plate and barrel band; blued metal finish.
Manufacturer	- the manufacturer's name and address are marked on the top of the barrel.
Action	- blowback operated.
Serial Number	- the serial number is located on the front left side of the receiver/frame.
Calibre	- the calibre designation is marked on left side of receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable rotary box magazine.
- aftermarket magazines are available for this model that will increase the shot capacity.

Canadian Law Comments

- Ruger BX-25 is a twenty-five shot magazine available for this Model firearm.
- Ruger BX-25 magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

Notes

Make

- marked on the left side of the firearm.

Model

- "10/22 Carbine All Weather" is not marked on the firearm.
- "RUGER MODEL 10/22 Carbine" is marked on the left side of the receiver/frame. - Ruger literature uses a "K" model designation prefix in literature to denote stainless steel construction.
- this is one of many variations of the model 10/22 Carbine offered by Ruger. All variations share the same basic configuration but are distinguishable by features. Those variations built to fire calibre 22 MAG or 17 HMR ammunition have raised scope mount blocks cast as an integral part of the receiver/frame while those models chambered for calibre 22 LR ammunition have the top of the receiver/frame drilled and tapped for a scope mount.
- features include: blued or stainless steel barrel, barrel band and action; adjustable, folding rear sight; gold bead front sight; cross-bolt safety; receiver/frame is drilled and tapped for scope mount adapter; "All Weather", full contour checkered synthetic or walnut stock with a grip cap.

Manufacturer

- the manufacturer's designation is marked on the top of the barrel.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number rationalization unknown. - serial number is marked on the left side of the firearm. - beginning in 2014, Ruger added an extra digit in front of the dash used in the serial numbering (i.e.: xxxx-xxxxx) of their 10/22 model line.
Calibre	- calibre designation is marked on the left side of the firearm.
Shots	- detachable rotary magazine.
Canadian Law Comments	- Ruger BX-25 is a twenty-five shot magazine available for this Model firearm. - Ruger BX-25 magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Notes

Make

- marked on the left side of the receiver/frame and on the top of the barrel.

Model

- introduced in 1967 and built from/on a deluxe 10/22 Carbine.
- "10/22 CARBINE" is marked on the left side of the receiver/frame.
- there are three distinctive features that help identify the Canadian Centennial Gun from the other 10/22 Carbines.
- serial number starts with a C prefix.
- a silver medallion, set into the right side of the buttstock. The medallion bears the official crest of each of Canada's ten provinces and two territories and in the center of the crest is the EXPO 67 symbol with Canadian Centennial Gun-1967 around the EXPO symbol.
- a special design is engraved on the top of the receiver/frame. The design incorporates the EXPO symbol in the center with 1867 and 1967 at the base of the symbol and to the right and left side of the symbol are branches of the Canadian maple leaf in a scroll pattern and in the top center are the words "CANADIAN CENTENNIAL GUN ".

Manufacturer

- the complete Ruger address is usually marked on the top of the barrel.

Action

- blowback operated.

Serial Number

- marked on the left side of the receiver/frame.
- serial number range reported as C1 to C4424, higher numbers may exist and S prefix may also exist.

Shots

- detachable, rotary, box magazine.

Notes

Make

- "RUGER" is marked on the left side of the receiver/frame.

Model

- the complete model designation is not marked on the firearm, only "Model 10/22 Carbine" is marked on the left side of the receiver/frame. Ruger uses a "K" model designation prefix (K10/22T) in literature to denote stainless steel construction.
- introduced in 1996 as a "Target" grade version of the 10/22 Carbine. All variations of the model 10/22 Carbine share the same basic configuration but are distinguishable by features. Those variations built to fire calibre 22 MAG or 17 HMR ammunition have raised scope mount blocks cast as an integral part of the receiver/frame while those models chambered for calibre 22 LR ammunition have the top of the receiver/frame drilled and tapped for a scope mount.
- "Ruger Hammer Forged" may be marked on the top of the barrel.
- features include: hammer forged target barrel without sights; aluminum receiver/frame with a laminated hardwood standard or thumbhole stock; sliding cross-button type safety; receiver/frame is drilled and tapped for scope mount adapter.
- in 2005 Ruger introduced a special edition for the USA Shooting Team called the 10/22 Race Rifle with a special serial number range from RRR001 to RRR1500.
- in 2007 Ruger introduced the 10/22 -USST for the US Shooting Team to compete at the 2008 Summer Games in Beijing, China and with serial numbers beginning with USST-0001 and limited to 2008 units produced.
- features a multi-colour, laminated thumbhole stock with a barracuda style forend and a "Race Rifle" marked grip cap and the USA shooting Team logo.
- available with a large size thumbhole laminated stock.

Manufacturer

- "STURM, RUGER & CO., INC. SOUTHPORT, CONN. U.S.A." is marked on the underside of the barrel.

Action

- blowback operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- beginning in 2014, Ruger added an extra digit in front of the dash used in the serial numbering (i.e.: xxxx-xxxxx) of their 10/22 model line.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- ".22 LR CALIBER" may be marked on the left side of the receiver/frame.
Shots	- detachable, rotary box magazine. - aftermarket magazines are available for this model that will increase the shot capacity.
Canadian Law Comments	- Ruger BX-25 is a twenty-five shot magazine available for this Model firearm. - Ruger BX-25 magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

Notes

Make

- "THE RUGER 10/22 RIFLE - 22 LR" over "FIFTY YEARS - 1964 - 2014" was observed marked on the left side of the receiver/frame.

Model

- "THE RUGER 10/22 RIFLE - 22 LR" over "FIFTY YEARS - 1964 - 2014" was observed marked on the left side of the receiver/frame.
- this handgun resembles a Ruger model 22 Charger pistol.
- this semi-automatic handgun uses or is adapted from a Ruger model 10/22 rifle.
- features observed: no iron sights; round stainless steel barrel; flat side alunimum alloy receiver/frame with right side ejection; receiver/frame is drilled and tapped for a Picatinny type rail; detachable box magazine release is mounted on the rear of the magazine well; cross bolt safety is mounted on the trigger guard; one piece synthetic stock with a ribbed vertical pistol grip, stud for a folding bipod and a sling swivel attachments.
- other custom features may be encountered.

Type

- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

Action

- blowback operated.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- serial number observed consisted of three numbers, a dash (-), and five numbers.

Calibre

- "THE RUGER 10/22 RIFLE - 22 LR" over "FIFTY YEARS - 1964 - 2014" was observed marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable rotary box magazine.

Canadian Law Comments - CC 84(1) "restricted firearm" para. (a) a handgun that is not a prohibited firearm,
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

Model

- introduced in 2014.
- "THE RUGER 10/22 RIFLE . 22 LR" over "50 YEARS . 1964 - 2014" is marked on the left side of the receiver/frame.
- "50th Anniversary" logo with the number "50" and "RUGER 10/22" over "1964 - 2014" is marked on the right side of the breech block.
- this is a commemorativer version of the 10/22 made in 2014 to celibrate the 50th anniversary of this firearm.
- Commemorative rifle is available in blued (with a wood stock) or stainless (with a synthetic stock)
- a stainless version of this rifle with a synthetic stock with interchangeable cheekpieces/buttpads, a factory flash hider, optics rail, extended magazine release, and peep sights is also produced as the "50th Anniversary Design Contest" rifle.

Manufacturer

- the manufacturer's designation is marked on the top of the barrel.

Action

- blowback.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number observed had a "0001" prefix.

Shots

- detachable, rotary box magazine.
- aftermarket magazines are available for this model that will increase the shot capacity.

Notes

Make

- "RUGER" is marked on the left side of the receiver/frame.

Model

- introduced in 2012.
- "RUGER MODEL 10/22" is usually marked on the left side of the receiver/frame.
- this is a takedown version of the Ruger model 10/22.
- features include: alloy steel or stainless steel construction; fixed gold bead front sight and an adjustable folding leaf rear sight; round, tapered barrel with or without a threaded muzzle for a flash suppressor; solid top receiver/frame with right side ejection port; receiver/frame is drilled and tapped for scope mounts; cross-bolt safety is located in front of the trigger guard; extended magazine release is located between the magazine and the trigger guard; takedown lever is located in front of the magazine well; adjustable tightening barrel nut is located in front of the receiver/frame; two piece black synthetic forearm with a single barrel band and pistol grip buttstock with a curved butt plate; satin black or matte stainless finish.
- overall length with a 422 mm (16.62") barrel and flash suppressor is 934 mm (36.75"), and the average weight is 2.1 kgs (4.67 lbs).
- overall length with a 470 mm (18.5") barrel is 940 mm (37"), and the average weight is 2.1 kgs (4.67 lbs).

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number consists of three numbers, a dash (-), and five numbers. - beginning in 2014, Ruger added an extra digit in front of the dash used in the serial numbering (i.e.: xxxx-xxxxx) of their 10/22 model line.
Calibre	- calibre is marked on the left side of the receiver/frame.
Shots	- detachable rotary box magazine.
Canadian Law Comments	- Ruger BX-25 is a twenty-five shot magazine available for this Model firearm. - Ruger BX-25 magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

Notes

Make

- "RUGER" is marked on the left side of the receiver/frame.
- "BEFORE USING GUN - READ WARNINGS IN INSTRUCTION MANUAL AVAILABLE FROM" over "RUGER, NEWPORT, NH USA" is usually marked on the barrel.
- "WARNING - FEDERAL LAW PROHIBITED THE" over "USE OF BARRELS LESS THAN 16" ON RIFLES" is usually marked on the underside of the barrel.

Model

- manufactured from 2007 to 2012, and re-introduced in 2014.
- "RUGER 22 CHARGER" is marked on the left side of the receiver/frame.
- "22 Charger" uses a Ruger model 10/22 action.
- features include: no iron sights; round heavy barrel with or without a threaded muzzle for muzzle protector, sound suppressor or flash hider; solid top receiver/frame with right side ejection; receiver/frame is drilled and tapped for an Picatinny type rail sight mount; extended magazine release; cross bolt safety; black/grey laminated ergonomically designed, warp-proof, full pistol grip stock or a brown laminated stock with a synthetic vertical A2 type pistol grip; adjustable bipod; black matte metal finish.
- overall length with a 254 mm (10") barrel is 489 mm (19.25").
- weight is from 1.42 kg (3.13 lbs) to 1.59 kg (3.5 lbs).

Manufacturer

- "RUGER" is marked on the left side of the receiver/frame.
- "BEFORE USING GUN - READ WARNINGS IN INSTRUCTION MANUAL AVAILABLE FROM" over "RUGER, NEWPORT, NH USA" is usually marked on the barrel.
- "WARNING - FEDERAL LAW PROHIBITED THE" over "USE OF BARRELS LESS THAN 16" ON RIFLES" is usually marked on the underside of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- serial number is marked on the front left side of the receiver/frame. - serial number of referenced examples consisted of three numbers prefix a dash and five numbers.
Calibre	- calibre is marked on the left side of the receiver/frame. - calibre identification is also usually marked on the barrel. - 22 LR rifling characteristics: 1 turn in 16 inches, right hand twist.
Shots	- detachable rotary box magazine. - use all magazines available for the Ruger 10/22 rifle.
Canadian Law Comments	- Ruger BX-25 is a twenty-five shot magazine available for this Model firearm. - Ruger BX-25 magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

Notes

Make

- "RUGER" is marked on the left side of the receiver/frame.

Model

- introduced in 2001.
- "RUGER 22/45" may be marked on left side of the receiver/frame
- "GREAT EIGHT" may be marked on the right side of the barrel.
- this model was manufactured for Davidson's Supply Company, a firearm distributor located in Prescott Arizona. Davidson's Supply Company requested Strum Ruger to manufacture Ruger MARK II and 22/45 handguns with a 203 mm barrel and mark them "GREAT EIGHT" on the right side of the barrel.
- features include: black Zytel composite receiver/frame and slab side bull barrel; fixed front and adjustable rear sight; a bolt stop with the lever located on the left side of the receiver/frame above the grip; a receiver/frame with scallops at the rear; the bolt moves out of the rear of the receiver/frame; stainless steel trigger; the magazine release is located on the butt of the grip; the safety is located on the left side of the receiver/frame, and has black composite grips.

Manufacturer

- "STURM, RUGER & CO., INC." is marked on the left side of the barrel.

Action

- blowback operated.

Serial Number

- the serial number is marked on the receiver/frame as sequential numbers.

Calibre

- ".22 CAL. LONG RIFLE" is marked on the left side of the receiver/frame.

Shots

- detachable box magazine.

Model

- introduced in 2006.
- "MKIII HUNTER" was observed marked on the right rear of the receiver/frame behind the ejection opening and "RUGER 22/45 MK III" was observed marked on the receiver/frame on the left rear of the receiver/frame.
- the Ruger MARK III series of pistols was introduced in 2004.
- the "45" in the model designation denotes the use of a grip frame that replicates the 11 degree grip angle and feel of the "Colt model 1911, calibre 45 AUTO" pistol, the "22" denotes the calibre as "22 LR" and the "MARK III" indicates "new for 2004" features.
- features include: satin stainless steel fluted heavy barrel; fixed ramp fibre optic front and adjustable rear sight; the receiver/frame is drilled and tapped for telescopic sight mounts; magazine release, slide release and safety catch are located on the left side of the grip; chrome plated single trigger; satin-finish black Zytel, polymer grip with moulded checkering.
- this firearm model is equiped with a key-activated locking system which prevents unauthorized use by locking the safety catch in the "on" position preventing the bolt from being opened.
- the "RUGER 22/45 MK III HUNTER" pistol has a magazine safety which prevents the pistol from discharging when the cartridge magazine is not inserted into the firearm and the cartridge magazine has an elongated bottom plate. For these reasons the cartridge magazine utilized in the "RUGER 22/45 MK III HUNTER" fiream may not be used with any of the older MARK I, MARK II or the standard MARK III Ruger handguns.
- overall length with a 175mm (6 7/8") barrel is 276mm (10 7/8"), average weight is 0.97kg (2.12oz).

Manufacturer

- "RUGER" was observed marked on the left side of the receiver/frame.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number of an observed example was marked on the front right side of the receiver/frame and consisted of three numbers, followed by a dash, followed by five numbers.
Calibre	- calibre designation may be marked on the left side of the receiver/frame. - calibre designation is marked on the left side of the receiver/frame.. - 22 LR rifling characteristics: 1 turn in 16 inches, right hand twist.
Shots	- detachable box magazine. - due to the magazine safety mechanism and the elongated magazine bottom plate, 22/45 MARK III HUNTER pistol magazines are not interchangeable with any of the older MARK I, MARK II or the standard MARK III Ruger handguns.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
44508 - 1	22 MAG	9	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this model comes with a heavy weight barrel and laminated stock.
- metal is finished in target grey.
- not equipped with sights, but receiver/frame is machined to accept Ruger 1" rings.
- referred to in Ruger literature as the "K77/22VMBZ", the K prefix indicates stainless steel construction.

Action

- turn-bolt design.

Serial Number

- located on left front of the receiver/frame.

Calibre

- marked on left side of barrel.

Shots

- detachable, rotary box magazine.

Notes

Make

- the Ruger name is marked on the barrel and on the left side of the receiver/frame.

Model

- the model designation appears on the left side of the receiver/frame as "77/50".
- Ruger introduced the muzzle loading model 77/50 in late 1997, it first appears in their 1998 product catalogue. The same basic design is available in several configurations. While all versions share the same basic specifications each variation is identifiable by specific features.
- the base model, known as the 77/50 or 77/50 Sporter is available with a blued finish and hardwood (catalogue designation 77/50RS) or black synthetic (catalogue designation 77/50RSP).
- Ruger also offers an "Officer's Model" (introduced in 1999, catalogue designation 77/50RSO) with a blued finish and a checkered, straight grip, American black walnut stock.
- an "All Weather" model was also introduced in 1999. The "All Weather" features a stainless steel receiver/frame and barrel and a black synthetic (catalogue designation K77/50RSP) or black/gray laminated wood (catalogue designation K77/50RSBBZ) stock. Ruger also refers to the laminated stock version as their "77/50 Stainless Steel" model.
- other features include: turn-bolt operated, in-line ignition system that uses a #11 percussion cap; receiver/frame has integral scope mount bases machined into the front and rear bridge and is drilled and tapped for use with a peep sight; gold bead front sight with a barrel mounted single folding-leaf rear sight; three-position wing safety; single barrel band and a synthetic ramrod mounted under the barrel.

Manufacturer

- the manufacturer's name is marked on the barrel and on the left side of the receiver/frame.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the left front end of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - rifling characteristics: eight grooves, 1 turn in 28", right hand twist.

Notes

Make

- "RUGER" is marked on the top rear of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 1974.
- "AC-556" is marked on the top rear of the receiver/frame.
- this firearm was also known as the "AC-556GF" or "KAC-556" or "KAC-556GF".
- this is a full size, select fire version of the Ruger Mini-14 for law enforcement/government use.
- a compact version known as the "AC-556K" was available.
- features include: muzzle flash hider; military bayonet stud; fixed wood stock or folding stock; blue or stainless steel finish; fire control mechanism with 3 position selector switch/lever (semi automatic, 3 round burst or full automatic).
- Ruger catalogs use a "K" prefix to denote stainless steel construction, eg. "K AC-556" and an "F" or "GF" suffix to denote a folding stock, eg. "AC-556 GF". These markings do not appear on the firearm.

Manufacturer

- the manufacturer's name and address are marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- the serial numbering ranges is from 190-08182 to 192- 01211 (1993).
- the serial number rationalization does not distinguish a "AC-556" model from a "AC-556K" model.

Calibre

- "CAL. .223" is marked on the top rear of the receiver/frame.

Shots

- detachable box magazine.

Remarks

- semi automatic only Mini-14 catalogue variations include;
- Mini-14, also known in Ruger literature as Mini-14/5; standard model
- Mini-14, also known in Ruger literature as Mini-14/5F; standard model with a folding stock. Introduced in 1982, restricted to law enforcement sales only in 1990.
- Mini-14, also known in Ruger literature as K-Mini-14/5; standard model in stainless steel, introduced in 1979.
- Mini-14, also known in Ruger literature as K-Mini-14/5F; standard model in stainless steel, folding stock, introduced in 1982 and listed through 1989.
- Ranch Rifle, also known in Ruger literature as Mini-14/5R or Mini-14R; same as the standard Mini-14/5 but now equipped with a folding rear sight (as of 2005 equipped with a fixed, protected rear peep sight) and integral dovetails for Ruger 1" scope rings. Introduced in 1982.
- Ranch Rifle, also known in Ruger literature as K-Mini-14/5R; same as the standard Ranch Rifle (Mini-14/5R) but in stainless steel, first listed in 1985.
- Ranch Rifle, also known in Ruger literature as Mini-14/5RF or K-Mini-14/5RF; same as the standard Ranch Rifle (blued or stainless steel) but equipped with a folding stock. Listed 1986 through 1989/90.
- Ranch Rifle, also known in Ruger literature as Mini-14/5R.222; same as Ranch Rifle (Mini-14/5R) but in calibre 222 REM.
- Mini-14 GB, also known in Ruger literature as Mini-14 GB/20 or Mini-14 GB Government model; law enforcement/government sales only, not sold commercially, GB suffix denotes the flash suppressor and lug for the U.S. "government bayonet", 20 shot magazine standard, 30 shot magazine optional.
- Mini-14 GB, also known in Ruger literature as K-Mini-14 GB/20; same as Mini-14 GB/20 but in stainless steel.
- Mini-14 GB, also known in Ruger literature as Mini-14 GBF/20; same as Mini-14 GB/20 but with a folding stock.
- Mini-14 GB, also known in Ruger literature as K-Mini-14 GBF/20; same as K-Mini-14 GB/20 but with a folding stock.

Notes

Make

- "RUGER" is marked on the top rear of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "AC-556K" is not marked on the firearm.
- "AC-556" is marked on the top rear of the receiver/frame.
- the "K" suffix in the model designation denotes the short barrel version of the original full size "AC-556" selective fire weapon.
- this firearm was also known as the "AC-556K F" or "AC-556 F".
- this is a compact, select fire version of the Mini-14 for law enforcement/government use.
- features include: muzzle flash hider; fixed wood stock or folding stock; blue or stainless steel finish; fire control mechanism with 3 position selector switch/lever (semi automatic, 3 round burst or full automatic).
- Ruger catalogs use a "K" prefix to denote stainless steel construction, eg. "K AC-556 K" and an "F" suffix to denote a folding stock, eg. "K AC-556 F". These markings do not appear on the firearm.

Manufacturer

- the manufacturer's name and address are marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- the serial number range is from 190-08182 to 192- 01211 (as of 1993).
- the serial number rationalization does not distinguish an "AC-556" model from an "AC-556K" model.

Calibre

- "CAL. .223" is marked on the top rear of the receiver/frame.

Shots

- detachable box magazine.

Remarks

- semi automatic only Mini-14 catalogue variations include;
- Mini-14, also known in Ruger literature as Mini-14/5; standard model
- Mini-14, also known in Ruger literature as Mini-14/5F; standard model with a folding stock. Introduced in 1982, restricted to law enforcement sales only in 1990.
- Mini-14, also known in Ruger literature as K-Mini-14/5; standard model in stainless steel, introduced in 1979.
- Mini-14, also known in Ruger literature as K-Mini-14/5F; standard model in stainless steel, folding stock, introduced in 1982 and listed through 1989.
- Ranch Rifle, also known in Ruger literature as Mini-14/5R or Mini-14R; same as the standard Mini-14/5 but now equipped with a folding rear sight (as of 2005 equipped with a fixed, protected rear peep sight) and integral dovetails for Ruger 1" scope rings. Introduced in 1982.
- Ranch Rifle, also known in Ruger literature as K-Mini-14/5R; same as the standard Ranch Rifle (Mini-14/5R) but in stainless steel, first listed in 1985.
- Ranch Rifle, also known in Ruger literature as Mini-14/5RF or K-Mini-14/5RF; same as the standard Ranch Rifle (blued or stainless steel) but equipped with a folding stock. Listed 1986 through 1989/90.
- Ranch Rifle, also known in Ruger literature as Mini-14/5R.222; same as Ranch Rifle (Mini-14/5R) but in calibre 222 REM.
- Mini-14 GB, also known in Ruger literature as Mini-14 GB/20 or Mini-14 GB Government model; law enforcement/government sales only, not sold commercially, GB suffix denotes the flash suppressor and lug for the U.S. "government bayonet", 20 shot magazine standard, 30 shot magazine optional.
- Mini-14 GB, also known in Ruger literature as K-Mini-14 GB/20; same as Mini-14 GB/20 but in stainless steel.
- Mini-14 GB, also known in Ruger literature as Mini-14 GBF/20; same as Mini-14 GB/20 but with a folding stock.
- Mini-14 GB, also known in Ruger literature as K-Mini-14 GBF/20; same as K-Mini-14 GB/20 but with a folding stock.

Firearm Reference Number (FRN): 127933
Make: Ruger
Model: Air Hawk

Summary

Make:	Ruger
Model:	Air Hawk
Manufacturer:	Umarex
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127933 - 1	177 PELLET	1	475	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	
127933 - 2	177 PELLET	1	475	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "RUGER AIR HAWK" is marked on the right side of the receiver/frame.
- "Ruger" logo over "Manuf. under license from Sturm Ruger & Co. Inc." is marked on the left side of the barrel block.

Model

- "RUGER AIR HAWK" is marked on the air rifle.
- introduced in 2008.
- this is a standard-pattern break-barrel spring-piston air rifle.
- features include: round rifled steel barrel with muzzle brake; fibre optic front sight and adjustable fiber optic rear sight; automatic safety; adjustable trigger; round tubular receiver/frame with scope mount rail; one piece wood pistol-grip stock with cheekpiece and recoil pad; blued finish.

Manufacturer

- "MADE IN CHINA" over "Manuf. under license from Sturm Ruger & Co. Inc." is marked on the left side of the barrel block.
- Umarex has the Ruger Air Hawk Elite air rifle manufactured under license from Sturm, Ruger & Company, Incorporated.

Action

- hinged barrel design, spring piston air rifle.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the left side of the barrel block.
- serial number's of observed examples have consisted of eight numbers and usually begin with a series of zeros.
- serial number sequences appears to be shared with other Ruger air guns made by Umarex.
- a letter "C" suffix in the serial number denotes the reduced velocity version (490fps).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- The company logo is marked on the firearm. - Company logo is a stylized "Phoenix" with its wings splayed and a Capital "R" in the center bottom of the design. - "RUGER" is marked on the left side of the receiver/frame.
Model	- introduced in 2012. - "AMERICAN" was observed marked on the left side of the receiver/frame. - features include: no iron sights; round tapered barrel with a rifled bore; solid top receiver/frame is drilled and tapped for scope mounts; receiver/frame has a right side ejection port; bolt release is located at the rear left side of the receiver/frame; slide lever thumb safety is located at the rear of the receiver/frame but attached to the trigger assembly; adjustable Ruger Marksman single action trigger mechanism; black synthetic semi-pistol grip one piece stock is fitted with a rubber recoil pad, pistol grip cap, and sling swivel studs; matte black finish. - other features are a full diameter bolt body with a three locking lug system; a 70 degree bolt throw; detachable box magazine with built in magazine release and a trigger with a built in safety. - overall length with a 410mm (16.12") barrel is 914mm (36"), weight 2.5kgs (5.5lbs). - overall length with a 457 mm (18") barrel is 934 mm (36.75"), and the average weight is 2.7 kgs (6 lbs). - overall length with a 559 mm (22") barrel and with the short action is 1067 mm (42") and with the long action is 1080 mm (42.5"). - average weight for a rifle with the short action is 2.7 kgs (6.12 lbs) and with the long action is 2.8 kgs (6.25 lbs).
Manufacturer	- The company logo is marked on the firearm. - Company logo is a stylized "Phoenix" with its wings splayed and a Capital "R" in the center bottom of the design. - "RUGER" is marked on the left side of the receiver/frame.
Action	- turn-bolt design.
Serial Number	- The serial number is marked on the left side of the receiver/frame.
Calibre	- calibre was observed marked on the left side of the barrel. - 17 HMR rifling characteristics: 1 turn in 9 inches, right hand twist. - 22 LR rifling characteristics: 1 turn in 16 inches, right hand twist. - 22 MAG rifling characteristics: 1 turn in 14 inches, right hand twist. - 223 REM rifling characteristics: 1 turn in 8 inches, right hand twist. - 300 AAC BLACKOUT rifling characteristics: 1 turn in 7 inches, right hand twist. - 350 LEGEND rifling characteristics: 5-grooves, 1 turn in 16 inch, right hand twist. - 6.5MM CREEDMOOR rifling characteristics: 1 turn in 8 inches, right hand twist. - Rifling characteristics in calibre 6.5MM GRENDEL: 6 grooves, 1 turn in 8 inches, right hand twist.
Shots	- detachable box magazine. - Some models of the Ruger American Rimfire Rifle are designed to use Ruger 10/22 type rifle magazine; these are usually sold with the Ruger BX-1 9-round or 10-round magazine; - Some models of the Ruger American Rifle are designed to use AR15/M16 type rifle magazine; these are usually sold with a 10-round magazine; - Some models of the Ruger American Rifle are designed to use Accuracy International type rifle magazine;
Canadian Law Comments	- Ruger BX-25 is a twenty-five shot magazine available for this Model firearm. - Ruger BX-25 magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

Notes

Make

- "RUGER" trademark logo, "RUGER" over "MAYODAN, NC USA" was observed marked on the left side of the magazine housing of the receiver/frame.
- "RUGER" is a trade name used by Sturm, Ruger & Company.

Model

- introduced in 2014.
- "AR-556" was observed marked on the left side of the receiver/frame.
- "AR556" is of the design commonly known as the AR-15/M-16 rifle.
- "AR556" use a direct gas-impingement system.
- "SR556" uses a piston-driven gas system.
- features include: round barrel with a threaded muzzle for flash hider/muzzle brake; AR15/M16 standard, front sight bracket/gas block with a QD socket and bayonet lug; flat top aluminum alloy upper assembly with an integral A3 Picatinny rail, folding aperture rear sight or optical sight, right side ejection port with dust cover, cartridge deflector and rear mounted cocking handle; aluminum alloy AR-15 type receiver/frame with an integral magazine well and synthetic vertical pistol grip; synthetic ribbed carbine length handguards; fixed or telescoping six position buttstock; matte black finish.
- overall length with a 410 mm (16.1") barrel and the telescoping buttstock in the closed position is 819 mm (32.25"), and the average weight is 2.94 kg (6.5 lbs).

Manufacturer

- "RUGER" over "MAYODAN, NC USA" was observed marked on the left side of the magazine housing of the receiver/frame.

Action

- gas-operated.

Serial Number

- serial number was observed marked on the left side of the magazine well of the receiver/frame.
- serial number observed consisted of a three numbers prefix, a dash (-) and five numbers.

Calibre

- calibre was observed marked on the barrel.
- 5.56MM NATO rifling characteristics: 1 turn in 8 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- the "RUGER" logo is marked on the barrel and grip plates.
- the "RUGER" name is marked on the cylinder.
- "STURM, RUGER & CO." is marked on the barrel.
- "RUGER" is a registered trade name of "Sturm, Ruger & Company".

Model

- the Bearcat was available in two variants the original Bearcat with an aluminium receiver/frame and the Super Bearcat with a steel receiver/frame.
- "RUGER" over "BEARCAT" is marked on the cylinder.
- manufactured from 1958 to 1973.
- the "Bearcat" has an aluminium alloy receiver/frame, which is colour anodized black; the trigger guard is also of aluminum alloy, colour anodized brass.
- a small single action revolver without cylinder flutes, initially with rosewood grips, later with walnut hand grips, resembling a scaled down Colt Single Action Army.
- NOTE: the Bearcat and Super Bearcat have the same markings on the cylinder, but the "Super Bearcat" has a steel receiver/frame and a serial number range from 91-00000 to 91-64417.

Manufacturer

- "STURM, RUGER & CO." over "SOUTHPORT, CONN." is marked on the left side of the barrel.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- this model used various numbering sequences, beginning with 1 to 999. An alpha prefix was then added and began as A001 to A999; B001 to B999 (and used all the letters of the alphabet as a prefix up to Z999, except for "O"). Numbering resumed at 1000 to 114730.
- from 1969, a new format began at 90-00000 and ran to 90-25622. Serial numbers marked with a D suffix indicates a duplication in the numbering. Serial numbers marked with an S suffix indicates it was a salesman sample.
- NOTE: the serial number range for the Super Bearcat was from 91-00000 to 91-64417.

Calibre

- calibre designation is often not marked on the firearm.

Shots

- fixed cylinder with loading gate on the right side.

196031 - 3	177 PELLET	1	483	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "RUGER" was marked on the barrel in front of the model designation.
- "Manufactured Under License From Sturm Ruger & Co.,Inc." and the "Ruger" logo were marked on the left side of the barrel block.

Model

- "BLACK MAX" was marked on the barrel.
- this is a single-shot, break-barrel spring-piston air rifle.
- features include: round barrel with muzzle break and fiber optic sights; round tubular receiver/frame with scope-mount rail; automatic safety; adjustable trigger; one-piece, skeletonized, synthetic pistol-grip stock; black finish.

Manufacturer

- "MADE IN CHINA" over "Manufactured under license from Sturm Ruger & Co. Inc." is marked on the left side of the barrel block.

Action

- break action, spring piston air rifle.
- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number was marked on the left side of the barrel block.
- serial number observed consisted of eight digits with no letter prefix or suffix.
- serial number rationalization appears to be shared with other Ruger air guns made by Umarex.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre designation was marked on the left side of the barrel block.

Canadian Law Comments

- Does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.
- As it left the factory, this firearm is equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- When the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "CC 2 "firearm"/CC 84(3) Exempted firearm".
- Note that removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer (prohibited device) including all internal parts, baffles, wipes, end caps, mounting hardware and the device body must be removed.

Notes

Make

- "RUGER" is marked on the left side of the receiver/frame beneath the cylinder.

Model

- "RUGER BLACKHAWK" is marked on the left side of the receiver/frame.
- manufactured between 1953 and 1973.
- total production in excess of 300,000 units.
- the Blackhawk was succeeded by the "New Model Blackhawk" in 1973.
- the Blackhawk was available in two variations, the first was known as the Flattop Blackhawk manufactured between 1953 and 1962, the second is the Improved receiver/frame bridge with integral sight ribs at the rear sight area manufactured from 1962 to 1973.
- Note: the three frame screws in the right side of the receiver/frame help identify the OLD MODEL (PRE-1973) "Blackhawk" from the "New Model Blackhawk".
- features include: round barrel with ejector rod assembly; blued or color case hardened solid top receiver/frame with fluted removable cylinder and right side loading gate; exposed spurred hammer; single action trigger mechanism; one piece aluminum or brass grip frame and trigger guard; black rubber, stag horn, ivory or walnut grips; ramp front sight and adjustable rear sight; blued/black finish.
- 357 MAGNUM available with an extra cylinder in 9MM LUGER.
- 45 COLT available with an extra cylinder in 45 AUTO.

Manufacturer

- "STURM, RUGER & CO." or "STURM, RUGER & CO., INC." and "SOUTHPORT, CONN. U.S.A." are marked on the left side of the barrel.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number may have a prefix of "D" to indicate duplicate number or a suffix of "S" to indicate a show gun.
- NOTE: you can have 5 Blackhawks with the same serial number but in different calibers:
- 357MAG and 9MM: from 1 to 141051 and from 30-00000 to 31-45191.
- 30CARBINE: from 1 to 9304 and from 50-00000 to 50-23681.
- 41MAGNUM: from 1 to 15967 and from 40-00000 to 40-22906.
- 44MAGNUM: from 1 to 29860 (used on both Blackhawk and Super Blackhawk models)
- 45CAL: from 45-00000 to 45-23031.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre is marked on the left side of the receiver/frame.
- 357 MAG, introduced in 1955, discontinued in 1973.
- 44 MAG, introduced in 1956, discontinued in 1973.
- 41 MAG, introduced in 1965, discontinued in 1973.
- 9MM LUGER, introduced in 1967, discontinued in 1973.
- 30 CARBINE, introduced in 1968, discontinued in 1973.
- 45 COLT and 45 AUTO, introduced in 1971, discontinued in 1973.

Notes

Make

- "RUGER BLACKHAWK" is marked on the side of the receiver/frame.
- "Ruger" logo over "Manuf. under license from Sturm Ruger & Co. Inc." is marked on the left side of the barrel block.

Model

- "RUGER BLACKHAWK" is marked on the left of the firearm.
- introduced in 2009.
- this is a standard-pattern break-barrel spring-piston air rifle.
- features include: round rifled steel barrel with muzzle break; fibre optic front sight and adjustable fiber optic rear sight; round tubular receiver/frame with scope mount rail; automatic safety; adjustable trigger; one piece composite pistol-grip stock with recoil pad; blued finish.
- available with a 4x32 scope and mounts.
- overall length 1137mm (44 3/4") and average weight of 3.8 kgs (8.3lbs).

Manufacturer

- "MADE IN CHINA" over "Manuf. under license from Sturm Ruger & Co. Inc." is marked on the left side of the barrel block.

Action

- break action, spring piston air rifle.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number's of observed examples have consisted of eight numbers and usually begin with a series of zeros.
- serial number sequences appear to be shared with other Ruger air guns made by Umarex.
- a letter "C" suffix in the serial number denotes the reduced velocity version (490fps).

Calibre

- "PELLETS CAL. 177 (4.5mm)" marked on the left side of the receiver/frame.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

Other Markings

- marked on the left side of the firearm "MADE IN CHINA".

FRT Report

Firearm Reference Number (FRN): 184163
Make: Ruger
Model: Impact Max

Summary

Make:	Ruger
Model:	Impact Max
Manufacturer:	Umarex
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
184163 - 1	22 PELLET	1	475	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "RUGER" is marked on the air rifle. - "Ruger" logo over "Manuf. under license from Sturm Ruger & Co. Inc." is marked on the air rifle.
Model	- "RUGER IMPACT MAX .22 CAL" is marked on the air rifle. - "IMPACT MAX" is originally equipped from the factory with an integral silencer system. - "IMPACT MAX" is a standard-pattern break-barrel nitrogen spring-piston air rifle. - features include: round rifled steel barrel with integral silencer system; fibre optic front and adjustable rear fiber optic sights; automatic safety; adjustable trigger; round tubular receiver/frame with scope mount rail; one piece wood pistol-grip stock with and rubber recoil pad; blued finish.
Manufacturer	- marked on the left side of the barrel block. - the Ruger Impact air rifle is manufactured under license from Sturm, Ruger & Company, Incorporated.
Action	- nitrogen spring-piston air rifle with a velocity/energy above 152.4 metres/second / 5.7 Joules.
Serial Number	- serial numbered on the left side of the barrel block.
Calibre	- calibre on the left side of the barrel block.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Notes

Make

- "RUGER" and the Ruger logo are molded into the grip.

Model

- introduced in 2008, and available in a wide variety of finish options such as solid colours, camouflage and other patterns.
- "LCP" is marked on the side of the slide and refers to the Lightweight Compact Pistol.
- "LCP" is a modular design with a serialized aluminium receiver/frame housed between a steel slide and the glass filled nylon grip (see image 18).
- features include: one piece synthetic glass-filled nylon grip; blued or stainless, hardened steel or stainless steel slide; integral fixed iron sights; loaded chamber indicator; magazine release and slide lock located on the left side of the grip; double action trigger.
- overall length with a 70mm (2.75") barrel is 131.1mm (5.16") average weight is .027kgs (9.4 oz).
- in 2012 the LCP was also available with a Laser sight which is located in front of the trigger guard. This variation is referred to as the model "LCP-LM".
- grip finish options include various solid colours, camouflage and other patterns such as: black, pink, lavender, flat dark earth, light grey, turquoise, yellow, reduced moon shine camo harvest moon, reduced moon shine camo toxic, kryptek neptune camo, kryptek pontus camo, reduced moon shine camo undertow, and reduced moon shine camo serenity.
- slide colour options include: black, nickel, flat dark earth, silver cerakote, and stainless steel.

Manufacturer

- manufacturer is marked on the side of the receiver/frame.
- observed markings include "RUGER - PRESCOTT - AZ - USA" or "RUGER - MAYODAN - NC - USA" marked on the right side of the slide below the ejection port.

Action

- recoil operated, locked breech design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is located on the left side of the receiver/frame.
- partial serial number rationalisation that may be used as a baseline to identify the year of manufacture:
- 2008: 370-00000
- 2009: 371-08832
- 2010: 373-09422
- 2011: 375-66217
- 2012: 377-38050
- 2013: 370018421
- 2014: 371280860
- 2015: 371439656

Calibre

- calibre is marked on the chamber, visable through the ejection port.
- rifling characteristics for caliber 380 AUTO is 1 turn in 406mm (16"), 6 grooves, right hand twist.

Shots

- detachable box magazine.

Remarks

- "BEFORE USING GUN - READ WARNINGS IN INSTRUCTION MANUAL - AVAILABLE FREE -" over "FROM STURM, RUGER AND CO., INC. PRESCOTT, AZ USA" was observed marked on the right side of the receiver/frame.

Notes

Make	- "RUGER" is marked on the left side of the receiver/frame. - "Ruger" is a trade name used by Sturm, Ruger & Company.
Model	- "M77" is marked on the left side of the receiver/frame. - manufactured from 1968 to 1992. - the M77 Ultra Light was introduced in 1983 and discontinued in 1991. - features include: blued finish; American walnut, one-piece stock with checkering on the wrist and forend and a red rubber recoil pad and sling swivel studs; receiver/frame is available in both a "long" or "short" length to accommodate standard or "magnum" length cartridges and has an external bolt stop/release on the left side, both versions are machined to accept Ruger one inch scope rings; tang mounted safety; magazine floorplate release button is located on the trigger guard; no iron sights.
Manufacturer	- "Sturm, Ruger & Co. Inc., Southport, Conn. U.S.A." is marked on the barrel.
Action	- turn-bolt design.
Serial Number	- located on front left of the receiver/frame. - serial number range includes; but may not be exclusive to, the following: 1-3189, 70-00000 -75-99999, 77-00000 - 79-00000, 770-00000 - 773-99999.
Calibre	- marked forward of the receiver/frame, on the left side of the barrel.
Shots	- integral box magazine with hinged floor plate.
Remarks	- this model has a straight grained walnut stock with a pistol grip and studs for mounting quick detachable sling swivels. - the later versions of the M77 receiver incorporates the integral scope bases of the patented Ruger scope mounting system. - versions of the M77 exist with a round top receiver that are not milled for Ruger bases. - available with or without sights. - the M77 differs from the M77 Mark II in that the M77 has a sliding top-tang mounted safety catch and the M77 Mark II safety is a three position bolt-mounted safety. - the M77 has a shots capacity in standard calibres of 5 cartridges and the M77 Mark II holds only 4 standard calibre cartridges. - the M77 has an adjustable trigger and the M77 Mark II does not. Suffix letters indicate: Sights: "R" supplied with scope rings & no open sights. "S" supplied with open sights & no scope rings. "RS" Open sights & scope rings supplied. Version: "L" Ultra Light (2.7 kg. or 6 lb.). "V" Varmint (drilled and tapped for scope bases). "C" Circassian (Walnut stock). "I" International (Mannlicher) stock.

Notes

Make

- "RUGER" is marked on the side of the receiver/frame.
- "Ruger" is a trade name used by Sturm, Ruger & Company.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 1970.
- "RUGER M77 HAWKEYE" is usually marked on the side of the receiver/frame.
- features include: no iron sights or adjustable sights; round barrel; M77 Hawkeye receiver/frame is available in both a "long" or "short" length to accommodate standard or "magnum" length cartridges and has an external bolt stop/release on the left side; receiver/frame is machined to accept Ruger one inch scope rings; tang mounted safety; magazine floor plate release button is located on the trigger guard; one piece walnut, laminated; synthetic or camouflage finished semi-pistol grip stock with checkering on the wrist and forend; red rubber recoil pad; sling swivel studs; matt blued or matt stainless steel finish.
- left-hand model in selected calibres introduced in 2007.
- overall length with a 559mm (22") barrel is 1067mm (42") average weight is 3.18kg (7lbs).
-M77 Hawkeye African is available with muzzle brake system.
- the "Long Range Target" sub-model of this firearm is fitted with a muzzle brake, Picatinny rail for mounting optics, and an adjustable cheekpiece.
- M77 Hawkeye FTW Hunter model is marked on the floorplate with a logo consisting of the letters "FTW/S.A.A.M" and "HUNTER" around a ram's head. - "FTW" is the name of the ranch where the Sportsmans All-weather All-terrain Marksmanship training is held.

Manufacturer

- "Sturm, Ruger & Co. Inc., Southport, Conn. U.S.A." is marked on the barrel.

Action

- turn-bolt design.

Serial Number

- serial number is located on left side of the receiver/frame.
- observed serial number consisted of a prefix of "710", dash and five numbers.

Calibre

- calibre is usually marked on the left side of the barrel.
- rifling characteristics in calibre
- 204 RUGER: 6 grooves, 1 turn in 12 inches, right hand twist.
- 223 REM: 6 grooves, 1 turn in 9 inches, right hand twist.
- 22-250 REM: 6 grooves, 1 turn in 14 inches, right hand twist.
- 243 WIN: 6 grooves, 1 turn in 9 inches, right hand twist.
- 257 ROBERTS: 6 grooves, 1 turn in 10 inches, right hand twist.
- 25-06 REM: 6 grooves, 1 turn in 10 inches, right hand twist.
- 260 REM: 6 grooves, 1 turn in 8 inches, right hand twist.
- 270 WIN: 6 grooves, 1 turn in 10 inches, right hand twist.
- 7MM-08 REM: 6 grooves, 1 turn in 10 inches, right hand twist.
- 7MM REM MAG: 6 grooves, 1 turn in 9.5 inches, right hand twist.
- 308 WIN: 6 grooves, 1 turn in 10 inches, right hand twist.
- 30-06 SPRG: 6 grooves, 1 turn in 10 inches, right hand twist.
- 300 RCM: 6 grooves, 1 turn in 10 inches, right hand twist.
- 300 WIN MAG: 6 grooves, 1 turn in 10 inches, right hand twist.
- 338 RCM: 6 grooves, 1 turn in 10 inches, right hand twist.
- 338 WIN MAG: 6 grooves, 1 turn in 10 inches, right hand twist.
- 338 FEDERAL: 6 grooves, 1 turn in 10 inches, right hand twist.
- 358 WIN: 6 grooves, 1 turn in 12 inches, right hand twist.
- 375 RUGER: 6 grooves, 1 turn in 12 inches, right hand twist.
- 416 RCM: 6 grooves, 1 turn in 14 inches, right hand twist.
- 6.8MM SPC: 6 grooves, 1 turn in 10 inches, right hand twist.
- 7.62X39 RUSSIAN: 6 grooves, 1 turn in 10 inches, right hand twist.

6.5x55 SWEDISH MAUSER rifling characteristics: 1 turn in 8 inches, right hand twist.
- Rifling characteristics in calibre 6.5MM CREEDMOOR: 5 grooves, 1 turn in 8 inches, right hand twist.
- Rifling characteristics in calibre 6.5MM PRC: 5 grooves, 1 turn in 8 inches, right hand twist.

Shots

- integral box magazine with a hinged floor plate.
- the "Long Range Target" version of this firearm accepts a detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "RUGER" is marked on the side of the receiver/frame.
- "Ruger" is a trade name used by Sturm, Ruger & Company.

Model

- "M77 MARK II" is marked on the side of the receiver/frame.
- introduced in 1989.
- available in left and right handed mechanisms.
- the receiver/frame is manufactured in three lengths: SHORT (308 WIN length), STANDARD (30-06/300 WIN MAG length), and MAGNUM (375 H&H/416 RIGBY length); all incorporate the integral scope bases of the patented Ruger Scope Mounting System.
- stainless Steel receiver/frames are available in action lengths: SHORT (RH), STANDARD (RH/LH)
- prefix letter "K" in the catalog designation indicates: Stainless Steel
- suffix letters indicate sights:
"R" supplied with scope rings & no open sights.
"S" supplied with open sights & no scope rings.
"RS" open sights & scope rings supplied.
- version:
"C" Circassian (Walnut stock).
"B" Sporter variant.
"EXP" Express variant (standard 30-06 length action).
"I" International (Mannlicher) stock.
"L" immediately following "77" (example: M77LR MARK II) left-handed bolt action.
"L" preceded by "77" and another letter (example: M77RLP) Ultra Light (2.7 kg./ 6 lb.).
"M" Magnum variant (Magnum length, 7/16 inch longer than standard 30-06 length).
"P" Polymer (all-weather stock)
"VT" Varmint/Target (heavy barrel, action drilled and tapped for scope bases).
"Z" Zytel (Oil-finished Laminated stock).

Manufacturer

- "Sturm, Ruger & Co. Inc., Southport, Conn. U.S.A." is marked on the barrel.

Action

- turn-bolt operated.

Serial Number

- serial number is located on the side of the receiver/frame.
- observed serial number consisted of an eight digit number without a letter suffix or prefix, eg. "780-48279".

Calibre

- the calibre designation is marked on the side of the barrel.

Shots

- integral box magazine with hinged floor plate.

Remarks

- DIFFERENCES BETWEEN M77 MARK II, AND M77
- the M77 MARK II safety is a three position bolt-mounted safety (whereas the M77 has a sliding top-tang mounted safety catch).
- the M77 MARK II holds only four standard calibre cartridges (whereas the M77 has a shots capacity in standard calibres of five cartridges).
- the M77 MARK II has a non-adjustable trigger (whereas the M77 has an adjustable trigger).

- "Ruger M77 SAR" rifle has been modified for the use by the Canada Forces Search and Rescue (SAR) Technician and Aircrews.
 features include: fixed front sight and an adjustable rear sight; round, rifled barrel; M77 receiver/frame with top tang mounted safety has been machined to accept Ruger one inch scope rings; external bolt stop/release is mounted on the left side of the receiver.frame; magazine floor plate release button is located on the trigger guard; checkered walnut stock with a side folding buttstock; trapdoor in the butt plate holds six cartridges; sling swivel studs; matte blue finish.
- overall length with a 368 mm (14.5") barrel and the buttstock extended is 889 mm (35") and with the buttstock folded is 644 mm (23.37"), and the average weight is 3.02 kgs (7.05 lbs).

Manufacturer

- Ruger model M77 rifles manufactured by Sturm, Ruger & Company were modified for the Canadian Military by Diemaco.
- Diemaco was formed by the Devtek Corporation in 1976.
- Diemaco won a contract from the Canadian Government/Department of National Defense to establish a Canadian Center of Excellence for Small Arms Weapons Systems repairs and manufacturing, after the demise of the Small Arms Division of Canadian Arsenals Limited (CAL) in June of 1976.
- Diemaco was located in Kitchener, Ontario, Canada.
- Diemaco/Diemaco (1984) Inc. was a Division of Devtek Aerospace/Devtek Corporation/Heroux Devtek.
- Diemaco was awarded the manufacturing contract for the Small Arms Replacement Program's (SARP) models C7 and C8 (M16) rifle under license from Colt Industries in 1983.
- Diemaco Incorporated was amalgamated with Colt Canada Corporation on the 1st of June 2005, the amalgamated company is known as Colt Canada Corporation.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- serial number is marked on left side of the receiver/frame. - serial number observed consisted of three numbers, a dash (-), and five numbers.
Shots	- integral box magazine with a hinged floor plate.

Notes

Make

- "RUGER" is marked on the side of the receiver/frame.

Model

- "RUGER AUTOMATIC PISTOL MARK I" is marked on the side of the receiver/frame.
- production commenced in 1951 and the model was discontinued in 1982.
- the more identifiable features are, 9 shot magazine, adjustable target rear sight, hooked front sight blade.
- there are no scallops machined at the rear of the receiver/frame sides as in the Ruger Standard model.
- "MARK 1" does not have an action release lever mounted on the left side of the receiver/frame as does the MARK 2.
- factory literature indicates that this model was supplied in heavy or 'bull-barrel' configuration in lengths of 5-1/2"/140mm and 6-7/8"/175mm; a 5-1/4"/133mm tapered barrel was also produced in limited quantities.

Manufacturer

- "STURM, RUGER & CO." over "SOUTHPORT, CONN., U.S.A." or "STURM, RUGER & CO., INC." over "SOUTHPORT, CONN., U.S.A." or "STURM, RUGER & CO., INC. SOUTHPORT, CONN., U.S.A." is marked on the side of the receiver/frame.

Action

- blowback operated.

Serial Number

- serial number is marked on the front right side of the receiver/frame.
- Ruger Standard and MARK 1 share the same serial number range.
- Ruger Standard and MARK 1 serial number range is from 0001 to 463239 and from 10-00001 to 17-70981.
- Ruger introduce a number "10" prefix in 1969 and a number "17" prefix in 1982.
- "D", "S", "U", prefixes or suffixes may be found.

Calibre

- the calibre is normally marked on the left side of the receiver/frame as, "22 CAL. LONG RIFLE".

Shots

- detachable box magazine.

Other Markings

- "MADE IN THE 200th YEAR OF AMERICAN LIBERTY" is marked on the top of the receiver/frame of Ruger MARK I Target models made in 1976.
- "BEFORE USING GUN - READ WARNINGS IN INSTRUCTION MANUAL AVAILABLE FREE FROM" over "STURM, RUGER & CO. INC. SOUTHPORT, CONN. U.S.A." is marked on the left side of the receiver/frame of Ruger MARK I Target models made after late 1977.

Remarks

- the firearm with the factory applied roll-stamp marking of "MARK I" is consistent with the model designated "MARK I Target" in the Ruger advertising catalogs.
