FRT Report

Firearm Reference Number (FRN): 164882
Make: Shattuck
Model: Invisible Defender

Summary

Make:	Shattuck
Model:	Invisible Defender
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Multi-Barrel
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
164882 - 1	22 RF	4	35	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
164882 - 3	30 RF	4	35	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Shattuck" may be marked on the firearm.
- "INVISIBLE" over "DEFENDER" is marked on the side of the barrel cluster.

Model

- manufactured between 1907 and 1909 by Mossberg, then until 1910 by Shattuck.
- "INVISIBLE" over "DEFENDER" is marked on the side of the barrel cluster.
- "Invisible Defender" is an oddly shaped four barreled "palm pistol".
- "Invisible Defender" is fired by squeezing the middle portion of the grip into the main body of the pistol.
- barrel unit tips down to load the four barrels.
- main body of the pistol is oval shaped.
- features include: no sights; revolving firing pin; nickel plated finish.
- this palm pistol design was also sold as the "UNIQUE".

Manufacturer

- "Shattuck" is not marked on the firearm.

Action

- side by side and over & under barrel configuration, hinged barrel design.

Serial Number

- serial-numbered on the receiver/frame.

Firearm Reference Number (FRN): 195143
Make: Shattuck
Model: Leader

Summary

Make:	Shattuck
Model:	Leader
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195143 - 1	12 GA	1	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "C.S. SHATTUCK" and "HATFIELD, MASS." are usually marked inside an "S"-shaped logo on the buttplate.

Model

- "LEADER" is usually marked on top of the barrel.
- this is an unusual style of ring-lever-opening shotgun sold by C.S. Shattuck prior to 1909, based on Iver Johnson's similar "Semi-Hammerless" shotgun; where the "Semi-Hammerless" has an exposed rocking hammer without a spur, the Shattuck "Leader" has a spur hammer that can be manually cocked with the thumb, if required.
- features include: blued finish; bead sight; round full choke barrel; smooth walnut forearm and pistol-grip stock; take-down key in a slot on the left side of the receiver/frame; a ring-style opening lever at the front of the trigger-guard, with the trigger at the rear of the guard; and a black synthetic or gutta-percha buttplate with Shattuck's name, logo, and address on it.

Action

- hinge-action single-shot.

Serial Number

- usually numbered on the barrel lug, but these may be "lot" numbers.

Notes

Make

- "Shilen" is usually marked on the receiver/frame.

Model

- model designation is usually marked on the receiver/frame as: "DGA"
- the DGA action was introduced circa 1976.
- DGA is the acronym for "Damn Good Action".
- a custom made rifle produced to a very high degree of fit and finish.
- the DGA receiver/frame/action is characterized by its semi-octagonal top shape and flat-bottom; it is noted for its exceptional strength and rigidity.
- features can vary widely and may include:
- stainless or chrome-moly barrel offered in round, contoured, octagonal or a variety of bull-barrel configurations in Match or Select Match grades;
- hand-lapped barrel, glass bedded action;
- Shilen fibreglass or American walnut stock;
- adjustable trigger;
- safety located on the right rear side of the receiver/frame;
- chrome-moly action may be blued or dull nickel plate, barrels may be blued or matte stainless.
- receiver/frame drilled/tapped for scope mounts.
- actions and barreled actions are also available.

Manufacturer

- Shilen Rifles Incorporated is a firearms manufacturer located in Ennis, Texas, USA.
- company founded by Ed Shilen circa 1961 to produce high-grade rifle barrels only; subsequently expanded to include complete rifle manufacture circa early 1970's.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Calibre	- available in many standard and wildcat chamberings.

Notes

Make

- "Shiloh" was a trade name used by "Shiloh Products", a division of "Drovel Tool Company" of Farmingale, New York from 1976 to 1983.
- "Shiloh" is a trade name used by "Shiloh Rifle Mfg. Co." since 1983.

Model

- this is a reproduction of a "Sharps 1874 Creedmoor Rifle".
- model was introduced in 1998.
- this is a semi-custom, target grade, black powder cartridge rifle with deluxe pistol grip stock.
- features include: single trigger; hard rubber butt plate; colour case-hardened receiver/frame; blued round or half-octagon barrel; pewter forend tip.

Manufacturer

- "Shiloh Rifle Manufacturing Company" is a manufacturer based in Big Timber, Montana, U.S.A since 1983.
- specializes in manufacturing custom, semi-custom, and limited-run production reproductions of the "Sharps" black powder firearms.

Action

- lever operated falling (dropping) block design.

Serial Number

- from 1983 to 1991 the Sharps firearms were consecutively numbered.
- from 1991 to 2002 Sharps firearms had a letter "B" prefix and up to 5 digits as a serial number.
- from April 2002 to date (2004) the serial number started over again at 001 with a letter "B" suffix.

Notes

Make

- "Shiloh" was a trade name used by "Shiloh Products" a division of "Drovel Tool Company" of Farmingale, New York from 1976 to 1983.
- "Shiloh" is a trade name used by "Shiloh Rifle Mfg. Co." since 1983.

Model

- this is a reproduction of the "Sharps 1874" rifle.
- introduced in 1989.
- this is a black powder cartridge rifle for target shooting or hunting, with a straight stock and a crescent or shotgun butt plate (some with patch boxes).
- features include: single or double set trigger; colour case-hardened receiver/frame; blued octagonal or half-octagon barrel; pewter forend tip; open buckhorn rear and blade front sights; custom finish available and can be ordered with any style or amount of engraving.

Manufacturer

- "Shiloh Rifle Manufacturing Company" is a manufacturer based in Big Timber, Montana, U.S.A since 1983.
- specializes in manufacturing custom, semi-custom, and limited-run production reproductions of the "Sharps" black powder firearms.

Action

- lever operated falling (dropping) block design.

Serial Number

- from 1983 to 1991 the Sharps firearms were consecutively numbered.
- from 1991 to 2002 Sharps firearms had a letter "B" prefix and up to 5 digits as a serial number.
- from April 2002 to date (2004) the serial number started over again at 001 with a letter "B" suffix.

Barrel

- barrels can be ordered in any length the customer wishes.

Notes

Make

- "Shiloh" was a trade name used by "Shiloh Products" a division of "Drovel Tool Company" of Farmingale, New York from 1976 to 1983; and
- "Shiloh" is a trade name used by "Shiloh Rifle Mfg. Co." since 1983.

Model

- this is this is a reproduction of a "Sharps 1874" rifle.
- this model was introduced in 1986.
- features include: this is a black powder cartridge rifle for hunting with straight stock with crescent or shotgun butt plate (some with patch boxes); single or double set trigger; color case hardened receiver; blued octagonal or half-octagon barrel; schnabel forend tip; buckhorn rear and blade front sights; finished as per customer's wishes and can be ordered with any style or amount of engraving.

Manufacturer

- "Shiloh Rifle Manufacturing Company" is a manufacturer based in Big Timber, Montana, U.S.A. since 1983.
- specializes in manufacturing custom, semi-custom, and limited-run production reproductions of the "Sharps" black powder firearms.

Action

- lever operated falling (dropping) block design.

Serial Number

- serial number rationalization unknown.
- from 1983 to 1991 the Sharps firearms were consecutively numbered.
- from 1991 to 2002 Sharps firearms had a letter "B" prefix and up to 5 digits as a serial number.
- from April 2002 to date (2004) the serial number started over again at 001 with a letter "B" suffix.

Calibre

- the calibre designation is marked on the barrel assembly.

Notes

Make

- "Shiloh" was a trade name used by "Shiloh Products" a division of "Drovel Tool Company" of Farmingale, New York from 1976 to 1983.
- "Shiloh" is a trade name used by "Shiloh Rifle Mfg. Co." since 1983.

Model

- this is a reproduction of a "Sharps 1874 Sporting Rifle".
- "Shiloh-Sharps Model 1874 Sporter No 3" was introduced in 1985.
- this is a black powder cartridge rifle designed for target shooting or hunting.
- features include: straight stock with crescent or shotgun buttplate (some with patch boxes); single or double set trigger; colour case-hardened receiver/frame; blued octagonal or half-octagon barrel; schnabel forend tip; Vernier tang rear sight and globe front sight.
- finished as per customer's wishes and available with any style or amount of engraving.

Manufacturer

- "Shiloh Rifle Manufacturing Company" is a manufacturer based in Big Timber, Montana, U.S.A since 1983.
- specializes in manufacturing custom, semi-custom, and limited production reproductions of the "Sharps" black powder firearms.

Action

- lever operated falling (dropping) block design.

Serial Number

- from 1983 to 1991 the Sharps firearms were consecutively numbered.
- from 1991 to 2002 Sharps firearms had a letter "B" prefix and up to 5 digits as a serial number.
- from April 2002 to date (2004) the serial number started over again at 001 with a letter "B" suffix.

Notes

Make

- "Shiloh" was a trade name used by "Shiloh Products" a division of "Drovel Tool Company" of Farmingale, New York from 1976 to 1983.
- "Shiloh" is a trade name used by "Shiloh Rifle Mfg. Co." since 1983.

Model

- the model is not marked on the firearm; this is a semi-custom modern reproduction of the Sharps 1877 long-range target rifle, made with a lightened receiver, a long back-action side lock, and a heavy-diameter barrel.
- features include: blued and colour-case-hardened finish; peep sights with interchangeable front inserts; schnabel-tipped forearm; curved action lever that serves as a trigger-guard; a manually-cocked hammer on a back-action lock; deluxe wood stock and forearm (some with carved finger-rests); single or double-set triggers; and a tang-mounted vernier peep sight.

Manufacturer

- "Shiloh Rifle Manufacturing Company" is a manufacturer based in Big Timber, Montana, U.S.A since 1983.
- specializes in manufacturing custom, semi-custom, and limited-run production reproductions of the "Sharps" black powder firearms.

Action

- falling block single-shot.

Serial Number

- numbered on the receiver/frame.

Barrel

- available in 51mm/2" increments between 660mm/26" and 864mm/34".

Notes

Make

- Shin Sung Ind Co is marked on the receiver/frame of the firearm.
- Shin Sung Industrial is a manufacturer of high-power airguns located in South Korea; their products are imported into North America through Air Rifle Specialists (ARS) and others, and into Europe through RWS/Dynamit Nobel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "CAREER II 707" is marked on the side of the receiver/frame. - There is an earlier version of this firearm known as "CAREER 707", while there are some obvious differences the two are similar enough that both are included in this record. - Frame/receiver: left hand side engraved with a scene of wild boar and hounds, right hand side engraved with a scene of Cape buffalos and lions - This firearm is a very unusual-appearing high-power air rifle that looks something like an over / under shotgun mated to a Winchester Model 94 lever-action rifle; the rifle has an internal air reservoir that is pressurized with a hand-pump or a SCUBA tank adaptor. - This air gun has an air gauge to show how much pressure remains in the firearm's air reservoir. - This firearm has an adjustable power level through use of a dial on the bottom of the receiver. - This airgun is a repeater with an external magazine located on the left-hand side of the receiver/frame. - Other features include: open adjustable sights with an integral scope rail, hardwood forearm and butt-stock with high comb and rubber buttpad. - Available in rifle and carbine versions. - Manufacturer's literature suggests that at maximum power setting, this rifle is able to achieve a velocity with a 22 calibre pellet in excess of 1000 fps.
Manufacturer	- Shin Sung Ind Co is marked on the receiver/frame of the firearm.
Action	- manually operated, lever-actuated, repeating air rifle (pneumatic firearm). - pre-charged air reservoir. - in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 25 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- the serial number is found on the receiver. - serial number rationalization unknown. - observed sample consisted of a two letter prefix (SS) followed by five digits.
Calibre	- depending on the 'MAKE", weight and the length of the pellet the magazine capacity may vary. - Manufacturer's specified capacities are: 177 Pellet - Qty 14 22 Pellet - Qty 10 25 Pellet - Qty 6
Shots	- magazine capacity may be reduced in the carbine variation; also, magazine capacity may vary due to pellet length / weight.
Remarks	- Most components of this firearm are marked with the Shin Sung logo which is a stylized "Leaping Cat".

Notes

Make

- "Shin Sung Ind Co" is marked on the receiver/frame.

Model

- "CAREER Ultra" was observed marked on both sides of the receiver/frame.
- "Career Ultra" is also known as the "Career 707 9mm Ultra".
- lever action, repeating air rifle of unusual design that looks something like an over and under shotgun mated to a Winchester Model 94 lever-action rifle; the rifle has an internal air reservoir that is pressurized with a hand-pump or a SCUBA tank adaptor; this rifle can also be loaded one shot at a time by removing the magazine and handloading a single pellet.
- features; side mounted horizontal detachable magazine located on the left side of the receiver/frame; air gauge to show how much pressure remains in the firearm's air reservoir; adjustable, 11 position, power setting through the use of a dial on the bottom of the receiver; cross bolt safety; open adjustable sights with an integral scope rail; adjustable trigger; hardwood forearm and butt-stock with high comb and rubber buttpad.

Manufacturer

- "Shin Sung Ind Co" is marked on the receiver/frame.

Action

- manually operated, lever-actuated, repeating air rifle utilizing a pre-charged air reservoir.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is usually marked on the right side of the receiver/frame.
- observed examples have had six digit numbers with either a single letter or a triple letter prefix.
- prefix letters "SSU" and "U" have been observed.

Shots

- horizontally side mounted detachable magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - known example also marked with the letters "RWS" on the underside of the receiver/frame in front of the lever; RWS is a trade name used by the firm of Dynamit Nobel of Germany.

Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
124872 - 1	22 LR	1	445	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SHINBISHA AIR RIFLE MFG CO" is marked on the right side of the barrel.
- "SAR" under a sheaf of three arrows is marked on the top of the receiver/frame.
- "SAR" is the abbreviation for Shinbisha Air Rifle.

Model

- the model designation was not marked on the sample examined. This entry is a "generic" entry for those rimfire rifles produced by Shinbisha Air Rifles that do not have a unique model designation.
- features on the sample examined included: blued finish with a one-piece wood stock; stamped metal trigger guard; blade front sight with an elevation adjustable rear sight.

Manufacturer

- "SAR" is the abbreviation for Shinbisha Air Rifle.
- Shinbisha Air Rifle Manufacturing Company was a Japanese manufacturer of air guns, black-powder reproductions, and metallic cartridge firearms.

Action

- turn-bolt design.

Serial Number

- the sample examined was marked with sequential numbers on the barrel, bolt and extractor. The receiver/frame was not numbered.

Calibre

- the sample examined had the calibre marked on the barrel as "CAL: 22. RIFLE". This marking appeared twice on the barrel.

Canadian Law Comments

- the sample examined did not have a serial number applied to the receiver/frame. In Canada there is a requirement that a serial number (or other approved identifier) be marked on the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 124263
Make: ShoeLess Ventures
Model: FAB10

Summary

Make:	ShoeLess Ventures
Model:	FAB10
Manufacturer:	ShoeLess Ventures
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
124263 - 2	223 REM	5	508	Prohibited PFR, Part 1, para. 87(z.766)	Non-Commercial Customization	
124263 - 1	5.56MM NATO	10	508	Prohibited PFR, Part 1, para. 87(z.766)	Non-Commercial Customization	

Notes

Make

- "ShoeLess Ventures Inc." is marked on the right side of the lower receiver/frame.

Model

- "FAB 10" is marked on the right side of the lower receiver/frame.
- this design is based on the AR-15 series of rifles and incorporates a fixed internal magazine rather than a magazine well.
- loading of this firearm is accomplished by the removal of the takedown pin and opening the receiver/frame; a removable charger guide is used to locate a stripper clip above the magazine for charger loading.
- this firearm may have many variations in features as it is manufactured as a lower receiver/frame unit only, to which an owner may attach any upper receiver/frame assembly that they wish.
- features include: black aluminum lower receiver/frame; pistol grip; internal magazine that is retained by one allen screw and one pop rivet; and two position safety.

Manufacturer

- "ShoeLess Ventures Inc." over "Carson City Nv." is marked on the right side of the lower receiver/frame.

Action

- gas operated.

Serial Number

- serial number is located on the left side of the lower receiver/frame.- observed - serial number sequences have consisted of six numbers without prefix or suffix.

Calibre

- the calibre marking "5.56mm" appears on the right side of the lower receiver/frame.
- this calibre designation may be inaccurate as these firearms are manufactured as lower receiver/frames only without barrels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- internal ten shot AR style magazine that is retained by one allen screw and one pop rivet.
Other Markings	- on the right side of the lower receiver/frame the flag of the United States of America may be engraved. - on the left side of the lower receiver/frame an image of the cartoon character "Kilroy" may be engraved. - "Pat. # 6,739,082" may be engraved on the right side of the receiver/frame.

Notes

Make

- "SHOOT" is marked on the firearm.
- "SHOOT" is a trade name/trademark sold by Josons Trading.
- "Josons Trading" is located in Beruit, Lebanon.

Model

- model designation may be marked on the firearm.
- QB207 is a hinged barrel cocking design.
- features include: round rifled barrel with a hooded front sight and an adjustable rear sight; front hinged receiver/frame; receiver/frame is grooved for scope mounts; safety lever is mounted on the left side of the receiver/frame; synthetic squeleton pistol-grip stock.
- overall length is 1015 mm, and average weight is 2.0 kgs.

Action

- spring-piston powered, hinged barrel design.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number was observed marked on the right side of the barrel block.
- observed serial number consisted of "14", a space, "2009" and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- tubular magazine mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- these rifles are marketed under the "Shorty" name in North America, in Europe they are marketed under the "Sommer & Ockenfuss" name.

Model

- this is a "bull-pup" design rifle that is operated by manually pumping the pistol grip forward and rearward.
- features include: select walnut or synthetic "stock" and pistol grip, alloy or stainless steel barrel, engraved side plates (several versions), grip safety (releasing the grip safety locks the trigger mechanism), and a provision for mounting an optical sight,
- the same basic rifle is offered in Europe as either the "Griffrepetierer Sportgewehr" (synthetic furniture and stainless steel barrel) or the "Griffrepetierer Jagd" which features wood furniture and a blued finish.
- for the North American market the same basic rifle is offered as the "Shorty" rifle in the "Wilderness" (synthetic furniture, no side plates), "American Hunter", "American Hunter Synthetic" (synthetic furniture) or the "Marksmans" (synthetic furniture with fluted barrel and muzzle brake) versions.

Manufacturer

- the firm of Sommer & Ockenfuss is located in Baiersbronn, Germany.

Serial Number

- the serial number appears on the left side of the receiver/frame.

Calibre

- other calibres are available on special order.

Shots

- detachable box magazine.

185142 - 1	12 GA X 3"	1	150	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Shpagin" is not marked on the firearm.
- "Shpagin" is derived from the last name of the Russian design, Georgiy S. Shpagin.
- Georgiy S. Shpagin was born in 1897 and died in 1952.
- "Shpagin" designed the PPSh41 submachine guns.
- "PPSh41" denotes "Pistolet-Pulemyot Shpagin, obrazets 1941", or "Submachine Gun of Shpagin, Pattern of 1941".

Model

- model designation is not marked on the firearm.
- this is a conversion of an SPSh type flare/signal pistol, designed by Georgiy Shpagin, into a single shot handgun.
- features include: round smoothbore barrel with ejector lever located on the left side of the barrel support; top break receiver/frame with opening lever located below the trigger; exposed hammer centrally located behind the standing breech; lanyard ring, checkered synthetic grip plates.
- overall length with a 150mm barrel (5.9") is 220mm (8.7"), average weight empty is 900g (2.0 lbs).
- machined steel "sleeve" is permanently installed in the barrel/chamber to convert the flare pistol from 26.5mm flare to 12ga shotgun shell.

Manufacturer

-cyrillic "NRB" which stands for "Narodna Republika Balgariya (People's Republic of Bulgaria)" is marked on the grips.
-may have a logo consisting of what appears to be a letter "M" inside a triangle, which is inside a circle marked on the grips, and/or the receiver/frame of the firearm.

Action

- hinged barrel design.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of 5 numbers.
-year of manufacture is marked on the left side of the receiver/frame, just ahead of the hammer.

Notes

Make

- "North Korean Submachine Gun" is not marked on the firearm.
- "star" with five points, or a "star" with five points inside a circle, or a "star" with five points inside two circles is marked on the top of the receiver/frame forward of the ejection port.

Model

- model designation is not be marked on the firearm; where present, markings may only be in Oriental ideographs.
- the year of production is marked, using arabic numerals on the top of the receiver/frame forward of the ejection port.
- this is a domestically produced North Korean copy of the Soviet PPSH41 submachine gun.
- features include: stamped, folded, and welded construction; wooden pistol grip stock; selector inside trigger guard; ventilated barrel shroud/compensator; open "flip over" type rear sight and hooded post front sight.

Manufacturer

- "star" with five points, or a "star" with five points inside a circle, or a "star" with five points inside two circles indicates manufactured in North Korea.

Action

- no longer capable of full automatic fire.

Serial Number

- the serial number is marked on the top of the receiver/frame behind the ejection port.
- an observed sample of a serial number consisted of ideograms and arabic numerals.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box or drum magazine.

Notes

Make

- make is not marked on the firearm.

Model

- model designation is not marked on the firearm.
- manufactured circa 1950 to 1955.
- this is a copy of the Russian model PPSH-41 submachine gun with minor design and/or production variances.
- selector switch is located within the trigger-guard ahead of the trigger.
- characterized by the use of heavy sheet metal stampings for its construction and generally mediocre overall fit and finish.
- has a ventilated barrel casing, the top of which extends to the rear of the receiver/frame.
- ejection port located on the top of the barrel casing extension.
- retracting/cocking handle located on the right hand side of the bolt.
- hardwood stock.
- post front sight, "L" flip-type rear sight.
- safety located on the upper section of the cocking handle.
- utilizes a Chinese designed detachable, curved, single-position-feed box magazine, however, the 71 shot drum magazine for the Russian PPSH-41 and its variants will also function in most of these firearms.
- magazine release lever located on the underside of the receiver/frame directly behind the magazine housing.
- the code or symbol of the producing Chinese Arsenal is usually marked on the top of the barrel casing extension in front of the ejection port, under which is usually marked the date of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- the code or symbol of the producing Chinese State Arsenal is usually marked on the top of the barrel casing extension in front of the ejection port; the following markings may be encountered:
- circular gear surrounding a second circle with a "Y" type design in its center,
- a large star with Chinese (Manchurian) characters above it,
- the number "626".
- Note: the Arsenal designation is usually followed by the date of manufacture which consists of the year and month in numbers separated by a period, eg., "1950.10", which would indicate a production date of October, 1950.

Action

- blow -back operated.

Serial Number

- serial number is usually marked on the top of the barrel casing extension in front of the ejection port.
- known examples have been observed with a five digit number without prefix or suffix.
- Note re possible serial number confusion: the symbol or number of the producing State Arsenal is usually marked on top of the barrel casing extension followed by the date of manufacture which consists of the year and month in numbers separated by a period, eg., "1950.10", which would indicate a production date of October, 1950; these numbers are not part of the serial number - the correct serial number is usually stamped below these markings.

Calibre

- calibre is not marked on the firearm.

Shots

- detachable curved box magazine,
- although this firearm was designed to be used with the 35 shot Chinese curved box magazine, most will accept the 71 shot drum magazine of the Russian PPSH-41 and variants.

Firearm Reference Number (FRN): 143769
Make: Shpitalniy Vladimirov
Model: ShVAK

Summary

Make:	Shpitalniy Vladimirov
Model:	ShVAK
Manufacturer:	Russian State Arsenal, Izhevsk
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
143769 - 1	20X99R	N/A	1250	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is derived from the last name of the two Russian designers: Boris G. Shpitalniy and Semen V. Vladimirov.

Model

- the model may not be marked on the firearm; "ShVAK" stands for "Shpitalny-Vladimirov Aviatsionny Krupnokaliberny"/"Shpitalny-Vladimirov Aviation Large-Calibre"; Shpitalny and Vladimirov were the two primary designers of the machine gun that this cannon is based on.
- this is a 20mm cannon adopted for aircraft use by the Soviet Union in 1936, based on the 12.7x107R ShVAK heavy machine gun; that machine gun was itself based in large part on the 7.62mm ShKAS machine gun, only expanded to accept a larger rimmed 12.7mm/50 calibre cartridge. As the 20x99R and 12.7x107R cartridges have the same head and rim dimensions, it was a simple matter to convert the design of the 12.7mm machine gun to a 20mm cannon. This cannon was produced in flexible turret and fixed wing- and engine-mount versions.
- features include: blued finish; under-barrel gas piston (this reverses the layout of the ShKAS machine gun); a cylindrical receiver frame with a large mid-section housing the rotary feed mechanism; a feed tray on the side of that larger section; and the flexible versions of this machine gun are fitted with dual spade grips with a central spade-grip acting as the cocking lever.
- This cannon copies the feed mechanism of the rifle-calibre ShKAS, with a rotating sprocket operated by the gas piston that draws the disintegrating linked belt into the machine gun. Cartridges are withdrawn from that belt as the cartridge rims enter a cam groove on the inside of the feed housing.
- this cannon was one of the most-produced Soviet aircraft weapons of World War Two, and became known for its role as a "tank-buster" on the Il-2 Sturmovik ground-attack aircraft; ammunition for this cannon was and still is produced in a variety of explosive, armour-piercing, incendiary, spotting, and tracer functional types.
- for a short time, a version of this cannon was also mounted on the T-60 Soviet light tank, as the TNSh-20, but it was rapidly dropped as obsolete after being found ineffective against German tanks.

Manufacturer

- the manufacturer may or may not be marked on the firearm; the Izhevsk Machine-building Factory's logo at this time was a vertical arrow inside a five-pointed star.

Action

- gas operated.

Serial Number

- numbered on the receiver/frame; will include non-western/Cyrillic characters.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - belt fed firearm.

Firearm Reference Number (FRN): 121687
Make: SIG
Model: AK53

Summary

Make:	SIG
Model:	AK53
Manufacturer:	Schweizerische Industrie-Gesellschaft (SIG)
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121687 - 1	7.5X53 SWISS	5	600	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
121687 - 2	7.5X53 SWISS	30	600	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- "SIG" inside an oval is usually marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- the model designation may not be marked on the firearm.
- this is a highly unusual selective-fire rifle based on the "blow forward" principle used in some handguns; in firearms of this design, the breech face remains stationary, and the barrel and chamber are carried forward by the pressures of firing. At the end of the barrels travel, the empty cartridge case is released from the breech face and ejected, and the mainspring drives the barrel back towards the breech face, picking up another cartridge from the magazine during its travel.
- features include: walnut half stock with separate pistol grip; ring style firing pin cocking handle at the rear of the receiver/frame; heavy barrel shroud with enclosed mainspring around the barrel; large curved magazine with slots to allow a visual check of ammunition and many of these rifles were produced with a multi-port muzzle brake.

Action

- no longer capable of full automatic fire.

Shots

- detachable box magazine.

Notes

Make

- "SIG" inside an oval is usually marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- AM55 was introduced in the early 1950's.
- AM55 was redesignated for the Swiss military as the Stgw57.
- Stgw57 and the SG510 series were manufactured from 1957 to 1983.
- up to one million were produced.
- Stgw57 was replaced by the "Stgw 90".
- Stgw stands for "Sturmgewehr" or "Assault Rifle".
- Stgw57 was sold commercially as the SG510 series.
- AM55 rifle is a modular design and utilizes a roller locked, delayed blowback, operating system.
- features include: round barrel with flash hider/muzzle brake; fixed front and aperture-type rear sight; rectangular receiver/frame; stamped metal butt, mainspring and buffer assembly with removable wood side pieces; wood forearm and pistol grip.

Action

- delayed blowback.

Shots

- detachable box magazine.

22628 - 3	7.62MM NATO	20	479	Prohibited PFR, Part 1, para. 84	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SIG - AMT" is marked on the receiver/frame.
- "SIG" inside an oval is marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- "SIG - AMT" is marked on the receiver/frame.
- manufactured from 1960 to 1988.
- "AMT" is a semi-automatic version of the Stgw57/SG510-3/SG510-4 automatic rifle.
- Stgw57 was the Swiss military designation for the SG510.
- Stgw57 was also known as Stgw.57, Sturmgewehr 57 or Fusil d'Assault Mle 57.
- Stgw57 was manufactured from 1957 to 1983.
- approximately 590,000 were produced.
- Stgw57 was replaced by the Stgw 90.
- Stgw stands for "Sturmgewehr" or "Assault Rifle".
- Stgw57 was sold commercially as the SG510 series.
- Stgw57 was also sold commercially as a semi-automatic rifle and was designated as the following models: AMT, PE57, SG510-3 and SG510-4.
- Stgw57 was a selective fire rifle, which incorporates a modular design and utilizes a roller locked, delayed blowback, operating system.
- AMT is semi-automatic only.
- features include: round barrel with flash hider/muzzle brake; fixed front and aperture-type rear sight; vented barrel shroud; rectangular receiver/frame; folding carrying handle and bi-pod; folding winter trigger; wood forearm, pistol grip and buttstock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SIG" and "Made in Switzerland" are marked on the receiver/frame.
Action	- delayed blowback operation.
Serial Number	- reported example consists of 5 digits. - partial serial number is repeated on major componants.
Shots	- detachable box magazine.

Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
199089 - 1	243 WIN	5	480	Prohibited PFR, Part 1, para. 173	Manufacturer Specifications and Commercial Customization	

Notes

Make	- The company logo is marked on the receiver/frame. - The "SIG" company logo consists of the word "SIG" in an oval.
Model	- "C.S.A. - MR" is marked on the left side of the upper receiver/frame. - "C.S.A." is a French acronym meaning "Carabine Semi-Automatique", or Semi Automatic Carbine. - Features include: knurled and numbered gas block adjustment knob; fore end with built in bipod; right side charging handle; magazine release paddle located ahead of trigger guard; safety lever located on the left side of the lower receiver/frame; rotating drum style rear sight.
Manufacturer	- The company logo is marked on the receiver/frame. - The "Manurhin" logo consists of the word "MANURHIN" overlaying a geared wheel.
Action	- Gas operated.
Serial Number	- The serial number is marked on the left side of the upper receiver/frame.
Calibre	- The calibre designation is marked on the left side of the receiver/frame.
Shots	- Detachable box magazine.
Canadian Law Comments	- This firearm design incorporates a two-piece receiver/frame: the upper receiver is the master component considered to be the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - The French "St ETIENNE" proof mark is marked on the left side of the upper receiver/frame.

Model

- introduced in 1986.
- "SG 550" is marked on the left side of the receiver/frame.
- this is a commercial, semi-automatic version of the Model "SG550".
- features include: plastic buttstock (folding or fixed), pistol grip, forearm and magazine; hooded front sight with a diopter rear sight; integral folding bipod; integral flash hider.

Action

- gas operated, semi-automatic version only.

Serial Number

- serial number is marked on the left side of the upper receiver/frame assembly above the magazine housing.

Barrel

- this firearm has an integral flash eliminator.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Make

- "SIG" inside an oval is usually marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- "SG 550 SP" is usually marked on the left side of the upper receiver/frame.
- model designation is usually followed by the serial number.
- "SP" in the model name indicates that this firearm is the "commercial/sporting" version of the Swiss Army SG550 assault rifle.
- when sold in Switzerland it is usually known as the "Stgw 90 PE".
- features include: gas operated; rotating bolt; plastic stock furniture.

Action

- gas operated, rotating bolt.
- capable of semi-automatic fire only.

Serial Number

- the serial number is marked on the left side of the upper receiver/frame assembly above the magazine housing.
- known example had a four digit number with a double letter prefix.
- letter prefix "PE" has been observed.

Barrel

- this firearm has a flash hider/eliminator that is an integral part of the barrel and it should therefore be included in the overall barrel length measurement.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Make

- "SIG" inside an oval is usually marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- "SG 550-1 Sniper" is marked on the left side of the upper receiver/frame.
- this firearm is a purpose built semi-automatic firearm.
- features include: matte black painted powder-coat finish on all metal surfaces other than the barrel; heavy barrel with a 20 MM (0.750 inch) diameter; black synthetic collapsible and fully adjustable butt stock; black synthetic pistol grip and forend; ambidextrous safety selector lever marked "0,1" followed by a white dot indicate manufacture as a semi-automatic only; ambidextrous magazine release lever mounted behind the magazine well on the bottom of the lower receiver/frame; bolt release button mounted on the left side of the receiver/frame; integral bipod mounted on the forend; intended for use with an optical sight; an anti-mirage rail is mounted on the top of the upper handguard to disrupt/minimise heat distortion; adjustable gas mechanism; the bolt cocking handle extends from the bolt assembly through the right side ejection port.
- overall length with the butt folded is 905mm (35 5/8") or with the butt extended is 1130mm (44 1/2") and the weight is approximately 7.02 kgs (15.48 lbs).

Action

- gas operated mechanism.

Serial Number

- serial number is marked on the left side of the upper receiver/frame just above the magazine housing. The last four numbers of the serial number may be repeated on major components.
- observed serial numbers have consisted of six digits without prefix or suffix, in the 130,130 - 130,140 range.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- rifling characteristics: - six groove, uniform right-hand twist, one turn in 254 MM (10 inches).
Shots	- detachable, stackable, translucent polymer box magazines.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

- "SG550-2" is a short-barreled version of the Stgw 90 rifle.
- "SG550-2" has diopter night sights, integral folding bipod and side folding stock.
- "SG550-2" is an improved version of the SG540.
- "SG550-2" was designed to replace the Stgw 57 with a 5.56X45 MM NATO cartridge

Action

- gas operated.

Serial Number

- serial number rationalization unknown.
- serial number is marked on the left side of the receiver/frame, just above magazine housing.

Barrel

- integral flash eliminator must be included in barrel length.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Canadian Law Comments - in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Make

- "SIGARMS INC. Herndon VA" and "Made in Switzerland" over "SG 550-2 SP" and the "serial number" are marked on the left side of the receiver/frame.
- "SIG" inside an oval is usually marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- "SG 550-2 SP" is usually marked on the left side of the upper receiver/frame.
- model designation is usually followed by the serial number.
- "SP" in the model name indicates that this firearm is the "commercial/sporting" version of the Swiss Army SG550 assault rifle.
- features include: rotating bolt; plastic stock furniture.

Action

- gas operated.
- manufactured capable of semi-automatic fire only.

Serial Number

- the serial number is marked on the left side of the upper receiver/frame assembly above the magazine housing.
- serial number rationalization unknown.
- serial number of sample specimen consisted of five digits without prefix or suffix.

Barrel

- integral flash eleiminator must be included in barrel length.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.
Remarks	- this firearm has an integral flash eliminator which is considered / measured as barrel for the purpose of barrel length.

Notes

Make

- "SIG" inside an oval is usually marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- "SG551 SP" is usually marked on the left side of the upper receiver/frame.
- model designation is usually followed by the serial number.
- "SP" in the model name indicates that this firearm is the "commercial/sporting" version of the Swiss Army SG551 assault carbine.
- features include: rotating bolt; plastic stock furniture.

Action

- gas operated, rotating bolt.
- manufactured capable of semi-automatic fire only.

Serial Number

- the serial number is marked on the left side of the upper receiver/frame assembly above the magazine housing.
- serial number rationalization unknown.

Barrel

- integral flash eleiminator must be included in barrel length.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.
Remarks	- this firearm has an integral flash eliminator which is considered / measured as barrel for the purpose of barrel length.

Notes

Make

- "SIG" inside an oval is marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- "SG 551-2", is marked on the left side of the upper receiver/frame.
- "SG551-2" is a short-barreled version of the Stgw 90 rifle.
- features include: matte green baked paint finish on all metal surfaces other than the barrel; integral flash hider; plastic folding butt stock, pistol grip and forend; ambidextrous safety selector lever marked "S,1,3,20"; three round burst and full automatic capability; ambidextrous magazine release lever mounted behind the magazine well on the bottom of the lower receiver/frame; bolt release button mounted on the left side of the receiver/frame; optional bipod may be mounted on the forend; flip-up front night sight; adjustable gas system; diopter rear sight; bayonet lug; the bolt cocking handle extends from the bolt assembly through the right side ejection port.

Action

- gas operated.

Serial Number

- the serial number is marked on the left side of the upper receiver/frame assembly just above the magazine housing.
- observed serial numbers have consisted of five numbers without letter prefix or suffix.
- four digit partial serial numbers may be found marked on the lower receiver/frame assembly, the bolt, and other major sub-components of the firearm.

Barrel

- this firearm is assmbled using a barrel having an integral flash eliminator which must be included in barrel length measurements.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazines.

Canadian Law Comments - in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Make

- "SIG Arms Inc. Exeter - NH", "SIG" inside an oval and "Made in Switzerland" was observed marked on the left side of the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- "SG 551-2 SP" and serial number was observed marked on the left side of the upper receiver/frame.
- "SP" in the model name indicates that this firearm is the "commercial/sporting" version of the Swiss Army SG551 assault carbine.
- this firearm uses a split receiver/frame.
- features include: round barrel with flash hider; adjustable sights; ambidextrous safety lever; rotating bolt; single action trigger mechanism; magazine release located in front of the trigger guard; synthetic forearm, pistol grip and side folding buttstock.
- overall length for 364 mm (14.3") barrel is 832 mm (32.8"), and the average weight is 3.4 kgs (7.5 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated, rotating bolt. - manufactured capable of semi-automatic fire only.
Serial Number	- serial number is marked on the left side of the upper receiver/frame assembly above the magazine housing. - serial number rationalization unknown. - observed serial number consisted of five numbers without a letter prefix or suffix.
Barrel	- integral flash eliminator must be included in barrel length.
Shots	- detachable box magazine.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.
Other Markings	- observed markings on the right side of the receiver/frame: "RESTRICTED LAW ENFORCEMENT / GOVERNMENT USE ONLY". - observed markings on the left side of the receiver/frame: "SIG Arms Inc. Exeter - NH" followed by "SIG" in an oval, followed by "Made in Switzerland" over "SG 551-2 SP" followed by a five digit s/n.
Remarks	- this firearm has an integral flash eliminator which is considered / measured as barrel for the purpose of barrel length.

Notes

Make

- "SIG" inside an oval is usually marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- features include: rotating bolt; ambidextrous safety; folding butt; diopter night sights.

Action

- gas operated, rotating bolt.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left side of the upper receiver/frame assembly above the magazine housing. - observed specimen had a serial number consisting of four digits without a prefix or suffix.
Shots	- detachable box magazine.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Make

- "SIG" inside an oval is usually marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- model designation may be marked on the left side of the receiver/frame.
- this is a semi-automatic only sporting version of the SG552 series of rifles.
- features include: matte black baked paint finish on all metal surfaces other than the barrel; plastic butt stock, pistol grip and forend; folding butt stock; ambidextrous safety selector lever; ambidextrous magazine release lever mounted behind the magazine well on the bottom of the lower receiver/frame; bolt release button mounted on the left side of the receiver/frame; flip-up front sight; adjustable glass system; diopter rear sight and picatinny rail mounted on the top of the upper receiver/frame; capable of mounting a variety of sight rails and equipment attachment points on the receiver/frame and forend furniture; the bolt cocking handle extends from the bolt assembly through the right side ejection port.
- overall length with a 240mm (9.4") barrel is 715mm (28.2") average weight is 3.2kgs (7.1 lbs).

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a two letter prefix (SG) and six numbers.

Calibre

- ".223 Rem." is marked on the left side of the receiver/frame.
- calibre identification may also be marked on the barrel.

Shots

- detachable box magazine.

Notes

Make

- "SIG" inside an oval is usually marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- the model designation is marked on the left side of the receiver/frame as "SG552-1 COMMANDO".
- features include: matte green baked paint finish on all metal surfaces other than the barrel; non-integral flash hider; plastic butt stock, pistol grip and forend; folding butt stock; ambidextrous safety selector lever marked "0,1" followed by a white dot indicate manufacture as a semi-automatic only; ambidextrous magazine release lever mounted behind the magazine well on the bottom of the lower receiver/frame; bolt release button mounted on the left side of the receiver/frame; integral bipod mounted on the forend; flip-up front sight; adjustable glass system; diopter rear sight or picatinny rail mounted on the top of the upper receiver/frame; bayonet lug; capable of mounting a variety of sight rails and equipment attachment points on the receiver/frame and forend furniture; the bolt cocking handle extends from the bolt assembly through the right side ejection port.

Manufacturer

- manufacturer's name is not marked on the firearm.

Action

- gas operated mechanism.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number rationalization is unknown. - the serial number is marked on the left side of the upper receiver/frame just above the magazine housing. - observed serial number sequences have consisted of five numbers without letter prefix or suffix.
Barrel	- the flash eliminator is not included in the barrel length measurement as it is not integral as is the case with other SG550 and SG551 models and variants.
Calibre	- the calibre designation is marked on the barrel.
Shots	- detachable, stackable, translucent polymer box magazines.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada. - the flash eliminator is not included in the barrel length measurement as it is not integral as is the case with other SG550 and SG551 models and variants.

FRT Report

Firearm Reference Number (FRN): 122197
Make: SIG
Model: SG552-2 Commando

Summary

Make:	SIG
Model:	SG552-2 Commando
Manufacturer:	SAN Swiss Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122197 - 1	5.56MM NATO	5	226	Prohibited PFR, Part 1, para. 83	Manufacturer Specifications and Commercial Customization	
122197 - 2	5.56MM NATO	10	226	Prohibited PFR, Part 1, para. 83	Manufacturer Specifications and Commercial Customization	
122197 - 3	5.56MM NATO	20	226	Prohibited PFR, Part 1, para. 83	Manufacturer Specifications and Commercial Customization	
122197 - 4	5.56MM NATO	30	226	Prohibited PFR, Part 1, para. 83	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SIG" inside an oval is usually marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- "SG 552-2 COMMANDO" is marked on the left side of the receiver/frame.
- features include: matte green baked paint finish on all metal surfaces other than the barrel; non-integral flash hider; plastic butt stock, pistol grip and forend; folding butt stock; ambidextrous safety selector lever marked "0,1" followed by a white dot indicate manufacture as a semi-automatic only; ambidextrous magazine release lever mounted behind the magazine well on the bottom of the lower receiver/frame; bolt release button mounted on the left side of the receiver/frame; integral bipod mounted on the forend; flip-up front sight; adjustable glass system; diopter rear sight or picatinny rail mounted on the top of the upper receiver/frame; bayonet lug; capable of mounting a variety of sight rails and equipment attachment points on the receiver/frame and forend furniture; the bolt cocking handle extends from the bolt assembly through the right side ejection port.

Manufacturer

- manufacturer's name is not marked on the firearm.

Action

- gas operated mechanism.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number rationalization is unknown. - the serial number is marked on the left side of the upper receiver/frame just above the magazine housing. - observed serial number sequences have consisted of five numbers without letter prefix or suffix.
Barrel	- the flash eliminator is not included in the barrel length measurement as it is not integral as is the case with other SG550 and SG551 models and variants.
Calibre	- the calibre designation is marked on the barrel.
Shots	- detachable, stackable, translucent polymer box magazines.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada. - the flash eliminator is not included in the barrel length measurement as it is not integral as is the case with other SG550 and SG551 models and variants.

Notes

Make

- "SIG" inside an oval is usually marked on the receiver/frame.
- "SIG" is the abbreviation for "Schweizerische Industrie-Gesllschaft".

Model

- introduced in 2009.
- "SG 553-1" is marked on the left side of the receiver/frame.
- "SG 553-1" variations are based on the SIG SG-550 rifle design.
- "SG 553-1" variants may have a machined, aluminum trigger mechanism/magazine housing, that may use AR15/M16 type magazines or proprietary magazine.
- "SG 553-1" variant, "SG 553-1 SP" has been observed with a full length top Picatinny rail.
- features include: threaded muzzle for flash hider/muzzle brake; adjustable gas plug/regulator; circular front sight protector and adjustable rotating drum rear sight; synthetic handguard that may have Picatinny rails attached; cocking handle extends from the bolt assembly through the right side ejection port; ambidextrous magazine release lever and selector; synthetic pistol grip and side folding buttstock.
- overall length with a 2327mm (8.9") barrel is 501mm (19.7") with the stock folded and average weight of 3.2 kg (7.1lbs).

Manufacturer

- manufacturer's name is not marked on the firearm.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame.
Calibre	- calibre identification is marked on the left side of the receiver/frame. - calibre identification is also marked on the barrel.
Shots	- detachable box magazine.

Notes

Make

- "SIG" is marked on the left side of the slide and/or the receiver/frame.
- "SIG" is the abbreviation for Schweizerische Industrie-Gesellschaft.

Model

- "SIG SP 2340" is marked on the left side of the slide.
- "sig pro" is moulded into left and right handgrips.
- manufactured from 1999 to 2005.
- "SP" in the model designation stands for "SIG PRO".
- features include: moulded polymer receiver/frame; steel internal parts, slide and barrel; dot front & bar rear low-profile combat sights (optional; three-dot or "Siglite" Tritium); single or double action trigger mechanism.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SIG" is marked on the left side of the slide and/or the receiver/frame. - "SIG" is the abbreviation for Schweizerische Industrie-Gesellschaft.
Action	- locked breech, short recoil, Browning system.
Serial Number	- moulded into the frame.
Calibre	- calibre is marked on the right side of the barrel.
Shots	- detachable box magazine.
Importer	- marked on the left side.

Notes

Make

- makers name or logo (SIG in an oval) will be marked on the slide and/or receiver/frame.

Model

- model designation may not be marked on this firearm; or it may be marked as follows on the left side of the slide, "S.P.47/ 8 SIG"; "S.P. 47/8 SIG CAL .22 long rifle"; "S.P. 47/8 lg.rf. SIG. Neuhausen a/Rhf".
- introduced in 1947; adopted by the Swiss Army in 1949 as the model 49.
- the SP 47/8 was renamed the P210 circa 1957.
- the SP47/ 8 comes in five sub-models; 102 is in 9MM LUGER; 202 is in 7.65MM; 302 is a combination of 9MM LUGER and 7.65MM; 402 comes in 22 LR; 502 is a combination of 9MM LUGER, 7.65MM and 22 LR.
- features include: exposed hammer centrally located at the rear of the slide; slide release and lever-type safety located on the left rear of the receiver/frame; plastic or wood grips; single action trigger; lanyard loop located on the lower left of grip frame; magazine release on the bottom rear of the grip frame.
- variations in grips and sights are known to exist.

Manufacturer

- "SIG" inside an oval will be marked on the slide and/or receiver/frame.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number
- serial number is usually marked on the left side of the receiver/frame and the slide.
- five digit numbers with the letter prefix "P" have been observed.

Shots
- detachable box magazine.

Notes

Make

- "SIG SAUER" is marked on the upper front left side of the slide.
- "SIG SAUER" is also marked, molded on both side of the grip.
- "SIG SAUER" address "NEWINGTON, NH, USA" is found marked forward, right side of the cut-out in the grip frame module that permits the serial number to be read on the receiver module.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "SIG SAUER" and "M17" is marked on the upper front, left side of the slide.
- "SIG SAUER M17" is a modular design, it has a steel receiver/firing mechanism housed within a synthetic grip frame module.
- "M17" stands for the handgun that fulfilled the requirements laid out in the Modular Handgun System (MHS) Request for Proposal, known as the United States Military XM17 Procurement.
- "M17" is the result of the SIG Sauer submitted P320 with a number of modifications as the XM17 Modular Handgun System (MHS).
- "SIG SAUER P320 M17" is the civilian version of the SIG Sauer P320 MHS variant that has won the United States Military's Modular Handgun System trials that was announced on January 2017.
- "SIG SAUER P320 M17" the civilian variant, has the magazine release, slide stop, take-down lever and manual safety in black colour without the slide military marking.
- "M17" was available as a commemorative for the civilian market with serial number from M17-0001 to M17-5000, having all controls and overall colour finish in coyote tan and military markings on the left side of the slide: "MFR: 6ZWB1 PIN 18067008".
- "M17" is available with or without an ambidextrous manual safety.
- "M17" is available in a compact variant known as the "M18".
- features include: dovetail, fixed front with a slide cut out to facilitate the addition of a reflex sight covered by a cover plate and three-dot night sights; stainless steel slide; slide with front & rear, inclined forward, cocking serrations; removable heavy-gauge steel stamping receiver/frame including the firing mechanism; synthetic grip frame shell with integral rail located on the underside in front of the trigger guard; striker fired, Double Action Only trigger mechanism; ambidextrous slide release; loaded chamber indicator; takedown lever is located on the left side; triangular shaped with rounded corners magazine release located behind the trigger guard; all controls and overall colour finish is coyote tan.
- overall length with a 119 mm (4.7") barrel is 203 mm (8"), and average weight is 840 grams (29.6 oz).

Manufacturer

- "SIG SAUER" is marked on the upper front left side of the slide.
- "SIG SAUER" is also marked, molded on both side of the grip.
- "SIG SAUER" address "NEWINGTON, NH, USA" is found marked forward, right side of the cut-out in the grip frame module that permits the serial number to be read on the receiver module.

Action

- recoil operated.

Serial Number

- serial number is found on the receiver module/firing mechanism, visible through a cut-out in the synthetic grip frame module on the right side, in a manner similar to the SIG Sauer Model P250.
- serial number of a referenced example consisted of the prefix "MHS" and four numbers.
- serial number of a referenced example consisted of two numbers prefix, a letter and six numbers.

Calibre

- calibre designation is marked on the barrel, visible through the ejection port.

Shots

- detachable box magazine.
- magazines are interchangeable between the SIG Sauer Model P320 and the SIG Sauer Model P250.

Notes

Make

- "SIG SAUER" is marked on the receiver/frame of the firearm and on the slide.
- "NEWINGTON, NH, USA" is marked on the right side of the receiver/frame, above the trigger.

Model

- introduced in 2018.
- "M17" is marked on the left side of the slide and incorporated as part of the serial number on the right side of the receiver/frame.
- this model is a full-sized U.S. Army Commemorative commercial version of the "M17" model used by the U.S. Military; in the range of 1 to 5000.
- the "M17" is deemed a variant of the Sig Sauer "P320" model.
- features include: round barrel, coyote-tan slide with front and rear grip serrations, plus fixed front and rear, three-dot night sights; removable heavy-gauge steel stamping receiver; coyote-tan synthetic grip frame shell with integral rail located on the underside in front of the square front trigger guard with finger grip serrations; striker fired, double action trigger mechanism; ambidextrous slide release; takedown lever is located on the left side; magazine release located behind the trigger.
- overall firearm length with 119mm (4.7") barrel is 140mm (5.5") and average weight with 17rnd magazine is 838 gm (29.6 oz).

Manufacturer

- "SIG SAUER" is marked on the receiver/frame of the firearm and on the slide.
- "NEWINGTON, NH, USA" is marked on the right side of the receiver/frame, above the trigger.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the receiver/frame, visible through a cut-out in the synthetic grip frame module on the right side of the firearm.
- observed serial number consisted of a letter prefix followed by two number, "M17", followed by a dash, "-", followed by four numbers.
- serial number rationalization is as follows: "M17" represents the model and the numbers that follow the dash, "-", represent the sequence of the production run from M17-0001 to M17-5000.
- note: any numbers found on the slide are not to be deemed the serial number of the firearm, samples being: "MFR6ZWB1" or "PN13067008-1".

Calibre

- calibre is marked on the barrel and visible through ejection port cutout.
- calibre may be marked as "9mm x 19".

Shots

- detachable box magazine.

Firearm Reference Number (FRN): 145689
Make: SIG Sauer
Model: P210 Legend Limited Edition

Summary

Make:	SIG Sauer
Model:	P210 Legend Limited Edition
Manufacturer:	SIG Sauer
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145689 - 1	9MM LUGER	8	120	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SIG SAUER" and "Made in Germany" are marked on the left side of the receiver/frame.
- SIG and J. P. Sauer & Sohn entered into a co-operative venture in 1972.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- "SAN Swiss Arms AG" was formed and purchased SIG Arms AG in 2000.
- "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG in 2003.
- "SAN Swiss Arms AG" sold products under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer in 2003.

Model

- introduction in 2011.
- "P210" or "P210 Legend" is marked on the left side of the slide.
- only 210 produced.
- features include: round barrel; flat sided steel slide with right side ejection port, rear grip serrations and fixed sights; heavy steel receiver/frame with internal slide rails and extended beavertail; exposed spurred hammer; single action trigger mechanism; slide release, safety lever and push button magazine release are located on the left side of the receiver/frame; checkered wood grip plates; blued finish and engraved slide with gold inlay.
- overall length is 216 mm (8.5") and average weight is 1.06 kg (37.4 oz).

Manufacturer

- "SIG SAUER" and "Made in Germany" are marked on the left side of the receiver/frame.

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame and repeated on the slide and barrel.
- observed serial number consisted of a letter "P" prefix and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre is marked on the barrel.
Shots	- detachable box magazine.

Notes

Make	- "SIG SAUER" is marked on the slide. - in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture. - "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc. (U.S.A.). - "SIGARMS" was a trade mark used by SIG Arms Inc. - "SIG SAUER" is a trade name used by SAN Swiss Arms AG. - in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG. - in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG. - in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.
Model	- "P220" is marked on the slide and may be repeated on the grips. - introduced in 1976. - features include: matte blue finish, silver finish that SIG Sauer refers to as "K-Kote" or two-tone finish; black plastic or wood grip panels; side magazine release button (American version) or a heel mounted magazine release (European version); available in three trigger configurations, double action/single action (DA/SA), single action only (SAO) or a smooth 3.4kg (7.5lb) double action only trigger (DAK); available with a tactical rail (P220R) located in front of the trigger guard. - ambidextrous safety standard on the SAO version. - overall length with 112mm(4.4") barrel is 196mm, average weight is 0.86kg(1.9lb). - Tactical Rail became standard on the model P220 starting in 2004.
Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated.
Serial Number	- alpha prefix followed by sequential numbers. - will be marked on side of receiver or grip frontstrap. - serial number may also be marked on slide.
Calibre	- calibre designation is marked on barrel.
Shots	- detachable box magazine.
Importer	- Sigarms is currently the sole importer. - Sigarms is currently (1999) located in Exeter, New Hampshire and is the North American importer of the SIG Sauer line of firearms.
Canadian Law Comments	- Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states: "prohibited firearm" means (a) a handgun that (ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,
Other Markings	- German proof marks will normally be found on the firearm.
Remarks	- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode. - the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.

- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Model

- introduced in 2004.
- "P220" is marked on the right side of the slide.
- "P220R" is not marked on the firearm.
- "R" in the model designation refers to the integral Picatinny accessory rail on the receiver/frame which became standard on the P220 series in 2004.
- features include: drift adjustable front and rear sights; round rifled barrel; flat sided stainless steel slide with rear cocking serrations; hard anodized light-weight alloy or stainless steel receiver/frame with an under barrel Picatinny accessory rail, and checkered square front trigger guard and front grip strap; external hammer; take-down lever, decocking lever, slide release, and magazine release button are mounted on the left side of the receiver/frame; black polymer pebbled grip panels; black Nitron, two-tone or stainless finish.
- overall length is 196mm, overall height is 140mm, and overall width is 38mm.
- average weight is .86kgs.
- this model is available in a "Double Action Only" (DAK) configuration. The DAK version has no decocking lever, all other features are as above.
- this model is available in a "Single Action Only" (SAO) configuration. The SAO version has a SAO trigger and ambidextrous thumb safety, all other features are as above.

Manufacturer

- "SIG SAUER" is marked on the slide.
- "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.

Action

- recoil operated.

Serial Number

- serial number is located on the right side of the receiver/frame above the trigger.
- observed serial number consisted of a letter "G" prefix and six numbers.
- observed serial number consisted of a letter "G" prefix and seven numbers.
- observed serial number consisted of two numbers, a letter "A", and six numbers.

Calibre

- marked on the barrel, visible through the ejection port.

Shots

- detachable box magazine.

Notes

Make

- "SIG SAUER" is marked on the left side of the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Model

- introduced in 2006.
- "P220" is marked on the right side of the slide.
- "P220R Carry" is not marked on the firearm.
- "P220R is not marked on the firearm, "R" in the model designation refers to the integral tactical accessory rail on the receiver/frame, standard starting in 2004.
- "Carry" is for the compact profile version of the P220 which features a shorter slide and barrel length over a full size receiver/frame.
- features include: stainless finish slide with rear cocking serrations; black drift adjustable front and rear sights; black external hammer; black hard coat anodized receiver/frame; forward under barrel Picatinny accessory rail; front grip strap checkering; double or single action operation; squared trigger guard with front guard checkering; black left side slide release, decocking lever, button magazine release, and take-down lever; black polymer pebbled grip panels.
- overall length is 180mm, overall height is 140mm and overall width is 38mm.
- overall weight is .86kgs.
- available in a "Double Action Only" (DAK) configuration. The DAK version has no decocking lever, all other features are as above.
- available in a "Single Action Only" (SAO) configuration with an ambidextrous thumb safety.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated.
Serial Number	- serial number is marked on the right side of the receiver/frame.
Calibre	- marked on the barrel, visible through the ejection port.
Shots	- single stack detachable box magazine.
Importer	- marked on the left side of the slide.
Remarks	- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode. - the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.

- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Model

- introduced in 2007.
- "P220R CARRY ELITE" is not marked on the firearm.
- "P220 ELITE" is marked on the right side of the slide.
- "R" in the model designation refers to the integral tactical accessory rail on the receiver/frame.
- "Tactical Rail" became standard on the model P220 series starting in 2004.
- "Carry Elite" is for the compact carry version of the P220 Elite.
- features include: stainless steel receiver/frame with Nitron or two tone finish; SIGLITE night sights; custom wood grips with SIG SAUER logo; short reset, double/single action or single action only trigger; picatinny rail milled in lower front portion of the receiver/frame; square front trigger guard; beavertail grip; front slide serrations; checkering on the grip front strap.
- overall length with 99mm (3.9") barrel is 194mm (7.6"), average weight is 0.86kg (1.9lb).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated.
Serial Number	- serial number is located on the right side of the receiver/frame above the trigger. - observed serial number consisted of a letter "G" prefix and six numbers.
Calibre	- calibre designation is marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine.

125804 - 2	45 AUTO	10	99	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SIG SAUER" is marked on the left side of the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Model

-introduced in 2007.
- "P220R Carry Equinox" is not marked on the firearm.
- "SIG SAUER", "P220" and "STAINLESS" are marked on the left side of the slide.
- "Equinox" is engraved on the right side of the slide preceded by a SIGARMS custom shop logo.
- "R" in the model designation refers to the integral tactical accessory rail on the receiver/frame.
- "Tactical Rail" became standard on the model P220 series starting in 2004.
- this is a custom shop version of the P220 Carry.
- features include: two tone slide finish with nickel controls; TRUGLO TFO tritium front sight and SIGLITE rear sight; custom wood grips with SIG SAUER logo; anodized alloy receiver/frame with picatinny rail milled in lower front portion of the receiver/frame; square front trigger guard.
- overall length with 99mm (3.9") barrel is 180mm (7.10"), average weight is 0.86kg (1.9lb).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated.
Serial Number	- serial number is marked on the right side of the receiver/frame.
Calibre	- marked on the barrel, visible through the ejection port.
Shots	- single stack detachable box magazine.
Importer	- marked on the right side of the receiver/frame.
Remarks	- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode. - the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.

Notes

Make

- "SIG SAUER" is marked on the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Model

- introduced in 2001.
- the model designation is marked on the right side of the slide.
- features include: flat dark earth finished or stainless steel receiver/frame and slide, black rubber grips; newer versions (2002) of this pistol have an integral mounting rail for lights, lasers, etc. milled in the lower front portion of the receiver/frame; serrated front strap and trigger guard.
- overall length with 112mm (4.4") barrel is 196mm (7.70"), average weight is 1.09KG (2.4lb).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated.
Serial Number	- the serial number is marked on the right side of the receiver/frame, above the trigger-guard. - samples examined incorporated an alpha prefix.
Calibre	- the calibre designation is marked on the barrel, visible in the ejection port.
Shots	- detachable box magazine.
Importer	- the importers name will usually be marked on the right side of the receiver/frame.
Other Markings	- German proofmarks will be marked on all major components.
Remarks	- the Double-Action/Single-Action (DA/SA) version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger and subsequent shots may be fired in the single-action mode.

Notes

Make

- "SIG SAUER" is marked on the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- production commenced in 1975.
- "P225" is marked on the right side of the slide.
- SIG SAUER Model P225 semi - automatic pistol is available in two configurations; Double-Action/Single-Action (conventional) and Double-Action Only.
- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode.
- the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.
- features include: aluminum receiver/frame, exposed hammer, fixed front sight with an adjustable rear sight, the decocking lever (not found on the double-action only version) and magazine release are located on the left side of the receiver/frame, black plastic checkered grips. The finish may be blued, electroless nickle finish, a silver finish that SIG Sauer refers to as "K-Kote", or in two-tone finish.
- the P225 was designed as a quick responce pistol that wouldn't require the removal of a safety. The P225 is a smaller version of the P226. These two pistols quickly became the standard pistol for the German police forces, German Border Patrols, German Police Field Force Reserve, German Federal Customs Police, German Railroad Police and various Swiss Police agencies. The P225 and P226 were refered to as "P6" for "Pistole 6".

Manufacturer

- "SIG SAUER" is marked on the slide.
- "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.

Action

- recoil operated.

Serial Number

- seial number is marked on the right of the receiver/frame and may be repeated on the left side of the slide.
- observed serial number consisted of a letter "M" prefix and six numbers.

Calibre

- the calibre is normally marked on the barrel and visible throught the ejection port "9mm Para".

Shots

- detachable box magazine.

Notes

Make	- "SIG SAUER" is marked on the slide. - in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture. - "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.). - "SIGARMS" was a trade mark used by SIG Arms Inc. - "SIG SAUER" is a trade name used by SAN Swiss Arms AG. - in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG. - in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG. - in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.
Model	- introduced in 1983. - "P226" and "Stainless" is marked on the side of the slide. - "P226" may be repeated on the grips. - SIG SAUER Model P226 semi - automatic pistol is available in two configurations; Double-Action/Single-Action (conventional) and Double-Action Only. - Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode. - Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode. - features include: various finishes are available, matte blue finish, a silver finish that SIG Sauer refers to as "K-Kote" or in two-tone finish. - black plastic or wood grip panels are offered for this model. - "Tactical Rail" became standard on the model P226 series starting in 2004. - "P226" with a "Tactical Rail" is known as the "P226R".
Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated. - in cal 22 LR the action would be "blow-back" operated.
Serial Number	- alpha prefix followed by sequential numbers. - serial number may also be marked on slide.
Calibre	- calibre designation is marked on barrel.
Shots	- detachable box magazine. - the 20 shot magazine was offered as an accessory.
Importer	- Sigarms is currently (1999) located in Exeter, New Hampshire and is the North American importer of the SIG Sauer line of firearms. - the importers name will be found with any of the firms previous addresses marked as well.
Other Markings	- German proof marks will normally be found on the firearm.
Remarks	- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode. - the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.

Notes

Make

- "SIG SAUER" is marked on the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "P226" is marked on the side of the slide. "Vanity" is marked in gold filled letters below "Sig Sauer" on the left side of the slide. - this is a fancy custom version of the P226. - the SIG SAUER Model P226 semi-automatic pistol is available in two configurations; double-action/single-action (conventional) and double-action only. - the double-action/single-action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode. - the double-action only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode. - features include: High polish blued finish; gold accents ; white grip panels and gold plated fixed sights, hammer, grip screws and magazine floorplate. As it is custom, many additional or different features may be found.
Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated. - in calibre 22 LR the action would be "blow-back" operated.
Shots	- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "SIG SAUER" is marked on the slide. - in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture. - "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.). - "SIGARMS" was a trade mark used by SIG Arms Inc. - "SIG SAUER" is a trade name used by SAN Swiss Arms AG. - in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG. - in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG. - in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.
Model	- introduced in 2004. - "P226" is marked on the left side of the slide and is repeated on the grips. - "P226R" is not marked on the firearm. - "R" in the model indicates the Picatinny type tactical rail machined into the front underside of the receiver/frame, introduced in 2004. - features include: black Nitron finish over a stainless steel slide with front and rear cocking serrations; black hard anodized alloy receiver/frame with Picatinny rail; square front trigger guard with horizontal serrations; horizontal front grip strap serrations; black polymer pebbled grips; SIGLITE rear night sight, tritium front sight; black left side slide lock, take-down lever, decocking lever, and button magazine release; and external hammer. - available as double action, double action only or single action version. - overall length is 196mm, overall height is 140mm. - overall weight is .96kgs. - also available in a two tone version which has a stainless slide. - P226R DAK (double action only) has no decocking lever. - "P226" may be fully engraved with gold plated parts under the "Majesty" name or "Heritage" having a fully color case hardening color finish.
Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated.
Serial Number	- serial number is marked on the right side of the receiver/frame above the trigger and may be repeated on the barrel and slide. - serial number rationalization is not known. - observed serial numbers consisted of a letter "U" prefix and six numbers. - observed serial number consisted of a two letter "UU" prefix and six numbers.
Calibre	- calibre designation is marked on barrel.
Shots	- detachable box magazine. - the 20 shot magazine was offered as an accessory.
Importer	- Sigarms is currently (1999) located in Exeter, New Hampshire and is the North American importer of the SIG Sauer line of firearms. - the importers name will be found with any of the firms previous addresses marked as well.
Other Markings	- German proof marks will normally be found on the firearm.
Remarks	- the SIG SAUER Model P226R semi - automatic pistol is available in DAK (Double Action Kellerman) Double-Action Only. Kellerman was a SIG SAUER engineer who invented the trigger mechanism. - the SIG SAUER Model P226R Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.

Make: SIG Sauer
Model: P226R Blackwater

Summary

Make:	SIG Sauer
Model:	P226R Blackwater
Manufacturer:	SIG Sauer
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125723 - 1	9MM LUGER	10	112	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
125723 - 2	9MM LUGER	15	112	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SIG Sauer" is marked on the side of the slide.
- "SIGARMS" is marked on the slide and on the receiver/frame.

Model

- this is a P226 version designed for tactical operations and developed in co-operation with the Blackwater Training Center.
- "SIG SAUER P226" is marked on the slide.
- "R" in the model designation refers to the integral tactical accessory rail on the receiver/frame.
- "Tactical Rail" became standard on the model P226 series starting in 2004.
- these pistols are identifiable by the Blackwater bear paw logo on the top of the slide and the Blackwater marking on the wooden grip panels.
- features include: stainless steel slide; black anodized receiver/frame; red front and green rear night sights; custom wood grips with spare polymer factory grips; cocking serrations on the front portion of the slide; pincatinny tactical rail is milled into the lower front portion of the receiver/frame.
- overall length with 112mm (4.4") barrel is 196mm (7.70"), average weight is 0.95kg (2.1lb).

Manufacturer

- "SIG SAUER" is marked on the slide.
- "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.

Action

- recoil operated.

Serial Number

- observed serial numbers have consisted of an alpha prefix followed by sequential numbers.
- serial number may also be marked on slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- marked on the barrel, visible through the ejection port.
Importer	- marked on the right side of the receiver/frame.
Other Markings	- the receiver/frame is marked "FRAME MADE IN GERMANY".
Remarks	- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode. - the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.

Notes

Make

- make is marked on the left side of the slide.

Model

- model designation is marked on the left side of the slide as "P226" and on the right side as "Blackwater".
- introduced in 2009.
- "P226R" is not marked on the firearm. The letter "R" in the model indicates the Picatinny rail machined into the front underside of the receiver/frame.
- the SIG SAUER Model P226R Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode.
- the SIG SAUER Model P226R Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.
- features include: stainless steel barrel; black stainless steel slide; nitro coated black alloy receiver/frame with Picatinny rail and square front trigger guard; beavertail receiver/frame; polymer molded black grips with the Blackwater logo; tritium sights.
- overall length 205mm (8.2").

Manufacturer

- "SIG SAUER" is marked on the left side of the receiver/frame.

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- example observed with a letter prefix and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Other Markings - a bear paw logo is marked on the top of the slide and molded in the grips.

Notes

Make

- "SIG SAUER" is marked on the left side of the slide.
- "SIGARMS INC. EXETER NH." is marked on the right side of the receiver/frame.

Model

- introduced in 2009.
- "22 LR" is marked on the left side of the slide.
- "P226" is marked on the grips.
- P226R is not marked on the firearm, the "R" in the model designation indicates the addition of the Picatinny rail to the model line, now standard on most models since 2004.
- this is a full size "Classic" model SIG 226 chambered in 22 LR.
- features include: black anodized steel receiver/frame and alloy slide with black polymer grips; slide has cocking serrations, drift adjustable front sight; elevation and windage adjustable rear sight; accessory rail; squared trigger guard with front guard checkering; front strap checkering; left side push button magazine release; slide release; decocking lever; external hammer; double or single action operation.
- overall length is 195.5mm, and overall weight is .671kgs empty.
- also available with the "X-Change Kit" slide and barrel assembly in 9mm, 40 S&W, and 357 SIG adding center-fire capability to the firearm.

Serial Number

- serial number was observed on the right side of the receiver/frame.
- serial number consisted of a letter prefix followed by six numbers. eg: X 999 999.

Calibre

- "22 LR" is marked on the barrel, visible through the ejection port.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable ten round box magazine.

Notes

Make

- "SIG SAUER" is marked on the left side of the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 2006. - this is a custom shop version of the P226 pistol. - "P226R Equinox" is not marked on the firearm. - "SIG SAUER", "P226" and/or "STAINLESS" are marked on the left side of the slide. - "Equinox" is engraved on the right side of the slide preceded by the SIG SAUER custom shop logo. - "R" in the model designation refers to the integral tactical accessory rail on the receiver/frame. - "Tactical Rail" became standard on the model P226 series starting in 2004. - features include: two tone slide finish with nickel controls; TRUGLO tritium fiber optic front sight and SIGLITE rear sight; custom checkered wood grips horned by a SIG SAUER logo; anodized alloy receiver/frame with picatinny tactical rail milled into the lower front portion of the receiver/frame; square front trigger guard; serrated front grip strap and trigger guard. - overall length with 112mm (4.4") barrel is 196mm (7.70"), average weight is 0.95kg (2.1lb).
Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated.
Serial Number	- serial number is marked on the right side of the receiver/frame. - example observed with a letter prefix and six numbers. - example observed with two numbers, a letter and six numbers.
Calibre	- marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine.
Importer	- marked on the right side of the receiver/frame.
Remarks	- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode. - the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.

Notes

Make

- "SIG SAUER" is marked on the left side of the slide.

Model

- "P226" is marked on the left side of the slide.
- "P226R" is not marked on the firearm, "R" in the model indicates the Picatinny tactical rail machined into the front underside of the receiver/frame, introduced in 2004.
- this is a commemorative limited production run of 1776 firearms.
- the firearm is embellished with the "Gadsden" flag on the top rear of the slide, and on the pistol grip panels.
- "Don't Tread On Me" is marked on the right side of the slide.
- the Gadsden flag is a historical American flag with a yellow field depicting a rattlesnake coiled and ready to strike. Positioned below the snake is the legend "DONT TREAD ON ME". The flag was designed by and is named after American general and statesman Christopher Gadsden. It was also used by the United States Marine Corps as an early motto flag.
- features include: black Nitron finish over a stainless steel slide with rear cocking serrations; black hard anodized alloy receiver/frame with Picatinny rail; square front trigger guard with horizontal checkering; horizontal front grip strap checkering; custom wood engraved grips; SIGLITE night sights, nickel left side slide lock, take-down lever, decocking lever, and button magazine release; and external hammer.
- double action or single action operation.
- overall length is 196mm, overall height is 140mm and overall width is 38mm.
- overall weight is .96kgs.

Action

- recoil operated.

Serial Number

- serial number is marked on the receiver/frame.
- serial number of an observed example consisted of a two letter prefix (UU) and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- "SIG SAUER" is marked on the side of the slide.

Model

- "P226R Navy MARK 25" is not marked on the firearm.
- "SIG SAUER P226" and an engraved, silver/white filled anchor are marked on the side of the slide.
- "P226" is repeated on the grips.
- "R" in the model indicates the Picatinny tactical rail machined into the front underside of the receiver/frame.
- the anchor is to signify this as a US Naval Special Warfare issued pistol.
- "P226R Navy MARK 25" model is a special edition P226, issued in recognition of the US Navy SEALs.
- features include: dovetailed blade front and fixe rear sights; rifled steel barrel; steel slide with rear cocking serrations; steel receiver/frame with integral Picatinny rail and square front trigger guard; external hammer; slide lock lever, de-cocking lever and magazine release button are mounted on the left side of the receiver/frame; grip back strap is hinge and cover the CO2 cartridge compartment; pebbled black composite grips; black and dark earth finish.
- overall length with a 121mm (4.75") barrel is 210mm (8.25") average weight is 1.07kg (2.35lbs).

Action

- CO2 (Carbon Dioxide) powered.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number of a referenced example consisted of two numbers, one letter and five numbers.

Calibre

- calibre identification is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Canadian Law Comments

- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4 mps (500 fps) and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorization to Transport.

Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500 fps) and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorization to Transport.

Make

- "SIG SAUER" is marked on the left side of the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 2007. - "P226 S" was marked on the right side of the slide of an observed example. - similar to P226 X-Five except for extended slide and receiver/frame to accommodate a six inch barrel (X-Six). - features include: round rifled barrel; flat sided stainless steel slide with front and rear grip serrations, and adjustable low profile sights; stainless steel receiver/frame with checkered front grip strap and square trigger guard, and extended ergonomic beavertail grip; ambidextrous manual thumb safety; factory tuned single action trigger fully adjustable for pull weight, trigger stop and trigger distance; takedown lever, slide release lever and magazine release button are mounted on the left side of the receiver/frame; extended magazine well; checkered walnut grip plates or smooth Scandinavian birch grip plates; satin blue or stainless finish. - adjustable trigger can be tuned by turning a hexagon screw located on the left side of the trigger. - P226S X-Six is available from the SIG-Sauer MasterShop with an integral rail in a PPC version and a Lightweight version with an aluminum receiver/frame as the model P226SR X-Six. - overall length is 250 mm (9.8"), and average weight is 1.4 kgs (3.1 lbs).
Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated.
Serial Number	- serial number is marked on the right side of the receiver/frame. - observed serial number consisted of a letter "U" prefix and six numbers.
Calibre	- calibre designation is marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine.

Notes

Make

- "SIG SAUER" is marked on the left side of the slide and engraved in the grip panels.

Model

- "P226 S" is marked on the right side of the slide.
- "R" in the model stands for the accessory "Rail" machined into the front underside of the receiver/frame.
- "X-Five" stands for "extended" slide with "Five" inch barrel.
- "Lightweight" stands for the aluminum alloy receiver/frame.
- features include: adjustable front and adjustable rear sight; stainless steel slide with front and rear grip serrations; aluminum alloy receiver/frame with Picatinny rail and extended, beavertail style back strap; black anodized receiver/frame; ambidextrous manual thumb safety; spurred external hammer; adjustable trigger; single action only trigger mechanism; extended magazine well.
- overall length with a 127mm (5.0") barrel is 224mm (8.8"), average weight is 1.04kg (2.3lbs).

Manufacturer

- "SIG SAUER" is marked on the left side of the slide and engraved in the grip panels.
- "MADE IN GERMANY" was observed marked on the left side of the slide.
- "SIG SAUER INC." over "EXETER - NH" or variation thereof is marked on the left side of the slide.

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number of referenced examples consisted of one letter prefix (U) followed by six digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - "9mm Para" was observed marked on the chamber area of the barrel, visible through the ejection port.

Shots - detachable box magazine.

Notes

Make

- "SIG SAUER" and "MADE IN GERMANY" are marked on the left side of the slide.

Model

- introduced in 2010.
- "P226 S" is marked on the right side of the slide.
- "P226" is marked on the grip plates.
- "R" in the model designation is for the integral equipment rail.
- "SO" in the model designation is for short trigger.
- this is a variant of the P226 pistol featuring an extended slide and receiver/frame to accommodate a five inch barrel (X-Five).
- features include: post and dot contrast sights; round rifled barrel; flat sided slide with front and rear grip serrations; lightweight alloy receiver/frame with a pincatinny rail milled into the lower front portion; ergonomic beavertail grip; checkered front strap and checkered square trigger guard; single action only (SAO) or single/double action (SA/DA) trigger mechanism; ambidextrous thumb safety; polymer grip; black Nitron finish.
- overall length with a 127 mm (5.0") barrel is 224 mm (8.82"), and average weight is 1.0 kg (2.22 lb).

Manufacturer

- "SIG SAUER" and "MADE IN GERMANY" are marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- serial number is marked on the right side of the receiver/frame and repeated on the slide. - observed serial number consisted of a letter "U" prefix and six numbers.
Shots	- detachable box magazine.
Other Markings	- have a bear paw logo on the top of the slide and molded in the grips.

- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 2007.
- "P226 S" is marked on the right side of the slide.
- "R" in the model stands for the accessory "Rail" machined into the front underside of the receiver/frame.
- "X-Five" stands for "extended" slide with "Five" inch barrel.
- features include: adjustable front and rear night sights; stainless steel slide with front and rear grip serrations; aluminum alloy receiver/frame with a Picatinny rail and an extended beavertail style back strap; ambidextrous manual thumb safety; spurred external hammer; single action only trigger mechanism; black Nitron finish slide and black anodized receiver/frame; black synthetic grips.
- overall length with a 127mm (5.0") barrel is 222mm (8.8"), average weight is 1.04kg (2.3lbs).

Manufacturer

- "SIG SAUER" is marked on the slide.
- "MADE IN GERMANY" was observed marked on the left side of the slide.
- "J. P. Sauer & Sohn's" logo may be marked on the receiver/frame or slide.

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number of referenced examples consisted of a one letter prefix (U) followed by six digits.

Calibre

- calibre designation is usually marked on the barrel, visible through the ejection port.

Shots

- detachable box magazine.

Remarks

- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode.
- the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.

Notes

Make

- "SIG SAUER" is marked on the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 2013. - "P227" is marked on the left side of the slide; SIGARMS custom shop logo engraved on the right side of the slide. - "P227R" is not marked on the firearm. - "R" in the model indicates the Picatinny tactical rail machined into the front underside of the receiver/frame. - features include: contrast or SIGLITE night sights; flat sided stainless steel slide with slatted rear gripping serrations; hard anodized aluminum receiver/frame with integral equipment rail and a one piece synthetic grip with the "SIG SAUER" logo; bobbled hammer; double/single action trigger mechanism; takedown lever, manual safety, action release lever and magazine release button are mounted on the left side of the receiver/frame; black finish. - overall length with 99 mm (3.9") barrel is 180 mm (7.1"), and the average weight is 0.89 kg (1.9 lbs).
Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated.
Serial Number	- serial number is marked on the right side of the receiver/frame.
Shots	- detachable box magazine.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "SIG SAUER" is marked on the slide. - in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture. - "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.). - "SIGARMS" was a trade mark used by SIG Arms Inc. - "SIG SAUER" is a trade name used by SAN Swiss Arms AG. - in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG. - in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG. - in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.
Model	- "P228" is marked on the side of the slide and may be repeated on the grips. - the SIG SAUER Model P228 semi - automatic pistol is available in two configurations; Double-Action/Single-Action (conventional) and Double-Action Only. - the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode. - the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode. - this firearm has been acquired in limited quantities for use by the United States Military with specific features; the US Military M11 has flat black finish, the military designation is marked on the right side of frame above trigger: "U.S. M11". The US M11 is available only with a Double-Action/Single-Action capability. - features available: finishes, matte blue finish, a silver finish that SIG Sauer refers to as "K-Kote" or in two-tone finish, black plastic or wood grip panels are offered for this model, last shot hold-open with a slide locking lever on the left side of the frame. - the US M11 pistols have night visible three-dot tritium sights, rear sight drift adjustable for windage.
Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated.
Serial Number	- the serial number is marked on the right side of the receiver/frame and may also be marked on the right side of the slide. - observed serial number had a letter prefix followed by six sequential numbers.
Calibre	- calibre designation is marked on the barrel.
Shots	- detachable box magazine. - 13 shot magazine is standard US M11, as well as commercial. - the 20 shot magazine was offered as an accessory.
Importer	- Sigarms is currently (1999) located in Exeter, New Hampshire and is the North American importer of the SIG Sauer line of firearms.
Other Markings	- German proof marks will usually be found on the firearm.

Notes

Make

- "SIG SAUER" is marked on the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Model

- "Sig Sauer" and "P229" and "Stainless" are usually marked on the side of the slide.
- "P229" may be repeated on the grips.
- introduced in 1991.
- the SIG SAUER Model P229 semi - automatic pistol is available in two configurations; Double-Action/Single-Action (conventional) and Double-Action Only.
- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode.
- the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.
- overall length with 99mm (3.9") barrel is 180mm (7.10"), average weight with alloy receiver/frame is 0.91kg (2lb).
- rifling characteristics: - 40 S&W Calibre, 1 turn in 380 MM (14.96 inches); diameter (land to land) 9.96 MM (0.392 inch), diameter (groove to groove) 10.17 MM (0.400 inch), land width 1.80 MM (0.074 inch) groove width 3.31 MM (0.130 inch).

Manufacturer

- "SIG SAUER" is marked on the slide.
- "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.

Action

- recoil operated.

Serial Number

- serial number rationalization unknown.
- serial number is marked on the right side of the receiver/frame above the trigger and repeated on the barrel.
- sample serial number has two letters followed by a five numbers.

Barrel

- the 357 SIG calibre barrels or the 40 S&W calibre barrels can be interchanged on the Model P229 and the same magazine can be used for 357 SIG or 40 S&W cartridges.

Calibre

- calibre is usually marked on the right side of the barrel.

Shots

- detachable box magazine.
- the same magazine can be used for 357 SIG or 40 S&W cartridges.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode.
- the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.
- model P229 with DAK trigger system has been adopted by the U.S Coast Guard.

Make

- "SIG SAUER" is marked on the left side of the slide and on the grips.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Model

- "P229" is marked on the left side of the slide.
- "P229" is repeated on the grips.
- "P229R" is not marked on the firearm, "R" in the model indicates the Picatinny tactical rail machined into the front underside of the receiver/frame, introduced in 2004.
- features include: black Nitron finish over a stainless steel slide with rear cocking serrations; black hard anodized alloy receiver/frame with Picatinny rail; square front trigger guard with horizontal serrations; horizontal front grip strap serrations; black polymer pebbled grips; drift adjustable front and rear three dot sights; black left side slide lock, take-down lever, decocking lever, and button magazine release; external hammer.
- available as double action, double action only or single action operation.
- overall length is 180mm, overall height is 138mm and overall width is 38mm.
- overall weight is .91kgs.
- this firearm is also available in a two tone version which has a stainless slide, all other features are the same.
- the P229R DAK (double action only) has no decocking lever.

Manufacturer

- "SIG SAUER" is marked on the slide and on the grips.
- "SAUER's" logo and "FRAME MADE IN GERMANY" are marked on the side of the receiver/frame.

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame above the trigger and repeated on the barrel.
- serial number rationalization is not known.
- observed serial numbers consisted of letters prefix followed by five numbers or a two letter prefix followed by five or six numbers.

Calibre

- calibre is usually marked on the right side of the barrel.

Shots

- detachable box magazine.

Importer

- marked on the left side of the slide.

Remarks

- the SIG SAUER Model P229R semi-automatic pistol is available in two configurations; Double-Action/Single-Action (conventional) and DAK (Double Action Kellerman) Double-Action Only. Kellerman was a SIG SAUER engineer who invented the trigger mechanism.
- the SIG SAUER Model P229R semi - automatic pistol in in DAK (Double Action Kellerman) Double-Action Only has been adopted by the United States of America Department of Homeland Security.

Notes

Make

- "SIG SAUER" is marked on the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- P230 is marked on the left side of the slide.
- the SIG SAUER Model P230 semi - automatic pistol is available in two configurations; Double-Action/Single-Action (conventional) and Double-Action Only.
- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode.
- the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.
- features include: double action, stainless steel receiver/frame, exposed hammer, fixed sights and may have checkered black plastic grips.

Manufacturer

- "SIG SAUER" is marked on the slide.

Action

- blowback operated.

Serial Number

- the serial number rationalization unknown.
- the serial number of an observed specimen consisted of a single letter "S" followed by six numbers.
- the serial number will be found marked on side of receiver/frame or grip frontstrap.
- the serial number may also be marked on the right side of the slide.

Shots

- detachable box magazine.

Importer

- on Jan. 1, 1985, SIGARMS INC. in the United States became the sole importer/distributor of SIG SAUER handguns into North America.

Notes

Make

- "SIG SAUER" is marked on the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Model

- introduced in 1997.
- "P232" is marked on the left side of the slide and is repeated on the grips.
- features include: black Nitron or stainless finished slide with rear cocking serrations; black drift adjustable front and rear sights; double action or single action ; black external hammer; black hard anodized receiver/frame; rounded trigger guard; black left side mounted decocking lever; bottom of grip mounted magazine release; black pebbled finish polymer grip.
- overall length with a 92mm (3.6") barrel is 168mm (6.60"), average weight is 0.500kg (1.1lb).
- offered in 2010 with Hogue grips.

Manufacturer

- "SIG SAUER" is marked on the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- serial number is marked on the front of the pistol grip and repeated on the right side of the slide. - samples seen have had an "S" letter prefix, followed by two groups of three digits. IE: S 200 001, S 200 030
Calibre	- calibre designation is marked on the right side of the slide. - "9mm Kurz" was observed marked on the right hand side of the slide.
Shots	- detachable box magazine.
Importer	- "SIGARMS INC. EXETER-NH" may be marked on the right side of the slide.
Remarks	- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode. - the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode. - model P229 with DAK trigger system has been adopted by the U.S Coast Guard.

Notes

Make

- "SIG SAUER" is marked on the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 1996.
- "P239" is marked on the left side of the slide and is repeated on the grip panels.
- features include: black Nitron or stainless finished slide with black drift adjustable sights and rear cocking serrations; double action or single action; black external bobbed hammer; black hard anodized receiver/frame; black left side mounted slide release, decocking lever, button magazine release, and take-down lever; black pebbled polymer grip.
- in 2008, a barrel with a threaded muzzle was introduced in 9MM LUGER.
- this model is also available in "Double Action Only", (DAK) without a decocking lever.
- overall length with a 92mm (3.6") barrel is 168mm (6.60"), average weight with an alloy receiver/frame is 0.83kg (1.84lb).

Manufacturer

- "SIG SAUER" is marked on the slide.

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame above the trigger guard.
- serial number rationalization is not known.
- serial numbers observed consisted of a two letter "SA" prefix and the following number pattern;
1) a dash and five numbers (SA-39282),
2) a space two numbers, a space three numbers (SA 90 276),
3) one number with the prefix, a space three numbers, a space and three numbers (SA5 111 924).
- serial number observed consisted of a three letter "SBU" prefix and six numbers.

Calibre

- calibre designation is marked on the barrel, usually visible through the ejection port.
- 357 SIG rifling characteristics; 1 turn in 16 inches, right hand twist.
- 40 S&W rifling characteristics; 1 turn in 15 inches, right hand twist.
- 9MM LUGER rifling characteristics; 1 turn in 10 inches, right hand twist.

Shots

- detachable box magazine.

Remarks

- the SIG SAUER Model P239 semi-automatic pistol is available in two configurations; Double-Action/Single-Action (conventional) and DAK (Double Action Kellerman) Double-Action Only. Kellerman was a SIG SAUER engineer who invented the trigger mechanism.
- pincatinny rail is not available on this model
- the SIG SAUER Model P239 semi - automatic pistol in DAK (Double Action Kellerman) Double-Action Only has been adopted by the United States of America Department of Homeland Security.

Notes

Make

- "SIG SAUER" is marked on the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Model

- model designation is marked on the slide.
- the SIG SAUER Model P245 semi - automatic pistol is available in two configurations; Double-Action/Single-Action (conventional) and Double-Action Only.
- the Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode.
- the Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.
- features: available with matte blued or duotone (blued receiver/frame with nickel plated slide) finish and black plastic grip panels

Manufacturer

- "SIG SAUER" is marked on the slide.
- "SAUER'S" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- marked on the right side of the receiver/frame. - consists of an alpha prefix followed by sequential numbers.
Calibre	- calibre designation is marked on the barrel.
Shots	- detachable box magazine.
Other Markings	- German proof marks will normally be marked on the firearm.

Notes

Make

- "SIG SAUER" is marked on the grip plates.

Model

- this is an enhanced version of the SIG Sauer model P245 offered through the SIGARMS Custom Shop. Production is limited to a total of 75 units.
- the model designation is marked on the slide as "P245", further identifying features are the "SIGARMS Custom Shop" logo engraved on the slide and the Teflon impregnated nickel finish on the receiver/frame, slide, trigger, hammer, magazine catch, grip screws and control levers (standard model P245's are available with a blued or two-tone finish with a blued receiver/frame and nickel slide), limited edition markings "01 of 75", "02 of 75" etc. are also found on the slide.
- other special features include: enhanced action; 11 degree target crown on the barrel; Novak® Low Carry three-dot sights.

Manufacturer

- "SIG SAUER" is marked on the grip plates.
- "SIGARMS" Custom Shop logo is marked on the right side of the slide.
- "SAUER'S" logo and "MADE IN GERMANY" are marked on the right side of the receiver/frame.

Action

- recoil operated.

Serial Number

- numbered on the right side of the receiver/frame, incorporates an alpha character prefix.
- as this model is limited to a total of 75 units each one is also individually numbered "01 of 75", "02 of 75" etc., and these should not be confused with the serial number.

Shots

- detachable box magazine housed in the grip.
- available with either a six shot, flush fitting magazine or an eight shot magazine with a grip extention.

Notes

Make	- "SIG SAUER" is marked on the left side of the slide and on the grip.
Model	- "SIG SAUER P250" is marked on the left side of the slide. - introduced in 2004/05. - P250 modular design has a steel receiver/frame housed within a synthetic grip module and the configuration of the firearm can be changed with various calibres and by changing the slide, barrel, grip module, and magazine. - P250 is available in a full size, compact or sub compact configuration. - features include: round barrel; blue/black or silver slide with rear grip serrations and fixed sights; removable fire control assembly and steel receiver/frame with black synthetic grip shell with integral Picatinny rail located on the underside in front of the trigger guard; hidden spurless hammer; Double Action Only trigger mechanism; ambidextrous slide release; takedown lever is located on the left side; magazine release located behind the trigger. - overall length with a 98 mm (3 7/8") barrel is 182 mm (7 1/8"), and average weight is 642 grams (22.65 oz).
Manufacturer	- "SIG SAUER" is marked on the slide. - "SIG SAUER'S" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide or "SIG SAUER" and "EXETER - NH - USA" was observed marked on the left side of the slide.
Action	- recoil operated.
Serial Number	- serial number is marked on the right side of the modular fire control / receiver/frame assembly, visible thru a cut-out in the grip frame. - observed serial number had a two or three letter prefix and six numbers. - "EA","EAU" and "EAK" prefixes have been observed.
Calibre	- calibre designation is marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine. - magazines are interchangeable between the SIG Sauer P250 and the SIG Sauer P320.
Canadian Law Comments	- the component that supports the barrel and slide and to which the grip/trigger guard is attached and is typically marked with the serial number is deemed the receiver/frame in Canada.

Notes

Make

- the SIG Sauer trade name is marked on the upper front, left side of the slide.

Model

- "SIG SAUER" and "P320" is marked on the upper front, left side of the slide.
- introduced in 2014.
- P320 modular design has a steel receiver housed within a synthetic grip frame module.
- P320 is available in a full size and two compact versions.
- features include: round barrel; blue/black or grey slide with front & rear grip serrations and fixed sights, three-dot night sights; removable heavy-gauge steel stamping receiver; black synthetic grip frame shell with integral rail located on the underside in front of the trigger guard; striker fired, Double Action Only trigger mechanism; ambidextrous slide release; takedown lever is located on the left side; magazine release located behind the trigger.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SIG SAUER" marked on the upper front left side of the slide. - the SIG Sauer trade name is marked on the grip frame and the SIG Sauer address "EXETER NH" is found marked forward of the cut-out in the grip frame module that permits the serial number to be read on the receiver module.
Action	- recoil operated - striker fired.
Serial Number	- the serial number is found on the receiver module, visible through a cut-out in the synthetic grip frame module in a manner similar to the SIG Sauer Model P250. - sample observed serial number consisted of three letters followed by six numbers. - example "EAK179277"
Calibre	- The calibre designation is marked on the barrel, visible through the ejection port.
Shots	- Detachable box magazine housed in the grip. - Magazines are interchangeable between the SIG Sauer Model P320 and the SIG Sauer Model P250.
Canadian Law Comments	- the SIG Sauer Model P320 is a modular firearm. The P320 modular design has a steel receiver/frame housed within a synthetic grip/body module. The receiver/frame is interchangeable with the different grip/body modules.
Remarks	- P320 modular design has a steel receiver housed within a synthetic grip frame module; the configuration of the firearm can be changed with various calibers and by changing the slide, barrel, grip module, and magazine. The traditional grip/frame module comes in three sizes in an attempt to fit the firearm to all shooters' hand sizes.

179003 - 2	9MM LUGER	10	119	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
179003 - 1	9MM LUGER	17	119	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Sig Sauer" is marked on the left side of the slide.
- "Sig Sauer" is repeated again on the grips.

Model

- introduced in 2017.
- "P320 X VTAC" is marked on the left side of the slide.
- features include: flat dark earth finished slide with three cut outs on top with front & rear grip serrations; removable heavy-gauge steel stamped inner receiver/frame; black synthetic grip frame shell with integral rail located on the underside in front of the trigger guard; striker fired; extended slide catch lever; takedown lever is located on the left side; enhanced flat trigger; magazine release located behind the trigger; extended beavertail.
- a compact version is also available.
- the sights are the major difference between the X-models. The P320 X Five has the Dawson adjustable rear sight, the P320 X Carry has the X-RAY 3 day/night sights, the P320 X V-TAC has the V TAC day/night sights.
- overall length with a 119 mm (4.7") barrel is 211 mm (8.3") and weight is 836 g (29.5 ounces).

Manufacturer

- "SIG SAUER INC." over "EXETER - NH - USA" is marked on the right side of the receiver/frame.

Action

- recoil operated

Canadian Law Comments

- the component that supports the barrel and slide and to which the grip/trigger guard is attached and is typically marked with the serial number is deemed the receiver/frame in Canada.
- the configuration of the firearm can be changed to other calibers by changing the slide, barrel, grip module, and magazine.

Notes

Make

- "SIG SAUER" is marked on the firearm in various places.

Model

- "P322" is marked on the left side of the slide.
- "P322" is a compact, 22LR, blowback version of the Sig Sauer "P320" design.
- The component that supports the barrel and slide and to which the grip/trigger guard is attached and is typically marked with the serial number is known as the Fire Control Unit (FCU) and is deemed the receiver/frame in Canada.
- Features include: front and rear gripping serrations on the slide; straight or curved trigger; ambidextrous slide release and thumb safety; reversible triangular magazine release button; take down lever located on the left side of the receiver; various finishes available (tan, two-tone or black).

Manufacturer

- "SIG SAUER" is marked on the firearm in various places.

Action

- Blowback operated.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- The serial number of a referenced example consisted of two digits followed by one letter and six digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the left side of the firearm. - ".22 LR" is marked on the left side of the slide.
Shots	- Detachable box magazine housed in the grip.
Canadian Law Comments	- The SIG Sauer Model "P322" is a modular firearm. The modular design has a steel receiver/frame housed within a synthetic grip/body module. The receiver/frame is interchangeable with the different grip/body modules. - The component that supports the barrel and slide and to which the grip/trigger guard is attached and is typically marked with the serial number is deemed the receiver/frame in Canada.

Notes

Make

- "SIG SAUER" is marked on the grip synthetic module.

Model

- introduced in 2018.
- "P365" is marked on the left side of the slide.
- "P365R" is not marked on the firearm, "R" in the model indicates the integral rail.
- P365 modular design has a steel receiver/frame housed within a synthetic grip module and the configuration of the firearm can be changed with various calibers and by changing the slide, barrel, grip module, and magazine.
- features include: round barrel; slide with rear and front grip serrations, fixed front sight and dovetailed rear sight; removable fire control assembly and steel receiver/frame with black synthetic grip shell with integral accessory rail located on the underside in front of the trigger guard; hidden spurless hammer; double action only trigger mechanism; left side slide release; takedown lever is located on the left side; magazine release located behind the trigger.
- overall length with a 78 mm (3.1") barrel is 147 mm (5.8"), and average weight is 500 gr (17.8 oz).

Manufacturer

- "SIG SAUER" is molded into the grip.
- "NEWINGTON - NH - USA" was observed marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- serial number is marked on the right side of the modular fire control/receiver/frame assembly, visible thru a cut-out in the grip frame. - serial number of a referenced example consisted of two numbers, a letter "A" and six numbers.
Shots	- detachable box magazine.
Canadian Law Comments	- the component that supports the barrel and slide and to which the grip/trigger guard is attached and is typically marked with the serial number is deemed the receiver/frame in Canada.

128736 - 2	5.56MM NATO	30	254	Prohibited PFR, Part 1, para. 83	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is marked on the left side of the upper receiver/frame and on the bottom left side of the pistol grip.

Model

- "P556" is marked on the left side of the receiver/frame.
- this is a handgun version of the SIG 550 rifle.
- this firearm has a split receiver/frame with both an upper receiver/frame and a lower receiver which in fact functions as the trigger mechanism housing and contains the magazine feed well.
- this firearm uses AR-15/M-16 magazines as opposed to the traditional proprietary SIG magazines.
- introduced in 2008.
- features include: matte wear resistant Nitron X finish steel receiver/frame; barrel with non-integral flash hider/muzzle compensator; black synthetic pistol grip; ambidextrous safety lever; magazine release lever is mounted behind the magazine well on the lower receiver/frame on the right side; picatinny rail is mounted on the top of the upper receiver/frame; front sight post flip up and folds down to avoid interference with an optical sight mounted on the picatinny rail; cocking handle extends from the bolt assembly through the right side ejection port.
- overall length is 546 mm (21 1/2"), and the average weight is 2.92 kgs (6 lbs 7oz).

Manufacturer

- "SIG SAUER INC." over "EXETER - NH - USA." is usually marked on the right side of the receiver/frame.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number marked on the upper receiver/frame. - example observed with a two letter prefix (TP) and six numbers. - serial number marked on the left side of the upper receiver/frame.
Calibre	- calibre designation is marked on the left side of the upper receiver/frame.
Shots	- detachable box magazine.
Other Markings	- sample observed featured: "P556, 5.56 NATO, SIG SAUER, EXETER, NH" over "-PISTOL USE ONLY-" marked on the left side of the upper receiver/frame.

136317 - 1	9MM LUGER	8	98	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SIG SAUER" is marked on the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Model

- production commenced in 1975.
- "P6" is marked on the right side of the slide.
- SIG SAUER Models P6 and P225 semi - automatic pistol are available in two configurations; Double-Action/Single-Action (conventional) and Double-Action Only.
- Double-Action/Single-Action version has a decocking lever to which allows a cocked hammer to be lowered into a safety intercept notch, with the firing pin locked in position, without manipulating the trigger, thus placing the hammer in the decocked position. After the hammer has been decocked, the first shot may be fired double-action by depressing the trigger, subsequent shots may be fired in the single-action mode.
- Double-Action Only version has no requirement for a decocking lever as the hammer returns to a decocked position after each shot. Each shot requires the trigger be cycled in the double-action mode.
- features include: aluminum receiver/frame, exposed hammer, fixed front sight with an adjustable rear sight, the decocking lever (not found on the double-action only version) and magazine release are located on the left side of the receiver/frame, black plastic checkered grips. The finish may be blued, electroless nickle finish, a silver finish that SIG Sauer refers to as "K-Kote", or in two-tone finish.
- P6 and P225 was designed as a quick responce pistol that wouldn't require the removal of a safety. The P6 and P225 are a smaller version of the P226.
- P225 and P226 pistols quickly became the standard pistol for the German police forces, German Border Patrols, German Police Field Force Reserve, German Federal Customs Police, German Railroad Police and various Swiss Police agencies. The P225 is refered to as the "P6" for "Pistole 6".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SIG SAUER" is marked on the slide. - "J. P. Sauer & Sohn's" logo and/or "MADE IN GERMANY" may be marked on the receiver/frame or slide.
Action	- recoil operated.
Serial Number	- seial number is marked on the right of the receiver/frame. - observed serial number consisted of a letter "M" prefix and six numbers.
Calibre	- "9mmx19" is normally marked on the barrel and is visible throught the ejection port.
Shots	- detachable box magazine.

133868 - 2	22 LR	25	457	Prohibited PFR, Part 1, para. 83	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SIG SAUER INC., EXETER, NH, USA" is marked on the left side of the receiver/frame.

Model

- "SIG22SCM, SIG SAUER INC., EXETER, NH, USA" was observed marked on the left side of the firearm.
- the "SCM" letters appended to the model designation mean "Sport Configuration Model".
- "SIG 22SCM" is essentially a SIG 522 Rifle with features to make it "California Compliant" by removing the flash eliminator, supplying only a ten shot capacity cartridge magazine and having a permanently fixed, extended butt-stock..
- the "SIG 22SCM" is a 22 LR variant of the SIG SG 550 Rifle.
- this firearm utilizes a two piece, split receiver.
- features include: round barrel with crowned muzzle; front post flip-up sight; metal upper receiver/frame with integral picatinny rail; cocking handle extends from the bolt assembly through the right side ejection port; metal lower receiver; ambidextrous safety lever is located behind the trigger; magazine release is located behind the magazine well; black synthetic forearm with picatinny rails, pistol grip and fixed buttstock; matte black finish.

Manufacturer

- "SIG SAUER INC., EXETER, NH, USA" is marked on the left side of the receiver/frame.

Action

- blowback operated.

Serial Number

- serial number is marked on the receiver/frame.
- observed serial number consisted of a two letter "XA" prefix and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "22LR" is marked on the left side of the receiver/frame.
Shots	- detachable box magazine. - 10 shot magazine permitted as there are three versions of this firearm one of which is a handgun, the cartridge magazines are dual or multipurpose therefore the more restrictive handgun capacity applies.
Canadian Law Comments	- this firearm is found to be a variant of the SIG, SG 550 Rifle, a firearm which is named in the Prohibited Firearms Regulations appended to the Criminal Code PART III, Firearms and Other Weapons, Part 1, paragraph 83.

Model

- "SIG50" is marked on the forward, left side of the receiver/frame
- "SIG50" is a manually operated, turn-bolt design, repeating rifle with a detachable butt stock.
- "SIG50" was introduced in 2011 and available in 2012.
- "SIG50" was re-introduced in 2014 and manufactured by Sig Sauer in Germany.
- features include: threaded muzzle for a muzzle break; heavy, round and fluted free floating barrel; partially round receiver/frame with a angled flat on both side starting behind the receiver ring; receiver/frame is drilled and tapped for scope mounts; scope mounts may have a attached secondary rail bracket covering the receiver ring and model name marking, extending over the length of the forestock; bolt body with spiral flutes; safety lever on the right side and bolt release/removal lever of the left side at the rear of the receiver/frame; two piece McMillan TAC-50 type synthetic stock with a front spigot for bipod attachment, full size pistol grip and detachable butt stock having a adjustable cheek rest and spacer, adjustable buttstock length; metal and synthetic stock is mostly all light tan painted finish.
- overall length with a 737mm (29") barrel is 1448mm (57"), and average weight is 10.61kg (23.4lbs).

Manufacturer

- McMillan Firearms are said to be the manufacturer of the "SIG50"rifle as per press release dated June 2011.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of two numbers prefix, a letter (A) and six numbers.

Calibre

- calibre designation is marked on the barrel.
- 50 BMG rifling characteristics: 1 turn in 15 inches, right hand twist.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- "SIG SAUER INC., EXETER, NH, USA" was observed marked on the left side of the firearm receiver.
- "SIG SAUER" was observed marked on the buttstock and magazine casing.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 2009.
- in late 2010 and in the 2011 catalogue, Sig Sauer introduced variants of the SIG522.
- "SIG522, SIG SAUER INC., EXETER, NH, USA" was observed marked on the left side of the firearm.
- this firearm utilizes a two piece, split receiver.
- features include: round barrel with flash hider; front post flip-up sight; metal upper receiver/frame with integral picatinny rail; cocking handle extends from the bolt assembly through the right side ejection port; metal lower receiver; ambidextrous safety lever is located behind the trigger; magazine release is located behind the magazine well; black synthetic forearm, pistol grip and right, side folding buttstock; matte black finish.
- overall length with a 422mm (16 5/8") barrel and the stock in the folded position is 656mm (25 7/8") with an average weight of 2.9 kg (6.4 lbs).
- Model Variants:
- SIG522 CLASSIC: black polymer forestock; threaded muzzle; removable flash suppressor; black polymer detachable box magazine.
- SIG522 SWAT: aluminum quad rail forestock ; round fluted barrel; threaded muzzle with removable flash suppressor, and a new "see-through "detachable box magazine providing a visual indication of rounds remaining.
- SIG522 COMMANDO: with a polymer forestock; round, fluted barrel; threaded muzzle with inert sound suppressor/silencer; includes the "see-through" magazine.
- SIG522 SWAT COMMANDO: combines the quad rail forestock; round, fluted barrel; threaded muzzle with sound suppressor/silencer, includes the "see-through" magazine.
- the inert sound suppressor/silencer is a not prohibited device in Canada.
- "SIG 522 Target" was introduced in 2012.
- "SIG 522 Target" features included: unthreaded muzzle; heavy profile 508mm (20") long barrel; no front sight mounted on the gas block; tubular free floating handguard.

Manufacturer

- "SIG SAUER INC., EXETER, NH, USA" was observed marked on the left side of the firearm.
- "SIG SAUER" was observed marked on the buttstock and magazine casing.

Action

- blowback operated.

Serial Number

- serial number was observed marked on left side of the upper receiver.
- observed serial number consisted of a two letter "XA" prefix followed by a space, followed by six numbers.

Calibre

- "22 LR" was observed marked on the left side of the barrel.

Shots

- detachable box magazine.
- 10 shot magazine permitted as there are three versions of this firearm one of which is a handgun, the cartridge magazines are dual or multipurpose therefore the more restrictive handgun capacity applies.

Canadian Law Comments

- the upper portion of the two piece receiver that bears the serial number is the receiver/frame for all purposes of The Criminal Code and The Firearms Act.
- there is a 25 shot magazine available for this Model firearm.
- this firearm Model is manufactured in both rifle and handgun configurations. The magazine is interchangeable between the two configurations and is considered a "handgun" magazine. Because magazines for handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

FRT Report

Firearm Reference Number (FRN): 132171
Make: SIG Sauer
Model: SIG 522 Pistol

Summary

Make:	SIG Sauer
Model:	SIG 522 Pistol
Manufacturer:	SIG Sauer
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
132171 - 1	22 LR	10	268	Prohibited PFR, Part 1, para. 83	Non-Commercial Customization	
132171 - 2	22 LR	25	268	Prohibited PFR, Part 1, para. 83	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SIG SAUER INC., EXETER, NH, USA" may be marked on the left side of the firearm receiver.
- "SIG SAUER" is usually marked on the buttstock and magazine casing.

Model

- introduced in 2010.
- "SIG522, SIG SAUER INC., EXETER, NH, USA" may be marked on the left side of the firearm.
- this firearm utilizes a two piece, split receiver/frame.
- features include: round barrel with flash hider; no sights; aluminum upper receiver/frame with integral Picatinny rail; cocking handle extends from the bolt assembly through the right side ejection port; polymer lower receiver; ambidextrous safety lever is located behind the trigger; ambidextrous magazine release is located behind the magazine well; traditional 556 type black synthetic forearm or quad, Picatinny rail forend and pistol grip; matte black finish.
- overall length is 520mm, with an average weight of 2.4kgs.

Action

- blowback operated.

Barrel

- rifling characteristics: 1 turn in 16".

Shots

- detachable clear polymer box magazine.
- 10 shot magazine permitted as there are three versions of this firearm of which the SIG 522 Pistol is a handgun, the cartridge magazines are dual or multipurpose therefore the more restrictive handgun capacity applies.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - 10 shot magazine permitted as there are three versions of this firearm one of which is a handgun, the cartridge magazines are dual or multipurpose therefore the more restrictive handgun capacity applies.

Notes

Make

- "SIG SAUER INC., EXETER, NH, USA." or variation thereof is marked on the left side of the receiver/frame.

Model

- "SIG 551A1" is marked on the left side of the receiver/frame.
- "SIG 551A1" variations are based on the SIG SG-550 rifle design.
- "SIG 551A1" is essentially a SIG556 receiver/frame using a trigger/magazine housing for the use of proprietary SIG magazines.
- "SIG 551A1" was introduced in 2011.
- features include: threaded muzzle for flash hider/muzzle brake; adjustable gas plug/regulator; circular front sight protector mounted over the gas block and a removable, adjustable rotating drum rear sight; synthetic handguard; receiver/frame full length top Picatinny rail; cocking handle extends from the bolt assembly through the right side ejection port; aluminum lower trigger/magazine housing assembly with ambidextrous selector; magazine release lever located in front of the trigger guard; synthetic pistol grip and side folding, skeletonized buttstock.
- overall length with a 406mm (16") barrel is 686mm (27") with the stock folded and average weight of 3.5kg (7.8lbs).

Manufacturer

- "SIG SAUER INC., EXETER, NH, USA." or variation thereof is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of referenced examples consisted of two numbers prefix, a letter (A) and six numbers.
Calibre	- calibre identification is marked on the left side of the receiver/frame. - calibre identification may also be marked on the barrel.
Shots	- detachable box magazine. - uses proprietary SIG magazines.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "SIG SAUER INC., EXETER, NH, USA" is marked on the left side of the receiver/frame.
Model	- introduced in 2007. - "SIG 556" is marked on the left side of the receiver/frame. - "SIG 556" has a split receiver/frame with both an upper and a lower assembly which functions as the trigger mechanism housing and contains the magazine well. - "SIG 556" uses AR-15/M-16 magazines as opposed to the traditional proprietary SIG magazines. - SIG Classic is equipped with a 406 mm (16.0") barrel and an electronic mini red dot sight and rotary diopter rear sight. - SIG 556 DMR is equipped with a 533 mm (21.0") Heavy profile non-threaded barrel, Quad rail forend, precision adjustable stock and a folding bipod. - SIG Classic SWAT is equipped with a 406 mm (16.0") barrel, Quad rail and rotary diopter rear sight. - SIG 556 DMR is equipped with a 533mm (21.0") heavy profile non-threaded barrel or a 457mm (18") heavy profile threaded barrel, Quad rail forend, precision adjustable stock and a folding bipod. - SIG 556 SCM is equipped with a 406 mm (16.0") barrel with a crowned muzzle, fixed stock and Holosight. - SIG 556 Patrol Rifle is equipped with a 406 mm (16.0") barrel, folding stock, and rotary diopter rear sight. - SIG 556 SWAT Patrol Rifle is equipped with a 406 mm (16.0") barrel, quad rail, and rotary diopter rear sight. - features include: matte wear resistant Nitron X finish on all metal surfaces other than the barrel; may have threaded barrel with or without non-integral flash hider; hammer-forged barrel in standard or heavy profile; precision adjustable, folding or AR-15 Carbine style adjustable black butt stock with sling attaching points on both sides of the butt, black synthetic pistol grip with an internal storage compartment, butt stock may have a compartment for storage of accessories and cleaning material; synthetic forearm with 3 or 4 Picatinny rails for mounting accessories; ambidextrous safety lever; magazine release lever is mounted behind the magazine well on the lower receiver/frame on the right side; bolt release is located on the top, middle of the left side of the lower receiver or trigger mechanism housing; a picatinny rail is mounted on the top of the upper receiver/frame; front sight post flip up and folds down to avoid interference with an optical sight mounted on the Picatinny rail; cocking handle extends from the bolt assembly through the right side ejection port. - overall length with a 406 mm (16.0") barrel is from 914 mm (36.0") to 940 mm (37.1") and average weight is from 3.4 kgs (7.5 lbs) to 3.8 kgs (8.3lbs). - overall length with a 533 mm (21.0") barrel is 1041 mm (41.0") and average weight is 5.4 kgs (12.0 lbs).
Manufacturer	- "SIG SAUER INC., EXETER, NH, USA" is marked on the left side of the receiver/frame.
Action	- gas operated.
Serial Number	- serial number is marked on the left side of the upper receiver/frame. - last four digits of the serial number may be repeated on other components. - serial number of a referenced example consisted of a two letter (KB) prefix and six numbers. - serial number of a referenced example consisted of a four letter (JSBR) prefix and six numbers for a factory Short Barrel Rifle variant.
Calibre	- "5.56 NATO" is marked on the left side of the receiver/frame. - rifling characteristics in caliber 5.56MM NATO: 1 turn in 178mm (7") for the standard weight barrels and 1 turn in 229mm (9") for the heavy weight barrels.
Shots	- detachable box magazine. - this firearm is the first of the SG550 family of firearms to abandon the proprietary SIG magazines for AR-15/M-16 magazines of all types and capacities.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.
Remarks	- portions of this firearm are made in Europe and shipped to the USA to the SIGARMS plant for assembly; however, the lower receiver/trigger mechanism housing is manufactured in USA and so marked. Over time SIGARMS has a stated intention to bring the US content of this firearm to 100%. - this firearm is the first of the SG550 family of firearms to abandon the proprietary SIG magazines for AR-15/M-16 magazines of all types and capacities.

Notes

Make

- "SIG SAUER INC" is marked on the right side of the receiver/frame.
- "SIG SAUER INC" "SIG LMG" is manufactured in Newington, New Hampshire, U.S.A..

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "SIG LMG" is marked on the right side of the receiver/frame. - "LMG" stands for "Light Machine Gun". - "SIG LMG" uses a patented recoil-mitigation system where the entire barrel assembly with its extension, gas system, and bolt group is allowed to recoil inside the receiver against the hydraulic recoil mitigation buffer. - "SIG LMG" can fire in semi-auto and full-auto mode. - Features include: quick detach sound suppressor; below the barrel gas cylinder; short-stroke piston system; two position manual gas regulator; adjustable and folding bipod; top, full length optic/accessory rail; belt feed cover open to the right; left side, folding charging handle; ambidextrous fire control lever; collapsible and folding buttstock.
Manufacturer	- "SIG SAUER INC" is marked on the right side of the receiver/frame. - "SIG SAUER INC" "SIG LMG" is manufactured in Newington, New Hampshire, U.S.A..
Action	- Gas operated. - Fire from the open bolt.
Serial Number	- The serial number is marked on the right side of the receiver/frame. - Serial number of referenced examples consisted of two numbers, a letter (A) and six numbers.
Calibre	- "MULTI-CALIBER" is marked on the right side of the receiver/frame. - The calibre designation is marked on the barrel.
Shots	- Belt fed firearm.
Canadian Law Comments	- In the case of this firearm, it has been determined that the component commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the manufacturer's identification, model identification, proof information, and the full serial number is marked, is the receiver/frame for the purposes stated within the Firearms Act and the Criminal Code of Canada. - This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. If the complete sound suppressor/silencer (prohibited device) is removed, the firearm remains a "Prohibited Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), when removed will not change the "Prohibited Firearm" classification.

Notes

Make

- "SIG SAUER" was observed marked on the left hand side of the magazine housing of the receiver/frame.

Model

- "SIG SAUER" over "SIG M400" over "5.56 NATO" was observed marked on the left side of the magazine housing of the receiver/frame.
- "SIG M400" is of the design commonly known as the AR-15/M-16 rifle.
- "SIG M400" has a two piece split receiver/frame.
- features include: adjustable front sight and rear sight; round phosphate coated rifled barrel with chromed bore and flash suppressor, and bayonet lug ; aluminum flat top upper receiver/frame with integral Picatinny rail, removable carrying handle with adjustable rear sight, rear mounted cocking handle, and right side mounted spring loaded dust cover; anodized aluminum lower receiver/frame with left side mounted change lever and magazine release; black synthetic forearm, checkered pistol grip, and six position adjustable buttstock; sling attachments; black finish.
- overall lenght is 1003mm (39.5"), and average weight is 2.95 kgs (6.5lbs).
- "SIG SAUER" over "SIG M400" over "5.56 NATO" was observed marked on the left side of the magazine housing of the receiver/frame.
- "SIG M400" variants are based on the Colt AR-15/M16 design.
- "Colt AR-15/M16 design" has an aluminum alloy two piece split upper receiver and lower receiver/frame.
- features include: threaded muzzle for flash hider/muzzle brake that may be welded on; standard, heavy profile or grooved, M4 carbine type contoured barrel; AR15/M16 standard, low profile, Picatinny rail or folding front sight bracket/gas block; standard synthetic or Picatinny rail handguard that may be free floating; Picatinny rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; rear mounted cocking handle; collapsible, standard or custom rifle buttstock; synthetic pistol grip; bolt stop and safety selector located on the left side of the receiver/frame with a ambidextrous magazine release; matte black, color furniture or color coated finish.
- overall length with a 406mm (16") barrel is 826mm (32.5") with the stock collapsed, average weight is 3.06kg (6.75lbs)

Manufacturer

- "SIG SAUER" was observed marked on the left hand side of the magazine housing of the receiver/frame.
- "SIG SAUER INC." over "EXETER, NH, USA" was observed marked on the left side of the firearm.
- "SIG SAUER" was observed marked on the buttstock.

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the receiver/frame, above the trigger.
- serial number consisted of two numbers "20", a letter "C" or "K", and six numbers.

Calibre

- "5.56 NATO" was observed marked on the left side of the magazine housing of the receiver/frame.
- rifling characteristics: 6 grooves, 1 turn in 7 inches.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- "SIG SAUER INC" is marked on the left side of the receiver/frame.
- "SIG SAUER INC" is located in Exeter, New Hampshire, U.S.A.

Model

- Introduced in 2015.
- "SIG MCX" is marked on the left side of the receiver/frame.
- "SIG MCX" and variants are based on the Colt AR-15/M16 design.
- "SIG MCX" is also available in semi-automatic pistol and rifle variant.
- Overall length with a 406mm (16") barrel is 908mm (35.75"), average weight is 2.72kg (6lbs).
- Features include: Skeletonized trigger; quick change barrel; low profile gas block; short stroke piston operated gas system; free floating, ventilated, short top accessory rail handguard; top, extended accessory rail from the upper assembly; ambidextrous selector and magazine release; T-shaped cocking handle; available in a variety of colour finishes.
- Features may include: left-side folding, telescoping or left-side folding and telescoping buttstock.

Manufacturer

- "SIG SAUER INC" is marked on the left side of the receiver/frame.
- "SIG SAUER INC" is located in Exeter, New Hampshire, U.S.A.

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- Serial number of referenced examples consisted of two numbers, one letter and six numbers.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Calibre

- "MULTI-CALIBER" is marked on the left side of the receiver/frame.
- calibre identification is usually marked on the barrel.
- 300 AAC BLACKOUT rifling characteristics: 1 turn in 6 inches, right hand twist.
- 5.56MM NATO rifling characteristics: 1 turn in 7 inches, right hand twist.
- 7.62x39 RUSSIAN rifling characteristics: 1 turn in 9.5 inches, right hand twist.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- Detachable box magazine.
- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

- Designed to accept "AR15" type magazines.

Canadian Law Comments

- This firearm design incorporates a split receiver/frame: the lower receiver is the master component considered to be the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Notes

Make

- "SIG SAUER INC" is marked on the left side of the receiver/frame.
- "SIG SAUER INC" is located in Exeter, New Hampshire, U.S.A.

Model

- introduced in 2015.
- "SIG MCX" is marked on the left side of the receiver/frame.
- "SIG MCX" and variants are based on the Colt AR-15/M16 design.
- "SIG MCX" is also available in a full-automatic variant and as a pistol variant.
- features include: threaded muzzle for flash hider/muzzle brake; quick change barrel; low profile gas block; short stroke piston operated gas system; free floating, ventilated, short top Picatinny rail handguard; top, extended Picatinny rail from the upper assembly; ambidextrous selector, magazine release; T-shaped cocking handle; black synthetic pistol grip; left, side-folding or collapsible buttstock; black or coloured finish.
- overall length with a 406mm (16") barrel is 908mm (35.75"), average weight is 2.72kg (6lbs).

Manufacturer

- "SIG SAUER INC" is marked on the left side of the receiver/frame.
- "SIG SAUER INC" is located in Exeter, New Hampshire, U.S.A.

Action

- gas operated.

Serial Number

- serial numbered on the left side of the receiver/frame.
- serial number of referenced examples consisted of two digits followed by one letter (C) and six numbers.

Calibre

- "MULTI-CALIBER" is marked on the left side of the receiver/frame.
- calibre identification is usually marked on the barrel.
- 300 AAC BLACKOUT rifling characteristics: 1 turn in 6 inches, right hand twist.
- 5.56MM NATO rifling characteristics: 1 turn in 7 inches, right hand twist.
- 7.62x39 RUSSIAN rifling characteristics: 1 turn in 9.5 inches, right hand twist.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.

FRT Report

Firearm Reference Number (FRN): 173903
Make: SIG Sauer
Model: SIG MCX

Summary

Make:	SIG Sauer
Model:	SIG MCX
Manufacturer:	Umarex
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
173903 - 1	177 PELLET	30	451	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SIG" and "SIG SAUER" are marked on the air rifle.

Model

- the model is marked on the air rifle.
- this is a CO2-powered semi-automatic air rifle made to resemble the Sig Sauer MCX carbine, using 88-gram CO2 cylinders in the buttstock to provide gas pressure.
- these air rifles use a unique "belted" feeding system, whereby pellets are loaded into a flexible feed strip which is placed inside a dummy plastic magazine that rotates each "link" in front of the barrel each time the trigger is squeezed.
- features include: SIG MCX appearance; black synthetic construction; a dummy "suppressor"/shroud surrounding the forward part of the barrel; a ventilated forearm; open adjustable flip-up peep sights on a accessory rail (may be replaced with holographic or optical sights); forward hand grip; detachable "magazine"/belt carrier; AR-15-style manual safety/controls; an AR-15-style "T" cocking handle at the upper rear of the receiver; and a tubular buttstock which contains the screw-in 88-gram CO2 cylinder.

Manufacturer

- the manufacturer is not marked on the air rifle.

Action

- CO2 powered air rifle.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- alpha/numeric serial numbered on the receiver/frame.

Shots

- "linked belt" inside a dummy magazine.

Notes

Make	- SIG SAUER INC. is marked on the left side of the receiver/frame.
Model	- Overall length with a 457 mm (18 inches) barrel is 946 mm (37.25 inches). - Magazine release located on the side of the firearm. - SIG MCX MULTI-CALIBER is marked on the left side of the receiver/frame.
Action	- Pre charged pneumatic.
Serial Number	- The serial number is marked on the right side of the receiver/frame. - The serial number rationalization is unknown.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the left side of the receiver/frame.
Shots	- The Sig Sauer MODEL "SIG MCX PCP" uses a proprietary polymer magazine that was designed and manufactured to resemble a conventional cartridge magazine for the SIG MCX submachine gun. The magazine has a capacity of thirty (30) .22 pellets and is known as the "SIG Rapid Pellet Magazine".
Canadian Law Comments	- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Notes

Make

- The company logo is marked on the receiver/frame.
- The make is marked on the right side of the receiver/frame.
- SIG SAUER INC is marked on the left side of the receiver/frame.

Model

- Introduced in 2022.
- "SIGMCX-SPEAR" is marked on the left side of the receiver/frame.
- "SIGMCX-SPEAR" is a gas-operated, short-stroke piston system, semi-automatic rifle.
- Features include: quick detach sound suppressor; interchangeable barrel/calibre; short-stroke piston system; two position manual gas regulator; free-floating barrel; handguard with anchor points for accessory rails; top, full length optic/accessory rail; non-reciprocating, rear and side folding charging handle; ambidextrous control; collapsible and folding buttstock.
- Overall length with a 330 mm (13 inches) barrel is 866 mm (34 inches), average weight is 3.8 kg (8.4 lbs).

Manufacturer

- NEWINGTON NH USA is marked on the left side of the receiver/frame.

Action

- Gas operated.
- Short-stroke piston system.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- Serial number of referenced examples consisted of two numbers, a letter (C) and six numbers.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Calibre

- The calibre designation is marked on the barrel assembly.
- "MULTI-CALIBER" is marked on the left side of the receiver/frame.

Shots

- Detachable box magazine.

Canadian Law Comments

- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

If the complete sound suppressor/silencer (prohibited device) is removed, the firearm remains a "Prohibited Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), when removed will not change the "Prohibited Firearm" classification.

Notes

Make

- "SIG SAUER INC" is marked on the right side of the receiver/frame.
- "SIG SAUER INC" "SIG MMG" is manufactured in Newington, New Hampshire, U.S.A..

Model

- "SIG MMG" is marked on the right side of the receiver/frame.
- "MMG" stands for "Medium Machine Gun".
- "SIG MMG" is a gas-operated, belt-fed machine gun with the ability to switch the feeding direction and has interchangeable calibre ability.
- "SIG MMG" uses a patented recoil-mitigation system where the entire barrel assembly with its extension, gas system, and bolt group is allowed to recoil inside the receiver against the hydraulic recoil mitigation buffer.
- "SIG MMG" can fire in semi-auto and full-auto mode.
- Features include: quick detach sound suppressor; quick-detachable barrel; below the barrel gas cylinder; short-stroke piston system; two position manual gas regulator; adjustable and folding bipod; top, full length optic/accessory rail; non-reciprocating charging handle that can be set up on either side; ambidextrous fire control lever; collapsible and folding buttstock.

Manufacturer

- "SIG SAUER INC" is marked on the right side of the receiver/frame.
- "SIG SAUER INC" "SIG MMG" is manufactured in Newington, New Hampshire, U.S.A..

Action

- Gas operated.
- Short stroke piston gas system.
- Fire from the open bolt.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- Serial number of referenced examples consisted of two numbers a letter (A) and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- The calibre designation is marked on the barrel.
Shots	- Belt fed firearm. - Detachable box magazine.
Canadian Law Comments	- The upper receiver of this firearm is the receiver/frame for all purposes of the Firearms Act and the Criminal Code of Canada. - This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. If the complete sound suppressor/silencer (prohibited device) is removed, the firearm remains a "Prohibited Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), when removed will not change the "Prohibited Firearm" classification.

Notes

Make

- "SIG SAUER INC." is marked on the left side of the receiver/frame.
- "SIG" and "SIG SAUER" in logo form are marked on the upper assembly and receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 2013. - "SIG" marked sideways to "MPX" in a logo form is marked on the left side of the upper assembly. - "SIG MPX" is a multi calibre, select fire, multi configuration submachine gun. - features include: round quick change barrel in multiple calibres is threaded at the muzzle for flash hider/muzzle brake or sound suppressor/silencer; full length Picatinny rail top upper assembly with machined base for attaching shorter length of rails on the sides; rotating locking bolt, gas piston operated system; flared magazine housing; integral, enlarge curved trigger guard; AR15 type and location controls with ambidextrous magazine release and safety selector having cartridge pictogram markings; synthetic pistol grip with or without a three positions collapsible or folding buttstock; matte black finish. - overall length with a 165 mm (6.5") barrel and the buttstock in the collapsed position is 425 mm (16.7"), and the average weight is 2.1 kgs (4.62 lbs).
Manufacturer	- "SIG SAUER INC., EXETER, NH, USA." or variation thereof is marked on the left side of the receiver/frame.
Action	- gas operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of two numbers, a letter (A) and six numbers.
Calibre	- calibre identification is marked on the barrel.
Shots	- detachable box magazine.
Canadian Law Comments	- certain variations of this firearm left the factory with a sound suppressor/suppressed barrel assembly and is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the barrel, the firearm is correctly identified as a "Prohibited Firearm".

Notes

Make	- "SIG" and "SIG SAUER" are marked on the air rifle.
Model	- the model is marked on the air rifle. - this is a CO2-powered semi-automatic air rifle made to resemble the Sig Sauer MPX pistol-calibre carbine, using 88-gram CO2 cylinders in the buttstock to provide gas pressure. - these air rifles use a unique "belted" feeding system, whereby pellets are loaded into a flexible feed strip which is placed inside a dummy plastic magazine that rotates each "link" in front of the barrel each time the trigger is squeezed. - features include: SIG MPX appearance; black synthetic construction; a birdcage-style "flash suppressor" mounted on the barrel; a ventilated forearm with accessory rails; open adjustable flip-up peep sights on a accessory rail (may be replaced with holographic or optical sights); detachable "magazine"/belt carrier; AR-15-style manual safety/controls; an AR-15-style "T" cocking handle at the upper rear of the receiver/frame; a tubular buttstock which contains the screw-in 88-gram CO2 cylinder.
Manufacturer	- the manufacturer is not marked on the air rifle.
Action	- CO2 powered air rifle. - does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- alpha/numeric serial numbered on the receiver/frame.
Shots	- "linked belt" inside a dummy magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "SIG SAUER INC." is marked on the left side of the receiver/frame.
- "SIG" and "SIG SAUER" in logo form are marked on the upper assembly and receiver/frame.

Model

- introduced in 2013.
- delivery started in 2015.
- "SIG" marked sideways to "MPX" in a logo form is marked on the left side of the upper assembly.
- the SIG MPX is available in pistol and carbine versions.
- "SIG MPX" is a multi calibre, semi-automatic version of a submachine gun.
- features include: round quick change barrel in multiple calibres is threaded at the muzzle for flash hider/muzzle brake or sound suppressor/silencer; full length accessory rail top upper assembly with machined base for attaching shorter length of rails on the sides; rotating locking bolt, gas piston operated system; flared magazine housing; integral, enlarge curved trigger guard; AR-15 type and location controls with ambidextrous magazine release and safety selector having cartridge pictogram markings; synthetic pistol grip; an accessory rail is located at the rear of the receiver/frame and the carbine version is equiped with a collapsible buttstock attached to rear accessory rail; matte black finish.
- overall length with a 203 mm (8") barrel is 428 mm (16.85"), and the average weight is 2.1 kgs (4.62 lbs).

Manufacturer

- "SIG SAUER INC., EXETER, NH, USA." or variation thereof is marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of two numbers, one letter (B) and six numbers.

Calibre

- "MULTI-CAL." is marked on the left side of the receiver/frame.
- calibre identification is marked on the barrel.
- 9MM LUGER rifling characteristics: 1 turn in 10 inches, right hand twist.

Shots

- detachable box magazine.

Canadian Law Comments

- As it left the factory, there are versions of this firearm equipped with an integral sound suppressor/silencer. The sound suppressor/silencer is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code.

Notes

Make

- "SIG SAUER INC." is marked on the left side of the receiver/frame.
- "SIG" and "SIG SAUER" in logo form are marked on the upper assembly and receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 2013. - delivery started in 2015. - "SIG" marked sideways to "MPX" in a logo form is marked on the left side of the upper assembly. - the SIG MPX is available in pistol and carbine versions. - "SIG MPX" is a multi calibre, semi-automatic version of a submachine gun. - features include: round quick change barrel in multiple calibres is threaded at the muzzle for flash hider/muzzle brake or sound suppressor/silencer; full length accessory rail top upper assembly with machined base for attaching shorter length of rails on the sides; rotating locking bolt, gas piston operated system; flared magazine housing; integral, enlarge curved trigger guard; AR-15 type and location controls with ambidextrous magazine release and safety selector having cartridge pictogram markings; synthetic pistol grip; an accessory rail is located at the rear of the receiver/frame and the pistol version is equipped with rear sling attachment attached to rear accessory rail; versions are available with side folding wrist brace attachment; matte black finish. - overall length with a 203 mm (8") barrel is 428 mm (16.85"), and the average weight is 2.1 kgs (4.62 lbs).
Manufacturer	- "SIG SAUER INC., EXETER, NH, USA." or variation thereof is marked on the left side of the receiver/frame.
Action	- gas operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of two numbers, one letter (B) and six numbers.
Calibre	- "MULTI-CAL." is marked on the left side of the receiver/frame. - calibre identification is marked on the barrel. - 9MM LUGER rifling characteristics: 1 turn in 10 inches, right hand twist.
Shots	- detachable box magazine.
Canadian Law Comments	- The magazine that accompanies the SIG MPX Pistol is either a proprietary polymer 10, 20 or 30 round cartridge magazine that was designed and manufactured for the SIG MPX submachine gun. In Canada, the magazine for a SIG MPX submachine gun is subject to a magazine capacity restriction of five (5) 9MM LUGER cartridges. - As a result, these magazines meet the Criminal Code definition of a "prohibited device" if they contain more than five (5) 9MM LUGER cartridges. See part 4, para. (3) (1) (a) (iii) of the Criminal Code.

Notes

Make

- "SIG SAUER INC." over "EXETER - NH - USA." is usually marked on the right side of the receiver/frame.

Model

- Introduced in "2014".
- the model is marked on the firearm.
- this is a "pistol" version of the SIG M400 AR-15-style rifle, made with either a padded buffer tube (no "stock" at all) or a hollow "stock" that resembles a collapsible M4 Carbine-style stock, but which allows a user to aim and fire this firearm with one hand, by encircling the user's forearm.
- features include: generalized "micro-AR-15"-style appearance and layout; black anodized finish; birdcage flash suppressor; raised open adjustable sights; ribbed or ventilated forearm; synthetic furniture; Picatinny optics-mounting rail; and hollow "stock", allowing one-handed use.

Manufacturer

- "SIG SAUER INC." over "EXETER - NH - USA." is usually marked on the right side of the receiver/frame.

Action

- gas-operated.

Serial Number

- numbered on the receiver/frame.

Shots

- detachable box magazine.
- this firearm uses AR-15/M16-style magazines, commonly available in capacities of 5, 10, 20, and 30 rounds.

Notes

Make

- "SIG SAUER" is marked on the left side of the slide.
- in 1972, SIG and J. P. Sauer & Sohn entered into a co-operative venture.
- "SIG" and "SIG SAUER" were trademarks used by SIG Swiss Industrial Company and distributed by SIG Arms Inc (U.S.A.).
- "SIGARMS" was a trade mark used by SIG Arms Inc.
- "SIG SAUER" is a trade name used by SAN Swiss Arms AG.
- in 2000, SAN Swiss Arms AG was formed and purchased SIG Arms AG.
- in 2003, "SAN Swiss Arms AG" consisted of six independent operating manufacturers including: Blaser Jadgwaffen GmbH, Hammerli AG, B.R. Rizzini, J.P. Sauer & Sohn GmbH, SIG Arms AG, and SAN Swiss Arms AG.
- in 2003, products were sold under the trade names of Blaser, Hammerli, Mauser, Sauer, and SIG Sauer.

Model

- "SP2022" is marked on the left side of the slide.
- "SP2022" is a Co2 powered BB version of the SIG Sauer SP2022 pistol.
- "SP2022" variant from Cybergun is all polymer made having a non-reciprocating slide.
- features include: fixe sights; brass, smoot bore barrel; fixe slide with rear cocking serrations; accessory rail fitted to the underside of the forward portion of the receiver/frame; left side manual safety and magazine release; semi-automatic firing mode; double action only trigger mechanism; non-functional hammer; checkered front strap and squared trigger guard; textured grip sides and backstrap; steel magazine houses both projectiles and the co2 cylinder; black colour finish.
- overall length with a 102 mm (4") barrel is 185.9 mm (7.32"), and the average weight is 600 grams (1.32 lbs).

Manufacturer

- "MADE IN TAIWAN" is marked on the left side of the receiver/frame.
- "MANUAL AVAILABLE FROM CYBERGUN S.A." is marked on the right side of the slide.

Action

- CO2 cartridge powered.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500fps) and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number of a referenced example was marked on the underside of the receiver/frame, ahead of the trigger guard.
Calibre	- calibre identification is marked on the forward, left side of the receiver/frame. - calibre identification is also marked on the magazine.
Shots	- detachable box magazine.
Canadian Law Comments	- does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500fps) and/or a muzzle energy exceeding 5.7 Joules.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation appears on the underside of the receiver/frame as "Aurora TR".
- features include: box lock design receiver/frame with or without sideplates, colour case hardened or silver finished receiver/frame, polished blued barrels with a ventilated rib and front bead, select walnut, round pistol grip buttstock with schnabel tipped forend, automatic ejectors, single selective trigger, tang mounted safety, and fixed or interchangeable chokes.
- Sigarms also offers a similar model known as the "Aurora TT", available in 12 GA X 2 3/4" or 20 GA X 2 3/4" with or without the false sideplates. The "Aurora TT" is usually marked "Aurora" on the side of the receiver/frame and "TT" on the underside of the receiver/frame.
- the "Aurora TR 40U" is similar to the "Aurora TR 40 Gold", except it has straight English stock and a silver finished receiver/frame.

Manufacturer

- manufacturer's name may not appear on the firearm, markings will read "Made in Italy".
- Battista Rizzini company's logo is an oval with "RIZZINI" and "B R" marked inside on two lines.
- DO NOT CONFUSE with Emilio Rizzini/Armi Tecniche of Marcheno (Brescia) or Isadore Rizzini/F.A.I.R. Tecni Mec of Marcheno (Brescia).

Action

- over & under configuration.

Serial Number

- the serial number appears on the receiver/frame, it will also appear on the underside of the barrels and the forearm.

FRT Report

Firearm Reference Number (FRN): 125798
Make: SIGARMS
Model: GSR Revolution Carry

Summary

Make:	SIGARMS
Model:	GSR Revolution Carry
Manufacturer:	SIGARMS
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125798 - 1	45 AUTO	8	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
125798 - 2	45 AUTO	8	110	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "SIGARMS" is marked on the left side of the slide and on the right side of the barrel.
- "SIGARMS INC" is marked on the right side of the receiver/frame.
- "SIG SAUER" was observed marked on the grip plates.

Model

- "GSR" may be marked on the left side of the slide and "Revolution Carry" on the right side of the slide.
- introduced in 2006.
- this is the compact profile version of the regular GSR Revolution model, featuring a shorter slide, barrel length and magazine capacity over a full size receiver/frame.
- "GSR" is an acronym for "Granite Series - Rail" (Granite is in reference to the home state of SIGARMS, New Hampshire, known as the "Granite State").
- GSR Revolution is based on the Colt 1911A1 design.
- features include: match grade barrel; stainless steel slide and checkered receiver/frame; extended thumb safety; beavertail grip safety; firing pin safety and hammer intercept notch safety system; external extractor; skeletonized hammer; single action trigger mechanism; Novak night sights; stainless or Nitron finish on metal surfaces; custom wood grips; machined and hand finished fitting of parts.
- overall length for 102mm barrel is 196mm (7.70"), average weight is 1kg (2.2lbs).

Manufacturer

- "SIGARMS INC" and "EXETER-NH-USA" are marked on the right side of the receiver/frame.

Action

- recoil operated.

Serial Number

- serial number is located on the right side of the receiver/frame above the trigger, forward of the grip panel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is marked on the barrel.
Shots	- detachable box magazine housed in the grip.

Notes

Make

- "SIGARMS" is marked on both the receiver/frame and the lower receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "SIG 556" is marked on the left side of the receiver/frame. - this firearm has a split receiver/frame with both an upper receiver and a lower receiver which in fact functions as the trigger mechanism housing and contains the magazine feed well. - this firearm uses AR-15/M-16 magazines as opposed to the traditional proprietary SIG magazines. - SIG 556 DMR version has a 610mm Heavy profile non-threaded barrel, precision adjustable stock and a folding bipod attached. It was introduced in 2008. - SIG HALO usually comes with an electronic red dot sight featuring multiple reticules. It was introduced in 2008. - SIG 556 ER has a lightweight trigger housing. It was introduced in 2008. - features include: matte wear resistant Nitron X finish on all metal surfaces other than the barrel; may have threaded barrel with or without non-integral flash hider; hammer-forged barrel in standard or heavy profile; precision adjustable, folding or AR-15 Carbine style adjustable black butt stock with sling attaching points on both sides of the butt, black synthetic pistol grip with an internal storage compartment, the butt stock may have a compartment for storage of accessories and cleaning material; synthetic forend with 3 or 4 picatinny rails for mounting accessories; ambidextrous safety lever; the magazine release lever is mounted behind the magazine well on the lower receiver/frame on the right side; the bolt release is located on the top, middle of the left side of the lower receiver or trigger mechanism housing; a picatinny rail is mounted on the top of the upper receiver/frame; front sight post flip up and folds down to avoid interference with an optical sight mounted on the picatinny rail; the cocking handle extends from the bolt assembly through the right side ejection port. - overall length with a 406mm (16") barrel is 940mm (37") with an average weight of 3.95kgs (8.7lbs).
Manufacturer	- "SIGARMS Inc." is an ISO 9001 manufacturer located in Exeter, New Hampshire, U.S.A.
Action	- gas operated.
Serial Number	- the serial number is marked on the upper receiver/frame, the last four digits may be repeated on other components.
Calibre	- rifling characteristics in caliber 5.56MM NATO: 1 turn in 178mm (7") for the standard weight barrels and 1 turn in 229mm (9") for the heavy weight barrels.
Shots	- detachable box magazine. - this firearm is the first of the SG550 family of firearms to abandon the proprietary SIG magazines for AR-15/M-16 magazines of all types and capacities. This departure firmly brands the SIG 556 to the US firm SIGARMS.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.
Remarks	- portions of this firearm are made in Europe and shipped to USA to the SIGARMS plant for assembly; however, the lower receiver/trigger mechanism housing is manufactured in USA and so marked. Over time SIGARMS has a stated intention to bring the US content of this firearm to 100%. - this firearm is the first of the SG550 family of firearms to abandon the proprietary SIG magazines for AR-15/M-16 magazines of all types and capacities. This departure firmly brands the SIG 556 to the US firm SIGARMS.

Model

- model is not marked on the firearm.
- this is a semi-custom boxlock combination gun of the type known to the Germans as a "bockdrilling" (a three barreled firearm combining a shot barrel over a large calibre rifle barrel, with a small calibre rifle barrel mounted on the side rib between the two), made to a specific customer's request as per chambering, barrel length, stock dimensions, and engraving/finish.
- features may include: engraved nickel finish receiver/frame; blued barrels; double triggers; top lever opener; tang safety; ramped front sight and adjustable rear sight; and checkered pistol grip stock.

Manufacturer

- manufacturer was located in Ferlach, Austria from 1928 to 1939.

Action

- hinged barrel design.
- barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.

Serial Number

- serial number is marked on the receiver/frame and on the barrel lug.
- example observed with five numbers without a letter prefix or suffix.

Notes

Model

- model designation is not marked on firearm.
- this is a generic entry for those otherwise unidentifiable side by side shotguns produced by Silma Sporting Guns, other entries exist that may better identify the firearm being examined.
- this is a side by side exposed hammer design, top lever opening, double triggers, extractors, stock and forearm are walnut, checkered at gripping surfaces.
- receiver/frame is matte silver finish, barrels have a flat rib and high luster blue.
- top rib (above the chamber area) may be marked with ' ACIER COCKERILL ' which refers to the grade of barrel steel used.
- receiver/frame is usually lightly engraved with scroll and game scenes.

Manufacturer

- Armi Silma, Gardone V.T. (not marked on firearm).

Action

- side by side design

Serial Number

- serial number found on receiver water table.

Other Markings

- various Italian Proofs will be marked on the receiver/frame and barrels.
- underside of barrels may be marked ' CANNE CHROMATE '.

156966 - 2	22 PELLET	1	445	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make may or may not be marked on the firearm.

Model

- the model is not marked on the air rifle; this is a descriptor of the type of firearm.
- this is one of a range of break barrel spring-piston air rifles sold under the "Silva" trade name, all of which share the same basic characteristics, but which are fitted with differently finished synthetic stocks (camouflage finish, carbon fibre finish, black synthetic, etc.).
- features include: blued barrel and receiver/frame tube; open adjustable fluorescent sights; synthetic front sight base; synthetic pistol grip stock with a Monte Carlo cheekpiece; and a manual safety at the rear of the receiver/frame tube.

Manufacturer

- the manufacturer may or may not be marked on the firearm.
- Silva is a trade name owned by MARE Metal Makine imalat Dis Ticaret Limited Sirketi, of Istanbul, Turkey.

Action

- spring-piston powered.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial numbered on the barrel block.

Canadian Law Comments

- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
