Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "Schmidt-Rubin" is not marked on the firearm.
- "Schmidt-Rubin" is named after Swiss "Colonel Rudolf Schmidt" the director of Bern Arsenal and designer of the straight pull bolt mechanism and "Major Eduard Rubin" director of the Thun munitions factory and the designer of the "7.5mm SWISS" cartridge.

Model

- model designation is not marked on the firearm.
- this model was officially adopted on 26th June 1889.
- manufactured from 1891 to 1897.
- total production of approximately 212 000 units.
- features include: round barrel with three groove right hand rifling; tubular bolt system designed to unlock and open with the straight pull of the operating lever; action is locked by revolving two lugs on the rear of the bolt sleeve into seats in the receiver, ahead of the trigger; large cocking ring, which doubles as a safety catch; operating lever has two cone shaped pieces of hard plastic which form a vertical finger hold; ejection port is located on top of the action; quadrant sight graduated to 2000m; box magazine with cartridge cut off; noticeable gap of approximately 86mm (3 3/8") between the trigger guard and the magazine; one piece straight stock with upper handguard, nose cap, bayonet lug, stacking rod assembly and two barrel assembly bands.

NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931, 1931/42, 1931/43, and 1955 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

- "sporter" versions with a shortened forend stock and/or barrel may be encountered.

Action

- straight-pull bolt design.

Serial Number

- range from 1 to 212 000.
- serial number is marked on the receiver/frame and barrel.

Shots

- detachable box magazine with a cut off system.

Remarks

- NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Notes

Make

- "Schmidt-Rubin" is not marked on the firearm.
- the "Schmidt-Rubin" name is derived from Swiss "Colonel Rudolf Schmidt", the director of Bern Arsenal and designer of this straight pull bolt mechanism and "Major Eduard Rubin" director of the Thun munition factory and the designer of the "7.5MM SWISS" cartridge.

Model

- model designation is not marked on the firearm.
- this model was officially adopted on 26th June 1889.
- manufactured from 1891 to 1897.
- total production of approximately 212,000 units.
- features include: round barrel with three groove, right hand rifling; tubular bolt system designed to unlock and open with the straight pull of the operating lever; action is locked by revolving two lugs on the rear of the bolt sleeve into seats in the receiver/frame ahead of the trigger; large cocking ring, which doubles as a safety catch; operating lever has two cone shaped pieces of hard plastic which form a vertical finger hold; ejection port is located on the top of the action; quadrant sight graduated to 2000m; box magazine with cartridge cut off; noticeable gap of approximately 86mm (3 3/8") between the trigger guard and the magazine; one-piece straight stock with upper handguard, nose cap, bayonet lug, stacking rod assembly and two barrel assembling bands.

NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931, 1931/42, 1931/43, and 1955 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Manufacturer

- manufacturer is not marked on the firearm.
- a small "cross" on the receiver ring indicates the Waffenfabrik Bern maker and also encountered may be a backwards "BP" which is a Bern proof (Bererprobe).
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- straight-pull bolt design.

Serial Number

- range from 1 to 212,000.
- numerical, on action, barrel.

Shots

- detachable box magazine.

Notes

Make

- "Schmidt-Rubin" is not marked on the firearm.
- "Schmidt-Rubin" is named after Swiss "Colonel Rudolf Schmidt" the director of Bern Arsenal and designer of the this straight pull bolt mechanism and "Major Eduard Rubin" director of the Thun munitions factory and the designer of the "7.5mm SWISS" cartridge.

Model

- model designation is not marked on the firearm.
- this is a hybrid that was derived from the model 1889/96 and 1897.
- manufactured between 1900 and 1904.
- this model was also known as the Model 1900.
- features include: round barrel with three groove right hand rifling; tubular bolt system designed to unlock and open with the straight pull of the operating lever; action is locked by revolving two lugs on the front of the bolt sleeve into seats in the receiver, behind the magazine well; large cocking ring, which doubles as a safety catch; operating lever has two cone shaped pieces of hard plastic which forms a vertical finger hold; ejection port is located on top of the action; quadrant sight graduated; box magazine with cartridge cut off; noticeable gap of approximately 76mm (3") between the trigger guard and the magazine; one piece straight stock with upper handguard, nose cap, bayonet lug, stacking rod assembly and one barrel assembly band.
- when this firearm was upgraded to fire the "7.5X55 SWISS" ammunition the model became known as the "1900/11".

NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931, 1931/42, 1931/43, and 1955 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Manufacturer

- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally known as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- straight-pull bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is located on the left side of the receiver/frame and repeated on the barrel.
- serial number range from 1 to 18 750.

Shots

- detachable single column box magazine.

Remarks

- NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Notes

Make

- "Schmidt-Rubin" is not marked on the firearm.
- "Schmidt-Rubin" is named after Swiss "Colonel Rudolf Schmidt", the director of Bern Arsenal and designer of the this straight pull bolt mechanism, and "Major Eduard Rubin" director of the Thun munition factory and the designer of the "7.5X55 SWISS" cartridge.

Model

- model designation is not marked on the firearm.
- this is a model "1896/96" that has been modified to the approximate same standards as the model "1911", this modification was carried out so the rifle could fire the Swiss 7.5/M1911 ammunition from a barrel with four groove rifling, using a six shot magazine.
- recognized by the added pistol grip in the form of an inlaid wood dowel.
- modifications were carried out from 1913 to 1920.
- features include: round barrel with four groove right hand rifling; tubular bolt system designed to unlock and open with the straight pull of the operating lever; action is locked by revolving two lugs on the front of the bolt sleeve into seats in the receiver, behind the magazine well; large cocking ring, which doubles as a safety catch; operating lever has two cone shaped pieces of hard plastic which forms a vertical finger hold; ejection port is located on top of the action; tangent leaf sight graduated to 2000m; box magazine; noticeable gap of approximately 76mm (3") between the trigger guard and the magazine; one piece pistol grip stock with upper handguard, nose cap, bayonet lug and stacking rod assembly.

NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931, 1931/42, 1931/43, and 1955 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Manufacturer

- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- straight-pull bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number
- serial number is located on receiver/frame and repeated on the barrel.
- serial number range is from 1 to 137,000.

Shots
- removable magazine.

Firearm Reference Number (FRN): 2402
Make: Schmidt-Rubin
Model: 1897

Summary

Make:	Schmidt-Rubin
Model:	1897
Manufacturer:	Waffenfabrik Bern (WF)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2402 - 1	7.5X53 SWISS	1	592	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Schmidt-Rubin" is not marked on the firearm.
- "Schmidt-Rubin" is named after Swiss "Colonel Rudolf Schmidt" the director of Bern Arsenal and designer of the this straight pull bolt mechanism and "Major Eduard Rubin" director of the Thun munitions factory and the designer of the "7.5mm SWISS" cartridge.

Model

- model designation is not marked on the firearm.
- manufactured from 1898 to 1927.
- model was adopted on 27th July 1898.
- model was derived from the Mannlicher Calvary carbine and the Schmidt straight pull bolt rifle system.
- features include: round barrel with three groove right hand rifling; tubular bolt system designed to unlock and open with the straight pull of the operating lever; action is locked by revolving two lugs on the front of the bolt sleeve into seats in the receiver, behind the magazine well; large cocking ring, which doubles as a safety catch; operating lever has two cone shaped pieces of hard plastic which form a vertical finger hold; ejection port is located on top of the action; single shot, no box magazine; quadrant sight graduated to 1200m; one piece straight stock with upper handguard, nose cap, bayonet lug and stacking rod assembly.

NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931, 1931/42, 1931/43, and 1955 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Manufacturer

- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally known as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- straight-pull bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial number range from 1 to 7900.

Remarks - NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Notes

Make

- "Schmidt-Rubin" is not marked on the firearm.
- "Schmidt-Rubin" is named after Swiss "Colonel Rudolf Schmidt", the director of Bern Arsenal and designer of the this straight pull bolt mechanism, and "Major Eduard Rubin" director of the Thun munitions factory and the designer of the "7.5X55 SWISS" cartridge.

Model

- model designation is not marked on the firearm.
- modifications carried out from 1913 to 1920.
- this is a model "1889/00" also known as the "1900" that has been modified to the approximate same standards as the model "1911", so it could fire the Swiss M1911 ammunition from a four groove rifled barrel, using a six shot magazine.
- features include: round barrel with three groove right hand rifling; tubular bolt system designed to unlock and open with the straight pull of the operating lever; action is locked by revolving two lugs on the front of the bolt sleeve into seats in the receiver, behind the magazine well; large cocking ring, which doubles as a safety catch; operating lever has two cone shaped pieces of hard plastic which forms a vertical finger hold; ejection port is located on top of the action; box magazine; noticeable gap of approximately 76mm (3") between the trigger guard and the magazine; quadrant sight graduated to 1200m; one piece straight stock with upper handguard, nose cap, bayonet lug and stacking rod assembly.

NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931, 1931/42, 1931/43, and 1955 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Manufacturer

- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally known as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- straight-pull bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is located on the left side of the receiver/frame and repeated on the barrel.
- serial number range from 1 to 18,750.

Shots

- detachable box magazine.

Remarks

- NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Notes

Make

- "Schmidt-Rubin" is not marked on the firearm.
- "Schmidt-Rubin" is named after Swiss "Colonel Rudolf Schmidt" the director of Bern Arsenal and designer of the this straight pull bolt mechanism and "Major Eduard Rubin" director of the Thun munitions factory and the designer of the "7.5mm SWISS" cartridge.

Model

- model designation is not marked on the firearm.
- manufactured from 1906 to 1911.
- total production of approximately 7500 units.
- features include: round barrel with three groove right hand rifling; tubular bolt system designed to unlock and open with the straight pull of the operating lever; action is locked by revolving two lugs on the front of the bolt sleeve into seats in the receiver, behind the magazine well; large cocking ring, which doubles as a safety catch; operating lever has two cone shaped pieces of hard plastic which forms a vertical finger hold; ejection port is located on top of the action; quadrant sight graduated to 1500m; box magazine with cartridge cut off; noticeable gap of approximately 76mm (3") between the trigger guard and the magazine; one piece semi-pistol grip stock with upper handguard and nose cap.
- in 1913, this model was converted/modified to become the model 1905/11.

NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931, 1931/42, 1931/43, and 1955 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Notes

Make

- "Schmidt-Rubin" is not marked on the firearm.
- "Schmidt-Rubin" is named after Swiss "Colonel Rudolf Schmidt" the director of Bern Arsenal and designer of the this straight pull bolt mechanism and "Major Eduard Rubin" director of the Thun munitions factory and the designer of the "7.5mm SWISS" cartridge.

Model

- model designation is not marked on the firearm.
- manufactured from 1931 to 1957.
- total production of approximately 582,230 units.
- this firearm was also known as the "1931 Carbine", "1931 Short Rifle", "K31", "Karabiner 31", or "M1931 Carbine".
- features include: round barrel with four groove right hand rifling; tubular bolt system designed to unlock and open with the straight pull of the operating lever; action is locked by rotating two lugs on the front of the bolt into the receiver behind the chamber; large cocking ring, which doubles as a safety catch; operating lever has two cone shaped pieces of hard plastic which forms a vertical finger hold; ejection port is located on top of the action; tangent leaf sight graduated to 1500m; detachable box magazine mounted directly in front of the trigger guard; one piece semi-pistol grip stock with upper handguard, nose cap, bayonet lug and stacking rod assembly.

NOTE: Main differences in the Schmidt-Rubin models are:
1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine.
1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine.
1931, 1931/42, 1931/43, and 1955 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- straight-pull bolt design.
Serial Number	- range: 1 to 987,500. - found on the receiver, bolt and the magazine.
Shots	- detachable box magazine.
Remarks	- NOTE: Main differences in the Schmidt-Rubin models are: 1889 - the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine. 1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911 - the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine. 1931 - the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.

Notes

Make - the name Schmidt-Rubin does not appear on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model name does not appear on the firearm. - this is a generic entry for Schmidt-Rubin military rifles, principally the Models 1889, 1889/96 or 1911, that have been converted a sporting configuration. - may be marked "Switzerland 30-30 WCF" on the barrel. - straight-pull bolt action, detachable box magazine. - reworking usually included; - rechambering to selected sporting-type cartridge, - shortening of the barrel, - modifying/reducing magazine capacity from its original 12 shot configuration for the models 1889 and 1889/96 or from 6 shots as was the original capacity for the model 1911. - sporterizing the stock. - original ordnance/manufacturer markings on the firearm may be removed during the reworking/refinishing process. - Schmidt-Rubin models main physical differences are: - 1889: the bolt's locking lugs are located at the rear of the bolt sleeve and there is a large space between the trigger guard and the twelve round box magazine. - 1889/96, 1889/00, 1896/11, 1900/11, 1905, 1905/11 and 1911: the bolt's locking lugs are located at the front of the bolt sleeve and there is a large space between the trigger guard and the six round box magazine. - 1931, 1931/42, 1931/43, and 1955: the bolt's locking lugs are located at the front of the bolt and there is no space between the trigger guard and the six round box magazine.
Action	- straight-pull bolt design.
Serial Number	- original military serial number may be retained and will usually be located on the left front side of the receiver/frame; five and six digit numbers without prefix or suffix have been observed.
Calibre	- calibre designation may be marked on rear of barrel.
Shots	- detachable box magazine.

126845 - 1	36 PERCUSSION	6	191	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SCHNEIDER & GLASSICK, MEMPHIS, TENNESSEE" is marked on the top of the barrel.

Model

- model designation is not marked on the firearm.
- manuafctured circa 1861-1862.
- total quantity made estimated at about 50.
- this percussion revolver was based on the Colt model 1851 Navy.
- features include: fixed sights; octagonal barrel with rammer/loading lever; open top brass receiver/frame with round cylinder; exposed spur hammer; single action trigger mechanism; brass grip straps; one piece wood grips; blued or browned finish.

Manufacturer

- "Schneider & Glassick" was formed by William S. Schneider and Fredrick G. Glassick circa 1855.
- "Schneider & Glassick" was located in Memphis, Tennessee, U.S.A. from circa 1855 to 1862.
- "Schneider & Glassick" manufactured derringers and revolvers.
- Fredrick G. Glassick was the owned of "F. Glassick & Company" from 1840 to 1860.
- Fredrick G. Glassick sold derringers manufactured by Frank J. Bitterlich.
- William S. Schneider was the owner of "Schneider & Company" from circa 1850 to 1860.
- William S. Schneider manufactured derringers.

Serial Number

- located on the receiver/frame.
- observed specimen had two numbers.

Notes

Make

- "S&G" was observed marked on the left side of the receiver/frame.
- "S&G" was the abbreviation for Scholberg & Gadet

Model

- manufactured prior to 1886.
- model is not marked on the firearm.
- this firearm resembles the French Serice and Swiss Service revolver which used the 1876 Warnant System
- Scholberg & Gadet model 1876 has the left side swing-out access cover release located behind the hammer.
- features include: fixed sights; octagonal barrel; solid top receiver/frame with a removable fluted cylinder and right side swing-down loading gate; left side mounted, forward swinging action cover that includes the top of the left grip panel; extractor rod is mounted on the right underside of the barrel; exposed spur hammer; double/single action trigger mechanism; removable rounded trigger guard; checkered wood grips with a metal butt cap with a lanyard ring; nickel plated finish.

Manufacturer

- "S&G" was observed marked on the left side of the receiver/frame.
- Scholberg & Gadet were a firearms manufacturer located in Liege, Belgium from 1861 to 1885.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- serial number of an observed example consisted of three numbers without a letter prefix or suffix.

80931 - 1	450 X 3 1/4"	1	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
80931 - 3	450 X 3 1/4"	1	711	Antique AFR, Section 1, para. 3	Non-Commercial Customization	

Notes

Make

- "SCHOLEFIELD" is usually marked on the right side of the receiver/frame.
- "SCHOLEFIELD" was a trade name used by Scholefield & Company and Scholefield, Goodman & Sons of Birmingham and London, England.

Model

- "Field's Patent" or "Field's Patent Breech" over "No.1927" over "1877" is marked on the left side of the receiver/frame.
- William Field's Patent No. 1927 of May 1877 is for a single shot action with either a Martini type rear hinged, lever operated tipping block design, or a Farquharson type lever operated vertical dropping/falling block design.
- Field's Patent No 1927 is characterized by a right side mounted operating lever on the receiver/frame which was moved forward to lower the breech block, cock the hammer and actuate the extractor at the end of the opening stroke; pulling back on the lever closed the action; most of these actions had an external hammer and an inertia striker in the breech block, although hammerless versions were also made.
- utilizes a single shot falling block action.
- opening lever is located on the right side of the receiver/frame.
- external hammer, with half-cock notch.
- checkered hardwood stock, available in either pistol grip, or straight configuration.
- depending on the maker who finished the rifles, some variants may be encountered with a trigger safety, or an indent-locked lever on the right side of the receiver/frame, the function of which is to lock the side lever with the breech when in the closed position.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "SCHOLEFIELD" was a trade name used by Scholefield & Company and Scholefield, Goodman & Sons of Birmingham and London, England.

- "FIELD RIFLE COMPANY" was located in Birmingham, England at 2 King Alfred Place, Broad Street from 1885 to 1896, 2 Cambridge Street from 1987 to 1898, and 58 Cambridge Street from 1904 to circa 1913.
- "FIELD RIFLE & MOTOR COMPANY" was located at 58 Cambridge Street from 1914 to 1915.
- "FIELD RIFLE & GUN COMPANY" was located at 58 Cambridge Street from 1916 to 1917.
- "FIELD RIFLE COMPANY" was located at 58 Cambridge Street from 1918 to 1920.

- William Field was the manager of the Field Rifle Company of Birmingham, England from 1885 to 1898.
- William Field was the inventor of an action, patented on May 17 1877, as No. 1927. It is believed that Field Rifle Company supplied this patented action to other makers, as they do not appear to have made complete rifles. The manufacturers who utilized his action include many of the best know firms of that era, such as:

A. Bertin & Charles Jourich of Paris, France
Thomas Bland & Sons of Birmingham, England
C.G. Bonehill, Limited of Birmingham, England
J. Brodell & Son of Castle Place, Belfast, Ireland
George Gibbs of Bristol, England
W.W. Greener of Birmingham, England
Holland & Holland of London, England
Kynoch & Company, Limited of Birmingham, England
Charles Lancaster & Company of 151 New Bond Street, London, England
I. Hollis & Sons of London, England
Lang & Hussey, Limited of London, England
G.E. Lewis & Sons of 23 & 23 Lower Loveday Street, Birmingham, England
James MacNaughton & Sons of Edinburgh, Scotland
William Moore & Gray of 43 Old Bond Street, London, England
James Purdey & Sons, Limited of London, England
W. Rawbone of Cape Town, South Africa
John Rigby & Company of 72 St. James Street, London, England
R.B. Rodda & Company of London, England & Calcutta, India
Scholefield & Company
Scholefield, Goodman & Sons of Birmingham and London
W.&C. Scott & Son of Birmingham & London, England
William Soper of Reading, England
Thomas Turner of 19 Brook St., Bond Street, London, England
Thomas W. Watson of 4 Pall Mall, London, England
James Wilkinson & Son of London, England
Thomas Woodward of Birmingham & London, England

Action

- lever operated dropping/falling block design.

Serial Number

- serial number usually stamped on the underside of the receiver/frame just ahead of the trigger guard, and repeated on all major metal parts. An observed example had a letter prefix and four numbers.
- do not confuse No. 1927, with the serial number, this is the number of the patent granted to Field on May 17, 1877.
- the serial number rationalization is unknown, but it is believed that Field's total production was somewhere between 2500 and 2600, however the firms who finished the rifle sometimes used their own serial number sequence.

Calibre

- calibre designation usually stamped on the right side of the barrel.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "Scholefield" may be marked on the side of the receiver/frame.
- "Scholefield. London & Birmingham" may be marked on the barrel.
- "SCHOLEFIELD" was a trade name used by Scholefield & Company and Scholefield, Goodman & Sons of Birmingham and London, England.
- research indicates that these firms were firearms retailers/distributors only.

Model

- no model name is marked on this firearm.
- this is a generic entry for a Henry's Patent falling block sporter rifles sold by Scholefield that have no model designation marked on them.
- Henry's Patent refers to the under-lever operated, hammerless, falling block action patented by Alexander Henry in 1870.
- this type of rifle would have been made circa 1870 to the early 1900's.
- Scholefield exported some of these rifles to Newfoundland, which were popular for seal hunting.
- lever actuated falling block action.
- features may include: under/side lever actuated; exposed hammer or hammerless; British proofmarks are apparent on the barrel and/or receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Alexander Henry was a Scottish firearms manufacturer established circa 1853. - Alexander Henry was located in Edinburgh, Scotland. - Alexander Henry also had a shop in London, England. - Alexander Henry was taken over first by Alex. Martin of Glasgow and then by John Dickson & Son Ltd. in 1947. - Alexander Henry trade name is still in use through the firm of Dickson & MacNaughton of Edinburgh, Scotland, circa 2003. - Alexander Henry's Scottish addresses for the firm; - 12 South Steet, Andrew Street, 1853, - 8 South Street, Andrew Street, 1858, - 12 South Street, Andrew Street, 1862, - 12 & 14 South Street, Andrew Street, 1871, - 12 South Street, Andrew Street, 1875, - 18 Frederick Street, 1895, - 22 Frederick Street, 1911 to circa 1947. - London addresses for the firm were; - "The Henry Military Rifle Co., 39a King William Street, London E.C., circa 1868 to 1872, - 118 Pall Mall, London S.W., circa 1877, - 31 Cockspur Street, London S.W., circa 1886, - 23 Pall Mall, London S.E., circa 1894, - 13a Charles Street, Haymarket, London, circa 1899.
Action	- under lever operated, falling/dropping block design. - solid metal breechblock slides vertically in grooves cut into the receiver/frame.
Serial Number	- serial number usually found on the receiver/frame; may have a letter prefix.
Calibre	- known example had the calibre designation "proofed" on the rear right side of the barrel, e.g., "450 EX 120 - 320".
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "Scholefield, London & Birmingham" may be marked on the sight rib.
- "SCHOLEFIELD" was a trade name used by Scholefield & Company and Scholefield, Goodman & Sons of Birmingham and London, England.

Model

- model designation is not marked on firearm.
- this is an entry for side by side shotguns whose model designation is not known.
- features may include: extractors or ejectors; wood two piece stock, of various grades, with or without engraving and/or checkering; the forearm, which may be of standard, splinter or beavertail profile, is usually detached by the operation of a lever or push-button located on the forearm; buttstock may have a metal or synthetic buttplate or recoil pad; the buttstock may have a pistol grip or a straight (English style) grip; the buttstock may also feature an inlaid escutcheon; may have one or two triggers inside a trigger guard; the barrels will likely have some type of sighting rib and one or two bead sights; the barrels may be made of damascus or monobloc/fluid steel; the barrels will frequently have some level of choke, which may be marked on the barrels; the barrels are usually hinged and pivot in relation to the frame/receiver; hammers may be exposed or internal; an action opening lever is usually found on the upper tang, although opening levers may be encountered on either side of or beneath the frame/receiver; a manual safety may or may not be present; the receiver/frame and/or barrel may be unembellished or may feature light to extensive engraving, with or without inlays of precious metals; the locking work might be one of a wide variety or systems, boxlock and sidelock being two of the more common types; sling swivels may be fitted to the buttstock and the forearm or barrels; the metal surfaces may have a blued finish.

Action

- side by side barrel configuration.

Serial Number

- numeric serial number marked on the watertable of observed specimen.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - British proofmarks should be found on the underside of the barrels and on the receiver/frame.

161827 - 1	12 GA X 2 3/4"	1	866	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "SCHOLEFIELD" and/or "SCHOLEFIELD LONDON & BIRMINGHAM" may be marked on the top of the barrel and/or lock plate.
- "SCHOLEFIELD" was a trade name used by Scholefield & Company and Scholefield, Goodman & Sons of Birmingham and London, England.
- research indicates that these firms were firearms retailers/distributors only.

Model

- model designation is not marked on the firearm.
- this is a single barrel, hinged barrel design, shotgun.
- features include: bead front sight; tapered round barrel without ventilated rib; smooth bore, fixed choke barrel; top tang barrel unlocking lever; external hammer; two piece wood forearm and semi-pistol grip buttstock with buttplate; light engraving with "in the white" or blued finish.

Action

- hinged barrel design.

Serial Number

- a referenced example had no serial number.
- serial number may be marked on the receiver/frame and visible when the barrels are open or removed.

Calibre

- calibre designation is marked under the barrel.

Shots

- hinged barrel design.

- Schuetzen Pistol Works (SPW) is the in-house custom shop for Olympic Arms.

Model

- "STREET DEUCE" is marked on the right side of the slide.
- the Street Deuce is offered through Schuetzen Pistol Works, Olympic Arms custom's shop.
- this firearm is designed after the Colt model 1911A1 pistol.
- features include: fixed front sight and adjustable rear sight; rifled bore; solid slide with rear serrations; full length guide rod; rounded skeletonized external hammer; thumb safety, magazine release and slide release located on the left side of the receiver/frame; beavertail grip safety; single adjustable trigger mechanism; rounded trigger guard; two tone finish; checkered wood grip panels.
- some features may vary following any customizing of the firearm.
- overall length for a 132mm (5.2") barrel is 222mm (8.75"), average weight is 1079g (38oz).

Manufacturer

- "OLYMPIC ARMS" over "OLY.WA U.S.A." is marked on the right side of the receiver/frame above the trigger.

Action

- recoil operated.

Serial Number

- samples observed featured the serial number marked on the right side of the receiver/frame above the trigger guard and consisted of three alpha characters followed by three or four digits.

Calibre

- one sample observed featured the calibre designation marked on the barrel assembly.

Shots

- detachable box magazine.

Notes

Make

- "Robert Schuler, Koln" is marked on the rib.

Model

- this is a standard-pattern drilling, with two side by side shotgun barrels over a single rifle barrel.
- features include: shotgun barrel selector plug on left wrist, safety / rifle selector on tang (raises rear sight when operated), double triggers, and a finely-checkered wood stock and forearm, with a bag-shaped grip.
- may also have provision for mounting a scope

Manufacturer

- Suhl firearms are made in Suhl, Germany. These firearms can be identified by the existence of proprietary Suhl Gun Guild proofs.

Action

- hinged barrel design.
- barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.

Serial Number

- numbered on flat of receiver and on barrel lug.

Notes

Make

- "Andreas Schuler - Hochwang" or "as.h" is marked on the firearm.
- Andreas Schuler is a custom gunsmith based in Hochwang, Bavaria, since 1999, who specializes in building target and sniper rifles.

Model

- "WALKURE" (the German for "Valkyrie") is marked on the receiver/frame.
- this is a custom-made, bolt-action sniper/long-range target rifle manufactured in numerous barrel lengths and action lengths, depending on the cartridge the rifle is chambered for.
- features include: various coated/painted/cerakoted finishes, in the customer's choice of colours; "bird-cage"-style flash suppressor; round heavy barrel; synthetic vertical pistol-grip stock with "pebbled" gripping surfaces and an adjustable cheekpiece; accessory rail for mounting optics; detachable box magazine with a paddle release at the front of the trigger guard; helically fluted bolt.

Manufacturer

- "Andreas Schuler - Hochwang" or "as.h" is marked on the firearm.
- Andreas Schuler is a custom gunsmith based in Hochwang, Bavaria, since 1999, who specializes in building target and sniper rifles.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- "ASS" in a circle was observed marked on the grip panels.
- "ASS" is the acronym for August Schuler of Suhl.

Model

- model designation may be marked on the bottom of the grip.
- this is a self-loading tear gas and dog training blank firing pistol made pre-WWII.
- this pistol has no chamber, no extractor and smooth bore barrel with an open top slide.
- manufactured from 1930 to circa 1940.
- features include: top loading; fixed firing pin at the rear of the slide; fixed magazine in the grip; plastic grips.

Manufacturer

- "A.S.S. GERMANY" and "D.R.P." may be marked on the water table.
- "A.S.S." is the abbreviation for August Schuler of Suhl.
- "D.R.P." is the abbreviation for Deutsches Reichs-Patente.
- "August Schuler" was located in Suhl, Thuringen, Germany from 1900 to 1940.

Action

- gas operated.

Serial Number

- serial number is marked at the bottom of the grip.
- observed serial number consisted of two numbers without a letter prefix or suffix.

Shots

- fixed magazine in the grip, spring-loaded magazine follower.

Notes

Make

- "Schultz & Larsen" is marked on the receiver/frame.

Model

- "M65" is marked on the left side of the receiver/frame.
- introduced circa 1965.
- hunting rifle with a somewhat unusual locking system; instead of having the locking lugs at the front of the bolt, this design has four small lugs arranged around the bolt just forward of the bolt handle.
- features include: adjustable trigger; hinged floor-plate; matte receiver top drilled and tapped for scope mounts; pistol grip walnut stock with Monte Carlo comb and cheekpiece; sling swivels; recoil pad; standard finish.

Manufacturer

- the manufacturer's name and address are marked on the receiver/frame.
- "Schultz & Larsen" was located in Otterup, Denmark.

Action

- turn bolt operated.

Serial Number

- serial number is marked on the receiver/frame.
- observed serial numbers have consisted of four numbers without a letter prefix or suffix.

Calibre

- calibre designation is usually marked on the barrel.

Shots

- internal magazine.

Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197322 - 1	12 GA	2	740	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "H.G. Schultze" is marked on the barrel rib between the side by side barrels of this firearm.

Model

- The model designation is not marked on the receiver/frame.
- The barrels of this firearm may contain markings unrelated to the receiver/frame of this firearm and are not to be mistaken for the model, nor maker of the firearm. See notes on "Other Markings" for this firearm.
- Features include: steel or nickel engraved receiver/frame with dual hammers; side by side round, blued barrels; wood shoulder stock.

Manufacturer

- "H.G. Schultze" is marked on the barrel rib between the side by side barrels of this firearm.
- "Bremen" is marked on the barrel rib between the two side by side barrels of the firearm, following the name of the maker, H.G. Schulze.
- Bremen is the name of a city/state within Northern Germany.

Action

- Hinged barrel design.
- Side by side barrel configuration.

Serial Number

- The serial number rationalization is unknown.
- Observed serial number consisted of a letter prefix, followed by one (1) number, followed by a letter, followed by three (3) numbers.

Other Markings

- Additional markings may be found on the barrels, marked as follows: in a circle around a centre flower/exploding star pattern, is "COCKERILL", followed by "STAHL", on top of circle form, over "RAUCHLOG", followed by "GEPRÜFT", in the lower circle pattern.
- "Cockerill" was a known Belgium factory, founded in 1834.
- It may have been known as "Cockerill Société" or "Société Cockerill", which specialized in the production of firearm barrels by mechanical welding methods.
- "Geprûft" is a German word that translates into "Checked" or "Proof Checked".
- "Stahl" is a German word that translated into "Steel".

Notes

Make

- make and model designations are usually marked on the right side of the receiver/frame as: "M.G.(SCHWARZLOSE" over "M.7/12)".
- Andreas Wilhelm Schwarzlose was a German firearms designer.

Model

- model designation is marked on the right side of the receiver/frame as: "M.7/12".
- production of this firearm ceased circa 1918.
- this firearm in the form of the Model 1905 was adopted by Austria-Hungary in 1905 as their military's standard machine gun; it remained in service as the Model 1907 and finally as the Model 1907/1912 until circa 1918 after which date it was relegated to "limited-standard" status.
- delayed blowback action, full automatic fire only, water cooled, tripod mounted, belt-fed, heavy machine gun with a cyclic rate of fire of approximately 400 rounds per minute.
- utilizes a fabric belt containing 250 cartridges.
- right hand feed.
- the model 07/12 differs from its two predecessors, the models 1905 and 1907, in that it does not require the use of a mechanical oil pump to lubricate the chamber between extraction and loading.

Manufacturer

- "WAFFENFABRIK STEYR" or a variation thereof and the date of manufacture are usually marked on the left side of the receiver/frame.

Action

- no longer capable of full automatic fire.

Serial Number

- known example had the serial number without prefix or suffix marked on the top rear of the receiver/frame.
- five digit numbers have been observed.

Shots

- utilizes a fabric belt containing 250 cartridges.

26226 - 2	7.65MM	7	105	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the "SCHWARZLOSE" trademark logo is marked on the right side of the firearm.
- "A.W. Schwarzlose G.m.b.H. Berlin" is marked on the left side of the slide.

Model

- not marked as to model or date, known as "Pocket Model 1908" (production began in 1908, later units marked with 1908 patent dates), marketed initially in late 1909 (at times called "Pocket Model 1909"), production terminated in 1911 (assembly until about 1913).
- type I: front grip-strap safety, internal extractor, rear butt-mounted magazine release, gripping-areas on barrel serrated for cocking, plain or checkered grips, German proof marks on top of barrel, no patent dates.
- type II: front grip-strap safety, external extractor, left frame-mounted button magazine release behind trigger-guard, gripping-areas on barrel checkered (cross-hatched) for cocking, 1908 patent dates on left side; "WARNER ARMS CO." usually marked on the right side, black moulded rubber grips (early grips bear intertwined "WAC"), serial numbers usually on the frame backstrap.
- type III: no grip safety, external extractor, rear frame-mounted magazine release (smaller than type I), gripping-areas on barrel checkered (cross-hatched) for cocking, 1908 patent dates on left side; "WARNER ARMS CO." usually marked on the right side, black moulded rubber grips, serial numbers usually on the frame backstrap.

Manufacturer

- "A.W. Schwarzlose G.m.b.H. Berlin" is marked on the left side of the slide.
- manufactured from 1908 to 1911 by Andreas Wilhelm Schwarzlose GMBH in Berlin.
- in 1912 Schwarzlose sold all remaining stock of the 1908 pistols to Warner Arms Corporation of Brooklyn, NY; it is uncertain whether Warner Arms Corporation manufactured the 1908 or simply assembled complete pistols from German-made parts.
- the model 1908 was widely distributed and may be found with the names of British or South American Importers in addition to Warner Arms Corp of the USA.

Action

- "blow-forward" barrel assembly operating mechanism.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- early firearms reported to be marked with internal serial numbers only, or no serial numbers. - serial numbering of types believed to be independent. (note: type I reported with s/n 18 to 6489; type II reported with s/n 1148 to 1338; type III reported with s/n 245 to 1693) - type I: external serial numbers on the right side of the frame, or on the right side of the grip safety. - type II & II: the serial number locations on the frame backstrap of type II, are slightly different from type III.
Shots	- detachable box magazine.
Other Markings	- some are also marked with patent dates on the left side of the frame (in block caps): PAT'D APR. 13 AND AUG 14 1908

Notes

Make

- "SCORE" is marked on the receiver/frame.
- "SCORE" is a tradename used on firearms imported and distributed by Prairie Shot Limited of Carberry, Manitoba, Canada.

Model

- introduced in 2010.
- model designation is not marked on the firearm.
- features include: round barrel with fibre optic front sight; solid top receiver/frame with right side ejection and bottom loading ports; cross bolt safety mount on the rear of the trigger guard; action release located on the left front side of the trigger guard; black synthetic grooved forearm and a standard fixed checkered pistol grip buttstock with butt pad or a checkered pistol grip only; sling swivels; matte black finish.
- overall length with a 356 mm (14.0") barrel and pistol grip only is 616 mm (24 1/4").
- overall length with a 356 mm (14.0") barrel and a standard fixed pistol grip buttstock is 876 mm (34 1/2").

Manufacturer

- manufacturer's name is not marked on the firearm.
- "MADE IN TURKEY" is usually marked on the side of the barrel.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number consisted of four or six numbers without a letter prefix or suffix.

Shots

- tubular magazine mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- known example was marked on the left side of the receiver/frame as, "W.& C.Scott & Son Prize Sporting Rifle No. 2 1880 Makers London" in an arc style.

Model

- model designation is marked on the left side of the receiver/frame as, "Prize Sporting Rifle No. 2".
- observed example of this rifle was marked with the date of 1880 on the left side of the receiver/frame; production of this type of firearm would have ranged from circa 1877 to the early 1890's.
- known example was also marked on the left side of the receiver/frame as, "FIELD'S PATENT" over "No. 1927" over "1877" over "Pat. U.S.A. Feb. 5, 1878".
- William Field's Patent No. 1927 of May 1877 is for a single shot action with either a Martini-type lever operated, rear hinged, front tipping breech block design, or a Farquharson-type lever operated vertical dropping/falling block design.
- Field's Patent No 1927 is characterized by a right side mounted operating lever on the receiver/frame which was moved forward to lower the breech block, cock the action and actuate the extractor at the end of the opening stroke; pulling back on the lever closed the action.
- features include: this is a single shot rifle utilizing a side lever operated, rear hinged, front tipping, Martini-type action; side lever is on the right side of the receiver/frame; hammerless; checkered hardwood full pistol grip stock.
- Field's Patent No 1927 firearms were also produced with exposed hammers.

Manufacturer

- known example was marked on the left side of the receiver/frame as, "W.&C.Scott & Son Prize Sporting Rifle No. 2 1880 Makers London" in an arc style.

Action

- side lever operated, rear hinged, front tipping breech block, Martini-type action

Serial Number

- known example had a three digit number without prefix or suffix marked on the underside of the barrel.

Notes

Make

- "W&C SCOTT & SON LONDON" or a variation thereof is marked on the top of the barrel.
- the front left side of the receiver/frame will also be marked with the W&C Scott "flying pennant" trademark symbol consisting of an upright oval within which is a castle tower from which a flag/pennant is flying.

Model

- "THE" over "SCOTT" is marked on the top strap of the receiver/frame.
- this model line, which closely resembles the typical "British Bull Dog" type of revolver, was introduced in the late 1870's; there is no indication that production of this firearm lasted beyond 1897 when W&C Scott & Son merged with the firm of P.Webley & Son.
- features include: solid receiver/frame, double action trigger, exposed hammer; usually unfluted cylinder with rear locking recesses; ovate barrel with blade front sight; ejector rod housed in the cylinder axis pin and swings to the right for unloading the cylinder chambers; loading gate may swing out to the right or backwards; nickel or blued finish.
- British proof marks are apparent on the barrel, cylinder and or receiver/frame.
- the word "STEEL" may be marked on the cylinder.

Manufacturer

- "W&C SCOTT & SON LONDON" or a variation thereof is marked on the top of the barrel.
- the front left side of the receiver/frame will also be marked with the W&C Scott "flying pennant" trademark symbol consisting of an upright oval within which is a castle tower from which a flag/pennant is flying.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "W & C Scott" or "W & C Scott & Son" may be marked on the firearm. - "W. & C. Scott & Son" was also a tradename used by "Webley & Scott, Limited" from 1897 to 1939.
Model	- model designation is not marked on the firearm. - this is a generic entry to encompass those side by side shotguns produced by "W. & C. Scott & Son" that do not display the model designation. - manufactured between 1865 and 1897. - features include: side by side barrel configuration; Damascus or fluid steel barrels; hinged receiver/frame with break open lever mounted on the top, side, bottom of the frame/receiver or on the trigger guard; side or box locks; exposed hammers or hammerless; single or double triggers; with or without tang mounted safety; extractors or ejectors; plain or pistol grip buttstock; various grades of finish. - hammer shotguns were manufactured from 1865 to 1897. - hammerless shotguns were manufactured from 1874 to 1897. - this breech loaded model of shotgun was available as a centre-fire, pin-fire or interchangeable pin-fire/centre-fire. - some of these hammerless shotguns may also be marked "Patent Crystal Indicator" on each lock plate. This was a Scott & Son patented feature, whereby a 'crystal' or round clear glass was installed in the side of each lock plate so the shooter could determine if the action was cocked.
Manufacturer	- manufacturer's name is marked on the firearm and may also display the trademark of a castle tower with a flag on top, inside an oval.
Serial Number	- serial number is located on the water table. - serial number range from 1 to approximately 58,000 or 59,000. - serial numbers above 59,000 were manufactured by Webley & Scott. - serial number range for shotguns manufactured by Webley & Scott is from 59,000 to approximately 728,000.
Barrel	- barrel length were available from 699 mm to 914 mm.
Calibre	- chamber length were normally 2 1/2" or 2 3/4".
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "SCOTTI" is marked on the top of the receiver/frame.
- designed by Alfredo Scotti of Brescia, Italy.

Model

- the model may or may not be marked on the firearm.
- this is an enlarged version of the Scotti 12.7mm machine gun, chambered for the 20mm Solothurn cartridge for use as an anti-aircraft cannon; this cannon could be seen in belt-fed or drum-fed versions, but was most often seen in a strip-fed version on a pintle mount with ring sights.
- features include: blued finish; cone-shaped flash-hider; and under-barrel gas/piston tube; a slotted barrel shroud forward of the receiver proper; either a free-swinging or hand wheel-operated traversing/elevating mechanism; and various forms of sights.

Manufacturer

- "ISOTA" over "FRASCHINI" is marked on the top of the receiver/frame.
- Isota Fraschini manufactured automobiles and aircraft engines and was eventually taken over by Oerlikon of Switzerland.

Action

- gas operated.

Serial Number

- serial numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - this cannon could be seen in strip-fed (12 rounds), drum-fed (60 rounds) or belt-fed versions.

25799 - 1	32 S&W	5	80	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "J.N.SCOTTS SAFETY HAMMERLESS" over "PAT.JAN. 24, 1888.OCT 29 1889" is marked on the top of the barrel of a referenced example.

Model

- model is not marked on the firearm.
- "Pat. Jan. 24, 1888 Oct. 29, 1889" is marked on the topstrap.
- this is an unusual nickel plated, brass-framed double-action-only revolver made under patents issued to John T. Smith of Rockfall, Connecticut.
- one-piece receiver/frame and barrel made entirely of brass, with a fluted steel cylinder, nickel-plated finish, loading groove on the right side of the receiver/frame, and a cylinder stop/catch mounted in the top-strap that can be depressed to free the cylinder for loading and unloading.
- these revolvers were built for various distributors by Otis A. Smith, of Rockfall, Connecticut, but most often bear no manufacturers' marks.
- a smaller-framed 22-calibre version of this revolver, known as the model 1892, was also built using the same patents, only with an iron receiver/frame and barrel.

Manufacturer

- manufacturer is not marked on the firearm.

Serial Number

- serial number is marked on the bottom of the grip.

Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
117366 - 2	25 AUTO	6	56	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
117366 - 1	6.35MM	6	56	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "FABRICA DE ARMAS S.E.A.M." is marked on the left side of the slide.
- "S E A M" is moulded into the top of the grips plate and a "SEAM" medallion is inset into the grips.
- "SEAM" is the abbreviation for "Fabrica de Armas de Sociedad Espanol de Armas y Municiones" of Eibar, Spain.

Model

- "S.E.A.M." is marked on the firearm.
- "PATENTE No 11627" is marked on the left side of the slide.
- manufactured prior to 1940.
- features include: groove in the top of the slide for a fixed sight; round barrel; flat sided slide with right side ejection and rear grip serrations; safety lever is located on the left side of the receiver/frame, in front of the grip plate; magazine release is located on the bottom of the rear grip strap.
- overall length is approximately 116 mm, overall height is approximately 83 mm.
- do not confuse this pistol with the "SEAM 11627 Pocket"; where the "SEAM 11627" is styled after the Browning 1906, the "SEAM 11627 Pocket" is styled after the Walther Model 9.

Manufacturer

- Fabrica de Armas de Sociedad Espanol de Armas y Municiones (SEAM) was in business from 1924 to 1939.

Action

- blowback operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- caliber is marked on the left side of the slide.
Shots	- detachable box magazine.

Notes

Make

- "SEAM" is usually moulded into a medallion inset into the grip plates.
- "SEAM" is the abbreviation for "Fabrica de Armas de Sociedad Espanol de Armas y Municiones" of Eibar, Spain.

Model

- "Automatic Pistol Cal 6.35" over "SILESIA" is marked on the left side of the slide.
- this is a typical Spainish/Eibar-type copy of the Browning 1906 semi-automatic pistol.
- blowback operated, detachable box magazine.
- features include: heel type magazine release; sighting groove on the top of the slide; straight grasping grooves on the rear of the slide; lever type safety located on the left side of the receiver/frame in front of the grips; checkered plastic grip pannels.

Manufacturer

- Fabrica de Armas de Sociedad Espanol de Armas y Municiones (SEAM) was in business from 1924 to 1939.

Action

- blowback operated.

Serial Number

- serial number is located on the receiver/frame.
- example reported had a three digit number without prefix or suffix.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- may be marked on the left of the slide: "AUTOMATIC PISTOL" followed by the calibre.
- usually Spanish proof marks on the receiver/frame and/or on the slide.

Notes

Make

- "SEARS" and/or "SEARS, ROEBUCK & CO." or "SEARS, ROEBUCK & COMPANY", or "SEARS ROEBUCK AND CO." or "SEARS, ROEBUCK AND CO." are usually marked on the barrel or receive/frame.

- "SEARS" trade name/trademark has been used by "Sears Canada Incorporated", "Sears, Roebuck and Company" and "Simpson-Sears Limited".

- Sears, Roebuck and Company was founded in 1893 in Chicago, Illinois, U.S.A.
- Sears, Roebuck and Company has contracted with various manufacturers to produce firearms for sale under various trade names such as:
- "A.J. Aubrey" was used from 1893 to 1918 and were manufactured by Meriden Arms Company.
- "Ranger" was used from 1925 to 1945.
- "J.C. Higgins" was used from 1946 to 1962.
- "Sears" and "Ted Williams" was used after 1962.

- "Sears" products have been manufactured by the following companies: Aguirre y Aranzabal (AYA), Companhia Brasileira de Cartuchos (CBC), Crosman Air Guns, Fabrique Nationale Herstal (FN), Harrington & Richardson, High Standard, Hunter Arms, Husqvarna, Ithaca, Laurona, Manufacture d'Armes des Pyrenees, Marlin, Meriden Arms, Miroku, Mossberg, Remington, Sako, Savage, Stevens, Universal, Voere, Winchester, and Zoli.

- Simpson-Sears Limited was a partnership between Robert Simpson Company of Toronto, Ontario, Canada and Sears, Roebuck & Company of Chicago, Illinois, U.S.A..
- Simpson-Sears Limited was established in September of 1952.
- Simpson-Sears Limited first store opened in Stratford, Ontario, Canada in 1953.
- Simpson-Sears Limited became Sears Canada Incorporated in 1984.

Model

- "Sears" and "Mod: 1" and "Sears, Roebuck and Co." and "Mod. No. 273.27010" and "Made in U.S.A." may be marked on the barrel.
- this is a "Winchester Model 121" sold under the Sears tradename and model designation.
- features include: round barrel; fixed sights; one piece pistol grip stock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer is not marked on the firearm.
Action	- turn bolt action.
Serial Number	- may not be numbered. - Note: the number "27327010" is a "Sears Roebuck & Company catalog number.
Calibre	- calibre designation is marked on the barrel. eg. "22 S, L or L.R."

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "SEARS" and/or "SEARS, ROEBUCK & CO." or "SEARS, ROEBUCK & COMPANY", or "SEARS ROEBUCK AND CO." or "SEARS, ROEBUCK AND CO." are usually marked on the barrel or receive/frame.

- "SEARS" trade name/trademark has been used by "Sears Canada Incorporated", "Sears, Roebuck and Company" and "Simpson-Sears Limited".

- Sears, Roebuck and Company was founded in 1893 in Chicago, Illinois, U.S.A.
- Sears, Roebuck and Company has contracted with various manufacturers to produce firearms for sale under various trade names such as:
- "A.J. Aubrey" was used from 1893 to 1918 and were manufactured by Meriden Arms Company.
- "Ranger" was used from 1925 to 1945.
- "J.C. Higgins" was used from 1946 to 1962.
- "Sears" and "Ted Williams" was used after 1962.

- "Sears" products have been manufactured by the following companies: Aguirre y Aranzabal (AYA), Companhia Brasileira de Cartuchos (CBC), Crosman Air Guns, Fabrique Nationale Herstal (FN), Harrington & Richardson, High Standard, Hunter Arms, Husqvarna, Ithaca, Laurona, Manufacture d'Armes des Pyrenees, Marlin, Meriden Arms, Miroku, Mossberg, Remington, Sako, Savage, Stevens, Universal, Voere, Winchester, and Zoli.

- Simpson-Sears Limited was a partnership between Robert Simpson Company of Toronto, Ontario, Canada and Sears, Roebuck & Company of Chicago, Illinois, U.S.A..
- Simpson-Sears Limited was established in September of 1952.
- Simpson-Sears Limited first store opened in Stratford, Ontario, Canada in 1953.
- Simpson-Sears Limited became Sears Canada Incorporated in 1984.

Model

- manufactured from 1912 to 1920.
- manufactured by Stevens then by Savage until 1932

Remarks

- Black oxide finish. Forged steel, hammerless, take down, side-ejection, closed breech, slide action repeater. Five shot tubular magazine mounted under the barrel, with longitudinal grooves on the forward portion of the tube. Visible locking-block on the receiver, top recoil controlled safety lock on the side. Sliding finger safety inside the trigger guard. Firing pin retracts when the bolt is opened. Has double extractors. The pistol grip stock is plain (may be checkered) walnut with a rubber butt plate. Has a matted rib. Same as the Stevens 521 with possible internal and/or external mods, made for Sears.

FRT Report

Firearm Reference Number (FRN): 2328
Make: Sears
Model: 103.19790

Summary

Make:	Sears
Model:	103.19790
Manufacturer:	Marlin Firearms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2328 - 1	22 LR	8	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SEARS" and/or "SEARS, ROEBUCK & CO." or "SEARS, ROEBUCK & COMPANY", or "SEARS ROEBUCK AND CO." or "SEARS, ROEBUCK AND CO." are usually marked on the barrel or receive/frame.

- "SEARS" trade name/trademark has been used by "Sears Canada Incorporated", "Sears, Roebuck and Company" and "Simpson-Sears Limited".

- Sears, Roebuck and Company was founded in 1893 in Chicago, Illinois, U.S.A.
- Sears, Roebuck and Company has contracted with various manufacturers to produce firearms for sale under various trade names such as:
- "A.J. Aubrey" was used from 1893 to 1918 and were manufactured by Meriden Arms Company.
- "Ranger" was used from 1925 to 1945.
- "J.C. Higgins" was used from 1946 to 1962.
- "Sears" and "Ted Williams" was used after 1962.

- "Sears" products have been manufactured by the following companies: Aguirre y Aranzabal (AYA), Companhia Brasileira de Cartuchos (CBC), Crosman Air Guns, Fabrique Nationale Herstal (FN), Harrington & Richardson, High Standard, Hunter Arms, Husqvarna, Ithaca, Laurona, Manufacture d'Armes des Pyrenees, Marlin, Meriden Arms, Miroku, Mossberg, Remington, Sako, Savage, Stevens, Universal, Voere, Winchester, and Zoli.

- Simpson-Sears Limited was a partnership between Robert Simpson Company of Toronto, Ontario, Canada and Sears, Roebuck & Company of Chicago, Illinois, U.S.A.
- Simpson-Sears Limited was established in September of 1952.
- Simpson-Sears Limited first store opened in Stratford, Ontario, Canada in 1953.
- Simpson-Sears Limited became Sears Canada Incorporated in 1984.

Model

- manufactured from 1922 to 1933 with model designation marked on barrel.

Manufacturer

- contract built by Marlin for retail sale by Sears, Roebuck & Co.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- round, tapered, light, blued, Ballard rifling.
Shots	- detachable box magazine.
Remarks	- Take down, rim fire, one piece birch, pistol grip stock, available with standard sights, or peep sights. Positive and convenient safety. This is a contract gun manufactured for Sears & Roebuck by Marlin and is the Marlin Model 80.

Make

- "SEARS" and/or "SEARS, ROEBUCK & CO." or "SEARS, ROEBUCK & COMPANY", or "SEARS ROEBUCK AND CO." or "SEARS, ROEBUCK AND CO." are usually marked on the barrel or receive/frame.

- "SEARS" trade name/trademark has been used by "Sears Canada Incorporated", "Sears, Roebuck and Company" and "Simpson-Sears Limited".

- Sears, Roebuck and Company was founded in 1893 in Chicago, Illinois, U.S.A.
- Sears, Roebuck and Company has contracted with various manufacturers to produce firearms for sale under various trade names such as:
- "A.J. Aubrey" was used from 1893 to 1918 and were manufactured by Meriden Arms Company.
- "Ranger" was used from 1925 to 1945.
- "J.C. Higgins" was used from 1946 to 1962.
- "Sears" and "Ted Williams" was used after 1962.

- "Sears" products have been manufactured by the following companies: Aguirre y Aranzabal (AYA), Companhia Brasileira de Cartuchos (CBC), Crosman Air Guns, Fabrique Nationale Herstal (FN), Harrington & Richardson, High Standard, Hunter Arms, Husqvarna, Ithaca, Laurona, Manufacture d'Armes des Pyrenees, Marlin, Meriden Arms, Miroku, Mossberg, Remington, Sako, Savage, Stevens, Universal, Voere, Winchester, and Zoli.

- Simpson-Sears Limited was a partnership between Robert Simpson Company of Toronto, Ontario, Canada and Sears, Roebuck & Company of Chicago, Illinois, U.S.A..
- Simpson-Sears Limited was established in September of 1952.
- Simpson-Sears Limited first store opened in Stratford, Ontario, Canada in 1953.
- Simpson-Sears Limited became Sears Canada Incorporated in 1984.

Model

- "MODEL 200" is marked on the left side of the barrel.
- "M-200" is marked on the left side of the receiver/frame.
- this is a Winchester Model 1200 pump action shotgun sold under the Sears name.
- contract number located on left side of barrel.
- features include:
- blue alloy receiver/frame, slide action, hammerless, take down.
- front locking rotary bolt, cross bolt safety and slide release lever on left rear of trigger group.
- tubular magazine, hardwood stock and forearm, recoil pad.
- as these shotguns were manufactured in various job lots, overall appearance may vary somewhat as the manufacturer Winchester made design refinements to the parent Model 1200.

Manufacturer

- manufacturer's designation not marked on the firearm.
- contract built by Winchester for retail sale by Sears.

Serial Number

- serial numbers on observed examples were marked on the left side of the receiver/frame and/or on the underside of the receiver/frame.
- may have a letter prefix.
- Sears contract number may be marked on the barrel, this is not the serial number.

Calibre

- calibre is marked on the barrel.

Shots

- factory installed magazine plug limits capacity to two cartridges

FRT Report

Firearm Reference Number (FRN): 4995
Make: Sears
Model: 209

Summary

Make:	Sears
Model:	209
Manufacturer:	Savage
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
4995 - 1	22 LR	5	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SEARS" and/or "SEARS, ROEBUCK & CO." or "SEARS, ROEBUCK & COMPANY", or "SEARS ROEBUCK AND CO." or "SEARS, ROEBUCK AND CO." are usually marked on the barrel or receive/frame.

- "SEARS" trade name/trademark has been used by "Sears Canada Incorporated", "Sears, Roebuck and Company" and "Simpson-Sears Limited".

- Sears, Roebuck and Company was founded in 1893 in Chicago, Illinois, U.S.A.
- Sears, Roebuck and Company has contracted with various manufacturers to produce firearms for sale under various trade names such as:
- "A.J. Aubrey" was used from 1893 to 1918 and were manufactured by Meriden Arms Company.
- "Ranger" was used from 1925 to 1945.
- "J.C. Higgins" was used from 1946 to 1962.
- "Sears" and "Ted Williams" was used after 1962.

- "Sears" products have been manufactured by the following companies: Aguirre y Aranzabal (AYA), Companhia Brasileira de Cartuchos (CBC), Crosman Air Guns, Fabrique Nationale Herstal (FN), Harrington & Richardson, High Standard, Hunter Arms, Husqvarna, Ithaca, Laurona, Manufacture d'Armes des Pyrenees, Marlin, Meriden Arms, Miroku, Mossberg, Remington, Sako, Savage, Stevens, Universal, Voere, Winchester, and Zoli.

- Simpson-Sears Limited was a partnership between Robert Simpson Company of Toronto, Ontario, Canada and Sears, Roebuck & Company of Chicago, Illinois, U.S.A..
- Simpson-Sears Limited was established in September of 1952.
- Simpson-Sears Limited first store opened in Stratford, Ontario, Canada in 1953.
- Simpson-Sears Limited became Sears Canada Incorporated in 1984.

Model

- manufactured from 1955 to 1965 approx.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Bolt action with chromium plated bolt and trigger. Cocks on opening the bolt and has double extractors and positive ejection. Has a 5 shot detachable box magazine and a thumb safety at the rear of the receiver. Walnut finished one piece pistol grip stock with rubber butt plate (early model had a black tip forend). Sporting front sight (early model had a gold bead front sight) and an open rear sight with step elevator. Receiver grooved for scope mounting. Has a tapered round barrel. Same as the Stevens 84 with possible internal and/or external modifications. Made for Sears.

Notes

Make

- "SEARS" and/or "SEARS, ROEBUCK & CO." or "SEARS, ROEBUCK & COMPANY", or "SEARS ROEBUCK AND CO." or "SEARS, ROEBUCK AND CO." are usually marked on the barrel or receive/frame.

- "SEARS" trade name/trademark has been used by "Sears Canada Incorporated", "Sears, Roebuck and Company" and "Simpson-Sears Limited".

- Sears, Roebuck and Company was founded in 1893 in Chicago, Illinois, U.S.A.
- Sears, Roebuck and Company has contracted with various manufacturers to produce firearms for sale under various trade names such as:
- "A.J. Aubrey" was used from 1893 to 1918 and were manufactured by Meriden Arms Company.
- "Ranger" was used from 1925 to 1945.
- "J.C. Higgins" was used from 1946 to 1962.
- "Sears" and "Ted Williams" was used after 1962.

- "Sears" products have been manufactured by the following companies: Aguirre y Aranzabal (AYA), Companhia Brasileira de Cartuchos (CBC), Crosman Air Guns, Fabrique Nationale Herstal (FN), Harrington & Richardson, High Standard, Hunter Arms, Husqvarna, Ithaca, Laurona, Manufacture d'Armes des Pyrenees, Marlin, Meriden Arms, Miroku, Mossberg, Remington, Sako, Savage, Stevens, Universal, Voere, Winchester, and Zoli.

- Simpson-Sears Limited was a partnership between Robert Simpson Company of Toronto, Ontario, Canada and Sears, Roebuck & Company of Chicago, Illinois, U.S.A..
- Simpson-Sears Limited was established in September of 1952.
- Simpson-Sears Limited first store opened in Stratford, Ontario, Canada in 1953.
- Simpson-Sears Limited became Sears Canada Incorporated in 1984.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- fabriqué de 1938 à 1965 approx.

Remarks

- Operates as a semi-automatic with 22 LR or high speed cartridges only. Pressing the cross bolt to the left locks the action, adapts the rifle for use as a bolt action or single shot. Has a tube type magazine mounted under the barrel and a thumb safety at the rear of the receiver. Walnut finished one piece pistol grip stock with rubber butt plate (early model had a black tip forend). Sporting front sight (early model had a gold bead front sight) and an open rear sight with step elevator. Receiver grooved for scope mounting. Has a tapered round barrel. Same as the Stevens 87 with some possible internal and/or external modifications. Made for Sears.

- "SECURITY INDUSTRIES OF AMERICA", "SIA" logo, "LITTLE FERRY", and "N.J." are marked on the left side of the receiver/frame.
- "SIA" logo is a superposed type monogram without dominant letters.

Model

- model designation does not always appear on the firearm.
- this is a solid frame, swing out cylinder, double action revolver.
- this model features a 64mm barrel and stainless steel construction.
- introduced in 1975, discontinued in 1977.
- a similar model that featured a 51mm barrel was also available as the PPM357, the early versions of the PPM357 had spurless hammers while later production used a spur hammer.
- a 38 SPL model known as the PSS38 or Police Security Special was also manufactured between 1973 and 1978.

Manufacturer

- "Security Industries of America, Inc" was a manufacturer based in Little Ferry, New Jersey, U.S.A., between 1965 and 1978.

Serial Number

- marked on the bottom of the butt on sample examined.
- may incorporate an alpha prefix.

Calibre

- calibre is marked on the barrel.

Notes

Make

- the make is not marked on the firearm.
- "S" in a circle is marked on the grip panels.

Model

- "BABY HAMMERLESS" may be marked on the top strap of the receiver/frame.
- this model is based on the Henry Kolb & Company's Baby Hammerless model.
- manufactured by Sedgley circa 1916 to 1938.
- features include: ovate barrel with half-moon front and no rear sight; solid receiver/frame; semi-fluted cylinder; internal hammer; folding, double action trigger mechanism; external loading gate or removable cylinder axis pin for loading; square butt; rubber grips; nickel or blued finish.

Manufacturer

- Sedgley was a manufacturer located in Philadelphia, Pennsylvania, USA from 1916 to 1938.

Serial Number

- serial number is located on the left side of the grip frame under the grip.

Remarks

- the "Baby Hammerless" and the "New Baby" models were the smallest American double action revolver originally produced under the patents of Charles Foehl and Charles Weeks. This firearm was manufactured by the "Columbian Firearms Manufacturing Company" between 1896 and 1897, by "Henry M. Kolb" between 1897 and 1916 and by "Reginald F. Sedgley" between 1916 and 1938. All three manufacturers were located in Philadelphia, Pennsylvania.

24909 - 1	22 SHORT	6	35	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is marked on the grips, company logo was the letter "S".

Model

- model marked on the top strap of the receiver/frame.
- may be marked in three lines: "Pat Apr 05, 10", "Baby Hammerless", and "Model 1916".
- this is a solid frame revolver with fixed cylinder and no ejector, concealed hammer, double action trigger mechanism, folding trigger, and black grip plates.

Manufacturer

- "R.F. Sedgley & Company" was a manufacturer located in Philadelphia, Pennsylvania, USA from 1930 to 1938.
- "R.F. Sedgley" was a partner in the "Henry Kolb & Company" from 1912 to 1930, he succeeded Henry Kolb in the manufacture of miniature revolvers of the European "Puppy" type.

Serial Number

- the serial number is located under the grip plate on the right side of the back strap.

Other Markings

- observed markings in three lines: "PAT.4.5.10-2.13.17" over "BABY HAMMERLESS" over "MODEL 1916"

Remarks

- the "Baby Hammerless" and the "New Baby" models were the smallest American double action revolver, originally produced under the patents of Charles Foehl and Charles Weeks. These firearms were manufactured by the:
- "Columbian Firearms Manufacturing Company" between 1896 and 1897,
- "Henry Kolb & Company" which consisted of the partners "Henry M. Kolb & Charles Foehl" between 1897 and 1912, and "Henry M. Kolb & Reginald F. Sedgley" between 1912 and 1930, and
- "R. F. Sedgley & Company" from 1930 to 1938.

All of these manufacturers were located in Philadelphia, Pennsylvania.

Notes

Make	- "R.F. Sedgley Inc. Phila, PA USA" may be marked on top of the barrel.
Model	- "Mannlicher Style Sporter" is not marked on the firearm. - the " Mannlicher Style Sporter" rifles were built, pre-World War II, on reclaimed military "low numbered" 1903 Springfield receiver/frames, which were annealed, the markings removed, and reheat-treated; barrels were typically by Winchester. - the checkered pistol-gripped full-length (extends to the muzzle) Mannlicher style stock was of plain or fancy imported walnut with steel nose-capped forend, with or without raised cheek-piece, checkered steel buttplate, rubber pistolgrip cap, and a blued barrel-band that passed through the forend an served as a sling-swivel stud. - a "Springfield Sporter" also exists that features a traditional style sporting stock. - matted ramp hooded blade with gold or ivory bead front-sight, receiver mounted Lyman No. 48 micrometer adjustable aperture rear-sight. - the polished receiver was matted on top of the front ring, and bright blued along with the barrel.
Manufacturer	- "R.F. Sedgley Inc. Phila, PA USA" may be marked on top of the barrel.
Action	- remanufactured 1903 Springfield receiver/frames to short right-handed actions (reduced length one inch/26MM)) for short cartridges. - also remanufactured 1903 Springfield receiver/frames for left handed use.
Serial Number	- the firearm may, or may not have serial numbers. - the serial number may be marked on the front receiver ring.
Calibre	- marked on the breech-end of the barrel, example: CAL 30'06" - made in many other calibers upon request.
Shots	- integral non-detachable box magazine.
Remarks	- "low numbered" 1903 Springfield receiver/frames are: the first 800,000 by Springfield Armory, and 285,507 Rock Island Arsenals.

Notes

Make

- "O. SEELIG, WIESBADEN" or similar is usually marked on the firearm.
- Otto Seelig was a gunmaker/dealer based in Wiesbaden, Germany (west of Frankfurt) from the 1890s until the Second World War; he was known for making higher-end sporting rifles, shotguns and combination guns, and was appointed a "Hofbuchsenmacher" ("Royal Gun Supplier") for producing guns for the royal family of Denmark.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a side by side shotgun manufactured by Otto Seelig in a range of finishes and options.
- features may include: blued barrels; sidelock or boxlock configuration; bead sights; checkered walnut forearm and straight- or pistol-grip buttstock; blued, coin-finished, or colour-case-hardened receiver; double triggers; top-lever; tang safety; and rubber buttpad.

Manufacturer

- "O. SEELIG, WIESBADEN" or similar is usually marked on the firearm.
- Otto Seelig was a gunmaker/dealer based in Wiesbaden, Germany (west of Frankfurt) from the 1890s until the Second World War; he was known for making higher-end sporting rifles, shotguns and combination guns, and was appointed a "Hofbuchsenmacher" ("Royal Gun Supplier") for producing guns for the royal family of Denmark.

Action

- side by side configuration.

Serial Number

- serial-numbered on the receiver/frame.

Barrel

- barrel lengths may vary.

Calibre

- gauges may vary.

Notes

Make

- "SENECA ASPEN" is marked on the left side of the receiver/frame.
- "Seneca" is a trade mark used by Air Venturi since 2016.

Model

- "SENECA ASPEN" is marked on the left side of the receiver/frame.
- "ASPEN" is marked on both side of the stock.
- "Aspen" is a pre-charged pneumatic (PCP) design with built in pump.
- features include: no sights; round, rifled, and fully shrouded barrel; grooved receiver/frame for scope; right side of the receiver/frame cocking lever; manual safety button on the right side of the receiver/frame; firearm pressure adjusting knob on the left side of the receiver/frame; air tank reservoir under the barrel; one piece synthetic stock with a pump lever handle; and black finish.
- overall length with a 457mm (18") barrel is 1100mm (43.3") average weight is 3.63kg (8lbs).

Action

- pre-charged pneumatic (PCP) design with built in pump.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Shots

- removable rotary magazine.
- single pellet tray also available.

Canadian Law Comments

- this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.
- if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Other Markings

- "MADE IN CHINA" is marked on the left side of the receiver/frame.

197924 - 2	50 SHOT	2	531	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SENECA" is marked on the right side of the receiver/frame.
- Trade name used by "Air Venturi" & "Sam Yang Precision Ind. Co.".

Model

- "DOUBLE SHOT" over "SHOTGUN" is marked on the side of the receiver/frame.
- The letter "O" in "Double Shot" are replaced by reticle images and look like standard sights.
- This is a versatile model which accepts multiple calibre variations based on hunter or competition needs. This firearm accepts the .50 Cal Pellet, the .50 Cal Shot (plastic container holding either #6 or #8 shot pellets), and the .50 Cal "Air Bolt" (arrow).
- Features include: double shot selector toggle to switch barrel choice from left or right; aluminum steel receiver/frame with right side cocking handle; safety toggle at the rear of the trigger guard; smooth, straight wood shoulder stock with smooth matching forend.
- Overall length with a 531 mm (20.9 inches) barrel is 1104.9 mm (43.5 inches), average weight is 3.88 kg (8.55 lbs).

Manufacturer

- "Made in Kores, SYC" is marked on the right side of the receiver/frame.
- Sam Yang Precision Inc. Co. is located in Korea.

Type

- This firearm offers the option to fire a .50 cal slug, .50 cal Air Bolt (arrow) or shot shells filled with lead shot sized #6 or #8.

Action

- Pre charged pneumatic.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- Observed serial number consisted of the following configuration: seven (7) numbers without letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- The calibre designation is usually marked on the barrel.
Canadian Law Comments	- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "SENSIED" is marked on the right side of the receiver/frame.
- "SENSIED" stands for "Sensied Consulting".
- "SENSIED" is a distributor located in Switzerland.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "S&F" in a logo form and "mod, K1" is marked on the right side of the receiver/frame. - "K1" is usually in a short barreled, pump action with folding stock configuration. - "K1" is built on a Fabarm Ergal 55 receiver/frame. - features include: blued, tapered, round, smooth bore barrel with accessory rail; elevated front sight bracket with protective ears; grooved, full length forend with two action bars and accessory rail; aluminum alloy receiver/frame; accessory railed receiver/frame; right side ejection port; action unlocking lever on the left side ahead of the trigger guard; ambidextrous, triangular shaped cross bolt safety located at the rear of the trigger guard; black synthetic furniture; pistol grip; side folding stock with interchangeable recoil pad; black or coloured finish. - overall length with a 280mm (11") barrel is 535mm (21") with the stock collapsed.
Manufacturer	- "FABARM may not be marked. - "MADE IN ITALY" is usually marked on the left side of the receiver/frame.
Serial Number	- serial number is marked on the right side of the receiver/frame. - serial number of a referenced example consisted of two letters and six numbers.
Calibre	- calibre designation is marked on the barrel.
Shots	- tubular magazine mounted under the barrel.
Canadian Law Comments	- this firearm is normally Non-Restricted unless affected by the following conditions: 1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada. - "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands. 2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "Seraphim Armoury Incorporated" is located in Abbotsford, British Columbia, Canada.

Model

- "STORM T1" is marked on the right side of the receiver/frame.
- "STORM T1" is a magazine tube feed, tactical series pump action shotgun.
- "STORM T1" was introduced in 2016.
- features include: short round tapered barrel with fixed blade front sight; shield with elongated holes covering the top of the barrel; scope rail mounted on top of the receiver/frame; right side ejection port; action unlocking lever on the left side ahead of the trigger guard; cross bolt safety located at the rear of the trigger guard; ribbed full length forend with a accessory rail; black synthetic furniture; collapsible or fixed stock with pistol grip; black finish.
- overall length with a 229mm (9") barrel is 680mm (26.75") with the stock collapsed.

Manufacturer

- M&U Silah was established in 1994.
- M&U Silah is located in Beysehir, Konya, Turkey.
- M&U Silah manufactures shotguns, airguns, and blank pistols.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number consisted of a two letter prefix "ST" followed by six numbers.

Calibre

- calibre designation is usually marked on the barrel.

Shots

- tubular magazine, located under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "F.lli SERENA" is marked on a plate on the left side of the receiver/frame.

Model

- model designation is not marked on the firearm.
- "MOD. DEPOSITATO" is marked on a plate on the left side of the receiver/frame which when translated means "Registered Trademark".
- this is a single-shot sliding breech shotgun pistol with a screw-on/off detachable shoulder stock; fixed sights, die cast aluminium grip frame and a sliding breech mechanism that cocks the hammer as it is opened.
- this series of shotgun pistols have a cross-bolt breech locking mechanism that has to be pressed in from the left to open the action; as the breech reaches its furthest rearward travel, an automatic ejector pops up to eject the empty shell.

Manufacturer

- "F.lli SERENA" is marked on a plate on the left side of the receiver/frame.

Other Markings

- marked on the left side of the receiver/frame:
F.LLI SERENA
BRESCIA - ITALY
BREVETTATO - MOD. DEPOSITATO

Notes

Make

- "S.G.W." is marked on the left side of the receiver/frame.
- "S.G.W." is the abbreviation for "Schuetzen Gun Works".
- Schuetzen Gun Works was Olympic Arms' in-house "custom shop" during the 1980s; in 1990, Olympic Arms changed their receiver markings to the current "standing lion" marking, with no reference to SGW.

Model

- "MOD. CAR-AR" is marked on the left side of the magazine housing of the receiver/frame.
- "CAR15 AR" is of the design commonly known as the AR-15/M-16 rifle.
- "CAR15 AR" has a two piece receiver/frame.
- features may include: adjustable front sights; fixed carrying handle with adjustable rear sight; round barrel with flash hider/muzzle brake; AR15 style lower receiver/frame with an integral magazine well housing; synthetic forearm, pistol grip and a telescoping buttstock, black finish.
- this record is ONLY for "CAR15 AR"/"CAR-AR" rifles made at Olympic Arms' in-house custom division, known as "Schuetzen Gun Works"/"SGW", which bear "SGW" markings. Rifles made since circa 1990 will have Olympic Arms' Gothic "standing lion" crest on the magazine well.

Manufacturer

- "OLYMPIC ARMS" over "OLY WA USA" is marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the magazine housing of the receiver/frame.
- observed serial number consisted of a letter "Z" prefix and four numbers.

Calibre

- "CAL. 223 5.56" is marked on the left side of the magazine housing of the receiver/frame.

Shots

- detachable box magazine.

Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197871 - 1	50 FLINTLOCK	1	38	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SHARMAN" is marked on the left side of the receiver/frame.

Model

- The model designation is not marked on the firearm.
- This is a single shot, screwbarrel pistol that is intended to be loaded from the breech end of the barrel and as such was originally supplied with a wrench to unscrew the barrel from the receiver/frame so that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- Features include: screw-on barrel with underlug for wrench; box lock action with top-mounted frizzen and cock; safety located behind the hammer; folding trigger; walnut bag grip.

Manufacturer

- "SHARMAN" is marked on the left side of the receiver/frame.
- "PETERBRO" is marked on the right side of the receiver/frame.
- "John Sharman" was located in Peterborough, Northants in Great Britain circa 1783--98.

Serial Number

- The serial number is not marked on the firearm.

Calibre

- The calibre designation is not marked on the firearm.

Other Markings

- Birmingham proof marks are marked on the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 63242
Make: Sharps
Model: 1849

Summary

Make:	Sharps
Model:	1849
Manufacturer:	Nippes, A S
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
63242 - 1	36 PERCUSSION	1	762	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	
63242 - 2	44 PERCUSSION	1	762	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	

Notes

Make

- the make is not marked on the firearm; this is first model of breechloading percussion single shot rifle designed by Christian Sharps.

Model

- about 100 made circa 1850.
- marked "A.S. Nippes Mill Creek PA"
- this was the first rifle that Christian Sharps ever designed, though he had the actual rifles built for him by A.S. Nippes, of Mill Creek, Pennsylvania.
- sporting rifles for commercial sale were made in 36 PERCUSSION and 44 PERCUSSION, with unspecified barrel lengths (likely around 30"/762mm)
- colour-case-hardened receiver/frame, hammer, and sideplate, with brass buttplate, nosecap, and patchbox, blued barrel, and walnut stock and forearm; the buttstock on this model has a straight grip, but with an unusual "curve" in the wrist to bring the stock to the horizontal.
- this model has two main features that set it apart from later Sharps designs; an operating lever that is separate from the trigger guard, and an integral automatic priming mechanism attached to the right side of the receiver/frame. This automatic capper has a pivoting brass plate that can be swung up to load the mechanism with percussion caps, and it advances a cap to the firing position each time the rifle is cocked.

Manufacturer

- A.S. Nippes was a manufacturer based in Mill Creek, Pennsylvania, that specialized in manufacturing sporting long arms during the early-to-mid 1800s. They are best known for manufacturing two of Christian Sharps' (the inventor of the Sharps rifle) earliest designs.

Action

- lever operated falling (dropping) block design.
- percussion breechloader.

Serial Number

- numbered on receiver, from #1 up. Likely less than 100 examples produced.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel - other barrel lengths likely.

Notes

Make

- "Sharps Patent 1848" is marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Sharps Patent 1848" is marked on the receiver/frame, "Maynard Patent 1845" is marked on the tape-priming cover, and "Manufactured by A.S. Nippes, Mill Creek, PA" on the barrel or side lock. - manufactured between 1850 and 1856. - this was the second rifle that Christian Sharps designed (a modification of the first, intended to be used with Maynard tape priming), though he had the actual rifles built for him by A.S. Nippes, of Mill Creek, Pennsylvania. - features include: octagonal or round/octagonal barrel; colour case-hardened receiver/frame; exposed side mounted hammer; curved, back-action lockplate; iron buttplate; primer patchbox; brass nosecap; blued barrel; walnut forearm and straight grip stock. - Note: this model has two main features that set it apart from later Sharps designs; an operating lever that is separate from the trigger guard, and an integral Maynard priming mechanism attached to the right side of the receiver. This held something similar to a roll of cap-gun caps, which was automatically advanced each time the hammer was cocked for the next shot. When the hammer struck one of these caps or "tape primers", the flash of the cap went through a modified nipple to fire the main charge.
Manufacturer	- "Manufactured by A.S. Nippes, Mill Creek, PA" is marked on the barrel or side lock. - "A.S. Nippes" was a manufacturer based in Mill Creek, Pennsylvania, that specialized in manufacturing sporting long arms during the early-to-mid 1800s and were best known for manufacturing two of Christian Sharps' (the inventor of the Sharps rifle) earliest designs.
Action	- lever operated falling (dropping) block design. - percussion breechloader.
Serial Number	- serial number is located on the receiver/frame. - serial number range from 1 to 200.

Notes

Make

- "Sharps Patent 1848" is marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Sharps Patent 1848" is marked on the receiver/frame, "Maynard Patent 1845" is marked on the tape-priming cover, and "WM. ROBERTSON" and "GEO. W. SIMPSON" and "PATENT 1856" is marked on the front face of the breech block. - manufactured 1856. - features include: octagonal or round/octagonal barrel; colour case-hardened receiver/frame; exposed side mounted hammer; sideplate; iron buttplate; primer patchbox; brass nosecap; blued barrel; walnut forearm and straight grip stock. - Note: this model has two main features that set it apart from later Sharps designs; an operating lever that is separate from the trigger-guard, and an integral Maynard priming mechanism attached to the right side of the receiver/frame. This held something similar to a roll of cap-gun caps, which was automatically advanced each time the hammer was cocked for the next shot. When the hammer struck one of these caps or "tape primers", the flash of the cap went through a modified nipple to ignite the main charge.
Manufacturer	- "WM. ROBERTSON" and "GEO. W. SIMPSON" is marked on the front face of the breech block. - "Robertson & Simpson" were located in Hartford, Connecticut, U.S.A.
Action	- lever operated falling (dropping) block design. - percussion breechloader.
Serial Number	- serial numbered located on the receiver/frame. - serial number range from 1 to 200.

Notes

Make	- "C.SHARPS" may be marked on the tang of the receiver/frame.
Model	- model designation is not marked on the firearm. - manufactured between 1852 and 1855. - total production 1,857 units. - "C.SHARPS" "PATENT" "1848" may be marked on the receiver tang; "EDWARD MAYARD" "PATENTEE" "1845" may be marked on the primer door, and "ROBBINS" "&" "LAWRENCE" may be marked on the barrel. - features include: blued round or octagoanl barrel; exposed hammer; colour case hardened receiver/frame, hammer, and sideplate; brass buttplate and barrel band; straight walnut stock and forearm. - this was the third rifle that Christian Sharps designed, and the first to use a combination action lever/trigger guard. These rifles strongly resemble a Spencer Repeating Carbine, but without the pronounced "hump" at the bottom of the receiver/frame. - these rifles were made in both military and sporting versions. - this model has an integral Maynard priming mechanism attached to the right side of the receiver/frame. This held something similar to a roll of cap-gun caps, which was automatically advanced each time the hammer was cocked for the next shot. When the hammer struck one of these caps or "tape primers", the flash of the cap went through a modified nipple to fire the main charge.
Manufacturer	- manufacturer is marked on the firearm. - "Robbins & Lawrence" was located in Windsor, Vermont from 1850 to 1856. - the company was originally known as "Robbins, Kendall & Lawrence" from 1844 to 1849.
Action	- lever operated falling (dropping) block design. - percussion breechloader.
Serial Number	- serial numbered is located on the tang of receiverframe. - serial number range is from 1 to 1857.

Notes

Make

- "C. SHARPS PATENT 1848" is marked on the tang of the receiver/frame, and "C. SHARPS PATENT 1852" or "SHARPS' PATENT 1852" is marked on the lockplate.

Model

- "C. SHARPS PATENT 1852" or "SHARPS' PATENT 1852" is marked on the lockplate.
- manufactured between 1853 and 1855.
- this is the first production model of Christian Sharp's "slant-breech" percussion single-shot rifles, with a falling-block mechanism that has a marked rear-ward slant.
- versions of this rifle were made for both military and commercial sales, and the military versions will normally bear "US" property marks and inspector's stamps; additionally, some of these rifles saw British service, and may be seen with British proofs and property marks.
- sporting rifles for commercial sale were made in 36, 44, and 52 PERCUSSION.
-most of the US-issue carbines will have a sliding sling ring on a bar mounted on the left side of the piece, running from the breech to the barrel band.
- features include: case-hardened receiver/frame, hammer, and sideplate; with brass buttplate, barrel band, and patchbox; blued, round or octagonal barrel; walnut straight-grip stock and forearm.
- this model can also be identified by the presence of a bar-like retaining spring on the right side of the carbine, in the forearm and pointing back towards the receiver. This spring keeps the operating lever in place, but later versions of the Sharps rifles used internal springs to do the same thing.

Manufacturer

- "ROBBIN & LAWRENCE" is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- lever operated falling (dropping) block design. - percussion breechloader.
Serial Number	- serial numbered is marked on the tang of the receiver/frame. - serial numbered range between 2,041 and 7,500.
Barrel	- barrel lengths were available from 457mm to 991mm, the most common lengths were 457mm, 533mm, 686mm, 711mm, 762mm, and 813mm.
Calibre	- caliber may also be known as 32 bore = 52 PERCUSSION, 60 bore = 44 PERCUSSION, and 90 bore = 36 PERCUSSION.

Notes

Make

- "C. SHARPS PATENT 1848" is marked on the tang of the receiver/frame, and "C. SHARPS PATENT 1852" or "SHARPS' PATENT 1852" is marked on the lockplate.

Model

- "C. SHARPS PATENT 1852" or "SHARPS' PATENT 1852" is marked on the lockplate.
- manufactured between 1853 and 1855.
- this is the first production model of Christian Sharp's "slant-breech" percussion single-shot rifles, with a falling block mechanism that has a marked rear ward slant
- versions of this rifle were made for both military and commercial sales, and the military versions will normally bear "US" property marks and inspector's stamps; additionally, some of these rifles saw British service, and may be seen with British proofs and property marks
- sporting rifles for commercial sale were made in 36, 44, and 52 percussion.
- most of the US issue carbines will have a sliding sling ring on a bar mounted on the left side of the piece, running from the breech to the barrel band.
- colour case hardened receiver/frame, hammer, and sideplate, with brass buttplate, barrel band, and patchbox, blued barrel, walnut straight grip stock and forearm.
- this model can also be identified by the presence of a bar like retaining spring on the right side of the carbine, in the forearm and pointing back towards the receiver/frame. This spring keeps the operating lever in place, but later versions of the Sharps rifles used internal springs to do the same thing.

Manufacturer

- "SHARP'S RIFLE MANUFG. CO. HARTFORD, CONN." or "SHARP'S MANUFG. CO. HARTFORD, CONN." is marked on the barrel.
- though these rifles are marked as being made by the Sharps Rifle Manufacturing Company in Hartford, Connecticut, they were actually produced on contract by Robbins and Lawrence, of Windsor, Vermont.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- lever operated falling (dropping) block design. - percussion breechloader.
Serial Number	- numbered on the tang of the receiver/frame; numbered between approximately 2050 and 7500.

Notes

Make

- "Sharps" or "Sharp's" is marked on the barrel, on the tang or left side of the receiver/frame and on the lockplate.

Model

- "Sharps Rifle Manufg. Co. Hartford, Conn" is marked on the barrel, "C.Sharps Patent 1848" or "Sharps Patent 1848" is marked on the tang or left side of the receiver/frame and "Sharp's Patent 1852" or "Sharps Patent 1852" is marked on the lockplate.
- manufactured from 1854 to 1856.
- this is the second production model of Christian Sharp's "slant-breech" percussion single-shot rifles, with a falling block mechanism that has a marked rear ward slant; this is also the first model of the Sharps rifle actually produced by the Sharps Rifle Manufacturing Company.
- versions of this rifle were made for both military and commercial sales and the military versions will normally bear "US" property marks and inspector's stamps
- most of the US issue carbines will have a sliding sling ring on a bar mounted on the left side, while sporting variations and military rifles will not; military rifles were fitted with a bayonet retaining lug on the bottom of the barrel.
- features include: colour case hardened receiver/frame, hammer and sideplate, with brass or iron buttplate, barrel band, and patchbox, blued octagonal or round or half round & half octagonal barrel, walnut straight grip stock and forearm.
- the primary difference between the model 1853 and the model 1852 is the lever retaining spring, at the right front of the receiver/frame. Where the 1852 uses a bar like spring anchored into the forearm and extending back towards the receiver/frame, the model 1853 uses a spring-loaded stud in the receiver/frame itself. This prevents an arm on the hinge pin from spinning forward to the disassembly position.

Manufacturer

- manufacturer's name is not marked on the firearm.
- "Sharps Rifle Manufg. Co. Hartford, Conn." is marked on the firearm.
- "Robbins & Lawrence" of Windsor, Vermont produced the model "1853" for "Sharps" from 1854 to 1856.
- "Sharps Rifle Company" produced the model "1853" from 1856 to 1857.

Action

- lever operated falling (dropping) block design.
- percussion breechloader.

Serial Number

- serial numbered is located on the tang of the receiver/frame.
- serial numbered range is from 8,000 to 27,500.

Model	- this was the final production model of Christian Sharp's "slant-breech" percussion single-shot rifles. - made in both rifle and carbine versions. - featured a falling-block mechanism that has a marked rear-ward slant, these rifles were also fitted with the Maynard tape-priming system. - versions of this rifle were made for both military and commercial sales, the military versions will normally bear "US" property marks and inspector's stamps. - marked "Sharps Rifle Manufg. Co. Hartford, Conn" on the barrel, "Sharps Patent 1848" on the tang, and "Edward Maynard Patentee 1845" on the priming-feed cover -most of the carbines will have a sliding sling ring on a bar mounted on the left side, while sporting variations and military rifles won't, military rifles were fitted with a bayonet-retaining lug on the bottom of the barrel. - some of the early-production carbines were sold to the British government, and these may bear British proofs, property marks, and regimental numbers. - color case hardened receiver, hammer, and sideplate, with brass or iron buttplate, barrel band, and patchbox, blued barrel, walnut straight-grip stock and forearm. - the model 1855 uses a spring-loaded stud in the receiver to prevent an arm on the operating lever from spinning forward to the disassembly position.
Manufacturer	- marked on the firearm, these firearms were produced circa 1855 to 1857.
Action	- lever operated falling (dropping) block design. - percussion breechloader.
Serial Number	- numbered on the tang of the receiver, range is between approximately 17000 and 29000.

59416 - 1	22 SHORT	4	64	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- marked on left side of receiver.

Model

- model description does not apear on firearm, what is marked is the patent date (C Sharps Patent 1859) marked on the side of the receiver encircling the hammer screw or on the barrel.
- forward sliding barrels for loading and ejecting.
- brass frame, usually silver-plated.
- single action with a rotating firing pin.
- Approximately 100,000 were manufactured between 1859 and 1874.
- known as the 1859 Model 2 when found in calibre 30 RF.
- known as the 1859 Model 3 when found in calibre 32 SHORT RF.
- known as the 1859 Model 4 when found in calibre 32 LONG RF.

Manufacturer

- Sharps & Hankins was formed in 1862 by a merger of the C. Sharps & Company group with William C. Hankins.
- This arrangement lasted until 1867 when this company was dissolved and the firm once again became C. Sharps & Company.
- It appears that only Model 3s were produced by Sharps & Hankins.

Action

- four barrel, (two sets of superposed barrels) four shot handgun fired by a rotating firing-pin.

Serial Number

- located on the bottom of the butt between the grips and may be repeated on the underside of the barrels.
- serial numbers range from 1 to approximately 60,000.

Notes

Make

- marked on left side of receiver/frame.

Model

- model designation does not appear on firearm, what is marked is the patent date (C Sharps Patent 1859) marked on the receiver/frame, encircling the hammer screw.
- manufactured between 1859 and 1874.
- approximately 37,000 were produced.
- features include, bead front and grooved rear sight; squared four barrel cluster; spur trigger; single action with a rotating hammer nose; brass receiver/frame with a push button barrel release allowing the barrels to slide forward; flat bottomed, scroll or floral synthetic grips; blued finish.

Manufacturer

- manufacturer not marked on the firearm.
- Sharps & Hankins was formed in 1862 by a merger of the C. Sharps & Company group with William C. Hankins.
- this arrangement lasted until 1867 when this company was dissolved and the firm once again became C. Sharps & Company.
- it appears that only Model 3s were produced by Sharps & Hankins.

Action

- four barrel, (two sets of superposed barrels) four shot handgun fired by a rotating firing-pin.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - numeric serial number located on the bottom of the butt between the grips.

Notes

Make

- "C. Sharps' Pat" may be marked on both sides of the receiver/frame.
- "Sharps Rifle" may be marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "New Model 1859" is marked on the top of the barrel. - this was one of the first three models of "straight-breech" rifles that the Sharps Rifle Company produced, and were so successful that many were later converted to metallic-cartridge chamberings (previous versions were all "slant-breech" percussion models, meant for use with paper cartridges). - the Models 1859, 1863, and 1865 are all identical except for their barrel markings; the Model 1859 reads "New Model 1859" and "Sharps Rifle Manufg. Co. Hartford, Conn." on the barrel, with "C. Sharps' Pat./Sept. 12th 1848" and "C. Sharps' Pat./Oct. 5th 1852" and "R.S. Lawrence Pat./April 12th 1859" on the side of the receiver/frame. Various other patent dates may also be seen elsewhere on the firearm. - these firearms were manufactured in both rifle and carbine versions, and most of the carbine versions will have a sliding sling ring on a bar mounted on the left wrist. Certain very rare examples may also be seen with a coffee grinding mill built into the buttstock, and some were originally fitted with a patchbox (some patchboxes removed when these rifles were later converted to metallic cartridge). - features include: color case hardened receiver, hammer, and sideplate; with brass or iron stock fittings; blued barrel; walnut straight-grip stock and forearm (forearm with either one or three barrel bands); some examples may be found with double set triggers; some military rifles will have bayonet lugs (other military versions used socket bayonets). - this rifle is also noteworthy for having spawned the term "sharpshooter", as two regiments of Hiram Berdan's famed marksmen were armed with these rifles during the Civil War.
Manufacturer	- "Sharps Rifle" and "Manufg Co" and "Hartford Conn" may be marked on the barrel.
Action	- lever operated falling (dropping) block design. - percussion breechloader, many of these firearms were later converted to fire metallic cartridge.
Serial Number	- serial number range is from 30,000 to 75,000 with the possibility of overlap with the New Model 1863 model (numbered from 75,000 to 140,000)
Calibre	- some of these rifles were re-lined to accept 50-70 Govt (centerfire) ammunition (.50" bore), while the original bore diameter was .52"; additionally, many of these rifles were privately converted to large-bore sporting rifles after the Civil War.

- "R.S.Lawrence Pat./April 12th 1859" and "C.Sharps' Pat./Oct. 5th 1852" is marked on the left side of the receiver/frame.

Model

- the model name is not marked on the firearm.
- this rifle is a Springfield Armory alteration to the Sharps straight breech percussion models.
- also know as the Model 1870 Springfield Altered Sharps Rifle and Carbine.
- Springfield Armory also modified the Sharps 1874 Military Rifle, this was not only a conversion from percussion to centre fire but also included newly manufactured parts with subsequent assembly by Springfield Armory.
- modified circa 1870.
- approximately 1000 pieces were altered.
- features include: a Walnut stock with full length forend with two barrel bands (instead of the three bands used on the Sharps Military Rifle); case hardened breechblock, lock, lever, trigger plate and lever catch; barrel, barrel bands, buttplate and ramrod were left in the white; iron ramrod located under the barrel.
- buttplate will be marked with the letters "US".

Manufacturer

- "Springfield" and/or "Springfield Armory" and/or "U.S. Springfield" and/or "U.S. Springfield Armory" is not marked on the firearm.

Action

- lever operated falling (dropping) block design.

Serial Number

- serial number is usually marked on the upper tang of the breech.

FRT Report

Firearm Reference Number (FRN): 89578
Make: Sharps
Model: 1874 Sporting Rifle

Summary

Make:	Sharps
Model:	1874 Sporting Rifle
Manufacturer:	Sharps Rifle Manufacturing Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
89578 - 1	44-77 SHARPS & REMINGTON	1	546	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	
89578 - 2	45-70 GOVT	1	546	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "C. Sharps' Pat" and "Sept 12th 1848" or "Sharps' Rifle Co." and "Pat. Apr 6, 1869" may be marked on the receiver/frame.

Model

- model designation is not marked on the firearm.
- manufactured from 1871 to 1880.
- features will vary and usually include: external side hammer; round, half round or octagonal barrel; single or double trigger; adjustable sights.
- approximately 6,500 units were manufactured.

Manufacturer

- "Sharps Rifle Manufg. Co. Hartford, Conn." or "Sharps Rifle Co Hartford, Conn." or "Sharps Rifle Co Bridgeport, Conn" may be marked on the barrel. In April of 1876 the company trademark "Old Reliable" was marked on the barrel.

Action

- lever operated falling (dropping) block design.

Serial Number

- normally marked on the receiver/frame and the barrel, stock and forend in full with the last four digits being marked on the extractor, lockplate, trigger plate, and butt plate.
- serial numbers may include a "C" prefix.

Barrel

- barrels were available from 546mm (21.5") to 914mm (36").

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre is usually marked on the barrel.
- in the 1874 Sporting model, all calibres were available with the common being 44-77 Sharps & Remington and the 45-70 Goverment.

Remarks

- the Sharps Rifle Company made the 1874 Sharps Rifle in the following 9 models:
- 1874 Military Rifle.
- 1874 Sporting Rifle.
- 1874 Creedmoor Rifle.
- 1874 Long Range Rifle.
- 1874 Mid Range Rifle.
- 1874 Schuetzen Rifle.
- 1874 Business Rifle.
- 1874 Hunters Rifle.
- 1874 Express Rifle.

Notes

Make

- "Sharps" is a trade/brand name.
- "C. Sharps Arms Co. Inc." is marked on the firearm.
- "Old Reliable" is a registered trademark of C. Sharps Arms Co., Inc.

Model

- model designation is not marked on the firearm.
- "Sharps Model 1875" was reintroduced by the "C. Sharps Arms Company Incorporated" in 1986.
- "Old Reliable" may be marked on the barrel.
- "Old Reliable" is a registered trademark of C. Sharps Arms Co., Inc.
- features: full octagon or tapered round or octagon barrel; exposed side hammer; straight or pistol grip butt stock; globe or blade front sight and vernier or buckhorn rear sight.

Manufacturer

- "C. Sharps Arms Co. Inc." and "Big Timber Mt, USA" are marked on the firearm.
- C. Sharps Arms Company Incorporated of Big Timber, Montana, U.S.A. has been manufacturing rifles since 1986.

Action

- lever operated falling (dropping) block design.

Serial Number

- examples have been observed with a five digit serial number without prefix or suffix.
- examples have been observed with "75" prefix, a ddash "-" and four digit serial number.

Calibre

- calibre is marked on the barrel: eg. "Cal. 45 2 7/8"

Notes

Make

-"Sharp's Rifle Co." and "Pat. Apr. 6,1869" and/or "C.Sharps Pat." and "Sept. 12th 1848" may be marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is not marked on the firearm. - manufactured from 1877 to 1880. - this is a late production Sharps rifle made specifically for target shooting, either "Schuetzen" style (off-hand, with a hooked buttplate and off-hand palm-rest), or from the "Creedmoor" position (where the shooter lays on his/her back and steadies the rifle against the knee or thigh) - these rifles were made with a specially lightened receiver/frame and thinner wedge than most Sharps; this allowed extra weight to be put into a longer and heavier barrel, yet still fit the rules for a Creedmoor rifle. They also have a back-action lock, where the hammer sits further back on the sideplate than on all other Sharps. - as these were target rifles, most of them left the factory with long-range sights (mounted on the tang or the comb of the buttstock), and most of them would have had finely checkered pistol-grip stocks and forearms - features include: colour case-hardened receiver/frame, hammer, and sideplate (seen with or without additional engraving, precious metals, etc.); blued round or octagonal barrel; some examples with double set triggers.
Manufacturer	- "Old Reliable Sharp's Rifle Co. Bridgeport, Conn." or "Sharps Rifle Co. Bridgeport, Conn. Old Reliable" is marked on the barrel.
Action	- lever operated falling (dropping) block design.
Serial Number	- numbered on receiver; rifles may have a "C" prefix, indicating that they were manufactured after serial #100000. Additionally, Sharps re-numbered previously-existing actions for sale to specific distributors; one of these, J.P. Lower of Denver, Colorado, had an entire run of rifles re-numbered with the prefix "D".
Barrel	- the barrel lengths were originally between 28"/711mm and 34"/863mm.
Calibre	- these rifles were originally chambered in various .40 and .45-caliber chambering of varying case lengths.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "SHARPS RIFLE CO. BRIDGEPORT CONN." over "U.S.A." is marked on the left side of the receiver/frame.
Model	- model designation is not marked on the firearm. - "BORCHARDT PATENT" over "SHARPS RIFLE CO. BRIDGEPORT, CONN." over "U.S.A." is marked on the on left side of receiver/frame. - "OLD RELIABLE" and "SHARPS RIFLE CO. BRIDGEPORT CONN" are marked on top of the barrel. - manufactured from 1877 and 1881. - this is a falling-block, single-shot rifle made in sporting, commercial hunting, and military versions (approximately 8700 total production) - based on Hugo Borchardt's patent of 1876, these rifles were built under licence by the Sharps Rifle Company. - these rifles can be seen with either straight-grip (all military versions, and most less-expensive hunting versions) or pistol-grip stocks, and all but the military versions had schnabel forearm tips. - depending on the grade, these rifles were manufactured with both plain colour case-hardened and fully-engraved (some with precious-metal inlays) receiver/frames, and various sight and barrel configurations (fixed or adjustable sights, long-range tang sights, round or octagon barrel) and other options. - these rifles have what appears to be two triggers, but the rear "trigger" is actually a sliding trigger-block safety (some of these rifles, however, were actually fitted with a set-trigger mechanism).
Manufacturer	- "SHARPS RIFLE CO. BRIDGEPORT CONN." over "U.S.A." is marked on the left side of receiver/frame. - "OLD RELIABLE" and "SHARPS RIFLE CO. BRIDGEPORT CONN" are marked on top of the barrel.
Action	- lever operated falling (dropping) block design.
Serial Number	- numbered on bottom of the barrel and the receiver/frame.
Barrel	- these rifles were manufactured with barrels ranging in length from 21"/533mm to 36"/914mm, and could be ordered in non-standard custom lengths.
Calibre	- these rifles were chambered in a wide variety of cartridges, including; 40-65 WIN, 40-90 SHARPS STRAIGHT and NECKED, 45-70 GOVT, 45-100 SHARPS STRAIGHT, 40-70 SHARPS STRAIGHT and NECKED, 44-77 SHARPS, 40-50 SHARPS STRAIGHT and NECKED, 40-45 SHARPS STRAIGHT.

Notes

Make

- "Sharps" is a trade/brand name.
- "C. Sharps Arms Co. Inc." is marked on the firearm.
- "Old Reliable" is a registered trademark of C. Sharps Arms Co., Inc.

Model

- introduced in 2000.
- model designation is marked on the firearm as part of the serial number. The first two digits, "85", indicates the Model 1885.
- this model resembles the Winchester model 1885.
- "Old Reliable" may be marked on the barrel.
- "Old Reliable" is a registered trademark of C. Sharps Arms Co., Inc.
- features include: case hardened or stainless steel receiver/frame and butt plate, tapered full octagon barrel, exposed hammer, the front sight may be a globe sight or a fixed sight, the rear sight may be an adjustable sight located on the barrel or a vernier adjustable sight located on the butt stock, straight or pistol grip walnut stock and forend.
- this rifle can be custom ordered so one firearm may vary from the next. When the rifle has been customized it may be called the " Custom Model 1885 ".

Manufacturer

- "C. Sharps Arms Co. Inc." and "Big Timber Mt, USA" are marked on the firearm.
- C. Sharps Arms Company Incorporated of Big Timber, Montana, U.S.A. has been manufacturing rifles since 1986.

Action

- lever operated falling (dropping) block design.

Serial Number

- the first two digits in the serial number indicate the model designation, followed by the serial number. Example 8500000.

Calibre

- marked on the barrel.

Notes

Make

- "Sharps Arms Company" over "Hartford, Connecticut, U.S.A." is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- manufactured from 1970 to 1977. - "Colt-Sharps" is not marked on the firearm, but this is the colloquial name for this Borchardt-pattern single-shot rifle. - this is one of a limited number of single-shot falling-block rifles manufactured by the Sharps Arms Company of Hartford, Connecticut (formerly of Salt Lake City, Utah), after it was bought by Colt, though "Colt" does not appear on the rifle. These rifles were manufactured between 1970 and 1977, in standard and deluxe grades. - features include: blued finish; round barrel; drilled and tapped for scope mounts; a Borchardt-style hammerless falling block action, opened via a trigger-guard lever with short rear tang; hand checkered two piece walnut pistol-grip stock with Monte Carlo cheek piece and rubber butt plate. Automatic or manual rocking safety at the rear of the breech-block (user selectable).
Manufacturer	- "Sharps Arms Company" over "Hartford, Connecticut, U.S.A." is marked on the left side of the receiver/frame. - the Sharps Arms Company (no relation to the original Christian Sharps) was founded in Salt Lake City, Utah, but bought out by Colt and moved to Hartford, Connecticut in 1970.
Action	- lever operated, hammerless falling block.
Serial Number	- serial-numbered on the receiver/frame, with a "CS" prefix.

Notes

Make

- "Sharps Rifle Co. Bridgeport, Conn." is marked on the rib between the barrels.
- "Sharps Rifle Co." is marked on the sideplates.

Model

- "Sharps Rifle Co., Bridgeport, Conn." and "Old Reliable" is marked on the center rib of the barrel assembly.
- manufactured from 1878 to 1880.
- features include: side by side barrel configuration; exposed hammers; double triggers; side lever opening mechanism, Damascus barrels and plain walnut pistol grip stock.

Manufacturer

- although these shotguns are marked as being made by the Sharps Rifle Company in Connecticut, they were actually imported from England; may bear British proofs.

Action

- side by side pattern.

72791 - 2	38 PERCUSSION	1	711	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- model designation is not marked on the firearm.
- manufactured circa 1856 with up to 500 units produced.
- this is a falling-block, single-shot percussion rifle that was based on Sharps' patent for the 1848 rifle, but was built on a much smaller receiver/frame, and used a pistol-grip-style stock.
- features include: miniature 1848 action with trigger-guard/lever operating the action; round barrel; fixed sights; patchbox on stock, and blued or colour case-hardened finish.
- a similar firearm, the "Falling Block Pistol" was made using this receiver/frame, but without a buttstock.

Manufacturer

- marked either "Sharps Patent/Arms Mfed Fairmount/Phila. Pa." or "C.Sharps & Co. Phila, Pa.".

Action

- lever operated falling (dropping) block design.
- percussion breechloader.

Serial Number

- numbered on the receiver/frame.

Notes

Make

- "C. SHARPS & CO., PHILA. PA." is marked on the barrel.

Model

- manufactured circa 1857/1858.
- approximately 2,000 units were manufactured.
- this is a small-caliber percussion revolver with a tip-up barrel.
- strongly resembles some of the early Smith & Wesson "tip-up" revolvers.
- features include: fixed sights; tip-up octagonal barrel with top rib; solid top receiver/frame with round non-fluted cylinder; exposed spurred hammer; sheathed spur trigger; single action trigger mechanism; flat bottom grip strap; walnut grip panels; blued finish.
- this firearm was also sold by "WM BRYCE & CO.".

Manufacturer

- "C. SHARPS & CO., PHILA. PA." is marked on the barrel.

Serial Number

- serial numbered from "1" up.

Notes

Make

- "SHARPS PATENT" may appear on the receiver/frame.

Model

- model designation is not marked on the firearm.
- usually marked either with "TIPPING & LAWDEN, SHARPS PATENT" or "TIPPING & LAWDEN PATENT" on the left side of the receiver/frame encircling the hammer screw.
- forward sliding barrels for loading and ejecting are unlocked by a button on receiver/frame bottom.
- brass receiver/frame, usually silver-plated.
- single action with a rotating firing pin.
- approximately 2000 were manufactured between 1860 and 1879.

Manufacturer

- manufacturer's name may be marked on the firearm.
- Thomas Tipping-Lawden was located at Legge Street, Birmingham, England in 1821.
- Thomas Tipping-Lawden moved to 40 Constitution Hill, Birmingham in 1828.
- Caleb & Thomas Tipping-Lawden formed a partnership known as "Tipping & Lawden" in 1837.
- Tipping & Lawden traded from 40 and 41 Constitution Hill and 18 Buckingham Street in Birmingham.
- Tipping & Lawden also had facilities in London, England at Cheapside from 1837 to 1840, 18 Pancras Lane in 1842, 9 Dyers Buildings, Holborn in 1843, 20 Barlett's Buildings from 1844 to 1851, 26 Barlett's Buildings from 1852 to 1854, and 17 Woodstock Street from 1871 to 1877.
- Tipping & Lawden was sold to P.Webley & Son in 1877.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- four barrel, (two sets of superposed barrels) four shot handgun fired by a rotating firing-pin.
Serial Number	- usually a numeric serial number will be found on the grip frame underneath the grips.
Barrel	- barrel lengths are known to vary up to 19mm from the standard length of 64mm.
Other Markings	- retailers names (e.g. Rigby, Bryce, Boss, Manton, etc.) may also be marked on some firearms.

Notes

Make

- "SHARPS PATENT" may appear on the frame.
- retailers names (e.g. Rigby, Bryce, Boss, Manton, etc.) may have been marked on some firearms.

Model

- model designation is not marked on the firearm.
- usually marked either with "TIPPING & LAWDEN, SHARPS PATENT" or "TIPPING & LAWDEN PATENT" on the left side of the receiver/frame encircling the hammer screw.
- forward sliding barrels for loading and ejecting are unlocked by a button on receiver/frame bottom.
- brass receiver/frame, usually silver-plated.
- single action with a rotating firing pin.
- approximately 4000 were manufactured between 1860 and 1879.
- the easiest way to distinguish between Tipping and Lawden's T1, T2 and T3 is to determine calibre, as there was no overlap of calibres between models.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's name may be marked on the firearm. - Thomas Tipping-Lawden was located at Legge Street, Birmingham, England in 1821. - Thomas Tipping-Lawden moved to 40 Constitution Hill, Birmingham in 1828. - Caleb & Thomas Tipping-Lawden formed a partnership known as "Tipping & Lawden" in 1837. - Tipping & Lawden traded from 40 and 41 Constitution Hill and 18 Buckingham Street in Birmingham. - Tipping & Lawden also had facilities in London, England at Cheapside from 1837 to 1840, 18 Pancras Lane in 1842, 9 Dyers Buildings, Holborn in 1843, 20 Barlett's Buildings from 1844 to 1851, 26 Barlett's Buildings from 1852 to 1854, and 17 Woodstock Street from 1871 to 1877. - Tipping & Lawden was sold to P.Webley & Son in 1877.
Action	- four barrel, (two sets of superposed barrels) four shot handgun fired by a rotating firing-pin.
Serial Number	- usually a numeric serial number will be found on the grip frame underneath the grips or on the underside of the barrel. - an observed example consisted of three numbers..
Barrel	- barrel lengths are known to vary.
Calibre	- available only in rimfire calibres.
Other Markings	- A finisher's code mark may be stamped on the receiver/frame, either under the barrel or under the grips. Known marks include: X; T&L; TCL; W.D.; E; P.; S; J.W.; iron cross.

Firearm Reference Number (FRN): 59439
Make: Sharps & Hankins
Model: 1859 Model 3

Summary

Make:	Sharps & Hankins
Model:	1859 Model 3
Manufacturer:	Sharps & Hankins
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Multi-Barrel
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
59439 - 2	32 LONG RF	4	89	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make may be marked on top of the barrel as:
"ADDRESS SHARPS & HANKINS, PHILADELPHIA, PENN".

Model

- approximately 18,000 were manufactured between 1862 and 1867.
- the model designation does not appear on firearm, what is marked is the patent date "SHARPS PATENT/JAN. 25, 1859", on the right side of the receiver/frame.
- the model 3 was the first sharps derringer to have an extractor mounted between the barrels. As the barrels are slid forward, the extractor will remove the cartridges from the chamber.
- features include: single action spurred trigger; iron receiver/frame; spurred hammer; rotating firing pin; grip panels may vary from checkered rubber, wooden or ivory.
- there were 4 versions of the Sharps "1859 Model 3". Version 3 or 3A, 3B, 3C, and 3D.
- on version 3 or 3A there was a round access panel on the left side of the receiver/frame, above the spurred trigger.
- on version 3B, the round access panel was removed.
- on version 3C, the barrel release lever was moved slightly forward on the receiver/frame and some internal modifications.
- on version 3D, a frame screw located at the front sides of the receiver/frame has been removed.

Manufacturer

- Sharps & Hankins was formed in 1862 by a merger of the C. Sharps & Company group with William C. Hankins.
- this arrangement lasted until 1867 when this company was dissolved and the firm once again became C. Sharps & Company.
- it appears that only Model 3s were produced by Sharps & Hankins.

Action

- four barrel, (two sets of superposed barrels) four shot handgun fired by a rotating firing-pin.

Serial Number

- located on the bottom of the butt between the grips.
- serial numbers range from approximately 65 to 87,000.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- known as the 1859 Model 1 when found in calibre 22 SHORT.
- known as the 1859 Model 2 when found in calibre 30 RF.
- known as the 1859 Model 4 when found in calibre 32 LONG RF.

Notes

Model

- this is an unusual single-shot rifle made between 1861 and 1862, for sale to the United States Navy (primarily for use by Marines).
- this rifle has a sliding barrel that moves back and forth in slots in the receiver as the lever/trigger-guard is operated. The barrel recesses back into the standing breech approximately 3mm when in the firing position.
- marked "Sharps & Hankins/Philada" on the right side of the receiver/frame, and "Sharps Patent/1859" on left side of receiver/frame.
- features a walnut straight-grip stock and full-length forearm, sling swivels, and a bayonet lug on most examples.
- these rifles originally had a barrel covered with leather.
- Sharps & Hankins also made 1862 Carbines that used this same basic method of operation, but these are significantly shorter and have no forearm.

Manufacturer

- Sharps & Hankins was a partnership set up in 1862 between Christian Sharps (inventor of the Sharps rifles), and William Hankins, to produce and sell a variety of rifles and small handguns. In 1866, this partnership dissolved, and Christian Sharps went back to producing rifles until his death in 1874.

Action

- lever operated forward sliding barrel design.

Serial Number

- on receiver/frame; numbered 1 through approximately 700.

Notes

Model

- this is an unusual single-shot carbine made between 1862 and 1865, primarily for sale to the United States Army and Navy.
- this rifle has a sliding barrel that moves back and forth in slots in the receiver as the lever/trigger-guard is operated. The barrel recesses back into the standing breech approximately 3mm when in the firing position. This rifle was made in two separate variations, the first with a blade-type firing-pin on the hammer nose, and the second with a frame-mounted firing pin mounted in the standing breech.
- marked "Sharps & Hankins/Philada" on the right side of the receiver/frame, and "Sharps Patent/1859" on the left side of the receiver/frame.
- features a walnut straight-grip stock (with or without sling swivels), metal forearm is part of the frame, some examples had saddle rings, and those variants originally made for the Navy originally had a barrel covered with leather. These rifles can be identified by a muzzle ring and two screws at the rear of the barrel, with which the leather was anchored.
- a small number of these rifles were made with even shorter barrels, for use by Cavalry; these examples have been tin-plated.
- Sharps & Hankins also made 1861 Navy rifles that used this same basic method of operation, but these are considerably longer and have a full wood forearm.

Manufacturer

- Sharps & Hankins was a partnership set up in 1862 between Christian Sharps (inventor of the Sharps rifles), and William Hankins, to produce and sell a variety of rifles and small handguns. In 1866, this partnership dissolved and Christian Sharps went back to producing rifles until his death in 1874.

Action

- lever operated forward sliding barrel design.

Serial Number

- serial number is marked on the receiver/frame; numbered 1 through approximately 8000.

Notes

Make

- "C. S. SHATTUCK" and "HATFIELD, MASS." are marked on the left side of the barrel.

Model

- manufactured during the 1880s.
- model designation is not marked on the firearm.
- "Pat. Nov. 4, 1879" is marked on the left side of the firearm.
- Andre Hyde applied for a patent for a side swinging cylinder and was granted Patent Number 221,171 on November 4th of 1879 and Patent Number 273,282 on March 06th of 1883.
- "1879 Hyde's Patent Swing Out Cylinder" is a single action pocket revolver.
- features include: half moon or blade front sight and groove in the top strap for the rear sight; octagonal rifled barrel; solid top receiver/frame with right side swing-out fluted cylinder; exposed spur hammer; sheathed spur trigger; single action trigger mechanism; bird's head or square butt grip strap; gutta-percha, rubber or wood grip plates; nickel finish.
- cylinder crane pivots on a screw located on the right front side of the receiver/frame, this allows the cylinder to swing out to the right side for loading and unloading.
- gutta-percha grip plates may have the raised portraits of two American Presidents. Abraham Lincoln on the right grip plate and James A. Garfield on the left grip plate.

Manufacturer

- "C. S. SHATTUCK" and "HATFIELD, MASS." are marked on the left side of the barrel.

Serial Number

- serial number is marked on the left side of the butt strap, under the grip plate and is repeated on the cylinder tang.
- serial number rationalization unknown.
- total quantity produced was less than two thousand.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - references indicate this firearm may also have been made in 38 RF and 41 RF.

Shots - cylinder swings out to the right on a parallel axis to the barrel, on a lever mounted under the barrel. It does not swing down as a conventional cylinder does.

FRT Report

Firearm Reference Number (FRN): 130203
Make: Shattuck
Model: American Side Snap

Summary

Make:	Shattuck
Model:	American Side Snap
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
130203 - 1	12 GA X 2 3/4"	1	529	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "C.S. Shattuck Hatfield Mass" was observed marked on the top tang.
- Charles S. Shattuck (1840-1919) was originally located in Springfield, Massachusetts, U.S.A. and moved to Hatfield, Massachusetts, U.S.A. circa 1876.
- Charles S. Shattuck & Andrew Hyde formed a partnership known as "Hyde & Shattuck" circa 1876.
- "Hyde & Shattuck" was in business from circa 1876 to 1880.
- "Hyde & Shattuck" was originally located in Springfield, Massachusetts, U.S.A. circa 1876 and moved to Hatfield, Massachusetts, U.S.A. circa 1877.
- "Hyde & Shattuck" became "C. S. Shattuck Arms Company" in 1880.
- "C. S. Shattuck Arms Company" was located in Hatfield, Massachusetts, U.S.A. from 1880 to 1908.
- "C.S. Shattuck Arms Company" manufactured derringers under the "Queen" name, four barrel pistols and revolvers under the "Unique" name, and shotguns under the "American" and "Leader" names.

Model

- "AMERICAN SIDE SNAP" was observed marked on the top of the barrel.
- "BELGIUM" was observed marked on the right side of the barrel.
- features include: bead front sight and groove in the top of the standing breech for a rear sight; round smooth bore barrel; front hinged receiver/frame with break open lever incorporated into the trigger guard and extends on left side of the receiver/frame; exposed spurred hammer; single action trigger mechanism; plain hardwood forearm and buttstock.

Action

- hinged barrel design.

Serial Number

- serial number was observed marked on the rear left side of the barrel and repeated on the bottom of the barrel under the forearm.
- observed serial number consisted of four numbers without a letter prefix or suffix.

118613 - 4	12 GA	1	813	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "C.S. Shattuck Hatfield Mass" is marked on the receiver/frame.

Model

- "American" is marked on the barrel.
- "American" shotgun manufactured by "Hyde & Shattuck" and "C.S. Shattuck" was marketed as "The Great Long Range Duck Gun" or "The Great Long Range Goose Gun".
- "American" is a single barrel shotgun of the hinged barrel design.
- "American" shotgun has double triggers and trigger guards.
- "American" shotgun resembles the early Frank Wesson rifle design.
- "American" shotguns action is opened by activating the "second" trigger located ahead of the rear trigger.
- features include: round barrel with a bead front sight; front hinged flat sided receiver/frame; exposed spur hammer; checkered or uncheckered hardwood forearm and a straight grip or round pistol grip buttstock.

Manufacturer

- "C.S. Shattuck Hatfield Mass" is marked on the top tang.

Action

- hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serialization unknown, but four numerical digits located on action flat observed.
Barrel	- usually fitted with extra long barrel.
Calibre	- calibre may not be marked on the firearm.

Notes

Make

- "Shattuck" may be marked on the firearm.
- "INVISIBLE" over "DEFENDER" is marked on the side of the barrel cluster.

Model

- manufactured between 1907 and 1909 by Mossberg, then until 1910 by Shattuck.
- "INVISIBLE" over "DEFENDER" is marked on the side of the barrel cluster.
- "Invisible Defender" is an oddly shaped four barreled "palm pistol".
- "Invisible Defender" is fired by squeezing the middle portion of the grip into the main body of the pistol.
- barrel unit tips down to load the four barrels.
- main body of the pistol is oval shaped.
- features include: no sights; revolving firing pin; nickel plated finish.
- this palm pistol design was also sold as the "UNIQUE".

Manufacturer

- "Shattuck" is not marked on the firearm.

Action

- side by side and over & under barrel configuration, hinged barrel design.

Serial Number

- serial-numbered on the receiver/frame.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195143 - 1	12 GA	1	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "C.S. SHATTUCK" and "HATFIELD, MASS." are usually marked inside an "S"-shaped logo on the buttplate.

Model

- "LEADER" is usually marked on top of the barrel.
- this is an unusual style of ring-lever-opening shotgun sold by C.S. Shattuck prior to 1909, based on Iver Johnson's similar "Semi-Hammerless" shotgun; where the "Semi-Hammerless" has an exposed rocking hammer without a spur, the Shattuck "Leader" has a spur hammer that can be manually cocked with the thumb, if required.
- features include: blued finish; bead sight; round full choke barrel; smooth walnut forearm and pistol-grip stock; take-down key in a slot on the left side of the receiver/frame; a ring-style opening lever at the front of the trigger-guard, with the trigger at the rear of the guard; and a black synthetic or gutta-percha buttplate with Shattuck's name, logo, and address on it.

Action

- hinge-action single-shot.

Serial Number

- usually numbered on the barrel lug, but these may be "lot" numbers.

Firearm Reference Number (FRN): 63222
Make: Sheridan
Model: Blue Streak C

Summary

Make:	Sheridan
Model:	Blue Streak C
Manufacturer:	Sheridan Products
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
63222 - 3	20 PELLET	1	472	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
63222 - 2	20 PELLET	1	492	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Sheriden", "Sheriden Products" or "Sheriden Products Inc." will be marked on the receiver/frame.
- Benjamin Air Rifle Company purchased Sheridan Products Incorporated in 1977.
- Benjamin and Sheridan models were first marketed as Benjamin Sheridan in 1991.
- Benjamin Sheridan Corporation was purchased by Crosman Air Guns in 1992.
- Crosman continued production of both of the original Benjamin and Sheridan product lines under the Benjamin Sheridan trade name from 1992 to 1998.
- Crosman began to sell their .177 and .22 PELLET air guns under the Benjamin trade name and .20 PELLET air guns under the Sheridan name circa 1998.

Model

- the model designation "C", and/or "BLUE STREAK", may appear on the receiver/frame.
- features include: pneumatic under-barrel pump; available in blue, silver or blued finish; bolt action-type mechanism used for loading; wood stock.
- manufacture began in 1948.
- there have been numerous small design changes since this rifle was introduced so details will vary widely.

Manufacturer

- "Sheriden", "Sheriden Products" or "Sheriden Products Inc." and Racine, Wis." will be marked on the receiver/frame.

Action

- single-shot, bolt operated, pump-air pressure-type pellet rifle.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial numbering began in 1972.
- Serial number rationalization: six digits with zeros being used as place holders. Starting at number one as follows: 000001.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- In 1979 the design of this model changed so the barrel is approximately an inch longer than fornerly.
Calibre	- Calibre marking: 5MM (.20 CAL) PELLETS ONLY.
Other Markings	- Blue Streak or Silver Streak marked on the left side of the pump tube. -C SERIES - MADE IN USA - -"SHERIDAN PRODUCTS" RACINE, WIS 52103 may be found marked on the right side of the receiver/frame.

Notes

Make

- "Shilen" is usually marked on the receiver/frame.

Model

- model designation is usually marked on the receiver/frame as, "DGA".
- the DGA action was introduced circa 1976.
- the DGA receiver/frame/action is characterized by its semi-octagonal top shape and flat-bottom; this action is noted for its exceptional strength and rigidity.
- basically a custom-made rifle produced to a very high degree of fit and finish.
- turn bolt operated, internal box magazine.
- features can vary widely and may include;
- stainless or chrome-moly barrel offered in round, contoured, octagonal or a variety of bull-barrel configurations in Match or Select Match grades.
- hand-lapped barrel, glass bedded action.
- Shilen fibreglass or American walnut stock.
- adjustable trigger.
- safety located on the rear right side of the receiver/frame.
- bolt release lever located on the rear left side of the receiver/frame.
- chrome-moly receiver/frame may be blued or dull nickel plate, barrels may be blued or matte stainless.
- receiver/frame drilled and tapped for scope mounts.
- receiver/frame only and barreled actions are also available.

Manufacturer

- Shilen Rifles Incorporated is a firearms manufacturer located in Ennis, Texas, USA.
- founded by Ed Shilen circa 1961.

Action

- turn bolt operated.

Serial Number

- serial number is marked on the receiver/frame.

Shots

- internal box magazine.

Notes

Make

- "Shilen" is usually marked on the receiver/frame.

Model

- model designation is usually marked on the receiver/frame as: "DGA"
- the DGA action was introduced circa 1976.
- DGA is the acronym for "Damn Good Action".
- a custom made rifle produced to a very high degree of fit and finish.
- the DGA receiver/frame/action is characterized by its semi-octagonal top shape and flat-bottom; it is noted for its exceptional strength and rigidity.
- features can vary widely and may include:
- stainless or chrome-moly barrel offered in round, contoured, octagonal or a variety of bull-barrel configurations in Match or Select Match grades;
- hand-lapped barrel, glass bedded action;
- Shilen fibreglass or American walnut stock;
- adjustable trigger;
- safety located on the right rear side of the receiver/frame;
- chrome-moly action may be blued or dull nickel plate, barrels may be blued or matte stainless.
- receiver/frame drilled/tapped for scope mounts.
- actions and barreled actions are also available.

Manufacturer

- Shilen Rifles Incorporated is a firearms manufacturer located in Ennis, Texas, USA.
- company founded by Ed Shilen circa 1961 to produce high-grade rifle barrels only; subsequently expanded to include complete rifle manufacture circa early 1970's.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Calibre	- available in many standard and wildcat chamberings.

Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
4546 - 1	308 WIN	4	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
4546 - 2	308 WIN	4	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Type	- bolt action.
Serial Number	- serial number is marked on the receiver/frame.
Barrel	- the Shilen has a barrel length of 610 mm (24") to 660 mm (26").
Calibre	- As a custom gun most calibres are available if they are 2.850 " or less maximun length (.308 WIN) including short magnums.
Shots	- magazine holds three to five rounds depending on the calibre. Can be ordered in single shot only.
Remarks	- the Shillen rifle is a production custom made rifle. This rifle has optional heavy or light sporter dimensions with good quality wood and checkering. The action has a rounded bottom and is shorter, thus lighter than the standard DGA or the DGA/PB.

Notes

Make

- "Shiloh" was a trade name used by "Shiloh Products" a division of "Drovel Tool Company" of Farmingale, New York from 1976 to 1983.
- "Shiloh" is a trade name used by "Shiloh Rifle Mfg. Co." since 1983.

Model

- this is a reproduction of a "Sharps 1874 Creedmoor Rifle"
- introduced in 1998.
- this is a semi-custom, target grade, black powder cartridge rifle with deluxe checkered pistol grip stock
- features include: globe front sight, tang Vernier peep sight; single trigger; crescent or shotgun butt plate; engraved receiver/frame; blued round or half-octagon barrel; pewter forend tip; finish as per customer's wishes and can be ordered with any style or amount of engraving.

Manufacturer

- "Shiloh Rifle Manufacturing Company" is a manufacturer based in Big Timber, Montana, U.S.A since 1983.
- specializes in manufacturing custom, semi-custom, and limited-run production reproductions of the "Sharps" black powder firearms.

Action

- lever operated falling (dropping) block design.

Serial Number

- from 1983 to 1991 the Sharps firearms were consecutively numbered.
- from 1991 to 2002 Sharps firearms had a letter "B" prefix and up to 5 digits as a serial number.
- from April 2002 to date (2004) the serial number started over again at 001 with a letter "B" suffix.

Notes

Make

- "Shiloh" was a trade name used by "Shiloh Products" a division of "Drovel Tool Company" of Farmingale, New York from 1976 to 1983.
- "Shiloh" is a trade name used by "Shiloh Rifle Mfg. Co." since 1983.

Model

- this is a reproduction of the "Sharps 1874" rifle.
- introduced in 1989.
- this is a black powder cartridge rifle for target shooting or hunting, with a straight stock and a crescent or shotgun butt plate (some with patch boxes).
- features include: single or double set trigger; colour case-hardened receiver/frame; blued octagonal or half-octagon barrel; pewter forend tip; open buckhorn rear and blade front sights; custom finish available and can be ordered with any style or amount of engraving.

Manufacturer

- "Shiloh Rifle Manufacturing Company" is a manufacturer based in Big Timber, Montana, U.S.A since 1983.
- specializes in manufacturing custom, semi-custom, and limited-run production reproductions of the "Sharps" black powder firearms.

Action

- lever operated falling (dropping) block design.

Serial Number

- from 1983 to 1991 the Sharps firearms were consecutively numbered.
- from 1991 to 2002 Sharps firearms had a letter "B" prefix and up to 5 digits as a serial number.
- from April 2002 to date (2004) the serial number started over again at 001 with a letter "B" suffix.

Barrel

- barrels can be ordered in any length the customer wishes.

Notes

Make

- "Shiloh" was a trade name used by "Shiloh Products" a division of "Drovel Tool Company" of Farmingale, New York from 1976 to 1983; and
- "Shiloh" is a trade name used by "Shiloh Rifle Mfg. Co." since 1983.

Model

- this is this is a reproduction of a "Sharps 1874" rifle.
- this model was introduced in 1986.
- features include: this is a black powder cartridge rifle for hunting with straight stock with crescent or shotgun butt plate (some with patch boxes); single or double set trigger; color case hardened receiver; blued octagonal or half-octagon barrel; schnabel forend tip; buckhorn rear and blade front sights; finished as per customer's wishes and can be ordered with any style or amount of engraving.

Manufacturer

- "Shiloh Rifle Manufacturing Company" is a manufacturer based in Big Timber, Montana, U.S.A. since 1983.
- specializes in manufacturing custom, semi-custom, and limited-run production reproductions of the "Sharps" black powder firearms.

Action

- lever operated falling (dropping) block design.

Serial Number

- serial number rationalization unknown.
- from 1983 to 1991 the Sharps firearms were consecutively numbered.
- from 1991 to 2002 Sharps firearms had a letter "B" prefix and up to 5 digits as a serial number.
- from April 2002 to date (2004) the serial number started over again at 001 with a letter "B" suffix.

Calibre

- the calibre designation is marked on the barrel assembly.

Notes

Make

- "Shiloh" was a trade name used by "Shiloh Products" a division of "Drovel Tool Company" of Farmingale, New York from 1976 to 1983.
- "Shiloh" is a trade name used by "Shiloh Rifle Mfg. Co." since 1983.

Model

- the model is not marked on the firearm; this is a semi-custom modern reproduction of the Sharps 1877 long-range target rifle, made with a lightened receiver, a long back-action side lock, and a heavy-diameter barrel.
- features include: blued and colour-case-hardened finish; peep sights with interchangeable front inserts; schnabel-tipped forearm; curved action lever that serves as a trigger-guard; a manually-cocked hammer on a back-action lock; deluxe wood stock and forearm (some with carved finger-rests); single or double-set triggers; and a tang-mounted vernier peep sight.

Manufacturer

- "Shiloh Rifle Manufacturing Company" is a manufacturer based in Big Timber, Montana, U.S.A since 1983.
- specializes in manufacturing custom, semi-custom, and limited-run production reproductions of the "Sharps" black powder firearms.

Action

- falling block single-shot.

Serial Number

- numbered on the receiver/frame.

Barrel

- available in 51mm/2" increments between 660mm/26" and 864mm/34".

Notes

Make

- Shin Sung Ind Co is marked on the receiver/frame of the firearm.
- Shin Sung Industrial is a manufacturer of high-power airguns located in South Korea; their products are imported into North America through Air Rifle Specialists (ARS) and others, and into Europe through RWS/Dynamit Nobel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "CAREER II 707" is marked on the side of the receiver/frame. - There is an earlier version of this firearm known as "CAREER 707", while there are some obvious differences the two are similar enough that both are included in this record. - Frame/receiver: left hand side engraved with a scene of wild boar and hounds, right hand side engraved with a scene of Cape buffalos and lions - This firearm is a very unusual-appearing high-power air rifle that looks something like an over / under shotgun mated to a Winchester Model 94 lever-action rifle; the rifle has an internal air reservoir that is pressurized with a hand-pump or a SCUBA tank adaptor. - This air gun has an air gauge to show how much pressure remains in the firearm's air reservoir. - This firearm has an adjustable power level through use of a dial on the bottom of the receiver. - This airgun is a repeater with an external magazine located on the left-hand side of the receiver/frame. - Other features include: open adjustable sights with an integral scope rail, hardwood forearm and butt-stock with high comb and rubber buttpad. - Available in rifle and carbine versions. - Manufacturer's literature suggests that at maximum power setting, this rifle is able to achieve a velocity with a 22 calibre pellet in excess of 1000 fps.
Manufacturer	- Shin Sung Ind Co is marked on the receiver/frame of the firearm.
Action	- manually operated, lever-actuated, repeating air rifle (pneumatic firearm). - pre-charged air reservoir. - in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 25 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- the serial number is found on the receiver. - serial number rationalization unknown. - observed sample consisted of a two letter prefix (SS) followed by five digits.
Calibre	- depending on the 'MAKE", weight and the length of the pellet the magazine capacity may vary. - Manufacturer's specified capacities are: 177 Pellet - Qty 14 22 Pellet - Qty 10 25 Pellet - Qty 6
Shots	- magazine capacity may be reduced in the carbine variation; also, magazine capacity may vary due to pellet length / weight.
Remarks	- Most components of this firearm are marked with the Shin Sung logo which is a stylized "Leaping Cat".

Notes

Make

- "Shin Sung Ind Co" is marked on the receiver/frame.

Model

- "CAREER Ultra" was observed marked on both sides of the receiver/frame.
- "Career Ultra" is also known as the "Career 707 9mm Ultra".
- lever action, repeating air rifle of unusual design that looks something like an over and under shotgun mated to a Winchester Model 94 lever-action rifle; the rifle has an internal air reservoir that is pressurized with a hand-pump or a SCUBA tank adaptor; this rifle can also be loaded one shot at a time by removing the magazine and handloading a single pellet.
- features; side mounted horizontal detachable magazine located on the left side of the receiver/frame; air gauge to show how much pressure remains in the firearm's air reservoir; adjustable, 11 position, power setting through the use of a dial on the bottom of the receiver; cross bolt safety; open adjustable sights with an integral scope rail; adjustable trigger; hardwood forearm and butt-stock with high comb and rubber buttpad.

Manufacturer

- "Shin Sung Ind Co" is marked on the receiver/frame.

Action

- manually operated, lever-actuated, repeating air rifle utilizing a pre-charged air reservoir.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is usually marked on the right side of the receiver/frame.
- observed examples have had six digit numbers with either a single letter or a triple letter prefix.
- prefix letters "SSU" and "U" have been observed.

Shots

- horizontally side mounted detachable magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - known example also marked with the letters "RWS" on the underside of the receiver/frame in front of the lever; RWS is a trade name used by the firm of Dynamit Nobel of Germany.

FRT Report

Firearm Reference Number (FRN): 124872
Make: Shinbisha Air Rifle
Model: Rimfire Sporter

Summary

Make:	Shinbisha Air Rifle
Model:	Rimfire Sporter
Manufacturer:	Shinbisha Air Rifle (SAR)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
124872 - 1	22 LR	1	445	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SHINBISHA AIR RIFLE MFG CO" is marked on the right side of the barrel.
- "SAR" under a sheaf of three arrows is marked on the top of the receiver/frame.
- "SAR" is the abbreviation for Shinbisha Air Rifle.

Model

- the model designation was not marked on the sample examined. This entry is a "generic" entry for those rimfire rifles produced by Shinbisha Air Rifles that do not have a unique model designation.
- features on the sample examined included: blued finish with a one-piece wood stock; stamped metal trigger guard; blade front sight with an elevation adjustable rear sight.

Manufacturer

- "SAR" is the abbreviation for Shinbisha Air Rifle.
- Shinbisha Air Rifle Manufacturing Company was a Japanese manufacturer of air guns, black-powder reproductions, and metallic cartridge firearms.

Action

- turn-bolt design.

Serial Number

- the sample examined was marked with sequential numbers on the barrel, bolt and extractor. The receiver/frame was not numbered.

Calibre

- the sample examined had the calibre marked on the barrel as "CAL: 22. RIFLE". This marking appeared twice on the barrel.

Canadian Law Comments

- the sample examined did not have a serial number applied to the receiver/frame. In Canada there is a requirement that a serial number (or other approved identifier) be marked on the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 21707
Make: Shinbisha Air Rifle
Model: Tower British Service Pattern Reproduction

Summary

Make:	Shinbisha Air Rifle
Model:	Tower British Service Pattern Reproduction
Manufacturer:	Shinbisha Air Rifle (SAR)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
21707 - 1	69 FLINTLOCK	1	230	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SAR" is marked on the right side plate.
- "SAR" is the abbreviation for Shinbisha Air Rifle.

Model

- model designation is not marked on the firearm.
- this is a reproduction of the "Tower British Service" black powder pistol.
- a crown over "GR" was marked on the right side plate.
- features include: round barrel; engraved side lock with flint ignition system; brass trigger guard, furniture and butt cap; ramrod mounted below the barrel; one piece wood stock.

Manufacturer

- "SAR" was observed on the right side plate.
- "SAR" is the abbreviation for Shinbisha Air Rifle.
- "JAPAN" was observed on the left side of the barrel.
- "SAR" is also a trademark used by Schwaben Arms GMBH of Rottweil, Germany.

Action

- side hammer flintlock.

Serial Number

- serial number was observed on the left side of the barrel.
- observed serial number consisted of five digits with no letter prefix or suffix.

Calibre

- calibre designation is not marked on the firearm.

Shots

- muzzle loaded.

FRT Report

Firearm Reference Number (FRN): 124263
Make: ShoeLess Ventures
Model: FAB10

Summary

Make:	ShoeLess Ventures
Model:	FAB10
Manufacturer:	ShoeLess Ventures
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
124263 - 2	223 REM	5	508	Prohibited PFR, Part 1, para. 87(z.766)	Non-Commercial Customization	
124263 - 1	5.56MM NATO	10	508	Prohibited PFR, Part 1, para. 87(z.766)	Non-Commercial Customization	

Notes

Make	- "ShoeLess Ventures Inc." is marked on the right side of the lower receiver/frame.
Model	- "FAB 10" is marked on the right side of the lower receiver/frame. - this design is based on the AR-15 series of rifles and incorporates a fixed internal magazine rather than a magazine well. - loading of this firearm is accomplished by the removal of the takedown pin and opening the receiver/frame; a removable charger guide is used to locate a stripper clip above the magazine for charger loading. - this firearm may have many variations in features as it is manufactured as a lower receiver/frame unit only, to which an owner may attach any upper receiver/frame assembly that they wish. - features include: black aluminum lower receiver/frame; pistol grip; internal magazine that is retained by one allen screw and one pop rivet; and two position safety.
Manufacturer	- "ShoeLess Ventures Inc." over "Carson City Nv." is marked on the right side of the lower receiver/frame.
Action	- gas operated.
Serial Number	- serial number is located on the left side of the lower receiver/frame.- observed - serial number sequences have consisted of six numbers without prefix or suffix.
Calibre	- the calibre marking "5.56mm" appears on the right side of the lower receiver/frame. - this calibre designation may be inaccurate as these firearms are manufactured as lower receiver/frames only without barrels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- internal ten shot AR style magazine that is retained by one allen screw and one pop rivet.
Other Markings	- on the right side of the lower receiver/frame the flag of the United States of America may be engraved. - on the left side of the lower receiver/frame an image of the cartoon character "Kilroy" may be engraved. - "Pat. # 6,739,082" may be engraved on the right side of the receiver/frame.
