Notes

Make

- "C. STIEGELE, MUNCHEN" and/or "CARL STIEGELE" may be marked on the barrel.

Model

- model designation is not marked on the firearm.
- this is a modified Martini action used by gunmakers to build "Schuetzen" target rifles which were used in target matches.
- features include: round or octagonal blued barrel; breech block hinged at the rear of the receiver/frame that swings downward at the front to open; double set triggers; engraved receiver/frame; deluxe pistol grip or straight stock with "schuetzen" style hooked buttplate and high comb cheek rest.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Carl Stiegele founded a gunmaking business in Munich, Germany circa 1863. - Carl Stiegele Junior sold the business to RWS in 1927.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- located on the receiver/frame - observed specimen had four number.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
175983 - 1	7MM PIN-FIRE	6	98	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	

Notes

Make

- "C. STIEGELE en MUNCHEN" was observed on the top of the barrel.
- Carl Stiegele produced firearms in Munich (Munchen), Germany circa 1863 to 1870.
- Carl Stiegele Junior sold the business to RWS in 1927.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this handgun resembles the original pin-fire design of Casimir & Eugene Lefaucheux circa 1854 to 1855.
- production of this type of handgun utilizing the pin-fire cartridge system common from circa 1855 to the 1880's.
- features include: solid top receiver/frame with integral octagonal barrel, plus fixed front sight and integral "V" groove rear sight; loading gate on right side of standing breech; ejector rod located on the right side of the receiver/frame; spur hammer; trigger guard; single or double action trigger mechanism; checkered, wooden grips.

Manufacturer

- "C. STIEGELE en MUNCHEN" was observed on the top of the barrel.
- Carl Stiegele produced firearms in Munich (Munchen), Germany circa 1863 to 1870.
- Carl Stiegele Junior sold the business to RWS in 1927.

Serial Number

- observed sample consisted of two numbers located under the grips on the receiver/frame and may be repeated as roman numerals on the opposite side.
- serial number rationalization is not know.
- note: any numbers found on the cylinder may not be the serial number.

Calibre

- calibre is not marked on the firearm.

122310 - 4	9.3X62 MAUSER	5	600	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- the "STIGA" name and logo and "SWEDEN" are marked on the barrel.
- "A. B. STIGA - VERKEN TRANAS" is marked on the barrel.

Model

- the model designation is not marked on the firearm.
- this model was built using a refurbished military model 1896 Swedish Mauser action circa 1965. The rebuilding process included removing all original markings except the serial number, turning down the bolt handle to allow for the mounting of a scope, replacing the barrel, replacing the military stock with a one-piece walnut stock with a checkered wrist, grip cap and a slim forend ending in a schnabel tip.
- other features include: blued finish; barrel mounted sights; bolt release on the left side of the receiver/frame; military type "wing" safety mounted on the rear of the bolt; usually supplied with a single trigger but a double set trigger could be ordered.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "A. B. STIGA - VERKEN TRANAS" is marked on the barrel. - Stiga-Verken of Tranås, Sweden made sporting rifles on refurbished model 1896 Swedish military actions. The original manufacturer markings were removed during the refurbish. These rifles were offered in the 1960's.
Action	- turn-bolt design.
Serial Number	- serial number is marked on the left side of the receiver/frame, the sample examined retained the original serial number. The last three digits of the serial number are usually repeated on the individual bolt and bolt release parts (these numbers will only match the receiver/frame serial number if all of the original parts were retained).
Calibre	- the sample examined (in calibre 30-06 SPRG) had the calibre marked on the barrel as "30-06".
Shots	- internal magazine with a removable floorplate.

Notes

Make

- "SPF" is marked on the left side of the receiver/frame.
- "SPF" is the acronym for "Stiller's Precision Firearms".

Model

- one sample observed featured the model designation "PREDATOR" marked on the left side of the receiver/frame.
- these are custom built firearms.
- features include: bolt release is located on the left side of the receiver/frame; drilled and tapped receiver/frame; since these are custom made rifles, the features, over-all length and weight may vary.

Manufacturer

- "SPF, LLC WYLIE, TX" is marked on the receiver/frame.
- "SPF" is the abbreviation for Stiller's Precision Firearms.
- Stiller's Precision Firearms, LLC is located in Wylie, Texas, U.S.A.
- Stiller's Precision Firearms was founded by Jerry Stiller in 1998.
- Stiller's Precision Firearms is a manufacturer of competition rifles and actions.
- Stiller's Precision Firearms has manufacturing actions under the following names: Cobra, D'Back, Diamondback, Predator, Predator 25X, Predator P1000, Predator V, Predator X, Predator XP, PredatorXT, Python, Rattler, Tac30, Tac300, Tac338, Tac408, Viper, and Viper SS.

Action

- turn-bolt design.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- serial number observed consisted of a two letter "PA" prefix and five numbers.
- serial number observed consisted of a two letter "PB" prefix and five numbers.
- serial number observed consisted of a two letter "PB" prefix, five numbers, and a letter "A" suffix.

Calibre

- calibre designation may be marked on the firearm.

Shots

- fixed box magazine.

Remarks

- the "Predator" series is available in four receiver/frame configurations:
- the "Predator" which is a short or long action, the short action is fitted with a 223 REM, 308 WIN or magnum bolt face and the long action is fitted with a 308 WIN or magnum bolt face.
- the "Predator XP" which is 13mm (0.5") shorter then the short action and is also single shot.
- the "Predator Extreme" is designed for the larger calibres such as the 338 Lapua Mag.

FRT Report

Firearm Reference Number (FRN): 129332
Make: Stillers Precision Firearms
Model: TAC338

Summary

Make:	Stillers Precision Firearms
Model:	TAC338
Manufacturer:	Stillers Precision Firearms (SPF)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129332 - 1	338 LAPUA MAG	1	762	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "SPF, LLC WYLIE, TX" was observed marked on the left side of the receiver/frame.
- "SPF" is the acronym for "Stiller's Precision Firearms".

Model

-"TAC 338" may be marked on the left side of the receiver/frame.
- "TAC338" was designed for the 338 Lapua Magnum and the 378/460 Weatherby cases.
- "TAC338" are customized firearms built to utilize the Remington 700 series components.
- features include: satin finish stainless steel action; spiral fluted bolt; bolt release is located on the left side of the receiver/frame; since these are custom made rifles, the features, over all length and weight may vary.

Manufacturer

- "SPF, LLC WYLIE, TX" is marked on the receiver/frame.
- "SPF" is the abbreviation for Stiller's Precision Firearms.
- Stiller's Precision Firearms, LLC is located in Wylie, Texas, U.S.A.
- Stiller's Precision Firearms was founded by Jerry Stiller in 1998.
- Stiller's Precision Firearms is a manufacturer of competition rifles and actions.
- Stiller's Precision Firearms has manufacturing actions under the following names: Cobra, D'Back, Diamondback, Predator, Predator 25X, Predator P1000, Predator V, Predator X, Predator XP, PredatorXT, Python, Rattler, Tac30, Tac300, Tac338, Tac408, Viper, and Viper SS.

Action

- turn bolt design.

Serial Number

- serial number is located on the left side of the receiver/frame.
- observed specimen consisted of a two letter prefix followed by seven numbers.

Notes

Make

- "FRANZ STOCK - BERLIN. D.R.P." is marked on the left side of the receiver/frame.
- "STOCK" is marked on the grip plates.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is marked on the pistol. - Franz Stock marketed these pistols with no specific model designation. - manufactured from 1918 to the early 1930's. - features include: fixed front and rear sights; magazine release located on the heel of the grip; manual safety/slide lock located on the left side of the receiver/frame; magazine safety; recoil spring surrounds a fixed barrel; open top centre portion of slide; blued finish and black plastic grip plates. - these pistols used features patented by Walter Decker between 1915 and 1918. These features were the magazine safety and the assembly of the breechblock. - a hook on the rear of the extractor engaged a slot on the underside of the slide. A screwed cap that protruded from the rear of the slide retained the firing pin and spring. Lifting the extractor and pushing the screwed cap forward allowed the breech block to be removed through the top of the slide, releasing the slide lock allowed the slide to then be removed by pulling it forward off the receiver/frame.
Manufacturer	- "FRANZ STOCK - BERLIN. D.R.P." is marked on the left side of the receiver/frame. - "STOCK" is marked on the grip plates.
Action	- blowback operated.
Serial Number	- usually marked on the left side of the receiver/frame just above the left grip.
Calibre	- calibre is usually marked on the left side of the slide as " CAL. 7.65 " or " CAL. 6.35".
Shots	- detachable box magazine located in the grip.

Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195617 - 1	177 PELLET	1	420	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
195617 - 2	177 PELLET	1	420	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	
195617 - 3	177 PELLET	1	420	Prohibited CC 84(1) "prohibited device" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "STOEGER" is marked on the top of the receiver/frame, and may be marked on the cheekpiece.

Model

- "Mod.A30" is marked on the top of the receiver/frame.
- may be marked "CANADIAN EDITION" over "VERSION CANADIENNE" and "UNDER/MOINS 495 FPS/PS" on the left side of the receiver/frame, and "<495fps" on the left side of the chamber.
- this is a standard hinged barrel gas piston air rifle.
- features include: shrouded synthetic muzzle cocking grip; may have sound suppressor integral to the cocking grip; may have red fibre optic front sight; plain round rifled barrel; may have green fibre optic adjustable rear sight over the chamber; tubular steel receiver/frame with integral dovetail; ambidextrous automatic safety mounted on the rear of the receiver/frame; synthetic trigger guard; adjustable trigger; one piece wood or synthetic shoulder stock; blued finish.

Action

- gas-piston powered.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 177 PELLET: version marked "CANADIAN EDITION" does not discharge a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- marked on the left side of the chamber.
- a three-letter prefix followed by seven numbers was observed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "CAL. 4.5mm" is marked on the left side of the chamber.
Canadian Law Comments	- as it left the factory, this firearm is equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". - note that removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer (prohibited device) including all internal parts, baffles, wipes, end caps, mounting hardware and the device body must be removed. - as it left the factory, the version marked "CANADIAN EDITION" over "VERSION CANADIENNE" and "UNDER/MOINS 495 FPS/PS"on the left side of the receiver/frame, and "<495fps" on the left side of the chamber, is not equipped with an integral sound suppressor.

Notes

Make

- the Stoeger name is marked on the firearm.

Model

- this is a Brazilian-made over/under shotgun imported by Stoeger.
- the same basic shotgun was previously imported by Stoeger under the "IGA" name as the "Condor I", with some minor cosmetic and internal changes.
- features include: American walnut pistol-grip stock and forearm; interchangeable choke tubes; blued finish; ventilated rib; single selective trigger; automatic ejectors; tang mounted safety; "Red Bar" sights.
- lower grades of this shotgun are sold as the "Condor Special" (nickeled receiver/frame, extractors and low-gloss stock finish) and the "Condor" (Brazilian hardwood stock, extractors and a single non-selective trigger).
- available as a "Combo" with an accessory barrel in either 12 GA or 20 GA.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name may not be marked on the firearm. - "Made in Brazil" is marked on the firearm.
Action	- over & under configuration.
Serial Number	- numbered on the receiver/frame, rationalization unknown.
Calibre	- calibre designation may be marked on the barrel assembly.

Notes

Make

- "STOEGER COUGAR 8000" was observed marked on the right side of the slide.
- "MADE IN TURKEY IMPORTED BY STOEGER INDUSTRIES, INC. ACKK. MD USA" was observed marked on the left side of the slide.

Model

- introduced in 2007.
- "STOEGER COUGAR 8000" was observed marked on the right side of the slide.
- this is a double action pistol of the same design as the model 8000 Cougar introduced by Beretta in the mid-1990's.
- features include: cold hammer forged hard chrome lined barrel that rotates to lock with the slide; single/double action; rounded edges for snag-free operation; matte black finish; ambidextrous safety; external hammer; combat style trigger guard; three dot sight system.
- available in Bruniton matte silver slide and anodized silver frame or matte black slide and anodized silver frame.
- the Cougar 8000 in 45 AUTO, introduced in 2010, has an integrated accessory rail positioned under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "STOEGER COUGAR 8000" was observed marked on the right side of the slide. - "MADE IN TURKEY IMPORTED BY STOEGER INDUSTRIES, INC. ACKK. MD USA" was observed marked on the left side of the slide.
Action	- locked breech, short recoil operation (fixed cam, rotating barrel unlocking system)
Serial Number	- serial number is marked on the left side of the receiver/frame and is repeated on the slide and barrel. - serial number observed consisted of a letter, four numbers, a dash(-), two numbers, a dash (-), a letter, and six numbers, eg. "T6429-06-A00####".
Calibre	- calibre is marked on the breech of the barrel, observed through the ejection port.
Shots	- detachable box magazine.
Other Markings	- "WARNING: RETRACT SLIDE TO SEE IF LOADED, FIRES WITHOUT MAGAZINE" is marked on the right side of the slide of an observed example. - "READ MANUAL BEFORE USE" is marked on the right side of the receiver/frame of an observed example. - "MADE IN TURKEY IMPORTED BY STOEGER INDUSTRIES, INC.ACKK. MD USA" is marked on the left side of the slide of an observed example.

Notes

Make

- "STOEGER" is marked on the right side of the slide, and the logo molded in the grips.
- "MADE IN TURKEY" is marked on the left side of the slide.
- "IMPORTER BY STOEGER INDUSTRIES INC. ACCKK. MD USA" is marked on the left side of the slide.

Model

- "COUGAR 8000 D" is marked on the right side of the slide.
- this is a licenced 9mm Luger copy of the Beretta 8000 Cougar D, manufactured by Stoeger's Turkish affiliate for domestic and international sales.
- Stoeger produces several versions of this pistol, for sale under both the Beretta and Stoeger trade names, in both full-size and compact (the "L") frame sizes, and in both selective double-action with a slide-mounted hammer-drop safety (the "F") and double-action-only (the "D") versions.
- features include: matte black or nitride silver finish; fixed open sights; hooked trigger guard; a selective double-action trigger mechanism; slide-mounted decocking lever/hammer-drop safety; and magazine release behind the trigger guard.

Manufacturer

- manufacturer is not marked on the firearm.
- "MADE IN TURKEY" is marked on the left side of the slide.
- "IMPORTER BY STOEGER INDUSTRIES INC. ACCKK. MD USA" is marked on the left side of the slide.
- Stoeger Silah Sanayi (formerly Vursan) is a wholly-owned subsidiary of Stoeger Industries, which itself is a wholly owned subsidiary of Beretta.
- Stoeger Silah Sanayi produces pistols and shotguns for Beretta and Stoeger.

Action

- recoil operated.

Serial Number

- serial number is marked on the left side of the receiver/frame and repeated on the slide and barrel.
- serial number of a referenced example consisted of a letter prefix "T6429", a dash "-", two number "last 2 digits of the year of manufacture", a letter "A" and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- The company logo is marked on the receiver/frame.
- "STOEGER AIRGUNS" is marked on the left side of the receiver/frame.

Model

- Introduced in 2021.
- "RX20TAC" is marked on the right side of the receiver/frame.
- "SUPPRESSOR" maybe marked on the right side of the receiver/frame.
- Features include: cocking grip at the end of the barrel; interchangeable, textured grips and forend panels; automatic, ambidextrous safety mounted on back of receiver/frame; may come equipped with a suppressor.
- Overall length with a 462 mm (18.18 inches) barrel is 1122 mm (44.17 inches), average weight is 3 kg (6.61 lbs).

Manufacturer

- The company logo is marked on the receiver/frame.
- "STOEGER AIRGUNS" is marked on the left side of the receiver/frame.

Action

- Break open action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the right side of the firearm.
Shots	- Referenced velocity by manufacturer for .22 Pellet with a lead pellet is 240 m/s - 800 fps. - Referenced velocity by manufacturer for .177 Pellet with a lead pellet is 305 m/s - 1000 fps. - Referenced velocity by manufacturer for .177 Pellet with a alloy pellet is 360 m/s - 1200 fps.
Canadian Law Comments	- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed. - Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Notes

Make

- The make is marked on the left side of the firearm.
- The company logo is marked on the receiver/frame.
- Produced in two variants, a " Canadian" and a "US " specification.
- US Specification airgun has a velocity of 1200 FPS , and comes with an integral suppressor.
- The Canadian specification airgun has a velocity of 495 fps., and is designed in a way that it cannot accept the US Spec suppressor.

Model

- The model designation is marked on the right side of the receiver/frame.
- This model may be seen with a 4x32 scope, rectangular/diamond shaped barrel, and customizable synthetic stock. The stock may be accented via different coloured grips.

Action

- Compressed spring air piston.

Serial Number

- The serial number is marked on the right side of the receiver/frame.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Calibre

- The calibre designation is marked on the barrel.

Shots

- The air rifle is single shot where a pellet is placed individually in the chamber.

Canadian Law Comments

- At least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.
- The US and Canadian variants both have a velocity of 495fps and 1200fps; The Canadian specification variant is not suppressed and is not equipped or capable of accepting the US Variant suppressor system.

Notes

Make - the Stoeger name will be marked on the receiver/frame or barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this is a single-shot, break-open design, visible external hammer shotgun imported from Brazil by Stoeger.
- originally introduced in 2002 as the "Single Barrel", in 2003 product literature this model is designated as the "Single Barrel Classic" to differentiate it from the new "Single Barrel Hunter" model which is a hammerless design.
- Stoeger previously imported shotguns under the "IGA" brand name.
- features include: action opened by pulling rearwards on the trigger-guard; blued finish; plain barrel (with or without rib) with a bead front sight; manually cocked external hammer; fixed (410 Ga barrel) or screw-in choke tube; Brazilian hardwood pistol-grip stock and forearm.
- also available in a "Youth" version, with a short length-of-pull straight-grip stock.
- available with a matte finished, stainless steel receiver/frame as the "Single Barrel Special".

Manufacturer

- the manufacturer's name may not be marked on the firearm.
- "Made in Brazil" is marked on the firearm.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

- this is a single-shot, break-open design, visible external hammer shotgun imported from Brazil by Stoeger.
- Stoeger previously imported shotguns under the "IGA" brand name.
- features include: action opened by pulling rearwards on the trigger-guard; matte finished stainless steel receiver/frame; blued barrel with a top mounted ventilated rib; bead front sight; manually cocked external hammer; fixed (410 GA barrel) or screw-in choke tubes; Brazilian hardwood pistol-grip stock and forearm; rubber recoil pad.
- also available in a "Youth" version with a shorter buttstock and barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer
- the manufacturer's name may not be marked on the firearm.
- "Made in Brazil" is marked on the firearm.

Serial Number
- serial number is marked on the receiver/frame, rationalization unknown.

Notes

Model

- model designation is not marked on the firearm.
- this is a generic entry for those Stoeger single shot target pistols that are not identifiable as to model.
- Stoeger Arms listed these pistols in their catalog as late as 1939 and they were advertised as "Stoeger's Target Sidearms"
- features may include the following:
- break open action, with push button or side lever operating handle or bolt operated action.
- barrels: half octagonal, half round, or part octagonal, part round and part octagonal at the muzzle end, or part octagonal and part round fully fluted.
- fixed front sight, fixed, or adjustable rear sight.
- usually features an external hammer.

Action

- turned down bolt action, or push button or lever operated break open action.

Barrel

- this entry is for models fitted with fairly long barrels, 254mm and 318mm, specimen with shorter barrel should be considered as non-commercial conversions.

Notes

Make

- the Stoeger name is usually marked on the barrels.

Model

- "Stoeger Uplander" in script may be marked on the right side of the receiver/frame.
- this is a Brazilian-made side by side shotgun imported by Stoeger.
- these same shotguns were previously imported by Stoeger under the "IGA" brand name.
- features include: side by side boxlock action; double triggers; tang mounted safety; Brazilian hardwood pistol-grip stock and forearm (20 and 410 GA versions available with straight-grip, "English" style stocks); bead front sight; and 12- and 20- gauge versions available with either fixed or interchangeable screw-in chokes.
- also available in a "deluxe" version (with an American walnut stock and forearm, single selective trigger, and automatic ejectors) as the "Uplander Supreme".
- also available with a shortened buttstock and 24"/610mm barrels (for younger/smaller shooters) as the "Uplander Youth".
- also available with an "English"-style straight-wrist stock and a nickeled receiver/frame as the "Upland Special".

Manufacturer

- the manufacturer's name may not be marked on the firearm.
- "Made in Brazil" is marked on the firearm.

Action

- side by side pattern.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

Calibre

- calibre designation may be marked on the barrel assembly.

FRT Report

Firearm Reference Number (FRN): 128317
Make: Stoeger
Model: X20

Summary

Make:	Stoeger
Model:	X20
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128317 - 1	177 PELLET	1	420	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
128317 - 3	177 PELLET	1	420	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	
128317 - 2	22 PELLET	1	420	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "STOEGER" is usually marked on the side of the stock and/or the barrel.
- "MADE IN CHINA" is usually marked on the right side of the barrel block.

Model

- introduced in 2008.
- "STOEGER MOD. X20 SUPPRESSOR" is marked on the top of the receiver/frame.
- this is a standard hinged barrel design, spring piston air rifle.
- features include: round rifled steel barrel with a shrouded muzzle cocking grip, red fixed fibre-optic front sight and adjustable green fibre-optic rear sight; all metal receiver/frame with integral dovetail scope rail; ambidextrous automatic safety mounted on the rear of the receiver/frame; synthetic trigger guard; two stage adjustable trigger; hardwood pistol grip stock or black or camo synthetic pistol grip stock with Monte Carlo type cheek piece and butt pad; blued finish.
- X20 is also available with a sound suppressor/silencer.
- X20 is also available as a "COMBO" version that features a 3-9X40 scope and mounts.
- X20 is also available in a youth version known as the model X5.
- X20 is also available in a adult version known as the model X10.
- overall length is 1080mm (42.5").

Action

- hinged barrel, spring piston design.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the breech.
- serial number of referenced example consisted of three letters and seven numbers.

Canadian Law Comments

- as it left the factory, this firearm is equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm".
- note that removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer (prohibited device) including all internal parts, baffles, wipes, end caps, mounting hardware and the device body must be removed.

Notes

Make

- "STOEGER" is marked on top of the compression chamber and moulded into the synthetic stock.

Model

- "X3-TAC" is marked on the top of the compression chamber.
- this is a version of the Stoeger "X3" made with a synthetic "frame" buttstock having a vertical pistol-grip.
- features include: matte black finish; open adjustable fluorescent sights; enlarged tapered muzzle weight; automatic ambidextrous "push-in" safety at the rear of the compression chamber; synthetic buttstock with frame butt, vertical pistol-grip, and ambidextrous cheekpiece; buttpad.

Action

- spring-piston design.
- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial-numbered on the barrel block.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "STOEGER" is usually marked on the side of the stock and/or on the top of the receiver/frame.
- "MADE IN CHINA" is usually marked on the right side of the barrel block.

Model

- introduced in 2008.
- "STOEGER MODEL X5" may be marked on the top of the receiver/frame.
- this is a standard hinged barrel design, spring piston air rifle.
- features include: round rifled steel barrel with a shrouded muzzle cocking grip, red fixed fibre-optic front sight and adjustable green fibre-optic rear sight; all metal receiver/frame with integral dovetail scope rail; ambidextrous automatic safety mounted on the rear of the receiver/frame; synthetic trigger guard; two stage adjustable trigger; hardwood or black synthetic pistol grip stock with Monte Carlo type cheek piece and butt pad; blued finish.
- X5 is also available as a "COMBO" version that features a 4X32 scope and mounts.
- X5 with synthetic stock was introduced in 2010.
- X5 is also available in an adult version known as the model X10.
- X5 is also available in a deluxe version known as the model X20.
- overall length is 1041mm (41.0") and average weight is 2.6 kgs (5.7 lbs).

Action

- hinged barrel design.
- at least two variants of this particular model exist:
- Variant 1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- Variant 2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number was observed marked on the left side of the barrel.
- observed serial numbers consisted of a three letter "STG" prefix and seven numbers.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Notes

Make

- The company logo is marked on the receiver/frame.
- "STOEGER AIRGUNS" is marked on the top of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "XM1" is marked on the left side of the receiver/frame. - Features include: enlarged, textured bolt handle; safety located on the front of the trigger guard; interchangeable pistol grip; may come equipped with a suppressor; may come equipped with a removable air gauge cover; synthetic stock may come in a camo finish. - This firearm comes from the factory with a rotary magazine and single-pellet adapter which allows the "XM1" to function as either a bolt-action or a single-shot air rifle.
Manufacturer	- The manufacturer is not marked on the firearm.
Action	- Pre charged pneumatic. - Turn bolt operated.
Serial Number	- The serial number is marked on the right side of the firearm.
Calibre	- The calibre designation is marked on the barrel.
Shots	- Detachable rotary disc magazine. - This firearm comes from the factory with a rotary magazine and single-pellet adapter which allows the "XM1" to function as either a bolt-action or a single-shot air rifle.
Canadian Law Comments	- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. - This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Notes

Make

- "STOLLE" is usually marked on the side of the receiver/frame.
- Ralph W. Stolle designed and built an unlimited steel action that he named the Stolle Grizzly in 1969.
- Ralph W. Stolle manufactured an alunimum action named the Stolle Panda circa 1970.
- Ralph W. Stolle moved to North Lawrence, Ohio, U.S.A. in 1980.
- "STOLLE" actions have been manufactured by Kelby's Incorporated, since 1981.

Model

- "STOLLE - TEDDY" is marked on the side of the receiver/frame.
- this model was discontinued in 1995.
- this firearm is frequently sold as an action without trigger, barrel or stock for assembly into a custom target rifle.
- features include: aluminum construction; flat bottom receiver/frame; relatively small ejection port; available in left or right hand versions.

Manufacturer

- "KELBEY'S" or "KELBLY'S INC." over "N. LAWRENCE, OHIO" is marked on the side of the receiver/frame.
- "Kelbly's Incorporated" was established by George Kelbly in 1981.
- "Kelbly's Incorporated" is located in North Lawrence, Ohio, U.S.A.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the receiver/frame, the first two numbers represent the year of manufacture.

122584 - 1	44 PERCUSSION	6	203	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Stone Mountain Arms" was observed marked on the underside of the barrel, partially obscured by the ram rod.
- "SMA" logo was used by Stone Mountain Arms, Incorporated.
- Stone Mountain Arms, Incorporated was located in Norcross, Georgia, United States of America.
- Stone Mountain Arms (SMA) was a manufacturer of black powder firearms.
- Stone Mountain Arms (SMA) was an importer of black powder firearms from Italy and Spain.
- Stone Mountain Arms (SMA) products were marketed by Connecticut Valley Arms (CVA).

Model

- the model designation was not marked on the sample examined. Although this model physically resembles the Colt 1860 Army revolver the cylinder bears a naval scene engraved around its circumference.
- features include: open top design with a case hardened receiver/frame, rammer and hammer; blued barrel and cylinder; brass trigger guard and grip frame; one-piece wood grip; single action only trigger mechanism; right side of recoil shield is scalloped to allow capping of the nipple; blade front sight with a notched hammer for use as a rear sight.

Manufacturer

- "Made in Italy" or "Italy" is marked on the firearm
- "Armi San Marco", "ASM", "San Marco", "S. Marco", "SM" or a variation thereof is marked on firearm.
- "ASM" is the abbreviation for "Armi San Marco".
- "Armi San Marco" was located in Gardone, Italy.
- "Armi San Marco" was acquired by America Western Arms, Incorporated in 2000.
- "Armi San Marco" was reorganized as "American Western Arms, Italia" in 2000.
- "American Western Arms, Italia" was located in Gardone, Italy from 2000 to 2004.
- "American Western Arms, Italia" of Gardone, Italy became "AWA International, Incorporated" in 2004.

Serial Number

- sample examined was numbered on the underside of the receiver/frame ahead of the trigger guard. Sample serial number incorporated an alpha character prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- on the sample examined the Serial Number was marked on the underside of the barrel, partially obscured by the ram rod.
Other Markings	- the sample examined bore no identifiable manufacturer's markings. The barrel was marked "Made In Italy" and the receiver/frame and barrel had Italian proof marks.

Notes

Make

- "STONER" is marked on the receiver/frame.
- "STONER" is derived from the last name of the designer, Eugene Stoner.

Model

- model designation will be marked on the receiver/frame, location is dependant on which configuration the firearm is in.
- this model forms part of a "Weapon System" is available in the following configurations:
- Fixed machine gun.
- Medium machine gun.
- Light machine gun, belt-fed.
- Light machine gun, magazine-fed.
- Assault Rifle, Carbine.
- those samples found in machine gun variation are found in the FRT with the TYPE : Machine Gun
- all configurations are built on one basic componant group with interchangeable parts.
- built with steel stampings and wood or plastic butt and forestocks.

Manufacturer

- manufacturer is marked on receiver/frame.

Action

- no longer capable of full automatic fire.

Serial Number

- samples examined all had six digit serial numbers.

Shots

- this model may be belt fed or have a detachable box magazine.

Notes

Make

- "STONER" over "RIFLE" is marked on the left side of the receiver/frame.
- "STONER" is derived from the last name of the designer, Eugene Stoner.

Model

- "M110" is marked on the right side of the receiver/frame.
- "M110" is the United State Army designation of this semi-auto sniper rifle.
- "M110" was adopted by the United State Army in 2006.
- "M110" variations are based on the SR-25, that is the revised original design of Eugene Stoner AR-10 rifle.
- "M110" has an integrated quick attach/detach suppressor system.
- features include: threaded muzzle for flash hider/muzzle brake; round straight barrel; larger diameter bushing like suppressor attachment in front of the gas block with perpendicular groove on both side; Picatinny rail gas block; four Picatinny rail handguard that free float the barrel with a integral folding front sight; Picatinny rail flat top upper assembly; cartridge case deflector; no forward assist; ambidextrous magazine release, bolt catch and selector; two stage match trigger; adjustable for length buttplate by a knob located on the rear, right side of the stock; flat dark earth finish.
- overall length with a 508mm (20") barrel is 1029mm (40.5") with the buttstock fully in, average weight is 6.94 kg (15.3 lbs).

Manufacturer

- "KNIGHT'S ARMAMENT CO." over "TITUSVILLE, FL. USA" is marked on the right side of the receiver/frame.
- "KNIGHT'S ARMAMENT CO." logo consists of a helmet, sword and axe superposed on a shield with the letters "KAC".

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of a two letter prefix (US) and four numbers.
Calibre	- "7.62MM" was observed marked on the right side of the receiver/frame. - calibre identification may also be marked on the barrel. - 7.62MM NATO rifling characteristics; 5R grooves with 1 turn in 11 inches, right hand twist.
Shots	- detachable box magazine. - M110 use KAC/ Knight (SR-25), C-Products, DPMS and Magpul magazines.
Canadian Law Comments	- As it left the factory, these firearms maybe equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.

Notes

Make

- "STONER" over "RIFLE" is marked on the left side of the magazine housing of the receiver/frame.
- "STONER" is derived from the last name of the designer, Eugene Stoner.

Model

- model designation is marked on the right side of the receiver/frame.
- this is an AR15 type firearm.
- features may include: parkerized finish; synthetic forend; pistol grip and stock; may have flash hider; detachable magazine; collapsible stock; picatinny rails; folding front and rear sights; hand grips and two stage trigger.
- "SR-15" is marked on the receiver/frame.
- "SR-15" variations are based on the Colt AR-15/M16 design.
- features include: threaded muzzle for flash hider/muzzle brake; heavy profile or grooved, M4 carbine contoured barrel; low profile, Picatinny rail or folding front sight bracket/gas block; Picatinny rail; A3 Picatinny rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; collapsible, buttstock; synthetic pistol grip; matte black or tan finish.

Manufacturer

- the company logo appears on the left hand side of the receiver/frame on the magazine housing.
- "KNIGHT'S MFG. CO" over "TITUSVILLE FL." is marked on the right side of the magazine housing.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame on the magazine house.
- custom serial numbers are available on request.
- observed serial numbers conisted of a two letter "KM" prefix and six numbers.

Calibre

- calibre may be marked on the magazine housing.
- calibre identification is marked on the receiver/frame.
- calibre identification may also be marked on the barrel.

Shots

- detachable magazine.
- uses all magazines available for AR15/M16 type rifles.

Notes

Make

- "STONER RIFLE" is marked on the left side of the receiver/frame.
- "STONER" is derived from the last name of the designer, Eugene Stoner.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "SR-16" is marked on the right side of the lower receiver/frame. - "SR-16" may have the upper assembly marked on the left side with their configuration identification, i.e.: SR-16 E3, SR-16 KS-1, SR-16 KS-2, SR-16 KS-3. - "SR-16" model is a variant based on the Colt AR-15/M16 design. - Features include: ventilated handguard with full length accessory rail on top; full length accessory rail on top of the upper assembly; ejection port and cover, shell deflector and forward assist on the right side of the upper assembly; safety selector, magazine release and bolt catch/release are ambidextrous.
Manufacturer	- The company logo is marked on the receiver/frame. - "Knight's Armament Company" logo consists of a helmet, sword and axe superposed on a shield. - "KNIGHT'S ARMAMENT CO" is marked on the right side of the receiver/frame. - "KNIGHTARNCO.COM" is marked on the left side of the firearm.
Action	- Gas operated.
Serial Number	- The serial number is marked on the left side of the receiver/frame.
Calibre	- The calibre designation is marked on the right side of the receiver/frame. - The calibre designation may also be marked on the left side of the upper assembly.
Shots	- Detachable box magazine. - Uses all magazines available for AR15/M16 type rifles.
Canadian Law Comments	- This firearm design incorporates a split receiver/frame: the lower receiver is the master component for the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Notes

Make

- "STONER" over "RIFLE" is marked on the left side of the receiver/frame.
- "STONER" is derived from the last name of the designer, Eugene Stoner.

Model

- "XM110" is marked on the right side of the receiver/frame.
- "XM110" is the United State Army designation for this trialed semi-auto sniper rifle.
- "XM110" was adopted by the United State Army as the "M110" in 2006.
- "XM110" variations are based on the SR-25, that is the revised original design of Eugene Stoner AR-10 rifle.
- "XM110" has an integrated quick attach/detach suppressor system.
- features include: threaded muzzle for flash hider/muzzle brake; round straight barrel; larger diameter bushing like suppressor attachment in front of the gas block with perpendicular groove on both side; accessory rail gas block; four accessory rail handguard that free float the barrel with a integral folding front sight; accessory rail flat top upper assembly; cartridge case deflector; no forward assist; ambidextrous magazine release, bolt catch and selector; two stage match trigger; adjustable for length buttplate by a knob located on the rear, right side of the stock; flat dark earth finish.
- overall length with a 508mm (20") barrel is 1029mm (40.5") with the buttstock fully in, average weight is 6.94 kg (15.3 lbs).

Manufacturer

- "KNIGHT'S ARMAMENT CO." over "TITUSVILLE, FL. USA" is marked on the right side of the receiver/frame.
- "KNIGHT'S ARMAMENT CO." logo consists of a helmet, sword and axe superposed on a shield with the letters "KAC".

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of a two letter prefix (KA).
Calibre	- "7.62MM" was observed marked on the right side of the receiver/frame. - calibre identification may also be marked on the barrel. - 7.62MM NATO rifling characteristics; 5R grooves with 1 turn in 11 inches, right hand twist.
Shots	- detachable box magazine. - M110 use KAC/ Knight (SR-25), C-Products, DPMS and Magpul magazines.
Canadian Law Comments	- As it left the factory, these firearms maybe equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.

120301 - 5	7MM-08 REM	1	500	Prohibited PDR, Part 4, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm as "STRADIVARI".

Model

- the model designation is marked on the firearm.
- this is an unusual single-shot rifle equipped with a "bull-pup" style stock which places the chamber of the firearm rearward of the firing hand/trigger.
- features include: walnut stock with anatomical pistol-grip; a recoil-pad that forms part of the loading/action mechanism; a safety lever at the front of the trigger-guard; automatic ejector; a spring-loaded muzzle-cup to direct blast and noise forward and a high-rise scope-mounting rail for a variety of optical sights.
- to load/unload this firearm, the shooter must pull down on a serrated catch on the recoil-pad, then swing that recoil-pad rearwards; this drops the breech-block to allow access to the chamber.
- available with a 500mm barrel as the "Bull Pup K", with a 630mm barrel as the "Bull Pup M", and with a 740mm barrel as the "Bull Pup L".

Manufacturer

- a manufacturer's identifier (an acronym or logo) is usually marked on the firearm.
- F.A.V.S.'s (an acronym for Fabbrica Armi Valle Susa) logo consists of the letters "FAVS" inside a quadrisected circle, all superimposed on a shield.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- falling block, single-shot action.
Serial Number	- numbered on the receiver/frame, rationalization unknown.
Canadian Law Comments	- This firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2) is removed the receiver/frame or complete barrelled action of the firearm is correctly classified as "Non-Restricted".

FRT Report

Firearm Reference Number (FRN): 120303
Make: Stradivari
Model: Bull Pup L

Summary

Make:	Stradivari
Model:	Bull Pup L
Manufacturer:	Fabbrica Armi Valle Susa (FAVS)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
120303 - 1	25-06 REM	1	740	Prohibited PDR, Part 4, para. 2	Manufacturer Specifications and Commercial Customization	
120303 - 2	270 WIN	1	740	Prohibited PDR, Part 4, para. 2	Manufacturer Specifications and Commercial Customization	
120303 - 3	7X64 BRENNEKE	1	740	Prohibited PDR, Part 4, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm as "STRADIVARI".

Model

- the model designation is marked on the firearm.
- this is an unusual single-shot rifle equipped with a "bull-pup" style stock which places the chamber of the firearm rearward of the firing hand/trigger.
- features include: walnut stock with anatomical pistol-grip; a recoil-pad that forms part of the loading/action mechanism; a safety lever at the front of the trigger-guard; automatic ejector; a spring-loaded muzzle-cup to direct blast and noise forward; and a high-rise scope-mounting rail for a variety of optical sights.
- to load/unload this firearm, the shooter must pull down on a serrated catch on the recoil-pad, then swing that recoil-pad rearwards; this drops the breech-block to allow access to the chamber.
- available with a 500mm barrel as the "Bull Pup K", with a 630mm barrel as the "Bull Pup M", and with a 740mm barrel as the "Bull Pup L".

Manufacturer

- a manufacturer's identifier (an acronym or logo) is usually marked on the firearm.
- F.A.V.S.'s (an acronym for Fabbrica Armi Valle Susa) logo consists of the letters "FAVS" inside a quadrisected circle, all superimposed on a shield.

Action

- falling block, single-shot action.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2) is removed the receiver/frame or complete barrelled action of the firearm is correctly classified as "Non-Restricted".

Notes

Make

- the company logo, consisting of a stylised bullseye next to "Strasser", followed by "RS 14" was observed, on a referenced example, marked on the left side of the bolt.
- Herbert Strasser is the owner/operator of HMS Präzisionstechnik GmbH, a manufacturer based in Eugendorf, Austria; HMS builds several variations of a straight-pull bolt-action rifle designed by E. Blaser.

Model

- introduced in 2015.
- "RS 14" was observed, on a referenced example, marked on both sides of the receiver/frame and also observed on the left side of the bolt.
- this is a straight-pull bolt-action rifle designed by E. Blaser, with a quick-change barrel system, manufactured by HMS Präzisionstechnik GmbH in Eugendorf, Austria.
- features include: adjustable sights; proprietary three-point ball seating scope mounts; plain or fluted barrel; round black plastic bolt handle; bolt mounted thumb safety and cocking indicator; adjustable trigger assembly; checkered semi-pistol grip wooden buttstock with a Bavarian style cheek piece and rubber recoil pad; checkered wooden forearm with schnabel tip; sling swivels; black finish.
- overall length with a 560mm (22") barrel is 1080mm (42"), average weight is 3.2kg (7lbs).
- overall length with a 600mm (24") barrel is 1120mm (44"), average weight is 3.3kg (7¼ lbs).

Manufacturer

- manufactured by HMS Präzisionstechnik GmbH located in Eugendorf, Austria.
- "MADE IN AUSTRIA" was observed, on a referenced example, marked on the right side of the bolt.
- "Strasser" was observed, on a referenced example, marked on the left side of the bolt.

Action

- straight-pull bolt design.

Serial Number

- serial number may be marked on the barrel and on the receiver/frame.

Calibre

- calibre designation may be marked on the barrel and on the magazine.

Shots

- detachable box magazine.

Notes

Make

- "S" over "V" inside a circle may be marked on the side of the receiver/frame.
- "STRAYER - VOIGT INC." may be marked on the underside of the receiver/frame.

Model

- "INFINITY" may be marked on the side of the slide.
- resembles the Colt "1911" type pistol.
- manufactured in such a way that an owner can change slides, calibres, barrel lengths, grip assemblies, and other parts with ease, as all parts are manufactured as "drop-in" components.

Manufacturer

- "S" over "V" inside a circle may be marked on the side of the receiver/frame.
- "STRAYER - VOIGT INC." and "GRAND PRAIRIE TX, USA" may be marked on the underside of the receiver/frame.

Serial Number

- custom serial number available.
- located on right side of receiver/frame, above trigger-guard.

Barrel

- available with plain barrels, ported barrels, and/or compensators.

Calibre

- "CAL. 355", "CALIBER 0.355", "CAL. 400", "CALIBER 0.400", "CAL. 450", or "CALIBER 0.450" may be marked on the chamber of the barrel.
- ".355" is a generic calibre marking for 9MM LUGER, 9X21, 9X25, and 38 SUPER AUTO.
- ".400" is a generic calibre marking for 40 S&W, 40 SUPER, and 10MM AUTO.
- ".450" is a generic calibre marking for 45 AUTO.
- "CLASSIC CAL. 355" and "HYBRICOMP CAL.355" was observed marked on barrels from Schuemann Barrels.

Shots

- detachable box magazine.

Remarks

- the "receiver/frame" on these pistols is a small machined assembly that the grip frame bolts onto, and provides a platform that allows a complete firearm to be built into a number of configurations.
- the slide is built with an interchangeable breech-face to allow an owner to change calibres simply by switching barrels, breech-faces, and extractors.
- the receiver/frames are likewise available in a wide variety of configurations (standard length or extended-length, with or without machining and scope-mount options), and in several different metals (aluminium, titanium, 4140 steel, or stainless steel).

Notes

Make

- "F. Stucki" observed marked on the right side of the receiver/frame over the word "Zurich".
- "FRIED. STUCKI" may be marked on the left side of the receiver/frame, over the word "SOLOTHURN".
- "Stucki, Friedrich" maker in Zurich, circa 1870-1896.
- "Stucki, Friedrich" maker in Solothurn, circa 1896-1899.
- "F. Stucki" is marked on the firearm in various places.
- "Zurich" & "Solothurn" are cities in Switzerland.

Model

- The model designation is not marked on the firearm.
- This martini type action is operated by pulling down on the rear of the trigger-guard, which drops the front face of the breech-block.
- Features include: breech block hinged at the rear of the receiver/frame that swings downward at the front to open; stylized "D" shape hinge trigger guard with curls or curled shape; plain or engraved receiver/frame with or without rear sight or full scope; straight stock with "schuetzen" style hooked buttplate; with or without high comb cheek rest.

Manufacturer

- "F. Stucki" observed marked on the right side of the receiver/frame over the word "Zurich".
- "Stucki, Friedrich" maker in Zurich, circa 1870-1896.
- "Stucki, Friedrich" maker in Solothurn, circa 1896-1899.
- "F. Stucki" is marked on the firearm in various places.
- "Zurich" & "Solothurn" are cities in Switzerland.

Action

- Rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- The serial number is not marked on the receiver/frame.
- The serial number rationalization is unknown.
- Observed three numbers without letter prefix or suffix, marked on the side of the barrel forward of the receiver "ring", but unconnected to the receiver/frame of this firearm.
- The three numbers are not considered the serial number for the purposes of identification.

FRT Report

Firearm Reference Number (FRN): 16227
Make: Stukenbrok, August
Model: Velo Dog

Summary

Make:	Stukenbrok, August
Model:	Velo Dog
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
16227 - 1	5.75MM VELO DOG	5	44	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "AUGUST STUKENBROK" over "FAHRRADER" over "*EINBECK*" is marked on the top strap.
- "August Stukenbrok" was selling firearms and other sporting goods.
- "August Stukenbrok" was located in Einbeck, Germany.

Model

- the name "Velo Dog" is not marked on the firearm.
- the name was originated by Charles Francois Galand (Paris) in 1894 combining "velocipedist" (bicyclist) and "dog".
- originally intended for use by cyclists to dispatch/repell chasing dogs during the late eighteenth and early nineteenth century, when dog rabies was a dreaded common disease.
- the term initially defined a compact stream-lined revolver, initially in 5.75mm (also known as 5.5mm) long centerfire, or the 6mm "Type Francaise" long rimfire cartridge.
- the "Velodog" customarily features a folding trigger, elongated cylinder (fluted or unfluted), 5 to 7 shots (or more), usually a shrouded or enclosed hammer, often a safety lever on the side or rear of the receiver/frame, most have a yoke mounted ejector that tucks away into the cylinder axis pin, bird's head or square hand-grips, round or octagon barrel (often with rudimentary sights).

Other Markings

- may have German proof marks on the cylinder and barrel.

121397 - 1	9.3X72R/16 GA X 2 3/4"	3	695	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Model
- model designation not marked on the firearm.
- features may include: straight or pistol grip stock; damascus barrels; single or double trigger.

Manufacturer
- manufacturer located in Suhl, Germany.
- manufacturer's name is marked on the barrel.

Action
- hinged barrel design.
- barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.

Serial Number
- serial number marked on the receiver/frame.
- example observed with five digits.

Other Markings
- "SUHL" may be marked on the barrel.
- German proof marked on the receiver/frame and barrel.
- the year of manufacture may be located under the barrel.

Notes

Make

- "B. STURMAN" was marked on the right side of the firearm.
- "LONDON" was marked on top of the barrel.

Model

- model designation is not marked on the firearm, this is a descriptor of the firearm type.
- this is a single barrel, muzzle loaded percussion pistol.
- features include: octagonal barrel with fixed front sight; under-barrel ramrod; right side-mounted percussion hammer; observed receiver/frame was engraved with a scroll/leaf pattern; round trigger guard; one-piece wood stock with engraved nose cap; checkered, bag style grip with metal butt cap.

Manufacturer

- "B. STURMAN" was marked on the right side of the firearm.
- "LONDON" was marked on top of the barrel.
- Benjamin Sturman was a gunmaker in London, England from circa 1831 to 1867.
- Benjamin Sturman was located at 17 Union St circa 1831-35, 42 Kingsland Rd circa 1836 to 1851, at 45 Kingsland Rd circa 1855-1866, and 72 Kingsland Rd circa 1867.
- Sturman was succeeded at 72 Kingsland Rd by James Squires.

Action

- muzzle loaded.

Serial Number

- no serial number was observed on the firearm.

Calibre

- calibre designation is not marked on the firearm.

Firearm Reference Number (FRN): 32056
Make: Sturmgewehr
Model: MKb 42

Summary

Make:	Sturmgewehr
Model:	MKb 42
Manufacturer:	Erfurter Maschinenfabrik (ERMA) (ayf)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
32056 - 1	7.92X33 KURZ	5	365	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
32056 - 2	7.92X33 KURZ	30	365	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- the ERMA version of the MKb42 was produced in experimental, small quantity and indeed may not have existed except as a pre-production prototype.
- this design, when further developed, went on to beome the MP43, MP44 and STG44 models.

Manufacturer

- the manufacturer appears on the firearm as "ayf".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- gas operated.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- 8MM the 365mm barrel is for the HAENEL firearm. - the 409mm barrel is for the WALTHER firearm.
Shots	- detachable box magazine.
Remarks	- the ERMA version of the MKb42 was produced in experimental, small quantity and indeed may not have existed except as a pre-production prototype. It has not been listed on the FRT as a Converted Automatic.

- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at one (1), thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.
- verified serial numbers: 078 and 0084.

Barrel

- the 409mm barrel is for the WALTHER firearm
- the 365mm barrel is for the HAENEL firearm.

Shots

- detachable box magazine.

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearms as "MP43".
- full model designation as adopted is "Machinenpistole 43".
- for ease of manufacture this model features a stamped steel receiver.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "ayf".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.

- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearms as "MP43".
- full model designation as adopted is "Machinenpistole 43".
- for ease of manufacture this model features a stamped steel receiver.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "fxo" and "cos".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.
- unfinished firearms and componants from a destroyed factory were transferred to a functional facility for completion, this would account for two factory codes being applied to the firearm.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- may consist of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

37746 - 2	7.92X33 KURZ	30	419	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43".
- full model designation as adopted is "Machinenpistole 43".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "cos".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Serial Number

- may consist of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43".
- full model designation as adopted is "Machinenpistole 43".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "ce".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 32038
Make: Sturmgewehr
Model: MP43

Summary

Make:	Sturmgewehr
Model:	MP43
Manufacturer:	Westfalisch Anhaltische Sprengstoff (r)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
32038 - 1	7.92X33 KURZ	5	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
32038 - 2	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43".
- full model designation as adopted is "Machinenpistole 43".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "r".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43/I".
- full model designation as adopted is "Machinenpistole 43/I".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- The "/1" indicates a minor modification, (the threads at the end of the muzzle are different to accept a different grenade launcher, and the front sight post is changed) to the standard MP43 design.

Manufacturer

- the manufacturer appears on the firearm as "cos".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

50362 - 2	7.92X33 KURZ	30	419	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43/I".
- full model designation as adopted is "Machinenpistole 43/I".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- The "/1" indicates a minor modification, (the threads at the end of the muzzle are different to accept a different grenade launcher, and the front sight post is changed) to the standard MP43 design.

Manufacturer

- the manufacturer appears on the firearm as "cos".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.

Model

- model designation appears on the firearm as "MP43/I".
- full model designation as adopted is "Machinenpistole 43/I".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- The "/1" indicates a minor modification, (the threads at the end of the muzzle are different to accept a different grenade launcher, and the front sight post is changed) to the standard MP43 design.

Manufacturer

- the manufacturer appears on the firearm as "afv".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43/I".
- full model designation as adopted is "Machinenpistole 43/I".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- The "/1" indicates a minor modification, (the threads at the end of the muzzle are different to accept a different grenade launcher, and the front sight post is changed) to the standard MP43 design.

Manufacturer

- the manufacturer appears on the firearm as "afv".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "MP44".
- full model designation as adopted is "Machinenpistole 44".
- this model is a redesignation of the model "MP43", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- may also be known as "STG 44".

Manufacturer

- the manufacturer appears on the firearm as "ayf".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 32052
Make: Sturmgewehr
Model: MP44

Summary

Make:	Sturmgewehr
Model:	MP44
Manufacturer:	Ruhrstahl (p)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
32052 - 1	7.92X33 KURZ	5	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
32052 - 3	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "MP44".
- full model designation as adopted is "Machinenpistole 44".
- this model is a redesignation of the model "MP43", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- may also be known as "STG 44".

Manufacturer

- the manufacturer appears on the firearm as "p".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "MP44".
- full model designation as adopted is "Machinenpistole 44".
- this model is a redesignation of the model "MP43", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- may also be known as "STG 44".

Manufacturer

- the manufacturer appears on the firearm as "afv".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- no longer capable of full automatic fire.
Serial Number	- consist of 1 to 4 digits, most with a letter suffix. - The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc. - if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers. - Late in the war with high producing factories the number system frequently started over again at 1aa.
Shots	- detachable box magazine.

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "MP44".
- full model designation as adopted is "Machinenpistole 44".
- this model is a redesignation of the model "MP43", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- may also be known as "STG 44".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer appears on the firearm as "r". - German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.
Action	- gas operated.
Serial Number	- serial number consists of one to four numbers with or without a letter suffix. - German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc. - if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers. - Late in the war with high producing factories the number system frequently started over again at 1aa.
Shots	- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 32024
Make: Sturmgewehr
Model: MP44

Summary

Make:	Sturmgewehr
Model:	MP44
Manufacturer:	Westfalisch Anhaltische Sprengstoff (r)
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
32024 - 1	7.92X33 KURZ	5	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
32024 - 3	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "MP44".
- full model designation as adopted is "Machinenpistole 44".
- this model is a redesignation of the model "MP43", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- may also be known as "STG 44".

Manufacturer

- the manufacturer appears on the firearm as "r".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

Notes

Make

- The make is not marked on the firearm.
- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- The firearm is universally known and recognized by this name,
- There are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- This firearm set the stage for the generation of "assault weapons" which followed,
- The translation for "Sturmgewehr" is assault rifle.
- The final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- Introduced in 1945.
- "MP45" was observed marked on the left side of the firearm on one example.
- Overall only 30 of these firearms have been produced either as trail/prototype firearms or completed upon being captured by allied forces at the end of World War 2.
- Features include: bakelite front handguard, charging handle located on the left side of the firearm; magazine release located on the left side of the receiver/frame, safety located on the left side of the receiver/frame; may come equipped with dust covers over the ejection port and the charging handle cut out.

Manufacturer

- "MAUSER" was observed marked on the left side of the firearm on one example.
- The receiver/frame, and some complete versions of this firearm were manufactured in Germany within the Mauser factory. On April 19-20, 1945 these completed firearms along side the incomplete MP45's and the contents of the Mauser factory are loaded onto a train heading for Austria. This train is located on June 1, 1945 by a joint task force of U.S and British forces and the incomplete part kits where sent to the Netherlands to be completed by Mauser POW's held there.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- Delayed roller-locking system.
Serial Number	- The serial number was observed on the left side of the firearm on one example. - Observed serial number consisted of a one letter prefix followed dash and two numbers.
Shots	- Detachable box magazine.

Serial Number

- consists of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1, thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 49534
Make: Sturmgewehr
Model: StG44

Summary

Make:	Sturmgewehr
Model:	StG44
Manufacturer:	Ruhrstahl (p)
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
49534 - 1	7.92X33 KURZ	5	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
49534 - 2	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "STG44".
- full model designation as adopted is "Sturmgewehr 44", this translates to "Assault Rifle 44".
- this model is a redesignation of the model "MP44", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "p".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

FRT Report

Firearm Reference Number (FRN): 32054
Make: Sturmgewehr
Model: StG44

Summary

Make:	Sturmgewehr
Model:	StG44
Manufacturer:	Steyr-Daimler-Puch (bnz)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	AUSTRIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
32054 - 1	7.92X33 KURZ	5	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
32054 - 2	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "STG44".
- full model designation as adopted is "Sturmgewehr 44", this translates to "Assault Rifle 44".
- this model is a redesignation of the model "MP44", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "bnz".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- gas operation.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

Firearm Reference Number (FRN): 118169
Make: Sturmgewehr
Model: StG51

Summary

Make:	Sturmgewehr
Model:	StG51
Manufacturer:	Waffenfabrik Bern (WF)
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
118169 - 1	7.5X38 SWISS	5	525	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
118169 - 2	7.5X38 SWISS	30	525	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- "Sturmgewehr" is not marked on the firearm.
- the "MAKE" for this firearm has been assigned to "Sturmgewehr" as the firearm is universally known and recognized by this name, the translation for "Sturmgewehr" is "assault rifle" or "storm rifle".
- this firearm more closely resembles the German "Fallschirmjägergewehr 42" than the more commonly known "Sturmgewehr" family of firearms.

Model

- "StG 51" is not marked on the firearm.
- this firearm was also known as the "Bern short rifle" or "StG W+F 51", this designation breaks down as "StG" for "Sturmgewehr or storm rifle" (assault rifle), "W+F" denotes "Waffen-Swiss-Fabrik" (indicates manufacture at the Swiss government arsenal in Bern") and "51", believed to be the year of development.
- this is an experimental post-World War 2 rifle built for testing and possible adoption by the Swiss military, that greatly resembles a 2/3rds-scale FG42.
- features include: wooden buttstock (which contains recoil apparatus), pistol grip and forearm, flip up adjustable sights, magazine well on the left side of the receiver/frame to accept a horizontal magazine, fire selector switch on the left side of the receiver/frame behind the trigger group, intricately machined muzzle brake/flash suppressor and a folding bipod.
- the Swiss appear to have produced at least two "short" rifle versions, designated StG W+F 51 and StG W+F 52, using the 7.5X38 SWISS cartridge, and several "long" rifle versions, designated the StG W+F 54, StG W+F 55, and StG W+F 56, that used the 7.5X55 SWISS cartridge.

Manufacturer

- manufacturer's name is marked on the top of the magazine well as: "WAFFENFABRIK", over a Swiss cross, over "BERN".
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial number is marked on the receiver/frame and major component parts.

Shots - side mounted, detachable box magazine.

Model: StG54

Summary

Make:	Sturmgewehr
Model:	StG54
Manufacturer:	Waffenfabrik Bern (WF)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121950 - 1	7.5X55 SWISS	5	580	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	
121950 - 2	7.5X55 SWISS	30	580	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	

Notes

Make

- "Sturmgewehr" is not marked on the firearm.
- the "MAKE" for this firearm has been assigned to "Sturmgewehr" as the firearm is universally known and recognized by this name, the translation for "Sturmgewehr" is "assault rifle" or "storm rifle".
- this firearm more closely resembles the German "Fallschirmjägergewehr 42" than the more commonly known "Sturmgewehr" family of firearms.

Model

- "StG 54" is not marked on the firearm.
- this firearm was also known as the "Bern long rifle" or "StG W+F 54", this designation breaks down as "StG" for "Sturmgewehr or storm rifle" (assault rifle), "W+F" denotes "Waffen-Swiss-Fabrik" (indicates manufacture at the Swiss government arsenal in Bern") and "54", believed to be the year of development.
- this is an experimental post-World War 2 rifle built for testing and possible adoption by the Swiss military, that greatly resembles a 2/3rds-scale FG42.
- features include: metal buttstock (which contains recoil apparatus), pistol grip and forearm, flip up adjustable sights, magazine well on the left side of the receiver/frame to accept a horizontal magazine, fire selector switch on the left side of the receiver/frame behind the trigger group, perforated barrel sleeve, intricately machined muzzle brake/flash suppressor and a folding bipod.
- the Swiss appear to have produced at least two "short" rifle versions, designated StG W+F 51 and StG W+F 52, using the 7.5X38 SWISS cartridge, and several "long" rifle versions, designated the StG W+F 54, StG W+F 55, and StG W+F 56, that used the 7.5X55 SWISS cartridge.

Manufacturer

- "WAFFENFABRIK BERN" and the Swiss cross is marked on the top side of the magazine housing.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- located on the top of the magazine housing. - observed specimen has three digits
Shots	- box magazine inserted into the left side of the receiver/frame.

15645 - 2	7.62MM TOKAREV	35	241	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Sudaev" is not marked on the firearm.
- "Sudaev" is derived from the last name of the Russian design, Aleksey I. Sudaev.
- Aleksey I. Sudaev was born in 1912 and died in 1946.
- "Sudaev" designed the PPS42 and PPS43 submachine guns.
- "PPS42" denotes "Pistolet-Pulemyot Sudaev, obrazets 1942", or "Submachine Gun of Sudaev, Pattern of 1942".
- "PPS43" denotes "Pistolet-Pulemyot Sudaev, obrazets 1943", or "Submachine Gun of Sudaev, Pattern of 1943".

Model

- "PPS43" is not marked on the firearm.
- "PPS43" denotes "Pistolet-Pulemyot Sudaev, obrazets 1943", or "Submachine Gun of Sudaev, Pattern of 1943".
- This is a Polish-manufactured copy of the Sudaev PPS43, manufactured under Russian occupation after the end of World War Two; in 1952, this submachine gun was renamed to the "Wz43/52" in Polish service, after minor modifications were made to the design.
- Features include: blued finish; sheet metal pressed receiver/frame and folding stock, plastic or wood pistol grip, flip-over rear sight, ventilation slots in the barrel jacket, curved detachable box magazine, safety catch at the front of trigger guard, curved muzzle brake.

Manufacturer

- "HCP" in a circle (the logo of the "Hipolit Cegielski" factory in Posnan) is marked on the top of the receiver/frame, forward of the rear sight.
- In the early 1950s, the "HCP" factory was renamed to the "Zaklady Metalowe imeni Josef Stalina w Poznan"/"Josef Stalin Metalworks in Posnan", and assigned the factory identifier "Factory 6" under the Warsaw Pact numbering system.

Action

- Blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- Serial numbered on the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- "SUGIURA SHIKI" ("Suguira Type") is marked in Japanese kanji on the right side of the receiver/frame, above the trigger guard.

Model

- "SUGIURA SHIKI" ("Suguira Type") is marked in Japanese kanji on the right side of the receiver/frame, above the trigger guard.
- this is one of several thousand semi-automatic pistols manufactured under Japanese rule in Manchuoko, China, during 1944 and 1945; these pistols were made both in 25 AUTO and 32 AUTO, in two different sizes. Externally, they somewhat resemble a Colt 1903 pistol, but internally, they operate like a Browning 1910 or Spanish "Ruby" pistol.
- features include: blued finish; fixed open sights; removable barrel bushing; Colt 1903-style relieved slide front; external extractor on the right side; single-action trigger mechanism; left-side safety/slide latch at the rear of the receiver/frame; checkered wooden grip panels; heel magazine release.

Manufacturer

- "SUGIURA SHIKI" ("Suguira Type") is marked in Japanese kanji on the right side of the receiver/frame, above the trigger-guard.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial-numbered on the right side of the receiver/frame and slide.
Shots	- detachable box magazine.

Notes

Make	- "SULUN" is marked on the right side of the receiver/frame.
Model	- "AUSLOF" is marked on the right side of the receiver/frame. - Features include: Alofs-type tubular reloading magazine mounted along the left side of the firearm; under-lever action release located on the underside of the receiver/frame, ahead of the trigger guard; safety located on the rear of the trigger guard; receiver/frame and barrel may come in a silver finish; may come equipped with a wooden stock and forend.
Manufacturer	- "OGUZ SILAH SAN" is marked on the right side of the firearm.
Action	- Break action single barrel firearm factory equipped with an Alofs-type tubular reloading magazine on the left side of the firearm. When the action is opened and a cartridge case is ejected, the external carrier pivots to the right, aligning itself with the axis of the bore and feeding a cartridge into the chamber. - If the Alofs-type reloading magazine were removed, this firearm's action would be a break action single-shot design.
Serial Number	- The serial number is marked on the right side of the receiver/frame.
Calibre	- The calibre designation is marked on the barrel.
Shots	- Break action single barrel shotgun factory equipped with an Alofs-type tubular reloading magazine on the left side of the firearm. When the action is opened and a cartridge case is ejected, the external carrier pivots to the right, aligning itself with the axis of the bore and feeding a cartridge into the chamber.

Notes

Make

- "SULUN ARMS" is marked on the right side of the firearm.
- "Sulun Arms" is a trademark of Oguz Silah Sanayi, of Konya, Turkey.

Model

- "SG-105-20" is marked on the right side of the firearm.
- "SG-105" is a "bullpup"-styled semi-automatic shotgun with a raised "carry handle" rear sight base and an ambidextrous operating handle at the top of the receiver/frame, below the carry handle.
- Features include: black or flat dark earth synthetic furniture; flat-top accessory rail for open adjustable or optical sights on a raised carry handle; accessory rails at the front sides of the forearm; ambidextrous operating handle at the top of the receiver, below the carry handle; left-side safety above the pistol-grip; left-side bolt release.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "OGUZ SAVUNMA SAN" is marked on the barrel - "Sulun Arms" is a trademark of Oguz Silah Sanayi, of Konya, Turkey.
Action	- Gas operated.
Serial Number	- The serial number is marked on the left side of the receiver/frame.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the barrel.
Shots	- Detachable box magazine.
Canadian Law Comments	- This firearm has been determined to be a bull-pup design and does not incorporate a bull-pup stock. - In the case of this firearm, it has been determined that the component commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the manufacturer's identification, model identification, proof information, and the full serial number is marked, is the receiver/frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

FRT Report

Firearm Reference Number (FRN): 128669
Make: Suomi
Model: 1931 Homemade Reproduction

Summary

Make:	Suomi
Model:	1931 Homemade Reproduction
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128669 - 1	9MM LUGER	5	318	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	

Notes

Make

- "SUOMI" is marked on the side of the sight.
- "MADE IN SASKATCHEWAN, CANADA" is marked on the right rear side of the receiver/frame.

Model

- model name is not found marked on the firearm.
- this is a Homemade reproduction of a Soumi model 1931 manufactured to fire in the semi automatic mode only.
- this firearm resembles a Suomi model 1931 submachine gun with near precision and is capable of accepting parts, magazines and accessories from an original full-automatic Suomi Model 1931 submachine gun.
- features include: muzzle brake; ventilated, removable barrel jacket; blade front sight, tangent adjustable rear sight; round, tubular receiver/frame; wood, one-piece buttstock; steel butt plate; right side cocking handle and sliding safety catch mounted in the front of the trigger guard.
- the firearm is fed from bottom mounted magazines, both detachable box and detachable drum style.

Action

- advanced primer ignition, blowback operated.

Serial Number

- serial number is marked on the top of the receiver tube at the rear of the back sight.
- serial number rationalization unknown.
- the serial number of the inspected firearm consisted of two letters followed by five digits.

Barrel

- easily removable/replaceable barrel.

Shots

- detachable box or drum magazine.
- accepts all Suomi or PPSH submachine gun magazines and drums.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this Soumi 1931 Copy firearm, although manufactured to be a semi-automatic firearm, was found to fire full-automatic by manipulation of the trigger to prevent the trigger from resetting and holding the bolt to the rear.

Other Markings

- receiver/frame is marked, "MADE IN SASKATCHEWAN, CANADA" on the right rear.
- an original Soumi rear sight housing and rear sight have been mounted on the receiver tube. The markings found on the rear sight housing are of interest but not relevant to the identification of this firearm. The rear sight is marked on the right side "PATENT" over "1932" and on the left side "SOUMI" over "Tikkakoski".
- a maple leaf outline is on the left side of the magazine housing, forward of the magazine opening.

Notes

Make

- Super Six tradename has been associated with several companies.
- Super Six Limited was located in Brookfield/Elkhorn, Wisconsin, U.S.A. until 1992.
- Super Six Limited trademark was purchased by Super Six LLC in 1998.
- Super Six LLC was located in Milwaukee, Wisconsin, U.S.A. from 1999 to 2004.
- Super Six Ltd./Super Six Classic, LLC of Fort Atkinson, Wisconsin has been manufactured by Defense Supply & Manufacturing since 2006.

Model

- Golden Bison Bull is a very large single action revolver based on the Colt 1873 Single Action Army.
- Bison Series are chambered in what would normally be considered a rifle cartridge (factory standard is 45-70 GOVT).
- Bison Series are intended primarily for hunting and silhouette shooting.
- features include: octagonal 4140 chrome-moly steel barrel with manual cartridge ejector assembly and bronze ramp blade front sight; solid top manganese bronze receiver/frame with removable fluted cylinder, right side loading gate, fully adjustable Millett rear sight and an integral scope mount; exposed spur hammer; single action trigger mechanism; manual cross bolt safety; smooth hardwood grip plates; blued barrel, ejector rod assembly, cylinder and loading gate; manganese bronze hammer, trigger, square back trigger guard and grip strap.
- overall length with a 267 mm (10.5") barrel is 445 mm (17.5") and an average weight of 2.7 kgs (6.0 lbs).

Serial Number

- serial number is marked on the bottom of the receiver/frame in front of the trigger and may be repeated on the bottom of the barrel.

Notes

Make

- "SUPERIOR" over "ARMS" is marked on the left side of the magazine housing of the receiver/frame.

Model

- "S-15" is marked on the left side of the receiver/frame.
- "S-15" variations are based on the Colt AR-15/M16 design.
- "S-15" is also sold as a receiver/frame.
- Features include: threaded muzzle for flash hider/muzzle brake; standard, heavy profile or grooved, M4 carbine contoured barrel; AR15/M16 standard, low profile, Picatinny optic/accessory rail or folding front sight bracket/gas block; Picatinny accessory rail, free floating or synthetic handguard; A3 Picatinny optic/accessory rail rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; collapsible, standard or custom rifle buttstock; synthetic pistol grip; matte black finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SUPERIOR" over "ARMS" over "WAPELLO, IA" are marked on the left side of the receiver/frame. - Superior Arms, Inc. is located in Wapello, Iowa, U.S.A. - Superior Arms, Inc. was established in 2004.
Action	- gas operated.
Serial Number	- serial number is located on the left side of the magazine housing of the receiver/frame. - observed serial number consisted of five numbers without a letter prefix or suffix. - observed serial number consisted of six numbers without a letter prefix or suffix.
Calibre	- "CAL 5.56MM" may be marked on the left side of the magazine housing. - "223 Wylde" is a chamber design and not a calibre. - Wylde chamber was designed by Bill Wylde for use with competition 223 Remington loads. - Wylde chamber is designed to allow for the ability to shoot military 5.56 ammo, plus the ability to safely shoot .223 ammo with reliable extraction and match-like accuracy. - Wylde chamber is an improvement on the SAAMI chamber that has traditionally been used in match rifles. - Wylde chamber works with cartridges having an overall length of 2.445, as opposed to the SAAMI specifications of 2.410" for 223 Remington and 2.550" for 5.45x45mm NATO.
Shots	- detachable box magazine. - Uses all magazines available for AR15/M16 type rifles.

FRT Report

Firearm Reference Number (FRN): 3625
Make: Survival Arms
Model: AR-7 Explorer

Summary

Make:	Survival Arms
Model:	AR-7 Explorer
Manufacturer:	Survival Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
3625 - 1	22 LR	8	406	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- circa 1990.
- lower right front side of receiver.
- also available in silvertone finish as the AR-7S Explorer.
- also available in camouflage finish as the AR-7C Explorer.

Manufacturer

- a picture of a wolf's head and the company's name and address may be found on the lower right side of receiver/frame.
- Survival Arms, Incorporated was founded in Orange, CT. U.S.A.
- Survival Arms, Incorporated took over production of the AR-7 Explorer in 1990.
- Survival Arms, Incorporated was located in Cocoa, FL. U.S.A., until 1995.

Action

- simple blowback mechanism.

Serial Number

- unknown serial number rationalization.

Shots

- detachable box magazine.

Remarks

- This is a take down firearm. The barrel and action may be dis-assembled and stored in the synthetic stock. The barrel and action have a black matte finish. This firearm is similar to the AR-7 Explorer, except it is also available with a walnut stock. This walnut stock is not hollowed-out to store the action and barrel.

Firearm Reference Number (FRN): 118795
Make: Sutherland, R
Model: Screw Barrel Pistol

Summary

Make:	Sutherland, R
Model:	Screw Barrel Pistol
Manufacturer:	Sutherland, R
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
118795 - 1	45 PERCUSSION	1	41	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SUTHERLAND" is marked on the left side of the receiver/frame.

Model

- manufactured prior to 1840.
- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- this is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- this handgun is intended to be loaded from the breech end of the barrel and as such was originally suppied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.

Manufacturer

- Richard Sutherland was a manufacturer located in Birmingham England from approximately 1828 to 1839.
- Richard Sutherland was associated with the firm of Ramsay & Richard Sutherland from approximately 1880 to 1927.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- the turnoff barrel may be rifled.

Other Markings

- marked "London" on the right side of the receiver/frame.

Notes

Make

- make is marked on the left side of the receiver/frame.

Model

- model designation is marked on the left side of the receiver/frame.
- manufactured from 1973 to 1974.
- features include: brass receiver/frame, blued rifled barrels, single action only operation, rotating firing pin, post front sight, square notch rear sight, external hammer with barrel selector, spur trigger, barrel release located on the forward bottom of the receiver/frame and dark plastic grips or optional simulated ivory grips.
- this model was available in four variations known as the 4 Aces Model 1, 4 Aces Model 2, 4 Aces Model 3 and 4 Aces Model 4.
- the variations reflected small differences such as:
- Model 1 is the basic model featuring a bird's head grip frame and chambered in 22 SHORT with a 43mm barrel.
- Model 2 is the same as the Model 1 except it features a square grip frame.
- Model 3 is similar to Model 1 except it is chambered in 22 LR with a 51mm barrel.
- Model 4 is the same as the Model 3 except it features a square grip frame.

Manufacturer

- marked on the left side of the receiver/frame as:
"ERL SVENDSON F.A. MFG. CO," and "ITASCA, ILLINOIS, U.S.A."

Action

- sliding barrel assembly with a standing breech.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre designation is marked on the receiver/frame.
- observed sample was marked on the right side of the receiver/frame as:
"22 SHORT STD.VEL. ONLY"

Summary

Make:	Swinburn
Model:	Military Rifle
Manufacturer:	Swinburn
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
118363 - 2	577/450 MARTINI-HENRY	1	580	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	
118363 - 1	577/450 MARTINI-HENRY	1	838	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Swinburn's Patent" may be marked on the side of the receiver/frame.

Model

- manufactured circa 1875 to1880.
- under lever operated dropping block, single shot rifle.
- externally resembles the British Martini-Henry service rifle but differs mechanically by utilizing an internal hammer, leaf springs and lever on the right side of the receiver/frame serving as a means to cock and uncock the action.
- manufactured in military rifle and carbine configuration.
- Swinburn rifles and carbines were purchased in quantity by the Boer republics in the 1870's and were used in the Boer War (1899 to 1902) and are marked OVS (Oranje Vreij Staat) on the receiver/frame. A number of Swinburns were brought to Canada as war trophies by returning servicemen.

Manufacturer

- Swinburn was a firearms manufacturer located in Birmingham, England from 1834 to 1883.
- Charles Phillip Swinburn was the successor to Field & Swinburn circa 1834.
- Charles Phillip Swinburn was located at 15 Newton Row in the 1830s, 14 Weaman Row St. Mary's in the 1840s and 17 Russell Street from the 1850 to the 1880s .
- John Field Swinburn, the son of Charles Phillip Swinburn was granted the following British Patent Numbers 110 in 1872; 1895 in 1872; 3635 in 1875; 3689 in 1876; 2206 in 1877; 2711 in 1880; 4291 in 1880; 525 in 1883; 145 in 1883; 6624 in 1884; and 17,008 in 1885.
- Charles Phillip Swinburn and John Field Swinburn's business was known as Swinburn & Son from 1851 to 1883.

Notes

Make

- "SWINDLEHURST" over "ACTION ONT. CAN." may be marked on the left side of the receiver ring.

Model

- "MODEL S. S. 4" may be marked on the right side of the receiver ring.
- "S S 4" stands for "Stainless Steel 4".
- this is a bolt-operated single-shot custom benchrest rifle, with a stainless-steel action and barrel.
- synthetic in-line fibreglass stock with beavertail forearm, fluted two-lug bolt based on the Rem. 700, and some of these rifles were supplied with two separate bolts, to allow re-barreling and use with large and small case-head chamberings.
- many of these rifles were expressly designed to be re-barreled on a regular basis (with a foot wrench, or a minimum of tools), or to be cut back and re-crowned to preserve accuracy.
- semi-octagonal receiver with year of manufacture marked in full (ie. "1994"), and a spring-loaded bolt release on left side; this receiver outwardly resembles the RPA Quadlock, but with a two-lugged bolt.

Manufacturer

- "SWINDLEHURST" over "ACTON ONT. CAN." may be marked on the left side of the receiver ring.
- "Swindlehurst" was a low-production manufacturer/custom gunsmith based in Acton, Ontario, that specialized in building single-shot benchrest rifles.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is stamped on the right side of the receiver/frame. - example of markings "SER. NO. ##".
Calibre	- other chamberings likely and possible; these rifles were meant to be "convertible" with very little effort.

Notes

Make

- "SWINDLEHURST" over "Acton Ont. Can." or variation thereof is usually marked on the receiver/frame.

Model

- no model designation is marked on this firearm.
- this is a custom made, turn bolt operated, magazine fed, target rifle based on a Mauser-type of action.
- Swindlehurst actions were usually designed to be easily re-barreled on a regular basis.
- virtually any calibre/barrel length combination is possible.
- barrels were also supplied in stainless steel.

Manufacturer

- "SWINDLEHURST" over "Acton Ont. Can." or variation thereof is usually marked on the receiver/frame.
- Swindlehurst was a small volume manufacturer/custom gunsmith located in Acton, Ontario, Canada, circa 1988 to 1992; he specialized in building precision target rifles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn bolt operated.
Serial Number	- known example had a four digit number without prefix or suffix marked on the left side of the receiver ring.
Calibre	- calibre designation is marked/stamped on the barrel.
Shots	- internal box magazine.

FRT Report

Firearm Reference Number (FRN): 145158
Make: Swiss Anti Tank Rifle
Model: Tankbusche 41

Summary

Make:	Swiss Anti Tank Rifle
Model:	Tankbusche 41
Manufacturer:	Swiss State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Semi-Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145158 - 1	24X138 ANTI-TANK	6	1515	Prohibited PFR, Part 1, para. 95(z.238)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is not marked on the firearm.
Model	- the model is marked on the firearm as "Tb.41", an abbreviation of "Tankbusche 41", or "Anti-tank Rifle, Model of 1941". - this is an unusual anti-tank rifle adopted by Switzerland in 1941 as anti-tank armament to counter the threat of German invasion. This rifle/cannon is unusual in that it uses the same sort of short-recoil "toggle-lock" of the Luger pistol, the M25 machine gun, and the MP41/44 submachine gun; in this rifle, the toggle is laid on its side so that it "breaks" to the right during operation. - this rifle was designed to be light enough to be easily portable from one firing point to the next, and it was seen on tripod and wheeled mounts that could be carried or towed via two-man crew, bicycle or light vehicle. - features include: blued finish; large cylindrical muzzle brake; heavy barrel; tubular receiver; a six-round box magazine that inserts horizontally from the left, open adjustable sights; and dual spade grips.
Manufacturer	- the manufacturer or logo thereof is marked on the firearm.
Action	- toggle link recoil operated.
Serial Number	- numbered on the receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

Notes

Make

- make may not be marked on the firearm.

Model

- "Black Special" is marked on the left side of the upper receiver/frame.
- this model is based on the SG550/SG551 series of firearms.
- features include: shiny black finish; safety lever is located on the left side of the lower receiver/frame; right side ejection; push-forward type magazine release lever is located in front of the trigger guard; buttstock may have a thumbhole.
- detachable box magazines are made of a translucent synthetic material which allows the contents to be viewed by the user; these magazines also have studs and slots in their sides which permit two or more magazines to be "clipped" together.
- overall length with a 528mm barrel is approximately 775mm with the buttstock folded.

Manufacturer

- manufacturer's name may not be marked on the firearm.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the upper receiver/frame above the magazine housing, the last four digits may be repeated on the lower receiver/frame. - serial number observed consisted of a three letter "ESF" prefix and five numbers. - "ESF" denotes "Export Semi-Automatic Firearm".
Shots	- detachable box magazine.
Other Markings	- "CH 016" may be marked on the left side of the upper receiver/frame, which may denote a Swiss Government manufacturing licensing requirement.

Notes

Make

- make may not be marked on the firearm.

Model

- "Classic Green - Carbine" is marked on the left side of the upper receiver/frame.
- this model is based on the SG550/SG551 series of firearms.
- features include: grey/green finish; safety lever is located on the left side of the lower receiver/frame; right side ejection; push-forward type magazine release lever is located in front of the trigger guard; butt stock may have a thumbhole.
- detachable box magazines are made of a translucent synthetic material which allows the contents to be viewed by the user; these magazines also have studs and slots in their sides which permit two or more magazines to be "clipped" together.
- overall length of 924mm (36.4") with stock extended and 698mm (27.5") with the butt stock folded; average weight is 3.6kg (7.94 lbs).

Manufacturer

- manufacturer's name may not be marked on the firearm.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the upper receiver/frame above the magazine housing, on the top of the receiver/frame, and is repeated on the lower receiver/frame assembly. - serial number observed consisted of a three letter "ESF" prefix and five numbers. - "ESF" denotes "Export Semi-Automatic Firearm".
Calibre	- the calibre designation may be marked on the firearm. - rifling characteristics: 6-grooves, 1 turn in 10 inches (254mm).
Shots	- detachable box magazine.
Other Markings	- "CH 016" may be marked on the left side of the upper receiver/frame, which may denote a Swiss Government manufacturing licensing requirement.

Notes

Make

- make may not be marked on the firearm.

Model

- model designation is marked on the left side of the upper receiver/frame.
- this model is based on the SG550/SG551 series of firearms.
- features include: bright red finish; safety lever is located on the left side of the lower receiver/frame; right side ejection; push-forward type magazine release lever is located in front of the trigger guard; buttstock may have a thumbhole.
- detachable box magazines are made of a translucent synthetic material which allows the contents to be viewed by the user; these magazines also have studs and slots in their sides which permit two or more magazines to be "clipped" together.
- overall length with a 528mm barrel is approximately 775mm with the buttstock folded.

Manufacturer

- manufacturer's name may not be marked on the firearm.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the upper receiver/frame above the magazine housing, the last four digits may be repeated on the lower receiver/frame.
- serial number observed consisted of a three letter "ESF" prefix and five numbers.
- "ESF" denotes "Export Semi-Automatic Firearm".

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "CH 016" may be marked on the left side of the upper receiver/frame, which may denote a Swiss Government manufacturing licensing requirement.

Notes

Make

- "SAN SG751 APR" is usually marked on the left side of the upper receiver/frame.

Model

- introduced in 2004 and production began in 2009.
- "SAN SG751 APR" is usually marked on the left side of the upper receiver/frame.
- "SG751 APR" uses a two piece/split receiver/frame.
- "SG751 APR" is based on the SIG SG 550 series of firearms.
- features include: interchangeable round cold hammer forged, free floating rifled barrel with threaded muzzle for bird cage type muzzle brake or sound suppressor; gas block with adjustable gas valve and flip-up front sight; stamped steel upper receiver/frame has an integral Picatinny rail and flip-up emergency rear sight; aluminum alloy lower receiver/frame with ambidextrous fire control/selector, folding trigger guard, magazine release located behind the magazine well; quick change synthetic forearm with or without tactical rails and bipod; synthetic or wood pistol grip; synthetic collapsible or side folding buttstock; sling attachments; black, desert or green finish.
- Swiss Arms SG751 APR is also available as a semi automatic version known as the SG751 SAPR.

Manufacturer

- "SAN" was observed marked on the left side of the upper receiver/frame.

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the upper receiver/frame, and the last four numbers were marked on the lower unit.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- the 520MM barrel length includes an integral flash eliminator. - overall barrel length with a muzzle brake attached varies from 365MM (14"), 455MM (18"), to 520MM (20 1/2").
Calibre	- "7.62x51" was observed marked on the left side of the upper receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

- "SG751 SAPR" uses a two piece/split receiver/frame.
- "SG751 SAPR" is based on the SIG SG 550 series.
- features include: interchangeable round cold hammer forged, free floating rifled barrel with threaded muzzle for bird cage type muzzle brake or sound suppressor; gas block with adjustable gas valve and flip-up front sight; stamped steel upper receiver/frame has an integral Picatinny rail and flip-up emergency rear sight; aluminum alloy lower receiver/frame with ambidextrous fire control/selector, fold able trigger guard, and magazine release located behind the magazine well; quick change synthetic forearm with or without tactical rails and bipod; synthetic or wood pistol grip; synthetic collapsible or side folding buttstock; sling attachments; black, desert or green finish.
- overall length with a 560 mm barrel and the stock in the open position is 1040 mm.
- overall length with a 560 mm barrel and the stock in the folded position is 800 mm.
- average weight is 4.8 kgs.
- Swiss Arms SG751 SAPR is available as a full automatic (selective fire) or semi-automatic version.

Manufacturer

- "SAN SG751 SAPR" was observed marked on the left side of the upper receiver/frame.

Action

- gas operated.
- selective fire (single, three round burst or full automatic).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number was observed marked on the left side of the upper receiver/frame, and the last four numbers were marked on the lower unit. - observed serial number consisted of a letter "R" prefix and five numbers.
Barrel	- overall barrel length with a muzzle brake attached are: 365 mm (14"), 455 mm (18"), and 520 mm (20").
Calibre	- "SAN SG751 SAPR 7.62x51" was observed marked on the left side of the upper receiver/frame.
Shots	- detachable box magazine.

Firearm Reference Number (FRN): 129606
Make: Swiss Arms
Model: SG751 SAPR

Summary

Make:	Swiss Arms
Model:	SG751 SAPR
Manufacturer:	SAN Swiss Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129606 - 1	7.62MM NATO	20	445	Prohibited PFR, Part 1, para. 83	Manufacturer Specifications and Commercial Customization	
129606 - 2	7.62MM NATO	30	520	Prohibited PFR, Part 1, para. 83	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SAN SG751 SAPR" was observed marked on the left side of the upper receiver/frame.

Model

- introduced in 2004 and production began in 2009.
- "SAN SG751 SAPR" was observed marked on the left side of the upper receiver/frame.
- "SAPR" stands for "Swiss Arms Precision Rifle".
- "SG751 SAPR" uses a two piece/split receiver/frame.
- "SG751 SAPR" design derives from the SIG SG 550 series of firearms.
- features include: interchangeable round cold hammer forged, free floating rifled barrel with threaded muzzle for bird cage type muzzle brake or sound suppressor; gas block with adjustable gas valve and flip-up front sight; stamped steel upper receiver/frame has an integral Picatinny rail and flip-up emergency rear sight; aluminum alloy lower assembly with ambidextrous fire control/selector, folding trigger guard, magazine release located behind the magazine well; quick change synthetic forearm with or without tactical rails and bipod; synthetic or wood pistol grip; synthetic collapsible or side folding buttstock; sling attachments; black, desert or green finish.
- Swiss Arms SG751 SAPR is also available as a full automatic (selective fire) version known as the SG751 APR.

Manufacturer

- "SAN SG751 SAPR" was observed marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the upper receiver/frame, and the last four numbers were marked on the lower unit.
- serial number observed consisted of a letter "R" prefix and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- the 520MM barrel length includes an integral flash eliminator. - overall barrel length with a muzzle brake attached varies from 365MM (14"), 455MM (18"), to 520MM (20 1/2").
Calibre	- 7.62x51" was observed marked on the left side of the upper receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada. - In 2013/2014, a thorough inspection of the Classic Green family of firearms (which included this Model) has determined this Model to be a variant of the firearm commonly known as the SG-550 rifle or SG-551 Carbine and is therefore prohibited under Part 1, para. 83 of the Prohibited Firearm Regulations in Part III of Section 84 of the Criminal Code of Canada.

Notes

Make

- make may not be marked on the firearm.

Model

- model designation is marked on the left side of the upper receiver/frame.
- this model is based on the SG550/SG551 series of firearms.
- features include: red finish with a flower on the right side and a cow on the left side; safety lever is located on the left side of the lower receiver/frame; right side ejection; push-forward type magazine release lever is located in front of the trigger guard; buttstock may have a thumbhole.
- detachable box magazines are made of a translucent synthetic material which allows the contents to be viewed by the user; these magazines also have studs and slots in their sides which permit two or more magazines to be "clipped" together.
- overall length with a 528mm barrel is approximately 775mm with the buttstock folded.

Manufacturer

- manufacturer's name may not be marked on the firearm.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the upper receiver/frame above the magazine housing, the last four digits may be repeated on the lower receiver/frame.
- serial number observed consisted of a three letter "ESF" prefix and five numbers.
- "ESF" denotes "Export Semi-Automatic Firearm".

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "CH 016" may be marked on the left side of the upper receiver/frame, which may denote a Swiss Government manufacturing licensing requirement.

Notes

Make

- "SWISS" over "ARMS" was observed, on a referenced example, marked on the right side of the receiver/frame.
- "MADE IN CHINA" was observed marked on the firearm.

Model

- "Tac 1" was observed marked on the right side of the receiver/frame.
- features include: round rifled steel barrel with muzzlebrake; receiver/frame/tube is grooved for scope mounts; manual safety within the trigger guard; ambidextrous, thumbhole, one piece, synthetic stock with rubber butt pad.
- available with a scope.
- overall length with a 467mm barrel is 1111mm (43.75").

Action

- spring piston, break barrel.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- alpha/numeric serial number was observed, on a referenced example, marked on the left side of the breech of the barrel assembly.
- observed serial number consisted of a letter prefix followed by eleven numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- ".177 CAL. (4.5MM)" was observed marked on the right side of the breech of the barrel assembly.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Possession, Export and Import.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3).

Notes

Make

- make may not be marked on the firearm.

Model

- the model name is marked on the right side of the receiver/frame in Latin as "Ver" which is the Latin word for "Spring".
- this firearm model is one of four models of a limited edition run of firearms designated "Season Specials" to commemorate Swiss Shooting Societies.
- total production purported to be 100 examples of each "season".
- model designation is marked on the right side of the upper receiver/frame.
- this model is based on the SG550/SG551 series of firearms.
- features include: imitation wood-grain finish on the synthetic furniture and a shade of brown on the metal parts; ambidextrous safety lever on the lower receiver/frame; right side ejection; push-forward type magazine release lever is located in front of the trigger guard; folding buttstock.
- detachable box magazines are made of a translucent synthetic material which in this case is an imitation wood-grain finish; these magazines also have studs and slots in their sides which permit two or more magazines to be "clipped" together.
- overall length with a 528mm barrel is approximately 775mm with the buttstock folded.

Manufacturer

- manufacturer's name may not be marked on the firearm.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the upper receiver/frame above the magazine housing. The last four digits may be repeated on the lower receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

106517 - 2	7.5X55 SWISS	5	584	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
106517 - 1	7.5X55 SWISS	30	584	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- designed by Col. Adolf Furrer, the director of the Swiss government arsenal in Bern, Switzerland.

Model

- model designation is not marked on the firearm.
- uses a toggle mechanism (similar to the one employed on the Luger P08) layed on its side, it also uses a differential recoil system; the barrel and bolt are still moving forward from the previous shot as the firearm is fired.
- magazine is inserted into the right side of the receiver/frame.
- features a rifle type stock with a pistol grip and a bipod.

Manufacturer

- "WAFFENFABRIK" over a Swiss Cross, over "BERN" is marked on the top side of the magazine housing.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number is marked on the top side of the magazine housing.

Shots

- detachable box magazine mounted on the right side.

120623 - 1	7.5X55 SWISS	N/A	564	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a Swiss modification of the German MG42 general-purpose machinegun, that differs from the original in a number of ways.
- where the original MG42 was made with an emphasis on ease-of-manufacture and as many stamped parts as possible (to save the time required for machining operations), the M51 uses an abundance of machined parts and uses a "wing" or "flap"-style locking mechanism on the bolt instead of the roller-locking system of the MG42.
- a version of this machinegun intended strictly for armoured-vehicle mounting is also in Swiss service as the "MG83", without a butt assembly or a ventilated barrel shroud.

Manufacturer

- the manufacturer (or logo thereof) is marked on the firearm.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- recoil-operated.

Serial Number

- numbered on the receiver/frame.

Shots

- belt-fed firearm.

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a Swiss modification of the German MG42 general-purpose machinegun, in a specific vehicle-mounted configuration (for use in tanks, half-tracks, etc.).
- where the original MG42 was made with an emphasis on ease-of-manufacture and as many stamped parts as possible (to save the time required for machining operations), the MG83 uses an abundance of machined parts and uses a "wing" or "flap"-style locking mechanism on the bolt instead of the roller-locking system of the MG42.
- a version of this machinegun intended for use as a general-purpose machinegun (GPMG) is also in Swiss service as the "MG51", and may be seen on a bipod or tripod mount.

Manufacturer

- the manufacturer (or logo thereof) is marked on the firearm.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- recoil-operated.

Firearm Reference Number (FRN): 125623
Make: Swiss Mini Gun
Model: Miniature Revolver

Summary

Make:	Swiss Mini Gun
Model:	Miniature Revolver
Manufacturer:	Swiss Mini Gun
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125623 - 1	2.34MM RF	6	18	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SwissMiniGun" is usually marked on the left side of the barrel.

Model

- model designation is not usually marked on the firearm.
- this firearm is a miniature handgun loosely patterned after the Colt Python revolver.
- introduced circa 2004.
- features include: stainless steel receiver/frame and barrel; swing out cylinder; wooden grips; spurred hammer; exposed trigger without trigger guard.
- due to the small size of this firearm the traditional trigger and trigger guard are a one piece decorative unit that is integral with the exposed functional trigger located below them.
- this firearm is also available plated in 18k yellow gold.
- overall length: 5.5cm (2 1/8")

Manufacturer

- "SwissMiniGun" is usually marked on the left side of the barrel.

Action

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is usually marked on the backstrap of the receiver/frame.
- seral number rationalization for a typical serial number of C1ST001 is as follows:
  C= denotes year of 2004; 1= denotes first lot; ST= stainless steel; 001= individual firearm number.

Canadian Law Comments

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "Stainless Steel Switzerland" may be marked on the front edge of the grip-frame.

Notes

Make

- "SWISS SERVICE" is not marked on the firearm.
- the individula Canton's name may be marked on the firearm, such as "BERNE", and "SCHWYZ".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- converted to percussion ignition in 1842.
- "1817/42" is not marked on the firearm.
- features include: round smoothbore barrel with a nose cap that serves as a combination front sight and ram rod guide, and two barrel bands; ramrod mounted under the barrel; right side lock plate with a percussion hammer; one piece full length wood stock with straight grip and sling swivels.
- Swiss Service model 1817 was a muzzle loading, flintlock smoothbore musket.
- Swiss Service model 1817/42 was a muzzle loading, flintlock smoothbore musket converted to a percussion ignition system.
- Swiss Service model 1817/42/59 was a muzzle loading, percussion smoothbore musket converted to a rifled bore.
- Swiss Service model 1817/42/59/67 was a muzzle loading, percussion rifle converted to a breech loading cartridge system using a "Milbank-Amsler" design in 1867.
- "Milbank-Amsler Conversions" was patented by Isaac Milbank and adapted by Rudolf Amsler.
- Milbank-Amsler's top hinged breech block design is similar to the "Springfield Trap Door".
- "Milbank-Amsler Conversion" was applied to numerous Swiss Service firearm, such as the:
- Swiss Service model 1842 was a muzzle loading, percussion smoothbore musket.
- Swiss Service model 1842/59 was a muzzle loading, percussion smoothbore musket converted to a rifled bore.
- Swiss Service model 1842/59/67 was a muzzle loading, percussion rifle converted to a breech loading cartridge system.
- Swiss Service model 1851 was a muzzle loading, percussion short rifle.
- Swiss Service model 1851/67 was a muzzle loading percussion short rifle converted to a breech loading cartridge system.
- Swiss Service model 1856 was a muzzle loading, percussion short rifle.
- Swiss Service model 1856/67 was a muzzle loading percussion short rifle converted to a breech loading cartridge system.
- Swiss Service model 1863 was a muzzle loading, percussion rifle.
- Swiss Service model 1863/67 was a muzzle loading, percussion rifle converted to a breech loading cartridge system.
- Swiss Service model 1864 was a muzzle loading, percussion rifle.
- Swiss Service model 1864/67 was a muzzle loading, percussion rifle converted to a breech loading cartridge system.

Manufacturer

- original manufacture's marking may be visible on the firearm.
- Swiss State Arsenals is not marked on the firearm.
- Swiss State Arsenal as a manufacturer is for those facilities located in the Cantons of Switzerland.
- Swiss Confederacy was originally made up of thirteen (13) sovereign states/cantons/districts in the 16th century.
- Old Swiss Confederancy of the 16th century consisted of the cantons of Appenzell, Basel, Bern/Berne, Glarus, Freiburg, Luzern, Schaffhausen, Schwyz, Solothurn, Unterwalden, Uri, Zug, and Zurich.
- Swiss Federal State was established in 1848.
- Switzerland consisted of twenty-six (26) cantons in 2011.
- Cantons of Switzerland and dates established are as follows: Aargau = 1803, Appenzell = 1513, Appenzell Ausserrhoden (formally Appenzell) = 1597, Appenzell Innerrhoden (formally Appenzell) = 1597, Basel = 1501, Basel-Stadt (formally Basel) = 1833, Basel-Landschaft (formally Basel) = 1833, Bern/Berne = 1353, Geneva = 1815, Glarus = 1352, Graubunden = 1803,
- Freiburg (renamed Fribourg) = 1481, Fribourg (formally Freiburg), Jura (previously part of Bern/Berne) = 1979, Lucerne (formally Luzern), Luzern (renamed Lucerne) = 1332, Neuchatel = 1815, Nidwalden (formally Unterwalden), Obwalden (formally Unterwalden), Schaffhausen = 1501, Schwyz = 1291, Solothurn = 1481, St. Gallen = 1803, Thurgau = 1803, Ticino = 1803, Unterwalden (renamed Nidwalden and Obwalden) = 1291, Uri = 1291, Valais = 1815, Vaud = 1803, Zug = 1352, and Zurich = 1351.

Action

- muzzle loading, percussion ignition.

Serial Number

- serial number of an observed example consisted of five numbers and was marked on the barrel and the buttstock.

Other Markings

- "S&W" or "S 8c W" was observed marked on the breech block and "B-F" under a crown was marked on various components.

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation is not marked on the firearm.
- the model "1872" was manufactured between 1873 and 1878.
- in 1878, this service revolver was converted to a center-fire and redesignated the model "1872/78".
- features include: octagonal barrel; solid receiver/frame with fluted cylinder and loading gate on the right side; double action trigger mechanism; trigger guard; lanyard ring on bottom of butt; checkered wood grips; fixed sights; blued finish.
- this is a double-action revolver of the type commonly known as a "Chamelot-Delvigne-Schmidt", after the surnames of the three inventors who patented it, and which was adopted by the Belgian military in 1871. These revolvers are commonly marked "CDS" in an oval, at the front of the receiver/frame, in front of the cylinder.

Manufacturer

- "Pirlot Freres" is marked on the left side of the receiver/frame.

Serial Number

- the serial number may have a letter prefix and be marked on the right side of the receiver/frame.

Notes

Make

- this model was declared the official revolver for the Swiss army in May of 1882.

Model

- model designation does not appear on the firearm.
- manufactured between 1882 and 1917.
- designed and adopted as a replacement for the model 1878, this model used a smaller calibre cartridge.
- intended for use by officers as a close range, self defense weapon.
- this model also was available with a shoulder stock attachment for longer range shooting, this accessory was not issued to military personnel.

Manufacturer

- some units were also manufactured by Waffenfabrik Bern.

Serial Number

- serial number is marked on all major components.
- combined production (SIG and Bern) serial number range may fall between from 1 to 37,254.
- some serial numbers may have a "p" prefix indicating manufacture for private or commercial sale.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- samples may be marked with unit or Regimental numbers.

Notes

Make

- declared the official revolver for the Swiss army in May of 1882.

Model

- model designation does not appear on the firearm.
- manufactured between 1882 and 1917.
- designed and adopted as a replacement for the model 1878, this model used a smaller calibre cartridge.
- intended for use by officers as a close range, self defense weapon.
- this model also was available with a shoulder stock attachment for longer range shooting, this accessory was not issued to military personnel.

Manufacturer

- some of the componants were sub-contracted to other firms and assembled by Waffenfabrik Bern.
- some units were also manufactured by SIG of Neuhausen.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Serial Number

- serial number is marked on all major componants.
- combined production (SIG and Bern) serial number range may fall between from 1 to 37,254.
- some serial numbers may have a "p" prefix indicating manufacture for private or commercial sale.
- serial number rationalization from the Bern factory records confirm that the last serial number made in 1897 was 7508 and 1898 began with serial number 7509.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearm Reference Number (FRN): 111115
Make: Syracuse Arms
Model: Hollenbeck

Summary

Make:	Syracuse Arms
Model:	Hollenbeck
Manufacturer:	Syracuse Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
111115 - 1	12 GA X 2 3/4"	2	764	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- the make is marked in front of the trigger guard, on the trigger plate as: "SYRACUSE ARMS CO."

Model

- "THE HOLLENBECK" is marked in front of the trigger guard, on the trigger plate.
- on some high grade guns the grade may be found stamped on the water table.
- this firearm is a box-lock, hammerless, side by side, double barreled shotgun, with double triggers, top tang mounted opening lever and sliding safety, and checkered walnut butt stock and forend.
- this firearm model was manufactured and offered for sale under the model name "THE HOLLENBECK" from 1893 to 1895.
- coincidental to the resignation of Frank Hollenbeck from the Syracuse Arms Company in July of 1895, the name of the Syracuse Arms Company's sole product was changed from "The Hollenbeck" to the "The Syracuse".

Manufacturer

- the manufacturer's designation is marked in front of the trigger guard, on the trigger plate and on the top of the left barrel as: " MADE BY SYRACUSE ARMS CO".

Action

- side by side, double barreled shotgun.

Serial Number

- the serial number will be found marked on the watertable of the receiver/frame and the matching flat of the barrel mono-block. Whole or partial serial numbers may be found on other components of the firearm.
- reported specimen serial numbers have consisted of up to five digits without prefix or suffix.

Calibre

- on observed sample calibre designation was not marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- a variety of grades of embellishment exist, the grade information may be found marked on the water table. In some cases the grade must be inferred as it does not always appear to be marked on the firearm.
- grades known to exist are as follows: 0, 2, 3; grade 3 being the highest quality.

Notes

Make

- "Syracuse Arms Co." is marked on the firearm.
- "Syracuse Arms Co." was observed marked on left barrel and left side of receiver/frame of an example.
- "SYRACUSE ARMS CO.", over a "dog's head logo", over "SYRACUS N.Y." may be marked on the buttplate

Model

- no model name is marked on this firearm.
- this is a generic entry for side by side shotguns made by Syracuse Arms that have no model designation.
- top break.
- may be boxlock or sidelock, hammer or hammerless, single or double triggers, top lever opening.
- may have top tang sliding safety.

Action

- side by side barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number was observed marked on bottom tang behind the trigger guard on an example.
- observed serial numbers consisted of five numbers without a letter prefix or suffix.

Other Markings

- known example marked:
  - "Improved Damascus Steel" on rear right side of right hand barrel.
  - "Pat Oct 6, 1896" on underside of forearm.
  - "Pat Sept 26, '96" on rear left side of receiver/frame.

Notes

Make

- "SYRACUSE FORGING & GUN CO." is marked on the receiver/frame.
- the Syracuse Forging and Gun Company (NO RELATION TO THE "SYRACUSE ARMS CO.") was founded in Syracuse, New York, in 1887, by Dr. Ellis Baker, to build shotguns based on the patents of W.H. Baker, Dr. Baker's brother. In 1889, after a factory fire, the company moved to Batavia, New York, where it remained in business until 1890, when it was renamed as the "Baker Gun & Forging Co.".

Model

- "NEW BAKER" is marked on the side of the receiver/frame.
- this is a standard-pattern side by side exposed-hammer shotgun manufactured by the Syracuse Forging & Gun Company between 1887 and 1890, before the company was sold and became the "Baker Gun & Forging Co.".
- features include: blued finish; Damascus barrels; matte rub; doll-s-head extension with underlug lock-up; double triggers; manually-cocked side-hammers; and walnut; splinter forearm with semi-pistol-grip stock.

Manufacturer

- "SYRACUSE FORGING & GUN CO." is marked on the receiver/frame.
- the Syracuse Forging and Gun Company (NO RELATION TO THE "SYRACUSE ARMS CO.") was founded in Syracuse, New York, in 1887, by Dr. Ellis Baker, to build shotguns based on the patents of W.H. Baker, Dr. Baker's brother. In 1889, after a factory fire, the company moved to Batavia, New York, where it remained in business until 1890, when it was renamed as the "Baker Gun & Forging Co.".

Action

- side by side configuration.

Serial Number

- serial number is marked on the receiver/frame.

Barrel

- barrel lengths may vary.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - gauges and chamber lengths may vary.

198412 - 1	12 GA X 3"	2	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The company logo is marked on the firearm.
- The company logo consists of a stylized "S".
- "Syren" originally started as line of firearms offered by "Caesar Guerini" and "Fabarm" until it gained enough popularity that it became its own brand. "Syren" makes shotgun models exclusive to their brand as well as versions of popular models from both of their parent brands that are sized appropriately for women. All of the shotguns made by "Syren" are meant exclusively for female shooters and their specific needs.

Model

- "ELOS N2 ELEVATE" is marked on the right side of the receiver/frame.
- "ELOS N2" is marked on the underside of the receiver/frame.
- Features include: quick release. interchangeable, tapered, ventilated top rib; action release lever located on the upper tang of the receiver/frame; safety and barrel selector located on the upper tang of the receiver/frame; adjustable cheek piece.

Manufacturer

- "FABARM" is marked on the right side of the firearm.
- "FABARM" is marked on the underside of the receiver/frame.

Action

- Break open action.
- Hinged barrel design.

Calibre

- The calibre designation is marked on the barrel.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128291 - 1	6MM AIRSOFT BB	80	374	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	
128291 - 2	6MM AIRSOFT BB	120	374	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SYSTEMA" and "mil/LE-grade" was observed marked on the left side of the magazine housing of the lower receiver/frame.

Model

- "P.T.W.-4" and "Professional Training Weapon Mod. 4" were observed marked on the left side of the magazine housing of the lower receiver/frame.
- this selective fire Airsoft rifle resembles a Colt M4 carbine.
- features include: round barrel consisting of a metal outer tube and smooth bore inner brass tube with a flash hider; flat top aluminum upper with picatinny rail, removable carrying handle and removable Systema spring/piston cylinder unit; aluminum lower receiver/frame with electrical gear box and motor; synthetic forearm, pistol grip and collapsible buttstock with removable battery pack.
- overall length with stock extended is 900 mm and with stock retracted is 800 mm, average weight is 3.7 kg with the battery pack and 2.91 kg without the battery pack.
- NOTE: The lower receiver/frame appears to be an AR-15/M-16 component. This unit is larger internally to house the gear box assembly. The trigger is an integral part of the gear box assembly. The pivot pin holes for the hammer, trigger and sear have not been drilled out, the unit has been divoted and a bluffer head pins have been glued in place to represent the pivot pins. The access hole for the selector has been sealed on the right side.

Manufacturer

- Systema is located in Tokyo, Japan.
- "SYSTEMA" and "mil/LE-grade" was observed marked on the left side of the magazine housing of the lower receiver/frame.

Type

- this is an airsoft rifle.

Action

- removable spring/piston cylinder unit, electrical gear box and motor.
- selective fire.
- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number was observed marked on the left side of the magazine housing of the receiver/frame.
Calibre	- "6mm PROJECTILES (BB)" was observed marked on the side of the magazine housing of the receiver/frame.
Shots	- detachable box magazine.

- overall length with stock extended is 900mm and with stock retracted is 800mm, average weight is 3.9 kg with the battery pack and 3.5 kg without the battery pack.
- NOTE: The lower receiver/frame appears to be an AR-15/M-16 component. This unit is larger internally to house the gear box assembly. The trigger is an integral part of the gear box assembly. The pivot pin holes for the hammer, trigger and sear have not been drilled out, the unit has been divoted and a bluffer head pins have been glued in place to represent the pivot pins. The access hole for the selector has been sealed on the right side.

Manufacturer

- Systema is located in Tokyo, Japan.

Type

- this is an airsoft rifle.

Action

- removable spring/piston cylinder unit, electrical gear box and motor.
- selective fire.
- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number was observed marked on the left side of the magazine housing of the receiver/frame.
Barrel	- length of inner barrel is 374mm and length of the outer barrel shroud is 380 mm.
Shots	- detachable box magazine.

Notes

Model

- this is a very unusual custom-made side by side repeating bolt-action double rifle.
- features include: walnut pistol-grip butt and forearm (with cheekrest); double triggers; bolt-mounted safety; blued or stainless barrels (available in round or fluted octagonal styles); open folding express sights; integral scope mounts and blued, color-case-hardened, or silver-finished receiver/frame with or without full engraving.
- available with whatever grade of finish that the customer requests.
- this rifle combines two action types into one; a side by side double rifle, and a bolt-action repeater. One bolt handle unlocks and withdraws two separate bolts, and the rifle feeds from a detachable box magazine with two separate feeding columns.

Manufacturer

- Szecsei & Fuchs Fine Guns GmbH. is a manufacturer founded in 1986 to produce custom-made rifles and shotguns; they are particularly known for their design of unusual bolt-action double rifles, in both over/under and side by side patterns.

Action

- this rifle combines two action types into one; a side by side double rifle, and a bolt-action repeater. One bolt handle unlocks and withdraws two separate bolts, and the rifle feeds from a detachable box magazine with two separate feeding columns.

Serial Number

- numbered on the receiver/frame.

Barrel

- as a custom firearm, this rifle is available with any barrel length the customer desires.

Shots

- this rifle is meant to be used with two rounds in the chambers and 4 rounds in the detachable box magazine, for a total of 6 rounds.

Notes

Model

- this is a very unusual custom-made side by side or over/under repeating bolt-action double rifle intended for hunting large and/or dangerous African game. - features include: walnut pistol-grip butt and forearm (with cheekrest); double triggers; cocking indicators; wrist-mounted safety; blued or stainless barrels (available in round or fluted octagonal styles); open folding express sights; integral scope mounts and blued, color-case-hardened, or silver-finished receiver/frame with or without full engraving.
- available with whatever grade of finish the customer requests.
- this rifle combines two action types into one; a side by side or over/under double rifle, and a bolt-action repeater. One bolt handle unlocks and withdraws two separate bolts, and the rifle feeds from an integral box magazine with two separate feeding columns; this rifle is meant to be carried with two rounds in the chambers, and an additional two rounds in the magazine, for a total of four shots.

Manufacturer

- Szecsei & Fuchs Fine Guns GmbH. is a manufacturer founded in 1986 to produce custom-made rifles and shotguns; they are particularly known for their design of unusual bolt-action double rifles, in both over/under and side by side patterns.

Action

- this rifle combines two action types into one; a side by side or over/under double rifle, and a bolt-action repeater. One bolt handle unlocks and withraws two separate bolts, and the rifle feeds from an integral magazine with two separate feeding columns.

Serial Number

- numbered on the receiver/frame.

Barrel

- as a custom firearm, this rifle is available with any barrel length the customer desires; 24"/610mm is only an example of a "typical" side by side double rifle.

Shots

- this rifle is meant to be used with two rounds in the chambers and 2 rounds in the integral magazine, for a total of 4 rounds.

126844 - 1	9MM LUGER	5	197	Prohibited PFR, Part 1, para. 177(j)	Non-Commercial Customization	

Notes

Make

- "T-15 IND" is marked on the left side of the firearm.

Model

- "SAS-3 MK 2", "T-15 IND", "CANADA" and a serial number may be marked on the magazine housing of the firearm.
- Variant markings have been observed - SAS 3 and MK 2 on the top of the magazine housing with the serial number on the bottom of the magazine housing as per images 7 & 8 without the T15 and CANADA markings.
- These firearms are semi-automatic configured recreations of Second World War STEN MARK 2 submachine guns.
- The basis of these firearms is the SAS-3 semi-automatic Sten Mark 2 tubular receiver "kit" as sold by T-15 Industries, with military surplus or salvaged parts, and a homemade magazine housing; the homemade magazine housing and the T15 Industries "tubular receiver kit" fulfills the requirement for a purpose built "newly constructed receiver/frame".
- Features include: fixed open sights; a "wire loop frame" style stock; tubular construction; 197mm (7 3/4") barrel; magazine housing that extends to the left of the receiver tube, an AR-15 type, reciprocating firing pin and a specially manufactured bolt assembly from T-15 Industries.

Action

- Blowback operated.
- Closed-bolt, striker fired.

Serial Number

- Observed serial number was located on the magazine housing, located on the left side of the firearm.
- The observed serial number consisted of a number followed by a letter followed by two digits.
- A second observed serial number consisted of an Arabic numeral followed by a roman alphabet letter followed by four Arabic numerals followed by the roman alphabet letters "SA".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is not marked on the firearm.
Shots	- Detachable box magazine.

2517 - 1	17.8X35R FRENCH SCHNEIDER	1	830	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TABATIERE" is not marked on the firearm.
- this style of firearm was known as Tabatiere, which is an informal French expression that describes the Snider-type action as being similar to a snuff box.
- Tabatiere rifles were converted/manufactured in France by Tulle, St Etienne, Chatellerault, Manufacture d'Armes de Mutzig (MAN) and others, prior to 1880.
- Tabatiere breech type of action is very similar in appearance to that of the Snider-Enfield conversion system.
- Tabatiere breech block opens to the right versus that of the Snider which opens to the left.

Model

- model designation does not appear on the firearm.
- Tabatiere's alteration of percussion lock rifles to breechloading (Schneider M.67 / Snider type breech) was started in 1867 with approximately 342,000 units being converted by 1870. Tabatiere's conversions were stopped in the mid 1870s.
- almost all Tabatiere rifles had been removed from the French service by 1885.
- features include: round barrel; swing breech bolt system; side mounted exposed hammer.
- Infantry & Dragoon rifles had two brass barrel bands and an a brass nose cap.
- Carbine had one brass barrel band and a brass nose cap.

Manufacturer

- the manufacturer's name appears on the lockplate.
- lock plates may display the original markings of the Imperial Arsenal and proof inspection marks.
- "Goodwin", " Joubert", "Mesner", Mignon & Rouhart" and "Teniere & Berthod" who were some of the gunmakers who carried out the conversions in Paris, Versailles, Grafenstad, Alsace and Liege are not marked on the firearm.
- "Manufacture Nationale d'Armes de Chatellerault (MAC)" was established in Chatellerault, France in 1819.
- "Manufacture Nationale d'Armes de Chatellerault (MAC)" manufactured small arms for the French government including machine-guns, rifles and pistols between 1822 and 1968.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - appears on the breechblock, usually has a script letter prefix.

Remarks - this is a conversion of French model 1859 muzzle loading Chasseur Carbines to cartridge breechloader. The conversion entailed cutting off the breech section of the muzzle loader, chambering the barrel for the 17.8 MM cartridge, threading the rifle breech and fitting a 'shoe' with a hinged breechblock which has a centrefire firing pin. The new breech mechanism of the Chasseur Carbine is made of iron. Many of these carbines were later converted to economy shotguns and sold in North America under the name Zulu.

- This is a conversion of French model 1859 muzzle loading Chasseur Carbines to cartridge breechloader. The conversion entailed cutting off the breech section of the muzzle loader, chambering the barrel for the 17.8 MM cartridge, threading the rifle breech and fitting a 'shoe' with a hinged breechblock which has a centrefire firing pin. The new breech mechanism of the Chasseur Carbine is made of iron. Many of these carbines were later converted to economy shotguns and sold in North America under the name Zulu.

FRT Report

Firearm Reference Number (FRN): 2520
Make: Tabatiere
Model: 1867 Chasseur Carbine

Summary

Make:	Tabatiere
Model:	1867 Chasseur Carbine
Manufacturer:	Manufacture d'Armes de Tulle (MAT)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2520 - 1	17.8X35R FRENCH SCHNEIDER	1	830	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TABATIERE" is not marked on the firearm.
- this style of firearm was known as Tabatiere, which is an informal French expression that describes the Snider-type action as being similar to a snuff box.
- Tabatiere rifles were converted/manufactured in France by Tulle, St Etienne, Chatellerault, Manufacture d'Armes de Mutzig (MAN) and others, prior to 1880.
- Tabatiere breech type of action is very similar in appearance to that of the Snider-Enfield conversion system.
- Tabatiere breech block opens to the right versus that of the Snider which opens to the left.

Model

- model designation does not appear on the firearm.
- Tabatiere's alteration of percussion lock rifles to breechloading was started in 1867 with approximately 342,000 units being converted by 1870. Tabatiere's conversions were stopped in the mid 1870s.
- almost all Tabatiere rifles had been removed from the French service by 1885.
- features include: round barrel; laterally swinging breech block system; side mounted exposed hammer.
- Infantry & Dragoon rifles had two brass barrel bands and a brass nose cap.
- Carbine version had one brass barrel band and a brass nose cap.

Manufacturer

- the manufacturer's name appears on the lockplate.

Serial Number

- marked on the breech block and usually has a script letter prefix.

Other Markings

- observed specimen had Darling marked on the top of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this is a conversion of French model 1859 muzzle loading Chasseur Carbines to cartridge breechloader. The conversion entailed cutting off the breech section of the muzzle loader, chambering the barrel for the 17.8 MM cartridge, threading the rifle breech and fitting a 'shoe' with a hinged breechblock which has a centrefire firing pin. The new breech mechanism of the Chasseur Carbine is made of iron. Many of these carbines were later converted to ecomony shotguns and sold in North America under the name Zulu.

- the manufacturer's name appears on the lockplate.
- "Manufacture Nationale d'Armes de Chatellerault (MAC)" was established in Chatellerault, France in 1819.
- "Manufacture Nationale d'Armes de Chatellerault (MAC)" manufactured small arms for the French government including machine-guns, rifles and pistols between 1822 and 1968.

Serial Number

- appears on the breech block, may have a script letter prefix.

Remarks

- This is a conversion of French model 1853,1854 and 1857 muzzle loading rifles to cartridge breechloader. The conversion entailed cutting off the breech section of the muzzle loader, chambering the barrel for the 17.8MM cartridge, threading the rifle breech and fitting a 'shoe' with a hinged breechblock which has a centrefire firing pin. The new breech mechanism of the Infantry Rifle Model is made of iron. Many of these rifles were later converted to economy shotguns and sold in North America under the name Zulu.

FRT Report

Firearm Reference Number (FRN): 135082
Make: Tabatiere
Model: 1867 Infantry Rifle

Summary

Make:	Tabatiere
Model:	1867 Infantry Rifle
Manufacturer:	Manufacture d'Armes de Maubeuge
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
135082 - 1	17.8X35R FRENCH SCHNEIDER	1	810	Antique AFR, Section 1, para. 3	Non-Commercial Customization	

Notes

Make

- "TABATIERE" is not marked on the firearm.
- this style of firearm was known as Tabatiere, which is an informal French expression that describes the Snider-type action as being similar to a snuff box.
- Tabatiere rifles were converted/manufactured in France by Tulle, St Etienne, Chatellerault, Manufacture d'Armes de Mutzig (MAN) and others, prior to 1880.
- Tabatiere breech type of action is very similar in appearance to that of the Snider-Enfield conversion system.
- Tabatiere breech block opens to the right versus that of the Snider which opens to the left.

Model

- model designation does not appear on the firearm.
- Tabatiere's alteration of percussion lock rifles to breechloading was started in 1867 with approximately 342,000 units being converted by 1870. Tabatiere's conversions were stopped in the mid 1870s.
- Tabatiere was a conversion of French model's 1822,1853,1854 and 1857 muzzle loading rifles to a cartridge breechloader. The conversion entailed cutting off the breech section of the muzzle loader, chambering the barrel for the 17.8 MM cartridge, threading the rifle breech and fitting a 'shoe' with a right side mounted and right side mounted hinged breechblock which has a centrefire firing pin. The new breech mechanism was made of iron.
- many were later converted to economy shotguns sold throughout the world and marked "Zulu" in script on the top of the barrel.

Manufacturer

- the manufacturer's name appears in script on the lockplate.

Action

- right side hinged breech block assembly.

Serial Number

- serial number is marked on the breechblock and may have a script letter prefix.

Make

- "TABATIERE" is not marked on the firearm.
- this style of firearm was known as Tabatiere, which is an informal French expression that describes the Snider-type action as being similar to a snuff box.
- Tabatiere rifles were converted/manufactured in France by Tulle, St Etienne, Chatellerault, Manufacture d'Armes de Mutzig (MAN) and others, prior to 1880.
- Tabatiere breech type of action is very similar in appearance to that of the Snider-Enfield conversion system.
- Tabatiere breech block opens to the right versus that of the Snider which opens to the left.

Model

- model designation is not marked on firearm.
- this is a "Tabatiere 1867 Carbine or Rifle" that has been converted to a shotgun.
- these firearms have been converted in other countries that include Belgium and France and may bear other national proof marks.
- the "Tabatiere 1867" was the conversion of the French model 1853, 1854 and 1857 muzzle loading long arms to a cartridge breech loader. The conversion entailed cutting off the breech section of the muzzle loader, re-chambering or replacing the barrel, threading the rifle breech and fitting a "shoe" with a hinged breech block that incorporated a centre fire firing pin. The new breech mechanism was made out of brass or iron.
- Tabatiere breech type of action is very similar in appearance to that of the Snider-Enfield conversion system.

Action

- hinged breech block design.

Serial Number

- may not have a serial number.
- serial number may be marked on the barrel or on the breech block assembly.

Other Markings

- one example was marked "MFF" on the barrel at the breech.

Notes

Make

- "TAC" is an acronym for "TROCAOLA ARANZABAL Y CIA".

Model

- model designation is not marked on the firearm.
- introduced in 1915.
- similar to the S&W .44 Double Action Frontier.
- produced for the British Army during World War I with the official British designation of "Pistol OP No 2 MARK 1". References are conflicting as to the meaning of OP. It may be either Old Pattern or Ordnance Pattern.
- features include: fixed sights; round ribbed barrel; front hinged receiver/frame with fluted cylinder and no sideplate; exposed spur hammer; single/double action trigger mechanism; checkered bird's head grip panels; lanyard ring.
- the OP No1 Mk I model is similar in all features with the No2 with the exception of the extension of the butt of the receiver/frame below the smaller, horn or hard rubber, grip panels.

Manufacturer

- "FA. DE TROCAOLA ARANZABAL Y CIA.EIBAR (ESPANA)" is marked on the top strap of the barrel.
- the manufacturer's logo/trademark consisting of a styalized "T" superimposed with an "A" and "C" within an oval shield is marked on the right side of the receiver/frame in front of the grip panel.
- "TAC" acronym stands for "TROCAOLA ARANZABAL Y CIA"
- "Trocaola Aranzabal y Cia (TAC)" was located in Eibar, Spain.
- "Trocaola Aranzabal y Cia (TAC)" manufactured firearms from the early 1900's until circa 1937.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization unknown.
- the serial number will be found marked on the left side of the hand grip under the left grip plate.
- observed specimen serial numbers consisted of a series of digits without prefix or suffix and was repeated on the front face of the cylinder, the inside of the trigger guard and on the underside of the top strap visible only when the cylinder was removed.
- British issue numbers may be found on the firearm.

Calibre

- calibre may be marked on the right side of the receiver/frame.

Other Markings

- early production may have no British military acceptance markings or be marked on the receiver/frame, cylinder and barrel with a crown over a "V" or "BV" and also may be marked with the broad arrow.

Notes

Make	- "TACTICAL SOLUTIONS BOSSE, ID" is marked on the left side of the receiver/frame/barrel assembly.
Model	- "PAC-LITE" is marked on the left side of the receiver/frame/barrel assembly. - "Pac-Lite" unit is a one-piece, ultra-lightweight (weight ranges from 3.5oz for the 76mm/3" barrel to 10.13oz for the 254mm/10" barrel) receiver/frame/barrel assembly that is intended for use with a Ruger MARK I, MARK II or 22/45 pistol grip, bolt and mainspring housing. The receiver/frame/barrel is machined from 6061-T6 aluminum bar and has a chrome-moly steel barrel liner. - "Pac-Lite" is available in several colours, including black, matte black, gray, olive drab green, matte olive drab green, red, purple and blue with or without barrel flutes and in several barrel lengths. The 102mm barrel is also available threaded at the muzzle for a sound suppressor. - "Pac-Lite" is available with the flutes anodized in the same colour as the whole unit or with the flutes machined after anodizing that results in silver flutes. - "Pac-Lite" is equipped with a Tactical Solutions front sight, adjustable rear sight and a hardened stainless steel ejector. It is also available with a scope mount for use with a variety of optical sights.
Manufacturer	- Tactical Solutions is based in Boise, Idaho, U.S.A. - Tactical Solutions began firearms production in 2002. - Tactical Solutions manufactures and sells Pac-Lite uppers for Ruger model 22/45, and MARK series handguns. - Tactical Solution manufactures and sells X-Ring rifles and receiver/frames. - Tactical Solution also manufactures and sells: 1) X-Ring barrels, X-Ring trigger assemblies, Vantage RS stocks, Edge scope mounts, 10/22 extended magazine release lever, and 10/22 type magazines, 2) Trail-Lite barrels for the Browning Buck Mark pistol, 3) TSAR-300 upper conversion assemblies for AR rifles, 4) AR-22 SB-X, AR-22 M4, and AR-22 LT upper conversion assemblies for AR rifles, 5) TSG-22 conversion units for Glock models 17, 19, 22, and 23 pistols, 6) 2211 conversion units for 1911 pistols, 7) Axiom, Cascade, and Cascade-TI sound suppressors/silencer, and 8) fiber optic sights, 2011 compensators, 2011 single stack magazines, 2011 double stack magazine, AR-22 detachable box magazines, AR-22 drum magazines, and TSG-22 detachable box magazine.
Action	- blowback operated.
Serial Number	- serial number is marked on the right side of the receiver/frame/barrel assembly. - serial number observed consisted of a two letter "TS" prefix, a dash (-), and five numbers.
Calibre	- calibre designation is marked on the left side.
Shots	- detachable box magazine. - when used with a MARK I grip frame the magazine capacity will be nine (9) cartridges. - when used with a MARK II or 22/45 grip frame the capacity will be ten (10) cartridges.
Canadian Law Comments	- although not offered as a complete, assembled firearm, this unit is considered as a handgun receiver/frame and as such is a firearm subject to firearms registration in Canada.

Notes

Make

- "TACTICAL SOLUTIONS" over "BOISE, ID" is marked on the left side of the barrel; while Tactical Solutions' "TS in a swirling chakra" logo is marked on the slide and the grips.

Model

- "TLP-22" is marked on the left rear tang of the receiver/frame, above the serial number.
- introduced in 2018.
- this is a 22 LR semi-automatic pistol manufactured by Tactical Solutions, based on the Browning Buck Mark pistol; Tactical Solutions had previously manufactured accessories and barrels for the Buck Mark family, and then expanded into making their own Buck Mark-compatible receiver/frames.
- features include: generalized Buck Mark layout and operation; various anodized colours available; fluted or non-fluted barrels available; threaded muzzle for muzzle brake or suppressor; open adjustable sights with the rear sight built into an optics-mounting rail; left-side magazine release, safety and slide-stop; dimpled synthetic laminated grips; and machined checkering on the gripstraps.

Manufacturer

- "TACTICAL SOLUTIONS" over "BOISE, ID" is marked on the left side of the barrel; while Tactical Solutions' "TS in a swirling chakra" logo is marked on the slide and the grips.

Action

- blowback operated.

Serial Number

- serial-numbered on the left rear tang of the receiver/frame.

Calibre

- calibre is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- "TACTICAL SOLUTIONS" over "BOISE, IDAHO" was observed marked on the left side of the receiver/frame.
- "TACTICAL SOLUTIONS BOISE, ID" was observed marked on the left side of the barrel.

Model

- "X-RING" was observed marked on the right side of the receiver/frame.
- "X-Ring" has an ultra-lightweight receiver/frame having the same footprint as the Ruger 10/22 and is designed to accommodate a vast array of aftermarket parts.
- "X-Ring" receiver/frame is machined from 6061-T6 aluminum bar.
- "X-Ring" aluminum barrel have a chrome-moly steel barrel liner.
- "X-Ring" is available in several colours, including black, matte black, red, purple, blue, grey and silver.
- "X-Ring" barrels are available with the flutes anodized in the same colour as the whole unit or with silver flutes machined after anodizing.
- "X-Ring" is equipped with a scope mount for use with a variety of optical sights.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- Tactical Solutions is based in Boise, Idaho, U.S.A.
- Tactical Solutions began firearms production in 2002.
- Tactical Solutions manufactures and sells Pac-Lite uppers for Ruger model 22/45, and MARK series handguns.
- Tactical Solution manufactures and sells X-Ring rifles and receiver/frames.
- Tactical Solution also manufactures and sells:

1) X-Ring barrels, X-Ring trigger assemblies, Vantage RS stocks, Edge scope mounts, 10/22 extended magazine release lever, and 10/22 type magazines,
2) Trail-Lite barrels for the Browning Buck Mark pistol,
3) TSAR-300 upper conversion assemblies for AR rifles,
4) AR-22 SB-X, AR-22 M4, and AR-22 LT upper conversion assemblies for AR rifles,
5) TSG-22 conversion units for Glock models 17, 19, 22, and 23 pistols,
6) 2211 conversion units for 1911 pistols,
7) Axiom, Cascade, and Cascade-TI sound suppressors/silencer, and
8) fiber optic sights, 2011 compensators, 2011 single stack magazines, 2011 double stack magazine, AR-22 detachable box magazines, AR-22 drum magazines, and TSG-22 detachable box magazine.

Action

- blowback operated.

Serial Number

- serial number was observed marked on the front left side of the receiver/frame.
- serial number observed consisted of a three letter "TSX" prefix, a dash (-), and five numbers.

Barrel

- the is a 324mm barrel with overall length of 419mm marked "SB-X" with a permanently attached shroud that allows you to use a thread on suppressor.
- the 419mm barrel with integral sound suppressor marked as "Sawtooth" is a CC 84(1) "prohibited device" para.(c).

Calibre

- "CAL. 22 LR" was observed marked on the left side of the barrel.
- "22 LR" was observed marked on left side of the receiver/frame.
- twist rate is 1 in 16.

Shots

- detachable rotary box magazine.
- "X-Ring" is designed to use the Ruger 10/22 detachable rotary box magazine and will accommodate a vast array of aftermarket magazines.

Canadian Law Comments

- this firearm left the factory with a threaded barrel which allows for the fitting of an internal or external suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.

Notes

Make

- The company logo is marked on the firearm.
- The company logo consists of T and S vertically offset with an oblong wreath around it.
- "TACTICAL SOLUTIONS" is marked on the left side of the receiver/frame.
- "TACTICAL SOLUTIONS" is marked on the left side of the barrel.
- "TacSol" is marked on the left side of the firearm.

Model

- "X-RING TD VR" is marked on the right side of the receiver/frame.
- "VR" denotes that the receiver/frame allows for a charging handle on the left or right side of the receiver/frame. Regardless of charging handle placement, the rifle always ejects spent cases on the right.
- "TD" denotes that this is a takedown version of the X-RING rifle, which allows for the rifle to be separated at the receiver/frame and barrel junction. This is accomplished using a spring loaded latch located under the barrel fore end and a threaded sleeve at the front of the receiver/frame.
- The X-ring Takedown VR is sold as a receiver/frame and/or as a complete rifle.
- Features may include: Threaded muzzle with extended barrel shroud; takedown stock with storage compartments in the cheek weld and pistol grip; barrel takedown lever under fore-end, ahead of the magazine well; stainless steel barrel shank, bolt, and adjustable barrel tightening nut; extended magazine release lever under the trigger guard; cross bolt safety behind trigger guard; available with multiple barrels, finishes, and camouflage patterns.

197478 - 1	12 GA X 3"	4	473	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The company logo is marked on the receiver/frame.
- "Taiga" is marked on the right side of the receiver/frame.

Model

- "WOLVERINEX" is marked on the right side of the receiver/frame.
- "Wolverine X" is a pump action shotgun with a folding down upper/barrel/magazine assembly.
Features include: fixed rear sight acting as a sliding, unlocking button for the upper/barrel assembly; front, bottom of the receiver/frame protrusion housing the pivot screw/shaft for the pivoting upper assembly; cross bolt safety located on the rear of the trigger guard.
- Wolverine X is available with a fixed stock, telescoping stock or side folding stock.
- Overall length with a 470 mm (18.5 inches) barrel is 673 mm (26.5 inches) with the stock collapsed.
- Overall length with a 254 mm (10 inches) barrel is 546 mm (21.5 inches) with the stock collapsed.

Manufacturer

- "SULUN ARMS" is marked on the left side of the receiver/frame.

Serial Number

- The serial number is marked on the right side of the receiver/frame.

Calibre

- The calibre designation is marked on the barrel.
- Calibre was marked as "12 GA 3"" on a referenced example.

197586 - 3	12 GA X 3"	2	356	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- The make is marked on the right side of the receiver/frame.
Model	- "Wolverine XM" is marked on the right side of the receiver/frame. - The Wolverine XM shotgun folds in half like many break action single shot shotguns, but also features a side-folding telescopic stock. When the stock is folded, an internal trigger block prevents firing. - Overall length with a 254 mm (10 inches) barrel is 546 mm (21.5 inches) with the stock collapsed.
Manufacturer	- The manufacturer is marked on the left side of the receiver/frame.
Action	- Pump action with spring-assisted return to battery.
Serial Number	- The serial number is marked on the right side of the receiver/frame. - The serial number justification on an observed example was a two digit number, followed by a dash, the letters "TK" and a five digit number (ex: 23-TK12345).
Calibre	- The calibre designation is marked on the barrel assembly.

Firearm Reference Number (FRN): 63964
Make: Taiwanese Service Rifle
Model: Type 57 M14

Summary

Make:	Taiwanese Service Rifle
Model:	Type 57 M14
Manufacturer:	Taiwanese State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	TAIWAN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
63964 - 1	7.62MM NATO	5	559	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- markings on the top rear of the receiver are all in Chinese ideograms, except in some cases you may see the number 57 in arabic numerals.
Model	- marked on the top rear receiver. - this is / was the official service rifle of the Taiwanese defence forces from 1965 onwards until replaced with the M16 as manufactured in Taiwan.
Manufacturer	- the manufacturer's name is marked on the top rear receiver.
Action	- gas operated, magazine fed firearm capeable of full-automatic fire.
Serial Number	- marked on the top rear receiver/frame below name of the manufacturer. - examples seen consisted of six digits without prefix or suffix.
Barrel	- length does not include the attached flash hider/muzzle brake.
Shots	- detachable box magazine.
Other Markings	- markings on the top rear of the receiver are all in Chinese ideograms, except in some cases you may see the number 57 in arabic numerals.
Remarks	- These rifles were manufactured in Taiwan using machinery purchased in the USA that had been previously used by Harrington & Richardson. This machinery became available in 1964 after the US Department of Defence cancelled all further orders of M14 rifles.

Notes

Make

- make not marked on firearm.

Model

- this is a Taiwanese-built copy of the Colt M16, with several different features.
- gas-operated selective-fire rifle, fibreglass furniture, open adjustable sights.
- unlike the M16, these rifles have no "carrying handle"-style rear sight; instead they are fitted with the same style of rear sight as found on the Daewoo K2.
- a later adaptation of this design led to the Type 68 rifle, which replaces the direct-gas-impingement design of the M16 with a gas-operated piston that operates in the same manner.

Action

- gas operated.

Serial Number

- serial number is marked on the lower receiver/frame.

Shots

- detachable box magazine.

Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121788 - 1	5.56MM NATO	30	508	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make designation is not marked on the firearm.

Model

- the model designation may be marked on the left side of the receiver/frame as "T65K2", or alternately, the firearm may only be marked as "RIFLE, 5.56 MM".
- features include: green plastic pistol grip, butt stock and two piece ribbed forend; post front sight adjustable for elevation and rear aperture sight adjustable for elevation and windage; optical sight mounting bracket integral to the carrying handle; black anodized aluminum upper and lower receiver/frames; flip-up front luminous night sight; fire selector switch with safe, semi-automatic and three shot burst settings; bayonet lug on the front sight unit; flip open bolt dirt/dust cover.
- this rifle externally resembles the M16A2 series of rifles, though its function differs in using a gas-piston system that acts directly upon the bolt carrier rather than the ljungman type direct gas system utilized in the Colt designed M16 series.
- this firearm differs from other Taiwanese Service Rifle models in having a full carrying handle in the M16 style rather than a raised rear sight mount only as found on the models Type 65 and Type 68.

Manufacturer

- the manufacturer's designation is not marked on the firearm.

Action

- gas-operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- observed serial number sequences have consisted of six numbers without letter prefix or suffix.

Calibre

- the calibre designation is marked on the left side of the receiver/frame as "5.56 MM".

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks - this rifle was manufactured in Taiwan and was adopted by Paraguay for military service in the 1980's.

FRT Report

Firearm Reference Number (FRN): 119303
Make: Taiwanese Service Rifle
Model: Type 86 M16

Summary

Make:	Taiwanese Service Rifle
Model:	Type 86 M16
Manufacturer:	Taiwanese State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	TAIWAN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119303 - 2	5.56MM NATO	20	375	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
119303 - 1	5.56MM NATO	30	375	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make not marked on firearm.

Model

- manufactured from 2000 to 2002.
- this is a Taiwanese-built adaptation of the Colt M16, with several different features.
- gas-operated selective-fire rifle, fibreglass furniture, open adjustable sights.
- this rifle uses a gas-operated piston to open the bolt, rather than the direct-gas-impingement design of the M16; a previous rifle (the Type 65) used the M16 design.

Action

- gas operated.
- selective fire.

Serial Number

- numbered on the lower receiver.

Shots

- detachable box magazine.

Notes

Make

- make not marked on firearm.

Model

- introduced in 2002/2003.
- this is a Taiwanese-built adaptation of the Colt M16, with several different features.
- gas-operated selective-fire rifle, fibreglass furniture, open adjustable sights.
- unlike the M16, these rifles have no "carrying handle"-style rear sight; instead they are fitted with the same style of rear sight as found on the Daewoo K2.
- this rifle uses a gas-operated piston to open the bolt, rather than the direct-gas-impingement design of the M16; a previous rifle (the Type 65) used the M16 design.

Action

- gas operated.
- selective fire.

Serial Number

- serial number is marked on the lower receiver/frame.

Shots

- detachable box magazine.

Make: Talon
Model: Derringer

Summary

Make:	Talon
Model:	Derringer
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119228 - 3	22 PERCUSSION	1	60	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	
119228 - 2	25 PERCUSSION	1	60	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- the make designation is marked on the left side of the receiver/frame above the trigger in an inset area as "TALON, WATERBURY,CT."

Model

- no model designation is marked on the firearm.
- this firearm has been observed as a percussion handgun where the barrel swings out to the side of the receiver frame for the placing of a percussion cap on the nipple. There is otherwise no indication of the method of loading or operation that is readily discernible from a visual exterior inspection.
- features include: a nickel plated finish on all metal surfaces; removable two piece birdshead grip panels; side-swing barrel for access to the percussion nipple; under barrel mounted rod; spur trigger; round blade foresight and an enameled medallion of two crossed American flags, one from 1776 and one from 1976, with an inset shield reading "'76" mounted on the right side of the receiver/frame. This would appear to be a reference to the bicentennial year of the United States of America, much in the same vein of the centennial commemorative derringer made by Hyde and Shattuck in 1876, to which this model bears a superficial resemblance.

Action

- swing out barrel for percussion priming, muzzleloader.

Serial Number

- the serial number has been found stamped on the bottom right side of the receiver/frame beneath the grip panels and has consisted of a five digit series with neither letter prefix nor suffix.

Calibre

- the calibre designation is not marked on the firearm.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "ARMI FLLI TANFOGLIO GARDONE V.T. ITALY" is marked on barrel.
Model	- the model designation is marked on the barrel. - this is most likely a model TA766 that had the first number incorrectly chosen when stamped. - features include: single action; brass or steel grip and lower receiver/frame; wood handgrips; optional fully adjustable rear sights; loading gate on right side of firearm; hammer/frame safety present.
Manufacturer	- "ARMI FLLI TANFOGLIO GARDONE V.T. ITALY" is marked on barrel.
Action	- side-gate loading.
Serial Number	- serial number is located on the bottom of the receiver/frame, in front of the trigger guard. - observed serial number consisted of a letter prefix followed by five numbers. - "CAT. 884" is marked on the side of the receiver/frame. - "884" is not the serial number, this is an Italian Proof House catalogue number.
Calibre	- calibre designation is marked on the cylinder and the barrel.

Notes

Make	-"TANFOGLIO" is moulded into the left rear of the polymer butt. - "FT - MADE IN ITALY" is also moulded into the left rear of the butt. - "FT" is the abbreviation for "Fratelli Tanfoglio".
Model	- "APPEAL" over "FT - MADE IN ITALY" is moulded into the left rear of the polymer butt. - introduced in 2011. - features include: polymer stock; rail for scope; manual safety on trigger; automatic safety on firing pin; adjustable ramped front and rear sights; ambidestrous cocking lever and ejector port. - total length is 670 mm (26 3/8"), and the average weight 2.17 kgs.
Manufacturer	-"TANFOGLIO" is moulded into the left rear of the polymer butt. - "FT - MADE IN ITALY" is also moulded into the left rear of the butt. - "FT" is the abbreviation for "Fratelli Tanfoglio".
Action	- blowback operated.
Serial Number	- serial number and the Italian Catalog Number "C.18551" are both marked on a metal plate inset into the polymer stock, which on this firearm is a component of the receiver/frame. - serial number observed consisted of a two letter prefix and five numbers. - serial number of a referenced example consisted of a three letter prefix and five numbers.
Shots	- detachable box magazine.
Canadian Law Comments	- the Tanfoglio Appeal Rifle is a bull-pup design firearm and does not incorporate a bull-pup stock ("prohibited device") in its parts make-up.
Remarks	- the Tanfoglio Appeal rifle does not have a conventional receiver/frame that supports the bolt when the stock is removed. The bottom portion of the stock supports two bolt guide rods at the rear and at the barrel support. The firearm's stock is a receiver/frame component.

Notes

Make

- "TANFOGLIO" in a rectangle is marked on the left side of the receiver/frame above the trigger.

Model

- model designation is marked in script on the left side of slide as "Buzz".
- features include: receiver/frame features a full length dust cover (up to the front of the slide) and is drilled and tapped on the left side for a scope mount; receiver/frame mounted slide release and safety catch; ported barrel (six or eight ports) that vents through holes in the top of the slide; no sights installed (meant for use with an optical or "dot' type sight) extended beavertail receiver tang; squared trigger guard; skeletonized hammer.
- overall length with a 113mm barrel is 214mm, average weight is 1160g.
- an earlier version, known simply as the "Buzz" model was available with a shorter dust cover, rounded trigger guard, no holes for the scope mount and three ports on the barrel.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT - MADE IN ITALY" marked on the left side of the receiver/frame.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".

Action

- modified Browning type recoil-operated firearm.

Serial Number

- serial number rationalization unknown.

Calibre

- the calibre designation is marked on the right side of the barrel, visible through the ejection port.

Shots

- detachable box magazine housed in the grip.

Notes

Make

- the firearm is marked on the left side of the frame: "TANFOGLIO" within a rectangle, and above the left grip:"FT-MADE IN ITALY".

Model

- this firearm is a shortened, smaller version of the Combat: it is a single-action / double-action, semi-auto pistol based on the CZ-75 design.
- it is equipped with a frame-mounted slide release and safety, and fixed three-dot sights on the slide.
- it has an extended-beavertail receiver tang, and a rounded hammer.
- this firearm is available in blued, chrome, or "duo-tone" finishes.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Action

- recoil-operated firearm.

Serial Number

- unknown serial number rationalization.

Shots

- detachable box magazine.

Remarks

- the firearm is marked on the left side of the frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY
- this firearm is a shortened, smaller version of the Combat: it is a single-action / double-action, semi-auto pistol based on the CZ-75 design.

Notes

Make

- "TANFOGLIO" in a rectangle is marked on the left side of the receiver/frame above the trigger and on the grip panels.

Model

- features include: fixed sights; finger grooves located at the rear of the slide; ambidextrous, slide mounted safety/decocker; skeletonized hammer with a rounded spur; slide release located on the left side of the receiver/frame; double action trigger mechanism; reversible magazine release is located at the back of the trigger guard; beavertail rear tang; blued or nickeled finish and rubber grip panels.
- overall length with a 113mm barrel is 210mm, average weight is 1150g.
- similar to the model "Combat" which features a receiver/frame mounted manual thumb safety and the "Combat Sport" which features the receiver/frame mounted manual safety and an adjustable rear sight.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT - MADE IN ITALY" marked on the left side of the receiver/frame, grip panels also bear "TANFOGLIO" markings.

Action

- recoil operated.

Serial Number

- serial number was observed marked on the right side of the receiver/frame.
- observed serial number consisted of a letter "V" prefix and five numbers.

Calibre

- the calibre designation is marked on the right side of the barrel, visible through the ejection port.

Shots

- detachable box magazine housed in the grip.

Notes

Make

- "TANFOGLIO" is marked on the barrel.

Model

- "E15 Buffalo Scout" is not marked on the firearm.
- "MOD. E 15" is marked on the barrel.
- Buffalo's profile inside an oval is molded into the top right grip plate.
- "Buffalo Scout" is not marked on the firearm, "Buffalo Scout Single Action Revolver" is a description used in company advertising.
- the "Buffalo Scout" was available in at least four variations:
  - E15B has blue finish,
  - E15MB has blue finish and convertable cylinder in 22 MAG,
  - E15C has chrome finish,
  - E15CM has chrome finish and convertable cylinder in 22 MAG.
- features include: fixed sights; round barrel with ejector rod assembly; solid top receiver/frame with removable fluted cylinder, right side loading gate and left side manual safety; exposed spurred hammer; single action trigger mechanism; checkered grip plates; blued or chrome plated finish.
- Italian proof marks are apparent on the receiver/frame, barrel and cylinder of this firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacture's name is marked on the left side of the barrel.
Serial Number	- serial number is marked on the underside of the receiver/frame in front of the trigger guard. - observed serial number consisted of five numbers without a letter prefix or suffix.
Calibre	- convertable cylinder available.
Importer	- other importer markings may exist.

117813 - 2	9MM BROWNING SHORT	7	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Tanfoglio name was not marked on the samples examined. The only Tanfoglio identifier was the "FT-MADE IN ITALY" marking.
- the model "EA380" is referenced in European American Armory (EAA) literature as the "European" model and as being "the smallest member in the Tanfoglio pistol line".

Model

- "MOD.EA 380" is marked on the left side of the slide.
- features include: blued, matte hard chromed or two-tone finish; fixed barrel; fixed sights; heel type magazine release; magazine safety; single action trigger mechanism; exposed hammer; receiver/frame mounted safety lever above the trigger on the left side and a slide mounted decocking lever on the left side; ivory polymer (with or without laser engraving), wood or black synthetic grips.

Manufacturer

- the Tanfoglio name was not marked on the samples examined. The only Tanfoglio identifier was the "FT-MADE IN ITALY" marking.

Action

- blowback operated.

Serial Number

- serial number is marked on the receiver/frame (samples have been noted in different locations).
- observed serial number had a two letter prefix of "AE" followed by five digits.
- "CAT. 6665" may be marked on the right side of the receiver/frame.
- "6665" is not the serial number, this is an Italian Proof House catalogue number.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- founded in 1990, European American Armory (EAA) is an importer/distributor located in Florida, U.S.A.
- EAA imports firearms from a variety of manufacturer's under the EAA trade name as well as the original manufacturer's brand name.
- EAA markings are usually found on the slide and/or receiver/frame.

Other Markings

- in accordance with Italian law all firearms made in or imported into Italy must undergo proof testing. As such these firearms will bear Italian proof marks and in the case of firearms with rifled barrels be marked with a catalogue number as assigned by the Italian National Proof House (each individual calibre, shot, barrel length combination for a given model is assigned a unique number, in this case one known number is 6665).

123783 - 2	9MM FAR	16	113	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TANFOGLIO" in a rectangle is sometimes marked on the left side of the receiver/frame above the trigger and on the bottom of the grip panels.

Model

- the "FAR" logo (denotes Fast Accurate Reliable) is marked at the front left side of the slide.
- this is a model "Combat" which has been adapted for use with FAR ammunition. The FAR System consists of pistols chambered in new calibres such as, the 9MM FAR and the 10MM FAR. These calibres feature a thicker brass case compared to regular 9MM and 10MM ammunition and allow the use of fixed barrels. These calibres feature a thicker brass case compared to regular 9MM and 10MM ammunition and allows the use of fixed barrels. This firearm has been re-engineered to work as a direct blowback, rather than the short recoil system seen in most other semi-automatic handguns; the ammunition it requires has an extended internal head and web to contain pressures until the bullet has left the barrel. This has been done for two main reasons; one, it allows the axis of the bore to sit lower in a shooter's hand (thereby reducing felt recoil), and two, it decreases the mechanical cycling time required between shots.
- features include: fixed sights; finger grooves located at the rear of the slide; exposed skeletonized hammer with a rounded spur; a slide release and a manual thumb safety are located on the left side of the receiver/frame; double action trigger mechanism; magazine release is located at the back of the trigger guard; beavertail rear tang; detachable box magazine; blued finish and rubber grip panels.
- overall length with a 113,5mm barrel is 211mm, average weight is 1184g.
- similar to the model "FAR Force 2002" which features a synthetic/polymer receiver/frame.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT - MADE IN ITALY", usually marked on the left side of the receiver/frame.

Action

- blowback operated.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the right side of the barrel, visible through the ejection port.
Shots	- detachable box magazine housed in the grip.

32180 - 9	9X21 IMI	16	113	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the firearm markings are found on the right side of the receiver/frame and slide.

Model

- the model designation may not be marked on the firearm; Tanfoglio makes a number of similarly-styled polymer-framed pistols, and care must be taken not to confuse them. The "Force" and "Force 99" models are NOT identical, and pistols with an "R" model suffix are equipped with a slide-mounted safety/decocker.
- the "Force" series of pistols are an earlier version of the "Force 99", and can be distinguished from the Force 99 by the presence of external strengthening ribs off of the locking-block protrusion; the Force 99 series has no such ribs.
- features include: black polymer grip and receiver/frame; blue/black or chromed slide finish; selective double action mechanism; skeletonized hammer; extended-tang beavertail; checkered front and back straps and open sights or optional adjustable rear sight.
- Tanfoglio also makes this pistol available with a receiver/frame in various colours, such as white, gray, green, pink, blue, etc.
- also available in a shorter-barrel version as the "Force Compact, with a 93mm barrel.
- introduced in 1997.
- overall length with a 113mm barrel is 210mm, average weight is 850g.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Action

- recoil operated.

Serial Number

- serial numbered on a metallic insert in the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the slide e.g.: "921".

Shots

- detachable box magazine.

Notes

Make

- "TANFOGLIO" within a rectangle may be marked on the receiver/frame and/or embedded in both sides of the grip.

Model

- introduced in 2007.
- model designation may be marked on the firearm.
- features include: fixed sights; round, smooth bore barrel; grasping serrations at the front and at the rear of the slide; polymer receiver/frame; exposed hammer with a rounded spur; double action trigger mechanism; beavertail rear tang; slide release and manual thumb safety are located on the left side of the receiver/frame; reversible magazine release located at the rear of the trigger; textured grip, front and back strap; black finish.
- overall length with a 83mm (3.27") barrel is 190mm (7.5"), average weight is 600g (21.2 oz).

Manufacturer

- "FT - MADE IN ITALY" may be marked on the receiver/frame.

Action

- blowback operated.

Serial Number

- serial number is marked on a steel plate moulded into the left side of the receiver/frame.

Calibre

- calibre designation is usually marked on the slide and/or the barrel visible through the ejection port.

Shots

- detachable box magazine.

Notes

Make

- the make is marked on the firearm.

Model

- the model designation is marked on the left side of the slide.
- as this model is built on the Tanfoglio "FORCE 99" platform the lower portion of the grip is so marked.
- features include: adjustable rear sight and fixed front sight; grasping grooves are located at the front and at the back of the slide; fixed barrel; exposed rounded spur hammer; a slide release and a thumb safety are located on the left side of the receiver/frame; beavertail rear tang; adjustable single action trigger mechanism; a reversible magazine catch is located at the back of the trigger guard; detachable box magazine; black aluminium slide and a black polymer receiver/frame.
- overall length with a 135mm barrel is 220mm, average weight is 600g.

Manufacturer

- manufacturer markings include "TANFOGLIO" in a rectangle and/or "FT - MADE IN ITALY".

Action

- blowback operated.

Serial Number

- the serial number is marked on a steel plate moulded into the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the right side of the barrel, visible through the ejection port.

Shots

- detachable box magazine housed in the grip.

Notes

Model

- this model was originally produced with a traditional "square" of flat profile slide until 2004. As of 2005 this model features a "rounded" profile slide
- prior to 2004 the model designation was usually marked as "FORCE" followed by the calibre, followed by the letter "R" on the left side of the slide e.g.: "FORCE 40 R".
- "FORCE 99" is marked on the left side of the receiver/frame at the bottom of the grip.
- features include: fixed sights; grasping grooves are located at the rear of the slide; ambidextrous safety/decocking lever is mounted on the rear of the slide; exposed hammer with a rounded spur; beavertail rear upper tang; a slide release is located on the left side of the black polymer receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; checkered grip including front and back strap.
- overall length with a 113mm barrel is 210mm, average weight is 850g.
- similar to the model "Force 99 F" which features a manual thumb safety located on the left side of the receiver/frame above the grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's markings include "TANFOGLIO" and/or "FT - MADE IN ITALY".
Action	- recoil operated.
Serial Number	- the serial number is marked on a metal insert which is moulded into the left side of the receiver/frame above the grip.
Calibre	- the calibre designation is marked on the right side of the slide and on the right side of the barrel's chamber area.
Shots	- detachable box magazine housed in the grip.

Notes

Model	- this model is built on the "FORCE 99" platform and is so marked on the lower portion of the grip. The "Carry" in the designation denotes the shortened barrel and slide and the "R" denotes the slide mounted safety/decocking lever. - features include: fixed sights; grasping grooves are located at the rear of the slide; ambidextrous slide mounted safety/decocker; skeletonized hammer with a rounded spur; beavertail rear tang; a slide release is located on the left side of the receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; polymer receiver/frame; checkered front and back strap. - overall length with a 93mm barrel is 195mm, average weight is 750g. - similar to the model "Force 99 F Carry" which features a manual thumb safety mounted on the receiver/frame. - similar to the models "Force F Carry" and "Force R Carry" which are chambered in the calibre's 10MM AUTO, 38 SUPER AUTO and 45 AUTO.
Manufacturer	- manufacturer's markings include "TANFOGLIO" and/or "FT - MADE IN ITALY".
Action	- recoil operated.
Serial Number	- the serial number is marked on a steel insert moulded into the left side of the receiver/frame above the grip.
Calibre	- the calibre designation is marked on the right side of the barrel, visible through the ejection port.
Shots	- detachable box magazine housed in the grip.

Make	- "TANFOGLIO" was observed marked on the left side of the receiver/frame.
Model	- this model is built on the "Force 99 Compact" receiver/frame and is marked "FORCE 99 C" at the bottom of the grip, the "R" in the model designation denotes the slide mounted safety/decocking lever. - this model is similar to the model "Force 99 R" but uses a shorter slide and barrel assembly as well as a receiver/frame with a shortened grip. - features include: fixed sights; grasping grooves at the rear of the slide; ambidextrous, slide mounted safety/decocking lever; exposed hammer with a rounded spur; beavertail rear tang; the slide release is located on the left side of the receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; polymer receiver/frame; checkered front and back strap. - overall length with a 93mm barrel is 195mm, average weight is 750g. - also available as the model "Force 99 F Compact" which features a manual thumb safety mounted on the receiver/frame. - similar to the models "Force F Compact" and "Force R Compact" which are chambered in the calibres 10MM AUTO, 38 SUPER AUTO and 45 AUTO.
Manufacturer	- manufacturer's markings include "TANFOGLIO" and/or "FT - MADE IN ITALY".
Action	- recoil operated.
Serial Number	- the serial number is marked on a metal insert which is moulded into the left side of the receiver/frame above the grip.
Calibre	- the calibre designation is marked on the right side of the barrel in the chamber area, visible through the ejection port.
Shots	- detachable box magazine housed in the grip.

Notes

Make

- the make is marked on the firearm.

Model

- the model designation may not be marked on the firearm; Tanfoglio makes a number of similarly-styled polymer-framed pistols, and care must be taken not to confuse them. The "Force" and "Force 99" models are NOT identical, and pistols with an "R" model suffix are equipped with a slide-mounted safety/decocker.
- the "Force" series of pistols are an earlier version of the "Force 99", and can be distinguished from the Force 99 by the presence of external strengthening ribs off of the locking-block protrusion; the Force 99 series has no such ribs.
- features include: black polymer grip and receiver/frame; blue/black or chromed slide finish; selective double action mechanism; skeletonized hammer; extended-tang beavertail; checkered front and back straps and open sights or optional adjustable rear sight.
- Tanfoglio also makes this pistol with a receiver/frame available in various colours, such as white, gray, green, pink, blue, etc.
- also available in a full-size version with a 113mm barrel as the "Force".
- overall length with a 93mm barrel is 190mm, average weight is 750g.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Action

- modified Browning type recoil-operated firearm.

Serial Number

- numbered on frame insert in left side of receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- The company logo is marked on the firearm.
- The company's logo consists of the letters "F" and "T" with the make "Tanfoglio" marked under it inside of a circle.

Model

- Introduced in 2019.
- "FORCE ESSE" is marked on the top of the slide.
- "FORCE PLUS" is marked on the right side of the firearm.
- Features include: black polymer receiver/frame; front and rear slide serrations; manual thumb safety on the right side of the receiver/frame; magazine release button on the left side of the receiver/frame; slide catch on the left side of the receiver/frame.

Manufacturer

- The company logo is marked on the firearm.
- The company's logo consists of the letters "F" and "T" with the make "Tanfoglio" marked under it inside of a circle.

Serial Number

- The serial number is marked on a metal insert on the underside of the receiver/frame.
- The serial number is repeated on other parts and components.

Calibre

- The calibre designation is marked on the barrel, visible through the ejection port.

Notes

Make

- "TANFOGLIO" and "FT - MADE IN ITALY" are marked on the right side of the receiver/frame.

Model

- the model designation "FORCE" followed by the calibre and the letter "F" may be marked on the left side of the slide eg. "FORCE 45 F".
- features include: fixed sights; finger grooves are located at the rear of the blued slide; flat or round sided slide; exposed skeletonized hammer with a rounded spur; beavertail rear upper tang; a slide release and a manual thumb safety are located on the left side of the black polymer/synthetic receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; checkered grips and front and back straps.
- overall length with a 113mm barrel is 210mm, average weight is 850g.
- similar to the model "Force R" which features an ambidextrous safety/decocker lever located at the rear of the slide.
- similar to the model "Force 99 F" which is chambered in 40 S&W, 9MM LUGER and 9X21 IMI.

Manufacturer

- the manufacturer's name "TANFOGLIO" and "FT - MADE IN ITALY" are marked on the right side of the receiver/frame.

Action

- recoil operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame above the grip.

Calibre

- the calibre designation is marked on the right side of the slide and on the right side of the barrel over the chamber.

Shots

- detachable box magazine.

Notes

Make

- "TANFOGLIO" is marked on the firearm.

Model

- the model designation "FORCE" followed by the calibre, followed by "CARRY F" may be marked on the firearm and "FORCE 99" is marked at the bottom of the grip.
- features include: fixed sights; finger grooves are located at the rear of the blued slide; exposed skeletonized hammer with a rounded spur; beavertail rear tang; a slide release and a manual thumb safety are located on the left side of the receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; polymer/synthetic receiver/frame; checkered front and back strap.
- overall length with a 93mm barrel is 195mm, average weight is 750g.
- similar to the model "Force R Carry" which features an ambidextrous slide mounted safety/decocker.
- similar to the models "Force 99 F Carry" and "Force 99 R Carry" which are chambered in the calibres 40 S&W, 9MM LUGER and 9X21 IMI.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name "TANFOGLIO" and "FT - MADE IN ITALY" are marked on the firearm.
Action	- recoil operated.
Serial Number	- the serial number is marked on a steel insert located on the left side of the receiver/frame above the grip.
Calibre	- the calibre designation is marked on the right side of the barrel at the chamber.
Shots	- detachable box magazine.

Notes

Make

- "TANFOGLIO" or "FT - MADE IN ITALY" may be marked on the firearm.

Model

- the model designation is usually marked on the left side of the slide, samples have been noted with the calibre included within the marking, example "FORCE 921 L".
- as this model is built on the Tanfoglio "FORCE 99" platform it is also marked "FORCE 99" on the bottom of the grip.
- features include: adjustable rear sight and fixed front sight; grasping grooves are located at front and at the rear of the blued steel slide; exposed hammer; a slide release and a thumb safety are located on the left side of the black polymer receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard.
- overall length with a 121mm barrel is 220mm, average weight is 892g.
- similar to the model "L" which features a steel receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer markings include "TANFOGLIO" and "FT - MADE IN ITALY".
Action	- recoil operated.
Serial Number	- the serial number is marked on a steel plate moulded into the left side of the receiver/frame.
Calibre	- the calibre designation is marked on the right side of the barrel, visible through the ejection port. - the calibre may also be part of the model markings, e.g. "FORCE 921 L".
Shots	- detachable box magazine housed in the grip.

Notes

Model

- this model is built on the "FORCE 99" and is so marked on the left side of the receiver/frame at the bottom of the grip.
- features include: fixed sights; grasping grooves on the rear of the slide; rounded slide profile; ambidextrous, receiver/frame mounted safety; polygonal rifling; exposed hammer with a rounded spur; beavertail rear upper tang; a slide release is located on the left side of the black polymer/synthetic receiver/frame; a picatinny rail for mounting an optical sight is located on the underside of the receiver/frame ahead of the trigger guard; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; checkered grip including front and back strap.
- overall length with a 93mm barrel is 195mm, average weight is 775g.

Manufacturer

- manufacturer's markings include "TANFOGLIO" and/or "FT - MADE IN ITALY".

Action

- recoil operated.

Serial Number

- the serial number is marked on a steel plate which is moulded into the left side of the receiver/frame above the grip.
- serial numbers of observed examples have consisted of a two letter prefix (AB) and five numbers.

Calibre

- the calibre designation is marked on the right side of the slide and on the right side of the barrel's chamber area.

Shots

- detachable box magazine housed in the grip.

Notes

Make

- "TANFOGLIO" and "FT - MADE IN ITALY" are marked on the right side of the receiver/frame.

Model

- the model designation "FORCE" followed by the calibre, followed by the letter "R" may be marked on the left side of the slide eg. "FORCE 45 R".
- features include: fixed sights; finger grooves are located at the rear of the blued slide; flat or round sided slide; an ambidextrous safety/decocker lever is located at the rear of the slide; exposed skeletonized hammer with a rounded spur; beavertail rear upper tang; a slide release is located on the left side of the black polymer/synthetic receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; checkered grip including front and back strap.
- overall length with a 113mm barrel is 210mm, average weight is 850g.
- similar to the model "Force F" which features a manual thumb safety located on the left side of the receiver/frame above the grip.
- similar to the model "Force 99 R" which is chambered in 40 S&W, 9MM LUGER and 9X21 IMI.

Manufacturer

- the manufacturer's name "TANFOGLIO" and "FT - MADE IN ITALY" are marked on the right side of the receiver/frame.

Action

- recoil operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame above the grip.

Calibre

- the calibre designation is marked on the right side of the slide and on the right side of the barrel at the chamber.

Shots

- detachable box magazine.

Notes

Make

- the make "TANFOGLIO" or "FT - MADE IN ITALY" may be marked on the firearm.

Model

- the model designation "FORCE" followed by the calibre, followed by "CARRY F" may be marked on the firearm and "FORCE 99" is marked at the bottom of the grip.
- features include: fixed sights; finger grooves are located at the rear of the blued slide; ambidextrous slide mounted safety/decocker; exposed skeletonized hammer with a rounded spur; beavertail rear tang; a slide release is located on the left side of the receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; polymer/synthetic receiver/frame; checkered front and back strap.
- overall length with a 93mm barrel is 195mm, average weight is 750g.
- similar to the model "Force F Carry" which features a manual thumb safety mounted on the receiver/frame.
- similar to the models "Force 99 F Carry" and "Force 99 R Carry" which are chambered in the calibres 40 S&W, 9MM LUGER and 9X21 IMI.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name "TANFOGLIO" or "FT - MADE IN ITALY" may be marked on the firearm.
Action	- recoil operated.
Serial Number	- the serial number is marked on a steel insert located on the left side of the receiver/frame above the grip.
Calibre	- the calibre designation is marked on the right side of the barrel at the chamber.
Shots	- detachable box magazine.

Notes

Make

- the firearm is marked on the left side of the receiver/frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY

Model

- this firearm is marked on left side of slide: Gold Custom
- this frearm is a full-featured competition pistol ("racegun") built specifically for IPSC Open Class ; it is based on the basic CZ-75 design.
- it features a long slide, hard-chromed finish, polygonal rifling, triple-chamber compensator, single-action-only trigger, squared and checkered trigger guard, checkered front and back gripstraps.
- this model also has an extended beaver-tail receiver tang, enlarged magazine well, skeletonized hammer, fully-adjustable rearsight and compensator-mounted frontsight, checkered walnut grip panels, and a drilled and tapped frame for attaching a scope mount.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Type

- this is a full-featured competition pistol ("racegun") built specifically for IPSC Open Class.

Action

- recoil-operated firearm.

Serial Number

- located on the right side of the receiver/frame, above trigger guard.
- unknown serial number rationalization.

Shots

- detachable box magazine.

Remarks

- this firearm is marked on left side of slide: Gold Custom
- this firearm is a full-featured competition pistol ("racegun") built specifically for IPSC Open Class ; it is based on the basic CZ-75 design.

Notes

Make

- "TANFOGLIO" within a rectangle is marked on the left side of the receiver/frame.

Model

- model designation is not marked on the firearm.
- "GOLD CUSTOM" is marked on the left side of the slide.
- "Eric" in the model designation is in reference to Eric Grauffel, the 2002 World I.P.S.C. (International Practical Shooting Confederation) Champion.
- this firearm is a full-featured competition pistol ("racegun") primarily designed for the I.P.S.C. Open Class competitions.
- features include: stainless steel ported slide with front and rear grasping grooves; stainless steel receiver/frame with a full length dust cover (up to the front of the slide) and an extended beaver tail tang; ported barrel with polygonal rifling; compensator; no iron sights; both sides of the receiver/frame are drilled and tapped for the installation of an optical mount; skeletonized hammer; slide release is located on the left side of the receiver/frame above the trigger; ambidextrous thumb safety is located above the grip; adjustable single action trigger mechanism; magazine release is located behind the squared trigger guard; aluminium grip panels; checkered front and back strap; enlarged magazine well; detachable box magazine with an aluminium pad.
- overall length with a 133mm barrel is 256mm, average weight is 1250g.

Manufacturer

- "TANFOGLIO" in a rectangle and "FT-MADE IN ITALY" is marked on the left side of the receiver/frame.

Action

- recoil operated.

Serial Number

- serial number is marked on the receiver/frame, rationalization unknown.

Calibre

- the calibre designation is marked on the right side of the barrel, visible through the ejection port.

Shots

- detachable box magazine housed in the grip.

Notes

Make

- "TANFOGLIO" within a rectangle is marked on the left side of the receiver/frame.

Model

- "GOLD CUSTOM" and "ERIC 2007" in smaller letters is marked on the left side of the slide.
- the "Eric" in the model designation is in reference to Eric Grauffel, the 2007 World I.P.S.C. (International Practical Shooting Confederation) Champion.
- this firearm is a competition pistol ("racegun") primarily designed for the I.P.S.C. Open Class competitions.
- features include: stainless steel ported slide with front and rear grasping grooves; stainless steel receiver/frame with a full length dust cover (up to the front of the slide) and an extended beaver tail tang; ported barrel with polygonal rifling; compensator; no iron sights; both sides of the receiver/frame are drilled and tapped for the installation of an optical mount; skeletonized hammer; slide release is located on the left side of the receiver/frame above the trigger; ambidextrous thumb safety is located above the grip; adjustable single action trigger mechanism; magazine release is located behind the squared trigger guard; aluminum grip panels; checkered front and back grip straps; enlarged magazine well; detachable box magazine with an aluminum pad.
- overall length with a 128mm barrel is 249mm, average weight is 1250g.
- the Gold Custom Eric 2007 is an evolution of the Gold Custom Eric model with all of the same characteristics as the Gold Custom Eric but with a shorter barrel, slide and a new compensator.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT-MADE IN ITALY".

Action

- recoil operated.

Notes

Make

- the firearm is marked on the left side of the frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY

Model

- this firearm is marked on left side of slide: Gold Custom
- this firearm is almost identical to the basic Gold Custom (a CZ-75 design) except for the additions of a smaller diameter muzzle extension with two top-vents built onto the muzzle-slide assembly, along with the regular 3-ported compensator, PLUS a ported barrel that vents through 2 holes in the top of the slide.
- the above features are in addition to the regular features of the "Gold Custom"; which include:
- the long slide, a hard-chromed finish, polygonal rifling, triple-chamber compensator, single-action-only trigger, squared and checkered trigger guard, checkered front and back gripstraps, extended beaver-tail receiver tang, enlarged magazine well, skeletonized hammer, fully-adjustable rearsight and compensator-mounted frontsight.
- this model has a drilled and tapped frame for attaching a scope mount and checkered walnut grip panels.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Type

- this is a full-featured competition pistol ("racegun") built specifically for IPSC Open Class

Action

- recoil-operated firearm.

Serial Number

- the serial number is located right side of frame, above trigger guard.
- unknown serial number rationalization.

Shots

- detachable box magazine.

Remarks

- this firearm is marked on left side of slide: Gold Custom
- this firearm is almost identical to the basic Gold Custom (a CZ-75 design) except for the additions of a smaller diameter muzzle extension with two top-vents built onto the muzzle-slide assembly, along with the regular 3-ported compensator, PLUS a ported barrel that vents through 2 holes in the top of the slide.

Notes

Make

- the make is marked on the left side of the receiver/frame above the trigger as: "TANFOGLIO" within a rectangle.

Model

- model designation is marked on the left side of the slide as: "Gold Match".
- this is a semi-automatic target pistol based on the CZ-75 design.
- features include: chromed or duo-tone (blued/chromed) finish; single-action-only trigger mechanism; squared-off trigger-guard; extended beavertail tang; loop-style hammer; slide extension for additional sight radius; and open adjustable sights.
- overall length with a 152mm barrel is 255mm, average weight is 1150g.

Manufacturer

- Fratelli Tanfoglio is located in Brescia, Italy; manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Action

- recoil operated.

Serial Number

- serial number is marked on the right hand side of the front part of the receiver/frame.
- serial number have normally two letters followed by five digits (ex.: EA00000).

Calibre

- calibre is marked on the right hand side of the slide.

Shots

- detachable box magazine housed in the grip.

Other Markings

- "FT-MADE IN ITALY" is marked on the left side of the receiver/frame between the grip panel and the safety.
- the Italian National Proof House issued catalogue number is usually marked on the right side on the receiver/frame.

Notes

Make

- the firearm is marked on the left side of the frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY

Model

- this firearm is marked on left side of slide: GOLD TEAM
- it is a full-feature competition pistol ("racegun"), based on the CZ-75 design, built specifically for IPSC Open Class, Bowling-pin shooting, or Steel Challenge.
- this long slide firearm features a chromed finish, single-action-only trigger, triple-chamber muzzle-end compensator, squared and checkered trigger guard, checkered front and back straps, extended beaver-tail receiver tang, enlarged magazine well, skeletonized hammer, front sight and fully-adjustable rearsight on the slide, checkered walnut grip panels, and a frame drilled and tapped for attaching a scope mount.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Type

- this is a full-feature competition pistol ("racegun") built specifically for IPSC Open Class, Bowling-pin shooting, or Steel Challenge.

Action

- recoil-operated firearm.

Serial Number

- the serial number is located right side of frame, above trigger guard.
- unknown serial number rationalization.

Shots

- detachable box magazine.

Remarks

- this firearm is marked on left side of slide: GOLD TEAM
- it is a full-feature competition pistol ("racegun"), based on the CZ-75 design, built specifically for IPSC Open Class, Bowling-pin shooting, or Steel Challenge.

Notes

Make

- "ARMI TANFOGLIO GIUSEPPE - GARDONE V.T. - ITALY" is marked on the left side of the slide.
- "GT" in the model designation is the identifier for "Targa" and "Giuseppe Tanfoglio".
- "Targa" was a trade name used on handguns imported and distributed by Excam, Inc. of Hialeah, Florida and manufactured by "Giuseppe Tanfoglio" of Brescia, Italy.
- Excam ceased operations in late 1990.
- "EXCAM INC. HIALEAH FLA" may be marked on the firearm.

Model

- "MOD. GT22" is marked on the left side of the slide.
- discontinued in 1990.
- features include: finger rest magazine, blade ramp front sight, adjustable rear sight, steel receiver/frame, checkered grips, blued or chromed finish.
- some examples have been noted with the longer, "target" GT22T barrel and adjustable sights. These examples appear to have been factory original as the slides bore the same serial number as the receiver/frame and the receiver/frame was stamped with the correct (for that barrel length but not model) Italian National Proof House catalogue number (catalogue number 2320 is assigned to the model GT22T with a barrel length of 150mm, catalogue number 2318 is assigned to the model GT22 with a barrel length of 95mm). The noted examples were marked with the wrong model designation, the short 95mm barrel/fixed sight gun was marked "GT22T" and the 150mm barrel/adjustable sight gun was marked "GT22".

Notes

Make

- Tanfoglio markings are found on the left side of the receiver/frame.

Model

- the model designation is marked on the left side of the slide.
- this firearm is a full-feature competition pistol (sometimes referred to as a "race-gun") built specifically for International Practical Shooting Confederation (I.P.S.C.) Standard Class shooting.
- features include: squared and checkered trigger guard; single-action-only trigger mechanism; polygonal rifling; checkered front and back straps; extended beaver-tail receiver tang; enlarged magazine well; skeletonized hammer; fully-adjustable sights; checkered walnut grip panels; receiver/frame is drilled and tapped for attaching a scope mount.
- Available with a blued, hard-chromed or "duo-tone" finish.
- - similar to the "Limited Custom" model which features a coned barrel, a receiver/frame with a longer dust cover (up to the front of the slide) and an enlarged, extended magazine well.
- - overall length with a 121mm barrel is 225mm, average weight is 1180g.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT - MADE IN ITALY".

Action

- recoil operated.

Serial Number

- located on the right side of the receiver/frame above the trigger guard, rationalization unknown.

Calibre

- the calibre designation is marked on the right side of the barrel, visible through the ejection port.

Shots

- detachable box magazine housed in the grip.
