Notes

Make

- Tanfoglio markings are found on the left side of the receiver/frame.

Model

- the model designation is marked on the left side of the slide simply as "Limited", this model is an "enhanced" version of the "Limited" model.
- this firearm is a full-feature competition pistol (sometimes referred to as a "race-gun") built specifically for International Practical Shooting Confederation (I.P.S.C.) Standard Class shooting.
- features include: stainless steel slide with front and rear grasping grooves; adjustable rear sight and fixed front sight; stainless steel receiver/frame with a full length dust cover (up to the front of the slide) and an extended beavertail rear tang; polygonal rifling; both sides of the receiver/frame are drilled and tapped for the installation of an optical mount; skeletonized hammer; slide release is located on the left side of the receiver/frame above the trigger; ambidextrous thumb safety is located above the grip; adjustable, single action trigger mechanism; magazine release is located on the left side of the grip; squared trigger guard; checkered walnut grip panels; checkered front and back strap; enlarged and extended magazine well; detachable box magazine with an aluminium pad.
- higher capacity magazines are available, when so equipped from the factory this model is also known as the "Limited Custom HC". Available in the following calibre's, 40 S&W (15 shots), 9MM LUGER (18 shots) and 9X21 IMI (18 shots).
- overall length with a 121mm barrel is 225mm, average weight is 1200g.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT - MADE IN ITALY".
Action	- recoil operated.
Serial Number	- located on the right side of the receiver/frame above the trigger guard, rationalization unknown.
Calibre	- the calibre designation is marked on the right side of the barrel, visible through the ejection port.
Shots	- detachable box magazine.

Notes

Make

- marked on the left side of the receiver/frame: TANFOGLIO within a rectangle.

Model

- introduced in 1986.
- this firearm is a long-slide, target version of the "Combat", made for IPSC Standard Class and Bullseye competition shooting.
- it is a single-action, semi-automatic pistol based on the CZ-75 design, with a stainless steel slide, receiver/frame-mounted slide release and safety, polygonal-rifled barrel, extended-beavertail tang, and skeletonized hammer.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT - MADE IN ITALY".

Type

- this firearm is a long-slide, target version of the "Combat", made for IPSC Standard Class and Bullseye competition shooting.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame, rationalization unknown.
Calibre	- the calibre designation is marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine housed in the grip.

Notes

Make

- this firearm is marked within a rectangle on left side of slide: TANFOGLIO P25

Model

- this firearm is marked "TANFOGLIO" within a rectangle and "P 25" on left side of slide.
- it is a polymer-framed pocket pistol that operates on a gas-delayed blow-back system, much like the HK P7.
- it is available only as a double-action semi-auto.
- it is available with either blued or duo-tone finish.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Action

- gas-delayed blow-back operation.

Serial Number

- located on metal insert in frame under muzzle.
- serial number rationalization unknown.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- marked "ADP" within an oval molded into frame at bottom of grip.
- this firearm is marked within a rectangle on left side of slide: TANFOGLIO P25
- this firearm is marked "TANFOGLIO" within a rectangle on left side of slide.

Remarks

- this firearm is a polymer-framed pocket pistol that operates on a gas-delayed blow-back system, much like the Heckler & Koch P7.

Notes

Make

- marked on the left side of the receiver/frame: TANFOGLIO within a rectangle.

Model

- the model designation is marked on the left side of the barrel/upper assembly.
- this is a single-shot handgun (also available as a conversion-kit) similar in concept to the Pachmayr Dominator, whereby a single-shot "upper" replaces the slide/barrel assembly to transform a 1911-style handgun into a single-shot handgun for hunting or metallic-silhouette competition.
- features include: barrel assembly without sights but with a Weaver type basel located on top of the upper receiver for mounting an optical sight; manual thumb and extended beavertail grip safeties; exposed hammer with an extended spur; adjustable, single action trigger mechanism; the magazine release has been converted into a "break-opening" lever; fitted with a dummy magazine with an extended aluminium floorplate which can be used as a finger rest; blued finish; wrap-around rubber grip.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and/or "FT - MADE IN ITALY".

Action

- "tip-up barrel" design.

Serial Number

- the serial number is marked on the left side of the receiver/frame behind the trigger.

Calibre

- the calibre designation is marked on the firearm.

Notes

Make

- the firearm is marked on the left side of the receiver/frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY

Model

- this is a compensated, long-slide target version of the "Combat".
- it is a single-action / double-action semi-auto pistol with adjustable sights, based on the CZ-75 design; featuring an extended-beavertail receiver tang, frame-mounted slide release and safety, and rounded hammer.
- it is available in blued, chrome, or "duo-tone" finish.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".

Action

- recoil operated.

Serial Number

- serial number rationalization unknown.

Shots

- detachable box magazine.

Notes

Make

- the firearm is marked on the left side of the receiver/frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY

Model

- this firearm is marked "SILVER TEAM" on left side of slide.
- this firearm is a full-feature competition pistol ("racegun") built specifically for IPSC (International Practical Shooting Confederation) Open Class, Bowling-pin shooting, or Steel Challenge.
- it is based on the basic TZ-75 pistol, with a standard-length slide, and a triple-chamber compensator.
- this firearm features a squared and checkered trigger guard, single-action-only trigger, checkered front and back straps, extended beaver-tail receiver tang and enlarged magazine well.
-it also has a skeletonized hammer, blade front sight and fully-adjustable rearsight on the slide, checkered walnut grip panels, and frame drilled and tapped for attaching a scope mount.
- it is available in blued, hard-chromed, or "duo-tone" finish.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".

Action

- recoil-operated.

Serial Number

- located right side of receiver/frame, above trigger guard.
- serial number rationalization unknown.

Shots

- detachable box magazine.

Notes

Make

- marked on the left side of the receiver/frame: TANFOGLIO within a rectangle.

Model

- the model designation is marked on the left side of the slide in script.
- features include: checkered walnut grips; checkered front and back straps; grasping grooves on the front and rear of the slide; double action trigger mechanism; extended beavertail tang; receiver/frame mounted slide release and safety catch; hard chrome finish, skeletonized hammer; adjustable sights.
- the same basic pistol is available as the "Stock Custom" which combines the slide and barrel from the "Stock" model and the receiver/frame of the "Limited Custom" which features aluminium grip panels, a flared magazine well, a squared trigger guard and is drilled and tapped for a scope mount.
- overall length is 210 mm, and average weight is 1.160 kg.

Manufacturer

- manufacturer markings include "TANFOGLIO" in a rectangle and/or "FT - MADE IN ITALY".

Action

- recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number is composed of a two letter prefix followed by five digits, example: AE00000.

Shots

- detachable box magazine.

Notes

Make

- "TANFOGLIO" is marked on the right side of the firearm.

Model

- Introduced in 2016.
- "TCPM" is marked on the left side of the firearm.
- Pre-production models of the firearm may instead be marked "TCPM" on the right side of the firearm.
- Features include: rifled barrel with a muzzle break; aluminum upper receiver/frame with integral full length accessory rail with fiber optic sights; hammer moving downward located in the upper; synthetic lower include the pistol grip, and integral trigger guard; trigger safety; manual and automatic safety; ambidextrous cocking handle; selector on the left side; front folding grip; collapsible sliding or fixed stock and blued finish.

Manufacturer

- "TANFOGLIO" is marked on the right side of the firearm.
- "FT-IT" is marked on the left side of the firearm.
- "FT" is the abbreviation for "Fratelli Tanfoglio".

Action

- Blowback operated.
- Select fire.

Serial Number

- The serial number is marked on the left side of the firearm.
- Observed serial number sample was marked on the left side of the firearm and consisted of the following configuration: two (2) letter prefix, "SH", followed by four (4) numbers (example: SH1234).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the left side of the firearm. - "Cal. 9mm" is marked on the left side of the firearm.
Shots	- Detachable box magazine housed in the grip.

138730 - 3	45-70 GOVT	1	356	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TANFOGLIO" was observed marked on the left side of the receiver/frame.

Model

- "THOR" may be marked on the barrel/upper assembly.
- this is a single-shot handgun similar in concept to the Pachmayr Dominator, whereby a single-shot "upper" replaces the slide/barrel assembly to transform a 1911-style handgun into a single-shot handgun for hunting or metallic-silhouette competition.
- features include: barrel assembly without sights with picatinny rail located on top of the upper receiver/frame for mounting an optical sight; manual thumb and extended beavertail grip safeties; exposed hammer with an extended spur; adjustable, single action trigger; the magazine release has been converted into a "break-opening" lever; fitted with a dummy magazine with an extended aluminum floorplate which can be used as a finger rest; blued finish; wrap-around rubber grip.
- overall length for a 356mm (14") barrel is 406mm (16"), average weight 2.27kg (5lbs).

Manufacturer

- "TANFOGLIO" was observed marked on the left side of the receiver/frame.
- "FT - MADE IN ITALY" may be marked on the receiver/frame.
- "FT" is the abbreviation for "Fratelli Tanfoglio".

Action

- "tip-up barrel" design.

Serial Number

- the serial number may be marked on the receiver/frame.

- "TARAN TACTICAL INNOVATIONS" is located in Simi Valley, California U.S.A..
- "TARAN" stands for "Taran Butler".
- "Taran Butler" is an American sport shooter and world champion.
- "TARAN TACTICAL INNOVATIONS" offers gunsmithing, manufacturing and training services.

Model

- "COMBAT MASTER" is marked on the right side of the slide.
- "2011" is marked on the right side of the receiver/frame.
- "2011" is a modular design consisting of a barrel and slide assembly, a synthetic trigger guard and grip assembly and a steel or alloy receiver/frame. This differs from the traditional 1911A1 design whereby the grip/trigger guard are not integral to the receiver/frame.
- this custom pistol is built by Taran Tactical Innovation for open competition; the slide has Taran Tactical Innovation markings, the receiver/frame has STI International markings.
- this custom pistol was built for the "John Wick: Chapter 3 - Parabellum" movie with Keanu Reeves.
- features include: fibre optic front sight and dovetailed fixed rear sight; flat sided, steel slide with right side ejection, flared ejection and large front and rear gripping serrations; receiver/frame dust cover with integral accessory rail; slide release lever and magazine catch are mounted on the left side of the receiver/frame; extended thumb safety; commander style hammer; enlarged and flared magazine well; beavertail grip safety with fish scale main spring housing; black finish.

Manufacturer

- "Taran Tactical Innovation" is marked on the left side of the slide.
- pistols are built by Taran Tactical Innovation on receiver/frames supplied by STI International; these pistols bear markings from both companies.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame. - serial number of a referenced example consisted of a two letter prefix "TG" and five numbers.
Shots	- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 22741
Make: Targa
Model: GT22

Summary

Make:	Targa
Model:	GT22
Manufacturer:	Tanfoglio, Giuseppe
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	ITALY
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
22741 - 1	22 LR	10	98	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EXCAM INC. HIALEAH FLA" is usually marked on the firearm.
- "Targa" is usually not marked on the firearm.
- "GT" in the model designation is the identifier for "Targa" and "Giuseppe Tanfoglio".
- "Targa" was a trade name used on handguns imported and distributed by Excam, Inc. of Hialeah, Florida and manufactured by "Giuseppe Tanfoglio" of Brescia, Italy.
- Excam ceased operations in late 1990.

Model

- discontinued in 1990.
- features include: finger rest magazine, blade ramp front sight, adjustable rear sight, steel receiver/frame, checkered grips, blued or chromed finish.
- some examples have been noted with the longer, "target" GT22T barrel and adjustable sights. These examples appear to gave been factory original as the slides bore the same serial number as the receiver/frame and the receiver frame was stamped with the correct (for that barrel length but not model) Italian National Proof House catalogue number (catalogue number 2320 is assigned to the model GT22T with a barrel length of 150mm, catalogue number 2318 is assigned to the model GT22 with a barrel length of 95mm). The noted examples were marked with the wrong model designation, the short 95mm barrel/fixed sight gun was marked "GT22T" and the 150mm barrel/adjustable sight gun was marked "GT22".

Manufacturer

- this manufacturer's name is marked on the pistols.

Action

- blowback operated.

Shots

- detacheable box magazine.

138163 - 2	9X22 PA TRAUMATIC	25	76	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Made by ATAK Arms Ltd" over "For TARGET TECHNOLOGIES" was observed marked on the right side of the receiver/frame.
- Target Technologies was founded in 2000.

Model

- the Target Technologies model 925 Tornado is a plastic clamshell shroud over a "Zoraki model 914".
- Zoraki model 914 full automatic is the actual firearm inside the clam shell shroud of the Target Technologies model 925 Tornado.
- features observed: black polymer, removable clamshell shroud stamped with; rear metal charging handle; spring loaded left side dust cover.
- Target Technologies model 925 Tornado overall length is 186 mm, overall height is 143 mm, overall width is 35 mm, and average weight (including the Model 914 inside the clamshell) is 850 grams.

Zoraki Model 914 information:
- "ZORAKI - MOD. 914" was observed marked on the left side of the slide.
- Zoraki model 914 is available as a full automatic or semi-automatic.
- Zoraki model 914 Gas/Alarm Pistol shares a common receiver/frame with the Target Technologies models Streamer 1014 and Streamer 2014 Traumatic Rubber Ball Pistol manufactured by Atak.
- Zoraki 914 features observed: fixed barrel with blade front sight and the inside of the barrel at the muzzle is threaded to accept a signal flare adapter; flat sided metal slide with rear cocking serrations and rear sight; metal receiver/frame with integral barrel assembly; slide release lever, safety selector, and magazine release button are mounted on the left side of the receiver/frame; exposed hammer; single/double action trigger mechanism; square front trigger guard; black or brown wrap-around grips; black matte, chrome or titanium finish.
- Zoraki 914 overall length is 154 mm, overall height is 121 mm, overall width is 36 mm, and average weight is .7kgs.

Manufacturer

- "MADE BY ATAK ARMS LTD." over "PAT 2007 - 01586 TR" was observed marked on the right side of the slide.
- Atak was established in 2006.
- Atak is located in Istanbul, Turkey.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated. - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number was observed marked on the left side of the internal receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- Target Technologies, Model 925 Tornado is a plastic clamshell shroud over a "Zoraki model 914" handgun. The Zoraki model 914 Gas/Alarm Pistol shares a common receiver/frame with the Target Technologies model 925 Tornado, the Streamer 1014 and the Streamer 2014 Traumatic Rubber Ball Pistol manufactured by Atak. - Target Technologies model 925 Tornado and the Zoraki Model 925 are similar firearms each having a Zoraki model 914 inside the clam-shell cover were manufactured as 9mm P.A.K. Gas/Alarm pistols or as Traumatic Rubber Ball pistols.
Remarks	- it should be borne in mind that the design of these ATAK manufactured firearms is fluid and changes in reaction to legal strictures in countries in which these firearms are marketed.

FRT Report

Firearm Reference Number (FRN): 136137
Make: Target Technologies
Model: Streamer 1014

Summary

Make:	Target Technologies
Model:	Streamer 1014
Manufacturer:	Atak
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
136137 - 2	10X22T	13	85	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
136137 - 1	9X22 PA TRAUMATIC	14	85	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Made by ATAK Arms Ltd" over "For TARGET TECHNOLOGIES" was observed marked on the right side of the receiver/frame.
- Target Technologies was founded in 2000.

Model

- "STREAMER 1014" was observed marked on the left side of the slide.
- "STREAMER 1014" is manufactured by Atak to fire traumatic rubber ball ammunition.
- "STREAMER 1014" shares a common receiver/frame with the Zoraki model 914 Gas/Alarm pistol.
- the "STREAMER 1014" was replaced by the "STREAMER 2014" to correct problems encountered with the earlier die-cast design.
- features observed: fixed barrel with blade front sight; flat sided metal slide with rear cocking serrations and rear sight; metal receiver/frame with integral barrel assembly; slide release lever, safety selector, and magazine release button are mounted on the left side of the receiver/frame; exposed hammer; single/double action trigger mechanism; square front trigger guard; black or brown wrap-around grips; black matte finish.
- overall length is 154mm, overall height is 121mm, and overall width is 36mm.
- average weight is .7kgs.
- also available in titanium finish.

Manufacturer

- "Made by ATAK Arms Ltd" over "For TARGET TECHNOLOGIES" was observed marked on the right side of the receiver/frame.
- Atak was established in 2006.
- Atak is located in Istanbul, Turkey.

Action

- blowback operated.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number was observed marked on the left side of the receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- the Target Technologies models Streamer 1014 and Streamer 2014 Traumatic Rubber Ball Pistols manufactured by Atak share a common receiver/frame with the Zoraki model 914 Gas/Alarm Pistol manufactured by ATAK.
Remarks	- it should be borne in mind that the design of these ATAK manufactured firearms is fluid and changes in reaction to legal strictures in countries in which these firearms are marketed.

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model may or may not be marked on the firearm.
- this is a single-shot grenade-launcher adopted by the Polish army to replace the Wz74 Cold War-era grenade-launcher, of the same design.
- this launcher mounts under the handguard of the rifle. A stand-alone version of this grenade-launcher, the GS40, is also produced, which incorporates a separate pistol-grip and an under-folding AKMS-style metallic stock with a padded buttpad.
- features include: matte blued or parkerized/phosphated finish; an adjustable sight on the left side of the muzzle; a two-piece mounting system to allow attachment to a host rifle; a "bolt-action"-style bolt knob on the right side of the breech-piece to allow the breech to rotate backwards and down for loading/unloading/reloading; a thumb-operated lever safety on the left side of the breech-piece; and a thumb-operated "paddle"-type trigger on the top left of the chamber.

Manufacturer

- manufacturer's name or logo is marked on the firearm.
- Polish State Arsenal, Tarnow was originally established as a Railway Plant in 1917.
- Polish State Arsenal, Tarnow has also been known as Zaklady Mechaniczne Tarnow, Zaklady Mechaniczne Tarnow S.A. (ZMT SA) , and ZM Tarnow.
- Zaklady Mechaniczne Tarnow was established in 1951.
- Zaklady Mechaniczne Tarnow was converted from a state company to a joint-stock company and renamed Zaklady Mechaniczne Tarnow S.A. (ZMT SA) in 1994.
- Zaklady Mechaniczne Tarnow S.A. (ZMT SA) became a member of the BUMAR Capital Group in 2002.

Action

- hinged barrel design.

Serial Number

- numbered on the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 148690
Make: Tarnow
Model: GS40

Summary

Make:	Tarnow
Model:	GS40
Manufacturer:	Polish State Arsenal, Tarnow
Level:	Manufacturer Specifications and Commercial Customization
Type:	Grenade Launcher
Action:	Single-Shot
Country of Manufacturer:	POLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148690 - 1	40X46MM	1	264	Prohibited PFR, Part 1, para. 95(z.245)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model may or may not be marked on the firearm.
- this is a single-shot grenade-launcher adopted by the Polish army to replace the Wz83 Cold War-era grenade-launcher, of the same design.
- this is a stand-alone grenade-launcher fitted with a pistol-grip and under-folding AKMS-style buttstock with a heavily-padded buttpad.. A rifle-mounted version of this grenade-launcher, the GP40, is also produced, which mounts under the handguards of the Beryl, Tantal, or Onyx series of AK-style rifles.
- features include: matte blued or parkerized/phosphated finish; an adjustable sight on the left side of the muzzle; a two-piece mounting system to allow attachment to a host rifle; a "bolt-action"-style bolt knob on the right side of the breech-piece to allow the breech to rotate backwards and down for loading/unloading/reloading; a thumb-operated lever safety on the left side of the breech-piece; and a thumb-operated "paddle"-type trigger on the top left of the chamber.

Manufacturer

- manufacturer's name or logo is marked on the firearm.
- Polish State Arsenal, Tarnow was originally established as a Railway Plant in 1917.
- Polish State Arsenal, Tarnow has also been known as Zaklady Mechaniczne Tarnow, Zaklady Mechaniczne Tarnow S.A. (ZMT SA) , and ZM Tarnow.
- Zaklady Mechaniczne Tarnow was established in 1951.
- Zaklady Mechaniczne Tarnow was converted from a state company to a joint-stock company and renamed Zaklady Mechaniczne Tarnow S.A. (ZMT SA) in 1994.
- Zaklady Mechaniczne Tarnow S.A. (ZMT SA) became a member of the BUMAR Capital Group in 2002.

Action

- hinged barrel design.

Serial Number

- numbered on the receiver/frame.

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model may or may not be marked on the firearm; this rifle is also known in Polish service as the "Wilk" ("Wolf") or the "Tor" ("Thor"); "WKW" is an acronym standing for "Wielkokalibrowy Karabin Wyborowy", or "Large-calibre Carbine, Sniper".
- this is a bolt-action sniper rifle of bullpup design with a unitary receiver/stock, adopted by the Polish army in 2005; this rifle was developed concurrently with a smaller-calibre version (7.62 NATO or 338 Lapua) laid out along the same pattern, and which was also adopted as the "Alex".
- features include: a matte camouflage finish; multi-chamber muzzle brake; fluted heavy barrel; folding adjustable bipod mounted on the forearm; carry handle at centre of gravity; accessory rail for mounting optics; synthetic pistol-grip; detachable box magazine; synthetic cheek-piece; fold-down rear monopod; and synthetic buttpad.

Manufacturer

- manufacturer's name or logo is marked on the firearm.
- Polish State Arsenal, Tarnow was originally established as a Railway Plant in 1917.
- Polish State Arsenal, Tarnow has also been known as Zaklady Mechaniczne Tarnow, Zaklady Mechaniczne Tarnow S.A. (ZMT SA), and ZM Tarnow.
- Zaklady Mechaniczne Tarnow was established in 1951.
- Zaklady Mechaniczne Tarnow was converted from a state company to a joint-stock company and remained Zaklady Mechaniczne Tarnow S.A. (ZMT SA) in 1994.
- Zaklady Mechaniczne Tarnow S.A. (ZMT SA) became a member of the BUMAR Capital Group in 2002.

Action

- Turn bolt operated.

Serial Number

- numbered on the receiver/frame.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 197515
Make: Taser
Model: 10

Summary

Make:	Taser
Model:	10
Manufacturer:	Axon
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197515 - 1	TASER AIR CARTRIDGE	10	75	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The company logo is marked on the firearm.
- "TASER" is marked on the firearm in various places.

Model

- Introduced in 2023.
- "10" is marked on the firearm in various places.
- This is a conductive energy weapon which fires needle like probes.
- Features include: forward facing hollow square cartridge housing (muzzle) to accommodate cartridge; integral LED flashlight, green laser and speaker port located above the recessed area for the muzzle and cartridge; sidelight status indicators located on both sides of the firearm above the recessed cartridge location; ambidextrous two position manual safety lever above grip; wrap around checkered synthetic grip; central information display window located on the rear of the firearm above the pistol grip; compartment for detachable rechargeable battery pack housed within grip; battery pack installs from bottom.

Manufacturer

- "AXON" marked on the underside of the firearm, ahead of the trigger guard.

Action

- This is a conductive energy weapon which fires needle like probes.

Serial Number

- The serial number is marked on the underside of the receiver/frame.
- Observed serial number format consists of a single letter followed by two numbers followed by a single letter followed by six numbers.

Barrel

- the barrel length is determined by measuring the overall length of the cartridge.

Calibre

- The calibre designation is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable cartridge containing probes and wires, installed from the front.

FRT Report

Firearm Reference Number (FRN): 128094
Make: Taser
Model: 34000

Summary

Make:	Taser
Model:	34000
Manufacturer:	Air Taser
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128094 - 1	TASER AIR CARTRIDGE	1	53	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AIR TASER" may be marked on the unit.
- Taser is an acronym for a fictional weapon known as Thomas A. Swift's Electric Rifle.
- Taser is an electroshock weapon that uses electrical current to disrupt voluntary control of muscles.
- Tasers were introduced as less-lethal weapons to be used to subdue fleeing, belligerent, or potentially dangerous subjects.
- Taser development was initiated by Jack Cover a NASA researcher circa 1969.
- Taser devices first developed by Jack Cover in 1974 used gunpowder as the propellant.
- Taser Public Defender was originally manufactured by Tasertron in 1974.
- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- "34000" was introduced in 1994 by Air Taser.
- "34000" is a hand held unit.
- "34000" comes standard with a wrist strap, safety lever and a button trigger.
- can be equipped with a top mounted laser sight.
- available in black or yellow.
- each cartridge holds microfilm printings (AFID, Anti-Felon Identification) which bear the identification number of the cartridge which, in theory, enable the original purchaser to be identified.

Manufacturer

- "AIR TASER" may be marked on the unit.

Type

- non conventional firearm that discharges wired darts which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- compressed air from the cartridge fires two darts towards the target. Once the darts are attached to the subject (target) electrical power is delivered to the target as long as the trigger is held down.
Barrel	- the barrel length is determined by measuring the overall length of the cartridge.
Calibre	- each cartridge contains two small dart conductors attached to two insulated high voltage wires and are air actuated. The cartridges are not re-usable.

194673 - 1	TASER AIR CARTRIDGE	2	82	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- 'TASER' is marked on the left side above the grip, and on the right side between the trigger guard and the front.
- circular logo with lightning bolt in center on right side at rear, and on left side above the grip.

Model

- introduced in 2018;
- conductive energy weapon which fires needle like probes, or functions via contact with the target similar to a cattle prod.
- features include: forward facing hollow square cartridge housing (muzzle) to accommodate cartridge; integral LED flashlight and red and green laser located in recessed area within muzzle below cartridge; single blade front sight; ambidextrous cartridge release on left and right side, forward of the integral square trigger guard; single trigger; ambidextrous two position manual safety lever above grip; wrap around checkered synthetic grip; compartment for detachable rechargeable battery pack housed within grip; battery pack installs from bottom.

Type

- non conventional firearm that resembles a semi-automatic handgun which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Action

- uses a "Shaped Pulse" technology, where a first electric arc penetrates the cloth and the skin barrier followed by a second arc which flows across the first arc and delivers a severe electric current incapacitating the subject by overriding his/her central nervous system.
- can also be used as a "cattle prod" type stun gun when the cartridge is removed.

Barrel

- the barrel length is determined by measuring the overall length of the cartridge.

Shots

- detachable cartridge containing probes and wires, installed from the front.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
198545 - 1	TASER AIR CARTRIDGE	1	51	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make	- The company logo is marked on the firearm. - "TASER" is marked on the left side of the firearm. - "TASER" is marked on the removeable front cover plate.
Model	- "BOLT 2" is marked on the left side of the firearm. - Features include: safety switch located on the top of the receiver/frame.
Manufacturer	- "AXON" is marked on the rear of the firearm, on the removeable battery plate/cover.
Action	- Fires a pair barbed probes on "conductive wires" with a maximum distance of fifteen feet, (15' or 4.6m), unleashing an electrical impulse to a biological frequency that will cause "neuromuscular incapacitation". - Max output 1mW; wave length 630-680nm.
Serial Number	- The serial number is marked on the bottom of the firearm at the rear near the battery port/door.
Barrel	- The barrel length is determined by measuring the overall length of the cartridge.
Shots	- A pair of barbed cables self-contained in a single use cartridge casing. - Detachable cartridge containing probes and wires, which is installed/loaded from the front.

128802 - 1	TASER AIR CARTRIDGE	1	51	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TASER" may be marked on the unit.
- Taser is an acronym for a fictional weapon known as Thomas A. Swift's Electric Rifle.
- Taser is an electroshock weapon that uses electrical current to disrupt voluntary control of muscles.
- Tasers were introduced as less-lethal weapons to be used to subdue fleeing, belligerent, or potentially dangerous subjects.
- Taser development was initiated by Jack Cover a NASA researcher circa 1969.
- Taser devices first developed by Jack Cover in 1974 used gunpowder as the propellant.
- Taser Public Defender was originally manufactured by Tasertron in 1974.
- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- "TASER C2" is usually marked on the side of the unit.
- "C2" unit is a single shot immobilization device which resembles a handheld flashlight.
- features include: LED light; may include a laser aiming light; top mounted ambidextrous safety lever; single trigger mechanism; cartridge release is part of the cartridge.
- "C2" has the ability to function as a contact distance stun gun with or without the cartridge in place.
- "C2" is available in black pearl, electric blue, metallic and fashion pink, red hot red, titanium silver, desert camouflage, forest camouflage; graphite or leopard print colours.
- overall length with a cartridge in place is 152mm (6"), average weight is 152grams (5.36oz.).

Manufacturer

- "TASER INTERNATIONAL" may be marked on the unit.
- The Taser International Logo of a lightning bolt over a circle or globe may be marked on the blast doors of the Taser cartridge.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Type	- non conventional firearm that resembles a handheld flashlight that discharges wired darts which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.
Action	- compressed nitrogen from the cartridge fires two darts towards the target. Once the darts are attached to the subject (target), electrical power is delivered to the target for as long as the trigger is held down.
Serial Number	- serial number may be marked on the unit. - each separate cartridge holds microfilm printings (AFID, Anti-Felon Identification) which bear the identification number of the cartridge which can be traced to purchaser.
Barrel	- the barrel length is determined by measuring the overall length of the cartridge.
Calibre	- each cartridge contains two small dart conductors attached to two insulated high voltage wires and are compressed nitrogen gas actuated. The cartridges are not re-usable.
Shots	- disposable cartridge that can be discharged once.

200736 - 1	TASER AIR CARTRIDGE	4	74	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TASER ENERGY WEAPON" is marked on the underside of the firearm.
- Trade name used by Axon.

Model

- "COVERT" is marked on the underside of the firearm.
- This is a conductive energy weapon (CEW) which fires needle like probes.
- The "Covert" fires a single dart per press of the trigger. Any two of the four darts can be linked to discharge an electrical pulse to incapacitate the subject.
- Features include: detachable barrel/cartridge housing with buttons on either side of the device; integral flashlight and laser; firing button located at the top of the device, under a sliding protective cover;

Manufacturer

- "AXON" is marked on the underside of the firearm.

Action

- This is a conductive energy weapon (CEW) which fires needle like probes.

Serial Number

- The serial number is marked on the left side of the receiver/frame, visible through a window in the rear enclosure.
The serial number of a referenced example consisted of a letter, two digits, a letter, and five digits.

Barrel

- The barrel length is determined by measuring the overall length of the cartridge.

Calibre

- "6.35MM TAS" is marked on the front of the cartridge/barrel assembly.
- "CAL: MULTI-TAS" is marked on the underside of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - Detachable cartridge assembly contains four barrels preloaded with wires and probes.

197661 - 1	TASER AIR CARTRIDGE	2	95	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TASER" is marked on both sides of the receiver/frame and on the back or rear of the device.
- Trade name used by "Axon Enterprise Inc.".
- The company logo is marked on the receiver/frame.
- "AXON" logo has varied appearance and usually consists of; a circle with a stylized lightning bolt bisecting it or a circle with a lightning bolt straight up and down in the middle of the circle with two lines extending east and west of the bolt.

Model

- "PULSE" is marked on the left side of the receiver/frame.
- "PULSE" is marked on the right side of the receiver/frame.
- Trade name used by "Axon Enterprise Inc.".
- This is a conductive energy weapon which fires needle like probes.
- Features include: forward facing hollow square cartridge housing (muzzle) to accommodate cartridge; assisted targeting; ambidextrous two position manual safety lever above grip; wrap around synthetic grip; compartment for detachable rechargeable battery pack housed within grip; battery pack installs from bottom.

Manufacturer

- "AXON ENTERPRISE, INC." is marked on the underside of the receiver/frame, on the bottom of the trigger guard.
- The company logo is marked on the firearm.
- "AXON" logo has varied appearance and usually consists of; a circle with a stylized lightning bolt bisecting it or a circle with a lightning bolt straight up and down in the middle of the circle with two lines extending east and west of the bolt.

Action

- Fires a pair barbed probes on "conductive wires" with a maximum distance of fifteen feet, (15' or 4.6m), unleashing an electrical impulse to a biological frequency that will cause "neuromuscular incapacitation".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- Serial number is marked on the inside of the receiver/frame where the cartridge is loaded. - The serial number rationalization is unknown. - NOTE: the loaded cartridge may fire 20 - 30 "anti-felon confetti ID tags", which contains the serial number of the cartridge when used. The cartridge is not deemed the receiver/frame of this device.
Barrel	- The barrel length is determined by measuring the overall length of the cartridge.
Calibre	- The calibre designation is not marked on the firearm. - A pair of barbed cables self-contained in a single use cartridge casing.
Shots	- Detachable cartridge containing probes and wires, which is installed/loaded from the front.

Notes

Make

- "TASER" may be marked on the unit.
- Taser is an acronym for a fictional weapon known as Thomas A. Swift's Electric Rifle.
- Taser is an electroshock weapon that uses electrical current to disrupt voluntary control of muscles.
- Tasers were introduced as less-lethal weapons to be used to subdue fleeing, belligerent, or potentially dangerous subjects.
- Taser development was initiated by Jack Cover a NASA researcher circa 1969.
- Taser devices first developed by Jack Cover in 1974 used gunpowder as the propellant.
- Taser Public Defender was originally manufactured by Tasertron in 1974.
- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- introduced in 2008.
- model designation may be marked on the unit.
- the "Shockwave" is a manualy positioned unit which will fire six XP Taser cartridges simultaneously. The units can be stacked on each other or attached side by side.

Type

- non conventional firearm which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Action

- uses a "Shaped Pulse" technology, where a first electric arc penetrates the cloth and the skin barrier followed by a second arc which flows across the first arc and delivers a severe electric current incapacitating the subject by overriding his/her central nervous system.

Action:	Other
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
200852 - 1	TASER AIR CARTRIDGE	6	75	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The make is not marked on the firearm.
- Trade name used by Axon Enterprise Inc..

Model

- "THOR AT-1" is marked on the underside of the receiver/frame.
- This is a pre-production prototype. The production version may contain other features and markings.
- The "Thor AT-1 Prototype" is a remotely piloted aircraft system (RPAS) designed to discharge Taser cartridges.
- The "Thor AT-1 Prototype" can only be fired via remote control with a handheld ground control station (GCS).
- Features include: Quad drone; synthetic fuselage with propeller guards; front-mounted camera and lights for navigation; removable battery on top of the aircraft; integral Taser cartridge magazine mounting interface on the bottom of the aircraft; six-barreled cartridge magazine assembly; hand-held ground control station for remote firing.

Manufacturer

- "JUGGERNAUT TACTICAL" is marked on the underside of the receiver/frame.

Type

- This is a remotely piloted aircraft system (RPAS) with an integral Taser receiver/frame.

Action

- This is a conductive energy weapon (CEW) which fires needle-like probes.
- Velocity is reported as 53 mps or 175 fps.

Serial Number

- The serial number is marked on the underside of the receiver/frame.
- The serial number of the referenced sample consists of one letter, two digits, one letter, followed by five digits.

Barrel

- The barrel length is determined by measuring the overall length of the individual cartridge.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- "CAL: MULTI-TAS" is marked on the receiver/frame.
- "6.35MM TAS" is marked on the cartridge magazine assembly.
- Designed to fire "Taser 10" type projectiles.
- Individual "Taser 10" type live cartridges have a nominal length of 74.2mm and a nominal diameter of 8.9mm.

Shots

- Uses a proprietary cartridge magazine.
- Detachable cartridge magazine assembly contains six barrels preloaded with wires and probes.

Canadian Law Comments

- In the case of this firearm, it has been determined that the metal component on the underside of the remotely piloted aircraft, into which the cartridge magazine is mounted and upon which the model identification, calibre identification, and the full serial number is marked, is the receiver/frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.
- This model may be regulated by other Federal regulations such as the Canadian Aviation Regulations (SOR/96-433).

- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- introduced in 2011.
- "X2" is moulded into both sides of the firearm.
- this device resembles a semi-automatic handgun.
- "X2" polymer receiver/frame is available in black or yellow.
- "X2" is a multiple shot Electronic Control Device (ECD) utilizing a replaceable pre-loaded cartridge assembly.
- "X2" is very similar to the Taser model X26 with the exception that the X2 has a two shot capacity.

Manufacturer

- "TASER INTERNATIONAL, INC. SCOTTSDALE, AZ" or a variation thereof will be marked marked on the receiver/frame.

Action

- uses a "Shaped Pulse" technology, where a first electric arc penetrates the cloth and the skin barrier followed by a second arc which flows across the first arc and delivers a severe electric current incapacitating the subject by overriding his/her central nervous system.
- can also be used as a "cattle prod" type stun gun when the cartridge is removed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number
- serial number is marked on the underside of the firearm.
- serial number of a referenced example consisted of a three letter prefix (ZZX), five numbers, and a letter suffix (T).

Shots
- utilizes a replaceable pre-loaded two shot cartridge assembly.

- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- introduced in 2011.
- "X2" is moulded into both sides of the firearm.
- this device resembles a semi-automatic handgun.
- the polymer receiver/frame is available in black or yellow.
- the "X2" is a multiple shot Electronic Control Device (ECD) utilizing a replaceable pre-loaded cartridge assembly.
- the X2 model is very similar to the Taser X26 with the exception that the X2 has a two shot capacity.

Manufacturer

- "TASER INTERNATIONAL, INC. SCOTTSDALE, AZ" or a variation thereof will be marked marked on the receiver/frame.

Action

- uses a "Shaped Pulse" technology, where a first electric arc penetrates the cloth and the skin barrier followed by a second arc which flows across the first arc and delivers a severe electric current incapacitating the subject by overriding his/her central nervous system.
- can also be used as a "cattle prod" type stun gun when the cartridge is removed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the underside of the firearm. - serial number of a referenced example consisted of a three letter prefix (ZZX), five numbers, and a letter suffix (T).
Calibre	- the barrel length is determined by measuring the overall length of the cartridge.
Shots	- utilizes a replaceable pre-loaded two shot cartridge assembly.

125178 - 1	TASER AIR CARTRIDGE	1	53	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TASER" may be marked on the unit.
- Taser is an acronym for a fictional weapon known as Thomas A. Swift's Electric Rifle.
- Taser is an electroshock weapon that uses electrical current to disrupt voluntary control of muscles.
- Tasers were introduced as less-lethal weapons to be used to subdue fleeing, belligerent, or potentially dangerous subjects.
- Taser development was initiated by Jack Cover a NASA researcher circa 1969.
- Taser devices first developed by Jack Cover in 1974 used gunpowder as the propellent.
- Taser Public Defender was originally manufactured by Tasertron in 1974.
- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- introduced in 2003.
- "X26" was observed marked on the side of the firearm.
- resembles a semi-automatic handgun.
- available in black, yellow or clear.

Manufacturer

- "TASER INTERNATIONAL, INC. SCOTTSDALE, AZ" was observed marked on the underside of the receiver/frame.

Type

- non conventional firearm that resembles a semi-automatic handgun which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- uses a "Shaped Pulse" technology, where a first electric arc penetrates the cloth and the skin barrier followed by a second arc which flows across the first arc and delivers a severe electric current incapacitating the subject by overriding his/her central nervous system. - can also be used as a "cattle prod" type stun gun when the cartridge is removed.
Serial Number	- serial number was observed marked on the top of the receiver/frame. - observed serial number consisted of a letter "X" prefix and eight numbers.
Barrel	- the barrel length is determined by measuring the overall length of the cartridge.

Notes

Make

- "TASER" over "USA" was observed marked on the rear of the handle.
- Taser is an acronym for a fictional weapon known as Thomas A. Swift's Electric Rifle.
- Taser is an electroshock weapon that uses electrical current to disrupt voluntary control of muscles.
- Tasers were introduced as less-lethal weapons to be used to subdue fleeing, belligerent, or potentially dangerous subjects.
- Taser development was initiated by Jack Cover a NASA researcher circa 1969.
- Taser devices first developed by Jack Cover in 1974 used gunpowder as the propellant.
- Taser Public Defender was originally manufactured by Tasertron in 1974.
- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- introduced circa 1968.
- model designation is not marked on the firearm.
- the "Taser Public Defender" unit is a two shot immobilization device which resembles a handheld flashlight.
- each unit is molded from hi-impact plastic and consist of a handle; electric release bar (trigger); safety; flashlight switch; two expendable cartridge cassettes; battery charge plug; recharge indicator; battery recharge cord; flashlight and two cartridge cassette chambers.
- overall length is 229mm (9"), average weight is 590 gms (1.3lbs).

Manufacturer

- "Taser Systems, Incorporated" was located in City of Industry, California, U.S.A. circa 1975.

Type

- non conventional firearm that resembles a handheld flashlight that discharges wired darts which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- a high voltage discharge sets off the squibs (small powder charge) in the cartridge from which two darts are fired towards the target. Once the darts are attached to the subject (target) electrical power is delivered to the target as long as the trigger is held down.
Barrel	- the barrel length is determined by measuring the overall length of the cartridge.
Calibre	- each cartridge contains two small dart conductors attached to two insulated high voltage wires and are propellant actuated. The cartridges are not re-usable.
Shots	- two cartridges position side by side below the flashlight.

125167 - 1	TASER PERCUSSION CARTRIDGE	1	51	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TASER" or "TASER TECHNOLOGIES" may be marked on the unit.
- Taser is an acronym for a fictional weapon known as Thomas A. Swift's Electric Rifle.
- Taser is an electroshock weapon that uses electrical current to disrupt voluntary control of muscles.
- Tasers were introduced as less-lethal weapons to be used to subdue fleeing, belligerent, or potentially dangerous subjects.
- Taser development was initiated by Jack Cover a NASA researcher circa 1969.
- Taser devices first developed by Jack Cover in 1974 used gunpowder as the propellant.
- Taser Public Defender was originally manufactured by Tasertron in 1974.
- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- model designation may be marked on the firearm.
- this unit features both "taser" and "stun" capability.
- the "TE93" is a hand held unit.
- the "TE93" comes standard with a kill switch wrist strap, safety lever, trigger and trigger guard.
- can be equipped with a side mounted laser sight.
- uses the same cartridge as the model TE86.

Manufacturer

- "Taser Technologies, Incorporated" was located in Newport Beach, California, U.S.A. circa 2002.
- "Taser Technologies, Incorporated" purchased "Tasertron" in 2002.
- "Taser Technologies, Incorporated" became the manufacturer of "Tasertron" less lethal products starting in 2002.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Type	- non conventional firearm that discharges wired darts which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject. This unit may also be used as a stun gun.
Action	- a high voltage discharge sets off the squibs (small powder charge) in the cartridge from which two darts are fired towards the target. Once the darts are attached to the subject (target) electrical power is delivered to the target as long as the trigger is held down.
Barrel	- the barrel length is determined by measuring the overall length of the cartridge.
Calibre	- each cartridge contains two small dart conductors attached to two insulated high voltage wires and are propellant actuated. The cartridges are not re-usable.

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model is marked on the firearm.
- this is a long-range sniper/target/anti-materiel rifle based on the Baryshev principle of delayed blowback operation, where a heavier bolt carrier must be moved by way of a lever at a mechanical disadvantage in order to open the breech.
- these rifles have gone through several generations of design and redesign, and features may vary slightly from example to example.
- features include: matte blued/parkerized/phosphated finish; either a flat "harmonica" or cylindrical style of multi-chamber muzzle brake; a folding adjustable bipod; an integral carry handle at the centre of gravity; bolt operating handle on the right side of the rectangular receiver; detachable box magazine; optical mounting rail for various types of day or night sights; a thumb-operated safety above a synthetic pistol-grip; and either a wooden or frame-style synthetic buttstock with an adjustable cheekpiece.
- versions of this rifle have been manufactured in both 12.7x108mm (50 Soviet)and 12.7x99mm (50 Browning).

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- delayed blowback.

Serial Number

- numbered on the receiver/frame.

Shots

- detachable box magazine.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
117613 - 1	9MM BAYARD	8	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Tauler" is marked on the left side of the slide and on the grip plates along with the trademark of a kneeling archer.
- "Tauler" was a dealer located in Madrid, Spain in the early 1930's.
- "Tauler" sold "LLAMA" models under his own name.

Model

- "Model Military and Police" is marked on the right side of the slide and "Mark P" is marked on the left side of the slide.
- manufactured in the 1930s by Gabilondo.
- this firearm is similar in appearance to the Colt Model 1911A1 semi automatic handgun.
- features include: large receiver/frame; exposed hammer; single action; grip safety; manually applied thumb safety, push button magazine release and lanyard loop are located on the left side of the receiver/frame; fixed sights.

Manufacturer

- "G.C" in a circle on the right side of the receiver/frame is the abbreviation for "Gabilondo y Cia".

Serial Number

- serial number is located on the right side of the receiver/frame, above the trigger.
- observed serial number had five digits.

Calibre

- calibre is marked on the chamber of the barrel and on the left side of the slide.

Shots

- single column detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- marked on the left side of the slide:
"TAULER MARK. P." (kneeling archer) "96.730.DIC.13-1933"
"AUTOMATIC PISTOL" and "CAL. 9m/m".
- marked on the right side of the slide:
"MODEL MILITARY AND POLICE"

Notes

Make

- the Taurus name is marked on the barrel, the Taurus logo is marked on the right side of the receiver/frame.
- Company logo is a stylized Bull's head with its horns pointed down in what appears to be a changing position.

Model

- introduced in 2003.
- also available in a lightweight version as the model "17UL", a "Tracker" (marked on the barrel and has a seven shot cylinder) version as the model "17 Tracker" and in a version intended for silhouette shooting as the model "17 Silhouette" with a 305mm barrel that features a ventilated rib.
- features include: steel construction with a blued finish or stainless steel construction with a matte finish; black rubber grips; double action/single action trigger mechanism; cylinder release button is mounted on the left side of the receiver/frame; recessed target crown; adjustable rear sight with a ramped blade front sight.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- the Taurus name is marked on the barrel, the Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.
- Company logo is a stylized Bull's head with its horns pointed down in what appears to be a changing position.

Serial Number

- numbered on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - the calibre designation is marked on the barrel.

Importer - Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.
- marked on the right side of the receiver/frame.

Notes

Make

- the Taurus name and logo are marked on the right side of the firearm.

Model

- introduced in 2005. The model designation is in reference to the dual calibre capability of the original offering. When introduced this model was capable of using 410 GA X 2 ½" shotshells or 44-40 WIN cartridges. Subsequent offerings are listed as being capable of using 410 GA X 2 ½" shotshells, 44-40 WIN or 45 COLT cartridges.
- early product literature noted that this model was available on either the "Tracker" or "Raging Bull" receiver/frame (the Raging Bull variant is easily identified by an additional cylinder release catch on the yoke and a ventilated barrel rib).
- features include: blued, stainless steel or blued barrel with a case-hardened receiver/frame finish; round barrel with or without a ventilated rib; shrouded ejector rod; single/double action trigger mechanism; receiver/frame mounted firing pin with a transfer bar safety; fiber optic front sight with a fixed or adjustable rear sight; cylinder release mounted on left side of receiver/frame; black rubber or black "Ribber" (rubber with horizontal grooves) grip; integral "Taurus Security System" lock on hammer.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number consisted of a two letter "CS" prefix and six numbers.

Calibre

- when first introduced this model was marketed as being capable of using 410 GA X 2 1/2" shotshells or 44-40 WIN cartridges. Calibre markings on samples in Taurus product literature are clearly marked on the barrel as "410 GA - 44/40 cal". Later product literature touts the capablity of using 410 GA X 2 1/2" shotshells, 44-40 WIN or 45 COLT cartridges. Calibre markings on later samples in Taurus product literature are clearly marked on the barrel as ".45 LC / 410 GA".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- importer markings are found on the right side of the receiver/frame.
- Taurus International Manufacturing was formed circa 1983 and has been the sole importer of the Taurus product line since.

Notes

Make

- the Taurus name is marked on the barrel, the Taurus logo is marked on the right side of the receiver/frame.

Model

- introduced in 2003.
- this is a specialized model intended for silhouette shooting.
- features include: stainless steel construction with a matte finish; black rubber grips; ventilated rib on the ported barrel; double action/single action trigger mechanism; cylinder release button is mounted on the left side of the receiver/frame; adjustable rear sight with a ramped blade front sight.
- also available with an optional arm support that attaches to the grip.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- numbered on the right side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.
- marked on the right side of the receiver/frame.

Notes

Make

- "Taurus" is marked on the barrel.

Model

- this model is based on the model 62 designed by John Moses Browning and manufactured by Winchester.
- "Model 62" is marked on the barrel.
- a version in calibre 22 MAG is available as the model "72".
- features include: take-down design, a large knurled screw is visible on the left side of the receiver/frame; steel construction with a blued or case hardened finish, or stainless steel with a polished finish; button-rifled barrel; walnut finished hardwood buttstock and forend; two safety systems, a) manual firing pin block on the top of the bolt, b) Integral Taurus Security System® lock on the hammer; barrel mounted blade front sight and adjustable rear sight.
- options include an adjustable, folding rear tang sight and a scope mount base that is attached to the barrel.
- available in rifle or carbine configuration.
- Taurus also markets a version of the model 62 as the "Upstart". This version includes two buttstocks, one is a shorter "youth" length and the other is a standard length that is installed as the shooter matures.

Manufacturer

- "Made in Brazil" and "Taurus" are marked on the barrel.

Serial Number

- serial number is located on the left side of the receiver/frame.

Shots

- tubular magazine mounted under the barrel.

125190 - 1	9MM LUGER/357 MAG	7	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus name and logo are marked on the firearm.

Model

- introduced in 2005, built on the model "627 Tracker" platform.
- the Taurus "Triad" models allow an individual to shoot calibre 9MM LUGER, 38 SPL and 357 MAG ammunition through the same gun without the need for an extra cylinder. The chambers accommodate the 357 MAG and 38 SPL in the normal fashion (the shorter 38 SPL cartridge can be safely fired in a 357 MAG chamber), 9MM LUGER ammunition uses the Taurus "Stellar Steel Clip" (a proprietary "full-moon" clip) for loading and extracting.
- the "Triad" feature is also available as a five shot model known as the "85 Triad".
- features include: blued steel or stainless steel construction/finish; shrouded ejector rod; black "rubber" grip; ported barrel; single action/double action trigger mechanism; blade front sight with an adjustable rear sight; cylinder release mounted on the left side of the receiver/frame, cylinder swings out to the left for loading and unloading.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- Taurus is usually marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Calibre

- calibre designation is marked on the left side of the barrel as "9mm /.38 /.357".
- the Taurus "Triad" models allow an individual to shoot calibre 9MM LUGER, 38 SPL and 357 MAG ammunition through the same firearm without the need for an extra cylinder. The chambers accommodate the 357 MAG and 38 SPL in the normal fashion (the shorter 38 SPL cartridge can be safely fired in a 357 MAG chamber), 9MM LUGER ammunition uses the Taurus "Stellar Steel Clip" (a proprietary "full-moon" clip) for loading and extracting.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- Taurus International Manufacturing markings are found on the right side of the receiver/frame.
- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

- the model designation may be marked on the crane cutout as "66".
- this firearm is designed for use in metallic "Silhouette" shooting competitions.
- features include: blued steel or stainless steel construction with a matte finish; black rubber grips; ventilated rib on the barrel; double action/single action trigger mechanism; cylinder release button is mounted on the left side of the receiver/frame; adjustable rear sight with a ramped blade front sight.
- also available with an optional arm support that attaches to the grip.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- the serial number is marked on the right side of the receiver/frame.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.
- marked on the right side of the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 121400
Make: Taurus
Model: 731

Summary

Make:	Taurus
Model:	731
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121400 - 1	32 H&R MAG	6	51	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus name is marked on the barrel, the Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Model

- the model designation is usually marked on the cylinder crane cut-out area.
- features include: soft rubber grips; stainless steel construction; external hammer; fixed sights; ported barrel; swing out, fluted cylinder.
- the same firearm is available in a lightweight version as the model 731UL or in Titanium with a matte blue or shadow gray finish as the model 731Ti.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- incorporates an alpha prefix followed by sequential numbers, marked on the right side of the receiver/frame.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.
- marked on the right side of the receiver/frame.

Notes

Make

- the make is marked on the right lide of the receiver/frame above the grip as the Taurus logo.

Model

- introduced in 1971 and discontinued in 1978.
- the model designation is normally marked on the receiver/frame in the crane cut out area as, "84".
- features include: double action trigger mechanism, blued or satin nickel finished receiver/frame and barrel, spurred hammer, smooth or grooved cylinder flutes, the cylinder swings out to the left side, the front sight is fixed and the rear may be fixed or adjustable, the barrel may have a top rib, exposed cylinder pin under the barrel, and the grips may vary from checkered wood to stag style.

Manufacturer

- the manufacturer is normally marked on the left side of the barrel as, "TAURUS BRASIL", or, "FORJAS TAURUS S.A." over "P. ALEGRE - RS - BRASIL".
- the right side of the receiver/frame above the trigger is normally marked, "MADE IN BRASIL".

Serial Number

- the serial number is marked on the right side of the receiver/frame above the trigger as sequential numbers. Observed samples have seven sequential numbers.

Calibre

- the calibre designation is normally marked on the left side of the barrel as, "CAL .38 SPECIAL" or "38 Special".

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer since.
- the importer/distributor may be marked on the left side of the receiver/frame above the trigger.
- other firms imported the Taurus product line prior to 1982.

Notes

Make

- "TAURUS" is marked on the barrel.
- "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Model

- introduced in 1980.
- model designation appears on receiver/frame in cylinder crane cut-out.
- blue, satin nickel (discontinued in 1993) or stainless steel finish.
- early production guns did not have an ejector shroud.
- a variation of this model is available with a spurless hammer as the model "85CH".
- available in either stainless steel or with a black finish with mother of pearl grips and a gold plated trigger, cylinder release and grip screw.
- the model 85 is also available in a "Total Titanium" (85Ti) version, with a forged titanium receiver/frame, sideplate, cylinder, and outer barrel sleeve.
- these revolvers are made in both double-action and double-action-only (DAO) versions; DAO versions are commonly seen without a hammer spur, and are properly known as "85CH"s.
- also available with a factory ported barrel, to reduce muzzle climb.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.
- overall length for 76mm barrel is 191mm (7 1/2"), average weight is 694.57 grams (24.5 oz).
- available 2015 with a "convertible hammer" system, allowing the hammer spur to be removed when desired, to prevent snagging on clothing.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "TAURUS" is marked on the barrel. - "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.
Serial Number	- the serial number is marked on the right side of the receiver/frame. - the serial number imaged has two letter prefix followed by five numbers.
Barrel	- ported barrel is available as an option on the 51MM barrel.
Calibre	- "38 SPECIAL" marked on the right side of the barrel.
Importer	- Taurus International Manufacturing was formed circa 1983 and has been the sole importer of the Taurus product line since.

127229 - 1	38 SPL	5	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus name and logo are marked on the receiver/frame and/or barrel.

Model

- introduced in 2007.
- the model designation "Hy-Lite" is marked on the left side of the receiver/frame.
- Taurus markets this model as part of their "light-as-a-feather" magnesium, scandium and titanium models.
- features include: magnesium receiver/frame; double action/single action trigger mechanism; transfer bar safety; soft rubber grips; swing out cylinder; "Shadow Gray" finish; fixed sights.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.
- overall length with a 51mm barrel is 165mm (6.5"), average weight 352grams (12.4oz).

Manufacturer

- the Taurus name and "Made in Brazil" are marked on the firearm.

Serial Number

- the serial number is marked on the right side of the receiver/frame.

Calibre

- the calibre designation is marked on the right side of the barrel.

125189 - 1	9MM LUGER/357 MAG	5	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus name and logo are marked on the firearm.

Model

- introduced in 2005, built on the model "85" platform.
- the Taurus "Triad" models allow an individual to shoot calibre 9MM LUGER, 38 SPL and 357 MAG ammunition through the same gun without the need for an extra cylinder. The chambers accommodate the 357 MAG and 38 SPL in the normal fashion (the shorter 38 SPL cartridge can be safely fired in a 357 MAG chamber) , 9MM LUGER ammunition uses the Taurus "Stellar Steel Clip" (a proprietary "full-moon" clip) for loading and extracting.
- the "Triad" feature is also available as a seven shot model known as the "627 Tracker Triad".
- features include: blued steel or stainless steel construction/finish; shrouded ejector rod; black rubber grip; single action/double action trigger mechanism; blade front sight with a notch rear sight; cylinder release mounted on the left side of the receiver/frame, cylinder swings out to the left for loading and unloading.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Importer

- Taurus International Manufacturing markings are found on the right side of the receiver/frame.
- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

FRT Report

Firearm Reference Number (FRN): 127232
Make: Taurus
Model: 85 Ultra Lite SC

Summary

Make:	Taurus
Model:	85 Ultra Lite SC
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127232 - 1	38 SPL	5	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus name and logo are marked on the receiver/frame and/or barrel.

Model

- introduced in 2007.
- "Ultra-Lite Scandium" is marked on the left side of the receiver/frame.
- Taurus markets this model as part of their "light-as-a-feather" magnesium, scandium and titanium models.
- features include: scandium receiver/frame; double action/single action trigger mechanism; transfer bar safety; soft rubber grips; swing out cylinder; "Shadow Gray" finish; fixed sights.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.
- overall length with a 51mm barrel is 165mm (6.5"), average weight 400grams (14.1oz).

Manufacturer

- the Taurus name and "Made in Brazil" are marked on the firearm.

Serial Number

- the serial number is marked on the right side of the receiver/frame.

Calibre

- the calibre designation is marked on the right side of the barrel.

Notes

Make

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Model

- introduced in 1999 (variant of the Taurus model 85).
- "85" is usually marked in the crane-cut of the receiver/frame.
- "ULTRA-LITE TITANIUM" is marked on the left side of the receiver/frame.
- multi-alloy firearm, natural metal finish; aluminum alloy frame, titanium cylinder, stainless steel-lined titanium barrel with ejector shroud, black rubber grips.
- features frame-mounted firing pin with transfer bar, fixed-notch rear sight and serrated ramp blade front sight, single/double action trigger mechanism.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- usually marked on forward right side of receiver, example: (two letters, up to six numerals)

Calibre

- calibre is marked on the right side of barrel, example: .38 SPECIAL
- stated by manufacturer to handle 38 SPL +P ammunition.

Other Markings

- often marked on the right side-plate of receiver/frame: TAURUS INT. MFG. MIAMI, FL. USA
- marked on the left side the barrel near the frame: ("Ti" in a circle)

- Taurus markets this model as part of their "CIA" (Carry It Anywhere) line of firearms. The double action only models (model 850 in calibre 38 SPL and model 650 in calibre 357 MAG) are referred to as "CIA", the models capable of double action/single action firing (model 851 in calibre 38 SPL and model 651 in calibre 357 MAG) are referred to as the "CIA Protector".
- features include: double action/single action trigger mechanism; "zero profile" hammer (only a small serrated portion of the hammer is visible); transfer bar safety; soft rubber grips; swing out cylinder; polished blued finish or matte stainless steel; adjustable rear sight blade.
- also available as a standard model 851 with a blued steel or stainless steel construction/finish, in Titanium as the "851Ti" or an "Ultra-Lite Titanium" version as the 851UL Ti.
- a similar model, in calibre 357 MAG is available as the model "651".
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.
- overall length with a 51mm (2") barrel is 165mm (6.5"), average weight is 476grams (16.8oz).

Manufacturer

- "TAURUS" is marked on the barrel.
- "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- the serial number is marked on the right side of the receiver/frame.
- the serial number will usually incorporate three alpha characters as a prefix.

Calibre

- the calibre designation is marked on the right side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer - Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

Notes

Make

- "TAURUS" is marked on the barrel.
- "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Model

- introduced in 2003.
- this model is chambered for the 9MM LUGER cartridge, it uses the Taurus Stellar Steel Clip (a proprietary "full-moon" clip) for loading and extracting. Similar models are available chambered for the 40 S&W cartridge as the model 405 and 45 AUTO cartridge as the model 455.
- features include: blued steel finish or matte stainless steel construction/finish; black rubber grip; single action/double action trigger mechanism; fixed sights; cylinder swings out to the left for loading and unloading.
- also available with a concealed hammer (no spur) as the model 905CH, in an "Ultra-Lite" lightweight version as the model 905UL, in Titanium as the model 905Ti and in Titanium with a concealed hammer (no spur) as the model 905CH Ti.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.
- in 2005 this model was given an "IB" moniker in the model designation to denote the "Instant Backup" size receiver/frame and shorter, 44mm (1 3/4") barrel in reference to its smaller size/portability.
- overall length with a 51mm (2") barrel is 165mm (6 1/2"), average weight is 0.59kg (1.3lbs).

Manufacturer

- "TAURUS" is marked on the barrel.
- "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- numbered on the right side of the receiver/frame, incorporates a two alpha character prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the barrel as "9mm Para".
Importer	- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

FRT Report

Firearm Reference Number (FRN): 38161
Make: Taurus
Model: 941 Ultra Lite

Summary

Make:	Taurus
Model:	941 Ultra Lite
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
38161 - 1	22 MAG	8	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TAURUS" is marked on the barrel.
- "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Model

- the "UL" in the model designation denotes "Ultra Lite".
- model designation may be marked on the receiver/frame in the crane cut-out area, "Ultra-Lite" is marked on the left side of the receiver/frame.
- features include: rubber finger grooved grips, bright blued or polished stainless steel finish, solid barrel rib, blade front sight, adjustable rear sight, external hammer, swing out cylinder.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.
- overall length with a 51mm (2") barrel is 159mm (6.375"), average weight is 0.52kg (1.15lbs).

Manufacturer

- "TAURUS" is marked on the barrel.
- "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- usually located on the right side of the receiver/frame.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer since.

Notes

Make

- the "TAURUS" logo, the "TAURUS" name and "MADE IN BRAZIL" was observed marked on both sides of the receiver/frame.

Model

- introduced in 2011.
- "CT40 G2 - CAL. 40" was observed marked on both side of the receiver/frame.
- features include: fixed front sight and an adjustable rear sight; round, rifled barrel; flat top aluminum upper assembly with integral accessory rail; high strength polymer and steel reinforced lower receiver/frame has an integral magazine well, pistol grip and skeleton stock; ambidextrous cocking handle, action release and safety lever; hammer fired; detachable box magazine release is located behind the magazine well; Taurus security system; ribbed synthetic forearm with integral rail; black/blue finish.
- overall length with a 406 mm (16") barrel is 800 mm (31.5"), and the average weight is 4.20 kgs (148 oz).

Manufacturer

- the "TAURUS" logo, "TAURUS" name and "MADE IN BRAZIL" was observed marked on the both side of the receiver/frame.

Action

- blowback operated.

Serial Number

- serial number was observed marked on the side of the receiver/frame.
- observed serial number had a two letter prefix and four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- this firearm model is furnished with and utilizes an unknown high capacity cartridge magazine permanently altered to a ten shot capacity in 40 S&W Calibre.
- there is no documentary evidence that the cartridge magazines furnished with this firearm are originally designed for use in a semi-automatic handgun that is commonly available in Canada.

Canadian Law Comments

- the ten round limit specified in the Cartridge Magazine Control Regulations does not apply to magazines for this firearm as there is no documentary evidence that the cartridge magazines furnished with this firearm are originally designed for use in a semi-automatic handgun that is commonly available in Canada.
- the cartridge magazine supplied by the manufacturer, Taurus with this firearm is non-specific as to origin and in a capacity of fifteen (15) cartridges of 40 S&W Calibre which has been permanently altered so that it cannot hold more than ten (10) cartridges.

154746 - 1	380 AUTO	6	64	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TAURUS" is marked on the right side of the slide.

Model

- "CURVE" is marked on the right side of the slide.
- introduced in 2015.
- this is a compact 380 AUTO pistol designed for no-snag concealed carry, with all corners rounded, no protruding sights, and a receiver/frame that is curved in a bow to the right, from top to bottom; this allows the pistol to sit closer to the body while carrying.
- features include: black synthetic receiver/frame; black oxide/phosphate slide; a rounded-front frame with a receptacle for an integral light/laser-aiming unit; loaded chamber indicator; Double-Action-Only (DAO) hammer-fired mechanism; a belt clip on the right side of the frame; scalloped slide-gripping serrations; and a white-line "cross"-pattern at the rear of the slide to serve as a back-up sighting system for close range.
- these pistols come with a clip-on "holster"/trigger protector with a lanyard, that remains attached to a wearer's clothing when the pistol is drawn, but prevents the trigger from being accidentally squeezed while in a pocket.
- overall length is 130mm/5.18".

Manufacturer

- "TAURUS" is marked on the right side of the slide.

Action

- recoil-operated.

Serial Number

- serial number is marked on an insert in the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- The make is marked on the left side of the receiver/frame.
- "Taurus" Logo was observed marked on the left side of the receiver frame with the bull's horns pointed towards the barrel.

Model

- Introduced in 2024.
- "EXPEDITION" is marked on the right side of the receiver/frame.
- Features include: stainless steel barrel; helical manufacturing marks running entire length of barrel; helically fluted bolt; tri-lug bolt; interchangeable bolt knob; accessory rail anchor point; embedded cup attachment point under the forend.
- "Expedition" is a bolt-action rifle with the Remington 700 footprint.
- Overall length with a 457 mm (18 inches) barrel is 963 mm (37.92 inches).

Manufacturer

- "TAURUS USA BAINBRIDGE GA" was observed marked on the left side of the receiver/frame directly below the ejection port.

Action

- Turn bolt operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- The serial number is marked on the left side of the barrel.

Shots

- Detachable box magazine.
- Use detachable AICS (Accuracy International Chassis System) compatible magazines.

FRT Report

Firearm Reference Number (FRN): 22803
Make: Taurus
Model: PT101

Summary

Make:	Taurus
Model:	PT101
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
22803 - 1	40 S&W	10	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
22803 - 2	40 S&W	11	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Model

- introduced in 1992.
- model designation is marked on the slide.
- available in blue, satin nickel, or stainless steel finish.
- features include; standard double action trigger mechanism; smooth Brazilian hardwood grips; loaded chamber indicator; inertia firing pin; adjustable sights.
- current production (2002) PT101's all have the AFS ambidextrous safety system, and can accept a 22 LR calibre barrel, slide and magazine.
- a version with fixed sights is also available as the PT100.
- newer Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.
- overall length with a 127mm barrel is 216mm (8.5"), average weight is 962grams (34oz).

Manufacturer

- "TAURUS INT. MFG. INC." over "MIAMI, FL." is marked on the left side of the slide.

Action

- double action.

Serial Number

- alpha prefix followed by sequential numbers, usually on left side of receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 121384
Make: Taurus
Model: PT111Ti Millennium

Summary

Make:	Taurus
Model:	PT111Ti Millennium
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121384 - 1	9MM LUGER	10	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
121384 - 2	9MM LUGER	10	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the "TAURUS" name is marked on the right side of the slide, the Taurus logo is marked on the left side of the slide and on the grips.

Model

- introduced in 2001.
- this is a compact double action only pistol that features a polymer receiver/frame and titanium slide (designated by the "Ti" in the model designation) with tritium night sights.
- each version of the Millennium series is offered in a different calibre.
- the left side of the slide is marked: "MILLENNIUM TITANIUM".
- the right side of the slide is marked: PT 111 CAL. 9 mm PARA.
- newer Millennium pistols are also equipped with the integral Taurus Security System mounted on the slide (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- in 2003 Taurus introduced an upgraded line of the Millennium series as the Millennium Pro series.

Manufacturer

- the Taurus name and logo are marked on the firearm.

Action

- recoil operated.

Serial Number

- numbered on the receiver/frame, will incorporate alpha characters as a prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre is normally marked on the right side of the slide as, "CAL. 9 MM PARA".
Shots	- detachable box magazine.
Importer	- Taurus International Manufacturing was formed circa 1982-1983, and, since that time has been the sole importer of the Taurus product line. - marked on the right side of the receiver/frame.

- Taurus logo is marked on the left side of the slide and on both side of the grip.

Model

- "G2C" is marked on the right side of the slide.
- "MOD. PT140 G2 A" is marked on the underside of the integral rail on the receiver/frame, in front of the trigger guard.
- features include: low profile 3-dot sights consisting of single blade front and adjustable rear sight; plain round rifled barrel; flat top steel slide with contoured front, rear gripping serrations, and lightening grooves along the top on both sides, parallel to and between the muzzle and ejection port; loaded chamber indicator marked "LOADED WHEN UP" located on top of slide behind the right side ejection port; polymer receiver/frame with integral accessory rail on the underside between the muzzle and squared trigger guard, oval finger indent on both sides between the accessory rail and serrated ambidextrous disassembly latch, and slide release and manual safety between grip and slide; Glock style integrated safety on 'double action only' trigger; magazine release on left side of grip behind the trigger guard; integral stippled grip panels, and oval indent on left and right side of grip parallel with the trigger guard.
- finish options include: matte black; matte black with matte stainless slide; matte black slide and accents with olive drab receiver/frame; matte black slide and accents with desert tan receiver/frame; also available with receiver/frame in light grey, blue green, dark grey, pink, purple, or medium brown.
- average weight is 0.60 kg (21.2 oz).

Manufacturer

- Taurus logo is marked on the left side of the slide and on both side of the grip.
- "MADE IN BRAZIL" is marked on the right side of the slide.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on a metal insert embedded in the underside of the receiver/frame, forward of the trigger guard. - serial number is also repeated on the right side of the slide and on the barrel. - serial number of a referenced example consisted of a three letter prefix and five numbers.
Calibre	- calibre designation is marked on the barrel, visible through the ejection port. - calibre designation is also marked on the right side of the slide.
Shots	- detachable box magazine.

Firearm Reference Number (FRN): 84334
Make: Taurus
Model: PT140 Millennium

Summary

Make:	Taurus
Model:	PT140 Millennium
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
84334 - 1	40 S&W	10	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the Taurus name and logo are marked on the firearm.
Model	- the model designation appears on the left side of the slide as "MILLENNIUM", and on the right side of the slide as "PT 140". - manufactured from 1999 to 2004. - features include: polymer receiver/frame, blued steel or stainless steel slide, double action only trigger mechanism, available with three dot fixed sights or tritium night sights; manual safety lever. - newer Millennium pistols are also equipped with the integral Taurus Security System mounted on the slide (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key. - Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port. - in 2003 Taurus introduced an upgraded line of the Millennium series as the Millennium Pro series.
Manufacturer	- the Taurus name and logo are marked on the firearm.
Action	- recoil operated.
Serial Number	- the serial number is marked on the receiver/frame.
Shots	- detachable box magazine.
Importer	- Taurus International was formed circa 1982-1983 and has been the sole importer since.

Notes

Make

- Taurus logo is marked on the left side of the slide and on both side of the grip.
- "MADE IN BRAZIL" is marked on the right side of the slide.

Model

- introduced in 2013.
- "PT140 G2" is marked on the forward right side of the slide.
- "MILLENNIUM G2" is marked on the left side of the slide.
- "PT140 G2" is a striker fired handgun.
- "MILLENNIUM" series is equipped with an integral locking safety mounted on the slide. The firearm is rendered inoperable by turning a locking stud on the rear right side of the slide with a supplied key.
- features include: fixed front and adjustable rear sights; steel slide with rear gripping serrations; external extractor; loaded chamber indicator on top of the slide behind the chamber; ergonomically shaped synthetic receiver/frame with integral accessory rail; double action trigger mechanism with integral safety bar; manual safety and slide lock located on the left side of the receiver/frame; disassembly catch over the trigger guard; oval trigger guard with square front; black, blued or stainless steel slide with black or medium brown receiver/frame; textured grips.
- may have integral laser sight attached to the accessory rail in front of the trigger guard.
- overall length with a 81 mm (3.2") barrel is 160.0 mm (6.3"), average weight is 0.62kg (1 lb 6 oz).

Manufacturer

- Taurus logo is marked on the left side of the slide and on both side of the grip.
- "MADE IN BRAZIL" is marked on the right side of the slide.

Action

- recoil operated.

Serial Number

- serial number is marked on a metal insert imbedded in the underside of the receiver/frame ahead of the trigger guard.
- serial number is also repeated on the right side of the slide and on the barrel.
- serial number of a referenced example consisted of a three letter prefix and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is marked on the barrel, visible through the ejection port. - calibre designation is also marked on the right side of the slide as "40".
Shots	- detachable box magazine.
Other Markings	- "TAURUS INT.MFG.MIAMI, FL.-USA" is marked on the left side of the slide.

Notes

Make

- the Taurus name and logo are marked on the receiver/frame and slide.

Model

- the Millennium Pro series of firearms was introduced in 2003 as the "third generation" of pistols by Taurus. These pistols are visually similar to the "Millennium" pistols but feature internal upgrades and improvements. Each version of the Millennium Pro series is offered in a different calibre.
- the model designation is marked on the left side of the slide as "Millennium Pro" and on the right side of the slide as "PT140".
- features include: black polymer receiver/frame with a blued steel or matte stainless steel slide; low profile, 3-dot fixed sights or factory installed night sights; double action only trigger mechanism; stainless steel barrel; hammerless design; manual safety; captured dual spring and guide rod assembly; internal firing pin block; flush fit magazine release; slide serrations.
- all of the Millennium Pro pistols are also equipped with the Taurus Security System mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- overall length with a 83mm (3 1/4") is 156mm (6.1/8"), average weight is 0.53kg (1.17lbs).

Manufacturer

- manufacturer's name and logo are marked on the slide and receiver/frame.

Action

- recoil operated.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

Calibre

- marked on the right side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine housed in the grip.

Importer - Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.

Notes

Make

- "TAURUS" name and logo were observed marked on the left side of the slide and on the grip plates.

Model

- Introduced in 2005.
- "PT1911" is based on the Colt produced model 1911 pistol.
- "PT" stands for "Pistola Taurus". It was the original designation for their first pistol the PT92. This designation is only given to the auto's and not the revolvers.
- Features include: blued or duo-tone finishes on forged receiver/frame and slide; single action trigger mechanism with ventilated trigger (three holes); skeletonized hammer; beavertail grip safety with a raised pad; extended, ambidextrous safety catch; "Heinie" fixed sights; lowered and flared ejection port; flat mainspring housing; grasping grooves on the front and rear of the slide.
- Available with or without an integral Picatinny rail machined into the receiver/frame's dust cover.
- Also available in stainless steel as the model "PT1911SS".
- A compact version is also available with a 108mm (4 1/4") barrel as the model PT1911C.
- Overall length with a 127mm barrel is 216mm (8.5"), average weight is 1.08kg (38oz).
- In 2011 Taurus introduced a anniversary limited edition to commemorated 100 year anniversary of John Browning: PT1911 Anniversary and PT1911 Anniversary Match.
- A conversion kit in 22LR is available.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "FORJAS TAURUS S.A." and "MADE IN BRAZIL" were observed marked on the right side of the slide.
Action	- recoil operated.
Serial Number	- serial number is marked on the left side of the receiver/frame and repeated on the right side of the slide and barrel. - observed serial number had a three letter prefix and five numbers.
Shots	- detachable box magazine housed in the grip.
Importer	- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

Notes

Make

- the make is normally marked on the left side of the slide as, "TAURUS" with the Taurus logo.

Model

- introduced in 1992.
- model designation was observed marked on both side of the slide.
- this is a small frame pistol that shares the same frame platform as the model PT25.
- features include: double action only trigger mechanism, blued, nickel finished, duo-tone or polymer receiver/frame and barrel, with blue or gold trim, fixed sights, internal hammer, serrations on the rear of the slide, tip up barrel, the magazine release and safety are located on the left side of the receiver/frame, and the grips will vary from wood to mother of pearl in a choice of white, black or pink color with or without a thumb rest.
- also available in a special edition model with a black finish, gold plated safety, slide lock, trigger, magazine release and grip screws, and mother of pearl grip panels known as the "Black Gold".
- two styles of slide retracting, gripping grooves have been noted. The earlier style consists of many narrow grooves. The later style consists of five wide gripping grooves.
- all newer Taurus pistols are equipped with the integral Taurus Security System. This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.
- choice of rosewood, pink or black pearl grips is also available.
- overall length with a 70mm barrel is 133mm (5.25"), average weight is 349grams (12.3oz).
- model designation was observed marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is normally marked on the left side of the slide, in two lines as, "TAURUS", second line, INT. MFG. INC. - MIAMI. USA" with the Taurus logo or, "TAURUS", second line "MADE IN USA MIAMI, FL" with the Taurus logo. - this is one of the pistols in the Taurus lineup that is manufactured in the United States of America, most of the Taurus product line is manufactured in Brazil.
Action	- blowback operated with a tilt up barrel.
Serial Number	- the serial number is usually found above the forward portion of the trigger guard on the left side of the receiver/frame. - several serial number rationalizations have been noted. The first style consists of eight characters, all being numbers. The second style consists of eight characters, with three letters followed by five numbers and a third sequence observed consisted of six numbers with a letter prefix (Z). - the serial number rationalization, circa the late 1990's, consists of three letters followed by five numbers. The first three characters of this style of serial number will always be letters. If what appears to be the "number 1" is found in the first three characters of this serial number, that character will in fact be the "letter I" (I as in India).
Calibre	- the calibre is normally marked on the left side of the slide as, "CAL. .22 LR".
Shots	- detachable box magazine.

Notes

Make - "TAURUS" name and logo are marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "PT 24/7 G2" or " PT 24/7 G2C" was observed marked on the right side of the slide. - "DA/SA DS" over "COMPACT" was observed marked on the left side of the slide. - DS stand for manual de-cocker and manual safety, the C suffix denotes this as a compact model. - introduced in 2010. - features observed include: polymer receiver/frame with a ribbed rubber grip overlay; ambidextrous magazine release; blued or stainless steel slide with grasping serrations; low profile adjustable rear sight. - the PT24/7 is also equipped with the Taurus Security System mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key. - overall length with a 89mm (3.50") barrel is 168mm (6.60"), average weight is 0.76kg (1.69lbs).
Manufacturer	- "TAURUS" name and logo over "MADE IN BRAZIL" are marked on the left side of the slide.
Action	- recoil operated.
Serial Number	- may be located on the rear of the receiver/frame, on the barrel at the chamber and on the right side of the slide. - observed serial number had three letter prefix followed by five numbers.
Calibre	- "CAL 40" marked on the right side of the slide.
Importer	- Taurus International Manufacturing was formed circa 1982-1983, and since that time has been the sole importer of the Taurus product line. - marked on the right side of the slide as "TAURUS INT.MFG. - MIAMI, FL.-USA"

Notes

Make

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- Introduced in 2007.
- "PT 24 / 7 OSS DS" is marked on the right side of the firearm.
- "TACTICAL" may be marked on the left side of the slide.
- The "OSS DS" in the model designation refers to "Oh-Six-Submission, Decocker-Safety". This firearm was the Taurus model designed to compete within the framework of the United States Army procurement trials of 2006, (which were cancelled/postponed).
- Features include: brown polymer receiver/frame with front and rear grip checkering; matte finished steel slide with grasping grooves at the front and rear; accessory rail moulded into the receiver/frame in front of the trigger guard; the Taurus system allows the trigger to sit forward in the "double action" position until a round is chambered, once chambered the trigger sets to "single action" mode; ambidextrous safety and decocker;
- This firearm model may also be equipped with the "Taurus Security System" mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Overall length with a 133 mm (5.25 inches) barrel is 205 mm (8.07 inches), average weight is 0.89 kg (1.96 lbs).

Manufacturer

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Action

- recoil operated.

Serial Number

- an observed serial number consisted of a multiple letter prefix followed by a series of numbers.
- the example serial number was marked on the rear of the receiver/frame, on the barrel at the chamber and on the right side of the slide.

Calibre

- The calibre designation is marked on the right side of the firearm.

Shots

- detachable box magazine.

Notes

Make

- "TAURUS" name and logo are marked on the side of the slide and on the grips.

Model

- introduced in 2006.
- "PT 24 / 7 PRO" is marked on the right side of the slide.
- features include: fixed sights; round barrel; blued or stainless steel slide with grasping serrations; polymer receiver/frame with a "ribber" (ribbed rubber) grip overlay and accessory rail moulded into the dustcover; double/single action trigger mechanism.
- "PT24/7 Pro" is also equipped with the Taurus Security System mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.

Manufacturer

- "TAURUS" name and logo are marked on the side of the slide and on the grips.
- "MADE IN BRAZIL" is marked on the right side of the slide.

Action

- recoil operated.

Serial Number

- serial number is marked on the rear of the receiver/frame and is usually repeated on the side of the slide and chamber of the barrel.
- serial number observed consisted of a three letter prefix and five numbers.

Calibre

- calibre is normally marked on the side of the slide.

Shots

- detachable box magazine.

Importer

- Taurus International Manufacturing was formed circa 1982-1983, and since that time has been the sole importer of the Taurus product line.
- marked on the right side of the slide as "TAURUS INT.MFG. - MIAMI, FL.-USA".

Notes

Make

- "TAURUS" name and logo appear on the slide and moulded into the grip panels.

Model

- "PT24/7 PRO C" and "Ti" inside a circle are marked on the right side of the slide.
- features include: Titanium coloured (grey) checkered polymer receiver/frame; integral picatinny rail; Titanium slide; low profile fixed sights; hammerless design; integral Taurus Security System mounted on the slide, this system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- overall length with a 83mm (3.25") barrel is 156mm (6.1/8"), average weight is 0.56kgs (1.23lbs).

Manufacturer

- "TAURUS" name and logo are marked on the side of the slide and on the grips.
- "MADE IN BRAZIL" is marked on the right side of the slide.

Action

- recoil operated.

Serial Number

- numbered on the receiver/frame, will usually be repeated on the slide.

Calibre

- the calibre designation is marked on the slide as "Cal 9mm PARA".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- the Taurus name and logo are marked on the left side of the slide.

Model

- introduced in 2005.
- this model is designed as a "training" version of the PT24/7. The main difference between the fully functional pistol and this version is the slide on the training gun is not milled on the inside so as to not be capable of installing a firing pin or other components necessary to discharge live ammunition. The entire training pistol also wears a distinct blue finish but for the black grip.
- the left side of the slide is marked "Training II".
- features include: blue, polymer receiver/frame with a "ribber" (ribbed rubber) grip overlay and accessory rail moulded into the dustcover; blue slide with grasping serration's; fixed sights.
- a similar model, reported to be totally inert is available with an orange finish as the "PT24/7 Training I".

Shots

- detachable box magazine housed in the grip.

Canadian Law Comments

- this model is marketed as a training gun based on an existing design. In "Training" configuration it will not discharge live ammunition, however, a fully functional slide and barrel assembly may be fitted to the receiver/frame and as such it is remains a firearm.

Notes

Make

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Model

- "PT745" or "PT745 PRO" is marked on the right side of the slide.
- "MILLENNIUM" or "MILLENNIUM PRO" is marked on the left side of the slide.
- "PT745 MILLENNIUM PRO" was introduced in 2004.
- "MILLENNIUM PRO" series of firearms was introduced in 2003 as the "third generation" of pistols by Taurus.
- "PT745 MILLENNIUM PRO" features a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- "MILLENNIUM PRO" series of firearms are equipped with the Taurus Security System mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- features include: black polymer receiver/frame with a blued steel or matte stainless steel slide; low profile, 3-dot fixed sights or factory installed night sights; double action only trigger mechanism; stainless steel barrel; hammerless design; manual safety; captured dual spring and guide rod assembly; internal firing pin block; flush fit magazine release; grasping grooves on the rear of the slide.
- overall length with a 83mm barrel is 152mm (6"), average weight is 0.59kg (1.3lbs).

Manufacturer

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Action

- recoil operated.

Serial Number

- serial number is marked at the rear of the receiver/frame and also on the slide and barrel.
- serial number of referenced examples consisted of a three letter prefix "NCS, NAU, NAV" and five numbers.
- serial number rationalization is unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre identification is marked on the right side of the slide. - calibre identification may also be marked on the barrel.
Shots	- detachable box magazine housed in the grip.
Importer	- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.

Notes

Make

- the Taurus name and logo are marked on the receiver/frame and slide.

Model

- the Millennium Pro series of firearms was introduced in 2003 as the "third generation" of pistols by Taurus.
- PT745C Millennium Pro was introduced in 2005. These pistols are visually similar to the "Millennium" pistols but feature internal upgrades and improvements. Each version of the Millennium Pro series is offered in a different calibre.
- the model designation is marked on the left side of the slide as "Millennium Pro" and on the right side of the slide as "PT 745C".
- features include: black polymer receiver/frame with a blued steel slide; low profile, 3-dot fixed sights or factory installed night sights; double action only trigger mechanism; stainless steel barrel; hammerless design; manual safety; captured dual spring and guide rod assembly; internal firing pin block; flush fit magazine release; grasping grooves on the rear of the slide.
- all of the Millennium Pro pistols are also equipped with the Taurus Security System mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.

Manufacturer

- manufacturer's name and logo are marked on the slide and receiver/frame.

Action

- recoil operated.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Importer - Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.

Notes

Make

- the Taurus name and logo are marked on the receiver/frame and slide.

Model

- the Millennium Pro series of firearms was introduced in 2003 as the "third generation" of pistols by Taurus. This particular model was introduced in 2005. These pistols are visually similar to the "Millennium" pistols but feature internal upgrades and improvements. Each version of the Millennium Pro series is offered in a different calibre.
- the model designation is marked on the left side of the slide as "Millennium Pro" and on the right side of the slide as "PT 745 LS". The "LS" in the model designation denotes "Long Slide" in reference to this version's longer slide and barrel assembly.
- features include: black polymer receiver/frame with a blued or stainless steel slide; low profile, 3-dot fixed sights or factory installed night sights; double action only trigger mechanism; stainless steel barrel; hammerless design; manual safety; captured dual spring and guide rod assembly; internal firing pin block; flush fit magazine release; grasping grooves on the rear of the slide.
- all of the Millennium Pro pistols are also equipped with the Taurus Security System mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.

Manufacturer

- manufacturer's name and logo are marked on the slide and receiver/frame.

Action

- recoil operated.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

Shots

- detachable box magazine housed in the grip.

Notes

Make

- "TAURUS" name and logo are marked on the left side of the slide.

Model

- introduced in 2007.
- "PT809" is marked on the right side of the slide.
- "09", the last two digits in the model designation refer to the calibre the firearm is chambered for "9MM LUGER".
- "PT809" model is derived from the "Taurus OSS" pistol, but fitted with an external hammer.
- Taurus 800 series of pistols are equipped with the "strike two" capability. In the case of a misfire the trigger automatically reset to provide instant "strike two" capability in double action mode.
- features include: black polymer receiver/frame with front and rear grip checkering and modular backstrap allowing for custom fitting; matte finished forged steel slide with grasping grooves at the front and rear; accessory rail molded into the receiver/frame in front of the trigger guard; single/double action trigger mechanism (the Taurus system allows the trigger to sit forward in the "double action" position until a round is chambered, once chambered the trigger sets to "single action" mode); ambidextrous safety and decocker; "Novak" low mount sights; extended magazines bumpers; ambidextrous decock lever and three position safety.
- overall length is approximately 210 mm (8 1/4"), and average weight is 907 grams (2 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "TAURUS" name and logo are marked on the left side of the slide. - "MADE IN BRAZIL" marked on the right side of the slide.
Action	- recoil operated.
Serial Number	- serial number is usually marked on the rear of the receiver/frame, and repeated on the barrel at the chamber and on the right side of the slide. - observed serial number had three letter prefix followed by five numbers.
Calibre	- the calibre designation is marked on the right slide of the slide as "CAL. 9 mm".
Shots	- detachable box magazine, double stack with numbered witness holes.
Importer	- Taurus International Manufacturing was formed circa 1982-1983, and since that time has been the sole importer of the Taurus product line. - marked on the right side of the slide as "TAURUS INT.MFG. - MIAMI, FL.-USA"

FRT Report

Firearm Reference Number (FRN): 136216
Make: Taurus
Model: PT840E

Summary

Make:	Taurus
Model:	PT840E
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
136216 - 1	40 S&W	10	109	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	
136216 - 2	40 S&W	15	109	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TAURUS" name and logo are marked on the left side of the slide.
- "MADE IN BRAZIL" marked on the right side of the slide.

Model

- "PT840 E" may be marked on the right side of the slide.
- "40", the last two digits in the model designation refer to the calibre the firearm is chambered in "40 S&W".
- Taurus 800 series of pistols are equipped with the "strike two" capability. In the case of a misfire the trigger automatically reset to provide instant "strike two" capability in double action mode.
- features observed: black polymer receiver/frame with front and rear grip checkering and modular backstrap allowing for custom fitting; matte finished forged steel slide with grasping grooves at the front and rear; accessory rail molded into the receiver/frame in front of the trigger guard; single/double action trigger mechanism (the Taurus system allows the trigger to sit forward in the "double action" position until a round is chambered, once chambered the trigger sets to "single action" mode); ambidextrous safety and decocker; "Novak" low mount sights; extended magazines bumpers; ambidextrous decock lever and three position safety.
- overall length is 197 mm (7 3/4"), and average weight is 780 grams (1.72 lbs).

Manufacturer

- "TAURUS" name and logo are marked on the left side of the slide.
- "MADE IN BRAZIL" marked on the right side of the slide.

Action

- recoil operated.

Serial Number

- serial number is usually marked on the rear of the receiver/frame, and repeated on the barrel at the chamber and on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- "TAURUS" name and logo are marked on the left side of the slide.

Model

- introduced in 2006.
- the model designation is normally marked on the right side of the slide.
- this "medium frame" pistol is a scaled down version of the model PT92 full size pistol.
- features include: double/single action trigger mechanism, blued receiver/frame, fixed front sight with a drift adjustable rear sight, exposed hammer, three positions frame mounted ambidextrous safety, loaded chamber indicator, magazine release is located on the left side of the grip, black checkered rubber grips.
- a stainless steel version known as the PT909SS is available.
- newer Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.
- overall length with a 102mm (4") barrel is 178mm (7"), average weight is 0.80kg (1.76lbs).
- overall length with a 108mm (4 1/4") barrel is 190mm (7 1/2"), average weight is 0.85kg (1.87lbs).

Manufacturer

- "TAURUS" name and logo are marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- marked on the front left side of the receiver/frame. - observed serial number had three letter prefix followed by five numbers.
Calibre	- marked on the lright side of the slide.
Shots	- detachable box magazine.
Importer	- Taurus International Manufacturing was formed circa 1982-1983, and since that time has been the sole importer of the Taurus product line.

Notes

Make

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Model

- model designation is usually marked on the right side of the slide.
- features include: checkered rubber grips, blued finish, three-dot system fixed sights and an ambidextrous, three position safety.
- also available in stainless steel as the "PT915SS".
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.

Manufacturer

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- alpha prefix followed by sequential numbers, usually on the left side of the receiver/frame.
Shots	- detachable box magazine housed in the grip.
Importer	- Taurus International Manufacturing was formed circa 1982-1983, and since that time has been the sole importer of the Taurus product line.

Notes

Make	- the Taurus name is marked on the receiver/frame and slide, the Taurus logo is marked on the slide and grip panels.
Model	- introduced in 2003. - the model designation is marked on the right side of the slide. - the "AR" in the model designation denotes the integral Picatinny accessory-mounting rail on the forward portion of the receiver/frame. - features include: blued steel finish or stainless steel construction/finish; checkered rubber grips; ambidextrous, three-position safety; 3-dot fixed sights. - Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port. - all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key. - available in calibre 40 S&W as the model PT100AR.
Manufacturer	- the manufacturer's designation is marked on the right side of the slide "FORJAS TAURUS S.A." over "MADE IN BRAZIL". The Taurus logo is located on the left side of the slide and on the grip panels.
Action	- recoil operated.
Serial Number	- numbered on the left side of the receiver/frame, samples seen incorporated a three alpha character prefix followed by five sequential numbers.
Shots	- detachable box magazine housed in the grip.
Importer	- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.

FRT Report

Firearm Reference Number (FRN): 36047
Make: Taurus
Model: PT940

Summary

Make:	Taurus
Model:	PT940
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
36047 - 1	40 S&W	10	95	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
36047 - 2	40 S&W	10	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus logo is marked on the left side of the slide.

Model

- this is a double action, compact pistol with a blued finish.
- features include: blued finish; black checkered rubber grips; ambidextrous, three-position safety; 3-dot fixed sights.
- a special version is available with a blued steel finish accented with a gold plated trigger, slide lock, safety lever, magazine release, grip screws, take-down lever and rosewood grips also known as the PT940BGR.
- a special version is available with a blued steel finish accented with a gold plated trigger, slide lock, safety lever, magazine release, grip screws, take-down lever and mother of pearl grips also known as the PT940BPRL.
- also available with factory installed tritium night-sights.
- also available in stainless steel as the PT940SS.
- a version with a factory ported barrel known as the PT940C is available.
- newer Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.
- overall length with a 92mm barrel is 178mm (7"), average weight is 799grams (28.2oz).

Manufacturer

- manufacturer is marked on the firearm.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- three alpha prefix followed by sequential numbers, found on left side of receiver/frame.
Shots	- detachable box magazine.
Importer	- Taurus International Manufacturing was formed circa 1983 and has been the sole importer of the Taurus product line since.

26516 - 2	9MM LUGER	15	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus name and logo will be marked on the receiver/frame and/or slide.

Model

- similar to Model "PT99AF", except in stainless steel.
- the model designation will be marked on the slide, as this model has been in production for an extended period the style and location of the markings will vary.
- features include: wood or rubber grips; adjustable rear sight; ambidextrous safety catch.
- newer Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.

Manufacturer

- "Taurus" and "Made in Brazil" are marked on the firearm.

Serial Number

- alpha prefix followed by sequential numbers, usually on left side of receiver/frame.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

Notes

Make	- the Taurus name is marked on the barrel, the Taurus logo is marked on the right side of the receiver/frame.
Model	- introduced in 2003. - "Raging Thirty" is marked on the left side of the barrel. - features include: stainless steel construction with a matte finish; black rubber grips with a yellow insert in the backstrap; integral ventilated rib on the barrel; double action/single action trigger mechanism; two cylinder release buttons are mounted on the left side, one on the receiver/frame and one on the crane; adjustable rear sight with a ramped blade front sight. - newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.
Manufacturer	- Taurus is marked on the barrel. - Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.
Serial Number	- numbered on the right side of the receiver/frame.
Calibre	- the calibre designation is marked on the barrel.
Importer	- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then. - marked on the right side of the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 195669
Make: Taurus
Model: SMT40

Summary

Make:	Taurus
Model:	SMT40
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195669 - 1	40 S&W	5	200	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	
195669 - 2	40 S&W	30	200	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TAURUS" and the Taurus logo of a bull's head within a circle are marked on the firearm.

Model

- "SMT40" is marked on the firearm; "SMT40" is an acronym for "Submetralhadora Taurus 40"/"Taurus Submachinegun 40", and must not be confused with the FAMAE-based "MT40" submachine gun, built by Taurus under licence from Chile's FAMAE.
- a compact version, with a 165mm barrel is also available, as the "SMT40C", commonly seen without a folding stock or flash-hider.
- this is a Taurus-designed submachine gun manufactured primarily for law enforcement (a 9mm Luger analog, the "SMT9", is offered as a military equivalent), that makes use of stamping, folding and welding techniques, as well as black synthetic moulded furniture.
- features include: flat blat phosphate/oxide finish, with black synthetic furniture; multi-slot flash-hider; forearm with the bottom angled sharply forward; open adjustable flip sights on a Picatinny rail flat-top (optional red dot sights); cocking handle above the forearm that can be switched for left- or right-handed operation; a moulded synthetic magazine well with the forward half forming a grip for the off hand; straight magazine (curved magazines are used in the 9mm Luger versions); ambidextrous bolt catch; right-side ejection; ambidextrous four-position safety/selector (Safe-2 Shot Burst-Full Automatic-Semi); and a side-folding telescoping buttstock.

Manufacturer

- "TAURUS" and the Taurus logo of a bull's head within a circle are marked on the firearm.

Action

- blowback operated.

Serial Number

- The serial number is marked on the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- "TAURUS" is normally marked on the left side of the barrel.
- the "TAURUS" name and logo may be marked on the right side of the receiver/frame, above the grip.

Model

- early versions of this model are not marked "Standard". More recent firearms produced by TAURUS usually are marked with cartridge calibre, importer, make, and model number or name.
- early production models are distinctive with laterally grooved cylinder flutes.
- features include: blade front sight and a groove in the top strap for a rear sight; round barrel with an exposed supported ejector rod; solid top receiver/frame with a left side swing-out fluted cylinder with grooves along the flutes; cylinder release is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; checkered wood grip panels; blued or nickel plated finish.

Manufacturer

- "FORJAS TAURUS S.A." over "P.ALEGRE R.G.S. BRASIL" is normally marked on the left side of the barrel.
- the "TAURUS" name and logo may be marked on the right side of the receiver/frame, above the grip.
- "FABRICADO NU BRASIL" or "MADE IN BRASIL" is normally marked on the right side of the receiver/frame.

Serial Number

- serial number is usually located on the right side of the receiver/frame.
- serial number observed consisted of four numbers without a letter prefix or suffix.
- serial number observed consisted of five numbers without a letter prefix or suffix.
- serial number observed consisted of six numbers without a letter prefix or suffix.

Calibre

- the calibre designation is normally marked on the right side of the barrel. Example "38 SPL", "CAL. 38" or "22 LR", and the right side of the receiver/frame above the grip may be marked "38 Special.".

Shots

- swing-out cylinder.

Importer

- importer is marked on left side of one of the samples examined. Other importers may also be encountered. Some firearms have no importer marks.

Notes

Make

- "TAURUS" is marked on the left side of the receiver/frame and the logo appears on both sides of the grip.

Model

- introduced in 2017.
- "TH9" is marked on the right side of the slide.
- features include: fixed sights; round rifled barrel; flat sided steel slide with rear serrations; synthetic receiver/frame with accessory rail forward of the undercut trigger guard; skeletonized trigger; ambidextrous manual safety/decocker and slide release; disassembly latch located on the receiver/frame above the trigger; ambidextrous magazine release; single action/double action trigger mechanism; textured grip with finger grooves; matte black finish.
- overall length with a 108mm (4.27") barrel is 196mm(7.72"), average weight is 800g (28.2 oz).

Manufacturer

- "TAURUS S.A." over "MADE IN BRAZIL" is marked on the left side of the receiver/frame.

Action

- recoil operated.

Serial Number

- serial number is marked on a metal strip on the underside of the receiver/frame, in front of the trigger guard and is repeated on the slide and barrel.
- observed serial number consisted of three letter prefix "TKY" and five numbers.

Calibre

- calibre designation is marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- the Taurus name and logo are marked on the barrel and/or receiver/frame.

Model

- manufactured from 2004 to 2009.
- "Thunderbolt" resembles the Colt produced (1884 -1904) "Lightning" rifle.
- early samples viewed were not marked "Thunderbolt". The barrels on the samples examined were marked "Model C45" in reference to them being chambered for calibre 45 COLT ammunition.
- features include: hardwood buttstock and forend; curved crescent buttplate; bright stainless steel or blued steel receiver/frame and barrel; loading gate located on the right side of the receiver/frame; "longhorn" adjustable rear sight (Taurus offers a tang sight as an accessory) and a blade front sight; Taurus security system lock (this is an integral mechanism that locks the action to prevent the gun from being operated).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the Taurus name and logo are marked on the barrel and/or receiver/frame.
Serial Number	- numbered on the receiver/frame, rationalization unknown. - observed specimen serial number consisted of a two letter prefix followed by four digits.
Shots	- tubular magazine mounted under the barrel.

Notes

Make

- "TAVOR" may be marked on the left side of the receiver/frame.
- "Tavor" is named after a mountain in upper Galilee in Israel.

Model

- "TAVOR - 21" may be marked on the left side of the receiver/frame.
- this is a selective-fire rifle, built by Israel Military Industries.
- features include: molded synthetic stock with an enlarged trigger guard which encircles the entire hand; integral Picatinny rail for mounting a variety of optical sights; ambidextrous safety/selector; and an ambidextrous mechanism that allows the user to select which side empty cases are ejected from.
- Tavor model 21 is made in a number of variations and barrel lengths.
- Tavor model 21 CTAR (Commander Tavor Assault Rifle) with a 380 mm barrel has an overall length of 640 mm, and an average weight of 2.7 kgs to 3.2 kgs.
- Tavor model 21 MTAR (Micro Tavor Assault Rifle is submachine gun-sized) with a 250 mm barrel has an overall length of 480 mm, and an average weight of 2.4 kgs.
- Tavor model 21 STAR (Sharpshooting Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 3.4 kgs to 3.7 kgs.
- Tavor model 21 TAR (Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 2.8 kgs to 3.3 kgs.
- Tavor model 21 TC (Tavor Carbine) with a 409 mm barrel has an overall length of 670 mm, and an average weight of 2.8 kgs.
- Tavor model 21 TSR (Tavor Sporting Rifle) with a 460 mm barrel has an overall length of 706 mm, and an average weight of 3.5 kgs.

Manufacturer

- "ISRAEL MILITARY INDUSTRIES LTD" may be marked on the left side of the receiver/frame.

Action

- gas-operated.

Serial Number

- the serial number is marked on the left side of receiver/frame.

Calibre

- the calibre designation may be marked on the left side of the receiver/frame as:
"5.56 MM".

Shots

- detachable box magazine.
- this rifle will accept AR-15/M16-style magazines, commonly available in capacities of 5, 9, 20, and 30 rounds.

Notes

Make

- "TAVOR" was observed marked on the left side of the firearm.
- "Tavor" is named after a mountain in upper Galilee in Israel.

Model

- "TAVOR - 21" was observed marked on the left side of the firearm.
- this is a selective-fire rifle, built by Israel Weapon Industries (IWI).
- features include: molded synthetic stock with an enlarged trigger guard which encircles the entire hand; integral Picatinny rail for mounting a variety of optical sights; ambidextrous safety/selector; and an ambidextrous mechanism that allows the user to select which side empty cases are ejected from.
- Tavor model 21 is made in a number of variations and barrel lengths.
- Tavor model 21 CTAR (Commander Tavor Assault Rifle) with a 380 mm barrel has an overall length of 640 mm, and an average weight of 2.7 kgs to 3.2 kgs.
- Tavor model 21 MTAR (Micro Tavor Assault Rifle is submachine gun-sized) with a 250 mm barrel has an overall length of 480 mm, and an average weight of 2.4 kgs.
- Tavor model 21 STAR (Sharpshooting Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 3.4 kgs to 3.7 kgs.
- Tavor model 21 TAR (Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 2.8 kgs to 3.3 kgs.
- Tavor model 21 TC (Tavor Carbine) with a 409 mm barrel has an overall length of 670 mm, and an average weight of 2.8 kgs.
- Tavor model 21 TSR (Tavor Sporting Rifle) with a 460 mm barrel has an overall length of 706 mm, and an average weight of 3.5 kgs.

Manufacturer

- "I W I", "TAVOR" and "ISRAEL WEAPON INDUSTRIES LTD." were observed marked on the left side of the firearm.

Action

- gas-operated.

Serial Number

- the serial number is marked on the left side of receiver/frame.

Calibre

- the calibre designation may be marked on the left side of the receiver/frame as:
"5.56 MM".

Shots

- detachable box magazine.
- this rifle will accept AR-15/M16-style magazines, commonly available in capacities of 5, 9, 20, and 30 rounds.

Notes

Make

- "TAVOR SAR .223 REM" over "IWI US - HARRISBURG, PA" and "IWI" over "TAVOR" was observed marked on the left side of the firearm of an example.
- "Tavor" is named after a mountain in upper Galilee in Israel.

Model

- "TAVOR SAR .223 REM" or "TAVOR SAR" over "IWI US - HARRISBURG, PA" observed marked on the left side of the firearm of some examples.
- version marked "TAVOR SAR 7.62 NATO" introduced in 2018; includes minor cosmetic differences and design updates such as short stroke piston.
- "TAVOR SAR" is a semi-automatic, gas operated variant of the Tavor model 21 TAR (Tavor Assault Rifle), with a steel reinforced polymer bullpup configuration receiver/frame; calibre conversion kits available for some models.
- features include: round barrel with a threaded muzzle for a flash hider/muzzle brake; molded synthetic stock including pistol grip and trigger guard that encloses the full hand; integral, open, adjustable flip-up sights within the top accessory rail; ambidextrous safety/selector; magazine release in front of the magazine well; bolt release lever behind the magazine well; configurable for left or right hand ejection; black, O.D. green, or tan finish.
- overall length with a 419 mm (16 1/2") barrel is 663 mm (26 1/8").
- overall length with a 461 mm (18.2") barrel is 729 mm (28.7").
- average weight is from 2.8 kg to 3.3 kg
- Tavor model 21 is made in a number of variations and barrel lengths.
- Tavor model 21 CTAR (Commander Tavor Assault Rifle) with a 380 mm barrel has an overall length of 640 mm, and an average weight of 3.58 kg (7.9 lbs) to 3.7 kg (8.15 lbs).
- Tavor model 21 MTAR (Micro Tavor Assault Rifle is submachine gun-sized) with a 250 mm barrel has an overall length of 480 mm, and an average weight of 2.4 kg.
- Tavor model 21 STAR (Sharpshooting Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 3.4 kg to 3.7 kg.
- Tavor model 21 TAR (Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 2.8 kg to 3.3 kg.
- Tavor model 21 TC (Tavor Carbine) with a 409 mm barrel has an overall length of 670 mm, and an average weight of 2.8 kg.
- Tavor model 21 TSR (Tavor Sporting Rifle) with a 460 mm barrel has an overall length of 706 mm, and an average weight of 3.5 kg.
- "TAVOR SAR 7.62 NATO" overall length with a 420mm barrel is 680mm, and overall weight is 4.09 kg.

Manufacturer

- Tavor 21 SAR components are manufactured by both Israel Weapon Industries (IWI) and IWI US.
- Tavor 21 SAR is assembled in the USA by IWI US.
- "TAVOR SAR .223 REM" over "IWI US - HARRISBURG, PA" and "IWI" over "TAVOR" was observed marked on the left side of the firearm of an example.
- "IWI US, Incorporated" is the USA based subsidiary of Israel Weapon Industries (IWI) of Rmat Hasharon, Israel.
- "IWI US, Incorporated" was established in 2012.
- "IWI US, Incorporated" is located in Harrisburg, Pennsylvania, U.S.A.

Action

- gas operated.

Serial Number

- serial number is marked on the left rear of the stock within a window-
- serial number observed consisted of eight numbers without a letter prefix or suffix on the earlier production.
- serial number observed consisted of a letter prefix (T) and seven numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre identification is marked on the barrel. - "223 REM." was observed marked on the left side of the stock on some examples. - 223 REM rifling characteristics: 1 turn in 7 inches, right hand twist. - 9MM LUGER rifling characteristics: 1 turn in 10 inches, right hand twist.
Shots	- detachable box magazine. - uses all magazines available for AR15/M16 type rifles. - 9MM LUGER calibre use Colt AR pattern 32 rounds magazine.
Canadian Law Comments	- the Tavor SAR model has been determined to be a bull-pup design and does not incorporate a Bull-Pup stock.

136538 - 1	9MM LUGER	30	230	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	
136538 - 2	9MM LUGER	30	330	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The make is not marked on the firearm.
- This firearm is of the design commonly known as the Tavor rifle.

Model

- "X95" was observed marked on the left side of the firearm.
- this is a further development and a submachine version of the Tavor 21 MTAR (Micro Tavor Assault Rifle).
- this is a gas operated, selective fire, assault rifle in a bullpup configuration.
- all operating components are mounted in a polymer housing reinforced with steel inserts. Access is gained through a hinged butt plate that swings down for inspection and disassembly.
- features include: ambidextrous controls and a multi rail system.
- also available with an integral silencer.
- conversion kit available for 5.56MM NATO and 9MM LUGER calibres.
- overall length is 580mm (22 7/8").

Manufacturer

- The company logo is marked on the firearm.
- "I.W.I." or "Israel Weapon Industries" or variation is usually marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated, blowback firing from the closed bolt position.
Serial Number	- serial number may be marked in a window on the left side of the stock. - serial number of an observed example consisted of eight numbers without a letter suffix or prefix.
Calibre	- rifling characteristics: 4 grooves, right hand twist, one turn in 10"/254mm.
Shots	- utilizes the AR15/M16-type detachable box magazine.
Canadian Law Comments	- as it left the factory, this firearm is equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm would remain "Prohibited" per CC 84-1, para (c) an automatic firearm, whether or not it has been altered to discharge only one projectile with one pressure of the trigger.

Firearm Reference Number (FRN): 57856
Make: Taylor Fur Company
Model: Taylor Fur Getter

Summary

Make:	Taylor Fur Company
Model:	Taylor Fur Getter
Manufacturer:	Hopkins & Allen
Level:	Manufacturer Specifications and Commercial Customization
Type:	Other
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
57856 - 1	38	1	105	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "F.C. TAYLOR FUR CO. ST. LOUIS. MO." is marked on the left side of the receiver/frame.
- F.C. Taylor Fur Company was established in St. Louis, Missouri, U.S.A. in 1871.
- F.C. Taylor Fur Company ceased operations in 1941.

Model

- "TAYLOR FUR GETTER" is marked on the left side of the receiver/frame.
- "PAT'D JUNE 2 1914" and "OTHER PAT'S PENDING" is usually marked on the right side of the receiver/frame.
- this device is a passive trap gun, patented by C.D. Lovelace on June 2, 1914.
- the Taylor Fur Getter is characterized by a brass frame, iron barrel, elongated bait hook protruding forward in line with the muzzle and a swivel stake arrangement mounted centrally on the receiver/frame.
- this firearm is designed to be mounted on a stake with the bait hook attached to the trigger; when the hook is pulled the trigger pushes the hammer back releasing it to strike the firing pin.
- the stake and bait hook could be removed and the trap gun could then be used as a pocket rifle or pistol.
- generally thought to have been produced circa 1921 to 1941.

Manufacturer

- manufacturer's name does not usually appear on the firearm.

Canadian Law Comments

- should this firearm be converted or modified to be fired with one hand, then it would become a restricted handgun.

326 - 1	22 LR	1	127	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
326 - 2	22 LR	1	156	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
326 - 3	38	1	105	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "F.C. TAYLOR FUR CO. ST. LOUIS. MO." is marked on the left side of the receiver/frame.
- F.C. Taylor Fur Company was established in St. Louis, Missouri, U.S.A. in 1871.
- F.C. Taylor Fur Company ceased operations in 1941.

Model

- manufactured from 1922 to approximately 1934.
- "TAYLOR FUR GETTER" is marked on the left side of the receiver/frame.
- "PAT'D JUNE 2, 1914" and "OTHER PAT'S PENDING" may be marked on the right side of the receiver/frame.
- "Taylor Fur Getter" is a passive trap gun.
- actual use of this firearm for its original intended purpose is prohibited by law.
- this passive trap gun was patented by C.D. Lovelace on June 2, 1914.
- although Mossberg built the later smaller-calibre models, they deny producing the "Sure Shot" model of this firearm.
- this firearm may be mounted on a stake and has a bait hook attached to the trigger. When the hook is pulled sufficiently the trigger pushes the hammer back and then releases it to strike the firing pin.
- the stake and bait hook can be removed and the trap gun can be used as a pocket rifle or pistol.

Manufacturer

- manufacturer's name may be marked on the left side of receiver/frame.

Notes

Make

- "F.C. TAYLOR FUR CO. ST. LOUIS. MO." is marked on the left side of the receiver/frame.
- F.C. Taylor Fur Company was established in St. Louis, Missouri, U.S.A. in 1871.
- F.C. Taylor Fur Company ceased operations in 1941.

Model

- "TAYLOR SURE SHOT" or "THE SURE SHOT" is marked on the left side of the receiver/frame.
- "PAT'D JUNE 2, 1914" and "OTHER PAT'D PENDING" is usually marked on the right side of the receiver/frame.
- "Taylor Sure Shot" was originally designed as a passive trap gun for fur-trappers.
- actual use of this firearm for its original intended purpose is prohibited by law.
- this passive trap gun was patented by C.D. Lovelace on June 2, 1914.
- although Mossberg built the later smaller-calibre models of this passive trap gun, they deny producing this particular model of the firearm.
- this firearm was designed to be mounted on a stake and has a bait hook attached to the trigger. When the hook is pulled sufficiently the trigger pushes the hammer back and then releases it to strike the firing pin.
- the stake and bait hook could be removed and the trap gun could then be used as a pocket rifle or pistol.

Action

- trap gun; designed to be baited and spiked or staked in place.

Serial Number

- located on the bottom of the barrel and on the receiver/frame, four digit serial number.

Canadian Law Comments

- should this firearm be converted or modified to be fired with one hand, then it would become a restricted handgun.

2516 - 3	22 SHORT	1	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- F.C. Taylor Fur Company was established in St. Louis, Missouri, U.S.A. in 1871.
- F.C. Taylor Fur Company ceased operations in 1941.

Model

- manufactured from 1928 to 1932.
- "TAYLOR TRAPPERS' SPECIAL" is marked on the barrel.

Manufacturer

- "O.F. MOSSBERG & SONS NEW HAVEN, CONN. U.S.A." may be marked on the barrel.

Calibre

- calibre marked on left side of barrel just forward of the receiver/frame.

Remarks

- Trappers' Special has two types of bolts, first was a two piece bolt body held together by a screw. The bolt handle was very thin, ending in a small round knob. The second bolt body is a one piece with a 30% larger bolt handle. Manufachured by Mossberg and sold as the Model B 22 Cal Bolt Action and sold as the 'Premier' by Montgomery Ward .

Firearm Reference Number (FRN): 122749
Make: Taylor, L B & Company
Model: Derringer

Summary

Make:	Taylor, L B & Company
Model:	Derringer
Manufacturer:	Taylor, L B & Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122749 - 2	22 RF	1	89	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
122749 - 1	32 RF	1	89	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Taylor & Company markings are found on the barrel.

Model

- no model designation is marked on the firearm, this model of the design commonly referred to as a "Derringer" (originally spelled Deringer, after Henry Deringer, maker of the small, single shot pistol used to assassinate Abraham Lincoln).
- features include: brass receiver/frame with a silver plated finish (many examples will not retain much of the original finish) ; blued, octagonal barrel; walnut or rosewood grips; spur trigger; barrel release lever is mounted on the underside of the forward portion of the receiver/frame.

Manufacturer

- L.B. Taylor & Company is believed to have produced approximatelt 1800 of these small, single barrel "Deringer" pistols. While very limited information is available on this manufacturer most available material, supported by known barrel markings suggests that production was done in Chicopee Falls, Massachusetts circa 1868 - 1870.

Serial Number

- one sample examined was numbered on the bottom of the butt with sequential numbers. The serial number may also be repeated on the underside of the barrel.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy. - Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A. - Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors. - Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR. - Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle. - Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets. - Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.
Model	- this is a modern reproduction of the Colt model 1894 Bisley Single Action Army, termed the "1873 Cattleman Bisley Single Action" by Uberti. This version is fitted with a Bisley style grip. - features include: color case hardened receiver/frame with blued finish barrel and cylinder; blade front sight and grooved rear sight; full length ejector rod shroud; loading gate on right side of receiver/frame; single action trigger mechanism; fluted cylinder; walnut or plastic grips. - the grip and the spur on the hammer identify a Bisley revolver. The grip will give the appearance of a curving straight downward. The hammer spur will normally curve in a rearward direction, keeping the hammer below the level of the rear sight in both the cocked and uncocked position.
Manufacturer	- manufacturer's designation and/or trademark "U within an octagonal barrel" may be marked on firearm.
Calibre	- calibre designation may be marked on the barrel assembly.
Other Markings	- "MADE IN ITALY" may be marked on the firearm.

Notes

Make

- the make may or may not be marked on the firearm.

Model

- the model is marked on the firearm as "ALASKAN", with a line drawing of a bear on all fours.
- this is a "take-down" version of the Winchester 1892 rifle, manufactured by Chiappa, that can be disassembled into two major parts for ease of transport.
- features include: matte chrome finish; open adjustable sights; wooden straight-grip stock and forearm with black rubberized non-slip coating; "tear-drop"-shaped lever loop; and this firearm can be taken down into two parts at the front of the receiver by twisting to unlock an interrupted thread on the barrel.

Manufacturer

- "CHIAPPA FIREARMS" is marked on the firearm.

Serial Number

- numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - underbarrel tubular magazine.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- model designation is not marked on the firearm.
- British Royal "crown" cypher over "GR" and "GRICE" over "1762" is marked on the lockplate.
- this firearm is a modern reproduction of a British Service Pattern 1762 Carbine originally manufactured by Grice.
- this model is also known as a "Brown Bess".
- features include: round smoothbore barrel with fixed front sight and no rear sight; ram rod mounted under the barrel; right side lock plate with flintlock hammer; brass trigger guard; single action trigger mechanism; one piece three quarter length walnut straight grip stock with forend cap; polished steel finish.

Action

- muzzle loader, flintlock ignition.

Other Markings

- Italian proof marks are located on the barrel.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- Model designation does not appear on the firearm.
- "Grice" over "1762" is marked on the rear of the lock plate, with a Crown over "G.R" marked on the front of the lock plate.
- This is a reproduction of the British Brown Bess flintlock musket commonly called a '42" Brown Bess' because of its barrel length.
- Features include: one piece walnut stock; brass butt plate, trigger guard, ramrod thimbles; ramrod, barrel, single trigger and lock unfinished; sling swivel on the front of the trigger guard and front half of stock; fixed stud front sight acts as bayonet lug.
- This firearm may be available either assembled or in kit form.
- Overall length with a 1067mm (42") barrel is 1480mm (58.25"), average weight is 4kgs (8.81lbs).

Manufacturer

- Davide Pedersoli's trademark "dp" within an oval, "Davide Pedersoli & C.", "Pedersoli", "Pedersoli - Italy", or a variation thereof is marked on the firearm.

Action

- Muzzle loader, flintlock ignition.

Serial Number

- Serial number is usually marked on the left side of the barrel near the breech.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- Usually marked "CAL.75" on the side of the barrel.
- This 75 caliber smooth bore, black powder musket fires a .735" round ball using a .010" patch.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of a "Colt model 1849 Pocket" black powder percussion single action revolver.
- the Colt 1849 Pocket was originally manufactured circa 1850 to 1873.
- features include: octagonal barrel; loading lever on the underside of the barrel; open top receiver/frame design; colour case-hardened receiver/frame and brass grip frame; wood grips; roll engraved cylinder with a stagecoach hold-up scene.
- a Roger's & Spencer type conversion cylinder is available to convert the black powder percussion revolver to fire cartridge ammunition.

Manufacturer

- "A.UBERTI" or the manufacturer's logo, the letter "U" in a octagon, may be marked on the firearm.

Calibre

- may be marked on the barrel assembly.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- this is a modern reproduction of one of the earliest successful attempts to produce a reliable handgun that could use self-contained metallic cartridges;
- the revolver being reproduced started out as an Colt 1860 Army percussion handgun, but was fitted with an adapter kit invented by Charles Richards, a Colt employee.
- this replaced the barrel, cylinder, and loading ram with a new barrel, new cylinder, and ejector-rod, and made reloading much faster and easier
- features include: one piece walnut grips; satin finish; steel, colour case-hardened receiver/frame; blued, tapered round barrel; brass blade front sight; V notch/hammer nose rear sight; brass trigger guard.

Action

- single action.

Serial Number

- the serial number is usually marked on the underside of the receiver/frame.

Calibre

- caliber is usually marked on the barrel.

Shots

- fixed cylinder.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- model name may be marked on the top rib.
- this is a modern reproduction of a side by side "howdah" pistol, originally carried in a multi-passenger palanquin on the back of an elephant, used while tiger-hunting; these pistols were meant for use as a last line of defence against an attacking tiger that got too close to the elephant or its passengers.
- features include: open fixed sights with brass bead front sight; blued side by side barrels; checkered walnut forearm and pistol-grip with a tang prawl; underbarrel ramrod; colour-case-hardened receiver/frame; top-lever; tang safety; double triggers; manually cocked hammers.
- overall length with a 256mm barrel is 422mm (16 5/8"), average weight is 1.8kg (3.97 lbs).

Manufacturer

- "DAVIDE PEDERSOLI" and the Davide Pedersoli "dp" logo are marked on the left side of the barrel.

Action

- side by side barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial number is marked on the receiver/frame.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of a "Remington model 1863 Zouave Rifle-Musket". - "Zouave" in the model designation is for the French North African troops who originally used a percussion rifle of this type.
- features include: fixed blade front sight and three-leaf rear sight; blued round barrel with bayonet lug, ramrod is mounted under the barrel; color-case-hardened lockplate, percussion hammer, and sling swivels; one-piece stained hardwood straight grip stock with a brass nosecap, two barrel bands, trigger guard, patchbox and buttplate.
- "U.S. large spread wing eagle" logo is usually marked on the lock-plate.
- overall length is 1245 mm (49"), and the average weight is 4.08 kgs (9 lbs).

Type

- percussion, side hammer, muzzle loading rifle.

Action

- muzzle loading.

Other Markings

- Made in Italy appears on barrel as do Italian proof marks, American eagle on the lockplate.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- this is a reproduction of a muzzle loading, side hammer, percussion ignition sporting rifle as was popular in the American Midwest in the 1850's. The Hawken name refers to the Hawken brothers, gunsmiths from St. Louis who produced this style of rifle for the western gun trade and whose name subsequently became synonymous with the design.
- features include: fixed blade front sight, adjustable rear sight; side hammer mounted on case hardened lock plate; double set triggers; wooden ramrod located on the underside of the barrel; rust browned barrel with a half length walnut stock.
- overall length with a 827mm (32 5/16") barrel is 1233mm (48 13/16") average weight is 4.4kgs (9.7lbs).

Manufacturer

- Davide Pedersoli's trademark "dp" within an oval, "Davide Pedersoli & C.", "Pedersoli", "Pedersoli - Italy", or a variation thereof is marked on the firearm.

Action

- muzzle loading, percussion ignition.

Serial Number

- serial number is usually marked on the barrel/receiver/frame of the firearm.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- this is a modern reproduction of a Sharps model 1874 Carbine, chambered in small-calibre "varmint" cartridges for ease of shooting and low recoil.
- features include: fixed blade front sight and leaf rear sight drilled and tapped tang for long-range Creedmore sight; round blued tapered barrel; rifled bore; external hammer; double set triggers; color case hardened receiver/frame, lock plate, lever and barrel band; plain forearm and straight English style buttstock with Crescent style butt plate.

Manufacturer

- Davide Pedersoli's trademark "dp" within an oval, "Davide Pedersoli & C.", "Pedersoli", "Pedersoli - Italy", or a variation thereof is marked on the firearm.

Action

- falling block single-shot.

Serial Number

- numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- may not be marked on the firearm.
- this is a modern Italian made reproduction of a Sharps 1874 Sporting Rifle which is available in several grades of finish, calibres, and rifle/carbine variations.
- features include: octagonal blued barrel; oil finish American walnut straight-grip stock and capped or schnabel forearm; fixed front and adjustable rear sights; colour case-hardened or "in the white" receiver/frame; single or double set triggers; predrilled tang for Creedmore sight, and extended trigger guard.
- variants may have a patchbox, engraved receiver/frame, pewter forearm tip, and checkered stock and forearm.
- overall length for a 813mm (32") barrel is 1245mm (49"), average weight is 4.55kg (10lbs).

Manufacturer

- "ARMI SPORT" is marked on the barrel.
- "ARMI SPORT" name is used by Chiappa for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- Chiappa's logos on firearms from Italy are an "AC" for Armi Chiappa or "CF" for Chiappa Firearms within an oval.

Action

- lever operated falling (dropping) block design.

Serial Number

- is marked on the upper rear receiver/frame tang.
- serial number of a referenced example consisted of two letter (SH) and four numbers.

Calibre

- may be marked on the barrel assembly.

- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- introduced in 2009.
- model designation is not may be marked on the firearm.
- "SCHOFIELD'S PAT APR 22nd 73" is usually marked on the left side of the firearm.
- "US" is usually marked on the bottom of the grip strap to mimic the original military issued model.
- this modern reproduction is based on the original Smith & Wesson Model Number Three, Schofield revolver that was originally produced in 1875 with modifications recommended by Major G.W.Schofield for the United States military.
- features include: half moon front sight and a notched in the barrel latch for a rear sight; round ribbed barrel; front hinged receiver/frame with a fluted cylinder with automatic extractor/ejector, and the break open release is mounted on the top strap; exposed spur hammer; single action trigger mechanism; rounded trigger guard; hump-back backstrap with a flat bottom; wood or simulated ivory grip plates; blued or nickel plated finish or color case-hardened receiver/frame, barrel latch, hammer and trigger guard.
- overall length for a 127 mm (5") barrel is 273 mm (10.8"), and the average weight is 1.09 kgs (2.4 lbs).

Manufacturer

- the Uberti name or logo (a "U" inside a rifled octagonal barrel) may be marked on the firearm.

Serial Number

- serial number is marked on the bottom of the grip strap of the receiver/frame.
- serial number observed consisted of a letter "F" prefix and five numbers.

Calibre

- calibre designation is marked on the left side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- carbine version was introduced in 2000 and the rifle version was introduced in 2005.
- model designation may not be marked on the firearm.
- this is a reproduction of the "Spencer 1865" carbine/rifle.
- the original was the second generation of one of the first truly practical repeating long-arms designed to use metallic cartridges, and has an important place in history as being one of the most widely used and effective firearms during the US Civil War.
- features include: an unmistakably shaped lever and receiver/frame (the lever forms a large trigger-guard, and pivots around a pin in the bottom of a very large "hump" at the bottom of the receiver/frame); blade-type extractor on the left side of the chamber; a hammer is mounted on a side-plate on the right side; straight-grip walnut stock with slightly curved buttplate, used either a short forearm with one barrel band (carbine), or a full-length forearm with three barrel bands (rifle); blade front sight and an adjustable rear sight; case-hardened receiver/frame.

Serial Number

- serial number is marked on the receiver/frame.

Calibre

- calibre designation may be marked on the firearm.

Shots

- tubular magazine is mounted inside the buttstock.

Remarks

- the Spencer Repeating Rifle Company was founded in Boston, Massachusetts by Christopher M. Spencer in 1861, to manufacture repeating rifles for the Union forces during the Civil War. They manufactured carbines and full-length rifles (both military-issue and sporting variations) up until 1869.
- this model was also produced by the "Burnside Rifle Company".

- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- introduced circa 2000.
- "STARR. ARMS. CO. NEW. YORK." may be marked on the left side of the receiver/frame below the cylinder and "STARR'S PATENT JAN.15.1856" is marked on the right side of the receiver/frame below the cylinder.
- this firearm is a reproduction of the "Starr model 1858 Double Action Army" black powder percussion revolver.
- the 1858 Double Action was the precursor to the Starr model 1863 Single Action Army revolver and differs from the 1863 by having a double action trigger mechanism and a shorter barrel.
- features include: non-fluted cylinder; round barrel with fixed front sight; walnut grips; blued finish; solid top receiver/frame hammer; double action trigger mechanism; under-barrel loading lever and a large knurled screw on the upper right side that can be removed to allow the barrel and upper frame to pivot.
- overall length for a 152mm (6") barrel is 295mm (11 2/3"), average weight is 1.36kg (3lbs).

Manufacturer

- "F.LLI PIETTA" is marked on the right side of the barrel.

Calibre

- "CAL. 44" may be marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "MADE IN ITALY" is marked on the right side of the barrel.

FRT Report

Firearm Reference Number (FRN): 147813
Make: Taylors Tactical
Model: 1911-A1 FS

Summary

Make:	Taylors Tactical
Model:	1911-A1 FS
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147813 - 1	45 AUTO	8	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
147813 - 2	9MM LUGER	10	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is marked on the rear of the slide as "TAYLOR'S TACTICAL".
Model	- the model may or may not be marked on the firearm; this is a semi-custom 1911-A1 pistol, with finger-relief cuts at the rear of the trigger-guard, an accessory rail on the dust-cover, and made with a variety of "custom" enhancements. - features include: 1911-A1-style frame, with an accessory rail milled into the dust cover, but otherwise standard 1911 layout and operation, blued finish; adjustable open sights; slide grasping grooves milled into the slide at the front and rear; lightweight ventilated trigger; extended manual safety; loop hammer; beavertail grip safety; and straight mainspring housing.
Action	- recoil-operated.
Serial Number	- The serial number is marked on the receiver/frame.
Shots	- detachable box magazine.

Firearm Reference Number (FRN): 144204
Make: TCI
Model: M89

Summary

Make:	TCI
Model:	M89
Manufacturer:	Technical Consultants International (TCI)
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	ISRAEL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
144204 - 1	7.62MM NATO	10	560	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
144204 - 2	7.62MM NATO	20	560	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- the make may or may not be marked on the firearm; this is a conversion of US-surplus M-14 rifles by the Israelis to a "bullpup"-style sniping rifle.

Model

- the model designation may or may not be marked on the firearm.
- this is a "bullpup" sniping rifle conversion of the US M-14 originally designed by Nehemiah Sirkis, but the rights to this design were purchased by TCI after Sirkis' company folded.
- features include: "bullpup" configuration; blued finish; multi-slot muzzle brake or suppressor; folding flip-up open sights for back-up use (the primary sights are an optical telescope mounted on the barrel); a "bullpup"-style carbon-fibre stock; a cheekpiece over the action of the rifle to protect the firer from ejected cases and moving parts; and a buttpad at the rear of the stock.
- this rifle may also be fitted with a suppressor.
- overall length is 850mm/33 1/2".

Manufacturer

- the manufacturer may or may not be marked on the firearm; this is a conversion of US-surplus M-14 rifles by the Israelis to a "bullpup"-style sniping rifle.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number is marked on the receiver/frame; the s/n may be hidden inside the shell of the stock.

Shots

- detachable box magazine.
