Notes

Make

- "STONER" over "RIFLE" is marked on the left side of the magazine housing of the receiver/frame.
- "STONER" is derived from the last name of the designer, Eugene Stoner.

Model

- "SR-25" may be marked on both side of the magazine housing of the receiver/frame.
- introduced in 1993 as the SR-25 Match and in 1995 the SR-25 Stoner Carbine and SR-25 Lightweight Match were introduced.
- this firearm is designed on the AR15/M16 platform.
- the SR-25 comes in several variations.
- SR-25 Match Rifle comes with 610 MM free floating barrel with target contour.
- SR-25 Stoner Carbine comes with 406 MM free floating barrel with shortened non-slip handguard.
- SR-25 Lightweight Match Rifle comes with 508 MM free floating barrel with medium contour.
- features include: round barrel; may have a multi stage high efficient muzzle brake or sound suppressor; may have a picatinny rail adapter system, scope rail that runs the full length of the upper receiver and rail covers; two stage match trigger; cartridge case deflector; 600-meter backup sights with folding front sight; plastic forend, pistol grip and stock; black finish.

Manufacturer

- "Knight's Manufacturing Company" logo and "KMC" are marked on the left side of the magazine housing of the receiver/frame.
- "KNIGHT'S MFG. CO." over "VERO BEACH, FL." over "USA" are marked on the right side of the magazine housing of the receiver/frame.

Serial Number

- marked on the left side of the magazine housing lower receiver and may be repeated on several other major components, bolt and upper receiver.

Calibre

- marked on the left side of the upper receiver, Markings may read (7.62MM).
- 7.62MM NATO rifling characteristics: 1 turn in 11 inches, right hand twist.

Shots

- detachable box magazine.

145881 - 2	7.65MM	7	83	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "STOSEL PATENT" was observed marked on the left side of the slide.
- "STOSEL" was a trade name used by "Retolaza Hermanos".

Model

- manufactured circa 1915.
- "7.65 1915 AUTOMATIC PISTOL DE GUERRE" over "STOSEL PATENT" was observed marked on the left side of the slide.
- "1915" model resembles a "FN-Browning model 1906" less the grip safety..
- features include: fixed sights; round barrel; flat side slide with vertical rear grip serrations; safety lever is located on the left side of the receiver/frame at the rear; magazine release is located on the bottom of the rear grip strap; lanyard ring is located on the left side of the rear grip strap; plain or checkered grip plates.

Manufacturer

- Retolaza Hermanos is not marked on the firearm.
- "R.H." in a circle is the manufacturer's initials and may be marked on the receiver/frame and grip plates.
- Retolaza Hermanos of Eibar, Spain was in business from 1895 to 1936.
- Retolaza Hermanos manufactured Velo-Dog pocket revolvers under the names of Brompetier, Puppy, Velo-Brom and Velo-Mith.
- Retolaza Hermanos started manufacturing semi-automatic pistols circa 1906.
- Retolaza Hermanos manufactured semi-automatic pistols under the names of Gallus, Liberty, Military, Paramount, Retolaza, Stosel, Titan, and Titanic.

Action

- blowback operated.

Serial Number

- although usually numbered on the side of the receiver/frame, the referenced example did not have a serial number.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre is marked on the left side of the slide.
Shots	- detachable box magazine.

26178 - 1	6.35MM	6	55	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is marked on the left side of the slide.
- "Stosel" is a tradename used by Retolaza Hermanos and Guisasola Hermanos.

Model

- model is marked on the left side of the slide as: "No 1 Patent".
- this model has the characteristics common to the FN-Browning Model 1906.
- features include: blowback operation, hammerless, no sights, vertical serrations on the rear of the slide and the slide hold open lever on the left side of the receiver/frame.
- magazine release at the heel of the grip frame.

Manufacturer

- "Guisasola Hermanos", "Guisasola Bros & Co", "Guisasola Brothers", or the Guisasola Hermano's logo of "GH" or trademark of the letters "GH" inside a letter "C" may be marked on the barrel, receiver/frame or grip-panels.
- "GH" is the acronym for Guisasola Hermanos.
- "GHC" is the acronym for Guisasola Hermanos & Cie.
- Guisasola Hermanos/Guisasola Hermanos & Cie/Guisasola Brothers/Guisasola Brothers & Company was located in Eibar, Spain prior to 1936.
- Guisasola Hermanos also marketed semi-automatic pistols made by Gabilondo.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Calibre

- calibre is marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

120301 - 5	7MM-08 REM	1	500	Prohibited PDR, Part 4, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the firearm as "STRADIVARI".

Model

- the model designation is marked on the firearm.
- this is an unusual single-shot rifle equipped with a "bull-pup" style stock which places the chamber of the firearm rearward of the firing hand/trigger.
- features include: walnut stock with anatomical pistol-grip; a recoil-pad that forms part of the loading/action mechanism; a safety lever at the front of the trigger-guard; automatic ejector; a spring-loaded muzzle-cup to direct blast and noise forward and a high-rise scope-mounting rail for a variety of optical sights.
- to load/unload this firearm, the shooter must pull down on a serrated catch on the recoil-pad, then swing that recoil-pad rearwards; this drops the breech-block to allow access to the chamber.
- available with a 500mm barrel as the "Bull Pup K", with a 630mm barrel as the "Bull Pup M", and with a 740mm barrel as the "Bull Pup L".

Manufacturer

- a manufacturer's identifier (an acronym or logo) is usually marked on the firearm.
- F.A.V.S.'s (an acronym for Fabbrica Armi Valle Susa) logo consists of the letters "FAVS" inside a quadrisected circle, all superimposed on a shield.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- falling block, single-shot action.
Serial Number	- numbered on the receiver/frame, rationalization unknown.
Canadian Law Comments	- This firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2) is removed the receiver/frame or complete barrelled action of the firearm is correctly classified as "Non-Restricted".

Notes

Make

- the company logo, consisting of a stylised bullseye next to "Strasser", followed by "RS 14" was observed, on a referenced example, marked on the left side of the bolt.
- Herbert Strasser is the owner/operator of HMS Präzisionstechnik GmbH, a manufacturer based in Eugendorf, Austria; HMS builds several variations of a straight-pull bolt-action rifle designed by E. Blaser.

Model

- introduced in 2015.
- "RS 14" was observed, on a referenced example, marked on both sides of the receiver/frame and also observed on the left side of the bolt.
- this is a straight-pull bolt-action rifle designed by E. Blaser, with a quick-change barrel system, manufactured by HMS Präzisionstechnik GmbH in Eugendorf, Austria.
- features include: adjustable sights; proprietary three-point ball seating scope mounts; plain or fluted barrel; round black plastic bolt handle; bolt mounted thumb safety and cocking indicator; adjustable trigger assembly; checkered semi-pistol grip wooden buttstock with a Bavarian style cheek piece and rubber recoil pad; checkered wooden forearm with schnabel tip; sling swivels; black finish.
- overall length with a 560mm (22") barrel is 1080mm (42"), average weight is 3.2kg (7lbs).
- overall length with a 600mm (24") barrel is 1120mm (44"), average weight is 3.3kg (7¼ lbs).

Manufacturer

- manufactured by HMS Präzisionstechnik GmbH located in Eugendorf, Austria.
- "MADE IN AUSTRIA" was observed, on a referenced example, marked on the right side of the bolt.
- "Strasser" was observed, on a referenced example, marked on the left side of the bolt.

Action

- straight-pull bolt design.

Serial Number

- serial number may be marked on the barrel and on the receiver/frame.

Calibre

- calibre designation may be marked on the barrel and on the magazine.

Shots

- detachable box magazine.

Notes

Make

- "S" over "V" inside a circle may be marked on the side of the receiver/frame.
- "STRAYER - VOIGT INC." may be marked on the underside of the receiver/frame.

Model

- "INFINITY" may be marked on the side of the slide.
- resembles the Colt "1911" type pistol.
- manufactured in such a way that an owner can change slides, calibres, barrel lengths, grip assemblies, and other parts with ease, as all parts are manufactured as "drop-in" components.

Manufacturer

- "S" over "V" inside a circle may be marked on the side of the receiver/frame.
- "STRAYER - VOIGT INC." and "GRAND PRAIRIE TX, USA" may be marked on the underside of the receiver/frame.

Serial Number

- custom serial number available.
- located on right side of receiver/frame, above trigger-guard.

Barrel

- available with plain barrels, ported barrels, and/or compensators.

Calibre

- "CAL. 355", "CALIBER 0.355", "CAL. 400", "CALIBER 0.400", "CAL. 450", or "CALIBER 0.450" may be marked on the chamber of the barrel.
- ".355" is a generic calibre marking for 9MM LUGER, 9X21, 9X25, and 38 SUPER AUTO.
- ".400" is a generic calibre marking for 40 S&W, 40 SUPER, and 10MM AUTO.
- ".450" is a generic calibre marking for 45 AUTO.
- "CLASSIC CAL. 355" and "HYBRICOMP CAL.355" was observed marked on barrels from Schuemann Barrels.

Shots

- detachable box magazine.

Remarks

- the "receiver/frame" on these pistols is a small machined assembly that the grip frame bolts onto, and provides a platform that allows a complete firearm to be built into a number of configurations.
- the slide is built with an interchangeable breech-face to allow an owner to change calibres simply by switching barrels, breech-faces, and extractors.
- the receiver/frames are likewise available in a wide variety of configurations (standard length or extended-length, with or without machining and scope-mount options), and in several different metals (aluminium, titanium, 4140 steel, or stainless steel).

Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	IRELAND
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
130060 - 1	54 FLINTLOCK	1	203	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- known example was marked "STUART" on the lock plate.
- it also has the Thomas Stuart trademark symbol marked in gold inlay on the rear of the barrel; mark consists of the words "STUART" over "DUBLIN" surmounted by a crown.

Model

- no model name is marked on this firearm.
- features observed: octagonal barrel with under-barrel rib and ramrod; side lock action with hammer; flintlock ignition; trigger guard has a finger loop; butt cap; steel furniture with engraving.
- this pistol resembles a typical duelling-type handgun as represented by the finger loop on the trigger guard, the under-barrel rib, half-cock bolt safety behind the hammer, platinum or gold flash hole insert, bead front sight and rounded pistol grip.

Manufacturer

- known example was marked "STUART" on the lock plate.
- it also has the Thomas Stuart trademark symbol marked in gold inlay on the rear of the barrel; the mark consists of the words "STUART" over "DUBLIN" surmounted by a crown.
- Thomas Stuart was an Irish gunmaker circa 1806; his address is shown as 124 Capel Street, Dublin.

Action

- muzzle loading, flintlock ignition.

Serial Number

- observed sample did not have a serial number.

197309 - 1	22 LR	1	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "F. Stucki" observed marked on the right side of the receiver/frame over the word "Zurich".
- "FRIED. STUCKI" may be marked on the left side of the receiver/frame, over the word "SOLOTHURN".
- "Stucki, Friedrich" maker in Zurich, circa 1870-1896.
- "Stucki, Friedrich" maker in Solothurn, circa 1896-1899.
- "F. Stucki" is marked on the firearm in various places.
- "Zurich" & "Solothurn" are cities in Switzerland.

Model

- The model designation is not marked on the firearm.
- This martini type action is operated by pulling down on the rear of the trigger-guard, which drops the front face of the breech-block.
- Features include: breech block hinged at the rear of the receiver/frame that swings downward at the front to open; stylized "D" shape hinge trigger guard with curls or curled shape; plain or engraved receiver/frame with or without rear sight or full scope; straight stock with "schuetzen" style hooked buttplate; with or without high comb cheek rest.

Manufacturer

- "F. Stucki" observed marked on the right side of the receiver/frame over the word "Zurich".
- "Stucki, Friedrich" maker in Zurich, circa 1870-1896.
- "Stucki, Friedrich" maker in Solothurn, circa 1896-1899.
- "F. Stucki" is marked on the firearm in various places.
- "Zurich" & "Solothurn" are cities in Switzerland.

Action

- Rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- The serial number is not marked on the receiver/frame.
- The serial number rationalization is unknown.
- Observed three numbers without letter prefix or suffix, marked on the side of the barrel forward of the receiver "ring", but unconnected to the receiver/frame of this firearm.
- The three numbers are not considered the serial number for the purposes of identification.

Firearm Reference Number (FRN): 16227
Make: Stukenbrok, August
Model: Velo Dog

Summary

Make:	Stukenbrok, August
Model:	Velo Dog
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
16227 - 1	5.75MM VELO DOG	5	44	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "AUGUST STUKENBROK" over "FAHRRADER" over "*EINBECK*" is marked on the top strap.
- "August Stukenbrok" was selling firearms and other sporting goods.
- "August Stukenbrok" was located in Einbeck, Germany.

Model

- the name "Velo Dog" is not marked on the firearm.
- the name was originated by Charles Francois Galand (Paris) in 1894 combining "velocipedist" (bicyclist) and "dog".
- originally intended for use by cyclists to dispatch/repell chasing dogs during the late eighteenth and early nineteenth century, when dog rabies was a dreaded common disease.
- the term initially defined a compact stream-lined revolver, initially in 5.75mm (also known as 5.5mm) long centerfire, or the 6mm "Type Francaise" long rimfire cartridge.
- the "Velodog" customarily features a folding trigger, elongated cylinder (fluted or unfluted), 5 to 7 shots (or more), usually a shrouded or enclosed hammer, often a safety lever on the side or rear of the receiver/frame, most have a yoke mounted ejector that tucks away into the cylinder axis pin, bird's head or square hand-grips, round or octagon barrel (often with rudimentary sights).

Other Markings

- may have German proof marks on the cylinder and barrel.

32056 - 2	7.92X33 KURZ	30	365	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- the ERMA version of the MKb42 was produced in experimental, small quantity and indeed may not have existed except as a pre-production prototype.
- this design, when further developed, went on to beome the MP43, MP44 and STG44 models.

Manufacturer

- the manufacturer appears on the firearm as "ayf".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- gas operated.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- 8MM the 365mm barrel is for the HAENEL firearm. - the 409mm barrel is for the WALTHER firearm.
Shots	- detachable box magazine.
Remarks	- the ERMA version of the MKb42 was produced in experimental, small quantity and indeed may not have existed except as a pre-production prototype. It has not been listed on the FRT as a Converted Automatic.

Notes

Make

- "Sturmgewehr" is not marked on the firearm.
- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- "M.Kb.42(W)" is marked on the left side of the receiver/frame.
- the letter suffix in brackets after the model designation indicates the manufacturer: "H" for "HAENEL" and "W" for "WALTHER".
-production of the MKb 42 (W) during 1942 & 43 is estimated at approximately 200 examples.
- in 1943 it was decided that the Haenel version of the MKb 42 was superior to the Walther firearm and manufacture of the Walther ceased.

Manufacturer

- the Walther's manufacturer code of "ac" is marked on the left side the magazine housing of the receiver/frame, just in front of the serial number and below the abbreviated year of manufacturer.
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is marked on the left side of the magazine housing of the receiver/frame.
- the serial number may consist of one to four digits.
- the serial number may have a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at one (1), thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.
- verified serial numbers: 078 and 0084.

Barrel

- the 409mm barrel is for the WALTHER firearm
- the 365mm barrel is for the HAENEL firearm.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 23853
Make: Sturmgewehr
Model: MP43

Summary

Make:	Sturmgewehr
Model:	MP43
Manufacturer:	Haenel (fxo)
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23853 - 1	7.92X33 KURZ	5	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
23853 - 2	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- the "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearms as "MP43".
- full model designation as adopted is "Machinenpistole 43".
- for ease of manufacture this model features a stamped steel receiver.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "fxo".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- may consist of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

Notes

Make

- the "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43".
- full model designation as adopted is "Machinenpistole 43".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "cos".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Serial Number

- may consist of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 32002
Make: Sturmgewehr
Model: MP43

Summary

Make:	Sturmgewehr
Model:	MP43
Manufacturer:	Schiffer (afv)
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
32002 - 1	7.92X33 KURZ	5	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
32002 - 2	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43".
- full model designation as adopted is "Machinenpistole 43".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "afv".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43/I".
- full model designation as adopted is "Machinenpistole 43/I".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- The "/1" indicates a minor modification, (the threads at the end of the muzzle are different to accept a different grenade launcher, and the front sight post is changed) to the standard MP43 design.

Manufacturer

- the manufacturer appears on the firearm as "ayf".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 50356
Make: Sturmgewehr
Model: MP43/I

Summary

Make:	Sturmgewehr
Model:	MP43/I
Manufacturer:	Erfurter Maschinenfabrik (ERMA) (ayf)
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
50356 - 1	7.92X33 KURZ	5	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
50356 - 2	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43/I".
- full model designation as adopted is "Machinenpistole 43/I".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- The "/1" indicates a minor modification, (the threads at the end of the muzzle are different to accept a different grenade launcher, and the front sight post is changed) to the standard MP43 design.

Manufacturer

- the manufacturer appears on the firearm as "ayf".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.

- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43/I".
- full model designation as adopted is "Machinenpistole 43/I".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- The "/1" indicates a minor modification, (the threads at the end of the muzzle are different to accept a different grenade launcher, and the front sight post is changed) to the standard MP43 design.

Manufacturer

- the manufacturer appears on the firearm as "p".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

50370 - 2	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- model designation appears on the firearm as "MP43/I".
- full model designation as adopted is "Machinenpistole 43/I".
- for ease of manufacture this model features a stamped steel receiver/frame.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- The "/1" indicates a minor modification, (the threads at the end of the muzzle are different to accept a different grenade launcher, and the front sight post is changed) to the standard MP43 design.

Manufacturer

- the manufacturer appears on the firearm as "bnz".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

32020 - 1	7.92X33 KURZ	5	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
32020 - 3	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "MP44".
- full model designation as adopted is "Machinenpistole 44".
- this model is a redesignation of the model "MP43", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- may also be known as "STG 44".

Manufacturer

- the manufacturer appears on the firearm as "fxo".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "MP44".
- full model designation as adopted is "Machinenpistole 44".
- this model is a redesignation of the model "MP43", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- may also be known as "STG 44".

Manufacturer

- the manufacturer appears on the firearm as "p".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 32018
Make: Sturmgewehr
Model: MP44

Summary

Make:	Sturmgewehr
Model:	MP44
Manufacturer:	Steyr-Daimler-Puch (bnz)
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	AUSTRIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
32018 - 1	7.92X33 KURZ	5	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
32018 - 3	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- the "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "MP44".
- full model designation as adopted is "Machinenpistole 44".
- this model is a redesignation of the model "MP43", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- may also be known as "STG 44".

Manufacturer

- the manufacturer appears on the firearm as "bnz".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- may consist of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

Notes

Make

- the "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "MP44".
- full model designation as adopted is "Machinenpistole 44".
- this model is a redesignation of the model "MP43", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".
- may also be known as "STG 44".

Manufacturer

- "S W J" or variation is stamped on the underside of the receiver/frame in front of the magazine housing.
- "S W J" was the newly-assigned late-war code of Steyr and is usually accompanied by Steyrs' "WaA623" Waffenampt.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

Other Markings

- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Notes

Make

- The make is not marked on the firearm.
- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- The firearm is universally known and recognized by this name,
- There are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- This firearm set the stage for the generation of "assault weapons" which followed,
- The translation for "Sturmgewehr" is assault rifle.
- The final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- Introduced in 1945.
- "MP45" was observed marked on the left side of the firearm on one example.
- Overall only 30 of these firearms have been produced either as trail/prototype firearms or completed upon being captured by allied forces at the end of World War 2.
- Features include: bakelite front handguard, charging handle located on the left side of the firearm; magazine release located on the left side of the receiver/frame, safety located on the left side of the receiver/frame; may come equipped with dust covers over the ejection port and the charging handle cut out.

Manufacturer

- "MAUSER" was observed marked on the left side of the firearm on one example.
- The receiver/frame, and some complete versions of this firearm were manufactured in Germany within the Mauser factory. On April 19-20, 1945 these completed firearms along side the incomplete MP45's and the contents of the Mauser factory are loaded onto a train heading for Austria. This train is located on June 1, 1945 by a joint task force of U.S and British forces and the incomplete part kits where sent to the Netherlands to be completed by Mauser POW's held there.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- Delayed roller-locking system.
Serial Number	- The serial number was observed on the left side of the firearm on one example. - Observed serial number consisted of a one letter prefix followed dash and two numbers.
Shots	- Detachable box magazine.

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "STG44".
- full model designation as adopted is "Sturmgewehr 44", this translates to "Assault Rifle 44".
- this model is a redesignation of the model "MP44", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "ayf ".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consists of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1, thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

Other Markings

- the firearm is marked MP41, Patent Schmeisser, C.G. Haenel, Suhl on the top of the receiver.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "STG44".
- full model designation as adopted is "Sturmgewehr 44", this translates to "Assault Rifle 44".
- this model is a redesignation of the model "MP44", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "p".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- The German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- Late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

Notes

Make

- The "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

Manufacturer

- the manufacturer appears on the firearm as "bnz".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- consist of 1 to 4 digits, most with a letter suffix.
- the German military numbering system consisted of consecutive numbers, starting at 1 and continuing to 9999, then starting again at 1a to 9999a, 1b to 9999b, etc.
- if production exceeded 270,000 firearms per year, the numbering stared again at 1 - thereby creating duplicate serial numbers.
- late in the war with high producing factories the number system frequently started over again at 1aa.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 37213
Make: Sturmgewehr
Model: StG44

Summary

Make:	Sturmgewehr
Model:	StG44
Manufacturer:	Westfalisch Anhaltische Sprengstoff (r)
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
37213 - 1	7.92X33 KURZ	5	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
37213 - 2	7.92X33 KURZ	30	410	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- the "MAKE" for this family of small arms has been assigned to "Sturmgewehr" for the following reasons:
- the firearm is universally known and recognized by this name,
- there are a number of similar firearms that are basically sub-variations of the same firearm, such as the MKb42, MP43, the MP43/1, the MP44, the Stg 44 & Stg45,
- this firearm set the stage for the generation of "assault weapons" which followed,
- the translation for "Sturmgewehr" is assault rifle.
- the final iteration of the firearm was known by the model name of "Stg" which is the German abbreviation for Sturmgewehr.

Model

- for ease of manufacture this model features a stamped steel receiver/frame.
- model designation appears on the firearm as "STG44".
- full model designation as adopted is "Sturmgewehr 44", this translates to "Assault Rifle 44".
- this model is a redesignation of the model "MP44", it features some minor modifications.
- fires an intermediate power cartridge that was developed for use in what has become known as an "Assault Rifle".

Manufacturer

- the manufacturer appears on the firearm as "r".
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Firearm Reference Number (FRN): 118169
Make: Sturmgewehr
Model: StG51

Summary

Make:	Sturmgewehr
Model:	StG51
Manufacturer:	Waffenfabrik Bern (WF)
Level:	Converted Automatics
Type:	Rifle
Action:	Converted Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
118169 - 1	7.5X38 SWISS	5	525	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
118169 - 2	7.5X38 SWISS	30	525	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- "Sturmgewehr" is not marked on the firearm.
- the "MAKE" for this firearm has been assigned to "Sturmgewehr" as the firearm is universally known and recognized by this name, the translation for "Sturmgewehr" is "assault rifle" or "storm rifle".
- this firearm more closely resembles the German "Fallschirmjägergewehr 42" than the more commonly known "Sturmgewehr" family of firearms.

Model

- "StG 51" is not marked on the firearm.
- this firearm was also known as the "Bern short rifle" or "StG W+F 51", this designation breaks down as "StG" for "Sturmgewehr or storm rifle" (assault rifle), "W+F" denotes "Waffen-Swiss-Fabrik" (indicates manufacture at the Swiss government arsenal in Bern") and "51", believed to be the year of development.
- this is an experimental post-World War 2 rifle built for testing and possible adoption by the Swiss military, that greatly resembles a 2/3rds-scale FG42.
- features include: wooden buttstock (which contains recoil apparatus), pistol grip and forearm, flip up adjustable sights, magazine well on the left side of the receiver/frame to accept a horizontal magazine, fire selector switch on the left side of the receiver/frame behind the trigger group, intricately machined muzzle brake/flash suppressor and a folding bipod.
- the Swiss appear to have produced at least two "short" rifle versions, designated StG W+F 51 and StG W+F 52, using the 7.5X38 SWISS cartridge, and several "long" rifle versions, designated the StG W+F 54, StG W+F 55, and StG W+F 56, that used the 7.5X55 SWISS cartridge.

Manufacturer

- manufacturer's name is marked on the top of the magazine well as: "WAFFENFABRIK", over a Swiss cross, over "BERN".
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial number is marked on the receiver/frame and major component parts.

Shots - side mounted, detachable box magazine.

15645 - 2	7.62MM TOKAREV	35	241	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Sudaev" is not marked on the firearm.
- "Sudaev" is derived from the last name of the Russian design, Aleksey I. Sudaev.
- Aleksey I. Sudaev was born in 1912 and died in 1946.
- "Sudaev" designed the PPS42 and PPS43 submachine guns.
- "PPS42" denotes "Pistolet-Pulemyot Sudaev, obrazets 1942", or "Submachine Gun of Sudaev, Pattern of 1942".
- "PPS43" denotes "Pistolet-Pulemyot Sudaev, obrazets 1943", or "Submachine Gun of Sudaev, Pattern of 1943".

Model

- "PPS43" is not marked on the firearm.
- "PPS43" denotes "Pistolet-Pulemyot Sudaev, obrazets 1943", or "Submachine Gun of Sudaev, Pattern of 1943".
- This is a Polish-manufactured copy of the Sudaev PPS43, manufactured under Russian occupation after the end of World War Two; in 1952, this submachine gun was renamed to the "Wz43/52" in Polish service, after minor modifications were made to the design.
- Features include: blued finish; sheet metal pressed receiver/frame and folding stock, plastic or wood pistol grip, flip-over rear sight, ventilation slots in the barrel jacket, curved detachable box magazine, safety catch at the front of trigger guard, curved muzzle brake.

Manufacturer

- "HCP" in a circle (the logo of the "Hipolit Cegielski" factory in Posnan) is marked on the top of the receiver/frame, forward of the rear sight.
- In the early 1950s, the "HCP" factory was renamed to the "Zaklady Metalowe imeni Josef Stalina w Poznan"/"Josef Stalin Metalworks in Posnan", and assigned the factory identifier "Factory 6" under the Warsaw Pact numbering system.

Action

- Blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- Serial numbered on the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- the make will not be found marked on the firearm.

Model

- model designation is not marked on the firearm.
- introduced circa 1952.
- based on the Russian model PPS43.
- features include: muzzle brake; flat top post front sight and L-type open V-notch rear sight; sheet metal pressings are used in the receiver/frame; ventilated barrel jacket; safety catch at the front of trigger guard; fixed wood stock or folding metal stock with a plastic or wood pistol grip.

Manufacturer

- "11" inside an oval is usually marked on the right side of the firearm.
- year of manufacture may be marked on the right side of the firearm, ie.1953.

Action

- blowback operated, advanced primer ignition.

Serial Number

- the serial number may be found marked on the right side of the receiver/frame.
- an observed serial number consisted of a two letter prefix followed by four digits followed by the manufacturer identification code and the year of manufacture.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this firearm design was developed under the leadership of Prof. Piotr Wilniewczyc, one of the designers of the VIS Pistol.
- this design was developed for the Polish Special Forces.
- production commenced in 1964.
- this firearm still in service with Polish police and military forces (2004).
- an unlicenced copy of the 9MM pm Wz63 is being manufactured in China and sold by NORINCO.

Notes

Make

- "SUGIURA SHIKI" ("Suguira Type") is marked in Japanese kanji on the right side of the receiver/frame, above the trigger guard.

Model

- "SUGIURA SHIKI" ("Suguira Type") is marked in Japanese kanji on the right side of the receiver/frame, above the trigger guard.
- this is one of several thousand semi-automatic pistols manufactured under Japanese rule in Manchuoko, China, during 1944 and 1945; these pistols were made both in 25 AUTO and 32 AUTO, in two different sizes. Externally, they somewhat resemble a Colt 1903 pistol, but internally, they operate like a Browning 1910 or Spanish "Ruby" pistol.
- features include: blued finish; fixed open sights; removable barrel bushing; Colt 1903-style relieved slide front; external extractor on the right side; single-action trigger mechanism; left-side safety/slide latch at the rear of the receiver/frame; checkered wooden grip panels; heel magazine release.

Manufacturer

- "SUGIURA SHIKI" ("Suguira Type") is marked in Japanese kanji on the right side of the receiver/frame, above the trigger-guard.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial-numbered on the right side of the receiver/frame and slide.
Shots	- detachable box magazine.

Notes

Make	- "SULUN" is marked on the right side of the receiver/frame.
Model	- "AUSLOF" is marked on the right side of the receiver/frame. - Features include: Alofs-type tubular reloading magazine mounted along the left side of the firearm; under-lever action release located on the underside of the receiver/frame, ahead of the trigger guard; safety located on the rear of the trigger guard; receiver/frame and barrel may come in a silver finish; may come equipped with a wooden stock and forend.
Manufacturer	- "OGUZ SILAH SAN" is marked on the right side of the firearm.
Action	- Break action single barrel firearm factory equipped with an Alofs-type tubular reloading magazine on the left side of the firearm. When the action is opened and a cartridge case is ejected, the external carrier pivots to the right, aligning itself with the axis of the bore and feeding a cartridge into the chamber. - If the Alofs-type reloading magazine were removed, this firearm's action would be a break action single-shot design.
Serial Number	- The serial number is marked on the right side of the receiver/frame.
Calibre	- The calibre designation is marked on the barrel.
Shots	- Break action single barrel shotgun factory equipped with an Alofs-type tubular reloading magazine on the left side of the firearm. When the action is opened and a cartridge case is ejected, the external carrier pivots to the right, aligning itself with the axis of the bore and feeding a cartridge into the chamber.

Firearm Reference Number (FRN): 120187
Make: Sundance Industries
Model: Point Blank

Summary

Make:	Sundance Industries
Model:	Point Blank
Manufacturer:	Sundance Industries
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Multi-Barrel
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
120187 - 1	22 LR	2	76	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Sundance Industries" is marked on the left side of the barrel assembly.

Model

- "Point Blank" is marked on the right side of the barrel assembly.
- manufactured from 1994 to 2002.
- this is an over/under "derringer"-style handgun with an unusual overall shape and construction.
- features include: rounded grip-frame with "tip-up" barrel unit; fixed blade and groove sights; manual extractor; cross-bolt safety above trigger; matte black finish with synthetic grips; and an internal hammer that cycles automatically between firing the top and bottom barrels.

Manufacturer

- "Sundance Industries" and "Valencia, CA. U.S.A." is marked on the left side of the barrel assembly.
- Sundance Industries was located in both Valencia and North Hollywood, California, U.S.A.
- Sundance Industries was in business from 1989 to 2002.

Action

- over & under barrel configuration, hinged barrel design.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a letter "D" prefix and six numbers.

Calibre

- "CALIBER .22" is marked on the right side of the barrel assembly.

FRT Report

Firearm Reference Number (FRN): 128669
Make: Suomi
Model: 1931 Homemade Reproduction

Summary

Make:	Suomi
Model:	1931 Homemade Reproduction
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128669 - 1	9MM LUGER	5	318	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	

Notes

Make

- "SUOMI" is marked on the side of the sight.
- "MADE IN SASKATCHEWAN, CANADA" is marked on the right rear side of the receiver/frame.

Model

- model name is not found marked on the firearm.
- this is a Homemade reproduction of a Soumi model 1931 manufactured to fire in the semi automatic mode only.
- this firearm resembles a Suomi model 1931 submachine gun with near precision and is capable of accepting parts, magazines and accessories from an original full-automatic Suomi Model 1931 submachine gun.
- features include: muzzle brake; ventilated, removable barrel jacket; blade front sight, tangent adjustable rear sight; round, tubular receiver/frame; wood, one-piece buttstock; steel butt plate; right side cocking handle and sliding safety catch mounted in the front of the trigger guard.
- the firearm is fed from bottom mounted magazines, both detachable box and detachable drum style.

Action

- advanced primer ignition, blowback operated.

Serial Number

- serial number is marked on the top of the receiver tube at the rear of the back sight.
- serial number rationalization unknown.
- the serial number of the inspected firearm consisted of two letters followed by five digits.

Barrel

- easily removable/replaceable barrel.

Shots

- detachable box or drum magazine.
- accepts all Suomi or PPSH submachine gun magazines and drums.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this Soumi 1931 Copy firearm, although manufactured to be a semi-automatic firearm, was found to fire full-automatic by manipulation of the trigger to prevent the trigger from resetting and holding the bolt to the rear.

Other Markings

- receiver/frame is marked, "MADE IN SASKATCHEWAN, CANADA" on the right rear.
- an original Soumi rear sight housing and rear sight have been mounted on the receiver tube. The markings found on the rear sight housing are of interest but not relevant to the identification of this firearm. The rear sight is marked on the right side "PATENT" over "1932" and on the left side "SOUMI" over "Tikkakoski".
- a maple leaf outline is on the left side of the magazine housing, forward of the magazine opening.

- Features include: threaded muzzle for flash hider/muzzle brake; standard, heavy profile or grooved, M4 carbine contoured barrel; AR15/M16 standard, low profile, Picatinny optic/accessory rail or folding front sight bracket/gas block; Picatinny accessory rail, free floating or synthetic handguard; A3 Picatinny optic/accessory rail rail flat top upper assembly; may have a detachable carrying handle with adjustable rear sight, folding sights or optical sight; collapsible, standard or custom rifle buttstock; synthetic pistol grip; matte black finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SUPERIOR" over "ARMS" over "WAPELLO, IA" are marked on the left side of the receiver/frame. - Superior Arms, Inc. is located in Wapello, Iowa, U.S.A. - Superior Arms, Inc. was established in 2004.
Action	- gas operated.
Serial Number	- serial number is located on the left side of the magazine housing of the receiver/frame. - observed serial number consisted of five numbers without a letter prefix or suffix. - observed serial number consisted of six numbers without a letter prefix or suffix.
Calibre	- "CAL 5.56MM" may be marked on the left side of the magazine housing. - "223 Wylde" is a chamber design and not a calibre. - Wylde chamber was designed by Bill Wylde for use with competition 223 Remington loads. - Wylde chamber is designed to allow for the ability to shoot military 5.56 ammo, plus the ability to safely shoot .223 ammo with reliable extraction and match-like accuracy. - Wylde chamber is an improvement on the SAAMI chamber that has traditionally been used in match rifles. - Wylde chamber works with cartridges having an overall length of 2.445, as opposed to the SAAMI specifications of 2.410" for 223 Remington and 2.550" for 5.45x45mm NATO.
Shots	- detachable box magazine. - Uses all magazines available for AR15/M16 type rifles.

Firearm Reference Number (FRN): 3625
Make: Survival Arms
Model: AR-7 Explorer

Summary

Make:	Survival Arms
Model:	AR-7 Explorer
Manufacturer:	Survival Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
3625 - 1	22 LR	8	406	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- circa 1990.
- lower right front side of receiver.
- also available in silvertone finish as the AR-7S Explorer.
- also available in camouflage finish as the AR-7C Explorer.

Manufacturer

- a picture of a wolf's head and the company's name and address may be found on the lower right side of receiver/frame.
- Survival Arms, Incorporated was founded in Orange, CT. U.S.A.
- Survival Arms, Incorporated took over production of the AR-7 Explorer in 1990.
- Survival Arms, Incorporated was located in Cocoa, FL. U.S.A., until 1995.

Action

- simple blowback mechanism.

Serial Number

- unknown serial number rationalization.

Shots

- detachable box magazine.

Remarks

- This is a take down firearm. The barrel and action may be dis-assembled and stored in the synthetic stock. The barrel and action have a black matte finish. This firearm is similar to the AR-7 Explorer, except it is also available with a walnut stock. This walnut stock is not hollowed-out to store the action and barrel.

Firearm Reference Number (FRN): 118795
Make: Sutherland, R
Model: Screw Barrel Pistol

Summary

Make:	Sutherland, R
Model:	Screw Barrel Pistol
Manufacturer:	Sutherland, R
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
118795 - 1	45 PERCUSSION	1	41	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SUTHERLAND" is marked on the left side of the receiver/frame.

Model

- manufactured prior to 1840.
- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- this is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- this handgun is intended to be loaded from the breech end of the barrel and as such was originally suppied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.

Manufacturer

- Richard Sutherland was a manufacturer located in Birmingham England from approximately 1828 to 1839.
- Richard Sutherland was associated with the firm of Ramsay & Richard Sutherland from approximately 1880 to 1927.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- the turnoff barrel may be rifled.

Other Markings

- marked "London" on the right side of the receiver/frame.

Notes

Make

- "SAV" is marked on the left side of the receiver/frame.
- "SAV" is the abbreviation for Svenska Automatvapen AB.

Model

- M40 was adopted into Swedish service circa 1940.
- M40 is not marked on the firearm.
- M40 is an improved model LH33.
- LH33 was designed by Ivar Staeck and Torsten Lindfors of Sweden and Hans Lauf of Germany.
- LH33 was patented in Sweden in November of 1933.
- Hans Lauf became manager of Knorr-Bremse of Germany in 1935.
- Hans Lauf filed a German patent for the LH33 as the LH35 in September of 1935.
- LH35 model was improved in 1936 and was accepted by the German Military as the MG35/36.
- features include: left side mounted detachable box magazine, barrel quick release nut, carring handle, bipod, flash hider and the rifling ends three inches from the end of the barrel.

Manufacturer

- "SAV" is marked on the left side of the receiver/frame.
- "SAV" is the abbreviation for Svenska Automatvapen AB.
- Svenska Automatvapen AB assembled components manufactured by various contractors in the Stockholm area.

Action

- gas operated.
- full automatic only.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame.
Shots	- detachable box magazine.
Other Markings	- "GB" under a crown is marked on the top of the receiver/frame.

Notes

Make

- "SAV" is marked on the left side of the receiver/frame.
- "SAV" is the abbreviation for Svenska Automatvapen AB.

Model

- M40 was adopted into Swedish service circa 1940.
- M40 is not marked on the firearm.
- M40 is an improved model LH33.
- LH33 was designed by Ivar Staeck and Torsten Lindfors of Sweden and Hans Lauf of Germany.
- LH33 was patented in Sweden in November of 1933.
- Hans Lauf became manager of Knorr-Bremse of Germany in 1935.
- Hans Lauf filed a German patent for the LH33 as the LH35 in September of 1935.
- LH35 model was improved in 1936 and was accepted by the German Military as the MG35/36.
- features include: left side mounted detachable box magazine, barrel quick release nut, carring handle, bipod, flash hider and the rifling ends three inches from the end of the barrel.

Manufacturer

- "SAV" is marked on the left side of the receiver/frame.
- "SAV" is the abbreviation for Svenska Automatvapen AB.
- Svenska Automatvapen AB assembled components manufactured by various contractors in the Stockholm area.

Action

- no longer capable of full automatic fire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame.
Other Markings	- "GB" under a crown is marked on the top of the receiver/frame.

118363 - 1	577/450 MARTINI-HENRY	1	838	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Swinburn's Patent" may be marked on the side of the receiver/frame.

Model

- manufactured circa 1875 to1880.
- under lever operated dropping block, single shot rifle.
- externally resembles the British Martini-Henry service rifle but differs mechanically by utilizing an internal hammer, leaf springs and lever on the right side of the receiver/frame serving as a means to cock and uncock the action.
- manufactured in military rifle and carbine configuration.
- Swinburn rifles and carbines were purchased in quantity by the Boer republics in the 1870's and were used in the Boer War (1899 to 1902) and are marked OVS (Oranje Vreij Staat) on the receiver/frame. A number of Swinburns were brought to Canada as war trophies by returning servicemen.

Manufacturer

- Swinburn was a firearms manufacturer located in Birmingham, England from 1834 to 1883.
- Charles Phillip Swinburn was the successor to Field & Swinburn circa 1834.
- Charles Phillip Swinburn was located at 15 Newton Row in the 1830s, 14 Weaman Row St. Mary's in the 1840s and 17 Russell Street from the 1850 to the 1880s .
- John Field Swinburn, the son of Charles Phillip Swinburn was granted the following British Patent Numbers 110 in 1872; 1895 in 1872; 3635 in 1875; 3689 in 1876; 2206 in 1877; 2711 in 1880; 4291 in 1880; 525 in 1883; 145 in 1883; 6624 in 1884; and 17,008 in 1885.
- Charles Phillip Swinburn and John Field Swinburn's business was known as Swinburn & Son from 1851 to 1883.

64523 - 3	223 REM	1	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
64523 - 2	6MM PPC	1	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
64523 - 1	6MM PPC	1	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SWINDLEHURST" over "ACTION ONT. CAN." may be marked on the left side of the receiver ring.

Model

- "MODEL S. S. 4" may be marked on the right side of the receiver ring.
- "S S 4" stands for "Stainless Steel 4".
- this is a bolt-operated single-shot custom benchrest rifle, with a stainless-steel action and barrel.
- synthetic in-line fibreglass stock with beavertail forearm, fluted two-lug bolt based on the Rem. 700, and some of these rifles were supplied with two separate bolts, to allow re-barreling and use with large and small case-head chamberings.
- many of these rifles were expressly designed to be re-barreled on a regular basis (with a foot wrench, or a minimum of tools), or to be cut back and re-crowned to preserve accuracy.
- semi-octagonal receiver with year of manufacture marked in full (ie. "1994"), and a spring-loaded bolt release on left side; this receiver outwardly resembles the RPA Quadlock, but with a two-lugged bolt.

Manufacturer

- "SWINDLEHURST" over "ACTON ONT. CAN." may be marked on the left side of the receiver ring.
- "Swindlehurst" was a low-production manufacturer/custom gunsmith based in Acton, Ontario, that specialized in building single-shot benchrest rifles.

Action

- turn bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is stamped on the right side of the receiver/frame. - example of markings "SER. NO. ##".
Calibre	- other chamberings likely and possible; these rifles were meant to be "convertible" with very little effort.

Notes

Make

- "SWINDLEHURST" over "Acton Ont. Can." or variation thereof is usually marked on the receiver/frame.

Model

- no model designation is marked on this firearm.
- this is a custom made, turn bolt operated, magazine fed, target rifle based on a Mauser-type of action.
- Swindlehurst actions were usually designed to be easily re-barreled on a regular basis.
- virtually any calibre/barrel length combination is possible.
- barrels were also supplied in stainless steel.

Manufacturer

- "SWINDLEHURST" over "Acton Ont. Can." or variation thereof is usually marked on the receiver/frame.
- Swindlehurst was a small volume manufacturer/custom gunsmith located in Acton, Ontario, Canada, circa 1988 to 1992; he specialized in building precision target rifles.

FRT Report

Firearm Reference Number (FRN): 145158
Make: Swiss Anti Tank Rifle
Model: Tankbusche 41

Summary

Make:	Swiss Anti Tank Rifle
Model:	Tankbusche 41
Manufacturer:	Swiss State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Cannon
Action:	Semi-Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145158 - 1	24X138 ANTI-TANK	6	1515	Prohibited PFR, Part 1, para. 95(z.238)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is not marked on the firearm.
Model	- the model is marked on the firearm as "Tb.41", an abbreviation of "Tankbusche 41", or "Anti-tank Rifle, Model of 1941". - this is an unusual anti-tank rifle adopted by Switzerland in 1941 as anti-tank armament to counter the threat of German invasion. This rifle/cannon is unusual in that it uses the same sort of short-recoil "toggle-lock" of the Luger pistol, the M25 machine gun, and the MP41/44 submachine gun; in this rifle, the toggle is laid on its side so that it "breaks" to the right during operation. - this rifle was designed to be light enough to be easily portable from one firing point to the next, and it was seen on tripod and wheeled mounts that could be carried or towed via two-man crew, bicycle or light vehicle. - features include: blued finish; large cylindrical muzzle brake; heavy barrel; tubular receiver; a six-round box magazine that inserts horizontally from the left, open adjustable sights; and dual spade grips.
Manufacturer	- the manufacturer or logo thereof is marked on the firearm.
Action	- toggle link recoil operated.
Serial Number	- numbered on the receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- This model meets the definition of firearm in the Criminal Code of Canada S.2. This model may be regulated by other Federal Acts such as the Export and Import Permits Act (EIPA) and the Defence Production Act.

163686 - 1	BB	21	124	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Non-Commercial Customization	

Notes

Make

- "SWISS ARMS" is marked on the left side of the slide near the muzzle.
- Cybergun SA is located in Bondoufle, France.
- Cybergun SA was established in 2001.
- Cybergun SA established Cybergun USA LLC in Fort Lauderdale, Florida in 2003.
- Cybergun SA bought out Softair USA in 2004.
- Cybergun SA has used the following trade names/trade marks: Auto Ordnance, Blaser, Beretta, Colt, Desert Eagle, DPMS, FAMAS, Galil, GSG, IMI, Jericho, Kalashnikov, Mauser, Palco Sports, Sig Pro, Sig Sauer, Smith & Wesson, Soft Air USA, Swiss Arms, Tanfoglio, Taurus, Thompson, and Uzi.

Model

- "1911" is not marked on the firearm.
- this is an air pistol version of the Colt model 1911A1 Government semi-automatic handgun.
- features include: fixed front and rear sights; slide with rear grasping serrations; receiver/frame mounted slide release and thumb safety lever; single action; spurred hammer; detachable box magazine housing the CO2 cartridge; plastic or wood grip panels; grey or blue/black finish.

Manufacturer

- "CYBERGUN" is marked on the right side of the slide.

Action

- CO2 powered..
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the right side of the breech of the barrel assembly.
- observed serial number consisted of eight numbers without a letter prefix or suffix.

FRT Report

Firearm Reference Number (FRN): 163528
Make: Swiss Arms
Model: Aestas

Summary

Make:	Swiss Arms
Model:	Aestas
Manufacturer:	SAN Swiss Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
163528 - 1	5.56MM NATO	5	528	Prohibited PFR, Part 1, para. 83(a)	Manufacturer Specifications and Commercial Customization	
163528 - 2	5.56MM NATO	20	528	Prohibited PFR, Part 1, para. 83(a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make may not be marked on the firearm.

Model

- the model name is marked on the right side of the receiver/frame in Latin as "Aestas" which is the Latin word for "Summer".
- this firearm model is one of four models of a limited edition run of firearms designated "Season Specials" to commemorate Swiss Shooting Societies.
- total production purported to be 100 examples of each "season".
- model designation is marked on the firearm.
- this model is based on the SG550/SG551 series of firearms.
- features include: checkered carbon fibre finish; ambidextrous safety lever on the lower receiver/frame; right side ejection; push-forward type magazine release lever is located in front of the trigger guard; folding buttstock.
- detachable box magazines are made of a translucent synthetic material which in this case is checkered carbon fibre finish; these magazines also have studs and slots in their sides which permit two or more magazines to be "clipped" together.
- overall length with a 528mm barrel is approximately 775mm with the buttstock folded.

Manufacturer

- manufacturer's name may not be marked on the firearm.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the upper receiver/frame above the magazine housing. The last four digits may be repeated on the lower receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- make may not be marked on the firearm.

Model

- "Classic Green Sniper" is marked on the left side of the upper receiver/frame.
- this model is based on the SG550/SG551 series of firearms.
- features include: grey/green powder-coat finish on all metal surfaces; heavy barrel with a 20 MM (0.750 inch) diameter; black synthetic collapsible and fully adjustable butt stock; black synthetic pistol grip and forend; ambidextrous safety selector lever marked "S,1" followed by a white dot indicate manufacture as a semi-automatic only; ambidextrous magazine release lever mounted behind the magazine well on the bottom of the lower receiver/frame; bolt release button mounted on the left side of the receiver/frame; integral bipod mounted on the forend; intended for use with an optical sight; may have an anti-mirage rail mounted on the top of the upper handguard to disrupt/minimise heat distortion; adjustable gas mechanism; the bolt cocking handle extends from the bolt assembly through the right side ejection port.
- detachable box magazines are made of a translucent synthetic material which allows the contents to be viewed by the user; these magazines also have studs and slots in their sides which permit two or more magazines to be "clipped" together.
- overall length with the butt folded is 905mm (35 5/8") or with the butt extended is 1130mm (44 1/2") and the weight is approximately 7.02 kgs (15.48 lbs).

Manufacturer

- manufacturer's name may not be marked on the firearm.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame and consists of six digits.
Calibre	- calibre may be marked on the barrel.
Shots	- detachable box magazine.
Other Markings	- "CH 016" may be marked on the left side of the upper receiver/frame, which may denote a Swiss Government manufacturing licensing requirement.

Notes

Make

- "SWISS" over "ARMS" is marked on the left side of the receiver/frame.

Model

- introduced in 2011.
- "SAN 511" is marked on the right side of the receiver/frame.
- "SAN 511" is a high precision, turn-bolt operated rifle utilizing a detachable box magazine.
- features can vary greatly according to end-user/customer specifications.
- features include: quick change, free floating, partially fluted heavy barrel with threaded muzzle for a muzzle brake or sound suppressor; solid top receiver/frame with right side ejection; Picatinny rails are mounted on the top and side; ambidextrous safety; two stage fully adjustable trigger; magazine release is located behind the magazine well; extended forearm with adjustable bipod; pistol grip with side folding fully adjustable for length and comb height butt stock; adjustable ground spike on rear of buttstock; black, green or desert finish.

Manufacturer

- "SWISS" over "ARMS" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- serial number is marked on the left side of the receiver/frame. - observed serial number consisted of a three letter "SAN" prefix, a dash (-), two numbers, a space, and four numbers.
Shots	- detachable box magazine.
Canadian Law Comments	- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.

Notes

Make

- "SAN SG751 APR" is usually marked on the left side of the upper receiver/frame.

Model

- introduced in 2004 and production began in 2009.
- "SAN SG751 APR" is usually marked on the left side of the upper receiver/frame.
- "SG751 APR" uses a two piece/split receiver/frame.
- "SG751 APR" is based on the SIG SG 550 series of firearms.
- features include: interchangeable round cold hammer forged, free floating rifled barrel with threaded muzzle for bird cage type muzzle brake or sound suppressor; gas block with adjustable gas valve and flip-up front sight; stamped steel upper receiver/frame has an integral Picatinny rail and flip-up emergency rear sight; aluminum alloy lower receiver/frame with ambidextrous fire control/selector, folding trigger guard, magazine release located behind the magazine well; quick change synthetic forearm with or without tactical rails and bipod; synthetic or wood pistol grip; synthetic collapsible or side folding buttstock; sling attachments; black, desert or green finish.
- Swiss Arms SG751 APR is also available as a semi automatic version known as the SG751 SAPR.

Manufacturer

- "SAN" was observed marked on the left side of the upper receiver/frame.

Action

- gas operated.

Serial Number

- serial number was observed marked on the left side of the upper receiver/frame, and the last four numbers were marked on the lower unit.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- the 520MM barrel length includes an integral flash eliminator. - overall barrel length with a muzzle brake attached varies from 365MM (14"), 455MM (18"), to 520MM (20 1/2").
Calibre	- "7.62x51" was observed marked on the left side of the upper receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- in the case of this firearm, it has been determined that the component; commonly referred to as the upper receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the Manufacturer's identification, Model identification, Proof information, and the full serial number is marked, is the Receiver/Frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.

FRT Report

Firearm Reference Number (FRN): 119484
Make: Swiss Arms
Model: Swiss Arms Edition

Summary

Make:	Swiss Arms
Model:	Swiss Arms Edition
Manufacturer:	SAN Swiss Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119484 - 1	5.56MM NATO	5	528	Prohibited PFR, Part 1, para. 83(o)	Manufacturer Specifications and Commercial Customization	
119484 - 2	5.56MM NATO	20	528	Prohibited PFR, Part 1, para. 83(o)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make may not be marked on the firearm.

Model

- model designation is marked on the left side of the upper receiver/frame.
- this model is based on the SG550/SG551 series of firearms.
- features include: red finish with a flower on the right side and a cow on the left side; safety lever is located on the left side of the lower receiver/frame; right side ejection; push-forward type magazine release lever is located in front of the trigger guard; buttstock may have a thumbhole.
- detachable box magazines are made of a translucent synthetic material which allows the contents to be viewed by the user; these magazines also have studs and slots in their sides which permit two or more magazines to be "clipped" together.
- overall length with a 528mm barrel is approximately 775mm with the buttstock folded.

Manufacturer

- manufacturer's name may not be marked on the firearm.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the upper receiver/frame above the magazine housing, the last four digits may be repeated on the lower receiver/frame.
- serial number observed consisted of a three letter "ESF" prefix and five numbers.
- "ESF" denotes "Export Semi-Automatic Firearm".

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "CH 016" may be marked on the left side of the upper receiver/frame, which may denote a Swiss Government manufacturing licensing requirement.

172363 - 2	22 PELLET	1	467	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SWISS" over "ARMS" was observed, on a referenced example, marked on the right side of the receiver/frame.
- "MADE IN CHINA" was observed marked on the firearm.

Model

- "Tac 1" was observed marked on the right side of the receiver/frame.
- features include: round rifled steel barrel with muzzlebrake; receiver/frame/tube is grooved for scope mounts; manual safety within the trigger guard; ambidextrous, thumbhole, one piece, synthetic stock with rubber butt pad.
- available with a scope.
- overall length with a 467mm barrel is 1111mm (43.75").

Action

- spring piston, break barrel.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- alpha/numeric serial number was observed, on a referenced example, marked on the left side of the breech of the barrel assembly.
- observed serial number consisted of a letter prefix followed by eleven numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- ".177 CAL. (4.5MM)" was observed marked on the right side of the breech of the barrel assembly.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Possession, Export and Import.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3).

196066 - 2	22 PELLET	1	470	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SWISS ARMS" is marked on the right side of the receiver/frame.

Model

- "TG-1" is marked on the right side of the receiver/frame and on the left side of the barrel block.
- this is a barrel cocking, spring-piston air rifle with a one-piece synthetic stock whose shoulder stock is integral with the bottom of the vertical pistol grip.
- features include: synthetic muzzle brake with fibre optic front sight; round rifled steel barrel; adjustable rear sight on the barrel block; synthetic pistol grip stock with integral shoulder stock and adjustable cheekpiece; vertical safety selector in front of the trigger; cylindrical steel receiver/frame with dovetail scope mount; blued finish with black, tan, or green synthetic stock.
- overall length with a 470mm barrel is 1080mm; average weight is 3.47kg.

Action

- spring-piston air rifle.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- located on the left side of the barrel block following the marking "SN:".
- serial number consists of a one-letter prefix followed by eleven numbers.

Calibre

- calibre designation is marked on the left side of the barrel block.

Canadian Law Comments

- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Notes

Make

- make may not be marked on the firearm.

Model

- the model name is marked on the right side of the receiver/frame in Latin as "Ver" which is the Latin word for "Spring".
- this firearm model is one of four models of a limited edition run of firearms designated "Season Specials" to commemorate Swiss Shooting Societies.
- total production purported to be 100 examples of each "season".
- model designation is marked on the right side of the upper receiver/frame.
- this model is based on the SG550/SG551 series of firearms.
- features include: imitation wood-grain finish on the synthetic furniture and a shade of brown on the metal parts; ambidextrous safety lever on the lower receiver/frame; right side ejection; push-forward type magazine release lever is located in front of the trigger guard; folding buttstock.
- detachable box magazines are made of a translucent synthetic material which in this case is an imitation wood-grain finish; these magazines also have studs and slots in their sides which permit two or more magazines to be "clipped" together.
- overall length with a 528mm barrel is approximately 775mm with the buttstock folded.

Manufacturer

- manufacturer's name may not be marked on the firearm.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the upper receiver/frame above the magazine housing. The last four digits may be repeated on the lower receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

106517 - 1	7.5X55 SWISS	30	584	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- designed by Col. Adolf Furrer, the director of the Swiss government arsenal in Bern, Switzerland.

Model

- model designation is not marked on the firearm.
- uses a toggle mechanism (similar to the one employed on the Luger P08) layed on its side, it also uses a differential recoil system; the barrel and bolt are still moving forward from the previous shot as the firearm is fired.
- magazine is inserted into the right side of the receiver/frame.
- features a rifle type stock with a pistol grip and a bipod.

Manufacturer

- "WAFFENFABRIK" over a Swiss Cross, over "BERN" is marked on the top side of the magazine housing.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number is marked on the top side of the magazine housing.

Shots

- detachable box magazine mounted on the right side.

120623 - 1	7.5X55 SWISS	N/A	564	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a Swiss modification of the German MG42 general-purpose machinegun, that differs from the original in a number of ways.
- where the original MG42 was made with an emphasis on ease-of-manufacture and as many stamped parts as possible (to save the time required for machining operations), the M51 uses an abundance of machined parts and uses a "wing" or "flap"-style locking mechanism on the bolt instead of the roller-locking system of the MG42.
- a version of this machinegun intended strictly for armoured-vehicle mounting is also in Swiss service as the "MG83", without a butt assembly or a ventilated barrel shroud.

Manufacturer

- the manufacturer (or logo thereof) is marked on the firearm.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Action

- recoil-operated.

Serial Number

- numbered on the receiver/frame.

Shots

- belt-fed firearm.

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a Swiss modification of the German MG42 general-purpose machinegun, in a specific vehicle-mounted configuration (for use in tanks, half-tracks, etc.).
- where the original MG42 was made with an emphasis on ease-of-manufacture and as many stamped parts as possible (to save the time required for machining operations), the MG83 uses an abundance of machined parts and uses a "wing" or "flap"-style locking mechanism on the bolt instead of the roller-locking system of the MG42.
- a version of this machinegun intended for use as a general-purpose machinegun (GPMG) is also in Swiss service as the "MG51", and may be seen on a bipod or tripod mount.

Manufacturer

- the manufacturer (or logo thereof) is marked on the firearm.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern, Switzerland was a state owned ordnance factory from 1875 to 1995.
- Waffenfabrik Bern / Eidgenossische Waffenfabrik of Bern was originally know as Montier Werkstatte / Eidgenossische Montier Werkstatte of Bern prior to 1876.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125623 - 1	2.34MM RF	6	18	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SwissMiniGun" is usually marked on the left side of the barrel.

Model

- model designation is not usually marked on the firearm.
- this firearm is a miniature handgun loosely patterned after the Colt Python revolver.
- introduced circa 2004.
- features include: stainless steel receiver/frame and barrel; swing out cylinder; wooden grips; spurred hammer; exposed trigger without trigger guard.
- due to the small size of this firearm the traditional trigger and trigger guard are a one piece decorative unit that is integral with the exposed functional trigger located below them.
- this firearm is also available plated in 18k yellow gold.
- overall length: 5.5cm (2 1/8")

Manufacturer

- "SwissMiniGun" is usually marked on the left side of the barrel.

Action

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is usually marked on the backstrap of the receiver/frame.
- seral number rationalization for a typical serial number of C1ST001 is as follows:
  C= denotes year of 2004; 1= denotes first lot; ST= stainless steel; 001= individual firearm number.

Canadian Law Comments

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "Stainless Steel Switzerland" may be marked on the front edge of the grip-frame.

Notes

Make

- "SWISS SERVICE" is not marked on the firearm.
- the individula Canton's name may be marked on the firearm, such as "BERNE", and "SCHWYZ".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- converted to percussion ignition in 1842.
- "1817/42" is not marked on the firearm.
- features include: round smoothbore barrel with a nose cap that serves as a combination front sight and ram rod guide, and two barrel bands; ramrod mounted under the barrel; right side lock plate with a percussion hammer; one piece full length wood stock with straight grip and sling swivels.
- Swiss Service model 1817 was a muzzle loading, flintlock smoothbore musket.
- Swiss Service model 1817/42 was a muzzle loading, flintlock smoothbore musket converted to a percussion ignition system.
- Swiss Service model 1817/42/59 was a muzzle loading, percussion smoothbore musket converted to a rifled bore.
- Swiss Service model 1817/42/59/67 was a muzzle loading, percussion rifle converted to a breech loading cartridge system using a "Milbank-Amsler" design in 1867.
- "Milbank-Amsler Conversions" was patented by Isaac Milbank and adapted by Rudolf Amsler.
- Milbank-Amsler's top hinged breech block design is similar to the "Springfield Trap Door".
- "Milbank-Amsler Conversion" was applied to numerous Swiss Service firearm, such as the:
- Swiss Service model 1842 was a muzzle loading, percussion smoothbore musket.
- Swiss Service model 1842/59 was a muzzle loading, percussion smoothbore musket converted to a rifled bore.
- Swiss Service model 1842/59/67 was a muzzle loading, percussion rifle converted to a breech loading cartridge system.
- Swiss Service model 1851 was a muzzle loading, percussion short rifle.
- Swiss Service model 1851/67 was a muzzle loading percussion short rifle converted to a breech loading cartridge system.
- Swiss Service model 1856 was a muzzle loading, percussion short rifle.
- Swiss Service model 1856/67 was a muzzle loading percussion short rifle converted to a breech loading cartridge system.
- Swiss Service model 1863 was a muzzle loading, percussion rifle.
- Swiss Service model 1863/67 was a muzzle loading, percussion rifle converted to a breech loading cartridge system.
- Swiss Service model 1864 was a muzzle loading, percussion rifle.
- Swiss Service model 1864/67 was a muzzle loading, percussion rifle converted to a breech loading cartridge system.

Manufacturer

- original manufacture's marking may be visible on the firearm.
- Swiss State Arsenals is not marked on the firearm.
- Swiss State Arsenal as a manufacturer is for those facilities located in the Cantons of Switzerland.
- Swiss Confederacy was originally made up of thirteen (13) sovereign states/cantons/districts in the 16th century.
- Old Swiss Confederancy of the 16th century consisted of the cantons of Appenzell, Basel, Bern/Berne, Glarus, Freiburg, Luzern, Schaffhausen, Schwyz, Solothurn, Unterwalden, Uri, Zug, and Zurich.
- Swiss Federal State was established in 1848.
- Switzerland consisted of twenty-six (26) cantons in 2011.
- Cantons of Switzerland and dates established are as follows: Aargau = 1803, Appenzell = 1513, Appenzell Ausserrhoden (formally Appenzell) = 1597, Appenzell Innerrhoden (formally Appenzell) = 1597, Basel = 1501, Basel-Stadt (formally Basel) = 1833, Basel-Landschaft (formally Basel) = 1833, Bern/Berne = 1353, Geneva = 1815, Glarus = 1352, Graubunden = 1803,
- Freiburg (renamed Fribourg) = 1481, Fribourg (formally Freiburg), Jura (previously part of Bern/Berne) = 1979, Lucerne (formally Luzern), Luzern (renamed Lucerne) = 1332, Neuchatel = 1815, Nidwalden (formally Unterwalden), Obwalden (formally Unterwalden), Schaffhausen = 1501, Schwyz = 1291, Solothurn = 1481, St. Gallen = 1803, Thurgau = 1803, Ticino = 1803, Unterwalden (renamed Nidwalden and Obwalden) = 1291, Uri = 1291, Valais = 1815, Vaud = 1803, Zug = 1352, and Zurich = 1351.

Action

- muzzle loading, percussion ignition.

Serial Number

- serial number of an observed example consisted of five numbers and was marked on the barrel and the buttstock.

Other Markings

- "S&W" or "S 8c W" was observed marked on the breech block and "B-F" under a crown was marked on various components.

Notes

Make - "SWISS SERVICE" is not marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "1842/59/67 Milbank-Amsler Conversion" is not marked on the firearm.
- "1842/59/67 Milbank-Amsler Conversion" was originally a muzzle loading, percussion rifled musket that was converted to a breech loading rim fire cartridge system in 1867.
- "Milbank-Amsler Conversions" was patented by Isaac Milbank and adapted by Rudolf Amsler.
- about 76,700 firearms (including various models) were converted circa 1867.
- Milbank-Amsler's top hinged breech block design is similar to the "Springfield Trap Door".
- features include: round rifled barrel with a nose cap that serves as a combination front sight and ram rod guide, two barrel bands, and a stirrup shaped flip adjustable rear sight graduated to 750 paces; front pivoting breech block assembly; right side lock plate with a rectangular front and tapered rear; right side mounted percussion hammer; one piece full length wood stock with straight grip and sling swivels.
- "Milbank-Amsler Conversion" was applied to numerous Swiss Service firearm, such as the:
- Swiss Service model 1817 was a muzzle loading flintlock smoothbore musket taken into service in 1817.
- Swiss Service model 1817/42 was a muzzle loading flintlock smoothbore musket converted to a percussion ignition system.
- Swiss Service model 1817/42/59 was a muzzle loading, percussion smoothbore musket converted to a rifled bore.
Swiss Service model 1817/42/59/67 was a muzzle loading percussion rifled musket converted to a breech loading cartridge system.
- Swiss Service model 1842 was a muzzle loading, percussion smoothbore musket.
- Swiss Service model 1842/59 was a muzzle loading, percussion smoothbore musket converted to a rifled bore.
- Swiss Service model 1842/59/67 was a muzzle loading, percussion rifle converted to a breech loading cartridge system.
- Swiss Service model 1851 was a muzzle loading, percussion short rifle.
- Swiss Service model 1851/67 was a muzzle loading percussion short rifle converted to a breech loading cartridge system.
- Swiss Service model 1856 was a muzzle loading, percussion short rifle.
- Swiss Service model 1856/67 was a muzzle loading percussion short rifle converted to a breech loading cartridge system.
- Swiss Service model 1863 was a muzzle loading, percussion rifle.
- Swiss Service model 1863/67 was a muzzle loading, percussion rifle converted to a breech loading cartridge system.
- Swiss Service model 1864 was a muzzle loading, percussion rifle.
- Swiss Service model 1864/67 was a muzzle loading, percussion rifle converted to a breech loading cartridge system.

Manufacturer

- original manufacture's marking may be visible on the firearm.
- Swiss State Arsenals is not marked on the firearm.
- Swiss State Arsenal as a manufacturer is for those facilities located in the Cantons of Switzerland.
- Swiss Confederacy was originally made up of thirteen (13) sovereign states/cantons/districts in the 16th century.
- Old Swiss Confederacy of the 16th century consisted of the cantons of Appenzell, Basel, Bern, Glarus, Freiburg, Luzern, Schaffhausen, Schwyz, Solothurn, Unterwalden, Uri, Zug, and Zurich.
- Swiss Federal State was established in 1848.
- Switzerland consisted of twenty-six (26) cantons in 2011.

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation is not marked on the firearm.
- the model "1872" was manufactured between 1873 and 1878.
- in 1878, this service revolver was converted to a center-fire and redesignated the model "1872/78".
- features include: octagonal barrel; solid receiver/frame with fluted cylinder and loading gate on the right side; double action trigger mechanism; trigger guard; lanyard ring on bottom of butt; checkered wood grips; fixed sights; blued finish.
- this is a double-action revolver of the type commonly known as a "Chamelot-Delvigne-Schmidt", after the surnames of the three inventors who patented it, and which was adopted by the Belgian military in 1871. These revolvers are commonly marked "CDS" in an oval, at the front of the receiver/frame, in front of the cylinder.

Manufacturer

- "Pirlot Freres" is marked on the left side of the receiver/frame.

Serial Number

- the serial number may have a letter prefix and be marked on the right side of the receiver/frame.

Notes

Make

- does not appear on the firearm.
- may also be know as SIG or SIG Submachine Gun.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation does not appear on the firearm. - introduced in 1935, manufactured to 1937. - has a hinged magazine housing which enables the magazine and housing to fold under and into the forend of the stock. - delayed blowback operated, two piece bolt. - ejection port is on the top of the receiver. - there are two versions of the MKMO, the only difference being the location of the sight and bayonet attachment. - other variants of the MKMO are; - MKPO; which is a shorter carbine version with 300MM barrel and 30 round magazine. - the MKMS is almost identical to the MKMO, the difference being the ejection port is on the right side of the receiver, one piece bolt, larger cocking handle and is straight blowback. - the MKPS which is a shorter carbine version of the MKMS.
Manufacturer	- "Société Jndustrielle Suisse", the manufacturers name in French will usually be marked on the top of the receiver/frame.
Action	- no longer capable of full automatic fire.
Serial Number	- serial number is marked on the left side of the receiver, samples examined used sequential numbers. - serial number may also be marked on the magazine housing and other componants.
Shots	- detachable box magazine.

Firearm Reference Number (FRN): 111115
Make: Syracuse Arms
Model: Hollenbeck

Summary

Make:	Syracuse Arms
Model:	Hollenbeck
Manufacturer:	Syracuse Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
111115 - 1	12 GA X 2 3/4"	2	764	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- the make is marked in front of the trigger guard, on the trigger plate as: "SYRACUSE ARMS CO."

Model

- "THE HOLLENBECK" is marked in front of the trigger guard, on the trigger plate.
- on some high grade guns the grade may be found stamped on the water table.
- this firearm is a box-lock, hammerless, side by side, double barreled shotgun, with double triggers, top tang mounted opening lever and sliding safety, and checkered walnut butt stock and forend.
- this firearm model was manufactured and offered for sale under the model name "THE HOLLENBECK" from 1893 to 1895.
- coincidental to the resignation of Frank Hollenbeck from the Syracuse Arms Company in July of 1895, the name of the Syracuse Arms Company's sole product was changed from "The Hollenbeck" to the "The Syracuse".

Manufacturer

- the manufacturer's designation is marked in front of the trigger guard, on the trigger plate and on the top of the left barrel as: " MADE BY SYRACUSE ARMS CO".

Action

- side by side, double barreled shotgun.

Serial Number

- the serial number will be found marked on the watertable of the receiver/frame and the matching flat of the barrel mono-block. Whole or partial serial numbers may be found on other components of the firearm.
- reported specimen serial numbers have consisted of up to five digits without prefix or suffix.

Calibre

- on observed sample calibre designation was not marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- a variety of grades of embellishment exist, the grade information may be found marked on the water table. In some cases the grade must be inferred as it does not always appear to be marked on the firearm.
- grades known to exist are as follows: 0, 2, 3; grade 3 being the highest quality.

Notes

Make

- "SYRACUSE FORGING & GUN CO." is marked on the receiver/frame.
- the Syracuse Forging and Gun Company (NO RELATION TO THE "SYRACUSE ARMS CO.") was founded in Syracuse, New York, in 1887, by Dr. Ellis Baker, to build shotguns based on the patents of W.H. Baker, Dr. Baker's brother. In 1889, after a factory fire, the company moved to Batavia, New York, where it remained in business until 1890, when it was renamed as the "Baker Gun & Forging Co.".

Model

- "NEW BAKER" is marked on the side of the receiver/frame.
- this is a standard-pattern side by side exposed-hammer shotgun manufactured by the Syracuse Forging & Gun Company between 1887 and 1890, before the company was sold and became the "Baker Gun & Forging Co.".
- features include: blued finish; Damascus barrels; matte rub; doll-s-head extension with underlug lock-up; double triggers; manually-cocked side-hammers; and walnut; splinter forearm with semi-pistol-grip stock.

Manufacturer

- "SYRACUSE FORGING & GUN CO." is marked on the receiver/frame.
- the Syracuse Forging and Gun Company (NO RELATION TO THE "SYRACUSE ARMS CO.") was founded in Syracuse, New York, in 1887, by Dr. Ellis Baker, to build shotguns based on the patents of W.H. Baker, Dr. Baker's brother. In 1889, after a factory fire, the company moved to Batavia, New York, where it remained in business until 1890, when it was renamed as the "Baker Gun & Forging Co.".

Action

- side by side configuration.

Serial Number

- serial number is marked on the receiver/frame.

Barrel

- barrel lengths may vary.

FRT Report

Firearm Reference Number (FRN): 198412
Make: Syren
Model: Elos N2 Elevate

Summary

Make:	Syren
Model:	Elos N2 Elevate
Manufacturer:	Fabbrica Bresciana Armi (FABARM)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	ITALY
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
198412 - 1	12 GA X 3"	2	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The company logo is marked on the firearm.
- The company logo consists of a stylized "S".
- "Syren" originally started as line of firearms offered by "Caesar Guerini" and "Fabarm" until it gained enough popularity that it became its own brand. "Syren" makes shotgun models exclusive to their brand as well as versions of popular models from both of their parent brands that are sized appropriately for women. All of the shotguns made by "Syren" are meant exclusively for female shooters and their specific needs.

Model

- "ELOS N2 ELEVATE" is marked on the right side of the receiver/frame.
- "ELOS N2" is marked on the underside of the receiver/frame.
- Features include: quick release. interchangeable, tapered, ventilated top rib; action release lever located on the upper tang of the receiver/frame; safety and barrel selector located on the upper tang of the receiver/frame; adjustable cheek piece.

Manufacturer

- "FABARM" is marked on the right side of the firearm.
- "FABARM" is marked on the underside of the receiver/frame.

Action

- Break open action.
- Hinged barrel design.

Calibre

- The calibre designation is marked on the barrel.

199960 - 2	12 GA X 3"	2	813	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The company logo is marked on the firearm.
- Company Logo is a stylized "S" and is located on the underside of the firearm on the bottom of the semi pistol grip.

Model

- "Grayce" is marked on both sides of the receiver/frame.
- "Invictus" is marked on the underside of the receiver/frame.
- The "Syren" line of firearms manufactured by "Caesar Guerini" are made and marketed for female shooters specifically. For this reason "Syren" firearms use signature dimensions, including a reduced grip size and increased pitch and cast
- Features include: lightweight alloy trigger plate and solid chrome-molybdenum steel action; adjustable cheek piece; action release located on the upper tang of the receiver/frame; slide safety located on the upper tang of the receiver/frame, rearwards of the action release.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Caesar Guerini" is marked on both sides of the receiver/frame. - "Caesar Guerini" is marked on the left side of the barrel.
Action	- Hinged barrel design. - Break open action.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the barrel.

Notes

Make

- "SYSTEMA" and "mil/LE-grade" was observed marked on the left side of the magazine housing of the lower receiver/frame.

Model

- "P.T.W.-4" and "Professional Training Weapon Mod. 4" were observed marked on the left side of the magazine housing of the lower receiver/frame.
- this selective fire Airsoft rifle resembles a Colt M4 carbine.
- features include: round barrel consisting of a metal outer tube and smooth bore inner brass tube with a flash hider; flat top aluminum upper with picatinny rail, removable carrying handle and removable Systema spring/piston cylinder unit; aluminum lower receiver/frame with electrical gear box and motor; synthetic forearm, pistol grip and collapsible buttstock with removable battery pack.
- overall length with stock extended is 900 mm and with stock retracted is 800 mm, average weight is 3.7 kg with the battery pack and 2.91 kg without the battery pack.
- NOTE: The lower receiver/frame appears to be an AR-15/M-16 component. This unit is larger internally to house the gear box assembly. The trigger is an integral part of the gear box assembly. The pivot pin holes for the hammer, trigger and sear have not been drilled out, the unit has been divoted and a bluffer head pins have been glued in place to represent the pivot pins. The access hole for the selector has been sealed on the right side.

Manufacturer

- Systema is located in Tokyo, Japan.
- "SYSTEMA" and "mil/LE-grade" was observed marked on the left side of the magazine housing of the lower receiver/frame.

Type

- this is an airsoft rifle.

Action

- removable spring/piston cylinder unit, electrical gear box and motor.
- selective fire.
- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number was observed marked on the left side of the magazine housing of the receiver/frame.
Calibre	- "6mm PROJECTILES (BB)" was observed marked on the side of the magazine housing of the receiver/frame.
Shots	- detachable box magazine.

Notes

Model

- this is a very unusual custom-made side by side repeating bolt-action double rifle.
- features include: walnut pistol-grip butt and forearm (with cheekrest); double triggers; bolt-mounted safety; blued or stainless barrels (available in round or fluted octagonal styles); open folding express sights; integral scope mounts and blued, color-case-hardened, or silver-finished receiver/frame with or without full engraving.
- available with whatever grade of finish that the customer requests.
- this rifle combines two action types into one; a side by side double rifle, and a bolt-action repeater. One bolt handle unlocks and withdraws two separate bolts, and the rifle feeds from a detachable box magazine with two separate feeding columns.

Manufacturer

- Szecsei & Fuchs Fine Guns GmbH. is a manufacturer founded in 1986 to produce custom-made rifles and shotguns; they are particularly known for their design of unusual bolt-action double rifles, in both over/under and side by side patterns.

Action

- this rifle combines two action types into one; a side by side double rifle, and a bolt-action repeater. One bolt handle unlocks and withdraws two separate bolts, and the rifle feeds from a detachable box magazine with two separate feeding columns.

Serial Number

- numbered on the receiver/frame.

Barrel

- as a custom firearm, this rifle is available with any barrel length the customer desires.

Shots

- this rifle is meant to be used with two rounds in the chambers and 4 rounds in the detachable box magazine, for a total of 6 rounds.

Notes

Model

- this is a very unusual custom-made side by side or over/under repeating bolt-action double rifle intended for hunting large and/or dangerous African game. - features include: walnut pistol-grip butt and forearm (with cheekrest); double triggers; cocking indicators; wrist-mounted safety; blued or stainless barrels (available in round or fluted octagonal styles); open folding express sights; integral scope mounts and blued, color-case-hardened, or silver-finished receiver/frame with or without full engraving.
- available with whatever grade of finish the customer requests.
- this rifle combines two action types into one; a side by side or over/under double rifle, and a bolt-action repeater. One bolt handle unlocks and withdraws two separate bolts, and the rifle feeds from an integral box magazine with two separate feeding columns; this rifle is meant to be carried with two rounds in the chambers, and an additional two rounds in the magazine, for a total of four shots.

Manufacturer

- Szecsei & Fuchs Fine Guns GmbH. is a manufacturer founded in 1986 to produce custom-made rifles and shotguns; they are particularly known for their design of unusual bolt-action double rifles, in both over/under and side by side patterns.

Action

- this rifle combines two action types into one; a side by side or over/under double rifle, and a bolt-action repeater. One bolt handle unlocks and withraws two separate bolts, and the rifle feeds from an integral magazine with two separate feeding columns.

Serial Number

- numbered on the receiver/frame.

Barrel

- as a custom firearm, this rifle is available with any barrel length the customer desires; 24"/610mm is only an example of a "typical" side by side double rifle.

Shots

- this rifle is meant to be used with two rounds in the chambers and 2 rounds in the integral magazine, for a total of 4 rounds.

FRT Report

Firearm Reference Number (FRN): 126844
Make: T-15 Industries
Model: Sten MARK 2 SA

Summary

Make:	T-15 Industries
Model:	Sten MARK 2 SA
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Commercial Version
Action:	Semi-Automatic
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
126844 - 2	9MM LUGER	5	178	Prohibited PFR, Part 1, para. 177(j)	Non-Commercial Customization	
126844 - 1	9MM LUGER	5	197	Prohibited PFR, Part 1, para. 177(j)	Non-Commercial Customization	

Notes

Make

- "T-15 IND" is marked on the left side of the firearm.

Model

- "SAS-3 MK 2", "T-15 IND", "CANADA" and a serial number may be marked on the magazine housing of the firearm.
- Variant markings have been observed - SAS 3 and MK 2 on the top of the magazine housing with the serial number on the bottom of the magazine housing as per images 7 & 8 without the T15 and CANADA markings.
- These firearms are semi-automatic configured recreations of Second World War STEN MARK 2 submachine guns.
- The basis of these firearms is the SAS-3 semi-automatic Sten Mark 2 tubular receiver "kit" as sold by T-15 Industries, with military surplus or salvaged parts, and a homemade magazine housing; the homemade magazine housing and the T15 Industries "tubular receiver kit" fulfills the requirement for a purpose built "newly constructed receiver/frame".
- Features include: fixed open sights; a "wire loop frame" style stock; tubular construction; 197mm (7 3/4") barrel; magazine housing that extends to the left of the receiver tube, an AR-15 type, reciprocating firing pin and a specially manufactured bolt assembly from T-15 Industries.

Action

- Blowback operated.
- Closed-bolt, striker fired.

Serial Number

- Observed serial number was located on the magazine housing, located on the left side of the firearm.
- The observed serial number consisted of a number followed by a letter followed by two digits.
- A second observed serial number consisted of an Arabic numeral followed by a roman alphabet letter followed by four Arabic numerals followed by the roman alphabet letters "SA".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is not marked on the firearm.
Shots	- Detachable box magazine.

2517 - 2	17.8X35R FRENCH SCHNEIDER	1	810	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	
2517 - 1	17.8X35R FRENCH SCHNEIDER	1	830	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TABATIERE" is not marked on the firearm.
- this style of firearm was known as Tabatiere, which is an informal French expression that describes the Snider-type action as being similar to a snuff box.
- Tabatiere rifles were converted/manufactured in France by Tulle, St Etienne, Chatellerault, Manufacture d'Armes de Mutzig (MAN) and others, prior to 1880.
- Tabatiere breech type of action is very similar in appearance to that of the Snider-Enfield conversion system.
- Tabatiere breech block opens to the right versus that of the Snider which opens to the left.

Model

- model designation does not appear on the firearm.
- Tabatiere's alteration of percussion lock rifles to breechloading (Schneider M.67 / Snider type breech) was started in 1867 with approximately 342,000 units being converted by 1870. Tabatiere's conversions were stopped in the mid 1870s.
- almost all Tabatiere rifles had been removed from the French service by 1885.
- features include: round barrel; swing breech bolt system; side mounted exposed hammer.
- Infantry & Dragoon rifles had two brass barrel bands and an a brass nose cap.
- Carbine had one brass barrel band and a brass nose cap.

Manufacturer

- the manufacturer's name appears on the lockplate.
- lock plates may display the original markings of the Imperial Arsenal and proof inspection marks.
- "Goodwin", " Joubert", "Mesner", Mignon & Rouhart" and "Teniere & Berthod" who were some of the gunmakers who carried out the conversions in Paris, Versailles, Grafenstad, Alsace and Liege are not marked on the firearm.
- "Manufacture Nationale d'Armes de Chatellerault (MAC)" was established in Chatellerault, France in 1819.
- "Manufacture Nationale d'Armes de Chatellerault (MAC)" manufactured small arms for the French government including machine-guns, rifles and pistols between 1822 and 1968.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - appears on the breechblock, usually has a script letter prefix.

Remarks - this is a conversion of French model 1859 muzzle loading Chasseur Carbines to cartridge breechloader. The conversion entailed cutting off the breech section of the muzzle loader, chambering the barrel for the 17.8 MM cartridge, threading the rifle breech and fitting a 'shoe' with a hinged breechblock which has a centrefire firing pin. The new breech mechanism of the Chasseur Carbine is made of iron. Many of these carbines were later converted to economy shotguns and sold in North America under the name Zulu.

2524 - 1	17.8X35R FRENCH SCHNEIDER	1	890	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TABATIERE" is not marked on the firearm.
- this style of firearm was known as Tabatiere, which is an informal French expression that describes the Snider-type action as being similar to a snuff box.
- Tabatiere rifles were converted/manufactured in France by Tulle, St Etienne, Chatellerault, Manufacture d'Armes de Mutzig (MAN) and others, prior to 1880.
- Tabatiere breech type of action is very similar in appearance to that of the Snider-Enfield conversion system.

Model

- model designation does not appear on the firearm.
- Tabatiere's alteration of percussion lock rifles to breechloading was started in 1867 with approximately 342,000 units being converted by 1870. Tabatiere's conversions were stopped in the mid-1870s.
- almost all Tabatiere rifles had been removed from the French service by 1885.
- features include: round barrel; laterally swinging breech block system; side mounted exposed hammer.
- Infantry & Dragoon rifles had two brass barrel bands and a brass nose cap.
- Carbine version had one brass barrel band and a brass nose cap.

Manufacturer

- the manufacturer's name appears on the lockplate.

Serial Number

- appears on the breechblock and usually has a script letter prefix.

Remarks

- This is a conversion of French model 1853 and 1857 muzzle loading rifles to cartridge breechloader. The conversion entailed cutting off the breech section of the muzzle loader, chambering the barrel for the 17.8 MM cartridge, threading the rifle breech and fitting a 'shoe' with a hinged breechblock which has a centrefire firing pin. The new breech mechanism of the Dragoon Rifle Model is made of bronze. Many of these rifles were later converted to economy shotguns and sold in North America under the name Zulu.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "TABATIERE" is not marked on the firearm.
- this style of firearm was known as Tabatiere, which is an informal French expression that describes the Snider-type action as being similar to a snuff box.
- Tabatiere rifles were converted/manufactured in France by Tulle, St Etienne, Chatellerault, Manufacture d'Armes de Mutzig (MAN) and others, prior to 1880.
- Tabatiere breech type of action is very similar in appearance to that of the Snider-Enfield conversion system.
- Tabatiere breech block opens to the right versus that of the Snider which opens to the left.

Model

- model designation is not marked on firearm.
- this is a "Tabatiere 1867 Carbine or Rifle" that has been converted to a shotgun.
- these firearms have been converted in other countries that include Belgium and France and may bear other national proof marks.
- the "Tabatiere 1867" was the conversion of the French model 1853, 1854 and 1857 muzzle loading long arms to a cartridge breech loader. The conversion entailed cutting off the breech section of the muzzle loader, re-chambering or replacing the barrel, threading the rifle breech and fitting a "shoe" with a hinged breech block that incorporated a centre fire firing pin. The new breech mechanism was made out of brass or iron.
- Tabatiere breech type of action is very similar in appearance to that of the Snider-Enfield conversion system.

Action

- hinged breech block design.

Serial Number

- may not have a serial number.
- serial number may be marked on the barrel or on the breech block assembly.

Other Markings

- one example was marked "MFF" on the barrel at the breech.

22707 - 2	455 REV	6	135	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "TAC" is an acronym for "TROCAOLA ARANZABAL Y CIA".

Model

- model designation is not marked on the firearm.
- introduced in 1915.
- similar to the S&W .44 Double Action Frontier.
- produced for the British Army during World War I with the official British designation of "Pistol OP No 2 MARK 1". References are conflicting as to the meaning of OP. It may be either Old Pattern or Ordnance Pattern.
- features include: fixed sights; round ribbed barrel; front hinged receiver/frame with fluted cylinder and no sideplate; exposed spur hammer; single/double action trigger mechanism; checkered bird's head grip panels; lanyard ring.
- the OP No1 Mk I model is similar in all features with the No2 with the exception of the extension of the butt of the receiver/frame below the smaller, horn or hard rubber, grip panels.

Manufacturer

- "FA. DE TROCAOLA ARANZABAL Y CIA.EIBAR (ESPANA)" is marked on the top strap of the barrel.
- the manufacturer's logo/trademark consisting of a styalized "T" superimposed with an "A" and "C" within an oval shield is marked on the right side of the receiver/frame in front of the grip panel.
- "TAC" acronym stands for "TROCAOLA ARANZABAL Y CIA"
- "Trocaola Aranzabal y Cia (TAC)" was located in Eibar, Spain.
- "Trocaola Aranzabal y Cia (TAC)" manufactured firearms from the early 1900's until circa 1937.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization unknown.
- the serial number will be found marked on the left side of the hand grip under the left grip plate.
- observed specimen serial numbers consisted of a series of digits without prefix or suffix and was repeated on the front face of the cylinder, the inside of the trigger guard and on the underside of the top strap visible only when the cylinder was removed.
- British issue numbers may be found on the firearm.

Calibre

- calibre may be marked on the right side of the receiver/frame.

Other Markings

- early production may have no British military acceptance markings or be marked on the receiver/frame, cylinder and barrel with a crown over a "V" or "BV" and also may be marked with the broad arrow.

Notes

Make

- may be marked on the left side of the receiver/frame as an encircled "TAC" monogram.
- barrel may also be marked, "FA. DE TROCAOLA, ARANZABAL EIBAR" or a variation thereof.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this is a copy of the Smith & Wesson Top Break 38 No 2 Double Action revolver.
- features may include: hammer, or hammerless; blued or nickel plated finish, with the nickel plated being the most common; black plastic grips, (usually with the Trocaola monogram moulded into them).
- top rib of these revolvers may be marked, "Smith & Wesson American Metallic Cartridges are to be used for our model of Revolver" or a variation thereof.
- left side of the receiver/frame is usually marked with the manufacturer's logo, as an encircled "TAC" monogram, similar to the S&W type.

Manufacturer

- "TAC" acronym stands for "TROCAOLA ARANZABAL Y CIA"
- "Trocaola Aranzabal y Cia (TAC)" was located in Eibar, Spain.
- "Trocaola Aranzabal y Cia (TAC)" manufactured firearms from the early 1900's until circa 1937.

Serial Number

- if any, usually found on the butt, or under the grips.

Notes

Make	- "TACTICAL SOLUTIONS BOSSE, ID" is marked on the left side of the receiver/frame/barrel assembly.
Model	- "PAC-LITE" is marked on the left side of the receiver/frame/barrel assembly. - "Pac-Lite" unit is a one-piece, ultra-lightweight (weight ranges from 3.5oz for the 76mm/3" barrel to 10.13oz for the 254mm/10" barrel) receiver/frame/barrel assembly that is intended for use with a Ruger MARK I, MARK II or 22/45 pistol grip, bolt and mainspring housing. The receiver/frame/barrel is machined from 6061-T6 aluminum bar and has a chrome-moly steel barrel liner. - "Pac-Lite" is available in several colours, including black, matte black, gray, olive drab green, matte olive drab green, red, purple and blue with or without barrel flutes and in several barrel lengths. The 102mm barrel is also available threaded at the muzzle for a sound suppressor. - "Pac-Lite" is available with the flutes anodized in the same colour as the whole unit or with the flutes machined after anodizing that results in silver flutes. - "Pac-Lite" is equipped with a Tactical Solutions front sight, adjustable rear sight and a hardened stainless steel ejector. It is also available with a scope mount for use with a variety of optical sights.
Manufacturer	- Tactical Solutions is based in Boise, Idaho, U.S.A. - Tactical Solutions began firearms production in 2002. - Tactical Solutions manufactures and sells Pac-Lite uppers for Ruger model 22/45, and MARK series handguns. - Tactical Solution manufactures and sells X-Ring rifles and receiver/frames. - Tactical Solution also manufactures and sells: 1) X-Ring barrels, X-Ring trigger assemblies, Vantage RS stocks, Edge scope mounts, 10/22 extended magazine release lever, and 10/22 type magazines, 2) Trail-Lite barrels for the Browning Buck Mark pistol, 3) TSAR-300 upper conversion assemblies for AR rifles, 4) AR-22 SB-X, AR-22 M4, and AR-22 LT upper conversion assemblies for AR rifles, 5) TSG-22 conversion units for Glock models 17, 19, 22, and 23 pistols, 6) 2211 conversion units for 1911 pistols, 7) Axiom, Cascade, and Cascade-TI sound suppressors/silencer, and 8) fiber optic sights, 2011 compensators, 2011 single stack magazines, 2011 double stack magazine, AR-22 detachable box magazines, AR-22 drum magazines, and TSG-22 detachable box magazine.
Action	- blowback operated.
Serial Number	- serial number is marked on the right side of the receiver/frame/barrel assembly. - serial number observed consisted of a two letter "TS" prefix, a dash (-), and five numbers.
Calibre	- calibre designation is marked on the left side.
Shots	- detachable box magazine. - when used with a MARK I grip frame the magazine capacity will be nine (9) cartridges. - when used with a MARK II or 22/45 grip frame the capacity will be ten (10) cartridges.
Canadian Law Comments	- although not offered as a complete, assembled firearm, this unit is considered as a handgun receiver/frame and as such is a firearm subject to firearms registration in Canada.

Notes

Make

- "TACTICAL SOLUTIONS" over "BOISE, ID" is marked on the left side of the barrel; while Tactical Solutions' "TS in a swirling chakra" logo is marked on the slide and the grips.

Model

- "TLP-22" is marked on the left rear tang of the receiver/frame, above the serial number.
- introduced in 2018.
- this is a 22 LR semi-automatic pistol manufactured by Tactical Solutions, based on the Browning Buck Mark pistol; Tactical Solutions had previously manufactured accessories and barrels for the Buck Mark family, and then expanded into making their own Buck Mark-compatible receiver/frames.
- features include: generalized Buck Mark layout and operation; various anodized colours available; fluted or non-fluted barrels available; threaded muzzle for muzzle brake or suppressor; open adjustable sights with the rear sight built into an optics-mounting rail; left-side magazine release, safety and slide-stop; dimpled synthetic laminated grips; and machined checkering on the gripstraps.

Manufacturer

- "TACTICAL SOLUTIONS" over "BOISE, ID" is marked on the left side of the barrel; while Tactical Solutions' "TS in a swirling chakra" logo is marked on the slide and the grips.

Action

- blowback operated.

Serial Number

- serial-numbered on the left rear tang of the receiver/frame.

Calibre

- calibre is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- The company logo is marked on the firearm.
- The company logo consists of T and S vertically offset with an oblong wreath around it.
- "TACTICAL SOLUTIONS" is marked on the left side of the receiver/frame.
- "TACTICAL SOLUTIONS" is marked on the left side of the barrel.
- "TacSol" is marked on the left side of the firearm.

Model

- "X-RING TD VR" is marked on the right side of the receiver/frame.
- "VR" denotes that the receiver/frame allows for a charging handle on the left or right side of the receiver/frame. Regardless of charging handle placement, the rifle always ejects spent cases on the right.
- "TD" denotes that this is a takedown version of the X-RING rifle, which allows for the rifle to be separated at the receiver/frame and barrel junction. This is accomplished using a spring loaded latch located under the barrel fore end and a threaded sleeve at the front of the receiver/frame.
- The X-ring Takedown VR is sold as a receiver/frame and/or as a complete rifle.
- Features may include: Threaded muzzle with extended barrel shroud; takedown stock with storage compartments in the cheek weld and pistol grip; barrel takedown lever under fore-end, ahead of the magazine well; stainless steel barrel shank, bolt, and adjustable barrel tightening nut; extended magazine release lever under the trigger guard; cross bolt safety behind trigger guard; available with multiple barrels, finishes, and camouflage patterns.

Firearm Reference Number (FRN): 63964
Make: Taiwanese Service Rifle
Model: Type 57 M14

Summary

Make:	Taiwanese Service Rifle
Model:	Type 57 M14
Manufacturer:	Taiwanese State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	TAIWAN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
63964 - 1	7.62MM NATO	5	559	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- markings on the top rear of the receiver are all in Chinese ideograms, except in some cases you may see the number 57 in arabic numerals.
Model	- marked on the top rear receiver. - this is / was the official service rifle of the Taiwanese defence forces from 1965 onwards until replaced with the M16 as manufactured in Taiwan.
Manufacturer	- the manufacturer's name is marked on the top rear receiver.
Action	- gas operated, magazine fed firearm capeable of full-automatic fire.
Serial Number	- marked on the top rear receiver/frame below name of the manufacturer. - examples seen consisted of six digits without prefix or suffix.
Barrel	- length does not include the attached flash hider/muzzle brake.
Shots	- detachable box magazine.
Other Markings	- markings on the top rear of the receiver are all in Chinese ideograms, except in some cases you may see the number 57 in arabic numerals.
Remarks	- These rifles were manufactured in Taiwan using machinery purchased in the USA that had been previously used by Harrington & Richardson. This machinery became available in 1964 after the US Department of Defence cancelled all further orders of M14 rifles.

119304 - 1	5.56MM NATO	30	508	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- make not marked on firearm.
Model	- this is a Taiwanese-built copy of the Colt M16, with several different features. - gas-operated selective-fire rifle, fibreglass furniture, open adjustable sights. - unlike the M16, these rifles have no "carrying handle"-style rear sight; instead they are fitted with the same style of rear sight as found on the Daewoo K2. - a later adaptation of this design led to the Type 68 rifle, which replaces the direct-gas-impingement design of the M16 with a gas-operated piston that operates in the same manner.
Action	- gas operated.
Serial Number	- serial number is marked on the lower receiver/frame.
Shots	- detachable box magazine.

Firearm Reference Number (FRN): 121788
Make: Taiwanese Service Rifle
Model: Type 65K2 M16

Summary

Make:	Taiwanese Service Rifle
Model:	Type 65K2 M16
Manufacturer:	Taiwanese State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	TAIWAN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121788 - 1	5.56MM NATO	30	508	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make designation is not marked on the firearm.

Model

- the model designation may be marked on the left side of the receiver/frame as "T65K2", or alternately, the firearm may only be marked as "RIFLE, 5.56 MM".
- features include: green plastic pistol grip, butt stock and two piece ribbed forend; post front sight adjustable for elevation and rear aperture sight adjustable for elevation and windage; optical sight mounting bracket integral to the carrying handle; black anodized aluminum upper and lower receiver/frames; flip-up front luminous night sight; fire selector switch with safe, semi-automatic and three shot burst settings; bayonet lug on the front sight unit; flip open bolt dirt/dust cover.
- this rifle externally resembles the M16A2 series of rifles, though its function differs in using a gas-piston system that acts directly upon the bolt carrier rather than the ljungman type direct gas system utilized in the Colt designed M16 series.
- this firearm differs from other Taiwanese Service Rifle models in having a full carrying handle in the M16 style rather than a raised rear sight mount only as found on the models Type 65 and Type 68.

Manufacturer

- the manufacturer's designation is not marked on the firearm.

Action

- gas-operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- observed serial number sequences have consisted of six numbers without letter prefix or suffix.

Calibre

- the calibre designation is marked on the left side of the receiver/frame as "5.56 MM".

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks - this rifle was manufactured in Taiwan and was adopted by Paraguay for military service in the 1980's.

FRT Report

Firearm Reference Number (FRN): 119228
Make: Talon
Model: Derringer

Summary

Make:	Talon
Model:	Derringer
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119228 - 3	22 PERCUSSION	1	60	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	
119228 - 2	25 PERCUSSION	1	60	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- the make designation is marked on the left side of the receiver/frame above the trigger in an inset area as "TALON, WATERBURY,CT."

Model

- no model designation is marked on the firearm.
- this firearm has been observed as a percussion handgun where the barrel swings out to the side of the receiver frame for the placing of a percussion cap on the nipple. There is otherwise no indication of the method of loading or operation that is readily discernible from a visual exterior inspection.
- features include: a nickel plated finish on all metal surfaces; removable two piece birdshead grip panels; side-swing barrel for access to the percussion nipple; under barrel mounted rod; spur trigger; round blade foresight and an enameled medallion of two crossed American flags, one from 1776 and one from 1976, with an inset shield reading "'76" mounted on the right side of the receiver/frame. This would appear to be a reference to the bicentennial year of the United States of America, much in the same vein of the centennial commemorative derringer made by Hyde and Shattuck in 1876, to which this model bears a superficial resemblance.

Action

- swing out barrel for percussion priming, muzzleloader.

Serial Number

- the serial number has been found stamped on the bottom right side of the receiver/frame beneath the grip panels and has consisted of a five digit series with neither letter prefix nor suffix.

Calibre

- the calibre designation is not marked on the firearm.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
26493 - 1	22 LR	6	121	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
26493 - 2	22 LR/22 MAG	6	121	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
26493 - 3	22 MAG	6	121	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EXCAM INC. HIALEAH FLA" is usually marked on the firearm.
- "Tanarmi" is usually not marked on the firearm.
- "TA" in the model designation is the identifier for "Tanarmi" and "Tanfoglio".
- "Tanarmi" was a trade name used on handguns imported and distributed by Excam, Inc. of Hialeah, Florida and manufactured by "Tanfoglio" of Brescia, Italy.
- Excam ceased operations in late 1990.

Model

- "MOD. TA76" is normally marked on the left side of the barrel.
- this is a western style single action revolver.
- features include: blued or chromed receiver/frame and barrel; spurred hammer and on the left side of the hammer is a manual hammer-block safety; loading gate and ejector rod are located on the right side of the receiver/frame and barrel; fixed blade front sight with a fixed rear sight; walnut or nylon grip panels with a thumb rest.

Manufacturer

- the manufacturer is normally marked on the left side of the barrel as, "ARMI F.LLI TANFOGLIO GARDONE V.T.ITALY"
- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".

Serial Number

- the serial number is marked on the receiver/frame in front of the trigger guard as one alpha character followed by five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre is normally marked on the left side of the barrel as "CAL..22L.R.". - the caliber may also be stamped on the cylinder. - an extra cylinder in 22 MAG is available from the factory.
Importer	- the importer is normally marked on the left side of the receiver/frame as, "EXCAM INC. HIALEAH, FLA.". - the importer warning is normally marked on the right side of the barrel as, "DO NOT USE GUN UNTIL YOU READ THE INSTRUCTIONS" over "MANUAL AVAILABLE FROM:EXCAM-HIALEAH-FLA. 330313".

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "ARMI FLLI TANFOGLIO GARDONE V.T. ITALY" is marked on barrel.
Model	- the model designation is marked on the barrel. - this is most likely a model TA766 that had the first number incorrectly chosen when stamped. - features include: single action; brass or steel grip and lower receiver/frame; wood handgrips; optional fully adjustable rear sights; loading gate on right side of firearm; hammer/frame safety present.
Manufacturer	- "ARMI FLLI TANFOGLIO GARDONE V.T. ITALY" is marked on barrel.
Action	- side-gate loading.
Serial Number	- serial number is located on the bottom of the receiver/frame, in front of the trigger guard. - observed serial number consisted of a letter prefix followed by five numbers. - "CAT. 884" is marked on the side of the receiver/frame. - "884" is not the serial number, this is an Italian Proof House catalogue number.
Calibre	- calibre designation is marked on the cylinder and the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	-"TANFOGLIO" is moulded into the left rear of the polymer butt. - "FT - MADE IN ITALY" is also moulded into the left rear of the butt. - "FT" is the abbreviation for "Fratelli Tanfoglio".
Model	- "APPEAL" over "FT - MADE IN ITALY" is moulded into the left rear of the polymer butt. - introduced in 2011. - features include: polymer stock; rail for scope; manual safety on trigger; automatic safety on firing pin; adjustable ramped front and rear sights; ambidestrous cocking lever and ejector port. - total length is 670 mm (26 3/8"), and the average weight 2.17 kgs.
Manufacturer	-"TANFOGLIO" is moulded into the left rear of the polymer butt. - "FT - MADE IN ITALY" is also moulded into the left rear of the butt. - "FT" is the abbreviation for "Fratelli Tanfoglio".
Action	- blowback operated.
Serial Number	- serial number and the Italian Catalog Number "C.18551" are both marked on a metal plate inset into the polymer stock, which on this firearm is a component of the receiver/frame. - serial number observed consisted of a two letter prefix and five numbers. - serial number of a referenced example consisted of a three letter prefix and five numbers.
Shots	- detachable box magazine.
Canadian Law Comments	- the Tanfoglio Appeal Rifle is a bull-pup design firearm and does not incorporate a bull-pup stock ("prohibited device") in its parts make-up.
Remarks	- the Tanfoglio Appeal rifle does not have a conventional receiver/frame that supports the bolt when the stock is removed. The bottom portion of the stock supports two bolt guide rods at the rear and at the barrel support. The firearm's stock is a receiver/frame component.

Notes

Make

- "TANFOGLIO" in a rectangle is marked on the left side of the receiver/frame above the trigger.

Model

- model designation is marked in script on the left side of slide as "Buzz".
- features include: receiver/frame features a full length dust cover (up to the front of the slide) and is drilled and tapped on the left side for a scope mount; receiver/frame mounted slide release and safety catch; ported barrel (six or eight ports) that vents through holes in the top of the slide; no sights installed (meant for use with an optical or "dot' type sight) extended beavertail receiver tang; squared trigger guard; skeletonized hammer.
- overall length with a 113mm barrel is 214mm, average weight is 1160g.
- an earlier version, known simply as the "Buzz" model was available with a shorter dust cover, rounded trigger guard, no holes for the scope mount and three ports on the barrel.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT - MADE IN ITALY" marked on the left side of the receiver/frame.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".

Action

- modified Browning type recoil-operated firearm.

Serial Number

- serial number rationalization unknown.

Calibre

- the calibre designation is marked on the right side of the barrel, visible through the ejection port.

Shots

- detachable box magazine housed in the grip.

Notes

Make
- the firearm is marked on the left side of the frame: "TANFOGLIO" within a rectangle, and above the left grip:"FT-MADE IN ITALY".

Model
- this firearm is a shortened, smaller version of the Combat: it is a single-action / double-action, semi-auto pistol based on the CZ-75 design.
- it is equipped with a frame-mounted slide release and safety, and fixed three-dot sights on the slide.
- it has an extended-beavertail receiver tang, and a rounded hammer.
- this firearm is available in blued, chrome, or "duo-tone" finishes.

Manufacturer
- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Action
- recoil-operated firearm.

Serial Number
- unknown serial number rationalization.

Shots
- detachable box magazine.

Remarks
- the firearm is marked on the left side of the frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY
- this firearm is a shortened, smaller version of the Combat: it is a single-action / double-action, semi-auto pistol based on the CZ-75 design.

Notes

Make

- the firearm is marked on the left side of the frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY

Model

- this firearm is a single-action / double-action semi-auto pistol based on the CZ-75 design.
- model designation may be marked on the firearm.
- features include: fixed sights; finger grooves located at the rear of the slide; frame-mounted safety; skeletonized hammer with a rounded spur; slide release located on the left side of the receiver/frame; double action trigger mechanism; reversible magazine release is located at the back of the trigger guard; beavertail rear tang; blued or nickeled finish and rubber grip panels.
- overall length with a 113mm barrel is 210mm, average weight is 1150g.
- also available with a slide-mounted decocker as the "Combat R".

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Action

- modified Browning recoil-operated mechanism.

Serial Number

- serial number rationalization unknown.

Shots

- detachable box magazine.

Remarks

- the firearm is marked on the left side of the frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY
- this firearm is a single-action / double-action semi-auto pistol based on the CZ-75 design.
- this firearm also features dovetailed three-dot sights, and an extended beavertail receiver tang.
- this firearm is available in stainless steel, blued, chromed, or "duo-tone" finish.

Notes

Make

- "TANFOGLIO" in a rectangle is marked on the left side of the receiver/frame above the trigger and on the grip panels.

Model

- features include: fixed sights; finger grooves located at the rear of the slide; ambidextrous, slide mounted safety/decocker; skeletonized hammer with a rounded spur; slide release located on the left side of the receiver/frame; double action trigger mechanism; reversible magazine release is located at the back of the trigger guard; beavertail rear tang; blued or nickeled finish and rubber grip panels.
- overall length with a 113mm barrel is 210mm, average weight is 1150g.
- similar to the model "Combat" which features a receiver/frame mounted manual thumb safety and the "Combat Sport" which features the receiver/frame mounted manual safety and an adjustable rear sight.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT - MADE IN ITALY" marked on the left side of the receiver/frame, grip panels also bear "TANFOGLIO" markings.

Action

- recoil operated.

Serial Number

- serial number was observed marked on the right side of the receiver/frame.
- observed serial number consisted of a letter "V" prefix and five numbers.

Calibre

- the calibre designation is marked on the right side of the barrel, visible through the ejection port.

Shots

- detachable box magazine housed in the grip.

Notes

Make

- "TANFOGLIO" is marked on the barrel.

Model

- "E15 Buffalo Scout" is not marked on the firearm.
- "MOD. E 15" is marked on the barrel.
- Buffalo's profile inside an oval is molded into the top right grip plate.
- "Buffalo Scout" is not marked on the firearm, "Buffalo Scout Single Action Revolver" is a description used in company advertising.
- the "Buffalo Scout" was available in at least four variations:
  - E15B has blue finish,
  - E15MB has blue finish and convertable cylinder in 22 MAG,
  - E15C has chrome finish,
  - E15CM has chrome finish and convertable cylinder in 22 MAG.
- features include: fixed sights; round barrel with ejector rod assembly; solid top receiver/frame with removable fluted cylinder, right side loading gate and left side manual safety; exposed spurred hammer; single action trigger mechanism; checkered grip plates; blued or chrome plated finish.
- Italian proof marks are apparent on the receiver/frame, barrel and cylinder of this firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacture's name is marked on the left side of the barrel.
Serial Number	- serial number is marked on the underside of the receiver/frame in front of the trigger guard. - observed serial number consisted of five numbers without a letter prefix or suffix.
Calibre	- convertable cylinder available.
Importer	- other importer markings may exist.

Model: EA380

Summary

Make:	Tanfoglio
Model:	EA380
Manufacturer:	Tanfoglio, Fratelli
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
117813 - 1	380 AUTO	7	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
117813 - 2	9MM BROWNING SHORT	7	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Tanfoglio name was not marked on the samples examined. The only Tanfoglio identifier was the "FT-MADE IN ITALY" marking.
- the model "EA380" is referenced in European American Armory (EAA) literature as the "European" model and as being "the smallest member in the Tanfoglio pistol line".

Model

- "MOD.EA 380" is marked on the left side of the slide.
- features include: blued, matte hard chromed or two-tone finish; fixed barrel; fixed sights; heel type magazine release; magazine safety; single action trigger mechanism; exposed hammer; receiver/frame mounted safety lever above the trigger on the left side and a slide mounted decocking lever on the left side; ivory polymer (with or without laser engraving), wood or black synthetic grips.

Manufacturer

- the Tanfoglio name was not marked on the samples examined. The only Tanfoglio identifier was the "FT-MADE IN ITALY" marking.

Action

- blowback operated.

Serial Number

- serial number is marked on the receiver/frame (samples have been noted in different locations).
- observed serial number had a two letter prefix of "AE" followed by five digits.
- "CAT. 6665" may be marked on the right side of the receiver/frame.
- "6665" is not the serial number, this is an Italian Proof House catalogue number.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- founded in 1990, European American Armory (EAA) is an importer/distributor located in Florida, U.S.A.
- EAA imports firearms from a variety of manufacturer's under the EAA trade name as well as the original manufacturer's brand name.
- EAA markings are usually found on the slide and/or receiver/frame.

Other Markings

- in accordance with Italian law all firearms made in or imported into Italy must undergo proof testing. As such these firearms will bear Italian proof marks and in the case of firearms with rifled barrels be marked with a catalogue number as assigned by the Italian National Proof House (each individual calibre, shot, barrel length combination for a given model is assigned a unique number, in this case one known number is 6665).

123783 - 2	9MM FAR	16	113	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TANFOGLIO" in a rectangle is sometimes marked on the left side of the receiver/frame above the trigger and on the bottom of the grip panels.

Model

- the "FAR" logo (denotes Fast Accurate Reliable) is marked at the front left side of the slide.
- this is a model "Combat" which has been adapted for use with FAR ammunition. The FAR System consists of pistols chambered in new calibres such as, the 9MM FAR and the 10MM FAR. These calibres feature a thicker brass case compared to regular 9MM and 10MM ammunition and allow the use of fixed barrels. These calibres feature a thicker brass case compared to regular 9MM and 10MM ammunition and allows the use of fixed barrels. This firearm has been re-engineered to work as a direct blowback, rather than the short recoil system seen in most other semi-automatic handguns; the ammunition it requires has an extended internal head and web to contain pressures until the bullet has left the barrel. This has been done for two main reasons; one, it allows the axis of the bore to sit lower in a shooter's hand (thereby reducing felt recoil), and two, it decreases the mechanical cycling time required between shots.
- features include: fixed sights; finger grooves located at the rear of the slide; exposed skeletonized hammer with a rounded spur; a slide release and a manual thumb safety are located on the left side of the receiver/frame; double action trigger mechanism; magazine release is located at the back of the trigger guard; beavertail rear tang; detachable box magazine; blued finish and rubber grip panels.
- overall length with a 113,5mm barrel is 211mm, average weight is 1184g.
- similar to the model "FAR Force 2002" which features a synthetic/polymer receiver/frame.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT - MADE IN ITALY", usually marked on the left side of the receiver/frame.

Action

- blowback operated.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the right side of the barrel, visible through the ejection port.
Shots	- detachable box magazine housed in the grip.

FRT Report

Firearm Reference Number (FRN): 123782
Make: Tanfoglio
Model: FAR Force 2000

Summary

Make:	Tanfoglio
Model:	FAR Force 2000
Manufacturer:	Tanfoglio, Fratelli
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
123782 - 1	9MM FAR	10	93	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	
123782 - 2	9MM FAR	13	93	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TANFOGLIO" in a rectangle may be marked on the firearm.

Model

- the model designation "FAR FORCE 2000" may be marked on the firearm.
- "FORCE 99 C" is marked at the bottom of the grip.
- "FAR's" logo, a circle with the letters FAR is marked at the front left side of the slide.
- this is a model "Force 99 F Compact" which has been adapted for the FAR System. The FAR System (Fast Accurate Reliable) consists of pistols chambered in new calibres such as, the 9MM FAR and the 10MM FAR. These calibres feature a thicker brass case compared to regular 9MM and 10MM ammunition and allows the use of fixed barrels.
- features include: fixed sights; finger grooves are located at the rear of the blued slide; exposed skeletonized hammer with a rounded spur; beavertail rear tang; a slide release and a manual thumb safety are located on the left side of the receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; polymer/synthetic receiver/frame; checkered front and back strap.
- overall length with a 93mm barrel is 195mm, average weight is 750g.
- similar to the model "FAR 2002" which features a steel receiver/frame.

Manufacturer

- the manufacturer's name "TANFOGLIO" or "FT - MADE IN ITALY" is marked on the firearm.

Action

- blowback operated.

Serial Number

- located on a metal insert on the left side of the receiver/frame above the grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the right side of the barrel at the slide ejection port, eg. "CAL. 9MM FAR".
Shots	- detachable box magazine.
Other Markings	- the "FAR" calibre logo is marked in red within a circle on the left side of the slide at the muzzle.

123785 - 1	9MM FAR	10	113	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	
123785 - 2	9MM FAR	16	113	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TANFOGLIO" in a rectangle is usually marked on the left side of the receiver/frame and on the bottom of the grip panels.

Model

- this is a model "Force F" which has been adapted for the FAR System, as such "FORCE" is marked at the bottom of the grip area. The FAR System (Fast Accurate Reliable) consists of pistols chambered in new calibres such as, the 9MM FAR and the 10MM FAR. This ammunition feature a thicker brass case compared to regular 9MM and 10MM ammunition and allows the use of fixed barrels. This firearm has been re-engineered to work as a direct blowback, rather than the short recoil system seen in most other semi-automatic handguns; the ammunition it requires has an extended internal head and web to contain pressures until the bullet has left the barrel. This has been done for two main reasons; one, it allows the axis of the bore to sit lower in a shooter's hand (thereby reducing felt recoil), and two, it decreases the mechanical cycling time required between shots.
- the "FAR" logo, a circle with the letters FAR is marked at the front left side of the slide.
- features include: fixed sights; grasping grooves at the rear of the slide; skeletonized hammer with a rounded spur; beavertail rear tang; a slide release and a manual thumb safety are located on the left side of the black polymer/synthetic receiver/frame; double action trigger mechanism; magazine release is located at the back of the trigger guard; checkered grip including front and back strap.
- overall length with a 113mm barrel is 210mm, average weight is 850g.
- similar to the model "FAR 2000" which features a steel receiver/frame.

Manufacturer

- the manufacturer's name "TANFOGLIO" or "FT - MADE IN ITALY" is marked on the firearm.

Action

- blowback operated.

Serial Number

- the serial number is marked on a steel plate moulded into the left side of the receiver/frame above the grip panel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the right side of the barrel, visible through the ejection port.
Shots	- detachable box magazine housed in the grip.

Notes

Make

- "TANFOGLIO" in a rectangle is marked on the left side of the receiver/frame above the trigger.

Model

- the model designation may be marked on the firearm as "LIMITED 2000"or "LIMITED", further the "FAR" (logo may or may not be marked on the slide depending on year of manufacture.
- this is the Tanfoglio model "Limited Custom" which has been adapted for the FAR System. The FAR System (Fast Accurate Reliable) consists of pistols chambered in new calibre's such as the 9MM FAR and the 10MM FAR. These calibre's feature a thicker brass case compared to regular 9MM and 10MM ammunition and allows the use of fixed barrels. This firearm has been re-engineered to work as a direct blowback, rather than the short recoil system seen in most other semi-automatic handguns; the ammunition it requires has an extended internal head and web to contain pressures until the bullet has left the barrel. This has been done for two main reasons; one, it allows the axis of the bore to sit lower in a shooter's hand (thereby reducing felt recoil), and two, it decreases the mechanical cycling time required between shots.

- features include: stainless steel slide with front and rear finger grooves; adjustable rear sight and fixed front sight; stainless steel receiver/frame with a full length dust cover (up to the front of the slide) and an extended beavertail rear tang; both sides of the receiver/frame are drilled and tapped for the installation of an optical mount; skeletonized exposed hammer; a slide release and a manual thumb safety are located on the left side of the receiver/frame above the trigger; adjustable trigger mechanism; a magazine release is located behind the square shape trigger guard; checkered walnut grip panels; checkered front and back strap; aluminium grip panels; enlarged magazine well; detachable box magazine with an aluminium pad.
- overall length with a 125mm barrel is 225mm, average weight is 1162g.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT - MADE IN ITALY" marked on the left side of the receiver/frame.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- numbered on the right side of the receiver/frame.
Shots	- detachable box magazine housed in the grip.

Notes

Make

- the firearm markings are found on the right side of the receiver/frame and slide.

Model

- the model designation may not be marked on the firearm; Tanfoglio makes a number of similarly-styled polymer-framed pistols, and care must be taken not to confuse them. The "Force" and "Force 99" models are NOT identical, and pistols with an "R" model suffix are equipped with a slide-mounted safety/decocker.
- the "Force" series of pistols are an earlier version of the "Force 99", and can be distinguished from the Force 99 by the presence of external strengthening ribs off of the locking-block protrusion; the Force 99 series has no such ribs.
- features include: black polymer grip and receiver/frame; blue/black or chromed slide finish; selective double action mechanism; skeletonized hammer; extended-tang beavertail; checkered front and back straps and open sights or optional adjustable rear sight.
- Tanfoglio also makes this pistol available with a receiver/frame in various colours, such as white, gray, green, pink, blue, etc.
- also available in a shorter-barrel version as the "Force Compact, with a 93mm barrel.
- introduced in 1997.
- overall length with a 113mm barrel is 210mm, average weight is 850g.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Action

- recoil operated.

Serial Number

- serial numbered on a metallic insert in the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the slide e.g.: "921".

Shots

- detachable box magazine.

Notes

Make

- "TANFOGLIO" or "FT - MADE IN ITALY" may be marked on the firearm.

Model

- the model designation "FORCE" followed by the calibre, followed by the letter "F" may be marked on the left side of the slide eg. "FORCE 40 F".
- "FORCE 99" is marked on the left side of the receiver/frame at the bottom of the grip.
- features include: fixed sights; finger grooves are located at the rear of the blued slide; flat or round sided slide; exposed skeletonized hammer with a rounded spur; beavertail rear upper tang; a slide release and manual thumb safety are located on the left side of the black polymer/synthetic receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; detachable box magazine; checkered grip including front and back strap.
- overall length with a 113mm barrel is 210mm, average weight is 850g.
- similar to the model "Force 99 R" which features an ambidextrous slide mounted safety/decocker.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name "TANFOGLIO" or "FT - MADE IN ITALY" may be marked on the firearm.
Action	- recoil operated.
Serial Number	- the serial number is marked on a steel plate insert which is located on the left side of the receiver/frame above the grip.
Calibre	- the calibre designation is marked on the right side of the slide and on the right side of the barrel over the chamber area.
Shots	- detachable box magazine.

Notes

Model

- this model was originally produced with a traditional "square" of flat profile slide until 2004. As of 2005 this model features a "rounded" profile slide
- prior to 2004 the model designation was usually marked as "FORCE" followed by the calibre, followed by the letter "R" on the left side of the slide e.g.: "FORCE 40 R".
- "FORCE 99" is marked on the left side of the receiver/frame at the bottom of the grip.
- features include: fixed sights; grasping grooves are located at the rear of the slide; ambidextrous safety/decocking lever is mounted on the rear of the slide; exposed hammer with a rounded spur; beavertail rear upper tang; a slide release is located on the left side of the black polymer receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; checkered grip including front and back strap.
- overall length with a 113mm barrel is 210mm, average weight is 850g.
- similar to the model "Force 99 F" which features a manual thumb safety located on the left side of the receiver/frame above the grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer's markings include "TANFOGLIO" and/or "FT - MADE IN ITALY".
Action	- recoil operated.
Serial Number	- the serial number is marked on a metal insert which is moulded into the left side of the receiver/frame above the grip.
Calibre	- the calibre designation is marked on the right side of the slide and on the right side of the barrel's chamber area.
Shots	- detachable box magazine housed in the grip.

Notes

Model	- this model is built on the "FORCE 99" platform and is so marked on the lower portion of the grip. The "Carry" in the designation denotes the shortened barrel and slide and the "R" denotes the slide mounted safety/decocking lever. - features include: fixed sights; grasping grooves are located at the rear of the slide; ambidextrous slide mounted safety/decocker; skeletonized hammer with a rounded spur; beavertail rear tang; a slide release is located on the left side of the receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; polymer receiver/frame; checkered front and back strap. - overall length with a 93mm barrel is 195mm, average weight is 750g. - similar to the model "Force 99 F Carry" which features a manual thumb safety mounted on the receiver/frame. - similar to the models "Force F Carry" and "Force R Carry" which are chambered in the calibre's 10MM AUTO, 38 SUPER AUTO and 45 AUTO.
Manufacturer	- manufacturer's markings include "TANFOGLIO" and/or "FT - MADE IN ITALY".
Action	- recoil operated.
Serial Number	- the serial number is marked on a steel insert moulded into the left side of the receiver/frame above the grip.
Calibre	- the calibre designation is marked on the right side of the barrel, visible through the ejection port.
Shots	- detachable box magazine housed in the grip.

Notes

Make

- the make is marked on the firearm.

Model

- the model designation may not be marked on the firearm; Tanfoglio makes a number of similarly-styled polymer-framed pistols, and care must be taken not to confuse them. The "Force" and "Force 99" models are NOT identical, and pistols with an "R" model suffix are equipped with a slide-mounted safety/decocker.
- the "Force" series of pistols are an earlier version of the "Force 99", and can be distinguished from the Force 99 by the presence of external strengthening ribs off of the locking-block protrusion; the Force 99 series has no such ribs.
- features include: black polymer grip and receiver/frame; blue/black or chromed slide finish; selective double action mechanism; skeletonized hammer; extended-tang beavertail; checkered front and back straps and open sights or optional adjustable rear sight.
- Tanfoglio also makes this pistol with a receiver/frame available in various colours, such as white, gray, green, pink, blue, etc.
- also available in a full-size version with a 113mm barrel as the "Force".
- overall length with a 93mm barrel is 190mm, average weight is 750g.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Action

- modified Browning type recoil-operated firearm.

Serial Number

- numbered on frame insert in left side of receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- The company logo is marked on the firearm.
- The company's logo consists of the letters "F" and "T" with the make "Tanfoglio" marked under it inside of a circle.

Model

- Introduced in 2019.
- "FORCE ESSE" is marked on the top of the slide.
- "FORCE PLUS" is marked on the right side of the firearm.
- Features include: black polymer receiver/frame; front and rear slide serrations; manual thumb safety on the right side of the receiver/frame; magazine release button on the left side of the receiver/frame; slide catch on the left side of the receiver/frame.

Manufacturer

- The company logo is marked on the firearm.
- The company's logo consists of the letters "F" and "T" with the make "Tanfoglio" marked under it inside of a circle.

Serial Number

- The serial number is marked on a metal insert on the underside of the receiver/frame.
- The serial number is repeated on other parts and components.

Calibre

- The calibre designation is marked on the barrel, visible through the ejection port.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - Detachable box magazine housed in the grip.

Notes

Make

- "TANFOGLIO" and "FT - MADE IN ITALY" are marked on the right side of the receiver/frame.

Model

- the model designation "FORCE" followed by the calibre and the letter "F" may be marked on the left side of the slide eg. "FORCE 45 F".
- features include: fixed sights; finger grooves are located at the rear of the blued slide; flat or round sided slide; exposed skeletonized hammer with a rounded spur; beavertail rear upper tang; a slide release and a manual thumb safety are located on the left side of the black polymer/synthetic receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; checkered grips and front and back straps.
- overall length with a 113mm barrel is 210mm, average weight is 850g.
- similar to the model "Force R" which features an ambidextrous safety/decocker lever located at the rear of the slide.
- similar to the model "Force 99 F" which is chambered in 40 S&W, 9MM LUGER and 9X21 IMI.

Manufacturer

- the manufacturer's name "TANFOGLIO" and "FT - MADE IN ITALY" are marked on the right side of the receiver/frame.

Action

- recoil operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame above the grip.

Calibre

- the calibre designation is marked on the right side of the slide and on the right side of the barrel over the chamber.

Shots

- detachable box magazine.

Notes

Make

- "TANFOGLIO" is marked on the firearm.

Model

- the model designation "FORCE" followed by the calibre, followed by "CARRY F" may be marked on the firearm and "FORCE 99" is marked at the bottom of the grip.
- features include: fixed sights; finger grooves are located at the rear of the blued slide; exposed skeletonized hammer with a rounded spur; beavertail rear tang; a slide release and a manual thumb safety are located on the left side of the receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; polymer/synthetic receiver/frame; checkered front and back strap.
- overall length with a 93mm barrel is 195mm, average weight is 750g.
- similar to the model "Force R Carry" which features an ambidextrous slide mounted safety/decocker.
- similar to the models "Force 99 F Carry" and "Force 99 R Carry" which are chambered in the calibres 40 S&W, 9MM LUGER and 9X21 IMI.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name "TANFOGLIO" and "FT - MADE IN ITALY" are marked on the firearm.
Action	- recoil operated.
Serial Number	- the serial number is marked on a steel insert located on the left side of the receiver/frame above the grip.
Calibre	- the calibre designation is marked on the right side of the barrel at the chamber.
Shots	- detachable box magazine.

Notes

Make

- "TANFOGLIO" or "FT - MADE IN ITALY" may be marked on the firearm.

Model

- the model designation is usually marked on the left side of the slide, samples have been noted with the calibre included within the marking, example "FORCE 921 L".
- as this model is built on the Tanfoglio "FORCE 99" platform it is also marked "FORCE 99" on the bottom of the grip.
- features include: adjustable rear sight and fixed front sight; grasping grooves are located at front and at the rear of the blued steel slide; exposed hammer; a slide release and a thumb safety are located on the left side of the black polymer receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard.
- overall length with a 121mm barrel is 220mm, average weight is 892g.
- similar to the model "L" which features a steel receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer markings include "TANFOGLIO" and "FT - MADE IN ITALY".
Action	- recoil operated.
Serial Number	- the serial number is marked on a steel plate moulded into the left side of the receiver/frame.
Calibre	- the calibre designation is marked on the right side of the barrel, visible through the ejection port. - the calibre may also be part of the model markings, e.g. "FORCE 921 L".
Shots	- detachable box magazine housed in the grip.

Notes

Make

- "TANFOGLIO" or "FT - MADE IN ITALY" may be marked on the firearm.

Model

- the model designation "FORCE POLICE F" may be marked on the firearm.
- "FORCE 99" is marked on the left side of the receiver/frame at the bottom of the grip.
- features include: fixed sights; finger grooves are located at the rear of the blued slide; round sided slide; exposed skeletonized hammer with a rounded spur; beavertail rear upper tang; a slide release and a manual safety are located on the left side of the black polymer/synthetic receiver/frame; a picatinny rail for mounting an optical sight is located on the underside of the receiver/frame in front of the trigger guard; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; checkered grip including front and back strap.
- overall length with a 93mm barrel is 195mm, average weight is 775g.
- similar to the model "Force Police R" which features an ambidextrous slide mounted safety/decocker.

Manufacturer

- the manufacturer's name "TANFOGLIO" or "FT - MADE IN ITALY" may be marked on the firearm.

Action

- recoil operated.

Serial Number

- the serial number is marked on a steel plate insert which is located on the left side of the receiver/frame above the grip.

Calibre

- the calibre designation is marked on the right side of the slide and on the right side of the barrel over the chamber area.

Shots

- detachable box magazine.

Notes

Model

- this model is built on the "FORCE 99" and is so marked on the left side of the receiver/frame at the bottom of the grip.
- features include: fixed sights; grasping grooves on the rear of the slide; rounded slide profile; ambidextrous, receiver/frame mounted safety; polygonal rifling; exposed hammer with a rounded spur; beavertail rear upper tang; a slide release is located on the left side of the black polymer/synthetic receiver/frame; a picatinny rail for mounting an optical sight is located on the underside of the receiver/frame ahead of the trigger guard; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; checkered grip including front and back strap.
- overall length with a 93mm barrel is 195mm, average weight is 775g.

Manufacturer

- manufacturer's markings include "TANFOGLIO" and/or "FT - MADE IN ITALY".

Action

- recoil operated.

Serial Number

- the serial number is marked on a steel plate which is moulded into the left side of the receiver/frame above the grip.
- serial numbers of observed examples have consisted of a two letter prefix (AB) and five numbers.

Calibre

- the calibre designation is marked on the right side of the slide and on the right side of the barrel's chamber area.

Shots

- detachable box magazine housed in the grip.

Notes

Make

- "TANFOGLIO" and "FT - MADE IN ITALY" are marked on the right side of the receiver/frame.

Model

- the model designation "FORCE" followed by the calibre, followed by the letter "R" may be marked on the left side of the slide eg. "FORCE 45 R".
- features include: fixed sights; finger grooves are located at the rear of the blued slide; flat or round sided slide; an ambidextrous safety/decocker lever is located at the rear of the slide; exposed skeletonized hammer with a rounded spur; beavertail rear upper tang; a slide release is located on the left side of the black polymer/synthetic receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; checkered grip including front and back strap.
- overall length with a 113mm barrel is 210mm, average weight is 850g.
- similar to the model "Force F" which features a manual thumb safety located on the left side of the receiver/frame above the grip.
- similar to the model "Force 99 R" which is chambered in 40 S&W, 9MM LUGER and 9X21 IMI.

Manufacturer

- the manufacturer's name "TANFOGLIO" and "FT - MADE IN ITALY" are marked on the right side of the receiver/frame.

Action

- recoil operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame above the grip.

Calibre

- the calibre designation is marked on the right side of the slide and on the right side of the barrel at the chamber.

Shots

- detachable box magazine.

Notes

Make

- "TANFOGLIO" or "FT - MADE IN ITALY" may be marked on the firearm.

Model

- the model designation "FORCE COMPACT R" may be marked on the firearm and "FORCE 99" is marked at the bottom of the grip.
- this version is similar to the model "Force R" but uses a receiver/frame with a shorter grip.
- features include: fixed sights; finger grooves are located at the rear of the blued slide; ambidextrous safety/decocker lever located at the rear of the slide; exposed skeletonized hammer with a rounded spur; beavertail rear upper tang; a slide release is located on the left side of the black polymer/synthetic receiver/frame; double action trigger mechanism; a reversible magazine release is located at the back of the trigger guard; detachable box magazine; checkered grip including front and back strap.
- overall length with a 93mm barrel is 195mm, average weight is 750g.
- similar to the model "Force F Compact" which features a manual thumb safety located on the left side of the receiver/frame above the grip.
- similar to the model "Force 99 R Compact" which is chambered in 40 S&W, 9MM LUGER and 9X21 IMI.

Manufacturer

- the manufacturer's name "TANFOGLIO" or "FT - MADE IN ITALY" may be marked on the firearm.

Action

- recoil operated.

Serial Number

- the serial number is marked on a steel plate insert which is located on the left side of the receiver/frame above the grip.

Calibre

- the calibre designation is marked on the right side of the slide and on the right side of the barrel's chamber area.

Shots

- detachable box magazine.

Notes

Make

- the firearm is marked on the left side of the receiver/frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY

Model

- this firearm is marked on left side of slide: Gold Custom
- this frearm is a full-featured competition pistol ("racegun") built specifically for IPSC Open Class ; it is based on the basic CZ-75 design.
- it features a long slide, hard-chromed finish, polygonal rifling, triple-chamber compensator, single-action-only trigger, squared and checkered trigger guard, checkered front and back gripstraps.
- this model also has an extended beaver-tail receiver tang, enlarged magazine well, skeletonized hammer, fully-adjustable rearsight and compensator-mounted frontsight, checkered walnut grip panels, and a drilled and tapped frame for attaching a scope mount.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Type

- this is a full-featured competition pistol ("racegun") built specifically for IPSC Open Class.

Action

- recoil-operated firearm.

Serial Number

- located on the right side of the receiver/frame, above trigger guard.
- unknown serial number rationalization.

Shots

- detachable box magazine.

Remarks

- this firearm is marked on left side of slide: Gold Custom
- this firearm is a full-featured competition pistol ("racegun") built specifically for IPSC Open Class ; it is based on the basic CZ-75 design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "TANFOGLIO" was observed marked on the left side of the receiver/frame within a rectangle.
Model	- "GOLD CUSTOM" and "ERIC 2010" may be marked on the left side of the slide. - "Eric" in the model designation is in reference to Eric Grauffel, the 2007 World I.P.S.C. (International Practical Shooting Confederation) Champion. - this firearm is a competition pistol ("racegun") primarily designed for the I.P.S.C. Open Class competitions. - features observed: stainless steel ported slide with front and rear grasping grooves; stainless steel receiver/frame with a full length dust cover (up to the front of the slide) and an extended beaver tail tang; ported barrel with polygonal rifling; compensator; no iron sights; both sides of the receiver/frame are drilled and tapped for the installation of an optical mount; skeletonized hammer; slide release is located on the left side of the receiver/frame above the trigger; ambidextrous thumb safety is located above the grip; adjustable single action trigger mechanism; magazine release is located behind the squared trigger guard; aluminum grip panels; checkered front and back strap; enlarged magazine well; detachable box magazine with an aluminum pad. - overall length with a 145mm barrel is 249mm, average weight is 1250g.
Manufacturer	- "TANFOGLIO" in a rectangle and "FT-MADE IN ITALY" may be marked on the right side of the receiver/frame.
Action	- recoil operated.
Serial Number	- serial number may be located on the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- the firearm is marked on the left side of the frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY

Model

- this firearm is marked on left side of slide: Gold Custom
- this firearm is almost identical to the basic Gold Custom (a CZ-75 design) except for the additions of a smaller diameter muzzle extension with two top-vents built onto the muzzle-slide assembly, along with the regular 3-ported compensator, PLUS a ported barrel that vents through 2 holes in the top of the slide.
- the above features are in addition to the regular features of the "Gold Custom"; which include:
- the long slide, a hard-chromed finish, polygonal rifling, triple-chamber compensator, single-action-only trigger, squared and checkered trigger guard, checkered front and back gripstraps, extended beaver-tail receiver tang, enlarged magazine well, skeletonized hammer, fully-adjustable rearsight and compensator-mounted frontsight.
- this model has a drilled and tapped frame for attaching a scope mount and checkered walnut grip panels.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Type

- this is a full-featured competition pistol ("racegun") built specifically for IPSC Open Class

Action

- recoil-operated firearm.

Serial Number

- the serial number is located right side of frame, above trigger guard.
- unknown serial number rationalization.

Shots

- detachable box magazine.

Remarks

- this firearm is marked on left side of slide: Gold Custom
- this firearm is almost identical to the basic Gold Custom (a CZ-75 design) except for the additions of a smaller diameter muzzle extension with two top-vents built onto the muzzle-slide assembly, along with the regular 3-ported compensator, PLUS a ported barrel that vents through 2 holes in the top of the slide.

Notes

Make

- the make is marked on the left side of the receiver/frame above the trigger as: "TANFOGLIO" within a rectangle.

Model

- model designation is marked on the left side of the slide as: "Gold Match".
- this is a semi-automatic target pistol based on the CZ-75 design.
- features include: chromed or duo-tone (blued/chromed) finish; single-action-only trigger mechanism; squared-off trigger-guard; extended beavertail tang; loop-style hammer; slide extension for additional sight radius; and open adjustable sights.
- overall length with a 152mm barrel is 255mm, average weight is 1150g.

Manufacturer

- Fratelli Tanfoglio is located in Brescia, Italy; manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Action

- recoil operated.

Serial Number

- serial number is marked on the right hand side of the front part of the receiver/frame.
- serial number have normally two letters followed by five digits (ex.: EA00000).

Calibre

- calibre is marked on the right hand side of the slide.

Shots

- detachable box magazine housed in the grip.

Other Markings

- "FT-MADE IN ITALY" is marked on the left side of the receiver/frame between the grip panel and the safety.
- the Italian National Proof House issued catalogue number is usually marked on the right side on the receiver/frame.

Notes

Make

- "ARMI TANFOGLIO GIUSEPPE - GARDONE V.T. - ITALY" is marked on the left side of the slide.
- "GT" in the model designation is the identifier for "Targa" and "Giuseppe Tanfoglio".
- "Targa" was a trade name used on handguns imported and distributed by Excam, Inc. of Hialeah, Florida and manufactured by "Giuseppe Tanfoglio" of Brescia, Italy.
- Excam ceased operations in late 1990.
- "EXCAM INC. HIALEAH FLA" may be marked on the firearm.

Model

- "MOD. GT22" is marked on the left side of the slide.
- discontinued in 1990.
- features include: finger rest magazine, blade ramp front sight, adjustable rear sight, steel receiver/frame, checkered grips, blued or chromed finish.
- some examples have been noted with the longer, "target" GT22T barrel and adjustable sights. These examples appear to have been factory original as the slides bore the same serial number as the receiver/frame and the receiver/frame was stamped with the correct (for that barrel length but not model) Italian National Proof House catalogue number (catalogue number 2320 is assigned to the model GT22T with a barrel length of 150mm, catalogue number 2318 is assigned to the model GT22 with a barrel length of 95mm). The noted examples were marked with the wrong model designation, the short 95mm barrel/fixed sight gun was marked "GT22T" and the 150mm barrel/adjustable sight gun was marked "GT22".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "ARMI TANFOGLIO GIUSEPPE - GARDONE V.T. - ITALY" is marked on the left side of the slide.
Action	- blowback operated.
Serial Number	- serial-numbered on the left side of the receiver/frame and slide.
Shots	- detachable box magazine.

Notes

Make

- "GT" in the model designation is the identifier for "Targa" and "Giuseppe Tanfoglio".
- "Targa" was a trade name used on handguns imported and distributed by Excam, Inc. of Hialeah, Florida and manufactured by "Giuseppe Tanfoglio" of Brescia, Italy.
- Excam ceased operations in late 1990.
- "EXCAM INC. HIALEAH FLA" may be marked on the firearm.

Model

- "MOD. GT 32 E" is marked on the right side of the slide.
- manufactured circa 1980.
- single action.
- fixed sights.
- blued finish.
- wood grips.
- magazine release located on the bottom of the butt.

Manufacturer

- marked on the left side of the slide.

Serial Number

- serial number is located on the left side of the receiver/frame & repeated on the left side of the slide.
- observed serial number had a letter "C" prefix followed by five numbers.
- "CAT. 886" may be marked on the right side of the receiver/frame.
- "886" is not the serial number, this is an Italian Proof House catalogue number.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- marked on the right side of the slide.

Notes

Make

- Tanfoglio markings are found on the left side of the receiver/frame.

Model

- the model designation is marked on the left side of the slide.
- this firearm is a full-feature competition pistol (sometimes referred to as a "race-gun") built specifically for International Practical Shooting Confederation (I.P.S.C.) Standard Class shooting.
- features include: squared and checkered trigger guard; single-action-only trigger mechanism; polygonal rifling; checkered front and back straps; extended beaver-tail receiver tang; enlarged magazine well; skeletonized hammer; fully-adjustable sights; checkered walnut grip panels; receiver/frame is drilled and tapped for attaching a scope mount.
- Available with a blued, hard-chromed or "duo-tone" finish.
- - similar to the "Limited Custom" model which features a coned barrel, a receiver/frame with a longer dust cover (up to the front of the slide) and an enlarged, extended magazine well.
- - overall length with a 121mm barrel is 225mm, average weight is 1180g.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and "FT - MADE IN ITALY".

Action

- recoil operated.

Serial Number

- located on the right side of the receiver/frame above the trigger guard, rationalization unknown.

Calibre

- the calibre designation is marked on the right side of the barrel, visible through the ejection port.

Shots

- detachable box magazine housed in the grip.

Notes

Make

- this firearm is marked within a rectangle on left side of slide: TANFOGLIO P25

Model

- this firearm is marked "TANFOGLIO" within a rectangle and "P 25" on left side of slide.
- it is a polymer-framed pocket pistol that operates on a gas-delayed blow-back system, much like the HK P7.
- it is available only as a double-action semi-auto.
- it is available with either blued or duo-tone finish.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
- this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Action

- gas-delayed blow-back operation.

Serial Number

- located on metal insert in frame under muzzle.
- serial number rationalization unknown.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- marked "ADP" within an oval molded into frame at bottom of grip.
- this firearm is marked within a rectangle on left side of slide: TANFOGLIO P25
- this firearm is marked "TANFOGLIO" within a rectangle on left side of slide.

Remarks

- this firearm is a polymer-framed pocket pistol that operates on a gas-delayed blow-back system, much like the Heckler & Koch P7.

Notes

Make

- marked on the left side of the receiver/frame: TANFOGLIO within a rectangle.

Model

- the model designation is marked on the left side of the barrel/upper assembly.
- this is a single-shot handgun (also available as a conversion-kit) similar in concept to the Pachmayr Dominator, whereby a single-shot "upper" replaces the slide/barrel assembly to transform a 1911-style handgun into a single-shot handgun for hunting or metallic-silhouette competition.
- features include: barrel assembly without sights but with a Weaver type basel located on top of the upper receiver for mounting an optical sight; manual thumb and extended beavertail grip safeties; exposed hammer with an extended spur; adjustable, single action trigger mechanism; the magazine release has been converted into a "break-opening" lever; fitted with a dummy magazine with an extended aluminium floorplate which can be used as a finger rest; blued finish; wrap-around rubber grip.

Manufacturer

- manufacturer's markings include "TANFOGLIO" in a rectangle and/or "FT - MADE IN ITALY".

Action

- "tip-up barrel" design.

Serial Number

- the serial number is marked on the left side of the receiver/frame behind the trigger.

Calibre

- the calibre designation is marked on the firearm.

Notes

Make

- the firearm is marked on the left side of the receiver/frame: TANFOGLIO within a rectangle, and above the left grip: FT-MADE IN ITALY

Model

- this firearm is marked "SILVER TEAM" on left side of slide.
- this firearm is a full-feature competition pistol ("racegun") built specifically for IPSC (International Practical Shooting Confederation) Open Class, Bowling-pin shooting, or Steel Challenge.
- it is based on the basic TZ-75 pistol, with a standard-length slide, and a triple-chamber compensator.
- this firearm features a squared and checkered trigger guard, single-action-only trigger, checkered front and back straps, extended beaver-tail receiver tang and enlarged magazine well.
-it also has a skeletonized hammer, blade front sight and fully-adjustable rearsight on the slide, checkered walnut grip panels, and frame drilled and tapped for attaching a scope mount.
- it is available in blued, hard-chromed, or "duo-tone" finish.

Manufacturer

- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons.
- "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".

Action

- recoil-operated.

Serial Number

- located right side of receiver/frame, above trigger guard.
- serial number rationalization unknown.

Shots

- detachable box magazine.

Notes

Make - the firearm is marked on the left side of the frame as TANFOGLIO.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- this firearm is a Colt Single Action Army look "Western Style" revolver with adjustable rear sight, wooden grips, and a manual hammer-block safety.
Manufacturer	- Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons. - "Fratelli Tanfoglio" translates as "Tanfoglio Brothers".
Action	- it is a Colt Single Action "Western" style revolver.
Serial Number	- serial number is marked on the receiver/frame in front of the trigger guard. - observed serial number consisted of a letter prefix followed by five numbers. - "CAT. 855" is not a serial number. - "855" is not the serial number, this is an Italian Proof House catalogue number.
Calibre	- the caliber may also be stamped on cylinder. - an extra cylinder in .22 Winchester Magnum Rimfire is available from the factory on order.
Remarks	- this firearm is a Colt Single Action Army look "Western Style" revolver with adjustable rear sight, wooden grips, and a manual hammer-block safety. - an extra cylinder in .22 Winchester Magnum Rimfire is available from the factory on order. - Fratelli Tanfoglio is an Italian manufacturer founded by Giuseppe Tanfoglio and continued by his sons. - "Fratelli Tanfoglio" translates as "Tanfoglio Brothers". - this company is known primarily for its line of CZ-75-style IPSC competition handguns.

Notes

Make

- "TANFOGLIO" is marked on the right side of the firearm.

Model

- Introduced in 2016.
- "TCPM" is marked on the left side of the firearm.
- Pre-production models of the firearm may instead be marked "TCPM" on the right side of the firearm.
- Features include: rifled barrel with a muzzle break; aluminum upper receiver/frame with integral full length accessory rail with fiber optic sights; hammer moving downward located in the upper; synthetic lower include the pistol grip, and integral trigger guard; trigger safety; manual and automatic safety; ambidextrous cocking handle; selector on the left side; front folding grip; collapsible sliding or fixed stock and blued finish.

Manufacturer

- "TANFOGLIO" is marked on the right side of the firearm.
- "FT-IT" is marked on the left side of the firearm.
- "FT" is the abbreviation for "Fratelli Tanfoglio".

Action

- Blowback operated.
- Select fire.

Serial Number

- The serial number is marked on the left side of the firearm.
- Observed serial number sample was marked on the left side of the firearm and consisted of the following configuration: two (2) letter prefix, "SH", followed by four (4) numbers (example: SH1234).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the left side of the firearm. - "Cal. 9mm" is marked on the left side of the firearm.
Shots	- Detachable box magazine housed in the grip.

138730 - 3	45-70 GOVT	1	356	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TANFOGLIO" was observed marked on the left side of the receiver/frame.

Model

- "THOR" may be marked on the barrel/upper assembly.
- this is a single-shot handgun similar in concept to the Pachmayr Dominator, whereby a single-shot "upper" replaces the slide/barrel assembly to transform a 1911-style handgun into a single-shot handgun for hunting or metallic-silhouette competition.
- features include: barrel assembly without sights with picatinny rail located on top of the upper receiver/frame for mounting an optical sight; manual thumb and extended beavertail grip safeties; exposed hammer with an extended spur; adjustable, single action trigger; the magazine release has been converted into a "break-opening" lever; fitted with a dummy magazine with an extended aluminum floorplate which can be used as a finger rest; blued finish; wrap-around rubber grip.
- overall length for a 356mm (14") barrel is 406mm (16"), average weight 2.27kg (5lbs).

Manufacturer

- "TANFOGLIO" was observed marked on the left side of the receiver/frame.
- "FT - MADE IN ITALY" may be marked on the receiver/frame.
- "FT" is the abbreviation for "Fratelli Tanfoglio".

Action

- "tip-up barrel" design.

Serial Number

- the serial number may be marked on the receiver/frame.

Firearm Reference Number (FRN): 196823
Make: Tara Group
Model: TM-X

Summary

Make:	Tara Group
Model:	TM-X
Manufacturer:	Tara Group
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	MONTENEGRO
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
196823 - 1	9MM LUGER	10	113	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
196823 - 2	9MM LUGER	17	113	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TARA Aerospace" is marked on the right side of the receiver/frame.
- "TARA Aerospace" is marked on the left side of the firearm.
- "TARA" is located in Mojkovac, Montenegro.

Model

- "TM-X" is marked on the left side of the slide.
- "TM-X" is a striker fired, polymer receiver/frame pistol.
- Features include: fixed dovetailed front and rear sights; flat sided slide with right side ejection; slide front and rear grip serrations; polymer receiver/frame with an integral accessory rail; squared trigger guard; grip with honey comb texture surface finish and interchangeable back strap; ambidextrous magazine release.

Manufacturer

- "TARA Aerospace" is marked on the right side of the receiver/frame.
- "TARA Aerospace" is marked on the left side of the firearm.
- "TARA Aerospace" is located in Mojkovac, Montenegro.
- "TARA Aerospace" was privatized from the Montenegro government in 2007.
- "TARA Aerospace" is a manufacturer of safety and rescue systems for the aviation industry.

Action

- Recoil operated.

Serial Number

- Serial number is marked on a metal insert imbedded in the underside of the receiver/frame ahead of the trigger guard.
- Serial number of a referenced example consisted of a two letter prefix and four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- Calibre designation is marked on the right side of the slide.
- The calibre designation is marked on the barrel, visible through the ejection port.

Shots

- Detachable box magazine.

Notes

Make

- "TARAN TACTICAL INNOVATIONS" is marked on the left side of the slide.
- "TARAN TACTICAL INNOVATIONS" is located in Simi Valley, California U.S.A..
- "TARAN" stands for "Taran Butler".
- "Taran Butler" is an American sport shooter and world champion.
- "TARAN TACTICAL INNOVATIONS" offers gunsmithing, manufacturing and training services.

Model

- "COMBAT MASTER" is marked on the right side of the slide.
- "2011" is marked on the right side of the receiver/frame.
- "2011" is a modular design consisting of a barrel and slide assembly, a synthetic trigger guard and grip assembly and a steel or alloy receiver/frame. This differs from the traditional 1911A1 design whereby the grip/trigger guard are not integral to the receiver/frame.
- this custom pistol is built by Taran Tactical Innovation for open competition; the slide has Taran Tactical Innovation markings, the receiver/frame has STI International markings.
- this custom pistol was built for the "John Wick: Chapter 3 - Parabellum" movie with Keanu Reeves.
- features include: fibre optic front sight and dovetailed fixed rear sight; flat sided, steel slide with right side ejection, flared ejection and large front and rear gripping serrations; receiver/frame dust cover with integral accessory rail; slide release lever and magazine catch are mounted on the left side of the receiver/frame; extended thumb safety; commander style hammer; enlarged and flared magazine well; beavertail grip safety with fish scale main spring housing; black finish.

Manufacturer

- "Taran Tactical Innovation" is marked on the left side of the slide.
- pistols are built by Taran Tactical Innovation on receiver/frames supplied by STI International; these pistols bear markings from both companies.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame. - serial number of a referenced example consisted of a two letter prefix "TG" and five numbers.
Shots	- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 22741
Make: Targa
Model: GT22

Summary

Make:	Targa
Model:	GT22
Manufacturer:	Tanfoglio, Giuseppe
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	ITALY
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
22741 - 1	22 LR	10	98	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EXCAM INC. HIALEAH FLA" is usually marked on the firearm.
- "Targa" is usually not marked on the firearm.
- "GT" in the model designation is the identifier for "Targa" and "Giuseppe Tanfoglio".
- "Targa" was a trade name used on handguns imported and distributed by Excam, Inc. of Hialeah, Florida and manufactured by "Giuseppe Tanfoglio" of Brescia, Italy.
- Excam ceased operations in late 1990.

Model

- discontinued in 1990.
- features include: finger rest magazine, blade ramp front sight, adjustable rear sight, steel receiver/frame, checkered grips, blued or chromed finish.
- some examples have been noted with the longer, "target" GT22T barrel and adjustable sights. These examples appear to gave been factory original as the slides bore the same serial number as the receiver/frame and the receiver frame was stamped with the correct (for that barrel length but not model) Italian National Proof House catalogue number (catalogue number 2320 is assigned to the model GT22T with a barrel length of 150mm, catalogue number 2318 is assigned to the model GT22 with a barrel length of 95mm). The noted examples were marked with the wrong model designation, the short 95mm barrel/fixed sight gun was marked "GT22T" and the 150mm barrel/adjustable sight gun was marked "GT22".

Manufacturer

- this manufacturer's name is marked on the pistols.

Action

- blowback operated.

Shots

- detacheable box magazine.

FRT Report

Firearm Reference Number (FRN): 138163
Make: Target Technologies
Model: 925 Tornado

Summary

Make:	Target Technologies
Model:	925 Tornado
Manufacturer:	Atak
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Full Automatic
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
138163 - 2	9X22 PA TRAUMATIC	25	76	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Made by ATAK Arms Ltd" over "For TARGET TECHNOLOGIES" was observed marked on the right side of the receiver/frame.
- Target Technologies was founded in 2000.

Model

- the Target Technologies model 925 Tornado is a plastic clamshell shroud over a "Zoraki model 914".
- Zoraki model 914 full automatic is the actual firearm inside the clam shell shroud of the Target Technologies model 925 Tornado.
- features observed: black polymer, removable clamshell shroud stamped with; rear metal charging handle; spring loaded left side dust cover.
- Target Technologies model 925 Tornado overall length is 186 mm, overall height is 143 mm, overall width is 35 mm, and average weight (including the Model 914 inside the clamshell) is 850 grams.

Zoraki Model 914 information:
- "ZORAKI - MOD. 914" was observed marked on the left side of the slide.
- Zoraki model 914 is available as a full automatic or semi-automatic.
- Zoraki model 914 Gas/Alarm Pistol shares a common receiver/frame with the Target Technologies models Streamer 1014 and Streamer 2014 Traumatic Rubber Ball Pistol manufactured by Atak.
- Zoraki 914 features observed: fixed barrel with blade front sight and the inside of the barrel at the muzzle is threaded to accept a signal flare adapter; flat sided metal slide with rear cocking serrations and rear sight; metal receiver/frame with integral barrel assembly; slide release lever, safety selector, and magazine release button are mounted on the left side of the receiver/frame; exposed hammer; single/double action trigger mechanism; square front trigger guard; black or brown wrap-around grips; black matte, chrome or titanium finish.
- Zoraki 914 overall length is 154 mm, overall height is 121 mm, overall width is 36 mm, and average weight is .7kgs.

Manufacturer

- "MADE BY ATAK ARMS LTD." over "PAT 2007 - 01586 TR" was observed marked on the right side of the slide.
- Atak was established in 2006.
- Atak is located in Istanbul, Turkey.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated. - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number was observed marked on the left side of the internal receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- Target Technologies, Model 925 Tornado is a plastic clamshell shroud over a "Zoraki model 914" handgun. The Zoraki model 914 Gas/Alarm Pistol shares a common receiver/frame with the Target Technologies model 925 Tornado, the Streamer 1014 and the Streamer 2014 Traumatic Rubber Ball Pistol manufactured by Atak. - Target Technologies model 925 Tornado and the Zoraki Model 925 are similar firearms each having a Zoraki model 914 inside the clam-shell cover were manufactured as 9mm P.A.K. Gas/Alarm pistols or as Traumatic Rubber Ball pistols.
Remarks	- it should be borne in mind that the design of these ATAK manufactured firearms is fluid and changes in reaction to legal strictures in countries in which these firearms are marketed.

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model may or may not be marked on the firearm.
- this is a MK19-style automatic grenade launcher, manufactured to replace the Polish-manufactured versions of the Russian AGS-17 in service with the Polish military.
- features include: parkerized/phosphated finish; cylindrical barrel; rectangular receiver with open adjustable ladder sights; feed tray on left side for a box of belted ammunition; hinged top cover; spade grips.

Manufacturer

- manufacturer's name or logo is marked on the firearm.
- Polish State Arsenal, Tarnow was originally established as a Railway Plant in 1917.
- Polish State Arsenal, Tarnow has also been known as Zaklady Mechaniczne Tarnow, Zaklady Mechaniczne Tarnow S.A. (ZMT SA) , and ZM Tarnow.
- Zaklady Mechaniczne Tarnow was established in 1951.
- Zaklady Mechaniczne Tarnow was converted from a state company to a joint-stock company and remaned Zaklady Mechaniczne Tarnow S.A. (ZMT SA) in 1994.
- Zaklady Mechaniczne Tarnow S.A. (ZMT SA) became a menmber of the BUMAR Capital Group in 2002.

Action

- recoil operated.

Serial Number

- numbered on the receiver/frame.

Shots

- belt fed firearm.

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model may or may not be marked on the firearm.
- this is a single-shot grenade-launcher adopted by the Polish army to replace the Wz74 Cold War-era grenade-launcher, of the same design.
- this launcher mounts under the handguard of the rifle. A stand-alone version of this grenade-launcher, the GS40, is also produced, which incorporates a separate pistol-grip and an under-folding AKMS-style metallic stock with a padded buttpad.
- features include: matte blued or parkerized/phosphated finish; an adjustable sight on the left side of the muzzle; a two-piece mounting system to allow attachment to a host rifle; a "bolt-action"-style bolt knob on the right side of the breech-piece to allow the breech to rotate backwards and down for loading/unloading/reloading; a thumb-operated lever safety on the left side of the breech-piece; and a thumb-operated "paddle"-type trigger on the top left of the chamber.

Manufacturer

- manufacturer's name or logo is marked on the firearm.
- Polish State Arsenal, Tarnow was originally established as a Railway Plant in 1917.
- Polish State Arsenal, Tarnow has also been known as Zaklady Mechaniczne Tarnow, Zaklady Mechaniczne Tarnow S.A. (ZMT SA) , and ZM Tarnow.
- Zaklady Mechaniczne Tarnow was established in 1951.
- Zaklady Mechaniczne Tarnow was converted from a state company to a joint-stock company and renamed Zaklady Mechaniczne Tarnow S.A. (ZMT SA) in 1994.
- Zaklady Mechaniczne Tarnow S.A. (ZMT SA) became a member of the BUMAR Capital Group in 2002.

Action

- hinged barrel design.

Serial Number

- numbered on the receiver/frame.

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model may or may not be marked on the firearm; this rifle is also known in Polish service as the "Wilk" ("Wolf") or the "Tor" ("Thor"); "WKW" is an acronym standing for "Wielkokalibrowy Karabin Wyborowy", or "Large-calibre Carbine, Sniper".
- this is a bolt-action sniper rifle of bullpup design with a unitary receiver/stock, adopted by the Polish army in 2005; this rifle was developed concurrently with a smaller-calibre version (7.62 NATO or 338 Lapua) laid out along the same pattern, and which was also adopted as the "Alex".
- features include: a matte camouflage finish; multi-chamber muzzle brake; fluted heavy barrel; folding adjustable bipod mounted on the forearm; carry handle at centre of gravity; accessory rail for mounting optics; synthetic pistol-grip; detachable box magazine; synthetic cheek-piece; fold-down rear monopod; and synthetic buttpad.

Manufacturer

- manufacturer's name or logo is marked on the firearm.
- Polish State Arsenal, Tarnow was originally established as a Railway Plant in 1917.
- Polish State Arsenal, Tarnow has also been known as Zaklady Mechaniczne Tarnow, Zaklady Mechaniczne Tarnow S.A. (ZMT SA), and ZM Tarnow.
- Zaklady Mechaniczne Tarnow was established in 1951.
- Zaklady Mechaniczne Tarnow was converted from a state company to a joint-stock company and remained Zaklady Mechaniczne Tarnow S.A. (ZMT SA) in 1994.
- Zaklady Mechaniczne Tarnow S.A. (ZMT SA) became a member of the BUMAR Capital Group in 2002.

Action

- Turn bolt operated.

Serial Number

- numbered on the receiver/frame.

Shots

- detachable box magazine.

Firearm Reference Number (FRN): 197515
Make: Taser
Model: 10

Summary

Make:	Taser
Model:	10
Manufacturer:	Axon
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197515 - 1	TASER AIR CARTRIDGE	10	75	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The company logo is marked on the firearm.
- "TASER" is marked on the firearm in various places.

Model

- Introduced in 2023.
- "10" is marked on the firearm in various places.
- This is a conductive energy weapon which fires needle like probes.
- Features include: forward facing hollow square cartridge housing (muzzle) to accommodate cartridge; integral LED flashlight, green laser and speaker port located above the recessed area for the muzzle and cartridge; sidelight status indicators located on both sides of the firearm above the recessed cartridge location; ambidextrous two position manual safety lever above grip; wrap around checkered synthetic grip; central information display window located on the rear of the firearm above the pistol grip; compartment for detachable rechargeable battery pack housed within grip; battery pack installs from bottom.

Manufacturer

- "AXON" marked on the underside of the firearm, ahead of the trigger guard.

Action

- This is a conductive energy weapon which fires needle like probes.

Serial Number

- The serial number is marked on the underside of the receiver/frame.
- Observed serial number format consists of a single letter followed by two numbers followed by a single letter followed by six numbers.

Barrel

- the barrel length is determined by measuring the overall length of the cartridge.

Calibre

- The calibre designation is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable cartridge containing probes and wires, installed from the front.

Summary

Make:	Taser
Model:	34000
Manufacturer:	Air Taser
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128094 - 1	TASER AIR CARTRIDGE	1	53	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AIR TASER" may be marked on the unit.
- Taser is an acronym for a fictional weapon known as Thomas A. Swift's Electric Rifle.
- Taser is an electroshock weapon that uses electrical current to disrupt voluntary control of muscles.
- Tasers were introduced as less-lethal weapons to be used to subdue fleeing, belligerent, or potentially dangerous subjects.
- Taser development was initiated by Jack Cover a NASA researcher circa 1969.
- Taser devices first developed by Jack Cover in 1974 used gunpowder as the propellant.
- Taser Public Defender was originally manufactured by Tasertron in 1974.
- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- "34000" was introduced in 1994 by Air Taser.
- "34000" is a hand held unit.
- "34000" comes standard with a wrist strap, safety lever and a button trigger.
- can be equipped with a top mounted laser sight.
- available in black or yellow.
- each cartridge holds microfilm printings (AFID, Anti-Felon Identification) which bear the identification number of the cartridge which, in theory, enable the original purchaser to be identified.

Manufacturer

- "AIR TASER" may be marked on the unit.

Type

- non conventional firearm that discharges wired darts which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- compressed air from the cartridge fires two darts towards the target. Once the darts are attached to the subject (target) electrical power is delivered to the target as long as the trigger is held down.
Barrel	- the barrel length is determined by measuring the overall length of the cartridge.
Calibre	- each cartridge contains two small dart conductors attached to two insulated high voltage wires and are air actuated. The cartridges are not re-usable.

194673 - 1	TASER AIR CARTRIDGE	2	82	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- 'TASER' is marked on the left side above the grip, and on the right side between the trigger guard and the front.
- circular logo with lightning bolt in center on right side at rear, and on left side above the grip.

Model

- introduced in 2018;
- conductive energy weapon which fires needle like probes, or functions via contact with the target similar to a cattle prod.
- features include: forward facing hollow square cartridge housing (muzzle) to accommodate cartridge; integral LED flashlight and red and green laser located in recessed area within muzzle below cartridge; single blade front sight; ambidextrous cartridge release on left and right side, forward of the integral square trigger guard; single trigger; ambidextrous two position manual safety lever above grip; wrap around checkered synthetic grip; compartment for detachable rechargeable battery pack housed within grip; battery pack installs from bottom.

Type

- non conventional firearm that resembles a semi-automatic handgun which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Action

- uses a "Shaped Pulse" technology, where a first electric arc penetrates the cloth and the skin barrier followed by a second arc which flows across the first arc and delivers a severe electric current incapacitating the subject by overriding his/her central nervous system.
- can also be used as a "cattle prod" type stun gun when the cartridge is removed.

Barrel

- the barrel length is determined by measuring the overall length of the cartridge.

Shots

- detachable cartridge containing probes and wires, installed from the front.

FRT Report

Firearm Reference Number (FRN): 125177
Make: Taser
Model: Air Taser

Summary

Make:	Taser
Model:	Air Taser
Manufacturer:	Air Taser
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125177 - 1	TASER AIR CARTRIDGE	1	53	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AIR TASER" may be marked on the unit.
- Taser is an acronym for a fictional weapon known as Thomas A. Swift's Electric Rifle.
- Taser is an electroshock weapon that uses electrical current to disrupt voluntary control of muscles.
- Tasers were introduced as less-lethal weapons to be used to subdue fleeing, belligerent, or potentially dangerous subjects.
- Taser development was initiated by Jack Cover a NASA researcher circa 1969.
- Taser devices first developed by Jack Cover in 1974 used gunpowder as the propellent.
- Taser Public Defender was originally manufactured by Tasertron in 1974.
- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- "AIR TASER" was observed marked on top of the firearm.
- introduced in 1998 by Taser International.
- the "AIR TASER" is a hand held unit.
- the "AIR TASER" comes standard with a wrist strap, safety lever and a button trigger.
- can be equiped with a top mounted laser sight.
- available in black or yellow.
- each cartridge holds microfilm printings (AFID, Anti-Felon Identification) which bear the identification number of the cartridge which, in theory, enable the original purchaser to be identified.

Manufacturer

- "AIR TASER" may be marked on the unit.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Type	- non conventional firearm that discharges wired darts which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.
Action	- compressed air from the cartridge fires two darts towards the target. Once the darts are attached to the subject (target) electrical power is delivered to the target as long as the trigger is held down.
Barrel	- the barrel length is determined by measuring the overall length of the cartridge.
Calibre	- each cartridge contains two small dart conductors attached to two insulated high voltage wires and are air actuated. The cartridges are not re-usable.

Firearm Reference Number (FRN): 198545
Make: Taser
Model: BOLT 2

Summary

Make:	Taser
Model:	BOLT 2
Manufacturer:	Axon
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
198545 - 1	TASER AIR CARTRIDGE	1	51	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make
- The company logo is marked on the firearm.
- "TASER" is marked on the left side of the firearm.
- "TASER" is marked on the removeable front cover plate.

Model
- "BOLT 2" is marked on the left side of the firearm.
- Features include: safety switch located on the top of the receiver/frame.

Manufacturer
- "AXON" is marked on the rear of the firearm, on the removeable battery plate/cover.

Action
- Fires a pair barbed probes on "conductive wires" with a maximum distance of fifteen feet, (15' or 4.6m), unleashing an electrical impulse to a biological frequency that will cause "neuromuscular incapacitation".
- Max output 1mW; wave length 630-680nm.

Serial Number
- The serial number is marked on the bottom of the firearm at the rear near the battery port/door.

Barrel
- The barrel length is determined by measuring the overall length of the cartridge.

Shots
- A pair of barbed cables self-contained in a single use cartridge casing.
- Detachable cartridge containing probes and wires, which is installed/loaded from the front.

- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- "TASER C2" is usually marked on the side of the unit.
- "C2" unit is a single shot immobilization device which resembles a handheld flashlight.
- features include: LED light; may include a laser aiming light; top mounted ambidextrous safety lever; single trigger mechanism; cartridge release is part of the cartridge.
- "C2" has the ability to function as a contact distance stun gun with or without the cartridge in place.
- "C2" is available in black pearl, electric blue, metallic and fashion pink, red hot red, titanium silver, desert camouflage, forest camouflage; graphite or leopard print colours.
- overall length with a cartridge in place is 152mm (6"), average weight is 152grams (5.36oz.).

Manufacturer

- "TASER INTERNATIONAL" may be marked on the unit.
- The Taser International Logo of a lightning bolt over a circle or globe may be marked on the blast doors of the Taser cartridge.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Type	- non conventional firearm that resembles a handheld flashlight that discharges wired darts which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.
Action	- compressed nitrogen from the cartridge fires two darts towards the target. Once the darts are attached to the subject (target), electrical power is delivered to the target for as long as the trigger is held down.
Serial Number	- serial number may be marked on the unit. - each separate cartridge holds microfilm printings (AFID, Anti-Felon Identification) which bear the identification number of the cartridge which can be traced to purchaser.
Barrel	- the barrel length is determined by measuring the overall length of the cartridge.
Calibre	- each cartridge contains two small dart conductors attached to two insulated high voltage wires and are compressed nitrogen gas actuated. The cartridges are not re-usable.
Shots	- disposable cartridge that can be discharged once.

197661 - 1	TASER AIR CARTRIDGE	2	95	Prohibited PFR, Part 1, para. 1	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TASER" is marked on both sides of the receiver/frame and on the back or rear of the device.
- Trade name used by "Axon Enterprise Inc.".
- The company logo is marked on the receiver/frame.
- "AXON" logo has varied appearance and usually consists of; a circle with a stylized lightning bolt bisecting it or a circle with a lightning bolt straight up and down in the middle of the circle with two lines extending east and west of the bolt.

Model

- "PULSE" is marked on the left side of the receiver/frame.
- "PULSE" is marked on the right side of the receiver/frame.
- Trade name used by "Axon Enterprise Inc.".
- This is a conductive energy weapon which fires needle like probes.
- Features include: forward facing hollow square cartridge housing (muzzle) to accommodate cartridge; assisted targeting; ambidextrous two position manual safety lever above grip; wrap around synthetic grip; compartment for detachable rechargeable battery pack housed within grip; battery pack installs from bottom.

Manufacturer

- "AXON ENTERPRISE, INC." is marked on the underside of the receiver/frame, on the bottom of the trigger guard.
- The company logo is marked on the firearm.
- "AXON" logo has varied appearance and usually consists of; a circle with a stylized lightning bolt bisecting it or a circle with a lightning bolt straight up and down in the middle of the circle with two lines extending east and west of the bolt.

Action

- Fires a pair barbed probes on "conductive wires" with a maximum distance of fifteen feet, (15' or 4.6m), unleashing an electrical impulse to a biological frequency that will cause "neuromuscular incapacitation".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- Serial number is marked on the inside of the receiver/frame where the cartridge is loaded. - The serial number rationalization is unknown. - NOTE: the loaded cartridge may fire 20 - 30 "anti-felon confetti ID tags", which contains the serial number of the cartridge when used. The cartridge is not deemed the receiver/frame of this device.
Barrel	- The barrel length is determined by measuring the overall length of the cartridge.
Calibre	- The calibre designation is not marked on the firearm. - A pair of barbed cables self-contained in a single use cartridge casing.
Shots	- Detachable cartridge containing probes and wires, which is installed/loaded from the front.

Notes

Make

- "TASER" may be marked on the unit.
- Taser is an acronym for a fictional weapon known as Thomas A. Swift's Electric Rifle.
- Taser is an electroshock weapon that uses electrical current to disrupt voluntary control of muscles.
- Tasers were introduced as less-lethal weapons to be used to subdue fleeing, belligerent, or potentially dangerous subjects.
- Taser development was initiated by Jack Cover a NASA researcher circa 1969.
- Taser devices first developed by Jack Cover in 1974 used gunpowder as the propellant.
- Taser Public Defender was originally manufactured by Tasertron in 1974.
- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- introduced in 2008.
- model designation may be marked on the unit.
- the "Shockwave" is a manualy positioned unit which will fire six XP Taser cartridges simultaneously. The units can be stacked on each other or attached side by side.

Type

- non conventional firearm which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Action

- uses a "Shaped Pulse" technology, where a first electric arc penetrates the cloth and the skin barrier followed by a second arc which flows across the first arc and delivers a severe electric current incapacitating the subject by overriding his/her central nervous system.

- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- introduced in 2003.
- "X26" was observed marked on the side of the firearm.
- resembles a semi-automatic handgun.
- available in black, yellow or clear.

Manufacturer

- "TASER INTERNATIONAL, INC. SCOTTSDALE, AZ" was observed marked on the underside of the receiver/frame.

Type

- non conventional firearm that resembles a semi-automatic handgun which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- uses a "Shaped Pulse" technology, where a first electric arc penetrates the cloth and the skin barrier followed by a second arc which flows across the first arc and delivers a severe electric current incapacitating the subject by overriding his/her central nervous system.
- can also be used as a "cattle prod" type stun gun when the cartridge is removed.

Serial Number

- serial number was observed marked on the top of the receiver/frame.
- observed serial number consisted of a letter "X" prefix and eight numbers.

Barrel

- the barrel length is determined by measuring the overall length of the cartridge.

Notes

Make

- "TASER" may be marked on the unit.
- Taser is an acronym for a fictional weapon known as Thomas A. Swift's Electric Rifle.
- Taser is an electroshock weapon that uses electrical current to disrupt voluntary control of muscles.
- Tasers were introduced as less-lethal weapons to be used to subdue fleeing, belligerent, or potentially dangerous subjects.
- Taser development was initiated by Jack Cover a NASA researcher circa 1969.
- Taser devices first developed by Jack Cover in 1974 used gunpowder as the propellent.
- Taser Public Defender was originally manufactured by Tasertron in 1974.
- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser uses an air cartridge containing a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- "X26" was introduced in 2003.
- "X26c" and "X26" was observed marked on the side of the firearm.
- "X26C" resembles a semi-automatic handgun.
- "X26C" is available in black, or clear.
- "X26c" has a laser indicator.

Manufacturer

- "TASER INTERNATIONAL, INC. SCOTTSDALE, AZ" was observed marked on the underside of the receiver/frame.

Type

- non conventional firearm that resembles a semi-automatic handgun which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- uses a "Shaped Pulse" technology, where a first electric arc penetrates the cloth and the skin barrier followed by a second arc which flows across the first arc and delivers a severe electric current incapacitating the subject by overriding his/her central nervous system. - can also be used as a "cattle prod" type stun gun when the cartridge is removed.

Notes

Make

- "TASER" over "USA" was observed marked on the rear of the handle.
- Taser is an acronym for a fictional weapon known as Thomas A. Swift's Electric Rifle.
- Taser is an electroshock weapon that uses electrical current to disrupt voluntary control of muscles.
- Tasers were introduced as less-lethal weapons to be used to subdue fleeing, belligerent, or potentially dangerous subjects.
- Taser development was initiated by Jack Cover a NASA researcher circa 1969.
- Taser devices first developed by Jack Cover in 1974 used gunpowder as the propellant.
- Taser Public Defender was originally manufactured by Tasertron in 1974.
- Taser usually fires two small dart-like electrodes, which stay connected to the main unit by conductive wire as they are propelled by small charge of compressed nitrogen or gunpowder.
- Taser which uses an air cartridge contains a pair of electrodes and propellant for a single shot and is replaced after each use. The electrodes are pointed to penetrate clothing and barbed to prevent removal once in place. Earlier Taser models had difficulty in penetrating thick clothing, but newer versions use a "shaped pulse" that increases effectiveness in the presence of barriers.

Model

- introduced circa 1968.
- model designation is not marked on the firearm.
- the "Taser Public Defender" unit is a two shot immobilization device which resembles a handheld flashlight.
- each unit is molded from hi-impact plastic and consist of a handle; electric release bar (trigger); safety; flashlight switch; two expendable cartridge cassettes; battery charge plug; recharge indicator; battery recharge cord; flashlight and two cartridge cassette chambers.
- overall length is 229mm (9"), average weight is 590 gms (1.3lbs).

Manufacturer

- "Taser Systems, Incorporated" was located in City of Industry, California, U.S.A. circa 1975.

Type

- non conventional firearm that resembles a handheld flashlight that discharges wired darts which discharges a high voltage charge that creates uncontrollable muscle spasm and immobilizes the subject.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- a high voltage discharge sets off the squibs (small powder charge) in the cartridge from which two darts are fired towards the target. Once the darts are attached to the subject (target) electrical power is delivered to the target as long as the trigger is held down.
Barrel	- the barrel length is determined by measuring the overall length of the cartridge.
Calibre	- each cartridge contains two small dart conductors attached to two insulated high voltage wires and are propellant actuated. The cartridges are not re-usable.
Shots	- two cartridges position side by side below the flashlight.

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model is marked on the firearm.
- this is a long-range sniper/target/anti-materiel rifle based on the Baryshev principle of delayed blowback operation, where a heavier bolt carrier must be moved by way of a lever at a mechanical disadvantage in order to open the breech.
- these rifles have gone through several generations of design and redesign, and features may vary slightly from example to example.
- features include: matte blued/parkerized/phosphated finish; either a flat "harmonica" or cylindrical style of multi-chamber muzzle brake; a folding adjustable bipod; an integral carry handle at the centre of gravity; bolt operating handle on the right side of the rectangular receiver; detachable box magazine; optical mounting rail for various types of day or night sights; a thumb-operated safety above a synthetic pistol-grip; and either a wooden or frame-style synthetic buttstock with an adjustable cheekpiece.
- versions of this rifle have been manufactured in both 12.7x108mm (50 Soviet)and 12.7x99mm (50 Browning).

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Action

- delayed blowback.

Serial Number

- numbered on the receiver/frame.

Shots

- detachable box magazine.
