Firearm Reference Number (FRN): 117613
Make: Tauler
Model: Military and Police Mark P

Summary

Make:	Tauler
Model:	Military and Police Mark P
Manufacturer:	Gabilondo y Cia
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
117613 - 1	9MM BAYARD	8	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Tauler" is marked on the left side of the slide and on the grip plates along with the trademark of a kneeling archer.
- "Tauler" was a dealer located in Madrid, Spain in the early 1930's.
- "Tauler" sold "LLAMA" models under his own name.

Model

- "Model Military and Police" is marked on the right side of the slide and "Mark P" is marked on the left side of the slide.
- manufactured in the 1930s by Gabilondo.
- this firearm is similar in appearance to the Colt Model 1911A1 semi automatic handgun.
- features include: large receiver/frame; exposed hammer; single action; grip safety; manually applied thumb safety, push button magazine release and lanyard loop are located on the left side of the receiver/frame; fixed sights.

Manufacturer

- "G.C" in a circle on the right side of the receiver/frame is the abbreviation for "Gabilondo y Cia".

Serial Number

- serial number is located on the right side of the receiver/frame, above the trigger.
- observed serial number had five digits.

Calibre

- calibre is marked on the chamber of the barrel and on the left side of the slide.

Shots

- single column detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- marked on the left side of the slide:
"TAULER MARK. P." (kneeling archer) "96.730.DIC.13-1933"
"AUTOMATIC PISTOL" and "CAL. 9m/m".
- marked on the right side of the slide:
"MODEL MILITARY AND POLICE"

Notes

Make

- the Taurus name is marked on the barrel, the Taurus logo is marked on the right side of the receiver/frame.
- Company logo is a stylized Bull's head with its horns pointed down in what appears to be a changing position.

Model

- introduced in 2003.
- also available in a lightweight version as the model "17UL", a "Tracker" (marked on the barrel and has a seven shot cylinder) version as the model "17 Tracker" and in a version intended for silhouette shooting as the model "17 Silhouette" with a 305mm barrel that features a ventilated rib.
- features include: steel construction with a blued finish or stainless steel construction with a matte finish; black rubber grips; double action/single action trigger mechanism; cylinder release button is mounted on the left side of the receiver/frame; recessed target crown; adjustable rear sight with a ramped blade front sight.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- the Taurus name is marked on the barrel, the Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.
- Company logo is a stylized Bull's head with its horns pointed down in what appears to be a changing position.

Serial Number

- numbered on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - the calibre designation is marked on the barrel.

Importer - Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.
- marked on the right side of the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 121332
Make: Taurus
Model: 17 Ultra Lite

Summary

Make:	Taurus
Model:	17 Ultra Lite
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121332 - 1	17 HMR	8	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus name is marked on the barrel, the Taurus logo is marked on the right side of the receiver/frame.

Model

- introduced in late 2003.
- this is a specialized lightweight version of the model 17.
- the standard model 17 (eight shot cylinder) is also available in a "Tracker" version as the model "17 Tracker" with a 165mm barrel and seven shot cylinder and in a version intended for silhouette shooting as the model "17 Silhouette" with a seven shot cylinder and a 305mm barrel that features a ventilated rib.
- features include: alloy construction with a blued finish or alloy/stainless steel construction with a matte finish; black rubber grips; double action/single action trigger mechanism; cylinder release button is mounted on the left side of the receiver/frame; adjustable rear sight with a ramped blade front sight.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- the Taurus name is marked on the barrel, the Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- numbered on the right side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.
- marked on the right side of the receiver/frame.

Notes

Make

- the Taurus name and logo are marked on the right side of the firearm.

Model

- introduced in 2005. The model designation is in reference to the dual calibre capability of the original offering. When introduced this model was capable of using 410 GA X 2 ½" shotshells or 44-40 WIN cartridges. Subsequent offerings are listed as being capable of using 410 GA X 2 ½" shotshells, 44-40 WIN or 45 COLT cartridges.
- early product literature noted that this model was available on either the "Tracker" or "Raging Bull" receiver/frame (the Raging Bull variant is easily identified by an additional cylinder release catch on the yoke and a ventilated barrel rib).
- features include: blued, stainless steel or blued barrel with a case-hardened receiver/frame finish; round barrel with or without a ventilated rib; shrouded ejector rod; single/double action trigger mechanism; receiver/frame mounted firing pin with a transfer bar safety; fiber optic front sight with a fixed or adjustable rear sight; cylinder release mounted on left side of receiver/frame; black rubber or black "Ribber" (rubber with horizontal grooves) grip; integral "Taurus Security System" lock on hammer.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number consisted of a two letter "CS" prefix and six numbers.

Calibre

- when first introduced this model was marketed as being capable of using 410 GA X 2 1/2" shotshells or 44-40 WIN cartridges. Calibre markings on samples in Taurus product literature are clearly marked on the barrel as "410 GA - 44/40 cal". Later product literature touts the capablity of using 410 GA X 2 1/2" shotshells, 44-40 WIN or 45 COLT cartridges. Calibre markings on later samples in Taurus product literature are clearly marked on the barrel as ".45 LC / 410 GA".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- importer markings are found on the right side of the receiver/frame.
- Taurus International Manufacturing was formed circa 1983 and has been the sole importer of the Taurus product line since.

FRT Report

Firearm Reference Number (FRN): 26503
Make: Taurus
Model: 605

Summary

Make:	Taurus
Model:	605
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
26503 - 1	357 MAG	5	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
26503 - 2	357 MAG	5	76	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the "TAURUS" name and logo appear on the firearm.

Model

- introduced in 1995.
- "605" is marked in the crane cut out of the receiver/frame.
- features include: single or double action trigger mechanism with transfer bar mechanism; fixed sights; rubber grips with Taurus logo or optional Crimson Trace Laser grip; blued or stainless steel finished; available with ported barrel; heavy barrel with solid rib and ejector shroud.
- may also be known as "605SS", which indicates "stainless steel".
- a variant with a concealed hammer known as the 605CH is available.
- newer Taurus revolvers are also equipped with the integral Taurus Security System. This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.
- overall length with a 51mm (2") barrel is 178mm (7"), average weight is 0.6kg (1.3lbs).
- overall length with a 76mm barrel is 191mm (7.5"), average weight is 0.7kg (1.5lbs).

Manufacturer

- "TAURUS" is marked on the barrel.
- "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- alpha prefix followed by sequential numbers, marked on right side of receiver/frame.

Calibre

- the calibre designation is marked on the right side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer since.
- marked on the right side of the receiver/frame.

- features frame-mounted firing pin with transfer bar, fixed-notch rear sight and serrated ramp blade front sight, single/double trigger action.
- ported barrel.
- finishes available: Bright Spectrum Blue, Matte Spectrum Blue, Matte Spectrum Gold, Stealth Gray.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- usually marked on forward right side of receiver/frame, example: (two letters, up to six numerals)

Calibre

- calibre is marked on the right side of barrel.

Importer

- the importer/distributer may be marked on the right side of the receiver/frame above the trigger as, "TAURUS INT.MRG." over "MIAMI, FL. - USA".

Other Markings

- marked on the left side the barrel near the frame: ("Ti" in a circle)

Notes

Make

- "TAURUS" is marked on the barrel.
- "TAURUS" logo appears on the grips and receiver/frame.

Model

- introduced in 1998.
- this model is a variant of the model 617 (the 617 features a hammer spur and double action/single action trigger mechanism).
- the "CH" in the model designation denotes a Concealed Hammer (no spur).
- features include: available with a blued steel finish or stainless steel construction/finish; double action only trigger mechanism; fixed sights; rubber grips.
- available with or without a ported barrel, later production also features the Integral Taurus Security System® (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- usually marked on the right side of the receiver/frame.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.
- marked on the right side of the receiver/frame.

Notes

Make

- "Taurus" is marked on the barrel.

Model

- this model is based on the model 62 designed by John Moses Browning and manufactured by Winchester.
- "Model 62" is marked on the barrel.
- a version in calibre 22 MAG is available as the model "72".
- features include: take-down design, a large knurled screw is visible on the left side of the receiver/frame; steel construction with a blued or case hardened finish, or stainless steel with a polished finish; button-rifled barrel; walnut finished hardwood buttstock and forend; two safety systems, a) manual firing pin block on the top of the bolt, b) Integral Taurus Security System® lock on the hammer; barrel mounted blade front sight and adjustable rear sight.
- options include an adjustable, folding rear tang sight and a scope mount base that is attached to the barrel.
- available in rifle or carbine configuration.
- Taurus also markets a version of the model 62 as the "Upstart". This version includes two buttstocks, one is a shorter "youth" length and the other is a standard length that is installed as the shooter matures.

Manufacturer

- "Made in Brazil" and "Taurus" are marked on the barrel.

Serial Number

- serial number is located on the left side of the receiver/frame.

Shots

- tubular magazine mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer - the importer's name "Taurus International Manufacturing" of Miami, Florida, U.S.A. may be marked on the firearm.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125190 - 1	9MM LUGER/357 MAG	7	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus name and logo are marked on the firearm.

Model

- introduced in 2005, built on the model "627 Tracker" platform.
- the Taurus "Triad" models allow an individual to shoot calibre 9MM LUGER, 38 SPL and 357 MAG ammunition through the same gun without the need for an extra cylinder. The chambers accommodate the 357 MAG and 38 SPL in the normal fashion (the shorter 38 SPL cartridge can be safely fired in a 357 MAG chamber), 9MM LUGER ammunition uses the Taurus "Stellar Steel Clip" (a proprietary "full-moon" clip) for loading and extracting.
- the "Triad" feature is also available as a five shot model known as the "85 Triad".
- features include: blued steel or stainless steel construction/finish; shrouded ejector rod; black "rubber" grip; ported barrel; single action/double action trigger mechanism; blade front sight with an adjustable rear sight; cylinder release mounted on the left side of the receiver/frame, cylinder swings out to the left for loading and unloading.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- Taurus is usually marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Calibre

- calibre designation is marked on the left side of the barrel as "9mm /.38 /.357".
- the Taurus "Triad" models allow an individual to shoot calibre 9MM LUGER, 38 SPL and 357 MAG ammunition through the same firearm without the need for an extra cylinder. The chambers accommodate the 357 MAG and 38 SPL in the normal fashion (the shorter 38 SPL cartridge can be safely fired in a 357 MAG chamber), 9MM LUGER ammunition uses the Taurus "Stellar Steel Clip" (a proprietary "full-moon" clip) for loading and extracting.

Notes

Make

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Model

- introduced in 2001.
- Taurus markets this model as part of their "CIA" (Carry It Anywhere) line of firearms. The double action only models (model 850 in calibre 38 SPL and model 650 in calibre 357 MAG) are referred to as "CIA", the models capable of double action/single action firing (model 851 in calibre 38 SPL and model 651 in calibre 357 MAG) are referred to as the "CIA Protector".
- features include: hammerless design; boot grips; double action only trigger mechanism; swing out cylinder; polished blued finish or matte stainless steel; fixed sights.
- a similar model, in calibre 38 SPL is available as the model "850".
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the receiver/frame with the supplied key.
- overall length with a 51mm (2") barrel is 165mm (6.5"), average weight is 0.7kg (1.5lbs).

Manufacturer

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- the serial number is marked on the right side of the receiver/frame.
- the serial number will usually incorporate three alpha characters as a prefix.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the aurus product line since.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- the Taurus name and company logo are found on the firearm.

Model

- introduced in 1971.
- "82" is marked in the cylinder crane cutout area of the receiver/frame.
- features include: fixed sights; round barrel with or without an ejector shroud; solid top receiver/frame with left side swing-out fluted cylinder; cylinder release is located on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; synthetic or checkered wood grips; blued, satin nickel or stainless steel finish.
- early versions may have lateral grooves or striations on the cylinder flutes.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.
- overall length with a 102 mm (4") barrel is 235 mm (9.25"), and the average weight is 1.0 kg (2.3 lbs).

Manufacturer

- manufacturer's name is marked on the barrel of early samples and on the receiver/frame on later production.

Serial Number

- serial number is usually marked on the right side of the receiver/frame.
- serial number observed consisted of six numbers without a letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation is marked on the barrel.
Shots	- swing-out cylinder.
Importer	- Originally imported by International Distributors Inc. and possibly others. - Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer since. - Importers name is usually found on right side.

Notes

Make

- "TAURUS" is marked on the barrel.
- "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Model

- introduced in 1980.
- model designation appears on receiver/frame in cylinder crane cut-out.
- blue, satin nickel (discontinued in 1993) or stainless steel finish.
- early production guns did not have an ejector shroud.
- a variation of this model is available with a spurless hammer as the model "85CH".
- available in either stainless steel or with a black finish with mother of pearl grips and a gold plated trigger, cylinder release and grip screw.
- the model 85 is also available in a "Total Titanium" (85Ti) version, with a forged titanium receiver/frame, sideplate, cylinder, and outer barrel sleeve.
- these revolvers are made in both double-action and double-action-only (DAO) versions; DAO versions are commonly seen without a hammer spur, and are properly known as "85CH"s.
- also available with a factory ported barrel, to reduce muzzle climb.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.
- overall length for 76mm barrel is 191mm (7 1/2"), average weight is 694.57 grams (24.5 oz).
- available 2015 with a "convertible hammer" system, allowing the hammer spur to be removed when desired, to prevent snagging on clothing.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "TAURUS" is marked on the barrel. - "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.
Serial Number	- the serial number is marked on the right side of the receiver/frame. - the serial number imaged has two letter prefix followed by five numbers.
Barrel	- ported barrel is available as an option on the 51MM barrel.
Calibre	- "38 SPECIAL" marked on the right side of the barrel.
Importer	- Taurus International Manufacturing was formed circa 1983 and has been the sole importer of the Taurus product line since.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125189 - 1	9MM LUGER/357 MAG	5	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus name and logo are marked on the firearm.

Model

- introduced in 2005, built on the model "85" platform.
- the Taurus "Triad" models allow an individual to shoot calibre 9MM LUGER, 38 SPL and 357 MAG ammunition through the same gun without the need for an extra cylinder. The chambers accommodate the 357 MAG and 38 SPL in the normal fashion (the shorter 38 SPL cartridge can be safely fired in a 357 MAG chamber) , 9MM LUGER ammunition uses the Taurus "Stellar Steel Clip" (a proprietary "full-moon" clip) for loading and extracting.
- the "Triad" feature is also available as a seven shot model known as the "627 Tracker Triad".
- features include: blued steel or stainless steel construction/finish; shrouded ejector rod; black rubber grip; single action/double action trigger mechanism; blade front sight with a notch rear sight; cylinder release mounted on the left side of the receiver/frame, cylinder swings out to the left for loading and unloading.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame.

Importer

- Taurus International Manufacturing markings are found on the right side of the receiver/frame.
- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

Notes

Make

- the Taurus name and logo are marked on the receiver/frame and/or barrel.

Model

- manufactured from 2001 to 2010.
- Taurus markets this model as part of their "CIA" (Carry It Anywhere) line of firearms. The double action only models (model 850 in calibre 38 SPL and model 650 in calibre 357 MAG) are referred to as "CIA", the models capable of double action/single action firing (model 851 in calibre 38 SPL and model 651 in calibre 357 MAG) are referred to as the "CIA Protector".
- features include: hammerless design; soft rubber "boot" grips; double action only trigger mechanism; swing out cylinder; polished blued finish or matte stainless steel; fixed sights.
- the model 850 is also available in Titanium as the "850Ti".
- a similar model, in calibre 357 MAG is available as the model "650".
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the receiver/frame with the supplied key.

Manufacturer

- the "Taurus" name and "Made in Brazil" are marked on the firearm.

Serial Number

- the serial number is marked on the right side of the receiver/frame.
- the serial number will usually incorporate three alpha characters as a prefix.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

Notes

Make

- "TAURUS" is marked on the barrel.
- "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Model

- introduced in 2003.
- this model is chambered for the 9MM LUGER cartridge, it uses the Taurus Stellar Steel Clip (a proprietary "full-moon" clip) for loading and extracting. Similar models are available chambered for the 40 S&W cartridge as the model 405 and 45 AUTO cartridge as the model 455.
- features include: blued steel finish or matte stainless steel construction/finish; black rubber grip; single action/double action trigger mechanism; fixed sights; cylinder swings out to the left for loading and unloading.
- also available with a concealed hammer (no spur) as the model 905CH, in an "Ultra-Lite" lightweight version as the model 905UL, in Titanium as the model 905Ti and in Titanium with a concealed hammer (no spur) as the model 905CH Ti.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.
- in 2005 this model was given an "IB" moniker in the model designation to denote the "Instant Backup" size receiver/frame and shorter, 44mm (1 3/4") barrel in reference to its smaller size/portability.
- overall length with a 51mm (2") barrel is 165mm (6 1/2"), average weight is 0.59kg (1.3lbs).

Manufacturer

- "TAURUS" is marked on the barrel.
- "TAURUS" logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- numbered on the right side of the receiver/frame, incorporates a two alpha character prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - the calibre designation is marked on the barrel as "9mm Para".

Importer - Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

Model

- introduced in 2005, this model is built on the "IB" (Instant Backup) size receiver/frame. The "Ti" in the model designation denotes Titanium construction. The model designation is usually marked in the crane cut-out area as "905" and on the left side of the receiver/frame as "TITANIUM".
- this model is chambered for the 9MM LUGER cartridge; it uses the Taurus Stellar Steel Clip (a proprietary "full-moon" clip) for loading and extracting.
- features include: matte grey finish; black rubber grip; single action/double action trigger mechanism with a transfer bar safety; fixed sights; cylinder swings out to the left for loading and unloading.
- also available in Titanium with a concealed hammer (no spur) as the model 905CH Ti, in an "Ultra-Lite" lightweight version as the model 905UL, in blued or stainless steel as the model 905 and in blued or stainless steel with a concealed hammer (no spur) as the model 905CH.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- Taurus is marked on the barrel.
- Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame, incorporates a two alpha character prefix.

Calibre

- the calibre designation is marked on the barrel as "9mm Para".

Importer

- Taurus International Manufacturing markings are found on the right side of the receiver/frame.
- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

Notes

Make

- the TAURUS name and logo are marked on the barrel and/or the receiver/frame.

Model

- the model designation may be marked on the crane cutout as "980".
- this is a specialized model intended for silhouette shooting.
- features include: stainless steel construction with a matte finish or blued steel construction/finish; black rubber grips; ventilated rib on the barrel; double action/single action trigger mechanism; cylinder release button is mounted on the left side of the receiver/frame; adjustable rear sight with a ramped blade front sight.
- also available with an optional arm support that attaches to the grip.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- the Taurus name and "Made in Brazil" are marked on the firearm.

Serial Number

- the serial number is marked on the right side of the receiver/frame.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

Notes

Make

- the "TAURUS" logo, the "TAURUS" name and "MADE IN BRAZIL" was observed marked on both sides of the receiver/frame.

Model

- introduced in 2011.
- "CT40 G2 - CAL. 40" was observed marked on both side of the receiver/frame.
- features include: fixed front sight and an adjustable rear sight; round, rifled barrel; flat top aluminum upper assembly with integral accessory rail; high strength polymer and steel reinforced lower receiver/frame has an integral magazine well, pistol grip and skeleton stock; ambidextrous cocking handle, action release and safety lever; hammer fired; detachable box magazine release is located behind the magazine well; Taurus security system; ribbed synthetic forearm with integral rail; black/blue finish.
- overall length with a 406 mm (16") barrel is 800 mm (31.5"), and the average weight is 4.20 kgs (148 oz).

Manufacturer

- the "TAURUS" logo, "TAURUS" name and "MADE IN BRAZIL" was observed marked on the both side of the receiver/frame.

Action

- blowback operated.

Serial Number

- serial number was observed marked on the side of the receiver/frame.
- observed serial number had a two letter prefix and four numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- this firearm model is furnished with and utilizes an unknown high capacity cartridge magazine permanently altered to a ten shot capacity in 40 S&W Calibre.
- there is no documentary evidence that the cartridge magazines furnished with this firearm are originally designed for use in a semi-automatic handgun that is commonly available in Canada.

Canadian Law Comments

- the ten round limit specified in the Cartridge Magazine Control Regulations does not apply to magazines for this firearm as there is no documentary evidence that the cartridge magazines furnished with this firearm are originally designed for use in a semi-automatic handgun that is commonly available in Canada.
- the cartridge magazine supplied by the manufacturer, Taurus with this firearm is non-specific as to origin and in a capacity of fifteen (15) cartridges of 40 S&W Calibre which has been permanently altered so that it cannot hold more than ten (10) cartridges.

Notes

Make

- "TAURUS" is marked on the right side of the slide.

Model

- "CURVE" is marked on the right side of the slide.
- introduced in 2015.
- this is a compact 380 AUTO pistol designed for no-snag concealed carry, with all corners rounded, no protruding sights, and a receiver/frame that is curved in a bow to the right, from top to bottom; this allows the pistol to sit closer to the body while carrying.
- features include: black synthetic receiver/frame; black oxide/phosphate slide; a rounded-front frame with a receptacle for an integral light/laser-aiming unit; loaded chamber indicator; Double-Action-Only (DAO) hammer-fired mechanism; a belt clip on the right side of the frame; scalloped slide-gripping serrations; and a white-line "cross"-pattern at the rear of the slide to serve as a back-up sighting system for close range.
- these pistols come with a clip-on "holster"/trigger protector with a lanyard, that remains attached to a wearer's clothing when the pistol is drawn, but prevents the trigger from being accidentally squeezed while in a pocket.
- overall length is 130mm/5.18".

Manufacturer

- "TAURUS" is marked on the right side of the slide.

Action

- recoil-operated.

Serial Number

- serial number is marked on an insert in the receiver/frame.

Shots

- detachable box magazine.

Notes

Make	- the Taurus name and logo are usually marked on the left side of the firearm.
Model	- introduced in 2006. - this model is based on the Taurus model "Gaucho" single action revolver which is itself modeled on the Colt produced "1873 Single Action Army" revolver design but is assembled at the factory into a carbine. - features include: polished stainless steel construction/finish or blued/case-hardened receiver/frame with a blued cylinder, trigger guard and barrel; trigger guard has a finger rest; walnut buttstock; single action trigger mechanism; blade front sight with a notch rear sight; loading gate mounted on the right side of the receiver/frame; ejector rod mounted on the right side of the barrel.
Manufacturer	- the Taurus name and logo are usually marked on the left side of the firearm, the right side of the firearm is marked "Made in Brazil".
Serial Number	- serial number is marked on the receiver/frame, rationalization unknown.
Calibre	- the calibre designation is usually marked on the barrel as ".45 LC".
Importer	- importer's markings are usually found on the left side of the receiver/frame. - Taurus International Manufacturing was formed circa 1982-1983, and since that time has been the sole importer of the Taurus product line.

Notes

Make

- "TAURUS ARMAS" over "MADE IN BRAZIL" is marked on the underside of the grip module, ahead of the trigger guard.
- "TAURUS" is marked on the left side of the firearm.
- The company logo is marked on the firearm.

Model

- "GX4" is marked on the left side of the firearm.
- "GX4" design has a stainless steel receiver/frame housed within a synthetic grip frame module.
- "GX4" is a micro-compact, striker fired semi-automatic pistol.
- Features include: front and rear wide grip serrations; may have a optic ready platform in front of the rear sight; loaded chamber indicator; external extractor; removable heavy-gauge stailess steel stamping receiver; black synthetic grip frame shell/module; bottom of the grip module is cutout for the ease of the magazine removal; reversible magazine release; flat face, single trigger with an integral safety lever; striker fired, Double Action Only trigger mechanism.

Manufacturer

- The manufacturer is marked on the left side of the firearm.
- "TAURUS ARMAS" over "MADE IN BRAZIL" is marked on the underside of the grip module, ahead of the trigger guard.
- The company logo is marked on the firearm.

Action

- Recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- Serial number is marked on the back of the stainless steel receiver/frame. - Serial number is visible from a cutout window at the rear of the grip module. - Serial number of a referenced example consisted of a number, two letter and five numbers.
Calibre	- The calibre designation is marked on the barrel, visible through the ejection port. - Rifling characteristics in calibre 9MM LUGER: 6 grooves, 1 turn in 10 inches, right hand twist.
Shots	- Detachable box magazine housed in the grip.

Notes

Make

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Model

- introduced in 1992.
- available in blue, satin nickel, or stainless steel finish.
- newer Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.
- overall length with a 127mm barrel is 216mm (8.5"), average weight is 962grams (34oz).

Manufacturer

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Action

- double action.

Serial Number

- observed serial numbers have consisted of a three letter prefix and five numbers or a three letter prefix, five numbers, a forward slash (/) and three letters.
- usually located on the side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- the "TAURUS" trademark consisting of a circle with the name "TAURUS" in capital letters at the top and the word "BRASIL" on the bottom both of which enclose the head of a bull is marked on the left side of the slide, and/or
- the "TAURUS" trademark consisting of a circle with the name "TAURUS" in capital letters at the top over the head of a bull is marked on the grip plates.
- "TAURUS INT. MFG. INC." over "MIAMI, FL." is marked on the left side of the slide.
- "FORJAS TAURUS S.A." over "MADE IN BRAZIL" is marked on the right side of the slide.

Model

- "PT 100 AF" is marked on the right side of the slide.
- the PT 100 model series was introduced by Taurus in 1992.
- recoil operated, semi-automatic pistol utilizing a detachable box magazine.
- features include: double action trigger mechanism; loaded chamber indicator; inertia firing pin; fixed sights; blued, satin nickel or stainless finish.
- for those versions of the PT100AF that have the ambidextrous safety and decocking system, the serial number will incorporate an "AFD" which indicates "Ambidextrous Firearm Safety Decocker"; this model is known as the PT100AFD.

Manufacturer

- "FORJAS TAURUS S.A." over, "MADE IN BRAZIL" is marked on the right side of the slide.

Action

- recoil operated.

Serial Number

- serial number is marked on left side of receiver/frame.
- observed serial number consisted of a three letter "SNE" prefix and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the caliber designation is marked on the right side of the slide.
Shots	- detachable box magazine.
Importer	- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer since.

Notes

Make

- the Taurus name is marked on the receiver/frame and slide, the Taurus logo is marked on the slide and grip panels.

Model

- introduced in 2003.
- "PT 100 AR" is marked on the right side of the slide.
- the "AR" in the model designation denotes the integral Picatinny accessory-mounting rail on the forward portion of the receiver/frame.
- features include: blued steel finish or stainless steel construction/finish; checkered rubber grips; ambidextrous, three-position safety; 3-dot fixed sights.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.
- available in calibre 9MM LUGER as the model PT92AR.

Manufacturer

- the manufacturer's designation is marked on the right side of the slide "FORJAS TAURUS S.A." over "MADE IN BRAZIL". The Taurus logo is located on the left side of the slide and on the grip panels.

Action

- recoil operated.

Serial Number

- numbered on the left side of the receiver/frame, samples seen incorporated a three alpha character prefix followed by five sequential numbers.

Shots

- detachable box magazine housed in the grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer - Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.

Notes

Make

- the "TAURUS" name is marked on the right side of the slide, the Taurus logo is marked on the left side of the slide and on the grips.

Model

- introduced in 1998.
- this is a compact double action only pistol that features a polymer receiver/frame and a blued or stainless steel slide with three dot fixed sights or tritium night sights (the stainless steel version is also known as the Millennium PT111SS).
- each version of the Millennium series is offered in a different calibre.
- the left side of the slide is marked: "MILLENNIUM".
- the right side of the slide is marked: PT 111 CAL. 9 mm PARA.
- in 2001 Taurus introduced a version of this pistol with a titanium slide as the model "Millennium PT111Ti".
- newer Millennium pistols are also equipped with the integral Taurus Security System mounted on the slide (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- in 2003 Taurus introduced an upgraded line of the Millennium series as the Millennium Pro series.

Manufacturer

- the Taurus name and logo are marked on the firearm.

Action

- recoil operated.

Serial Number

- numbered on the receiver/frame, will incorporate alpha characters as a prefix.

Calibre

- the calibre is normally marked on the right side of the slide as "CAL. 9 MM PARA".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Importer - Taurus International Manufacturing was formed circa 1982-1983, and, since that time has been the sole importer of the Taurus product line.

FRT Report

Firearm Reference Number (FRN): 146145
Make: Taurus
Model: PT111 Millennium G2

Summary

Make:	Taurus
Model:	PT111 Millennium G2
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
146145 - 1	9MM LUGER	10	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	
146145 - 2	9MM LUGER	12	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Model

- "PT111 G2" was observed marked on the right side of the slide.
- "MILLENIUM G2" was observed marked on the left side of the slide.
- features include: low profile, 3-dot fixed sights; round, barrel; matte blued steel slide with rear gripping serrations; black polymer receiver/frame with an integral equipment rail; captured dual spring and guide rod assembly; double action only trigger mechanism; hammerless design; manual safety; internal firing pin block; flush fit magazine release.
- Millennium pistols are also equipped with the Taurus Security System mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered, a red strip on the extractor is exposed to the rear of the ejection port.
- overall length with a 83mm (3.2") barrel is 158.5 mm (6.24"), and the average weight is 0.62 kg (1.375 lbs).

Manufacturer

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Action

- recoil operated.

Serial Number

- Serial number is marked on a metal insert imbedded in the underside of the receiver/frame ahead of the trigger guard.
- Serial number is also repeated on the right side of the slide and on the barrel.
- Serial number of a referenced example consisted of a three letter prefix and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine housed in the grip.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.
- marked on the right side of the receiver/frame.

Notes

Make

- the Taurus name and logo are marked on the firearm.

Model

- this is a compact double action only pistol that features a polymer receiver/frame and a blued steel or stainless steel slide.
- the variant with the stainless steel slide is also known as the PT138SS.
- manufactured from 1999 to 2004..
- slide is marked "MILLENNIUM" on the left side and "PT138" on the right side.
- available with three dot fixed sights or tritium night sights.
- newer Millennium pistols are also equipped with the integral Taurus Security System mounted on the slide (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- in 2003 Taurus introduced an upgraded line of the Millennium series as the Millennium Pro series.

Manufacturer

- the Taurus name and logo are marked on the firearm, also marked "Made in Brazil".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- the serial number is marked on the receiver/frame.
Shots	- detachable box magazine.
Importer	- Taurus International Manufacturing was formed circa 1983 and has been the sole importer of the Taurus product line since.

FRT Report

Firearm Reference Number (FRN): 121379
Make: Taurus
Model: PT145 Millennium Pro

Summary

Make:	Taurus
Model:	PT145 Millennium Pro
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121379 - 1	45 AUTO	10	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus name and logo are marked on the receiver/frame and slide.

Model

- the Millennium Pro series of firearms was introduced in 2003 as the "third generation" of pistols by Taurus. These pistols are visually similar to the "Millennium" pistols but feature internal upgrades and improvements. Each version of the Millennium Pro series is offered in a different calibre.
- the model designation is marked on the left side of the slide as "Millennium" and on the right side of the slide as "PT145 Pro".
- features include: black polymer receiver/frame with a blued steel or matte stainless steel slide; low profile, 3-dot fixed sights or factory installed night sights; double action only trigger mechanism; stainless steel barrel; hammerless design; manual safety; captured dual spring and guide rod assembly; internal firing pin block; flush fit magazine release; slide serrations.
- all of the Millennium Pro pistols are also equipped with the Taurus Security System mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- overall length with a 83mm (3 1/4") is 156mm (6.1/8"), average weight is 0.63kg (1.39lbs).

Manufacturer

- manufacturer's name and logo are marked on the slide and receiver/frame.

Action

- recoil operated.

Serial Number

- numbered on the receiver/frame, rationalization unknown.
- observed serial number with a three letter prefix followed by five numbers.

Calibre

- "45 ACP" marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine housed in the grip.

Importer - Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.

Notes

Make

- "TAURUS" name and logo were observed marked on the left side of the slide and on the grip plates.

Model

- Introduced in 2005.
- "PT1911" is based on the Colt produced model 1911 pistol.
- "PT" stands for "Pistola Taurus". It was the original designation for their first pistol the PT92. This designation is only given to the auto's and not the revolvers.
- Features include: blued or duo-tone finishes on forged receiver/frame and slide; single action trigger mechanism with ventilated trigger (three holes); skeletonized hammer; beavertail grip safety with a raised pad; extended, ambidextrous safety catch; "Heinie" fixed sights; lowered and flared ejection port; flat mainspring housing; grasping grooves on the front and rear of the slide.
- Available with or without an integral Picatinny rail machined into the receiver/frame's dust cover.
- Also available in stainless steel as the model "PT1911SS".
- A compact version is also available with a 108mm (4 1/4") barrel as the model PT1911C.
- Overall length with a 127mm barrel is 216mm (8.5"), average weight is 1.08kg (38oz).
- In 2011 Taurus introduced a anniversary limited edition to commemorated 100 year anniversary of John Browning: PT1911 Anniversary and PT1911 Anniversary Match.
- A conversion kit in 22LR is available.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "FORJAS TAURUS S.A." and "MADE IN BRAZIL" were observed marked on the right side of the slide.
Action	- recoil operated.
Serial Number	- serial number is marked on the left side of the receiver/frame and repeated on the right side of the slide and barrel. - observed serial number had a three letter prefix and five numbers.
Shots	- detachable box magazine housed in the grip.
Importer	- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

FRT Report

Firearm Reference Number (FRN): 130554
Make: Taurus
Model: PT2045

Summary

Make:	Taurus
Model:	PT2045
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
130554 - 2	45 AUTO	10	107	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	
130554 - 1	45 AUTO	12	107	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Model

- "PT 2045" was observed marked on the right side of the slide.
- features include: polymer receiver/frame with front and rear grip checkering; blue or matte stainless finish; steel slide with grasping grooves at the front and rear; accessory rail moulded into the receiver/frame in front of the trigger guard; single or double action trigger mechanism (the Taurus system allows the trigger to sit forward in the "double action" position until a round is chambered, once chambered the trigger sets to "single action" mode); ambidextrous indexed memory pads; ambidextrous 3 position safety and decocker.
- overall length with a 107mm barrel is 186mm (7.34"), average weight is 31.5oz.

Manufacturer

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Action

- recoil operated.

Serial Number

- may be located on the rear of the receiver/frame, on the barrel at the chamber and on the right side of the slide.

Calibre

- "CAL 45ACP" marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- Taurus International Manufacturing was formed circa 1982-1983, and, since that time has been the sole importer of the Taurus product line.
- marked on the right side of the receiver/frame.

Notes

Make

- the make is normally marked on the left side of the slide as, "TAURUS" with the Taurus logo.

Model

- introduced in 1992.
- model designation was observed marked on both side of the slide.
- this is a small frame pistol that shares the same frame platform as the model PT25.
- features include: double action only trigger mechanism, blued, nickel finished, duo-tone or polymer receiver/frame and barrel, with blue or gold trim, fixed sights, internal hammer, serrations on the rear of the slide, tip up barrel, the magazine release and safety are located on the left side of the receiver/frame, and the grips will vary from wood to mother of pearl in a choice of white, black or pink color with or without a thumb rest.
- also available in a special edition model with a black finish, gold plated safety, slide lock, trigger, magazine release and grip screws, and mother of pearl grip panels known as the "Black Gold".
- two styles of slide retracting, gripping grooves have been noted. The earlier style consists of many narrow grooves. The later style consists of five wide gripping grooves.
- all newer Taurus pistols are equipped with the integral Taurus Security System. This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.
- choice of rosewood, pink or black pearl grips is also available.
- overall length with a 70mm barrel is 133mm (5.25"), average weight is 349grams (12.3oz).
- model designation was observed marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer is normally marked on the left side of the slide, in two lines as, "TAURUS", second line, INT. MFG. INC. - MIAMI. USA" with the Taurus logo or, "TAURUS", second line "MADE IN USA MIAMI, FL" with the Taurus logo. - this is one of the pistols in the Taurus lineup that is manufactured in the United States of America, most of the Taurus product line is manufactured in Brazil.
Action	- blowback operated with a tilt up barrel.
Serial Number	- the serial number is usually found above the forward portion of the trigger guard on the left side of the receiver/frame. - several serial number rationalizations have been noted. The first style consists of eight characters, all being numbers. The second style consists of eight characters, with three letters followed by five numbers and a third sequence observed consisted of six numbers with a letter prefix (Z). - the serial number rationalization, circa the late 1990's, consists of three letters followed by five numbers. The first three characters of this style of serial number will always be letters. If what appears to be the "number 1" is found in the first three characters of this serial number, that character will in fact be the "letter I" (I as in India).
Calibre	- the calibre is normally marked on the left side of the slide as, "CAL. .22 LR".
Shots	- detachable box magazine.

Notes

Make

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- Introduced in 2007.
- "PT 24 / 7 OSS DS" is marked on the right side of the firearm.
- "TACTICAL" may be marked on the left side of the slide.
- The "OSS DS" in the model designation refers to "Oh-Six-Submission, Decocker-Safety". This firearm was the Taurus model designed to compete within the framework of the United States Army procurement trials of 2006, (which were cancelled/postponed).
- Features include: brown polymer receiver/frame with front and rear grip checkering; matte finished steel slide with grasping grooves at the front and rear; accessory rail moulded into the receiver/frame in front of the trigger guard; the Taurus system allows the trigger to sit forward in the "double action" position until a round is chambered, once chambered the trigger sets to "single action" mode; ambidextrous safety and decocker;
- This firearm model may also be equipped with the "Taurus Security System" mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Overall length with a 133 mm (5.25 inches) barrel is 205 mm (8.07 inches), average weight is 0.89 kg (1.96 lbs).

Manufacturer

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Action

- recoil operated.

Serial Number

- an observed serial number consisted of a multiple letter prefix followed by a series of numbers.
- the example serial number was marked on the rear of the receiver/frame, on the barrel at the chamber and on the right side of the slide.

Calibre

- The calibre designation is marked on the right side of the firearm.

Shots

- detachable box magazine.

Notes

Make

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Model

- "PT 24 / 7 PRO" may be marked on the right side of the slide.
- "TACTICAL" was observed marked on the left side of the slide.
- features include: blue or stainless steel or tenifer finish; polymer receiver/frame with front and rear grip checkering; matte finished steel slide with grasping grooves at the front and rear; accessory rail moulded into the receiver/frame in front of the trigger guard; single/double action trigger mechanism (the Taurus system allows the trigger to sit forward in the "double action" position until a round is chambered, once chambered the trigger sets to "single action" mode); ambidextrous external manual safety; metallic 3-Dot system fixed sights; loaded chamber indicator.
- overall length with a 134mm (5 1/4") barrel is 208mm (8 1/4"), average weight is from 0.84kg (1.85lbs) to 0.90kg (1.98lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.
Action	- recoil operated.
Serial Number	- may be located on the rear of the receiver/frame, on the barrel at the chamber and on the right side of the slide.
Shots	- detachable box magazine.
Importer	- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then. - marked on the right side of the slide.

Notes

Make

- "TAURUS" and the company logo are marked on the slide and are moulded into the grip panels.

Model

- "PT24/7" was observed marked on the right side of the slide.
- "TRAINNING I" may be marked on the left side of the slide.
- this model is designed as a "training" version of the PT24/7. The main difference between the fully functional firearm and this version is that the slide on the training firearm is not milled on the inside so as to not be capable of installing a firing pin or other components necessary to discharge live ammunition. The entire training pistol also wears a distinct orange colored finish.
- features include: orange, polymer receiver/frame with a ribbed orange rubber grip overlay and accessory rail molded into the dustcover; orange slide with grasping serrations; fixed sights.

Manufacturer

- "TAURUS" and the company logo are marked on the slide and are moulded into the grip panels.

Serial Number

- may be located on the rear of the receiver/frame, on the chamber area of the barrel and on the right side of the slide.

Shots

- detachable box magazine.

125179 - 1	9MM LUGER	17	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Taurus name and logo are marked on the left side of the slide.

Model

- introduced in 2005.
- this model is designed as a "training" version of the PT24/7. The main difference between the fully functional pistol and this version is the slide on the training gun is not milled on the inside so as to not be capable of installing a firing pin or other components necessary to discharge live ammunition. The entire training pistol also wears a distinct blue finish but for the black grip.
- the left side of the slide is marked "Training II".
- features include: blue, polymer receiver/frame with a "ribber" (ribbed rubber) grip overlay and accessory rail moulded into the dustcover; blue slide with grasping serration's; fixed sights.
- a similar model, reported to be totally inert is available with an orange finish as the "PT24/7 Training I".

Shots

- detachable box magazine housed in the grip.

Canadian Law Comments

- this model is marketed as a training gun based on an existing design. In "Training" configuration it will not discharge live ammunition, however, a fully functional slide and barrel assembly may be fitted to the receiver/frame and as such it is remains a firearm.

Notes

Make

- the Taurus name is marked on the slide, the Taurus logo is marked on the slide and grip.

Model

- this model is intended for the use by law enforcement agencies.
- the model designation appears on the firearm as "PT640 POLICE" on the right side of the slide.
- features include: black polymer receiver/frame; Tenifer finished blued steel slide; low profile fixed sights; double action only trigger mechanism; hammerless design.
- available options include: Tritium night sights; manual safety; lanyard ring at the base of the grip; integral Taurus Security System mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- also available in calibre 9MM LUGER as the model PT609 Police.

Manufacturer

- "FORJAS TAURUS S.A." over "MADE IN BRAZIL" is marked on the right side of the slide.

Action

- recoil operated.

Serial Number

- the serial number is marked on the receiver/frame, rationalization unknown.

Calibre

- the calibre designation is marked on the right side of the slide as "CAL . 40".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine housed in the grip.

FRT Report

Firearm Reference Number (FRN): 134006
Make: Taurus
Model: PT738 TCP Ti

Summary

Make:	Taurus
Model:	PT738 TCP Ti
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
134006 - 2	380 AUTO	6	84	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
134006 - 1	9MM BROWNING SHORT	6	84	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.
- "MADE IN USA" over "MIAMI, FL" is marked on the right side of the receiver/frame or slide.

Model

- introduced in 2009.
- "PT 738" and "Ti" inside a circle are marked on the right side of the slide.
- "TCP" was observed marked on the left side of the slide.
- "TCP" is the abbreviation for "Taurus Compact Pistol".
- features include: fixed low profile sights; flat sided titanium slide with loaded chamber indicator and rear grip serrrations; black, blue or pink polymer receiver/frame; double action only (DAO) trigger mechanism; ambidextrous magazine release; action release is located on the left side of the receiver/frame.
- overall length with a 84 mm barrel is 132 mm (5.19"), and the average weight is .29 kg (10.2 oz).

Manufacturer

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.
- "MADE IN USA" over "MIAMI, FL" is marked on the right side of the receiver/frame or slide.

Action

- recoil operated.

Serial Number

- numbered on the receiver/frame, will usually be repeated on the slide.

Calibre

- the calibre designation is marked on the slide as ".380 ACP".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Model

- "PT745" or "PT745 PRO" is marked on the right side of the slide.
- "MILLENNIUM" or "MILLENNIUM PRO" is marked on the left side of the slide.
- "PT745 MILLENNIUM PRO" was introduced in 2004.
- "MILLENNIUM PRO" series of firearms was introduced in 2003 as the "third generation" of pistols by Taurus.
- "PT745 MILLENNIUM PRO" features a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- "MILLENNIUM PRO" series of firearms are equipped with the Taurus Security System mounted on the slide. This system allows the firearm to be rendered inoperable by turning a locking stud on the right side of the slide with the supplied key.
- features include: black polymer receiver/frame with a blued steel or matte stainless steel slide; low profile, 3-dot fixed sights or factory installed night sights; double action only trigger mechanism; stainless steel barrel; hammerless design; manual safety; captured dual spring and guide rod assembly; internal firing pin block; flush fit magazine release; grasping grooves on the rear of the slide.
- overall length with a 83mm barrel is 152mm (6"), average weight is 0.59kg (1.3lbs).

Manufacturer

- "TAURUS" name and logo are marked on the slide and are moulded into the grip panels.

Action

- recoil operated.

Serial Number

- serial number is marked at the rear of the receiver/frame and also on the slide and barrel.
- serial number of referenced examples consisted of a three letter prefix "NCS, NAU, NAV" and five numbers.
- serial number rationalization is unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre identification is marked on the right side of the slide. - calibre identification may also be marked on the barrel.
Shots	- detachable box magazine housed in the grip.
Importer	- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.

Notes

Make

- "TAURUS" name and logo are marked on the left side of the slide.

Model

- introduced in 2007.
- "PT809" is marked on the right side of the slide.
- "09", the last two digits in the model designation refer to the calibre the firearm is chambered for "9MM LUGER".
- "PT809" model is derived from the "Taurus OSS" pistol, but fitted with an external hammer.
- Taurus 800 series of pistols are equipped with the "strike two" capability. In the case of a misfire the trigger automatically reset to provide instant "strike two" capability in double action mode.
- features include: black polymer receiver/frame with front and rear grip checkering and modular backstrap allowing for custom fitting; matte finished forged steel slide with grasping grooves at the front and rear; accessory rail molded into the receiver/frame in front of the trigger guard; single/double action trigger mechanism (the Taurus system allows the trigger to sit forward in the "double action" position until a round is chambered, once chambered the trigger sets to "single action" mode); ambidextrous safety and decocker; "Novak" low mount sights; extended magazines bumpers; ambidextrous decock lever and three position safety.
- overall length is approximately 210 mm (8 1/4"), and average weight is 907 grams (2 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "TAURUS" name and logo are marked on the left side of the slide. - "MADE IN BRAZIL" marked on the right side of the slide.
Action	- recoil operated.
Serial Number	- serial number is usually marked on the rear of the receiver/frame, and repeated on the barrel at the chamber and on the right side of the slide. - observed serial number had three letter prefix followed by five numbers.
Calibre	- the calibre designation is marked on the right slide of the slide as "CAL. 9 mm".
Shots	- detachable box magazine, double stack with numbered witness holes.
Importer	- Taurus International Manufacturing was formed circa 1982-1983, and since that time has been the sole importer of the Taurus product line. - marked on the right side of the slide as "TAURUS INT.MFG. - MIAMI, FL.-USA"

FRT Report

Firearm Reference Number (FRN): 136210
Make: Taurus
Model: PT809E

Summary

Make:	Taurus
Model:	PT809E
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
136210 - 1	9MM LUGER	10	109	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	
136210 - 2	9MM LUGER	17	109	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TAURUS" name and logo are marked on the left side of the slide.
- "MADE IN BRAZIL" marked on the right side of the slide.

Model

- "PT809 E" was observed marked on the right side of the slide..
- "09", the last two digits in the model designation refer to the calibre the firearm is chambered in "9MM LUGER".
- Taurus 800 series of pistols are equipped with the "strike two" capability. In the case of a misfire the trigger automatically reset to provide instant "strike two" capability in double action mode.
- features observed: black polymer receiver/frame with front and rear grip checkering and modular backstrap allowing for custom fitting; matte finished forged steel slide with grasping grooves at the front and rear; accessory rail molded into the receiver/frame in front of the trigger guard; single/double action trigger mechanism (the Taurus system allows the trigger to sit forward in the "double action" position until a round is chambered, once chambered the trigger sets to "single action" mode); ambidextrous safety and decocker; "Novak" low mount sights; extended magazines bumpers; ambidextrous decock lever and three position safety.
- overall length is 197 mm (7 3/4"), and average weight is 800 grams (1.76 lbs).

Manufacturer

- "TAURUS" name and logo are marked on the left side of the slide.
- "MADE IN BRAZIL" marked on the right side of the slide.

Action

- recoil operated.

Serial Number

- serial number is usually marked on the rear of the receiver/frame, and repeated on the barrel at the chamber and on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- "TAURUS" name and logo are marked on the left side of the slide.

Model

- introduced in 2006.
- the model designation is normally marked on the right side of the slide.
- this "medium frame" pistol is a scaled down version of the model PT92 full size pistol.
- features include: double/single action trigger mechanism, blued receiver/frame, fixed front sight with a drift adjustable rear sight, exposed hammer, three positions frame mounted ambidextrous safety, loaded chamber indicator, magazine release is located on the left side of the grip, black checkered rubber grips.
- a stainless steel version known as the PT909SS is available.
- newer Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.
- overall length with a 102mm (4") barrel is 178mm (7"), average weight is 0.80kg (1.76lbs).
- overall length with a 108mm (4 1/4") barrel is 190mm (7 1/2"), average weight is 0.85kg (1.87lbs).

Manufacturer

- "TAURUS" name and logo are marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- marked on the front left side of the receiver/frame. - observed serial number had three letter prefix followed by five numbers.
Calibre	- marked on the lright side of the slide.
Shots	- detachable box magazine.
Importer	- Taurus International Manufacturing was formed circa 1982-1983, and since that time has been the sole importer of the Taurus product line.

FRT Report

Firearm Reference Number (FRN): 127214
Make: Taurus
Model: PT909SS

Summary

Make:	Taurus
Model:	PT909SS
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127214 - 2	9MM LUGER	10	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	
127214 - 1	9MM LUGER	17	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TAURUS" name and logo are marked on the left side of the slide.

Model

- introduced in 2006.
- the model designation is normally marked on the right side of the slide.
- this "medium frame" pistol is a scaled down version of the model PT92 full size pistol.
- features include: double/single action trigger mechanism; stainless steel slide; fixed front sight with a drift adjustable rear sight; exposed hammer; three positions frame mounted ambidextrous safety; loaded chamber indicator; magazine release is located on the left side of the grip; black checkered rubber grips.
- a blued finish version known as the PT909 is available.
- newer Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.
- overall length with a 102mm (4") barrel is 178mm (7"), average weight is 0.80kg (1.76lbs).

Manufacturer

- "TAURUS" name and logo are marked on the left side of the slide.

Action

- recoil operated.

Serial Number

- marked on the front left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- marked on the left side or right side of the slide.
Shots	- detachable box magazine.
Importer	- Taurus International Manufacturing was formed circa 1982-1983, and since that time has been the sole importer of the Taurus product line.

Notes

Make

- the Taurus name is marked on the receiver/frame and slide, the Taurus logo is marked on the slide and grip panels.

Model

- introduced in 2003.
- the model designation is marked on the right side of the slide.
- the "AR" in the model designation denotes the integral Picatinny accessory-mounting rail on the forward portion of the receiver/frame.
- features include: blued steel finish or stainless steel construction/finish; checkered rubber grips; ambidextrous, three-position safety; 3-dot fixed sights.
- Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.
- available in calibre 40 S&W as the model PT100AR.

Manufacturer

- the manufacturer's designation is marked on the right side of the slide "FORJAS TAURUS S.A." over "MADE IN BRAZIL". The Taurus logo is located on the left side of the slide and on the grip panels.

Action

- recoil operated.

Serial Number

- numbered on the left side of the receiver/frame, samples seen incorporated a three alpha character prefix followed by five sequential numbers.

Shots

- detachable box magazine housed in the grip.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus line since then.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "Taurus" name and logo are marked on the left side of the slide and on the grip plates.
- "Forjas Taurus S.A." and "Made in Brazil" are marked on the right side of the slide.

Model

- "PT 938C" is marked on the right side of the slide.
- "PT983 Compact" has a blued steel slide and alloy receiver/frame.
- manufactured from 1997 to 2005.
- features include: blued finish; double action trigger mechanism; ambidextrous, three position safety.
- a stainless steel version known as "PT938CSS" is also available.
- newer Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port.
- all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.

Manufacturer

- "Taurus" name and logo are marked on the left side of the slide and on the grip plates.
- "Forjas Taurus S.A." and "Made in Brazil" are marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- serial number is usually marked on the left side of the receiver/frame forward of the trigger. - observed serial number consisted of a three letter prefix and five numbers.
Calibre	- "CAL. 380 ACP" is marked on the right side of the slide.
Shots	- detachable box magazine.
Importer	- Taurus International Manufacturing was formed circa 1983 and has been the sole importer of the Taurus product line since.
Other Markings	- "TAURUS INT. MFG. INC." and "MIAMI, FL", the importer is marked on the left side of the slide.

FRT Report

Firearm Reference Number (FRN): 36038
Make: Taurus
Model: PT945SS

Summary

Make:	Taurus
Model:	PT945SS
Manufacturer:	Taurus
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
36038 - 1	45 AUTO	8	108	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "TAURUS" name and logo are marked on the left side of the slide.
Model	- this is a model PT945 manufactured in stainless steel. - manual, ambidextrous, hammer drop safety. - features include: double/single action trigger mechanism; take-down lever; slide release and safety located on the left side of the receiver/frame; reversible magazine release located at rear bottom of the trigger guard. - also available in a platinum finish with gold trigger, take-down lever, slide lock, safety lever and grip screws, and mother of pearl or rose wood grip panels. - also available with factory installed tritium night-sights. - newer Taurus pistols also feature a loaded chamber indicator. When a cartridge is chambered a red strip on the extractor is exposed to the rear of the ejection port. - all newer Taurus pistols are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud mounted on the right side of the slide or backstrap (depending on model) with the supplied key.
Manufacturer	- "TAURUS" name and logo are marked on the left side of the slide.
Action	- recoil operated.
Serial Number	- alpha prefix followed by sequential numbers, located on left side of receiver/frame.
Shots	- detachable box magazine.
Importer	- Taurus International Manufacturing was formed circa 1983 and has been the sole importer of the Taurus product line since.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "TAURUS" is marked on the barrel.
- "TAURUS", the Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Model

- introduced in 1997.
- long barrel versions have the model designation "Raging Bull" marked on the left side of the barrel.
- features include: blued or stainless steel finishes; heavy barrel with ventilated rib and slab sides; factory ported barrel; black rubber grips with Taurus logo and red cushion insert ; optional scope mount base; adjustable sight (fixed on the 64mm barrel length version); double lock-up cylinder.
- newer Taurus revolvers are also equipped with the integral Taurus Security System (advertised as early as 2000 as "will soon feature"). This system allows the firearm to be rendered inoperable by turning a locking stud on the hammer with the supplied key.

Manufacturer

- "TAURUS" is marked on the barrel.
- "TAURUS", the Taurus logo and "MADE IN BRAZIL" are marked on the right side of the receiver/frame.

Serial Number

- usually marked on the right side of the receiver/frame.

Calibre

- the calibre designation is usually marked on the barrel.

Importer

- Taurus International Manufacturing was formed circa 1982-1983 and has been the sole importer of the Taurus product line since.

Notes

Make

- "TAURUS" and the Taurus "bull's-head" logo is marked on the firearm.

Model

- "RAGING HUNTER" is marked on the left side of the barrel.
- this is a large-frame revolver manufactured with a full-length optics-mounting rail on the top of the barrel.
- features include: matte black oxide barrel and receiver/frame, or matte black oxide barrel with matte stainless receiver/frame; open adjustable sights; integral compensating ports at the muzzle; full-length optics mounting rail on the barrel; receiver/frame with dual thumb-operated cylinder-release latches (one on the crane, one on the side of the receiver/frame); single-action/double-action trigger mechanism, with spurred hammer; recoil-absorbing black synthetic grips with a red stripe down the backstrap.

Manufacturer

- "TAURUS" and the Taurus "bull's-head" logo is marked on the firearm.
- "TAURUS ARMAS" over "MADE IN BRAZIL" is marked on the right side of the firearm.

Action

- double-action revolver.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number of a referenced example consisted of two letter prefix "MT" and six numbers.

195669 - 2	40 S&W	30	200	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "TAURUS" and the Taurus logo of a bull's head within a circle are marked on the firearm.

Model

- "SMT40" is marked on the firearm; "SMT40" is an acronym for "Submetralhadora Taurus 40"/"Taurus Submachinegun 40", and must not be confused with the FAMAE-based "MT40" submachine gun, built by Taurus under licence from Chile's FAMAE.
- a compact version, with a 165mm barrel is also available, as the "SMT40C", commonly seen without a folding stock or flash-hider.
- this is a Taurus-designed submachine gun manufactured primarily for law enforcement (a 9mm Luger analog, the "SMT9", is offered as a military equivalent), that makes use of stamping, folding and welding techniques, as well as black synthetic moulded furniture.
- features include: flat blat phosphate/oxide finish, with black synthetic furniture; multi-slot flash-hider; forearm with the bottom angled sharply forward; open adjustable flip sights on a Picatinny rail flat-top (optional red dot sights); cocking handle above the forearm that can be switched for left- or right-handed operation; a moulded synthetic magazine well with the forward half forming a grip for the off hand; straight magazine (curved magazines are used in the 9mm Luger versions); ambidextrous bolt catch; right-side ejection; ambidextrous four-position safety/selector (Safe-2 Shot Burst-Full Automatic-Semi); and a side-folding telescoping buttstock.

Manufacturer

- "TAURUS" and the Taurus logo of a bull's head within a circle are marked on the firearm.

Action

- blowback operated.

Serial Number

- The serial number is marked on the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- "TAURUS" is normally marked on the left side of the barrel.
- the "TAURUS" name and logo may be marked on the right side of the receiver/frame, above the grip.

Model

- early versions of this model are not marked "Standard". More recent firearms produced by TAURUS usually are marked with cartridge calibre, importer, make, and model number or name.
- early production models are distinctive with laterally grooved cylinder flutes.
- features include: blade front sight and a groove in the top strap for a rear sight; round barrel with an exposed supported ejector rod; solid top receiver/frame with a left side swing-out fluted cylinder with grooves along the flutes; cylinder release is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; checkered wood grip panels; blued or nickel plated finish.

Manufacturer

- "FORJAS TAURUS S.A." over "P.ALEGRE R.G.S. BRASIL" is normally marked on the left side of the barrel.
- the "TAURUS" name and logo may be marked on the right side of the receiver/frame, above the grip.
- "FABRICADO NU BRASIL" or "MADE IN BRASIL" is normally marked on the right side of the receiver/frame.

Serial Number

- serial number is usually located on the right side of the receiver/frame.
- serial number observed consisted of four numbers without a letter prefix or suffix.
- serial number observed consisted of five numbers without a letter prefix or suffix.
- serial number observed consisted of six numbers without a letter prefix or suffix.

Calibre

- the calibre designation is normally marked on the right side of the barrel. Example "38 SPL", "CAL. 38" or "22 LR", and the right side of the receiver/frame above the grip may be marked "38 Special.".

Shots

- swing-out cylinder.

Importer

- importer is marked on left side of one of the samples examined. Other importers may also be encountered. Some firearms have no importer marks.

Notes

Make

- the Taurus name and logo are marked on the barrel and/or receiver/frame.

Model

- manufactured from 2004 to 2009.
- "Thunderbolt" resembles the Colt produced (1884 -1904) "Lightning" rifle.
- early samples viewed were not marked "Thunderbolt". The barrels on the samples examined were marked "Model C45" in reference to them being chambered for calibre 45 COLT ammunition.
- features include: hardwood buttstock and forend; curved crescent buttplate; bright stainless steel or blued steel receiver/frame and barrel; loading gate located on the right side of the receiver/frame; "longhorn" adjustable rear sight (Taurus offers a tang sight as an accessory) and a blade front sight; Taurus security system lock (this is an integral mechanism that locks the action to prevent the gun from being operated).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the Taurus name and logo are marked on the barrel and/or receiver/frame.
Serial Number	- numbered on the receiver/frame, rationalization unknown. - observed specimen serial number consisted of a two letter prefix followed by four digits.
Shots	- tubular magazine mounted under the barrel.

Notes

Make

- "TAVOR" may be marked on the left side of the receiver/frame.
- "Tavor" is named after a mountain in upper Galilee in Israel.

Model

- "TAVOR - 21" may be marked on the left side of the receiver/frame.
- this is a selective-fire rifle, built by Israel Military Industries.
- features include: molded synthetic stock with an enlarged trigger guard which encircles the entire hand; integral Picatinny rail for mounting a variety of optical sights; ambidextrous safety/selector; and an ambidextrous mechanism that allows the user to select which side empty cases are ejected from.
- Tavor model 21 is made in a number of variations and barrel lengths.
- Tavor model 21 CTAR (Commander Tavor Assault Rifle) with a 380 mm barrel has an overall length of 640 mm, and an average weight of 2.7 kgs to 3.2 kgs.
- Tavor model 21 MTAR (Micro Tavor Assault Rifle is submachine gun-sized) with a 250 mm barrel has an overall length of 480 mm, and an average weight of 2.4 kgs.
- Tavor model 21 STAR (Sharpshooting Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 3.4 kgs to 3.7 kgs.
- Tavor model 21 TAR (Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 2.8 kgs to 3.3 kgs.
- Tavor model 21 TC (Tavor Carbine) with a 409 mm barrel has an overall length of 670 mm, and an average weight of 2.8 kgs.
- Tavor model 21 TSR (Tavor Sporting Rifle) with a 460 mm barrel has an overall length of 706 mm, and an average weight of 3.5 kgs.

Manufacturer

- "ISRAEL MILITARY INDUSTRIES LTD" may be marked on the left side of the receiver/frame.

Action

- gas-operated.

Serial Number

- the serial number is marked on the left side of receiver/frame.

Calibre

- the calibre designation may be marked on the left side of the receiver/frame as:
"5.56 MM".

Shots

- detachable box magazine.
- this rifle will accept AR-15/M16-style magazines, commonly available in capacities of 5, 9, 20, and 30 rounds.

Notes

Make

- "TAVOR" is marked on the left side of the firearm.
- "Tavor" is named after a mountain in upper Galilee in Israel.

Model

- model is not marked on the firearm.
- "TAVOR" is marked on the firearm.
- this firearm is a purpose-built, semi-automatic variant of the Tavor model 21 Tavor Assault Rifle (TAR), designed in conjunction with Barrett Firearms and features a gas operated, assault rifle in a bullpup configuration utilizing a long piston rigidly attached to the bolt carrier, and incorporates a rotating bolt with seven locking lugs.
- features include: moulded synthetic stock; open adjustable flip-up sights with integral Picatinny rail; ambidextrous safety/selector; ambidextrous mechanism that allows the user to select which side empty cases are ejected from.
- all operating components are mounted in a polymer housing reinforced with steel inserts. Access is gained through a hinged butt plate that swings down for inspection and disassembly.
- Tavor model 21 is made in a number of variations and barrel lengths.
- Tavor model 21 CTAR (Commander Tavor Assault Rifle) with a 380 mm barrel has an overall length of 640 mm, and an average weight of 2.7 kgs to 3.2 kgs.
- Tavor model 21 MTAR (Micro Tavor Assault Rifle is submachine gun-sized) with a 250 mm barrel has an overall length of 480 mm, and an average weight of 2.4 kgs.
- Tavor model 21 STAR (Sharpshooting Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 3.4 kgs to 3.7 kgs.
- Tavor model 21 TAR (Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 2.8 kgs to 3.3 kgs.
- Tavor model 21 TC (Tavor Carbine) with a 409 mm barrel has an overall length of 670 mm, and an average weight of 2.8 kgs.
- Tavor model 21 TSR (Tavor Sporting Rifle) with a 460 mm barrel has an overall length of 706 mm, and an average weight of 3.5 kgs.

Action

- gas-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial number is marked on left side of receiver/frame at rear of stock.

Shots - detachable box magazine.

Notes

Make

- "TAVOR SAR .223 REM" over "IWI US - HARRISBURG, PA" and "IWI" over "TAVOR" was observed marked on the left side of the firearm of an example.
- "Tavor" is named after a mountain in upper Galilee in Israel.

Model

- "TAVOR SAR .223 REM" or "TAVOR SAR" over "IWI US - HARRISBURG, PA" observed marked on the left side of the firearm of some examples.
- version marked "TAVOR SAR 7.62 NATO" introduced in 2018; includes minor cosmetic differences and design updates such as short stroke piston.
- "TAVOR SAR" is a semi-automatic, gas operated variant of the Tavor model 21 TAR (Tavor Assault Rifle), with a steel reinforced polymer bullpup configuration receiver/frame; calibre conversion kits available for some models.
- features include: round barrel with a threaded muzzle for a flash hider/muzzle brake; molded synthetic stock including pistol grip and trigger guard that encloses the full hand; integral, open, adjustable flip-up sights within the top accessory rail; ambidextrous safety/selector; magazine release in front of the magazine well; bolt release lever behind the magazine well; configurable for left or right hand ejection; black, O.D. green, or tan finish.
- overall length with a 419 mm (16 1/2") barrel is 663 mm (26 1/8").
- overall length with a 461 mm (18.2") barrel is 729 mm (28.7").
- average weight is from 2.8 kg to 3.3 kg
- Tavor model 21 is made in a number of variations and barrel lengths.
- Tavor model 21 CTAR (Commander Tavor Assault Rifle) with a 380 mm barrel has an overall length of 640 mm, and an average weight of 3.58 kg (7.9 lbs) to 3.7 kg (8.15 lbs).
- Tavor model 21 MTAR (Micro Tavor Assault Rifle is submachine gun-sized) with a 250 mm barrel has an overall length of 480 mm, and an average weight of 2.4 kg.
- Tavor model 21 STAR (Sharpshooting Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 3.4 kg to 3.7 kg.
- Tavor model 21 TAR (Tavor Assault Rifle) with a 460 mm barrel has an overall length of 720 mm, and an average weight of 2.8 kg to 3.3 kg.
- Tavor model 21 TC (Tavor Carbine) with a 409 mm barrel has an overall length of 670 mm, and an average weight of 2.8 kg.
- Tavor model 21 TSR (Tavor Sporting Rifle) with a 460 mm barrel has an overall length of 706 mm, and an average weight of 3.5 kg.
- "TAVOR SAR 7.62 NATO" overall length with a 420mm barrel is 680mm, and overall weight is 4.09 kg.

Manufacturer

- Tavor 21 SAR components are manufactured by both Israel Weapon Industries (IWI) and IWI US.
- Tavor 21 SAR is assembled in the USA by IWI US.
- "TAVOR SAR .223 REM" over "IWI US - HARRISBURG, PA" and "IWI" over "TAVOR" was observed marked on the left side of the firearm of an example.
- "IWI US, Incorporated" is the USA based subsidiary of Israel Weapon Industries (IWI) of Rmat Hasharon, Israel.
- "IWI US, Incorporated" was established in 2012.
- "IWI US, Incorporated" is located in Harrisburg, Pennsylvania, U.S.A.

Action

- gas operated.

Serial Number

- serial number is marked on the left rear of the stock within a window-
- serial number observed consisted of eight numbers without a letter prefix or suffix on the earlier production.
- serial number observed consisted of a letter prefix (T) and seven numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre identification is marked on the barrel.
- "223 REM." was observed marked on the left side of the stock on some examples.
- 223 REM rifling characteristics: 1 turn in 7 inches, right hand twist.
- 9MM LUGER rifling characteristics: 1 turn in 10 inches, right hand twist.

Shots

- detachable box magazine.
- uses all magazines available for AR15/M16 type rifles.
- 9MM LUGER calibre use Colt AR pattern 32 rounds magazine.

Canadian Law Comments

- the Tavor SAR model has been determined to be a bull-pup design and does not incorporate a Bull-Pup stock.

Notes

Make

- The make is not marked on the firearm.
- This firearm is of the design commonly known as the Tavor rifle.

Model

- this selective fire bullpup configuration firearm was first used by the Israeli Defence Force (IDF) in 2010, and evolved from the Tavor 21 MTAR (Micro Tavor Assault Rifle).
- "X95" marked on the left side of the firearm, behind the magazine well.
- all operating components are mounted in a polymer housing reinforced with steel inserts. Access is gained through a hinged butt plate that swings down for inspection and disassembly.
- features include: AR15-type muzzle brake; round rifled chrome-lined steel barrel; top, side, and front ventilated polymer forend with integral hand stop at front; integral full length top mounted optic/accessory rail with inset adjustable flip-up blade front and aperture rear sight; slot for cocking handle on left and right side over the vertical pistol grip; three-position selector lever with settings marked "S" (safe), "R" (repetition aka. semi-automatic), and "A" (automatic); selector configurable for left or right handed operation; ambidextrous magazine release between cocking handle slot and grip; interchangeable grip assembly with integral rectangular guard that encloses the shooter's hand, or with integral round trigger guard; single trigger; mag well behind vertical grip; left side barrel lock pivot between grip and mag well; slot for ejection port on left and right side over mag well; removable ejection port cover and shell deflector for left or right handed operation; bolt release on underside of shoulder stock behind the mag well; hinged rubber butt plate.
- overall length with 330mm (15") barrel is 580mm (22 7/8"); weight is 3.3kg (7.26 lbs.).

Manufacturer

- The company logo is marked on the firearm.
- "I.W.I." or "Israel Weapon Industries" or variation is usually marked on the firearm.

Action

- gas operated, blowback firing from the closed bolt position.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number may be marked in a window on the left side of the stock. - serial number of an observed example consisted of eight numbers without a letter suffix or prefix.
Calibre	- rifling characteristics: 6 grooves, right hand twist, one turn in 7"/178mm.
Shots	- utilizes the AR15/M16-type detachable box magazine.
Canadian Law Comments	- as it left the factory, this firearm may have been equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm would remain "Prohibited" per CC 84-1, para (c) an automatic firearm, whether or not it has been altered to discharge only one projectile with one pressure of the trigger.

- May also be known as "Tavor X95".
- This is a semi-automatic commercial version of the X95 bullpup configuration firearm that was introduced in 2015; the military version was first used by the Israeli Defence Force (IDF) in 2010, and had evolved from the Tavor 21 MTAR (Micro Tavor Assault Rifle).
- Features include: top, side, and front ventilated polymer forend with integral hand stop at front; integral full length top mounted accessory rail with inset adjustable flip-up blade front and aperture rear sight; slot for cocking handle on left and right side over the vertical pistol grip; two-position safety lever configurable for left or right handed operation; ambidextrous magazine release between cocking handle slot and grip; interchangeable grip assembly with integral rectangular guard that encloses the shooter's hand, or with integral round trigger guard; single trigger; mag well behind vertical grip; left side barrel lock pivot between grip and mag well; slot for ejection port on left and right side over mag well; removable ejection port cover and shell deflector for left or right handed.

Manufacturer

- The company logo is marked on the firearm.
- The company logo consists of the letters "IWI" over a stylized diamond shape within a circle.
- "ISRAEL WEAPON INDUSTRIES LTD." is marked on the left side of the receiver/frame.

Action

- Gas operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the barrel.
Shots	- Detachable box magazine.
Canadian Law Comments	- This firearm has been determined to be a bull-pup design and does not incorporate a bull-pup stock.

Notes

Make

- "TAVOR - X95" is marked on the left side of the firearm.
- "Tavor" is named after a mountain in upper Galilee in Israel.

Model

- "TAVOR - X95" marked on the left side of the firearm, behind the magazine well.
- this semi-automatic commercial version of the X95 bullpup configuration firearm was introduced in 2015; the military version was first used by the Israeli Defence Force (IDF) in 2010, and evolved from the Tavor 21 MTAR (Micro Tavor Assault Rifle).
- all operating components are mounted in a polymer housing reinforced with steel inserts. Access is gained through a hinged butt plate that swings down for inspection and disassembly.
- features include: AR15 type muzzle brake; round rifled chrome-lined steel barrel; top, side, and front ventilated polymer forend with integral hand stop at front; integral full length top mounted optic/accessory rail with inset adjustable flip-up blade front and aperture rear sight; slot for cocking handle on left and right side over the vertical pistol grip; two-position safety lever configurable for left or right handed operation; ambidextrous magazine release between cocking handle slot and grip; interchangeable grip assembly with integral rectangular guard that encloses the shooter's hand, or with integral round trigger guard; single trigger; mag well behind vertical grip; left side barrel lock pivot between grip and mag well; slot for ejection port on left and right side over mag well; removable ejection port cover and shell deflector for left or right handed operation; bolt release on underside of shoulder stock behind the mag well; hinged rubber butt plate.
- overall length with a 419mm (16.5") barrel is 664mm (26.15"), average weight is 3.59kg (7.9 lbs.).

Manufacturer

- the Israel Weapon Industries (IWI) logo is marked on the left side of the firearm, near the butt plate.
- "IWI US - HARRISBURG, PA" is marked on the left side of the firearm beneath the make and model name.
- "MADE IN ISRAEL" is marked on the right side of the barrel.
- assembled in the United States from imported and American made parts.

Action

- gas operated.

Serial Number

- serial number is marked in a window on the left side of the stock.
- serial number of an observed example consisted of eight numbers without a letter suffix or prefix.
- serial number of an observed example consisted of a letter prefix "T", and seven numbers.

Shots

- detachable box magazine.

Canadian Law Comments

- the X95 model has been determined to be a bull-pup design and does not incorporate a Bull-Pup stock.

Notes

Make

- The make is not marked on the firearm.
- This firearm is of the design commonly known as the Tavor rifle.

Model

- "X95-MSW" is marked on the left side of the firearm.
- This is a further development of the Tavor 21 MTAR (Micro Tavor Assault Rifle).
- All operating components are mounted in a polymer housing reinforced with steel inserts. Access is gained through a hinged butt plate that swings down for inspection and disassembly.
- Features include: ambidextrous controls and a multi rail system.
- Overall length with a 330 mm (13 inches) barrel is 580 mm (23 inches).

Manufacturer

- The company logo is marked on the firearm.
- "ISRAEL WEAPON INDUSTRIES" is marked on the left side of the firearm.

Action

- Gas operated.

Serial Number

- Serial number is marked on a metal strip viewable through a window on the left side of the stock.

Calibre

- The calibre designation is marked on the barrel.
- Rifling characteristics in calibre 5.56MM NATO: 6 grooves, 1 turn in 7 inches, right hand twist.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- Detachable box magazine.
- Utilizes the AR15/M16-type detachable box magazine.

Canadian Law Comments

- This firearm has been determined to be a bull-pup design and does not incorporate a bull-pup stock.
- This firearm incorporates the receiver/frame of the Tavor X95 full automatic bull-pup rifle.

Notes

Make

- "F.C. TAYLOR FUR CO. ST. LOUIS. MO." is marked on the left side of the receiver/frame.
- F.C. Taylor Fur Company was established in St. Louis, Missouri, U.S.A. in 1871.
- F.C. Taylor Fur Company ceased operations in 1941.

Model

- "TAYLOR FUR GETTER" is marked on the left side of the receiver/frame.
- "PAT'D JUNE 2 1914" and "OTHER PAT'S PENDING" is usually marked on the right side of the receiver/frame.
- this device is a passive trap gun, patented by C.D. Lovelace on June 2, 1914.
- the Taylor Fur Getter is characterized by a brass frame, iron barrel, elongated bait hook protruding forward in line with the muzzle and a swivel stake arrangement mounted centrally on the receiver/frame.
- this firearm is designed to be mounted on a stake with the bait hook attached to the trigger; when the hook is pulled the trigger pushes the hammer back releasing it to strike the firing pin.
- the stake and bait hook could be removed and the trap gun could then be used as a pocket rifle or pistol.
- generally thought to have been produced circa 1921 to 1941.

Manufacturer

- manufacturer's name does not usually appear on the firearm.

Canadian Law Comments

- should this firearm be converted or modified to be fired with one hand, then it would become a restricted handgun.

Notes

Make

- "F.C. TAYLOR FUR CO. ST. LOUIS. MO." is marked on the left side of the receiver/frame.
- F.C. Taylor Fur Company was established in St. Louis, Missouri, U.S.A. in 1871.
- F.C. Taylor Fur Company ceased operations in 1941.

Model

- manufactured from 1922 to approximately 1934.
- "TAYLOR FUR GETTER" is marked on the left side of the receiver/frame.
- "PAT'D JUNE 2, 1914" and "OTHER PAT'S PENDING" may be marked on the right side of the receiver/frame.
- "Taylor Fur Getter" is a passive trap gun.
- actual use of this firearm for its original intended purpose is prohibited by law.
- this passive trap gun was patented by C.D. Lovelace on June 2, 1914.
- although Mossberg built the later smaller-calibre models, they deny producing the "Sure Shot" model of this firearm.
- this firearm may be mounted on a stake and has a bait hook attached to the trigger. When the hook is pulled sufficiently the trigger pushes the hammer back and then releases it to strike the firing pin.
- the stake and bait hook can be removed and the trap gun can be used as a pocket rifle or pistol.

Manufacturer

- manufacturer's name may be marked on the left side of receiver/frame.

Notes

Make

- F.C. Taylor Fur Company was established in St. Louis, Missouri, U.S.A. in 1871.
- F.C. Taylor Fur Company ceased operations in 1941.

Model

- manufactured from 1928 to 1932.
- "TAYLOR TRAPPERS' SPECIAL" is marked on the barrel.

Manufacturer

- "O.F. MOSSBERG & SONS NEW HAVEN, CONN. U.S.A." may be marked on the barrel.

Calibre

- calibre marked on left side of barrel just forward of the receiver/frame.

Remarks

- Trappers' Special has two types of bolts, first was a two piece bolt body held together by a screw. The bolt handle was very thin, ending in a small round knob. The second bolt body is a one piece with a 30% larger bolt handle. Manufachured by Mossberg and sold as the Model B 22 Cal Bolt Action and sold as the 'Premier' by Montgomery Ward .

122749 - 1	32 RF	1	89	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Taylor & Company markings are found on the barrel.

Model

- no model designation is marked on the firearm, this model of the design commonly referred to as a "Derringer" (originally spelled Deringer, after Henry Deringer, maker of the small, single shot pistol used to assassinate Abraham Lincoln).
- features include: brass receiver/frame with a silver plated finish (many examples will not retain much of the original finish) ; blued, octagonal barrel; walnut or rosewood grips; spur trigger; barrel release lever is mounted on the underside of the forward portion of the receiver/frame.

Manufacturer

- L.B. Taylor & Company is believed to have produced approximatelt 1800 of these small, single barrel "Deringer" pistols. While very limited information is available on this manufacturer most available material, supported by known barrel markings suggests that production was done in Chicopee Falls, Massachusetts circa 1868 - 1870.

Serial Number

- one sample examined was numbered on the bottom of the butt with sequential numbers. The serial number may also be repeated on the underside of the barrel.

Notes

Make

- "TAYLORS & CO. WINCHESTER VA" is usually marked on the barrel.
- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 2002.
- "1873 Cattleman" is a modern reproduction of the Colt model 1873 Single Action Army.
- "1873 Cattleman" Single Action revolver is manufactured by Uberti.
- features include: blade front sight and a groove in the top strap for a rear sight; round rifled barrel with right side ejection rod assembly; solid top receiver/frame with fluted or non-fluted removable cylinder and right side loading gate; exposed spur hammer; single action trigger mechanism; smooth or checkered walnut or plastic grips; finishes and finish combinations including color case hardened receiver/frame with blued or brass grip frame and blued barrel and cylinder or antique, chromed, nickel or stainless steel finish.
- "1873 Cattleman" was also available with a convertible cylinder for 45 AUTO/45 COLT.
- "1873 Cattleman Sheriff Model" variant has no ejector rod assembly.
- "1873 Cattleman Sheriff Birdhead Model" features a "bird's head" grip.
- "1873 Cattleman" with a white heat treated finish was introduced in 2003.

Manufacturer

- manufacturer's designation and/or trademark "U within an octagonal barrel" may be marked on firearm.

Serial Number

- serial number usually marked on the underside of the receiver/frame in front of the trigger guard.
- observed serial number consisted of a two letter "TC" prefix and four numbers.

Calibre

- may be marked on the barrel assembly.

Shots

- removable cylinder.

Other Markings

- "MADE IN ITALY" may be marked on the firearm.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy. - Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A. - Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors. - Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR. - Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle. - Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets. - Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.
Model	- this is a modern reproduction of the Colt model 1894 Bisley Single Action Army, termed the "1873 Cattleman Bisley Single Action" by Uberti. This version is fitted with a Bisley style grip. - features include: color case hardened receiver/frame with blued finish barrel and cylinder; blade front sight and grooved rear sight; full length ejector rod shroud; loading gate on right side of receiver/frame; single action trigger mechanism; fluted cylinder; walnut or plastic grips. - the grip and the spur on the hammer identify a Bisley revolver. The grip will give the appearance of a curving straight downward. The hammer spur will normally curve in a rearward direction, keeping the hammer below the level of the rear sight in both the cocked and uncocked position.
Manufacturer	- manufacturer's designation and/or trademark "U within an octagonal barrel" may be marked on firearm.
Calibre	- calibre designation may be marked on the barrel assembly.
Other Markings	- "MADE IN ITALY" may be marked on the firearm.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- Model designation does not appear on the firearm.
- "Grice" over "1762" is marked on the rear of the lock plate, with a Crown over "G.R" marked on the front of the lock plate.
- This is a reproduction of the British Brown Bess flintlock musket commonly called a '42" Brown Bess' because of its barrel length.
- Features include: one piece walnut stock; brass butt plate, trigger guard, ramrod thimbles; ramrod, barrel, single trigger and lock unfinished; sling swivel on the front of the trigger guard and front half of stock; fixed stud front sight acts as bayonet lug.
- This firearm may be available either assembled or in kit form.
- Overall length with a 1067mm (42") barrel is 1480mm (58.25"), average weight is 4kgs (8.81lbs).

Manufacturer

- Davide Pedersoli's trademark "dp" within an oval, "Davide Pedersoli & C.", "Pedersoli", "Pedersoli - Italy", or a variation thereof is marked on the firearm.

Action

- Muzzle loader, flintlock ignition.

Serial Number

- Serial number is usually marked on the left side of the barrel near the breech.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- Usually marked "CAL.75" on the side of the barrel.
- This 75 caliber smooth bore, black powder musket fires a .735" round ball using a .010" patch.

- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- model is not marked on the firearm.
- this is a modern reproduction of a Colt 1848 Dragoon Model 1 black powder, percussion, single action revolver, which was originally manufactured from 1848 to 1850.
- Colt 1848 Dragoon Model 1 was also known as the "Colt First Model Dragoon".
- features include: round barrel; open top color case-hardened steel receiver/frame with a removable non-fluted roll engraved cylinder with Ranger and Indian scene; exposed spur hammer; single action trigger mechanism; brass backstrap and triggerguard; one piece wood grip.
- Roger's & Spencer type conversion cylinder is available to convert the black powder percussion revolver to fire cartridge ammunition.
- overall length for a 191 mm (7 1/2") barrel is 349 mm (13 3/4"), and the average weight is 2.22 kgs (4.875 lbs).
- Colt 1848 Dragoon distinguishing features between the Model 1, 2, and 3 are:
- Model 1: oval cylinder stop notches, and a square back trigger guard.
- Model 2: rectangular cylinder stop notches, and a square back trigger guard.
- Model 3: rectangular cylinder stop notches, and a rounded trigger guard.
- Model 3: may have a groove in the bottom of the grip strap for a shoulder stock.

- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- "NAVY MOD 1851" may be marked on the firearm.
- this is a modern reproduction of a "Colt model 1851 Navy" black powder percussion single action revolver.
- features include: colour case hardened steel receiver/frame and brass trigger guard; walnut grips; bead front sight; hammer; open top receiver/frame; octagonal barrel; the barrel and cylinder are blued and the cylinder features an engraved naval battle scene.
- a Roger's & Spencer type conversion cylinder is available to convert the black powder percussion revolver to fire cartridge ammunition.

Manufacturer

- "A.UBERTI" or the manufacturer's logo, the letter "U" in a octagon, may be marked on the firearm.

Calibre

- "CAL. 36" and "BLACK POWDER ONLY" may be marked on the barrel assembly.

Model	- this is a modern reproduction of the Colt 1851 Navy percussion revolver fitted with the Richards-Mason metallic-cartridge conversion kit. - the original Colt 1851 Navy percussion revolver was fitted with an adapter kit designed and patented by Richards & Mason. - this conversion replaced the barrel, cylinder, and loading ram with a new barrel, new cylinder, and ejector-rod, and made reloading much faster and easier. - features include: octagonal barrel; open top receiver/frame with round cylinder; ejector rod assembly; single action trigger mechanism; exposed spurred hammer; blued steel or brass trigger guard and back strap; colour case-hardened hammer and trigger; blued barrel and engraved cylinder; walnut grip panels.
Serial Number	- the serial number is usually marked on the underside of the receiver/frame.
Calibre	- caliber is usually marked on the barrel.
Shots	- fixed cylinder.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- this is a modern reproduction of one of the earliest successful attempts to produce a reliable handgun that could use self-contained metallic cartridges;
- the revolver being reproduced started out as an Colt 1860 Army percussion handgun, but was fitted with an adapter kit invented by Charles Richards, a Colt employee.
- this replaced the barrel, cylinder, and loading ram with a new barrel, new cylinder, and ejector-rod, and made reloading much faster and easier
- features include: one piece walnut grips; satin finish; steel, colour case-hardened receiver/frame; blued, tapered round barrel; brass blade front sight; V notch/hammer nose rear sight; brass trigger guard.

Action

- single action.

Serial Number

- the serial number is usually marked on the underside of the receiver/frame.

Calibre

- caliber is usually marked on the barrel.

Shots

- fixed cylinder.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- this is a reproduction of a muzzle loading, side hammer, percussion ignition sporting rifle as was popular in the American Midwest in the 1850's. The Hawken name refers to the Hawken brothers, gunsmiths from St. Louis who produced this style of rifle for the western gun trade and whose name subsequently became synonymous with the design.
- features include: fixed blade front sight, adjustable rear sight; side hammer mounted on case hardened lock plate; double set triggers; wooden ramrod located on the underside of the barrel; rust browned barrel with a half length walnut stock.
- overall length with a 827mm (32 5/16") barrel is 1233mm (48 13/16") average weight is 4.4kgs (9.7lbs).

Manufacturer

- Davide Pedersoli's trademark "dp" within an oval, "Davide Pedersoli & C.", "Pedersoli", "Pedersoli - Italy", or a variation thereof is marked on the firearm.

Action

- muzzle loading, percussion ignition.

Serial Number

- serial number is usually marked on the barrel/receiver/frame of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- may not be marked on the firearm.
- this is a modern Italian made reproduction of a Sharps 1874 Sporting Rifle which is available in several grades of finish, calibres, and rifle/carbine variations.
- features include: octagonal blued barrel; oil finish American walnut straight-grip stock and capped or schnabel forearm; fixed front and adjustable rear sights; colour case-hardened or "in the white" receiver/frame; single or double set triggers; predrilled tang for Creedmore sight, and extended trigger guard.
- variants may have a patchbox, engraved receiver/frame, pewter forearm tip, and checkered stock and forearm.
- overall length for a 813mm (32") barrel is 1245mm (49"), average weight is 4.55kg (10lbs).

Manufacturer

- "ARMI SPORT" is marked on the barrel.
- "ARMI SPORT" name is used by Chiappa for marketing modern reproductions of black powder muzzle loaders, US Civil War and "Old West" firearms.
- Chiappa's logos on firearms from Italy are an "AC" for Armi Chiappa or "CF" for Chiappa Firearms within an oval.

Action

- lever operated falling (dropping) block design.

Serial Number

- is marked on the upper rear receiver/frame tang.
- serial number of a referenced example consisted of two letter (SH) and four numbers.

Calibre

- may be marked on the barrel assembly.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- carbine version was introduced in 2000 and the rifle version was introduced in 2005.
- model designation may not be marked on the firearm.
- this is a reproduction of the "Spencer 1865" carbine/rifle.
- the original was the second generation of one of the first truly practical repeating long-arms designed to use metallic cartridges, and has an important place in history as being one of the most widely used and effective firearms during the US Civil War.
- features include: an unmistakably shaped lever and receiver/frame (the lever forms a large trigger-guard, and pivots around a pin in the bottom of a very large "hump" at the bottom of the receiver/frame); blade-type extractor on the left side of the chamber; a hammer is mounted on a side-plate on the right side; straight-grip walnut stock with slightly curved buttplate, used either a short forearm with one barrel band (carbine), or a full-length forearm with three barrel bands (rifle); blade front sight and an adjustable rear sight; case-hardened receiver/frame.

Serial Number

- serial number is marked on the receiver/frame.

Calibre

- calibre designation may be marked on the firearm.

Shots

- tubular magazine is mounted inside the buttstock.

Remarks

- the Spencer Repeating Rifle Company was founded in Boston, Massachusetts by Christopher M. Spencer in 1861, to manufacture repeating rifles for the Union forces during the Civil War. They manufactured carbines and full-length rifles (both military-issue and sporting variations) up until 1869.
- this model was also produced by the "Burnside Rifle Company".

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- introduced in 1998.
- the full model designation is not marked on the firearm; marked/dated "1857" followed by "US Springfield" on the lockplate.
- this is a modern reproduction of the Springfield model 1855 U.S. Rifle-Musket, with a dummy Maynard-priming mechanism (this rifle functions with percussion caps).
- features include: oil finished American walnut full stock; unblued barrel, lockplate, hammer, extended trigger guard, buttplate, ramrod, sling swivels and three barrel bands; brass nosecap; blade front and adjustable (for elevation only) rear sight.
- in 2005 the "2nd Model" was introduced which features a two leaf rear sight, iron forend cap and a patchbox on the right side of the buttstock and is marked/dated "1859" on the lockplate.
- overall length for a 1016mm (40") barrel is 1422mm (56"), average weight is 4.43kg (9.75lbs)

Action

- black powder percussion muzzle loader.

Calibre

- "CAL 58" may be marked on the barrel/receiver/frame.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- "Model 1886" may be marked on the upper receiver tang; "Take Down" denotes that this rifle may be disassembled into two major pieces by rotating the take-down lever on the magazine tube and rotating the barrel to separate it from the receiver.
- this is a reproduction of the Winchester model 1886 rifle originally designed by John M. Browning.
- available in rifle or carbine configuration, and in a "classic" version which reproduces the original Winchester looks and styling, and in "ridge runner" versions (blued or chrome) with detachable muzzle brakes and synthetic furniture.
- features observed: blade front sight and an adjustable rear sight; octagonal or round barrel with a blued or chromed finish; blued, chromed or colour case-hardened receiver/frame, lever and forend cap; walnut forend and straight grip stock with a crescent butt plate or rubber buttpad.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial-numbered on the receiver/frame.

Shots - under-barrel tubular magazine.

Notes

Make

- Taylor's & Co., Inc. was founded in 1988 by Sue Hawkins and Tammy Loy.
- Taylor's & Co., Inc. is located in Winchester, Virginia, U.S.A.
- Taylor's & Co., Inc. is an importer and distributor of 1840 to 1892 period black powder and cartridge firearms and accessories for shooters, collectors, historical re-enactors, and competitors.
- Taylor's & Co., Inc. Tactical Line includes the 1911 pistol series and the M1 Upper for .22LR.
- Taylor's & Co., Inc. products include the Smoke Wagon, Runnin' Iron, Comanchero Rifle, and Runnin' Comanchero Rifle.
- Taylor's & Co., Inc. carry a full line of single action revolver, lever action rifle, 1874 Sharps models, shotguns, and black powder revolvers and Civil War Muskets.
- Taylor's & Co., Inc. firearms are manufactured by Bond Arms, Chiappa Firearms, Pedersoli, Pietta, and Uberti.

Model

- The model designation is not marked on the firearm.
- This is an Uberti-made reproduction of the Winchester 1894, introduced in 2018.
- Features include: blued finish; open adjustable sights; under barrel tubular magazine; single barrel band; checkered walnut forearm and straight-grip stock; color-case-hardened receiver/frame; right-side loading gate; top eject; and curved butt plate.

Manufacturer

- "UBERTI" and/or the letter "U" in an octagon around a rifled border and "Made in Italy" may be marked on the firearm.

Serial Number

- Serial number is marked on the receiver/frame.

Shots

- Fixed tubular magazine.

Notes

Make

- the make may or may not be marked on the firearm; this is a conversion of US-surplus M-14 rifles by the Israelis to a "bullpup"-style sniping rifle.

Model

- the model designation may or may not be marked on the firearm.
- this is a "bullpup" sniping rifle conversion of the US M-14 originally designed by Nehemiah Sirkis, but the rights to this design were purchased by TCI after Sirkis' company folded.
- features include: "bullpup" configuration; blued finish; multi-slot muzzle brake or suppressor; folding flip-up open sights for back-up use (the primary sights are an optical telescope mounted on the barrel); a "bullpup"-style carbon-fibre stock; a cheekpiece over the action of the rifle to protect the firer from ejected cases and moving parts; and a buttpad at the rear of the stock.
- this rifle may also be fitted with a suppressor.
- overall length is 850mm/33 1/2".

Manufacturer

- the manufacturer may or may not be marked on the firearm; this is a conversion of US-surplus M-14 rifles by the Israelis to a "bullpup"-style sniping rifle.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number is marked on the receiver/frame; the s/n may be hidden inside the shell of the stock.

Shots

- detachable box magazine.

Notes

Make

- "Tech-Force" or "Tech Force" or "TF" is usually marked on the receiver/frame.
- "Tech Force" products have been imported and distributed by Compasseco, Inc.
- "Compasseco, Incorporated" is an importer and distributor located in Bardstown, Kentucky, U.S.A.
- "Compasseco, Incorporated" has been importing and distributing airguns from China since the late 1980s.

Model

- model designation is marked on the receiver/frame.
- features include: trigger safety, rifled barrel, hardwood stock, adjustable sights, grooved for scope mount, and a blued finish.
- the carbine version of this model is known as the "Tech Force 11".
- overall length for 470mm barrel is 1092mm (43"), average weight is 2.90kg (6.4lbs).

Manufacturer

- Shanghai Air Gun (SAG) is a manufacturer based in Shanghai, China.
- Shanghia Air Gun was established in 1957.
- Shanghia Air Gun produces air rifles and air pistols under several different names such as SAG, Industry Brand and Tech Force.
- Shanghia Air Gun primary importers into North America are Air Gun Inc. of Houston, TX and Compasseco, Inc. of Bardstown, KY.

Action

- spring driven piston.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the receive/frame.

118145 - 1	308 WIN	1	0	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- on the specimen examined the MAKE was found only as a component of the serial number on the bottom of the manifold.

Model

- the entire device is designed to be as weather-proof as possible, the metal portion being fabricated from stainless steel and having a synthetic butt-stock.
- this is a single-shot device having no internal or external magazine.
- the baseline for this design and the engineering start-point is a Savage model 110C centre-fire rifle receiver/frame which is permanently modified by the addition of a manifold and firing spigot which reduces the inside diameter of the former barrel attachment point. The firing spigot and manifold are permanently attached to the receiver/frame. The firing gasses are directed through a manifold which has two 90 degree turns to put the centre of the chamber in the firing spigot approximately 30mm higher than the axis of the chamber. The chamber is not long enough to permit a normal 308 WIN calibre ball cartridge to be chambered.
- this firearm has no barrel, it has a hollow spigot approximately 30 mm off the centre-line of the chamber and the spigot is closed at the muzzle end.
- firing cycle: upon firing a blank propelling cartridge, the gas produced is directed 90 degrees upward and then 90 degrees forward through the manifold, then the gasses travel through the hollow spigot and are bled to the exterior to propell a cylindrical carrier to which a line may be attached.

Manufacturer

- manufacturer's name may not be found marked on the device except as noted in the serial number notes.

Type

- line throwing device - "DEEMED NON-FIREARM".

Action

- manually manipulated, bolt operated, single-shot device.

Serial Number

- serial number rationalization unknown.
- specimen observed had a serial number located on the under-side of the manifold.
- specimen serial number observed consisted of the five letter prefix "TETRA" followed by 4 digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - this device uses a 308 WIN calibre blank cartridge, the chamber is not long enough to permit a normal 308 WIN calibre ball cartridge to be chambered.

FRT Report

Firearm Reference Number (FRN): 22820
Make: Thalco
Model: Plinker

Summary

Make:	Thalco
Model:	Plinker
Manufacturer:	Rohm
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
22820 - 1	22 SHORT	6	64	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
22820 - 2	22 SHORT	6	71	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "THALCO PLINKER" is marked on the left side of the barrel.
- "THALCO" trade name was used by "Thalson Import Company" on revolvers manufactured by "Rohm".
- "THALSON" may be marked on the grip plate.

Model

- "THALCO PLINKER" is marked on the left side of the barrel.
- "PLINKER" is marked on the grips within a circle.
- this is a Rohm model RG-10 sold under the "THALCO PLINKER" name.
- features include: round barrel with or without ejector rod assembly; solid top receiver/frame with removeable fluted cylinder and loading gate on the right side; exposed cylinder pin under the barrel; exposed spur hammer; single/double action trigger mechanism; blade front sight and groove/notch in the top strap for a rear sight; black or white plastic grip plates; blued, nickled, or a mixture of both finish.

Manufacturer

- the Rohm logo of an "R" inside a football shaped oval is usually marked on the grip strap.
- "MADE IN GERMANY" may be marked on the right side of the barrel.
- "GERMANY" may be marked on the right side of the receiver/frame or on the bottom of the grip strap.

Serial Number

- the serial number is normally marked on the left side of the receiver/frame in front of the cylinder as sequential numbers.
- the serial number may also be marked on left side of the barrel or on the bottom of the grip strap.

Calibre

- the calibre is normally marked on the left side of the barrel. Example "Cal. 22 short".

Notes

Make

- either the company name and/or the trademark logo will be marked on the firearm.
- "TT&C" within a rectangle is marked on the grip strap under the right handgrip panel.
- "T.T.& C." is the trademark initials for "T. Theate & Company".

Model

- "Bulldog Type" is not marked on this firearm.
- model name is based on the "British Bull Dog" type of handgun characteristics and variations thereof.
- features include: round or octagonal barrel with blade front sight; solid top receiver/frame with a fluted or unfluted cylinder; exposed spur hammer; single/double action trigger mechanism; may have a folding-type trigger without trigger guard or conventional trigger with full trigger guard; wood, plastic or hard rubber grips; blued or nickel plated finish.
- Belgian proofmarks are apparent on this firearm.

Manufacturer

- "TT&C" within a rectangle is marked on the grip strap under the right handgrip panel.
- "T.T.& C." is the initials for "T. Theate & Company".
- Theate's name has been associated with firearms manufacturers in Liege, Belgium, since 1877.
- E. Theate was in partnership with L. Lambin from 1883 to 1893 as Lambin & Theate (L&T).
- Leon Dawdler formed the firm of Dawdler - Theate in 1877 and than amended the company name to Dawdler & Theate in 1886. Dawdler & Theate was succeeded by T. Theate & Company in 1894.
- Toussaint Theate formed the business of T. Theate & Co. (TT&C) in 1894 and was succeeded by Theate Freres in 1907.
- T. Theate & Co. also manufactured products under the name of "Lion Manufacturing Company" and "J. Robinson".
- Ernest and Adolphe Theate formed Theate Freres (T.F) in 1907 and was succeeded by E.A. Theate & Co. in 1950.
- E.A. Theate & Company was in business from 1950 to 1965.
- E. A. Theate & Company assets were taken over by Raick Freres in 1965.

Make

- "Theoben" is usually marked on the firearm.

Model

- "Evolution" is usually marked on the firearm.
- this is a modern, break barrel air rifle, built for target shooters and hunters.
- features include: ambidextrous beech or walnut stock with cheek-piece and rubber buttpad; receiver/frame grooved for scope mounts.
- the barrel is fitted with a permanently installed Evolution or Vortex silencer/sound suppressor, or a permanently installed barrel weight.
- overall length is 978 mm (38 1/2"), average weight is 3.4 kg (7.5 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name is usually marked on the receiver/frame and/or barrel. - Theoben Engineering is a manufacturer based in England that specializes in manufacturing pre-charged pneumatic and gas/spring power air rifles for field and competition use.
Action	- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 20 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Calibre	- the calibre designation is usually marked on the barrel.
Canadian Law Comments	- this model is available with a permanently installed sound suppressor/silencer or with a permanently installed barrel weight. - in Canada, the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm may correctly be identified as a "Non-Restricted Firearm".

Notes

Make

- the make designation "THEOBEN" is marked on the firearm.

Model

- "Rapid MK II" is marked on the receiver/frame.
- this is a modern high-power gas-ram air rifle; using a cylinder of compressed gas for power, instead of a metallic spring, built for target shooters and small-game/varmint hunters.
- features include: two-stage match trigger; manual safety; walnut checkered pistol grip stock with high comb and ventilated recoil pad; receiver/frame grooved for scope mounting.
- this model is available with a factory installed sound suppressor/silencer or a barrel weight.

Manufacturer

- the manufacturer's name is usually marked on the receiver/frame and/or barrel.
- Theoben Engineering is a manufacturer based in England that specializes in manufacturing pre-charged pneumatic and gas/spring power air rifles for field and competition use.

Action

- bolt operated
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 20 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 25 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- located on the receiver/frame.

Calibre

- marked on the barrel.

Canadian Law Comments

- this model is available with a sound suppressor/silencer or with a barrel weight.
- in Canada, the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm may correctly be identified as a "Non Restricted Firearm".

Notes

Make

- "Theoben" is usually marked on the firearm.

Model

- "MFR" is usually marked on the left side of the firearm.
- this is a modern air rifle based on the Theoben, Rapid 7 action, using a cylinder of compressed gas for power instead of a metallic spring. Built for target shooters and small-game/varmint hunters.
- features include: barrel is fitted with a full-length integral silencer/sound suppressor; two-stage match trigger; walnut, checkered pistol grip stock with high comb and ventilated recoil pad; receiver/frame grooved for scope mounting.
- three methods of loading, direct into the breech, a single shot holder or a multi-shot magazine.
- although the barrel has an integral, full-length silencer/sound suppressor it is also threaded at the muzzle for use with an additional, removable "MFR" silencer/sound suppressor to further reduce the noise level.
- overall length with 533 mm barrel is 1110 mm (43.5"), average weight is 3.4 kg (7.6 lbs).

Manufacturer

- the manufacturer's name is usually marked on the receiver/frame and/or barrel.
- Theoben Engineering is a manufacturer based in England that specializes in manufacturing pre-charged pneumatic and gas/spring power air rifles for field and competition use.

Action

- bolt operated, pre-charged pneumatic.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 20 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 25 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Calibre

- the calibre designation is usually marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm left the factory with an integral sound suppressor/silencer. The sound suppressor/silencer is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- if the prohibited device (sound suppressor/silencer) were to be removed from the firearm, the firearm may correctly be identified as a "Non Restricted Firearm".

Notes

Make - "Theoben" is usually marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- discontinued in 2001. This model was available in two versions that discharged a projectile at different power levels. Units were available that developed 12ft/lbs of energy as well as units that developed between 15ft/lbs - 22ft/lbs (depending on calibre).
- model designation may be marked on the firearm.
- this is a modern, break barrel air rifle, built for target shooters and hunters.
- features include: checkered Hyedua (an African hardwood, pronounced "shed-u-a") pistol grip stock with high comb and rubber buttpad; receiver/frame grooved for scope mounts; adjustable trigger; automatic safety catch.
- available with a standard or TransPort silencer/sound suppressor, or a barrel weight.
- overall length is 950 mm (37") with the standard silencer/sound suppressor, and 1090 mm (43") with the TransPort silencer/sound suppressor, average weight is 3.6 kg (8 lbs).

Manufacturer

- the manufacturer's name is usually marked on the receiver/frame and/or barrel.
- Theoben Engineering is a manufacturer based in England that specializes in manufacturing pre-charged pneumatic and gas/spring power air rifles for field and competition use.

Action

- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 20 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Calibre

- the calibre designation is usually marked on the barrel.

Canadian Law Comments

- this model is available with a permanently installed sound suppressor/silencer or with a permanently installed barrel weight.
- in Canada, the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm may correctly be identified as a "Non-Restricted Firearm".

Notes

Make

- "Theoben" is usually marked on the firearm.

Model

- introduced in 1998.
- "SLR 98" may be marked on the firearm.
- "SLR 98" is a variant of the model SLR88, which was a more complicated design requiring more extensive manufacturing and fitting.
- "SLR 98" is a standard pattern under lever gas-piston air rifle.
- features include: round barrel with an integral silencer or an external muzzle weight; receiver/frame has an integral scope mount; two stage trigger; automatic safety; stained walnut pistol grip stock with high Monte Carlo cheek piece and rubber butt pad; blued finish.
- overall length is 990 mm (39"), average weight is 3.5 kg (7.7 lbs).

Manufacturer

- manufacturer's name may be marked on the receiver/frame of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- spring-piston powered. - in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is marked on the receiver/frame of the firearm. - serial number rationalization is unknown.
Calibre	- calibre designation is marked on the barrel assembly.
Shots	- removable seven shot rotary magazine, that is advanced automatically upon cocking.
Canadian Law Comments	- this firearm may have left the factory equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - if the prohibited device (sound suppressor/silencer) were to be removed from the air gun, the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- "Theoben" is usually marked on the firearm.

Model

- discontinued in 2001, this model was a re-development of the previous Sirocco "Classic" model.
- "Taunus" is usually marked on the firearm.
- this is a modern, break barrel air rifle, built for target shooters and hunters.
- features include: Hyedua wood (an African hardwood, pronounced "shed-u-a") checkered pistol grip stock with a roll over cheek-piece and rubber buttpad; receiver/frame grooved for scope mounts.
- the 254 mm barrel is fitted with a permanently installed Standard, Vortex, or Evolution silencer/sound suppressor, or a permanently installed barrel weight.
- overall length with an Evolution silencer/sound suppressor installed is 1040 mm (41"), average weight is 3.8 kg (8 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturer's name is usually marked on the receiver/frame and/or barrel. - Theoben Engineering is a manufacturer based in England that specializes in manufacturing pre-charged pneumatic and gas/spring power air rifles for field and competition use.
Action	- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 20 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Calibre	- the calibre designation is usually marked on the firearm.
Canadian Law Comments	- this model is available with a permanently installed sound suppressor/silencer or with a permanently installed barrel weight. - in Canada, the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm may correctly be identified as a "Non-Restricted Firearm".

Notes

Make

- the make designation is marked on the top of the left barrel as "THIEME & SCHLEGELMILCH SUHL".

Model

- the model designation is not marked on the firearm.
- features include: two side by side shotgun barrels with a rifle barrel centred below; double triggers; fold down rifle sights and blade foresight; top lever rifle barrel selector and pop-up aperture sight activator; bottom lever opening; exposed double hammers on side lock cocking mechanisms for the shotgun barrels; highly engraved side plates and receiver/frame; sliding top tang safety; checkered semi-pistol grip buttstock with trapdoor cartridge magazine forward of the toe of the stock; checkered forend; ejectors; wide, matted sighting rib; coin finished receiver/frame and blued barrels.

Manufacturer

- the make designation is marked on the top of the left barrel as "THIEME & SCHLEGELMILCH SUHL".
- "NIMROD-GEWEHR-FABRIK" is marked on the barrel
- Nimrod Gewehr Fabrik is a trade name used by Thieme & Schlegelmilch prior to 1939.

Action

- hinged barrel design.
- barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the watertable of the receiver/frame and on the barrel assembly.
Calibre	- the calibre designations are marked as part of the proof marks on the barrel assembly.

Notes

Make

- "Thompson" is a trade name/mark owned by the "Auto-Ordnance Corporation".
- "THOMPSON SEMI-AUTOMATIC CARBINE" over "CALIBRE .45 AUTOMATIC COLT CARTRIDGE" over "MANUFACTURED BY" over "COLT'S PATENT FIRE ARMS MFG. CO." over "HARTFORD, CONN., U.S.A." are marked on the left side of the receiver/frame.

Model

- "MODEL OF 1927" and "THOMPSON SEMI-AUTOMATIC CARBINE" are marked on the left side of the receiver/frame.
- this firearm was built at the factory using an M1921 receiver and modifying it so as to be capable of semi-automatic fire only.
- the markings on the firearm / name of the model was changed by milling-off the old information and remarking the firearm as follows: "THOMPSON SEMI-AUTOMATIC CARBINE" "MODEL OF 1927".
- this firearm is built at the factory to be semi-automatic only and therefore has been assigned TYPE - Commercial Version (CV).

Manufacturer

- Auto Ordnance Corporation.

Type

- capable of semi-automatic fire only.
- although this firearm strongly resembles a full-automatic firearm, it left the factory capable of semi-automatic fire only, and it has been deemed to be a "COMMERCIAL VERSION" (CV) firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- retarded blow-back, "Blish Principle", bronze locking-piece, dissimilar metal (friction), locking device. - capable of semi-automatic fire only.
Serial Number	- numbered, serial number rationalization unknown.
Shots	- detachable box magazine in 5 and 20 shots, the 50 shots magazine is a drum magazine.
Other Markings	- the markings on the firearm: "THOMPSON SEMI-AUTOMATIC CARBINE" "MODEL OF 1927".
Remarks	- this firearm was built at the factory using an M1921 receiver and modifying it so as to be capable of semi-automatic fire only. - although this firearm strongly resembles a full-automatic firearm, it left the factory capable of semi-automatic fire only, and it has been deemed to be a "COMMERCIAL VERSION" (CV) firearm.

Notes

Make

- "Thompson" is a trade name/mark owned by the Auto-Ordnance Corporation.
- "Thompson Semi-Automatic Carbine" is marked on the left side of the receiver/frame.

Model

- "MODEL OF 1927 A3" and "THOMPSON SEMI-AUTOMATIC CARBINE" are marked on the left side of the receiver/frame.
- this is a reproduction of the original Thompson model of 1927 except the 1927A3 is produced in 22 LR only as opposed to 45 ACP for the 1927 model.
- Auto Ordance Corporation has copyright privileges on the Thompson arrowhead trademark as illustrated on image 6.
- This firearm also illustrates a 30 round box magazine and a 22 LR adaptor fitted to the magazine well of the frame. This adaptor is required for this type of 22 LR magazine to function properly. This model was discontinued in 1994.
- Picture 9, illustrates the 1927A3 without the magazine well adaptor. The original 45 ACP box magazine was converted to take 10 rounds of 22 LR. It also illustrates a reproduction 50 round drum magazine with 10 round insert for 22 LR.

Manufacturer

- "Auto-Ordnance Corporation" is marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Type	- capable of semi-automatic fire only.
Action	- blow-back operated.
Serial Number	- serial number rationalization unknown, sample observed had a serial number that consisted of a prefix letter "T" followed by four digits.
Calibre	- made in 22LR only.
Shots	- full sized magazines, both the box magazine and the drum magazine, have 22 LR calibre magazine inserts of lessor capacity than the "host" magazine.

Notes

Make

- "Thompson" is a trade name/mark owned by the "Auto-Ordnance Corporation".
- "THOMPSON SUBMACHINE GUN" over "CALIBRE .45 AUTOMATIC COLT CARTRIDGE" are marked on the left side of the receiver/frame.
- "AUTO-ORDNANCE CORPORATION" is marked on the right side of the receiver/frame.

Model

- "MODEL OF 1928" and "THOMPSON SUBMACHINE GUN" are marked on the left side of the receiver/frame.
- "Auto-Ordnance Corporation" contracted "Savage Arms" to produce this model.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- Savage Arms Corporation production may be identified by the letter S which will be found on most of the component parts of this firearm and the prefix "S" in the serial number.
- Savage Arms is / was a firearms manufacturer located in Utica, New York.
- Savage manufactured Thompson Submachine Guns for the "Thompson Automatic Arms Company" starting in November 1939 with the first firearms being delivered in "Spring" 1940.
- 800,000 M1928 and M1928-A1 guns manufactured by Savage between 1940 and 1942.

Action

- retarded blowback, "Blish Principle", bronze locking-piece, dissimilar metal (friction), locking device.

Serial Number

- "S" prefix to serial No. denotes Savage production.
- serial number is located on the left side.

Shots

- detachable box magazine in 5,10, 20 & 30 shots.
- 50 shot drum magazines are available and known as the "L" drum magazine.
- 100 shot drum magazines are available and known as the "C" drum magazine.

Make

- "Thompson" is a trade name/mark owned by the "Auto-Ordnance Corporation".
- "THOMPSON SUBMACHINE GUN" over "CALIBRE .45 AUTOMATIC COLT CARTRIDGE" are marked on the left side of the receiver/frame.
- "AUTO-ORDNANCE CORPORATION" is marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "U.S. MODEL 1928 A1" and "THOMPSON SUBMACHINE GUN" are marked on the left side of the receiver/frame. - it would appear that very few Model 1928 or Model 1928A1 Thompson Submachine Guns were manufactured by Auto-Ordnance Corporation before the production of the "new" Thompson M1 Model commenced in June of 1942. - it appears that Savage and Remington manufactured the bulk of the components for Auto-Ordnance and shipped the parts to Bridgeport where they were assembled into Auto-Ordnance receivers. - it would appear that the receiver and trigger frame were the only components manufactured by Auto-Ordnance at Bridgeport. - parts manufactured by Savage are marked with the letter "S" while parts manufactured by Remington are marked with the letter "R".
Manufacturer	- Auto-Ordnance established its own production facility in Bridgeport, Connecticut, U.S.A in August of 1941. - Auto-Ordnance contracted the Thompson Submachine Gun to be made for them by Colt and Savage Arms prior to August of 1941.
Action	- no longer capable of full automatic fire.
Serial Number	- "AO" prefix to serial No. denotes Auto-Ordnance production.
Calibre	- the Thompson Guns in 7.62MM TOKAREV were converted to that calibre in Viet-Nam during the 1961-1975 Viet-Nam War by what passed for workers in a government factory wokshop. - these conversions are deemed to be Manufacturer's Specifications.
Shots	- detachable box magazine in 5, 20 & 30 shots. - 50 shot drum magazines are available - known as the "L" drum magazine. - 100 shot drum magazines are available - known as the "C" drum magazine.
Remarks	- the Thompson Guns in 7.62MM TOKAREV were converted to that calibre in Viet-Nam during the 1961-1975 Viet-Nam War by what passed for workers in a government factory wokshop. - these conversions are deemed to be Manufacturer's Specifications.

Notes

Make

- "Thompson" is a trade name/mark owned by the "Auto-Ordnance Corporation".
- "THOMPSON SUBMACHINE GUN" over "CALIBRE .45 AUTOMATIC COLT CARTRIDGE" are marked on the left side of the receiver/frame.
- "AUTO-ORDNANCE CORPORATION" is marked on the right side of the receiver/frame.

Model

- "U.S. MODEL 1928 A1" and "THOMPSON SUBMACHINE GUN" are marked on the left side of the receiver/frame.
- it would appear that very few Model 1928 or Model 1928A1 Thompson Submachine Guns were manufactured by Auto-Ordnance Corporation before the production of the "new" Thompson M1 Model commenced in June of 1942.
- it appears that Savage and Remington manufactured the bulk of the components for Auto-Ordnance and shipped the parts to Bridgeport where they were assembled into Auto-Ordnance receivers.
- it would appear that the receiver and trigger frame were the only components manufactured by Auto-Ordnance at Bridgeport.
- parts manufactured by Savage are marked with the letter "S" while parts manufactured by Remington are marked with the letter "R".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Savage Arms Corporation production may be identified by the letter S which will be found on most of the component parts of this firearm and the prefix "S" in the serial number. - Savage Arms is/was a firearms manufacturer located in Utica, New York. - Savage manufactured Thompson Submachine Guns for the "Thompson Automatic Arms Company" starting in November 1939 with the first firearms being delivered in "Spring" 1940. - 800,000 M1928 and M1928-A1 guns manufactured by Savage between 1940 and 1942.
Action	- no longer capable of full automatic fire.
Serial Number	- serial number is located on the left side and is prefixed by a "S". - "S" prefix denotes Savage production.
Shots	- detachable box magazine in 5, 20 & 30 shots. - 50 shot drum magazines are available - known as the "L" drum magazine. - 100 shot drum magazines are available - known as the "C" drum magazine.

Notes

Make

- "Thompson" is a trade name/mark owned by the "Auto-Ordnance Corporation".
- "THOMPSON SUBMACHINE GUN" is marked on the left side of the receiver/frame.
- "AUTO-ORDNANCE CORPORATION" is marked on the right side of the receiver/frame.

Model

- "THOMPSON SUBMACHINE GUN" over "CALIBER .45 M1" is marked on the left side of the receiver/frame.
- there were 285,480 Thompson M1 Submachine Guns produced by Savage and Auto Ordnance in total during the years 1942 and 1943.
- production ceased in 1943.

Manufacturer

- Auto Ordnance Corporation production may be identified by the letters A.O.C. which will be found on the bottom of the receiver/frame just forward of the magazine opening.

Action

- blowback operated.

Serial Number

- these military contract firearms do not have the customary "A.O." prefix incorporated in the serial number.
- marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Remarks

- this firearm is a redesigned model 1928-A1 Thompson Submachine Gun for the purpose of simplifying production for war-time use.
- the Blish Principle locking system was discarded for a blow-back operating system.
- the Bolt operating handle was moved from the top of the receiver/frame to the right side of the receiver/frame.
- the barrel fins, and muzzle compensator were discontinued to reduce costs of production.
- this model was not capable of accepting the drum magazines.
- the butt was permanently attached and the vertical pistol grip was omitted.

Notes

Make	- "Thompson" was a trade mark/trade name owned by the Auto Ordnance Corporation; as the owner of the "Thompson" trademark, Auto Ordnance Corp[oration licenced a number of other manufacturers to produce "Thompsons" for the United States military. - the Thompson trade mark/trade name is still in use on a variety of semi-automatic only, commercial versions of the famous "Tommy Gun" as well as a line of "1911" type pistols. The Auto Ordnance Corporation has been a division of Kahr Arms since 1999.
Model	- "THOMPSON SEMI-AUTOMATIC CARBINE" over "CALIBER .45M1" was observed marked on the left isde of the receiver/frame. - this particular firearm is a commercial version of the World War Two, Thompson Submachine Gun Model M1. - this firearm is built at the factory to be capable of semi-automatic fire only. - features include: blade front sight with a protected rear battle sight; pinned, smooth round barrel (no fins); alloy or steel receiver/frame with right side ejection and cocking handle; walnut forearm, pistol grip, and buttstock; blued finish. - overall length for a 419 mm (16 1/2") barrel is 965 mm (38"), and the average weight is 5.2 kgs (11 1/2 lbs) or 4.09 kgs (9 lbs) when featuring an alloy receiver/frame.
Manufacturer	- the manufacturer's name is marked on the firearm.
Type	- although this firearm strongly resembles a full-automatic firearm, it left the factory capable of semi-automatic fire only.
Action	- blowback operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number rationalization is unknown. - observed serial number consisted of a two letter prefix and four numbers.
Calibre	- samples have been noted with the calibre marked on the left side as "CALIBER 45M1".
Shots	- detachable box magazine in 5, 10, 20 & 30 shot capacities, the 50 shot magazine is a drum magazine.

Notes

Make

- "Thompson" is a trade name/mark owned by the Auto-Ordnance Corporation.
- "THOMPSON SUBMACHINE GUN" may not be marked on the receiver/frame.

Model

- this is a generic record used to identify those Thompson Model M1 copies that have been produced without licence in various parts of the world.
- features include: a hammer activated firing pin, blowback operating system; bolt handle on the right side of the receiver; smooth or finned steel barrel; muzzle compensator; permanently attached butt stock and plain forend without pistol grip; this model may not be capable of accepting drum magazines; bronze and/or steel construction receiver/frames and upper body assemblies have been observed.
- NOTE: Thompson submachine gun models M1 and M1A1 are identical externally. The main difference in the models is in the bolt assembly. The M1's firing pin slides in a cylindrical hole in the bolt and is fired by a hammer. The M1A1's firing pin is integral to the bolt (no firing pin spring, hammer or hammer pin).

Action

- no longer capable of full automatic fire.

Serial Number

- the serial number may be marked on the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- "Thompson" is a trade name/mark owned by the "Auto-Ordnance Corporation".
- "THOMPSON SUBMACHINE GUN" is marked on the left side of the receiver/frame.
- "AUTO-ORDNANCE CORPORATION" is marked on the right side of the receiver/frame.

Model

- "THOMPSON SUBMACHINE GUN" over "CALIBER .45 M1A1" is marked on the left side of the receiver/frame.
- there were 539,143 Thompson M1A1 Submachine Guns produced by Savage and Auto Ordnance in total during the years 1942, 1943 and 1944.
- production ceased in 1944.

Manufacturer

- "Auto-Ordnance Corporation" is marked on the right side of the receiver/frame.
- "A.O.C." may be marked on the bottom of the receiver/frame, just forward of the magazine opening.
- "A.O.C." is an abbreviation for "Auto-Ordnance Corporation".

Action

- blow-back operated, fixed firing pin.
- advanced primer ignition.

Serial Number

- the serial number is marked on the left side of the receiver/frame, eg. "No. 850502".
- these military contract firearms do not have the customary "A.O." prefix incorporated in the serial number.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - "Caliber .45" is marked on the left side of the receiver/frame.

Shots - detachable box magazine.

Remarks
- this firearm is a redesigned model 1928-A1 Thompson Submachine Gun for the purpose of simplifying production for war-time use.
- the Blish Principle locking system was discarded for a fixed firing pin, advanced primer ignition, blow-back operating system.
- the Bolt operating handle was moved from the top of the receiver to the right side of the receiver.
- the barrel fins, and muzzle compensator were discontinued to reduce costs of production.
- this model was not capable of accepting the drum magazines.
- the butt was permanently attached and the vertical pistol grip was omitted.

Notes

Make

- "THOMPSON : CENTER ARMS" and "ROCHESTER, N.H." may be marked on the barrel.
- "TCA-C" and "ROCH-NH" may be marked on the front of the receiver/frame, under the forearm.

Model

- "Contender" is usually not marked on the firearm.
- manufactured from 1967 to 2000.
- Contender model was reintroduced as the G2 Contender in 2002.
- comes in blued steel or stainless steel finish.
- this model has been available in a large number of variations; different grip profiles, sighting equipment, barrel profiles and lengths will be encountered.
- all barrels, grips and forestocks interchange, so the external appearance may be altered easily.

Manufacturer

- "THOMPSON : CENTER ARMS" and "ROCHESTER, N.H." may be marked on the barrel.
- "TCA-C" and "ROCH-NH" may be marked on the front of the receiver/frame, under the forearm.

Action

- hinged barrel design.

Serial Number

- serial number is marked on the receiver/frame, behind the hammer.
- serial number rationalization is unknown.
- observed serial numbers consisted of five numbers without a letter prefix or suffix.
- observed serial numbers consisted of six numbers without a letter prefix or suffix.

Barrel

- all barrels will interchange with the "Contender Hunter", "Contender Hunter Carbine" or "Contender Carbine.
- from the Custom Shop, the 22 CCM, 25-20 WIN and 38-55 WIN are offered in any length between 229MM and 381MM.
- some of the barrels accept removable chokes, these chokes are not included in barrel measurements.

Calibre

- calibre designation is marked on barrel.
