Notes

Make

- "UMAREX" is marked on the air gun.
- Umarex was established in 1972 as UMA Mayer & Ussfeller GmbH.
- UMA Mayer & Ussfeller GmbH acquired Reck Sportwaffenfabrik Karl Ardnt.
- UMA was reorginized as "UMARECK" and finally as "UMAREX".
- Umarex is located in Arnsberg, Germany.
- Umarex purchased Walther in 1996.
- Umarex manufactures firearms, airguns, signal pistols, ammunition, soft air, optics and accessories.
- Umarex manufactures extremely detailed air-pistol versions of genuine handguns and rifles.
- Umarex also contracts other manufactures in China, Mexico, Spain, Taiwan and Turkey to produce firearms under various licensed trademarks.
- Umarex Sportwaffen GmbH & Company KG established a distribution company in North America called "UMAREX USA".
- Umarex USA acquired Ruag Ammotec USA the distributor of the RWS brand of airgun and acquired Crosman Corporation in 1997.
- Umarex distibutes produces under the following trade names/trademarks: Ares, Beretta, Browning, Colt, Combat Zone, Elite Force, FN Browning, Hammerli, Heckler & Koch (HK), KWA, Legends, Magnum Research, Mauser, Makarov, Norica, Perfecta, PTS, PTSxKWA, RAM (Real Action Marker), Reck International, Ruger, RWS, Smith & Wesson (S&W), Tactical Force, Tokyo Soldier, Umarex, Walther, and Webley & Scott.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "NXG" is moulded into the left side of the stock, while "APX" is moulded into the right side of the stock; "NXG APX" is an abbreviation for "Next Generation Apex". - this is a standard-pattern multi-pump pneumatic air rifle, capable of firing either pellets or BBs. - features include: moulded black synthetic barrel shroud and stock; adjustable open fluorescent sights; a sight-mounting rail along the top of the receiver; a folding pump handle that snaps into place in front of the trigger-guard when not in use; a BB loading port on the left side of the receiver; a pellet-loading trough on top of the receiver; an ambidextrous safety built into the front of the trigger-guard; and a ventilated frame buttstock with a rubberized cheekpiece.
Manufacturer	- "UMAREX" is marked on the air gun. - Umarex was established in 1972 as UMA Mayer & Ussfeller GmbH. - UMA Mayer & Ussfeller GmbH acquired Reck Sportwaffenfabrik Karl Ardnt. - UMA was reorginized as "UMARECK" and finally as "UMAREX". - Umarex is located in Arnsberg, Germany. - Umarex purchased Walther in 1996. - Umarex manufactures firearms, airguns, signal pistols, ammunition, soft air, optics and accessories. - Umarex manufactures extremely detailed air-pistol versions of genuine handguns and rifles. - Umarex also contracts other manufactures in China, Mexico, Spain, Taiwan and Turkey to produce firearms under various licensed trade marks. - Umarex Sportwaffen GmbH & Company KG established a distribution company in North America called "UMAREX USA". - Umarex USA acquired Ruag Ammotec USA the distributor of the RWS brand of airgun and acquired Crosman Corporation in 1997. - Umarex distibutes produces under the following trade names/trademarks: Ares, Beretta, Browning, Colt, Combat Zone, Elite Force, FN Browning, Hammerli, Heckler & Koch (HK), KWA, Legends, Magnum Research, Mauser, Makarov, Norica, Perfecta, PTS, PTSxKWA, RAM (Real Action Marker), Reck International, Ruger, RWS, Smith & Wesson (S&W), Tactical Force, Tokyo Soldier, Umarex, Walther, and Webley & Scott.
Action	- multi-pump pneumatic, with a velocity up to 243.8 mps/800 fps with alloy pellets (170 mps/560 fps with lead pellets).
Serial Number	- serial number is marked on the barrel.
Canadian Law Comments	- At least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

146428 - 2	22 PELLET	1	495	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "UMAREX" is marked on the left side of the barrel block and on the right side and the top of the receiver/frame.

Model

- "OCTANE" is marked on the right side of the action tube.
- "OCTANE" is originally equipped from the factory with an integral silencer system.
- features include: fiber optic front sight and an adjustable rear sight; round, rifled steel barrel with an integral SilencAir silencer; front hinged receiver/frame is drilled and tapped for scope mount/rail; safety lever is located inside the trigger guard; two stage adjustable trigger; one piece synthetic, ambidextrous thumbhole stock with ribbed pistol grip area and a rubber recoil pad; black finish.
- overall length with a 495 mm (19.5") barrel is 1232 mm (48.5"), and the average weight is 4.31 kgs (9.5 lbs).

Manufacturer

- "UMAREX" is marked on the left side of the barrel block and on the right side and the top of the receiver/frame.

Action

- gas-piston powered, hinged barrel design.
- Reaxis gas piston.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the left side of the barrel block.
- serial number observed consisted of eight numbers without a letter prefix or suffix.

Calibre

- calibre is marked on the left side of the barrel block.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- as it left the factory, this firearm is equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- The company logo is marked on the firearm.

Model

- "ORIGIN" is marked on the right side of the receiver/frame.
- Features include: integral air pressure gauge; side lever cocking action; picatinny/dovetail rail; adjustable trigger; manual safety; may come equipped with a suppressor.
- Overall length is 1095mm (43.1") and average weight is 3.1 kg (6.8 lbs)

Manufacturer

- The company logo is marked on the firearm.

Action

- Pre charged pneumatic.
- Velocity is reported 328 mps or 1075 fps with a .22 pellet
- Velocity is reported 289 mps or 950 fps with a .25 pellet.

Calibre

- The calibre designation is marked on the left side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- Detachable rotary disc magazine.
Canadian Law Comments	- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. - If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed. - Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "UMAREX" is marked on the left side.

Model

- introduced in 2013.
- ``STEEL-FORCE`` is marked on the left side above the safety selector.
- ``STEEL-FORCE`` is a CO2 powered barrelled action inside a synthetic housing (clamshell) that is made to resemble a Colt AR15/M16 carbine.
- ``STEEL-FORCE`` has a safety selector that can be set to single shot or a six shot burst.
- features include: folding down sights; front sight is the access port to the 300 BB reservoir; integral 30 BB magazine is loaded thru an access port located on the left side, below the front sight; short round barrel is housed in the forearm of the clamshell; synthetic clamshell imitates the flashhider, barrel, forearm with four rails, upper receiver with an integral rail, lower receiver assembly, and pistol grip; CO2 cartridges are housed inside the removable magazine/storage compartment; collapsible/telescoping carbine type buttstock; black finish.
- overall length for a 191 mm (7.5") barrel is 718 mm (28.2"), and the average weight is 1.53 kgs (3.37 lbs).

Manufacturer

- "UMAREX" and "MADE IN JAPAN" are marked on the side of the clamshell.

Action

- CO2 powered.
- powered by 2 x 12g CO2 cartridges.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the right side, above the trigger.
- serial number observed consisted of two numbers, a letter "D", and five numbers.

Calibre

- calibre identification is marked on the right side, above the trigger.

Notes

Make

- "UMAREX" is marked on the gas pistol.
- Umarex was established in 1972 as UMA Mayer & Ussfeller GmbH.
- UMA Mayer & Ussfeller GmbH acquired Reck Sportwaffenfabrik Karl Ardnt.
- UMA was reorginized as "UMARECK" and finally as "UMAREX".
- Umarex is located in Arnsberg, Germany.
- Umarex purchased Walther in 1996.
- Umarex manufactures firearms, airguns, signal pistols, ammunition, soft air, optics and accessories.
- Umarex manufactures extremely detailed air-pistol versions of genuine handguns and rifles.
- Umarex also contracts other manufactures in China, Mexico, Spain, Taiwan and Turkey to produce firearms under various licensed trade marks.
- Umarex Sportwaffen GmbH & Company KG established a distribution company in North America called "UMAREX USA".
- Umarex USA acquired Ruag Ammotec USA the distributor of the RWS brand of airgun and acquired Crosman Corporation in 1997.
- Umarex distibutes produces under the following trade names/trademarks: Ares, Beretta, Browning, Colt, Combat Zone, Elite Force, FN Browning, Hammerli, Heckler & Koch (HK), KWA, Legends, Magnum Research, Mauser, Makarov, Norica, Perfecta, PTS, PTSxKWA, RAM (Real Action Marker), Reck International, Ruger, RWS, Smith & Wesson (S&W), Tactical Force, Tokyo Soldier, Umarex, Walther, and Webley & Scott.

Model

- "STEEL STORM" is marked on the left side of the receiver/frame.
- introduced in 2010.
- this is a semi and full automatic six shots burst firing CO2 powered air gun.
- this PDW (personal defense weapon) type gas pistol resembles an H&K model MP7.
- features include: short exposed barrel with lug for muzzle accessories attachment; ear protected front and rear sight with a Picatinny rail between them; rectangular shaped receiver/frame with a protruding pistol grip housing the magazine; Picatinny rail in front of the trigger guard; manual safety on the left side behind the pistol grip; black polymer construction.
- overall length with a 191mm (7.5") barrel is 381mm (15").

Action

- CO2 powered.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number of a referenced example consisted of 2 numbers with a letter prefix and five numbers.

- UMA Mayer & Ussfeller GmbH acquired Reck Sportwaffenfabrik Karl Ardnt.
- UMA was reorginized as "UMARECK" and finally as "UMAREX".
- Umarex is located in Arnsberg, Germany.
- Umarex purchased Walther in 1996.
- Umarex manufactures firearms, airguns, signal pistols, ammunition, soft air, optics and accessories.
- Umarex manufactures extremely detailed air-pistol versions of genuine handguns and rifles.
- Umarex also contracts other manufactures in China, Mexico, Spain, Taiwan and Turkey to produce firearms under various licensed trade marks.
- Umarex Sportwaffen GmbH & Company KG established a distribution company in North America called "UMAREX USA".
- Umarex USA acquired Ruag Ammotec USA the distributor of the RWS brand of airgun and acquired Crosman Corporation in 1997.
- Umarex distibutes produces under the following trade names/trademarks: Ares, Beretta, Browning, Colt, Combat Zone, Elite Force, FN Browning, Hammerli, Heckler & Koch (HK), KWA, Legends, Magnum Research, Mauser, Makarov, Norica, Perfecta, PTS, PTSxKWA, RAM (Real Action Marker), Reck International, Ruger, RWS, Smith & Wesson (S&W), Tactical Force, Tokyo Soldier, Umarex, Walther, and Webley & Scott.

Model

- introduced in 2013.
- "UMAREX SURGE" is marked on the right side of firearm
- features include: no iron sights; round, rifled steel barrel with a large muzzle brake; front hinged receiver/frame is grooved for a scope mounts; two-stage adjustable trigger; automatic safety; one piece black synthetic skeleton stock with a rubber butt pad; blued metal finish.
- overall length is 1138 mm (44.8"), and the average weight is 3.56 kgs (7.85 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- spring-piston powered, hinged barrel design. - at least two variants of this particular model exist: - Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - Variant #2: does not discharges a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is marked on the left side of the barrel block. - serial number observed consisted of eight numbers without a letter prefix or suffix.
Calibre	- calibre designation is marked on the left side of the receiver/frame under the serial number.
Canadian Law Comments	- at least two variants of this particular model exist: - Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - Variant #2: does not discharges a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Make	- "UMAREX" is marked on the right side of the receiver/frame. - The company logo is marked on the firearm.
Model	- "SURGEMAX ELITE" is marked on the right side of the receiver/frame.
Manufacturer	- "Manufactured by Umarex" is marked on the left side of the receiver/frame.
Action	- Break open action. - Compressed spring air piston.
Serial Number	- The serial number is marked on the left side of the firearm.
Calibre	- The calibre designation is marked on the left side of the firearm. - Calibre designation of a referenced example was marked as "22 cal(5.5mm)".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Notes

Make

- UMAREX . SYRIX is marked on the right side of the receiver/frame.
- The make is marked on the left side of the firearm.

Model

- UMAREX . SYRIX is marked on the right side of the receiver/frame.
- This is a standard-pattern break-barrel spring-piston air rifle made for pest control, hunting, or field target competition.
- Features include: grooved receiver/frame for scope mounts; manual safety at the front of the trigger-guard.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- The manufacturer is marked on the left side of the firearm.
- Umarex was established in 1972 as UMA Mayer & Ussfeller GmbH.
- UMA Mayer & Ussfeller GmbH acquired Reck Sportwaffenfabrik Karl Ardnt.
- UMA was reorganized as "UMARECK" and finally as "UMAREX".
- Umarex is located in Arnsberg, Germany.
- Umarex purchased Walther in 1996.
- Umarex manufactures firearms, airguns, signal pistols, ammunition, soft air, optics and accessories.
- Umarex manufactures extremely detailed air-pistol versions of genuine handguns and rifles.
- Umarex also contracts other manufactures in China, Mexico, Spain, Taiwan and Turkey to produce firearms under various licensed trade marks.
- Umarex Sportwaffen GmbH & Company KG established a distribution company in North America called "UMAREX USA".
- Umarex USA acquired Ruag Ammotec USA the distributor of the RWS brand of airgun and acquired Crosman Corporation in 1997.
- Umarex distributes produces under the following trade names/trademarks: Ares, Beretta, Browning, Colt, Combat Zone, Elite Force, FN Browning, Hammerli, Heckler & Koch (HK), KWA, Legends, Magnum Research, Mauser, Makarov, Norica, Perfecta, PTS, PTSxKWA, RAM (Real Action Marker), Reck International, Ruger, RWS, Smith & Wesson (S&W), Tactical Force, Tokyo Soldier, Umarex, Walther, and Webley & Scott.

Action

- Compressed spring air piston.
- Break open action.
- Velocities have been reported as 304.8 mps/1000 fps and 149.4 mps/490 fps.

Serial Number

- The serial number is marked on the left side of the firearm.
- The serial number of a referenced example consisted of sixteen number and a letter suffix "F".

Canadian Law Comments

- At least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Firearm Reference Number (FRN): 197455
Make: Umarex
Model: T4E

Summary

Make:	Umarex
Model:	T4E
Manufacturer:	Umarex
Level:	Manufacturer Specifications and Commercial Customization
Type:	Paintball
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197455 - 1	50 PAINTBALL	6	108	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Umarex" is marked on the right side of the receiver/frame.

Model

- "T4E" is marked on the firearm in various places.
- May also be known as "T4E TR50" & "T4E HDR50".
- The "T4E" model is similar in outward appearance to the Umarex pellet revolver "Brodax" (hammered), but this is a purpose built "paintball" gun and hammerless.
- Features include: hammerless one piece lightweight polymer receiver/frame with integrated barrel; top ventilated rib with blade front and rear sights and top accessory rail; under barrel accessory rail; "false" fluted cylinder meant to mimic conventional revolver cylinder, with detachable cartridge purpose built for paintballs; polymer pistols grips with mock inlay and stippling; capped pistol grip for CO2 loading.
- Optional features: matte black finish; combat grey finish.

Manufacturer

- "Umarex" is marked on the right side of the receiver/frame.

Action

- CO2 powered.
- Velocities have been reported as 85 mps/280 fps and 122 mps/400 fps.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- The serial number rationalization is unknown.
- Observed serial number sample consisted of eight (8) numbers without letter prefix or suffix. The serial number was located on the right side of the firearm.

Shots

- Removeable rotary clip.
- Intended for 50 calibre paintballs, and the following "ammunition" types: Rubber Balls, Pepper Balls and Chalk Balls.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- Does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Other Markings

- "T4E" is marked prominently on the left side of the barrel and on both sides of the pistol grip "plates". "TR50" or "HDR50" may be marked under the "T4E" on the left side of the barrel, which denotes the market for which the model is made. "TR50" is made for the US market and "HDR50" is made for the international market.
- A common logo of a pentagon with the letter "F" in the centre may be present on the firearm.

Notes

Make

- Underground Skunkworks' logo and "UNDERGROUND" over "SKUNKWORKS" over "Columbia Falls, MT" or "UNDERGROUND" over "SKUNKWORKS" over "Columbia Falls, MT" may be marked on the left side of the receiver/frame.

Model

- "911" over the serial number was observed marked on the right front side of the receiver/frame.
- "911" is an improved clone of the Remington model 700 action.
- "911" is available as a complete firearm or as an action only.
- "911" action kit includes the receiver/frame, bolt, side bolt release, firing pin kit, extractor, ejector, and recoil lug.
- "911" receiver/frame is used to manufacture semi-custom rifles in numerous configurations.
- features include: round rifled stainless steel Bartlein or Rock Creek barrel with or without flutes; barrel muzzle may be threaded for attachment of a muzzle brake/flash hider or sound suppressor/silencer; 911 stainless steel or chromoly left or right hand cylindrical receiver/frame with Picatinny rail and side bolt release; one piece chromoly steel bolt with oversize bolt knob; manual safety mounted or te rear side of the receiver/frame; Timney trigger; detachable bottom aluminum metal magazine housing with ambidextrous magazine release; stainless steel pillars; synthetic pistol grip stock with sling swivel studs, equipment rails and bipod or an Accuracy International chassis-system stock design; black or camo finish.

Manufacturer

- Underground Skunkworks, LLC is located in Columbia Falls, Montana, U.S.A.

Action

- turn-bolt design.

Serial Number

- serial number was observed marked on the front right side of the receiver/frame.
- observed serial number consisted of a four letter "UGSW" prefix and three numbers.

Shots

- detachable box magazine.

Canadian Law Comments

- certain variations of this firearm left the factory with a sound suppressor/suppressed barrel assembly and is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed from the barrel, the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- "UNIK" is marked on the right side of the magazine housing of the receiver/frame.
- "MADE IN CANADA" may be marked on the left side of the receiver/frame.

Model

- introduced in 2016.
- "ALPHA" is marked on the receiver/frame and on the left side of the magazine housing.
- "ALPHA" is of the design commonly known as the AR-15/M-16 Rifle.
- the rifle uses a two piece receiver/frame similar to Colt model AR15 semi-automatic.
- features include: round rifled barrel; black alloy receiver/frame; pistol grip tactical stock; various modular options.
- overall firearm length with 267mm (10.5") barrel is 663mm (26.25").

Manufacturer

- manufacturer is not marked on the firearm.
- "UNIK" is marked on the right side of the magazine housing of the receiver/frame.
- "MADE IN CANADA" may be marked on the left side of the receiver/frame.

Action

- gas operated.

Serial Number

- serial number is marked on the receiver/frame.
- observed sample was marked on the left side of the magazine housing and consisted of two letter prefix, "AR", followed by four numbers.

Shots

- detachable box magazine.

Notes

Make

- "UNION" is marked on the left side of the slide and on the grip plates.
- "Union" trade name used by M. Seytres of St. Etienne, France.
- "Union" trade name was used by Unceta y Cia of Guernica, Spain circa 1924 to circa 1931.

Model

- "Pistolet Automatique Francais" and "UNION" is usually marked on the slide.
- several variations of this pistol have been noted; the first, in calibre 6.35MM, is a small "vest pocket" type that resembles a Browning Model 1906 and uses a compact receiver/frame. These smaller versions may incorporate a grip safety with the grip plates mounted by two screws, or have a solid backstrap and only one screw to attach the grip plates.
- the second version uses a larger receiver/frame with a longer grip profile. This version will be found in calibre's 6.35MM and 7.65MM. Samples have been noted that incorporate a grip safety and straight backstrap, or a solid backstrap with an arched or straight profile, either variant may be equipped with a lanyard ring. Many of the larger versions were acquired by the Bank of France (Banque de France) to arm personnel that worked in a high-risk environment. These firearms will bear "B.F" markings on the receiver/frame.
- common features include: serration's on the slide, rudimentary sights, blued finish, heel mounted magazine catch, and the "Union" name and/or logo (an Indian head) moulded into the grip panels.
- some versions were offered with barrels that protruded past the front of the slide.

Manufacturer

- manufacturer's name is not marked on the firearm.
- firearms are usually marked "Fabrique a St. Etienne" on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- serial number usually is marked on the receiver/frame. - a complete or partial serial number may also appear on other components. - Banque de France (Bank of France) markings, "BF", may be found in the same area as the serial number, these should not be construed as forming a part of the serial number.
Shots	- detachable box magazine, a high capacity magazine (25, 35 or 40 shots) was offered for at least one version in calibre 7.65MM that resembled a horse-shoe.
Other Markings	- in addition to the "Pistolet Automatique Francais" and "Union" markings, samples have been noted with "Acier Garanti" and calibre designation markings on the slide.

FRT Report

Firearm Reference Number (FRN): 23177
Make: Union
Model: Union

Summary

Make:	Union
Model:	Union
Manufacturer:	Norwich Falls Pistol Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23177 - 1	22 RF	1	70	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "UNION" is marked on the barrel.

Model

- manufactured prior to 1890.
- "UNION" is marked on the barrel.
- approximately 3,100 units were manufactured.
- this is a small single-shot pistol made by the Norwich Falls Pistol Company.
- pistol's barrel pivots to the side for loading/unloading, and the locking latch is mounted on the underside of the receiver/frame, in front of the trigger.
- features include: round barrel transitions to a flat-sided breech; iron receiver/frame with a bag style grip strap; exposed spur hammer; sheathed trigger; wooden grip plates; nickel plated finish.

Manufacturer

- manufacturer's name is not marked on the firearm.

Action

- hinged barrel design, side swing-breech.

Notes

Make

- "UNION ARMERA S.L. EIBAR " and "(MADE IN SPAIN)" was observed marked on the barrel assembly.
- "MARCA", the image of a crane, and "GRULLA" was observed marked on the underside of the receiver/frame.
- the image of a crane over "GRULLA" inside a circle was observed marked on the watertable and barrel flats.
- "U.A" was observed marked on the watertable, barrel flats, and barrels.
- "U.A" is the manufacturer's code for "Union Armera".
- "Union Armera" became "Grulla Armas".

Model

- "Mo 205" was observed marked on the rear tang of the trigger guard.
- features include: blued round side by side smoothbore barrels with bead front sight; front hinged receiver/frame with top tang mounted break open lever and safety; box lock; hammerless; double triggers; checkered wood forearm and semi-pistol grip buttstock; sling attachments.

Manufacturer

- "UNION ARMERA S.L. EIBAR " and "(MADE IN SPAIN)" was observed marked on the barrel assembly.
- "MARCA", the image of a crane, and "GRULLA" was observed marked on the underside of the receiver/frame.
- the image of a crane over "GRULLA" inside a circle was observed marked on the watertable and barrel flats.
- "U.A" was observed marked on the watertable, barrel flats, and barrels.
- "U.A" is the manufacturer's code for "Union Armera".
- "Union Armera" became "Grulla Armas".

Action

- side by side barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is usually marked on the water table of the receiver/frame and repeated on the underside of the barrel assembly.
- serial number may consisted of five numbers without a letter prefix or suffix.
- serial number may consisted of a letter "U", a period (.), and a letter "A" and five numbers, example "U.A13##7".
- "U.A" is also the manufacturer's code for Union Armera.
- serial number range pre-1995 was from approximately 0001 to 32,508.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer, example of a serial number is as follows: "31 - 03 - #0# - 95".
- serial number break down, the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Calibre

- gauge and chamber length was observed marked on the watertable and barrel flats.

FRT Report

Firearm Reference Number (FRN): 23054
Make: Union Firearms
Model: Lefever Automatic Revolver

Summary

Make:	Union Firearms
Model:	Lefever Automatic Revolver
Manufacturer:	Union Firearms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Other
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23054 - 2	32 CF	6	76	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "UNION FIRE ARMS CO" over "TOLEDO. O. LEFEVER PAT." is marked on the right side of the receiver/frame.
- "The Union Fire Arms Co." over "Toledo, Ohio" was marked on firearms from 1903 to 1910.
- "The Union Arms Co." over "Toledo, Ohio" was marked on firearms from 1910 to circa 1913.

Model

- "UNION FIRE ARMS CO" over "TOLEDO. O. LEFEVER PAT." is marked on the right side of the receiver/frame.
- patented by Charles A. Lefever in 1909.
- this is a recoil operated "semi-automatic revolver", similar in concept to the British Webley-Fosberry.
- top latched receiver/frame allows the barrel and cylinder to tip down for reloading, exposed hammer allows a shooter to manually cock the pistol for the first shot, and the cylinder has deep "zig-zags" milled into it, that engage a stud and allow it to index to the next chamber during recoil.
- this firearm has a very "ungainly" appearance to it, as it is very blocky and bulky, and the trigger and trigger-guard look like afterthoughts, that are hung off of the frame at an odd angle.

Manufacturer

- Union Fire Arms Company was established in Toledo, Ohio by George B. Colton circa 1903.
- Union Fire Arms/Union Arms produced the models 22 and 23 side by side shotguns, the models 24, 25 Peerless, 25A Trap and 50 pump action shotguns, the models 18 and Diamond Grade single barrel shotguns, Reifengraber semi-automatic pistol and the Lefever Automatic Revolver a copy of the Webley Fosber semi-automatic revolver.
- Union Fire Arms/Union Arms Company was in business from 1903 to 1913.
- Union Fire Arms/Union Arms used the following tradenames: Union Fire Arms Company, Union Arms Company, Illinois Arms Company and Bee Be Arms Company.
- Union Arms Company assets were purchased by the Ithaca Gun Company in 1914.

Action

- this is a recoil operated "automatic revolver", similar in operation to the Webley-Fosberry.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23078 - 1	32 AUTO	9	82	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
23078 - 2	7.65MM	9	82	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
23078 - 3	7.65MM	9	184	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Non-Commercial Customization	

Notes

Make

- "7.65 COURT 9 COUPS" and "UNIQUE" are marked on the left side of the slide.
- "MANUFACTURE D'ARMES DES PYRENEES, HENDAYE" is marked on the left side of the slide.
- "WaA251" or "WaAD20" German Army acceptance stamp is marked on the right rear side of the receiver/frame.

Model

- may also be known as "Kriegsmodell". It was given this German name when the firearm was manufactured by the occupying German forces during World War II.
- is based on the French "Model 17" design.
- "WaA251" or "WaAD20" German Army acceptance stamp is marked on the right rear side of the receiver/frame.
- physical differences between this design and the original "Model 17" design include: external hammer, prominent rounded rib added to lower backstrap to improve handling, slanted serrations on slide, fluted-type grip plates.
- "7.65mm" over "9 SCHUSS" may be marked inside a circle on the grip plates.
- production of this pistol took place during the period of German occupation of France, from 1940 to 1944, over which time the design changed. Initial 17 Kriegsmodell production was identical to the hammerless pre-war Unique 17, but later production changed to an exposed-hammer design that was continued by MAPF after World War Two as the "R17". Both of these versions can be recognized by German waffenampt eagle markings on the right tang.

Manufacturer

- "MANUFACTURE D'ARMES DES PYRENEES, HENDAYE" is marked on the left side of the slide.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the right side of the receiver/frame. - model "17" serial number range is from about 1 to 400,000. - model "17 Kreigsmodell" serial number range is from 58,000 to 76,000.
Calibre	- "7.65 COURT" is marked on the side of the slide.
Shots	- detachable box magazine.

Notes

Make

- marked on right side of slide.

Model

- the Unique model "Corsair" line of pistols was the marketing name used by MAPF to market their Modele D series of handguns in North America. The Modele D is generally considered to be a European designation.
- model designation is marked on the left side of the slide.
- a deluxe version of this model known as the "Corsair Presentation" embellished with engraving was also available.
- chambered for 22 LR only.
- 217 & 230mm barrelled versions were considered to be target models and the barrels were produced with integral muzzle breaks.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on right side of receiver.
Shots	- detachable box magazine.
Remarks	- the Corsair was the North American designation for the Unique Modele D series of pistols. The Modele D was produced in the following model/barrel combinations: D1 /78mm, D2 /108mm, D3 /210mm, D4 /217mm & 230mm. - North American research literature also refers to the following barrel lengths as available: 6"/152mm and 4-1/2" /114mm.

Notes

Model

- the model designation is located on the slide.
- blued finish, brown plastic grips, left grip comes with a thumb rest.
- was sold during 1955-65 in the USA under the name "Corsair".

Manufacturer

- Manufacture d'Armes de Pyrénées Françaises (MAPF) of Hendaye was established in 1923. Originaly located in Béhobie, five years later the company was relocated in Hendaye. MAPF was known for a number of brandnames, among which "Unique" was found. Prior to 1939 the company marketed firearms for domestic defence, police and military use. However since 1945 the company slowly turned toward the target type pistols.

Notes

Make

- "UNIQUE" was observed on the left side of the slide.

Model

- "DES/96-U" was observed on the right side of the slide.
- "DES/96-U" was manufactured from 1996 to 2002.
- this is a dedicated Olympic-class semi-auto target pistol, based on the earlier DES/69 U, redesigned with a box magazine that is inserted from the top of the pistol.
- in this design, the hammer is moved inside the frame, to the rear of a breechblock that slides on rails.
- features include: micrometer-adjustable open sights; a rocking lever-type safety/side hold-open on the right side of the frame above the trigger-guard; squared-off frame and barrel block; adjustable trigger; anatomical carved wooden grips with an adjustable heel-plate; magazine catch is on the left side of the grip, low in the butt; blued finish.
- available with various optional sleeve-type counter-weights.
- overall length with a 150 mm (5.9") barrel is 285 mm (11.2"), average weight is 1.14 kg (2.5 lbs) without counter-weight.

Manufacturer

- "UNIQUE" was observed on the left side of the slide.
- "UNIQUE" is a brand name of pistols manufactured by Manufacture d'Armes des Pyrenees Francaise.
- "Made in France" was observed marked on the top of the barrel.

Action

- blowback.

Serial Number

- serial number was observed on the right side of the receiver/frame.
- observed serial number consisted of six digits with no letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre designation was observed marked on the top of the barrel.

Notes

Make

- "armes Unique" is marked on the right side of the slide.
- "Unique" is a tradename used by "Manufacture d'Armes des Pyrenees Francaise" of Hendaye, B.P., France.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Modele L" is marked on the left side of the slide. - introduced in 1955. - may also be known as "LD". - features include: open-topped slide/external hammer, steel or alloy receiver/frame. - this model is available with an accessory barrel/stock that changes the appearance to resemble a carbine. the pistol barrel is removed and the receiver and slide are inserted into the accessory rifle barrel and stock, to produce a ten-shot semi-automatic pistol-carbine with rifled barrel, open partridge sights, American walnut stock, and a receiver grooved for conventional scope mounts.
Manufacturer	- the manufacturer's name is not marked on the firearm. - "Manufacture d'Armes des Pyrenees Francaise" is located in Hendaye, B.P., France.
Action	- blowback operated.
Serial Number	- the serial number is normally marked on the right side of the receiver/frame.
Calibre	- calibre is normally marked on top of slide.
Shots	- detachable box magazine.
Canadian Law Comments	- this model remains a handgun under Canadian law even when in its carbine configuration.

Notes

Make

- "UNIQUE" is marked on the left side of the receiver/frame.

Model

- "MOD. T_SM" is marked on the left side of the receiver/frame.
- "MOD. T" is marked on the right side of the receiver/frame.
- Features include: magazine release button located on the right side of the stock; bolt handle located on the right side of the receiver/frame.

Manufacturer

- The manufacturer is not marked on the firearm.

Action

- Turn bolt operated.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- The serial number of a referenced example consisted of six digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Shots	- Detachable box magazine.
Canadian Law Comments	- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.
Other Markings	- French proof marks marked on the right side of the barrel.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
120412 - 1	22 LR	1	500	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "UNITED ARMS CO. CHICAGO 20." is marked on the left side of the receiver/frame.
- "MADE IN GERMANY " is marked on the right side of the receiver/frame.
- "United Arms Company" was located in Chicago, Illinois, U.S.A. circa the mid 1950s.
- "United Arms Company" was a mail order distributor who sold products under the following names: United Arms Company, United Binocular Company, United Knife Company, United Products Company, Mid-West Crossbow Company, Mid-West Knife Company, Grandpa's Shop, and Grandps's Knife Shop.

Model

- turn bolt operated, single shot rifle with manually cocked striker.
- very similar in appearance to the Hoban Model 45 or a miniature, Italian Carcano rifle with a one piece military style stock, wooden handguard over the top of the barrel which is secured at the front by a metal barrel band, has a sheet metal imitation box magazine located in front of the trigger guard which is welded to the underside of the receiver/frame and a 'dummy' recoil bolt through the stock, under the breech end of the barrel.
- blade front sight, elevation adjustable rear sight.
- blued finish.

Action

- turn bolt operated.

- "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A." may be marked on the firearm.
- "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.

Model

- this is a modern reproduction of Colt's 1873 Single Action Army revolver with a long non-standard barrel, commonly known as the "Buntline Special", after an Old West lawman called Ned Buntline, who first ordered a revolver on this pattern.
- these revolvers can be ordered with a detachable cast-bronze, nickel-plated skeletonized shoulder-stock, which can be taken off and replaced at will.
- can be ordered blued, engraved, in the white for personal engraving, nickeled, or colour-case-hardened, with blued barrel, cylinder, and grip frame.
- these revolvers can be ordered with a wide variety of personalized custom touches, including choice of grip material, custom serial numbers, the amount and style of engraving, precious metal inlays, etc.

Action

- single-action revolver.

Serial Number

- marked on receiver/frame.

Notes

Make

- "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A." may be marked on the firearm.
- "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.

Model

- introduced in 2000.
- partial model designation may be marked on the firearm.
- features include: brushed polished steel receiver/frame, ejector, solid walnut grips and a front blade sight.
- this model is extensively cutaway to reveal the internal mechanism and its function.
- this firearm's receiver/frame has not been sufficiently deactivated as to prevent its further use as the master component of a firearm; for this reason this firearm has been assigned to the legal classification of "Restricted".

Serial Number

- serial number is located on the underside of the receiver/frame.

Other Markings

- patent dates are marked on the left side of the receiver/frame.

Remarks

- factory literature warns that this model is not to be fired.

Notes

Make

- "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A." is marked on the barrel.
- "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.

Model

- introduced in 2010.
- model designation is not marked on the firearm.
- this firearm resembles a Colt model 1873 Single Action Army revolver.
- features observed: blade front sight and groove in the top strap for a rear sight; blued round barrel with ejection rod assembly; color-case-hardened solid top receiver/frame with a removable blue fluted cylinder and right side loading gate; exposed spurred hammer; single-action trigger mechanism; bird's-head grip strap with checkered or smooth ivory grip plates or checkered hard rubber grip plates.
- also available with a nickel plated finish and an extra dual cylinder.

Serial Number

- serial umber is marked on the underside of the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Calibre

- calibre is marked on the left side of the barrel.

Other Markings

- observed on the left side of the receiver/frame:
"PAT. SEPT. 19, 1871"
"JULY 2-72"
"JAN. 19-75".

Notes

Make

- "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A." is usually marked on the firearm.
- "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.

Model

- the model designation may not be marked on the firearm.
- this firearm is a close copy of the Colt 1873 Single Action Army, and replicates nearly all original Colt features.
- features include: blade front sight; square notch rear sight formed as part of the top strap of the receiver/frame; fluted cylinder; antique patina finish on all metal surfaces; rubber grip panels; right side, receiver/frame mounted swing-out loading gate; under-barrel mounted, spring loaded ejection rod; spur hammer.

Manufacturer

- the manufacturer's logo of "US" in an oval is marked on the grip panels.
- the manufacturer's name may also be marked on the firearm as "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A."
- "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.

Action

- single action.

Serial Number

- the serial number is marked on the receiver/frame.
- USFA used the serial number range from the first generation Colt 1873 Single Action Army beginning around 55,XXX, or a customized serial number as requested by the customer.

Calibre

- the calibre designation is marked on the left side of the barrel.

Other Markings

- "PAT. SEPT,19,1871, JULY,2-72, JAN,19-75" is usually marked on the left side of the receiver/frame below the cylinder.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A." is usually marked on the firearm. - "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.
Model	- the model designation may not be marked on the firearm. - this firearm is a close copy of the Colt 1873 Single Action Army, and replicates nearly all original Colt design features. - this is a modern version of the Colt Sheriff's model that was introduced in 1882. - features include: blade front sight; square notch rear sight; no barrel mounted ejector rod; bone-blued, fancy gold or nickel finish; rubber, ivory or pearl grip panels.
Manufacturer	- the manufacturer's logo of "US" in an oval is marked on the grip panels. - the manufacturer's name may also be marked on the firearm as "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A." - "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.
Action	- single action.
Serial Number	- the serial number is marked on the receiver/frame.
Calibre	- the calibre designation is marked on the left side of the barrel.
Other Markings	- "PAT. SEPT,19,1871, JULY,2-72, JAN,19-75" is marked on the left side of the receiver/frame below the cylinder.

Notes

Make

- "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A." may be marked on the firearm.
- "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.

Model

- this is a modern reproduction of the Colt 1873 Single Action Army, built in a "deluxe" version for shooters and collectors.
- features include: full blued or nickeled finish, or colour-case-hardened receiver/frame with blued barrel and cylinder; fixed sights; screw in or spring loaded cross-pin retained cylinder axis pin and the customer's choice of grip materials (standard is a hard rubber grip with "US" and a martial eagle on them, but also available in walnut, pearl, stag, or ivory).

Serial Number

- numbered on receiver/frame, rationalization unknown.

Barrel

- other barrel lengths available on special order.

Notes

Make

- "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A." may be marked on the firearm.
- "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.

Model

- this is a modern reproduction of Colt's 1873 Single Action Army revolver (Pre-War), as produced in Hartford prior to the Second World War.
- features include: colour-case-hardened receiverframe, with deeply blued barrel, cylinder, and grip frame, and the customer's choice of grip materials (standard is hard rubber grips with "US" and a martial eagle on them, but also available in walnut, pearl, stag, or ivory).

Serial Number

- marked on the receiver/frame, rationalization unknown.

Barrel

- other barrel lengths are available on special order.

Notes

Make

- "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A." may be marked on the firearm.
- "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.

Model

- this is a modern reproduction of one of the earliest successful attempts to produce a reliable handgun that could use self contained metallic cartridges.
- the revolver being reproduced started out as a Colt model 1851 Navy percussion handgun, but was fitted with an adaptor kit invented by Charles Richards, a Colt employee.
- this conversion process replaced the barrel, cylinder, and loading ram with a new barrel, new cylinder, and ejector rod, and made reloading much faster and easier.
- can be ordered blued or colour-case-hardened, with a blued barrel, cylinder, and silver plated grip frame.

Serial Number

- marked on the receiver/frame, rationalization unknown.

Notes

Make

- "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A." may be marked on the firearm.
- "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.

Model

- introduced in 2000.
- this is a modern reproduction reminiscent of the Colt produced 1973 Single Action Army revolver with a bird's-head grip frame and a tang at the top rear of the grip.
- this revolver has fixed sights (blade front and slot in the frame), a "Bisley" style curved hammer, and a lanyard ring at the butt.
- can be ordered blued, engraved, in the white for personal engraving, nickeled, or colour-case-hardened, with blued barrel, cylinder, and grip frame.
- depending on the barrel length, these revolvers can be ordered with or without an ejector rod, and with extra cylinders in a calibre compatible with the barrel (ie. 45 AUTO and 45 COLT, 44 SPL and 44 RUSSIAN, etc.)
- these revolvers can be ordered with a wide variety of personalized custom touches, including choice of grip material, custom serial numbers, the amount and style of engraving, precious metal inlays, etc.

Serial Number

- marked on the receiver/frame, rationalization unknown.

Calibre

- 45 COLT is offered as the standard calibre, other calibres are optional.

Notes

Make

- "U.S. FIREARMS MFG. Co." or "U.S.F.A. MFG. Co." and "HARTFORD CT. U.S.A." or "HARTFORD CONN. U.S.A." may be marked on the firearm.
- "U.S.F.A. MFG. Co." is the abbreviation for United States Fire Arms Manufacturing Company.

Model

- this is a modern reproduction of Colt's Single Action Army revolver with a bird's-head grip frame, "flat-top" frame, and a tang at the top rear of the grip
- this revolver has a blade front sight and a drift-adjustable rear sight on a "flat-top" frame, a "Bisley" style curved hammer, and a lanyard-ring at the butt.
- can be ordered blued, engraved, in the white for personal engraving, nickeled, or colour-case-hardened, with blued barrel, cylinder, and grip frame.
- depending on the barrel length, these revolvers can be ordered with or without an ejector rod, and with extra cylinders in a calibre compatible with the barrel (ie. 45 AUTO and 45 COLT, 44 SPL and 44 RUSSIAN, etc.)
- these revolvers can be ordered with a wide variety of personalized custom touches, including choice of grip material, custom serial numbers, the amount and style of engraving, precious metal inlays, etc.

Serial Number

- marked on the receiver/frame, rationalization unknown.

Notes

Make

- "USFA" over "ZIP TM" and ".22 Long Rifle" are marked on the left side of the receiver/frame.
- "ZIP TM .22 L.R. USFA HARTFORD CT USA" and "ZIPFACTORY.COM" are marked on the right side of the receiver/frame.
- "USFA" is the abbreviation for United States Fire Arms Manufacturing Company.
- "Zip Factory" is a Division of United States Fire Arms Manufacturing Company.

Model

- introduced in 2012.
- "ZIP TM" is marked on both sides of the firearm.
- "ZIP" is a registered trademark used by United States Fire Arms (USFA).
- "ZIP" model is a striker fired, semi-automatic pistol with a modular design; through the use of a "crossover module", the single-shot "Zip SSE" may be converted to a semi-automatic "Zip", and vice-versa.
- features include: steel, rifled, interchangeable barrel with a polymer shroud; clam shell type polymer receiver/frame with an interchangeable top plate assembly, right side ejection port, and an integral equipment rail; interchangeable top plate assembly may have fixed sights, night sights; loading lever is mounted on the left side of the barrel; re-strike cocking lever is mounted on the right side of the barrel; cross bolt safety; magazine release is mounted on the bottom rear of the magazine well.
- "ZIP" model is available in black, blue, grey, and tan.
- "ZIP" model is available with a sound suppressor/silencer barrel kit.
- "ZIP" model is available with a detachable full length stock assembly and when attached to the handgun resembles a short barrel rifle (SBR).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "USFA" over "ZIP TM" and ".22 Long Rifle" are marked on the left side of the receiver/frame. - "ZIP TM .22 L.R. USFA HARTFORD CT USA" and "ZIPFACTORY.COM" are marked on the right side of the receiver/frame. - "USFA" is the abbreviation for United States Fire Arms Manufacturing Company. - "Zip Factory" is a Division of United States Fire Arms Manufacturing Company.
Action	- blowback operated.
Shots	- detachable rotary box magazine. - accepts Ruger model 10/22 style magazines.
Canadian Law Comments	- as it left the factory, this firearm may be equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the firearm, the firearm is correctly identified as a "Restricted Firearm".

Summary

Make:	United States Society of Arms and Armour
Model:	Baikal IZH-43K John Wayne Coach Gun Commemorative
Manufacturer:	America Remembers/Izhevsky Mekhanichesky Zavod (Izhmech)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
142099 - 1	12 GA X 2 3/4"	2	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "United States Society of Arms and Armour" is marked on the barrel rib.
- "United States Society of Arms and Armour" is the Antique Arms Division of America Remembers.
- "America Remembers" is a private non-government organization dedicated to remembering notable Americans and important historical American events.
- "America Remembers" commissions and produces historical, limited or special editions issue firearms in conjunction with various manufacturers and has them decorated by specially commissioned craftsmen.
- "America Remembers" is affiliated with the "Armed Forces Commemorative Society", "American Heroes and Legends", and the "United States Society of Arms and Armour".
- "America Remembers" purchased the antique arms division of the "U.S. Historical Society" on April 01, 1994.
- "America Remembers" was located in Mechanicsville, Virginia until 1999.
- "America Remembers" moved to Ashland, Virginia, U.S.A.

Model

- "EAA CORP - COCOA, FL - BAIKAL RUSSIA - IZH-43K" is marked on the underside of the barrel rib.
- "JOHN WAYNE COACH GUN" and the outline of a stage coach are marked on the right barrel.
- "I Won't Be Wronged, I Won't Be Insulted" and "John Wayne/s" signature is marked on the left barrel.
- "John Wayne's" portrait is laser-engraved on the right side of the buttstock.
- "John Wayne's" silhouette is engraved on the butt plate.
- "JW" and a number from "0001" to " 2500" is engraved on the underside of the receiver/frame. "JW-0001" is the John Wayne Coach Gun's Edition Number.
- 2,500 John Wayne Coach Guns were authorized by the John Wayne Family in 2005.
- this is a conventional side by side box lock shotgun with side plates and exposed spur hammers.
- features include: round side by side smoothbore barrels with a bead front sight; front hinged receiver/frame with a top tang mounted break open lever and safety; side plates with exposed hammers; double gold plated triggers; automatic ejectors; checkered walnut forearm and semi-pistol grip buttstock with a steel butt plate; blued and gold metal finish.

Manufacturer

- "Baikal" is marked on the underside of the barrel rib.
- "Baikal" is a trade name that has been used by a consortium of various Soviet Arsenals and is currently utilized by Izhevsky Mekhanichesky Zavod (Izhmech).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- side by side barrel configuration, hinged barrel design.
Serial Number	- serial number is marked on the top tang of the receiver/frame, under the break open/action release lever. - observed serial number consisted of seven numbers and a letter suffix.
Calibre	- gauge and chamber length are marked on the barrel rib.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- this is a variant of the standard U.S. military M1 Carbine.
- "US CARBINE" with "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: blued finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; fixed wooden pistol grip stock with wooden upper handguard; left side mounted front sling swivel; inletted oil holder/sling attachment at the buttstock; G.I type front barrel band which may include a bayonet lug; may feature a convertible gas system.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which It is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- the serial number may be obscured by the rear sight.
- serial numbers can sometimes be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" may be found marked on several different models of Universal M1 Carbine receiver/frames. It is not a serial number.

Calibre

- "CAL.30 M1" is marked on the receiver/frame.

Shots

- detachable box magazine.

Remarks

-manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- this is a variant of the standard U.S. military M1 Carbine.
- "US CARBINE" with "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: blued finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; fixed wooden pistol grip stock; perforated metal upper handguard; left side mounted front sling swivel; inletted oil holder/ sing attachment at the buttstock; G.I type front barrel band which may include a bayonet lug; may feature a convertible gas system.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- located at rear of receiver; often blocked by the rear sight base.
- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- the serial number may be obscured by the rear sight.
- serial numbers can some times be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" may be found marked on several different models of Universal M1 Carbine receiver/frames. It is not a serial number.

Barrel

- longer barrels exist.

Calibre

- "CAL.30 M1" is marked on the receiver/frame.

Shots

- detachable box magazine.

Remarks

- manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- similar to the basic 1000 that has a wooden upper handguard.
- this is a variant of the standard U.S. military M1 Carbine.
- "US CARBINE" with "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: satin blued finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; fixed birch hardwood pistol grip stock with perforated metal handguard; left side mounted front sling swivel; inletted oil holder/ sing attachment at the buttstock; G.I type front barrel band which may include a bayonet lug; slide has a milled slot on the right side; may feature a convertible gas system.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- located at rear of receiver; often blocked by the rear sight base.
- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- the serial number may be obscured by the rear sight.
- serial numbers can some times be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" may be found marked on several different models of Universal M1 Carbine receiver/frames. It is not a serial number.

Calibre

- "CAL.30 M1" is marked on the receiver/frame.

Shots

- detachable box magazine.

Remarks

- manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- this is a commercial variant of the standard U.S. military M1 Carbine.
- "US CARBINE" with "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: stainless steel finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; fixed birch hardwood pistol grip stock with perforated metal handguard; left side mounted front sling swivel; inletted oil holder/ sing attachment at the buttstock; front barrel band which may include a bayonet lug; may feature a convertible gas system.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- the serial number may be obscured by the rear sight.
- serial numbers can some times be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" may be found marked on several different models of Universal M1 Carbine receiver/frames. It is not a serial number.

Calibre

- "CAL.30 M1" may be marked on the receiver/frame.

Shots

- detachable box magazine.

Remarks

- manufacturer names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

27464 - 3	30 CARBINE	30	457	Prohibited PFR, Part 1, para. 236(z.44)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- this is a commercial variant of the standard U.S. military M1 Carbine.
- "US CARBINE" with "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: nickel plated finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; standard or deluxe Monte Carlo walnut pistol grip stock with matching wood handguard; left side mounted front sling swivel; Universal's patented front barrel band; may feature a convertible gas system.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- the serial number may be obscured by the rear sight.
- serial numbers can sometimes be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" may be found marked on several different models of Universal M1 Carbine receiver/frames. It is not a serial number.

Barrel

- longer barrels exist.

Calibre

- "CAL.30 M1" may be marked on the receiver/frame.

Shots

- detachable box magazine.

Remarks

-manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

- this is a commercial variant of the standard U.S. military M1 Carbine.
- "US CARBINE" with "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: gold plated finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; standard or deluxe Monte Carlo walnut pistol grip stock with matching wood handguard; left side mounted front sling swivel; Universal's patented front barrel band; may feature a convertible gas system.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- the serial number may be obscured by the rear sight.
- serial numbers can sometimes be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" may be found marked on several different models of Universal M1 Carbine receiver/frames. It is not a serial number.

Barrel

- longer barrels do exist, and many re-barreled rifles have been "de-registered".

Calibre

- "CAL.30 M1" may be marked on the receiver/frame.

Shots

- detachable box magazine.

Remarks

-manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- this is a commercial variant of the standard U.S. military M1 Carbine.
- "US CARBINE" with "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: leaf green Teflon finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; standard or deluxe Monte Carlo walnut pistol grip stock with matching wood handguard; left side mounted front sling swivel; Universal's patented front barrel band; may feature a convertible gas system.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- the serial number may be obscured by the rear sight.
- serial numbers can some times be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" is marked on several different models of Universal M1 Carbine receiver/frames and is not a serial number.

Calibre

- "CAL.30 M1" be marked on the receiver/frame.

Shots

- detachable box magazine.

Remarks

- manufacturer names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- this is a commercial variant of the standard U.S. military M1 Carbine.
- "US CARBINE" with "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: olive drab Teflon finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; standard or deluxe Monte Carlo walnut pistol grip stock with matching wood handguard; left side mounted front sling swivel; Universal's patented front barrel band; may feature a convertible gas system.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated. - Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.
Serial Number	- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area. - the serial number may be obscured by the rear sight. - serial numbers can sometimes be used to indicate a manufacturer or distinct model. - "Pat. 3,382.766" is marked on several different models of Universal M1 Carbine receiver/frames and is not a serial number.
Barrel	- longer barrels do exist, and many re-barreled rifles have been "de-registered".
Calibre	- "CAL.30 M1" be marked on the receiver/frame.
Shots	- detachable box magazine.
Remarks	- manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

27477 - 3	30 CARBINE	30	457	Prohibited PFR, Part 1, para. 236(z.51)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- this is a commercial variant of the standard U.S. military M1 Carbine.
- "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: high gloss bright blue finish on the receiver/frame and round barrel; blued adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; oil finished Monte Carlo Blonde walnut stock with matching handguard; Universal patented front barrel band with ramped gold bead front sight; may feature a convertible gas system; drilled and tapped for scope mounts.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- the serial number may be obscured by the rear sight.
- serial numbers can sometimes be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" is marked on several different models of Universal M1 Carbine receiver/frames and is not a serial number.

Barrel

- longer barrels do exist, and many re-barreled rifles have been "de-registered".

Calibre

- "CAL.30 M1" may be marked on the receiver/frame.

Shots

- detachable box magazine.

Remarks

- manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- this is a commercial variant of the standard U.S. military M1 Carbine.
- "FERRET" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: high gloss blue finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; deluxe Monte Carlo walnut pistol grip stock with matching wood handguard; left side mounted front sling swivel; Universal's patented front barrel band; may feature a convertible gas system. Originally supplied with scope and mount. May not have sights installed.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- the serial number may be obscured by the rear sight.
- serial numbers can sometimes be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" may be marked on several different models of Universal M1 Carbine receiver/frames and is not a serial number.

Barrel

- longer barrels do exist, and many re-barreled rifles have been "de-registered".

Calibre

- "256" is marked on the receiver/frame above the chamber.

Shots

- detachable box magazine.

Remarks

- manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- this is a commercial variant of the standard U.S. military M1 Carbine.
- manufactured circa 1962 to 1972.
- "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: bright blue finish on the receiver/frame and round barrel; blued adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; oil finished Monte Carlo Black walnut stock with matching handguard; Universal patented front barrel band with ramped gold bead front sight; may feature a convertible gas system; drilled and tapped for scope mounts.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- the serial number may be obscured by the rear sight.
- serial numbers can sometimes be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" may be found marked on several different models of Universal M1 Carbine receiver/frames. It is not a serial number.

Barrel

- longer barrels do exist, and many re-barreled rifles have been "de-registered".

Calibre

- "CAL.30 M1" may be marked on the receiver/frame.

Shots

- detachable box magazine.

Remarks

- manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- this is a commercial variant of the standard U.S. military M1 Carbine.
- available circa 1962 to 1972.
- "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- features include: gold plated finish on the receiver/frame and round barrel; blued adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; oil finished black walnut stock with matching handguard; Universal patented front barrel band with blued fixed front sight; gold name plate located on the right side of the stock; may feature a convertible gas system; drilled and tapped for scope mounts.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated. - Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.
Serial Number	- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area. - the serial number may be obscured by the rear sight. - serial numbers can sometimes be used to indicate a manufacturer or distinct model. - "Pat. 3,382.766" is marked on several different models of Universal M1 Carbine receiver/frames and is not a serial number.
Barrel	- longer barrels exist.
Calibre	- "CAL.30 M1" may be marked on the receiver/frame.
Shots	- detachable box magazine.
Remarks	- manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- the correct model designation is determined by the features and markings.
- the 5000PT is distinguished by the style of folding metal stock.
- features include: satin blued finish on the receiver/frame and round barrel; fixed front sight with protective wings; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; walnut pistol grip stock with perforated metal handguard and a bottom folding metal "schmeisser" style buttstock; left side mounted front sling swivel; front barrel band with no bayonet lug; receiver/frame is drilled and tapped and the stock inletted for scope mounting.
- overall length with a 457mm (18") barrel and stock extended is 914mm (36"), with the stock folded the length is 686mm (27") and average weight is 2.49kgs (5.5lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the top of the receiver/frame above the chamber.
Action	- gas operated. - Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.
Serial Number	- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area. - the serial number may be obscured by the rear sight or stock. - "Pat. 3,382.766" may be found marked on several different models of Universal M1 Carbine receiver/frames. It is not a serial number.
Barrel	- longer barrels exist.
Calibre	- calibre is marked on the top of the receiver/frame as "CAL.30 M1".
Shots	- detachable box magazine.
Remarks	- manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- this is a commercial variant of the standard U.S. military M1 Carbine.
- "CAL.30 M1" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- the correct model designation is determined by the features and markings.
- features include: stainless steel finish on the receiver/frame and round barrel; fixed front sight with protective wings; knob adjustable rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; walnut pistol grip stock with perforated metal handguard and a bottom folding metal "schmeisser" style buttstock; left side mounted front sling swivel; front barrel band with no bayonet lug; receiver/frame is drilled and tapped and the stock inletted for scope mounting.
- overall length with a 457mm (18") barrel and stock extended is 914mm (36"), with the stock folded the length is 686mm (27") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- the serial number may be obscured by the rear sight.
- serial numbers can some times be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" is marked on several different models of Universal M1 Carbine receiver/frames and is not a serial number.

Calibre

- "CAL.30 M1" be marked on the receiver/frame.

Shots

- detachable box magazine.

Remarks

- manufacturer names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- Lightly-engraved, single-trigger over/under, with automatic extractors. Two additional models, the 7812 and the 7912, are similar but for extra engraving and automatic ejectors.

Action

- over/under pattern.

Serial Number

- on receiver; all examples seen have a letter preceeding five digits.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "UNIVERSAL" over "HIALEAH, FLA." over CAL. 30 M1" over "PAT. 3,382,766" may be marked on the receiver ring.
- "ENFORCER" or variation thereof is marked on the receiver/frame.
- features include: blue, nickel, gold, black Teflon, or olive Teflon plated finish on the receiver/frame and round barrel; fixed rear sights; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; wooden pistol grip stock with matching handguard or ventilated metal handguard; front sight mounted on the Universal patented front barrel band; Universal patented gas system, cut out slide assembly, bolt hold open device on the right side of the receiver/frame; may feature a convertible gas system; drilled and tapped for scope mounts.
- overall length with a 260mm (10.25") barrel is 451mm (17.75") and average weight is 2.04kgs (4.5lbs).

Manufacturer

- "UNIVERSAL" over "HIALEAH, FLA." over CAL. 30 M1" over "PAT. 3,382,766" may be marked on the receiver ring.

Action

- gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- observed serial number consisted of six numbers without a letter prefix or suffix.
- serial number may be obscured by the rear sight.
- serial numbers can sometimes be used to indicate a manufacturer or distinct model.
- "PAT. 3,382,766" is marked on several different models of Universal M1 Carbine receiver/frames and "3382766" is not a serial number.

Barrel

- 260mm was manufactured in 1970's
- 286mm was manufactured in 1980's.

Calibre

- "CAL.30 M1" may be marked on the receiver/frame.

Shots

- detachable box magazine.

Remarks

- manufacturer's names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were also often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial parts. Further commercial identification can be done with features such as finish or stock style and material. Specific forms of markings can be used to help identify rough dates of manufacture as well. The proliferation of modern accessory stocks, fittings, sights, etc. may also confuse the issue of specific model identification.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- This is a commercial variant of the standard U.S. military M1 Carbine.
- Manufactured from 1964-1967.
- "ENFORCER" or variation thereof may be marked on the top of the receiver/frame.
- Features include: swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; G.I. type front barrel band; Standard G.I. type gas system; may feature a convertible gas system.
- overall length with a 260mm (10.25") barrel is 495.3mm (19.5") and average weight is 1.70kgs (3.75lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Type

- a rifle fitted with a short barrel and pistol grip stock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated. - Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.
Serial Number	- serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area. - the serial number may be obscured by the rear sight. - serial numbers can some times be used to indicate a manufacturer or distinct model. - "Pat. 3,382.766" may be found marked on several different models of Universal M1 Carbine receiver/frames. It is not a serial number.
Calibre	- "CAL.30 M1" may be marked on the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- This is a commercial variant of the standard U.S. military M1 Carbine.
- "256" with "FERRET" or variation thereof may be marked on the top of the receiver/frame in front of the ejection opening.
- Features include: stainless steel or high gloss blue finish on the receiver/frame and round barrel; swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; deluxe Monte Carlo walnut pistol grip stock with matching wood handguard; left side mounted front sling swivel; Universal's patented front barrel band; may feature a convertible gas system. Originally supplied with scope and mount. May not have sights installed.
- Overall length with a 457mm (18") barrel is 903.73mm (35.58"), average weight is 2.49kgs (5.5lbs).

Manufacturer

- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- Gas operated.
- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cut off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Serial Number

- Serial number is usually found on the top rear of the receiver/frame or on the side of the receiver/frame at the chamber area.
- The serial number may be obscured by the rear sight.
- Serial numbers can some times be used to indicate a manufacturer or distinct model.
- "Pat. 3,382.766" may be found marked on several different models of Universal M1 Carbine receiver/frames. It is not a serial number.

Calibre

- "CAL.30 M1" of "256" may be marked on the receiver/frame.

Shots

- In .256 WIN MAG calibre, this firearm will only work with a five round magazine; the rimmed cases stack up too quickly to work through a higher capacity magazine.
- Detachable box magazine.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987. - "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983. - "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.
Model	- the model designation is not marked on the firearm. - this model is a commercial adaptation of the US Carbine, model M1 and is available in several different variations. - this is a generic entry for the M1 Carbine family of firearms produced by Universal, other entries exist that may better identify the firearm being verified.
Manufacturer	- "UNIVERSAL" and "HIALEAH, FLA." are marked on the top of the receiver ring.
Action	- gas operated.
Serial Number	- serial number is located on the top rear of the receiver/frame. - number may be partially obscured by the rear sight.
Calibre	- calibre is marked on the receiver ring.
Shots	- detachable box magazine. - any of the military or commercial magazines for this type of firearm may be used.
Remarks	- Universal patented a method of easily converting all of its carbines and pistols from semi-automatic repeaters into single shot, bolt action repeaters. This conversion which is a reversible procedure can be performed by the individual owner simply by removing the gas piston plug and turning it 180 degrees before re-installing it. This effectively cuts off the gas system rendering the firearm a single shot. While this feature is interesting it does not change the basic action type which is Semi-Automatic.

Notes

Make

- "UNIVERSAL" is a brand name used by "Universal Firearms Corporation" which was in business as a manufacturer and distributor from 1958 to 1987.
- "Universal" did business under the following variations in company identity ("Universal Corporation / Universal Firearms Corporation / Universal Sporting Goods / Universal Enterprising Sales") all of which were located in Hialeah, Florida, USA until the Company was purchased by Iver Johnson Arms of Jacksonville, Arkansas U.S.A. in 1983.
- "UNIVERSAL" and "HIALEAH, FLA." is usually marked on the receiver/frame.

Model

- model designation is not marked on the firearm.
- this is an over & under combination gun with the rifle barrel located on top of the shotgun barrel.
- features include: bright receiver/frame with removable side plates; blued barrels; double triggers; side safety; top opening lever, folding leaf sights; semi-pistol grip wooden stock and forearm; light engraving; sling swivels; and cartridge storage inside the buttstock.

Action

- over and under barrel configuration.

Serial Number

- serial number may be located on the barrel and/or the receiver/frame.
- observed serial number consisted of a series of five numbers without a letter prefix or suffix.

Other Markings

- on the underside of the receiver/frame above the "Universal" marking may be a large rendition of the ULM proofhouse deer antler marking.

Notes

Make

- The make is not marked on the firearm.

Model

- The model designation is not marked on the firearm.
- This is a generic entry. Other 64 style model entries exist which might better describe the firearm.
- Features may include: Safety lever on the rear right of the receiver/frame; stamped sheet metal metal trigger guard; magazine release in front of the magazine well; right side reciprocating charging handle.

Action

- Blowback operated.

Shots

- Detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- The following features can be used to distinguish certain 64 models when markings are unavailable:
- The "64" can be identified by a thick, synthetic trigger guard and magazine release lever behind the magazine well.
- The "64A" can be identified by a thick, synthetic trigger guard and the magazine release lever was relocated to the front of the magazine well for all subsequent 64 models.
- The "64B" can be identified by a flat, stamped sheet metal metal trigger guard.
- The "64F" can be identified by an injection molded trigger guard integral to the synthetic stock.
- The "64G" can be identified by an injection molded trigger guard with a small triangular gap at the rear.
- The "64 Takedown" can be identified by a knurled takedown nut in front of the receiver/frame.

Notes

Make	- this is a generic entry for Bang Sticks that may or may not be marked with a make or manufacturer.
Model	- this is a generic entry for Bang Sticks that may or may not be marked with a model designation. - Bang Sticks generally consist of a unit which may be referred to as the powerhead, a receiver/frame with a barrel that can be interchanged with a barrel in a different calibre, attached to a pole or shaft with or without a ball at its opposite end. The model without the ball may be used with a spear-gun. - features include: a round stainless steel smoothbore barrel with or without a machined knurled grip and without sights that either screws in or is held in the receiver/frame by some sort of retaining device such as two O-rings fitted on the barrel. Round stainless steel receiver/frame which may either be screwed on or tack welded to a steel shaft or fitted onto a metal or wood pole; may have a cotter pin or a knurled ring or both as a safety.
Action	- the firearm is loaded by removing the barrel, placing a cartridge inside the barrel and then screwing the barrel back into the powerhead.
Serial Number	- serial number was not marked on referenced example.
Calibre	- calibre designation may not be marked on the firearm.
Canadian Law Comments	- a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

Notes

Make

- make is not marked on the firearm.

Model

- model designation is not marked on the firearm.
- this firearm resembles a flintlock holster pistol with dog catch safety used by the military of Charles the 1st of England circa 1640.
- features observed: no sights; round to polygonal to octogonal barrel; ramrod mounted under the barrel; nickel finish side lock with dog catch safety and flintlock hammer; single action trigger mechanism; metal trigger guard; full length stock with fish tail butt and metal butt cap.
- dog catch safety (dog safety catch) operated between half and full cock.

Action

- muzzle loading.

Serial Number

- serial number was observed marked on the barrel, under the stock, and partially repeated on the butt cap (four numbers only).
- observed serial number consisted of a letter prefix and four numbers.

Other Markings

- example observed with the following marking on the barrel under the stock: "U.H. INDIA"

138207 - 1	75 FLINTLOCK	1	991	Antique AFR, Section 1, para. 1	Non-Commercial Customization	

Notes

Make

- make is not marked on the firearm.

Model

- the model designation is not marked on the firearm.
- this is a copy or reproduction of the British Service Pattern 1793 "Brown Bess" musket.
- after 1764, the contractor's name and the date that the lock was made were no longer applied to the lock plate; only the word "TOWER" would appear.
- the original version was produced circa 1793 to circa 1815.
- this is an improved Pattern 1779 Short Land Pattern Musket but with a 991mm / 39" barrel.
- typical features include: sidelock action with exposed hammer, muzzle loading, flintlock ignition; polished "in the white", blackened or browned, smooth bore barrel; full length, one piece walnut stock with nosecap; two screws showing behind the hammer; lobed feather-spring finial; tapered steel ram rod retained by three pipes; brass furniture; sling swivels are attached to the trigger guard bow and screwed through the stock between the first and second pipes; stepped, long tang butt plate.
- the original Pattern of musket encompassed two variations; the Pattern 1793 Musket, India Pattern Type 1 and the Pattern 1809 Musket, India Pattern Type 2.
- average overall length is 1391mm (54 3/4"), average weight is 4.18kg (9.2lbs).

Action

- muzzle loading.

Serial Number

- such arms are often marked on the right side of the buttstock or the upper tang of the butt plate with a number that usually represents the rack position, or Company, Unit, or Regiment number and is not the serial number.

Other Markings

- an observed example featured the East India Company logo, consisting of four letters ("V" over "E", "I" and "C") within an "X" inside a heart marked on the barrel.

Notes

Make

- firearm bears no markings to identify make, manufacture, or country of manufacture.

Model

- "Browning 1935 High Power Copy" is not marked on this firearm.
- this firearm resembles a Browning model 1935 High Power semi-automatic pistol manufactured by FN or Inglis.
- features include: blade front sight and a fixed rear sight; round rifled barrel; flat sided slide with right side ejection and rear grip serrations; exposed hammer; single action trigger mechanism; slide release and manual safety catch are mounted on the left side of the receiver/frame; magazine disconnect; lanyard ring is mounted on the left side of the rear grip strap; checkered black plastic grips; parkerized finish.

Action

- recoil operated.

Serial Number

- serial number of the referenced example was marked on the left side of the grip frame under the grip panel.
- serial number observed consisted of five numbers without a letter prefix or suffix.

Shots

- detachable box magazine.

Notes

Make

- The make is not marked on the firearm.

Model

- Magazine release located on the side of the firearm.
- Slide release lever located on the side of the firearm.
- The model designation is not marked on the firearm.
- This is a generic entry. Other High Power model entries exist which might better describe the firearm.

Action

- Recoil operated.

Serial Number

- The serial number was not marked by the manufacturer.
- The serial number is not marked on the firearm.

118540 - 1	450 REV CF	5	57	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- firearm bears no markings to denote make or manufacturer.

Model

- "THE" over "BULL - DOG" or variation was observed marked on the topstrap.
- in general terms this type of handgun was a copy of the Webley No.2 "British Bulldog". It is typified as a short barreled, solid frame handgun with loading gate, usually has an empty case ejecting rod with the rod sheathed within the cylinder axis pin; this rod is pivot mounted on the right side of the frame and is capable of swinging to the right. A bird's head grip is typical.
- barrel and frame are usually forged integrally as one piece. It may or may not have a noticeable "hump" on the grip backstrap behind the hammer.
- Belgian proofmarks may be apparent.

Calibre

- calibre designation is marked on the left side of the receiver/frame, in front of the cylinder as, "450".

Notes

Make

- will not bear any markings that positively identify the manufacturer or country of manufacture.

Model

- this is a generic record for those "Bulldog" type revolvers that have no make or manufacturer's markings and cannot otherwise be identified.
- other screens exist that might better identify the revolver being examined.
- "Bulldog" may or may not be marked on the firearm (features simulate the popular "British Bulldog" by Webley); produced during the late 1800s to the early 1900s.
- the features of this firearm, which is commonly referred to as "Bulldog", (sometimes as British Bulldog, English Bulldog, Ulster Bulldog, Tower Bulldog, or American Bulldog), are usually characterized as a compact, solid-framed, short-barreled revolver (often with an integral barrel and frame), usually with a right side loading-gate, usually with a swing-out case ejector rod stored within the cylinder axis rod, usually with "Birds-head" style handgrip, fixed or folding trigger, usually of a large cartridge (rim-fire or centerfire) caliber (such as 32, 38, 41, 44, 450 or larger), with no sights or rudimentary sights.
- Some versions may come with a frame mounted safety.

Serial Number

- samples have been noted with the serial number marked on the right side of the receiver/frame, rationalization unknown.

198694 - 2	5.56MM NATO	30	460	Prohibited PFR, Part 1, para. 87	Non-Commercial Customization	

Notes

Make	- Markings attempting to replicate the Diemaco logo or Canadian Armed Forces contract markings are marked on the receiver/frame.
Model	- "C8" is marked on the left side of the lower receiver/frame. - Based on the "AR15" design. - This is a generic record for unlicensed copies of the Canadian Military issued "C8" rifle of unknown manufacture. - Features may include: integral accessory rail; forward bolt assist; ambidextrous magazine release; left side bolt catch; left side three(3) position safety selector.
Action	- Gas operated.
Serial Number	- The serial number is usually marked on the left side of the receiver/frame. - Serial number may use series of letters and digits intended to replicate the serial number rationalization used by Diemaco.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the left side of the receiver/frame.
Shots	- Detachable box magazine.

Notes

Make

- firearm bears no markings that denote make or manufacturer.

Model

- this is a generic entry for those Unknown Cane Guns that are not identifiable as to make or manufacturer.
- flintlock and percussion ignition guns may be either muzzle loading or breech loading (screw barrel); this type of firearm in its orginal configuration would have been made circa mid 1700's to mid-early 1870's.
- may be found with smoothbore or rifled barrel.
- may have cane "handle" adapted to fit a detachable butt-stock.
- may be fitted at the tip with a device to stop the muzzle from being damaged.
- may be fitted with, folding trigger, spur trigger, button trigger or ring trigger.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make	- observed specimen had no markings.
Model	- model designation is not marked on the fiearm. - these air cane guns were manufactured from circa 1840 up to the early 20th century. - this firearm could be found as a muzzle loader or turret breech loading configuration using lead ball ammunition and could be rifled or smooth bore. - typical pattern was two parts, the rear half of the gun was a tubular air reservoir and valve mechanism; the forward half contained the barrel and lock mechanism. - the firearm is cocked by using a clock like key that caused a small button (trigger) to pop out. - features may include: fixed rudimentary sights; black or brown finish metal with billiard ball for its knob.
Action	- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- located on receiver/frame barrel assembly between the two parts. - observed specimen had three letters prefix and five numbers. (letter prefix on the observed specimen may be added by a Police detachement)
Calibre	- made in various calibres from .177 to .75.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- maker's name may not be marked on the firearm or if it is, it may be a mark that is either unidentifiable or unknown.

Model

- no model name is marked on this firearm; model designation is derived from the physical characteristics of the firearm.
- this pistol is a copy of the British Service Cavalry Pistol as produced in the early workshops of India, Nepal, Turkey, Afghanistan etc.
- features include: muzzle loading, flintlock ignition; captive swivel-type ramrod attached at underside of barrel at muzzle end; iron barrel, trigger, hammer and lockworks; brass forend cap, trigger guard and buttcap; full length stock; grip is flared at bottom with flat buttcap and attached iron lanyard ring.

Action

- muzzle loading, flintlock ignition.

Serial Number

- observed example had a three digit number without prefix or suffix marked on the lockplate.

Firearm Reference Number (FRN): 121869
Make: Unknown
Model: Colt 1849 Pocket Type

Summary

Make:	Unknown
Model:	Colt 1849 Pocket Type
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121869 - 3	31 PERCUSSION	5	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	
121869 - 1	31 PERCUSSION	6	95	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	
121869 - 2	31 PERCUSSION	6	152	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- no markings that identify the manufacturer or country of manufacture will be evident on the firearm.

Model

- the model designation is normally not marked on the firearm.
- this is an entry for all Colt, model 1849 pocket type handguns made without licence, may have few differences from the model original.
- features generally include: single action trigger mechanism; case hardened receiver/frame; spurred hammer; loading lever located under the barrel; blued octagon barrel; fixed small bead for a front sight; silver plated brass backstrap; round triggerguard; and wood grip panels.

Serial Number

- the serial number (if numbered) may be located on the underside of the receiver/frame and on the bottom of the barrel lug.
- example observed with six digits.

Other Markings

- may be marked on the top of the barrel as: "ADDRESS SAML COLT", and "NEW YORK CITY" or any other Colt markings to simulate Colt factory endorsement of the product.

FRT Report

Firearm Reference Number (FRN): 87315
Make: Unknown
Model: Colt 1851 Navy Type

Summary

Make:	Unknown
Model:	Colt 1851 Navy Type
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
87315 - 1	36 PERCUSSION	6	189	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- no markings that indicate the make or manufacturer will appear on the firearm.

Model

- this is a generic screen for a firearm having a close resemblance to the Colt 1851 Navy revolver in appearance, size, and features , and for which the "Make" cannot be determined because it is unmarked, or not known.
- this firearm is a six-shot, open-framed, front-loading, percussion revolver, in .36 caliber.
-it consists of three major components: a) the steel front barrel assembly carrying a loading lever; b) the receiver/frame assembly consisting of the receiver/frame, trigger-guard, and back-strap of iron, steel, or brass, and which houses the internal parts consisting of the trigger, hammer, pawl, cylinder stop, and springs; c) the steel cylinder which is comprised of a central axis bored through, the six chambers open to the front, with six nipples for percussion caps at the rear of each chamber.
- the cylinder slips over the barrel axis, which is attached to the frame.
- the barrel assembly is joined to the receiver/frame assembly by a laterally slotted key through the cylinder axis.
- the square-bottomed hand-grips are usually one-pieced of wanut or hardwood.

Serial Number

- may or may not be numbered.

189322 - 1	22 LR	6	203	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- no markings that identify the manufacturer or country of manufacture will be evident on the firearm.

Model

- "1860 Army" was observed on the underside, or the model may not be marked on the firearm.
- this is a modern reproduction of a metallic-cartridge conversion of the Colt 1860 Army percussion revolver to use centrefire metallic cartridges, a common post-Civil War practice seen on many original Colt percussion revolvers.
- features include: blued finish; fixed open sights; an original-style "open-top" Colt percussion receiver/frame with a conversion barrel having a manually-operated ejector-rod (rather than a loading rammer of the original percussion system); blued or colour-case-hardened receiver/frame; non-fluted cylinder; and smooth wooden grips.

Serial Number

- serial number is marked on the underside of the receiver/frame.
- serial number is customized.
- serial number of a referenced example consisted of three letter prefix "WGS" over five numbers.

Calibre

- "22 L.R." is marked on the left side of the barrel.

72632 - 3	44 PERCUSSION	6	217	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Model

- this is a reproduction of the Colt 1860 Army cap and ball handgun, available in several styles; with a brass or steel receiver/frame, and with an unfluted cylinder.
- loading lever, hammer, and receiver/frame (in steel-framed versions) are usually color-case-hardened, while the barrel and cylinder are blued. Additionally, the cylinder will usually have a roll-engraved battle scene on it.

Serial Number

- the serial number is marked on the bottom of the grip strap on observed sample.

Notes

Make

- there will usually be no markings that would indicate the maker or the country of origin on the firearm.
- samples have been noted with spurious markings that imitate or exactly copy original factory applied marks.

Model

- this model closely resembles the Colt produced "1911A1" style of handgun.
- as there are many variations of the original, the features found on this type of firearm may vary widely.
- features will normally include: a grip safety, single action trigger mechanism, safety lever mounted on the left side of the receiver/frame, magazine release mounted on the left side of the receiver/frame, a straight or arched mainspring housing that may incorporate a lanyard ring, and cocking serrations on the rear of the slide.
- as there exists a large number of aftermarket parts for this type of firearm different sighting arrangements, finishes and grip styles will be encountered.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- samples may or may not be numbered. - some samples have been noted with several different numbers applied to the major components.
Shots	- detachable box magazine.
Other Markings	- some samples may be marked with any number of proof marks, these markings are not a guarantee of country of origin.

Notes

Make

- the make is not marked on the firearm.

Model

- the model designation is not marked on the firearm.
- this is a highly unusual firearm that combines a single shot bolt action shotgun with a pump action rifle (each with its own barrel). This over/under firearm can be used as a rifle or shotgun at the owner's discretion.
- features include: round smooth bore and rifled barrel; one piece receiver/frame with a single shot bolt action & a box magazine fed repeater pump action; two triggers; open iron sights; checkered wood forearm and semi-pistol grip buttstock.

Action

- this firearm uses an over/under configuration with a top mounted single shot bolt action shotgun and a box magazine fed pump action rifle.

Barrel

- barrel length of 460mm is for the 20 GA X 3" bolt action and 592mm is for the 22 HORNET pump action.

Calibre

- 22 HORNET magazine fed pump action and 20 GA X 3" single shot bolt action.

Shots

- one shot for the 20 GA X 3" bolt action and five shots for the 22 HORNET pump action.

134656 - 1	38 S&W	6	76	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- make or manufacturer's name was not observed on the firearm.
- Belgium proof marks were observed on the cylinder.

Model

- "ENGLISH" over "CONSTABULARY" was observed marked on the top strap of the receiver/frame.
- "English Constabulary" resembles a Webley model RIC.
- "Constabulary" refers to a variation of the British Bulldog revolvers which are distinguished from the Bulldogs by a lanyard ring and metal endcap on the bottom of the grip frame.
- features observed: blade front sight and v-noth in the top strap for a rear sight; ovate rifled barrel; solid top receiver/frame with non fluted cylinder and right side swing-down loading gate; pivoting ejector rod mounted on the front of the receiver/frame; exposed spur hammer; single/double action trigger mechanism; grip strap with metal end cap and lanyard ring; checkered wood grip panels.

Serial Number

- serial number was observed marked on the right grip strap of the receiver/frame, underneath the grip panels.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Other Markings

- may have proof marks on the cylindre.

FRT Report

Firearm Reference Number (FRN): 195063
Make: Unknown
Model: English Flintlock Dragoon Pistol Reproduction

Summary

Make:	Unknown
Model:	English Flintlock Dragoon Pistol Reproduction
Manufacturer:	Unknown
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195063 - 1	62 FLINTLOCK	1	288	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Model

- English Flintlock Dragoon Pistol is not marked on the firearm
- features include: round barrel with bare metal finish; under-barrel ramrod on brass thimbles with a brass end-cap, brass pommel, bare metal finish on breech plug and tang; right-side lockplate, cock, pan, and hardened frizzen; brass trigger guard; shield escutcheon shield, and pommel with side straps; full length wooden stock.
- on an observed sample, the barrel featured a simulated crown "GR" broad arrow proofmark and a crown with crossed arrows proofmark. The tang featured a crown with crossed arrows proofmark and a crown with the number 6.
- very close resemblance to the flintlock firearms known as the English Dragoon Pistol Pattern 1738 and Pattern 1730 Land Service Pistol.

Serial Number

- serial number found on the bottom front of the hand grip brass pommel.

Canadian Law Comments

- this reproduction flinlock pistol meets the Criminal Code of Canada definiton of "firearm" in that it can be adapted for use as a firearm by drilling a vent hole in the location that is marked by an indentation or "dimple" on the barrel.
- this flintlock pistol is a firearm that is designed and intended to be discharged by the action of one hand and as such meets the Criminal Code of Canada definition of "handgun".
- this flintlock pistol is a handgun manufactured after 1897 that does not meet the Criminal Code of Canada definition of "antique firearm".

Firearm Reference Number (FRN): 197535
Make: Unknown
Model: Extra American

Summary

Make:	Unknown
Model:	Extra American
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197535 - 1	35 PERCUSSION	5	95	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The make is not marked on the firearm.

Model

- "EXTRA AMERICAN" is marked on top of the barrel.
- This is a copy of a Colt "1851 Navy" revolver of unknown manufacture.
- "PATENT SYSTEM" is marked on the left side of the receiver/frame.
- Features may include: loading lever located under the barrel; engraved cylinder and receiver/frame; spurred hammer; round trigger guard; bone grip panels.
- Cylinder was engraved with a naval scene likely intended to imitate the naval battle engraved on the cylinder of the Colt "1851 Navy".

Serial Number

- The serial number is marked on the underside of the receiver/frame.
- The serial number is repeated on the trigger guard.
- Serial number of a referenced example consisted of the letter prefix "S" followed by five digits.

Calibre

- The calibre designation is marked on the left side of the firearm.
- Calibre was marked on the left side of the trigger guard as "CAL 35".

Other Markings

- Post-1893 Belgian proof marks were observed on the cylinder.
- Referenced example had Arabic script marked on the left side of the barrel.
- Cylinder of a referenced example was engraved with a naval scene likely intended to imitate the engravings of a Colt 1851 Navy.

Notes

Model

- This is a generic entry for a Browning model 1910 handgun that does not feature any original factory markings.
- The model designation is not marked on the firearm.
- This is a copy of the FN Browning model 1910.
- Observed sample has several markings made to closely resemble those of the FN Browning "1910".
- Slide lock lever located on the side of the firearm.
- Magazine release located at the bottom front of the grip.
- Features include: external extractor; gripping at the rear of the slide; and black plastic grips with logo that resembles the FN-Browning logo.

Action

- Blowback operated.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- Observed serial number consisted of a letter prefix and five digits.

Calibre

- The calibre designation is marked on the barrel, visible through the ejection port.

Other Markings

- Observed sample has several markings that imitate Belgian proof marks.

15428 - 1	44 PERCUSSION	1	235	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- firearm bears no marks as to identify make, manufacturer, or country of manufacture.

Model

- no model designation is marked on the firearm.
- this is a generic record for those percussion pistols that can be identified by characteristics relative to French Duelling Pistols manufactured through the 1840-1860 time period.
- these firearms were highly detailed, ornately decorated, and engraved percussion pistols.
- features may include: fluted, checkered, or decoratively carved wood pistol grips and a one piece stock; decorative silver, gold, brass, or wooden butt caps; engraved trigger guard with spur finger rest, adjustable single or double set triggers, highly polished and decorated lock and barrel; barrel may be fluted, round, octagonal, half round, half octagonal or both; blade front sight, and adjustable rear sight.

Action

- muzzle-loading, percussion ignition.

118035 - 2	380 REV SHORT CF	2	138	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Model

- model designation is not marked on the firearm.
- side by side barrels, external hammers, opening lever mounted on the underside of the receiver/frame ahead and outside of trigger guard, extractors, double triggers, carved upper grip panels and bead front sight.
- sample noted had a mark on the breech end of barrels consisting of an outline map of Brasil with a turreted tower within the perimeter.
- on an observed example (child entry 118035-2) the firearm has a Belgian date code and acceptance mark, calibre marked on top of breech, left barrel rifled and right barrel smooth bore.

Action

- side by side.

Serial Number

- on observed example, serial number found on right side of receiver/frame.

Calibre

- may be stamped on top of barrels at breech.

Notes

Make

- 3D Printed Glock receiver/frames are mostly printed using privately owned 3D printers and are usually found without any Make or Manufactures markings

Model

- Features include a 3D Printed receiver/frame printed either using thermoplastic feedstock know as a "filament" or a photosensitive liquid "Resin".
- 3D Printed Glock receiver/frames do not have any metal internal support structures, which are typically found internally on all Glock type handguns.
- Various adaptations of the 3D printed Glock can be found online, each with different physical characteristics, which can include such features but are not limited to: integrally 3D Printed front accessories rail, blank non-checkered pistol grip or checkered pistol grips, left side magazine catch, various colours and material can be used.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- no markings that indicate "Make" or "Manufacturer" appear on the firearm. - many of these firearms bear no proof marks to determine manufacturer or country of origin.
Model	- this is a generic screen for muzzle-loading, black powder firearms that bear the appearance, features, and characteristics as follows a) the "cock" of the lock holds a flint which is struck against a iron "frizzen". b) it is a large pistol, bearing a sturdy stock with a bulbous buttend. c) it has a large bore (about 55 to 75 caliber, sometimes larger) of the type commonly used by a horseman of the cavalry, or dragoons. - barrels on early models were long, sometimes 35.5 cm. (14 inches) or more; later models often were built with shorter barrels. - this type of pistol is also referred to as: cavalier's pistol, chevalier pistol, horse pistol, horseman's pistol, dragoon pistol, holster pistol, etc. - flintlock pistols of this type were originally manufactured from the early 1700s and commonly used into the 1840s. With the advent of the percussion lock in the early 1800s, and military use in the late 1830s, many flintlocks were converted to percussion ignition. NOTE: Sea service pistols of various nations were usually of a similar pattern, and usually distinguished by a long belt hook, with brass replacing iron appointments. - no model name appears on this firearm; model designation is derived from the characteristics of the firearm.
Action	- large muzzle-loading, black powder pistol, flint ignition.
Serial Number	- may or may not be numbered.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

120919 - 1	20 GA X 2 1/2"	2	212	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- no maker's name is marked on this firearm.

Model

- no model name is marked on this firearm.
- the model designation is derived from the fact that this type of large bore, side by side pattern pistol was usually used principally by dangerous game hunters for self protection against enraged tigers or other such game and was carried in the "howdah" or saddle on the back of an elephant during the hunt.
- may be muzzle loading percussion or break action breech loading, utilizing box lock or side lock actions.
- features may include; damascus barrels; double triggers; double exposed hammers; underlever, top lever or side lever opening for breech loaders; fixed rear sight; under-barrel ramrod for percussion ignition versions.
- this type of firearm was in use circa 1850 to 1870.

Action

- side by side pattern.

Notes

Make

- there are no markings to denote make, model or manufacturer of this device.

Model

- this is a generic entry to describe all those devices capable of discharging a projectile that have been made or modified from some other device not necessarily resembling a traditional firearm.
- some devices were designed to discharge blanks, distress flares, or tear gas, insecticides or perfume.
- two observed examples resembled modified "Pen Guns" with remanufactured screw-barrels that permit the discharging of rimfire ammunition.
- one observed example had "Alili Depose" marked on the barrel.
- features may include: a removable barrel that permits the insertion of a cartridge; spring loaded striker device with cocking handle or pin; wood, metal, or plastic handle; may or may not have a notch or detent safety.

Action

- spring-loaded, striker fired.

33665 - 2	42 PERCUSSION/18 GA PERCUSSION	10	185	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Model

- "Le Mat" and "Le Mat & Girard" percussion revolvers were manufactured in Belgium, England, and France between 1856 and 1865.
- this is a two-barrel single action revolver.
- this firearm is a single shot with a nine shot cylinder, that revolves on the central single shot barrel
- barrels: both are normally the same internal length.

Action

- over and under barrel configuration.
- upper barrel is normally rifled and bottom barrel is usually a smooth bore.
- this single action handgun combines the features of a multiple shot revolver and a single barrel shotgun.

Shots

- nine (smaller) calibre and one (large) calibre.

Notes

Make

- there are no marking to identify make on the firearm.

Model

- "M305" over "Cal 7.62mm" is marked on the left side of the receiver/frame.
- this entry is for model M305 firearms with no make, no manufacturer, and no importer marked on the receiver/frame. Other records may be more relevant to a particular firearm.
- "M305" is a semi-automatic variant of the US M14 rifle.
- features include: blade front sight and adjustable aperture rear sight; round tapered chrome lined barrel with threaded muzzle, and with or without flash suppressor; bird cage type flash suppressor may have integral bayonet lug; mounting area for an optic/accessory rail on the left side of the receiver/frame; cartridge clip guide on top of the receiver/frame; left side bolt release; right side cocking handle; removable trigger group assembly; manual safety lever on the front of the trigger guard; magazine catch/release is located behind the magazine well; synthetic handguard; one piece wood or synthetic pistol grip stock with hinged steel butt plate; grey metal finish.

Action

- gas operated.

Serial Number

- marked on the right side of the receiver/frame.
- a serial number consisting of a one-letter prefix followed by six numbers was observed on one example.

Calibre

- "Cal 7.62mm" is marked on the left side of the receiver/frame.

Shots

- detachable box magazine.

Notes

Make	- no makers name is apparent on this firearm.
Model	- no model name is marked on this firearm; features which describe the basic action-type have been used to determine the model designation. - this is a generic entry for all Martini-action type rifles that have no model name marked on them. - action is of the Martini-style with downward swinging breech block, hinged at the top rear, operated and locked by an under lever. - features may vary widely.
Action	- rear hinged, lever operated tipping block design. - Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.
Serial Number	- known example had a three or four digit number without prefix or suffix marked on the receiver/frame.
Other Markings	- retailer's name may appear on the barrel.

Notes

Model

- a bulky, large caliber "Gasser" style military revolver, popular in the "Montenegro" region of Europe during late 1800s to early 1900s.
- may be open, solid, or hinged frame; with fluted or non-fluted cylinder, often with rod ejector attached to the right side of the frame.
- usually with a long (approx. 150 to 230mm) round barrel, fitted with fixed open sights.
- large, exposed spurr hammer.
- usually fitted with loading gate located on the right side.
- usually with a rounded trigger guard, retained by two screws.
- round "Broom-Handle" style, or squared butt, checkered wood grip-plates (often horn, or bone), retained by one screw.

103396 - 1	12 GA X 3"	4	813	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- no markings appear on the firearm that indicate the maker or country of origin.
Model	- this shotgun resembles the "Mossberg 500". - features include: engraved or plain steel or alloy receiver/frame, sliding ambidextrous safety located on the top rear slope of the receiver/frame, checkered wooden buttstock, and a beavertail fore-end.
Serial Number	- serial number may be marked on the left side of the receiver/frame, and may consist of three letters (possibly "BMP"), followed by four digits.
Calibre	- calibre designation may be marked on the underside of the receiver/frame.
Shots	- tubular magazine, located under the barrel.
Other Markings	- these firearms are often encountered with markings intended to imitate original manufacturer markings. These markings may be misspelled or in the same style and same location of the originals.

194062 - 1	50 FLINTLOCK	1	188	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- the make is not marked on the firearm.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a modern reproduction of a "Murdoch" pistol, originally built by John Murdoch, of Doune, Scotland, during the mid-to-late 1700s, for the "Black Watch" of the Royal Highlanders. A very similar pistol, the "Black Watch Pistol" is known under several similar names, and must not be confused with the "Murdoch" pistol; where the "Murdoch" pistol has a "ram's-head" butt, with curlicue extensions that help to protect a ball-headed vent-pick threaded into the butt, the "Black Watch Pistol" is made with an all-brass butt and stock, with a double-lobed "kidney-shaped" butt that allows the pistol to be used as a club after the shot is fired.
- features include: all-metal construction, with polished in-the-white or nickel finish; cannon muzzle; round or faceted barrel; underbarrel ram-rod; left-side belt hook; right-side lockplate, cock, frizzen and pan; a ball-shaped trigger; a vent-pick threaded into the butt and protected with curlicue "ram's horns"; and (usually) monogram plates on the sides of the grips.

Action

- muzzle-loaded flintlock.

Serial Number

- serial-numbered on major internal parts; the pistol must be disassembled to observe the serial number.

Notes

Make	- no maker's name is marked on this firearm.
Model	- known example had the name "NATIONALE" marked on the left side of the receiver/frame. - turn bolt operated, single shot rifle. - this firearm looks somewhat like a Mosin-Nagant bolt action rifle converted into a single shot, 22 Rim-Fire, military-style training rifle. - features include: single piece hardwood stock with two barrel bands; leaf-type adjustable rear sight; blued finish.
Action	- turn bolt operated.
Serial Number	- known example had a four digit number with an alpha prefix and suffix. - alpha prefix "N" and alpha suffix "B" has been observed.

Notes

Make

- make does not appear on the firearm.

Model

- "Model No. 1" is marked on the right hand side of the receiver/frame.
- the receiver/frame appears to combine the features of the Savage 1903/1909 pump action 22 rifle and the hump back of the Browning Auto 5.
- this is a take-down pump action rifle.
- features include: round barrel with open sights; solid top, enclosed receiver/frame with an oval ejection port on the right side, top tang mounted sliding safety and single action bar on the right side; large knurled slotted take-down knob on the right side of the receiver/frame, above the trigger; square front edge of the trigger guard forming a magazine guide/housing for the detachable box magazine; walnut straight grip butt stock and smooth slender cylindrical pump forend.

Serial Number

- observed serial number consisted of three digits.
- serial number is located on top of barrel, just aft of the rear sight.

Calibre

- barrel is stamped ".22 CAL. SHORT CTG".

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 117315
Make: Unknown
Model: Normick

Summary

Make:	Unknown
Model:	Normick
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Multi-Barrel
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
117315 - 1	22 PERCUSSION	4	51	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- firearm bears no markings that identify make or manufacturer.

Model

- model designation is marked on top of the barrel as "NORMICK".
- features include: single action, square receiver/frame with a centre mounted spurred hammer, four barrels in the pattern of two over two, no trigger guard, and a birds head grip which may have wooden grip panels.
- when the hammer strikes the percussion cap on this model, all four barrels are discharged at once.

Serial Number

- the serial number on an observed sample was marked on the butt of the receiver/frame and under the right grip panel.

FRT Report

Firearm Reference Number (FRN): 199859
Make: Unknown
Model: Not-A-Glock 3D Printed

Summary

Make:	Unknown
Model:	Not-A-Glock 3D Printed
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
199859 - 1	22 LR	10	83	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- The make is not marked on the firearm.
- The username of the designer may be marked on the firearm.
- This firearm was designed by an individual known as "Ju5t3nc4s3".

Model

- "NOT A GLOCK 22" may be marked in stylized font on the rear slide plate.
- The "NOT-A-GLOCK" is a 3D printed handgun designed to be built with both 3D printed parts and common items that can be found at a hardware store.
- Although this model is referred to as "Not-A-Glock", it resembles a Glock Model 26 in both appearance and size.
- Features include: 3D printed construction; barrel made of improvised material (hydraulic or brake tubing); magazine release button is located on the left side of the receiver/frame, at the intersection of the trigger guard and grip front strap; slide release lever is located on the left side of the receiver/frame; sliding safety selector is located on the left side of the receiver/frame; finish and color may vary depending on printing filament, printer settings, or any alterations made to the openly available design files.

Action

- Blowback operated.

Serial Number

- The serial number is not marked on the firearm.

Calibre

- The calibre designation is usually marked on the barrel, visible through the ejection port.

Shots

- Detachable box magazine.

Notes

Make

- firearm is completely unmarked as to make or manufacturer.
- firearm may or may not have any identifiable markings.

Model

- this type of firearm is usually has a spring-loaded striker mechanism, released by a simple release device.
- resembles a mechanical pen, pencil or fountain pen.
- loading a cartridge requires unscrewing the larger end of the device (the barrel), inserting a cartridge, and re-attaching the barrel.
- barrels may range from 16 to 89 mm in length.
- overall length will vary, observed examples between 12 and 20 mm.

Calibre

- usually not marked as to the cartridge or caliber.

Notes

Make

- firearm bears no markings related to Make or Manufacturer.

Model

- model designation is not marked on the firearm.
- this is a generic entry for those Pepperbox type handguns that are not identifiable as to Make or Model.
- features may include: open or solid receiver/frame; internal or external spurred hammer; barrels will normally rotate on a center axis; ring trigger, folding trigger or standard trigger within a trigger guard; synthetic or wooden grip panels.
- this type of firearm was made circa early 1830's to mid-late 1850's.

Action

- rotating barrel cluster.

Serial Number

- may have a serial number on the receiver/frame.
- serial number may be located under the grip panels.

Barrel

- this firearm does not have a conventional barrel attached to the receiver/frame and as such the barrel length also includes the length of the cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Model

- this is a modern reproduction of an Allen's Patent Bar Hammer Pepperbox percussion revolver originally manufactured by Allen & Thurber or Allen & Wheelock.
- features include: four smooth bore fluted revolving barrels; brass receiver/frame; bar hammer; double action only; American walnut bag shaped handle/grip.

Action

- muzzle loading.

Serial Number

- serial number was observed marked on the underside of the receiver/frame.
- observed serial number consisted of a letter "C" prefix and five numbers.

76855 - 4	32 PERCUSSION	6	100	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Model

- solid top receiver/frame revolver with a round, octagonal or round to octagonal barrel.
- rotating cylinder has percussion nipples mounted at 90 degrees to the side of the cylinders. The hammer, which resembles a rectangular bar, rises and drops striking the percussion cap on the nipple located on the top side of the cylinder when the trigger is pulled. Capable of double action operation only.
- most firearms of this type have no means of loading the cylinder without removing the cylinder from the frame.
- firearms of this type were manufactured in Europe during the 1840's - 1850's and were made obsolete by the advent of the metallic cartridge system.

Serial Number

- may or may not have serial numbers.

Notes

Make

- maker's or manufacturer's name is not apparent on this firearm.

Model

- model designation is not marked on the firearm.
- production of this type of firearm generally began circa early-to-mid 1800's.
- this is a generic entry for those Percussion Muskets that are not identifiable as to Make, Model or Manufacturer and includes unidentified arsenal conversions of muskets from flintlock to percussion.
- features include: round or octagonal barrel; side or centre external hammer; full or cut down stock; iron or brass trigger guard and buttplate; may have barrel bands and sling swivels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- muzzle loader.
Serial Number	- serial number may be present on this type of firearm but should not be confuse with possible inscription of model number or year of manufacture code.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- no markings to indicate make are marked on the firearm.

Model

- this is a generic entry for those percussion rifles that are not identifiable as to make, manufacturer or country of manufacture.
- features may include: round, half round or octagonal barrel.
- percussion ignition system may be in the form of under hammer, side hammer, top hammer or center hammer.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

144111 - 2	44 PERCUSSION	6	140	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- firearm bears no markings to identify Make or Manufacturer.
- "REGISTERED" over "APRIL 24 1852" was observed marked on the receiver/frame.
- "REGISTERED" over "APRIL 24 1852" markings have been associated with Thomas K. Baker of London, England.

Model

- model designation is not marked on the firearm.
- this firearm is also known as a proto revolver or transitional revolver.
- this firearm resembles a pepperbox revolver with a long barrel wedged on to an extension of the barrel cluster axis pin.
- features include: bead front sight with the hammer notched for a rear sight when at full cock; round to octagonal, rifled barrel with a flat sided barrel lug; engraved receiver/frame with top mounted bar hammer, percussion cap shield and a non-fluted percussion cylinder; traditional trigger and trigger guard; double action trigger mechanism; round bottom grip with a metal butt cap and wood grip panels.

Serial Number

- serial number was observed marked on the grip strap.
- serial number observed consisted of four numbers without a letter prefix or suffix.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make - no markings that would indicate the maker or country of manufacture are marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Transitional Pepperbox Revolver" was normally manufactured circa 1840 to the 1860's. - "Transitional Pepperbox Revolver" is also known as a proto revolver or transitional revolver. - "Transitional Pepperbox Revolver" resembles a pepperbox revolver with a long barrel wedged on to an extension of the barrel cluster axis pin. - "Pepperbox" revolver has multiple barrels, which revolve on one axis. The receiver/frame is directly behind the barrels with the grip curving in a downward direction directly behind the receiver/frame. - "Transitional Pepperbox Revolver" retained the appearance of the pepperbox revolver with the receiver/frame being directly behind a cylinder and a barrel wedged on to an extension of the barrel cluster axis pin and with the grip curving in a downward direction directly behind the receiver/frame. - "Transitional Pepperbox Revolver" may have a single or double action trigger mechanism. The pepperbox revolver's barrel assembly was shortened and became a cylinder and a single barrel was then fitted. - "Transitional Pepperbox Revolver" was eventually replaced with the more modern revolver style receiver/frame, grip and hammer.
Serial Number	- this firearm may not have a serial number marked on the receiver/frame.
Calibre	- the calibre may not be marked on the firearm.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- one noted model was marked, "IMPROVED REVOLVER" on top of the barrel.

197746 - 1	22 RF	1	86	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- The make is not marked on the firearm.

Model

- PG22 is marked on the firearm in various places.
- This is a 3D printed firearm,
- Features include: accessory rail under the barrel, separate grip panels and serrations on the upper assembly.
- Finish and color will vary depending on material, printer and settings.
- Overall length with a 87 mm (3.43 inches) barrel is 217 mm (8.54 inches).
- A later version of this design, incorporating a revolver cylinder has been developed with the same markings. It's full designation is "PG22 Maverick".

Serial Number

- The serial number is not marked on the firearm.

Calibre

- The calibre designation is not marked on the firearm.
- Original design files specify chambering in 22 Short for safety.

Notes

Make

- The make is not marked on the firearm.

Model

- The model designation is not marked on the firearm.
- The "PG22 Maverick" is the successor to the single-shot "PG22 Aurora".
- This is a 3D printed firearm.
- Features include: Synthetic construction; underside accessory rail; serrated striker above the top strap; rifled barrel sleeves fitted into synthetic cylinder; removable grip panels.
- May feature various colors and finishes depending on the material.

Action

- Pepperbox type revolver.
- Fixed rotating cylinder with a manually operated striker.
- Cylinder is rotated manually for loading and unloading.

Serial Number

- The serial number is not marked on the firearm.

Barrel

- This is a "Pepperbox" style firearm, therefore the barrel length is the length of the cylinder.

Calibre

- The calibre designation is not marked on the firearm.

Notes

Make

- no clear indication of make or country of origin on firearm.

Model

- "Pistol Type Pocket Revolver" is not marked on the firearm.
- this is a generic record for those revolvers that can be identified by characteristics only.
- these firearms are small in dimension, typically chambered for low power cartridges.
- the receiver/frame is usually fairly squared over the hammer so that it may or may not have the outward visual appearance of a semi-automatic hammerless pocket pistol in profile.
- features may include: folding, spur type or conventional trigger; with or without trigger guard; exposed or concealed hammer; solid receiver/frame; removable fluted or non-fluted cylinder; round or octagonal barrel; may have an external safety lever; wooden or plastic grip panels; may be fabricated from steel or sheet metal; may or may not have rudimentary post or blade front sight and a notch rear sight.

Calibre

- "Kal 7,65" was observed marked on one example.

Notes

Make	- no markings that indicate the maker or country of manufacture will be found on the firearm.
Model	- this is a generic entry for those revolvers that are unidentifiable as to Make, Model or Manufacturer. - other entries exist that may better describe the firearm being examined. - features may vary greatly.
Serial Number	- these firearms may, or may not be marked with a serial number.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Level:	Non-Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127375 - 1	44 PERCUSSION	6	190	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- Italian proof marks were observed on the cylinder.

Model

- "ROGERS & SPENCER" and "UTICA, N.Y." was observed marked on the top strap.
- this is a modern reproduction of a "Roger & Spencer Army" percussion revolver.
- features include: octagonal barrel with cone front sight and hinged type loading lever; solid top receiver/frame with round percussion cylinder and "V" groove along the length of the top strap for a rear sight; exposed spurred hammer; single action trigger mechanism; blued finish barrel and receiver/frame; colour casehardened hammer and loading lever; two piece walnut grips.

Serial Number

- serial number was observed marked on the grip strap under the grip plate and repeated on the underside of the barrel.
- observed serial number consisted of three numbers without a letter prefix or suffix.

Remarks

- with the increased interest in the Civil War period, the following is a list of some of the companies that have manufactured or distributed reproductions of the Roger & Spencer revolvers, this is not a comprehensive listing:

Armi Jager
Armi San Marco
Armi San Paolo
Connecticut Valley Arms (CVA)
Dixie Gun Works
Early & Modern Firearms Company (EMF)
Euroarms
Feinwerkbau
Muzzle Loaders Incorporated.
Navy Arms
Pedersoli
Stone Mountain Arms Incorporated

Notes

Make

- make is not marked on the firearm.

Model

- "Rook Rifle" is not marked on the firearm.
- "Rook Rifle" model designation was used in the United Kingdom in refers to the intended purpose of a small, single shot, lightweight sporting rifle normally used for rabbit, crow, or vermin control.
- "Rook Rifle" was also known as a 'Garden Rifle', 'Rabbit Rifle', or 'Pest/Vermin Rifle'.
- "Rook Rifle" may be found with a number of different types of actions including but not limited to break open (hinged barrel design), falling block or Martini-type.
- features may include: engraved receiver/frame; external hammers or hammerless; single or double trigger; top, side or under lever opener; checkered pistol grip or semi pistol grip stock and splinter forearm.

Action

- side by side or over and under pattern.
- 'Rook Rifle" was available in various action types:
- break open action (hinged barrel design).
- falling block/vertical sliding wedge action.
- tilting block action (Martini type).

Serial Number

- may have a serial number under the barrels.

Firearm Reference Number (FRN): 195079
Make: Unknown
Model: Royal Navy Sea Service Musket (1778 Model) Reproduction

Summary

Make:	Unknown
Model:	Royal Navy Sea Service Musket (1778 Model) Reproduction
Manufacturer:	Unknown
Level:	Non-Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195079 - 1	75 FLINTLOCK	1	935	Antique CC 84(1) "antique firearm" para. (b)	Non-Commercial Customization	

Notes

Model

- the model name is not marked on the firearm.
- "TOWER" is marked on the lockplate behind the hammer.
- this firearm is a smooth-bore musket.
- a crown with the letters "GR" is marked on the lockplate in front of the hammer.
- features include: round barrel with bare metal finish; under-barrel ramrod on brass thimbles, brass buttplate, bare metal finish on breech plug and tang; right-side lockplate, cock, pan, and hardened frizzen; brass trigger guard with steel sling swivel; wooden stock with sling swivel on underside of fore-end.
- on an observed sample, the barrel featured a simulated crown "GR" broad arrow proofmark and a crown with crossed arrows proofmark. The tang featured a crown with crossed arrows proofmark and a crown with the number 6.

Serial Number

- an observed sample has a five digit serial number stamped into the heel of the brass buttplate.

Canadian Law Comments

- this reproduction flinlock musket meets the Criminal Code of Canada definiton of "firearm" in that it can be adapted for use as a firearm by drilling a vent hole in the location that is marked by an indentation or "dimple" on the barrel.
- this flinlock musket is a reproduction of a flintlock firearm that was manufactured after 1897 and as such is prescribed in the Criminal Code of Canada, Regulations Prescribing Antique Firearms to be an "antique firearm".

Notes

Make

- firearm bears no markings that denote make, manufacturer or country of origin.

Model

- Screw Barrel Pistols were popular in the period prior to 1880 and were commonly manufactured in England and Belgium.
- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- this is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- this handgun is intended to be loaded from the breech end of the barrel and as such was originally suppied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- features include: octagonal screw on barrel or a round screw on barrel with an underlug; hammer is located in the centre of the receiver/frame; conventional trigger with trigger guard or forward folding trigger; one piece wooden grips.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- the turnoff barrel may be rifled.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- firearm bears no markings to denote make or manufacturer.

Model

- this is a generic entry for those side by side handguns that have no make or model markings. Other screens exist that may better identify the firearm being examined.
- features include but are not limited to: exposed or internal hammers, barrel release catch may be tang, side, or underlever type, grips may be straight or rounded, there may be a forend, extractors and or ejectors may be present .
- observed specimen had one smooth bore barrel and a rifled barrel.

Action

- side by side configuration.

Serial Number

- samples may be seen with and without serial numbers.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- no make is marked on this firearm.

Model

- there is no model name marked on the firearm.
- this is a generic entry for any double barrel percussion shotguns that are unidentifiable as to make, model or manufacturer.
- features include: side lock action; muzzle-loading percussion ignition double barrels, usually side by side configuration; double external hammers; double triggers; under barrel mounted ramrod; may have damascus barrels; may have varying degrees of engraving on the lockplate, trigger guard and/or barrels.

Action

- muzzle-loading, percussion ignition, usually side by side configuration.

Canadian Law Comments

- those shotguns manufactured prior to 1898 in calibres which are not proscribed by the Antique Firearm Regulations are deemed to be antiques.

Other Markings

- one known example was marked "London Twist" in script style writing on the top of the rib between the barrels.

Notes

Make

- research has indicated that in many cases this type of handgun was not marked with a maker's name or proofmarks.

Model

- no model name is marked on this handgun; the model designation is derived from the characteristics of the firearm.
- this type of firearm in its original configuration would have been made circa 1850's to the 1890's.
- features include: side by side barrels; front hinged receiver/frame with boxlock action; may have concealed drop-down triggers without trigger guard, double triggers with conventional trigger guard or in some cases a single trigger; double exposed hammers located on top of the action; usually side-lever or under-lever opening; hardwood grip which may be checkered or fluted; grip may have a grip plate and lanyard ring; may have Damascus barrels; varying degrees of engraving on the barrels and receiver/frame.
- may have a folding dagger-blade attached to the barrels.

Action

- side by side barrel configuration.

Serial Number

- a serial number may be marked on the receiver/frame.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

FRT Report

Firearm Reference Number (FRN): 148227
Make: Unknown
Model: Single Barrel Folding Shotgun

Summary

Make:	Unknown
Model:	Single Barrel Folding Shotgun
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148227 - 1	410 GA X 2 1/2"	1	742	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Model

- model designation is not marked on the firearm.
- this is a single barrel shotgun which can be folded in half for storage or transporting.
- features observed: round to octagonal smooth bore barrel with a bead front sight; front hinged receiver/frame with the break open action release lever mounted on the right side; exposed offset spur hammer; single action trigger mechanism; checkered wood forearm and straight grip buttstock with a metal buttplate.
- under folding release button is mounted on the left side of the receiver/frame.
- this style of folding shotguns were marketed by the following Belgium companies: Pire in 1899, Crahay in 1912, Galand in 1914, Lovin-Hardy in 1914, Fabrique d'Armes Unies in 1925, Vendrix in 1928, Dumoulin in 1931, Laloux in 1935, and Janssen Freres in 1937.

Action

- hinged barrel design.

Serial Number

- serial number was observed marked on the barrel.

Calibre

- "28-65" inside a letter "C" was observed marked on the barrel.

Other Markings

- "TESTES" was marked on the barrel of an observed example.

Notes

Make

- firearm bears no markings that denote make or manufacturer.
- this type of firearm may have; no markings that denote make or manufacturer; markings that are worn/pitted with age or otherwise illegible; or markings that are unknown as to meaning.

Model

- model is not marked on the firearm.
- this is a generic entry for single barrel percussion shotguns that are unidentifiable as to make, model or manufacturer.
- features include:
- single barrel, external hammer, percussion muzzle-loading shotgun.
- one piece stock, iron mounts, under barrel mounted ramrod.
- may have some degree of engraving on lockplate and trigger guard.

Action

- muzzle loading, percussion ignition.

Canadian Law Comments

- certain examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- there are no markings to denote the maker or country of manufacture found on the firearm.

Model

- this is a generic entry for those single shot pistols that are not identifiable as to make or model.
- these pistols will be found with a wide variety of loading mechanisms where some will use a hinged barrel, a swing out barrel, a sliding barrel, a removable barrel and in some cases will be bolt operated.
- observed specimen was a tilt barrel.

Notes

Make - no maker's name is marked on this firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is not marked on the firearm. - these are usually unlicenced copies of Smith & Wesson "Hand Ejector" revolvers. - features will usually include: double action trigger mechanism; round or ramp-style blade front sight with a recessed receiver/frame notch service rear sight or a top strap sighting groove; ejector rod; fluted cylinder; under-barrel locking lug; thumb cylinder release on left side of receiver/frame behind the recoil shield; square butt profile; blued or nickel finish.
Action	- double action.
Serial Number	- known example had a serial number marked on the bottom of the grip frame.
Other Markings	- known example was marked "Smith & Wesson" on the left side of the barrel and had a spurious copy of the S&W trademark marked on the left side of the receiver/frame.

Notes

Make

- make is not marked on the firearm.

Model

- model designation is not marked on the firearm.
- this is a copy of a Smith & Wesson Top Break No 3 Double Action New Model revolver.
- Smith & Wesson Top Break No 3 Double Action New Model was originally manufactured from 1881 to 1913.
- features include: round ribbed barrel with blade front sight; front hinged receiver/frame with fluted cylinder with automatic extractor/ejector, and top strap mounted fixed rear sight and break open mechanism; exposed spurred hammer; single/double action trigger mechanism; square back trigger guard; round butt grip frame with wood or hard rubber grips, and with or without a lanyard ring; blued or nickel plated finish.
- Note: may not have a sideplate on the left side of the receiver/frame.

Serial Number

- serial number on observed sample was marked on the left side of the butt, grips must be removed in order to be visible.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- Belgian proof marks such as; an E over an L and G inside an oval, may be marked on various places on the revolver, including the end of the cylinder.
- may have the Smith & Wesson name on the barrel, as well as, patent dates which do not correspond to the official Smith & Wesson patent dates.

Notes

Make

- no make appears on this firearm.

Model

- known example marked, "SCHOFIELD'S PATENT. OCTB. 17. 1876" on the top of the barrel rib.
- this firearm is a copy of the original Smith & Wesson 32 Double Action Revolver.
- the reference to "Schofield's Patent" was sometimes an intentional misrepresentation intended to mislead potential purchasers into thinking they were obtaining an original Smith & Wesson Schofield model handgun as produced by Smith & Wesson and based on Schofield's original patent dated April 22, 1873.
- double action, hinged frame, top break, self-extracting revolver.
- features may include;
- action release lever located at the very rear of the top strap so as to hinge over the standing breech,
- full rib barrel, fluted cylinder, black plastic checkered grip plates,
- blade front sight, notched rear sight,
- nickel plated finish.

Serial Number

- one known sample did not have a serial number.
- two known examples had a four digit number without prefix or suffix marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - Belgian proofmarks may be apparent on the rear of the cylinder, the barrel and/or the receiver/frame.

Firearm Reference Number (FRN): 198288
Make: Unknown
Model: Songbird 3D Printed

Summary

Make:	Unknown
Model:	Songbird 3D Printed
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
198288 - 1	22 LR	1	109	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- The make is not marked on the firearm.

Model

- Introduced in 2015..
- "SONGBIRD" is marked on the top of the firearm in the original 3D printer file.
- "PATRICK" is marked on the left side of the firearm in the original 3D printer file.
- "PATRICK" stands for "James R. Patrick" a mechanical engineering student that is the file developer.
- "SONGBIRD" is made as one-piece firearm, fully made of ABS plastic type operating with rubber bands.
- "SONGBIRD" is available in different variants of 3D printer file.
- Features include: rectangular shaped upper portion; left side barrel port for barrel loading/unloading; rectangular shaped, smooth bore ABS plastic type barrel that may have a metal barrel liner with or without rifling; rear open top for access to the internal hammer.

Action

- Side hinged barrel design.
- Rubber bands operated.

Serial Number

- The serial number is usually not marked on the firearm.

Calibre

- The calibre designation is not marked on the firearm.

125400 - 1	45-70 GOVT	1	808	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- no makers name is marked on this firearm.

Model

- "U.S.", over "MODEL", over 1884" was observed marked on the breechblock.
- this is a reproduction of a Springfield Model 1884 military rifle as made for the US Government.
- this rifle replicates the basic Springfield Model 1879 Rifle with the addition of a tang mounted highly adjustable and complicated Buffington-type rear sight.
- features include: part round/part octagonal barrel with globe front sight and adjustable rear sight; front hinged, top mounted swinging-type breech block which swings vertically over the rear of the barrel to expose the chamber; exposed right side mounted hammer; one piece wooden straight grip stock; brass end cap; trigger guard and butt plate.

Serial Number

- observed serial number was marked on the rear of the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.

129926 - 1	7.65MM	8	114	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Non-Commercial Customization	

Notes

Make

- maker of this firearm is Unknown, however, the left side of the slide has spurious markings that read, "STAR - BECHVERRIA" over EIBAR ESPANA" behind which are the letters "SA"; note that Echeverria is spelled incorrectly.
- The "Star" trademark symbol of Bonifacio Echeverria is also marked on the left side of the slide and is also spurious.

Model

- no model name is marked on this firearm; the model designation is derived from the basic characteristics of the firearm which are similar to that of the Star, Model I semi-automatic pistol.
- features; blow back operated, semi-automatic, single action trigger mechanism utilizing a detachable box magazine; lever-type safety/slide release located on left side of the receiver/frame above the trigger; magazine release button located on the bottom rear left side of the grip frame; exposed spur hammer; blued finish.
- there are no proof marks on this firearm.

Action

- blowback operated.

Serial Number

- observed example did not have a serial number.

Shots

- detachable box magazine.

Model: Umbrella Cane Gun

Summary

Make:	Unknown
Model:	Umbrella Cane Gun
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Other
Action:	Single-Shot
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129976 - 1	410 GA X 3"	1	650	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- firearm bears no markings that denote make or manufacturer.

Model

- this firearm resembles an umbrella.
- this is a generic entry for those Unknown umbrella guns that are not identifiable as to make or manufacturer.
- may be percussion or cartridge firing.
- percussion may be either muzzleloading or breechloading (screw barrel).
- may be found with smoothbore or rifled barrel.
- may be fitted at the tip with a device to stop the muzzle from being damaged.
- may be fitted with, folding trigger, spur trigger, button trigger or ring trigger.
- Note: when the umbrella assembly is removed this firearm looks like a cane gun

Action

- breech-loading

Serial Number

- serial number was observed on the exterior of the breech area.
- observed serial number consisted of three numbers without a letter prefix or suffix.

Calibre

- calibre or gauge was not marked on the firearm, however a chamber length of "76" was noted.

82693 - 3	32 PERCUSSION	1	50	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- no marks that would identify the make or manufacturer appear on the firearm/knife blades.
- this style of Knife Pistol was made by several firms.
- the original makers of this Knife Pistol (Unwin & Rodgers) produced them between approximately 1860 and 1868.

Model

- this Knife Pistol was made to resemble the Unwin & Rodgers models.
- the features will vary widely as will the finish and embellishment found on the barrel and blades.
- typically these Knife Pistols will have two folding blades, hinged or folding trigger and an octagonal barrel mounted along the spine of the knife. Samples have been noted with wood or stag horn handles, and with varying lengths and styles of blades.

Action

- muzzle loading, percussion firearm.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- samples have been noted with British proofs and inspection markings that were in use from 1813 to 1904.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- there are no markings that would indicate the country of origin or name of manufacturer on the firearm.

Model

- this is a generic entry for "Velodog" type revolvers that have no markings and cannot otherwise be accurately identified.
- other screens may exist that may better identify the firearm being examined.
- the name "Velodog" is not marked on the firearm.
- the term initially defined a compact revolver, initially in 5.75mm (also known as 5.5mm) long centre-fire, or the 6mm "Type Francaise" long rimfire cartridge.
- the "Velodog" customarily features a folding trigger, elongated cylinder (fluted or non-fluted), 5 to 7 shots (or more), usually a shrouded or enclosed hammer, often a safety lever on the side or rear of the receiver/frame, most have a yoke mounted ejector that tucks away into the cylinder axis pin, bird's head or square hand grips, round or octagonal barrel (often with rudimentary sights).
- by 1900 the name evolved to define a small calibre, compact self defence revolver with similar features (usually chambered for a 22 rimfire cartridge), which became popular throughout Continental Europe.
- the name was originated by Charles Francois Galand (Paris) in 1894 combining "velocipedist" (bicyclist) and "dog".
- originally intended for use by cyclists to dispatch/repel chasing dogs during the late eighteenth and early nineteenth century, when dog-rabies was a dreaded common disease.
- do not confuse with the "Puppy" revolvers in .25 calibre / 6.35mm, or firearms with similar features of larger calibre's (.320 / 7.65mm calibre or greater).

Calibre

- the calibre may be marked on the firearm.

117959 - 1	32 RF	1	660	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- firearm bears no markings that identify make or manufacturer.

Model

- model designation does not appear on the firearm, but is rather a description of the action.
- this was the last and final improvement of the Flobert rifle, later called "The Warnant Springfield"; the breech block was attached to the breech end of the barrel, so it could be swung up to open the action for loading and unloading the rifle.
- since this system was much stronger than all other Flobert actions previously made, it was available in stronger calibers and heavier barrels.
- features may include: one piece walnut stock with prominent flats on each side of the receiver/frame with a checkered straight or semi pistol grip, octagonal or round barrel, fixed rear and front sights and available in regular or heavy pattern.

Notes

Make

- The make is not marked on the firearm.

Model

- Introduced in 2014.
- "WASHBEAR" is marked on the top of the firearm in the original 3D printer file.
- "PATRICK" is marked on the left side of the firearm in the original 3D printer file.
- "PATRICK" stands for "James R. Patrick" a mechanical engineering student that is the file developer.
- "WASHBEAR" is fully made of ABS plastic type having a rotary cylinder that incorporate the barrels and chambers that is operated with rubber bands.
- Features include: rectangular shaped upper portion; front, cylinder removing pin; ABS plastic type, round cylinder with front and back camming bands; smooth bore barrel that may have a metal barrel liner with or without rifling; rear, side, upper unit disassembly pin; receiver/frame with integral trigger guard.

Action

- Pepperbox barrels arrangement within a cylinder.
- Rubber bands operated.

Serial Number

- The serial number is usually not marked on the firearm.

Calibre

- The calibre designation is not marked on the firearm.

Shots

- Revolving cylinder with barrels and chambers.

Notes

Make

- The make is not marked on the firearm.
- No markings observed on this firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- The model designation is not marked on the receiver/frame. - This is a generic entry for the "Wheel-Lock" action type of firearm. - Wheel-Lock firearms were originally manufactured in Europe during the 16th and 17th century. - The "wheel-lock" system uses iron pyrites pressed against a revolving toothed wheel to provide the sparks for igniting the powder in the priming pan, which in turn ignites the main powder charge in the barrel. The toothed wheel is made to rotate, when the trigger was pulled, by a spring that was wound by a key in a similar fashion to a mechanical clock. - Features include: round to octagonal, polished steel barrel; no sights; ramrod mounted under the barrel; wheel-lock action receiver/frame; walnut pistol grip stock with metal furniture, trigger guard and butt cap.
Action	- Muzzle loading.
Serial Number	- The serial number is not marked on the firearm.
Canadian Law Comments	- Some examples of this model, when manufactured prior to 1898 may be considered Antique in Canada.

FRT Report

Firearm Reference Number (FRN): 130491
Make: Unknown Belgian
Model: 1892 Type

Summary

Make:	Unknown Belgian
Model:	1892 Type
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
130491 - 1	8MM LEBEL REV	6	110	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- make or manufacturer's markings were not observed on the firearm.
- Belgian proof marks were observed marked on the right side of the receiver/frame and on the barrel and cylinder.

Model

- this firearm resembles a French Service Model 1892 revolver of the Nagant design.
- "1892 Type" is not marked on the firearm.
- features include: blade front sight and a notch in the lip of the top strap for a rear sight; round rifled barrel; solid top receiver/frame with right side swing-out fluted cylinder and right side loading gate; exposed spurred hammer with removable firing pin; single/double action trigger mechanism; left side plate is hinged at the front of the receiver/frame to allow access to the interior lock work mechanism; checkered wood grip plates; rounded butt with lanyard ring; blued finish.

Serial Number

- serial number was observed marked on the left side of the receiver/frame and repeated on the cylinder.
- observed serial number consisted of three numbers without a letter prefix or suffix.

Shots

- swing out cylinder. Opens to the right side.

Notes

Make

- make is not marked on this firearm, however, it will be marked with Belgian proof marks and/or "Belgium" or "Made in Belgium".

Model

- "Bulldog Type" is not marked on the firearm.
- model designation is derived from the physical characteristics of the firearm.
- research sources indicate dates of manufacture for this type of handgun as circa 1880's to circa 1914.
- in general terms this type of Belgian handgun was a copy of the Webley No.2 "British Bulldog". It is typified as a short barreled, solid frame handgun with loading gate, usually has an empty case ejecting rod with the rod sheathed within the cylinder axis pin; this rod is pivot mounted on the right side of the frame and is capable of swinging to the right. A bird's head grip is typical.
- barrel and frame are usually forged integrally as one piece. It may or may not have a noticeable "hump" on the grip backstrap behind the hammer. Typically there are no manufacturer's marks of any kind on this genre of handgun, however, Belgian proofmarks and "Made in Belgium" will be apparent.
- may have a folding trigger without trigger guard or solid trigger guard.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearm Reference Number (FRN): 122316
Make: Unknown Belgian
Model: Colt 1851 Navy Copy

Summary

Make:	Unknown Belgian
Model:	Colt 1851 Navy Copy
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122316 - 1	36 PERCUSSION	6	192	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- make is not marked on the firearm.
- Belgian proofmarks will usually appear on the firearm, usually on the receiver/frame and/or rear of cylinder.

Model

- the model designation is not marked on the firearm.
- copies of the Colt 1851 Navy pistol were produced by several Belgian manufacturer's who did not mark their names on the firearms.
- generally, the features of this model follow those of the original Colt model, with the significant difference of having alternate cylinder markings which may include scrollwork, floral designs, naval battle scenes or ships, dogs, or mounted horsemen.
- "COLT BREVETTE", "COLT PATENT", or "ADDRESS SAML COLT NEW YORK CITY" may be found marked on the top of the barrel assembly or on the side of the cylinder.
- features may include: blued steel barrel assemblies and case hardened receiver/frames; bronze grip frame; varnished wood grips and an octagonal barrel profile.

Action

- single action percussion revolver.

Serial Number

- the serial number is marked on the underside of the receiver/frame and on the forward portion of the trigger guard assembly.
- observed serial numbers have consisted of four numbers without letter prefix or suffix.
- serial number rationalization is unknown and duplicate serial numbers are known to exist.

Calibre

- the calibre designation is not marked on the firearm.

Firearm Reference Number (FRN): 122699
Make: Unknown Belgian
Model: Drilling

Summary

Make:	Unknown Belgian
Model:	Drilling
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Combination Gun
Action:	Multi-Barrel
Country of Manufacturer:	BELGIUM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122699 - 1	7X72R/16 GA X 2 3/4"	3	795	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- make is not marked on the firearm.
- firearm will have Belgium proof marks or the name of a city or region in Belgium.

Model

- "Drilling" is not marked on the firearm.
- "Drilling" is a three barrel combination gun.
- "Drilling" uses shotgun cartridges and rimmed or center fire rifle cartridges.
- features include: three barrels; hinged receiver/frame with a break open device; hammer or hammerless; two or three triggers; may have a barrel selector lever; straight or pistol grip stock.
- Barrel configurations may be as follows:
- side by side shotgun barrels of the same calibre over a rifle barrel;
- side by side rifle barrels of the same calibre over a shotgun barrel;
- one shotgun barrel over a rifle barrel with a smaller calibre rifle barrel offset to one side between the two over and under barrels;
- side by side barrel configuration, one being a shotgun barrel and the other a rifle barrel over a rifle barrel of the same calibre as the side by side, also known as a "Bock Drilling";
- side by side shotgun barrels under a small calibre rifle barrel, also known as "Schienendrilling";
- side by side shotgun barrels over a shotgun barrel;
- over and under shotgun barrels with a rifle barrel offset to the side between the over and under barrels, also known as a "Bock-Doppelflinte mit seitlichem Kleinkaliberlauf"; and
- over and under barrel configuration, shotgun barrel over a small calibre rifle barrel over a larger calibre rifle barrel.

Action

- hinged barrel design.
- barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.

FRT Report

Firearm Reference Number (FRN): 81533
Make: Unknown Belgian
Model: E

Summary

Make:	Unknown Belgian
Model:	E
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
81533 - 2	12 GA X 2 1/2"	2	762	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
81533 - 3	12 GA X 2 3/4"	2	475	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
81533 - 4	12 GA X 2 3/4"	2	510	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
81533 - 1	12 GA X 2 3/4"	2	762	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- "MADE IN BELGIUM" was observed on the underside of the solid rib between the barrels. - "GOVERNMENT TESTED FOR SMOKELESS POWDER" was observed on top side of the solid rib between the barrels.
Model	- "E" inside a diamond was observed marked on the side of the receiver/frame or sidelock plate. - "Government Tested For Smokeless Powder" was observed marked on the top of the rib between the barrels. - features include: side by side barrels with bead front sight; front hinged receiver/frame with top tang mounted break open lever and with or without slide type safety; internal or external hammers; double triggers; wood splinter forearm and semi-pistol grip buttstock.
Action	- side by side pattern.
Serial Number	- serial number was observed marked on the watertable and repeated on the underside of the barrel assembly. - observed serial numbers consisted of four, five and six numbers without a letter prefix or suffix.
Calibre	- sample chambered for 12GAX2 3/4" marked with a 12 over C diamond and 70mm on the underside of barrels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- the following marks were located on the water table. Belgium nitro proof make "Lion over a line with PV under the line". E over LG over a star in an oval. Five point star over a NP.
- on each of the side plates is an "E" inside a diamond - known example marked, "Government Tested For Smokelss Powder" on the top of the rib between the barrels.

Firearm Reference Number (FRN): 136403
Make: Unknown Belgian
Model: Flobert Type

Summary

Make:	Unknown Belgian
Model:	Flobert Type
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
136403 - 1	44 SHOT	1	409	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- no maker's name appears on this firearm; it will however bear Belgian proof marks and/or be marked, "Belgium", or "Made in Belgium".

Model

- no model name is marked on this firearm, the model name is derived from the action-type characteristics of the firearm.
- manufactured circa 1850 to 1920.
- "Flobert Type" is not marked on firearm.
- this is a generic entry for Unknown Belgian, Flobert Type, smooth bore firearms.
- Flobert Type actions can be classified as one of four variants;
- 1) "Original" Flobert action is where the hammer face forms the lock to close the chamber.
- 2) "Plain" Flobert action is where the hammer face forms the lock to close the chamber except it has the added feature of being fitted with a separate extractor.
- 3) Flobert "Remington System", is where the chamber is closed with a separate breech block resembling the original Remington rolling block design.
- 4) "Warnant System", uses a hinged, forward tipping breech block.

Serial Number

- this type of firearm may or may not have a serial number.
- known example did have a four digit number without prefix or suffix.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

16388 - 2	450 REV CF	5	101	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- make is not marked on this firearm, however, it will be marked with Belgian proof marks and/or "Belgium" or "Made in Belgium".

Model

- model designation is not marked on the firearm.
- manufactured between 1853 and 1904.
- this firearm resembles a "Gasser" Montenegrin type revolver.
- features include: blued or nickeled finish; octagonal or round barrel; solid, open-top, or top-break receiver/frame; manual or automatic ejection; an oblong spring on the right side of the frame that acts to move safety pins into the lockwork when the trigger is released; spur hammer; single/double action trigger mechanism; round trigger guard; "broomhandle" style round grip with lanyard ring post; fixed sights.

Action

- double-action revolver.

Serial Number

- may be numbered on the frame and/or the cylinder.

Notes

Make

- make or manufacturer's markings were not observed on the firearm.
- Belgian proof mark was observed marked on the right side of the receiver/frame.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a generic record encompassing "Gasser" type revolvers that are unidentifiable as to make, model or manufacturer.
- the distinguishing feature of "Gasser" revolvers is a large, external, tear drop shaped action return spring on the side of the receiver/frame that serves to reset the trigger mechanism once the trigger has been squeezed.
- this action feature may be seen on open topped, closed frame, or top break revolvers.
- features may include: post front sight; round or octagonal barrel; plunger style or swinging ejector rod; fixed or folding trigger; round or fluted cylinder; spur hammer; receiver/frame with or without engraving; double action mechanism; wood grips on a square butt, bird's head or bag grip frame; blued or in the white finish.

Manufacturer

- make or manufacturer's markings were not observed on the firearm.
- Belgian proof mark was observed marked on the right side of the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 119176
Make: Unknown Belgian
Model: Harpers Ferry 1805 US Flintlock Pistol Reproduction

Summary

Make:	Unknown Belgian
Model:	Harpers Ferry 1805 US Flintlock Pistol Reproduction
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119176 - 2	54 FLINTLOCK	1	254	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	
119176 - 1	58 FLINTLOCK	1	255	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- no maker's name appears on this firearm.
- known example had the word "BELGIUM" marked on the left side plate and Belgian proofmarks on the barrel.

Model

- "Harpers Ferry" followed by a date of 1805, 1806, 1807 or 1808 is usually marked on the rear of the lockplate behind the hammer.
- lockplate is also usually marked with the US "spread eagle" ordnance symbol over the letters "US" or a variation thereof.
- this is a modern reproduction of the "US Pistol Model 1805" which was the first martial pistol contracted by the U.S. government; it was manufactured at the national armory in Harpers Ferry, Virginia.
- it was known as the Model 1805 after the date of the initial order by the US Government; the bulk of the pistols were in fact produced in the years 1806, 1807 and 1808. In many instances the date of manufacture is mistaken as being part of the model designation.
- features include: muzzle loading, flintlock ignition; brass noseband, trigger guard, thimbles, buttcap and side plate; case hardened lockplate and hammer; hardwood stock; round barrel which is usually held to the barrel by a single wedge.
- may have an under barrel rib that extends from the forend of the stock to within 1/8" of the muzzle with a ramrod suspended from the underside of the rib.

Action

- muzzle loading, flint-lock ignition.

Serial Number

- known example had a three digit number with a letter prefix marked on the rear of the barrel.
- letter prefix "B" has been observed.

Other Markings

- known example was marked; "CENTENNIAL Trade Mark" on the top rear of the barrel and "BELGIUM" on the left side plate.

Notes

Make

- "Unknown Belgium" is not marked on the firearm.
- samples have been noted with "BELGIUM" marked on the top of the barrel just over the chamber, or void of any markings other than model designation and Belgian proof marks on receiver/frame and barrel.

Model

- "LITTLE GEM" was observed marked on the top of the barrel just above the forward end of the forearm.
- this is a single shot, under folding shotgun.
- features include: bead front sight and rear sight is machined into the top of the standing breech of the receiver/frame; round smoothbore barrel; front hinged flat sided receiver/frame with the trigger guard acting as the break open lever; external centrally mounted hammer with offset hammer spur (spur offset to the right); trigger guard is round at the back and squared off at the front; checkered wood short forearm and semi-pistol grip buttstock..
- Note: action is unlocked by pulling back on the trigger guard.

Action

- break open action, opened by pulling the trigger guard to the rear.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number was observed marked on right side of receiver/frame and repeated on the right side of the barrel. - serial number was observed marked on the left side of the barrel. - observed serial numbers consisted of three or four numbers without a letter prefix or suffix.
Calibre	- gauge and chamber length denoted by numbers in an oval stamped at the breech end of the barrel; ie. "410-50" (410x 2 1/2"), "410-70" (410x 2 3/4"), or "410-76" (410x3").

Notes

Make

- carries Belgian proof, inspection, and acceptance marks on the cylinder; and "Raye" (rifled) inspection and acceptance marks on the barrel, to Belgian conventions of the late 1800's and early 1900's.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- not marked as to model (or manufacturer). - features simulate the popular "Royal Irish Constabulary" revolvers by Webley; produced during the late 1800s to the early 1900s. - commonly referred to as "R.I.C Type" or "R.I.C. Pattern", sometimes as "British Constabulary", "Metropolitan Police", or "RIC No. 1/2/3". - the features of this firearm are usually characterized as a compact, solid-framed, short-barreled revolver (often with an integral barrel and frame), with fluted or un-fluted five or six chambered cylinder, usually with a right side loading-gate, usually with a swing-out case ejector rod stored within the cylinder axis rod, usually with squared handgrip and steel grip-cap, often with a lanyard ring (instead of the birdshead style handgrip of the Bulldog Type), usually of a large cartridge (rim-fire or centerfire) caliber (such as 32, 38, 41, 44, 450 or larger), with no sights or rudimentary sights.
Serial Number	- usually numbered, visible on the receiver/frame.
Canadian Law Comments	- some examples of this firearm, when manufactured before 1898 may be antique.

197235 - 1	32 CF	5	44	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The make is not marked on the firearm.
- The firearm will show Belgian proof marks.

Model

- The model designation is not marked on the firearm.
- The main feature is the ring trigger, instead of the normal guarded trigger, spur trigger, or folding trigger, found on other revolvers with otherwise similar features.
- Features include: compact pocket size revolver; rudimentary sights; bird's head or rounded grip; exposed spurred hammer; usually has a yoke mounted ejector; right side loading gate.

Serial Number

- The serial number is usually not marked on the firearm.
- A serial number may be found on the receiver/frame, under the grip plates.

Calibre

- The calibre designation is not marked on the firearm.

Shots

- Removeable cylinder.

Notes

Make - will usually bear Belgian proof marks on barrel and action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "Rook Rifle" is not marked on the firearm.
- "Rook Rifle" model designation was used in the United Kingdom in refers to the intended purpose of a small, single shot, lightweight sporting rifle normally used for rabbit, crow, or vermin control.
- "Rook Rifle" was also known as a 'Garden Rifle', 'Rabbit Rifle', or 'Pest/Vermin Rifle'.
- "Rook Rifle" may be found with a number of different types of actions including but not limited to break open (hinged barrel design), falling block or Martini-type.
- this is a generic file encompassing all Rook Rifles of Belgian manufacture which bear no maker's name or logo.

Action

- 'Rook Rifle" was available in various action types:
- break open action (hinged barrel design).
- falling block/vertical sliding wedge action.
- tilting block action (Martini type).

Notes

Make

- "Belgium", "Made in Belgium" or Belgian proof marks marked on the firearm.

Model

- The model designation is not marked on the firearm.
- Model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.

- Screw Barrel Pistols were popular in the period prior to 1880 and were commonly manufactured in England and Belgium.

- This is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.

- This handgun is intended to be loaded from the breech end of the barrel and as such was originally supplied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.

- Features include: octagonal screw on barrel or a round screw on barrel with an underlug; hammer is located in the centre of the receiver/frame; conventional trigger with trigger guard or forward folding trigger; one piece wooden grips.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- The barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- The turnoff barrel may be rifled.

Notes

Make

- Belgian proof marks may be marked on the barrel or receiver/frame of the firearm.

Model

- there is no model designation marked on the firearm.
- this is a generic record for side by side pistols of Belgian manufacture that cannot otherwise be identified.
- features observed included: chrome plated side by side barrels and receiver/frame; bead front sight; double exposed hammers placed directly behind the standing breech on top of the receiver; double triggers; break-open type of action with a barrel release button positioned in front of trigger guard.
- features observed included: side by side barrels with bead front sight; Remington rolling block type action; double exposed hammers placed directly behind the breech on top of the receiver; single trigger.
- features observed included: side by side barrels with bead front sight; front hinged receiver/frame with top tang mounted break open lever; side hammers; two triggers.

Action

- side by side barrel configuration.

Serial Number

- samples may be seen with or without serial numbers.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make - firearm bears no markings to denote make, manufacturer or country of origin.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model is not marked on the firearm.
- this is a generic entry for Unknown Belgian single barrel shotguns that are not identifiable as to model.
- may be operated by bolt, lever or a hinged break-open mechanism.
- features may vary greatly.
- many single shot bolt action shot guns were made from surplus bolt action military rifles which were re-chambered, re-bored and/or re-barreled to produce a low-cost utilitarian-type single barrel shotgun for the civilian market.
- stock is usually modified from its original military configuration.
- many different calibre/barrel length combinations can be expected for this type of firearm.

Other Markings

- Belgian proofmarks of "ELG*" within an oval indicates that a firearm was made prior to July, 1893. In July of 1893 a crown was added to the top of the oval which encircles "ELG*". These proofmarks are frequently stamped on the bottom or side of the barrel.

FRT Report

Firearm Reference Number (FRN): 130279
Make: Unknown Belgian
Model: Single Barrel Folding Shotgun

Summary

Make:	Unknown Belgian
Model:	Single Barrel Folding Shotgun
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	BELGIUM
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
130279 - 3	16 GA X 2 3/4"	1	750	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
130279 - 1	28 GA X 2 9/16"	1	760	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "MADE IN BELGIUM" was observed marked on the left side of the barrel or receiver/frame.

Model

- model designation is not marked on the firearm.
- this is a single barrel shotgun which can be folded in half for storage or transporting.
- features observed: round, octagonal or round to octagonal smooth bore barrel with a bead front sight; front hinged receiver/frame with the break open action release lever mounted on the right side; exposed spur hammer; single action trigger mechanism; checkered wood forearm and straight or pistol grip buttstock with a metal butt plate.
- under folding release button is mounted on the left side of the receiver/frame.
- this style of folding shotguns were marketed by the following Belgium companies: Pire in 1899, Crahay in 1912, Galand in 1914, Lovin-Hardy in 1914, Fabrique d'Armes Unies in 1925, Vendrix in 1928, Dumoulin in 1931, Laloux in 1935, Janssen Freres in 1937 and others.

Action

- hinged barrel design.

Serial Number

- serial number was observed marked on the barrel.
- observed serial number consisted of five numbers and a two letter "JS" suffix.

Calibre

- "28-65" inside a letter "C" was observed marked on the barrel.

Other Markings

- "TESTES" was marked on the barrel of an observed example.

194850 - 2	32 S&W	6	89	Prohibited CC 84(1) "prohibited firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- make is not marked on the firearm.
- Belgium proofmarks and/or inspector marks may be found on the right side receiver/frame and cylinder.
- Beligium country proofmark/logo of an oval with "E" over "LG" over a star inside and an attached crown above is marked on the cylinder face.

Model

- model is not marked on the firearm.
- this model loosely resembles a generic made copy of the "Smith & Wesson Hand Ejector 32 No 1 1/2 Safety Hammerless" model that was produced circa 1888 to 1937; distinguishable by the rear grip, squeeze safety.
- features include: round barrel with raised top rib containing side flutes/grooves with fixed half-coin front sight and fixed "V" grooved rear sight; T shaped barrel release; hammerless receiver/frame with front hinge; fluted cylinder; double action trigger and trigger guard with a square/recurve rear; rear grip, squeeze safety; checkered grip plates; blued or nickel plated finish.
- observed feature includes: grip plate with a six pointed star within a circle.

Manufacturer

- manufacturer is not marked on the firearm.
- Belgium proofmarks and/or inspector marks may be found on the right side receiver/frame and cylinder.
- Beligium country proofmark/logo of an oval with "E" over "LG" over a star inside and an attached crown above is marked on the cylinder face.

Serial Number

- serial number is usually marked on the receiver/frame.

Calibre

- calibre is usually marked on the firearm.
- observed marking "FOR 32 SMITH & WESSON CARTRIDGE" found on the top barrel rib.

FRT Report

Firearm Reference Number (FRN): 198126
Make: Unknown Belgian
Model: Tap Action Flintlock Pistol

Summary

Make:	Unknown Belgian
Model:	Tap Action Flintlock Pistol
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Multi-Barrel
Country of Manufacturer:	
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
198126 - 1	40 FLINTLOCK	4	70	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- The make is not marked on the firearm.

Model

- The model designation is not marked on the firearm.
- This is an unusual form of repeating flintlock pistol, using a "tap" (a rotating cross-bolt with holes bored through it) to allow the sparks from the flint going into the pan to fire either one barrel or another, or both barrels at once depending on the position of the "tap".
- Features include: four barrels stacked over top of each other in a two by two configuration; cock, frizzen, and pan in a box-lock action; engraved receiver/frame; sliding safety to block the motion of the cock over the top of the receiver/frame; barrel selector tap on left side; bag-handle wooden grip with imbedded decorative steel pins.

Action

- Muzzle loading, flintlock ignition.

Canadian Law Comments

- Some examples of this model, when manufactured prior to 1898 may be considered Antique in Canada.

Other Markings

- Belgian proof marks are marked on the firearm.

Notes

Make

- "BELGIUM", "Made in Belgium" and Belgian proofmarks appear on the firearm.

Model

- model designation is not marked on the firearm, it is a descriptor of the design.
- features include: fixed or adjustable sights; internal or external hammer; single or double action trigger mechanism; may have safety lever; fluted or plain cylinder; round or octagonal barrel; square or round butt; blued or nickel finish; wood or plastic grips.

Calibre

- calibre designation may appear on the firearm.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- Belgian proofmarks of "ELG*" within an oval indicates that a firearm was made prior to July, 1893. In July of 1893 a crown was added to the top of the oval which encircles "ELG*". These proofmarks are frequently stamped on the back of the cylinder.

Notes

Make

- "Belgium" or "Made in Belgium" is usually marked on the firearm.

Model

- model designation is not marked on the firearm.
- features include: fixed sights; round or octagonal barrel; folding trigger; external hammer or hammerless; square, round or birds head grip; various finishes.
- the model designation is not marked on the firearm; this is a generic "type" designation applied to a small class of pocket revolver popular around the turn of the century in 1800s Europe, sold to allow bicyclists to repel aggressive dogs.
- these revolvers may be seen with a wide variety of features, including fixed or folding trigger; hammerless or spurred hammer; five- or six-shot cylinder, and so on.
- a specific sub-class of "Velo Dog" revolvers was made to resemble the then-new Browning 1906 pistol, and may include features to make them resemble a semi-automatic pistol, such as a flat-sided profile with a manual safety, and even what appears to be a dummy magazine cast into the grip-frame.
- features may include: fixed open or groove sights; round, ovate, flat-sided or octagonal barrel; fixed or folding trigger; external hammer or hammerless; square, round or birds head grip; blued, colour-case-hardened, or nickel finishes.

Serial Number

- may or may not be numbered. One observed example consisted of five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

77133 - 2	455 REV	5	64	Antique CC 84(1) "antique firearm" para. (b)	Non-Commercial Customization	

Notes

Make

- no manufacturer's name or trademark symbol is marked on this firearm; it does however have Belgian proofmarks or may say, "Belgium" or "Made in Belgium"; the Make is derived from the fact that this handgun is made in Belgium.

Model

- "Waterloo Bulldog" was observed marked on the top strap.
- features include: fixed sights; octagonal barrel; solid top receiver/frame with a removable fluted cylinder; exposed spur rebound hammer; single/double action trigger mechanism; rounded trigger guard; checkered wood grips; blued finish.
- pivot-type ejector rod is fixed to the front of the receiver/frame, is housed within the cylinder axis pin and swings to the right of the barrel to eject spent casings after it has been partially withdrawn form the axis pin housing.
- Belgian proofmarks are apparent on this firearm.
- this firearm would have been made circa 1870's to the early 1900's.

Serial Number

- known example did not have a serial number.

Notes

Make

- Belgian proofmarks will appear on the firearm, usually on the receiver/frame and/or rear of cylinder.
- no markings that indicate the actual manufacturer appear on the firearm. This type of firearm was built by several firms that remain unidentified.

Model

- "WESTERN" over "BULLDOG" is marked on the top strap.
- "WESTERN BULLDOG" is a Belgian handgun was a copy of the Webley No.2 "British Bulldog". It is typified as a short barreled, solid receiver/frame handgun with a loading gate, usually with an empty case ejecting rod and a bird's head grip.
- features include: half-moon, blade front and grooved top strap rear sight; round or multi-sided barrel; solid top receiver/frame; right side loading gate; smooth-sided cylinder ; double action trigger; exposed spur hammer; checkered wood grip panels.

Serial Number

- serial number of a referenced example was marked under the left grip panel on the receiver/frame.

Notes

Make

- no maker's name is apparent on this firearm, however, British proofmarks will be apparent on the barrel, cylinder and/or receiver/frame.

Model

- no model name is marked on this firearm; model designation is derived from the physical characteristics of the firearm.
- this type of firearm would have been produced circa mid-1850's to mid-late 1860's.
- features may include: percussion ignition, solid receiver/frame; single or double action trigger mechanism; bobbed-type rebound hammer or spurred rebound hammer; Kerr-type loading lever mounted on the left side of the barrel; usually plain round cylinder without fluting; noticeable hump or prawl at the top of the grip frame behind the hammer; octagonal barrel; steel butt cap; blued finish; hardwood checkered grips.
- British proofmarks are apparent on the barrel, cylinder and/or the receiver/frame of this firearm.

Action

- muzzle loading, percussion ignition.

Serial Number

- observed example had a five digit number without prefix or suffix marked on the right side of the receiver/frame.

Other Markings

- observed example had the word, "PATENT" marked on the right side of the receiver/frame followed by the letters, "No" and the serial number.

Notes

Make

- make is not marked on this firearm, however, it will be marked with UK proof marks (London or Birmingham).

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type, which is characterized by a double-action trigger mechanism and a hinged loading lever mounted on the left side of the barrel.
- these revolvers may be seen in split or solid frame styles.
- features may include: blued finish; varying degrees of engraving; (usually) octagonal barrel; fixed open sights; a hinged loading-lever on the side of the barrel that cams a loading plunger rearwards into the chamber mouths as it is pulled upwards; exposed nipples at the rear of the cylinder; a single action/double action trigger mechanism; (usually) a square-butt grip-frame; and wooden, synthetic, bone, or ivory grips.

Serial Number

- may or may not bear a serial number.

Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147482 - 1	55 FLINTLOCK	1	164	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	

Notes

Make

- make is not marked on the firearm.
- many of the early gunsmiths from this time period did not mark their products and must therefore remain nameless.
- at the time of King Charles the 1st, in 1631, a Commission was establised to create a committee with no fewer than seven gunsmiths, their names being given as Henry Rowland, Richard Burrowe, Thomis Addis, John Norcott, William Dawstin, John Watson, and William Graves. It would be probable, that this type of firearm was made by one or more of these individuals.

Model

- introduced circa 1630 to 1635.
- model designation is not marked on this firearm.
- this is the earliest muzzle loading flintlock pistol, made after the snaphaunce lock design (or converted from one) and before the introduction of the dog-lock design circa 1640.
- features include: octagonal, brass smooth bore barrel is cross pinned to the stock; under barrel mounted ram rod; brass forend tip; lobe trigger with no trigger guard; three side nails; ringed cock top piece; external, transverse sear that engages a partial ring at the rear of the cock base.

Action

- muzzle loader.

Serial Number

- such arms are often marked on the right side of the buttstock or the upper tang of the butt plate with a number that usually represents the rack position, or Company, Unit, or Regiment number and is not the serial number.

122303 - 1	450/400 X 3"	1	660	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Model

- the Farquharson rifle was manufactured circa 1870.
- this is a generic entry for those unmarked Farquharson rifles that are not identifiable as to a manufacturer.
- the model designation is not marked on the firearm.
- features include: steel receiver/frame and round or octagonal barrel; lever under the trigger guard to drop the falling block; a safety may be located on the right side of the receiver/frame; a wooden stock and forend.
- the receiver/frame and barrel may be engraved.

Action

- lever operated, falling/dropping block design.
- solid metal breechblock slides vertically in grooves cut into the receiver/frame.
- operating lever is located under the trigger guard

Serial Number

- a serial number may be marked on the receiver/frame or barrel.

Remarks

- possible that the unmarked Farquharson Rifles appears to be finished by Webley or Turner from the engraving and stocking style.
- the rifles was also used as a test gun by Eley or Kynoch factory for testing ammunition.

Notes

Make - firearm bears no markings to identify Make or Manufacturer, other than British proofmarks.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- this is a generic record for those percussion pistols that can not be identified as to make, model or manufacturer, but where the country of origin is the United Kingdom. - features may include: a wooden stock with bird's head, bag or saw handle grip; brass fittings (eg. nose cap, grip cap, trigger guard, filigree, bolsters and ram-rod ferrules); fold down or spur trigger; round or octagonal barrel and fixed, adjustable, or no sights. - this type of handgun would have been made circa mid-1850's to early circa 1870's.
Action	- muzzle loader.
Serial Number	- the firearm may be serialized.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearm Reference Number (FRN): 188242
Make: Unknown British
Model: Percussion Transitional Pepperbox Revolver

Summary

Make:	Unknown British
Model:	Percussion Transitional Pepperbox Revolver
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
188242 - 1	44 PERCUSSION	6	159	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	

Notes

Make

- British proof marks obvserved on the cylinder of the firearm.
- "crossed spears/sceptres" in X configuration with a "crown above and V below" is marked on the firearm in various places; cylinder and barrel.
- "crossed spears/sceptres" in X configuration with a "crown above and B C P" in each of the blank areas of the X configuration is marked on the firearm; cylinder and barrel.

Model

- "Transitional Pepperbox Revolver" was normally manufactured circa 1840 to the 1860's.
- "Transitional Pepperbox Revolver" is also known as a proto revolver or transitional revolver.
- "Transitional Pepperbox Revolver" resembles a pepperbox revolver with a long barrel wedged on to an extension of the barrel cluster axis pin.
- "Pepperbox" revolver has multiple barrels, which revolve on one axis. The receiver/frame is directly behind the barrels with the grip curving in a downward direction directly behind the receiver/frame.
- "Transitional Pepperbox Revolver" retained the appearance of the pepperbox revolver with the receiver/frame being directly behind a cylinder and a barrel wedged on to an extension of the barrel cluster axis pin and with the grip curving in a downward direction directly behind the receiver/frame.
- "Transitional Pepperbox Revolver" may have a single or double action trigger mechanism. The pepperbox revolver's barrel assembly was shortened and became a cylinder and a single barrel was then fitted.
- "Transitional Pepperbox Revolver" was eventually replaced with the more modern revolver style receiver/frame, grip and hammer.

Serial Number

- may or may not be marked on firearm.
- observed sample did not contain a serial number.

Calibre

- not marked on the firearm.

112655 - 1	360 NO 5	1	640	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- the firearm is entirely devoid of markings related to Make or Manufacturer.
- often marked with British provisional and definitive proof marks, usually by London or Birmingham Proof Houses.

Model

- "Rook Rifle" is not marked on the firearm.
- "Rook Rifle" model designation was used in the United Kingdom in refers to the intended purpose of a small, single shot, lightweight sporting rifle normally used for rabbit, crow, or vermin control.
- "Rook Rifle" was also known as a 'Garden Rifle', 'Rabbit Rifle', or 'Pest/Vermin Rifle'.
- "Rook Rifle" may be found with a number of different types of actions including but not limited to break open (hinged barrel design), falling block or Martini-type.
- side lock external hammer or hammerless box lock rifle (often engraved), top, under, or side levered, usually single barreled (sometimes double barreled); usually with multiple folding leaf rear sights; usually with checkered walnut pistol grip stock and a small forearm, and often with an octagonal barrel.
- "Rook Rifle" is not to be confuse with the 'Collector Gun' or 'Garden Gun', which is almost identical in appearance, but is a smooth-bore, designed for shot, often in .410 bore. ('Gun' in British parlance usually refers to a smooth-bore shotgun.)

Action

- 'Rook Rifle" was available in various action types:
- break open action (hinged barrel design) manufactured by Holland & Holland, Jeffery, Webley & Scott, etc.
- falling block/vertical sliding wedge action manufactured by Gibbs, Henry, Jeffery-Farquharson, Rigby-Farquharson, etc.
- tilting block action (Martini type) manufactured by Greener, Martini, etc.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- often not marked with caliber designation.
- NOTE: sometimes certain low powered cartridges of the era were specifically referred to as 'Rook Rifle Cartridges'.

Remarks

- this rifle was used to dispatch small nuisance animals; principally 'Rooks' (the term loosely includes crows, ravens, grackles, starlings, magpies and jays), and small animals such as rabbits and squirrels and vermin such as rats, weasels and badgers.
- a rook is a white faced European black bird, a member of the crow family, often considered a mischievous nuisance.

Firearm Reference Number (FRN): 172944
Make: Unknown British
Model: Scottish Highlander Regimental Flintlock Pistol

Summary

Make:	Unknown British
Model:	Scottish Highlander Regimental Flintlock Pistol
Manufacturer:	Unknown British
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
172944 - 1	52 FLINTLOCK	1	190	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	

Notes

Make

- make/manufacturer is not marked on the firearm.
- British proof marks are visible on the barrel.

Model

- model designation is derived from the characteristics of the firearm.
- this is an all steel construction, including the stock, flintlock pistol.
- features include: round, stepped barrel slightly flared at the muzzle that may also be octagon; flat sided metal stock with curved grip; under the barrel ram rod; button shaped trigger without trigger guard; ram's horn butt with a threaded, centre knob for the touch hole pick; belt hook attachment on the left side; unfinished steel surface with the stock been steel or brass.
- a very similar pistol, the "Black Watch Pistol" is known under several similar names, and must not be confused with the "Murdoch" pistol; where the "Murdoch" pistol has a "ram's-head" butt, with curlicue extensions that help to protect a ball-headed vent-pick threaded into the butt, the "Black Watch Pistol" is made with an all-brass butt and stock, with a double-lobed "kidney-shaped" butt that allows the pistol to be used as a club after the shot is fired.

Manufacturer

- make/manufacturer is not marked on the firearm.
- British proof marks are visible on the barrel.

Action

- muzzle loader.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197128 - 1	40 PERCUSSION	1	80	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- British address or British proof marks marked on the firearm.

Model

- The model designation is not marked on the firearm.
- Model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- Screw Barrel Pistols were popular in the period prior to 1880 and were commonly manufactured in England and Belgium.
- This is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- This handgun is intended to be loaded from the breech end of the barrel and as such was originally supplied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- Features include: octagonal or round screw on barrel with an underlug; hammer is located in the centre of the receiver/frame; conventional trigger with trigger guard or forward folding trigger; one piece wooden grips.

Action

- The barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- The turnoff barrel may be rifled.

Calibre

- Calibre designation may not be marked on the firearm.

Notes

Make

- maker's name does not appear on this type of firearm.

Model

- model designation is not marked on the firearm.
- this is a generic entry for those Unknown British side by side shotguns that are not identifiable as to model.
- features may include:
- external or internal hammers.
- double or single trigger, with or without barrel selector.
- sidelock or boxlock.
- ejectors or extractors.
- top, side or push button opening lever.
- finishes and engraving may vary widely.

Action

- side by side pattern.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- will normally have English proof marks.

Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197140 - 1	36 PERCUSSION	6	149	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The make is not marked on the firearm.
- British proof marks are present on the firearm.

Model

- The model designation is not marked on the firearm.
- Model designation is derived from the characteristics of the firearm.
- "Transitional Revolver" were popular during the mid-1800s.
- "Transitional Revolver" combined features of the earlier "pepperbox" revolver with a single barrel mounted on a cylinder-pin by way of a barrel lug.
- Features include: round or octagonal barrel that are usually smooth bore; may have a under barrel loading rammer; round "pepperbox" style cylinder with percussion cap nipples; top mounted bar hammer that is cocked and dropped by actuating the trigger; bell like shaped shield for the percussion cap nipples; blued or polished in the white finish.

Action

- External percussion cap ignition.

Serial Number

- The serial number is not marked on the firearm.

Notes

Make

- The make is not marked on the firearm.
- A banner logo may be found on the grip panels with a five point star followed by 356 within the banner.
- A "five point star with a circle divot in the centre" may be marked on the left side of the receiver/frame or slide.
- A five point star observed to be a "Chinese" marking, but manufacture origins is not known.

Model

- The model designation is usually marked on the right side of the firearm.
- "356" was observed marked on the right side of the slide.
- A banner type logo observed on both the pistol grip panels with a five point star followed by "356" within the banner.
- This firearm closely resembles a Walther PPK/PPKS model.
- Features include: blued or stainless steel barrel; blued receiver/frame with rear exposed hammer with small ring; double-action trigger mechanism; left side magazine release button; left side safety catch on the rear of the slide; hinged trigger guard and is used to lock slide to the receiver/frame.

Action

- Blowback operated.

Serial Number

- The serial number is not marked on the receiver/frame.
- Six numbers was observed marked on the left side of the slide followed by a five pointed star followed by a potential year date; this number nor the year date are not to be mistaken as the serial number in accordance to the serial number marking regulations for Canada.

Other Markings

- A year date "1956" was observed marked on the left side of the slide.

FRT Report

Firearm Reference Number (FRN): 149367
Make: Unknown Chinese
Model: Semi-Automatic

Summary

Make:	Unknown Chinese
Model:	Semi-Automatic
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	CHINA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
149367 - 1	7.63MM MAUSER	10	197	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- the make is not marked on the firearm; this is one of a large number of Chinese pistols built for the domestic Chinese market between the 1920s and 1950s, based largely on copies of existing Western designs that had been purchased abroad (notably, the Mauser C96 and copies, and the Browning 1900/1910 and copies). Because many of these pistols were made under the control and direction of local warlords, they bear few identifying markings, and are often stamped with non-western and non-Chinese gibberish characters that were never meant to be read or understood by the end users.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is a domestic Chinese pistol that combines features of several foreign-designed pistols that were imported into China during the pre-World War Two period, and which were widely copied in order to arm various armed factions fighting for control of China up until 1953. Many of these pistols will exhibit features of either the Browning 1900 or 1910 pistols, or the Mauser C96 pistol, as these were both among the highly-desired pistols in use during this period.
- features generally include: blued finish; open adjustable C96 Mauser-style sights; an external single-action ring hammer with side cocking "ears" on a square bolt; and a "broomhandle"-style frame, with the magazine contained either in the pistol-grip or in a magazine well forward of the trigger guard.

Action

- recoil-operated.

Serial Number

- numbered on the receiver/frame.

Shots

- detachable box magazine.

Notes

Make	- The make is not marked on the firearm.
Model	- The model designation is not marked on the firearm. - This is a generic entry. Other "Taser" model entries exist which might better describe the firearm. - This firearm has a detachable cartridge containing probes and wires, which is installed/loaded from the front. This firearm can also be used without the cartridge installed, as a stun gun, creating an arc between the electrodes. - Features include: charging port on the underside of the grip; selector mode switch (modes: off, light, siren and electricity discharge); flashlight located on the underside of the firearm.
Action	- Unit contains an internal rechargeable battery which is used to launch and ignite the probes or electrodes.
Serial Number	- The serial number is not marked on the firearm.
Barrel	- The barrel length is determined by measuring the overall length of the cartridge.
Calibre	- The calibre designation is not marked on the firearm.
Shots	- Detachable cartridge containing probes and wires, which is installed/loaded from the front.

Notes

Make

- make is not marked on the firearm.
- firearm will have German proof marks or the name of a city or region in Germany.

Model

- "Drilling" is not marked on the firearm.
- "Drilling" is a three barrel combination gun.
- "Drilling" uses shotgun cartridges and rim or center fire rifle cartridges.
- features include: three barrels; front hinged receiver/frame with a break open device; hammer or hammerless; two or three triggers; may have a barrel selector lever; wood forearm and a straight or pistol grip buttstock.
- Barrel configurations may be as follows:
- side by side shotgun barrels of the same calibre over a rifle barrel;
- side by side rifle barrels of the same calibre over a shotgun barrel;
- one shotgun barrel over a rifle barrel with a smaller calibre rifle barrel offset to one side between the two over and under barrels;
- side by side barrel configuration, one being a shotgun barrel and the other a rifle barrel over a rifle barrel of the same calibre as the side by side, also known as a "Bock Drilling";
- side by side shotgun barrels under a small calibre rifle barrel, also known as "Schienendrilling";
- side by side shotgun barrels over a shotgun barrel;
- over and under shotgun barrels with a rifle barrel offset to the side between the over and under barrels, also known as a "Bock-Doppelflinte mit seitlichem Kleinkaliberlauf"; and
- over and under barrel configuration, shotgun barrel over a small calibre rifle barrel over a larger calibre rifle barrel.

Action

- hinged barrel design.
- barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.

Other Markings

- the drilling may have the following markings. This mark may appear in a circular fashion with "PRIMA" over "BOHLER" at the top of the circle and "GEWEHR LAUF" over "STAHL" at the bottom of the circle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- firearm bears no markings to indicate make or manufacturer.
Model	- manufactured circa 1850 to 1920. - "Flobert Type" is not marked on firearm. - this is a generic entry for Unknown German Flobert Type firearms. - Flobert Type actions can be classified as one of four variants: - 1 "Original" Flobert action is where the hammer face forms the lock to close the chamber. - 2 "Plain" Flobert action is where the hammer face forms the lock to closes the chamber except it is fitted with a separate extractor. - 3 Flobert "Remington System" is where the chamber is closed with a separate breech block resembling the rolling block. - 4 Warnant System using a hinged, forward tipping breech block.
Serial Number	- may or may not be serial numbered.
Calibre	- 6mm Flobert may also be known as the 6mm Salon or target cartridge. - this type of cartridge used no powder, the bullet is forced out of the barrel by the detonation of a extra large charge of priming compound or fulminite.
Other Markings	- may bear German proofmarks.

16289 - 2	7MM PIN-FIRE	6	59	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- no maker's name or mark appears on this firearm.
- German proof marks are apparent on the firearm; "Germany" or "Made in Germany" may also be marked on the barrel and/or receiver/frame.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this handgun resembles the original pin-fire design of Casimir & Eugene Lefaucheux circa 1854-55.
- production of this type of handgun utilizing the pin-fire cartridge system ran from circa 1855 to the mid-late 1880's.
- features include: engraved solid or open-top receiver/frame; fixed sight; octagonal or round barrel; loading gate on right side of standing breech; ejector rod located on the right side of the receiver/frame ("pocket" models may have a removable ejector rod screwed into the butt); spur hammer; trigger guard with or without finger rest; single or double action trigger mechanism; may have a folding-type trigger without trigger guard; may have a lanyard ring located at the bottom of the grip frame; wooden, bone, ivory, or synthetic grips.
- long barrel revolvers were also known to feature a folding leaf style rear sight and a detachable skeletonized buttstock.
- German proof marks are apparent on this firearm.

Action

- double-action revolver.

Serial Number

- may be numbered on the frame and/or cylinder.

Canadian Law Comments

- examples of these revolvers made prior to 1898 are considered "antique" under Canadian law.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- bears German proof marks on the receiver/frame, consisting of a "U" below two crowns (the first "U" is a provisional proof, while the second is a definitive proof, applied after the firearm is ready for sale). - may also be marked "Germany" or "Made in Germany".
Model	- no model name is marked on this firearm; model designation is derived from the characteristics of the firearm. - this type of handgun would have been made circa early 1880's to the early 1900's. - this is a small solid receiver/frame double-action revolver that shares the characteristics of the larger "Bulldog Type" revolvers, but is chambered for a smaller cartridge than is customarily seen in the full-size "Bulldog" handgun (i.e. less than .44 cal); it has a shorter barrel and smaller receiver/frame size. - features include: may be seen with folding or full trigger guard; bird's-head or square butt grip frame; swing-out ejector rod that is usually stored in the centre of the cylinder axis pin; plain round or fluted cylinder; exposed hammer or hammerless; swing-out or swing-back type loading gate; fixed sights; usually a blued finish.
Action	- single-action or double-action operation.
Serial Number	- normally numbered on major component parts.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

FRT Report

Firearm Reference Number (FRN): 125030
Make: Unknown German
Model: Wheel-Lock Reproduction

Summary

Make:	Unknown German
Model:	Wheel-Lock Reproduction
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125030 - 1	45 WHEEL-LOCK	1	390	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Made in Germany" is marked on the receiver/frame/barrel.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of a German Wheel-Lock pistol.
- Wheel-Lock firearms were originally manufactured in Europe during the 16th and 17th century.
- the system uses a iron pyrites pressed against a revolving toothed wheel to provide the sparks for igniting the powder in the priming pan, which in turn ignites the main powder charge in the barrel. The toothed wheel is made to rotate, when the trigger was pulled, by a spring that was wound by a key in a similar fashion to a mechanical clock.
- features include: steel barrel and side plate; no sight; single trigger; walnut semi-pistol grip stock.

Action

- spring driven rotating gear action.

Serial Number

- located on the receiver/frame/barrel asembly.
- observed specimen had two letter prefix and five numbers.

74250 - 4	177 PELLET	4	397	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- make is not marked on the firearm.

Model

- model is not marked on firearm; as so many of the Hungarian made air rifles do not have a model stamped on them, this record is a generic for those rifles not identifiable as a specific model;
- features may include: solid beechwood stock with sculpted cheekpiece, stamped trigger-guard with access hole to allow the trigger mechanism to be adjusted, and open adjustable sights (with or without a hood for the front sight).
- markings include: a serial number, a "Made in Hungary" stamping and an acceptance/proofing/final inspection mark consisting of a triangle inside a 3mm circle.

Action

- break barrel spring piston air rifle.

Serial Number

- serial number is marked on firearm; rationalization unknown.

132779 - 2	44 PERCUSSION	6	457	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Made in Italy" is marked on this firearm.

Model

- this is a modern reproduction of a Colt 1848 Dragoon Model 3 black powder, percussion, single action revolver, which was originally manufactured from 1851 to 1861.
- Colt 1848 Dragoon Model 3 was also known as the "Colt Third Model Dragoon".
- "3rd Model Dragoon" may be marked on the left side of the barrel lug.
- features include: muzzle loading, percussion ignition revolving cylinder; single action trigger; loading lever mounted on the underside of the barrel; colour case-hardened steel receiver/frame; brass backstrap and trigger guard; roll engraved cylinder with Ranger and Indian scene; hardwood grips.
- Italian proofmarks are apparent on the barrel and receiver/frame of this firearm.
- Colt 1848 Dragoon distinguishing features between the Model 1, 2, and 3 are:
- Model 1: oval cylinder stop notches, and a square back trigger guard.
- Model 2: rectangular cylinder stop notches, and a square back trigger guard.
- Model 3: rectangular cylinder stop notches, and a rounded trigger guard.
- Model 3: may have a groove in the bottom of the grip strap for a shoulder stock.

Serial Number

- known example had a serial number marked on the front of the trigger guard, the underside of the receiver/frame in front of the trigger guard, the underside of the barrel and on the bottom buttstrap of the grip frame.
- known example had a three or four digit number without prefix or suffix.

Calibre

- known example had the calibre designation marked on the left side of the barrel as, "Cal 44".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - known example was marked "Made in Italy" on the rear left side of the barrel.

Notes

Make

- barrel usually marked "Italy", "Made in Italy" or variation thereof.
- Italian proofmarks are apparent.
- barrel usually marked "Blackpowder Only", "Use Blackpowder Only" or a variation thereof.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model name not marked on firearm.
- may also be known as the "Kentuckian" pistol which is identical in appearance to the "Kentucky".
- features include: octagonal barrel; one piece wooden stock extending almost to the end of the barrel; may have brass trigger guard, brass nose cap on front of forestock and two exposed brass thimbles under the barrel to retain the ramrod; side hammer; muzzle loader.
- available in both flintlock and caplock.

Barrel

- barrel length measurement for this type of handgun is an external measurement from muzzle end to the rear of barrel where the breech plug meets the barrel -- normally a 'joint-line' is visible where the breech plug butts against the barrel.

Calibre

- may be marked on the barrel.

Notes

Make

- "MADE IN ITALY" is marked on the left side of the barrel.

Model

-" W.MOORE" is marked on the top of the barrel and "LONDON" on the lock plate.
- this is a reproduction of pistol manufactured circa 1850 by William Moore from London, England. William Moore was the appointed gun maker to King William IV on April 15, 1836.
- features include: walnut checkered pistol grip; octagonal barrel; ramrod; silver plated nosecap, trigger guard, and bead front sight; dovetail rear sight; side lock lightly engraved; adjustable trigger.

Action

- muzzle loading flinlock pistol.

Serial Number

- serial number is marked on the right side of the barrel.
- sample observed with three digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- make and/or manufacturer is not marked on firearm. - may be marked "Made in Italy".
Model	- model designation is not marked on the firearm. - this entry is to be used only for those firearms that are not identifiable as a specific brand or model. Other records exist which may more accurately identify the firearm being examined. - features may include; sidelock or boxlock action; single or double triggers; engraving on the metal surfaces; external or internal hammers; folding or take down design and several variations in the stock work.
Serial Number	- Italian shotguns have the serial number struck in various places but notably on the flats of the receiver/frame.
Calibre	- chamber lengths may be indicated on the barrels or barrel flats in their metric equivalent: 65 = 2 1/2", 70 = 2 3/4", 76 = 3". - the 9.1X40R cartridge was available as a shot cartridge or as a ball loading.
Other Markings	- ordinarily marked with Italian proofmarks on the barrels and or barrel lugs (e.g. "PSF", "FINITO").

161367 - 2	72 MATCHLOCK	1	705	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- the make may not be marked, or may only be marked in Japanese kana or ideographs.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a specific version of the native Japanese-made "tanegashima" or matchlock musket; "Tanegashima" is a southern Japanese island where Portuguese traders with firearms are commonly believed to have first made contact with the Japanese in the mid-1500s, and domestic copies of those firearms spread rapidly through Japan thereafter.
- the classic "tanegashima" musket resembles a long-barreled matchlock pistol with a long pistol-grip, and without a shoulder-stock of any kind; these firearms could be seen used with a pair of cross-sticks or pole-arm with a rest to allow aiming.
- features may include: blued or browned finish; often with intricate engravings of fish, floral scenes, geometric patterns, etc.; fixed open sights; round or octagonal barrels (often with cannon-shaped muzzles); full-length wooden stock with a pistol-grip only; brass or copper fittings; a serpentine on a lockplate to hold a length of slow-match; and a rotating pan-cover to keep priming powder in place until firing.

Manufacturer

- the manufacturer may not be marked, or may only be marked in Japanese kana or ideographs.

Action

- muzzle-loaded matchlock single-shot.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

FRT Report

Firearm Reference Number (FRN): 195359
Make: Unknown Persian
Model: Percussion Pistol

Summary

Make:	Unknown Persian
Model:	Percussion Pistol
Manufacturer:	Unknown Persian
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195359 - 1	65 PERCUSSION	1	191	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- side plate is marked with the Islamic year 1293 (1876 C.E.) underneath the tughra (seal) of the Turkish sultan; the tughra is likely that of Naser al-Din Shah Qajar who was the king of Persia from July 1831 until May 1896.
- side plate is marked with the face of a smiling lion; lion imagery is common on currency, banknotes and the flag of Persia during the Qajar dynasty and is one of the current emblems of Iran.

Model

- model designation is not marked on the firearm.
- this is a single barrel, muzzle loaded percussion pistol.
- features include: round barrel with half-moon sight; side-mounted percussion hammer; under-barrel hinged ramrod; brass trigger guard; one piece walnut stock; brass capped forend; flat butt with brass cap; lanyard ring.

Manufacturer

- side plate is marked with the Islamic year 1293 (1876 A.D) underneath the tughra (seal) of the Turkish sultan; the tughra is likely that of Naser-al-Din Shah who was the king of Persia from July 1831 until May 1896.
- side plate is marked with the face of a smiling lion; lion imagery is common on currency, banknotes and the flag of Persia during the Qajar dynasty and is one of the current emblems of Iran.
- examples of this percussion pistol have been observed with the Victorian crown with "E.I.G." as well as "Birmingham" marked on the side plate; this is the mark of the East Indian Government.

Action

- muzzle loaded.

Other Markings

- more common examples of this percussion pistol have been observed with the Victorian crown and "E.I.G." as well as "Birmingham" marked on the side plate over the year of manufacture; this is the mark of the East Indian Government.

FRT Report

Firearm Reference Number (FRN): 33960
Make: Unknown Scottish
Model: Howdah Pistol

Summary

Make:	Unknown Scottish
Model:	Howdah Pistol
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Multi-Barrel
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
33960 - 1	577 SNIDER	2	0	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	
33960 - 2	58 PIN-FIRE	2	152	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Model

- manufactured from 1875 to 1880.
- the model is not marked on the firearm; this is a descriptor of the firearm type, applied to large-bore pistols (usually in side by side configuration) that were customarily carried in "howdahs" on the backs of elephants during tiger hunts in India, as a last-ditch measure in case a tiger got too close to an elephant or its riders. These pistols resemble sawed-off rifles or shotguns, but were manufactured as pistols.
- features may include: blued or browned finish; open bead sights; fluid or Damascus barrels; checkered walnut forearm and pistol-grip; Collath underlever or top-lever opening; exposed, manually-cocked hammers; "dog-catch"-style sliding safeties on the lockplates; double triggers; and back-action locks.

Action

- usually side-by-side configuration.

Firearm Reference Number (FRN): 165062
Make: Unknown Spanish
Model: 3

Summary

Make:	Unknown Spanish
Model:	3
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
165062 - 1	12MM PERCUSSION	1	250	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- make is not marked on the firearm.
- "MADE IN SPAIN" is marked on the receiver/frame/barrel.
- "T.A." over "12m/m" observed marked on barrel, no indication of maker or manufacturer.
- markings may include a logo of a diamond with "ROSCO" or "RUSCO" or "RUBCO" or "ROBCO".

Model

- "MODEL 3" is marked on the receiver/frame/barrel.
- features include: smooth-bore octagonal barrel with fixed bead front sight, no rear sight; right side mule-ear percussion hammer; side-lock action; one-piece checked pistol grip stock with ram-rod under barrel; trigger and trigger-guard.

Action

- black powder muzzle-loading.

Serial Number

- serial number is marked on the receiver/frame.
- observed serial number consisted of five number without letter prefix or suffix.
- serial number rationalization is not known.

Calibre

- calibre is marked on the receiver/frame/barrel.

Other Markings

- markings may include a logo of a diamond with "ROSCO" or "RUSCO" or "RUBCO" or "ROBCO".
- "T.A." over "12m/m" observed marked on barrel, no indication of make or manufacturer.
- barrel markings include standard Spanish country proofmarks for smooth-bore black powder firearms, including: "Crown" over "Shield" with "X" in the centre of shield; three circles in triangle formations; and possible "EIBAR" marking of left side with a "Knight's Helm" over "Shield" with "X" in the centre of shield.

Notes

Make

- "US Armament Corp" or a variation thereof is marked on this reproduction firearm.

Model

- this firearm is a modern reproduction of the Gatling Gun model 1877 Bulldog as manugactured by Colt.
- this firearm is generally known as the "Gatling" or "Gatling Gun" after the name of its inventor, Dr. Richard J. Gatling.
- "Gatling's Battery Gun" is marked on a cast oval bronze plate that is attached to the top rear of the breech housing of the receiver/frame.
- additional markings on this plate are; "Pat. NOV 4.1862" over "MAY 9.1865" over "FEB 28.1871" over "APR 9.1872" over "MADE BY COLTS'S PT. FIRE ARMS MFG CO HARTFORD, CONN U.S.A."
- this is a hand cranked, rotating five-barrel cluster firearm utilizing a top mounted Bruce-type Gravity Feed detachable magazine.
- features include: right side mounted sights; brass encased barrel assembly; brass receiver/frame/casing; hand crank is located at the rear of the gun instead of the side as in all other preceeding models; hand crank operated directly on the main shaft which resulted in a cylic rate of approximately 1000 rpm; headspace adjustment is a nut on the mainshaft at the rear of the action which also held the hand crank in position; black finished iron yoke; brass turntable with elevation assembly; iron tripod bass; wood tripod legs with iron feet.
- overall length of gun is 864 mm (34").
- average weight of gun is 61.23 kgs (135 lbs), and average weight of tripod is 61.23 kgs (135 lbs)

Manufacturer

- U.S. Armament Corporation is located in Ephrata, Pennsylvania, U.S.A.
- U.S. Armament Corporation was incorporated in 1988.

Action

- hand crank operated, repeating action.

Serial Number

- serial number is marked on the receiver/frame/casing.
