FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
40108 - 1	177 PELLET	1	406	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this was a match-grade version of one of the first air rifles that Walther produced.
- "LG 55 M" stands for "Luft Gewehr Match ("match air rifle") model of 1955"
- features include: spring-piston, break-barrel design, pistol grip beech or walnut stock with high, squared-off Monte Carlo comb or schuetzen-style "Tyrolean" comb with exaggerated cheek-piece, adjustable micrometer rear sight with eye cup, and hooded blade front sight.
- at least two separate versions of this rifle were produced, with different stock styles and sight arrangements.

Manufacturer

- Walther is a German manufacturer that has been making firearms since 1886, first at Zella-Mehlis in eastern Germany, then at Ulm-Donau in West Germany after the country was partitioned by the Soviets during World War Two.
- they are particularly known for their handguns, but also make match-grade air rifles and air pistols, as well as small-bore target rifles and hunting rifles.

Action

- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Other Markings

- may have importers name or mark stamped on the receiver or barrel.

Notes

Make

- make is marked on the firearm.

Model

- introduced in 1989.
- this is a highly specialized, target grade air rifle.
- the rifle has the same weight and contours as the Walther's model U.I.T.
- features include: fixed barrel; micrometer sights with globe front; laminated stock with adjustable buttplate and comb.
- overall length is 1118mm.

Action

- compressed air design, side cocking.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Other Markings

- may have importers name or mark stamped on the receiver/frame or barrel.

40194 - 2	177 PELLET	1	655	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make marked on rifle with the Walther banner.

Model

- marked "L G M 2" on the side of the receiver/frame.
- "LGM 2" represents Luft Gewehr Match ("match air rifle") 2.
- this is a match grade side lever single stroke pneumatic air rifle produced by Walther during the late 1990s.
- features include:
- stippled vertical pistol grip; solid or laminated stock with high, adjustable squared-off Monte Carlo comb; forearm rail; adjustable micrometer rear sight with eye cup and hooded front sight with various inserts.

Manufacturer

- Walther is a German manufacturer that has been making firearms since 1886, first at Zella-Mehlis in East Germany, then at Ulm-Donau in West Germany after the country was partitioned by the Soviets during World War Two
- they are particularly known for their handguns, but also make match grade air rifles and air pistols, as well as small bore target rifles and hunting rifles.

Action

- single-stroke pneumatic air rifle.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the left side of the receiver/frame, below the rear sight.

Barrel

- the nominal barrel length of this rifle is 420mm according to Walther, but that measurement only includes the RIFLED portion of the barrel; when measured in accordance with Canadian legal specifications, the actual barrel length is 655mm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments	- the nominal barrel length of this rifle is 420mm according to Walther, but that measurement only includes the RIFLED portion of the barrel; when measured in accordance with Canadian legal specifications, the actual barrel length is 655mm.

Notes

Model

- this was a match-grade air rifle that Walther produced with a stationary (non-breaking) barrel, and a side-mounted cocking handle to compress the mainspring, that was pulled out and around to the back to cock the rifle.
- vertical pistol grip, walnut stock with high, adjustable squared-off Monte Carlo comb, adjustable micrometer rear sight with eye cup, and hooded front sight with various inserts.
- the rifle is loaded by operating a lever at the front of the forearm, which rotates a breech-block to expose the chamber.
- several different versions of this rifle were produced, with different stock styles and sight arrangements.

Manufacturer

- Walther is a German manufacturer that has been making firearms since 1886, first at Zella-Mehlis in East Germany, then at Ulm-Donau in West Germany after the country was partitioned by the Soviets during World War II.

Notes

Make

- maker's designation is usually marked on the barrel.

Model

- "LGV" was manufactured from 1963 to 1968.
- "LGV Special" was manufactured from 1968 to1972.
- "LGV" was re-introduced in five variants in 2012.
- "LGV" may be marked on the barrel and is marked on the new model on the top of the action tube.
- "LGV" was a match-grade replacement of the LG 55 M series of air rifles that Walther produced.
- "LGV" feature a barrel locking lever in front of the hinge point.
- "LGV" original features include: hooded front sight with various inserts and adjustable micrometer rear sight with eye cup; adjustable trigger; vertical pistol grip; beech or walnut stock with high, squared-off or rounded Monte Carlo comb; blue finish.
- also had the "Special" and "Junior" variants produced with different stock styles, sight arrangements and barrel lengths.
- "LGV 2012" features include: threaded muzzle with cap; hooded front sight with fiber optic that can be mounted on a flat sided muzzle weight and adjustable micrometer rear sight mounted on the barrel a top of the chamber area; grooved action tube for optic mounting; safety button at the rear of the action tube; adjustable trigger; ambidextrous, synthetic or wood stock that may have a adjustable cheek rest; rubber buttplate; blue finish.
- overall length for a 400mm (15.7") barrel is 1095mm (43.1"), average weight is 4.15kg (9.15lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Walther is a German manufacturer that has been making firearms since 1886, first at Zella-Mehlis in East Germany, then at Ulm-Donau in West Germany after the country was partitioned by the Soviets during World War Two - they are particularly known for their handguns, but also make match-grade air rifles and air pistols, as well as small-bore target rifles and hunting rifles.
Action	- spring-piston, break-barrel design. - does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. - at least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4 mps (500 fps) and a muzzle energy exceeding 5.7 Joules. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500 fps) and/or a muzzle energy exceeding 5.7 Joules. - spring-piston, break-barrel design. - the "original LGV" has at least two variants of this particular model do exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4 mps (500 fps) and a muzzle energy exceeding 5.7 Joules. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500 fps) and/or a muzzle energy exceeding 5.7 Joules. - the "LGV" model of 2012 discharges a projectile at a muzzle velocity exceeding 152.4 mps (500fps) and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is marked on the left side of the breech block and may consist of six digits. - serial number of the "LGV" re-introduced model of 2012 is marked on the right side of the barrel block. - serial number of referenced north American examples consisted of a three letter prefix (LGV) and nine numbers. - serial number of a referenced European example consisted of a two letter prefix (BJ) and six numbers.
Calibre	- calibre identification is marked on the barrel.
Canadian Law Comments	- at least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4 mps (500 fps) and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorization to Transport. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500 fps) and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorization to Transport. - "LGV" model of 2012 discharges a projectile at a muzzle velocity exceeding 152.4 mps (500fps) and a muzzle energy exceeding 5.7 Joules.
Other Markings	- may have importers name or mark stamped on the receiver/frame or barrel.

Firearm Reference Number (FRN): 39970
Make: Walther
Model: LP2

Summary

Make:	Walther
Model:	LP2
Manufacturer:	Walther
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Air,Spring or Gas
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
39970 - 1	177 PELLET	1	241	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make designation is marked on the left side of the receiver/frame as "WALTHER" within a V-tailed banner, and as "CARL WALTHER ULM/DO".

Model

- manufactured from 1967 to 1972.
- "LP Mod 2" is marked on the left side of the barrel.
- this was one of the earliest air pistols that Walther produced.
- this was a "sport pistol" design, meant for plinking and informal target practice.
- features include: the pistol is loaded by breaking the barrel (release lever in front of trigger-guard), while the piston in the grip is cocked by pulling a lever attached to the butt down in an arc; ramped front sight and adjustable rear sight.
- "LP 2" stands for "Luft Pistole ("air pistol") 2", as it was the second model Walther produced.
- overall length 335mm (13.2"), weight 1.3kg (45.9oz).

Manufacturer

- Walther is a German manufacturer that has been making firearms since 1886, first at Zella-Mehlis in East Germany, then at Ulm-Donau in West Germany after the country was partitioned by the Soviets during World War Two
- they are particularly known for their handguns, but also make match-grade air rifles and air pistols, as well as small-bore target rifles and hunting rifles.

Action

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
- spring-piston design; the barrel breaks to load, while the piston is contained in the grip and is cocked with a large lever that extends up in front of the hand to the trigger-guard.

Serial Number

- serial number is marked on the left side of the chamber.
- example observed with four numbers without a letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - may have importers name or mark stamped on the receiver or barrel.

Notes

Make

- the Walther "banner" is marked on the right side.

Model

- this is a highly specialized target grade air pistol, with a stationary barrel that features an integral muzzle brake; the pistol uses pre-charged air cylinders to provide a consistent pulse of air to drive the pellet.
- marked "LP 200" on the right side of the breech.
- a similar pistol, the LP 201, is identical except that it moves the air cylinder from a horizontal position to a more or less vertical position, and allows the use of under-barrel weights to help stabilize the pistol.
- "LP 200" stands for "Luft Pistole ("air pistol") 200".
- a similar pistol is available with a power supply that uses CO_2 as the model CP 200.

Action

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Make

- the Walther "banner" is marked on the right side.

Model

- this is a highly specialized, target grade air pistol, with a stationary barrel with an integral muzzle brake.
- the pistol uses vertically mounted, pre-charged air cylinders that are pressurized in the same way that SCUBA tanks are, to provide a consistent pulse of air to drive the pellet.
- marked "LP 201" on the right side of the breech.
- a similar pistol, the LP 200, is identical except that it moves the air cylinder from a vertical position to a horizontal position beneath the barrel, and does not allow the use of under-barrel weights to help stabilize the pistol.
- "LP 201" stands for "Luft Pistole ("air pistol") 201".
- a similar pistol is available with a power supply that uses CO2 as the model CP 201.

Action

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Make

- the make designation is marked on the left side of the receiver/frame as "WALTHER" within a V-tailed banner, and as "CARL WALTHER ULM/DO".

Model

- the model name is marked on the left side of the receiver frame as, "LP Mod. 3", or a variation thereof; "LP" stands for Luftpistole in German.
- produced from 1973 to 1985.
- this model is essentially an LP 2 with an ergonomic, adjustable grip and heel-rest.
- the pistol is loaded by breaking the barrel (release lever in front of trigger-guard), while the piston in the grip is cocked by pulling a lever attached to the butt downwards in an arc.
- features include: adjustable trigger; black "crackle" paint finish on the receiver/frame; blued barrel; micrometer adjustable rear sight and fixed blade foresight; contoured cocking lever; adjustable trigger stop; adjustable palm-rest walnut grips; recoilless pneumatic mechanism.

Manufacturer

- the manufacturer's designation is marked on the left side of the receiver/frame as "WALTHER" within a V-tailed banner, and as "CARL WALTHER ULM/DO".
- Walther is a German manufacturer that has been making firearms since 1886, first at Zella-Mehlis in East Germany, then at Ulm-Donau in West Germany after the country was partitioned by the Soviets during World War Two.
- they are particularly known for their handguns, but also make match-grade air rifles and air pistols, as well as small-bore target and hunting rifles.

Action

- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
- spring-piston design; the barrel breaks to load, while the piston is contained in the grip and is cocked with a large lever that extends up in front of the hand to the trigger-guard.

Serial Number

- the serial number is usually marked on the right side of the receiver/frame.
- observed known examples have had a five digit number without prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Other Markings - may have importers name or mark stamped on the receiver or barrel.

Notes

Make

- the Walther "banner" logo is marked on the pistol.

Model

- the model designation is marked on the pistol.
- this is a match-grade, pre-charged pneumatic air pistol designed for use in 10 meter air pistol competition.
- features include: blued match barrel with compensator; micrometer-adjustable open sights; loading lever on right side of receiver/frame; adjustable trigger; laminated wooden anatomical grip with heel plate, adjustable for angle and twist.

Action

- pneumatic powered (pre-charged pneumatic cylinder).
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Notes

Make

- the Walther "banner" logo is marked on the pistol.

Model

- "LP300" over "XT" is marked on the right side of the receiver/frame.
- "XT" stands for the "ABSORBER" air system that reduces recoil.
- "ABSORBER" may be marked on the left side of the muzzle brake.
- "LP300 XT" is a match-grade, pre-charged pneumatic air pistol designed for competition.
- features include: interchangeable fixed front and micrometer adjustable rear sight; match barrel with larger size compensator; compressed air tank with front, integral pressure gauge mounted under the barrel; adjustable counter weights; partial trigger guard; fully adjustable trigger; anatomical grip with heel plate, coloured, anodized aluminum construction.
- average weight is 1050 grams (2.31lbs).

Action

- pre-charged pneumatic air pistol.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number of referenced examples consisted of five numbers.

Calibre

- calibre identification is marked on the left side of the receiver/frame.

Model: LP34

Summary

Make:	Walther
Model:	LP34
Manufacturer:	Berlin-Lubecker Maschinenfabriken (duv)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
198077 - 1	26.5MM RIMMED	1	153	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The make is not marked on the firearm.

Model

- The model designation is not marked on the firearm.
- "LP" denotes Leuchtpistole, flare pistol in German and "34" referring to the year in which the pistol was designed.
- The LP34 was sold commercially and to the German military between circa 1937 to the early 1940's.
- Features include: steel or "duralumin" (aluminum, copper, & magnesium alloy) receiver/frame and barrel construction; barrel release lever is located in front of trigger guard; knurled hammer; lanyard loop on the underside of the receiver/frame; some versions may have a detachable shoulder stock attached via the "through hole" in the receiver/frame above the grip panels; black or brown wood or bakelite grip panels; black finish, anodizing on "duralumin" may have deteriorated over time and appear as a gold or straw color.

Manufacturer

- "duv" is marked on the left side of the receiver/frame.
- Berlin-Lubecker Maschinefabriken was assigned the factory code "S/237" between 1937 and 1939, "237" between 1939 and 1941, and "duv" until the end of production, circa 1943.
- The LP34 was also by manufactured by WaffenFabrik Walther Zella-Mehlis, marked "ac", and ERMA-ERFURT, marked "ayf".

Action

- Break open action.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- The serial number consists of four digits, with or without a letter suffix marked in cursive script.
- The serial number progressed in a sequence starting at 1 to 9999, then 1a to 9999a, thence to 1b to 9999b, etc.

Calibre

- The calibre designation is not marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- World War 2 German Army "Beschuss" acceptance stamps are marked on the right side of the barrel and receiver/frame.
- WaA214 German Army proof marks may be marked on various parts of the firearm.

Notes

Make

- "WALTHER" trade mark banner and "Made in Germany" is marked on the left side of the receiver/frame.
- "Carl Walther Ulm/Do." is marked on the right side of the receiver/frame.
- "WALTHER" is also marked on the barrel.

Model

- introduced in 2011.
- "LP400" is marked on the right side of the receiver/frame.
- "LP400" is marked on the barrel.
- "LP400" is a highly specialized target grade air pistol, with a stationary barrel.
- "LP400" has a semi-permanent pre-charged pneumatic cylinder with pressure gauge mounted below the barrel to provide a consistent pulse of air to drive the pellet.
- features include: interchangeable blade front sight and adjustable rear sight; aluminum or carbon jacketed round barrel; adjustable trigger; wood ergonomic pistol grip.

Action

- pre-charged pneumatic (PCP) powered.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is usually marked on the right side of the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.

162008 - 2	9MM LUGER	8	406	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Walther" is not marked on the firearm; these pistols will normally bear WW2 German manufacturer's codes and date markings.

Model

- model name is not marked on the firearm.
- the Martz Custom P38 is a completely remanufactured and refinished copy of the P38 pistol using original WW II receiver/frames; for calibres 45 AUTO, 38 SUPER and 22 MAG, two P38 receiver/frames are cut in half and then re-welded to accommodate the modifications required.
- features include: recoil operated, semi-automatic pistol utilizing a detachable box magazine; usually has a "satin-white" finish, rust blue also available.
- note: original German manufacturers code letters, dates and proof marks may also be apparent on these firearms.
- also available as a "P38 Carbine", with a detachable shoulder-stock.

Manufacturer

- manufacturer's name is not marked on the firearm however the letters "JVM" in an oval will be marked on the receiver/frame and is also marked on the top of the rear toggle link in script-type lettering; "JVM" stands for John Vernon Martz who is the owner of Custom German Lugers & P38.
- Custom German Lugers & P38 was a firearms manufacturer/gunsmithing business specializing in the custom remanufacturing of Luger and P38 pistols; the firm is located in Lincoln, California, USA.
- the firm was in business circa mid-1960's to early 1990's.

Action

- recoil-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial-numbered on the receiver/frame, barrel extension, and slide.
Barrel	- barrel lengths available in custom lengths.
Shots	- detachable box magazine.

Notes

Make

- the "Walther" banner is marked on the left side of the slide.
- "Walthers Patent" is marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Olympia-Pistole" is marked on the left side of the slide. - this model replace the "1932 Olympia". - the "Olympia" target pistol was manufactured between 1935 and 1944. - available in at least three variations; a version that accepts barrel/frame weights for ISU-style Olympic competition, a "Schnellfeuer"/"Rapid Fire" version for Olympic rapid-fire competition, and a "Sport" or "Hunting"/"Jagd" version. - all of these pistols can be recognized by the "Olympia-Pistole" markings on the left side of the slide, and by their serial number range; the serial number on the frame will have a letter "O" suffix. Do not confuse this letter "O" with the number zero.
Manufacturer	- "Waffenfabrik Walther Zella-Mehlis (Thur)" is marked on the left side of the slide.
Action	- blowback operated.
Serial Number	- the serial number is marked on the left rear side of the receiver/frame. - the serial numbers has a letter "O" suffix, the "O" was for "Olympia". - the serial numbered range started at "200 O". - sample inspected had a serial number of "7135 O", the first part of the serial number "7135" was repeated on the slide.
Calibre	- the calibre designation may be marked on the right side of the slide.
Shots	- detachable box magazine.

Notes

Make

- the "Walther Banner" trade mark is marked on the left side of the firearm.

Model

- OSP stands for Olympische Schnellfeuer Pistole (Olympic Rapid-Fire Pistol).
- introduced in 1961.

Manufacturer

- "Carl Walther Waffenfabrik, ULM / Do Made in Germany" is marked on the left side of the firearm.
- Walther is a German manufacturer that has been making firearms since 1886.
- the first Company address was at Zella-Mehlis in the eastern part of Germany.
- Zella-Mehlis production ceased with the end of WW II in May of 1945.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization unknown.
- serial numbers will be found on this model on the "upper receiver/frame" of this firearm.
- sample examined was marked with six digits, without prefix or suffix.
- early production of the OSP/GSP models had serial numbers on both the grip portion above the trigger and the barrel mounting frame portion of the upper mechanism. At some time in the past, Walther ceased numbering the lower portion of the firearm in what would normally be considered the receiver/frame portion of the pistol.

Firearm Reference Number (FRN): 23309
Make: Walther
Model: P1

Summary

Make:	Walther
Model:	P1
Manufacturer:	Manufacture de Machines du Haut Rhin (MANURHIN)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	FRANCE
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23309 - 1	9MM LUGER	8	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WALTHER" is not marked on the firearm.

Model

- "P1" was introduced in 1957.
- "P1" was manufactured under licence from Walther.
- "PISTOLET P1" is marked on the left side of the slide.
- "P1" is a variation of the P38.
- "P1" features an aluminum alloy receiver/frame.
- "P1" may also be known as "Pistolet P1", "Pistole 1", "Pistol 1", "P-1", or "P38/P1".
- features include: fixed blade front sight on the barrel and a drift adjustable rear sight on the slide; blued round barrel; blued flat sided, open top steel slide with rear grip serrations; safety lever is mounted on the left hand side of the slide; black anodized aluminum alloy receiver/frame; exposed spur hammer, double/single action trigger mechanism; take-down lever, action release lever and lanyard loop are mounted on the left side of the receiver/frame; detachable box magazine release is located on the bottom of the rear grip strap, behind the magazine well; black checkered grip plates.

Manufacturer

- "MANUFACTURE DE MACHINES DU HAUT-RHIN" followed by the "MANURHIN" logo and "MADE IN FRANCE" are marked on the side of the slide.
- Manufacture de Machines du Haut Rhin (MANURHIN) was in business at Mulhouse, Alsace, France from the 1950s to 1998.
- MANURHIN was purchased by Chapuis Armes of Saint Bonnet Le Chateaux, France in 1998.

Action

- recoil operated.

Serial Number

- serial number rationalization is unknown.
- serial number is marked on the left side of the receiver/frame.
- observed serial numbers consisted of six numbers without a letter prefix or suffix.
- observed serial number's last four numbers were repeated on the left side of the slide, and barrel assembly.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre is marked on the left side of the slide.
Shots	- detachable box magazine.
Remarks	- this firearm is a post war update of the Walther model P38 of World War II. - this firearm is a locked breech, short recoil operated, semi-automatic handgun with a double action trigger mechanism and has a slide-mounted, thumb operated safety catch. - engaging the safety catch locks the firing pin and decocks the hammer, the sear is also rotated into a raised position that prevents the trigger bar and trigger from returning to the forward position. - the first shot is usually fired double action by a long trigger pull, subsequent shots are fired single-action unless the safety has been engaged between shots.

23492 - 6	9X21 IMI	8	127	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "WALTHER" inside a banner is marked on the left side of the slide.

Model

- "P1" was introduced in 1957.
- "P1" was also manufactured under licence by Manurhin.
- "P1" is marked on the left side of the slide.
- "P1" is a variation of the P38.
- "P1" features an aluminum alloy receiver/frame.
- "P1" may also be known as "Pistolet P1", "Pistole 1", "Pistol 1", "P-1", or "P38/P1".
- features include: fixed blade front sight on the barrel and a drift adjustable rear sight on the slide; blued round barrel; blued flat sided, open top steel slide with rear grip serrations; safety lever is mounted on the left hand side of the slide; black anodized aluminum alloy receiver/frame; exposed spur hammer, double/single action trigger mechanism; take-down lever, action release lever and lanyard loop are mounted on the left side of the receiver/frame; detachable box magazine release is located on the bottom of the rear grip strap, behind the magazine well; black checkered grip plates.

Manufacturer

- "Carl Walther Waffenfabrik Ulm/Do." may be marked on the left side of the slide.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number rationalization is unknown. - alpha/numeric serial number is marked on the side of the receiver/frame.
Barrel	- rifling characteristics: six grooves with a one in ten right hand twist. - early P1 barrels were machined one-piece assemblies, this design later changed to a two-piece unit with a hammer forged barrel liner insert.
Calibre	- calibre is marked on the left side of the slide.
Shots	- detachable box magazine.
Other Markings	- military issue firearms may be found with a NATO Stock Number located on the right side of the slide "1005-12-120-8168". These firearms will also be marked just rearward of the NATO Stock Number by a series of digits representing the date of manufacture. This marking consists of up to two numerals denoting the month of production, an oblique sign followed by two digits representing the year of manufacture. - example "4/59" denoting the fourth month of 1959.
Remarks	- this firearm is a post war update of the Walther model P38 of World War II. - this firearm is a locked breech, short recoil operated, semi-automatic handgun with a double action trigger mechanism and has a slide-mounted, thumb operated safety catch. - engaging the safety catch locks the firing pin and decocks the hammer, the sear is also rotated into a raised position that prevents the trigger bar and trigger from returning to the forward position. - the first shot is usually fired double action by a long trigger pull, subsequent shots are fired single-action unless the safety has been engaged between shots.

Model

- Introduced in 2001.
- "P22" was observed marked on the slide.
- Early examples may also be marked "First Edition" on the slide.
- In 2011, design changed to match Walther's "PPQ" model.
- Features include: interchangeable three dot sights with adjustable rear sight; front and rear cocking serrations; skeletonized hammer; accessory rail fitted to the underside of the forward portion of the receiver/frame; double action trigger mechanism; ambidextrous magazine release part of the squared trigger guard; loaded chamber indicator; internal trigger lock; polymer receiver/frame; textured grip with interchangeable backstrap.
- Finish options include a blued/black slide finish with a black receiver/frame on the standard P22, a military green receiver/frame with a black slide on the P22 Military (introduced in 2003) and a black receiver/frame with a nickel/silver slide on the P22 Nickel (introduced in 2003).
- The 127mm (5") barrel is threaded at the muzzle.
- Overall length with a 127mm (5") barrel is 198mm (7.8"), average weight is 567g (20 oz).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "CARL WALTHER ULM/DO." over "MADE IN GERMANY", or "SMITH & WESSON" over "SPRINGFIELD, MA U.S.A." may be marked on the right side of the receiver/frame. - "Carl Walther Ulm/Do" over "Made in Germany" and/or "SMITH & WESSON Springfield, MA U.S.A.", or "WALTHER ARMS FORTH SMITH, AR" may be marked on the right side of the slide.
Action	- blowback operated.
Serial Number	- Serial number is marked on the right side of the receiver/frame, visible through a window in the grip assembly. - Observed serial numbers consisted of a one letter or two letter prefix followed by six numbers. - The serial number may also be marked on other major components.
Calibre	- rifling characteristics: 6-grooves, 1 turn in 15.75 inch, right hand twist.
Shots	- detachable box magazine.
Importer	- as a result of a partnership formed in 1999, Smith & Wesson has since become the exclusive distributor of the Walther line of firearms in the United States.
Other Markings	- these pistols will normally bear German proof marks.

FRT Report

Firearm Reference Number (FRN): 55418
Make: Walther
Model: P38

Summary

Make:	Walther
Model:	P38
Manufacturer:	Ceska Zbrojovka (CZ)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	CZECHOSLOVAKIA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
55418 - 1	9MM LUGER	8	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WALTHER" is not marked on the firearm.

Model

- "P.38" is marked on the left side of the slide.
- may also be known as the CZ 46.
- features include: double action, blued receiver/frame and slide, exposed hammer, fixed sights, the safety is located on the left hand side of the slide, the magazine release is located on the bottom of the grip behind the magazine, the grips may be black plastic with a lanyard loop on the left side.

Manufacturer

- 3000 of these P38's were assembled by Ceska Zbrojovka in Prague Czechoslovakia from parts manufactured by Spreewerke (cyq or cvq).
- due to a broken die, many will be found with the manufacturer's code of "cvq". These are to be listed as "cyq" nonetheless.
- Czech proof marks are found on the top and bottom of the barrel and on the left side of the trigger guard (E with a rampant lion)
- the number 46 appears on the right side of the trigger guard indicating the year 1946 the final year of assembly.

Action

- recoil operated.

Serial Number

- the serial number is marked on left side of receiver/frame, above trigger guard.
- the serial number is also repeated on the slide and barrel.

Shots

- detachable box magazine.

Other Markings

- German proofmarks are an eagle with the number 88 below it.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this firearm is a locked breech, short recoil operated, semi-automatic handgun with a double action trigger mechanism and has a slide-mounted, thumb operated safety catch.
- engaging the safety catch locks the firing pin and decocks the hammer, the sear is also rotated into a raised position that prevents the trigger bar and trigger from returning to the forward position.
- the first shot is usually fired double action by a long trigger pull, subsequent shots are fired single-action unless the safety has been engaged between shots.

Notes

Make

- "WALTHER" is not marked on the firearm.
- this model was originally designed by the firm "Walther", it was also produced by several other manufacturers during World War II.

Model

- "P.38" and the manufacturer's code "byf" and an abbreviated year of manufacturer are usually marked on the left side of the slide.
- adopted as the official side arm of the German Military.
- features include: double action; matte or blued steel receiver/frame and slide; exposed hammer; fixed sights; the safety is located on the left side of the slide; serrations on the rear of the slide; the barrel is visible along the top of the slide; magazine release is located on the bottom of the grip behind the magazine; the grips may be black or brown plastic or bakelite with a lanyard loop on the left side of the grip base.

Manufacturer

- the "Mauser" manufacturer's code of "byf" is marked on the left side of the slide over the date of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- the serial number is marked on the left side of the receiver/frame and may be repeated on the slide. - all Mauser (byf) made P38 pistols were numbered in the German military style. - 1 to 4 digits usually followed by a script character, i.e. 1 to 9999, then 1a to 9999a, 1b to 9999b.
Shots	- detachable box magazine.
Remarks	- this firearm is a locked breech, short recoil operated, semi-automatic handgun with a double action trigger mechanism and has a slide-mounted, thumb operated safety catch. - engaging the safety catch locks the firing pin and decocks the hammer, the sear is also rotated into a raised position that prevents the trigger bar and trigger from returning to the forward position. - the first shot is usually fired double action by a long trigger pull, subsequent shots are fired single-action unless the safety has been engaged between shots.

Notes

Make

- "WALTHER" is not marked on the firearm.
- this model was originally designed by the firm "Walther", it was also produced by several other manufacturers during World War Two.

Model

- "P.38" and the manufacturer's code "svw" and an abbreviated year of manufacture "45" are usually marked on the left side of the slide.
- adopted as the official side arm of the German Military.
- features include: double action; matte or blued steel receiver/frame and slide; exposed hammer; fixed sights; the safety is located on the left side of the slide; serrations on the rear of the slide; the barrel is visible along the top of the slide; magazine release is located on the bottom of the grip behind the magazine; the grips may be black or brown plastic or bakelite with a lanyard loop on the left side of the grip base.

Manufacturer

- the "Mauser" manufacturer's code of "svw" is marked on the left side of the slide.
- Mauser began production in 1941-42, the original manufacturer's code for Mauser was "byf", "S42" and "42" changing to "svw" in early 1945.
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- recoil operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame and may be repeated on the left side of the slide.
- range from approximately 1c to 9999c, then 1d to 9999d, continuing to the mid "g" range.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this firearm is a locked breech, short recoil operated, semi-automatic handgun with a double action trigger mechanism and has a slide-mounted, thumb operated safety catch.
- engaging the safety catch locks the firing pin and decocks the hammer, the sear is also rotated into a raised position that prevents the trigger bar and trigger from returning to the forward position.

Notes

Make

- "Walther" is not marked on the firearm.
- this model was originally designed by the firm "Walther", it was also produced by several other manufacturers during World War II.

Model

- "P.38" is marked on the left side of the slide.
- this model was produced from 1943 to 1945.
- encountered with a variety of levels of finish from a high gloss blued finish to unfinished machine marks with little blueing.
- Spreewerke production did not follow the common German Service practice of stamping the year of production on the slide.
- features include: double action; matte or blued steel receiver/frame and slide; exposed hammer; fixed sights; the safety is located on the left side of the slide; serrations on the rear of the slide; the barrel is visible along the top of the slide; magazine release is located on the bottom of the grip behind the magazine; the grips may be black or brown plastic or bakelite with a lanyard loop on the left side of the grip base.

Manufacturer

- the "Spreewerk's" manufacturer code of "cyq" is marked on the left side of the slide.
- due to a broken die, many will be found with the manufacturer's code of "cvq". These are to be listed as "cyq" nonetheless.
- German military practice during World War II was to mark the manufacturers name as an alpha or numeric code to conceal the actual name and location of the manufacturer.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the left side of the receiver/frame and on the left side of the slide. - numbered in the German military style from 1 to 9999, then 1a to 9999a, 1b to 9999b and continuing. - a few will be found with A, B, or C, prefix letters and can also be found numbered 01 to approximately 09500. - Spreewerke is the only manufacturer to use a numerical code with five or six numbers, this practice started in March of 1945, so there were very few manufactured.
Calibre	- calibre may not be marked on the firearm.
Shots	- detachable box magazine.
Remarks	- this firearm is a locked breech, short recoil operated, semi-automatic handgun with a double action trigger mechanism and has a slide-mounted, thumb operated safety catch. - engaging the safety catch locks the firing pin and decocks the hammer, the sear is also rotated into a raised position that prevents the trigger bar and trigger from returning to the forward position. - the first shot is usually fired double action by a long trigger pull, subsequent shots are fired single-action unless the safety has been engaged between shots.

Notes

Make

- "WALTHER" in a banner and "Waffenfabrik Walther, Zella-Mehlis (Thur)" or "Carl Walther Waffenfabrik Ulm/Do" are marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 1938 and re-introduced in 1956. - "Mod. P39" or "P 38" is marked on the left side of the slide. - "P38" was originally introduced in 1938 by Walther and manufactured by Waffenfabrik Walther of Zella-Mehlis, Germany prior to 1945. - "P38" was re-introduced in 1956 by Walther and manufactured by Carl Walther Waffenfabrik of Ulm/Do, Germany. This firearm was the post-World War 2 commercial version of the P-38 military firearm. - in 1988 a long barrel version was produced by the factory in barrel lengths of 203MM, 178MM & 152MM. This sub-variant was produced in small numbers and was designated P-38 Lang (Long). - the small calibre version (22LR) of the P38 was first produced as a calibre conversion unit in 1963. Production of the 22LR calibre version of the P38 ceased in the "mid 1970's". - P38 pistols in calibre 22LR were first manufactured as complete firearms in 1967. - features include: fixed front sight is mounted on the barrel and a fixed rear sight is mounted on the slide; round, rifled barrel; barrel is visible along the top of the slide; flat sided, open top steel slide with left side mounted manual safety, and vertical rear grip serrations; aluminum or steel receiver/frame; exposed spur hammer; double/single action trigger mechanism; take-down lever and action release lever are mounted on the left side of the receiver/frame; detachable box magazine release is located on the bottom of the grip behind the magazine well; wood or black plastic grip plates; lanyard loop is mounted on the left side of the grip frame; matte black or blue metal finish.
Manufacturer	- "WALTHER" in a banner and "Waffenfabrik Walther, Zella-Mehlis (Thur)" or "Carl Walther Waffenfabrik Ulm/Do" are marked on the left side of the slide. - "Made in W. Germany" or "Made in West Germany" or "Made in Germany" may be marked on the slide or receiver/frame.
Action	- recoil operated. - the 22LR conversion unit and the 22LR calibre P38 firearm are both blowback operated.
Serial Number	- serial number may be marked on the left side of the receiver/frame above the trigger guard and/or on the side of the slide. - observed serial numbers consisted of six numbers without a letter prefix or suffix. - zeros are used for place holders in the serial number to produce a six digit serial number.
Barrel	- in 1988 a long barrel version was produced by the factory in barrel lengths of 203MM, 178MM & 152MM.
Calibre	- calibre may be marked on the receiver/frame, under the muzzel end of the barrel or on the left side of the slide.
Shots	- detachable box magazine.
Importer	- the importer/distributer may be marked on the right side of the slide as, "INTERARMS" over "ALEXANDRIA / VIRGINIA".
Canadian Law Comments	- Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states: "prohibited firearm" means (a) a handgun that (ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,
Other Markings	- early Walther production, 1939 to August 1940 were normally marked "Walther" inside a banner on the left side of the slide. - after August 1940 Walther made pistols were marked as "ac" or "480" in an attempt to conceal the manufacturers location.
Remarks	- this firearm is a locked breech, short recoil operated, semi-automatic handgun with a double action trigger mechanism and has a slide-mounted, thumb operated safety catch. - engaging the safety catch locks the firing pin and decocks the hammer, the sear is also rotated into a raised position that prevents the trigger bar and trigger from returning to the forward position. - the first shot is usually fired double action by a long trigger pull, subsequent shots are fired single-action unless the safety has been engaged between shots.

FRT Report

Firearm Reference Number (FRN): 37161
Make: Walther
Model: P38

Summary

Make:	Walther
Model:	P38
Manufacturer:	Walther (480)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
37161 - 5	9MM LUGER	8	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Walther" is not marked on the firearm.
- the manufacturer's code "480" for Walther is marked on the left side of the slide and may also be found on the receiver.

Model

- "P.38" is marked on the left side of the slide.
- the manufacture's code of "480" is marked on the left side of the slide.
- manufactured in Germany during 1940.
- features include: fixed sights; round barrel; flat sided, open top slide with rear gripping serrations; safety lever is located on the left side of the slide; P38 receiver/frame; exposed spur hammer; double/single action trigger mechanism; magazine release is located on the bottom of the grip behind the magazine; lanyard loop; black plastic grips with a cut out for the lanyard loop; blued finish.

Manufacturer

- the "Walther" manufacturer's code of "480" is marked on the left side of the slide and may also be found on the receiver/frame.
- the year of manufacturer may be marked next to the code or below it.

Action

- recoil operated.

Serial Number

- serial number is marked on the left side of the receiver/frame and may be repeated on the slide.
- serial number range is between 01 and 7200.

Shots

- detachable box magazine.

Other Markings

- "E/359" is marked on most parts.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this firearm is a locked breech, short recoil operated, semi-automatic handgun with a double action trigger mechanism and has a slide-mounted, thumb operated safety catch.
- engaging the safety catch locks the firing pin and decocks the hammer, the sear is also rotated into a raised position that prevents the trigger bar and trigger from returning to the forward position.
- the first shot is usually fired double action by a long trigger pull, subsequent shots are fired single-action unless the safety has been engaged between shots.

Notes

Make

- "WALTHER" in a banner and "Carl Walther Waffenfabrik Ulm/Do." is usually marked on the left side of the slide.

Model

- introduced in April 1974, production continued until 1981.
- approximately 2,600 examples were produced.
- "938 - K" is usually marked on the left side of the slide.
- "K" in the model designation indicates "Kurz" or "Short".
- "P38-K" variation of the P38 is exactly the same technical specification as the normal P38 except that it features a short barrel and a slide mounted front sight.

Manufacturer

- "WALTHER" in a banner and "Carl Walther Waffenfabrik Ulm/Do." is usually marked on the left side of the slide.

Action

- recoil operated.

Serial Number

- the serial number may be located on the left side of the receiver/frame above the trigger guard and on the left side of the slide.
- some examples have been observed with serial numbers found only on the slide.
- observed specimen serial numbers consisted of six digits without prefix or suffix.
- zeros are used for place holders in the serial number to produce a six digit serial number.
- serial numbers of the P38-K fall into a range from 500001 to 502595

Shots

- detachable box magazine.

Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23315 - 1	9MM LUGER	8	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is normally marked on the left side of the slide as "Walther" inside a banner followed by "Carl Walther Waffenabrik Ulm/Do.".

Model

- introduced in 1968.
- "P38/II" is marked on the left side of the slide.
- "P38/2" slide is thicker, with better slide contours and more vertical grooves cut into the rear of the slide.
- since the late 1960s the Walther P38 and the P1's, have incorporated the P38/2 slide, but not the P38/II markings.
- features include: double action trigger mechanism, blued receiver/frame and slide, exposed hammer, fixed sights, the safety is located on the left side of the slide, the magazine release is located on the bottom of the grip, the grips may be black plastic, and may have a laynard loop on the left side.

Manufacturer

- the manufacture is normally marked on the left side of the slide " Walther" inside a banner followed by "Carl Walther Waffenabrik Ulm/Do."and on the right side of the receiver/frame above the trigger guard "MADE IN WEST GERMANY".

Action

- recoil operated.

Serial Number

- the serial number is located on the left side of the receiver/frame above the trigger-guard. The serial number consists of six sequential numbers. Example 322305.
- the serial numbers for the P38/II began in the low 300,000 range.

Calibre

- the calibre designation is marked on the side of the slide.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer - the Interarms name and logo may be located on the right side of the slide as "INTERARMS" over "ALEXANDRIA, VIRGINIA".

Notes

Make

-"WALTHER" in a banner and "Carl Walther" over " Waffenfabrik Ulm/Do." is normally marked on the left side of the slide.

Model

-"P 5" is normally marked on the left side of the slide.
- introduced in 1978.
- features include: double action, blued alloy receiver/frame and steel slide, spurred hammer, fixed front sight with an adjustable rear sight, the decocking lever is located on the left side of the receiver/frame, serrations on the rear of the slide, and may have black plastic grip panels.
- a 9MM PT calibre conversion unit was available for this firearm model starting in 1984.

Manufacturer

-"WALTHER" in a banner and "Carl Walther" over " Waffenfabrik Ulm/Do." is normally marked on the left side of the slide.
- "MADE IN GERMANY" may be marked on the right side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- the serial number is marked on the left side receiver/frame above the trigger as sequential numbers. An observed sample has six numbers. - the complete serial number may also be found marked on the left side of the slide and a partial serial number may be found marked on other components.
Barrel	- in 1988 a 135mm barrel was introduced for the P5, may be known as the P5 Long. - a 9MM PT calibre conversion unit was available for this firearm model starting in 1984.
Calibre	- the calibre designation is normally marked below the muzzel. Example "9mm x 19".
Shots	- detachable box magazine. - magazines are similar to the magazine for the P-38 pistol but do not interchange.
Importer	- the importer/distributor is normally marked on the right side of the slide as, "INTERARMS-ALEXANDRIA".
Canadian Law Comments	- Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states: "prohibited firearm" means (a) a handgun that (ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,
Remarks	- a 9MM PT calibre conversion unit was available for this firearm model starting in 1984.

Notes

Make

- the "WALTHER" name/banner is marked on the left side of the slide and on both sides of the grip.

Model

- introduced in 1996.
- "P99" is marked on the left side of the slide.
- "P99" model has a single or double action trigger mechanism.
- "P99" model is available with a black or green polymer receiver/frame.
- features include: adjustable sights; engraved flat sided steel slide with slated rear grip serrations, loaded chamber indicator, and cocked striker indicator; polymer receiver/frame with an integral equipment rail and interchangeable back strap; striker fired; de-cocking lever is flush mounted on the left side of the slide; ambidextrous magazine release; action release is located on the left side of the receiver/frame; two tone finish.
- overall length is 180 mm, overall height is 135mm, and average weight is 700 grams.
- "P99" model is also available in various grades of engraving and gold inlays, the grade "I" features an Arabesque engraved slide, the grade "II" features gold highlights and the grade "III" features Arabesque engraving with gold inlays.

Manufacturer

- the "WALTHER" name/banner is marked on the grips.
- "CARL WALTHER ULM/DO." marked on the left side of the receiver/frame.
- "MADE IN GERMANY" may be marked on the right side of the receiver/frame just above the trigger.

Action

- recoil operated.

Serial Number

- the serial number is marked on the rear of the receiver/frame and may be repeated on the left side of the slide and on the barrel.
- the serial number observed with or without a letter prefix and four or more numbers.

Calibre

- marked on the barrel, visible through the ejection port.

Shots

- detachable box magazine.

Importer

- as a result of a partnership formed in 1999, Smith & Wesson has since become the exclusive distributor of the Walther line of firearms in the United States.
- marked on the right side.

Remarks

- recently Walther has entered a partnership with Smith & Wesson to market the Walther P99 as the Smith & Wesson Model SW99.

Notes

Make

- the "WALTHER" name/banner is marked on the left side of the slide and on both sides of the grip.

Model

- "P99" over "Commemorative for the year 2000" is marked on the left side of the slide.
- limited manufacturer of 1,000 units in 9MM LUGER and 1,000 units in 40 S&W.
- features include: adjustable sights; engraved flat sided steel slide with slated rear grip serrations, loaded chamber indicator, and cocked striker indicator; polymer receiver/frame with an integral equipment rail and interchangeable back strap; striker fired; de-cocking lever is flush mounted on the left side of the slide; ambidextrous magazine release; action release is located on the left side of the receiver/frame; two tone finish.
- overall length is 180 mm, overall height is 135mm, and average weight is 700 grams.

Manufacturer

- the "WALTHER" name/banner is marked on the grips.
- "CARL WALTHER ULM/DO." and "MADE IN GERMANY" may be marked on the right side of the receiver/frame just above the trigger.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is marked on the rear of the receiver/frame and may be repeated on the left side of the slide and on the barrel.
- the serial number consists of a number prefix of "2000" and four sequential numbers and a number suffix of "2000", eg. "2000 0001 of 2000" and "2000 1202 of 2000".

Shots

- detachable box magazine.

Notes

Make

- the "Walther" banner logo is marked on the slide and bottom portion of the grips.

Model

- this model is one of many variations of the model "P99" offered by Walther.
- "P99 AS" is marked on the left side of the slide.
- this model is equipped with what Walther terms an "Anti Stress" trigger mechanism that keeps the trigger in the forward position for the first "double action" shot and subsequent 'single action" shots. Although the trigger remains in the same position the required trigger movement is reduced from 0.551" for double action shots to 0.314" for single action shots. This mechanism is intended to help reduce unintentional "reflex" firing while under stress.
- features include: polymer receiver/frame with a steel slide; striker fired; flush mounted de-cocking lever on the slide; 3-dot adjustable sights.

Manufacturer

- the Carl Walther name and "ULM/DO" are moulded into the side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- serial number rationalisation unknown. - serial number is marked on the rear of the receiver/frame. - sample examined with three letter prefix followed by four numbers.
Calibre	- the calibre designation is marked on the right side of the barrel's chamber area.
Shots	- detachable box magazine housed in the grip.
Importer	- as a result of a partnership formed in 1999, Smith & Wesson has since become the exclusive distributor of the Walther line of firearms in the United States.

Make: Walther
Model: Panther

Summary

Make:	Walther
Model:	Panther
Manufacturer:	Walther
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	GERMANY
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
40208 - 1	177 PELLET	1	450	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this is a fairly recent (production began in 1994) Walther break-barrel air rifle, built primarily for sport or field shooting.
- it has an anatomical stock design with a vertical pistol grip, adjustable comb and buttplate.
- these rifles have adjustable open sights and the receiver is also grooved for scope mounts.

Manufacturer

- Walther is a German manufacturer that has been making firearms since 1886, first at Zella-Mehlis in eastern Germany, then at Ulm-Donau in West Germany after the country was partitioned by the Soviets during World War Two; they are particularly known for their handguns, but also make match-grade air rifles and air pistols, as well as small-bore target rifles and hunting rifles.

Action

- spring-piston break-barrel design.
- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Other Markings

- may have importers name or mark stamped on the receiver or barrel.

Remarks

- Walther is a German manufacturer that has been making firearms since 1886.
- the first Company address was at Zella-Mehlis in eastern part of Germany. The Zella-Mehlis production ceased with the end of WW II in May of 1945.
- the factory then moved to Ulm-Donau in West Germany after the original factory location was incorporated into East Germany by the Soviets after World War II.
- Walther is particularly known for their handguns, but they also manufacture match-grade air rifles and air pistols, as well as small-bore target rifles and hunting rifles.
- recently Walther has entered a partnership with Smith & Wesson to market the Walther P99 as the Smith & Wesson Model 99.
- recently Walther has entered a partnership with Russian Air-Gun manufacturers. Walther purchases Russian Air-Guns (mostly pistols at this time [1999]), refinishes the firearm and engraves the Walther Banner trade-mark upon the firearm, selling them as "Walther" firearms.

Notes

Make

- the production of this firearm is licenced to Manurhin by Walther and is a faithful reproduction of a Walther Model PPK.
- the Manurhin name and logo are marked on the firearm as well as "LIC. EXCL WALTHER".

Model

- the model designation is marked on the left side of the slide.
- features include: blued finish; brown plastic grip panels; magazine release button is located on the left side of the receiver/frame to the rear of the trigger; slide mounted safety/decocking lever.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "MANUFACTURE DE MACHINES DU HAUT-RHIN" followed by the "MANURHIN" logo and "MADE IN FRANCE" are marked on the side of the slide. - Manufacture de Machines du Haut Rhin (MANURHIN) was in business at Mulhouse, Alsace, France from the 1950s to 1998. - MANURHIN was purchased by Chapuis Armes of Saint Bonnet Le Chateaux, France in 1998.
Action	- blowback operated.
Serial Number	- serial number is marked on the right side of the receiver/frame.
Calibre	- caliber designation is marked on the left side of the slide.
Shots	- detachable box magazine.
Other Markings	- the FRANKONIA marking on the left side of the receiver is consistent with German law and identifies the initial vendor in Germany, Waffen Frankonia.

Notes

Make

- the "Walther" banner is marked on the left side of the slide and may be repeated on the grips.
- "Walther's Patent" may be marked on the slide (pre 1945).

Model

- "Modell PPK" or "Mod. PPK" is normally marked on the left side of the slide.
- introduced in 1931.
- manufactured between 1931 and 2001.
- "PPK" is for "Polizei Pistole Kriminal".
- features include: a blued or stainless steel receiver/frame, double action trigger mechanism, magazine release button located on left side of receiver/frame behind trigger guard, safety catch is located on left rear of slide, trigger guard is hinged to the receiver/frame and is utilized to lock the slide to the receiver/frame.

Manufacturer

- "Carl Walther Waffenfrabrik Zella-Mehlis (Thur)" is marked on the left side of the slide (pre May 1945).
- "Carl Walther Waffenfrabrik ULM/Do." is marked on the left side of the slide (post May 1945).
- "Made in W. Germany" marked on the receiver/frame or slide (post May 1945).

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- the serial number is marked on the right side of the receiver/frame behind the trigger.
- the serial number may also be marked on the right side of the slide.
- the Walther PPK was first introduced with a sequential serial number range starting at approximately 757800. When the serial numbers reached 1,000,000, Walther then added a "K" suffix to the serial number.The letter "A" has also been observed as a suffix. The new serial number sequence began at 100000K. By mid 1945, the serial numbers for the Walther PPK had reached approximately 433000K.
- "A" suffix identify 9mm Short version made in Ulm Germany starting in 1955.
- "LR" suffix identify target-calibre version made in Ulm Germany starting in 1955.

Calibre

- the calibre designation is normally marked on the left side of the slide, example: "Cal. 22" or "Cal. 7.65mm" or "Cal. 9mm kurz".

Shots

- detachable box magazine.

Notes

Make - "Walther" is marked inside a banner on the left side of the slide and on both grips.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Modell PPK-L" is marked on the left side of the slide. - the Model PPK-L is produced for the European market, the only differences from the standard PPK or the PPK-S being the model designation and wrap around plastic grips. - double action, semi-automatic, blowback operation. - magazine release button located on left side of receiver/frame behind trigger guard. - swivel-type safety located on left rear of slide. - trigger guard is hinged to the receiver/frame and is utilized to lock the slide to the receiver/frame. - two piece wrap around plastic grips.
Manufacturer	- "Carl Walther Waffanfabrik Ulm / Do" is marked on the left side of the slide.
Action	- blowback operated.
Serial Number	- the serial number is marked on the right side of the receiver/frame just behind the trigger and should be repeated on the slide below the ejection port. - examples observed utilized a sequence of six numbers.
Calibre	- the calibre designation is marked on the left side of the slide. - may also be marked on the barrel, visible through the ejection port.
Shots	- single column, detachable box magazine. - magazines may or may not have finger extensions.

86815 - 2	9MM BROWNING SHORT	7	86	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the "Walther" name/banner is marked on the left side of the slide.

Model

- "Modell PPK/E" is marked on the left side of the slide.
- introduced in 2000.
- features include: blued receiver/frame, double action trigger mechanism, magazine release button located on left side of receiver/frame behind trigger guard, exposed hammer, safety catch located on left rear of slide, trigger guard is hinged to the receiver/frame and is utilized to lock the slide to the receiver/frame, and fixed sights.
- the PPK/E holds one more cartridge than the PPK due to the longer receiver/frame.

Manufacturer

- "Carl Walther Waffenfrabrik ULM/Do." is marked on the left side of the slide.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the right side of the receiver/frame, rationalization unknown.
Calibre	- the calibre is marked on the left side of the slide, example: " Cal. 32 ACP ".
Shots	- detachable box magazine.
Remarks	- reliable references report that the PPK/E is manufactured in Hunary by FEG under licence for Walther. Catalog numbers translate as follows: - VAP34403 - 380 AUTO calibre. - VAP34402 - 32 AUTO calibre. - VAP34401 - 22 LR calibre. - Walther catalogs of the year 2000 specify that the magazine capacity in 22 LR calibre is 8 shots. Traditionally the magazine capacity of the PPK in 22 LR calibre has been 10 shots. It is not clear whether the magazine capacity of 8 shots in 22 LR calibre in this catalog is a typo error or if a radical departure in magazine capacity has been instituted with the PPK/E model.

Notes

Make

- the "Walther" banner appears on the left side of the slide.

Model

- introduced in 2000.
- the internal valve system forces the slide back during each shot.
- model designation is marked on the left side of the slide as "Modell PPK/S" or on an observed example as "Model PPK/S".
- features include: blued or nickel finished receiver/frame; exposed hammer; double and single action trigger mechanism; fixed sights. This firearm is designed to work and look like the Walther PPK/S.

Manufacturer

- although marked on the left side of the slide above the trigger guard as "Carl Walther Waffenfrabrik ULM/Do" or on an observed example as "Carl Walther/Germany for Crosman", this pistol is actually manufactured and assembled in Japan by Maruszan.

Action

- CO2, blowback operated.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number on an observed example was marked on the right side of the slide and consisted of an alpha/numeric prefix followed by five numbers.

Calibre

- designed to fire .177 calibre BB shot only.
- calibre designation is marked on the left side.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer - marked on the right side.

Other Markings - "Made in Japan" is marked on the right side of the slide along with the manufacturer's safety warning.

Notes

Make

- "WALTHER" in a banner logo form was observed, on a referenced example, marked on the left side of the slide and on the bottom hinged plate.

Model

- introduced in 2011 as the "PPQ" but early observed examples were marked "P99 Q".
- "PPQ" was observed, on a referenced example, marked on the left side of the slide, on both sides of the grips and on the bottom hinged plate.
- marketed as an airgun copy of the Walther model PPQ firearm.
- "PPQ" is a CO2 powered, BB and pellet handgun.
- features include: fixed front sight and adjustable rear sight; round rifled metal barrel; integral accessory rail located on the underside of the forward portion of the receiver/frame; hammerless; slide release located on the left side of the receiver/frame; manual safety located on the right side of the receiver/frame; CO2 cartridge is housed in the grip frame; double action trigger mechanism; black polymer receiver/frame and metal slide; grip with finger grooves; black finish.
- overall length with a 84mm (3.3") barrel is 180mm (7.1"), average weight is 0.61kg (1.35 lbs).

Manufacturer

- "UMAREX USA" over "FORT SMITH,AR" was observed, on a referenced example, marked on the right side of the slide.

Action

- CO2 powered.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- an alpha/numeric serial number was observed, on a referenced example, marked at the back of the receiver/frame.

Calibre

- "cal..177/4,5mm" was observed, on a referenced example, marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- rotary disc magazine.
Canadian Law Comments	- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "WALTHER" banner logo was observed marked on the left side of the slide.
- "CARL WALTHER" over "ULM/DO" was observed marked on the left side of the receiver/frame.

Model

- manufactured in 2011 and 2012.
- "PPQ" was observed marked on the left side of the slide and on the bottom of the grip.
- "PPQ" is an acronym for "Police Pistol Quick Defence".
- "PPQ" is a semi-automatic, striker fired pistol.
- "PPQ" model was replaced by the "PPQ M2" in 2013.
- features include: round barrel with or without a threaded muzzle and thread protector cap; fixed front and an adjustable rear sight with white dots; flat sided steel slide with right side ejection, and forward and rear grip serrations; polymer receiver/frame with MIL-STD-1913 accessory rail; extended ambidextrous slide lock; square front trigger guard; trigger safety; ambidextrous, paddle-type magazine release integrated into trigger guard; textured hand grip with interchangeable grip back strap; lanyard loop; black finish.
- overall length is from 180mm to 185 mm, overall height is 135 mm, and average weight is 800 grams.
- "SMITH & WESSON" over "SPRINGFIELD MA" is marked on the right side of the slide. These firearms are distributed exclusively by Smith and Wesson in the United States.

Manufacturer

- "WALTHER" banner logo was observed marked on the left side of the slide.
- "CARL WALTHER" over "ULM/DO" was observed marked on the left side of the receiver/frame.

Action

- recoil operated.

Serial Number

- serial number is marked on a metal insert imbedded into the back of the receiver/frame over the grip.
- serial number is also repeated on the barrel and slide at the ejection port area.
- observed serial numbers consisted of a three letter "FAL" prefix and four numbers.

Calibre

- calibre designation is marked on the barrel breech.

Shots

- detachable box magazine.

Notes

Make

- "WALTHER" in a banner and "PPS" are marked on the left side of the slide.
- "WALTHER" in a banner is marked on both sides of the grip.
- Walther is a German manufacturer that has been making firearms since 1886, first at Zella-Mehlis (in what became East Germany), then at Ulm-Donau (in what became West Germany) after the country was partitioned at the end of World War II.
- they are particularly known for their handguns, but also make match-grade air rifles and air pistols, as well as small-bore target rifles and hunting rifles.

Model

- introduced in 2014.
- "WALTHER" in a banner and "PPS" are marked on the left side of the slide.
- "PPS CO2 BB Pistol" is made to resemble the actual Walther PPS pistol.
- "PPS" stand for "Polizei-Pistole Schmal " or "Police Pistol Slim".
- "PPS" is a semi-automatic, blowback operated, CO2 powered, BB pistol.
- features include: fixed sights; round smoothbore metal barrel; flat sided slide with rear grasping serrations; black polymer receiver/frame with an integral equipment rail and stippled grip with finger grooves; interchangeable blackstrap that give access to the CO2 capsule; slide release is located on the left side of the receiver/frame; single action trigger mechanism; cross bolt safety is mounted on the trigger; ambidextrous magazine release is located at the rear of the trigger guard.
- overall length with a 76 mm (3") barrel is 161 mm (6.375"), and the average weight is 0.544 kg (1.2 lbs).

Manufacturer

- "UMAREX" is marked on the right side of the firearm.
- "MADE IN TAIWAN" is also marked on the right side of the firearm.

Action

- CO2 powered.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the right side of the slide.
- serial number observed consisted of two numbers, a letter "L", and five numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

127867 - 1	22 LR	10	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the "WALTHER" logo is found on the side of the slide and lower grip.

Model

- introduced in 2008.
- "SP22" is marked on the side of the receiver/frame. Sub model designations "M1", "M2", "M3" and "M4" may also be present.
- this model has a three-piece receiver/frame consisting of the left and right side plates and the housing (slide cover).
- this is a modular design handgun available in numerous configurations.
- features include: high strength aluminum receiver/frame housing available in short or long action; standard or match grade barrels; push button safety; loaded chamber indicator; cocking indicator; integrated gun lock in the magazine catch; quick release magazine catch is available; two stage or adjustable match trigger; standard magazine safety; ambidextrous cocking lever on the side of the receiver/frame; interchangeable large and small wooden target grips or polymer grips; sight rail with adjustable fibre-optic blade rear and adjustable triangular post front sights; short or long, top or bottom mounted picatinny rails to mount factory barrel weights, optical sights or lasers. Where permitted a barrel adapter and sound suppressor is also available.
- overall length with a 152mm (6") barrel is 260mm (10.25") average weight is 920 grams (2 lbs).

Manufacturer

- "Carl Walther Um/Do" is marked over "Made in Germany" on the side of the receiver/frame.

Action

- blowback operated.

Serial Number

- the serial number is found on the undersurface of the receiver/frame, in the trigger guard above the trigger, visible through a window in the polymer hand grip.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine.
Canadian Law Comments	- the component that supports the barrel and to which the grip/trigger guard is attached and is typically marked with the serial number is usually deemed the receiver/frame in Canada.

127464 - 1	380 REV SHORT CF	5	125	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WILLM WALTON, BURNLEY" was marked on the top strap of an observed example.

Model

- "THOMAS'S PATENT NO. 779" may be marked on the left side of the receiver/frame.
- British Patent Number 779 was granted to John Thomas on March 13, 1896.
- John Thomas was a manager for the firm of Tipping & Lawden.
- 1,200 revolvers were manufactured under license from Thomas from 1870 to 1877.
- features include: blued finish; round barrel with octagonal shroud; solid top receiver/frame; right side mounted, hinged loading gate; external spurred hammer; saw handle, checkered, wood grips; lanyard loop.
- NOTE: the lever on the right side of the receiver/frame unlocks the barrel and cylinder. A knob mounted under the barrel rotates to the left and is then pushed forward. As the cylinder moves forward the cartridge cases are pulled from the cylinder by a fixed ejector plate.
- John Thomas was granted British patent No. 779 in 1869 for a self extracting revolver; No. 324 in 1870 and No. 3091 in 1871 fo a Wedge Bolt action; and No. 3548 in 1874 with T.T. Lawden.

Manufacturer

- manufacturer's name may not be marked on the firearm.
- Thomas Tipping-Lawden was located at Legge Street, Birmingham, England in 1821.
- Thomas Tipping-Lawden moved to 40 Constitution Hill, Birmingham in 1828.
- Caleb & Thomas Tipping-Lawden formed a partnership known as "Tipping & Lawden" in 1837.
- Tipping & Lawden traded from 40 and 41 Constitution Hill and 18 Buckingham Street in Birmingham.
- Tipping & Lawden also had facilities in London, England at Cheapside from 1837 to 1840, 18 Pancras Lane in 1842, 9 Dyers Buildings, Holborn in 1843, 20 Barlett's Buildings from 1844 to 1851, 26 Barlett's Buildings from 1852 to 1854, and 17 Woodstock Street from 1871 to 1877.
- Tipping & Lawden was sold to P.Webley & Son in 1877.

Serial Number

- serial number was observed marked on the left side of the receiver/frame, below "THOMAS'S PATENT NO. 779". Do not confuse the patent number "779" as the serial number.
- observed serial number was prefixed by "No.", example "No. 366".

Firearm Reference Number (FRN): 23325
Make: Wamo
Model: Powermaster

Summary

Make:	Wamo
Model:	Powermaster
Manufacturer:	Wamo Manufacturing Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23325 - 1	22 LR	1	120	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "WAMO MFG. CO." is marked on the right side of the slide.
Model	- "POWERMASTER" is marked on the left side of the receiver/frame. - this is a "target" or "sporter" styled single-shot 22 LR pistol made by the Wamo Manufacturing Company (of San Gabriel, California) between 1956 and the late 1960's. - features include: two-piece die-cast construction with a machined barrel/chamber; adjustable open sights; plastic thumbrest grips and an odd blowback automatic ejecting mechanism. - to load this pistol, the shooter draws back the bolt handle, exposing the chamber; this simultaneously cocks an internal striker, leaving a striker rod exposed at the rear of the pistol. The shooter would then place a live round in the chamber and close the bolt on that round. Pulling the trigger would fire the pistol, which would open the bolt and extract the fired case where it would be pushed out of the action by a spring in the bottom of the feed-way.
Manufacturer	- "WAMO MFG. CO." over "SAN GABRIEL, CALIF." over "PATS. PEND. " is marked on the right side of the slide.
Serial Number	- serial number is marked on the left side of the receiver/frame.
Calibre	- calibre designation is marked on the left side of the receiver/frame.

124388 - 1	300 ROOK	1	667	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- known example was marked "Wm. Wanless" on the rear right side of the barrel with the address marked on the left side of the barrel as "22 Norfolk St. Sunderland".

Model

- "Rook Rifle" is not marked on the firearm.
- "Rook Rifle" model designation was used in the United Kingdom in refers to the intended purpose of a small, single shot, lightweight sporting rifle normally used for rabbit, crow, or vermin control.
- "Rook Rifle" was also known as a 'Garden Rifle', 'Rabbit Rifle', or 'Pest/Vermin Rifle'.
- "Rook Rifle" may be found with a number of different types of actions including but not limited to break open (hinged barrel design), falling block or Martini-type.
- features may include: blued octagonal barrel; blued or case-hardened front hinged top break receiver/frame; top tang break open lever or a side mounted break open lever; exposed hammer or hammerless; single trigger; walnut forearm and full pistol grip buttstock; varying degrees of engraving and stock checkering.

Manufacturer

- known example was marked "Wm. Wanless" on the rear right side of the barrel with the address marked on the left side of the barrel as "22 Norfolk St. Sunderland".
- William Wanless was a British firearms manufacturer located in Sunderland, England; the firm was established circa 1900 and was listed until 1927.
- the business had the following addresses; 22 Thomas Street, 20 Norfolk Street, 22 Norfolk Street, 12 Waterloo Place.

Action

- hinged barrel design.

Serial Number

- known example did not have a serial number.

Other Markings

- British proofmarks will be apparent on the barrel and/or receiver/frame.

Summary

Make:	Wanzel
Model:	1867 Carbine
Manufacturer:	Austrian State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	AUSTRIA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
67784 - 1	13.9MM WANZEL RF	1	650	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Wanzel, Waenzel, Waenzl, or Wanzl is not marked on the firearm.
- Wanzel's breech block system was designed by Austrian gunsmith and designer Franz Wanzel.
- Wanzel coversion was carried out at the Austrian State Arsenals in Graz, Steyr and Wien, and by private subcontractors.

Model

- conversion of an earlier manufactured muzzle loader to metallic cartridge breechloader.
- conversion entailed removing a portion of the rear of the muzzle loaders barrel and screwing on a Wanzel breech loading mechanism while retaining the original lock and hammer.
- Wanzel system utilises a forward hinging breech block (similar to the U.S. 1866, 1870 and 1873 "trapdoor" system) with an enclosed rimfire firing pin.
- barrel is octagonal in section to within 130mm of the muzzle.
- bayonet mounting lug on right side of the barrel.
- 1867 Carbine has no barrel bands while the 1867 Infantry Rifle has two barrel bands and a removeable nose band which encircles the barrel.
- overall length is 1,100 mm and average weight is 4.3 kgs.

Manufacturer

- Austrain State Arsenal's initials are usually marked on the top of the barrel, in front of the breech.
- Austrian State Arsenals in Graz (G), Steyr, and Vienna (W) converted muzzle loaders to use the Wanzel's breech block system between 1867 and circa 1869.
- the original manufacturer's name of the muzzle loader may be marked on the breech plug, such as: L. Bentz, Dollman, Greiner - M, Karl Haiser, Rischawy, Theresia of Zeilinger, Weitzer of Graz, and Werndl.

Action

- Wanzel system utilises a forward hinging breech block (similar to the U.S. 1866, 1870 and 1873 "trapdoor" system) with an enclosed rimfire firing pin.

Other Markings

- the original date of manufacture of the muzzle loader which was converted by Wanzel's system to breech loading appears on the lockplate as the last three digits of the year (857 is 1857).

Notes

Make

- Wanzel appears on only those firearms converted in Wanzel's shop in Wien.
- Wanzel, Waenzel, Waenzl, or Wanzl is not marked on the firearm.
- Wanzel's breech block system was designed by Austrian gunsmith and designer Franz Wanzel.
- Wanzel coversion was carried out at the Austrian State Arsenals in Graz, Steyr and Wien, and by private subcontractors.

Model

- conversion of earlier manufactured muzzle loaders to metallic cartridge breechloader.
- conversion entailed removing a portion of the rear of the muzzleloading barrel and screwing on a Wanzel breech loading mechanism while retaining the original lock and hammer.
- Wanzel system utilises a forward hinging breech block (similar to the U.S. 1866, 1870 and 1873 "trapdoor" system) with an enclosed rimfire firing pin.
- overall length is 1.335 mm and average weight is 4.5 kgs.

Manufacturer

- Austrain State Arsenal's initials are usually marked on the top of the barrel, in front of the breech.
- Oesterreichische Waffenfabriks Gesellschaft, Steyr converted approximately 70,000 Lorenz muzzle loading rifle-muskets to use the Wanzel's breech block system between 1867 and circa 1869.
- the original manufacturer's name of the muzzle loader may be marked on the breech plug, such as: L. Bentz, Dollman, Greiner - M, Karl Haiser, Rischawy, Theresia of Zeilinger, Weitzer of Graz, and Werndl.

Action

- Wanzel system utilises a forward hinging breech block (similar to the U.S. 1866, 1870 and 1873 "trapdoor" system) with an enclosed rimfire firing pin.

Other Markings

149414 - 1	13.9MM WANZEL RF	1	218	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	

Notes

Make

- the make is not marked on the firearm; this make is derived from Franz Wanzel/Wanzl, a Viennese gunsmith who developed a method for converting 1854 Lorenz muzzle-loaded rifles to breech-loading format in 1867. This conversion was adopted as an interim measure while Austro-Hungary's armed forces were converting to the Werndl breech-loading system, and saw service up to the First World War, in use by rear guard troops.

Model

- the model is not marked on the firearm; this is a description of the action type.
- this is a single-shot pistol based on the 1867 Wanzel/Wanzl patent for converting percussion muzzle-loaded firearms to breech-loaded rimfire single-shot firearms. This conversion was officially adopted by the Austro-Hungarian Empire in 1867 as a stopgap measure while converting from the Lorenz muzzle-loaded percussion rifle, and converted firearms saw second-line use up until the First World War.
- features include: typical "Wanzel/Wanzl" breech mechanism, with a Springfield Trapdoor-style lift-over breech-block; blued finish; octagonal barrel; open fixed sights; a carved wooden pistol-grip of percussion target or duelling pistol style; and may be seen engraved or with precious metal inlays.

Action

- breech-loaded rimfire single-shot.

Notes

Make

- "LEVITT'S PATENT" over "MANd BY WARNER & WESSON HARd, Ct." is marked on the topstrap.
- "Warner & Wesson" was a partnership between Thomas Warner and Daniel Baird Wesson or Edwin Wesson.
- "Warner & Wesson" was based in Hartford, Connecticut, U.S.A. circa 1849.
- "Warner & Wesson" produced revolvers under Daniel Leavitt's patents for a percussion revolver.

Model

- manufactured circa 1849.
- "WESSON'S & LEAVITT'S PATENT" is marked on the topstrap of the firearm.
- this is a version of the Massachusett's Arms Company's Wesson & Leavitt Patent.
- this is a sidehammer back-action percussion revolver made under Wesson's and Leavitt's patents for a revolver.
- features include: blued/colour-case-hardened finish; round barrel; fixed sights; a hinged top-strap; nipples inset into the rear edge of the cylinder at an angle; a manually-cocked hammer on the right side of a back-action lockplate; and a brass grip-cap (this grip-cap being one of the major identifying differences between the earlier warner & Wesson and the later Massachusetts Arms models).

Manufacturer

- "MANd BY WARNER & WESSON HARd, Ct." is marked on the topstrap.
- "Warner & Wesson" was located in Hartford, Connecticut, U.S.A. circa 1849.
- "Warmer & Wesson" was a partnership betweem Thomas Warner and Edwin Wesson.

Barrel

- barrel lengths can vary widely in this model.

67985 - 1	7.65MM	8	106	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- was formed circa 1909 and ceased existence in 1919.

Model

- model designation may appear as follow; " WARNER AUTOMATIC PISTOL" , on left or right side of slide.
- hammerless, fixed front blade, notched rear sight.
- hard rubber grip with Warner Arms Co crest molded in it, (WAC interlaced).
- blow-forward action, without grip safety.
- this was a variant of the Schwarzlose pistol apparentely assembled in the USA from parts imported from Germany circa 1911-13. The Warner version differences remain in replacing the sliding type safety by a conventional turning thumb, the finger grips on the slide are rolled die hatching instead of milled groove, and the omission of the grip safety.
- some specimen may bear both company names reading on right side of frame;
"A.W. SCHWARZLOSE G.M.B.H. BERLIN PAT'D APR 13 AND AUG 24 1909", and below
"WARNER ARMS CORPORATION BROOKLYN, N.Y. USA".

Manufacturer

- "Warner Arms Corporation (WAC)" was formed in Brooklyn, New York, U.S.A. circa 1909.
- "Warner Arms Corporation (WAC)" moved to Norwich, Connecticut, U.S.A. in 1913.
- "Warner Arms Corporation (WAC)" merged with N.R. Davis & Sons of Assonet, Massachusetts, U.S.A. to become "Davis-Warner Arms Corporation" in 1917.
- Davis family withdrew from "Davis-Warner Arms Corporation" in 1919.
- "Warner Arms Corporation" then moved back to Norwich, Connecticut, U.S.A.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blow-forward action.
Serial Number	- usually located on the right side directly under the finger grip.

Notes

Make

- "H. WARNER" or "HORACE WARNER" is usually marked on the firearm.
- Horace Warner was a gunmaker in Syracuse, New York (as well as other locations in Pennsylvania), during the mid-to-late 1800s, who was known primarily for his percussion target and hunting guns. Warner was a Civil War sharpshooter who went into the gun trade after the war, and he was in a partnership with William V. Lowe (as "Warner & Lowe") from 1887-88.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is an octagonal-barrel percussion target rifle manufactured by Horace Warner prior to 1893.
- may be seen in underhammer, standard side-hammer or "mule ear"-style ignition system.
- features may include: browned or blued finish; open fine-screw-adjustable tang sights (may also be seen with early "tube"-style optical sights); octagonal barrel; straight-grip walnut stock (butt only) with iron, German silver or brass finishings; external manually-cocked hammer; single or double-set triggers; and a crescent butt.

Manufacturer

- "H. WARNER" or "HORACE WARNER" is usually marked on the firearm.
- Horace Warner was a gunmaker in Syracuse, New York (as well as other locations in Pennsylvania), during the mid-to-late 1800s, who was known primarily for his percussion target and hunting guns. Warner was a Civil War sharpshooter who went into the gun trade after the war, and he was in a partnership with William V. Lowe (as "Warner & Lowe") from 1887-88.

70791 - 1	56-50 SPENCER RF	1	508	Antique AFR, Section 1, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- designed by James Warner.
- appears on the left side of the receiver as "JAMES WARNER, SPRINGFIELD, MASS. / WARNER'S / PATENT.

Model

- exposed central hammer, hinged (at right) breechblock, metallic cartridge breech loader
- brass receiver and breechblock.
- sliding extractor located on underside of forearm.
- American walnut buttstock and separate forearm retained by single barrel band.

Manufacturer

- manufactured by Massachusetts Arms Company, Springfield, Massachusetts under contract by James Warner.
- Massachusetts Arms Company's name does not appear on the firearm.
- approximately 1500 manufactured circa 1864.

116695 - 1	41 SHORT RF	1	70	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make not marked on firearm.

Model

- this is a single-shot breech loading derringer based on James Warner's idea for a pivoting side hinged breech block (very similar to the Snider; the same idea was also used in some of Warner's rifle designs).
- features include: brass receiver/frame, blued barrel, bird's head butt, exposed hammer, spur trigger and walnut grips; this design has a breech block that lifts up and rotates to the left, with a firing pin contained in the breech block.
- all known examples of these derringers are unmarked, but specimens have been observed with factory engraving.

Manufacturer

- James Warner was an American gunsmith/designer based in Massachusetts during the mid to late 1800's; he built both rifles and handguns, and his firearms may be marked either "JAMES WARNER" or "WARNER'S PATENT".

Notes

Make

- make marked as either "JAMES WARNER" or "WARNER'S PATENT".

Model

- this is any one of several types of single action revolving rifles built by James Warner during the 1840s and 1850s; these rifles were built to compete with the Colt revolving rifles of the same period. These rifles are distinct from a later Warner built revolving rifle in that these rifles have only a topstrap joining the receiver/frame and the barrel; later Warner revolving rifles had a solid receiver/frame, with both top and bottom straps.
- these rifles were made in four distinct types, and encompassed two separate mechanisms; one in which the cylinder had to be manually revolved by hand before firing, and one in which cocking the hammer automatically revolved the cylinder.
- features include: walnut straight grip stock (some with patchboxes), finial trigger guard/gripstrap, iron or half iron/half brass receiver/frame, half round/half octagonal barrel, and some examples have loading levers.
- these rifles have markings in one of two distinct types: either "JAMES WARNER / SPRINGFIELD, MASS" (sometimes with "PATENT APPLIED FOR"), or "WARNER'S PATENT / JAN. 1851" (sometimes with "SPRINGFIELD ARMS CO.").

Manufacturer

- James Warner was an American gunsmith/designer based in Massachusetts during the mid to late 1800's; he built both rifles and handguns, and his firearms may be marked either "JAMES WARNER" or "WARNER'S PATENT".

Notes

Make

- make not marked on firearm.

Model

- manufactured circa 1851.
- this is a rare, early example of a solid top receiver/frame revolver with a double action trigger mechanism.
- features include: fixed sights; round barrel; solid top iron receiver/frame with removable non-fluted cylinder; exposed hammer; bird's head grip strap; walnut grip panels, blued finish.
- an unusual semi-circular hammer strikes the nipples in the outer radius of the cylinder.
- cylinder has a machined groove joining the inset nipples.

Notes

Make

- marked "JAMES WARNER SPRINGFIELD, MASS. U.S.A." on the topstrap.

Model

- this is an odd appearing single action percussion pocket revolver made during the 1850s and 1860's; Warner also made metallic cartridge revolvers that appear very similar to this model (found under "Pocket Revolver").
- features include: blued or case hardened finish, round or octagonal barrel, iron receiver/frame, walnut grips, loading lever under barrel and a hammer with an almost vertical spur.
- these revolvers are normally marked "JAMES WARNER SPRINGFIELD, MASS. U.S.A." on the topstrap, sometimes with the addition of "WARNER'S PATENT 1857" on the cylinder.

Notes

Make

- "JAMES WARNER SPRINGFIELD, MASS. U.S.A." and/or "WARNER'S PATENT 1857" is marked on the firearm.

Model

- model designation is not marked on the firearm.
- these revolvers are normally marked "WARNER'S PATENT 1857", sometimes with the addition of "PATENT APRIL 3, 1855".
- manufactured in the late 1860s.
- this is an odd appearing single action pocket revolver, Warner also made percussion revolvers that appear very similar to this model (found under "Percussion Pocket").
- blued or plated finish, round barrel, iron receiver/frame, walnut grips, loading groove cut into right side of receiver/frame, loading gate and a hammer with an almost vertical spur.
- though these revolvers may appear to be cartridge conversions of percussion revolvers, they were designed from the outset to be cartridge firing handguns; the cylinder pin is removable, so it can be used as an ejector.

Manufacturer

- James Warner was an American gunsmith/designer based in Springfield, Massachusetts during the mid to late 1800's; he built both rifles and handguns, and his firearms may be marked either "JAMES WARNER" or "WARNER'S PATENT".

Notes

Make

- make marked on topstrap as "JAMES WARNER / SPRINGFIELD, MASS".

Model

- this is a secondary type of single action revolving rifle built by James Warner during the 1850s; these rifles were built to compete with the Colt revolving rifles of the same period.
- these rifles were of the type in which the cylinder had to be manually revolved by hand before firing; during firing, the cylinder was locked by a hook shaped lever that protrudes down into the triggerguard.
- features include: walnut straight grip stock, finial triggerguard/gripstrap, iron or brass receiver/frame, octagonal barrel and a loading lever.
- some examples of these rifles were made with a patent ignition system in which a pellet of priming compound was glued into a square nipple with a dab of beeswax.
- these rifles are usually marked "JAMES WARNER / SPRINGFIELD, MASS" on the topstrap.

Manufacturer

- James Warner was an American gunsmith/designer based in Massachusetts during the mid to late 1800's; he built both rifles and handguns, and his firearms may be marked either "JAMES WARNER" or "WARNER'S PATENT".

Notes

Make

- "WARREN & STEELE" is usually marked on the lockplate.
- George Warren & John F. Steele were partners in an Albany, New York, hardware dealership who also supplied locks and barrels to gunmakers during the mid-1800s; their locks may be seen on complete guns supplied by their hardware store, or on guns manufactured by gunsmiths who purchased supplies from them.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is a percussion hunting or target rifle manufactured by or for Warner & Steele.
- features include: browned or blued finish; open fixed or adjustable sights; octagonal barrel; underbarrel ramrod thimbles; half-length straight-grip maple or walnut stock (some with brass or German silver finishings); external manually-cocked hammer on the lockplate; single or double-set triggers; finial trigger-guard/gripstrap; and a crescent butt.

Action

- muzzle-loaded percussion single-shot.

FRT Report

Firearm Reference Number (FRN): 126777
Make: Waters, John
Model: Scottish Highlander Regimental Flintlock Pistol

Summary

Make:	Waters, John
Model:	Scottish Highlander Regimental Flintlock Pistol
Manufacturer:	Waters, John
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
126777 - 1	57 FLINTLOCK	1	184	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Waters" or variation thereof may be marked on the lock.

Model

- model designation is not marked on the firearm.
- manufactured circa 1760.
- traditional Scottish military flintlock pistol.
- features include: brass-like gun metal construction with the absence of a trigger guard; round barrel; kidney shaped butt with removable touch hole pick (versus the typical ram's horn butt with a threaded, centre knob for the touch hole pick); button head, turned ram rod; goose neck cock; lobed trigger tip; belt hook attachment on the left side.
- overall length is 295mm (11 5/8").
- a very similar pistol, the "Black Watch Pistol" is known under several similar names, and must not be confused with the "Murdoch" pistol; where the "Murdoch" pistol has a "ram's-head" butt, with curlicue extensions that help to protect a ball-headed vent-pick threaded into the butt, the "Black Watch Pistol" is made with an all-brass butt and stock, with a double-lobed "kidney-shaped" butt that allows the pistol to be used as a club after the shot is fired.

Manufacturer

- John Waters was a manufacturer located in Birmingham, and London England, circa 1770 to 1781.

Action

- muzzle loader.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197628 - 1	450 REV CF	6	152	Antique CC 84(1) "antique firearm" para. (b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WATSON BROs PALL MALL LONDON" is marked on the barrel rib.
- The Watson Brothers were in operation at 4 Pall Mall, London, circa 1878 and 1884.

Model

- The model designation is not marked on the firearm.
- The model 1879 was manufactured by William Tranter circa 1879 to 1885 in 450 CF and until 1890 by his nephews in 380 CF. They were sold by retailers only, and bore no manufacturer markings other than the patent marking on the left side of the receiver/frame.
- Features may include: automatic ejection when action is opened; automatic ejection disabling lever under the receiver/frame, ahead of the trigger guard; fluted cylinder; wide and contoured hammer spur; extended barrel catch lever on the left side of the receiver/frame; humped back receiver/frame rear strap; lanyard loop at the base of the grip;

Manufacturer

- "TRANTER'S PATENT" is marked on the left side of the receiver/frame.
- William Tranter was part of "Hollis, Sheath, & Tranter", in operation at 13 St Mary's Row, Birmingham, circa 1849 until his retirement in 1885.

Action

- Hinged barrel design.

Serial Number

- The serial number is marked on the left side of the receiver/frame, under the barrel pivot.

Calibre

- "450 OR 455" is marked on the left side of the barrel.

Canadian Law Comments

- Some examples of this model, when manufactured prior to 1898 may be considered Antique in Canada.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - Birmingham crossed scepters proofs are marked on the receiver/frame and on the cylinder.

- Watson Brothers was re-established as a manufacturer in 1989.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "WG", "WG Model", "WG Model" with date of manufacture, eg.,"WG Model 1892" or a variation thereof is usually marked on left side of top strap. - "WG" model series is a design-improved version of the former Webley Improved Government revolver of circa 1881-1885. - "WG" has been associated with the name Webley-Green, however, research has indicated that "WG" is understood to be the acronym for "Webley Government". - "WG" is a double action, top break revolver with simultaneous ejection. - features include: - may have distinctively shaped "church steeple" type cylinder fluting with later models having the more traditional round shaped fluting; research has indicated that the use of the "church steeple" type of fluting ceased circa 1893. - large rounded barrel-to-frame hinge at front of receiver/frame designed for greater rigidity and strength. - large thumb-actuated barrel release lever on left side of receiver/frame; this latch may also be referred to as the Webley "stirrup" or "bridle" latch. - may have bird's head type grip or square butt configuration, with or without lanyard ring on bottom butt strap. - trigger guard is forged integrally with the receiver/frame. - grip frame is noticeably humped behind the hammer. - left side of receiver/frame has a removable "access" plate held in place by two slot-head screws. - research indicates that the practice of putting the date of manufacture on the firearm ceased circa 1893. - available in blued or nickel plated finish. - sub-calibre conversion units were available for this firearm.
Action	- hinged barrel design.
Serial Number	- serial number usually marked on right side of receiver/frame. - serial number of a referenced example consisted of four numbers.
Calibre	- calibre usually marked on left side of barrel lug or left side of top strap. - typical examples of calibre markings include; .450, .455, .450/.455, .455/.476, .476.

Notes

Make

- "R. WATSON WHITTALL" was observed on top of the barrel.

Model

- model designation is not marked on the firearm.
- features include: part octagonal barrel with dovetail sights; exposed hammer; spur trigger and wood grip panels.

Manufacturer

- R. Watson, or Rowland Watson was located on 17 Whitttall Street, Birmingham circa 1900 to 1960 and then on 32 Lower Loveday Street, Birmingham, England.
- the Watson firm was founded by Benjamin Watson in 1723. Benjamin Watson was a gunlock maker from Darlaston, England.
- in 1777 entered into partnership with William Ryan. Ryan & Watson had facilities in both Birmingham and London, England from 1765 to 1835. Ryan & Watson was located at 27 Whittall Street, Birmingham, England from 1799 to 1818.
- in 1813 Ryan & Watson were part of the subscribers to establish the Birmingham proof house.
- Benjamin Watson II died in 1830.
- in 1857, the business was taken over by Thomas Wild, who was Benjamin Watson III's son-in-law, and the business name changed to Thomas Wild.
- circa 1893 Rowland Watson took over and renamed it. Rowland Watson was Thomas Wild nephew.
- in 1941, Gilbert Watson took over when Rowland Watson died, and in 1946 was succeeded by Rowland Watson until 1987 when he retired. Then Barry King took over the firm.

Serial Number

- serial number is located at the bottom of the butt.
- serial number observed consisted of five numbers without prefix or suffix.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1982.
- "Weatherby ATHENA" is marked on the upper barrel.
- Athena Grade V was introduced in 1990.
- Athena subsequently became the Athena Grade IV (although no changes were made).
- Athena model designation has also been used by Weatherby on a side-by-side shotgun made in Spain by Zabala Hermanos.
- Athena was originally introduced with fixed chokes in 1982.
- Weatherby introduced their Integral Multi-Choke (IMC) system of interchangeable choke tubes in 1985.
- features include: blued round, over and under barrel with a ventilated top and mid ribs and a bead front sight; coin-finished front hinged receiver/frame with a top tang mounted break open lever and safety; box lock action with various grades of engraving, some with precious-metal inlays; modified Greener cross-bolt lock-up; hammerless; single selective trigger; checkered walnut forearm and customer's choice of full pistol-grip, half pistol-grip, or straight grip buttstock.

Manufacturer

- manufacturer's name is not marked on firearm.
- "Made In Japan" is usually marked on the firearm.

Action

- over and under barrel configuration, hinged barrel design.

Serial Number

- serial number is marked on the underside of the receiver/frame.
- serial numbers observed consisted of a letter "D" prefix and six numbers.

Calibre

- gauge and chamber length are marked on the side of the barrel.

Remarks

- the Athena line was available in skeet, field, and trap configurations.
- this model can be distinguished from the various "Orion" shotguns by the fact that the Athena has a ventilated rib between the barrels, while the Orion series has a solid rib; additionally, the Athena series has long side-plates, while the Orion series has short side-plates.

- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Weatherby has also used the Athena name on an over/under shotgun built by Sakaba (SKB) of Japan. - features include: a straight grip, oil finished Turkish walnut stock and splinter forearm; single trigger; selectable automatic ejectors; blued barrels with brass bead sight; boxlock action; interchangeable screw-in choke tubes; tang monted safety/selector and a colour-case-hardened receiver/frame with false sideplates and full scroll engraving. - a slightly lower-grade version of this shotgun is available as the "Orion" (not to be confused with Weatherby's over/under Orion), with a pistol-grip stock and no extended sideplates.
Manufacturer	- "ZABALA", "ZABALA, SPAIN", "ZABALA HERMANOS", "ZABALA HERMANOS, EIBAR", "ZABALA HERMANOS S.R.C. - EIBAR", "ZABALA HNOS S.R.C. - EIBAR", "ZH" inside a shield over the word "TRADEMARK", "Z.HERMANOS" and/or "MADE IN SPAIN" may be marked on the receiver/frame and/or barrel assembly. - "ZH" inside a shield is usually marked on the watertable and/or barrel flats. - "ZH" inside a shield is the trademark of Zabala Hermanos. - Zabala Hermanos was established in 1932. - Zabala Hermanos, S.A. was located in Eibar, Spain in 2005. - Zabala Hermanos manufactures side by side boxlock shotguns, side by side sidelock shotguns with external hammers and over & under shotguns. - Zabala Hermanos shotguns have been imported into North America and sold by or under the names of American Arms Inc., Charles Daly, Galef, KBI, Inc. and Tristar. - Zabala Hermanos began manufacturing the Athena and Orion shotguns for Weatherby in 2001.
Action	- side by side pattern.
Serial Number	- numbered on the receiver/frame, rationalization unknown.

- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the Athena line was introduced in 1982. In 1990 Weatherby introduced an upgraded version as the Athena Grade V and the standard Athena subsequently became the Athena Grade IV (although no changes were made).
- the Athena Trap is made specifically for trap-shooting, it was offered as a single barrel (firing from the upper barrel mechanism), over/under barrels or as a set with one single and one over/under barrel assembly.
- the Athena model designation has also been used by Weatherby on a side-by-side shotgun made in Spain by Zabala Hermanos.
- "Weatherby Athena" is marked on the upper barrel.
- originally introduced with fixed chokes, in 1985 Weatherby introduced their Integral Multi-Choke (IMC) system of interchangeable choke tubes.
- features include: American Claro walnut, Monte Carlo style stock and forearm; curved recoil pad; twin bead sights; single selective trigger; tang mounted safety; modified Greener cross-bolt lock-up; wide, ventilated top rib and ventilated side rib; blued barrels; coin-finished receiver/frame with engraving.

Manufacturer

- manufacturer's name is not marked on firearm.
- "Made In Japan" is usually marked on the firearm.

Serial Number

- all examples seen have a letter prefix and six digits, located on the underside of the receiver/frame.

Shots

- this model was also offered with an over/under barrel assembly as part of a combination set.

Remarks

- A single-barrel, single-shot shotgun made specifically for trap-shooters; comes with a ventilated rib and Monte Carlo stock.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- the Athena line was introduced in 1982. In 1990 Weatherby introduced an upgraded version as the Athena Grade V and the standard Athena subsequently became the Athena Grade IV (although no changes were made). - the Athena Trap is made specifically for trap-shooting, it was offered as a single barrel (firing from the upper barrel mechanism), over/under barrels or as a set with one single and one over/under barrel assembly. - the Athena model designation has also been used by Weatherby on a side-by-side shotgun made in Spain by Zabala Hermanos. - "Weatherby Athena" is marked on the upper barrel. - originally introduced with fixed chokes, in 1985 Weatherby introduced their Integral Multi-Choke (IMC) system of interchangeable choke tubes. - features include: American Claro walnut, Monte Carlo style stock and forearm; curved recoil pad; twin bead sights; single selective trigger; tang mounted safety; modified Greener cross-bolt lock-up; wide, ventilated top rib and ventilated side rib; blued barrels; coin-finished receiver/frame with engraving.
Manufacturer	- manufacturer's name is not marked on firearm. - "Made In Japan" is usually marked on the firearm.
Action	- over/under configuration.
Serial Number	- all examples seen have a letter prefix and six digits, located on the underside of the receiver/frame.
Shots	- this model was also offered with a single barrel as part of a combination set.

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- Centurion 2 was manufactured from 1976 to 1981. Weatherby previously offered the same basic firearm as the Centurion from 1972 to 1976.
- Centurion 2 was offered with a 660 mm slug barrel as the Centurion 2 Buckmaster.
- features include: cross bolt safety on the rear of the trigger guard; blued finish on the barrel and receiver/frame; walnut, pistol grip buttstock with recoil pad and hand cut checkering and forend; gold plated trigger; flush fit magazine cap.

Manufacturer

- the Centurion II and earlier Centurion shotguns were manufactured for Weatherby by two separate Japanese companies, Nikko/Olin-Kodesha and KTG. Both will be marked "Made in Japan" and were built to the same specifications. The manufacturer of a given example is identifiable by the serial number.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is marked on the underside of the receiver/frame; examples manufactured by KTG will have an "A" prefix in the serial number, while Nikko/Olin-Kodesha manufactured firearms will have an "NA" serial number prefix.
Calibre	- depending on configuration the Centurion II was offered in either 12 GA X 2 3/4" or 12 GA X 3".
Shots	- tubular magazine located within the forend.

Model	- "Weatherby Deluxe" is marked on the left side of the receiver/frame. - manufactured between 1945 and 1963. - Deluxe rifles were manufactured from a variety of commercial actions and customer-supplied rifles, each with pre-existing or their own serial-number ranges; these rifles were manufactured primarily from FN Mauser actions (most of which were marked "Weatherby, South Gate, California"), but also from Mathieu Arms (left-hand only), Shultz and Larson (Denmark), Brevex Magnum (France) actions, and Sako Mauser actions. These rifles were all custom or semi-custom pieces, with a wide variety of stock finishes and styles available, most often with intricate inlay work in exotic woods. However, they all had the bright glossy metalwork and stock coat that Weatherby is best known for.
Action	- turn-bolt design.
Serial Number	- the serial number is marked on the side of the receiver/frame. - model, serial number rationalization and manufacturer: - Deluxe RH only: serial number range from 1400 to 10962 = F.N. - Deluxe RH only: serial number range from 6000A to 6275A = Sako. - Deluxe LH only: serial number range from L101 to L286 = Mathieu Arms. - Deluxe RH only: serial number ranges from 1721 to 3690 and S152 to S455 = Schultz & Larson. - Deluxe RH only: serial number range from 200 to 380 = Brevex.
Calibre	- the calibre is marked on the barrel.
Shots	- internal box magazine.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- "MARK V" is marked on the side of the receiver/frame.
- features may include: Monte Carlo wooden or synthetic stock; checkered pistol grip and forearm; ventilated or plain recoil pad; grip cap; thumb safety; hinged floorplate; drilled for scope or hooded ramp front sight and folding leaf rear sight; and sling swivels.
- "MARK V" was available in a left or right hand action.

Manufacturer

- manufacturer's name is not marked on the firearm.
- "MADE IN GERMANY" or "MADE IN W.GERMANY" is marked on the side of the receiver/frame and/or barrel.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.

Calibre

- marked on the left side of the firearm.

Shots

- internal box magazine with a front hinged floor plate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "MADE IN W.GERMANY" observed marked below the Weatherby trademark on the left hand side of the receiver, although obscured by the wooden stock.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 2013.
- model designation may not be marked on the firearm.
- "MARK V" was observed marked on the side on the receiver ring.
- "RC" was observed engraved on the floor plate in a circle.
- "RC" stand for Range Certified.
- features observed: round, fluted free floated stainless steel barrel with a recessed target crown and muzzle accubrake; MARK V receiver/frame is drilled and tapped for scope mounts; three position safety; match two stage triggers; one piece laminated, raised comb Monte Carlo composite stock with a matte gel coat finish and spiderweb accents; Pachmayr decelarator pad; sling swivel studs.
- overall length with a 610 mm (24") barrel is 1118 mm (44"), and the average weight is 3.28 kgs (7.25 lbs).

Manufacturer

- Weatherby is a firearms manufacturer/importer founded in South Gate, California, in 1945. Weatherby imported the majority of its firearms from Germany, Italy, or Japan, but some of their new production rifles are manufactured completely in the United States.

Action

- turn-bolt design.

Serial Number

- serail number is located on the right side on the receiver ring.
- serial number consisted a two letters prefix and and six numbers.

Calibre

- calibre is usually marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - internal box magazine with a front hinged floor plate.

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- the Mark V CFP has been offered in two versions by Weatherby.
- the first version was offered from 1998-2000.
- for the first production version the "CFP" in the model designation denotes "Center Fire Pistol".
- features for the first version include: based on the MARK V Lightweight rifle action; chrome moly receiver/frame; fluted stainless steel barrel with a recessed crown; laminated, rear pistol grip stock; moulded-in aluminum bedding plate; comes drilled and tapped for mounting a scope and has a forward sling swivel for mounting a bipod.
- the second version was re-introduced in 2006.
- "Mark V" is marked on the left side of the receiver/frame.
- for the second production version the "CFP" in the model designation denotes "Compact Firing Platform".
- features for the second version include: based on the MARK V Lightweight rifle action; forged steel receiver/frame; chrome moly barrel with a recessed crown; matte blue finish; pillar bedded composite stock with pistol grip; drilled and tapped for mounting a scope; adjustable trigger; and sling swivels.
- in 2000 Weatherby also produced a limited number pistols similar to the first version of the MARK V CFP as the MARK V Accumark CFP.

Manufacturer

- "Weatherby Atascadero CA" may be marked on the receiver/frame.

Action

- turn bolt operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number had a two letters prefix and six digits.

Calibre

- calibre designation is marked on the left side of the firearm.

Shots

- internal box magazine.

Other Markings

- "Made in U.S.A." is marked on the left side of the receiver/frame.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured from 1979 to date.
- on floor plate "WEATHERBY CUSTOM"

Manufacturer

- Manufactured by one of several sub-contractors producing guns for Weatherby; including Japan. The latest versions are built in the United States.

Action

- Mark V action, with 9 locking lugs.

Barrel

- other barrel lengths will likely be available, but 610 mm (24") and 660 mm (26") are the standards.

Remarks

- This Model can be ordered in practically any calibre, in any finish, with any number of stock or wood options, etc.; these rifles will have "Weatherby Custom" engraved on their floor-plates, and will most likely have several intricate inlays on the stock. As this is a custom-made firearm, other calibres will likely be available.

- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured from 1972 to 1984.

Manufacturer

- manufactured by Howa, Ltd. of Japan for Weatherby, from 1972 to 1984.

Serial Number

- right front side of receiver ring.

Remarks

- Receivers were marked "Weatherby" South Gate, California, on centre left side of recever. drilled and tapped for scope mount, safety on right rear of bolt handle. Available in right or left hand actions. Deluxe model includes hand bedding, high luster, durable stock finish. 1972 to date, Weatherby custom receivers and barrels were manufactured by Howa, Japan. This was his original Mark 5. There are at least four variations of the bolt. This was a Weatherby rifle designed with European sales in mind, as it had the overall "look" of a European hunting rifle; Monte Carlo stock with skip-line checkering, white forend and pistol-grip spacers, front sight with integral muzzle band, etc.; manufactured in both left-hand and right-hand versions.

- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- 1981
- Receivers were marked "Weatherby" South Gate, California, on centre left side of recever. Drilled and tapped for scope mount, safety on right rear of bolt handle. Available in right action. Deluxe model includes hand bedding, high luster, durable stock finish. 1972 to date, Weatherby custom receivers and barrels were manufactured by Howa, Japan. This was his original Mark V. There are at least four variations of the bolt. These rifles were a special production run in 1981 of 100 rifles (2 for each state) intended as an especially collectable firearm. They have enameled inlays in the stock showing which sate they were intended to commemorate.

Manufacturer

- These rifles manufactured for Weatherby by Howa Ltd., of Japan.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - Uses a combination of letters and numbers, beginning with "81" and ending with either "01" or "02", with the postal code abbreviation for each state in the middle; eg. "81AL01" would be the first rifle produced in the Alaska series, while "81WY02" would be the second rifle produced in the Wyoming series; only 100 rifles produced.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1998.
- features include: chrome moly receiver/frame with bolt sleeve, follower and floorplate; drilled and tapped for scope mounting; safety on the right rear of the bolt handle; pillar bedded; hand laminated Monte Carlo stock.
- floor plate and trigger guard are constructed of light weight alloys with a fluted, stainless steel barrel.
- the bolt handle has been skeletonized to remove additional weight.
- the fluted bolt of the Ultra Lightweight Magnum rifle has nine locking lugs, arranged in three rows, of circles of three. (the bolt of the Ultra Lightweight has six lugs, arranged two rows, in circles of three.)
- the bolt throw of the Ultra Lightweight Magnum rifle is about 14mm longer than that of the Ultra Lightweight.
- available in left hand configuration.
- overall length with a 610mm barrel (24") is 1118mm (44"). average weight for a 243 WIN caliber is 2.61kg (5 3/4lbs).

Manufacturer

- manufacturer's name will be found marked on the firearm.

Action

- manually operated, bolt action.

Serial Number

- serial number is located on the right front side of the receiver/frame.

Calibre

- rifling characteristics in calibre 243 WIN: 1 turn in 254mm (10").

Shots

- integral magazine located forward of the trigger guard.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured from 1989 to 1991.
- "Weatherby Ultramark" may be engraved on the floorplate.
- essentially a higher grade of the MARK V Deluxe model.
- features include: high gloss, raised comb, walnut, Monte Carlo stock with rosewood tipped forend and pistol grip with maple wood spacers; high luster finished metalwork.

Manufacturer

- Howa Ltd. of Japan produced this rifle for Weatherby from 1989 through 1991.

Action

- turn-bolt design.

Serial Number

- serial number is usually marked on the receiver/frame.
- observed examples have been alpha/numeric and may fall between H210828 and H215743.

Barrel

- blued, tapered.

Shots

- internal box magazine.

Remarks

- Receivers were marked "Weatherby" South Gate, California, on centre left side of receiver. Drilled and tapped for scope mount, safety on right rear of bolt handle. Available in left and right hand action. Deluxe model includes hand bedding, high luster durable stock. This version of the Mark V was produced for only 2 years, from 1989 through 1991; it is essentially identical to the Mark V Deluxe.

- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1984 to 1988.
- all versions of this firearm are designated "deluxe".
- features included: safety slide on upper tang; high luster finish stock; basket weave checkering, the stock has a Monte Carlo comb with a cheek piece; the rifle is sold with sling swivels.
- this firearm was manufactured for Weatherby in Japan by HOWA and is marked "Made in Japan" on the right rear of the barrel.
- the Mark XXII model has been manufactured by several different manufacturers over the years.
- "MARK XXII" is marked on the left side of the receiver/frame.

Manufacturer

- Howa Ltd. of Japan produced the Mark XXII rifle for Weatherby from 1984 through 1988.

Action

- blow-back operated.
- this firearm has a unusual feature in the mechanism which interrupts the semi-automatic mode of operation. This is accomplished by the activation of a single shot selector which is found on the right side of receiver.

Serial Number

- the serial number will be found on the forward, right side of the receiver.
- serial number rationalization - detachable box magazine specimens have a letter "JC" prefix followed by five digits, fixed tubular magazine specimens will be found with a letter "JT" prefix followed by five digits. Zeros are used as placeholders to derive a five digit serial number.
- HOWA manufactured rifles have two blocks of serial numbers:
- detachable box magazine-fed rifles have serial numbers between JC10000 and JC13250.
- tubular magazine-fed rifles have serial numbers between JT50000 to JT54874.

Shots

- detachable box magazines available in 5 or 10 shot capacities; tubular magazine rifles had a capacity of 15 shots.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- "Weatherby Orion" is stamped on the right side of the top barrel.
- Weatherby has also used the Orion name on a side by side shotgun built for them by Zabala Hermanos of Spain.

Manufacturer

- manufacturer's name is not marked on firearm.
- "Made In Japan" is usually marked on the firearm.

Action

- over/under barrel configuration.

Serial Number

- consists of seven numbers with one or two letter prefix.

Remarks

- Available in skeet, field, and trap configuration. Single select trigger, selective auto ejectors, slide safety, barrel and action deep blued. Walnut stock with recoil pad and pistol grip, hand checkering, high luster finish forearm has checkered, finger grip channels, both sides ventilated rib, gold plated trigger.
- The Orion O/U shotgun was introduced in 1982, at the same time as the Athena; the primary difference between these shotguns is that the Athena has a ventilated inter-barrel rib and long side-plates, while the Orion has a solid inter-barrel rib and no side-plates. Many of these shotguns come with interchangeable screw-in choke tubes.
- The Orion was also offered in Grades I, II, and III, with the primary difference being the amount of engraving and the quality of wood.

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- Weatherby has also used the Orion name on an over/under shotgun built for them by Sakaba (SKB) of Japan.
- this is a lower grade version of the Athena side-by-side (built in Spain by Zabala Hermanos).
- features include: a half round, pistol-grip, oil-finished Turkish walnut stock and splinter forearm; single trigger; selectable automatic ejectors; blued barrels with brass bead; boxlock action; interchangeable screw-in choke tubes (in all gauges but 410); tang mounted safety/selector; and a colour-case-hardened receiver/frame with full scroll engraving.
- a higher-grade version of this shotgun is available as the "Athena" (not to be confused with Weatherby's over/under Athena), with a straight-grip stock and extended sideplates.

Manufacturer

- "ZABALA", "ZABALA, SPAIN", "ZABALA HERMANOS", "ZABALA HERMANOS, EIBAR", "ZABALA HERMANOS S.R.C. - EIBAR", "ZABALA HNOS S.R.C. - EIBAR", "ZH" inside a shield over the word "TRADEMARK", "Z.HERMANOS" and/or "MADE IN SPAIN" may be marked on the receiver/frame and/or barrel assembly.
- "ZH" inside a shield is usually marked on the watertable and/or barrel flats.
- "ZH" inside a shield is the trademark of Zabala Hermanos.
- Zabala Hermanos was established in 1932.
- Zabala Hermanos, S.A. was located in Eibar, Spain in 2005.
- Zabala Hermanos manufactures side by side boxlock shotguns, side by side sidelock shotguns with external hammers and over & under shotguns.
- Zabala Hermanos shotguns have been imported into North America and sold by or under the names of American Arms Inc., Charles Daly, Galef, KBI, Inc. and Tristar.
- Zabala Hermanos began manufacturing the side by side versions of the Athena and Orion shotguns for Weatherby in 2001.

Action

- side by side pattern.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1972 to 1976.
- "Weatherby Patrician", stamped on right side of barrel.
- the Patrician was available in field, trap, and skeet configuration.
- features include: cross bolt safety, barrel and action deep blued, walnut stock with recoil pad and pistol grip, hand checkering, forearm has checkered, finger grip channels, both sides, ventilated rib on barrel.
- Deluxe model featured engraved receiver and high grade wood.
- the Patrician can be recognized by its machined gold-plated action-release lever, located at the right rear of the receiver, above the trigger.
- Patrician II models have stamped gold-plated action-release levers in the same location. The "Deluxe" versions of this model came with engraved receivers and better-quality wood in the stock and forend.

Manufacturer

- KTG Industrial is a manufacturer located in Hitachi city, Japan.
- also manufactured by Nikko of Japan.
- serial numbers can be used to determine manufacturer.

Serial Number

- All KTG-production Patricians will have a 5-digit serial number, most often prefixed by an "S"; eg. S00001. However, some of the very earliest production simply used 5 digits without the "S" prefix (eg. 50001), while some mid-production examples had both an "S" prefix and a "W" suffix; eg. S00001W.

Shots

- tubular magazine mounted under the barrel.

Remarks

- Available in field and trap configuration. Cross bolt safety, barrel and action deep blued. Walnut stock with recoil pad and pistol grip, hand checkering, high luster finish forearm has checkered, finger grip channels, both sides. Ventilated rib. KTG of Japan manufactured the Patrician for Weatherby. Standard receiver with lever on right side above trigger allows action to unlock for unloading. The Patrician can be recognized by its MACHINED gold-plated action-release lever, located at the right rear of the receiver, above the trigger; Patrician II models have STAMPED gold-plated action-release levers in the same location. The "Deluxe" versions of this model have engraved receivers and better quality stock and forend wood

- manufactured in 1979 only.

Remarks

- serial number identifies this particular model. Cross bolt safety, barrel and action deep blued. Deluxe model had etched and fancy grade, walnut stock with recoil pad and pistol grip, hand checkering, high luster finish forearm has checkered, finger grip channels, both sides, ventilated rib. This was one of two special production runs of the Patrician 2 pump-action shotgun made to commemorate Ducks Unlimited, a conservation group dedicated to preserving wetlands for wildfowl; they can be recognized by their unique serial number blocks, all beginning with "79DU"; manufactured only in 1979.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- the "SAS" model designation denotes "Semi-Automatic Shotgun". - the SAS is available in a variety of finishes and configurations. The standard SAS is available as a "Field" grade firearm with a walnut or black synthetic stock and blued finish on the metal or with an overall camouflage finish (Shadow Grass® or Break-Up® pattern, 610mm, 660mm or 711mm barrel length). The SAS is also available in "Sporting Clays" configuration with a ported barrel (711mm or 762mm barrel length) and as a "Slug Gun" with a plain, rifled barrel (559mm barrel) that features a cantilever scope mount base and a walnut, Monte Carlo style buttstock. An accessory rifled barrel (559mm) with open sights is available in 2004 for all the SAS models. - features include: alloy receiver/frame; single or twin bead sight(s); screw-in IMC choke tubes; magazine cut-off; self-compensating gas system; drop-out trigger mechanism; ventilated rib on the barrel; shim spacer system that allows the shooter to alter the cast-on/cast-off or drop of the buttstock and a bolt release button located on the right side of the receiver/frame.
Manufacturer	- "VALTRO" is not usually marked on the firearm. - "Made in Italy" may be marked on the barrel. - earlier versions of the SAS model were built in Japan by Sakaba (SKB). These are identifiable by the "Made in Japan" markings. - "VALTRO" is derived from the first three letters of "Valle" and "Trompia". - Valle Trompia is a valley in northern Italy. - Valtro was established in 1988. - Valtro has been located in Stocchetta, Villa Carcina, and Collebeato in the Province of Brescia, Italy. - Valtro's trademark has been used on airguns, semi-automatic handguns, pump action and semi-automatic shotguns, and blank/signal pistols. - Valtro's trademark has been distributed in North America by Berkshire Arms Inc. and Valtro U.S.A., Inc.
Action	- gas operated.
Serial Number	- usually marked on the underside of the receiver/frame, rationalization unknown.
Shots	- tubular magazine mounted under the barrel. - a magazine plug is usually supplied with the firearm to restrict magazine capacity to two cartridges.

- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1980, discontinued in 1981.
- built on a Varmintmaster rifle action, converted to a single shot and the trigger mechanism was moved forward on the receiver/frame.
- only 200 of these pistols were produced, 150 in calibre 308 WIN and 50 in calibre 22-250 REM equipped with a 381mm length barrel.
- shorly after the first 200 barreled actions were shipped to the United States of America, the Japanese government advised Howa and Weatherby of their regulation that prohibited the export of any handguns from Japan. As such the production of the "Silhouette Pistol" ceased.
- Weatherby re-entered the handgun market in 1998 with the introduction of the MARK V CFP (Center Fire Pistol).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- manually operated, bolt actuated, single shot firearm.
Serial Number	- 150 firearms were produced in calibre 308 WIN; serial number range is from M00001 to M00075 and from M00101 to M00175. - 50 firearms were produced in calibre 22-250 REM; serial number range is from M00076 to M00100 and from M00176 to M00200.

Notes

Make	- "Weatherby" is marked on the firearm. - Weatherby was founded by Roy E. Weatherby in 1945. - Roy E. Weatherby was born in 1910 and died in 1988. - Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum. - Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964. - Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy. - Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy. - Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983. - Weatherby began manufacturing rifles in the U.S.A. in 1995. - Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995. - Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006. - Weatherby has been located in Paso Robles, California, U.S.A. since 2006.
Model	- no model designation is marked on the firearm. - this model was manufactured between the years of 1948 and approximately 1958 (a unique model designation was not assigned, these are typically noted as "Sporter", "Mauser Sporter", "Weatherby Mauser" or "Sporting" rifles in available literature); all of these sporting rifles pre-date the introduction of the Weatherby Mark V model series. - these Weatherby rifles were manufactured utilizing various actions such as, but not limited to, the following: FN-made (Belgium) mauser-type, Schultz & Larsen (Danish) mauser-type, 1917 Enfield (American), Brevex (French) mauser-type and the Mathieu action for left-hand models. - turn bolt operated, internal box magazine. - features may include; Monte Carlo stock with cheekpiece; hand-checkered pistol grip; black grip cap; forearm tip; ventilated recoil pad; blued finish.
Manufacturer	- the name "Weatherby" will be marked on the barrel and/or receiver/frame. - Weatherby used a variety of actions to produce this model, as such Weatherby is noted as the manufacturer.
Action	- turn-bolt operated.
Serial Number	- the serial number will be marked on the receiver/frame; location of the serial number will vary depending on the original manufacturer of the action. - three and four digit numbers without prefix or suffix have been observed.
Calibre	- calibre designation is usually marked on the barrel.
Shots	- internal box magazine.
Other Markings	- barrel may be marked, "Weatherby - South Gate - California" or a variation thereof.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1970. The standard Vanguard was replaced in the Weatherby line-up in 1984 by several new variations of the same basic rifle. The Vanguard was re-introduced in 2003.
- the model designation is marked on the left side of the receiver/frame.
- features include: blued metal or matte stainless steel finish; walnut or synthetic Monte Carlo stock; one-piece bolt with two locking lugs and a gas escape port (later models have three gas ports); adjustable trigger; receiver/frame is drilled and tapped for scope mounts.
- overall length with a 610mm barrel is 1118mm (44"), average weight is 3.4kg (7.5lbs).

Manufacturer

- Manufacturer's name may be marked on the left side of the receiver/frame.
- "MADE IN JAPAN" is marked on the left side of the receiver/frame.

Action

- Turn bolt operated.

Serial Number

- all Howa-manufactured Vanguards were serial numbered beginning at V0011; later production went into five digits, but the "V" prefix remained.
- in 1984 Weatherby started using a two alpha character prefix in the serial number. Serial number rationalization is a follows (based on available information, this is not a complete list);
- Vanguard, 1970 to 1984: V0011 to V80966, current production (2003) examples have been noted with a "VS" prefix.
- Vanguard VGX, 1984 - 1989: VX0001 to VX25440
- Vanguard VGX Deluxe, introduced in 1989 at VX25516
- Vanguard VGS, 1984 - 1989: VS0001 to VS17870
- Vanguard VGL, 1984 - 1989: VL0001 to VL 17596
- Vanguard Fiberguard, 1985 - 1989: VL06011 to VL17697
- Vanguard Classic I, introduced in 1989 at VL18757
- Vanguard Classic II, introduced in 1989 at VX17872
- Vanguard Weatherguard, introduced in 1989 at VL18207

Calibre

- calibre designation is usually marked on the barrel.
- the 270 WIN cartridge was introduced into the Vanguard line in 1972.
- the 25-06 REM cartridge was introduced into the Vanguard line in 1972.
- the 22-250 REM cartridge was introduced into the Vanguard line in 1983.
- the 270 WSM cartridge was intoduced into the Vanguard line in 2005.

Shots

- internal magazine with a hinged floorplate.
- magazine capacity in "standard" chamberings is five, in "magnum" chamberings the capacity is reduced to three.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1970.
- "VANGUARD" is marked on the left side of the receiver/frame.
- Vanguard was offered as an economical alternative to the Weatherby Mark V rifle. Available in regular caliber (Non-Weatherby) and selected Weatherby Magnum calibers, this rifle is now (2003) offered with many of the same design elements of the Mark V action.
- features include: blued metal or matte stainless steel finish; walnut, grey or brown laminated wood or synthetic (various color) Monte Carlo stock; 90-degree bolt lift; one-piece fluted bolt with two locking lugs and three gas escape ports; adjustable trigger; receiver/frame is drilled and tapped for scope mounts; each gun supplied with a three shot factory target.
- this firearm is manufactured in a variety of wood; synthetic stock; barrel shape/weight, length and metal finish combinations, some of these rifles may be found with their own models entry.
- overall length with a 610mm barrel is 1092mm (44"), average weight with a blued steel/synthetic stock version is 3.4kg (7.5lbs).
- in 2012, the Vanguard was introduced with an improved trigger mechanism as the Vanguard Series 2.

Manufacturer

- manufacturer is marked on the firearm.
- previously manufactured for Weatherby by Howa Machinery of Japan, the majority of the Weatherby rifles line-up are now manufactured in the USA.

Action

- turn-bolt design.

Serial Number

- serial number is located on the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- observed serial number consisted of a two letter "VB" prefix and six numbers.
- observed serial number consisted of a two letter "VS" prefix and six numbers.

Calibre

- the calibre designation is marked on the barrel.
- rifling characteristics in calibre 243 WINCHESTER: 1 turn in 254mm (10").

Shots

- internal magazine with a hinged floorplate.

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1989.
- features include: matte blued metal; satin finished American black walnut stock; one-piece bolt with two locking lugs and three gas ports; adjustable trigger; receiver/frame is drilled and tapped for scope mounts.
- the same basic rifle is available as the Vanguard Classic 2 which features an ebony forend tip and grip cap.

Manufacturer

- the manufacturer's name is not marked on the firearm, "MADE IN JAPAN" is marked on the left side of the receiver/frame under the model designation.

Serial Number

- all Howa-manufactured Vanguards were serial numbered beginning at V0011; later production went into five digits, but the "V" prefix remained.
- in 1984 Weatherby started using a two alpha character prefix in the serial number. Serial number rationalization is a follows (based on available information, this is not a complete list);
- Vanguard, 1970 to 1984: V0011 to V80966, current production (2003) examples have been noted with a "VS" prefix.
- Vanguard Classic I, introduced in 1989 at VL18757
- Vanguard VGX, 1984 - 1989: VX0001 to VX25440
- Vanguard VGX Deluxe, introduced in 1989 at VX25516
- Vanguard VGS, 1984 - 1989: VS0001 to VS17870
- Vanguard VGL, 1984 - 1989: VL0001 to VL 17596
- Vanguard Fiberguard, 1985 - 1989: VL06011 to VL17697
- Vanguard Classic II, introduced in 1989 at VX17872
- Vanguard Weatherguard, introduced in 1989 at VL18207

Calibre

- the calibre designation is usually marked on the barrel.

Shots

- internal magazine with a hinged floorplate.
- magazine capacity in "standard" chamberings is five, in "magnum" chamberings the capacity is reduced to three.

Make	- "Weatherby" is marked on the firearm. - Weatherby was founded by Roy E. Weatherby in 1945. - Roy E. Weatherby was born in 1910 and died in 1988. - Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum. - Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964. - Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy. - Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy. - Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983. - Weatherby began manufacturing rifles in the U.S.A. in 1995. - Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995. - Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006. - Weatherby has been located in Paso Robles, California, U.S.A. since 2006.
Model	- introduced in 1989 - "Vanguard" and "Made in Japan" are stamped on the left side of receiver/frame.
Manufacturer	- Manufactured for Weatherby by Howa Ltd. of Japan.
Action	- Bolt is of the modified Mauser design in that it incorporates a guide rib and bolt head with two opposing locking lugs.
Serial Number	- All Howa-production Vanguard Classic IIs have a 5-digit serial number prefixed by a "VX".
Barrel	- Blued, Tapered, Hammer forged. .
Calibre	- Calibre designation appears on left side, near receiver
Remarks	- Receivers were marked "Weatherby" South Gate, California on rear, left side of receiver. Drilled and tapped for scope mount, safety on right rear of action. Available in right hand action only. Deluxe model includes hand bedding, satin finish, American black walnut stock. The Vanguard Classic II is essentially identical to the Classic I, except that the Classic II has a thicker recoil pad (available because the Classic II is chambered in more "magnum" calibers), and the Classic II also has a contrasting fore-end stock tip, without any white-line spacer. The Classic stock also has a flared pistol-grip stock, where the Classic I is chamfered.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- "VANGUARD SUB-MOA" is marked on the left side of the receiver/frame.
- "SUB MOA" is marked on the magazine floor plate.
- introduced in 2005, to measure accuracy in terms of minutes of angle. MOA represents minute of angle.
- features include: blued matte or bead blast matte stainless finish barrel; receiver/frame is drilled and tapped for scope mounts; safety on right rear of the receiver/frame; fully adjustable trigger; Monte Carlo fiberglass stock and Pachmayr decelarator recoil pad.
- overall length with a 610mm barrel is 1118mm (44"), average weight is 3.52kg (7.75lbs).

Manufacturer

- the manufacturer's name is not marked on the firearm, "MADE IN JAPAN" is marked on the left side of the receiver/frame under the model designation.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- all Howa-manufactured Vanguards were serial numbered beginning at V0011; later production went into five digits, but the "V" prefix remained.
- in 1984 Weatherby started using a two alpha character prefix in the serial number. Serial number rationalization is a follows (based on available information, this is not a complete list);
- Vanguard, 1970 to 1984: V0011 to V80966, current production (2003) examples have been noted with a "VS" prefix.
- Vanguard VGX, 1984 - 1989: VX0001 to VX25440
- Vanguard VGX Deluxe, introduced in 1989 at VX25516
- Vanguard VGS, 1984 - 1989: VS0001 to VS17870
- Vanguard VGL, 1984 - 1989: VL0001 to VL 17596
- Vanguard Fiberguard, 1985 - 1989: VL06011 to VL17697
- Vanguard Classic I, introduced in 1989 at VL18757
- Vanguard Classic II, introduced in 1989 at VX17872
- Vanguard Weatherguard, introduced in 1989 at VL18207

Calibre

- the calibre designation is marked on the barrel.

Shots

- internal box magazine with hinged floor plate.

Remarks

- Weatherby was founded in 1945 by Roy Weatherby in South Gate, California, with the introduction of a line of high powered belted-magnum cartridges. Initially, he built rifles on the Fabrique Nationale produced Mauser, and Schultz and Larsen actions.
- in 1957 Weatherby introduced an action that is known today as the Weatherby Mark V. Instead of the traditional two locking lugs the Mark V is unique in that it has nine locking lugs and a short 54 degree bolt throw. Weatherby bolt action rifles were first manufactured by Precision Founders in San Francisco, U.S.A., from 1958 through 1959 and then by J.P. Sauer and Sohn in Germany from 1959 to 1971. Between 1971and 1995 the Mark V actions were manufactured by Howa Machinery in Japan. Currently, Weatherby Mark V rifles are manufactured by Saco Defense Corporation in Maine, USA.
- in 1970 Weatherby began to produce a scaled down version of the Mark V action called the Vanguard, which incorporated two locking lugs instead of the nine found on the original Mark V action. These rifles were manufactured by Howa Machinery in Japan. This rifle is currently offered as the Mark V Lightweight, produced in the USA by Saco Defense.
- from 1964 to 1990, Weatherby also produced a semi-automatic .22 calibre rim-fire rifle known as the Mark XXII. It came in two versions, the Mark XXII Tubular with a 15 shot tubular magazine and the standard Mark XXII with a detachable 10 shot box magazine. This model was initially manufactured for Weatherby by Pietro Beretta in Italy, later production was in Japan and the USA.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the USA such as Sakaba (SKB), KTG and Nikko of Japan and Antonio Zoli of Italy. Weatherby is currently located in Atascadero, California under the direction of the late founder's son, Ed Weatherby.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 1997.
- "VANGUARD" is marked on the left side of the receiver/frame.
- Vanguard rifle was offered as an economical alternative to the Weatherby Mark V rifle.
- Vanguard rifle is available in regular calibre (Non-Weatherby) and selected Weatherby Magnum calibers.
- Vanguards rifle was offered with many of the same design elements of the Mark V action in 2003.
- features include: matte black or stainless steel, bead blasted metal finish; Monte-Carlo injection molded composite stock; adjustable trigger; 90-degree bolt lift; one-piece fluted bolt with two locking lugs and three gas escape ports; receiver/frame is drilled and tapped for scope mounts; each gun supplied with a three shot factory target.
- overall length with a 610 mm barrel is 1092 mm (44"), average weight with a stainless steel version is 3.4 kgs (7.5 lbs).
- "Synthetic package" includes a Vanguard Synthetic rifle, factory mounted bore sighted scope; nylon sling and injection molded gun case.
- "Youth/Compact package" feature a Vanguard short action (508mm #1 contour barrel) scaled down hardwood stock (finished in matte black) with shorter length of pull and an extra full-size injection molded composite stock.
- Vanguard Synthetic HB-ST was introduced in 2010.
- Vanguard Synthetic HB-ST features a heavy contour 559 mm (22") barrel and proprietary textured synthetic stock with "Silent-Tek" finish. All other features are the same.

Manufacturer

- manufacturer is marked on the firearm.
- previously manufactured for Weatherby by Howa Machinery of Japan, the majority of the Weatherby rifles line-up are now manufactured in the USA.

Action

- turn-bolt design.

Serial Number

- serial number is located on the receiver/frame.
- observed serial number consisted of a to letter "VB" prefix and six numbers.

Calibre

- the calibre designation is marked on the barrel.
- rifling characteristics in calibre 223 REMINGTON: 1 turn in 305mm (12").

Shots

- internal box magazine with a hinged floorplate.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "Weatherby" is marked on the firearm. - Weatherby was founded by Roy E. Weatherby in 1945. - Roy E. Weatherby was born in 1910 and died in 1988. - Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum. - Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964. - Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy. - Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy. - Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983. - Weatherby began manufacturing rifles in the U.S.A. in 1995. - Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995. - Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006. - Weatherby has been located in Paso Robles, California, U.S.A. since 2006.
Model	- 1984-89 Vanguard name stamped on centre left side of receiver under which appears "Made in Japan"
Manufacturer	- Produced for Weatherby by Howa Ltd. of Japan.
Action	- Bolt is of the modified Mauser design in that it incorporates a guide rib and bolt head with two opposing locking lugs.
Serial Number	- All Howa-produced Vanguard VGLs were manufactured with a 4 or 5-digit serial number prefixed with a "VL"; eg. VL0001 or VL17596.
Barrel	- Blued, Tapered, Hammer
Calibre	- Calibre designation appears on left side, near receiver.
Remarks	- Receivers were marked "Weatherby" South Gate, California on rear, left side of receiver. Drilled and tapped for scope mount, safety on right rear of action. Available in right hand action only. Deluxe model includes hand bedding, high luster, durable stock finish. The Vanguard VGL is essentially a lightweight version of the Vanguard VGS, with a shorter 508 mm (20") barrel, but the same oil-rubbed stock and low-lustre finish on the metal; it is also not available in the exact same calibres as the VGS.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured from 1984 to 1989.
- "VANGUARD VGS" is marked on the left side of the receiver/frame over "Made in Japan".

Manufacturer

- the manufacturer's name is not marked on the firearm, "MADE IN JAPAN" is marked on the left side of the receiver/frame under the model designation.

Serial Number

- all Howa-manufactured Vanguards were serial numbered beginning at V0011; later production went into five digits, but the "V" prefix remained.
- in 1984 Weatherby started using a two alpha character prefix in the serial number. Serial number rationalization is a follows (based on available information, this is not a complete list);
- Vanguard, 1970 to 1984: V0011 to V80966, current production (2003) examples have been noted with a "VS" prefix.
- Vanguard VGX, 1984 - 1989: VX0001 to VX25440
- Vanguard VGX Deluxe, introduced in 1989 at VX25516
- Vanguard VGS, 1984 - 1989: VS0001 to VS17870
- Vanguard VGL, 1984 - 1989: VL0001 to VL 17596
- Vanguard Fiberguard, 1985 - 1989: VL06011 to VL17697
- Vanguard Classic I, introduced in 1989 at VL18757
- Vanguard Classic II, introduced in 1989 at VX17872
- Vanguard Weatherguard, introduced in 1989 at VL18207

Calibre

- calibre designation is usually marked on the barrel.

Shots

- internal magazine with a hinged floorplate.
- magazine capacity in "standard" chamberings is five, in "magnum" chamberings the capacity is reduced to three.

Remarks

- Receivers were marked "Weatherby" South Gate, California on rear, left side of receiver. Drilled and tapped for scope mount, safety on right rear of action. Available in right hand action only. Deluxe model includes hand bedding, high luster, durable stock finish. The Vanguard VGS is a rifle built on the Vanguard 2-lug action, but with a low-lustre blue and dull, oil-rubbed stock to minimize possible damage to the finish.

Notes

Model

- the "WA-15" resembles the Colt produced M-16/AR-15 family of rifles.
- the "WA-15" is available in several different carbine or rifle configurations. All configurations are built on the same platform but feature differences in the barrel, sighting system, hand guard, pistol grip or butt stock configuration.
- features may include: M4, HBAR or compact round barrel with threaded muzzle for flash suppressor/hider, muzzle brake or compensator; gas block assembly with post front sight assembly and bayonet lug; forged A2 upper (integral carrying handle and rear sight) or A4 upper (Picatinny rail) with or without detachable carrying handle; forged lower receiver/frame with regular trigger guard; two stage trigger; black or green furniture; A2, CAR or mid-length, quad rail, tactical rail or free floating tube handguard; standard Hogue rubber pistol grip; A2 fixed synthetic buttstock and 4 or 6 position CAR stock.
- other options available on request.

Manufacturer

- Web Arms Company is located in Pasadena, Texas, U.S.A.

Action

- gas operated.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 136642
Make: Webb, George Walter
Model: Percussion Revolver

Summary

Make:	Webb, George Walter
Model:	Percussion Revolver
Manufacturer:	Webb, George Walter
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
136642 - 1	36 PERCUSSION	1	101	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- known example is marked "G.W. WEBB 19 HIGH St.OXFORD" on the top of the barrel.
Model	- no model name is marked on this firearm. - this is a muzzle loading, percussion pistol with a spurless hammer. - features include: octagonal barrel; under barrel mounted loading lever; double action; fixed sights; engraved receiver/frame; checkered grips. - British proof marks are apparent on the underside of the barrel.
Manufacturer	- known example is marked, "G.W. WEBB 19 HIGH St.OXFORD" on the top of the barrel. - George Walter Webb was listed as a gunmaker in Oxford, England, circa 1862 to 1869 at 19 High Street; then from 1870 to circa 1890 at No. 16 High Street. - G.W. Webb also retailed firearms made by other manufacturers with the G.W. Webb name marked on them.
Serial Number	- two known examples did not have a serial number.
Canadian Law Comments	- handguns made by G.W. Webb prior to 1898 in certain calibres will qualify as antique in Canada.
Other Markings	- "PATENT. No A.228" is marked on the left side of the receiver/frame of an observed example.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
183322 - 1	22 LR/9MM FLOBERT	2	610	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- the make is marked on the firearm.
- the Webers were a family of gunmakers/retailers based in Zurich, Switzerland, from 1847 through the First World War; the father (Casimir Weber) ran the business until 1895, when he was succeeded by his son, also named Casimir Weber.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type that uses a "Warnant"-style action with a hinged breechblock at the rear of the breech. When lifted, that breechblock operates an extractor to remove fired cases.
- features include: fixed open sights; round barrels; checkered walnut straight-grip stock; hinged breechblock with a lifting handle on the right side of the block; exposed, manually-cocked hammer; elaborate trigger guard; synthetic butt plate with game scene; blued finish

Action

- over & under barrel configuration.

Serial Number

- numbered on the receiver/frame.
- an observed example consisted of four numbers.

Notes

Make

- "P. WEBLEY PATENTEE" or "PHILIP WEBLEY PATENTEE" will be marked on the left side of the receiver/frame and may also be marked on the top of the barrel.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- no model name is marked on this firearm.
- manufactured circa 1853.
- this handgun represents the first Webley Patented revolver.
- this is a percussion ignition revolver.
- observed features include: octagonal barrel; open top receiver/frame with non-fluted cylinder; exposed hammer; single action trigger mechanism; trigger guard may have a finger rest; checkered one piece walnut grip; fixed sights.
- available with or without left side mounted rammer assembly.
- this model was superseded by the 1853 Longspur.

Action

- percussion ignition.

Serial Number

- serial number is marked on the front right side of the receiver/frame.
- known examples had three numbers without prefix or suffix.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "JAMES WEBLEY PATENTEE", or "JAMES WEBLEY ST. MARY'S SQUARE, BIRMINGHAM", or "WEBLEY'S PATENT" is marked on the firearm.
- James Webley was located at 14 St. Mary's Square, Birmingham, England from 1845 to 1863.
- James Webley was the brother of Philip Webley.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- manufactured from 1853 to circa 1899.
- "1853 Longspur" is not marked on the firearm.
- "1853 Longspur" is an open top receiver/frame, percussion revolver with a long flat spur hammer.
- "1853 Longspur" model came in three sizes:
- Holster size, normally five shots and a 178mm (7") barrel,
- Belt size, normally five shots and a 121 - 127mm (4.75 - 5") barrel, and
- Pocket size, six shots and a 89 -102mm (3.5 - 4") barrel.
- there may be a safety lever on the left side of the receiver/frame that when pressed forward the hammer is held safely in either the cocked or uncocked position.
- the First model can be distinguished by the absence of a rammer and a partially enclosed hammer.
- the Second model incorporates an Adams-type rammer secured to the receiver/frame by a spring clip.
- the Third model can be determined by the compound rammer (patented by James Kerr in 1955, No. 1722) that is mounted to the barrel web and lays flat along the left side of the barrel, instead of being hinged is screwed onto the end of the cylinder axis rod and then secured by a horizontal screw entering from the front of the lug into the receiver/frame.

Serial Number

- serial number is marked on the backstrap.
- observed serial numbers:
- first model (1853 to 1855) are 131 to 338.
- second model (1855 to 1857) are 199 to 969.
- third model (1857 to 1899) are 985 to 1602.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- "WILKINSON & SON PALL MALL LONDON" may be marked on the top of the barrel and is the retailer of the imaged firearm.
- "BY HER MAJESTY'S ROYAL LETTERS PATENT" may be marked on the backstrap.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model name does not appear on this firearm. - the "solid frame rimfire" model series of handgun by Webley was a progression from their solid frame percussion revolvers of circa 1859. Production of this model series started circa early 1860's and was phased out by the mid-late 1860's with the introduction of the solid frame centre-fire revolvers. - single or double action, usually with a rebounding hammer. - usually has plain unfluted cylinder, may have small locking notches at front of the cylinder. - octagonal or round barrel. - loading gate is located on right rear of standing breech; this loading gate may be fixed into the right side of the receiver/frame and will swing outwards or it may be hinged to the side of the receiver/frame by a slot-head screw and will swing backwards against the action of a horizontal spring which is externally fixed to the receiver/frame beneath the cylinder. - may not have a spent casing ejector system. - on those firearms produced with a spent casing ejector system various design types may be encountered; these can vary from a Webley patented lever-type design mounted on the right side of the barrel and receiver/frame and marked "Registered May 3rd" (Webley patent of 1864); a Tranter designed lever-type assembly similar to the Webley design; straight push-rod type design fixed to the right side of the receiver/frame. - grip frame characterized by a noticeable hump behind the hammer. - may have a lanyard ring. - these firearms may be marked "Webley's Patent", however, it was not uncommon for Webley to produce these handguns for the "gun trade" which were unmarked as to Webley origin and bearing only the name of the retailer/distributor. - usually blued finish, hardwood grips
Action	- single or double action.
Other Markings	- known example marked with retailers name on top strap, eg., "ALEX.r HENRY" over "12 SOUTH St. ANDREW St." over "EDINBURGH".

FRT Report

Firearm Reference Number (FRN): 24609
Make: Webley
Model: 1866 Boxer

Summary

Make:	Webley
Model:	1866 Boxer
Manufacturer:	Webley
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
24609 - 1	577 REV	6	102	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "P. WEBLEY PATENTS" may be marked on the side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- model is not marked on the firearm.
- a small number were produced circa 1866 to 1870.
- features include: half round blade front and grooved rear sight; octagonal barrel; deep, solid top receiver/frame; circular plate located between the cylinder and the standing breech; removable cylinder axis pin; six chambered cylinder has semi-circular outer surfaces; finely checkered, saw handle, walnut grips; lanyard loop.

Serial Number

- serial number may be located on the cylinder face and may be repeated on the face of the cylinder axis pin.
- serial number of a referenced example consisted of three numbers.

Other Markings

- "1 INCH .577 BOXER" may be marked on the side of the barrel.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "WEBLEY'S PATENT" or "WEBLEY PATENT" is usually marked on the left side of the firearm. - "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm. - the letters "MK" in a triangle above a number were observed marked on the right side of the receiver/frame. - "MK" are the initial of the firearms designer, Michael Kaufmann and the number was used for royalty purposes. - "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD". - "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897. - "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915. - "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906. - "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.
Model	- these revolvers may be seen with a variety of features that changed over time, as the Webley company introduced safety and mechanical improvements. - early revolvers may show Pryse-style lock work, with an additional sear release at the rear of the trigger-guard, but will also have integral trigger-guards that were formed as part of the frame casting; these revolvers will all have "Kaufmann"-style frames, with a detachable side plate on the left side of the revolver. - latching mechanisms also changed, ranging from an early "push-button" style on the left side, through a thumb-operated latch that operated a cross-bolt through the top-strap, to a "half-stirrup" style that was replaced by the classic Webley "stirrup" latch in 1889.
Action	- hinged barrel design, top break action.
Serial Number	- serial number is located on the left side of the back strap under the grip panel, it also appears on the underside of each grip panel and at the rear of the barrel lug below the cylinder axis pin hole. - the number below the "MK" symbol is a "royalty" number, which served to keep track of the number of revolvers produced under Michael Kaufmann's patents, so that Kaufmann could be paid on a "per revolver produced" basis.
Calibre	- the calibre designation may be marked on the firearm.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- the barrel rib may read the name and the address of the retailer. - "WEBLEY'S PATENT" or "WEBLEY PATENTS" may also appear on the firearm.
Remarks	- Michael Kaufmann was associated with the Webley firm from 1878 to 1881. Kaufmann developed two new mechanical changes, including a hinged latch and a new lock mechanism.

Make

- "WEBLEY" over "MARK I" over "PATENTS" is marked on the left side of the receiver.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- manufactured from circa 1890 to circa 1897.
- "WEBLEY" over "MARK I" over "PATENTS" is marked on the left side of the receiver/frame.
- approximately 40,000 were manufactured.
- "MARK I" may also be known as "Royal Horse Artillery" revolver.
- features include: fixed sights; rifled barrel; front hinged receiver/frame with a semi-fluted cylinder; break open lever is located on the left side of the receiver/frame; automatic ejection; exposed spur hammer; double/single action trigger mechanism; rounded trigger guard; saw handle bird's head type grip strap with a lanyard ring; checkered grip plates; blued finish.

Action

- hinged barrel design.

Serial Number

- numeric serial numbers ranging up to 41349 have been observed.
- serial number may be marked on the bottom of the receiver/frame foreward of the trigger guard.

Notes

Make

- "WEBLEY" over "MARK I*" over "PATENTS" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "WEBLEY" over "MARK I*" over "PATENTS" is usually marked on the left side of the receiver/frame.
- the "*" was added to the model designation when alterations were done to firearms that were returned to stores for repair.
- these alterations included: installing a hardened steel plate in the standing breech to provide better protection against erosion around the firing pin hole, the removal of a hump from the upper portion of the backstrap to give a smoother curve to the handgrip and the addition of a smaller thumbpiece for operating the barrel latch.
- approximately 40,000 examples of the "MARK I" model were manufactured circa 1890 to circa 1897, it is unknown how many were converted to "MARK I*" configuration.
- features include: fixed sights; rifled barrel; front hinged receiver/frame with a semi-fluted cylinder; break open lever is located on the left side of the receiver/frame; automatic ejection; exposed spur hammer; double/single action trigger mechanism; rounded trigger guard; saw handle bird's head type grip strap with a lanyard ring; checkered grip plates; blued finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- hinged barrel design.
Serial Number	- the serial number is usually marked on the underside of the receiver/frame ahead of the trigger guard. - the serial number is usually repeated on the barrel assembly and cylinder.
Other Markings	- these firearms will also display British proofs. - as many of these firearms were purchased by individuals, samples may be found with non-standard markings including; names, unit markings etc.

Notes

Make

- "WEBLEY" over "MARK I**" over PATENTS" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "WEBLEY" over "MARK I**" over "PATENTS" is usually marked on the left side of the receiver/frame.
- the "**" was added to the model designation when alterations were done to firearms that were returned to stores for repair circa 1917.
- approximately 40,000 examples of the "MARK I" model were manufactured circa 1890 to circa 1897, it is unknown how many were converted to "MARK I**" configuration.
- these modifications were done to both "MARK I" and "MARK I*" revolvers so variations may exist.
- "MARK I*" alterations included: installing a hardened steel plate in the standing breech to provide better protection against erosion around the firing pin hole, the removal of a hump from the upper portion of the backstrap to give a smoother curve to the handgrip and the addition of a smaller thumbpiece for operating the barrel latch.
- "MARK I**" alterations included: replacement of the cylinder cam and cam lever, a recess cut in the body of the joint access pin for the recoil stud, and replacement of the 102mm barrels with 152mm barrels (these used removable front sight blades).
- features include: fixed sights; rifled barrel; front hinged receiver/frame with a semi-fluted cylinder; break open lever is located on the left side of the receiver/frame; automatic ejection; exposed spur hammer; double/single action trigger mechanism; rounded trigger guard; saw handle bird's head type grip strap with a lanyard ring; checkered grip plates; blued finish.

Action

- hinged barrel design.

Serial Number

- the serial number is usually marked on the underside of the receiver/frame ahead of the trigger guard.
- the serial number is usually repeated on the barrel assemblt and the cylinder.

Other Markings

- these firearms will also display British proofmarks.

Notes

Make

- "WEBLEY" over "PATENTS" is usually marked on the right side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the left side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "MARK III" is marked on the left side of the top strap.
- "MARK III Pocket" is also known as the "MARK III New .380 Pocket Revolver", "MARK III 320", "MARK III 380", "MARK III 38" and "MARK III Police & Military".
- other "MARK III" variants share the same model designation markings. The "MARK III Service" (in calibre 455 REV and has a different receiver/frame shape) and "MARK III Target" (in calibre 38 S&W, no front or backstrap on the grip frame) are identifiable by features that are not found on the "MARK III".
- "MARK III" line was manufactured between 1894 and 1945.
- features include: receiver/frame mounted firing pin; cylinder axis pin is part of the cylinder; fluted cylinder (units in calibre .38 are one size, units in calibre .32 have a "step" down at the front); fixed front and rear sight; top break design; double action trigger mechanism; may have a lanyard ring; optional safety lever; grips were a two piece design, small black plastic grip plates were fitted to units marketed as a "Pocket" revolver, medium size wood grips were fitted to those units marketed to police and military buyers.
- the key-identifying feature on this model is the pronounced hump or "prawl" at the back of the receiver/frame above the grips. the other "MARK III" designated models do not have this feature.
- the "MARK III Service" revolver has the cylinder axis pin as part of the barrel assembly. The receiver frame has a "birds head" style grip without the hump or "prawl" above the grip.
- the "MARK III Target" has the conventional hammer replaced by a disc-set striker, the receiver/frame has no front or backstrap and does not have the pronounced hump or "prawl" of the "MARK III" and a one-piece walnut grip is fitted to the receiver/frame tangs by two screws (one at the top and one at the front of the grip).

Serial Number

- serial number is marked on the right side of the receiver/frame.

Calibre

- the calibre designation is usually marked on the left side of the firearm.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- these firearms were often marked with a retailers or distributors name on the barrel or top-strap. As firearms were popular gifts at the beginning of the twentieth century many will also be found with dedications engraved on the barrel or other suitable surface.
- may have the markings of organizations that adopted it, for example: "O.P.P."

Model

- model is not marked on the firearm.
- "MARK III" line was introduced in 1894 by "P. Webley & Son".
- "MARK III" line was manufactured from 1894 to 1945.
- "MARK III" is marked on the left side of the top strap.
- "MARK III Pocket" was also known as the "MARK III Police & Military", "MARK III 320", "MARK III 380", and "MARK III 38".
- "MARK III" variants shared the same model designation markings.
- "MARK III Service" (in calibre 455 REV and has a different receiver/frame shape).
- "MARK III Target" (in calibre 38 S&W, no front or backstrap on the grip frame) is identifiable by features that are not found on the "MARK III".
- features include: fixed front and rear sight; top break, front hinged receiver/frame with a fluted cylinder (units in calibre .38 are one size, units in calibre .32 have a "step" down at the front); cylinder axis pin is part of the cylinder; firing pin is mounted in the standing breech of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; may have a lanyard ring; optional safety lever; grips were a two piece design, small black plastic grip plates were fitted to units marketed as a "Pocket" revolver, medium size wood grips were fitted to those units marketed to police and military buyers.
- the key-identifying feature on this model is the pronounced hump or "prawl" at the back of the receiver/frame above the grips. the other "MARK III" designated models do not have this feature.
- the "MARK III Service" revolver has the cylinder axis pin as part of the barrel assembly. The receiver frame has a "birds head" style grip without the hump or "prawl" above the grip.
- the "MARK III Target" has the conventional hammer replaced by a disc-set striker, the receiver/frame has no front or backstrap and does not have the pronounced hump or "prawl" of the "MARK III" and a one-piece walnut grip is fitted to the receiver/frame tangs by two screws (one at the top and one at the front of the grip).

Manufacturer

- "WEBLEY & SCOTT LTD" is usually marked on the top strap.
- "WEBLEY" over "PATENTS" is usually marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number observed with four or five numbers without a letter prefix or suffix.

Notes

Make

- "P. WEBLEY & SON" or "P. WEBLEY & SON LONDON & BIRMINGHAM" may be marked on the barrel.
- "WEBLEY" over "PATENTS" is usually marked on the right side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the left side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- Manufactured from 1897 to 1899.
- MARK III is marked on the top strap of the receiver/frame.
- "Webley Mark III Service" was "sealed" on 05 October 1897 and approved for both Land and Naval services by the British Government on 27 November 1897.
- Two other "MARK III" variants share the same model designation markings. The "MARK III" (in calibres .38 and .32 and has a different receiver/frame shape) and "MARK III Target" (in calibre 38 S&W, no front or backstrap on the grip frame) are identifiable by features that are not found on the "MARK III".
- The key-identifying features on this model are the calibre and the cylinder axis pin as part of the barrel assembly. The receiver/frame has a "birds head" style grip without the hump or "prawl" above the grip and a wide hammer spur. - "MARK III Target" has the conventional hammer replaced by a disc-set striker, the receiver/frame has no front or backstrap and does not have the pronounced hump or "prawl" of the "MARK III" and a one-piece walnut grip is fitted to the receiver/frame tangs by two screws (one at the top and one at the front of the grip). - "MARK III" had an optional safety lever; grips were a two piece design, small black plastic grip plates were fitted to units marketed as a "Pocket" revolver, medium size wood grips were fitted to those units marketed to police and military buyers. The key-identifying feature of the "MARK III" is the pronounced hump or "prawl" at the back of the receiver/frame above the grips, the other "MARK III" designated models do not have this feature.
- Features include: hammer mounted firing pin; cylinder axis pin is part of the barrel assembly; fluted cylinder; fixed front and rear sight; top break design; double action trigger mechanism; may have a lanyard ring; optional safety lever; grips were a two piece design.

Manufacturer

- "P. WEBLEY & SON" or "P. WEBLEY & SON LONDON & BIRMINGHAM" may be marked on the barrel.
- "WEBLEY" over "PATENTS" is usually marked on the right side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the left side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Serial Number

- serial number is marked on the right side of the receiver/frame and a portion thereof may be marked on other components.
- serial number observed consisted of four numbers without a letter prefix or suffix.
- MARK III Service was produced with its own serial number sequence.
- MARK III Service research indicates that the earliest encountered serial number is 101.
- MARK III Service research indicates that the highest serial number observed was 80,012.

Calibre

- ".455" is marked on the left side of the top strap above the cylinder.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- these firearms were often marked with a retailers or distributors name on the barrel or top-strap. As firearms were popular gifts at the beginning of the twentieth century many will also be found with dedications engraved on the barrel or other suitable surface.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "WEBLEY & SCOTT" or "WEBLEY & SCOTT LTD" is usually marked on the top strap.
- "WEBLEY" may be marked on the grip plates.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "MARK IV Police & Military" is not marked on the firearm.
- "MARK IV" is marked on the left side of the top strap or on the receiver/frame, below the cylinder.
- "MARK IV Police & Military" was manufactured from 1929 to 1968.
- "MARK IV" designation was used on three different revolvers produced by Webley, this often leads to confusion when identifying a particular sample. The physical size and calibre are the key identifying features.
- "MARK IV Service" was introduced in 1899.
- "MARK IV Service" model was issued in large numbers to British troops in South Africa between 1899 and 1902 and was sometimes referred to as the "Boer War Model".
- "MARK IV Service" model was produced in calibre 455 REV, although sub-calibre conversion units were also available for this firearm.
- in 1921, Webley & Scott started developing a smaller, lighter, version of the "MARK IV Service" in .38 calibre.
- British government allocated production of this version of the MARK IV in .38 calibre to be known as the "Pistol, Revolver No.2 MARK I" to the Royal Small Arms Factory at Enfield.
- Webley & Scott decided to offer it commercially as the "MARK IV Police & Military" model.
- "MARK IV Police & Military" model was eventually offered in .22, .32 and .38 calibre versions.
- in 1931, Webley & Scott offered a "MARK IV Police & Military Target" version.
- features include: blade front sight and a fixed or an adjustable rear sight; front hinged receiver/frame with a semi-fluted cylinder and automatic ejecting; action release lever is located on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; flat bottom grip strap with a lanyard loop; checkered grip plates; blued finish.
- "MARK IV Police & Military" model was also available with a cross bolt safety device which is located behind the hammer, this safety locked the hammer in the down position.

Manufacturer

- "WEBLEY & SCOTT" or "WEBLEY & SCOTT LTD" is usually marked on the top strap.

Action

- hinged barrel design.

Serial Number

- the serial number is usually marked on the underside of the receiver/frame ahead of the trigger guard.
- the serial number is usually repeated on the barrel assembly and cylinder.
- the serial number may be used to ascertain the year of manufacture of a particular hand gun.
- if the serial number does not bear a letter prefix and is within the range of 1 to 172219, the item was manufactured prior to 14 May 1947.
- beginning 14 May 1947, the serial number prefix of "A" was added with A100599 being the highest number in this series.
- on 26 March 1957 the "A" prefix was dropped and the "B" prefix added. The highest, and last, "B" serial number was B88165 which was completed 7 September 1979.

Calibre

- calibre is usually marked on the firearm.
- several different calibre conversion units were available for this model, some were permanent modifications while others consisted of removable barrel inserts and cylinders.

Notes

Make

- "WEBLEY" is not marked on the firearm.
- this is a Webley patent revolver manufactured at the Royal Small Arms Factory, Enfield.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "MK", a "crown", and "VI" is usually mark on right side of receiver/frame.
- "MARK VI" was officially known as the "Pistol, Revolver, Webley .455" Mark VI" or the "Pistol, Revolver, .455" No. 1 Mark VI".
- features include: fixed sights; irregular hexagonal barrel; front hinged receiver/frame with a semi-fluted cylinder, and automatic ejecting; break open action release lever is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; flat bottom grip strap with or without a lanyard ring; checkered grip plates; blued finish.
- irregular hexagonal barrel has a flat top, two flat angled sides, two flat vertical sides and a rounded bottom.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "ENFIELD" over "MK (crown) VI" over "the year of manufacture" is marked on right side of receiver/frame. - production ceased at Enfield in 1926.
Action	- hinged barrel design.
Serial Number	- serial number rationalization is unknown. - serial number is usually marked on the underside of the receiver/frame. - many examples of this model will bear regimental or service inventory numbers; do not confuse these numbers with the factory assigned serial number.
Calibre	- may be stamped on right side of barrel assembly. - observed designations include ".450/.455," "45 AUTO RIM," "455," and "45 AUTO." - examples converted for use with 45 AUTO cartridges will have had their rear cylinder face milled to accept the use of three-round half-moon clips required by the use of that rimless cartridge.

Notes

Make

- "WEBLEY" over "PATENTS" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either:
- "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "MARK VI" may be marked on the left side of the top strap and/or
- "WEBLEY", "MARK VI", "PATENTS" and year of manufacturer may be marked on the left side of the receiver/frame, below the cylinder.
- "MARK VI" service revolver was manufactured from 1915 to 1939.
- "MARK VI" was officially known as the "Pistol, Revolver, Webley .455" Mark VI" or the "Pistol, Revolver, .455" No. 1 Mark VI".
- features include: fixed sights; irregular hexagonal barrel; front hinged receiver/frame with a semi-fluted cylinder, and automatic ejecting; break open action release lever is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; bird' head or flat bottom grip strap with a lanyard ring; checkered wood grip plates; blued finish.
- irregular hexagonal barrel has a flat top, two flat angled sides, two flat vertical sides and a rounded bottom.
- "MARK VI" was also available with a sub calibre conversion mechanism, bayonet attachment or shoulder stock attachment.

Action

- hinged barrel design.

Serial Number

- serial number is marked on the underside of the receiver/frame in front of the trigger guard and may be repeated on the barrel assembly and cylinder.
- serial number range was from approximately 153,000 to 456,000.

Calibre

- calibre is usually marked on the left side of the barrel: ".450/.455".
- calibre .45 Auto requires half-moon clips to operate properly.

Other Markings

- may be marked on the left side of the frame/receiver, in four lines:
"WEBLEY"
"MARK VI"
"PATENTS"
"date: example 1915"

Remarks

- sub-calibre adaptors were manufactured for Webley revolvers, the Parker Hale adaptor for the MARK VI, allowed the revolver to be able to fire 22 RF ammunition. This was not a permanent conversion.
- a conversion kit consisted of the following items: auxiliary calibre 22 Rifled barrel; cylinder assembly, complete with extractor, chambered for six calibre 22 Rimfire cartridges; muzzle attachment nut; separate sight mount; sight mount screws; sight blade; breech locking collar; and assembly tool.

Notes

Make

- "WEBLEY MARK VI PATENTS 1915" is marked on the left side of the receiver/frame.

Model

- "MARK VI" is marked on the left side of the topstrap, and on the left side of the receiver/frame.
- this airgun resembles the Webley Mark VI 455 break-top revolver, and is designed to fire BBs from inserts resembling hollow cartridges that are loaded into the cylinder.
- features include: hexagonal rifled or smoothbore barrel; fixed open sights; front hinged receiver/frame with action release lever mounted on the left side of the top strap to the rear of the semi-fluted cylinder; two position sliding safety on the right side of the receiver/frame above the round trigger guard; exposed spur hammer; single/double action trigger mechanism; checkered synthetic grips; flat bottom grip strap with a lanyard ring; black or bright nickel finish.

Action

- CO_2 cartridge powered.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500fps) and/or a muzzle energy exceeding 5.7 Joules.
- hinged barrel revolver design.

Serial Number

- The serial number is located on the right side of the receiver/frame.
- A two-number prefix followed by one letter and five numbers was observed.

Calibre

- "cal. 6mm BB" is marked on the right side of the receiver/frame.

Notes

Make

- "WEBLEY MARK VI PATENTS 1915" is marked on the left side of the receiver/frame.

Model

- "MARK VI" is marked on the left side of the topstrap, and on the left side of the receiver/frame.
- this airgun resembles the Webley Mark VI 455 break-top revolver, and is designed to fire either BBs or pellets from inserts resembling hollow cartridges that are loaded into the cylinder.
- features include: hexagonal rifled or smoothbore barrel; fixed open sights; front hinged receiver/frame with action release lever mounted on the left side of the top strap to the rear of the semi-fluted cylinder; two position sliding safety on the right side of the receiver/frame above the round trigger guard; exposed spur hammer; single/double action trigger mechanism; checkered synthetic grips; flat bottom grip strap with a lanyard ring; black or bright nickel finish.

Action

- CO2 cartridge powered.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500fps) and/or a muzzle energy exceeding 5.7 Joules.
- hinged barrel revolver design.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- A two-number prefix followed by one letter and five numbers was observed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- ".177 cal." is marked on the right side of the receiver/frame.
- "(4.5mm)" may be marked under ".177 cal."
- "BB" may be marked after "(4.5mm)".
- ".455" is marked on the left side of the barrel near the cylinder; this calibre marking is intended to resemble that of the original firearm.
- BB version has a smoothbore barrel.
- pellet version has a rifled barrel.

Canadian Law Comments

- Does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- production from approximately 1883 to 1896.
- "WEBLEY'S", a pair of handcuffed hands/two manacled hands and "M.P." may be marked on the left side of the receiver/frame.
- "M.P." is the abbreviation for "Metropolitan Police".
- "MP" may also be known as "Metropolitan Police" or "Webleys M P Model".
- "MP" revolver was based on the RIC No. 1 New Model.
- features include: blade front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a removable fluted or plain cylinder and a right side swing down loading gate; right side swing out ejector rod assembly is mounted on the front of the receiver/frame; exposed spur hammer with a fixed firing pin; double/single action trigger mechanism; saw handle type grip strap with metal butt cap and lanyard ring; checkered wood grip; blued or nickel plated finish.
- NOTE: a police service number and the initials of a police force may also be found on the left side of the receiver/frame, eg. "2146" and "N.S.W. POLICE".

Serial Number

- serial number may be marked on the left or right side of the receiver/frame.
- serial number placement may vary.
- serial number "99708" should not to be confused with the "N.S.W." police service number "2146" found on the left side of this example.

Calibre

- "450" is usually marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - removable cylinder.

Notes

Make

- "P. WEBLEY & SON" may be marked on the top strap or barrel.
- "WEBLEY'S" over "No 1" over the calibre is usually marked on the front left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm.

Model

- "WEBLEY'S" over "No 1" over the calibre is marked on the front left side of the receiver/frame.
- Features include: solid top receiver/frame with non-fluted cylinder; hinged loading gate on the right side of the receiver/frame; exposed spur hammer; bird's head grip strap or angular semi saw grip strap with a metal butt cap; checkered wood or smooth ivory grip plates.
- Ejection is accomplished by unscrewing the knob of the short rod carried in the butt.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "P. WEBLEY & SON" over "LONDON & BIRMINGHAM" or "P. WEBLEY & SONS" over "ST JAMES'S LONDON" may be marked on the top strap. - "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm. - "P. WEBLEY & SON" over "LONDON & BIRMINGHAM" markings were used on firearms after 1860. - "P. WEBLEY & SONS" over "ST JAMES'S LONDON" markings were used on firearms after the opening of the Shaftesbury Avenue showroom in 1893.
Serial Number	- serial number is marked on the left front side of the receiver/frame.
Calibre	- The calibre designation is marked on the left side of the receiver/frame. - Calibres observed marked as "320 CF", " 380 CF", and "38 RIM".
Canadian Law Comments	- Some examples of this model, when manufactured prior to 1898 may be considered Antique in Canada.

Notes

Make

- "P. WEBLEY & SON" may be marked on the top strap.
- "WEBLEY'S" is marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm.
- "P. WEBLEY & SON" over "LONDON & BIRMINGHAM" or "P. WEBLEY & SONS" over "ST JAMES'S LONDON" may be marked on the top strap.
- "P. WEBLEY & SON" over "LONDON & BIRMINGHAM" markings was used on firearms after 1860.
- "P. WEBLEY & SONS" over "ST JAMES'S LONDON" markings were used on firearms after the opening of the Shaftesbury Avenue showroom in 1893.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "WEBLEY'S" over "No 1 1/2" is marked on left side of the receiver/frame. - features include: fixed blade front sight and groove in the top strap for a rear sight; octagonal barrel; solid top receiver/frame with removable non fluted cylinder and right side swing down loading gate; exposed spur hammer; double/single action trigger mechanism; bird's head type grip strap with a metal butt cap; checkered grip panels. - ejection is made by unscrewing the knob of the short rod carried in the butt. - additional special characteristics of this model series include: the lock mechanism differed from that of the RIC No. 1 in that there was no intermediate sear; the main spring was a single limb type; a spring lever safety device was located on the left side of the receiver/frame behind the cylinder, this device locked the hammer at half cock in order to facilitate the safe loading of the cylinder. - this firearm was introduced either concurrent with or somewhat after that of the Webley No. 2 revolver, circa early 1880's; there is no indication that this model series was manufactured later than circa early-mid 1890's.
Serial Number	- serial number is marked on the left front side of the receiver/frame. - observed serial numbers consisted of five numbers without a letter prefix or suffix.
Calibre	- calibre is marked on the left front side of the receiver/frame.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- The make is not marked on the firearm.
- British proof marks are present on the firearm.

Model

- The model designation is not marked on the firearm.
The model designation may be marked lightly by pantograph or electric pencil marking.
- "No 1 MARK 5" is available with a shorter barrel having a stud on the left side as the "No 2 MARK 5".
- "No 1 MARK 5" is of stamped-steel construction with a steel barrel having a flange/"blunderbuss" belled muzzle.
- Features include: trapezoid shaped trigger guard; inverted "U" shaped barrel latch; rounded bottom and back pistol grip; pistol grip can be plastic, aluminium or wood; loop lanyard at the bottom of the grip; usually painted black.

Serial Number

- Serial number is marked on the left side on the chamber area of the barrel.
- Serial number of a referenced example consisted of six numbers.

Calibre

- The calibre designation is usually marked on the barrel.

Notes

Make

- "P. WEBLEY & SON" over "LONDON & BIRMINGHAM" or "P. WEBLEY & SON" over "BIRMINGHAM" is usually marked on the barrel.
- "WEBLEY'S'" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "WEBLEY'S" over "No 2" over the calibre designation is usually marked on the left side of the receiver/frame.
- "THE BRITISH BULL DOG" is usually marked on the top strap.
- manufactured circa 1879 to 1914.
- features include: single/double action trigger mechanism; right side loading gate, swing-out case ejector rod stored within the cylinder axis rod and a birds-head style handgrip.
- barrel is ovate and may have an unusual taper with the diameter at the muzzle end being greater in diameter than where the barrel meets the receiver/frame.

Serial Number

- serial number is usually marked on the left side of the receiver/frame.
- the serial numbers for this model had reached approximately 60000 in the early 1880s.
- by 1906 serial numbers had reached 87800.

Calibre

- calibre is usually marked on the left side of the receiver/frame.
- a model chambered for a rimfire cartridge may be marked "RIM" on the receiver/frame. This may be marked on the left side of the receiver/frame in front of the cylinder or under the grip panels.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "P. WEBLEY & SON" is usually marked on the top strap.
- "Webley's" may be marked on the side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Webley's" and "No. 5" may be marked on the side of the receiver/frame. - in 1881, the Army & Navy Co-operative Stores Limited advertised this model as Webley's New Model Solid Frame Express Revolver in calibre 455. - in 1886, the Army & Navy Co-operative Stores Limited advertised this model as Webley's New Express Revolver No. 5 .360. - this model was also be known as the "New Model Army Express No. 5", "New Model Solid Frame Express Revolver", "New Express Revolver No. 5 .360" or "No. 5 .360 Express Revolver. - production of this model ceased circa 1914/1915. - this revolver was made in four variations, three were large calibre service types and one as a smaller calibre pocket model. - features include: ejector rod mounted on the right side of the barrel and receiver/frame or centre swing-type; solid top receiver/frame with round or steeple shaped cylinder flutes and right side loading gate; exposed spur or spurless hammer; single/double action trigger mechanism or single action only trigger mechanism; lanyard loop mounted on the butt; some variant were capable of having a buttstock attached to the grip. - steeple shape cylinder flutes were discontinued at serial numer 66000, and around 1899-1900. This can be used to help determine a date of manufacture as pre-1898
Manufacturer	- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
Serial Number	- serial number is usually marked on the left side of the receiver/frame. - the last three digits of the serial number may be marked on the cylinder and barrel. - S/N 66000 is mentioned in references as occuring around the turn of the last century, 1899-1900, and can be used to establish an aproximate date of manufacture.
Calibre	- calibre designation is usually marked on the side of the receiver/frame or on the barrel and/or cylinder.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- one known example had no visible Webley identification marks, however, it was marked with the Distributor's name on the top strap as, "Holland & Holland" over "98 New Bond St. London".

Notes

Make

- "P. WEBLEY & SON" may be marked on the top strap.
- "WEBLEY'S" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "WEBLEY'S" over "R.I.C." over "MODEL / 83" over "5 SHOTS" is usually stamped on the left side of the receiver/frame in front of the cylinder.
- introduced by Webley in 1883 and was still being offered for sale by Webley & Scott in 1939.
- total production of approximately 102,634 units.
- features include: round barrel; fixed sights; solid top receiver/frame with fixed fluted cylinder; right side loading gate; swing-out case ejector rod stored within the cylinder axis rod; exposed spurred hammer; single/double action trigger mechanism; lanyard ring at bottom of grip.
- the "R.I.C. Model 83" was originally sold by the Army & Navy Co-operative Stores in 1884 in calibres .320, .380, and .450 and in five shots only. In 1893, Army & Navy was selling this same model in calibre .455.
- in 1911, the Director General of India Stores placed an large order for this model in calibre .455, these revolvers were marked with the Broad Arrow above the letter "I".

Serial Number

- serial number is marked on left side of receiver/frame below the cylinder, and possibly on the cylinder as well.
- by 1914 serial numbers had reached 96600 and continued on to approximately 103,000 when production ended in the 1930s.

Calibre

- the calibre designation is usually marked on the left side of the receiver/frame and may be repeated on the rear face of the cylinder, eg. "455".

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- may be marked with British War Office inspection marks and a Broad Arrow above an "I" The "I" is for India.
- may also be marked with a retailers name, eg. "W.R.Pape" over "Newcastle upon Tyne". "William Rochester Pape" was in business at 44 Westgate Street, Newcastle upon Tyne in 1857. In 1863, Pape moved to the North of England Gun Works at 86 Westgate Street. Pape moved to 21 Collingwood Street and ceased business after the First World War. W.R. Pape died in 1923

Notes

Make

- "P. WEBLEY & SON" may be marked on the top strap.
- "WEBLEY'S" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- production began in 1867, with orders filled as late as 1913.
- "R.I.C." and "No 1" are usually marked on the left side of the receiver/frame.
- "RIC" denotes Royal Irish Constabulary.
- "RIC No 1" is a solid top receiver/frame revolver.
- "RIC No 1" is loaded and unloaded through a spring loaded gate on the right side of the receiver/frame.
- the ejector rod pivoted on the barrel on early models and on the frame of later models.
- some models will have a fluted cylinder, on early models this was only on the large calibres, on later models, sometimes known as the RIC No1 New Model (may be so marked) the cylinder was fluted for most calibres.
- usually marked " R.I.C. No 1" or (RIC No1 New Model) on the left side of the receiver/frame.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- these revolvers may have additional markings that are rack or regimental numbers or letters that are the abbreviations of force or department names. These should not be confused with the serial number.

Calibre

- the calibre may be marked on the receiver/frame.
- calibre may be marked in English or the Metric designation.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- these revolvers may have additional markings that are rack or regimental numbers or letters that are the abbreviations of force or department names. These should not be confused with the serial number.
- eg. TPF, Toronto Police Force.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks - these revolvers were used by numerous law enforcement and government agencies around the world.

- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "WEBLEY'S" over "R.I.C" over "No 1" and "calibre designation" over "NEW MODEL" is marked on the front left side of the receiver/frame. - introduced circa 1880's. - date of termination of production is undetermined, however, based on the popularity RIC model line, it is likely that production lasted into the early 1900's. - features include: blade front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a fluted cylinder and right side swing down loading gate; ejector rod is of the "acorn" style fixed to the right front side of the receiver/frame with the ejector rod housed within the cylinder axis pin, and the ejector rod swings to the right to align with the cylinder chambers; exposed spurred hammer; single/double action trigger mechanism; checkered hardwood grip; lanyard ring; blue or nickel plated finish.
Manufacturer	- "WEBLEY" and/or "WEBLEY'S" and/or the "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
Serial Number	- serial number is usually marked on the front left side of the receiver/frame and may be repeated on the cylinder. - serial numbers are numeric only without prefix or suffix. - note: by October 1884, serial numbers in this model series had exceeded 60,300.
Calibre	- calibre is usually marked on the front left side of the receiver/frame.
Other Markings	- the name's of various British firearm manufacturers/retailers may also be marked on the barrel or the top strap of this model; e.g., "Cogswell & Harrison, 276 Strand & 142 New Bond St. London".

Notes

Make	- "WEBLEY'S" is usually marked on the side of the receiver/frame. - "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame. - "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD". - "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897. - "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915. - "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906. - "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.
Model	- "WEBLEY'S" over "R.I.C." over "No. 2" followed by the calibre designation is usually marked on the front left side of the receiver/frame in front of the cylinder. - "RIC" is the acronym for Royal Irish Constabulary. - "Royal Irish Constabulary" police force adopted the "RIC No 1" revolver in 1868. - "RIC No 2" model was manufactured from the 1880's to circa 1914. - features include: blade front sight and a groove top strap for a rear sight; solid top receiver/frame with a removable fluted or non-fluted cylinder and a right side swing down loading gate; right side swing out ejector rod is housed on the front of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; one or two piece grips; metal butt cap with lanyard ring loop; blued or nickel plated finish.
Manufacturer	- RIC No 2 model was produced from the 1880's to the early 1900's.
Serial Number	- serial number is usually marked on the receiver/frame, it may also be repeated on other components. - research indicates that the highest known serial number for this model was 100139; this piece was included in a shipment of arms from Webley to a distributor dated October, 1914.
Calibre	- calibre identification is marked on the left front side of the receiver/frame.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- many of these firearms will be marked with a retail sales outlet or a distributor's name on the top of the barrel; "J.BRADDELL & SON" is but one example of the markings that may be encountered.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "P. WEBLEY & SON" may be marked on the top strap.
- "WEBLEY'S" is usually marked on the side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "Webley's R.I.C. No 3 and the calibre" is marked on the front right side of the receiver/frame.
- early models can be identified by the pronounced hump on the pistol grip, unfluted external ratchet cylinder and the friction brake which leaves a rub mark around the center of the cylinder. The cylinder has a solid axis rod held in the frame by a spring catch on the left side of the frame. There is no ejector rod. In later versions of this model, the pistol grip hump is less pronounced and the cylinder ratchet is internal and the locking grooves can be at the front or the rear of the cylinder. An ejector rod is screwed into the pistol grip.
- this firearm is very similar in appearance to the Webley RIC No 1 revolver, the major difference is the spring latch on the front left side of the receiver/frame which holds the cylinder axis pin in place.
- produced circa 1880's; date of termination of production is undetermined, however, based on the popularity RIC model line, it is likely that production lasted into the early 1900's.

Serial Number

- the serial number is usually marked on the firearm.
- serial number will be marked on either the left or right side of the receiver/frame.
- serial numbers are number sequential only without prefix or suffix.

Other Markings

- "E. M. REILLY & CO. 315 OXFORD STREET LONDON" may be marked on the top strap. This is a retailer for this firearm. - Some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "WEBLEY" over "PATENTS" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- manufactured from 1886 until circa 1906.
- "WG", "WG Model", "WG Model" with date of manufacture, eg., "WG Model 1892" or a variation thereof is usually marked on left side of top strap.
- WG model series is a design-improved version of the former Webley Improved Government revolver of circa 1881-1885.
- "WG" has been associated with the name Webley-Green, however, research has indicated that "WG" is understood to be the acronym for "Webley Government".
- "WG" model is a double action, top break revolver with simultaneous ejection.
- features include:
- large rounded barrel-to-frame hinge at front of receiver/frame designed for greater rigidity and strength.
- large thumb-actuated barrel release lever on left side of receiver/frame; this latch may also be referred to as the Webley "stirrup" or "bridle" latch.
- may have bird's head type grip or square butt configuration, with or without lanyard ring on bottom butt strap.
- trigger guard is forged integrally with the receiver/frame.
- grip frame is noticeably humped behind the hammer.
- left side of receiver/frame has a removable "access" plate held in place by two slot-head screws.
- may have distinctively shaped "church steeple" type cylinder fluting with later models having the more traditional round shaped fluting; research has indicated that the use of the "church steeple" type of fluting ceased circa 1893.
- research indicates that the practice of putting the date of manufacture on the firearm ceased circa 1893.
- available in blued or nickel plated finish.
- sub-calibre conversion units were available for this firearm.

Action

- hinged barrel design.

Serial Number

- serial number usually marked on right side of receiver/frame.
- known examples have had four and five digit numbers without prefix or suffix.

Calibre

- calibre usually marked on left side of barrel lug or left side of top strap.
- typical examples of calibre markings include; .450, .455, .450/.455, .455/.476, .476.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- distributors name may be marked on top rib of barrel; some of the known distributors are:
- Army & Navy C.S.L.
- George Gibbs, Corn Street, Bristol.
- Manton & Co. London and Calcutta.
- McLoughlin & Sons, Cheltenham.
- E.M. Reilly & Co. 16 New Oxford Street, London.

Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915. - "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906. - "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.
Model	- "WG ARMY MODEL" is marked on the left side of the top strap over the cylinder. - manufactured from 1886 until circa 1906. - "WG" model series is a design-improved version of the former Webley Improved Government revolver of circa 1881 to 1885. - "WG" is often associated with the name Webley-Green, however, research has indicated that the letters "WG" is understood to be the acronym for "Webley Government". - double action, top breaking with simultaneous ejection. - typical characteristics; - large rounded barrel-to-frame hinge at front of receiver/frame designed for greater rigidity and strength. - large thumb-actuated barrel release lever on left side of receiver/frame; this latch may also be referred to as the Webley "stirrup" or "bridle" latch. - may have bird's head type grip or square butt configuration, with or without lanyard ring on bottom butt strap. - trigger guard is forged integrally with the receiver/frame. - grip frame is noticeably humped behind the hammer. - left side of receiver/frame has a removable "access" plate held in place by two slot-head screws. - may have distinctively shaped "church steeple" type cylinder fluting with later models having the more traditional round shaped fluting; research has indicated that the use of the "church steeple" type of fluting ceased circa 1893. - research indicates that the practice of putting the date of manufacture on the firearm ceased circa 1893. - available in blued or nickel plated finish. - sub-calibre conversion units were available for this firearm.
Manufacturer	- Webley firearms sold by distributors or other firearms makers may have the name of the firm marked on the top of the barrel instead of the Webley name, e.g., "Army & Navy C.S.L.".
Action	- hinged barrel design.
Serial Number	- serial number is usually marked on the right side of the receiver/frame although its placement may vary in some cases. - serial numbers are numeric only without prefix or suffix. - serial number 16216 was sold by J.F. King of Durban, South Africa who was in operation circa 1873 to 1898.
Calibre	- "450", "455", "455/476", or "476" may be marked on the left side of the barrel lug.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

35905 - 4	7.65MM	8	113	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- left side of the slide will be marked, "Webley & Scott Ltd.", over "London & Birmingham", over "7.65m/m & .32 Automatic Pistol".
- the Webley & Scott "Winged Bullet" trademark is also apparent on the rear left side of the slide immediately in front of the grasping grooves.

Model

- no model name is marked on this firearm; the model description is determined by the physical characteristics exhibited by the Humane Killer (HK) conversion performed on the Webley & Scott model 1908 semi-automatic pistol.
- manufactured from circa 1920 to 1939.
- this pistol is a rework/conversion of a Webley & Scott model 1908 pistol by the addition of a modified barrel and magazine; a special longer barrel was installed, this barrel was fitted with an angled muzzle flange with a serrated face, the barrel also had two port holes behind the flange to allow for the escape of gases; the magazine was modified with a wooden block to allow for the insertion of one cartridge only.
- later versions of the Humane Killer may have been further modified to incorporate a safety feature whereby the recoiling of the slide would automatically reset the safety to the "Safe" position; this feature was installed to prevent the accidental discharge of a second cartridge which could be loaded into the pistol by the user for the purpose of securing a two shot capability; this was done by loading the pistol with one round then removing the magazine and recharging it with another cartridge to give an increased capacity of two rounds.
- all other features of this handgun are identical to the Webley & Scott, Model 1908 semi-automatic pistol.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- left side of the slide will be marked, "Webley & Scott Ltd.", over "London & Birmingham", over "7.65m/m & .32 Automatic Pistol". - the Webley & Scott "Winged Bullet" trademark is also apparent on the rear left side of the slide immediately in front of the grasping grooves.
Action	- recoil operated.
Serial Number	- the serial numbering for Webley & Scott 32 Auto/7.65 MM Humane Killer pistols falls within the serial numbering range of the Webley & Scott model 1908. - the serial number is usually marked on the rear left side of the receiver/frame and will consist of six numbers without prefix or suffix.
Shots	- detachable box magazine with a wooden plug installed to prevent more than one cartridge being loaded into the magazine. - the standard box magazine for this firearm holds eight cartridges.

Notes

Make

- "WEBLEY & SCOTT" and the trademark logo of a winged bullet with the letters "W&S" is marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- manufactured from 1911 to 1940. - adopted by the London Metropolitan Police in 1911. - may also be known as "MP", "1911" or "Metropolitan Police". - the "MP" model normally displays a Crown over the letters MP on the left side. - often found with a retailers name engraved on the slide, e.g. "Army & Navy CSL, London"
Manufacturer	- "WEBLEY & SCOTT LTD" over "LONDON & BIRMINGHAN" is marked on the left side of the slide.
Action	- blowback operated.
Serial Number	- may range from 60126 to approximately 163382. - the serial number is often accompanied by a British "Broad Arrow" mark.
Calibre	- calibre is marked on the left side of the slide.
Shots	- detachable box magazine.
Other Markings	- Webley's "Flying Bullet Trade Mark with W&S marked under it" is marked on the left side of the slide.

25035 - 2	22 LONG	1	229	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WEBLEY & SCOTT LTD" is marked on the left side of the slide.

Model

- approximately 1500 were manufactured from 1911 to 1932.
- 1911 Semi-Automatic resembles a traditional semi-automatic pistol, but is not a true semi-automatic handgun.
- 1911 Semi-Automatic has no recoil spring or magazine.
- 1911 Semi-Automatic, when fired is momentarily held in the closed position by the inertia of the slide, hammer and hammer spring. The slide travels to the rear and ejects the cartridge case.
- 1911 Semi-Automatic slide has to be manually cycled closed after each shot.
- some pistols will be marked with the "Metropolitan Police" mark of a crown over the letters MP. This, however, does not make these pistols an MP Model.

Manufacturer

- "WEBLEY & SCOTT LTD" over "LONDON & BIRMINGHAM" is marked on the left side of the slide.

Serial Number

- serial number is located on the rear left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre is marked on the right side of the slide.
