27775 - 24	20 GA X 2 3/4"	2	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WEBLEY & SCOTT" or "WEBLEY & SCOTT LTD" and/or "W & S" is marked on the firearm.

Model

- manufactured from 1949 to 1980.
- this is the "mid-grade" version of the model 700, more detailed and finely-finished than the stock 700, but not so much as the 701.
- features include: blued side by side smoothbore barrels with concave rib and bead front sight; engraved front hinged receiver/frame with top tang mounted break open lever and automatic safety; box lock action; hammerless; ejectors; single or double triggers; checkered wood beavertail or splinter forearm and straight or pistol grip buttstock.

Action

- side by side pattern.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number of a referenced example was marked on the rear tang of the trigger guard and consisted of six numbers.
Barrel	- barrel length between 25"/635mm and 30"/762mm; left to customer's choice.

143500 - 2	22 PELLET	1	445	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WEBLEY & SCOTT" is marked on the breech assembly.
- "Made in Turkey" may be marked on the firearm.

Model

- introduced in 2012.
- "WEBLEY BLACKHAWK QUATTRO" is marked on the right side of the firearm.
- this is a spring-piston operated; single stoke, barrel cocking air rifle.
- features include: Tru-Glo fiber optic open sight system and micro-click adjustable rear sight; round, steel rifled barrel; front hinged receiver/frame is grooved for scope mounts; POWR-LOK mainspring; tuned vibration absorber; automatic resettable safety catch; fully adjustable two stage Quattro trigger; All Weather Polystock, ambidextrous thumbhole pistol grip stock with a non-slip forend and grip; rubber butt plate/recoil pad; black/blue metal finish.
- "WEBLEY BLACKHAWK QUATTRO" may feature a QGSII Sound Moderator / silencer.
- Options: available with Nikko Stirling scope, plus bases and rings
- overall length with a 290 mm (11.4") barrel is 1020 mm (40.3"), and the average weight is 3.0 kgs (6.6 lbs).

Action

- spring-piston powered, hinged barrel design.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization is unknown.
- serial number observed consisted of four numbers, separated by a space, and five numbers, without a letter prefix or suffix.

Canadian Law Comments

- if the firearm leaves the factory equipped with a sound moderator/suppressor/silencer, the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound moderator/suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

FRT Report

Firearm Reference Number (FRN): 108895
Make: Webley & Scott
Model: FX2000

Summary

Make:	Webley & Scott
Model:	FX2000
Manufacturer:	Webley & Scott
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
108895 - 4	22 PELLET	8	380	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
108895 - 6	22 PELLET	8	500	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the air rifle.

Model

- introduced in 2000.
- features include: beech or walnut stock with a checkered pistol grip and forend; bolt action cocking and loading; pressure gauge in the forend; blued finish (the "Hunter" version has a brass trigger and bolt handle); adjustable trigger and a ventilated recoil pad.
- also available with a telescopic sight and bipod.
- the muzzle of the barrel is threaded for a sound suppressor/silencer.

Manufacturer

- the Webley & Scott name will be found on the firearm.

Action

- discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Canadian Law Comments

- if the firearm leaves the factory equipped with a sound moderator/suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound moderator/suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- marked "WEBLEY & SCOTT LTD / BIRMINGHAM ENGLAND" on the bottom of the compression chamber cap at the front of the receiver/frame.

Model

- "HURRICANE" or WEBLEY HURRICANE" is marked on both sides of the compression chamber nosecap.
- features include: single stroke pneumatic air pistol that is cocked by pulling the rear of the barrel up and over the muzzle; black synthetic grip panels, matte black finish on the remainder of the pistol, hooded front sight, single stage trigger, thumb operated safety and barrel latch on the left side of the pistol.
- this is the same pistol as the "Tempest", only with an extended frame to mount a click-adjustable rear sight or telescope.

Manufacturer

- manufacturer's designation is marked on the firearm.

Action

- single stroke pneumatic air pistol.
- in calibre 177 PELLET: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- early production examples will not be serial numbered, but if a serial number is present, it will usually be marked on the left hand side of the compression chamber above the trigger.
Barrel	- the forward portion of the barrel is contained in a sleeve attached to the cocking arm; where the actual length of the barrel is 174mm, the length of the sleeve and barrel combined is normally around 203 or 204mm.
Importer	- newer versions of this model will have "Beeman Precision Arms Inc." marked on the compression chamber nosecap.
Other Markings	- the left hand side on the air reservoir is marked: "Beeman PRECISION ARMS INC." "SANTA ROSA CALIF.95403"

Notes

Make

- "WEBLEY & SCOTT" and "MADE IN TURKEY" are marked on the left side of the firearm.

Model

- "Webley Jaguar" is marked on the left side of the receiver/frame.
- introduced 2008.
- NOTE: an earlier air rifle made by Webley & Scott was also known as the Jaguar and was introduced circa 1940's and ceased production circa late 1970's.
- this is a single shot, break-barrel cocking, air rifle.
- features include: rifled steel barrel with adjustable fibre-optic sights; adjustable trigger; anti bear-trap cocking safety; olive drab synthetic stock with recoil pad; blued finish.
- overall length of 1118 mm (44") and average weight of 3.3 kgs (7.3 lbs).

Manufacturer

- "MADE IN TURKEY" is marked on the left side of the firearm.

Action

- spring piston, break-barrel cocking.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- known examples had a nine digit number without prefix or suffix marked on the left side of the breech area.

Calibre

- calibre designation is marked on the left side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - known examples were marked, " Made in Turkey".

Notes

Make

- "WEBLEY & SCOTT" and/or "W & S" is marked on the firearm.

Model

- the Model KA is a "basic" side by side hammerless double. "KB" and "KC" variations were also produced, with each being slightly more well finished.
- features include: side by side barrel configuration with concave rib; hinged receiver/frame with top tang mounted break open lever; boxlock; hammerless; automatic tang mounted safety; single or double triggers; checkered wood; straight or pistol grip buttstock; beavertail or splinter forend and very little engraving.

Action

- side by side barrel configuration.

Barrel

- barrel length was left up to the customer's choice, but most likely would have been between 660mm and 762mm.

Notes

Make

- "WEBLEY & SCOTT LTD" was observed marked on the left side of the barrel assembly, on one sample.

Model

- introduced in 2003.
- "LONGBOW" was observed marked on the left side of the receiver/frame.
- features include: round barrel with threaded muzzle end; no sights; rifled bore; grooved receiver/frame; one piece semi-pistol grip Monte Carlo stock with cheekpiece.
- available in a deluxe version featuring a walnut stock instead of a beech stock.
- overall length with a 330mm (13") barrel is 991mm (39"), average weight is 3.3kg (7.3lbs).

Manufacturer

- "WEBLEY & SCOTT LTD" was observed marked on the left side of the barrel assembly, on one sample.

Action

- spring-piston powered.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Calibre

- calibre designation may be marked on the firearm.

Canadian Law Comments

- if the firearm leaves the factory equipped with a sound moderator/suppressor/silencer then the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound moderator/suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
27881 - 3	6.5X54 MANNLICHER-SCHOENAUER	5	525	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- make may not be marked on the firearm.
Model	- this is a rifle built by Webley and Scott on an imported Mannlicher action.
Manufacturer	- Webley & Scott is an English gun-making company that began in the 1830s when two brothers, James and Philip, began manufacturing percussion revolvers. The company later expanded into manufacturing shotguns, and changed its name to "P. Webley & Son", as the son of one of the original owners had joined the business. In 1897, the company joined another company, W & C Scott and Son, to become "Webley and Scott Revolver and Arms Co., Ltd.", and finally changed its name in 1906 to "Webley and Scott Limited". The company ceased operations in 1979, but built rifles, shotguns, pistols, and revolvers while it was still in business.
Action	- turn bolt operated.

Model

- "Pistol Self-Loading 455 Mark I No 2" is marked of the left side of the slide.
- date of manufacture may also be marked on the left side of the slide underneath the model designation.
- this pistol was officially approved on 26 April 1915 under the nomenclature "Pistol, Self-Loading Webley & Scott .455 inch No. 2 Mark I - Stock, Butt, Detachable".
- produced circa 1915 to 1916.
- recoil operated, semi-automatic, detachable box magazine.
- features usually include;
- exposed hammer mounted centrally at the rear of the receiver/frame with the patented "hammer safety lever" mounted on the left side of the hammer which enables the pistol to be carried with the hammer in the full cock position,
- grip safety,
- slide release button located on the left side of the receiver/frame above the left grip plate,
- plain round barrel with an integrally machined fixed blade foresight,
- adjustable rear sight,
- lower left side of the grip frame slotted for attachment of a detachable wooden buttstock,
- magazine release button located on the bottom rear of the magazine housing,
- lanyard ring fixed to the bottom of the rear grip strap,
- checkered hard rubber or walnut grips.
- the magazine of this pistol has a special two-position feature which allows the magazine to be retained in the grip frame in two positions, i.e., fully inserted where it allows normal semi-automatic functioning, or partially inserted whereby the contents of the magazine are 'held in reserve' and are not fed into the chamber thus necessitating the hand-loading of a fresh cartridge into the breech in a single-shot manner.

Manufacturer

- Webley & Scott Ltd" is marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- serial numbers usually consisted of five digit numbers without prefix or suffix. - serial numbers will be located on the receiver/frame.
Shots	- detachable box magazine.
Remarks	- this pistol was issued to the Royal Flying Corps and to the Royal Horse Artillery (RHA).

Notes

Model

- the barrel is threaded for a sound suppressor/silencer.
- this is a standard-pattern break-barrel spring-piston air rifle, with a walnut-stained beech pistol-grip stock with Monte Carlo cheekpiece, rubber buttpad, adjustable trigger, and fully-adjustable rear sights.
- receiver tube is grooved for mounting a scope.

Manufacturer

- marked on the firearm.

Action

- break-barrel spring-piston air rifle.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 25 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 20 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- if the firearm leaves the factory equipped with a sound moderator/suppressor/silencer, the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound moderator/suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- "Webley & Scott Ltd." is usually marked on the right side of the receiver/frame.
- the name "Webley" is usually embossed at the top of both grip plates.

Model

- "THE WEBLEY PREMIER" is marked on the left side of the receiver/frame.
- produced from 1964 to circa 1975 as the evolution of the Senior model.
- this is a single stroke pneumatic air pistol with the barrel hinged at the front of the receiver/frame; cocking is achieved by pulling the rear of the barrel up and over the muzzle.
- six variations produced with each series marked with a capital letter (A to F) marked near the trigger guard on the front of the grip strap.
- features include: blued finish; forged steel construction with brown bakelite grip plates; adjustable trigger and rear sight; thumb operated barrel latch located at the rear left side of the receiver/frame.
- accessory barrel assemblies available in either 177 PELLET or 22 PELLET.

Manufacturer

- "Webley & Scott Ltd." is usually marked on the right side of the receiver/frame.
- the name "Webley" is usually embossed at the top of both grip plates.

Action

- single stroke pneumatic design.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number of an observed example was marked on the face of the compression cylinder at the muzzle and consisted of three numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "177" or "22" is marked on the left side of the barrel hinge assembly at the muzzle.
Other Markings	- markings usually found on the receiver/frame are "Webley & Scott Ltd." and "Made in England".

Notes

Make	- "Webley & Scott Ltd." is usually marked on the right side of the receiver/frame. - the name "Webley" is usually embossed at the top of both grip plates.
Model	- "PREMIER MK. II" is usually marked on the right side of the receiver/frame by means of a plastic 'stick-on' type of label. - produced circa 1964 to circa 1977. - this is a single stroke pneumatic air pistol with the barrel hinged at the front of the receiver/frame; cocking is achieved by pulling the rear of the barrel up and over the muzzle. - features include; black synthetic grip plates; adjustable trigger; thumb operated safety/barrel latch located at the rear left side of the pistol; matte black finish.
Manufacturer	- "Webley & Scott Ltd." is usually marked on the right side of the receiver/frame. - the name "Webley" is usually embossed at the top of both grip plates.
Action	- single stroke pneumatic design. - does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- not usually serial numbered, however the pistol may be marked with a 'batch' number which may be marked underneath the grip; the batch number is not a serial number. - research literature has revealed the existence of batch numbers ranging from 20 to 966.
Other Markings	- markings usually found on the right side of the receiver/frame are; "Webley & Scott Ltd.", over "Premier MK II", over "Made in England".

Notes

Make

- "WEBLEY" and "WEBLEY & SCOTT" is marked on the air rifle.

Model

- "WEBLEY RAIDER" is marked on the left side of the air rifle.
- introduced in 2000.
- this is a standard-pattern pre-charged pneumatic (PCP) air rifle.
- features include: ambidextrous walnut or beech stock; blued barrel and receiver/frame; bolt action cocking and loading; ventilated recoil pad.
- the barrel is threaded for muzzle weights or a sound suppressor/silencer.
- in 2001, the 22 PELLET version was introduced with a two shot "side-shuttle" magazine.

Manufacturer

- the manufacturer is marked on the air rifle.

Action

- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of referenced examples consisted of four numbers, a space and five numbers.
Calibre	- calibre identification is marked on the left side of the receiver/frame.
Shots	- available as a single shot or with a two shot side-shuttle magazine (22 PELLET version only).
Canadian Law Comments	- if the firearm leaves the factory equipped with a sound moderator/suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound moderator/suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
27843 - 1	380 LONG CF	1	686	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- make may be marked on the firearm.

Model

- "Rook Rifle" is not marked on the firearm.
- features may include: round or octagonal steel barrel with express style rear sights; an under lever operated Martini-type action with swinging breech block pivoted at the rear; safety latch on right side of receiver; full pistol grip buttstock which may include cheek piece; varying degrees of engraving and stock checkering.

Manufacturer

- manufacturer may be marked on the firearm.
- Webley & Scott is an English gun-making company that began in the 1830s when two brothers, James and Philip, began manufacturing percussion revolvers. The company later expanded into manufacturing shotguns, and changed its name to "P. Webley & Son", as the son of one of the original owners had joined the business. In 1897, the company joined another company, W & C Scott and Son, to become "Webley and Scott Revolver and Arms Co., Ltd.", and finally changed its name in 1906 to "Webley and Scott Limited". The company ceased operations in 1979, but built rifles, shotguns, pistols, and revolvers while it was still in business.

Action

- lever operated tilting block action.

Barrel

- barrel length is not specified in the reference.

Calibre

- calibre is not specified in the reference.

Shots

- calibre is usually marked on the barrel.

Notes

Make

- make is usually marked on this firearm as follows:
- "Webley & Scott Ltd. Birmingham" on the left and/or right side of the receiver/frame.
- "The Webley "Senior" on the left and right side of the receiver/frame.
- "Webley" on the left and right grip plates.

Model

- "THE WEBLEY "SENIOR"" is marked on the left and/or right side of the receiver/frame.
- break barrel cocking, spring driven pistol type action.
- features include:
- a front hinged barrel mounted on top of the receiver/frame which articulates upward and forward to cock the action; barrel cocking is greatly facilitated by means of the Webley patented "double joint" system on the cocking lever,
- a thumb actuated Webley revolver type stirrup release lever for unlocking the barrel located on the rear left side of the receiver/frame,
- adjustable rear sight mounted at the very top rear of the receiver/frame,
- left side of the rear sight base may be marked, "British Pat" over "No 219872",
- blued barrel and receiver/frame,
- black plastic grip plates.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Webley & Scott Ltd. Birmingham" is usually marked on the left and/or right side of the receiver/frame.
Action	- in calibre 177 PELLET; does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. - in calibre 22 PELLET; does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- these air pistols are usually serial numbered on the left grip frame underneath the left grip plate; the last three numbers of the complete serial number may be repeated on the front of the compression tube.
Calibre	- calibre designation is usually marked on the front barrel band.

Notes

Make - "WEBLEY & SCOTT BIRMINGHAM ENGLAND" is marked on the left side of the receiver/frame and on the barrel hinge block.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "STINGRAY" is marked on the the receiver/frame.
- introduced in 2001.
- features include: muzzle of barrel is threaded for ventilated muzzle weight or BBMF silencer; available with or without barrel mounted hooded front sight and adjustable rear sight; receiver/frame tube grooved for scope mounts; two stage trigger; beech or walnut stained ambidextrous pistol grip stock and hard rubber butt plate.
- available in Carbine, Deluxe and Standard version.
- overall length for the Standard Rifle is 1125mm (44") and for the Carbine is 970mm (38.2").
- weight for the Standard Rifle is 3.7kg (8.2 lbs) and for the Carbine 3.5kg (7.7lbs).

Manufacturer

- the manufacturer's designation is not marked on the firearm.

Action

- spring-piston powered, hinged barrel design.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Calibre

- marked on the barrel hinge block.

Canadian Law Comments

- this model is available with a factory installed sound suppressor/silencer or with a factory installed barrel weight.
- in Canada, the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm may correctly be identified as a "Non Restricted Firearm". - at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

119835 - 3	25 PELLET	1	381	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the air rifle.

Model

- this is a standard-pattern spring-piston air rifle, built with a number of "semi-custom" features.
- introduced in 2001.
- features include: walnut or beech Monte Carlo style, pistol-grip stock; blued finish; adjustable match trigger; barrel is threaded for a ported muzzle weight/compensator or sound suppressor/silencer and an automatic safety.

Manufacturer

- the manufacturer is marked on the air rifle.

Action

- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 25 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Canadian Law Comments

- if the firearm leaves the factory equipped with a sound moderator/suppressor/silencer then the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound moderator/suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

147267 - 2	6MM FLOBERT RF	2	45	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is a small cartridge pistol of the "turn-over" type, with two barrels that rotate around a central pin, bringing each barrel into firing position under a single centrally-mounted hammer. This design was first patented and produced by Woodward.
- these pistols were made from 1873 (when Woodward's original patent expired) through the 1890s, when the design was dropped entirely, in favour of small revolvers.
- these pistols were made in both 450 centre-fire, and a range of smaller rimfire calibres, with the centre-fire versions having bird's-head style grips, and the rimfire versions having square-butt grips.
- features include: blued or nickeled finish, with varying degrees of engraving; "turn-over" design, with two stacked barrels rotating counter-clockwise around a central pin; a loading groove on the right side of the receiver/frame, allowing loading/unloading when the barrels are spun 90 degrees from their firing positions; spur trigger; a sliding safety that locks into a half-cock slot in the back of the hammer; and checkered walnut grips.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.
- Webley & Scott is an English gun-making company that began in the 1830s when two brothers, James and Philip, began manufacturing percussion revolvers. The company later expanded into manufacturing shotguns, and changed its name to "P. Webley & Son", as the son of one of the original owners had joined the business. In 1897, the company joined another company, W & C Scott and Son, to become "Webley and Scott Revolver and Arms Co., Ltd.", and finally changed its name in 1906 to "Webley and Scott Limited". The company ceased operations in 1979, but built rifles, shotguns, pistols, and revolvers while it was still in business.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "WEBLEY & SCOTT LTD" and "BIRMINGHAM ENGLAND" was observed marked on the barrel assembly.
- "WEBLEY VULCAN" was observed marked on the receiver/frame.

Model

- manufactured between 1979 and 2000.
- "WEBLEY VULCAN" was observed marked on the receiver/frame.
- "Vulcan" model is a spring-piston powered; single stroke, barrel cocked air rifle.
- features include: hooded front sight and open adjustable rear sight; round, rifled barrel; barrel's muzzle may be threaded for muzzle break or noise suppressor; front hinged tubular receiver/frame with an integral scope grooves; adjustable trigger; manual safety; plain or checkered one piece pistol grip stock with rubber butt plate; blued finish
- overall length with a 289 mm (11.37") barrel is 940mm (37").
- overall length with a 432mm (17.0") barrel is 1038mm (40.8").
- overall length with a 445 mm (17.5") barrel is 1118mm (44.0").
- Vulcan line was available in three variations:
- "Vulcan 1" manufactured between 1979 and 1982.
- "Vulcan 2" manufactured between 1983 and 1994.
- "Vulcan 3" manufactured between 1995 and 2000.

Manufacturer

- "WEBLEY & SCOTT LTD" and "BIRMINGHAM ENGLAND" was observed marked on the barrel assembly.
- "WEBLEY VULCAN" was observed marked on the receiver/frame.

Action

- spring-piston powered, hinged barrel design.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 25 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number was observed marked on the barrel block.
- observed serial number consisted of six numbers without a letter prefix or suffix.

Calibre

- calibre was observed marked on the barrel.

Model

- model designation may be marked on the firearm.
- features include: round barrel with a permanently attached sound suppressor; no sights; rifled bore; grooved receiver/frame; single trigger mechanism; one piece semi-pistol grip Monte Carlo stock with cheekpiece.
- available in a deluxe version featuring a walnut stock instead of a beech stock.
- overall length with a 289mm (11.4") barrel is 1024mm (40.3"), average weight is 3.2kg (7.1lbs).

Manufacturer

- one sample observed featured the manufacturer's name "WEBLEY & SCOTT LTD" marked on the left side of the barrel assembly.

Action

- spring-piston powered.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Calibre

- calibre designation may be marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this model is available with a factory installed sound suppressor/silencer or with a factory installed barrel weight.
- in Canada, the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm may correctly be identified as a "Non Restricted Firearm".

35865 - 3	455 REV	6	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- all examples of the Webley-Fosbery model 1901 Automatic Revolver were marked "WEBLEY FOSBERY AUTOMATIC" along the left side of the top-strap; later-production examples omitted the "AUTOMATIC" from this stamping.
- the make is comprised of the manufacturers name "Webley" and the last name of the designer George Fosbery.

Model

- may also be known as "Fosbery".
- the 1901 Webley-Fosbery has several characteristics that separate it from later-production examples, but these require close examination of the firearm in question.
- first and foremost, the "cylinder catch" (a piece of spring steel attached to the bottom of the top strap, that retains the cylinder in place during the ejection of cartridges/casings) is screwed into place through the top-strap; later-production Webley-Fosberys have a spring-loaded stud on the top-strap, that can be depressed to remove the cylinder for cleaning/disassembly.
- secondly, all 1901 Webley-Fosberys are built on the "Large" frame size, and are all chambered for 455 REV; the grip portion of these revolvers will measure approximately 4.125"/104.8mm from the bottom of the butt (excluding lanyard ring) to the top of the frame channels, where the upper frame recoils rear-wards.
- thirdly, all 1901 Webley-Fosberys are marked "WEBLEY FOSBERY AUTOMATIC" in full, along the left side of the top-strap.

Manufacturer

- "P. Webley & Son" appears on barrel. - most examples of the Webley-Fosberry are marked "P.Webley & Son. London & Birmingham", but they may also be seen marked with names of sub-retailers (distributors who bought the revolvers from Webley, then marked their own name on the handgun).

Action

- this firearm is both a "semi-automatic" and a "revolver" and as such has the "Action" classified as "Other".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number
- serialisation started at 1 and continued to approximately 990.
- numbered on the right side of the lower receiver/frame.

Calibre
- ".455 Cordite" is normally marked on the receiver/frame.

35859 - 3	38 AUTO	6	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- all examples of the 1902 Webley-Fosbery were marked simply "WEBLEY FOSBERY" along the left side of the top-strap.
- the make is comprised of the manufacturers name "Webley" and the last name of the designer George Fosbery.

Model

- the 1902 Webley-Fosbery has several characteristics that separate it from later-production examples, but these require close examination of the piece in question.
- first and foremost, the "cylinder catch" (a piece of spring steel attached to the bottom of the top strap, that retains the cylinder in place during the ejection of cartridges/casings) is a spring-loaded stud on the top-strap, that can be depressed to remove the cylinder for cleaning/disassembly; the two arms of the retaining levers are retained by a small cross-pin through the top-strap.
- secondly, all 1902 Webley-Fosberys are built on the "Small" frame size chambered for calibre 38 AUTO; after the 38 AUTO model proved to be a poor seller in the marketplace, many of these revolvers were stripped down for rebuild in calibre 455 REV (factory records seem to indicate that none were rebuilt in 1902 model configuration, some small frames were built in model 1903 configuration)
- thirdly, all 1902 Webley-Fosberys are marked simply "WEBLEY FOSBERY" along the left side of the top-strap.
- fourth, all 1902 Webley-Fosbery's were built with a new style frame, with an integral trigger-guard and a detachable sideplate on both sides of the frame (earlier Weblely-Fosberys were built with detachable trigger-guards, and a sideplate only on the left side of the frame).
- fifth, 1902 Webley-Fosbery's were fitted with a new style of frame latch, which have two raised "shims" on the inner part of the latch that fit into corresponding angled grooves on the upper frame; this same catch was carried over into the 1903 models.

Manufacturer

- most examples of the Webley-Fosbery are marked "P.Webley & Son. London & Birmingham", but they may also be seen marked with names of sub-retailers (distributors who bought the revolvers from Webley, then marked their own name on the handgun).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action - this firearm is both a "semi-automatic" and a "revolver" and as such has the "Action" classified as "Other".

Serial Number
- numbered on the right side of the lower frame.
- serialisation started at approximately 997 and continued upwards.

35854 - 9	455 REV	6	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WEBLEY FOSBERY" is marke along the left side of the top-strap.
- the make is comprised of the manufacturers name "Webley" and the last name of the designer George Fosbery.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- was manufactured from 1903 to 1924.
- may also be known as "Fosbery".
- the 1903 Webley-Fosbery has several characteristics that separate it from earlier-production examples, but these require close examination of the firearm in question.
- first and foremost, the "cylinder catch" (a piece of spring steel attached to the bottom of the top strap, that retains the cylinder in place during the ejection of cartridges/casings) is a spring-loaded stud on the top-strap, that can be depressed to remove the cylinder for cleaning/disassembly; the two arms of the retaining levers are retained by a small cross-pin through the top-strap.
- secondly, 1903 Webley-Fosberys were manufactured in both "Large" and "Small" frame sizes, in 455 REV calibre; "Large" frames measure approximately 4.25"/108mm from the butt to the recoil channels (where the upper frame slides during recoil), while "Small" frames measure approximately 3.75"/95mm over the same distance (excluding lanyard rings in both cases). Both of these frame sizes were made with integral trigger-guards, and detachable sideplates on both sides of the frame.
- thirdly, all 1903 Webley-Fosberys are marked simply "WEBLEY FOSBERY" along the left side of the top-strap.
- fourth, the return spring inside the grips will be a "leaf" or "V" type, instead of the earlier coil-type; this was an attempt to make the return-to battery impulse stronger.
- fifth, the trigger itself was widened and strengthened; where earlier versions had a trigger approx. .2"/5mm wide, 1903's were made with .356"/9mm wide triggers.
- sixth, all but the very earliest of Model 1903's will be stamped with the more modern "crown over BP" or "crown over V" proof and viewing marks; earlier Webley-Fosberys will be stamped with a "crown over crossed sceptres" proof or viewing mark.

Manufacturer

- most examples of the Webley-Fosbery are marked "P.Webley & Son. London & Birmingham", but they may also be seen marked with names of sub-retailers (distributors who bought the revolvers from Webley, then marked their own name on the handgun).

Action

- this firearm is both a "semi-automatic" and a "revolver" and as such has the "Action" classified as "Other".

Serial Number

- serialization started at approximately 1500 and ended at approximately 4921.
- numbered on the right side of the lower receiver/frame.

Shots

- a special adapter unit that replaced the cylinder was available that allowed the firearm to be used as single shot in calibre 22 LR.

FRT Report

Firearm Reference Number (FRN): 15716
Make: Weeks, Thomas S
Model: Percussion Rifle

Summary

Make:	Weeks, Thomas S
Model:	Percussion Rifle
Manufacturer:	Weeks, Thomas S
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
15716 - 1	45 PERCUSSION	1	654	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "WEEKS", "T.S. WEEKS", or "Thoms. Weeks" is usually marked on the firearm.
- Thomas S. Weeks was a Fond du Lac, Wisconsin-based gunmaker from 1849 to 1890.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a "hawken"-styled hunting rifle manufactured by Thomas S. Weeks prior to 1890.
- features include: browned or blued finish; open fixed or adjustable sights; octagonal or half-round/half-octagonal barrel; underbarrel ramrod thimbles; half-length straight-grip maple or walnut stock (some with brass or German silver finishings); external manually-cocked hammer on the lockplate; finial trigger-guard/gripstrap; double-set triggers; brass patch box; crescent butt.

Manufacturer

- "WEEKS", "T.S. WEEKS", or "Thoms. Weeks" is usually marked on the firearm.
- Thomas S. Weeks was a Fond du Lac, Wisconsin-based gunmaker from 1849 to 1890.

Action

- muzzle-loaded, percussion, single-shot.

Firearm Reference Number (FRN): 149095
Make: Weihrauch
Model: 21

Summary

Make:	Weihrauch
Model:	21
Manufacturer:	Weihrauch
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
149095 - 1	22 LR	1	702	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- Weihrauch's logo is marked on the top of the receiver/frame.
- "H.W.Z.MOD.21" is marked on the left side of the receiver/frame.

Model

- "H.W.Z.MOD.21" is marked on the left side of the receiver/frame.
- this is a Martini-type single shot rifle.
- features include: round barrel with or without a rib; walnut forearm and straight buttstock; fixed front sight; may have micrometer-adjustable peep sights; a flat-sided receiver with a breech block hinge pin; single trigger; blued finish.

Manufacturer

- Weihrauch's logo of H & W in both side of a Z is marked on the top of the receiver/frame of the firearm.

Action

- Martini-style tipping-block single-shot.

Serial Number

- example observed with a serial number on the left side of the barrel.
- example observed with four numbers without a letter prefix or suffix.

Model: Barakuda

Summary

Make:	Weihrauch
Model:	Barakuda
Manufacturer:	Weihrauch
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
86316 - 1	22 PELLET	1	500	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- manufactured from 1954 to 1981.
- "BARAKUDA" over "Made in Germany" over "Kal. 5,5" is marked on the left side of the barrel block.
- this is a hinged barrel, spring piston powered air rifle, made by Weihrauch, with an unusual integral "dieseling" mechanism on the right side of the receiver/frame tube. This apparatus is meant to deliver a consistent shot of ether into the compression chamber, which ignites when the rifle is fired, resulting in higher velocities when used with special ammunition. The rifle can also be used as an ordinary air rifle.
- features include: walnut pistol-grip stock with cheekpiece, grip-cap, and rubber butt-pad, adjustable trigger mechanism, integral scope mounting rails machined on receiver/frame tube, automatic safety at the rear of the receiver/frame tube, open adjustable sights with Globe insert front, sling swivels, and a "dieseling" apparatus with screw-off cap mounted on the right side of the receiver tube.

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Action

- spring-piston powered with an ether-gas velocity booster, hinged barrel design.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- numbered on bottom of barrel, forward of hinge point.

Calibre

- "Kal. 5,5" is marked on the left side of the barrel block.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - the Canadian requirement that the serial number be marked on the receiver/frame.

Notes

Make

- "WEIHRAUCH" is marked on the left side of the receiver/frame.

Model

- "HW 100" is marked on the left side of the firearm.
- introduced in 2004.
- features include: round barrel with or without a sound moderator/suppressor/silencer and/or barrel weight; side lever action cocking mechanism; removable pre-charged pneumatic cylinder mounted below the barrel; removable rotary magazine; adjustable trigger; manual safety located on the right side of the receiver/frame; walnut, target style thumbhole or pistol grip stock with a stippled grip and rubber butt pad; no open sights; receiver/frame is grooved for scope mounts.
- overall length with a 410mm barrel is 975mm (38 3/8"), average weight is 3.6kg (7.92lbs).

Manufacturer

- "WEIHRAUCH" is marked on the left side of the firearm.
- "Made in Germany" is marked on the right side of the firearm.

Action

- precharged pneumatic cylinder.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- the serial number is marked on the firearm.

Calibre

- the calibre is marked on the right side of the firearm.

Shots

- removable rotary magazine.

Canadian Law Comments

- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

- this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

- if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.
- NOTE: factory correspondence confirms the shell of the firearm is a "bullpup stock" and therefore is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the complete bullpup stock (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- this is a standard pattern break barrel spring piston air rifle.
- features include: adjustable trigger, rubber butt pad, stained beech pistol-grip stock with (HW 30M) or without (HW 30S) Monte Carlo cheekpiece, and a hooded front sight.
- overall length with a 395mm barrel is 985mm (38 3/4").

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame. - "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
Action	- break barrel, spring-piston air rifle. - at least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Canadian Law Comments	- at least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

Notes

Make

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- "HW 40 PCA" is marked on the left side of the receiver/frame.
- "HW40PCA" is a single-stroke pneumatic air pistol that is cocked by pulling the back of the slide up and forward.
- "HW40PCA" grip and trigger guard portion of this air pistol very much resemble a Walther model P99.
- features include: steel and polymer construction; fibre optic front sight and an adjustable rear sight; round rifled steel barrel; front hinged receiver/frame with the top frame swinging up to act as the charging lever; dovetailed for scope mounts; automatic safety; exposed hammer; two stage silver finished trigger; contoured and finger grooved polymer grip; black finish.
- overall length is 244 mm (9.6"), and the average weight is 0.77 kg (1.7 lbs).

Manufacturer

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- single-stroke pneumatic powered.
- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Notes

Make

- "WEIHRAUCH" with "SPORT" is marked on the left side of the receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- introduced in 2017.
- "HW 44" is marked on the pre-charged pneumatic (PCP) reservoir.
- "HW 44" may come with a sound suppressor.
- features include: ramped front blade and adjustable rear sights; round, rifled steel barrel; polymer construction including a barrel shroud and the pre-charged pneumatic reservoir receptacle with front air gauge; molded accessory rails on top of the action and under the pneumatic reservoir; grip with finger grooves; two stage adjustable trigger; ambidextrous manual safety lever; cocking lever on the rear of the action that can be installed on either sides; black finish.
- overall length with a 247mm (9.72") barrel is 337.06mm (13.27") average weight is 1.3kg (2.87lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "WEIHRAUCH" and "SPORT" is marked on the left side of the receiver/frame. - "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame. - "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany. - "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.
Action	- pre-charged pneumatic (PCP). - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. - at least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of six numbers.
Calibre	- calibre identification is marked on the left side of the receiver/frame.
Shots	- removable rotary magazine.
Canadian Law Comments	- discharges a projectile at a muzzle velocity exceeding 152.4 mps (500fps) and a muzzle energy exceeding 5.7 Joules. - as it left the factory, this firearm may be equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed the firearm is correctly identified as a "Restricted Firearm". - at least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- loosely based on a Colt Government Model 1911A1 design.
- the "dual power" feature refers to a notched piston design that allows for a half and full cock system for a lower velocity application on the half cock and a higher velocity application on the full cock and is only offered in the 177 PELLET and 20 PELLET calibres. The 22 PELLET version does not have this half cock position as it does not allow enough pressure for effective fire with the larger pellet.
- features include: lever safety mounted behind the trigger; blued finish; hammer cocking lever.
- available with a stainless steel finish as the HW 45 STL.
- this pistol can also be fitted with a shoulder stock and/or a telescopic sight.
- overall length with a 170mm barrel is 278mm (11").

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Action

- spring piston design.
- at least two variants of this particular model exist:

Variant #1 discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2 does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Canadian Law Comments

- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- introduced in 2010.
- "HW 45 Black Star" was observed marked on the left side of the receiver/frame.
- "HW 45 Black Star" is loosely based on a 1911A1 design.
- the "dual power" feature refers to a notched piston design that allows for a half and full cock system for a lower velocity application on the half cock and a higher velocity application on the full cock.
- features include: fiber optic sights; round barrel; black anodized receiver/frame with laminated black and grey dual tone grip; safety lever is mounted behind the trigger; spring piston system; exposed hammer cocking lever.
- overall length with a 170 mm barrel is 280 mm (11"), and the average weight is 1.16 kgs (2.55 lbs).

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- spring piston design.
- at least two variants of this particular model exist:
Variant #1 discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2 does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the forward, right side of the slide.
- serial number of a referenced examples consisted of a six numbers.

Calibre

- calibre designation is marked on the forward, left side of the slide.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Notes

Make

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- "HW 45 Silver Star" was observed marked on the left side of the receiver/frame.
- introduced in 2007.
- loosely based on a Colt Government Model 1911A1 design.
- the "dual power" feature refers to a notched piston design that allows for a half and full cock system for a lower velocity application on the half cock and a higher velocity application on the full cock and is only offered in the 177 PELLET and 20 PELLET calibres. The 22 PELLET version does not have this half cock position as it does not allow enough pressure for effective fire with the larger pellet.
- features include: lever safety mounted behind the trigger; stainless-look dual tone; fiber optic sights; spring piston system; hammer cocking lever and laminated grip.
- overall length with a 170mm barrel is 280mm (11"), average weight is 1.16kg (2.55lbs).

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- spring piston design.
- at least two variants of this particular model exist:
Variant #1 discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2 does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number may be marked on the receiver/frame.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Notes

Make

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- observed sample marked: HW77
- features include: under lever spring piston air rifle, adjustable trigger, soft rubber butt pad, blued barrel and action, stained beech pistol grip stock with Monte Carlo cheekpiece checkered on pistol grip, high comb raise cheek piece, and open sights.
- also available in a black synthetic thumbhole stock.
- this rifle is loaded by pulling the front of the under barrel lever down and back towards the shooter. This cocks the mainspring, and opens a breech cover, allowing a pellet to be placed in the chamber.
- this airgun also available in a carbine version as the model HW 77 Carbine.
- overall length with a 470mm barrel is 1120mm (44 1/8").

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Action

- at least two variants of this particular model exist:
Variant #1 discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2 does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- marked on the left side of the firearm.
- observed serial number has seven numbers without suffix or prefix.

Calibre

- marked on the left side of the receiver/frame.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

Notes

Make

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- observed sample marked: HW77K, K denotes carbine.
- this is an under lever spring piston air rifle featuring: adjustable trigger, rubber butt pad, stained beech pistol grip stock with Monte Carlo cheekpiece, and receiver grooved for scope mounts. This rifle is loaded by pulling the front of the under barrel lever down and back towards the shooter. This cocks the mainspring, and opens a breech cover, allowing a pellet to be placed in the chamber. This airgun also available in a full length version.
- also available in a black synthetic thumbhole stock.
- overall length with a 370mm barrel is 1020mm (40 1/8").

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Action

- at least two variants of this particular model exist:
Variant #1 discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2 does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- may or may not be serial numbered.
- observed serial numbers have consisted of seven digits with no letter prefix or suffix.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

Notes

Make

- "WEIHRAUCH" is marked on the left side of the receiver/frame.

Model

- "HW 95" is marked on the left side of the firearm.
- features include: standard pattern break-barrel spring-piston air rifle; round barrel with muzzle break; adjustable trigger; match trigger; automatic safety; receiver/frame dovetail for scope; rubber butt pad; stained beech pistol grip stock with Monte Carlo cheekpiece; adjustable rear sight and hooded globe front sight.
- also available in a "Standard and Deluxe" version, with deluxe-quality wood stock.
- overall length with a 410mm barrel is 1075mm (42 3/8").

Manufacturer

- "WEIHRAUCH" is marked on the left side of the firearm.
- "Made in Germany" is marked on the right side of the firearm.

Action

- break-barrel spring-piston air rifle.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- located on the left side of the receiver/frame.
- observed specimen had seven digits.

Canadian Law Comments

- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

Notes

Make

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- model is marked on the firearm.
- features include: round barrel with or without a silencer or a muzzle brake; laminated or solid pistol-grip stock with cheekpiece and rubber buttpad; adjustable match trigger; cross-bolt safety at the rear of the receiver/frame tube; usually fitted with an optical sight.
- overall length with a 300mm barrel is 1020mm (40 1/4").

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Action

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is usually marked on the barrel.
- serial number of referenced examples consisted of seven numbers.

Calibre

- calibre identification is marked on the barrel.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

- this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- if the prohibited device (sound suppressor/silencer) were to be removed from the firearm, the firearm is correctly identified as a "Non Restricted Firearm".

FRT Report

Firearm Reference Number (FRN): 128495
Make: Wellborne, Charles R
Model: Single Barrel Percussion

Summary

Make:	Wellborne, Charles R
Model:	Single Barrel Percussion
Manufacturer:	Wellborne, Charles R
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128495 - 1	12 GA PERCUSSION	1	775	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "C.R.WELLBORNE DONCASTER" was observed marked on the top of the barrel.
- "WELLBORNE" was observed marked on the lock plate.
- was in operation at 69 French Gate Doncaster Yorkshire circa 1861-1868

Model

- model designation is not marked on the firearm.
- manufactured in the 1860s.
- features include: part octagonal and round barrel with bead front sight; ramrod mounted under the barrel; engraved right side lock and trigger guard; percussion ignition; one piece straight grip stock.

Manufacturer

- "C.R.WELLBORNE DONCASTER" was observed marked on the top of the barrel.
- "WELLBORNE" was observed marked on the lock plate.
- Charles R. Wellborne was in operation at 69 French Gate, Doncaster, Yorkshire, England circa 1861 to 1868.

Action

- smooth bore muzzle loader.

Serial Number

- observed specimen had no serial number.

FRT Report

Firearm Reference Number (FRN): 196468
Make: Wells Custom Gunmakers
Model: Browning M1919A4

Summary

Make:	Wells Custom Gunmakers
Model:	Browning M1919A4
Manufacturer:	Wells Custom Gunmakers LLC
Level:	Manufacturer Specifications and Commercial Customization
Type:	Commercial Version
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
196468 - 1	30-06 SPRG	N/A	610	Prohibited PFR, Part 1, para. 105(o)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WELLS CUSTOM GUNMAKERS" is marked on the right side of the receiver/frame.
- The right side of the receiver/frame for this firearm is also engraved with "BROWNING MACHINE GUN"; these are reproduction markings of the make with which the original full automatic firearms are marked.

Model

- "BROWNING" is marked on the right side of the receiver/frame.
- "M1919A4" is marked on the right side of the receiver/frame.
- This firearm is manufactured as a semi-automatic only version of the "Browning Machine Gun" model "M1919A4", that fires from the closed bolt.

Manufacturer

- "WELLS CUSTOM GUNMAKERS LLC NICHOLSON PA" is marked on the right side of the receiver/frame.
- The right side of the receiver/frame for this firearm may also be engraved with reproduction manufacturer markings with which the original full automatic firearms are marked. On one example, "MAN'FD BY SAGINAW STEERING DIV." over "GENERAL MOTORS CORPORATION" was also marked on the right side of the receiver/frame. Similar reproduction markings of a different company name may instead be marked in this location.

Action

- Recoil operated.
- Gas assisted by means of a muzzle booster / barrel bearing.

Calibre

- The calibre designation is marked on the right side of the receiver/frame.

Shots

- Belt fed firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- Browning Machine Gun receivers (and other similar guns with a box type receiver construction)
- The five sided box consisting of top and bottom plates, left and right side plates and the front trunnion block is the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm".
- For the administrative purposes of The Firearms Act, when the five sided box receiver/frame is further disassembled, the receiver/frame component plate where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration.

Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
95356 - 1	9MM LUGER	6	138	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- make is not marked on firearm.
Model	- model is not marked on firearm. - the MARK I in 9MM LUGER made a perceptible hiss after it has been fired. - due to the clandestine nature of this model no markings will be found on the firearm.
Manufacturer	- manufacturer is not marked on firearm. - firearm was developed by Welwyn Experimental Laboratories in 1942.
Action	- each round has to be chambered and cocked by turning a large round knob at the rear of the action.
Canadian Law Comments	- as it left the factory, this firearm is equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed from the firearm it would be correctly identified as a "Restricted Firearm".

28601 - 1	11.2X36R WERNDL M1867/70	1	566	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make does not appear on the firearm.

Model

- the model designation does not appear on the firearm.
- the Austro-Hungarian Empire began looking at adopting a factory-made breech-loading single-shot rifle as its standard service arm, and trials were held in 1866 to determine the best rifle for the purpose. Josef Werndl and one of his partners, Karl Holub, entered a side-swinging, drum-breech rifle in these trials to compete against rifles like the Remington Rolling Block. Presumably because the Werndl was a "home-grown" design, the Werndl rifle was officially adopted as the M1867 on July 28th.
- this firearm is a single shot, side hammer, military rifle. It utilises a revolving drum breech block which pivots on its own axis to expose the chamber of the barrel.

Manufacturer

- the manufacturer's name appears on the receiver/frame as "OEWG".

Action

- rotating drum breech.

Other Markings

- the date of manufacture appears on the lockplate as the last three digits of the year (869 to 1869).

Remarks

- this is the carbine version of the Austrian Model 1867 Werndl military rifle. It differs by being considerably shorter, having no barrel bands and in being chambered for a shorter and less powerful cartridge.

FRT Report

Firearm Reference Number (FRN): 28595
Make: Werndl
Model: 1867 Rifle

Summary

Make:	Werndl
Model:	1867 Rifle
Manufacturer:	Oesterreichische Waffenfabriks Gesellschaft, Steyr
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	AUSTRIA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
28595 - 3	11.15X58R AUSTRIAN WERNDL	1	855	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	
28595 - 2	11.2X42 WERNDL M1867	1	855	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	
28595 - 1	11.4X50R AUSTRIAN	1	855	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make does not appear on the rifle.

Model

- the model designation does not appear on the firearm.
- the Austro-Hungarian Empire began looking at adopting a factory-made breech-loading single-shot rifle as its standard service arm, and trials were held in 1866 to determine the best rifle for the purpose. Josef Werndl and one of his partners, Karl Holub, entered a side-swinging, drum-breech rifle in these trials to compete against rifles like the Remington Rolling Block. Presumably because the Werndl was a "home-grown" design, the Werndl rifle was officially adopted as the M1867 on July 28th.
- this firearm is a single shot, side hammer, military rifle. It utilises a revolving drum breech block which pivots on its own axis to expose the chamber of the barrel.
- in 1878 most of these rifles were altered to fire the 11X58R cartridge.

Manufacturer

- the manufacturer's name appears on the receiver as "OEWG Steyr".

Action

- rotating drum breech.

Other Markings

- the date of manufacture appears on the lockplate as the last three digits of the year (869 for 1869).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this firearm is a single shot, side hammer, military rifle. It utilises a revolving drum breech block which pivots on its own axis to expose the chamber of the barrel.
- in 1878 most of these rifles were altered to fire the 11X58R cartridge.

Notes

Make

- the make does not appear on the firearm.

Model

- the model designation does not appear on the firearm.
- the Austro-Hungarian Empire began looking at adopting a factory-made breech-loading single-shot rifle as its standard service arm, and trials were held in 1866 to determine the best rifle for the purpose. Josef Werndl and one of his partners, Karl Holub, entered a side-swinging, drum-breech rifle in these trials to compete against rifles like the Remington Rolling Block. Presumably because the Werndl was a "home-grown" design, the Werndl rifle was officially adopted as the M1867 on July 28th.
- this firearm is a single shot, side hammer, military rifle. It utilises a revolving drum breech block which pivots on its own axis to expose the chamber of the barrel.
- the 1877 improvements consisted of: low profile hammer, addition of a nose cap, elimination of barrel bands and a new calibre cartridge was adopted.

Manufacturer

- the manufacturer's name appears on the receiver as "OEWG".

Serial Number

- marked on the left side of receiver/frame.

Other Markings

- last three numerals of year of manufacture appear on the lockplate (875 for 1875).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks - This carbine is an improved version of the Austrian Model 1867 Carbine. It differs from the original carbine by having a hammer of considerably lower profile.

Notes

Make

- the make does not appear on the firearm.

Model

- the model designation does not appear on the firearm.
- the Austro-Hungarian Empire began looking at adopting a factory-made breech-loading single-shot rifle as its standard service arm, and trials were held in 1866 to determine the best rifle for the purpose. Josef Werndl and one of his partners, Karl Holub, entered a side-swinging, drum-breech rifle in these trials to compete against rifles like the Remington Rolling Block. Presumably because the Werndl was a "home-grown" design, the Werndl rifle was officially adopted as the M1867 on July 28th.
- this firearm is a single shot, side hammer, military rifle. It utilises a revolving drum breech block which pivots on its own axis to expose the chamber of the barrel.
- the M1873 Werndl Rifle was an improved M1867 Rifle.
- the improvements consisted of: the rear sight base and leaf were strengthened, the receiver/frame sides were flattened, the lock plate was redesigned with a central hammer, the bayonet catch was redesigned and a new calibre cartridge was adopted.

Manufacturer

- the manufacturer's name appears on the receiver as "OEWG".

Action

- rotating breech single-shot.

Other Markings

- last three numerals of year of manufacture appear on the lockplate (874 for 1874).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- This is an improved version of the Austrian Model 1867 military rifle. It differs from the original Model 1867 primarily in having a central hammer (positioned on the inside of the lockplate as opposed to the outside of the lockplate as on the Model 1867). In 1878 most of these rifles were altered to fire the 11X58R cartridge.

Notes

Make

- "WESSON & HARRINGTON" is marked on the barrel.

Model

- the model designation is not marked on the firearm.
- "PAT. FEB. 7. JUNE 13, '71" is marked on the barrel.
- manufactured from 1871 to 1873.
- total production is approximately 2,500.
- features include: octagonal barrel; solid top brass receiver/frame with fixed fluted cylinder with contoured ejector rod; small circular inspection plate on the left side of the receiver/frame; single action trigger mechanism; sheathed trigger; exposed spurred hammer; brass blade type front sight and notch in top strap for rear sight; bird's head butt; silver plated frame; barrel and cylinder may be have a nickel or blue finish; rosewood grips.

Manufacturer

- "WESSON & HARRINGTON, WORCESTER, MASS." is marked on the barrel.
- Wesson & Harrington was a manufacturing partnership between Frank Wesson and Gilbert Harrington, that lasted from 1871 until 1874 or 1875; they were based in Worcester, Massachusetts, and specialized in manufacturing small single-action revolvers. After the partnership dissolved, Wesson returned to manufacturing rifles and pistols under his own name, while Harrington continued to manufacture handguns under the "Wesson & Harrington" name; in 1888, he formed another partnership with an employee, William Richardson, to become "Harrington & Richardson".

Serial Number

- the serial number is marked on the left front side of the grip strap and may be repeated on the bottom front of the barrel, and on the cylinder, and on the inside of the grips.
- serial number range from 1 to approximately 2,500.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - markings on the barrel: "WESSON & HARRINGTON, WORCESTER, MASS. PAT. FEB. 7. JUNE 13 '71".

Notes

Make

- "Wesson & Harrington" is a trade name used by "H&R 1871".
- in 1871 a partnership was formed between Gilbert Harrington and his uncle, Frank Wesson. The resulting company was known as Wesson & Harrington.
- Harrington & Richardson (also known as H&R) was founded in 1875 in Worcester, Massachusetts as the successor to Wesson & Harrington when Wesson sold his share of the company to William A. Richardson.
- Harrington & Richardson Arms Company Inc. continued until early in 1986 when mounting economic pressures forced the closure of the company.
- in 1987, a new firm, known as New England Firearms (NEF), occupied the old Harrington & Richardson facility in Gardner, Massachusetts. New England Firearms marketed a similar line of products with limited success.
- in 1991, a new company known as H&R 1871, Inc. was formed Although this company trades on the Harrington & Richardson name it has no ties with the original company.
- H&R 1871, Inc produces firearms under the Harrington & Richardson, New England Firearms and Wesson & Harrington brand names.
- on November 10, 2000, Marlin Firearms purchased H&R 1871, Inc including the brand names Harrington & Richardson, New England Firearms, and Wesson & Harrington. Under Marlin's ownership the company has become H&R 1871 LLC.

Model

- "1871" and "BUFFALO CLASSIC" are marked on the barrel.
- manufactured in 1995 and 1996.
- this is a single-shot target rifle made in the style of a "buffalo hunter's" rifle.
- features include: aperature front sight with adjustable rear peep sight; blued round heavy barrel; colour case hardened front hinged receiver/frame with top tang mounted break open lever; exposed spurred hammer; transfer-bar firing-pin safety; checkered walnut schnabel forearm and straight grip buttstock with crescent steel buttplate.
- overall length is 1168 mm (46.0") and average weight is 3.6 kgs (8.0 lbs).

Action

- hinged barrel design.

Serial Number

- serial number stamped on side of frame.

Notes

Make - "F.WESSON" or "FRANK WESSON" is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is not marked on the firearm. - two versions of this medium frame single shot pistol were made with a front hinged receiver/frame and an under-frame opening lever by Frank Wesson from 1859 through the early 1870s. - both types have a brass or iron frame with square butt, rosewood grips, spur trigger, manually-cocked hammer, action release lever under frame in front of trigger (must be pulled back to release the barrel latch), and a half-round/half-octagon barrel. - the first type ("Model 1859") has a rounded frame and irregularly-shaped side plate, while the second ("Model 1862") has a flat-sided, wider receiver/frame, circular side plate and a longer trigger. - DO NOT CONFUSE these pistols with Frank Wesson's "Medium Frame Single Shot" pistols, which are slightly larger versions of these same handguns, or with any of Frank Wesson's "Pocket Rifles"; the "Small Frame Single Shot" was offered as a 22 Short Gallery Pistol with a short barrel (2 7/8"/73mm to 6"/152mm), while "Medium Frame Single Shots" were in 30 and 32 RF ONLY. All Frank Wesson "Pocket Rifles" will generally have longer barrels (10"/254mm or longer, except for the Small Frame Pocket Rifle), and will have an attachment for a detachable shoulder stock on the grip (normally a slot on the bottom of the butt).
Manufacturer	- Frank Wesson (1828-1899) was an American gunsmith and designer who manufactured a wide range of rifles (including smooth-bored types for use with shot cartridges) and handguns. In 1871, he formed a partnership with Gilbert Harrington, to manufacture small "pocket" revolvers, but returned to making firearms of his own design in 1875.
Action	- tipping barrel.
Serial Number	- the serial numbered is marked on the receiver/frame or the barrel. - serial number range from 1 to approximately 1,000.
Barrel	- barrels are between 3"/76mm and 6"/152mm.
Other Markings	- barrel marked on the first type "F.WESSON/PATENTED OCT. 25, 1859" and on the second type "FRANK WESSON WORCESTED MASS/PAT'D OCT.25,1859 & NOV.11 1862".

Notes

Make

- "F.Wesson" is marked on the barrel.

Model

- "F.Wesson/ Patented Oct. 25, 1859" is marked on the barrel.
- two types of small frame single shot pistols were made with a front hinged receiver/frame and an under-frame opening lever by Frank Wesson from 1859 through the early 1880s.
- both types have a brass frame with square butt, rosewood grips, spur trigger, manually-cocked hammer, action release lever under frame in front of trigger (must be pulled back to release the barrel latch), and a half-round/half-octagon barrel.
- there are two specific sub-types distinguishable within this model; the first type ("Model 1859") has a rounded frame and irregularly-shaped sideplate (marked "F.Wesson/ Patented Oct. 25, 1859" on barrel), while the second ("Model 1862") has a flat-sided frame and circular sideplate (marked "Frank Wesson Worcester, Mass./ Pat'd Oct. 25, 1859 & Nov.11, 1862" on barrel).
- DO NOT CONFUSE these pistols with Frank Wesson's "Medium Frame Single Shot" pistols, which are slightly larger versions of these same handguns, or with any of Frank Wesson's "Pocket Rifles"; the "Small Frame Single Shot" was offered as a 22 Short Gallery Pistol with a short barrel (2 7/8"/73mm to 6"/152mm), while "Medium Frame Single Shots" were in 30 and 32 RF ONLY. All Frank Wesson "Pocket Rifles" will generally have substantially longer barrels (10"/254mm or longer, except for the Small Frame Pocket Rifle), and will have an attachment for a detachable shoulder stock on the grip (normally a slot on the bottom of the butt).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "FRANK WESSON" is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Frank Wesson Worcester, Mass." and "Pat'd Oct. 25th, 1859 & Nov.11th, 1862" is marked on the barrel. - manufactured from 1862 to 1870. - this is a medium frame single shot pistol with a front hinged receiver/frame and an under-frame opening lever and a detachable shoulder stock. - features include: brass frame with square butt, rosewood grips, spur trigger, manually-cocked hammer, action release lever under frame in front of trigger (must be pulled back to release the barrel latch), integral extractor, adjustable peep sights with "globe"-style front, and a part-round/part-octagon barrel. - DO NOT CONFUSE these firearms with Frank Wesson's "Medium Frame Single Shot" pistols; the "Medium Frame Single Shot" was offered in 30 or 32 RF ONLY, with substantially shorter barrels, and no adjustable rear sight, while all Frank Wesson "Pocket Rifles" will have substantially longer barrels (10"/254mm or longer), an adjustable peep sight, and will have an attachment for a detachable skeleton-frame shoulder stock on the grip (normally a slot on the bottom of the butt). Also, DO NOT CONFUSE these "Pocket Rifles" with Frank Wesson's "1862 Small Frame Pocket Rifle"; the Medium Frame model has an integral extractor, in all calibres, while the "1862 Small Frame Pocket Rifle" had no extractor.
Manufacturer	- "FRANK WESSON" is marked on the barrel. - Frank Wesson (1828-1899) was an American gunsmith and designer who manufactured a wide range of rifles (including smooth-bored types for use with shot cartridges) and handguns. In 1871, he formed a partnership with Gilbert Harrington, to manufacture small "pocket" revolvers, but returned to making firearms of his own design in 1875.
Action	- "tip-down"-type single-shot pistol.
Serial Number	- the serial number is marked on the receiver/frame.
Barrel	- barrels on these pistols are normally between 10"/254mm and 12"/304MM, but have been known to vary slightly.

63347 - 5	45-100 BALLARD	1	863	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this is a single-shot rifle made specifically for long-range target shooting, especially from the "Creedmoor" position (where the shooter lays on his/her back and steadies the rifle against the leg or thigh).
- believed to have been produced in very limited quantities between the early to mid 1870's through the 1880's.
- these rifles had a back-action sidelock with external hammer, a breech-block that is raised and lowered by means of an underlever that curves around the front of the trigger-guard, adjustable vernier peep sights that can be mounted on the tang or comb, wind-gauge front sight with spirit level, half-octagon or full-octagon barrel, and a deluxe pistol-grip walnut stock with shotgun style buttplate.
- these rifles were available with many options and accessories, and were usually marked "F. Wesson Mfr. Worcester, Mass" over "Long Range Rifle Creedmoor" (sometimes appended with "No 1").

Manufacturer

- Frank Wesson (1828-1899) was an American gunsmith and designer who manufactured a wide range of rifles (including smooth-bored types for use with shot cartridges) and handguns. In 1871, he formed a partnership with Gilbert Harrington, to manufacture small "pocket" revolvers, but returned to making firearms of his own design in 1875.

Action

- falling-block single-shot, opened with an underlever that wraps around the front of the trigger-guard.

FRT Report

Firearm Reference Number (FRN): 72989
Make: Wesson, Frank
Model: Superposed Large Frame

Summary

Make:	Wesson, Frank
Model:	Superposed Large Frame
Manufacturer:	Wesson, Frank
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Multi-Barrel
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
72989 - 1	41 SHORT RF	2	76	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "FRANK WESSON WORCESTER MASS Pt. DEC 15/68" or "FRANK WESSON WORCESTER, MASS. PAT. DEC. 15, 1868, JULY 20, 1869" may be marked on the side of the barrels.

Model

- model designation is not marked on the firearm.
- this is a small derringer of the "over/under" type, with two barrels in a monobloc, that are turned by hand for each shot.
- manufactured between 1868 and 1880.
- features include: over and under barrels; brass receiver/frame; exposed spurred hammer; single action trigger mechanism; sheathed trigger; bird's-head grip with rosewood grip panels.
- almost all specimens of this pistol have a sliding "dirk"/knife-blade protruding from the center of the barrel monobloc
- these pistols have only two barrels, but may appear to have three because of the fluting on the monobloc (the center "barrel" is actually the pivot for the barrel assembly).
- found with two types of markings; either "Frank Wesson / Worcester, Mass. / Pat Dec 15, 1868" vertically on the monobloc, or "Frank Wesson Worcester Mass Pat Dec 15, 1868, July 20,1869" horizontally along the monobloc.
- Frank Wesson also made over/under derringers of this type in two smaller frame sizes; these can be distinguished by their calibres.

Manufacturer

- Frank Wesson (1828-1899) was an American gunsmith and designer who manufactured a wide range of rifles (including smooth-bored types for use with shot cartridges) and handguns. In 1871, he formed a partnership with Gilbert Harrington, to manufacture small "pocket" revolvers, but returned to making firearms of his own design in 1875.

Action

- over/under derringer, with rotating barrels.

Notes

Make

- "FRANK WESSON/WORCESTER.MASS./ PT. APPLIED FOR:" or "FRANK WESSON/WORCESTER MASS/ PAT DEC 15, 1868" or "FRANK WESSON WORCESTER MASS PT. DEC 15/38" may be marked on the side of the barrels.

Model

- this is a small derringer of the "over/under" type, with two barrels in a monobloc, that are turned by hand for each shot.
- manufactured from 1868 to 1880.
- features include: brass receiver/frame; spur trigger; half or full fluted barrels; blade front sight; bird's-head grip with rosewood grip panels; and a spur hammer.
- some variants of this pistol have a sliding "dirk"/knife-blade protruding from the center of the barrel mono-bloc
- these pistols have only two barrels, but may appear to have three because of the fluting on the mono-bloc (the center "barrel" is actually the pivot for the barrel assembly).
- Frank Wesson also made over/under derringers of this type in two other frame sizes; these can be distinguished by their calibres.

Notes

Make

- make is usually marked on the barrel monobloc.

Model

- no model designation is marked on this firearm.
- produced circa 1868 to circa 1880.
- single action, over/under barrel configuration in which the barrels rotate/swivel around a central axis pin located between the barrels; the barrels must be rotated by hand.
- brass receiver/frame; spur or sheathed-type trigger; bird's-head grip with rosewood grip panels; ring-type or solid spur hammer centrally located behind the standing breech.
- some variants of this pistol have a sliding "dirk"/knife-blade located on the right side center of the barrel monobloc.
- these pistols have only two barrels, but may appear to have three because of the fluting on the monobloc (the center "barrel" is actually the axis pin or pivot for the barrel assembly).
- usually found with the following two types of markings:
- 1) "Frank Wesson / Worcester, Mass. / Pat Dec 15, 1868" vertically on the monobloc,
- 2) "Frank Wesson Worcester Mass Pt Dec 15/68" horizontally along the monobloc.
- this model line was also produced in two larger receiver/frame sizes with the Medium Frame size available in calibre 32 RF and the Large Frame size available in calibre 41 RF.

Manufacturer

- Frank Wesson (1828-1899) was an American gunsmith and designer who manufactured a wide range of rifles (including smooth-bored types for use with shot cartridges) and handguns.
- In 1871, he formed a partnership with Gilbert Harrington, to manufacture small "pocket" revolvers, but returned to making firearms of his own design in 1875.
- the firm ceased operations circa 1888.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action - over/under barrel configuration in which the barrels rotate/swivel around a central axis pin located between the barrels.

Serial Number - numbered on receiver/frame, from "1" up, without prefix or suffix.

Notes

Model

- this is the first of a series of single-shot, tipping barrel rifles with a "trigger"-type unlocking mechanism that Frank Wesson manufactured between 1859 and 1888.
- these rifles had a bladed hammer (for rimfire cartridges), a brass or steel receiver/frame, crescent buttplate, fixed open sights, a slotted link on the right side of the receiver/frame to limit the upwards travel of the barrel, no extractor or ejector (extraction was by use of the fingers, with reliefs cut at each side of the chamber), and a straight grip walnut stock.
- later variants (Second, Third, Fourth, and Fifth Types) added manual extractors, refined target sights, a larger, heavier receiver/frame, and a hammer-nose that could be selected to use either center-fire or rim-fire cartridges.

Manufacturer

- Frank Wesson (1828-1899) was an American gunsmith and designer who manufactured a wide range of rifles (including smooth-bored types for use with shot cartridges) and handguns. In 1871, he formed a partnership with Gilbert Harrington, to manufacture small "pocket" revolvers, but returned to making firearms of his own design in 1875.

Action

- tipping barrel single-shot, with manually cocked hammer; opened with front "trigger".

Serial Number

- serial number is located on the receiver/frame.

Notes

Model

- this is the fourth of a series of single-shot, tipping barrel rifles with a "trigger"-type unlocking mechanism that Frank Wesson manufactured between 1859 and 1888.
- these rifles have a hammer with an adjustable striker that could be set to hit one of two receiver/frame mounted firing pins (for use with either rimfire or centre-fire cartridges), a heavier iron receiver/frame, crescent butt plate, tang mounted peep sights, a slotted link on the left side of the receiver/frame to limit the upwards travel of the barrel, a manually operated extractor on the right side of the chamber, and a checkered pistol-grip walnut stock.
- later variants (Fifth Type Sporters) added refined target sights, and an even larger, heavier receiver/frame.

Manufacturer

- Frank Wesson (1828-1899) was an American gunsmith and designer who manufactured a wide range of rifles (including smooth-bored types for use with shot cartridges) and handguns. In 1871, he formed a partnership with Gilbert Harrington, to manufacture small "pocket" revolvers, but returned to making firearms of his own design in 1875.

Action

- tipping-barrel single-shot, with manually-cocked hammer; opened with front "trigger".

Serial Number

- serial number is located on the receiver/frame.

Barrel

- 28"/711mm and 30"/762mm barrels were standard on these firearms, but may have been available in special-order lengths.

Notes

Make

- "WEST RIFLE" and "MADE IN CANADA" are marked on the side of the firearm.

Model

- "WR762" is marked on the right, rear side of the receiver/frame.
- "WR762" externally resembles the "CZ858" family of firearms.
- features include: threaded muzzle for flash hider/muzzle brake; hooded front sight and tangent rear sight; short stroke gas piston is mounted above the barrel; flat sided machine steel receiver/frame with a sheet metal dust cover; tilting block locking system; striker fired; cocking handle is mounted on the right side of the breech block; detachable box magazine release lever mounted behind the magazine well; safety lever mounted on the right side of the receiver/frame; wood or synthetic top and bottom forend, pistol grip and stock; may have a one-piece wood stock; parkerized or white colour finish.

Manufacturer

- manufactured by Elite Machining, Windsor, Ontario.
- manufacturer's name not found marked on firearm.

Action

- gas operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a letter "E" prefix followed by three numbers and having a letter "P" suffix.

Calibre

- "7.62 x 39" is usually marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- uses Czech Vz-58 type magazines.

Make: West Tek
Model: Sarissa Prototype

Summary

Make:	West Tek
Model:	Sarissa Prototype
Manufacturer:	Novy Manufacturing
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
199094 - 1	5.56MM NATO	30	368	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WEST TEK DEFENCE CORP" is marked on the right side of the firearm.
- "MFG. WEST TEK" is marked on the right side of the receiver/frame.

Model

- The model designation is not marked on the firearm.
- This is a full automatic prototype designed by West Tek that will be marketed under the model name "Sarissa".
- Features include: contoured barrel; ventilated, free-floating handguard; ambidextrous charging handle; two piece split aluminum receiver/frame with right side magazine release and left side safety selector.

Manufacturer

- The manufacturer is not marked on the firearm.
- "Novy Manufacturing" is a manufacturing company located in Waterloo, Ontario, Canada.

Action

- Gas operated.

Serial Number

- The serial number is marked on the right side of the receiver/frame.

Calibre

- The calibre designation is marked on the right side of the receiver/frame.

Shots

- Detachable box magazine.
- Designed to accept AR-15/M16 type magazines.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This firearm design incorporates a split receiver/frame: the lower receiver is the master component considered to be the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Make: Western Airguns
Model: Rattler

Summary

Make:	Western Airguns
Model:	Rattler
Manufacturer:	Western Airguns
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
199449 - 1	357 PELLET	15	711	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- The make is marked on the right side of the receiver/frame.
- The company logo is marked on the firearm.

Model

- "Rattler" is marked on the left side of the receiver/frame.
- "Rattler" is a pre-charged pneumatic (PCP), semi-automatic, bullpup design rifle with a sound suppressor.
- "Rattler" has a primary safety on left side of the rear receiver/frame. A secondary safety lever is located on the right side of the firearm above the trigger. A third one is the magazine locking lever not been in the upper lock position, the rifle will not discharge its pellet.
- Features include: shrouded barrel; under the barrel propellant tubular tank with side pressure gauge and filling connector; regulated air pressure gauge on the left side of the receiver/frame with under power adjuster knob; right side magazine loading gate; top side plates with elongated ventilation holes.
- Overall length with a 711 mm (28 inches) barrel is 1016 mm (40 inches), average weight is 4.22 kg (9.3 lbs).

Manufacturer

- The company logo is marked on the firearm.
- The manufacturer is marked on the right side of the receiver/frame.
- "Western Airguns" is located in Sheridan, Wyoming U.S.A..

Action

- Pre charged pneumatic.
- Velocities have been reported as 244 mps/800 fps and 274 mps/900 fps.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- Serial number of referenced examples consisted of a two letter prefix (WR) and seven numbers.

Shots

- Detachable rotary disc magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Notes

Make

- "WESTERN ARMS Co NY NY" was observed marked on the barrel.
- "Western Arms Co." trade name was used on percussion revolvers manufactured by Bacon Manufacturing Company, and W. W. Marston in the 1850s and 1860s.
- "Western Arms Company" was a distributor/importer of firearms located in Chicago, Illinois and New York City, New York, U.S.A. in the late 1800s and early 1900s.
- "Western Arms Co." trade name was used by John Spencer of Chicago, Illinois circa 1864.
- "Western Arms Co." trade name was observed marked on a .22 calibre single shot rifle, manufacturer unknown.
- "Western Arms Co." trade name was used on Baby Hammerless revolvers manufactured by Henry Kolb in the late 1800s and by R. F. Sedgely in the early 1900s.

Model

- "Navy" revolver series was manufactured from late 1850s to the early 1860s.
- "Navy" revolvers was sold under the tradenames of "Western Arms Company" and "Union Arms Company".
- this is a single action percussion revolver with a solid top receiver/frame.
- features include: bead front sight and groove in the top strap for a rear sight; octagonal or round barrel with rammer/loading lever; solid top receiver/frame with round unfluted cylinder; exposed spur hammer; single action trigger mechanism; brass trigger guard; flat bottom grip strap; walnut grip plates; blued finish.
- cylinder may be plain or have a roll engraved scene.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- William Walker Marston was a gun manufacturer and retailer based in New York City, New York, U.S.A. from 1844 to 1872.
- Marston produced both percussion and metallic cartridge firearms under a variety of names and with various partners: "W.W. Marston", "W.W. Marston, New York City", "W. W. Marston Armory, New York", "William Marston, New York City", "Marston & Knox, New York", "Sprague & Knox, New York", "The Washington Arms Company", "The Union Arms Company" and "Phenix/Phoenix Armory".
- Marston was in partnership with Knox, circa 1847.
- Marston was in partnership with Sprague from 1848 to 1853.

Serial Number

- serial number is located on the underside of the receiver/frame.
- serial number range was from 201 to 1000.

Barrel

- available in the following barrel lengths: 191 mm (7.5"), 203 mm (8"), and 216 mm (8.5").

2595 - 1	308 WIN	4	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ward's Western Field", "Wards Western Field", "WesternField", "Western Field", "M" over "W", "Montgomery Ward", "Montgomery Ward & Co." or a combination of these may be marked on the firearm.
- "M" over "W" is the trademark of "Montgomery Ward & Company".
- "Western Field" is a trademark/trade name used by Montgomery Ward & Company.

Model

- this is one variation of the Mossberg model 800A sold under the Montgomery Ward's house brand name "Western Field".
- the model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- features will usually include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Montgomery Ward's under the Western Field brand name, by Western Auto under the Revelation name and by Mossberg under the New Haven brand name.

Action

- turn-bolt operated.

Serial Number

- usually numbered on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - internal magazine with a hinged floorplate.

Remarks - Walnut Monte Carlo stock with checkered forearm and pistol grip. Cocks on opening. Thumb operated safety. Six locking lugs on bolt. Box type internal magazine with hinged floor plate. Adjustable folding leaf rear sight and ramped gold bead front sight. Barrel has a slight taper. Made for Wards. Same as Mossberg 810A

Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock with a roll-over cheekpiece and rosewood forend tip and grip cap; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the Damascened bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Mossberg under the New Haven trade name, by Montgomery Ward's under the Western Field brand name and by Western Auto under the Revelation name.

Action

- turn-bolt operated.

Serial Number

- numbered on the left side of the receiver/frame.

Calibre

- calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - internal magazine with a hinged floorplate.

Remarks - also available in calibre 308 WIN as the model 775.

Notes

Make

- "Ward's Western Field", "Wards Western Field", "WesternField", "Western Field", "M" over "W", "Montgomery Ward", "Montgomery Ward & Co." or a combination of these may be marked on the firearm.
- "M" over "W" is the trademark of "Montgomery Ward & Company".
- "Western Field" is a trademark/trade name used by Montgomery Ward & Company.

Model

- this is one variation of the Mossberg model 800A sold under the Montgomery Ward's house brand name "Western Field".
- the model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- features will usually include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Montgomery Ward's under the Western Field brand name, by Western Auto under the Revelation name and by Mossberg under the New Haven brand name.

Manufacturer

- manufacturer's name is not marked on the firearm.

Action

- turn-bolt operated.

Serial Number

- usually numbered on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- the calibre designation is marked on the barrel.
Shots	- internal magazine with a hinged floorplate.

4788 - 3	22 SHORT	22	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- 1938-1965 approx.

Remarks

- Operates as a semi-automatic with 22 LR or high speed cartridges only. Pressing the cross bolt to the left locks the action, adapts the rifle for use as a bolt action or single shot. Has a tube type magazine mounted under the barrel and a thumb safety at the rear of the receiver. Has a tapered round barrel. Walnut finished one piece pistol grip stock with rubber butt plate (early model had a black tip forend). Sporting front sight (early models had a gold bead front sight) and an open rear sight with step elevator. Receiver grooved for scope mounting. Same as Stevens 87 with possible internal and/or external modifications. Made for Montgomery Ward under the house brand Western Field.

FRT Report

Firearm Reference Number (FRN): 2586
Make: Western Field
Model: 822

Summary

Make:	Western Field
Model:	822
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2586 - 1	22 MAG	5	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Western Field" is marked on top of the barrel.
- Trade name used by Montgomery Ward & Company.
- Alternate Make markings include "Ward's Western Field", "Wards Western Field", "WesternField", "Montgomery Ward", "Montgomery Ward & Co.", and the "M" over "W" logo for Montgomery Ward.

Model

- 1959-1968
- "MODEL M822" is marked on top of the barrel.
- Based on the "Mossberg 640K Chuckster" design.
- Features include: Barrel mounted front blade and rear notch sight; turned down bolt handle; sliding dust cover; bottom metal with magazine release latch; polymer trigger guard; polymer pistol grip end cap; accessory rail above receiver/frame; left rear of the receiver/frame drilled and tapped for accessory peep sight; sliding safety located on the right rear of the receiver/frame.

Manufacturer

- "M" in the model designation stands for O.F. Mossberg & Sons Inc.

Action

- Turn bolt operated.

Serial Number

- The serial number may or may not be marked on the firearm.

Calibre

- "22 MAGNUM - W.M.R." is marked on top of the barrel.

Shots

- Detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Plain stock, molded trigger guard, butt plate and pistol grip cap. Standard U-notch open sights and swivels. Drilled and tapped for Mossberg S330 peep receiver sight. Safety at right rear side of the receiver. Same as Mossberg 640K
- Montgomery Ward's "Western Field" branded firearms normally have a manufacturer's code in the model designation. The following letters were used to identify the company: "ECH" = Colt Industries; "EFW" = Firearms International Corp.; "EGP" = Golden State Arms; "EHM" = Fr. Heym Waffenfabrik; "EJN" = Jefferson Corp.; "EKN" = Kessler Arms Co.; "EMN" = Marlin Firearms Co.; "EMJ" = Miroku; "ERI" = Remington Arms Co.; "EY" = Iver Johnson Arms Co.; "M" = O.F. Mossberg & Sons; "SB" = Stevens/Savage; and "XNH" = Noble Mfg. Co.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
4851 - 1	22 LR	15	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- manufactured from 1938 to 1965 approx.

Remarks

- Operates as a semi-automatic with 22 LR or high speed cartridges only. Pressing the cross bolt to the left locks the action, adapts the rifle for use as a bolt action or single shot. Has a tube type magazine mounted under the barrel and a thumb safety at the rear of the receiver. Has a tapered round barrel. Walnut finished one piece pistol grip stock with rubber butt plate (early model had a black tip forend). Sporting front sight (early models had a gold bead front sight) and an open rear sight with step elevator. Receiver grooved for scope mounting. Same as Stevens 87N with possible internal and/or external modifications. Made for Montgomery Ward.

FRT Report

Firearm Reference Number (FRN): 117417
Make: Western Field
Model: 87-SB87-TA

Summary

Make:	Western Field
Model:	87-SB87-TA
Manufacturer:	Savage
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
117417 - 1	22 LR	15	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Ward's Western Field", "Wards Western Field", "WesternField", "Western Field", "M" over "W", "Montgomery Ward", "Montgomery Ward & Co." or a combination of these may be marked on the firearm.
- "M" over "W" is the trademark of "Montgomery Ward & Company".
- "Western Field" is a trademark/trade name used by Montgomery Ward & Company.

Model

- "WARD'S WESTERN FIELD" over "MODEL 87-SB87-TA" are marked on the top of the barrel.
- this is a Stevens Model 87 manufactured by Savage and sold by Montgomery Ward as the Western Field 87.
- operates as a blowback semi-automatic, however, pressing in the bolt handle will lock the action for use as single shot only.
- features include: walnut finish, one piece pistol grip stock with rubber butt plate;
tubular magazine mounted under the barrel; thumb safety located at the rear of the receiver/frame; open rear sight with step elevator, receiver/frame grooved for scope mounting; left side of receiver/frame has eight slots cut vertically just rear of the chamber; tapered round barrel; blued finish.

Manufacturer

- the manufacturer's name is not marked on the firearm.
- "SB" in the model designation is Montgomery Ward's manufacturer code for "Stevens/Savage".

Action

- blowback operated.

Serial Number

- observed sample was not marked with a serial number.
- "2094577 PATENTS 2224758" over "2223093 RE22585 2271576" is usually marked on the right side of the barrel, these numbers are patent numbers only and are not serial numbers.

Calibre

- ".22 SHORT, LONG OR LONG RIFLE" over "LONG RIFLE ONLY AS AUTOMATIC" may be marked on the left side of the barrel below the rear sight.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - tubular magazine mounted under the barrel.

Other Markings - known example had the following information marked on the right side of the barrel: "2094577 PATENTS 2224758" over "2223093 RE22585 2271576".

Notes

Make

- "Ward's Western Field", "Wards Western Field", "WesternField", "Western Field", "M" over "W", "Montgomery Ward", "Montgomery Ward & Co." or a combination of these may be marked on the firearm.
- "M" over "W" is the trademark of "Montgomery Ward & Company".
- "Western Field" is a trademark/trade name used by Montgomery Ward & Company.

Model

- "M550AD" is marked on the underside of the receiver/frame in front of the loading port.
- this is a standard pattern pump-action shotgun made for Western Field/Montgomery Ward by Mossberg; this model line is patterned after the Mossberg Model 500 series.
- features include: round tapered barrel with bead front sight; solid top anodized aluminum receiver/frame with right side ejection and bottom loading port; fixed underbarrel tube magazine; may have pressed checkering on walnut forearm and pistol grip buttstock with rubber butt pad; blued finish.
- the bolt locks to the barrel and any Mossberg Model 500 shotgun series 12 GA. barrel may be readily exchanged without the use of any hand tools.

Manufacturer

- "MADE IN U.S.A." is usually marked on the front underside of the receiver/frame and on the barrel.
- manufacturer's name is not usually marked on the firearm.
- Montgomery Ward's Western Field manufacturer's code in the model designation is the letter "M" for O.F. Mossberg & Sons.

Serial Number

- serial number is usually marked on the left side of the reciever/frame, however, observed examples have been noted without a serial number.

Calibre

- calibre is marked on the barrel, eg. "2 3/4" CHAMBER 28 INCH MODIFIED CHOKE" over "12 GA. MADE IN U.S.A.".
- calibre is marked on the underside of the receiver/frame, eg. "12 GA.".

Shots

- tubular magazine mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- Model note re marking: Montgomery Ward's Western Field normally have a manufacturer's code in the model designation. The following letters were used to identify the company: "ECH" = Colt Industries; "EFW" = Firearms International Corp.; "EGP" = Golden State Arms; "EHM" = Fr. Heym Waffenfabrik; "EJN" = Jefferson Corp.; "EKN" = Kessler Arms Co.; "EMN" = Marlin Firearms Co.; "EMJ" = Miroku; "ERI" = Remington Arms Co.; "EY" = Iver Johnson Arms Co.; "M" = O.F. Mossberg & Sons; "SB" = Stevens/Savage; and "XNH" = Noble Mfg. Co.

- known example was marked on left side of barrel, "2 3/4 CHAMBER 28 INCH MODIFIED CHOKE" over, "12 GA. MADE IN U.S.A.".

Make

- "Ward's Western Field", "Wards Western Field", "WesternField", "Western Field", "M" over "W", "Montgomery Ward", "Montgomery Ward & Co." or a combination of these may be marked on the firearm.
- "M" over "W" is the trademark of "Montgomery Ward & Company".
- "Western Field" is a trademark/trade name used by Montgomery Ward & Company.

Model

- model designation roll stamped on top of the barrel.
- this is a Stevens Model 87 manufactured by Savage and sold by Montgomery Ward as the Western Field Model SB85TA.
- features include:
- operates as a semi-automatic, but pressing the cross bolt to the left locks the action, and adapts the rifle for use as a single shot.
- tube type magazine mounted under the barrel.
- thumb safety located at the rear of the receiver/frame.
- walnut finished, one piece pistol grip stock with rubber butt plate (early model had a black tip forend).
- sporting front sight and open rear sight with step elevator.
- receiver/frame grooved for scope mounting.
- tapered round barrel.
- left side of receiver/frame has eight slots cut vertically just rear of the chamber.

Manufacturer

- the manufacturer's name is not marked on the firearm.
- "SB" in the model designation is Montgomery Ward's manufacturer code for "Stevens/Savage".

Action

- blow back operated.

Serial Number

- may not be marked with a serial numbered.
- do not confuse serial number with patent numbers stamped on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - tubular magazine.

Notes

Make

- "Western Field" and "MODEL SD59A" was observed marked on the rear of the receiver/frame.
- "Western Field" is a trademark/trade name used by Montgomery Ward & Company.

Model

- "Western Field" over "MODEL SD59A" was observed marked on the rear of the receiver/frame.
- manufactured circa 1938 to 1965.
- features include: round tapered rifled barrel with fixed front sight and an adjustable open rear sight; tubular receiver/frame with right side ejection port and cocking knob; thumb safety is mounted on the right rear side of the receiver/frame; one piece wood semi-pistol grip stock with rubber butt plate.
- "SD59A" is a Savage model 6A or Stevens model 87 with a different stock and possible internal modifications.
- pressing the cross bolt knob to the left locks the action, and adapts the rifle for use as a manually operated firearm.

Action

- blowback operated.

Serial Number

- serial number was not observed marked on the firearm.
- rim-fire rifles manufactured prior to 1968 may not have a serial number.
- "PATENT 2094577" over "PATENT 2223093" was observed marked on the right side of the barrel on an example.
- "2094577" and "2223093" are not serial numbers, they are United States of America Patent Numbers.

Calibre

- "CAL. 22 LONG RIFLE SMOKELESS GREASED ONLY" was observed marked on the left side of the barrel on an example.
- ".22 SHORT, LONG OR LONG RIFLE" over "LONG RIFLE ONLY AS AUTOMATIC" was observed marked on the left side of the barrel on an example.

Shots

- tuber magazine is mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "PATENT 2094577" over "PATENT 2223093" was observed marked on the right side of the barrel.

125379 - 1	36 PERCUSSION	6	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WESTERNER'S ARMS" or "WESTERNER'S - ARMS" is marked on the barrel.

Model

- the model designation is not marked on the firearm.
- this is a modern reproduction of the Colt model 1861 Navy percussion revolver.
- features include: blued round barrel with a fixed bead front sight; color case hardened loading lever located under the barrel; color case hardened open top receiver/frame with removeable round cylinder; color case hardened exposed spurred hammer; single action trigger mechanism; silver plated round brass triggerguard, silver plated brass backstrap, walnut grip panels.
- the model is also available with a detachable shoulder stock.
- the observed cylinder was engraved with a naval battle scene of the Texas Navy's victory over Mexico's Navy. The cylinder was marked in small print, "ENGAGED 16 MAY 1843", and "PATENT N.".

Manufacturer

- the "Uberti" name and/or logo (a "U" in an octagonal rifle bore) will be marked on the receiver/frame or barrel.

Action

- muzzle loading.

Serial Number

- the serial number will usually be marked on the underside of the receiver/frame ahead of the trigger guard.
- observed serial number consisted of a letter prefix followed by four numbers.

Notes

Make

- "WESTERNER'S ARMS" or "WESTERNER'S - ARMS" is marked on the barrel.

Model

- model designation is not marked on the firearm.
- this is a modern reproduction of a Griswold & Gunnison 1851 Navy revolver also known as a Griswold & Grier, Griswold, or Griswoldville percussion revolver.
- the C.S.A. "Griswold & Gunnison" revolvers were manufactured between 1862 and 1864 and was a copy of the "Colt 1851 Navy" revolver.
- the main difference in these percussion revolvers is the Colt has an octagonal barrel; steel receiver/frame with engraved cylinder and the Griswold & Gunnison has a round barrel and a brass receiver/frame with a plain cylinder.
- features include: blued round barrel with brass bead front sight; open top brass receiver/frame; brass backstrap and trigger guard; colour case hardened loading lever and hammer; wooden grip.

Manufacturer

- the manufacturer's name or logo may be marked on the firearm.

Serial Number

- the serial number is located on the underside of the receiver/frame.

76375 - 2	45 PERCUSSION	1	901	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Westley Richards" and/or "Westley Richards & Co." is marked on the lockplate and on top of the hinged breech block.

Model

- side hammer, "capping" breech loading service firearm patented in 1858 and adopted by the British Army in 1861 as a limited standard.
- utilises a breech mechanism which features a forward hinging breech block which when in the open position allows the insertion of a combustible paper cartridge into the chamber of the firearm. A percussion cap placed on the external nipple when struck by the hammer detonates the powder charge in the paper cartridge.
- manufactured in at least two carbine and in military rifle configuration.
- commonly referred to as a Westley Richards Monkey Tail because of the shape of the lifting "tail" on the rear of the breech block.
- produced on British military and commercial contract to other countries, most notable being Portugal.
- rifling is of the Whitworth Patent type being hexagonal in section.

Manufacturer

- "Westley Richards" and/or "Westley Richards & Co." is marked on the lockplate and on top of the hinged breech block.
- "Westley Richards" was located in Birmingham, England and had sales offices in London, England.

Other Markings

- lockplates of British military Westley Richards rifles bear a crown, the cypher of Queen Victoria (VR), the manufacturer's name (Westley Richards) and the year of manufacture.
- lockplates of Westley Richards rifles manufactured for commercial sale have the date of manufacture in a triangle and the manufacturer's name (Westley Richards).

Notes

Make

- "Westley Richards" or a variation thereof is usually marked on the lockplate and/or the top of the barrel.

Model

- no model name is marked on this firearm.
- this is a generic entry for those Westley Richards percussion pistols that are not identifiable as a specific model.
- this type of handgun would have been made circa mid-1850's to early circa 1870's.
- features; muzzle loading, percussion ignition, side lock with exposed hammer; under barrel ram rod may be hinged at the muzzle end to avoid lose; may have brass furniture; browned barrel; hardwood stock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Westley Richards" or a variation thereof is usually marked on the lockplate and/or the top of the barrel. - known example marked with the initials "W.R." on the underside of the barrel in addition to "Westley Richards" on the top of the barrel and on the lock plate.
Action	- muzzle loader.
Serial Number	- known example had a three digit number without prefix or suffix marked on the underside of the barrel.
Canadian Law Comments	- those firearms manufactured before 1898 are considered "Antique" and as such do not require registration in Canada. - Some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- observed example marked, "Westley Richards 170 New Bond St. London" on the top of the barrel.

Notes

Make

- known example was marked, "Westley Richards & Co." over "London" on the top strap.

Model

- no model name is marked on this firearm.
- model designation is derived from the characteristics of this firearm that are similar to the typical British handgun called the "R.I.C.".
- features; solid receiver/frame construction; double action trigger; rebounding hammer; ejector rod is housed within the cylinder axis pin and rotates to the right for the ejecting of spent casings; loading gate on the right side of the standing breech; may have a lanyard ring; fluted cylinder; blued finish.
- British proof marks are apparent on the barrel, cylinder and receiver/frame.

Manufacturer

- known example was marked, "Westley Richards & Co." over "London" on the top strap.

Calibre

- known example had the calibre marked on the front left side of the receiver/frame as ".450".

Canadian Law Comments

- Some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

FRT Report

Firearm Reference Number (FRN): 140382
Make: Westley Richards
Model: Scottish Highlander Regimental Flintlock Pistol

Summary

Make:	Westley Richards
Model:	Scottish Highlander Regimental Flintlock Pistol
Manufacturer:	Westley Richards & Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
140382 - 1	56 FLINTLOCK	1	178	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WESTLEY RICHARDS" is engraved in intertwined banners on the lock plate.

Model

- model designation is not marked on the firearm.
- manufactured circa 1835.
- traditional Scottish military flintlock pistol.
- features include: all metal construction; round, stepped barrel slightly flared at the muzzle; ram's horn butt with a threaded, centre knob for the touch hole pick; button head, turned ram rod; goose neck cock; belt hook attachment on the left side; lobed trigger tip; no trigger guard; external sear mechanism; extensive floral and scroll engraving pattern.
- overall length is 279mm/11".
- a very similar pistol, the "Black Watch Pistol" is known under several similar names, and must not be confused with the "Murdoch" pistol; where the "Murdoch" pistol has a "ram's-head" butt, with curlicue extensions that help to protect a ball-headed vent-pick threaded into the butt, the "Black Watch Pistol" is made with an all-brass butt and stock, with a double-lobed "kidney-shaped" butt that allows the pistol to be used as a club after the shot is fired.

Manufacturer

- "WESTLEY RICHARDS" is engraved in intertwined banners on the lock plate.

Action

- muzzle loading.

Other Markings

- the rank, initials and regimental number may be engraved on the grip.

Notes

Make

- "WESTLEY RICHARDS & CO" over "LONDON" was observed marked on the top strap of the receiver/frame.
- Westley Richards & Company was founded in 1812 by William Westley Richards (1788-1865) in Birmingham, England at 82 High Street.
- William Westley Richards established a retail outlet at 170 New Bond Street (later renamed 178 New Bond Street) under the management of William Bishop in 1815.
- Westley Richards took over the family business from his father, William Westley Richards, in 1840 and continued to manufacturer firearms and introduce further developments in the firearms industry.
- business was known as "Westley Richards" from 1840 to 1859.
- Westley Richards was renamed "Westley Richards & Company" in 1859.
- Westley Richards & Company" was renamed "Westley Richards Arms & Ammunition Company" in 1870.
- Westley Richards Arms & Ammunition Company became "Westley Richards & Company Limited" in 1873.
- Westley Richards retired in 1872, John Deeley took charge of the company and ran it until 1899. John Deeley had joined the company in 1860.
- Westley Richards & Company Limited moved out of the High Street premises to a factory at 40 Grange Road, Bournebrook in 1896. During the era of John Deeley management, he and a foreman, William Anson, developed the Anson and Deeley Boxlock action.
- Leslie Taylor succeeded John Deeley as the managing director of the company. By this time Westley Richards & Company was the only firearms company in Birmingham to operate shooting grounds around London and a shooting school at Henden.
- Westley Richards & Company Limited was liquidated in 1946. A Birmingham businessman purchased the company and in 1948, Malcolm Lyell took charge of the shop, which was then located at 23 Conduit Street.
- by 1955 the owners decided to close down the London business. Malcolm Lyell then purchased Westley Richards & Company and operated as the Westley Richard Agency. Lyell amalgamated with Holland & Holland in 1955.
- Westley Richards still offers fine firearms built to customer specifications.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "WEBLEY'S" over "No 2" over "calibre" was observed marked on the left side of the receiver/frame. - features include: half moon blade front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a fluted cylinder, and right side swing down loading gate; swing-out case ejector rod stored within the cylinder axis rod; exposed spur hammer; double/single action trigger mechanism; birds-head style grip strap; checkered wood grip plates; blued finish. - NOTE: barrel is ovate and may have an unusual taper with the diameter at the muzzle end being greater in diameter than where the barrel meets the receiver/frame.
Manufacturer	- "WEBLEY'S" or "WEBLEY" over "PATENTS" is usually marked on the side of the receiver/frame. - "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
Serial Number	- serial number was observed marked on the left side of the receiver/frame. - observed serial numbers consisted of five numbers without a letter prefix or suffix.
Calibre	- "calibre" was observed marked on the left side of the receiver/frame.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "1867" inside a triangle and "WESTLEY RICHARDS & Co" was observed marked on the lockplate of an example.

Model

- manufactured circa 1860 to 1880.
- full model name is not marked on this firearm.
- "WESTLEY RICHARDS" over "PATENT" was observed marked on the breech.
- Westley Richard's breech loading percussion firearm was patented in 1858, this curious design incorporated a hinged breech lever (resembling a monkey's tail) that actuated a piston that pushed a paper wrapped bullet and powder charge with a greased wad into the rear of the barrel. A percussion cap was then applied.
- "WHITWORTH . PATENT" was observed marked on the barrel of an example.
- Joseph Whitworth's polygonal rifled barrel was patented in 1854.
- this is a breech loading, percussion firearm with the option of muzzle loading.
- features include: blade front sight and no rear sight; browned round barrel; steel ram rod is mounted under the barrel; right side lock with exposed percussion hammer; brass furniture; full length hardwood stock; lanyard loop.

Manufacturer

- "1867" inside a triangle and "WESTLEY RICHARDS & Co" was observed marked on the lockplate of an example.

Action

- muzzle or breech loading, percussion ignition.

Serial Number

- serial number is marked left side of the barrel.
- observed serial number consisted of three numbers without a letter prefix or suffix.
- numbered from 1 to 1000.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - the date "1867" within a triangle was marked on the rear of the lockplate of an observed example.

Notes

Make

- "Westpoint" is a trade name used by Cotter & Company.
- Cotter & Company of Chicago, Illinois, U.S.A. was founded by John Cotter in 1948.
- Cotter & Company purchased Hibbard Spencer Bartlett & Company in 1962.
- Cotter & Company and ServiStar (ServiStar Hardware was formerly American Hardware Supply and Coast to Coast Hardware) merged to form TrueServ Corporation in 1997.
- TruServ Corporation dropped the ServiStar and Coast to Coast trade names and renamed itself True Value Company in 2006.

Model

- "West Point Model 33" is marked on the barrel.
- manufactured from 1966 to 1970.
- total production of approximately 7,289 units.
- this is a "Marlin model 336 C" sold by "Cotter & Company" under their trade name and model designation.
- features may include: octagonal or round tapered barrel; flat top receiver/frame with round bolt; right side ejection port and loading gate; single trigger; offset hammer spur; tubular magazine; top of receiver/frame sandblasted to reduce glare and drilled and tapped for scope mounts; ramp front sight with hood and semi buckhorn adjustable folding rear sight.

Manufacturer

- manufacturer's name is marked on the barrel.
- contract firearm built by Marlin for Cotter & Company for retail sale under Cotter's trade/brand name "West Point".
- manufacturer's name may be marked on the barrel.
- contract firearm built by Marlin for Cotter & Company for retail sale under Cotter's trade/brand name "West Point".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- solid frame, visible hammer, centre fire, round bolt, side ejection, flat top.
Serial Number	- the serial number is located on the lower tang with a letter prefix. - the serial number may be marked under the operating lever on the trigger plate and repeated on the side of the upper tang, behind the hammer. - the serial number may have a single or two letter prefix, eg. "E000001" or as a two number prefix, eg. "27009190".
Barrel	- round, blued.
Shots	- tubular magazine located under the barrel.
Remarks	- Case hardened, carbine, single trigger, shotgun butt plate, full length tubular magazine, pistol grip stock. May have a gold plated trigger. This is a contract gun manufactured for Cotter & Co by Marlin and is similar to the Marlin Model 336 C with birch woodwork. The word Carbine may, or may not, appear after the model number on the barrel.

Notes

Make

- "Westpoint" is a trade name used by Cotter & Company.
- Cotter & Company of Chicago, Illinois, U.S.A. was founded by John Cotter in 1948.
- Cotter & Company purchased Hibbard Spencer Bartlett & Company in 1962.
- Cotter & Company and ServiStar (ServiStar Hardware was formerly American Hardware Supply and Coast to Coast Hardware) merged to form TrueServ Corporation in 1997.
- TruServ Corporation dropped the ServiStar and Coast to Coast trade names and renamed itself True Value Company in 2006.

Model

- manufactured from 1989 to present.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Black Rynite composition stock with removeable butt cap for storage and accessories. Removable grip cap with intergral screwdriver and compass. Folding leaf sight with a cast metal trigger guard. Single trigger and barrel selector spur on hammer. Over and under, separated barrels with the 12 Ga. and 20 Ga. have modified choke. Two way opening lever for either right or left handed shooters. Same as the Savage 24F with some possible internal and/or external modifications, made for Coast To Coast.

Notes

Make

- "WESTPOINT" and "COTTER & COMPANY, CHICAGO, ILLINOIS, U.S.A." are marked on the barrel.
- "Westpoint" is a trade name used by Cotter & Company.
- Cotter & Company of Chicago, Illinois, U.S.A. was founded by John Cotter in 1948.
- Cotter & Company purchased Hibbard Spencer Bartlett & Company in 1962.
- Cotter & Company and ServiStar (ServiStar Hardware was formerly American Hardware Supply and Coast to Coast Hardware) merged to form TrueServ Corporation in 1997.
- TruServ Corporation dropped the ServiStar and Coast to Coast trade names and renamed itself True Value Company in 2006.

Model

- "MODEL 45" is marked on the barrel.
- this is a standard pattern 22 LR semi-automatic rifle built by the Marlin Firearms Company for sale through Cotter & Company of Chicago, Illinois; this rifle is simply a re-named Glenfield Model 75.
- one piece wooden pistol grip stock with impressed "checkering" and animal motifs, barrel band at the forearm, open adjustable sights, sling swivels, cross bolt safety at the rear of the trigger guard and a short tubular magazine in the forearm that feeds from the front.

Manufacturer

- though these firearms were manufactured by Marlin for Cotter & Company, Marlin is not marked on the firearm.

Action

- blowback operated.

Calibre

- "CAL. 22 LR ONLY" is marked on the left side of the barrel.

Shots

- tubular magazine in forearm below barrel.

- TruServ Corporation dropped the ServiStar and Coast to Coast trade names and renamed itself True Value Company in 2006.

Model

- manufactured from 1970 to 1981.

Serial Number

- 6 digits, found on upper left side of frame.

Calibre

- PROOF TESTED CAL XXXXX (marked on the left rear side of the barrel.)

Remarks

- Selected walnut Monte Carlo stock and a corrugated butt plate. Pistol grip and slide are checkered. Slide thumb safety located on the tang and tube type magazine. Folding leaf rear and gold bead front sight on a ramp. Receiver drilled and tapped for top mounted scope. Same as the Savage 170 with some possible internal and/or external modifications, made for Cotter & Co. May be under the house name Trutest or West Point.

- TruServ Corporation dropped the ServiStar and Coast to Coast trade names and renamed itself True Value Company in 2006.

Model

- manufactured from 1938 to 1965 approx.

Remarks

- Operates as a semi-automatic with 22 LR or high speed cartridges only. Pressing the cross bolt to the left locks the action, adapts the rifle for use as a bolt action or single shot. Has a tube type magazine mounted under the barrel and a thumb safety at the rear of the receiver. Walnut finish, one piece pistol grip stock with rubber butt plate (early model had a black tip forend). Sporting front sight (early model had a gold bead front sight) and an open rear sight with step elevator. Receiver grooved for scope mounting. Has a tapered round barrel. Same as Springfield 187 with possible internal and/or external modifications, made for Cotter & Co. May be under the house name Trutest or West Point.

- TruServ Corporation dropped the ServiStar and Coast to Coast trade names and renamed itself True Value Company in 2006.

Model

- manufactured circa 1976.

Remarks

- Martini-type tilting breech block. Western style single-shot rifle has a finger lever, straight stock with separate forearm and a dummy magazine tube which give the appearance of a traditional tubular-magazine lever action carbine. The receiver, lever frame and front barrel band are die-cast zinc alloy with a black epoxy finish. The remaining external metal parts are blued. The stock is a light walnut finish with a matching forearm. Has a tapered round barrel. Same as the Stevens 89 with possible internal and/or external modifications, made for Cotter & Co. May be under the house name Trutest or West Point.

Notes

Make

- "Westpoint" is a trade name used by Cotter & Company.
- Cotter & Company of Chicago, Illinois, U.S.A. was founded by John Cotter in 1948.
- Cotter & Company purchased Hibbard Spencer Bartlett & Company in 1962.
- Cotter & Company and ServiStar (ServiStar Hardware was formerly American Hardware Supply and Coast to Coast Hardware) merged to form TrueServ Corporation in 1997.
- TruServ Corporation dropped the ServiStar and Coast to Coast trade names and renamed itself True Value Company in 2006.

Manufacturer

- manufactured from 1952 to 1960.

Serial Number

- 6 digits early models may have no serial #.
- found on front right side of frame

Calibre

- PROOF TESTED CAL XXXXX (marked left rear side of barrel).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Streamlined walnut stock, fluted comb, full pistol grip (white line pistol grip cap in later models) and a corrugated butt plate. Pistol grip and forend are checkered. Action cocks on opening and locking lug with gas vent holes that match twin gas port in receiver. Slide thumb safety located at the right rear of the receiver and has a detachable box magazine. Has a gold bead front sight on a ramp (hooded removable front sight in latter models) and a folding rear sight with screw or sliding elevator. Receiver drilled and tapped for a scope. Same as the Springfield 840 with possible internal and/or external modifications, made for Cotter & Co. May be under the house brand name West Point and Trutest.

196177 - 1	BB	15	110	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- The make is not marked on the firearm.
Model	- "MODEL 15XT" is marked on the left side of the firearm. - "WC401" is marked on the left side of the firearm. - This CO2 powered pistol somewhat resembles a Colt Officer's ACP pistol in layout. - Features include: black synthetic construction; integral accessory rail mounted ahead of the trigger guard; rear serrations on "slide"; cross-bolt trigger-block safety; checkered synthetic grips; CO2 cartridge housed in the pistol grip. - Overall length with a 110 mm (4.3 inches) barrel is 190 mm (7.4 inches), average weight is 0.36 kg (0.79 lbs).
Manufacturer	- The manufacturer is not marked on the firearm. - "MADE IN TAIWAN" is marked on the left side of the firearm.
Action	- CO2 powered. - Velocity is reported 130 mps or 426.5 fps.
Serial Number	- The serial number rationalization is unknown.
Calibre	- The calibre designation is marked on the left side of the firearm.
Canadian Law Comments	- Does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

FRT Report

Firearm Reference Number (FRN): 139992
Make: WG
Model: 703B Smith & Wesson 627 Airsoft

Summary

Make:	WG
Model:	703B Smith & Wesson 627 Airsoft
Manufacturer:	WinGun (WG)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Airsoft
Action:	Air,Spring or Gas
Country of Manufacturer:	TAIWAN
Serial Numbering:	
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
139992 - 1	6MM AIRSOFT BB	6	203	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WG" logo of WinGun is marked on the firearm.

Model

- "703B AIRSOFT" is not marked on the firearm.
- this airsoft firearm resembles a Smith & Wesson model 627 revolver.
- features include: metal construction; adjustable sights; outer barrel/sleeve with under lug and a smoothbore inner barrel; solid top receiver/frame with left side swing-out fluted cylinder; cylinder release is located on the left side of the receiver/frame; exposed hammer; single/double action trigger mechanism; CO2 power cylinder is housed on the grip frame under the left grip plate; black finish.
- overall length is 345 mm, and average weight is 970 grams.

Manufacturer

- "WinGun" is a manufacturer located in Taishan Shiang Taipei, Taiwan.

Type

- this is an airsoft handgun.

Action

- CO2 gas powered.
- at least two variants of this particular model exist:
Variant #1) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 238.7 mps (783 fps) and/or a muzzle energy exceeding 5.7 Joules, and
Variant #2) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 111.6 mps (366 fps) and/or a muzzle energy exceeding 1.2 Joules.

Shots

- swing-out cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this airsoft is available in two variants:
Variant #1) CC 2 "firearm" / CC 84 (3) Exempted: muzzle velocity exceeds 111.6 mps (366 fps) and/or muzzle energy exceeds 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB, and
Variant #2) CC 84 (1) "replica firearm": muzzle velocity is less than 111.6 mps (366 fps) and/or muzzle energy is less than 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB.

129047 - 1	65 PERCUSSION	1	218	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Whately" or "Whateley" is marked on the sideplate and/or barrel.

Model

- model is not marked on the firearm.
- manufactured prior to 1853.
- one observed example was a conversion from flintlock ignition to percussion ignition by replacing the cock and frizzen with a nipple and hammer.
- features include: round barrel; brass tipped under barrel mounted ramrod; brass trigger guard and grip cap; left side mounted hammer; single piece wood stock.

Manufacturer

- "Whateley" or "Whatley" is marked on the sideplate and/or barrel.
- Henry Piddock Whateley was located in Birmingham, England from 1767 to 1852.
- Henry & John Whateley were located on Whittal Street, Birmingham, England from 1799 to 1817.
- John Whateley was located at 33 Smallbrook Street, Birmingham from 1746 to 1775.
- John Whateley and Mathew Barker formed a partnership known as Barker & Whateley.
- Barker & Whateley was located at 16 Catherine Street, Birmingham from 1766 to 1774.
- Thomas Whateley was located at 46 and later 51 Smallbrook St. Birmingham, England from 1766 to 1777.

Action

- muzzle loader.

Serial Number

- serial number of an observed example was two digits.

FRT Report

Firearm Reference Number (FRN): 147283
Make: Wheeler & Linwood
Model: Screw Barrel Pistol

Summary

Make:	Wheeler & Linwood
Model:	Screw Barrel Pistol
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147283 - 1	12MM PERCUSSION	1	55	Antique CC 84(1) "antique firearm"	Non-Commercial Customization	
147283 - 2	12MM PERCUSSION	1	55	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- "WHEELER" over "& LINWOOD" was observed marked on the left side of the receiver/frame.

Model

- Screw Barrel Pistols were popular in the period prior to 1880 and were commonly manufactured in England and Belgium.
- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- this is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- this handgun is intended to be loaded from the breech end of the barrel and as such was originally suppied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- features observed: no front sight; removable, tapered round barrel with an under lug; central hammer; folding trigger; wood grips; nickel finish with light engraving.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- the turnoff barrel may be rifled.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- example observed with British proof marks.

Notes

Make

- "Wheeler & Son" was observed marked on the right side lockplate behind the hammer.

Model

- model designation is not marked on the firearm.
- features include: damascus barrel; under-barrel ramrod; side lock action; exposed single hammer on right side of action; English style stock.

Manufacturer

- "Wheeler & Son" was observed marked on the right side lockplate behind the hammer.
- there were at least two "Wheeler &Sons".
- the first was located in Birmingham, England (Robert Wheeler & Son) circa 1799 to 1843 who manufactured trade guns for the Hudson's Bay Company of North America.
- the second "Wheeler & Son" was located in the United States of America as the A.G. Wheeler & Son manufacturer located in Farmington, Maine, U.S.A. fron 1872 to 1873.
- A.G. Wheeler & Son was established by Albert Gallitin Wheeler.
- Albert Gallitin Wheeler & William Lawrence were in a partnership known as "Wheeler & Lawrence" from circa 1858 to 1860.
- Albert Gallitin Wheeler was in business from circa 1860 to 1872.
- Albert Gallitin Wheeler & George A. Stevens were in a partnership known as "Wheeler & Stevens" in 1872.
- Albert Gallitin Wheeler & Chareles E. Wheeler were in a partnership known as A.G. Wheeler & Son from 1872 to 1873.
- Albert Gallitin Wheeler's business was known as A.G. Wheeler & Co. in 1883.
- S. A. Wheeler & Son was a firearms manufacturer located in Waterville, Maine, U.S.A. circa 1877 to 1883.
- S. A. Wheeler & Son was know as S. A. Wheeler from 1874 to 1877.

Action

- muzzle loading, percussion ignition.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122714 - 1	177 PELLET	1	406	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "J. WHISCOMBE" or "WHISCOMBE" may be marked on the firearm.

Model

- "JW60 MK II" is marked on the firearm.
- "JW" in the model designation denotes John Whiscombe.
- "60" in the model denotes the separation distance of the pistons in millimeters when cocked.
- "MK II" (MARK 2) denotes a product improvement.
- features include: round, polygonal rifled barrel with integral harmonic optimization tuning system (H.O.T.S); muzzle weight; adjustable two stage trigger; automatic safety; aircraft aluminum alloy receiver/frame; recessed under lever cocking arm with positive anti-bear trap safety; scope rail droop compensated; walnut standard or thumbhole stock with multi-adjustable cheekpiece and butt plate.
- available in a right or left hand version and with a match trigger.

Manufacturer

- " J. WHISCOMBE" or "WHISCOMBE" and "Made in England" are marked on the right side of the reciever/frame.
- John Whiscombe business was established in 1987.
- John Whiscombe is the manufacturer the of Whiscombe Opposed Piston Air Rifle.
- John Whiscombe's designed an airgun with dual opposed pistons that increase power and eliminate recoil in a spring-piston air rifle. The pistons are opposed, which means they're facing each other. When the gun is cocked, each piston is pulled back against its own separate mainspring. When the gun is fired, the pistons come together...like the clapping of hands. Instead of a closed compression chamber, each piston acts as the compression chamber for the other piston. They come together at the air transfer port, so all the compressed air is squeezed out the port and behind the pellet.
- John Whiscombe models include the: JW-50, JW-50 MARK 2, JW-55, JW-60, JW-60 FB, JW-60 MARK 2, JW-65, JW-65 MARK 2, JW-75, JW-80, and JW-80 MARK 2.

Action

- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- located on the receiver/frame.
- observed specimen had three digits.

- White muzzleloaders have been distributed and manufactured by White Muzzleloading Systems, Muzzleloading Technologies Inc., Split Fire Sporting Goods and White Rifles, LLC.

Model

- This is an in-line muzzle-loading rifle in stainless steel, with a bolt handle, and a black laminate stock; distinguished from the "Whitetail" and "Pro Hunter" rifles by the fact that it is in .54 calibre only.

Manufacturer

- "W" within a circle with or without a cross or "WHITE" may be marked on the barrel/receiver/frame.
- White muzzleloaders were manufactured by White Muzzleloading Systems of Roosevelt, Utah from 1993 to 1997.
- White muzzleloaders were manufacture by Muzzleloading Technologies Inc. of Roosevelt, Utah from 1997 to 2000.
- White muzzleloaders manufactured by Muzzleloading Technologies Inc. were distributed by Split Fire Sporting Goods.
- White muzzleloaders were manufacture and distribution by Split Fire Sporting Goods starting in 2001.
- Split Fire Sporting Goods changed its name to White Rifles, LLC in 2001.
- White Rifles, LLC was located in Orem, Utah from 2001 to 2003.
- White Rifles, LLC moved to Linden, Utah in November of 2003.

Action

- an in-line muzzle-loader, where the percussion cap is placed on a nipple directly behind the chamber.

FRT Report

Firearm Reference Number (FRN): 197896
Make: White Label Armory
Model: WLA10

Summary

Make:	White Label Armory
Model:	WLA10
Manufacturer:	DRG Manufacturing
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
197896 - 1	308 WIN	5	457	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WHITE LABEL ARMORY" over "LAKE ZURICH, IL USA" is marked on the left side of the receiver/frame.
- "White Label Armoury" is a trade name used by "DRG Manufacturing" which is currently known as "Outerwild Manufacturing".
- In 2023 "White Label Armory" was rebranded as "Outerwild Outpost".

Model

- "WLA10" is marked on the left side of the receiver/frame on the magazine well.
- "WLA10" is sold as a receiver/frame only.
- Features include: free floating handguard; flat top upper assembly; rear mounted cocking handle; ambidextrous safety selector; magazine release locate on the right side of the receiver/frame.

Manufacturer

- The manufacturer is not marked on the firearm.
- DRG Manufacturing is located in Lake Zurich, Illinois, United States of America.
- In 2023 DRG Manufacturing was rebranded to "Outerwild Manufacturing".

Action

- Gas operated.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- Serial number of a referenced example consisted of the three letter prefix "WLT" followed by five digits.

Calibre

- "CAL MULTI" is marked on the left side of the receiver/frame on the magazine well.

Shots

- Detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - This firearm design incorporates a split receiver/frame: the lower receiver is the master component for the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Model: Pocket Revolver

Summary

Make:	White, Rollin
Model:	Pocket Revolver
Manufacturer:	White, Rollin
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
68704 - 1	22 SHORT	7	79	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Made for Smith & Wesson by Rollin White Arms Co., Lowell, Mass." or "Rollin White Arms Co. Lowell, Mass." is marked on the top of the barrel.

Model

- no model name appears on this firearm.
- produced circa 1860's to approximately 1866-7.
- total production estimated at approximately ten thousand.
- single action, solid frame, spur trigger, octagonal barrel, non-fluted cylinder with locking notches located at front of cylinder.
- fixed blade front sight either half-moon or triangular in shape; a noticeable swell at rear of cylinder top strap is grooved for a rear sight.
- brass frame usually silver plated, blued barrel and cylinder.
- elliptical contour removeable side plate located on left rear of receiver fastened by a single slot-head screw.
- square butt configuration with walnut grips.
- cylindrical axis pin has acorn-shaped head; the axis pin is held in place by a slot-head screw located on right front of receiver, this screw must be loosened in order to release the axis pin for removeal of the cylinder; the axis pin can then be used for the ejection of spent casings.
- cylinder usually roll-engraved, "Patented April 3 1855 & Dec 18 1860".

Manufacturer

- "Rollin White Arms Co. Lowell, Mass." is marked on the top of the barrel.

Serial Number

- serial number usually marked on botton grip strap.
- numbering was sequential starting at 1 without prefix or suffix; known example had a four digit number.

Calibre

- research literature indicates that this handgun was made in 22 Short only.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Firearm Reference Number (FRN): 74910
Make: Whitney Arms Company
Model: Navy 2nd Model

Summary

Make:	Whitney Arms Company
Model:	Navy 2nd Model
Manufacturer:	Whitney Arms Company
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
74910 - 3	22 RF	6	190	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	
74910 - 4	36 PERCUSSION	6	152	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	
74910 - 2	36 PERCUSSION	6	178	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	
74910 - 1	36 PERCUSSION	6	191	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this is the second Model of a "Navy type" single action percussion revolver made by Whitney between 1858 and 1865; these revolvers were made to compete with similar revolvers produced by Colt, after Colt's patents had expired.
- unlike Navy First Models, all of these revolvers were actually marked "E. WHITNEY" over "N. HAVEN"; by the time that these revolvers were being produced, Whitney's quality control had improved to the point where Whitney did not need to use a pseudonym to protect sales of his other products.
- overall, these revolvers resemble a Remington 1875 without the under barrel web, a brass triggerguard, and with a very thin topstrap on the frame; two piece walnut grips, color case hardened finish, and octagonal barrel.
- collectors have identified six general "types" of the Navy Second Model, and these types can be differentiated by things such as cylinder roll-markings, loading lever type, safety notches on the cylinder, and the number of rifling grooves in the barrel.

Action

- single action percussion revolver.

Serial Number

- numbered on the receiver/frame, from "1" up.

Notes

Make

- not to be confused with the Whitney Firearms Company of Hartford, Connecticut, which produced firearms from 1955 through 1962.
- not marked on the firearm.

Model

- less than 5000 Phoenix shotguns were made between 1867 and 1881, often from surplus rifles that had been re-bored after the Civil War.
- uses an unusual single-shot action with a breechblock that pivots up and to the right to allow access to the chamber; these shotguns have been seen with three different types of integral extractors.
- equipped with a straight-grip walnut stock and forearm.
- generally marked only "PHOENIX, Patent May 26, 74" (references sometimes indicate a patent date of "May 24, 74"), with no indication as to the actual manufacturer.

Manufacturer

- not marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- sample examined was numbered on the lower tang.
Calibre	- calibre designation is marked on top of the barrel.
Canadian Law Comments	- examples in some calibres may be considered "Antique" and as such are exempt from firearms registration in Canada. For clarification consult the "Antique Firearms Regulations".

Notes

Make

- not to be confused with the Whitney Firearms Company of Hartford, Connecticut, which produced firearms from 1955 through 1962.

Model

- the Whitney Phoenix was made between 1867 and 1881, for sale to military and civilian customers in America and elsewhere.
- this is an unusual single-shot action with a breechblock that pivots up and to the right to allow access to the chamber; these rifles have been seen with three different types of integral extractors.
- straight-grip walnut stock and forearm, with open adjustable sights.
- some variations of this rifle were made as "Military" rifles, with full-length wood stocks and bayonet mountings; these rifles were intended for sale to state militias and various South and Central American governments, so may be seen with either state property markings, or governmental crests.
- other variations of this rifle were made as, or converted to, "schuetzen" rifles for Swiss-style target competition; these rifles may have sculpted cheekpieces, deluxe-grade wood, hooked buttplates, and other types of ornamentation.
- generally marked only "PHOENIX, Patent May 24, 74", with no indication as to the actual manufacturer.
- variations of this firearm were also made as (or converted to) shotguns.

Manufacturer

- Also sometimes known as "Whitneyville Armory"; this is marked on some of their handguns, and possibly some of their rifles and shotguns.
- Eli Whitney (Sr) was the founder of WHITNEY ARMS COMPANY. Over the years this company has also been known as WHITNEY ARMORY and WHITNEYVILLE ARMORY. The company continued to operate under his son, Eli Whitney (Jr), until it ceased operation in 1888 (having been bought out by Winchester).
- This company is not connected to WHITNEY FIREARMS INCORPORATED, which began operation in 1955.

Action

- single-shot breechloading rifle with a hinged breech-block.

Serial Number

- example described has a four-digit serial number, stamped on the upper and lower tangs of the rifle.

Remarks

- the "Phoenix" was a single-shot design in which the breech-block was a separate piece hinged on the right side of the action; to fire a shot, the user would cock the hammer, rotate the breech-block up to the right, insert a cartridge, then close the breech-block again to fire. This design also had an integral extractor to push fired cases out of the chamber far enough to be grasped by the fingers. Some examples are known to have been produced with nickel-plating, or with tang and globe sights. Those with tang sights were produced with unique "split-trigger" set triggers, where the right half would need to be pushed forward to line up with the left half to set it. None of the examples described have the make or manufacturer anywhere on them, but will have a patent date (May 26, 1874) on them.

Notes

Make

- the make designation is marked on the barrels as:
"Whitney Arms Co., Whitneyville, Conn. Homogenous Wrought Steel"

Model

- model is not marked on firearm.
- this model is a side by side exposed hammer percussion shotgun built by the Whitney Arms Company from 1866 to 1869, using surplus war parts originally meant for Civil War contracts.
- these shotguns are known for their rather crude manufacture, with 25mm circular sideplates allowing access to the inner lockwork.
- features include: straight grip walnut stocks and forearm and double triggers.
- also built in a single barrel version.

Manufacturer

- manufacturer's designation is marked on the barrels as:
"Whitney Arms Co., Whitneyville, Conn. Homogenous Wrought Steel"
- also sometimes known as "Whitneyville Armory", which is marked on some of their handguns and possibly some of their rifles and shotguns.
- this company is not connected to WHITNEY FIREARMS INCORPORATED, which began operation in 1955.

Action

- muzzle loading percussion side by side.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
27628 - 1	46 RF	1	558	Antique AFR, Section 1, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- not to be confused with the Whitney Firearms Company of Hartford, Connecticut, which produced firearms from 1955 through 1962.

Model

- the Swing-Breech Carbine was a limited production firearm that is reminiscent of a Colt SAA revolving carbine, only in a single-shot action, and with double triggers. A receiver-mounted button is used to lock/unlock the action, allowing the breech-block (including the hammer) to swing out horizontally to the left, pivoting on a pin at the comb of the stock. The chamber can then be loaded or unloaded. This firearm also has a forearm-mounted manual extractor. This firearm is exceedingly rare, as less than 50 were manufactured.

Manufacturer

- also sometimes known as "Whitneyville Armory"; this is marked on some of their handguns, and possibly some of their rifles and shotguns.
- Eli Whitney (Sr) was the founder of WHITNEY ARMS COMPANY. Over the years this company has also been known as WHITNEY ARMORY and WHITNEYVILLE ARMORY. The company continued to operate under his son, Eli Whitney (Jr), until it ceased operation in 1888 (having been bought out by Winchester).
- this company is not connected to WHITNEY FIREARMS INCORPORATED, which began operation in 1955.

27574 - 3	45-70 GOVT	11	838	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is not marked on the firearm.
- not to be confused with the Whitney Firearms Company of Hartford, Connecticut, which produced firearms from 1955 through 1962.

Model

- this is a lever-action rifle with a tubular under-barrel magazine, manufactured by Whitney under license with Andrew Burgess (G.Morse, another inventor, was also paid royalties for one of his patents used in this rifle)
- these rifles were produced in both sporting and military versions, and in full-length and carbine variations
- straight-grip walnut stock and forearm, open adjustable sights, closed or "S"-style open serpentine lever, octagon or round barrel, and bayonet mount on military versions.
- these rifles never gained widespread acceptance due to feeding problems; most were made in 45-70 Gov't, but some were chambered in 43 Remington/11.15x58R Spanish Remington and 42 Russian/10.75x58R Russian in hopes of obtaining foreign military contracts.

Manufacturer

- manufacturer's designation is not marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- lever-action rifle with underbarrel tubular magazine.
Serial Number	- numbered on lower tang or floor-plate.
Other Markings	- barrel marked: G.W. MORSE PATENTED OCT. 28th 1856. - upper tang marked: A. BURGESS PATENTED JAN 7th 1873, PATENTED OCT 19th 1873
Remarks	- This was a lever-action repeating rifle, designed for a U.S. Army trial to find a new rifle. Although the design was not accepted by the military, Whitney did put it into production in three versions; a sporting version, a military version and a military carbine. This rifle was very similar to the Winchester lever-action, except it did not have a closed-loop lever to work the action. Some very rare variants of this rifle were made without a loading gate on the right side of the receiver. The military versions of this rifle have a full-length wooden fore-end. Whitney also made two other lever-action designs, the Whitney-Kennedy and the Whitney-Tiesing, which can be distinguished by the fact that the Whitney-Kennedy has a closed-loop lever, and the Whitney-Tiesing is loaded through a slot in the bottom of the receiver.

Notes

Make

- not to be confused with the Whitney Firearms Company of Hartford, Connecticut, which produced firearms from 1955 through 1962.

Model

- this is an exceedingly rare single-shot carbine made by Whitney in 1866-7, using J. W. Cochrane's April 4th, 1865 patent; this carbine was made in hopes of attaining a lucrative contract from the federal government for a new cavalry carbine.
- the firearm has a combination trigger-guard/action lever, that, when operated, raises the front of the breech-block up and out of line with the chamber. When the action is opened, a manual extractor on the left tang is used to eject the fired case, and then the carbine can be reloaded.
- straight-grip walnut stock and forearm, with saddle ring on left side of receiver.
- marked "Whitney Arms Co.-Whitneyville, Conn." on the barrel, and "J.W. Cochrane N.Y. Pat'd" over "Apr.4,1865 & Feb'y 20, 1866" on the breechblock.

Manufacturer

- Also sometimes known as "Whitneyville Armory"; this is marked on some of their handguns, and possibly some of their rifles and shotguns.
- Eli Whitney (Sr) was the founder of WHITNEY ARMS COMPANY. Over the years this company has also been known as WHITNEY ARMORY and WHITNEYVILLE ARMORY. The company continued to operate under his son, Eli Whitney (Jr), until it ceased operation in 1888 (having been bought out by Winchester).
- This company is not connected to WHITNEY FIREARMS INCORPORATED, which began operation in 1955.

Action

- lever-operated tilting-block.

Make

- the following markings, or a variation thereof will usually be located on the barrel;
- "Whitney Arms Co., New Haven, Conn. U.S.A.",
- "Whitneyville Armory, CT. USA",
- "Whitney Kennedy Mf'd by Whitney Arms Co New Haven, Conn, U.S.A.",
- "Kennedy".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- no model designation appears on this firearm. - produced circa 1879 to 1886. - manufactured by Whitney under licence agreement with Andrew Burgess; this rifle is an improvement on the former Whitney-Burgess/Whitney-Burgess-Morse action with internal design changes incorporated to ensure "jam-free" operation. - the Whitney-Kennedy action differs from the Whitney-Burgess in that the side-mounted loading gate was omitted thus necessitating that the action be fully open in order to load the magazine from the top of the action. - features may include; exposed hammer, under-barrel tubular magazine, built in both small and large receiver/frame sizes depending on calibre, round barrel, hardwood forend with one barrel band, single leaf rear sight, serpentine or "S" shaped lever as was used on the earlier Whitney-Burgess rifles or the full-loop type as introduced later in the production cycle, trap door in buttplate with cleaning rod, blued finish, blued or casehardened receiver/frame.
Manufacturer	- the following markings or a variation thereof will usually be located on the barrel; - "Whitney Arms Co., New Haven, Conn. U.S.A.", - "Whitneyville Armory, CT. USA", - "Whitney Kennedy Mf'd by Whitney Arms Co New Haven, Conn, U.S.A.", - "Kennedy".
Action	- under-lever operated.
Serial Number	- serial numbering from 1 to 5000 after which a letter prefix was used with each letter having a number series from 1 through 1000; letter prefixes from "A" to "T" have been referenced.
Calibre	- calibre designation is usually marked at the breech end of the barrel.
Other Markings	- the following patent markings or a variation thereof is usually marked on the top tang of these firearms, "Patented Jan'y. 7-73, Ap'l, May 13 and Aug.12-79"; these dates apply to the Burgess patents of Jan 7, 1873 and April 1, 1879, the Kennedy patent of May 13, 1879, and the Kennedy-Tiesing patent of Aug 12, 1879.

Notes

Make

- make is marked on the firearm.

Model

- model is not marked on the firearm.
- generally marked in one of three ways; "Whitney Arms Co., New Haven, Conn. U.S.A.", "Whitneyville Armory, CT. USA", or "Whitney Kennedy Mf'd by Whitney Arms Co. New Haven, Conn., U.S.A.". Some specimens have been seen marked simply "Kennedy".
- this is a lever action rifle with a tubular under barrel magazine, manufactured by Whitney under licence with Andrew Burgess; this rifle was a later variation of the Whitney-Burgess, with internal changes to facilitate jam-free feeding.
- these rifles were produced in both sporting and military versions, and in full-length and carbine variations; the majority of the military versions were sold in Central and South America, and may bear national crests.
- features include: straight-grip walnut stock and forearm; open adjustable sights; closed or "S"-style open serpentine lever; octagonal or round barrel; and bayonet mount on military versions.
- these rifles were built in small and large frame sizes, as well as military rifles, with full-length wood and a bayonet lug.
- half-length magazines were an option on some of the commercial rifles.

Manufacturer

- manufacturer's designation is marked on the firearm.

Serial Number

- numbered on receiver/frame; later-production firearms used a letter prefix.

Calibre

- marked on the firearm.

Other Markings

- the following patent markings or a variation thereof is usually marked on the top tang of these firearms, "Patented Jan'y. 7-73, Ap'l, May 13 and Aug.12-79"; these dates apply to the Burgess patents of Jan 7, 1873 and April 1, 1879, the Kennedy patent of May 13, 1879, and the Kennedy-Tiesing patent of Aug 12, 1879.

Notes

Make

- "WHITNEYVILLE ARMORY CO. PATENTED", "OCT.17.'65. RE-IS'D. JUNE 25.'72. DEC.26 '65." and "RE-IS'D. OCT.1.'67. MAY 15.'66. JULY 16.'72." may be marked on the upper tang.
- Whitney Arms Company is not to be confused with the Whitney Firearms Company of Hartford, Connecticut, which produced firearms from 1955 through 1962.

Model

- model designation is not marked on the firearm.
- "WHITNEYVILLE ARMORY CO. PATENTED", "OCT.17.'65. RE-IS'D. JUNE 25.'72. DEC.26 '65." and "RE-IS'D. OCT.1.'67. MAY 15.'66. JULY 16.'72." may be marked on the upper tang.
- Whitney Arms Company manufactured two distinct types of "rolling block" single-shot rifles between 1871 and 1888.
- these rifles operate on the same general principles, but differ in that the Laidley type (the "split-breech" version) used more parts and was more complex to manufacture.
- the "Whitney-Laidley Rolling Block" used four components in the rolling block action (hammer, locking cam, thumb piece plate and breechblock) and the breechblock and hammer retaining plate is mounted on the right side of the receiver/frame.
- the "Whitney-Remington Rolling Block" used two major parts in the rolling block action (hammer and breechblock) and the breechblock and hammer retaining plate is mounted on the left side of the receiver/frame.
- these rifles were made in both military and sporting versions, with some of the rifles being converted to shotguns.
- features include: blued octagonal, half octagonal/half round or round barrel; color-case-hardened or nickel plated flat sided receiver/frame; rolling block action; walnut forearm and straight or semi-pistol grip stock; open adjustable sights (some with tang peep sights).

Action

- rolling-block single-shot.

Serial Number

- serial number is usuallty marked on the lower tang.

Barrel

- these rifles were made with barrels between 18.5"/470mm and 35"/889mm long.

Remarks

- The hammer rides in a thin slot in the middle of the locking cam; in later Whitney "rolling blocks", the hammer and the locking cam were the same piece, and the action was not fully locked until the hammer had already started to fall. These rifles were marked "Whitneyville Armory", with a series of patent dates, the last being July 16, 1872. These may also be called "Whitney-Laidley" rolling block rifles, as Laidley actually designed the firearm, while Whitney manufactured it.

- these rifles were made in both military and sporting versions, with some of the rifles being converted to shotguns.
- features include: blued octagonal, half octagonal/half round or round barrel; color-case-hardened or nickel plated flat sided receiver/frame; rolling block action; walnut forearm and straight or semi-pistol grip stock; open adjustable sights (some with tang peep sights).

Action

- rolling block action.

Serial Number

- serial number is usually marked on the lower tang.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- The rifle appears to have two separate hammer spurs, but the front "hammer" is actually the means by which the breech is opened and closed, while the actual hammer both fires a chambered cartridge and prevents the breech-block from blowing back under the pressure of firing, by use of a hemispherical cam that rotates under the breech-block base before the chambered cartridge is fired. These rifles were produced with both round and octagonal barrels, and most examples won't be marked with make or manufacturer; many will be marked with the patent date of the rifle, though. (May 15, 1866)

Make

- "WHITNEYVILLE ARMORY CO. PATENTED", "OCT.17.'65. RE-IS'D. JUNE 25.'72. DEC.26 '65." and "RE-IS'D. OCT.1.'67. MAY 15.'66. JULY 16.'72." may be marked on the upper tang.
- Whitney Arms Company is not to be confused with the Whitney Firearms Company of Hartford, Connecticut, which produced firearms from 1955 through 1962.

Model

- model designation is not marked on the firearm.
- "WHITNEYVILLE ARMORY CO. PATENTED", "OCT.17.'65. RE-IS'D. JUNE 25.'72. DEC.26 '65." and "RE-IS'D. OCT.1.'67. MAY 15.'66. JULY 16.'72." may be marked on the upper tang.
- Whitney Arms Company manufactured two distinct types of "rolling block" single-shot rifles between 1871 and 1888.
- these rifles operate on the same general principles, but differ in that the Laidley type (the "split-breech" version) used more parts and was more complex to manufacture.
- the "Whitney-Laidley Rolling Block" used four components in the rolling block action (hammer, locking cam, thumb piece plate and breechblock) and the breechblock and hammer retaining plate is mounted on the right side of the receiver/frame.
- the "Whitney-Remington Rolling Block" used two major parts in the rolling block action (hammer and breechblock) and the breechblock and hammer retaining plate is mounted on the left side of the receiver/frame.
- these rifles were made in both military and sporting versions, with some of the rifles being converted to shotguns.
- this is a shorter version of the "Military Rifle"
- features include: blued round barrel; color-case-hardened flat sided receiver/frame; rolling block action; walnut forearm and straight grip stock; open adjustable sights.

Action

- rolling block action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is usually marked on the lower tang.
Calibre	- the .50-70 version of this rifle could accomodate both centre-fire and rim-fire cartridges, with an inset in the breech-face.
Other Markings	- many of these firearms will have Mexican government acceptance marks on them (a sunburst-shaped cartouche above "R M").

Notes

Make

- "WHITNEYVILLE ARMORY CO. PATENTED", "OCT.17.'65. RE-IS'D. JUNE 25.'72. DEC.26 '65." and "RE-IS'D. OCT.1.'67. MAY 15.'66. JULY 16.'72." may be marked on the upper tang.
- Whitney Arms Company is not to be confused with the Whitney Firearms Company of Hartford, Connecticut, which produced firearms from 1955 through 1962.

Model

- model designation is not marked on the firearm.
- "WHITNEYVILLE ARMORY CO. PATENTED", "OCT.17.'65. RE-IS'D. JUNE 25.'72. DEC.26 '65." and "RE-IS'D. OCT.1.'67. MAY 15.'66. JULY 16.'72." may be marked on the upper tang.
- Whitney Arms Company manufactured two distinct types of "rolling block" single-shot rifles between 1871 and 1888.
- these rifles operate on the same general principles, but differ in that the Laidley type (the "split-breech" version) used more parts and was more complex to manufacture.
- the "Whitney-Laidley Rolling Block" used four components in the rolling block action (hammer, locking cam, thumb piece plate and breechblock) and the breechblock and hammer retaining plate is mounted on the right side of the receiver/frame.
- the "Whitney-Remington Rolling Block" used two major parts in the rolling block action (hammer and breechblock) and the breechblock and hammer retaining plate is mounted on the left side of the receiver/frame.
- these rifles were made in both military and sporting versions, with some of the rifles being converted to shotguns.
- features include: blued octagonal, half octagonal/half round or round barrel; color-case-hardened or nickel plated flat sided receiver/frame; rolling block action; walnut forearm and straight or semi-pistol grip stock; open adjustable sights (some with tang peep sights).

Action

- rolling block action.

Serial Number

- serial number is usuallty marked on the lower tang.

Barrel

- these rifles were made in barrel lengths up to 813mm.

Remarks

- the rifle appears to have two separate hammer spurs, but the front "hammer" is actually the means by which the breech is opened and closed, while the actual hammer both fires a chambered cartridge and prevents the breech-block from blowing back under the pressure of firing, by use of a hemispherical cam that rotates under the breech-block base before the chambered cartridge is fired. These rifles were produced with both round and octagonal barrels, and most examples won't be marked with make or manufacturer; many will be marked with the patent date of the rifle, though. (May 15, 1866)

Notes

Make	- "WHITNEY ARMS CO." over "NEW HAVEN CT. USA." was observed marked on the upper tang of the firearm.
Model	- this is an exact copy of the Remington Rolling Block No. 2 rifle built by Whitney Arms Co. after the patent expired on the Remington rifle. - the No 2 rifle is a lighter weight version of the No 1 size with a rounded, smaller and lighter receiver/frame. - features include: octagonal tapered barrel with blade front sight and upper tang mounted vernier sight; pistol grip, checkered buttstock with steel crescent shaped butt plate; slim tapered forend with ebony tip-cap. - manufactured between 1881 and 1888.
Action	- rolling block design.
Serial Number	- a three digit serial number was observed marked on the bottom tang of the firearm, the same serial was observed marked on the bottom of the barrel, under the forearm.
Calibre	- "22 CAL" was observed marked on the bottom of the barrel, just ahead of the forearm.

74713 - 11	44-40 WIN	15	660	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- not to be confused with the Whitney Firearms Company of Hartford, Connecticut, which produced firearms from 1955 through 1962.

Model

- the model designation is not marked on the firearm.
- manufactured from 1886 to 1888.
- approximate production of less than 2000 units.
- this is a lever-action rifle with a tubular under-barrel magazine, manufactured by Whitney using a patent issued to William Scharf; this was an attempt to produce a better rifle than the Whitney-Kennedy and Whitney-Burgess, to compete with the growing popularity of Winchester's lever-action rifles
- these rifles were produced in both sporting and military versions, and in full-length and carbine variations; this was the last rifle produced by Whitney, as the company was bought out by Winchester in 1888.
- features include: straight-grip walnut stock and forearm; open adjustable sights or leaf folding rear sight; closed-loop lever with loop latch; octagon, round or half octagon and round barrel; and sabre-type bayonet mount on military versions.

Manufacturer

- also sometimes known as "Whitneyville Armory"; this is marked on some of their handguns, and possibly some of their rifles and shotguns.
- Eli Whitney (Sr) was the founder of WHITNEY ARMS COMPANY. Over the years this company has also been known as WHITNEY ARMORY and WHITNEYVILLE ARMORY. The company continued to operate under his son, Eli Whitney (Jr), until it ceased operation in 1888 (having been bought out by Winchester).
- This company is not connected to WHITNEY FIREARMS INCORPORATED, which began operation in 1955.

Action

- lever-action rifle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number is marked on the receiver/frame.
Calibre	- the calibre designation may be marked on the barrel.
Shots	- tubular magazine mounted below the barrel.
Other Markings	- generally marked "Whitney Arms Company, Whitneyville, Conn" on the barrel, with the tang marked "Whitney Arms Company, Pat'd Dec 21, 1886", and the calibre marked at the breech.

Notes

Make	- not to be confused with the Whitney Firearms Company of Hartford, Connecticut, which produced firearms from 1955 through 1962.
Model	- this is Whitney lever-action design, which can be recognized by the fact that the Whitney-Tiesing has both a closed-loop lever to work the action and has a loading gate on the bottom of the receiver, instead of on the side as with the Winchester lever-action designs.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Also sometimes known as "Whitneyville Armory"; this is marked on some of their handguns, and possibly some of their rifles and shotguns. - Eli Whitney (Sr) was the founder of WHITNEY ARMS COMPANY. Over the years this company has also been known as WHITNEY ARMORY and WHITNEYVILLE ARMORY. The company continued to operate under his son, Eli Whitney (Jr), until it ceased operation in 1888 (having been bought out by Winchester). - This company is not connected to WHITNEY FIREARMS INCORPORATED, which began operation in 1955.
Barrel	- barrel length of this model isn't specified, but Whitney's other rifles ran between 20"/508mm and 33"/838mm.
Shots	- shots not specified in the reference, but can be as high as 12 in a full-length tube magazine.

Notes

Make

- "E. WHITNEY" and "N. HAVEN" is marked on the lock plate.
- "US" or "U.S." or "U. STATES" or "UNITED STATES" with or without an eagle crest is marked on the lock plate.
- in 1777, the Continental Congress passed a resolution requiring all arms and accoutrements owned by the United States to be marked "U.S." or "United States".

Model

- this was the first general issue rifled long arm used by the U.S. armed forces
- Eli Whitney Jr. built approximately 26,500 of these rifles under four separate federal contracts, from 1843 to 1855.
- straight grip walnut stock with brass mountings and patchbox, "U.S." marked on buttplate, sling swivels at front trigger guard bow and front band, color-case-hardened lock, brass front sight, and seven-groove rifling.
- these rifles were intended for use with conical Minie ball bullets that expanded in the bore upon firing; therefore, they have ram-rods with sunken tips to push a bullet down onto the powder charge without damaging the bullet point.
- these rifles are marked "E.WHITNEY" over "U.S." in front of the hammer, and "N.HAVEN" with the date of manufacture at the rear of the side plate; with "V/P/U.S." and inspector's marks at the breech. Rifles built after 1848 will also have "STEEL" at the breech. These rifles were also stamped with inspector's marks on the left side of the stock opposite the lock.

Manufacturer

- "E. WHITNEY" and "N. HAVEN" is marked on the lock plate.

Type

- muzzle loading, single shot, side hammer firearm with a percussion ignition system.

Action

- percussion ignition system.

74070 - 1	58 PERCUSSION	1	1016	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is usually marked on the lockplate as: "E. Whitney" over "N.Haven", or just "Whitneyville".

Model

- this is a copy of the 1861 Rifle-Musket manufactured by Whitney for two Connecticut state militia contracts in 1861 and 1862
- the 1861 has a straight grip walnut stock with curved buttplate, three barrel bands, sling swivels at the front of the trigger guard and the second band, with either seven groove (early) or three groove (late) rifling.
- these rifles were also manufactured for federal contracts; those rifles made for the federal/Union government were marked with "U.S." on the buttplate and had a martial eagle over "U.S." on the lockplate. Rifles made for the State of Connecticut all had a pewter forearm cap on the stock, and no "U.S." marking on the buttplate. The lockplates on these rifles were marked in two styles; an undated lock with "E.Whitney" over "N.Haven", or an undated lock with an eagle in a panoply of flags over "Whitneyville".

Manufacturer

- manufacturer's designation is marked on the lockplate as: "E. Whitney" over "N.Haven", or just "Whitneyville".

Action

- muzzle loading percussion single shot.

74074 - 1	58 PERCUSSION	1	1016	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- may be marked on the lockplate as: "Whitneyville Armory", "Whitneyville" or a variation there of.

Model

- this is a specific sub-type of the 1861 percussion rifle manufactured by Whitney in 1863; this rifle differs from standard 1861's in that the lock is inset flush into the wood, and is not bevelled.
- this rifle (like other 1861s) has a straight grip walnut stock with curved buttplate, three barrel bands, sling swivels at the front of the trigger guard and the second band, three groove rifling, and a tulip shaped ram rod end.
- these rifles were not considered acceptable for federal/Union use, and were sold to commercial dealers and various state militias (markings will differ on state purchased rifles).
- some variations of these rifles are called "Artillery Models", as they have shorter barrels and would presumably have seen use with artillery regiments during the Civil War; these rifles differ from the standard Flush-Lock 1861s in that they have 762mm barrels, and only two barrel bands.

Manufacturer

- may be marked on the lockplate as: "Whitneyville Armory", "Whitneyville" or a variation there of.

Action

- muzzle loading percussion single shot.

Notes

Make

- "E. Whitney" over "N. Haven" may be marked in the middle of the lockplate.

Model

- model is not marked on the firearm.
- this is a percussion rifle manufactured by Whitney using surplus 1855 Maynard Tape Primer lockplates, only without the container or hinged cover for the tape priming. These rifles were built at a time when both the North and South were trying to buy every arm imaginable, and Whitney decided to use these parts rather than scrap them. These rifles can be distinguished from other 1861's by the fact that these rifles have shorter barrels (991mm, versus 1016mm), and have a lockplate with a high "hump" between the hammer and nipple.

Manufacturer

- manufacturer's designation is marked on the rifle as: "E. Whitney" over "N. Haven" in the middle of the lockplate.

Action

- muzzle loading percussion single shot.

Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
73773 - 1	69 PERCUSSION	1	864	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "U.S." and "WHITNEY-VILLE" or "WHITNEYVILLE" is marked on the lock plate.
- "US" or "U.S." or "U. STATES" or "UNITED STATES" with or without an eagle crest is marked on the lock plate.
- in 1777, the Continental Congress passed a resolution requiring all arms and accoutrements owned by the United States to be marked "U.S." or "United States".

Model

- this is a new pattern rifled musket built for the U.S. Navy by Eli Whitney Jr. between 1861 and 1864
- these rifles are similar in general appearance to the 1861 Artillery Percussion Rifle built by Whitney, except that they have slightly different lock markings (two styles), a nosecap instead of a forward barrel band, and a spur extending from the bottom tang at the rear of the trigger-guard.
- one piece straight grip walnut stock with curved buttplate, peep sight, sling swivels at toe of stock and second band, cylindrical ram rod head, and lock-plate with one of two types of markings. The first type has a spread winged eagle atop a panoply of flags in the middle, "U.S." over "Whitney-ville" at the front, and the date of manufacture ("1863") at the rear of the plate. The second type is identical except that it replaces the "panoply of flags eagle" with the more modern "martial eagle" (spread wings, holding a sheaf of arrows in one talon, and an olive branch in the other), and is seen with dates of "1863" and "1864". Inspector's marks of "FW" (Frank Warner) may also be stamped into the stock on the opposite side of the lock.

Manufacturer

- "WHITNEY-VILLE" or "WHITNEYVILLE" is marked on the lock plate.

Action

- muzzle loading percussion single shot.

Serial Number

- these rifles were numbered to their bayonets, on the tang; these are NOT serial numbers.

Notes

Model

- this is a contemporary copy of the Colt 1851 Navy, produced by Whitney in 1857 and 1858.
- identical to Colt-produced 1851 Navy, except that Whitney-produced guns have two-piece walnut grips and a roll-engraved cylinder scene consisting of an eagle, a shield, and a lion.
- it is believed that these guns were sold to Mexico, and may bear Mexican property marks.

Manufacturer

- normally marked on the firearm.

Action

- single-action percussion revolver.

Notes

Make

- "E.Whitney N. Haven CT" is marked on the barrel.
- "Patent" and "Applied For" are marked on the cylinder hood.

Model

- this is a small revolver with a manually rotated cylinder.
- produced by Whitney between 1850 and 1853.
- features include: octagonal barrel, bag shaped grip with walnut grip panels, cylinder release button high on the backstrap and an etched brass cylinder cover that comes down to the midpoint of the cylinder.
- most of these revolvers were made with blued barrels and silver plated receiver/frame and cylinder cover.

Manufacturer

- "E.Whitney N. Haven CT" is marked on the barrel.
- "Patent" and "Applied For" are marked on the cylinder hood.

Action

- manually revolved cylinder.

Serial Number

- serial number is marked on the receiver/frame, starting at "1".

74894 - 3	36 PERCUSSION	6	203	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- model is not marked on the firearm.
- this is the first Model of a "Navy-type" single action percussion revolver made by Whitney between 1858 and 1865; these revolvers were made to compete with similar revolvers produced by Colt, after Colt's patents had expired.
- many of these revolvers were actually marked "EAGLE CO.", because these revolvers were not up to the quality standards that Whitney had for his other firearms, and he was afraid of gaining a bad reputation for those guns. (guns marked ONLY "EAGLE CO." will be found in their own record.)
- overall, these revolvers resemble a Remington 1875 without the under barrel web, and with a very thin topstrap on the receiver/frame; solid receiver/frame; two piece walnut grips, colour case hardened finish, and octagonal barrel. Early guns were made without a loading lever, having only a cylinder pin through the frame.
- collectors have identified four general "types" of the Navy First Model, and these types can be differentiated by things such as cylinder roll markings, loading lever type, safety notches on the cylinder, and the shape of the junction between the grip frame and receiver/frame proper.
- when these revolvers are marked with Whitney's name, it appears as "E. Whitney" over "N. Haven".

Manufacturer

- manufacturer's designation is marked on the barrel as:
E. Whitney
N.Haven

Action

- single action percussion revolver.

Serial Number

- numbered on the receiver/frame, starting at "1".

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- the make is marked on the barrel.
- Eli Whitney (Sr) was the founder of Whitneyville Armory. Over the years this company has also been known as WHITNEY ARMS CO. and WHITNEYVILLE ARMS CO.. The company continued to operate under his son, Eli Whitney (Jr), until it ceased operation in 1888.
- This company is not connected to WHITNEY FIREARMS INCORPORATED, which began operation in 1955.

Model

- manufactured from 1871 to 1879.
- the model designation is not marked on the firearm.
- approximately 3,500 manufactured.
- features include: fixed blade front sight; spur trigger; iron or brass receiver/frame; birds head grip; octagonal or round barrel; available with an unfluted cylinder, a short fluted cylinder, or a long fluted cylinder; may be engraved; all nickel finish or nickeled receiver/frame with blued barrel and cylinder; pearl, rosewood, ivory or hard rubber grips.

Manufacturer

- the manufacturer is marked on the barrel.

Action

- single action.

Serial Number

- sample examined was marked on the bottom of the grip.

Shots

- those models with a 16 mm long cylinder are chambered for the 22 Short cartridge; those models with a 21 mm long cylinder are chambered for the 22 Long cartridge.

Other Markings

- the barrel will be marked:
"WHITNEYVILLE"
or
"WHITNEYVILLE CONN"
or
"WHITNEYVILLE CONN PAT MAY 23, 1871"
or
"WHITNEYVILLE ARMORY CT. USA"
or
"WHITNEYVILLE ARMORY USA"

Remarks

- available in four different receiver/frame sizes:
  - No 1 in calibre 22 SHORT, 7 shots.
  - No 1-1/2 in calibre 32 RF, 5 shots.
  - No 2 in calibre 32 RF, 6 shots.
  - No 2-1/2 in calibre 38 RF, 5 shots.

Notes

Make	- "Whitneyville Arms Company" marked on the barrel.
Model	- A single-shot rifle that uses a pivoting block inside the receiver/frame as the breech-block. This block is pulled down at the front with a ring to expose the chamber so a cartridge can be loaded, then a lever on the right side of the receiver/frame (behind the trigger guard) is pressed to pivot the breech-block back up behind the chamber again.
Manufacturer	- "Whitneyville Arms Company, Whitneyville, Conn." marked on the barrel.
Serial Number	- the example described has a two-digit serial number on the breech-block, lower tang, butt plate, and other parts.
Other Markings	- "Whitneyville Arms Company" marked on the barrel.

74740 - 2	32 PERCUSSION	6	76	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- this is a small revolver with a manually rotated cylinder, produced by Whitney between 1852 and 1854.
- features include: octagonal barrel, Single Action Army style solid receiver/frame, square backed trigger guard, roll engraved cylinder, and what appears to be a second trigger in front of the proper trigger guard; this is actually the release and lock for the manually revolved cylinder
- most of these revolvers were made with brass receiver/frames and iron trigger guards; some were manufactured with iron receiver/frames and brass trigger guards.

Manufacturer

- marked "E.Whitney N. Haven CT" on the barrel, with "Patent Applied For" on the cylinder hood.

Action

- single action revolver with manually revolved cylinder.

Serial Number

- serial number is marked on the receiver/frame starting at "1".

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- this is a ring-trigger revolver made by Whitney between 1854 and the late 1860s, based on patents issued to Fordyce Beals, an inventor who would later work for Remington. - features include: octagonal barrel, solid frame, no trigger-guard and fluted cylinder. - these revolvers were made in a number of variations, with differences in frame shape and material, cylinder latch, and ring size. - these revolvers are sometimes called "walking beam" revolvers, because of the resemblance of their mechanism to a style of steam engine, which moved up and down and back and forth. - normally marked in one of three fashions; "F.Beals / New Haven, CT" or "Beal's Patent", or "Address E. Whitney / Whitneyville, Ct." with "Beals Patent / Sept. 1854" or "F.Beals / Patent / Sept. 1854" (sometimes seen with a patent date of "June 24, 1856"), or "Address E. Whitney / Whitneyville, Ct." with "F.Beals / Patent / Sept. 1854"
Manufacturer	- this is marked on some of their handguns, and possibly some of their rifles and shotguns.
Serial Number	- numbered on reeiver/frame in more than one series.
Shots	- these revolvers were manufactured in both six- and seven-shot versions.

Notes

Make

- "Whitworth Rifle Company Manchester England" or a variation thereof is usually marked on the top of the barrel.
- "Whitworth" within an elongated horizontal oval may be marked on the top of the receiver ring.

Model

- no model designation is marked on this firearm.
- this is a generic entry designed to encompass all bolt action sporter rifles made by or for the Whitworth Rifle Company of Manchester, England that have no model name marked on them.
- turn bolt operated, integral internal box magazine or detachable box magazine depending on the type of action used.
- Whitworth bolt action sporting rifles are built utilizing any of the following actions: US Rifle Model 1917, Enfield Pattern 1914, Lee-Enfield No. 4, original Mauser 98, new Zastava Mark X.
- features may include but are not limited to:
- hinged floor plate with release button located on the front inside of the trigger guard,
- adjustable trigger,
- sliding type safety located on the rear right side of the receiver/frame,
- hooded ramp front sight,
- three leaf express rear sight or adjustable rear sight, receiver/frame may be drilled/tapped for scope mounts,
- Mauser style bolt stop located at the rear left side of the receiver/frame,
- European walnut stock, checkered pistol grip and forearm with cheekpiece and Monte Carlo comb, sling swivels, ventilated rubber recoil pad,
- blued finish.
- British proof marks are usually apparent on the barrel and/or receiver/frame.

Manufacturer

- "Whitworth Rifle Company Manchester England" or a variation thereof is usually marked on the top of the barrel.
- "Whitworth" within an elongated horizontal oval may be marked on the top of the receiver ring.
- Whitworth Rifle Company of Manchester, England, is referred to as a firearms producer, however, the company name also appears to be a brand/trade name used by the international firearms producer/distributor, Interarms of Manchester, England (also referred to as: Interarms House).

Action

- turn bolt operated.

Serial Number

- serial number may be marked on the left side of the barrel or on the left or right side of the receiver/frame.

Calibre

- calibre usually marked on the barrel.

Shots

- integral internal box magazine or detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "Interarms" may appear on the rubber recoil pad.

189802 - 1	6MM PPC	1	559	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- the make may or may not be marked on the firearm.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a custom-made single-shot rifle made for "unlimited" division benchrest shooting, where competitors use rifles mounted on heavy (~22 kilogram/50 pounds) aiming platforms, rather than stocks, to try to attain the ultimate in precision at ranges of 100 and 200 yards. Competitors often fire 5-shot groups that result in a single hole using these rifles, as the aiming platform takes the human error component out of firing a group. The term "rail gun" is derived from the fact that the actions and triggers are mounted on a single solid "rail" that is itself bolted to the aiming platform.
- features may include: heavy blued or stainless barrel; square or rectangular receiver bolted to an aiming platform by way of a solid aluminium or steel "rail"; no open sights (drilled and tapped for scope mounts); bolt-operated single-shot with a shell holder bolt, allowing empty cases to be extracted; wheel-adjustable aiming controls; and a machined square trigger-guard.

Manufacturer

- the manufacturer may or may not be marked on the firearm.

Action

- bolt-operated single-shot.

Serial Number

- serial-numbered on the receiver/frame.

Notes

Make

- "WICKLIFFE" is marked on the firearm.
- "Wickliffe" was a trade name used by "Triple S Development Company".

Model

- this is a modern under lever operated dropping block single shot sporting rifle. It features an American walnut buttstock and forearm.
- this firearm is offered in a wide variety of calibres and special order features, such as hand checkered deluxe grade wood, calibre and barrel length to individual customer's tastes.
- actions and barreled actions were offered for sale to gunsmiths and individuals who wanted to build a rifle to their own specifications.
- this model is based on the "Stevens Model 44 1/2".

Manufacturer

- "Triple-S Development Co., Inc." of Wickliffe, Ohio was in business from 1978 to 1981.

Action

- under lever operated dropping block.

Serial Number

- appears on the underside of the front of the receiver/frame.

Barrel

- barrel lengths were available from 559mm to 660mm.

Calibre

- this firearm was chambered for cartridges ranging from 22 HORNET to 45-70 GOVT.

FRT Report

Firearm Reference Number (FRN): 176102
Make: Widmer, Casper
Model: Free Pistol

Summary

Make:	Widmer, Casper
Model:	Free Pistol
Manufacturer:	Widmer, Casper
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	SWITZERLAND
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
176102 - 1	22 LR	1	296	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "C. WIDMER St. GALLEN" and C. Widmer's logo of a "C" surrounding a bullseye, with the centre point of a rounded "W" forming a front sight is marked on the firearm.
Model	- the model is not marked on the firearm; this is a descriptor of the firearm type. - this is a single-shot Free Pistol manufactured by C. Widmer prior to the Second World War; these pistols may vary in characteristics and layout, but usually conform to the single-shot style that was popular at the time. - features usually include: blued finish; open adjustable sights; carved walnut grip and forearm; top-loading; and a rotating "cannon breech" style of bolt at the rear of the pistol.
Manufacturer	- "C. WIDMER St. GALLEN" and C. Widmer's logo of a "C" surrounding a bullseye, with the centre point of a rounded "W" forming a front sight is marked on the firearm. - C. Widmer was a custom match rifle and pistol maker in St. Gallen, north-eastern Switzlerland, prior to the Second World War.
Action	- bolt-operated single-shot, with the bolt being operated through a lever at the bottom of the grip.
Serial Number	- serial-numbered on the barrel.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
23450 - 1	6.35MM	6	60	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
23450 - 2	7.65MM	6	64	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- this pistol was designed and apparently also produced by Alois Tomiska of Pilsen, Czechoslovakia. Pistols manufactured here will be marked on the left slide: "Alois Tomiska - Plzen - Patent - Little Tom".
- manufacturing of this model was taken over by "Wiener Waffenfabrik" of Vienna, Austria at an unknown date. This name will be marked on the right side of the slide. These pistols will also have Austrian proofmarks plus the year of proofmarking.

Model

- pistols were assembled until approximately 1929, however, actual production may have ended earlier.
- "LITTLE TOM" is marked on the plastic left grip pannel of the 6.35mm and on the the left side of the slide of the 7.65MM. The 7.65mm has wooden grip pannels.
- Little Tom was manufactured by Wierner Waffenfabrik from 1919 to about 1925.

Manufacturer

- manufacturing of this model was taken over by "Wiener Waffenfabrik" of Vienna, Austria at an unknown date. This name will be marked on the right side of the slide. These pistols will also have Austrian proofmarks plus the year of proofmarking. Wiener Waffenfabrik's Logo of "WWF" run together is marked on the right grip pannel of the 6.35MM and on both grip pannels of the 7.65MM.

Action

- blowback with a double action trigger.

Serial Number

- serial number range is believed to be from 20,00 to 30,000.
- serial number is marked on the right side of the slide.

Shots

- detachable box magazine.

Notes

Make

- Wildey firearms take their name from Wildey J Moore who holds the design patents for the Wildey pistol and developed the cartridge known as the 475 Wildey Magnum.
- firearms sold under the Wildey name were originally produced by Wildey Firearm Company Inc. of Cheshire, Connecticut. Firearms produced by the Wildey Firearm Company were serialized with a "45" prefix followed by four digits (example: 45-0000, (0's were used as placeholders)). Less than one thousand firearms were produced.
- Wildey Inc. bought the company out of bankruptcy. Currently the company is located in Warren, Connecticut. The first 600-650 pistols produced by Wildey Inc. were marked with the Cheshire address markings. To distinguish theses from the pistols produced by Wildey Firearms Company production the serial number prefix was changed to "09" (example: 09-0000). Pistols produced in the New Milford, Connecticut plant are serialized with four digits only with no prefix.

Model

- this is a large, stainless-steel semi-automatic pistol, with a ventilated-rib on the barrel.
- features include: butt magazine-release, wooden grip panels, and a knurled ring for adjusting the gas port at the rear of the barrel.
- the "Hunter" has a matte stainless-steel finish, while the "Survivor" has a brightly-polished stainless-steel finish; each of these is available in a standard rounded trigger-guard variation, and a squared-off trigger-guard variation known as the "Guardsman"
- these pistols will accept interchangeable top ends in different calibres and barrel lengths; the calibre of a given barrel is marked on the bottom of the barrel just ahead of the gas regulating ring.

Manufacturer

- Wildey Inc. is a manufacturer based in New Milford, Connecticut, that specializes in producing a very large gas-operated semi-automatic pistol that pre-dates the Desert Eagle. This company was originally known as the WILDEY FIREARMS COMPANY, but was bought out after suffering financial difficulties, and it became known as WILDEY INCORPORATED.

Action

- gas-operated.

Serial Number

- depending on the date of manufacture, these pistols will have one of three different serial-numbering rationalizations.
- original pistols produced by the Wildey Firearms Co. will have a four digit serial number prefaced by "45". (ie. 45-1234): approximately 800 pistols were produced.
- pistols produced by Wildey, Inc. immediately after the company was bought out of bankruptcy will have a four digit serial number prefaced by "09". (ie. 09-1234): approximately 600 pistols were produced.
- modern-production pistols by Wildey, Inc. will have a four digit serial number without a prefix. (ie. 1234)

Calibre

- The 45 WIN MAG, 41 WILDEY MAG, 44 WILDEY MAG, 45 WILDEY MAG, and 475 WILDEY MAG are all based upon the same case, altered to take different-diameter projectiles.

Shots

- detachable box magazine.

- Wildey Inc. bought the company out of bankruptcy. Currently the company is located in Warren, Connecticut. The first 600-650 pistols produced by Wildey Inc. were marked with the Cheshire address markings. To distinguish theses from the pistols produced by Wildey Firearms Company production the serial number prefix was changed to "09" (example: 09-0000). Pistols produced in the New Milford, Connecticut plant are serialized with four digits only with no prefix.

Model

- this is a large, stainless-steel semi-automatic pistol, with a ventilated-rib on the barrel.
- features include: butt magazine-release, wooden grip panels, and a knurled ring for adjusting the gas port at the rear of the barrel.
- this pistol is available in two grip variations, and two finish variations, for a total of four possible general models.
- the "Hunter" has a matte stainless-steel finish, while the "Survivor" has a brightly-polished stainless-steel finish; each of these is available in a standard rounded trigger-guard variation, and a squared-off trigger-guard variation known as the "Guardsman".
- these pistols will accept interchangeable top ends in different calibres and barrel lengths; the calibre of a given barrel is marked on the bottom of the barrel just ahead of the gas regulating ring.

Manufacturer

- Wildey Inc. is a manufacturer based in New Milford, Connecticut, that specializes in producing a very large gas-operated semi-automatic pistol that pre-dates the Desert Eagle. This company was originally known as the WILDEY FIREARMS COMPANY, but was bought out after suffering financial difficulties, and it became known as WILDEY INCORPORATED.

Action

- gas operated.

Serial Number

- depending on the date of manufacture, these pistols will have one of three different serial-numbering rationalizations.
- original pistols produced by the Wildey Firearms Co. will have a four digit serial number prefaced by "45". (ie. 45-1234): approximately 800 pistols were produced.
- pistols produced by Wildey, Inc. immediately after the company was bought out of bankruptcy will have a four digit serial number prefaced by "09". (ie. 09-1234): approximately 600 pistols were produced.
- modern-production pistols by Wildey, Inc. will have a four digit serial number without a prefix. (ie. 1234)

Barrel

- some of the offered barrel lengths are special order items.

Calibre

- The 45 WIN MAG, 41 WILDEY MAG, 44 WILDEY MAG, 45 WILDEY MAG, and 475 WILDEY MAG are all based upon the same case, altered to take different-diameter projectiles.

Shots

- detachable box magazine.

Notes

Make

- Wildey firearms take their name from Wildey J Moore who holds the design patents for the Wildey pistol and developed the cartridge known as the 475 Wildey Magnum.
- firearms sold under the Wildey name were originally produced by Wildey Firearm Company Inc. of Cheshire, Connecticut. Firearms produced by the Wildey Firearm Company were serialized with a "45" prefix followed by four digits (example: 45-0000, (0's were used as placeholders)). Less than one thousand firearms were produced.
- Wildey Inc. bought the company out of bankruptcy. Currently the company is located in Warren, Connecticut. The first 600-650 pistols produced by Wildey Inc. were marked with the Cheshire address markings. To distinguish theses from the pistols produced by Wildey Firearms Company production the serial number prefix was changed to "09" (example: 09-0000). Pistols produced in the New Milford, Connecticut plant are serialized with four digits only with no prefix.

Model

- "Wildey Carbine" is marked on the slide.
- features include: skeleton walnut buttstock and walnut forearm, gas operated, scope bases integral to barrel rib.
- this firearm is an adaptation of Wildey's handgun design to a rifle configuration.

Manufacturer

- WILDEY was originally known as WILDEY FIREARMS COMPANY. After the company was bought out, it became known as WILDEY INCORPORATED.

Type

- this model uses a receiver/frame of a handgun with a buttstock "firmly" attached so that it can be marketed in the United states as a "carbine".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number on the carbine model has an "R" prefix.
Shots	- detachable box magazine.
Canadian Law Comments	- under Canadian law this model remains a handgun.

- "WILKINSON SWORD Co., PALL MALL. LONDON" was observed marked on the barrel rib.
- "WILKINSON WEBLEY" may be marked on the left side of the top strap.

Model

- "Wilkinson Webley '00" may be marked on the side of the top strap.
- this hinge-frame, top break revolver was manufactured by "Webley" for "Wilkinson".
- introduced in 1900, last unit by Wilkinson on 3 Dec. 1903, numbered W938.
- the cylinder retention cam was improved by increasing the area of engagement into a "stirrup" between it and the cylinder-front retaining groove, attached by screws on both sides of the barrel lug.
- single/double action trigger, bead fore-sight, integral tapered barrel rib, double locked cylinder, checkered squared walnut butt-stock.
- these "Wilkinson" firearms were provided with a superior high-gloss blued finish than similar contemporaries by Webley.

Manufacturer

- "WEBLEY'S" or "WEBLEY" over "PATENTS" may be marked on the side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the receiver/frame.

Serial Number

- serial number by Webley marked in the right grip-frame notch behind the hammer-strut, on the "barrel lug" under the front barrel hinge, and usually on the rear of the cylinder.
- the firearm may be also augmented with up to a four figure "Wilkinson" serial number that is prefixed with a "W", example: W789.

Calibre

- marked on the left side of the "barrel lug": .455/.476

Other Markings

- marked with six pointed star, with initials HW in the middle, on the left side of the barrel, near forcing cone.

Notes

Make

- "WILKINSON, PALL MALL, LONDON" is marked on the barrel rib.
- James Wilkinson was in business from 1804 to 1818.
- James Wilkinson was joined by his son Henry and the company name changed to James Wilkinson & Son in 1819.
- James Wilkinson & Son continued under 1824, when James retired.
- the company name was changed to Wilkinson & Son in 1825 and moved to 27 Pall Mall in 1829.
- Wilkinson & Son was in business from 1825 to 1888.

Model

- model designation is not marked on the firearm.
- model designation is a descriptor of the Webley style of top break revolver with the "Pryse" pattern locking system, characterized by a "tong" style opening system where two levers at the rear of the recoil shield are squeezed in to allow the barrel and cylinder to tip down for loading/unloading.
- features include: octagonal barrel and raised top rib with fixed half-moon front sight and integral V notched rear sight; front hinged receiver/frame with a fluted cylinder; twin break open levers mounted behind the recoil shield; exposed spur hammer; double/single action trigger mechanism; saw handle type grip strap with metal butt cap and lanyard ring; checkered solid walnut grip; nickel plated finish.

Manufacturer

- "AF" under a crown has been observe on one specimen on the grip frame, under the grip.
- "AF", "AFC", "A. Francotte & Cie", "A. Francotte a Liege" or "Francotte" are some of the markings found on Francotte manufactured firearms.
- Francotte was founded by Pierre Joseph Francotte in Liege, Belgium in 1803.
- Pierre Joseph Francotte was the father of Auguste Francotte.
- "AF" was the abbreviation used by "Auguste Francotte", before 1902.
- "AFC" was the abbreviation used by "Auguste Francotte & Cie.", after 1902.

Action

- top break.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is usually marked under the grip panel on the receiver/frame.
- serial number of a referenced example consisted of four numbers.
- there may be a four-digit number marked on the lower left side of the grip. This is not the firearm manufacturer's serial number. It is a separate registry number for Wilkinson, the distributor.

Calibre

- calibre designation was not marked on a referenced example.

96495 - 1	476 REV	6	145	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WILKINSON & SON, PALL MALL, LONDON" was observed marked on the barrel rib.
- Wilkinson's six pointed star trademark with the letters "HW" was observed on the left side of the firearm.
- "HW" are the initials of Henry Wilkinson.

Model

- no model name appears on this firearm.
- manufactured circa 1884 to 1888.
- this is a double action, top break revolver similar to the Webley No. 4, with modifications to Wilkinson specifications.
- this model has the distinctive Pryse-type patented barrel-to-breech locking mechanism with twin tong-like levers extending downwards on either side of the standing breech.
- this model is characterized by a high profile rib running the entire length of the barrel with a very pronounced angle between the rib and the octagonal barrel.
- specific to this model is the "small hinge" pattern of barrel-to-receiver/frame hinge joint whereby the barrel assembly pivots on a single slot head hinge pin located at the very bottom front of the receiver/frame.
- plain or fluted cylinders may be encountered.
- usually has a lanyard ring fixed to the bottom of the butt cap.
- rebounding spurred hammer.
- blued or nickel plated finish with checkered hardwood grip.
- cylinder dismount button is found on the right side of the barrel-lug.

Manufacturer

- "WEBLEY'S" or "WEBLEY" over "PATENTS" may be marked on the side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the receiver/frame.
- most features and characteristics are similar to the Webley Number 4 design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial numbers for this model series are usually four digits without prefix or suffix. - the "Webley" serial number was initially located on the forward left side of the receiver/frame; at approximately serial number 6461 it was re-located to the rear face of the barrel-lug, below the cylinder axis. - Wilkinson also stamped these firearms with a Wilkinson "registry number" which was usually located on the lower left hand side of the wooden grip, this number should not be mistaken for a serial number.
Calibre	- calibre designation is not marked on the firearm.
Other Markings	- the top of the barrel rib is marked "WILKINSON & SON, PALL MALL, LONDON".
Remarks	- the "Wilkinson" logo represented by an equilateral triangle point-up, super-imposed with another point-down, forming a six-pointed star, with the letters "H.W." in the center appears on the left side of the forward receiver/frame, at the juncture with the barrel.

Notes

Make

- "Williams & Powell, Liverpool" is marked on the left side of the receiver/frame or on the sides of the barrel.
- Williams & Powell was an English firearms manufacturer located in Liverpool, England from 1833 to 1905.
- "Williams & Powell" was a partnership established by Thomas Williams and Samuel Powell.
- Williams & Powell took over the former business of Jeremiah Patrick.
- Jeremiah Patrick established a gun making business in 1784 at 30 Lombard Street, Liverpool, England.
- Jeremiah Patrick died in 1814 and was succeeded by his son Edward Patrick.
- Edward Patrick was located at 44/45 Strand Street, until his death in 1830.
- Ann Patrick took over the business of Edward Patrick in 1830.
- Anne Patrick was located at 10 Pool Lane, Liverpool in 1832.
- Anne Patrick sold the business to Williams & Powell in 1833.
- Williams & Powell's business was located at the following Liverpool addresses; 10 Pool Lane in 1834; 13 South Castle Street in 1837; 25 South Castle Street from 1841 to 1871; 25 South Castle Street & 48 Oldhall Street in 1891; and 27 South Castle Street from 1896 to 1905.
- "William & Powell" was sold to William Richards in 1905; in spite of being sold, the firm's name was still listed as late as 1909.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- manufactured from 1875 to 1910. - model designation is not marked on the firearm. - may also be known as "Third Model Derringer" or "Thuer Model". - total production is approximately 45,000. - the "Colt Derringer No 3" can be identified from the Colt Derringer No 1 and No 2 by the way the No 3 is loaded. Instead of the oval barrel rotating downward towards the left side, the round barrel pivots horizontally towards the right side. - features include: single action spur trigger mechanism, the brass receiver/frame with a bird's-head grip was normally nickel plated, or silver plated, the round barrel was blued, nickel plated or silver plated, the front sight is a fixed half moon blade with a notch on the hammer spur for a rear sight, a case hardened spur hammer and trigger, and walnut, ivory, pearl, rosewood, horn, or ebony grip panels.
Manufacturer	- manufacturer is marked on top of the barrel. - the manufacturer is normally marked on top of the barrel as, "COLT". - on approximately the first 2,000 deringers the "COLT" will be marked without an angle. The "COLT" marking was then changed to include an angle towards to the right side. - on some of the deringers sold through Colt's London Agency, the left side of the barrel may be marked: "COLT'S FIRE ARMS CO." "14 PALL MALL LONDON". - the markings will read from the muzzle towards the breech. - the Colt rampant colt logo with the letter "C" may also be marked on the receiver/frame of some of the deringers sold through Colt's London Agency.
Action	- horizontal pivoting barrel, single shot firearm. - derringer is loaded by pivoting the barrel horizontally towards the right.
Serial Number	- serialization started at 1 and continued unbroken to approximately 45,000. - serial numbers are stamped on the left side of the grip strap, under the grip plate and may be repeated on the bottom of the barrel.
Calibre	- "41 Cal." is usually stamped on the left side of the receiver/frame.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

195952 - 1	45 PERCUSSION	1	44	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "WILLIAMS & POWELL" or "WILLIAMS & POWELL" over "LIVERPOOL" is marked on the left side of the receiver/frame.

Model

- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- this is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- this handgun is intended to be loaded from the breech end of the barrel and as such was originally supplied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- features include: round screw on barrel with a small underlug for a wrench; boxlock type action; external, centrally positioned hammer; folding trigger; may have a sliding-type safety device on the top of the rear tang which engages a notch in the rear of the hammer; curved, flat sided, un-checkered with rounded bottom grip; engraved metal parts; steel in the white barrel with brass finish receiver/frame.

Manufacturer

- Williams & Powell was an English firearms manufacturer located in Liverpool, England from 1833 to 1905.
- "Williams & Powell" was a partnership established by Thomas Williams and Samuel Powell.
- Williams & Powell took over the former business of Jeremiah Patrick.
- Jeremiah Patrick established a gun making business in 1784 at 30 Lombard Street, Liverpool, England.
- Jeremiah Patrick died in 1814 and was succeeded by his son Edward Patrick.
- Edward Patrick was located at 44/45 Strand Street, until his death in 1830.
- Ann Patrick took over the business of Edward Patrick in 1830.
- Anne Patrick was located at 10 Pool Lane, Liverpool in 1832.
- Anne Patrick sold the business to Williams & Powell in 1833.
- Williams & Powell's business was located at the following Liverpool addresses; 10 Pool Lane in 1834; 13 South Castle Street in 1837; 25 South Castle Street from 1841 to 1871; 25 South Castle Street & 48 Oldhall Street in 1891; and 27 South Castle Street from 1896 to 1905.
- "William & Powell" was sold to William Richards in 1905; in spite of being sold, the firm's name was still listed as late as 1909.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action - the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.

- "William & Powell" was sold to William Richards in 1905; in spite of being sold, the firm's name was still listed as late as 1909.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- no model name is marked on this firearm; the model designation is derived from the date of introduction of the Webley, Solid Frame type of revolver circa 1866. - this handgun series was the predecessor to the Webley No 1 revolver which was introduced circa 1867; both of these models eventually were superseded by the Webley RIC model series as adopted by the Royal Irish Constabulary in 1868. - this firearm would have been produced circa 1866 to the late 1860's. - features include: half round blade front sight on the barrel and groove in the top strap for a rear sight; octagonal barrel; solid top receiver/frame which is forged as one piece with the barrel; round unfluted cylinder; circular plate located between the cylinder and the standing breech; removable cylinder axis pin is held in place by a removable thumb screw; exposed spur hammer; single/double action trigger mechanism; finely checkered walnut grips; saw-handle type grip frame; the ejector rod is housed inside the grip frame. - distinguishing features of this model include; a spring clip mounted on the rear left side of the receiver/frame which allows the hammer to be set a half cock; the barrel strap had been thickened to allow for a recess for the cylinder locking projections.
Manufacturer	- "WEBLEY'S" or "WEBLEY" over "PATENTS" may be marked on the side of the receiver/frame. - "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the receiver/frame.
Serial Number	- serial number was marked on the left side of the receiver/frame. - observed specimen consisted of four number without a letter prefix or suffix.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "Ted Williams", "SEARS, ROEBUCK AND CO. CHICAGO, ILL." and "MADE IN BRAZIL" may be marked on the right side of the barrel.
- "Ted Williams" was a trade name used by Sears Roebuck and Company.
- Sears, Roebuck and Company was founded in 1893 in Chicago, Illinois, U.S.A.
- Sears, Roebuck and Company has contracted with various manufacturers to produce firearms for sale under various trade names such as:
- "A.J. Aubrey" was used from 1893 to 1918 and were manufactured by Meriden Arms Company.
- "Ranger" was used from 1925 to 1945.
- "J.C. Higgins" was used from 1946 to 1962.
- "Sears" and "Ted Williams" was used after 1962.
- "Sears, Roebuck and Company have used the following manufacturers: Aguirre y Aranzabal (AYA), Companhia Brasileira de Cartuchos (CBC), Crosman Air Guns, Fabrique Nationale Herstal (FN), Harrington & Richardson, High Standard, Hunter Arms, Husqvarna, Ithaca, Laurona, Manufacture d'Armes des Pyrenees, Marlin, Meriden Arms, Miroku, Mossberg, Remington, Sako, Savage, Stevens, Universal, Voere, Winchester, and Zoli.

Model

- "MODEL 282.510830" may be marked on the left side of the barrel.
- features include: round tapered barrel with bead front sight; front hinged receiver/frame; break open lever is mounted on the underside of the receiver/frame in the front of the trigger guard; exposed spur hammer; single action trigger mechanism; wood forearm and semi-pistol grip buttstock.

Manufacturer

- "282" prefix in the model designation is the Sears Roebuck code for Companhia Brasileira de Cartuchos (CBC).
- "CBC", "Made in Brazil", "Made in Brazil by CBC", "Made in Brazil" and "By Companhia Brasileira de Cartuchos" or "Made in Brazil", "By Companhia Brasileira de Cartuchos" and "S.Andre-Est. S.Paulo" may be marked on the receiver/frame or barrel.
- "CBC" is the acronym for Companhia Brasileira de Cartuchos.
- Companhia Brasileira de Cartuchos (CBC) is a Brazilian company that primarily produces ammunition but they also manufacture airguns, revolvers, break open shotguns and double rifles under their own name and contracted "house brand" firearms.

Action

- break open action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the receiver/frame.
- observed samples have had six digits without letter prefixes or suffixes.

Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128176 - 1	41 FLINTLOCK	1	38	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Alex WILSON" was observed marked on the left side of the receiver/frame.

Model

- manufactured prior to 1830.
- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- this is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- this handgun is intended to be loaded from the breech end of the barrel and as such was originally supplied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- features may include: round barrel with underlug for wrench; boxlock action; exposed centrally positioned ringneck cock; folding trigger; sliding-type safety device on the top of the rear tang which engages a notch in the rear of the cock; and wooden grip.

Manufacturer

- "Alex WILSON" and "No 1 VIGO LANE" was observed marked on the left side of the receiver/frame.
- Alexander Wilson was a gunmaker located in London, England from 1805 to 1829.
- Alexander Wilson was located at 14 Titchborne Street from 1805 to 1811; 3 Sherrard Street, Golden Square from 1811 to 1825; and 1 Vigo Lane, Piccadilly from 1826 to 1829.
- Alexander Wilson's business was taken over by Joseph Lang in 1829.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- the turnoff barrel may be rifled.

Other Markings

- British proofmarks are usually apparent on the receiver/frame and/or the barrel.
- engravings that may appear on both sides of receiver/frame depicts a "Trophy of Arms".
