Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
161306 - 1	45 PERCUSSION	1	689	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- " H.WARNER .... WM. LOWE." over "SYRACUSE N.Y." is marked on the barrel.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is a percussion single-shot target rifle manufactured by Horace Warner and William Lowe, of Syracuse, New York, prior to 1888.
- features may include: browned or blued finish; heavy octagonal barrel; muzzle adapted for a short-starter/sight plug; open (tang- or barrel-mounted) or optical adjustable sights; straight-grip maple or walnut butt with iron, German silver or brass finishings; external manually-cocked hammer; single or double set triggers; crescent buttplate; and a finial trigger guard/gripstrap.

Manufacturer

- " H.WARNER .. WM. LOWE" over "SYRACUSE, N.Y." is marked on the barrel.
- Horace Warner and William Lowe were partners in a Syracus, New York gunmaking business from 1880 to 1888.

Action

- muzzle-loaded, percussion ignition.

Notes

Make

- "LEVITT'S PATENT" over "MANd BY WARNER & WESSON HARd, Ct." is marked on the topstrap.
- "Warner & Wesson" was a partnership between Thomas Warner and Daniel Baird Wesson or Edwin Wesson.
- "Warner & Wesson" was based in Hartford, Connecticut, U.S.A. circa 1849.
- "Warner & Wesson" produced revolvers under Daniel Leavitt's patents for a percussion revolver.

Model

- manufactured circa 1849.
- "WESSON'S & LEAVITT'S PATENT" is marked on the topstrap of the firearm.
- this is a version of the Massachusett's Arms Company's Wesson & Leavitt Patent.
- this is a sidehammer back-action percussion revolver made under Wesson's and Leavitt's patents for a revolver.
- features include: blued/colour-case-hardened finish; round barrel; fixed sights; a hinged top-strap; nipples inset into the rear edge of the cylinder at an angle; a manually-cocked hammer on the right side of a back-action lockplate; and a brass grip-cap (this grip-cap being one of the major identifying differences between the earlier warner & Wesson and the later Massachusetts Arms models).

Manufacturer

- "MANd BY WARNER & WESSON HARd, Ct." is marked on the topstrap.
- "Warner & Wesson" was located in Hartford, Connecticut, U.S.A. circa 1849.
- "Warmer & Wesson" was a partnership betweem Thomas Warner and Edwin Wesson.

Barrel

- barrel lengths can vary widely in this model.

67985 - 1	7.65MM	8	106	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- was formed circa 1909 and ceased existence in 1919.

Model

- model designation may appear as follow; " WARNER AUTOMATIC PISTOL" , on left or right side of slide.
- hammerless, fixed front blade, notched rear sight.
- hard rubber grip with Warner Arms Co crest molded in it, (WAC interlaced).
- blow-forward action, without grip safety.
- this was a variant of the Schwarzlose pistol apparentely assembled in the USA from parts imported from Germany circa 1911-13. The Warner version differences remain in replacing the sliding type safety by a conventional turning thumb, the finger grips on the slide are rolled die hatching instead of milled groove, and the omission of the grip safety.
- some specimen may bear both company names reading on right side of frame;
"A.W. SCHWARZLOSE G.M.B.H. BERLIN PAT'D APR 13 AND AUG 24 1909", and below
"WARNER ARMS CORPORATION BROOKLYN, N.Y. USA".

Manufacturer

- "Warner Arms Corporation (WAC)" was formed in Brooklyn, New York, U.S.A. circa 1909.
- "Warner Arms Corporation (WAC)" moved to Norwich, Connecticut, U.S.A. in 1913.
- "Warner Arms Corporation (WAC)" merged with N.R. Davis & Sons of Assonet, Massachusetts, U.S.A. to become "Davis-Warner Arms Corporation" in 1917.
- Davis family withdrew from "Davis-Warner Arms Corporation" in 1919.
- "Warner Arms Corporation" then moved back to Norwich, Connecticut, U.S.A.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blow-forward action.
Serial Number	- usually located on the right side directly under the finger grip.

Notes

Make

- "H. WARNER" or "HORACE WARNER" is usually marked on the firearm.
- Horace Warner was a gunmaker in Syracuse, New York (as well as other locations in Pennsylvania), during the mid-to-late 1800s, who was known primarily for his percussion target and hunting guns. Warner was a Civil War sharpshooter who went into the gun trade after the war, and he was in a partnership with William V. Lowe (as "Warner & Lowe") from 1887-88.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is an octagonal-barrel percussion target rifle manufactured by Horace Warner prior to 1893.
- may be seen in underhammer, standard side-hammer or "mule ear"-style ignition system.
- features may include: browned or blued finish; open fine-screw-adjustable tang sights (may also be seen with early "tube"-style optical sights); octagonal barrel; straight-grip walnut stock (butt only) with iron, German silver or brass finishings; external manually-cocked hammer; single or double-set triggers; and a crescent butt.

Manufacturer

- "H. WARNER" or "HORACE WARNER" is usually marked on the firearm.
- Horace Warner was a gunmaker in Syracuse, New York (as well as other locations in Pennsylvania), during the mid-to-late 1800s, who was known primarily for his percussion target and hunting guns. Warner was a Civil War sharpshooter who went into the gun trade after the war, and he was in a partnership with William V. Lowe (as "Warner & Lowe") from 1887-88.

116695 - 1	41 SHORT RF	1	70	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make not marked on firearm.

Model

- this is a single-shot breech loading derringer based on James Warner's idea for a pivoting side hinged breech block (very similar to the Snider; the same idea was also used in some of Warner's rifle designs).
- features include: brass receiver/frame, blued barrel, bird's head butt, exposed hammer, spur trigger and walnut grips; this design has a breech block that lifts up and rotates to the left, with a firing pin contained in the breech block.
- all known examples of these derringers are unmarked, but specimens have been observed with factory engraving.

Manufacturer

- James Warner was an American gunsmith/designer based in Massachusetts during the mid to late 1800's; he built both rifles and handguns, and his firearms may be marked either "JAMES WARNER" or "WARNER'S PATENT".

116775 - 2	40 PERCUSSION	6	610	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make marked as either "JAMES WARNER" or "WARNER'S PATENT".

Model

- this is any one of several types of single action revolving rifles built by James Warner during the 1840s and 1850s; these rifles were built to compete with the Colt revolving rifles of the same period. These rifles are distinct from a later Warner built revolving rifle in that these rifles have only a topstrap joining the receiver/frame and the barrel; later Warner revolving rifles had a solid receiver/frame, with both top and bottom straps.
- these rifles were made in four distinct types, and encompassed two separate mechanisms; one in which the cylinder had to be manually revolved by hand before firing, and one in which cocking the hammer automatically revolved the cylinder.
- features include: walnut straight grip stock (some with patchboxes), finial trigger guard/gripstrap, iron or half iron/half brass receiver/frame, half round/half octagonal barrel, and some examples have loading levers.
- these rifles have markings in one of two distinct types: either "JAMES WARNER / SPRINGFIELD, MASS" (sometimes with "PATENT APPLIED FOR"), or "WARNER'S PATENT / JAN. 1851" (sometimes with "SPRINGFIELD ARMS CO.").

Manufacturer

- James Warner was an American gunsmith/designer based in Massachusetts during the mid to late 1800's; he built both rifles and handguns, and his firearms may be marked either "JAMES WARNER" or "WARNER'S PATENT".

Notes

Make

- make not marked on firearm.

Model

- manufactured circa 1851.
- this is a rare, early example of a solid top receiver/frame revolver with a double action trigger mechanism.
- features include: fixed sights; round barrel; solid top iron receiver/frame with removable non-fluted cylinder; exposed hammer; bird's head grip strap; walnut grip panels, blued finish.
- an unusual semi-circular hammer strikes the nipples in the outer radius of the cylinder.
- cylinder has a machined groove joining the inset nipples.

Notes

Make

- marked "JAMES WARNER SPRINGFIELD, MASS. U.S.A." on the topstrap.

Model

- this is an odd appearing single action percussion pocket revolver made during the 1850s and 1860's; Warner also made metallic cartridge revolvers that appear very similar to this model (found under "Pocket Revolver").
- features include: blued or case hardened finish, round or octagonal barrel, iron receiver/frame, walnut grips, loading lever under barrel and a hammer with an almost vertical spur.
- these revolvers are normally marked "JAMES WARNER SPRINGFIELD, MASS. U.S.A." on the topstrap, sometimes with the addition of "WARNER'S PATENT 1857" on the cylinder.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "JAMES WARNER SPRINGFIELD, MASS. U.S.A." and/or "WARNER'S PATENT 1857" is marked on the firearm.

Model

- model designation is not marked on the firearm.
- these revolvers are normally marked "WARNER'S PATENT 1857", sometimes with the addition of "PATENT APRIL 3, 1855".
- manufactured in the late 1860s.
- this is an odd appearing single action pocket revolver, Warner also made percussion revolvers that appear very similar to this model (found under "Percussion Pocket").
- blued or plated finish, round barrel, iron receiver/frame, walnut grips, loading groove cut into right side of receiver/frame, loading gate and a hammer with an almost vertical spur.
- though these revolvers may appear to be cartridge conversions of percussion revolvers, they were designed from the outset to be cartridge firing handguns; the cylinder pin is removable, so it can be used as an ejector.

Manufacturer

- James Warner was an American gunsmith/designer based in Springfield, Massachusetts during the mid to late 1800's; he built both rifles and handguns, and his firearms may be marked either "JAMES WARNER" or "WARNER'S PATENT".

FRT Report

Firearm Reference Number (FRN): 116875
Make: Warner, James
Model: Solid Top Frame Revolving Rifle

Summary

Make:	Warner, James
Model:	Solid Top Frame Revolving Rifle
Manufacturer:	Warner, James
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
116875 - 1	40 PERCUSSION	6	660	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
116875 - 2	40 PERCUSSION	6	762	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make marked on topstrap as "JAMES WARNER / SPRINGFIELD, MASS".

Model

- this is a secondary type of single action revolving rifle built by James Warner during the 1850s; these rifles were built to compete with the Colt revolving rifles of the same period.
- these rifles were of the type in which the cylinder had to be manually revolved by hand before firing; during firing, the cylinder was locked by a hook shaped lever that protrudes down into the triggerguard.
- features include: walnut straight grip stock, finial triggerguard/gripstrap, iron or brass receiver/frame, octagonal barrel and a loading lever.
- some examples of these rifles were made with a patent ignition system in which a pellet of priming compound was glued into a square nipple with a dab of beeswax.
- these rifles are usually marked "JAMES WARNER / SPRINGFIELD, MASS" on the topstrap.

Manufacturer

- James Warner was an American gunsmith/designer based in Massachusetts during the mid to late 1800's; he built both rifles and handguns, and his firearms may be marked either "JAMES WARNER" or "WARNER'S PATENT".

149405 - 1	46 PERCUSSION	1	864	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WARREN & STEELE" is usually marked on the lockplate.
- George Warren & John F. Steele were partners in an Albany, New York, hardware dealership who also supplied locks and barrels to gunmakers during the mid-1800s; their locks may be seen on complete guns supplied by their hardware store, or on guns manufactured by gunsmiths who purchased supplies from them.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is a percussion hunting or target rifle manufactured by or for Warner & Steele.
- features include: browned or blued finish; open fixed or adjustable sights; octagonal barrel; underbarrel ramrod thimbles; half-length straight-grip maple or walnut stock (some with brass or German silver finishings); external manually-cocked hammer on the lockplate; single or double-set triggers; finial trigger-guard/gripstrap; and a crescent butt.

Action

- muzzle-loaded percussion single-shot.

FRT Report

Firearm Reference Number (FRN): 126777
Make: Waters, John
Model: Scottish Highlander Regimental Flintlock Pistol

Summary

Make:	Waters, John
Model:	Scottish Highlander Regimental Flintlock Pistol
Manufacturer:	Waters, John
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
126777 - 1	57 FLINTLOCK	1	184	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Waters" or variation thereof may be marked on the lock.

Model

- model designation is not marked on the firearm.
- manufactured circa 1760.
- traditional Scottish military flintlock pistol.
- features include: brass-like gun metal construction with the absence of a trigger guard; round barrel; kidney shaped butt with removable touch hole pick (versus the typical ram's horn butt with a threaded, centre knob for the touch hole pick); button head, turned ram rod; goose neck cock; lobed trigger tip; belt hook attachment on the left side.
- overall length is 295mm (11 5/8").
- a very similar pistol, the "Black Watch Pistol" is known under several similar names, and must not be confused with the "Murdoch" pistol; where the "Murdoch" pistol has a "ram's-head" butt, with curlicue extensions that help to protect a ball-headed vent-pick threaded into the butt, the "Black Watch Pistol" is made with an all-brass butt and stock, with a double-lobed "kidney-shaped" butt that allows the pistol to be used as a club after the shot is fired.

Manufacturer

- John Waters was a manufacturer located in Birmingham, and London England, circa 1770 to 1781.

Action

- muzzle loader.

200382 - 1	450 REV CF	6	140	Antique CC 84(1) "antique firearm" para. (b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "EXAMINED BY WATSON BROs 4 PALL MALL LONDON" is marked on top of the barrel.
- "Watson Brothers" took the business from their father "Thomas William Watson" in 1885.
- "Watson Brothers" manufactured firearms at No. 4 Pall Mall SW from 1885 to 1894, No. 31 Cockspur Street from 1894 to 1895, No. 29 Old Bond Street from 1895 to 1929 and No. 13a Pall Mall from 1929 to 1935.
- "Watson Brothers" was purchased by "Grant & Lang" in 1935.
- "Watson Brothers" was a trade name by "Grant & Lang" until 1980.
- "Watson Brothers" name was acquired by "Frederick Beesley & Charles Hellis" in 1984 and traded under the name "Hellis, Besley & Watson".
- "Watson Brothers" was re-established as a manufacturer in 1989.

Model

- The model designation is not marked on the firearm.
- "Webley No 4" is with the "Pryse" pattern twin break open levers, mounted on the rear of the frame recoil shield.
- Features include: fluted cylinder; exposed spur hammer; saw handle type grip strap with metal butt cap and lanyard ring.

Serial Number

- The serial number is marked on the left side of the receiver/frame.

Canadian Law Comments

- Some examples of this model, when manufactured prior to 1898 may be considered Antique in Canada.

Notes

Make

- "WATSON BROS 4 PALL MALL LONDON" was observed marked on the top of the barrel.
- Watson Brothers were located at No. 4 Pall Mall, London, England from 1885 to 1894.
- Watson Brothers was founded by Thomas William Watson.
- Thomas William Watson established a business in London, England in 1875.
- Thomas William Watson took over the premises and business of Durs Egg at No. 4 Colonnade, Pall Mall in 1875.
- Thomas William Watson was in business from 1875 to 1884.
- Thomas William Watson / Thomas William Watson & Son was located at No. 4 Pall Mall, SW from 1878 to 1884.
- Thomas William Watson passed his business on to his sons in 1885 and the business was renamed Watson Brothers.
- Watson Brothers manufactured firearms at No. 4 Pall Mall SW from 1885 to 1894, No. 31 Cockspur Street from 1894 to 1895, No. 29 Old Bond Street from 1895 to 1929 and No. 13a Pall Mall from 1929 to 1935.
- Watson Brothers was purchased by Grant & Lang in 1935.
- Watson Brothers was a trade name by Grant & Lang, until 1980.
- Watson Brothers name was acquired by Frederick Beesley & Charles Hellis in 1984 and traded under the name Hellis, Besley & Watson.
- Watson Brothers was re-established as a manufacturer in 1989.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "WG", "WG Model", "WG Model" with date of manufacture, eg.,"WG Model 1892" or a variation thereof is usually marked on left side of top strap.
- "WG" model series is a design-improved version of the former Webley Improved Government revolver of circa 1881-1885.
- "WG" has been associated with the name Webley-Green, however, research has indicated that "WG" is understood to be the acronym for "Webley Government".
- "WG" is a double action, top break revolver with simultaneous ejection.
- features include:
- may have distinctively shaped "church steeple" type cylinder fluting with later models having the more traditional round shaped fluting; research has indicated that the use of the "church steeple" type of fluting ceased circa 1893.
- large rounded barrel-to-frame hinge at front of receiver/frame designed for greater rigidity and strength.
- large thumb-actuated barrel release lever on left side of receiver/frame; this latch may also be referred to as the Webley "stirrup" or "bridle" latch.
- may have bird's head type grip or square butt configuration, with or without lanyard ring on bottom butt strap.
- trigger guard is forged integrally with the receiver/frame.
- grip frame is noticeably humped behind the hammer.
- left side of receiver/frame has a removable "access" plate held in place by two slot-head screws.
- research indicates that the practice of putting the date of manufacture on the firearm ceased circa 1893.
- available in blued or nickel plated finish.
- sub-calibre conversion units were available for this firearm.

Action

- hinged barrel design.

Serial Number

- serial number usually marked on right side of receiver/frame.
- serial number of a referenced example consisted of four numbers.

Calibre

- calibre usually marked on left side of barrel lug or left side of top strap.
- typical examples of calibre markings include; .450, .455, .450/.455, .455/.476, .476.

Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
195937 - 1	22 SHORT	1	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "R. WATSON WHITTALL" was observed on top of the barrel.

Model

- model designation is not marked on the firearm.
- features include: part octagonal barrel with dovetail sights; exposed hammer; spur trigger and wood grip panels.

Manufacturer

- R. Watson, or Rowland Watson was located on 17 Whitttall Street, Birmingham circa 1900 to 1960 and then on 32 Lower Loveday Street, Birmingham, England.
- the Watson firm was founded by Benjamin Watson in 1723. Benjamin Watson was a gunlock maker from Darlaston, England.
- in 1777 entered into partnership with William Ryan. Ryan & Watson had facilities in both Birmingham and London, England from 1765 to 1835. Ryan & Watson was located at 27 Whittall Street, Birmingham, England from 1799 to 1818.
- in 1813 Ryan & Watson were part of the subscribers to establish the Birmingham proof house.
- Benjamin Watson II died in 1830.
- in 1857, the business was taken over by Thomas Wild, who was Benjamin Watson III's son-in-law, and the business name changed to Thomas Wild.
- circa 1893 Rowland Watson took over and renamed it. Rowland Watson was Thomas Wild nephew.
- in 1941, Gilbert Watson took over when Rowland Watson died, and in 1946 was succeeded by Rowland Watson until 1987 when he retired. Then Barry King took over the firm.

Serial Number

- serial number is located at the bottom of the butt.
- serial number observed consisted of five numbers without prefix or suffix.

Model:	Webley Patent
Manufacturer:	Webley
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
141110 - 1	380 REV SHORT CF	5	76	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "W. WATSON & SON" over "313 HIGH HOLBORN LONDON" was observed marked on the top strap of the receiver/frame.

- William Watson & Son business was founded in London, England in 1868.
- William Watson & Son was located at 313 High Holborn from 1868 to 1881.
- William Watson & Sons was located at 308 High Holborn from 1882 to 1885.
- William Watson & Sons ceased operating in 1885.
- William Watson & Sons became "Watson & Hancock" in 1886.
- Watson & Hancock was located at 308 High Holborn from 1886 to 1890.
- Watson & Hancock ceased operations in 1890.

Model

- manufactured prior to 1886.
- "WEBLEY'S" over "PATENT" was observed marked on the left side of the receiver/frame.
- features include: half moon blade front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a non fluted cylinder, and right side swing down loading gate; swing-out case ejector rod stored within the cylinder axis rod; exposed spur hammer; double/single action trigger mechanism; flat bottom grip strap; checkered wood grip plates; blued finish.
- NOTE: barrel is ovate and may have an unusual taper with the diameter at the muzzle end being greater in diameter than where the barrel meets the receiver/frame.

Manufacturer

- "WEBLEY'S" or "WEBLEY" over "PATENTS" is usually marked on the side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- observed serial numbers consisted of five numbers without a letter prefix or suffix.

Calibre

- "calibre" was observed marked on the left side of the receiver/frame.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1982.
- "Weatherby ATHENA" is marked on the upper barrel.
- Athena Grade V was introduced in 1990.
- Athena subsequently became the Athena Grade IV (although no changes were made).
- Athena model designation has also been used by Weatherby on a side-by-side shotgun made in Spain by Zabala Hermanos.
- Athena was originally introduced with fixed chokes in 1982.
- Weatherby introduced their Integral Multi-Choke (IMC) system of interchangeable choke tubes in 1985.
- features include: blued round, over and under barrel with a ventilated top and mid ribs and a bead front sight; coin-finished front hinged receiver/frame with a top tang mounted break open lever and safety; box lock action with various grades of engraving, some with precious-metal inlays; modified Greener cross-bolt lock-up; hammerless; single selective trigger; checkered walnut forearm and customer's choice of full pistol-grip, half pistol-grip, or straight grip buttstock.

Manufacturer

- manufacturer's name is not marked on firearm.
- "Made In Japan" is usually marked on the firearm.

Action

- over and under barrel configuration, hinged barrel design.

Serial Number

- serial number is marked on the underside of the receiver/frame.
- serial numbers observed consisted of a letter "D" prefix and six numbers.

Calibre

- gauge and chamber length are marked on the side of the barrel.

Remarks

- the Athena line was available in skeet, field, and trap configurations.
- this model can be distinguished from the various "Orion" shotguns by the fact that the Athena has a ventilated rib between the barrels, while the Orion series has a solid rib; additionally, the Athena series has long side-plates, while the Orion series has short side-plates.

- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- Weatherby has also used the Athena name on an over/under shotgun built by Sakaba (SKB) of Japan.
- features include: a straight grip, oil finished Turkish walnut stock and splinter forearm; single trigger; selectable automatic ejectors; blued barrels with brass bead sight; boxlock action; interchangeable screw-in choke tubes; tang monted safety/selector and a colour-case-hardened receiver/frame with false sideplates and full scroll engraving.
- a slightly lower-grade version of this shotgun is available as the "Orion" (not to be confused with Weatherby's over/under Orion), with a pistol-grip stock and no extended sideplates.

Manufacturer

- "ZABALA", "ZABALA, SPAIN", "ZABALA HERMANOS", "ZABALA HERMANOS, EIBAR", "ZABALA HERMANOS S.R.C. - EIBAR", "ZABALA HNOS S.R.C. - EIBAR", "ZH" inside a shield over the word "TRADEMARK", "Z.HERMANOS" and/or "MADE IN SPAIN" may be marked on the receiver/frame and/or barrel assembly.
- "ZH" inside a shield is usually marked on the watertable and/or barrel flats.
- "ZH" inside a shield is the trademark of Zabala Hermanos.
- Zabala Hermanos was established in 1932.
- Zabala Hermanos, S.A. was located in Eibar, Spain in 2005.
- Zabala Hermanos manufactures side by side boxlock shotguns, side by side sidelock shotguns with external hammers and over & under shotguns.
- Zabala Hermanos shotguns have been imported into North America and sold by or under the names of American Arms Inc., Charles Daly, Galef, KBI, Inc. and Tristar.
- Zabala Hermanos began manufacturing the Athena and Orion shotguns for Weatherby in 2001.

Action

- side by side pattern.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- the Athena shotgun was introduced in 1982. When Weatherby introduced the Athena Grade V shotgun in 1990 the original Athena models became known as the Athena Grade IV.
- the Athena model designation has also been used by Weatherby on a side-by-side shotgun produced in Spain by Zabala Hermanos.
- features include: half pistol-grip, oil-finished, American Claro walnut stock and forearm; single selective trigger; tang mounted safety; modified Greener cross-bolt lock-up; ventilated rib on barrel; blued barrels with "IMC" (Integral Multi Choke) interchangeable choke tubes and a silver nitride receiver/frame with extended sideplates and rose and scroll pattern engraving.
- available as a multi-barrel set.

Manufacturer

- manufacturer's name is not marked on firearm.
- "Made In Japan" is usually marked on the firearm.

Action

- over/under barrel pattern.

Serial Number

- all examples seen have a one or two letter prefix followed by five or six numbers.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- Centurion 2 was manufactured from 1976 to 1981. Weatherby previously offered the same basic firearm as the Centurion from 1972 to 1976. - available in field, deluxe and trap configurations. - Centurion 2 was also offered with a 660 mm slug barrel as the Centurion 2 Buckmaster. - features include: cross bolt safety on the rear of the trigger guard; blued finish on the barrel and receiver/frame ("Deluxe" version featured a scroll engraved receiver/frame with matte silver sides); walnut, pistol grip buttstock with recoil pad and hand cut checkering and forend; gold plated trigger; ventilated rib barrel; flush fit magazine cap.
Manufacturer	- the Centurion II and earlier Centurion shotguns were manufactured for Weatherby by two separate Japanese companies, Nikko/Olin-Kodesha and KTG. Both will be marked "Made in Japan" and were built to the same specifications. The manufacturer of a given example is identifiable by the serial number.
Action	- gas operated.
Serial Number	- serial number is marked on the underside of the receiver/frame; examples manufactured by KTG will have an "A" prefix in the serial number, while Nikko/Olin-Kodesha manufactured firearms will have an "NA" serial number prefix.
Calibre	- depending on configuration the Centurion II was offered in either 12 GA X 2 3/4" or 12 GA X 3".
Shots	- tubular magazine located within the forend.

Model	- "Weatherby Deluxe" is marked on the left side of the receiver/frame. - manufactured between 1945 and 1963. - Deluxe rifles were manufactured from a variety of commercial actions and customer-supplied rifles, each with pre-existing or their own serial-number ranges; these rifles were manufactured primarily from FN Mauser actions (most of which were marked "Weatherby, South Gate, California"), but also from Mathieu Arms (left-hand only), Shultz and Larson (Denmark), Brevex Magnum (France) actions, and Sako Mauser actions. These rifles were all custom or semi-custom pieces, with a wide variety of stock finishes and styles available, most often with intricate inlay work in exotic woods. However, they all had the bright glossy metalwork and stock coat that Weatherby is best known for.
Action	- turn-bolt design.
Serial Number	- the serial number is marked on the side of the receiver/frame. - model, serial number rationalization and manufacturer: - Deluxe RH only: serial number range from 1400 to 10962 = F.N. - Deluxe RH only: serial number range from 6000A to 6275A = Sako. - Deluxe LH only: serial number range from L101 to L286 = Mathieu Arms. - Deluxe RH only: serial number ranges from 1721 to 3690 and S152 to S455 = Schultz & Larson. - Deluxe RH only: serial number range from 200 to 380 = Brevex.
Calibre	- the calibre is marked on the barrel.
Shots	- internal box magazine.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1995.
- available in right and left hand actions.
- features observed: round, fluted free floated stainless steel barrel with a recessed target crown and muzzle accubrake; MARK V receiver/frame is drilled and tapped for scope mounts; three position safety; match two stage triggers; one piece laminated, raised comb Monte Carlo composite stock with a matte gel coat finish and spiderweb accents; Pachmayr decelarator pad; sling swivel studs.
- overall length with a 610 mm (24") barrel is 1118 mm (44"), and the average weight is 3.28 kgs (7.25 lbs).
- chambering for the calibre 338 Lapua Mag was introduced in 2012.

Manufacturer

- Weatherby is a firearms manufacturer/importer founded in South Gate, California, in 1945. Weatherby imported the majority of its firearms from Germany, Italy, or Japan, but some of their new production rifles are manufactured completely in the United States.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial numbers consisted of a two letter "PB" prefix and six numbers.

Calibre

- calibre is usually marked on the barrel.

Shots

- box magazine with hinged floorplate.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- the Mark V CFP has been offered in two versions by Weatherby.
- the first version was offered from 1998-2000.
- for the first production version the "CFP" in the model designation denotes "Center Fire Pistol".
- features for the first version include: based on the MARK V Lightweight rifle action; chrome moly receiver/frame; fluted stainless steel barrel with a recessed crown; laminated, rear pistol grip stock; moulded-in aluminum bedding plate; comes drilled and tapped for mounting a scope and has a forward sling swivel for mounting a bipod.
- the second version was re-introduced in 2006.
- "Mark V" is marked on the left side of the receiver/frame.
- for the second production version the "CFP" in the model designation denotes "Compact Firing Platform".
- features for the second version include: based on the MARK V Lightweight rifle action; forged steel receiver/frame; chrome moly barrel with a recessed crown; matte blue finish; pillar bedded composite stock with pistol grip; drilled and tapped for mounting a scope; adjustable trigger; and sling swivels.
- in 2000 Weatherby also produced a limited number pistols similar to the first version of the MARK V CFP as the MARK V Accumark CFP.

Manufacturer

- "Weatherby Atascadero CA" may be marked on the receiver/frame.

Action

- turn bolt operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number had a two letters prefix and six digits.

Calibre

- calibre designation is marked on the left side of the firearm.

Shots

- internal box magazine.

Other Markings

- "Made in U.S.A." is marked on the left side of the receiver/frame.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured from 1979 to date.
- on floor plate "WEATHERBY CUSTOM"

Manufacturer

- Manufactured by one of several sub-contractors producing guns for Weatherby; including Japan. The latest versions are built in the United States.

Action

- Mark V action, with 9 locking lugs.

Barrel

- other barrel lengths will likely be available, but 610 mm (24") and 660 mm (26") are the standards.

Remarks

- This Model can be ordered in practically any calibre, in any finish, with any number of stock or wood options, etc.; these rifles will have "Weatherby Custom" engraved on their floor-plates, and will most likely have several intricate inlays on the stock. As this is a custom-made firearm, other calibres will likely be available.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured in 1963.

Action

- Mark V action, with 9 locking lugs.

Barrel

- other barrel lengths will likely be available, but 609 mm (24") and 660 mm (26") are the standards.

Calibre

- as this is a custom-made firearm, other calibres will likely be available.

Remarks

- This rifle can be ordered in practically any calibre, in any finish, with any number of stock or wood options, etc.; these rifles will have "Weatherby Custom" engraved on their floor-plates, and will most likely have several intricate inlays on the stock. Manufactured by one of several sub-contractors producing guns for Weatherby; the latest versions are built in the United States, but earlier versions were produced in Germany or Japan.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 2001.
- the "DGR" in the model designation denotes Dangerous Game Rifle.
- features include: adjustable express rear sight with a barrel band mounted hooded front sight with a large gold bead; front sling swivel mounted on a band on the barrel; black, desert camouflage (tans and browns), dark timber camouflage (browns and greens) or snow camouflage (white and black/grays) finished synthetic, Monte Carlo stock with an aluminum bedding insert; safety located on the right side of the bolt shroud and a hinged magazine floor plate.

Action

- turn-bolt operated.

Serial Number

- serial number is marked on the right side of the receiver/frame, rationalization unknown.

Barrel

- barrel measurement does not include the Accubrake muzzle brake.

Shots

- integral magazine located forward of the trigger guard.

- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured from 1972 to 1984.

Manufacturer

- manufactured by Howa, Ltd. of Japan for Weatherby, from 1972 to 1984.

Serial Number

- right front side of receiver ring.

Remarks

- Receivers were marked "Weatherby" South Gate, California, on centre left side of recever. drilled and tapped for scope mount, safety on right rear of bolt handle. Available in right or left hand actions. Deluxe model includes hand bedding, high luster, durable stock finish. 1972 to date, Weatherby custom receivers and barrels were manufactured by Howa, Japan. This was his original Mark 5. There are at least four variations of the bolt. This was a Weatherby rifle designed with European sales in mind, as it had the overall "look" of a European hunting rifle; Monte Carlo stock with skip-line checkering, white forend and pistol-grip spacers, front sight with integral muzzle band, etc.; manufactured in both left-hand and right-hand versions.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured from 1995 to present.

Remarks

- This rifle is identical to the Mark V Synthetic, except the metal parts are entirely 400-series stainless steel, with a matte finish; furthermore, to reduce the weight of this rifle, it has a barrel with milled longitudinal grooves. Checkered grip and forend, custom floor plate release, lightweight version also available.

- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- 1981
- Receivers were marked "Weatherby" South Gate, California, on centre left side of recever. Drilled and tapped for scope mount, safety on right rear of bolt handle. Available in right action. Deluxe model includes hand bedding, high luster, durable stock finish. 1972 to date, Weatherby custom receivers and barrels were manufactured by Howa, Japan. This was his original Mark V. There are at least four variations of the bolt. These rifles were a special production run in 1981 of 100 rifles (2 for each state) intended as an especially collectable firearm. They have enameled inlays in the stock showing which sate they were intended to commemorate.

Manufacturer

- These rifles manufactured for Weatherby by Howa Ltd., of Japan.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - Uses a combination of letters and numbers, beginning with "81" and ending with either "01" or "02", with the postal code abbreviation for each state in the middle; eg. "81AL01" would be the first rifle produced in the Alaska series, while "81WY02" would be the second rifle produced in the Wyoming series; only 100 rifles produced.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured from 1989 to 1991.
- "Weatherby Ultramark" may be engraved on the floorplate.
- essentially a higher grade of the MARK V Deluxe model.
- features include: high gloss, raised comb, walnut, Monte Carlo stock with rosewood tipped forend and pistol grip with maple wood spacers; high luster finished metalwork.

Manufacturer

- Howa Ltd. of Japan produced this rifle for Weatherby from 1989 through 1991.

Action

- turn-bolt design.

Serial Number

- serial number is usually marked on the receiver/frame.
- observed examples have been alpha/numeric and may fall between H210828 and H215743.

Barrel

- blued, tapered.

Shots

- internal box magazine.

Remarks

- Receivers were marked "Weatherby" South Gate, California, on centre left side of receiver. Drilled and tapped for scope mount, safety on right rear of bolt handle. Available in left and right hand action. Deluxe model includes hand bedding, high luster durable stock. This version of the Mark V was produced for only 2 years, from 1989 through 1991; it is essentially identical to the Mark V Deluxe.

- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured from 1964 to 1971.
- all versions of this firearm are designated "deluxe".
- features included: safety slide on upper tang; high luster finish stock; basket weave checkering, the stock has a Monte Carlo comb with a cheek piece; the rifle is sold with sling swivels.
- this firearm was manufactured for Weatherby in Italy by Berretta and is marked "Made in Italy" on the right rear of the barrel.
- the Mark XXII model has been manufactured by several different manufacturers over the years.
- "MARK XXII" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- Beretta produced the Mark XXII rifle for Weatherby from 1964 (first production) until 1972, when Weatherby moved all Mark XXII production to Japan. KTG of Japan also manufactured this rifle from 1967 through 1971.
- "MADE IN ITALY" is marked on the right side of the barrel.

Action

- blow-back operated.
- this firearm has a unusual feature in the mechanism which interrupts the semi-automatic mode of operation. This is accomplished by the activation of a single shot selector which is found on the right side of receiver.

Serial Number

- the serial number will be found on the forward, right side of the receiver.
- serial number rationalization for beretta production only - five digits, without prefix or suffix.
- serial number range for Beretta production only - 01000 to 43352.

Calibre

- "CALIBER .22 L.R." is marked on the left side of the barrel.

Shots

- detachable box magazine.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1984 to 1988.
- all versions of this firearm are designated "deluxe".
- features included: safety slide on upper tang; high luster finish stock; basket weave checkering, the stock has a Monte Carlo comb with a cheek piece; the rifle is sold with sling swivels.
- this firearm was manufactured for Weatherby in Japan by HOWA and is marked "Made in Japan" on the right rear of the barrel.
- the Mark XXII model has been manufactured by several different manufacturers over the years.
- "MARK XXII" is marked on the left side of the receiver/frame.

Manufacturer

- Howa Ltd. of Japan produced the Mark XXII rifle for Weatherby from 1984 through 1988.

Action

- blow-back operated.
- this firearm has a unusual feature in the mechanism which interrupts the semi-automatic mode of operation. This is accomplished by the activation of a single shot selector which is found on the right side of receiver.

Serial Number

- the serial number will be found on the forward, right side of the receiver.
- serial number rationalization - detachable box magazine specimens have a letter "JC" prefix followed by five digits, fixed tubular magazine specimens will be found with a letter "JT" prefix followed by five digits. Zeros are used as placeholders to derive a five digit serial number.
- HOWA manufactured rifles have two blocks of serial numbers:
- detachable box magazine-fed rifles have serial numbers between JC10000 and JC13250.
- tubular magazine-fed rifles have serial numbers between JT50000 to JT54874.

Shots

- detachable box magazines available in 5 or 10 shot capacities; tubular magazine rifles had a capacity of 15 shots.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- "Weatherby Orion" is stamped on the right side of the top barrel.
- Weatherby has also used the Orion name on a side by side shotgun built for them by Zabala Hermanos of Spain.

Manufacturer

- manufacturer's name is not marked on firearm.
- "Made In Japan" is usually marked on the firearm.

Action

- over/under barrel configuration.

Serial Number

- consists of seven numbers with one or two letter prefix.

Remarks

- Available in skeet, field, and trap configuration. Single select trigger, selective auto ejectors, slide safety, barrel and action deep blued. Walnut stock with recoil pad and pistol grip, hand checkering, high luster finish forearm has checkered, finger grip channels, both sides ventilated rib, gold plated trigger.
- The Orion O/U shotgun was introduced in 1982, at the same time as the Athena; the primary difference between these shotguns is that the Athena has a ventilated inter-barrel rib and long side-plates, while the Orion has a solid inter-barrel rib and no side-plates. Many of these shotguns come with interchangeable screw-in choke tubes.
- The Orion was also offered in Grades I, II, and III, with the primary difference being the amount of engraving and the quality of wood.

- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- Weatherby has also used the Orion name on an over/under shotgun built for them by Sakaba (SKB) of Japan.
- this is a lower grade version of the Athena side-by-side (built in Spain by Zabala Hermanos).
- features include: a half round, pistol-grip, oil-finished Turkish walnut stock and splinter forearm; single trigger; selectable automatic ejectors; blued barrels with brass bead; boxlock action; interchangeable screw-in choke tubes (in all gauges but 410); tang mounted safety/selector; and a colour-case-hardened receiver/frame with full scroll engraving.
- a higher-grade version of this shotgun is available as the "Athena" (not to be confused with Weatherby's over/under Athena), with a straight-grip stock and extended sideplates.

Manufacturer

- "ZABALA", "ZABALA, SPAIN", "ZABALA HERMANOS", "ZABALA HERMANOS, EIBAR", "ZABALA HERMANOS S.R.C. - EIBAR", "ZABALA HNOS S.R.C. - EIBAR", "ZH" inside a shield over the word "TRADEMARK", "Z.HERMANOS" and/or "MADE IN SPAIN" may be marked on the receiver/frame and/or barrel assembly.
- "ZH" inside a shield is usually marked on the watertable and/or barrel flats.
- "ZH" inside a shield is the trademark of Zabala Hermanos.
- Zabala Hermanos was established in 1932.
- Zabala Hermanos, S.A. was located in Eibar, Spain in 2005.
- Zabala Hermanos manufactures side by side boxlock shotguns, side by side sidelock shotguns with external hammers and over & under shotguns.
- Zabala Hermanos shotguns have been imported into North America and sold by or under the names of American Arms Inc., Charles Daly, Galef, KBI, Inc. and Tristar.
- Zabala Hermanos began manufacturing the side by side versions of the Athena and Orion shotguns for Weatherby in 2001.

Action

- side by side pattern.

Serial Number

- numbered on the receiver/frame, rationalization unknown.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- Introduced in 2010.
- "PA-08" is usually marked on the barrel.
- Features include: round chrome lined barrel with ventilated rib, brass bead front sight and interchangeable choke tube; solid top receiver/frame with right side ejection and bottom loading; dual action bars; action release located on the left side slide of the trigger guard; removable trigger assembly with a gold colored trigger; cross-bolt safety mounted on the rear of the trigger guard; checkered black synthetic forearm and pistol grip buttstock with black rubber recoil pad; matte black finished.
- Overall length with a 660mm (26") barrel is 1168mm (46") average weight is 2.95kgs (6.5lbs).
- A compact version was introduced in 2015 featuring a 559mm (22") barrel and a shorter buttstock.

Manufacturer

- Zafer Arms is located in Imir, Turkey.

Serial Number

- serial number is usually located on the receiver/frame.
- serial number rationalization is unknown.

Shots

- tubular magazine is mounted under the barrel.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- manufactured only in 2010. - "PA-459" is usually marked on the barrel. - features include: fiber optic adjustable blade front sight and removable ghost ring rear sight; round chrome-lined barrel with a removable extended ported cylinder choke tube; solid top alloy receiver/frame with right side ejection and bottom loading; receiver/frame is drilled and tapped and has a Picatinny rail; extended action release; safety is mounted on the trigger guard; black synthetic forearm with an integral Picatinny rail and ergonomic pistol grip buttstock with rubber textured grip area and recoil pad; matte black finish. - overall length is 1016 mm (40"), and average weight is 3 kgs (6.5 lbs).
Serial Number	- serial number is marked on the receiver/frame. - observed serial number consisted of a two letter "AK" prefix and five numbers.
Shots	- tubular magazine is mounted under the barrel. - magazine capacity is four (4) with 3" shells or five (5) with 2 3/4" shells.

- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1972 to 1976.
- "Weatherby Patrician", stamped on right side of barrel.
- the Patrician was available in field, trap, and skeet configuration.
- features include: cross bolt safety, barrel and action deep blued, walnut stock with recoil pad and pistol grip, hand checkering, forearm has checkered, finger grip channels, both sides, ventilated rib on barrel.
- Deluxe model featured engraved receiver and high grade wood.
- the Patrician can be recognized by its machined gold-plated action-release lever, located at the right rear of the receiver, above the trigger.
- Patrician II models have stamped gold-plated action-release levers in the same location. The "Deluxe" versions of this model came with engraved receivers and better-quality wood in the stock and forend.

Manufacturer

- KTG Industrial is a manufacturer located in Hitachi city, Japan.
- also manufactured by Nikko of Japan.
- serial numbers can be used to determine manufacturer.

Serial Number

- All KTG-production Patricians will have a 5-digit serial number, most often prefixed by an "S"; eg. S00001. However, some of the very earliest production simply used 5 digits without the "S" prefix (eg. 50001), while some mid-production examples had both an "S" prefix and a "W" suffix; eg. S00001W.

Shots

- tubular magazine mounted under the barrel.

Remarks

- Available in field and trap configuration. Cross bolt safety, barrel and action deep blued. Walnut stock with recoil pad and pistol grip, hand checkering, high luster finish forearm has checkered, finger grip channels, both sides. Ventilated rib. KTG of Japan manufactured the Patrician for Weatherby. Standard receiver with lever on right side above trigger allows action to unlock for unloading. The Patrician can be recognized by its MACHINED gold-plated action-release lever, located at the right rear of the receiver, above the trigger; Patrician II models have STAMPED gold-plated action-release levers in the same location. The "Deluxe" versions of this model have engraved receivers and better quality stock and forend wood

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured in 1979 only.

Remarks

- serial number identifies this particular model. Cross bolt safety, barrel and action deep blued. Deluxe model had etched and fancy grade, walnut stock with recoil pad and pistol grip, hand checkering, high luster finish forearm has checkered, finger grip channels, both sides, ventilated rib. This was one of two special production runs of the Patrician 2 pump-action shotgun made to commemorate Ducks Unlimited, a conservation group dedicated to preserving wetlands for wildfowl; they can be recognized by their unique serial number blocks, all beginning with "79DU"; manufactured only in 1979.

FRT Report

Firearm Reference Number (FRN): 154967
Make: Weatherby
Model: SA-08 Volt Compact

Summary

Make:	Weatherby
Model:	SA-08 Volt Compact
Manufacturer:	ATA Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Semi-Automatic
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
154967 - 1	20 GA X 3"	5	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- Introduced in 2015.
- This is a scaled down version of the SA-08 Synthetic, with a black and spider web green camouflage finished stock..
- SA-08 is marked on the receiver/frame.
- Features include: matte black and green spider web finish checkered semi-pistol grip synthetic stock and checkered synthetic forend; black rubber recoil pad; matte black receiver/frame with black plated bolt, bolt release and charging handle, trigger in a removable trigger assembly; cross-bolt safety on rear of the trigger guard; matte black ventilated rib barrel with brass bead front sight; and interchangeable chokes.

Manufacturer

- "Ata Arms", "ATA ARMS", "ATA ARMS MADE IN TURKEY", or "ATA Made in Turkey" may be marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- Serial number is usually marked on the receiver/frame. - Serial number rationalization is unknown.
Calibre	- Calibre is usually marked on the barrel.
Shots	- Tubular magazine in forearm.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the "SAS" model designation denotes "Semi-Automatic Shotgun".
- the SAS is available in a variety of finishes and configurations. The standard SAS is available as a "Field" grade firearm with a walnut or black synthetic stock and blued finish on the metal or with an overall camouflage finish (Shadow Grass® or Break-Up® pattern, 610mm, 660mm or 711mm barrel length). The SAS is also available in "Sporting Clays" configuration with a ported barrel (711mm or 762mm barrel length) and as a "Slug Gun" with a plain, rifled barrel (559mm barrel) that features a cantilever scope mount base and a walnut, Monte Carlo style buttstock. An accessory rifled barrel (559mm) with open sights is available in 2004 for all the SAS models.
- features include: alloy receiver/frame; single or twin bead sight(s); screw-in IMC choke tubes; magazine cut-off; self-compensating gas system; drop-out trigger mechanism; ventilated rib on the barrel; shim spacer system that allows the shooter to alter the cast-on/cast-off or drop of the buttstock and a bolt release button located on the right side of the receiver/frame.

Manufacturer

- "VALTRO" is not usually marked on the firearm.
- "Made in Italy" may be marked on the barrel.
- earlier versions of the SAS model were built in Japan by Sakaba (SKB). These are identifiable by the "Made in Japan" markings.
- "VALTRO" is derived from the first three letters of "Valle" and "Trompia".
- Valle Trompia is a valley in northern Italy.
- Valtro was established in 1988.
- Valtro has been located in Stocchetta, Villa Carcina, and Collebeato in the Province of Brescia, Italy.
- Valtro's trademark has been used on airguns, semi-automatic handguns, pump action and semi-automatic shotguns, and blank/signal pistols.
- Valtro's trademark has been distributed in North America by Berkshire Arms Inc. and Valtro U.S.A., Inc.

Action

- gas operated.

Serial Number

- usually marked on the underside of the receiver/frame, rationalization unknown.

Shots

- tubular magazine mounted under the barrel.
- a magazine plug is usually supplied with the firearm to restrict magazine capacity to two cartridges.

- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1980, discontinued in 1981.
- built on a Varmintmaster rifle action, converted to a single shot and the trigger mechanism was moved forward on the receiver/frame.
- only 200 of these pistols were produced, 150 in calibre 308 WIN and 50 in calibre 22-250 REM equipped with a 381mm length barrel.
- shorly after the first 200 barreled actions were shipped to the United States of America, the Japanese government advised Howa and Weatherby of their regulation that prohibited the export of any handguns from Japan. As such the production of the "Silhouette Pistol" ceased.
- Weatherby re-entered the handgun market in 1998 with the introduction of the MARK V CFP (Center Fire Pistol).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- manually operated, bolt actuated, single shot firearm.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1970. The standard Vanguard was replaced in the Weatherby line-up in 1984 by several new variations of the same basic rifle. The Vanguard was re-introduced in 2003.
- the model designation is marked on the left side of the receiver/frame.
- features include: blued metal or matte stainless steel finish; walnut or synthetic Monte Carlo stock; one-piece bolt with two locking lugs and a gas escape port (later models have three gas ports); adjustable trigger; receiver/frame is drilled and tapped for scope mounts.
- overall length with a 610mm barrel is 1118mm (44"), average weight is 3.4kg (7.5lbs).

Manufacturer

- Manufacturer's name may be marked on the left side of the receiver/frame.
- "MADE IN JAPAN" is marked on the left side of the receiver/frame.

Action

- Turn bolt operated.

Serial Number

- all Howa-manufactured Vanguards were serial numbered beginning at V0011; later production went into five digits, but the "V" prefix remained.
- in 1984 Weatherby started using a two alpha character prefix in the serial number. Serial number rationalization is a follows (based on available information, this is not a complete list);
- Vanguard, 1970 to 1984: V0011 to V80966, current production (2003) examples have been noted with a "VS" prefix.
- Vanguard VGX, 1984 - 1989: VX0001 to VX25440
- Vanguard VGX Deluxe, introduced in 1989 at VX25516
- Vanguard VGS, 1984 - 1989: VS0001 to VS17870
- Vanguard VGL, 1984 - 1989: VL0001 to VL 17596
- Vanguard Fiberguard, 1985 - 1989: VL06011 to VL17697
- Vanguard Classic I, introduced in 1989 at VL18757
- Vanguard Classic II, introduced in 1989 at VX17872
- Vanguard Weatherguard, introduced in 1989 at VL18207

Calibre

- calibre designation is usually marked on the barrel.
- the 270 WIN cartridge was introduced into the Vanguard line in 1972.
- the 25-06 REM cartridge was introduced into the Vanguard line in 1972.
- the 22-250 REM cartridge was introduced into the Vanguard line in 1983.
- the 270 WSM cartridge was intoduced into the Vanguard line in 2005.

Shots

- internal magazine with a hinged floorplate.
- magazine capacity in "standard" chamberings is five, in "magnum" chamberings the capacity is reduced to three.

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1970.
- "VANGUARD" is marked on the left side of the receiver/frame.
- Vanguard was offered as an economical alternative to the Weatherby Mark V rifle. Available in regular caliber (Non-Weatherby) and selected Weatherby Magnum calibers, this rifle is now (2003) offered with many of the same design elements of the Mark V action.
- features include: blued metal or matte stainless steel finish; walnut, grey or brown laminated wood or synthetic (various color) Monte Carlo stock; 90-degree bolt lift; one-piece fluted bolt with two locking lugs and three gas escape ports; adjustable trigger; receiver/frame is drilled and tapped for scope mounts; each gun supplied with a three shot factory target.
- this firearm is manufactured in a variety of wood; synthetic stock; barrel shape/weight, length and metal finish combinations, some of these rifles may be found with their own models entry.
- overall length with a 610mm barrel is 1092mm (44"), average weight with a blued steel/synthetic stock version is 3.4kg (7.5lbs).
- in 2012, the Vanguard was introduced with an improved trigger mechanism as the Vanguard Series 2.

Manufacturer

- manufacturer is marked on the firearm.
- previously manufactured for Weatherby by Howa Machinery of Japan, the majority of the Weatherby rifles line-up are now manufactured in the USA.

Action

- turn-bolt design.

Serial Number

- serial number is located on the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- observed serial number consisted of a two letter "VB" prefix and six numbers.
- observed serial number consisted of a two letter "VS" prefix and six numbers.

Calibre

- the calibre designation is marked on the barrel.
- rifling characteristics in calibre 243 WINCHESTER: 1 turn in 254mm (10").

Shots

- internal magazine with a hinged floorplate.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- "VANGUARD" is marked on the firearm.
- "RC" was observed engraved on the floor plate in a circle.
- "RC" stands for range certified.
- the Vanguard Series 2 was introduced in 2012.
- features observed: cold hammer forged barrel with matte blued finish; three position safety; two stage triggers; Monte Carlo, composite stock and sling swivel studs; receiver/frame is drilled and tapped for scope mounts.
- overall length with a 610mm barrel is from 1118mm (44") to 1130mm (44.5"), average weight is from 3.28kg(7.25lbs) to 3.40kg (7.50lbs).

Manufacturer

- "Made in Japan" is marked on the barrel.

Action

- turn bolt design.

Serial Number

- serial number is marked on the receiver/frame.

Shots

- internal magazine with a hinged floorplate.

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 1989.
- features include: matte blued metal; satin finished American black walnut stock; one-piece bolt with two locking lugs and three gas ports; adjustable trigger; receiver/frame is drilled and tapped for scope mounts.
- the same basic rifle is available as the Vanguard Classic 2 which features an ebony forend tip and grip cap.

Manufacturer

- the manufacturer's name is not marked on the firearm, "MADE IN JAPAN" is marked on the left side of the receiver/frame under the model designation.

Serial Number

- all Howa-manufactured Vanguards were serial numbered beginning at V0011; later production went into five digits, but the "V" prefix remained.
- in 1984 Weatherby started using a two alpha character prefix in the serial number. Serial number rationalization is a follows (based on available information, this is not a complete list);
- Vanguard, 1970 to 1984: V0011 to V80966, current production (2003) examples have been noted with a "VS" prefix.
- Vanguard Classic I, introduced in 1989 at VL18757
- Vanguard VGX, 1984 - 1989: VX0001 to VX25440
- Vanguard VGX Deluxe, introduced in 1989 at VX25516
- Vanguard VGS, 1984 - 1989: VS0001 to VS17870
- Vanguard VGL, 1984 - 1989: VL0001 to VL 17596
- Vanguard Fiberguard, 1985 - 1989: VL06011 to VL17697
- Vanguard Classic II, introduced in 1989 at VX17872
- Vanguard Weatherguard, introduced in 1989 at VL18207

Calibre

- the calibre designation is usually marked on the barrel.

Shots

- internal magazine with a hinged floorplate.
- magazine capacity in "standard" chamberings is five, in "magnum" chamberings the capacity is reduced to three.

Make	- "Weatherby" is marked on the firearm. - Weatherby was founded by Roy E. Weatherby in 1945. - Roy E. Weatherby was born in 1910 and died in 1988. - Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum. - Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964. - Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy. - Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy. - Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983. - Weatherby began manufacturing rifles in the U.S.A. in 1995. - Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995. - Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006. - Weatherby has been located in Paso Robles, California, U.S.A. since 2006.
Model	- introduced in 1989 - "Vanguard" and "Made in Japan" are stamped on the left side of receiver/frame.
Manufacturer	- Manufactured for Weatherby by Howa Ltd. of Japan.
Action	- Bolt is of the modified Mauser design in that it incorporates a guide rib and bolt head with two opposing locking lugs.
Serial Number	- All Howa-production Vanguard Classic IIs have a 5-digit serial number prefixed by a "VX".
Barrel	- Blued, Tapered, Hammer forged. .
Calibre	- Calibre designation appears on left side, near receiver
Remarks	- Receivers were marked "Weatherby" South Gate, California on rear, left side of receiver. Drilled and tapped for scope mount, safety on right rear of action. Available in right hand action only. Deluxe model includes hand bedding, satin finish, American black walnut stock. The Vanguard Classic II is essentially identical to the Classic I, except that the Classic II has a thicker recoil pad (available because the Classic II is chambered in more "magnum" calibers), and the Classic II also has a contrasting fore-end stock tip, without any white-line spacer. The Classic stock also has a flared pistol-grip stock, where the Classic I is chamfered.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- introduced in 2005.
- "VANGUARD" is marked on the left side of the receiver/frame.
- "SPORTER" or "SPORTER SS" may not be marked on the firearm.
- features include: satin finished raised comb Monte Carlo walnut stock and contrasting rosewood forend tip; matte blued metal finish; adjustable trigger; 90-degree bolt lift; one-piece fluted bolt with two locking lugs and three gas escape ports; receiver/frame is drilled and tapped for scope mounts; each gun supplied with a three shot factory target.
- overall length with a 610mm barrel is 1130mm (44.5"), average weight is 3.52kg (7.75lbs).

Manufacturer

- manufacturer is marked on the firearm.
- previously manufactured for Weatherby by Howa Machinery of Japan, the majority of the Weatherby rifles line-up are now manufactured in the USA.

Action

- turn-bolt design.

Serial Number

- serial number is located on the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.
- rifling characteristics in calibre 338 WINCHESTER MAGNUM: 1 turn in 254mm (10").

Shots

- internal magazine with a hinged floorplate.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- "VANGUARD SUB-MOA" is marked on the left side of the receiver/frame.
- "SUB MOA" is marked on the magazine floor plate.
- introduced in 2005, to measure accuracy in terms of minutes of angle. MOA represents minute of angle.
- features include: blued matte or bead blast matte stainless finish barrel; receiver/frame is drilled and tapped for scope mounts; safety on right rear of the receiver/frame; fully adjustable trigger; Monte Carlo fiberglass stock and Pachmayr decelarator recoil pad.
- overall length with a 610mm barrel is 1118mm (44"), average weight is 3.52kg (7.75lbs).

Manufacturer

- the manufacturer's name is not marked on the firearm, "MADE IN JAPAN" is marked on the left side of the receiver/frame under the model designation.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- all Howa-manufactured Vanguards were serial numbered beginning at V0011; later production went into five digits, but the "V" prefix remained.
- in 1984 Weatherby started using a two alpha character prefix in the serial number. Serial number rationalization is a follows (based on available information, this is not a complete list);
- Vanguard, 1970 to 1984: V0011 to V80966, current production (2003) examples have been noted with a "VS" prefix.
- Vanguard VGX, 1984 - 1989: VX0001 to VX25440
- Vanguard VGX Deluxe, introduced in 1989 at VX25516
- Vanguard VGS, 1984 - 1989: VS0001 to VS17870
- Vanguard VGL, 1984 - 1989: VL0001 to VL 17596
- Vanguard Fiberguard, 1985 - 1989: VL06011 to VL17697
- Vanguard Classic I, introduced in 1989 at VL18757
- Vanguard Classic II, introduced in 1989 at VX17872
- Vanguard Weatherguard, introduced in 1989 at VL18207

Calibre

- the calibre designation is marked on the barrel.

Shots

- internal box magazine with hinged floor plate.

Remarks

- Weatherby was founded in 1945 by Roy Weatherby in South Gate, California, with the introduction of a line of high powered belted-magnum cartridges. Initially, he built rifles on the Fabrique Nationale produced Mauser, and Schultz and Larsen actions.
- in 1957 Weatherby introduced an action that is known today as the Weatherby Mark V. Instead of the traditional two locking lugs the Mark V is unique in that it has nine locking lugs and a short 54 degree bolt throw. Weatherby bolt action rifles were first manufactured by Precision Founders in San Francisco, U.S.A., from 1958 through 1959 and then by J.P. Sauer and Sohn in Germany from 1959 to 1971. Between 1971and 1995 the Mark V actions were manufactured by Howa Machinery in Japan. Currently, Weatherby Mark V rifles are manufactured by Saco Defense Corporation in Maine, USA.
- in 1970 Weatherby began to produce a scaled down version of the Mark V action called the Vanguard, which incorporated two locking lugs instead of the nine found on the original Mark V action. These rifles were manufactured by Howa Machinery in Japan. This rifle is currently offered as the Mark V Lightweight, produced in the USA by Saco Defense.
- from 1964 to 1990, Weatherby also produced a semi-automatic .22 calibre rim-fire rifle known as the Mark XXII. It came in two versions, the Mark XXII Tubular with a 15 shot tubular magazine and the standard Mark XXII with a detachable 10 shot box magazine. This model was initially manufactured for Weatherby by Pietro Beretta in Italy, later production was in Japan and the USA.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the USA such as Sakaba (SKB), KTG and Nikko of Japan and Antonio Zoli of Italy. Weatherby is currently located in Atascadero, California under the direction of the late founder's son, Ed Weatherby.

- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 1997.
- "VANGUARD" is marked on the left side of the receiver/frame.
- Vanguard rifle was offered as an economical alternative to the Weatherby Mark V rifle.
- Vanguard rifle is available in regular calibre (Non-Weatherby) and selected Weatherby Magnum calibers.
- Vanguards rifle was offered with many of the same design elements of the Mark V action in 2003.
- features include: matte black or stainless steel, bead blasted metal finish; Monte-Carlo injection molded composite stock; adjustable trigger; 90-degree bolt lift; one-piece fluted bolt with two locking lugs and three gas escape ports; receiver/frame is drilled and tapped for scope mounts; each gun supplied with a three shot factory target.
- overall length with a 610 mm barrel is 1092 mm (44"), average weight with a stainless steel version is 3.4 kgs (7.5 lbs).
- "Synthetic package" includes a Vanguard Synthetic rifle, factory mounted bore sighted scope; nylon sling and injection molded gun case.
- "Youth/Compact package" feature a Vanguard short action (508mm #1 contour barrel) scaled down hardwood stock (finished in matte black) with shorter length of pull and an extra full-size injection molded composite stock.
- Vanguard Synthetic HB-ST was introduced in 2010.
- Vanguard Synthetic HB-ST features a heavy contour 559 mm (22") barrel and proprietary textured synthetic stock with "Silent-Tek" finish. All other features are the same.

Manufacturer

- manufacturer is marked on the firearm.
- previously manufactured for Weatherby by Howa Machinery of Japan, the majority of the Weatherby rifles line-up are now manufactured in the USA.

Action

- turn-bolt design.

Serial Number

- serial number is located on the receiver/frame.
- observed serial number consisted of a to letter "VB" prefix and six numbers.

Calibre

- the calibre designation is marked on the barrel.
- rifling characteristics in calibre 223 REMINGTON: 1 turn in 305mm (12").

Shots

- internal box magazine with a hinged floorplate.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby was responsible for introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- 1984-89 Vanguard name stamped on centre left side of receiver under which appears "Made in Japan"

Manufacturer

- Produced for Weatherby by Howa Ltd. of Japan.

Action

- Bolt is of the modified Mauser design in that it incorporates a guide rib and bolt head with two opposing locking lugs.

Serial Number

- All Howa-produced Vanguard VGLs were manufactured with a 4 or 5-digit serial number prefixed with a "VL"; eg. VL0001 or VL17596.

Barrel

- Blued, Tapered, Hammer

Calibre

- Calibre designation appears on left side, near receiver.

Remarks

- Receivers were marked "Weatherby" South Gate, California on rear, left side of receiver. Drilled and tapped for scope mount, safety on right rear of action. Available in right hand action only. Deluxe model includes hand bedding, high luster, durable stock finish. The Vanguard VGL is essentially a lightweight version of the Vanguard VGS, with a shorter 508 mm (20") barrel, but the same oil-rubbed stock and low-lustre finish on the metal; it is also not available in the exact same calibres as the VGS.

Notes

Make

- "Weatherby" is marked on the firearm.
- Weatherby was founded by Roy E. Weatherby in 1945.
- Roy E. Weatherby was born in 1910 and died in 1988.
- Roy E. Weatherby introduced a line of high powered belted-magnum cartridges known as the Weatherby Magnum.
- Weatherby rifles were built on the Fabrique Nationale produced Mauser actions, Mathieu Arms actions, and Schultz and Larsen actions prior to 1964.
- Weatherby has offered a number of different models of rifles over the years manufactured by different companies outside of the U.S.A. such as Sauer of Germany, Howa, KTG and Nikko of Japan, and Beretta of Italy.
- Weatherby has also offered a number of different models of shotguns over the years manufactured by different companies outside the U.S.A. such as Anschutz and Sauer of Germany, Sakaba (SKB), KTG and Nikko of Japan, Zabala Hermanos of Spain and Beretta, Antonio Zoli and Valtro Stochetta of Italy.
- Weatherby came under the direction of the late founder's son, Ed Weatherby in 1983.
- Weatherby began manufacturing rifles in the U.S.A. in 1995.
- Weatherby was located in South Gate, California, U.S.A. from 1945 to 1995.
- Weatherby was located in Atascadero, California, U.S.A. from 1995 to 2006.
- Weatherby has been located in Paso Robles, California, U.S.A. since 2006.

Model

- manufactured from 1984 to 1989.
- "VANGUARD VGS" is marked on the left side of the receiver/frame over "Made in Japan".

Manufacturer

- the manufacturer's name is not marked on the firearm, "MADE IN JAPAN" is marked on the left side of the receiver/frame under the model designation.

Serial Number

- all Howa-manufactured Vanguards were serial numbered beginning at V0011; later production went into five digits, but the "V" prefix remained.
- in 1984 Weatherby started using a two alpha character prefix in the serial number. Serial number rationalization is a follows (based on available information, this is not a complete list);
- Vanguard, 1970 to 1984: V0011 to V80966, current production (2003) examples have been noted with a "VS" prefix.
- Vanguard VGX, 1984 - 1989: VX0001 to VX25440
- Vanguard VGX Deluxe, introduced in 1989 at VX25516
- Vanguard VGS, 1984 - 1989: VS0001 to VS17870
- Vanguard VGL, 1984 - 1989: VL0001 to VL 17596
- Vanguard Fiberguard, 1985 - 1989: VL06011 to VL17697
- Vanguard Classic I, introduced in 1989 at VL18757
- Vanguard Classic II, introduced in 1989 at VX17872
- Vanguard Weatherguard, introduced in 1989 at VL18207

Calibre

- calibre designation is usually marked on the barrel.

Shots

- internal magazine with a hinged floorplate.
- magazine capacity in "standard" chamberings is five, in "magnum" chamberings the capacity is reduced to three.

Remarks

- Receivers were marked "Weatherby" South Gate, California on rear, left side of receiver. Drilled and tapped for scope mount, safety on right rear of action. Available in right hand action only. Deluxe model includes hand bedding, high luster, durable stock finish. The Vanguard VGS is a rifle built on the Vanguard 2-lug action, but with a low-lustre blue and dull, oil-rubbed stock to minimize possible damage to the finish.

Notes

Make

- Weaver Arms Corporation, the manufacturer of the Nighthawk carbine is not to be confused with the Weaver tradename of "W.R. Weaver Company".
- W.R. Weaver company was the original manufacture of the Weaver scope and mounting system.
- W.R. Weaver Company was established by Bill Weaver in Newport, Kentucky, U.S.A. in 1930.
- W.R. Weaver Company moved to El Paso, Texas in 1933.
- William R. Weaver was granted patent number 2803907 on August 27, 1957 for a telescopic sight mount.
- W.R. Weaver ceased operations in 1968.
- Weaver trade names have been used on optical sighting systems manufactured by many companies over the years.
- Redfield, Simmons and Weaver scopes were being manufactured by Meade Instruments in 2008.
- Weaver Optics brand was sold by Meade Instruments to ATK in 2008.
- Redfield brand was sold by Meade Instruments to Leupold & Stevens in 2008.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 1984. - features include: retractable buttstock, black nylon pistol grip and vertical finger grooved pistol grip forend, cocking handle located on the top of the receiver/frame, and hooded blade front sight with adjustable rear sight.
Manufacturer	- Weaver Arms Corporation produced firearms in Escondido, California from 1984 to 1990.
Action	- blowback operated.
Serial Number	- serial number rationalization unknown. NOTE: - 2803907, a patent number was granted to William R. Weaver on August 27, 1957 for a telescopic sight mount.
Shots	- detachable box magazine located in the rear pistol grip.

Notes

Model

- the "WA-15" resembles the Colt produced M-16/AR-15 family of rifles.
- the "WA-15" is available in several different carbine or rifle configurations. All configurations are built on the same platform but feature differences in the barrel, sighting system, hand guard, pistol grip or butt stock configuration.
- features may include: M4, HBAR or compact round barrel with threaded muzzle for flash suppressor/hider, muzzle brake or compensator; gas block assembly with post front sight assembly and bayonet lug; forged A2 upper (integral carrying handle and rear sight) or A4 upper (Picatinny rail) with or without detachable carrying handle; forged lower receiver/frame with regular trigger guard; two stage trigger; black or green furniture; A2, CAR or mid-length, quad rail, tactical rail or free floating tube handguard; standard Hogue rubber pistol grip; A2 fixed synthetic buttstock and 4 or 6 position CAR stock.
- other options available on request.

Manufacturer

- Web Arms Company is located in Pasadena, Texas, U.S.A.

Action

- gas operated.

Shots

- detachable box magazine.

183322 - 1	22 LR/9MM FLOBERT	2	610	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- the make is marked on the firearm.
- the Webers were a family of gunmakers/retailers based in Zurich, Switzerland, from 1847 through the First World War; the father (Casimir Weber) ran the business until 1895, when he was succeeded by his son, also named Casimir Weber.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type that uses a "Warnant"-style action with a hinged breechblock at the rear of the breech. When lifted, that breechblock operates an extractor to remove fired cases.
- features include: fixed open sights; round barrels; checkered walnut straight-grip stock; hinged breechblock with a lifting handle on the right side of the block; exposed, manually-cocked hammer; elaborate trigger guard; synthetic butt plate with game scene; blued finish

Action

- over & under barrel configuration.

Serial Number

- numbered on the receiver/frame.
- an observed example consisted of four numbers.

Make

- "JAMES WEBLEY PATENTEE", or "JAMES WEBLEY ST. MARY'S SQUARE, BIRMINGHAM", or "WEBLEY'S PATENT" is marked on the firearm.
- James Webley was located at 14 St. Mary's Square, Birmingham, England from 1845 to 1863.
- James Webley was the brother of Philip Webley.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- manufactured from 1853 to circa 1899.
- "1853 Longspur" is not marked on the firearm.
- "1853 Longspur" is an open top receiver/frame, percussion revolver with a long flat spur hammer.
- "1853 Longspur" model came in three sizes:
- Holster size, normally five shots and a 178mm (7") barrel,
- Belt size, normally five shots and a 121 - 127mm (4.75 - 5") barrel, and
- Pocket size, six shots and a 89 -102mm (3.5 - 4") barrel.
- there may be a safety lever on the left side of the receiver/frame that when pressed forward the hammer is held safely in either the cocked or uncocked position.
- the First model can be distinguished by the absence of a rammer and a partially enclosed hammer.
- the Second model incorporates an Adams-type rammer secured to the receiver/frame by a spring clip.
- the Third model can be determined by the compound rammer (patented by James Kerr in 1955, No. 1722) that is mounted to the barrel web and lays flat along the left side of the barrel, instead of being hinged is screwed onto the end of the cylinder axis rod and then secured by a horizontal screw entering from the front of the lug into the receiver/frame.

Serial Number

- serial number is marked on the backstrap.
- observed serial numbers:
- first model (1853 to 1855) are 131 to 338.
- second model (1855 to 1857) are 199 to 969.
- third model (1857 to 1899) are 985 to 1602.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- "WILKINSON & SON PALL MALL LONDON" may be marked on the top of the barrel and is the retailer of the imaged firearm.
- "BY HER MAJESTY'S ROYAL LETTERS PATENT" may be marked on the backstrap.

Notes

Make

- "WEBLEY'S PATENT" may be marked on the firearm.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model name does not appear on this firearm.
- the "solid frame rimfire" model series of handgun by Webley was a progression from their solid frame percussion revolvers of circa 1859. Production of this model series started circa early 1860's and was phased out by the mid-late 1860's with the introduction of the solid frame centre-fire revolvers.
- single or double action, usually with a rebounding hammer.
- usually has plain unfluted cylinder, may have small locking notches at front of the cylinder.
- octagonal or round barrel.
- loading gate is located on right rear of standing breech; this loading gate may be fixed into the right side of the receiver/frame and will swing outwards or it may be hinged to the side of the receiver/frame by a slot-head screw and will swing backwards against the action of a horizontal spring which is externally fixed to the receiver/frame beneath the cylinder.
- may not have a spent casing ejector system.
- on those firearms produced with a spent casing ejector system various design types may be encountered; these can vary from a Webley patented lever-type design mounted on the right side of the barrel and receiver/frame and marked "Registered May 3rd" (Webley patent of 1864); a Tranter designed lever-type assembly similar to the Webley design; straight push-rod type design fixed to the right side of the receiver/frame.
- grip frame characterized by a noticeable hump behind the hammer.
- may have a lanyard ring.
- these firearms may be marked "Webley's Patent", however, it was not uncommon for Webley to produce these handguns for the "gun trade" which were unmarked as to Webley origin and bearing only the name of the retailer/distributor.
- usually blued finish, hardwood grips

Action

- single or double action.

Other Markings

- known example marked with retailers name on top strap, eg., "ALEX.r HENRY" over "12 SOUTH St. ANDREW St." over "EDINBURGH".

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "WEBLEY'S PATENT" or "WEBLEY PATENT" is usually marked on the left side of the firearm. - "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm. - the letters "MK" in a triangle above a number were observed marked on the right side of the receiver/frame. - "MK" are the initial of the firearms designer, Michael Kaufmann and the number was used for royalty purposes. - "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD". - "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897. - "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915. - "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906. - "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.
Model	- these revolvers may be seen with a variety of features that changed over time, as the Webley company introduced safety and mechanical improvements. - early revolvers may show Pryse-style lock work, with an additional sear release at the rear of the trigger-guard, but will also have integral trigger-guards that were formed as part of the frame casting; these revolvers will all have "Kaufmann"-style frames, with a detachable side plate on the left side of the revolver. - latching mechanisms also changed, ranging from an early "push-button" style on the left side, through a thumb-operated latch that operated a cross-bolt through the top-strap, to a "half-stirrup" style that was replaced by the classic Webley "stirrup" latch in 1889.
Action	- hinged barrel design, top break action.
Serial Number	- serial number is located on the left side of the back strap under the grip panel, it also appears on the underside of each grip panel and at the rear of the barrel lug below the cylinder axis pin hole. - the number below the "MK" symbol is a "royalty" number, which served to keep track of the number of revolvers produced under Michael Kaufmann's patents, so that Kaufmann could be paid on a "per revolver produced" basis.
Calibre	- the calibre designation may be marked on the firearm.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- the barrel rib may read the name and the address of the retailer. - "WEBLEY'S PATENT" or "WEBLEY PATENTS" may also appear on the firearm.
Remarks	- Michael Kaufmann was associated with the Webley firm from 1878 to 1881. Kaufmann developed two new mechanical changes, including a hinged latch and a new lock mechanism.

- "WEBLEY" over "MARK I" over "PATENTS" is marked on the left side of the receiver.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- originally manufactured from circa 1890 to circa 1897.
- "MARK I 38" is marked on the left side of the barrel block.
- this is a revolver transformed in single shot circa 1950.
- features include: fixed sights; rifled barrel; front hinged receiver/frame; break open lever is located on the left side of the receiver/frame; automatic ejection; exposed spur hammer; double/single action trigger mechanism; rounded trigger guard; saw handle bird's head type grip strap with a lanyard ring; checkered grip plates; blued finish.

Manufacturer

- "WEBLEY & SCOTT LTD" was observed on the left side of the firearm.

Action

- hinged barrel design.

Serial Number

- serial number is usually marked on the bottom of the receiver/frame foreward of the trigger guard.
- serial number may have been removed during the process of modification from revolver to single shot.

Notes

Make

- "WEBLEY" over "MARK I*" over "PATENTS" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "WEBLEY" over "MARK I*" over "PATENTS" is usually marked on the left side of the receiver/frame.
- the "*" was added to the model designation when alterations were done to firearms that were returned to stores for repair.
- these alterations included: installing a hardened steel plate in the standing breech to provide better protection against erosion around the firing pin hole, the removal of a hump from the upper portion of the backstrap to give a smoother curve to the handgrip and the addition of a smaller thumbpiece for operating the barrel latch.
- approximately 40,000 examples of the "MARK I" model were manufactured circa 1890 to circa 1897, it is unknown how many were converted to "MARK I*" configuration.
- features include: fixed sights; rifled barrel; front hinged receiver/frame with a semi-fluted cylinder; break open lever is located on the left side of the receiver/frame; automatic ejection; exposed spur hammer; double/single action trigger mechanism; rounded trigger guard; saw handle bird's head type grip strap with a lanyard ring; checkered grip plates; blued finish.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- hinged barrel design.
Serial Number	- the serial number is usually marked on the underside of the receiver/frame ahead of the trigger guard. - the serial number is usually repeated on the barrel assembly and cylinder.
Other Markings	- these firearms will also display British proofs. - as many of these firearms were purchased by individuals, samples may be found with non-standard markings including; names, unit markings etc.

Notes

Make

- "WEBLEY" over "PATENTS" is usually marked on the right side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the left side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "MARK III" is marked on the left side of the top strap.
- "MARK III Pocket" is also known as the "MARK III New .380 Pocket Revolver", "MARK III 320", "MARK III 380", "MARK III 38" and "MARK III Police & Military".
- other "MARK III" variants share the same model designation markings. The "MARK III Service" (in calibre 455 REV and has a different receiver/frame shape) and "MARK III Target" (in calibre 38 S&W, no front or backstrap on the grip frame) are identifiable by features that are not found on the "MARK III".
- "MARK III" line was manufactured between 1894 and 1945.
- features include: receiver/frame mounted firing pin; cylinder axis pin is part of the cylinder; fluted cylinder (units in calibre .38 are one size, units in calibre .32 have a "step" down at the front); fixed front and rear sight; top break design; double action trigger mechanism; may have a lanyard ring; optional safety lever; grips were a two piece design, small black plastic grip plates were fitted to units marketed as a "Pocket" revolver, medium size wood grips were fitted to those units marketed to police and military buyers.
- the key-identifying feature on this model is the pronounced hump or "prawl" at the back of the receiver/frame above the grips. the other "MARK III" designated models do not have this feature.
- the "MARK III Service" revolver has the cylinder axis pin as part of the barrel assembly. The receiver frame has a "birds head" style grip without the hump or "prawl" above the grip.
- the "MARK III Target" has the conventional hammer replaced by a disc-set striker, the receiver/frame has no front or backstrap and does not have the pronounced hump or "prawl" of the "MARK III" and a one-piece walnut grip is fitted to the receiver/frame tangs by two screws (one at the top and one at the front of the grip).

Serial Number

- serial number is marked on the right side of the receiver/frame.

Calibre

- the calibre designation is usually marked on the left side of the firearm.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- these firearms were often marked with a retailers or distributors name on the barrel or top-strap. As firearms were popular gifts at the beginning of the twentieth century many will also be found with dedications engraved on the barrel or other suitable surface.
- may have the markings of organizations that adopted it, for example: "O.P.P."

Notes

Make

- "WEBLEY & SCOTT LTD" is usually marked on the top strap.
- "WEBLEY" over "PATENTS" is usually marked on the right side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model is not marked on the firearm.
- "MARK III" line was introduced in 1894 by "P. Webley & Son".
- "MARK III" line was manufactured from 1894 to 1945.
- "MARK III" is marked on the left side of the top strap.
- "MARK III Pocket" was also known as the "MARK III Police & Military", "MARK III 320", "MARK III 380", and "MARK III 38".
- "MARK III" variants shared the same model designation markings.
- "MARK III Service" (in calibre 455 REV and has a different receiver/frame shape).
- "MARK III Target" (in calibre 38 S&W, no front or backstrap on the grip frame) is identifiable by features that are not found on the "MARK III".
- features include: fixed front and rear sight; top break, front hinged receiver/frame with a fluted cylinder (units in calibre .38 are one size, units in calibre .32 have a "step" down at the front); cylinder axis pin is part of the cylinder; firing pin is mounted in the standing breech of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; may have a lanyard ring; optional safety lever; grips were a two piece design, small black plastic grip plates were fitted to units marketed as a "Pocket" revolver, medium size wood grips were fitted to those units marketed to police and military buyers.
- the key-identifying feature on this model is the pronounced hump or "prawl" at the back of the receiver/frame above the grips. the other "MARK III" designated models do not have this feature.
- the "MARK III Service" revolver has the cylinder axis pin as part of the barrel assembly. The receiver frame has a "birds head" style grip without the hump or "prawl" above the grip.
- the "MARK III Target" has the conventional hammer replaced by a disc-set striker, the receiver/frame has no front or backstrap and does not have the pronounced hump or "prawl" of the "MARK III" and a one-piece walnut grip is fitted to the receiver/frame tangs by two screws (one at the top and one at the front of the grip).

Manufacturer

- "WEBLEY & SCOTT LTD" is usually marked on the top strap.
- "WEBLEY" over "PATENTS" is usually marked on the right side of the receiver/frame.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- serial number observed with four or five numbers without a letter prefix or suffix.

- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- Manufactured from 1897 to 1899.
- MARK III is marked on the top strap of the receiver/frame.
- "Webley Mark III Service" was "sealed" on 05 October 1897 and approved for both Land and Naval services by the British Government on 27 November 1897.
- Two other "MARK III" variants share the same model designation markings. The "MARK III" (in calibres .38 and .32 and has a different receiver/frame shape) and "MARK III Target" (in calibre 38 S&W, no front or backstrap on the grip frame) are identifiable by features that are not found on the "MARK III".
- The key-identifying features on this model are the calibre and the cylinder axis pin as part of the barrel assembly. The receiver/frame has a "birds head" style grip without the hump or "prawl" above the grip and a wide hammer spur. - "MARK III Target" has the conventional hammer replaced by a disc-set striker, the receiver/frame has no front or backstrap and does not have the pronounced hump or "prawl" of the "MARK III" and a one-piece walnut grip is fitted to the receiver/frame tangs by two screws (one at the top and one at the front of the grip). - "MARK III" had an optional safety lever; grips were a two piece design, small black plastic grip plates were fitted to units marketed as a "Pocket" revolver, medium size wood grips were fitted to those units marketed to police and military buyers. The key-identifying feature of the "MARK III" is the pronounced hump or "prawl" at the back of the receiver/frame above the grips, the other "MARK III" designated models do not have this feature.
- Features include: hammer mounted firing pin; cylinder axis pin is part of the barrel assembly; fluted cylinder; fixed front and rear sight; top break design; double action trigger mechanism; may have a lanyard ring; optional safety lever; grips were a two piece design.

Manufacturer

- "P. WEBLEY & SON" or "P. WEBLEY & SON LONDON & BIRMINGHAM" may be marked on the barrel.
- "WEBLEY" over "PATENTS" is usually marked on the right side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the left side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Serial Number

- serial number is marked on the right side of the receiver/frame and a portion thereof may be marked on other components.
- serial number observed consisted of four numbers without a letter prefix or suffix.
- MARK III Service was produced with its own serial number sequence.
- MARK III Service research indicates that the earliest encountered serial number is 101.
- MARK III Service research indicates that the highest serial number observed was 80,012.

Calibre

- ".455" is marked on the left side of the top strap above the cylinder.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- these firearms were often marked with a retailers or distributors name on the barrel or top-strap. As firearms were popular gifts at the beginning of the twentieth century many will also be found with dedications engraved on the barrel or other suitable surface.

Model

- "MARK IV" is marked on the left side of the top strap.
- "The 100th Year of the Webley Revolver 1882-1982" is marked on the left side of the barrel.
- "The Sun Never Sets On a Webley Mark IV" is marked on the right side of the barrel.
- this is a revolver commemorating the 100th anniversary of the Webley top-break revolver. These revolvers were made under contract for Navy Arms in 1982 with a wooden display box and certificate of authenticity certifying these were the last 250 revolvers manufactured by Webley & Scott.
- features include: fixed sights; front hinged receiver/frame with a semi-fluted cylinder; automatic ejecting; break open action release lever is located on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; saw handle grip frame with a lanyard ring; checkered bakelite grip plates; blued finish.

Manufacturer

- "WEBLEY & SCOTT LTD" over "MADE IN ENGLAND" is marked on the top strap.
- "WEBLEY" is marked on the grip plates.

Serial Number

- serial number is marked on the right side of the receiver frame.
- observed serial number consisted of the letter prefix "B" followed by five digits.

Calibre

- calibre designation is marked on the receiver/frame.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "WEBLEY & SCOTT" or "WEBLEY & SCOTT LTD" is usually marked on the top strap.
- "WEBLEY" may be marked on the grip plates.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "MARK IV Police & Military" is not marked on the firearm.
- "MARK IV" is marked on the left side of the top strap or on the receiver/frame, below the cylinder.
- "MARK IV Police & Military" was manufactured from 1929 to 1968.
- "MARK IV" designation was used on three different revolvers produced by Webley, this often leads to confusion when identifying a particular sample. The physical size and calibre are the key identifying features.
- "MARK IV Service" was introduced in 1899.
- "MARK IV Service" model was issued in large numbers to British troops in South Africa between 1899 and 1902 and was sometimes referred to as the "Boer War Model".
- "MARK IV Service" model was produced in calibre 455 REV, although sub-calibre conversion units were also available for this firearm.
- in 1921, Webley & Scott started developing a smaller, lighter, version of the "MARK IV Service" in .38 calibre.
- British government allocated production of this version of the MARK IV in .38 calibre to be known as the "Pistol, Revolver No.2 MARK I" to the Royal Small Arms Factory at Enfield.
- Webley & Scott decided to offer it commercially as the "MARK IV Police & Military" model.
- "MARK IV Police & Military" model was eventually offered in .22, .32 and .38 calibre versions.
- in 1931, Webley & Scott offered a "MARK IV Police & Military Target" version.
- features include: blade front sight and a fixed or an adjustable rear sight; front hinged receiver/frame with a semi-fluted cylinder and automatic ejecting; action release lever is located on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; flat bottom grip strap with a lanyard loop; checkered grip plates; blued finish.
- "MARK IV Police & Military" model was also available with a cross bolt safety device which is located behind the hammer, this safety locked the hammer in the down position.

Manufacturer

- "WEBLEY & SCOTT" or "WEBLEY & SCOTT LTD" is usually marked on the top strap.

Action

- hinged barrel design.

Serial Number

- the serial number is usually marked on the underside of the receiver/frame ahead of the trigger guard.
- the serial number is usually repeated on the barrel assembly and cylinder.
- the serial number may be used to ascertain the year of manufacture of a particular hand gun.
- if the serial number does not bear a letter prefix and is within the range of 1 to 172219, the item was manufactured prior to 14 May 1947.
- beginning 14 May 1947, the serial number prefix of "A" was added with A100599 being the highest number in this series.
- on 26 March 1957 the "A" prefix was dropped and the "B" prefix added. The highest, and last, "B" serial number was B88165 which was completed 7 September 1979.

Calibre

- calibre is usually marked on the firearm.
- several different calibre conversion units were available for this model, some were permanent modifications while others consisted of removable barrel inserts and cylinders.

FRT Report

Firearm Reference Number (FRN): 93995
Make: Webley
Model: MARK IV**

Summary

Make:	Webley
Model:	MARK IV**
Manufacturer:	Webley
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
93995 - 1	455 REV	6	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WEBLEY" over "MARK IV**" over "PATENTS" is usually marked on the right side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "WEBLEY" over "MARK IV**" over "PATENTS" is usually marked on the left side of the receiver/frame, below the cylinder.
- features include: fixed sights; front hinged receiver/frame with a semi-fluted cylinder and automatic ejecting; break open action release lever is located on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; bird's head type grip strap with a lanyard ring; checkered grip plates; blued finish.

Action

- hinged barrel design.

Serial Number

- serial number is marked on the receiver/frame and on the barrel web at the pivot point it is also marked on the edge of the cylinder.

Other Markings

- this firearm has numerous British proof marks and the Broad Arrow acceptance mark

Notes

Make

- "WEBLEY" is not marked on the firearm.
- this is a Webley patent revolver manufactured at the Royal Small Arms Factory, Enfield.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "MK", a "crown", and "VI" is usually mark on right side of receiver/frame.
- "MARK VI" was officially known as the "Pistol, Revolver, Webley .455" Mark VI" or the "Pistol, Revolver, .455" No. 1 Mark VI".
- features include: fixed sights; irregular hexagonal barrel; front hinged receiver/frame with a semi-fluted cylinder, and automatic ejecting; break open action release lever is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; flat bottom grip strap with or without a lanyard ring; checkered grip plates; blued finish.
- irregular hexagonal barrel has a flat top, two flat angled sides, two flat vertical sides and a rounded bottom.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "ENFIELD" over "MK (crown) VI" over "the year of manufacture" is marked on right side of receiver/frame. - production ceased at Enfield in 1926.
Action	- hinged barrel design.
Serial Number	- serial number rationalization is unknown. - serial number is usually marked on the underside of the receiver/frame. - many examples of this model will bear regimental or service inventory numbers; do not confuse these numbers with the factory assigned serial number.
Calibre	- may be stamped on right side of barrel assembly. - observed designations include ".450/.455," "45 AUTO RIM," "455," and "45 AUTO." - examples converted for use with 45 AUTO cartridges will have had their rear cylinder face milled to accept the use of three-round half-moon clips required by the use of that rimless cartridge.

Notes

Make

- "WEBLEY" over "PATENTS" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either:
- "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "MARK VI" may be marked on the left side of the top strap and/or
- "WEBLEY", "MARK VI", "PATENTS" and year of manufacturer may be marked on the left side of the receiver/frame, below the cylinder.
- "MARK VI" service revolver was manufactured from 1915 to 1939.
- "MARK VI" was officially known as the "Pistol, Revolver, Webley .455" Mark VI" or the "Pistol, Revolver, .455" No. 1 Mark VI".
- features include: fixed sights; irregular hexagonal barrel; front hinged receiver/frame with a semi-fluted cylinder, and automatic ejecting; break open action release lever is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; bird' head or flat bottom grip strap with a lanyard ring; checkered wood grip plates; blued finish.
- irregular hexagonal barrel has a flat top, two flat angled sides, two flat vertical sides and a rounded bottom.
- "MARK VI" was also available with a sub calibre conversion mechanism, bayonet attachment or shoulder stock attachment.

Action

- hinged barrel design.

Serial Number

- serial number is marked on the underside of the receiver/frame in front of the trigger guard and may be repeated on the barrel assembly and cylinder.
- serial number range was from approximately 153,000 to 456,000.

Calibre

- calibre is usually marked on the left side of the barrel: ".450/.455".
- calibre .45 Auto requires half-moon clips to operate properly.

Other Markings

- may be marked on the left side of the frame/receiver, in four lines:
"WEBLEY"
"MARK VI"
"PATENTS"
"date: example 1915"

Remarks

- sub-calibre adaptors were manufactured for Webley revolvers, the Parker Hale adaptor for the MARK VI, allowed the revolver to be able to fire 22 RF ammunition. This was not a permanent conversion.
- a conversion kit consisted of the following items: auxiliary calibre 22 Rifled barrel; cylinder assembly, complete with extractor, chambered for six calibre 22 Rimfire cartridges; muzzle attachment nut; separate sight mount; sight mount screws; sight blade; breech locking collar; and assembly tool.

Notes

Make

- "WEBLEY MARK VI PATENTS 1915" is marked on the left side of the receiver/frame.

Model

- "MARK VI" is marked on the left side of the topstrap, and on the left side of the receiver/frame.
- this airgun resembles the Webley Mark VI 455 break-top revolver, and is designed to fire either BBs or pellets from inserts resembling hollow cartridges that are loaded into the cylinder.
- features include: hexagonal rifled or smoothbore barrel; fixed open sights; front hinged receiver/frame with action release lever mounted on the left side of the top strap to the rear of the semi-fluted cylinder; two position sliding safety on the right side of the receiver/frame above the round trigger guard; exposed spur hammer; single/double action trigger mechanism; checkered synthetic grips; flat bottom grip strap with a lanyard ring; black or bright nickel finish.

Action

- CO2 cartridge powered.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500fps) and/or a muzzle energy exceeding 5.7 Joules.
- hinged barrel revolver design.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- A two-number prefix followed by one letter and five numbers was observed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- ".177 cal." is marked on the right side of the receiver/frame.
- "(4.5mm)" may be marked under ".177 cal."
- "BB" may be marked after "(4.5mm)".
- ".455" is marked on the left side of the barrel near the cylinder; this calibre marking is intended to resemble that of the original firearm.
- BB version has a smoothbore barrel.
- pellet version has a rifled barrel.

Canadian Law Comments

- Does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

- production from approximately 1883 to 1896.
- "WEBLEY'S", a pair of handcuffed hands/two manacled hands and "M.P." may be marked on the left side of the receiver/frame.
- "M.P." is the abbreviation for "Metropolitan Police".
- "MP" may also be known as "Metropolitan Police" or "Webleys M P Model".
- "MP" revolver was based on the RIC No. 1 New Model.
- features include: blade front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a removable fluted or plain cylinder and a right side swing down loading gate; right side swing out ejector rod assembly is mounted on the front of the receiver/frame; exposed spur hammer with a fixed firing pin; double/single action trigger mechanism; saw handle type grip strap with metal butt cap and lanyard ring; checkered wood grip; blued or nickel plated finish.
- NOTE: a police service number and the initials of a police force may also be found on the left side of the receiver/frame, eg. "2146" and "N.S.W. POLICE".

Serial Number

- serial number may be marked on the left or right side of the receiver/frame.
- serial number placement may vary.
- serial number "99708" should not to be confused with the "N.S.W." police service number "2146" found on the left side of this example.

Calibre

- "450" is usually marked on the left side of the receiver/frame.

Notes

Make

- "P. WEBLEY & SON" may be marked on the top strap or barrel.
- "WEBLEY'S" over "No 1" over the calibre is usually marked on the front left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm.

Model

- "WEBLEY'S" over "No 1" over the calibre is marked on the front left side of the receiver/frame.
- Features include: solid top receiver/frame with non-fluted cylinder; hinged loading gate on the right side of the receiver/frame; exposed spur hammer; bird's head grip strap or angular semi saw grip strap with a metal butt cap; checkered wood or smooth ivory grip plates.
- Ejection is accomplished by unscrewing the knob of the short rod carried in the butt.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "P. WEBLEY & SON" over "LONDON & BIRMINGHAM" or "P. WEBLEY & SONS" over "ST JAMES'S LONDON" may be marked on the top strap. - "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm. - "P. WEBLEY & SON" over "LONDON & BIRMINGHAM" markings were used on firearms after 1860. - "P. WEBLEY & SONS" over "ST JAMES'S LONDON" markings were used on firearms after the opening of the Shaftesbury Avenue showroom in 1893.
Serial Number	- serial number is marked on the left front side of the receiver/frame.
Calibre	- The calibre designation is marked on the left side of the receiver/frame. - Calibres observed marked as "320 CF", " 380 CF", and "38 RIM".
Canadian Law Comments	- Some examples of this model, when manufactured prior to 1898 may be considered Antique in Canada.

Notes

Make

- "P. WEBLEY & SON" may be marked on the top strap.
- "WEBLEY'S" is marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm.
- "P. WEBLEY & SON" over "LONDON & BIRMINGHAM" or "P. WEBLEY & SONS" over "ST JAMES'S LONDON" may be marked on the top strap.
- "P. WEBLEY & SON" over "LONDON & BIRMINGHAM" markings was used on firearms after 1860.
- "P. WEBLEY & SONS" over "ST JAMES'S LONDON" markings were used on firearms after the opening of the Shaftesbury Avenue showroom in 1893.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "WEBLEY'S" over "No 1 1/2" is marked on left side of the receiver/frame. - features include: fixed blade front sight and groove in the top strap for a rear sight; octagonal barrel; solid top receiver/frame with removable non fluted cylinder and right side swing down loading gate; exposed spur hammer; double/single action trigger mechanism; bird's head type grip strap with a metal butt cap; checkered grip panels. - ejection is made by unscrewing the knob of the short rod carried in the butt. - additional special characteristics of this model series include: the lock mechanism differed from that of the RIC No. 1 in that there was no intermediate sear; the main spring was a single limb type; a spring lever safety device was located on the left side of the receiver/frame behind the cylinder, this device locked the hammer at half cock in order to facilitate the safe loading of the cylinder. - this firearm was introduced either concurrent with or somewhat after that of the Webley No. 2 revolver, circa early 1880's; there is no indication that this model series was manufactured later than circa early-mid 1890's.
Serial Number	- serial number is marked on the left front side of the receiver/frame. - observed serial numbers consisted of five numbers without a letter prefix or suffix.
Calibre	- calibre is marked on the left front side of the receiver/frame.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- The make is not marked on the firearm.
- British proof marks are present on the firearm.

Model

- The model designation is not marked on the firearm.
The model designation may be marked lightly by pantograph or electric pencil marking.
- "No 1 MARK 5" is available with a shorter barrel having a stud on the left side as the "No 2 MARK 5".
- "No 1 MARK 5" is of stamped-steel construction with a steel barrel having a flange/"blunderbuss" belled muzzle.
- Features include: trapezoid shaped trigger guard; inverted "U" shaped barrel latch; rounded bottom and back pistol grip; pistol grip can be plastic, aluminium or wood; loop lanyard at the bottom of the grip; usually painted black.

Serial Number

- Serial number is marked on the left side on the chamber area of the barrel.
- Serial number of a referenced example consisted of six numbers.

Calibre

- The calibre designation is usually marked on the barrel.

Notes

Make

- "P. WEBLEY & SON" may be marked on the top strap or barrel.
- "WEBLEY'S" over "NO 2" was observed marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "WEBLEY'S" over "No 2" over "calibre" was observed marked on the left side of the receiver/frame.
- features include: fixed half-moon blade front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a non-fluted or fluted cylinder, and right side loading gate; swing-out case ejector rod stored within the cylinder axis rod; exposed spur hammer; double/single action trigger mechanism; birds-head style grip strap with a lanyard loop or flat bottom grip strap; checkered wood grip plates; blued finish.
- NOTE: barrel is ovate and may have an unusual taper with the diameter at the muzzle end being greater in diameter than where the barrel meets the receiver/frame.

Serial Number

- serial number is usually marked on the left side of the receiver/frame.

Calibre

- calibre designation is usually marked on the left side of the receiver/frame.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Summary

Make:	Webley
Model:	No 2 Rim Fire
Manufacturer:	Webley
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
141065 - 1	230 REV RF	7	44	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "P. WEBLEY & SON" over "ST. JAMES'S LONDON" was observed marked on the top strap of the receiver/frame.
- "WEBLEY'S" is marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "WEBLEY'S" over "No 2" over "230 RIM" was observed marked on the left side of the receiver/frame.
- features include: fixed front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a non-fluted cylinder; hinged loading gate on the right side of the receiver/frame; exposed spur hammer; ring trigger; double/single action trigger mechanism; bird's head grip strap; ejector rod is stored in the bottom of the grip strap; checkered wood grip plates; nickel plated finish.

Manufacturer

- "WEBLEY'S" is marked on the left side of the receiver/frame.

Serial Number

- serial number is marked on the left front side of the receiver/frame.

Calibre

- "230 RIM" was observed marked on the left side of the receiver/frame.

Notes

Make

- "P. WEBLEY & SON" over "LONDON & BIRMINGHAM" or "P. WEBLEY & SON" over "BIRMINGHAM" is usually marked on the barrel.
- "WEBLEY'S'" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the firearm.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "WEBLEY'S" over "No 2" over the calibre designation is usually marked on the left side of the receiver/frame.
- "THE BRITISH BULL DOG" is usually marked on the top strap.
- manufactured circa 1879 to 1914.
- features include: single/double action trigger mechanism; right side loading gate, swing-out case ejector rod stored within the cylinder axis rod and a birds-head style handgrip.
- barrel is ovate and may have an unusual taper with the diameter at the muzzle end being greater in diameter than where the barrel meets the receiver/frame.

Serial Number

- serial number is usually marked on the left side of the receiver/frame.
- the serial numbers for this model had reached approximately 60000 in the early 1880s.
- by 1906 serial numbers had reached 87800.

Calibre

- calibre is usually marked on the left side of the receiver/frame.
- a model chambered for a rimfire cartridge may be marked "RIM" on the receiver/frame. This may be marked on the left side of the receiver/frame in front of the cylinder or under the grip panels.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "P. WEBLEY & SON" is usually marked on the top strap.
- "Webley's" may be marked on the side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "Webley's" and "No. 5" may be marked on the side of the receiver/frame. - in 1881, the Army & Navy Co-operative Stores Limited advertised this model as Webley's New Model Solid Frame Express Revolver in calibre 455. - in 1886, the Army & Navy Co-operative Stores Limited advertised this model as Webley's New Express Revolver No. 5 .360. - this model was also be known as the "New Model Army Express No. 5", "New Model Solid Frame Express Revolver", "New Express Revolver No. 5 .360" or "No. 5 .360 Express Revolver. - production of this model ceased circa 1914/1915. - this revolver was made in four variations, three were large calibre service types and one as a smaller calibre pocket model. - features include: ejector rod mounted on the right side of the barrel and receiver/frame or centre swing-type; solid top receiver/frame with round or steeple shaped cylinder flutes and right side loading gate; exposed spur or spurless hammer; single/double action trigger mechanism or single action only trigger mechanism; lanyard loop mounted on the butt; some variant were capable of having a buttstock attached to the grip. - steeple shape cylinder flutes were discontinued at serial numer 66000, and around 1899-1900. This can be used to help determine a date of manufacture as pre-1898
Manufacturer	- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
Serial Number	- serial number is usually marked on the left side of the receiver/frame. - the last three digits of the serial number may be marked on the cylinder and barrel. - S/N 66000 is mentioned in references as occuring around the turn of the last century, 1899-1900, and can be used to establish an aproximate date of manufacture.
Calibre	- calibre designation is usually marked on the side of the receiver/frame or on the barrel and/or cylinder.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- one known example had no visible Webley identification marks, however, it was marked with the Distributor's name on the top strap as, "Holland & Holland" over "98 New Bond St. London".

Notes

Make

- "P. WEBLEY & SON" may be marked on the top strap.
- "WEBLEY'S" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "WEBLEY'S" over "R.I.C." over "MODEL / 83" over "5 SHOTS" is usually stamped on the left side of the receiver/frame in front of the cylinder.
- introduced by Webley in 1883 and was still being offered for sale by Webley & Scott in 1939.
- total production of approximately 102,634 units.
- features include: round barrel; fixed sights; solid top receiver/frame with fixed fluted cylinder; right side loading gate; swing-out case ejector rod stored within the cylinder axis rod; exposed spurred hammer; single/double action trigger mechanism; lanyard ring at bottom of grip.
- the "R.I.C. Model 83" was originally sold by the Army & Navy Co-operative Stores in 1884 in calibres .320, .380, and .450 and in five shots only. In 1893, Army & Navy was selling this same model in calibre .455.
- in 1911, the Director General of India Stores placed an large order for this model in calibre .455, these revolvers were marked with the Broad Arrow above the letter "I".

Serial Number

- serial number is marked on left side of receiver/frame below the cylinder, and possibly on the cylinder as well.
- by 1914 serial numbers had reached 96600 and continued on to approximately 103,000 when production ended in the 1930s.

Calibre

- the calibre designation is usually marked on the left side of the receiver/frame and may be repeated on the rear face of the cylinder, eg. "455".

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- may be marked with British War Office inspection marks and a Broad Arrow above an "I" The "I" is for India.
- may also be marked with a retailers name, eg. "W.R.Pape" over "Newcastle upon Tyne". "William Rochester Pape" was in business at 44 Westgate Street, Newcastle upon Tyne in 1857. In 1863, Pape moved to the North of England Gun Works at 86 Westgate Street. Pape moved to 21 Collingwood Street and ceased business after the First World War. W.R. Pape died in 1923

- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- production began in 1867, with orders filled as late as 1913.
- "R.I.C." and "No 1" are usually marked on the left side of the receiver/frame.
- "RIC" denotes Royal Irish Constabulary.
- "RIC No 1" is a solid top receiver/frame revolver.
- "RIC No 1" is loaded and unloaded through a spring loaded gate on the right side of the receiver/frame.
- the ejector rod pivoted on the barrel on early models and on the frame of later models.
- some models will have a fluted cylinder, on early models this was only on the large calibres, on later models, sometimes known as the RIC No1 New Model (may be so marked) the cylinder was fluted for most calibres.
- usually marked " R.I.C. No 1" or (RIC No1 New Model) on the left side of the receiver/frame.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- these revolvers may have additional markings that are rack or regimental numbers or letters that are the abbreviations of force or department names. These should not be confused with the serial number.

Calibre

- the calibre may be marked on the receiver/frame.
- calibre may be marked in English or the Metric designation.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Other Markings

- these revolvers may have additional markings that are rack or regimental numbers or letters that are the abbreviations of force or department names. These should not be confused with the serial number.
- eg. TPF, Toronto Police Force.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks - these revolvers were used by numerous law enforcement and government agencies around the world.

Notes

Make

- "P. Webley & Son" over "Birmingham" or "P. Webley & Son" over "London & Birmingham" is usually marked on the top strap of the receiver/frame.
- "Webley's", or "Webley's Patent" is usually marked on the side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "WEBLEY'S" over "R.I.C" over "No 1" and "calibre designation" over "NEW MODEL" is marked on the front left side of the receiver/frame. - introduced circa 1880's. - date of termination of production is undetermined, however, based on the popularity RIC model line, it is likely that production lasted into the early 1900's. - features include: blade front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a fluted cylinder and right side swing down loading gate; ejector rod is of the "acorn" style fixed to the right front side of the receiver/frame with the ejector rod housed within the cylinder axis pin, and the ejector rod swings to the right to align with the cylinder chambers; exposed spurred hammer; single/double action trigger mechanism; checkered hardwood grip; lanyard ring; blue or nickel plated finish.
Manufacturer	- "WEBLEY" and/or "WEBLEY'S" and/or the "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
Serial Number	- serial number is usually marked on the front left side of the receiver/frame and may be repeated on the cylinder. - serial numbers are numeric only without prefix or suffix. - note: by October 1884, serial numbers in this model series had exceeded 60,300.
Calibre	- calibre is usually marked on the front left side of the receiver/frame.
Other Markings	- the name's of various British firearm manufacturers/retailers may also be marked on the barrel or the top strap of this model; e.g., "Cogswell & Harrison, 276 Strand & 142 New Bond St. London".

Notes

Make	- "WEBLEY'S" is usually marked on the side of the receiver/frame. - "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame. - "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD". - "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897. - "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915. - "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906. - "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.
Model	- "WEBLEY'S" over "R.I.C." over "No. 2" followed by the calibre designation is usually marked on the front left side of the receiver/frame in front of the cylinder. - "RIC" is the acronym for Royal Irish Constabulary. - "Royal Irish Constabulary" police force adopted the "RIC No 1" revolver in 1868. - "RIC No 2" model was manufactured from the 1880's to circa 1914. - features include: blade front sight and a groove top strap for a rear sight; solid top receiver/frame with a removable fluted or non-fluted cylinder and a right side swing down loading gate; right side swing out ejector rod is housed on the front of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; one or two piece grips; metal butt cap with lanyard ring loop; blued or nickel plated finish.
Manufacturer	- RIC No 2 model was produced from the 1880's to the early 1900's.
Serial Number	- serial number is usually marked on the receiver/frame, it may also be repeated on other components. - research indicates that the highest known serial number for this model was 100139; this piece was included in a shipment of arms from Webley to a distributor dated October, 1914.
Calibre	- calibre identification is marked on the left front side of the receiver/frame.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.
Other Markings	- many of these firearms will be marked with a retail sales outlet or a distributor's name on the top of the barrel; "J.BRADDELL & SON" is but one example of the markings that may be encountered.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "P. WEBLEY & SON" may be marked on the top strap.
- "WEBLEY'S" is usually marked on the side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- "Webley's R.I.C. No 3 and the calibre" is marked on the front right side of the receiver/frame.
- early models can be identified by the pronounced hump on the pistol grip, unfluted external ratchet cylinder and the friction brake which leaves a rub mark around the center of the cylinder. The cylinder has a solid axis rod held in the frame by a spring catch on the left side of the frame. There is no ejector rod. In later versions of this model, the pistol grip hump is less pronounced and the cylinder ratchet is internal and the locking grooves can be at the front or the rear of the cylinder. An ejector rod is screwed into the pistol grip.
- this firearm is very similar in appearance to the Webley RIC No 1 revolver, the major difference is the spring latch on the front left side of the receiver/frame which holds the cylinder axis pin in place.
- produced circa 1880's; date of termination of production is undetermined, however, based on the popularity RIC model line, it is likely that production lasted into the early 1900's.

Serial Number

- the serial number is usually marked on the firearm.
- serial number will be marked on either the left or right side of the receiver/frame.
- serial numbers are number sequential only without prefix or suffix.

Other Markings

- "E. M. REILLY & CO. 315 OXFORD STREET LONDON" may be marked on the top strap. This is a retailer for this firearm. - Some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "WEBLEY" over "PATENTS" is usually marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Model

- manufactured from 1886 until circa 1906.
- "WG", "WG Model", "WG Model" with date of manufacture, eg., "WG Model 1892" or a variation thereof is usually marked on left side of top strap.
- WG model series is a design-improved version of the former Webley Improved Government revolver of circa 1881-1885.
- "WG" has been associated with the name Webley-Green, however, research has indicated that "WG" is understood to be the acronym for "Webley Government".
- "WG" model is a double action, top break revolver with simultaneous ejection.
- features include:
- large rounded barrel-to-frame hinge at front of receiver/frame designed for greater rigidity and strength.
- large thumb-actuated barrel release lever on left side of receiver/frame; this latch may also be referred to as the Webley "stirrup" or "bridle" latch.
- may have bird's head type grip or square butt configuration, with or without lanyard ring on bottom butt strap.
- trigger guard is forged integrally with the receiver/frame.
- grip frame is noticeably humped behind the hammer.
- left side of receiver/frame has a removable "access" plate held in place by two slot-head screws.
- may have distinctively shaped "church steeple" type cylinder fluting with later models having the more traditional round shaped fluting; research has indicated that the use of the "church steeple" type of fluting ceased circa 1893.
- research indicates that the practice of putting the date of manufacture on the firearm ceased circa 1893.
- available in blued or nickel plated finish.
- sub-calibre conversion units were available for this firearm.

Action

- hinged barrel design.

Serial Number

- serial number usually marked on right side of receiver/frame.
- known examples have had four and five digit numbers without prefix or suffix.

Calibre

- calibre usually marked on left side of barrel lug or left side of top strap.
- typical examples of calibre markings include; .450, .455, .450/.455, .455/.476, .476.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- distributors name may be marked on top rib of barrel; some of the known distributors are:
- Army & Navy C.S.L.
- George Gibbs, Corn Street, Bristol.
- Manton & Co. London and Calcutta.
- McLoughlin & Sons, Cheltenham.
- E.M. Reilly & Co. 16 New Oxford Street, London.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "WEBLEY" over "PATENTS" is usually marked on the left side of the receiver/frame. - "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame. - "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD". - "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897. - "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915. - "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906. - "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.
Model	- "WG ARMY MODEL" is marked on the left side of the top strap over the cylinder. - manufactured from 1886 until circa 1906. - "WG" model series is a design-improved version of the former Webley Improved Government revolver of circa 1881 to 1885. - "WG" is often associated with the name Webley-Green, however, research has indicated that the letters "WG" is understood to be the acronym for "Webley Government". - double action, top breaking with simultaneous ejection. - typical characteristics; - large rounded barrel-to-frame hinge at front of receiver/frame designed for greater rigidity and strength. - large thumb-actuated barrel release lever on left side of receiver/frame; this latch may also be referred to as the Webley "stirrup" or "bridle" latch. - may have bird's head type grip or square butt configuration, with or without lanyard ring on bottom butt strap. - trigger guard is forged integrally with the receiver/frame. - grip frame is noticeably humped behind the hammer. - left side of receiver/frame has a removable "access" plate held in place by two slot-head screws. - may have distinctively shaped "church steeple" type cylinder fluting with later models having the more traditional round shaped fluting; research has indicated that the use of the "church steeple" type of fluting ceased circa 1893. - research indicates that the practice of putting the date of manufacture on the firearm ceased circa 1893. - available in blued or nickel plated finish. - sub-calibre conversion units were available for this firearm.
Manufacturer	- Webley firearms sold by distributors or other firearms makers may have the name of the firm marked on the top of the barrel instead of the Webley name, e.g., "Army & Navy C.S.L.".
Action	- hinged barrel design.
Serial Number	- serial number is usually marked on the right side of the receiver/frame although its placement may vary in some cases. - serial numbers are numeric only without prefix or suffix. - serial number 16216 was sold by J.F. King of Durban, South Africa who was in operation circa 1873 to 1898.
Calibre	- "450", "455", "455/476", or "476" may be marked on the left side of the barrel lug.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Make

- "WEBLEY" over "PATENTS" is marked on the left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" is usually marked on the side of the receiver/frame.
- "WEBLEY" is used as a make on revolvers manufactured primarily by either "P. WEBLEY & SON" or "WEBLEY & SCOTT / WEBLEY & SCOTT LTD".
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" merge to form "Webley & Scott Revolver and Arms Company, Limited" on the 21st of October, 1897.
- "P. Webley & Son", "Richard Ellis & Sons", and "W & C Scott & Son" businesses continued to operate separately until approximately 1915.
- "Webley & Scott Revolver and Arms Company, Limited" name was changed to "WEBLEY & SCOTT LTD" in 1906.
- "P. WEBLEY & SON LONDON & BIRMINGHAM" trademark was dropped from use by "WEBLEY & SCOTT LTD" in 1920.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "W.S. TARGET MODEL" is marked on the left side of the top strap of the receiver/frame. - manufactured from 1902 to 1935. - "WS Target" model is mechanically identical to the Webley Mark IV except the grip frame is redesigned to provide a more comfortable grip. - features include: fixed front sight and a laterlly adjustable or fixed rear sight; irregular hexogonal barrel; front hinged receiver/frame with a semi-fluted cylinder, and automatic ejecting; break open action release lever is mounted on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; flat bottom grip strap with a lanyard ring; checkered wood grip plates; blued finish. - irregular hexogonal barrel has a flat top, two flat angled sides, two flat vertical sides and a rounded bottom.
Action	- hinged barrel design.
Serial Number	- serial number is marked right side of the receiver/frame just above the trigger.
Calibre	- calibre may not be marked on the firearm.

35905 - 4	7.65MM	8	113	Prohibited CC 84(1) "prohibited firearm" para. (a)(ii)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- left side of the slide will be marked, "Webley & Scott Ltd.", over "London & Birmingham", over "7.65m/m & .32 Automatic Pistol".
- the Webley & Scott "Winged Bullet" trademark is also apparent on the rear left side of the slide immediately in front of the grasping grooves.

Model

- no model name is marked on this firearm; the model description is determined by the physical characteristics exhibited by the Humane Killer (HK) conversion performed on the Webley & Scott model 1908 semi-automatic pistol.
- manufactured from circa 1920 to 1939.
- this pistol is a rework/conversion of a Webley & Scott model 1908 pistol by the addition of a modified barrel and magazine; a special longer barrel was installed, this barrel was fitted with an angled muzzle flange with a serrated face, the barrel also had two port holes behind the flange to allow for the escape of gases; the magazine was modified with a wooden block to allow for the insertion of one cartridge only.
- later versions of the Humane Killer may have been further modified to incorporate a safety feature whereby the recoiling of the slide would automatically reset the safety to the "Safe" position; this feature was installed to prevent the accidental discharge of a second cartridge which could be loaded into the pistol by the user for the purpose of securing a two shot capability; this was done by loading the pistol with one round then removing the magazine and recharging it with another cartridge to give an increased capacity of two rounds.
- all other features of this handgun are identical to the Webley & Scott, Model 1908 semi-automatic pistol.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- left side of the slide will be marked, "Webley & Scott Ltd.", over "London & Birmingham", over "7.65m/m & .32 Automatic Pistol". - the Webley & Scott "Winged Bullet" trademark is also apparent on the rear left side of the slide immediately in front of the grasping grooves.
Action	- recoil operated.
Serial Number	- the serial numbering for Webley & Scott 32 Auto/7.65 MM Humane Killer pistols falls within the serial numbering range of the Webley & Scott model 1908. - the serial number is usually marked on the rear left side of the receiver/frame and will consist of six numbers without prefix or suffix.
Shots	- detachable box magazine with a wooden plug installed to prevent more than one cartridge being loaded into the magazine. - the standard box magazine for this firearm holds eight cartridges.

Notes

Model

- was manufactured from 1909 to 1932.
- may also be known as "Dublin Metropolitan Police", "S A P" which stands for "South Australian Police" or "Military".
- some pistols may be encountered with retailer names.
- this Model can be further divided into an early pattern which featured a grip safety and a later pattern (circa 1912) which did not have this type of safety.

Serial Number

- for calibre 380 AUTO; range from 55047 to 156175 (5 pistols are numbered between 8380 and 50686).
- for calibre 38; range from 40000 to approximately 66664 and numbered in the same block as the calibre 380 AUTO.
- fewer than 1000 pistols were produced.
- the serial number should be located on the left side of the frame above the grip.

Notes

Make

- "WEBLEY & SCOTT" and the trademark logo of a winged bullet with the letters "W&S" is marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- manufactured from 1911 to 1940. - adopted by the London Metropolitan Police in 1911. - may also be known as "MP", "1911" or "Metropolitan Police". - the "MP" model normally displays a Crown over the letters MP on the left side. - often found with a retailers name engraved on the slide, e.g. "Army & Navy CSL, London"
Manufacturer	- "WEBLEY & SCOTT LTD" over "LONDON & BIRMINGHAN" is marked on the left side of the slide.
Action	- blowback operated.
Serial Number	- may range from 60126 to approximately 163382. - the serial number is often accompanied by a British "Broad Arrow" mark.
Calibre	- calibre is marked on the left side of the slide.
Shots	- detachable box magazine.
Other Markings	- Webley's "Flying Bullet Trade Mark with W&S marked under it" is marked on the left side of the slide.

Notes

Make

- "WEBLEY & SCOTT LTD" is marked on the left side of the slide.

Model

- approximately 1500 were manufactured from 1911 to 1932.
- 1911 Semi-Automatic resembles a traditional semi-automatic pistol, but is not a true semi-automatic handgun.
- 1911 Semi-Automatic has no recoil spring or magazine.
- 1911 Semi-Automatic, when fired is momentarily held in the closed position by the inertia of the slide, hammer and hammer spring. The slide travels to the rear and ejects the cartridge case.
- 1911 Semi-Automatic slide has to be manually cycled closed after each shot.
- some pistols will be marked with the "Metropolitan Police" mark of a crown over the letters MP. This, however, does not make these pistols an MP Model.

Manufacturer

- "WEBLEY & SCOTT LTD" over "LONDON & BIRMINGHAM" is marked on the left side of the slide.

Serial Number

- serial number is located on the rear left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre is marked on the right side of the slide.

Notes

Make

- "WEBLEY & SCOTT" is marked on the breech assembly.
- "Made in Turkey" may be marked on the firearm.

Model

- introduced in 2012.
- "WEBLEY BLACKHAWK QUATTRO" is marked on the right side of the firearm.
- this is a spring-piston operated; single stoke, barrel cocking air rifle.
- features include: Tru-Glo fiber optic open sight system and micro-click adjustable rear sight; round, steel rifled barrel; front hinged receiver/frame is grooved for scope mounts; POWR-LOK mainspring; tuned vibration absorber; automatic resettable safety catch; fully adjustable two stage Quattro trigger; All Weather Polystock, ambidextrous thumbhole pistol grip stock with a non-slip forend and grip; rubber butt plate/recoil pad; black/blue metal finish.
- "WEBLEY BLACKHAWK QUATTRO" may feature a QGSII Sound Moderator / silencer.
- Options: available with Nikko Stirling scope, plus bases and rings
- overall length with a 290 mm (11.4") barrel is 1020 mm (40.3"), and the average weight is 3.0 kgs (6.6 lbs).

Action

- spring-piston powered, hinged barrel design.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization is unknown.
- serial number observed consisted of four numbers, separated by a space, and five numbers, without a letter prefix or suffix.

Canadian Law Comments

- if the firearm leaves the factory equipped with a sound moderator/suppressor/silencer, the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound moderator/suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

43386 - 4	22 PELLET	1	203	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Non-Commercial Customization	

Notes

Make

- marked "WEBLEY & SCOTT LTD / BIRMINGHAM ENGLAND" on the bottom of the compression chamber cap at the front of the receiver/frame.

Model

- "HURRICANE" or WEBLEY HURRICANE" is marked on both sides of the compression chamber nosecap.
- features include: single stroke pneumatic air pistol that is cocked by pulling the rear of the barrel up and over the muzzle; black synthetic grip panels, matte black finish on the remainder of the pistol, hooded front sight, single stage trigger, thumb operated safety and barrel latch on the left side of the pistol.
- this is the same pistol as the "Tempest", only with an extended frame to mount a click-adjustable rear sight or telescope.

Manufacturer

- manufacturer's designation is marked on the firearm.

Action

- single stroke pneumatic air pistol.
- in calibre 177 PELLET: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- early production examples will not be serial numbered, but if a serial number is present, it will usually be marked on the left hand side of the compression chamber above the trigger.
Barrel	- the forward portion of the barrel is contained in a sleeve attached to the cocking arm; where the actual length of the barrel is 174mm, the length of the sleeve and barrel combined is normally around 203 or 204mm.
Importer	- newer versions of this model will have "Beeman Precision Arms Inc." marked on the compression chamber nosecap.
Other Markings	- the left hand side on the air reservoir is marked: "Beeman PRECISION ARMS INC." "SANTA ROSA CALIF.95403"

Firearm Reference Number (FRN): 128203
Make: Webley & Scott
Model: Jaguar

Summary

Make:	Webley & Scott
Model:	Jaguar
Manufacturer:	Hatsan Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128203 - 1	177 PELLET	1	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
128203 - 2	22 PELLET	1	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WEBLEY & SCOTT" and "MADE IN TURKEY" are marked on the left side of the firearm.

Model

- "Webley Jaguar" is marked on the left side of the receiver/frame.
- introduced 2008.
- NOTE: an earlier air rifle made by Webley & Scott was also known as the Jaguar and was introduced circa 1940's and ceased production circa late 1970's.
- this is a single shot, break-barrel cocking, air rifle.
- features include: rifled steel barrel with adjustable fibre-optic sights; adjustable trigger; anti bear-trap cocking safety; olive drab synthetic stock with recoil pad; blued finish.
- overall length of 1118 mm (44") and average weight of 3.3 kgs (7.3 lbs).

Manufacturer

- "MADE IN TURKEY" is marked on the left side of the firearm.

Action

- spring piston, break-barrel cocking.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- known examples had a nine digit number without prefix or suffix marked on the left side of the breech area.

Calibre

- calibre designation is marked on the left side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - known examples were marked, " Made in Turkey".

Notes

Make

- "WEBLEY & SCOTT" and/or "W & S" is marked on the firearm.

Model

- the Model KA is a "basic" side by side hammerless double. "KB" and "KC" variations were also produced, with each being slightly more well finished.
- features include: side by side barrel configuration with concave rib; hinged receiver/frame with top tang mounted break open lever; boxlock; hammerless; automatic tang mounted safety; single or double triggers; checkered wood; straight or pistol grip buttstock; beavertail or splinter forend and very little engraving.

Action

- side by side barrel configuration.

Barrel

- barrel length was left up to the customer's choice, but most likely would have been between 660mm and 762mm.

Notes

Make

- "WEBLEY & SCOTT" and/or "W & S" is marked on the firearm.

Model

- the most highly finished version of the "KA" shotgun, with an additional cross-bolt to lock the breech.
- features include: side by side barrel configuration; hinged receiver/frame with top tang mounted break open lever; doll's head extension; sidelock; hammerless; automatic tang mounted safety; single or double triggers; checkered wood; straight or pistol grip buttstock; beavertail or splinter forend; engraved.

Action

- side by side barrel configuration.

Barrel

- barrel length left to customer's choice, but most likely between 660mm and 762mm.

Notes

Make

- "WEBLEY & SCOTT LTD" was observed marked on the left side of the barrel assembly, on one sample.

Model

- introduced in 2003.
- "LONGBOW" was observed marked on the left side of the receiver/frame.
- features include: round barrel with threaded muzzle end; no sights; rifled bore; grooved receiver/frame; one piece semi-pistol grip Monte Carlo stock with cheekpiece.
- available in a deluxe version featuring a walnut stock instead of a beech stock.
- overall length with a 330mm (13") barrel is 991mm (39"), average weight is 3.3kg (7.3lbs).

Manufacturer

- "WEBLEY & SCOTT LTD" was observed marked on the left side of the barrel assembly, on one sample.

Action

- spring-piston powered.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Calibre

- calibre designation may be marked on the firearm.

Canadian Law Comments

- if the firearm leaves the factory equipped with a sound moderator/suppressor/silencer then the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound moderator/suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

27881 - 3	6.5X54 MANNLICHER-SCHOENAUER	5	525	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- make may not be marked on the firearm.
Model	- this is a rifle built by Webley and Scott on an imported Mannlicher action.
Manufacturer	- Webley & Scott is an English gun-making company that began in the 1830s when two brothers, James and Philip, began manufacturing percussion revolvers. The company later expanded into manufacturing shotguns, and changed its name to "P. Webley & Son", as the son of one of the original owners had joined the business. In 1897, the company joined another company, W & C Scott and Son, to become "Webley and Scott Revolver and Arms Co., Ltd.", and finally changed its name in 1906 to "Webley and Scott Limited". The company ceased operations in 1979, but built rifles, shotguns, pistols, and revolvers while it was still in business.
Action	- turn bolt operated.

26730 - 1	455 REV	7	127	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Webley & Scott" and the trademark logo of a winged bullet with the letters "W&S" are marked on the left side of the slide.

Model

- manufactured from 1909 to 1933.
- "PISTOL SELF-LOADING .455 MARK I N" is marked on the left side of the slide
- the slide of this firearm has a "blocky" or "squarish" appearance with grasping grooves on both sides towards the rear, a plain notch rear-sight dovetail mounted.
- plain round barrel with an integrally machined plain blade foresight.
- features include: wood handgrip panels, rear-mounted grip safety, slide release button on the right side, magazine release button on the bottom rear, lanyard loop attached to the right bottom rear of the frame, and an exposed hammer mounted on the rear of the frame behind the slide.
- the magazine may be retained in the frame in two positions: fully inserted, when it functions as a self-loader; and partly inserted, when it does not feed ammunition into the chamber.
- the slide may exhibit a manufacture date, usually on the left side.
- may also be known as "MARK 1 N" or "Navy & Military".

Manufacturer

- "WEBLEY & SCOTT LTD." is marked on the left side of the slide.

Action

- retarded blowback, recoil operation.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number may be located under the front foreframe. - the Commercial sales of this Model were numbered from 40001 to 158919. Most examples are numbered from 92400 with fewer than 30 pistols noted between 40001 and 92400. - the Military sales of this Model were numbered at 1 and approximately to 8050.
Shots	- detachable box magazine.
Other Markings	- British proof-marks and acceptance marks readily visible on most major components of this firearm. - often found on the left side of the forward slide: W & S logo pointing forward, portraying a winged bullet, with W & S beneath.

Notes

Make

- " Webley & Scott Ltd" is marked on the left side of the slide.

Model

- "Pistol Self-Loading 455 Mark I No 2" is marked of the left side of the slide.
- date of manufacture may also be marked on the left side of the slide underneath the model designation.
- this pistol was officially approved on 26 April 1915 under the nomenclature "Pistol, Self-Loading Webley & Scott .455 inch No. 2 Mark I - Stock, Butt, Detachable".
- produced circa 1915 to 1916.
- recoil operated, semi-automatic, detachable box magazine.
- features usually include;
- exposed hammer mounted centrally at the rear of the receiver/frame with the patented "hammer safety lever" mounted on the left side of the hammer which enables the pistol to be carried with the hammer in the full cock position,
- grip safety,
- slide release button located on the left side of the receiver/frame above the left grip plate,
- plain round barrel with an integrally machined fixed blade foresight,
- adjustable rear sight,
- lower left side of the grip frame slotted for attachment of a detachable wooden buttstock,
- magazine release button located on the bottom rear of the magazine housing,
- lanyard ring fixed to the bottom of the rear grip strap,
- checkered hard rubber or walnut grips.
- the magazine of this pistol has a special two-position feature which allows the magazine to be retained in the grip frame in two positions, i.e., fully inserted where it allows normal semi-automatic functioning, or partially inserted whereby the contents of the magazine are 'held in reserve' and are not fed into the chamber thus necessitating the hand-loading of a fresh cartridge into the breech in a single-shot manner.

Manufacturer

- Webley & Scott Ltd" is marked on the left side of the slide.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- recoil operated.
Serial Number	- serial numbers usually consisted of five digit numbers without prefix or suffix. - serial numbers will be located on the receiver/frame.
Shots	- detachable box magazine.
Remarks	- this pistol was issued to the Royal Flying Corps and to the Royal Horse Artillery (RHA).

Notes

Make

- "Webley & Scott Ltd." is usually marked on the right side of the receiver/frame.
- the name "Webley" is usually embossed at the top of both grip plates.

Model

- "THE WEBLEY PREMIER" is marked on the left side of the receiver/frame.
- produced from 1964 to circa 1975 as the evolution of the Senior model.
- this is a single stroke pneumatic air pistol with the barrel hinged at the front of the receiver/frame; cocking is achieved by pulling the rear of the barrel up and over the muzzle.
- six variations produced with each series marked with a capital letter (A to F) marked near the trigger guard on the front of the grip strap.
- features include: blued finish; forged steel construction with brown bakelite grip plates; adjustable trigger and rear sight; thumb operated barrel latch located at the rear left side of the receiver/frame.
- accessory barrel assemblies available in either 177 PELLET or 22 PELLET.

Manufacturer

- "Webley & Scott Ltd." is usually marked on the right side of the receiver/frame.
- the name "Webley" is usually embossed at the top of both grip plates.

Action

- single stroke pneumatic design.
- does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number of an observed example was marked on the face of the compression cylinder at the muzzle and consisted of three numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "177" or "22" is marked on the left side of the barrel hinge assembly at the muzzle.
Other Markings	- markings usually found on the receiver/frame are "Webley & Scott Ltd." and "Made in England".

Notes

Make	- "Webley & Scott Ltd." is usually marked on the right side of the receiver/frame. - the name "Webley" is usually embossed at the top of both grip plates.
Model	- "PREMIER MK. II" is usually marked on the right side of the receiver/frame by means of a plastic 'stick-on' type of label. - produced circa 1964 to circa 1977. - this is a single stroke pneumatic air pistol with the barrel hinged at the front of the receiver/frame; cocking is achieved by pulling the rear of the barrel up and over the muzzle. - features include; black synthetic grip plates; adjustable trigger; thumb operated safety/barrel latch located at the rear left side of the pistol; matte black finish.
Manufacturer	- "Webley & Scott Ltd." is usually marked on the right side of the receiver/frame. - the name "Webley" is usually embossed at the top of both grip plates.
Action	- single stroke pneumatic design. - does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- not usually serial numbered, however the pistol may be marked with a 'batch' number which may be marked underneath the grip; the batch number is not a serial number. - research literature has revealed the existence of batch numbers ranging from 20 to 966.
Other Markings	- markings usually found on the right side of the receiver/frame are; "Webley & Scott Ltd.", over "Premier MK II", over "Made in England".

Notes

Make

- "WEBLEY" and "WEBLEY & SCOTT" is marked on the air rifle.

Model

- "WEBLEY RAIDER" is marked on the left side of the air rifle.
- introduced in 2000.
- this is a standard-pattern pre-charged pneumatic (PCP) air rifle.
- features include: ambidextrous walnut or beech stock; blued barrel and receiver/frame; bolt action cocking and loading; ventilated recoil pad.
- the barrel is threaded for muzzle weights or a sound suppressor/silencer.
- in 2001, the 22 PELLET version was introduced with a two shot "side-shuttle" magazine.

Manufacturer

- the manufacturer is marked on the air rifle.

Action

- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of referenced examples consisted of four numbers, a space and five numbers.
Calibre	- calibre identification is marked on the left side of the receiver/frame.
Shots	- available as a single shot or with a two shot side-shuttle magazine (22 PELLET version only).
Canadian Law Comments	- if the firearm leaves the factory equipped with a sound moderator/suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound moderator/suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

Summary

Make:	Webley & Scott
Model:	Rook Rifle Martini Type
Manufacturer:	Webley & Scott
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
27843 - 1	380 LONG CF	1	686	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- make may be marked on the firearm.

Model

- "Rook Rifle" is not marked on the firearm.
- features may include: round or octagonal steel barrel with express style rear sights; an under lever operated Martini-type action with swinging breech block pivoted at the rear; safety latch on right side of receiver; full pistol grip buttstock which may include cheek piece; varying degrees of engraving and stock checkering.

Manufacturer

- manufacturer may be marked on the firearm.
- Webley & Scott is an English gun-making company that began in the 1830s when two brothers, James and Philip, began manufacturing percussion revolvers. The company later expanded into manufacturing shotguns, and changed its name to "P. Webley & Son", as the son of one of the original owners had joined the business. In 1897, the company joined another company, W & C Scott and Son, to become "Webley and Scott Revolver and Arms Co., Ltd.", and finally changed its name in 1906 to "Webley and Scott Limited". The company ceased operations in 1979, but built rifles, shotguns, pistols, and revolvers while it was still in business.

Action

- lever operated tilting block action.

Barrel

- barrel length is not specified in the reference.

Calibre

- calibre is not specified in the reference.

Shots

- calibre is usually marked on the barrel.

Notes

Make

- make is usually marked on this firearm as follows:
- "Webley & Scott Ltd. Birmingham" on the left and/or right side of the receiver/frame.
- "The Webley "Senior" on the left and right side of the receiver/frame.
- "Webley" on the left and right grip plates.

Model

- "THE WEBLEY "SENIOR"" is marked on the left and/or right side of the receiver/frame.
- break barrel cocking, spring driven pistol type action.
- features include:
- a front hinged barrel mounted on top of the receiver/frame which articulates upward and forward to cock the action; barrel cocking is greatly facilitated by means of the Webley patented "double joint" system on the cocking lever,
- a thumb actuated Webley revolver type stirrup release lever for unlocking the barrel located on the rear left side of the receiver/frame,
- adjustable rear sight mounted at the very top rear of the receiver/frame,
- left side of the rear sight base may be marked, "British Pat" over "No 219872",
- blued barrel and receiver/frame,
- black plastic grip plates.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Webley & Scott Ltd. Birmingham" is usually marked on the left and/or right side of the receiver/frame.
Action	- in calibre 177 PELLET; does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. - in calibre 22 PELLET; does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- these air pistols are usually serial numbered on the left grip frame underneath the left grip plate; the last three numbers of the complete serial number may be repeated on the front of the compression tube.
Calibre	- calibre designation is usually marked on the front barrel band.

Notes

Make - "WEBLEY & SCOTT BIRMINGHAM ENGLAND" is marked on the left side of the receiver/frame and on the barrel hinge block.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "STINGRAY" is marked on the the receiver/frame.
- introduced in 2001.
- features include: muzzle of barrel is threaded for ventilated muzzle weight or BBMF silencer; available with or without barrel mounted hooded front sight and adjustable rear sight; receiver/frame tube grooved for scope mounts; two stage trigger; beech or walnut stained ambidextrous pistol grip stock and hard rubber butt plate.
- available in Carbine, Deluxe and Standard version.
- overall length for the Standard Rifle is 1125mm (44") and for the Carbine is 970mm (38.2").
- weight for the Standard Rifle is 3.7kg (8.2 lbs) and for the Carbine 3.5kg (7.7lbs).

Manufacturer

- the manufacturer's designation is not marked on the firearm.

Action

- spring-piston powered, hinged barrel design.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Calibre

- marked on the barrel hinge block.

Canadian Law Comments

- this model is available with a factory installed sound suppressor/silencer or with a factory installed barrel weight.
- in Canada, the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm may correctly be identified as a "Non Restricted Firearm". - at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

Notes

Make

- "WEBLEY" is marked on the left side of the action tube
- "WEBLEY & SCOTT" is usually marked on the on the firearm that may be in logo form.

Model

- "STINGRAY II QUATTRO" is marked on the left side of the action tube.
- "STINGRAY II QUATTRO" is a break-barrel, spring operated air rifle.
- "QUATTRO" stands for the type of two-stage adjustable trigger.
- "STINGRAY II QUATTRO" is also available as a "Quantum" model that features a suppressor.
- features include: threaded muzzle; hooded, fibre optic front sight and a micro click adjustable rear sight; front hinged receiver/frame; grooved action tube for optic mounting; two stage trigger; automatic resettable safety catch; safety catch located at the rear of the action tube; checkered one piece wood ambidextrous pistol grip stock with a rubber butt plate; blued finish.
- overall firearm length with 445mm (17.5") barrel is 1044mm (41.1") and overall weight is 3.3kg (7.3lbs).

Action

- spring-piston powered.

Serial Number

- serial number is marked on the left side of the barrel block.
- serial number of referenced examples consisted of four numbers, a space and five numbers.

Calibre

- calibre identification is marked on the left side of the barrel block.

119835 - 3	25 PELLET	1	381	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is marked on the air rifle.

Model

- this is a standard-pattern spring-piston air rifle, built with a number of "semi-custom" features.
- introduced in 2001.
- features include: walnut or beech Monte Carlo style, pistol-grip stock; blued finish; adjustable match trigger; barrel is threaded for a ported muzzle weight/compensator or sound suppressor/silencer and an automatic safety.

Manufacturer

- the manufacturer is marked on the air rifle.

Action

- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 25 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Canadian Law Comments

- if the firearm leaves the factory equipped with a sound moderator/suppressor/silencer then the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound moderator/suppressor/silencer (prohibited device) is removed from the barrel the firearm is correctly identified as a "Non Restricted Firearm".

147267 - 2	6MM FLOBERT RF	2	45	Antique AFR, Section 1, para. 6	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is a small cartridge pistol of the "turn-over" type, with two barrels that rotate around a central pin, bringing each barrel into firing position under a single centrally-mounted hammer. This design was first patented and produced by Woodward.
- these pistols were made from 1873 (when Woodward's original patent expired) through the 1890s, when the design was dropped entirely, in favour of small revolvers.
- these pistols were made in both 450 centre-fire, and a range of smaller rimfire calibres, with the centre-fire versions having bird's-head style grips, and the rimfire versions having square-butt grips.
- features include: blued or nickeled finish, with varying degrees of engraving; "turn-over" design, with two stacked barrels rotating counter-clockwise around a central pin; a loading groove on the right side of the receiver/frame, allowing loading/unloading when the barrels are spun 90 degrees from their firing positions; spur trigger; a sliding safety that locks into a half-cock slot in the back of the hammer; and checkered walnut grips.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.
- Webley & Scott is an English gun-making company that began in the 1830s when two brothers, James and Philip, began manufacturing percussion revolvers. The company later expanded into manufacturing shotguns, and changed its name to "P. Webley & Son", as the son of one of the original owners had joined the business. In 1897, the company joined another company, W & C Scott and Son, to become "Webley and Scott Revolver and Arms Co., Ltd.", and finally changed its name in 1906 to "Webley and Scott Limited". The company ceased operations in 1979, but built rifles, shotguns, pistols, and revolvers while it was still in business.

27754 - 1	4 GA	2	762	Prohibited PFR, Part 1, para. 95	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "WEBLEY & SCOTT" and/or "W & S" is marked on the firearm.
Model	- A double-barrel shotgun made specifically for "market-hunters", commercial shooters who supplied wild ducks and geese to stores and restaurants; they were extremely powerful shotguns in four or eight gauge, designed to kill as many birds at once as possible. Webley and Scott's versions opened by means of an under-trigger lever, while they were cocked with exposed hammers.
Action	- side by side barrel configuration.

Notes

Make

- one sample observed featured the make "WEBLEY & SCOTT LTD" marked on the left side of the barrel assembly.

Model

- model designation may be marked on the firearm.
- features include: round barrel with a permanently attached sound suppressor; no sights; rifled bore; grooved receiver/frame; single trigger mechanism; one piece semi-pistol grip Monte Carlo stock with cheekpiece.
- available in a deluxe version featuring a walnut stock instead of a beech stock.
- overall length with a 289mm (11.4") barrel is 1024mm (40.3"), average weight is 3.2kg (7.1lbs).

Manufacturer

- one sample observed featured the manufacturer's name "WEBLEY & SCOTT LTD" marked on the left side of the barrel assembly.

Action

- spring-piston powered.
- in calibre 177 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- in calibre 22 PELLET: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Calibre

- calibre designation may be marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this model is available with a factory installed sound suppressor/silencer or with a factory installed barrel weight.
- in Canada, the sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the sound suppressor/silencer (prohibited device) is removed from the barrel the firearm may correctly be identified as a "Non Restricted Firearm".

Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
127555 - 1	577 SNIDER	1	540	Antique CC 84(1) "antique firearm" para. (b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "P.Webley & Son London & Birm." is marked on the lockplate.

Model

- "Enfield may be marked on the lockplate and the breech may be marked "III".
- "Snider-Enfield" does not appear on the firearm, Snider-Enfield or just Snider refers to the arms designer Jacob Snider who patented the breech system.
- side hammer, single shot sporting rifle using the Snider-Enfield side pivoting breech block action.
- features include: one piece checkered stock extending to mid barrel; engraved lockplate, hammer and triggerguard; iron trigger guard.

Manufacturer

- "P.Webley & Son London & Birm." is marked on the lockplate.

Action

- manually operated side-hinged breech mechanism with external hammer.

Serial Number

- located on the leaf of the rear sight and may be repeated on the underside of the breechblock.
- observed specimen had four numbers without prefix or suffix letter.

35865 - 3	455 REV	6	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- all examples of the Webley-Fosbery model 1901 Automatic Revolver were marked "WEBLEY FOSBERY AUTOMATIC" along the left side of the top-strap; later-production examples omitted the "AUTOMATIC" from this stamping.
- the make is comprised of the manufacturers name "Webley" and the last name of the designer George Fosbery.

Model

- may also be known as "Fosbery".
- the 1901 Webley-Fosbery has several characteristics that separate it from later-production examples, but these require close examination of the firearm in question.
- first and foremost, the "cylinder catch" (a piece of spring steel attached to the bottom of the top strap, that retains the cylinder in place during the ejection of cartridges/casings) is screwed into place through the top-strap; later-production Webley-Fosberys have a spring-loaded stud on the top-strap, that can be depressed to remove the cylinder for cleaning/disassembly.
- secondly, all 1901 Webley-Fosberys are built on the "Large" frame size, and are all chambered for 455 REV; the grip portion of these revolvers will measure approximately 4.125"/104.8mm from the bottom of the butt (excluding lanyard ring) to the top of the frame channels, where the upper frame recoils rear-wards.
- thirdly, all 1901 Webley-Fosberys are marked "WEBLEY FOSBERY AUTOMATIC" in full, along the left side of the top-strap.

Manufacturer

- "P. Webley & Son" appears on barrel. - most examples of the Webley-Fosberry are marked "P.Webley & Son. London & Birmingham", but they may also be seen marked with names of sub-retailers (distributors who bought the revolvers from Webley, then marked their own name on the handgun).

Action

- this firearm is both a "semi-automatic" and a "revolver" and as such has the "Action" classified as "Other".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number
- serialisation started at 1 and continued to approximately 990.
- numbered on the right side of the lower receiver/frame.

Calibre
- ".455 Cordite" is normally marked on the receiver/frame.

35859 - 3	38 AUTO	6	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- all examples of the 1902 Webley-Fosbery were marked simply "WEBLEY FOSBERY" along the left side of the top-strap.
- the make is comprised of the manufacturers name "Webley" and the last name of the designer George Fosbery.

Model

- the 1902 Webley-Fosbery has several characteristics that separate it from later-production examples, but these require close examination of the piece in question.
- first and foremost, the "cylinder catch" (a piece of spring steel attached to the bottom of the top strap, that retains the cylinder in place during the ejection of cartridges/casings) is a spring-loaded stud on the top-strap, that can be depressed to remove the cylinder for cleaning/disassembly; the two arms of the retaining levers are retained by a small cross-pin through the top-strap.
- secondly, all 1902 Webley-Fosberys are built on the "Small" frame size chambered for calibre 38 AUTO; after the 38 AUTO model proved to be a poor seller in the marketplace, many of these revolvers were stripped down for rebuild in calibre 455 REV (factory records seem to indicate that none were rebuilt in 1902 model configuration, some small frames were built in model 1903 configuration)
- thirdly, all 1902 Webley-Fosberys are marked simply "WEBLEY FOSBERY" along the left side of the top-strap.
- fourth, all 1902 Webley-Fosbery's were built with a new style frame, with an integral trigger-guard and a detachable sideplate on both sides of the frame (earlier Weblely-Fosberys were built with detachable trigger-guards, and a sideplate only on the left side of the frame).
- fifth, 1902 Webley-Fosbery's were fitted with a new style of frame latch, which have two raised "shims" on the inner part of the latch that fit into corresponding angled grooves on the upper frame; this same catch was carried over into the 1903 models.

Manufacturer

- most examples of the Webley-Fosbery are marked "P.Webley & Son. London & Birmingham", but they may also be seen marked with names of sub-retailers (distributors who bought the revolvers from Webley, then marked their own name on the handgun).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action - this firearm is both a "semi-automatic" and a "revolver" and as such has the "Action" classified as "Other".

Serial Number
- numbered on the right side of the lower frame.
- serialisation started at approximately 997 and continued upwards.

35854 - 9	455 REV	6	191	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "WEBLEY FOSBERY" is marke along the left side of the top-strap.
- the make is comprised of the manufacturers name "Webley" and the last name of the designer George Fosbery.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- was manufactured from 1903 to 1924.
- may also be known as "Fosbery".
- the 1903 Webley-Fosbery has several characteristics that separate it from earlier-production examples, but these require close examination of the firearm in question.
- first and foremost, the "cylinder catch" (a piece of spring steel attached to the bottom of the top strap, that retains the cylinder in place during the ejection of cartridges/casings) is a spring-loaded stud on the top-strap, that can be depressed to remove the cylinder for cleaning/disassembly; the two arms of the retaining levers are retained by a small cross-pin through the top-strap.
- secondly, 1903 Webley-Fosberys were manufactured in both "Large" and "Small" frame sizes, in 455 REV calibre; "Large" frames measure approximately 4.25"/108mm from the butt to the recoil channels (where the upper frame slides during recoil), while "Small" frames measure approximately 3.75"/95mm over the same distance (excluding lanyard rings in both cases). Both of these frame sizes were made with integral trigger-guards, and detachable sideplates on both sides of the frame.
- thirdly, all 1903 Webley-Fosberys are marked simply "WEBLEY FOSBERY" along the left side of the top-strap.
- fourth, the return spring inside the grips will be a "leaf" or "V" type, instead of the earlier coil-type; this was an attempt to make the return-to battery impulse stronger.
- fifth, the trigger itself was widened and strengthened; where earlier versions had a trigger approx. .2"/5mm wide, 1903's were made with .356"/9mm wide triggers.
- sixth, all but the very earliest of Model 1903's will be stamped with the more modern "crown over BP" or "crown over V" proof and viewing marks; earlier Webley-Fosberys will be stamped with a "crown over crossed sceptres" proof or viewing mark.

Manufacturer

- most examples of the Webley-Fosbery are marked "P.Webley & Son. London & Birmingham", but they may also be seen marked with names of sub-retailers (distributors who bought the revolvers from Webley, then marked their own name on the handgun).

Action

- this firearm is both a "semi-automatic" and a "revolver" and as such has the "Action" classified as "Other".

Serial Number

- serialization started at approximately 1500 and ended at approximately 4921.
- numbered on the right side of the lower receiver/frame.

Shots

- a special adapter unit that replaced the cylinder was available that allowed the firearm to be used as single shot in calibre 22 LR.

Notes

Make

- "WEEKS", "T.S. WEEKS", or "Thoms. Weeks" is usually marked on the firearm.
- Thomas S. Weeks was a Fond du Lac, Wisconsin-based gunmaker from 1849 to 1890.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a "hawken"-styled hunting rifle manufactured by Thomas S. Weeks prior to 1890.
- features include: browned or blued finish; open fixed or adjustable sights; octagonal or half-round/half-octagonal barrel; underbarrel ramrod thimbles; half-length straight-grip maple or walnut stock (some with brass or German silver finishings); external manually-cocked hammer on the lockplate; finial trigger-guard/gripstrap; double-set triggers; brass patch box; crescent butt.

Manufacturer

- "WEEKS", "T.S. WEEKS", or "Thoms. Weeks" is usually marked on the firearm.
- Thomas S. Weeks was a Fond du Lac, Wisconsin-based gunmaker from 1849 to 1890.

Action

- muzzle-loaded, percussion, single-shot.

- "BARAKUDA" over "Made in Germany" over "Kal. 5,5" is marked on the left side of the barrel block.
- this is a hinged barrel, spring piston powered air rifle, made by Weihrauch, with an unusual integral "dieseling" mechanism on the right side of the receiver/frame tube. This apparatus is meant to deliver a consistent shot of ether into the compression chamber, which ignites when the rifle is fired, resulting in higher velocities when used with special ammunition. The rifle can also be used as an ordinary air rifle.
- features include: walnut pistol-grip stock with cheekpiece, grip-cap, and rubber butt-pad, adjustable trigger mechanism, integral scope mounting rails machined on receiver/frame tube, automatic safety at the rear of the receiver/frame tube, open adjustable sights with Globe insert front, sling swivels, and a "dieseling" apparatus with screw-off cap mounted on the right side of the receiver tube.

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Action

- spring-piston powered with an ether-gas velocity booster, hinged barrel design.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- numbered on bottom of barrel, forward of hinge point.

Calibre

- "Kal. 5,5" is marked on the left side of the barrel block.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - the Canadian requirement that the serial number be marked on the receiver/frame.

Notes

Make

- "WEIHRAUCH" is marked on the left side of the receiver/frame.

Model

- "HW 100" is marked on the left side of the firearm.
- introduced in 2004.
- features include: round barrel with or without a sound moderator/suppressor/silencer and/or barrel weight; side lever action cocking mechanism; removable pre-charged pneumatic cylinder mounted below the barrel; removable rotary magazine; adjustable trigger; manual safety located on the right side of the receiver/frame; walnut, target style thumbhole or pistol grip stock with a stippled grip and rubber butt pad; no open sights; receiver/frame is grooved for scope mounts.
- overall length with a 410mm barrel is 975mm (38 3/8"), average weight is 3.6kg (7.92lbs).

Manufacturer

- "WEIHRAUCH" is marked on the left side of the firearm.
- "Made in Germany" is marked on the right side of the firearm.

Action

- precharged pneumatic cylinder.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- the serial number is marked on the firearm.

Calibre

- the calibre is marked on the right side of the firearm.

Shots

- removable rotary magazine.

Canadian Law Comments

- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

- this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

- if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.
- NOTE: factory correspondence confirms the shell of the firearm is a "bullpup stock" and therefore is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- when the complete bullpup stock (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- "HW 40 PCA" is marked on the left side of the receiver/frame.
- "HW40PCA" is a single-stroke pneumatic air pistol that is cocked by pulling the back of the slide up and forward.
- "HW40PCA" grip and trigger guard portion of this air pistol very much resemble a Walther model P99.
- features include: steel and polymer construction; fibre optic front sight and an adjustable rear sight; round rifled steel barrel; front hinged receiver/frame with the top frame swinging up to act as the charging lever; dovetailed for scope mounts; automatic safety; exposed hammer; two stage silver finished trigger; contoured and finger grooved polymer grip; black finish.
- overall length is 244 mm (9.6"), and the average weight is 0.77 kg (1.7 lbs).

Manufacturer

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action

- single-stroke pneumatic powered.
- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Notes

Make

- "WEIHRAUCH" with "SPORT" is marked on the left side of the receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- introduced in 2017.
- "HW 44" is marked on the pre-charged pneumatic (PCP) reservoir.
- "HW 44" may come with a sound suppressor.
- features include: ramped front blade and adjustable rear sights; round, rifled steel barrel; polymer construction including a barrel shroud and the pre-charged pneumatic reservoir receptacle with front air gauge; molded accessory rails on top of the action and under the pneumatic reservoir; grip with finger grooves; two stage adjustable trigger; ambidextrous manual safety lever; cocking lever on the rear of the action that can be installed on either sides; black finish.
- overall length with a 247mm (9.72") barrel is 337.06mm (13.27") average weight is 1.3kg (2.87lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "WEIHRAUCH" and "SPORT" is marked on the left side of the receiver/frame. - "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame. - "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany. - "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.
Action	- pre-charged pneumatic (PCP). - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. - at least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of six numbers.
Calibre	- calibre identification is marked on the left side of the receiver/frame.
Shots	- removable rotary magazine.
Canadian Law Comments	- discharges a projectile at a muzzle velocity exceeding 152.4 mps (500fps) and a muzzle energy exceeding 5.7 Joules. - as it left the factory, this firearm may be equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the sound suppressor/silencer (prohibited device) is removed the firearm is correctly identified as a "Restricted Firearm". - at least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- loosely based on a Colt Government Model 1911A1 design.
- the "dual power" feature refers to a notched piston design that allows for a half and full cock system for a lower velocity application on the half cock and a higher velocity application on the full cock and is only offered in the 177 PELLET and 20 PELLET calibres. The 22 PELLET version does not have this half cock position as it does not allow enough pressure for effective fire with the larger pellet.
- features include: lever safety mounted behind the trigger; blued finish; hammer cocking lever.
- available with a stainless steel finish as the HW 45 STL.
- this pistol can also be fitted with a shoulder stock and/or a telescopic sight.
- overall length with a 170mm barrel is 278mm (11").

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Action

- spring piston design.
- at least two variants of this particular model exist:
Variant #1 discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2 does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Notes

Make

- "H. WEIHRAUCH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.
- "HWZ" is the trademark for "Herman Weihrauch" of Zella-Mehlis, Germany.
- "HWM" is the trademark for "Herman Weihrauch" of Mellrichstadt, Germany.

Model

- model is marked on the firearm.
- features include: round barrel with or without a silencer or a muzzle brake; laminated or solid pistol-grip stock with cheekpiece and rubber buttpad; adjustable match trigger; cross-bolt safety at the rear of the receiver/frame tube; usually fitted with an optical sight.
- overall length with a 300mm barrel is 1020mm (40 1/4").

Manufacturer

- "H. WEIHRAUGH" and/or "H. WEIHRAUCH SPORTWAFFEN" and/or "WEIHRAUCH" may be marked on the side of the barrel and/or receiver/frame.
- "MADE IN GERMANY" may be marked on the barrel and/or receiver/frame.

Action

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is usually marked on the barrel.
- serial number of referenced examples consisted of seven numbers.

Calibre

- calibre identification is marked on the barrel.

Canadian Law Comments

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

- this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada.
- if the prohibited device (sound suppressor/silencer) were to be removed from the firearm, the firearm is correctly identified as a "Non Restricted Firearm".
