Notes

Make

- "MADE IN ELGOIBAR - SPAIN" was observed marked on the right barrel.
- "ARMSPORT. INC., MIAMI, FLORIDA" over "MODEL 1032 10 GA. - 32 "F & F"" was observed marked on the left barrel.
- "Armsport, Incorporated" was an importer and distributor located in Miami, Florida, U.S.A. until 2000.

Model

- "MODEL 1032" was observed marked on the left barrel.
- introduced in 1979.
- features include: side by side barrels with solid matte rib and bead front sight; front hinged receiver/frame with top tang mounted break open lever and slide type safety; box lock action; double triggers; plain or engraved receiver/frame; checkered walnut beavertail forearm and pistol grip stock with recoil pad; blued finish.

Manufacturer

- "MADE IN ELGOIBAR - SPAIN" was observed marked on the right barrel.
- "ERBI" was observed marked on the bottom of the left barrel.

Action

- side by side pattern.

Serial Number

- serial number is usually marked on the water table of the receiver/frame.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- "10-89" is marked on the bottom of the left barrel.
Other Markings	- marked on the bottom of the right barrel is "U*1" over "2880 GRMS" over " trophy" over "crossed longarms" over "BP 100 KOS".

125064 - 1	10 GA X 3 1/2"	2	813	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "ARMSPORT, INC., MIAMI, FLORIDA" may be marked on the side of the left barrel.
- "Armsport, Incorporated" was an importer and distributor located in Miami, Florida, U.S.A. until 2000.

Model

- "MODEL 1033" is marked on the left barrel.
- discontinued in 1985.
- features include: side by side barrels with raised rib and bead front sight; front hinged receiver/frame with top tang mounted break open lever and slide type safety; boxlock action; hammerless; double triggers; engraved silvered receiver/frame, blued barrels; checkered wood beavertail forearm and pistol grip buttstock.
- Spainish proofmarks are apparent on the barrels and receiver/frame.

Manufacturer

- "ARIZAGA, ARMS - PLACENCIA - SPAIN" may be marked on the right side barrel.
- Eusebio Arizaga/Successors de Eusebio Arizaga was located in Placencia de las Armas, Guipuzcoa, Spain.
- Eusebio Arizaga/Successors de Eusebio Arizaga was established in 1908.
- Eusebio Arizaga/Successors de Eusebio Arizaga manufactured custom and semi-custom multi-barreled shotguns.
- Eusebio Arizaga/Successors de Eusebio Arizaga joined "DIARM" circa 1984.
- "F.A." is the manufacturer's code for "Eusebio Arizaga".
- the underside of the barrel lugs is also marked with the manufacturers code letters "EX" which indicates barrels may habe been produced by "Hijos De F. Arizaga".

Action

- side by side barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number was observed marked on the watertable of the receiver/frame and repeated on the barrel assembly.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Calibre

- known example had the calibre marked on the left barrel as "10 GA."; it was also proof marked on the underside of the barrel lugs and on the action flats of the receiver/frame as "10-89" indicating a 10 GA X 3-1/2" chambering.

Other Markings

- known example had the following marking on the left barrel, "Model 1033 10 GA. - 32 "F&F" ".

Notes

Make

- "Armsport Inc." is marked on the side of the barrel.
- "Armsport, Incorporated" was an importer and distributor located in Miami, Florida, U.S.A. until 2000.

Model

- "MOD. 1101" is marked on the side of the barrel.
- discontinued in 1985.
- the model 1101 is the Armsport designation for the Pedretti model FP105 folding shotgun.
- when offered by Pedretti the model FP105 is available in three grades and several calibre choices. When Armsport imported these models each individual variation was given a specific designation.
- the model 1101 is chambered for 12 GA X 3" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 711mm blued barrel and a full length buttstock.
- the model 1102 is chambered for 20 GA X 3" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 660mm blued barrel and a full length buttstock.
- the model 1103 is chambered for 410 GA X 3" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 660mm blued barrel and a full length buttstock.
- the model 1104 is chambered for 28 GA X 2 3/4" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 660mm blued barrel and a full length buttstock.
- the same basic firearm is offered by Pedretti as the "Camper Special" model with a shorter barrel and a pistol grip, these are offered by Armsport as follows:
- the model 1107 is chambered for 12 GA X 3" shells and features an alloy receiver/frame and a 483mm barrel.
- the model 1108 is chambered for 20 GA X 3" shells and features an alloy receiver/frame and a 483mm barrel.
- the model 1109 is chambered for 410 GA X 3" shells and features an alloy receiver/frame and a 483mm barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "Franc. Pedretti" and "Gardone V.T." is marked on the side of the receiver/frame.
- Francesco Pedretti (FP) was founded in 1957.
- Francesco Pedretti was located in Gardone, Val Trompe, Italy in the 1990s.

Action

- hinged barrel design.

Serial Number

- sample examined was serialized on the water table of the receiver/frame and on the underside of the barrels.
- serial number rationalization is unknown but seven sequential numbers have been observed.

- discontinued in 1985.
- the model 1104 is the Armsport designation for the Pedretti model FP105L folding shotgun chambered for 28 GA X 2 3/4" shells.
- features include: folding design; alloy receiver/frame with engraving and matte chrome finish; chrome lined blued barrel with vent rib; top tang opening lever; lightly checkered beech semi-pistol grip stock and forearm; bead front sight; nickel plated trigger; and plastic buttplate with white line spacer.
- when offered by Pedretti the model FP105 is available in three grades and several calibre choices. When Armsport imported these models each individual variation was given a specific designation.
- the model 1101 is chambered for 12 GA X 3" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 711mm blued barrel and a full length buttstock.
- the model 1102 is chambered for 20 GA X 3" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 660mm blued barrel and a full length buttstock.
- the model 1103 is chambered for 410 GA X 3" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 660mm blued barrel and a full length buttstock.
- the model 1104 is chambered for 28 GA X 2 3/4" shells and features an alloy receiver/frame with engraving and matte chrome finish, a 660mm blued barrel and a full length buttstock.
- the same basic firearm is offered by Pedretti as the "Camper Special" model with a shorter barrel and a pistol grip, these are offered by Armsport as follows:
- the model 1107 is chambered for 12 GA X 3" shells and features an alloy receiver/frame and a 483mm barrel.
- the model 1108 is chambered for 20 GA X 3" shells and features an alloy receiver/frame and a 483mm barrel.
- the model 1109 is chambered for 410 GA X 3" shells and features an alloy receiver/frame and a 483mm barrel.

Manufacturer

- "Franco. Pedretti" and "Gardone V.T." is marked on the side of the receiver/frame.
- Francesco Pedretti (FP) was founded in 1957.
- Francesco Pedretti was located in Gardone, Val Trompe, Italy in the 1990s.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- break action.
Serial Number	- serial number is marked on the water table of the receiver/frame and on the underside of the barrels. - serial number rationalization is unknown but seven sequential numbers have been observed.
Other Markings	- the monogram "FP", which denotes Francesco Pedretti, is engraved into the top of the opening lever. - "MADE in ITALY" is marked on the left side of the barrel.

Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	ITALY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
145163 - 1	58 PERCUSSION	1	757	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "MADE IN ITALY" over "ARMSPORT INC - MIAMI - FLA." was observed marked on the barrel.
- "Armsport, Incorporated" was an importer and distributor located in Miami, Florida, U.S.A. until 2000.

Model

- "MODEL 5140" was observed marked on the barrel/receiver/frame.
- "LONDON ARMOURY Co." observed marked on the right side plate.
- "5140" is a modern reproduction of the British military Enfield model "Pattern 1858 Rifle" two barrel band short rifle as originally manufactured by the London Armory Company (whose name appears on the lockplate), and others, of England.
- features include: blued round barrel and fixed front sight, two leaf, flip up rear sight, and a bayonet lug on the right side; steel ramrod mounted under the barrel; colour case-hardened lock plate, percussion hammer and trigger; brass nose cap, butt plate and trigger guard, two (2) blued barrel bands and sling swivels, one-piece straight grip stock.

Action

- muzzle-loading.

Serial Number

- serial number was observed marked on barrel/receiver/frame.
- serial number observed consisted of four numbers without letter prefix or suffix.

Calibre

- calibre was observed marked on the barrel/receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- observed as follows:
  "MADE IN ITALY
  ARMSPORT INC - MIAMI - FLA
  CAL. 58-34 DRAMS BLACK POWDER ONLY
  MODEL 5140"

- "LONDON ARMOURY Co." marked on the right side plate.

16131 - 1	44 PERCUSSION	6	178	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Made by Armsport Inc. Miami Florida" is usually marked on the firearm.
- "Armsport, Incorporated" was an importer and distributor located in Miami, Florida, U.S.A. until 2000.

Model

- the model designation is not marked on the firearm. The right side of the barrel may be marked, "NAVY MODEL".
- features may include: single action trigger mechanism; brass or case hardened receiver/frame; case hardened spurred hammer and the loading lever located under the barrel; blued octagonal barrel; a fixed small bead for a front sight; brass or silver plated round or squareback triggerguard; brass, silver plated or blued iron backstrap and may have walnut grip panels.
- the unfluted cylinder may have square cylinder stops and an engraved navy battle scene of the Texas Navy's victory over Mexico's Navy. The cylinder will be marked in small print, "ENGAGED 16 MAY 1843".
- the barrel lug will fit parallel to the front of the cylinder. The right side of the barrel lug will have a "U" shape where the plunger accesses the cylinder.
- the year of manufacture may be marked on the right side of the receiver/frame. One sample was marked "AA" within a rectangle. "AA" indicates the sample was manufactured in 1975.
- the left side of the barrel may be marked "BLACK POWDER ONLY".

Serial Number

- the serial number is usually marked on the underside of the receiver/frame.

Notes

Make

- "ARMTAC" was observed marked on the right side of the receiver/frame.
- "ARMSAN" and "ARMTAC" are tradenames manufactured by Armsan Silah Sanayi.

Model

- "RS-X2" was observed marked on the right side of the receiver/frame.
- features include: fibre optic front sight and a removable and adjustable rear sight; round barrel with a muzzle break and with or without a heat shield; anodized aluminum solid top receiver/frame with a Picatinny rail, right side ejection and a bottom loading port; dual action bars; cross bolt safety is mounted on the rear of the trigger guard; action release is located on the left front side of the trigger guard; synthetic ribbed forearm with a Picatinny rail and a checkered pistol grip, or a pistol grip with a retractable buttstock or a fixed full length buttstock with a vertical pistol grip; black or camouflage finish.
- overall length with a 470 mm (18 1/2") barrel and a standard fixed pistol grip buttstock is 990 mm (39", and the average weight is 3.1 kgs (6.83 lbs).

Manufacturer

- Armsan Silah Sanayi is located in Istanbul, Turkey.
- Armsan Silah Sanayi is a member of the Armsan Group.
- Armsan Group consists of Armsan Silah San. ve Tic. A.S., Khan, and ATA Arms.

Serial Number

- serial number is marked on the receiver/frame.

Shots

- tubular magazine is mounted under the barrel.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "ARMTAC" may be marked on the right side of the receiver/frame.
- "ARMSAN" and "ARMTAC" are tradenames manufactured by Armsan Silah Sanayi.
- "Armtac" is a trademark used by Armsan for their line of "tactical" shotguns.

Model

- "RS-XS" may or may not be marked on the right side of the receiver/frame.
- this is a pistol-grip-only version of the "RS" series of pump-action Armtac shotguns, with an overall length of 660mm/26".
- features include: standard Remington 870 layout and operation; matte black anodized/parkerized finish; threaded muzzle for choke tubes or "breacher" attachment; slot-ventilated heat shield; ribbed synthetic furniture; accessory rail on top of the receiver/frame for mounting open or optical sights; action-release lever at the front of the trigger guard; cross-bolt safety at the rear of the trigger guard.

Manufacturer

- "ARMSAN" is marked on the firearm.
- Armsan Silah Sanayi is located in Istanbul, Turkey.
- Armsan Silah Sanayi is a member of the Armsan Group.
- Armsan Group consists of Armsan Silah San. ve Tic. A.S., Khan, and ATA Arms.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- underbarrel tubular magazine.

Notes

Model

- this entry is for all Gaulin, Gaulin/Armtech, and, Armtech, manufactured bolt action rifles with no model markings.
- these firearms are made on a custom order basis, one-by-one, to the customers taste, and specifications.
- these actions, available in different lengths, are made from a solid block of stainless steel, or by re-manufacturing actions of other major manufacturers with all markings removed.
- features may include: stainless steel, or blued barrel, in a wide variety of barrel contours; pillar bedded stock, usually in fibreglass, or walnut; fully adjustable trigger.
- also available as a single shot.

Manufacturer

- Gaulin is the family name of the owners of Les Armuriers Armtech, gunsmiths located in Quebec, Canada.
- they are manufacturer's of benchrest firearms on a custom order basis.

Action

- turn-bolt operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- these are custom firearms, they may be found in any caliber the customer wishes to order.
- the .30 CANUCK is a special calibre designed by the manufacturer, and is in fact based on a shortened 308 WIN case.

Remarks

- manufacturer's name may be stamped on side of receiver/frame and/or on side of the barrel.
- may be stamped either "Gaulin" or "Armtech".

Notes

Make

- "Army & Navy", "Army & Navy C.S.L.", "Army & Navy Stores Limited" or a variation thereof is usually marked on the barrel and/or receiver/frame.
- "Army & Navy" trade name has been used by Army & Navy C.S.L. and Army & Navy Stores Limited.
- "Army & Navy C.S.L. (Army & Navy Co-operative Stores Limited)" was a British retailing firm located at 105 Victoria Street, Westminster, London, England.
- "Army & Navy C.S.L." also had premises at 8 Howick Place circa 1888.
- "Army & Navy C.S.L." was established circa 1871 and ceased operations circa 1937.
- "Army & Navy C.S.L." was listed as a manufacture from 1932 to 1937.
- "Army & Navy Stores Limited" was established circa 1935 and was purchased by the House of Fraser in 1973.

Model

- model designation is not marked on the firearm.
- features include: blued side by side barrels with fixed front sight and three leaf folding rear sights; front hinged receiver/frame; under lever, side lever or top lever actuated break open mechanism; internal or external hammers; double triggers; checkered forearm and pistol grip butt stock.

Action

- side by side configuration, break open action.

Serial Number

- the serial number is marked on the water table.
- observed specimen had four digits.

Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
164582 - 1	380 REV SHORT CF	6	124	Antique AFR, Section 1, para. 7	Non-Commercial Customization	

Notes

Make

- "ARMY & NAVY" is usually marked on the barrel rib.

Model

- introduced circa 1880.
- "IMPROVED GOVERNMENT" does not appear on the firearm.
- features include: octagonal barrel; front hinged receiver/frame with fluted cylinder and automatic extractor; break open release button or lever located on the left side of the receiver/frame; removeable inspection plate on the left side of the receiver/frame; exposed spur hammer; single/double action trigger mechanism; checkered walnut birdshead grip with lanyard ring; fixed sights; blued or nickel plated finish.
- these revolvers may be seen with a variety of features that changed over time, as the Webley company introduced safety and mechanical improvements.
- early revolvers may show Pryse-style lockwork, with an additional sear release at the rear of the trigger guard, but will also have integral trigger guards that were formed as part of the receiver/frame casting; these revolvers will all have "Kaufmann"-style receiver/frames, with a detachable sideplate on the left side of the revolver.
- latching mechanisms also changed, ranging from an early "push-button" style on the left side, through a thumb-operated latch that operated a cross-bolt through the top-strap, to a "half-stirrup" style that was replaced by the classic Webley "stirrup" latch in 1889.
- similar to the Webley No 4 revolver.
- "MK" inside a triangle may be marked on the side of the receiver/frame.
- "MK" was the trademark of Michael Kaufmann.
- Michael Kaufmann was a firearms designer who was with Webley from 1878 to 1881.
- Michael Kaufmann's "MK" trademark ceased to be marked on the Webley Improved Government model circa 1885.

Manufacturer

- "WEBLEY'S PATENT" or "WEBLEY PATENT" is usually marked on the left side of the firearm.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- the letters "MK" in a triangle above a number were observed marked on the right side of the receiver/frame.
- "MK" are the initials of the firearms designer, Michael Kaufmann and the number was used for royalty purposes.

Action

- hinged barrel design, top break action.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is located on the left side of the back strap under the grip panel, it also appears on the underside of each grip panel and at the rear of the barrel lug below the cylinder axis pin hole.
- may also be seen with a number marked below the letters "MK" in a triangle on the right side of the reciever/frame; this number is a "royalty" number, and is not the serial number.

Notes

Make

- "Army & Navy Co-Operative Society Lim'd London", "Army & Navy", "Army & Navy C.S.L.", "Army & Navy Stores Limited" or a variation thereof is usually marked on the barrel and/or receiver/frame.
- "Army & Navy" trade name has been used by Army & Navy C.S.L. and Army & Navy Stores Limited.
- "Army & Navy C.S.L. (Army & Navy Co-operative Stores Limited)" was a British retailing firm located at 105 Victoria Street, Westminster, London, England.
- "Army & Navy C.S.L." also had premises at 8 Howick Place circa 1888.
- "Army & Navy C.S.L." was established circa 1871 and ceased operations circa 1937.
- "Army & Navy C.S.L." was listed as a manufacture from 1932 to 1937.
- "Army & Navy Stores Limited" was established circa 1935 and was purchased by the House of Fraser in 1973.

Model

- no model name is marked on this firearm.
- lever operated, rear hinged, tilting breech block, Martini-type action.
- this firearm has the same general appearance as a Martini-Enfield Mark I rifle with the exception of its stock which is of sporting configuration.
- known example had British proof marks on the barrel and receiver/frame.

Action

- rear hinged, lever operated tipping block design.
- Martini action is locked in the firing position by the tip of the operating lever holding the breech block face up and in line with the chamber.

Serial Number

- known example had a five digit number without prefix or suffix marked on the bottom of the trigger guard.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - known example had the calibre designation "proofed" on the breech end of the barrel.

Notes

Make

- "Army & Navy" over "C.S.L." is usually marked on the barrel.

- "Army & Navy" trade name has been used by Army & Navy C.S.L. and Army & Navy Stores Limited.
- "Army & Navy C.S.L. (Army & Navy Co-operative Stores Limited)" was a British retailing firm located at 105 Victoria Street, Westminster, London, England.
- "Army & Navy C.S.L." also had premises at 8 Howick Place circa 1888.
- "Army & Navy C.S.L." was established circa 1871 and ceased operations circa 1937.
- "Army & Navy C.S.L." was listed as a manufacture from 1932 to 1937.
- "Army & Navy Stores Limited" was established circa 1935 and was purchased by the House of Fraser in 1973.

Model

- "THE BRITISH" over "BULL DOG" was observed marked on the top strap of the receiver/frame.
- "WEBLEY'S" over "No 2" was observed marked on the left side of the receiver/frame.
- features include: fixed front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with removable non fluted cylinder; hinged loading gate on the right side of the receiver/frame; swing-out case ejector rod stored within the cylinder axis rod; exposed spur hammer; double/single action trigger mechanism; bird's head grip strap; checkered wood grip plates.
- NOTE: barrel is ovate and may have an unusual taper with the diameter at the muzzle end being greater in diameter than where the barrel meets the receiver/frame.

Manufacturer

- "WEBLEY'S" was observed marked on the front left side of the receiver/frame.
- "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number - serial number is marked on the left front side of the receiver/frame.

Canadian Law Comments - some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "Army & Navy", "Army & Navy C.S.L.", "Army & Navy Stores Limited" or a variation thereof is usually marked on the barrel and/or receiver/frame.
- "Army & Navy" trade name has been used by Army & Navy C.S.L. and Army & Navy Stores Limited.
- "Army & Navy C.S.L. (Army & Navy Co-operative Stores Limited)" was a British retailing firm located at 105 Victoria Street, Westminster, London, England.
- "Army & Navy C.S.L." also had premises at 8 Howick Place circa 1888.
- "Army & Navy C.S.L." was established circa 1871 and ceased operations circa 1937.
- "Army & Navy C.S.L." was listed as a manufacture from 1932 to 1937.
- "Army & Navy Stores Limited" was established circa 1935 and was purchased by the House of Fraser in 1973.

Model

- model designation may not be marked on the firearm.
- this is a "Webley No 4" (Pryse Pattern) that was retailed by "Army & Navy".
- "Webleys No 4" was introduced in 1877 and discontinued in 1896.
- features include: fixed sights; octangular barrel with raised top rib or ovate barrel; front hinged receiver/frame with a fluted on non fluted cylinder, with or without automatic ejection, and with twin break open levers mounted on the standing breech; exposed spur hammer; double/single action trigger mechanism; saw handle type grip strap with metal butt cap and lanyard ring; checkered solid walnut grip; blued or nickel plated finish.

Manufacturer

- "WEBLEY" and/or "WEBLEY'S" and/or the "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
- "P. Webley & Son" manufactured this model for many different retailers, such as Holland & Holland, Army & Navy C.S.L., Garden & Son, Wilkinson Gunmakers/Sword Company and Cogswell & Harrison.

Serial Number

- serial number is usually marked on the left side of the receiver/frame.

Barrel

- the "Webleys No 4" revolver was available in barrel lengths from 76mm to 146mm.

Calibre

- calibre is usually marked on the left rear side of the barrel.

Notes

Make

- "ARMY & NAVY" over "C.S.L." is marked on the top strap.
- "Army & Navy" trade name has been used by Army & Navy C.S.L. and Army & Navy Stores Limited.
- "Army & Navy C.S.L. (Army & Navy Co-operative Stores Limited)" was a British retailing firm located at 105 Victoria Street, Westminster, London, England.
- "Army & Navy C.S.L." also had premises at 8 Howick Place circa 1888.
- "Army & Navy C.S.L." was established circa 1871 and ceased operations circa 1937.
- "Army & Navy C.S.L." was listed as a manufacture from 1932 to 1937.
- "Army & Navy Stores Limited" was established circa 1935 and was purchased by the House of Fraser in 1973.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "WEBLEY'S" over "R.I.C" over "No 1" and "calibre designation" over "NEW MODEL" is marked on the front left side of the receiver/frame. - introduced circa 1880's. - date of termination of production is undetermined, however, based on the popularity RIC model line, it is likely that production lasted into the early 1900's. - "Army & Navy C.S.L." was still selling "RIC No 1 New Model" in 1914. - features include: blade front sight and a groove in the top strap for a rear sight; ovate barrel; solid top receiver/frame with a fluted cylinder and right side swing down loading gate; ejector rod is of the "acorn" style fixed to the right front side of the receiver/frame with the ejector rod housed within the cylinder axis pin, and the ejector rod swings to the right to align with the cylinder chambers; exposed spurred hammer; single/double action trigger mechanism; checkered hardwood grip; lanyard ring; blue or nickel plated finish.
Manufacturer	- "WEBLEY" and/or "WEBLEY'S" and/or the "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the side of the firearm.
Serial Number	- serial number is usually marked on the front left side of the receiver/frame and may be repeated on the cylinder. - serial numbers are numeric only without prefix or suffix. - note: by October 1884, serial numbers in this model series had exceeded 60300.
Calibre	- calibre is usually marked on the front left side of the receiver/frame.
Other Markings	- the name's of various British firearm manufacturers/retailers may also be marked on the barrel or the top strap of this model; e.g., "Cogswell & Harrison, 276 Strand & 142 New Bond St. London".

Notes

Make

- "ARMY & NAVY C.S.L" is marked on top of the barrel.
- "Army & Navy C.S.L. (Army & Navy Co-operative Stores Limited)" was a British retailing firm located at 105 Victoria Street, Westminster, London, England.
- "Army & Navy C.S.L." was established circa 1871 and ceased operations circa 1937.

Model

- " "WG" MODEL" is marked on the left side of the receiver/frame.
- Manufactured from 1886 to 1906.
- "WG model" series is a design-improved version of the former "Webley Improved Government" revolver of circa 1881-1885.
- Features include: large thumb-actuated barrel release lever on left side of receiver/frame; may include lanyard ring on the bottom of the grip; may include a distinctively shaped "church steeple" type cylinder fluting with later models having the more traditional round shaped fluting; research has indicated that the use of the "church steeple" type of fluting ceased circa 1893.

Manufacturer

- The company logo is marked on the receiver/frame.
- The company logo consists of a "winged bullet" over "W&S".
- "WEBLEY PATENTS" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- The serial number is marked on the right side of the receiver/frame. - The serial number of a referenced example consisted of four digits.
Calibre	- The calibre designation is marked on the left side of the receiver/frame.
Canadian Law Comments	- Some examples of this model, when manufactured prior to 1898 may be considered Antique in Canada.

Make: Army & Navy
Model: Webley WG Army

Summary

Make:	Army & Navy
Model:	Webley WG Army
Manufacturer:	Webley
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
139782 - 2	455 REV	6	152	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	
139782 - 1	476 REV	6	152	Restricted CC 84(1) "restricted firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- "Army & Navy", "Army & Navy C.S.L. London", "Army & Navy Stores Limited" or a variation thereof is usually marked on the barrel and/or receiver/frame.
- "Army & Navy" trade name has been used by Army & Navy C.S.L. and Army & Navy Stores Limited.
- "Army & Navy C.S.L. (Army & Navy Co-operative Stores Limited)" was a British retailing firm located at 105 Victoria Street, Westminster, London, England.
- "Army & Navy C.S.L." also had premises at 8 Howick Place circa 1888.
- "Army & Navy C.S.L." was established circa 1871 and ceased operations circa 1937.
- "Army & Navy C.S.L." was listed as a manufacture from 1932 to 1937.
- "Army & Navy Stores Limited" was established circa 1935 and was purchased by the House of Fraser in 1973.

Model

- " "WG" ARMY MODEL" is marked on the left side of the top strap over the cylinder.
- manufactured from 1886 until circa 1902.
- "WG" model series is a design-improved version of the former Webley Improved Government revolver of circa 1881 to 1885.
- "WG" is often associated with the name Webley-Green, however, research has indicated that the letters "WG" is understood to be the acronym for "Webley Government".
- features include: double action; top breaking with simultaneous ejection; large rounded barrel-to-frame hinge at front of receiver/frame designed for greater rigidity and strength; large thumb-actuated barrel release lever on left side of receiver/frame; this latch may also be referred to as the Webley "stirrup" or "bridle" latch; may have bird's head type grip or square butt configuration, with or without lanyard ring on bottom butt strap; trigger guard is forged integrally with the receiver/frame; grip frame is noticeably humped behind the hammer; left side of receiver/frame has a removable "access" plate held in place by two slot-head screws.
- may have distinctively shaped "church steeple" type cylinder fluting with later models having the more traditional round shaped fluting; research has indicated that the use of the "church steeple" type of fluting ceased circa 1893.
- research indicates that the practice of putting the date of manufacture on the firearm ceased circa 1893.
- available in blued or nickel plated finish.
- sub-calibre conversion units were available for this firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Webley" over "Patents" is usually marked on the left side of the receiver/frame. - "P. Webley & Son / Webley & Scott" trademark logo of a "Winged Bullet" over "W&S" may be marked on the left side of the receiver/frame. - Webley firearms sold by distributors or other firearms makers may have the name of the firm marked on the top of the barrel instead of the Webley name, e.g., "Army & Navy C.S.L.".
Action	- hinged barrel design.
Serial Number	- serial number is usually marked on the right side of the receiver/frame although its placement may vary in some cases. - example observed was numeric only without letter prefix or suffix.
Calibre	- calibre is marked on the left side of the barrel.
Canadian Law Comments	- Some examples of this model, when manufactured prior to 1898 may be considered Antique in Canada.

Firearm Reference Number (FRN): 139959
Make: Army Armament
Model: Glock 17 Airsoft

Summary

Make:	Army Armament
Model:	Glock 17 Airsoft
Manufacturer:	KWA
Level:	Manufacturer Specifications and Commercial Customization
Type:	Airsoft
Action:	Air,Spring or Gas
Country of Manufacturer:	TAIWAN
Serial Numbering:	
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
139959 - 1	6MM AIRSOFT BB	24	100	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Army Armament" is located in China.

Model

- "GLOCK 17 AIRSOFT" is not marked on the firearm.
- this airsoft firearm resembles a Glock model "17" semi-automatic handgun.
- features include: aluminum outer barrel/sleeve and smoothbore inner barrel; metal slide, synthetic receiver/frame; two tone finish.
- Glock 17 Airsoft overall length is 202 mm, and average weight is 720 grams.

Manufacturer

- "KWA" is a manufacturer located in Taiwan.

Type

- this is an airsoft handgun.

Action

- HFC134a and HFC22 gas powered.
- at least two variants of this particular model exist:

Variant #1) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 238.7 mps (783 fps) and/or a muzzle energy exceeding 5.7 Joules, and
Variant #2) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 111.6 mps (366 fps) and/or a muzzle energy exceeding 1.2 Joules.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this airsoft is available in two variants:
Variant #1) CC 2 "firearm" / CC 84 (3) Exempted: muzzle velocity exceeds 111.6 mps (366 fps) and/or muzzle energy exceeds 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB, and
Variant #2) CC 84 (1) "replica firearm": muzzle velocity is less than 111.6 mps (366 fps) and/or muzzle energy is less than 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB.

FRT Report

Firearm Reference Number (FRN): 143799
Make: Arnold, Christoph
Model: Wheel-Lock

Summary

Make:	Arnold, Christoph
Model:	Wheel-Lock
Manufacturer:	Arnold, Christoph
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
143799 - 1	14.4MM	1	1102	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARNOLT" with a backwards "N" is marked on the side of the wheel-lock mechanism.

Model

- manufactured circa 1620.
- model designation is not marked on the firearm.
- Wheel-Lock firearms were originally manufactured in Europe during the 16th and 17th century.
- the system uses iron pyrites pressed against a revolving toothed wheel to provide the sparks for igniting the powder in the priming pan, which in turn ignites the main powder charge in the barrel. The toothed wheel is made to rotate, when the trigger was pulled, by a spring that was wound by a key in a similar fashion to a mechanical clock.
- features include: no front sight and parallel bars as a back sight; octagonal, smoothbore barrel; barrel is tapered and flared at the muzzle; under barrel mounted ram rod with horn tip; large wheel-lock action includes a safety catch; hinged trigger with elongated iron trigger guard with finger grooves; one piece walnut stock with extensive, engraved, bone inlays and storage compartments .
- overall length is 1386 mm (54 5/8").

Manufacturer

- "ARNOLT" with a backwards "N" is marked on the side of the wheel-lock mechanism.
- Christoph Arnold was located in Augsburg, Bavaria and operated between 1547 and 1573.

Action

- muzzle loading.

Other Markings

- the lockplate is marked "D I" around three stars over a crescent.
- a small mark, shaped like a pistol, and the letters "R R" over a shield, are marked on the barrel.

Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
137524 - 1	12 GA X 2 3/4"	2	710	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "AC" inside an oblong was observed marked on the water table of the receiver/frame and on the barrel flats.
- "AC" is a trademark used by Arrieta y Cia.

Model

- model designation is not marked on the firearm.
- features include: round side by side smoothbore barrels with a matted rib and bead front sight; front hinged receiver/frame with top tang mounted break open lever and safety; side lock action; extractors; double triggers; checkered wood beavertail forearm and semi-pistol grip buttstock; blued finish.

Manufacturer

- "AC" inside an oblong was observed marked on the water table of the receiver/frame and on the barrel flats.
- "AC" is a trademark used by Arrieta y Cia.
- Manufacturas Arrieta y Cia is located in Elgoibar, Spain.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number is marked on the water table of the receiver/frame and repeated on the barrel flats, and forearm.
- observed serial number consisted of five numbers without a letter prefix or suffix.
- in 1995, the Spanish government instituted a new system for firearm serial numbering. This system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- an example of an Arrieta serial number is as follows: "57 - 03 - #0# - 95".
- serial number break down, the first two numbers (57) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Calibre

- calibre is marked on the water table of the receiver/frame and on the barrel flats.

Notes

Make

- "Arrieta" or "Arrieta Y Cia" may be marked on the side of the receiver/frame.

Model

- this is a custom-made firearm with features and specifications based on customer requests.
- features may include: nickel plated engraved false sideplates; blued barrels with fixed front sights; automatic selective ejectors; extractors; a quarter-rib barrel with express sights; high quality checkered fore end and an English or pistol grip buttstock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Arrieta", "Arrieta y Cia" or "Fabrica de Arrieta y Cia Elgoibar" may be marked on the side of the receiver/frame. - "Arrieta", "Cia" and "M. Registrada" inside an oval may be marked on the water table. - "A.C" inside a rectangle in front of the serial number may be marked on the water table and/or barrel flats. - "A.C" is the company's manufacturing code. - "Made in Spain" may be marked on the barrels.
Action	- side by side barrel configuration, hinged barrel design.
Serial Number	- serial number may be numbered on the water table, barrel lug, and/or tang. - serial numbers may consist of five numbers without a letter prefix or suffix. - in 1995, the Spanish government instituted a new system for firearm serial numbering. This system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer. - an example of an Arrieta serial number is as follows: "57 - 03 - #0# - 95". - serial number break down, the first two numbers (57) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.
Barrel	- 25"/635mm is a typical "field" length - these rifles may be seen in barrel lengths ranging from 20"/508mm up to 32"/812mm.
Calibre	- calibre is usually found marked on the water table or the barrel assembly.

Notes

Make

- "P. ARRIZABALAGA" or "PEDRO ARRIZABALAGA" may be marked on the receiver/frame and/or on the barrel assembly.
- "P.A." the manufacturer's code used by "Pedro Arrizabalaga" may be marked on the watertable.

Model

- model designation is not marked on the firearms.
- this is a semi-customized double barrel shotgun.
- features include: side by side barrels; front hinged receiver/frame with top tang mounted break open lever and slide type safety; hammerless; side locks; single or double triggers; automatic ejectors; checkered splinter or beavertail forearm and straight grip or pistol grip butt stock; various grades of engraving and finish.

Manufacturer

- Pedro Arrizabalaga S.A. was established in Eibar, Spain in 1944.
- the original firm consisted of four individuals Pedro Arrizabalaga, Justo Arrizabalaga, Justino Araquistain, and Antonio Iriondo.
- in 1956, Pedro Arrizabalaga S.A. moved to Errekatxu, No. 5 in Eibar, Spain.
- Pedro Arrizabalaga is a manufacturer of custom side by side shotguns and rifles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- side sy side pattern.
Serial Number	- serial number is usually marked on the watertable of the receiver/frame. - serial number range was from approximately 5,00 to 14,851 plus. - in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer. - an example of a serial number is as follows: "46 - 03 - #0# - 95". - serial number break down, the first two numbers (46) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Firearm Reference Number (FRN): 124830
Make: ARSA
Model: Tanzutzu

Summary

Make:	ARSA
Model:	Tanzutzu
Manufacturer:	Araquistain & Santiago (ARSA)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
124830 - 1	41 MATCHLOCK	1	280	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARSA" is marked on the firearm.

Model

- model designation is not marked on the firearm.
- this is a reproduction of a Japanese matchlock pistol of eighteen century
- Tanzutzu in Japanese means short harquebus or pistol.
- features include: blued steel barrel; fixed rear sight; blade front sight; brass lock plate, trigger and trigger guard; beech wood stock.

Manufacturer

- "ARSA" is derived from the first two letter in Araquistain & Santiago.
- Jesus Maria Araquistain and Elisa Santiago are a husband and wife team.
- Araquistain is a Basque master gunsmith located in Spain.
- Araquistain & Santiago (ARSA) specializes in the reproduction and restoration of duelling pistols which were originally manufactured from the 17th to 19th century.
- these reproductions include Galand .41 calibre percussion pistols, Manton .45 calibre flintlock pistols; Tanzutz .41 calibre matchlock pistols; Rochatte .45 calibre percussion pistols, Underhammer .41 or .45 calibre percussion pistols, Imperio type .45 calibre percussion pistols and Gastinne Renette .41 calibre percussion pistols.

Action

- matchlock system.

Serial Number

- serial number is marked on the barrel/frame/receiver assembly.
- observed specimen had nine numbers.

Notes

Make

- "arsenal" is marked on the left side of the slide.
- may also be known as "Pistolet Makarovka" or "PM" named after the designer Nikolay F. Makarov.

Model

- "MAKAROV" and "Special Edition" in script is marked on the left side of the slide.
- this firearm is an updated version of the "PM" or Pistolet Makarovka, as used by military forces of the former USSR and it's satellite countries.
- features include; blued or matte stainless finish, "squared" trigger guard, fixed sights (rear may be adjustable for windage), plastic grip panels and serrations on the rear of the slide; disassembly by lowering the trigger guard and lifting the slide and return spring off of the receiver/frame for disassembly; slide mounted safety catch which also releases the hammer when applied, lowering the hammer onto a hammer block; double/single action trigger mechanism; magazine release catch located on the bottom of the hand grip/butt; the extractor functions as a loaded chamber indicator by standing proud of the slide when a cartridge is chambered; wrap-around grip plates; unlike the Walther PP or PPK pistol the Makarov pistol has a slide release lever on the left side.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "10" inside two circles and/or "Arsenal" and "Made in Bulgaria" may be marked on the side of the slide. - "Arsenal" is a manufacturer located in Kazanlak, Bulgaria. - "Bulgarian Artillery Arsenal" was originally established in Rousse, Bulgaria circa 1878 for the Bulgarian Army. - "Artillery Arsenal" was transferred to Sofia and became the "Sofia Artillery Arsenal" in 1891. - "Sofia Artillery Arsenal" was moved to Kazanlak in 1924 and became the "State Military Factory". - "State Military Factory" in Kazanlak, Bulgaria was given the code name "Factory 10" in 1948. - "Factory 10" was identified by a "10" in a double circle. - "Factory 10" started production of assault rifles circa 1958. - "Factory 10" was renamed the "United Industrial Plant Friedrich Engles" circa 1964. - "United Industrial Plant Friedrich Engles" was known as "F. Engles Machine Building Plant" from 1977 to 1987. - "Arsenal/Arsenal Limited/Arsenal JSCo/Arsenal 2000 JSCo" was established in 1987. - "Arsenal Bulgaria" also uses the logo of "10" in a double circle. - "Arsenal" was exclusively imported from 1994 to 1996 by Sentinel Arms. - "Sentinel Arms" was located in Detroit, Michigan U.S.A. - "Arsenal" is exclusively imported by "Arsenal Incorporated". - "Arsenal Inc." was established in 2001. - "Arsenal Inc." is located in Las Vegas, Nevada U.S.A.
Action	- blowback operated.
Serial Number	- the serial number appears on the receiver/frame, sample examined incorporated two alpha characters as a prefix. - a complete or partial serial number may also appear on other components such as the barrel and slide.
Calibre	- the calibre designation appears on the left side of the slide as "Cal. 9X18".
Shots	- detachable box magazine.
Importer	- the importers name appears as "Miltex, Inc" over "La Plata, Maryland, USA" on the right side of the slide.
Other Markings	- "MAKAROV SPECIAL EDITION" over "Cal. 9X18 (arsenal logo) ARSENAL" over "Made in Bulgaria" is marked on the left side of the slide.

117909 - 1	7.62X39 RUSSIAN	5	413	Prohibited PFR, Part 1, para. 64	Manufacturer Specifications and Commercial Customization	
117909 - 2	7.62X39 RUSSIAN	20	413	Prohibited PFR, Part 1, para. 64	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARSENAL USA" is marked on the receiver/frame.
- Arsenal USA LLC was a manufacturer and importer located in Houston, Texas from 1999 to 2004.
- Arsenal USA LLC changed its name to "Armory USA LLC" in 2004.
- "Armory USA LLC" is located in Houston, Texas.
- do not confuse with "Arsenal" of Bulgarian or "Arsenal, Inc." of Las Vegas, Nevada, USA.

Model

- the model designation is marked on the receiver/frame.
- this model is the FEG receiver/frame mated to a Polish model PMKMS (original underfolding metal buttstock is replaced with a fixed wood buttstock) parts set. The lower handguard is from the Hungarian model AMD-63 (vertical pistol grip).
- features include: wood buttstock, pistol grip, and forend pistol grip; fixed front sight with folding rear sight; gas tube mounted above barrel; safety/selector lever mounted on right side of receiver/frame; cleaning rod mounted underneath barrel; parkerized finish.

Manufacturer

- both FEG and Arsenal USA are marked on the receiver/frame.
- the receiver/frame is manufactured by FEG in Hungary and will have original FEG markings, and then imported into the USA where Arsenal USA manufactures the trigger components; muzzle brake; pistol grip and bolt carrier assembly in order to meet US Federal regulations.
- do not confuse with the Bulgarian firm "Arsenal", who also import parts from Bulgaria and build complete firearms using a receiver/frame produced in Las Vegas, Nevada, by their American subsidiary known as "Arsenal, USA".

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the receiver/frame. - numbered sequentially.
Barrel	- barrel length does not include muzzle brake; with muzzle brake barrel measures 426mm.
Shots	- detachable box magazine.
Other Markings	- in most cases the original FEG markings, including serial number and model designation, will still be present on the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 117914
Make: Arsenal USA
Model: SSR-85C

Summary

Make:	Arsenal USA
Model:	SSR-85C
Manufacturer:	Arsenal USA/Femaru Fegyver es Gepgyar RT (FEG)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
117914 - 1	7.62X39 RUSSIAN	5	413	Prohibited PFR, Part 1, para. 64	Manufacturer Specifications and Commercial Customization	
117914 - 2	7.62X39 RUSSIAN	30	413	Prohibited PFR, Part 1, para. 64	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARSENAL USA" is marked on the receiver/frame.
- Arsenal USA LLC was a manufacturer and importer located in Houston, Texas from 1999 to 2004.
- Arsenal USA LLC changed its name to "Armory USA LLC" in 2004.
- "Armory USA LLC" is located in Houston, Texas.
- do not confuse with "Arsenal" of Bulgarian or "Arsenal, Inc." of Las Vegas, Nevada, USA.

Model

- the model designation is marked on the receiver/frame.
- this is a FEG receiver/frame mated to a Polish model PMKM parts set.
- features include: fixed front sight with folding rear sight; gas tube mounted above the barrel; safety/selector lever mounted on right side of receiver/frame; wood buttstock; pistol grip and forend; cleaning rod mounted underneath the barrel; parkerized finish.
- the same basic model, built on the Polish model PMKMS (underfolding metal buttstock) parts set is available as the SSR-85B.

Manufacturer

- "FEG" and "Arsenal USA" are marked on the receiver/frame.
- the receiver/frame is manufactured by FEG in Hungary and will have original FEG markings, and then imported into the USA where Arsenal USA manufactures the trigger components; muzzle brake; pistol grip and bolt carrier assembly in order to meet US Federal regulations.
- do not confuse with the Bulgarian firm "Arsenal", who also import parts from Bulgaria and build complete firearms using a receiver/frame produced in Las Vegas, Nevada, by their American subsidiary known as "Arsenal, USA".

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the receiver/frame. - numbered sequentially.
Barrel	- barrel length does not include muzzle brake; with muzzle brake barrel measures 426mm.
Shots	- detachable box magazine.
Other Markings	- in most cases the original FEG markings, including serial number and model designation, will still be present on the receiver/frame.

Notes

Make

- "ARSENAL USA" is marked on the receiver/frame.
- "Arsenal USA LLC" was a manufacturer and importer located in Houston, Texas from 1999 to 2004.
- "Arsenal USA LLC" changed its name to "Armory USA LLC" in 2004.
- "Armory USA LLC" is located in Houston, Texas.
- do not confuse with "Arsenal" of Bulgarian or "Arsenal, Inc." of Las Vegas, Nevada, USA.

Model

- the model designation "SSR-85C-2" is marked on the right side of the receiver/frame.
- introduced in 2003.
- this is a semi automatic, sporting rifle adapted from the standard AK47 design that is built using unissued Polish military AK47 parts and US made components that include the trigger, hammer, disconnector, pistol grip, gas piston and the muzzle brake.
- features include: blonde wood or black plastic pistol grip stock with finger-grooved butt; black parkerized finish; stamped, hardened steel receiver/frame; chrome lined barrel; elevation and windage adjustable post front sight with a tangent leaf notched rear sight adjustable for elevation; safety/selector lever mounted on the right side of the receiver/frame; gas tube mounted above the barrel with a cleaning rod mounted beneath the barrel.
- overall length is 902mm(35.5")
- rifling is 1 turn in 240mm(9.45")

Manufacturer

- the complete manufacturer's designation is not marked on the firearm.
- "ARSENAL USA" is marked on the right side of the receiver/frame.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- the serial number consists of a letter prefix and numerals and is marked on the right side of the receiver/frame. - the serial number rationalization is unknown.
Calibre	- the calibre designation is marked on the right side of the receiver/frame.
Shots	- detachable box magazine. - accepts all standard AK47 magazines.

Notes

Make

- "ARTEMIS" is marked on the left side of the receiver/frame.
- "Artemis" is a trade mark used by Snow Peak Airguns.

Model

- "MODEL CR600W" is marked on the left side of the receiver/frame.
- "CR600W" is originally equipped from the factory with an integral silencer system.
- features include: ramped front sight; grooved receiver/frame for optic mounting; a suppressor mounted on the barrel; manual safety; adjustable trigger; wood stock with cheek rest area and rubber recoil pad; matte black finish.
- overall length 950 mm (37.4"), and the average weight is 2.1 kgs (4.63 lbs).
- also regular barrel with ramped front sight is available.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SPA" may be marked on the left side of the receiver/frame. - "SPA" means Snow Peak Airguns. - Snow Peak Airguns is located in China.
Action	- CO2 powered airgun. - at least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of sixteen number and a letter suffix "F". - serial number of a referenced example consisted of thirteen number and a letter, a dash and a letter suffix "X-G".
Shots	- detachable rotary magazine.
Canadian Law Comments	Prohibited device - this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. - if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

- "ARTEMIS" over "Airgun and Accessories" is marked on the left side of the receiver/frame.
- "Artemis" is a trade mark used by Snow Peak Airguns.

Model

- "PP700S-A" is marked on the right side of the receiver/frame.
- features include: grooved receiver/frame for optic mounting; manual safety; under barrel air pressure fill port and front facing pressure gauge; synthetic pistol grip; matte black finish.

Manufacturer

- "SPA" may be marked on the left side of the receiver/frame.
- "SPA" means Snow Peak Airguns.
- Snow Peak Airguns is located in China.

Action

- pre-charged pneumatic (PCP) cylinder.
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of thirteen numbers and a letter, a dash and a letter suffix "Q-G" or "Z-G".

Notes

Make

- "ARTEMIS" over "Airgun and Accessories" is marked on the left side of the receiver/frame.
- "Artemis" is a trade mark used by Snow Peak Airguns.

Model

- "MODEL PP750" is marked on the left side of the receiver/frame.
- "PP750" is a pre-charged pneumatic (PCP) pistol using a rotary magazine and having a removable collapsible stock.
- "PP750" was introduced in 2019.
- features include: fixe, blade front and protected adjustable rear sight; 66cc air reservoir under the barrel; pressure gauge at the front of the reservoir; top of the receiver/frame dovetailed for optic mounting; right side bolt lever; manual safety lever on the right side of the receiver/frame; pistol like grip with integral trigger guard; wood or synthetic grip panels; removable and collapsible buttstock with fixe or adjustable rubber recoil pad; black finish.
- overall length with a 204mm (8") barrel is 406mm (16") with the stock collapsed, average weight is 1.47kg (3.24 lbs).

Manufacturer

- "SNOWPEAK" is marked on the left side of the receiver/frame.
- "SNOWPEAK" stands for "Shaoxing Snowpeak Air Gun Factory".
- "SNOWPEAK" also use the acronym "SPA".
- "SNOWPEAK" is located in China.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- pre-charged pneumatic (PCP) cylinder. - at least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is marked on the left side of the receiver/frame.
Calibre	- calibre identification is marked on the left side of the receiver/frame.
Shots	- detachable rotary magazine.
Canadian Law Comments	- at least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4 mps (500 fps) and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorization to Transport. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps (500 fps) and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorization to Transport.

195263 - 3	177 PELLET	9	480	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	
195263 - 2	22 PELLET	7	480	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
195263 - 4	22 PELLET	7	480	Prohibited CC 84(1) "prohibited device" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ARTEMIS" is marked on the left side of the receiver/frame.
- "Artemis" is a trade mark used by Snow Peak Airguns.

Model

- "PR900W" is marked on the left side of the receiver/frame.
- features include: front sight which may or may not incorporate a sound suppressor; rear sight; grooved receiver/frame for optic mounting; manual safety; adjustable trigger; detachable rotary magazine; ambidextrous wood stock with cheek rest area and rubber recoil pad; matte black finish.
- overall length 950 mm (37.4"), and weight is 2.27 kgs (5lbs).

Manufacturer

- "SPA" may be marked on the left side of the receiver/frame.
- "SPA" means Snow Peak Airguns.
- Snow Peak Airguns is located in China.
- "MADE IN CHINA" is marked on the firearm.

Action

- pre-charged pneumatic (PCP) design.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number of a referenced example consisted of thirteen numbers and two letter suffix with dash as "X-G" or "H-G".
Shots	- detachable rotary magazine.
Canadian Law Comments	- this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. - if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed. - discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "ARWEN" is a trade name owned by Police Ordnance Company Inc.of Markam, Ontario, which, prior to 2001 was owned by Royal Ordnance Weapons and Munitions of Nottingham, England.
- the Arwen name is derived from "Anti Riot Weapon ENfield", the design of which was originally developed in 1977.

Model

- model "37" is marked on the firearm.
- this is an anti-riot, non-lethal weapon designed to shoot various gas and baton projectiles and utilizes a rotary magazine where each round is automatically indexed at top dead centre.
- features include: rifled barrel; fully ambidextrous manual safety; two finger position trigger; constructed of lightweight polymer and aluminum alloy materials; matte black or yellow finish; telescoping butt stock.
- there are two other variants of this model; the 37T (Tactical) fitted with a shorter barrel (185mm), and a shorter telescopic stock, and the 37S (Shorty) also with a 185mm barrel but has no butt stock.
- also available in a pistol version as the Arwen Ace-T and Arwen Ace-P.

Manufacturer

- "Police Ordnance Company Inc." is marked on the receiver/frame.
- the company is located in Markham, Ontario, Canada.
- in 2001, Police Ordnance purchased the Arwen trademark, patents, technical data and remaining inventory from Royal Ordnance Weapons and Munitions of England and subsequently began manufacturing this model in Canada.

Type

- anti-riot, less-lethal weapon: designed to shoot various gas and baton projectiles.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or muzzle a muzzle energy exceeding 5.7 Joules.
Serial Number	- the serial number is marked on the left side of the top strap. - all Canadian manufactured Arwen 37 models have serial numbers prefixed with a maple leaf emblem and have a letter "C" prefix followed by a 3000 series number. - serial numbers encountered other than in the 3000 numbered series would indicate manufacture prior to 2001 by Royal Ordnance Weapons and Munitions, UK.
Calibre	- 37MM ammunition with a rebated-rim case is not interchangeable with other 37MM riot control ammunition which has a rimmed cartridge case.
Other Markings	- "Made in Canada" and "Police Ordnance Company Inc." are marked on the receiver/frame.
Remarks	- referenced muzzle velocity using the fastest ammunition ("Barricade Penetrating Round") is 450fps.

Notes

Make

- "ARWEN" trade name was owned by Royal Ordnance PLC of Nottingham, England prior to 2001.
- the Arwen name is derived from "Anti Riot Weapon ENfield".
- the Arwen design was originally developed in 1977.
- "ARWEN" trade name has been owned by Police Ordnance Company Inc.of Markam, Ontario, since 2001.

Model

- anti-riot, less-lethal weapon designed to shoot various gas and baton projectiles.
- semi automatic revolver action with a rotary magazine, each round is automatically indexed at top dead center.
- rifled barrel, fully ambidextrous manual safety.
- lightweight construction mostly of polymer, and aluminium alloy materials, matt black finish.
- telescoping butt stock.
- there are two other variants of this model, the 37T (Tactical) fitted with a shorter barrel (185mm), and a shorter telescopic stock, and the 37S (Shorty) with a barrel of 165mm, and no butt stock.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Royal Ordnance PLC/Royal Ordnance Nottingham Small Arms Facility was established in Nottingham, England in 1988. - Royal Ordnance PLC was formed on 2nd January 1985 as a public corporation. - Royal Ordnance PLC owned the majority of what until then were the remaining United Kingdom government owned Royal Ordnance Factories (ROFs) which manufactured explosives, ammunition, small arms including the Lee-Enfield rifle, guns and military vehicles such as tanks. - Royal Ordnance PLC was bought by British Aerospace (BAe) in April 1987, which became BAE Systems in 1999. - Royal Ordnance, name was retained for almost another twenty years; and the sites retained their former names, either as Royal Ordnance or later RO Defence sites. - Royal Ordnance was renamed BAE Systems Land Systems (Munitions & Ordnance) in 2004. - BAE Systems Land Systems became part of BAE Systems Land and Armaments in 2005.
Type	- anti-riot, less-lethal weapon: designed to shoot various gas and baton projectiles.
Action	- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or muzzle a muzzle energy exceeding 5.7 Joules.
Calibre	- 37MM ammunition with a rebated-rim case is not interchangeable with other 37MM riot control ammunition which has a rimmed cartridge case.

Notes

Make	- "ASELKON" is marked on the right side of the firearm.
Model	- "MX-10" is marked on the right side of the firearm. - Features include: fixed air cylinder mounted under the barrel; psi pressure gauge on the right side of the firearm; safety located on the right side of the receiver/frame; may come equipped with a wood or synthetic stock; may come equipped with a silencer. - Overall length with a 450 mm (17.7 inches) barrel is 850 mm (33.4 inches), average weight is 2.85 kg (6.28 lbs).
Manufacturer	- "ASELKON" is marked on the right side of the firearm.
Action	- Pre charged pneumatic.
Serial Number	- The serial number is usually marked on the right side of the receiver/frame.
Calibre	- The calibre designation is usually marked on the right side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

- If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.
- This firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, Sec. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, Sec. 2) is removed the receiver/frame/barrel assembly may be correctly classified as "Non-Restricted" or "Restricted".

Notes

Make	- "ASELKON" is marked on the right side of the firearm.
Model	- "MX-10S" is marked on the right side of the firearm. - Features include: fixed air cylinder mounted under the barrel; psi pressure gauge on the right side of the firearm; safety located on the right side of the receiver/frame; may come equipped with a silencer. - Overall length with a 450 mm (17.7 inches) barrel is 650 mm (25.5 inches), average weight is 2.6 kg (5.73 lbs).
Manufacturer	- "ASELKON" is marked on the right side of the firearm.
Action	- Pre charged pneumatic.
Serial Number	- The serial number is usually marked on the right side of the receiver/frame.
Calibre	- The calibre designation is usually marked on the right side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

- If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.
- This firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, Sec. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, Sec. 2) is removed the receiver/frame/barrel assembly may be correctly classified as "Non-Restricted" or "Restricted".

FRT Report

Firearm Reference Number (FRN): 25213
Make: Aserma
Model: ADP

Summary

Make:	Aserma
Model:	ADP
Manufacturer:	Aserma Manufacturing
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SOUTH AFRICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
25213 - 1	9MM LUGER	10	91	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make may be marked on the firearm.
Model	- the model designation is molded into the grip panel. - "ADP" is the acronym for the designer Alex Du Plesis - this is a domestically produced South African pistol which combines features from a number of other successful handgun designs (notably Glock and Heckler & Koch). - features include: polymer receiver/frame; striker-fired; "hooked" trigger-guard for finger-forward hold; manual safety on left side of receiver/frame; open fixed sights; and a "delayed blowback" operating system similar to the H&K P7 series.
Manufacturer	- the manufacturer may be marked on the firearm.
Action	- delayed blowback.
Serial Number	- numbered on the slide and/or barrel.
Shots	- detachable box magazine.

Notes

Make

- ASG in logo form is marked on the right side of the firearm.
- ASG is the abbreviation for "Action Sport Games".

Model

- TAC4.5 is marked on both, rear, sides of the firearm.
- TAC4.5 in its original form is factory equipped with a sound suppressor/silencer.
- TAC4.5 is from the grip, magazine feed, double-action trigger mechanism with a two piece, synthetic clam shell of thumbhole design rifle.
- TAC4.5 is available in 6MM Airsoft BB as the TAC6 rifle.
- Features include: one piece flash hider barrel shroud, that screw in front of the receiver/frame; detachable front and rear sight on the full length top accessory rail; front of the forend has an integrated mounting bay for a laser module; five, elongated ventilation holes on each side of the forend; may have an adjustable bipod; magazine release on the left side of the pistol grip.

- Overall length with a 305 mm (12 inches) barrel is 900 mm (36 inches), average weight is 1.58 kg (3.5 lbs).

Manufacturer

- Action Sport Games (ASG) is located in Denmark.
- Action Sport Games (ASG) was founded in April of 2003.
- Action Sport Games (ASG) was the merging of Pedersen & Grobelnik A/S and Vestergaard ApS.
- Action Sport Games (ASG) is a manufacturer of Airsoft guns, Airguns, Co2 guns, Paintball markers, toy guns and firearms replicas.

Notes

Make

- "Ashbury Precision Ordnance" and/or the APO logo of crosshairs superimposed on a flaming bomb resembling an "O" (the "O" in "Ordnance") is marked on the firearm.
- Ashbury Precision Ordnance, Manufacturing is a Division of Ashbury International Group.
- Ashbury International Group was founded in 1995.
- Ashbury Precision Ordnance, Manufacturing builds precision rifles based on receiver/frames manufactured by McMillian, Surgeon Rifles, and their own "Saber" Remington 700-compatible actions.

Model

- the model may or may not be marked on the firearm; this is a "sporter"-styled hunting rifle built on APO's Remington 700-compatible "Saber" receiver/frame, installed in a walnut pistol-grip stock with ebony forearm tip.
- these rifles are available on a custom basis, in a wide variety of chamberings and barrel lengths.
- features usually include: blued finish on a stainless barrel and receiver/frame; no open sights (drilled and tapped for scope mounts); checkered walnut pistol-grip stock with ebony forearm tip; sling swivel studs; hinged floorplate; adjustable trigger; sliding safety on the right side, behind the bolt handle; and a rubber recoil pad.

Manufacturer

- "Ashbury Precision Ordnance" and/or the APO logo of crosshairs superimposed on a flaming bomb resembling an "O" (the "O" in "Ordnance") is marked on the firearm.
- Ashbury Precision Ordnance, Manufacturing is a Division of Ashbury International Group.
- Ashbury International Group was founded in 1995.
- Ashbury Precision Ordnance, Manufacturing builds precision rifles based on receiver/frames manufactured by McMillian, Surgeon Rifles, and their own "Saber" Remington 700-compatible actions.

Action

- turn-bolt design.

Serial Number

- serial-numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- blind box magazine.
- capacity may vary, depending on chambering.

Make

- "CAL. 6.35 MODEL AUTOMATIC PISTOL" over "ASIATAC" is usually marked on the left side of the slide.

Model

- "CAL. 6.35 MODEL AUTOMATIC PISTOL" over "ASIATAC" is usually marked on the left side of the slide.
- "Asiatac" is a small "vest-pocket" style of hammerless semi-automatic pistol
- "Asiatac" resembles a FN-Browning model 1906, but without a grip safety.
- features include: fixed groove sight; round barrel; flat sided slide with semi-circular rear gripping serrations; 1906 type receiver/frame without grip safety and with a left side mounted rotating safety that locks into a disassembly notch on the slide; magazine release is mounted on the heel of the back strap; synthetic grip plates with a depiction of a raised cobra; blued finish.

Action

- blowback operated.

Shots

- detachable box magazine.

Notes

Make

- "AOC" may be marked on the fiirearm.
- "AOC" is the abbreviation for Aspen Outfitting Company.
- Aspen Outfitting Company is located in Aspen, Colorado, U.S.A..

Model

- introduced circa 1999.
- model may be marked on the firearm.
- features include: side by side smooth bore chopper lump barrels with bead front sight and concave rib; front hinged Anson & Deeley boxlock receiver/frame with top tang mounted break opening lever and safety lever; hammerless; selective automatic ejectors; double trigger mechanism; checkered walnut splinter style forearm and straight English style buttstock; blued barrels; engraved and case hardened receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "UGARTECHEA" or "I.UGARTECHEA" or "IGNACIO UGARTECHEA EIBAR" or "UGARTECHEA MADE IN SPAIN" may be marked on the receiver/frame or on the barrel. - the letters "I" over "U" within a shield is one of the known company logo's for "Ignacio Ugartechea".
Action	- side by side barrel configuration.
Serial Number	- serial number is usually marked on the watertable of the receiver/frame. - serial number rationalization is unknown. - Spanish government instituted a new system for firearm's serial numbering in 1995. - Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer. - Spanish serial number example is as follows: "35 - 03 - 1#0#1 - 95". - serial number break down: the first two numbers (35) are the code numbers for the manufacturer, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence, and the last two numbers (95) are the year of manufacturer.

Notes

Make	- "ASTRA PATENT" is usually marked on the slide.
Model	- the model is not marked on the firearm; this is a post-World War One "Ruby"-style pistol (a copy of the Astra 1915) manufactured for Unceta y Cia (the owners of the "Astra" trademark) by a subcontractor, usually for sale in China, as various Chinese warlords attempted to consolidate power over their respective fiefdoms. - features include: typical "Ruby" layout and operation; blued finish; fixed open sights; left-side manual safety/slide hold-open; single-action trigger mechanism; checkered wooden or synthetic grips (which may read "ASTRA"); heel magazine release; and a lanyard ring at the butt.
Manufacturer	- Iraola y Salaverria's logo of an "IS" in an oval is usually marked on the tang.
Action	- blowback operated.
Serial Number	- serial-numbered on the receiver/frame.
Shots	- detachable box magazine.

16213 - 2	9MM BAYARD	8	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
16213 - 4	9MM LUGER	8	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ASTRA" is marked on the top of the slide and may be repeated on the grip plates.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- "MODELO 1921" is marked on top rear of the slide, "HOPE" may be marked on the barrel.
- this model was manufactured from 1922 to 1926.
- the model "1921" was developed in 1920 for the military trials that were held to find a replacement for the "Campo-Giro" pistol, then in service in Spain.
- this firearm was chosen in August of 1921 as the official replacement for the Campo-Giro and given the military model designation of "Modelo 1921".
- when sold commercially this model was known as the model "400".
- several agencies adopted this model so variations in markings will be found.
- features include: round barrel with knurled barrel bushing lock; tubular slide assembly; bottom loaded box magazine; grip safety; thumb safety located on the left side of the receiver/frame; internal hammer; fixed sights; magazine release located on the bottom rear of the butt or on the left side of the butt; blued receiver/frame and grip panels that may be checkered black rubber, brown plastic or wood.

Manufacturer

- "ESPERANZA Y UNCETA" and "GUERNICA ESPANA" are marked on the top rear of the slide.
- "ASTRA" trade mark, under the letter "E" and over the letter "U" may be marked on the grip plates.
- "EU" is the abbreviation used by "Esperanza y Unceta".

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is located on the right side of the receiver/frame and may be repeated on the right rear side of the slide, on the right side of the chamber of the barrel, inside the slide and beneath the left grip plate.
- serial number range was from number 1 to approximately 35,200.
- serial numbers from 28,901 to 29,800 were duplicated on the Spanish Army and Navy contracts in 1924 - 1925.

Calibre

- barrels chambered in 9MM LUGER were offered by aftermarket suppliers.

Shots

- detachable box magazine.

Other Markings

- the following may be marked:
on the top of the slide:
ASTRA and trade mark logo
and
ESPERANZA Y UNCETA
GUERNICA ESPANA
PISTOLA DE 9 M/M
MODELO 1921
and
on the barrel:
HOPE

Notes

Make

- "ASTRA" is marked on top of the slide and may be repeated on the grip plates.
- "ASTRA" was originally founded by "Don Juan Esperanza" and "Don Pedro Unceta" in 1908.
- "ASTRA" is a trade name used on firearms by the following manufacturers: "Pedro Unceta y Juan Esperanza" circa 1908, "Esperanza y Unceta" circa 1915, "Unceta y Compania S.A." circa 1926, and "Astra-Unceta y Cia" circa 1953.

Model

- "MODELO 1921 (400)" is marked on top rear of the slide.
- this model designation was introduced in 1931.
- this model was actually manufactured from 1926 to 1946 by "Unceta y Compania".
- this model superceded the model 1921.
- the "Modelo 1921 (400)" was the model designation marked on military firearms and when sold to the civilian market it was known as the model "400".
- the "A.F. Stoeger Inc." of New York, U.S.A. also sold the model "400" under their model designation "Super Power".
- features include: round barrel with knurled barrel bushing lock; tubular slide assembly; single action; grip safety; thumb safety is located on the left side of the receiver/frame; internal hammer; fixed sights; magazine release is located on the bottom rear of the butt or on the left side of the butt; blued receiver/frame; and the grip panels may be checkered black rubber, brown plastic or wood.

Manufacturer

- "UNCETA Y COMPANIA" and "GUERNICA ESPANA" are marked on the top rear of the slide.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is located on the right rear side of the receiver/frame and may be repeated on the right rear side of the slide, on the right side of the chamber of the barrel, inside the slide and beneath the left grip plate. - the serial number range for the "1922 (400)" falls within the following numbers: from approximately number 35,200 to 105,275.
Calibre	- calibre designation is marked on the top rear of the slide, eg "9 M/M & 38".
Shots	- this is a single column detachable box magazine.
Other Markings	- the following may be marked on the top of the slide: ASTRA and trade mark logo and UNCETA Y COMPANIA GUERNICA ESPANA PISTOLA DE 9 M/M (38) MODELO 1921 (400)

Notes

Make

- the Astra logo is marked on top of the barrel shroud/slide, consisting of a starburst inside a circle, with "ASTRA" across the middle, and a script "E" above the "ASTRA", and a script "U" below the "ASTRA".

Model

- the full model is not marked on the firearm.
- "MODELO 1921" is marked at the left rear of the barrel shroud/slide, with a "glowing crown" (a crown surrounded by rays) marked behind the front sight.
- this is a specifically marked variation of the Astra 1921 pistol, produced for the Carabineros (a mounted subsidiary of the Spanish border patrol) in 1930.
- features include: blued finish; standard Astra "tubular" layout and operation; knurled slide cap; fixed open sights with lengthwise groove along the slide; specific markings on the forward part of the slide: single-action trigger; a rotating safety above and behind the trigger; checkered synthetic grips bearing the Astra logo; a lanyard ring at the butt; heel magazine release.

Manufacturer

- "UNCETA Y COMPANIA" and "GUERNICA ESPANA" are marked on the top rear of the slide.

Action

- blowback operated.

Serial Number

- serial number is marked on the right rear side of the receiver/frame, at the tang and may be repeated on the slide.

Shots

- detachable box magazine.

Notes

Make

- "ASTRA" is usually marked on the slide and/or the grips.
- "ASTRA" was originally founded by "Don Juan Esperanza" and "Don Pedro Unceta" in 1908.
- "ASTRA" is a trade name used on firearms by the following manufacturers: "Pedro Unceta y Juan Esperanza" circa 1908, "Esperanza y Unceta" circa 1915, "Unceta y Compania S.A." circa 1926, and "Astra-Unceta y Cia" circa 1953.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the Model 200 went through four manufacturing changes from the time it was first introduced in 1920 to the time it was dropped in 1967 from the Astra line.
- FIRST VARIATION:
- model designation does not usually appear on the firearm, though "1924" (and other dates) may be found stamped on the slide.
- 1924 and other year dates are production year markings . In 1927 year coding proofs marks were used. See "Remarks" for the year codes.
- features include: curved slide serrations; with or without grip safety; sights consist of a sighting groove cut in the centre of the slide and top of slide is mill-out/dished-out to incorporate a loaded chamber indicator pin.
- SECOND VARIATION:
- model designation usually appears on the grip as "M200" and/or on the slide as "Mod 200".
- features include: curved slide gripping serrations; sights consist of a sighting groove cut in the centre of the slide; first of the "Model 200's" to be equipped with the triple safety feature, grip safety, thumb safety and magazine safety and top of slide is mill-out/dished-out to incorporate a loaded chamber indicator pin.
- THIRD VARIATION:
- model designation usually appears on the grip as "M200" and/or on the slide as "Mod 200".
- features include: curved slide gripping serrations; triple safety feature, grip safety, thumb safety and magazine safety; sights consist of a sighting groove cut in the center of the slide.
- the major change to the third variation is the slide. The loaded chamber indicator pin which was milled out on the top of the slide was dropped and replaced with one that protrudes from the rear.
- FOURTH VARIATION:
- known as the "200 Firecat"
- the major change to the fourth variation is the slide. The slide grip serrations were made straight and finer. Lightening cuts/scallops were made in the rear portion of the slide and rear and front sights were made to appear distinct by altering or removing the grooved rib between the two sights.

Manufacturer

- usually marked on the slide.

Action

- blowback operated.

Serial Number

- APPROXIMATE SERIAL NUMBER RANGE	YEAR OF PRODUCTION
- 233461 - 247150	1920 - 1922
- 247151 - 318500	1922 - 1934
- 500001 - 506000	1934 - 1943
- 526461 - 526550	1936 (held in stock until 1945)
- 648601 - 663200	1947 - 1949
- 663251 - 663300	1949
- 678001 - 710000	1951 - 1953
- 722001 - 779850	1953 - 1962
- 860001 - 875000	1962 - 1964
- 875001 - 898475	1964 - 1967

Calibre

- calibre is normally marked on the left side of the slide.

Shots

- single column box magazine with thumb release at base of receiver/frame.

Other Markings

- slide markings usually found on the model 200.
- first variation: " Esperanza y Unceta GUERNICA (Spain)"
  ASTRA- Cal.6.35 & 25

- second, third and fourth (200 Firecat); " 'ASTRA' MOD 200 CAL 6,35 (25) "

- or; " Unceta y Compania S.A. - Guernica "
  ASTRA - Cal.6.35 & 25
  MADE IN SPAIN.

- or; " ASTRA - UNCETA Y CIA - GUERNICA "
  CAL. 6,35 .25" MADE IN SPAIN

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- since 1927 all firearms tested at the Proof House in Eibar (Banco Oficial de Pruebas) have been marked with an identification mark denpoting the year the firearm was tested.

Notes

Make

- "ASTRA" is usually marked on the slide and/or the grips.
- "ASTRA" was originally founded by "Don Juan Esperanza" and "Don Pedro Unceta" in 1908.
- "ASTRA" is a trade name used on firearms by the following manufacturers: "Pedro Unceta y Juan Esperanza" circa 1908, "Esperanza y Unceta" circa 1915, "Unceta y Compania S.A." circa 1926, and "Astra-Unceta y Cia" circa 1953.

Model

- this model was manufactured from circa 1955 to 1967.
- this model, the fourth variation of the Model 200 became known as the "Firecat" or "200 Firecat".
- the major change to the fourth variation is the slide. The slide grip serrations were made straight and finer. Lightening cuts/scallops were made in the rear portion of the slide and the rear and front sights were made to appear distinct by altering or removing the grooved rib between the two sights.
- the first three variations of the model 200 used a full length sighting groove milled into the top of the slide and had no "Firecat" markings.

Manufacturer

- "UNCETA Y CIA" is marked on the right side of the barrel.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- make may be marked on the left side of the slide as:
"ASTRA - UNCETA y Cia S.A. - Guernica".
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- model designation may not marked on the firearm.
- introduced in 1954.
- the model 2000 is similar to the model 200, however, the 2000 has an external hammer, no grip safety and a push button magazine release.
- features include: blued, chrome or gold finished receiver/frame and slide, exposed hammer, fixed front sight, rear sight may be adjustable, safety is located on the left side of the receiver/frame above the trigger, magazine release is located at the bottom of the left grip and the grips may be white, pearl, brown or black plastic with or without the Astra logo.
- this model evolved into and may be alternately known as the "Cub" as marked on the grip panels.

Manufacturer

- manufacturer's designation may be marked on the left side of the slide as:
"ASTRA - UNCETA y Cia S.A. - Guernica", and "MADE IN SPAIN".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- progressive numbers from 1954 to 1983. - in 1983 the serial number rationalization changed and the series started over again at A2002 to include a single letter prefix. - the serial number is marked on the right side of the receiver/frame and may also be marked on the right side of the slide.
Calibre	- calibre designation is normally marked on the left side of the slide. Example "Cal. .22"short". - for the 25 Auto, 6.35mm a conversion kit is available for 22 short ammunition.
Shots	- detachable box magazine.
Remarks	- This firearm started life as the "ASTRA" model "2000", made in Spain in calibre 22 SHORT. - It was then renamed the "ASTRA" model "CUB" for North American export/consumption in 1954. - In 1956 with a 102MM barrel length it became the "CAMPER". The "CAMPER" and "CUB" are identical except for a drift-adjustable rear sight on the "CAMPER" and the longer barrel on the "CAMPER". - In 1956 the "CUB" was introduced in a new calibre, 25 AUTO or 6.35MM. - In 1958 "ASTRA" started manufacturing the "CUB" as the "COLT" model "JUNIOR COLT" in both 22 SHORT & 25 AUTO. The USA Gun Control Act of 1968 put an end to the importation of the "COLT" model "JUNIOR COLT". - Post 1968, "Firearms International" had receiver/frames manufactured for them in the USA and imported parts from "ASTRA", assembling pistols which were sold as the "US MADE" "COLT AUTO" calibre 25 AUTO between 1970 and 1973 when Colt discontinued the model. - The tooling for the US manufactured receiver/frame was then sold to Firearms Import/Export (FIE) of Miami, Florida who subsequently assembled about 20,000 pistols in 25 AUTO calibre under the name of the FIE model "THE BEST" between 1980 and 1985. - As of 1999 the "ASTRA CUB" is manufactured in Spain under the ASTRA name only and is available only in 25 AUTO calibre. The 22 SHORT calibre having been discontinued in 1980.

Notes

Make

- the "ASTRA" logo is marked on the top of the slide and on the grip plates.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "ASTRA" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- "MODELO 300" is usually marked on the top of the slide, may also be marked with the year of manufacture.
- features include: blued finish was the standard for this model, special orders included chrome finish with or without engraving; fixed front and rear sights; magazine release is located on the lower left side of the grip; equipped with a thumb safety on the left side and a grip safety; two-piece hard rubber grips with the early "Astra" logo in the upper portion (special order guns have been noted with white or ivory coloured plastic grips with the "Astra" logo and address in gold foil).

Manufacturer

- "ESPERANZA Y UNCETA" and "GUERNICA ESPAÑA" are marked on the top of the slide.
- manufactured from 1923 to 1926 by "Esperanza Y Unceta".
- also produced from 1926 to 1946 by "Unceta y Cia" (the successor to "Esperanza Y Unceta".
- examples produced by "Esperanza Y Unceta" will be marked "UNCETA Y COMPAÑIA S.A." over "GUERNICA ESPAÑA".

Action

- blowback operated.

Serial Number

- serial number is usually located on the right rear of the receiver/frame, with the serial number repeated on the slide.
- serial number range and years of production for the "ASTRA Model 300" are:
- S/N 350,001 to 378,700 from 1923 to 1934 for 28,700 units (produced by "Esparanza Y Unceta" and "Unceta Y Cia");
- S/N 506,001 to 526,460 from 1934 to 1936 for 20,460 units (produced by "Unceta Y Cia"); and
- S/N 526,551 to 630,475 from 1937 to 1946 for 103, 925 units (produced by Unceta Y Cia").

Calibre

- a small number of conversion kits that included a barrel and cartridge inserts in 4MM were offered for this model.

Shots

- detachable box magazine.

Other Markings

- the early (pre-1926) "Astra" logo incorporated the letter "E" in the top of the design and the letter "U" in the bottom of the design.
- the later (post-1926) "Astra" logo incorporated the letter "U" in the top of the design and the letter "C" in the bottom of the design.

Remarks

- removing the grip panels may facilitate identifying units with no slide markings (or a receiver/frame only). Units produced after 1926 are usually stamped "UNCETA Y COMPAÑIA S.A." under the left grip panel along with the last few digits of the serial number.

Notes

Make

- the "ASTRA" logo is marked on the top of the slide and on the grip plates.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "ASTRA" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- manufactured from 1923 to 1946.
- model designation is not usually marked on the top of the slide (earlier production were marked so units produced during the transition period from "Esperanza Y Unceta" to "Unceta Y Cia" may have the model designation and may also be marked with the year of manufacture).
- features include: blued finish was the standard for this model, special orders included chrome finish with or without engraving; fixed front and rear sights; magazine release is located on the lower left side of the grip; equipped with a thumb safety on the left side and a grip safety; two-piece hard rubber grips with the early "Astra" logo in the upper portion (special order guns have been noted with white or ivory coloured plastic grips with the "Astra" logo and address in gold foil).

Manufacturer

- "UNCETA Y COMPAÑIA S.A." and "GUERNICA ESPAÑA" are marked on the top of the slide.
- produced from 1926 to 1946 by "Unceta y Cia" (the successor to "Esperanza Y Unceta".
- also manufactured from 1923 to 1926 by "Esperanza Y Unceta".
- examples produced by "Esperanza Y Unceta" will be marked "ESPERANZA Y UNCETA" and "GUERNICA ESPAÑA".

Action

- blowback operated.

Serial Number

- serial number is usually located on the right rear of the receiver/frame, with the serial number repeated on the slide.
- serial number range and years of production for the "ASTRA Model 300" are:
- S/N 350,001 to 378,700 from 1923 to 1934 for 28,700 units (produced by "Esparanza Y Unceta" and "Unceta Y Cia");
- S/N 506,001 to 526,460 from 1934 to 1936 for 20,460 units (produced by "Unceta Y Cia"); and
- S/N 526,551 to 630,475 from 1937 to 1946 for 103, 925 units (produced by Unceta Y Cia").

Calibre

- a small number of conversion kits that included a barrel and cartridge inserts in 4MM were offered for this model.

Shots

- detachable box magazine.

Other Markings

- when the company was renamed "Unceta Y Cia" in 1926 the order was given to change the "Astra" logo markings found on the slide and grip panels, as many parts were still in inventory some pistols produced between 1926 and 1929 will be found with the earlier marking.
- typical German World War II procurement markings on the right side rear of receiver/frame:
(WaA 251).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- a quantity of the model 300 were used by the German "Condor Legion" (this was the unit that constituted the German aid to General Franco during the Spanish Civil War). Although Spain was a neutral country during World War II its sympathies lay with the Axis powers. As a result, 85,390 model 300's were procured by the German army between 1941 and 1944.
- the early (pre-1926) "Astra" logo incorporated the letter "E" in the top of the design and the letter "U" in the bottom of the design.
- the later (post-1926) "Astra" logo incorporated the letter "U" in the top of the design and the letter "C" in the bottom of the design.
- removing the grip panels may facilitate identifying units with no slide markings (or a receiver/frame only). Units produced after 1926 are usually stamped "UNCETA Y COMPAÑIA S.A." under the left grip panel along with the last few digits of the serial number.

Notes

Make

- the "ASTRA" logo is usually marked on the top of the slide.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- model is marked on firearm as "Mod 3000".
- manufactured from 1946 to 1956.
- this is the updated version of the model 300 and the improvements include: the grip shape was changed to make the firearm more comfortable; a loaded cartridge indicator pin was installed and the magazine release was relocated from the bottom of the left frame to the thumb release position.
- standard model 3000's were finished with a rust blue finish and checkered black plastic grips.
- optional finishes were available on special order and designated;
Model 3001, 3002, 3003, 3004, 3005, 3006 and 3007 depending on the grip style, amount of engraving and ornamentation.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Unceta y Compania S.A." "GUERNICA (Spain)" is marked on the top of the slide.
Action	- blow back operation.
Serial Number	- located on the right tang area of the firearm. - numbered in Unceta y Cia's general sequential serial numbering system from approximately 630,476 to 722,000. - a total of 44,839 pistols were produced.
Shots	- detachable box magazine.
Other Markings	- the rear portion of the slide stamped as follow; Astra U/C logo and then in three rows; "Unceta y Compania S.A." "GUERNICA (Spain)" "ASTRA Mod. 3000" - the standard grips were made of black plastic with the U/C logo surmounted by MOD 3000 marking.

Notes

Make

- the make is normally marked on the top of the barrel as "ASTRA".
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "ASTRA" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- manufactured from 1921 to 1926 by "Esperanza y Unceta". In 1926 the company changed ownership and was renamed "Unceta y Compania".
- the model designation is normally marked on the top of the slide as "MODELO 1921".
- may also be known as: "Model 1921", which was the year it began production.
- this model is the commercial version of the "Model 1921".
- features include: single action; blued receiver/frame and barrel; slide is round on the top; internal hammer; fixed sights; grip safety; knurled muzzel; a thumb safety located on the left side of the receiver/frame; magazine release located on the butt of the grip or the left side of the grip at the butt and grip panels that may be checkered black rubber, brown plastic or wood.

Manufacturer

- the manufacturer is normally marked on the top of the slide as, "ESPERANZA Y UNCETA" over " GUERNICA ESPANA".
- in 1926 the company Esperanza Y Unceta was dissolved leaving Sr. Rufino Unceta as the sole owner of the company. The company name was changed from "Esperanza y Unceta" to "Unceta y Compania" and the Astra logo was altered. The company changed hands in 1926, but the new altered logo and company name was not placed on the model 400 firearms until 1931.

Action

- blowback operated.

Serial Number

- may have full matching serial number on the receiver, slide and barrel.
- the serial number is marked on the right side of the receiver/frame at the top of the grip.
- the serial number range is from 1 to approximately 43,000.

Calibre

- the calibre designation is normally marked on the top of the slide and may be marked on the barrel visible through the ejection port. Example of a slide marking, "PISTOLA DE 9m/m".

Shots

- single column, detachable box magazine.

Other Markings

- Markings may be as follows:
- on top of the slide, between front sight and the ejection port: a large Astra trademark with E/U on logo,
- on top of the slide, in front of rear sight, in four lines: "ESPERANZA Y UNCETA" "GUERNICA ESPANA" " PISTOLA DE 9 m/m" " MODELO 1921"

Notes

Make

- the make is normally marked on the top of the barrel as, "ASTRA" and the grip panels may have the Astra logo.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "ASTRA" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- manufactured from 1926 to 1945 by the company "Unceta y Compania". Was previously manufactured from 1921 to 1926 by the company "Esperanza y Unceta" - the model designation is normally marked on the top of the slide as, "MODELO 1921 (400)". - may also be known as "Model 1921", which was the year it began production. - this model is the commercial version of the "Model 1921". - features include: single action; blued receiver/frame and barrel; the slide is round on the top; internal hammer; fixed sights; a grip safety; knurled muzzle; a thumb safety located on the left side of the receiver/frame; magazine release located on the butt of the grip or the left side of the grip at the butt and grip panels that may be checkered black rubber, brown plastic or wood. - after the fall of France in 1940, stocks of these firearms which had been taken into French service were captured by the German forces and renamed 9MM Pistole (Astra) P 642 (f).
Manufacturer	- the manufacturer is normally marked on the top of the slide as, "UNCETA Y COMPANIA" over " GUERNICA ESPANA". - in 1926 the company Esperanza y Unceta was dissolved leaving Sr. Rufino Unceta as the sole owner of the company. The company name was changed from "Esperanza y Unceta" to "Unceta y Compania" and the Astra logo was altered. The company changed hands in 1926, but the new altered logo and company name was not placed on the model 400 firearms until 1931.
Action	- blowback operated.
Serial Number	- the serial number is marked on the right side of the receiver/frame at the top of the grip. - the serial number range is from approximately 43,000 to 105,275.
Calibre	- the calibre designation is normally marked on the top of the slide and on the barrel and visible through the ejection port. Example of a slide marking, "PISTOLA DE 9m/m (38)" and a barrel marking, "9m/m & 38".
Shots	- detachable box magazine.

Notes

Make

- the make is not marked on the firearm; this is a copy of the Astra 400 pistol, manufactured by the Republican forces during the Spanish Civil War.

Model

- the model is marked on the top of the slide as "F. Ascaso - Tarrasa - Cataluna".
- this is an unlicensed copy of the Astra 400 pistol, manufactured by the Republican forces during the Spanish Civil War, to equip troops fighting against the Nationalists; this pistol was named after Francisco Ascaso, a high-profile anarchist and communist who fought for the Republicans, and who was killed in 1936.
- features include: typical Astra 400 layout and operation; blued finish; groove and half-moon sights; tubular slide with rear serrated gripping surfaces; single-action trigger mechanism; safety on the left side of the receiver; wood grip panels; heel magazine release; and a lanyard loop.
- this pistol was manufactured at a captured army base on the outskirts of Barcelona; a very similar pistol was manufactured as the "RE"/"Republica Espagnola", in Valencia, with an entwined "RE" logo on the top of the slide and the grip-plates.

Manufacturer

- the manufacturer may or may not be marked on the firearm.
- between 5000 and 8000 of these pistols were manufactured at an ex-army base in Tarrasa, Spain (outside of Barcelona) controlled by the Spanish Republicans during the Spanish Civil War.

Action

- blowback.

Serial Number

- numbered on the receiver/frame.

Shots

- detachable box magazine.

Notes

Make

- the "ASTRA" trademark and name are marked on the left side of the slide.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- "MOD. 500" is marked on the left side of the slide.
- the Astra model 5000 line was manufactured from 1965 to 1991.
- the 5000 line consisted of the Constable or Constable I, Constable II, Constable Sport and the 500.
- total production of the model 500 was approximately 450 units.
- this model is similar in appearance to the Walther PP or Mauser HSc.
- this is the single action variant of the model 5000.
- features include: slide mounted safety lever; exposed hammer; magazine release button; two piece grip plate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "ASTRA UNCETA CIA - GUERNICA (SPAIN)" is marked on the left side of the slide.
Action	- blowback operated.
Serial Number	- the serial number is marked on the right front side of the receiver/frame. - serial number range for the "5000" line was from 940,001 to 1,300,000 plus.
Calibre	- calibre designation is usually marked on the chamber of the barrel.
Shots	- single column detachable box magazine.
Other Markings	- marked on the left side of the slide: the "Astra Trademark" and "ASTRA UNCETA CIA - GUERNICA (SPAIN)" MOD 500

Notes

Make

- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- manufactured from 1943 to 1945, with inventory sales continuing into the 1950's.
- the early models have no model markings.
- Astra logo on the top forward portion of the slide and "UNCETA Y COMPANIA, S.A." and on a second line "GUERNICA ESPANA".
- later models; the logo was droped but the model and caliber were added in a four line form.
- marked on the later models; "UNCETA Y COMPANIA, S.A", "GUERNICA ESPANA", "ASTRA MOD. 600/43" and "9mm PARABELLUM".

Manufacturer

- Unceta Y COMPANIA, S.A.

Serial Number

- assigned its own serial number sequence.
- approximately range from 1 to 59400.

Shots

- single column, detachable box magazine.

Other Markings

- early models may be marked on the barrel in side the ejection port (PIST PATR 08).

Notes

Make

- "ASTRA" is marked on the firearm.
- "ASTRA" was originally founded by "Don Juan Esperanza" and "Don Pedro Unceta" in 1908.
- "ASTRA" is a trade name used on firearms by the following manufacturers: "Pedro Unceta y Juan Esperanza" circa 1908, "Esperanza y Unceta" circa 1915, "Unceta y Compania S.A." circa 1926, and "Astra-Unceta y Cia" circa 1953.

Model

- manufactured from 1980 to 1987.
- features include: ventillated rib on top barrel; hinged receiver/frame with top tang mounted break open lever; tang mounted slide safety; boxlock; double triggers; extractors or automatic ejectors; walnut stock; scroll engraved receiver/frame.

Manufacturer

- "Astra-Unceta y Cia" was located in Guernica, Spain.

Action

- over and under barrel configuration.

Serial Number

- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacturer, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

- "ASTRA" is marked on top of the slide.
- "ASTRA" was originally founded by "Don Juan Esperanza" and "Don Pedro Unceta" in 1908.
- "ASTRA" is a trade name used on firearms by the following manufacturers: "Pedro Unceta y Juan Esperanza" circa 1908, "Esperanza y Unceta" circa 1915, "Unceta y Compania S.A." circa 1926, and "Astra-Unceta y Cia" circa 1953.

Model

- "Mod. 700" is marked on the top rear of the slide.
- DO NOT CONFUSE the Astra 700 (an extremely rare pre-production 9mm BAYARD version of the Astra 400 produced at the end of World War Two) with the Astra 700 Special (a 32 AUTO/7.65mm pistol that resembles a "Ruby" pistol with a Browning 1910-style concentric recoil spring, which was produced for the Chinese export market during the 1920s).
- this is a version of the Astra 400 manufactured with a rounded backstrap in 1945, as a potential police and military pistol to replace their then-issue Astra 400s. As the Spanish test trials selected the Star "A" for this purpose instead, the Astra 700 never went into full production, and is extremely rare.
- features include: tubular Astra 400 layout; blued finish; fixed open sights; single-action striker-fired; left-side rotating safety; checkered walnut grips; grip safety on a curved backstrap; and a lanyard ring at the butt.

Manufacturer

- "Unceta y Compania, S.A." and "GUERNICA Espana" is marked on the top rear of the slide.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is located on the right rear of the receiver/frame.
Calibre	- 9m/m (38)" may be marked on the top rear of the slide.
Shots	- detachable box magazine.

Notes

Make

- "ASTRA" is marked on the firearm.
- "ASTRA" was originally founded by "Don Juan Esperanza" and "Don Pedro Unceta" in 1908.
- "ASTRA" is a trade name used on firearms by the following manufacturers: "Pedro Unceta y Juan Esperanza" circa 1908, "Esperanza y Unceta" circa 1915, "Unceta y Compania S.A." circa 1926, and "Astra-Unceta y Cia" circa 1953.

Model

- the model designation is not marked on the firearm; this is a "grade" designation used by Astra to denote a lower grade of side by side, side lock exposed-hammer shotgun with minimal engraving on the side plates.
- features include: blued finish; bead sight; matted top-rib; English style splinter forearm and straight-grip stock; Purdey double underlug lock-up with a "doll's-head" rib extension; top lever; and dual triggers.

Manufacturer

- "Astra-Unceta y Cia" was located in Guernica, Spain.

Notes

Make

- "ASTRA" is marked on the slide.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- the model desigantion appears on the slide.
- "CONDOR" may be moulded into the plastic pistol grips, early production had plain or checkered walnut grips.
- production started in 1959, approximately 11432 pistols were made.

Manufacturer

- manufacturer is marked on the firearm.

Serial Number

- the serial number may be found under the left side rail.
- serial numbers 1-30 were assigned to preproduction samples, 1945 - 1958,
- standard production range in:
- 1958 was from 820001 to 825600,
- 1959 was from 825601 to 826400,
- 1963 was from 826400 to 827600,
- 1964 was from 827601 to 828600,
- 1965 was from 828601 to 830600,
- 1966 was from 830601 to 831400,
- 1967 was from 831401 to 831406, and
- 1986 was from 831407 to 831432.

Calibre

- the barrel hood in the ejection port maybe marked "9m/m PARABELLUM"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- single stack magazine.
- "ASTRA" may be stamped on the tip of the magazne floorplate.

Notes

Make

- "ASTRA" is marked on the firearm.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- "841" model designation is not marked on the firearm.
- "841" is a "grade" designation used by Astra to denote a high grade of side by side sidelock hammerless shotgun with full engraving on the sideplates, receiver/frame, and chambers.
- features include: round side by side barrels with matted rib and bead front sight; front hinged receiver/frame with top tang mounted break open action release lever and automatic slide safety; hammerless; double triggers; extractors or automatic ejectors; walnut English-style splinter forearm and straight-grip or pistol-grip buttstock; blued barrels; colour-case-hardened and scroll engraved receiver/frame and sideplates.

Manufacturer

- "Astra-Unceta y Cia" is located in Guernica, Spain.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Notes

Make

- ""ASTRA" AUTOMATIC PISTOL CAL 7.63" or ""ASTRA" AUTOMATIC PISTOL CAL 7.63" over "PATENTED JULY. 12. 1928" over "Uncetay Compania GUERNICA <SPAIN>" may be marked on the left side of the receiver/frame.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- manufactured from 1927 to 1944 and approximately 21,000 were produced.
- semi automatic only.
- externally resembles the Mauser "C96" machine pistol with shoulder stock.
- marked as "ASTRA AUTOMATIC PISTOL CAL. 7.63"
- following markings could be found on the left side of the receiver/frame "MAUSER PATRONEN CAL 7.63" or "ASTRA" AUTOMATIC PISTOL CAL 7.63 or "ASTRA" AUTOMATIC PISTOL CAL 7.63" over "PATENTED JULY. 12. 1928" or "ASTRA" AUTOMATIC PISTOL CAL 7.63" over "PATENTED JULY. 12. 1928" over "Unceta y Compania GUERNICA (Spain)". Also some of the early 900's are marked on the top flat surface of the barrel/chamber with the word "Hope".

Manufacturer

- ""ASTRA" AUTOMATIC PISTOL CAL 7.63" or ""ASTRA" AUTOMATIC PISTOL CAL 7.63" over "PATENTED JULY. 12. 1928" over "Uncetay Compania GUERNICA <SPAIN>" may be marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial numbering ranges between 1 to 33788.
- should be located just above the grip panel on the left side of the receiver.

Other Markings

- the following markings could be found on the left side of the receiver MAUSER PATRONEN CAL 7.63 or "ASTRA" AUTOMATIC PISTOL CAL 7.63 or "ASTRA" AUTOMATIC PISTOL CAL 7.63 PATENTED JULY. 12. 1928 or "ASTRA" AUTOMATIC PISTOL CAL 7.63 PATENTED JULY. 12. 1928 Unceta y Compania GUERNICA (Spain). Also some of the early 900's are marked on the top flat surface of barrel/chamber with the word "Hope".
- Chinese characters may be found on the left side of the receiver/frame for serial number from 26501 to 26700 and from 26805 to 27899, those characters mean "Made in Sun Country" or "Made in Spain".

Notes

Make

- ""ASTRA" AUTOMATIC PISTOL CAL 7.63" over "PATENTED JULY. 12. 1928" or ""ASTRA" AUTOMATIC PISTOL CAL 7.63" over "PATENTED JULY. 12. 1928" over "Uncetay Compania GUERNICA <SPAIN>" may be marked on the left side of the receiver/frame.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- "MODELO 902" is marked on the side of the receiver/frame.
- introduced in 1928 and approximately 7100 were manufactured.
- came in two version: semi automatic only and selective fire.
- the selective fire version had a selector lever on the right hand side of the receiver which allowed for semi or full automatic fire.
- externally resembles the Mauser "C96" machine pistol.
- designed with a fixed 20 shot integral box magazine and able to mount a detachable shoulder stock.

Manufacturer

- "Uncetay Compania GUERNICA <SPAIN>" may be marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial numbering ranges between 1 and 26750. - should be located just above grip panel on the left side of receiver.
Calibre	- also known as 30 Mauser.
Other Markings	- Markings: left side of receiver "ASTRA" AUTOMATIC PISTOL CAL 7.63 PATENT JULY. 12. 1928.

3755 - 3	7MM MAUSER	15	620	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Model

- "ASTRA-UNION" and "MODELO 1927" are marked on the firearm.
- this is a short-lived light machine gun that was adopted by the Spanish military in 1931, just prior to the Spanish Civil War; with the Civil War, the new government cancelled the existing contract for this machine gun, leaving somewhere around 30 of these machine guns actually being manufactured.
- features include: a generalized Hotchkiss 1922 LMG appearance, blued finish; cone flash-hider; open adjustable sights; light folding bipod on the gas tube; various barrel profiles (some finned); a thick wooden forearm and vertical wooden fore-grip below the strip-feed; and a straight-grip buttstock with an internal rate-reducer and a rear monopod.

Manufacturer

- "UNCETA y COMPANIA" is marked on the firearm.

Action

- gas-operated.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- metallic strip-fed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- in the case of the firearms commonly known as the Fabrique Nationale, FN FAL, and any of the FN FAL variants, regardless of country of origin or manufacture; the component designated as the receiver/frame is that piece of forged and machined metal into which the barrel is threaded which contains the locking shoulder and is commonly known as the upper receiver/frame or body. The sheet metal fabrication known as the trigger mechanism housing or lower receiver/frame will be considered to have no significance to the registration process.

Other Markings

- Browning Arms Company Morgan Utah & Montreal P.Q. Patent, model number and Caliber .308 WIN ONLY (308 as an example only).

Remarks

- this model is a semi-automatic only version of the selective fire FN-FAL, hence the G designation.
- the firearm is commercial and was not a military re-work for commercial sale.

Notes

Make

- "ASTRA" is marked on the firearm.
- "ASTRA" was originally founded by "Don Juan Esperanza" and "Don Pedro Unceta" in 1908.
- "ASTRA" is a trade name used on firearms by the following manufacturers: "Pedro Unceta y Juan Esperanza" circa 1908, "Esperanza y Unceta" circa 1915, "Unceta y Compania S.A." circa 1926, and "Astra-Unceta y Cia" circa 1953.

Model

- the model may or may not be marked on the firearm.
- this is a "coach gun" style exposed-hammer side by side, side lock shotgun made by Astra during the late 1990s.
- features include: blued barrels and side plates; matte nickel receiver; bead sight; sling swivels under barrel and butt; a beavertail forearm; manually-cocked hammers on the roll-engraved side plates; dual triggers; and a pistol-grip buttstock.

Manufacturer

- "Astra-Unceta y Cia" was located in Guernica, Spain.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- numbered on the receiver/frame.

- "ASTRA" is marked on the left side of the receiver/frame.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is marked on the left side of the receiver/frame. - features include: break open design with a top tang mounted opening lever; automatic ejector and exposed hammer. - english references use the spelling "Cyclops" when refering to this model.
Manufacturer	- "Unceta & Cia S.A." is marked on the left side of the receiver/frame.
Serial Number	- serial number is marked on the left side of the receiver/frame. - observed serial number consisted of six numbers without a letter prefix or suffix. - serial number rationalization is unknown. - Spanish government instituted a new system for firearm's serial numbering in 1995. - Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer. - Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95". - serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.
Calibre	- on bottom of the receiver the calibre in an oval may be found.

Notes

Make

- the make is normally marked on the left side of the slide as, "ASTRA". The Astra logo may also be marked on the left side of the slide.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- may also be known as M5000 CONSTABLE, 5000 CONSTABLE, or CONSTABLE I.
- this Model was developed in the Model 5000 series along with CONSTABLE II, CONSTABLE SPORT, and MODEL 500. Although this series number is often referenced, it was not marked on the firearm.
- a number of design and mechanical changes were made during the first fifteen years of production. In order to avoid confusion when dealing with replacement parts, ASTRA began referring to the earlier Model as CONSTABLE I (which did not appear on the firearm) and designated the later Model as CONSTABLE II (which did appear on the firearm).
- the production of the calibre 22 LR began in 1965 and was discontinued in 1990.
- the production of the calibre 32 AUTO and 7.65MM began in 1965 and was discontinued in 1984.
- the production of the calibre 380 AUTO and 9MM BROWNING SHORT began in 1965.
- the model designation is normally marked on the left side of the receiver/frame and may be marked as, "CONSTABLE" or "MOD. CONSTABLE".
- this model resembles the Walther PPK.
- features include: double action, blued or chromed finished receiver/frame and barrel, exposed round hammer, fixed front sight with an adjustable rear sight, a safety located on the left side of the slide, serrations on the rear of the slide, the magazine release is located on the left of the grip, and the grip panels will vary from plastic to wood, with or without a thumb rest.

Manufacturer

- the manufacturer is normally marked on the left side of the slide and may be marked as on of the following;
- "ASTRA - UNCETA Y Cia. S.A." over "GUERNICA - SPAIN".
- "ASTRA - UNCETA Y Cia - GUERNICA (SPAIN)".

Action

- blowback operated.

Serial Number

- the serial number is marked on the right side of the receiver/frame above the trigger guard as sequential numbers.
- the serial number within the "Model 5000" series were numbered together. The serial numbering began at 940,001.

Calibre

- the calibre designation is normally marked on the firearm and may be marked on the left side of the slide or on the barrel and visible through the ejection port.

Shots

- detachable box magazine.

Importer

- the importer/distributor name may be marked on the firearm. Observed samples have had the importer/distributor name marked on the left side of the slide, or on the right side of the receiver/frame above the trigger guard.
- Garcia has been seen marked on the firearm as, " THE GARCIA CORP. WASH, D.C.", or, "THE GARCIA CORP." over "WASH, D.C.", or, "GARCIA SPORTING ARMS" over "WASHINGTON D.C.".

Notes

Make

- the ASTRA name is marked on the slide.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "ASTRA" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- the model designation may be marked on the grip panel as "CUB" in an oval, scroll or on the left side of the slide as "MOD CUB".
- introduced in calibre 22 SHORT in 1954 and 25 AUTO/ 6.35MM in 1956.
- in 1956 the "CAMPER" was introduced. The "CAMPER" and "CUB" are identical except the "CAMPER" features a drift-adjustable rear sight, longer barrel and may be marked "CAMPER" on the grip panels.
- in 1958 "ASTRA" started manufacturing the "CUB" as the "COLT" model "JUNIOR COLT" in both 22 SHORT & 25 AUTO. The USA Gun Control Act of 1968 put an end to the importation of the "JUNIOR COLT".
- post 1968, "Firearms International" had receiver/frames manufactured for them in the USA and imported parts from "ASTRA", assembling pistols which were sold as the "US MADE" "COLT AUTO" calibre 25 AUTO between 1970 and 1973.
- the tooling for the US manufactured receiver/frame was then sold to Firearms Import / Export (FIE) of Miami, Florida who subsequently assembled about 20,000 pistols in 25 AUTO calibre under the name of the FIE model "THE BEST" between 1980 and 1985.
- as of 1999 the "ASTRA CUB" has been manufactured in Spain under the "ASTRA" name only and is available in 25 AUTO calibre. The 22 SHORT calibre was discontinued in 1980.
- features include: steel receiver/frame and slide; exposed hammer; fixed front sight; the rear sight may be adjustable; safety is located on the left side of the receiver/frame above the trigger; the magazine release is located at the bottom of the left grip and the grips may be white or black plastic marked with the "ASTRA" logo.
- also known as the "Cub 2000" when it has a blued finish; "Cub 2001" with a chrome finish; "Cub 2002" with a shallow engraved silver finish; "Cub 2002-CR" is shallow engraved with a chrome finish; "Cub 2003" with a deep engraved silver finish and "Cub 2004" featuring a gold "damascene" engraved finish.

Manufacturer

- the manufacturer will be marked on the left side of the slide.

Action

- blowback operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- from 1954 to 1983 the serial number consisted of up to seven sequential numbers. In 1983 the serial number rationalization changed and the series started over again at A2002. One alpha character followed by four sequential numbers.

Calibre

- the calibre designation is normally marked on the left side of the slide.

Shots

- detachable box magazine.

Importer

- imported until 1992.

Other Markings

- three variations in slide markings have been noted.

1) ASTRA - UNCETA Y Cia S.A. - GUERNICA
CAL. .22" SHORT MADE IN SPAIN

2) ASTRA - UNCETA Y Cia S.A. - GUERNICA
CAL. 6.35, .25" MADE IN SPAIN

3) ASTRA UNCETA Y CIA - GUERNICA (SPAIN)
MOD CUB CAL. 6.35, (.25")

Notes

Make

- "ASTRA" is marked on the left rear side of the receiver/frame.
- "ASTRA" was originally founded by "Don Juan Esperanza" and "Don Pedro Unceta" in 1908.
- "ASTRA" is a trade name used on firearms by the following manufacturers: "Pedro Unceta y Juan Esperanza" circa 1908, "Esperanza y Unceta" circa 1915, "Unceta y Compania S.A." circa 1926, and "Astra-Unceta y Cia" circa 1953.

Model

- model is part of the M900 series.
- introduced in 1949 with a total production of approximately 548.
- some presentation grade examples exist that have a gold damascene finish.
- also available in a selective fire variant.

Action

- recoil operated.

Serial Number

- serial number range from 33,875 to 33, 917.
- serial number is usually marked on the left side of the receiver/frame directly above the grip panel.

Shots

- detachable box magazine.

Notes

Make

- "ASTRA" is marked on the left rear side of the receiver/frame.
- "ASTRA" was originally founded by "Don Juan Esperanza" and "Don Pedro Unceta" in 1908.
- "ASTRA" is a trade name used on firearms by the following manufacturers: "Pedro Unceta y Juan Esperanza" circa 1908, "Esperanza y Unceta" circa 1915, "Unceta y Compania S.A." circa 1926, and "Astra-Unceta y Cia" circa 1953.

Model

- model designation not marked on the firearm.
- produced from 1949 to 1951 and reintroduced in 1960 with production ending that year.
- externally resembles the Mauser "C96" machine pistol and can be fitted with a removable, wooden holster that doubles as a shoulder stock.
- features include: detachable magazine located ahead of the trigger guard; loading can be accomplished by retracting the bolt and using a stripper clip; adjustable tangent rear sight; wooden grips; lanyard ring; manual safety located at rear of receiver/frame on the left; exposed hammer.
- differs from the semi-automatic version by having a selective fire mechanism comprised of a radial switch lever mounted on the right side of the receiver/frame.

Manufacturer

- "Astra-Unceta y Cia" was located in Guernica, Spain.

Action

- recoil operated.

Serial Number

- serial number ranges from 33,789 to 33,874 and 33,918 to 34,336.
- serial number is usually marked on the left side of the receiver/frame directly above the grip panel.

Notes

Make

- "ASTRA AUTOMATIC PISTOL" or "Pista Ametra ASTRA" is marked on the left side of the receiver/frame.
- ASTRA is the trade name for "UNCETA Y COMPANIA, Guerica, Spain.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- ""ASTRA" AUTOMATIC PISTOL CAL 7.63", and "PATENTED JULY. 12. 1928" or "Pista Ametra ASTRA modo "F" de 9mm (38)" is marked on the left side of the receiver/frame.
- selective fire handgun bearing external resemblance to the Mauser 1896 "Broom Handle" semi automatic pistol.
- external hammer, detachable box magazine located in front of triggerguard.
- selector lever is located on right side of receiver/frame to the rear of the trigger.
- distinctive grooved "bag" or "broomhandle" shaped two piece grips.
- rear of grip frame slotted for attachment of a shoulder stock.
- these handguns were manufactured in 1935 for the Spanish Guardia Civil (state police) with a total production run of 1,100 pistols.
- the Model F pistol incorporated a mechanical rate of fire reduction mechanism to enable the firearm to be fired more controllably on full automatic mode.

Manufacturer

- "Unceta y Compania GUERNICA (Espana)" may be marked on the left side of the receiver/frame.

Serial Number

- serial number is located on the left side of the receiver/frame, above the wooden grip.
- Model F pistols serial number range falls between 29,666 and 30,800.

Notes

Make

- "ASTRA" is the trade name used by "Astra-Unceta y Cia., S.A." and may be marked on the barrels.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is a trade name used on firearms produced by "Esperanza Y Unceta" circa 1914 - 1926 and "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- "Imperial" is marked on the side of the receiver/frame.
- features include: side by side barrel configuration with raised flat rib; hinged receiver/frame with top tang mounted break open lever; tang mounted automatic slide safety; hammerless; Purdey or Greener lock mechanism; double triggers; extractors; pistol grip buttstock; beavertail forend; horn or rubber butt plate; double bead sights; sling swivels.

Manufacturer

- manufacturer's name is marked on the firearm.

Action

- side by side configuration.

Serial Number

- observed serial numbers consisted of four or five digit number and a two letter "UC" suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Calibre

- calibre is marked on the firearm.

Notes

Make

- the Astra name is marked on the receiver/frame, the Astra logo is moulded into the top of each grip panel.

Model

- "REGENT" is marked on the right side of the receiver/frame.
- manufactured from 1967 to 1977 and again from 1983 to 1984.
- 5,825 firearms manufactured.
- features include: fixed sights; round rifled barrel; fluted, swing out cylinder; extractor rod also functions as the cylinder release; double action trigger mechanism; brown synthetic grip; blued finish.
- overall length with a 102mm (4") barrel is 220mm (8 2/3"), average weight 830g (29 oz).

Manufacturer

- "ASTRA - UNCETA Y CIA S.A." over "GUERNICA - SPAIN" is marked on the right side of the receiver/frame.

Serial Number

- the sample examined was numbered on the left side of the receiver/frame and on the crane.
- the serial numbers for the model manufactured from 1967 70 1977 started at number 1 and continued unbroken to 4625.
- the serial numbers for the model manufactured from 1983 to 1984 consisted of a letter "R" followed by six numbers.

Calibre

- calibre designation is marked on the right side of the receiver/frame.

Make: Astra
Model: Side By Side

Summary

Make:	Astra
Model:	Side By Side
Manufacturer:	Unceta y Cia
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121602 - 1	12 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
121602 - 4	12 GA X 2 3/4"	2	760	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
121602 - 2	12 GA X 3"	2	762	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
121602 - 3	20 GA X 3"	2	660	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "ASTRA" was observed marked on the barrel flats and repeated on the water table.
- "Esperanza Y Unceta" officially registered the "Astra" name in November of 1914 (but it is seen on pistols produced prior to 1914).
- "Astra" is also a trade name used on firearms produced by "Unceta Y Compania S.A." since 1926 (also known as "Astra-Unceta Y Cia" since 1953).

Model

- model is not marked on the firearm.
- this is a generic entry for those Astra side by side shotguns that are not identifiable as to model.
- features include: side lock or box lock action; external hammers or hammerless design; single or double triggers; engraved or plain receiver/frame; checkered wood stock.

Manufacturer

- manufacturer's name is marked on the firearm.

Action

- side by side configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is located on the water table and may be repeated on the barrel flats and on the inside of the forend.
- observed serial number consisted of four numbers without a letter prefix or suffix.
- observed serial number consisted of five numbers with out a letter prefix or suffix.
- serial number rationalization is unknown.
- Spanish government instituted a new system for firearm's serial numbering in 1995.
- Spanish system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacturer.
- Spanish serial number example is as follows: "31 - 03 - 1#0#1 - 95".
- serial number break down: the first two numbers (31) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence, and the last two numbers (95) are the year of manufacture.

Notes

Make

- "Astra Arms", "Switzerland" and the Astra Arms logo of a circle with a stylized star and a banner with the word "ASTRA" across it is marked on the left side of the receiver/frame, above the trigger.

Model

- model designation may be marked on the firearm.
- this firearm is a Swiss based Astra Arms manufactured copy of the FN MINIMI light machine gun that incorporates Fabrique Nationale patented alternate feed mechanism that permits AR-15/M16 box-type cartridge magazine or a M27 disintegrating link metallic cartridge belt
- features include: quick detachable rifled barrel with flash suppressor; two position gas regulator; carry handle at midpoint; black polymer handguard that is available with 3-rail accessory rails; under folding adjustable bipod; open adjustable sights; top cover with M27 disintegrating link compatible belt feed mechanism and integral accessory rail; STANAG compatible magazine housing on the left side; black polymer pistol grip; collapsible tubular metal stock with foldable shoulder rest;
- there is semi-automatic commercial version of the Astra Arms MG556 that uses the same receiver/frame as the full automatic version populated with semi-automatic components.
- overall length with a 349mm (13.7") barrel is 766mm (30.2") with stock in collapsed position, 914mm (36") with stock in extended position.

Manufacturer

- "Astra Arms", "Switzerland" and the Astra Arms logo of a circle with a stylized star and a banner with the word "ASTRA" across it is marked on the left side of the receiver/frame, above the trigger.

Type

- full automatic light machine gun

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated, open bolt.
Serial Number	- serial number is usually marked on the left side of the firearm on the channel portion of the receiver/frame.
Calibre	- calibre is marked on the left side of the firearm.
Shots	- uses all AR-15/M16 detachable box magazines or the M27 metallic disintegrating link cartridge belt.

Notes

Make

- "Astra Arms", "Switzerland" and the Astra Arms logo of a circle with a stylized star and a banner with the word "ASTRA" across it is marked on the left side of the receiver/frame, above the trigger.

Model

- introduced in 2016.
- "MG556" and "LIGHT MACHINE GUN" is marked on the left side of the channel portion of the receiver/frame.
- this firearm is a Swiss based Astra Arms manufactured copy of the FN MINIMI machinegun that uses AR15/M16 STANAG pattern cartridge magazines.
- features include: quick detachable rifled barrel with flash suppressor; open front sight; monoblock gas regulator; carry handle at midpoint; black polymer handguard; under folding adjustable bipod; top cover feed mechanism is incomplete so that it does not allow belt feeding of cartridges; top cover is provided with an integral accessory rail and adjustable peep rear sight; magazine housing on the left side; black polymer pistol grip; fixed length tubular metal stock with foldable shoulder rest.
- overall length with a 486mm (19.13") barrel is 1078mm (42.44")
- there is a full automatic machine gun version of the Astra Arms MG556 that uses the same receiver/frame populated with full automatic components.

Manufacturer

- "Astra Arms", "Switzerland" and the Astra Arms logo of a circle with a stylized star and a banner with the word "ASTRA" across it is marked on the left side of the receiver/frame, above the trigger.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated, closed bolt.
Serial Number	- serial number is marked on the left side of the channel portion of the receiver/frame. - observed sample had a serial number that contained an "MGC" prefix followed by six numbers.
Barrel	- barrel length does not include any barrel attachments.
Calibre	- calibre is marked on the left side of the firearm.
Shots	- detachable box magazine. - the belt-feeding tray is a mock-up: the .223 Remington (5,56x45mm) caliber MG556 feeds only through detachable AR15 type STANAG magazines. - AR15 type magazines were introduced in 1959 as a 20 shot magazine.

Notes

Make

- "ASTRA-LLAMA" and/or the Astra-Llama logo of "A" and "LL" flanking a torch in a sunburst is marked on the firearm.
- Astra-Llama was a collaboration between Astra and Llama from 1985 through 1991, wherein each manufacturer produced versions of their own revolvers under the "Astra-Llama" name. This collaboration grew out of the companies' co-operation in the production of the Llama 82 pistol after it was adopted by the Spanish military.

Model

- "MOD.680" is marked on the barrel.
- this is a version of the Astra "680" sold under the "Astra-Llama" name during the 1980s and 1990s, during a collaboration between Astra and Llama.
- the model designation is marked on the right side of the barrel.
- features include: round barrel with shroud for ejection rod; solid receiver/frame with swing out cylinder; cylinder release is located on the left side of the receiver/frame; exposed hammer; single/double action trigger mechanism; fixed sights; rounded butt.

Manufacturer

- the manufacturer is marked on the firearm.

Action

- SA/DA revolver.

Notes

Make

- "ata arms" is marked on the right side of the receiver/frame.
- "ATA" inside a double-lined shield is marked on the right side of the receiver/frame.
- The company logo is marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- Introduced in 2022.
- "ASR" is marked on the right side of the receiver/frame.
- "ASR" is marked on the right side of the firearm.
- "ASR" may be marked on an inset metal plate or "cut out" window in the pistol grip section of the firearm in front of the trigger and trigger guard.
- "ASR" may be marked on the upper modular section of the firearm, under the ejection port opening.
- The "ASR" is a modular, take-down bolt-action rifle, specifically made for quick barrel changes to alter caliber configuration as needed by use of a "Hex" wrench, stored in a special tool compartment located in the forend.
- Features include: ventilated barrel shroud with accessory rails; right side turn-bolt; modular pistol grip with integrated trigger mechanism and three position safety ("S" safe, "F" fire and "L" lock, to lock for transport); magazine release toggle in front of the trigger guard; fully adjustable shoulder stock.
- Overall length with a 610 mm (24 inches) barrel is 933 mm (36.7 inches), average weight is 6.25 kg (13.78 lbs).

Manufacturer

- The manufacturer is marked on the right side of the receiver/frame.
- "ATA" inside a double-lined shield is marked on the right side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- "ATA Arms" was established circa 1960's.
- "ATA Arms" products were imported into North America by "K.B.I." of Harrisonburg, PA, and "Tristar" of North Kansas City, MO, U.S.A., prior to 2008.
- "ATA Arms" products have been imported into North America by "Weatherby" of Paso Robles, CA, U.S.A., beginning in 2008.
- Noted individual: "Celal Yollu", established "AVSAN Company" in 1973, in Turkey, Duzce and produced an Over & Under shotgun.
- Produced the model 92-A Semi-Auto Shotgun; in or for VURSAN.
- Produced the model 95-A Semi-Auto/Pump Action; in or for VURSAN

- Noted individual "Celal Yollu", established "ATA Company" in 1997, in Istanbul, Dudullu Industrial Area.

- Important years:
- 2000 "VURSAN" partnered with "Beretta".
- 2002 "VURSAN" was sold to "Beretta".
- 2013 "ATA" moved to Istanbul, Cekmekoy

- "ATA Defense" name established in 2013 for Research & Development for defense industry.

Action

- Turn bolt operated.

Serial Number

- Serial number is usually marked on the receiver/frame of the firearm.

Calibre

- The calibre designation is marked on the barrel.
- Rifling characteristics in calibre 300 WIN MAG: 6 grooves, 1 turn in 10 inches.
- Rifling characteristics in calibre 308 WIN: 4 grooves, 1 turn in 11 inches.
- Rifling characteristics in calibre 338 Lapua Mag: 6 grooves, 1 turn in 10 inches.
- Rifling characteristics in calibre 6.5mm Creedmoor: 6 grooves, 1 turn in 8 inches.

Shots

- Detachable box magazine.

Notes

Make

- "ATA ARMS" was observed marked on the right side of the receiver/frame.

Model

- "CY" is not marked on the firearm.
- CY firearms are a series of semi-automatic shotguns featuring various finishes and barrel length combinations.
- features include: fiber optic front sight or adjustable fiber optic rifle sights; blued tapered round barrel; ventilated top rib or plain barrel; smooth or rifled chrome lined bore; interchangeable choke; alloy plain or engraved solid top, bottom fed, side ejection receiver/frame; action release button is located below the ejection port; single trigger mechanism; cross-bolt type safety mounted on the rear of the trigger guard; checkered semi-pistol grip wood or synthetic buttstock and forearm; rubber recoil pad.
- also available in a camo finish.
- average weight is 2.9 kgs (6.4lbs) for a 12 GA version and 2.7 kgs (5.9lbs) for a 20 GA version.

Manufacturer

- "Ata Arms", "ATA ARMS", "ATA ARMS MADE IN TURKEY", or "ATA Made in Turkey" may be marked on the firearm.
- "ATA Arms" / "ATA av Tufekleri San ve Tic Ltd Sti" is located in Istanbul, Turkey.
- "ATA Arms" was established circa 1960.
- "ATA Arms" products were imported into North America by K.B.I. of Harrisonburg, PA, and Tristar of North Kansas City, MO, U.S.A., prior to 2008.
- "ATA Arms" products have been imported into North America by Weatherby of Paso Robles, CA, U.S.A., beginning in 2008.

Action

- gas operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed sample showed two digits followed by a slash followed by five digits.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Calibre

- calibre designation was observed marked on the right side of the barrel.

Shots

- tubular magazine fed.

Notes

Make

- "ATA ARMS" is marked on the barrel.

Model

- "ETRO" is marked on the both side of the receiver/frame.
- features include: ramp front sight with bead or a high ramp fibre optic tactical front sight and a removable aperature tactical rear sight; round smoothbore barrel with an interchangeable choke tube; solid top receiver/frame with right side ejection and bottom loading; receiver/frame is drilled and tapped for a Picatinny equipment rail; synthetic ribbed forearm with or without a Picatinny rail and a fixed traditional pistol grip buttstock, fixed buttstock with a vertical pistol grip, pistol grip only, or a pistol grip with a folding metal buttstock; matte black/blued finish.
- overall length with a 410 mm barrel and a fixed buttstock with a vertical pistol grip is 979 mm.

Manufacturer

- "Ata Arms", "ATA ARMS", "ATA ARMS MADE IN TURKEY", or "ATA Made in Turkey" is usually marked on the firearm.
- "ATA Arms" / "ATA av Tufekleri San ve Tic Ltd Sti" is located in Istanbul, Turkey.
- "ATA Arms" was established circa 1960.
- "ATA Arms" products were imported into North America by K.B.I. of Harrisonburg, PA, and Tristar of North Kansas City, MO, U.S.A., prior to 2008.
- "ATA Arms" products have been imported into North America by Weatherby of Paso Robles, CA, U.S.A., beginning in 2008.

Serial Number

- serial number is marked on the receiver/frame.
- observed serial number consisted of a two letter prefix and four numbers.

Calibre

- gauge and chamber length are marked on the barrel.

Shots

- tubular magazine is mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- "ATA ARMS" was observed marked on the right side of the receiver/frame below the ejection port.

Model

- "Neo" was observed marked on the right side of the receiver/frame, above the trigger guard.
- the Neo is an inertia operated, semi-automatic shotgun featuring various finishes and barrel length combinations.
- features include: walnut or synthetic stock, blued or nickel receiver/frame; may or may not have minor decorative engraving; cross-bolt type safety mounted on the rear of the trigger guard; shell cut-off system lever located on the forward right side of the trigger guard, action release button below the ejection port; ventilated rib or plain barrel; bead or fibre optic front sight with adjustable rear sights on the slug gun model; interchangeable chokes and recoil pad.

Manufacturer

- "Ata Arms", "ATA ARMS", "ATA ARMS MADE IN TURKEY", or "ATA Made in Turkey" is usually marked on the firearm.
- "ATA Arms" / "ATA av Tufekleri San ve Tic Ltd Sti" is located in Istanbul, Turkey.
- "ATA Arms" was established circa 1960.
- "ATA Arms" products were imported into North America by K.B.I. of Harrisonburg, PA, and Tristar of North Kansas City, MO, U.S.A., prior to 2008.
- "ATA Arms" products have been imported into North America by Weatherby of Paso Robles, CA, U.S.A., beginning in 2008.

Action

- inertia recoil operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- observed serial number consisted of two digits followed by a slash followed by five numbers "12/xxxxx".
- observed serial number consisted of two digits followed by a slash followed by a letter and five numbers "12/Dxxxxx".

Shots

- tubular magazine located under the barrel.

Notes

Make

- "ATAMAN" was observed, on a referenced example, marked on the left side of the receiver/frame and on both sides of the stock.

Model

- "M2" was observed, on a referenced example, marked on the right side of the receiver/frame.
- features include: open flat top accessory rail; free floating shrouded barrel which may be equipped with an integral sound suppressor/silencer; sidelever or bolt action cocking mechanism; adjustable trigger mechanism; 300 bar (4350 psi) pre-charged pneumatic cylinder mounted below the barrel with front mounted quick connect air-port and built in air pressure gauge; crossbolt manual safety located on the side of the stock; walnut, laminated wood or black carbon fiber ambidextrous one piece stock and fixed or adjustable recoil pad.
- average weight is 4kg (8.8lbs).

Manufacturer

- "MADE IN RUSSIA" was observed, on a referenced example, marked on the right side of the receiver/frame.
- other example observed featured "MADE IN RUSSIA", marked on the receiver/frame, hidden by the sidelever cocking mechanism.

Action

- pneumatic powered.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number was observed, on a referenced example, marked on the right side of the receiver/frame.
- observed serial number consisted of six digits.

Barrel

- this firearm may be equipped with an integral sound suppressor/silencer.

Calibre

- calibre designation was observed, on a referenced example, marked on the right side of the receiver/frame.
- other example observed featured the calibre designation hidden by the sidelever cocking mechanism.

Shots

- detachable rotary cylinder magazine.

Canadian Law Comments

- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
- this firearm may be equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 (1) of the Criminal Code of Canada. When the sound suppressor/silencer (prohibited device) is removed the firearm is correctly identified as "Non-Restricted".

Notes

Make

- "ATAMAN" was observed, on a referenced example, marked on the left side of the receiver/frame and on both sides of the stock.

Model

- "M2" was observed, on a referenced example, marked on the right side of the receiver/frame and may be obscured by a cheek piece.
- this version features a bull-pup stock.
- features include: flat top accessory rail; free floating shrouded barrel which may be equipped with an integral sound suppressor/silencer; sidelever or bolt action cocking mechanism; adjustable trigger mechanism; 300 bar (4350 psi) pre-charged pneumatic cylinder is mounted below the barrel with quick connect air-port and built in air pressure gauge; crossbolt manual safety located on the side of the stock; walnut, laminated wood or black, green or beige synthetic bull-pup stock and fixed or adjustable recoil pad.
- overall length for a 520mm (20.5") barrel is 820mm (32.28"), average weight is 4kg (8.8lbs).

Manufacturer

- "MADE IN RUSSIA" was observed, on a referenced example, marked on the right side of the receiver/frame.
- other example observed featured "MADE IN RUSSIA", marked on the receiver/frame, hidden by the sidelever cocking mechanism.

Action

- pneumatic powered.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number was observed, on a referenced example, marked on the right side of the receiver/frame.
- observed serial number consisted of six digits.

Barrel

- this firearm may be equipped with an integral sound suppressor/silencer.

Calibre

- calibre designation was observed, on a referenced example, marked on the right side of the receiver/frame.
- other example observed featured the calibre designation hidden by the sidelever cocking mechanism.

Shots

- detachable rotary cylinder magazine.

Canadian Law Comments

- this firearm may be equipped with an integral sound suppressor/silencer ("Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 (1) of the Criminal Code of Canada) and is also fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When both the sound suppressor/silencer (prohibited device) and the "bull-pup" stock are removed the receiver/frame or complete barrelled action, then the firearm may be correctly classified as "Non-Restricted".

Notes

Make

- "ATAMAN" was observed, on a referenced example, marked on the left side of the receiver/frame and on both sides of the stock.

Model

- "M2 Sport" or "M2" was observed, on referenced examples, marked on the right side of the receiver/frame.
- features include: adjustable rear sight and front sight mounted on the muzzle weight/barrel extension; open flat top accessory rail; free floating barrel; sidelever cocking mechanism; adjustable trigger mechanism; removable pre-charged pneumatic air cylinder mounted below the barrel with front mounted quick connect air port and built in air pressure gauge; wood or laminated ambidextrous one piece stock; adjustable cheek piece, grip, hand rest and recoil pad.
- average weight is 4.7kg (9.9lbs).

Manufacturer

- "MADE IN RUSSIA" was observed, on a referenced example, marked on the right side of the receiver/frame.
- other example observed featured "MADE IN RUSSIA", marked on the receiver/frame, hidden by the sidelever cocking mechanism.

Action

- pneumatic powered.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

serial number was observed, on a referenced example, marked on the right side of the receiver/frame.
- observed serial number consisted of six digits.

Barrel

- muzzle weight/barrel extension not included in measure of barrel length.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre
- calibre designation was observed, on a referenced example, marked on the right side of the receiver/frame.
- other example observed featured the calibre designation hidden by the sidelever cocking mechanism.

Canadian Law Comments
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "ATAMAN" was observed, on a referenced example, marked on the left side of the receiver/frame and on both sides of the stock.

Model

- "M2" was observed, on a referenced example, marked on the right side of the receiver/frame.
- features include: open flat top accessory rail; free floating shrouded barrel which may be equipped with an integral sound suppressor/silencer; sidelever or bolt action cocking mechanism; adjustable trigger mechanism; 300 bar (4350 psi) pre-charged pneumatic cylinder mounted below the barrel with front mounted quick connect air-port and built in air pressure gauge; crossbolt manual safety located on the side of the stock; wood or black, green or beige synthetic foldable and retractable buttstock and pistol grip and forearm.
- overall length for a 280mm (11.02") barrel is 820mm (32.28") and 590mm (23.22") when folded, average weight is 2.8kg (6.2lbs).

Manufacturer

- "MADE IN RUSSIA" was observed, on a referenced example, marked on the right side of the receiver/frame.
- other example observed featured "MADE IN RUSSIA", marked on the receiver/frame, hidden by the sidelever cocking mechanism.

Action

- pneumatic powered.
- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number was observed, on a referenced example, marked on the right side of the receiver/frame. - observed serial number consisted of six digits.
Barrel	- this firearm may be equipped with an integral sound suppressor/silencer.
Calibre	- calibre designation was observed, on a referenced example, marked on the right side of the receiver/frame. - other example observed featured the calibre designation hidden by the sidelever cocking mechanism.
Shots	- detachable rotary cylinder magazine.
Canadian Law Comments	- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. - this firearm may be equipped with an integral sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in "Part III/Firearms and Other Weapons" of Section 84 (1) of the Criminal Code of Canada. When the sound suppressor/silencer (prohibited device) is removed the firearm is correctly identified as "Non-Restricted".

122824 - 2	12 GA X 2 3/4"	25	457	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ATCHISSON" may not be marked on the firearm.
- "Atchisson" as a make is derived from the name of the designer of this particular automatic assault shotgun, Maxwell G. Atchisson.
- Maxwell G. Atchisson designed this firearm in the the early 1970s.
- Maxwell G. Atchisson sold his design for the Atchisson Automatic Assault Shotgun to Military Police Systems, Inc. of Piney Flats, Tennessee, U.S.A., in 1987.

Model

- model designation is not marked on the firearm.
- this is a highly unusual fully-automatic shotgun designed by Maxwell G. Atchisson as a possible military and police firearm, combining a high rate of fire with a high hit probability; limited numbers of this shotgun have been produced, as there were no large-scale buyers.
- features include: post front sight and open "peep" style rear sight; round smoothbore barrel; "in-line" M16-style layout to minimize muzzle climb while firing; "open bolt"/advanced primer ignition operation with a pivoting hammer; large vertical rail in front of the trigger-guard that magazines are slid into for support; M16A1-style handguards and pistol grip.

Action

- blowback operated.

Serial Number

- serial number is marke on the receiver/frame.

Shots

- detachable box or drum magazine.

Notes

Make

- Atlas Arms was an importer/distributor based in Chicago, Illinois, that imported primarily Italian made shotguns and handguns between 1957 and 1972.

Model

- this is a low cost single-shot folding shotgun along the lines of the Daino/Sile Protector/etc., with the opening lever in front of the trigger guard;
- features include: ventilated rib; straight or pistol grip walnut stock; beavertail forearm; scroll engraved receiver/frame.

Manufacturer

- "L.DAFFINI - BRESCIA" may be marked on the side of the barrel.
- Libero Daffini was a manufacturer located in Brescia, Italy from 1947 to 1955 and then in Frazione Mompiano, Montini, Italy from 1955 to the early 1970's.
- Daffini sporterized substantial quantities of military surplus Mauser rifles under the "Lida" trade name and also manufactured rifles, shotguns and airguns.

Action

- hinged barrel, single-shot that can fold in half.

Other Markings

- the barrel may be marked "L Daffini - Brescia".

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
141721 - 1	22 SHORT	1	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ATLAS GUN CO. ILION N.Y" was observed marked on the top of the barrel.

Model

- manufactured from 1890 to 1903.
- "ATLAS GUN CO. ILION N.Y. PAT'D. FEB. 18 1890" is marked on the barrel.
- this is a Flobert-style single-shot rifle based on patents issued to George Peck Gunn (of Haviland & Gunn), then produced by the Atlas Gun Company.
- Atlas Gun Company sold the manufacturing rights to these rifles to the Meriden Firearms Company in 1905. Meriden continued production Atlas rifles until the First World War.
- features include: open fixed sights; one piece round barrel/receiver/frame; manual extractor on the right rear side of the receiver tube; single-action manually-cocked hammer; trigger-guard with an additional "hook" for the middle finger on the wrist; one piece short walnut straight-grip stock with curved buttplate; blued finish.

Manufacturer

- "ATLAS GUN CO. ILION N.Y" was observed marked on the top of the barrel.

Action

- Flobert type single-shot with the hammer acting as the breeching mechanism.

Notes

Make

- "AUSTRALIAN AUTOMATIC ARMS" is marked on the right side of the receiver/frame.

Model

- "SAP" is marked on the right side of the receiver/frame preceeding the serial number.
- "SAP" denotes Semi-Automatic Pistol, a pistol version of the SAR (Semi-Automatic Rifle).
- imported from 1986 to 1989.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "AUSTRALIAN AUTOMATIC ARMS" and "MADE IN AUSTRALIA" are marked on the right side of the receiver/frame. - Australian Automatic Arms Pty. Ltd. was located in Tasmania, Australia from 1983 to the mid 1990s. - Australian Automatic Arms (AAA) purchased Leader Dymamics and manufactured the Leader Mark Series of firearms under the Australian Automatic Arms' name and model designations. - Australian Automatic Arms manufactured the following models: "AR" was a fully automatic version of the SAR; "SAR" was a semi-automatic paramilitary design rifle; "SAC" was a semi-automatic paramilitary design carbine; "SAP" was a semi-automatic paramilitary design pistol; and the "SP" was a semi-automatic sporting configuration (wood forearm and stock) of the SAR.
Action	- gas operated.
Serial Number	- serial number is marked on the right side of the receiver/frame. - the serial number has the prefix "SAP".
Calibre	- "CAL 5.56mm" is marked on the right side of the receiver/frame.
Shots	- detachable box magazine.
Importer	- "IMPORTER CALIFORNIA ARMORY SAN BRUNO CA U.S.A." may be marked on the right side of the receiver/frame.
Other Markings	- may have Kendall International markings.

Firearm Reference Number (FRN): 117730
Make: Australian Defense Industries
Model: US Rifle M1 Garand

Summary

Make:	Australian Defense Industries
Model:	US Rifle M1 Garand
Manufacturer:	Australian Defence Industries (ADI)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	AUSTRALIA
Serial Numbering:	
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
117730 - 1	30-06 SPRG	8	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "ADI LITHGOW" over "AUSTRALIA" is usually marked on the rear of the receiver/frame.

Model

- Introduced in 2001.
- model designation is not marked on the firearm.
- "U.S. RIFLE" over "CAL. .30 M1" is usually marked on the rear of the receiver/frame.
- this is an ADI U.S. M1 receiver/frame that is compatible with all manufacturer's barrels, bolts, gas system, and trigger assemblies.

Manufacturer

- "ADI LITHGOW" over "AUSTRALIA" is usually marked on the rear of the receiver/frame.

Action

- gas operated.

Shots

- Introduced in 2001 with a 8 shot non detachable magazine.
- The M1 type 8 Shot en-bloc magazine was introduced in 1936.
- this firearm does not have a conventional magazine, it has a feed mechanism which must be charged with a special, eight cartridge, enbloc clip.
- once inserted into the firearm, this clip cannot be recharged.

124930 - 3	7.62X39 RUSSIAN	10	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Australian International Arms, Brisbane, Australia" will be marked on the firearm.

Model

- Australian International Arms builds a line of rifles known as the "M10" series. The "M10" is available in a wide variety of configurations where each version is given a unique model designation. The entire "M10" line is based on a newly manufactured, updated and modernized version of the Lee-Enfield No 4 Mark1*.
- the model designation is usually marked on the receiver/frame.
- features include: three-piece stock set made of Teak wood, buttstock features a semi pistol grip (resembles the original Lee-Enfield buttstock profile), forend features a single horizontal grasping groove (the forend extends past the upper handguard on this model); parkerized finish; top of receiver/frame is drilled and tapped for mounting a Picatinny rail; "L" type, dual aperture, flip up rear sight with a protected blade front sight mounted on the muzzle brake/flash suppressor; trigger mechanism is hung on the receiver/frame (in the same manner as the Lee-Enfield No 4 MARK 2 rifle); safety catch mounted on the left side of the receiver/frame; action "cocks" on closing of the bolt.

Manufacturer

- Australian International Arms manufactures a line of bolt action rifles based on the Lee-Enfield rifle design. Australian International Arms had a short lived association with Australian Defence Industries (operating the former Small Arms Factory, Lithgow) who were going to produce a reproduction of the Winchester model 1887 lever action shotgun. Less than 100 examples were built before the business arrangement was terminated.

Action

- turn-bolt design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the side of the receiver/frame. - samples examined have used an "M10A" prefix followed by a dash (-), followed by sequential numbers.
Barrel	- barrel length does not include the muzzle brake/flash suppressor.
Calibre	- the calibre was marked on the barrel of the sample examined as "7.62X39".
Shots	- detachable box magazine.
Importer	- the importer will usually be marked on the receiver/frame. - originally imported by Tristar Sporting Arms, in 2005 Sabre Defence Industries became the importer/distributor.
Canadian Law Comments	- at least two magazine designs in calibre 7.62X39 RUSSIAN have been made available for this model. The original Australian International Arms (AIA) magazine design replicated the magazine of the type used by the Kalashnikov model AK47 assault rifle and its military and commercial variants. Although newly manufactured, this magazine maintained the design aspects of the original and as such is subject to PART 4, PROHIBITED DEVICES, 3.(1) of the REGULATIONS PRESCRIBING CERTAIN FIREARMS AND OTHER WEAPONS, COMPONENTS AND PARTS OF WEAPONS, ACCESSORIES, CARTRIDGE MAGAZINES, AMMUNITION AND PROJECTILES AS PROHIBITED OR RESTRICTED. - a second magazine design for this rifle has been determined to be a purpose built, proprietary design intended for a bolt action rifle. Although this magazine design is similar to that used on the Kalashnikov, AK 47 type rifles, the addition of a protruding pin on the front of the magazine in the retaining groove (which corresponds to a machined mounting groove in the receiver/frame) is significant enough to distinguish it from a magazine intended for use in any automatic or semi-automatic rifle of known design. This decision only applies to newly manufactured magazines intended for use in bolt action rifles, commonly known as the Lee-Enfield design as produced/supplied for/by Australian International Arms (AIA).

124933 - 1	7.62MM NATO	10	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Australian International Arms, Brisbane, Australia" will be marked on the firearm.

Model

- Australian International Arms builds a line of rifles known as the "M10" series. The "M10" is available in a wide variety of configurations where each version is given a unique model designation. The entire "M10" line is based on a newly manufactured, updated and modernized version of the Lee-Enfield No 4 Mark1*.
- the model designation is usually marked on the receiver/frame. This model resembles the Australian International Arms model M42-B2 but is equipped with a shorter, tapered barrel.
- features include: three-piece stock set made of Teak wood, buttstock features a full pistol grip and a Monte Carlo style cheekpiece, forend and upper handguard extend to mid-barrel on this model; blued finish; top of receiver/frame is drilled and tapped and has a Picatinny rail attached for mounting an optical sight; "L" type, dual aperture, flip up rear sight with a protected blade front sight mounted on the barrel; trigger mechanism is hung on the receiver/frame (in the same manner as the Lee-Enfield No 4 MARK 2 rifle); safety catch mounted on the left side of the receiver/frame; action "cocks" on closing of the bolt.

Manufacturer

- Australian International Arms manufactures a line of bolt action rifles based on the Lee-Enfield rifle design. Australian International Arms had a short lived association with Australian Defence Industries (operating the former Small Arms Factory, Lithgow) who were going to produce a reproduction of the Winchester model 1887 lever action shotgun. Less than 100 examples were built before the business arrangement was terminated.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.
- one sample examined used an "M10B" prefix followed by a dash (-), followed by sequential numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- on one sample examined the calibre was marked on the barrel as "7.62x51".
Shots	- detachable box magazine.
Importer	- the importer will usually be marked on the receiver/frame. - the M10 series was originally imported by Tristar Sporting Arms, in 2005 Sabre Defence Industries became the importer/distributor.
Canadian Law Comments	- the magazine design for this rifle, in calibre 7.62MM NATO has been determined to be a purpose built, proprietary design intended for a bolt action rifle (notwithstanding its incidental ability to be inserted into some other designs with varying degrees of success). Although this magazine design is similar to that used on the M14/M1A type rifles, differences, including the absence of a locating hole on the front of the magazine and a different détente on the rear of the magazine are significant enough to distinguish it from a magazine intended for use in any automatic or semi-automatic rifle of known design. This decision only applies to newly manufactured magazines intended for use in bolt action rifles, commonly known as the Lee-Enfield design as produced/supplied by Australian International Arms (AIA). Design characteristics also distinguish these newly manufactured magazines from their original Lee-Enfield counterparts. These new magazines are intended for use with a rimless cartridge (7.62MM NATO) as opposed to the original rimmed 303 BRITISH cartridge (this also precludes its use in the Charleton Automatic Rifle).

Canadian Law Comments

- the magazine design for this rifle, in calibre 7.62MM NATO has been determined to be a purpose built, proprietary design intended for a bolt action rifle (notwithstanding its incidental ability to be inserted into some other designs with varying degrees of success). Although this magazine design is similar to that used on the M14/M1A type rifles, differences, including the absence of a locating hole on the front of the magazine and a different détente on the rear of the magazine are significant enough to distinguish it from a magazine intended for use in any automatic or semi-automatic rifle of known design. This decision only applies to newly manufactured magazines intended for use in bolt action rifles, commonly known as the Lee-Enfield design as produced/supplied by Australian International Arms (AIA). Design characteristics also distinguish these newly manufactured magazines from their original Lee-Enfield counterparts. These new magazines are intended for use with a rimless cartridge (7.62MM NATO) as opposed to the original rimmed 303 BRITISH cartridge (this also precludes its use in the Charleton Automatic Rifle).

Manufacturer:	Australian International Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	AUSTRALIA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125766 - 1	7.62MM NATO	10	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Australian International Arms, Brisbane, Australia" will be marked on the firearm.

Model

- Australian International Arms builds a line of rifles known as the "M10" series. The "M10" is available in a wide variety of configurations where each version is given a unique model designation. The entire "M10" line is based on a newly manufactured, updated and modernized version of the Lee-Enfield No 4 Mark1*.
- the model designation is usually marked on the receiver/frame.
- features include: three-piece stock set made of teak wood, buttstock features a full pistol grip and a Monte Carlo style cheekpiece, forend and upper handguard extend to mid-barrel on this model; blued finish; "stepped" profile barrel with gain twist rifling; top of receiver/frame is drilled and tapped for a scope mount; "L" type, dual aperture, flip up rear sight with a protected adjustable blade front sight mounted on the barrel; trigger mechanism is hung on the receiver/frame (in the same manner as the Lee-Enfield No 4 MARK 2 rifle); safety catch mounted on the left side of the receiver/frame; action "cocks" on closing of the bolt.
- rifling characteristics - gain twist rifling, right hand twist, 1 turn in 25.4 mm (10 inches), chrome lined barrel.

Manufacturer

- Australian International Arms manufactures a line of bolt action rifles based on the Lee-Enfield rifle design. Australian International Arms had a short lived association with Australian Defence Industries (operating the former Small Arms Factory, Lithgow) who were going to produce a reproduction of the Winchester model 1887 lever action shotgun. Less than 100 examples were built before the business arrangement was terminated.

Action

- manually operated turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.
- one sample examined used an "M10B" prefix followed by a dash (-), followed by sequential numbers.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Importer

- the importer may or may not be marked on the receiver/frame.
- the M10 series was originally imported by Tristar Sporting Arms, in 2005 Sabre Defence Industries became the importer/distributor for the United States. Marstar Canada imports the line into Canada.

Canadian Law Comments

- the magazine design for this rifle, in calibre 7.62MM NATO has been determined to be a purpose built, proprietary design intended for a bolt action rifle (notwithstanding its incidental ability to be inserted into some other designs with varying degrees of success). Although this magazine design is similar to that used on the M14/M1A type rifles, differences, including the absence of a locating hole on the front of the magazine and a different détente on the rear of the magazine are significant enough to distinguish it from a magazine intended for use in any automatic or semi-automatic rifle of known design. This decision only applies to newly manufactured magazines intended for use in bolt action rifles, commonly known as the Lee-Enfield design as produced/supplied by Australian International Arms (AIA). Design characteristics also distinguish these newly manufactured magazines from their original Lee-Enfield counterparts. These new magazines are intended for use with a rimless cartridge (7.62MM NATO) as opposed to the original rimmed 303 BRITISH cartridge (this also precludes its use in the Charleton Automatic Rifle).

Notes

Make

- "Australian International Arms, Brisbane, Australia" may be marked on the top of the barrel.
- "Australian International Arms" with the co-operation of Australian Defense Industries Limited (ADI) at the Lithgow Facility began developing the Winchester 1887 Reproduction in 1996.

Model

- marked "Model 1887" on top tang.
- introduced in 2001.
- this is a reproduction of the original Winchester Model 1887.
- features include: two-piece walnut stock; exposed hammer; tubular magazine; bead front sight; blued finish.
- less than 100 units were produced before the business arrangement between Australian International Arms and Australian Defense Industries (ADI) was terminated.

Manufacturer

- "ADI Australia Lithgow" is marked on the upper tang.
- Australian Defense Industries Limited (ADI) is the former Small Arms Factory, Lithgow, who produced military arms for the Australian government.

Serial Number

- serial number is marked on the underside of the receiver/frame in front of the trigger.

Calibre

- calibre is marked on top of the barrel as "12 x 2 3/4 only".

Firearm Reference Number (FRN): 119096
Make: Austrian Machine Gun
Model: MG74

Summary

Make:	Austrian Machine Gun
Model:	MG74
Manufacturer:	Steyr-Daimler-Puch
Level:	Manufacturer Specifications and Commercial Customization
Type:	Machine Gun
Action:	Full Automatic
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119096 - 1	7.62MM NATO	N/A	531	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make will not be found marked on the firearm.

Model

- rear left side of the receiver/frame is usually marked with the serial number, date of manufacture and the manufacturer's trademark.
- this firearm is the post WW II version of the original MG 42 designed and produced specifically for the 7.62MM Nato cartridge.
- this firearm accepts both the US M-13 disintegrating link and the German DM1 disintegrating link belts.
- this is a fully automatic, air-cooled, belt fed medium or general purpose machine gun utilizing a short recoil type of action which is gas-assisted by means of a recoil booster located within the flash hider; the bolt is of the roller locking type.
- features include;
- full automatic fire only, cyclic rate at 900 rds/min.
- barrel is chrome plated.
- metal stamping type of construction,
- bolt weight - 950 g
- quick-change barrel system,
- easily removeable bi-pod.
- NOTE: this firearm will accept differing masses of bolt and different buffers from other models of the MG1. When the 550 g bolt is installed this machine gun will fire at a cyclic rate of 1000 to 1100 shots per minute.

Type

- air-cooled machine gun.

Action

- short recoil operated, with a gas assist by means of a muzzle booster.

Serial Number

- serial number usually located on the rear left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- barrel length without the barrel extension is 531 mm. - barrel length with the barrel extension is 565 mm.
Calibre	- calibre designation is marked on the rear left side of the receiver/frame as: 7.62.
Shots	- this firearm accepts both the US M-13 disintegrating link and the German DM1 disintegrating link belts. - belt fed machinegun, will not accept the 50 cartridge belt carrier or the 75 round saddle magazine without extensive modification.
Canadian Law Comments	- the magazine known as a "saddle-drum" type (doppeltrommel or satteltrommel"), which is not a reproduction and was originally designed or manufactured for use in the automatic firearms known as the MG13, MG15, MG17, MG34, T6-200 or T6-220, or any variant or modified version of it: is exempt from the conditions imposed in the "Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted". - For further clarification or explanation see; the "Firearms Regulations" as published in Canada Gazette Part II, Vol 132, No 20 (30/9/98), Part IV, "PROHIBITED DEVICES", Paragraph (3) (a) of the "Former Cartridge Magazine Control Regulations".
Remarks	- in Yugoslavian service, manufactured at ZASTAVA, the MG42 was named "SARAC" or "M53". - the Italians manufactured this machine gun model (calibre 7.62 x 51 mm NATO) under the designation "MG42/59". - in 1957, the West Germans Government recommenced manufacture of this firearm in various calibres as the "MG1", "MG1A1", and later, the "MG3" & MG3e.

FRT Report

Firearm Reference Number (FRN): 148811
Make: Austrian Mortar
Model: C6 60MM

Summary

Make:	Austrian Mortar
Model:	C6 60MM
Manufacturer:	Hirtenberger
Level:	Manufacturer Specifications and Commercial Customization
Type:	Mortar
Action:	Single-Shot
Country of Manufacturer:	AUSTRIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
148811 - 1	60MM MORTAR	1	650	Prohibited PFR, Part 1, para. 95(r)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the mortar.

Model

- the model may or may not be marked on the mortar.
- Hirtenberger's "C" class of light mortars are designed to give infantry a lightweight, portable method of providing light fire support at ranges up to 1600 metres; these mortars may be seen in both drop-fired and trigger-fired models, with the trigger-fired models having a thumb trigger on a handle at the bottom of the launching tube. Hirtenberger also produces an M6 60mm mortar, intended for firing from an emplaced position, with a full bipod, baseplate, and sight..
- features include: matte black anodized/painted finish; a synthetic handgrip on the barrel; a carrying strap which doubles as a ranging apparatus (placing the forward edge of the foot on range lines marked on the strap holds the mortar tube at the proper angle to give the corresponding range); drop- or trigger-fired (trigger-fired versions have a thumb trigger on a grip extending from the bottom of the launch tube); and a bowl-shaped baseplate (which can be used in conjunction with a flat rectangular baseplate on soft ground).
- licenced versions of this mortar are also produced by Arsenal in Bulgaria and EBO in Greece.

Manufacturer

- the manufacturer or logo thereof is marked on the mortar.
- Hirtenberger Defence Systems (a subsidiary of Hirtenberger AG) is an Austrian company based in Hirtenberg that specializes in the manufacture of ammunition and mortars.

Action

- drop or trigger fired single-shot.

Serial Number

- numbered on the barrel tube.

Barrel

- barrel length may vary to customer's preference.

Notes

Make

- the make is not marked on the mortar.

Model

- the model may or may not be marked on the mortar.
- Hirtenberger's "M" class of heavy mortars are designed to give infantry a more portable method of providing fire support to infantry at ranges up to 9500 metres than standard artillery; these mortars may be seen in several barrel lengths, and are usually seen in vehicle or towed mounts.
- features include: matte black anodized/painted finish; an 1110mm-diameter round baseplate; and this mortar is usually fitted with shock-absorbing mounts on the launch tube and tripod.

Manufacturer

- the manufacturer or logo thereof is marked on the mortar.
- Hirtenberger Defence Systems (a subsidiary of Hirtenberger AG) is an Austrian company based in Hirtenberg that specializes in the manufacture of ammunition and mortars.

Action

- drop- or trigger-fired single-shot.

Serial Number

- numbered on the barrel tube.

79671 - 1	75 PERCUSSION	1	370	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- side hammer, percussion muzzleloading, smoothbore carbine manufactured for the use of Austrian cavalry and gendarmerie circa 1850.
- originally manufactured to use a "Consol" system (a system developed by Giuseppe Consol in 1835 which uses a percussion tube primer). Converted in Belgium, circa 1860, from the "Consol" priming system to accommodate regular percussion caps.
- iron triggerguard, buttplate and nose cap.
- it is generally believed that a quantity of these carbines were imported into the United States of America in the early stages of the American Civil War (1861) for issue to Federal cavalrymen.

Action

- muzzle loader.

Notes

Make

- "AUTO MAG" is not marked on pistol, but handgun is recognizable as an "Auto Mag".
- Auto Mag was originally manufactured by Auto Mag. Corp. of Pasadena, California between 1971 and 1972.
- Auto Mag was manufactured by Trust Deed Estates (TDE) Corporation of North Hollywood, and El Monte, California between 1972 and 1980.
- Auto Mag (High Standard Auto Mag) responsibilities for sales, and distribution were assumed by High Standard from 1974 to 1977. Actual manufacture was still done by Trust Deed Estates (TDE).
- Auto Mag was manufactured by Arcadia Machine & Tool (AMT) Corporation in the early 1980's.
- Auto Mag (Harry Sanford Commemorative) was manufactured by Galena Industries of Sturgis, South Dakota.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- this is a limited edition of 200 pistols (100 in .357, 100 in .44) that were made to Lee E. Jurras' specifications as hunting handguns. - upper receiver marked with manufacturer ("TDE" within a ring), calibre (".357 AMP" or ".44 AMP"), model ("L.E.Jurras Custom Model 100"), and the place of manufacture ("El Monte, Calif."). - stainless steel receiver/frame and barrel, bead-blasted/satin-finished lower, exposed hammer, adjustable sights, ventilated rib on barrel, and factory Mag-Na-Porting on the barrel; ten pistols of each calibre were built with non-ventilated rib barrels of 216mm, rather than the ventilated rib barrel of 165mm on the standard pistols. - these pistols were sold in two calibre production runs, .357 AMP and .44 AMP; purchasers of the .357 pistols were given the option of buying the matched serial number partner of their pistol in the larger calibre.
Manufacturer	- "TDE" in a circle is marked on the side of the firearm. - "TDE" is the monogram/abbreviation for Trust Deeds Estates Corporation. - Trust Deed Estates (TDE) Corporation was located in North Hollywood, and El Monte, California, U.S.A. between 1972 and 1980.
Action	- recoil-operated semi-automatic.
Serial Number	- numbered on butt of frame/receiver in the form "L.E.J.-001" through "L.E.J.-100"; these numbers were repeated for both the .357 and .44 calibre pistols.
Shots	- detachable box magazine.

Notes

Make

- "AUTO MAG" is not marked on pistol, but handgun is recognizable as an "Auto Mag".
- Auto Mag was originally manufactured by Auto Mag. Corp. of Pasadena, California between 1971 and 1972.
- Auto Mag was manufactured by Trust Deed Estates (TDE) Corporation of North Hollywood, and El Monte, California between 1972 and 1980.
- Auto Mag (High Standard Auto Mag) responsibilities for sales, and distribution were assumed by High Standard from 1974 to 1977. Actual manufacture was still done by Trust Deed Estates (TDE).
- Auto Mag was manufactured by Arcadia Machine & Tool (AMT) Corporation in the early 1980's.
- Auto Mag (Harry Sanford Commemorative) was manufactured by Galena Industries of Sturgis, South Dakota.

Model

- manufactured from 1970 to 1980.

Manufacturer

- "TDE" in a circle is marked on the side of the firearm.
- "TDE" is the monogram/abbreviation for Trust Deeds Estates Corporation.
- Trust Deed Estates (TDE) Corporation was located in North Hollywood, and El Monte, California, U.S.A. between 1972 and 1980.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the bottom strap of the receiver/frame.
- serial number range manufactured by Trust Deed Estates (TDE) at North Hollywood, California are from AO2500 to AO5015.
- serial number range manufactured by Trust Deed Estates (TDE) at El Monte, California are from A05016 to A08300.

Calibre

- ".357 AMP" is marked on the left side of the receiver/frame.

Remarks

- the Auto Mag pistol was originally designed and produced at "Sanford Arms" (Pasadena, California) in the early 1960s: - all essentially hand-made.
- by 1970, production had been taken over by the "Auto Mag Corp" (also located at Pasadena, California), production costs of these handguns were too great to be a commercial success and the "Auto Mag Corp" went out of business in 1972.
- following the bankruptcy of the "Auto Mag Corp", the Thomas Oil Company bought the assets of the "Auto Mag Corp", and formed "Trust Deed Estates" (AKA - "TDE") to produce these pistols (first in North Hollywood, California, then in El Monte, California).
- production costs were still too high for the Auto Mag pistol to be a commercial success, so the rights to manufacture the pistol were sold to High Standard, of New Haven, Connecticut (actual production still took place at the TDE plant in El Monte, Calif.).
- in 1977, High Standard ceased production of the pistol, and the rights to the Auto Mag were returned to the original designer, Harry Sanford. Using the name of "TDE-OMC", Harry Sanford began producing the "Model B" Auto Mag pistol, which had a solid bolt, rather than the skeletonized bolt of earlier Auto Mags. However, production costs were still too high to make the pistol a successful commercial venture, and once again in 1980, production ceased.
- after TDE-OMC ceased production, Arcadia Machine & Tool (AMT), also attempted to produce the Auto Mag pistol in commercial quantities, but only succeeded in manufacturing 100 pistols before conceeding defeat.
- at various different times, both Lee Jurras and Kent Lomont have made prototype quantities of the Auto Mag pistol (including some in very unusual calibres and configurations). In 1999, Galena Industries announced that they would be producing 1000 commemorative pistols honoring Harry Sanford.

Notes

Make

- "AUTO MAG" is not marked on pistol, but handgun is recognizable as an "Auto Mag".
- Auto Mag was originally manufactured by Auto Mag. Corp. of Pasadena, California between 1971 and 1972.
- Auto Mag was manufactured by Trust Deed Estates (TDE) Corporation of North Hollywood, and El Monte, California between 1972 and 1980.
- Auto Mag (High Standard Auto Mag) responsibilities for sales, and distribution were assumed by High Standard from 1974 to 1977. Actual manufacture was still done by Trust Deed Estates (TDE).
- Auto Mag was manufactured by Arcadia Machine & Tool (AMT) Corporation in the early 1980's.
- Auto Mag (Harry Sanford Commemorative) was manufactured by Galena Industries of Sturgis, South Dakota.

Model

- manufactured in 1999 and 2000.
- this is a new production, stainless steel Auto Mag pistol made to commemorate Harry W. Sanford, the original designer of the Auto Mag pistol;
- other than the markings, this is a standard Model 180 Auto Mag.
- this is also a limited edition pistol, with only 1000 being made.
- marked "AUTO MAG / .44 AMP MODEL 180 / PASADENA, CALIFORNIA / PATENTED" on the left side of the upper receiver, along with the original Auto Mag Corporation logo (an "A" without the crossbar, superimposed on an "M", all within a circle), and "HARRY W. SANFORD / Pioneer of Stainless Steel Firearms" beneath Harry Sanford's signature.

Manufacturer

- Galena Industries is the current (1999) manufacturer of AMT firearms; they acquired the rights to the AMT name, logo, and designs, and have continued unaltered production. They have also continued producing limited editions of the Auto Mag pistol, under the pseudonym of "Automag, Inc."

Action

- recoil-operated.

Serial Number

- on receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.

Remarks

- the Auto Mag pistol was originally designed and produced at "Sanford Arms" (Pasadena, California) in the early 1960s: - all essentially hand-made.
- by 1970, production had been taken over by the "Auto Mag Corp" (also located at Pasadena, California), production costs of these handguns were too great to be a commercial success and the "Auto Mag Corp" went out of business in 1972.
- following the bankruptcy of the "Auto Mag Corp", the Thomas Oil Company bought the assets of the "Auto Mag Corp", and formed "Trust Deed Estates" (AKA - "TDE") to produce these pistols (first in North Hollywood, California, then in El Monte, California).
- production costs were still too high for the Auto Mag pistol to be a commercial success, so the rights to manufacture the pistol were sold to High Standard, of New Haven, Connecticut (actual production still took place at the TDE plant in El Monte, Calif.).
- in 1977, High Standard ceased production of the pistol, and the rights to the Auto Mag were returned to the original designer, Harry Sanford. Using the name of "TDE-OMC", Harry Sanford began producing the "Model B" Auto Mag pistol, which had a solid bolt, rather than the skeletonized bolt of earlier Auto Mags. However, production costs were still too high to make the pistol a successful commercial venture, and once again in 1980, production ceased.
- after TDE-OMC ceased production, Arcadia Machine & Tool (AMT), also attempted to produce the Auto Mag pistol in commercial quantities, but only succeeded in manufacturing 100 pistols before conceeding defeat.
- at various different times, both Lee Jurras and Kent Lomont have made prototype quantities of the Auto Mag pistol (including some in very unusual calibres and configurations). In 1999, Galena Industries announced that they would be producing 1000 commemorative pistols honoring Harry Sanford.

Notes

Make

- "AUTO MAG" is not marked on pistol, but handgun is recognizable as an "Auto Mag".
- Auto Mag was originally manufactured by Auto Mag. Corp. of Pasadena, California between 1971 and 1972.
- Auto Mag was manufactured by Trust Deed Estates (TDE) Corporation of North Hollywood, and El Monte, California between 1972 and 1980.
- Auto Mag (High Standard Auto Mag) responsibilities for sales, and distribution were assumed by High Standard from 1974 to 1977. Actual manufacture was still done by Trust Deed Estates (TDE).
- Auto Mag was manufactured by Arcadia Machine & Tool (AMT) Corporation in the early 1980's.
- Auto Mag (Harry Sanford Commemorative) was manufactured by Galena Industries of Sturgis, South Dakota.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "AUTO MAG", ".44 AMP Model 280", "EL MONTE CALIFORNIA PATENTED" are marked on the left side of the receiver/frame.
- the 280 Auto Mag was a slightly easier to manufacture version of the original 180 Auto Mag; production costs of this pistol were still too high for the company to remain profitable.
- the Model 280 was originally chambered for 44 AUTO MAG calibre, however a 357 AUTO MAG calibre conversion unit was available.
- features include: black plastic grips, ventilated rib barrel and adjustable rear sights.

Manufacturer

- "TDE" in a circle is marked on the side of the firearm.
- "TDE" is the monogram/abbreviation for Trust Deeds Estates Corporation.
- Trust Deed Estates (TDE) Corporation was located in North Hollywood, and El Monte, California, U.S.A. between 1972 and 1980.

Action

- recoil operated.

Serial Number

- serial number is marked on the bottom strap of the receiver/frame.
- serial number range manufactured by Trust Deed Estates (TDE) at North Hollywood, California are from AO2500 to AO5015.
- serial number range manufactured by Trust Deed Estates (TDE) at El Monte, California are from A05016 to A08300.

Shots

- detachable box magazine.

Remarks

- the Auto Mag pistol was originally designed and produced at "Sanford Arms" (Pasadena, California) in the early 1960s: - all essentially hand-made.
- by 1970, production had been taken over by the "Auto Mag Corp" (also located at Pasadena, California), production costs of these handguns were too great to be a commercial success and the "Auto Mag Corp" went out of business in 1972.
- following the bankruptcy of the "Auto Mag Corp", the Thomas Oil Company bought the assets of the "Auto Mag Corp", and formed "Trust Deed Estates" (AKA - "TDE") to produce these pistols (first in North Hollywood, California, then in El Monte, California).
- production costs were still too high for the Auto Mag pistol to be a commercial success, so the rights to manufacture the pistol were sold to High Standard, of New Haven, Connecticut (actual production still took place at the TDE plant in El Monte, Calif.).
- in 1977, High Standard ceased production of the pistol, and the rights to the Auto Mag were returned to the original designer, Harry Sanford. Using the name of "TDE-OMC", Harry Sanford began producing the "Model B" Auto Mag pistol, which had a solid bolt, rather than the skeletonized bolt of earlier Auto Mags. However, production costs were still too high to make the pistol a successful commercial venture, and once again in 1980, production ceased.
- after TDE-OMC ceased production, Arcadia Machine & Tool (AMT), also attempted to produce the Auto Mag pistol in commercial quantities, but only succeeded in manufacturing 100 pistols before conceding defeat.
- at various different times, both Lee Jurras and Kent Lomont have made prototype quantities of the Auto Mag pistol (including some in very unusual calibres and configurations). In 1999, Galena Industries announced that they would be producing 1000 commemorative pistols honoring Harry Sanford.

FRT Report

Firearm Reference Number (FRN): 196943
Make: Avalon Weapons Works
Model: Calibur 2 PDW

Summary

Make:	Avalon Weapons Works
Model:	Calibur 2 PDW
Manufacturer:	Vega Force
Level:	Manufacturer Specifications and Commercial Customization
Type:	Airsoft
Action:	Air,Spring or Gas
Country of Manufacturer:	TAIWAN
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
196943 - 1	6MM AIRSOFT BB	120	168	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make
- The company logo is marked on the receiver/frame.
- "AVALON WEAPONS" is marked on the left side of the receiver/frame.
- "AVALON WEAPONS WORKS MFG" is marked on the left side of the receiver/frame.

Model
- The model designation is not marked on the firearm.
- Features include: ambidextrous safety; ambidextrous magazine release.
- Overall length with a 168 mm (6.6 inches) barrel is 500 mm (19.7 inches) with the stock extended.
- Overall length with a 168 mm (6.6 inches) barrel is 400 mm (15.7 inches) with the stock collapsed.

Manufacturer
- The manufacturer is not marked on the firearm.

Action
- Air piston is powered by an electric motor, gear box and battery.
- Velocity has been measured as 118 mps or 387 fps.

Serial Number
- The serial number is marked on the left side of the firearm.

Barrel
- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Calibre
- The calibre designation is not marked on the firearm.
- A faux calibre marking of "Cal. 5.95mm" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- Detachable box magazine.
Canadian Law Comments	- Does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "M. Avance" in script is marked on the barrel.
- Matt Avance is the owner/proprietor of Tennessee Valley Muzzleloading, of Natchez, Mississippi.

Model

- the model designation is not marked on the firearm; this is a descriptor of the firearm type.
- this is a modern hand-made reproduction of a "Leman" style flintlock or percussion plains rifle (originally built by Henry E. Leman, of Pennsylvania, for sale to hunters and explorers on the western plains), manufactured by Matt Avance/Tennessee Valley Muzzleloading to a particular customer's specifications.
- features may include: blued finish; round or octagonal barrel; fixed blade sights; underbarrel ramrod on three thimbles; full-length maple stock with nosecap and a straight grip; colour case-hardened lockplate with either percussion or flintlock ignition; double set triggers inside a large trigger guard/gripstrap; brass or steel furniture; a crescent buttplate; and right or left handed construction.
- also available as a "build it yourself" kit.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- Tennessee Valley Muzzleloading is located in Natchez, Mississippi, U.S.A. - Tennessee Valley Muzzleloading produces flintlock or percussion pistols, rifles and shotguns.
Action	- muzzle-loaded single-shot.

148874 - 1	42 PERCUSSION	1	762	Antique CC 84(1) "antique firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is usually marked on the firearm as " AVERY" or "W.AVERY".
- Wyllys (sometimes spelled "Willis") Avery was a Salisbury Center, New York-based gunsmith during the early-to-mid 1800's, known primarily for his external-mainspring flintlock-style percussion rifles.

Model

- the model is not marked on the firearm; this is a description of the firearm type.
- this is a percussion hunting rifle manufactured by Wyllys Avery prior to 1897.
- features include: browned or blued finish; open sights; octagonal or half-round/half-octagonal barrel; underbarrel ramrod thimbles; half-length, straight-grip walnut or maple stock with brass or German silver accents; external, manually-cocked, hammer with an external mainspring; finial trigger guard/grip; straight trigger; crescent butt.

Manufacturer

- the manufacturer is usually marked on the firearm as " AVERY" or "W.AVERY".
- Wyllys (sometimes spelled "Willis") Avery was a Salisbury Center, New York-based gunsmith during the early-to-mid 1800's, known primarily for his external-mainspring, flintlock-style, percussion rifles.

Action

- muzzle-loaded percussion single-shot.

Firearm Reference Number (FRN): 179782
Make: Avion
Model: Avion

Summary

Make:	Avion
Model:	Avion
Manufacturer:	Arriola Ciorriaga y Cia
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
179782 - 1	25 AUTO	6	54	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	
179782 - 2	6.35MM	6	54	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AVION" is marked on the slide and on the grip panels.
- "Avion" and "Colon" were tradenames manufactured by "Azpiri y Cia" of Eibar, Spain.
- "Avion" was a tradename manufactured "Barta y Azpiri" of Eibar, Spain.

Model

- "PISTOLET AUTOMATIQUE" and "AVION" or "PISTOLET AUTOMATIQUE" and "AVION" BREVETE may be marked on the left side of the slide.
- this firearm resembles a "1906 FN-Browning".
- features include: blow back operated, blued finish; left side thumb safety in front of grip plate, groove sights, hammerless, butt magazine release; and synthetic grips bearing the word "AVION" and a picture of a Bleriot monoplane in a circle.

Manufacturer

- "Made in Spain" is usually marked on the receiver/frame.
- "AC" inside a diamond may be marked on the grip panels.
- there is some disagreement as to the manufacturer of this pistol, with some claiming that this pistol was made by "Azpiri y Cia", and others claiming it was made by "Arriola Ciorriaga y Cia", and either one would fit the "AC" in a diamond grip marking.

Action

- blowback operated.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 199821
Make: Axor
Model: Bushpig

Summary

Make:	Axor
Model:	Bushpig
Manufacturer:	Axor Arms
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Semi-Automatic
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
199821 - 2	12 GA X 3"	5	510	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
199821 - 1	12 GA X 3"	5	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "AXOR ARMS" is marked on the right side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- The company logo consists of a capitol "A" with rectangular wings over the words "AXOR ARMS".

Model

- "BUSHPIG" is marked on the left side of the receiver/frame.
- This model is depicted with a cartoon image of the left profile of a warthog on the left side of the receiver.
- Features include: right side action hold open button; right side charging handle; cross bolt safety; action release button on the upper tang of the receiver; take down latch on the upper tang of the receiver forward of the action release button.

Manufacturer

- "AXOR ARMS" is marked on the right side of the receiver/frame.
- The company logo is marked on the receiver/frame.
- The company logo consists of a capitol "A" with rectangular wings over the words "AXOR ARMS".
- "AXOR SILAH SANAYI" is marked on the left side of the barrel.

Action

- Gas operated.
- Push Button shotgun.
- Once fired, the action will remain to the rear until a button on the upper tang of the receiver is pressed. This button releases the action, allowing it to go forward, completing the rest of the cycle of operation (feeding, chambering, locking).

Serial Number

- The serial number is marked on the right side of the firearm.
- The serial number of referenced example consists of three digits, a dash, a letter, two digits, two letters, a dash followed by six digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the barrel.
Shots	- Fixed tubular magazine.

Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
60820 - 1	12 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
60820 - 3	16 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
60820 - 2	20 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a standard pattern side by side, side lock shotgun.
- features include: half or full pistol grip stock with or without cheek-piece; colour case hardened receiver/frame; checkered walnut pistol grip stock and forearm; minimal engraving on the receiver/frame, chambers and screw-heads; Anson & Deeley locking system; tang safety; extractors and a single action trigger mechanism.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm; AYA's logo consists of a lion standing over the letters "AYA" in a circle.
- Aguirre Y Aranzabal is a manufacturer located in Eibar, Spain, that specializes in manufacturing multi barreled shotguns.

Action

- side by side barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the receiver/frame.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufactuer, weapon code, serial number sequence, and year of manufacture.
- an example of a serial number is as follows: "16 - 03 - #0# - 95".
- serial number break down, the first two numbers (16) are the code numbers for the manufacturer, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Firearm Reference Number (FRN): 60823
Make: AYA
Model: 117 Quail Unlimited

Summary

Make:	AYA
Model:	117 Quail Unlimited
Manufacturer:	Aguirre y Aranzabal (AYA)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
60823 - 1	12 GA X 3"	2	660	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make (or logo thereof) is marked on the firearm.

Model

- the full model designation may not be marked on the firearm.
- this is a side by side, side lock shotgun, with hand-detachable fully-engraved side plates, made to commemorate an organization called "Quail Unlimited of North America";
- features include: checkered walnut stock and forearm, Anson & Deeley locking system, tang safety, ejectors, and receiver marked "Quail Unlimited of North America".

Manufacturer

- the manufacturer (or logo thereof) is marked on the firearm; AYA's logo consists of a lion standing over the letters "AYA" in a circle.
- Aguirre Y Aranzabal is a manufacturer located in Eibar, Spain, that specializes in manufacturing multi-barreled shotguns.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number is marked on the receiver/frame.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- an example of a serial number is as follows: "16 - 03 - #0# - 95".
- serial number break down, the first two numbers (16) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Barrel

- these shotguns were made with barrels between 27"/685mm and 30"/762mm.

Make:	AYA
Model:	77
Manufacturer:	Aguirre y Aranzabal (AYA)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
60859 - 1	12 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make (or logo thereof) is marked on the firearm.

Model

- the model designation may not be marked on the firearm.
- this is a standard-pattern over/under side lock shotgun that strongly resembles the Merkel design.
- features include: checkered walnut stock and forearm; Kersten locking system; tang safety; top lever; colour-case-hardened receiver and side plates; full scroll and floral engraving; and ejectors.

Manufacturer

- the manufacturer (or logo thereof) is marked on the firearm; AYA's logo consists of a lion standing over the letters "AYA" in a circle.
- Aguirre Y Aranzabal is a manufacturer located in Eibar, Spain, that specializes in manufacturing multi-barreled shotguns.

Action

- over & under barrel configuration, hinged barrel design.

Serial Number

- serial number is marked on the receiver/frame.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gun maker/manufacturer, weapon code, serial number sequence, and year of manufacturer.
- an example of a serial number is as follows: "16 - 03 - #0# - 95".
- serial number break down, the first two numbers (16) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next Numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Calibre

- may also be available in other chamber lengths.

42488 - 2	20 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- model designation is marked on the trigger guard extension.
- this is a lower cost side by side sidelock shotgun, with color case hardened receiver and minimal line engraving on screw-heads, chambers, and borders;
- checkered walnut stock and forearm, Anson & Deeley locking system, tang safety, ejectors, and double triggers.

Manufacturer

- Aguirre Y Aranzabal is a manufacturer located in Eibar, Spain, that specializes in manufacturing multi-barreled shotguns.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number is usually marked on the receiver/frame.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacture.
- an example of a serial number is as follows: "16 - 03 - #0# - 95".
- serial number break down, the first two numbers (16) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Notes

Make

- the make (or logo thereof) is marked on the firearm.

Model

- "Mod. Matador II" is usually marked on the right side barrel.
- this is a side by side boxlock shotgun made for the American market.
- manufactured between 1964 and 1969.
- features include: checkered walnut pistol-grip stock; Anson & Deeley locking system; automatic ejectors; blued barrels; ventilated rib; tang safety; and single trigger.

Manufacturer

- the manufacturer (or logo thereof) is marked on the firearm; AYA's logo consists of a lion standing over the letters "AYA" in a circle.
- Aguirre Y Aranzabal is a manufacturer located in Eibar, Spain, that specializes in manufacturing multi-barreled shotguns.

Action

- side by side barrel configuration, hinged barrel design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number on a known example had a six digit number without prefix or suffix marked on the action flats of the receiver/frame.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacture.
- an example of a serial number is as follows: "16 - 03 - #0# - 95".
- serial number break down, the first two numbers (16) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

- discontinued in 1985.
- model designation is not marked on the firearm.
- features include: round side by side barrels with a bead front sight; front hinged receiver/frame with a top tang mounted break open action release lever and safety; boxlock action; hammerless; extractors; double triggers; checkered wood forearm and a straight grip or semi-pistol grip buttstock; blued finish; border engraved receiver/frame.

Manufacturer

- "AYA - AGUIRRE & ARANZABAL" is marked on both sides of the receiver/frame.
- "AYA - AGUIRRE & ARANZABAL - MADE IN SPAIN" is marked and on the solid rib between the barrels.
- the "AYA" trademark logo is marked on the watertable.
- "AYA" is a trademark/abbreviation used by "Aguirre Y Aranzabal".

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number is marked on the watertable of the receiver/frame.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacture.
- an example of a serial number is as follows: "16 - 03 - #0# - 95".
- serial number break down, the first two numbers (16) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Calibre

- the calibre designation may appear on the barrel or on the water table.

Importer

- marked on top of the barrel.

Notes

Make

- "AGUIRRE Y ARANZABAL" or "AYA AGUIRRE & ARANZABAL" may be marked on the receiver/frame or barrel rib.
- "AGUIRRE Y ARANZABAL" logo of a lion over "AYA" in a circle is marked on the firearm.
- "AYA" is a trademark/abbreviation used by "Aguirre Y Aranzabal".

Model

- model designation is not marked on the firearm.
- this is a generic entry for those side by side shotguns with no model designation.
- this double barrel, side by side shotgun with a box lock or side lock action.
- features observed: round side by side barrels with a bead front sight; front hinged receiver/frame with top tang mounted break open action release lever and safety/selector; auto ejectors or extractors; hammerless or exposed side hammers; single trigger or double triggers; checkered wood forearm and straight grip or semi-pistol grip buttstock; engraved receiver/frame.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number was observed marked on the watertable of the receiver/frame.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacture.
- an example of a serial number is as follows: "16 - 03 - #0# - 95".
- serial number break down, the first two numbers (16) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Calibre

- calibre designation was observed marked on the watertable of the receiver/frame.
