Notes

Make

- the trademark "Kimber" has been used by three separate manufacturers;
Kimber of Oregon from 1980 to 1991,
Kimber of America from 1993 to 1997,
Kimber Manufacturing since 1997.

Model

- model not marked on the firearm.
- manufactured from 1996 to 1998.
- these are surplus Mauser actions that have been re-worked by Kimber.
- stainless steel match grade fluted or non-fluted sporter barrels.
- synthetic or walnut stocks.
- matte finish.

Manufacturer

- was located in Clackamas, Oregon from 1993 to 1997.

Action

- Mauser action.

Serial Number

- located on the left side of the receiver.

Shots

- internal box magazine.

Notes

Make

- "Kimber" is marked on the left side of the slide.
- "KIMBER" is marked on the right side of the receiver/frame.

Model

- "POLYMER MODEL" is marked on the right side of the slide.
- manufactured from 1997 to 2001.
- this pistol features a polymer frame with integral grips, moulded around a stainless steel insert to house the grip safety, trigger, sear, and hammer group, and provide a bearing surface for the slide.
- the basic "Polymer" model has a dark matte finished steel slide, fixed McCormick carry sights, skeletonized hammer, skeletonized trigger, extended tang grip safety, checkered flat mainspring housing, and hooked-front trigger guard.
- this firearm is of current manufacture by Kimber (based on the U.S. Government model 1911A1 pistol, as initially produced by COLT) is generally identifiable by the distinctively wide angled cocking grooves on both sides of the slide-flats, nine toward the rear and five toward the front.

Manufacturer

- "KIMBER, CLACKMAS, OR. USA" or "KIMBER, YONKERS, NY U.S.A." is marked on the right side of the receiver/frame.

Action

- short recoil, locked breech operation, based on the Browning system.

Serial Number

- the serial number is marked on the exposed portion of the metal insert on the left side of the frame, between the thumb safety and slide hold-open lever.
- observed serial number had a "KP" prefix followed by five numbers.
- "KP" denotes "Kimber Polymer".

- "PRO CARRY" is marked on the right side of the slide.
- introduced in 1999.
- this is a shorter version of the Classic Custom, with a foreshortened aluminium receiver/frame and shortened steel slide, fixed low-profile combat sights, skeletonized hammer, extended tang grip safety, beveled-mouth magazine well, and skeletonized lightened match trigger.
- it is available in dark matte finish.
- this firearm is of current manufacture by Kimber (based on the U.S. Government model 1911A1 pistol, as initially produced by COLT) is generally identifiable by the distinctively wide angled cocking grooves on both sides of the slide-flats, nine toward the rear.

Manufacturer

- "KIMBER, YONKERS, NY U.S.A." is marked on the right side of the receiver/frame.

Action

- locked breech, short recoil operation, based on the Browning system.

Serial Number

- located on the right side of receiver/frame.
- usually "K" prefix followed by up to 6 digits.

Shots

- detachable box magazine.

Notes

Make

- Kimel Industries was a distributor located in Matthews, North Carolina.
- Kimel markings are found on the mono-bloc.

Model

- "KIMEL KAMPER" over "KIMEL IND. MATHEWS, N.C." over "MODEL K20" is marked on the mono-bloc.
- this is a compact, folding shotgun meant to appeal to campers and outdoorsmen. Designed to fold almost in half and equipped with only a pistol grip butt to reduce the overall length for easy transport.
- features include: bead front sight; blued round barrel; matte silver finished front hinged receiver/frame with a top tang mounted safety; break open action release lever is mounted on the underside of the receiver/frame, forward of the trigger guard; hammerless; checkered, walnut forearm and pistol grip.
- overall length with a 497 mm barrel is 680 mm (26 3/4").

Manufacturer

- Investarm and/or the Investarm's logo is marked on the firearm.
- Investarm logo consists of the outline of an oversize capital "I" within a rectangle.
- Investarm was founded in 1975 by the three Salvinelli brothers.
- Investarm is a manufacturer located in Marcheno, Italy.
- Investarm specializes in producing single barrel and multi barrel shotguns and muzzle loading percussion and flintlock firearms.

Serial Number

- the sample examined used sequential numbers, marked on the water table (only visible with the action open) and repeated on the mono-bloc.

Calibre

- the calibre designation is marked on the firearm.

Importer

- the sample examined had both Kimel and Sile markings on the mono-bloc.

FRT Report

Firearm Reference Number (FRN): 138338
Make: Kintrek
Model: KBP-1

Summary

Make:	Kintrek
Model:	KBP-1
Manufacturer:	Kintrek
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
138338 - 1	22 LR	17	635	Prohibited PDR, Part 4, para. 2	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KINTREK, INC." over "OWENSBORO, KY" is marked on the right rear side of the receiver/frame.

Model

- introduced in 1991 and discontinued in 1992.
- "KBP-1" is marked on the right rear side of the receiver/frame.
- KBP-1 has a black finish, A-2 sights, and a grip safety. Its main attraction is the "bullpup" aspect of the firearm, in which the chamber and barrel are seated in the bull-pup butt stock under the cheekplate. This design greatly reduces the overall length of the firearm. This feature was uncommon in non-military weapons in 1991.
- the A-2 sights are made of plastic and protrude some 2 inches above the barrel. The sights are extremely easy to damage. The manufacturer went out of business in 1992, and no replacement parts are available.
- the bull-pup stock is a synthetic single piece design with a plastic butt plate.
- the rifle has an internal firing pin block that is disengaged by depressing the grip safety.
- the ejection port is on the right side of the butt stock, and is covered by a hinged plastic mud guard. This feature restricts the firearm to strictly right-handed operation.
- the cocking lever is pulled toward the rear of the rifle. It has a very stiff pull, and is difficult to operate without a strong grip. The grip safety also acts as the action release to chamber the ammunition.
- the trigger block, safety device is located in the trigger housing at the front of the trigger which blocks the trigger in the rear position and releases it in the forward position.

Manufacturer

- "KINTREK, INC" over "OWENSBORO, KY" is marked on the right side of the receiver/frame.
- Kintrek, Incorporated was located in Owensboro, Kentucky, U.S.A.

Action

- blowback operated.

Serial Number

- serial number is marked on the right side of the receiver/frame.
- example observed with three numbers without a letter prefix or suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- ".22 LR" is marked on the right rear side of the receiver/frame.
Shots	- detachable box magazine.
Canadian Law Comments	- as it left the factory, this firearm is equipped with a "bull-pup" stock. The stock is subject to the definition of "Prohibited Device" in "Part IIII/Firearms and Other Weapons" of Section 84 of the Criminal Code of Canada. - when the "bull-pup" stock (prohibited device) is removed the firearm is correctly identified as a "Non Restricted Firearm".

Notes

Make

- "KIRICI" or "KIRICI ARMS" may be marked on the left or right side of the receiver/frame.
- "Kirici Silah Sanayi" or variation may be marked on the side of the barrel and/or the receiver/frame.

Model

- "ASHTON" may be marked on the receiver/frame.
- this is a single-shot break-open/folding single-shot shotgun manufactured in hammerless and exposed-hammer versions, in a variety of gauges and barrel lengths.
- features include: round barrel with or without ventilated rib; bead or fibre optic front sight; wood or synthetic forend with sling swivel; plain blued or matte nickel photo engraved receiver/frame with large forward hinge; bottom lever action release forward of the trigger guard; single trigger; cross bolt safety on trigger guard behind trigger; may have exposed hammer; wood or synthetic shoulder stock with plain or checkered grip and sling swivel; rubber buttpad.
- overall length with a 710mm (28") barrel is 1150mm (45.27"); average weight with 710mm (28") barrel is 2.3kg (5.07lbs).

Manufacturer

- "KIRICI" or "KIRICI ARMS" may be marked on the left or right side of the receiver/frame.
- "Kirici Silah Sanayi" or variation may be marked on the side of the barrel and/or the receiver/frame.

Action

- hinged barrel design.

Serial Number

- serial number is marked on the receiver/frame.

Calibre

- calibre designation is marked on the barrel.

191962 - 4	12 GA X 3"	10	610	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Kirici Silah Sanayi" or variation may be marked on the side of the barrel and/or the receiver/frame.

Model

- "AXL 47" is usually marked on the top-cover, rearward of the ejection port.
- this is an "AR-15"-styled gas-operated semi-automatic shotgun that also combines features of the AK-47/AKM design, notably a stamped top-cover and an above-barrel gas piston.
- features may include: round barrel with angle-slotted compensator on a threaded muzzle; screw-in interchangeable choke tubes; raised "AK"-style sights with accessory rail rear sight mount; above-barrel gas piston; synthetic furniture with ventilated forearm; right-side ejection port and operating handle; "AR"-style synthetic lower receiver/frame; "AR"- style safety and magazine release; vertical pistol-grip and a telescoping buttstock with adjustable cheek piece; matte black or tiger-stripe camouflage finish.
- overall length with a 508mm (20") barrel is 780mm (30.75"), with the stock fully collapsed.

The AXL 47 receiver/frame resembles that of the AR-15 family of firearms.

Manufacturer

- "Kirici Silah Sanayi" or variation may be marked on the side of the barrel and/or the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas-operated.
Serial Number	- serial number is marked on the front right side of the receiver/frame. - serial number of an observed example consisted of "AXL47", a dash and four numbers.
Calibre	- calibre designation is marked on the barrel.
Shots	- detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 119212
Make: Kirtland Brothers
Model: 1889 Safety Hammerless

Summary

Make:	Kirtland Brothers
Model:	1889 Safety Hammerless
Manufacturer:	Smith, Otis A
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
119212 - 1	32 S&W	5	76	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KIRTLAND BROS. & CO. NEW YORK U.S.A." is marked on the barrel rib.
- Kirtland Brothers was a dealer located in New York City from the 1890s to circa 1956.
- Kirkland Brothers was also listed as a manufacturer of revolvers and rifles at 90 Chambers, New York, N.Y. in 1933.

Model

- this is an unusual nickel plated, brass-framed double-action-only revolver made under patents issued to John T. Smith of Rockfall, Connecticut.
- "Pat. Jan. 24, 1888 Oct. 29, 1889" are marked on the topstrap.
- one-piece receiver/frame and barrel made entirely of brass, with a fluted steel cylinder, nickel-plated finish, loading groove on the right side of the receiver/frame, and a cylinder stop/catch mounted in the top-strap that can be depressed to free the cylinder for loading and unloading.
- these revolvers were built for various distributors by Otis A. Smith, of Rockfall, Connecticut, but most often bear no manufacturers' marks.
- a smaller-framed 22-calibre version of this revolver, known as the model 1892, was also built using the same patents, only with an iron receiver/frame and barrel.

Manufacturer

- manufacturer's name is not marked on the revolver.

Serial Number

- serial number is marked on the bottom of the grip strap.
- observed serial number had five digits without a letter prefix or suffix.

Notes

Make

- "KJWORKS" and "MADE IN TAIWAN" are usually marked on the left side of the firearm.
- "KJW", and "KJWorks/KJ Works" are tradenames/trade marks used by Kuan Ju Works of Taiwan.

Model

- "KC02 RUGER 10/22 AIRSOFT" is not marked on the firearm.
- this airsoft firearm resembles a "Ruger model 10/22" rifle with a tactical stock, picatinny rails and tactical sights.
- features include: adjustable metal front and rear sights; metal outer barrel/sleeve and smoothbore inner barrel; synthetic receiver/frame; synthetic forearm assembly; Picatinny rails; synthetic pistol grip and a telescoping buttstock; black finish.
- KC02 Ruger 10/22 Airsoft has an overall length of 775 mm in the retracted position and 860 mm in the extended position, and average weight is 2750 grams.

Manufacturer

- "Kuan Ju Works" is located in Bade City, Taiwan.

Type

- this is an airsoft rifle.

Action

- HFC134a & HFC22 gas powered.
- selective fire.
- at least two variants of this particular model exist:

Variant #1) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 238.7 mps (783 fps) and/or a muzzle energy exceeding 5.7 Joules, and

Variant #2) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 111.6 mps (366 fps) and/or a muzzle energy exceeding 1.2 Joules.

Serial Number

- serial number rationalization is unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine.
Canadian Law Comments	- this airsoft is available in two variants: Variant #1) CC 2 "firearm" / CC 84 (3) Exempted: muzzle velocity exceeds 111.6 mps (366 fps) and/or muzzle energy exceeds 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB, and Variant #2) CC 84 (1) "replica firearm": muzzle velocity is less than 111.6 mps (366 fps) and/or muzzle energy is less than 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB.

Notes

Make

- "Ph. KLEIN" or "PHILIP KLEIN" is usually marked on the firearm.
- Philip Klein was a gunsmith based in New York, New York, known for his percussion target guns during the mid-to-late 1800s.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a percussion muzzle-loaded "schuetzen"-style target rifle, built by Philip H. Klein prior to 1876.
- features include: a wide range of possible finishes and engraving styles, but usually blued with octagonal barrel; a one-piece walnut butt (with varying degrees of carving, checkering, and inlay); open adjustable sights; single or double set triggers; an ornate filigree frame grip; and a butt with a cheek rest and hooked butt plate.
- may also be seen with an off-hand palm-rest.

Manufacturer

- "Ph. KLEIN" or "PHILIP KLEIN" is usually marked on the firearm.
- Philip Klein was a gunsmith based in New York, New York, known for his percussion target guns during the mid-to-late 1800s.

Action

- muzzle loaded percussion single-shot.

FRT Report

Firearm Reference Number (FRN): 143441
Make: KMP Classic Arms
Model: Browning M1919

Summary

Make:	KMP Classic Arms
Model:	Browning M1919
Manufacturer:	Karma Metal Products (KMP)
Level:	Converted Automatics
Type:	Commercial Version
Action:	Converted Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
143441 - 2	30-06 SPRG	N/A	610	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	
143441 - 1	7.62MM NATO	N/A	610	Prohibited CC 84(1) "prohibited firearm" para. (c)	Converted Automatics	

Notes

Make

- "KMP CLASSIC ARMS MANSFIELD OHIO" is marked on the inner surface of the right, receiver side-plate.

Model

- "MODEL 1919" is marked on the inside of the right side plate of the receiver/frame.
- "Browning M1919" model is a re-creation of the United States Service, .30 calibre, belt feed, Browning Machine Gun, M1919A4.
- Browning Machine Gun was named after the inventor, John M. Browning.
- Browning Machine Gun M1919 could be configured into sub-models for different roles. A partial list of the possible configurations follows:

a) Browning Machine Gun M1919A4:
- M1919A4 is an air-cooled firearm which may be found in flexible configuration for infantry use and is normally fired from a tripod mount, or mounted on an vehicle mount.

b) Browning Machine Gun M1919A5:
- M1919A5 is an air-cooled firearm designed for fixed configuration and use in an armoured fighting vehicle.

c) Browning Machine Gun M1919A6:
- M1919A6 is an air-cooled firearm which may be configured for infantry use with a carrying handle, bipod and shoulder stock.
- features include: muzzle bearing with a internal design to assist recoil that may be extended as a cone shaped flash hider; round, perforated barrel jacket; rectangular shaped receiver /frame incorporating a riveted steel plates construction; folding front sight at the front of the receiver/frame with a bracket protected folding rear sight; feeding cover opening latch under the rear sight; cast, recoil buffer and pistol grip assembly; curve shaped trigger protruding from the back of the receiver /frame; cocking handle normally on the right side; military phosphate finish.

Manufacturer

- "KMP CLASSIC ARMS MANSFIELD OHIO" is marked on the inner surface of the right side plate receiver/frame.
- KMP CLASSIC ARMS, which is located in Mansfield, Ohio, USA is subsidiary of KARMA METAL PRODUCTS.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Type	- designed and manufactured to fire in semi-automatic mode. - the right hand side-plate was manufactured with the shoulder to prevent full automatic parts from being installed.
Action	- no longer capable of full automatic fire.
Serial Number	- serial number is marked on the inside of the right receiver side-plate. - a second number appears on the top cover, this number is not located on a permanent component of the receiver.
Calibre	- calibre was observed marked on the side plate receiver/frame.
Shots	- belt fed.
Canadian Law Comments	- Browning Machine Gun receivers (and other similar guns with a box type receiver construction) - the five sided box consisting of top and bottom plates, left and right side plates and the front trunnion block is the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm". - for the administrative purposes of The Firearms Act, when the five sided box receiver/frame is further disassembled, the receiver/frame component plate where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration. - the Criminal Code PART III, Section 84 para (c) definition - prohibited firearm means, "an automatic firearm, whether or not it has been altered to discharge only one projectile with one pressure of the trigger".

Notes

Make

- the make will be found marked on the firearm as "Knight's Mfg. Co." and/or the Knight's Manufacturing company logo which consists of a helmet, sword and axe superposed on a shield with the letters "KMC".

Model

- model designation is not marked on the firearm.
- the "Master Key" is a modified "Remington 870" shotgun which is sold by "Knight's Manufacturing Company" under their own model designation.
- the "Master Key" is designed to be mounted under the barrel of any of the following firearms: AR-15, CAR-15, M-16, SR-15 (M-4 or M-5), SR-25 or H&K 93, etc: which have the "Knight's" Rail Adapter System (RAS) installed.
- features include: 254 mm round barrel, solid top receiver/frame with right side ejection and bottom loading port; pump action with dual operating rods, push button safety, no sights, no buttstock, shortened forestock, mounting bracket is welded on the top of the firearm for interface between the shotgun and rifle.
- total overall length of the "Master Key" is 435 mm.
- total weight of 2.6 kgs.

Manufacturer

- the manufacturer's name will be found marked on the firearm as "Knight's Mfg. Co." and/or the company logo which consists of a helmet, sword and axe superposed on a shield with the letters "KMC" and the original firearm manufacturer's name will be found as "Remington", marked on the left side of the receiver/frame.

Action

- manually operated, repeating, pump-action shotgun, mounted/attached underneath an AR-15/M-16 or other firearm as a police/security "entry weapon".

Serial Number

- the serial number is marked on the left side of the receiver/frame, above the trigger.

Shots

- tubular magazine, located under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Type:	Handgun
Action:	Revolver
Country of Manufacturer:	BELGIUM
Serial Numbering:	
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
21337 - 1	320 REV SHORT CF	5	52	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KOBOLD" is a trade name used for Constabulary type revolvers sold by Albrecht Kind of Germany or JB Rongé of Liège.
- "KOBOLD" revovers were manufactured by Neumann Freres and Raick Freres of Liege, Belgium.

Model

- model designation may be marked on the firearm.
- features include: bird's head grip; solid receiver/frame; folding trigger or fixed trigger with trigger guard; ejecting rod; and safety.

Manufacturer

- "Manufacture d'Armes Raick Freres" or "Raick Freres" may not be marked on the firearm.
- "Raick Freres" manufactured double barrel box lock and side lock rifles and shotguns, single shot folding shotguns and bolt action rifles and handguns.
- the "Raick" name has been associated with gun makers in the Liege region of Belgium, since 1807.
- "Mathieu Raick" established a business in Liege in 1807.
- "Mathieu Raick" was joined by his two sons Felix and Mathieu Jeune Raick in 1842 and formed the business of "Raick & Fils".
- "Raick & Fils" was in business from 1842 to 1865.
- Felix and Mathieu Jeune Raick took over the business in 1865 after the death of "Mathieu Raick".
- "Raick Freres" was established in 1865. Rick Freres had a sales office in London, England for several years starting in 1898.
- "Raick Freres" ceased operations during World War One but reestablished the business in 1919, the same happened during World War Two with the business being rebuilt in 1945.
- in 1965, Raick Freres was manufacturing bolt action rifles on FN receivers/frames.

Notes

Make

- the make is not marked on the firearm.
- "SCORPIO" and a stylized scorpion logo are marked on both the left and the right side of the clamshell type chassis.
- "SCORPIO" is a registered trademark used by North Sylva Company since August of 2013.

Model

- "Scorpio SKS-15" is not marked on the firearm.
- "SKS-15" is marked on both sides of the clamshell type chassis.
- "MFG BY:" over "KODIAK" over "Defence Inc" is marked on both sides of the magazine housing.
- this firearm is a "Simonov SKS 1945" rifle that has been commercially customized by the installation of a Kodiak Defence manufactured alloy clamshell type chassis that alters its external appearance.
When removed from the chassis, no correlation exists which associates the chassis to its markings and those on the rifle.
- features include: round rifled barrel threaded for flash hider; flat top alloy clamshell type chassis with full length integral accessory rail; ventilated handguard with mounting points; fixed cylindrical bolt handle located on the right side of the bolt carrier; synthetic pistol grip; telescoping butt stock; black or coloured finish;
- overall length with a 476mm (18.7") barrel is 945mm (37") with the stock collapsed.

Action

- gas operated, short stroke piston system.

Serial Number

- observed serial number marked on the receiver/frame consisted of two Cyrillic letters followed by four numbers. Note: - serial number not visable when "Chassis Kit" Scorpio SKS-15 is assembled to the firearm.
- observed serial number marked on the trigger guard may not match the serial number marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- calibre is marke on the barrel, beneath the gas tube, only visible when the firearm is disassembled.
Shots	- detachable box magazine.

Notes

Make

- "KODIAK DEFENCE INC." is marked on the left side of the receiver/frame.
- "MFG. IN Canada" is marked on the right side of the receiver/frame.

Model

- "WR762" is marked on the right, rear side of the receiver/frame.
- "WR762" externally resembles the "CZ858" family of firearms loosely based on the Kalashnikov model AK47 assault rifle, but is not a member of the Kalashnikov family of firearms.
- features include: threaded muzzle for flash hider/muzzle brake; hooded front sight and tangent rear sight; short stroke gas piston is mounted above the barrel; flat sided machine steel receiver/frame with a sheet metal dust cover; tilting block locking system; striker fired; cocking handle is mounted on the right side of the breech block; detachable box magazine release lever mounted behind the magazine well; safety lever mounted on the right side of the receiver/frame; wood or synthetic top and bottom forend, pistol grip and stock; may have a side folding stock; blue, parkerized or coloured finish.

Manufacturer

- "KODIAK DEFENCE INC." is marked on the left side of the receiver/frame.
- "MFG. IN Canada" is marked on the right side of the receiver/frame.
- "KODIAK DEFENCE INC." is located in Windsor, Ontario Canada.
- "KODIAK DEFENCE INC." was established in 2015.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- gas operated.
Serial Number	- serial number is marked on the receiver/frame. - observed serial number consisted of a letter "K" prefix followed by three numbers.
Calibre	- "7.62 x 39" is usually marked on the left side of the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- "KOFS" is marked on the receiver/frame.

Model

- "CAVALRY" was observed marked on the underside of the receiver/frame.
- features observed: round over & under, high polish blued barrels with a ventilated top rib, ventilated middle rib, interchangeable chokes, and brass bead front sight; engraved silver nitride or black finished front hinged receiver/frame with a top tang mounted break open lever and safety; boxlock action; auto ejector or extractor; single selective trigger; silver finish trigger; checkered walnut forearm with a schnabel or beavertail forend and a semi-pistol grip buttstock with a rubber butt pad.
- average weight is from 2.3kgs (5.07 lbs) to 2.8 kgs (6.17 lbs).

Manufacturer

- "KOFS" and "Turkey" is usually marked on the underside of the receiver/frame.
- "KOFS Limited" is located in Isparta, Turkey.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- over and under barrel configuration, hinged barrel design.
Serial Number	- serial number may be marked on the upper tang of the receiver/frame, under the break open lever.
Other Markings	- "ATI Rochester, New York" was observed marked on the left side of the receiver/frame on an example. - "ATI" denotes "American Tactical Imports".

FRT Report

Firearm Reference Number (FRN): 144049
Make: Koksharov
Model: AEK-971

Summary

Make:	Koksharov
Model:	AEK-971
Manufacturer:	Degtyarev
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
144049 - 1	5.45X39 RUSSIAN	30	420	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.
- the make is derived from the lead designer, Sergei Ivanovich Koksharov, who oversaw the development of this series of firearms.

Model

- the model is marked on the firearm.
- this is an unusual gas-operated rifle that uses what the designer coined as "balanced operation", and which was almost chosen as the winner during the Abakan trials to choose a replacement for the AK-74M rifle; this rifle is still in production, and has been adopted by some elements of the Russian military.
- this rifle uses a two-piece gas-piston design, whereby one-half of the gas system is used to drive the bolt and bolt carrier to the rear (to perform the actions of ejection and reloading), while the other half of the gas system (fitted with a heavy tungsten piston-head) is driven FORWARD, to balance out the recoil of the rearward-moving masses; this results in a rifle with remarkably little felt recoil, and which does not rise appreciably off the target. This same principle was adopted by Izhmash designers for the AK-107 and AK-108 rifles.
- versions of this rifle are built in 5.45x39mm (the AEK-971), in 5.56x45mm (the AEK-972) and in 7.62x39mm (the AEK-973).
- features include: matte black phosphated/parkerized finish; one of several types of multi-vent muzzle brakes; AK-style open adjustable sights (an AK-style sight-mounting rail is attached to the left side of the receiver for the attachment of various optical or night-sights); an extended gas piston to contain the forward-travelling gas piston; synthetic furniture; a hook-style bolt operating handle on the right side; a cross-ribbed top cover; an ambidextrous four-position safety/selector (safe, semi-automatic, three-round burst, and full automatic) above the pistol-grip, and a side-folding, frame buttstock. A version with a sliding collapsible buttstock has also been made as the AEK-971S.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.
- the V.A. Degtyarev Factory (Russian: "Zavod imeni Degtyareva", or "ZiD") is the current incarnation of a manufacturer that was originally set up in Kovrov, Russia, by Danish investors to produce Madsen machine guns for the Russian armed forces during World War One. After the factory was nationalized during the Russian Revolution, it became known as "Factory 2", and then the "Kirkizh Factory" (after a Communist leader who had died in 1927). During the 1950s, the factory was part of a conglomerate in the closed city of Kovrov known as the "Kovrov Mechanichevsky Zavod"/"Kovrov Mechanical Factory", but in 1993, the small arms and cannon component of that factory was reorganized into its own stand-alone manufacturer again, as the "Factory in the name of V.A. Degtyarev".

Action

- gas-operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the receiver/frame, usually with two Cyrillic character prefixes.
Shots	- detachable box magazine.

Notes

Make

- "KOLAR" is marked on the underside of the receiver/frame and on the barrel assembly.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model designation is not marked on the firearm. - this model is built on a standard receiver/frame with a series of choke, barrel and stock configuration packages being available to suit different competitive purposes such as sporting clays, skeet, or trap. - features include: interchangeable choke tubes, carrier barrel sets, sub-gauge tube sets, walnut buttstock and forend, several barrel rib configurations and plain or vented barrel joining, mono-bloc barrel construction, Boss style locking system with replaceable action bearing lugs, single selective detachable mechanical trigger assemblies available in both pull or release configurations, top tang mounted safety, top opening lever and several levels of embellishment through engraving, wood grade, gold inlays, etc.
Manufacturer	- "KOLAR" is marked on the bottom of the receiver/frame, ahead of the trigger guard but behind the barrel hinge point. - "KOLAR" and a rampant lion logo may also be present dependant on the level of embellishment on the shotgun. - "KOLAR Racine WI" may be marked on the barrel assembly.
Action	- over and under barrel configuration. - single barrel units are available as a specialized trap shooting accessory.
Serial Number	- serial number is marked on the receiver/frame. - serial numbers observed consist of the prefix "K" followed by five digits.
Calibre	- calibre designation is marked on the barrel assembly.
Shots	- single shot or two shots with the over/under barrels.
Remarks	- this firearm is offered in a number of different grades and configurations which should not be construed as constituting separate models. A standard receiver/frame is made by Kolar, and barrel, stock, choke and embellishment options are determined by the consumer to suit a specific competitive purpose.

20367 - 3	22 SHORT	6	30	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Kolb's trademark is the letter "K" inside a circle moulded into the grip plates.

Model

- "PAT FEB. 2. 92 - FEB. 4, 96" over "BABY HAMMERLESS" was observed marked on the top strap.
- manufactured prior to 1930.
- this is a small concealed-hammer pocket revolver, manufactured by Kolb.
- features include: ovate barrel with fixed blade front sight; solid top receiver/frame with removable fluted cylinder and right side loading slot; double row locking bolt recesses on the cylinder surface; knurling on the cylinder axis pin; knurled cylinder axis pin release is located on the right side of the receiver/frame; concealed hammer; folding trigger; double action trigger mechanism; nickel plated finish.

Serial Number

- may be numbered under grip plates.

Barrel

- as with many firearms of this era barrel lengths would often vary from the manufacturers stated length.

Firearm Reference Number (FRN): 25828
Make: Kolb
Model: Baby Hammerless Model 1916

Summary

Make:	Kolb
Model:	Baby Hammerless Model 1916
Manufacturer:	Sedgley, R F
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
25828 - 1	22 SHORT	6	25	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	
25828 - 2	22 SHORT	6	38	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Kolb's trademark is the letter "K" inside a circle moulded into the grip plates.

Model

- "PATS. APRIL 5, 10" over "BABY HAMMERLESS" over "MODEL 1916" is marked on the top-strap.
- this is the initial "transition" model of the Kolb/Sedgely "Baby Hammerless", manufactured when Sedgely was refining the design of this revolver from Kolb's original design; the primary visual change is that the mainspring inside the grip was changed to a permanently-compressed coil spring, without a tension-adjustment screw on the front-strap.
- features include: blued or nickeled finish; fixed half-moon blade sight on an ovate barrel; underbarrel cylinder axis pin with three knurled bands, and retained by a spring-loaded "blade"-style catch built into the head of the cylinder axis pin; fluted six-shot cylinder; loading groove on the right side of the receiver/frame; enclosed hammer in a "humpback" receiver/frame; folding trigger; and black synthetic checkered grips with an "S" in a circle, on a square-butt grip-frame.

Manufacturer

- the manufacturer is not marked on the firearm; Henry M. Kolb originally manufactured these revolvers under the "Kolb" name, but sold the business to R.F. Sedgely in 1916, but Sedgely continued using the "Kolb" name until existing parts inventories were exhausted.

Action

- double-action revolver.

Serial Number

- serial-numbered on the right side of the grip-frame, underneath the grips.

Firearm Reference Number (FRN): 128932
Make: Kommando
Model: Kommando

Summary

Make:	Kommando
Model:	Kommando
Manufacturer:	Lacoste Engineering
Level:	Manufacturer Specifications and Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	RHODESIA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
128932 - 1	9MM LUGER	25	210	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Kommando is moulded into both sides of the forward portion of the trigger/grip frame assembly.

Model

- "Kommando" was introduced circa 1976 or 1977.
- "Kommando" was observed marked on both sides of the forward portion of the trigger/grip frame assembly.
- there are five known version of the Kommando and LDP, only the fifth was semiautomatic-only.
- features include: round barrel, removable by means of a barrel Knurled nut located around the muzzle end of the barrel just in front sight; tubular steel upper receiver/frame with upper right side ejection port; cocking handle is mounted on the left side of the receiver/frame; one peace bolt assembly has no safety position available for locking the cocking handle to the rear; extractor claw mounted on the bolt and the ejector; bolt body envelops/surrounds the barrel assembly, uses a fixed firing pin and has a bolt face which fully supports the cartridge rim.
- safety selector lever is mounted on the right side of the trigger/grip frame assembly just above the trigger, may have a second grip safety "passive trigger safety" that must be depressed so the trigger can be fully depressed is pined at the bottom rear portion of the trigger guard.
- crudely made front sight that is part of the trigger grip frame assembly that is used to lock the barrel and receiver to the front portion of the grip/frame assembly and a large knurled end cap is used at the rear.
- molded black plastic lower trigger grip frame assembly with serrations on the forearm and pistol grip; under folding wire stock that when folded acts as a forearm pistol grip; blued or black/green parkerized finish.
- magazine housing is part of the grip; magazine release is a hinged metal clip on the right side of the pistol grip that is held in place by a metal clamp.
- overall length with 210 mm barrel and butt stock folded is 415mm and 615 with the stock extended.

Action

blowback operated.
- "Kommando" uses advanced primer ignition and is not striker fired.

Serial Number

- the serial number is marked on the top surface of the upper receiver/frame forward of the rear sight assembly.
- observed serial number sequences have consisted of a two letters followed by six digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- 9MM PARABELLUM was observed marked on the left sides of the forward portion of the trigger/grip frame assembly.
Shots	- detachable box magazine. - this firearm uses Uzi magazines.
Other Markings	- the letter "P" inside a triangle is found stamped on the bolt, barrel and on the receiver/frame this is believed to be a Rhodesian proof mark and that the firearm was manufactured in Salisbury Rhodesia. - when found with proof mark that denotes the antlers of a Springbok (South African Antelope) with the letter " T " in the middle, on the bolt, barrel and on the receiver/frame this is believed to be a South African proof mark and that the firearm was manufactured in South Africa - the serial number maybe repeated on the bolt and barrel. - British proof marks were observed marked on the top of the receiver/frame, bolt and at the muzzle end of the barrel. - British proof marks only mean this firearm was at one time proofed in England for import/export.
Remarks	- with the interchangeability of parts from other versions and different models such as the Kommando and LDP the model description my very.

- "Kommando" was observed marked on both sides of the forward portion of the trigger/grip frame assembly.
- there are five known version of the Kommando and LDP, only the fifth was semiautomatic-only.
- features include: round barrel, removable by means of a barrel Knurled nut located around the muzzle end of the barrel just in front sight; tubular steel upper receiver/frame with upper right side ejection port; cocking handle is mounted on the left side of the receiver/frame; one peace bolt assembly has no safety position available for locking the cocking handle to the rear; extractor claw mounted on the bolt and the ejector; bolt body envelops/surrounds the barrel assembly, uses a fixed firing pin and has a bolt face which fully supports the cartridge rim;
- safety selector lever F and S is mounted on the right side of the trigger/grip frame assembly just above the trigger, may have a second grip safety "passive trigger safety"that must be depressed so the trigger can be fully depressed is pined at the bottom rear portion of the trigger guard;
- crudely made front sight that is part of the trigger grip frame assembly that is used to lock the barrel and receiver to the front portion of the grip/frame assembly and a large knurled end cap is used at the rear ;
-molded black plastic lower trigger grip frame assembly with serrations on the forearm and pistol grip; under folding wire stock that when folded acts as a forearm pistol grip; blued or black/green parkerized finish.
- magazine housing is part of the grip; magazine release is a hinged metal clip on the right side of the pistol grip that is held in place by a metal clamp.
- overall length with 210 mm barrel and butt stock folded is 415mm and 615 with the stock extended.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- in 1976 LaCoste Engineering, Pvt.Ltd of South Africa developed the Kommando and it is belived they had them manufactured in Salisbury Rhodesia.
Action	- blowback operated. - "Kommando" uses advanced primer ignition and is not striker fired.
Serial Number	- the serial number is marked on the top surface of the upper receiver/frame forward of the rear sight assembly. - observed serial number sequences have consisted of a two letters followed by six digits (SV# # # # # #).
Calibre	- 9MM PARABELLUM was observed marked on the left sides of the forward portion of the trigger/grip frame assembly.
Shots	- detachable box magazine. - this firearm uses Uzi magazines.
Other Markings	- the letter "P" inside a triangle is found stamped on the bolt, barrel and on the receiver/frame this is believed to be a Rhodesian proof mark and that the firearm was manufactured in Salisbury Rhodesia. - when found with proof mark that denotes the antlers of a Springbok (South African Antelope) with the letter " T " in the middle, on the bolt, barrel and on the receiver/frame this is believed to be a South African proof mark and that the firearm was manufactured in South Africa - the serial number maybe repeated on the bolt and barrel. - British proof marks were observed marked on the top of the receiver/frame, bolt and at the muzzle end of the barrel. - British proof marks only mean this firearm was at one time proofed in England for import/export.
Remarks	- With the interchangeability of parts from other versions and different models such as the Kommando and LDP the model description may vary.

Notes

Make

- make is not marked on the firearm except in the form of initials ("KA") in the preface to the serial number.

Model

- "KOMMANDO" is moulded into both sides of the forward portion of the trigger/stock assembly.
- there are five known version of the Kommando and LDP and only the fifth was semiautomatic-only.
- developed in October 1978 from a Rhodesian design, developed in South Africa and produced in Salisbury, Rhodesia and then later in South Africa.
- features include: fires from the open bolt position; moulded black/green plastic trigger/stock assembly; tubular steel upper receiver/frame; with stamped rear and front sights; grey/black parkerized finish on all metal surfaces; safety selector lever mounted on the left side of the receiver/frame above the trigger; under folding skeleton-type wire stock; magazine housing mounted in the pistol grip with magazine release catch on the bottom left side of the pistol grip; post front sight with coarse adjustments for windage and elevation by rotating the entire eccentric post; non-adjustable rear notch/aperture sight; cocking handle mounted on the left side of the bolt assembly with no safety position available for locking the handle to the rear; extractor claw mounted through the bolt face rather than on the outside of the bolt body; right side ejection port; the bolt body surrounds the barrel assembly, uses a fixed firing pin and has a bolt face which fully supports the cartridge rim; this firearm uses advanced primer ignition and is not striker fired; the bolt envelops the chamber end of the barrel presenting a rounded surface to view when the bolt is forward.
- rifling characteristics - 6 lands, left hand twist.
- total production of the Kommanda and LDP firearms is reported in excess of 10,000.

Manufacturer

- intergated into the serial number is the year of manufacturer "78" and the company initials "K A"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated, advanced primer ignition.
Serial Number	- the serial number is marked on the top surface of the upper receiver/frame forward of the rear sight assembly. - observed serial number sequences have consisted of a two digit year of manufacture followed by two letters followed by six digits.
Calibre	- the calibre designation is marked on the top surface of the upper receiver/frame forward of the rear sight assembly as "CAL 9MM P".
Shots	- detachable box magazine. - magazines are compatable with the Uzi series of submachine guns.
Other Markings	- when found with proof mark that denotes the antlers of a Springbok (South African Antelope) with the letter " T " in the middle, on the bolt, barrel and on the receiver/frame this is believed to be a South African proof mark and that the firearm was manufactured in South Africa - the letter "P" inside a triangle is found stamped on the bolt, barrel and on the receiver/frame this is believed to be a Rhodesian proof mark and that the firearm was manufactured in Salisbury Rhodesia. - the serial number maybe repeated on the bolt and barrel. - British proof marks were observed marked on the top of the receiver/frame, bolt and at the muzzle end of the barrel. - British proof marks only mean this firearm was at one time proofed in England for import/export.
Remarks	- with the interchangeability of parts from other versions and different models such as the LDP the model description my very.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
21473 - 1	9MM LUGER	5	210	Prohibited PFR, Part 1, para. 156(b)	Non-Commercial Customization	
21473 - 2	9MM LUGER	25	210	Prohibited PFR, Part 1, para. 156(b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- make is not marked on the firearm except in the form of initials ("KA") in the preface to the serial number.

Model

- "LDP" was introduced circa 1976 or 1977.
- "LDP" was observed marked on both sides of the forward portion of the trigger/grip frame assembly.
- there are five known version of the LDP and only the fifth was semiautomatic-only.
- features include: round barrel, removable by means of a barrel Knurled nut located around the muzzle end of the barrel just in front sight; tubular steel upper receiver/frame with upper right side ejection port; cocking handle is mounted on the left side of the receiver/frame; one peace bolt assembly has no safety position available for locking the cocking handle to the rear; extractor claw mounted on the bolt and the ejector; bolt body envelops/surrounds the barrel assembly, uses a fixed firing pin and has a bolt face which fully supports the cartridge rim.
- safety selector lever F and S is mounted on the right side of the trigger/grip frame assembly just above the trigger, may have a second grip safety "passive trigger safety"that must be depressed so the trigger can be fully depressed is pined at the bottom rear portion of the trigger guard;
- crudely made front sight that is part of the trigger grip frame assembly that is used to lock the barrel and receiver to the front portion of the grip/frame assembly and a large knurled end cap is used at the rear ;
-molded black plastic lower trigger grip frame assembly with serrations on the forearm and pistol grip; under folding wire stock that when folded acts as a forearm pistol grip; blued or black/green parkerized finish.
- magazine housing is part of the grip; magazine release is a hinged metal clip on the right side of the pistol grip that is held in place by a metal clamp.
- overall length with 210 mm barrel and butt stock folded is 415mm and 615 with the stock extended.

Manufacturer

- integrated into the serial number is the year of manufacturer "78" and the company initials "K A"

Action

- "advanced primer ignition" principle, blow back operation.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on top of the body at the rear.
- early models used a 2-letter prefix followed by a 6-digit number.
- the serial number is marked on the top surface of the upper receiver/frame forward of the rear sight assembly.
- observed serial number sequences have consisted of a two digit year of manufacture followed by two letters followed by six digits.

Calibre

- the calibre designation is marked on the top surface of the upper receiver/frame forward of the rear sight assembly as "CAL 9MM P" or 9MM PARABELLUM was observed marked on the left side of the forward portion of the trigger/grip frame assembly.

Shots

- detachable box magazine.
- utilizes a modified UZI submachine gun magazine.

Notes

Make

- maker's name not usually found on the firearm.
- make is not marked on the firearm except in the form of initials ("KA") in the preface to the serial number.

Model

- "PARAMAX" was observed marked on the left sides of the forward portion of the trigger/grip frame assembly.
- features include: round barrel, removable by means of a knurled nut located around the muzzle end of the barrel just in front sight; tubular steel upper receiver/frame with upper right side ejection port; cocking handle is mounted on the left side of the receiver/frame; two peace bolt assembly has no safety position available for locking the cocking handle to the rear; extractor claw mounted on the bolt and the ejector is mounted in the trigger/grip frame assembly ; bolt body envelops/surrounds the barrel assembly, uses a fixed firing pin and has a bolt face which fully supports the cartridge rim.
- safety selector lever F and S is mounted on the right side of the trigger/grip frame assembly just above the trigger; stamped metal sight guards;
- metal tabs located at the front and rear of the stamped steel lower trigger grip frame assembly are used to lock the barrel and receiver to the grip/frame assembly by means of the barrel nut and a large knurled end cap is used at the rear.
- sliding wire stock; magazine housing is part of the grip;one piece grip panel; the heel of the grip has a thumb size cut out for the magazine release.

Manufacturer

- make is not marked on the firearm except in the form of initials ("KA") in the preface to the serial number.
- "78 KA" may be marked on the top of the receiver/tube this is the year of manufacturer "78" and the company initials "K A"

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blow back operated.
Serial Number	- located on upper rear body. - consists of 2 digit year of manufacture, 2 letters, then 6 digit number; observed example reads: 78KAxxxxxx.
Calibre	- "CAL 9MM P" was observed marked on the top of the receiver/tube just forward of the rear sight.
Shots	- detachable box magazine. - magazines are compatible with the Uzi series of submachine guns.
Other Markings	- under the forearm grip "DUMAK" and "IHB" were observed. - when found with proof mark that denotes the antlers of a Springbok (South African Antelope) with the letter " T " in the middle, on the bolt, barrel and on the receiver/frame this is believed to be a South African proof mark and that the firearm was manufactured in South Africa - the letter "P" inside a triangle is found stamped on the bolt, barrel and on the receiver/frame this is believed to be a Rhodesian proof mark and that the firearm was manufactured in Salisbury Rhodesia. - the serial number maybe repeated on the bolt and barrel. - British proof marks were observed marked on the top of the receiver/frame, bolt and at the muzzle end of the barrel. - British proof marks only mean this firearm was at one time proofed in England for import/export.

Notes

Make

- the make is marked on the left side of the slide.

Model

- the model designation does not appear on the firearm.
- the Kommer pistol was available in four variations, as each model evolved small changes were made so individual samples may vary.
- Model 1: this model, available in calibre 6.35MM/25 AUTO was based on the Browning designed model 1906, features included an eight shot magazine and a slightly rounded butt (this is the most identifiable feature). Slide markings read "KOMMER SELBSTLADE PISTOLE 6.35" or "Selbstlade - Pistole - Cal. 6.35", manufacturer markings appear on the top of the slide. The receiver/frame may be marked "Kommer D.R.G.M." or "Kommer".
- Model 2: this model is similar to the Kommer Model "1", except it has a straight sided grip and a shortened grip frame to accomodate a seven shot magazine, slide markings are "KOMMER PISTOLE CAL 6.35" with manufacturer markings appearing on the top of the slide.
- Model 3: same basic design as the models 1 and 2, this model dates from 1927 and features an extended butt to house an eight shot magazine. Slide markings read "KOMMER PISTOLE 6.35" or "KOMMER PISTOLE 6.35 D.R.G.M." on the side and manufacturer markings on the top (some samples reported with the Roman numeral "III" after the manufacturers name).
- Model 4: the final Kommer pistol, this model dates from 1936. This model, in calibre 7.65MM/32 AUTO was based on the Browning designed model 1910, but lacked the grip safety. Early versions (prior to serial number 12,000) lacked the slide mounted cocking-indicator pin found on later versions. Slide markings read "WAFFENFABRIK KOMMER ZELLA MEHLIS KAL 7.65" on the side and manufacturer markings on the top.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturers name appears on the top of the slide. - grip plates will normally have a stylized "Th K" in an oval, "TK" in a circle, or "Kommer" moulded into the top portion of the panel. - Theodor Kommer Waffenfabrik began production of small blowback pistols in 1920, production ceased in 1940.
Action	- blowback operated.
Serial Number	- the serial number may be marked on the side of the receiver/frame or on the backstrap.
Shots	- detachable box magazine.

- the model designation does not appear on the firearm.
- the Kommer pistol was available in four variations, as each model evolved small changes were made so individual samples may vary.
- Model 1: this model, available in calibre 6.35MM/25 AUTO was based on the Browning designed model 1906, features included an eight shot magazine and a slightly rounded butt (this is the most identifiable feature). Slide markings read "KOMMER SELBSTLADE PISTOLE 6.35" or "Selbstlade - Pistole - Cal. 6.35", manufacturer markings appear on the top of the slide. The receiver/frame may be marked "Kommer D.R.G.M." or "Kommer".
- Model 2: this model is similar to the Kommer Model "1", except it has a straight sided grip and a shortened grip frame to accomodate a seven shot magazine, slide markings are "KOMMER PISTOLE CAL 6.35" with manufacturer markings appearing on the top of the slide.
- Model 3: same basic design as the models 1 and 2, this model dates from 1927 and features an extended butt to house an eight shot magazine. Slide markings read "KOMMER PISTOLE 6.35" or "KOMMER PISTOLE 6.35 D.R.G.M." on the side and manufacturer markings on the top (some samples reported with the Roman numeral "III" after the manufacturers name).
- Model 4: the final Kommer pistol, this model dates from 1936. This model, in calibre 7.65MM/32 AUTO was based on the Browning designed model 1910, but lacked the grip safety. Early versions (prior to serial number 12,000) lacked the slide mounted cocking-indicator pin found on later versions. Slide markings read "WAFFENFABRIK KOMMER ZELLA MEHLIS KAL 7.65" on the side and manufacturer markings on the top.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- the manufacturers name appears on the top of the slide. - grip plates will normally have a stylized "Th K" in an oval, "TK" in a circle, or "Kommer" moulded into the top portion of the panel. - Theodor Kommer Waffenfabrik began production of small blowback pistols in 1920, production ceased in 1940.
Action	- blowback operated.
Serial Number	- the serial number may be marked on the side of the receiver/frame or on the backstrap.
Shots	- detachable box magazine.

Notes

Make

- the trademark/logo for civilian-pattern firearms produced by the Kongsberg Arsenal in Norway is a script letter "K" which is usually marked on the top of the receiver ring.

Model

- model name is not marked on the firearm.
- turn bolt operated utilizing an internal box rotary-type magazine.
- features: checkered or stippled walnut pistol-grip stock with Monte Carlo or adjustable cheek rest; 3-position safety at right rear of bolt; bolt-release in front of bolt; a magazine release lever (to empty the magazine) is located under the loading/ejection port on the right side of the receiver/frame.
- this rifle is produced with or without open sights, in left-hand and right-hand versions, with bull or standard barrels, and the action is milled to accept Weaver-type scope mounts.

Manufacturer

- the Norwegian State Arsenal at Kongsberg has been manufacturing firearms and swords for the Norwegian military since 1814; they began producing firearms for the civilian market in 1821, and have been producing both ever since.
- the logo for civilian-pattern firearms produced by the Kongsberg Arsenal is a script letter "K".

Action

- turn bolt operated.

Serial Number

- the serial number is usually marked on the left side of the receiver/frame.
- known example had a letter prefix followed by a four digit number.
- the letter prefix "C" has been observed.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - internal rotary magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- Homer E. Koon Jr. was a gun designer who worked for Ranger Arms, of Texas, in the late 1960s. By the early 1970s, he had branched out on his own, and begun producing his "Omega III" design.
Model	- "OMEGA 3" is a semi-custom bolt-action rifle with several unusual or distinguishing features. - "Omega III / By H Koon" is marked on the left side of the receiver, with the serial number on the right side of the receiver. - rectangular receiver with octagonal top, square head on jeweled bolt, two-piece laminated stock without checkering, cross-bolt safety at rear of trigger-guard, no open sights, but drilled and tapped for scope mounts, and a rotary Mannlicher Schoenauer style internal magazine.
Serial Number	- numbered on right side of receiver, from "1" up.
Shots	- internal rotary magazine.

Make: Koppens
Model: Drilling

Summary

Make:	Koppens
Model:	Drilling
Manufacturer:	
Level:	Manufacturer Specifications and Commercial Customization
Type:	Combination Gun
Action:	Multi-Barrel
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
153126 - 1	9.3X72R/16 GA X 2 3/4"	3	680	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "KÖPPENS, OLDENBURG" is marked on the top of the barrels rib.
- "OLDENBURG" is a city and a state in Germany.

Model

- model designation is not marked on the firearm.
- this is a generic entry for drilling configured firearms produced by "KÖPPENS" that have no model designation marked on them.
- "Drilling" refers to a firearm with three barrels; barrel configuration can vary and may include any combination of shotgun and rifle barrels, i.e., two shotgun barrels over one rifle barrel, one rifle barrel over two shotgun barrels, one rifle barrel side-mounted on either the left or right side of the shotgun barrels, one shotgun barrel with two rifle barrels, etc.
- known example had German proof marks on the barrels.
- features observed: round side by side Damascus smoothbore barrels over a round rifled barrel; front hinged receiver/frame with a top tang mounted break open action release lever and barrel selector; external side hammers; double triggers; checkered wood forearm and semi-pistol grip buttstock; buttstock had a compartment with a hinged plate inletted into the underside for rifle cartridge storage; sling swivels; barrels, receiver/frame and hammers are engraved with animal scenery and patterns with some gold inlet.

Action

- hinged barrel design.
- barrel assembly consists of three barrels: two side by side smoothbore barrels over a rifled barrel.

Serial Number

- serial number is usually marked under the barrel at the chambers end.
- serial number of a referenced example consisted of five numbers.

Calibre

- 9.3X72R is marked usually as "118/35"under the barrel.

FRT Report

Firearm Reference Number (FRN): 55043
Make: Kora
Model: 38SP Rival

Summary

Make:	Kora
Model:	38SP Rival
Manufacturer:	Kroko
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Revolver
Country of Manufacturer:	CZECH REPUBLIC
Serial Numbering:	See Note
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
55043 - 1	38 SPL	6	152	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make is marked on the left side of the barrel as "KORA Brno".
Model	- this is a 38 SPL double-action revolver, with a Smith & Wesson style cylinder latch, adjustable target sights, rubber or wrap-around wood grips, and the customer's choice of matte blue/black or chrome finish.
Manufacturer	- Kroko a.s. is a manufacturer located in Brno, the Czech Republic, that specializes in manufacturing blank, gas, "parlour", self-defence, and target revolvers.
Serial Number	- marked on the left side of the receiver/frame.

FRT Report

Firearm Reference Number (FRN): 120068
Make: Kora
Model: Fox

Summary

Make:	Kora
Model:	Fox
Manufacturer:	Kroko
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Other
Country of Manufacturer:	CZECH REPUBLIC
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
120068 - 1	6MM FLOBERT RF	3	232	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- make marked on firearm as "KORA BRNO".
Model	- model marked on firearm as "FOX". - this is a scaled-down rimfire rifle built as a "boy's gun", or for small pest control. - features include: a one-piece beech pistol-grip stock (available in several colours); blued, nickeled or stainless finish on the barrel and breech; a striker/safety at the rear of the receiver/frame; receiver/frame grooved for scope mounts and a sideways-sliding breech-piece containing 3 or more chambers for cartridges. - to use this rifle, a shooter would load the empty chambers in the breech-piece, cock the rifle by pulling back on the cocking-piece until the sear catches and then advance the breech-piece in front of the striker, re-cocking the striker for each shot.
Manufacturer	- manufacturer not marked on firearm.
Action	- this is a manually-operated repeater with a sideways-sliding breech-block containing several chambers.
Serial Number	- numbered on receiver/frame; rationalization unknown.

Notes

Make
- marked "KORRIPHILA" within indented rectangle on left side of slide, ahead of "HSP 701 (calibre designation) Made in Germany"

Model
- a hand made pistol produced in Germany available in both single action/double action format and single action only; it is also produced in either 102mm (4 inch) or 127mm (5 inch) barreled versions, and with either a blued or a nickeled finish. Circa 1988

Manufacturer
- Korriphila is a small manufacturer based in Ulm, Germany, that produces small numbers of handguns.

Action
- roller-locked delayed blow-back operation.

Shots
- detachable box magazine.

Canadian Law Comments
- Handguns chambered for the cartridge 7.65MM LUGER, also known as 30 LUGER and 7.65MM PARABELLUM, are deemed exempt from CC 84(1) "prohibited firearm" para. (a)(ii), which states:
"prohibited firearm" means
(a) a handgun that
(ii) is designed or adapted to discharge a 25 or 32 calibre cartridge,

Notes

Make

- marked "Waffenfabrik Korth" on the receiver/frame above the trigger guard on the right side.

Model

- this is a hand fitted revolver with full length underlug and heavy ventilated barrel rib with an adjustable rear sight and a ramp front sight (the Sport revolver is fitted with a click adjustable target rear sight and undercut Patridge front sight).
- manufactured in matte, bright blue or nickel finishes.
- available with a number of custom options, including engraving, gold inlays and hand carved or checkered grips in exotic materials.
- interchangeable cylinder available.

Manufacturer

- "Korth" is a German manufacturer known for its high quality handguns.
- "Korth" was founded by Willi Korth, a railway engineer with a gunmaking business making alarm revolvers.
- "Korth" was founded in 1954.
- first cartridge revolver appeared in 1964.
- Willi Korth died in 1982.
- "Korth" was, at one time associated with the Dynamit Noble Group before being purchased in 2000 by Freylinger & Company of Levange, Luxembourg.
- "Korth" is located in Ratzeburg, northern Germany.
- "Korth USA" is located in Tewksbury, Massachusetts U.S.A.
- "Korth USA" is a division of Earl's Repair Service, Inc.

Action

- double mechanism, cylinder swings out to the left side for loading.

Serial Number

- serial number of a referenced example consisted of a two letter prefix (AA) and three numbers.

Other Markings

- "Korth" in a circle is marked on the left side plate and caliber designation is marked on the left side of the barrel.

145116 - 1	12.7X107 RUSSIAN	5	1000	Prohibited PFR, Part 1, para. 96(z.062)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make or logo thereof is marked on the firearm.

Model

- the model may or may not be marked on the firearm; the Cyrillic representation of "SVN-98" resembles "CBH-98"; "SVN-98" stands for "Snajperskaya Vintovka Negrolenko-98", or "Negrolenko Sniper Rifle - 98".
- this is an unusual-appearing "bullpup"-style large-calibre sniper/target rifle, designed primarily for anti-personnel and anti-materiel use at ranges up to 1500 metres. This rifle was designed by E.V. Zhuravlev, M. Yu. Kutchin, and V.I. Negrolenko at the Kovrov Mechanical Factory beginning in 1994.
- features include: large cylindrical muzzle brake; tubular design; a heavy cylindrical free-floating barrel; a folding adjustable bipod on a short support rail extending out from the trigger-group; a bolt operating handle in front of the trigger-guard; a carry handle at the centre of gravity above the trigger; a detachable box magazine; a wooden cheekpiece on top of the receiver; and a thickly-padded buttpad with a spot for the off-hand in between the magazine and the buttpad.

Manufacturer

- the manufacturer or logo thereof is marked on the firearm.
- the small-arms component of the Kovrov Mechanical Plant was spun off into the Zavod imeni Degtyareva/Zid/Factory in the Name of Degtyarev in the late 1990s.

Action

- Turn bolt operated.

Serial Number

- numbered on the receiver/frame.

Shots

- Detachable box magazine.

Notes

Make

- "Krag-Jorgenen" is not marked on the firearm.
- "Krag-Jorgensen" is derived from the last names of the two Norweigian inventors of this firearm: Captain Ole Hermann Johannes Krag, and Erik Jorgensen.

Model

- the model designation is not marked on the firearm.
- "M.89" is marked on the left side of the receiver/frame.
- manufactured from 1925 to 1930 by "Haerens Rustkammer".
- this may also be a "M.89" infantry rifle that was converted to an "Artillery Carbine" circa 1925 by "Haerens Rustkammer".
- starting in 1929, the model designated on newly manufactured firearms was marked as "M.89-24".
- features include: round barrel with full length steel barrel sleeve/jacket and bayonet stud; turn bolt action with hooked cocking piece spur and turned down bolt handle; vertically pivoting right side magazine loading gate with front hinge pin and rear mounted ball knob for opening; one piece straight grip buttstock with sling swivel; inverted "V" front sight and adjustable leaf rear sight; two barrel bands with sling swivels.
- the overall length of the firearm with 610 mm (24.2") barrel is 1100 mm (43.3").

Manufacturer

- the original manufacturer's name and year of manufacturer are marked the left side of the receiver/frame.
- "Danish State Arsenal, Copenhagen" produced Krag-Jorgensen firearms between 1890 and 1910.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- the serial number should have a letter "A" prefix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- integral pan magazine. - magazine's hinged cover is located on the right side of the receiver/frame below the bolt, cartridges are fed horizontally into the internal pan magazine. - Krag-Jorgensen Danish magazine loading cover has a checkered knob on the top rear surface and is hinged at the front and swings out and forward. - Krag-Jorgensen Norwegian and U.S. magazine loading cover is hinged at the bottom and swings out and down.
Other Markings	- the year of manufacture appears on the left side of the receiver/frame.
Remarks	- This carbine is identical to the Model 1889 Danish Infantry Carbine, differing only in having a slightly turned down bolt handle and a different arrangement of sling swivels.

FRT Report

Firearm Reference Number (FRN): 27697
Make: Krag-Jorgensen
Model: 1889 Danish Cavalry Carbine

Summary

Make:	Krag-Jorgensen
Model:	1889 Danish Cavalry Carbine
Manufacturer:	Haerens Rustkammer
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	DENMARK
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
27697 - 1	8X58R DANISH KRAG	5	599	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Krag-Jorgenen" is not marked on the firearm.
- "Krag-Jorgensen" is derived from the last names of the two Norweigian inventors of this firearm: Captain Ole Hermann Johannes Krag, and Erik Jorgensen.

Model

- the model designation is not marked on the firearm.
- "M.89" is marked on the left side of the receiver/frame.
- this is a "M.89" infantry rifle that was converted to a "Calvary Carbine" circa 1912 by "Haerens Tojhus" and circa 1923 by "Haerens Rustkammer".

Manufacturer

- the manufacturer's name and year of manufacturer appears on the left side of the receiver/frame.
- this arsenal produced Krag-Jorgensen firearms from 1923 to 1932.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- the serial number should have a letter "R" prefix.

Shots

- integral pan magazine.
- magazine's hinged cover is located on the right side of the receiver/frame below the bolt, cartridges are fed horizontally into the internal pan magazine.
- Krag-Jorgensen Danish magazine loading cover has a checkered knob on the top rear surface and is hinged at the front and swings out and forward.
- Krag-Jorgensen Norwegian and U.S. magazine loading cover is hinged at the bottom and swings out and down.

Other Markings

- the year of manufacture appears on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks - this carbine is mechanically identical to the Model 1889 Danish Rifle differing in length and by having a wooden handguard in lieu of a tubular metal barrel jacket and no provision for a bayonet.

Model

- the model designation is not marked on the firearm.
- "M.89-24" is marked on the left side of the receiver/frame.
- features include: round barrel with full length steel barrel sleeve/jacket and bayonet stud; turn bolt action with hooked cocking piece spur and turned down bolt handle; vertically pivoting right side magazine loading gate with front hinge pin and rear mounted ball knob for opening; one piece straight grip buttstock with sling swivel; inverted "V" front sight and adjustable leaf rear sight; two barrel bands with sling swivels.
- the overall length of the firearm with 610 mm (24.2") barrel is 1100 mm (43.3").

Manufacturer

- the manufacturer's name is marked on the left side of the receiver/frame.
- "Haerens Rustkammer" produced Krag-Jorgenson firearms from 1923 to 1932.

Action

- turn-bolt design.

Serial Number

- the serial number is marked on the left side of the receiver/frame.
- the serial number should have a letter "A" prefix.

Shots

- integral pan magazine.
- magazine's hinged cover is located on the right side of the receiver/frame below the bolt, cartridges are fed horizontally into the internal pan magazine.
- Krag-Jorgensen Danish magazine loading cover has a checkered knob on the top rear surface and is hinged at the front and swings out and forward.
- Krag-Jorgensen Norwegian and U.S. magazine loading cover is hinged at the bottom and swings out and down.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings	- the year of manufacture appers on the left side of the receiver/frame.
Remarks	- this carbine is identical to the Model 1889 Danish Cavalry Carbine except that it has sling swivels on the under side of the buttstock and on the bottom of the barrel band.

Notes

Make
- "Krag-Jorgenen" is not marked on the firearm.
- "Krag-Jorgensen" is derived from the last names of the two Norweigian inventors of this firearm: Captain Ole Hermann Johannes Krag, and Erik Jorgensen.

Model
- The model designation appears on the left side of the receiver as "Model 1896". Made in 1896 only.

Manufacturer
- The manufacturer's name appears on the left side of the receiver. 404 were manufactured.

Action
- turn-bolt design.

Serial Number
- Appears on the left side of the receiver.

Shots
- integral pan magazine.
- magazine's hinged cover is located on the right side of the receiver/frame below the bolt, cartridges are fed horizontally into the internal pan magazine.
- Krag-Jorgensen Danish magazine loading cover has a checkered knob on the top rear surface and is hinged at the front and swings out and forward.
- Krag-Jorgensen Norwegian and U.S. magazine loading cover is hinged at the bottom and swings out and down.

Other Markings
- The year of manufacture appears in a rectangular cartouche located on the left side of the buttstock above the trigger guard.

Remarks
- This rifle is similar to the standard Model 1896 rifle except that it has a cleaning rod and no provision for sling swivels.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
2552 - 1	30-40 KRAG	5	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Krag-Jorgenen" is not marked on the firearm.
- "Krag-Jorgensen" is derived from the last names of the two Norweigian inventors of this firearm: Captain Ole Hermann Johannes Krag, and Erik Jorgensen.

Model

- the model designation does not appear on the firearm (however the original model designation "Model 1898" appears on the left side of the receiver).

Manufacturer

- the manufacturer's name appears on the left side of the receiver.

Action

- turn-bolt design.

Serial Number

- appears on the left side of the receiver.

Shots

- integral pan magazine.
- magazine's hinged cover is located on the right side of the receiver/frame below the bolt, cartridges are fed horizontally into the internal pan magazine.
- Krag-Jorgensen Danish magazine loading cover has a checkered knob on the top rear surface and is hinged at the front and swings out and forward.
- Krag-Jorgensen Norwegian and U.S. magazine loading cover is hinged at the bottom and swings out and down.

Remarks

- This carbine is a modification of the Model 1898 rifle to carbine configuration specifically for sale by the Director of Civilian Marksmanship to members of the American National Rifle Association. Conversions were carried out at the Benicia Arsenal between 1928 and 1931 and are generally identifiable by high quality work and the presence of a 1903 Springfield front sight. Many similar carbines were assembled from surplus parts in the 1930's by commerical arms dealers and these are easily mistaken for genuine N.R.A. carbines.

1772 - 1	6.5X55 SWEDISH MAUSER	5	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Krag-Jorgenen" is not marked on the firearm.
- "Krag-Jorgensen" is derived from the last names of the two Norweigian inventors of this firearm: Captain Ole Hermann Johannes Krag, and Erik Jorgensen.

Model

- the model designation does not appear on the firearm.
- this carbine is mechanically identical to other Norwegian rifles and carbines. It is stocked to the muzzle and is adapted for a bayonet.
- manufactured between 1913 and 1926.
- several variations of this model were produced, the main differences being in the barrel band design and the bolt handle (some were straight and some were turned down).
- may also be known as "M12", "M12/16", "M12/18", "M12/22" or "M12 Civilian".

Manufacturer

- the identifier for the "Kongsberg Arsenal" is marked on the top of the receiver ring over the year of manufacturer, the logo is a script letter "K" under a crown.
- the Norwegian State Arsenal in Kongsberg, Norway is also known as the 'Kongsberg Vapenfabrik" and/or "Kongsberg Arsenal".

Action

- turn-bolt design.

Serial Number

- appears on the left side of the receiver ring.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- integral pan magazine.
- magazine's hinged cover is located on the right side of the receiver/frame below the bolt, cartridges are fed horizontally into the internal pan magazine.
- Krag-Jorgensen Danish magazine loading cover has a checkered knob on the top rear surface and is hinged at the front and swings out and forward.
- Krag-Jorgensen Norwegian and U.S. magazine loading cover is hinged at the bottom and swings out and down.

Notes

Make

- "Kral" is marked on the firearm.

Model

- a stylistic "A12" logo is marked on the firearm at the rear of the receiver/frame.
- this is a standard pattern pump action shotgun made in several patterns and finishes.
- features include: blued or nickeled finish; round or ventilated rib barrels; wooden or synthetic forearm and semi-pistol grip buttstock, action release at the front of the trigger guard; crossbolt safety at the rear of the trigger guard; and sling swivels.

Manufacturer

- "Kral" is marked on the firearm.
- "Made in Turkey" was observed, on a referenced example, marked on the right side of the barrel.

Serial Number

- serial numbered on the receiver/frame.

Shots

- underbarrel tubular magazine.
- standard capacity is 4 shot, but factory extensions are available to increase it to 7 shot.

Notes

Make

- "KRAL ARMS" is marked on the firearm.

Model

- "Cara Cara" may be marked on the bottom of the receiver/frame.
- this is a boxlock over/under shotgun made in several barrel lengths and receiver/frame finishes; the "Cara Cara" is a generic entry for all versions of the "Cara Cara" family that are unidentifiable as to specific model.
- features may include: blued barrels; fluorescent bead sight; screw-in interchangeable chokes; ventilated top-rib and mid-rib; checkered walnut forearm and pistol-grip stock; matte nickel or anodized black receiver/frame, with game scene, scroll, or no engraving; top-lever; tang safety/selector; single trigger; and a rubber buttpad.
- a sub-model of the "Cara Cara", the "Cara Cara Woodcock", is marked only as "Woodcock".

Manufacturer

- "KRAL ARMS" is marked on the firearm.
- "Kral AV" is a Turkish firearms manufacturer established in 1994.
- Kral produces shotguns, air rifles and blank-firing firearms.

Action

- over & under barrel configuration.

Serial Number

- serial-numbered on the receiver/frame.
- observed samples consisted of two numbers, a dash (-), one letter and four numbers (i.e.: XX-BXXXX).

Notes

Make	- "Made in Turkey by Reximex" is marked on the left side of the firearm. - "Kral" is a trade name used by Reximex.
Model	- "DAYSTAR" is marked on the right side of the firearm. - Features may include: shrouded barrel; PCP reservoir mounted under the barrel; side lever loading system; and safety on the right side.
Manufacturer	- "Made in Turkey by Reximex" is marked on the left side of the firearm. - "Kral" is a trade name used by Reximex.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- Pre charged pneumatic.
Serial Number	- The serial number is marked on the left side of the firearm.
Calibre	- The calibre designation is marked on the right side of the firearm.
Canadian Law Comments	- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. - This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

FRT Report

Firearm Reference Number (FRN): 200323
Make: Kral
Model: KR22 TAC

Summary

Make:	Kral
Model:	KR22 TAC
Manufacturer:	Kral
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Semi-Automatic
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
200323 - 1	22 LR	10	475	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KRAL ARMS" is marked on the right side of the receiver/frame.

Model

- "Kr22 TAC" is marked on the right side of the upper receiver/frame.
- Features include: Threaded muzzle with thread protector; synthetic accessory rail handguard; synthetic, split receiver/frame with takedown pins; raised top accessory rail above the upper receiver; reciprocating charging handle on left or right side of the bolt; angular trigger guard; skeletonized, flat trigger; ambidextrous rotary safety selector on the lower receiver; magazine release lever in front of the trigger guard; AR-15 pattern interchangeable pistol grip; skeletonized left side folding stock; QD sling mounts.
- Features may include: Flash hider; folding front and rear iron sights; multiple colored finish.
- Overall length with a 475 mm (18.7 inches) barrel is 670 mm (26.4 inches) with the stock collapsed, average weight is 2.1 kg (4.6 lbs).

Manufacturer

- "KRAL ARMS" is marked on the right side of the receiver/frame.

Action

- Blowback operated.

Serial Number

- The serial number is marked on a metal insert on the left side of the upper receiver/frame.
- The serial number is repeated on other parts and components.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Calibre

- The calibre designation is marked on the bolt, visible through the ejection port.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- Detachable box magazine.
- Designed to accept "Ruger 10/22" type magazines.

Canadian Law Comments

- This firearm design incorporates a split receiver/frame: the upper receiver is the master component for the receiver/frame for all purposes of the Criminal Code and the Firearms Act.
- Ruger "BX-25" magazine is interchangeable between the Ruger model 10/22 and SR22 rifles and Ruger 22 Charger handgun configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the Criminal Code Part III, S. 84, Regulations Part 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rimfire ammunition.

Notes

Make	- "KRAL", "KRAL AV" or "KRAL SILAH SAN." and "Made in Turkey" are marked on the firearm.
Model	- "KRAL MAGNUM" is usually marked on the left side of the receiver/frame. - features include: round tapered barrel with bead front sight; solid top receiver/frame with right side ejection and bottom loading; hammerless; cross bolt safety located on the rear of the trigger guard; action release located at the front of the trigger guard; wood or synthetic ribbed forearm and pistol grip buttstock or synthetic pistol grip with folding metal stock or synthetic pistol grip only; blued metal finish; regular or extended magazine.
Manufacturer	- "Kral AV" is a Turkish firearms manufacturer established in 1994. - Kral produces shotguns, air rifles and blank firing firearms.
Serial Number	- marked on the underside of the receiver/frame.
Calibre	- calibre marked on the left side of the barrel.
Shots	- tubular magazine is mounted under the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Make

- The company logo is marked on the receiver/frame.

Model

- The model designation is usually marked on the right side of the firearm.
- The safety is a lever forward of the trigger in the trigger guard.
- This model is available is available with different stock finishes including black or hydro-dipped polymer or wood.
- Overall length with a 455 mm (18 inches) barrel is 1148 mm (45.2 inches), average weight is 2.7 kg (5.95 lbs).

Manufacturer

- The company logo is marked on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- Hinged barrel design. - Compressed spring air piston.
Serial Number	- The serial number is marked on the left side of the firearm. - The serial number rationalization is unknown.
Calibre	- The calibre designation is marked on the barrel assembly.
Canadian Law Comments	- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules. - This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. - If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- Make is usually marked on the receiver/frame.
Model	- "NP-500" is marked on the right side of the receiver/frame. Features include: round, rifled, steel barrel; under-barrel tank shaped, air reservoir; aluminum receiver/frame with accessory rail for scope mount; cocking lever is on the right side of the receiver/frame; safety lever and adjustable power knob on right side of the receiver/frame; synthetic stock; may have under-barrel accessory rail; filler gauge on the bottom of the receiver/frame. - Overall length with a 407 mm (16 inches) barrel is 770 mm (30.3 inches), average weight is 3.2 kg (7.05 lbs).
Manufacturer	- The manufacturer is not marked on the receiver/frame.
Action	- Pre charged pneumatic.
Serial Number	- The serial number rationalization is unknown.
Canadian Law Comments	- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. - If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed. - At least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Other Markings	- "Canadian" will be marked on models which have a manufacturer's velocity under 152.4 mps (500 fps)

Notes

Make	- "KRAL" is marked on the air rifle.
Model	- "Puncher" is usually marked on the left side of the air rifle. - this is a standard-pattern pre-charged pneumatic air rifle designed for hunting and competition, available in various configurations and barrel lengths. - features include: blue/black anodized finish; open adjustable sights and/or a receiver rail for mounting optical sights; an underbarrel air tank; either a stippled birch or beech pistol-grip sporter stock with Schnabel forearm, under-forearm air gauge, Monte Carlo comb, and ventilated rubber buttpad, OR a black synthetic pistol-grip stock with adjustable comb and under-forearm mounting rail for bipod or accessories; and a side-lever operating mechanism that both advances the cylinder and cocks the air rifle.
Manufacturer	- "KRAL" is marked on the air rifle.
Action	- PCP/pre-charged pneumatic. - discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules
Serial Number	- serial numbered on the receiver/frame.
Shots	- detachable rotary magazine.
Canadian Law Comments	- the Puncher Breaker W version, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock is removed the receiver/frame/barrel assembly may be correctly classified as "Non-Restricted".

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- KRAL ARMS is marked on the left side of the receiver/frame. - The company logo is marked on the firearm.
Model	- BIGHORN is marked on the right side of the receiver/frame. - BIGHORN is also engraved in the stock. - Puncher is not marked on the firearm. This is the PCP line manufactured by Kral Arms. - Features include: shrouded barrel; PCP reservoir mounted under the barrel; side lever loading system; and safety on the right side. - Canadian version with a regular barrel is marked with a C on the receiver/frame. - Overall length with a 580 mm (22.8 inches) barrel is 1050 mm (41.3 inches), average weight is 3.60 kg (7.93 lbs).
Manufacturer	- MADE IN TURKEY BY KRAL is marked on the left side of the receiver/frame.
Action	- Pre charged pneumatic.
Serial Number	- Serial number is usually marked on the receiver/frame.
Shots	- Detachable rotary disc magazine.
Canadian Law Comments	- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. - If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed. - At least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.

Notes

Make

- "KRAL ARMS" is marked on the left side of the receiver/frame.
- "MADE IN TURKEY" is also marked on the left side of the receiver/frame.

Model

- "Puncher BIGMAX" is marked on right side of the receiver/frame.
- "BIGMAX" is a magazine feed, pre-charged pneumatic (PCP) action rifle.
- "BIGMAX" as it left the factory, is equipped with a shrouded barrel acting as a sound moderator/suppressor.
- "BIGMAX" main feature is the under the barrel, air tank reservoir and a secondary air tank reservoir acting as part of the butt stock design.
- features include: no iron sights; round, rifled, steel barrel inside a straight contoured tubing/shroud; tank shaped, air reservoir under the barrel; grooved receiver/frame for scope mounting; right side of the receiver/frame cocking lever; safety lever on the rear, right side of the receiver/frame; firearm pressure adjusting knob on the right side of the receiver/frame; wood stock forend with integral pistol grip with stippling under it and side of the pistol grip; accessory rail and attached foregrip bipod at the bottom of the forehand; secondary air tank reservoir acting as part of the butt stock design; vertically adjustable buttplate; blued/black finish.
- overall length with a 559mm (22") barrel is 1069.34mm (42.1") average weight is 4.1kg (9.05lbs).

Manufacturer

- "KRAL ARMS" is marked on the left side of the receiver/frame.
- "MADE IN TURKEY" is also marked on the left side of the receiver/frame.
- "KRAL ARMS" produces shotguns, air rifles and blank pistols.
- "KRAL ARMS" is an export oriented factory and exports 99,5% of its products.
- "KRAL ARMS" is located in Konya, Turkey.

Action

- pre-charged pneumatic (PCP).
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of referenced examples consisted of six numbers a space and four numbers.
- serial number of a referenced example also consisted of two numbers a dash, a letter and four numbers.

Calibre

- calibre identification is marked on the left side of the receiver/frame.

Shots

- detachable rotary magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this firearm may have left the factory equipped with a barrel shroud, sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.
- if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm".
NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed. - at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- "KRAL ARMS" is marked on the left side of firearm.
- "KRAL" logo of a king's crown inside an open circle was observed on the stock.

Model

- "PUNCHER BREAKER" is marked on right side of the receiver/frame, and on the stock.
- "Puncher Breaker" is a pre-charged pneumatic (PCP) action rifle.
- features include: no sights; round, rifled, steel barrel with muzzle break, or half shrouded barrel; grooved receiver/frame with raised carry handle/optics mounting rail; right side of the receiver/frame cocking lever; safety lever on the rear, right side of the receiver/frame; firearm pressure adjusting knob on the right side of the receiver/frame; one piece bull-pup wood or synthetic stock; adjustable butt plate; and black or nickel finish.
- overall length with a 535mm (21") barrel is 730mm (28.7") average weight is 2.75kg (6lbs).

Manufacturer

- "KRAL" may be marked on the firearm.
- "KRAL" logo of a king's crown inside an open circle was observed on the stock.

Action

- pre-charged pneumatic (PCP).
- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

Shots

- removable rotary magazine.

Canadian Law Comments

- NOTE # 1: this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.
- if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.
- NOTE # 2: as it left the factory, this firearm is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2) is removed the receiver/frame or complete barrelled action, the firearm may be correctly classified as "Non-Restricted".
- if the bull-pup stock is removed, the firearm is correctly identified as a "Non-Restricted Firearm".

- at least two variants of this particular model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.

194820 - 3	25 PELLET	10	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KRAL" or "KRAL ARMS" may be marked on the firearm.
- "MADE IN TURKEY" may be marked on the firearm.

Model

- "PUNCHER EVO" is usually marked on the right side of the receiver/frame, forward of the magazine.
- this is a standard-pattern pre-charged pneumatic air rifle designed for hunting and competition.
- features include: round, blued, thread barrel for muzzle accessories; black anodized or steel finished aluminum receiver/frame with integral top accessory rail; underbarrel air tank and adjustable power button; right-side manual safety toggle; side lever operating or side bolt-action mechanism that both advances the cylinder and cocks the air rifle; adjustable trigger weight; full length pistol grip shoulder stock with adjustable cheek piece and integral forend with quarter length accessory rail; ventilated rubber recoil pad.
- overall firearm length with 533mm (21") barrel is 1000mm (39.3").

Manufacturer

- "KRAL ARMS" is usually marked on the side of the receiver/frame.
- "MADE IN TURKEY" is also marked on the side of the receiver/frame.
- "KRAL ARMS" produces shotguns, air rifles and blank pistols.
- "KRAL ARMS" is an export oriented factory and exports 99.5% of its products.
- "KRAL ARMS" is located in Konya, Turkey.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- pre-charged pneumatic (PCP). - discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is usually marked on the receiver/frame. - serial number rationalization is not known.
Calibre	- calibre is usually marked on the firearm.
Shots	- rotary disk magazine.
Canadian Law Comments	- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. - If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed. - Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Other Markings	- model marking may be followed by "W", "S" or "WS", denoting stock texture of "W" for Wood or "S" for Synthetic or stock and receiver/frame combination of "W" for Wood and "S" for Stainless Steel.

Notes

Make

- "MADE IN TURKEY BY KRAL" is marked on the left side of the receiver/frame.
- "KRAL ARMS" and logo are engraved on the forward bottom of the forend.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "Puncher JUMBO" is marked on right side of the receiver/frame.
- "JUMBO" is a magazine feed, pre-charged pneumatic (PCP) action rifle.
- "JUMBO" as it left the factory, is equipped with a shrouded barrel that doesn't act as a sound moderator/suppressor with a threaded barrel muzzle.
- "JUMBO" main feature is the under the barrel, 425cc air tank reservoir and a thumbhole stock design.
- features include: no iron sights; round, rifled, steel barrel inside a straight contoured tubing/shroud; tank shaped, air reservoir under the barrel; grooved receiver/frame for scope mounting; right side of the receiver/frame cocking lever; safety lever on the rear, right side of the receiver/frame; firearm pressure adjusting knob on the right side of the receiver/frame; wood, thumbhole stock design; pistol grip area and bottom of forend with stippling; may have accessory rail and attached foregrip bipod at the bottom of the forehand; filler gage and inlet attachment inlaying in the bottom of the forehand; ventilated, rubber buttplate; blued/black finish.
- overall length with a 580mm (22.8") barrel is 1050mm (41.3") average weight is 3.4kg (7.5lbs).

Manufacturer

- "MADE IN TURKEY BY KRAL" is marked on the left side of the receiver/frame.
- "KRAL ARMS" and logo are engraved on the forward bottom of the forend.
- "KRAL ARMS" was established circa 1983.
- "KRAL ARMS" is located in Konya, Turkey.

Action

- at least two variants of this model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of referenced examples consisted of six numbers a space and five numbers.

Calibre

- calibre identification is marked on the left side of the receiver/frame.

Shots

- detachable rotary magazine.

Canadian Law Comments

- at least two variants of this model exist:
Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "KRAL" or "KRAL ARMS" may be marked on the firearm. - "MADE IN TURKEY" may be marked on the firearm.
Model	- "PUNCHER MAXI" is usually marked on the right side of the receiver/frame, forward of the magazine. - this is a standard-pattern pre-charged pneumatic air rifle designed for hunting and competition. - features include: round, thread barrel for muzzle accessories; black anodized or steel finished aluminum receiver/frame with integral top accessory rail; underbarrel air tank; right-side adjustable power knob and manual safety toggle; side lever operating mechanism that both advances the cylinder and cocks the air rifle; adjustable trigger weight. - overall firearm length with 533mm (21") barrel is 1000mm (39.3"). - "Canadian" will be marked on models which have a manufacturer's velocity below 152.4 mps (500 fps).
Manufacturer	- "KRAL ARMS" is usually marked on the side of the receiver/frame. - "MADE IN TURKEY" is also marked on the side of the receiver/frame. - "KRAL ARMS" produces shotguns, air rifles and blank pistols. - "KRAL ARMS" is an export oriented factory and exports 99.5% of its products. - "KRAL ARMS" is located in Konya, Turkey.
Action	- pre-charged pneumatic (PCP). - discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.
Serial Number	- serial number is usually marked on the receiver/frame. - serial number rationalization is not known.
Calibre	- calibre is usually marked on the firearm.
Shots	- rotary disk magazine.
Canadian Law Comments	- At least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport. - This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. - If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.
Other Markings	- model marking may be followed by "W", "S" or "WS", denoting stock texture of "W" for Wood or "S" for Synthetic or stock and receiver/frame combination of "W" for Wood and "S" for Stainless Steel. - "Canadian" will be marked on models which have a manufacturer's velocity below 152.4 mps (500 fps).

Notes

Make

- "KRAL" or "KRAL ARMS" may be marked on the firearm.
- "MADE IN TURKEY" may be marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "PUNCHER MEGA" is usually marked on the right side of the receiver/frame, forward of the magazine.
- this is a standard-pattern pre-charged pneumatic air rifle designed for hunting and competition.
- features include: round, blued, thread barrel for muzzle accessories; black anodized or steel finished aluminum receiver/frame with integral top accessory rail; underbarrel air tank and adjustable power button; right-side manual safety toggle; side lever operating mechanism that both advances the cylinder and cocks the air rifle; adjustable trigger weight; full length pistol grip stock with high Monte Carlo comb or adjustable cheek piece; ventilated rubber recoil pad.
- overall firearm length with 579mm (22.8") barrel is 1050mm (41.3").

Manufacturer

- "KRAL ARMS" is usually marked on the side of the receiver/frame.
- "MADE IN TURKEY" is also marked on the side of the receiver/frame.
- "KRAL ARMS" produces shotguns, air rifles and blank pistols.
- "KRAL ARMS" is an export oriented factory and exports 99.5% of its products.
- "KRAL ARMS" is located in Konya, Turkey.

Action

- pre-charged pneumatic (PCP).
- at least two variants of this model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is usually marked on the receiver/frame.
- serial number rationalization is not known.

Calibre

- calibre is usually marked on the firearm.

Shots

- rotary disk magazine.

Canadian Law Comments

- this firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.
- if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed. - at least two variants of this model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Other Markings

- model marking may be followed by "C" "W", "S" or "WS", denoting stock texture of "C" for Camo, "W" for Wood or "S" for Synthetic and/or stock and receiver/frame combination of "W" for Wood and "S" for Stainless Steel.

Notes

Make

- "KRAL ARMS" is marked on the left side of the receiver/frame.
- "MADE IN TURKEY BY KRAL" is also marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "Puncher NP-03" is marked on the right side of the receiver/frame.
- "Puncher NP-03" is a pre-charged pneumatic (PCP) rifle using a rotary magazine and having a collapsible stock.
- "Puncher NP-03" barrel is threaded for a muzzle break/compensator or a sound suppressor/silencer.
- "Puncher NP-03" was introduced in 2019.
- features include: 180cc air reservoir under the barrel; pressure gauge and filling connector at the bottom of the forehand; top of the receiver/frame dovetailed for optic mounting; right side bolt lever; magazine release button on the right side behind the bolt handle; manual safety lever at the rear, right side of the receiver/frame; one piece, synthetic stock with pistol grip and integral trigger guard; collapsible, five position buttstock with adjustable cheek rest and rubber recoil pad; black finish.
- overall length with a 406mm (16") barrel is 794mm (31.25") with the stock collapsed, average weight is 2.6kg (5.75 lbs).

Manufacturer

- "KRAL ARMS" is marked on the left side of the receiver/frame.
- "MADE IN TURKEY" is also marked on the left side of the receiver/frame.
- "KRAL ARMS" produces shotguns, air rifles and blank pistols.
- "KRAL ARMS" is an export oriented factory and exports 99,5% of its products.
- "KRAL ARMS" is located in Konya, Turkey.

Action

- pre-charged pneumatic (PCP).
- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations to Transport.

Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of four numbers, a space and four numbers.
- serial number of a other referenced example consisted of six numbers, a space and five numbers.

Calibre

- calibre identification is marked on the left side of the receiver/frame.

Shots

- detachable rotary magazine.

Canadian Law Comments

- at least two variants of this particular model exist:

Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations to Transport.

Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession Export and Import and Authorizations to Transport.

Notes

Make

- "KRAL ARMS" is marked on the left side of the receiver/frame.
- "MADE IN TURKEY" is also marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "Puncher PITBULL" is marked on right side of the receiver/frame.
- "PITBULL" is a magazine feed, pre-charged pneumatic (PCP) action rifle.
- "PITBULL" as it left the factory, is equipped with a shrouded barrel acting as a sound moderator/suppressor.
- "PITBULL" main feature is the under the barrel, tubular, air reserve and a secondary air tank reservoir acting as part of the butt stock design.
- features include: no iron sights; round, rifled, steel barrel inside a straight contoured tubing/shroud; tube shaped, air reservoir under the barrel with integral pressure gauge, visible from the front; grooved receiver/frame for scope mounting; right side of the receiver/frame cocking lever; safety lever on the rear, right side of the receiver/frame; firearm pressure adjusting knob on the right side of the receiver/frame; wood stock forend with integral pistol grip with stippling under it and side of the pistol grip; accessory rail and attached foregrip bipod at the bottom of the forehand; secondary air tank reservoir acting as part of the butt stock design; vertically adjustable buttplate; blued/black finish.
- overall length with a 584mm (23") barrel is 1074.42mm (42.3") average weight is 3.92kg (8.65lbs).

Manufacturer

- "KRAL ARMS" is marked on the left side of the receiver/frame.
- "MADE IN TURKEY" is also marked on the left side of the receiver/frame.
- "KRAL ARMS" produces shotguns, air rifles and blank pistols.
- "KRAL ARMS" is an export oriented factory and exports 99,5% of its products.
- "KRAL ARMS" is located in Konya, Turkey.

Action

- pre-charged pneumatic (PCP).

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of referenced examples consisted of six numbers a space and four numbers.

Calibre

- calibre identification is marked on the left side of the receiver/frame.

Shots

- detachable rotary magazine.

Canadian Law Comments

- this firearm may have left the factory equipped with a barrel shroud, sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.
- if the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm".

NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- Make is usually marked on the receiver/frame.
Model	- "Puncher RAMBO" is marked on the right side of the receiver/frame. - Features include: round threaded barrel; under-barrel air reservoir; aluminium receiver/frame with accessory rail for scope mount; forend grip slides back for pump-action cocking; safety lever is located on the right side of the receiver/frame. - Overall length with a 530 mm (20.8 inches) barrel is 915 mm (36 inches), average weight is 3.4 kg (7.5 lbs).
Manufacturer	- The manufacturer is not marked on the receiver/frame.
Action	- Pre charged pneumatic.
Serial Number	- The serial number rationalization is unknown.
Calibre	- The calibre designation is usually marked on the right side of the receiver/frame.
Shots	- Detachable rotary disc magazine.
Canadian Law Comments	- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada. - If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed. - At least two variants of this particular model exist: Variant #1: discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules. This variant is subject to the provisions as they apply to firearms under the Criminal Code, Part III and the Firearms Act which include Licensing, Registration, Possession, Export and Import and Authorizations To Transport. Variant #2: does not discharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules. This variant is deemed not to be a firearm in accordance with the Criminal Code, Section 84 (3) and the provisions of the Firearms Act and therefore exempt from Licensing, Registration, Possession, Export and Import and Authorizations To Transport.
Other Markings	- "Canadian" will be marked on models which have a manufacturer's velocity under 152.4 mps (500 fps).

Canadian Law Comments

- Discharges a projectile at a muzzle velocity exceeding 152.4 mps and a muzzle energy exceeding 5.7 Joules.
- This firearm may have left the factory equipped with a sound suppressor/silencer. The sound suppressor is subject to the definition of "Prohibited Device" in Section 84, Part III (Firearms and Other Weapons) of the Criminal Code of Canada.

If the complete sound suppressor/silencer (prohibited device) is removed, the firearm is correctly identified as a "Non-Restricted Firearm". NOTE: removal of the internal components of the sound suppressor/silencer (prohibited device) is not sufficient to mitigate a prohibited classification. All components of the sound suppressor/silencer, including the device body, end caps, mounting hardware, all internal parts (baffles, screens, spacers, wipes, etc.), must be removed.

- "Kriegeskorte" was located in Vohburg-Irsching, Germany from 1996 to 1999.
- "Kriegeskorte" moved to Pyrbaum, Germany in 1999.

Shots

- this rifle utilises a detachable box magazine holding 5 rounds.

Remarks

- This is a small-bore target rifle introduced in 1983 that relies on electricity rather than percussion to ignite a cartridge in the chamber; the rifle is powered by two 9-volt batteries, which, after the butt-stock power-switch is turned on, charge a capacitor. That capacitor then discharges through the chambered case-head when the trigger (actually a microswitch) is pulled, to ignite the priming compound and fire the cartridge.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
5360 - 1	22 LR	5	533	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KRICO" is marked on the firearm.
- "KRICO" is a trade name used by "A. Kriegeskorte GmbH / Kriegeskorte & Company" on spring-air guns since 1948 and on cartridge firearms since the mid 1950s.
- the "KRICO" trade name is derived from the first three letters in "KRIegeskorte" and the first two letters in "COmpany".

Model

- This rifle is a scaled-down version of Krico's 650SS Sniper/Match rifle, in .22 LR. It has a silhouette-style stock with stippled pistol-grip and ventilation slots cut in the forend, as well as a "bird-cage"-style flash-hider. This model was introduced in 1983 and discontinued in 1986.

Manufacturer

- "Kriegeskorte & Company GmbH" is a distributor and manufacturer, which was originally founded in Stuttgart-Hedelfingen, Germany in 1947.
- "Kriegeskorte & Company" has been known as "A. Kriegeskorte GmbH", "Sportwaffenfabrik Kriegeskorte Gmbh", "Krico Werke", "Krico GmbH", or "Kriegeskorte Handels GmbH".
- "A. Kriegeskorte GmbH / Sportwaffenfabrik Kriegeskorte Gmbh" was located in Furth-Stadeln, Germany, prior to 1996.
- "Kriegeskorte" was located in Vohburg-Irsching, Germany from 1996 to 1999.
- "Kriegeskorte" moved to Pyrbaum, Germany in 1999.

Shots

- detachable box magazine.

5365 - 1	22 LR	5	539	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KRICO" is marked on the firearm.
- "KRICO" is a trade name used by "A. Kriegeskorte GmbH / Kriegeskorte & Company" on spring-air guns since 1948 and on cartridge firearms since the mid 1950s.
- the "KRICO" trade name is derived from the first three letters in "KRIegeskorte" and the first two letters in "COmpany".

Model

- This rifle is a slightly-modified version of the 360 S Biathlon rifle, which allows the firer to work the action merely by rocking the grip back and forth; this retracts the bolt to eject the fired case, and a new cartridge is fed into the chamber when pressure is released.

Manufacturer

- "Kriegeskorte & Company GmbH" is a distributor and manufacturer, which was originally founded in Stuttgart-Hedelfingen, Germany in 1947.
- "Kriegeskorte & Company" has been known as "A. Kriegeskorte GmbH", "Sportwaffenfabrik Kriegeskorte Gmbh", "Krico Werke", "Krico GmbH", or "Kriegeskorte Handels GmbH".
- "A. Kriegeskorte GmbH / Sportwaffenfabrik Kriegeskorte Gmbh" was located in Furth-Stadeln, Germany, prior to 1996.
- "Kriegeskorte" was located in Vohburg-Irsching, Germany from 1996 to 1999.
- "Kriegeskorte" moved to Pyrbaum, Germany in 1999.

Action

- based on a straight-pull bolt-action design, but operated by squeezing the rifle's grip to open and close the breech.

Shots

- this rifle utilises a detachable box magazine holding 5 rounds; extra magazines are stored in butt-stock.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
30527 - 1	22 HORNET	5	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KRICO" is marked on the firearm.
- "KRICO" is a trade name used by "A. Kriegeskorte GmbH / Kriegeskorte & Company" on spring-air guns since 1948 and on cartridge firearms since the mid 1950s.
- the "KRICO" trade name is derived from the first three letters in "KRIegeskorte" and the first two letters in "COmpany".

Model

- This rifle is the standard-grade version of Krico's 400-series; it comes with a Monte Carlo-style stock, single- or double-set trigger, and open sights.

Manufacturer

- "Kriegeskorte & Company GmbH" is a distributor and manufacturer, which was originally founded in Stuttgart-Hedelfingen, Germany in 1947.
- "Kriegeskorte & Company" has been known as "A. Kriegeskorte GmbH", "Sportwaffenfabrik Kriegeskorte Gmbh", "Krico Werke", "Krico GmbH", or "Kriegeskorte Handels GmbH".
- "A. Kriegeskorte GmbH / Sportwaffenfabrik Kriegeskorte Gmbh" was located in Furth-Stadeln, Germany, prior to 1996.
- "Kriegeskorte" was located in Vohburg-Irsching, Germany from 1996 to 1999.
- "Kriegeskorte" moved to Pyrbaum, Germany in 1999.

Shots

- detachable box magazine.

Make

- "KRICO" is marked on the firearm.
- "KRICO" is a trade name used by "A. Kriegeskorte GmbH / Kriegeskorte & Company" on spring-air guns since 1948 and on cartridge firearms since the mid 1950s.
- the "KRICO" trade name is derived from the first three letters in "KRIegeskorte" and the first two letters in "COmpany".

Model

- This is a small-bore target rifle introduced in 1983 that relies on electricity rather than percussion to ignite a cartridge in the chamber; the rifle is powered by two 9-volt batteries, which charge a capacitor. That capacitor then discharges through the chambered case-head when the trigger (actually a microswitch) is pulled.

Manufacturer

- "Kriegeskorte & Company GmbH" is a distributor and manufacturer, which was originally founded in Stuttgart-Hedelfingen, Germany in 1947.

Notes

Make

- "KRICO" is marked on the firearm.
- "KRICO" is a trade name used by "A. Kriegeskorte GmbH / Kriegeskorte & Company" on spring-air guns since 1948 and on cartridge firearms since the mid 1950s.
- the "KRICO" trade name is derived from the first three letters in "KRIegeskorte" and the first two letters in "COmpany".

Model

- This is the "plainer" grade of Mannlicher-stocked rifles in the 600-series; the primary visual difference between this rifle and the 620 Deluxe is that the 620 L has a standard bolt handle while the 620 deluxe has a "butter-knife"-style bolt handle; both are available in single- or double-set trigger versions.Manufacture discontinued in 1988.

Manufacturer

- "Kriegeskorte & Company GmbH" is a distributor and manufacturer, which was originally founded in Stuttgart-Hedelfingen, Germany in 1947.
- "Kriegeskorte & Company" has been known as "A. Kriegeskorte GmbH", "Sportwaffenfabrik Kriegeskorte Gmbh", "Krico Werke", "Krico GmbH", or "Kriegeskorte Handels GmbH".
- "A. Kriegeskorte GmbH / Sportwaffenfabrik Kriegeskorte Gmbh" was located in Furth-Stadeln, Germany, prior to 1996.
- "Kriegeskorte" was located in Vohburg-Irsching, Germany from 1996 to 1999.
- "Kriegeskorte" moved to Pyrbaum, Germany in 1999.

Shots

- this rifle utilises a detachable box magazine holding 3 or 4 rounds.

Notes

Make

- "KRICO" is marked on the firearm.
- "KRICO" is a trade name used by "A. Kriegeskorte GmbH / Kriegeskorte & Company" on spring-air guns since 1948 and on cartridge firearms since the mid 1950s.
- the "KRICO" trade name is derived from the first three letters in "KRIegeskorte" and the first two letters in "COmpany".

Model

- This rifle is the "plain" version of the 700-series of rifles, with a checkered "hog's-back"-style Monte Carlo stock with schnabel forend; it comes without open sights, but is drilled and tapped for scope mounts.

Manufacturer

- "Kriegeskorte & Company GmbH" is a distributor and manufacturer, which was originally founded in Stuttgart-Hedelfingen, Germany in 1947.
- "Kriegeskorte & Company" has been known as "A. Kriegeskorte GmbH", "Sportwaffenfabrik Kriegeskorte Gmbh", "Krico Werke", "Krico GmbH", or "Kriegeskorte Handels GmbH".
- "A. Kriegeskorte GmbH / Sportwaffenfabrik Kriegeskorte Gmbh" was located in Furth-Stadeln, Germany, prior to 1996.
- "Kriegeskorte" was located in Vohburg-Irsching, Germany from 1996 to 1999.
-"Kriegeskorte" moved to Pyrbaum, Germany in 1999.

Shots

- detachable box magazine.

Notes

Make

- "KRICO" is marked on the firearm.
- "KRICO" is a trade name used by "A. Kriegeskorte GmbH / Kriegeskorte & Company" on spring-air guns since 1948 and on cartridge firearms since the mid 1950s.
- the "KRICO" trade name is derived from the first three letters in "KRIegeskorte" and the first two letters in "COmpany".

Model

- This is merely a shorter version of Krico's "Sporting Rifle", with a full-length Mannlicher-style stock and available in single- or double-set trigger versions.This rifle was manufactured from 1956 to 1962.

Manufacturer

- "Kriegeskorte & Company GmbH" is a distributor and manufacturer, which was originally founded in Stuttgart-Hedelfingen, Germany in 1947.
- "Kriegeskorte & Company" has been known as "A. Kriegeskorte GmbH", "Sportwaffenfabrik Kriegeskorte Gmbh", "Krico Werke", "Krico GmbH", or "Kriegeskorte Handels GmbH".
- "A. Kriegeskorte GmbH / Sportwaffenfabrik Kriegeskorte Gmbh" was located in Furth-Stadeln, Germany, prior to 1996.
- "Kriegeskorte" was located in Vohburg-Irsching, Germany from 1996 to 1999.
-"Kriegeskorte" moved to Pyrbaum, Germany in 1999.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Model	- a shotgun barrel over a rifle barrel; available in a wide variety of calibre/gauge combinations and options such as set/double triggers, engraving, etc.; some versions of this model are cocked with an external lever on the left side of the receiver/frame, while others cock on opening.
Manufacturer	- Ulm, Germany. This factory was located in Suhl until shortly after WW2, when it moved to the city of Ulm, and it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.
Action	- over/under pattern.

Notes

Model

- An O/U pattern double rifle made in a wide variety of calibres and options such as set and double triggers, multiple calibres and multiple barrel sets, etc; there is a possibility that these firearms will accept shotgun barrels, as well as rifle barrels. This rifle is also made in a "Classic Big Bore" version, meant for hunting African or dangerous game.

Manufacturer

- Ulm, Germany. This factory was located in Suhl until shortly after WW2, when it moved to the city of Ulm, and it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.

Action

- over/under pattern.

Calibre

- other calibres or combinations of calibres likely; some of these rifles were made with one calibre in the upper barrel, and another in the lower barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Model	- a multiple-barreled firearm that combines a side by side shotgun with a single-barreled rifle; in most patterns, the rifle barrel is mounted below and between the shotgun barrels. There have also been auxiliary barrels made for these firearms that allow the owner to fire .22 rimfire cartridges from one of the shotgun barrels. - made in a wide variety of gauge/calibre combinations. - available in several grades, with the differences being the quality of wood and the amount and style of engraving used.
Manufacturer	- "Krieghoff" is usually marked on the receiver/frame and/or barrel.
Action	- hinged barrel design. - barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.
Calibre	- other gauge/calibre combinations likely, but not listed in reference.

Type:	Other
Action:	Multi-Barrel
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
190482 - 1	26.5MM RIMMED	2	165	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (b)	Manufacturer Specifications and Commercial Customization	
190482 - 2	45 COLT/410 GA X 3"	2	102	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	

Notes

Make

- "FZS" is marked on the left side of the receiver/frame, above the grip panel.
- "FZS" is the World War 2 factory code for the Krieghoff company.

Model

- Developed in 1936.
- "Flieger-Leuchtpistole L" is not marked on the firearm;
- "F124483" observed marked on the left side of the receiver/frame, above the trigger guard;
- "F124483" is the Luftwaffe contract number for these signal pistols;
- "FL124483" may be marked in the same location instead of instead of F124483.
- features include: alloy construction; black finish; plain round double barrel design with auto ejectors in a 'side by side' configuration; action opens in a similar manner to most double barreled shotguns; no front or rear sights; barrel release in front of the round trigger guard; dual triggers; safety lever on the left side of the receiver/frame with "F" and "S" markings; checkered black or brown bakelite or wood grip panels; barrel selector lever with "L" and "R" markings located on the back of the receiver/frame above the grips.

Manufacturer

- "Krieghoff" is not marked on the firearm, however the factory code "FZS" on the left side of the receiver/frame corresponds to this manufacturer.
- The date "1943" has been observed marked on the left side of the receiver/frame, above the trigger guard;
- The date may not be marked on the firearm;

Action

- side-by-side configuration.

Serial Number

- a 4 digit serial number was observed marked on the right side of the receiver/frame, forward lower portion of the right hand side of the frame, forward of the trigger guard.

Notes

Make

- "KRIEGHOFF" over "Germany" in a crest is marked under the receiver/frame in front of the trigger guard.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 1999. - the model designation is marked under the receiver/frame in front of the trigger guard as: "K-20". - this is a smaller-framed version of the 12 GA `K-80`shotgun, manufactured in several finish, stock, and barrel options. - features include: blued over and under barrel configuration, solid rib or barrel hanger layout; top break, box lock action, checkered European walnut buttstock and forearm, tapered flat ventilated rib, optional engraving on a colour-case-hardened, matte nickel or nitride grey receiver/frame; single selective trigger with barrel selector inside the trigger-guard; top-lever; tang safety; and optional adjustable cheekpiece.
Manufacturer	- manufacturer's name is marked under the receiver/frame in front of the trigger guard as: "KRIEGHOFF" over "Germany" in a crest. - currently located in Ulm, Germany. This factory was located in Suhl until shortly after World War Two, when it moved to the city of Ulm, it has produced firearms as both "Shotguns of Ulm" and as "Heinrich Krieghoff Gun Company". Either of these markings may be marked on their firearms.
Action	- over & under pattern.
Serial Number	- serial number is marked on the action flats.
Calibre	- calibre is usually marked on the barrels.

Notes

Make

- "KRIEGHOFF" or "H.KRIEGHOFF" is marked on the firearm.

Model

- "K20" is marked on the firearm; "Parcours" is indicated by other features of the shotgun.
- this is a version of the Krieghoff K20 over/under boxlock shotgun made specifically for "parcours" or "FITASC" competition, which is a version of sporting clays where the shooter has to start from the "low gun" position (ie. with the buttstock against the ribs).
- these shotguns are fitted with fixed chokes (unlike most other versions of the K20), and have a fixed low comb on the buttstock, to enable the shooter to shoulder the gun and track a moving target faster.
- features include: blued barrels; bead sight; fixed chokes; ventilated top-rib; solid mid-rib; checkered walnut forearm and pistol-grip stock with low comb; coin-finished receiver/frame with various grades of engraving; single trigger; with barrel selector inside the trigger-guard; top-lever; tang safety; and rubber buttpad.

Manufacturer

- "KRIEGHOFF" or "H.KRIEGHOFF" is marked on the firearm.

Action

- over/under configuration.

Serial Number

- serial-numbered on the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- firearms have been produced both as brand name/MAKE "Shotguns of Ulm", and as MAKE "Krieghoff". - products of Krieghoff may be found marked either as "Krieghoff" or "Shotguns of Ulm". - "KRIEGHOFF GmbH ULM W.GERMANY" may be marked on the underside of the receiver/frame.
Model	- this is a generic entry for the Krieghoff K-80 series of shotguns. Other "K-80" entries exist which might better describe the firearm being examined. - an O/U shotgun made with a wide variety of factory options and extra barrels available. Some versions of this firearm come with multiple barrel sets (both O/U and single-barrel) for use on the same receiver/frame. - this firearm is essentially a Remington Model 32, manufactured by Krieghoff. NOTE: some of these firearms are fitted with release triggers. - features include: European walnut stock, checkered pistol grip and forearm, blued ventilated barrels or carrier barrel, selective trigger, barrel selector in front of the trigger, blued or coin finish receiver/frame with light to rich engraving, may have gold inlays, bead front sight, and ventilated or plain recoil pad. - available in versions: Pigeon, Skeet, Trap, Single Barrel Trap, Unsingle Trap, and Sporting Clays.
Manufacturer	- this factory was located in Suhl until shortly after World War II, when it moved to the city of Ulm. - it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.
Action	- over/under pattern.
Serial Number	- serial number rationalization unknown. - observed specimen consisted of five digits without prefix or suffix.
Calibre	- it must be noted that a "carrier barrel" system is available for sub-calibre inserts. - these carrier barrels are designed to accept sub-gauge skeet tubes for 20, 28 and 410GA calibre; carrier barrels are not designed nor intended to be capable of chambering and firing 12 GA cartridges and are marked as such.
Canadian Law Comments	- this firearm may be purchased equipped with only a carrier barrel unit; therefore, for the purpose of registration the calibre of the sub-gauge skeet tubes may be submitted as part of a barrel-shot-calibre combination for registration.

33241 - 3	12 GA X 2 3/4"	2	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model	- An O/U shotgun made specifically for live pigeon shooting, with a wide variety of factory options and extra barrels available. Some versions of this firearm come with multiple barrel sets (both O/U and single-barrel) to use on the same receiver. This is essentially a Remington Model 32, manufactured by Krieghoff. Some of these firearms are fitted with release triggers.
Manufacturer	- Ulm, Germany. This factory was located in Suhl until shortly after WW2, when it moved to the city of Ulm, and it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.
Action	- over/under pattern.
Serial Number	- serial no. located at bottom of action well.

28981 - 10	28 GA X 2 3/4"	2	762	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- firearms have been produced both as brand name/MAKE "Shotguns of Ulm", and as MAKE "Krieghoff".
- products of Krieghoff may be found marked either as "Krieghoff" or "Shotguns of Ulm".

Model

- an O/U shotgun made specifically for skeet-shooting, with a wide variety of factory options and extra barrels available.
- some versions of this firearm come with multiple barrel sets (both O/U and single-barrel) to use on the same receiver.
- this firearm is essentially a Remington Model 32, manufactured by Krieghoff.
- features include: European walnut stock, checkered pistol grip and forearm, blued ventilated rib barrels or carrier barrel, blued or coin finish receiver/frame with light to rich engraving, may have gold inlays, bead front sight, and fancy recoil pad.
- available in different wood grade and engraving.
- NOTE: some of these firearms are fitted with release triggers.

Manufacturer

- this factory was located in Suhl until shortly after WW2, when it moved to the city of Ulm; firearms have been produced both as brand name/MAKE "Shotguns of Ulm", and as MAKE "Krieghoff".

Action

- over / under pattern.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- located at bottom of action well. - serial number rationalization unknown. - observed specimen serial numbers consisted of five digits without prefix or suffix.
Calibre	- it must be noted that a "carrier barrel" system is available for sub-calibre. - these carrier barrels are designed to accept sub-gauge skeet tubes for 20, 28 and 410GA calibre; carrier barrels are not designed nor intended to be capable of chambering and firing 12 GA cartridges and are marked as such.
Canadian Law Comments	- this firearm may be purchased equipped with only a carrier barrel unit; therefore, for the purpose of registration the calibre of the sub-gauge skeet tubes may be submitted as part of a barrel-shot-calibre combination for registration.

Notes

Make

- the make "KRIEGHOFF" is marked on the firearm.

Model

- introduced in 2005.
- the model designation "K-80 TRAP SPECIAL" may be marked on the firearm.
- features include: blued round tapered over and under barrels with an adjustable ventilated top rib and solid side ribs; interchangeable chokes; smooth bores; bead front sight; engraved nickel finish front hinged box lock receiver/frame; hammerless; a break opening lever and a safety/selector lever are located on the upper rear tang; single trigger mechanism; checkered fluted forearm and semi-pistol grip buttstock with an adjustable comb; fitted with a rubber recoil pad.
- available as a combo kit with a "Unsingle" single shot barrel. The Unsingle barrel consists of a plugged dummy upper barrel that ends at the front of the forearm and a lower 864mm (34") barrel which features an adjustable ventilated top rib and interchangeable chokes.

Manufacturer

- the manufacturer's name "KRIEGHOFF" is marked on the firearm.

Action

- over and under barrel configuration.

Calibre

- the calibre designation is marked on the barrel assembly.

Firearm Reference Number (FRN): 28959
Make: Krieghoff
Model: K80 Unsingle Trap

Summary

Make:	Krieghoff
Model:	K80 Unsingle Trap
Manufacturer:	Krieghoff
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
28959 - 1	12 GA X 2 3/4"	1	812	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
28959 - 2	12 GA X 2 3/4"	1	863	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- An unusual single-barrel trap gun that is based on the Model 32, but fires only from the lower position in the action; this is opposed to the K-80 Single Barrel Trap, which fires from the top position. The upper "barrel" in the Unisingle is actually a plugged dummy barrel that ends at the front of the forearm; interchangeable choke tubes are a factory option, and some of these firearms are fitted with release triggers.

Manufacturer

- Ulm, Germany. This factory was located in Suhl until shortly after WW2, when it moved to the city of Ulm, and it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.

Action

- uses the same basic action as the other K-80 guns, but only the lower lockwork functions.

Serial Number

- serial no. inside action well.

Manufacturer:	Krieghoff
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
4522 - 1	12 GA X 2 3/4"	1	812	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
4522 - 2	12 GA X 2 3/4"	1	863	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model	- A single-barrel shotgun with a high "Broadway" extended rib, manufactured specifically for trap shooters.
Manufacturer	- Ulm, Germany. This factory was located in Suhl until shortly after WW2, when it moved to the city of Ulm, and it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.
Serial Number	- Serial no. located at bottom of action well.
Barrel	- Available with or without screw-in chokes.
Remarks	- One of the options available on this firearm is interchangeable screw-in chokes, and some of these firearms are fitted with release triggers; this shotgun differs from the regular KS-5 in that it has an adjustable rib to allow the shooter to concentrate his patterns.

Notes

Make

- "KREIGHOFF" is marked on the bottom of the receiver/frame.

Model

- "NEPTUN" is marked on the bottom of the receiver/frame.
- this is an individually crafted, assembled and fitted custom "drilling" type firearm.
- features, finishes and level and quality of wood and engraving vary depending on customer request. Standard features include: claw type scope mounts; removable side lock plates; double or single triggers; automatic rising rear sight; "Blitz Locks" for the shotgun barrels, and a separate "Krieghoff Combi-Cocking Device" for the rifle barrels; cocking indicators; sling swivels; tang mounted opening lever.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "KREIGHOFF" is marked on the bottom of the receiver/frame. - manufactured in Ulm, Germany. This factory was located in Suhl until shortly after WW2, when it moved to the city of Ulm, and it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.
Action	- drilling denotes three barrels. - the traditional drilling barrel configuration is: two shotgun calibre barrels side by side with a lower centrally located rifle barrel.
Serial Number	- serial number rationalization unknown.

Notes

Make

- "KRIEGHOFF" is marked on the bottom of the receiver/frame.

Model

- introduced in 2002.
- "OPTIMA" is usually marked on the bottom of the receiver/frame.
- this is a three-barreled combination gun of the type known to the Germans as a "drilling"; this firearm may be seen with two rifle barrels over a shot barrel, two shot barrels over a rifle barrel, or with barrel/chamber inserts to convert a shotgun barrel to another rifle calibre.
- features include: a walnut pistol-grip stock and forearm with schnabel tip, "hogs-back" comb, and Bavarian cheek-piece; double triggers; a tang safety/selector/cocker; open folding sights; a quarter-rib with mounts for a quick-detachable telescopic sight; and the customer's choice of engraving styles and amounts.
- this firearm is available in both box-lock and side-lock formats and in a forged steel or alloy receiver/frame.

Manufacturer

- "KRIEGHOFF" is marked on the bottom of the receiver/frame.

Action

- three-barreled firearm; this firearm may be seen with two rifle barrels over a shot barrel (a "doppelbuchsedrilling"), with two shot barrels over a rifle barrel (a "doppelflintendrilling"), and with insert barrels to convert a shot barrel to an another (usually small-calibre rifle) cartridge.

Serial Number

- serial number is marked on the receiver/frame.

Calibre

- calibre is usually marked on the barrel assembly at the locking lugs.
- a variety of calibre/gauge/barrel options are available on request.

Notes

Make

- "KRIEGHOFF" was observed marked on the underside of the receiver/frame.

Model

- "PLUS" was observed marked on the underside of the receiver/frame.
- manufactured from 1988 to 2004.
- multiple barreled firearm that combines a S/S shotgun with a single barreled rifle; in most patterns, the rifle barrel is mounted below and between the shotgun barrels.
- there have also been auxiliary barrels made for these firearms that allow the owner to fire .22 rimfire cartridges from one of the shotgun barrels. These have been made in a wide variety of gauge/calibre combinations. Those marked "Dural" are made with an aluminium alloy receiver/frame.
- these firearms are available in several grades, with the differences being the quality of wood and the amount and style of engraving used.

Manufacturer

- located in Ulm, Germany. This factory was located in Suhl until shortly after World War II, when it moved to the city of Ulm, and it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.

Type

- usually two smooth bore barrels over a rifled barrel.

Action

- multi-barrel.

Notes

Make

- "KRIEGHOFF" is usually marked on the bottom of the receiver/frame.

Model

- model designation is not marked on the firearm.
- introduced in 1988.
- this is a modernized version of the three barrel combination rifle/shotgun, available with a wide range of options such as stock type, wood quality, amount and style of engraving, extended false sideplates, etc.
- standard form is a boxlock, drilling, combination gun (two 20 GA X 3" shotgun barrels over a rifle barrel), with "hog's-back"-type Bavarian pistol-grip stock, tang safety/cocker/barrel selector, folding rear sight, double triggers, sling swivels, short schnabel-tipped forearm or full-length Mannlicher-style forearm.
- Krieghoff makes this firearm with both steel and duraluminum(Dural) receiver/frames and with the "Thermo TS Stabil" free floating barrel system.

Manufacturer

- manufacturer's designation is marked on the receiver/frame.

Action

- "drilling" pattern; two side by side shotgun barrels over a rifle barrel.

Serial Number

- marked on the receiver/frame.

Barrel

- barrels also available in 550mm, 600mm, 635mm and 680mm lengths.

Calibre

- this firearm is available in any combination of 20 GA X 3" (both upper barrels) and 222 REM, 5.6X50R MAG, 22 SAVAGE HP, 6.5X57, 6.5X57R, 6.5X65R, 7X57, 7X57R, 7X64, 7X65R, 308 WIN, 30-06 SPRG, 30R BLASER, 8X57JRS, 8X75RS, or 9.3X74R. Additionally, the factory can supply insert barrels ("einstecklauf") to temporarily convert one of the shotgun barrels to a minor-calibre rifle barrel, such as 22 HORNET.

Notes

Make - "KRIEGHOFF" is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- model may be marked on the firearm. - introduced in 2007. - this unique design incorporates an in-line action whereby the forend and barrel assembly are drawn forward to begin the action cycle and pulled back to chamber a round. The external, thumb operated "Combi-Cocking Device" is then pushed forward to cock the action. - features include: ramp front sight with fibre optic insert and adjustable rear sight; blued barrel and nickel finished receiver/frame; lever actuated takedown system; adjustable trigger; checkered, pistol grip stock with or without cheek piece; sling swivels; rubber recoil pad. - calibre changes can be accomplished by switching barrels thus using a common receiver/frame. Changes between magnum and standard calibres requires a new bolt head and magazine.
Manufacturer	- "KRIEGHOFF" is marked on the firearm.
Action	- in-line, pull forward design.
Shots	- detachable box magazine.

Notes

Manufacturer

- Ulm, Germany. This factory was located in Suhl until shortly after WW2, when it moved to the city of Ulm, and it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- 3 barrels.
Calibre	- other gauge/calibre combinations likely, but not listed in reference.
Remarks	- A multiple-barreled firearm that combines a SxS shotgun with a single-barreled rifle; in most patterns, the rifle barrel is mounted below and between the shotgun barrels. There have also been auxiliary barrels made for these firearms that allow the owner to fire .22 rimfire cartridges from one of the shotgun barrels. These have been made in a wide variety of gauge/calibre combinations. Those marked "Dural" are made with an aluminium-alloy receiver. These firearms are available in several grades, with the differences being the quality of wood and the amount and style of engraving used. The "Super" drilling has the barrel selector and safety on the tang. All barrels cock on opening.

Notes

Model

- this is an over/under pattern rifle made in a wide variety of calibres and options such as set and double triggers, multiple calibres and multiple barrel sets, etc;
- this model will also accept combination barrels.
- manufactured in both steel and aluminium receiver/frame versions.

Manufacturer

- located in Ulm, Germany. This factory was located in Suhl until shortly after World War Two, when it moved to the city of Ulm, and it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be marked on their firearms.

Action

- over & under pattern.

Serial Number

- serial number is marked on the receiver/frame.

Notes

Make - "KRIEGHOFF" is marked on the bottom of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "TRUMPF" is marked on the bottom of the receiver/frame.
- this is an individually crafted, assembled and fitted custom "drilling" type firearm.
- features, finishes and level and quality of wood and engraving vary depending on customer request. Standard features include: claw type scope mounts; removable side lock plates; double or single triggers; automatic rising rear sight; "Blitz Locks" for the shotgun barrels, and a separate "Krieghoff Combi-Cocking Device" for the rifle barrels; cocking indicators; sling swivels; tang mounted opening lever.

Manufacturer

- "KREIGHOFF" is marked on the bottom of the receiver/frame.
- manufacturer is currently located in Ulm, Germany.
- originally located in Suhl until shortly after World War II when the company moved to the city of Ulm.
- Krieghoff has produced firearms as both the "Shotguns of Ulm" and as the "Heinrich Krieghoff Gun Company". Either of these markings may be marked on their firearms.

Action

- three-barreled break-open; this firearm may be seen with two rifle barrels over a shot barrel (a "doppelbuchsedrilling") or with two shot barrels over a rifle barrel (a "doppelflintendrilling").

Serial Number

- serial number is usually marked on the receiver/frame or the barrel assembly at the locking lugs.

Notes

Make

- "KRIEGHOFF" is usually marked on the underside of the receiver/frame.

Model

- "ULTRA" is marked on the bottom of the receiver/frame.
- this is a box lock over/under double rifle, available with a wide range of options such as stock type, wood quality, amount and style of engraving, extended false sideplates, etc.
- features include: steel or duraluminium/"Dural" receiver/frames; "hog's-back"-type Bavarian pistol-grip stock; schnabel tipped forearm; tang safety/cocker/barrel selector; folding rear sight; single or double adjustable triggers; sling swivels; soldered or "ThermoTS stabil" joined adjustable barrels; integral scope mount.
- Krieghoff makes this firearm in three basic configurations; over/under combination gun ("bockbuchsflinte"), over/under rifle in two different rifle calibres ("bergstutzen"), and over/under rifle in the same calibre ("bockdoppelbuchse"). They will sell these firearms with only one barrel, with a combination of these barrels, or with insert barrels ('einstecklauf") that allow the owner to temporarily convert a 20 GA shotgun barrel to a rifle calibre.

Manufacturer

- "KREIGHOFF" is marked on the bottom of the receiver/frame.
- Ulm, Germany. This factory was located in Suhl until shortly after WW2, when it moved to the city of Ulm, and it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.

Action

- over and under barrel configuration, hinged barrel design.

Serial Number

- marked on the receiver/frame.

Barrel

- barrels available in 500mm, 550mm, 600mm, and 680mm lengths.

Calibre

- calibre is usually marked on the barrel assembly at the locking lugs.
- a variety of calibre/gauge/barrel options are available on request.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "KRIEGHOFF" is usually marked on the underside of the receiver/frame.
Model	- "ULTRA" is marked on the bottom of the receiver/frame. - this is a box lock over/under combination gun available with a wide range of options such as stock type, wood quality, amount and style of engraving, extended false sideplates, etc. - features include: steel or duraluminium/"Dural" receiver/frames; "hog's-back"-type Bavarian pistol-grip stock; schnabel tipped forearm; tang safety/cocker/barrel selector; folding rear sight; single or double adjustable triggers; sling swivels; soldered or "ThermoTS stabil" joined adjustable barrels; integral scope mount. - Krieghoff makes this firearm in three basic configurations; over/under combination gun ("bockbuchsflinte"), over/under rifle in two different rifle calibres ("bergstutzen"), and over/under rifle in the same calibre ("bockdoppelbuchse"). They will sell these firearms with only one barrel, with a combination of these barrels, or with insert barrels ('einstecklauf") that allow the owner to temporarily convert a 20 GA shotgun barrel to a rifle calibre.
Manufacturer	- "KREIGHOFF" is marked on the bottom of the receiver/frame. - Ulm, Germany. This factory was located in Suhl until shortly after WW2, when it moved to the city of Ulm, and it has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.
Type	- can be either an over/under shotgun/rifle, an over/under rifle in two different calibres, or both, if the owner has both barrel sets. Krieghoff also sells this receiver as an over/under double rifle.
Action	- over & under barrel configuration, hinged barrel design.
Serial Number	- marked on the receiver/frame.
Barrel	- barrels available in 500mm, 550mm, 600mm, and 680mm lengths.
Calibre	- calibre is usually marked on the barrel assembly at the locking lugs. - a variety of calibre/gauge/barrel/insert options are available on request.

Notes

Model

- "Waldschutz" drilling has the barrel selector on the tang and the safety on the left side of the stock above the trigger-guard. All barrels cock on opening.
- this is a multiple-barreled firearm that combines a SxS shotgun with a single-barreled rifle; in most patterns, the rifle barrel is mounted below and between the shotgun barrels. There have also been auxiliary barrels made for these firearms that allow the owner to fire .22 rimfire cartridges from one of the shotgun barrels. These have been made in a wide variety of gauge/calibre combinations. Those marked "Dural" are made with an aluminium-alloy receiver. These firearms are available in several grades, with the differences being the quality of wood and the amount and style of engraving used.

Manufacturer

- Krieghoff's factory was located in Suhl until shortly after WW2, when it moved to the city of Ulm.
- Krieghoff has produced firearms as both the "Shotguns of Ulm", and as the "Heinrich Krieghoff Gun Company". Either of these markings may be seen on their firearms.

Notes

Make

- "KRISS" is an Indonesian sword or large knife with a flame-like blade.

Model

- "KRISS" firearm was introduced at the SHOT Show in 2007.
- "KRISS" is a select fire submachine gun capable of single shot, two (2) round burst, and full-automatic fire.
- features include: two piece modular design; round contour barrel is mounted in the flat side receiver/frame with an integral Picatinny rail on the underside and with or without a vertical foregrip assembly; flat sided upper housing with an integral Picatinny rail with fold down sights and integral pistol grip with a removable side folding buttstock; right side ejection; cocking handle is mounted on the left side of the mechanism; ambidextrous safety lever, and ambidextrous selector lever are mounted on the upper housing.
- optional tactical light can be mounted on the upper or lower Picatinny rails.
- optional rails may be mounted on the side of the receiver/frame.
- overall length with a 140 mm (5.5") barrel and the stock in the fold position is 406 mm (16") and with the stock extended is 635 mm (26"), and the average weight is 2.18 kgs (4.8 lbs).

Manufacturer

- manufacturer's name is not usually marked on the firearm.
- "TDI VIRGINIA BEACH VA" is usually marked on the left side of the firearm.
- "TDI" is the abbreviation for "Transformational Defense Industries".
- "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PAT. 7201094" over "PAT. 7997183" is usually marked into the right side of the firearm above the trigger.

Action

- delayed blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is marked on the left side of the receiver/frame.

- "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PATENT 7201094" or "U.S. PAT. 7201094" over "U.S. PAT. 7997183" is usually marked into the right side of the firearm above the trigger.
- "720194", "7201094" and "7997183" are not serial numbers, they are patented numbers issued in the U.S.A.

Shots

- detachable box magazine mounted in front of the pistol grip.
- this firearm utilizes a GLOCK model 21 handgun magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- The ten round limit specified in the cartridge magazine control regulations applies to magazines for this firearm provided:

a) the magazine is originally designed or manufactured for use in a semi-automatic handgun, and

b) the handgun is commonly available in Canada.
- This firearm model is manufactured in both rifle and handgun configurations. The magazine is interchangeable between the two configurations and is considered a handgun magazine. Handguns are limited to a ten shot magazine capacity in accordance with the Former Cartridge Magazine Control Regulations (CC84(4) Sec. 3, Para. 1(b)). This limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rimfire ammunition.
- In the case of this firearm, it has been determined that the component commonly referred to as the lower receiver assembly, into which the barrel is mounted and which contains the breech mechanism and upon which the manufacturer's identification, model identification, and the full serial number is marked, is the receiver/frame for the purposes stated within the Firearms Act and the Criminal Code of Canada.
- Kriss Vector 22 CRB receiver/frame is a modular assembly of light metal sheet pressings/stampings consisting of a right side plate part number KA09801U and a left side plate (the serial numbered component) part number KA09802U. These two master components may be assembled into a frame assembly containing multiple additional parts or components. The serial number on the receiver/frame is visible through a port in the polymer trigger mechanism housing on the lower left side to the rear of the magazine well.

Notes

Make

- firearm may be marked "KRISS VECTOR" on both sides of the upper receiver/frame behind the barrel, or "KRISS" on the left side and "VECTOR" on the right side.
- firearm may be marked "KRISS USA, VA. BEACH, VA" over "CRB 45 CAL." on the lower left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 2011.
- firearm may be marked "KRISS VECTOR" on both sides of the upper receiver/frame behind the barrel, or "KRISS" on the left side and "VECTOR" on the right side.
- "KRISS USA, VA. BEACH, VA" over "CRB 45 CAL." may be marked on the left side of the receiver/frame.
- Kriss Vector CRB is a two piece modular design, where the receiver/frame can be switched for different calibre or barrel length options and reattached to the upper assembly.
- features may include: removable and adjustable fold down blade front sight and an aperture rear sight; round, rifled barrel with a removable shroud; rectangular upper housing with an integral accessory rail, ambidextrous safety lever, integral pistol grip; flat side receiver/frame with an integral Picatinny rail on the underside; integral magazine well; right side ejection; cocking handle, action release lever, and magazine release button are mounted on the left side; removable, fixed adjustable buttstock or a right side folding and adjustable buttstock; black finish.
- overall length with a 406 mm (16.0") barrel and the stock in the folded position is 673 mm (26 1/2") and with the stock extended is 884 mm (34 3/4").
- overall length with a 472 mm (18.6") barrel and the stock in the folded position is 722 mm (28.66 1/2") and with the stock extended is 961mm.
- average weight is 2.63 kgs (5.8 lbs).
- "Kriss Vector CRB Enhanced" was introduced in 2014 and was later rebranded as the "Gen II" Kriss Vector CRB.
- "Enhanced" or "Gen II" package may include: full length square shroud over barrel; KRISS AR-15-style stock tube Adaptor with adjustable stock; flip-up adjustable sights; top/bottom picatinny rails; ambidextrous safety controls; enhanced grip texture on the front surface of the receiver/frame. Primary external distinguishing features of a Gen II model are the lack of an over barrel flashlight mounting point, and a more traditional trigger design.

Manufacturer

- "KRISS USA, VA. BEACH, VA" over "CRB 45 CAL." is marked on the left side of the firearm.
- "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PAT. 7201094" over "PAT. 7997183" is usually marked into the right side of the firearm above the trigger.
- firearm may be marked "KRISS VECTOR" on both sides of the upper receiver/frame behind the barrel, or "KRISS" on the left side and "VECTOR" on the right side.
- firearm may be marked "KRISS USA, VA. BEACH, VA" over "CRB 45 CAL." on the lower left side of the receiver/frame.
- firearm may be marked "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PAT. 7201094" over "PAT. 7997183" on the right side of the firearm above the trigger.

Action

- delayed blowback operated.

Serial Number

- serial number may be marked on a metal plate in the left side of the receiver/frame.
- serial number of an observed example consisted of a "45C" prefix and six numerical digits.
- "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PATENT 7201094" or "U.S. PAT. 7201094" over "U.S. PAT. 7997183" is usually marked into the right side of the firearm above the trigger.
- "720194", "7201094" and "7997183" are not serial numbers; they are patent numbers issued in the U.S.A.

Calibre

- ".45 ACP" is marked on both sides of the receiver/frame.
- "KRISS USA, VA. BEACH, VA" over "CRB 45 CAL." is marked on the left side of the firearm.
- calibre may be marked on both sides of the receiver/frame, over a stylized "V" logo.
- calibre may be marked under "KRISS USA, VA. BEACH, VA" on a metal plate in the lower left side of the receiver/frame.

Shots

- detachable box magazine is mounted in front of the pistol grip.
- this firearm utilizes a GLOCK model 21 handgun magazine.

Canadian Law Comments

- Kriss Vector CRB receiver/frame is a modular assembly of light metal sheet pressings/stampings consisting of a right side plate part number 12116000 and a left side plate (the serial numbered component) part number 12115000. These two master components may be assembled into a frame assembly containing five or more additional parts or components. The serial number on the receiver/frame is visible through a port in the polymer trigger mechanism housing on the lower left side to the rear of the magazine well.

Notes

Make

- "KRISS SUPER V" over "VECTOR CRB/SO" or "KRISS VECTOR" is marked or molded into both sides of the firearm.
- "KRISS" is an Indonesian sword or large knife with a flame-like blade.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "KRISS SUPER V" was introduced at the SHOT Show in 2008.
- "VECTOR CRB/SO" is marked or molded into both sides of the firearm.
- this firearm is capable of semi-automatic fire only.
- features include: two piece modular design; round barrel encased which may be in a barrel jacket that simulates a silencer is mounted in the flat side receiver/frame. Picatinny rail on the underside; may have a vertical fore-grip assembly; right side ejection; cocking handle on the left side of the mechanism; optional tactical light can be mounted above the barrel in the flat sided top housing which has a full length Picatinny rail; pistol grip and a fixed or side folding buttstock; ambidextrous safety lever is mounted on the upper housing..
- optional rails may be mounted on the side of the receiver/frame.
- overall length with a 406 mm (16.0") barrel and the side folding stock in the folded position is 673 mm (26.5").
- overall length with a 406 mm (16.0") barrel and a fixed stock is 883 mm (34.8").
- average weight is 2.27 kgs (5.0 lbs).

Manufacturer

- manufacturer's name is not usually marked on the firearm.
- "TDI VIRGINIA BEACH VA" is usually marked on the left side of the firearm.
- "TDI" is the abbreviation for "Transformational Defense Industries".
- "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PAT. 7201094" over "PAT. 7997183" is usually marked into the right side of the firearm above the trigger.

Type

- purpose built to preclude the use of full auto parts in a semi-automatic firearm.

Action

- delayed blowback operated.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- serial number may have a prefix of "TDIC".

- "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PATENT 7201094" or "U.S. PAT. 7201094" over "U.S. PAT. 7997183" is usually marked into the right side of the firearm above the trigger.
- "720194", "7201094" and "7997183" are not serial numbers, they are patented numbers issued in the U.S.A.

Calibre

- was observed, on a physical example, marked on the left side of the firearm.

Shots

- detachable box magazine mounted in front of the pistol grip.
- this firearm utilizes a GLOCK model 21 handgun magazine.

Canadian Law Comments

- the ten round limit specified in the Cartridge Magazine Control Regulations applies to magazines for this firearm provided: a) the magazine is originally designed for use in a semi-automatic handgun, and b) the handgun is commonly available in Canada.

Notes

Make

- "KRISS VECTOR" is marked on both sides of the firearm.
- "KRISS USA, VA. BEACH, VA" is marked on the left side of the firearm.
- "KRISS" is an Indonesian sword or large knife with a flame-like blade.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 2011. - "KRISS VECTOR" is marked on both sides of the upper assembly. - "KRISS USA, VA. BEACH, VA" over "SBR" followed by the calibre designation is marked on the left side of the receiver/frame. - Kriss Vector SBR is of a two piece modular design. - features include: removable and adjustable fold down blade front sight and an aperture rear sight; round, rifled threaded or unthreaded barrel; rectangular upper housing with an integral accessory rail; ambidextrous safety lever; integral pistol grip; fixed adjustable buttstock or an ambidextrous folding and adjustable buttstock; flat side receiver/frame with an integral accessory rail on the underside with or without a vertical foregrip assembly; integral magazine well; right side ejection; cocking handle, action release lever and magazine release button are mounted on the left side; black or coloured finish. - overall length with a 140 mm (5.5") barrel and the stock in the fold position is 406 mm (16") and with the stock extended is 617 mm (24 1/4"), average weight is 2.54 kgs (5.6 lbs).
Manufacturer	- "KRISS USA, VA. BEACH, VA" is marked on the left side of the firearm. - "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PAT. 7201094" over "PAT. 7997183" is usually marked into the right side of the firearm above the trigger.
Action	- delayed blowback operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number observed consisted of a "45R" prefix and six numbers. - "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PATENT 7201094" or "U.S. PAT. 7201094" over "U.S. PAT. 7997183" is usually marked into the right side of the firearm above the trigger. - "720194", "7201094" and "7997183" are not serial numbers, they are patent numbers issued in the U.S.A.
Calibre	the calibre designation is marked on the left side of the receiver/frame
Shots	- detachable box magazine mounted in front of the pistol grip. - this firearm utilizes a GLOCK model 21 handgun magazine.
Canadian Law Comments	- Kriss Vector SRB receiver/frame is a modular assembly of light metal sheet pressings/stampings consisting of a right side plate part number 12116000 and a left hand side plate (the serial numbered component) part number 12115000. These two master components may be assembled into a frame assembly containing five or more additional parts or components. The serial number on the receiver/frame is visible through a port in the polymer trigger mechanism housing on the lower left side to the rear of the magazine well.

Notes

Make

- "KRISS SUPER V" over "VECTOR SBR/SO" or "KRISS VECTOR" is marked or molded into both sides of the firearm.
- "KRISS" is an Indonesian sword or large knife with a flame-like blade.

Model

- "KRISS SUPER V" was introduced at the SHOT Show in 2008.
- "VECTOR SBR/SO" is usually marked or molded into both sides of the firearm.
- "TDI VIRGINIA BEACH VA" over "SBR/SO 45 CAL." is usually marked on the left side of the firearm.
- this firearm is capable of semi-automatic fire only.
- features include: two piece modular design; round barrel encased which may be in a barrel jacket that simulates a silencer; flat side receiver/frame with a Picatinny rail mounted on the underside, and may have a vertical fore-grip assembly; right side ejection; cocking handle is mounted on the left side of the mechanism; optional tactical light can be mounted above the barrel in the flat sided top housing which has a full length Picatinny rail; pistol grip and a fixed or side folding buttstock; ambidextrous safety lever is mounted on the upper housing.
- optional rails may be mounted on the side of the receiver/frame.
- overall length with a 140 mm (5.5") barrel and the side folding stock in the folded position is 406 mm (16.0").
- overall length with a 140 mm (5.5") barrel and the folding stock in the extended position is 618 mm (24.3").
- average weight is 2.27 kgs (5.0 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "TDI VIRGINIA BEACH VA" over "SBR/SO 45 CAL." is usually marked on the left side of the firearm. - "TDI" is the abbreviation for "Transformational Defense Industries". - "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PAT. 7201094" over "PAT. 7997183" is usually marked into the right side of the firearm above the trigger.
Action	- delayed blowback operated.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number may have a prefix of "TDIR". - "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PATENT 7201094" or "U.S. PAT. 7201094" over "U.S. PAT. 7997183" is usually marked into the right side of the firearm above the trigger. - "720194", "7201094" and "7997183" are not serial numbers, they are patent numbers issued in the U.S.A.
Calibre	- "45 ACP" was observed, on a referenced example, marked on the left side of the firearm.
Shots	- detachable box magazine mounted in front of the pistol grip. - this firearm utilizes a GLOCK model 21 handgun magazine.

Notes

Make

- "KRISS VECTOR" is marked on both sides of the firearm.
- "KRISS USA, VA. BEACH, VA" over "SDP 45 CAL." is marked on the left side of the firearm.
- "KRISS" is an Indonesian sword or large knife with a flame-like blade.

Model

- introduced in 2011.
- "KRISS VECTOR" is marked on both sides of the upper assembly.
- "KRISS USA, VA. BEACH, VA" over "SDP 45 CAL." is marked on the left side of the firearm.
- Kriss Vector SDP is of a two piece modular design.
- features include: removable and adjustable fold down blade front sight and an aperture rear sight; round, rifled barrel with a removable shroud; rectangular upper housing with an integral Picatinny rail, ambidextrous safety lever, and an integral pistol grip; flat side receiver/frame with an integral Picatinny rail on the underside with or without a vertical foregrip assembly, and an integral magazine well; right side ejection; cocking handle, action release lever, and magazine release button are mounted on the left side; black finish.
- overall length with a 140 mm (5.5") barrel is 406 mm (16"), and the average weight is 2.44 kgs (5.4 lbs).
- may be fitted with a "stabilizing brace" style of arm extension that wraps around the forearm for greater aiming control.

Manufacturer

- "KRISS USA, VA. BEACH, VA" over "SDP 45 CAL." is marked on the left side of the firearm.
- "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PAT. 7201094" over "PAT. 7997183" is usually marked into the right side of the firearm above the trigger.

Action

- delayed blowback operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number observed consisted of a "45P" prefix and six numbers.
- "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PATENT 7201094" or "U.S. PAT. 7201094" over "U.S. PAT. 7997183" is usually marked into the right side of the firearm above the trigger.
- "720194", "7201094" and "7997183" are not serial numbers, they are patent numbers issued in the U.S.A.

Shots

- detachable box magazine mounted in front of the pistol grip.
- this firearm utilizes a GLOCK model 21 handgun magazine.

Canadian Law Comments

- Kriss Vector SDP receiver/frame is a modular assembly of light metal sheet pressings/stampings consisting of a right side plate part number 12116000 and a left hand side plate (the serial numbered component) part number 12115000. These two master components may be assembled into a frame assembly containing five or more additional parts or components. The serial number on the receiver/frame is visible through a port in the polymer trigger mechanism housing on the lower left side to the rear of the magazine well.

Notes

Make

- "KRISS VECTOR" is marked on both sides of the firearm.
- "KRISS USA, VA. BEACH, VA" over "SMG 45 CAL" is marked on the left side of the firearm.
- "KRISS" is an Indonesian sword or large knife with a flame-like blade.

Model

- introduced in 2011.
- "KRISS VECTOR" and "SMG" are marked on the firearm.
- "KRISS VECTOR SMG" is a select fire submachine gun capable of single shot, two (2) round burst, and full-automatic fire.
- features include: two piece modular design; round contour barrel with or without a threaded muzzle is mounted in the flat side receiver/frame with an integral Picatinny rail on the underside and with or without a vertical foregrip assembly; flat sided upper housing with an integral Picatinny rail with removable and adjustable fold down sights and integral pistol grip with a removable side folding adjustable buttstock; right side ejection; cocking handle is mounted on the left side of the mechanism; ambidextrous safety lever, and ambidextrous selector lever are mounted on the upper housing.
- optional tactical light can be mounted on the upper or lower Picatinny rails.
- optional rails may be mounted on the side of the receiver/frame.
- overall length with a 140 mm (5.5") barrel and the stock in the fold position is 406 mm (16") and with the stock extended is 617 mm (24 1/4"), and the average weight is 2.54 kgs (5.6 lbs).

Manufacturer

- "KRISS USA, VA. BEACH, VA" over "SMG 45 CAL" is marked on the left side of the firearm.
- "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PAT. 7201094" over "PAT. 7997183" is usually marked into the right side of the firearm above the trigger.

Action

- delayed blowback operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number has a prefix of "45S".
- "Made In" over "Virginia Beach, VA." over "US Patent 720194" and/or "MADE IN USA" over "PATENT 7201094" or "U.S. PAT. 7201094" over "U.S. PAT. 7997183" is usually marked into the right side of the firearm above the trigger.
- "720194", "7201094" and "7997183" are not serial numbers, they are patented numbers issued in the U.S.A.

Calibre

- ".45 ACP" was observed, on a physical example, marked on the left side of the firearm.

Shots

- detachable box magazine mounted in front of the pistol grip.
- this firearm utilizes a GLOCK model 21 handgun magazine.

Firearm Reference Number (FRN): 28202
Make: Krnka
Model: 1869 Rifle

Summary

Make:	Krnka
Model:	1869 Rifle
Manufacturer:	Russian State Arsenals
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	RUSSIA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
28202 - 1	15.24MM RUSSIAN KRNKA	1	915	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make does not appear on the firearm.
Model	- converted from 1870 to 1875. - model designation does not appear on the firearm.
Manufacturer	- various arsenal marks : "hammer", "arrow" and "bow and arrow" appear on individual parts.
Serial Number	- it is not known if these firearms are serial numbered.
Calibre	- centrefire cartridge with a .60 calibre hollow based lead bullet.
Other Markings	- Date of manufacture of the original percussion rifle appears on the lockplate.
Remarks	- This rifle is a conversion of Russian Model 1858 percussion Muzzle loading rifles to cartridge breechloader using the Krnka patent system. Conversion involved cutting off the breech section of the muzzle loading barrel, chambering the barrel for the 15.24MM cartridge, threading the rifle breech and fitting a receiver with a hinged breech block and replacing the percussion hammer with a newly manufactured one which strikes the firing pin in the breechblock. The new breechblock mechanism is made of bronze.

Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
122498 - 1	12 GA X 2 3/4"	2	738	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make

- "KROMSON" may be marked on the left side of the barrel assembly.
- "KROMSON" was founded by Jose Luis Alonso.
- "Kromson S.A." has been involved in manufacturing and marketing of products for clay pigeon target shooting since 1964.

Model

- "F.O.32" is marked on the right side of the barrel assembly.
- features include: over and under barrels with a ventilated top and mid rib and bead front sight; front hinged receiver/frame; top tang mounted break open lever and slide type safety; single trigger; checkered beavertail forearm and pistol grip butt stock with recoil pad; blued barrels and silver engraved receiver/frame.

Manufacturer

- the manufacturer's code of "P.P." is marked on the underside of the barrel assembly and in front of the serial number on the right top side of the receiver/frame.
- "P.P." is the manufacturer's code for "Aramberri y Cia S.A.".

Action

- over and under configuration.

Serial Number

- the serial number is marked on the right top side of the receiver frame and may be repeated on the under side of the barrel assembly.
- observed serial number consisted of six sequential numbers without a letter prefix or suffix.
- "P.P." in front of the serial number is not part of the serial number, this is the manufacturer's code for "Aramberri y Cia S.A.".

Calibre

- the calibre and chamber length are marked on the underside of the barrel and on the right upper side of the receiver/frame behind the serial number in an oval, eg. 12 70.

23521 - 1	12MM PIN-FIRE	6	130	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KRONBORG GEVAERFABRIK" is marked on the top of the barrel.

Model

- the model is marked on the right side of the receiver/frame as "M.1865".
- this is a pin-fire revolver designed by George Christensen in 1861 (along the Lefaucheux pattern), and adopted by the Danish military in 1865. In 1897, some examples of this revolver were converted to the 11mm Danish Ordnance centre-fire cartridge, which can be distinguished by the presence of a centre-fire firing-pin on the hammer, and a solid trigger inside a trigger guard.
- features include: blued finish; round barrel; fixed open blade sight with a grooved rear sight; under-barrel "plunger" style ejector; a solid top-strap with an internal groove to allow the passage of pin-fire pins; a folding trigger; a prawl with a lanyard loop; polished walnut grip.

Manufacturer

- "KRONBORG GEVAERFABRIK" is marked on the top of the barrel.
- the Kronborg Gun Factory (located inside Kronborg Castle, in Helsingor, Denmark) began as a metal-working shop and cannon/bell foundry in the 1500s, expanding to a mint and rolling mill. The factory specialized in producing cannon, and closed at the end of the 1800s.

Action

- double-action revolver.

Serial Number

- serial-numbered on the right side of the receiver/frame.

Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
539 - 1	11X59R FRENCH	7	743	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make does not appear on the firearm.

Model

- manufactured in 1878 and 1879.
- total production 25,000 units.
- "MLE 1878 MARINE" is marked on the left side of the receiver/frame.
- "1878 French Naval Rifle" is a bolt action repeater fed by a tube magazine
- "1878 French Naval Rifle" was manufactured in Austria for the French government for issue to marine and naval personnel.
- the repeating magazine system utilized by this rifle was designed by a Czech named Alfred Kropatschek while the bolt mechanism was that of the French Gras Rifle Model 1874.

Manufacturer

- The manufacturer's name appears on the left side of the receiver. OEWG may appear.

Action

- turn bolt design.

Serial Number

- serial number appears on the side of the chamber of the barrel and may have a script letter prefix.

Shots

- tubular magazine is mounted under the barrel, inside the stock.

FRT Report

Firearm Reference Number (FRN): 147307
Make: Kropatschek
Model: 1881 Austrian Carbine

Summary

Make:	Kropatschek
Model:	1881 Austrian Carbine
Manufacturer:	Oesterreichische Waffenfabriks Gesellschaft, Steyr
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	AUSTRIA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147307 - 1	11X36R	6	560	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make is not marked on the firearm.
- this make is named after Alfred Kropatschek, an Austro-Hungarian army officer and arms designer during the late 1800s, whose designs were accepted and manufactured in France, Portugal, and Austria.

Model

- the model is not marked on the firearm.
- this is a tubular-magazine bolt-action repeater adopted by Austro-Hungary in 1881 for issue to Austrian and Hungarian police; these carbines externally resemble the earlier Fruhwirth 1870 Carbines, but, where the Fruhwirth carbines had an external hammer at the rear of the bolt, the Kropatschek has an internal striker, with a flap-style safety lever at the rear of the bolt.
- features include: blued finish; open adjustable sights; under-barrel tubular magazine (visible from the muzzle end); forward barrel band and a mid-band with a sling loop; straight-grip walnut stock; a turned-down bolt-handle; a bolt that locks against the guide-rib; and a grip-strap to the rear of the trigger-guard.

Manufacturer

- the manufacturer, logo, or abbreviation thereof is marked on the firearm, as "Oe." over "WG".

Serial Number

- numbered on the receiver/frame.

Shots

- tubular magazine in forearm.

Notes

Make

- the make is not marked on the firearm.
- the cipher of the King of Portugal (an "L.I" under a crown) appears on the left side of the receiver/frame.
- named after Austrian inventor A.R. Kropatschek with modifications introduced by Portuguese Infantry Captain Guedes Castro.

Model

- "1886" is marked on the left side of the receiver/frame under "O.E.W.F.G. STEYR".
- the cipher of the King of Portugal (a L.I under a crown) is marked on the left side of the receiver/frame forward of the model.
- ordered in 1886 as a much shorter version of the rifle, fully stocked with only one barrel band, the bayonet lug is mounted on the right side of the barrel behind the nose cap.
- this is a bolt action, repeating military rifle with an under-barrel tubular magazine manufactured in Austria for the Portuguese government.
- features include: blade front and adjustable ramp rear sight graduated to 1500 metres; wing type safety located on the rear part of the bolt body; tubular magazine located in the forend; magazine cut off is located on right side of the receiver/frame; large take down screw located on the bolt body ahead of the bolt handle; trigger guard fitted with a finger rest; sling swivels; blued finish.
- total production: 4,000
- overall length is 1025mm (40.35") and overall weight is 4.0kgs (8.85lbs).

Manufacturer

- "OEWG Steyr", or "OE.W.F.G. STEYR" is marked on the left side of the receiver/frame.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the front end of the receiver/frame and may have a letter prefix or suffix.
- the serial number is usually repeated on all metal parts.

Other Markings

- year of manufacture and cypher of the King of Portugal on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- this is a carbine version of the Portuguese Model 1886 bolt action repeating rifle. It differs from the rifle version by having a considerably shorter barrel, short base rear sight and a turned down bolt handle.

FRT Report

Firearm Reference Number (FRN): 139958
Make: KSC
Model: Glock 18C Airsoft

Summary

Make:	KSC
Model:	Glock 18C Airsoft
Manufacturer:	KWA
Level:	Manufacturer Specifications and Commercial Customization
Type:	Airsoft
Action:	Air,Spring or Gas
Country of Manufacturer:	TAIWAN
Serial Numbering:	
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
139958 - 1	6MM AIRSOFT BB	23	98	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KSC" is located in Japan.

Model

- "GLOCK 18C AIRSOFT" is not marked on the firearm.
- this airsoft firearm resembles a Glock model "18C" automatic handgun.
- features include: aluminum outer barrel/sleeve and smoothbore inner barrel; metal slide, synthetic receiver/frame; black finish.
- Glock 18C Airsoft overall length is 202 mm, and average weight is 755 grams.

Manufacturer

- "KWA" is a manufacturer located in Taiwan.

Type

- this is an airsoft handgun.

Action

- HFC134a and HFC22 gas powered.
- selective fire.
- at least two variants of this particular model exist:
Variant #1) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 238.7 mps (783 fps) and/or a muzzle energy exceeding 5.7 Joules, and
Variant #2) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 111.6 mps (366 fps) and/or a muzzle energy exceeding 1.2 Joules.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- this airsoft is available in two variants:
Variant #1) CC 2 "firearm" / CC 84 (3) Exempted: muzzle velocity exceeds 111.6 mps (366 fps) and/or muzzle energy exceeds 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB, and
Variant #2) CC 84 (1) "replica firearm": muzzle velocity is less than 111.6 mps (366 fps) and/or muzzle energy is less than 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB.

FRT Report

Firearm Reference Number (FRN): 129365
Make: KT Ordnance
Model: KT15

Summary

Make:	KT Ordnance
Model:	KT15
Manufacturer:	Kristi Tool & Ordnance (KTO)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Full Automatic
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129365 - 1	223 REM	30	368	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	

Notes

Make

- known example was marked on the lower left rear side of the receiver/frame underneath the grip plate with the letters "KTO" inside the outline of a fish and with the date "March 2004 A.D." directly underneath.
- "KTO" is the trademark for Kristi Tool & Ordnance.

Model

- model designation is as advertised by KT Ordnance, known example was not marked with a model name.
- this firearm is a copy of the AR15/M16 rifle.
- research indicates that KT Ordnance produces only the lower receiver/frame for this type of firearm; assembly into a functioning firearm is accomplished by other businesses or individuals.
- this particular version is gas operated, fully automatic, utilizing a detachable box magazine.
- features can vary widely based on what type of accessories are used to build up this rifle.

Manufacturer

- Kristi Tool & Ordnance was located in Dillion, Montana, U.S.A.
- Kristi Tool & Ordnance offer products under the names of "Kristi Tool" and "KT Ordnance".
- Kristi Tool & Ordnance was manufacturing and selling 60% finish receiver/frames in 2009 for Colt 1911-A1 and Ruger Mark I type handguns, and AR-10 and AR-15 type rifles.
- Kristi Tool & Ordnance listed the following 60% finished receiver/frame kits in 2009: KT-1911/A1, KT-1911/P50, KT-1 (Ruger MK 1), KT-10A (Armalite AR-10), KT-15A and KT-15B (Armalite AR-15).
- Kristi Tool & Ordnance also offered a 1911 angle jig for completeing the KT-1911/A1 or KT-1911/P50 unfinished receiver/frame.
Kristi Tool & Ordnance also offered a CNC mini set-up jig for completion of the KT-15 unfinished receiver/frame.

Action

- gas operated.

Serial Number

- known example did not have a serial number.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Make

- "KWA" was observed marked on the left side of the firearm.
- "Made in Taiwan" was observed marked on the left side of the firearm.
- "KWA USA City of Industry CA" was observed marked on the right side of the firearm.

Model

- "KM16-BR" is marked on the left side of the firearm.
- "KM16BR Airsoft" firearm resembles a "Colt model M16" rifle.
- this model has an adjustable Hop-Up system which may be adjusted by the user to allow decreased or increased velocity.
- features include: adjustable front and rear sights; aluminum outer barrel/sleeve and smoothbore inner barrel; flat top alloy upper receiver/frame with removable carrying handle; alloy lower receiver/frame; synthetic forearm assembly; synthetic pistol grip; fixed synthetic buttstock with an integral battery compartment; black finish.
- "KM16BR Airsoft" has an overall length with a fixed buttstock of 1003 mm, and average weight is 3.21 kgs.

Manufacturer

- "KWA" was observed marked on the left side of the firearm.
- "Made in Taiwan" was observed marked on the left side of the firearm.

Type

- this is an airsoft rifle.

Action

- spring piston is powered by an electric motor, gear box and battery.
- selective fire.
- does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number rationalization unknown.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- overall length of outer aluminum barrel/sleeve is 515 mm. - length of the smooth bore inner barrel is 509 mm.
Calibre	- "CAL. 6.00 MM" is marked on the firearm.
Shots	- detachable box magazine.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
140064 - 1	6MM AIRSOFT BB	14	115	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KWA" is marked on the firearm.

Model

- "PTP M1911 MARK 2 AIRSOFT" is not marked on the firearm.
- "PTP" is the abbreviation for Professional Training Pistol.
- this airsoft firearm resembles a model "1911A1" semi-automatic pistol manufactured by numerous companies such as Colt, Para Ordnance, Para USA, Smith & Wesson, and STI International.
- features include: synthetic outer barrel/sleeve and smoothbore inner barrel; flat sided metal slide with combat sights; front and rear grip serrations; metal receiver/frame with a Picatinny type accessory rail, beavertail grip safety, ambidextrous thumb safety, and skeletonized hammer and trigger; adjustable hop-up, black or tan finish.
- PTP M1911 MARK 2 Airsoft overall length is 222 mm, overall height is 152 mm (6"), and average weight is 1.09 kgs.

Manufacturer

- "KWA" is a manufacturer located in Taiwan.
- some examples of the KWA model PTP M1911 MARK 2 Airsoft have been upgraded to discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 111.6 mps (366 fps) and a muzzle energy exceeding 1.2 Joules by Evike.com Incorporated of San Gabriel, California, U.S.A.

Type

- this is an airsoft handgun.

Action

- gas powered.
- at least two variants of this particular model exist:

Variant #1) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 238.7 mps (783 fps) and/or a muzzle energy exceeding 5.7 Joules, and
Variant #2) does not discharge a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 111.6 mps (366 fps) and/or a muzzle energy exceeding 1.2 Joules.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine.
Canadian Law Comments	- this airsoft is available in two variants: Variant #1) CC 2 "firearm" / CC 84 (3) Exempted: muzzle velocity exceeds 111.6 mps (366 fps) and/or muzzle energy exceeds 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB, and Variant #2) CC 84 (1) "replica firearm": muzzle velocity is less than 111.6 mps (366 fps) and/or muzzle energy is less than 1.2 Joules, when discharging a 0.2 gram 6MM AIRSOFT BB.

Notes

Make

- "KWC" may be marked on the airsoft pistol.

Model

- model designation may be marked on the airsoft pistol.
- this is an airsoft version of the Colt model 1911A1 Government semi-automatic handgun with CO2 powered blowback action that mimics the operation of the original firearm.
- features include: fixed front and rear sights; round, smoothbore barrel, with or without an orange muzzle tip, recessed at the muzzle with wider non-functional faux barrel intended to resemble that of the original firearm; metal slide with rear grasping serrations; slide lock, magazine release, and thumb safety lever located on the left side of the metal receiver/frame; spurred hammer; grip safety; single action trigger mechanism; detachable box magazine housing the CO2 cartridge and the BB's; checkered plastic grip panels; grey finish.

Manufacturer

- "KWC" may be marked on the airsoft pistol.
- "MADE IN TAIWAN" may be marked on the airsoft pistol.
- "KWC" stands for "Kien Well Corporation".
- "Kien Well Corporation" was founded in Taiwan in 1978.
- "Kien Well Corporation" development and production of BB guns began in 1984.
- "Kien Well Corporation" started development and production of Airsoft products in 2003.

Action

- CO2 (carbon dioxide) powered.
- discharges a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 111.6 mps (366 fps) and a muzzle energy exceeding 1.2 Joules.

Serial Number

- alpha/numeric serial number may be marked on the airsoft pistol.

Calibre

- "CAL 6 MM" is marked on the left side of the air pistol.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - discharges a 0.20 gram 6MM AIRSOFT BB projectile at a muzzle velocity exceeding 111.6 mps (366 fps) and a muzzle energy exceeding 1.2 Joules.

Notes

Make

- "KWC" inside a triangle is marked on both sides of the grip.

Model

- Introduced in 2016.
- The model designation is not marked on the firearm.
- This blowback air pistol resembles a Glock 17 handgun in design and function.
- Features include: flat-sided steel slide with single slide port on left and right side, faux right side ejection port, and forward and rear slide serrations; accessory rail forward of the trigger guard; left side slide release and magazine release; undercut square trigger guard; synthetic receiver/frame with front grip serrations; black finish with black or gold tone barrel.

Manufacturer

- "KWC" inside a triangle is marked on both sides of the grip.
- "KWC" is the abbreviation for Kien Well Corporation.
- Kien Well was founded in Taiwan in 1978.
- Kien Well development and production of BB guns began in 1984.

Action

- CO_2 powered.
- Velocities have been reported as 100 mps/328 fps and 122 mps/400 fps.

Serial Number

- The serial number was observed marked on the right side of the slide.
- Observed sample had an eight (8) digit number, without prefix or suffix on the side of the slide and based on location is not considered the serial number.
- The serial number may also be marked on a metal plate set into the underside of the receiver/frame forward of the trigger guard.
- The serial number rationalization is unknown.

Calibre

- "BB CAL (4.5 mm)" is marked on the left side of the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- Detachable box magazine housed in the grip.
Canadian Law Comments	- Does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.

Notes

Make

- "KWC" is marked on the right side of the receiver/frame.
- "KWC" is an acronym used by the Kein Well Corporation.

Model

- The model designation is not marked on the firearm.
- The KWC "M1911" is a CO2 powered, non blowback, pellet handgun made to resemble with near precision a "Colt 1911-A1".
- Features include: slide release lever located above the trigger on the left side of the receiver/frame; magazine release button is located on the left side of the receiver/frame, at the intersection of the trigger guard and front strap; safety laver is located on the left side of the receiver/frame; spur hammer; grip safety; arched mainspring housing.

Manufacturer

- "KWC" is marked on the right side of the receiver/frame.
- "KWC" is an acronym used by the Kein Well Corporation.

Action

- CO2 powered.
- Velocity has been measured as 82.4 mps or 270 fps.

Serial Number

- The serial number is marked on the right side of the receiver/frame.
- The serial number of referenced examples consisted of eight digits.

Calibre

- ".177cal(4.5mm)" is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- Detachable box magazine housed in the grip. - The "KWC M1911" uses a proprietary, removable magazine, housed in the grip that contains a CO2 canister and two, six shot, rotary pellet magazines mounted on a turnable carousel. The magazine must be removed from the firearm and the rotary magazine assembly must be turned 180 degrees to allow for the second rotary magazine to feed the firearm. - Detachable rotary disc magazine.
Canadian Law Comments	- Does not discharge a projectile at a muzzle velocity exceeding 152.4 mps and/or a muzzle energy exceeding 5.7 Joules.
Other Markings	- German "F" in a pentagon (Freimark) is marked on the dustcover, ahead of the trigger guard, indicating a muzzle energy lower than 7.5 joules.

93915 - 3	476 REV	6	152	Antique AFR, Section 1, para. 7	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "KYNOCH GUN FACTORY ASTON" is marked on the top of the barrel.

Model

- "PATENT MODEL" is marked on the top strap.
- manufactured between 1888 and 1893.
- this revolver was patented by Henry Schlund in 1885 with an additional patent issued to him in 1886 (No. 11,900) for an improved revolver.
- the Schlund patent of 1885 had the cocking trigger located below the trigger guard and the patent of 1886 had both triggers inside the trigger guard.
- trigger mechanism is unusual in that pulling the lower of the two triggers cocks a concealed hammer, then pulling the upper trigger releases the action to fire.
- features include: round barrel, hinged receiver/frame with break open lever that looks like a hammer spur, automatic ejection, hammerless (concealed hammer), blade front sight, grooved rear sight, round grip and a lanyard ring.

Manufacturer

- manufacturer's designation is marked on the top of the barrel.

Action

- this is a top break hammerless revolver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number on observed sample was marked on the front of the grip strap.
Calibre	- calibre is located on the left side of the receiver/frame, above the trigger.
