Notes

Make

- "MOSSBERG" is marked on the underside of the receiver/frame and on the barrel.

Model

- "500A" is marked on the front underside of the receiver/frame.
- manufactured from 1963 to 1970 and was reintroduced in 1980.
- "500A" denotes a 12GA Model 500.
- features include: hardwood pistol grip stock with checkered forend and rubber butt pad, or synthetic pistol grip and forend; thumb operated tang safety and a disconnecting trigger; tubular feed magazine mounted under the barrel; single slide bar (until 1970, at which time a double slide bar and a plain bolt was introduced) and forged anodized aluminum receiver/frame; barrels are easily interchangeable within the model 500 series of shotguns.
- also available in OMF Marsh Camouflage pattern.

Manufacturer

- "MOSSBERG" over "Made in U.S.A." over "North Haven, Conn." may be marked on the underside of the receiver/frame.
- "MOSSBERG" over "Made in U.S.A." may be marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number is usually marked on the left rear side of the receiver/frame.
- observed serial number had a letter "K" prefix followed by six numbers.
- observed serial number had a letter "L" prefix followed by six numbers.
- observed serial number had a letter "P" prefix followed by six numbers.
- observed serial number had a letter "R" prefix followed by six numbers.
- observed serial number had a letter "T" prefix followed by six numbers.
- NOTE: firearms manufactured prior to 1968 may not have a serial number.

Barrel

- barrel length is stamped on the left side of the barrel.

Calibre

- chamber length, gauge, barrel length and choke are stamped on the left side of the barrel.

Shots

- tubular magazine mounted under the barrel.
- underbarrel tube magazine contains 4 or 6 cartridges of three inch length depending on the magazine tube configuration. (capacity with one in the chamber is reported by the manufacturer as 5 and seven shot respectively)
- using 2 3/4" cartridges the magazine will hold 5 or 7 shells (advertised with a total of 6 and 8 shot including one in the chamber).

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

1031 - 2	12 GA X 3"	7	508	Prohibited PDR, Part 4, para. 2	Non-Commercial Customization	

Notes

Make

- "Mossberg" is marked on the left side of the buttstock, it is also marked on the underside of the receiver/frame (only visible with the buttstock removed).

Model

- manufactured from 1986 to 1990.
- "500A BULLPUP" is built on existing Mossberg model 500A shotguns, the major change is the addition of a bull-pup style stock assembly.
- "500A Bullpup" designation is not marked on the firearm.
- "500A" is marked on the underside of the receiver/frame.
- features include: black synthetic bull-pup stock with a recoil pad and pistol grip forearm; pistol grip safety and a disconnecting trigger; tubular magazine mounted under the barrel; dual, action slide bars; plain bolt and a forged anodized aluminium receiver/frame; bolt locks to the barrel; easy change barrel without tools; barrel heat shield and carrying handle with rear notch and blade front sight ; cylinder bore choke.

Manufacturer

- "Mossberg" is marked on the left side of the stock and on the underside of the receiver/frame.

Serial Number

- serial number is marked on the left rear side of the receiver/frame.
- serial number rationalization is unknown.
- observed serial number consisted of a letter "J" prefix and six numbers.

Calibre

- chamber length, gauge, choke, and barrel length are usually stamped on the barrel shroud.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - tubular magazine mounted under the barrel.

Canadian Law Comments - This firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2) is removed the receiver/frame/barrel assembly may be correctly classified as "Non-Restricted".
- The receiver/frame or complete action of the firearm, when the "bull-pup" stock ("Prohibited Device") is removed may be associated to any Mossberg, Model 500 shotgun with the appropriate, calibre, shots and barrel length.

118958 - 5	12 GA X 3"	4	762	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "Mossberg" is marked on the underside of the receiver/frame.

Model

- "500AB 12 GA" is marked on the underside of the receiver/frame.
- the first letter following the numerals, "A" in the model designation indicates a frame for 12 gauge.
- forged aluminum alloy receiver/frame with white metal trigger housing and triggerguard, thumb operated safety on top rear of receiver, trigger disconnector, double pump action bars, fixed under-barrel tube magazine
- readily dismountable steel barrel with barrel extension (breech-bolt locks into slot in the extension)
- plain walnut-stained hardwood pistol-gripped stock with white line spacer and rubber recoil pad, and vertically grooved hardwood pump forend.
- Do not confuse with the virtually identical Lakefield/Mossberg 500AB, which was a similar firearm manufactured in Canada by assembling parts of Mossberg manufacture.

Manufacturer

- marked on the underside of the receiver/frame in three lines: Mossberg / MADE IN U.S.A. / NORTH HAVEN CONN.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- manually operated, pump action shotgun.
Serial Number	- serial number is marked on the left rear side of the receiver/frame. - serial number rationalization unknown. - observed serial number consisted of a letter "G" prefix and six number. - NOTE: zeros are used as place holders to produce a six digit serial number.
Calibre	- gauge, cartridge length, barrel length, and choke marked on the left side of the barrel in two lines, example: - CHAMBERED FOR 2 3/4 AND 3 IN. SHELLS - / 12 GA. - 30 INCH FULL CHOKE - MADE IN U.S.A.
Shots	- tubular magazine, located under the barrel. - with respect to the manufacturers specificied magazine capacity of four cartridges of 12 GA X 3"; it may be possible to load a fifth 12 GA X 3" cartridge into the magazine with some brands of ammunition on some firearms due to cartridge length tolerances.

975 - 1	12 GA X 3"	5	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- make marked on firearm.
Model	- this is a version of the 12 gauge Model 500 ("500") with an etched receiver/frame and a plain barrel ("ALD"). - walnut pistol-grip stock and forearm, aluminum receiver/frame, blued barrel. - in the early 1980s, Mossberg discontinued the practice of stamping letter codes on the receiver/frames of their firearms, as the possible permutations and combinations became too unwieldy.
Manufacturer	- manufacturer marked on firearm.
Serial Number	- serial number is usually marked on the on the left rear side of the receiver/frame. - observed serial number consisted of a letter prefix and six numbers.
Barrel	- chamber, gauge, choke and barrel length stamped on left rear of barrel.
Remarks	- walnut pistol grip stock with checkered pump grip and rubber butt pad. Thumb operated tang safety and a disconnecting trigger. Tubular feed magazine under the barrel. Plain bolt, a double slide bar and a forged anodized aluminum receiver/frame that was etched. The bolt locks to the barrel. Easy change barrel without tools.

FRT Report

Firearm Reference Number (FRN): 1017
Make: Mossberg
Model: 500ATP8

Summary

Make:	Mossberg
Model:	500ATP8
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Pump Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1017 - 1	12 GA X 3"	6	470	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	
1017 - 2	12 GA X 3"	6	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

"Mossberg, Made in USA, NORTH HAVEN, CONN." stamped on underside of receiver forward of the loading port.

Model

- 500 series "Persuader" line introduced in 1976; guns not marked "persuader"; electro-less nickel finish introduced in 1981.
- "500ATP8" stamped on underside of receiver forward of loading gate. "A" designates 12 GA, "T" is tactical, "P" is for a police model, "8" is the maximum capacity of 2.75" shells (including one round chambered).
- features include: sight options include metal bead front sight; blued, parkerized, and/or matte black barrel and receiver; tubular feed magazine under and approximately same length as barrel; oiled walnut or black synthetic stock; plain cylinder bore barrel (with or without heat shield); dual slide rails; right side ejection port and loading gate at bottom of hammerless aluminium alloy receiver; trigger guard may be polymer; ambidextrous safety on tang at top rear of receiver; generally fitted with conventional butt stock and rubber recoil pad.

Manufacturer

"Mossberg, Made in USA, NORTH HAVEN, CONN." stamped on underside of receiver forward of the loading port.

Serial Number

- serial number is marked on the left rear side of the receiver/frame.

Calibre

- chamber, gauge, choke and barrel length may be stamped on the left rear of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- tubular magazine is mounted under the barrel.
- the "8" in the model designation is for eight shot total capacity.
- this capacity was based on 12 GA x 2 3/4" shotgun shells, with one round in the chamber and seven in the magazine tube.
- magazine capacity is one less when using 12 GA x 3" shot guns shells.

1022 - 1	12 GA X 3"	6	508	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	"Mossberg, Made in USA, NORTH HAVEN, CONN." stamped on underside of receiver forward of the loading port.
Model	- 500 series "Cruiser" line introduced in 1981; guns not marked "cruiser". - "500ATP8C" stamped on underside of receiver forward of loading gate. "A" designates 12 GA, "T" is tactical, "P" is for a police model, "8" is the maximum capacity of 2.75" shells (including one round chambered); "C" denotes a model usually fitted with a black synthetic pistol grip rear stock. - features include: sight options include metal bead front sight; blued or matte black plain cylinder bore barrel with matching colour receiver; tubular feed magazine under and approximately same length as barrel; black synthetic stock; dual slide rails; right side ejection port and loading gate at bottom of hammerless aluminium alloy receiver; trigger guard may be polymer; ambidextrous safety on tang at top rear of receiver; generally fitted with a black synthetic pistol grip rear stock (without buttstock).
Manufacturer	"Mossberg, Made in USA, NORTH HAVEN, CONN." stamped on underside of receiver forward of the loading port.
Serial Number	- serial number is usually marked on the on the left rear side of the receiver/frame. - observed serial number consisted of a letter prefix and six numbers.
Barrel	- Chamber, gauge, choke and barrel length stamped on left rear of barrel.
Shots	- tubular magazine is mounted under the barrel. - the number "8" in the model designation is for eight shot total capacity. - this capacity was based on 12 GA x 2 3/4" shotgun shells, with one round in the chamber and seven in the magazine tube. - magazine capacity is one less when using 12 GA x 3" shot guns shells.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Pistol grip stock with black wood pump grip. Thumb operated tang safety and a disconnecting trigger. Tubular feed magazine under the barrel. Double slide bar and a plain bolt and a forged anodized aluminum receiver. The bolt locks to the barrel. Easy change barrel without tools. Quick disconnect front sling swivel and bead front sight. Blue finish. Has a cylinder bore.

Notes

Make

- "MOSSBERG" is marked on the barrel and/or receiver/frame.

Model

- introduced in 2005.
- "535 ATS" is usually marked on the firearm.
- "ATS" abbreviation for "All Terrain Shotgun".
- features include: barrels are blued or have a camo finish; ventilated rib with mid bead or fibre optic sight; interchangeable choke tubes and barrels; receiver/frame is blued, matte blued or camo and is drilled and tapped for scope mounts; gold or black trigger; ambidextrous thumb operated safety; black synthetic, checkered wooden, or camo pistol grip and fore arm; rubber recoil pad.
- overall length for 711mm barrel is 1226mm (48 1/4"), average weight is 3.07kg (6 3/4 lbs).
- introduced in 2013 with a recoil reduction system featuring an exclusive stock design incorporating Mathews Harmonic Damper Technology housed on the stock with interchangeable standard or raised comb.

Manufacturer

- the Mossberg name is marked on the barrel and/or receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- manually operated, pump action.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number rationalization is unknown. - serial numbers observed consisted of a two letter "AT" prefix and six numbers.
Barrel	- Model 535 barrels are not interchangeable with other Mossberg shotguns.
Calibre	- gauge and chamber length are usually marked on the left side of the barrel.
Shots	- tubular magazine is mounted under the barrel. - total ammunition capacity (including one in the chamber) is five (5) 2-3/4" or 3" shells. - total ammunition capacity (including one in the chamber) is four (4) 3-1/2"shells.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make

- the "MOSSBERG" trade name is marked on the left side of the barrel.
- "MOSSBERG" over "MADE IN U.S.A." over "NORTH HAVEN, CONN" is marked on the underside of the receiver/frame forward of the loading gate.

Model

- introduced in 1987.
- "590" and "12 GA" are marked on the underside of the receiver/frame forward of the loading gate.
- "MOSSBERG" over "MODEL 590" are marked on the barrel.
- features include: easily removable heavy walled cylinder bore barrel with or without a three quarters length barrel shroud and bayonet lug; solid top forged anodized aluminum receiver/frame with right side ejection and double slide bar and a plain bolt that locks into the barrel; easy cleaning straight through tubular feed magazine under the barrel; thumb operated tang safety and a disconnecting trigger; wood or black synthetic grooved forearm and pistol grip stock with or without speed feed and recoil pad; bead front sight or peep rear and broad bright blade front sight (Ghost Ring Sight); sling swivels; blue or parkerized finish.
- also available in a dedicated left-handed mirror-image version, beginning in 2015.

Manufacturer

- the "MOSSBERG" trade name is marked on the left side of the barrel.
- "MOSSBERG" over "MADE IN U.S.A." over "NORTH HAVEN, CONN" is marked on the underside of the receiver/frame forward of the loading gate.

Serial Number

- serial number is marked at the left rear of the receiver/frame.
- observed serial number had a letter prefix and six sequential numbers, eg. "L775740".

Calibre

- the barrels are marked with a standard manufacturer's warning on the right side, and the make, model, chamber length, gauge and barrel length; for example: "MOSSBERG CHAMBERED FOR 2 3/4 AND 3 IN. SHELLS" over "- 12 GA. - 20 IN. CYLINDER BORE -" over "- MODEL 590 -".

Shots

- tubular magazine located under the barrel.
- the total capacity of the firearm with a 470 mm (18 1/2") barrel and using:
- 2 3/4" shells is six (6) shots this includes one (1) in the chamber and five (5) in the magazine.
- 3" shells is five (5) shots this includes one (1) in the chamber and four (4) in the magazine.
- the total capacity of the firearm with a 508 mm (20") barrel and using:
- 2 3/4" shells is nine (9) shots this includes one (1) in the chamber and eight (8) in the magazine.
- 3" shells is eight (8) shots this includes one (1) in the chamber and seven (7) in the magazine.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

- "Mossberg" is marked on the left side of the receiver/frame.

Model

- introduced in 1989-1990.
- "Mossberg, Made in USA, NORTH HAVEN, CONN., 590 Bullpup, 12GA" stamped on front underside of the receiver/frame.
- this Mossberg 590 is a non-restricted firearm, however, the "BULL-PUP STOCK" is a "PROHIBITED DEVICE".
- features include: Du-Pont Zytel-33 high impact plastic bull-pup stock, pistol grip and pump grip; pistol grip safety; a disconnecting trigger; tubular feed magazine under the barrel; double slide bar; a plain bolt; forged anodized aluminum receiver; barrel heat shield and carrying handle with rear notch and blade front sight.
- bolt locks to the barrel.
- barrels are easily interchangeable without tools.

Manufacturer

- "Mossberg" is marked on the left side of the receiver/frame.

Action

- manually operated, pump action, repeating shotgun.

Barrel

- chamber, gauge, choke and barrel length is stamped on left rear of barrel.

Shots

- tubular magazine located under the barrel.
- the total capacity of the firearm with a 508 mm (20") barrel and using:
- 2 3/4" shells is nine (9) shots this includes one (1) in the chamber and eight (8) in the magazine.
- 3" shells is eight (8) shots this includes one (1) in the chamber and seven (7) in the magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- This firearm, as it left the factory, is fitted with a "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2). When the "bull-pup" stock ("Prohibited Device" PDR, Part 4, para. 2) is removed the receiver/frame/barrel assembly may be correctly classified as "Non-Restricted".
- The receiver/frame or complete action of the firearm, when the "bull-pup" stock ("Prohibited Device") is removed may be associated to any Mossberg, Model 590 shotgun with the appropriate, calibre, shots and barrel length.

Notes

Make - "Mossberg, Made in USA, NORTH HAVEN, CONN., 590 , 12GA". is stamped on front underside of receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this firearm is a compact, short-barreled shotgun designated as a "Compact Model" and marketed as a "Law Enforcement" model shotgun.
- manufactured from 1987 - present.
- features include:
- synthetic butt stock or pistol grip stock with a synthetic pump fore-grip.
- thumb operated tang safety and a disconnector attached to trigger mechanism.
- tubular magazine under the barrel.
- double action bars for pump mechanism, plain bolt and a forged anodized aluminum receiver/frame. The bolt locks to the barrel.
- quick change barrel- no tools required.
- quick disconnect front sling swivel and bead front sight.
- also available with blued or parkerized finish.
- cylinder bore with no choke.
- overall length is 877mm, with the 356 mm length barrel.

Manufacturer

- "Mossberg, Made in USA, NORTH HAVEN, CONN., 590 , 12GA". is stamped on front underside of receiver/frame.

Action

- manually operated, pump action repeating shotgun.

Serial Number

- the serial number is marked on the receiver/frame and has been observed to consist of a letter prefix followed by six digits, and is occasionally found with a letter suffix.

Barrel

- chamber, gauge, choke and barrel length specifications are stamped on the left rear of the barrel.
- the 14" / 356mm barrel fitted to this model is not interchangeable with other 590 models; only those with the short magazine tube, operating bars and forend may be fitted with this barrel length.

Calibre

- the calibre designation is marked on the barrel assembly.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

Notes

Model	- this is a variant of the standard Mossberg 590 pump-action shotgun, fitted with a long-pull "double-action-only" style trigger mechanism, intended to help prevent accidental discharges and replicating the pull of traditional double action service pistols. - this shotgun has a synthetic pistol-grip stock and forearm, may be fitted with a nylon loop to prevent the forward hand from slipping. - these shotguns can be seen with both a standard bead front sight, or a "ghost-ring" style peep rear with blade front.
Manufacturer	- marked on the barrel and/or receiver/frame.
Serial Number	- on receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make - the "MOSSBERG" trade name is marked on the underside of the receiver/frame and on the side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "M590A1" is marked on the left side of the receiver/frame.
- "590" is marked on the underside of the receiver/frame.
- barrels are marked with a standard manufacturer's warning, chamber length, and barrel length; for example: "2 3/4 & 3" SHELLS 12 GAUGE 18-1/2IN ACCU-CHOKE".
- barrels are heavy-walled in comparison to standard shotgun barrels.
- Mil spec model introduced in 1997.
- synthetic stock in regular size, Bantam or speed feed and synthetic pump grip.
- thumb operated tang safety and a disconnecting trigger.
- easy cleaning straight through tubular feed magazine under the barrel.
- double slide bar and a plain bolt and a forged anodized aluminum receiver/frame.
- the bolt locks to the barrel, easy change barrel without tools.
- front sling swivel and bead front sight or peep rear and broad bright blade front sight (Ghost Ring Sight).
- overall length with a 470 mm (18 1/2") barrel is 1003 mm (39 1/2"), average weight is 3.36 kgs (7 1/4 lbs).
- also available in a dedicated left-handed mirror-image version, beginning in 2015.

Manufacturer

- the manufacturer's name and address are marked on the underside of the receiver/frame; forward of the loading port.

Serial Number

- serial number is marked at the left rear of the receiver/frame.
- serial number for the US Service Model has USSM prefix.

Barrel

- chamber, gauge, choke and barrel length stamped on left rear of barrel
- comes with cylinder bore or Accu-Mod bore.

Calibre

- calibre designation is marked on the left side of the receiver/frame.

Shots

- tubular magazine located under the barrel.
- the total capacity of the firearm with a 470 mm (18 1/2") barrel and using:
- 2 3/4" shells is six (6) shots this includes one (1) in the chamber and five (5) in the magazine.
- 3" shells is five (5) shots this includes one (1) in the chamber and four (4) in the magazine.
- the total capacity of the firearm with a 508 mm (20") barrel and using:
- 2 3/4" shells is nine (9) shots this includes one (1) in the chamber and eight (8) in the magazine.
- 3" shells is eight (8) shots this includes one (1) in the chamber and seven (7) in the magazine.

Canadian Law Comments

- this firearm is normally Non-Restricted unless affected by the following conditions:

1) by combining a barrel from a licensed firearms manufacture that is less than 406mm (16.0") in length and a receiver/frame fitted with a pistol grip only, this firearm may be deemed a "handgun" and therefore "RESTRICTED" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (a) of the Criminal Code of Canada.
- "handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

2) "a firearm that is designed or adapted to be fired when reduced to a length of less than 660 mm by folding, telescoping or otherwise" and therefore "Restricted" under the definition of "restricted firearm" in Part III/Firearms and Other Weapons of Section 84 (1) (c) of the Criminal Code of Canada.

3) by combining a barrel that has been altered to less than 457mm (18.0") in length by a non-licensed firearms manufacturer (cottage industry, individual or gunsmith) regardless of whether the shotgun has a pistol grip or conventional stock, this firearm is "PROHIBITED" and subject to the definition of a "prohibited firearm" in Part III/Firearms and Other Weapons of Section 84 of the Criminal Code of Canada.
- "prohibited firearm" means a firearm that is adapted from a rifle or shotgun, whether by sawing, cutting or any other alteration, and that, as so adapted,
(i) is less than 660 mm in length, or
(ii) is 660mm or greater in length and has a barrel less than 457 mm in length.

- "590M" is marked on the bottom of the frame/receiver forward of the loading port.
- variant of the Mossberg 590 series pump action shotgun designed to use a detachable double-stack box magazine.
- Introduced in 2018;
- features include: sight options include metal bead front sight, or single blade on ramp front sight with ghost ring rear sight; black phosphate/anodized finish, black synthetic furniture; plain round cylinder bore barrel (with or without ventilated heat shield); ribbed forend with or without integral accessory rails;); dual slide rails; hammerless aluminium alloy receiver with right side ejection port, drilled and tapped; loading port at bottom with three parallel open notches on left and right sides that engage with the detachable box magazine's stabilizing ribs; ambidextrous magazine release in front of the trigger guard; ambidextrous safety on tang at top rear of receiver; generally fitted with conventional butt stock and rubber recoil pad.
- measurements with 470 mm (18.5") barrel: 1004 mm (39.5") overall length; 3.52 kg (7.75 lbs) without heat shield, or 3.64 kg (8 lbs) with heat shield.

Manufacturer

- "MOSSBERG" is marked below the ejection port on the right side of the frame/receiver.
- "MOSSBERG, NORTH HAVEN, CT U.S.A." is stamped on the underside of the frame/receiver forward of the loading port.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial-numbered on the receiver/frame.
Calibre	- "12GA." is stamped on the underside of the frame/receiver forward of the loading port.
Shots	- detachable box magazine; - manufacturer claims these are the first production double-stack 12GA shotgun magazines; - also available from manufacturer: 10-round, 15-round, and 20-round capacity.

Notes

Make

- "MOSSBERG" is marked on the left side of the receiver/frame.

Model

- "590RM" is marked on the left side of the receiver/frame.
- "RM" stand for "Rotary safety, Magazine-fed".
- "590RM" is a Mossberg 590 pump action shotgun with rotary safety, detachable magazine, pistol grip, and buttstock.
- "590RM Class 3" is a shortened version with a compact forend.
- Features include: Silver colored ambidextrous rotary safety located above the grip and behind the trigger; flat trigger; accessory rail above receiver/frame; bolt release lever on the left side below the rotary safety; magazine release paddle in front of the trigger guard; pistol grip.
- The "590RM" features: Interchangeable chokes; barrel-mounted folding front sight; heat shield above barrel; telescopic buffer tube buttstock.
- The "590RM Stand-off" features: Integral breacher choke with fixed cylinder bore; no iron sights; heat shield above barrel; telescopic buffer tube buttstock.
- The "590RM Chisel Class 3" features: Interchangeable chokes; front bead; shortened forend with accessory rail and integral hand stop; optical mount; accessory rail buttstock interface; brown color coated receiver/frame.
- The "590RM Chisel Professional Series Class 3" features: Integral breacher choke with fixed cylinder bore; front bead; shortened forend with accessory rail and integral hand stop; optical mount; accessory rail buttstock interface; silver color coated receiver/frame and barrel.
- Overall length with a 292 mm (11.5 inches) barrel is 775 mm (30.5 inches) with the stock extended.
- Overall length with a 292 mm (11.5 inches) barrel is 622 mm (24.5 inches) with the stock collapsed.
- Overall length with a 292 mm (11.5 inches) barrel is 622 mm (24.5 inches) without a stock.

Manufacturer

- "MOSSBERG" is marked on the left side of the receiver/frame.

Action

- Pump action.

Serial Number

- The serial number is marked on the left side of the receiver/frame.
- The serial number consists of two letters (RM) and seven (7) numbers.

Barrel

- The "Stand-Off" and "Professional Series" barrels feature a breaching style muzzle brake that is integrally machined as part of the barrel production process, and is therefore included in the barrel length.

Calibre

- The calibre designation is marked on the barrel assembly.
- The calibre designation is marked on the left side of the receiver/frame.

Shots

- Detachable box magazine.
- Uses a proprietary cartridge magazine.

Canadian Law Comments

- When the "590RM Class 3" is fitted with a 292mm (11.5") barrel and a pistol grip but without a buttstock, it is not deemed a "handgun" and therefore remains non-restricted.
- "Handgun" means a firearm that is designed, altered or intended to be aimed and fired by the action of one hand, whether or not it has been redesigned or subsequently altered to be aimed and fired by the action of both hands.

Other Markings

- "CHISEL" may be marked on the buttstock adaptor.
- "CHISEL" is the designation of the buttstock adaptor with an accessory rail mounting interface and integrated optical mount; and should not be confused with the model name.

Notes

Make

- "MOSSBERG", "MOSSBERG INTL", "MOSSBERG INTERNATIONAL", "O.F. MOSSBERG", or "O.F. MOSSBERG & SONS" is marked on the receiver/frame and/or barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- introduced in 2004/2005.
- "702 PLINKSTER" is marked on the left side of the receiver/frame.
- features include: round tapered free floating rifled barrel with or without a hooded front sight and fold down rear sight; receiver/frame is grooved for scope mounts; aluminum alloy solid top receiver/frame with right side ejection; crossbolt safety mounted on the front of the aluminum trigger guard; magazine release located behind the magazine well; wood pistol grip stock or black, brown, olive drab, camouflage or pink synthetic pistol grip or thumbhole stock with or without fold down fore-end; blued or brushed chrome metal finish.
- rifling characteristics: 1 turn in 16", right hand twist.
- overall length with a 457 mm (18") barrel is 940 mm (37"), and average weight is 1.86kg (4.1lbs).
- available in 2006 as a Combo model that features a 4X scope and also available with a shorter stock as the Bantam version.
- available in 2010 with a Roadblocker muzzle brake.
- National Wild Turkey Association's logo may be marked on the stock.

Manufacturer

- "CBC", "Made in Brazil", "Made in Brazil by CBC", "Made in Brazil" and "By Companhia Brasileira de Cartuchos" or "Made in Brazil", "By Companhia Brasileira de Cartuchos" and "S.Andre-Est. S.Paulo" may be marked on the receiver/frame or barrel.
- "CBC" is the acronym for Companhia Brasileira de Cartuchos.
- Companhia Brasileira de Cartuchos (CBC) is a Brazilian company that primarily produces ammunition but they also manufacture airguns, revolvers, break open shotguns and double rifles under their own name and contracted "house brand" firearms.

Action

- blowback operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial numbers consisted of a three letter "EGC" prefix and six numbers.
- observed serial number consisted of a three letter "EHB" prefix and six numbers.

Calibre

- calibre designation is marked on the barrel.

Shots

- detachable box magazine.

Canadian Law Comments

- there is a 25 shot magazine available for this Model firearm.
- this firearm Model is manufactured in both rifle and handgun configurations. The magazine is interchangeable between the two configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

FRT Report

Firearm Reference Number (FRN): 146625
Make: Mossberg
Model: 715P

Summary

Make:	Mossberg
Model:	715P
Manufacturer:	Companhia Brasileira de Cartuchos (CBC)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	BRAZIL
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
146625 - 1	22 LR	10	152	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	
146625 - 2	22 LR	25	152	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MOSSBERG INTERNATIONAL 715P" is marked on the left side of the firearm.

Model

- introduced in 2012.
- "MOSSBERG INTERNATIONAL 715P" is marked on the left side of the firearm.
- "P" stands for pistol
- "715P" is a Mossberg model 702 Plinkster barreled action mounted inside a synthetic clam shell body.
- "715P" externally resembles an AR-15 type rifle in a pistol variant.
- features include: threaded muzzle brake/flash hider; short, round quad rail handguard with ear protected front sight and hand stop at his forward lower rail; adjustable rear sight; flat sided 702 Plinkster receiver/frame with right side cocking and ejection, cross bolt safety is located on the side, forward of the trigger guard; synthetic clam shell body with an integral pistol grip and top optic rail; magazine release is a lever mounted on the magazine well; black finish or camouflage pattern.
- overall length with a 152mm (6") barrel is 406mm (16") and average weight is 1.59 kg (3.5 lbs).

Manufacturer

- "MADE IN BRAZIL BY CBC" is marked on the left side of the firearm.
- "CBC" is the acronym for Companhia Brasileira de Cartuchos.
- Companhia Brasileira de Cartuchos (CBC) is a Brazilian company that primarily produces ammunition but they also manufacture airguns, revolvers, break open shotguns and double rifles under their own name and contracted "house brand" firearms.

Action

- blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number is marked on the left side of the receiver/frame. - observed serial number consisted of a three letter "EMF" prefix and seven numbers.
Calibre	- ".22 CALIBER LONG RIFLE ONLY" is marked on the left side of the firearm. - 22 LR rifling characteristics: 1 turn in 16 inches, right hand twist.
Shots	- detachable box magazine.
Canadian Law Comments	- there is a 25 shot magazine available for this Model firearm. - this firearm Model is manufactured in both rifle and handgun configurations. The magazine is interchangeable between the two configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
147718 - 1	22 LR	10	413	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	
147718 - 2	22 LR	25	413	Prohibited PFR, Part 1, para. 87	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MOSSBERG INTERNATIONAL 715T" is usually marked on the left side of the firearm.

Model

- introduced in 2014.
- "MOSSBERG INTERNATIONAL 715T" is usually marked on the left side of the firearm.
- "DUCK COMMANDER" is marked on the firearm.
- "DUCK COMMANDER" is a register trademark of "Duck Commander, Inc.".
- "FAITH. FAMILY. DUCKS" is a registered trademark of "Duck Commander, Inc.".
- "Duck Commander, Incorporated" is located in West Monroe, Louisiana, U.S.A.
- "Duck Commander, Incorporated" was founded by Phil Robertson.
- "Duck Commander, Incorporated" is a Robertson family business.
- "715T Tactical 22 Duck Commander" is a Mossberg model 702 Plinkster barreled action mounted inside a synthetic clam shell stock.
- "715T Tactical 22 Duck Commander" externally resembles an AR-15 type rifle.
- features include: removeable post front sight and an adjustable rear sight; blued round rifled barrel with a muzzle brake; flat sided 702 Plinkster receiver/frame with right side cocking and ejection, and cross bolt safety are mounted inside the AR-15 type synthetic clam shell stock; main clam shell body has an integral pistol grip, ambidextrous magazine release, and an integral Picatinny rail; quad rail forearm; six position collapsible buttstock; sling swivels; Realtree Max-5 camouflage finish.
- overall length a 413 mm (16.25") barrel and the adjustable stock in the closed position is 838 mm (33"), and the average weight is 2.49 kgs (5.5 lbs).

Manufacturer

- "MADE IN BRAZIL BY CBC MODEL 715T" is usually marked on the left side of the firearm.
- "CBC" is the acronym for Companhia Brasileira de Cartuchos.
- Companhia Brasileira de Cartuchos (CBC) is a Brazilian company that primarily produces ammunition but they also manufacture airguns, revolvers, break open shotguns and double rifles under their own name and contracted "house brand" firearms.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- serial number is marked on the left side of the receiver/frame.
Calibre	- ".22 CALIBER LONG RIFLE ONLY" is usually marked on the left side of the firearm. - 22 LR rifling characteristics: 1 turn in 16 inches, right hand twist.
Shots	- detachable box magazine.
Canadian Law Comments	- there is a 25 shot magazine available for this Model firearm. - this firearm Model is manufactured in both rifle and handgun configurations. The magazine is interchangeable between the two configurations and is considered a "handgun" magazine. Because handguns are limited to a ten shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (b) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity for the rifle configuration to ten (10) shots, despite the firearm being designed to use rim-fire ammunition.

Notes

Make

- "MOSSBERG" and/or "O.F. MOSSBERG & SONS INC." is marked on the barrel.

Model

- the model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- the model designation is marked on the left side of the barrel as "MODEL 800A".
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Montgomery Ward's under the Western Field brand name, by Western Auto under the Revelation name and by Mossberg under the New Haven brand name.

Manufacturer

- "MOSSBERG" over "MADE IN U.S.A." and "NORTH HAVEN, CONNECTICUT", "MOSSBERG" over "MADE IN U.S.A." over "NORTH HAVEN, CONN." or "O.F. MOSSBERG & SONS INC." over "NORTH HAVEN, CONN. U.S.A." is marked on the barrel.

Action

- turn-bolt operated.

Serial Number

- the serial number is usually marked on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- internal box magazine with a hinged floorplate.

Other Markings

- Mossberg used a coding system that identified specific features on their models. The codes are as follows:
A = calibre 308 WIN
B = calibre 243 WIN
C = calibre 22-250 REM
D = Deluxe or Super Grade (only one variant was sold without the "D" being prefixed with a calibre code. This variation was produced in 1970 only in calibre 6.5MM REM MAG).
E = calibre 350 REM MAG (1970 only)
F = calibre 222 REM (1974 only)
SM = factory installed 4X (four power) scope.
M = Mannlicher style stock.
V = varmint rifle.
VT = varmint/target rifle
- NOTE: See Remarks field for a complete model listing.

Remarks

- using the Mossberg coding system, model 800 variations break down as follows:
800A; standard model in calibre 308 WIN.
800AD; Deluxe or Super Grade model in calibre 308 WIN.
800AM; calibre 308 WIN with a Mannlicher stock.
800ASM; calibre 308 WIN with a 4X (four power) scope.
800B; standard model in calibre 243 WIN.
800BD; Deluxe or Super Grade model in calibre 243 WIN.
800BM; calibre 243 WIN with a Mannlicher stock.
800BSM; calibre 243 WIN with a 4X (four power) scope.
800C; standard model in calibre 22-250 REM.
800CD; Deluxe or Super Grade model in calibre 22-250 REM.
800CM; calibre 22-250 REM with a Mannlicher stock.
800CSM; calibre 22-250 REM with a 4X (four power) scope.
800D; calibre 6.5MM REM MAG, produced in 1970 only.
800BV; this is a "varmint" version in calibre 243 WIN with a heavy profile barrel.
800CV; this is a "varmint" version in calibre 22-250 REM with a heavy profile barrel.
800E; calibre 350 REM MAG, produced in 1970 only.
800F; calibre 222 REM, produced in 1974 only.
800BVT; this is a "varmint/target" version in calibre 243 WIN with a heavy profile barrel and "Marksman" style stock.
800CVT; this is a "varmint/target" version in calibre 22-250 REM with a heavy profile barrel and "Marksman" style stock.
800FVT; this is a "varmint/target" version in calibre 222 REM with a heavy profile barrel and "Marksman" style stock.
- Ward's Western Field variations include:
- model 767, 768, 780 were the Mossberg model 800A.
- model 782 was the Mossberg model 800B.
- model 775 was the Mossberg model 800AD.
- model 776 was the Mossberg model 800BD.
- models sold under the Western Auto, Revelation brand name were 220A, 220B, 220C, 220AD, 220BD and 220CD.
- models sold under the New Haven brand name were 880A, 880B and 880C.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
893 - 1	308 WIN	4	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MOSSBERG" or "O.F. MOSSBERG & SONS INC." is marked on the barrel.

Model

- the model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- this is the "Deluxe" or "Super Grade" version of the model 800A.
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock with a roll-over cheekpiece and rosewood forend tip and grip cap; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the Damascened bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Montgomery Ward's under the Western Field brand name, by Western Auto under the Revelation name and by Mossberg under the New Haven brand name.

Manufacturer

- "MOSSBERG" over "MADE IN U.S.A." and "NORTH HAVEN, CONNECTICUT", "MOSSBERG" over "MADE IN U.S.A." over "NORTH HAVEN, CONN." or "O.F. MOSSBERG & SONS INC." over "NORTH HAVEN, CONN. U.S.A." is marked on the barrel.

Action

- turn-bolt operated.

Serial Number

- the serial number is marked on the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- internal box magazine with a hinged floorplate.

Other Markings

- Mossberg used a coding system that identified specific features on their models. The codes are as follows:
A = calibre 308 WIN
B = calibre 243 WIN
C = calibre 22-250 REM
D = Deluxe or Super Grade (only one variant was sold without the "D" being prefixed with a calibre code. This variation was produced in 1970 only in calibre 6.5MM REM MAG).
E = calibre 350 REM MAG (1970 only)
F = calibre 222 REM (1974 only)
SM = factory installed 4X (four power) scope.
M = Mannlicher style stock.
V = varmint rifle.
VT = varmint/target rifle
- NOTE: See Remarks field for a complete model listing.

Remarks

- using the Mossberg coding system, model 800 variations break down as follows:
800A; standard model in calibre 308 WIN.
800AD; Deluxe or Super Grade model in calibre 308 WIN.
800AM; calibre 308 WIN with a Mannlicher stock.
800ASM; calibre 308 WIN with a 4X (four power) scope.
800B; standard model in calibre 243 WIN.
800BD; Deluxe or Super Grade model in calibre 243 WIN.
800BM; calibre 243 WIN with a Mannlicher stock.
800BSM; calibre 243 WIN with a 4X (four power) scope.
800C; standard model in calibre 22-250 REM.
800CD; Deluxe or Super Grade model in calibre 22-250 REM.
800CM; calibre 22-250 REM with a Mannlicher stock.
800CSM; calibre 22-250 REM with a 4X (four power) scope.
800D; calibre 6.5MM REM MAG, produced in 1970 only.
800BV; this is a "varmint" version in calibre 243 WIN with a heavy profile barrel.
800CV; this is a "varmint" version in calibre 22-250 REM with a heavy profile barrel.
800E; calibre 350 REM MAG, produced in 1970 only.
800F; calibre 222 REM, produced in 1974 only.
800BVT; this is a "varmint/target" version in calibre 243 WIN with a heavy profile barrel and "Marksman" style stock.
800CVT; this is a "varmint/target" version in calibre 22-250 REM with a heavy profile barrel and "Marksman" style stock.
800FVT; this is a "varmint/target" version in calibre 222 REM with a heavy profile barrel and "Marksman" style stock.
- Ward's Western Field variations include:
- model 767, 768, 780 were the Mossberg model 800A.
- model 782 was the Mossberg model 800B.
- model 775 was the Mossberg model 800AD.
- model 776 was the Mossberg model 800BD.
- models sold under the Western Auto, Revelation brand name were 220A, 220B, 220C, 220AD, 220BD and 220CD.
- models sold under the New Haven brand name were 880A, 880B and 880C.

D = Deluxe or Super Grade (only one variant was sold without the "D" being prefixed with a calibre code. This variation was produced in 1970 only in calibre 6.5MM REM MAG).
E = calibre 350 REM MAG (1970 only)
F = calibre 222 REM (1974 only)
SM = factory installed 4X (four power) scope.
M = Mannlicher style stock.
V = varmint rifle.
VT = varmint/target rifle
- NOTE: See Remarks field for a complete model listing.

Remarks

- using the Mossberg coding system, model 800 variations break down as follows:
800A; standard model in calibre 308 WIN.
800AD; Deluxe or Super Grade model in calibre 308 WIN.
800AM; calibre 308 WIN with a Mannlicher stock.
800ASM; calibre 308 WIN with a 4X (four power) scope.
800B; standard model in calibre 243 WIN.
800BD; Deluxe or Super Grade model in calibre 243 WIN.
800BM; calibre 243 WIN with a Mannlicher stock.
800BSM; calibre 243 WIN with a 4X (four power) scope.
800C; standard model in calibre 22-250 REM.
800CD; Deluxe or Super Grade model in calibre 22-250 REM.
800CM; calibre 22-250 REM with a Mannlicher stock.
800CSM; calibre 22-250 REM with a 4X (four power) scope.
800D; calibre 6.5MM REM MAG, produced in 1970 only.
800BV; this is a "varmint" version in calibre 243 WIN with a heavy profile barrel.
800CV; this is a "varmint" version in calibre 22-250 REM with a heavy profile barrel.
800E; calibre 350 REM MAG, produced in 1970 only.
800F; calibre 222 REM, produced in 1974 only.
800BVT; this is a "varmint/target" version in calibre 243 WIN with a heavy profile barrel and "Marksman" style stock.
800CVT; this is a "varmint/target" version in calibre 22-250 REM with a heavy profile barrel and "Marksman" style stock.
800FVT; this is a "varmint/target" version in calibre 222 REM with a heavy profile barrel and "Marksman" style stock.
- Ward's Western Field variations include:
- model 767, 768, 780 were the Mossberg model 800A.
- model 782 was the Mossberg model 800B.
- model 775 was the Mossberg model 800AD.
- model 776 was the Mossberg model 800BD.
- models sold under the Western Auto, Revelation brand name were 220A, 220B, 220C, 220AD, 220BD and 220CD.
- models sold under the New Haven brand name were 880A, 880B and 880C.

Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
889 - 1	243 WIN	4	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MOSSBERG" or "O.F. MOSSBERG & SONS INC." is marked on the barrel.

Model

- the model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- the model designation is marked on the left side of the barrel as "MODEL 800B".
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Montgomery Ward's under the Western Field brand name, by Western Auto under the Revelation name and by Mossberg under the New Haven brand name.

Manufacturer

- "MOSSBERG" over "MADE IN U.S.A." and "NORTH HAVEN, CONNECTICUT", "MOSSBERG" over "MADE IN U.S.A." over "NORTH HAVEN, CONN." or "O.F. MOSSBERG & SONS INC." over "NORTH HAVEN, CONN. U.S.A." is marked on the barrel.

Action

- turn-bolt operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Calibre

- calibre is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- internal box magazine with a hinged floorplate.

Other Markings

- Mossberg used a coding system that identified specific features on their models. The codes are as follows:
A = calibre 308 WIN
B = calibre 243 WIN
C = calibre 22-250 REM
D = Deluxe or Super Grade (only one variant was sold without the "D" being prefixed with a calibre code. This variation was produced in 1970 only in calibre 6.5MM REM MAG).
E = calibre 350 REM MAG (1970 only)
F = calibre 222 REM (1974 only)
SM = factory installed 4X (four power) scope.
M = Mannlicher style stock.
V = varmint rifle.
VT = varmint/target rifle
- NOTE: See Remarks field for a complete model listing.

Remarks

- using the Mossberg coding system, model 800 variations break down as follows:
800A; standard model in calibre 308 WIN.
800AD; Deluxe or Super Grade model in calibre 308 WIN.
800AM; calibre 308 WIN with a Mannlicher stock.
800ASM; calibre 308 WIN with a 4X (four power) scope.
800B; standard model in calibre 243 WIN.
800BD; Deluxe or Super Grade model in calibre 243 WIN.
800BM; calibre 243 WIN with a Mannlicher stock.
800BSM; calibre 243 WIN with a 4X (four power) scope.
800C; standard model in calibre 22-250 REM.
800CD; Deluxe or Super Grade model in calibre 22-250 REM.
800CM; calibre 22-250 REM with a Mannlicher stock.
800CSM; calibre 22-250 REM with a 4X (four power) scope.
800D; calibre 6.5MM REM MAG, produced in 1970 only.
800BV; this is a "varmint" version in calibre 243 WIN with a heavy profile barrel.
800CV; this is a "varmint" version in calibre 22-250 REM with a heavy profile barrel.
800E; calibre 350 REM MAG, produced in 1970 only.
800F; calibre 222 REM, produced in 1974 only.
800BVT; this is a "varmint/target" version in calibre 243 WIN with a heavy profile barrel and "Marksman" style stock.
800CVT; this is a "varmint/target" version in calibre 22-250 REM with a heavy profile barrel and "Marksman" style stock.
800FVT; this is a "varmint/target" version in calibre 222 REM with a heavy profile barrel and "Marksman" style stock.
- Ward's Western Field variations include:
- model 767, 768, 780 were the Mossberg model 800A.
- model 782 was the Mossberg model 800B.
- model 775 was the Mossberg model 800AD.
- model 776 was the Mossberg model 800BD.
- models sold under the Western Auto, Revelation brand name were 220A, 220B, 220C, 220AD, 220BD and 220CD.
- models sold under the New Haven brand name were 880A, 880B and 880C.

800B; standard model in calibre 243 WIN.
800BD; Deluxe or Super Grade model in calibre 243 WIN.
800BM; calibre 243 WIN with a Mannlicher stock.
800BSM; calibre 243 WIN with a 4X (four power) scope.
800C; standard model in calibre 22-250 REM.
800CD; Deluxe or Super Grade model in calibre 22-250 REM.
800CM; calibre 22-250 REM with a Mannlicher stock.
800CSM; calibre 22-250 REM with a 4X (four power) scope.
800D; calibre 6.5MM REM MAG, produced in 1970 only.
800BV; this is a "varmint" version in calibre 243 WIN with a heavy profile barrel.
800CV; this is a "varmint" version in calibre 22-250 REM with a heavy profile barrel.
800E; calibre 350 REM MAG, produced in 1970 only.
800F; calibre 222 REM, produced in 1974 only.
800BVT; this is a "varmint/target" version in calibre 243 WIN with a heavy profile barrel and "Marksman" style stock.
800CVT; this is a "varmint/target" version in calibre 22-250 REM with a heavy profile barrel and "Marksman" style stock.
800FVT; this is a "varmint/target" version in calibre 222 REM with a heavy profile barrel and "Marksman" style stock.
- Ward's Western Field variations include:
- model 767, 768, 780 were the Mossberg model 800A.
- model 782 was the Mossberg model 800B.
- model 775 was the Mossberg model 800AD.
- model 776 was the Mossberg model 800BD.
- models sold under the Western Auto, Revelation brand name were 220A, 220B, 220C, 220AD, 220BD and 220CD.
- models sold under the New Haven brand name were 880A, 880B and 880C.

FRT Report

Firearm Reference Number (FRN): 895
Make: Mossberg
Model: 800BSM

Summary

Make:	Mossberg
Model:	800BSM
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
895 - 1	243 WIN	4	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MOSSBERG" or "O.F. MOSSBERG & SONS INC." is marked on the barrel.

Model

- the model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- this is the model "800B" with a factory installed 4X (four power) scope.
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock; no iron sights; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Montgomery Ward's under the Western Field brand name, by Western Auto under the Revelation name and by Mossberg under the New Haven brand name.

Manufacturer

- "MOSSBERG" over "MADE IN U.S.A." and "NORTH HAVEN, CONNECTICUT", "MOSSBERG" over "MADE IN U.S.A." over "NORTH HAVEN, CONN." or "O.F. MOSSBERG & SONS INC." over "NORTH HAVEN, CONN. U.S.A." is marked on the barrel.

Action

- turn-bolt operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- internal box magazine with a hinged floorplate.

Other Markings

- Mossberg used a coding system that identified specific features on their models. The codes are as follows:
A = calibre 308 WIN
B = calibre 243 WIN
C = calibre 22-250 REM
D = Deluxe or Super Grade (only one variant was sold without the "D" being prefixed with a calibre code. This variation was produced in 1970 only in calibre 6.5MM REM MAG).
E = calibre 350 REM MAG (1970 only)
F = calibre 222 REM (1974 only)
SM = factory installed 4X (four power) scope.
M = Mannlicher style stock.
V = varmint rifle.
VT = varmint/target rifle
- NOTE: See Remarks field for a complete model listing.

Remarks

- using the Mossberg coding system, model 800 variations break down as follows:
800A; standard model in calibre 308 WIN.
800AD; Deluxe or Super Grade model in calibre 308 WIN.
800AM; calibre 308 WIN with a Mannlicher stock.
800ASM; calibre 308 WIN with a 4X (four power) scope.
800B; standard model in calibre 243 WIN.
800BD; Deluxe or Super Grade model in calibre 243 WIN.
800BM; calibre 243 WIN with a Mannlicher stock.
800BSM; calibre 243 WIN with a 4X (four power) scope.
800C; standard model in calibre 22-250 REM.
800CD; Deluxe or Super Grade model in calibre 22-250 REM.
800CM; calibre 22-250 REM with a Mannlicher stock.
800CSM; calibre 22-250 REM with a 4X (four power) scope.
800D; calibre 6.5MM REM MAG, produced in 1970 only.
800BV; this is a "varmint" version in calibre 243 WIN with a heavy profile barrel.
800CV; this is a "varmint" version in calibre 22-250 REM with a heavy profile barrel.
800E; calibre 350 REM MAG, produced in 1970 only.
800F; calibre 222 REM, produced in 1974 only.
800BVT; this is a "varmint/target" version in calibre 243 WIN with a heavy profile barrel and "Marksman" style stock.
800CVT; this is a "varmint/target" version in calibre 22-250 REM with a heavy profile barrel and "Marksman" style stock.
800FVT; this is a "varmint/target" version in calibre 222 REM with a heavy profile barrel and "Marksman" style stock.
- Ward's Western Field variations include:
- model 767, 768, 780 were the Mossberg model 800A.
- model 782 was the Mossberg model 800B.
- model 775 was the Mossberg model 800AD.
- model 776 was the Mossberg model 800BD.
- models sold under the Western Auto, Revelation brand name were 220A, 220B, 220C, 220AD, 220BD and 220CD.
- models sold under the New Haven brand name were 880A, 880B and 880C.

800BVT; this is a "varmint/target" version in calibre 243 WIN with a heavy profile barrel and "Marksman" style stock.
800CVT; this is a "varmint/target" version in calibre 22-250 REM with a heavy profile barrel and "Marksman" style stock.
800FVT; this is a "varmint/target" version in calibre 222 REM with a heavy profile barrel and "Marksman" style stock.
- Ward's Western Field variations include:
- model 767, 768, 780 were the Mossberg model 800A.
- model 782 was the Mossberg model 800B.
- model 775 was the Mossberg model 800AD.
- model 776 was the Mossberg model 800BD.
- models sold under the Western Auto, Revelation brand name were 220A, 220B, 220C, 220AD, 220BD and 220CD.
- models sold under the New Haven brand name were 880A, 880B and 880C.

FRT Report

Firearm Reference Number (FRN): 890
Make: Mossberg
Model: 800C

Summary

Make:	Mossberg
Model:	800C
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
890 - 1	22-250 REM	3	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MOSSBERG" or "O.F. MOSSBERG & SONS INC." is marked on the barrel.

Model

- the model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- the model designation is marked on the left side of the barrel as "MODEL 800C".
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Montgomery Ward's under the Western Field brand name, by Western Auto under the Revelation name and by Mossberg under the New Haven brand name.

Manufacturer

- "MOSSBERG" over "MADE IN U.S.A." and "NORTH HAVEN, CONNECTICUT", "MOSSBERG" over "MADE IN U.S.A." over "NORTH HAVEN, CONN." or "O.F. MOSSBERG & SONS INC." over "NORTH HAVEN, CONN. U.S.A." is marked on the barrel.

Action

- turn-bolt operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- internal box magazine with a hinged floorplate.

Other Markings

- Mossberg used a coding system that identified specific features on their models. The codes are as follows:
A = calibre 308 WIN
B = calibre 243 WIN
C = calibre 22-250 REM
D = Deluxe or Super Grade (only one variant was sold without the "D" being prefixed with a calibre code. This variation was produced in 1970 only in calibre 6.5MM REM MAG).
E = calibre 350 REM MAG (1970 only)
F = calibre 222 REM (1974 only)
SM = factory installed 4X (four power) scope.
M = Mannlicher style stock.
V = varmint rifle.
VT = varmint/target rifle
- NOTE: See Remarks field for a complete model listing.

Remarks

- using the Mossberg coding system, model 800 variations break down as follows:
800A; standard model in calibre 308 WIN.
800AD; Deluxe or Super Grade model in calibre 308 WIN.
800AM; calibre 308 WIN with a Mannlicher stock.
800ASM; calibre 308 WIN with a 4X (four power) scope.
800B; standard model in calibre 243 WIN.
800BD; Deluxe or Super Grade model in calibre 243 WIN.
800BM; calibre 243 WIN with a Mannlicher stock.
800BSM; calibre 243 WIN with a 4X (four power) scope.
800C; standard model in calibre 22-250 REM.
800CD; Deluxe or Super Grade model in calibre 22-250 REM.
800CM; calibre 22-250 REM with a Mannlicher stock.
800CSM; calibre 22-250 REM with a 4X (four power) scope.
800D; calibre 6.5MM REM MAG, produced in 1970 only.
800BV; this is a "varmint" version in calibre 243 WIN with a heavy profile barrel.
800CV; this is a "varmint" version in calibre 22-250 REM with a heavy profile barrel.
800E; calibre 350 REM MAG, produced in 1970 only.
800F; calibre 222 REM, produced in 1974 only.
800BVT; this is a "varmint/target" version in calibre 243 WIN with a heavy profile barrel and "Marksman" style stock.
800CVT; this is a "varmint/target" version in calibre 22-250 REM with a heavy profile barrel and "Marksman" style stock.
800FVT; this is a "varmint/target" version in calibre 222 REM with a heavy profile barrel and "Marksman" style stock.
- Ward's Western Field variations include:
- model 767, 768, 780 were the Mossberg model 800A.
- model 782 was the Mossberg model 800B.
- model 775 was the Mossberg model 800AD.
- model 776 was the Mossberg model 800BD.
- models sold under the Western Auto, Revelation brand name were 220A, 220B, 220C, 220AD, 220BD and 220CD.
- models sold under the New Haven brand name were 880A, 880B and 880C.

FRT Report

Firearm Reference Number (FRN): 896
Make: Mossberg
Model: 800CSM

Summary

Make:	Mossberg
Model:	800CSM
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
896 - 1	22-250 REM	3	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MOSSBERG" or "O.F. MOSSBERG & SONS INC." is marked on the barrel.

Model

- the model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- this is the model "800C" with a factory installed 4X (four power) scope.
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock; no iron sights; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Montgomery Ward's under the Western Field brand name, by Western Auto under the Revelation name and by Mossberg under the New Haven brand name.

Manufacturer

- "MOSSBERG" over "MADE IN U.S.A." and "NORTH HAVEN, CONNECTICUT", "MOSSBERG" over "MADE IN U.S.A." over "NORTH HAVEN, CONN." or "O.F. MOSSBERG & SONS INC." over "NORTH HAVEN, CONN. U.S.A." is marked on the barrel.

Action

- turn-bolt operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- internal box magazine with a hinged floorplate.

Other Markings

- Mossberg used a coding system that identified specific features on their models. The codes are as follows:
A = calibre 308 WIN
B = calibre 243 WIN
C = calibre 22-250 REM
D = Deluxe or Super Grade (only one variant was sold without the "D" being prefixed with a calibre code. This variation was produced in 1970 only in calibre 6.5MM REM MAG).
E = calibre 350 REM MAG (1970 only)
F = calibre 222 REM (1974 only)
SM = factory installed 4X (four power) scope.
M = Mannlicher style stock.
V = varmint rifle.
VT = varmint/target rifle
- NOTE: See Remarks field for a complete model listing.

Remarks

- using the Mossberg coding system, model 800 variations break down as follows:
800A; standard model in calibre 308 WIN.
800AD; Deluxe or Super Grade model in calibre 308 WIN.
800AM; calibre 308 WIN with a Mannlicher stock.
800ASM; calibre 308 WIN with a 4X (four power) scope.
800B; standard model in calibre 243 WIN.
800BD; Deluxe or Super Grade model in calibre 243 WIN.
800BM; calibre 243 WIN with a Mannlicher stock.
800BSM; calibre 243 WIN with a 4X (four power) scope.
800C; standard model in calibre 22-250 REM.
800CD; Deluxe or Super Grade model in calibre 22-250 REM.
800CM; calibre 22-250 REM with a Mannlicher stock.
800CSM; calibre 22-250 REM with a 4X (four power) scope.
800D; calibre 6.5MM REM MAG, produced in 1970 only.
800BV; this is a "varmint" version in calibre 243 WIN with a heavy profile barrel.
800CV; this is a "varmint" version in calibre 22-250 REM with a heavy profile barrel.
800E; calibre 350 REM MAG, produced in 1970 only.
800F; calibre 222 REM, produced in 1974 only.
800BVT; this is a "varmint/target" version in calibre 243 WIN with a heavy profile barrel and "Marksman" style stock.
800CVT; this is a "varmint/target" version in calibre 22-250 REM with a heavy profile barrel and "Marksman" style stock.
800FVT; this is a "varmint/target" version in calibre 222 REM with a heavy profile barrel and "Marksman" style stock.
- Ward's Western Field variations include:
- model 767, 768, 780 were the Mossberg model 800A.
- model 782 was the Mossberg model 800B.
- model 775 was the Mossberg model 800AD.
- model 776 was the Mossberg model 800BD.
- models sold under the Western Auto, Revelation brand name were 220A, 220B, 220C, 220AD, 220BD and 220CD.
- models sold under the New Haven brand name were 880A, 880B and 880C.

FRT Report

Firearm Reference Number (FRN): 894
Make: Mossberg
Model: 800D

Summary

Make:	Mossberg
Model:	800D
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
894 - 1	6.5MM REM MAG	4	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MOSSBERG" or "O.F. MOSSBERG & SONS INC." is marked on the barrel.

Model

- the model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- the model designation is marked on the left side of the barrel as "MODEL 800D". The model 800D was produced in 1970 only.
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Montgomery Ward's under the Western Field brand name, by Western Auto under the Revelation name and by Mossberg under the New Haven brand name.

Manufacturer

- "MOSSBERG" over "MADE IN U.S.A." and "NORTH HAVEN, CONNECTICUT", "MOSSBERG" over "MADE IN U.S.A." over "NORTH HAVEN, CONN." or "O.F. MOSSBERG & SONS INC." over "NORTH HAVEN, CONN. U.S.A." is marked on the barrel.

Action

- turn-bolt operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- internal box magazine with a hinged floorplate.

Other Markings

- Mossberg used a coding system that identified specific features on their models. The codes are as follows:
A = calibre 308 WIN
B = calibre 243 WIN
C = calibre 22-250 REM
D = Deluxe or Super Grade (only one variant was sold without the "D" being prefixed with a calibre code. This variation was produced in 1970 only in calibre 6.5MM REM MAG).
E = calibre 350 REM MAG (1970 only)
F = calibre 222 REM (1974 only)
SM = factory installed 4X (four power) scope.
M = Mannlicher style stock.
V = varmint rifle.
VT = varmint/target rifle
- NOTE: See Remarks field for a complete model listing.

Remarks

- using the Mossberg coding system, model 800 variations break down as follows:
800A; standard model in calibre 308 WIN.
800AD; Deluxe or Super Grade model in calibre 308 WIN.
800AM; calibre 308 WIN with a Mannlicher stock.
800ASM; calibre 308 WIN with a 4X (four power) scope.
800B; standard model in calibre 243 WIN.
800BD; Deluxe or Super Grade model in calibre 243 WIN.
800BM; calibre 243 WIN with a Mannlicher stock.
800BSM; calibre 243 WIN with a 4X (four power) scope.
800C; standard model in calibre 22-250 REM.
800CD; Deluxe or Super Grade model in calibre 22-250 REM.
800CM; calibre 22-250 REM with a Mannlicher stock.
800CSM; calibre 22-250 REM with a 4X (four power) scope.
800D; calibre 6.5MM REM MAG, produced in 1970 only.
800BV; this is a "varmint" version in calibre 243 WIN with a heavy profile barrel.
800CV; this is a "varmint" version in calibre 22-250 REM with a heavy profile barrel.
800E; calibre 350 REM MAG, produced in 1970 only.
800F; calibre 222 REM, produced in 1974 only.
800BVT; this is a "varmint/target" version in calibre 243 WIN with a heavy profile barrel and "Marksman" style stock.
800CVT; this is a "varmint/target" version in calibre 22-250 REM with a heavy profile barrel and "Marksman" style stock.
800FVT; this is a "varmint/target" version in calibre 222 REM with a heavy profile barrel and "Marksman" style stock.
- Ward's Western Field variations include:
- model 767, 768, 780 were the Mossberg model 800A.
- model 782 was the Mossberg model 800B.
- model 775 was the Mossberg model 800AD.
- model 776 was the Mossberg model 800BD.
- models sold under the Western Auto, Revelation brand name were 220A, 220B, 220C, 220AD, 220BD and 220CD.
- models sold under the New Haven brand name were 880A, 880B and 880C.

FRT Report

Firearm Reference Number (FRN): 905
Make: Mossberg
Model: 800FVT

Summary

Make:	Mossberg
Model:	800FVT
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
905 - 1	222 REM	3	610	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "MOSSBERG" or "O.F. MOSSBERG & SONS INC." is marked on the barrel.

Model

- the model 800 series was introduced in 1966, it remained in production until 1979. The model 800 was the result of Montgomery Ward's interest in offering a moderately priced bolt action, centre-fire rifle to complete their line of Mossberg made sporting arms. The model 800 was designed for traditional "short" action length cartridges (308 WIN and shorter). Mossberg offered the model 800 in several different calibre, barrel profile, and stock choices, with or without a factory mounted 4X (four power) scope. Each variation was given its own model designation.
- in 1970/71 Mossberg introduced the model 810 series which was designed to handle longer, 30-06 SPRG size cartridges.
- this is a "varmint/target" rifle based on the model 800F, produced in 1974 only.
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece American walnut stock with a roll-over cheekpiece and rosewood forend tip and grip cap; heavy profile barrel; safety is mounted on the top of the bolt; the bolt has six locking lugs (the model 810 series bolt had four).
- certain versions of the model 800 series were also sold by Montgomery Ward's under the Western Field brand name, by Western Auto under the Revelation name and by Mossberg under the New Haven brand name.

Manufacturer

- "MOSSBERG" over "MADE IN U.S.A." and "NORTH HAVEN, CONNECTICUT", "MOSSBERG" over "MADE IN U.S.A." over "NORTH HAVEN, CONN." or "O.F. MOSSBERG & SONS INC." over "NORTH HAVEN, CONN. U.S.A." is marked on the barrel.

Action

- turn-bolt operated.

Serial Number

- the serial number is marked on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- internal box magazine with a hinged floorplate.

Other Markings

- Mossberg used a coding system that identified specific features on their models. The codes are as follows:
A = calibre 308 WIN
B = calibre 243 WIN
C = calibre 22-250 REM
D = Deluxe or Super Grade (only one variant was sold without the "D" being prefixed with a calibre code. This variation was produced in 1970 only in calibre 6.5MM REM MAG).
E = calibre 350 REM MAG (1970 only)
F = calibre 222 REM (1974 only)
SM = factory installed 4X (four power) scope.
M = Mannlicher style stock.
V = varmint rifle.
VT = varmint/target rifle
- NOTE: See Remarks field for a complete model listing.

Remarks

- using the Mossberg coding system, model 800 variations break down as follows:
800A; standard model in calibre 308 WIN.
800AD; Deluxe or Super Grade model in calibre 308 WIN.
800AM; calibre 308 WIN with a Mannlicher stock.
800ASM; calibre 308 WIN with a 4X (four power) scope.
800B; standard model in calibre 243 WIN.
800BD; Deluxe or Super Grade model in calibre 243 WIN.
800BM; calibre 243 WIN with a Mannlicher stock.
800BSM; calibre 243 WIN with a 4X (four power) scope.
800C; standard model in calibre 22-250 REM.
800CD; Deluxe or Super Grade model in calibre 22-250 REM.
800CM; calibre 22-250 REM with a Mannlicher stock.
800CSM; calibre 22-250 REM with a 4X (four power) scope.
800D; calibre 6.5MM REM MAG, produced in 1970 only.
800BV; this is a "varmint" version in calibre 243 WIN with a heavy profile barrel.
800CV; this is a "varmint" version in calibre 22-250 REM with a heavy profile barrel.
800E; calibre 350 REM MAG, produced in 1970 only.
800F; calibre 222 REM, produced in 1974 only.
800BVT; this is a "varmint/target" version in calibre 243 WIN with a heavy profile barrel and "Marksman" style stock.
800CVT; this is a "varmint/target" version in calibre 22-250 REM with a heavy profile barrel and "Marksman" style stock.
800FVT; this is a "varmint/target" version in calibre 222 REM with a heavy profile barrel and "Marksman" style stock.
- Ward's Western Field variations include:
- model 767, 768, 780 were the Mossberg model 800A.
- model 782 was the Mossberg model 800B.
- model 775 was the Mossberg model 800AD.
- model 776 was the Mossberg model 800BD.
- models sold under the Western Auto, Revelation brand name were 220A, 220B, 220C, 220AD, 220BD and 220CD.
- models sold under the New Haven brand name were 880A, 880B and 880C.

Notes

Make

- "MOSSBERG" and/or "O.F. MOSSBERG & SONS INC." is marked on the barrel.

Model

- manufactured between 1970/1 and 1978/9 as part of the Mossberg line of model 810, bolt action, center-fire rifles. Mossberg was already producing the model 800 series which was offered in traditional "short" action length cartridges (308 WIN and shorter). The model 810 series was designed to handle longer, 30-06 SPRG size cartridges. The 810 series was offered with a detachable box magazine or hinged floorplate, a factory mounted scope and in several calibre choices. Each variation was given its own model designation.
- features include: right hand action; blued finish on metalwork; Monte Carlo style, one-piece walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has four in-line locking lugs (the model 800 series bolt had six).
- certain versions of the model 810 series were also sold by Montgomery Ward's under the Western Field brand name and by Western Auto under the Revelation name.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer

- "MOSSBERG" over "MADE IN U.S.A." and "NORTH HAVEN, CONNECTICUT" and/or "MOSSBERG" over "MADE IN U.S.A." over "NORTH HAVEN, CONN." and/or "O.F. MOSSBERG & SONS INC." over "NORTH HAVEN, CONN. U.S.A." is marked on the barrel.

Serial Number

- the serial number is usually marked on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Shots

- detachable box magazine or integral box magazine with a hinged floor plate.

Remarks

- Mossberg model 810 variations break down as follows;
- model 810A; calibre 30-06 SPRG with a detachable box magazine.
- model 810ASM; calibre 30-06 SPRG with a detachable box magazine and 4X (four power) scope.
- model 810AH; calibre 30-06 SPRG with an internal magazine and hinged floorplate.
- model 810ASMH; calibre 30-06 SPRG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810B; calibre 7MM REM MAG with a detachable box magazine.
- model 810BSM; calibre 7MM REM MAG with a detachable box magazine and 4X (four power) scope.
- model 810BH; calibre 7MM REM MAG with an internal magazine and hinged floorplate.
- model 810BSMH; calibre 7MM REM MAG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810C; calibre 270 WIN with a detachable box magazine.
- model 810CSM; calibre 270 WIN with a detachable box magazine and 4X (four power) scope.
- model 810CH; calibre 270 WIN with an internal magazine and hinged floorplate.
- model 810CSMH; calibre 270 WIN with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810D; calibre 338 WIN MAG with a detachable box magazine.
- model 810DSM; calibre 338 WIN MAG with a detachable box magazine and 4X (four power) scope.
- model 810DH; calibre 338 WIN MAG with an internal magazine and hinged floorplate.
- model 810DSMH; calibre 338 WIN MAG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- Ward's Western Field variations include;
- model 765 was the Mossberg model 810A.
- model 766 was the Mossberg model 810B.
- model 730 and 732 were the Mossberg model 810AH.
- model 734 was the Mossberg model 810BH.
- the Western Auto, Revelation model 210A was the Mossberg model 810AH.

FRT Report

Firearm Reference Number (FRN): 908
Make: Mossberg
Model: 810A

Summary

Make:	Mossberg
Model:	810A
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
908 - 1	30-06 SPRG	4	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make	- "Mossberg" is marked on the barrel.
Model	- manufactured from 1970/1 to 1978/9 as part of the Mossberg line of model 810, bolt action, center-fire rifles. Mossberg was already producing the model 800 series which was offered in traditional "short" action length cartridges (308 WIN and shorter). The model 810 series was designed to handle longer, 30-06 SPRG size cartridges. The 810 series was offered with a detachable box magazine or hinged floorplate, a factory mounted scope and in several calibre choices. Each variation was given its own model designation. - the model designation is marked on the left side of the barrel as "MODEL 810A". - features include: right hand action; detachable box magazine; blued finish on metalwork; Monte Carlo style, one-piece walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has four in-line locking lugs (the model 800 series bolt had six). - certain versions of the model 810 series were also sold by Montgomery Ward's under the Western Field brand name and by Western Auto under the Revelation name.
Manufacturer	- "Mossberg" is marked on the barrel.
Action	- turn-bolt operated.
Serial Number	- known examples have had a six or seven digit number without prefix or suffix marked on the receiver ring.
Calibre	- calibre designation is marked on the barrel.
Shots	- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Mossberg model 810 variations break down as follows;
- model 810A; calibre 30-06 SPRG with a detachable box magazine.
- model 810ASM; calibre 30-06 SPRG with a detachable box magazine and 4X (four power) scope.
- model 810AH; calibre 30-06 SPRG with an internal magazine and hinged floorplate.
- model 810ASMH; calibre 30-06 SPRG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810B; calibre 7MM REM MAG with a detachable box magazine.
- model 810BSM; calibre 7MM REM MAG with a detachable box magazine and 4X (four power) scope.
- model 810BH; calibre 7MM REM MAG with an internal magazine and hinged floorplate.
- model 810BSMH; calibre 7MM REM MAG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810C; calibre 270 WIN with a detachable box magazine.
- model 810CSM; calibre 270 WIN with a detachable box magazine and 4X (four power) scope.
- model 810CH; calibre 270 WIN with an internal magazine and hinged floorplate.
- model 810CSMH; calibre 270 WIN with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810D; calibre 338 WIN MAG with a detachable box magazine.
- model 810DSM; calibre 338 WIN MAG with a detachable box magazine and 4X (four power) scope.
- model 810DH; calibre 338 WIN MAG with an internal magazine and hinged floorplate.
- model 810DSMH; calibre 338 WIN MAG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- Ward's Western Field variations include;
- model 765 was the Mossberg model 810A.
- model 766 was the Mossberg model 810B.
- model 730 and 732 were the Mossberg model 810AH.
- model 734 was the Mossberg model 810BH.
- the Western Auto, Revelation model 210A was the Mossberg model 810AH.

FRT Report

Firearm Reference Number (FRN): 913
Make: Mossberg
Model: 810B

Summary

Make:	Mossberg
Model:	810B
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
913 - 1	7MM REM MAG	4	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Mossberg name is marked on the barrel.

Model

- manufactured between 1970/1 and 1978/9 as part of the Mossberg line of model 810, bolt action, center-fire rifles. Mossberg was already producing the model 800 series which was offered in traditional "short" action length cartridges (308 WIN and shorter). The model 810 series was designed to handle longer, 30-06 SPRG size cartridges. The 810 series was offered with a detachable box magazine or hinged floorplate, a factory mounted scope and in several calibre choices. Each variation was given its own model designation.
- the model designation is marked on the left side of the barrel as "MODEL 810B".
- features include: right hand action; detachable box magazine; blued finish on metalwork; Monte Carlo style, one-piece walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has four in-line locking lugs (the model 800 series bolt had six).
- certain versions of the model 810 series were also sold by Montgomery Ward's under the Western Field brand name and by Western Auto under the Revelation name.

Action

- tur-bolt operated.

Serial Number

- the serial number is marked as sequential numbers on the left side of the receiver/frame.

Calibre

- the calibre designation is marked on the barrel.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Mossberg model 810 variations break down as follows;
- model 810A; calibre 30-06 SPRG with a detachable box magazine.
- model 810ASM; calibre 30-06 SPRG with a detachable box magazine and 4X (four power) scope.
- model 810AH; calibre 30-06 SPRG with an internal magazine and hinged floorplate.
- model 810ASMH; calibre 30-06 SPRG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810B; calibre 7MM REM MAG with a detachable box magazine.
- model 810BSM; calibre 7MM REM MAG with a detachable box magazine and 4X (four power) scope.
- model 810BH; calibre 7MM REM MAG with an internal magazine and hinged floorplate.
- model 810BSMH; calibre 7MM REM MAG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810C; calibre 270 WIN with a detachable box magazine.
- model 810CSM; calibre 270 WIN with a detachable box magazine and 4X (four power) scope.
- model 810CH; calibre 270 WIN with an internal magazine and hinged floorplate.
- model 810CSMH; calibre 270 WIN with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810D; calibre 338 WIN MAG with a detachable box magazine.
- model 810DSM; calibre 338 WIN MAG with a detachable box magazine and 4X (four power) scope.
- model 810DH; calibre 338 WIN MAG with an internal magazine and hinged floorplate.
- model 810DSMH; calibre 338 WIN MAG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- Ward's Western Field variations include;
- model 765 was the Mossberg model 810A.
- model 766 was the Mossberg model 810B.
- model 730 and 732 were the Mossberg model 810AH.
- model 734 was the Mossberg model 810BH.
- the Western Auto, Revelation model 210A was the Mossberg model 810AH.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
916 - 1	270 WIN	4	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Mossberg name is marked on the barrel.

Model

- manufactured between 1970/1 and 1978/9 as part of the Mossberg line of model 810, bolt action, center-fire rifles. Mossberg was already producing the model 800 series which was offered in traditional "short" action length cartridges (308 WIN and shorter). The model 810 series was designed to handle longer, 30-06 SPRG size cartridges. The 810 series was offered with a detachable box magazine or hinged floorplate, a factory mounted scope and in several calibre choices. Each variation was given its own model designation.
- the model designation is marked on the left side of the barrel as "MODEL 810C".
- features include: right hand action; detachable box magazine; blued finish on metalwork; Monte Carlo style, one-piece walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has four in-line locking lugs (the model 800 series bolt had six).
- certain versions of the model 810 series were also sold by Montgomery Ward's under the Western Field brand name and by Western Auto under the Revelation name.

Action

- turn-bolt operated.

Serial Number

- known example had a seven digit number without prefix or suffix marked on the receiver ring.

Calibre

- the calibre designation is marked on the barrel.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Mossberg model 810 variations break down as follows;
- model 810A; calibre 30-06 SPRG with a detachable box magazine.
- model 810ASM; calibre 30-06 SPRG with a detachable box magazine and 4X (four power) scope.
- model 810AH; calibre 30-06 SPRG with an internal magazine and hinged floorplate.
- model 810ASMH; calibre 30-06 SPRG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810B; calibre 7MM REM MAG with a detachable box magazine.
- model 810BSM; calibre 7MM REM MAG with a detachable box magazine and 4X (four power) scope.
- model 810BH; calibre 7MM REM MAG with an internal magazine and hinged floorplate.
- model 810BSMH; calibre 7MM REM MAG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810C; calibre 270 WIN with a detachable box magazine.
- model 810CSM; calibre 270 WIN with a detachable box magazine and 4X (four power) scope.
- model 810CH; calibre 270 WIN with an internal magazine and hinged floorplate.
- model 810CSMH; calibre 270 WIN with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810D; calibre 338 WIN MAG with a detachable box magazine.
- model 810DSM; calibre 338 WIN MAG with a detachable box magazine and 4X (four power) scope.
- model 810DH; calibre 338 WIN MAG with an internal magazine and hinged floorplate.
- model 810DSMH; calibre 338 WIN MAG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- Ward's Western Field variations include;
- model 765 was the Mossberg model 810A.
- model 766 was the Mossberg model 810B.
- model 730 and 732 were the Mossberg model 810AH.
- model 734 was the Mossberg model 810BH.
- the Western Auto, Revelation model 210A was the Mossberg model 810AH.

FRT Report

Firearm Reference Number (FRN): 921
Make: Mossberg
Model: 810DH

Summary

Make:	Mossberg
Model:	810DH
Manufacturer:	Mossberg
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Bolt Action
Country of Manufacturer:	UNITED STATES OF AMERICA
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
921 - 1	338 WIN MAG	4	559	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the Mossberg name is marked on the barrel.

Model

- manufactured between 1970/1 and 1978/9 as part of the Mossberg line of model 810, bolt action, center-fire rifles. Mossberg was already producing the model 800 series which was offered in traditional "short" action length cartridges (308 WIN and shorter). The model 810 series was designed to handle longer, 30-06 SPRG size cartridges. The 810 series was offered with a detachable box magazine or hinged floorplate, a factory mounted scope and in several calibre choices. Each variation was given its own model designation.
- the model designation is marked on the barrel as "MODEL 810DH".
- features include: right hand action; integral magazine with a hinged floorplate; blued finish on metalwork; Monte Carlo style, one-piece walnut stock; barrel mounted folding rear sight and ramp front sight; safety is mounted on the top of the bolt; the bolt has four in-line locking lugs (the model 800 series bolt had six).
- certain versions of the model 810 series were also sold by Montgomery Ward's under the Western Field brand name and by Western Auto under the Revelation name.

Action

- turn-bolt operated.

Serial Number

- known example had a seven digit number without prefix or suffix marked on the receiver ring.

Calibre

- the calibre designation is marked on the barrel.
- model 810's were produced in calibre 338 WIN MAG for two years only with a total of less than 500 being made (all variations).

Shots

- integral magazine with a hinged floorplate.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Mossberg model 810 variations break down as follows;
- model 810A; calibre 30-06 SPRG with a detachable box magazine.
- model 810ASM; calibre 30-06 SPRG with a detachable box magazine and 4X (four power) scope.
- model 810AH; calibre 30-06 SPRG with an internal magazine and hinged floorplate.
- model 810ASMH; calibre 30-06 SPRG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810B; calibre 7MM REM MAG with a detachable box magazine.
- model 810BSM; calibre 7MM REM MAG with a detachable box magazine and 4X (four power) scope.
- model 810BH; calibre 7MM REM MAG with an internal magazine and hinged floorplate.
- model 810BSMH; calibre 7MM REM MAG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810C; calibre 270 WIN with a detachable box magazine.
- model 810CSM; calibre 270 WIN with a detachable box magazine and 4X (four power) scope.
- model 810CH; calibre 270 WIN with an internal magazine and hinged floorplate.
- model 810CSMH; calibre 270 WIN with an internal magazine, hinged floorplate and a 4X (four power) scope.
- model 810D; calibre 338 WIN MAG with a detachable box magazine.
- model 810DSM; calibre 338 WIN MAG with a detachable box magazine and 4X (four power) scope.
- model 810DH; calibre 338 WIN MAG with an internal magazine and hinged floorplate.
- model 810DSMH; calibre 338 WIN MAG with an internal magazine, hinged floorplate and a 4X (four power) scope.
- Ward's Western Field variations include;
- model 765 was the Mossberg model 810A.
- model 766 was the Mossberg model 810B.
- model 730 and 732 were the Mossberg model 810AH.
- model 734 was the Mossberg model 810BH.
- the Western Auto, Revelation model 210A was the Mossberg model 810AH.

Notes

Make

- "MOSSBERG", "MOSSBERG INTL", "MOSSBERG INTERNATIONAL", "O.F. MOSSBERG", or "O.F. MOSSBERG & SONS" is usually marked on the barrel.

Model

- model designation is marked on the firearm.
- introduced in 2007.
- features include: round tapered free floating barrel; aluminum alloy receiver/frame; black synthetic stock; crossbolt safety; no iron sights; receiver/frame has a factory mounted Weaver type scope base; blued or brushed chrome finish.
- overall length is 1016mm (40"), average weight is 2.04kg (4.5lbs).
- available in 2013 with synthetic sport grip stock and chrome barrel.

Manufacturer

- "CBC", "Made in Brazil", "Made in Brazil by CBC", "Made in Brazil" and "By Companhia Brasileira de Cartuchos" or "Made in Brazil", "By Companhia Brasileira de Cartuchos" and "S.Andre-Est. S.Paulo" may be marked on the receiver/frame or barrel.
- "CBC" is the acronym for Companhia Brasileira de Cartuchos.
- Companhia Brasileira de Cartuchos (CBC) is a Brazilian company that primarily produces ammunition but they also manufacture airguns, handguns, shotguns and rifles under their own name and contracted "house brand" firearms.

Action

- turn-bolt design.

Serial Number

- serial-numbered on the receiver/frame.

Calibre

- rifling characteristics: 1 turn in 9 inches, right hand twist.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Make	- "Mossberg" is marked on the firearm.
Model	- "835" is marked on the underside of the receiver/frame. - "835 Ulti-Mag" was developed by Mossberg in conjunction with the Federal Ammunition Company in 1988 to utilize the new 12 GA X 3 1/2" cartridge in a pump action firearm for general use and specifically for longer range waterfowl hunting. - this is a generic entry and other 835 Multi-Mag variations may better describe the firearm being observed. - features include: camouflage, synthetic or checkered walnut pistol grip stock with a rubber recoil pad; thumb operated safety located on the top rear of the receiver/frame; tubular feed magazine mounted under the barrel; the bolt locks to the barrel; removable choke tubes; ventilated rib on the barrel. - overall length with a 711mm (28") barrel is 1238mm (48 3/4") average weight is 3.24kgs (7 3/4lbs). - a recoil reduction system featuring an exclusive stock design incorporating Mathews Harmonic Damper Technology housed on the stock with interchangeable standard or raised comb was introduced in 2013.
Manufacturer	- "Mossberg" is marked on the underside of the receiver/frame.
Serial Number	- serial number is marked on the left side of the receiver/frame. - serial number observed consisted of a letter prefix and six numbers. - serial number observed consists of a two letter "UM" prefix and six numbers.
Barrel	- chamber length, gauge, choke, and barrel length stamped on left rear of barrel. - rifle sighted, rifled barrels are available.
Calibre	- chamber, gauge, choke and barrel length stamped on left rear of barrel.
Shots	- tubular magazine is mounted under the barrel. - firearm capacity listed in manufacturer's literature include one cartridge in the chamber. - magazine capacity with 12 GA X 3 1/2" shells is four (4) cartridges, and with 12GA X 2 3/4" or 3" shells is five (5) cartridges.

Notes

Make

- "MOSSBERG" is marked on the firearm.

Model

- introduced in 1991.
- model designation marked on the forward underside of the receiver/frame as: "835", and on the left side of the barrel.
- usually not marked as "Ulti-Mag Camo", but distinguished by various camouflage finishes over the entire outer surface; example of names of finishes: Woodlands, Realtree, X-tra Brown, Mossy Oak, Shadow Grass, etc.
- features include: vent-rib ported barrel; fixed or interchangeable chokes; smooth-bore barrel or rifled barrel; plain sights or fibre-optic shotgun or fibre-optic rifle sights, or supplied with integral scope mounts; ambidextrous sliding safety on top rear of the receiver/frame; synthetic stock with or without a dual comb feature; various over-all camouflage finishes on parkerized metal surface.
- the 835 Ulti-Mag was developed in 1988 to handle the longer 12 GA X 3 1/2" steel shot cartridge.

Manufacturer

- "MOSSBERG" is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- examples observed have consisted of a one or two alpha prefix and six digits. - serial number is located at the left rear of the receiver/frame.
Calibre	- calibre designation is marked on the left side of the firearm.
Shots	- magazine capacity is: four - 12 GA X 3 1/2" cartridges, five - 12GA X 2 3/4" or 3" cartridges. - NOTE - capacities listed in manufacturer's literature include one cartridge in the chamber.

Model

- 835 is usually marked on the underside of the receiver/frame.
- the 835 Ulti-Mag was developed by Mossberg in conjunction with the Federal Ammunition Company in 1988 to utilize the new 12 GA X 3 1/2" cartridge in a pump action firearm for general use and specifically for longer range waterfowl hunting.
- features include: ventilated rib on a ported, overbored, barrel; adjustable, fibre optic front and rear sights; synthetic stock in various camouflage finishes.
- available in 2006 in a "Tactical Turkey" version with a full pistol grip stock that includes a five round cartridge storage compartment and a "Thumbhole Turkey" version that features an ergonomic designed, thumbhole, stock.
- introduced in 2013 with a recoil reduction system featuring an exclusive stock design incorporating Mathews Harmonic Damper Technology housed on the stock with interchangeable standard or raised comb.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number observed consisted of a letter prefix and six numbers.
- serial number observed consists of a two letter "UM" prefix and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- tubular magazine is mounted under the barrel.
- firearm capacity listed in manufacturer's literature include one cartridge in the chamber.
- magazine capacity with 12 GA X 3 1/2" shells is four (4) cartridges, and with 12GA X 2 3/4" or 3" shells is five (5) cartridges.

Notes

Make	- "O.F. MOSSBERG & SONS." and "NEW HAVEN CONN. U.S.A." is marked on the barrel.
Model	- introduced circa 1928, produced until 1932. - the model designation was not marked on early production guns, later production had "Model B" marked on the barrel. - originally produced for Taylor Fur company who marketed this model as the "Trappers' Model". The model B was also sold by Montgomery Wards as the "Premier". - produced in two versions; the first variation (1928 - 1930) used a two-piece bolt that had the body held together by a screw and was fitted with a small bolt handle. The second variation (1930 - 1932) used a one-piece bolt having a 30% larger bolt handle. - a deluxe version was available as the model "B-1", this is the same as the model B with the addition of sling swivels and a half inch carrying strap.
Manufacturer	- "O.F. MOSSBERG & SONS." and "NEW HAVEN CONN. U.S.A." is marked on the barrel.
Action	- turn-bolt design.
Serial Number	- the model "B" was not marked with a serial number.
Calibre	- calibre is marked on the barrel just forward of the receiver/frame as "22 SHORT LONG AND LONG RIFLE" or "22 S,L & LR.".

Make	- "O.F. MOSSBERG & SONS" over "MODEL M NEW HAVEN, CONN. U.S.A." is marked on the barrel.
Model	- manufactured from 1929 to 1932. - O.F. MOSSBERG & SONS-MODEL L NEW HAVEN, CONN. U.S.A. -22 Cal S. L.& L.R is marked on top of the barrel. - features may include: round rifled barrel with blade and adjustable rear sight; wood forearm; blued receiver/frame with external spur hammer; trigger guard with closed loop lever; takedown lever on left front side of receiver/frame; wood stock; metal buttplate.
Manufacturer	- "O.F. MOSSBERG & SONS" over "MODEL M NEW HAVEN, CONN. U.S.A." is marked on the barrel.
Action	- Modified Peabody-Martini falling block action.
Serial Number	- serial number is on the front of the receiver/frame, under the forearm.
Calibre	- Marked on left side of barrel just forward of the receiver.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Model L has a modified Peabody-Martini falling block action with an external hammer which slips into the safety notch of the trigger when the lever is thrown to load the rifle. The model L has a two speed ejection system and quick take-down system employing a one-inch take-down lever, allowing the barrel to simply to be pulled away. When the barrel is reinserted into the receiver, it locks itself by means of a self tightening locking cam. An ivory bead front sight and a open sporting rear sight that is adjustable for elevation only. A model L-1 was the same as the model L with the addition of a Lyman 2-A rear tang sight, hooded 17-A front sight with removable inserts, sling and swivels.

Notes

Make

- firearm may be marked "O.F. MOSSBERG & SONS INC NEW HAVEN, CONN, U.S.A." on the top of the barrel.

Model

- manufactured in 1937.
- this firearm is based on the Mossberg model "42" with an updated, left handed action.
- firearm is marked "O.F. MOSSBERG & SONS NEW HAVEN, CONN, U.S.A. MODEL L42A" on the top of the barrel.
- features may include: round, tapered rifled barrel with hooded ramp front sight and adjustable rear sight; tubular receiver/frame with adjustable rear peep sight; self-cocking chrome-plated bolt and trigger; left hand bent bolt lever with round bolt knob; walnut finished pistol grip stock; steel butt plate; 1 1/4 inch sling swivels.
- overall length with a 610mm (24") barrel is 1067mm (42"), average weight is 2.27 kgs (5lbs).

Manufacturer

- firearm may be marked "O.F. MOSSBERG & SONS INC NEW HAVEN, CONN, U.S.A." on the top of the barrel.

Action

- turn bolt operated.

Serial Number

- this firearm model was not given a serial number by the manufacturer.

Calibre

- calibre may be marked as "22 S-L-LR" on the top of the barrel just forward of the receiver/frame.

Remarks

- Sights, stock and action are converted for the left-handed shooter. Walnut finished pistol grip stock with steel butt plate. Clip magazine with an adapter screw which when in place allows the firing of 22 shorts, when remover you could fire longs and long rifle. Counter sunk chrome-plated bolt and trigger, with safety firing pin and rebounding striker. The new master action has a smaller bolt assembly and thumb safety at rear of the receiver which lock the trigger. No 1A ramp front sight, No 2A sporting rear and No 3 adjustable peep rear. Comes fitted with detachable 1 1/4 inch sling swivels.

Notes

Make

- "MOSSBERG" is marked on the barrel.

Model

- introduced in 2011.
- "MOSSBERG" over "MPV SERIES" and "NORTH HAVEN, CT, U.S.A." is marked on the barrel.
- "MVP" stands for "Mossberg Varmint Predator".
- features include: fibre optic front sight and an adjustable rear sight or no iron sights; fluted or non-fluted round, button rifled medium bull or sporter barrel with or without a threaded muzzle for a muzzle brake; tubular receiver/frame is drilled and tapped for factory installed Weaver style scope bases or a Picatinny rail; fluted bolt body; manual safety is located on the right rear side of the receiver/frame; Lightning Bolt Action (BA) adjustable trigger; one piece synthetic or laminated wood pistol grip stock with pillar bedding and sling swivel studs; matte blue finish.
- available with factory installed scope and bipod.
- available with the FLEX system stock with the Tool-less Locking System (TLS).
- overall length with a 413 mm (16 1/4") barrel is 895 mm (35 1/4").
- overall length with a 610 mm (24") barrel is 1092 mm (43").
- average weight is from 3.06 kgs (6.75 lbs) to 4.65 kgs (10.25 lbs).

Manufacturer

- "MOSSBERG" and "NORTH HAVEN, CT, U.S.A." is marked on the barrel.

Action

- turn bolt design.

Serial Number

- The serial number is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre is marked on the barrel.
- rifling characteristics in calibre 5.56MM NATO: 1 turn in 9 inches.
- rifling characteristics in calibre 7.62MM NATO: 1 turn in 10 inches.
- rifling characteristics in calibre 204 RUGER: 1 turn in 12 inches.
- rifling characteristics in calibre 300 AAC BLACKOUT: 1 turn in 7 inches.

Shots

- Mossberg Model MVP series of rifles are designed to use Standard factory AR15 and M1A or SR-25 magazines depending on calibre.
- Mossberg Model MVP series of rifles are available with a ten (10) shot AR15 or M1A/SR-25 style magazine.

Canadian Law Comments

- Mossberg Model MVP series of rifles are designed to use standard factory AR15 and M1A or SR-25 magazines depending on calibre.
- AR15 style of detachable box magazine is interchangeable between the Mossberg models MVP bolt action rifle and the MMR Hunter and MMR Tactical semi-automatic rifle.
- Because semi-automatics are limited to a five (5) shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (a) (ii) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity to five (5) shots, despite the model MVP being designed as a bolt action.

Notes

Make

- "MOSSBERG" is marked on the firearm.

Model

- "MVP LR Tactical" may or may not be marked on the firearm.
- "MVP LR" stands for "Mossberg Varmint Predator Long Range Tactical".
- this is a target/competition/tactical rifle manufactured by Mossberg in a pistol-grip stock with an adjustable comb.
- features include: matte blued finish; threaded-on muzzle brake; fluted barrel; a synthetic pistol-grip stock with adjustable cheekpiece; Picatinny rail for mounting optics; sliding manual safety at the right rear of the receiver; LBA adjustable trigger with integral blade safety on the trigger face; and sling swivel studs.
- also available in a longer (508mm/20") version (the "MVP LR") without adjustable open sights.

Manufacturer

- "MOSSBERG" is marked on the firearm.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- Mossberg Model MVP series of rifles are designed to use Standard factory AR15 and M1A or SR-25 magazines depending on calibre.
- Mossberg Model MVP series of rifles are available with a ten (10) shot AR15 or M1A/SR-25 style magazine.

Canadian Law Comments

- Mossberg Model MVP series of rifles are designed to use standard factory AR15 and M1A or SR-25 magazines depending on calibre.
- Because semi-automatics are limited to a five (5) shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. (1) (a) (ii) "The Former Cartridge Magazine Control Regulations", this limits the magazine capacity to five (5) shots, despite the model MVP being designed as a bolt action.

Notes

Make

- "MOSSBERG" is marked on the firearm.

Model

- "MVP Scout" may be marked on the firearm.
- "MVP Scout" stands for "Mossberg Varmint Predator Scout".
- this is a target/competition/tactical rifle manufactured by Mossberg in a synthetic pistol-grip stock with an extended Picatinny rail on top of the receiver/frame, and short accessory rails on the sides of the forearm. This rifle is based on Jeff Cooper's "Scout Rifle" concept, which is a lightweight large-calibre carbine with an extended eye-relief sight to allow for fast sight acquisition at short to medium ranges.
- features include: threaded-on muzzle brake; round bull barrel; a synthetic pistol-grip stock with ventilated buttpad; extended Picatinny rail for mounting optics; sliding manual safety at the right rear of the receiver/frame; adjustable trigger with integral blade safety on the trigger face; sling swivel studs: matte blued finish.

Manufacturer

- "MOSSBERG" is marked on the firearm.

Action

- turn bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- detachable box magazine.
- Mossberg Model MVP series of rifles are designed to use standard factory AR15 and M1A or SR-25 magazines depending on calibre.
- Mossberg Model MVP series of rifles are available with a ten (10) shot AR15 or M1A/SR-25 style magazine.

Canadian Law Comments

- Mossberg Model MVP series of rifles are designed to use standard factory AR15 and M1A or SR-25 magazines depending on calibre.
- Because semi-automatics are limited to a five (5) shot magazine capacity in accordance with the CC PART III, S. 84, Regulations PART 4 Para 3. Notes

Model

- introduced in 2000, this is a single-shot break open shot gun that is also available with rifle barrels as an accessory or as a single-shot rifle.
- the action is opened with a lever that wraps around the front of the trigger-guard; this allows the barrel to drop down so a shooter can load/unload.
- the rifle barrels are offered with any one of a number of interchangeable barrels, so that a shooter can switch from a "varmint" class calibre to a larger calibre simply by switching barrels.
- features include: checkered walnut pistol grip Monte Carlo stock with recoil pad, schnabel-tipped forearm, blued receiver/frame and barrels, tang safety and selectable extractor/ejector.

Manufacturer

- Mossberg is a manufacturer based in North Haven, Connecticut.

Action

- break action.

Serial Number

- numbered on receiver/frame.

Notes

Make

- " MOTIUK MFG" over "CANADA" is marked on the side of the receiver/frame above the trigger.

Model

-introduced in 2016.
-MG-1919-S was observed marked on the left side of the magazine housing of the receiver/frame.
-MG-1919-S is of the design commonly known as the M1919 machine gun family of firearms.
-features include: muzzle bearing with an internal design to assist recoil that may be extended as a cone shaped flash hider; round, perforated barrel jacket; rectangular shaped receiver /frame incorporating a riveted steel plates construction; folding front sight at the front of the receiver/frame with a bracket protected folding rear sight; feeding cover opening latch under the rear sight; cast, recoil buffer and pistol grip assembly; curve shaped trigger protruding from the back of the receiver /frame; cocking handle normally on the right side; military phosphate finish.

Manufacturer

- " MOTIUK MFG" over "CANADA" is marked on the side of the receiver/frame above the trigger.
- Motiuk Manufacturing Corporation is located in Alberta, Canada.

Serial Number

- serial number is marked on the side of the receiver/frame above the trigger.

Shots

- this firearm is a pre-1945 design which utilizes cloth belts or metal disintegrating link belts.

Canadian Law Comments

- the Motiuk Manufacturing, Model MG1919-S was found to be readily and easily converted to discharge shots in rapid succession with a single pressure of the trigger in a relatively short time period with relative ease.
- the Motiuk Manufacturing, Model MG1919-S utilizes cloth belts or disintegrating link cartridge belts that were originally designed or manufactured for the purpose of feeding cartridges into an automatic firearm of a type that was in existence before 1945.

- "MOTIUK MFG" over "CANADA" is marked on the rear left side of the receiver/frame.

Model

- model may be marked on the rear left side of the receiver/frame.
- short recoil operated, gas assisted, air cooled firearm, fed by non-disintegrating link belt, semi-automatic version of an MG3 machine gun.
- utilizes a semi-automatic AR-15 type swinging hammer trigger mechanism that is designed to fire from a closed bolt.
- features include: attached barrel muzzle booster; a quick change detachable barrel accessible from the right side of the receiver/frame through a barrel door; open sights, a top cover that facilitates belt feeding, pistol grip, and a black synthetic stock.
- the stamped steel receiver/frame is rectangular shape in cross section and features an integral ventilated barrel jacket/ fore-end into which a folding bipod can be retained.

Manufacturer

- "MOTIUK MFG" over "CANADA" is marked on the rear left side of the receiver/frame.
- Motiuk Manufacturing Corporation is located in Alberta, Canada.

Action

- recoil operated (short recoil operated, gas assisted by means of a muzzle booster).
- fires from a closed bolt.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- observed serial number consisted of a two letter "MG" prefix, six numbers, and a letter "A" suffix.

Shots

- belt fed.
- non-disintegrating link cartridge belt originally designed or manufactured for the purpose of feeding cartridges into the firing chamber of an automatic firearm of a type that was in existence before 1945.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments

- The "Motiuk Manufacturing MG3-S" was found to be readily and easily converted to discharge shots in rapid succession with a single pressure of the trigger in a relatively short time period with relative ease.
- The "Motiuk MG3-S" uses a non-disintegrating link cartridge belt that was originally designed or manufactured for the purpose of feeding cartridges into a automatic firearm of a type that was in existence before 1945.

129227 - 2	9MM LUGER	32	197	Prohibited CC 84(1) "prohibited firearm" para. (c)	Non-Commercial Customization	

Notes

Make

- "MOVIEARMS", "STEN MK II", "LONG BRANCH", "1942" and a serial number with a three letter prifix of "MAG" was observed marked on the top of the magazine housing.

Model

- "MOVIEARMS", "STEN MK II", "LONG BRANCH", "1942" and a serial number with a three letter prifix of "MAG" was observed marked on the top of the magazine housing.
- STEN name consists of the first letter of the names of the two designers (Reginald Vernon SHEPHERD and Harold John TURPIN) followed by the two first letters of ENGLAND, the country of origin.
- STEN MARK 2 was originally manufactured by Small Arms Limited, Long Branch from 1941 to 1945.
- STEN MARK 2 is distinguished by its all-metal welded construction; and by a short barrel that can be replaced by pulling out a locking ratchet and unscrewing the barrel nut (attached to the ventilated barrel shroud); the magazine housing can be rotated about the receiver axis to reduce the width of the firearm when carried.
- features include: metal "T"-stock or a metal "loop"-stock; fixed sights; and a fire selector button that pushes sideways through the trigger mechanism housing.

Manufacturer

- "MOVIEARMS" and "LONG BRANCH" was observed marked on the top of the magazine housing.
- Movie Armaments Group was located in Toronto, Ontario, Canada in 2009.

Action

- blowback operated, utilizing Advanced Primer Ignition.

Serial Number

- serial number is marked on the magazine housing.
- observed serial number consisted of a three letter "MAG" prefix and three numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - in the case of this firearm, it has been determined that the component commonly designated as the magazine housing, upon which all or part of the following information may be found marked: the Manufacturer's identification (either in full or in code); Model identification; Proof information and the Serial Number; is the Receiver/Frame for the purposes stated within The Firearms Act and the Criminal Code of Canada.

Other Markings - marked on top of the magazine housing below the model and manufacturer's inscription: date of manufacture (example: 1943).

Remarks - an all metal firearm designed for ease of rapid production, using a maximum of stamped metal and screw machine components and a minimum of expensive machined parts.

Notes

Make

- maker's name and logo are moulded in the stock.
- MSAR is the abbreviation for Microtech Small Arms Research.

Model

- "MCS" may be marked on the firearm.
- introduced in 2008.
- this is based on the Steyr AUG model incorporating a bull pup design and a unique forward assist and last round bolt hold open release mechanism.
- features include: matte green, tan or black finish; removable flash hider; quick change barrel assembly with a forward handle to serve as a forward handgrip and as a handle for barrel removal; synthetic stock; alloy receiver/frame with integral optic mount; top and side mounted accesory rails.
- overall length with a 406mm (16") barrel is 686mm (27").

Manufacturer

- "MSAR" within an oval is marked on the side of the receiver/frame.
- manufacturer is located in Bradford, Pennsylvania, USA.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- blowback operated.
Serial Number	- may be marked "S/N" followed by three numbers followed by three letters and four numbers and was marked on the side of the receiver/frame.
Shots	- detachable box magazine system utilizing a Glock pistol magazine.
Canadian Law Comments	- the ten round limit specified in the Cartridge Magazine Control Regulations applies to magazines for this firearm provided: a) the magazine is originally designed for use in a semi-automatic handgun, and b) the handgun is commonly available in Canada.

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
121773 - 1	7.62X54R RUSSIAN	5	620	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	
121773 - 2	7.62X54R RUSSIAN	10	620	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Make	- The make is not marked on the firearm.
Model	- Introduced in 1990. - "Berkut-2M1 is marked on the top strap of the receiver/frame. - The model designation is marked in Cyrillic characters. - Features include: charging handle located on the right side of the receiver/frame; magazine release lever located in front of the trigger guard; safety lever located on top of the trigger guard.
Manufacturer	- The company logo is marked on the firearm. - The KBP Design Bureau logo consists of a stylized emblem built from multiple sharp geometric lines forming an infinity symbol with a peak pointing towards the top right, centered around a double circular frame.
Action	- Gas operated. - Long stroke with 4 lug rotating bolt.
Serial Number	- The serial number is marked on the top of the receiver/frame.
Calibre	- The calibre designation is marked on the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- Detachable box magazine.
Canadian Law Comments	- The upper receiver of this firearm is the receiver/frame for all purposes of the Firearms Act and the Criminal Code of Canada.
Other Markings	- Proof mark is marked on top of the receiver/frame. - "r", reverse "N" and "c" represents the Cyrillic letters "GIS" inside a diamond, standing for "Gosudarstvenny Ispytatelny Stantsia", or "State Testing Station". - This is a proof-mark seen on commercial Russian-manufactured firearms produced between 1966 and 1994 (when Russia was admitted to the CIP Convention, and replaced this proofmark with a number of others). It may be seen on the products of a number of Russian manufacturers, and certifies that the firearm is safe to use with the proper ammunition.

Firearm Reference Number (FRN): 77851
Make: Muchler
Model: Over & Under

Summary

Make:	Muchler
Model:	Over & Under
Manufacturer:	Muchler, W & Sohne
Level:	Manufacturer Specifications and Commercial Customization
Type:	Combination Gun
Action:	Multi-Barrel
Country of Manufacturer:	GERMANY
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
77851 - 1	8X57RJ MAUSER/16 GA	2	686	Non-Restricted CC 2 "firearm"	Non-Commercial Customization	

Notes

Model

- model designation is not marked on the firearm
- this is a generic entry for all Muchler Combination over & under combination guns with no model markings.
- over & under configuration, (smoothbore over rifle), with deep and extensive engraving on the receiver and other metal parts, the stock is also deeply engraved at the butt area as well as on the pistol grip and the fore-end, however since these firearms were made on a custom order basis, models with other levels of engraving (including gold inlay), or no engraving at all are possible.
- box lock configuration, with double or single triggers.
- the matted rib is milled at the back for a single scope ring installation.
- the makers name is usually electro engraved in scrip style on the underside of the receiver/frame.
- top lever opening is usually found on this model, but other opening mechanisms are possible.

Manufacturer

- Muchler, W. Sohne, were manufacturers of sporting firearms, in Neuenrade, Westphalia Germany, 1931 to 1939.

Action

- over & under configuration.

Serial Number

- usually located on water table and/or underside of the barrels.
- serialization sequence unknown, but four numerical digits observed.

Barrel

- this is a custom made firearm, any other barrel length is possible.

Calibre

- both calibres are stamped on the underside of the bottom barrel (rifle), just ahead of the lugs.
- these firarms were made on a custom basis to fit the taste of the customer, so other calibre combinations are possible.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- on barrel as follow;
"MUCHLER - SOHNE- GEWEHRFABRIK" on one side.
"NEUENRADE WESTF." on the other side.
- German proof marks underneath the barrels.

Notes

Make

- "MARCA "MUNDIAL" REGISTRADA" are marked on the barrel.
- "Mundial" was a trade name used by "Gaspar Arizaga" of Eibar, Spain.

Model

- "MARCA "MUNDIAL" REGISTRADA" are marked on the barrel.
- features include: side by side barrels with raised matted rib, bead front sight and manual ejectors; front hinged receiver/frame with top tang mounted break open lever and slide type safety; internal hammers; double triggers; checkered wood splinter forearm and straight grip buttstock; engraved silver side plates.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Fca DE GASPAR ARIZAGA - EIBAR (ESPANA)" may be marked on the right barrel. - "FN", the manufacturer's code may be marked on the watertable. - the "FN" code was shared by Gaspar and Ignacio Arizaga. - Gaspar Arizaga was founded in Eibar, Spain in 1895. - Gaspar Arizaga was manufacturing and exporting a line of single shot and side by side box lock and side lock shotguns by 1915. - Gaspar Arizaga manufacture handguns, under the trade names of Arizaga, Mondial, Pinkerton, and Warwinch from the early 1920s to 1936. - Gaspar Arizaga was listed as a manufacturer of side by side, box lock and side lock shotguns in 1972. - Gaspar Arizaga was one of the many companies that formed "DIARM, S.A." in 1984. - some observed examples have been marked "Mundial" on the action flats.
Action	- side by side barrel configuration.
Serial Number	- serial number is located on the water table and may be repeated on the barrels. - observed serial number consisted of five or six numbers without a letter prefix or suffix. - "FN", the manufacturer's code is usually marked on the watertable between the serial number and calibre/chamber length markings.
Calibre	- calibre designation is usually marked on the barrel flats and watertable.

Notes

Make

- "G MUNDY" was observed marked on the side of the receiver/frame of an example.

Model

- Screw Barrel Pistols were popular in the period prior to 1880 and were commonly manufactured in England and Belgium.
- model designation is not marked on the firearm.
- model designation is derived from the method by which this pistol is loaded; loading was accomplished by unscrewing the barrel.
- this is a single shot pistol with a removable barrel and an exposed hammer centrally located on the receiver/frame behind the chamber.
- this handgun is intended to be loaded from the breech end of the barrel and as such was originally suppied with a wrench to unscrew the barrel from the receiver/frame in order that a lead ball and loose powder could be inserted into the chamber end of the barrel and then the barrel screwed back onto the receiver/frame.
- features include: no sights; engraved removable octagonal barrel; box lock action with the hammer centrally located on the top of the receiver/frame; engraved, brass, receiver/frame; percussion ignition; folding-type trigger; finely checkered wooden grips.

Action

- the barrel unscrews in front of the chamber, so it can be loaded with a ball that fits the barrel more tightly than is possible with a muzzle loader.
- the turnoff barrel may be rifled.

Notes

Make

- known example marked "JOH MUNTS AMSTERDAM" on top strap; it also was marked on the top of the grip frame extension behind the hammer with a stylized lion over the word "MUNTS".

Model

- Note: those firearms manufactured prior to 1 January, 1898 will be deemed "Antique".
- known example marked "JE MAINTIENDRAI" on top strap.
- produced circa 1897-1899.
- double action, solid receiver/frame, rebound hammer.
- features of known example:
- hinged loading gate on right side of receiver/frame.
- ejector rod hinged at lower right front of receiver/frame; ejector rod is housed within the cylinder axis pin and must be withdrawn and swung to the right side of the receiver/frame for ejection of spent casings.
- a cylinder locking safety device mounted on left side of receiver/frame.
- smooth cylinder with locking notches at rear of cylinder.
- octagonal barrel.
- lanyard ring.
- blued finish.
- Belgian proofmarks are apparent on this firearm.

Manufacturer

- known example marked "J. Marechal" over "Cheratte" on left side of the receiver/frame in front of the cylinder.
- Joseph Marechal was a firearm manufacturer circa 1897 to 1899.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number rationalization unknown.
- specimen observed had a two or three digit serial number with or without a prefix or suffix.

Firearm Reference Number (FRN): 1731
Make: Murata
Model: Type 13 Rifle

Summary

Make:	Murata
Model:	Type 13 Rifle
Manufacturer:	Japanese State Arsenal, Koishikawa
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Single-Shot
Country of Manufacturer:	JAPAN
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
1731 - 1	11X60R JAPANESE MURATA	1	818	Antique AFR, Section 1, para. 3	Manufacturer Specifications and Commercial Customization	

Notes

Make	- the make appears on the left side of the receiver/frame in Japanese characters.
Model	- the model designation is marked on the right side of the receiver/frame in Japanese characters. - "Type 13" denotes the year of the adoption of this firearm (that relates to the Japanese Emperor Meiji Era calendar year), which co-responds to Western/Christian year 1880. - production ended circa 1885.
Manufacturer	- the manufacturer's name does not appear on the firearm.
Action	- bolt actioned
Serial Number	- appears on the left front end of the receiver/frame.
Also Known As/Product Code	- type 13 denotes the year of the adoption of this firearm (the 13th year of reign of the Japanese Emperor Meiji), which co-responds to Western/Christian year 1880.
Other Markings	- Chrysanthemum on Knox form of barrel, Japanese 'Kanji' characters on right side of receiver denotes model designation (Type 13), characters on left side of receiver denote the rifle is property of Japanese Empire.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- This rifle was the first breech loading cartridge firearm manufactured in Japan. It is of rudimentary design very similar to European bolt action singleshot breech loading arms of the 1870's and 80's.

Firearm Reference Number (FRN): 20974
Make: Murdoch, John
Model: Murdoch Pistol

Summary

Make:	Murdoch, John
Model:	Murdoch Pistol
Manufacturer:	Murdoch, John
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	UNITED KINGDOM
Serial Numbering:	
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
20974 - 1	58 FLINTLOCK	1	197	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "I. MURDOCH" is usually marked on the lock plate.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is an all-metal "Murdoch" pistol, built by John Murdoch, of Doune, Scotland, during the mid-to-late 1700s, for the "Black Watch" of the Royal Highlanders. A very similar pistol, the "Black Watch Pistol" is known under several similar names, and must not be confused with the "Murdoch" pistol; where the "Murdoch" pistol has a "ram's-head" butt, with curlicue extensions that help to protect a ball-headed vent-pick threaded into the butt, the "Black Watch Pistol" is made with an all-brass butt and stock, with a double-lobed "kidney-shaped" butt that allows the pistol to be used as a club after the shot is fired.
- features include: all-metal construction, with polished in-the-white or nickel finish; cannon muzzle; round or faceted barrel; underbarrel ram-rod; left-side belt hook; right-side lockplate, cock, frizzen and pan; a ball-shaped trigger; a vent-pick threaded into the butt and protected with curlicue "ram's horns"; and (usually) monogram plates on the sides of the grips.

Manufacturer

- John Murdoch was located in Doune, Scotland from 1750 to 1812.

Action

- muzzle loading.

122766 - 2	61 FLINTLOCK	1	175	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "T." over "MURDOCH" is engraved on the lock plate.

Model

- model designation is not marked on the firearm.
- manufactured between 1750 and 1791.
- traditional Scottish military flintlock pistol.
- features include: all metal construction; round, stepped barrel slightly flared at the muzzle; ram's horn butt with a threaded, centre knob for the touch hole pick; button head, turned ram rod; goose neck cock; belt hook attachment on the left side; lobed trigger tip; no trigger guard; external sear mechanism; extensive floral engraving pattern that includes an oval design on the top and both sides of the grips.
- a very similar pistol, the "Black Watch Pistol" is known under several similar names, and must not be confused with the "Murdoch" pistol; where the "Murdoch" pistol has a "ram's-head" butt, with curlicue extensions that help to protect a ball-headed vent-pick threaded into the butt, the "Black Watch Pistol" is made with an all-brass butt and stock, with a double-lobed "kidney-shaped" butt that allows the pistol to be used as a club after the shot is fired.

Manufacturer

- "T. MURDOCH" is engraved on the lock plate.
- Thomas Murdoch was a manufacturer located in Leith and Doune, Scotland from 1741 to 1791.

Action

- muzzle loading, flintlock action.

Other Markings

- the rank, initials and regiments number may be engraved on the grip.

93075 - 2	58 PERCUSSION	1	610	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "J.P. Murray" and "Columbus GA" are marked on the lockplate.
- John P. Murray was the superindentent of Greenwoood & Gray factory in Columbus, Georgia from 1862/63 to 1865.
- John P. Murray formed a partnership with Benjamin G. Happoldt in 1850.
- Happoldt & Murray was located in Charleston, South Carolina from 1850 to 1859 and in Columbus, Georgia from 1860 to 1862/63.

Model

- manufactured for the Confederate Artillery 1862 to 1864.
- features include: full walnut stock, two barrel bands, the rear band is spring-retained, brass buttplate and trigger guard in two piece construction with iron sling swivels attached, and the other sling swivel is attached to the front barrel band.

Manufacturer

- Greenwoood & Gray was located in Columbus, Georgia from 1862 to 1865.
- Greenwood & Gray factory manufactured for the Confederate States of America (CSA) the "J.P. Murray" Artillery Carbine , Cavalry Carbine and Infantry Rifle.

Action

- muzzle loading, percussion rifle.

Serial Number

- assembly numbers observed on the lockplate, the hammer, the trigger plate, the head of bolts, and on the tang as "7" or "12".
- do not confuse assembly numbers with serial number that may be assigned.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings

- barrel near the breech is stamped "ALA 1864", below that mark appears "H".
- underside of barrel near the breech is stamped "S" and "//".
- both rear side of the barrel is stamped with "S".
- lockplate forward of hammer is stamped "J.P. Murray" over "Columbus GA".

Notes

Make

- "T.W. MURRAY" or "T.W. MURRAY & Co" may be marked on the firearm.

Model

- "Rook Rifle" is not marked on the firearm.
- "Rook Rifle" model designation was used in the United Kingdom in refers to the intended purpose of a small, single shot, lightweight sporting rifle normally used for rabbit, crow, or vermin control.
- "Rook Rifle" was also known as a 'Garden Rifle', 'Rabbit Rifle', or 'Pest/Vermin Rifle'.
- "Rook Rifle" may be found with a number of different types of actions including but not limited to break open (hinged barrel design), falling block or Martini-type.
- features include: round or octagonal barrel; front hinged/break open action, falling block action or Martini-type action; top tang or side mounted safety; exposed hammer or hammerless; extractor or ejector; checkered wood forearm and straight or semi-pistol grip butt stock; blued finish.

Manufacturer

- T.W.Murray was located in England prior to 1922 and at 87 Patrick Street, Cork, Ireland between 1922 and 1956.

Action

- 'Rook Rifle" was available in various action types:
- break open action (hinged barrel design).
- falling block/vertical sliding wedge action.
- tilting block action (Martini type).

Serial Number

- located on the receiver/frame.
- observed specimen had four numbers without a letter prefix or suffix.

Notes

Make

- "T.W. MURRAY", "T.W. MURRAY & CO.", "T.W. MURRAY & CO. LTD.", "MURRAY & CO. CORK" or any other variations including the address may be marked on the firearm.

Model

- model designation is not marked on the firearm.
- features may include: side by side smoothbore barrels with bead front sight; front hinged receiver/frame with break open lever mounted on the top tang, side or underneath; box or side lock; hammerless or external hammer; wood forearm and straight or pistol grip buttstock.

Manufacturer

- "T. W. Murray & Co. Ltd. 87 Patrick Street, Cork. Established 1828" was observed marked on the rib between the barrels on one sample.
- "T. W. Murray & Co. Ltd." was observed marked on the side of the receiver/frame on one sample.
- T. W. Murray was located in England prior to 1922 and at 87 Patrick Street, Cork, Ireland between 1922 and 1956.

Action

- side by side barrel configuration.

Serial Number

- serial number was observed marked on the water table.
- observed serial number consisted of four numbers without a letter prefix or suffix.

Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
174787 - 1	442 REV RF	5	150	Antique AFR, Section 1, para. 6	Non-Commercial Customization	

Notes

Make

- "T.W. Murray Cork" is usually marked on the firearm.
- T.W. Murray was a sporting-goods retailer and distributor on Patrick Street in Cork, Ireland, from 1880 until it closed in 1956; they sold guns under their name that were supplied by various manufacturers.

Model

- the model is not marked on the firearm; this model is applied due to the presence of an 1863 Tranter-patented ejection rammer, acting through the cylinder mouth to press against the mouth of a fired case. Tranter held several patents, and this patented ejector system had nothing to do with Tranter's more commonly-seen trigger mechanism.
- the identifying feature of this model is a percussion-style loading rammer mounted on the right side of the receiver/frame forward of the cylinder, that has an enlarged rammer head that fits closely into the chamber mouths to push empty cases out through the loading/ejection gate.
- features may include: blued or colour case-hardened finish; open fixed sights; right-side ejector/rammer handle that lays against the barrel when not in use; round or octagonal barrel; round cylinder; double-action trigger mechanism; spur hammer; enlarged prawl on the backstrap; checkered walnut grips.

Manufacturer

- manufacturer is not marked on the firearm.

Action

- double-action revolver.

Notes

Make

- "MUSGRAVE" over an "M" logo is usually marked on the firearm.
- "Lyttelton RSA" may be marked on the left side of the receiver/frame.
- Lyttelton is a town located in the Republic of South Africa.

Model

- manufactured from 1971 to 1976.
- this is a bolt operated single-shot target rifle, with heavy target barrel, target sights, and anatomical stock.
- heavy tubular receiver/frame with Mauser-style bolt, and a loading/ejection port milled into the right side.

Manufacturer

- Musgrave Manufacturers & Distributors (Pty) Limited was a manufacturer located in the Republic of South Africa.
- Musgrave manufactured target and hunting rifles from 1951 to 1976.

Action

- turn bolt design.

Serial Number

- serial number may be marked on the bolt, barrel, and/or receiver/frame.

Barrel

- barrel lengths on these firearms can vary by two inches/50mm or more in either direction, depending on the length of the original barrel blank, and how many times the barrel has been cut back and re-crowned to preserve accuracy.

Notes

Make

- "MUSGRAVE" and the Musgrave logo (a blocky "M") is marked on the firearm.
- Musgrave Manufacturers & Distributors (Pty) Limited was a manufacturer located in the Republic of South Africa.
- Musgrave manufactured target and hunting rifles from 1951 to 1976; in 1976, Musgrave was purchased by Armscor, a division of Denel.

Model

- the model may or may not be marked on the firearm.
- this is an unusually-styled pistol marketed in South Africa under the Musgrave name for a short period during the early 1990s, as a low-cost, cheap-to-manufacture pistol for civilian and police self-defence use.
- features include: tubular upper receiver with an internal bolt that is cocked by pulling it rearwards directly out the rear of the upper receiver/frame; matte black parkerized/phosphated finish; a moulded black synthetic checkered pistol-grip frame; fixed open sights; squared-off trigger-guard; semi-circular solid trigger; a moulded tang at the rear of the tubular receiver that acts as a guard against pinching the web of the hand; a lanyard loop on the right sight of the butt; and a detachable box magazine.

Manufacturer

- "MUSGRAVE" and the Musgrave logo (a blocky "M") is marked on the firearm.
- Musgrave Manufacturers & Distributors (Pty) Limited was a manufacturer located in the Republic of South Africa.
- Musgrave manufactured target and hunting rifles from 1951 to 1976; in 1976, Musgrave was purchased by Armscor, a division of Denel.

Action

- recoil-operated.

Serial Number

- numbered on the tubular receiver and/or barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - detachable box magazine.

FRT Report

Firearm Reference Number (FRN): 129363
Make: NAAG
Model: Nitrogen Actuated Arrow Gun

Summary

Make:	NAAG
Model:	Nitrogen Actuated Arrow Gun
Manufacturer:	
Level:	Non-Commercial Customization
Type:	Other
Action:	Air,Spring or Gas
Country of Manufacturer:	
Serial Numbering:	See Note
Legal Classification:	CC 2 "firearm"/CC 84(3) Exempted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129363 - 1	8MM ARROW	1	224	CC 2 "firearm"/CC 84(3) Exempted CC 84(3) (d)	Non-Commercial Customization	

Notes

Make	- "N.A.A.G." over "Nitrogen - Actuated - Arrow - Gun" is marked on the side of the receiver/frame of an observed example.
Model	- "Nitrogen Actuated Arrow Gun" appears on the left side of the receiver/frame. - this appears to be a homemade devise that incorporates a high pressure washer grip and trigger assembly that is attached to a gas cylinder and spiggot assembly in order to launch an arrow; the hollow aluminum arrow slides over a gas delivery tube. - other features include: foam covered, tubular buttstock and barrel shroud; scope and laser attachments. - overall length is 810 mm.
Type	- incorporates a high pressure washer grip and trigger assembly that is attached to a gas cylinder and spiggot assembly in order to launch an arrow; the hollow aluminum arrow slides over the gas delivery tube (spiggot).
Action	- arrow fits over a spigot tube. - utilizes a detachable CO2 gas cylinder. - does not disharge a projectile at a muzzle velocity exceeding 152.4mps and/or a muzzle energy exceeding 5.7 Joules.
Serial Number	- observed example did not have a serial number.
Barrel	- the hollow arrow slides over this gas delivery tube.
Other Markings	- "Danger - never point at any part of the body - high pressure spray can cause severe injury" is marked on the side of the receiver/frame.

- Fabrique d'Armes Leon Nagant became "Fabrique d'Armes et d'Automobiles Nagant Frères".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced circa 1878, this model was produced in two variations. The first (a very low profile front sight) was in service from 1878 to 1886, the second version, modified in 1886 (front sight was about 10mm high) remained in service until about 1940. - the model designation is not marked on the firearm. - features include: fixed blade front sight and rear sight, external hammer, double action, octagonal barrel, half length cylinder flutes, hinged loading gate, lanyard ring, extractor rod is mounted on the underside of the barrel which rotates to the right so it can be aligned with the chambers, blued finish with checkered wooden grip.
Manufacturer	- "BREVET NAGANT" is marked on the left side of the receiver/frame in front of the cylinder. - Emile & (Henri) Leon Nagant (Fabrique d'Armes Em. et L. Nagant) was a Belgium gunmaker located in Liege between 1859 and 1896. - Leon Nagant (L. Nagant & Cie) was a Belgium gunmaker between 1896 and 1903. - Nagant Freres (Fabrique d'Armes et d'Automobiles Nagant Freres) (Charles & Maurice Nagant) was a Belgium gunmaker between 1903 and 1935.
Serial Number	- Serial number is usually marked on the left receiver/frame and may be repeated on the barrel and/or cylinder. - Serial numbers are numeric only without prefix or suffix.
Calibre	- the calibre designation may appear on the firearm.
Canadian Law Comments	- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- no model name is not marked on this firearm.
- introduced in 1893.
- this model was adopted by the Norwegian Army in 1893; it is virtually identical to the Swedish Nagant Model 1887 with the exception of a half-moon front sight on the Norwegian model.
- this model remained in Norwegian service until 1940.
- most of the model 1893s were made in Belgium but some were made in Sweden's Husqvarna factory and a few were assembled in the Kongsberg factory from new Husqvarna parts and salvaged Belgian parts.
- this firearm is not of the "gas seal" design.
- features include: fixed half-moon blade front sight and a grooved notch in the top strap for a rear sight; octagonal rifled barrel; extractor rod is mounted on the underside of the barrel and rotates to the right so it can be aligned with the chambers; solid top receiver/frame with a removable ovate fluted cylinder, and a hinged loading gate on right side of the standing breech; exposed spur hammer; single/double action trigger mechanism; checkered wooden grips; lanyard ring; blued finish.

Manufacturer

- "BREVET NAGANT" is marked on the left side of the receiver/frame.
- Emile & (Henri) Leon Nagant (Fabrique d'Armes Em. et L. Nagant) was a Belgium gunmaker located in Liege between 1859 and 1896.
- Leon Nagant (L. Nagant & Cie) was a Belgium gunmaker between 1896 and 1903.
- Nagant Freres (Fabrique d'Armes et d'Automobiles Nagant Freres) (Charles & Maurice Nagant) was a Belgium gunmaker between 1903 and 1935.

Action

- was made in two version, single and double action.

Serial Number

- serial number is marked on the front left side of the receiver/frame in front of the cylinder, and is repeated on the left side of the barrel, and on the left side of the barrel lug.
- observed serial number consisted of eight numbers without a letter prefix or suffix.

Canadian Law Comments

- some examples of this model, when manufactured prior to 1898, are considered "Antique" in Canada.

- Nagant and Colonel Ivanovich Mosin worked on the design of a rifle in 1887, which became the "Mosin-Nagant".
- Mosin-Nagant rifle was accepted for Russian service in 1891.
- Nagant brothers separated and continued their ventures separately in 1896.
- Leon Nagant establish "Fabrique d'Armes Leon Nagant" in 1896 and was joined by his two sons Charles and Maurice in 1899.
- Leon Nagant died in 1900.
- Fabrique d'Armes Leon Nagant became "Fabrique d'Armes et d'Automobiles Nagant Frères".

Model

- manufactured from 1898 to 1945.
- "1895" is not marked on this firearm.
- "1895" model was adopted by the Russian military in 1895 as the M1895.
- "1895" model is of the "gas seal" design as patented by Leon Nagant in 1894.
- original manufacture for the Russian Army was undertaken by Nagant of Liege from 1895 until 1898 at which time manfuacture switched to various Russian State Arsenals.
- approximately 20,000 pieces were manufactured by the Nagant firm.
- features include: blade front sight and a grooved notch in the top strap for a rear sight; round barrel; extractor rod is mounted on the underside of the barrel and rotates to the right so it can be aligned with the chambers; solid top receiver/frame with a removable fluted cylinder and right side swing down loading gate; exposed spur hammer; double/single action trigger mechanism; checkered wooden grips with a metal butt cap and lanyard ring; blued finish.

Manufacturer

- manufacturer's markings are usually marked on the left side of the receiver/frame. The Tula arsenal has used a variety of markings, the most common post 1928 marking is the "arrow within a five pointed star" on military production. Commercial production was marked as a "T" in a triangle, a "T" in a triangle within a circle or an "arrow in a triangle within a circle" (this marking is the cause of much confusion as the Izhevsk Arsenal also used the "arrow in a triangle" (no circle) marking).
- Nagant in Liege, Belgium also produced this model between 1895 and 1913. These will usually be marked Liege on the firearm.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Notes

Make

- "NAGANT" is not marked on the firearm.
- "NAGANT" tradename is from the last name of the Nagant Brothers, Emile and Leon.
- Nagant was founded in Liege, Belgium by Emile and Leon (Henri-Leon) Nagant in 1859.
- Nagant was originally known as "Fabrique d'Armes Em. et L. Nagant".
- Emile Nagant was born in 1830 and died in1902.
- Leon (Henri-Leon) Nagant was born im 1833 and died in 1900.
- Nagant manufactured under license the Remington Rolling Block rifle in 1867.
- Nagant improved the Remington Rolling Block system.
- Nagant produced shotguns and a double barreled side by side handgun under the "Remington-Nagant" name.
- Nagant was a prolific manufacturer of revolvers for the military market.
- Nagant type revolvers were manufactured in Belgium, Russia, Spain and Sweden.
- Emile Nagant designed an improved dismantling and ejection system for Nagant revolvers and was granted a patent in 1877.
- Nagant and Colonel Ivanovich Mosin worked on the design of a rifle in 1887, which became the "Mosin-Nagant".
- Mosin-Nagant rifle was accepted for Russian service in 1891.
- Leon Nagant design a gas seal gun and was granted patents from 1892 to 1895.
- Nagant brothers separated and continued their ventures separately in 1896.
- Leon Nagant establish "Fabrique d'Armes Leon Nagant" in 1896.
- Leon Nagant was joined by his two sons Charles and Maurice in 1899.
- Leon Nagant died in 1900.
- Fabrique d'Armes Leon Nagant became "Fabrique d'Armes et d'Automobiles Nagant Frères".

Model

- model designation is not marked on the firearm.
- manufactured before 1914.
- features include: round barrel with an annular boss at the muzzle; solid top receiver/frame with fluted cylinder and right side loading gate; exposed spurred hammer; single/double action trigger mechanism; blade front sight and groove/notch in the top strap for a rear sight; birds head grip with or without lanyard ring; checkered grip plates.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number

- serial number was observed marked under the panel grips.
- observed serial number consisted of a single number without a letter prefix or suffix.

103815 - 1	6.5X50SR JAPANESE ARISAKA	30	482	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- named for General Nambu who modified Hotchkiss machine guns.

Model

- introduced in 1922.
- "11th Year Type" is marked in Japanese kanji on top of the receiver/frame.
- this is an awkward appearing air-cooled light machine gun based largely on the licenced Hotchkiss machine gun adopted in 1914 as the "Type 3" and feeding from five round rifle stripper clips originally designed for the Arisaka Type 38 bolt action rifle.
- features include: open adjustable sights; heavy barrel with cooling fins up to the bipod mount; under barrel gas piston; a spring-loaded feed lever that sets into a clip reservoir on the left side of the machine gun; vertical cocking handle located on the left side of the rectangular receiver/frame; combination wood and metal pistol grip/buttstock; bipod or tripod; blued finish.
- overall length with a 483mm (19") barrel is 1105mm (43.5"), average weight is 10.2kg (22.5 lbs).

Manufacturer

- the four interlocked circles located on the right side of the receiver/frame denote the Japanese State Arsenal Kokura.

Action

- gas operated, full automatic only.

Serial Number

- the serial number is marked on the top of the receiver/frame.

Calibre

- rifling characteristics: 4-grooves, 1 turn in 7.88 inch, right hand twist.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - 30 round hopper that hold six clips of five rounds each.

24330 - 3	8MM NAMBU	8	120	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make does not appear on the firearm.

Model

- the model designation is marked on the left side in Japanese characters.
- the model designation is translated as the 14th year of the Taisho reign, which is 1925 on the western calender.
- this model was available in several variations, there were three different cocking knobs, grooved on early models, and fine or coarse ckeckered on later models.
- the front grip strap may be solid, or it may have a magazine retaining spring protruding through it.
- this model has had at least two variations of trigger gaurds, a round guard that is flush with the receiver/frame and an elongated guard that protrudes past the receiver/frame.

Manufacturer

- the manufacturers mark appears on the right side of the firearm as a large circle on top of a small circle, inside a circle.

Serial Number

- numbered on the right side of the receiver.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - a series mark is normally found on the receiver/frame below the serial number.

130787 - 2	69 PERCUSSION	1	201	Antique CC 84(1) "antique firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "M.ra R.le" over "Di Napoli" was observed marked on the lock plate.

Model

- model name is not marked on the firearm.
- manufactured circa 1816.
- this pistol is virtually an exact copy of the French Service model AN XIII flintlock pistol as made in the Kingdom of Napoli/Naples.
- features include: tapered round barrel with five flattened sides at the breech and no sights; steel ramrod mounted underneath the barrel; steel lock plate with flint or percussion hammer; brass barrel band, side plate, pan, trigger guard and butt cap; wood stock.
- some of these pistols were made with a captive ramrod which had a swivel arrangement on the underside of the barrel at the muzzle end; this was for calvary use.
- original designed with a flintlock ignition system, these pistols were being converted to percussion ignition by the middle of the 1800s.

Manufacturer

- "M.ra R.le" over "Di Napoli" was observed marked on the lock plate.
- "M.ra R.le Di Napoli" is the abbreviation for Manifattura Reale di Napoli, i.e., (Manufacturer for the Kingdom of Napoli/Naples).

Action

- muzzle loading, flintlock or percussion ignition.

Serial Number

- observed example did not have a serial number.

- "National Arms Co., Brooklyn, N.Y." is marked on the top of the barrel.
- "National Arms Company" of Brooklyn, New York, U.S.A. was the successor to Moore's Patent Firearms Company. The Moore's Patent Firearms Company was in business from 1863 to 1865. Moore's Patent Firearms Company was originally known as D. Moore & Company from 1860 to 1863.
- "National Arms Company" was in business from 1866 to circa 1869 and manufactured Moore's Patent single shot derringers and solid top large frame teat fire revolvers.
- "National Arms Company" was sold to Colt Patent Fire Arms Manufacturing Company, circa 1870.
- "National Arms Co." trade name on double barrel shotguns manufactured by Henri Pieper, Anciens Etablissments Pieper, and Crescent Fire Arms Company.
- "National Arms Co." trade name on single barrel shotguns manufactured by Crescent Fire Arms Company.
- "National Arms Co." trade name on pump action shotguns manufactured by Marlin Firearms Company.
- "National Arms Co." trade name on double action top break revolvers manufactured by Meriden Firearms Company.
- "National Arms Co." dealer located in New Orleans, Louisiana, U.S.A." between 1918 and 1920.

Model

- manufactured circa 1865.
- the Williamson patents are improvements in the shape of both cartridges and chambers.
- regular trigger with trigger guard.
- blued cylinder and barrel with a silver-plated brass receiver.
- with or without hook extractor
- bird's head butt.
- this is a front loading revolver, designed to accept the teat-fire ammunition designed by Williamson & Moore.
- single action, front loading gate.
- half octagon-half round barrel.

Manufacturer

- "National Arms Company" of Brooklyn, New York, U.S.A. was the successor to Moore's Patent Firearms Company. The Moore's Patent Firearms Company was in business from 1863 to 1865. Moore's Patent Firearms Company was originally known as D. Moore & Company from 1860 to 1863.
- "National Arms Company" was in business from 1866 to circa 1869 and manufactured Moore's and Williamson's Patent single shot derringers and solid top large frame teat fire revolvers.
- "National Arms Company" was sold to Colt Patent Fire Arms Manufacturing Company, circa 1870.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- this is a front loading revolver, designed to accept the teat-fire ammunition designed by Williamson & Moore.
Serial Number	- serialization unknown.
Calibre	- cartridges designed by Daniel Moore & David Williamson to avoid the Rollin White patents owned by Smith & Wesson on the "bored-through" revolver cylinder.
Other Markings	- may be marked National Arms Co. Brooklyn, N.Y. on the barrel and D. Williamson's Patent June 5 - May 17, 1864 on the cylinder.
Remarks	- may be marked National Arms Co. Brooklyn, N.Y. on the barrel.

- "National Arms Company" of Brooklyn, New York, U.S.A. was the successor to Moore's Patent Firearms Company. The Moore's Patent Firearms Company was in business from 1863 to 1865. Moore's Patent Firearms Company was originally known as D. Moore & Company from 1860 to 1863.
- "National Arms Company" was in business from 1866 to circa 1869 and manufactured Moore's Patent single shot derringers and solid top large frame teat fire revolvers.
- "National Arms Company" was sold to Colt Patent Fire Arms Manufacturing Company, circa 1870.
- "National Arms Co." trade name on double barrel shotguns manufactured by Henri Pieper, Anciens Etablissments Pieper, and Crescent Fire Arms Company.
- "National Arms Co." trade name on single barrel shotguns manufactured by Crescent Fire Arms Company.
- "National Arms Co." trade name on pump action shotguns manufactured by Marlin Firearms Company.
- "National Arms Co." trade name on double action top break revolvers manufactured by Meriden Firearms Company.
- "National Arms Co." dealer located in New Orleans, Louisiana, U.S.A." between 1918 and 1920.

Model

- "D. WILLIAMSON'S PATENT JUNE 5 - MAY 17 1864" was observed marked on the cylinder.
- manufactured circa 1865.
- the Williamson's patents are improvements in the shape of both cartridges and chambers.
- this is a front loading revolver, designed to accept the teat-fire ammunition designed by Williamson & Moore.
- features include: round rifled barrel with brass half moon front sight; open top brass receiver/frame with round un-fluted cylinder and hooked extractor/front loading gate mounted on the the right side; exposed spur hammer with notch in the top for a rear sight; sheathed spur trigger; single action trigger mechanism; bird's head grip; blued barrel and cylinder; brass frame may have silver plated finish.

Manufacturer

- "National Arms Company" of Brooklyn, New York, U.S.A. was the successor to Moore's Patent Firearms Company. The Moore's Patent Firearms Company was in business from 1863 to 1865. Moore's Patent Firearms Company was originally known as D. Moore & Company from 1860 to 1863.
- "National Arms Company" was in business from 1866 to circa 1869 and manufactured Moore's and Williamson's Patent single shot derringers and solid top large frame teat fire revolvers.
- "National Arms Company" was sold to Colt Patent Fire Arms Manufacturing Company, circa 1870.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- this is a front loading revolver, designed to accept the teat-fire ammunition designed by Williamson & Moore.
Serial Number	- serial number is located on the left side of the grip strap, under the grip plate. - serialization unknown. - observed serial number consisted of five numbers without a letter prefix or suffix.
Calibre	- cartridges designed by Daniel Moore & David Williamson to avoid the Rollin White patents owned by Smith & Wesson on the "bored-through" revolver cylinder.
Other Markings	- may be marked National Arms Co. Brooklyn, N.Y. on the barrel and D. Williamson's Patent June 5 - May 17, 1864 on the cylinder.
Remarks	- may be marked National Arms Co. Brooklyn, N.Y. on the barrel and D. Williamson's Patent June 5 - May 17, 1864 on the cylinder.

Notes

Make

- "NAT ORD" and/or "NAT'L. ORD. INC" may be marked on the top of the receiver/frame.
- "Nat Ord" and "Nat'l. Ord. Inc." are the abbreviation for "National Ordnance Incorporated".

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- this is a commercial variant of the standard U.S. military M1 Carbine.
- produced from 1960 to mid 1970's.
- aproximately 50,000 produced.
- model designation may be marked on the top of the receiver/frame in front of the ejection opening usually in the format of "CAL.30 M1" or "CAL.30 M-1". It is usually necessary to determine the correct model through other features and markings.
- standard features usually include: parkerized finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; push button or swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; fixed wooden pistol grip or metal and wood MP-40 style bottom folding stock with separate upper handguard; left side mounted front sling swivel; may have an inletted oil holder/ sing attachment at the buttstock; front barrel band which may include a bayonet lug; may feature a cone shaped flash hider, a muzzle brake or a grenade launcher attached to the barrel.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "NAT ORD" and/or "NAT'L ORD INC" and "S. EL MONTE CAL." may be marked on the top of the receiver/frame.
- "National Ordnance" was located in South El Monte, California, U.S.A. from 1965 to 1974.
- "National Ordnance" manufactured and assembled from parts military style firearms.

Action

- gas operated.

Serial Number

- the serial number may be marked on the left side of the breech ring or on the top of the receiver/frame just in front of the rear sight.

Calibre

- "CAL.30 M1" is marked on the front receiver/frame ring.

Shots

- detachable box magazine.

Remarks

- manufacturer names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial components. Further commercial identification can be done with features such as finish or stock style and material. The proliferation of modern accessory stocks, fitting, sights and other gadgets may also confuse the issue of specific model identification.

Notes

Make

- "NAVY ARMS CO." is marked on the barrel.
- Navy Arms Company was established by Val Forgett in 1958.
- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A. circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "MOD.73 CARBINE" is marked on the left side of the barrel at the breech. - this is based on the original Winchester Model 1873 rifle and imported by Navy Arms as a tribute to Buffalo Bill and his wild west show. Available with an octagonal barrel and colour case-hardened receiver/frame in a rifle version and a round barrel, blued receiver/frame carbine and trapper version. - the carbine version has features that include: blued barrel and receiver/frame; checkered or plain walnut stock; ramp front and buckhorn-type rear sights; tapered round barrel; brass lifter; sliding dust cover; sliding, brass covered storage compartment in the butt.
Serial Number	- serial number on observed sample was marked on the right side of the receiver/frame and consisted of five numbers.
Calibre	- "CAL. 22LR" is marked on the left side of the barrel at the breech.
Shots	- tubular magazine mounted under the barrel.
Other Markings	- sample examined was also marked "Made in Italy" on the barrel and bore Italian proof marks on the barrel and receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- this is a reproduction of a Confederate, civil war era copy of a Colt, model 1851 Navy, black powder percussion revolver. - the main difference between the standard model 1851 Navy Reproduction and the Confederate version is the former used a steel receiver/frame while the latter uses a brass receiver/frame. All other specifications are usually the same. - features include: open top design (no top-strap), a removable mounted wedge allows the barrel to be removed from the receiver/frame; blued octagonal barrel and cylinder; receiver/frame, trigger guard and back-strap are made of brass; single action trigger mechanism; brass post front sight, the hammer is notched to act as the rear sight when cocked; right side of recoil shield is relieved to allow for capping of the nipples; hinged loading lever mounted under the barrel; non-fluted cylinder, may be engraved with a naval scene.
Manufacturer	- the manufacturer's full name may not be marked on the firearm. - the sample examined was marked with the stylized Pietta "FAP" logo and "Made in Italy".
Serial Number	- the sample examined had the serial number marked on the bottom of the grip frame. Some examples may be serialized on the underside of the receiver/frame.
Calibre	- the calibre designation may be marked on the barrel as "BLACK POWDER ONLY 36 CAL.".
Importer	- the Navy Arms name was marked on the top of the barrel of the sample examined.
Canadian Law Comments	- one sample examined had the serial number marked on the bottom of the grip frame. It must be noted that in Canada a serial number must appear on the receiver/frame for registration purposes.
Other Markings	- the receiver/frame, barrel and cylinder will usually bear Italian proof marks.

- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Model

- this model is a reproduction of the Colt model "1860 Army".
- model designation may not be marked on the firearm.
- features include: single action trigger mechanism; this model does not have a top strap; colour case hardened or brass receiver/frame; colour case-hardened loading lever and spurred hammer; loading lever located under the barrel; blued, rebated cylinder; steel or brass trigger guard and backstrap; fixed blade front sight; may have walnut, tan bone or simulated ivory grip panels; may have shoulder stock slot.
- the barrel lug will have a "U" shape where the plunger accesses the cylinder. This "U" shape is visible from both the left and right side of the revolver.
- the cylinder may have a naval engagement scene and will be marked with a patent date of "PAT. SEPT. 10th 1850" or "PATENTED SEPT. 10th 1850".

Manufacturer

- the manufacturer's logo, "FAP" usually appears on the bottom of the barrel.
- the manufacturer's name appears on some models as "F.ILLI PIETTA - MADE IN ITALY" and in some cases the logo and the manufacturer's name appears together on the same print line.

Serial Number

- serial number may be marked on several places, the number marked on the bottom of the receiver/frame is the correct serial number.

Calibre

- this 44 caliber black powder percussion revolver uses a .451 inch round ball.

- model designation is not marked on the firearm.
- this is a modern reproduction of the Colt model 1873 Single Action Army revolver.
- features include: carbon steel or stainless steel construction; fixed front sight and an adjustable or fixed rear sight; round barrel with right side mounted ejector rod assembly; solid top receiver/frame with a removable fluted cylinder and right side swing down loading gate; exposed spur hammer; single action trigger mechanism; brass or steel trigger guard and grip strap; one piece walnut grip; blued, colour case-hardened or stainless finish.

Manufacturer

- "UBERTI" and "MADE IN ITALY" are normally marked on the firearm.

Serial Number

- serial number is usually marked on the underside of the receiver/frame in front of the trigger guard and may be repeated on other components.

Calibre

- The calibre designation is marked on the barrel.

Remarks

- the different variations of this model are very similar in their appearance.
- the Pinched Frame version features a U-shaped rear notch and a charcoal blue finish.
- the Cavalry version features U.S. arsenal stampings on the receiver/frame.
- the Artillery version features U.S. markings on the receiver/frame and inspectors markings on the grips.
- the Flat Top Target version has a rear sight that is adjustable for windage.

Make

- Navy Arms Company was established by Val Forgett in 1958.
- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Model

- this model is a reproduction of the Colt 1894 Single Action Army Bisley Model.
- model designation is not marked on the firearm.
- importation began in 1997.
- features include: colour case hardened receiver/frame, hammer and loading gate; blued trigger, trigger guard, back-strap, round barrel, and cylinder; loading gate is on the right side of the receiver/frame; Bisley grip with walnut panels; fixed front sight and fixed or adjustable rear sight.

Manufacturer

- "Uberti" and/or "Made in Italy" may be marked on the receiver/frame or barrel.

Serial Number

- serial number is marked on the receiver/frame.

Remarks

- there are two variations of this model.
Bisley Model Flat Top features include a flat top frame with a windage adjustable rear sight.
Bisley Model S.A.A. features include a fixed rear sight.

Notes

Make

- Navy Arms Company was established by Val Forgett in 1958.
- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- this is a modern reproduction of a British "Enfield Pattern 1853 Rifle". - features include: fixed blade front sight and an adjustable rear sight; blued, round smooth or rifled bore barrel with three barrel bands; ramrod is mounted under the barrel; colour case-hardened right side lockplate with an exposed percussion hammer; one piece walnut stock with a brass nose cap, trigger guard, and butt plate; sling swivels are attached to the front barrel band and to the front of the trigger guard. - overall length with a 991mm (39") barrel is 1397mm (55"), and the average weight is 4 kg (8.8 lbs).
Action	- muzzle loader.
Serial Number	- the serial number is marked on the barrel/receiver/frame.
Other Markings	- the barrel is marked "Made in Italy" and has Italian proof marks, the lockplate will be marked "London Armory Co." (one of the original producers of the Pattern 1853 Rifle) with a crown in the style of the original arsenal markings.

Notes

Make

- Navy Arms Company was established by Val Forgett in 1958.
- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- this is a modern reproduction of the first pistol built for the American government at the national armory in Harpers Ferry, Virginia. This model was known as the "1805" after the date of the initial order, the production of the firearm may have actually commenced in 1806. - the model designation is marked on the lock plate as "Harpers Ferry" followed by a date. As the original pistols were dated 1806, 1807 and 1808 these are sometimes referred to by the year date. - features include: brass noseband, triggerplate, thimbles, triggerguard and buttplate, color case hardened lockplate, ramrod mounted under the barrel and walnut stock.
Manufacturer	- Davide Pedersoli's trademark "dp" within an oval, "Davide Pedersoli & C.", "Pedersoli", "Pedersoli - Italy", or a variation thereof is marked on the firearm.
Action	- muzzle loading, flint-lock pistol.
Importer	- the importers name may appear on the firearm.

Notes

Make

- Navy Arms Company was established by Val Forgett in 1958.
- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model designation is not marked on the firearm.
- "Henry's Patent Oct. 16, 1860" is marked on the barrel.
- this is a modern reproduction of a Henry model 1860 lever action rifle in modern chamberings.
- Henry model 1860 was originally manufactured from 1860 to 1866 by the New Haven Arms Company of New Haven, Conneticut, United States of America.
- Henry model 1860 was originally chambered for calibre 44 HENRY RF.
- Henry model 1860 became the basis for the Winchester model 1866.
- features include: silver blade front sight and an open adjustable flip-up ladder type rear sight; blued octagonal barrel; magazine tube is mounted under the barrel; flat sided brass or blued or color case hardened steel receiver/frame; exposed spur hammer; single action trigger mechanism; close loop operating lever; no forearm; walnut straight grip buttstock with a curved brass butt plate.
- overall length with a 610 mm (24") barrel is 1102 mm (43.3"), and the average weight is 4.08 kg (9 lbs).

Manufacturer

- Aldo Uberti is a manufacturer based in Italy that specializes in producing reproduction firearms.
- Uberti imports ands distributes firearms into North America under the Uberti name, but manufactures firearms for several other firms who market them under their own brand names.
- the Uberti logo may appear on the firearm as a "U" inside a rifled, octagonal barrel.

Serial Number

- appears on the chamber end of the barrel and/or the receiver/frame.

Shots

- tublular magazine located under the barrel.

15531 - 1	50 MATCHLOCK	1	1041	Antique CC 84(1) "antique firearm" para. (b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Navy Arms may or may not be marked on the firearm.

Model

- the model is not marked on the firearm; this is a descriptor of the firearm type.
- this is a modern reproduction of the native Japanese-made "tanegashima" or matchlock musket; "Tanegashima" is a southern Japanese island where Portuguese traders with firearms are commonly believed to have first made contact with the Japanese in the mid-1500s, and domestic copies of those firearms spread rapidly through Japan thereafter.
- the classic "tanegashima" musket resembles a long-barreled matchlock pistol with a long pistol-grip, and without a shoulder-stock of any kind; these firearms could be seen used with a pair of cross-sticks or pole-arm with a rest to allow aiming.
- features include: blued or browned finish; octagonal barrel; full-length smooth wooden stock with long pistol-grip; fixed open sights; brass or copper fittings; a serpentine on a lockplate to hold a length of slow-match; and a rotating pan-cover to keep priming powder in place until firing.

Action

- muzzle-loaded matchlock rifle.

- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Model

- this muzzle-loading percussion firearm is a single shot (.65" calibre) with a nine shot (.44" calibre) cylinder, that revolves on the central single shot barrel.
- barrels: both are normally the same internal length.
- barrel: top, rifled, blued, octogonal & bottom, smoothbore, blued, round.
- hammer & trigger: colour casehardened.
- frame: blued steel.
- stock: 2 piece checkered walnut.
- swivel lanyard ring in butt, spur triggerguard, lever type barrel release & cross pin barrel selector.
- engraved cylinder and frame.

Action

- muzzle loader.
- rifled barrel with a revolving cylinder over a single shot, smooth bore barrel.

Calibre

- this .44 caliber rifled barrel fires a .451" round ball & the .65 caliber or 20 gauge smoothbore barrel fires a .630" round ball or buckshot.

Other Markings

- barrel marked: "Col. LeMat" and "NAVY ARMS CO RIDGEFIELD N.J.".

Make

- Navy Arms Company was established by Val Forgett in 1958.
- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A. circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Model

- model designation may be marked on the top of the barrel as "Col. LeMat" .
- this muzzle-loading, percussion firearm has a single shot barrel (.65" calibre or 20 GA) with a nine shot (.44" calibre) cylinder, that revolves on the central single shot barrel.
- features include: blued finish, also available in a deluxe or super deluxe version with engraving and gold plating; hammer and trigger are colour case-hardened; top barrel is rifled with an octagonal profile, lower barrel is a smoothbore with a round profile (both are normally the same internal length); two-piece checkered walnut grip; lanyard ring on butt; trigger guard has a finger rest (this is a unique feature, the other Le Mat models offered by Pietta have a traditional, rounded trigger guard); lever type barrel release and cross pin barrel selector.

Manufacturer

- the Pietta name is usually marked on the barrel(s).

Action

- muzzle loader.
- rifled barrel with a revolving cylinder over a single shot, smooth bore barrel.

Calibre

- the .44 calibre rifled barrel fires a .451" round ball and the .65 calibre or 20 gauge smoothbore barrel fires a .630" round ball or buckshot.

Shots

- nine .44 calibre and one .65 calibre/20 gauge.

Make

- Navy Arms Company was established by Val Forgett in 1958.
- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Model

- reproduction of a Confederate Leech & Rigdon percussion revolver, which was a based on the Colt 1851 Navy percussion revolver, with a few differences such as a barrel that is not entirely octagonal, no cap release groove in the recoil shield, different type of loading lever attached to the barrel.
- single action black powder percussion revolver.
- features include:
- Grips: 1-piece, walnut, satin finish.
- Frame: steel, colour case-hardened.
- Barrel: Blued, octagon to round at muzzle.
- Front Sight: brass bead.
- Rear Sight: V-notch in hammer nose.
- Backstrap & trigger guard: brass.
- Loading lever & hammer: colour case-hardened.
- Overall Length: 330 mm.

Manufacturer

- "UBERTI" and/or "U" within an octagonal border may be marked on the firearm.

Notes

Make

- "NAVY ARMS" is marked on the side plate under an eagle and on the barrel.

Model

- this is a reproduction of the U.S. Model 1841 muzzle loading percussion rifle as adopted by the United States Army in 1841. This rifle was not made by one particular manufacturer, but by several different manufacturers. This rifle was known as the "Mississippi Rifle" as it was used by a regiment from the State of Mississippi during the Mexican - USA War circa 1845.
- model designation does not appear on the firearm.
- features include: browned round barrel with fixed front and rear sights; ramrod is located under the barrel with brass tip; case hardened lockplate and hammer; brass trigger guard, patch box, butt plate, barrel band and the combination barrel band forend cap; full length walnut straight grip stock; sling swivels.

Manufacturer

- "ANTONIO ZOLI & CO. MADE IN ITALY" was observed marked on the barrel.

Action

- muzzle loader, percussion ignition.

Serial Number

- serial number is marked on the barrel.
- observed serial number consisted of five numbers without a letter prefix or suffix.

Calibre

- calibre is marked on the barrel.

Notes

Make

- Navy Arms Company was established by Val Forgett in 1958.
- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A. circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model designation is not marked on the firearm.
- "J.P. MURRAY "over" COLUMBUS GA." is marked on the lockplate.
- this is a modern reproduction of a "J.P. Murray Artillery Carbine".
- "J.P. Murray Artillery Carbine" was originally manufactured for the Confederate States of America by Greenwoood & Gray of Columbus, Georgia from 1862 to 1865.
- John P. Murray was the superindentent of Greenwoood & Gray factory in Columbus, Georgia from 1862/63 to 1865.
- features include: blade front sight and an open rear sight; round barrel with two brass barrel bands; color case hardened lock plate with an exposed percussion hammer; color case hardened trigger; brass trigger guard; full length walnut straight grip stock with a brass buttplate; blued sling swivels.
- overall length is 1003 mm (39.5"), and the average weight is 3.6 kg (8.0 lbs).

Manufacturer

- manufacturer's name is marked on the firearm.

Action

- muzzle loader.

Notes

Make

- Navy Arms Company was established by Val Forgett in 1958.
- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A. circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Model

- this is a reproduction of the Parker-Hale reproduction of a British rifle used by the Confederates during the Civil War.
- features include: European walnut stock with checkered buttstock and forearm; three barrel bands; brass trigger guard; buttplate and nose cap; colour case hardened lock; hooded post front and adjustable open rear sights; Whitworth patented hexagonal rifling.
- overall length with a 914mm (36") barrel is 1321mm (52mm) and the average weight is 4.7kgs (10.36lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer - manufacturer's name is marked on the firearm.

Action - muzzle loading, side hammer, percussion rifle.

Notes

Make

- "Navy Arms Co. Inc. Bogota N.J. USA" or "Navy Arms Co. Ridgefield. N.J. U.S.A." or a variation thereof is usually marked on the barrel and/or the receiver/frame.
- Navy Arms Company was established by Val Forgett in 1958.
- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "New Army" or "New Army .44" may be marked on the firearm.
- this is a reproduction of the Remington produced "New Model Army" black powder percussion revolver.
- features include: octagonal barrel; under barrel loading lever; solid top receiver/frame with round removeable cylinder; spur hammer; single action trigger mechanism; notch in right side of recoil shield to aid in installing the percussion caps; fixed blade front sight and grooved channel in top-strap for rear sight; blued finish on barrel, trigger, receiver/frame and ram-rod; brass trigger guard; case-hardened hammer; walnut grip panels.

Manufacturer

- "Gregorelli & Uberti" or "G.U." (in script) and "MADE IN ITALY" may be marked on the underside of the barrel (the loading lever will obscure these markings).

Serial Number

- observed serial number was marked on the bottom of the grip strap.
- observed serial number consisted of three numbers without a letter prefix or suffix.

- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model designation is not marked on the firearm.
- may be marked "Patented Sept. 14,1858 E. Remington & Sons, Ilion, New York, U.S.A New Model" on barrel as was marked on original production models.
- this is a modern reproduction of the revolving rifle made by Remington from 1866 to 1879, based on their New Model Army revolver, but with a longer receiver/frame, barrel, loading lever, cylinder and a grip frame modified to accept a straight grip buttstock.
- features include: octagonal or half round/half octagonal barrel; walnut buttstock with crescent butt plate; brass or iron scroll trigger guard with spur for middle finger; blued barrel and cylinder and colour case-hardened receiver/frame.

Manufacturer

the 'Uberti" name or logo is usually marked on the top of the barrel.

Serial Number

- the serial number is marked on the underside of the grip frame.
- observed serial number consisted offive numbers without a letter prefix or suffix.

- Navy Arms Company was established by Val Forgett in 1958.
- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A. circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- model designation is not marked on the firearm.
- "1863" was observed marked at the rear of the lock plate behind the hammer.
- "C.S. RICHMOND, VA" was observed marked in front of the hammer on the lock plate.
- "C.S." refers to Confederate States.
- the original "Richmond model 1863" was based on the Harper's Ferry produced 1855 US Percussion Rifle and was manufactured at Richmond Armory in Virginia with machinery and dies captured by Confederate State forces at Harpers Ferry circa 1861.
- features include: blade front sight and an adjustable multi leaf rear sight; round, rifled barrel with three barrel bands; ramrod is mounted under the barrel; humpback lockplate with percussion hammer is mounted on the right side; full length wood straight grip stock with nosecap and buttplate; sling swivels.
- overall length with a 1016 mm (40") barrel is 1422 mm (56"), and the average weight is 4.6 kg (10.1 lbs).

Action

- muzzle loader.

Other Markings

- "Made in Italy" and Italian proof marks on barrel, lockplate marked "C.S. Richmond, Va" and "1863".

FRT Report

Firearm Reference Number (FRN): 58556
Make: Navy Arms
Model: Scottish Black Watch Regimental Flintlock Pistol

Summary

Make:	Navy Arms
Model:	Scottish Black Watch Regimental Flintlock Pistol
Manufacturer:	Unknown
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Single-Shot
Country of Manufacturer:	
Serial Numbering:	
Legal Classification:	Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
58556 - 1	577 FLINTLOCK	1	177	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make and/or logo may be marked on the firearm.

Model

- the model is not marked on the firearm.
- this is a reproduction of a "Black Watch"-type pistol, with a solid brass grip and stock, a color-case-hardened lockplate, cock, and frizzen, and an unusual-appearing "ball" trigger.
- a very similar pistol, the "Murdoch Pistol" is known under several similar names, and must not be confused with the "Black Watch" pistol; where the "Murdoch" pistol has a "ram's-head" butt, with curled extensions that help to protect a ball-headed vent-pick threaded into the butt, the "Black Watch Pistol" is made with an all-brass butt and stock, with a double-lobed "kidney-shaped" butt that allows the pistol to be used as a club after the shot is fired.
- features include: nickel-finished round barrel; colour case hardened lockplate, cock, and frizzen; open trigger; brass grip.

Action

- muzzle-loading, flintlock pistol.

- Val Forgett was born in 1930 and died on the 25th of November, 2002.
- Navy Arms was an adjunct of Service Armament Corporation and was created to market black powder reproduction arms.
- Service Armament Corporation was founded by Val Forgett in Bogota, New Jersey, U.S.A. circa 1956/57.
- Navy Arms Co., first reproduction was the model 1851 Navy percussion revolver, the original 1851 Navy percussion revolver was manufactured by Colt.
- the first contract for a reproduction of the 1851 Navy percussion revolver, which an initial production run of 2000 were manufactured by the Italian firm Gregorelli & Uberti.
- the earliest 1851 models were trade named the "Yank" and the "Reb".
- the "Yank" being a reproduction of the Colt 1851 Navy percussion revolver and the "Reb" being a reproduction of the Griswold & Gunnison Confederate States of America percussion revolver (later known as the Reb model 1860).
- Navy Arms Co. adopted as its symbol the seal of the Confederate States Navy.
- Navy Arms Co. is a manufacturer, importer and distributor of black powder and modern reproduction firearms.
- Navy Arms Co. reproduction firearms have been manufactured by a number of companies in countries such as Italy (Uberti, Pietta and Pedersoli), Belgium, Japan, England and Germany.
- Navy Arms Co. also sells a variety of surplus original military firearms such as the Mauser C96 Broomhandle, Colt 1911 and the Browning Hi-Power.
- Navy Arms Co. moved from Bogota to Ridgefield, New Jersey, U.S.A. in 1960.
- Navy Arms Co. was located in Ridgefield, New Jersey, U.S.A. from 1960 to 2001.
- Navy Arms Co. acquired a plant in Union City, New Jersey in the early 1970s.
- Navy Arms Co. acquired the black powder division of the Ithaca Gun Company and Classic Arms of Palmer, Massachusetts in 1977.
- Navy Arms Co. was located in Union City, New Jersey, U.S.A. from 2001 to 2005.
- Navy Arms Co. moved to Martinsburg, West Virginia, U.S.A. in 2005.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 1999. - this is a modern reproduction of a Smith & Wesson Top Break No. 3 Single Action Russian Model 3, sometimes called the Smith & Wesson No 3 New Model Russian. - marked in Cyrillic (Russian) on the top-rib of the barrel. - discernable difference from the original: cylinder is 3mm longer; the under-barrel ejector shroud is marginally shorter and somewhat thinner; the top-barrel rib is slightly wider; slightly larger sights. - single action top-break revolver with fluted cylinder; hinged at the front of the frame and "breaks open" with the barrel and cylinder tipping down from the frame for loading and unloading; automatically ejects the cartridges and empty cases when it is "broken open". - features include: blued receiver/frame, barrel and cylinder, case hardened hammer and trigger guard, round blade front-sight integral to barrel; round butt with plain walnut grips; medium length ejector housing; large thumbscrew on top strap; lanyard loop; large spur on bottom rear of trigger.
Manufacturer	- "UBERTI MADE IN ITALY" is marked on the right side of the under-barrel lug.
Action	- hinged barrel design.
Serial Number	- serial number is marked on the receiver/frame.
Calibre	- calibre designation is marked on the barrel.
