Notes

Make	- the Sako name and "Made in Finland" will be marked on the firearm.
Model	- introduced circa 1970. - "A-I", the "serial number", Finnish "Lionhead" and "Definitive Nitro Proofmark" are marked on the left side of the receiver/frame. - "SAKO", "calibre designation," and "Made in Finland" are marked on the barrel. - "Made in Finland" is also stamped on the lower left of the action below the stock line. - utilizes a Mauser type short action designated "A I" specifically designed for short overall length cartridges. - "A I" is a refinement of the Sako L46, L461 series.
Manufacturer	- the Sako name and "Made in Finland" will be marked on the firearm.
Action	- turn-bolt design.
Serial Number	- "A I" and the "serial number" are marked on left side of receiver/frame. - observed serial numbers consisted of six numbers without a letter prefix or suffix. - the root of the bolt handle is usually engraved or electro-pencil marked with the last three digits of the serial number.
Barrel	- this rifle action has been the basis for custom rifle builders and barrel lengths may vary from standard.
Calibre	- this action has been sold in the white for use by custom rifle builders and calibres may vary. - marked on top of the firearm.
Shots	- internal box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Also Known As/Product Code

- all short action Sako rifles are referred to as Vixens despite the rifle's model designation.

Remarks

- Bolt action sporting rifle utilizing the A I short action.
- This model within the "A," series may be distinguished from the early series/model L 46 and L461 by their streamlined bolt shroud.
- This rifle is available with a wide variety of options which include recoil pads, stock cross bolts, degree of metal finish, grades of wood and checkering.
- Actions within the "A" series are available in five lengths identified as (Roman Numeral) I thru V, where;
  - A I is for calibers based on the 223 REM cartridge case length,
  - A II is for calibers based on the 7.62X39 RUSSIAN cartridge case length,
  - A III through A V are designed to accommodate cartridge lengths ranging from 30-06 SPRG to 375 H&H MAG cartridge case length.
  - Long action lengths have been designated at various times as "A III," A IV," "A V," and "A V MAG." Such designations have been applied by either the distributor or manufacturer.
- Actions may be equipped with an integral box magazine either with or without a hinged floorplate, may be designed with single-shot solid bottom receivers (see model entries designated SS under "action"), or may be available with a detachable box magazine.
- Stocks may vary in terms of grade of wood used or the presence of a synthetic stock, presence or lack of checkering, external finish, stock style, selection of butt material etc.
- all firearms were also available in the white as receivers only, as well as with stainless steel barrels.

Notes

Make

- "SAKO" is marked on the barrel.

Model

- introduced circa 1970's
- model designation which appears on the firearm is: "A-II" followed by the serial number, and the Finnish "Lionhead," Definitive Nitro Proofmark.,
- barrel stamped on left side of barrel with "SAKO," followed by "calibre designation," and "Made in Finland."
- "Made in Finland" is also stamped on lower left of the action below stock line.

Manufacturer

- "SAKO" is marked on the barrel.

Action

- turn bolt operated.
- utilises a Mauser type short action designated "A II" specifically designed for medium length cartridges. A refinement of the Sako L57, L579 series.

Serial Number

- stamped on left side of receiver/frame, six digits. The root of the bolt handle is engraved or electro-pencil marked with the last three digits of the serial number.

Barrel

- this rifle action has been the basis for custom rifle builders and barrel lengths may vary from standard.

Calibre

- this action has been sold in the white for use by custom rifle builders. Calibers may vary from standard list.

Remarks

- Bolt action sporting rifle utilizing the A II medium action.
- This model within the "A," series may be distinguished from the early series/model L 57 and L579 by their streamlined bolt shroud.
- This rifle is available in a wide variation of options which include recoil pads, stock cross bolts, degree of metal finish, grades of wood and checkering.
- Actions within the "A" series are available in five lengths identified as (Roman Numeral) I thru V, where;
  - A I is for calibers based on the 223 REM cartridge case length,
  - A II is for calibers based on the 7.62X39 RUSSIAN cartridge case length,
  - A III through A V are designed to accommodate cartridge lengths ranging from 30-06 SPRG to 375 H&H MAG cartridge case length.
  - Long action lengths have been designated at various times as "A III," A IV," "A V," and "A V MAG." Such designations have been applied by either the distributor or manufacturer.
- Actions may be equipped with an integral box magazine either with or without a hinged floorplate, may be designed in single-shot solid bottom receivers (see model entries designated SS under "action"), or may be available with a detachable box magazine.
- Stocks may vary in terms of grade of wood used or the presence of a synthetic stock, presence or lack of checkering, external finish, stock style, selection of butt material etc.
- all firearms were also available in the white as receivers only, as well as with stainless steel barrels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make	- "SAKO" is marked on the barrel.
Model	- "A III" and the "serial number" are marked on the left side of the receiver/frame. - introduced during the 1970's. - utilizes a Mauser-type action designated "A III" specifically designed for the use of 30/06 SPRG cartridge case length cartridges. - a refinement of the Sako L61, L61R, L61R Mag series. - in Europe this action is referred to as the AV and AV Mag. - marked on the left side of the receiver/frame is the model designation: letter "A" plus the "Roman Numeral Three" followed by the serial number, and the Finnish "Lionhead," Definitive Nitro Proofmark., - barrel stamped on left side with "SAKO," followed by "calibre designation," and "Made in Finland." - "Made in Finland" is also stamped on the lower left side of the action.
Manufacturer	- manufacturer's name is marked on the firearm.
Action	- turn-bolt design.
Serial Number	- "A III" and the "serial number" are marked on the left side of the receiver/frame. - observed serial numbers consisted of six numbers without a letter prefix or suffix. - the root of the bolt handle is engraved or electro-pencil marked with the last three digits of the serial number.
Barrel	- this rifle action has been the basis for custom rifle builders and some barrel lengths may vary from the standard manufacturer's specification.
Calibre	- calibers may vary from the standard list.
Shots	- integral box magazine.
Also Known As/Product Code	- Sako rifles with long actions are at times referred to as Finnbears despite the rifle's model designation.
Remarks	- Bolt action sporting rifle utilizing the A III action. - This model within the "A," series may be distinguished from the early series/model L61, L61R, and L61R Mag. by their streamlined bolt shroud. - This rifle is available in a wide variation of options which include recoil pads, stock cross bolts, degree of metal finish, grades of wood and checkering. - Actions within the "A" series are available in five lengths identified as (Roman Numeral) I thru V, where; - A I is for calibers based on the 223 REM cartridge case length, - A II is for calibers based on the 7.62X39 RUSSIAN cartridge case length, - A III through A V are designed to accommodate cartridge lengths ranging from 30-06 SPRG to 375 H&H MAG cartridge case length. - Long action lengths have been designated at various times as "A III," A IV," "A V," and "A V MAG." Such designations have been applied by either the distributor or manufacturer. - Actions may be equipped with an integral box magazine either with or without a hinged floorplate, may be designed in single-shot solid bottom receivers (see model entries designated SS under "action"), or may be available with a detachable box magazine. - Stocks may vary in terms of grade of wood used or the presence of a synthetic stock, presence or lack of checkering, external finish, stock style, selection of butt material etc. - all firearms were also available in the white as receivers only, as well as with stainless steel barrels.

Notes

Model

- introduced circa 1970's.
- model designation appears on the firearm as: "A- IV," followed by the serial number, and the Finnish "Lionhead," Definitive Nitro Proofmark.,
- barrel stamped on left side of barrel with "SAKO," followed by "calibre designation," and "Made in Finland."
- "Made in Finland,' also stamped on lower left of the action below stock line.

Action

- utilizes a Mauser type action designated "A IV" specifically designed for the use of 30/06 SPRG cartridge case length cartridges as well as belted magnum cartridge case length cartridges.
- a refinement of the Sako L61, L61R, L61R Mag, L691 series.
- in Europe this action is refered to as the A V and AV Mag.

Serial Number

- serial number is stamped on the left side of the receiver/frame with six numbers observed.

Barrel

- this rifle action has been the basis for custom rifle builders and barrel lengths may vary from standard.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- this action has been sold in the white for use by custom rifle builders.
- calibers may vary from standard list.

Also Known As/Product Code

- Sako rifles with long actions are at times referred to as Finnbears despite the rifle's model designation.

Remarks

- bolt action sporting rifle utilizing the A IV action.
- this model within the "A," series may be distinguished from the early series/model, L61, L61R, and L61R Mag. by their streamlined bolt shroud.
- this rifle is available in a wide variation of options which include recoil pads, stock cross bolts, degree of metal finish, grades of wood and checkering.
- actions within the "A" series are available in five lengths identified as (Roman Numeral) I thru V, where;
  - A I is for calibers based on the 223 REM cartridge case length,
  - A II is for calibers based on the 7.62X39 RUSSIAN cartridge case length,
  - A III through A V are designed to accommodate cartridge lengths ranging from 30-06 SPRG to 375 H&H MAG cartridge case length.
  - Long action lengths have been designated at various times as "A III," A IV," "A V," and "A V MAG." Such designations have been applied by either the distributor or manufacturer.
- actions may be equipped with an integral box magazine either with or without a hinged floorplate, may be designed in single-shot solid bottom receivers (see model entries designated SS under "action"), or may be available with a detachable box magazine.
- stocks may vary in terms of grade of wood used or the presence of a synthetic stock, presence or lack of checkering, external finish, stock style, selection of butt material etc.
- all firearms were also available in the white as receivers only, as well as with stainless steel barrels.

Notes

Make

- "SAKO" is marked on the left side of the barrel.
- "Made in Finland" may be stamped on the lower left side of the receiver/frame below the stock line.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model

- "SAKO AV", the "serial number", Finnish "Lionhead", and a definitive nitro proofmark are marked on the left side of the receiver/frame.
- introduced circa 1970's.
- this firearm utilizes a Mauser type action designated "A V", specifically designed for the use of 30-06 SPRG cartridge case length cartridges as well as belted magnum cartridges.
- the "AV" is a refinement of the Sako L61, L61R, L61R Mag, L691 series.
- in Europe this bolt action is referred to as the A V and the AV Mag.
- also available in a left hand version.

Manufacturer

- "SAKO" is marked on the left side of the barrel.
- "Made in Finland" may be stamped on the lower left side of the receiver/frame below the stock line.

Action

- turn-bolt design.

Serial Number

- "SAKO AV" and the "serial number" are marked on the left side of the receiver/frame.
- observed serial numbers consisted of six numbers without a letter prefix or suffix.
- the root of the bolt handle is engraved or electro-pencil marked with the last three digits of the serial number.
- NOTE ON POSSIBLE SERIAL NUMBER CONFUSION: on this firearm, the numeric serial number and the model designation (AV) are marked on the left side of the receiver/frame in relatively close proximity to one another; in some instances this is causing the serial number to be incorrectly recorded as having an AV prefix, eg., AVxxxxxx; a serial number with an AV is incorrect.
- noted for the left handed firearm the serial number is located on the right side of the receiver/frame.

Calibre

- the calibre is marked on the top of the barrel.

Shots

- integral box magazine.

Also Known As/Product Code

- Sako rifles with long actions are at times referred to as Finnbears despite the rifle's model designation.

Remarks

- bolt action sporting rifle utilizing the A V action.
- this model within the "A," series may be distinguished from the early series/model, L61, L61R, L61R Mag., and L691 by their streamlined bolt shroud.
- this rifle is available in a wide variation of options which include recoil pads, stock cross bolts, degree of metal finish, grades of wood and checkering.
- actions within the "A" series are available in five lengths identified as (Roman Numeral) I thru V, where;
  - A I is for calibers based on the 223 REM cartridge case length,
  - A II is for calibers based on the 7.62X39 RUSSIAN cartridge case length,
  - A III through A V are designed to accommodate cartridge lengths ranging from 30-06 SPRG to 375 H&H MAG cartridge case length.
  - Long action lengths have been designated at various times as "A III," A IV," "A V," and "A V MAG." Such designations have been applied by either the distributor or manufacturer.
- actions may be equipped with an integral box magazine either with or without a hinged floorplate, may be designed in single-shot solid bottom receivers (see model entries designated SS under "action"), or may be available with a detachable box magazine.
- stocks may vary in terms of grade of wood used or the presence of a synthetic stock, presence or lack of checkering, external finish, stock style, selection of butt material etc.
- all firearms were also available in the white as receivers only, as well as with stainless steel barrels.

Notes

Make

- "SAKO" is marked on the left side of the receiver/frame.

Model

- Based on the "AR-15/M16" design, introduced in 2023.
- "ARG S 40" is marked on the left side of the lower receiver/frame.
- May also be known as "ARG S 40 MPK".
- "ARG" stands for "Arctic Rifle Generation", a family of Finnish AR-10/AR-15 pattern service rifle.
- "S" stands for "Semi-automatic".
- "DI" stands for "Direct Impingement".
- "GP" stands for "Gas Piston".
- "MPK" stands for "Maanpuolustuskoulutusyhdistys", National Defence Training Association of Finland.
- Features include: Alloy accessory rail handguard; split receiver/frame design; ambidextrous magazine release buttons, bolt hold open/release levers, and safety selector dials on the lower receiver; right side ejection port with dust cover; oblong forward assist button and shell deflector on the right side of the upper receiver; AR-10/AR-15 pattern pistol grip, buttstock, and ambidextrous charging handle; QD sling mounts.
- Overall length with a 406 mm (16 inches) barrel is 820 mm (32.3 inches) with the stock collapsed, average weight is 3.2 kg (7 lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "SAKO" is marked on the left side of the receiver/frame.
Action	- Gas operated. - Available in both direct gas impingement and short stroke gas piston models.
Serial Number	- The serial number is marked on the left side of the receiver/frame. - The serial number consists of a two-letter prefix "AR" signifying the "ARG" series of rifles, followed by two digits representing the year of manufacture, followed by six digits. - Additional serial numbers may be marked on other components, with a different serial prefix: "ARB" for barrel, "ARC" for bolt carrier, "ARL" for bolt.
Barrel	- The barrel length does not include any attached device such as flash-hider or muzzle brake.
Calibre	- The calibre designation is marked on the barrel.
Shots	- Detachable box magazine. - Designed to accept "AR-15/M16" type magazines.
Canadian Law Comments	- This firearm design incorporates a split receiver/frame: the lower receiver is the master component considered to be the receiver/frame for all purposes of the Criminal Code and the Firearms Act.
Other Markings	- "MPK" may be additionally marked on the left side of the lower receiver/frame, issued to Finnish Defence Forces Reserves and sold as a limited "Reservist" edition on the civilian market. - Finnish C.I.P. proof marks are marked on the firearm. - "FI" followed by two digits signifying the year of proofing are marked on the firearm. - NATO Commercial And Government Entity (NCAGE) code may be marked on the receiver/frame.

3069 - 1	7X33 SAKO	3	597	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- the "L42" was an experimental short-action bolt-action varmint/hunting rifle that SAKO was working on shortly before Finland was invaded by the Soviet Union.
- manufactured between 1942 and 1944.
- this model was replaced by the "L46".
- features include: birch pistol-grip stock; detachable box magazine; short Mauser-style action; wing safety on bolt, and adjustable open sights.

Manufacturer

- Introduced in 1942 as a lightweight sporter to accomodate the 7x33 Finnish developed cartridge, very few specimens were manufactured.

Action

- Utilises a miniature Model 98 Mauser action complete with external non rotating extractor.

Serial Number

- serial number is located on the left side of the receiver/frame.

Shots

- Utilises a detachable magazine.

Notes

Make

- the make designation is usually marked "SAKO" on the barrel or represented by a lions head logo on the left side of the receiver/frame.

Model

- introduced in 1960, production ceased circa 1974.
- "L461", "No.", the "serial number", the Finnish "Lionhead," and "Definitive Nitro Proofmark" are marked on the side of the receiver/frame.
- "VIXEN" and "MADE IN FINLAND" are usually marked on the barrel.
- this firearm is a bolt action sporting rifle utilizing the L461 short action.
- this rifle is available in a wide variation of options which include recoil pads, stock types, cross bolts, degree of metal finish, grades of wood and checkering.
- actions within the "L" series are available in five lengths identified as follows:
- L461and S491 corresponding to the later "A I" model is for calibers based on the 223 REM cartridge case length, and is also referred to by the name "VIXEN", which may be found marked on the barrel.
- L579 and M591 corresponding to the later "A II" model is for calibers based on the 7.62X39 RUSSIAN cartridge case length, and is also referred to by the name "FORESTER."
- L61R, L61R Mag and L691 corresponding to the later "A III" through "A V" models are designed to accommodate cartridge lengths ranging from 30-06 SPRG to 375 H&H MAG cartridge case length, and is also referred to by the name "FINNBEAR".
- Long action lengths have been designated at various times as "A III," A IV," "A V," and "A V MAG." Such designations have been applied by either the distributor or manufacturer.
- actions may be equipped with an integral box magazine either with or without a hinged floorplate, may be designed in single-shot solid bottom receiver/frames, or may be available with a detachable box magazine.
- stocks may vary in terms of grade of wood used or the presence of a synthetic stock, presence or lack of checkering, external finish, stock style, selection of butt material etc.
- all variations of this model of Sako firearm were available in the white, as receiver/frames only and available with stainless steel barrels.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- "L461 No." and the "serial number" are marked on left side of receiver/frame. - observed serial number consisted of five numbers without a letter prefix or suffix. - observed serial numbers consisted of six numbers without a letter prefix or suffix. - the root of the bolt handle is engraved or electro-pencil marked with the last three digits of the serial number.
Barrel	- this rifle action has been the basis for custom rifle builders and barrel lengths may vary from standard.
Calibre	- this action has been sold in the white for use by custom rifle builders. Calibers may vary from standard list.
Also Known As/Product Code	- all short action Sako rifles are referred to as Vixens despite the rifle's model designation.
Other Markings	- barrel stamped on left side of barrel with "SAKO," followed by "calibre designation," and "Made in Finland." - "Made in Finland" may also be marked on the receiver/frame.
Remarks	- bolt action sporting rifle utilizing the L461 short action. - this rifle is available in a wide variation of options which include recoil pads, stock cross bolts, degree of metal finish, grades of wood and checkering. - actions within the "L" series are available in five lengths identified as follows; - L461and S491 corresponding to the later "A I" model is for calibers based on the 223 REM cartridge case length, and is also referred to by the name "VIXEN." - L579 and M591 corresponding to the later "A II" model is for calibers based on the 7.62X39 RUSSIAN cartridge case length, and is also referred to by the name "FORESTER." - L61R, L61R Mag and L691 corresponding to the later "A III" through "A V" models are designed to accomodate cartridge lengths ranging from 30-06 SPRG to 375 H&H MAG cartridge case length, and is also referred to by the name "FINNBEAR". - Long action lengths have been designated at various times as "A III," A IV," "A V," and "A V MAG." Such designations have been applied by either the distributor or manufacturer. - Actions may be equipped with an integral box magazine either with or without a hinged floorplate, may be designed in single-shot solid bottom receivers (see model entries designated SS under "action"), or may be available with a detachable box magazine. - Stocks may vary in terms of grade of wood used or the presence of a synthetic stock, presence or lack of checkering, external finish, stock style, selection of butt material etc. - all firearms were also available in the white as receivers only, as well as with stainless steel barrels.

Notes

Make	- "Sako" trade name is marked on the top rear of the barrel.
Model	- "L579", "No.", the "serial number", and the Finnish "Lionhead," and "Definitive Nitro Proofmark" are marked on the left side of the receiver/frame. - "Forester" and "Made in Finland" are marked on the left side of the barrel. - the "L579" was designed in 1958 and introduced in 1961 to replace the "L-57". - utilises a Mauser type short action designated "L579" specifically designed for medium-size cartridge case lengths. - the basis of the "A" series of Sako rifles.
Manufacturer	- "Sako" trade name is marked on the top rear of the barrel.
Action	- turn-bolt design.
Serial Number	- "L579 No." and the "serial number" are marked on the left side of the receiver/frame. - observed serial number consisted of six numbers without a letter prefix or suffix. - the root of the bolt handle is engraved or electro-pencil marked with the last three digits of the serial number.
Barrel	- this rifle action has been the basis for custom rifle builders, barrel lengths may vary from standard.
Calibre	- calibre designation is marked on the barrel. - this action has been sold in the white for use by custom rifle builders, calibres may vary from standard list.
Shots	- internal box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Remarks

- Bolt action sporting rifle utilizing the L579 short action.
- This rifle is available in a wide variation of options which include recoil pads, stock cross bolts, degree of metal finish, grades of wood and checkering.
- Actions within the "L" series are available in five lengths identified as follows;
  - L461and S491 corresponding to the later "A I" model is for calibers based on the 223 REM cartridge case length, and is also referred to by the name "VIXEN."
  - L579 and M591 corresponding to the later "A II" model is for calibers based on the 7.62X39 RUSSIAN cartridge case length, and is also referred to by the name "FORESTER."
  - L61R, L61R Mag and L691 corresponding to the later "A III" through "A V" models are designed to accomodate cartridge lengths ranging from 30-06 SPRG to 375 H&H MAG cartridge case length, and is also referred to by the name "FINNBEAR".
  - Long action lengths have been designated at various times as "A III," A IV," "A V," and "A V MAG." Such designations have been applied by either the distributor or manufacturer.
- Actions may be equipped with an integral box magazine either with or without a hinged floorplate, may be designed in single-shot solid bottom receivers (see model entries designated SS under "action"), or may be available with a detachable box magazine.
- Stocks may vary in terms of grade of wood used or the presence of a synthetic stock, presence or lack of checkering, external finish, stock style, selection of butt material etc.
- all firearms were also available in the white as receivers only, as well as with stainless steel barrels.

Notes

Make

- "SAKO" is marked on the barrel (this marking is often obscured by the scope mount if so equipped).

Model

- "L61R", "No.", the "serial number", the Finnish "Lionhead" and "Definitive Nitro Proofmark" are marked on the left side of the receiver/frame.
- "FINNBEAR" and "MADE IN FINLAND" are marked on the left side of the barrel.
- "SAKO" is marked on the top of the barrel followed by the calibre designation.
- "Made in Finland" also stamped on lower left of the action below stock line.
- this model line was introduced in 1961.
- utilises a Mauser type action designated "L61R" specifically designed for belted magnum cartridge case overall lengths.

Manufacturer

- "SAKO" is marked on the barrel.

Action

- turn bolt design.

Serial Number

- "LR61R No." and the "serial number" are marked on the left side of the receiver/frame.
- observed serial number consisted of six numbers without a letter prefix or suffix.
- the root of the bolt handle is engraved or electro-pencil marked with the last three digits of the serial number.

Calibre

- the calibre designation is marked on the barrel.

Shots

- internal box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Also Known As/Product Code

- Sako rifles with long actions are at times referred to as Finnbears despite the rifle's model designation.

Remarks

- bolt action sporting rifle utilizing the L61R short action.
- this rifle is available in a wide variation of options which include recoil pads, stock cross bolts, degree of metal finish, grades of wood and checkering.
- actions within the "L" series are available in five lengths identified as follows;
  - L461and S491 corresponding to the later "A I" model is for calibers based on the 223 REM cartridge case length, and is also referred to by the name "VIXEN."
  - L579 and M591 corresponding to the later "A II" model is for calibers based on the 7.62X39 RUSSIAN cartridge case length, and is also referred to by the name "FORESTER."
  - L61R, L61R Mag and L691 corresponding to the later "A III" through "A V" models are designed to accomodate cartridge lengths ranging from 30-06 SPRG to 375 H&H MAG cartridge case length, and is also referred to by the name "FINNBEAR".
  - Long action lengths have been designated at various times as "A III," A IV," "A V," and "A V MAG." Such designations have been applied by either the distributor or manufacturer.
- actions may be equipped with an integral box magazine either with or without a hinged floorplate, may be designed in single-shot solid bottom receivers (see model entries designated SS under "action"), or may be available with a detachable box magazine.
- stocks may vary in terms of grade of wood used or the presence of a synthetic stock, presence or lack of checkering, external finish, stock style, selection of butt material etc.
- all firearms were also available in the white as receivers only, as well as with stainless steel barrels.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- designed in 1960. - model designation appears on the firearm followed by the serial number, and the Finnish "Lionhead," Definitive Nitro Proofmark., - barrel stamped on left side of barrel with "SAKO," followed by "calibre designation," and "Made in Finland." - bolt action sporting rifle utilizing the L691 short action. - this rifle is available in a wide variation of options which include recoil pads, stock cross bolts, degree of metal finish, grades of wood and checkering. - actions within the "L" series are available in five lengths identified as follows; - L461and S491 corresponding to the later "A I" model is for calibers based on the 223 REM cartridge case length, and is also referred to by the name "VIXEN." - L579 and M591 corresponding to the later "A II" model is for calibers based on the 7.62X39 RUSSIAN cartridge case length, and is also referred to by the name "FORESTER." - L61R, L61R Mag and L691 corresponding to the later "A III" through "A V" models are designed to accommodate cartridge lengths ranging from 30-06 SPRG to 375 H&H MAG cartridge case length, and is also referred to by the name "FINNBEAR". - long action lengths have been designated at various times as "A III," A IV," "A V," and "A V MAG." Such designations have been applied by either the distributor or manufacturer. - actions may be equipped with an integral box magazine either with or without a hinged floorplate, may be designed in single-shot solid bottom receivers (see model entries designated SS under "action"), or may be available with a detachable box magazine. - stocks may vary in terms of grade of wood used or the presence of a synthetic stock, presence or lack of checkering, external finish, stock style, selection of butt material etc. - all firearms were also available in the white as receiver/frames only, as well as with stainless steel barrels.
Action	- utilises a Mauser type short action designated "L691" specifically designed for belted magnum cartridge case overall lengths. - the basis of the "A" series of Sako rifles.
Serial Number	- stamped on left side of receiver/frame. - root of the bolt handle is engraved with the last three digits of the serial number.
Calibre	- do not confuse 7MM Weatherby Magnum with 7MM X 300 Weatherby Magnum.
Also Known As/Product Code	- Sako rifles with long actions are at times referred to as Finnbears despite the rifle's model designation.

Notes

Make

- "SAKO" is marked on the barrel and/or receiver/frame.

Model

- model designation is marked on the left side of the receiver/frame.
- this rifle is the single-shot version of the SAKO, model M591 bolt action rifle featuring a Mauser-type short action designed specifically for medium-size overall cartridge case lengths with a solid bottom receiver/frame.
- features may vary widely due to the fact that the M591 action is also available as a receiver/frame "only".

Action

- turn bolt operated.

Serial Number

- serial number is usually marked on the left side of the receiver/frame.
- known example had a six digit number without a prefix or suffix.

Canadian Law Comments

- "Made in Finland" is marked on the barrel; it is also marked on the lower left side of the receiver/frame usually below the stock line.

Notes

Make

- "SAKO" is marked on the left side of the receiver/frame and on the barrel.

Model

- "SAKO P04R" is usually marked on the left side of the receiver/frame.
- this model series is also known as the "Sako Quad Synthetic" based on the fact that the stock is synthetic material and the barrels for calibres, 22 LR, 22 MAG, 17 HMR and 17 MACH 2 are readily interchangeable; a barrel changing tool is supplied with each rifle.
- features include: adjustable, single stage trigger; free-floating cold hammer forged barrel; safety switch located behind the bolt handle; two lug bolt; available with or without adjustable iron sights and as standard the receiver/frame is dovetailed for scope mounting; synthetic stock with ambidextrous palm swell; adjustable length-of-pull by using spacers; the muzzle may be threaded for accessory mounting.
- overall length for 560mm barrel is 1020mm (40 1/8"), average weight is 2.6kg (5 3/4lbs).

Manufacturer

- "SAKO" is marked on the receiver/frame and barrel.

Action

- turn-bolt design.

Notes

Make - the SAKO name will be marked on the receiver/frame and/or barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- introduced in 2005. - "SAKO P04R" is usually marked on the left side of the receiver/frame. - "P04R Quad" designation refers to the design features that allow one of four different calibre barrel/magazine combinations to be used with one receiver/frame. This model can be had as a "combination" set with four interchangeable barrels of different calibre's or with a single barrel where the owner can order other barrels as accessories. - features include: blued finish; wood or black synthetic, one-piece stock fitted with a rubber recoil pad; two position safety; single stage, adjustable trigger; no sights, intended for use with an optical sighting system.
Action	- turn-bolt design.
Serial Number	- numbered on the receiver/frame, rationalization unknown.
Calibre	- the calibre designation is marked on the barrel, each barrel also has a colour coded ring for easy calibre identification (barrel must be removed to view).
Shots	- detachable box magazine, constructed so that only the correct barrel/magazine combination can be used together.

Notes

Make

- "SAKO" is marked on the left side of barrel.

Model

- designed 1960, production ceasing c.1974.
- "S491" was observed marked on the left side of the receiver/frame.
- features observed: blued tapered barrel without sights; bolt release located on the left side; safety located on the right side behind bolt handle; one piece checkered pistol wood stock; single trigger; sling swivels stud.

Manufacturer

- "SAKO" is marked on the left side of barrel.
- "Made in Finland" marked on the left side of barrel.

Action

- utilises a Mauser type short action designated "S491" specifically designed for short overall length cartridges.
- the basis of the "A" series of Sako rifles.
- turn bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.

Barrel

- this rifle action has been the basis for custom rifle builders and barrel lengths may vary from standard.

Calibre

- this action has been sold in the white for use by custom rifle builders.
- calibre designation is marked on the left side of the barrel.

Shots

- internal box magazine with floor plate.

Also Known As/Product Code

- all short action Sako rifles are referred to as Vixens despite the rifle's model designation.

Remarks

- bolt action sporting rifle utilizing the S491 short action.
- this rifle is available in a wide variation of options which include recoil pads, stock cross bolts, degree of metal finish, grades of wood and checkering.
- actions within the "L" series are available in five lengths identified as follows:
- L461 and S491 corresponding to the later "A I" model is for calibers based on the 223 REM cartridge case length, and is also known as "VIXEN".
- L579 and M591 corresponding to the later "A II" model is for calibers based on the 7.62X39 RUSSIAN cartridge case length, and is also known as "FORESTER".
- L61R, L61R Mag and L691 corresponding to the later "A III" through "A V" models are designed to accomodate cartridge lengths ranging from 30-06 SPRG to 375 H&H MAG cartridge case length, and is also known as "FINNBEAR".
- long action lengths have been designated at various times as "A III," A IV," "A V," and "A V MAG." Such designations have been applied by either the distributor or manufacturer.
- actions may be equipped with an integral box magazine either with or without a hinged floorplate, may be designed in single-shot solid bottom receivers (see model entries designated SS under "action"), or may be available with a detachable box magazine.
- stocks may vary in terms of grade of wood used or the presence of a synthetic stock, presence or lack of checkering, external finish, stock style, selection of butt material etc.
- all firearms were also available in the white as receivers only, as well as with stainless steel barrels.

Notes

Make
- the 'SAKO" name may or may not appear on the firearm.

Model
- this is a generic entry for SAKO bolt action rifles whose model designation is unknown.
- other entries exist which may better describe the firearm being identified.

Serial Number
- may be stamped on left side of the receiver/frame.
- model designation followed by six digits have been observed.
- the root of the bolt handle is usually engraved with the last three digits of the serial number.

Barrel
- this rifle action has been the basis for custom rifle builders and barrel lengths may vary from standard. Magnum barrels usually have a longer length.

Calibre
- this action has been sold in the white for use by custom rifle builders. Calibers may vary from standard list.

Notes

Make

- make is marked on receiver/frame.

Model

- introduced in 2000.
- model designation is marked on left side of receiver/frame.
- features include: cold-hammer forged receiver/frame; short lift bolt handle (60 degree lift); three lug bolt locking mechanism; available in blued metal finish with black, ambidextrous synthetic stock or in parkerized finish with a green ambidextrous synthetic stock; stock utilizes an aluminium bedding block system with the stock body reinforced by the metal frame; adjustable cheekpiece and buttplate with height/length, pitch and lateral adjustment; supplied without open sights; these are available as accessories in either an "emergency" or "match" format; the receiver/frame top has an integral 17mm dovetail for optical sight mounting; fully adjustable two-stage trigger unit which may be removed from the receiver/frame for replacement/repair without stock removal; safety lever is located within the trigger guard; when engaged it both locks the bolt closed and blocks the firing pin; free-floating, hammer forged barrel as standard with stainless barrels available as a factory option; barrel may be fitted with detachable accessories, i.e. muzzle brake.
- also available with shorter (508mm) barrel and tactical folding stock.
- overall length with a 660mm (26") barrel is 1151mm (45.3") average weight is 2.22kg (4.9lbs).

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- manufacturer is marked on the receiver/frame. - may also be marked "MADE IN FINLAND".
Action	- turn-bolt design.
Serial Number	- marked on left side of receiver/frame.
Barrel	- barrel measurement does not include optional barrel mounted accessories such as muzzle brakes.
Calibre	- calibre is marked on barrel. - calibre designation is marked on the barrel. - 308 WIN rifling characteristics: 1 turn in 11 inches, right hand twist.
Shots	- detachable box magazine.
Remarks	- the "SAKO TRG Sharpshooting System" uses cartridge case-length optimized action lengths. - the TRG 22 is designed around the use of 308 WIN calibre cartridge case lengths with a maximum cartridge overall length of 76mm/3". - the TRG 42 is designed around the use of 300 WIN MAG/338 LAPUA MAG calibre cartridge case lengths with a maximum cartridge overall length of 95mm/3.75".

Notes

Make

- "SANTA FE" is usually marked on the top of the receiver/frame.
- "SANTA FE" is a trade name used by Golden Staten Arms on M1 carbines made by "National Ordnance Incorporated".

Model

- this is a commercial variant of the standard U.S. military M1 Carbine.
- produced circa 1970.
- model designation may be marked on the top of the receiver/frame in front of the ejection opening usually in the format of "CAL.30 M1" or "CAL.30 M-1". It is usually necessary to determine the correct model through other features and markings.
- standard features usually include: parkerized finish on the receiver/frame and round barrel; fixed front sight; knob adjustable rear sights; push button or swivel lever safety on the right front of the trigger guard; push button magazine release in front of the safety; fixed wooden pistol grip or metal and wood MP-40 style bottom folding stock with separate upper handguard; left side mounted front sling swivel; may have an inletted oil holder/ sing attachment at the buttstock; front barrel band which may include a bayonet lug; may feature a cone shaped flash hider, a muzzle brake or a grenade launcher attached to the barrel.
- overall length with a 457mm (18") barrel is 903.73mm (35.58") and average weight is 2.49kgs (5.5lbs).

Manufacturer

- "NAT ORD" and/or "NAT'L ORD INC" and "S. EL MONTE CAL." may be marked on the top of the receiver/frame.
- "National Ordnance" was located in South El Monte, California, U.S.A. from 1965 to 1974.
- "National Ordnance" manufactured and assembled from parts military style firearms.

Action

- gas operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number may be marked on the left side of the breech ring or on the top of the receiver/frame just in front of the rear sight.
Calibre	- "CAL.30 M1" is marked on the front receiver/frame ring.
Shots	- detachable box magazine.
Remarks	- manufacturer names, codes or serial numbers are the surest method of identifying these firearms. Identifying marks are to be taken from the receiver/frame only. Wartime production facilities used many parts manufactured by other carbine producers as well as numerous sub-contractors. Carbines were often "arsenal refurbished", again making use of components for any number of different sources. Post war manufacturers also used many surplus military parts particularly in the early productions. As these parts ran out they began to use their own modern manufactured components. It is therefore possible to encounter a commercial carbine that will have military markings on some components as well as military manufactured firearms repaired or refurbished with modern commercial components. Further commercial identification can be done with features such as finish or stock style and material. The proliferation of modern accessory stocks, fitting, sights and other gadgets may also confuse the issue of specific model identification.

FRT Report

Firearm Reference Number (FRN): 125281
Make: Santos, Luis
Model: Single Barrel Percussion

Summary

Make:	Santos, Luis
Model:	Single Barrel Percussion
Manufacturer:	Santos, Luis
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Single-Shot
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Antique

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
125281 - 1	12 GA PERCUSSION	1	990	Antique CC 84(1) "antique firearm" para. (a)	Non-Commercial Customization	

Notes

Make

- the maker's mark of a crown surmounting the letters "SAN" over the letters "TOS" is marked on the top rear of the barrel; various configurations of this mark may be encountered.

Model

- no model name is marked on this firearm.
- this is a muzzle loading, side lock, percussion ignition shotgun, probably converted from a flintlock musket in the early 1800's.
- the maker's mark of a crown surmounting the letters SAN over the letters TOS is marked on the top rear of the barrel; various configurations of this mark may be encountered.

Manufacturer

- the maker's mark of a crown surmounting the letters SAN over the letters TOS is marked on the top rear of the barrel; various configurations of this mark may be encountered.
- Luis Santos was a Spanish gunsmith located in Madrid, Spain circa 1739 to 1762.

Action

- muzzle loading, percussion ignition.

Serial Number

- known example did not have a serial number.

FRT Report

Firearm Reference Number (FRN): 143817
Make: Sar Arms
Model: SAR CM9

Summary

Make:	Sar Arms
Model:	SAR CM9
Manufacturer:	Sarsilmaz
Level:	Manufacturer Specifications and Commercial Customization
Type:	Handgun
Action:	Semi-Automatic
Country of Manufacturer:	TURKEY
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
143817 - 1	9MM LUGER	10	97	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Non-Commercial Customization	
143817 - 2	9MM LUGER	15	97	Prohibited CC 84(1) "prohibited firearm" para. (a)(i)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SAR ARMS" and "SARSILMAZ" is marked on the grips.

Model

- "SAR-CM9" was observed marked on the right side of the receiver/frame.
- features include: fixed sightsl; black steel or stainless steel slide with adjustable rear sight and fixed front sight; rear gripping serrations; polymer receiver/frame; accessory rail; exposed hammer; double/single action trigger mechanism; slide release lever, magazine release button, and manual safety lever are mounted on the left side of the receiver/frame; black rubber grip panels; black or black and matte stainless finish.
- overall length is 185.42mm (7.3"), overall height is 139.7 mm (5.5"), and average weight is 807.96 grams (28.5 oz).

Manufacturer

- "SARSILMAZ" may be marked on the left side of the receiver/frame.
- "MADE IN TURKEY" was observed marked on the right side of the receiver/frame.

Action

- recoil operated.

Serial Number

- serial number is marked on the barrel at the ejection port.
- serial number of an observed example consisted of a six letter prefix (FUAREP) and three numbers.

Shots

- detachable box magazine.

Notes

Make

- may be marked on the firearm.

Model

- introduced in 1970.
- the model designation may not be marked on the firearm.
- this model has been produced in several variations, although each remains a model 25.
- features may include:
- boxlock action in a receiver without sideplates but with a scalloped stock/receiver joint;
- blued barrels;
- the receiver/frame may be blued or chromed;
- double crossbolt locking of the action;
- 7mm wide ventilated rib;
- automatic tang safety;
- extractors not ejectors;
- double trigger;
- forged receiver/frame without reinforcements at the rear of the barrel assembly;
- hand engraving may range from simple border lines to elaborate scrollwork;
- selected checkered walnut buttstock and forend;
- barrel interiors are hard chromed;
- top-lever opening.

Manufacturer

- may be marked on the firearm as "F. Sarasqueta," "Felix Sarasqueta," or "Felix Sarasqueta Y Cia."
- additionally, the maker's mark of "F.S.C." may be marked on the watertable of the receiver/frame near the proofmarks.

Action

- over and under barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Notes

Make

- may be marked on the firearm.

Model

- introduced in 1971.
- the model designation may not be marked on the firearm.
- this model has been produced in several variations, although each remains a model 25E.
- features may include:
- boxlock action in a receiver without sideplates but with a scalloped stock/receiver joint;
- blued barrels;
- the receiver/frame may be blued or chromed;
- double crossbolt locking of the action;
- 7mm wide ventilated rib;
- automatic tang safety;
- automatic ejectors;
- double trigger;
- forged receiver/frame without reinforcements at the rear of the barrel assembly;
- hand engraving may range from simple border lines to ellaborate scrollwork;
- selected checkered walnut buttstock and forend;
- barrel interiors are hard chromed;
- top-lever opening.

Manufacturer

- may be marked on the firearm as "F. Sarasqueta," "Felix Sarasqueta," or "Felix Sarasqueta Y Cia."
- additionally, the maker's mark of "F.S.C." may be marked on the watertable of the receiver/frame near the proofmarks.

Action

- over and under barrel configuration.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the receiver/frame.
Calibre	- marked on the barrel.
Remarks	- the Felix Sarasqueta series of over/under shotguns introduced between 1970 and 1977 share some basic characteristics. - in appearance this shotgun resembles a Merkel-type action. - the exterior profile of the chamber end of the top barrrel and the receiver/frame is rectangular. - a crossbolt locking mechanism protrudes from the left side of the receiver/frame when the action is open and two locking lugs extend from the rear of the barrel assmbly; one on each side of the upper chamber. - the models 25 and 25E do not have side reinforcements as part of the barrel assembly and receiver/frame design; rather, the barrel and receiver surfaces are flat and parallel. - the models 30 and 30E have side reinforcements as part of the barrel assembly and receiver/frame design and both have a scalloped rear edge to the receiver/frame where it meets the buttsock. - the model 35E has side reinforcements as part of the barrel assembly and receiver/frame design as well as sideplates which are inletted to the buttstock.

Notes

Make

- "Victor Sarasqueta - Eibar" is marked on the top barrel rib.
- the Victor Saraqueta's trademark letters "V.S." or "A.M." may be enclosed within a circle or an oval and are usually marked on the water table of the receiver/frame.

Model

- "Mo 3" is marked on the trigger guard extended tang.
- features include: bead front sight; smooth bores; tapered round barrels; box lock receiver/frame; automatic ejectors; double trigger mechanism; break opening lever and thumb safety lever are located on the upper rear receiver/frame tang; checkered semi-pistol grip buttstock with cheekpiece and schnabel tip forearm; butt plate; blued barrels; engraved nickel finished receiver/frame.

Manufacturer

- "Victor Sarasqueta - Eibar" is marked on the top barrel rib.
- the Victor Saraqueta's trademark letters "V.S." or "A.M." may be enclosed within a circle or an oval and are usually marked on the action flats of the receiver/frame.
- in 1883, Victor Sarasqueta established a gun shop in Eibar, Spain.
- Victor Sarasqueta and Señor Cortabarria formed a company called "Manufacturera Mecanica Eibarresa", shortly after establishing the company, Señor Cortabarria retired and the company was renamed Victor Sarasqueta, S.A.
- Sarasqueta's original shop manufactured single shots shotguns, side by side shotguns and rifles, but eventually expanded into a number of other enterprises, such as manufacturing ball bearing and precision electrical machinery.
- Sarasqueta outgrew its original plant and moved into a larger building in 1902.
- Victor Sarasqueta, although they share the same family name, this is not the same manufacturer as Felix Sarasqueta or JJ Sarasqueta.
- in 1986, Diarm SA purchased the "Victoria Saraqueta" trademark.

Action

- side by side barrel configuration, hinged barrels.

Serial Number

- serial number is marked on the water table.
- observed serial number consisted of six digits.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre designation is marked on the water table of the receiver/frame and on the barrel flat.

Notes

Make

- "Sarsilmaz" is usually marked on the receiver/frame and grip panels.

Model

- this firearm is basically the Kilinc 2000 Premium model, dedicated to Mustafa Kemal ATATURK, founder of the Turkish Republic, on the 75th anniversary of the Republic.
- in white chrome finish, it is decorated with scroll etchings in panels on the receiver/frame and slide, and a line illustration of the bust of Ataturk on the right side of the receiver/frame above the handgrip.
- receiver/frame, slide, and all metal parts are machined from chrome-molybdenum steel.
- the receiver/frame has an extended tang behind the hammer.
- the slide has full-width, full-length slide-rails for the receiver/frame.
- the slide has diagonal grasping grooves on the sides for cocking, towards both the front and rear of the slide.
- fixed front and drift adjustable rear; three dot sighting system.
- black rubber hand-grips.
- the basic design of this handgun is almost identical to the Czech CZ75 pistol.

Manufacturer

- "Sarsilmaz" is usually marked on the receiver/frame and grip panels.

Action

- recoil operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- marked on the right side of the receiver/frame.
Calibre	- calibre designation is marked on the barrel, visible through the ejection port.
Shots	- detachable box magazine.
Other Markings	- marked on the left side of the receiver/frame above the hand-grip: MADE IN TURKIYE

Notes

Make

- "SARSILMAZ" is marked on both sides of the receiver/frame.

Model

- "SAR 56 HMT" is marked on the right side of the lower receiver/frame.
- The firearm is a modified version of the Sarsilmaz SAR 56 adapted to use a belt-fed upper receiver with a quick-change barrel system while retaining the ability to use SAR 56 box magazines
- Features include: cross-bolt safety selector; left-side folding charging handle; hinged feed tray top cover and folding front sight; bolt catch button located on the left side of the receiver/frame; magazine release button located on the right side of the receiver/frame.

Manufacturer

- "SARSILMAZ" is marked on both sides of the receiver/frame.

Action

- Gas operated.
- Capable of full automatic fire.

Barrel

- The barrel length does not include any attached device such as flash-hider or muzzle brake.

Calibre

- The calibre designation is marked on the right side of the receiver/frame.
- "Cal. 5.56x45 mm" is marked on the right side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- Belt fed firearm. - Detachable box magazine.
Canadian Law Comments	- This firearm design incorporates a split receiver/frame: the lower receiver is the master component considered to be the receiver/frame for all purposes of the Criminal Code and the Firearms Act.

Notes

Make

- most examples marked on the side of the receiver: SASILMAZ (others are not marked)
- usually marked on the left side of the receiver, a logo comprised of a left profile of this basic model, intertwined with a capital letter "S".
- marked on the top right side of the barrel near the breech-end: SARSILMAZ

Model

- marked on the lower right side of the receiver: SUPER COBRA
- Super Cobra models are only available in plain round 12 Gauge barrel with front sight, blued receiver with gold-colour border and decorated with a gold-colour illustration of a striking cobra, blued barrel, front sling swivel, black synthetic (plastic) ribbed pump forend and matching checkered buttstock with a "Speed-Loader" feature and a thick rubber recoil pad.

Serial Number

- usually marked on the receiver/frame.

Barrel

- normally comes with a 3" chambered 470mm barrel (optional barrel lengths of 610mm and 710mm).

Calibre

- chambered for three inch cartridges, will function with the shorter 2 3/4" cartridges of the same gauge as designated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- underbarrel tube magazine contains five cartridges of three inch length. (capacity with one in the chamber claimed by the manufacturer as 6 shots with 3" shells)
- using 2 3/4" cartridges the magazine will hold 6 shells (advertised as a total of 7 shots, including one in the chamber)

FRT Report

Firearm Reference Number (FRN): 129233
Make: SaskSten
Model: MP3008 Rotary Magazine Sten

Summary

Make:	SaskSten
Model:	MP3008 Rotary Magazine Sten
Manufacturer:	SaskSten
Level:	Manufacturer Specifications and Commercial Customization
Type:	Submachine Gun
Action:	Full Automatic
Country of Manufacturer:	CANADA
Serial Numbering:	See Note
Legal Classification:	Prohibited

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
129233 - 1	9MM LUGER	5	200	Prohibited CC 84(1) "prohibited firearm" para. (c)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- the make information was found marked on the inside of the magazine housing on the front inside portion as "SaskSten".

Model

- the SaskSten, MP3008, Rotary Magazine Model, resembles a Sten MK II, except that it feeds from Soumi submachine gun magazines in the vertical downwards position or a bottom mounted, high capacity drum magazine and has a wood, front pistol grip in the left hand horizontal position that is attached to the barrel sleeve. The SaskSten, Rotary Magazine Model, is capable of accepting parts from an original full-automatic Sten gun or the SaskSten, Sten MK II firearm with the exception of the bolt.
- the magazine housing is marked on the front inside portion "SaskSten MP3008". On the rear inside portion of the magazine housing, the serial number is marked on the right side, "CANADA" on the left side.
- this firearm design is distinguished by its all-metal welded construction and by a short barrel that can be replaced by pulling out a locking ratchet and unscrewing the barrel nut (attached to the ventilated barrel shroud); the magazine housing is permanently fixed in position.
- all metal surfaces are painted low-gloss black.

Manufacturer

- "SaskSten" was found marked on the inside of the magazine housing on the front inside portion.

Action

- advanced primer ignition, blowback operated.

Serial Number

- the serial number information on the firearm inspected was found on the magazine housing rear inside portion, right side.
- the serial number rationalization is unknown.
- the serial number of the firearm inspected consisted of two roman alphabet letters, followed by five digits, followed by a letter.

Barrel

- easily removable/replaceable barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box or drum magazine. - accepts all Suomi or PPSH submachine gun magazines and drums.
Canadian Law Comments	- this SaskSten model MP3008 Rotary Magazine Sten firearm, although manufactured to be a semi-automatic firearm, was found to be easily converted to fire full-automatic in a relatively short period of time with relative ease.
Other Markings	- the MAKE, MODEL, the serial number and the word "CANADA" were found marked on the inside surfaces of the magazine housing.

130590 - 3	9MM LUGER	32	200	Prohibited PFR, Part 1, para. 177(b)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SASKSTEN" was not marked on the firearm.

Model

- "STEN MARK 1*" submachine gun design was distinguished by its all-metal welded construction, fixed magazine housing and tubular metal stock.
- the SaskSten, Sten MARK 1* closely resembles a Sten model MARK 1* submachine gun and is capable of accepting parts from an original full-automatic Sten gun.
- design features observed: refurbished barrel, newly manufactured magazine housing assembly welded to tube assembly; newly manufactured tube assembly with the sear cut-out width reduced; the full auto selector was converted into a sear disconnect; re-manufactured breech block/bolt assembly with non-removable cocking handle and rear spigot extension; access holes between the tube assembly and trigger group casing are welded closed; selector is welded to the trigger group casing in the fire position; trigger mechanism cover drain hole is welded closed and assembled with no removable hardware; refurbished removable butt assembly; fixed sights; blued finish.

Action

- advanced primer ignition, blowback operated.

Serial Number

- serial number rationalization is unknown.
- observed serial number consisted of a two letter "SS" prefix followed by four numbers and "CA"suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box magazine.
- accepts all Sten submachine gun magazines.

Canadian Law Comments

- STEN Gun Receivers:
- The tube in which the breech bolt reciprocates and the magazine housing constitute the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm".
- For regulatory purposes, when the two component receiver/frame is further disassembled, the receiver/frame component known as the magazine housing where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration.
- The classification of this firearm as a semi-automatic firearm is based on the presumption that neither of the original two (2) receiver components were reused. This is what was understood to be the meaning of the claim by the manufacturer that the firearm is a "newly manufactured semi-automatic firearm".

- "SASKSTEN" is marked on the magazine housing upper surface.

Action

- advanced primer ignition, blowback operated.

Serial Number

- serial number is found marked on the magazine housing upper surface.
- serial number rationalization is unknown.
- observed serial number consisted of a two letter "SS" prefix and five numbers.
- serial number is marked with a tool similar to an electric pencil and is very shallow.

Barrel

- easily removable / replaceable barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots	- detachable box magazine. - accepts all Sten submachine gun magazines.
Canadian Law Comments	- this Sten Mark 2 firearm, although manufactured to be a semi-automatic firearm, was found to be easily converted to fire full-automatic in a relatively short period of time with relative ease. - STEN Gun Receivers - the tube in which the breech bolt reciprocates and the magazine housing constitute the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm". - for the administrative purposes of The Firearms Act, when the two component receiver/frame is further disassembled, the receiver/frame component known as the magazine housing where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration. - the classification of this firearm as a semi automatic firearm is based on the presumption that neither of the original two (2) receiver components were reused. This is what was understood to be the meaning of the claim by the manufacturer that the firearm is a "newly manufactured semi-automatic firearm". - the Criminal Code PART III, Section 84 para (c) definition - prohibited firearm means, "an automatic firearm, whether or not it has been altered to discharge only one projectile with one pressure of the trigger".
Other Markings	- the magazine housing is marked on the bottom surface " CANADA".

Notes

Make

- "SASKSTEN" was observed marked on the upper surface of the magazine housing.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- "STEN MK II" was observed marked on the upper surface of the magazine housing. - "CANADA" was observed marked on the magazine housing. - introduced in 2009. - "STEN MARK 2" submachine gun design was distinguished by its all-metal welded construction and by a short barrel that could be replaced by pulling out a locking ratchet and unscrewing the barrel nut (attached to the ventilated barrel shroud); and the magazine housing could be rotated about the receiver axis to reduce the width of the firearm when carried. - SaskSten Sten Mk II closely resembles a Sten MARK 2 submachine gun and is capable of accepting parts from an original full-automatic Sten gun. - design features observed: refurbished barrel, barrel shroud and barrel nut; newly manufactured magazine housing assembly; newly manufactured tube assembly with the sear cut-out width reduced; re-manufactured breech block/bolt assembly with non-removable cocking handle and rear spigot extension; access holes between the tube assembly and trigger group casing are welded closed; selector is welded to the trigger group casing in the fire position; trigger mechanism cover drain hole is welded closed and assembled with no removable hardware; refurbished removable butt assembly; fixed sights; blued finish.
Manufacturer	- "SASKSTEN" was observed marked on the upper surface of the magazine housing.
Action	- advanced primer ignition, blowback operated.
Serial Number	- serial number was observed marked on the magazine housing upper surface. - serial number rationalization is unknown. - observed serial number consisted of two letters "SS" prefix and five numbers. - observed serial number consisted of two letters "SS" prefix and seven numbers and a two letter "CA" suffix. - serial number was marked with a tool similar to an electric pencil and is very shallow.
Shots	- detachable box magazine. - accepts all Sten submachine gun magazines.
Canadian Law Comments	- The tube in which the breech bolt reciprocates and the magazine housing constitute the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm". - For regulatory purposes, when the two component receiver/frame is further disassembled, the receiver/frame component known as the magazine housing where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration. - The classification of this firearm as a semi-automatic firearm is based on the presumption that neither of the original two (2) receiver components were reused. This is what was understood to be the meaning of the claim by the manufacturer that the firearm is a "newly manufactured semi-automatic firearm".
Other Markings	- "S68" was observed marked on the left side of the trigger group cover. - "S68" was the manufacturer's code for Lines Brothers.

Notes

Make

- "SaskSten" is marked on the firearm.

Model

- "Sten MARK 2 Rotary Magazine Model" is not marked on the firearm.
- the SaskSten, Sten MARK 2, Rotary Magazine Model, resembles a Sten MARK 2, except that it feeds from PPSH submachine gun magazines in the vertical downwards position or a bottom mounted, drum magazine and has a wood, front pistol grip in the left hand horizontal position that is attached to the barrel sleeve. The SaskSten, Sten MARK 2 Rotary Magazine Model is capable of accepting parts from an original full-automatic Sten gun or the SaskSten, Sten MARK 2 firearm with the exception of the bolt and magazines.
- this firearm design is distinguished by its all-metal welded construction and by a short barrel that can be replaced by pulling out a locking ratchet and unscrewing the barrel nut (attached to the ventilated barrel shroud); the magazine housing is permanently fixed in position.
- all metal surfaces are painted low-gloss black.

Manufacturer

- "SaskSten" is marked on the firearm.

Action

- advanced primer ignition, blowback operated.

Serial Number

- serial number rationalization is unknown.

Barrel

- easily removable/replaceable barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots

- detachable box or drum magazine.
- accepts all Suomi or PPSH submachine gun magazines and drums.

Canadian Law Comments

- STEN Gun Receivers:
- The tube in which the breech bolt reciprocates and the magazine housing constitute the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm".
- For regulatory purposes, when the two component receiver/frame is further disassembled, the receiver/frame component known as the magazine housing where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration.
- The classification of this firearm as a semi-automatic firearm is based on the presumption that neither of the original two (2) receiver components were reused. This is what was understood to be the meaning of the claim by the manufacturer that the firearm is a "newly manufactured semi-automatic firearm".

Notes

Make

- "SaskSten" was observed marked on the front inside of the magazine housing.

Model

- "Sten MARK 2 Rotary Magazine Model" was not observed marked on the firearm.
- "SaskSten" over "MP3008" was observed marked on the front inside portion the magazine housing.
- "SS10916D" was observed marked on the right rear inside portion of the magazine housing.
- "CANADA" was observed marked on the left rear inside portion of the magazine housing.
- the SaskSten, Sten MARK 2, Rotary Magazine Model, Prototype, resembles a Sten MARK 2, except that it feeds from PPSH submachine gun magazines in the vertical downwards position or a bottom mounted, drum magazine and has a wood, front pistol grip in the left hand horizontal position that is attached to the barrel sleeve. The SaskSten, Sten Mk II Rotary Magazine Model, Prototype is capable of accepting parts from an original full-automatic Sten gun or the SaskSten, Sten MARK 2 firearm with the exception of the bolt and magazines.
- this firearm design is distinguished by its all-metal welded construction and by a short barrel that can be replaced by pulling out a locking ratchet and unscrewing the barrel nut (attached to the ventilated barrel shroud); the magazine housing is permanently fixed in position.
- all metal surfaces are painted low-gloss black.

Manufacturer

- "SaskSten" was observed marked on the inside of the magazine housing on the front inside portion.

Action

- no longer capable of full automatic fire.

Serial Number

- serial number was observed marked on the magazine housing rear inside portion, right side.
- serial number rationalization is unknown.
- serial number observed consisted of a two letter "SS" prefix, five numbers and a letter "D" suffix.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Barrel	- easily removable/replaceable barrel.
Shots	- detachable box or drum magazine. - accepts all Suomi or PPSH submachine gun magazines and drums.
Canadian Law Comments	- this SaskSten, Sten Mk II Rotary Magazine Model Prototype firearm, as modified to be a semi-automatic firearm, was found to be a converted automatic firearm.

Notes

Make

- "SASKSTEN" was not marked on the firearm.

Model

- the "STEN NEW ZEALAND LOCAL PATTERN" was a hybrid of the STEN model MARK 2 and MARK 3 submachine gun manufactured in New Zealand for the New Zealand Army.
- "STEN NEW ZEALAND LOCAL PATTERN" submachine gun design was distinguished by its all-metal welded construction, exposed short barrel that could not be readily replaced and fixed magazine housing.
- the SaskSten, Sten New Zealand Pattern closely resembles a Sten model New Zealand Local Pattern 3 submachine gun and is capable of accepting parts from an original full-automatic Sten gun.
- design features observed: refurbished barrel, newly manufactured magazine housing assembly welded to tube assembly; newly manufactured tube assembly with the sear cut-out width reduced; the full auto selector was converted into a sear disconnect; re-manufactured breech block/bolt assembly with non-removable cocking handle and rear spigot extension; access holes between the tube assembly and trigger group casing are welded closed; selector is welded to the trigger group casing in the fire position; trigger mechanism cover drain hole is welded closed and assembled with no removable hardware; refurbished removable butt assembly; fixed sights; blued finish.

Action

- advanced primer ignition, blowback operated.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Serial Number	- serial number was observed marked on the magazine housing upper surface. - serial number rationalization is unknown. - observed serial number consisted of a four letter "SSNZ" prefix followed by three numbers and "CA"suffix. - serial number was marked with a tool similar to an electric pencil and is very shallow.
Shots	- detachable box magazine. - accepts all Sten submachine gun magazines.
Canadian Law Comments	- STEN Gun Receivers: - The tube in which the breech bolt reciprocates and the magazine housing constitute the receiver/frame for all purposes of the Criminal Code, Section 2 definition of "firearm". - For regulatory purposes, when the two component receiver/frame is further disassembled, the receiver/frame component known as the magazine housing where the manufacturer information and serial number are found, is used to establish the description for the purpose of firearms registration. - The classification of this firearm as a semi-automatic firearm is based on the presumption that neither of the original two (2) receiver components were reused. This is what was understood to be the meaning of the claim by the manufacturer that the firearm is a "newly manufactured semi-automatic firearm".

130589 - 2	9MM LUGER	5	475	Prohibited PFR, Part 1, para. 177(g)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SASKSTEN" was not marked on the firearm.

Model

- the SaskSten, Sten/Suomi FRT is a hybrid firearm with a Sten Machine Carbine type trigger mechanism and detachable buttstock and a Suomi model 1931 submachine gun type bolt, receiver tube and magazine housing.
- design features observed: refurbished barrel, Suomi type barrel jacket and magazine housing assembly; newly manufactured tube assembly with the sear cut-out width reduced; the full auto selector was converted into a sear disconnect; re-manufactured breech block/bolt assembly with non-removable cocking handle and rear spigot extension; access holes between the tube assembly and trigger group casing are welded closed; selector is welded to the trigger group casing in the fire position; trigger mechanism cover drain hole is welded closed and assembled with no removable hardware; removable butt assembly; fixed sights; blued finish.

Action

- advanced primer ignition, blowback operated.

Serial Number

- serial number rationalization is unknown.
- observed serial number consisted of a five letter "SSFRT" prefix followed by a single number followed by a "CA" suffix.

Shots

- detachable box magazine or rotary magazine.
- accepts Suomi or PPSH submachine gun box and drum magazines.

Other Markings

- the rear sight housing may be marked with a patent date of 1932 and/or a model designation and manufacturer's name - such as SUOMI (over) Tikkakoski.
- while these markings may be found on SaskSten products of this model name they merely designate the original patent date, model and/or manufacturer's name of the rear sight housing.

Make	- the Make is not marked on the firearm.
Model	- the SaskSten, Sterling Mark 4 Police Carbine Prototype is a copy of a Sterling, MARK 4, Police Carbine which in its own right was a semi automatic copy of a Sterling, Submachine Gun MARK 4. - the model designation is not marked on the firearm. - this firearm is a close copy of a Sterling, MARK 4, Police Carbine. There are no substantive differences between the UK parent Submachine Gun and the Police Carbine other than minor differences in the trigger mechanism. - features include: - overall black paint finish; under folding metalic stock; tubular metal construction; the trigger mechnism detaches in its entirety with a single disassembly pin.
Manufacturer	- the Manufacturer's name is not marked on the firearm.
Action	- blowback operated.
Serial Number	- serial number rationalization unknown. - the serial number on a sample firearm - the SaskSten Prototype, was lightly inscribed in a manner similar to electric pencil. - a observed sample serial number consisted of the prefix "SSS" followed by the Roman alphabet leters "PC" followed by the Arabic numeral "2" followed by the Roman Alphabet suffix letters "CA". - example - SSSPC2CA.
Shots	- detachable box magazine. - accepts all Sterling submachine gun magazines and all Canadian SMG C1 magazines.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Canadian Law Comments - the SaskSten, Sterling MARK 4 Police Carbine Prototype, serial number SSSPC2CA, is easily and readily convertible to full automatic fire with relative ease in a short time period by simply replacing the entire trigger group or by manipulating the trigger to prevent the trigger and/or sear from resetting to hold the bolt to the rear.

Notes

Make

- "SATA" and "Gardone V.T." are marked on the left side of the slide.
- "SATA" is moulded into the top of the grip plates.
- "SATA" brand name is believed to be an acronym composed of the first two letters of each of the two partner's names ("SABATTI & TANFOGLIO").

Model

- "PISTOLA" or "Pistola Aut. "SATA"" is marked on the left side of the slide.
- manufactured between 1953 and 1960.
- features include: fixed sights; round fixed barrel; flat sided slide with right side ejection and rear grip serrations; safety lever is mounted on the left side of the receiver/frame, behind the grip plate; detachable box magazine release is mounted on the heel of the back grip strap; synthetic grip plates.
- striker fired (hammerless) design.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Manufacturer	- "Made in Italy" is marked on the left side of the slide. - manufacturer's name is not marked on the firearm. - "SATA" the manufacturer brand name is marked on the firearm. - "SATA" acronym is composed of the first two letters of each of the two partner's names "SABATTI & TANFOGLIO". - Sabatti & Tanfoglio operated from 1953 to 1960 to be succeeded by Giuseppe Tanfoglio which operated from 1961 to 1990. The sons of Giuseppe Tanfoglio formed a company known as Fratelli Tanfoglio in 1970, this firm bought all assets and machinery of Giuseppe Tanfoglio and ran the business under the name of Fratelli Tanfoglio starting in 1990.
Action	- blow back operated.
Serial Number	- serial number rationalization unknown. - serial number was observed marked on the right side of the receiver/frame, under the grip plate and repeated on the right side of the slide. - serial number observed consisted of four numbers without a letter prefix or suffix.
Calibre	- caliber is marked on the left side of the slide.
Shots	- detachable box magazine.

21724 - 1	6.35MM	6	56	Prohibited CC 84(1) "prohibited firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make

- may be marked "SAUER" or "J.P. SAUER & SOHN" on the left side of the slide and on the grip panels.

Model

- 20,000 manufactured circa 1920 to 1930.
- the model designation is not marked on the firearm.
- the acronym "WTM" stands for "Westen Taschen Pistole" which translates to "Shirt Pocket Pistol".
- features include: fixed front sight with a grooved rear sight; hammerless; cocking indicator; top ejection; the front and the rear of the slide are grooved for a better grip; the magazine release is located on the bottom of the grip; blued finish with hard rubber grips without grip screws.
- a modified version, known as the "1928 WTM" is a later version which has two variations, the breech block and the slide are in one on both variations and the slide serrations are located at the rear of the slide only. The second variation was introduced in circa 1932. It differs by having the ejector port on the right side of the slide.

Manufacturer

- the manufacturer's name "J.P.SAUER & SOHN" may be marked on the left side of the slide, or "J.P.SAUER & SOHN, SUHL." may be marked on the top of the slide.

Action

- blowback operated.

Calibre

- the calibre designation is marked on the right side of the slide and on the grip panels.

Shots

- detachable box magazine.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Other Markings - "PATENT" may be marked on the left side of the slide.

Notes

Model

- discontinued in 1987.
- eight variations offered, 200,200 Lux, Europe, Europe Lux, Europe Lux E, American, American Lux and American Lux E.

Manufacturer

- manufacturers full name is J.P. Sauer & Sohn.

Action

- bolt has six locking lugs and locks directly to the barrel.
- standard and magnum length actions.

Serial Number

- early models have serial number on barrel only.
- later (after 1968) models have serial number on left side of receiver.

Shots

- detachable box magazine.
- three or five round for standard calibers, three or four for magnum.

Remarks

- two piece walnut stock with rosewood pistol grip cap and forend tip.
- gold plated set trigger, jewelled bolt, drilled and tapped for scope mounts and optional open front and rear sights.
- barrels (and therefore calibers) are field changeable and the rifle can be taken down to barrel, action and butt stock easily.

Notes

Make

- Sauer's logo and "SAUER" are marked on the side of the receiver/frame.

Model

- introduced in 1987.
- "SAUER 202" is marked on the side of the receiver/frame.
- "SAUER 202" bolt-action rifle is available with a number of options such as four fore-end, five buttstocks, two stock materials, nine wood grades, eight bolts, three triggers, two receivers, thirteen barrels, three sights, and twenty-two calibres.
- available in a standard and magnum length actions.
- available in a left or right hand version (action and stock).
- features include: interchangeable round cold hammer forged barrel with or without ramp front sight and adjustable open leaf rear sight; modular aluminum or steel receiver/frame drilled and tapped for scope mounts; six bolt lugs lock into the barrel; cocked indicator and safety button located at the back rear of the receiver/frame; safety button located inside the trigger guard; magazine release button located in front of the magazine well; removable trigger mechanism; walnut or synthetic forearm and detachable pistol grip buttstock with or without sling swivels; blued/black, silver or camouflage finish.
- overall length with a 510mm (20") barrel is 1025mm (40.2"), average weight is (synthetic stock/standard caliber) 2.8kg (6.1lbs).

Manufacturer

- Sauer's logo and "SAUER" are marked on the side of the receiver/frame.
- J. P. Sauer & Sohn's logo consists of three interlocking "S"'s arranged in a circle.

Action

- turn bolt design.

Serial Number

- serial number is marked on the receiver/frame.
- observed serial number was marked in the bolt handle cut-out of the receiver/frame.
- observed serial number was marked on the left side of the receiver/frame.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre

- calibre is marked on the side of the barrel.

Shots

- detachable box magazine.
- detachable box magazines are available in 3 or 5 shot capacities in small and medium calibres such as 222 REM, 223 REM, 22-250 REM, 243 WIN, 6.5X55 SWEDISH MAUSER, 6.5X57 MAUSER, 25-06 REM, 270 WIN, 7x64 BRENNEKE, 308 WIN, 30-06 SPRG, 8MM MAUSER, and 9.3X62.
- detachable box magazines are available in 2, 3 and 4 shot capacity in magnum calibres such as 6.5X68, 270 WBY MAG, 7MM REM MAG, 300 WIN MAG, 300 WBY MAG, and 8X68S.
- detachable box magazines are available in 2 and 4 shot capacity in big game calibres such as 375 H&H MAG, 416 REM MAG, and 458 LOTT.

Notes

Make

- the make (or logo thereof) is marked on firearm.

Model

- the full model designation may not be marked on the firearm; normally marked only "SAUER 202".
- this is a specific grade of the 202 bolt-action rifle, made with a deluxe walnut stock and available with a number of options.
- features include: deluxe fish-scale checkered walnut pistol-grip stock with schnabel forearm tip, rosewood pistol-grip cap, and "hog's-back"-style comb; sling swivels; cocking indicator and button safety at top of wrist; open leaf sights; the customer's choice of engraving styles and amounts; and available with detachable scope mounts.
- also available in other grades of wood and finish, engraving, etc.

Manufacturer

- the manufacturer (or logo thereof) is marked on the firearm.
- the Sauer & Sohn logo consists of 3 interlocking "S"'s arranged in a circle.

Action

- Turn bolt operated.

Serial Number

- numbered on the receiver/frame.

Shots

- detachable box magazine (except in 375 H&H and 416 Rem Mag calibres).

Notes

Make

- Sauer's logo and "SAUER" are marked on the side of the receiver/frame.

Model

- "202 CLASSIC" may not be marked on the firearm.
- "SAUER 202" is marked on the side of the receiver/frame.
- this is a specific grade of the 202 bolt-action rifles available with a number of options.
- features include: interchangeable round tapered cold hammer forged barrel with ramp front sight and adjustable open leaf rear sight; modular aluminum or steel receiver/frame drilled and tapped for scope mounts; six bolt lugs lock into the barrel; cocking indicator and safety button located at the top of wrist; safety button located inside the trigger guard; magazine release button located in front of the magazine well; removable trigger mechanism; checkered walnut forearm with Schnabel tip and checkered walnut detachable pistol grip buttstock with Monte Carlo style comb with sling swivels; blued/black finish.
- also available in a left hand action.
- also available as the 202 Classic XT with a black synthetic stock.
- overall length with a 510mm (20") barrel is 1025mm (40.2"), average weight is (synthetic stock/standard caliber) 2.8kg (6.1lbs).

Manufacturer

- Sauer,s logo and "SAUER" are marked on the side of the receiver/frame.
- J. P. Sauer & Sohn's logo consists of three interlocking "S"'s arranged in a circle.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.
- observed serial number consisted of a letter "N" prefix and five numbers.

Calibre

- the calibre designation is marked on the barrel assembly.

Shots

- detachable box magazine.
- detachable box magazines are available in 3 or 5 shot capacities in small and medium calibres such as 222 REM, 223 REM, 22-250 REM, 243 WIN, 6.5X55 SWEDISH MAUSER, 6.5X57 MAUSER, 25-06 REM, 270 WIN, 7x64 BRENNEKE, 308 WIN, 30-06 SPRG, 8MM MAUSER, and 9.3X62.
- detachable box magazines are available in 2, 3 and 4 shot capacity in magnum calibres such as 6.5X68, 270 WBY MAG, 7MM REM MAG, 300 WIN MAG, 300 WBY MAG, and 8X68S.
- detachable box magazines are available in 2 and 4 shot capacity in big game calibres such as 375 H&H MAG, 416 REM MAG, and 458 LOTT.

- features include: black synthetic stock; fluted barrel and bolt; silent safety; aluminum alloy receiver/frame with integral Weaver rail; matte black finish.

Manufacturer

- J.P. Sauer & Sohn is a manufacturer based in Germany since 1751; they are currently located in Eckernforde, Germany, but were located in Suhl prior to World War 2.
- they are known for their high quality hunting rifles, shotguns, and drillings, but have also manufactured handguns. In 1972, they formed an alliance with the Swiss firm of SIG to produce SIG-Sauer rifles and handguns.

Shots

- detachable box magazine.

Notes

Make

- the "SAUER" trade name and/or logo is marked on the receiver/frame.

Model

- the full model designation may not be marked on the firearm; normally marked only "SAUER 202".
- this is a specific grade of the 202 bolt-action rifle, made with a black synthetic stock.
- features include: black synthetic pistol-grip stock with schnabel forearm tip, stippled gripping areas, and Monte Carlo-style comb; sling swivels; cocking indicator and button safety at top of wrist; "Parkerized"-style finish on all metal surfaces; open leaf sights; fluted barrel; and available with detachable scope mounts.
- overall length for 560mm (22") barrel is 1075mm (42 3/8"), average weight is 2.9kg (6.3lbs).

Manufacturer

- the "SAUER" trade name and/or logo is marked on the receiver/frame.
- the Sauer & Sohn logo consists of three interlocking "S" in a circle.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- turn-bolt design.
Serial Number	- the serial number is marked on the side of the receiver/frame.
Shots	- detachable box magazine.

Notes

Make

- "SAUER" trade name and/or logo is marked on the receiver/frame.

Model

- introduced in 2009.
- "SAUER 202" is marked on the left side of the receiver/frame.
- features include: no iron sights; interchangeable round or fluted barrel; solid top steel receiver/frame with right side ejection and drilled and tapped for scope mounts; bolt lugs lock into the rear of the barrel; removable trigger group; cocked indicator and safety button are located on the top tang of the receiver/frame; safety button is also located inside the trigger guard in front of the trigger; magazine release button is located in front of the magazine well; synthetic schnabel tip forearm and Monte Carlo pistol grip buttstock with stippled gripping areas and 3D Realtree AP HD camouflage pattern; sling swivels; matte blue metal finish.
- overall length with a 510 mm barrel is 1025 mm and overall length with a 560 mm barrel is 1075 mm and average weight is from 3.37 kg to 3.58 kg.

Manufacturer

- "SAUER" trade name and/or logo is marked on the receiver/frame.
- "Sauer & Sohn" logo consists of three interlocking "S" in a circle.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of six numbers and a two letter "DE" suffix.

Calibre

- calibre is marked on the left side of the barrel.

Shots

- detachable box magazine.

33465 - 3	6MM NORMA BR	5	676	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Model

- introduced in 1994 as a target version of the Model 202.

Shots

- detachable box magazine.

Remarks

- target model of the Model 202 with two piece walnut stock with rosewood pistol grip cap and forend tip. Gold plated set trigger, jewelled bolt, drilled and tapped for scope mounts and front and diopter rear sight. Barrels (and therefore calibers) are field changeable and the rifle can be taken down to barrel, action and butt stock easily with supplied tools.
- this model can accept barrels and stocks from the newer Sauer 202 model.
- the bolt has six locking lugs and locks directly to the barrel.

Notes

Make

- "J. P. SAUER & SOHN" is usually marked on receiver/frame and barrel assembly.
- "Original Sauer" or "Original Sauer & Sohn" and company logos are usually marked on the underside of the receiver/frame.

Model

- classic "drilling" pattern, with two side by side shotgun barrels over a rifle barrel.
- features include: set trigger; walnut, pistol grip stock; side safety; cocking indicators; Blitz action; Greener cross bolt locking system and engraved, case hardened receiver/frame.
- available as a light weight model: "DUR", a corrosion resistant model: "ANT" and a deluxe model with buffalo horn trigger guard and extra engraving as: "LUX". - combinations of these models are available as the 3000-DUR-ANT, 3000-LUX-ANT and 3000-LUX-DUR.

Manufacturer

- the manufacturer's designation is marked on the receiver/frame.
- the manufacturer's name and address may be marked on the barrel assembly.

Action

- over & under barrel configuration, hinged barrel design.
- side by side shotgun barrels over a rifle barrel.

Calibre

- this firearm was manufactured with two side by side shotgun barrels in 12 GA X 2 3/4" or 16 GA X 2 3/4" over a single rifle barrel in 5.6X52R, 6.5X57R, 7X57R, 222 REM, 243, WIN, 8X57JRS, 7X65R, 30-30 WIN, or 30-06 SPRG.

Remarks

- This is a classic "drilling"-pattern three-barreled boxlock combination gun, with Greener cross-bolt lock-up, double triggers in a detachable unit, barrel selector plug on the left side of the tang, tang safety, folding rear sight, checkered pistol-grip hog's-back stock with cheek-piece, and scroll/floral-engraved receiver; also available in a "Lux" version, with game scenes engraved on the receiver, and a trigger-guard carved out of buffalo horn.

Notes

Make

- "SAUER & SOHN" or the Sauer & Sohn logo of three interlocked "S"'s in a ring are marked on the firearm.

Model

- "303" is marked on the firearm.
- this is a generic record for the "303" series of gas operated semi-automatic hunting rifles produced by Sauer, and other records exist that may more accurately identify a specific example.
- features include: round tapered barrel with optic front sight and adjustable iron rear sight; solid top receiver/frame with side ejection, bottom loading and integral scope mount; polished four lug bolt; single stage trigger; silent manual cocking and de-cocking system at the upper wrist; checkered walnut Monte Carlo pistol grip stock without cheek piece and with schnabel fore-end; blue matte anodized finish.

Manufacturer

- "SAUER & SOHN" or the Sauer & Sohn logo of three interlocked "S"'s in a ring are marked on the firearm.
- J.P. Sauer & Sohn is a manufacturer based in Germany since 1751; they are currently located in Eckernforde, Germany, but were located in Suhl prior to World War Two.
- they are known for their high quality hunting rifles, shotguns, and drillings, but have also manufactured handguns. In 1972, they formed an alliance with the Swiss firm of SIG to produce SIG-Sauer rifles and handguns.

Action

- gas operated.

Serial Number

- serial numbered on the receiver/frame.

Calibre

- calibre is usually marked on the barrel.

Shots

- detachable or hinged box magazine.

- "SAUER & SOHN" or the Sauer & Sohn logo of three interlocked "S"'s in a ring are marked on the firearm.

Model

- "Sauer 303" or "Sauer 303 Black Velvet" may be marked on the side of the receiver/frame or barrel.
- features include: round tapered barrel (muzzle brake optional), optic front sight and fixed rear sight; drilled and tapped for scope mounts; solid top receiver/frame with side ejection, bottom loading and integral scope mount; polished six lug bolt; single stage trigger; silent manual cocking and de-cocking system at the upper wrist; black synthetic Monte Carlo thumbhole pistol grip stock with rubber gripping inlays and with schnabel fore-end; blue matte anodized finish; and sling swivels.
- overall length with a 510 mm (20 1/8") barrel is 1065 mm (42") with an average weight of 3.25 kgs.

Manufacturer

- "SAUER & SOHN" or the Sauer & Sohn logo of three interlocked "S"'s in a ring are marked on the firearm.
- J.P. Sauer & Sohn is a manufacturer based in Germany since 1751; they are currently located in Eckernforde, Germany, but were located in Suhl prior to World War Two.
- they are known for their high quality hunting rifles, shotguns, and drillings, but have also manufactured handguns. In 1972, they formed an alliance with the Swiss firm of SIG to produce SIG-Sauer rifles and handguns.

Action

- gas-operated.

Serial Number

- serial-numbered on the receiver/frame.

Shots

- detachable or hinged box magazine.

Notes

Make

- SAUER is marked on the receiver/frame of the firearm.
- Made in Germany may be marked on the firearm.
- Logo of a circle with three interconnected "S" and a triangle in the centre; may be marked on the firearm.

Model

- Introduced in 2015.
- 404 is marked on the left side of the receiver/frame.
- Features include: round or fluted barrel with fixed front sight, fixed or no mid-barrel rear sight; specially pre-milled for scope, aluminum receiver/frame with right side ejection port; rear receiver/frame mounted safety slider/toggle; right-hand turn bolt; hinged, floor-plate magazine; various full length pistol grip stock, regular or thumbhole, with integrated schnabel style forend and black recoil pad; sling swivel.
- Optional feature: heated pistol grip.
- Overall firearm length with 559mm (22") barrel is 1067mm (42") and average weight is 2.8kg to 3.26kg (6.1 lbs to 7.2 lbs).

Manufacturer

- SAUER is marked on the receiver/frame of the firearm.
- Made by J.P. SAUER & SOHN over Isny, GERMANY may be marked on the barrel of the firearm.
- Logo of a circle with three interconnected "S" and a triangle in the centre; may be marked on the firearm.

Action

- Turn bolt operated.

Serial Number

- Serial number is marked on the firearm.

Calibre

- Calibre designation may be marked on the firearm.
- Rifling characteristics in calibre 243 WIN: 1 turn in 10 inches (254 mm).
- Rifling characteristics in calibre 6.5x55: 1 turn in 8.7 inches (220 mm).
- Rifling characteristics in calibre 6.5 Creedmoor: 1 turn in 8.7 inches (203 mm).
- Rifling characteristics in calibre 270 WIN: 1 turn in 10 inches (254 mm).
- Rifling characteristics in calibre 7x64: 1 turn in 8.7 inches (220 mm).
- Rifling characteristics in calibre 308 WIN: 1 turn in 11 inches (279 mm).
- Rifling characteristics in calibre 30-06 SPRG: 1 turn in 11 inches (279mm).
- Rifling characteristics in calibre 8x57IS: 1 turn in 9.4 inches (240 mm).
- Rifling characteristics in calibre 9.3x62: 1 turn in 14.2 inches (360 mm).
- Rifling characteristics in calibre 7mm REM MAG: 1 turn in 9.5 inches (241 mm).
- Rifling characteristics in calibre 300 WIN MAG: 1 turn in 11 inches (279 mm).
- Rifling characteristics in calibre 8x68S: 1 turn in 11inches (279 mm).
- Rifling characteristics in calibre 338 WIN MAG: 1 turn in 12 inches (305 mm).
- Rifling characteristics in calibre 375 H&H MAG: 1 turn in 12 inches (305 mm).
- Rifling characteristics in calibre 404 JEFFERY: 1 turn in 16.5 inches (420 mm).
- Rifling characteristics in calibre 10.3x60R: 1 turn in 17.1 inches (450 mm).

Shots

- Receiver hinged, floor-plated magazine.

Notes

Make

- the make is marked on the left side of the receiver/frame .

Model

- introduced in 1986. This FRT screen is a generic for the model 90's. Other Model 90 entries exist may better describe the firearm.
- the model designation is marked on the left side of the receiver/frame.
- features include: tang mounted safety; chamber loaded indicator; triple locking lugs; jeweled bolt; adjustable gold trigger; walnut stock; iron sights; deep blued finish.
- specifications for medium action: overall length with 600mm (23 1/2") barrel is 1130mm (44 1/2"), average weight is 3.7kg (8.1lbs)

Manufacturer

- the manufacturer is marked on the left side of the receiver/frame as "SAUER" along with the company logo.

Action

- different action lengths depending on calibre.

Shots

- detachable box magazine.

- "BÄR Pistol" was invented in 1898 by Burkhard Behr a Russian who lived in Zurich.
- manufactured by J.P. Sauer & Sohn of Suhl from 1900 to 1914.
- features include: fixed sights; mono-block barrel assembly with side flutes and two over & under borings; solid top receiver/frame with a removable manual rotated flat sided chamber block with two sets of two chambers; chamber block release catch is mounted on top of the receiver/frame; chamber block is rotated 180 degrees to fire the remaining two shots; enclosed rotating firing pin; fold down trigger; double action only trigger mechanism (when the trigger is pulled the first time the enclosed hammer was cocked and released to fire the upper barrel/chamber, and when the trigger is pulled the second time the hammer was cocked and the firing pin was rotated to align to fire the lower barrel/chamber); checkered wood grip plates.
- "BAR Pistol" was unload by rotating the chamber block 90 degrees and extracted the spent shells with the help of a pin carried in the butt of the pistol grip.
- overall length is 150 mm (5.91"), and average weight is 310 gm (10.9 oz).

Manufacturer

- J. P. Sauer & Sohn's logo of a man inside an oval was observed marked on the front of the receiver/frame under the barrels.

Action

- over & under barrel configuration with a rotating chamber block with two sets of two chambers.

Serial Number

- serial number is marked on the left side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre	- early versions used a special 7MM BÄR rimmed cartridge with a 54 grain bullet, later version would use 6.35MM (25 AUTO).
Shots	- manual rotated chamber block.
Other Markings	- "DEUTSCHLAND 98382" over "PATENT" over "BELGIEN 134215" was observed marked on one side of the chamber block. - "ENGLAND 11998" over "RUSSLAND" over "NORD-AMERICA" was observed marked on one side of the chamber block.

Notes

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- this firearm is a standard pattern over & under boxlock combination gun. - Features include: - Kersten style lock-up. - pistol grip stock with cheek piece and checkering. - double triggers, detachable trigger unit and a tang safety. - lightly engraved receiver; - also available with several factory options such as: - carved buffalo horn trigger guard. - or extra engraving in the form of a hunting scene, etc.
Manufacturer	- J.P. Sauer & Sohn is found marked on the firearm.
Action	- over & under barrel configuration; hinged barrel design. - side by side shotgun barrels over a rifle barrel.
Serial Number	- sample reported with two letter prefix followed by four digits.
Calibre	- primary references indicate that all versions of this firearm were manufactured with a 16 GA X 2 3/4" smooth-bore shot gun barrel over a rifled barrel in rifle calibres, such as: 22 SAV HP (5.6X52R), 6.5X57R, 7X57R, 8X57JRS, 30-30 WIN, or 30-06 SPRG.
Remarks	- this firearm is a front-hinged, tip-down, top-break over / under design with a top mounted locking lever. - the barrel configuration is a shotgun barrel over a rifle barrel. - it may be found in any popular European rifle calibre (usually a rimmed cartridge) or any popular North American rifle calibre in firearms designed for export to North America.

Notes

Make

- "J.P. Sauer & Sohn, Suhl", "Sauer & Sohn, Suhl" or a variation thereof will be marked on the barrels and/or receiver/frame.

Model

- this is a generic entry for Sauer made Drillings that have no model designation marked on them.
- this is a typical top break, "drilling-style", three-barreled combination gun, usually combining side by side shotgun barrels over a single rifle barrel.
- features may include; box lock action with false side plates; top lever opening; Greener-type cross-bolt locking system; Greener-style side mounted safety on left side of receiver/frame; barrel selector switch on left side plate or on top of the tang; double triggers with set front trigger; cocking indicators for each barrel located on the top of the receiver/frame and a separate rifle barrel extractor.

Manufacturer

- "J.P. Sauer & Sohn, Suhl", "Sauer & Sohn, Suhl" or a variation thereof will be marked on the barrels and/or receiver/frame.

Action

- hinged barrel design.
- barrel assembly consists of three barrels: one rifled barrel and two smoothbore barrels or two rifled barrels and one smoothbore barrel.

Serial Number

- serial number is marked on the receiver/frame flats.
- observed serial numbers had five to seven numbers without a letter prefix or suffix.

Make	- "J.P. Sauer & Sohn" is usually marked on the barrel.
Model	- "MONTANA MARSHAL" is marked on the right side of the barrel. - "Montana Marshal" resembles a "Colt model 1873 Single Action Army" revolver. - "Montana Marshal" was offered with interchangeable cylinders. - features include: fixed blade front sight and a groove in the top strap for a rear sight or an adjustable rear sight; round, rifled barrel with ejector rod assembly; solid top receiver/frame with a removable fluted cylinder and swing-down right side loading gate; exposed spur hammer; rounded brass trigger guard; single action trigger mechanism; flat bottom brass grip strap; wood or plastic stag horn grip panels; blued and brass finish.
Manufacturer	- "J.P. Sauer & Sohn" and "Made in Western Germany" is usually marked on the barrel.
Serial Number	- serial number is marked on the underside of the receiver/frame.
Calibre	- calibre is marked on the barrel.
Shots	- interchangable cylinders were available for this firearm.
Other Markings	- West German proof marks will be found on this firearm.
Remarks	- HAWES FIREARMS COMPANY appears to have re-organized around 1978 to become HAWES NATIONAL CORPORATION, which itself seems to have gone defunct in 1981.

Notes

Make

- J.P. SAUER & SOHN, SUHL is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- the model designation is marked on the top of the barrel, along with the calibre. - this is one of several styles of single-shot rifle manufactured by Sauer from the 1890s through to World War Two, in several chamberings. - features include: blued finish; open sights; round or half-round/half-octagonal barrel; walnut forearm and semi-pistol-grip stock with cheekpiece; light receiver engraving; many of these guns have a take-down pin on the left side of the receiver; underlever or side-lever action release (early guns were side-lever, with the later underlever guns being more common); double set triggers; either a tang sliding safety (after 1936) or a rotating "wingnut"-style safety (up to 1936); tang cocking indicator pins on some production; and sling swivels. - a 13mm shotgun version of this rifle was also manufactured.
Manufacturer	- J.P. SAUER & SOHN, SUHL is marked on the firearm.
Action	- break-open single-shot.
Serial Number	- numbered on the receiver/frame.

Notes

Make

- "ORIGINAL" over the Sauer logo, over "SAUER & SOHN" is marked on the right side of the receiver/frame.
- "SAUER TROPHY" is marked on the right side of the barrel.
- "J. P. SAUER & SOHN" is marked on the left side of the barrel.

Model

- "SAUER TROPHY" is usually marked on the right side of the barrel.
- this model resembles a "Smith & Wesson K38" style revolver.
- features include: fixed front sight and an adjustable rear sight; round barrel with a ventilated top rib; solid top receiver/frame with a left side swing-out fluted cylinder; cylinder release is located on the left side of the receiver/frame; exposed spur hammer; double/single action trigger mechanism; standard or match grips.

Manufacturer

- "ORIGINAL" over the Sauer logo, over "SAUER & SOHN" is marked on the right side of the receiver/frame.
- "SAUER TROPHY" is marked on the right side of the barrel.
- "J. P. SAUER & SOHN" is marked on the left side of the barrel.

Serial Number

- serial number is marked inside the crane cut-out on the left side of the receiver/frame.
- serial number observed consisted of a letter "N" prefix and five numbers.

Calibre

- calibre is marked on the right side of the barrel.

Shots

- swing-out cylinder.

Notes

Make

- "J.P. SAUER & SOHN, SUHL" is usually marked in an arc on the sides of the receiver/frame.

Model

- the model may or may not be marked on the firearm.
- this is a side by side boxlock shotgun manufactured by Sauer from the pre-WW1 period through the 1960s, in both their Suhl and Eckenforde, West Germany locations; these shotguns were made in a variety of grades, with additional deep-relief engraving on order.
- features may include: blued barrels; bead sight; checkered walnut forearm and straight- or pistol-grip stock; blued, colour-case-hardened; or coin-finished receiver/frame with light engraving; doll's-head or Greener cross-bolt with double underlug lock-up; extractors or ejectors; double triggers; and a tang safety and top-lever.

Manufacturer

- "J.P. SAUER & SOHN, SUHL" is usually marked in an arc on the sides of the receiver/frame.

Action

- side by side configuration.

Serial Number

- serial-numbered on the receiver/frame.

Notes

Make

- "J.P. SAUER & SOHN" and "MADE IN WESTERN GERMANY" may be marked on the side of the barrel.
- the importer's name "HAWES" or "HAWES FIREARMS COMPANY" may be found prominently marked on the firearm.

Model

- "MONTANA MARSHAL" is marked on the right side of the barrel.
- "Montana Marshal" resembles a "Colt model 1873 Single Action Army" revolver.
- "Montana Marshal" was offered with interchangeable cylinders.
- features include: fixed blade front sight and a groove in the top strap for a rear sight or an adjustable rear sight; round, rifled barrel with ejector rod assembly; solid top receiver/frame with a removable fluted cylinder and swing-down right side loading gate; exposed spur hammer; rounded brass trigger guard; single action trigger mechanism; flat bottom brass grip strap; wood or plastic stag horn grip panels; blued and brass finish.

Manufacturer

- "J.P. SAUER & SOHN" and "MADE IN WESTERN GERMANY" may be marked on the left side of the barrel.

Serial Number

- serial number is marked on the underside of the receiver/frame forward of the trigger guard.

Calibre

- calibre may be marked on the right side of the barrel.

Shots

- interchangeable cylinders were available for this model.

Other Markings

- West German proof marks will be found on this firearm.

Remarks

- HAWES FIREARMS COMPANY appears to have re-organized around 1978 to become HAWES NATIONAL CORPORATION, which itself seems to have gone defunct in 1981.

Notes

Make

- "SAUER WESTERN SIX - SHOOTER" is marked on the right side of the barrel.

Model

- "SAUER WESTERN SIX-SHOOTER" is marked on the right side of the barrel.
- Western Six Shooter resembles a Colt model 1873 Single Action Army revolver.
- features include: fixed or adjustable sights; round barrel with right side mounted ejector rod; solid top receiver/frame with a removable fluted cylinder, right side swing down loading gate, and a floating firing pin; exposed spur hammer; single action trigger mechanism; synthetic or wood grip; blued finish.
- available with a convertible cylinder.

Manufacturer

- "MADE IN WESTERN GERMANY" over "BY J.P. SAUER & SOHN" is marked on the left side of the barrel followed by a Sauer (a triangle with swirls at the corners inside a circle) trademark.

Serial Number

- serial number is usually marked on the underside of the receiver/frame, and repeated on the barrel.

Calibre

- calibre is marked on the barrel and/or cylinder.

Shots

- removable cylinder.

Firearm Reference Number (FRN): 109535
Make: Sauer-AYA
Model: 65

Summary

Make:	Sauer-AYA
Model:	65
Manufacturer:	Aguirre y Aranzabal (AYA)
Level:	Manufacturer Specifications and Commercial Customization
Type:	Shotgun
Action:	Multi-Barrel
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
109535 - 1	12 GA X 2 3/4"	2	711	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SAUER-AYA" is usually marked on both sides of receiver/frame.
- "MADE IN SPAIN" and "SAUER-AYA" are usually marked on the barrel assembly.

Model

- model designation marked on the left barrel.
- feature include: boxlock, top lever opening, side by side barrel configuration with Greener-type cross-bolt and ejectors, single selective trigger, top tang mounted sliding-type safety and ventilated rib.

Manufacturer

- "SAUER-AYA" is usually marked on both sides of receiver/frame.
- "MADE IN SPAIN" and "SAUER-AYA" are usually marked on the barrel assembly.
- known example was marked with the "AYA" trademark on the action flats; this trademark is comprised of the stylized letters "AYA" within a circle.

Action

- side by side barrel configuration, hinged barrel design.

Serial Number

- serial number on a known example had a six digit number without prefix or suffix marked on the action flats.
- in 1995, the Spanish government instituted a new system for firearm's serial numbering. This system incorporated the code number of the gunmaker/manufacturer, weapon code, serial number sequence, and year of manufacture.
- an example of a serial number is as follows: "16 - 03 - #0# - 95".
- serial number break down, the first two numbers (16) are the code numbers for the manufacture, the next two numbers (03) are the code numbers for shotgun, the next numbers are the serial number sequence and the last two numbers (95) are the year of manufacture.

Calibre

- known example had calibre designation marked on the barrels and the action flats, eg., 12/70 (2-3/4") on the barrels and 12-70 on the action flats.

145744 - 3	22 LR	14	600	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- "SAURIO" is marked on top of the barrel.

Model

- The model designation is not marked on the firearm.
- The "Saurio 600" is a copy of the "Savage Model 6" rifle.
- Features include: disassembly thumb screw on the underside of the stock; accessory rail above the tubular receiver/frame; ventilation gills and two bolt locking holes on the left side of the receiver/frame; right side reciprocating charging handle; thumb safety catch on the right rear of the receiver/frame.

Action

- Blowback operated.
- The "Saurio 600" can operate as a locked breech, straight-pull bolt action rifle by locking the charging handle into the front bolt locking hole, similar to the Savage "Click-Clack" action.

Serial Number

- The serial number is marked on the left side of the firearm.

Calibre

- The calibre designation is marked on the barrel.
- Compatible with .22 Short, Long, and Long Rifle ammunition.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - Fixed tubular magazine.

FRT Report

Firearm Reference Number (FRN): 33135
Make: Savage
Model: 1000G

Summary

Make:	Savage
Model:	1000G
Manufacturer:	Industrias El Gamo
Level:	Manufacturer Specifications and Commercial Customization
Type:	Rifle
Action:	Air,Spring or Gas
Country of Manufacturer:	SPAIN
Serial Numbering:	See Note
Legal Classification:	Non-Restricted

Calibre, Shots and Barrel Length

FRN	Calibre	Shots	Barrel (mm)	Legal Classification Legal Authority	Level	Barrel Type Code
33135 - 1	177 PELLET	1	457	Non-Restricted CC 2 "firearm"	Manufacturer Specifications and Commercial Customization	

Notes

Make

- Savage actually imported these rifles from Gamo in Spain; "Savage" may or may not be marked on them.

Model

- introduced in 1998.
- features include: walnut stained hardwood stock with checkered pistol grip; ventilated rubber recoil pad; manual safety located directly ahead of a two stage trigger; hooded front sight on ramp; adjustable rear sight with elevator and four choices of notch shape; and blued steel receiver grooved for scope mounts.
- this rifle was also sold as a "package" (including a 4-power telescopic sight) as the "1000GXP".
- when sold by Gamo, this rifle is known as the "Hunter 880 S".

Manufacturer

- manufacturer not marked on the firearm; marked "Made In Spain".

Action

- discharges a projectile at a muzzle velocity exceeding 152.4mps and a muzzle energy exceeding 5.7 Joules.

Serial Number

- serial number is marked on the left side of the barrel.
- observed serial number consisted of number "04", a dash (-), "1C", a dash (-), six numbers, a dash (-), and "98".
- Spanish government instituted a new system for firearm's serial numbering in 1995. This system incorporated the gunmaker/manufacturer code, weapon code, serial number sequence, and year of manufacturer.
- serial number break down: the first two numbers (04) are the code for Gamo, the next number and letter (1C) are the code for an air carbine/rifle, the next six numbers are the serial number sequence, and the last two numbers (98) are the year of manufacture.

22527 - 2	22 LR	1	140	Restricted CC 84(1) "restricted firearm" para. (a)	Manufacturer Specifications and Commercial Customization	

Notes

Make
- "SAVAGE ARMS CORPORATION" is marked on the side of the barrel.
- the Savage trademark "Indian Head" logo is usually inlaid into the grips.

Model
- "MODEL 101" is marked on the left side of the barrel.
- manufactured from 1960 to 1968.
- this model resembles a revolver and has what looks like a cylinder but is only capable of having a single cartridge loaded at a time.
- the cylinder and barrel are a single unit that tilts to the right for loading and unloading.

Manufacturer
- "SAVAGE ARMS CORPORATION" over "WESTFIELD, MASS. U.S.A." is marked on the side of the barrel.

Action
- although this pistol has the appearance of a revolver, the cylinder is rifled and is part of the barrel and as such is a single shot.

Serial Number
- the serial number is stamped into the bottom of the grip strap.
- observed serial number had five sequential numbers.

Barrel
- the false cylinder is to be included in the barrel measurement.

Notes

Make

- "SAVAGE" and "SAVAGE ARMS INC., WESTFIELD MASS. U.S.A." are usually marked on the barrel.
- "Savage" and the Savage Indian Head logo is usually laser engraved on the bolt.

Model

- introduced in 1998.
- "MODEL 10" is marked on the barrel.
- "10FP" is not marked on the firearm.
- "F" in the model designation denotes a matte black synthetic stock; and "P" denote a "Police" tactical rifle.
- "10FP" is built on a short action receiver/frame type.
- features include: heavy profile target barrel; receiver/frame drilled and tapped for scope mounts; oversize bolt handle; plain or adjustable Savage AccuTrigger; matte black finish.
- Savage AccuTrigger system was introduced in 2003.
- 10FP-SR is a model 10FP with a barrel with a threaded muzzle.
- 10FP-SR was introduced in 2011.
- 10FP-LE1 is equipped with a 508mm barrel and a checkered black synthetic stock with a third sling swivel that is pillar bedded to the action.
- 10FP-LE1A is equipped with a 508mm barrel and a black synthetic Choate adjustable stock with an accessory rail and swivel studs.
- 10FP-LE2 is equipped with a 660mm barrel and a checkered black synthetic stock with a third sling swivel that is pillar bedded to the action.
- 10FP-LE2A is equipped with a 660mm barrel and a black synthetic Choate adjustable stock with an accessory rail and swivel studs.
- 10FP-LE2B is equipped with a 660mm barrel and a black fiberglass McMillan tactical stock with stippled grip areas.
- 10FPXP-LE is offered as a complete package, factory equipped with a Leupold® 3.5-10x40mm matte black scope with a mil-dot reticule and flip open lens covers, a 660mm barrel and a checkered black synthetic stock with a third sling swivel that is pillar bedded to the action.
- 10FPXP-LEA is offered as a complete package, factory equipped with a Leupold® 3.5-10x40mm matte black scope with a mil-dot reticule and flip open lens covers, a 660mm barrel and a black synthetic Choate adjustable stock with an accessory rail and swivel studs.
- 10FP Duty is equipped with a 610mm barrel, iron sights and a checkered black synthetic stock.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- observed serial number consisted of a letter "G" prefix and six numbers.
- observed serial number consisted of a letter "H" prefix and six numbers.

Calibre

- calibre is marked on the barrel.
- 223 REM rifling characteristics: 1 turn in 9 inches, right hand twist.
- 243 REM rifling characteristics: 1 turn in 9.25 inches, right hand twist.
- 260 REM rifling characteristics: 1 turn in 8 inches, right hand twist.
- 308 WIN rifling characteristics: 1 turn in 10 inches, right hand twist.
- 7MM-08 REM rifling characteristics: 1 turn in 9.5 inches, right hand twist.

Shots

- integral box magazine.

Notes

Make

- "SAVAGE" is marked on the firearm.

Model

- introduced in 1994.
- "SAVAGE MODEL 10" is marked on the left side of the receiver/frame or barrel.
- "10" in the model designation denotes that this model utilizes the "Short" length action.
- "G" in the model designation denotes a walnut finished hardwood stock.
- "10" action when it is mated to a synthetic stock becomes one of the model "10F" variants.
- features include: round lightweight blued barrel with sights; receiver/frame is drilled and tapped for a scope mount; sliding thumb safety is located on the rear right of the receiver/frame; top loading magazine; one piece hardwood pistol-grip Monte Carlo stock with dual pillar bedding, ventilated recoil pad, and swivel studs.
- overall length with a 559 mm (22") barrel is 1041 mm (41"), and average weight is 3.1 kgs (6.9 lbs).
- Savage introduced an adjustable trigger unit known as the "AccuTrigger" in 2004.
- "10G" is available as a complete package that includes the rifle and a telescopic sight as the "10GXP3".
- "10G" is available in a "compact" or "youth" version with a shortened stock as the "10GY".
- "10G" is available in a left-hand action as the "10GL" (without a scope) or "10GLXP3" (complete package that includes a scope).

Manufacturer

- "SAVAGE" is marked on the firearm.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the receiver/frame.

Calibre

- the calibre is marked on the barrel.

Shots

- internal, fixed magazine.

Notes

Make

- "SAVAGE" was observed marked on the right side of the barrel.

Model

- "- SAVAGE MODEL 110E SERIES H -" and "PATENT 3,005,279 - 3,103,757 - 3,106,033 - 3,138,888" were observed marked on the right side of the barrel.
- series letter suffix "H" denotes modifications within the model line.
- "110E" model line was introduced in 1963 and discontinued in 1988.
- features include: tapered round free floating chrome-moly barrel with removeable ramp front sight and removeable adjustable rear sight; turn bolt action; receiver/frame is drilled and tapped for scope mounts; top tang mounted slide safety; cocking indicator on the right side of the receiver/frame; internal box magazine; plain or checkered one piece walnut finish "Monte Carlo" stock with pistol grip, recoil pad, and sling swivel posts.

Manufacturer

- "SAVAGE" was observed marked on the right side of the barrel.

Action

- turn bolt operated.

Serial Number

- serial number is located on the left side of the receiver/frame.
- observed serial number consisted of a letter "A" prefix and six numbers.
- NOTE: the following numbers marked on the barrel are not serial numbers, they are PATENT NUMBERS "3,005,279", "3,103,757", "3,106,033" and "3,138,888".

Calibre

- the calibre designation is usually marked on the side of the barrel.

Shots

- internal box magazine.

- "MODEL 110" is usually marked on the barrel.
- "MODEL 110FLCP" is built on a long action receiver/frame.
- "MODEL 110FLCP" is also available as "MODEL 110FCP" in a right hand version.
- "MODEL 110FLCP", the "F" denotes a matte black polymer stock with checkered pistol grip and forend, "L" denotes a left hand action, "C" denotes a detachable clip/box magazine, "P" denotes "Police" tactical rifle.
- "MODEL 110FLCP-K" version features a muzzle break attachment.
- features include: free floating heavy target barrel; may have a muzzle break; receiver/frame is drilled and tapped for scope mounts; no sights; oversized bolt handle; AccuTrigger system; detachable box magazine; swivel studs; matte black finish.
- overall length with a 610mm (24") barrel is 1226mm (48.25") and the average weight is 4.08kgs (9lbs).

Manufacturer

- "SAVAGE ARMS INC., WESTFIELD MASS. 01085 U.S.A." or a variation thereof is usually marked on the barrel.
- "Savage" and the Savage Indian Head logo is usually laser engraved on the bolt.

Action

- turn bolt operated.

Serial Number

- serial number is marked on the left side of the receiver/frame.
- serial number of a referenced example consisted of a letter prefix and six numbers.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Calibre - calibre identification is marked on the barrel.

Notes

Make

- make is marked on the firearm.

Model

- the "110" in the model designation denotes a "long" length receiver/frame (the "short" length receiver/frame is known as the model "10"), the "G" denotes a wood stock. This model is available with a factory mounted scope, Savage refers to this variation as the model 110GXP3.
- also available in a left-hand version as the model 110GL (the bolt handle and ejection port are on the left side).
- features include: wood stock with a diamond checkered pistol grip and forend; fitted with recoil pad and swivel studs; action cocks on opening; the bolt has two locking lugs with gas vent holes that match twin gas ports in the receiver/frame; top loading magazine; tang safety; blade front sight on a ramp and a folding rear sight on a removable sliding ramp; as of 2004, this model is offered with the Savage "AccuTrigger" adjustable trigger unit.
- receiver/frame is drilled and tapped for a scope mount.

Manufacturer

- manufacturer is marked on the firearm.

Action

- manual turn-bolt mechanism.

Serial Number

- found on left side of receiver/frame, incorporates a one alpha character prefix followed by six digits.

Calibre

- calibre designation is marked on the barrel.

Shots

- internal box magazine.

Notes

Make

- make is marked on the firearm.

Model

- introduced in 1994.
- this is a left hand version of model 110G. This model is available with a factory mounted scope, Savage refers to this variation as the model 110GLXP3.
- features include: walnut finished, hardwood Monte Carlo stock with checkering and recoil pad; action cocks on opening; bolt has double front locking lugs with gas vent holes that match twin gas ports in the receiver/frame; sliding thumb safety located directly behind the bolt; internal box magazine; gold bead front sight on removable ramp and sliding block rear sight; receiver/frame is drilled and tapped for a scope mount; sling swivels studs; as of 2004 this model is offered with the Savage "AccuTrigger" adjustable trigger unit.
- the "110" in the model designation denotes a "long" length receiver/frame (the "short" length receiver/frame is known as the model "10"), the "G" denotes a wood stock, the "L" denotes a left-hand action (the bolt handle and ejection port are on the left side).

Manufacturer

- manufacturer is marked on the firearm.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Action	- manual turn-bolt mechanism.
Serial Number	- found on the left side of the receiver/frame, incorporates a one alpha character followed by six digits.
Calibre	- calibre designation is marked on the barrel.
Shots	- internal box magazine.

Notes

Make

- "SAVAGE" was observed marked on the barrel.

Model

- "MODEL 110S SERIES J" and "PATENT 3,005,279 - 3,106,033" were observed marked on the side of the barrel.
- series letter suffix denotes modifications within the model line.
- 110S model series was manufactured from 1978 to 1985.
- features include: tapered round free floating chrome-moly barrel with removeble ramp front sight and removable adjustable rear sight; turn bolt action; receiver/frame is drilled and tapped for scope mounts; top tang mounted slide safety; cocking indicator on the right side of the receiver/frame; internal box magazine; plain or checkered one piece walnut finish "Monte Carlo" stock with a stippled pistol grip; recoil pad; sling swivel posts.
- action is cocked on opening and has double front locking lugs with gas vent holes that match twin gas port in the receiver/frame.

Manufacturer

- "SAVAGE" and "WESTFIELD, MASS. U.S.A." were observed marked on the barrel.

Action

- turn-bolt design.

Serial Number

- serial number was observed marked on the left side of the receiver/frame.
- observed serial number consisted of a letter "D" prefix and six numbers.
- NOTE: "PATENT 3,005,279 - 3,106,033" was observed marked on the barrel. These numbers are not serial numbers, but are Patent Numbers.

Calibre

- calibre designation was observed marked on the side of the barrel.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Shots - internal box magazine.

Notes

Make

- "SAVAGE" may be marked on the side of the barrel and/or bolt.
- "SAVAGE ARMS INC., WESTFIELD MASS." may be marked on the side of the barrel.

Model

- introduced in 1974.
- "SAVAGE MODEL 111" is usually marked on the side of the barrel or receiver/frame.
- this screen is a generic entry for the Savage model 111. Other model 111 entries exist which might better describe the sub-model variants, example
1: MODEL 111FNS (denotes model 111F, NS = No Sights),
2: MODEL 111GLC (denotes model 111G, L = left-hand action, C = detachable Clip magazine)
- "111" early models may be followed by a letter suffix indicating Series modification within the model, example: MODEL 111 SERIES E, or 111E.
- general features:
- stock: graphite/fiberglass or walnut finished hardwood with/without Monte Carlo cheek-piece, checkered pistol grip and forend, rubber recoil pad, sling swivel studs.
- receiver and barrel: receiver drilled and tapped for scope, sliding thumb safety located at the rear of the receiver beside the tang; barrel with/without hooded blade front sight and removable elevation adjustable folding rear sight.
- rifles of this series may have a left-hand action (indicated by a "L" in the model code), or a right-handed, manually operated, turn-bolt action.

Action

- turn-bolt design.

Serial Number

- serial number is marked on the side of the receiver/frame.
- serial numbers observed consisted of a letter "J" prefix and six numbers.

Calibre

- calibre is usually marked on the side of the barrel.

Shots

- rifles of this series may have detachable box magazine (indicated by a "C" in the model code), or an integral non-detachable box magazine.

Notes

Make

- marked on the barrel, toward breech end: SAVAGE ARMS INC., WESTFIELD MASS.

Model

- introduced in 1994.
- the "111" in the model designation denotes a "long" length receiver/frame (the "short" length receiver/frame is known as the model "11"), the "F" denotes a composite stock.
- features include: graphite/fiberglass filled stock has a tough non-glare finish; diamond checkered pistol grip and forend; fitted with a recoil pad and swivel studs; right-hand action (the bolt handle and ejection port are on the right side); the bolt has two locking lugs with gas vent holes that match twin gas ports in the receiver/frame; top loading magazine; tang safety; blade front sight on a ramp and a folding rear sight on a removable sliding ramp; as of 2004, this model is offered with the Savage "AccuTrigger" adjustable trigger unit.
- receiver/frame drilled and tapped scope mount.
- the left-hand version of this model (the bolt handle and ejection port are on the left side) is known as the model 111FL.

Manufacturer

- marked on the barrel, toward breech end: SAVAGE ARMS INC., WESTFIELD MASS.

Action

- manual turn-bolt mechnism.

Serial Number

- found on the right side of the receiver/frame.

Calibre

- marked on barrel.
- when this model was introduced it was offered chambered for "short" and "long" length cartridges. When the model "11" was introduced in 1998 as the "short" length action all "short" length calibre options were discontinued in this model.

Shots

- internal box magazine.

Notes

Make - the Savage name will be marked on the barrel and laser engraved on the bolt.

Firearms Reference Table, National Specialized Services, Royal Canadian Mounted Police. All rights reserved, RCMP, 1998-2026.

Model	- the "111FCNS" designation denotes a long action "111" (the short action within this line is known as the model 11), synthetic stock "F", detachable box magazine "C" and no iron sights "NS". - features include: graphite/fiberglass filled stock, has a tough non-glare finish; diamond checkered pistol grip and forend; fitted with recoil pad and swivel studs; action cocks on opening; the bolt has two locking lugs with gas vent holes that match twin gas ports in the receiver/frame, as well as three safety gas baffles; AccuTrigger; tang mounted safety. - receiver/frame is drilled and tapped for scope mount. - also available with a wood stock as the model 111GCNS.
Manufacturer	- the Savage name will be marked on the barrel and laser engraved on the bolt.
Action	- turn-bolt design.
Serial Number	- serial number is marked on the right side of the receiver/frame. - serial number rationalization is unknown. - observed serial number consisted of a letter "G" prefix and six numbers.
Calibre	- calibre designation is marked on the barrel.
Shots	- detachable box magazine.
